8   **SEC. 1601. IMPROVEMENTS TO TACTICALLY RESPONSIVE**  
9           **SPACE LAUNCH PROGRAM.**

10          (a) SENSE OF CONGRESS.—It is the sense of Con-  
11          gress that—

12               (1) the Space Force, in collaboration with the  
13               United States Space Command, the military depart-  
14               ments, relevant Defense Agencies and, where prac-  
15               ticable, the National Reconnaissance Office, should  
16               continue to build on the successful Space Safari  
17               tactically responsive launch-2 mission of the Space  
18               Force, which was a pathfinder to inform concepts of  
19               operation regarding tactically responsive launches;  
20               and

21               (2) future efforts regarding tactically responsive  
22               launches should not be limited to only launch capa-  
23               bilities, but should also include all aspects that are  
24               needed for rapid reconstitution and responsiveness  
25               to urgent requirements with respect to satellite

1 buses, payloads, operations, and ground infrastruc-  
2 ture.

3 (b) PROGRAM.—Section 1609 of the William M.

11 “(1) ELEMENTS.—The Secretary of Defense, in  
12 consultation with the Director of National Intel-  
13 ligence, shall support the tactically responsive launch  
14 program under subsection (a) during the period cov-  
15 ered by the future-years defense program submitted  
16 to Congress under section 221 of title 10, United  
17 States Code, in 2022 to ensure that the program ad-  
18 dresses the following:

19 “(A) The ability to rapidly place on-orbit  
20 systems to respond to urgent needs of the com-  
21 manders of the combatant commands or to re-  
22 constitute space assets and capabilities to sup-  
23 port national security priorities if such assets  
24 and capabilities are degraded, attacked, or oth-  
25 erwise impaired, including such assets and ca-

1 pabilities relating to protected communications  
2 and intelligence, surveillance, and reconnais-  
3 sance.

4 “(B) The entire launch process, including  
5 with respect to launch services, satellite bus and  
6 payload availability, and operations and  
7 sustainment on-orbit.

8 “(2) PLAN.—As a part of the defense budget  
9 materials (as defined in section 239 of title 10,  
10 United States Code) for fiscal year 2023, the Sec-  
11 retary of Defense, in consultation with the Director

22 timelines within the adaptive acquisition frame-  
23 work for space acquisition pursuant to section

2           and leverage commercial capabilities to support  
3           future reconstitution and urgent space require-  
4           ments leveraging the tactically responsive  
5           launch program under subsection (a).”.

6 **SEC. 1602. NATIONAL SECURITY SPACE LAUNCH PROGRAM.**

7           (a) SENSE OF CONGRESS.—It is the sense of Con-  
8 gress that—

9           (1) the Department of Defense and the Na-  
10          tional Reconnaissance Office should, to the extent  
11          practicable, use launch services under a phase two  
12          contract of the National Security Space Launch pro-  
13          gram; and

14          (2) for missions that fall outside of the require-  
15          ments of phase two of the National Security Space  
16          Launch program, the Department of Defense and  
17          the National Reconnaissance Office should continue  
18          to leverage the growing launch provider base of the  
19          United States, including those companies that pro-  
20          vide smaller and ride-share launch capabilities, to  
21          incentivize sustained investment in domestic launch  
22          capabilities.

23          (b) POLICY.—With respect to entering into contracts  
24 for launch services during the period beginning on the date  
25 of the enactment of this Act and ending September 30,

1 2024, it shall be the policy of the Department of Defense  
2 and the National Reconnaissance Office to—

3           (1) use the National Security Space Launch  
4 program to the extent practicable to procure launch  
5 services that are met under the requirements of  
6 phase two; and

7           (2) maximize continuous competition for launch  
8 services as the Space Force initiates planning for  
9 phase three, specifically for those technology areas  
10 that are unique to existing and emerging national  
11 security requirements.

12       (c) NOTIFICATION.—If the Secretary of Defense or  
13 the Director of the National Reconnaissance Office deter-  
14 mines that a program requiring launch services that could  
15 be met using phase two contracts will instead use an alter-  
16 native launch procurement approach, not later than seven  
17 days after the date of such determination, the Secretary  
18 of Defense or, as appropriate, the Director of National  
19 Intelligence, shall submit to the appropriate congressional  
20 committees—

21           (1) a notification of such determination;

22           (2) a certification that the alternative launch  
23 procurement approach is in the national security in-  
24 terest of the United States; and

1           (3) an outline of the cost analysis and any  
2 other rationale for such determination.

3           (d) REPORT.—

23 phase two to accelerate the rapid development  
24 and on-orbit deployment of enabling and trans-  
25 formational technologies required to address

1 emerging requirements, including with respect  
2 to—

3 (i) delivery of in-space transportation,  
4 logistics and on-orbit servicing capabilities

3                   erence missions that exist as of the date of  
4                   the enactment of this Act;

5                   (B) A description of how competing space  
6                   access, mobility, and logistics launches could  
7                   aid in establishing a new acquisition framework

11                  phase three; and

12                  (ii) re-examine the balance of mission  
13                  assurance versus risk tolerance to reflect

17 ment and commercial launch, and an explanation for  
18 why such modified authorities are needed, as well as

20 thorities could have on competition in the commer-  
21 cial launch industry.

22 (3) Any additional proposals that would support  
23 improved infrastructure at the launch ranges of the  
24 Space Force and allow for commercial investment  
25 for mutually beneficial projects, including rec-

1       ommendations for legislative action to carry out such  
2       proposals and an identification of any impacts the  
3       proposed authorities could have on competition in

14 new paragraph:

15 “(5) PROGRAMS OF RECORD AND COMMERCIAL  
16 CAPABILITIES.—The Service Acquisition Executive  
17 for Space Systems and Programs may not establish  
18 a program of record for the Space Force unless the  
19 Service Acquisition Executive first—

17          as of the date of the briefing, regarding safety threats  
18          posed to United States civilian and commercial space sys-  
19          tems in space by adversarial foreign governments and  
20          other foreign governments, with a particular emphasis on  
21          threats posed by China’s activities in space and debris

10 **SEC. 1610B. LEVERAGING COMMERCIAL ON-ORBIT SAT-**  
11 **ELLITE SERVICING.**

12 (a) FINDINGS.—Congress finds the following:

13 (1) National security depends on reliable access  
14 to, and safe operations in, space. Modern society is  
15 reliant on space operations, but most spacecraft  
16 today are designed to be discarded at end-of-mission,  
17 leaving potential gaps in mission continuity and con-  
18 tributing to risk in the space domain.

19 (2) Existing and future critical Department of  
20 Defense missions operating in space and providing  
21 multidomain support would benefit from the applica-  
22 tion of commercial On-orbit Servicing, Assembly,  
23 and Manufacturing (in this section referred to as  
24 “OSAM”) capabilities, which extend the longevity  
25 and operability of national security space systems

1 through inspection, repair, refueling, and mitigation  
2 of debris.

3 (3) Because the domain in which space systems  
4 operate is increasingly congested, the risk of colli-  
5 sions and orbital debris generation has increased, a  
6 risk that is exacerbated by a lack of utilization of  
7 OSAM services. A secure, stable, and accessible  
8 space domain is paramount to the unimpeded and  
9 resilient operations of civil, military, intelligence, and  
10 commercial space assets by the United States and  
11 its allies. OSAM technologies support Department of  
12 Defense strategy by improving the adaptability and  
13 efficiency of existing and future military space archi-  
14 tectures.

15 (b) SENSE OF CONGRESS.—It is the sense of Con-  
16 gress that—

17 (1) Congress strongly encourages the Secretary  
18 of Defense to invest in developing technologies to  
19 support the advancement of debris remediation, such  
20 as rendezvous, proximity operations, and debris re-  
21 moval as an element of OSAM;

22 (2) because of the importance of the space do-  
23 main, the Secretary should seek ways to collaborate  
24 with United States industry partners and allied na-  
25 tions;

1           (3) beyond technology development, the Sec-  
2           retary and the intelligence community should con-  
3           sider satellite servicing and active disposal as a via-  
4           ble operational trade-off—in this way, in the future,  
5           a back-up disposal plan using direct retrieval should  
6           be a preferred and viable method for relevant or off-  
7           nominal missions.

8           (c) REPORT.—Not later than December 3, 2021, the  
9           Secretary of Defense, in consultation with the Director of  
10          National Intelligence and the Administrator of the Na-  
11          tional Aeronautics and Space Administration, shall submit  
12          to the appropriate congressional committees a report  
13          that—

14                (1) identifies critical investment areas for the  
15                further development and usage of commercial OSAM  
16                technologies and capabilities to meet emerging and  
17                changing government space mission needs on-orbit;  
18                and

19                (2) includes a plan for interagency engagement  
20                in the standardization and adoption of commercial  
21                OSAM interfaces for government space systems.

22          (d) APPROPRIATE CONGRESSIONAL COMMITTEES  
23          DEFINED.—In this section, the term “appropriate con-  
24          gressional committees” means—

25                (1) the congressional defense committees;

1           (2) the Committee on Science, Space, and  
2           Technology and the Permanent Select Committee on  
3           Intelligence of the House of Representatives; and

4           (3) the Committee on Commerce, Science, and  
5           Transportation and the Select Committee on Intel-  
6           ligence of the Senate.

7 **SEC. 1610C. REPORT ON SENSING CAPABILITIES OF THE**  
8                   **DEPARTMENT OF DEFENSE TO ASSIST FIGHT-**  
9                   **ING WILDFIRES.**

10          (a) REPORT.—Not later than 180 days after the date  
11 of the enactment of this Act, the Secretary of Defense,  
12 in consultation with the Director of National Intelligence  
13 and any other head of an agency or department the Sec-  
14 retary determines appropriate, shall submit to the appro-  
15 priate congressional committees a report on the capabili-  
16 ties of the Department of Defense to assist fighting  
17 wildfires through the use and analysis of satellite and  
18 other aerial survey technology.

19          (b) MATTERS INCLUDED.—The report under sub-  
20 section (a) shall include the following:

21           (1) An examination of the current and future  
22           sensing requirements for the wildfire fighting and  
23           analysis community.

24           (2) Identification of assets of the Department  
25           of Defense and intelligence community that can pro-

1       vide data that is relevant to the requirements under  
2       paragraph (1), including an examination of such as-  
3       sets that—

4               (A) are currently available;

5               (B) are in development; and

6               (C) have been formally proposed by a de-  
7       partment or agency of the Federal Government,  
8       but which have not yet been approved by Con-  
9       gress.

10       (3) With respect to the assets identified under  
11       paragraph (2)(A), an examination of how close the  
12       data such assets provide comes to meeting the wild-  
13       fire management and suppression community needs.

14       (4) An identification of the total and breakdown  
15       of costs reimbursed to the Department of Defense  
16       during the five-year period preceding the date of the  
17       report for reimbursable requests for assistance from  
18       lead departments or agencies of the Federal Govern-  
19       ment responding to natural disasters.

20       (5) A discussion of issues involved in producing  
21       unclassified products using unclassified and classi-  
22       fied assets, and policy options for Congress regard-  
23       ing that translation, including by explicitly address-  
24       ing classification choices that could ease the applica-

1 tion of data from such assets to wildfire detection  
2 and tracking.

3 (6) Identification of options to address gaps be-  
4 tween requirements and capabilities to be met by ad-  
5 ditional solutions, whether from the Department of  
6 Defense, the intelligence community, or from the  
7 civil or commercial domain.

8 (7) A retrospective analysis to determine wheth-  
9 er the existing data could have been used to defend  
10 against past fires.

11 (8) Options for the Department of Defense to  
12 assist the Department of Agriculture, the Depart-  
13 ment of the Interior, the Department of Energy, the  
14 National Aeronautics and Space Administration, the  
15 National Oceanic and Atmospheric Administration,  
16 the National Institute of Standards and Technology,  
17 the National Science Foundation, and State and  
18 local governments in identifying and responding to  
19 wildfires.

20 (c) DEFINITIONS.—In this section:

21 (1) The term “appropriate congressional com-  
22 mittees” means the following:

23 (A) The Committee on Armed Services, the  
24 Committee on Agriculture, the Committee on  
25 Natural Resources, the Committee on Science,

1 Space, and Technology, and the Permanent Se-  
2 lect Committee on Intelligence of the House of  
3 Representatives.

4 (B) The Committee on Armed Services,  
5 the Committee on Agriculture, Nutrition, and

11 meaning given that term in section 3 of the National  
12 Security Act of 1947 (50 U.S.C. 3003).

13 **SEC. 1610D. NON-GEOSTATIONARY ORBIT SATELLITE CON-**  
14 **STELLATIONS.**

15 (a) FINDING.—Congress finds that modern high-  
16 throughput non-geostationary orbit satellite constellations  
17 provide robust commercial satellite communication capa-  
18 bilities that enable current military operations and facili-  
19 tate advanced communications networks that would pro-  
20 vide significant quality of life enhancements for deployed  
21 personnel of the Navy.

22 (b) REPORT.—Not later than 180 days after the date  
23 of the enactment of this Act, the Secretary of Defense,  
24 in consultation with the Secretaries of the military depart-  
25 ments and heads of the Defense Agencies, shall submit

1 to the congressional defense committees a report on cur-  
2 rent commercial satellite communication initiatives, par-  
3 ticularly with respect to new non-geostationary orbit sat-  
4 ellite technologies, the Navy has employed to increase sat-  
5 ellite communication throughput to afloat platforms cur-  
6 rently constrained by legacy capabilities. The report shall  
7 include the following:

8           (1) A potential investment strategy concerning  
9           how to operationalize commercial satellite commu-  
10          nication capabilities using non-geostationary orbit  
11          satellites across the fleet, including—

12                   (A) requisite funding required to ade-  
13                   quately prioritize and accelerate the integration  
14                   of such capabilities into Navy warfighting sys-  
15                   tems; and

16                   (B) future-year spending projections for  
17                   such efforts that align with other satellite com-  
18                   munication investments of the Department.

19          (2) An integrated satellite communications ref-  
20          erence architecture roadmap for the Navy to achieve  
21          a resilient, secure network for operationalizing com-  
22          mercial satellite communication capabilities using  
23          non-geostationary orbit satellites across the Navy  
24          that is capable of leveraging multi-band and multi-  
25          orbit architectures, including requirements that en-

1       able maximum use of commercially available tech-  
2       nologies.

8       (a) DETERMINATION THAT FOREIGN GOVERNMENT  
9       INTENDS TO CAUSE THE DEATH OF OR SERIOUS BODILY  
10       INJURY TO MEMBERS OF THE ARMED FORCES.—The  
11       Secretary of Defense shall carry out the notification re-  
12       quirements under subsection (b) whenever the Secretary,  
13       in consultation with the Director of National Intelligence,  
14       determines with high confidence that, on or after the date  
15       of the enactment of this Act, an official of a foreign gov-  
16       ernment plans or takes some other substantial step that—

17               (1) is intended to cause the death of, or serious  
18       bodily injury to, any member of the United States  
19       Armed Forces, whether through direct means or in-  
20       direct means, including through a promise or agree-  
21       ment by the foreign government to pay anything of

4 the foreign government for undertaking such an  
5 effort.

9 member of the United States Armed Forces or  
10 citizen or resident of the United States de-  
11 scribed in paragraph (2) of such subsection, or  
12 the abduction of such a citizen or resident.

13 (E) Any other information the Secretary  
14 determines appropriate.

15 (2) OPTION FOR BRIEFING.—Upon the request  
16 of a congressional recipient specified in paragraph  
17 (1) after being notified of a determination under  
18 such paragraph, the Secretary shall provide to the  
19 recipient a briefing on the contents of the notifica-  
20 tion.

4 **SEC. 1622. INDEPENDENT REVIEW OF NUCLEAR COMMAND,**  
5 **CONTROL, AND COMMUNICATIONS SYSTEM.**

6 (a) REVIEW.—Not later than 30 days after the date  
7 of the enactment of this Act, the Secretary of Defense  
8 shall seek to enter into an agreement with the National  
9 Academies of Sciences, Engineering, and Medicine under  
10 which the National Academies shall conduct a review of  
11 the current plans, policies, and programs of the nuclear  
12 command, control, and communications system, and such  
13 plans, policies, and programs that are planned through  
14 2030.

15                           **ABILITY OF NUCLEAR WEAPONS AND RE-**  
16                           **LATED SYSTEMS.**

17          (a) FINDINGS.—Congress finds the following:

18           (1) On December 20, 1990, Secretary of De-  
19           fense Cheney chartered a five-person independent  
20           committee known as the Federal Advisory Com-  
21           mittee on Nuclear Failsafe and Risk Reduction to  
22           assess the capability of the nuclear weapon com-  
23           mand and control system to meet the dual require-  
24           ments of assurance against unauthorized use of nu-  
25           clear weapons and assurance of timely, reliable exe-

1        cution when authorized, and to identify opportunities  
2        for positive measures to enhance failsafe features.

3            (2) The Federal Advisory Committee, chaired  
4        by Ambassador Jeane J. Kirkpatrick, recommended  
5        changes in the nuclear enterprise, as well as policy  
6        proposals to reduce the risks posed by unauthorized  
7        launches and miscalculation.

8            (3) The Federal Advisory Committee found, un-  
9        ambiguously, that “failsafe and oversight enhance-  
10        ments are possible”.

11           (4) Since 1990, new threats to the nuclear en-  
12        terprise have arisen in the cyber, space, and infor-  
13        mation warfare domains.

14           (5) Ensuring the continued assurance of the  
15        nuclear command, control, and communications in-  
16        frastructure is essential to the national security of  
17        the United States.

18        (b) REVIEW.—The Secretary of Defense shall provide  
19        for the conduct of an independent review of the safety,  
20        security, and reliability of covered nuclear systems. The  
21        Secretary shall ensure that such review is conducted in  
22        a manner similar to the review conducted by the Federal  
23        Advisory Committee on Nuclear Failsafe and Risk Reduc-  
24        tion.

1 (c) MATTERS INCLUDED.—The review conducted  
2 pursuant to subsection (b) shall include the following:

3 (1) Plans for modernizing the covered nuclear  
4 systems, including options and recommendations for  
5 technical, procedural, and policy measures that could  
6 strengthen safeguards, improve the security and reli-  
7 ability of digital technologies, and prevent cyber-re-  
8 lated and other risks that could lead to the unau-  
9 thorized or inadvertent use of nuclear weapons as  
10 the result of an accident, misinterpretation, mis-  
11 calculation, terrorism, unexpected technological  
12 breakthrough, or deliberate act.

13 (2) Options and recommendations for nuclear  
14 risk reduction measures, focusing on confidence  
15 building and predictability, that the United States  
16 could carry out alone or with near-peer adversaries  
17 to strengthen safeguards against the unauthorized  
18 or inadvertent use of a nuclear weapon and to re-  
19 duce nuclear risks.

20 (d) SUBMISSION.—Not later than one year after the  
21 date of the enactment of this Act, the Secretary shall sub-  
22 mit to the congressional defense committees the review  
23 conducted pursuant to subsection (b).

24 (e) PREVIOUS REVIEW.—Not later than 30 days after  
25 the date of the enactment of this Act, the Secretary shall

1 submit to the congressional defense committees the final  
2 report of the Federal Advisory Committee on Nuclear  
3 Failsafe and Risk Reduction.

4 (f) COVERED NUCLEAR SYSTEMS DEFINED.—In this  
5 section, the term “covered nuclear systems” means the fol-  
6 lowing systems of the United States:

7 (1) The nuclear weapons systems.

8 (2) The nuclear command, control, and commu-  
9 nications system.

12 **SEC. 1624. REVIEW OF ENGINEERING AND MANUFAC-**  
13 **TURING DEVELOPMENT CONTRACT FOR**  
14 **GROUND-BASED STRATEGIC DETERRENT**  
15 **PROGRAM.**

16 (a) FINDINGS.—Congress finds the following:

17 (1) In September 2020, the Air Force awarded  
18 the engineering and manufacturing development con-  
19 tract for the ground-based strategic deterrent pro-  
20 gram.

21 (2) The total development cost of the ground-  
22 based strategic deterrent program is expected to be  
23 approximately \$100,000,000,000.

24 (3) The Vice Chairman of the Joint Chiefs of  
25 Staff recently noted that “we have got to make [the

1 ground-based strategic deterrent program] more af-  
2 fordable. A three-stage, solid rocket ICBM should  
3 not cost as much as the forecast says it costs for  
4 now. After meeting with the program office at Nor-  
5 throp Grumman multiple times I think that program  
6 can come in significantly cheaper. It's designed cor-  
7 rectly. It's a digital engineering process that should  
8 be able to build things quickly and much more effec-  
9 tively.”.

10 (4) The Air Force has placed significant impor-  
11 tance on digital engineering in achieving cost and  
12 schedule requirements with respect to the ground-  
13 based strategic deterrent program.

14 (b) REVIEW.—

15 (1) REQUIREMENT.—The Secretary of the Air  
16 Force shall provide for the conduct of a review of  
17 the implementation and the execution of the engi-  
18 neering and manufacturing development contract for  
19 the ground-based strategic deterrent program.

20 (2) MATTERS INCLUDED.—The review under  
21 paragraph (1) shall include the following:

22 (A) An analysis of the ability of the Air  
23 Force to implement industry best practices dur-  
24 ing the engineering and manufacturing develop-

1           ment phase of the ground-based strategic deter-  
2           rent program.

3           (B) A review of the challenges the Air  
4           Force faces in implementing such industry best  
5           practices.

6           (C) A review of the ability of the Air Force  
7           to leverage digital engineering during such engi-  
8           neering and manufacturing development phase.

9           (D) A review of any options that may be  
10          available to the Air Force to reduce cost and in-  
11          troduce competition within the operations and  
12          maintenance phase of the ground-based stra-  
13          tegic deterrent program.

14          (E) Recommendations to improve the cost,  
15          schedule, and program management of the  
16          ground-based strategic deterrent program.

17          (3) EXPERTISE.—The Secretary shall ensure  
18          that the review under paragraph (1) is conducted by  
19          individuals from the public and private sector, in-  
20          cluding not fewer than two individuals—

21                 (A) who are not employees or officers of  
22                 the Department of Defense or a contractor of  
23                 the Department; and

24                 (B) who have experience outside of the de-  
25                 fense industry.

1           (4) PROVISION OF INFORMATION.—The Sec-  
2           retary shall provide to the individuals conducting the  
3           review under paragraph (1) all information nec-  
4           essary for the review.

5           (5) SECURITY CLEARANCES.—The Secretary  
6           shall ensure that each individual who conducts the  
7           review under paragraph (1) holds a security clear-  
8           ance at the appropriate level for such review.

23 (1) On April 20th, 2021, before the Committee  
24 on Armed Services of the Senate, the Commander of  
25 the United States Strategic Command, Admiral

1 Charles A. Richard, said that the basic design cri-  
2 teria in the triad is that “you cannot allow a failure  
3 of any one leg of the triad to prevent you from being  
4 able to do everything the President has ordered you  
5 to do.”.

6 (2) Admiral Richard further stated that in the  
7 event of one leg atrophying, “You are completely de-  
8 pendent on the submarine leg, and I’ve already told  
9 the Secretary of Defense that under those conditions  
10 I would request to re-alert the bombers.”.

11 (b) COST ESTIMATE.—The Secretary of the Air  
12 Force shall develop a cost estimate with respect to re-  
13 alerting long-range bombers in the absence of a ground-  
14 based leg of the nuclear triad.

21 ballistic missiles in the active inventory of the United  
22 States, or that the number of nuclear warheads equipped  
23 on such missiles of China exceeds the number of nuclear  
24 warheads equipped on such missiles of the United States,

## 21           **Subtitle D—Missile Defense** 22           **Programs**

23          **SEC. 1641. DIRECTED ENERGY PROGRAMS FOR BALLISTIC**  
24           **AND HYPERSONIC MISSILE DEFENSE.**

25          (a) FINDINGS.—Congress finds the following:

1           (1) In the fiscal year 2021 budget request of  
2 the Department of Defense, the Secretary of De-  
3 fense removed all funding from the Missile Defense  
4 Agency to conduct research, engineering, or develop-  
5 ment for directed energy technologies that could be  
6 applicable for ballistic and hypersonic missile de-  
7 fense, and this removal of funding continued in the  
8 fiscal year 2022 budget request of the Department,  
9 despite Congress appropriating funding for fiscal  
10 year 2021 for these efforts.

11           (2) In January 2020, an independent Senior  
12 Executive Review Team noted that “If successfully  
13 developed, the unique features of diode pumped al-  
14 kali laser, an efficient electrically powered, relatively  
15 short wavelength gas laser with the potential to de-  
16 liver megawatt power with near diffraction limited  
17 beam quality from a single aperture would provide  
18 the Department of Defense and the Missile Defense  
19 Agency with an important strategic technology with  
20 the potential for an attractive size, weight, and  
21 power. Such a system would have potential capa-  
22 bility use cases across all services/agencies.”. How-  
23 ever, the Under Secretary of Defense for Research  
24 and Engineering did not support continued inves-

1       tigation of this promising technology by the Missile  
2       Defense Agency.

3           (3) In addition to diode pumped alkali lasers,  
4       there are other directed energy applications that  
5       have the potential to contribute to ballistic and  
6       hypersonic missile defense architecture, including  
7       microwave and short pulse lasers technologies.

8       (b) SENSE OF CONGRESS.—It is the sense of Con-  
9       gress that the Director of the Missile Defense Agency  
10      should continue to fund promising directed energy tech-  
11      nologies for ballistic and hypersonic missile defense, in co-  
12      ordination with the directed energy roadmap of the Under  
13      Secretary of Defense for Research and Engineering, with  
14      the intent to transfer technologies to the military depart-  
15      ments as appropriate.

16      (c) AUTHORITY OF THE MISSILE DEFENSE AGEN-  
17      CY.—

18           (1) DELEGATION.—The Secretary of Defense  
19      shall delegate to the Director of the Missile Defense  
20      Agency the authority to budget for, direct, and man-  
21      age directed energy programs applicable for ballistic  
22      and hypersonic missile defense missions, in coordina-  
23      tion with other directed energy efforts of the De-  
24      partment of Defense.

1           (2) PRIORITIZATION.—In budgeting for and di-  
2           recting directed energy programs applicable for bal-  
3           listic and hypersonic defensive missions pursuant to  
4           paragraph (1), the Director of the Missile Defense  
5           Agency shall—

6                   (A) prioritize the early research and devel-  
7                   opment of technologies; and

8                   (B) address the transition of such tech-  
9                   nologies to industry to support future oper-  
10                  ationally relevant capabilities.

11 **SEC. 1642. NOTIFICATION OF CHANGES TO NON-STANDARD**

23                           retary of Defense for Research and Engineer-  
24                           ing, the Under Secretary of Defense for Acqui-  
25                           sition and Sustainment, the Under Secretary of

1 Defense for Policy, the Secretaries of the mili-  
2 tary departments, the Chairman of the Joint  
3 Chiefs of Staff, the Commander of the United  
4 States Strategic Command, the Commander of  
5 the United States Northern Command, and the  
6 Director of the Missile Defense Agency;

7 (B) certifies to the congressional defense  
8 committees that the Secretary has coordinated  
9 the changes with, and received the views of, the  
10 individuals referred to in subparagraph (A);

11 (C) submits to the congressional defense  
12 committees a report that contains—

14 rationale for the changes, and the views of  
15 the individuals referred to in subparagraph  
16 (A) with respect to such changes;

17 (ii) a certification that the changes  
18 will not impair the missile defense capabili-  
19 ties of the United States nor degrade the  
20 unique special acquisition authorities of the  
21 Missile Defense Agency; and

22 (iii) with respect to any such changes  
23 to Department of Defense Directive  
24 5134.09, a final draft of the proposed

1 modified directive, both in an electronic  
2 format and in a hard copy format;

3 (D) with respect to any such changes to  
4 Department of Defense Directive 5134.09, pro-  
5 vides to such committees a briefing on the pro-  
6 posed modified directive described in subpara-  
7 graph (C)(ii); and

8 (E) a period of 120 days has elapsed fol-  
9 lowing the date on which the Secretary submits  
10 the report under subparagraph (C).

11 (2) NON-STANDARD ACQUISITION AND RE-  
12 QUIREMENTS PROCESSES AND RESPONSIBILITIES  
13 DESCRIBED.—The non-standard acquisition and re-  
14 quirements processes and responsibilities described  
15 in this paragraph are such processes and responsibil-  
16 ities described in—

17 (A) the memorandum of the Secretary of

13 (B) by redesignating subsection (d) as sub-  
14 section (c).

15 **SEC. 1643. MISSILE DEFENSE RADAR IN HAWAII.**

16 (a) SENSE OF CONGRESS.—It is the sense of Con-  
17 gress that—

18 (1) Hawaii should have discrimination radar  
19 coverage against intercontinental ballistic missiles  
20 that is equivalent to such coverage provided to the  
21 contiguous United States and Alaska once the long  
22 range discrimination radar achieves operational ca-  
23 pability at Clear Air Force Base, Alaska; and

24 (2) to achieve such equivalent discrimination  
25 radar coverage, the Secretary of Defense, acting

1 through the Director of the Missile Defense Agency,  
2 should—

3 (A) restore the discrimination radar for  
4 homeland defense planned to be located in Ha-  
5 waii; and

6 (B) request adequate funding for the radar  
7 in the future-years defense program submitted  
8 to Congress under section 221 of title 10,  
9 United States Code, for the radar to achieve  
10 operational capability by not later than Decem-  
11 ber 31, 2028, when the next generation inter-  
12 ceptor is anticipated to achieve initial operating  
13 capability.

14 (b) CERTIFICATION.—As a part of the defense budget

10              isting loads at locations to include the impacts of  
11              managed and non-managed charging options.

12             (2) Local electric vehicle charging profiles, vehi-  
13              cle traffic patterns and flow to readily access charg-  
14              ing stations, signage needs, proximity to anticipated  
15              users of charging stations, and existing building load  
16              profiles.

17             (3) Availability of adequate space for vehicles  
18              awaiting charging during peak usage times.

19             (4) Required infrastructure upgrades, including  
20              electrical wiring.

7 tion of plug-in hybrid electric vehicles and plug-in  
8 electric vehicles for a proposed charging station loca-  
9 tion and how many electric vehicles will need to be  
10 charged at the same time.

11 (3) In the case of level 3 charging, which pro-  
12 vides the fastest charging rates, an assessment of  
13 supporting utilities infrastructure, potential gaps,  
14 and required improvements.

18 tential future needs or applications for chargers,  
19 such as vehicle-to-grid or vehicle-to-building applica-  
20 tions.

21 (e) CONSIDERATIONS RELATED TO CHARGING STA-  
22 TION OWNERSHIP.—A determination of the optimal own-  
23 ership method to provide charging stations as part of a  
24 military construction project shall include consideration of  
25 the following:

1           (1) Use of Government owned (purchased, in-  
2           stalled, and maintained) charging stations.

### 18 **SEC. 2871. IMPROVED OVERSIGHT OF CERTAIN INFRA-** 19 **STRUCTURE SERVICES PROVIDED BY NAVAL** 20 **FACILITIES ENGINEERING SYSTEMS COM-** 21 **MAND PACIFIC.**

22 The Secretary of the Navy shall designate an admin-  
23 istrative position within the Naval Facilities Engineering  
24 Systems Command Pacific for the purpose of improving  
25 the continuity of management and oversight of real prop-

1 erty and infrastructure assets in the Pacific Area of Re-  
2 sponsibility related to the training needs of the Armed  
3 Forces, particularly regarding leased property for which  
4 the lease will expire within 10 years after the date of the  
5 enactment of this Act.

6 **SEC. 2872. ANNUAL REPORT ON RENEWAL OF DEPARTMENT**  
7 **OF DEFENSE EASEMENTS AND LEASES OF**  
8 **LAND IN HAWAII.**

9 (a) FINDINGS.—Congress finds the following:

10 (1) Lands throughout the State of Hawai'i,  
11 which are currently owned and leased by the Depart-  
12 ment of Defense or in which the Department of De-  
13 fense otherwise has a real property interest, are crit-  
14 ical to maintaining the readiness of the Armed  
15 Forces now stationed or to be stationed in Hawai'i  
16 and throughout the Indo-Pacific region and else-  
17 where.

18 (2) Securing long-term continued utilization of  
19 those lands by the Armed Forces is thus critical to  
20 the national defense.

21 (3) As a result of various factors, including  
22 complex land ownership and utilization issues and  
23 competing actual and potential uses, the inter-  
24 dependency of the various military components, and  
25 the necessity of maintaining public support for the

1 presence and operations of the Armed Forces in Ha-  
2 wai'i, the realization of the congressional and De-  
3 partment of Defense goals of ensuring the continuity  
4 of critical land and facilities infrastructure requires  
5 a sustained, dedicated, funded, top-level effort to co-  
6 ordinate realization of these goals across the Armed  
7 Forces, between the Department of Defense and  
8 other agencies of the Federal Government, and be-  
9 tween the Department of Defense and the State of  
10 Hawai'i and its civilian sector.

11 (4) The end result of this effort must account  
12 for military and civilian concerns and for the chang-  
13 ing missions and needs of all components of the  
14 Armed Forces stationed or otherwise operating out  
15 of the State of Hawai'i as the Department of De-  
16 fense adjusts to meet the objectives outlined in the  
17 National Defense Strategy.

18 (b) ANNUAL REPORT.—

19 (1) REPORT REQUIRED.—Not later than Feb-  
20 ruary 1 of each year, the Secretary of Defense shall  
21 submit to the congressional defense committee a re-  
22 port describing the progress being made by the De-  
23 partment of Defense to renew each Department of  
24 Defense land lease and easement in the State of  
25 Hawai'i that—

1 (A) encompasses one acre or more; and

2 (B) will expire within 10 years after the  
3 date of the submission of the report.

4 (2) REPORT ELEMENTS.— Each report sub-  
5 mitted under paragraph (1) shall include the fol-  
6 lowing:

7 (A) The location, size, and expiration date  
8 of each lease and easement.

9 (B) Major milestones and expected  
10 timelines for maintaining access to the land  
11 covered by each lease and easement.

12 (C) Actions completed over the preceding  
13 two years for each lease and easement.

14 (D) Department-wide and service-specific  
15 authorities governing each lease and easement  
16 extension.

17 (E) A summary of coordination efforts be-  
18 tween the Secretary of Defense and the Secre-  
19 taries of the military departments.

20 (F) The status of efforts to develop an in-  
21 ventory of military land in Hawai'i, including  
22 current and possible future uses of the land,  
23 that would assist in land negotiations with the  
24 State of Hawai'i.

1 (G) The risks and potential solutions to  
2 ensure the renewability of required and critical  
3 leases and easements.

4 **SEC. 2873. REPORT ON LONG-TERM INFRASTRUCTURE**  
5 **NEEDS TO SUPPORT MARINE CORPS RE-**  
6 **ALIGNMENT IN UNITED STATES INDO-PA-**  
7 **CIFIC COMMAND AREA OF RESPONSIBILITY.**

8 Not later than one year after the date of the enact-  
9 ment of this Act, the Deputy Commandant, Installations  
10 and Logistics, of the Marine Corps shall submit to the  
11 Committees on Armed Services of the Senate and the  
12 House of Representatives a report listing and describing  
13 the infrastructure that will be needed to directly support  
14 the Marine Corps realignment in the United States Indo-  
15 Pacific Command Area of Responsibility. The report shall  
16 include the known or estimated scope, cost, and schedule  
17 for each military construction project, repair project, or  
18 other infrastructure project included on the infrastructure  
19 list.

20 **SEC. 2874. FIVE-YEAR UPDATES OF HAWAI'I MILITARY LAND**  
21 **USE MASTER PLAN.**

22 (a) FINDINGS.—Congress finds the following:

23 (1) The continued presence of the Armed  
24 Forces and Department of Defense in the State of

1       Hawai‘i supports the United State’s objective of a  
2       free and open Indo-Pacific region.

3               (2) Given the strategic location of Hawai‘i in  
4       the central Pacific, the State is home to the United  
5       States Indo-Pacific Command and all of its sub-  
6       component commanders.

7               (3) The Armed Forces and Department of De-  
8       fense presence in Hawai‘i is extensive and significant  
9       despite the limited geography of the State.

10       (b) SENSE OF CONGRESS.—Given the extent and sig-  
11      nificance of the Armed Forces and Department of Defense  
12      presence in Hawai‘i and the limited geography of the  
13      State, it is the sense of Congress that the Secretary of  
14      Defense should—

15               (1) synchronize all of the Armed Forces’ train-  
16      ing activities, land holdings, and operations for the  
17      most efficient use and stewardship of land in  
18      Hawai‘i; and

19               (2) ensure that the partnership between the  
20      DoD and State of Hawai‘i is mutually advantageous  
21      and based on the following principles:

22                       (A) Respect for the land, people, and cul-  
23                       ture of Hawai‘i.

24                       (B) Commitment to building strong, resil-  
25                       ient communities.

1 (C) Maximum joint use of Department of  
2 Defense land holdings.

3 (D) Optimization of existing Armed Forces  
4 training, operational, and administrative facili-  
5 ties.

6 (E) Synchronized communication from  
7 United States Indo-Pacific Command across all  
8 military components with State government,  
9 State agencies, county governments, commu-  
10 nities, and Federal agencies on critical land and  
11 environmental topics.

12 (c) REQUIRED UPDATE OF MASTER PLAN.—

13 (1) PLAN UPDATE REQUIRED.—Not later than  
14 December 31, 2025, and every five years thereafter  
15 through December 31, 2045, the Deputy Assistant  
16 Secretary of Defense for Real Property shall update  
17 the Hawai‘i Military Land Use Master Plan, which  
18 was first produced by the Department of Defense in  
19 1995 and updated in 2002 and 2021.

20 (2) ELEMENTS.—In updating the Hawai‘i Mili-  
21 tary Land Use Master Plan, the Deputy Assistant  
22 Secretary of Defense for Real Property shall con-  
23 sider, address, and include the following:

1           (A) The priorities of each individual  
2 Armed Force and joint priorities within the  
3 State of Hawai'i.

4           (B) The historical background of Armed  
5 Forces and Department of Defense use of lands  
6 in Hawai'i and the cultural significance of the  
7 historical land holdings.

8           (C) A summary of all leases and easements  
9 held by the Department.

10          (D) An overview of Army, Navy, Marine  
11 Corps, Air Force, Space Force, Coast Guard,  
12 Hawai'i National Guard, and Hawai'i Air Na-  
13 tional Guard assets in the State, including the  
14 following for each asset:

15           (i) The location and size of facilities.

16           (ii) Any tenet commands.

17           (iii) Training lands.

18           (iv) Purpose of the asset.

19           (v) Priorities for the asset for the next  
20 five years, including any planned  
21 divestitures and expansions.

22          (E) A summary of encroachment planning  
23 efforts.

1 (F) A summary of efforts to synchronize  
2 the inter-service use of training lands and  
3 ranges.

4 (3) COOPERATION.—The Deputy Assistant Sec-  
5 retary of Defense for Real Property shall carry out  
6 this subsection in conjunction with the Commander  
7 of United States Indo-Pacific Command.

8 (d) SUBMISSION OF UPDATED PLAN.—Not later than  
9 30 days after the date of the completion of an update to  
10 the Hawai‘i Military Land Use Master Plan under sub-  
11 section (c), the Deputy Assistant Secretary of Defense for  
12 Real Property shall submit the updated master plan to

17 **RITORIES IN THE HIGH-RISK MONEY LAUN-**  
18 **DERING AND RELATED FINANCIAL CRIME**  
19 **AREAS.**

20 (a) FINDINGS.—The Congress finds the following:

21 (1) According to the Department of Justice,  
22 human trafficking is “a crime that involves exploit-  
23 ing a person for labor, services, or commercial sex”,  
24 a global illicit trade that is estimated by Global Fi-

1        nancial Integrity to be valued at more than \$150.2  
2        billion each year.

3            (2) Polaris, the non-governmental organization  
4        which runs the United States National Human Traf-  
5        ficking Hotline, has found that while human traf-  
6        ficking is a nationwide problem, the majority of do-  
7        mestic human trafficking victims are “people who  
8        have historically faced discrimination and its polit-  
9        ical, social and economic consequences: people of  
10       color, indigenous communities, immigrants and peo-  
11       ple who identify as LGBTQ+”.

12           (3) For this reason, it is important that law en-  
13        forcement representing native communities and ter-  
14        ritories are part of the national dialogue about coun-  
15        tering human trafficking.

16           (4) The High Intensity Financial Crime Areas  
17        program, which is intended to concentrate law en-  
18        forcement efforts at the Federal, State, and local  
19        level to combat money laundering in designated  
20        high-intensity money laundering zones, considers  
21        human trafficking among other financial crime  
22        issues and actors.

23           (5) In each High Intensity Financial Crime  
24        Area, a money-laundering action team, comprised of  
25        relevant Federal, State, and local enforcement au-

1       thorities, prosecutors, and financial regulators,  
2       works together to coordinate Federal, State, and  
3       local anti-money laundering effort.

4           (6) The High Intensity Financial Crime Area  
5       program does not currently mandate the inclusion of  
6       law enforcement and other agencies from Tribes and  
7       territories.

8           (7) Further, the National Strategy for Com-  
9       bating Terrorist and Other Illicit Financing, a valu-  
10      able report which is scheduled to sunset in January  
11      2022, does not currently mandate the inclusion of  
12      law enforcement and other agencies from Tribes and  
13      Territories.

14      (b) NATIONAL STRATEGY FOR COMBATING TER-  
15      RORIST AND OTHER ILLICIT FINANCING.—The Coun-  
16      tering Russian Influence in Europe and Eurasia Act of  
17      2017 (22 U.S.C. 9501 et seq.) is amended—

18           (1) in section 261(b)(2)—

19               (A) by striking “2020” and inserting  
20               “2024”; and

21               (B) by striking “2022” and inserting  
22               “2026”;

23           (2) in section 262—

24               (A) in paragraph (1)—

1 (i) by striking “in the documents enti-  
2 tled ‘2015 National Money Laundering  
3 Risk Assessment’ and ‘2015 National Ter-  
4 rorist Financing Risk Assessment,’” and  
5 inserting “in the documents entitled ‘2020  
6 National Strategy for Combating Terrorist  
7 and Other Illicit Financing’ and ‘2022 Na-  
8 tional Strategy for Combating Terrorist  
9 and Other Illicit Financing’”; and

10 (ii) by striking “the broader counter  
11 terrorism strategy of the United States”  
12 and inserting “the broader counter ter-

7 the customer or group of customers, if any.

8 (2) JUSTIFICATION REQUIREMENT.—A jus-

13 (1) NOTICE REQUIRED.—Except as provided  
14 under paragraph (2) or as otherwise prohibited from

4 threat to national security, or are otherwise de-  
5 scribed under subsection (a)(2), neither the de-  
6 pository institution nor the appropriate Federal  
7 banking agency may inform the customer or  
8 customers of the justification for the customer's  
9 account termination.

10 (B) NOTICE PROHIBITED IN OTHER

17 ment and nonmechanized transport is impracti-  
18 cable or infeasible.

19 (B) DISCRETIONARY TERMS AND CONDI-

20 TIONS.—In a special use authorization issued  
21 under paragraph (1), the Secretary may require

15               Federal land are not leased under subsection (c)(3), the  
16               Secretary shall, in accordance with applicable law, take all  
17               reasonable measures—

18                   (1) to cap those fugitive methane emissions at  
19                   the source in any case in which the cap will result  
20                   in the long-term sequestration of all or a significant  
21                   portion of the fugitive methane emissions; or

22                   (2) if sequestration under paragraph (1) is not  
23                   feasible, destroy the fugitive methane emissions by

22 of the National Recreation Area on which  
23 grazing is allowed before the date of enact-

25 determines that grazing on the Federal

1 land would present unacceptable impacts  
2 (as defined in section 1.4.7.1 of the Na-  
3 tional Park Service document entitled  
4 “Management Policies 2006: The Guide to  
5 Managing the National Park System”) to

11 of the National Oceanic and Atmospheric Administration.

12 **SEC. 5702. VESSEL SPEED RESTRICTIONS IN MARINE MAM-**  
13 **MAL HABITAT.**

14 (a) IN GENERAL.—The Marine Mammal Protection  
15 Act of 1974 (16 U.S.C. 1361 et seq.) is amended by in-  
16 serting after section 120 the following:

17 **“SEC. 121. VESSEL RESTRICTIONS IN MARINE MAMMAL**  
18 **HABITAT.**

19 “(a) IN GENERAL.—The Secretary shall, in coordina-  
20 tion with the Marine Mammal Commission and the Com-  
21 mandant of the Coast Guard and applying the best avail-  
22 able scientific information—

23 “(1) designate areas of importance for marine  
24 mammals known to experience vessel strikes and es-  
25 tablish for each such area seasonal or year-round

1 mandatory vessel speed restrictions to reduce vessel  
2 strikes or other vessel-related impacts, as necessary,  
3 for vessels operating in such areas; and

4 “(2) implement for such species, as appropriate,  
5 dynamic management area programs incorporating  
6 mandatory vessel restrictions to protect marine  
7 mammals from vessel strikes or other vessel-related  
8 impacts occurring outside designated areas of impor-  
9 tance.

10 “(b) AREAS OF IMPORTANCE.—In designating areas  
11 under subsection (a), the Secretary—

12 “(1) shall consider including—

13 “(A) the important feeding, breeding,  
14 calving, rearing, or migratory habitat for pri-  
15 ority species of marine mammals, including all  
16 areas designated as critical habitat for such  
17 species under section 4 of the Endangered Spe-  
18 cies Act of 1973 (16 U.S.C. 1533) except any  
19 area the Secretary determines does not inter-  
20 sect with areas of vessel traffic such that an  
21 elevated risk of mortality or injury caused by  
22 vessel strikes exists; and

23 “(B) areas of high marine mammal mor-  
24 tality, injury, or harassment caused by vessel  
25 strikes; and

1           “(2) may consider including—

2                   “(A) any area designated as a National  
3           Marine Sanctuary, Marine National Monument,  
4           National Park, or National Wildlife Refuge; and

5                   “(B) areas of high marine mammal pri-  
6           mary productivity with year-round or seasonal  
7           aggregations of marine mammals to which this  
8           section applies.

9           “(c) DEADLINE FOR REGULATIONS.—Not later than  
10   two years after the date of the enactment of this section,  
11   the Secretary shall designate areas and vessel restrictions  
12   under subsection (a) and issue such regulations as are nec-  
13   essary to carry out this section, consistent with notice and  
14   comment requirements under chapter 5 of title 5, United  
15   States Code.

16           “(d) MODIFYING OR DESIGNATING NEW AREAS OF  
17   IMPORTANCE.—

18                   “(1) IN GENERAL.—The Secretary shall issue  
19           regulations to modify or designate the areas of im-  
20           portance and vessel restrictions under this section  
21           within 180 days after the issuance of regulations to  
22           establish or to modify critical habitat for marine  
23           mammals pursuant to the Endangered Species Act  
24           of 1973 (16 U.S.C. 1531 et seq.).

25                   “(2) REEXAMINATION.—The Secretary shall—

1           “(A) reexamine the areas of importance  
2           designated and vessel restrictions under this  
3           section every 5 years following the initial  
4           issuance of the regulations to determine if the  
5           best available scientific information warrants  
6           modification or designation of areas of impor-  
7           tance for vessel restrictions; and

8           “(B) publish any revisions under subpara-  
9           graph (A) in the Federal Register after notice  
10          and opportunity for public comment within 24  
11          months.

12          “(3) FINDING.—Not later than 90 days after  
13          receiving the petition of an interested person under  
14          section 553(e) of title 5, United States Code, to des-  
15          ignate, modify, or add an area of importance or ves-  
16          sel restriction under this section, the Secretary shall  
17          make a finding as to whether the petition presents  
18          substantial scientific information indicating that the  
19          petitioned action may be warranted. The Secretary  
20          shall promptly publish such finding in the Federal  
21          Register for comment. Not later than one year after  
22          the close of comments, the Secretary shall publish in  
23          the Federal Register a finding of whether the peti-  
24          tioned action is warranted and, if the Secretary de-  
25          termines that the petitioned action is warranted,

1 shall publish draft regulations designating or modi-  
2 fying and vessel restrictions the area of importance.  
3 Not later than 12 months after publication of the  
4 draft regulations, the Secretary shall issue final reg-  
5 ulations designating or modifying the area of impor-  
6 tance and vessel restrictions.

7 “(e) EXCEPTIONS FOR SAFE MANEUVERING AND  
8 USING AUTHORIZED TECHNOLOGY.—

9 “(1) IN GENERAL.—The restriction established  
10 under subsection (a) shall not apply to a vessel oper-  
11 ating at a speed necessary to maintain safe maneu-  
12 vering speed if such speed is justified because the  
13 vessel is in an area where oceanographic, hydro-  
14 graphic, or meteorological conditions severely restrict  
15 the maneuverability of the vessel and the need to op-  
16 erate at such speed is confirmed by the pilot on  
17 board or, when a vessel is not carrying a pilot, the  
18 master of the vessel. If a deviation from the applica-  
19 ble speed limit is necessary pursuant to this sub-  
20 section, the reasons for the deviation, the speed at  
21 which the vessel is operated, the latitude and lon-  
22 gitude of the area, and the time and duration of  
23 such deviation shall be entered into the logbook of  
24 the vessel. The master of the vessel shall attest to

1 the accuracy of the logbook entry by signing and  
2 dating the entry.

3 “(2) AUTHORIZED TECHNOLOGY.—

4 “(A) IN GENERAL.—The vessel restrictions  
5 established under subsection (a) shall not apply  
6 to a vessel operating using technology author-  
7 ized by regulations issued by the Secretary  
8 under subparagraph (B).

9 “(B) REGULATIONS.—The Secretary may  
10 issue regulations authorizing a vessel to operate  
11 using technology specified by the Secretary  
12 under this subparagraph if the Secretary deter-  
13 mines that such operation is at least as effec-  
14 tive as the vessel restrictions authorized by reg-  
15 ulations under subsection (a) in reducing mor-  
16 tality and injury to marine mammals.

17 “(f) APPLICABILITY.—Any speed restriction estab-  
18 lished under subsection (a)—

19 “(1) shall apply to all vessels subject to the ju-  
20 risdiction of the United States, all other vessels en-  
21 tering or departing a port or place subject to the ju-  
22 risdiction of the United States, and all other vessels  
23 within the Exclusive Economic Zone of the United  
24 States, regardless of flag; and

25 “(2) shall not apply to—

1           “(A) vessels owned, operated, or under  
2 contract by the Department of Defense or the  
3 Department of Homeland Security, or engaged  
4 with such vessels;

5           “(B) law enforcement vessels of the Fed-  
6 eral Government or of a State or political sub-  
7 division thereof, when such vessels are engaged  
8 in law enforcement or search and rescue duties;  
9 or

10           “(C) vessels with foreign sovereign immu-  
11 nity, as reflected under international law.

12           “(g) STATUTORY CONSTRUCTION.—

13           “(1) IN GENERAL.—Nothing in this section  
14 shall be interpreted or implemented in a manner  
15 that—

16           “(A) subject to paragraph (2), preempts or  
17 modifies any obligation of any person subject to  
18 the provisions of this title to act in accordance  
19 with applicable State laws, except to the extent  
20 that those laws are inconsistent with any provi-  
21 sion of this title, and then only to the extent of  
22 the inconsistency;

23           “(B) affects or modifies any obligation  
24 under Federal law; or

1           “(C) preempts or supersedes the final rule  
2           titled ‘To Implement Speed Restrictions to Re-  
3           duce the Threat of Ship Collisions With North  
4           Atlantic Right Whales’, codified at section  
5           224.105 of title 50, Code of Federal Regula-  
6           tions, except for actions that are more protec-  
7           tive than the Final Rule and further reduce the  
8           risk of take to North Atlantic right whales.

9           “(2) INCONSISTENCIES.—The Secretary may  
10          determine whether inconsistencies referred to in  
11          paragraph (1)(A) exist, but may not determine that  
12          any State law is inconsistent with any provision of  
13          this title if the Secretary determines that such law  
14          gives greater protection to covered marine species  
15          and their habitat.

16          “(h) PRIORITY SPECIES.—For the purposes of this  
17          section, the term ‘priority species’ means, at a minimum,  
18          all Mysticeti species and species within the genera  
19          Physeter and Trichechus.

20          “(i) AUTHORIZATION OF APPROPRIATIONS.—There is  
21          authorized to be appropriated—

22                 “(1) to the Secretary to carry out this section,  
23                 \$3,000,000 for each of fiscal years 2022 through  
24                 2026; and

1           “(2) to the Commandant of the Coast Guard to  
2           carry out this section, \$3,000,000 for each of fiscal  
3           years 2024 through 2026.”.

5           in the first section of such Act is further amended by in-  
6           serting after the item relating to section 120 the following:

“Sec. 121. Vessel speed restrictions in marine mammal habitat.”.

11          lizing and coordinating with the Integrated Ocean Observ-  
12          ing System, the Office of National Marine Sanctuaries,  
13          and the Department of Defense, to—

14                 (1) provide grants to expand the deployment of  
15                 Federal and non-Federal observing and data man-  
16                 agement systems capable of collecting measurements  
17                 of underwater sound in high-priority ocean and

20                 soundscape to protect and manage marine life;

21                 (2) continue to develop and apply standardized  
22                 forms of measurements to assess sounds produced  
23                 by marine animals, physical processes, and anthro-  
24                 pogenic activities; and

1 quantifiably reduce threats and enhance the habitats of  
2 marine mammals by—

3           (1) reducing underwater stressors related to  
4 marine traffic;

5           (2) reducing vessel strike mortality and other  
6 physical disturbances;

7           (3) enhancing marine mammal habitat, includ-  
8 ing the habitat for prey of marine mammals; or

9           (4) monitoring sound, vessel interactions with  
10 marine mammals, or other types of monitoring that  
11 are consistent with reducing the threats to and en-  
12 hancing the habitats of marine mammals.

13       (c) PRIORITY.—The Administrator and the Director  
14 of the Fish and Wildlife Service shall prioritize assistance  
15 under this section for projects that—

16           (1) assist ports with higher relative threat levels  
17 to vulnerable marine mammals from vessel traffic;

18           (2) reduce disturbance from vessel presence or  
19 mortality risk from vessel strikes, and are in close  
20 proximity to National Marine Sanctuaries, Marine  
21 National Monuments, National Parks, National  
22 Wildlife Refuges, and other federal, state, and local  
23 marine protected areas; and

24           (3) allow eligible entities to conduct risk assess-

15 authorized to be appropriated to the Administrator, for  
16 carrying out this section, \$5,000,000 for each of fiscal  
17 years 2022 through 2026, to remain available until ex-  
18 pended.

19 **SEC. 5705. NEAR REAL-TIME MONITORING AND MITIGATION**  
20 **PROGRAM FOR LARGE WHALES.**

21 (a) ESTABLISHMENT OF THE PROGRAM.—The Ad-  
22 ministrator, in coordination with the Secretary of Defense  
23 and the heads of other relevant Federal departments and  
24 agencies, shall design and deploy a Near Real-Time Large  
25 Whale Monitoring and Mitigation Program in order to

1 curtail the risk to large whales of vessel collisions, entan-  
2 glement in commercial fishing gear, and to minimize other  
3 impacts, including but not limited to underwater noise  
4 from development activities. Such program shall be capa-  
5 ble of detecting and alerting ocean users and enforcement  
6 agencies of the location of large whales on a near real-  
7 time basis, informing sector-specific mitigation protocols  
8 that can effectively reduce take of large whales, and con-  
9 tinually integrating improved technology. The program  
10 shall be informed by the technologies, monitoring methods,  
11 and mitigation protocols developed pursuant to the pilot  
12 program required in subsection (b).

13 (b) PILOT PROJECT.—In carrying out subsection (a),  
14 the Administrator shall first establish a pilot monitoring  
15 and mitigation project for North Atlantic right whales for  
16 the purposes of informing a cost-effective, efficient and re-  
17 sults-oriented near real-time monitoring and mitigation  
18 program for large whales.

19 (1) PILOT PROJECT REQUIREMENTS.—In de-  
20 signing and deploying the monitoring system, the  
21 Administrator, in coordination with the heads of  
22 other relevant Federal departments and agencies,  
23 shall, using best available scientific information,  
24 identify and ensure coverage of—

1 (A) core foraging habitats of North Atlan-  
2 tic right whales, including but not limited to—

3 (i) the “South of the Islands” core  
4 foraging habitat;

5 (ii) the “Cape Cod Bay Area” core  
6 foraging habitat;

7 (iii) the “Great South Channel” core  
8 foraging habitat; and

9 (iv) the Gulf of Maine; and

10 (B) important feeding, breeding, calving,  
11 rearing, or migratory habitats of North Atlantic  
12 right whales that co-occur with areas of high  
13 risk of mortality, injury, or harassment of such  
14 whales from vessel strikes, disturbance from de-  
15 velopment activities, and entanglement in com-  
16 mercial fishing gear.

17 (2) PILOT PROJECT MONITORING COMPO-  
18 NENTS.—

19 (A) IN GENERAL.—Within 3 years after  
20 the date of the enactment of this Act, the Ad-  
21 ministrators, in consultation with relevant Fed-  
22 eral agencies, Tribal governments, and with  
23 input from affected stakeholders, shall design  
24 and deploy a real-time monitoring system for  
25 North Atlantic right whales that includes near

1 real-time monitoring methods, technologies, and  
2 protocols that—

3 (i) comprise sufficient detection  
4 power, spatial coverage and survey effort  
5 to detect and localize North Atlantic right  
6 whales within core foraging habitats;

7 (ii) are capable of detecting North At-  
8 lantic right whales visually, including dur-  
9 ing periods of poor visibility and darkness,  
10 and acoustically;

11 (iii) take advantage of dynamic habi-  
12 tat suitability models that help to discern  
13 the likelihood of North Atlantic right whale  
14 occurrence in core foraging habitat at any  
15 given time;

16 (iv) coordinate with the Integrated  
17 Ocean Observing System to leverage moni-  
18 toring assets;

19 (v) integrate new near real-time moni-  
20 toring methods and technologies as they  
21 become available;

22 (vi) accurately verify and rapidly com-  
23 municate detection data; and

24 (vii) allow for ocean users to con-  
25 tribute data that is verified to be collected

1           using comparable near real-time moni-  
2           toring methods and technologies.

3           (B) NATIONAL SECURITY CONSIDER-  
4           ATIONS.—All monitoring methods, technologies,  
5           and protocols under subparagraph (A) shall be  
6           consistent with national security considerations  
7           and interests.

8           (3) PILOT PROGRAM MITIGATION PROTOCOLS.—  
9           The Secretary shall, in consultation with the Sec-  
10          retary of Homeland Security, Secretary of Defense,  
11          Secretary of Transportation, and Secretary of the  
12          Interior, and with input from affected stakeholders,  
13          develop and deploy mitigation protocols that make  
14          use of the near real-time monitoring system to direct  
15          sector-specific mitigation measures that avoid and  
16          significantly reduce risk of injury and mortality to  
17          North Atlantic right whales.

5 **SEC. 6430. GRANTS TO STATES FOR SEAL OF BILITERACY**  
6 **PROGRAMS.**

7 (a) FINDINGS.—Congress finds the following:

8 (1) The people of the United States celebrate  
9 cultural and linguistic diversity and seek to prepare  
10 students with skills to succeed in the 21st century.

11 (2) It is fitting to commend the dedication of  
12 students who have achieved proficiency in multiple  
13 languages and to encourage their peers to follow in  
14 their footsteps.

15 (3) The congressionally requested Commission  
16 on Language Learning, in its 2017 report “Amer-  
17 ica’s Languages: Investing in Language Education  
18 for the 21st Century”, notes the pressing national  
19 need for more people of the United States who are  
20 proficient in two or more languages for national se-  
21 curity, economic growth, and the fulfillment of the  
22 potential of all people of the United States.

23 (4) The Commission on Language Learning  
24 also notes the extensive cognitive, educational, and  
25 employment benefits deriving from biliteracy.

1           (5) Biliteracy in general correlates with higher  
2           graduation rates, higher grade point averages, high-  
3           er rates of matriculation into higher education, and  
4           higher earnings for all students, regardless of back-  
5           ground.

6           (6) The study of America's languages in ele-  
7           mentary and secondary schools should be encouraged  
8           because it contributes to a student's cognitive devel-  
9           opment and to the national economy and security.

10          (7) Recognition of student achievement in lan-  
11          guage proficiency will enable institutions of higher  
12          education and employers to readily recognize and ac-  
13          knowledge the valuable expertise of bilingual stu-  
14          dents in academia and the workplace.

15          (8) States such as Utah, Arizona, Washington,  
16          and New Mexico have developed innovative testing  
17          methods for languages, including Native American  
18          languages, where no formal proficiency test currently  
19          exists.

20          (9) The use of proficiency in a government-rec-  
21          ognized official Native American language as the  
22          base language for a Seal of Biliteracy, with pro-  
23          ficiency in any additional partner language dem-  
24          onstrated through tested proficiency, has been suc-  
25          cessfully demonstrated in Hawaii.

20 (d) APPROPRIATE CONGRESSIONAL COMMITTEES  
21 DEFINED.—In this section, the term “appropriate con-  
22 gressional committees” means—

23 (1) the Committee on Foreign Relations and  
24 the Committee on Appropriations of the Senate; and

1           (2) the Committee on Foreign Affairs and the  
2           Committee on Appropriations of the House of Rep-

4 **SEC. 6483. SENSE OF CONGRESS ON THE USE OF THE DE-**  
5                           **FENSE PRODUCTION ACT OF 1950 FOR GLOB-**  
6                           **AL VACCINE PRODUCTION.**

7           (a) FINDINGS.—The Congress finds the following:

8                   (1) As President Biden has stated, “We know  
9           America will never be fully safe until the pandemic  
10          that is raging globally is under control. No ocean is  
11          wide enough, no wall is high enough to keep us  
12          safe.”.

13                  (2) More than 600,000 Americans have already  
14          died from COVID–19. Already, more Americans  
15          have died from COVID–19 than from World War I,  
16          World War II, the Vietnam War, and 9/11 com-  
17          bined. The continued replication of SARS-CoV-2  
18          abroad increases the likelihood of a harmful muta-  
19          tion that renders current vaccines ineffective. A new  
20          variant could be more transmissible and cause more  
21          severe disease, posing a higher risk to the millions  
22          of Americans who have not been vaccinated, like the  
23          Delta variant.

24                  (3) Approximately 11 billion doses are needed  
25          to vaccinate the world’s population, but to date, the

1 US government has donated just 40 million doses.  
2 More recent promises by the G7 would only deliver  
3 an additional one billion doses by the end of 2022.

4 (4) Sharing manufacturing know-how and ex-  
5 pertise is critical to quickly ramping up production.  
6 Expanding the world's manufacturing capacity is  
7 critical because donations and bilateral agreements  
8 to increase vaccine doses in low- and middle-income  
9 countries cannot quickly meet the global demand.

10 (5) The U.S. Government, as the largest  
11 coronavirus research and development funder in the  
12 world, is uniquely positioned to push companies to  
13 share the knowledge required to end the pandemic.

14 (6) Manufacturers around the world have af-  
15 firmed that they can help ramp up production if  
16 they have access to technology. According to the  
17 World Health Organization, 19 manufacturers from  
18 more than a dozen countries in Africa, Asia, and  
19 Latin America have expressed interest in ramping  
20 up mRNA vaccine production. The Biden adminis-  
21 tration has also urged companies to share tech-  
22 nology. But vaccine originator corporations have  
23 been reluctant to share technology.

24 (7) The Defense Production Act of 1950 pro-  
25 vides the President with broad authority to support

1 the nation’s defense. The Defense Production Act of  
2 1950’s definition of “national defense” includes  
3 “military or critical infrastructure assistance to any  
4 foreign nation”.

5 (8) The Defense Production Act of 1950 em-  
6 powers the President to directly “allocate materials,  
7 services, and facilities” to promote national defense  
8 needs. The Act defines “materials” to include “any  
9 technical information or services ancillary to the use  
10 of any such materials”.

11 (9) The Defense Production Act of 1950 has  
12 been used repeatedly to prioritize contracts and or-  
13 ders from U.S. companies to foreign nations.

14 (b) SENSE OF CONGRESS.—It is the sense of Con-  
15 gress that the President should make full use of the Presi-  
16 dent’s authority under the Defense Production Act of  
17 1950 to scale vaccine production and deployment globally,  
18 which will save millions of lives and protect Americans  
19 from the risk of emerging viral threats.

22           protect the United States research enter-

12                  group established under subsection (a).

14                  cial resources needed to establish the enti-  
15                  ty.

17                  for the entity.

18                  “(v) Whether and how the entity  
19                  can—

20                           “(I) enable informed, proactive,  
21                           and unbiased risk assessment for and  
22                           by the United States research enter-  
23                           prise;

24                           “(II) in coordination with the  
25                           interagency working group established

1 under subsection (a), the Federal

3 group, and the roundtable under this  
4 subsection, promote actionable and

15 or Federal law requires an individual to appear personally  
16 before or be in the physical presence of a notary public

22 public at the time of the notarization by using  
23 communication technology; and

16 State or Federal law other than this title for any reason  
17 not specified in this title, including on the basis—

8           (a) **IN GENERAL.**—A State law may modify, limit, or

1 **SEC. 7102. SENSE OF CONGRESS ON IMPORTANCE OF DE-**  
2 **PARTMENT OF STATE'S WORK.**

3 It is the sense of Congress that—

4 (1) United States global engagement is key to  
5 a stable and prosperous world;

6 (2) United States leadership is indispensable in  
7 light of the many complex and interconnected  
8 threats facing the United States and the world;

9 (3) diplomacy and development are critical tools  
10 of national power, and full deployment of these tools  
11 is vital to United States national security;

12 (4) challenges such as the global refugee and  
13 migration crises, terrorism, historic famine and food  
14 insecurity, and fragile or repressive societies cannot  
15 be addressed without sustained and robust United  
16 States diplomatic and development leadership;

17 (5) the United States Government must use all  
18 of the instruments of national security and foreign  
19 policy at its disposal to protect United States citi-  
20 zens, promote United States interests and values,  
21 and support global stability and prosperity;

22 (6) United States security and prosperity de-  
23 pend on having partners and allies that share our in-  
24 terests and values, and these partnerships are nur-  
25 tured and our shared interests and values are pro-  
26 moted through United States diplomatic engage-

1       ment, security cooperation, economic statecraft, and  
2       assistance that helps further economic development,  
3       good governance, including the rule of law and  
4       democratic institutions, and the development of  
5       shared responses to natural and humanitarian disas-  
6       ters;

7               (7) as the United States Government agencies  
8       primarily charged with conducting diplomacy and  
9       development, the Department and the United States  
10      Agency for International Development (USAID) re-  
11      quire sustained and robust funding to carry out this  
12      important work, which is essential to our ability to  
13      project United States leadership and values and to  
14      advance United States interests around the world;

15              (8) the work of the Department and USAID  
16      makes the United States and the world safer and  
17      more prosperous by alleviating global poverty and  
18      hunger, fighting HIV/AIDS and other infectious dis-  
19      eases, strengthening alliances, expanding educational  
20      opportunities for women and girls, promoting good  
21      governance and democracy, supporting anti-corrup-  
22      tion efforts, driving economic development and  
23      trade, preventing armed conflicts and humanitarian  
24      crises, and creating American jobs and export oppor-  
25      tunities;

1           (9) the Department and USAID are vital na-  
2           tional security agencies, whose work is critical to the  
3           projection of United States power and leadership  
4           worldwide, and without which Americans would be  
5           less safe, United States economic power would be di-  
6           minished, and global stability and prosperity would  
7           suffer;

8           (10) investing in diplomacy and development  
9           before conflicts break out saves American lives while  
10          also being cost-effective; and

11          (11) the contributions of personnel working at  
12          the Department and USAID are extraordinarily val-  
13          uable and allow the United States to maintain its  
14          leadership around the world.

15 **SEC. 7103. BUREAU OF DEMOCRACY, HUMAN RIGHTS, AND**

14          (5) conduct regular consultation with civil soci-

16          disability rights and empower persons with disabil-  
17          ities internationally;

18          (6) consult with other relevant offices at the

24 gional Cooperation Agreement on Combating Piracy and  
25 Armed Robbery against Ships in Asia (ReCAAP).

1 **SEC. 7108. IMPORTANCE OF FOREIGN AFFAIRS TRAINING**  
2 **TO NATIONAL SECURITY.**

3 (a) SENSE OF CONGRESS.—It is the sense of Con-  
4 gress that—

5 (1) the Department is a crucial national secu-  
6 rity agency, whose employees, both Foreign and Civil  
7 Service, require the best possible training at every  
8 stage of their careers to prepare them to promote  
9 and defend United States national interests and the  
10 health and safety of United States citizens abroad;

11 (2) the Department of State’s investment of  
12 time and resources with respect to the training and  
13 education of its personnel is considerably below the  
14 level of other Federal departments and agencies in  
15 the national security field, and falls well below the  
16 investments many allied and adversarial countries  
17 make in the development of their diplomats;

18 (3) the Department faces increasingly complex  
19 and rapidly evolving challenges, many of which are  
20 science and technology-driven, and which demand  
21 the continual, high-quality training and education of  
22 its personnel;

23 (4) the Department must move beyond reliance  
24 on “on-the-job training” and other informal  
25 mentorship practices, which lead to an inequality in  
26 skillset development and career advancement oppor-

1       tunities, often particularly for minority personnel,  
2       and towards a robust professional tradecraft train-  
3       ing continuum that will provide for greater equality  
4       in career advancement and increase minority partici-  
5       pation in the senior ranks;

6               (5) the Department’s Foreign Service Institute  
7       and other training facilities should seek to substan-  
8       tially increase its educational and training offerings  
9       to Department personnel, including developing new  
10      and innovative educational and training courses,  
11      methods, programs, and opportunities; and

12              (6) consistent with existing Department gift ac-  
13      ceptance authority and other applicable laws, the  
14      Department and Foreign Service Institute may ac-  
15      cept funds and other resources from foundations,  
16      not-for-profit corporations, and other appropriate  
17      sources to help the Department and the Institute en-  
18      hance the quantity and quality of training offerings,  
19      especially in the introduction of new, innovative, and  
20      pilot model courses.

21              (b) TRAINING FLOAT.—Not later than 90 days after  
22      the date of the enactment of this Act, the Secretary of  
23      State shall develop and submit to the appropriate congres-  
24      sional committees a strategy to establish a “training float”  
25      to allow for up to 15 percent of the Civil and Foreign

1 Service to participate in long-term training at any given  
2 time. The strategy should identify steps necessary to en-  
3 sure implementation of the training priorities identified in  
4 subsection (c), sufficient training capacity and opportuni-  
5 ties are available to Civil and Foreign Service officers, eq-  
6 uitable distribution of long-term training opportunities to  
7 Civil and Foreign Service officers, and any additional re-  
8 sources or authorities necessary to facilitate such a train-  
9 ing float, including programs at the George P. Schultz Na-  
10 tional Foreign Affairs Training Center, the Foreign Serv-  
11 ice Institute, the Foreign Affairs Security Training Cen-  
12 ter, and other facilities or programs operated by the De-  
13 partment of State. The strategy shall identify which types  
14 of training would be prioritized, the extent (if any) to  
15 which such training is already being provided to Civil and  
16 Foreign Service officers by the Department of State, any  
17 factors incentivizing or disincentivizing such training, and  
18 why such training cannot be achieved without Civil and  
19 Foreign Service officers leaving the workforce. In addition  
20 to training opportunities provided by the Department, the  
21 strategy shall consider training that could be provided by  
22 the other United States Government training institutions,  
23 as well as non-governmental educational institutions. The  
24 strategy shall consider approaches to overcome disincen-  
25 tives to pursuing long-term training.

1 (c) PRIORITIZATION.—In order to provide the Civil  
2 and Foreign Service with the level of education and train-  
3 ing needed to effectively advance United States interests  
4 across the globe, the Department of State should—

5 (1) increase its offerings—

6 (A) of virtual instruction to make training  
7 more accessible to personnel deployed through-  
8 out the world; or

9 (B) at partner organizations to provide  
10 useful outside perspectives to Department per-  
11 sonnel;

12 (2) offer courses utilizing computer-based or as-  
13 sisted simulations, allowing civilian officers to lead  
14 decision-making in a crisis environment; and

15 (3) consider increasing the duration and ex-  
16 panding the focus of certain training courses, includ-  
17 ing—

18 (A) the A-100 orientation course for For-  
19 eign Service officers, and

20 (B) the chief of mission course to more ac-  
21 curately reflect the significant responsibilities  
22 accompanying such role.

23 (d) OTHER AGENCY RESPONSIBILITIES.—Other na-  
24 tional security agencies should increase the enrollment of  
25 their personnel in courses at the Foreign Service Institute

1 and other Department of State training facilities to pro-  
2 mote a whole-of-government approach to mitigating na-  
3 tional security challenges.

4 **SEC. 7109. CLASSIFICATION AND ASSIGNMENT OF FOREIGN**  
5 **SERVICE OFFICERS.**

6 The Foreign Service Act of 1980 is amended—

7 (1) in section 501 (22 U.S.C. 3981), by insert-  
8 ing “If a position designated under this section is  
9 unfilled for more than 365 calendar days, such posi-  
10 tion may be filled, as appropriate, on a temporary  
11 basis, in accordance with section 309.” after “Posi-  
12 tions designated under this section are excepted  
13 from the competitive service.”; and

14 (2) in paragraph (2) of section 502(a) (22  
15 U.S.C. 3982(a)), by inserting “, or domestically, in  
16 a position working on issues relating to a particular  
17 country or geographic area,” after “geographic  
18 area”.

22          (6) A serious risk factor for spillover events  
23          also relates to the collection, production, commercial  
24          trade, and sale for human consumption of wildlife  
25          that may transmit to zoonotic pathogens to humans

1 that may then replicate and be transmitted within  
2 the human population.

3 (7) Such a risk factor is increased if it involves  
4 wildlife that—

5 (A) does not ordinarily interact with hu-  
6 mans; or

7 (B) lives under a stressful condition, as  
8 such condition exacerbates the shedding of  
9 zoonotic pathogens.

10 (8) Markets for such wildlife to be sold for  
11 human consumption are found in many countries.

12 (9) In some communities, such wildlife may be  
13 the only accessible source of high quality nutrition.

14 (10) The public health emergency has resulted  
15 in—

16 (A) trillions of dollars in economic damage  
17 to the United States; and

18 (B) the deaths of hundreds of thousands of  
19 American citizens.

22                           cols or agreements; and

23                           (ii) expanding combating wildlife traf-

23 eral relationships to support new and existing  
24 inter-ministerial collaborations or task forces

1 that can serve as regional One Health models;  
2 or

3 (E) building local agricultural capacity by

16 tegrity of such ecosystems;

25 struction, degradation, fragmentation, or con-

1 version of intact forests and other intact eco-  
2 systems and biodiversity strongholds, including  
3 by governments, private sector entities, and  
4 multilateral development financial institutions;

5 (3) offer alternative livelihood and worker train-
