22 servicemembers performance, promotion rate, mis-  
23 conduct, and retention is critical to propelling the

1 to create and sustain an intellectual overmatch in to-  
2 day's warfighting domains.

3 (5) The Naval Postgraduate School serves as a  
4 converging point for all branches of the United  
5 States military while simultaneously offering innova-

7 ideal testing ground to evaluate the potential bene-  
8 fits of expanding enlisted higher education across  
9 the Joint Force.

18 **SEC. 599. SENSE OF CONGRESS REGARDING WOMEN INVOL-**  
19 **UNTARILY SEPARATED FROM THE ARMED**  
20 **FORCES DUE TO PREGNANCY OR PARENT-**  
21 **HOOD.**

22 (a) **FINDINGS.**—Congress finds the following:

23 (1) In June 1948, Congress enacted the Wom-  
24 en’s Armed Services Integration Act of 1948, which  
25 formally authorized the appointment and enlistment

1 of women in the regular components of the Armed  
2 Forces.

3 (2) With the expansion of the Armed Forces to  
4 include women, the possibility arose for the first  
5 time that members of the regular components of the  
6 Armed Forces could become pregnant.

7 (3) The response to such possibilities and actu-  
8 alities was Executive Order 10240, signed by Presi-  
9 dent Harry S. Truman in 1951, which granted the  
10 Armed Forces the authority to involuntarily separate  
11 or discharge a woman if she became pregnant, gave  
12 birth to a child, or became a parent by adoption or  
13 a stepparent.

14 (4) The Armed Forces responded to the Execu-  
15 tive order by systematically discharging any woman  
16 in the Armed Forces who became pregnant, regard-  
17 less of whether the pregnancy was planned, un-  
18 planned, or the result of sexual abuse.

19 (5) Although the Armed Forces were required  
20 to offer women who were involuntarily separated or  
21 discharged due to pregnancy the opportunity to re-  
22 quest retention in the military, many such women  
23 were not offered such opportunity.

24 (6) The Armed Forces did not provide required  
25 separation benefits, counseling, or assistance to the

1 members of the Armed Forces who were separated  
2 or discharged due to pregnancy.

3 (7) Thousands of members of the Armed  
4 Forces were involuntarily separated or discharged  
5 from the Armed Forces as a result of pregnancy.

6 (8) There are reports that the practice of the  
7 Armed Forces to systematically separate or dis-  
8 charge pregnant members caused some such mem-  
9 bers to seek an unsafe or inaccessible abortion,  
10 which was not legal at the time, or to put their chil-  
11 dren up for adoption, and that, in some cases, some  
12 women died by suicide following their involuntary  
13 separation or discharge from the Armed Forces.

14 (9) Such involuntary separation or discharge  
15 from the Armed Forces on the basis of pregnancy  
16 was challenged in Federal district court by Steph-  
17 anie Crawford in 1975, whose legal argument stated  
18 that this practice violated her constitutional right to  
19 due process of law.

20 (10) The Court of Appeals for the Second Cir-  
21 cuit ruled in Stephanie Crawford's favor in 1976  
22 and found that Executive Order 10240 and any reg-  
23 ulations relating to the Armed Forces that made  
24 separation or discharge mandatory due to pregnancy  
25 were unconstitutional.

1           (11) By 1976, all regulations that permitted in-  
2           voluntary separation or discharge of a member of  
3           the Armed Forces because of pregnancy or any form  
4           of parenthood were rescinded.

5           (12) Today, women comprise 17 percent of the  
6           Armed Forces, and many are parents, including 12  
7           percent of whom are single parents.

8           (13) While military parents face many hard-  
9           ships, today's Armed Forces provides various lengths  
10          of paid family leave for mothers and fathers, for  
11          both birth and adoption of children.

12          (b) SENSE OF CONGRESS.—It is the sense of Con-  
13          gress that women who served in the Armed Forces before  
14          February 23, 1976, should not have been involuntarily  
15          separated or discharged due to pregnancy or parenthood.

16          (c) EXPRESSION OF REMORSE.—Congress hereby ex-  
17          presses deep remorse for the women who patriotically  
18          served in the Armed Forces, but were forced, by official  
19          United States policy, to endure unnecessary and discrimi-  
20          natory actions, including the violation of their constitu-  
21          tional right to due process of law, simply because they be-  
22          came pregnant or became a parent while a member of the  
23          Armed Forces.

1 **SEC. 599A. ARMED FORCES WORKPLACE AND GENDER RE-**  
2 **LATIONS SURVEYS.**

3 Subsection (c) of section 481 of title 10, United  
4 States Code, is amended—

5 (1) by redesignating paragraphs (3), (4), and  
6 (5) as paragraphs (4), (5), and (6), respectively; and

7 (2) by inserting after paragraph (2) the fol-  
8 lowing new paragraph:

9 “(3) Indicators of the assault (including un-  
10 wanted sexual contact) that give reason to believe  
11 that the victim was targeted, or discriminated  
12 against, or both, for a real or perceived status in a  
13 minority group based on race, color, national origin,  
14 religion, sex (including gender identity, sexual ori-  
15 entation, or sex characteristics), and any other fac-  
16 tor considered appropriate by the Secretary.”.

6 to African American participation and equal treatment in  
7 the Armed Services.

8 (c) STUDIES AND INVESTIGATIONS.—

9 (1) INVESTIGATION OF HISTORICAL RECORD OF  
10 SLAVERY.—As part of its duties, the Task Force

13 ing the military or Armed Service’s involvement in  
14 the institution of slavery. The Task Force’s docu-  
15 mentation and examination shall include facts re-  
16 lated to—

17 (A) the capture and procurement of Afri-  
18 cans;

19 (B) the transport of Africans to the United  
20 States and the colonies that became the United  
21 States for the purpose of enslavement, including  
22 their treatment during transport;

23 (C) the sale and acquisition of Africans  
24 and their descendants as chattel property in  
25 interstate and intrastate commerce;

1           (D) the treatment of African slaves and  
2           their descendants in the colonies and the  
3           United States, including the deprivation of their  
4           freedom, exploitation of their labor, and de-  
5           struction of their culture, language, religion,  
6           and families; and

7           (E) the extensive denial of humanity, sex-  
8           ual abuse, and the chattelization of persons.

9           (2) STUDY OF EFFECTS OF DISCRIMINATORY  
10          POLICIES IN THE ARMED SERVICES.—As part of its  
11          duties, the Task Force shall study and analyze the  
12          official policies or routine practices of the Armed  
13          Services with discriminatory intent or discriminatory  
14          effect on the formerly enslaved Africans and their  
15          descendants in the Armed Services following the  
16          overdue recognition of such persons as United States  
17          citizens beginning in 1868.

18          (3) STUDY OF OTHER FORMS OF DISCRIMINA-  
19          TION.—As part of its duties, the Task Force shall  
20          study and analyze the other forms of discrimination  
21          in the Armed Services against freed African slaves  
22          and their descendants who were belatedly accorded  
23          their rightful status as United States citizens from  
24          1868 to the present.

1           (4) STUDY OF LINGERING EFFECTS OF DIS-  
2           CRIMINATION.—As part of its duties, the Task Force  
3           shall study and analyze the lingering negative effects  
4           of the institution of slavery and the matters de-  
5           scribed in the preceding paragraphs on living Afri-  
6           can Americans and their participation in the Armed  
7           Services.

8           (d) RECOMMENDATIONS FOR REMEDIES.—

12          propriate remedies to the Secretary.

13          (2) ISSUES ADDRESSED.—In recommending  
14          remedies under this subsection, the Task Force shall  
15          address the following:

16                 (A) How Federal laws and policies that  
17                 continue to disproportionately and negatively  
18                 affect African Americans as a group in the  
19                 Armed Services, and those that perpetuate the  
20                 lingering effects, materially and psycho-socially,  
21                 can be eliminated.

22                 (B) How the injuries resulting from the  
23                 matters described in subsection (c) can be re-

25                 and projects.

1           (C) How, in consideration of the Task

3 for inequities to the descendants of enslaved Af-  
4 ricans.

5           (D) The form of that repair which should  
6 be awarded, the instrumentalities through

23           (1) COMPOSITION.—The Task Force shall be  
24 composed of such number of members as the Sec-

1 **SEC. 599C. PLAN TO COMBAT RACIAL BIAS, DISCRIMINA-**  
2 **TION, AND HARASSMENT AGAINST ASIAN**  
3 **AMERICAN SERVICE MEMBERS, CIVILIANS,**  
4 **AND CONTRACTOR PERSONNEL.**

5 (a) SENSE OF CONGRESS.—It is the sense of Con-  
6 gress that:

7 (1) Asian American service members, civilians,  
8 and contractors serve with honor and distinction in  
9 the Department of Defense.

10 (2) Asian Americans continue to be underrep-  
11 resented in the Department of Defense and other  
12 national security agencies, especially at senior lead-  
13 ership and general and flag officer levels.

14 (3) Greater recruitment, retention, and inclu-  
15 sion of Asian American personnel, particularly those  
16 with language skills and cultural competencies, is  
17 critical to implementation of the Administration's  
18 Interim National Security Strategic Guidance and  
19 National Defense Strategy, both of which place  
20 greater emphasis on strategic competition in the  
21 Indo-Pacific region.

22 (4) The Department of Defense has a responsi-  
23 bility to take meaningful action in addressing the  
24 higher rates of racially or ethnically rooted bias, dis-  
25 crimination, and harassment experienced and re-  
26 ported by service members, civilians, and contractor

1 personnel of Asian American descent, especially  
2 women.

3 (5) Protecting and upholding our values in di-  
4 versity, equity, and inclusion at home are essential  
5 to our efforts in promoting democracy and inclusion  
6 abroad.

7 (b) PLAN REQUIRED.—Not later than 180 days after  
8 the date of the enactment of this Act, the Secretary of  
9 Defense shall—

10 (1) submit to the congressional defense commit-  
11 tees a report that includes—

12 (A) an assessment of the extent to which  
13 Department of Defense service members, civil-  
14 ians, and contractor personnel experience anti-  
15 Asian bias, discrimination, or harassment, in-

7 activities have impacted the Russian private  
8 military companies’ behavior; and

9           “(D) all foreign persons engaged signifi-  
10 cantly with Russian private military compa-  
11 nies.”; and

12           (2) in subsection (e)—

13           (A) in paragraph (1), by inserting “, the  
14 Permanent Select Committee on Intelligence,”  
15 after “the Committee on Armed Services”; and

16           (B) in paragraph (2), by inserting “, the  
17 Select Committee on Intelligence,” after “the  
18 Committee on Armed Services”.

19           (e) REPORT ON LESSONS LEARNED FROM WAR.—

20 Not later than 1 year after the date of the enactment of  
21 this Act, the Secretary of Defense, in coordination with  
22 the Secretary of each military department, shall submit  
23 to the appropriate congressional committees an assess-  
24 ment of lessons learned by the respective military depart-

1 ments from the conflict following the Russian invasion of  
2 Ukraine that includes the following:

3           (1) Lessons learned from intelligence-sharing  
4 activities conducted between the United States,  
5 NATO, the European Union, and Ukraine through-  
6 out the conflict.

7           (2) Observed tactics and techniques of informa-  
8 tion-related capabilities and the integration of infor-  
9 mation-related capabilities in supporting Ukraine ob-  
10 jectives.

11           (3) Analysis of the capabilities, tactics, and  
12 techniques implemented throughout the conflict fol-  
13 lowing the Russian invasion of Ukraine, from each  
14 military department, with a focus on the Army,  
15 Navy, and Air Force.

16           (4) Analysis of all collected information to iden-  
17 tify recurring strengths and weaknesses in United  
18 States and NATO tactics, training, and equipment.

19           (5) Recommendations to address any corrective  
20 actions.

21           (f) FORM; PUBLICATION.—The report required by  
22 subsection (e) shall be submitted in unclassified form but  
23 may include a classified annex. The unclassified portion  
24 of such report shall be published on a publicly accessible  
25 website of the Department of Defense.

1 (g) SENSE OF CONGRESS.—It is the sense of Con-  
2 gress that—

3 (1) the United States could greatly benefit from  
4 on-the-ground combat observations of the conflict  
5 following the Russian invasion of Ukraine to learn  
6 lessons about modern warfare between near-peer ad-  
7 versaries, and successful and unsuccessful aspects of  
8 both sides' tactics, operations, and strategy;

9 (2) expert projections of how this conflict was  
10 likely to unfold were inaccurate, suggesting the  
11 United States has many lessons to learn from this  
12 conflict;

13 (3) the Department of Defense should, when  
14 feasible, organize Combat Observation Teams, who  
15 should be given battlefield access as non-combatants,  
16 with specialized skill sets to collect information, in-  
17 cluding by conducting first-person interviews, or  
18 other conflict-specific assessments and observations;

19 (4) such collection and observations should  
20 occur after the conflict has largely subsided, and the  
21 physical, political, and escalatory risk of sending an  
22 American combat observer team is sufficiently low;

23 (5) such teams should consist of talented senior  
24 officers and non-commissioned officers with appro-  
25 priate experience and specialties for their task;

1           (6) Combat Observation Teams should be en-  
2           couraged to interview Ukrainian military members,  
3           and civilians, conduct site surveys, and work with  
4           the United States embassy and other allied countries  
5           as appropriate; and

6           (7) the time is ripe for an infusion of lessons  
7           from Ukraine, and observations could ensure the  
8           United States is prepared for the future of modern  
9           warfare and conflict.

12 in a Group of Seven proceeding; or

14 includes the Russian Federation.

15 **SEC. 1240. CONDEMNING DETENTION AND INDICTMENT OF**  
16 **RUSSIAN OPPOSITION LEADER VLADIMIR**  
17 **VLADIMIROVICH KARA-MURZA.**

18 (a) FINDINGS.—Congress finds the following:

19 (1) Vladimir Vladimirovich Kara-Murza (re-  
20 ferred to in this section as “Mr. Kara-Murza”) has  
21 tirelessly worked for decades to advance the cause of  
22 freedom, democracy, and human rights for the peo-  
23 ple of the Russian Federation.

24 (2) In retaliation for his advocacy, two attempts  
25 have been made on Mr. Kara-Murza’s life, as—

1 (A) on May 26, 2015, Mr. Kara-Murza fell  
2 ill with symptoms indicative of poisoning and  
3 was hospitalized; and

4 (B) on February 2, 2017, he fell ill with  
5 similar symptoms and was placed in a medically  
6 induced coma.

7 (3) Independent investigations conducted by  
8 Bellingcat, the Insider, and Der Spiegel found that  
9 the same unit of the Federal Security Service of the  
10 Russian Federation responsible for poisoning Mr.  
11 Kara-Murza was responsible for poisoning Russian  
12 opposition leader Alexei Navalny and activists Timur  
13 Kuashev, Ruslan Magomedragimov, and Nikita  
14 Isayev.

15 (4) On February 24, 2022, Vladimir Putin  
16 launched another unprovoked, unjustified, and illegal  
17 invasion into Ukraine in contravention of the obliga-  
18 tions freely undertaken by the Russian Federation to  
19 respect the territorial integrity of Ukraine under the  
20 Budapest Memorandum of 1994, the Minsk proto-  
21 cols of 2014 and 2015, and international law.

22 (5) On March 5, 2022, Vladimir Putin signed  
23 a law criminalizing the distribution of truthful state-  
24 ments about the invasion of Ukraine by the Russian

1 Federation and mandating up to 15 years in prison  
2 for such offenses.

3 (6) Since February 24, 2022, Mr. Kara-Murza  
4 has used his voice and platform to join more than  
5 15,000 citizens of the Russian Federation in peace-  
6 fully protesting the war against Ukraine and mil-  
7 lions more who silently oppose the war.

8 (7) On April 11, 2022, five police officers ar-  
9 rested Mr. Kara-Murza in front of his home and de-  
10 nied his right to an attorney, and the next day Mr.  
11 Kara-Murza was sentenced to 15 days in prison for  
12 disobeying a police order.

13 (8) On April 22, 2022, the Investigative Com-  
14 mittee of the Russian Federation charged Mr. Kara-  
15 Murza with violations under the law signed on  
16 March 5, 2022, for his fact-based statements con-  
17 demning the invasion of Ukraine by the Russian  
18 Federation.

19 (9) Mr. Kara-Murza was then placed into pre-  
20 trial detention and ordered to be held until at least  
21 June 12, 2022.

22 (10) If convicted of those charges, Mr. Kara-  
23 Murza faces detention in a penitentiary system that  
24 human rights nongovernmental organizations have

1 criticized for widespread torture, ill-treatment, and  
2 suspicious deaths of prisoners.

3 (b) SENSE OF CONGRESS.—It is the sense of Con-  
4 gress that Congress—

5 (1) condemns the unjust detention and indict-  
6 ing of Russian opposition leader Vladimir  
7 Vladimirovich Kara-Murza, who has courageously  
8 stood up to oppression in the Russian Federation;

9 (2) expresses solidarity with Vladimir  
10 Vladimirovich Kara-Murza, his family, and all indi-  
11 viduals in the Russian Federation imprisoned for ex-  
12 ercising their fundamental freedoms of speech, as-  
13 sembly, and belief;

14 (3) urges the United States Government and  
15 other allied governments to work to secure the im-  
16 mediate release of Vladimir Vladimirovich Kara-  
17 Murza, Alexei Navalny, and other citizens of the  
18 Russian Federation imprisoned for opposing the re-  
19 gime of Vladimir Putin and the war against  
20 Ukraine; and

21 (4) calls on the President to increase support  
22 provided by the United States Government for those  
23 advocating for democracy and independent media in  
24 the Russian Federation, which Vladimir  
25 Vladimirovich Kara-Murza has worked to advance.

1 **SEC. 1241. TASK FORCE TO TRACK SECURITY ASSISTANCE**  
2 **TO UKRAINE.**

3 (a) IN GENERAL.—Not later than 90 days after the  
4 date of the enactment of this Act, the President shall sub-  
5 mit to the congressional defense committees a report on  
6 best practices for creating a Task Force or Working  
7 Group to determine how to track and monitor United  
8 States defense articles and defense services made available  
9 to Ukraine. Such report shall also identify gaps or needs  
10 for greater research investment in developing predictive  
11 modeling that can forecast the movement of weapons, to  
12 be used for weapons tracking in Ukraine and in future  
13 conflicts where the United States provides security assist-  
14 ance.

15 (b) IMPLEMENTATION.—Not later than 180 days  
16 after the date of the submission of the report required by

20 gressional defense committees quarterly updates on the

24 (a) IN GENERAL.—The Secretary of Defense Depart-  
25 ment shall provide Congress with a risk assessment on the  
26 likelihood of the use of a nuclear weapon as a result of

1 the Russian invasion of Ukraine and whether and by how  
2 much this risk increases the longer that the war continues.

3 (b) FORM.—The report required by subsection (a)  
4 shall be submitted in unclassified form but may include  
5 a classified annex.

6 **SEC. 1243. REPORT ON DISTRIBUTION AND USE OF WEAP-**  
7 **ONS IN UKRAINE.**

9 submit a report to Congress describing—

10 (1) the distribution and use of United States  
11 weaponry provided to the Ukrainian military includ-  
12 ing compliance with United States law, including  
13 those prohibiting such weaponry from being provided  
14 to extremist groups; and

15 (2) any efforts underway to prevent the illicit  
16 distribution or use of such weapons and the effec-  
17 tiveness of any such efforts.

18 (b) FORM.—The report required by subsection (a)  
19 shall be submitted in unclassified form but may include  
20 a classified annex.

21 **SEC. 1244. REPORT FROM COUNCIL OF THE INSPECTORS**  
22 **GENERAL ON UKRAINE.**

23 Not later than September 1, 2024, the Chairperson  
24 of the Council of the Inspectors General on Integrity and  
25 Efficiency shall submit to the congressional defense com-

1 mittees, the Committee on Foreign Affairs of the House  
2 of Representatives, and the Committee on Foreign Rela-  
3 tions of the Senate a report on the oversight infrastructure  
4 established with respect to United States assistance to  
5 Ukraine, that also includes the following:

6           (1) the structure the Federal Government is  
7           currently using or plans to adopt (including the spe-  
8           cific agencies charged) to oversee the expenditure of  
9           assistance to Ukraine;

10           (2) whether that oversight structure is best  
11           suited to conduct such oversight;

12           (3) whether there are any gaps in oversight  
13           over the expenditure of funds for assistance to  
14           Ukraine;

15           (4) whether the agencies identified pursuant to  
16           paragraph (1) are positioned to be able to accurately  
17           oversee and track United States assistance to  
18           Ukraine over the long term; and

19           (5) the lessons learned from the manner in  
20           which oversight over expenditures of assistance to

3   **SEC. 1261. SENSE OF CONGRESS ON UNITED STATES DE-**  
4                           **FENSE POSTURE IN EUROPE FOLLOWING**  
5                           **THE FURTHER INVASION OF UKRAINE.**

6           It is the sense of Congress as follows:

7                   (1) The further invasion of Ukraine presents a  
8           sea change to the security environment in Europe  
9           that requires a long-term shift in the force posture  
10          of the United States and its allies, in order to ensure  
11          the maintenance of collective deterrence. As General  
12          Milley, Chairman of the Joint Chiefs, recently noted,  
13          “We are witness to the greatest threat to peace and  
14          security of Europe and perhaps the world in my 42  
15          years of service in uniform. The Russian invasion of  
16          Ukraine is threatening to undermine not only Euro-  
17          pean peace and stability but global peace and sta-  
18          bility. \* \* \* We are at a pivot point in the  
19          geostrategic history of Europe and perhaps the  
20          globe.”.

21                   (2) Adjustments to force posture in Europe  
22          must be commensurate to this challenge. Alongside  
23          allied investments, it is necessary for the United  
24          States to alter its force posture to establish addi-  
25          tional permanently stationed and continuous rota-

1 tional forces along Europe’s eastern flank. Given the  
2 current conditions, it would be untenable for the  
3 United States to seek to revert to United States  
4 force levels and positioning present in Europe before  
5 Russia’s further invasion of Ukraine, to rely solely  
6 on allied forces for further force posture enhance-  
7 ments, or adopt a path to transition away from in-  
8 vestments in Europe through the European Deter-  
9 rence Initiative (EDI), except for exceptional cases.

10 (3) As General Tod Wolters, Commander of  
11 U.S. European Command, has stated, investments  
12 made through EDI since 2014 have proved essential  
13 to the United States ability to respond to the  
14 Ukraine crisis, deploying units in 5 days that would  
15 have taken as long as 21 days. General Wolters fur-  
16 ther stated, “To take an Armored Brigade Combat  
17 Team and launch it from the continental United  
18 States, and put it on European turf, and have the  
19 tanks that comprise that Brigade Combat Team to  
20 shoot, move, and communicate and fire on range in  
21 one week is an amazing accomplishment. And that  
22 was facilitated by those Army Prepositioned Stocks  
23 and it was practiced in previous exercises which are  
24 part of the EDI fund. I would just say that when  
25 we demonstrated to the European community, and

1 to the NATO community, and to the world how well  
2 we can shoot, move, and communicate and transition  
3 a large force from CONUS to Europe at that pace,  
4 it's something that demonstrates the great value of  
5 EDI.”.

6 (4) Past decisions made by the Department of  
7 Defense and Congress about prepositioned stocks,  
8 mobility, and funding for EDI led directly to this  
9 ability to quickly reinforce the area of operations in  
10 this crisis, and EDI investments will be crucial for  
11 adaptation to the new European security environ-  
12 ment. The Department of Defense should continue  
13 to strongly support EDI investments with a focus on  
14 adapting deterrence to the new security environment  
15 and incorporating lessons learned from the conflict  
16 in Ukraine, and it should not seek a path to EDI's  
17 sunset.

18 (5) The United States recognizes that strong  
19 alliances and partnerships are crucial to the mainte-  
20 nance of United States national and global security.  
21 The NATO alliance has grown more robust and  
22 more united in response to Russia's aggression in  
23 Ukraine. Members of NATO have announced sub-  
24 stantial changes in their defense commitments,  
25 adopting measures to meet and exceed their Wales

1 Pledge commitments to spend 2 percent of Gross  
2 Domestic Product on defense and increasing com-  
3 mitments to NATO battle group and air policing  
4 missions, while sending vital defense assistance to  
5 Ukraine. Congress commends such members of  
6 NATO for their adoption and sustainment of these  
7 efforts. Such commitments are vital to the long-term  
8 effort required to maintain deterrence in the Euro-  
9 pean theater. The United States should continue to  
10 work with allies on complementary investments to  
11 establish in Europe a mature, fully integrated deter-  
12 rence platform capable of responding to the ex-  
13 panded threat of Russian aggression and supporting  
14 NATO allies' ongoing efforts to collectively resist di-  
15 rect and hybrid threats to shared values, interests,  
16 and ideals.

17 (6) The United States should also redouble ef-  
18 forts to assist NATO allies, particularly on Europe's  
19 eastern periphery, in modernizing and integrating  
20 their defense capabilities taking into account lessons  
21 from Russia's war in Ukraine, including efforts to  
22 provide artillery, MLRS, MANPADS, air defenses,  
23 and other capabilities.

24 (7) As it reinforces deterrence, the United  
25 States should recognize the acute risks now facing

1 allies on Russia’s periphery and pursue national se-  
2 curity investments and strategies commensurate to  
3 the challenge, including additional EDI programs, in  
4 the Black Sea, the Baltics, the Arctic, and Central  
5 Europe, in order to maintain the credibility of the  
6 “sacred obligation under Article 5 of the North At-  
7 lantic Treaty to defend every inch of NATO terri-  
8 tory.”.

9 (8) Likewise, the United States should keep in  
10 mind the particularly significant challenges posed to  
11 non-NATO European partners and seek security  
12 strategies to continue cooperation and support their  
13 sovereign rights, while also pursuing security policies  
14 that support stability in areas of substantial malign  
15 effort such as the Western Balkans.

16 (9) The United States continues to recognize  
17 the importance of the long-term Baltic Security Ini-  
18 tiative assistance plan that the Department of De-  
19 fense is carrying out under section 333 of title 10,  
20 United States Code, and the crucial role that such  
21 investments play in deterring Russian aggression in  
22 that region.

1 **SEC. 1262. SENSE OF CONGRESS ON NATO MEMBERSHIP**  
2 **FOR FINLAND AND SWEDEN.**

3 It is the sense of Congress that the United States  
4 strongly supports membership for Finland and Sweden in  
5 the North Atlantic Treaty Organization (NATO).

6 **SEC. 1263. MATTERS RELATING TO CLIMATE CHANGE AT**  
7 **NATO.**

8 The President shall direct the United States Perma-  
9 nent Representative to the North Atlantic Treaty Organi-  
10 zation (NATO) to—

11 (1) advocate for adequate resources towards un-  
12 derstanding and communicating the threat posed by  
13 climate change to allied civil security (specifically for  
14 the climate action and resilience agendas);

15 (2) support the establishment of a NATO Cen-  
16 ter of Excellence for Climate and Security;

17 (3) advocate for an in-depth critical assessment  
18 of NATO's vulnerability to the impacts of climate  
19 change, building upon the Secretary General's 2022  
20 climate change and security impact assessment, that  
21 evaluates and analyzes NATO's resilience in re-  
22 sponding to the threat climate change will pose on  
23 migration, food insecurity, and housing insecurity;  
24 and

1           (4) communicate the core security challenge  
2           posed by climate change as articulated in NATO's  
3           strategic concept.

4 **SEC. 1264. BALTIC REASSURANCE ACT.**

5           (a) FINDINGS.—Congress finds the following:

6           (1) The Russian Federation seeks to diminish  
7           the North Atlantic Treaty Organization (NATO)  
8           and recreate its sphere of influence in Europe using  
9           coercion, intimidation, and outright aggression.

10          (2) Deterring the Russian Federation from  
11          such aggression is vital for transatlantic security.

12          (3) The illegal occupation of Crimea by the  
13          Russian Federation and its continued engagement of  
14          destabilizing and subversive activities against inde-  
15          pendent and free states is of increasing concern.

16          (4) The Russian Federation also continues to  
17          disregard treaties, international laws and rights to  
18          freedom of navigation, territorial integrity, and sov-  
19          ereign international borders.

20          (5) The Russian Federation's continued occupa-  
21          tion of Georgian and Ukrainian territories and the  
22          sustained military buildup in the Russian Federa-  
23          tion's Western Military District and Kaliningrad has  
24          threatened continental peace and stability.

1           (6) The Baltic countries of Estonia, Latvia, and  
2           Lithuania are particularly vulnerable to an increas-  
3           ingly aggressive and subversive Russian Federation.

4           (7) In a declaration to celebrate 100 years of  
5           independence of Estonia, Latvia, and Lithuania  
6           issued on April 3, 2018, the Trump Administration  
7           reaffirmed United States commitments to these Bal-  
8           tic countries to “improve military readiness and ca-  
9           pabilities through sustained security assistance” and  
10          “explore new ideas and opportunities, including air  
11          defense, bilaterally and in NATO, to enhance deter-  
12          rence across the region”.

13          (8) These highly valued NATO allies of the  
14          United States have repeatedly demonstrated their  
15          commitment to advancing mutual interests as well  
16          as those of the NATO alliance.

17          (9) The Baltic countries also continue to par-  
18          ticipate in United States-led exercises to further pro-  
19          mote coordination, cooperation, and interoperability  
20          among allies and partner countries, and continue to  
21          demonstrate their reliability and commitment to pro-  
22          vide for their own defense.

23          (10) Lithuania, Latvia, and Estonia each hosts  
24          a respected NATO Center of Excellence that pro-

1       vides expertise to educate and promote NATO allies  
2       and partners in areas of vital interest to the alliance.

3           (11) United States support and commitment to  
4       allies across Europe has been a lynchpin for peace  
5       and security on the continent for over 70 years.

6       (b) SENSE OF CONGRESS.—It is the sense of Con-  
7       gress as follows:

8           (1) The United States is committed to the secu-  
9       rity of the Baltic countries and should strengthen  
10      cooperation and support capacity-building initiatives  
11      aimed at improving the defense and security of such  
12      countries.

13          (2) The United States should lead a multilat-  
14      eral effort to develop a strategy to deepen joint ca-  
15      pabilities with Lithuania, Latvia, Estonia, NATO al-  
16      lies, and other regional partners, to deter against ag-  
17      gression from the Russian Federation in the Baltic  
18      region, specifically in areas that would strengthen  
19      interoperability, joint capabilities, and military readi-  
20      ness necessary for Baltic countries to strengthen  
21      their national resilience.

22          (3) The United States should explore the feasi-  
23      bility of providing long range, mobile air defense sys-  
24      tems in the Baltic region, including through  
25      leveraging cost-sharing mechanisms and multilateral

1 deployment with NATO allies to reduce financial  
2 burdens on host countries.

3 (c) DEFENSE ASSESSMENT.—

4 (1) IN GENERAL.—Not later than 1 year after  
5 the date of the enactment of this Act, the Secretary

9 other regional partners, conduct a comprehensive,  
10 multilateral assessment of the military requirements  
11 of such countries to deter and resist aggression by  
12 the Russian Federation that—

15 fectiveness, readiness, and interoperability of  
16 Lithuania, Latvia, and Estonia's national de-  
17 fense capabilities; and

18 (B) assesses the manner in which to meet  
19 those objectives, including future resource re-  
20 quirements and recommendations, by under-  
21 taking activities in the following areas:

23 and forward presence, improve the capa-

2                   forces of NATO in the Baltic region.

12                  ing secure and hardened communications.

22                  (viii) Investments to ammunition  
23                  stocks and storage.

1 (ix) Activities and training to enhance  
2 cyber security and electronic warfare capa-  
3 bilities.

4 (x) Bilateral and multilateral training  
5 and exercises.

6 (xi) New and existing cost-sharing  
7 mechanisms with United States and  
8 NATO allies to reduce financial burden.

12 **SEC. 1267. SENSE OF CONGRESS ON ENHANCING STRA-**  
13 **TEGIC PARTNERSHIP, DEFENSE AND SECU-**  
14 **RITY COOPERATION WITH GEORGIA.**

15 (a) FINDINGS.—Congress finds the following:

16 (1) Georgia is a valued friend and strategic  
17 partner of the United States and a NATO aspirant  
18 that has consistently sought to advance shared val-  
19 ues and mutual interests to include deploying along-  
20 side United States forces in Iraq and Afghanistan.

21 (2) Over the past 30 years of partnership, the  
22 United States has contributed to strengthening  
23 Georgia’s progress on the path of European and  
24 Euro-Atlantic integration.

1           (3) Security in the Black Sea region is a matter  
2 of strategic importance for the United States, espe-  
3 cially amid Russia’s unprovoked and unjustified war  
4 on Ukraine. Enhancing Georgia’s self-defense and  
5 whole-of-government resistance and resilience capac-  
6 ity is critical for Euro-Atlantic security, the United  
7 States’s national security objectives and strategic in-  
8 terests in the Black Sea region.

9           (4) Georgia is a significant economic, energy  
10 transit, and international trade hub. Georgia is an  
11 integral part of the East-West corridor that is vital  
12 to European energy security and diversification of  
13 strategic supply-chain routes for the United States  
14 and Europe.

15           (5) Continuous illegal occupation of two Geor-  
16 gian regions by Russia, its accelerated attempts of  
17 de-facto annexation of both regions and hybrid war-  
18 fare tactics including political interference, cyber-at-  
19 tacks, and disinformation and propaganda cam-  
20 paigns pose immediate challenges to the national se-  
21 curity of Georgia and the security of Europe.

22           (b) SENSE OF CONGRESS.—It is the sense of Con-  
23 gress that the United States should—

24           (1) reaffirm support and take steps to enhance  
25 and deepen the steadfast strategic partnership in all

1 priority areas of the 2009 United States—Georgia  
2 Charter on Strategic Partnership and in line with  
3 the 2016 Memorandum of Understanding on Deep-  
4 ening the Defense and Security Partnership between  
5 the United States and Georgia;

6 (2) continue firm support to Georgia’s sov-  
7 ereignty and territorial integrity within its inter-  
8 nationally recognized borders;

9 (3) intensify efforts towards de-occupation of  
10 Georgia’s territories and peaceful resolution of Rus-  
11 sia-Georgia conflict, including through consolidation  
12 of decisive international action to ensure full and un-  
13 conditional fulfilment by the Russian Federation of  
14 its international obligations, inter alia implementa-  
15 tion of the EU-mediated 12 August 2008 Ceasefire  
16 Agreement;

17 (4) continue strong support and meaningful  
18 participation in the Geneva International Discus-  
19 sions for ensuring implementation of the Ceasefire  
20 Agreement by the Russian Federation and achieving  
21 lasting peace and security in Georgia;

22 (5) continue working to strengthen press free-  
23 dom, democratic institutions, and the rule of law in  
24 Georgia in order to help secure its path of Euro-At-

1 atlantic integration and aspirant NATO and EU mem-  
2 bership;

3 (6) prioritize and deepen defense and security  
4 cooperation with Georgia, including the full imple-  
5 mentation and potential acceleration of the Georgia  
6 Defense and Deterrence Enhancement Initiative, in-  
7 creased military financing of Georgia's equipment  
8 modernization plans to enhance Georgia's deter-  
9 rence, territorial defense, whole-of-government re-  
10 sistance and resilience capacity, and to foster readi-  
11 ness and NATO interoperability;

12 (7) support existing and new cooperation for-  
13 mats to bolster cooperation among NATO, Georgia  
14 and Black Sea regional partners to enhance Black  
15 Sea security especially in the changed security envi-  
16 ronment including increasing the frequency, scale  
17 and scope of exercises such as NATO Article 5 exer-  
18 cises and assistance to Georgia's Defense Forces  
19 modernization efforts;

20 (8) enhance assistance to Georgia in the cyber  
21 domain through training, education, and technical  
22 assistance to enable Georgia to prevent, mitigate and  
23 respond to cyber threats; and

24 (9) continue support and assistance to Georgia  
25 in countering Russian disinformation and propa-

1       ganda campaigns intended to undermine the sov-  
2       ereignty of Georgia, credibility of its democratic in-  
3       stitutions and European and Euro-Atlantic integra-  
4       tion.

5       **SEC. 1268. REPORT ON IMPROVED DIPLOMATIC RELATIONS**  
6                               **AND DEFENSE RELATIONSHIP WITH ALBA-**  
7                               **NIA.**

8       (a) APPROPRIATE CONGRESSIONAL COMMITTEES.—

9       In this section, the term “appropriate congressional com-  
10       mittees” means—

11               (1) the Committee on Foreign Relations and  
12       the Committee on Armed Services of the Senate; and

13               (2) the Committee on Foreign Affairs and the  
14       Committee on Armed Services of the House of Rep-  
15       resentatives.

16       (b) REPORT.—Not later than 180 days after the date  
17       of the enactment of this Act, the Secretary of Defense,  
18       jointly with the Secretary of State, shall submit to the ap-  
19       propriate congressional committees an assessment of the  
20       viability of military infrastructure in Durrës, Albania, and  
21       Vlorë, Albania, as locations for cooperative security activi-  
22       ties, including NATO activities and exercises that advance  
23       NATO and shared security objectives and enhance inter-  
24       operability. The report shall also include a description  
25       of—

1 (1) opportunities for the United States to sup-

21 **SEC. 1302. SENSE OF CONGRESS ON SOUTH KOREA.**

22 It is the sense of Congress that—

23 (1) South Korea continues to be a critical ally  
24 of the United States;

1           (2) the presence of United States Armed Forces  
2           in South Korea serves as a strong deterrent against  
3           North Korean military aggression and as a critical  
4           support platform for national security engagements  
5           in the Indo-Pacific region;

6           (3) the presence of approximately 28,500 mem-  
7           bers of the United States Armed Forces deployed to  
8           South Korea serves not only as a stabilizing force to  
9           the Korean peninsula but also as a reassurance to  
10          all our allies in the region; and

11          (4) the United States should continue to—

12                (A) maintain and strengthen its bilateral  
13                relationship with South Korea and with other  
14                regional allies such as Japan; and

4 the United States decision to establish diplomatic re-  
5 lations with the People's Republic of China rests

7 be determined by peaceful means, and that any ef-  
8 fort to determine the future of Taiwan by other than  
9 peaceful means, including boycotts and embargoes,  
10 is of grave concern to the United States;

11 (3) the increasingly coercive and aggressive be-  
12 havior of the People's Republic of China toward Tai-  
13 wan is contrary to the expectation of the peaceful  
14 resolution of the future of Taiwan;

16 the capacity to resist any resort to force or other  
17 forms of coercion that would jeopardize the security,  
18 or the social or economic system, of the people on  
19 Taiwan should be maintained;

20 (5) the United States should continue to sup-  
21 port the development of capable, ready, and modern  
22 defense forces necessary for Taiwan to maintain a  
23 sufficient self-defense capability, including by—

24 (A) supporting acquisition by Taiwan of  
25 defense articles and services through foreign

1 military sales, direct commercial sales, and in-  
2 dustrial cooperation, with an emphasis on capa-  
3 bilities that support the asymmetric defense  
4 strategy of Taiwan, including anti-ship, coastal  
5 defense, anti-armor, air defense, undersea war-  
6 fare, advanced command, control, communica-  
7 tions, computers, intelligence, surveillance, and  
8 reconnaissance, and resilient command and con-  
9 trol capabilities;

10 (B) ensuring timely review of and response  
11 to requests of Taiwan for defense articles and  
12 services;

13 (C) conducting practical training and mili-  
14 tary exercises with Taiwan that enable Taiwan  
15 to maintain a sufficient self-defense capability,  
16 as described in the Taiwan Relations Act;

17 (D) exchanges between defense officials  
18 and officers of the United States and Taiwan at  
19 the strategic, policy, and functional levels, con-  
20 sistent with the Taiwan Travel Act (Public Law  
21 115-135; 132 Stat. 341), especially for the pur-

11 assistance and disaster relief; and

12 (6) the United States should be committed to  
13 the defense of a free and open society in the face of  
14 aggressive efforts by the Government of the People's  
15 Republic of China to curtail or influence the free ex-  
16 ercise of rights and democratic franchise.

1 country of Ukraine under the direction of the Presi-

6 erate attacks on civilians, which would constitute a  
7 war crime”.

10 leave Russia \* \* \* leave their market immediately,  
11 because it is flooded with [Ukrainian] blood”.

4 national companies that do business in Russia do  
5 not provide life-saving or health-related goods and  
6 services to the Russian people and contribute to

11          sential step to developing closer partnerships between gov-  
12          ernments, academia, and industry in the United States  
13          and India to address the latest advances in artificial intel-  
14          ligence, quantum computing, biotechnology, aerospace,  
15          and semiconductor manufacturing. Such collaborations be-  
16          tween engineers and computer scientists are vital to help  
17          ensure that the United States and India, as well as other  
18          democracies around the world, foster innovation and facili-  
19          tate technological advances which continue to far outpace

23          that—

25                 border threats from China, with continued military

1 aggression by the Government of China along the  
2 India-China border,

3 (2) India relies on Russian-built weapons for its  
4 national defense, and

5 (3) the United States should take additional  
6 steps to encourage India to accelerate India's transi-  
7 tion off Russian-built weapons and defense systems  
8 while strongly supporting India's immediate defense  
9 needs.

11 TERESTS OF UNITED STATES AND THE UNITED STATES-  
12 INDIA DEFENSE PARTNERSHIP.—While India faces im-  
13 mediate needs to maintain its heavily Russian-built weap-  
14 ons systems, a waiver to sanctions under the Countering  
15 America's Adversaries Through Sanctions Act during this  
16 transition period is in the best interests of the United  
17 States and the United States-India defense partnership to  
18 deter aggressors in light of Russia and China's close part-  
19 nership.

15 “The Council”.

16 **SEC. 1605. RESPONSIVE SPACE DEMONSTRATIONS.**

17 (a) SENSE OF CONGRESS.—It is the sense of Con-  
18 gress that demonstrating the ability of the United States  
19 to rapidly respond to adversarial threats to the space sys-  
20 tems of the United States serves as a compelling strategic  
21 deterrent to adversaries and informs how responsive, resil-  
22 ient, and affordable space and launch capabilities can help  
23 counter growing adversarial threats on an operationally  
24 relevant timeline.

1           (b) ESTABLISHMENT OF PROGRAM.—Not later than  
2 180 days after the date of the enactment of this Act, the  
3 Secretary of Defense, in consultation with the Chief of  
4 Space Operations and the Commander of the United  
5 States Space Command, shall establish a program to dem-  
6 onstrate responsive space capabilities through operational  
7 exercises, wargames, and table-top exercises.

8           (c) INITIAL DEMONSTRATION.—

9           (1) MISSION.—In carrying out the program  
10 under subsection (b), the Secretary shall conduct a  
11 rapid reconstitution deterrence demonstration mis-  
12 sion to—

13                   (A) design, develop, and understand the  
14 benefit of rapid space reconstitution and space  
15 augmentation;

16                   (B) simulate real-world scenarios through  
17 wargames and table-top exercises, including  
18 contested environment scenarios, in which  
19 threats to the space capabilities of the United  
20 States may be offset or mitigated by responsive  
21 space capabilities;

22                   (C) validate the ability to provide an end-  
23 to-end responsive space mission with responsive  
24 launch, satellite deployment, and data to users  
25 within rapid mission call-up timelines; and

1 (D) integrate such launches with the joint  
2 force under simulated contested conditions  
3 through the rapid deployment of launch infra-  
4 structure to existing Major Range and Test Fa-  
5 cility Bases.

6 (2) REPORT.—Not later than 90 days after the  
7 date of the enactment of this Act, the Secretary

9 a report on the mission under paragraph (1), includ-  
10 ing—

11 (A) an assessment of the mission with re-  
12 spect to the operational and strategic benefits  
13 to the space-related missions of the Department  
14 of Defense;

15 (B) a proposed organization and manage-  
16 ment structure of the mission;

17 (C) a timeline for implementing the dem-  
18 onstrations under the mission; and

20 for the demonstrations.

21 **SEC. 1606. ALLIED RESPONSIVE SPACE CAPABILITIES.**

22 (a) SENSE OF CONGRESS.—It is the sense of Con-  
23 gress that—

24 (1) it is in the common interest of the United  
25 States and allies and partners of the United States

1 to strive for accessibility and flexibility for delivering  
2 assets into space on a responsive timeline;

3 (2) the United States should implement joint  
4 United States-allied space missions that demonstrate  
5 rapid, rapid launch, reconstitution and satellite aug-  
6 mentation from locations in the Indo-Pacific, Euro-  
7 pean, and other theaters of operations;

8 (3) the United States should leverage allied and  
9 partner spaceports to diversify and disaggregate  
10 launch sites across the world for a multitude of mis-  
11 sions, including national security missions; and

12 (4) it is important for the United States to  
13 have operational and contracting steps established  
14 with allies and partners to ensure readiness and pre-  
15 paredness for responding to or deterring any un-  
16 known threats.

17 (b) INITIATIVES.—The Secretary of the Defense and  
18 the Secretary of State shall jointly—

19 (1) ensure that responsive space capabilities of  
20 the Department of Defense align with initiatives by  
21 Five Eyes countries, member states of the North At-  
22 lantic Treaty Organization, and other allies to pro-  
23 mote a globally responsive space architecture; and

1           (2) designate a single official responsible for co-  
2           ordinating responsive space activities with allied  
3           partners.

4           (c) REPORT.—Not later than 180 days after the date  
5           of the enactment of this Act, the Secretary of Defense and  
6           the Secretary of State, in coordination with the Com-  
7           mander of the United States European Command, the  
8           Commander of the United States Indo-Pacific Command,  
9           the Commander of the United States Space Command,  
10          and the Secretary of State, shall jointly submit to the con-  
11          gressional defense committees, the Committee on Foreign  
12          Affairs of the House of Representatives, and the Com-  
13          mittee on Foreign Relations of the Senate a report assess-  
14          ing current investments and partnerships by the United  
15          States with allies of the United States with respect to re-  
16          sponsive space efforts. The report shall include the fol-  
17          lowing:

18               (1) An assessment of the benefits of leveraging  
19               allied and partner spaceports for responsive launch.

20               (2) A discussion of current and future plans to  
21               engage with allies and partners with respect to ac-  
22               tivities ensuring rapid reconstitution or augmenta-

24               and allies.

1           (3) An assessment of the shared costs and tech-  
2           nology between the United States and allies, includ-  
3           ing leveraging investments from the Pacific Deter-  
4           rence Initiative and the European Deterrence Initia-  
5           tive.

6           (d) FIVE EYES COUNTRIES DEFINED.—In this sec-  
7           tion, the term “Five Eyes countries” means the following:

9           (2) Canada.

10          (3) New Zealand.

11          (4) The United Kingdom.

12          (5) The United States.

13 **SEC. 1607. REPORT ON TACTICALLY RESPONSIVE SPACE**  
14 **CAPABILITIES.**

15          (a) SENSE OF CONGRESS.—It is the sense of Con-  
16          gress that—

17               (1) the Space Safari tactically responsive  
18               launch-2 mission of the Space Systems Command of  
19               the Space Force successfully demonstrated the abil-  
20               ity of the Space Force to rapidly integrate, launch,  
21               and operate a satellite on orbit on a timeline that  
22               would be needed for rapid reconstitution or to re-  
23               spond to real-time hostile activities occurring in the  
24               domain;

1           (2) the Space Force should continue these ef-  
2           forts, and broaden the program beyond the logistics  
3           of launch and operations to also focus on lifecycle  
4           concepts of operation, as well as any contractual  
5           mechanisms that should be required in future pro-  
6           grams to take into account the need for rapid recon-  
7           stitution and responsiveness;

8           (3) the Chief of Space Operations should for-  
9           malize tactically responsive requirements for all  
10          space capabilities carried out under title 10, United  
11          States Code; and

12          (4) to take into totality the effort required for  
13          tactically responsive launch, the Space Force should  
14          consider adding a corresponding budget line item for  
15          “Tactically Responsive Space” to fund areas beyond  
16          launch that would contribute to responsive space ac-  
17          tivities.

18          (b) REPORT.—Not later than 30 days after the date  
19          on which the budget of the President for fiscal year 2024  
20          is submitted to Congress pursuant to section 1105 of title  
21          31, United States Code, the Chief of Space Operations  
22          shall submit to the congressional defense committees a re-  
23          port on planned tactically responsive space activities pur-  
24          suant to section 1609 of the William M. (Mac) Thornberry  
25          National Defense Authorization Act for Fiscal Year 2021

1 (Public Law 116–283; 10 U.S.C. 2271 note) included dur-  
2 ing the period covered by the most recent future-years de-  
3 fense program submitted under section 221 of title 10,  
4 United States Code (as of the date of the report), includ-  
5 ing a detailed budget plan for launch activities and all  
6 other efforts needed to enable tactically responsive space  
7 capabilities.

8 **SEC. 1608. SENSE OF CONGRESS ON RANGE OF THE FU-**  
9 **TURE AND SUPPORT TO COMMERCIAL SPACE**  
10 **LAUNCH ACTIVITY.**

11 It is the sense of Congress that—

12 (1) section 1610 of the National Defense Au-  
13 thorization Act for Fiscal Year 2022 contained a  
14 provision requiring the United States Space Force to  
15 deliver a report on its Range of the Future initia-  
16 tive;

17 (2) based on the details in that report, that the  
18 Nation’s launch service providers, consistent with  
19 decades of national policy, now lead the world in  
20 space access, that United States leadership in this  
21 strategic capability is critical to national security  
22 and economic vitality, and that it is critical to the  
23 Nation to continue encouraging and enabling United  
24 States space access capabilities to flourish and ex-  
25 pand;

1           (3) the rapid growth of the commercial launch  
2 industry places a growing demand on Department of  
3 Defense resources at Federal space launch ranges,  
4 and that this demand growth will continue for the  
5 foreseeable future;

6           (4) the 1960s-era infrastructure of the two De-  
7 partment of Defense launch ranges primarily respon-  
8 sible for meeting its assured access to space mission  
9 under section 2273 of title 10, United States Code,  
10 and complying with section 2276 of such title, is  
11 under increasing strain, and needs to be replaced  
12 with a modern, state of the art launch infrastructure  
13 that encourages and enables continued growth and  
14 leadership in space access;

15           (5) maintenance of common use critical infra-  
16 structure like roads, culverts, bridges, deluge and  
17 water treatment facilities, supply lines, and electrical  
18 networks, among others, require immediate atten-  
19 tion;

20           (6) investments in infrastructure have not kept  
21 pace with commercial demand primarily due to exist-  
22 ing authorities which limit reimbursement, flexible  
23 financial investment facilities, and reinvestment of  
24 revenue in spaceport sustainment, modernization,  
25 and growth;

1           (7) the burgeoning commercial space industry  
2 requires a more holistic, responsive process  
3 leveraging public and private investment;

4           (8) the Department of Defense is constrained to  
5 provide services to commercial users only when not  
6 needed for public use, yet at the same time must  
7 promote commercial space launch capabilities as a  
8 critical enabler to national security;

9           (9) the United States Space Force has made  
10 great use of existing authorities and those provided  
11 by other non-Federal entities to leverage other  
12 sources of commercial and State investment to keep  
13 pace with demand;

14           (10) a similar State business development enti-  
15 ty would be useful for supporting commercial space  
16 launch capability development in California at Van-  
17 denberg Space Force Base and other spaceports,  
18 and Congress looks forward to assisting the Depart-  
19 ment of Defense in improving its ability to plan and  
20 support commercial innovation while continuing to  
21 provide world class launch and test facilities; and

22           (11) the Secretary and the Department should  
23 engage with all stakeholders, including NASA, other  
24 relevant Federal agencies, and the associated con-  
25 gressional authorizing committees of jurisdiction, in

1 any reporting, negotiation, policy, and potential leg-  
2 islative proposals on this matter.

3 **SEC. 1609. REPORT ON HYPERSPECTRAL SATELLITE TECH-**  
4 **NOLOGY.**

5 Not later than 180 days after the date of enactment  
6 of this Act, the Secretary of Defense shall submit to the  
7 congressional defense committees a report on how  
8 hyperspectral satellite technology being developed and  
9 tested by domestic commercial satellite companies may be  
10 incorporated in the Department of Defense's existing and  
11 future greenhouse gas reduction efforts.

12 **SEC. 1610. REPORT ON SPACE DEBRIS.**

19 diation of such risks; and

20 (2) outlines of plans to reduce the incident of  
21 such space debris.

2           Committee on Science, Space, and Technology of the  
3           House of Representatives; and

4           (2) the Committee on Armed Services and Com-  
5           mittee on Commerce, Science, and Transportation of  
6           the Senate.

19           nications technologies that may support current and  
20           future requirements of special operations forces.

21           (2) PLAN ELEMENTS.—The plan submitted  
22           under paragraph (1) shall include the following:

23                   (A) A description of authorities that would  
24                   be used to execute the proposed pilot program.

1 (B) A timeline for the implementation and  
2 duration of the proposed pilot program.

3 (C) An identification of the dedicated X-

9 proposed pilot program.

10 (E) A comprehensive description and as-  
11 sessment of the proposed pilot program.

12 (F) Such recommendations for legislative  
13 or administrative action the Assistant Secre-

15 the feasibility of—

16 (i) extending the term of the proposed  
17 pilot program; or

18 (ii) expanding the proposed pilot pro-  
19 gram to other activities of the Department  
20 of Defense beyond special operations  
21 forces.

22           “(C) If the assessment under subparagraph

9 **SEC. 1634. NUCLEAR-CAPABLE SEA-LAUNCHED CRUISE MIS-**  
10 **SILE.**

11 (a) FINDINGS.—Congress finds the following:

12 (1) Several senior military officers, including  
13 the Chairman and Vice Chairman of the Joint  
14 Chiefs of Staff and the Commander of United States  
15 Strategic Command, have offered their support for  
16 continued research and development of a nuclear-ca-  
17 pable sea-launched cruise missile to strengthen nu-  
18 clear deterrence.

19 (2) Deploying a nuclear-capable sea-launched  
20 cruise missile on naval vessels would “not come  
21 without a cost”, as was testified by Chief of Naval  
22 Operations Admiral Mike Gilday. Admiral Gilday de-  
23 scribed the challenges associated with training, sus-  
24 tainability, reliability, and readiness that would be  
25 associated with adding a nuclear mission and went

1 on to say that he was “not convinced yet that we  
2 need to make a \$31,000,000,000 investment in that  
3 particular system to close that particular gap”. In-  
4 stead, he recommended keeping “a small amount of  
5 money” for research and development of the nuclear-  
6 capable sea-launched cruise missile as the Depart-  
7 ment of Defense seeks to better understand the im-  
8 plications of living with two nuclear-armed peer com-  
9 petitors.

10 (b) REPORTS.—

11 (1) DETERRENCE.—Not later than 270 days  
12 after the date of the enactment of this Act, the Sec-  
13 retary of the Defense shall submit to the congress-  
14 sional defense committees a report that describes the  
15 approach by the Department of Defense for deter-  
16 ring theater nuclear employment by Russia and  
17 China, including—

18 (A) an assessment of the current and fu-  
19 ture theater nuclear capabilities and doctrine of  
20 Russia and China;

21 (B) an explanation of the strategy and ca-  
22 pabilities of the United States for deterring the-  
23 ater nuclear employment; and

24 (C) a comparative assessment of options  
25 for strengthening deterrence of theater nuclear

1 employment, including pursuit of the nuclear-  
2 capable sea-launched cruise missile and other  
3 potential changes to the nuclear and conven-  
4 tional posture and capabilities of the United  
5 States.

6 (2) COST.—Not later than 270 days after the  
7 date of the enactment of this Act, the Secretary of  
8 the Navy shall submit to the congressional defense  
9 committees a report that describes the full cost of  
10 developing, producing, fielding, and maintaining nu-  
11 clear-capable sea-launched cruise missiles through at  
12 least 2050, including—

13 (A) the costs associated with research and  
14 development and production of the missile;

15 (B) the costs associated with modifications  
16 to port infrastructure;

17 (C) the costs associated with nuclear cer-  
18 tification, personnel training, and operations;  
19 and

20 (D) any other incremental costs compared  
21 to sustaining and operating nonnuclear naval  
22 vessels.

23 (3) OPERATIONAL LIMITATIONS.—Not later  
24 than 270 days after the date of the enactment of  
25 this Act, the Secretary of the Navy shall submit to

1 the congressional defense committees a report that  
2 describes any operational limitations and trade-offs  
3 that would be associated with deploying nuclear-ca-  
4 pable sea-launched cruise missiles on naval vessels,  
5 including—

6 (A) the effect of allocating missile or tor-  
7 pedo tubes from conventional munitions to nu-  
8 clear munitions;

9 (B) operational constraints and trade-offs  
10 associated with reserving or limiting naval ves-  
11 sels on account of nuclear mission require-  
12 ments;

13 (C) trade-offs in posture and capabilities  
14 that the Navy would likely face if the Navy had  
15 to allocate more resources to a nuclear-capable  
16 missiles; and

17 (D) any other issues identified by the Sec-  
18 retary.

19 (4) DEVELOPMENT.—Not later than 270 days  
20 after the date of the enactment of this Act, the Ad-  
21 ministrator for Nuclear Security shall submit to the  
22 congressional defense committees a report that de-  
23 scribes the cost and timeline of developing and pro-  
24 ducing a warhead for a nuclear-capable sea-launched  
25 cruise missile, including—

1 (A) the cost of developing, producing, and  
2 sustaining the warhead;

3 (B) the timeline for the design, production,  
4 and fielding of the warhead; and

5 (C) an assessment of how the pursuit of  
6 the warhead would affect other planned war-  
7 head activities of the National Nuclear Security  
8 Administration, including whether there would  
9 be risk to the cost and schedule of other war-  
10 head programs of the Administration if the Ad-  
11 ministrator added a nuclear-capable sea-  
12 launched cruise missile warhead to the portfolio  
13 of such programs.

14 (5) PREFERRED COURSE OF ACTION.—To in-  
15 form the reports under this subsection, not later  
16 than 30 days after the date of the enactment of this  
17 Act, the Secretary of Defense shall submit to the  
18 congressional defense committees a report identi-  
19 fying one or more preferred courses of action from  
20 among the actions identified in the analysis of alter-  
21 natives for a nuclear-capable sea-launched cruise  
22 missile.

23 (c) LIMITATION.—

9 ing the nuclear-capable sea-launched cruise mis-  
10 sile, have been submitted to the congressional  
11 defense committees; and

12 (B) the Secretary of Defense, in coordina-  
13 tion with the Administrator for Nuclear Secu-  
14 rity, certifies to the congressional defense com-  
15 mittees that the development and deployment of  
16 a nuclear-capable sea-launched cruise missile is  
17 required to meet a valid military requirement  
18 and would not create significant risk to conven-  
19 tional or nuclear deterrence by constraining  
20 conventional military operations or trading-off  
21 with the pursuit of other conventional or nu-  
22 clear military capabilities.

23 (2) FUNDS SPECIFIED.—The purposes specified  
24 in this paragraph are the following:

1 (A) With respect to the Department of De-  
2 fense, system development and demonstration  
3 of a nuclear-capable sea-launched cruise missile.

21 Act for Fiscal Year 2018 (Public Law 115–91; 10 U.S.C.  
22 4205 note) is amended by striking subsection (b).

23   **SEC. 1642. FIRE CONTROL ARCHITECTURES.**

24           (a) SENSE OF CONGRESS.—It is the sense of Con-  
25 gress that—

1           (1) the new missile track and warning architec-  
2           ture in the budget request of the President for fiscal  
3           year 2023 makes a needed and significant shift to  
4           a more resilient and robust capability that will be  
5           necessary to address future threats in the domain;

6           (2) the tranche 1 and 2 capabilities of the  
7           Space Development Agency are critical to such new  
8           architecture and should continue to be funded ap-  
9           propriately to deliver missile track and warning ca-  
10          pability from low-Earth orbit in the mid-2020s time-  
11          frame;

12          (3) section 1645 of the William M. (Mac)  
13          Thornberry National Defense Authorization Act for  
14          Fiscal Year 2021 (Public Law 116–283; 134 Stat.  
15          4062) directs the Director of the Missile Defense  
16          Agency to develop a sensor payload to be integrated  
17          into architecture of the Space Development Agency  
18          or Space Force to provide fire control quality data  
19          that would enable the interception of both ballistic  
20          and hypersonic threats;

21          (4) as the Space Warfighting Analysis Center  
22          of the Space Force reviews candidate architectures  
23          for fire control quality data, the Center should take  
24          into account the investment made to date and capa-  
25          bility being developed by the hypersonic and ballistic

1 tracking space sensor program for integration into  
2 the future architecture; and

3 (5) the Center should also consider current or  
4 planned programs of the intelligence community that  
5 could be integrated to increase the ability to con-  
6 tribute to fire control architectures of the Depart-  
7 ment of Defense.

8 (b) FIRE CONTROL QUALITY DATA REQUIRE-  
9 MENT.—In carrying out the analysis of candidate fire con-  
10 trol architectures, the Secretary of the Air Force shall en-  
11 sure that the Director of the Space Warfighting Analysis  
12 Center of the Space Force, at a minimum, maintains the  
13 requirements needed for the missile defense command and  
14 control, battle management, and communications system  
15 to pass the needed quality data within the timelines need-  
16 ed for current and planned interceptor systems to support  
17 engagements of ballistic and hypersonic threats as de-  
18 scribed in section 1645 of the William M. (Mae) Thorn-  
19 berry National Defense Authorization Act for Fiscal Year  
20 2021 (Public Law 116–283; 134 Stat. 4062).

21 (c) BRIEFING.—Not later than 14 days after the date  
22 on which the Director of the Space Warfighting Analysis  
23 Center concludes the analysis of candidate fire control ar-  
24 chitectures, the Director shall provide to the Committees  
25 on Armed Services of the House of Representatives and

1 the Senate a briefing on the results of the analysis, includ-  
2 ing the findings of the Director and the architecture rec-  
3 ommended by the Director for a future fire control archi-  
4 tecture to support engagement of ballistic and hypersonic  
5 threats.

8 **THORITY DESIGNATION RELATING TO CAPA-**  
9 **BILITY TO DEFEND THE HOMELAND FROM**  
10 **CRUISE MISSILES.**

11 (a) FINDING.—Congress finds that the Secretary of  
12 Defense has yet to designate a military department or De-  
13 fense Agency with acquisition authority with respect to the  
14 capability to defend the homeland from cruise missiles in  
15 accordance with section 1684(e) of the National Defense  
16 Authorization Act for Fiscal Year 2017 (Public Law 114–  
17 328; 10 U.S.C. 4205 note).

18 (b) LIMITATION.—Of the funds authorized to be ap-  
19 propriated by this Act or otherwise made available for fis-  
20 cal year 2023 for the Department of Defense for travel  
21 by the Deputy Secretary of Defense, not more than 90  
22 percent may be obligated or expended until the Secretary  
23 of Defense designates a military department or Defense  
24 Agency with acquisition authority with respect to the ca-  
25 pability to defend the homeland from cruise missiles.

1 (c) DEFENSE AGENCY DEFINED.—In this section,  
2 the term “Defense Agency” has the meaning given that  
3 term in section 101(a)(11) of title 10, United States Code.

4 **SEC. 1644. LIMITATION ON AVAILABILITY OF FUNDS UNTIL**

8 Act or otherwise made available for fiscal year 2023 for  
9 the Office of the Secretary of Defense for operating the  
10 Office of Space Policy, not more than 75 percent may be  
11 obligated or expended until the Secretary of Defense sub-  
12 mits to the congressional defense committees the report  
13 described in House Report 117–118 under the heading  
14 “Layered Defense for the Homeland”.

15 **SEC. 1645. MIDDLE EAST INTEGRATED AIR AND MISSILE**  
16 **DEFENSE.**

17 (a) IN GENERAL.—The Secretary of Defense, in con-  
18 sultation with the Secretary of State and the Director of  
19 National Intelligence, shall seek to cooperate with allies  
20 and partners of the United States in the area of responsi-  
21 bility of the United States Central Command to improve  
22 integrated air and missile defense capability to protect the  
23 people, infrastructure, and territory of such allies and  
24 partners from cruise and ballistic missiles, manned and  
25 unmanned aerial systems, and rocket attacks from Iran.

1 The Secretary shall seek to cooperate with countries that  
2 have the ability to contribute to, adopt, and maintain an  
3 integrated air and missile defense capability, and a com-  
4 mitment to countering air and missile threats to bring se-  
5 curity to the region.

6 (b) STRATEGY.—

7 (1) IN GENERAL.—Not later than 180 days  
8 after the date of the enactment of this Act, con-  
9 sistent with the protection of intelligence sources  
10 and methods, the Secretary shall submit to the ap-  
11 propriate congressional committees a strategy on in-  
12 creasing cooperation with allies and partners in the  
13 area of responsibility of the United States Central  
14 Command to implement an integrated air and mis-  
15 sile defense architecture to protect the people, infra-  
16 structure, and territory of such allies and partners  
17 from cruise and ballistic missiles, manned and un-  
18 manned aerial systems, and rocket attacks from  
19 Iran.

20 (2) CONTENTS.—The strategy submitted under  
21 paragraph (1) shall include the following for coun-  
22 tries the Secretary determines meets the characteris-  
23 tics of subsection (a):

8 partner systems currently in the region to de-  
9 fend against air and missile attacks.

10 (D) An explanation of how an integrated

12 would improve collective security in the Central  
13 Command area of responsibility, similar to that  
14 of the European Command.

15 (E) A description of efforts to engage spec-  
16 ified foreign partners in establishing such an  
17 architecture.

18 (F) An identification of any challenges in  
19 establishing an integrated air and missile de-  
20 fense architecture with specified foreign part-  
21 ners, including assessments of the capacity of  
22 specified foreign partners to—

23 (i) rapidly share and respond to intel-  
24 ligence on ballistic and cruise missiles,  
25 manned and unmanned aerial systems, and

1 rocket attacks from Iran, and their ability  
2 to develop such capacity independent of di-  
3 rect United States support and oversight;

4 (ii) independently operate key tech-  
5 nical components of such an architecture,  
6 including satellite sensors, ground- or sea-  
7 based radars, and interceptors; and

8 (iii) operate command and control  
9 centers directing the operation of such an  
10 architecture.

11 (G) An assessment of the overall cost to  
12 the United States for providing support for the  
13 establishment and sustainment of such an ar-  
14 chitecture over 5 and 10-year periods.

15 (H) A description of relevant coordination  
16 with the Secretary of State and the ways in  
17 which such an architecture advances United  
18 States regional diplomatic goals and objectives.

19 (I) Such other matters as the Secretary  
20 considers relevant.

21 (3) PROTECTION OF SENSITIVE INFORMA-  
22 TION.—Any activity carried out under paragraph (1)  
23 shall be conducted in a manner that appropriately  
24 protects sensitive information and the national secu-  
25 rity interests of the United States.

1           (4) **FORMAT.**—The strategy submitted under  
2 paragraph (1) shall be submitted in unclassified  
3 form, but may include a classified annex.

4           (c) **APPROPRIATE CONGRESSIONAL COMMITTEES DE-**  
5 **FINED.**—In this section, the term “appropriate congres-

6 sional committees” means the following:

7           (1) The congressional defense committees.  
8           (2) The Committee on Foreign Affairs and the  
9 Permanent Select Committee on Intelligence of the  
10 House of Representatives.

13 **SEC. 1646. STRATEGY TO USE ASYMMETRIC CAPABILITIES**  
14 **TO DEFEAT HYPERSONIC MISSILE THREATS.**

15           (a) **REQUIREMENT.**—Not later than March 1, 2023,  
16 the Secretary of Defense, acting through the Director of  
17 the Missile Defense Agency, shall submit to the congres-

18 sional defense committees a comprehensive layered strat-  
19 egy to use asymmetric capabilities to defeat hypersonic  
20 missile threats.

21           (b) **ELEMENTS.**—The strategy under subsection (a)  
22 shall—  
23           (1) address all asymmetric capabilities of the  
24 United States, including with respect to—

1 (A) directed energy, as described in section  
2 1664 of the National Defense Authorization Act  
3 for Fiscal Year 2022 (Public Law 117–81; 10  
4 U.S.C. 205 note) and including short-pulse  
5 laser technology;

6 (B) microwave systems;

7 (C) cyber capabilities; and

8 (D) any other capabilities determined ap-  
9 propriate by the Secretary and Director; and

10 (2) identify the funding required to implement  
11 the strategy during the period covered by the future-  
12 years defense program submitted to Congress under  
13 section 221 of title 10, United States Code, in 2023.

14 **SEC. 1647. REPORT ON INTEGRATED AIR AND MISSILE DE-**  
15 **FENSE SENSOR OF UNITED STATES INDO-PA-**  
16 **CIFIC COMMAND.**

17 (a) SENSE OF CONGRESS.—It is the sense of Con-  
18 gress that the budget of the President for fiscal year 2023  
19 submitted to Congress pursuant to section 1105 of title  
20 31, United States Code—

21 (1) includes funding to develop and procure an  
22 integrated air and missile defense architecture to de-  
23 fend Guam that includes multiple mobile compo-  
24 nents located across Guam, however, a full assess-  
25 ment of the manning and infrastructure needed to

1 support those components, including items such as  
2 power, water, and availability of personnel housing,  
3 was not included in the overall determination of fea-  
4 sibility; and

5 (2) did not include funding for the continued  
6 development of the discrimination radar for home-  
7 land defense planned to be located in Hawaii be-  
8 cause of an ongoing reevaluation of the missile de-  
9 fense posture and sensor architecture in the area of  
10 responsibility of the United States Indo-Pacific Com-  
11 mand.

12 (b) REPORT.—

13 (1) REQUIREMENT.—Not later than 90 days  
14 after the date of the enactment of this Act, the Sec-  
15 retary of Defense shall submit to the congressional  
16 defense committees a report on the findings of the  
17 review conducted by the Secretary of the integrated  
18 air and missile defense sensor architecture of the  
19 United States Indo-Pacific Command.

20 (2) INVESTMENTS.—The report under para-  
21 graph (1) shall identify the investments that should  
22 be made to increase the detection of non-ballistic  
23 threats and improve the discrimination of ballistic  
24 missile threats, particularly with regard to Hawaii.

1           (3) FORM.—The report under paragraph (1)  
2 shall be submitted in unclassified form, and may in-  
3 clude a classified annex.

4           (c) REVIEW OF INTEGRATED AIR AND MISSILE DE-  
5 FENSE ARCHITECTURE TO DEFEND GUAM.—

6           (1) REQUIREMENT.—Not later than 60 days  
7 after the date of the enactment of this Act, the Sec-  
8 retary of Defense shall seek to enter into a contract  
9 with a federally funded research and development  
10 center to conduct an independent assessment of the  
11 integrated air and missile defense architecture to de-  
12 fend Guam.

13           (2) ELEMENTS.—The assessment under para-  
14 graph (1) shall include an analysis of each of the fol-  
15 lowing:

16           (A) The proposed architecture capability to  
17 address non-ballistic and ballistic missile  
18 threats to Guam, including the sensor, com-  
19 mand and control, and interceptor systems  
20 being proposed.

21           (B) The development and integration risk  
22 of the proposed architecture.

23           (C) The manning required to operate the  
24 proposed architecture, including the availability

1 of housing and infrastructure on Guam to sup-  
2 port the needed manning levels.

3 (3) SUBMISSION.—Not later than 180 days  
4 after the date of the enactment of this Act, the Sec-  
5 retary shall submit to the congressional defense com-  
6 mittees the assessment under paragraph (1), without  
7 change.

8 **SEC. 1648. RISK REDUCTION IN PROCUREMENT OF GUAM**  
9 **MISSILE DEFENSE SYSTEM.**

10 (a) SENSE OF CONGRESS.—It is the sense of Con-  
11 gress that—

12 (1) the defense of Guam and the Armed Forces  
13 that operate there is of key strategic significance  
14 and is one of the top priorities for United States  
15 Indo-Pacific Command and the United States;

16 (2) the most severe adversary threat to Guam  
17 consists of long-range hypersonic and cruise missiles  
18 launched from a variety of air, land, and sea-based  
19 platforms;

20 (3) the current plan of the Missile Defense  
21 Agency using a mixed architecture which, when ap-  
22 plied to the launcher systems, relies on numerous  
23 road-mobile transport erector launchers for launch-  
24 ing, and is an unproven and high-risk plan; and

1           (4) the existing vertical launch system, which  
2           can accommodate the standard missile–3 and the  
3           standard missile–6, is a more capable and tested  
4           system and provides reasonable risk reduction to the  
5           short-term missile defense of Guam, and in the long  
6           term provides much needed capacity increase.

7           (b) **AUTHORITY FOR PROCUREMENT.**—Except as  
8           provided by subsection (c), not later than December 31,  
9           2023, the Secretary of Defense, acting through the Direc-  
10          tor of the Missile Defense Agency, shall rapidly procure  
11          and field up to three vertical launching systems that can  
12          accommodate planned interceptors operated by the Navy  
13          as of the date of the enactment of this Act.

14          (c) **WAIVER.**—The Secretary may waive the require-  
15          ment under subsection (b) if—

16               (1) the Secretary determines that the waiver is  
17               in the best interest of the national security of the  
18               United States;

19               (2) the Secretary submits to the congressional  
20               defense committees a notification of such waiver, in-  
21               cluding a justification; and

22               (3) a period of 120 days has elapsed following  
23               the date of such notification.

1 **SEC. 1649. PLAN ON DELIVERING SHARED EARLY WARNING**  
2 **SYSTEM DATA TO CERTAIN ALLIES AND**  
3 **PARTNERS OF THE UNITED STATES.**

4 (a) FINDINGS.—Congress finds the following:

5 (1) The Shared Early Warning System cur-  
6 rently provides accurate and timely ballistic missile  
7 warning information generated by space-based infra-  
8 red sensors to the United States and select foreign  
9 countries.

10 (2) As has been demonstrated in Russia’s un-  
11 lawful invasion of and war in Ukraine, missile warn-  
12 ing data provided to allies and partners of the  
13 United States could allow for critical warning to pre-  
14 vent widespread civilian casualties.

15 (3) The rapid technical fielding of Shared Early  
16 Warning System capabilities should be prioritized in  
17 future bilateral defense negotiations with allies and  
18 partners of the United States.

19 (b) PLAN.—The Secretary of Defense, with the con-  
20 currence of the Secretary of State and the Director of Na-  
21 tional Intelligence, shall develop a technical fielding plan  
22 to deliver information under the Shared Early Warning  
23 System regarding a current or imminent missile threat to  
24 allies and partners of the United States that, as of the  
25 date of the plan, do not receive such information.

1 (c) REPORT.—Not later than 180 days after the date  
2 of the enactment of this Act, the Secretary of Defense  
3 shall submit to the appropriate congressional committees  
4 a report on how rapid technical fielding of the Shared  
5 Early Warning System could be provided to allies and  
6 partners of the United States that—

7 (1) are not member states of the North Atlantic  
8 Treaty Organization; and

9 (2) are under current or imminent hostile ag-  
10 gression and threat of missile attack.

11 (d) APPROPRIATE CONGRESSIONAL COMMITTEES  
12 DEFINED.—In this section, the term “appropriate con-  
13 gressional committees” means the following:

14 (1) The congressional defense committees.

15 (2) The Committee on Foreign Affairs and the  
16 Permanent Select Committee on Intelligence of the  
17 House of Representatives.

18 (3) The Committee on Foreign Relations and  
19 the Select Committee on Intelligence of the Senate.

20 **SEC. 1650. REPORTS ON GROUND-BASED INTERCEPTORS.**

21 Not later than 30 days after the date of the enact-  
22 ment of this Act, and on a quarterly basis thereafter until  
23 the date on which the next generation interceptor achieves  
24 initial operating capability, the Director of the Missile De-  
25 fense Agency, with the concurrence of the Commander of

1 the United States Northern Command, shall submit to the  
2 congressional defense committees a report that includes  
3 the following:

4 (1) An identification of the number of ground-  
5 based interceptors operationally available to the  
6 Commander.

7 (2) If such number is different from the report  
8 previously submitted under this section, the reasons  
9 for such difference.

10 (3) Any anticipated changes to such number  
11 during the period covered by the report.

12 **SEC. 1651. REPORT ON MISSILE DEFENSE INTERCEPTOR**  
13 **SITE IN CONTIGUOUS UNITED STATES.**

14 (a) REQUIREMENT.—Not later than March 31, 2023,  
15 the Secretary of Defense, acting through the Director of  
16 the Missile Defense Agency, shall submit to the congress-  
17 sional defense committees a report containing—

18 (1) an updated assessment of the requirement  
19 for a missile defense interceptor site in the contig-  
20 uous United States; and

21 (2) a funding profile, by year, of the total costs  
22 for the development and construction of such site,  
23 considering the designation of Fort Drum, New  
24 York, as the conditionally designated preferred site.

1 (b) FUNDING.—Of the funds authorized to be appro-  
2 priated by this Act or otherwise made available for fiscal  
3 year 2023 for the Missile Defense Agency for unspecified  
4 military construction planning and design, not more than  
5 \$5,000,000 may be obligated or expended for activities as-  
6 sociated with a missile defense interceptor site in the con-  
7 tiguous United States described in subsection (a).

8 **SEC. 1652. REPORT ON GUN LAUNCHED INTERCEPTOR**  
9 **TECHNOLOGIES.**

10 Not later than March 31, 2023, the Secretary of De-  
11 fense, acting through the Commanding General of the  
12 Army Space and Missile Defense Command, shall submit  
13 to the congressional defense committees a report con-  
14 taining—

15 (1) an assessment of the need for gun launched  
16 interceptor technologies; and

17 (2) a funding profile, by year, of the total cost  
18 of integrating and testing such technologies that are  
19 under development.

20 **SEC. 1653. REPORT ON RADIATION HARDENED, THER-**  
21 **MALLY INSENSITIVE TELESCOPES FOR SM-3**  
22 **INTERCEPTOR.**

23 Not later than March 31, 2023, the Secretary of De-  
24 fense, acting through the Director of the Missile Defense

1 Agency, shall submit to the congressional defense commit-  
2 tees a report containing—

3 (1) an assessment of the requirement to develop  
4 radiation hardened, thermally insensitive sensors for  
5 missile defense; and

6 (2) a funding profile, by year, of the total cost  
7 of integrating and testing such sensors that are  
8 under development.

13       **SEC. 1662. STUDY OF WEAPONS PROGRAMS THAT ALLOW**  
14                               **THE ARMED FORCES TO ADDRESS HARD AND**  
15                               **DEEPLY BURIED TARGETS.**

16          (a) SENSE OF CONGRESS.—It is the sense of Con-  
17          gress that—

18               (1) the ability of the United States to hold at  
19               risk hard and deeply buried targets now and in the  
20               future is critical; and

21               (2) while the Department of Defense is under-  
22               taking a study of nuclear and nonnuclear options to

14 conditions;

15 (3) it is vital to continue providing Ukraine  
16 with such assistance, as needed, in an appropriately

13 tem should proceed as quickly and efficiently as pos-  
14 sible;

15 (7) the Department of Defense should continue

19 **PATRIOT AIR AND MISSILE DEFENSE BATTAL-**  
20 **IONS.**

21 (a) FINDINGS; SENSE OF CONGRESS.—

22 (1) FINDINGS.—Congress finds the following:

23 (A) The unlawful Russian invasion of and  
24 war in Ukraine has highlighted the importance

1 of lower tier air and missile defense capabilities  
2 in the European Area of Command.

3 (B) The emergency supplemental appro-  
4 priations request by the President for the situa-  
5 tion in Ukraine for fiscal year 2022 included  
6 funding for a 16th Patriot air and missile de-  
7 fense system battalion, which increases the long  
8 standing inventory requirement by one bat-  
9 talion.

10 (2) SENSE OF CONGRESS.—It is the sense of  
11 Congress that given the evolving cruise- and bal-  
12 listic-missile threat from rogue nations and near-  
13 peer adversaries, particularly in regional scenarios,  
14 the Secretary of the Army should reassess the cur-  
15 rent battalion and interceptor acquisition objectives  
16 for the Patriot air and missile defense system to de-  
17 termine if 16 battalions and 3,376 Patriot advanced  
18 capability-3 missile segment enhancement missiles  
19 are still valid.

20 (b) ASSESSMENT.—Not later than 120 days after the  
21 date of the enactment of this Act, the Secretary of the  
22 Army shall assess and validate the battalion and inter-  
23 ceptor acquisition objectives, as of the date of the enact-  
24 ment of this Act, for the Patriot air and missile defense

1 system and Patriot advanced capability-3 missile segment  
2 enhancement missiles.

3 (c) REPORT.—Not later than 30 days after the date  
4 on which the Secretary completes the assessment under  
5 subsection (b), the Secretary shall submit to the congres-  
6 sional defense committees a report on the assessment, in-  
7 cluding whether the acquisition objectives described in  
8 such subsection are valid or should be modified.

9 (d) AUTHORITY.—Subject to the availability of ap-  
10 propriations for such purpose, the Secretary of the Army  
11 may procure up to four additional Patriot air and missile  
12 defense battalions to achieve a total of up to 20 such bat-  
13 talions.

16 **OF DEFENSE CAPABILITY AND CAPACITY TO**  
17 **REPLENISH MISSILE AND MUNITION INVEN-**  
18 **TORIES.**

19 (a) SENSE OF CONGRESS.—It is the sense of Con-  
20 gress that—

21 (1) the ongoing war in Ukraine has highlighted  
22 the importance of understanding the defense indus-  
23 trial base gaps and limitations of replenishing inven-  
24 tories of critical, preferred, and precision-guided  
25 weapon systems; and

1           (2) the ability of the Department of Defense to  
2 replenish critical munitions in the event of a conflict  
3 with a strategic competitor lasting not less than six  
4 months is of critical importance to the national secu-  
5 rity interests of the United States.

6           (b) FFRDC STUDY.—

7           (1) IN GENERAL.—Not later than 30 days after  
8 the date of the enactment of this Act, the Secretary  
9 of Defense shall seek to enter into an agreement  
10 with an appropriate federally funded research and  
11 development center for the conduct of a detailed  
12 analysis of the capability of the Department of De-  
13 fense replenish inventory of the weapons described in  
14 paragraph (3) to address long-range strike capabili-  
15 ties, including against naval surface and subsurface,  
16 as well as land-based forces, air superiority, interdic-  
17 tion, air and missile defense, and hard and deeply  
18 buried target mission areas. Such an agreement  
19 shall provide that an analysis conducted pursuant to  
20 the agreement shall be completed within 180 days.

21           (2) MATTERS FOR CONSIDERATION.—An anal-  
22 ysis conducted pursuant to an agreement under  
23 paragraph (1) shall include a consideration of each  
24 of the following with respect to the weapons de-  
25 scribed in paragraph (3):

1           (A) Any gaps in current or near-term pro-  
2           duction capability through 2025 or capacity due  
3           to the loss, impending loss, or obsolescence of  
4           manufacturers or suppliers of items, raw mate-  
5           rials, or software, along with recommendations  
6           to address the highest priority gaps.

7           (B) The capability to significantly increase  
8           current levels of production beyond steady-state  
9           demand requirements, including an assessment  
10          of sub-tier supplier capacity, capability, and  
11          rates of production.
