# RESOLUTION

Whereas, since 1965, Medicare has been, and continues to be, essential for senior citizens of the United States;

Whereas, since 1935, Social Security has been, and continues to be, essential for senior citizens of the United States;

Whereas, in 2020, there were over 60,000,000 citizens of the United States who were Medicare and Social Security beneficiaries, with 10,000 new eligible enrollees each day;

Whereas a promise has been made by the Federal Government to provide Medicare services and Social Security benefits for senior citizens;

Whereas many Social Security and Medicare beneficiaries rely on these critical benefits to make ends meet each month;

Whereas in the absence of meaningful reform, Medicare is scheduled to deplete by 2024, according to the non-partisan Congressional Budget Office;

Whereas in the absence of meaningful reform, Social Security is scheduled to deplete by 2034, according to the non-partisan Social Security Administration;

Whereas the Department of Health and Human Services estimates that \$42.9 billion was lost in fiscal year 2020 due to improper payments, including waste, fraud, and abuse, in the Medicare Program; and

Whereas the Social Security Administration estimates that \$7.8 billion was lost in fiscal year 2019 due to improper payments, including waste, fraud, and abuse, in the Social Security program: Now, therefore, be it

9       of the United States who are in or near retirement,

1 in the Medicare Program under title XVIII of the  
2 Social Security Act, or in the Social Security pro-  
3 gram under title II of such Act;
