Whereas, by April 26, 2022, refugees comprised more than 16 percent of the population of Moldova;

Whereas the United Nations High Commissioner for Refugees Representative for Central Europe Roland Schilling said, “The attitude of Moldovan authorities is really impressive”, and noted that “local communities came to help refugees, feeding them, supporting them” at the border;

Whereas the Government of Moldova has created “green corridors” to facilitate the crossing of refugees from Ukraine to Romania and other countries in the European Union;

Whereas, over the past year, the Government of Moldova and civil society have embarked on meaningful reform of the justice system and promoted good governance and economic stability in Moldova;

Whereas, on March 3, 2022, Moldova formally submitted its application to join the European Union, signaling a commitment to democratic values and the rule of law;

Whereas, on March 16, 2022, the European Union announced that Moldova and Ukraine had completed the emergency synchronization process with the Continental European Grid, operated by the European Network of Transmission System Operators;

Whereas, as of April 21, 2022, the United States has provided more than \$25,000,000 to support humanitarian operations in Moldova;

Whereas, on April 22, 2022, a senior military official of the Russian Federation indicated that the Russian Federation intended to conquer southern Ukraine and join that territory with Transnistria, a breakaway region of Moldova; and
