ARMS SALES NOTIFICATION

Mr. MENENDEZ. Mr. President, section 36(b) of the Arms Export Control Act requires that Congress receive prior notification of certain proposed arms sales as defined by that statute. Upon such notification, the Congress has 30 calendar days during which the sale may be reviewed. The provision stipulates that, in the Senate, the notification of proposed sales shall be sent to the chairman of the Senate Foreign Relations Committee.

In keeping with the committee's intention to see that relevant information is available to the full Senate, I ask unanimous consent to have printed in the RECORD the notifications which have been received. If the cover letter references a classified annex, then such annex is available to all Senators in the office of the Foreign Relations Committee, room SD-423.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

> DEFENSE SECURITY COOPERATION AGENCY, Arlington, VA.

POLICY JUSTIFICATION

Finland-Extended Range Guided Multiple Launch Rocket System

The Government of Finland has requested to buy twenty-five (25) M30A2 Extended Range Guided Multiple Launch Rocket Systems-Alternative Warhead (ER GMLRS-AW) Pods; and ten (10) M31A2 Extended Range Guided Multiple Launch Rocket Systems-Unitary (ER GMLRS-U) Pods. Also included is an ER GMLRS Materiel Release Package; Stockpile Reliability Program (SRP) support; Quality Assurance Testing (QAT) services; technical publications; U.S. Government and contractor technical and logistics support services; and other related element of program and logistics support. The total estimated cost is \$91.2 million.

This proposed sale will support the foreign policy and national security of the United States by improving the security of a trusted partner which is an important force for political stability and economic progress in Europe. It is vital to the U.S. national interest to assist Finland in developing and maintaining a strong and ready self-defense capa-

Finland intends to use these defense articles and services to modernize its armed forces. Finland intends to expand its existing army architecture to counter potential threats. This will contribute to the Finland military's goal to upgrade its capability while enhancing interoperability between Finland, the United States, and other allies. Finland will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Corporation, Missile and Fire Control, Grand Prairie, TX. There are no known offsets associated with this potential sale.

Implementation of this proposed sale will not require the assignment of U.S. Government or contractor representatives to Finland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

(vii) Sensitivity of Technology:

- 1. The ER GMLRS provides a persistent, responsive, all-weather, rapidly deployed, long range, surface-to-surface, area- and point-precision strike capability. The AW variant (XM403, also referred to as M30A2) carries a 200-pound fragmentation assembly filled with high explosives which, upon detonation, accelerates two layers of preformed penetrators optimized for effectiveness against large area and imprecisely located targets. The Unitary variant (XM404, also referred to as M31A2) is a 200-pound class unitary with a steel blast-fragmentation case. designed for low collateral damage against point targets. The ER GMLRS maintains the accuracy and effectiveness demonstrated by the baseline GMLRS out to a maximum range of 150 km (double of GMLRS capability) while also including a new Height Of Burst (HOB) capability.
- 2. The highest level of classified information associated with the sale of this equipment is SECRET.
- 3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
- 4. A determination has been made that Finland can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.
