passionate about his work, but his greatest joy in life was his family. Anyone who spent time around Jim instantly knew that he was a familv man: he delighted in attending concerts and visiting theme parks with his family, especially his grandchildren. He is survived by Karen, his wife of 36 years, their four children, James Michael II (Andrea Pinzon-Garcia), William Jordan (Patricia Kuzma), Lauren Rose (Aaron Possinger) and Candace Marie and five grandchildren, Ariana, Lillian, Camilo, Adelaide, and Maverick. He is also survived by his mother, Catherine Kuzma, and mother-in-law, Candace Jordan. He is also survived by innumerable friends and colleagues, who all miss him dearly.

On a personal note, I am proud to have called Jim my friend for many years. Jim served on my selection board for the U.S. Naval Academy. He believed in the importance of serving our nation and was a strong supporter of our brave men and women in military uniform as well as our military veterans. Jim was proud of our nation's space program, worked tirelessly to promote America's mission in Space along with our commercial space endeavors, and was champion for local businesses in Brevard County, Florida.

Madam Speaker, I ask my colleagues to join me in saluting Captain James Kuzma for a lifetime of service to the United States and his fellow citizens. I would also like to ask my colleagues in the House to join us in extending our deepest sympathies to Jim's family, friends, colleagues, and loved ones during this difficult time.

RECOGNIZING DR. WILLIAM "BILL" GOLDSTEIN

HON. ERIC SWALWELL

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES Wednesday, February 24, 2021

Mr. SWALWELL. Madam Speaker, I rise to recognize Dr. William "Bill" Goldstein on the occasion of his upcoming retirement as Director of Lawrence Livermore National Laboratory (LLNL) and President of Lawrence Livermore National Security, LLC on March 1, 2021.

Before landing at LLNL, Bill received a bachelor's degree in physics from Swarthmore College in Pennsylvania, a doctorate in theoretical physics from Columbia University in New York, and was a postdoctoral research associate with the Theoretical Physics Group at the Stanford Linear Accelerator Center. His first assignment at LLNL was in the Physics Directorate, where his portfolio included diverse national security and science programs. This positioned him well to take on supervisory and senior management roles, such as Associate Director of Physical and Life Sciences, then Deputy Director for Science and Technology, where he was tasked with leading the strategic deployment of LLNL's science and technology capabilities. He continued to impress and was named LLNL's 12th director and LLNS' 3rd president on March 31. 2014

Under Bill's leadership during the past seven years, LLNL's budget and workforce have grown by 50 percent and 25 percent respectively. In fact, in 2020, LLNL was listed in the top ten of GlassDoor's 100 best large places to work in the United States. All of this

occurred despite ever-increasing competition for talent from nearby Silicon Valley.

LLNL has experienced significant growth in all programs and operations with Bill at the helm. He has prepared it and its personnel to lead a new era of nuclear stockpile stewardship, ensuring that our nuclear weapons are responsibly maintained and keeping the United States at the forefront of innovation. Much of this is made possible by Sierra, a new class of supercomputer brought into the field in the last few years. Bill's holistic and multi-jurisdictional thinking continues to enable growth and flexibility throughout LLNL operations and our national security.

Most recently, Bill not only helped his LLNL team navigate the new workforce realities brought about by the COVID-19 pandemic, but he and his management team also did their part to make significant contributions to the fight against the disease, fabricating emergency ventilators, using 3D printing to fabricate nasal swabs, and providing predicted structures of a key COVID-19 viral protein to help accelerate the development of potential medical treatments for the disease.

As if all that was not enough, Bill has authored or co-authored more than 70 papers on a variety of topics while a fellow of the American Physical Society and the American Association for the Advancement of Science.

I thank Bill for his nearly four decades of service. Enjoy a well-earned retirement, and we wish him all the best while he spends more time with his wife, Kathy, and twin daughters, Emma and Sarah.

IN RECOGNITION OF LESLIE KELLY

HON. JOHN JOYCE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, February 24, 2021

Mr. JOYCE of Pennsylvania. Madam Speaker, I rise to recognize Leslie Kelly of Altoona, Pennsylvania for her work as founder of Service Paws of Central Pennsylvania.

Leslie Kelly understands firsthand the barriers that family can face when purchasing a service dog, which can cost between \$4,000 and \$35,000. To help families with this costly process, Leslie founded Service Paws of Central Pennsylvania. Last year, her organization was able to assist several people in need of a service dog.

Service Paws of Central Pennsylvania now serves 14 of Pennsylvania's 67 counties. As an all-volunteer organization, Service Paws of Central Pennsylvania is able to use its resources to directly place service dogs with individuals and families in need.

Leslie is an incredible and servant-hearted leader in Blair County and across our Commonwealth. On behalf of Pennsylvania's 13th Congressional District, I thank Leslie Kelly for her work to improve the lives of Pennsylvanians and wish her continued success in this mission.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate of February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place and purpose of the meetings, when scheduled and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, February 25, 2021 may be found in the Daily Digest of today's RECORD.
