The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. Costa).

DESIGNATION OF SPEAKER PRO TEMPORE
The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC, April 14, 2021.
I hereby appoint the Honorable Jim Costa to act as Speaker pro tempore on this day.

NANCY PELOSI, Speaker of the House of Representatives.

MORNINGS-HOUR DEBATE
The Speaker pro tempore. Pursuant to the order of the House of January 4, 2021, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with time equally allocated between the parties and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes, but in no event shall debate continue beyond 11:50 a.m.

IN RECOGNITION OF RICHARD BUCHANAN
The Speaker pro tempore. The Chair recognizes the gentleman from Illinois (Mr. Rodney Davis) for 5 minutes.

Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today to recognize the former city of Bloomington council member, mayor, and McLean County board member, Mr. Richard Buchanan. He was a clearly dedicated public servant who dedicated more than four decades of his life to serving the taxpayers. Sadly, Rich passed away on March 30.

Rich grew up in Clinton, and graduated from Northern Illinois University, where he met the love of his life, Judy. After graduation, Richard spent 6 years serving his country in the U.S. Army Reserve. Outside of public service, he had an enduring career spanning 30 years at State Farm and raised three children alongside Judy. His leadership to Bloomington and McLean County will truly be missed.

My prayers are with his wife, Judy, his children, and all those who called Richard a friend.

IN REMEMBRANCE OF PATRICIA EVERHART REESE
Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today to remember Patricia Everhart Reese of Taylorville, a teacher and beloved community member, and my friend, who passed away on November 3, 2020.

Pat taught with the Taylorville School District for many years and was influential with the development of the Lincoln Land Literacy Program. She also spent time teaching at the Taylorville Correctional Center.

Pat, of course, took on many other roles in the community. One, being mentor to me, and also, she was the First Lady of Taylorville for 16 years and the Republican County chairwoman for 25 years, but her service never stopped.

Pat leaves a lasting impact on the Taylorville community and will be remembered as a great friend to so many. My prayers are with her husband, Dan, and their entire family at this time.

RECOGNIZING PATTY HORNBUCKLE
Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today to recognize Patty Hornbuckle for her leadership and service to Taylorville and Christian County, Illinois.

I had the privilege to work with Patty in her role as the CEO of the Greater Taylorville Chamber of Commerce. The chamber is the driving force to attract new businesses, residents, and tourists in our hometown.

During Patty's tenure, the chamber experienced significant growth in membership and increase in revenue through fundraising and the expansion of the chamber's signature event, "The Taylorville Chilifest."

Patty is certainly going to be missed. While we will miss her, her leadership has set up the chamber to continue its successful service to our community for years to come.

Mr. Speaker, I wish to send my heartfelt congrats to my friend, Patty, her husband, Greg, and also her family.

IN REMEMBRANCE OF JOHN CURTIN
Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today to remember John Curtin of Taylorville.

John was my neighbor, a farmer, and active community member, who was our longtime county board chair, and he passed away on March 10 of 2021.

John began farming in Christian County in 1957. He served 12 years as the cattle superintendent at the Illinois State Fair and president of the Illinois Angus Association. In 1984, he was designated master farmer by Prairie Farmer.

John was a dedicated servant and leader to his community. And as I mentioned, he served on the county board as chair, but he was on the board for 40 years. The Taylorville Chamber of Commerce awarded him with a lifetime achievement award in recognition of his community service.

John was a fellow parishioner within the Holy Trinity Catholic parish as part of St. Mary's in Stonington, in Taylorville, and his legacy will be remembered forever.

My prayers are with his brothers, six children, grandchildren, and great grandchildren.

HONORING TODD HANNEKEN
Mr. RODNEY DAVIS of Illinois. Mr. Speaker, I rise today to honor Illinois
State Trooper, Todd Hanneken, of Decatur, Illinois, who lost his life on March 25.

Todd fulfilled his lifelong dream of becoming a state trooper. He was a 20-year veteran of the Illinois State Police and always went above and beyond at the call of duty.

In 2018, Todd was awarded the Illinois State Police Medal of Honor for heroic actions he took to rescue a man out of a burning car, ultimately saving that man’s life.

For so many, Todd was more than a state trooper. He was a husband, father, son, brother, and beloved friend. Those that knew Todd will remember him for his kindness and compassion. Todd cared deeply about his community, always wanting to help others in need.

A tragic accident took Todd’s life, and my prayers are with his friends and family, both at home and with the State Police, and particularly his wife, Shelley; and sons, Ben and Nick. Todd was a hero in every sense of the word and will truly be missed.

RECOGNIZING U.S. CAPITOL POLICE FORCE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Maryland (Mr. HOYER) for 5 minutes.

Mr. HOYER. Mr. Speaker, in March, the House passed legislation to award a Congressional Gold Medal to the men and women of the U.S. Capitol Police for their heroism on January 6 and for their daily efforts to protect the institutions of our democracy.

On April 3, once again, we saw an example of not only the dangers in which they place themselves through their service, but also the courage they bring to that service.

In the short span of fewer than 100 days, the U.S. Capitol force lost three members as a result of attacks on the Capitol complex. Yesterday, we honored one of those Capitol policemen, Billy Evans. But in a real sense, we honored every member of the United States Capitol Police.

Some years ago, I lost a member of the Capitol Police who lived in my district, J.J. Chestnut. Wendy, his wife, was at the ceremony yesterday for Billy Evans. That was in 1998. He and Officer Gibson were present at the Capitol on January 6, and for 140 minutes, they protected the Speaker’s office and the Democratic side of the building.

I came to know him and his family well, just as I have other members of my detail. As I said, they are like family to all of us in the majority leader’s office. I know that is true of the minority leader’s office and the whips’ offices and the Speaker’s office and the Democratic whip’s office, and our Senate counterparts.

The senior officer on my detail former was present at the Capitol on January 6, and he acted heroically. He was the one that tried to save the life of the woman who was shot—who was an insurrectionist—because he stood next to her, unarmed, when that incident occurred. He acted heroically in trying to keep that rioter away from the House Chamber and in responding when one of them was shot in the hallway, as I just pointed out.

I know that the events of that day still weigh very heavily on him and on each of us, on his colleagues, on all of us. I hope his colleagues know that their grief weighs heavily on all of us whom they protect and serve.

President Joseph Biden, in speaking yesterday to the family of Officer Evans, showed empathy. He showed that he felt their pain, their concerns, their trauma. And I would urge all my colleagues, when you see members of the United States Capitol Police, uniformed or in plain clothes, that you thank them.

Mr. Speaker, I talked about Officer Chestnut. Wendy, his wife, as I said, was here yesterday. He was shot in the back by the assailant who then shot Officer Gibson in the office that I now occupy. It was Tom DeLay’s office at that point in time.

Mr. Speaker, we thank them, we honor them, but the way we really need to respond to them is to make sure they have the resources, the training, the equipment, and the authority to respond to those who confront them with violence and fatal force.

We lost Officer Sicknick. This Capitol was invaded because there were restraints, frankly, on the United States Capitol Police. We need to make sure that they have the authority to respond, to protect this Capitol, this democracy, our Members, our staff, the visitors to this Capitol, but also, importantly, themselves.

We know that this is a difficult moment and the Capitol Police force is facing challenges like never before in its 193-year history.

In the early 1960s, I worked here as an intern in a United States Senator’s office, and I had a number of friends who also were in law school or some other school, who were “Capitol cops” we called them. Thank you, the risks were minimal. That is not true today. And as the risks are great, we must respond robustly to ensure that we have the capacity and the will to meet those risks.

Mr. Speaker, may God bless and protect our U.S. Capitol Police officers.

PROTECTING AMERICANS’ CONSTITUTIONAL RIGHTS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. JOYCE) for 5 minutes.

Mr. JOYCE of Pennsylvania. Mr. Speaker, the Second Amendment is a fundamental piece of the U.S. Constitution. It is the right to bear arms. The Second Amendment is one of Americas’ inalienable freedoms. This has been true for centuries, and despite what the White House would like you to think, this is still true.

Right now, the left is advancing unprecedented threats to Americas’ Second Amendment rights. Just last week, the President rolled out two executive orders that would restrict the rights of law-abiding citizens. The President proudly announced that he is willing to undermine our constitutional liberties. With his pen and I might add, without Congress, the President can singlehandedly unravel our rights.
Mr. Speaker, I fear that we are embarking on a perilous path. Now, more than ever, we must recommit to protecting this vital freedom. Instead of stripping away Americans' constitutional rights, the U.S. Government should be focused on enforcing law and order. Instead of stripping away Americans' constitutional rights, the U.S. Government should be focused on securing our southern border.

Mr. Speaker, I rise today under the leadership of the Members of the House of Representatives, if we can do to eliminate some of the reasons for this, but we still haven't acknowledged that there is something we can do to eliminate some of the mourning and grieving.

We are mourning because police officers are being murdered. Many have been murdered across the length and breadth of the country. We are mourning because persons are losing their lives at the hands of the police. Many have lost their lives. We are in a state of mourning, but it goes back far beyond George Floyd, Breonna Taylor, Sandra Bland. It goes back to really the founding of the country because we have not atoned for some of our transgressions.

Finally, the atonement of the Japanese Americans, based upon our xenophobia, we have not atoned. Banning Chinese from the country, we have not atoned. What we did to Muslims, banning them from the country, we have not atoned.

There must be atonement. We have to reconcile. What did we do in 1868, as it relates to slavery? We should have, but we had a President who was antithetical to it, Andrew Johnson.

So, I am going to offer a resolution, a resolution to create a department of reconciliation, a department of reconciliation that can accomplish our atonement, get out of this grieving, and bring our country together.

When we had a systemic need for dealing with agriculture, we created a Department of Agriculture. When commerce was in need of some help, we created a Department of Commerce. We have a Department of Labor because labor needs the kinds of legislation and the kinds of benefits that a Congress can accord labor, the persons who actually work for a living. When we needed defense, we created a Department of Defense and a Department of Homeland Security.

So, I am proposing that we have a department of reconciliation so we can do with what has haunted this country for centuries. A department of reconciliation with a secretary of reconciliation, a department of reconciliation with a budget, a department of reconciliation with under secretaries, to do what we can accomplish our atonement with a department of reconciliation. It can be done.

I am not asking for a commission. This is about a commitment. A department indicates that you are committed to a cause. We were committed to labor; that is why we have a Department of Labor. We were committed to education; that is why we have a Department of Education. We now need a department of reconciliation, a commitment to ending this long, sorrowful grieving that we have suffered over the years so that we can understand each other better and work together better with each other.

If we fail to do this, if we fail to reconcile, Dr. King's words will become our greatest nightmare. He indicated that we must learn to live together as brothers and, I would add, sisters, or we will perish together as fools. We need a department of reconciliation. I will introduce a resolution for such.

COMMITTING TO RECONCILIATION

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. GREEN) for 5 minutes.

Mr. GREEN of Texas. Mr. Speaker, and still I rise because I love my country.

And, Mr. Speaker, I rise today understanding that we are in mourning. Our country is grieving. There are many reasons for this, but we still haven't acknowledged that there is something we can do to eliminate some of the mourning and grieving.

We are mourning because police officers are being murdered. Many have been murdered across the length and breadth of the country. We are mourning because persons are losing their lives at the hands of the police. Many have lost their lives. We are in a state of mourning, but it goes back far beyond George Floyd, Breonna Taylor, Sandra Bland. It goes back to really the founding of the country because we have not atoned for some of our transgressions. Literally, we have committed crimes against humanity for which we have not atoned.

Slavery was a crime against humanity; we have not atoned. The internment of the Japanese Americans was a crime against humanity; we have not atoned.

KEEPING FOOD ON AMERICANS' TABLES

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. THOMPSON) for 5 minutes.

Mr. THOMPSON of Pennsylvania. Mr. Speaker, last month, the House Agriculture Committee hosted its first, of at least more fulsome, attempt at publicly reviewing the pandemic and Congress' response.

This pandemic has infiltrated our lives in every sense possible. Unfortunately, the brunt of it was borne by our communities and, in particular, families already living paycheck to paycheck. In too many instances, arrogant career politicians issued statewide, indiscriminate edicts, forcing businesses and schools to shut their doors, plummeting our communities into a deep recession.

As the end of the pandemic nears, I hope we can use what we learned in that hearing to provide these families with more holistic services, particularly those engaged in a post-pandemic economy that will look wildly different.

The Supplemental Nutrition Assistance Program, or SNAP, currently provides nutrition assistance to 63 million individuals, with an average individual benefit of $183. Total SNAP-related spending in fiscal year 2020 was $76.9 billion, which includes benefits, administration, nutrition education, employment and training, and program integrity that $70.9 billion claim, $74.2 billion was solely for benefits.

By way of the Families First Coronavirus Response Act, the Coronavirus Aid, Relief, and Economic Security Act, and the Consolidated Appropriations Act, we have increased SNAP from $37.8 billion to $54.3 billion, a 40 percent increase from the previous year. Last month alone, border agents encountered more than 170,000 migrants, a colossal 400 percent increase from the same time last year. Yes, this is mocking a crisis. But the problem is not with the law-abiding citizens. The problem is not with the Second Amendment.

Here in Washington, our leaders need to get their priorities in order. We need to uphold our oath to defend the Constitution. We need to defend the American people from foreign threats. Here in Washington, our leaders need to get their priorities in order. We need to uphold our oath to defend the Constitution. We need to defend the American people from foreign threats.

And we need to protect our fundamental freedoms. Like it or lump it, the bulk of the American people from foreign threats. In the meantime, we need a department of reconciliation. I once heard Dr. King's words will become our greatest nightmare. He indicated that we must learn to live together as brothers and, I would add, sisters, or we will perish together as fools. We need a department of reconciliation. I will introduce a resolution for such.

The witnesses who joined us for the hearing are our everyday heroes. They are the folks who responded without hesitation to the needs of their communities infected by a pandemic that took the lives of hundreds of thousands of our friends, neighbors, and family members. Whether it be the farmer who chose to donate their crop or the food bank that opened additional sites to be more accommodating, the witnesses who testified deserve our gratitude.
response originated in the last Congress under President Trump. Quick-thinking folks implemented Pandemic-EBT and the Farmers to Families Food Box Program, two projects that remain remarkably beneficial to families in need.

The latter, apparently terminating this morning, as I found out through the press, fell victim to inconceivable criticism. There is always room for more solutions to the needs of our Nation.

The Farmers to Families Food Box Program had open eligibility, making certain anyone and everyone in need, regardless of status, income, or household size, has supplementary access to meat, dairy, and produce in an unprecedented time of crisis. This program provided more than 156 million boxes to households across the United States. With this program, farmers were able to redirect their products, and American workers were able to sustain their employment or join new ventures, all to ensure fresh foods found their way into the homes of millions in need.

Regardless of the cherry-picked headlines that will officially recognize these crimes against humanity.

The goals of this plan is to help all Americans. I urge my Republican colleagues to help fund this forward-thinking project to invest in America.

When it comes to transportation, California is leading the way by building the Nation’s first sustainable, true state-of-the-art high-speed rail project. It will deliver a fast, reliable, and eco-friendly way to connect to Los Angeles, to the bay area, and ultimately 80 percent of the State’s population, getting cars off the roads and cleaning our air.

It will spur an investment in the economy that will deal with the economic fallout of the pandemic, creating reliable, good paying jobs; supporting small businesses; and investing in socially disadvantaged communities. In my home of California’s San Joaquin Valley, we are already seeing the benefits of high-speed rail.

My legislation, the High Speed Rail Corridor Development Act of 2021, will help fund this forward-thinking project and other rail corridors across the Nation.

Big projects we know are hard. They always have been. So bold action, if we are serious about improving our future, is necessary. Since I first came to Congress, it has been one of my highest priorities to invest in America’s infrastructure.

What do I mean by this?
Investing in our Nation’s water infrastructure, a 21st century system of transportation, broadband, and our schools are all investments that the majority of Americans want to see us make.

The debate we are engaged in now is how we define and what we can agree on in terms of infrastructure and how we pay for it because we must.

So let’s show the American people that their government can work together and make important investments that are long overdue that will benefit our nation and our lead. Today, we rank 13th in the world in terms of infrastructure. That is not the place America ought to be. We need to make these investments in our people and in our country, which are good investments that will pay dividends for future Americans and future generations to come.

HONORING MATTHEW GRUDA
The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. FITZPATRICK) for 5 minutes.

Mr. FITZPATRICK. Mr. Speaker, I rise today in honor and recognition of Matt Gruda, my senior adviser and someone who has become both a friend and a confidant.

Matt will be departing our team and beginning a new and exciting chapter in his home State of Florida, and I would like to take this opportunity to pay tribute to Matt and the remarkable work he has done for our team over the past 2 years.

Matt joined our team in 2019, and quickly became an asset to both our team and our district. His expertise, sincerity, thoughtfulness, quick wit, and always pleasant demeanor made him fast friends with so many in our community, and we are grateful for his integrity for sure. He has touched so many lives, and he has made more of an impact than he realizes.

Mr. Speaker, I could rattle off a list of wins and crucial behind-the-scenes tasks attributed to Matt, but we would be standing here for quite a while. So to be brief, I want to thank him from the bottom of my heart for his many incredible efforts not just for Team FITZPATRICK, but for so many organizations, schools, businesses, local government officials, municipalities, and the people across Pennsylvania’s First Congressional District.

Matt does all things with passion, and he has given so much of his heart to our community. So much of what has been accomplished over the past 2 years would not have been possible without Matt’s contributions.

Matt’s drive, determination, positivity, and compassion are a winning combination and truly a rarity in this world. I believe this is why he has been and will continue to be so successful in all walks of life. He recognizes the importance and value in differing opinions and how we can learn from those who think differently from us; and to be successful, we often need to think outside the box; and to best serve our community and our country, we must give everything we have and never give up.

He has led our team for over 2 years in this manner, inspiring creativity, collaboration, and passion throughout.

Matt’s most admirable quality is his resiliency. I have spoken to Matt’s mom, Zena, who talked about the fact that his road to get here was full of challenges, bumps, twists, and turns; yet he kept the faith, and he kept fighting. With an open mind and looks at them as an opportunity to learn and to improve and grow better.

CALLING FOR RECOGNITION OF THE ARMENIAN GENOCIDE
The SPEAKER pro tempore (Mr. GREEN of Texas). The Chair recognizes the gentleman from California (Mr. Costa) for 5 minutes.

Mr. COSTA. Mr. Speaker, I rise today to address the critical need for infrastructure in America. It is time that we build new transportation systems and rehabilitate structures to support a modern economy and a way of life in the 21st century. President Biden’s American jobs plan is an attempt to do just that with historic investments in improving infrastructure and putting millions of people to work. We need that.

The first genocide of the 20th century, the atrocity saw the massacre of more than 1.5 million men, women, and children at the hands of the Ottoman Empire.

As a young boy in Fresno, my Armenian friends told me the stories of the horrors that their parents and grandparents witnessed. They never forgot the tragedy, and neither will I.

The debate we are engaged in now is how we define and what we can agree on in terms of infrastructure and how we pay for it because we must.

So let’s show the American people that their government can work together and make important investments that are long overdue that will benefit our nation and our lead. Today, we rank 13th in the world in terms of infrastructure. That is not the place America ought to be. We need to
From an early age, Matt’s love of baseball was apparent. He would spend hours and hours practicing and throwing a ball against a wall; and once on the field, his eyes and smile reflected his unbridled enthusiasm and deep-rooted passion for the game. On the field, he was told he could not play the game anymore. For most kids, that heart-wrenching gut punch would be a pivotal moment in their life, one in which they would give up in defeat. But not Matt Gruda. Faced with a challenge and the unknown, he decided to seize on the opportunity, becoming the youngest assistant coach and umpire in the history of the league. He confronted his adversity, not viewing it as a stumbling block, but as a stepping stone to success. He has continued to build stepping stones to success with every challenge he has faced.

In speaking with the people who know Matt best, they described him as someone who does not hold a grudge; someone who is always looking on the bright side of things; someone who is kind, considerate, and is always eager to make you smile; someone who is a good friend, a caring brother; and a wonderful son; and someone whom you would always have on your team.

I know that I am grateful to have had Matt on our team for the past 2 years. He will always have an honorary spot on our bench. As a mentor, Mr. Speaker, I stand here today very proud of what Matt has accomplished and so excited for him to take this next chapter by storm. He is a bright, talented, and determined young man, and I look forward to seeing all that he will accomplish in life.

On behalf of our entire team and our entire community, we thank Matt.

INFRASTRUCTURE

The SPEAKER pro tempore (Mr. COSTA). The Chair recognizes the gentlewoman from the Virgin Islands (Ms. PLASKETT) for 5 minutes.

Ms. PLASKETT. Mr. Speaker, during times of crisis and upheaval, societies have an opportunity to reimagine themselves, to fix wrongs, and to make themselves better than they were previously. The pandemic of 1917 created the Roaring Twenties. The aftermath of the Civil War brought railroads, canals, and bridges to connect us. The Great Depression gave us the New Deal.

After the devastation of the COVID pandemic and the truth reveal of our systemic problems of racism, economic inequality, wealth and healthcare disparities, we must use this time and this opportunity to not only forge forward, but to correct wrongs. While the American Rescue Plan is changing the course of the pandemic and delivering relief for working families, this is not the time to build back the way things were. This is a moment to reimagine and rebuild a new economy.

The American jobs plan is an investment in America that will create millions of good jobs, rebuild our country’s infrastructure, and position this United States to outcompete China and other nations. The American jobs plan will invest in America in a way that we have not invested since we built the interstate highways and won the space race.

The United States of America is the wealthiest country in the world, yet we rank 13th when it comes to overall quality of our infrastructure. Public domestic investment as a share of the economy has fallen more than 40 percent since the 1960s. After decades of disinvestment, our roads, bridges, and water systems are crumbling. Our electric grid is vulnerable to catastrophic outages and outages lack access to affordable high-speed internet and to quality housing.

The past year has led to job losses and threatened economic security, eroding more than 30 years of progress in income inequality. It has unmasked the fragility of our caregivers’ infrastructure. It has never been more important for us to invest in strengthening our infrastructure and our competitiveness, and in creating good paying jobs for the future.

This must include a 21st century infrastructure—deployment of broadband and closing the digital divide in this country—creating the modern bridge that will unite and create more economic and opportunity equity in our country.

Unlike past major investments, President Biden’s plan also prioritizes addressing longstanding and persistent racial injustice. The plan targets 40 percent of the benefit of climate and clean infrastructure investments to disadvantaged communities. The investment of $100 billion in broadband internet will be the component that will make America a leader, an innovator, once again.

Broadband internet is the new electricity. It is necessary for Americans to do their jobs; to create jobs; to participate equally in school learning, healthcare, and to stay connected. It is the transportation for the 21st century. Forty years ago last month, Cobra Ball tail number 2664 crashed on approach to Shemya Air Force Base, a rugged outpost on the far western tip of the Aleutian Islands. Six brave American airmen perished in the fiery crash that day, an eternal reminder of the cost of the Cold War and the price of vigilance we too often take for granted.

The RC–135 reconnaissance aircraft—designated Cobra Ball—is designed to rapidly collect telemetry and special intelligence on ballistic missiles in flight. Throughout the Cold War and to the present day, reconnaissance crews from the 55th Wing are dispatched on short notice around the world to fly the RC–135 to gather technical intelligence on weapons tests that cannot be obtained by any other method. This mission is critical to treaty compliance and to support the continuous development of America’s strategic and theater missile defense capabilities.

Throughout the Cold War, the Strategic Air Command kept the Cobra Ball in a continuous 24-hour alert status on Shemya Island in the northern Pacific, affectionately known as The Rock. Their job was to launch at a moment’s notice to keep a watchful eye on Soviet ballistic missile tests conducted from the Kamchatka Peninsula.

On March 15, 1981, the 24 crew members on board the RC–135 tail number 61–2664 were en route to Shemya.
from Eielson Air Force Base, Alaska, where they had been waiting for the weather at Shemya to clear. Blizzard conditions and extreme crosswinds were ravaging the small exposed island.

This weather was not uncommon, just another day at the office for 5th Wing aircraft crews after receiving clearance to land, weather conditions deteriorated rapidly.

Firsthand accounts from crew members onboard describe the violent buffeting they experienced on descent as like being on the end of a yo-yo. The belly of the aircraft struck the edge of a cliff on the approach end of the runway, shearing off the landing gear. As the damaged aircraft slammed into the runway, engines three and four exploded and the fuselage broke in half.

Flames engulfed the crew compartment as the disintegrating aircraft slid 2,000 feet, eventually careening off the runway and down a hill.

The scene was chaotic as crew members worked to free themselves and their teammates from the burning wreckage while the blizzard raged. Miraculously, crew members escaped from the flames that day. Their bodies burned and broken, they worked feverishly to extract their fellow airmen from the fiery wreckage.

In the end, six men died on that lonely airfield that day. Their names were:

- Master Sergeant William Bennett
- Captain Larry Mayfield
- First Lieutenant Loren Ginter
- Master Sergeant Stephen Kish
- Staff Sergeant Steven Balcer, and
- Staff Sergeant Harry Parsons, III.

We honor their service and their sacrifice and commend their spirit to the Creator. We pray for their families and loved ones who cherish their memory. We also honor the survivors of this tragic crash who will forever bear the scars of their service and the memory of that day. May we never forget what they gave to the cause of freedom, and that it was the dedication of warriors like these that won the Cold War. And may we pledge to honor their sacrifice by recommitting ourselves to eternal vigilance in the defense of freedom.

PROTECTING QUALITY OF LIFE OF VETERANS IS A TOP PRIORITY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Virginia (Mrs. Luria) for 5 minutes.

Mrs. LURIA. Mr. Speaker, I rise today in support of H.R. 2386, the COVENANT Act, legislation to ensure our Nation’s veterans can receive the benefits they deserve after being exposed to toxic substances overseas.

One such veteran I have the privilege of representing, Master Sergeant Brian Graves of Virginia Beach, flew missions over the Middle East for the United States Air Force. Today, he lives with breathing problems after inhaling jet fumes and being exposed to other toxins during his time of service.

The COVENANT Act will dramatically streamline the VA benefits process for thousands of veterans like Master Sergeant Graves.

Between June 2007 and February 2021, we know that 13,900 veterans filed a disability benefit claim related to toxic exposure. Mr. Speaker, of those nearly 14,000 veterans, only 4,000 claims were granted. That is simply unacceptable. We cannot allow history to repeat itself.

Veterans like myself watched our peers who served in Vietnam wait decades for the benefits they deserve.

The recent veterans who served in the Middle East, southwest Asia, east Africa, and the Philippines need our help today. Mr. Speaker, they are hurting and, in some cases, dying. Congress must not neglect them in their time of need.

That is why I urge my colleagues to join me in supporting the COVENANT Act, a comprehensive approach to securing benefits for veterans exposed to toxic substances overseas.

HONORING THE SERVICE OF CORPUS CHRISTI POLICE CHIEF MIKE MARKLE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. Cloud) for 5 minutes.

Mr. CLOUD. Mr. Speaker, I rise today to honor Corpus Christi, Texas Police Chief Mike Markle on his career of public service, and to congratulate him on his upcoming retirement.

From his service in the United States Navy as a hospital corpsman to his 31-year career service at the Corpus Christi Police Department, Chief Markle has consistently placed the needs of others before himself. Enlisting in the police academy in 1989, he protected the streets for many years with courage and determination. He has served as a field training officer, on the Honor Guard, and on the SWAT team.

Corpus Christi turned to him to lead during the Police Department’s transition in 2015. As head of the Corpus Christi PD, he pursued excellence in leadership and a commitment to learning. His priority was to improve community outreach and address the modern challenges of policing.

His legacy of helping others stretches beyond his police work, as he currently serves on the board of directors for the Wesley Community Center. There is no question that Chief Markle left a lasting impact on the Coastal Bend region, and he will be sorely missed. I thank him for his commitment to protecting the citizens of Corpus Christi, and I wish him well in his future endeavors.

PRAYER

The Chaplain, the Reverend Margaret Grun Kibben, offered the following prayer:

Gracious God, we earnestly pray today to walk in Your presence. With You beside us, may Your nearness both inspire and compel us to take steps in response to Your divine mercy, in obedience to Your divine guidance, and in gratitude for Your divine compassion for us.

May each thought that comes to our minds be of Your will.

May each aspiration our souls conjure be worthy of Your blessing.

May every action we take reveal Your love to those who need it so desperately.

May every word we speak give honor to You.

It is our humble prayer that in everything we do today, we would be instruments of Your transcendent love in this place, of Your sacrificial love for all of creation, and of Your redeeming love for this world and for each of Your children.

We offer ourselves to You in the hope of Your mercy and in the strength of Your name.

Amen.

Mr. FEENSTRA led the Pledge of Allegiance.
WELCOMING THE HONORABLE JULIA LETLOW TO THE HOUSE OF REPRESENTATIVES

The SPEAKER. Without objection, the gentleman from Louisiana (Mr. SCALISE) is recognized for 1 minute.

There was no objection.

Mr. SCALISE. Madam Speaker, it is with great honor that on behalf of the entire Louisiana delegation and on behalf of all of my colleagues, we welcome JULIA LETLOW to Congress.

Today, as I start my journey in Congress, I choose hope. I want to be part of a revival of honesty, integrity, and hard work within these hallowed Halls. I will stand up for what is right and true, bringing hope of a better tomorrow for my children and for yours.

CONGRATULATING JAMES BISH, CONGRESSIONAL APP CHALLENGE WINNER

(Ms. KAPTUR asked and was given permission to address the House for 1 minute.)

Ms. KAPTUR. Mr. Speaker, today I rise to congratulate the winner of the Ohio Ninth Congressional District’s second annual Congressional App Challenge, James Bish, of Bay High School in Bay Village, Ohio.

James’ app, called Anonymous FRQ Grading, is an impressive tool for teachers and students to submit responses to exams or questions free of bias in evaluation. James’ application received strong scores in each phase, from concept to design to the skills shown to produce it.

The judges for this year’s competition included computer science professionals and scholars from across the district, such as Max Herzog from the Cleveland Water Alliance and Kelly Zelesnik from Lorain County Community College.

I am amazed by the strong showing of submissions and participation from across the district that we received this year. Developing STEM education must be a priority not only within our community but across our Nation as well, and the Congressional App Challenge is an opportunity to foster such critical skills.

I offer my sincerest congratulations to James Bish on his win and thank him for the impressive and important work that went into creating this app. And I thank James’ teacher at Bay High, Rob Grossman, who provided guidance and mentorship to James during this challenge.

PROTECTING INFANTS WHO SURVIVE ABORTIONS

(Mrs. WAGNER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. WAGNER. Mr. Speaker, today I rise to implore my colleagues to join me in the fight to protect the most vulnerable in our society, infants who survive abortions.

Again and again, more than 75 times, Democrats have refused to even allow a vote on my legislation, the Born-Alive Abortion Survivors Protection Act. This, Mr. Speaker, is shameful.

Every child should be welcomed with joy and wonder, no matter the circumstances of their birth. I will not stop working until this legislation is passed and signed into law, so all newborns have a chance at life.

Just 2 hours ago, Representative Kat Cammack filed a discharge petition so that Democrats can’t continue to block the Born-Alive Act. It is my sincerest hope that every Member of Congress, Democrat or Republican, finds the courage to add their name to this petition. This is the simplest decision that any of us can make. Do you support babies receiving lifesaving care after they are born, or would you deny these children that care and murder them or leave them to die in front of you?

I am challenging Congress to stand up and do the right thing. I urge my colleagues to sign the discharge petition to ensure no American child is denied medical care.

HUMANITARIAN CRISIS AT OUR SOUTHERN BORDER

(Mr. MURPHY of North Carolina asked and was given permission to address the House for 1 minute.)

Mr. MURPHY of North Carolina. Mr. Speaker, last week, some of my Doctors Caucus colleagues and I took a trip to the southern border to observe the ongoing humanitarian crisis. What we saw was nothing short of tragic.

The bottom line is that the situation stems from several key Biden policies that have created an incentive for migrants to cross the border illegally. President Biden abolished the Remain in Mexico policy despite the fact that it helped migrants avoid numerous dangers. The policy was accompanied by his administration’s moratorium on deportations, not abiding by title 42’s expressed purpose.

Let there be no mistake, no one gets into this country without the expressed permission of drug cartels at our southern border. Not only are illegal immigrants coming in, but drugs, weapons, and human trafficking are coming now in record numbers.

Even worse, this crisis falls on terrified unaccompanied children. I will never forget seeing a 4-year-old with nothing on her back except her clothes and a telephone number written in Sharpie upon her chest.

Only securing our border will end this crisis. I ask the Biden administration to return to the previous administration’s border policies.

HOUSE CHINA TASK FORCE

(Mr. LAHOOD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAHOOD. Mr. Speaker, last year, I was proud to serve on the House Committee of Foreign Affairs with a number of my Republican colleagues. Over six months through engagement and consultation with national security and trade officials, foreign policy experts, the business community, and government officials, we compiled and unveiled a comprehensive report with more than 400 policy recommendations for how to address the existential challenges posed by China.

Addressing the challenges posed by China will be one of the greatest issues Congress and our country face in the decades to come. As we confront these issues, bipartisan work is needed. The China Task Force report provides a roadmap with specific policy ideas and goals regarding how the U.S. can better combat the threat of the Chinese Communist Party. Two-thirds of the legislative recommendations are bipartisan; and, overall, more than one-quarter of the recommendations have already been law or have been implemented by the prior Trump administration.

As members of the Ways and Means Committee, we authored important provisions of the report that will help return American intellectual property and critical supply chains to the United States. We also included legislation to reform and strengthen the World Trade Organization to level the playing field for American trade.

Mr. Speaker, to preserve and grow national economic security, we need to act. I ask everyone to read the report and work with us to get this done in a bipartisan way.

CELEBRATING 100TH BIRTHDAY OF RALPH JOHNSON FROM CHEROKEE, IOWA

(Mr. FEENSTRA asked and was given permission to address the House for 1 minute.)

Mr. FEENSTRA. Mr. Speaker, I rise today to celebrate the birthday of Ralph Johnson from Cherokee, Iowa, who turned 100 years old on Monday.

Ralph is a member of the Greatest Generation, serving in the Navy during World War II. He truly embodies the bravery, courage, and selfless sacrifice of an American patriot, working as a head mechanic in the Pacific theater.

If you talk with Ralph, he will tell you harrowing stories about his service, like the time the Japanese flew so low over his ship, he could see the pilot’s face.

On behalf of a grateful nation, we thank Ralph for his service and sacrifice.

Mr. Speaker, I would also like to take a moment to recognize Linda Sommerfeld and David Scott, who made Ralph’s special day great.

Happy birthday, Ralph. We wish you many blessings.

DEMPSEY WAGNER IS KEEPING LEE COUNTY, IOWA, SAFE

(Mrs. MILLER-MEEKS asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. MILLER-MEEKS. Mr. Speaker, I rise today to thank a young girl in my district for her charitable actions this year.

For their birthday, most 6-year-olds ask their parents for gifts—a dollhouse, a puppy, or a trip to Disney World. But Dempsey Wagner of Lee County has decided to use her special day to raise funds to help keep Iowans safe.

Dempsey, who tragically lost two relatives to drowning in 2017, is using her sixth birthday to help raise money for the Lee County Rescue Boat. The rescue boat, along with a trained dive
BORDER CZAR KAMALA
(Mr. LA MALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)
Mr. Lamalfa. Mr. Speaker, weeks ago, the Biden administration made Vice President Kamala Harris the border czar.

The question I have is: Which border? We learned today that Czar Kamala is traveling to Guatemala. While we do need cooperation from Guatemala in halting the flow of illegal entrants from Central America, it defies logic that weeks after her appointment, Czar Kamala Harris has not visited the very border—our border—with Mexico that she has been tasked with protecting.

It seems as if the Biden-Harris administration has gone out of its way to ignore the seriousness of the border crisis it has created. Even as the number of illegal border crossers and unaccompanied minors shatter records, Democrats have declared that everything under the sun is infrastructure except a border wall. In fact, a wall protecting our border might be the only thing Democrats do not want to throw money at right now.

To the Biden administration and Czar Kamala: Border security is national security, and the American people are pleading for you to take steps immediately to solve the crisis it has created. Even as the number of illegal border crossers and unaccompanied minors shatter records, Democrats have declared that everything under the sun is infrastructure except a border wall. In fact, a wall protecting our border might be the only thing Democrats do not want to throw money at right now.

SOUTHERN BORDER CRISIS
(Mr. MEUSER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)
Mr. Meuser. Mr. Speaker, over the last few months, the situation at our border has evolved into a serious crisis caused by policy changes from the Biden administration that have incentivized illegal immigration. This is not my opinion; this is the information I received firsthand on my recent trip to the border.

These policy changes include: ending the “Remain in Mexico” policy; implementing catch and release; and suspending the portion of title 42, which allowed for expelling unaccompanied minors. I witnessed massively overcrowded rooms, or pods, where many children are being held for weeks at a time.

The enormous influx of illegals has given the drug cartels the insidious opportunity to ship drugs into our country, leading to an increase in fentanyl smuggling by more than 2,000 percent and illegal weapons by more than 100 percent.

Of grave concern to those I spoke with is the rumor that title 42 will be fully rescinded by the White House, which would lead, Mr. Speaker, to an unmitigated disaster at our border.

We ask President Biden and Vice President Harris to actually visit the border, speak with the agents on the ground, and learn what is going on. This is not a Republican or a Democrat issue; this is a humanitarian and national security crisis that can be solved.

HONORING DOROTHY WILLIAMS MOORE ON HER 100TH BIRTHDAY
(Mr. Bishop of North Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)
Mr. Bishop of North Carolina. Mr. Speaker, today, I rise to honor Dorothy Williams Moore on the occasion of her 100th birthday.

Dorothy was born in Hamptonville, North Carolina. She graduated from Catawba College, class of 1942, majoring in home economics. On March 20, 1946, she married Thomas Moore and moved to Charlotte. Dorothy and Thomas had four children: Luther, Louanna, Neil, and Cynthia.

Dorothy has proudly served as a mother, homemaker, and substitute teacher. She also taught Sunday school.

Thomas passed away in 1986, after nearly 40 years of marriage. Dorothy still lives in Charlotte. She has five grandchildren and eight great-grandchildren. A double cancer survivor, she loves music and sang in her church’s choir until the onset of COVID-19. She also enjoys sweets, especially chocolate ice cream.

It is an honor to pay tribute to Dorothy on her 100th birthday. She has led an amazing life, and her family is overjoyed to celebrate with her.

HONORING THE LIFE OF SERGEANT JIM SMITH
(Mrs. Hinson asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)
Mrs. Hinson. Mr. Speaker, I rise today to honor the life of Sergeant Jim Smith, who died tragically in the line of duty this past Friday night in Iowa.

Sergeant Smith honorably served as an Iowa State trooper for 27 years. He was an incredible man who loved his family, his State, God, his fellow troopers, and his community in Independence, Iowa.

My heart goes out to his wife, Kathy, and their two children. I hope that the family can find some comfort in knowing that he died a hero protecting his community, as he did every day for well over two decades.

Sergeant Smith and his service and sacrifice for Iowans will never be forgotten.

BE THE MATCH PROGRAM
(Mr. Emmerson asked and was given permission to address the House for 1 minute.)
Mr. Emmerson. Mr. Speaker, many families, including my own, have been impacted by cancer. For more than 178,000 Americans diagnosed with a blood cancer like leukemia, lymphoma, or myeloma, the Be The Match program represents hope.

Founded in Minnesota, Be The Match runs the world’s largest registry designed to connect patients in need of lifesaving blood or marrow transplants with a donor. In 2019, Be The Match facilitated over 6,900 transplants giving hope to countless families around the world.

As a co-chair of the Personalized Medicine Caucus, I urge all of my colleagues today to support the TRANSPLANT Act and reauthorize Federal partnerships like Be The Match, which have impacted the lives of millions. Connecting patients with donors and developing the next generation of regenerative medicine truly represents the best of who we are as a society.

I thank Representative Matsui and the other sponsors of this legislation for their hard work. I encourage everyone to help keep hope alive by supporting this bill.

REMOVAL OF NAMES OF MEMBERS AS COSPONSORS OF H. RES. 157

UNITED STATES ANTI-DOPING AGENCY REAUTHORIZATION ACT OF 2021

Mr. PALLONE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 172) to reauthorize the United States Anti-Doping Agency, and for other purposes.

The Clerk read the title of the bill. The text of the bill is as follows:

H.R. 172

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled:

SECTION 1. SHORT TITLE. This Act may be cited as the “United States Anti-Doping Agency Reauthorization Act of 2021”.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) The United States Anti-Doping Agency—
(A) is the independent national anti-doping organization of the United States; and
(B) manages the anti-doping program, results management processes, drug reference resources, and education for all United States Olympic Committee-recognized national governing bodies and the athletes and events of such national governing bodies.

(2) The United States Anti-Doping Agency contributes to the advancement of clean sport through scientific research, anti-doping education, and outreach programs, and the mission of the United States Anti-Doping Agency is to preserve the integrity of competition and protect the rights of athletes.

(3) Participation in youth sports has the potential to equip young athletes with important skills and values necessary for success in life, and it is essential that the culture of youth sports emphasizes such skills and values.

(4) The TrueSport program of the United States Anti-Doping Agency partners with youth sport organizations across the United States to promote sportsmanship, character building, and healthy performance through the use of targeted educational materials designed to promote a positive youth sport experience.

(5) In modifying the authority of the United States Anti-Doping Agency to include the promotion of the positive values of youth sport, Congress sends a strong signal that the goals of youth sport should include instilling in young athletes the values of integrity, respect, teamwork, courage, and responsibility.

(6) Due to the unique leadership position of the United States in the global community, adequate funding of the anti-doping and clean sport programs of the United States Anti-Doping Agency is imperative to the preparation for the 2028 Summer Olympic Games, which will be held in Los Angeles, California.

(7) Increased appropriations for fiscal years 2022 through 2030 would enable the United States Anti-Doping Agency to directly affect the integrity and well-being of sport, both domestically and internationally.

SEC. 3. MODIFICATIONS OF AUTHORITY.

tion International Convention Against Doping in Sport done at Paris October 19, 2005, and ratified by the United States in 2007 by Attorney General, the Secretary of Homeland Security, and the Commissioner of Food and Drugs shall provide to the United States Anti-Doping Agency any re-
lated information relating to the prevention of the use of performance-enhancing drugs or the prohibition of performance-enhancing methods.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. PALLONE) may again be recognized.

Mr. PALLONE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 172. The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of H.R. 172, the United States Anti-Doping Agency Reauthorization Act of 2021.

For two decades, Mr. Speaker, the United States Anti-Doping Agency, or USADA, has worked to ensure integrity in our American Olympic and Paralympic sporting activities through the promotion and support of drug-free competition.

Recommended by an Olympic committee task force, this independent organization was established to manage a comprehensive anti-doping program in the United States. And since its authorization in 2000, USADA has helped to advance clean sports through scientific research, anti-doping education, and outreach programs.

To ensure USADA can continue this good work, H.R. 172 would extend and increase the authorization level through fiscal year 2030. Further, this bill would empower USADA to encourage a positive sporting environment for young athletes by providing educational materials on sportsmanship, character building, and healthy performance.

The bill also improves anti-doping efforts in the U.S. by encouraging Federal agencies to coordinate and share information with USADA to prevent the use of performance-enhancing drugs and methods.

Taken together, these actions will make positive improvements to the good work that USADA is already doing and provide critical support as
we lead up to the 2028 Summer Olympic and Paralympic Games in Los Angeles. I want to thank my colleagues, Representatives MIKE THOMPSON, DIANA DEGETTE, and BILL JOHNSON for leading this important bipartisan legislation. I would also like to thank Ranking Member RODGERS and all the members and staff of our committee for their efforts to move this legislation forward in a bipartisan manner.

Mr. Speaker, I urge my colleagues to support this legislation, and I reserve the balance of my time.

Mrs. RODGERS of Washington. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today I rise to speak in support of H.R. 172, the United States Anti-Doping Agency Reauthorization Act, sponsored by Representatives MIKE THOMPSON, BILL JOHNSON, and DIANA DEGETTE.

This bill will reauthorize the U.S. Anti-Doping Agency, USADA, which is the national entity charged with administering anti-doping programs in the United States for Olympic, Paralympic, Pan American, and Parapan American sports.

The U.S. Anti-Doping Agency handles anti-doping and out-of-competition testing, results management processes, drug reference resources, and athlete education for all U.S. Olympic and Paralympic Committee-recognized sport national governing bodies, and events.

USADA is also the administrator for the Ultimate Fighting Championship Anti-Doping Program.

Reauthorizing this important agency will further the advancement of clean sports, fair games, and positive sportsmanship.

I urge my colleagues to support the bill. We will be hearing from one of my colleagues here in a moment, a colleague on the committee, BILL JOHNSON.

I also want to thank the chairman for working together to get this done today.

Mr. Speaker, I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield 3 minutes to the gentleman from California (Mr. THOMPSON) who is the lead sponsor of the legislation.

Mr. THOMPSON of California. Mr. Speaker, I rise today in strong support of H.R. 172, the bipartisan legislation reauthorizing the United States Anti-Doping Agency, USADA.

Since 2001, USADA has been recognized by Congress as the official anti-doping agency for Olympic, Paralympic, and other sporting competitions in the United States.

The organization conducts drug testing for athletes, manages test results, and pursues bad actors who seek to undermine the principles of clean and fair support through the use of illicit or banned substances.

This important legislation reauthorizes USADA through fiscal year 2030 and provides a slight funding boost to allow USADA to prepare for the 2028 Olympics in Los Angeles, California. In addition, this legislation requires USADA to devote a portion of its funding to clean sport initiatives for young athletes and authorizes the Department of Justice and other Federal agencies to cooperate with USADA in the course of its investigations.

I am grateful to my colleagues on the Energy and Commerce Committee for advancing this legislation to the floor, and I urge my colleagues to vote "yes.

Mrs. RODGERS of Washington. Mr. Speaker, I am pleased to yield such time as he may consume to the gentleman from Ohio (Mr. JOHNSON), a colleague and leader on the Energy and Commerce Committee.

Mr. JOHNSON of Ohio. Mr. Speaker, I rise today in support of the U.S. Anti-Doping Agency Reauthorization Act.

I thank my colleague, Representative THOMPSON, for his hard work to get this important legislation across the finish line; and I thank Ranking Member MCMORRIS RODGERS for yielding time.

The United States Anti-Doping Agency, or USADA, has worked hard to ensure that our athletic programs are the best in the world, and also the cleanest. Critical to maintaining that success is ensuring our athletes are competing fairly, without the use of performance-enhancing drugs, which is why I have introduced the U.S. Anti-Doping Agency Reauthorization Act.

USADA must have the resources it needs to ensure the integrity of its programs and advance the American values of sportsmanship and playing by the rules on the global stage.

In addition to funding the agency, this legislation adds a special focus on clean sport training for young athletes and their coaches, and enables USADA to better coordinate with Federal law enforcement.

With the Olympics and other international sporting events just around the corner, I urge my colleagues to join me in supporting this bill.

Mr. PALLONE. Mr. Speaker, I have no additional speakers. I urge support for the legislation, and I yield back the balance of my time.

Mrs. RODGERS of Washington. Mr. Speaker, I have no additional speakers. I urge support, and I yield back the balance of my time.

Mr. BISHOP of North Carolina. Mr. Speaker, I move to suspend the rules and pass the bill (S. 578) to improve the health and safety of Americans living with food allergies and related disorders, including particularly life-threatening anaphylaxis, food protein-induced enterocolitis syndrome, and eosinophilic gastrointestinal diseases, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE. This Act may be cited as the "Food Allergy Safety, Treatment, Education, and Research Act of 2021." or the "FASTER Act of 2021.''

SEC. 2. FOOD ALLERGY SAFETY. (a) In General.—Section 201(qq)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(qq)(1)) is amended by striking "and soybeans" and inserting "and soybeans, and sesame"

(b) Effective Date.—The amendment made by subsection (a) shall apply to any food that is introduced or delivered for introduction into interstate commerce on or after January 1, 2023.

SEC. 3. REPORT TO CONGRESS. (i) the scientific criteria for defining a food or food ingredient as a “major food allergen” pursuant to such process, including recommendations pertaining to evidence of the prevalence of allergic reactions to a food or food ingredient that would be required in order to establish that such food or food ingredient is an allergen of public health concern appropriate for such process; and
(ii) opportunities for stakeholder engagement and comment, as appropriate, in considering any such modification to such definition.

(b) PUBLICATION.—The Secretary shall make available on the internet website of the Department of Health and Human Services.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gentlewoman from Washington (Mrs. RODGERS) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. PALLONE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on S. 578.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, today in support of the Food Allergy Safety, Treatment, Education, and Research Act, also known as the FASTER Act.

An estimated 32 million Americans, including approximately one in every 13 children, are affected by food allergies. These allergies can pose significant risks, particularly when inaccurate food labels fail to warn consumers about the presence of some of these allergens.

Under current law, eight allergens are considered major food allergens. These allergens include milk, eggs, shellfish, tree nuts, wheat, peanuts, and soybeans. Due to their status as major allergens, manufacturers must clearly state the presence of any of these ingredients on labels.

Notably missing from this list of allergens is sesame. Sesame is considered an allergen of growing concern. While its prevalence has more than doubled over the last decade, it is not required to be listed as an allergen on food packaging. In fact, in some cases, a food may contain sesame, but the ingredient won’t be listed at all on the labels, instead being referred to through nonspecific terms such as “spices” or words that may not be easily recognized by consumers as containing sesame, such as tahini.

Why may the FDA not recognize the significance of a simple ingredients label, for many families, a lack of clarity on ingredients could mean life or death for those who are allergic to sesame. Clearly, this information should be prominently featured on all packaged food labels.

This is an issue we have been working on for quite some time. I previously introduced a bill several years ago that would list sesame as a major food allergen, and although the Food and Drug Administration opened a docket to solicit feedback about sesame labeling, the agency has not been able to require the listing of sesame due to overly long regulatory processes.

So today, Mr. Speaker, we are bypassing these regulatory delays and taking action. The appropriately-named FASTER Act would quickly move this process along by recognizing sesame as a major food allergen and requiring its listing on new food labels after a phase-in process.

The bill will also require FDA to report recommendations on how we can make additional improvements to protect individuals with food allergies, including ways to add additional major food allergens.

So I want to thank Representative MATSUI for her tireless work on this bill. She is the prime sponsor. We came so close to making this a reality for the finish line in the last Congress, and I am glad that today we are sending this bill to President Biden for his signature. I am proud to support the legislation. I encourage all Members to vote for it.

Mr. Speaker, I reserve the balance of my time.

Mrs. RODGERS of Washington. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of S. 578, the Food Allergy Safety, Treatment, Education, and Research Act. This legislation is bipartisan, a companion of H.R. 1202, that was led by Representatives McHENRY, GONZALEZ, and MATSUI.

S. 578 will designate sesame as a major food allergen. This means that, with the enactment of this legislation, manufacturers would have to list this ingredient on the food packaging label of products containing sesame.

Recent studies indicate that sesame allergies are of growing concern in the United States, with a prevalence rate on par with allergies to soy and fish, which are both listed as major allergens under the Federal Food, Drug, and Cosmetic Act.

This commonsense legislation will provide consumers with the information they need to protect themselves and their families from certain dangerous and life-threatening allergic reactions.

Mr. Speaker, I urge my colleagues to support this legislation, and I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield myself such time as she may consume to the gentlewoman from California (Ms. MATSUI) who is the House sponsor of the legislation.

Ms. MATSUI. Mr. Speaker, I rise today in support of two of my bills being considered under suspension today, the FASTER Act and the TRANSPLANT Act.

The Food Allergy Safety, Treatment, Education, and Research Act, FASTER—which wasn’t as fast as I wanted it to be, but this act will help to improve the safety of more than 32 million Americans, including 5.6 million children, living with potentially life-threatening food allergies.

Under current law, mandatory labeling is required for major food allergens recognized by the FDA like milk, eggs, and peanuts.

My grandson, Robby, has a peanut allergy, and for families like mine, accurate food ingredient labels are vital to making safe and healthy choices. The time we have spent reading the labels and having discussions about whether he needs to go to a birthday party, or go to camp or not, and having friends over, it was just heartbreaking. We need to have those labels be clear.

Critically, the FASTER Act extends these labeling protections to nearly 1.6 million Americans allergic to sesame by requiring sesame to be included as an ingredient on a packaged food label.

The bill also expands the research necessary to find new treatments and is an important step in the right direction to finding an eventual cure for food allergies.

Today is a testament to the hard work of thousands of grassroots advocates who sent emails, made calls, and visited Members of Congress and staff to build support and make sesame the ninth allergen to be labeled under law.

The outpouring of support was incredible. The FASTER Act will truly make a difference for those living with potentially life-threatening food allergies, and we are proud that it can now be sent to President Biden’s desk.

I also rise today in support of H.R. 941, the TRANSPLANT Act, my legislation to reauthorize the C.W. Bill Young Cell Transplantation Program and the National Cord Blood Inventory for another 5 years.

Every 3 minutes, someone is diagnosed with blood cancer. For patients and families facing these fatal diseases, a bone marrow or cord blood transplant may be the best treatment or only potential for a cure.

Congress has long recognized the need to coordinate lifesaving transplants between patients and unrelated donors at the national level and has shown strong bipartisan support over the years for the program.

We must continue to encourage donors and give these patients with otherwise fatal blood cancers a second chance at life. That is why I joined with Representative BILIRAKIS to introduce the TRANSPLANT Act.

This past year, there has been a new sense of urgency for this timely reauthorization. We have seen how Be The Match’s status, as the designated operator of the national program, has helped bone marrow carriers continue to facilitate transplants during the pandemic.
We must act swiftly to preserve this critical designation and ensure patients with otherwise fatal blood cancers continue to have access to transplants, both during and after the current public health crisis.

I urge my colleagues to support this legislation so we may further prevent any lapse in funding. I support both bills.

Mrs. RODGERS of Washington. Mr. Speaker, I yield 3 minutes to the gentleman from New Jersey (Mr. MCHENRY), one of the leaders of this legislation and the leader of the Financial Services Committee.

Mr. MCHENRY. Mr. Speaker, I thank Mrs. RODGERS, my classmate and a member of the Energy and Commerce Committee for yielding. It is an amazing thing to be with you here today, and it is an amazing thing to be here today to talk about this important bill.

As the lead Republican cosponsor of the House companion to S. 578, I rise in support of the FASTER Act.

Millions of Americans suffer from life-threatening food allergies. More than 1.5 million Americans are allergic to sesame, in particular, yet there is no current requirement to include the ingredient on food labels. This legislation would declare it the ninth major allergen to be recognized by the U.S. Food and Drug Administration and update laws to require the labeling of sesame.

This bill would also require the Secretary of Health and Human Services to regularly review promising food allergy treatments and research. This is a major bipartisan priority. These efforts will help slow this rapidly growing disease and ultimately find and fund a cure.

Finally, the FASTER Act establishes a scientific process and framework for establishing additional allergens covered by the Federal Food, Drug, and Cosmetic Act.

I am proud to serve as co-founder and co-chair of the newly formed Congressional Food Allergy Research Caucus, along with Congresswoman DORIS MATTHEWS. We recognize there is more we can do to help those 32 million Americans, including many who are children who suffer from food allergies.

We can and we should do more to increase funding into research, therapies, and treatments for food allergies. Sending this legislation to the President’s desk would be a major first step to achieving our goal of improving treatment opportunities.

I urge my colleagues on both sides of the aisle to vote “yes” on this bill.

Mr. PALLONE. Mr. Speaker, I urge my colleagues to support this bill, S. 578, the FASTER Act, and I yield back the balance of my time.

Mrs. RODGERS of Washington. Mr. Speaker, I have no additional speakers, and I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to section 3(a) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this motion are postponed.

JOHN LEWIS NIMHD RESEARCH ENDOWMENT REVITALIZATION ACT OF 2021

Mr. PALLONE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 189) to amend the Public Health Service Act to provide that the authority of the Director of the National Institute on Minority Health and Health Disparities to make certain research endowments applies with respect to both current and former centers of excellence, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 189
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. SHORT TITLE.
This Act may be cited as the “John Lewis NIMHD Research Endowment Revitalization Act of 2021”.

SEC. 2. RESEARCH ENDOWMENTS AT BOTH CURRENT AND FUTURE CENTERS OF EXCELLENCE.

Paragraph (1) (beginning with “(1) IN GENERAL.—The Director of the Institute may carry out a program to facilitate minority health disparities research and other health disparities research by providing for research endowments—”(A) at current or former centers of excellence under section 736; and

(B) at current or former centers of excellence under section 464z-4.”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gentlewoman from Washington (Mrs. RODGERS) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

GENERAL LEAVE

Mr. PALLONE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 189.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker. Mr. Speaker, I rise today in support of H.R. 189, the John Lewis National Institute on Minority Health and Health Disparities Research Endowment Revitalization Act of 2021. This legislation would resume grants to minority academic institutions that fell out of eligibility for funding through the NIMHD Research Endowment Program.

By allowing those schools to resume eligibility, we will once again help these institutions conduct critical research into minority health disparities.

COVID-19. Mr. Speaker, has further exacerbated many of the health disparities that minority communities experience when interacting with the healthcare system, inequities that we know existed long before the pandemic. In order to address the inequities in our healthcare system and in our society, we must confront them head-on and work together to eliminate them.

By supporting NIMHD and the academic institutions funded through it, we are helping to advance minority health disparities research and strengthen the diversity of the scientific workforce by recruiting and retaining individuals underrepresented in these fields.

This bill is a step toward progress and an equitable public health system. This bill is named after our former colleague, the late and great Congressman John Lewis from Georgia, who introduced this legislation last Congress. He was a dear friend and a longtime champion of eliminating disparities across the board, and he is certainly missed.

I want to thank my colleagues, the sponsors, Representatives Barragan and Carter, for leading the effort on this legislation this year. This is truly bipartisan.

Mr. Speaker, I urge my colleagues to support this bill, and I reserve the balance of my time.

Mrs. RODGERS of Washington. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker. Mr. Speaker, I rise today in support of H.R. 189, the John Lewis NIMHD Research Endowment Revitalization Act, which was introduced by my colleagues, Representatives Barragan, Carter, and Taylor.

This bill will authorize the National Institute on Minority Health and Health Disparities to award research grants to current and former centers of excellence that conduct research on minority health disparities.

Health inequities are disproportionately experienced by minority populations, and these disparities can have negative impacts on health outcomes, economic opportunities and overall quality of life. The current COVID-19 pandemic has only underscored these disparities, which is why this bill is so important.

This dedicated support of these centers of excellence is critical in advancing minority health, addressing health inequities, and expanding educational and training opportunities for those interested in further advancing research in this space.

I would like to thank my colleagues and especially my colleague on the Energy and Commerce Committee on the
Republican side. Representative Buddy Carter, for leading this initiative.

Mr. Speaker, I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia (Mrs. Barragán), a member of our committee and the lead sponsor of the bill.

Ms. BARRAGÁN. Mr. Speaker, I rise today in support of H.R. 189, the John Lewis NIH Plan for Minority Health and Health Disparities Research Endowment Revitalization Act. This is a bipartisan bill that I introduced with my colleague from Georgia, Congressman Carter.

It is, fitting that this bill comes before us during National Minority Health Month because this legislation moves us closer to ending the public health disparities facing communities of color. We need to understand why people of color are more likely to get certain illnesses.

It is a tragic reality, but solutions are out there. H.R. 189 will fund the research that will help us find solutions and save lives.

This bill would, once again, allow for current and former NIHHD or Health Resources and Services Administration centers of excellence to receive research endowment funding, money that is critical in the fight to reduce minority health disparities.

The Research Endowment Program at the National Institute on Minority Health and Health Disparities provides funding to the endowments of academic institutions across the country, such as Charles R. Drew University in my district, Morehouse School of Medicine, University of Puerto Rico School of Dental Medicine, University of New Mexico School of Medicine, Howard University College of Pharmacy, and so many others.

The goal of the program includes promoting minority health and health disparities research capacity and infrastructure, increasing the diversity of the scientific workforce, and enhancing the recruitment and retention of individuals from health disparity populations that are underrepresented in the scientific workforce.

This is critical legislation that is going to play a huge role in addressing and researching disparities.

During the COVID-19 health emergency, communities of color were once again disproportionately affected. Research into health disparities is more crucial than ever.

I want to thank my cosponsors, and I want to thank Chairman PALLONE for working to help me get this important bill to the floor. I urge my colleagues to support this bill. Let’s get this done and across the finish line.

Mrs. RODGERS of Washington. Mr. Speaker, I yield back the balance of my time.

Mr. PALLONE. Mr. Speaker, I urge passage of this very important legislation.

Mrs. RODGERS of Washington. Mr. Speaker, I yield back the balance of my time.

Mr. PALLONE. Mr. Speaker, I urge support for this legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question was taken; and (two-thirds being in the affirmative) the motion to reconsider was laid on the table.

TIMELY REAUTHORIZATION OF NECESSARY STEM-CELL PROGRAMS LENDS ACCESS TO NEEDFUL THERAPIES ACT OF 2021

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, SEC. 1. SHORT TITLE. This Act may be cited as the “Timely Re-authorization of Necessary Stem Cell Programs Lends Access to Needful Therapies Act of 2021” (H.R. 941) to reauthorize the Stem Cell Therapeutic and Research Act of 2005, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, SEC. 1. SHORT TITLE. This Act may be cited as the “Timely Re-authorization of Necessary Stem Cell Programs Lends Access to Needful Therapies Act of 2021” (H.R. 941) to reauthorize the Stem Cell Therapeutic and Research Act of 2005, and for other purposes.

Mr. Speaker, thank you to Congresswoman Barragán for being a champion of this issue, and she truly is a champion of this issue.

The coronavirus has wreaked havoc on our communities, especially minority communities. Now more than ever, we must support minority academic institutions and the critical research they conduct.

Minority academic institutions can play a big role in helping to address the systemic health disparities minority communities are feeling.

We must ensure schools, including Morehouse College in my home State of Georgia, are able to conduct their research without disruption. Without a reauthorization of this program, health research will have to be paused or abandoned altogether. We must not let this happen. The efforts of these researchers will help better prepare all of us to respond to the coronavirus and other health inequities more effectively.

I urge passage of this very important legislation.

Mrs. RODGERS of Washington. Mr. Speaker, I yield back the balance of my time.

Mr. PALLONE. Mr. Speaker, I urge support for this legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill H.R. 189 was passed.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gentleman from Florida (Mr. BILIRAKIS) each will control 20 minutes.

The Speaker recognizes the gentleman from New Jersey, Mr. PALLONE.

Mr. PALLONE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to review and extend their remarks and include extraneous material on H.R. 941.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the C.W. Bill Young Transplant Program and the National Cord Blood Inventory Program facilitate lifesaving bone marrow and umbilical cord blood donations to help patients suffering from blood cancers, disorders, and diseases.

These critical programs assist transplant recipients by providing additional information about bone marrow and cord blood transplants, maintaining an efficient process for identifying donor matches, and increasing the number of unrelated donors available for transplant. The programs also collect data and expand research to improve patient outcomes.

I thank my colleagues—Representatives Matsu, Bilirakis, and Pingree—for their bipartisan leadership on this bill, and I would urge my colleagues to support H.R. 941.

Mr. Speaker, I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 941, the Timely Reauthoriza-

tion of Necessary Stem-Cell Programs Lends Access to Needed Therapies Act, or the TRANSPLANT Act.

As co-chair of the Blood Cancers Caucus, I urge my colleagues to support the TRANSPLANT Act. This bill is about people who are struggling with life-threatening illnesses. The TRANSPLANT Act reauthorizes the C.W. Bill Young Transplant Program, in addition to the National Cord Blood Inventory Program.

I remember Chairman Young, a great friend of ours, and he said that this was one of his greatest accomplishments. I also know that Chris Smith, who will be speaking later, was instrumental in this. He has been a champion on this issue, Mr. Speaker. So I appreciate both of them.

This Federal program provides critical support in the advancement of research for better treatments and the development of new cellular therapies using adult stem cells.

I would also like to take a moment to recognize the work of my friend and colleague and fellow Blood Cancers Caucus co-chair, Congressman Chris Smith. As original Cosponsor, the legislator of bipartisan leadership and support of these programs by Members like, as I said, Chris Smith.

I thank the chairman, as well as the ranking member, for placing this particular bill on the agenda. I know it will get through the Senate this time. Additionally, I appreciate the critical daily work of the National Marrow Donor Program, operating the Be the Match national registry, connecting patients in search of a cure with lifesaving bone marrow donors, even in the midst of this historic pandemic.

I would also like to take a moment to recognize the great work of Dr. Joanne Kurtzberg, President of the Cord Blood Association. She also serves in multiple roles at Duke University, including the director of Carolinas Cord Blood Bank. Dr. Kurtzberg has dedicated her professional career to cord blood research, banking, and transplantation; and she is an internationally recognized umbilical cord blood transplantologist. She advised Congress on the creation of the public cord blood banking program, which was part of the Stem Cell Therapeutic and Regenerative Research Act of 2005. Dr. Kurtzberg continues to be a trusted adviser to Congress on this important program.

Mr. Speaker, I urge all my colleagues to join us in expediting passage of this lifesaving bipartisan bill.

Mr. Speaker, I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I have no additional speakers, but I think my colleague does so, I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I yield 4 minutes to the gentleman from New Jersey (Mr. SMITH).

Mr. SMITH of New Jersey. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, today, the House of Representatives will vote to reauthorize the Stem Cell Therapeutic and Regenerative Research Act, a law that I authored in 2005. This was an original idea of mine 20 years ago.

My good friend from Florida just mentioned Dr. Kurtzberg. Dr. Kurtzberg was in the room that we held in drafting this legislation, and she provided incredible insights as to what we should do, what path we should follow. So I appreciate him recognizing her.

I also thank Artur Davis, who was my Democratic colleague and the principal Democratic cosponsor of the bill during those several years. It took 5 long years of hard work and numerous setbacks, but the bill was finally signed into law on December 20, 2005.

The new law created a nationwide umbilical cord blood stem cell program designed to collect, derive, type, and freeze cord blood units for transplantation into patients and even cure serious disease. Pursuant to the law, it also provided stem cells for research. The new cord blood program was combined with an expanded bone marrow initiative, which was crafted over several years by our distinguished colleague, Congressman Bill Young.

Umbilical cord blood stem cells, Mr. Speaker, obtained after the birth of a child have proved to be highly efficacious in treating serious diseases, including sickle cell disease, lymphoma, leukemia, and in treating metabolic and immune deficiencies. Scientists are continuing to study and better understand the regenerative effects of cord blood cell therapies for other diseases and disabilities, including autism. I would say in like manner, bone marrow donations are also providing lifesaving transplants for some of those very same diseases. So we have great regenerative initiatives that will be continued.

The National Cord Blood Inventory, NCBI, provides funding to public cord blood banks participating in the program to allow them to expand the national inventory of cord blood units available for transplant. These units are then listed on the registry by the Be the Match program. The funds appropriated thus far have led to an important increase in the overall number of high-quality cord blood units available through the national registry, now totaling 111,000 NCBI units. Within the Be the Match Registry, there are now more than 800,000 worldwide.

The program registry, Mr. Speaker, allows patients and their physicians to locate matching cord blood units, as well as adult donors for marrow and peripheral blood stem cells. The program is the world’s largest, most diverse donor registry, with more than 22 million volunteer donors.

The National Marrow Donor Program/Be the Match, through its operation of the program, has facilitated more than 105,000 transplants.
According to Be the Match, more than 40,000 patients have received cord blood transplants. The authorization before us authorizes $23 million each year for 5 years for the cord blood side and, again, Mr. Pallone, $28 million each year for the bone marrow program.

Mr. Speaker, each year, nearly 4 million babies are born in America. In the past, virtually every placenta and umbilical cord was tossed as medical waste. Today, doctors have turned this medical waste into medical miracles.

Not only has God, in His wisdom and goodness, created a placenta and an umbilical cord to nurture and protect the precious life of an unborn child, but now we know that another gift awaits immediately after birth. Something very special is left behind: Cord blood that is teeming with lifesaving stem cells.

Mr. Bilirakis. Mr. Speaker, this is a very important bill and needs to pass as soon as possible. I really appreciate the chairman placing the bill on the agenda. I urge the Senate to pass it as soon as possible, and, of course, my colleagues today, if we can pass this bill immediately so we can get it to the Senate.

Mr. Speaker, I yield back the balance of my time.

Mr. Pallone. Mr. Speaker, I also urge support for the bill, and I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion are postponed.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. Pallone) and the gentleman from Florida (Mr. Bilirakis) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. Pallone. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on S. 164.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. Pallone. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the rising cost of prescription drugs continues to be a major issue for families across the country. These costs are particularly daunting at a time when we are facing a severe economic downturn and the ongoing pandemic.

We are committed to continuing to find solutions to make prescription drugs more affordable for the American people. One important way to help families out is to ensure they are aware of more affordable options, like biosimilars and generics. These are both cheaper options, but, unfortunately, utilization of these products continues to be too low here in the United States.

The Advancing Education on Biosimilars Act of 2021 is commonsense legislation that will help provide patients and healthcare providers with greater information about biosimilars. To do this, the bill requires the FDA to establish a public website with educational materials, including what products are interchangeable, as well as how to report any adverse effects.

In addition, the bill would support the development of continuing education programs for healthcare providers about biosimilars. It is critical that healthcare providers and patients are aware of all of their options, and this legislation will certainly help do that.

I am pleased to work with my colleagues in the Senate on this legislation, and I urge my colleagues to support the bill.

Mr. Speaker, I reserve the balance of my time.

Mr. Bilirakis. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of S. 164, the Advancing Education on Biosimilars Act.

This bill is a bipartisan companion to H.R. 1873, championed in the House by Dr. Bucshon and Congressman Peters.

This bill would require the FDA to establish and operate an internet website to provide educational materials for healthcare providers, patients, and caregivers on biological products, including biosimilar products and interchangeable biosimilar products. It also would require the Department of Health and Human Services, HHS, to develop continuing education programs for caregivers on biological products, including biosimilar products and interchangeable biosimilar products.

By increasing awareness about available biosimilar products and providing educational resources for physicians...
and patients about their benefits, we can increase adoption of these lower cost alternative therapies when appropriate and drive down drug costs for Americans across the country.

Mr. Speaker, I urge support for this bipartisan effort to lower drug costs through the uptake of biosimilar products, and I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Indiana (Mr. BUCSHON), a great member of the Energy and Commerce Committee and a great resource for us nonphysicians.

Mr. BUCSHON. Mr. Speaker, I would like to speak in support of S. 164, the Advancing Education on Biosimilars Act of 2021, which is the Senate companion of H.R. 1873, a bill that I introduced with my friend and colleague, Congressman SCOTT PETERS from California.

This bipartisan, bicameral bill will require FDA to create a public website to educate patients and providers about biological and biosimilar products.

As new biological and biosimilar products become available, it is important that physicians have current information on these therapies in order to choose the best treatment for their patients.

Availability of information and education on these new and complex treatments for providers and patients will lead to healthy competition in the biological and biosimilar product space and ultimately help to lower the cost of these important drugs for patients.

I urge my colleagues to support this bill, and I look forward to the President signing it into law.

Mr. PALLONE. Mr. Speaker, I have no additional speakers.

Mr. BILIRAKIS. Mr. Speaker, I urge everyone to vote to pass this bill so we can quickly make this law and get it to the President.

Mr. Speaker, I yield back the balance of my time.

Mr. PALLONE. Mr. Speaker, I also urge support for this bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. PALLONE) that the House suspend the rules and pass the bill, S. 164.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. CLINE. Mr. Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3(a) of House Resolution 8, the yeas and nays are ordered. Pursuant to clause 8 of rule XX, further proceedings on this motion are postponed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 1215, the Fraud and Scam Reduction Act. This bipartisan bill was introduced by Representatives BLUNT, ROCHELLE, and WALBERG with strong bipartisan support of 16 other Members. It also incorporates a bill originally introduced by Representatives DEUTCH, BUCHANAN, and WELCH.

Reducing scams and fraud is an issue of utmost importance in every community and especially so during these uncertain and unprecedented times. Right now, we are seeing the best of humanity, but unscrupulous scammers and fraudsters still abound, seeking to capitalize on the confusion and fear that is out there.

Seniors are especially vulnerable. According to the most recent report from the Federal Trade Commission, older adults reported nearly $400 million in losses from fraud in 2018. It is rare to recover these losses. We all need to work together to protect senior citizens, who deserve to be safe from these attacks and feel secure in our community.

This bill establishes a new senior scams prevention advisory group composed of relevant government agencies and industry representatives to collect and assess best practices to stop scammers before they can cause harm. It will also establish new programs to prevent fraud that targets seniors. The legislation will also improve educational materials on senior scams and make sure that they are publicly available.

This legislation also establishes an office at the FTC dedicated to preventing fraud targeting seniors and monitoring the market for such fraud. This office will also assist the FTC in monitoring the market for mail, television, internet, and telemarketing fraud targeting seniors. The office will also help with consumer education on fraud targeting seniors.

The bill will help reinforce the efforts of the FTC to prevent fraud and mitigate the massive losses from fraud targeting seniors.

I urge my colleagues to support this important measure, and I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in strong support of H.R. 1215, the Fraud and Scam Reduction Act. I want to thank Representative BLUNT, ROCHELLE, and WALBERG, and the other members of the Energy and Commerce Committee for their tireless work on this important bill.

H.R. 1215 would establish a senior scams prevention advisory council, which will create model educational materials to inform employees of retail companies and financial institutions on how to identify and prevent scams.
This bill would work in concert with other recently enacted legislation to provide Americans with the tools they need to educate and protect themselves against these bad actors. It is a very good bill, Mr. Speaker.

Mr. Speaker, I urge my colleagues to support this bill, and I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I yield such time as she may consume to the gentlewoman from Delaware (Ms. BLUNT ROCHESTER), who is also a member of the Energy and Commerce Committee.

Ms. BLUNT ROCHESTER. Mr. Speaker, I thank Chairman PALLONE for his tireless work to advance this important legislation.

Mr. Speaker, today I rise in support of my bill, H.R. 1215, the Fraud and Scam Reduction Act. Bad actors preying on older Americans is unfortunately nothing new, but in the midst of a global pandemic, cracking down on those scams must be a priority of the Federal Government.

That is why I proudly introduced the bipartisan Fraud and Scam Reduction Act with my colleagues Mr. VALENTINO, WELCH, and BUCKMAN.

The bill’s primary sponsor, was aimed at cracking down on these scams by doing two main things. It would create an advisory group under the Federal Trade Commission made up of government agencies, consumer advocates, and industry representatives, such as financial services and retail, to help identify potential sources of fraud and create educational materials for our Nation’s seniors to protect them from these dangerous schemes. It would also establish the senior fraud advisory office, which would give seniors hope in recovering their assets stolen by fraudsters and improve our understanding of senior fraud by encouraging seniors to report this activity.

We are proud to say that the bill has broad support, including AARP, the Retail Industry Leaders Association, Target, Best Buy, Walmart, and Western Union, as well as many more.

Mr. Speaker, one of the most fundamental obligations of government is to protect our citizens. The least we can do is protect already vulnerable seniors from being taken advantage of by bad actors.

Mr. Speaker, I thank my colleagues, Democrats and Republicans, for their work in strengthening the bill, and I urge all of my colleagues to vote in favor of the measure.

Mr. BILIRAKIS. Mr. Speaker, I yield such time as he may consume to the gentleman from the great State of Michigan (Mr. WALBERG), my good friend.

Mr. WALBERG. Mr. Speaker, I thank my friend from Florida for yielding.

Mr. Speaker, I urge support of H.R. 1215, Fraud and Scam Reduction Act, and thank my colleague and friend, Representative BLUNT ROCHESTER, as well as the Committee on Energy and Commerce staff for their hard work in bringing the bill to the floor today.

Sadly, in today’s digital age, scams targeting seniors and their hard-earned money are growing in number and sophistication. Every year, scammers steal billions of dollars from unsuspecting consumers. The effect on victims can be financially and emotionally devastating, and the COVID-19 pandemic has only made things worse. Safeguarding seniors in Mr. PALLONE’s district and across the country needs to be a top priority.

Retailers have diligently worked to combat these crimes. Their ability to educate their employees with best practices and training to recognize the signs of a scam can make a huge difference in stopping criminals.

Our bipartisan bill builds upon the work retailers are doing by creating a Federal advisory council at the FTC to create a unified front against criminals who target our most vulnerable citizens and stop this fraud before it is too late.

Mr. Speaker, I urge the House to pass H.R. 1215 so we can help stop scammers from perpetrating a fraud and taking advantage of our loved ones and our neighbors.

Mr. PALLONE. Mr. Speaker, I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I urge Congress to pass this bill and get it to the President—actually, before that, we have to get it to the Senate and pass it immediately to protect our seniors, particularly during this very difficult time.

Mr. Speaker, I yield back the balance of my time.

Mr. PALLONE. Mr. Speaker, I also urge support for the bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by Mr. PALLONE to suspend the rules and pass the bill, H.R. 1215, as amended.

The question was taken.

Mr. PALLONE. Mr. Speaker, I move that further proceedings on this motion are postponed.

Mr. Speaker, I also urge the House to pass H.R. 1215 so we can help stop scammers from perpetrating a fraud and taking advantage of our loved ones and our neighbors.

Mr. PALLONE. Mr. Speaker, I yield back the balance of my time.

Mr. Speaker, I urge the House to pass H.R. 1215 so we can help stop scammers from perpetrating a fraud and taking advantage of our loved ones and our neighbors.

Mr. PALLONE. Mr. Speaker, I also urge support for the bill, and I yield back the balance of my time.

The SPEAKER pro tempore. In the affirmative, the ayes have it.

THE SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gentleman from Florida (Mr. BILIRAKIS) each will control 20 minutes.

Mr. PALLONE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 1460.

The SPEAKER pro tempore. The SPEAKER pro tempore announces that the time for the gentleman from New Jersey (Mr. PALLONE) and the gentleman from Florida (Mr. BILIRAKIS) each will control 20 minutes.

Mr. PALLONE. Mr. Speaker, I speak on behalf of my colleagues, and approximately members of the Committee on Energy and Commerce. I thank them for their work on this important piece of legislation and for the many years they have served and worked to protect consumers.

This legislation would protect Americans from an otherwise undetectable harm. This bipartisan bill represents a longstanding commitment of the Committee on Energy and Commerce. I thank Representatives CARTER and KUSTER, two great members of the Committee on Energy and Commerce. I thank them for their work on this important piece of legislation and for the many years they have served and worked to protect consumers.

Carbon monoxide is a colorless, odorless gas produced by burning fuel, and most people know that. Exposure to unhealthy levels of carbon monoxide can lead to carbon monoxide poisoning, a serious health condition that could result in fire safety, death, and children.

Mr. Speaker, unintentional carbon monoxide poisoning from motor vehicles and the abnormal operation of fuel-burning appliances, such as furnaces, water heaters, portable generators, and stoves kills more than 400 people each year and sends more than 15,000 to hospital emergency rooms for treatment.

This legislation would protect Americans from an otherwise undetectable harm. This bipartisan bill represents a longstanding commitment of the Committee on Energy and Commerce to protect America’s consumers, families, and children.

Mr. Speaker, I urge my colleagues to pass this particular bill, and I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I speak on behalf of my colleagues, and approximately members of the Committee on Energy and Commerce.

Mr. KUSTER. Mr. Speaker, I thank the chair for yielding.

Mr. Speaker, as a mother and aunt—and now a great aunt—to a dozen little children from Florida, the Nicholas and Zachary Burt Memorial Carbon Monoxide Poisoning Prevention Act of 2021.

This important bipartisan bill was introduced again this Congress by Representatives ANN KUSTER and BUDDY CARTER.

Mr. Speaker, carbon monoxide—colorless, odorless, tasteless—is a silent killer. More than 400 people die, approximately 10,000 people are hospitalized, and nearly 50,000 people visit emergency rooms each year in the U.S. from carbon monoxide poisoning.

The tragedy is that these deaths and injuries are preventable with the installation of carbon monoxide detectors. However, many people are unaware of the importance of carbon monoxide detectors or don’t know how to install or maintain them properly.

This bill will change that. It will assist States in educating the public on the dangers of carbon monoxide poisoning and the proper use of carbon monoxide detectors. It will also provide States with grants so they can purchase and install carbon monoxide detectors in the homes of the elderly and low-income citizens, as well as in educational facilities.

Mr. Speaker, I call on my colleagues to support this measure, and I reserve the balance of my time.
ones. I know there is nothing more important than keeping our children and loved ones safe. From a young age, we tell our children to wear their seatbelts in the car, a helmet while riding a bike or skiing, and to handle sharp objects with care. We teach our young children great lengths to protect our children from the dangers we can see, but there are threats to our children’s and loved ones’ well-being that oftentimes go undetected.

Among the most dangerous of these is carbon monoxide. Carbon monoxide is a colorless, odorless gas. You cannot see it, hear it, taste it, or smell it. This deadly gas claims the lives of over 400 Americans every year and results in over 20,000 emergency room visits.

Two of my constituents, John and April Courtney in Lyman, New Hampshire, tragically lost their lives to carbon monoxide poisoning just this past year. If people know about the dangers of carbon monoxide and have alarms properly installed in their homes, tragedies like the one in my district, can be prevented.

Mr. Speaker, that is why I am so proud to join my good friend, Representative CARTER, in introducing in the House, H.R. 1460, the Nicholas and Zachary Burt Memorial Carbon Monoxide Poisoning Prevention Act that we will be voting on this evening.

This legislation provides funding for States to prevent future carbon monoxide-related deaths by educating the public about the dangers of carbon monoxide poisoning and installing detectors in housing for the elderly and monoxide poisoning and installing detectors in housing for the elderly and vulnerable members of the population. Our bipartisan legislation will save lives.

At a time when Congress so often seems divided, this legislation is proof that we can work together to find common ground and get things done to help our constituents.

Mr. Speaker, I thank Mr. CARTER, and the chairman, and I encourage all of my colleagues to vote in favor of this legislation.

Mr. BILIRAKIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Georgia (Mr. CARTER), my good friend.

Mr. Speaker, I really appreciate his perspective on the Committee on Energy and Commerce as the only pharmacist on the committee. I thank him for sponsoring this legislation.

Mr. BILIRAKIS. Mr. Speaker, I thank the gentleman from Georgia.

Mr. Speaker, I rise today in support of H.R. 1460. The bill, the Nicholas and Zachary Burt Memorial Carbon Monoxide Poisoning Prevention Act is a piece of legislation that can save lives. It would direct the Consumer Product Safety Commission to award grants to install carbon monoxide alarms in buildings and facilities that house vulnerable members of the population.

According to the CDC, at least 430 people die in the United States from accidental CO poisoning every year. On top of that, nearly 50,000 people visit the ER every year because of accidental CO poisoning. On a higher note, we can curb this statistic.

Better monitoring systems will ensure that people can prepare and protect themselves. This bipartisan legislation, which I am proud to cosponsor with my good friend, Representative KUSTER from New Hampshire, helps us move the needle on this important subject. Many of us have heard stories of families being impacted by this tragic and preventable outcome. Whether it is seniors or children, this bill can help save lives.

Mr. Speaker, I thank my colleague for her hard work on this bill, and I urge my colleagues to support this legislation. Mr. PALLONE, Mr. Speaker, I have no additional speakers, and I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I urge my colleagues to pass this bill. It is a great bill, a good consumer protection bill, and I yield back the balance of my time.

Mr. PALLONE. Mr. Speaker, I also urge support for the bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question was taken.

The SPEAKER pro tempore. Pursuant to section 3(a) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this motion are postponed.

PROTECTING SENIORS FROM EMERGENCY SCAMS ACT

Mr. PALLONE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 446) to require the Federal Trade Commission to submit a report to Congress on scams targeting seniors, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

**H.R. 446**

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.*

**SECTION 1. SHORT TITLE.**

This Act may be cited as the “Protecting Seniors from Emergency Scams Act”.

**SEC. 2. FTC REPORT ON SCAMS TARGETING SENIORS DURING EMERGENCIES.**

Not later than 30 days after the date of enactment of this Act, the Federal Trade Commission (referred to in this Act as the “Commission”) shall submit a report to Congress including:

(1) a description of the number and types of scams identified by the Commission as being targeted at senior citizens; and

(2) policy recommendations to prevent such scams, especially as such scams relate to future national emergencies.

**SEC. 3. INCREASING AWARENESS OF SCAMS TARGETING SENIORS.**

(a) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Commission shall update its web portal to include the latest information, searchable by region and type of scam, on scams targeting seniors, including contacts for relevant law enforcement and adult protective service agencies.

(b) COORDINATION WITH MEDIA OUTLETS AND LAWS ENFORCEMENT.—The Commission shall work with media outlets and law enforcement to distribute the information included in the web portal of the Commission pursuant to subsection (a) to senior citizens and their families and caregivers.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gentleman from Florida (Mr. BILIRAKIS) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. PALLONE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 446.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey? There is no objection.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise to speak in support of H.R. 446, the Protecting Seniors from Emergency Scams Act. Representatives KELLY and BALDERSON in introduced this bipartisan legislation to further efforts by the FTC to stop fraud targeting seniors.

This bill streamlines efforts to protect seniors from fraudulent scams targeting seniors during national emergencies, such as the COVID-19 pandemic, by establishing a searchable database of scams targeting seniors.

In the Committee on Energy and Commerce, we have held multiple hearings exploring the rise in fraud and scams that have come with the COVID-19 pandemic.

Unfortunately, scammers often take advantage of the fear and uncertainty that results from uncertain situations. And since the beginning of the COVID pandemic, consumers have reported losing more than $300 million in just pandemic-related fraud.

After Hurricane Sandy ravaged the East Coast, including my own district in New Jersey, scammers preyed on people who lost their homes and livelihoods. We saw contracting scammers promising to rebuild people’s homes but who took the money and ran. One man was in prison for using fake titles to sell Sandy-damaged cars.

Unfortunately, older Americans are targeted disproportionately and affected by this fraud. Older Americans reported significantly bigger monetary losses from fraud than any other age group. According to a recent FTC report, phone scams result in the highest reported losses by older adults, particularly adults over 60. Phone-based scams are especially problematic in emergency situations, like the pandemic when people are spending more time at home and seniors may be more isolated.
Representatives Kelly and Balderston’s bill will help address these scams. It directs the FTC to issue a report on fraud targeting seniors during the pandemic and how to improve efforts against senior scams during future emergencies.

Mr. Speaker, I encourage my colleagues to join me in supporting this bill, and I reserve the balance of my time.

Mr. Speaker, I thank Representative Ronny Johnson of Texas for her bipartisan work on this legislation and Chairman Pallone for his support in advancing legislation to protect our seniors.

Mr. Speaker, I rise today in support of H.R. 446, the Protecting Seniors from Emergency Scams Act. I would like to thank Representative Troy Balderson of Ohio, the cosponsor of the legislation.

The COVID-19 pandemic has turned the lives of millions of Americans upside down, unfortunately. We were all forced to isolate, sometimes even away from our families and friends, to stay safe. Unfortunately, it is during these times when bad actors aim to exploit the vulnerable. Posing as lifesaving medication and stimulus checks, scammers will stop at nothing to take advantage of others.

H.R. 446 would protect Americans, especially seniors, from malicious and deceptive acts or practices targeted at them. The legislation also requires the Federal Trade Commission to identify and alert the public about known scams, specifically in their region.

Mr. Speaker, our seniors have suffered enough. It is time to better supply them and their loved ones with the information needed to protect themselves against scammers who shamelessly prey on the most vulnerable.

H.R. 446 would direct the Federal Trade Commission to identify and alert the public about known scams, specifically in their region.

Mr. Speaker, I urge my colleagues to pass this legislation, and I urge my colleagues to vote for it.

Mr. Speaker, I yield back the balance of my time.
Mr. Speaker, I rise to speak in support of H.R. 1762, the Protecting Indian Tribes from Scams Act. The often-overlooked area in Federal fraud prevention efforts is scams targeting Indian Tribes and Tribal members. The scope and scale of scams affecting Indian Tribes have not been well documented, hindering efforts to prevent them.

This bipartisan bill, reintroduced this Congress by Representatives MULLIN and O’HALLERAN, will help get needed information about fraud and scams targeting Tribes and members of Tribes. This bill directs the FTC to consult with Indian Tribes about these scams and then issue a report to Congress that will be made public. It also requires the FTC to update its website to include information on these scams.

Mr. Speaker, as this pandemic continues, scammers are taking advantage of people’s fear and uncertainty to steal people’s money and commit fraud. American Indians are not exempt from these unfair and deceptive practices and may even be specifically targeted with certain kinds of scams. But there is not much information about it.

Mr. Speaker, I commend Representatives MULLIN and O’HALLERAN for introducing this bill, an important step in helping prevent fraud and scams targeting Tribes and members of Tribes. I urge my colleagues to support this bill.

Mr. Speaker, I urge my colleagues to support this bill, and I yield back the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I urge my colleagues to pass this bill, and I yield back the balance of my time.

Mr. PALLONE. Mr. Speaker, I also urge support for the bill, and I yield back the balance of my time.

Mr. Speaker, I rise today in support of H.R. 1762, the Protecting Indian Tribes from Scams Act. I want to thank Representative MULLIN and Representative O’HALLERAN for their work on this particular issue. This bipartisan piece of legislation will help our Native nations.

One area that can be overlooked in Federal fraud prevention efforts, Mr. Speaker, is scams targeting Indian Tribal members. The scope and scale of scams that target Indian Tribes have not been well documented, hindering efforts to prevent them.

This legislation would direct the FTC, the Federal Trade Commission, to submit to Congress a report on unfair or deceptive acts or practices targeting Indian Tribes.

Simply put, these scammers ruin lives, unfortunately. To address these scams, we must educate all Americans on how to avoid malicious scammers.

This legislation passed the House last Congress, and I am hopeful we can again pass it today and get this legislation to become law as soon as possible. I can’t think of a better person to sponsor this than my good friend, Mr. MULLIN.

Mr. Speaker, I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I yield such time as he may consume to the gentleman from Oklahoma (Mr. MULLIN).

Mr. MULLIN. Mr. Speaker, I rise today in full support of my bill, H.R. 1762, the Protecting Indian Tribes from Scams Act. The bill will help protect our Tribes and Tribal members from predatory and fraudulent scams.

Tribal communities have long been targets of fraud. Scammers often target vulnerable communities who receive trust or settlement payments, like many Tribes do, FTC data says that members are more likely to be the victims of scams and are less likely to report scams than any other group.

H.R. 1762 will direct the FTC to study the types of scams that target Tribes and find the best ways to combat them.

Mr. Speaker, I thank my colleague from Arizona for working with me on these issues, as well as many other issues important to Indian County. I urge my colleagues to support this bill.

Mr. Speaker, I have no additional speakers, and I reserve the balance of my time.

Mr. BILIRAKIS. Mr. Speaker, I urge my colleagues to pass this bill, and I yield back the balance of my time.

Mr. PALLONE. Mr. Speaker, I also urge support for the bill, and I yield back the balance of my time.

Mr. Speaker, I rise to speak in support of H.R. 1766, the FTC Collaboration Act of 2021.

Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1766) to enhance cooperation between the Federal Trade Commission and State Attorneys General to combat unfair and deceptive practices, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion are postponed.

The question was taken.

The SPEAKER pro tempore. Pursuant to a previous direction of the House, the Clerk read the title of the bill.

The Clerk read the first two sections of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 6 of rule XX, further proceedings on this motion are postponed.

The Speaker recognized the gentleman from New Jersey.

Mr. BILIRAKIS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 1766.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. BILIRAKIS) and the gentleman from Florida (Mr. PALLONE) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. BILIRAKIS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 1766.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise to speak in support of H.R. 1766, the FTC Collaboration Act of 2021. This bipartisan bill was introduced again this year by Representatives O’HALLERAN and HUDSON.
The bill will help reinforce the important relationship between the FTC and State attorneys general.

Our State attorneys general play a critical role in enforcing and complementing Federal consumer protection laws. The FTC is a relatively small law enforcement agency charged with protecting consumers across the country. By partnering with State attorneys general, the reach of Federal consumer protection efforts is expanded. Stronger enforcement actions can be taken against unscrupulous companies and those engaging in unfair and deceptive practices hurting consumers.

When Americans are harmed by fraud and scams, they often turn to their State attorneys general for help, but these scammers may be targeting people across the country. By working together, State AGs and the FTC can pool their resources and protect consumers across the country.

This bill will allow the FTC to optimize its collaboration with State attorneys general by studying the matter and issuing a report on how to further promote collaboration.

Mr. PALLONE. Madam Speaker, I urge my colleagues to support this bill, and I reserve the balance of my time.

Mr. BILIRAKIS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise today in support of H.R. 1766, the FTC Collaboration Act of 2021, or the DEBAR Act of 2021.

As bad actors and scammers continue their efforts to take advantage of American consumers, we must not back down when it comes to ensuring the safety of our constituents and authenticity of consumer products. The FTC Collaboration Act directs the Federal Trade Commission to examine how it can work better with State attorneys general to prevent, publicize, and penalize scams in the United States. This bill would require the FTC to submit a report to Congress on how to enhance collaboration with State law enforcement. I remain confident this can help in other agenda items we can work together on in this particular session. It is so important that we work together with our colleagues on the State level.

I am proud of the important steps this bill takes to keep consumers safe and, importantly, prioritize our most vulnerable during COVID-19.

Madam Speaker, I have no further speakers. In closing, I ask my colleagues to support this very important bill, and I yield back the balance of my time.

Mr. PALLONE. Madam Speaker, I have no additional speakers. I urge support for the bill, and I yield back the balance of my time.

The SPEAKER pro tempore (Ms. Pingree) offered a gentleman from New Jersey (Mr. PALLONE) that the House suspend the rules and pass the bill, H.R. 1766.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

DEBARMENT ENFORCEMENT OF BAD ACTOR REGISTRANTS ACT OF 2021

Mr. PALLONE. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 1002) to amend the Controlled Substances Act to authorize the debarment of certain registrants, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1002
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Debarment Enforcement of Bad Actor Registrants Act of 2021” or the “DEBAR Act of 2021”.

SECTION 2. DEBARMENT OF CERTAIN REGISTRANTS.

(a) In General. Section 304 of the Controlled Substances Act (21 U.S.C. 824) is amended by adding at the end the following:

"(h) The Attorney General may issue an order to prohibit, conditionally or unconditionally, and permanently or for such period as the Attorney General may determine, any person from being registered under this title to manufacture, distribute, or dispense a controlled substance or a list I chemical, if the Attorney General finds that—

"(1) such person meets or has met any of the conditions for temporary or permanent suspension or revocation of registration under subsection (a); and

"(2) such person has a history of prior suspensions or revocations of registration."

SECTION 3. DETERMINATION OF BUDGETARY EFFECTS.

The budgetary effects of this Act, for the purpose of complying with the Statutory Pay-As-You-Go Act of 2010, shall be determined by reference to the latest statement titled “Budgetary Effects of PAYGO Legislation” for this Act, submitted for printing in the Congressional Record by the Chief Counsel for the House Budget Committee, provided that such statement has been submitted prior to the vote on passage.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gentleman from Florida (Mr. BILIRAKIS) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. PALLONE. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 1002.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise today in support of H.R. 1002, the Debarment Enforcement of Bad Actor Registrants Act of 2021, or the DEBAR Act of 2021.

One of the critical missions of the Drug Enforcement Administration is enforcing and implementing the Controlled Substances Act in order to prevent drug diversion and limit access to substances that may pose a risk if used improperly.

One important lever the DEA has at its disposal to manage diversion or noncompliance with the law is the ability to revoke or surrender an individual’s controlled substance registration, which is needed to handle controlled substances.

A recent report by the Department of Justice Office of the Inspector General found weaknesses in the DEA’s current registration processes and instances where the agency did not fully utilize its regulatory authorities to address noncompliance. Specifically, the inspector general found cases where entities whose registration were revoked were later able to obtain a new license.

For example, the report included one case where a doctor who had their registration revoked for serious misconduct then moved to another State under the authority of a different DEA field division and was granted a controlled substances registration after reapplying.

Another example in the report included a dentist who had voluntarily surrendered his medical license and DEA registration on two separate occasions. The dentist had also been convicted of a felony, which is grounds for suspension or revocation of an individual’s registration under the Controlled Substances Act. However, this dentist was still able to obtain another DEA registration.

Amid rising substance abuse and tragic drug overdoses, errors like these can be tragic and simply should not be happening. H.R. 1002 would address these errors by authorizing the debarment of any registrant who either meets the criteria for temporary or permanent suspension or revocation or has a history of prior suspensions or revocations.

I thank my committee colleagues—Representative Latta, in particular—for leading this legislation, and also Ranking Member Rodgers for her work on this legislation.

Madam Speaker, I urge my colleagues to support the bill, and I reserve the balance of my time.

Mr. BILIRAKIS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise today in support of H.R. 1002, the Debarment Enforcement of Bad Actor Registrants, or the DEBAR Act, which was introduced by my very good friend, Mr. Latta.

This provision would give the Drug Enforcement Administration, DEA, the power to debar the registration of an individual who has repeatedly violated the Controlled Substances Act from receiving a registration to manufacture, distribute, or dispense a controlled substance.

It makes a lot of sense. A recent Department of Justice Office of the Inspector General report found that when...
certain bad actor registrants have their registration revoked, they can re-apply for registration the very next day. Registrants who pose a significant risk of diverting drugs could be given the opportunity to do so once again. We have to stop this, that is why this legislation is so vital.

Repeat offenders should not be al- lowed to get a new registration from the DEA just days after their previous registration was revoked because they broke the law. Limited debarment au- thority is a commonsense and effective administrative tool to address diversion, fraud, and misconduct.

I strongly support this legislation. Madam Speaker, I yield such time as he may consume to the gentleman from Ohio (Mr. LATTA).

Mr. LATTA. Madam Speaker, I ap- preciate my good friend from Florida for yielding. I also thank the chairman of the committee for bringing this bill before us today on the floor.

Madam Speaker, I rise today in sup- port of H.R. 1002, the Debarment En- forcement of Bad Actor Registrants Act of 2021, or the DEBAR Act.

In the 116th Congress, we worked vig- orously to tackle the coronavirus and address the needs of those who were suffering. One of the hardest issues fac- ing Americans during this time was substance abuse, which, on average, takes nearly 130 lives each day in our Nation.

The Centers for Disease Control and Prevention reported that more than 86,000 drug overdoses occurred in a 1-year period ending in August of 2020, making it the deadliest year for U.S. overdoses.

In Ohio alone, opioid overdoses reached record levels, rising 16 percent in the second quarter of 2020. Prior to the pandemic, these rates were, thank- fully, declining over a 24-month period.

We need to act immediately to put an end to this crisis. The DEBAR Act pro- vides the Drug Enforcement Adminis- tration with the administrative tool to perma- nently prohibit a person or entity that has violated the Controlled Substances Act from being able to re- ceive a registration to manufacture, distribute or dispense a controlled sub- stance.

This legislation would also close loopholes and reduce the circulation of illegal substances across our Nation and keep bad actors from reappearing for new licenses once revoked. There is no silver bullet when it comes to fight- ing the opioid epidemic; however, the DEBAR Act will help address what is needed to combat this crisis, save lives, and stop bad actors from contributing to addiction.

Again, I thank the chairman, my friend from New Jersey, for bringing the bill to the floor. I also thank our ranking member from Washington for her help on this legislation.

Madam Speaker, I encourage my col- leagues to support this bill.

Mr. BILIRAKIS. Madam Speaker, I urge passage of this good bill, and I yield back the balance of my time.

Mr. PALLONE. Madam Speaker, I also urge support for the legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. PALLONE) that the House suspend the rules and pass the bill, H.R. 1002, as amended.

The question was taken.

The SPEAKER pro tempore. Pursuant to section 3(a) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, fur- ther proceedings on this motion are postponed.

ENSURING COMPLIANCE AGAINST DRUG DIVERSION ACT OF 2021

Mr. PALLONE. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 1899) to amend the Controlled Substances Act to provide for the revocation, suspension, modification, or termination of a registration to manufacture, distribute, or dispense controlled substances or list I chemicals, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1899—(short title) Be it enacted by the Senate and House of Representa- tives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Ensuring Compliance Against Drug Diversion Act of 2021”.

SEC. 2. MODIFICATION, TRANSFER, AND TERMINA- LIZATION OF REGISTRATION TO MANUFACTURE, DISTRICT, OR DISPENSE CONTROLLED SUBSTANCES.

Subsection (a) of section 302 of the Con- trolled Substances Act (21 U.S.C. 822) is amended by adding at the end the following new paragraph:

“(3)(A) Except as provided in subparagraph (C), the registration of any registrant under this title to manufacture, distribute, or dispense controlled substances or list I chemicals terminates if and when such reg- istrant—

(i) dies;

(ii) ceases legal existence;

(iii) discontinues business or professional practice; or

(iv) surrenders such registration.

(B) In the case of such a registrant who ceases legal existence or discontinues busi- ness or professional practice, such registrant shall promptly notify the Attorney General in writing of such fact.

(C) No registration under this title to manufacture, distribute, or dispense con- trolled substances or list I chemicals, and no authority conferred thereby, may be as- signed or otherwise transferred except upon such conditions as the Attorney General may specify and then only pursuant to writ- ten consent. A registrant to whom a reg- istration is assigned or transferred pursuant to the preceding sentence may not manu- facture, distribute, or dispense controlled sub- stances or list I chemicals pursuant to such registration until the Attorney General re- ceives such written consent.

“(D) In the case of a registrant under this title to manufacture, distribute, or dispense controlled substances or list I chemicals de- siring to discontinue business or professional practice altogether or with respect to con- trolled substances and list I chemicals without assigning or transferring such business or professional practice to another entity), such registrant shall return to the Attorney General for cancellation—

(i) the registrant’s certificate of registra- tion;

(ii) any unexecuted order forms in the registrant’s possession; and

(iii) any other documentation that the Attorney General may require.”.

SEC. 3. DETERMINATION OF BUDGETARY EF- FECTS.

The budgetary effects of this Act, for the purpose of complying with the Statutory Pay-As-You-Go Act of 2010, shall be deter- mined by reference to the latest statement titled “Budgetary Effects of PAYGO Legisla- tion” for this Act, submitted for printing in the Congressional Record by the Chairman of the House Budget Committee, provided that such statement has been submitted prior to the vote on passage.

The SPEAKER pro tempore. Pursu- ant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gen- tleman from Florida (Mr. BILIRAKIS) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

Mr. PALLONE. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 1899.

The SPEAKER pro tempore. Is there objection to the request of the gent- leman from New Jersey?

There was no objection.

Mr. PALLONE. Madam Speaker, I yield myself such time as may con- sume.

Madam Speaker, I rise today in sup- port of H.R. 1899, the Ensuring Compli- ance Against Drug Diversion Act.

The DEBAR Act is charged with regulating con- trolled substances and manages access to these substances through a registration system. This system is meant to identify entities that manufacture, dis- tribute, and dispense controlled sub- stances, such as opioids; as well as to prevent diversion of these substances. We rely on the DEA to maintain the integ- rity of this system as one way to stop illicit diversion before it starts.

However, a 2018 Government Ac- countability Office report found over 700 registrants in the DEA’s system who may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 1899.

The SPEAKER pro tempore. Pursu- ant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gen- tleman from Florida (Mr. BILIRAKIS) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.
controlled substance registration of any registrant if the registrant dies, ceases legal existence, discontinues business or professional practice, or surrenders their registration. This bill also codifies DEA authority to ensure accuracy of registrations and limit the transference of registrations.

I thank the lead sponsor of this bill, Representative GRIFFITH, for his leadership on this issue.

Madam Speaker, I urge my colleagues to support this bill, and I reserve the balance of my time.

Mr. BILIRAKIS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise today in support of this legislation, which was introduced by Representative GRIFFITH.

In order to prevent people who have not been vetted by authorities in dispensing controlled substances, this bill would clarify that the transfer of any controlled substance registration without consent from the Drug Enforcement Administration, DEA, is prohibited.

A 2018 Energy and Commerce Committee report, which summarized the committee’s bipartisan investigation into the distribution of prescription opioids through wholesale drug distributors, and the DEA’s subsequent enforcement practices found that an opioid distributor and its pharmacy customer did not go through the appropriate process of transferring a registration to a new pharmacy owner.

Failing to contact the DEA appropriately and to verify whether the agency approved the transfer of a registration to dispense controlled substances creates a serious risk that could lead to drug diversion.

Madam Speaker, of course, I urge a “yes” vote on this.

Madam Speaker, I yield such time as he may consume to the gentleman from Virginia (Mr. GRIFFITH).

Mr. GRIFFITH. Madam Speaker, I rise today in support of H.R. 1899, the Ensuring Compliance Against Drug Diversion Act. This is a small but very important step that could play a key role in helping contain the opioid epidemic.

License to distribute opioids is not a commodity to be freely bought and sold. We must ensure that those who wish to engage in opioid distribution earn the ability to do so.

An investigation, as the Speaker has heard, published by the Energy and Commerce Oversight and Investigations Subcommittee in 2018 found that the current procedures for transferring the licenses to distribute controlled substances lacked sufficient accountability.

In one instance, a distributor and its pharmacy customer did not go through the appropriate process of transferring registration to a new pharmacy owner, but the mistake wasn’t caught until long, long afterward. As a result, there was a period of time during which the DEA was unaware that a particular pharmacy was distributing controlled substances.

Failing to properly verify whether a transfer has been approved creates a serious risk of drug diversion. This bill, the Bipartisan Controlled Substance Act, to prohibit the transfer of any DEA registration without consent from the agency.

By requiring written approval from the DEA before the transfer of registration, the bill decreases the risk of controlled substances falling into the hands of those who have not been vetted by appropriate regulatory authorities.

Mr. BILIRAKIS. Madam Speaker, I urge passage of this very good bill. I yield back the balance of my time.

Mr. PALLONE. Madam Speaker, I also urge support for the bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. PALLONE) that the House suspend the rules and pass the bill, H.R. 1899.

The question was taken.

The Clerk read the title of the bill.

The Chair recognizes the gentlewoman from Minnesota.

GENERAL LEAVE

Ms. CRAIG. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the measure under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Minnesota?

There was no objection.

Ms. CRAIG. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in support of the bill before us today, H.R. 1502, the Microloan Improvement Act of 2021. Today, we are considering four bipartisan bills that were approved by the Small Business Committee and the full House of Representatives last year. I am proud of the committee’s work on behalf of small businesses and pleased that we worked together to get things done. Our small businesses deserve nothing less.

I would like to thank the chairwoman, Ms. VELAZQUEZ, for giving me the opportunity to manage time today on these four important small business bills.

I would also like to thank the ranking member, Mr. LUETKEMEYER, who will be handling the floor proceedings today with me.

Prior to the COVID–19 pandemic, the Subcommittee on Economic Growth, Tax, and Capital Access, under the leadership of Mr. KIM, held a hearing on the microloan program, where we heard from a panel of intermediaries who reported that many of the program’s rules, largely unchanged since 1991, are outdated and restrict them from meeting today’s demand for start-up financing and providing more technical assistance.

In response, Mr. KIM crafted the Microloan Improvement Act of 2020, a series of proposals designed to update the program’s rules and, ultimately, help microloan intermediaries extend more affordable capital to first-time entrepreneurs.

I was proud to support the Microloan Improvement Act last Congress and was pleased to see some of its provisions become law as part of the Economic Aid Act last December.

Today’s bill, the Microloan Improvement Act of 2021, is virtually the same as last Congress’ version without the policies we have already enacted into law.

Madam Speaker, we have heard time and again many entrepreneurs lack the experience needed to demonstrate their creditworthiness to conventional lenders. The COVID–19 pandemic has highlighted these gaps in financing, showing the smallest of small businesses, especially those owned by women and minorities, struggle the most to afford access to capital.

The microloan program is uniquely suited to address this problem, and today’s bill strengthens the program and is long overdue.

I encourage my colleagues to support the bill.

Madam Speaker, I reserve the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, I yield myself such time as I may consume, and I rise in support of H.R. 1502, the Microloan Improvement Act of 2021.

Before I begin, I would like to thank the chairwoman for working in a bipartisan manner on behalf of our Nation’s small businesses.

The bills before us today were developed in the 116th Congress and have been updated and reintroduced in this Congress. They focus on the Small Business Administration’s existing government guaranteed loan programs. These programs are important resources and tools for the Nation’s smallest businesses as they seek out financing.

Now, more than ever, these programs need to be ready for small businesses as they begin and continue to recover from the COVID–19 pandemic. As ranking member of the Subcommittee on Small Business, I want to make sure we focus, or continue to focus on these programs that assist the Nation’s small businesses, entrepreneurs, and start-ups.

The first bill is the Microloan Improvement Act. This legislation enhances and expands SBA’s microloan program which provides loans of $50,000 or less. This program, which is delivered to small businesses through a partnership with microloan intermediaries, concentrates on low-dollar loans and technical assistance.

When a small business is starting out, counseling and capital assistance are true drivers of continued and prolonged success. H.R. 1502 further enhances the program for micro-borrowers by expanding the repayment terms of the program and providing additional tools in their toolbox.

Additionally, the bill removes the burdensome 1/55th rule that delays dollars from flowing to microloan intermediaries within the first two fiscal quarters of the year and replaces it with an allocation mechanism that will provide more equitable access to all States. Non-financial capital is essential to the success of America’s small businesses and their entrepreneurs. This bipartisan bill is straightforward and effective. It increases the number of nonprofit community-based lenders that can offer loans through the SBA’s microloan program.

Representative KIM’s bill works in tandem with the Microloan Transparency and Accountability Act, my small business legislation that we will debate shortly, to expand access to financial resources that will help our aspiring small business owners and entrepreneurs chase down the American Dream.
Ms. CRAIG. Madam Speaker, I move to suspend the rules and pass the bill (H.R. 1487) to amend the Small Business Act to increase transparency, and for other purposes.

The Clerk reads the title of the bill. The text of the bill is as follows:

H.R. 1487
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. SHORT TITLE. This Act may be cited as the “Microloan Transparency and Accountability Act of 2021”.

SEC. 2. PORTFOLIO RISK ANALYSIS OF MICROLOANS.

Section 7(m)(b) of the Small Business Act (15 U.S.C. 635(m)(b)) is amended—

(1) by redesignating subparagraphs (A) through (F) as clauses (i) through (vi), respectively, and adjusting the margins accordingly;

(2) by amending clause (iv), as so redesignated, to read as follows: “(iv) the number, amount, and percentage of microloans made by intermediaries to small business concerns—

(I) that went into default in the previous year; and

(II) that were charged off in the previous year by such intermediaries;”;

(3) in clause (vi), as so redesignated, by striking “and” at the end;

(4) by redesignating subparagraph (G) as clause (xviii), and adjusting the margin accordingly;

(5) by striking “On November 1, 1995,” and

(6) in subparagraph (A), as so designated, by inserting after clause (vi) the following new clauses:

“(vii) the number and type of enforcement actions taken by the Administrator against noncompliant intermediaries;

(viii) an analysis of compliance by intermediaries with the credit availability requirements of paragraph (3)(E) for loans in an amount greater than $20,000; and

(ix) the extent to which microloans are provided to small business concerns in rural areas;

(x) the number of underserved borrowers, as defined by the Administration, participating in the microloan program;

(xi) the average rate of interest for each microloan;

(xii) the average amount of fees charged for each microloan; and

(xiii) the average size of each microloan, including—

“(I) the number of loans made in an amount greater than $20,000; and

“(II) the average size and charge-off rate of such loans;

“(v) the subsidy cost to the Administration; and

“(vii) the number and percentage of microloans that were made to refinance other loans;”.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Minnesota (Ms. CRAIG) and the gentleman from Missouri (Mr. Luetkemeyer) each will control 20 minutes.

The Chair recognizes the gentlewoman from Minnesota.

Ms. CRAIG. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, 2020 was a difficult year for small businesses. The COVID–19 pandemic hit small businesses hard, but this is especially true for small businesses that were just starting out.

As our country continues to recover, the SBA’s programs and resources must continue to assist the Nation’s job creators along the way.

The microloan program is a key tool for many small business owners. The reforms in H.R. 1502 are commonsense improvements that will continue to provide assistance and resources to America’s Main Street businesses.

Madam Speaker, I urge and recommend my colleagues to support H.R. 1502, and I yield back the balance of my time.
pleased that language was included as part of the Economic Aid Act and is now law.

However, our work on the microloan program is not done. H.R. 1487 continues the work to keep strengthening the program, and I encourage all of my colleagues to support it.

I applaud the bipartisanship shown by the sponsors of these bills, especially the leaders, Mr. Burchett and Mr. Kim.

I urge all of my colleagues to vote “yes.”

Madam Speaker, I reserve the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in support of H.R. 1487, the Microloan Transparency and Accountability Act of 2021.

I thank the chair for moving these bills quickly to the House floor. I also want to commend the gentleman from Tennessee (Mr. Burchett), the gentleman from Wisconsin (Mr. Fitzgerald), the gentleman from New Jersey and the gentlewoman from Illinois (Ms. Newman) for working diligently and in a bipartisan fashion on behalf of America’s small businesses.

It is important to note that once Congress creates a Federal Government program, tool, or resource, the work is not done. Members of Congress must examine and determine the effectiveness and efficiency of these programs in order to ensure that they are meeting congressional intent.

H.R. 1487 does just this for the microloan program, which delivers capital assistance and counseling to our Nation’s smallest businesses. Often times, businesses that are just starting out and taking their first steps as a company are participants in the microloan program.

On an annual basis, the Small Business Administration will be required to report to Congress on the microloan program’s default rates, an analysis of credit requirements, the extent and reach of the program in rural areas, and so on.

H.R. 1487 will also increase transparency and provide Congress with tools to ensure it is working on behalf of small businesses across the Nation. I urge my colleagues to support this commonsense and straightforward legislation, and I reserve the balance of my time.

Ms. CRAIG. Madam Speaker, I reserve the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, I yield as much time as he may consume to the gentleman from Wisconsin (Mr. Fitzgerald), a huge supporter of small business in Wisconsin, and the gentlewoman from Illinois (Ms. Newman) for working diligently and in a bipartisan fashion on behalf of America’s small businesses.

As a former small business owner, I know accessible financial resources are important for growth, innovation, and success. Working folks have to jump on the first horse that comes down the pike, as my dad used to say, or need to take up microloans, like I did. Wealthy folks have family assets. Inner cities and rural Appalachia don’t have those same opportunities, Madam Speaker. These are hardworking Americans just looking to get their feet in the door and have a fair shot.

This legislation aims to boost rural small business participation in the SBA microloan program by requiring the Small Business Administration to submit to Congress a financial analysis of the microloan program. This ensures Federal microloans are targeted toward rural areas, not just large urban centers, and creates important oversight that reduces fraud and government waste.

These fixes will allow America’s entrepreneurs, regardless of background or location, to have easier access to capital that helps them reach their goals.

I am proud to partner with Representatives Andy Kim, Scott Fitzgerald, and Marie Newman on this legislation that will make a difference for east Tennessee’s mom-and-pop shops and small businesses across our great counties.

Mr. FITZGERALD. Madam Speaker, I rise today in support of H.R. 1487.

Unlike large businesses with access to debt and equity markets, small businesses rely on commercial banking to fund their operations. Should a creditworthy small business be unable to obtain a conventional business loan, the Small Business Administration can help the small business by offering access to capital through the microloan program. The microloan program allows nonprofit intermediaries to make loans of up to $50,000 to small businesses, along with technical assistance.

The program has grown from approving $52 million in loans in 2015 to over $80 million in 2019. Despite this growth, the SBA produces minimal statistics that are needed to evaluate a government guaranty program.

This commonsense legislation will require the SBA to produce an annual report detailing additional information about microloans that have defaulted and the number of loans provided to rural and urban areas.

We owe it to Americans to conduct basic oversight to protect their taxpayer dollars while expanding opportunities for rural small businesses to grow and innovate.

I urge my colleagues to vote on this bill to ensure small businesses hit hard by the pandemic have robust access to capital, regardless of their size and location.

Ms. CRAIG. Madam Speaker, I have no further speakers, and I am prepared to close.

Mr. LUETKEMEYER. Madam Speaker, I yield myself the balance of my time.

The microloan program, which delivers capital assistance to the Nation’s smallest businesses, is an important lending tool at the SBA. H.R. 1487, the Microloan Transparency and Accountability Act of 2021, will deliver comprehensive data and information on the effectiveness of these programs and tools are operating at a high level and delivering on the goals that Congress set for them. That is why this bill is so important.

I urge my colleagues to support H.R. 1487, and I yield back the balance of my time.

Ms. CRAIG. Madam Speaker, I yield myself the balance of my time.

It is often said that information is power. H.R. 1487 will greatly increase the information publicly available about the microloan program’s performance and impact.

If we intend to continue to support the smallest of small businesses, we need to make sure the programs targeting them are operating at their best. That starts with improving the data and information available about where the loans are going, how affordable they are, and where the gaps in coverage are.

With more data, the public can assess the impact these loans have in our communities, and Congress will be able to monitor the program and identify areas for improvement.

I thank the gentlemen from Tennessee and New Jersey for their hard work and collaboration in bringing this bill to the floor today.

I urge my colleagues to vote “yes,” and I yield back the balance of my time.

Mr. WEBER of Texas. Madam Speaker, I rise in support of H.R. 1487.

The question is on the motion offered by the gentlewoman from Minnesota (Ms. Craig) that the House suspend the rules and pass the bill, H.R. 1487.

The question was taken.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this motion are postponed.

Ms. DAVIDS of Kansas. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the measure under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Kansas?

There was no objection.

Ms. DAVIDS of Kansas. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in support of the bill before us today, H.R. 1490, the 504 Modernization and Small Manufacturer Enhancement Act of 2021.

504 loans are an important SBA capital access product, allowing small businesses to affordably purchase machinery and equipment, acquire real estate, or take on other fixed asset costs.

The loan has a three-party structure where an SBA-backed 504 lender provides 40 percent of the financing, a third-party lender provides 50 percent of the financing, and a business borrower provides 10 percent. This unique structure has helped thousands of entrepreneurs expand their businesses and hire more employees, especially businesses with significant fixed costs.

Last Congress, the Committee on Small Business’s Subcommittee on Oversight, Investigation, and Regulation held a hearing to review the current status of the 504 loan program. We heard from a panel of 504 lenders who reported concerns with the loan closing process, specifically that closing delays have caused loans to fall through and businesses to lose out on affordable financing.

To that end, Ms. CRAIG put forth a strong proposal to streamline the 504 loan closing process and make compliance easier for CDCs, borrowers, and third-party lenders, who are essential to the 504 loan structure.

Two of the provisions of that bill, which passed unanimously through our committee and the House, were also included in the Economic Aid Act that was enacted in December.
The version of the bill before us today is identical to the version we passed last Congress, but for those provisions included in the Economic Aid Act.

The changes under consideration today continue to address the issues we have heard in our engagement with 504 lenders and their borrowers in our districts, and I am pleased we are taking a vote on them today.

These include increasing the maximum loan size for small manufacturers from $5.5 million to $6.5 million and easing the job retention or creation requirement for them, which helps make 504 loans easier to access.

We should be doing everything that we can to make navigating and utilizing this program as simple as possible. As a member of the Small Business Committee, I am committed to helping our small businesses and manufacturers weather this current crisis and to helping Main Street come back even stronger.

It is why I fought to secure $10 billion for the Defense Production Act in the American Rescue Plan Act to step up domestic production of PPE and other critical supplies. It is also why I introduced the SUPPLIES Act, which would promote the manufacturing of PPE and medical supplies by small businesses.

Business Administration’s loan programs are needed to take his business to the next level, but he didn’t have the resources he needed to take his business to the next level. H.R. 1490 ensures these small businesses have the capital to expand and create jobs in Missouri and beyond.

In the midst of a severe economic crisis, our businesses are struggling to make it through this public health and economic crisis. As a result of this pandemic, prospective small business owners face a steeper climb than ever before.

We must do more to make it easy to start, operate, and expand a small business in our communities. One of the most important things we can do this is by ensuring that the Small Business Administration’s loan programs are operating as effectively and efficiently as possible.

Today, we have two bills that would do exactly that, including my bipartisan bill, the 504 Modernization and Small Manufacturer Enhancement Act. These crucial bipartisan pieces of legislation will not only increase the amount of capital available to manufacturers, but would actually ease the process of getting a loan because, in the midst of a severe economic crisis, our businesses and small businesses need the support of the Small Business Administration’s loan program to keep manufacturing going and create jobs in Missouri and create jobs in our communities.

As a member of the Small Business Committee, I would like to express my support for the bipartisan members of the House Small Business Committee. They have heard in our engagement with 504 lenders and their borrowers in our districts, and I am pleased we are taking a vote on them today.

Nate’s story, like so many others, is proof that the 504 loan program can change the lives of small business owners in this country. This program ensures that small businesses like Nate’s are able to succeed, bringing home the jobs and economic stability that our communities are striving for, especially as we emerge from this devastating economic crisis.

Because these are not simply businesses. These are livelihoods, family traditions, and priceless contributions to our communities, and we have an opportunity to support them on a bipartisan basis by taking action today.

Madam Speaker, I urge all of my colleagues to come together and join me in supporting these bills and businesses across our Nation.

Mr. LUETKEMEYER. Madam Speaker, I yield such time as she may consume to the gentlewoman from California.

Ms. CRAIG. Madam Speaker, for over 30 years, I have represented small businesses in our district.

Today’s bill, the 504 Modernization and Small Business Enhancement Act, would provide the Small Business Administration with the tools to assist small businesses as they recover during COVID-19. H.R. 1490 is what small businesses need to make investments in their communities or hire more workers.

Our bill will provide the SBA with the tools to assist small businesses as they recover during COVID-19. H.R. 1490 is what small businesses need to make investments in their communities or hire more workers.

Our bill will provide the SBA with the tools to assist small businesses as they recover during COVID-19. H.R. 1490 is what small businesses need to make investments in their communities or hire more workers.

Madam Speaker, I rise in strong support of H.R. 1490, the 504 Modernization and Small Manufacturer Enhancement Act of 2021.

When capital options are limited for a small business, the SBA offers numerous lending programs, including the 504/Certified Development Company loan program. Also known as a 504/CDC loan, the program provides long-term and fixed-rate financing that primarily supports purchases of real estate and machinery.

Due to the program’s unique cost structure that includes a small business, a lender, and a certified development company, the process is often lengthy and cumbersome. H.R. 1490 takes important steps to streamline the closing process and ensures the Nation’s job creators move through the process in a smooth and efficient manner.

Additionally, H.R. 1490 enhances the 504/CDC loan program for America’s small manufacturers. By increasing the maximum loan amount for small manufacturers, H.R. 1490 ensures these small businesses have the capital to expand and create jobs in Missouri and beyond.

The changes in H.R. 1490 will improve delivery of the 504/CDC loan program for all of America’s small businesses. I urge all my colleagues to support H.R. 1490.

Mr. LUETKEMEYER. Madam Speaker, I yield the balance of my time.

Ms. DAVIDS of Kansas. Madam Speaker, I yield such time as she may consume to the gentlewoman from Minnesota (Ms. CRAIG).

Ms. CRAIG. Madam Speaker, for over a year now, small businesses in my district and across the country have struggled to make it through this public health and economic crisis. As a result of this pandemic, prospective small business owners face a steeper climb than ever before.

We must do more to make it easy to start, operate, and expand a small business in our communities. One of the most important things we can do this is by ensuring that the Small Business Administration’s loan programs are operating as effectively and efficiently as possible.

Lastly, the bill would support our small manufacturers to ensure that our community’s manufacturing base remains strong and competitive through difficult times.

Madam Speaker, I urge my colleagues on both sides of the aisle to support H.R. 1490.
Ms. DAVIDS of Kansas. Madam Speaker, I reserve the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, I yield such time as she may consume.

Ms. TENNEY. Madam Speaker, I yield myself such time as I may consume.

Mr. LUETKEMEYER. Madam Speaker, I thank Chairwoman VELÁZQUEZ and Ranking Member LUETKEMEYER for bringing forth this great bipartisan bill.

Ms. DAVIDS of Kansas. Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Kansas (Ms. DAVIDS) and the gentleman from Missouri (Mr. LUETKEMEYER) each will control 20 minutes.

The Chair recognizes the gentlewoman from Kansas.

Ms. DAVIDS of Kansas. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the measures under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Kansas?

There was no objection.

Ms. DAVIDS of Kansas. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in support of the bill before us today, H.R. 1482, the 504 Credit Risk Management Improvement Act of 2021.

I thank the chair again for advancing these bills that are meant to assist small businesses across the Nation. I thank the gentleman from North Carolina (Mr. BISHOP), the gentlewoman from California (Mrs. KIM), the gentlewoman from Kansas (Ms. DAVIDS), the gentleman from Minnesota (Ms. CRAIG), as well as thegentleman from Ohio (Mr. CHABOT) for working in a bipartisan manner to strengthen the 504/CDC loan program.

Government programs, especially government guaranteed loan programs, are only as strong as the oversight that is required.

In order to protect and safeguard American tax dollars, executive branch agencies must have a watchful eye focused on these programs.

The Office of Credit Risk Management is a division at the Small Business Administration that is charged with overseeing many of the government guaranteed lending programs that the SBA offers to small businesses. H.R. 1482 ensures the Office of Credit Risk Management has a trained eye focused on the 504/CDC loan program.

Specifically, the legislation outlines how the Office should conduct reviews of the lending programs. The Office is required to conduct reviews of the loan programs, including the 504, to determine if the SBA's role of mitigating risk is being properly managed.

Additionally, H.R. 1482 details the enforcement authority of the Office of Credit Risk Management. These enhancements will ensure the program operates effectively and efficiently into the future.

Lastly, the bill requires the SBA to clearly and concisely define how the 504/CDC loan program operates in conjunction with the Nation's environmental laws and rules. Unfortunately, this process currently lacks certainty by the SBA.

Simply put, Federal government programs require robust oversight and the
programs must have clear rules for small businesses. H.R. 1482 addresses both of these issues head on.

Madam Speaker, I urge and recommend all my colleagues to support H.R. 1482, and I reserve the balance of my time.

Ms. DAVIDS of Kansas. Madam Speaker, I reserve the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, I yield such time as he may consume to the gentleman from Ohio (Mr. CHABOT), the former chairman of the Small Business Committee.

Mr. CHABOT. Madam Speaker, I rise today in support of H.R. 1482.

I thank my colleague from Minnesota, Representative ANGIE CRAIG, for working with me on this bipartisan bill.

I also thank the other cosponsors, Representatives SHARICE DAVIDS and YOUNG KIM, for their work, as well as the full membership of the committee, Ms. VELAZQUEZ, who I worked with many years either with myself as chair and she as ranking, or her as chair and myself as ranking.

I thank Mr. LUETKEMEYER for the great job he is doing. At this point he is the ranking member of the committee. Hopefully he will be chair next time, depending on what the American people think a year and a half down the road.

So what does this legislation do?

A number of things. It streamlines the 504 loan closing process, clarifies the loan closing and oversight process, and enhances the program for small manufacturers. And small manufacturers are absolutely critical in the economy nowadays. And we were actually making great strides in bringing back more and more jobs there until COVID hit. So that is why programs like this are so important to give them the assistance that they need to get those jobs moving once again in that sector of the economy.

The 504 program has been one of the most successful of the SBA—the Small Business Administration—loan programs over the years, and it is really crucial as we recover from COVID-caused hardships of the past year.

The SBA CDC/504 loan program provides the Nation’s smallest businesses with long-term and fixed-rate financing to purchase major fixed assets, such as machinery and real estate. This bill would ensure that our taxpayers’ hard-earned dollars are spent effectively by enhancing oversight responsibility of the SBA Office of Credit Risk Management.

Our bill will provide the SBA with the tools to enforce penalties for any violation of rules and regulations. By providing the SBA with these tools, we look to strengthen the 504 loan program for many years to come.

Additionally, this bill provides consistent and clear guidance when requiring certain environmental certifications. This change will provide small businesses with certainty about requirements and uniform regulations across the country.

For any Federal program to be successful, Congress and the executive branch must ensure that we have a regulatory framework that is efficient and able to prevent fraud and abuse of taxpayer dollars. I commend my colleagues from both sides of the aisle for their leadership on this important issue.

Madam Speaker, I urge my colleagues on both sides of the aisle to support H.R. 1482.

Ms. DAVIDS of Kansas. Madam Speaker, I continue to reserve the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, I yield such time as he may consume to the gentleman from North Carolina (Mr. Bishop).

Mr. BISHOP. Madam Speaker, I thank Ranking Member LUETKEMEYER for yielding.

I rise in strong support of H.R. 1482, the 504 Credit Risk Management Improvement Act of 2021.

I am proud to do my part to ensure the 504 program continues to operate on the fees built into the program to maintain the long-term health of the 504 program.

For those who do not know about the 504 program, this was one of the first programs established at the Small Business Administration and has been a key tool for economic development.

To receive financing, 504 loan recipients must create jobs and meet public policy goals, like aiding rural development or revitalizing a business district.

In its economic development role, the 504 program has provided access to capital and helped build communities across the country for over six decades. To ensure the program’s continued success and viability for years to come, I partnered with Representative ANGIE CRAIG to craft a bill that provides the SBA with the tools necessary to maintain the long-term health of the 504 program.

This bill codifies the SBA’s oversight responsibilities for the 504 program and provides the Office of Credit Risk Management with full control of the review process for certified development companies, known as CDCs, that deliver this program.

The legislation also establishes a framework of oversight between the Office of Credit Risk Management and CDCs to facilitate reviews to make sure the SBA is providing timely feedback to CDCs.

Additionally, this legislation requires the SBA to provide clear direction to certified development companies as they navigate environmental rules and regulations.

Finally, this bill will help ensure that the program continues to operate on the fees built into the program to maintain the long-term health of the 504 program.

I am proud to do my part to ensure the 504 program continues to operate on the fees built into the program to maintain the long-term health of the 504 program.

I thank Chairwoman VELAZQUEZ and Ranking Member LUETKEMEYER for their leadership. I thank my colleague, Ms. CRAIG, for her partnership on this important bill. I also thank Mrs. YOUNG KIM, Ms. DAVIDS, Ms. TENNEY, and Mr. CONEY for their support of this bill.

Madam Speaker, I urge my colleagues to support this legislation.

Ms. DAVIDS of Kansas. Madam Speaker, I have no further speakers at this time, and I am prepared to close.

Mr. LUETKEMEYER. Madam Speaker, I yield myself the balance of my time.

Oversight of Federal Government programs is paramount to ensure American taxpayer dollars are used wisely. H.R. 1482 not only increases the oversight capabilities of the SBA over the 504/CDC loan program, but also requires clear and concise guidance for small business owners moving forward.

There are sound changes that will improve the program for future 504/CDC borrowers.
I applaud all Members for working on this legislation and all of the small business bills before us today. We must continue to put our Nation’s job creators at the forefront of this economic recovery.

Madam Speaker, I would like to take a few moments to make a couple comments here with regard to all the bills that we have offered here today. All these bills dealt with things that deal with oversight.

We as legislators in this body, have two jobs. One is to provide legislation to improve the lives of our businesses and the people in this country, protect our country. Second is to provide oversight over all of the activities that go on within the executive branch, as well as the judicial branch, to whatever extent we can.

In our committee, we oversee the legislation with regard to the Small Business Administration, as well as oversight of their activities. We have come to find over the last several weeks here that the inspector general reports that the SBA is not being run as well as it should. There is fraud rampant in some of the programs which is verified by the AG reports. We have a new Administrator who has got her hands full because of the lack of knowledge of what goes on with all the brand-new things going on.

So we have got a real problem and we, as legislators, have got to step up. These bills today are just one step in the process of providing the kind of oversight that it takes. We will continue to provide oversight. I can assure you, and the members listening and watching today need to take heart in the fact that we are going to continue to provide the kind of oversight over the Small Business Administration and all of its programs that we have been tasked with.

Madam Speaker, I urge my colleagues to support H.R. 1482, the last bill we will discuss today, and I yield back the balance of my time.

Ms. DAVIDS of Kansas. Madam Speaker, in its 62-year history, the SBA’s 504 loan program has helped thousands of entrepreneurs acquire heavy machinery and equipment, expand to more locations, and hire workers. It has long been a strong-performing SBA program and has enjoyed consistent bipartisan support.

We must continue to take all steps needed to preserve the integrity of the 504 program because it will be crucial for the next generation of entrepreneurs. Passing the bill before us today will help us do so.

I thank Mr. BISHOP and Ms. CRAIG for their hard work and collaboration in bringing to the floor today. I also thank Mr. LUSTKEMEYER for his leadership today and his unwavering commitment to our Nation’s 30 million small businesses.

Madam Speaker, I urge my colleagues on the floor to vote “yes,” and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Kansas (Ms. DAVIDS) that the House suspend the rules and pass the bill, H.R. 1482.

The question was taken.

Mr. WEBER of Texas. Madam Speaker, pursuant to section 3(a) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this motion are postponed.

The SPEAKER pro tempore. The gentleman from California is recognized for 1 hour.

Mr. DESAULNIER. Madam Speaker, for the purpose of debate only, I yield
the customary 30 minutes to the gentleman from Texas (Mr. Burgess), pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. DeSAULNIER. Madam Speaker, I ask unanimous consent that all Members be given 5 legislative days to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. DeSAULNIER. Madam Speaker, yesterday the Committee on Rules met and reported a rule, House Resolution 383, providing for consideration of H.R. 7, the Paycheck Fairness Act, under a structured rule. It provides 1 hour of debate, equally divided and controlled by the chair and ranking minority member of the Committee on Education and Labor. It self-executes a management request from Chairman Scott and makes in order six amendments to H.R. 1195. It also provides for one motion to recommit.

The rule also provides for consideration of H.R. 1195, the Workplace Violence for Health Care and Social Service Workers Act, under a structured rule. It provides 1 hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Education and Labor. It makes six amendments to H.R. 1195. It also provides for one motion to recommit. Finally, the rule provides for an en bloc authority to Chairman Scott or his designee for both bills.

Madam Speaker, before I begin, I just wanted to take a moment—this is the first time I have been on the floor since we lost Congressman Hastings—to say for myself, personally, how much gratitude I have for having known him and being able to speak with him. I regret that I won’t see his smiling face, at least in this body, again.

Madam Speaker, the two bills we are talking about today have the potential to drastically improve the working lives of millions of Americans. In 2019, nearly 1 in 9 women in the United States lived in poverty, with even higher rates for women of color. More than 1 in 3 families, headed by unmarried mothers, lived in poverty. And 60 percent of all poor children lived in families headed by unmarried mothers.

The coronavirus pandemic has only deepened the divides that already existed in this country. Women are especially likely to be on the front lines of the pandemic. At the same time, they are also being paid less than their male counterparts.

Madam Speaker, 93 percent of childcare workers, 66 percent of grocery store cashiers, 70 percent of food servers, and 70 percent of clothing, shoe stores, and retail salespeople are women. Women—disproportionately Black women and Latinas—make up more than 8 in 10 of those working as home health aides, personal care aides, and nursing assistants. They are also at great risk for contracting COVID–19.

Madam Speaker, 6 months ago, deep into the pandemic, 1 in 6 Latinas and 1 in 5 Black women had to work for not having enough food in the previous week, and many reported being behind on rent or mortgage payments. Even before the pandemic, women typically lost more than $10,000 every year to the gender wage gap, with even higher losses for women of color.

More than five decades after the passage of the Equal Pay Act of 1963, a woman in America still makes only 82 cents on average for every dollar earned by her male counterpart. Compared to white men, Black women are paid 63 cents, Native Hawaiian and Pacific Islander women are paid 63 cents, American Indian or Alaska Native women are paid 60 cents and Hispanic women are paid 55 cents.

Based on gender wage disparity, a woman who works full time year-round stands to lose over $400,000 over a 40-year career because of this disparity. This is not the United States that Frances Perkins, the first woman Secretary, envisioned, and we have an opportunity today to make a real change.

Madam Speaker, I am proud to have joined with my very dear friend, Chairwoman DeLauro, to introduce the Paycheck Fairness Act, which is an important step towards ending gender-based wage discrimination and ensuring that all women receive equal pay for equal work. It is time to make equal pay for equal work more than just a slogan and turn it into a reality.

Madam Speaker, we are also here to talk about the epidemic of violence against healthcare and social service workers. Last year, Department of Labor statistics show that they were nearly five times as likely to suffer a serious injury than workers in other industries.

The General Accounting Office found that rates of violence against healthcare workers in hospitals, nursing homes, and residential care facilities is 5 to 12 times higher than the estimated rates for workers overall. Between 2011 and 2016, 58 hospital workers died as a result of workplace violence.

Madam Speaker, for me, this matter strikes close to home. In 2010, Napa State Hospital, Donna K. Gross was killed outside of Napa State Hospital by a patient under psychiatric care. Donna was a constituent. She entered the profession to honor her mother, who battled mental illness and was a patient at this very same hospital. She was the mother of three grown children and was raising her granddaughter. Her colleagues described her by saying: “First and foremost, Donna was a human service-type person and loved being with people and working with people.”

Donna’s life was cut short when a patient brutally murdered her to steal jewelry and cash. This story is just one of thousands, and incidents are on the rise. Sadly, violence has become so commonplace for healthcare workers that they think it is part of their job, resulting in only 30 percent of violent incidents actually being reported.

Some States have stepped up to enact laws to require employers to establish a plan to protect against workplace violence. Donna’s story, for example, inspired action in California. I was proud to be part of that action in California served as the basis for the bill before us tomorrow.

These workers deserve national action, and they deserve it now. At the Occupational Safety and Health Administration, these workers do not receive the urgent attention they need. OSHA takes at least 7 years to put out a standard. But in some instances, it can take more than 20 years. People like Donna Kay Gross cannot wait any longer.

To protect the people who dedicate their lives to caring for us, we need to move now. In truth, we needed to move years ago. The longer we wait, the more people are suffering. The longer we wait, the more people like Donna will die.

Madam Speaker, I reserve the balance of my time.

Mr. Burgess. Madam Speaker, I want to thank Mr. DeSAULNIER from California for yielding me the customary 30 minutes, and I yield myself such time as I may consume.

Mr. DeSAULNIER. Madam Speaker, I want to acknowledge, along with Mr. Burgess, the poignant loss that we all feel here in the House with the departure of our friend, Alcee Hastings. He was a fixture in the Rules Committee for all the years I have been on the committee. Certainly, while yes, there may be ways to acknowledge feel his absence, we also feel his presence. He was truly larger than life on the committee.

Today’s rules provides for consideration of two bills that are meant to improve working conditions and compensation. The House actually considered these same bills last Congress. They did not receive consideration in the Senate, and I do not believe any substance has changed in the underlying bills.

The first bill, H.R. 7, the Paycheck Fairness Act, seeks to prevent wage discrimination on the basis of sex, a fact that is already prohibited under current law. This legislation will help trial lawyers but offers no new protections against pay discrimination.

The Equal Pay Act of 1963 prohibits all discrimination in pay based upon sex or any other non-job-performance-related issue. Title VII of the Civil Rights Act protects against discrimination based on race, color, national origin, religion, and sex. Sex-based wage disparity is in direct violation of not just two federal laws.
and they leave employers vulnerable to burdensome lawsuits and heavy fines. I could not agree more that such discrimination has no place in any business or in society in general. However, those who perpetrate these illegal acts are not the people we should target.

Congress must not forget the positive economic trends that this Nation enjoyed before the arrival of the novel coronavirus in the United States. The Trump administration made great strides regarding Federal truth-oversight, which quickly improved opportunities for all Americans. Unemployment was at the lowest level in nearly half a century, and median wages across all demographic groups rose faster than at any other time in American history.

Unfortunately, the majority has crafted legislation that would place greater burdens on employers, reduce the privacy of employees, and increase Federal spending. H.R. 7 does little to protect the wages of American workers who do not engage in gender discrimination. In fact, it makes it harder for employers to defend legitimate differentials in pay based on factors other than sex.

Currently, employers may pay different wages due to factors other than sex, like education, training, or experience. This means that all other things being equal, a woman cannot be paid differently than a man. When an employee brings different qualifications, such as she has an advanced degree or more experience, the factors used to evaluate employee pay are no longer equal. This preserves the flexibility for employers to make the best decision for their businesses, including hiring the most qualified individuals, regardless of sex.

H.R. 7 would now require that non-sex reasons for any wage disparity have a business necessity, a term which is not defined in the bill. Providing a gender-based necessity disallows for the entire differential in pay based on factors other than sex.

H.R. 7 would now require that non-sex reasons for any wage disparity have a business necessity, a term which is not defined in the bill. Providing a gender-based necessity disallows for the entire differential in pay based on factors other than sex.

H.R. 7 limits an employer's ability to pay its employees based on performance. If a woman were to earn a performance-based bonus or salary increase that male coworker did not receive, then that man could file suit against the employer on the basis that the bonus is not a business necessity due to the vagueness in terms in H.R. 7. With this threat in mind, employers are much less likely to use performance-based pay and bonuses, despite studies showing that such pay models actually do increase employee productivity.

While legitimate claims do exist, and I hope that all employees who have experienced discrimination do seek legal remedy, the changes in H.R. 7 would significantly increase the size and profitability of lawsuits, making non-meritorious strikes likely for trial lawyers looking for new cash flows. That is the inherent danger.

H.R. 7 also requires employers to provide disaggregated employee information to the Department of Labor without delineating mechanisms to keep that information safe. Have we ever heard that the Federal Government has lost employee data or that the Federal Government may not be the best steward of citizens' private information?

Currently, employees file complaints with the Equal Employment Opportunity Commission. Employers can defend their pay models by providing documentation of the job, such as she has an advanced degree or more experience, the factors used to evaluate employee pay are no longer equal. This preserves the flexibility for employers to make the best decision for their businesses, including hiring the most qualified individuals, regardless of sex.

That is the inherent danger.

The second bill included in this rule, H.R. 1195, requires that the Secretary of Labor issue a rule on workplace violence prevention in the healthcare and social service sectors. Some may be surprised to hear that acts of violence are the third leading cause of fatal occupational injuries. Of these incidents, approximately 8 percent were intentionally caused by a person.

When Americans go to work each day, they do not expect to face violence or other harm. This risk is especially high for healthcare providers and social workers. These caregivers can be subject to patients who may not be in control when under the influence of medication or may have some other mental stress, upset family members, ongoing domestic disputes, and, unfortunately, even gang violence.

The OSHA statistics show that workplace violence resulting in days away from work for healthcare providers is, on average, four times higher than for other professions. In addition, healthcare providers and social workers are less likely to report incidents. This may be partly due to the pledge to do no harm and the inclination to forgive patient-caused injuries as accidental. Regardless of the situation, all workers deserve a safe workplace.

Current law has no mandatory standard on workplace violence prevention. However, in 2015, the Occupational Safety and Health Administration published guidelines for preventing workplace violence for healthcare and social service workers, and employers are required within 1 year, and a final rule must be issued within 2 years.

While the goal of this legislation is very important, the timeframe imposed on the Department of Labor and OSHA does exceed the norm. While no one believes that we should continue to delay worker protections, OSHA has already begun the rulemaking process and is gathering stakeholder input.

Perhaps, rather than passing a bill to require the issuance of a rule, we should be considering reforms to the entire OSHA rulemaking process. In other words, let's improve the bureaucracy rather than simply flogging it.

H.R. 1195 would require the Secretary of Labor to issue a rule on workplace violence prevention policies, according to a 2018 American Hospital Association survey, 97 percent of respondents reported they already have a workplace violence prevention policy in place. In 2019, the Centers for Disease Control and Prevention stated that additional research was required to identify effective strategies to prevent violence, particularly in healthcare settings.

We can all agree that there is a need for OSHA to do its work to issue a workplace violence prevention regulation to protect healthcare providers and social service workers. I hope we are able to accomplish this goal, but I do worry that we are placing another administrative burden on entities through what is supposed to be an expedited process that may require modification in the future to ensure an effective and safe workplace for all Americans.

Madam Speaker, I urge opposition to this rule and I reserve the balance of my time.

Mr. DESAULNIER. Madam Speaker, I yield 4 minutes to the gentleman from Massachusetts (Mr. McGovern), the distinguished chair of the Rules Committee and representative of the beautiful city of Worcester, Massachusetts.

Mr. McGovern. Madam Speaker, I thank the gentleman from California, a distinguished member of the Rules Committee and also a graduate of the College of the Holy Cross in Worcester, for yielding me the time.

Madam Speaker, I support this rule and the underlying legislation, and I urge my colleagues on both sides to do the same. I hope they all will vote for the rule.

The two bills that we are bringing to the floor are the product of regular order. They went through the committee process, hearings and markups. We, in the Rules Committee, made the Republican minority happy so they can try to defend their ideas, which I don't agree with. Nonetheless, other Republican amendments are made in order as well. But then again, I guess there is not much we can do to make some of my friends happy.

Madam Speaker, I rise for a more somber purpose, and that is to honor my friend and colleague, Congressman ALCEE HASTINGS, who we lost last week after a courageous battle with cancer. I am proud to have sat side-by-side with him in the Rules Committee for many years.

I often say that the Rules Committee is like a family. To those outsiders who
Madam Speaker, I ask unanimous consent to include the text of my amendment in the RECORD, along with extraneous material, immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. BURGESS. Madam Speaker, this is a critical reauthorization and it is imperative that we continue our Nation’s efforts to address the opioid epidemic. In February of 2018, the Drug Enforcement Administration used its authority to place nonscheduled fentanyl-like substances temporarily into schedule I for a period of 2 years. It is important that we do not let this authorization lapse, as it listed fentanyl is still an eminent threat to Americans.

The Drug Enforcement Administration testified that the positive impacts of the emergency scheduling of fentanyl-like substances temporarily into schedule I are significant, stating that prior to this action, the DEA observed a rapid and continuous emergence of a new fentanyl-like substance each time it is scheduled to remove a fentanyl-like substance. In other words, you take one out and one will pop up.

We simply cannot return to that reality because of the deadly nature of this substance.

Just last month, two north Texas teenagers died from counterfeit pills containing fentanyl. Last year, the Dallas DEA found over 16 kilograms of fentanyl targeting the region. It contained over 8 million lethal doses—one for every north Texas resident.

Unfortunately, throughout this pandemic, the opiate crisis has continued, and it has gotten worse. Exacerbating this problem is the ease with which fentanyl is being smuggled across our southern border. The changes in border security enforcement that have occurred have increased the cartels and the drug smugglers that securc our sovereignty is no longer an administration priority. What is worse is that some adults and children are forced to carry these drugs into the United States by smugglers. Sometimes innocent individuals traffic drugs into the United States in their vehicles without even knowing that the cartels have placed it there without their knowledge.

The rule immediately to consider H.R. 2430, the Temporary Reauthorization and Study of the Emergency Scheduling of Fentanyl Analogue Act. This critical bill would extend the Drug Enforcement Administration’s authority to temporarily schedule fentanyl analogues for another year.

Unfortunately, President Biden’s open border policy is encouraging drug trafficking of substances like fentanyl. So it is imperative that the Drug Enforcement Administration retain this authority to keep those dangerous substances out of our communities.

Mr. BURGESS. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, if we defeat the previous question, Republicans will amend the rule immediately to consider H.R. 2430, the Temporary Reauthorization and Study of the Emergency Scheduling of Fentanyl Analogue Act. This critical bill would extend the Drug Enforcement Administration’s authority to temporarily schedule fentanyl analogues for another year.

Unfortunately, President Biden’s open border policy is encouraging drug trafficking of substances like fentanyl. So it is imperative that the Drug Enforcement Administration retain this authority to keep those dangerous substances out of our communities.
Opioid addiction doesn’t care if you are care if it is a Democratic community or a Republican community. They don’t care. They are not interested in our communities. They don’t care. They don’t care. They don’t care. They don’t care.

Madam Speaker, as you know, professionally I am a pharmacist. I have witnessed this. It does not discriminate. Opioid addiction doesn’t care if you are female, African American, Caucasian, or Hispanic. It doesn’t care. It is an addiction that is paralyzing our country.

Madam Speaker, I urge defeat of the previous question so that we can immediately consider H.R. 2430.

Mr. DESAULNIER. Madam Speaker, I yield 3 minutes to the gentlewoman from Florida (Ms. LOIS FRANKEL).

Ms. LOIS FRANKEL of Florida. Madam Speaker, just to follow Chairman McGovern, I thank him for his very kind words on my friend and neighbor, Alcee Hastings, who was a brilliant and forceful advocate for justice and the great senior leader of the Florida delegation. We miss him dearly.

Madam Speaker, I include in the RECORD a letter from the National Urban League in support of the Paycheck Fairness Act.

NATIONAL URBAN LEAGUE, April 14, 2021.

Re Pass the Paycheck Fairness Act (H.R. 7) and vote no on harmful amendments.

HOUSE OF REPRESENTATIVES, Washington, D.C.

Dear Representative: On behalf of the National Urban League, with 90 local affiliates in 36 states and the District of Columbia, I strongly urge you to pass the Paycheck Fairness Act, H.R. 7, without amendments that limit its scope or undermine its critical protections.

The National Urban League is a civil rights organization dedicated to the economic empowerment of African Americans and other underserved populations. The National Urban League and our affiliate movement have a common interest in ensuring equity in the workplace, including payment.

Despite federal and state equal pay laws, gender pay gaps persist, and earnings lost to these inequities equate to the financial effects of COVID-19, falling particularly heavily on women of color and the families who depend on their income. The Paycheck Fairness Act, which has been passed three previous times by the House of Representatives, mostly recently in the 116th Congress, offers a much-needed update to the Equal Pay Act of 1963 by providing new tools to battle pervasive pay gaps and to challenge discrimination.

Women are increasingly the primary or co-breadwinner in their families and cannot afford to be shortchanged any longer. Women who work full-time, year-round make only 82 cents for every dollar paid to men, adding up to a loss of more than $400,000 over a lifetime. This wage gap varies by race and is even larger for women of color: Black women working full time, year-round typically make only 83 cents, Native American women only 60 cents, and Latinas only 55 cents, for every dollar paid to their white, non-Hispanic male counterparts. Over the course of a 40-year career, Black women lose nearly $1 million in earnings and Latinas lose $1.1 million. While Asian American and Pacific Islander (AAPI) women make 85 cents for every dollar paid to white, non-Hispanic men, many AAPI companies are cloaked by employer-imposed pay secrecy policies, one factor driving these wage gaps. These pay gaps can be addressed only if workers are given the power necessary to challenge discrimination and employers are provided with effective incentives and technical assistance to comply with the law.

The Paycheck Fairness Act updates and strengthens the Equal Pay Act of 1963 to ensure that it provides robust protection against sex-based pay discrimination. Among other provisions, this comprehensive bill closes secrecy around pay by barring retaliation against workers who voluntarily discuss pay, discloses these numbers to their employers and report pay data to the EEOC; prohibits employers from relying on salary history in determining future pay, so that pay discrimination does not follow women from job to job; closes loopholes that have allowed employers to pay women less than men for the same work without any important business justification related to the job; ensures women can receive the same robust remedies for sex-based pay discrimination that are currently available to those subjected to discrimination based on race and ethnicity; and provides much needed training and technical assistance, as well as data collection and research.

The COVID-19 pandemic and systemic racism have exposed how the work performed primarily by women, and particularly Black and brown women, has long been and continues to be undervalued and underpaid, even as the rest of the country is newly recognizing the essential nature of this work. We cannot back a economy that works for everyone without ensuring that all women can work with equality, safety, and dignity, starting with pay equity. Passing the Paycheck Fairness Act would mark a vital important step toward ensuring this becomes reality.

We urge you to pass the Paycheck Fairness Act without harmful amendments that weaken its critical protections. If you have any questions, please do not hesitate to contact Joli Chaney at the National Urban League.

Thank you for your consideration,

Marion莫村
President & CEO.

Ms. LOIS FRANKEL of Florida. Madam Speaker, I rise to support the passage of the Paycheck Fairness Act.

I have some important questions and simple answers.

First, do rent and food cost less for women than men? The answer is no.

Do women work less hard than men? Absolutely not.

Do children depend on the financial support of their mothers? That answer is yes.

So should women make less money than men for doing equal work? Obviously not.

Yet, for many reasons, women are paid an average of just 82 cents for every dollar paid to men—it is even lower for women of color—causing struggling families and eventually lower Social Security benefits and retirement savings for our grandmothers.

No wonder it is women and their children who are the majority of poor in this country.

As we emerge from a pandemic that has hit women workers the hardest, isn’t it time for an economy that compensates women fairly for their work?

Of course it is. This requires numerous actions, including making sure that women and men have full access to healthcare, education, and financial resources; family-friendly workplaces; combating on-the-job sexual harassment and violence; making child and adult care more affordable; and raising the pay for minimum wage workers, two-thirds of whom are women.

Today, we can take a giant step toward this moral and legal imperative of closing the gender wage gap by passing the Paycheck Fairness Act and giving workers the tools to enforce the Equal Pay Act of 1963, that requires pay equity.

Isn’t it time, Madam Speaker, that our mothers, daughters, and sisters get paid fairly for their hard day’s work?

Of course.

That is my final question and final answer for today.

Mr. BURGESS. Madam Speaker, I yield 3 minutes to the gentleman from Michigan (Mr. MEIJER) to speak on the amendment.

Mr. MEIJER. Madam Speaker, I rise in support of H.R. 2430 to extend the DEA’s temporary authority to schedule fentanyl-related substances for 1 year.

Fentanyl is a deadly opioid that kills thousands of Americans annually. When chemists modify fentanyl, the analogue is even slightly modified, creating a fentanyl analogue, these substances can become exponentially more lethal. These analogues have been a driving force behind the opioid epidemic that continues to plague our local communities.

The authority for the DEA to classify these analogues as schedule I substances is critical to law enforcement’s ability to keep these drugs off our streets.

As a member of the Homeland Security Committee, I recently joined my colleagues on a trip to assess the ongoing crisis on our southern border.
Fentanyl has continued to move into our country through our ports of entry, mainly through our border with Mexico. On the trip, we spoke with law enforcement officials who detailed the challenges posed by transnational criminal organizations, including drug traffickers attempting to take advantage of the current crisis.

With already limited border security resources being diverted to deal with the humanitarian crisis, drug smugglers are continuing their attempts to push dangerous substances, including fentanyl, into the United States. In the first quarter of 2021, the seizure of fentanyl at our southwestern border by CBP has increased by a staggering 233 percent from the first quarter of 2020.

At a time when our country is experiencing a border crisis and an opioid crisis, we need to be enacting policies that strengthen law enforcement and enhance public safety instead of empowering bad actors who are continuing to put our communities at risk.

If we fail to act on this commonsense extension before the upcoming May 6 deadline, we will be taking away a major tool that law enforcement needs to keep our communities safe.

With fentanyl analogues no longer properly scheduled, drug smugglers will continue and remain emboldened and even expand their attempts to move fentanyl into the United States. This would exacerbate two already unsustainable crises: the ongoing surge at our southern border and the opioid epidemic that has devastated lives of Americans across the country.

Madam Speaker, for that reason, I urge defeat of the previous question. Mr. DESAULNIER. Madam Speaker, I yield myself the balance of my time.

Mr. BURGESS. Madam Speaker, I yield myself the balance of my time.

And just to speak a little further on the amendment that has been offered if the previous question is defeated, H.R. 2490; like so many Members, I too have traveled down to the border. The difference is that I have done that many times over the last 12 years. It has never been this bad; and I need to emphasize that. I encourage the President and the Vice President to visit the southern border, come to the Lower Rio Grande Valley and see for themselves, firsthand, just how bad this crisis is.

And then back to the business at hand, it's very clear about the two bills included in today's rule. Wage discrimination has no place in any society, and it is currently illegal in the United States of America.

The path Congress must take is to not increase opportunities for trial lawyers but to continue its focus on strong economic policy that actually expands opportunities for all Americans.

Prior to the pandemic, nearly 75 million women participated in the workforce, more than at any other time in history. A robust and resilient economy will provide the jobs, provide the wages and the wage gains that Americans expect and deserve.

Also, workplace violence is a threat that no American should have to face. The threat is particularly high for healthcare workers and social service workers. These workers dedicate their lives to taking care of others, and they deserve to be taken care of in return.

While I support the goal of H.R. 1196, I believe it would benefit from further discussion to ensure that the timeline for issuing a rule and developing workplace violence prevention will produce the most effective and safe outcome for American workers.

Madam Speaker, I urge a “no” vote on the previous question, “no” on the underlying measure, and I yield back the balance of my time.

Mr. DESAULNIER. Madam Speaker, I yield myself such time as I may consume. I include in the RECORD a March 25 New York Times article entitled “In 25 Years, the Pay Gap Has Shrunk by Just 8 Cents.”

[From the New York Times, Mar. 25, 2021]

In 25 Years, the Pay Gap Has Shrunk by Just 8 Cents

(By Francesca Donner and Emma Goldberg)
Megan Rapinoe is a two-time World Cup champion who has played to sold-out stadiums around the globe; what she has in common with nearly every American woman is that she’s underpaid.

On Wednesday, Rapinoe testified during a hearing held by Representative Carolyn B. Maloney to examine economic harm caused by gender inequalities, particularly for women of color.

Today is All Women’s Equal Pay Day. Ms. Maloney said. But it’s not Equal Pay Day for all women.

Black women would have to work until Aug. 3, 2021, to earn what men made in 2020. For Latina women, the date doesn’t come until Oct. 21.

“This is a disgrace,” Ms. Maloney said. “And it has long-term consequences for women and families.”

Wage discrimination isn’t limited to any one sector or income level.

Take Ms. Rapinoe, whose fight for equal pay has become something of a calling card for the U.S. women’s team, and who played a central role in the team’s lawsuit on unequal pay filed in 2019.

“One cannot simply outperform inequality,” she said. “Or be excellent enough to escape discrimination.”

If it can happen to me, she said, “it can and it does happen to every person marginalized by gender.”

In Her Words looked at the history of Equal Pay Day, the reasons for the wage gap and what can be done to close it.

It’s a symbolic day that illustrates how far into the current year American women would need to work to earn what their male counterparts made in 2019. Put another way, because there is a disparity in what women and men are paid, women would need to work around 486 days to earn what men earn in just 365 days.

Race plays a part, too: For Black and Hispanic women, the numbers are worse. For Asian women, the numbers are better. Estimates vary on how much the wage gap will cost an American woman over the course of her career. The National Women’s Law Center puts it at $406,280 in lost income on average, but that number can top $1 million for Hispanic women and is just shy of $1 million for Black and Native American women.

How did it become a thing?

Equal Pay Day was established in 1996 by the National Committee on Pay Equity. Today marks the 25th. But debates around pay equity date back much further than that.

Carolyn York, secretary-treasurer of the National Committee on Pay Equity, pointed out in an email that in 1942, as huge numbers of men began returning to work force, the National War Labor Board urged employers to make “adjustments which equalize wage or salary rates paid to males and females paid to do comparable work, with comparable quality and quantity of work on the same or similar operations.” But two decades on, in the 1960s, women were still earning only around 59 cents for every dollar a man made.

Do other countries have a gender wage gap? Of course they do. According to this O.E.C.D. study, the U.S. is behind Canada and ahead of Mexico. In addition to Canada, other countries that have a smaller pay gap than the United States are Russia, Colombia, Peru, Paraguay, Rica, Denmark, Norway... the list goes on. And on.

Has the pay gap narrowed over time? Yes, but not by much. We’re talking pennies. This year, it’s estimated that American women will earn around 82 cents for every dollar that a man earns. A decade ago in 2011, it was 77 cents. In 1966, the first “official” Equal Pay Day, it was around 74 cents. And this top-line number doesn’t account for differences in earnings among different racial groups.

How is the wage gap number calculated? The pay gap refers to the ratio of male to female median annual earnings for full-time workers. Think of it as a fraction: The numerator is the difference between male and female median earnings, and the denominator is male median earnings. The actual number might look different depending on the source it’s coming from, because some sources factor in characteristics like age, family size, education level and industry.

“We treat this issue as if you could sum it up in one number,” said Claudia Goldin, an economics professor at Harvard University. “It’s the deadline. Not really the full picture.

Are there jobs where women are better paid than men? Not according to a C. Nicole Mason, president of the Institute for Women’s Policy Research. When men enter female-dominated sectors like nursing or education, the job gets paying more, and the inverse is not true: “When women enter male-dominated spaces, they don’t get paid more than men.”

How long will it take to close the pay gap if we do nothing about it? Mark your calendars for 2059; if current trends continue, the gender wage gap is expected to close in a mere 38 years. For Black and Hispanic women, the deadline is a whole century away. If we do nothing, “my daughter’s daughter, will not see pay equity in their lives,” Dr. Mason said.

So what exactly explains the gap?

There are many factors at play, according to the American Association of University Women. One of them is that the fields in which women dominate tend to pay less than fields dominated by men. This is irrespective of education or skill required.

The “motherhood penalty” also complicates the wage gap. Moms are less likely
to be hired, they receive lower salaries when they are, and are less likely to be tapped on the shoulder for promotion. (Ironic given research suggests moms are some of the most productive employees.)

And women work around two-thirds of the low-paying jobs in the United States; jobs that are highly vitally important to the national economy at a disadvantage, but also tend to be more unstable.

There is also "invisible labor"—things like caring for the elderly or cleaning household chores—that women do in addition to their full-time work. "Women perform up to 30 percent more unpaid labor," Dr. Mason said. Not to point it out upon it, but "unpaid labor is unpaid." And it's very hard—if not impossible—to do both your job and take care of the household at the same time.

There's also good old-fashioned sexism at play; even when men and women are performing the exact same jobs, women tend to receive less compensation thanks to overt or unconscious biases, as well as stereotypes that make it more difficult for women to negotiate.

The pay gap is caused by a "layering effect" of all of these things, said Kimberly Churches, the CEO of the American Association of University Women. Ultimately, "this really is how women and how we value women of color in our society," she said.

Did Covid make it worse?

In a year of devastating job loss, especially for women—hence the talk of a "shecession"—the Institute for Women's Policy Research released a piece of research that seemed, on its face, like good news. In 2020, it found the weekly gender gap for full-time workers shrank to 17.7 percent from 18.5 percent. Seems positive, right? Not so fast.

As Ms. Goldin of Harvard explained, if the female labor force is reduced, but most of those reductions are from the bottom of the distribution (restaurant servers and retail workers, for instance), then women's wages relative to men's will rise.

This manifests as an overall rise in women's wages. And that's what happened here.

But underneath the top-line number, Dr. Mason pointed out, many, many lower-paid female workers are struggling.

What should companies do about it?

Closing the wage gap demands an investment in resources.

First, companies can audit workers' pay and collect data to determine the levels of disparity. It's not something you do once, and it doesn't happen. Second, companies need to make sure they pay people equally, Dr. Mason said.

And governments?

The Equality Pay Act, passed nearly 60 years ago, made it illegal to discriminate by sex in setting wages. But in practice, it can be hard for women to know whether they're actually being paid fairly. It's not uncommon to ask your colleagues what they make while they're chatting by the water cooler.

In the last decade, more than a dozen states and the District of Columbia have adopted legislation prohibiting pay secrecy in the workplace. Still, a 2017-18 survey found that nearly half of full-time workers were prohibited from asking about their pay, meaning more legislation and enforcement is needed.

Ms. Churches also supports passing the Paycheck Fairness Act at a federal level, "so we can ban the use of salary history questions in the hiring process." Such questions compound women's lack of earning power, going forward as they negotiate their salaries.

And individuals?

Ask your colleagues how much they make, as awkward as that may sound.

Negotiation is also key. Research shows that women who consistently negotiate their salaries make more than their male counterparts over the course of their lifetimes, compared with those who don't. But of course, Covid hasn't made negotiation easier. Ann Eliza-abeth Konkel of Indeed suggests women feel even more uncomfortable asking for a raise or promotion than they did pre-pandemic.

Mr. DeSAULNIER. Mr. Speaker, on the anniversary of Women's Equal Pay Day, U.S. women's soccer player Megan Rapinoe, in a congressional hearing said: "One cannot simply outperform inequality."

Wage discrimination isn't limited to any one sector or income level, and Congress must act.

Mr. Speaker, the importance of this issue is really about the proper enforcement of a bill that was first enacted in 1963. We generally agree on the importance of that legislation.

Where we disagree is enforcement.

And we have had years to see what the proper disincentives are and incentives for proper behavior when it comes to protecting women in the workforce, and on the second bill—predominantly women will work in vulnerable positions where they are subject to greater violence.

On pay equity, we look at States like California where I am from, and we can see that our laws, our aggressive laws have worked, at least to help with the pay equity situation. Who can deny, in our lifetimes, the benefit to the U.S. economy, to all of us, for having women in the workforce? We should be able to compensate that benefit that we have earned.

As a survivor of cancer, I have been taken by how many young women went into the medical profession, and they helped to develop the medicine that has saved my life, a disease that, 15 years ago, at stage IV, when I was diagnosed, there was little that could be done to extend people's lives. That research came from brilliant people, many of them women. Why would I want to inhibit or disincentivize any young person, any woman, any young woman to get into that field?

I know that my friend from Texas knows this, we want the best and the brightest to help with our medical challenges, irrespective of what their background is or what their sex is.

Mr. Speaker, every day we wait to pass these bills, healthcare workers are being harmed and families are going deeper and deeper into poverty. Our inequality issues get worse, not better. We should not waste another moment.

Mr. Speaker, I urge a "yes" vote on the rule and the previous question.

The material previously referred to by Mr. BURGESS is as follows:

At the end of the resolution, add the following:

SNC. 8. Immediately upon adoption of this resolution, the House shall proceed to the consideration in the House of the bill (H.R. 2430) to amend the Temporary Reauthorization and Study of the Emergency Scheduling of Fentanyl Analogues Act to extend for one year the temporary order for fentanyl-related substances. All points of order against the bill are waived. The previous question shall be considered as ordered on the bill and on any amendment thereto to final passage without intervening motion except for one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Energy & Commerce, and (2) one motion to recommit.

SNC. 9. Clause 1(c) of rule XIX shall not apply to the consideration of H.R. 2430.

Mr. DE SAULNIER. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

Along with Congresswoman Carrie Meek and Corrine Brown, Alcee Hastings was the first African American from Florida to serve in Congress after more than 100 years.

Alcee Hastings dedicated his life to serving others and to fighting for human rights. You know, Alcee lived by Dr. Martin Luther King’s phrase, “An injustice anywhere is an affront to justice everywhere.”

Alcee Hastings’ brilliance, his perseverance, and his charisma, along with his ceaseless fight for human rights, built a lasting and meaningful legacy. And even through that last battle of his, the one that ultimately took his life, he continued to serve with passion, with great heart, and always with that special spark that he had, that smile of his that he always had.

We are truly heartbroken by his passing, and we offer our deepest condolences and prayers to his family and all of those who knew and loved him.

Florida and Congress really lost a trailblazer.

Madam Speaker, I would also like to thank one very special person, Lloyd Morrison. Alcee’s long-time chief of staff, for her service to the people of Florida and equally as important, her dedication and her friendship to Alcee Hastings.

Madam Speaker, I yield to the gentlewoman from Florida (Ms. CASTOR). Ms. CASTOR of Florida. Madam Speaker, I thank my good friend from Florida for yielding. It is with great sadness that I rise on behalf of the Florida delegation, and you can see we have many new Floridians in our delegation today because we had such great love, respect, and admiration for our colleague Congresswoman Alcee Hastings.

Congresswoman Hastings was a towering figure who always stood up for the little guy. He fought for civil rights. He fought for voting rights. He fought for affordable healthcare. He was tireless.

Now, Alcee did not suffer fools or malarky, and he was unafraid to point it out. And he did so with relish. And let that be a great example to all of us who have this tremendous responsibility to stand up every day for the people who send us here, especially the voiceless and the vulnerable.

But Alcee served with great intellect, with passion, with fire. He loved the House of Representatives. He loved the State of Florida. It loved to be better, and he worked on that every single day. But I think we are all better for his service and his example.

Madam Speaker, I think Alcee would have appreciated the fact that you are in bright orange today, the color of his beloved Florida A&M University. Go Rattlers.

On behalf of the great State of Florida, we also send our love, prayers, and condolences to Lale, his chief of staff, serving our team, his family, his devoted friends, and I would respectfully ask that we recognize his life with a moment of silence, but ask and invite you

VIOLENCE AGAINST ASIAN AMERICANS
Mr. SCHUMER. Mr. President, we live in partisan times, but there are moments when we can break through the typical divisions and work together on matters of real urgency. The anti-Asian hate crimes legislation this week is such a matter. It is a very straightforward and relatively modest bill to address a pressing and important issue in the country. It would designate a point person at the Justice Department to identify hate crimes towards Asian Americans related to COVID-19—telling Federal law enforcement to make these hate crimes a top priority during the pandemic.

Just as important, it would send a strong message to two groups: to the Asian-American community that the country is paying attention to them and to all of America that this kind of bigotry cannot be tolerated.

I was gratified to hear the Republican leader yesterday say that the Senate Republican conference wanted to move forward on the bill.

This bill was never intended to be some kind of “gotcha” legislation. It is led by Senators HIRONO and DUCKWORTH, two outstanding Asian-American Senators who rightfully want to respond to the rising tide of anti-Asian violence over the past year. When they asked me to move the bill quickly, I thought that was exactly the right thing to do, and here it is on the floor.

The fact that Leader MCCONNELL said yesterday he believes discrimination against Asian Americans is a real problem and wants to move forward and be constructive is a very good thing, and I salute him for it. The entire Senate ought to stand up against the recent surge of anti-Asian violence. We can take the first step later today by voting to proceed to the legislation.

As I said yesterday, my intention is to have a bipartisan amendment process, beginning with the amendment offered by Senators MORAN and BLUMENTHAL—one a Republican and one a Democrat. In consultation with the Republican leader, we can work out an agreement on other germane, non-“gotcha” amendments to the bill if Senators have them. We should be able and should really try in earnest to reach a final resolution and pass the bill through the Senate very, very soon.

WATER INFRASTRUCTURE
Mr. SCHUMER. Mr. President, taking a step back for a moment, this is how the process should work in a closely divided Senate. If the Republican minority allows the Senate to move forward with a bill where we have shared priorities, the Democratic majority will work to set up a process for the Senate to consider germane amendments from both sides.

That is the essence of the organizing resolution we all agreed to earlier this year, and hopefully it is a process we can repeat. In fact, we will test that proposition on the very next piece of legislation. If we are able to finish the anti-Asian hate crimes bill in a timely manner, I will move next to consider a bipartisan water infrastructure bill.

The bill, the Drinking Water Infrastructure Act, was advanced by the Environment and Public Works Committee on a unanimous—unanimous—vote. It will authorize tens of billions of dollars to make sure American families, especially low-income families, have access to safe and clean drinking water. I salute Senator CARPER, the chair of the committee, for coming together on bipartisan water infrastructure bill.

Next week.
how we can cement our economic recovery and create the jobs of the future. President Biden’s Build Back Better agenda—a big, bold investment in infrastructure and jobs—is extremely important to that effort. It has wide support among Democrats and the support of many American people. Many, many Republicans out there in the country support this bill and this concept. The water infrastructure bill is a small but important part of that overall effort.

We have some Republican colleagues join us in advancing these proposals to repair and reimagine our Nation’s infrastructure for a new century. Just like the anti-Asian hate crimes bill, if Republicans let us get on the bill, we can work out a process to have bipartisan debate and amendments, but if the Republican minority prevents the Senate from even debating some of these commonsense proposals, we will have to try to move forward without them.

AFGHANISTAN

Mr. SCHUMER. Mr. President, yesterday President Biden announced that American forces will come home from Afghanistan by September 11, 2021. It has been 20 years since that fateful day when the Towers fell and the Pentagon was hit. We in New York live particularly hard with that. I still think of the people who perished; a guy I played basketball with in high school; a businessman who helped me on the way up; a brave firefighter who used to go around the city urging people to donate blood together. But in that time since then, America’s Armed Forces, thank God, have become extremely successful in deterring and rooting out terrorist networks around the globe.

President Obama authorized the mission that took out Osama bin Laden, the architect of the 9/11 attacks. Our intelligence agencies have assessed that al-Qaida and other terrorist groups do not pose an immediate threat to strike the United States from Afghanistan because of the brave work of our Armed Forces and intelligence organizations. So after sinking two decades of blood and treasure into wars in the Middle East, it is time to bring our troops home. America does not need to fight forever wars.

I applaud President Biden’s decision. Unlike President Trump, President Biden and Secretary Austin have developed a careful and thought-out plan. This isn’t President Trump waking up one morning and announcing a random new policy on Twitter while our generals scrambled to catch up. This will be a careful and thought-out plan with a real timetable and a firm end date.

Whenever we talk about American troops in the Middle East, one of the concerns is missions creep and the enormous pressure to kick the can down the road and delay final decisions. We should and must stick to the date the President has proposed as the last day our troops will be there. I have been assured by the White House that the September 11 date will stick and that President Biden will not kick the can down the road.

I know many Senators have questions, and I am happy to let my colleagues know that the administration has agreed to brief all Senators on this important decision. The briefing will take place soon. It will be in the SCIF, and everyone’s questions can be asked and answered. The President himself will address us later today and explain the reasons for his decision.

In my view, President Biden’s plan to bring American troops home from Afghanistan is a very wise one.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNITION OF THE MINORITY LEADER

The PRESIDING OFFICER. The Republican leader is recognized.

AFGHANISTAN

Mr. MCCONNELL. Mr. President, "Biden takes the easy way out of Afghanistan. The likely result is disaster." This is the morning’s lead editorial from one of the Nation’s most liberal newspapers.

The administration has decided to abandon U.S. efforts in Afghanistan, which have helped keep radical Islamic terrorism in check, and bizarrely, they decided to do so by September 11. Apparently, we need to help our adversaries ring in the anniversary of the 9/11 attacks by giftwrapping the country and handing it right back to them. Here is what this administration’s own national intelligence threat assessment says will happen:

The Taliban is likely to make gains on the battlefield, and the Afghan government will struggle to hold the Taliban at bay if the coalition withdraws support.

This is a quote from this administration.

In 2019, the Democratic leader and the now chairman of the Foreign Relations Committee expressed outrage that the previous administration considered hosting Taliban officials for discussions around the date of September 11.

But now a Democratic administration is going to skip the negotiations and just surrender an entire country back to the Taliban on the very same date? Our President should remember what happened when the Obama administration let political considerations rush a retreat from Iraq—total chaos and bloodshed and ISIS. Two years ago, I wrote a bipartisan amendment that warned a Republican administration against recklessly withdrawing from Afghanistan or Syria. A supermajority of Senators right here voted for it. A supermajority of Democrats voted for it, warning that the terrorist threat had not abated. Where are the Democratic voices today? I hope we will hear from some of them.

Unfortunately, this mistake in Afghanistan is one of several instances of this new administration’s surrendering leverage without making America, our allies, or our interests more secure.

In January, President Biden extended the New START agreement with Russia by Executive order for 5 years—no strings attached, no concessions secured, not even a shorter term extension to keep up pressure on Russia to cooperate on a better agreement. Just a gift.

And then there is Iran. Senior administration officials have gone from denigrating the former administration’s “maximum pressure” strategy to simply begging for direct talks with Iran, to tactically offering to remove sanctions that are “inconsistent with the JCPOA.” So which sanctions exactly are inconsistent with the JCPOA? Our sanctions on Iran’s terrorist organizations or its ballistic missile program? The Republicans would be the first to say if President Biden could actually secure a better deal that holds Iran accountable. Giving up the leverage of sanctions before we even get to the table—before we even get to the table—or just return to a bad deal is certainly not a good sign.

It would be hard to support any deal that isn’t part of a broader strategy that also confronts the nonnuclear threats Iran poses to America and to the region.

On China, the administration’s tough talk has been welcome, but its proposal to cut defense spending after inflation suggests there is less interest in walking the walk. We need to pace with China and Russia by cutting defense spending to placate fringe parts of the far left.

The American people need and they deserve a foreign policy that puts our security, our partners, and our interests ahead of the reflexive desire to break with the last 4 years at any cost—at any cost.

If this administration wants a successful legacy on the world stage, if they want accomplishments that will endure, they need to put American strength back at the center and come back to a bipartisan mainstream.

THE FOR THE PEOPLE ACT

Mr. MCCONNELL. Now, Mr. President, on a completely different matter, we know Democrats are desperate to create a national controversy over voting regulations, but the facts and the truth keep getting in the way.

For more than a year, we have seen a coordinated campaign to call any
American institution that occasionally frustrates liberal activists an evil relic of Jim Crow. Let me say that again. For more than a year, we have seen a coordinated campaign to call any American institution that occasionally frustrates liberal activists an evil relic of Jim Crow.

When these talking points came into circulation last summer, their focus was the legislative filibuster here in the Senate, except it was Senate Democracts who had just used the legislative filibuster to kill Senator Tim Scott’s police reform, body camera, and anti-lynching legislation.

Two days ago, our colleague the assistant Democratic leader suggested he now opposes the filibuster because it was used back in the 1920s to block an anti-lynching bill. To be clear, our colleague from Illinois was a loud and proud defender of the current Senate rules and procedures. He is not about the 1920s. It is not about the 1920s. It is about Democrats wanting different sets of rules, depending on whether or not they happen to be in the majority.

Our agenda didn’t need to go back nine decades to find instances of Democrats’ filibustering a Republican anti-lynching bill. He only needed to go back 9 months. He didn’t have to go back to the 1920s but just go back 9 months to find an example of Democrats filibustering an anti-lynching bill.

Last summer, 44 Senate Democrats locked arms and filibusted Tim Scott’s police reform, body camera, and anti-lynching legislation because it was not far left enough or anti-police enough. That is the irony here. If any recent Senate filibusters have been reminiscent of the 1920s, it was when Democrats used the procedural filibuster to block a Republican anti-lynching bill just last summer.

Here is the truth. Our colleagues can’t defend any of the details of their radical policies. So they want to change the subject—change the subject—change the subject

Look at voting regulations. The recent bill passed in the State of Georgia mandates more days of early voting than plenty of Democratic-run States allow. It continues no-excuse absentee voting, which some Blue States do not allow. There is no factual standard by which its overall approach is radically more restrictive than the rules in place in many other States, Blue or Red.

The Post has given the White House its worst rating, four—four Pinocchios—for repeated lies about Georgia and the election law. But the President and his staff just keep on doubting down.

One of our colleagues who represents Georgia put his name to a public statement—to a public statement—with inaccurate information about the bill.

In the Rules Committee, the Democratic leader shouted angry attacks at things the Georgia law simply doesn’t do.

Why the fake narratives? Why the falsehoods? We all know why. For more than 2 years, Washington Democrats have been desperate to pass a sweeping partisan takeover of our democracy. It is packed—packed—with shameless provisions that have nothing to do with ballot access.

They want to take the bipartisan Federal Election Commission, make it a partisan body, and give Democrats the majority. They want to send taxpayers’ money to political campaigns. They want to expand Washington’s policing of Americans’ speech. They want to neuter voter ID and mandate ballot harvesting in all 50 States. Strangely enough, for multiple years now, this exact same power grab has been their answer to every changing circumstance. When they didn’t like the outcome of the 2016 election, Democrats said our democracy was broken and only this takeover could fix it. Then, in 2020, they got the result they liked. Suddenly, this same bill became the way to simply preserve a system that functioned well.

There seems to be no situation where this attempted power grab is not the Democrats’ answer. I think we can learn tomorrow that an asteroid was hurtling toward Earth, and Democrats would say our only hope was to pass H.R.1.

This isn’t about responding to recent State laws. It is not about justice or equity. Washington Democrats want to rewrite all 50 States’ election laws. They want to take over the Federal Election Commission. They have been trying out different justifications for multiple years straight to get what they want.

Any Federal law addressing the ground rules of our democracy has a special obligation to be sober, to be factual, and to be bipartisan. The Senate has done just that in the past. We have passed reasonable laws by huge, bipartisan margins making it easier to vote but harder to cheat.

So ask yourself: Why won’t Democrats tell us the truth and facts? Why do they keep using the same smears to distract from their policies? Why are they hell-bent on a bill that passed the House with purely partisan support but bipartisan opposition? Talk about tipping your hand.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

The PRESIDING OFFICER. Under the previous order, the Senate will proceed to executive session to resume consideration of the following nomination, which the clerk will report.

The senior assistant legislative clerk read the nomination of Gary Gensler, of Maryland, to be a Member of the Securities and Exchange Commission for the remainder of the term expiring June 5, 2021.

The PRESIDING OFFICER. The Senator from Kansas.

MADAM SPEAKER

Mr. MARSHALL. Mr. President, today I am honored to stand on this hallowed Senate floor and share my gratitude for and the priorities of the people of Kansas.

I want to start by thanking the people of Kansas who believed in me and sent me here to represent them. It is an honor of a lifetime to follow in the steps of heroic Kansans who preceded me in this legislative body. That includes my late father, JERRY MORAN, as well as legends of this Chamber, my mentors Bob Dole and Pat Roberts.

Before I continue, I want to say a special word of gratitude to my family for all of their support. I would not be here today without the support of my wife of 37 years now, Lainia, our four children and their spouses, our three grandchildren, as well as my parents, brother, sister, and extended family, who in so many ways have contributed to our campaigns and the work we have done in Congress. I am grateful for their understanding, their unwavering support, and sacrifice of privacy and family time, but, mostly, I am grateful for the values they passed on to me.

I am grateful for the many teachers, coaches, pastors, and personal friends who inspired me and gave me a solid foundation of values that have seen us through tough times. These values provided the foundation for me, a fifth-generation farm kid, to become a first-generation college student and live my American dream as a physician in rural America.

And these values have become pillars, the sturdiest of which in my life are faith, family, community, education, and hard work—a faith that you live in your heart, not wear on your shirt sleeves; a family that loves and stands beside you no matter what; a community where everyone looks out for each other; an education that is the great equalizer, leveling the playing field for all; and, finally, a belief in hard work that paves the way to achieve your American dream.

As I traveled Kansas this past year, I carried these pillars with me while I heard from people all over the State, and they gave me three very clear priorities: No. 1, provide for their safety, health, and security; No. 2, to bring back our jobs and economy; and, No. 3, to protect our values and our God-given, inalienable rights.

I am here in the Senate to do just that, to fight for the people of Kansas,
for all Americans. But more than any other else, I am here to fight for our children and grandchildren. And like another great Kansan, the 34th President of the United States, Dwight David Eisenhower, the decisions I make will be most guided by the impact they will have on future generations, not by tonight’s news or the simultaneous tweet that goes out as I raise my thumb up or down. History will be the judge of my decisions, not social media.

The 1st Infantry Division of the U.S. Army, the Big Red One, housed in my home State of Kansas is “No Mission Too Difficult. No Sacrifice Too Great. Duty First!”

It is with this fighting attitude I intend to fully fund our military; secure our borders; as the son and brother of veterans, and as a veteran myself, honor our commitment to those who protected our freedoms and values; and as the son of a police chief, fully support our law enforcement.

I am so grateful for all law enforcement officers, including those here at the U.S. Capitol. They put their lives on the line every day, and we join the entire country in honoring those heroic officers who have made the ultimate sacrifice keeping us safe.

While we too often hear calls to defund the police and weaken our military, we are still a nation of law and order, and we must advance President Reagan’s philosophy of peace through strength.

Pre-COVID, we had the strongest economy in my lifetime, thanks to Republican policies put into place over the last 4 years. Lower taxes and deregulation resulted in historically low unemployment rates, as well as American energy independence and affordable energy costs. With agriculture being responsible for 40 percent of the Kansas economy, these policies, along with strong trade agreements, provided the tools necessary to ensure our farmers, ranchers, and producers remain profitable and our rural communities prosperous.

But here is what concerns me today. Like my grandma often told me at the family supper table, there are three things you can count on from the current majority party: They will spend as much of your money as a means to have job growth and help our economy recover will be what I work for each day.

Lastly and most importantly, as this is what is keeping me up late at night, I was sent here to protect the Kansas values I was raised on. These values are still held by the majority of Americans, and many of us are tired of being canceled, censored, and lectured to.

I acknowledge we all need to wake up sometimes—woke up for church on Sundays, woke as a child to help milk the cows on my grandparents’ farm—but we certainly don’t need the woke mob to shake us out of bed every day. Like all nations of people, we make up plenty of mistakes and we have room to grow, but we Kansans are still proud of our American history. Rather than cancel it, we should embrace it. America has accomplished incredible things in the past, and our future is bright. We should be proud of our history, hang onto it, and learn from it.

God has given our Nation enormous bounty and blessings to help feed the world, maintain peace, and protect human rights. America has been called upon to be the salt of the Earth and remain a bright, burning candle, not hidden under a bushel.

I believe our country will not fall from anarchy in the quality, I will it succumb to economic failure created from foreign lands. Our greatest risk of failure comes from falling under our own weight if we continue to ignore the self-evident values our forefathers taught us.

Indeed, if we continue paying too much attention to silly hyperbole, social media hype, and political correctness, this Nation will struggle and not be the leader of the free world we were intended to be.

Before I leave the subject of values, I want to share how important and personal the sanctity of life is to me. I had the honor, as an obstetrician, to deliver over 5,000 babies, and I promise I will work as hard in this Chamber to protect the lives of the unborn and our children as I did in the delivery room all those years. I will always lead on this issue and protect our values.

Leadership is the quality I most remember my dad looking for and praising in others, and I have always tried to study and emulate great leaders. To this end, as I sometimes wander the Capitol looking for solitude and inspiration, I am struck by one of my favorite paintings hanging in the Capitol Rotunda.

In this portrait, the artist depicts General George Washington, shortly after the Revolutionary War, surrendering his commission as an officer. And behind Washington, resting on an otherwise empty King’s throne, are the robes of a King, the robes he declined.

The leadership lesson is that great leaders seize more power when they see the opportunity. Three months into this 117th Congress, it appears that the power grab General Washington declined is now the majority’s primary modus operandi. We have seen and rejected Executive orders, the first partisan COVID relief bill, steps to grant DC statehood to tip the scales of power, an attempt to federalize elections and destroy election integrity with H.R. 1, and now a commission to study expanding the Supreme Court.

Like Dorothy in the Wizard of Oz watching the grains of sand dropping through the hourglass, additional partisan priorities remain on standby while the timing of dropping the ultimate power grab—the elimination of the filibuster—is carefully weighed.

The filibuster is meant to force both parties to work together to come up with long-lasting policies which help Americans. Without it, we will see tax laws and many other policies go up and down like a roller coaster, creating uncertainty and making it impossible for long-term planning.

We are witnessing what may be the most blatantly hypocritical policy switch we have ever seen, as most all Senators and the President have been in record previously in support of the filibuster. This flip-flop appears to be all in the name of greed and power.

While I come to the Senate intent on fighting against efforts to weaken our security, harm our economy, and diminish our American values, I also want to discuss what I am for.

My favorite memories of growing up were spent in the great outdoors with the people I love the most: my friends and family. Make no mistake, I will do whatever it takes in my job to make this world cleaner, safer, and healthier than I found it, and this can be accomplished while at the same time maintaining affordable energy.

Whether it is environmental policy or economic policy, we need to level the playing field, both at home and abroad. We must prioritize jobs for Americans, secure our supply chains, and continue to develop fair and reciprocal agreements to increase economic growth and provide the cost of quality healthcare for all Americans. We must stop intellectual property theft, along with economic coercion, forced technology transfer, and cyber espionage.

We must stop the flow of counterfeit products and illicit drugs from entering our Nation. In addition, we must stop all censorship, especially the censorship of conservative thought that is under attack.

For our grandchildren’s sake, we must modernize our policies surrounding Big Tech and social media before they engulf our society.

So this Nation, still very young in the scheme of world history, we have our challenges, but as long as we stay true to our American values, we will get more right than we get wrong. But we have to learn to forgive our pasts and forgive each other. We must stop the Evergreen Canopy break, one of my sons told me something that made my heart go pitter-patter. He said:

"Dad, capitalism keeps America at the tip of the spear. Capitalism keeps America at the tip of the spear. You know, he was spot on. American innovation, our pioneer spirit, and hard work will always lead the way and bring victory over totalitarianism and singular thought and rule."

Each and every American youth and young adult has their own story to write, and my job here is to ensure every one of them has their shot at happiness and
their shot at their American dream. While we cannot guarantee happiness for any of them, those of us in this Chamber can pave the way with an abundance of opportunity.

As the dreams and stories of so many Americans are woven, this American portrait—this tapestry of blues and grays, of pastels and earth tones—will keep this Republic in good shape. It is our diversity that makes us great. As long as we pass on our American values that have seen this Nation through so many dark nights, we will succeed through current and future trials and conflicts.

May God bless this great Republic. I yield the floor.

The PRESIDING OFFICER, The Republican whip.

BORDER SECURITY

Mr. THUNE. Mr. President, shortly before Easter, I joined a number of my colleagues on a visit to the border to get a first-hand look at the crisis that we are facing. As the world watches, we are seeing at the border a humanitarian crisis of death or injury or exploitation or the greatest risk of having their communities disrupted by border-related criminal activity, but the effects of drug trafficking and other criminal activity across our southern border are felt throughout our entire country.

President Biden helped cause this crisis. There are no ifs, ands, or buts about it. And he could start ending this crisis today by making it clear that his administration will enforce immigration laws and that the way to come to this country is to come legally. He could also help by recommitting our country to serious border security along our southern border, including construction, continued construction of the border wall.

For the sake of the unaccompanied children and all those trying to cross our borders and for the sake of the Americans who have been endangered by his policies, I hope—I hope that President Biden will take action. I yield the floor.

CONGRESSIONAL RECORD—SENATE

While many of those trying to cross our borders illegally are simply looking for a better life, which is not an excuse for going outside our established legal pathways, there are also a lot of dangerous people—dangerous people attempting illegal border crossings: drug traffickers, weapons traffickers, human traffickers, gang members. And when Border Patrol agents have been pulled off the border to help manage the immigration influx, it is not going to be too surprising if we discover that some of these dangerous individuals have made their way into our country. And that represents a real danger to Americans.

Americans living in towns and cities along our southern border are at the greatest risk of having their communities disrupted by border-related criminal activity, but the effects of drug trafficking and other criminal activity across our southern border are felt throughout our entire country.

The President’s Department of Homeland Security also issued guidelines that same day suspending deportations, except under certain conditions. The effect of President Biden’s actions was to declare the national emergency at our southern border—having very serious effects. Border Patrol agents have been pulled off the border to manage the immigration influx, it is not going to be too surprising if we discover that some of these dangerous individuals have made their way into our country. And that represents a real danger to Americans.

While the administration would like to present themselves as the compassionate alternative to the Trump administration, there is little deterrent or fear of punishment for those who seek to enter the country illegally, knowing that they can claim asylum and join the backlog of roughly 1.3 million cases that can claim asylum and join the backlog of roughly 1.3 million cases.
The nomination was confirmed.

The PRESIDING OFFICER. The Senator from Delaware.

NOMINATION OF BRENDA MALLORY

Mr. CARPER. Mr. President, the Senate has now invoked cloture on the nomination of Brenda Mallory, President Biden’s nominee to serve as the Chair of the White House Council on Environmental Quality. First, let me just say thank you. I want to express my thanks to—and I am sure, on behalf of Brenda Mallory—53 Senators who voted in favor of cloture so that we can move forward and now debate her nomination. We thank each Senator who supported, in confirmation, a highly, highly qualified nominee. Brenda Mallory, for her role as Chair at the Council on Environmental Quality during the administration of both Richard Nixon and Gerald Ford.

But it is a hugely important one. And I would add “and woman.” NEPA enshrines democracy by giving the American people a voice to help decide the fate of Federal decisions. For 50 years, NEPA has sought environmental protection, public health, and the notion that the American people should have a say in the Federal decision-making process that affects their lives.

Like our Constitution, NEPA is one of our Nation’s most enduring and replicated laws. The same principles of democracy and citizen participation enshrined in our Constitution are also enshrined in NEPA.

One of my mentors was a Republican named Russ Peterson, a great leader of the DuPont company for many years. Governor of Delaware, and later served as Chair of the White House Council on Environmental Quality during the administrations of both Richard Nixon and Gerald Ford.

Governor Peterson used to refer to his role as Chair at the Council on Environmental Quality as similar to that of an orchestra leader, an orchestra conductor. He said, you do not play the instruments as the Chair of the CEQ, but you try hard to ensure that everyone in the orchestra is playing in harmony. The CEQ Chair coordinates action across the entire government in order to ensure that Federal Agencies are working in harmony and that every Federal decision advances the objectives of economic growth, of better public health, and of stronger environmental quality.

While CEQ Chairs do work much like an orchestra leader, a conductor, to achieve harmony across Federal Agencies, they must also pursue balance. That balance includes at least three components: one, growing our economy; two, ensuring a just and healthy society; and, three, protecting our environment for current and future generations. Those are the clear objectives of CEQ as laid out in the National Environmental Policy Act of 1969, known as NEPA, the landmark law that created CEQ, often referred to as “the Magna Carta of environmental laws.”

According to its six pages of statute, NEPA’s purpose includes—and I am going to quote—“efforts which will prevent or eliminate damage to the environment and biosphere and stimulate the health and welfare of man.” I would add “and woman.” NEPA enshrines democracy by giving the American people a voice to help decide the fate of Federal decisions. For 50 years, NEPA has sought environmental protection, public health, and the notion that the American people should have a say in the Federal decision-making process that affects their lives.

Like our Constitution, NEPA is one of our Nation’s most enduring and replicated laws. The same principles of democracy and citizen participation enshrined in our Constitution are also enshrined in NEPA.

Sadly, the Trump administration’s CEQ largely walked away from the tenants of this 50-year-old law, issuing drastic rollbacks that undermine much of its very mission. Instead of advancing the CEQ’s three objectives—one, a more productive economy; two, a healthier society; and three, a cleaner environment—the previous administration sadly repeatedly compromised public health and environmental quality for the sake of less redtape.

So one of the many tasks ahead for the next CEQ Chair will be to get us back on track—to harmonize our efforts to address the climate crisis, safeguard public health, and ensure that
we are treating others the way we want to be treated. If that sounds familiar, it should because that is the Golden Rule, which is found in every major religion on this planet.

There are few people as well qualified to take on this challenge as Brenda Mallory. I believe that she is the kind of experienced, dedicated public servant that we need to lead CEQ at this critical time, not just for the Agency but for our Nation.

Ms. Mallory is a deeply committed public servant with extensive experience under both Democratic and Republican administrations. No stranger to CEQ, Ms. Mallory served there for a number of years after an impressive tenure of more than a decade at EPA, including under President George W. Bush. She has earned respect from both sides of the aisle, and, as the former General Counsel for CEQ, she already knows the ins and outs of the agency.

Her experience and her reputation as a collaborative, pragmatic leader help to explain why she has garnered broad bipartisan support among environmental leaders who have served before her: living up to the leadership that Republican CEQ and EPA appointees, including a former CEQ Chair, and 4 different Republican EPA Administrators have publicly praised Ms. Mallory and urged her confirmation. Now, that doesn’t happen every day, as the Presiding Officer knows. But among those former Republican EPA Administrators who have urged her confirmation are these: Bill Reilly, Christine Todd Whitman, Michael Leavitt, Stephen Johnson, and James Connaughton.

Ms. Mallory has also earned the support of the U.S. Chamber of Commerce. I will say that again. Ms. Mallory also earned the support of the U.S. Chamber of Commerce—and a whole bushel of environmental groups across this land. She has represented business interests in the past as an attorney in private practice, so she understands the importance of timely and well-coordinated reviews of major regulations. She knows that the reviews can be crucial for getting investments in telecommunications and in infrastructure off the ground.

Ms. Mallory’s expertise will be critical to the task that lies ahead. In addition to restoring balance at CEQ and its mission, the next Chair at CEQ will address a number of pressing crises facing our Nation today. Let me mention some of them. They include the ongoing climate crisis, the global pandemic, and the includes the worst economy since the Great Depression, as well as the enduring problem and challenge of racial injustice. All three—all three of these crises are compounded by a fourth, and that is the current economic crisis.

We have no time to waste. We must tackle the climate crisis with conviction and with urgency. My home State of Delaware, which I am privileged to represent, certainly cannot wait any longer. We happen to be the lowest lying State in America. Our State is sinking, and the seas around us are rising.

This is felt by other States across the country too. Climate change is an issue that hits red States and blue States alike. Our colleagues John Neely Kennedy and Bill Cassidy, from Louisiana, tell me that Louisiana loses—get this—a football field of wetlands to rising sea levels every 100 minutes. Let me mention that again. Louisiana loses a football field of wetlands to rising sea levels every 100 minutes. In another part of the country, the costs of productivity lost last year, hurricane-force winds flattened over half—over half of the corn and soybean crop in Iowa, literally in the span of about a week, maybe even in a span of about a day.

Out on the west coast, wildfires raged across California as big as the size of Rhode Island, while floods in Florida damaged homes, and roads and deadly ice storms a month or two ago left millions in Texas stranded without power or water.

Natural disasters and extreme weather don’t discriminate; they impact all of us. Brenda Mallory knows this. She understands the gravity of the situation and the immense challenge she has ahead of her, should she be confirmed. I know she is ready to seize the opportunity ahead of her in this role.

She also knows that the laws we write and the decisions we make can affect who faces the brunt of the consequences. For too long, communities of color have disproportionately suffered from our environmental policies. From chemical contaminants in drinking water to toxic air pollution from our roads and our factories, our most marginalized citizens are too often exposed to environmental public health risks and left behind by our investments and policies.

We must work to improve environmental outcomes for all Americans—all Americans. Brenda Mallory at the helm of CEQ can play the leadership role that is needed in addressing environmental justice and meeting the tremendous challenge of a way that will lift up all communities and achieve a brighter, more equitable future for each one of them.

As we address the crises we face, we have an opportunity to improve people’s lives today and for future generations. To do that, we need principled, enlightened leaders. We need leaders who are humble, not haughty; leaders who have the heart of a servant and understand the unselfish service leader who brings people together to form a team that can rise above the divisions and unite, not divide; leaders who build bridges, not walls.

I am confident that Brenda Mallory is just that kind of leader. She will recognize the honor and humility to her role just as she has done in her decades of service to this country. As Chair of the Council on Environmental Quality, she will be a leader who brings people together to form lasting solutions to the challenges that we face today.

With that in mind, I strongly urge each of our colleagues to join me in supporting her confirmation. I thank again those who voted for cloture a few minutes ago.

I yield the floor.

The PRESIDING OFFICER. The Senator from Tennessee.

Mrs. BLACKBURN. Mr. President, it has been just over 2 months since we transferred majority rule to President Biden and the Democrats, and they have made it very clear that not even their most radical policy proposals are up for debate. They want to push things through. In fact, based on what we have seen, I am willing to go on the record as saying that they see any possibility of defeat as an impermissible challenge to their hold on power, and they have got quite a long enemies’ list.

You will recall that, back in 2016, after Donald Trump won the election, liberal activists blamed the electoral college for their many campaign failures.

In 2020, even as the count came down in their favor, the attacks continued. Faced with the possibility of constitutional, conservative judicial nominees, the Supreme Court also became a scorned, or right-wing, Wake of the 2020 election, activists were quick to demand that their new majority break the structure of the Court and transform it into a rubber stamp for radical policies that don’t stand a chance of surviving this Chamber under regular order.

Just this year, when faced with a much slimmer majority than, I am sure, they expected, many of my Democratic colleagues reversed their positions on the filibuster. Suddenly, the procedural backstop so many of them had once vowed to protect—this was an important check against the tyranny of the majority—was, all of a sudden, nothing more than a racist relic of Jim Crow America. So we are left to assume, I suppose, that tyranny started to look pretty good in the face of such a slim majority.

Yet the filibuster isn’t the only Senate institution that came under fire. Debate over a Federal minimum wage increase grew so unhinged that many Democrats suggested firing the Parliamentarian and replacing her with someone who was willing to deploy his own rubberstamp. Just this year, when faced with a procedural backstop so many of them had once vowed to protect—this was an important check against the tyranny of the majority—was, all of a sudden, nothing more than a racist relic of Jim Crow America. So we are left to assume, I suppose, that tyranny started to look pretty good in the face of such a slim majority.

So we are left to assume, I suppose, that tyranny started to look pretty good in the face of such a slim majority.

If you don’t like the score, fire the scorekeeper. If you don’t like the standard, wipe it off the books. If you don’t like the institution, just burn it to the ground.

It is a familiar curriculum now reflected in the Democrats’ latest effort to demolish and rebuild the country in their own radical image. They call it the For the People Act, but the basic premise of S. 1 is that, in order to secure our elections, we have no choice.
but to take electoral power away from the people and put it in the hands of politicians and bureaucrats. It is a top-down approach that, if implemented, would centralize control over elections in direct contravention to the Constitution, and includes barriers to voter fraud that can enable radical activists to harass and intimidate their political opponents. It is the sort of power grab you would expect a cartoon villain to conduct, but here we are, debating this in the U.S. Senate.

When we dive into the specifics, it really gets worse. Here are some things that it would do.

The bill would, indeed, ban voter ID requirements and force States to allow ballot harvesting schemes.

The Federal Election Commission, which for the moment is a balanced, bipartisan Agency, would morph into a partisan, prosecutorial body, ready to be weaponized against the political minority.

Instead of living or dying by the support of loyal donors, under this new scheme, political campaigns would receive public money payouts, which they could then use to promote whatever message they pleased no matter how inadmissible it might be to the taxpayers, who would be funding these campaigns.

Speaking of those donors, if you have ever wondered who was behind a particular campaign, this bill has you covered. It includes new restrictions on political speech in the form of a donor disclosure mandate. Say goodbye to anonymous political activity in the tradition of the Federalist Papers and the civil rights movement. This is cancel culture on steroids, and if the Democrats have their way, this is what is coming to a precinct near you.

Of course, the centralization of power on this scale will require a laundry list of regulations, and on that front, S. 1 does not disappoint. The requirements shoveled onto local and State officials are so burdensome and impractical that I refuse to believe anyone involved in the drafting has ever staffed a polling place. Certainly, they have never served as volunteers on a county election commission. That is something I had the honor of doing a couple of decades ago.

If they get their way, the same automatic registration procedures that failed voters in California and in Illinois are coming to a county elections office in your neighborhood.

Felons will regain their right to vote in Federal elections, but no one seems willing to explain how they expect State officials to prevent them from voting in down-ballot races.

Elections officials will have the pleasure of purchasing new paper-backed voting machines just as soon as those machines come into existence. That is right. This bill mandates the use of technology that hasn’t hit the marketplace.

Speaking of theoretical technology, for some reason, the drafters of this bill also thought it would be a good idea to force States to invent new technology to support automated voter registration by phone.

Elections are not easy events to stand up. County officials and volunteers work tirelessly to ensure that polling places are staffed and safe, that machines are functional, and that volunteers are well trained to recognize illegal electioneering and fraud. Over the years, State and local authorities have found solutions to these challenges. When those solutions fail, we have the ability to implement Federal backstops against voter suppression and election mishandling.

Everyone has his own role to play. These roles are outlined in the Constitution for a reason—because the Founders knew that any detached Federal bureaucracy would lack the competence to solve the unique logistical challenges my Democratic colleagues are trying to use as proof that Congress can hand down yet another institution of our democracy. That is the constitutional imperative of the States to set the time, place, and manner of elections.

If we continue to go down this road, this particular dream will become codified chaos that will trickle all the way down to the precinct level and irreparably erode confidence in the electoral process.

I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut.

AFGHANISTAN

Mr. MURPHY. Mr. President and my colleagues, there is a saying about Afghanistan: that we have turned the corner toward victory so many times that we are spinning in circles.

During the beginning of my time in Congress, I went to Afghanistan to visit our troops and military leadership about every 2 years. Each time I went, I was met by a new, capable, impressive general who had just started his yearlong tour, who told me that the last general did it wrong and that, this time, everything was going to be different. I remember coming back from my third trip to Afghanistan—I think it was in 2011—convinced that it was time to leave. The primary mission had been accomplished. Within a few years of our invasion, al-Qaeda in Afghanistan had been reduced to a shell of its former self, and the Taliban had matured a commerce between the Taliban forces that surrounded the village and the farmers of the village. As we walked around this village, we made our way through fields of these beautiful, beautiful, colorful flowers.

I turned to my colleague next to me, and I asked him if he had a sense as to what this crop was.

He said: I think I do, but let’s confirm.

So we asked one of the village elders what they were harvesting in these fields.

Poppy, he told us.

Our U.S. military forces were protecting the poppy trade in this western Province of Afghanistan. In fact, protecting the ability of the Taliban to come in and purchase that poppy in order to fuel the insurgency that we were fighting. Our troops were literally being utilized to protect the revenue source of our enemy. And so no wonder our policy in Afghanistan appears circular. In many ways, it is and it has been for a very long time.

But even for those who disagree with me and contest that our presence there has actually helped facilitate the survival of the Taliban, what evidence is there that staying for another few years is going to make the key difference?

The American war in Afghanistan is nearly 20 years old. It is the longest war in U.S. history. Outlasting the Civil War, the Spanish-American War, World War I, World War II, and the Korean war combined.

The United States and other international donors have invested an extraordinary amount of money and effort and blood to help stand up a functioning Afghan Government and civil society. And yet that government has

failed to get widespread support from the Afghan people. There are many reasons for this, but there is one big one: corruption. And the billions upon billions of dollars that are pumped into the Afghan economy by U.S. taxpayers often enabled their way to actually helping the people of that country. Too much of our aid has been siphoned off by local leaders and unintentionally we have helped establish a system of corruption that has become so pervasive and insatiable that people have, frankly, become less resistant to Taliban inroads.

Without a functioning police force, local Governments establish their own militias, and the mafia-style system that has developed has led to this vast drug trafficking network, fueled by corruption and that poppy production I talked about.

This has distorted Afghanistan’s economy, and it has, frankly, neutralized a lot of our economic aid. And yet the United States often, over the course of the last 20 years, has tolerated these warlords, this drug traffickers, and these corrupt defense contractors in Afghanistan because we consider the enemy of our enemy to be our friend. Our entire mission there has often been built on a self-defeating strategy.

In fact, what began as a vital mission to eliminate the threat of those who attacked us on September 11 has now, in some ways, become a symbol of nearly everything that is wrong with American foreign policy. Our armed presence in Afghanistan epitomizes this: We have been able to police the millions of dollars of investment in the Afghan Government and the Taliban escalates. At that point, either the Afghan Government will have to lead the fight without the crutch of American support or the government could collapse. But this is the key point: That has been the dynamic for the last 15 years, and it is going to continue to be the dynamic for the next 15 years. It wouldn’t be any different if we had stayed for another 5 years, another 20 years, or another year. There is simply no evidence to suggest that things are going to change. After 20 years and billions of dollars of investment in the Afghan Government, the onus has to be on them to get their act together and to earn the support of the people.

And one thing we’ve learned in Afghanistan is a choice, a choice to not focus on the government could collapse. But this is the key point: That has been the dynamic for the last 15 years, and it is going to continue to be the dynamic for the next 15 years. Unfortunately, the list of proposed institutional changes doesn’t end with the filibuster. Over the last few years, our friends on the other side of the aisle have also set their sights on the Supreme Court. We are only a day from the day a sitting Member of this body threatened two Supreme Court Justices by name. As the Justices were debating a case, the current majority leader said, on the steps of the Supreme Court:

“You have released the whirlwind and you will pay the price.”

Well, I think he realized the error in making that statement because he then followed up with—well, this isn’t the point where he realized the error because he doubled down on it. He said: “You won’t know what hit you if you go forward with these awful decisions.”

Well, we know this wasn’t an isolated incident. It is true that the majority leader tried to walk back his words later after he realized how intemperate and inappropriate they were when directed at two members of the U.S. Supreme Court.

We don’t have to remember too far in the past to know how the words we speak here in Congress and as public officials—the impact they can have on other people’s minds and perceptions, especially those who are not particularly stable in the first place.

Well, several of our Democratic colleagues filed an amicus brief in which they threatened the Supreme Court with retribution unless they got the outcome that they wanted.

Thank goodness our Founders designed the Federal Government with three separate but equal branches. Through this system of checks and balances, they sought to prevent any one branch of government from forcing its will on the other two. Standing up on the steps of the Supreme Court and issuing threats to the Justices that they must do what you want or else is certainly not consistent with the Founders’ vision.

Let me be clear. An independent judiciary is the crown jewel of our Constitution and our constitutional Republic—an independent judiciary. In the words of Supreme Court Justice John Roberts, “We should celebrate our strong and independent judiciary as a source of national unity and stability.” But now, even this hallowed institution is being attacked by our Democratic colleagues. The result they want. They are trying to intimidate the members of the Supreme Court.

Then there is the most recent discussion threat, really—about packing the Supreme Court with additional members. The push to pack the Supreme Court has been a mainstay of the far left for years, but it has now made its way into the Biden administration.

Previously, throughout his campaign, President Biden refused to weigh in on this topic. He knew how explosive this was, this threat to pack the Court, to make it a political body, to eliminate its role as an independent judiciary. Well, he refused to weigh in on it during the campaign, and I have no doubt this was an important strategic decision. He realized how offensive that would be to the voters he hoped would vote for him in 2020. A poll last fall found that less than one-third of Americans support increasing the number of Justices on the Supreme Court.

The President previously said he is “not a fan of court packing.” In fact, he called it a “bonehead idea” and this “terrible, terrible mistake.” But now President Biden has appeared to have embraced this “bonehead idea” and this “terrible, terrible mistake” that he condemned previously.

The first step was last week when he created a Commission to examine adding members to the Supreme Court of one side or the other so they can game the outcome. This decision and announcement came despite the fact that Justices on both sides appointed by Presidents on both sides of the aisle have affirmed the integrity of the Supreme Court with just nine members.

Justice Ruth Bader Ginsburg, who was an icon for the liberals on the Court and many people in America, said: “Nine seems to be a good number.

Just last week, Justice Breyer said that the Court’s authority depends on “a trust that the court is guided by legal principle, not politics.” He said that these types of changes would erode that trust and that the American people must have in the highest Court in the land.

The American people simply won’t have faith in an independent judiciary if one side is adding names to the roster so that they can game the outcome. They need to get involved in the legislative process if they want to make policy, not try to make politics through the judiciary, through the Supreme Court.

So I would urge President Biden to heed his own words that he delivered with such conviction during his time on the Judiciary Committee when he said that President Roosevelt’s decision “put in question for an entire decade the independence of the most significant body . . . in this country.”

Well, unfortunately, the power grab doesn’t stop there. The single biggest legislative goal of our friends on the other side of the aisle is an attempt to takeover of State election laws. That is in spite of the fact that article I of the Constitution explicitly gives the States the power to regulate the “times, places, and manner of holding elections.” That is a one-size-fits-all mandate that every State must follow. It preempts State law, but I doubt it would ultimately be upheld as constitutional because of the explicit guarantee that the States will regulate the time, manner, and place of holding elections.

But there are also other changes that our Democratic colleagues—where they
seek to reap the benefit of a politicized Supreme Court and Federal Agencies.

In this instance, the Federal Election Commission has six members, three from each party—intentionally designed to be a tie vote if they vote along party lines to protect the Commission from partisan politics.

We have learned that a fair and balanced Commission, which has been the standard for many years, isn’t the gold standard for Democrats when they are in control of the Senate and the White House. The election takeover bill introduced by our Democratic colleagues would remove one of the seats held by a Republican member of the Commission and turn the FEC into a partisan body. No more equal representation. No more consensus building. Why bother with that if you can steamroll an agenda with no opposition?

Then there is the taxpayer funding of political campaigns. Instead of candidates working to gain the support, the voices of the American people and contributions from their preferred candidate, our Democratic colleagues want the taxpayer to pay for those campaigns. And it is not even a dollar-for-dollar match. The American taxpayer would pay only $1 for every $2 donated to a candidate. That means if someone donates 200 bucks to their preferred candidate, the Federal Government would match that with up to $1,200. Those are taxpayer dollars. That’s buying out of your pocket whether you support that candidate’s policies or not.

On top of that, there are campaign vouchers proposed which would provide eligible voters with a $25 voucher to donate to the campaign of their choosing. I would rather this funding support the people and organizations that really need it: crime victims, unaccompanied children on our border, domestic violence shelters. There are far more urgent needs for this money than our Democratic colleagues’ campaign account.

Of course, this effort comes at a time when the House Democrats are already trying to overturn the results of an Iowa congressional election in order to boost their own numbers.

This confluence of institutional changes isn’t about repairing a broken system; it is revolutionary. It is a redefinition. You can’t win every case before the courts forever. We want to add more liberal judges. You can’t build support for legislation? Well, just add more money or fewer dollars that was donated to a candidate. That means if someone donates 200 bucks to their preferred candidate, the Federal Government would match that with up to $1,200. Those are taxpayer dollars. That’s buying out of your pocket whether you support that candidate’s policies or not.

Well, eliminate the filibuster and the need to build consensus and to work together on a bipartisan basis. You can’t win an election? Overturn the results and secure government funding or taxpayer funding for your candidates. And to cement these changes for a generation, better throw in a complete partisan takeover of our election laws.

Our Democratic friends are taking the saying “If you can’t win the game, change the rules” to a whole new level. This has been branded by propaganda, really, as a way to fix the system. Well, the system is not broken, and to the extent it needs reforms, it can be reformed at the State level, where the Constitution provides the authority for the States to run their elections.

Well, I think it is important for the American people exactly what is going on here. You can’t understand what is going on here by just reading social media or watching cable news shows that reinforce your own bias. Unfortunately, our news these days seems to be like ships passing in the night. And the channel that reaffirms their previous bias and doesn’t challenge people with ideas that perhaps they are not familiar with or don’t agree with, which is the way we ought to be dealing with each other. It is OK to disagree, but we ought to engage each other in a civil and respectful manner and to work those out in the crucible of our democracy known as the Congress.

I yield the floor to Senator WARNOCK.

Mr. BROWN. Madam President, it is an honor to join my colleagues of both parties, along with Senator Warnock and five—two other Democrats and three other Republicans on the floor today to read one of the great pieces of writing of the 20th century, Dr. King’s letter from the Birmingham jail.

I thank Senator WARNOCK and Senators MURKOWSKI, Republican from Alaska; TOOMEY, Republican from Pennsylvania; PADILLA, our new colleague from California, a Democrat; Senator CORTEZ MASTO, in her fifth year in the Senate, a Democrat from Nevada; and Senator CASSIDY from Louisiana, a Republican. They will be joining me today for this annual tradition.

Our former colleague, Doug Jones from Alabama, began this reading 3 years ago. I joined him on the floor. He asked me last year after his election to carry on this tradition in the years ahead. I am honored to take that responsibility because Dr. King’s words are as powerful, as beautiful, and as relevant as ever.

One of many, many, many inclusive things that Dr. King said was that we live in a 10-day world where people forget about protest actions 10 days later. Not so for him, not so for his words, and certainly not so from the letter from the Birmingham jail.

Twelve years after Dr. King’s assassination, when Ossie Chavez was thrown in jail, Dr. King’s widow, Coretta Scott King, said:

You cannot keep truth in... jail... Truth and justice leap barriers, and in their own way, reach the conscience of the people.

She said that is what Dr. King said, were his words.

In April 1963, Dr. King was detained at the Birmingham jail for leading a series of peaceful protests and boycotts. The goal was to put pressure on the business community to end discrimination in hiring for local jobs.

Some White ministers from Alabama had taken issues with his boycotts. They supported civil rights, they said. They told him to slow down, don’t try too fast, and don’t demand too much all at once. Dr. King, of course, as we know, rejected that premise.

That is what this letter is all about. It is about demanding justice now. We can’t wait around and hope the problems and the masses of our communities will solve themselves. It is up to all of us as citizens, as leaders, as members of our churches and our communities to get to work.

Dr. King made that point more eloquently and more persuasively, certainly, than I can, but we will read this note—we will read his words. Senator WARNOCK will begin, followed by Senator MURKOWSKI and four other Senators.

Senator WARNOCK. Madam President, the PRESIDING OFFICER, the Senator from Georgia.

Mr. WARNOCK. Madam President, I want to thank my colleague, Senator BROWN, for bringing us together in this way, reading from a letter from a Birmingham jail. Dr. King, April 16, 1963. Dr. King writes:

MY DEAR FELLOW CLERGYMEN:

While confined here in the Birmingham city jail, I came across your recent statement calling my present activities “unwise and unwarranted.”

Seldom do I pause to answer criticism of my working ideas. If I sought to answer all of the criticisms that cross my desk, my secretaries would have little time for anything other than such correspondence in the course of a day, and I would have no time for constructive work. But since I feel you are men of genuine good will and that your criticisms are sincerely set forth, I will try to answer this statement in what I hope will be patient and reasonable terms.

I think I should indicate why I am here in Birmingham, since you have been influenced by the view that argues against “outsiders coming in.” I have not come here as a “outsider” to深切 your affairs in any sense. I have come as president of the Southern Christian Leadership Conference, an organization operating in every southern state, with headquarters in Atlanta, Georgia. We have some eighty-five affiliated organizations across the South, and one of them is the Alabama Christian Movement for Human Rights. Frequently we share staff, educational and financial resources with our affiliates. Several months ago the affiliate here in Birmingham asked us to be on call to engage in a nonviolent direct action program if such were deemed necessary. We readily consented, and when the hour came we lived up to our promise. So I, along with several members of my staff, am here because I am here because I have organizational ties here.

But more basically, I am in Birmingham because injustice is here. Just as the prophets of the eighth century B.C. left their villages and carried their “thus saith the Lord” far beyond the boundaries of their home towns and just as the Apostle Paul and his companions carried the gospel of Jesus Christ to the far corners of the Greco-Roman world, so am I compelled to carry the gospel of freedom beyond my home town. Like Paul, I must constantly respond to the Macedonian call for aid.
Moreover, I am cognizant of the interrelatedness of all communities and states. I cannot sit idly by in Atlanta and not be concerned about what happens in Birmingham. Injustice anywhere is a threat to justice everywhere. We are caught in an inescapable network of mutuality, tied in a single garment of destiny. Whatever affects one part of this nation, affects all parts.

We may now persuade the merchants to the maintenance of the status quo. I have long considered that this has not been the best time to bring pressure to bear on the merchants for the necessary change. We felt that negotiations would be the byproduct of direct action. We, however, decided that it would be the best time to bring pressure to bear on the merchants for the necessary change. We felt that the resolution of 1954 outlawing segregation in the public schools, at first glance it may seem that the decision of the Supreme Court to say, "Wait." But when you have seen vicious mobs lynch your mothers and sisters; when you have seen demagogues and mountebanks fill police stations and kick and even kill your black brothers and sisters; when you have seen the great majesty of our nation and the greatpg 12

The President of the Senate from Alaska.

Judge Summerlin and the leaders of the Alabama Christian Movement for Human Rights, to whom I owe a debt of gratitude for their support in this campaign, have experienced grossly unjust treatment in the courts. There have been more unsolved bombings of Negro homes and churches in Birmingham than in any other city in the nation. These are the hard, brutal facts of the case. On the basis of these conditions, Negro leaders sought to negotiate with the city fathers. But the latter consistently refused to engage in good faith negotiation.

Then, last September, came the opportunity to talk with leaders of Birmingham’s economic community. In the course of the negotiations, certain promises were made by the merchants—for example, to remove the stores’ humiliating racial signs. On the basis of these promises, the Reverend Fred Shuttlesworth and the leaders of the Alabama Christian Movement for Human Rights agreed to delay direct action until after election day. When we discovered that the city’s white power structure left the Negro community with no alternative.

One of the basic points in your statement is that the action that I and my associates have taken in Birmingham is untimely. Some have asked: “Why didn’t you give the city fathers until after election day? Why didn’t you negotiate a better path?” You are quite right in calling for negotiation. Indeed, this is the very purpose of direct action. Nonviolent direct action seeks to create a situation so terrifying to tyrants and to provoke the conscience of those who cast a ballot for them. Lamentably, it is an historical fact that while Negroes have waited to see Mr. Connor defeated, we waited to see Mr. Connor defeated, we felt our direct action program could be delayed no longer.

The President of the Senate from Nevada.

You may well ask: “Why direct action? Why not negotiation?” I am sure that none of you would want to rest content with the status quo in this country. We have been forced to confront the issue. It seeks so to dramatize the issue that it can no longer be ignored. My citing the creation of tension as part of the work of the nonviolent resister may sound rather shocking. But I must confess that it is the armed man who wrecks society and then says that he is disturbed by violence.

I continue the reading of the letter from the Birmingham jail.

We may now persuade the merchants to the maintenance of the status quo. I have long considered that this has not been the best time to bring pressure to bear on the merchants for the necessary change. We felt that negotiations would be the byproduct of direct action. We, however, decided that it would be the best time to bring pressure to bear on the merchants for the necessary change. We felt that the resolution of 1954 outlawing segregation in the public schools, at first glance it may seem that the decision of the Supreme Court to say, "Wait." But when you have seen vicious mobs lynch your mothers and sisters; when you have seen demagogues and mountebanks fill police stations and kick and even kill your black brothers and sisters; when you have seen the great majesty of our nation and the greatpg 12

The President of the Senate from Nevada.

You may well ask: “Why direct action? Why not negotiation?” I am sure that none of you would want to rest content with the status quo in this country. We have been forced to confront the issue. It seeks so to dramatize the issue that it can no longer be ignored. My citing the creation of tension as part of the work of the nonviolent resister may sound rather shocking. But I must confess that it is the armed man who wrecks society and then says that he is disturbed by violence.

Mr. BROWN. Madam President, continuing the reading of the letter from the Birmingham jail.

I must make two honest confessions to you, my Christian and Jewish brothers. First, I must confess that over the last few years I have been enormously disappointed with the white moderate. I have seen too much setzen an example of just and unjust laws. An unjust law is a code that a numerical or a power majority group compels a minority group to follow and that the minority group is not free to reject or evade. Human history has grave examples of just and unjust laws. An unjust law is a code that a numerical or a power majority group compels a minority group to follow and that the minority group is not free to reject or evade. Human history has grave examples of just and unjust laws.

Second, I must confess that for too long I have been truth and his philosophical inquiries precipitated the evil act of crucifixion? We must come to see that, as the federal courts have consistently affirmed, it is wrong to urge an individual to infringe upon his religious conscience in the case of such basic constitutional rights because the quest may precipitate violence. Society must protect the robbed and punish the robber. I had also hoped that the white moderate would understand that law and order exist for the purpose of establishing justice and that when they fail in this purpose they become the danger of the ruled. I had hoped that the white moderate would understand that the present tense in the history of the Negro community is one of transition from an obnoxious negative peace, in which the Negro passively accepted his unjust plights, to a substantive and positive peace, in which the dignity and worth of human personality. Actually, we who engage in nonviolent direct action are not the creators of tension. We merely bring to the surface the hidden tension that is already alive. We bring it out in the open, where it can be seen and dealt with. Like a boil that can never be cured so long as it is covered up but must be opened with all its ugliness for the natural medicines of air and light, injustice must be exposed, with all the tension its exposure creates, to the light of human conscience and the air of national opinion before it can be cured.

In your statement you assert that our actions must be condemned because they precipitate violence. But is this a logical assertion? Isn't this like condemning a robber because his possession of more precipitated the evil act of robbery? Isn't this like condemning Socrates because his unsavory commitment to truth and his philosophical inquiries precipitated the act by the misguided populace in which they made him drink hemlock? Isn't this like condemning Jesus because his unique God consciousness and never ceasing dedication to God precipitated the evil act of crucifixion? caught up by the Zeitgeist, and with his black brothers of Africa and his brown and yellow brothers of Asia, South America and the Caribbean, the United States Negro is moving with a sense of great urgency toward the promised land of racial justice. If one recognizes this vital urge that has engulfed the Negro community, one should readily understand why this urgency is felt in the community that is taking place. The Negro has many pent up resentments and latent frustrations, and he must release them. So let him march; let him shout and sing; let him do this and be heard. It is the sound of freedom. But in the midst of that freedom the Negro is moving with a sense of great urgency toward the promised land of racial justice. Mr. PADILLA. Madam President, I thank Senator FOW for including me on this reading. It is a tremendous honor. I will continue.

When I was suddenly catapulted into the leadership of the bus protest in Montgomery, Alabama, a few years ago, I felt we would be supported by the white church. I felt that the white ministers, priests and rabbis of the South would be among our strongest allies. They were! Instead of being front-line opponents, refusing to understand the freedom movement and misrepresenting its leaders; all too many others have been more cautious than cautious, more timid than they could be, behind the anesthetizing security of stained glass windows. In spite of my shattered dreams, I came to Birmingham with the hope that the white religious leadership of this community would see the justice of our cause and, with deep moral concern, would serve as the channel through which our just grievances could reach the power structure. I had hoped that each of you would understand. But again I have been disappointed.

I have heard numerous southern religious leaders condemn and deplore the role in which the gospel has no real concern. And I have heard many churches commit themselves to comply with a desegregation decision because it is the law, but I have longed to hear white ministers declare: "Follow this decree because God so commanded us"—this affirmation of the church as the body of Christ. But, oh! How we have blemished and scarred that body through social neglect and through fear of being nonconformists.

There was a time when the church was very powerful—in the time when the early Christians rejoiced at being deemed worthy to suffer for what they believed. In those days the church was not merely a thermometer that recorded the ideas and principles of popular opinion; it was a thermostat that transformed the mores of society. Whenever the early Christians entered a town, the people in power became disturbed and mystified. They asked themselves, "What is this thing going on by these "disturbers of the peace" and "outside agitators." But the Christians pressed on, in the conviction that they were a "colony of Heaven," called to obey God rather than Man. Small in number, they were big in commitment. They were too God-intoxicated to be "astro-nomically intimidated." By their effort and example they brought an end to such ancient evils as infanticide and gladiatorial contests. The different nonviolent" ways, they will seek expression through violence; this is not a threat but a fact of history.

So I have not said to my people: "Get rid of your discontent." Rather, I have tried to say that this normal and healthy discontent can be channeled through into the creative outlet of nonviolent direct action. And now this approach is being termed extremist. But though I was initially disappointed at being categorized as an extremist, as I continued to think about it, I gradually gained a measure of satisfaction from the label. Was not Jesus an extremist for love: "Love your enemies and pray for them that persecute you." Was not Amos an extremist for justice: "Let justice roll down like waters and righteousness like an ever flowing stream." Was not Paul an extremist for the Christian gospel: "I bear in my body the marks of the Lord Jesus." Was not Martin Luther an extremist: "Here I stand; I cannot do otherwise, so help me God." And John Bunyan: "I will stay in jail to the end of my days before I make my conscience a prisoner of the law," and Abraham Lincoln: "This nation cannot survive half slave and half free." And Thomas Jefferson: "We hold these truths to be self evident, that all men are created equal.

So the question is not whether we will be extremists, but what kind of extremists we will be. Will we be extremists for hate or for love? Will we be extremists for love? Will we be extremists for hate? Will we be extremists for love or for hate? Will we be extremists for love or hate?

In that dramatic scene on Calvary's hill three men were crucified. We must never forget that all three were crucified for the same crime—the crime of extremism. Two were crucified for immorality and the third for their beliefs. The other, Jesus Christ, was an extremist for love, truth and goodness, and thereby rose above his environment. The other, Jesus Christ, was an extremist for love, truth and goodness, and thereby rose above his environment. The other, Jesus Christ, was an extremist for love, truth and goodness, and thereby rose above his environment.

Perhaps the South, the nation and the world are in dire need of creative extremists. I had hoped the white moderates would see that all three were crucified for the same crime—the crime of extremism. Two were crucified for immorality and the third for their beliefs. The other, Jesus Christ, was an extremist for love, truth and goodness, and thereby rose above his environment. The other, Jesus Christ, was an extremist for love, truth and goodness, and thereby rose above his environment. The other, Jesus Christ, was an extremist for love, truth and goodness, and thereby rose above his environment. The other, Jesus Christ, was an extremist for love, truth and goodness, and thereby rose above his environment.

"Let the blind lead the blind..." And Thomas Jefferson: "We hold these truths to be self evident, that all men are created equal..."
church does not come to the aid of justice, I have no despair about the future. I have no fear about the outcome of our struggle in Birmingham, even if our motives at present are misunderstood, for we will reach the goal of freedom in Birmingham and all over the nation, because the goal of America is freedom.

Mr. TOOMEY. Continuing the reading of a letter from a Birmingham jail. Although we mourned though we may, our destiny is tied up with America’s destiny. Before the pilgrims landed at Plymouth, we were here. Before the pen of Jefferson etched the most beautiful words of the Declaration of Independence across the pages of history, we were here. For more than two centuries, our forebears labored in this country without wages or hope; they built the homes of their masters while suffering gross injustice and shameful humiliation—and yet out of a bottomless vitality they continued to thrive and develop. If the inexpressible cruelties of slavery could not stop us, the opposition we now face will surely fail. We will win our freedom because the sacred heritage of our nation and the eternal will of God are embodied in our echoing demands. Before closing I feel impelled to mention one other point in your statement that has troubled me greatly. The Birmingham police force is not warmhearted, as a Negro man with his feet is with ungrammatical profundity to one who of dignity and with her people decided not to face jeering and hostile mobs, and with the noble sense of purpose that enables them to endure the agonizing loneliness that characterizes to do the right deed for the greatest treason: To do the right deed for the right reason. I wish you had commended us for conscience sake. One day the South will know that when these disillusioned children of God sat down at lunch counters, they were in reality standing up for the American dream and for the most sacred values in our Judeo Christian heritage, thereby bringing our nation back to those great wells of democracy which were dug deep by weary founders in their formulation of the Constitution and the Declaration of Independence.

Never before have I written so long a letter. I’m afraid it is much too long to take your precious time. I can assure you that it would have been much shorter if I had been writing from a comfortable desk, but what else can one do when he is alone in a narrow jail cell, other than write long letters, think long thoughts, and pray long prayers?

If I have said anything in this letter that overstates the truth and indicates an unreasonable impatience, I beg you to forgive me. If I have said anything that understates the truth and indicates my having a patience that allows me to settle for anything less than brotherhood, I beg God to forgive me. I hope this letter finds you strong in the faith. I also hope that circumstances will soon make it possible for me to meet each of you, not as an integrationist or a civil-rights leader but as a fellow clergymen and a Christian brother. Let us all hope that the dark clouds of racial prejudice will soon pass away and the deep fog of misunderstanding will be lifted from our dear drenched communities, and in some not too distant tomorrow, the radiant stars of love and brotherhood will shine over our great nation with all their scintillating beauty. Yours for the cause of Peace and Brotherhood.

MARTIN LUTHER KING, JR.

THE PRESIDING OFFICER (Mr. BALDWIN). The Senator from Ohio.

Mr. BROWN. Madam President, I have no despair about the future. I have no doubt that we will reach the goal of freedom in Birmingham and all over the nation, because the goal of America is freedom.

Mr. TOOMEY.

Mr. President, I thank my colleague from the neighboring State, Senator TOOMEY, for joining us. I thank all of my colleagues who were here today, Senators WARNOCK and MURROWSKI, TOOMEY and CASSIDY, CORTEZ MASTO, and PADILLA for joining us to read these powerful words today.

This is about as diverse a group as we could assemble in the U.S. Senate, a group of seven Senators who really reflect our country today: a reverend in a Black church, the son of a union electric worker, a doctor from the Deep South, an Indigenous woman, a son of a Mexican immigrant, a daughter of Mexican Americans who made this country home for centuries, and a son of the Midwest whose father came from Mansfield, OH, and mother came from Mansfield, GA.

We come from different backgrounds, and we disagree on many things, but we love this country—all of us—and we know we can do better for the people who we represent.

Dr. King and the civil rights leaders of his generation did more than just about anyone to push this country to live up to our founding ideals and make the dream of America real for everyone.

Protesting, working for change, organizing, demanding our country to do better—those are some of the most patriotic things all of us can do. That is Dr. King’s charge of this letter.

Progress never rolls in on wheels of inevitability.

That is our charge. I think about the campaign Dr. King was waging when he was assassinated. You can’t forget he was murdered. I’m not writing this letter to frighten some of the most exploited workers in this country, sanitation workers. He understood the deep connection between workers’ rights and civil rights. As he put it, ‘‘What does it profit a man to be able to eat at an integrated lunch counter, if he doesn’t earn enough money to buy a hamburger and a cup of coffee?’’

Until all Americans have the dignity they have earned, Dr. King’s work will not be finished. Until all Americans are paying all workers a living wage, giving them power over their schedules, providing good benefits and safety on the job, letting them, if they choose, organize a union. That means all workers should get a fair share of the wealth they create. It means recognizing the dignity of communities that Black Americans have built over generations.

They were denied wealth and investment. The schools were underfunded. Banks wouldn’t lend. Highways tore through their neighborhoods and left poor neighborhoods in the President’s largest city in Milwaukee, as they did in the largest cities in my State: Columbus, Cleveland, and Cincinnati.

In the face of all of that, Black Ohioans and people all over the country built businesses and churches and vibrant neighborhoods and loving families. But they should not have to do it on their own.

As we emerge from this pandemic and we work together to build a stronger country out of this crisis, we can’t make the mistakes of the past. We learned in the Banking, Housing Committee this week that President Roosevelt’s collective bargaining laws and investment in housing with the creation of housing agencies created a middle class for Americans who look like me but didn’t create a middle class for a whole lot of other Americans.

Think about the infrastructure investments that we made in the 1990s and the years after World War II. Think how we created millions of new homeowners and grew the middle class. Think of how we expanded economic security, with overtime and workers compensation and Medicare and Social Security.

There is no reason we can’t do that again, the same thing again, but this time we bring along everyone. We invest in all communities. We bring us closer to the society that King envisioned, where all labor—as he would say, where “all labor has dignity.” I suggest the absence of a quorum.
The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk called the roll.

Ms. HIRONO. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

COVID–19 HATE CRIMES ACT

Ms. HIRONO. Madam President, on March 29, Vilma Kari was walking to church near Times Square in Manhattan when a man pushed her to the ground and violently assaulted her in broad daylight.

A silent video of the incident captured by a security camera inside a luxury apartment building showed the attack in vivid detail. In it, we can clearly see the assailant pushing Ms. Kari to the ground and kicking her repeatedly in the head and torso before leaving the scene. This video, which has gone viral, is disturbing enough to watch, but it doesn’t capture the full picture of what happened. Witness to the attack recounted the assailant’s repeated yelling “You don’t belong here” to Ms. Kari—an immigrant from the Philippines who has lived in our country for decades.

Now, reports from multiple injuries, including a broken pelvis, Vilma Kari has become one of the latest victims in a surging wave of hate crimes targeting the Asian-American, Pacific Islander community during the COVID–19 pandemic.

Over the last year, we have seen businesses defaced with anti-Asian graffiti, elders verbally accosted on the street, women assaulted, and eight people murdered in cold blood at Asian-owned businesses in Georgia during unprovoked attacks. All told, people of Asian descent have reported more than 3,800 hate incidents across all 50 States and the District of Columbia.

These attacks are disturbing and horrifying, but they are, in many ways, a predictable and foreseeable outgrowth of the use of racist and inflammatory language, like “Chinese virus,” “Wuhan virus,” and “Kung flu,” to describe the COVID–19 pandemic. Last year, as some political leaders, including the former President, started using this language, the FBI warned of a potential surge in hate crime incidents targeting people of Asian descent.

At the same time, public health experts warned of the danger of singling out the Asian-American community as being responsible for the virus. These warnings proved prophetic. A study recently published by the American Journal of Public Health found there was a dramatic increase in tweets using anti-Asian phrases after the first time the former President tweeted using the hashtag “China virus” on March 16, 2020.

This rise in hate crime targeting API then and now has shown the extent to which this inflammatory rhetoric has normalized racist attitudes toward and the stigmatization of Asian Americans with devastating consequences. The Center for the Study of Hate and Extremism, for example, assessed that, in 16 of the Nation’s largest cities, hate crimes targeting AAPIs spiked nearly 150 percent during the pandemic.

The current dramatic rise in hate crimes targeting Asian Americans might be a recent development, but we all know that racism is never far below the surface in our country, sadly. Asian Americans have always been targeted as the others, as they have been the conveyor of the perpetual “foreigner.” It is what drove the passage of the Chinese Exclusion Act of 1882 and is what led to the incarceration of 120,000 Japanese Americans during World War II. It is also what drove two Detroit auto-workers, during the height of hysteria about Japan’s growing economic strength, to murder a Chinese-American man named Vincent Chin in 1982 because they thought he was Japanese. Outrageously, neither of Vincent’s killers received prison time. Nearly 30 years later, we can see clear parallels between the racism that motivated Vincent Chin’s murder and the ongoing surge in anti-Asian racism and hate crimes. We can also see the parallels in the wave of activism both unleashed.

Today, the AAPI community is uniting, once again, to confront this epidemic of racism, discrimination, and hate. We are marching, speaking out, and demanding action in cities and States across the country.

As part of our activism, we are working to dispel the model minority myth that all Asians are successful and integrated in society. This racist and discriminatory stereotype devalues the struggles and experiences of an extraordinarily diverse community. The AAPI community is comprised of people from more than 48 distinct ethnic groups who speak over 300 languages. Some of these groups have been in this country for over 100 years. Others have grown in size through waves of immigration in recent decades.

Like other communities of color, elements of the AAPI community have traditionally suffered from a variety of health, economic, and other disparities for years, and the COVID–19 pandemic has only made them worse. AAPIs are contracting and dying from COVID–19 at much higher rates than White Americans and at comparable rates with Black and Hispanic Americans. Our community has suffered too much over the past year from the two epidemics of racism and COVID, and confronting both will continue to present challenges, but it has been a relief to have a President capable of demonstrating care and empathy and who shares our sense of urgency in confronting this wave of hate.

In his first week as President, Joe Biden issued an executive memorandum that condemned racism, xenophobia, and intolerance targeting the AAPI community and directed the Federal Government to actively combat it. In recent weeks, following the brutal murder of eight people, including six Asian women in Georgia, President Biden took additional action. He announced new investments for research into anti-Asian xenophobia through the National Science Foundation, dedicated that Congress to investigate victims of hate crimes, and established a COVID–19 equity task force to combat anti-Asian hate.

Members of President Biden’s administration have followed his lead. Attorney General Merrick Garland, for example, pledged to prioritize hate crimes enforcement during his confirmation hearing and has taken additional steps to help local law enforcement agencies investigate bias crimes.

Under President Biden’s leadership, the executive branch is doing its part. Now it is time for us—it is time for Congress to act.

I am encouraged that in just a few months, the Senate will vote to proceed to the COVID–19 Hate Crimes Act on a strong bipartisan vote. This is not a controversial bill. It would focus Federal leadership to investigate and reportful actions of local law enforcement to provide resources for our communities to come together to take a stand against intolerance and hate.

The COVID–19 Hate Crimes Act directs the Attorney General to designate a person whose responsibility it will be to expedite review of anti-Asian hate crimes and report them. It also instructs DOJ to issue guidance to State and local law enforcement on culturally appropriate public education campaigns and to report on data on hate crimes or incidents. Such culturally-sensitive, in-language outreach is an important element for strengthening trust and awareness in impacted communities, and it will help overcome established hesitancy to report hate crimes or incidents to law enforcement.

At a time when the AAPI community is under siege, this bill is an important signal that Congress and our friends in the executive branch are doing their part. An attack on one group in our country is truly an attack on all of us. By passing the COVID–19 Hate Crimes Act, we can come together on a bipartisan basis to show that the U.S. Senate will not be a bystander to the wave of racist, anti-Asian violence in our country. So let’s get it done together. I yield the floor.

LEGISLATIVE SESSION

COVID–19 HATE CRIMES ACT—MOTION TO PROCEED

The PRESIDING OFFICER. Cloture having been invoked, the Senate will proceed to legislative session to consider the motion to proceed to S. 937, which the clerk will report.

The senior assistant legislative clerk read as follows:

Motion to proceed to Calendar No. S. 937, a bill to facilitate the expedited review of COVID–19 hate crimes, and for other purposes.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. Mr. President, Americans were horrified to witness a recent series of mass shootings involving the Asian-American and Pacific Islander community. On March 16, 2021, mass shootings occurred at three spas and massage parlors in the Atlanta metropolitan area. Eight people were killed, six of whom were Asian-American women, and one other person was wounded. The suspect was taken into custody that day and has been charged with multiple counts of murder. The investigation is continuing as to whether the suspect should be additionally charged with hate crimes, if he deliberately targeted Asian Americans with this senseless violence.

Unfortunately, this mass shooting is not an isolated incident in the United States in terms of hate speech, hate crimes, and violence against Asian Americans in our communities. Sadly, some political figures have used the ongoing COVID-19 pandemic to fan the flames of hate by promoting stereotypes, fear, and xenophobia. Irrationally blaming Asian and Asian-American neighbors for the pandemic is simply wrong and reprehensible and can have deadly consequences.

Let us remember that our Asian-American brothers and sisters are an integral part of the United States for many levels. Our immigrant story and our diversity are some of our unique strengths, not weaknesses, of the United States of America.

There are about 23 million Asian Americans and Pacific Islanders in the United States, constituting 7 percent of the population of our country.

There are approximately 2 million Asian-American owned businesses that generate over $700 billion in annual revenue and employ millions of workers.
Two million Asian Americans and Pacific Islanders are working on the frontlines of the COVID–19 pandemic as first responders and in healthcare, law enforcement, transportation, supermarkets, and other service industries. Our Asian-American brothers and sisters are putting their lives on the line every day to help protect our communities during the pandemic. That is why it is so despicable to see the rise of anti-Asian rhetoric and hate speech by political leaders and others, which inevitably gives oxygen to extremist groups and individuals and gives license to individuals to commit hate crimes and acts of violence.

The use of anti-Asian terminology and rhetoric related to COVID–19, such as the “Chinese virus,” the “Wuhan virus,” the “Kung flu”—phrases often used by former President Trump and some of his followers—has perpetrated an anti-Asian stigma. The use of anti-Asian language and rhetoric related to COVID–19 has resulted in Asian Americans being harassed, assaulted, and scapegoated for the COVID–19 pandemic.

Since January 2020, there has been a dramatic increase in reports of hate crimes and incidents against those of Asian descent throughout the Nation. According to a recent report, there were nearly 3,800 reported cases of anti-Asian discrimination related to COVID–19 between March 2020 and February 2021.

The article stated:

Over the last year, in an unrelenting series of episodes . . . people of Asian descent have been pushed, beaten, kicked, spit on and called slurs. Homes and businesses have been vandalized. The violence has known no boundaries, spanning generations, income brackets and regions. . . . Those cases include the fatal attack of a Thai man in January, as well as the assaults of a 91-year-old man in Oakland’s Chinatown and an 89-year-old woman in Brooklyn. Those episodes, and other[s] . . . have terrified the Asian community.

The article continues:

But there is no ambiguity about the cases. The Times collected. These are assaults in which the assailants expressed explicit racial hostility with their language, and in which nearly half included a reference to the coronavirus.

That article pointed out some sobering statistics when it comes to hate crimes. Over the last year, hate crimes as classified and reported by the police rose at a faster pace against people of Asian descent than hate crimes overall. In New York City and Boston, hate crimes overall and anti-Asian hate crimes spiked.

In New York City alone, the number of hate crimes with Asian-American victims reported to the New York Police Department jumped to 28 last year, up from 17 in 2019 and so far this year, the Department is actively investigating or has solved 35 anti-Asian bias crimes.

Congresswoman Grace Meng, of New York, said:

“We’ve gone from being invisible to being seen as subhuman. We just want to be seen as American, like everyone else.”

On April 9, 2021, the Washington Post ran an article examining the effect of mass shootings on anti-Asian rhetoric and how trauma ripples through those communities.

The article stated:

March 16 marked a turning point for many Asian Americans. That day their community was stricken by a mass shooting, becoming the latest minority group to suffer an attack that killed several of its own . . . There’s specific hatred that arises from being targeted, one that more and more marginalized people in the United States know too well. The shooting survivors and victims’ family members span geographies, races and religions, but they are bonded by the shared trauma they have experienced.

The article continues:

These tragedies often leave many in those communities who weren’t directly affected feeling unsafe and traumatized. After a mass shooting, many members of these communities say they felt hyper-aware of their race and an escalated sense of fear that the same could happen to them. A mass shooting seems less senseless or inexplicable when it’s directed at one of your own.

I recall with sorrow that in 2018 a gunman killed 11 Jewish worshippers at the Tree of Life in Pittsburgh.

The article continues:

Tree of Life Rabbi Jeffrey Myers said his synagogue practices the “ministry of presence,” whereby “people who belong to our community and our synagogues make a point of showing up with our Asian-American and Pacific Islander neighbors and friends to support for the Jewish community.”

One read:

Many of our business members have thrived in this city, particularly in Squirrel Hill, and if we shared in this good fortune, then we bear the burdens.

It was a reminder that Asian Americans, although minority status as a group, are part of our society, and as such, we have a responsibility to speak up when hate crimes and discrimination are on the rise.

Mr. Hur was the first Asian American to chair the U.S. attorney for the District of Maryland, Robert K. Hur, to chair the workgroup and spearhead the effort. Mr. Hur was the first Asian American to serve as our U.S. attorney in Maryland and our FBI Special Agent in Charge, Jennifer C. Boone. They put out a recent statement which condemned bigotry and hatred against the Asian-American and Pacific Islander community and encouraged members of the public to report to law enforcement incidents of violence, threats, and harassment.

Shortly before the shootings in Atlanta, the U.S. Attorney’s Office for Maryland, on March 10, 2021, launched its Civil Rights Unit to ensure that the full spectrum of criminal and civil statutes are employed in addressing hate crimes and discrimination; to conduct outreach to government, not-for-profit, and private entities in Maryland; and to help provide training and resources to local and State law enforcement in Maryland.

Today, I rise in support of S. 397, the COVID–19 Hate Crimes Act, introduced by Senator Hirono of Hawaii. I am proud to be a cosponsor of this important legislation. I urge the Senate to pass this legislation without further delay.

This legislation would direct the U.S. Department of Justice to designate a DOJ employee to assist with the expedited review of COVID–19 hate crimes reported to Federal, State, and/or local law enforcement. The legislation would provide guidance to State and local law enforcement agencies to establish the online reporting of hate crimes or incidents and to have online reporting available in multiple languages; expand culturally competent and appropriate public education and collection of data and public reporting of hate crimes; and issue guidance detailing best practices to mitigate racially discriminatory language in describing the COVID–19 pandemic. In coordination with the Secretaries of Health and Human Services, the COVID–19 Health Equity Task Force, and community-based organizations.
In the 117th Congress, I was privi-
geleged to be named as the chairman of
the Commission on Security and Co-
operation in Europe, also known as the
Helsinki Commission. I additionally serve
as the Special Representative on
Anti-Semitism, Racism, and Tolerance
for the OSCE Parliamentary As-
sembly.
Over the past year, the world has suf-
f ered the crippling impact of COVID-19,
which has disproportionately affected
our most vulnerable citizens. Racist vi-
olence has once again reared its ugly
head in many OSCE participating
States, including our own. I pledge to
continue working with the Helsinki
Commission and the OSCE to shine a
spotlight on discrimination, racism,
and anti-Asian violence both at home
and abroad as we work together with
our partners in the United States and
around the world to share best prac-
tices and combat this scourge against
our democracy and freedoms we hold so
dear.
In 2019, at the annual meeting of the
OSCE Parliamentary Assembly in Lux-
embourg, I chaired a session dealing
with anti-Semitism. One of the key
findings that came out of that section
was that community needs to work
together. We are all in this to-
gether. An attack on one community is
an attack on all of us and the freedom
of all of us, and we must join in unity
to speak with a clear, strong voice
against any of these hate activities.
We have an all-hands-on-deck
approach to combat anti-Asian bias,
prejudice, discrimination, hate crimes,
and violence. In working together—
all communities—with our local, State,
national, and international partners,
along with our allies in the private sec-

tor and faith community, we can stem
this dangerous trend and give a sense
of peace and security back to our
Asian-American brothers and sisters.
It starts with our taking up the legisla-
tion before us and passing it promptly.
I yield the floor.
I suggest the absence of a quorum.

The PRESIDING OFFICER (Ms.
Smitty). The clerk will call the
roll.
The senior assistant legislative clerk
proceeded to call the roll.
Mr. SCHUMER. Madam President, I
ask unanimous consent that the order
for the quorum call be rescinded.

The PRESIDING OFFICER. Without
objection, the quorum call is
rescinded.

Mr. SCHUMER. Madam President, we
are very pleased that the Senate just
took an overwhelmingly bipartisan
vote—to 6 to move forward with legis-
lation to fight the surge of anti-
Asian violence that threatens our
country in the wake of the COVID-19
pandemic.
Anti-Asian bigotry and violence is a
very serious issue that has deep roots
in our country’s history. Regrettably,
it has grown far worse over the last
year. It is something that affects con-
stituents in all of our States and has
produced Asian-American citizens
fearing for their safety. I have been told
tories that make me ache: an older Asian
gentleman afraid to go outside because
he would be cursed at, berated, even
spat upon. A young lady told me she
would no longer take the subway to
work because the stares at her were so
angry and intense that it was just un-
neuring. Then it was with as-
saults and even a death.
We need to do something, and I am so
glad that our Republican colleagues
have voted with us to proceed with this
legislation. This was never intended as
a gotcha legislation. It was always in-
tended to be a bipartisan legislation, and
for the information of the Senate, we
are making good progress on reaching
a bipartisan agreement with sensi-
tble, germane, and constructive amend-
ments coming from Republican col-
leagues—the Senator from Kansas, the
Senator from Maine—that, I believe,
made the bill even stronger. So we
want to continue with this bipartisan
process.
I intend the first amendment to the
bill to be an amendment offered by
Senators Moran and Blumenthal. We
are working with the Republican leader
to determine if and how many other
amendments to the bill there will be so
that we can consider them and vote on
final passage without any gotcha or
not germane amendments, but we are
moving this bill forward because it
does need to go forward with a sense
of urgency.
The legislation will send a loud and
clear message that racism and violence
against Asian Americans have no
place—no place—in American society.
We should endeavor to finish our work
as quickly as possible and without
delay.
I yield the floor.
The PRESIDING OFFICER. The Sen-
ator from Florida.

Unanimous Consent Request

Mr. SCOTT of Florida. Madam Presi-
dent, the United States is a beacon of
democracy in the world, and our Na-
tion was founded on free and fair elec-
tions, but if the American people don’t
have confidence in our elections, we
don’t have a sustainable democracy.
What we saw this past election was
confusion and chaos caused by incon-
sistent standards and last-minute
changes to established election laws
by State officials and activist judges.
Yet it is not just the chaos from this past
election that troubles Americans
across the country. For more than a
decade, growing numbers of Americans
have become less confident that their
votes were accurately cast and count-
ed. If we want to continue as a thriving
democracy, we have to reverse this
trend and take action so Americans
trust in free and fair elections. There
is no other option.
That is why I have joined my col-
leagues in introducing the Save De-
mocracy Act to restore faith in our
Federal elections and guarantee that
evoters decide the outcome of elec-
tions, not the courts, and that is why I
am here today to ask my colleagues to
join me in passing one specific section
of the Save Democracy Act—the Pro-
Moting Election Integrity by Proving
Voter Identity Act—to require voter ID.
It is pretty simple. If you want to
vote in person, you will need to bring
your current and valid ID. If you want
vote by mail, you will need to pro-
vide a copy of your ID. Like I said, it
is pretty simple and straightforward.
We want 100 percent participation in
our elections and zero percent fraud.
We want it to be as easy to vote and as
hard to cheat. Voter ID helps us to meet
that goal.
Of course, the Democrats will do any-
thing to fight against these common-
sense reforms. It is absurd. You have to
have ID to drive a car, board a plane,
open a bank account, and pick up a
prescription. Do they object to that? Of
course not. These are much needed,
commonsense reforms to our election
system.
Just look at what is happening in
Georgia. Two recent news articles show
that President Biden and the Demo-
crats spread lies to pressure companies
to boycott Georgia over commonsense
voting reforms. Even The Washing-
ton Post gave President Biden four
Pinocchios for his lies about the Geor-
gia law.
I ask unanimous consent to have
printed in the RECORD the two articles
I have with me today which outline
how much the Democrats have been
grossly misleading the public.
There being no objection, the mate-
rial was ordered to be printed in the
RECORD, as follows:

Biden/Falsely Claims the New Georgia
Law ‘Ends Voting Hours Early’
(By Glenn Kessler)
“The most I’m worried about is how un-Amer-
ican this whole initiative is. It’s sick. It’s
dead . . . deciding that you’re going to end
voting at 5 o’clock when working people
are just getting off work.”—President
Biden, in tweets at a news conference, March 25
“Among the outrageous part of this new
state law, it ends voting hours early so work-
ing people can’t cast their votes after
their shift is over.”—Biden in a statement —“on
the attack on the right to vote in Georgia.”
March 26
During his first news conference, President
Biden became especially passionate when
discussing a law being pressed by Republi-
can lawmakers in Georgia that he said was in-
tended to make it harder for people to vote.
He reiterated those concerns the next day in
a written statement after Gov. Brian Kemp
(hopefully) signed the bill into law.
The law has come under fire for restricting
the distribution of food and water to people
standing in line, making it harder to cast abs-
entee ballots, reducing drop boxes for mail
ballots, barring mobile voting places and for
making significant procedural changes that
potentially give more power to the GOP-con-
trolled legislature in the future.
Biden has echoed many of those concerns.
But there was one line in both his news con-
fereces and his statement that kept us
puzzled experts who have studied the new
law. Let’s take a look.
The FACTS
On Election Day in Georgia, polling places
are open from 7 a.m. to 7 p.m., and if you are
in line by 7 p.m., you are allowed to cast your ballot. Nothing in the new law changes those rules.

However, the law did make some changes to early voting. Georgia experts say that one of the most significant was the creation of a new early-voting format. Georgia election officials had been considering expanding voting hours so voters can start casting ballots as early as 7 a.m. and as late as 7 p.m.—the same as Election Day in Georgia. Moreover, an additional mandatory early voting day on Saturday was added, as many Georgians said they would vote in the morning.

The law made a modest change, replacing a vague “normal business hours”—presumed to be 9 a.m. to 5 p.m.—to a more specific 9 a.m. to 5 p.m. time period. But that’s the minimum. Under the new law, counties have the option to extend the voting hours so voters can start casting ballots as early as 7 a.m. as and as late as 7 p.m.—the same as Election Day in Georgia. Moreover, an additional mandatory day of early voting on Saturday was added, as many Georgians said they would vote in the morning.

One could understand a flaw in a news conference. But the claim that voting had “expanded early voting for many Georgians.” Somehow Biden managed to turn that expansion into a restriction aimed at working people, calling the phrase “right off the face of the law.” There’s no evidence that is the case. The president earns Four Pinocchios.

WARNOCK ADMITS TO SIGNING EMAIL WITH FALSE INFORMATION ABOUT GEORGIA VOTING LAW
(By David Rutz)

Sen. Raphael Warnock, D–Ga., admitted to signing off on false information in a third-party advocacy group’s email that went out about early voting reform. H.R. 1 is the most radical overhaul of our elections system in an official presidential statement. Not a single expert we consulted who has studied the law understood why Biden made this claim, as this was the section of law that expanded early voting for many Georgians.

Sen. Raphael G. Warnock, one of two new Democratic senators representing Georgia, signed an email sent out by the advocacy group 3.14 Action as an example of Democratic misinformation, or fake news, in an effort to combat early voting reforms, as it claimed the new law restricted weekend early voting and ended no-excuse mail voting.

Sen. Raphael G. Warnock, one of two new Democratic senators representing Georgia, signed an email sent out by the advocacy group 3.14 Action after the law passed, which claimed it ended early voting and mail voting and restricted early voting on the weekends—also early proposals that did not become law,” the Post reported.

Those ideas were considered but did not make it into the final bill, which actually expands early voting in Georgia to 17 days, including two Saturdays. It also still allows no-excuse absentee voting, albeit with a shorter window of 60 days to apply.

The statement went out on March 30, five days after Georgia Gov. Brian Kemp, a Republican, signed the final bill into law.

A Warnock campaign spokesman told Fox News it approved the text of the group’s email before it was sent out, while the new law provisions were still under consideration. The spokesman noted the Georgia Senate passed a bill to end no-excuse absentee voting earlier in the year, and the new law originally proposed restricting weekend early voting.

However, neither provision made it into the final bill, as the 3.14 Action statement Warnock signed appeared to claim.

The new Georgia lawmaker is a staunch supporter of the For The People Act, a sweeping national voting bill which Republicans have slammed as a massive federal overreach and Democratic power grab.

Mr. SCOTT of Florida. It just goes to show you how out of touch the Democrats really are.

All my Republican colleagues and I want to see is more Americans vote, and I am thankful Senators BARRASSO and CRAMER are joining me in this effort today. We want a vibrant democracy in which citizens are engaged and participating in government at every level.

Sadly, the Democrats are refusing to work with us to protect our voting systems. Instead, the Democrats want to make it easier to cheat and harder to stop election fraud. That is why the Democrats are pushing H.R. 1, which would perpetuate distrust in our elections, impose anti-democratic mandates, and further erode our country’s institutions. H.R. 1 is the most radical piece of voting legislation this Nation has ever seen at a time when restoring confidence in elections has never been more important.

H.R. 1 removes the most basic safeguards against election fraud. The Democratic solution to election security is the same as their solution to all problems: a completely inept, big-government approach that fails at every level.

Before continuing, I would like to yield to my colleague from Wyoming and thank him for his leadership on this effort.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. BARRASSO. Madam President, I cordially join my colleague from Florida, former Governor and U.S. Senator, and talk about the Save Democracy Act and the issues that are facing our Nation today, and I want to
do that because over the past several weeks, Democrats, the media, their corporate allies have been misleading the American people about our voting laws.

Democrats have been pushing a false narrative all around the country, trying to scare Americans into thinking and pressuring Congress into passing a Federal election takeover.

Federal election laws and State election laws, as guided by our Constitution, are States that should be making the decisions about how we run our elections at home. But what you see coming out of the Democrats in their H.R. 1—that is called S. 1—is a law that changes things dramatically and takes decisions out of the folks at home in Wyoming and putting them in the hands of folks in Washington, DC. People in Wyoming, as I talked to them the last 2 weeks, don’t want anything to do with that.

Now, Democrats have this listed as their No. 1 priority bill for the year; otherwise, why would they have listed it as No. 1? Not coronavirus, not pandemic, not infrastructure—no, taking elections away from the States, putting them in the hands of Washington.

The bill is over 800 pages long. Virtually every page would, I believe, make it easier to cheat. That is not what the American people want. They want to make it easier to vote and harder to cheat.

The bill, H.R. 1, now S. 1, expands ballot harvesting, which is where paid political operatives, unsupervised, can go door to door, nursing home bed to nursing home bed, picking up people's ballots and deciding which ballots to turn in and which ballots to destroy.

The bill would register people automatically when they sign up for Medicaid or assistance in other forms from the government. It would force taxpayers to fund political campaigns and political operatives. Paying for campaign ads, your tax dollars would go for that and things that—a candidacy you might consider, say that it is States that should be making it harder to cheat. That is not what the American people want. They want to make it easier to vote and harder to cheat.

Paying for campaign ads, your tax dollars would go for that and things that—a candidacy you might consider, say that it is States that should be making it harder to cheat. That is not what the American people want. They want to make it easier to vote and harder to cheat.

The bill, H.R. 1, now S. 1, expands ballot harvesting, which is where paid political operatives, unsupervised, can go door to door, nursing home bed to nursing home bed, picking up people’s ballots and deciding which ballots to turn in and which ballots to destroy.

The bill would register people automatically when they sign up for Medicaid or assistance in other forms from the government. It would force taxpayers to fund political campaigns and political operatives. The Senator from Florida, Mr. SCOTT of Florida. Madam President, my goal is 100 percent participation and zero percent fraud. It is not voter suppression or racist to prove your identity for in-person voting. It is not voter suppression or racist to require ballot boxes to be monitored. It is not voter suppression or racist to make sure your vote is in on time.

My colleague wants to call any attempt to fight fraud in our elections voter suppression. My colleague wants to call any attempt to fight fraud in elections racist. That is just not accurate.

Voter ID should not be controversial. You need an ID to get on a plane, open a bank account, drive a car—even an ID to get into the White House. But we shouldn’t have an ID to vote for the President? It just doesn’t make sense.

Americans believe in voter ID. It is a logical step to make our elections more secure, and it is a simple change we can pass today.

I yield the floor.

The PRESIDING OFFICER. The Senator from Michigan.

AMERICAN MANUFACTURING

Ms. STABENOW. Madam President, first, I want to say I want to thank the Senator from Oregon for objecting to the previous motion, and I share his concerns.

I rise today to speak about some big choices our Nation has to make. Will we continue to limp along with an economy that works for only a few wealthy people or will we invest in making things in America and in our infrastructure and, most importantly, in our people?

Will we continue to allow other countries to outpace us on technology while remaining dependent on critical parts made on the other side of the globe or will we seize a future that is made in America?

And will we continue to ignore the climate crisis and leave it for the next generation to deal with and leave an even bigger catastrophe or will we take action right now—right now—to put our Nation on a path to a future of good-paying jobs fueled by clean energy?

I have often said that in Michigan we don’t have an economy unless someone makes something and somebody grows something. That is what we do in Michigan. We make things and grow things. And I know that my friend, the Presiding Officer from Minnesota, feels the same—making things, growing things. That is how we have an economy. It has been the secret to our success in Michigan and in so many other places around the country. We need to make things, and we need to grow things.

Unfortunately, while we have been talking about making things for a long time, the rest of the world has actually been acting.

It is estimated that the Chinese Government has invested at least $100 billion to support its electric vehicle industry. That might be why they have hundreds of companies making electric vehicles.

You can’t build a competitive auto industry without electric vehicles, and you can’t build electric vehicles without a whole lot of other component parts. They could all be made here, but most of them aren’t.

Right now, none of the major electric vehicle companies are American. They could be if we helped partner with them to make that happen.

And we have seen what happens when our automakers depend on semiconductors made overseas. Over the past few months, a shortage of computer chips no bigger than a Kellogg’s cornflake have idled multiple plants and led to layoffs in Michigan and across the country.

In fact, the Alliance for Auto Innovation estimates that U.S. automakers will produce a million fewer cars this year because of this shortage of this little chip.

It is not enough to say we need to build things in America. We all know that. But doing things here without first investing in our capacity and having a national strategy to build things here in America. Thankfully, we have a President of the United States who understands that. He understands that we are in and is ready to meet the moment.

Now it is time for Congress to step up. Senate Democrats are excited and ready to take action, working with the President of the United States and hopefully working with our colleagues across the aisle, in this moment for America and America’s future.

It is important to note that it won’t be the first time that actions we have taken here have had lasting consequences. More than 100 years ago, Henry Ford and Thomas Edison partnered to build an affordable electric car. That was the first kind of car they wanted to make—an electric car. They even built several prototypes in Dearborn, MI. The challenge, Ford told the New York Times in 1914, was “to build a storage battery of light weight which would operate for long distances without recharging.” Sound familiar?

That is a challenge most of our automakers are very familiar with today. Interestingly, around the same time, in 1916, Congress passed a change to the tax laws that in effect provided oil and gas companies interest-free loans. It was America’s first fossil fuel subsidy. Perhaps it is no surprise, then, that given the various issues and struggles and costs, Ford chose to focus on an internal combustion engine.

Just thinking about it, more than 100 years later, we are still lighting prehistoric plants and animals on fire to get to the grocery store and to get to work.

Now, it is true that my home State of Michigan benefited from these choices. We put the world on wheels. We are extremely proud of our place in history and extremely proud of the wonderful workers, the skill and ability of our workers. But I also understand that we would have been better off today if the issues of carbon pollution had been addressed long before.

The good news is that we have the opportunity now to fulfill Ford and Edison’s electric vision. Just last week, I toured GM’s new Factory ZERO, and we will have electric Hummers and electric Chevy Silverado trucks. These are big vehicles, and they are going to be all electric. It is very exciting. Stellantis has plans to build four new electric hybrid Jeeps in Detroit, and Henry Ford’s company is investing more than $22 billion to introduce electric versions of its vehicles, including Mustangs, Ford F-150 trucks, and commercial vans—all very exciting.

These changes are what we need right now, but our car companies can’t do it without a partnership with us, with the Federal Government. Just as companies around the world have not had to do it alone, we need to make sure we are partnering with them to actualize this vision for the future.

You know, the oil companies like to say—whenever we talk about various incentives for wind or solar or electric vehicles or batteries, they always like to say: We shouldn’t be picking winners and losers in this market. But I would argue that in 1916, with the first fossil fuel subsidy, our country picked a winner, and they have been subsidized over and over again and winning the energy race ever since. In fact, that subsidy is to the tune of at least $20 billion every year. Even in the tax cuts in 2017, the Republican tax cuts for the wealthiest and most well-connected people in the country, there was even another new foreign oil tax break in there.

I would argue it is time to give equal opportunity to competing technology and level the playing field. At the same time, we can create good-paying jobs here at home, revitalize American manufacturing, and put America in the driver’s seat of the clean energy future. That, we can do—that is so exciting to do—if we work with our President to get this done.

If we are going to build back better, it is time to start building. The first thing we can do is to pass the American Jobs Plan, which invests in American manufacturing, creates an American supply chain for products and technologies, and strengthens “Buy American” laws. This plan has been long overdue, I can tell you, and it is just the start of what we need to do.

My bipartisan American Jobs in Energy Manufacturing Act, which I introduced with Senator MCKINN and Senator Daines, would provide incentives for manufacturers to build and retool existing plants to make advanced energy parts like semiconductors and batteries and retool for electric vehicle
facilities. It builds on the successful 48C advanced energy manufacturing tax credit, which I authored in 2009. That helped boost U.S. manufacturing and create good-paying jobs then, and we can do it now.

On the Finance Committee, we are also working on legislation that would provide an investment tax credit for building American battery, semicon- ductor, and solar cell plants and a corresponding tax credit for producing these key components.

I am so pleased that President Biden’s American Jobs Plan includes electric charging stations as part of our infrastructure investment—it certainly is part of our infrastructure for the future, for today and tomorrow—and consumer incentives to purchase electric vehicles.

We also need to make sure that American taxpayer dollars are spent on American products. You know, that sounds simple, but that is actually not what is happening in every courtroom now, even though we have had laws on the books for decades and decades and decades.

My bipartisan Make It in America Act with Senator BROWN makes it harder for Agency contractors to use waivers to get around “Buy American” rules to purchase foreign-made products. Right now, there has not been enough accountability and structure to make sure that waivers are not being given out for things that can be made of foreign cars. That needs to stop.

I also want to thank Senator TAMMY BALDWIN for her leadership on these “Buy American” issues as well.

The Federal Government is an enormous consumer, and we are set to make big infrastructure investments. “Buy American” rules mean that American dollars flow into local economies when we purchase American-made PPE and American-made iron and steel and American-made electric vehicles. These rules also create good jobs, and we will need highly trained workers to fill them. By investing in our workforce, which is an important part of this plan, we will help the 18 million Americans currently on unemployment find new opportunities—and others as well—new opportunities for good jobs and will ensure that our young people are on a path for good-paying jobs, including skilled trades, after high school.

I also want to focus on supporting our community colleges and uplifting and expanding registered apprenticeship programs because these institutions and programs help build our middle class and ensure working people have the skills they need to thrive, not just survive. These are great-paying jobs, professional jobs, licensed, highly skilled jobs, and we need to be encouraging more and more young people to be able to choose these jobs.

Henry Ford once said this, one of my favorite quotes:

What’s right about America is that, although we have a mess of problems, we have great capacity—intellect and resources—to do something about them.

There is no doubt that we face big challenges, but Henry Ford was right: We do have great capacity, intellect, and resources to do something about them. Now, we have to do that, to act. People in Michigan have been waiting long enough, waiting too long, and people across the country have waited far too long for us to act on what we know we can do to make things in America, to remake things in America. We can make this an American moment, or we can sit back and wait for the future to happen to us.

This is the moment to invest in our workers who build our country’s infra- structure, including those things we need today that they didn’t need 100 years ago, like high-speed internet and electric charging stations, and the things that we will need to make us successful and global leaders moving forward.

We need to rebuild our supply chains in America so we are not being held up because of a really important part that is made only in one country halfway around the world. That is absurd. We can do that. We can do that by deciding we are going to invest in America. And we need to use the power of American ingenuity to ensure a livable and prosperous future for everyone.

This is the moment to act. I am excited about that. I know that we have this moment right now to be able to jump-start the future, to be able to build our economy back better, to make things in America, and I hope we will seize this moment.

I yield the floor.

The PRESIDING OFFICER. The Senator from Iowa.

COVID–19 HATE CRIMES ACT

Mr. GRASSLEY. Madam President, today, I would like to introduce the Hate Crimes Act to rise in violent crime and in particular the hate crimes against Asian Americans and Pacific Islanders.

Every single one of us ought to be terrified to see our fellow Americans attacked because of their race or ethnicity. We are united in our opposition to this hateful violence. We are united in seeing it investigated and pros- ecuted to the fullest extent of the law. I introduced a resolution to this effect, and I was pleased to have my Senate colleagues to join me.

I am very happy to see that Attorney General Garland has turned his atten- tion to this problem. On March 30, he directed the Department of Justice to engage in a 30-day review of the Dep- artment’s response to hate crimes. I hope the Senate will benefit from the results of that review. However, our re- sponses to the problem of hate crimes must be guided by the facts and a pur- suit of sound policy. I am not sure that we have the time to arrive at a legislative solution that will make a difference to preventing, deterring, and punishing these crimes.

Along with my colleague Senator COTTON, the ranking member of the Subcommittee on Criminal Justice and Counterterrorism, we are requesting a full or subcommittee hearing on the issue, and we should do that after the Attorney General’s review has been completed.

We now have before the Senate S. 937, the COVID–19 Hate Crimes Act, being introduced before the Attorney General’s review began and appears to be duplicative or even in conflict with some of the DOJ’s existing efforts. This does not seem to me to be the best path, but that is the path the Senate is on now, and I voted to proceed hours ago to S. 937. I am thankful that it is coming up. I know that Members of the Republican caucus have amendments that will hopefully improve the bill and make it a very useful piece of legislation.

We hope these amendments will be listened to and fairly considered by our Democratic colleagues. This is too im- portant of an issue to get wrong.

ELECTION SECURITY

Madam President, now, on another point. Between Democrats who believe Russia rigged the vote to elect Trump and Republicans who believe various theories questioning Biden’s election victory, they all add up to what seems to be a bipartisan supermajority of Americans casting doubt about our elections. In fact, one prominent claim by some Trump supporters that a particular brand of voting machine switched Trump votes to Biden appears to have been plagiarized from the Democratic Party’s playbook from the election of 2004.

I heard from many left-leaning Iowans at that time who questioned President Bush’s victory based on claims that a particular brand of voting machine switched votes in Ohio. That was 2004. It seems kind of similar, doesn’t it, today.

Those totally unsubstantiated claims ultimately led Democrats to force a vote in a joint session of Congress in 2005 to reject Ohio’s electoral votes cast for President Bush. There are still Democratic Members of Congress in both Chambers who voted to overturn Ohio State’s certified election in 2004.

Now, after the 2018 gubernatorial election in Georgia, the losing Demo- cratic candidate refused to concede, even though evidence that would stand up in court, that she, as a Demo- cratic candidate for Governor of Geor- gia, would have won but for voting irregularities. Now, rather than distance itself from questioning a cer- tified election in 2018, the Democratic Party invited her to speak at their con- convention in 2020.

Two years later, the tables are now turned. Trump lost Georgia by a far smaller margin than that Democratic candidate for Governor in Georgia in 2018 did, but we are now told that to suggest that there were flaws in the 2020 Georgia election is somehow uncon- ceptable and undermining democracy.
It is pretty obvious, after this history, that we need to break the cycle of partisans questioning elections when their side lost or it is OK to complain when their side lost, but if the other side does the same thing, there is something wrong with it. So there is a lesson for both Republicans and Democrats. Both parties must stop finger-pointing, stop blaming, and stop the partisan accusations. We all need to work together to restore Americans’ faith in elections.

So that brings me to something very current because it passed the House of Representatives. So that brings me to the Democrats’ so-called For the People Act. Incidentally, don’t you find that name a little creepy? So often in history, when people claim to speak for “the people,” they were just seeking power.

For the People Act was introduced after the 2018 midterms as a clear political statement to build the hyperpartisan narrative that Democratic victories were due to widespread voter suppression.

Now, we always hear about voter suppression before and since the 2020 election, but just think of the historic turnout—not only the historic turnout that the losing candidate had but the historic turnout that the winning candidate had. And yet we have voter suppression.

H.R. 1 was then, and remains, a hastily cobbled together collection of every Democratic proposal for new election mandates. No care was taken to make it workable. It is evident that State and local election officials were not consulted in its drafting.

You know, just to consider the size of the bill, the Voting Rights Act of 1965, I think, was only two pages. For the People Act, the bill introduced, is over eight hundred pages.

Now, that bill that I just talked about had actually passed the House in 2019 and was pending directly on the Senate calendar at Senator SCHUMER’s request. Now, this is very typical of political messaging bills so the minority leader can force a vote to proceed. I assume, in 2019, that Senator SCHUMER did not force the Senate vote to take up the bill because partisan activists got more traction out of blaming Leader MCCONNELL for not bringing it up. Regardless, in 2019, it was clearly designed as a messaging bill and not designed to ever get to the President’s desk.

Now, in 2021, we are back at it again, considering a totally partisan messaging bill that would radically rework all States’ election systems, where it has been for nearly two hundred years. The primary concern of the State legislators and Congress seldomly intervening. I suppose the most obvious is that on a certain date in November we all have Presidential elections and congresional elections on the same date in all 50 States, but beyond that, it is pretty much up to each State how they want to conduct their elections.

So how does this bill, passing the House, once again, over here in the Senate—how does that jibe with the message from Democrats just a couple of months ago that State-run elections are beyond reproach? Don’t you remember? Because all 50 States had State-sponsored elections, that gave Biden his win.

Now, it is pretty common sense. Either State-run elections are fundamentally flawed and unfair, requiring massive Federal intervention and Americanizing what were once only State-run elections. That is not taking a moral stand, or State-run elections are, by and large, very fair, and Americans can have confidence in the outcomes.

Either way, the same principle should apply to the last several elections whether Republicans or Democrats were relatively more successful in each case. I get it. I get it that having unleashed this partisan tiger—the bill that came from the House of Representatives—was hurry to get that partisan tiger back in the cage.

But when this bill fails, as it must, we need to tamp down the partisan accusations and work across party lines to restore faith in American elections. Now, the way the environment here is in Washington and in Congress, it isn’t going to be easy, but the alternative is unthinkable.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. BARRASSO. Madam President, I come to the floor today to oppose the Democrats’ latest liberal spending spree. Just over a month ago, Democrats put $2 trillion onto America’s credit card. They said it was for coronavirus. That was false advertising, and that is because only $1 out of every $11 in the $2 trillion being spent was actually going to public health.

The bill turned out to be a big payoff to the people who run the Democratic Party: the union bosses, the DC bureaucrats, and the bankrupt blue States. Democrats crammed the bill through the Senate with just 50 votes. Democrats haven’t even finished their victory lap.

Yet, at this time, they want another $2.3 trillion. They have already told us they are going to cram it through with just 50 votes, once again, and, once again, they are using more false advertising.

President Biden calls this an infrastructure bill. Well, that is a new definition of the word “infrastructure.” Only about $1 out of every $20 would go to roads and bridges.

Now, here are just a few other items that the Democrats call infrastructure: $100 billion for so-called workforce development and over $300 billion on housing and upgrading of Federal buildings. Federal buildings—those ones we work in. It includes $100 billion for something called the greening of schools, which, when you go through and see what that does that include, it includes making greener lunches. It includes eliminating paper products in the cafeterias and making the cafeteria trays that people use to carry their food, makes each one of those into trays that can be recycled.

CONGRESSIONAL RECORD — SENATE
S1931

April 14, 2021

the administration caught it. The company went bankrupt—$500 million taxpayer dollars gone forever.

President Biden is bringing back this kind of central planning. It is all in the name, he says, of green energy. If we pass this bill, I will tell you that we are going to see another Solyndra and another one after that and another one after that.

So how are Democrats going to pay for this piece of legislation? Well, they are going to cut through the largest tax increase of the century. They are going to use 15 years’ worth of tax increases to pay for 8 years of spending. So the spending is temporary, but the tax increases will be permanent.

If the bill becomes law, it will be harder for American companies to compete with companies in other countries, and the concern is that means more companies are going to move overseas because taxes there will be lower. When they do, they are going to take American jobs with them. You know, with the Republican tax cuts that we did in 2017, we saw $1 trillion flow back into this country in just 2 years. President Biden is ready to send all of that money back overseas.

The official name of the bill is the American Jobs Plan. Yet it is not much of a jobs bill. The jobs this bill would allegedly create would cost $800,000 each job. It is a lot to pay for a single job when communities all across the country have outside of their businesses “Help wanted” signs. I saw one in Afton, WY, last week. A small community in western Wyoming there is a convenience store, and the sign said: “Your father called. He said you need a job. We’re hiring.”

There are signs like that all over the country. Small businesses and small business owners I have talked to continue to say: We cannot find people to hire. Yet the administration has jobs bill, they say, where it is going to cost taxpayers $800,000 for each job to create. At the same time, the bill is going to eliminate many good-paying energy jobs, and that is a real concern.

Democrats are cramming this through at a time when our economy is already recovering. The pandemic is coming to an end. The experts say we are going to create 11 million more jobs over the next 4 years even if we don’t pass this bill. And there are jobs available today.

One analysis from the Wharton Business School said the bill would actually slow down the economy. That is because the bill would discourage businesses from investing. It is not an infrastructure bill, not much of a jobs bill. It is a slush fund for more liberal spending. That is what is on the minds of the Democrats who are pushing this bill forward.

It is clear what the United States needs right now. We need real infrastructure improvements. We need a real infrastructure bill—one that will build road, bridges, our waterways, and allow us to do things faster and better and cheaper and smarter. If Democrats want to do that, Republicans are ready to support it.

Last Congress, I worked with Senator Tom Carper of Delaware on a bipartisan DEMOCRATIC bill in the Senate Environment and Public Works Committee. I chaired it in the last Congress. Our bill was so bipartisan that Senator Bernie Sanders voted for it, and so did I. It passed the committee unanimously, 21 to 0. When we went to work with the House on the legislation, they ignored it and replaced it with the Green New Deal.

That is what President Biden is doing right now as well. He is ignoring the bill we passed and trying to sneak the Green New Deal into law.

So I would urge my Democratic colleagues to reverse course, to throw out this liberal wish list, this slush fund of liberal spending, and start over working in a bipartisan way with Republicans.

We should start with a bipartisan bill that the Senate Committee on EPW passed last year. Instead of paying off the unions and the climate activists, let’s rebuild our roads and our bridges and do it in a way that works for all Americans.

Thank you.

I yield the floor.

The PRESIDING OFFICER (Mr. Burr). Mr. President, I rise today to pay tribute to the life of a gentleman named Alvin Sykes, who passed away on March 19, 2021, in Kansas City, MO.

Teddy Roosevelt once famously said, in life, “The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; who errs, who fails, and who does actually strive to do the deeds; who knows great enthusiasms, [the] great devotions; who spends himself in a worthy cause.”

Alvin Sykes was the man in the arena. He was a man who knew great devotion, who dedicated himself to a worthy cause, and who helped move our Nation even closer to our founding promise of “liberty and justice for all.”

Alvin was born to a teenage mother. He ended his public school enrollment after the eighth grade, but he never ended his education. In his own words, Alvin transferred from public school to the public library.

In the coming decades, Alvin immersed himself in learning about civil rights crimes and cold cases, becoming an expert on an often overlooked issue. He researched the history of these tragic crimes, the relevant laws, and the statutes of jurisdiction. After Alvin testified about such cases before Congress in 2007, one Member mistakenly assumed he was an attorney. Alvin replied that he was not an attorney, but it was evident the knowledge and insight he possessed on these issues surpassed even the best-educated lawyers in this town.

What made Alvin so remarkable, however, wasn’t the knowledge he accumulated, but what he did with what he learned more than 70 unsolved civil rights crimes—the ones no one talked about, the ones no one looked into—Alvin realized we needed a system in place to investigate those cold cases and uncover the truth.

Alvin Sykes ran for Congress in 2016 through Senator Tom Coburn, a great and dear and missed friend today. Dr. Coburn ran into Alvin Sykes and heard this story and built a relationship that wasn’t just personal—it was professional—because he wanted to help Alvin fix these wrongs.

Through Alvin’s advocacy and guidance, I joined Congressman John Lewis—a civil rights icon who, sadly, also passed away this last year—to introduce the Emmett Till Unsolved Civil Rights Crimes Reauthorization Act. The legislation was named for 14-year-old Emmett Till, who was brutally murdered in Mississippi in 1955 and whose killers were acquitted.

Last year, Alvin reached out to me again, seeking to posthumously recognize Emmett Till and his mother Mamie Till-Mobley for their role in starting the civil rights movement. His advocacy led me to introduce legislation with Senator Booker to award Emmett Till and Mamie the Congressional Gold Medal, the Nation’s highest civilian honor. I can’t think of two individuals more worthy of it than them.

This bill is also a worthy coda for Alvin Sykes’ life and his legacy. You see, Alvin was born only a year after Emmett Till’s mother. When he became involved in that case, he heard Emmett’s mother Mamie say she had been fighting to get justice since 1956.

Alvin said he thought to himself: I was born in 1956. That means she has been trying to do one thing my entire life.

Now Alvin is no longer with us, but the pursuit of justice for the Till family continues. My hope is that Congress will soon pass this legislation to recognize and honor their legacy today. Though, though, I want to give Alvin the credit and the honor he deserves. His passion, his advocacy, and his high achievements made our Nation a better place.
Personally, I learned from Alvin Sykes. I admire Alvin Sykes. I mourn his passing. I pay tribute to him today and thank God that he created Alvin Sykes. I suggest the absence of a quorum.

Vaisakhi and the 400th Birthday of Guru Teg Bahadur

Mr. TOOMEY, Mr. President, I rise today to join my Sikh friends, Pennsylvanians’ Sikh community, and Sikhs around the world in recognizing two important Sikh celebrations taking place this week: (the holiday of Vaisakhi and the 400th anniversary of the birth of Guru Teg Bahadur).

Sikhism traces its origins to the Punjab region of India and has flourished around the world for nearly 600 years. The Sikh tradition is built upon negotiating conflict between various religions and the principle that every person is created equal before God, no matter their race, gender, religion, or creed. Today, Sikhs number 30 million globally, making Sikhism one of the world’s major religions.

Vaisakhi is celebrated around the world in recognizing two important Sikh celebrations taking place this week: (the holiday of Vaisakhi and the 400th anniversary of the birth of Guru Teg Bahadur).

Sikhs will also mark the 400th anniversary of the birth of spiritual leader Guru Teg Bahadur. Rismark the spring harvest and serves as a day of reflection of Sikhism’s origins. As a proud member of the American Sikh Congressional Caucus, each year, I join many voices across Congress and the United States in commemorating the holiday of Vaisakhi, which took place on April 13 this year. Vaisakhi marks the spring harvest and serves as a day of reflection of Sikhism’s origins. During Vaisakhi, Sikhs commemorate the founding in 1699 of the Khalsa Panth, an order of devout Sikhs who played a fundamental role in cultivating and upholding the religion’s history and identity.

As Sikhs recognize Vaisakhi with parades, dancing, singing, and other festivities, Sikhs also commemorate this special day with community service. It is through their ongoing philanthropic support, hard work, and volunteering in various community projects. In years past, Sikhs from around the country have organized a parade here in Washington, DC to commemorate Vaisakhi as National Sikh Day. While the pandemic has prevented such large-scale public celebrations both last year and this year, I look forward to welcoming Pennsylvania’s Sikh community back to D.C. in the years to come.

In addition to celebrating Vaisakhi, Sikhs will also mark the 400th anniversary of the birth of spiritual leader Guru Teg Bahadur on April 18. The Ninth Guru of Sikhism, Guru Teg Bahadur is remembered as a champion of religious liberty for all. In 1675, Guru Teg Bahadur confronted Moghul Emperor Aurangzeb against the forced religious conversation of Hindus, an act for which he was publicly beheaded in Delhi. In giving his life to protect a religion that was not his own, he is fondly remembered by Sikhs as Dhram Di Chadar, or Shield of the Religions.

I extend my best wishes to the Sikh community for the joyous celebrations of Vaisakhi and the 400th anniversary of the birth of Guru Teg Bahadur.

S. 1126. A bill to amend the Education Sciences Reform Act of 2002 and the Educational Technical Assistance Act of 2002 to strengthen research in adult education; to the Committee on Health, Education, Labor, and Pension.

Mr. REED. Mr. President, I am pleased to introduce the bipartisan Strengthening Research in Adult Education Act with my colleague, Senator Young. We are in urgent need of identifying and disseminating innovative and effective methods for supporting adult learners. Our legislation will ensure that there is a strong research base to improve the teaching provided for, and the learning of, adults seeking to advance their literacy, numeracy, and digital literacy skills. The most recent data from the Program for the International Assessment of Adult Competencies show an urgent need for action in adult education with an estimated 39 percent of adults ages 16-65 in the United States performing at the lowest levels of literacy; twenty-nine percent at the lowest levels of numeracy; and 24 percent at the lowest levels of digital problem solving. This is a dire situation. These are essential skills for postsecondary education and the workplace. Beyond their value in the labor market, these skills are also correlated with health and civic participation, making adult education critical to improving the health and well-being of our people, our economy, and our democracy.

In Rhode Island, it is estimated that nearly 82,000 working age adults have less than a high school education. Over 55,000 have limited English proficiency. Yet, we are reaching just over 5,000 through the current adult education program. Clearly, we need more resources and innovative, research-based ways to reach more people.

The Strengthening Research in Adult Education Act will support the key reforms in adult education in the Workforce Innovation and Opportunity Act by ensuring that adult education is included in our national education research priorities. Specifically, the Strengthening Research in Adults Education Act will amend the Education Sciences Reform Act to require the Institute for Education Sciences and the National Center for Education Statistics to collect data and carry out research on: successful State and local adult education and literacy activities, the characteristics and academic achievement of adult learners, and access to and opportunity for adult education, including digital literacy skills development, in communities across the Nation. It will also ensure that the Institute of Education Sciences draws on the expertise of adult educators when developing policies and priorities. Finally, the legislation would require that at least one research center would focus on adult education.

These straightforward amendments to the Education Sciences Reform Act will go a long way to strengthening the research base to support the improvement of adult education across the country. I was pleased to work with the adult education community, and particularly, the Coalition of Adult Basic Educators and the National Coalition for Literacy in developing this legislation. I urge my colleagues to support the Strengthening Research in Adult Education Act and to work with me to ensure that its provisions are included in the reauthorization of the Education Sciences Reform Act.

SENATE RESOLUTION 156—COMENDING THE OFFICERS AND PERSONNEL OF FEDERAL, STATE, AND LOCAL AGENCIES DEPLOYED BY AIR, GROUND, AND WATER AS TACTICAL BARRIERS FOR THEIR WORK DURING THE CRISIS AT THE SOUTHERN BORDER

Mr. SCOTT of Florida (for himself, Mr. LANKFORD, Mr. CRUZ, Mr. JOHNSON, and Mr. HAWLEY) submitted the following resolution, which was referred to the Committee on Homeland Security and Governmental Affairs:

Whereas U.S. Customs and Border Protection (referred to in this preamble as “CBP”) is charged with protecting the borders of the United States and facilitating travel and trade; 
Whereas President Biden promised a humane approach to immigration but the Biden Administration was woefully unprepared for a surge of migrants from Central America, including a record number of vulnerable, unaccompanied children unlawfully crossing the unsecured United States-Mexico border (referred to in this preamble as the “Southern border”); 
Whereas the Southern border is experiencing a humanitarian crisis with unprecedented numbers of vulnerable individuals attempting to unlawfully enter the United States; 
Whereas, on March 13, 2021, the Department of Homeland Security directed the Federal Emergency Management Agency to support a government-wide response effort to address the surge of unlawful crossings at the Southern border; 
Whereas, in February 2021, 108,411 individuals were apprehended at the Southern border, which is a 28 percent increase from January 2021; 
Whereas a total of 458,088 individuals were encountered at the Southern border in fiscal year 2020, which is only 61,130 encounters more than the number recorded in the first half of the current fiscal year; 
Whereas, in all of fiscal year 2020, 33,229 unaccompanied minors were encountered at the Southern border, which is only 3,510 encounters more than the number recorded in the first half of the current fiscal year; 
Whereas CBP agents conducted more than 3,000 daily apprehensions, while still maintaining a posture to secure the border of the Nation and facilitate international trade and travel; 
Whereas the immigration policies of President Biden are: (1) luring hundreds of thousands of migrants to unlawfully cross the Southern border; (2) leading to an alarming increase in human trafficking and drug smuggling by cartels and transnational criminal organizations; and (3) putting unaccompanied minors at risk of human violence, sexual abuse, and separation from the families of the unaccompanied minors; 
Whereas numerous acts of selfless heroism by CBP agents occur on a daily basis, as the agents face dangerous conditions but continue to risk their lives during a global health pandemic to prevent migrants attempting to unlawfully enter the United States along the Southern border; 
Whereas the selfless heroism by CBP agents has grown as the crisis at the Southern border grows and thousands of aliens attempt to unlawfully enter the United States each day, including recently reported resources: (1) in February 2021, of a migrant woman from Mexico abandoned by human smugglers and left to die in a freezing winter storm as they attempted to unlawfully enter Texas; (2) in March 2021, of a migrant man and a 2-year-old child swept away by a swift current in a canal as they attempted to unlawfully enter Arizona; (3) in March 2021, of a migrant man who was abandoned by human smugglers unlawfully entering California, remained missing for 8 days, and had to be carried out of the mountainous terrain on the shoulders of a CBP agent; and (4) in March 2021, of a migrant in severe distress in a remote desert location who was abandoned by human smugglers attempting to unlawfully enter New Mexico and who required medical attention; 
Whereas faced with inadequate Federal resources to manage the surge of illegal border crossings, States along the Southern border have installed their own border protection patrols, such as Arizona Border Strike Force and Operation Lone Star in Texas; and 
Whereas resources from Federal, State, and local agencies will need to be diverted from other areas to handle the surge of migrants unlawfully entering the United States: Now, therefore, be it 
Resolved, That: (1) recognizes that there is an ongoing and growing crisis on our Southern border; and (2) commends the men and women of the U.S. Customs and Border Protection, including Border Patrol personnel, Office of Field Operations personnel, Air and Marine Operations personnel, Office of Trade personnel, the Federal Emergency Management Agency, and all support personnel and allies of such agencies from State and local governments for the work of such men and women during the crisis at the Southern border.

(a) FINDINGS.—Congress finds the following:

(1) According to the American Journal of Emergency Medicine, during the COVID–19 pandemic, and in the absence of such violence, the country reported increases in domestic violence.

(2) One study, published in the journal Radiology, found that at Brigham and Women’s Hospital in Boston, radiology scans and superficial wounds consistent with domestic abuse from March 11 to May 3 of last year exceeded the totals for the same period in 2018 and 2019 combined.

(3) Lockdowns associated with the COVID–19 pandemic increased the isolation of survivors, and abusers having taken advantage of that isolation to further exert power and coercive control.

(4) Domestic violence programs and hotlines across the country have seen a substantial increase in contacts since the beginning of the COVID–19 pandemic.

(5) Especially in rural areas, survivors are often far from local law enforcement, and steps taken to mitigate the spread of COVID–19 have only exacerbated that disparity.

(7) Survival and the Violence Against Women Reauthorization Act of 2013 (Public Law 113–4; 127 Stat. 54) that lasts through the COVID–19 pandemic ensures that survivors can have their needs met, and ensures that their abusers are subjected to justice.

IN RECOGNITION OF SANDRA L. FENWICK’S SERVICE AS CEO OF BOSTON CHILDREN’S HOSPITAL

HON. KATHERINE M. CLARK
OF MASSACHUSETTS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 14, 2021

Ms. CLARK of Massachusetts. Madam Speaker, I rise today to honor Sandra Fenwick’s achievements as the Chief Executive Officer of Boston Children’s Hospital. Ms. Fenwick, known to most as Sandi, has served as CEO of Boston Children’s since 2013 and for fourteen years prior, served as the hospital’s Chief Operating Officer. Sandi has led the hospital’s efforts to control costs and adapt to a changing health care environment. As CEO, she leads a team of 20,000 people dedicated to improving and advancing child health through the delivery of high quality clinical care, advancing groundbreaking biomedical research, providing medical education to the next generation of pediatric providers, and investments in the community. Boston Children’s is the primary pediatric teaching affiliate for Harvard Medical School and the largest pediatric training program in the nation. The hospital is the largest pediatric research entity in the world. Each year, they care for children from all 50 states and more than 100 countries, seeing more pediatric patients with rare diseases and complex conditions than any other hospital in the world. Boston Children’s has been ranked the No. 1 children’s hospital by U.S. News and World Report every single year since Sandi has been the CEO.

As a Member of Congress who represents children and families in the Boston area, and as a parent myself, I am deeply grateful to have an institution like Boston Children’s in my home state. It is the leadership, provided over the years by Sandi Fenwick and the fantastic team that she has cultivated, that has led this institution to thrive and become one of the greatest resources for children in our local communities and around the world.

My work with Sandi goes back many years to my time at the Massachusetts State House and more recently, here in Congress. In the face of growing threats to our children’s health and well-being, there is no better advocate for them than Sandi Fenwick. She has walked with patients and families through the State House and the halls of Congress, to help tell their stories and she has worked passionately behind the scenes to ensure investments in their care every day for years. Her voice for children reaches beyond the walls of the hospital and indeed, beyond Boston—in particular through her service as the Chair of the Public Policy Committee of the Children’s Hospital Association.

Sandi had planned to announce her retirement a year ago and chose to remain at the helm of the hospital to see them through the most intense part of the COVID–19 pandemic. We all know what challenges that hospital and its community have faced in the past year. Under Sandi’s leadership, Boston Children’s has been a constant presence for our children and this month, she leaves the institution poised and ready to work on the challenges of the future. I applaud her achievements and want to wish her well in her retirement and all future endeavors.

Mr. BURGESS. Madam Speaker, I rise today to acknowledge the distinguished career of Laura Hill, the current Mayor of Southlake, Texas. A true model of civic leadership, Mayor Hill has endeavored to serve her community to her fullest capacity for almost two decades. As her second mayoral term comes to a close, it is my privilege to recognize her estimable accomplishments.

Mayor Hill's public service began with her election to the Southlake City Council in 2004. During her tenure on the Council, Mayor Hill worked to improve the quality of life for the citizens, especially the children, of her community. She founded the Students and Parents Against Risks to our Kids (S.P.A.R.K.) organization. In order to promote the intellectual as well as the physical well-being of the children in her community, Mayor Hill also established S.A.S.O. (Scholars and Athletes Serving Others) and S.K.I.L. (Southlake Kids Interested in Leadership) during her years as a City Councilwoman. With her election as Mayor in 2015, she has continued to promote the interests of the community's youth through school safety initiatives, the “Mayor for the Day” program and cooperative working groups with local high school students.

Mayor Hill has championed the city's businesses and citizens with her leadership efforts to enhance the quality of life through sound fiscal management, excellent recreational offerings, public improvements, promotion of unity and cultural diversity, and strengthening communication within her community during the pandemic through outreach programs, virtual town halls, and a cohesive and coordinated approach to reopening municipal government. Her tireless efforts in bolstering the efficiency and efficacy of municipal operations and its workforce have been invaluable to her constituency.

It is with great appreciation for her tremendous contributions of time and effort to Southlake and North Texas that I offer Mayor Hill congratulations upon the completion of her second mayoral term. HON. DEBBIE DINGELL
OF MICHIGAN
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 14, 2021

Mrs. DINGELL. Madam Speaker, I rise today to recognize Joan McFarland of Riverview on the occasion of her 100th birthday. Her contributions to our nation are worthy of commendation.

Mrs. McFarland was born in Canton, Ohio, and came to Ecorse, Michigan in 1933 when her father got a job at Great Lakes Steel during the Great Depression. A graduate of Ecorse High School, she was considered the class artist. At age 20, she married her husband but only a week after their wedding, Pearl Harbor was attacked and World War II began. He left to serve overseas, and Mrs. McFarland joined Ford Motor Company to build aircraft engines. As a Rosie the Riveter, Joan’s hard work, grit, and patriotism not only sustained the American war effort, but paved a path for the next generation of working women.

When her husband returned from the war in 1947, the couple made their home in Lincoln Park, Michigan. Nineteen years later, the family moved to Southgate and purchased a party store. Together they had five children before her husband passed at the age of 51. Mrs. McFarland is known by family and friends for her kind spirit and caring personality.

A proud Rosie, she remained an active member of our community through her church, St. Pius X Catholic Church in Southgate. Her lifelong commitment to service in her church and neighborhood reminds us all of the impact that the Rosies have had on our state and nation.
Madam Speaker, I ask my colleagues to join me today in celebrating Joan McFarland on her 100th birthday. HONORING THE CORPUS CHRISTI ARMY DEPOT (CCAD)

HON. FILEMON VELA
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 14, 2021

Mr. VELA. Madam Speaker, I rise today to honor the Corpus Christi Army Depot (CCAD) as it celebrates 60 years of operations as the premier rotary winged helicopter repair and maintenance facility for the United States Army. Established on March 10, 1961 as the U.S. Army Transportation Aeronautical Depot Maintenance Center (ARADMAC), Naval Air Station, Corpus Christi, it was accepted by the U.S. Army on April 21, 1961 and officially re-designated as the CCAD in 1974.

CCAD has become a critical asset in Army readiness since helicopters first took center stage of combat operations during the Vietnam War. Throughout Corpus Christi and the Rio Grande Valley, the names Huey, Chinook, Black Hawk, and Apache evoke pride in our Veterans, active duty personnel, and retired service members and civilians alike, whether in war or peacetime. Members of CCAD served valiantly on the USS Corpus Christi Bay (formerly the USS Alabemare) during the Vietnam War as the Army’s sole floating maintenance depot and saved time, money, and lives during the conflict.

Thousands of troops and civilian contractors have walked the halls, worked in the hangars, turned the wrenches, flown the aircraft and dedicated themselves to the operation of CCAD since 1961. Their commitment to the mission of the United States Army safeguards the freedom and security that citizens of the United States enjoy today.

I am proud to honor CCAD, and I ask my colleagues to join me in recognizing and showing deep appreciation for the service of all personnel of the CCAD, past, present, and future.

Even in the midst of a global pandemic, like a battle-hardened soldier, CCAD remains strong, committed, and dedicated to “Keep the Army Flying”.

HON. COLIN Z. ALLRED
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 14, 2021

Mr. ALLRED. Madam Speaker, I am honored to congratulate the Baylor University men’s basketball team for their historic achievement in winning the 2021 NCAA national championship.

This marks the very first men’s basketball championship in the history of the school, and it caps off an incredible season in which the team held a 28–2 record and were the Big 12 regular season champions.

I played college football at Baylor, and I know that it is a place filled with committed,
student-athletes who work together to achieve great things. It takes a tremendous amount of hard work, practice, and teamwork to reach this level of success, and those qualities abound in this team.

In a basketball season like no other, this accomplishment was hard-fought, and it reflects the dedication of each and every player, the leadership of Coach Scott Drew and the team’s entire coaching and support staff as well as all their families and friends.

An achievement such as this does not happen without the support of an entire community.

It is such a privilege to recognize this outstanding group for their dedication, perseverance, and ultimately succeed in bringing a championship home to Baylor.

As a former Bear, I could not be prouder. Sic ‘em.

IN CELEBRATION OF PATRICIA "PATTIE" MANSUR’S SERVICE TO KANSAS CITY PUBLIC SCHOOLS

HON. EMANUEL CLEAVER
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 14, 2021

Mr. CLEAVER. Madam Speaker, I rise today with immense appreciation for Patricia “Pattie” Mansur’s years of service to the students and community of Kansas City, Missouri as a member of the Kansas City Public School Board. Over the years, Pattie has demonstrated the passion, integrity, and determination that we hope the students whom she served will emulate as they become leaders in their own right.

Pattie’s time on the School Board is a testament to what can be accomplished when concerned citizens engage with their community to overcome difficult issues. When Pattie enrolled her children into Kansas City Public Schools (KCPs), she recognized that its teachers and students were burdened as a consequence of deep-seated inequities, iniquitable opportunities, and transient leadership. Instead of simply lamenting those problems, Pattie set about building coalitions, engaging the community, and eventually, winning an at-large seat on the School Board. During her time in office, Pattie worked hard to build a strong foundation that future School Boards will expand upon for years to come.

She helped recruit Dr. Mark Bedell, an administrator dedicated to equality in education, to serve as the superintendent. Dr. Bedell, along with Pattie and other Board members, secured the stability and leadership necessary for the district to implement a one-of-a-kind equity policy that has provided additional resources to chronically underfunded schools. Pattie also worked to increase the number of AP and dual-credit courses offered across KCPs high schools, ensuring that all students had the ability to earn college credit while attending high school. She engaged with private businesses to build and renovate existing fields, stadiums, and other venues so that every student has the opportunity to participate in sports and other extra-curricular activities. Through our work together, we have created opportunities by how we spend our dollars, Pattie fought for increased teacher pay and further investment in new technologies that have helped educators connect with the next generation of students. As the district celebrated noticeable improvements in graduation rates and college readiness, she was a champion in the fight for full accreditation from the Missouri Department of Early and Secondary Education. Inspired by their advocacy and her dedication to the Kansas City school system, Pattie’s three beloved children is now a teacher in the KCPS system. These accomplishments not only had a positive impact on children currently enrolled in KCPS, but will also continue to generate equitable opportunities for the next generation of KCPS students. Pattie’s time on the School Board, Pattie has further served the Kansas City community through a number of non-profit organizations. She continues to serve as the Director of Health Policy and Communications for the REACH Healthcare Foundation, which works to improve access to healthcare for uninsured and underserved communities. As Director, she’s advocated for policies in both Jefferson City and Washington, D.C. that would address systemic and deeply rooted inequities in the healthcare system. Recently, her tireless work at REACH helped the organization mobilize 29 local healthcare providers in an effort to strengthen the community’s fight against the coronavirus pandemic. The REACH Foundation, and by extension those the foundation serves, has benefited immensely from Pattie’s three decades of proven leadership in the non-profit sector.

Marian Wright Edelman, a renowned advocate for children and founder of the Children’s Defense Fund, once elegantly noted that working in education comes with a momentous duty to improve the lives of others and leave your community better than you found it. As Pattie’s time on the School Board concludes, she can rest assured that KCPS students have more opportunities, are succeeding at higher rates, and have brighter futures because of her efforts. Madam Speaker, please join me in extending heartfelt and sincere congratulations to Pattie Mansur on a successful and accomplished tenure on the Kansas City Public School Board. Furthermore, let us renew our commitment to students as we strengthen our nation by investing in equitable, inclusive, and innovative public schools.

HONORING DREW BREES’S RETIREMENT FROM THE NATIONAL FOOTBALL LEAGUE
HON. STEVE SCALISE
OF LOUISIANA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, April 14, 2021

Mr. SCALISE. Madam Speaker, I rise today to honor Drew Brees, his legacy as a New Orleans Saint in the National Football League, and his dedication to the people of the City of New Orleans. Drew’s retirement comes after completing twenty seasons in the NFL, fifteen of which were played as the starting quarterback of my hometown team, the New Orleans Saints. In fact, he chose to retire on March 14, 2021, the fifteen-year anniversary of his signing with the Saints.

Since 2005, Drew has taken the field dressed in black and gold and sparked the greatest era yet for the Saints franchise. For the last fifteen years, Brees has led one of the most explosive offensive teams in NFL history, marching the Saints to seven NFC South titles and winning the franchise’s first-ever Super Bowl in 2010. You can take a guess that the MVP was for Super Bowl XLIV.

I could go on and on about how Drew Brees is one of the best football players of all time. How he is the NFL all-time leader in career passing yards, passed completed, passes completed per game, and total offensive yards. Or that he has the most seasons with 5,000+ passing yards, has been selected for 13 Pro Bowls, or that he has showcased his accuracy by holding the all-time single season record for his passing completion percentage at 74.4 percent. These achievements are unparalleled. In addition to Drew’s accomplishments on the field, I also want to recognize and honor the positive impact Drew Brees has made on New Orleans and the entire State of Louisiana.

Drew came to New Orleans during one of our darkest times. Hurricane Katrina had taken over 8,000 lives and flooded the vibrant, historic crown jewel of the South. The iconic Louisiana Superdome, home to the Saints and regularly filled with cheering fans on Sundays, was filled with many of those same people who were now evacuees, some of whom had lost everything they owned.

The Saints are more than just a football team in New Orleans. After Katrina, the Saints gave us hope. The Saints are as much a part of the soul of New Orleans as our world-famous cuisine and the jazz music and brass bands that fill the French Quarter.

Drew Brees changed our New Orleans Saints forever, bringing historic success to the franchise and giving the city hope, with something to finally celebrate through the grueling struggles of rebuilding. As the Saints organization put it, Drew came to us at our lowest point, and brought us to its highest.

A known leader in the locker room, Drew is also a leader off the field. Winner of the NFL’s Walter Payton Man of the Year award, Drew and his wife Brittany founded the Brees Dream Foundation, which has contributed more than $45 million globally to cancer patients and families. In the last year, the Brees family personally contributed $5 million to Louisiana to assist with COVID-19 relief efforts.

To close, I’d like to read Brees’ own inspirational words from his retirement letter, addressed openly to the city and to the famed Who Dat Nation. “From the moment I stepped foot into the city of New Orleans, I could feel your spirit. You told me that if I loved New Orleans, you would love me back. No truer words have ever been spoken. ‘Drew, I wholeheartedly embrace your place in the history of the city will live on forever. Jennifer and I wish you, Brittany, and your beautiful young kids all the best as you now begin the next chapter of your Hall of Fame life.”
