19 any of such domain poses a substantial threat
20 to homeland security.

21 “(2) REQUIREMENTS.—

22 “(A) RISK ANALYSIS OF CRITICAL DO-
23 MAINS.—The research under paragraph (1)
24 shall include a risk analysis of each identified
25 United States critical domain for economic se-
26 curity to determine the degree to which there

1 exists a present or future threat to homeland
2 security in the event of disruption, corruption,
3 exploitation, or dysfunction to such domain.
4 Such research shall consider, to the extent possible,
5 the following:

6 “(i) The vulnerability and resilience of

17
18
19

15 supply chain of a product or service nec-
16 essary to such domain is concentrated, ei-
17 ther through a small number of sources, or
18 if multiple sources are concentrated in one
19 geographic area;

20 “(iv) examine the extent to which the
21 demand for supplies of goods and services
22 of such industries can be fulfilled by
23 present and projected performance of other
24 industries, identify strategies, plans, and
25 potential barriers to expand the supplier

1 industrial base, and identify the barriers to
2 the participation of such other industries;

3 “(v) consider each such domain’s per-

14 ment, on such industries’ performances.

15 “(3) CONSULTATION.—In conducting the re-
