TITLE LIV—FINANCIAL SERVICES MATTERS

Subtitle A—In General

SEC. 5401. SERVICES THAT OPEN PORTALS TO DIRTY MONEY ACT.

(a) SHORT TITLE.—This section may be cited as the “Establishing New Authorities for Businesses Laundering and Enabling Risks to Security Act” and the “ENABLERS Act”.

(b) FINDINGS.—Congress finds the following:

(1) Kleptocrats and other corrupt actors across the world are increasingly relying on non-bank professional service providers, including non-bank professional service providers operating in the United States, to move, hide, and grow their ill-gotten gains.

(2) In 2003, the Financial Action Task Force, an intergovernmental body formed by the United States and other major industrial nations, determined that designated non-financial businesses and professions should be subject to the same anti-money laundering and counter-terrorist financing rules and regulations as financial institutions, including the requirement to know your customer or client and to perform due diligence, as well as to file suspicious
transaction reports, referred to as suspicious activity reports or “SARs” in the United States.

(3) In October 2021, the “Pandora Papers”, the largest exposé of global financial data in history, revealed to a global audience how the United States plays host to a highly specialized group of “enablers” who help the world’s elite move, hide, and grow their money.

(4) The Pandora Papers described how an adviser to the former Prime Minister of Malaysia reportedly used affiliates of a United States law firm to assemble and consult a network of companies, despite the adviser fitting the “textbook definition” of a high-risk client. The adviser went on to use his companies to help steal $4.5 billion from Malaysia’s public investment fund in one of “the world’s biggest-ever financial frauds”, known as 1MDB.

(5) Russian oligarchs have used gatekeepers to move their money into the United States. For example, a gatekeeper formed a company in Delaware that reportedly owns a $15 million mansion in Washington, D.C., that is linked to one of Vladimir Putin’s closest allies. Also, reportedly connected to the oligarch is a $14 million townhouse in New York City owned by a separate Delaware company.
(6) The Pandora Papers uncovered over 200 United States-based trusts across 15 States that held assets of over $1 billion, “including nearly 30 trusts that held assets linked to people or companies accused of fraud, bribery, or human rights abuses”. In particular, South Dakota, Nevada, Delaware, Florida, Wyoming, and New Hampshire have emerged as global hotspots for those seeking to hide their assets and minimize their tax burdens.

(7) In 2016, an investigator with the non-profit organization Global Witness posed as an adviser to a corrupt African official and set up meetings with 13 New York City law firms to discuss how to move suspect funds into the United States. Lawyers from all but one of the firms provided advice to the faux adviser, including advice on how to utilize anonymous companies to obscure the true owner of the assets. Other suggestions included naming the lawyer as a trustee of an offshore trust in order to open a bank account, and using the law firm’s escrow account to receive payments.

(8) The autocratic Prime Minister of Iraqi Kurdistan, reportedly known for torturing and killing journalists and critics, allegedly purchased a retail store valued at over $18 million in Miami, Flor-
ida, with the assistance of a Pennsylvania-based law firm.

(9) Teodoro Obiang, the vice president of Equatorial Guinea and son of the country’s authoritarian president, embezzled millions of dollars from his home country, which was then used to purchase luxury assets in the United States. Obiang relied on the assistance of two American lawyers to move millions of dollars of suspect funds through U.S. banks. The lawyers incorporated five shell companies in California and opened bank accounts associated with the companies for Obiang’s personal use. The suspect funds were first wired to the lawyers’ attorney-client and firm accounts, then transferred to the accounts of the shell companies.

(10) An American consulting company reportedly made millions of dollars working for companies owned or partly owned by Isabel dos Santos, the eldest child of a former President of Angola. This included working with Angola’s state oil company when it was run by Isabel dos Santos and helping to “run a failing jewelry business acquired with Angolan money”. In 2021, a Dutch tribunal found that Isabel dos Santos and her husband obtained a $500
million stake in the oil company through “grand cor-
ruption”.

(11) In December 2021, the United States Gov-
ernment issued a first-ever “United States Strategy
on Countering Corruption”, that includes “Curbing
Illicit Finance” as a strategic pillar. An express line
of effort to advance this strategic pillar states that:
“Deficiencies in the U.S. regulatory framework
mean various professionals and service providers—
including lawyers, accountants, trust and company
service providers, incorporators, and others willing to
be hired as registered agents or who act as nominees
to open and move funds through bank accounts—are
not required to understand the nature or source of
income of their clients or prospective clients. . .While
U.S. law enforcement has increased its focus on
such facilitators, it is both difficult to prove ‘intent
and knowledge’ that a facilitator was dealing with il-
licit funds or bad actors, or that they should have
known the same. Cognizant of such constraints, the
Administration will consider additional authorities to
cover key gatekeepers, working with the Congress as
necessary to secure additional authorities”.

(12) This section provides the authorities need-
ed to require that professional service providers who
serve as key gatekeepers to the U.S. financial system adopt anti-money laundering procedures that can help detect and prevent the laundering of corrupt and other criminal funds into the United States. Absent such authorities, the United States Government will be unable to adequately protect the U.S. financial system, identify funds and assets that are the proceeds of corruption, or support foreign states in their efforts to combat corruption and promote good governance.

SEC. 5415. SPECIAL MEASURES TO FIGHT MODERN THREATS.

(a) FINDINGS.—Congress finds the following:

(1) The Financial Crimes Enforcement Network (FinCEN) is the Financial Intelligence Unit of the United States tasked with safeguarding the financial system from illicit use, combating money laundering and its related crimes including terrorism, and promoting national security.

(2) Per statute, FinCEN may require domestic financial institutions and financial agencies to take certain “special measures” against jurisdictions, institutions, classes of transactions, or types of accounts determined to be of primary money laundering concern, providing the Secretary with a range of options, such as enhanced record-keeping, that can be adapted to target specific money laundering
and terrorist financing and to bring pressure on those that pose money laundering threats.

(3) This special-measures authority was granted in 2001, when most cross-border transactions occurred through correspondent or payable-through accounts held with large financial institutions which serve as intermediaries to facilitate financial transactions on behalf of other banks.

(4) Innovations in financial services have transformed and expanded methods of cross-border transactions that could not have been envisioned 20 years ago when FinCEN was given its special-measures authority.

(5) These innovations, particularly through digital assets and informal value transfer systems, while useful to legitimate consumers and law enforcement, can be tools abused by bad actors like sanctions evaders, fraudsters, money launderers, and those who commit ransomware attacks on victimized U.S. companies and which abuse the financial system to move and obscure the proceeds of their crimes.

(6) Ransomware attacks on U.S. companies requiring payments in cryptocurrencies have increased in recent years, with the U.S. Treasury estimating that ransomware payments in the United States
reached $590 million in just the first half of 2021, compared to a total of $416 million in 2020.

(7) As ransomware attacks organized by Chinese and other foreign bad actors continue to grow in size and scope, modernizing FinCEN’s special measure authorities will empower FinCEN to adapt its existing tools, monitor and obstruct global financial threats, and meet the challenges of combating 21st century financial crime.

(b) PROHIBITIONS OR CONDITIONS ON CERTAIN TRANSMITTALS OF FUNDS.—Section 5318A of title 31, United States Code, is amended—

(B) by adding at the end the following:

“(6) PROHIBITIONS OR CONDITIONS ON CERTAIN TRANSMITTALS OF FUNDS.—If the Secretary finds a jurisdiction outside of the United States, 1 or more financial institutions operating outside of the United States, 1 or more types of accounts within, or involving, a jurisdiction outside of the United
States, or 1 or more classes of transactions within, or involving, a jurisdiction outside of the United States to be of primary money laundering concern, the Secretary, in consultation with the Secretary of State, the Attorney General, and the Chairman of the Board of Governors of the Federal Reserve System, may prohibit, or impose conditions upon certain transmittals of funds (as such term may be defined by the Secretary in a special measure issuance, by regulation, or as otherwise permitted by law), to or from any domestic financial institution or domestic financial agency if such transmittal of funds involves any such jurisdiction, institution, type of account, or class of transaction.”.

(3) Drug trafficking organizations, terrorist organizations, and other transnational criminal organizations have succeeded at trade-based money laundering despite the best efforts of United States law enforcement.

(4) Trade-based money laundering includes other offenses such as tax evasion, disruption of markets, profit loss for businesses, and corruption of government officials, and constitutes a persistent threat to the economy and security of the United States.

(5) Trade-based money laundering can result in the decreased collection of customs duties as a result of the undervaluation of imports and fraudulent cargo manifests.

(6) Trade-based money laundering can decrease tax revenue collected as a result of the sale of underpriced goods in the marketplace.

(7) Trade-based money laundering is one mechanism by which counterfeiters infiltrate supply chains, threatening the quality and safety of consumer, industrial, and military products.
(8) Drug trafficking organizations collaborate with Chinese criminal networks to launder profits from drug trafficking through Chinese messaging applications.

(9) On March 16, 2021, the Commander of the United States Southern Command, Admiral Faller, testified to the Committee on Armed Services of the Senate that transnational criminal organizations “market in drugs and people and guns and illegal mining, and one of the prime sources that underwrites their efforts is Chinese money-laundering”.

(10) The deaths and violence associated with drug traffickers, the financing of terrorist organizations and other violent non-state actors, and the adulteration of supply chains with counterfeit goods showcase the danger trade-based money laundering poses to the United States.

(11) Trade-based money laundering undermines national security and the rule of law in countries where it takes place.

(12) Illicit profits for transnational criminal organizations and other criminal organizations can lead to instability globally.

(13) The United States is facing a drug use and overdose epidemic, as well as an increase in con-
umption of synthetic drugs, such as methamphet-
amine and fentanyl, which is often enabled by Chi-
inese money laundering organizations operating in
coordination with drug-trafficking organizations and
transnational criminal organizations in the Western
Hemisphere that use trade-based money laundering
to disguise the proceeds of drug trafficking.

(14) The presence of drug traffickers in the
United States and their intrinsic connection to inter-
national threat networks, as well as the use of licit
trade to further their motives, is a national security
concern.

(15) Drug-trafficking organizations frequently
use the trade-based money laundering scheme known
as the “Black Market Peso Exchange” to move their
ill-gotten gains out of the United States and into
Central and South America.

(16) United States ports and U.S. Customs and
Border Protection do not have the capacity to prop-
erly examine the 60,000,000 shipping containers
that pass through United States ports annually, with
only 2 to 5 percent of that cargo actively inspected.

(17) Trade-based money laundering can only be
combated effectively if the intelligence community,
law enforcement agencies, the Department of State,
the Department of Defense, the Department of the
Treasury, the Department of Homeland Security,
the Department of Justice, and the private sector
work together.

(18) Drug-trafficking organizations, terrorist
organizations, and other transnational criminal orga-
nizations disguise the proceeds of their illegal activi-
ties behind sophisticated mechanisms that operate
seamlessly between licit and illicit trade and finan-
cial transactions, making it almost impossible to ad-
dress without international cooperation.

(19) The United States has established Trade
Transparency Units with 18 partner countries, in-
cluding with major drug-producing and transit coun-
tries, to facilitate the increased exchange of import-
export data to combat trade-based money laun-
dering.

(b) SENSE OF CONGRESS.—It is the sense of Con-
gress that—

(1) the activities of transnational criminal orga-
nizations and their networks, and the means by
which such organizations and networks move and
launder their ill-gotten gains, such as through the
use of illicit economies, illicit trade, and trade-based
money laundering, pose a threat to the national in-
terests and national security of the United States
and allies and partners of the United States around
the world;

(2) in addition to considering the countering of
illicit economies, illicit trade, and trade-based money
laundering as a national priority and committing to
detect, address, and prevent such activities, the
President should—

(A) continue to assess, in the periodic na-
tional risk assessments on money laundering,
terrorist financing, and proliferation financing
conducted by the Department of the Treasury,
the ongoing risks of trade-based money laun-
dering;

(B) finalize the assessment described in
the Explanatory Statement accompanying the
Financial Services and General Government Ap-
propriations Act, 2020 (division C of the Con-
solidated Appropriations Act, 2020 (Public Law
116–93)), which directs the Financial Crimes
Enforcement Network of the Department of the
Treasury to thoroughly assess the risk that
trade-based money laundering and other forms
of illicit finance pose to national security;
(C) work expeditiously to develop, finalize, and execute a strategy, as described in section 6506 of the Anti-Money Laundering Act of 2020 (title LXV of division F of Public Law 116–283; 134 Stat. 4631), drawing on the multiple instruments of United States national power available, to counter—

(i) the activities of transnational criminal organizations, including illicit trade and trade-based money laundering; and

(ii) the illicit economies such organizations operate in;

(D) coordinate with international partners to implement that strategy, exhorting those partners to strengthen their approaches to combating transnational criminal organizations; and

(E) review that strategy on a biennial basis and improve it as needed in order to most effectively address illicit economies, illicit trade, and trade-based money laundering by exploring the use of emerging technologies and other new avenues for interrupting and putting an end to those activities; and
(3) the Trade Transparency Unit program of the Department of Homeland Security should take steps to strengthen its work, including in countries that the Department of State has identified as major money laundering jurisdictions under section 489 of the Foreign Assistance Act of 1961 (22 U.S.C. 2291h).

SEC. 5445. DISCLOSURE OF DISABILITY, VETERAN, AND MILITARY STATUS.

SEC. 5446. STRENGTHENING CYBERSECURITY FOR THE FINANCIAL SECTOR.

(a) Regulation and Examination of Credit Union Organizations and Service Providers.—Section 206A of the Federal Credit Union Act (12 U.S.C. 1786a) is amended—

(1) in subsection (a)(1), by striking “that” and inserting “an”;

(2) in subsection (c)(2), by inserting after “shall notify the Board” the following: “, in a manner and method prescribed by the Board,”; and
(3) by striking subsection (f) and inserting the following:

“(f) EXERCISE OF AUTHORITY.—To minimize duplicative efforts, prior to conducting any examination of a credit union organization under the authority provided to the Board under this section, the Board shall first seek to collect any information which the Board intends to acquire through such examination from—

“(1) any Federal regulatory agencies that supervise any activity of that credit union organization; and

“(2) any Federal banking agency that supervises any other person who maintains an ownership interest in that credit union organization.”.

(b) GAO STUDY ON FHFA’S REGULATION OF SERVICE PROVIDERS.—

(1) STUDY.—The Comptroller General of the United States shall carry out a study on the Federal Housing Finance Agency’s authority and regulation of service providers to its regulated entities, including the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, and the Federal Home Loan Banks.

(2) REPORT.—Not later than the end of the 12-month period beginning on the date of the enact-
ment of this Act, the Comptroller General shall issue a report to Congress containing—

(A) all findings and determinations made in carrying out the study required under paragraph (1);

(B) an analysis of the Federal Housing Finance Agency’s existing authority, how service providers to the Federal Housing Finance Agency’s regulated entities are currently regulated, and risks to the regulated entities associated with third-party service providers; and

(C) recommendations for legislative and administrative action.

SEC. 5447. REVIEW OF IMF LOAN SURCHARGE POLICY.

(a) FINDINGS.—The Congress finds as follows:

(1) The International Monetary Fund (in this section referred to as the “IMF”)) imposes a surcharge, in addition to standard interest and service fees, of 200 basis points on outstanding credit provided through its General Resources Account that exceeds 187.5 percent of the IMF country quota, and an additional 100 basis points if that credit has been outstanding for over 36 or 51 months, depending on the facility.
(2) According to the IMF, “These level and time-based surcharges are intended to help mitigate credit risk by providing members with incentives to limit their demand for Fund assistance and encourage timely repurchases while at the same time generating income for the Fund to accumulate precautionary balances.”.

(3) According to a 2021 report by the European Network on Debt and Development, surcharges increase the average cost of borrowing from the IMF by over 64 percent for surcharged countries. Surcharges increased Ukraine’s borrowing costs on its IMF lending program by nearly 27 percent, Jordan’s by 72 percent, and Egypt’s by over 104 percent.

(4) As a result of Russia’s invasion, the World Bank predicts that Ukraine will experience an economic contraction of 45 percent in 2022. Yet Ukraine is expected to pay the IMF an estimated $483,000,000 in surcharges from 2021 through 2027.

(5) The Ukraine Comprehensive Debt Payment Relief Act of 2022 (H.R.7081), which requires the Department of Treasury to make efforts to secure debt relief for Ukraine, was passed by the House of
Representatives on May 11, 2022, with overwhelming bipartisan support, by a vote of 362 Yeas to 56 Nays.

(6) As a result of the war in Ukraine and other factors, the World Bank predicted that global growth rates will slow to 2.9 percent in 2022, down nearly half from 2021. External public debt of developing economies is at record levels, and the World Bank, IMF, and United Nations have all warned of coming defaults and a potential global debt crisis. As food and energy prices rise, the World Food Program has estimated that 750,000 people are at immediate risk of starvation or death, and 323,000,000 people may experience acute food insecurity before the end of the year.

(7) Since 2020, the number of countries paying surcharges to the IMF has increased from 9 to 16. A December 2021 IMF policy paper, notes that under the IMF’s model-based World Economic Outlook scenario “the number of surcharge-paying members would increase to 38 in FY 2024 and FY 2025” and that under the Fund’s “adverse scenario, the number of surcharge-paying members and the amount of surcharge income would increase even more sharply”.

(8) An April 2022 brief from the United Nations Global Crisis Response Group on Food, Energy and Finance on the impacts of the war in Ukraine on developing countries called for the immediate suspension of surcharge payments for a minimum of 2 years, because “[s]urcharges do not make sense during a global crisis since the need for more financing does not stem from national conditions but from the global economy shock”.

(b) Review of Surcharge Policy at the International Monetary Fund.—The Secretary of the Treasury shall instruct the United States Executive Director at the International Monetary Fund to use the voice and vote of the United States to—

(1) initiate an immediate review by the IMF of the surcharge policy of the IMF to be completed, and its results and underlying data published, within 365 days; and

(2) suspend and waive surcharge payments during the pendency of the review.

(c) Components of the Review of Surcharge Policy.—The review referred to in subsection (b) shall include the following:

(1) A borrower-by-borrower analysis of surcharges in terms of cost and as a percentage of na-
tional spending on debt service on IMF loans, food
security, and health for the 5-year period beginning
at the start of the COVID-19 pandemic.

(2) Evaluation of the policy’s direct impact
on—

(A) disincentivizing large and prolonged re-
liance on Fund credit;

(B) mitigating the credit risks taken by
the IMF;

(C) improving borrower balance of pay-
ments and debt sustainability, particularly dur-
ing periods of contraction, unrest, and pan-
demic;

(D) promoting fiscally responsible policy
reforms;

(E) disincentivizing borrowers from seek-
ing opaque and potentially predatory bilateral
loans; and

(F) improving the ability of borrowers to
repay private creditors and access the private
credit market.

(3) Recommendations for—

(A) Identifying alternative sources of fund-
ing for the IMF’s precautionary balances that
prioritize stable funding sources and equitable burden-sharing among IMF members;

(B) Determining whether the Fund should maintain, reform, temporarily suspend or eliminate the use of surcharges.

(4) The review process must incorporate extensive consultation with relevant experts, particularly those from countries that are currently paying or have recently paid surcharges. These experts should include government officials responsible for overseeing economic development, social services, and defense, United Nations officials, economic research institutes, academics, and civil society organizations.

persons who have received such assistance from such funds and who have been defrauded, or after receiving assistance, have filed for bankruptcy, gone through a foreclosure procedure on property that received such assistance, or are deceased. If the grantee self-certifies to the Secretary in such request that it has verified that the individual conditions of each person it is requesting a waiver for meets one of the conditions specified in the preceding sentence, the Secretary may grant such waivers on the basis of grantee self-certification, issue a public determination by publication in the Federal Register that it is not in the best interest of the Federal Government to pursue such recouperation, and may conduct oversight to verify grantee self-certification and subject the grantee to remedies for noncompliance for any amounts that have not met such requirements.

“(E) the plan or substantial amendment
does not use a percentage of the grant, as de-
termined by the Secretary in regulation, for ac-
ququisition, rehabilitation, reconstruction, or other
activities permitted by the Secretary to provide
affordable rental housing to benefit persons of
low and moderate income, which rental housing
will, upon completion, be occupied by such per-

“(F) the plan or substantial amendment
does not provide a process to provide appli-
cants—

“(i) notice by grantee of applicant’s
right to administrative appeal of any ad-
verse action on the applicant’s application;
and

“(ii) right to full discovery of appli-
cant’s entire application file.
“(5) Public consultation.—In developing the plan required under paragraph (1), a grantee shall, at a minimum—

“(C) ensure equal access for individuals with disabilities and individuals with limited English proficiency; and

“(D) publish the plan in a manner that affords citizens, affected local governments, and other interested parties a reasonable opportunity to examine the contents of the plan and provide feedback.

“(6) Resubmission.—The Secretary shall permit a grantee to revise and resubmit a disapproved plan or plan amendment.

“(7) Timing.—

“(A) In general.—The Secretary shall approve or disapprove a plan not later than 60
days after submission of the plan to the Secretary. The Secretary shall immediately notify the State, unit of general local government, or Indian tribe that submitted the plan or substantial amendment of the Secretary’s decision.

“(B) DISAPPROVAL.—If the Secretary disapproves a plan or a substantial amendment, not later than 15 days after such disapproval the Secretary shall inform the State, unit of general local government, or Indian tribe in writing of (i) the reasons for disapproval, and (ii) actions that the State, unit of general local government, or Indian tribe could take to meet the criteria for approval.

“(C) SUBSTANTIAL AMENDMENTS; RESUBMISSION.—The Secretary shall, for a period of not less than 45 days following the date of disapproval, permit the revision and resubmission of any plan or substantial amendment that is disapproved. The Secretary shall approve or disapprove a resubmission of any plan or substantial amendment not less than 30 days after receipt of such substantial amendments or resubmission.
“(D) GRANT AGREEMENTS.—Subject to subsection (b)(3), the Secretary shall ensure that all grant agreements necessary for prompt disbursement of funds allocated to a grantee are signed by the Secretary within 60 days of approval of grantee’s plan describing the use of such funds.

“(d) FINANCIAL CONTROLS.—

“(1) COMPLIANCE SYSTEM.—The Secretary shall develop and maintain a system to ensure that each grantee has and will maintain for the life of the grant—

“(A) proficient financial controls and procurement processes;

“(B) adequate procedures to ensure that eligible applicants are approved for assistance with amounts made available for use under this section and that recipients are provided the full amount of assistance for which they are eligible, subject to funding availability;

“(C) adequate procedures to prevent any duplication of benefits, as defined by section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5155), to ensure timely expenditure of funds,
and to detect and prevent waste, fraud, and abuse of funds; and

“(D) adequate procedures to ensure the grantee will maintain comprehensive and publicly accessible websites that make available information regarding all disaster recovery activities assisted with such funds, which information shall include common reporting criteria established by the Secretary that permits individuals and entities awaiting assistance and the general public to see how all grant funds are used, including copies of all relevant, unredacted procurement documents, grantee administrative contracts and details of ongoing procurement processes, as determined by the Secretary.

“(2) Evaluation of Compliance.—The Secretary shall provide, by regulation or guideline, a method for qualitatively and quantitatively evaluating compliance with the requirements under paragraph (1).

“(3) Certification.—Before making a grant, the Secretary shall certify in advance that the grantee has in place the processes and procedures required under subparagraphs (A) through (D) of paragraph (1), as determined by the Secretary. No
additional certification is necessary if the Secretary has recently certified that the grantee has the required processes and procedures. The Secretary may permit a State, unit of general local government, or Indian tribe to demonstrate compliance with requirements for adequate financial controls before disasters occur and before receiving an allocation for a grant under this section.

“(e) USE OF FUNDS.—

“(1) ADMINISTRATIVE COSTS.—

“(A) IN GENERAL.—The Secretary shall establish by regulation the maximum grant amounts a State, unit of general local government, or Indian tribe may use for administrative costs, and for technical assistance and planning activities, taking into consideration size of grant, complexity of recovery, and other factors as determined by the Secretary. Amounts available for administrative costs for a grant under this section shall be available for eligible administrative costs of the grantee for any grant made under this section, without regard to a particular disaster.

“(B) DISCRETION TO ESTABLISH SLIDING SCALE.—The Secretary may establish a series
of percentage limitations on the amount of
grant funds received that may be used by a
grantee for administrative costs, but only if—

“(i) such percentage limitations are
based on the amount of grant funds re-
ceived by a grantee;

“(ii) such series provides that the per-
centage that may be so used is lower for
grantees receiving a greater amount of
grant funds and such percentage that may
be so used is higher for grantees receiving
a lesser amount of grant funds; and

“(iii) in no case may a grantee so use
more than 10 percent of grant funds re-
ceived.

“(2) LIMITATIONS ON USE.—Amounts from a
grant under this section may not be used for activi-
ties—

“(A) that are reimbursable, or for which
funds are made available, by the Federal Emer-
gency Management Agency, including under the
Robert T. Stafford Disaster Relief and Emer-
gency Assistance Act or the National Flood In-
surance Program; or
“(B) for which funds are made available by the Army Corps of Engineers.

“(3) HUD ADMINISTRATIVE COSTS.—

“(A) LIMITATION.—Of any funds made available to the Community Development Block Grant Declared Disaster Recovery Fund established under section 124 or otherwise made available for use under this section by any single appropriations Act, the Secretary may use 1 percent of any such amount for necessary costs, including information technology costs, of administering and overseeing the obligation and expenditure of amounts made available for use under this section.

“(B) TRANSFER OF FUNDS.—Any amounts made available for use in accordance with subparagraph (A)—

“(i) shall be transferred to the appropriate salaries and expenses account in the Community Development Block Grant Declared Disaster Recovery Fund established under section 124 for use by the Office of Disaster Recovery and Resilient Communities;
“(ii) shall remain available until expended; and

“(iii) may be used for administering any funds appropriated for the same purposes described in section 123(a) to the Community Development fund or Community Development Block Grant Declared Disaster Recovery Fund established under section 124 in any prior or future Act, notwithstanding the disaster for which such funds were appropriated.

“(4) INSPECTOR GENERAL.—Of any funds made available for use in accordance with paragraph (3)(A), 15 percent shall be transferred to the Office of the Inspector General for necessary costs of audits, reviews, oversight, evaluation, and investigations relating to amounts made available for use under this section.

“(5) CAPACITY BUILDING.—Of any funds made available for use under this section, not more than 0.1 percent or $15,000,000, whichever is less, shall be made available to the Secretary for capacity building and technical assistance, including assistance regarding contracting and procurement proc-
esses, to support grantees and subgrantees receiving
funds under this section.

“(6) Mitigation Planning.—

“(A) Requirement.—The Secretary shall
require each grantee to use a fixed percentage
of any allocation for mitigation for comprehen-
sive mitigation planning, subject to the limita-
tions on funds in paragraph (2).

“(B) Amount.—The Secretary may estab-
lish such fixed percentage by regulation and
may establish a lower percentage for grantees
receiving a grant exceeding $1,000,000,000.

“(C) Coordination.—Each grantee shall
ensure that such comprehensive mitigation
planning is coordinated and aligned with exist-
ing comprehensive, land use, transportation,
and economic development plans, and specifi-
cally analyze multiple types of hazard exposures
and risks. Each grantee shall coordinate and
align such mitigation planning with other miti-
gation projects funded by the Federal Emer-
gency Management Agency, the Army Corps of
Engineers, the Forest Service, and other agen-
cies as appropriate.
“(D) USE OF FUNDS.—Such funds may be used for the purchase of data and development or updating of risk mapping for all relevant hazards.

“(E) PRIORITY.—Grantees shall prioritize the expenditure of grant funds to support hazard mitigation and resiliency funds for activities primarily benefitting persons of low and moderate income with the greatest risk of harm from natural hazards.

“(7) BUILDING SAFETY.—

“(A) IN GENERAL.—In consultation with the Administrator of the Federal Emergency Management Agency, the Secretary shall provide that no funds made available under this section shall be used for installation, substantial rehabilitation, reconstruction, or new construction of infrastructure or residential, commercial, or public buildings in hazard-prone areas, unless construction complies with paragraph (8) and with the latest published editions of relevant national consensus-based codes, and specifications and standards referenced therein, except that nothing in this section shall be con-
strued to prohibit a grantee from requiring higher standards.

“(B) SAVINGS PROVISION.—Nothing in subparagraph (A) shall be construed as a requirement for a grantee to adopt the latest published editions of relevant national consensus-based codes, specifications, and standards.

“(C) COMPLIANCE.—Compliance with this paragraph may be certified by a suitable design professional.

“(D) DEFINITIONS.—For purposes of this paragraph, the following definitions shall apply:

“(i) HAZARD-PRONE AREAS.—The term ‘hazard-prone areas’ means areas identified by the Secretary, in consultation with the Administrator, at risk from natural hazards that threaten property damage or health, safety, and welfare, such as floods (including special flood hazard areas), wildfires (including Wildland-Urban Interface areas), earthquakes, tornados, and high winds. The Secretary may consider future risks and the likelihood such risks may pose to protecting property and health, safety, and general welfare when
making the determination of or modification to hazard-prone areas.

“(ii) Latest Published Editions.—

The term ‘latest published editions’ means, with respect to relevant national consensus-based codes, and specifications and standards referenced therein, the two most recent published editions, including, if any, amendments made by States, units of general local government, or Indian tribes during the adoption process, that incorporate the latest natural hazard-resistant designs and establish criteria for the design, construction, and maintenance of structures and facilities that may be eligible for assistance under this section for the purposes of protecting the health, safety, and general welfare of a structure’s or facility’s users against disasters.

“(8) Flood Risk Mitigation.—

“(A) Requirements.—Subject to subparagraph (B), the Secretary shall require that any structure that is located in an area having special flood hazards and that is newly constructed, for which substantial damage is re-
paired, or that is substantially improved, using
amounts made available under this section,
shall be elevated with the lowest floor, including
the basement, at least two feet above the base
flood level, or to a future flood protection
standard that provides equivalent protection
and is developed in conjunction with the Admin-
istrator of the Federal Emergency Management
Agency, except that critical facilities, including
hospitals, nursing homes, and other public fa-
cilities providing social and economic lifelines,
as defined by the Secretary, shall be elevated at
least 3 feet above the base flood elevation (or
higher if required under paragraph (7)).

“(B) ALTERNATIVE MITIGATION.—In the
case of existing structures consisting of multi-
family housing and row houses, and other
structures, as determined by the Secretary, the
Secretary shall seek consultation with the Ad-
ministrator of the Federal Emergency Manage-
ment Agency, shall provide for alternative forms
of mitigation (apart from elevation), and shall
exempt from the requirement under subpara-
graph (A) any such structure that meets the
standards for such an alternative form of mitigation.

“(C) DEFINITIONS.—For purposes of subparagraph (A), the terms ‘area having special flood hazards’, ‘newly constructed’, ‘substantial damage’, ‘substantial improvement’, and ‘base flood level’ have the same meanings as under the Flood Disaster Protection Act of 1973 and the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.).

“(f) ADMINISTRATION.—In administering any amounts made available for assistance under this section, the Secretary—

“(1) may not allow a grantee to use any such amounts for any purpose other than the purpose approved by the Secretary in the plan or amended plan submitted under subsection (c) to the Secretary for use of such amounts; and

“(2) shall prohibit a grantee from delegating, by contract or otherwise, the responsibility for inherent government functions.

“(g) TRAINING FOR GRANT MANAGEMENT FOR SUBGRANTEES.—The Secretary shall require each grantee to provide ongoing training to all staff and subgrantees.
“(h) PROCUREMENT PROCESSES AND PROCEDURES
FOR GRANTEES.—

“(1) GRANTEE PROCESSES AND PROCEDURES.—In procuring property or services to be paid for in whole or in part with amounts from a grant under this section, a grantee shall—

“(A) follow its own procurement processes and procedures, but only if the Secretary makes a determination that such processes and procedures comply with the requirements under paragraph (2); or

“(B) comply with such processes and procedures as the Secretary shall, by regulation, establish for purposes of this section.

“(2) REQUIREMENTS.—The requirements under this paragraph with respect to such processes and procedures shall—

“(A) provide for full and open competition and compliance with applicable statutory requirements on the use of Federal funds, and require cost or price analysis;

“(B) include requirements for procurement policies and procedures for subgrantees;

“(C) specify methods of procurement and their applicability, but not allow cost-plus-a-per-
percentage-of cost or percentage-of-construction-cost methods of procurement;

“(D) include standards of conduct governing employees engaged in the award or administration of contracts; and

“(E) ensure that all purchase orders and contracts include any clauses required by Federal statute, Executive order, or implementing regulation.

“(i) TREATMENT OF CDBG ALLOCATIONS.— Amounts made available for use under this section shall not be considered relevant to the non-disaster formula allocations made pursuant to section 106 of this title (42 U.S.C. 5306).

“(j) WAIVERS.—

“(1) AUTHORITY.—Subject to the other provisions of this section, in administering amounts made available for use under this section, the Secretary may waive, or specify alternative requirements for, any provision of any statute or regulation that the Secretary administers in connection with the obligation by the Secretary or the use by the recipient of such funds (except for requirements related to fair housing, nondiscrimination, labor standards, and the environment and except for the requirements of this
section), if the Secretary makes a public finding that good cause exists for the waiver or alternative require-
ment and such waiver or alternative require-
ment would not be inconsistent with the overall pur-
poses of this title.

“(2) NOTICE AND PUBLICATION.—Any waiver of or alternative requirement pursuant to paragraph (1) shall not take effect before the expiration of the 5-day period beginning upon the publication of no-
tice in the Federal Register of such waiver or alter-
native requirement.

“(3) APPLICABLE REQUIREMENTS AND BEN-
EFIT TO LOW- AND MODERATE-INCOME PERSONS.—

“(A) IN GENERAL.—The requirements in this Act that apply to grants made under sec-
tion 106 of this title (except those related to the allocation) apply equally to grants under this section unless modified by a waiver or alternative requirement pursuant to paragraph (1).

“(B) LIMITATION.—Notwithstanding sub-
paragraph (A), the Secretary may not grant a waiver or alternative requirement to reduce the percentage of funds that must be used for ac-
tivities that benefit persons of low and mod-
erate income to less than 70 percent, unless the
Secretary specifically finds that there is compelling need to further reduce the percentage requirement and that funds are not necessary to address the housing needs of low- and moderate-income residents.

“(4) PROHIBITION.—The Secretary may not use the authority under paragraph (1) to waive any provision of this section.

“(k) ENVIRONMENTAL REVIEW.—

“(1) ADOPTION.—Notwithstanding subsection (j)(1), recipients of funds provided under this section that use such funds to supplement Federal assistance provided under section 402, 403, 404, 406, 407, 408(e)(4), 428, or 502 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.) may adopt, without review or public comment, any environmental review, approval, or permit performed by a Federal agency, and such adoption shall satisfy the responsibilities of the recipient with respect to such environmental review, approval, or permit under section 104(g)(1) of this title (42 U.S.C. 5304(g)(1)).

“(2) RELEASE OF FUNDS.—Notwithstanding section 104(g)(2) of this title (42 U.S.C. 5304(g)(2)), the Secretary may, upon receipt of a
request for release of funds and certification, immediately approve the release of funds for an activity or project assisted with amounts made available for use under this section if the recipient has adopted an environmental review, approval or permit under paragraph (1) or the activity or project is categorically excluded from review under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

“(3) STATE ACTIONS.—The requirements of section 104(g)(4) shall apply to assistance under this section that a State distributes to a unit of general local government.

“(l) COLLECTION OF INFORMATION; AUDITS AND OVERSIGHT.—

“(1) COLLECTION OF INFORMATION.—For each major disaster for which assistance is made available under this section, the Secretary shall collect information from grantees regarding all recovery activities so assisted, including information on applicants and recipients of assistance, and shall make such information available to the public and to the Inspector General for the Department of Housing and Urban Development on a monthly basis using uniform data collection practices, and shall provide a
quarterly update to the Congress regarding compliance with this section. Information collected and reported by grantees and the Secretary shall be disaggregated by program, race, income, geography, and all protected classes of individuals under the Americans with Disabilities Act of 1990, the Fair Housing Act, the Civil Rights Act of 1964, and other civil rights and nondiscrimination protections, with respect to the smallest census tract, block group, or block possible for the data set.

“(2) Availability of information.—In carrying out this paragraph, the Secretary may make full and unredacted information available to academic and research institutions for the purpose of research into the equitable distribution of recovery funds, adherence to civil rights protections, and other areas.

“(3) Protection of information.—The Secretary shall take such actions and make such redactions as may be necessary to ensure that personally identifiable information regarding recipients of assistance provided from funds made available under this section shall not made publicly available.

“(4) Audits and oversight.—In conducting audits, reviews, oversight, evaluation, and investiga-
tions, in addition to activities designed to prevent
and detect waste, fraud, and abuse, the Inspector
General shall review activities carried out by grant-
ees under this section to ensure such programs fulfill
their authorized purposes, as identified in the grant-
ee’s action plan.

“(m) Plan Pre-Certification for States and
Units of General Local Government.—

“(1) In general.—The Secretary shall carry
out a program under this subsection to provide for
States and units of general local government to pre-
certify as eligible grantees for assistance under this
section. The objective of such program shall be to—

“(A) allow grantees that have consistently
demonstrated the ability to administer funds re-
sponsibly and equitably in similar disasters to
utilize in subsequent years plans which are sub-
stantially similar to those the Department has
previously approved; and

“(B) facilitate the re-use of a plan or its
substantially similar equivalent by a pre-cer-
tified grantee for whom the plan has previously
been approved and executed upon.

“(2) Requirements.—To be eligible for pre-
certification under the program under this sub-
section a State or unit of general local government shall—

“(A) demonstrate to the satisfaction of the Secretary compliance with the requirements of this section; and

“(B) have previously submitted a plan or its substantially similar equivalent and received assistance thereunder as a grantee or subgrantee under this section, or with amounts made available for the Community Development Block Grant—Disaster Recovery account, in connection with two or more major disasters declared pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.).

“(3) APPROVAL OF PLANS.——

“(A) EXPEDITED APPROVAL PROCESSES.——

The Secretary shall establish and maintain processes for expediting approval of plans for States and units of general local government that are pre-certified under this subsection.

“(B) EFFECT OF PRE-CERTIFICATION.——

Pre-certification pursuant to this subsection shall not——
“(i) establish any entitlement to, or
priority or preference for, allocation of
funds made available under this section; or
“(ii) exempt any grantee from com-
plying with any of the requirements under,
or established pursuant to, subsection (c)
or (d).
“(4) DURATION.—Pre-certification under this
subsection shall be effective for a term of 5 years.
“(n) DEPOSIT OF UNUSED AMOUNTS IN FUND.—
“(1) UNMET NEEDS.—If any amounts made
available for assistance for unmet needs under this
section to grantees remain unexpended upon the ear-
lier of—
“(A) the date that the grantee of such
amounts notifies the Secretary that the grantee
has completed all activities identified in the
grantee’s plan for use of such amounts that was
approved by the Secretary in connection with
such grant; or
“(B) the expiration of the 6-year period
beginning upon the Secretary obligating such
amounts to the grantee, as such period may be
extended pursuant to paragraph (3);
the Secretary may, subject to authority provided in advance by appropriations Acts, transfer such unexpended amounts to the Secretary of the Treasury for deposit into the Community Development Block Grant Declared Disaster Recovery Fund established under section 124, except that the Secretary may, by regulation, permit the grantee to retain amounts needed to close out the grant.

“(2) MITIGATION.—If any amounts made available for assistance for mitigation under this section to grantees remain unexpended upon the earlier of—

“(A) the date that the grantee of such amounts notifies the Secretary that the grantee has completed all activities identified in the grantee’s plan for use of such amounts that was approved by the Secretary in connection with such grant; or

“(B) the expiration of the 12-year period beginning upon the Secretary obligating such amounts to the grantee, as such period may be extended pursuant to paragraph (3); the Secretary may, subject to authority provided in advance by appropriations Acts, transfer such unexpended amounts to the Secretary of the Treasury for deposit into the Community Development Block
Grant Declared Disaster Recovery Fund established under section 124, except that the Secretary may, by regulation, permit the grantee to retain amounts needed to close out the grant.

“(3) EXTENSION OF PERIOD OF PERFORMANCE.—

“(A) UNMET NEEDS.—

“(i) IN GENERAL.—The period of performance under paragraph (1)(B) shall be extended by not more than 4 years if, before the expiration of such 6-year period, the Secretary waives this requirement and submits a written justification for such waiver to the Committees on Appropriations of the House of Representatives and the Senate that specifies the amended period of performance under the waiver.

“(ii) INSULAR AREAS.—For any amounts made available for unmet needs under this section to a grantee that is an insular area as defined in section 102, the Secretary may extend the period of performance under clause (i) by not more than an additional 4 years, and shall provide additional technical assistance to help
increase capacity within the insular area receiving such extension. If the Secretary extends the period of performance pursuant to this subparagraph, the Secretary shall submit a written justification for such extension to the Committees on Appropriations of the House of Representatives and the Senate that specifies the period of such extension.

“(B) MITIGATION.—The period under paragraph (2)(B) shall be extended to a date determined by the Secretary if, before the expiration of such 12-year period, the Secretary issues a waiver to amend the period of performance and submits a written justification for such waiver to the Committees on Appropriations of the House of Representatives and the Senate that specifies the amended period of performance under the waiver.

“(o) BEST PRACTICES.—

“(1) STUDY.—The Secretary, in consultation with the Administrator of the Federal Emergency Management Agency, shall identify best practices for grantees on issues including developing the action plan and substantial amendments under subsection
(c) and substantive amendments, establishing financial controls, building grantee technical and administrative capacity, procurement, compliance with Fair Housing Act statute and regulations, and use of grant funds as local match for other sources of Federal funding. The Secretary shall publish a compilation of such identified best practices and share with all relevant grantees, including States, units of general local government, and Indian tribes to facilitate a more efficient and effective disaster recovery process. The compilation shall include—

“(B) standards for at least form of application, determining unmet need, and income eligibility.

“(2) EXPEDITED REVIEW.—

“(A) REQUIREMENTS.—After publication of the final compilation required by paragraph (1), the Secretary shall issue either Federal regulations, as part of the final rule required under section 5403(b) of the National Defense
Authorization Act for Fiscal Year 2023 or as a separate rule, or a Federal Register notice soliciting public comment for at least 60 days, that establishes grant requirements, including the requirements that grantees must follow in order to qualify for expedited review and approval of a plan or substantial amendment required by subsection (c) of this section.

“(B) APPROVAL; DISAPPROVAL.—The Secretary shall approve or disapprove plans or substantial amendments of grantees that comply with the requirements for such expedited review within 45 days.

“(C) STANDARDIZATION.—The requirements for expedited review shall establish standard language for inclusion in action plans and substantial amendments under subsection (c) of this section and for establishing standardized programs and activities recognized by the Secretary.

“(D) APPLICABILITY OF GRANT REQUIREMENTS.—Compliance with the requirements for expedited review shall not exempt grantees from complying with grant requirements, including requirements for public comment, community
citizen participation, and establishing and main-
taining a public website.

“(E) REVISION.—The Secretary may re-
vote the requirements for expedited review at
any time after a public comment period of at
least 60 days.

“(p) DEFINITIONS.—For purposes of this section:

“(1) GRANTEE.—The term ‘grantee’ means a
recipient of funds made available under this section
after its enactment.

“(2) SUBSTANTIALLY SIMILAR.—The term ‘sub-
stantially similar’ means, with respect to a plan, a

amounts appropriated to or deposited into the Fund, in-
cluding amounts deposited into the Fund pursuant to section 123.

“(c) Use.—Amounts in the Fund shall be available, pursuant to the occurrence of a major disaster declared under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, only for providing technical assistance and capacity building in connection with section 123 for grantees under such section that have been allocated assistance under such section in connection with such disaster to facilitate planning required under such section and increase capacity to administer assistance provided under such section, including for technical assistance and training building and fire officials, builders, contractors and subcontractors, architects, and other design and construction professionals regarding the latest published editions of national consensus-based codes, specifications, and standards (as such term is defined in section 123(e)(7)).”.

(b) Regulations.—

SEC. 5846. POLICY REGARDING DEVELOPMENT OF NUCLEAR WEAPONS BY IRAN.

(a) FINDINGS.—Congress finds the following:

(1) Congress and several successive Presidential administrations have long sought to prevent Iran from ever acquiring a nuclear weapon.

(2) It is currently estimated that Iran is almost to the point of having enough highly-enriched nu-
clear material to produce a nuclear weapon, if further enriched.

(3) On March 3, 2020, the International Atomic Energy Agency (IAEA) Director General reported to the Agency’s Board of Governors that nuclear material was found at three previously undisclosed locations in Iran.

(4) The IAEA reported it began investigating this matter pursuant to Iran’s IAEA safeguards obligations in 2019.

(5) On March 5, 2022, the IAEA and the Atomic Energy Organization of Iran announced an agreement wherein Iran committed to provide the IAEA with information and documents in response to the IAEA’s questions related to uranium particles discovered at undeclared sites in Iran.

(6) On June 6, 2022, the Director General of the IAEA stated that “Iran has not provided explanations that are technically credible in relation to the Agency’s findings at three undeclared locations in Iran. Nor has Iran informed the Agency of the current location, or locations, of the nuclear material and/or of the equipment contaminated with nuclear material, that was moved from Turquzabad in 2018.”
(7) On June 8, 2022, the IAEA Board of Governors overwhelmingly adopted a resolution calling on Iran to cooperate with the IAEA on an urgent basis to fulfil its safeguards obligations and expressing profound concern with Iran’s insufficient substantive cooperation thus far, with 30 Board Members voting in favor, two voting against, and three abstaining.

(8) The IAEA Board of Governors’s resolution called upon Iran to “act on an urgent basis to fulfill its legal obligations and, without delay, take up the Director General’s offer of further engagement to clarify and resolve all outstanding safeguards issues.”.

(9) Shortly before the IAEA Board of Governors’s vote adopting the resolution, Iran announced it would remove 27 IAEA cameras installed to monitor the separate issue of Iran’s JCPOA commitments at certain Iranian facilities and Iran has since followed through on disconnecting these cameras.

(10) Following the vote of the IAEA Board of Governors, Iran informed the IAEA it would install additional cascades of advanced IR-6 centrifuges at its Natanz facility;
(b) *Sense of Congress.*—It is the sense of Congress that it—

1. reiterates its commitment to ensuring Iran will never acquire a nuclear weapon;
2. supports the important work of the IAEA in safeguarding nuclear material around the globe;
3. condemns Iran for its lack of transparency and meaningful cooperation with the IAEA on the unresolved matter of uranium particles discovered at undeclared sites in Iran and additional escalatory actions related to its nuclear program; and
4. applauds the IAEA Board of Governors’ resolution urging Iran’s full cooperation with the IAEA on outstanding safeguards issues on an urgent basis.

SEC. 6002. FINDINGS AND STATEMENT OF POLICY.

(a) FINDINGS.—Congress makes the following findings:

(1) The United States has consistently sought to advance peace and stability in East Asia as a central element of U.S. foreign policy toward the region.

(2) The Government of the People’s Republic of China (PRC), especially since the election of Tsai Ing-Wen in 2016, has conducted a coordinated campaign to weaken Taiwan diplomatically, economically, and militarily in a manner that threatens to erode U.S. policy and create a fait accompli on questions surrounding Taiwan’s future.

(3) In order to ensure the longevity of U.S. policy and preserve the ability of the people of Taiwan to determine their future independently, it is necessary to reinforce Taiwan’s diplomatic, economic, and physical space.
(b) Statement of Policy.—It is the policy of the United States to—

(1) maintain the position that peace and stability in the Western Pacific are in the political, security, and economic interests of the United States, and are matters of international concern; and

(2) work with allies and partners to promote peace and stability in the Indo-Pacific and deter military acts or other forms of coercive behavior that would undermine regional stability.

Subtitle A—Supporting Taiwan’s Meaningful Participation in the International Community

SEC. 6011. FINDINGS.

Congress makes the following findings:

(1) Taiwan has provided monetary, humanitarian, and medical assistance to combat diseases such as AIDS, tuberculosis, Ebola, and dengue fever in countries around the world. During the COVID—
19 pandemic, Taiwan donated millions of pieces of personal protective equipment and COVID–19 tests to countries in need.

(2) Since 2016, the Gambia, Sao Tome and Principe, Panama, the Dominican Republic, Burkina Faso, El Salvador, the Solomon Islands, and Kiribati have severed diplomatic relations with Taiwan in favor of diplomatic relations with China.

(3) Taiwan was invited to participate in the World Health Assembly, the decision-making body of the World Health Organization (WHO), as an observer annually between 2009 and 2016. Since the 2016 election of President Tsai, the PRC has increasingly resisted Taiwan’s participation in the WHA. Taiwan was not invited to attend the WHA in 2017, 2018, 2019, 2020, or 2021.

(4) The Taipei Flight Information Region reportedly served 1.75 million flights and 68.9 million passengers in 2018 and is home to Taiwan Taoyuan International airport, the eleventh busiest airport in the world. Taiwan has been excluded from participating at the International Civil Aviation Organization (ICAO) since 2013.

(5) United Nations (UN) General Assembly Resolution 2758 does not address the issue of rep-
representation of Taiwan and its people at the United Nations, nor does it give the PRC the right to represent the people of Taiwan.

SEC. 6012. SENSE OF CONGRESS ON TAIWAN’S MEANINGFUL PARTICIPATION IN THE INTERNATIONAL COMMUNITY.

It is the sense of Congress that—

(1) Taiwan is free, democratic, and prosperous, and is home to 23.5 million people. It is an important contributor to the global community, as a model for democracy, and by providing expertise in global health, international aviation security, emerging technology development, and with forward looking environmental policies;

(2) multiple United States Government administrations of both political parties have taken important steps to advance Taiwan’s meaningful participation in international organizations;

(3) existing efforts to enhance U.S. cooperation with Taiwan to provide global public goods, including through development assistance, humanitarian assistance, and disaster relief in trilateral and multilateral fora is laudable and should continue;

(4) nonetheless, significant structural, policy, and legal barriers remain to advancing Taiwan’s
meaningful participation in the international community; and

(5) efforts to share Taiwan’s expertise with other parts of the global community could be further enhanced through a systematic approach, along with greater attention from Congress and the American public to such efforts.

SEC. 6013. STRATEGY TO SUPPORT TAIWAN'S MEANINGFUL PARTICIPATION IN INTERNATIONAL ORGANIZATIONS.

(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in consultation with other Federal departments and agencies as appropriate, shall submit to the appropriate congressional committees a strategy—

(E) A survey of IOs that have allowed Taiwan’s meaningful participation, including an assessment of whether any erosion in Taiwan’s engagement has occurred within those organizations and how Taiwan’s participation has positively strengthened the capacity and activity of these organizations, thereby providing positive models for Taiwan’s inclusion in other similar forums.

meaningful participation over the three-year pe-

Subtitle B—Advancing Taiwan’s Economic Space

SEC. 6021. SENSE OF CONGRESS ON EXPANDING U.S. ECONOMIC RELATIONS WITH TAIWAN.

It is the sense of the Congress that—
(1) expanding U.S. economic relations with Taiwan has benefited the people of both the United States and Taiwan. Taiwan is now the United States 10th largest goods trading partner, 13th largest export market, 13th largest source of imports, and a key destination for U.S. agricultural exports;

(2) further integration, consistent with robust environmental standard and labor rights, would benefit both peoples and is in the strategic and diplomatic interests of the United States; and

(3) the United States should explore opportunities to expand economic agreements between Taiwan and the United States, through dialogue, and by developing the legal templates required to support potential future agreements.

Subtitle C—Enhancing Deterrence Over Taiwan

SEC. 6031. SENSE OF CONGRESS ON PEACE AND STABILITY IN THE TAIWAN STRAIT.

It is the sense of Congress that—

(1) PRC attempts to intimidate Taiwan, including through high rates of PRC sorties into air space near Taiwan, and PRC amphibious assault exercises near Taiwan, jeopardizes the long-standing U.S. po-
sition that differences in cross-Strait relations must be resolved peacefully;

(2) given the potential for a cross-Strait conflict to be highly destructive and destabilizing, any increase in the risk of conflict demands attention and obligates leaders to reinforce deterrence, as the most viable means to prevent war;

(3) Taiwan should continue to implement its asymmetric defense strategy, including investing in cost-effective and resilient capabilities, while also strengthening recruitment and training of its reserve and civil defense forces, and those capabilities include coastal defense cruise missiles; and

(4) while enhancing deterrence, it is also essential to maintain open and effective crisis communication and risk reduction mechanisms, as a means to reduce the risk of misunderstanding and ultimately, conflict.

SEC. 6032. STRATEGY TO ENHANCE DETERRENCE OVER A CROSS-STRAIT CONFLICT.

(a) In General.—No later than 90 days after the date of enactment of this Act, the President shall submit to the appropriate congressional committees a whole-of-government strategy to enhance deterrence over a cross-Strait military conflict between the PRC and Taiwan.

(1) A comprehensive review of existing diplomatic, economic, and military tools to establish deterrence over a cross-Strait conflict and an assessment of their efficacy.

(2) An examination of the present and future capabilities of the United States and Taiwan to respond to the potential PLA campaigns against Taiwan in 5, 10, and 15 years. The analysis shall include an assessment of the progress Taiwan has made in developing the cost-effective and resilient capabilities needed to respond to its strategic environment, as well as any additional personnel, procurement, or training reforms required.

(3) An evaluation of the feasibility of expanding coordination with U.S. allies and partners to enhance deterrence over a cross-Strait conflict. The review shall include, but is not limited to, a review of the following matters:

   (A) Expanding coordination of public or private messaging on deterrence vis-à-vis Taiwan.
(B) Coordinating use of economic tools to raise the costs of PRC military action that could precipitate a cross-Strait conflict.

(C) Enhancing co-development and co-deployment of military capabilities related to deterrence over a cross-Strait conflict, or enhancing coordinated training of Taiwan’s military forces.

(4) Recommendations on significant additional diplomatic, economic, and military steps available to the U.S. Government, unilaterally and in concert with U.S. allies and partners, to enhance the clarity and credibility of deterrence over a cross-Strait conflict.

(c) FORM OF REPORT.—The strategy required in subsection (b) shall be classified, but it may include an unclassified annex, if determined appropriate by the President.

agencies and departments involved in developing the strategy required in paragraph (a) shall consult with the appropriate congressional committees regarding the development and implementation of the strategy required in this section. The representatives shall be at the Undersecretary level or above.

SEC. 6033. STRENGTHENING TAIWAN’S CIVILIAN DEFENSE PROFESSIONALS.

(1) A comprehensive review of existing U.S. Government and non-U.S. Government programmatic and funding modalities to support Taiwan’s civilian defense professionals in pursuing professional development, educational, and cultural exchanges in the United States. The review shall include, but is not limited to—
(A) opportunities through U.S. Department of State-supported programs, such as the International Visitor Leaders Program; and

(B) opportunities offered through non-governmental institutions, such as think tanks, to the extent the review can practicably make such an assessment.

(2) A description of the frequency that civilian defense professionals from Taiwan pursue or are selected for the programs reviewed in paragraph (1).

(3) An analysis of any funding, policy, administrative, or other barriers preventing greater participation from Taiwan’s civilian defense professionals in the opportunities identified in paragraph (1).

(4) An evaluation of the value expanding the opportunities reviewed in paragraph (1) would offer for strengthening Taiwan’s existing civilian defense community, and for increasing the perceived value of the field for young professionals in Taiwan.

(5) An assessment of options the United States Government could take individually, with partners in Taiwan, or with foreign governments or non-governmental partners, to expand the opportunities reviewed in paragraph (1).
(6) A description of additional resources and authorities that may be required to execute the options in paragraph (5).

(c) FORM OF REPORT.—The report required in subsection (a) shall be unclassified, but it may include a classified annex, if determined appropriate.

zoonotic infectious diseases, with recommendations for implementing the closure of wildlife
markets and prevention of the commercial trade
in live wildlife for human consumption, except
where the consumption of wildlife is necessary
for local food security or where such actions
would significantly disrupt a readily available
and irreplaceable food supply;

(B) raise awareness and build stakeholder
engagement networks, including civil society,
the private sector, and local and regional gov-
ernments on the dangerous potential of wildlife
markets as a source of zoonotic diseases and re-
duce demand for the consumption of wildlife
through evidence-based behavior change pro-
grams, while ensuring that existing wildlife
habitat is not encroached upon or destroyed as
part of this process;

(C) encourage and support alternative
forms of sustainable food production, farming,
and shifts to sustainable sources of protein and
nutrition instead of terrestrial wildlife, where
able and appropriate, and reduce consumer de-
mand for terrestrial and freshwater wildlife
through enhanced local and national food sys-
tems, especially in areas where wildlife markets
play a significant role in meeting subsistence
needs while ensuring that existing wildlife habi-
tat is not encroached upon or destroyed as part
of this process; and

(D) strive to increase biosecurity and hygi-
enic standards implemented in farms, gathering
centers, transport, and market systems around
the globe, especially those specializing in the
 provision of products intended for human con-
sumption.

SEC. 6305. PREVENTION OF FUTURE ZOONOTIC SPILLOVER
EVENT.

(a) In general.—The Secretary of State and the
Administrator of the United States Agency for Inter-
national Development, in consultation with the Director
of the United States Fish and Wildlife Service, the Sec-
retary of Agriculture, the Director of the Centers for Dis-
cease Control and Prevention, and the heads of other rel-
evant departments and agencies, shall work with foreign
governments, multilateral entities, intergovernmental or-
organizations, international partners, private sector part-
ners, and nongovernmental organizations to carry out ac-
tivities supporting the following objectives, recognizing that multiple interventions will likely be necessary to make an impact, and that interventions will need to be tailored to the situation to—

(1) pursuant to section 6302, close wildlife markets and prevent associated commercial trade in live wildlife, placing a priority focus on countries with significant markets for live wildlife for human consumption, high-volume commercial trade and associated markets, trade in and across urban centers, and trade for luxury consumption or where there is no dietary necessity—

(A) through existing treaties, conventions, and agreements;

(B) by amending existing protocols or agreements;

(C) by pursuing new protocols; or

(D) by other means of international coordination;

(2) improve regulatory oversight and reduce commercial trade in live wildlife and eliminate practices identified to contribute to zoonotic spillover and emerging pathogens;
(3) prevent commercial trade in live wildlife through programs that combat wildlife trafficking and poaching, including—

(A) providing assistance to improve law enforcement;

(B) detecting and deterring the illegal import, transit, sale, and export of wildlife;

(C) strengthening such programs to assist countries through legal reform;

(D) improving information sharing and enhancing capabilities of participating foreign governments;

(E) supporting efforts to change behavior and reduce demand for such wildlife products;

(F) leveraging United States private sector technologies and expertise to scale and enhance enforcement responses to detect and prevent such trade; and

(G) strengthening collaboration with key private sector entities in the transportation industry to prevent and report the transport of such wildlife and wildlife products;

(4) leverage strong United States bilateral relationships to support new and existing inter-Ministe-
rial collaborations or Task Forces that can serve as regional One Health models;

(5) build local agricultural and food safety capacity by leveraging expertise from the United States Department of Agriculture (USDA) and institutions of higher education with agricultural or natural resource expertise;

(6) work through international organizations to help develop a set of objective risk-based metrics that provide a cross-country comparable measure of the level of risk posed by wildlife trade and marketing and can be used to track progress nations make in reducing risks, identify where resources should be focused, and potentially leverage a peer influence effect;

(7) increase efforts to prevent the degradation and fragmentation of forests and other intact ecosystems to minimize interactions between wildlife and human and livestock populations that could contribute to spillover events and zoonotic disease transmission, including by providing assistance or supporting policies to, for example—

(A) conserve, protect, and restore the integrity of such ecosystems;
(B) support the rights and needs of Indigenous People and local communities and their ability to continue their effective stewardship of their traditional lands and territories;

(C) support the establishment and effective management of protected areas, prioritizing highly intact areas; and

(D) prevent activities that result in the destruction, degradation, fragmentation, or conversion of intact forests and other intact ecosystems and biodiversity strongholds, including by governments, private sector entities, and multilateral development financial institutions;

(8) offer appropriate alternative livelihood and worker training programs and enterprise development to wildlife traders, wildlife breeders, and local communities whose members are engaged in the commercial trade in live wildlife for human consumption;

(9) ensure that the rights of indigenous peoples and local communities are respected and their authority to exercise these rights is protected;

(10) strengthen global capacity for prevention, prediction, and detection of novel and existing zoonoses with pandemic potential, including the sup-
port of innovative technologies in coordination with the United States Agency for International Development, the Centers for Disease Control and Prevention, and other relevant departments and agencies; and

(11) support the development of One Health systems at the local, regional, national, and global levels in coordination with the United States Agency for International Development, the Centers for Disease Control and Prevention, and other relevant departments and agencies, particularly in emerging infectious disease hotspots, through a collaborative, multisectoral, and transdisciplinary approach that recognizes the interconnections among people, animals, plants, and their shared environment to achieve equitable and sustainable health outcomes.

(b) Activities May Include.—

(1) Global cooperation.—The United States Government, working through the United Nations and its components, as well as international organization such as Interpol, the Food and Agriculture Organization of the United Nations, and the World Organisation for Animal Health, and in furtherance of the policies described in section 6304, shall—
(A) collaborate with other member States, issue declarations, statements, and communiques urging countries to close wildlife markets, and prevent commercial trade in live wildlife for human consumption; and

(B) urge increased enforcement of existing laws to end wildlife trafficking.

(2) INTERNATIONAL COALITIONS.—The Secretary of State shall seek to build new, and support existing, international coalitions focused on closing wildlife markets and preventing commercial trade in live wildlife for human consumption, with a focus on the following efforts:

(A) Providing assistance and advice to other governments in the adoption of legislation and regulations to close wildlife markets and associated trade over such timeframe and in such manner as to minimize the increase of wildlife trafficking and poaching.

(B) Creating economic and enforcement pressure for the immediate shut down of uncontrolled, unsanitary, or illicit wildlife markets and their supply chains to prevent their operation.
(C) Providing assistance and guidance to other governments on measures to prohibit the import, export, and domestic commercial trade in live wildlife for the purpose of human consumption.

(D) Implementing risk reduction interventions and control options to address zoonotic spillover along the supply chain for the wildlife market system.

(E) Engaging and receiving guidance from key stakeholders at the ministerial, local government, and civil society level, including Indigenous Peoples, in countries that will be impacted by this title and where wildlife markets and associated wildlife trade are the predominant source of meat or protein, in order to mitigate the impact of any international efforts on food security, nutrition, local customs, conservation methods, or cultural norms.

(c) United States Agency for International Development.—

(1) Sustainable food systems funding.—

(A) Authorization of appropriations.—In addition to any other amounts provided for such purposes, there is authorized to
be appropriated such sums as necessary for each of fiscal years 2023 through 2032 to the United States Agency for International Development to reduce demand for consumption of wildlife from wildlife markets and support shifts to diversified alternative and sustainably produced sources of nutritious food and protein in communities that rely upon the consumption of wildlife for food security, while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process, using a multisectoral approach and including support for demonstration programs.

(B) Activities.—The Bureau for Development, Democracy and Innovation (DDI), the Bureau for Resilience and Food Security (RFS), and the Bureau for Global Health (GH) of the United States Agency for International Development shall, in partnership with United States and international institutions of higher education and nongovernmental organizations, co-develop approaches focused on safe, sustainable food systems that support and incentivize the replacement of terrestrial wildlife in diets, while ensuring that existing wildlife habitat is
not encroached upon or destroyed as part of this process.

(2) ADDRESSING THREATS AND CAUSES OF ZOONOTIC DISEASE OUTBREAKS.—The Administrator of the United States Agency for International Development, in consultation with the Secretary of the Interior, shall increase activities in United States Agency for International Development programs related to conserving biodiversity, combating wildlife trafficking, sustainable landscapes, global health, food security, and resilience in order to address the threats and causes of zoonotic disease outbreaks, including through—

(A) education;

(B) capacity building;

(C) strengthening human, livestock, and wildlife health monitoring systems of pathogens of zoonotic origin to support early detection and reporting of novel and known pathogens for emergence of zoonotic disease and strengthening cross-sectoral collaboration to align risk reduction approaches in consultation with the Director of the Centers for Disease Control and the Secretary of Health and Human Services;
(D) improved domestic and wild animal
disease monitoring and control at production
and market levels;

(E) development of alternative livelihood
opportunities where possible;

(F) preventing degradation and fragmentation
of forests and other intact ecosystems and
restoring the integrity of such ecosystems, par-
ticularly in tropical countries, to prevent the
creation of new pathways for zoonotic pathogen
transmission that arise from interactions among
wildlife, humans, and livestock populations;

(G) minimizing interactions between do-

cestive livestock and wild animals in markets
and captive production;

(H) supporting shifts from wildlife markets
to diversified, safe, affordable, and accessible al-
ternative sources of protein and nutrition
through enhanced local and national food sys-
tems while ensuring that existing wildlife habi-
tat is not encroached upon or destroyed as part
of this process;

(I) improving community health, forest
management practices, and safety of livestock
production in tropical landscapes, particularly
in hotspots for zoonotic spillover and emerging infectious diseases;

(J) preventing degradation and fragmentation of forests and other intact ecosystems, particularly in tropical countries, to minimize interactions between wildlife, human, and livestock populations that could contribute to spillover events and zoonotic disease transmission, including by providing assistance or supporting policies to—

(i) conserve, protect, and restore the integrity of such ecosystems; and

(ii) support the rights of Indigenous People and local communities and their ability to continue their effective stewardship of their intact traditional lands and territories;

(K) supporting development and use of multi-data sourced predictive models and decisionmaking tools to identify areas of highest probability of zoonotic spillover and to determine cost-effective monitoring and mitigation approaches; and

(L) other relevant activities described in this section that are within the mandate of the
United States Agency for International Development.

(d) STAFFING REQUIREMENTS.—The Administrator of the United States Agency for International Development, in collaboration with the United States Fish and Wildlife Service, the United States Department of Agriculture Animal and Plant Health Inspection Service, the Centers for Disease Control and Prevention, and other Federal entities as appropriate, is authorized to hire additional personnel—

(1) to undertake programs aimed at reducing the risks of endemic and emerging infectious diseases and exposure to antimicrobial resistant pathogens;

(2) to provide administrative support and resources to ensure effective and efficient coordination of funding opportunities and sharing of expertise from relevant United States Agency for International Development bureaus and programs, including emerging pandemic threats;

(a) In General.—It is the sense of Congress that any letter of offer to sell, or any application for a license to export or transfer, defense articles or defense services controlled for export, regardless of monetary value, should take into account as part of its evaluation whether the Secretary of State has credible information, with respect to a country to which the defense articles or defense services are proposed to be sold, exported, or transferred, that—

(1) the government of such country on or after the date of enactment of this Act has been deposed by a coup d’etat or decree in which the military played a decisive role, and a democratically elected government has not taken office subsequent to the coup or decree; or

(2) a unit of the security forces of the government of such country—

(A) has violated international humanitarian law and has not been credibly investigated and subjected to a credible and transparent judicial process addressing such allegation; or

(B) has committed a gross violation of human rights, and has not been credibly inves-
tigated and subjected to a credible and transparent judicial process addressing such allegation, including, inter alia—

(i) torture;

(ii) rape or sexual assault;

(iii) ethnic cleansing of civilians;

(iv) recruitment or use of child soldiers;

Subtitle A—Matters Relating to the Conflict in Burma

SEC. 6511. FINDINGS.

Congress makes the following findings:

(1) Since 1988, the United States policy of principled engagement has fostered positive democratic reforms in Burma, with elections in 2010, 2015, and 2020, helping to bring about the partial transition to civilian rule and with the latter 2 elections resulting in resounding electoral victories for the National League for Democracy.

(2) That democratic transition remained incomplete, with the military retaining significant power and independence from civilian control following the 2015 elections, including through control of 25 percent of parliamentary seats, a de facto veto over constitutional reform, authority over multiple government ministries, and the ability to operate with impunity and no civilian oversight.

(3) Despite some improvements with respect for human rights and fundamental freedoms beginning in 2010, and the establishment of a quasi-civilian government following credible elections in 2015, Burma’s military leaders have, since 2016, overseen an increase in restrictions to freedom of expression
(including for members of the press), freedom of
peaceful assembly, freedom of association, and free-
dom of religion or belief.

(4) On August 25, 2017, Burmese military and
security forces launched a genocidal military cam-
paign against Rohingya, resulting in a mass exodus
of some 750,000 Rohingya from Burma’s Rakhine
State into Bangladesh, where they remain. The mili-
tary has since taken no steps to improve conditions
for Rohingya still in Rakhine State, who remain at
high risk of genocide and other atrocities, or to cre-
ate conditions conducive to the voluntary return of
Rohingya refugees and other internally displaced
persons (IDPs).

(5) The Burmese military has also engaged in
renewed violence with other ethnic minority groups
across the country. The military has continued to
commit atrocities in Chin, Kachin, Kayah, and
Shan. Fighting in northern Burma has forced more
than 100,000 people from their homes and into
camps for internally displaced persons. The Burmese
military continues to heavily proscribe humanitarian
and media access to conflict-affected populations
across the country.
(6) With more nearly $470,000,000 in humanitarian assistance in response to the crisis in fiscal year 2021, the United States is the largest humanitarian donor to populations in need as a result of conflicts in Burma. In May 2021, the United States announced nearly $155,000,000 in additional humanitarian assistance to meet the urgent needs of Rohingya refugees and host communities in Bangladesh and people affected by ongoing violence in Burma’s Rakhine, Kachin, Shan, and Chin states. In September 2021, the United States provided nearly $180,000,000 in additional critical humanitarian assistance to the people of Burma, bringing the total fiscal year 2021 to more than $434,000,000.

(7) Both government- and military-initiated investigations into human rights abuses in Burma involving violence between ethnic minorities and Burmese security forces have failed to yield credible results or hold perpetrators accountable.

(8) In its report dated September 17, 2018, the United Nations Independent International Fact-Finding Mission on Myanmar concluded, on reasonable grounds, that the factors allowing inference of “genocidal intent” are present with respect to the
attacks against Rohingya in Rakhine State, and acts
by Burmese security forces against Rohingya in
Rakhine State and other ethnic minorities in Kachin
and Shan States amount to “crimes against human-
ity” and “war crimes”. The Independent Inter-
national Fact-Finding Mission on Myanmar estab-
lished by the United Nations Human Rights Council
recommended that the United Nations Security
Council “should ensure accountability for crimes
under international law committed in Myanmar,
preferably by referring the situation to the Inter-
national Criminal Court or alternatively by creating
an ad hoc international criminal tribunal”. The Mis-
sion also recommended the imposition of targeted
economic sanctions, including an arms embargo on
Burma.

(9) On December 13, 2018, the United States
House of Representatives passed House Resolution
1091 (115th Congress), which expressed the sense of
the House that “the atrocities committed against the
Rohingya by the Burmese military and security
forces since August 2017 constitute crimes against
humanity and genocide” and called upon the Sec-
retary of State to review the available evidence and
make a similar determination.
(10) In a subsequent report dated August 5, 2019, the United Nations Independent International Fact-Finding Mission on Myanmar found that the Burmese military’s economic interests “enable its conduct” and that it benefits from and supports extractive industry businesses operating in conflict-affected areas in northern Burma, including natural resources, particularly oil and gas, minerals and gems and argued that “through controlling its own business empire, the Tatmadaw can evade the accountability and oversight that normally arise from civilian oversight of military budgets”. The report called for the United Nations and individual governments to place targeted sanctions on all senior officials in the Burmese military as well as their economic interests, especially Myanma Economic Holdings Limited and Myanmar Economic Corporation.

(11) Burma’s November 2020 election resulted in a landslide victory for the National League of Democracy, with the National League for Democracy winning a large majority of seats in Burma’s national parliament. The elections were judged to be credible, and marked an important step in the country’s democratic transition.
(12) On February 1, 2021, the Burmese military conducted a coup d’état, declaring a year-long state of emergency and detaining State Counsellor Aung San Suu Kyi, President Win Myint, and dozens of other government officials and elected members of parliament, thus derailing Burma’s transition to democracy and disregarding the will of the people of Burma as expressed in the November 2020 general elections, which were determined to be credible by international and national observers.

(13) Following the coup, some ousted members of parliament established the Committee Representing the Pyidaungsu Hluttaw (CRPH), which subsequently established the National Unity Consultative Council in March of 2021. The National Unity Consultative Council includes representatives from a broad spectrum of stakeholders in Burma opposed to the military and the coup: elected representatives from the CRPH, representatives from the ethnic armed organizations, members of Burma’s civil disobedience movement, and other anti-coup forces.

(14) The CRPH subsequently released the Federal Democracy Charter in March 2021 and established the National Unity Government in April 2021. The National Unity Government includes represent-
atives from ethnic minority groups, civil society organizations, women’s groups, leaders of the civil disobedience movement, and others.

(15) Since the coup on February 1, 2021, the Burmese military has—

(A) used lethal force on peaceful protestors on multiple occasions, killing more than 2,000 people, including more than 142 children;

(B) detained more than 10,000 peaceful protestors, participants in the Civil Disobedience Movement, labor leaders, government officials and elected members of parliament, members of the media, and others, according to the Assistance Association for Political Prisoners;

(C) issued laws and directives used to further impede fundamental freedoms, including freedom of expression (including for members of the press), freedom of peaceful assembly, and freedom of association; and

(D) imposed restrictions on the internet and telecommunications.

(16) According to the UNHCR, more than 758,000 people have been internally displaced since the coup, while an estimated 40,000 have sought ref-
venge in neighboring countries. Nevertheless, the Burmese military continues to block humanitarian assistance to populations in need. According to the World Health Organization, the military has carried out more than 286 attacks on health care entities since the coup and killed at least 30 health workers. Dozens more have been arbitrarily detained, and hundreds have warrants out for their arrest. The military continued such attacks even as they inhibited efforts to combat a devastating third wave of COVID–19. The brutality of the Burmese military was on full display on March 27, 2021, Armed Forces Day, when, after threatening on state television to shoot protesters in the head, security forces killed more than 150 people.

(17) The coup represents a continuation of a long pattern of violent and anti-democratic behavior by the military that stretches back decades, with the military having previously taken over Burma in coups d’État in 1962 and 1988, and having ignored the results of the 1990 elections, and a long history of violently repressing protest movements, including killing and imprisoning thousands of peaceful protestors during pro-democracy demonstrations in 1988 and 2007.
(18) On February 11, 2021, President Biden issued Executive Order 14014 in response to the coup d’état, authorizing sanctions against the Burmese military, its economic interests, and other perpetrators of the coup.

(19) Since the issuance of Executive Order 14014, President Biden has taken several steps to impose costs on the Burmese military and its leadership, including by designating or otherwise imposing targeted sanctions with respect to—

(A) multiple high-ranking individuals and their family members, including the Commander-in-Chief of the Burmese military, Min Aung Hlaing, Burma’s Chief of Police, Than Hlaing, and the Bureau of Special Operations commander, Lieutenant General Aung Soe, and over 35 other individuals;

(B) state-owned and military controlled companies, including Myanma Economic Holdings Public Company, Ltd., Myanmar Economic Corporation, Ltd., Myanmar Economic Holdings Ltd., Myanmar Ruby Enterprise, Myanmar Imperial Jade Co., Ltd., and Myanmar Gems Enterprise; and
(C) other corporate entities, Burmese military units, and Burmese military entities, including the military regime’s State Administrative Council.

(20) The United States has also implemented new restrictions on exports and reexports to Burma pursuant to Executive Order 14014; and

(21) On April 24, 2021, the Association of Southeast Asian Nations (ASEAN) agreed to a five-point consensus which called for an “immediate cessation of violence”, “constructive dialogue among all parties”, the appointment of an ASEAN special envoy, the provision of humanitarian assistance through ASEAN’s AHA Centre, and a visit by the ASEAN special envoy to Burma. Except for the appointment of the Special Envoy in August 2021, the other elements of the ASEAN consensus remain unimplemented due to obstruction by the Burmese military.

(22) In June 2021, the National Unity Government included ethnic minorities and women among its cabinet and released a policy paper outlining pledges to Rohingya and calling for “justice and reparations” for the community. The statement affirms the Rohingya right to citizenship in Burma, a sig-

Subtitle C—Ensuring Diversity in
Community Banking

SEC. 6631. SHORT TITLE.

This subtitle may be cited as the “Ensuring Diversity
in Community Banking Act”.

SEC. 6632. SENSE OF CONGRESS ON FUNDING THE LOAN-
LOSS RESERVE FUND FOR SMALL DOLLAR
LOANS.

The sense of Congress is the following:

(1) The Community Development Financial In-
stitutions Fund (the “CDFI Fund”) is an agency of
the Department of the Treasury, and was established by the Riegle Community Development and Regulatory Improvement Act of 1994. The mission of the CDFI Fund is “to expand economic opportunity for underserved people and communities by supporting the growth and capacity of a national network of community development lenders, investors, and financial service providers”. A community development financial institution (a “CDFI”) is a specialized financial institution serving low-income communities and a Community Development Entity (a “CDE”) is a domestic corporation or partnership that is an intermediary vehicle for the provision of loans, investments, or financial counseling in low-income communities. The CDFI Fund certifies CDFIs and CDEs. Becoming a certified CDFI or CDE allows organizations to participate in various CDFI Fund programs as follows:

(A) The Bank Enterprise Award Program, which provides FDIC-insured depository institutions awards for a demonstrated increase in lending and investments in distressed communities and CDFIs.

(B) The CDFI Program, which provides Financial and Technical Assistance awards to
CDFIs to reinvest in the CDFI, and to build the capacity of the CDFI, including financing product development and loan loss reserves.

(C) The Native American CDFI Assistance Program, which provides CDFIs and sponsoring entities Financial and Technical Assistance awards to increase lending and grow the number of CDFIs owned by Native Americans to help build capacity of such CDFIs.

(D) The New Market Tax Credit Program, which provides tax credits for making equity investments in CDEs that stimulate capital investments in low-income communities.

(E) The Capital Magnet Fund, which provides awards to CDFIs and nonprofit affordable housing organizations to finance affordable housing solutions and related economic development activities.

(F) The Bond Guarantee Program, a source of long-term, patient capital for CDFIs to expand lending and investment capacity for community and economic development purposes.

(2) The Department of the Treasury is authorized to create multi-year grant programs designed to encourage low-to-moderate income individuals to es-
establish accounts at federally insured banks, and to improve low-to-moderate income individuals’ access to such accounts on reasonable terms.

(3) Under this authority, grants to participants in CDFI Fund programs may be used for loan-loss reserves and to establish small-dollar loan programs by subsidizing related losses. These grants also allow for the providing recipients with the financial counseling and education necessary to conduct transactions and manage their accounts. These loans provide low-cost alternatives to payday loans and other nontraditional forms of financing that often impose excessive interest rates and fees on borrowers, and lead millions of Americans to fall into debt traps. Small-dollar loans can only be made pursuant to terms, conditions, and practices that are reasonable for the individual consumer obtaining the loan.

(4) Program participation is restricted to eligible institutions, which are limited to organizations listed in section 501(c)(3) of the Internal Revenue Code and exempt from tax under 501(a) of such Code, federally insured depository institutions, community development financial institutions and State, local, or Tribal government entities.
(5) According to the CDFI Fund, some programs attract as much as $10 in private capital for every $1 invested by the CDFI Fund. The Administration and the Congress should prioritize appropriation of funds for the loan loss reserve fund and technical assistance programs administered by the Community Development Financial Institution Fund.

This title may be cited as the “Global Health Security Act of 2022”.

SEC. 6902. FINDINGS.

Congress finds the following:

(2) In February 2014, the United States and nearly 30 other nations launched the Global Health Security Agenda (GHSA) to address several high-priority, global infectious disease threats. The GHSA is a multi-faceted, multi-country initiative intended to accelerate partner countries’ measurable capabilities to achieve specific targets to prevent, detect, and respond to infectious disease threats, whether naturally occurring, deliberate, or accidental.
(3) In 2015, the United Nations adopted the Sustainable Development Goals (SDGs), which include specific reference to the importance of global health security as part of SDG 3 “ensure healthy lives and promote well-being for all at all ages” as follows: “strengthen the capacity of all countries, in particular developing countries, for early warning, risk reduction and management of national and global health risks”.

(4) On November 4, 2016, President Obama signed Executive Order No. 13747, “Advancing the Global Health Security Agenda to Achieve a World Safe and Secure from Infectious Disease Threats”.
