The Senate met at 10 a.m. and was called to order by the Honorable Raphael G. Warnock, a Senator from the State of Georgia.

PRAYER
The Chaplain, Dr. Barry C. Black, offered the following prayer:

Gracious God, You are from everlasting to everlasting. Reveal Your glory in our Nation and world. Let Your light so shine through our Senators that people will see the good things our lawmakers accomplish because of Your might. May these people then praise You for Your bountiful goodness.

Holy God, empower us to escape from our fragmentary and broken selves into the exemplary unity You desire for us all. Lead us away from doubt and disillusionment, from cynicism and despair. Lead us toward faith and hope, certainty and love.

We pray in Your marvelous Name. Amen.

PLEDGE OF ALLEGIANCE
The Presiding Officer led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE
The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. Leahy).

The senior assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, Tuesday, April 27, 2021.

To the Senate:
Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable Raphael G. Warnock, a Senator from the State of Georgia, to perform the duties of the Chair.

Patrick Leahy,
President pro tempore.

Mr. WARNOCK thereupon assumed the Chair as Acting President pro tempore.

RESERVATION OF LEADER TIME
The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

RECOGNITION OF THE MAJORITY LEADER
The ACTING PRESIDENT pro tempore. The Democratic leader is recognized.

BUSINESS BEFORE THE SENATE
Mr. SCHUMER. Mr. President, today, the Senate will take up a series of votes to confirm three highly qualified nominees to the Biden administration: Jason Miller for Deputy OMB Director, Janet McCabe for Deputy EPA Administrator, and Colin Kahl for Under Secretary of Defense for Policy.

And then, later this afternoon, the Senate will move forward with the process to take up the bipartisan water infrastructure bill. I expect the Senate will do so with significant bipartisan support.

The water infrastructure bill is as noncontroversial as it gets. It was approved by the Environment and Public Works Committee on a unanimous consent vote—every single Democrat, every single Republican—thanks to the good work of Chairman CARPER and Ranking Member CAPITTO. This water infrastructure bill is also a core component of the Republican infrastructure proposal released last week. So I hope this legislation will serve as a starting point for our two parties to collaborate on infrastructure when and where we can. At the moment, Senators Carper, Duckworth, and Cardin continue discussions with Republican Senators about possible amendments.

But let me be very clear: The Senate must conclude its work on the water infrastructure bill before the end of the week.

This is not a controversial bill or a complicated new program. In too many communities, access to clean, safe, and affordable drinking water is not a guarantee. Surely, we can all agree that in America clean drinking water should be a fundamental guarantee.

The Senate must take first necessary steps to invest in communities with aging water infrastructure by passing this bill, and we must do so this week.

NOMINATIONS
Mr. SCHUMER. Mr. President, now on nominees, yesterday, I highlighted a number of accomplishments the Senate
Democrat majority made during the first hundred days of the Biden administration. Thanks primarily to the American Rescue Plan, the most sweeping Federal recovery effort in decades, shots are going into arms; money into people’s pockets; and businesses, schools, and restaurants are starting to reopen.

Americans finally—finally—have some reason for hope. Jobs are coming back. The economic recovery is accelerating and the pace of vaccinations has far exceeded even President Biden’s own goals. After one of the most difficult years in recent memory, the first hundred days of the Biden Presidency and the new Senate Democratic majority have sent the country turn a corner. Slowly but surely, we are proving to the American people that government and the Senate can work for them.

As President Biden prepares to take stock of where we have come from and where we still need to go, with a joint address to Congress, it is worth looking back at some of the accomplishments of these first 100 days. Among those accomplishments is the fact that the Senate has confirmed the most diverse Cabinet in history, faster than under both Presidents Trump and Obama, and all of them with bipartisan support. Eleven are people of color, and 10 are women. Among them, we have a former teacher, a former construction worker, several former veterans, a small business man, even a musician—a far cry from the shall, we say, less economically diverse Cabinet chosen by the former President. Now, more than ever before, we have a Cabinet that looks like America.

In our Nation’s history, the Treasury Secretary has only ever been a White man—an unbroken streak of 77 White men in row. This Senate confirmed the first woman to serve as Treasury Secretary in our history, Janet Yellen. The list of firsts goes on: the first African American to serve as Defense Secretary, the first Black woman to serve as EPA Administrator, the first ever indigenious American, and the first ever openly gay Secretary to lead any Cabinet Agency.

Last week, the Senate confirmed Vanita Gupta, to Associate Attorney General—the first woman of color and the first civil rights attorney ever to hold that position.

Last month, Dr. Rachel Levine became the Deputy Secretary of Health and Human Services, the first openly transgender Federal official in American history.

Federal Agencies have enormous influence over the policies that affect the day-to-day lives of the American people. Whether registering for Social Security, filing for unemployment or veterans’ benefits, or seeking a small business loan, average folks interact with these Cabinet Agencies every single day, hundreds of thousands, if not millions, of times.

Having capable, experienced, and energetic public servants at the top of these Agencies matters, and it matters, too, that they come from different backgrounds and have lived different experiences. By confirming historically diverse nominees, we are showing the American people that their government represents them and that all of their voices matter.

We also know that a Cabinet with diverse views will produce policies that better reflect the needs of a diverse Nation.

I am proud of the nominees we have confirmed over the first hundred days. As we move forward, the Senate will continue working with the White House on confirming nominees and judicial appointments that reflect the diversity and dynamism of our great country.

MEASURE PLACED ON THE CALENDAR—S. 1364

Mr. SCHUMER. Mr. President, I understand that there is a bill at the desk that is due for a second reading:

The ACTING PRESIDENT pro tem. The Senator is correct.

The clerk will read the bill by title for the second time.

The senior assistant legislative clerk read as follows:

A bill (S. 1364) to provide for the recognition of the Lumbee Tribe of North Carolina, and for other purposes.

Mr. SCHUMER. In order to place the bill on the calendar under the provisions of rule XIV, I object to further proceedings.

The ACTING PRESIDENT pro tem. Objection having been heard, the bill will now be placed on the calendar.

Mr. SCHUMER. I yield the floor.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tem. The Republican leader is recognized.

FENTANYL

Mr. MCCONNELL. Mr. President, now on another matter, this week the Senate is set to vote on President Biden’s nomination to be Deputy Administrator of the EPA. This nominee actually needs no introduction for my fellow Kentuckians and our neighbors in coal country.

But for those less familiar, Janet McCabe was the chief author of the Clean Power Plan that President Obama unveiled back in 2015. Well, 6 years later, Ms. McCabe is set to join an administration whose job-killing policies would make the Obama EPA blush. Of course, President Biden’s Plan on Coal predates his administration. Back in 2008, as a candidate for the Vice Presidency, he insisted there would be “no coal plants here in America. Build them, if they’re going to build them, over there.” Obviously, meaning some other country.

Sadly, this was one area where the Obama administration, unfortunately, kept its promises. It was a terrible time to be a working American whose livelihood the Democrats happened to dislike. But our new President’s leftward sprint is set to make these bad old days merely the warmup act.
Remember, rejoining the Paris climate agreement was a day one priority for this administration—this unenforceable deal whose own signatories largely ignored their commitments for the past 5 years, the deal that proved unable to keep China from significantly increasing its greenhouse gas emissions and proved unnecessary for the United States to decrease our own. We decreased our own.

But despite it all, the administration is rushing back in to signal virtue on the international stage. Here at home, they are rolling out policy after policy that would cost American families quite dearly.

The President signed away thousands of jobs by canceling the Keystone XL Pipeline. The authors of the Green New Deal boast about the radical social engineering they have seeded into the administration’s legislative proposals. The infrastructure plan they have rolled out would pick winners and losers in automotive manufacturing and aim to purge the electrical grid of the most reliable and affordable forms of domestic power.

Of course, despite it all, carbon emissions don’t respect national boundaries, so all the unilateral sacrifices this administration is eager to impose on blue-collar families won’t make a dent in global emissions if our adversaries just keep on roaring right past us.

And now the Biden climate team is hoping to add a proven veteran from the War on Coal, The President campaign suggesting he wouldn’t owe the far left anything, but he is choosing to govern like he owes them everything. I will oppose the McCabe nomination and would urge my colleagues to do the same.

FOREIGN POLICY

Mr. MCCONNELL. Mr. President, now on one final matter, yesterday I discussed how the administration’s wishful thinking has set them up for foreign policy failure in Central Asia and the Middle East. The likely catastrophe in Afghanistan may well consume the administration and distract from the challenges proposed by competition with Russia and China.

The President’s meager defense budget proposal suggests his administration isn’t taking strategic competition very seriously to begin with. Russia and China have spent years—years—investing heavily in military modernization with a specific eye toward threatening U.S. forces. We spent the previous administration repairing the readiness of our forces and beginning to modernize after years on the back foot.

A bipartisan Commission concluded we would need sustained increases in defense funding to successfully counter the growing Russian and Chinese capabilities. Yet adjusting for inflation, President Biden’s proposal would amount to a reduction in spending.

This administration has talked tough with both these rivals, and I have given credit where credit has been due, but when the time came to speak in the language that Putin and Xi understand best—money and power—this White House flinched.

Just last week, Russia reminded us of the threat it poses to Europe with a missed mobilization of forces on Ukraine’s border. NATO allies are already struggling to meet their commitments on collective security.

So you have to ask, Would declining American spending make Putin more likely or less likely to think twice next time? And what about China? Will China be more likely or less likely to respect its neighbors’ territorial waters if the United States stops contending for an edge in naval and long-range capabilities and lets ourselves fall behind?

The head of the U.S. Strategic Command reported last week that both Russia and China are modernizing their nuclear arsenals faster than the United States. He warned that if we fail to keep pace, we will be “at risk of losing credibility in the eyes of our adversaries.”

Our nuclear triad has preserved the peace for decades, but crucial components are now decades older than the men and women we have operating them. If we want to maintain effective deterrence, we have to modernize.

Whether this administration likes it or not, we are locked in a race with adversaries who plan literally decades ahead. A lack of resolve will compound on itself and invite disaster. Surely that cannot be the legacy President Biden hopes to leave.

I suggest the absence of a quorum.

Mr. THUNE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. THUNE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will hold a legislative session and resume consideration of the following nomination, which the clerk will report.

The senior assistant legislative clerk read the nomination of Jason Scott Miller, of Maryland, to be Deputy Director, Office of Management and Budget.

The ACTING PRESIDENT pro tempore. The Republican whip.
Inverted. Needless to say, those inversions resulted in a loss of American jobs and domestic investment. A piece in the Wall Street Journal reported that one accounting firm estimates that the United States lost $510 billion from inversions between 2004 and 2016.

The Republicans knew that if we wanted to boost job creation here at home and improve opportunities for American workers, we needed to address the corporate tax rate and put American companies on a more competitive footing internationally, so we cut the corporate tax rate and brought the U.S. international tax system into the 21st century by replacing our outdated worldwide system with a modernized territorial tax system.

It didn’t take long to see the results: Inversions ended. Economic growth outstripped predictions. The poverty rate dropped. Jobs increased. Incomes grew. In fact, income growth in 2019 was the fastest ever recorded.

The American workers hit record highs. In 2019, half of American households reported earning more than $75,000. Median household income for African-American, Hispanic, and Asian-American workers hit record highs. In other words, tax reform worked, and, importantly, it worked for the very people Republicans wanted to help—ordinary Americans. By improving the tax situation for American businesses, we improved the job and income situation for American workers, but now the Democrats want to undo all of that.

To pay for their preferred government programs, they want to substantially hike the tax rate on American corporations—once again, putting American businesses at a substantial disadvantage next to their foreign competitors. If the Democrats impose President Biden’s suggested tax hike, the combined average top tax rate on corporations in the United States will be higher than that imposed by every one of the leading partners and competitors, including China.

It is difficult to understand why the Democrats think it is a good idea to put American companies at a disadvantage next to Chinese companies and next to British companies, Japanese companies, French companies, German companies, and the list goes on and on. It is especially difficult to understand why the Democrats would do this now, at the very time our economy is trying to recover from the serious hit we took from the coronavirus.

Unfortunately, it has become clear that the Democrats are either incapable of grasping or don’t care about the economic consequences of their proposed tax hikes. The Democrats are fixated on imposing a whole host of new government programs, and they are ready to tax Americans and American businesses to pay for them even if ordinary Americans suffer as a result. Presumably, they think that if ordinary Americans are being wafered, they can just offer them some help through a new government program, but I am pretty confident that most Americans would exchange government assistance for the kinds of jobs and incomes that free them from having to depend on government programs.

Substantially increasing the corporate tax rate—and I am talking substantially—would be nothing about: what it would be is a one-third increase in the tax rate—and putting American businesses at a disadvantage on the global stage is not the best way to encourage the creation of those high-paying, high-quality jobs. The corporate tax rate will have negative consequences for our economy and for hard-working Americans.

It is easy to say “Tax the corporations: tax the rich people” but tax businesses hire American workers. If they have to pay more in taxes, they have to pay less in wages. What we saw, as I mentioned before, was the highest wage increases that we have seen in decades, particularly for lower income Americans.

But apparently what is being talked about with this tax hike is just the beginning. President Biden and his Democratic colleagues have a lot more government programs to push, and they have a whole raft of tax hikes waiting in the wings to fund them. There is a hike in the top individual income tax rate that would hit small businesses hard. Most businesses—99 percent of the businesses in the State of South Dakota—are organized as passthroughs. That means they pay taxes at the individual rate. Those are farmers and ranchers and small business people across my State. They are the people who create the jobs in South Dakota. A hike in the top individual income tax rate hits every one of those small businesses that has an income in excess of $400,000. That is money that could be used to hire more workers.

There is a high capital gains tax, which would discourage investment and decrease the value Americans can expect from their 401(k)s, a new death tax that would hit middle-class families and family farms and businesses, and so much more.

These tax hikes may help the Democrats usher in parts of the socialist fantasy they have been envisioning, but they will do nothing to help American families gain financial stability and secure good jobs and lasting, rewarding careers. Working Americans are the ones who will ultimately suffer the most from the Democrats’ tax hike plans. I yield the floor.

I suggest the absence of a quorum. The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mrs. FISCHER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. PADILLA). Without objection, it is so ordered.

INFRASTRUCTURE

Mrs. FISCHER. Mr. President, I like to think that infrastructure is in my DNA. My father was Jerry Strobel, a civil engineer who spent his entire career with the Nebraska Department of Transportation. Now, that was back when it was still called the Department of Roads. He eventually became director/State engineer and served under three different Governors, Kay Orr and Ben Nelson, one Republican and one Democrat.

My dad used to take my two brothers and me on weekend road trips across Nebraska to check up on our infrastructure—trips that he called “inspections.” Many of the photos that I have from my childhood are of my brothers and me standing on partially finished bridges, in front of bulldozers, and next to highways that were under various stages of completion. He taught me how to drop a plum line and showed me how to handle his surveying equipment.

Those trips with my dad taught me that infrastructure takes a long time to plan and to permit, and it takes a long time to build. Even short stretches of a single highway can sometimes—it can take years to finish. To get the most out of our limited taxpayer resources, we must consider that process to save both time and money.

I learned that reliable infrastructure doesn’t happen by accident, and when I was elected to the Nebraska Legislature, I brought that appreciation with me. As chair of the Transportation and Telecommunications Committee, I introduced bills like the Nebraska Build Act. The new revenue from that bill has funded over a dozen important infrastructure projects across Nebraska. Nebraskans and all Americans know what actual infrastructure is. It is roads and bridges, but it is also ports and airports and railroads and pipelines and waterways and broadband.

Those things are a core responsibility of government. These are things that people also know what infrastructure is not. If Congress passes a bill to reform Medicare, that is not infrastructure; that is healthcare.

We all know that words don’t change their meaning overnight to suit one party or the other’s political goals, but President Biden seems to think they do. He is asking us to support an infrastructure proposal that could eventually top $2.7 trillion, which redefines that word to mean policies such as climate research and technology, funding for public housing or community care services—things that have nothing to do with what we have traditionally called infrastructure.

Less than 6 percent of the $2.25 trillion that is identified in the Biden proposal would go to roads and bridges. Barely 4 percent would go to broadband, and less than 2 percent is for airports. At the same time, hundreds of billions of dollars would be funneled to things like housing, Medicare, and electric vehicles.

The President wants to enact trillions of dollars in new taxes to pay for
all of this. Proposals being discussed include raising the capital gains tax to the highest level in history, as well as forcing American businesses—and then, ultimately, their customers—to pay the highest combined corporate tax rate in the advanced world. Congressional Democrats have also proposed getting rid of the estate tax exemption, which would make the Federal death tax apply to hard-working, middle-class families for the first time in decades. This would hit our small, family Main Street businesses and our family farms, making it even more difficult to pass their life’s work on to their children.

Infrastructure has always been bipartisan, and it has always enjoyed widespread support. I would gladly—I would gladly—support a bill that takes our very real infrastructure problems seriously, and I told President Biden that when I met with him at the White House a few weeks ago. But his proposal simply doesn’t do that. The President’s plan asks the Senate to vote for a policy wish list of priorities that no one—no one outside of Washington, DC’s bubble—has ever dreamed of calling infrastructure.

What it comes to real infrastructure, the Senate does have bipartisan roots. We passed the FAST Act by a vote of 83 to 16 under President Obama in 2015. We passed an FAA reauthorization 93 to 6 under President Trump. And the Senate unanimously approved water development bills and my pipeline safety bill last year. I see no reason why the administration can’t tackle this important issue in a bipartisan way once again, and the President, who represented Delaware in the Senate for more than 35 years, knows better than most that we do this every day. We do it on bills like the HAULS Act, which I reintroduced in March to provide more flexibility to ag and livestock haulers and which has won support by both Republicans and Democrats. There is also bipartisan support for my bill to establish an online portal for reporting blocked railroad crossings.

My Democratic colleagues and I find common ground on infrastructure more often than we disagree, and that includes bills like the Rural Spectrum Accessibility Act, which made internet access more widely available in rural areas.

History shows that infrastructure is a bipartisan issue, and it can be once again. But, right now, our friends on the other side of the aisle are pushing this wish list of priorities for their progressive agenda and calling it infrastructure.

For our part, Senate Republicans have made it clear that we are willing to work with the President on a bill that actually addresses our Nation’s all-important infrastructure and makes targeted investments to meet the needs that we have.

We introduced our own framework last week. It draws on our past bipartisan successes, like the FAST Act, and it focuses on roads and bridges, broadband, and other actual infrastructure. It matches or raises the funding levels in the FAST Act, such as $299 billion versus $226 billion for roads and bridges, and provides nearly twice as much funding for transportation safety, rail safety programs and rail and Amtrak grants.

We have spent enormous amounts of money in the last year to deal with COVID-19, and Republicans and Democrats both voted for five bills, totaling around $4 trillion, to address that very real crisis. Another $1.9 trillion passed on a partisan basis in January. That is $8 trillion of new spending in 1 year—$6 trillion of new spending in 1 year. That level of spending is not sustainable. Adding another $2.7 trillion that is in the President’s plan to this spending that we already have is not sustainable.

Our proposal is clear that funding for infrastructure should be fiscally responsible. It should use existing, proven formula programs as much as possible, and it should make regulations less burdensome. This is what President Reagan should have pushed on, and I hope that he takes us up on our offer.

I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. PETERS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

Mr. MIER. Mr. President, I ask unanimous consent that Senator McCabe, the No. 2 at the EPA, and I vehemently oppose the confirmation of Janet McCabe, the OMB as it takes on these current challenges and those challenges yet to come.

I urge my colleagues to join me in supporting the confirmation of Jason Scott Miller as Deputy Director for Management at the OMB.

VOTE ON MILLER NOMINATION

And, Mr. President, I ask for the yeas and nays on this nomination.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The PRESIDING OFFICER. Under the previous order, all cloture time is expired.

The question is, Will the Senate advise and consent to the Miller nomination?

The yeas and nays have been ordered. The clerk will call the roll.

The legislative clerk called the roll.

Mr. THUNE. The following Senators are necessarily absent: the Senator from Missouri (Mr. BLUNT), the Senator from North Dakota (Mr. Cramer), the Senator from Kentucky (Mr. Paul), the Senator from South Dakota (Mr. Rounds), the Senator from Florida (Mr. Scott), and the Senator from Alabama (Mr. Shelby).

Further, if present and voting, the Senator from Florida (Mr. Scott) would have voted "nay."

The PRESIDING OFFICER (Mr. Lujan). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 81, nays 13, as follows:

[Roll Call Vote No. 167 Ex.]

YEAS—81

NAYS—13

Blackburn  Boozman  Burr  Carper  Cornyn  Duckworth  Ernst  Graham  Grassley  Hagerty  Hirono  Cotton  Crapo  Cruz  NAY—13

Braun  Brown  Cassidy  Scott (SC)  Collins  Cotton  Crapo  Cruz  Young  NAY—13

Cotton  Crapo  Cruz  Young  NAY—13

Braun  Brown  Cassidy  Scott (SC)  Collins  Cotton  Crapo  Cruz  Young  NAY—13

Braun  Brown  Cassidy  Scott (SC)  Collins  Cotton  Crapo  Cruz  Young  NAY—13

Braun  Brown  Cassidy  Scott (SC)  Collins  Cotton  Crapo  Cruz  Young  NAY—13

The nomination was confirmed.

The PRESIDING OFFICER. Under the previous order, the motion to reconsider is considered made and laid upon the table, and the President will be immediately notified of the Senate’s action.

The Senator from West Virginia.

MRs. CAPITO. Mr. President, I ask unanimous consent that Senator Carper and I be allowed to speak for 1 minute each before the next cloture vote.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONFIRMATION OF JACLYN GARVIN MCCABE

The nomination of Jaclyn Garvin McCabe.

Mrs. CAPITO. Mr. President, we are about to vote cloture on Janet McCabe, the No. 2 at the EPA, and I vehemently oppose her nomination to this position.

She is the architect of the Clean Power Plan that basically racked my economy in West Virginia, and she has not backed down from that in her testimony. She is very supportive of that plan and even more.
S2208

CONGRESSIONAL RECORD — SENATE
April 27, 2021

Her boss at the EPA at the time was Gina McCarthy. Guess where she is now—in the White House. She, again, will be Janet McCabe’s boss in the White House, dictating from there. During her time at the EPA before, she didn’t listen, she wouldn’t come to West Virginia, and she basically showed very little interest in what happens to the people most deeply affected by the policies that she put forward.

So given her past actions and present statements, I cannot support someone who would work to destroy a State’s economy, such as ours was destroyed, and our communities and their livelihoods.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. CARPER. Mr. President, I rise today to urge our colleagues to join me in voting for cloture on the nomination of Janet McCabe to serve as Deputy Administrator of the Environmental Protection Agency.

Running an Agency like the EPA requires that person to work with and serve people regardless of their political persuasion. Some people strive to be bipartisan. Janet McCabe has a proven record of being bipartisan. That is one of the reasons why nine former EPA Deputy Administrators and Administrators support her nomination, including four Republicans who served in the Reagan, the George H.W. and the George W. Bush administrations.

Janet has served as a senior EPA manager. She is pragmatic and a good listener. That trait comes in no small part from her Hoosier background and the time that she spent with pragmatic people who will do the right thing if they understand what is needed. That is what Janet McCabe will bring with her to the role of Deputy Administrator at EPA, if confirmed. I urge my colleagues to join me in voting yes on this nomination. I yield.

CLOSURE MOTION

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The senior assistant legislative clerk read as follows:

CLOSURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the nomination of Executive Calendar No. 54, Janet Garvin McCabe, of Indiana, to be Deputy Administrator of the Environmental Protection Agency.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, is it the sense of the Senate that debate on the nomination of Janet Garvin McCabe, of Indiana, to be Deputy Administrator of the Environmental Protection Agency, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The senior assistant legislative clerk called the roll.

Mr. THUNE. The following Senators are necessary absent: the Senator from South Dakota (Mr. CRAMER), the Senator from North Dakota (Mr. CRALEY), the Senator from Kentucky (Mr. PAUL), the Senator from South Dakota (Mr. ROUNDS), the Senator from Florida (Mr. SCOTT), and the Senator from Alabama (Mr. SHELY)

Further, if present and voting, the Senator from Florida (Mr. SCOTT) would have voted “nay.”

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 52, nays 42, as follows:

[Rollcall Vote No. 188 Ex.]

YEAS—52

Balduf
Benning
Blumenthal
Brown
Cantwell

The PRESIDING OFFICER. On this vote, the yeas are 52, the nays are 42.

The motion is agreed to.

EXECUTIVE CALENDAR—Continued

The PRESIDING OFFICER. The Senator from Oklahoma.

NOMINATION OF COLIN HACKETT KAHL

Mr. INHOFE. Madam President, I come to the floor today to urge my colleagues strongly to vote against the nomination of Colin Kahl to serve as Under Secretary of Defense for Policy. That position is the No. 3 position in the Department of Defense.

Last week, Colin Kahl became President Biden’s first nominee not to garner one single Republican vote on the Senate floor. The Vice President had to cast the tie-breaking vote. Every other nominee, even some of the most partisan progressives, earned at least one or some Republican votes.

What makes this nomination even more out of the ordinary is that this never happens with DOD nominees. If you look back over the last decade, recorded votes on DOD nominees are rare and only a few times did a nominee receive support from fewer than two-thirds of the Senate. It just doesn’t happen. It happened this time.

Some of his tweets have raised concerns from a number of our colleagues that Dr. Kahl might have shared sensitive or classified information on Twitter. The junior Senator from Tennessee highlighted this on the floor last week.

Furthermore, Dr. Kahl’s tweets also show a history of volatile behavior that goes further than just being highly partisan and unbalanced. He is also somewhat of a conspiracy theorist.

In May of 2018, Israeli Prime Minister Benjamin Netanyahu announced that Israel had seized a major nuclear archive from Iran. That archive has since revealed many previously unknown nuclear clear sites, and, in late 2019, the International Atomic Energy Agency is working to gain access to inspect these sites today, thanks to Israel’s discovery.

But what did Dr. Kahl say about Israel’s discovery at that time? He was skeptical, and he added: “This sure has happened when called to order by the Presiding Officer (Ms. SINEMA).” In other words, rather than being alarmed about the fact that Iran had many undeclared nuclear sites, Dr. Kahl alleged that Israel was trying to goad America into war.

Somehow, for Dr. Kahl the problem is never Iran or the weak 2015 Iran deal that didn’t cover the nuclear sites that Israel revealed. He wants to give Iran massive sanctions relief to return to that deal. No, for Dr. Kahl the problem is Israel, especially when our Israeli friends reveal information about Iran’s nefarious behavior.

Again, this isn’t about a policy disagreement. This is about whether Dr. Kahl is someone who can accept facts, even when those facts undercut his policy preferences.

National security is a bipartisan priority. It always has been and always
Mr. CARPER. Madam President, the Senate has invoked cloture, and I just want to thank everybody who supported cloture on Janet McCabe's nomination to serve as Deputy Administrator of the Environmental Protection Agency.

I rise now to urge my colleagues to support the confirmation of this outstanding nominee, Janet McCabe. Janet McCabe is exactly the leader that Administrator Michael Regan and the rest of the EPA need right now as we tackle some of the most pressing challenges in the Agency and in our Nation's history.

She will do so as one who understands the challenges and opportunities of working as a director of an air program, within a State environmental agency, to create a safe, healthy, and clean environment, and that includes impressive tenures in both Indiana and Massachusetts government agencies, as well as years of experience with the EPA.

Based on that experience, Ms. McCabe knows that in order for any Federal Agency to be successful, its leaders must work closely and collaboratively with State and local partners, no matter which party is in charge.

Her pragmatic and inclusive style has also inspired support of the electric power industry. The Edison Electric Institute, which represents all U.S. investor-owned electric companies, enthusiastically supports Janet McCabe's nomination. This is an organization—listen to this—that speaks for companies that provide power to 220 million Americans. That is right—roughly two-thirds of all Americans.

Let me put it another way. Edison Electric Institute's members generate electricity for two-thirds of all Americans, and they have thrown their support behind the nomination of Janet McCabe for this post.

According to EEI president Tom Kuhn, he says Janet McCabe "has a strong commitment to public service and a solid track record of engaging with diverse stakeholders, including industry, as demonstrated by her time at the helm of both the Air Program at the Indiana Department of Environmental Management and EPA’s Office of Air and Radiation."

That is a quote.

Ms. McCabe has their support because she has demonstrated time and again that environmental and economic progress go hand in hand. Let me say that again. She demonstrated time and again that cleaner air, clean water, environmental progress, and economic progress go hand in hand. They are inextricably linked. That ethic has earned Ms. McCabe the support of the American Chemistry Council, the Association of Equipment Manufacturers, and the BlueGreen Alliance, which represents some of our largest labor unions.

Ms. McCabe knows that while working to protect clean air and clean water and address climate change, the Agen-

I am very grateful that Janet has agreed to serve her country again in this new leadership role, and I am grateful to her family for their willingness to share her again with all of us.

Ms. McCabe will bring the leadership and collaborative spirit needed to address difficult environmental challenges and improve regulatory processes, so we can continue to build, power, and feed our country in an innovative and sustainable way.

Ms. McCabe will help ensure that everyone—everyone who has a stake in our environment and economy—has a seat at the table. She has built a reputation of listening to everyone—everyone—addressing real economic concerns, making sure government policy helps people and communities at the local level.

Ms. McCabe embodies these values in her current role as director of Indiana University’s Resilience Institute, where she works every day to help mayors and to help farmers and communities of all sizes and shapes prepare for and adapt to climate change.

I will borrow once again from Janet McCabe’s colleague from the University of Indiana, Fred Cate, who said of her career success, and I quote him again:

"She understands that at the end of the day, if you don’t bring along finance and industry and local buy-in, then we won’t get things done."

I couldn’t have said it better.

As Deputy Administrator, Janet’s role will be the equivalent of a chief operating officer. She will be primarily focused on EPA internal policies and procedures—the day-to-day running of the Agency—and will not play a significant role in crafting new public policies.

One of her key tasks will be to restore the Agency’s organizational health, which suffered during the previous administration, as respect for science and career staff advice declined and morale deteriorated. There is no person better suited to overseeing this internal restoration than Janet McCabe. Under her leadership I have every confidence that EPA will recover and soar.
S2210

Congressional Record — Senate

April 27, 2021

Her personal integrity and work ethic is an inspiration to all public servants, and her willingness to engage all points of view is a boon to all who have strong interest in EPA’s work.

So in closing, I want to urge my colleagues—all of our colleagues—to vote to confirm her today so that she can put her robust talents to work for all the American people.

With that, I yield the floor.

VOTE ON MCCABE NOMINATION

The PRESIDING OFFICER. The question is, Will the Senate advise and consent to the McCabe nomination?

Mr. CARPER. Madam President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The senior assistant legislative clerk called the roll.

Mr. THUNE. The following Senators are necessarily absent: the Senator from Missouri (Mr. BLUNT), the Senator from Maryland (Mr. CRAMER), the Senator from Kentucky (Mr. PAUL), the Senator from South Dakota (Mr. ROUNDS), the Senator from Florida (Mr. SCOTT), and the Senator from Alabama (Mr. SHELBY).

Further, if present and voting, the Senator from Florida (Mr. SCOTT) would have voted “nay.”

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 52, nays 42, as follows:

[Roll Call Vote No. 169 Ex.]

YEAS—52

Baldwin—Heinrich
Bennett—Hickenlooper
Blumenthal—Hirono
Booher—Kaine
Brown—Kelly
Cantwell—King
Cardin—Klobuchar
Casper—Leahy
Coons—Menendez
Cortez Masto—Merkley
Duckworth—Murray
Durbin—Whitehouse
Feinstein—Ossoff
Gillibrand—Padilla
Grassley—Hassan

NAYS—42

Barrasso—Graham
Blackburn—Hagerty
Boozman—Hawley
Braun—Hoven
Burr—Hyde-Smith
Capito—Inhofe
Cassidy—Johnson
Cornyn—Johnson
Cotton—Landgraf
Crapo—Lee
Cruz—Lariam
Daines—Manchin
Ernst—Marshall
Fischer—McConnell

NOT VOTING—6

Blunt—Paul
Cramer—Rounds

The nomination was confirmed.

CLOTURE MOTION

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The bill clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the nomination of Executive Calendar No. 68, Colin Hackett Kahl, of California, to be Under Secretary of Defense for Policy.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the nomination of Colin Hackett Kahl, of California, to be Under Secretary of Defense for Policy, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The bill clerk read the roll.

Mr. DURBIN. I announce that the Senator from Rhode Island (Mr. WHITEHOUSE) would have voted “nay.”

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 49, nays 44, as follows:

[Roll Call Vote No. 170 Ex.]

YEAS—49

Baldwin—Rickenlooper
Bennett—Hirono
Blumenthal—Kaine
Braun—Kelly
Brown—King
Casper—Leahy
Capito—Lujan
Cassidy—Menendez
Cornyn—Moore
Cotton—Murphy
Crapo—Murray
Cruz—Ossoff
Daines—Padilla
Hassan—Peters

NAYS—44

Barrasso—Cotton
Blackburn—Craig
Boozman—Crus
Braun—Daines
Burr—Hyde-Smith
Capito—Fischer
Cassidy—Graham
Collins—Graveline
Cornyn—Hargety

The PRESIDING OFFICER. On this vote, the yeas are 49, the nays are 44.

The motion is carried.

The PRESIDING OFFICER. Under the previous order, the motion to reconsider on the McCabe nomination is considered made and laid upon the table, and the President will be immediately notified of the Senate’s action.

EXECUTIVE CALENDAR

The clerk will report the nomination. The bill clerk read the nomination of Colin Hackett Kahl, of California, to be Under Secretary of Defense for Policy.

The Senator from Maryland.

DRINKING WATER AND WASTEWATER INFRASTRUCTURE ACT OF 2021

Mr. CARDIN. Madam President, shortly, we are going to be taking up S. 914, the Drinking Water and Wastewater Infrastructure Act, and I would urge my colleagues to approve this legislation promptly.

The Environment and Public Works Committee reported this legislation by a unanimous vote. We don’t get too many unanimous votes here on substantive, important legislation, and we were able to get that because this bill is truly bipartisan.

I want to congratulate the leadership of the Environment and Public Works Committee, Chairman CARPER, for the management of the committee to bring us together, and Senator CAPITO, the ranking Republican member. The two of them set the climate for us to work together to bring out a drinking water and wastewater infrastructure bill. I also want to thank my counterpart in regards to the Subcommittee on Infrastructure, Senator CRAMER, who is the ranking member—I am the chair—and Senator DUCKWORTH, who is the chair of the Water Subcommittee, and Senator LUMMIS. All six of us worked together so that this Drinking Water and Wastewater Infrastructure Act really does represent the views of all the Members of the Senate, and it is a bill that is desperately needed by our communities.

Water infrastructure is critically important to our Nation. It is important for drinking water. It is important for how we treat our waste, wastewater. The needs are tremendous. The American Society of Civil Engineers gives us a report card grade of D in 2021. The gaps are billions of dollars a year necessary to bring our water infrastructure up to standard.

This legislation will move us in the right direction. It authorizes $35 billion of infrastructure, which we desperately need in our communities.

It will allow us to upgrade aging infrastructure, address the threat of climate
change, invest in new technologies, and help marginal communities in dealing with these needs.

COVID-19 has made the challenges even more dramatic for our communities. Water utilities have incurred additional strain, and I think that is obvious. They had to deal with the protective equipment for their workers to deal with COVID-19. They had workers who were out as a result of COVID-19. They had to deal with changing the way they were doing their business. There was a demand for greater water during COVID-19, just the washing of our hands frequently. It requires us to have access to more clean water.

The ability of our customers to pay their bills was challenged during COVID-19. As we know, American families’ incomes were very stressed and are still stressed as a result of COVID-19. The gap between the ability of the public support for water infrastructure and what ratepayers are asked to pay is getting larger. We haven’t made the money available from the public side for water infrastructure, and to put more pressure on the rate when customers are already having a difficult time paying their bills is not a viable proposition. That makes S. 914 even more urgent.

I want to talk about a couple provisions that are included in S. 914 that are bipartisan that I worked on that I think are extremely important parts of this legislation.

One, working with Senator WICKER, we have in this bill a pilot program that will establish 40 grants around the Nation so that we can establish programs to help low-income households. By way of comparison, this is similar to the LIHEAP program that we use to help our low-income families deal with their utility bills for heating their homes and air-conditioning their homes. This will provide similar help for low-income families dealing with the price of their water bills.

Having been through Maryland and some of our centers, I can tell you that there are many communities where individuals literally cannot afford their water bills. It is an essential utility. We need to do something to fill the gap. So this bill will establish a program so that we can take some of the pressure off of the ratepayers and therefore allow local utilities to be able to make improvements to some of their improvements without adversely affecting low-income families. This pilot program, to me, is long overdue, but I am pleased to see it is included in this legislation.

Another provision that is included in this legislation is legislation that I have authored with Senator CAPITTO, the Clean Water Infrastructure Resilience and Sustainability Program. The two of us recognize that in the State of West Virginia and the State of Maryland, we have extreme weather events that are affecting our ability to handle drinking water and wastewater. That is true in every State in the Nation. I could tell you about Maryland and the community of Ellicott City, where they have had two 100-year floods in a period of less than 2 years.

These frequent, extreme weather events are happening in this Nation on a regular basis, and it is putting additional stress on our water infrastructure. The President had a recent summit on climate, and this is one of the issues that were brought up.

Wastewater treatment plants and drinking water systems—we need to increase their resiliency and add that ability. That is what this provision will do by providing grants that will assist in planning, designing, construction, implementation, operation, or maintenance of the facilities.

Stormwater runoff is one of the largest sources of pollutants in our environment. We have over 600,000 miles of rivers and streams in America, 13 million acres of wetlands, and ponds. I can speak personally about the impact that runoff has on the Chesapeake Bay, a national treasure. The fastest growing source of pollutant into the Chesapeake Bay comes from storm runoff. This grant program on resiliency will help all of us plan for how we deal with water infrastructure in a way that can deal with our modern challenges.

Another provision in this bill comes from legislation that was authored by Senator BOOZMAN and myself, the Water Resources Research Amendments Act. This provides help for research so that we can find effective and efficient new ways to deal with water treatment facilities.

In Maryland, we are proud that we have the Maryland Water Resources Research Center at the University of Maryland, College Park, that does this type of research that will help us to the next generation of how we can use technology to help deal with our water infrastructure in America.

The bottom line is that S. 914 is a bill that will help preserve and provide drinking water to the people of this Nation and deal with wastewater. It is a very important bill for water infrastructure. It is bipartisan. It will be on the floor. I urge my colleagues to support this bipartisan legislation, which is clearly part of building America back better. I hope we can act on this bill this week and send it to the House to pass this bipartisan legislation, which is part of building America back better.

I yield the floor.

The PRESIDING OFFICER (Mr. MURPHY). The Senator from Arizona.

Ms. SINEMA. Mr. President, I rise today to introduce a bipartisan Senate resolution recognizing the thousands of Arizonans and millions more across America who go to work every day to serve their fellow citizens, protect our communities and make our country a stronger place.

America’s public servants work across our uniformed services, as well as in Federal, State, and local governments, to advance our country’s health and safety. If we ever needed a reminder of the importance of our public servants, the past year has provided one. Throughout the coronavirus pandemic and resulting economic downturn, public service has provided care for our heroes, coordinated urgent medical supplies for our communities, and helped keep our small businesses open.

Along our borders with Mexico and Canada, Border Patrol agents tackled challenging conditions to provide security, limit the spread of COVID–19, and protect our communities from criminal activity. At ports of entry, Customs officers worked to maintain cross-border trade and commerce to keep fueling American jobs.

VA employees cared for our veterans and are playing a critical role in delivering vaccines to veterans, veterans’ spouses, and caregivers and dependents.

Postal employees continued to deliver the mail, keeping everyday families connected and helping employers remain open.

To all of our firefighters, police officers, public health officials, and teachers, you deserve our thanks every day, but moments of crisis often help to remind us how much we rely on all of you.

When Kingman, AZ, recently experienced a cyber attack, it was local officials, alongside members of the National Guard, who mobilized to contain the damage and get the city back online.

Through these moments of sacrifice and service, these men and women show that public service is not about winning partisan political battles or getting your name out on cable news. It is about serving a cause greater than ourselves.

In Arizona we are no strangers to dedicated public servants who left their marks on our State and country—from Sandra Day O’Connor, the first woman to lead the Arizona State Senate and to be appointed to the U.S. Supreme Court, to my personal hero, Senator John McCain, who dedicated his life to public service, both in uniform and here in the U.S. Senate.

Beginning this Sunday, America will mark Public Service Recognition Week, and I am honored to again introduce this year’s bipartisan Public Service Recognition Week resolution with my friend Senator LANKFORD of Oklahoma.

On the Subcommittee on Government Operations and Border Management, Senator LANKFORD and I work closely together to strengthen Americans’ confidence in our government by making the government work better for everyday Americans. That is a goal we share with all of America’s public servants, and I am honored that last year the Senate came together across party lines to approve our resolution and honor public service.
Our bipartisan resolution recognizes the crucial work of Federal, State, and local employees and public servants across the country, and it particularly recognizes the work of the millions of public servants who have overcome the challenges of the coronavirus pandemic.

As Senator LANKFORD has often said to our country’s public servants, “America could not succeed without you.”

Public service is a noble calling, and millions answer that call every day, often underpaid and underappreciated. I am honored to thank these employees for keeping our communities and our Nation safe and secure, and for serving as examples to the next generation of public servants who will continue their legacy.

I yield the floor.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. BENNET. Mr. President, in Colorado we have come out of one of the worst wildfire seasons that we have ever seen. In fact, you can’t really call it a season. I think, when the fires are still going on when the snow falls, that is what happened this year, incredulously.

Three of the largest fires in our history all happened in the same year, and these fires displaced thousands of people in my State. They obscured the views of our mountains for weeks at a time. They forced families to pack their entire lives into duffle bags while their homes went up in flames. They shut down major highways for weeks and paralyzed local economies and blanketed our communities with smoke.

If you ask anyone in Colorado why this is happening, they will tell you it is because our State is becoming hotter and drier each year. If you ask farmers and ranchers in Colorado—and a lot of them are Republican—they will tell you they are facing drought that is longer and more intense than their parents or grandparents ever had to deal with.

Our mountain towns will tell you they are struggling with ski seasons that are growing shorter each year. Our water officials will tell you that they are planning for a future with a lot less water to go around, and there wasn’t enough water to begin with. And the reason for all of this is climate change.

That is why in Colorado, a purple State, a swing State in the middle of the country, there is absolutely a consensus that we have a moral responsibility to deal with climate change as a threat to our economy, to our environment, and to our way of life.

That responsibility extends to the U.S. Senate, but for most of the time I have been here, we have treated climate change like it was going to somehow solve itself or, in some cases, that it didn’t even really exist. And nothing could be further from the truth. This is a problem for all 50 States and every American. It is a problem for humanitarians, and we can’t deal with it in an enduring way unless the hundred people in this body take action, until a hundred people here are willing to lead on climate change. This is not a coastal issue, yes, and also global, yes, and is crying out for the leadership of the Senate.

There is nobody else to ride to the rescue. We have to do this, and we can start tomorrow by voting to reverse the gas operators’ bipartisan vote tomorrow on voting to reverse the last administration’s terrible, counterproductivity, self-destructive policy on methane pollution.

Methane pollution is one of the most powerful greenhouse gases behind climate change. It can be over 80 times more potent than carbon dioxide, and it is responsible for a quarter of all the warming that the planet has seen since the Industrial Revolution.

Today, one of the biggest sources of methane pollution is the oil and gas industry in my State and in the great State of Texas, where the senior Senator from Texas is repeatedly saying, my State, where methane leaks into the atmosphere from old pipes, broken vents, and outdated practices like burning excess gas.

Methane pollution is terrible for the environment because it accelerates climate change. It is terrible for our health because it puts toxins in the air we breathe, especially for the nearly 10 million Americans who live near oil and gas wells. It is terrible for children, who can then pick up the durable solution to our kids and grandchildren, who can then pick up the baton.

That is why, years ago—I think it was 2014—in Colorado, under the leadership of then-Governor Hickenlooper, now Senator HICKENLOOPER, we adopted as a State the country’s first-ever rules to limit methane pollution for oil and gas facilities. Governor Hickenlooper worked by bringing environmentalists and industry leaders together to craft a policy that reflected the consensus in my State around climate change and our economy. Our approach worked so well that the EPA and the Bureau of Land Management drew on it for methane rules at the Federal level.

When the last administration went after the rules at BLM, our late friend and former colleague MONDRO, and his mentors’ vision was operation. As Senator LANKFORD has often said to our country’s public servants, “America could not succeed without you.”

I hope you will pick up the pieces in a bipartisan way, because here is what I think: We are not going to solve climate change until we have an American climate policy, just like we once had something we called U.S. foreign policy, where every President who was there, whether Democrat or Republican, they roughly knew what their job was with respect to the Soviet Union, with respect to the transatlantic alliance. There were differences, of course, and we made lots of mistakes with that principle, but it was an important organizing principle—that thing we called American foreign policy.

But and going to need something called American climate policy. We didn’t win the Cold War 2 years at a time, and we can’t accept the politics in here, where I put in my ideas for healthcare and 2 years later they get ripped out, and we put in somebody’s ideas for infrastructure, 2 years later they get ripped out. We can’t tolerate it for those things—for education, for taxes. People want predictability. They don’t want us to succumb to the political antics of Washington, D.C., and this floor they were Republican or Democrat, they roughly knew what their job was with respect to the Soviet Union, with respect to the transatlantic alliance.

But when it comes to climate change, that is really true, because we can’t fix it 2 years at a time. I often hear people say that we have to act urgently on climate change. We do. It is true. But we also need a stabilizable, one that will last through changes in the majorities in the Congress and changes with who is in the White House, so that we can actually pass off that durable solution to our kids and grandchildren, who can then pick up the baton.

So let me say this. You cannot accept, if you want to fix climate change, the broken politics that we have here. You can’t accept that we have a majority in this body to keep them in place. At the time, the Trump administration claimed that the Federal methane rules destroyed energy production and killed jobs. That was never true, to be polite about it.

And we are going to need something called American climate policy. We didn’t win the Cold War 2 years at a time, and we can’t accept the politics in here, where I put in my ideas for healthcare and 2 years later they get ripped out, and we put in somebody’s ideas for infrastructure, 2 years later they get ripped out. We can’t tolerate it for those things—for education, for taxes. People want predictability. They don’t want us to succumb to the political antics of Washington, D.C., and this floor they were Republican or Democrat, they roughly knew what their job was with respect to the Soviet Union, with respect to the transatlantic alliance.

But when it comes to climate change, that is really true, because we can’t fix it 2 years at a time. I often hear people say that we have to act urgently on climate change. We do. It is true. But we also need a stabilizable, one that will last through changes in the majorities in the Congress and changes with who is in the White House, so that we can actually pass off that durable solution to our kids and grandchildren, who can then pick up the baton.

And when it comes to climate change, that is really true, because we can’t fix it 2 years at a time. I often hear people say that we have to act urgently on climate change. We do. It is true. But we also need a stabilizable, one that will last through changes in the majorities in the Congress and changes with who is in the White House, so that we can actually pass off that durable solution to our kids and grandchildren, who can then pick up the baton.

Colorado’s approach worked so well and we have gone back and strengthened—strengthened—our methane rules another three times in 2017, in 2019, and 2020, each time with support from both environmental groups and industry. Instead of learning from our example, the Trump administration went ahead with its plans to dismantle methane rules at the Federal level, and it did that over the objection of leading gas operators and across the country. And the result was a self-inflicted wound on our economy and our environment, and it compromised our leadership in the world.

Now I hope we will pick up the pieces in a bipartisan way, because here is what I think: We are not going to solve climate change until we have an American climate policy, just like we once had something we called U.S. foreign policy, where every President who was there, whether Democrat or Republican, they roughly knew what their job was with respect to the Soviet Union, with respect to the transatlantic alliance. There were differences, of course, and we made lots of mistakes with that principle, but it was an important organizing principle—that thing we called American foreign policy.

And we are going to need something called American climate policy. We didn’t win the Cold War 2 years at a time, and we can’t accept the politics in here, where I put in my ideas for healthcare and 2 years later they get ripped out, and we put in somebody’s ideas for infrastructure, 2 years later they get ripped out. We can’t tolerate it for those things—for education, for taxes. People want predictability. They don’t want us to succumb to the political antics of Washington, D.C., and this floor they were Republican or Democrat, they roughly knew what their job was with respect to the Soviet Union, with respect to the transatlantic alliance.

But when it comes to climate change, that is really true, because we can’t fix it 2 years at a time. I often hear people say that we have to act urgently on climate change. We do. It is true. But we also need a stabilizable, one that will last through changes in the majorities in the Congress and changes with who is in the White House, so that we can actually pass off that durable solution to our kids and grandchildren, who can then pick up the baton.

And when it comes to climate change, that is really true, because we can’t fix it 2 years at a time. I often hear people say that we have to act urgently on climate change. We do. It is true. But we also need a stabilizable, one that will last through changes in the majorities in the Congress and changes with who is in the White House, so that we can actually pass off that durable solution to our kids and grandchildren, who can then pick up the baton.
high-paying jobs—mostly in rural areas, where people are reasonably concerned about what this energy transition is going to mean for them. Let’s pay people to capture methane, to make the industry viable, to make the production happen, and then create high-paying jobs in rural areas in America that need them.

I know I don’t have all the answers for how to build a durable climate policy in America, but I know that a sensible approach to methane has to be part of the solution, and that approach has to address not only new oil and gas facilities but existing ones like we have done in Colorado, and that is what this resolution will do. It will restore EPA’s obligation to regulate all sources of methane emissions, including existing oil and gas operations, where there are hundreds of thousands of older wells that are responsible for 75 percent of methane emissions from the industry.

It will help us protect the environment and create jobs, and it will show the world that America can come together and that this Senate can come together in a bipartisan way to deal with climate change because, when I think about it, I don’t want any of us to come back to this floor 10 years from now or 20 years from now and describe how we have just gone through the worst wildfire season ever or the worst hurricane season ever or—more likely in the Presiding Officer’s State than in my State—or the worst drought in our history.

I want to come back and celebrate how America led the world to overcome the climate threat. I want them to praise the era of innovation and job creation unleashed across the country, and I want them to point out what we did in this Congress with this vote to put America on a path to protect our planet, grow our economy, and fulfill our responsibility to our kids and our grandkids.

So I urge my colleagues, every single one of them, to cast a vote for this important methane policy and to set us on the bipartisan course we need to create if we are going to have durable climate change policy in this country and if America is going to lead the world.

I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

BORDER SECURITY

Mr. CORNYN. Mr. President, tomorrow evening, across the Capitol, President Biden will deliver his first State of the Union Address. As we continue to make headway in our fight against COVID–19, I expect the President to reflect on the significant progress we have made and encourage Americans to get vaccinated. So far so good.

But I also believe he will try to frame the nearly $2 trillion partisan bill that was rammed through Congress earlier this year as the driving force behind that progress, even though less than 10 percent of the bill was related to COVID–19.

I expect the President will call on Congress to pass his so-called infrastructure bill, which is similar to the COVID–19 relief bill in that it is a partisan bill having very little to do with the title of the bill itself. Only about 5 percent, in fact, goes toward roads and bridges, something we would all define as infrastructure.

I am hopeful that the President will finally announce a plan to address the crisis at our southern border because, so far, the administration has been largely silent. The size of the southern border is real; it is big; and it is growing. We are breaking all the wrong kinds of records, including the numbers of unaccompanied children, total monthly border crossings, and the capacity levels at our care facilities.

In March, we saw the highest number of border crossings on record, more than 172,000 individuals. That was a dramatic increase from the already eye-popping 100,000 in February. February, 2021? Of course, you and me, it is going to get nothing but worse.

Nearly 19,000 of these individuals were unaccompanied children. The highest numbers we have ever seen in a single month. Sometimes people will say: That child came to America all by himself or herself. I want to disable my colleagues of any notion that a child—small child—would make that trip to the United States by themselves. They are being turned over to criminal organizations that are paid by the head to transport them from their country of origin into the United States and, unfortunately, these human smugglers, known in my part of the country as “coyotes,” care nothing for the welfare of those children. It is only the money that they could produce by transporting them to the United States that they care about.

It is true we know that a spike in migration is not an entirely new phenomenon and, sadly, neither is the dramatic increase in the number of children, but the current surge is unlike any we have experienced in at least the last 20 years, according to Director Mayorkas.

These eye-popping numbers are compounded by a deadly pandemic. We have never seen that before. The pandemic, of course, has made once routine tasks like transporting and caring for migrants incredibly dangerous to the men and women who are performing those duties.

In an effort to downplay the seriousness of the border crisis or to defer attention from it altogether, the administration has spent literally no time talking about it, especially when compared to the time and energy that it has dedicated to things like climate change.

In fact, the Biden administration has spent the first several weeks of the month talking about how there is anything wrong at the border. Then they came up with some creative euphemisms to describe what has happened. They called it a challenge. They called it a situation. They called it a mess. Well, as long as you didn’t call it a crisis, they didn’t seem too bothered by it.

A month ago, the President tapped the Vice President to lead efforts to address this crisis, which was a positive sign, until I realized Vice President Harris acted as though the President had handed her a hand grenade and had pulled the pin because she couldn’t get away from it fast enough, saying the well, her job is purely diplomatic in nature. She hasn’t made a single trip to the border and, apparently, does not plan to do so at all.

The President has given lip service to encouraging migrants not to come, but those statements mean absolutely nothing when all of the other signals being sent by this administration are: There is a green light and a welcome mat out for migrants to come to the United States.

The situation is such that we are reaching a breaking point, and the Vice President and President could recognize that if they took the time to look learn from the people I have learned from, the experts who do these terribly difficult jobs along the border.

As you can imagine, I have spent a fair amount of time listening to those folks because I represent them. I visited border communities and heard from the Border Patrol officers, mayors, county judges, and NGOs, nongovernmental organizations, that are doing the best they can dealing with overwhelming numbers.

I had the opportunity to actually talk to some of the migrants themselves about their journeys to our border and what brought them here. In the Rio Grande Valley, I spoke with three young mothers holding their crying infants less than a mile from the river they crossed into the United States. They had just undergone preliminary health screenings and were waiting for buses to take them to a processing center.

And, please, our colleagues should understand these migrants are not trying to get away from the Border Patrol. They are literally walking up to the Border Patrol and turning themselves in because they realize that is the next step to their being placed into the interior of the United States and completing their journey.

As you can imagine, each of these mothers was hopeful. They made it to the United States and knew that as a family unit with young children they would be cared for by our government and then released into the interior. When one of the mothers paid $3,600, she said, to get here. Another paid $6,000. This is big business for the smugglers and the criminal organizations that charge thousands of dollars to bring migrants to the U.S. border.

I think it is important to note that this is not just a Mexico-Central American phenomenon. A couple of months...
ago, when I was down at the Del Rio sector of the Border Patrol, the Border Patrol Chief showed us a slide with the names of 54 different countries represented by the people who were detained coming across the Del Rio sector just so far this year—54 different countries.

As I said, many of these “customers” are children traveling with no parents. We know the journey is not a safe or easy one. In fact, it is dangerous, and it is hard, and many children arrive in critical health conditions after days, weeks, and months on the road. And the tragic fact is, some of these children don’t make it. They die en route.

I have heard horrific stories of physical and sexual abuse that occurs at the hands of the criminals, cartels, and human smugglers, and others traveling in a large caravan of immigrants. At the Kay Bailey Hutchison Convention Center in Dallas, which is now serving as a shelter for migrant boys, I talked to one boy who endured a 3-month-long trek on foot from Central America to the United States. He told us he slept in the jungles along the way and that food was scarce. As you can imagine, he was happy now to be in a shelter where he has three square meals a day with a roof over his head.

These stories are not unique. Many of us have seen the heartbreaking video of a young boy abandoned by smugglers in the Rio Grande Valley, dropped from the top of the wall into the interior of the United States. And we have read the story about a young girl who drowned trying to cross the Rio Grande River. And we have seen where the smugglers who care so little for the United States—and in one instance they threw a 6-month-old child into the river, knowing the Border Patrol would be diverted in order to save the child, which thankfully they did, while they skedaddled into the United States. I think it is heartbreaking that these children are enduring this sort of trauma, and it is infuriating that cartels and criminal organizations are getting richer in the process.

So make no mistake, there is a crisis at the border and the policies of the Biden administration helped make it worse. Despite warnings from folks on both sides of the aisle, the administration actively worked against the interest of the American people without any alternative plan in its place. Making matters worse, they entirely failed to prepare for the obvious consequences. Now the question is, What are they going to do to address it?

I believe the American people deserve to hear from President Biden his outline of a plan to address the border crisis and to manage this surge of humanity in a fair and humane way. If the President is still working on that portion of the plan, I would like to make a friendly suggestion.

There is a grassroots plan out there that was built from bottom up by the Senators and Congressmen most familiar with the crisis. It includes input from the men and women who dealt with migration surges in the past and who are working around-the-clock to manage the consequences of uncontrolled movement of migrants across the border. It is called the Bipartisan Border Solutions Act.

Senator Sinema from Arizona, who also represents a border state, and I have introduced this legislation here in the Senate. We are proud to work with two Democrats and one Republican, Henry Cuellar of Laredo and Tony Gonzales, a Republican in the 23rd Congressional District. He represents, I believe, the largest single section of the U.S.-Mexico border of any member in Congress. Our bill seeks to address the most urgent problems on the border today. There is more we can and should do, but at least this would address the most urgent problems.

First, it would establish four regional processing centers on the border line to process migrants. Right now, the smugglers know that if they flood the zone with children, the Border Patrol are going to have to go off the frontline in order to take care of the children, leaving the adults and the smuggling narcotics and other migrants—narcotics which, by the way, contributed to roughly 88,000 drug overdoses in America alone in the last 12 months.

Our bill would provide protections for migrant children who come to the country without a parent or any relatives.

It would help reduce the immigration court backlog and remove a major pull factor for migrants who do not have a legitimate asylum claim. But it would, more importantly, speed up the process for the most vulnerable migrants who do have a valid asylum claim.

I think these are commonsense reforms that should earn the support of the majority of members in both chambers in Congress, as well as a number of respected outside organizations.

We would be glad to receive the support of the administration or at least a phone call so we can begin conversations. Ignoring this crisis will not make it go away. We have spent the last couple of months demonstrating that inaction will only make it worse.

As I said, we have seen surges in the past, but never like this. The busiest months are usually April, May, and June, not February and March, which indicates, by historical trends, it is going to get worse and worse and worse. If our facilities and our personnel are overwhelmed today, which they are, and we haven’t yet reached the normal busy season, how much worse are things going to get? How many more children will die in the hands of these criminals on their way to the United States before we decide to take action?

As the Presiding Officer and I have discussed before, there is nobody else to take action?

I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. INHOFE. Mr. President, I was listening intently to the Senator from Texas, who is certainly familiar with the problems on the border. It happens that I spent 30 years down there as a builder and developer many years ago. I got to know the border people. They are trying to do a great job down there against some pretty impossible odds.

You know, one thing I always think about is, it has nothing to do with Central American citizens or Mexicans; it is the people from the Middle East, terrorists from all over. Open borders don’t work. So I applaud him for his efforts on that.

Mr. President, this week we have a real opportunity before us to pass the Bipartisan Drinking Water and Wastewater Infrastructure Act of 2021.

If you listen only to the national media, you would think that Congress can’t get together on much of anything, but this bill is a real example of how that is not always the case. The reason is simple: Everyone agrees that we need clean, safe, drinking water and to support State and local projects to protect water quality.

There are tangible benefits for communities too. Just consider what the bill does for my State of Oklahoma. First, it will increase the Federal funding for local projects by over $315 million in the next 5 years, an increase of 123 percent.

More than that, the State retains the control to direct funds to projects they have identified. It is called local support. It is a kind of a unique concept. It demonstrates clearly that we who are representing an area know more about the area than people who don’t represent the area.

This will increase funding for local projects. It will also provide needed resources to help Oklahoma achieve its comprehensive water plan, meeting its obligations to provide safe, clean water.

Mr. President, let’s continue to make investments in clean, safe drinking water. This bill provides specific benefits to rural communities, but it also provides specific benefits to rural communities like my State of Oklahoma.

A month ago, the Water Quality Division director of the State of Oklahoma Department of Environmental Quality, Shellie Chard, testified before the EPW Committee to highlight the challenges and benefits to current systems and the innovation that they are using in rural States and communities to ensure safe and affordable drinking.
water. She highlighted the need for assistance to small, rural States in complying with government regulations, and this bill does that by giving small and rural States access to Federal funding and assistance in complying with government regulations that are often burdensome and overbearing for them.

The bill also empowers rural communities to work with technical experts at nonprofit entities and State agencies to implement best practices and more efficiently comply with Federal regulations. When a small town like Meridian, OK, needs help addressing harmful contaminants in their drinking water system, local rural water organizations can provide consistent help and expertise, and they do. They are out there. They want to help. Dedicating resources to help our rural communities will ensure they spend more of their time and their money on community projects, not navigating a bureaucratic maze.

More than just taking care of our water infrastructure today, this bill has an eye on the future by reauthorizing the Water Resources Research Act. The Water Resources Research Act supports cutting-edge water research at universities across the country, including Oklahoma State University in Stillwater. OSU will receive research funding over the next 4 years to study wastewater reuse, produced water from oil and gas operations, and study wastewater reuse, produced water from oil and gas operations, and study wastewater reuse, produced water from oil and gas operations, and study wastewater reuse, produced water from oil and gas operations, and study wastewater reuse, produced water from oil and gas operations, and study wastewater reuse, produced water from oil and gas operations, and study wastewater reuse, produced water from oil and gas operations, and study wastewater reuse, produced water from oil and gas operations, and study wastewater reuse, produced water from oil and gas operations.

The bill will also more than double the funding for the enhanced aquifer recharge research program. This program does essential work to refill the groundwater aquifers, especially in areas with water shortages, to sustain a reliable municipal water supply.

I thank my colleagues Senator CARPER and Senator CAPITO for working together to move this bill through the normal process and bring it to the floor. This is what bipartisanship means, and we do see this every day, in spite of what you might get from the media. I look forward to this bill being passed and enacted into law quickly. It is important that this not be the end of our bipartisan infrastructure work.

**Surface Transportation Plan**

Mr. President, we also need to reauthorize the new surface transportation plan before October 1. I know that it can be tough because I did it twice with Senator Boxer. We did the MAP–21 program; that was in 2012. We did the FAST Act in 2015. We were successful because we focused on actual infrastructure—roads, highways, bridges, waterways, and the like.

Senator CAPITO rolled out a meaningful infrastructure package this last week. It is bold and focused on what our country actually needs.

While President Biden and the Biden administration recognize the Republican plan as a starting point, sadly, Senate Democrats dismiss it outright, without even waiting to read it. And why? Because the extreme left wants to hijack the popularity of infrastructure to pass their Green New Deal agenda.

You know, I had the honor of being with the President and the Vice President on their first week in office. At that time, they were talking about the infrastructure package of the administration. I told the President at that time that one of the problems I have with what I feel is going on is the infrastructure package going to be using the popularity of infrastructure repair. That is popular. People want roads. They want highways. They want infrastructure. But they want to use that popularity to get their agenda passed.

Now, in the infrastructure package that the President came out with, only about 7 percent of that actually addresses roads, highways, and bridges. So that is not what we want. We do have a bill coming out of the committee.

The proof is in the numbers. The Biden plan would spend more on electric vehicle charging ports and subsidies for electric folks on roads, bridges, and airports combined. You know, I didn’t believe that when I first saw it. How can he come out with something that would actually spend more just on electrical vehicles than it does on roads, highways, and bridges? But that is exactly right because it would be $157 billion for roads, highways, and bridges but $174 billion for electrical vehicle support.

If this is familiar to you, that is because it is. Remember then-President Obama’s American “Recovery” Plan that was supposed to be a massive investment in infrastructure with “shovel ready jobs”? Well, less than 5 percent of that bill went into infrastructure. The rest of the $800 billion went to finance the Obama climate agenda. I guess history really does repeat itself because that same thing is happening today. Worse, it trades responsible pay-for methods with a tax-and-spend approach.

A lot of people here may be too young to remember this, but I remember when the biggest problem we had in the highway trust fund was that we had too much money, that we had too much surplus. I ask the Presiding Officer, can you believe that, because you haven’t been here that long? But that actually was the problem. The highway trust fund was actually more than it needed to be. I can remember back during the Clinton administration, I was pretty upset when he took several billion dollars out of that program. The surplus was beginning to grow, but we knew that leaner times were coming and that we would end up with a highway program that we would not be able to pay for out of the highway trust fund if we let people take money out of that trust fund.

But, anyway, a lot of people here may be too young to remember that, but that actually did happen.

One of the unique things about our highway system is the “user pays; user benefits” model. At a recent EPW hearing that we had—that was just 2 weeks ago—every single witness was in agreement that users who benefit should pay into the system. They all agreed that they believe that the previous administration, the Trump administration.

People hear that, and they don’t fully appreciate just what it means. They think that corporate tax rates won’t affect them. But the people hurt the most by the higher corporate tax rate tend to be in the most vulnerable categories. That is because higher taxes on job creators not only hurts American competitiveness around the world, but it means lower wages, lower GDP growth, and fewer jobs to go around.

In fact, the nonpartisan CBO found that 70 percent of the savings businesses got when they lowered the corporate tax rate in the Trump tax cuts went straight to worker wages, and the Biden plan would undo that very successful program. A study done by Rice University found that raising the corporate tax rate back to 28 percent, like the Biden plans do, will actually kill 1 million jobs in just 2 years.

Before the pandemic, the economy was growing fast, thanks in large part to the historic tax cuts and the regulatory reforms that drove the record job growth.

The White House said it was serious about infrastructure investment, and I am committed to working with the President and my colleagues in the Senate to do this. It can be done this year, just as it has been many times in the past, but it needs to be real infrastructure and not just a big-spending liberal climate bill.

With that, I yield the floor.

The PRESIDING OFFICER. The Senator from West Virginia.

Mrs. CAPITO. Mr. President, I rise today to urge my colleagues to vote for this motion to proceed to the bipartisan Drinking Water and Wastewater Infrastructure Act of 2021, otherwise known as DWWIA.

As the ranking member of the Environment and Public Works Committee, I have been working closely with Chairmen CARPER and Senators DUCKWORTH, LUMMIS, CARDIN, and CRAMER to craft meaningful legislation that addresses our country’s aging
drinking water and wastewater systems. Every city and town can tell you all about it.

This bill authorizes more than $35 billion for water resource development projects across the country, with a focus on upgrading aging infrastructure, rebuilding the emerging threats of extreme weather events, including those resulting from climate change, and cyber security vulnerabilities. This bill also includes measures to invest in innovative technologies, and it provides assistance to marginalized communities. All of these things will help our communities keep their water safe and clean.

Something I am particularly proud of is how this bill provides flexibility to both rural and urban areas and lets them decide how they can best address their needs.

The most significant investments in this bill are in the drinking water and clean water State revolving funds. We know the SRFs. The SRFs maximize authority for the States to determine how best to address drinking and wastewater challenges, utilizing a revolving loan fund to facilitate additional future investments.

For example, States like West Virginia, we offer several solutions to unique water challenges. I will add here that we have a lot of great water in West Virginia. First, the bill invests $50 billion for those currently being served by intrastate water systems. Those are the systems that service fewer than 1,000 people and that have typically been abandoned by the operator. We have quite a few of those. Towns in the southern coalfields of West Virginia, like those in McDowell County, have historically struggled with this.

Since many of these households cannot connect to municipal water systems in an economic or technologically feasible way, the funding will go to a grant that will help them invest in environmentally sound, decentralized wastewater systems. This language is something that I worked on previously with my colleague from New Jersey Cory Booker when he was on the committee in the last Congress.

The most pressing water issue, from a human health and environmental perspective in Appalachia, is undoubtedly straight piping. This practice is common in other exceptionally rural and remote areas around the country. So with new septic tanks installed, the grant program is working to improve quality of life and addresses public health and environmental concerns about straight piping waste into rivers and streams.

Infrastructure resiliency and sustainability is also a priority in this bill. In rural areas especially, some of the pipes are nearly 100 years old. I have actually heard about wooden pipes. Small towns often don’t have the revenue to spend on expensive drinking water and wastewater infrastructure upgrades. That is why this legislation creates grants for small public water systems to replace components, to identify and prevent leaks, and to install meters.

This is based off of language I introduced last Congress in the Assuring Quality Water Infrastructure Act. I was joined there by my colleague Blanche C. CARDBIN of Maryland to address the needs of small water systems that are facing operational challenges in maintaining drinking water services. Every State has them.

In West Virginia, that is often the result of old infrastructure or the lack of adequate mapping of where these assets actually exist. It is hard to fix leaks when you can’t find them.

Reports have shown—this stunned me when I saw this—that only one-quarter of the water that West Virginia water systems pay to have treated and pumped even reaches a faucet—one quarter. That is how much water leaks out. I think about other States that have water shortages, and here we are wasting so much water in a State like ours, which has an abundance of water.

Water is a precious resource, and wasting that much of it because of leaky pipes and faulty infrastructure is absolutely unacceptable. The $250 million grant program will help provide the technical assistance and infrastructure investments that these small systems, serving 10,000 people or fewer, need to address to get those challenges off their backs and to get on sure fiscal footing as they better serve their customers.

Of course, we don’t want to forget about our midsize and large drinking water systems. Another program that I worked on last Congress, again, with Senator CARDIN, addresses the resiliency of drinking water and wastewater systems.

Adapted from the Clean Water Infrastructure Resilience and Sustainability Act, these programs, totaling $370 million, would provide technical assistance to protect public water systems from a host of threats, both natural and manmade.

In West Virginia and in many other parts of the country, the greatest threats to drinking and wastewater infrastructure come from flooding. These investments will harden infrastructure against these threats and protect taxpayers from paying for the same infrastructure again and again.

I just discussed physical resilience, but we must also ensure the resilience of our water utility workforce, those workers who ensure the continued operation and maintenance of drinking water and wastewater systems every day.

Section 211 of DWWA focuses on the resilience of America’s water utility workforce by addressing recruitment, training, and retention challenges. This is a topic very important to me, and I worked, again, with my colleague from New Jersey Senator Booker, on this issue.

I cannot help but think that we regularly take for granted the public health services provided by this Nation’s water utility workforce. We just don’t really think about who is actually working there and providing the service that we sometimes take for granted.

Unfortunately, a large portion of the men and women who are in our water treatment facilities are getting older and they are retiring, and that is why we need to make sure that we have the next generation of water workers ready.

This bill increases funding authorized to $25 million over 5 years for the program that helps water systems grow their workforce through apprenticeships, through training programs, and it also helps with their retention efforts. This program has been extremely popular with water systems around the country, and Congress has recognized this by funding it beyond the authorization level.

Provide technical that we provide the tools and investments necessary to help our drinking water and wastewater systems face these challenges head-on. After all, this is the workforce that will ensure the operation and maintenance of all our infrastructure investments this package creates.

Additional technical assistance can also help systems with operations—it is much more cost-effective than what it used to be—and prevent outages and costly compliance issues. Section 206 establishes and authorizes a circuit rider program designed to help owners and operators of small- and medium-sized publicly owned works.

We have heard from the water community that other circuit rider programs have been a tremendous asset in providing technical assistance. It only makes sense for the EPA to similarly provide technical assistance since they implement the relevant regulations. This can be tremendously helpful where a system may be struggling with an insufficient workforce and also must be a part of the resilience discussion.

Another concern for us was the alarming trend in cyber security threats in water systems. In February, you all might remember, hackers accessed a Florida water treatment facility computer system and were able to remotely raise the level of sodium hydroxide in the water. That is not just scary; it is alarming.

This has huge national security implications on top of our obvious public health concerns. Thankfully, that hack was detected and the system was returned to normal before the public was ever at risk. But in this day and age, water infrastructure resiliency also has to address cyber security issues. So we made sure that these vulnerabilities could be addressed under resiliency grants.

While water infrastructure investments are critical to ensuring we are not wasting water and our water is clean, it is also critical from an economic development perspective. Berkeley County—close here to Washington,
Chairman, Senator DUCKWORTH, and Water Subcommittee counterpart and my chairman, Senator CARPER, and together on this.

I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. SULLIVAN. Mr. President, I ask unanimous consent to be able to complete my remarks, given the time constraints.

The PRESIDING OFFICER. Without objection, it is so ordered.

NOMINATION OF COLIN HACKETT KAH.

Mr. SCOTT of Florida. Mr. President, I rise in opposition to the nomination of Colin Kahl to serve as Undersecretary of Defense—Secretary's top national security adviser, a position that requires sound judgment and an even temperament. Dr. Kahl's history of partisan rhetoric makes him unfit for this position.

For all those reasons, I oppose Mr. Kahl's nomination and urge my colleagues to do the same.

Mr. SULLIVAN. Mr. President, I rise today to oppose Colin Kahl's nomination for Under Secretary of Defense for Policy, and I advise my colleagues to do the same, as we are getting ready to take a vote on this very important position in the Pentagon. That, to me, is one of the most important positions we have at the Department of Defense.

Mr. SCOTT. Mr. President, I rise in opposition to the nomination of Colin Kahl to serve as Undersecretary of Defense.

I would like to thank my counterpart and my chairman, Senator CARPER, and his staff for their work, as well as our Water Subcommittee counterpart chairman, Senator DUCKWORTH, and Ranking Member LUUM.

This bill is proof that we can work together on infrastructure. This is a bipartisan, responsible, meaningful investment. We are taking care of pipes, we are looking out for our environment, and we are putting special emphasis on helping rural and disadvantaged communities. At the end of the day, this bill is really about helping people. This is a bipartisan bill that we can all be proud of.

Again, I ask my colleagues to vote yes on the motion to proceed and again on the underlying bill.
Your letter to committee leadership appears to be a conveniently timed retraction by someone who has suddenly realized his nomination is in jeopardy. But your multiple past public statements were simply as an aberration. No one with a record of repeated, repugnant statements like yours should be nominated to serve in a senior position of public trust at the Pentagon. Your views are wholly incompatible with the U.S. military’s values.

Thank you for your attention to this matter. We call on you to withdraw your nomination.

Mr. SULLIVAN. You have almost the identical situation here. What happened with General Tata is that his nomination, for a lot of these reasons, was withdrawn by the Trump administration. Yet now you have the same, almost identical issues with this nominee, and when I showed this letter to my Democratic colleagues, they were like, “Oh, no. That’s OK.” It is not OK. It is not OK.

So let’s talk about temperament and tweets with Dr. Kahl.

Really, the issue here is, is he more of a political hack who is tweeting all of the time—he tweets quite a lot—or is he somebody with the temperament of a political hack who is a tweeted, retweeted, and reported on, and his tweets have significant, wide-ranging influence on the policies and activities of the Pentagon and defense relationships with our most critical allies and partners.

Anyone nominated to be a high-ranking Pentagon official must be qualified and also a person whose words matter, whose behavior is consistent with the values of our country and those of the U.S. military. Nominees should see the value diversity, inclusion, and unity bring to our institutions. Unfortunately, your history of public remarks does not meet this standard. In 2018, you said that Islam is “the most oppressive violent religion I know of,” and that the 2015 agreement to block Iran’s pathways to a nuclear weapon alone is more than enough evidence of [former President Barack Obama’s] drive to subvert U.S. national interests to Islam and a globalist agenda. You called President Obama a “terrorist leader” and alleged that the former president “made no secret of his belief that a weaker America made for a stronger world.” Moreover, you falsely claimed that President Obama “is a Muslim—what a claim used by your presidency to discredit the Commander in Chief and Members of Congress all the time. That is classic the Commander in Chief and Members of Congress all the time. That is classic.

It is not OK.

So let’s talk about temperament and tweets with Dr. Kahl.

Here is what he wrote:

The GOP used to pride itself as the party that put values front and center in U.S. foreign policy. Now they are the party of ethnic cleansing.

OK. I don’t think we are the party of ethnic cleansing. That is pretty strong stuff.

He tweeted more:

Let’s not mince words. The Trump administration kidnapped children. The Republican Party, in terms of national security, are now part of a “death cult.”

He retweeted the now discredited Lincoln Project attacks. I know a lot about them. It spent a lot of money in my race. It is a very disgraced group of people, by the way. Very disturbed are some of their leaders at the Lincoln Project.

He calls and tweets that the President of the United States, the Commander in Chief, is a moron, is repugnant, is a coward. He went on to call my colleagues in the Senate many additional things that I won’t repeat here. He did this in public.

No matter what your views are of my colleagues or of the former President, words matter, and attacks matter. If you can’t refrain from making them, maybe you don’t belong in the No. 3 position in the Pentagon. That was the conclusion that pretty much everybody made last year, so why should it be different with this candidate? It shouldn’t be, sir.

Don’t get me wrong. It is a free country. You are allowed to tweet and criticize the Commander in Chief and Members of Congress all the time. That is fine. That is what America is. That is an important part of democracy. But it doesn’t mean you get a free pass to be the No. 3 guy at the U.S. Department of Defense, which is what he wants.

So that is temperament, and I don’t think it is a good temperament with which to lead the Pentagon at all.

Let’s talk about judgment, especially policy judgment. The questions of temperament are often closely aligned with but they are not the same as judgment.

I think this nominee lacks judgment, which is something that was shown in the Vice President Biden’s National Security Advisor. Let me provide a few examples.

First, as many know, he was a staunch advocate for the Iran nuclear deal and, I believe, an advocate on being soft on Iran.

By the way, it is not always said in public, but a bipartisan majority of U.S. Senators and a bipartisan majority of Members of the House all opposed the Iran deal. And, by appeasing the world’s largest state sponsor of terrorism, these terrorists—leaders with the blood of thousands of American troops on their hands—is not smart policy judgment.

Dr. Kahl, in 2015, argued for sanctions relief on Iran, claiming that the vast majority of the relief would go to but that is not science and not smart policy judgment.

Dr. Kahl particularly as it relates to policies. Judgment is being able to assess a situation, use history as a guide, and take appropriate action.

Let’s talk about judgment, especially policy judgment. The questions of temperament are often closely aligned with but they are not the same as judgment.

First, as many know, he was a staunch advocate for the Iran nuclear deal and, I believe, an advocate on being soft on Iran.

By the way, it is not always said in public, but a bipartisan majority of U.S. Senators and a bipartisan majority of Members of the House all opposed the Iran deal. And, by appeasing the world’s largest state sponsor of terrorism, these terrorists—leaders with the blood of thousands of American troops on their hands—is not smart policy judgment.

Dr. Kahl, in 2015, argued for sanctions relief on Iran, claiming that the vast majority of the relief would go to foreigners, not to support the Iranians. The turn out. That money went to arm ing terrorists and the continuation of Iran’s proxies around the Middle East and around the world who were committing terrorism.

Dr. Kahl said that pulling out of the Iran nuclear deal was “a dangerous delusion.” He said: The “hawks in Congress”—and I think he meant that as an insult. By the way, I view that not as an insult, particularly after the Obama-Biden administration cut defense spending by 25 percent and drastically reduced readiness—who are supporting pulling out of the Iran deal “won’t be satisfied until they get the war they have pushed for decades.” Really? I didn’t want war with Iran. Those who pushed for the JCPOA—a bipartisan majority of the U.S. Senators didn’t want a war with Iran. We just thought the JCPOA was misguided.
After the U.S. strike that killed Iranian terror commander Qasem Soleimani, Kahl tweeted the following: Trump has started a war with Iran and Iraq.

Really? I think what the President and his line military did when they killed General Soleimani was establish deterrence, which we had lost in the Middle East when this terrorist killed thousands and wounded thousands of U.S. service men and women and never had to pay consequences. We reestablished our credibility and deterred. If you kill Americans, you are going to pay.

Guess what. That war never happened, although Kahl predicted it.

Even Iran’s Foreign Minister, Mohammad Zarif, acknowledged in these tapes that we have been talking about here on the Senate floor that the killing of Soleimani “was when the United States delivered a major blow to Iran more damaging than if it had wiped out an entire city in an attack.” That was from the Foreign Minister of Iran’s knowing that what we did was very significant.

Dr. Kahl, if you look at his tweets, would he have done that because he thought it would have “brought the war that thehawks want.” “We didn’t want a war, and we didn’t get a war.”

Just like John Kerry, who is now being accused of leaking secrets that Israel had—one of our most important allies—to Iran, the world’s largest state sponsor of terrorism, I believe he is soft on Iran.

We are going to get to the bottom of the Kerry case. This is a long-abiding passion of his. He has lived up to his own assessment of what is required to serve in the Pentagon’s third most important defense role. I don’t believe he has the qualifications for this position. There are plenty of good policy experts—Democrats, I am sure, who do—and I would encourage my colleagues to vote against this nomination for these reasons:

I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CRUZ. Mr. President, I ask unanimous consent to speak for up to 7 minutes prior to the vote on the Kahl nomination.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CRUZ. Mr. President, I rise today to speak about Colin Kahl, the President’s nominee to be Under Secretary of Defense for Policy.

The most basic responsibility of our government and our military is to protect the national security of the American people, which requires helping our allies and constraining our enemies. The Pentagon’s policy chief is responsible for those evaluations.

Unfortunately, I have come to believe that Colin Kahl’s judgment is irreparably marred by obsessive animosity toward Israel. I can think of no other way to explain his years of consistently wrong views regarding the Middle East—and not just wrong but impulsive and reckless.

He has repeatedly spilled out his conspiracy theories and attacks on Twitter and other public venues. He views the world through a cracked lens.

And I challenge my Democratic colleagues to explain one simple thing: What other explanation, other than animosity to the world’s only Jewish state, could possibly account for all of these staggeringly wrong judgments?

I would like to begin with a topic the Senate has been united on: our opposition to anti-Semitism and to anti-Semitic conspiracy theories.

In 2019, this body came together unanimously to pass a resolution that I authored, along with Democratic Senator Tim Kaine, condemning anti-Semitism as a unique form of bigotry that distorts people’s judgments.

Recently, a top adviser to the Ayatollah Kadhimi acknowledged what the world long knew—that in 2018, in an operation right out of a Hollywood action movie, Israel seized Iran’s national nuclear archive. The archive proved that Iran had been keeping nuclear weapons blueprints and materials on the shelf. The nuclear deal, of which Kahl was a principal architect, had been flamed from the start.

Kahl responded to the news of the raid by suggesting on Twitter that the archive was fabricated by Israel, with the aim of dragging American boys and girls into another Middle East war. This was a pernicious, anti-Semitic conspiracy theory, a blood libel, not just pernicious but wrong.

That was not the only time Kahl leveled troubling conspiracy theories about Iran and Iran. He suggested on Twitter that Trump’s policies regarding the Iran deal and Jerusalem were linked to donations from Jewish billionaire Sheldon Adelson. This is not the judgment of anyone who should be anywhere near power or policy.

Just like his boss, the Trump administration made was to move our Embassy in Israel to Jerusalem. There was an active debate within the Trump administration. I leaned in vigorously with the President, and the President agreed with my view and said that we should say to our friends and our enemies that we stand unshakably with the nation of Israel.

Kahl spent years fighting against the move, fighting against moving our Embassy. According to reports from 2012, Kahl was personally responsible for trying to remove language from the Democratic Party platform embracing Jerusalem as the capital of Israel. The President declared Jerusalem as the capital of Israel.

And when President Trump recognized Jerusalem, Kahl predicted it would isolate the United States and Israel and even potentially trigger a third intifada. He was wrong.

Kahl has even attacked Democrats on this issue. For instance, he has repeatedly attacked Chairman Menendez for trying to “kill” and use “poison pills” to block appeasement of the Iranian regime.

Turning to current topics, the Obama-Biden team shamefully, repeatedly, and mercilessly used their influence to leak secrets about Israeli operations against Iranian terrorists and forces.

Now there are new reports on a taped phone call that then-Secretary of State Kerry may have leaked Israeli attacks to Iran—to prevent, and if he was wrong, that with whom he is personally close. If verified, these reports would mean he maliciously endangered not just Israeli national security but American lives. If these reports are true, John Kerry should resign, and if he is wrong, President Biden should fire him.

Colin Kahl was prominent in shaping Obama-Biden policies on Israel and
Iran, and he has been credibly accused of weaponizing and leaking classified information.

I recently joined 17 other Senators in a letter to FBI Director Wray, requesting that the FBI immediately investigate whether he did so. But we are not going to have an answer before we vote today, and I don’t see how he can be principally advanced without it.

On issues of foreign policy, this body is often united when standing up against our enemies and standing for our friends. This nominee, I believe, is the right person to be an anti-Israel nominee who would serve in the entire Biden administration.

Many of our friends on the Democratic aisle like to say they support the nation of Israel. Well, this is a chance to demonstrate you mean it because you cannot vote to confirm a rabid, anti-Israel, conspiracy theory-tweeting radical to the No. 3 position in the Department of Defense and then demonstrate a willingness to endanger Israeli lives and American lives to advance that hostility.

I urge our colleagues on both sides of the aisle to oppose this nomination.

Colin Kahl’s record is extreme, fringe, and radical. He has a lifelong obsession with and antipathy to the State of Israel, and he has demonstrated a willingness to endanger Israeli lives and American lives to advance that hostility.

I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota.

VOTE ON KAHL NOMINATION

Ms. SMITH. Mr. President, I ask unanimous consent that all remaining debate time be expired.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The question is, Will the Senate adjourn?

Ms. SMITH. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from Washington (Ms. CANTWELL) is necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from Missouri (Mr. BLUMENTHAL), the Senator from South Dakota (Mr. CRAMER), the Senator from Kentucky (Mr. PAUL), the Senator from North Dakota (Mr. ROUNDS), and the Senator from Alabama (Mr. SHELLY).

The yeas and nays resulted—yeas 92, nays 2, as follows:

[Rollcall Vote No. 172 Ex.]

STANDING RULES OF THE SENATE

February 11, 2021 — Motion to Proceed

CLOTURE MOTION

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The senior assistant legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close the debate on the motion to proceed to Calendar No. 34, S. 914, a bill to amend the Safe Drinking Water Act and the Federal Water Pollution Control Act to reauthorize programs under those Acts, and for other purposes.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call has been waived.

The question is, Do you make the sense of the Senate that debate on the motion to proceed to Calendar No. 34, S. 914, a bill to amend the Safe Drinking Water Act and the Federal Water Pollution Control Act to reauthorize programs under those Acts, and for other purposes, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The senior assistant legislative clerk called the roll.

The PRESIDING OFFICER (Ms. HASSAN). Are there any other Senators in the Chamber desiring to vote?

Mr. DURBIN. I announce that the Senator from Washington (Ms. CANTWELL) is necessarily absent.

Mr. THUNE. The following Senators are necessarily absent: the Senator from Missouri (Mr. BLUMENTHAL), the Senator from North Dakota (Mr. CRAMER), the Senator from Kentucky (Mr. PAUL), the Senator from South Dakota (Mr. ROUNDS), and the Senator from Alabama (Mr. SHELBY).

Mr. BLUMENTHAL. Mr. President, I rise to order.

The PRESIDING OFFICER. The Senate is in legislative session.

Mr. BLUMENTHAL. Mr. President, I rise to order.

The PRESIDING OFFICER. The Senate is in legislative session.
Ms. DUCKWORTH. Madam President, I know of no further debate on the motion to proceed.

The PRESIDING OFFICER. Is there further debate?

Hearing none, the question is on agreeing to the motion to proceed.

The PRESIDING OFFICER. The motion is agreed to.

The PRESIDING OFFICER. The clerk will report the bill by title.

Ms. DUCKWORTH. Madam President, I call up amendment No. 1460, and I ask that it be reported by number.

The PRESIDING OFFICER. The clerk will report.

The senior assistant legislative clerk reads as follows:

The Senator from Illinois [Ms. DUCKWORTH] for Mr. Casten proposes an amendment numbered 1460.

Ms. DUCKWORTH. Madam President, I ask unanimous consent that the Senators permitted to speak be in a period of morning business, and for other purposes.

AMENDMENT NO. 1460

(Purpose: In the nature of a substitute.)

Ms. DUCKWORTH. Madam President, I call up amendment No. 1460, and I ask that it be reported by number.

The PRESIDING OFFICER. The amendment is printed in today's RECORD under “Text of Amendments.”

MORNING BUSINESS

Ms. DUCKWORTH. Madam President, I ask unanimous consent that the Senate be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. The question is on agreement to the motion to proceed.

The motion was agreed to.

The PRESIDING OFFICER. Is there further debate?

I know of no further debate on the motion to proceed.

I call up amendment No. 1460, and I ask that it be reported by number.

The PRESIDING OFFICER. The amendment is printed in today's RECORD under “Text of Amendments.”

COVID–19 HATE CRIMES ACT

Ms. KLOBuchar. Madam President, I rise today to discuss the COVID–19 Hate Crimes Act. I was a co-sponsor of this bill, which was introduced by Senator HIRONO and passed the Senate on April 22, 2021, by a vote of 94 to 1.

I was in Minnesota to attend the memorial service for Daunte Wright when the bill came up for a vote, but I would have voted in favor of the bill had I been present.

I have been alarmed by the sharp increase in hate crimes against members of the Asian-American Pacific Islander, AAPI, community during the pandemic. According to Stop AAPI Hate, there have been approximately 3,800 incidents of anti-Asian bias across the country in the last year, and that number only includes what has been reported. As we saw with the recent mass shootings in Atlanta, in which six of the eight victims were women of Asian descent, these crimes are horrifying and heartbreaking.

I have also talked to constituents in my State who have experienced verbal attacks, physical abuse, and threats to their safety. In nearly every case, they are members of the AAPI community. What they have endured is not right. These are hate crimes, and it is time for us to stand together, to denounce hate, and take action.

When I first arrived at the Senate, I worked hard to pass the Matthew Shepard and James Byrd Jr. Hate Crimes Prevention Act. As a prosecutor, I was in the Justice Department when President Bill Clinton introduced the bill, and 9 years later, I got to cast one of the deciding votes to make the bill a reality. Since then I have worked with Senator MURKOWSKI to introduce the bipartisan Justice for Victims of Hate Crimes Act to help ensure that Federal prosecutors can effectively enforce the Federal hate crimes law.

After places of worship were targets of violence in my State, I joined my colleagues in cosponsoring legislation to strengthen protections for religious institutions that was signed into law in September 2018.

The COVID–19 Hate Crimes Act will ensure that the Department of Justice invests the resources needed to fully investigate hate crimes against Asian Americans and will support local law enforcement to report and respond to hate crimes. While there is more we must do to root out hate and bias in our country, this bill is an important step forward, and I am grateful to Senator HIRONO for her work in leading this legislation.

TRIBUTE TO LORI HOUSMAN

Mr. WYDEN. Madam President, I rise today to recognize the distinguished career and retirement of Lori Housman after 20 years of service at the Congressional Budget Office. Throughout her time at CBO, Lori has been a cornerstone of the Medicare unit. Her expertise in Medicare’s payment policy for physicians, as well as her patience and good humor, has been essential to the Congress as it has developed legislation in this complicated area.

During her time in public service, Lori has worked on legislation that dramatically changed how Medicare operates, including the Affordable Care Act and the Medicare Access and CHIP Reauthorization Act of 2015, commonly referred to as MACRA. Lori’s tireless dedication to providing the Congress with objective analysis embodies the best of CBO’s commitment to serving both sides of the aisle with expertise, professionalism, and fairness. Her exemplary work in analyzing legislation is matched by her warmth toward and genuine interest in others, earning her the admiration of congressional staff. Her efforts over the years have surely helped to make the Medicare Program better for tens of millions of Americans.

To her colleagues, Lori is a constant source of knowledge, support, and kindness. She has trained many groups of CBO analysts and managers throughout her tenure, teaching them to think critically about how legislation can be translated into analytical models and how to explain how legislation can be clarified to better reflect the intent of the Congress. In addition to her contributions to CBO’s analytical work, her colleagues at CBO congressional staff are grateful for her patience and generous spirit, especially in extraordinary circumstances.

As chair of the Finance Committee, I along with Ranking Member CRAPO, thank Lori for her service, and we wish her a relaxing, well-deserved retirement with her husband Van on their boat, Pigs Flew.

ADDITIONAL STATEMENTS

CENTENNIAL OF CONNECTICUT LIONS CLUBS

Mr. BLUMENTHAL. Madam President, today I rise to recognize Lions Clubs International as it celebrates 100 years of outstanding service in Connecticut.

In the winter of 1921, Lions Clubs International, now the world’s largest service organization, dispatched an organizer to Connecticut to form the first Lions Club in New England, the Bridgeport Lions Club. Throughout their century of service, these volunteers have worked diligently to help set up a fresh-air camp for Bridgeport’s youth, create a vision clinic at Bridgeport Hospital, purchase x-ray devices at St. Vincent’s Medical Center, provide dental services for the indigent at Park City Hospital, and a litany of other community projects. Lions Clubs in New Haven, Greater Hartford, New Britain, New London, Greenwich, Waterbury, Meriden, Torrington, and Bristol would soon follow. Today, approximately 160 clubs with over 4,600 Lions are serving their communities, many collaborating with local governments to act as dependable volunteer arms.

A future Connecticut resident, Helen Keller, would have a profound impact on the mission and very future of Lions Clubs International with her simple plea: “Will you not help me hasten the day when there shall be no preventable blindness; no little deaf, blind child untaught; no blind man or woman unaided?” I appeal to you Lions, you who have your sight, your hearing, you who are strong and brave and kind. Will you not constitute yourselves Knights of the Blind in this crusade against darkness?” Connecticut Lions not only embraced her message, but also did much more, donating monies and time to support their communities locally and globally. Lions Clubs across the State have sponsored parades, festivals, and school projects, as well as raised funds for building equipment to improve the quality of life for children, the disabled, seniors, and veterans. Connecticut Lions have taken families in need shopping to make their holidays brighter. In support of the health and well-being of their communities, Lions Clubs have donated ambulances, school buses and other vehicles, and vital
equipment to our local emergency response teams, senior centers, and social services agencies.

Perhaps the most critical area of focus for Lions Clubs has been in vision care. In their “crusade against darkness,” they have raised tremendous sums for research into blindness and eye disease. The Connecticut Lions Eye Research Foundation was chartered in 1956, establishing an eye research clinic under the auspices of Yale University, and later helped establish a secondary eye research center with the University of Connecticut. Thanks to the work at these clinics, thousands of children and adults have benefited from quality care and research.

Connecticut Lions have also established three District Lions Low Vision Centers to improve the quality of life and independence of those suffering from low vision. I have personally visited one of these centers and listened to healthcare providers and patients discuss the important and valuable center.

For those still struggling with hearing and vision issues, the Connecticut Lions have supported the Connecticut Radio Information System with donations, guide dogs, and other assistance. Guide and service dogs have been sponsored by Connecticut Lions, helping to restore the independence of the blind and visually impaired in their communities.

Connecticut Lions have also been deeply involved in providing relief from disaster and tragedy. In the early stages of the COVID-19 pandemic, Connecticut Lions secured sizeable grants from Lions Clubs International Foundation to purchase and distribute critically needed equipment for our first responders and healthcare workers. When Hurricane Sandy devastated much of the State’s shoreline, our Lions Clubs provided meals for first responders and volunteers who worked tirelessly to rescue people and restore services following the storm. Immediately following the Sandy Hook tragedy in December 2012, the Newtown Lions established a community fund to address the short-term and long-term needs of individuals arising from that tragic event. To date, they have raised more than $11 million for those affected by posttraumatic shock disorder, including many children of Sandy Hook Elementary School.

Connecticut Lions recognized the desperate need of Hurricane Katrina victims, donating thousands of dollars and making multiple trips with shipments of vital supplies. Connecticut Lions have collected and provided food year-round, working with meal centers, food banks, and food share programs to distribute directly to our homeless and those in need. Police and first responders in many towns were provided with “Homeless Kits.”

In the face of tragedy and immense need, the Connecticut Lions have never forgotten the importance of looking to the future. Connecticut’s youth have been a significant part of Lions Club service programs. Leadership, Experience, Opportunity—LEO—Clubs give our youth an opportunity to serve their communities and develop their leadership skills. The Lions Quest program brings schools, families, and communities together to promote the development of good character in young people through social and emotional learning, character development, and a commitment to community service. The International Peace Poster Contest has provided an opportunity for young residents of all states to work for peace through art and creativity. Outstanding students striving to reach higher academic achievement have been provided significant scholarships as rewards for their incredible work.

We are proud of our Connecticut Lions who are, each one, a solid citizen contributing significantly to their community and beyond. They strive for new ways to serve others and to address the needs of their communities. The Lions Boys and Girls Towns at recognizing needs, planning projects, organizing fundraisers, and rolling their sleeves up to get the job done. “Where there is a need, there is a Lion!” For 100 years, our Connecticut Lions have proudly demonstrated their motto: “We Serve”.

TRIBUTE TO DAVE LEE

Ms. KLOBUCHAR. Madam President, today I rise to honor and pay tribute to Dave Lee, a radio host and Minnesota legend who is retiring after 32 years at WCCO radio on April 30, 2021.

Hailing from Hatton, ND, Dave did not always know he would be a radio personality. He spent his summers in high school throwing hay bales, picking potatoes, and hoeing beets. When a friend recommended he audition for KRAD, a local radio station in East Grand Forks, Dave was just hoping to earn some extra money for college, but the station saw a spark in him and offered him a 9-hour country music shift. From there, he volunteered to help out with sports coverage, and when he graduated college, he stayed at the station. As he puts it, “When you are passionate about something, it never feels like you are going to work.”

That is how Dave’s voice was introduced to the airwaves, and after years at KRAD in East Grand Forks and an overnight stint at WFPG in Alexandria, he became a weekend host of News Talk 830 on WCCO. He didn’t know at the time, but WCCO would be his home for the next 32 years. Dave went on to join the legendary Roger Erickson as cohost of the morning drive and then took on solo duties when Roger retired in 1997.

For many Minnesotans, Dave’s voice was as much a part of their morning as their cup of coffee. Commuters counted on him for traffic updates, students looked to him for snow day announcements, and all of us could rely on him for honest news reporting and engaging interviews. Over the course of his career, he interviewed an impressive roster of personalities, from Boston Celtics legend Bill Russell, to baseball pitcher Nolan Ryan, to actress Julie Andrews. He also had countless incredible interviews with elected officials Democrats and Republicans alike.

Perhaps the most critical area of Dave’s career, he interviewed an impressive roster of personalities, from Boston Celtics legend Bill Russell, to baseball pitcher Nolan Ryan, to actress Julie Andrews. He also had countless incredible interviews with elected officials Democrats and Republicans alike.

For years, we have also been treated to Dave’s sports coverage. He did the play-by-play for the Minnesota Gophers for a decade and occasionally filled in as announcer for the Minnesota Twins. He brought his running commentary to the television broadcasts of the Minnesota State High School Boys and Girls Basketball Tournaments and covered University of St. Thomas football games on WCCO.

His joyful and informative commentary made him a six-time winner of Minnesota’s Sportscaster of the Year, and he earned three Emmy Awards for his reporting on television. He is also a recipient of the Edward R. Murrow Award, several awards from the Associated Press, and a nomination for the National Association of Broadcasters’ Miconi Radio Awards.

To so many Minnesotans, Dave was a titan of Minnesota radio, providing information and entertainment with his signature warm demeanor. And it was with that same kind spirit that Dave did so much to give back, raising hundreds of thousands of dollars for the University of Minnesota Children’s Hospital. After all Dave has done for our community, I have to admit, he deserves the chance to start sleeping in. While I will miss his voice guiding you on the airwaves, I know that this is not goodbye, and I wish you all my best.

TRIBUTE TO VICTORIA CECH

Mr. TESTER. Madam President, I rise today to extend my sincere appreciation to Victoria Cech, who is planning on retiring from her position as the executive director of the Montana Health Research and Education Foundation. The citizens of my State are truly grateful for her tireless efforts to improve the health of all Montanans.

During her tenure at the foundation, Victoria was responsible for managing our State’s hospital and frontier community health improvement programs, both of which provide vital support to our State’s critical access hospitals. Why is this important? Because Montana has the distinction of not losing a single critical access hospital since the program’s inception. It is the work of the foundation and Victoria’s tireless leadership that has contributed to this great success.
But her work did not stop there. She continued to lead efforts to improve care in Montana by expanding two of the area health education centers managed by the foundation. These efforts led the charge in addressing behavioral health across the State, even earning national attention to Montana when the foundation partnered with the National Council for Behavioral Health and Lady Gaga’s Born This Way Foundation to complete the Teen Mental Health and pilot program at Jefferson High School in Boulder.

Patient safety and quality improvement are also major focuses of the foundation. Victoria pioneered these efforts, leading a quality improvement team that moved Montana’s hospitals into the highest ranked position within the Hospital Improvement Innovation Network hosted by the American Hospital Association’s Health Research & Education Trust.

In 2014, Victoria was at the helm of the foundation when our country saw its first Ebola patient. The foundation was managing the hospital preparedness program—HPPE—which it continued to implement. With five Montana residents under Ebola surveillance, the preparedness program quickly ramped up to raise awareness in hospitals across the State. That preparedness work has expanded dramatically since then, bringing in four full-time trainers who played a large role in helping Montana prepare for and manage the coronavirus pandemic.

All 50 States are also experiencing an epidemic of drug addiction and opioid use that has hit Montana particularly hard, especially on the high line. The Montana Hospital Association and its foundation took this reality to heart and worked to expand its education and engagement work to move the needle on reversing opioid addiction. Under Victoria’s leadership, the foundation was successful in securing a Rural Communities Opioid Response Program grant that is currently helping to address opioid addiction along the Canadian border and increasing engagement in our Tribal communities.

With all the work that Victoria has done, she has not overlooked the needs of her team members or those of the Montana Hospital Association. When the pandemic halted in-person education in Helena area schools, Victoria looked for a solution to support the parents at the association and ultimately converted the educational center into a classroom for virtual learning, dubbed the MHA Learning Center. Staffed by a full-time teacher, parents could now go to work knowing their children would not slip in their classwork and instead continue to make educational gains.

A lifelong learner, her passion for education will continue after her retirement as she supports her husband and president of Carroll College, John Cech, in positioning the college to be a national leader in higher education.

Victoria is a gifted leader who has had a meaningful impact on the lives of all Montanans, and we are very grateful for her dedication to keeping folks healthy across the Big Sky State.

Congratulations, Victoria Cech, on your much deserved retirement.

REPORTS OF COMMITTEES

ON APRIL 26, 2021

The following reports of committees were submitted:

By Mr. MENENDEZ, from the Committee on Foreign Relations, with an amendment in the nature of a substitute:

S. 814. A bill to promote security partnership with Ukraine, and for other purposes.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Ms. Roberts, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

In executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The messages received today are printed at the end of the Senate proceedings.)

MEASURES PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

S. 1361. A bill to provide for the recognition of the Lumbee Tribe of North Carolina, and for other purposes.

EXECUTIVE REPORTS OF COMMITTEE

The following executive reports of nominations were submitted:

By Mr. REED for the Committee on Armed Services:

Air Force nominations beginning with Col. Terrence A. Adams and ending with Col. Frank R. Verdugo, which nominations were received by the Senate and appeared in the Congressional Record on January 6, 2021. (minus 1 nomination—Col. W. Nehmin)

Navy nomination of Capt. Maria L. Aguayo, to be Rear Admiral (lower half).

Navy nominations beginning with Capt. Joseph B. Romanick and ending with Capt. Anthony E. Rossi, which nominations were received by the Senate and appeared in the Congressional Record on February 24, 2021.

Navy nomination of Capt. Stuart C. Satterwhite, to be Rear Admiral (lower half).

Navy nomination of Rear Adm. (l.b) Dean A. VanderLey, to be Rear Admiral.

Navy nominations of Rear Adm. (l.b) Christopher C. French, to be Rear Admiral.

Navy nominations beginning with Rear Adm. (l.b) William C. Greene and ending with Rear Adm. Anthony W. Papasso, which nominations were received by the Senate and appeared in the Congressional Record on February 24, 2021.

Air Force nominations beginning with Brig. Gen. John M. Breaux and ending with Brig. Gen. Constance M. Von Hoffman, which nominations were received by the Senate and appeared in the Congressional Record on March 3, 2021.

Air Force nomination of Col. Robert K. Bogart, to be Brigadier General.

Air Force nominations beginning with Col. John R. Andrus and ending with Col. Thomas W. Harrell, which nominations were received by the Senate and appeared in the Congressional Record on April 13, 2021.

Air Force nomination of Col. Alfred K. Flowers, Jr., to be Brigadier General.

Air Force nomination of Col. Gail E. Crawford, to be Brigadier General.

Army nomination of Maj. Gen. A. C. Roper, Jr., to be Lieutenant General.

Army nomination of Brig. Gen. Michael J. Tailey, to be Major General.

Army nominations beginning with Col. Stephanie R. Ahern and ending with Col. Brandon R. Tegtmeier, which nominations were received by the Senate and appeared in the Congressional Record on April 13, 2021. (minus 1 nominee: Col. Jeffrey A. Vanantwerp)

Army nomination of Maj. Gen. Ronald P. Clarke, to be Lieutenant General.

Army nomination of Col. Shane R. Reeves, to be Brigadier General.

Navy nomination of Vice Adm. Scott D. Conn, to be Vice Admiral.

Navy nomination of Rear Adm. Karl O. Thomas, to be Vice Admiral.

Navy nomination of Rear Adm. Charles B. Cooper II, to be Vice Admiral.

Navy nomination of Rear Adm. Kelly A. Aeschbach, to be Vice Admiral.

Navy nomination of Rear Adm. Stephen T. Koehler, to be Vice Admiral.

Navy nomination of Rear Adm. John V. Fuller, to be Vice Admiral.

Navy nomination of Rear Adm. John V. Bellon, to be Lieutenant General.

Marine Corps nominations beginning with Maj. Gen. George W. Smith, Jr., to be Lieutenant General.

Space Force nomination of Gen. John W. Raymond, to be Major General.

Space Force nomination of Maj. Gen. DeAnna M. Burt and ending with Maj. Gen. Michael A. Guettel, which nominations were received by the Senate and appeared in the Congressional Record on April 13, 2021.

Space Force nominations beginning with Brig. Gen. Donald J. Cotham and ending with Brig. Gen. Steven P. Whitney, which nominations were received by the Senate and appeared in the Congressional Record on April 13, 2021.

Space Force nominations beginning with Brig. Gen. David N. Miller, Jr., to be Major General.

Navy nomination of Rear Adm. William J. Henton, to be Vice Admiral.

By Mr. REED, Mr. President, for the Committee on Armed Services:

The following nominations were submitted:

Army nominations beginning with Maj. Gen. Donald J. Cotham and ending with Maj. Gen. Michael A. Guettel, which nominations were received by the Senate and appeared in the Congressional Record on April 13, 2021.

Air Force nominations beginning with Col. John R. Andrus and ending with Col. Thomas W. Harrell, which nominations were received by the Senate and appeared in the Congressional Record on April 13, 2021.

Air Force nomination of Col. Alfred K. Flowers, Jr., to be Brigadier General.

Air Force nomination of Col. Gail E. Crawford, to be Brigadier General.

Army nomination of Brig. Gen. Michael J. Tailey, to be Major General.

Army nominations beginning with Col. Stephanie R. Ahern and ending with Col. Brandon R. Tegtmeier, which nominations were received by the Senate and appeared in the Congressional Record on April 13, 2021. (minus 1 nominee: Col. Jeffrey A. Vanantwerp)

Army nomination of Maj. Gen. Ronald P. Clarke, to be Lieutenant General.

Army nomination of Col. Shane R. Reeves, to be Brigadier General.

Navy nomination of Vice Adm. Scott D. Conn, to be Vice Admiral.

Navy nomination of Rear Adm. Karl O. Thomas, to be Vice Admiral.

Navy nomination of Rear Adm. Charles B. Cooper II, to be Vice Admiral.

Navy nomination of Rear Adm. Kelly A. Aeschbach, to be Vice Admiral.

Navy nomination of Rear Adm. Stephen T. Koehler, to be Vice Admiral.

Navy nomination of Rear Adm. John V. Fuller, to be Vice Admiral.

Navy nomination of Rear Adm. John V. Bellon, to be Lieutenant General.

Marine Corps nominations beginning with Maj. Gen. George W. Smith, Jr., to be Lieutenant General.

Space Force nomination of Gen. John W. Raymond, to be Major General.

Space Force nominations beginning with Brig. Gen. Donald J. Cotham and ending with Brig. Gen. Steven P. Whitney, which nominations were received by the Senate and appeared in the Congressional Record on April 13, 2021.

Space Force nominations beginning with Brig. Gen. David N. Miller, Jr., to be Major General.

Navy nomination of Rear Adm. William J. Henton, to be Vice Admiral.

By Mr. REED, Mr. President, for the Committee on Armed Services I report favorably the following nomination lists which were considered and agreed to by the Committee on Armed Services, and ask unanimous consent, to save the expense of reprinting on the Executive Calendar that these nominations lie at the Clerk’s desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.
Air Force nomination of Brandon R. Rocker, to be Lieutenant Colonel.

Air Force nomination of Damien P. Herbert, to be Major.

Army nominations beginning with Emily P. Ward and ending with Brian P. Watson, which nominations were received by the Senate and appeared in the Congressional Record on April 12, 2021.

Air Force nominations beginning with Rolandis J. Crawl and ending with Brus E. Vidal, which nominations were received by the Senate and appeared in the Congressional Record on April 12, 2021.

Air Force nomination of Miguel A. Zapata, to be Major.

Air Force nomination of Laisarian I. Ngova, to be Lieutenant Colonel.

Air Force nomination of Becky M. Bautch, to be Lieutenant Colonel.

Air Force nomination of Michelle D. Dimoff, to be Colonel.

Army nominations beginning with Russell W. Gibson and ending with Lyndsey A. Olson, which nominations were received by the Senate and appeared in the Congressional Record on April 12, 2021.

Army nominations beginning with Michael J. Ducharme and ending with Jason B. Logan, which nominations were received by the Senate and appeared in the Congressional Record on April 12, 2021.

Army nominations beginning with Timothy L. Baer and ending with Nicola Q. Spletstoser, which nominations were received by the Senate and appeared in the Congressional Record on April 12, 2021.

Army nominations beginning with Everett S. DeWong and ending with Kurt S. Hensel, which nominations were received by the Senate and appeared in the Congressional Record on April 12, 2021.

Army nominations beginning with Brian P. Adams and ending with Elizabeth A. Walker, which nominations were received by the Senate and appeared in the Congressional Record on April 13, 2021.

Marine Corps nomination of Aaron B. Stokes, to be Lieutenant Colonel.

Marine Corps nomination of James A. Berry, to be Major.

Marine Corps nominations beginning with Artem S. Agoulnik and ending with Patrick J. Zuber, which nominations were received by the Senate and appeared in the Congressional Record on February 22, 2021. (minus 2 nominees: Frederick J. Deligal Jr., Jay P. Dolny)

Marine Corps nominations beginning with Brett A. Allison and ending with Barien A. Woodward, which nominations were received by the Senate and appeared in the Congressional Record on April 12, 2021.

Marine Corps nomination of Nicholas A. Turner, to be Lieutenant Colonel.

Marine Corps nominations of Mark T. Schnakenberg, to be Colonel.

Marine Corps nomination of Dave W. Burton, to be Colonel.

Marine Corps nominations of Zachary W. Peters, to be Major.

Navy nominations beginning with Joseph G. Ruggeri, to be Lieutenant Commander.

Navy nominations beginning with Jason W. Debloch and ending with Danny S. Varnadore, which nominations were received by the Senate and appeared in the Congressional Record on April 12, 2021.

Navy nomination of Seth J. Rosenberry, to be Commander.

Navy nomination of Stephen H. Murray, to be Captain.

Navy nomination of Gregory M. Saracco, to be Captain.

Navy nomination of Adam L. Atwood, to be Lieutenant Commander.

(Nominations without an asterisk were reported with the recommendation that they be confirmed.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. RUBIO (for himself, Mr. CASSIDY, Mr. SCOTT of Florida, and Mr. BROWN):

S. 1372. A bill to amend and enhance the High Seas Driftnet Fishing Moratorium Protection Act to improve the conservation of sharks, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Ms. LUMMIS (for herself, Mrs. HYDE-SMITH, Mr. DAINES, Mr. CRAMER, Mr. BRAUN, Mr. CRAPO, and Mr. RISCH):

S. 1373. A bill to reduce, from 21 years of age to 18 years of age, the minimum age at which a person may obtain a handgun from a Federal firearms license; to the Committee on the Judiciary.

By Mr. WICKER (for himself, Ms. ROSEN, Mr. CORNYN, and Ms. HASSAN):

S. 1374. A bill to direct the Director of the National Science Foundation to support STEM education and workforce development in rural areas, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. BLUMENTHAL (for himself, Mr. ROSEN, Mr. CORNYN, and Ms. HASSAN):

S. 1375. A bill to grant lawfully permanent resident status to certain eligible persons who were separated from immediate family members by the Department of Homeland Security; to the Committee on the Judiciary.

By Ms. STABENOW (for herself, Mr. BOWMAN, Ms. BROWN, Mr. CASSIDY, and Mr. CARPER):

S. 1376. A bill to amend the Internal Revenue Code of 1986 to modify the definition of municipal solid waste; to the Committee on Finance.

By Ms. HIRONO (for herself and Ms. COLLINS):

S. 1377. A bill to extend the effective date for the limitation on colocation and administration of veterans assistance by State approving agencies, and for other purposes; to the Committee on Veterans’ Affairs.

By Ms. COLLINS (for herself, Mr. PETERS, and Mrs. SHAHEEN):

S. 1378. A bill to amend the Animal Welfare Act to allow for the retirement of certain animals used in Federal research, for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. BLUMENTHAL (for himself, Ms. SMITH, Mr. REED, Mr. VAN HOLLEN, Ms. KLOBUCHAR, Ms. HIRONO, Mrs. SHAHEEN, Mr. SANDERS, Mr. WYDEN, Mr. MARKEY, Mr. ROSEN, Mr. BROWN, and Ms. PADILLA):

S. 1379. A bill to provide for research to better understand the causes and consequences of sexual harassment affecting individuals in the scientific, rural areas, engineering, and mathematics workforce and to examine policies to reduce the prevalence and negative impact of such harassment, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. CASEY (for himself and Ms. EUCKER):

S. 1380. A bill to require automatic sealing of certain criminal records, and for other purposes; to the Committee on the Judiciary.

By Mrs. CAPITO (for herself and Ms. KLOBUCHAR):

S. 1381. A bill to require the Federal Communications Commission to make amendments to the E-rate program of the Commission, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. MARSHALL (for himself, Mr. BARRASSO, Ms. BLACKBURN, Mr. BOOZMAN, Mr. BRAUN, Mr. CASSIDY, Mr. CUMMINS, Mr. DAINES, Mrs. FISCHER, Mr. HAGERTY, Ms. HYDE-SMITH, Mr. INHOFE, Mr. KENNEDY, Mr. LANKFORD, Ms. LUMMIS, Mr. MCCONNELL, Mr. MORAN, Mr. PORTMAN, Mr. RISCH, Mr. ROUNDS, Mr. RUBIO, Mr. SCOTT of Florida, Mr. THUNE, Mr. TILLIS, and Mr. WICKER):

S. 1383. A bill to amend the Corporation Act to prohibit abortion providers from receiving a covered loan under the paycheck protection program, and for other purposes; to the Committee on Small Business and Entrepreneurship.

By Mr. CORNYN (for himself and Mr. KING):

S. 1385. A bill to amend the Public Health Service Act to direct the Secretary of Health and Human Services to develop best practices for the establishment and use of behavioral intervention teams at schools, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Ms. HAGERTY:

S. 1384. A bill to repeal section 230 of the Communications Act of 1934 and ensure reasonable, non-discriminatory access to online communications platforms; to the Committee on Commerce, Science, and Transportation.
By Mr. DURBIN (for himself, Mr. CARPER, Mrs. SHAHEEN, Mr. BLUMENTHAL, Ms. WARNEN, Mr. LIAHAY, Mrs. FEINSTEIN, Mr. CASEY, Mr. REED, Ms. SMITH, Mr. TUBERKUSSER, Mrs. GILLIBRAND, and Mr. MERKLEY):
S. 1385. A bill to amend the Animal Welfare Act to establish additional requirements for dealers, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. DURBIN (for himself and Ms. DUCKWORTH):
S. 1386. A bill to amend title 33, United States Code, to provide for efforts relating to Move our laws; to amend title 49, United States Code, to require crash avoidance technology on motor vehicles, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. LANKFORD (for himself, Mrs. CAPITO, Mr. CRAMER, and Mr. HOBORIEN):
S. 1387. A bill to amend the Internal Revenue Code of 1986 to repeal the credit for electricity produced from certain renewable resources, and for other purposes; to the Committee on Finance.

By Mr. GRASSLEY (for himself, Ms. CANTWELL, Mr. BLACKBURN, Mr. BLUMENTHAL, Ms. ERNST, and Mr. TULLIS):
S. 1388. A bill to require the Federal Trade Commission to study the role of intermediaries in the pharmaceutical supply chain, to provide Congress with appropriate policy recommendations, and for other purposes; to the Committee on the Judiciary.

By Mr. CRAPO (for himself, Mr. RISCH, and Mr. TUBERKUSSER):
S. 1389. A bill to provide relief to workers impacted by COVID–19 and support for reopened businesses; and for other purposes; to the Committee on Finance.

By Mr. KENNEDY:
S. 1390. A bill to amend the Elementary and Secondary Education Act of 1965 to improve mental health services for students, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. CRAMER:
S. 1391. A bill to amend the Public Health Service Act to provide best practices on student suicide awareness and prevention training and other educational agencies, local educational agencies, and tribal educational agencies receiving funds under section 529A of such Act to establish and implement school-based student suicide awareness and prevention training policy; to the Committee on Health, Education, Labor, and Pensions.

By Mr. BRAUN:
S. 1392. A bill to establish the Federal Rainy Day Fund to control emergency spending; to the Committee on the Budget.

By Mr. KLOUCHIAR (for herself and Mr. CRIPO):
S. 1393. A bill to require the Secretary of Veterans Affairs to carry out training for employment of the Department of Veterans Affairs relating to exposure of veterans to toxic substances; to the Committee on Veterans' Affairs.

By Ms. ROSEN (for herself, Mr. WICKER, Mr. ROMNEY, and Ms. HANladen):
S. 1394. A bill to amend the Higher Education Act of 1965 to include teacher preparation for computer science in elementary and secondary education; to the Committee on Health, Education, Labor, and Pensions.

By Mrs. FISCHER (for herself and Ms. KLOUCHIAR):
S. 1395. A bill to promote scientific research, development opportunities for connected technologies that advance precision agriculture capabilities; to the Committee on Commerce, Science, and Transportation.

By Ms. BALDWIN (for herself, Mrs. MURRAY, Mr. VAN HOLLEN, Ms. KLOUCHIAR, Mr. TILLIS, Ms. HIRONO, Mr. CARDIN, Ms. DUCKWORTH, Mrs. GILLIBRAND, and Mr. DURBIN):
S. 1396. A bill to amend the Higher Education Act of 1965 to establish State and Indian Tribes grants for community colleges and grants for Historically Black Colleges and Universities, Tribal Colleges and Universities, and Minority-Serving Institutions, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Ms. SMITH (for herself, Mr. MURKOWSKY, Mr. TACKET, Mr. DADDES, Ms. WARNEN, and Mr. CRIPO):
S. 1397. A bill to amend the Public Health Service Act with respect to the collection and availability of health data with respect to Indian Tribes and Tribal organizations, and for other purposes; to the Committee on Indian Affairs.

By Ms. WARNEN (for herself, Mr. MARKEY, Mr. BOOKER, Mr. SANDERS, and Mr. WYDEN):
S. 1398. A bill to establish universal child care and early education programs; to the Committee on Health, Education, Labor, and Pensions.

By Ms. SINEMA (for herself, Mr. PORTMAN, Mr. RUBIO, and Mr. CRAMER):
S. 1399. A bill to amend the Internal Revenue Code of 1986 to allow qualified distributions from health savings accounts for certain home care expenses; to the Committee on Finance.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Ms. HASSAN (for herself, Mr. CONYN, Mr. CASEY, Ms. COLLINS, Ms. ERNST, Mr. HOBORIEN, Mr. KAINES, and Ms. SMITH):
S. Res. 180. A resolution supporting the designation of the week of April 26 through April 30, 2021, as “National Specialized Instructional Support Personnel Appreciation Week”; considered and agreed to.

ADDITIONAL COSPONSORS

At the request of Ms. KLOUCHIAR, the name of the Senator from Arizona (Ms. SHAHEEN) was added as a cosponsor of S. 1395, a bill to require the Secretary of Commerce to conduct a study and submit to Congress a report on the effects of the COVID–19 pandemic on the travel and tourism industry in the United States, and for other purposes.

At the request of Mr. THUNE, the name of the Senator from Connecticut (Mr. BLUMENTHAL) was added as a cosponsor of S. 1397, a bill to amend the Controlled Substances Act to list fentanyl-related substances as schedule I controlled substances, and for other purposes.

At the request of Ms. ROSEN, the name of the Senator from Arizona (Ms. Sinema) was added as a cosponsor of S. 1398, a bill to require the Federal Communications Commission to incorporate data on maternal health outcomes into its broadband health maps.

At the request of Mr. PORTMAN, the name of the Senator from New Hampshire (Mrs. SHAHEEN) was added as a cosponsor of S. 1399, a bill to amend the Controlled Substances Act to list fentanyl-related substances as schedule I controlled substances, and for other purposes.

At the request of Mr. MERKLEY, the name of the Senator from Michigan (Mr. PETERS) was added as a cosponsor of S. 388, a bill to suspend certain United States assistance for the Government of Honduras until corruption, impunity, and human rights violations are no longer systemic, and the perpetrators of these crimes are being brought to justice.

At the request of Ms. STABENOW, the names of the Senator from New York (Mr. GILLIBRAND), the Senator from Nevada (Ms. ROSEN) and the Senator from Ohio (Mr. PORTMAN) were added as cosponsors of S. 452, a bill to award a Congressional Gold Medal to Willie O'Ree, in recognition of his extraordinary contributions and commitment to hockey, inclusion, and recreational opportunity.

At the request of Ms. HIRONO, the name of the Senator from California (Mr. PADILLA) was added as a cosponsor of S. 632, a bill to amend chapter 11 of title 35, United States Code, to require the voluntary collection of demographic information for patent inventors, and for other purposes.

At the request of Mr. YOUNG, the names of the Senator from Maine (Ms. COLLINS), the Senator from Idaho (Mr. RISCH) and the Senator from Indiana (Mr. BRAUN) were added as cosponsors of S. 639, a bill to require the Secretary of Transportation to promulgate regulations relating to commercial motor vehicle drivers under the age of 21, and for other purposes.

At the request of Ms. ROSEN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 697, a bill to require the Secretary of the Treasury to mint commemorative coins in recognition of the Bicentennial of Harriet Tubman’s birth.

At the request of Mr. SCOTT of South Carolina, the name of the Senator from
California (Mr. Padilla) was added as a cosponsor of S. 762, a bill to provide the National Credit Union Administration Board flexibility to increase Federal credit union loan maturities, and for other purposes.

S. 848
At the request of Mr. Braun, the name of the Senator from Georgia (Mr. Warnock) was added as a cosponsor of S. 848, a bill to amend the Higher Education Act of 1965 in order to improve the service obligation verification process for TEACH Grant recipients, and for other purposes.

S. 855
At the request of Mr. Menendez, the name of the Senator from North Carolina (Mr. Burr) was added as a cosponsor of S. 865, a bill to recognize the right of the People of Puerto Rico to call a status convention through which the people would exercise their natural right to self-determination, and to establish a mechanism for congressional consideration of such decision, and for other purposes.

S. 910
At the request of Mr. Merkley, the name of the Senator from Virginia (Mr. Warner) was added as a cosponsor of S. 910, a bill to create protections for financial institutions that provide financial services to cannabis-related legitimate businesses and service providers for such businesses, and for other purposes.

S. 978
At the request of Ms. Smith, the name of the Senator from Mississippi (Mrs. Hyde-Smith), the Senator from South Carolina (Mr. Graham) and the Senator from Alabama (Mr. Tuberville) were added as cosponsors of S. 978, a bill to provide for the adjustment or modification by the Secretary of Agriculture of loans for critical rural utility service providers, and for other purposes.

S. 986
At the request of Ms. Smith, the name of the Senator from Nebraska (Mrs. Fischer) was added as a cosponsor of S. 986, a bill to amend the Internal Revenue Code of 1986 to provide for a 5-year extension of the carbon oxide sequestration credit, and for other purposes.

S. 1006
At the request of Mr. Johnson, the name of the Senator from Kansas (Mr. Marshall) was added as a cosponsor of S. 1006, a bill to amend the Controlled Substances Act to list fentanyl-related substances as schedule I controlled substances.

S. 1032
At the request of Mr. Warnock, the name of the Senator from Maryland (Mr. Van Hollen) was added as a cosponsor of S. 1032, a bill direct the Joint Committee of Congress on the Library to obtain a statue of Shirley Chisholm for placement in the United States Capitol.

S. 1060
At the request of Mr. Menendez, the name of the Senator from Vermont (Mr. Sanders) was added as a cosponsor of S. 1040, a bill to amend title III, United States Code, to expand eligibility for hospital care, medical services, and nursing home care from the Department of Veterans Affairs to include veterans of World War II.

At the request of Mr. Lee, the names of the Senator from Pennsylvania (Mr. Toomey), the Senator from Alaska (Mr. Sullivan) and the Senator from Idaho (Mr. Crapo) were added as cosponsors of S. 1061, a bill to amend the Servicemembers Civil Relief Act to provide for the portability of professional licenses of members of the uniformed services and their spouses, and for other purposes.

S. 1129
At the request of Mr. Lee, the name of the Senator from Tennessee (Mrs. Blackburn) was added as a cosponsor of S. 1129, a bill to amend title 49, United States Code, to require the Administrator of the Federal Aviation Administration to give preferential consideration to individuals who have successfully completed air traffic controller training when hiring air traffic control specialists, and for other purposes.

S. 1166
At the request of Mr. Toomey, the name of the Senator from Louisiana (Mr. Kennedy) was added as a cosponsor of S. 1166, a bill to amend the Internal Revenue Code of 1986 to permanently allow a tax deduction at the time an investment in qualified property is made.

S. 1192
At the request of Mr. Menendez, the name of the Senator from Oregon (Mr. Wyden) was added as a cosponsor of S. 1192, a bill to ensure that sales, exports, or transfers of F-35 aircraft do not compromise the qualitative military edge of the United States or Israel, and for other purposes.

S. 1196
At the request of Mr. Lee, the name of the Senator from Tennessee (Mrs. Blackburn) was added as a cosponsor of S. 1196, a bill to improve the program providing for private screening companies to conduct security screening at airports, and for other purposes.

S. 1260
At the request of Mrs. Blackburn, the name of the Senator from Louisiana (Mr. Kennedy) was added as a cosponsor of S. 1260, a bill to prohibit the use of Federal funds relating to rejoining the Joint Comprehensive Plan of Action with Iran unless the President commits to submitting any successor agreement to the Senate for its advice and consent as a treaty.

S. 1288
At the request of Mrs. Shaheen, the name of the Senator from Pennsylvania (Mr. Casey) was added as a cosponsor of S. 1288, a bill to amend title 10, United States Code, to ensure that members of the Armed Forces and their families have access to the contraception they need in order to promote the health and readiness of all members of the Armed Forces, and for other purposes.

S. 1293
At the request of Mr. Cardin, the names of the Senator from Minnesota (Ms. Klobuchar) and the Senator from North Dakota (Mr. Cramer) were added as cosponsors of S. 1293, a bill to amend the Small Business Act to modify the maximum paycheck protection program loan amount for farmers and ranchers, and to simplify loan processes for independent contractors, and self-employed individuals, and for other purposes.

S. 1295
At the request of Mr. Cardin, the names of the Senator from Delaware (Mr. Coons) and the Senator from Illinois (Ms. Duckworth) were added as cosponsors of S. 1295, a bill to require the Minority Business Development Agency of the Department of Commerce to promote and administer programs in the public and private sectors to assist the development of minority business enterprises, to ensure that such Agency has the necessary supporting resources, particularly during economic downturns, and for other purposes.

S. 1276
At the request of Mr. Whitehouse, the name of the Senator from Vermont (Mr. Sanders) was added as a cosponsor of S. 1276, a bill to designate certain National Forest System land and certain public land under the jurisdiction of the Secretary of the Interior in the States of Idaho, Montana, Oregon, Washington, and Wyoming as wilderness, wild and scenic rivers, wildland recovery areas, and biological connecting corridors, and for other purposes.

S. 1302
At the request of Ms. Collins, the name of the Senator from Louisiana (Ms. Kennedy) was added as a cosponsor of S. 1302, a bill to amend title II of the Social Security Act to repeal the Government pension offset and windfall elimination provisions.

S. 1327
At the request of Ms. Warren, the name of the Senator from Ohio (Mr. Brown) was added as a cosponsor of S. 1327, a bill to amend the Federal Reserve Act to add additional demographic reporting requirements, to modify the goals of the Federal Reserve System, and for other purposes.

S. 1331
At the request of Mr. Lujan, the name of the Senator from Michigan (Mr. Peters) was added as a cosponsor of S. 1331, a bill to require the Secretary of Transportation, acting through the Administrator of the National Highway Traffic Safety Administration, to prescribe a Federal motor vehicle safety standard for advanced drunk and impaired driving prevention technology, and for other purposes.
At the request of Mr. HEINICH, the name of the Senator from New Jersey (Mr. BOOKER) was added as a cosponsor of S. 1337, a bill to address the impact of climate change on agriculture, and for other purposes.

At the request of Ms. WARREN, the name of the Senator from Georgia (Mr. WARNOCK) was added as a cosponsor of S. Res. 46, a resolution calling on the President of the United States to take executive action to broadly cancel Federal student loan debt.

At the request of Mr. VAN HOLLEN, the names of the Senator from Maryland (Mr. CARDIN) and the Senator from Florida (Mr. RUBIO) were added as cosponsors of S. Res. 154, a resolution congratulating the people of the Hashemite Kingdom of Jordan on the centennial of the founding of the Jordanian state.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. COLLINS (for herself, Mr. PETERS, and Mrs. SHAHEEN):

S. 1378. A bill to amend the Animal Welfare Act to allow for the retirement of certain animals used in Federal research, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

Ms. COLLINS. Mr. President, I am pleased to join my colleague from Michigan, Senator PETERS, in introducing the Animal Freedom from Testing, Experiments, and Research Act, known as the AFTER Act, to promote the adoption or retirement of animals used for research by Federal agencies.

In fiscal year 2019, the Federal government experimented on approximately 30,000 animals for research purposes. These experiments occurred across fourteen different federal agencies. The animals used were mainly cats, dogs, monkeys, and rabbits. Tracking these animals following experimentation is challenging. In many instances, animals no longer needed for research are killed since many agencies lack formal retirement or adoption policies. Recent peer-reviewed studies indicate that research animals that are adopted, however, often thrive in their new environments.

In 2013, led by Senators Harkin, Alexander, CANTWELL and myself, the Senate passed the CHIMP Act, which allowed for the retirement of hundreds of primates that were formerly used in National Institute of Health (NIH) experiments. In addition, the Departments of Defense, Veterans Affairs, FDA, and NIH recently enacted successful animal retirement policies. While I am encouraged by the Senate’s past work on primates and the recent policies enacted by a few Federal agencies, there are many other Federal agencies, including the Agriculture Department, NASA, and the Environment

ment Protection Agency, that lack formal policies for animals used in experiments.

The AFTER Act builds on successful policies at DOD, VA, and NIH by directing all Federal agencies to promulgate regulations that would facilitate the retirement of laboratory animals. The bill provides flexibility for each agency to devise its own policy, with the goal of ensuring that such animals, whenever possible, are retired and not killed. Additionally, the AFTER Act requires that animals be evaluated by a licensed veterinarian and pronounced both mentally and physically healthy before leaving an agency. This will help ensure a smooth transition to a new environment.

Our legislation also encourages Federal agencies to work with non-profit organizations to help place retired animals in sanctuaries and shelters across the country, not just those closest to the research facility. This would allow a State like Maine, which does not have Federal research labs that use animals, to play a role in retiring these animals and providing homes for them.

Mr. President, amendments that are suitable for adoption or retirement should not be killed by our Federal government. The AFTER Act would provide the necessary direction Federal agencies need in order to move forward with developing retirement policies. I urge all of my colleagues to join in support of this important bipartisan legislation, the Animal Freedom from Testing, Experiments, and Research Act.

By Mr. DURBIN (for himself, Mr. CARPER, Mrs. SHAHEEN, Mr. BLUMENTHAL, Ms. WARREN, Mr. LEAHY, Mrs. FEINSTEIN, Mr. CASEY, Mr. REED, Ms. SMITH, Mr. GILLIBRAND, and Mr. MERKLEY):

S. 1385. A bill to amend the Animal Welfare Act to establish additional requirements for dealers, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

Mr. DURBIN. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1385

Be it enacted by the Senate and House of Representati ves of the United States of America in Congres s assembled.

SECTION 1. SHORT TITLE.

This Act may be cited as the “Puppy Protection Act of 2021.”

SEC. 2. ADDITIONAL REQUIREMENTS FOR DEALERS.

(a) HUMANE TREATMENT OF DOGS BY DEALERS.—Section 13(a) of the Animal Welfare Act (7 U.S.C. 2143(a)) is amended by adding at the end the following:

“(9) In addition to the requirements under paragraph (2), the standards described in paragraph (1) shall, with respect to dealers, include requirements—

“(A) that the dealer provide adequate housing for dogs that includes—

“(i) complete, clean, and safe housing;

“(ii) indoor space sufficient to allow the tallest dog in an enclosure to stand on his or her hind legs without touching the roof of the enclosure;

“(iii) with respect to dogs over 8 weeks in age, primary enclosures that, with the exception of the dog measuring from the tip of the nose to the base of the tail, provide at least—

“(I) 12 square feet of indoor floor space per each dog measuring not more than 25 inches long;

“(II) 20 square feet of indoor floor space per each dog measuring more than 25 but less than 35 inches long; and

“(III) 30 square feet of indoor floor space per each dog measuring not less than 35 inches long;

“(iv) enclosures that are not stacked or otherwise placed on top of or below another enclosure; and

“(v) temperature control that—

“(i) is appropriate for the age, breed, and condition of each dog in the enclosure; and

“(ii) is between 45 and 85 degrees Fahrenheit, when dogs are present in the enclosure;

“(B) that appropriate and nutritious food be provided to each dog at least twice per day, in an amount sufficient to maintain the good health and physical condition of each dog;

“(C) that each dog has continuous access to potable water that is not frozen and is free of feces, algae, and other contaminants;

“(D) that each dog has adequate exercise, including, for each dog over the age of 12 weeks—

“(i) except as provided in clause (ii), unrestricted access from the primary enclosure of the dog during daylight hours to an outdoor exercise area that—

“(I) is at ground-level;

“(II) is a solid surface;

“(III) is enclosed by a fence or other structure;

“(IV) is properly controlled for the safety of the dog; and

“(V) allows the dog to extend to full stride, play, and engage in other types of mentally stimulating and social behaviors; or

“(ii) if the dealer obtains a certification from the attending veterinarian stating that a dog should not have unrestricted access to an outdoor exercise area for a specific medical reason, an alternative exercise plan pre- pared by the veterinarian that meets the applicable requirements under section 3.8 of title 9, Code of Federal Regulations (or successor regulations);

“(E) that each dog has meaningful socialization with humans and compatible dogs for at least 30 minutes each day that—

“(i) includes positive interaction with a human such as petting, stroking, grooming, feeding, playing with, exercising, or other touching of the dog that is beneficial to the well-being of the dog; and

“(ii) does not include time spent in veterinary care;

“(F) that each dog receives adequate veterinary care, including—

“(i) prompt treatment of any disease, illness, or injury by a licensed veterinarian;

“(ii) a thorough, hands-on examination by a licensed veterinarian at least once each year, which shall include a dental exam;

“(iii) core vaccinations recommended by the latest version of the American Animal Hospital Association Canine Vaccination Guidelines; and

“(iv) medications to prevent intestinal parasites, heartworm disease, fleas, and ticks that are approved by a licensed veterinarian for canine use;

“(G) with respect to safe breeding practices for dogs, including—

“(i) a breeding program for known prevalent inheritable diseases that may be disabling or likely to significantly affect the
lifespan or quality of life of the mother or the offspring;
(ii) prohibiting breeding, unless each dog bred—
(i) has been screened by a licensed veterinarian prior to each attempt to breed; and
(ii) is found in the screening under subclause (i) to be free from health conditions that might lead to, or likely to significantly affect the lifespan or quality of life of, the mother or the offspring;
(iii) prohibiting the breeding of a female dog to produce—
(I) more than 2 litters in any 18-month period;
(ii) more than 6 litters during the lifetime of the dog;
(iv) that a female dog of any small breed (having a maximum weight range at maturity that is less than 49 pounds) not be bred—
(I) before reaching the age of 18 months; or
(ii) after reaching the age of 9 years;
(v) that a female dog of any large breed (having an expected weight range at maturity that includes 40 or more pounds) not be bred—
(I) before reaching the age of 2 years; or
(ii) after reaching the age of 7 years; and
(vi) that any canine caesarian section be performed by a licensed veterinarian;
(H) that dogs be housed with other dogs, unless health or behavioral issues make group housing unsafe; and
(I) to make all reasonable efforts to find humane placement for retired breeding dogs—
(i) such as with an adoptive family, rescue organization, or other appropriate owner for that dog; and
(ii) respecting selling at auction or otherwise placing a retired breeding dog with another breeder for breeding purposes.

SEC. 2. MOVE OVER LAWS.

(a) HIGHWAY SAFETY PROGRAMS.

Section 405 of title 23, United States Code, is amended by inserting the following:

"(1) IN GENERAL.—Section 405 of title 23, United States Code, is amended—
(A) by adding at the end the following:
"(B) a blind zone detection system that—
(i) warns the driver to maintain the lane while another vehicle, an object, or a person, including a pedestrian, a bicyclist, and any other road user, is in the path of travel ahead; and
(ii) automatically applies the brakes if the driver fails to do so; and
(B) by adding at the end the following:
"(B) a forward collision warning and automatic emergency braking system that—
(i) alerts the driver if the distance to a vehicle ahead or an object or person, including a pedestrian, a bicyclist, and any other road user, is in the path of travel and is closing too quickly and a collision is imminent; and
(ii) automatically applies the brakes if the driver fails to do so; and
(C) COURSES OF TRAVEL IF THE DRIVER FAILS TO DO SO.—
"(B) the course of travel if the driver fails to do so; and
(B) CourSES OF TRAVEL IF THE DRIVER FAILS TO DO SO.—
"(1) prohibIting breeding, unless each dog bred—
(1) DEFINITION OF MOVE OVER LAW.—In this subsection, the term ‘Move Over law’ means a State law intended to ensure first responder and motorist safety by requiring motorists to change lanes or slow down when approaching an authorized emergency vehicle that is parked or otherwise stopped on a roadway.

(2) COMPLIANCE WITH MOVE OVER LAWS.—
For each of fiscal years 2022 through 2026, subchapter II of chapter 301 of title 49, United States Code, is amended by inserting the following—
(3) USE OF FUNDS.—Statewide efforts under paragraph (2) may include—
"(A) purchasing and deploying digital alert technology that is capable of sending alerts to civilian drivers to protect first responders on the scene and en route; and
(B) educating the public about Move Over laws in the State through public information campaigns.

(3) STUDY ON MOVE OVER LAW PUBLIC AWARENESS CAMPAIGNS.—

(a) IN GENERAL.—The Secretary of Transportation should seek to enter into an agreement with the National Academies of Sciences, Engineering, and Medicine under which the National Academy of Sciences, National Academy of Engineering, and Medicine shall carry out a study on the efficacy of Move Over laws (as defined in section 402(o) of title 23, United States Code) and related public awareness campaigns.

(b) REPORT.—On the completion of the report under paragraph (1), the National Academies of Sciences, Engineering, and Medicine shall submit to the Secretary of Transportation and to Congress and make publicly available a report on—
(1) the findings of the study; and
(2) any recommendations to improve public awareness campaigns related to the laws described in that paragraph.

SEC. 3. CRASH AVOIDANCE TECHNOLOGY.

(a) IN GENERAL.—Subchapter II of chapter 301 of title 49, United States Code, is amended by adding at the end the following:

"(c) CRASH AVOIDANCE TECHNOLOGY.—
"(1) PREVENTING ROADSIDE DEATHS.—In each fiscal year, 1 percent of the funds provided under this section shall be allocated among States that meet requirements with respect to preventing roadside deaths (as described in subsection (i)); and
(b) BY ADDING AT THE END THE FOLLOWING:
"(1) A Federal share.—The Federal share of the cost of carrying out an activity funded through a grant under this subsection may not exceed 80 percent.

(2) ELIGIBILITY.—A State shall receive a grant under this subsection in a fiscal year if the beginning of the applicable Federal fiscal year is on or after the compliance date under subsection (a) and the State submits to the Department of Transportation a plan that describes the State’s efforts to implement the requirements of this Act.

(b) CLERICAL AMENDMENT.—The analysis for subchapter II of chapter 301 of title 49, United States Code, is amended by inserting after the item relating to section 30124 the following:

"(30129. Crash avoidance technology.
"(d) COMPLIANCE DATE.—Compliance with the final rule under subsection (a) shall be required beginning for the model year that begins not later than 2 years after the date on which the final rule is published in the Federal Register.''

"(e) IN GENERAL.—Not later than 2 years after the date of enactment of this section, the Secretary shall issue a final rule to establish minimum performance standards with respect to crash avoidance technology and to require that passenger motor vehicles (as defined in section 32101) and commercial motor vehicles (as defined in section 31101) manufactured for sale to United States on or after the compliance date under subsection (b) are equipped with—
"(1) a forward collision warning and automatic emergency braking system that—
"(A) warns the driver if the distance to a vehicle ahead or an object or person, including a pedestrian, a bicyclist, and any other road user, is in the path of travel and is closing too quickly and a collision is imminent; and
"(B) automatically applies the brakes if the driver fails to do so; and
"(2) a lane departure warning and lane keeping assist system that—
"(A) warns the driver if another vehicle, an object, or a person, including a pedestrian, a bicyclist, and any other road user, is in the blind zone of the vehicle;
"(B) provides an additional alert if the driver attempts to change the course of travel while another vehicle, an object, or a person, including a pedestrian, a bicyclist, and any other road user, is in the blind zone of the vehicle; and
"(C) IN GENERAL.—The Secretary shall award grants to States to prevent death and injury from crashes involving vehicles striking vehicles and individuals stopped at the roadside.

(2) FEDERAL SHARE.—The Federal share of the cost of carrying out an activity funded through a grant under this subsection may not exceed 80 percent.

(3) ELIGIBILITY.—A State shall receive a grant under this subsection in a fiscal year if the beginning of the applicable Federal fiscal year is on or after the compliance date under subsection (a) and the State submits to the Secretary a plan that describes the State’s efforts to implement the requirements of this Act.

(b) USE OF FUNDS.—Amounts received by a State under this subsection shall be used by the State—
"(A) to purchase and deploy digital alert technology (as described in section 4(b) of the Protecting Roadside First Responders Act);"
SEC. 4. REQUIREMENTS FOR FEDERAL VEHICLE Fleets.

(a) CRASH AVOIDANCE TECHNOLOGY.—Not later than 5 years after the date of enactment of this Act, in accordance with section 30129 of title 49, United States Code, the head of each Federal agency shall ensure that each new passenger motor vehicle (as defined in section 32101 of that title) and commercial motor vehicle (as defined in section 31101 of that title) purchased or leased as part of a Federal fleet of the agency is equipped with—

(1) a forward collision warning and automatic emergency braking system that—

(A) warns the driver if the distance to a vehicle ahead or an object or person, including a pedestrian, a bicyclist, or any other road user, in the path of travel ahead is closing too quickly and a collision is imminent; and

(B) automatically applies the brakes if the driver fails to do so; and

(2) a lane departure warning and lane keeping assist system that—

(A) warns the driver if another vehicle, an object, or a person, including a pedestrian, a bicyclist, and any other road user, is in the blind zone of the vehicle; and

(B) provides an additional alert if the driver attempts to change the course of travel while an object, an object, or a person, including a pedestrian, a bicyclist, and any other road user, is in the blind zone of the vehicle.

(b) DIGITAL ALERT TECHNOLOGY.—Not later than 5 years after the date of enactment of this Act, the head of each Federal agency shall ensure that each vehicle in a Federal fleet of the agency is equipped with—

(1) if the vehicle is used for emergency response activities, is equipped with digital alert technology that is capable of sending alerts to civilian drivers to protect first responders on the scene and en route; and

(2) is equipped with digital alert technology (which may be provided by an aftermarket device) that is capable of receiving alerts regarding nearby first responders.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 180—SUPPORTING THE DESIGNATION OF THE WEEK OF APRIL 26 THROUGH APRIL 30, 2021, AS ‘‘NATIONAL SPECIALIZED INSTRUCTIONAL SUPPORT PERSONNEL APPRECIATION WEEK’’

Ms. HASSAN (for herself, Mr. CORNYN, Mr. CASEY, Ms. COLLINS, Ms. ERNST, Mr. HOEVEN, Mr. KAINE, and Ms. SMITH) submitted the following resolution; which was considered and agreed to:

S. Res. 180

Whereas there are more than 1,000,000 specialized instructional support personnel serving the school and students of the United States, including—

(1) school counselors;

(2) school social workers;

(3) school psychologists; and

(4) other qualified professional personnel, such as—

(A) school nurses;

(B) physical therapists;

(C) occupational therapists;

(D) art therapists;

(E) music therapists; and

(F) speech-language pathologists; and

(G) audiologists; and

Whereas specialized instructional support personnel provide school-based prevention and early intervention services to reduce barriers to learning;

Whereas specialized instructional support personnel work with teachers, school leaders, and parents to ensure that all students are successful in school;

Whereas specialized instructional support personnel encourage multidisciplinary collaboration to promote student and school success;

Whereas specialized instructional support personnel provide educational, social, emotional, and behavioral interventions and activities that support—

(1) student learning; and

(2) teaching;

Whereas specialized instructional support personnel help to create environments that are safe, supportive, and conducive to learning;

Whereas safe and supportive school environments are associated with improved academic performance;

Whereas specialized instructional support personnel help to create environments that are safe, supportive, and conducive to learning;

Resolved, That the Senate—

(1) supports the designation of April 26 through April 30, 2021, as ‘‘National Specialized Instructional Support Personnel Appreciation Week’’;

(2) recognizes that specialized instructional support personnel implement evidence-based practices to improve student outcomes;

(3) commends—

(A) those individuals who work as specialized instructional support personnel; and

(B) the individuals and organizations that support the efforts made by specialized instructional support personnel to promote and improve the availability of specialized instructional support services;

(4) encourages Federal, State, and local policymakers to work together to raise awareness of the importance of specialized instructional support personnel in school climate and education efforts;

(5) recognizes the important role of specialized instructional support personnel in efforts to improve mental health, reduce drug use, and improve overall community safety for students;

(6) encourages experts to share best practices so that others can replicate the success of those experts.

AMENDMENTS SUBMITTED AND PROPOSED

SA 1460. Mr. CARPER (for himself and Mrs. CAPITO) proposed an amendment to the bill S. 914, to amend the Safe Drinking Water Act and the Federal Water Pollution Control Act to reauthorize programs under those Acts, and for other purposes; as follows:

TEXT OF AMENDMENTS

SA 1460. Mr. CARPER (for himself and Mrs. CAPITO) proposed an amendment to the bill S. 914, to amend the Safe Drinking Water Act and the Federal Water Pollution Control Act to reauthorize programs under those Acts, and for other purposes; as follows:

SEC. 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ‘‘Drinking Water and Wastewater Infrastructure Act of 2021’’.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.
Sec. 2. Definition of Administrator.

TITLE I—DRINKING WATER

Sec. 101. Technical assistance and grants for emergencies affecting public water systems.
Sec. 102. Drinking water State revolving loan funds.
Sec. 103. Source water petition program.
Sec. 104. Assistance for small and disadvantaged communities.
Sec. 105. Reducing lead in drinking water.
Sec. 106. Operational sustainability of small public water systems.
Sec. 107. Midevise and large drinking water system resilience and sustainability programs.

SEC. 102. Drinking water State revolving loan funds.

CONGRESSIONAL RECORD — SENATE
SEC. 101. TECHNICAL ASSISTANCE AND GRANTS.

SEC. 102. DRINKING WATER.

SEC. 103. WASTEWATER.

SEC. 104. Assistance for Small and Disadvantaged Communities.
which the eligible individual seeks to connect, the public water system to which the eligible individual seeks to connect has agreed to the connection; and

‘‘(B) the household of the eligible individual to the public water system meets all applicable local and State regulations, requirements, and codes.’’

(2) Of the Federal share, 90 percent shall be used for the purposes described in subsection (a)(3).

(3) Applications for grants under this section shall be submitted to the Administrator no later than 3 years after the date of enactment of the Drinking Water and Wastewater Infrastructure Act of 2021, the Administrator shall submit to Congress a report that describes the implementation of the program, which shall include a description of the use and deployment of amounts made available under the program. The Administrator shall distribute amounts made available under this subsection to States with a high proportion of underserved communities.

(4) The Administrator shall not award grants under this section to States which have received amounts made available under this subsection for the previous fiscal year.

(5) The Administrator shall notify the States of any planned reductions in the amount of funds available under this section.

(b) For Fiscal Years 2022 Through 2026

(1) This subsection authorizes $100,000,000 for each of fiscal years 2022 through 2026.

(2) The Administrator shall distribute amounts made available under this subsection to States with a high proportion of underserved communities.

(c) State Competitive Grants for Underserved Communities

(1) The Administrator shall establish a competitive grant program for eligible entities to carry out lead reduction projects. The Administrator shall establish criteria that give priority to States with a high proportion of underserved communities that meet the criteria described in subsection (b), and that the eligible individual to the public water system.

(2) Grants under this program shall be awarded on a competitive basis.

(d) Lead Inventorying Grant Program

(1) The Administrator shall establish a competitive grant program to award grants to eligible entities to carry out lead reduction projects. The Administrator shall establish criteria that give priority to States with a high proportion of underserved communities that meet the criteria described in subsection (b), and that the eligible individual to the public water system.

(2) Grants under this program shall be awarded on a competitive basis.

(e) Lead Inventorying Grant Program

(1) The Administrator shall establish a competitive grant program to award grants to eligible entities to carry out lead reduction projects. The Administrator shall establish criteria that give priority to States with a high proportion of underserved communities that meet the criteria described in subsection (b), and that the eligible individual to the public water system.
“(A) APPLICATION.—To be eligible to receive a grant under the pilot program, an eligible entity shall submit to the Administrator an application at such time, in such manner, and containing such information as the Administrator may require.

“(B) PRIORITIZATION.—In selecting recipients under the pilot program, the Administrator shall give priority to—

“(i) an eligible entity that meets the affordability criteria of the applicable State established under section 1452(d)(3); and

“(ii) an eligible entity that is located in an area other than a State that has established affordability criteria under section 1452(d)(3).

“(d) REPORT.—Not later than 2 years after the Administrator first awards a grant under the pilot program, the Administrator shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Energy and Commerce of the House of Representatives a report describing—

“(A) the recipients of grants under the pilot program;

“(B) the existing lead inventory that was available to recipients of grants under the pilot program; and

“(C) how the lead inventory described in subparagraph (B) was in locating lead service lines of the eligible entity.

“(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the pilot program $10,000,000, to remain available until expended.

“SEC. 106. OPERATIONAL SUSTAINABILITY OF SMALL PUBLIC WATER SYSTEMS.

“Part E of the Safe Drinking Water Act (42 U.S.C. 300 et seq.) is amended by adding at the end the following:

“SEC. 1459E. OPERATIONAL SUSTAINABILITY OF SMALL PUBLIC WATER SYSTEMS.

“(a) DEFINITIONS.—In this section:

“(1) ELIGIBLE ENTITY.—The term ‘eligible entity’ means—

“(A) a State;

“(B) a unit of local government;

“(C) a public corporation established by a unit of local government to provide water service;

“(D) a nonprofit corporation, public trust, or cooperative organization that owns or operates a public water system;

“(E) an Indian Tribe that owns or operates a public water system;

“(F) a Tribal organization that provides technical assistance to public water systems; and

“(G) a Tribal consortium.

“(b) PROGRAM.—The term ‘operational sustainability’ means the ability to improve the operation of a small system through the identification and prevention of potential water loss due to leaks, breaks, and other metering or infrastructure failures.

“(c) USE OF FUNDS.—An eligible entity that receives a grant under the program shall use the grant funds to carry out projects that improve the operational sustainability of 1 or more small systems through—

“(1) the development of a detailed asset inventory, which may include drinking water system data including treatment systems, distribution lines, hydrants, pumps, controls, and other essential infrastructure;

“(2) the development of an infrastructure asset map, including a map that uses technology such as—

“(A) geographic information system software; and

“(B) global positioning system software;

“(3) the deployment of leak detection technology;

“(4) the deployment of metering technology;

“(5) training in asset management strategies, techniques, and technologies for appropriate staff employed by—

“(A) the eligible entity; or

“(B) the small systems for which the grant was received;

“(6) the deployment of strategies, techniques, and technologies to enhance the operational sustainability and effective use of water resources through water reuse; and to—

“(7) the development or deployment of other strategies, techniques, or technologies that the Administrator may determine to be appropriate under the program.

“(d) ADDITIONAL REQUIRED INFORMATION.—Before the award of funds for a grant under the program to a grant recipient, the grant recipient shall submit to the Administrator—

“(1) if the grant recipient is located in a State that has established a State drinking water treatment revolving loan fund under section 1452, a copy of a written agreement between the grant recipient and the State in which the grant recipient agrees to provide a copy of any data collected under the proposed project to the State agency administering the State drinking water treatment revolving loan fund (or a designee); or

“(2) if the grant recipient is located in an area other than a State that has established a State drinking water treatment revolving loan fund under section 1452, a copy of a written agreement between the grant recipient and the Administrator in which the eligible entity agrees to provide a copy of any data collected under the proposed project to the Administrator (or a designee).

“(e) USE OF FUNDS.—An eligible entity that receives a grant under the program shall use the grant funds to carry out projects that improve the operational sustainability of 1 or more small systems through—

“(1) the development of a detailed asset inventory, which may include drinking water system data including treatment systems, distribution lines, hydrants, pumps, controls, and other essential infrastructure;

“(2) the development of an infrastructure asset map, including a map that uses technology such as—

“(A) geographic information system software; and

“(B) global positioning system software;

“(3) the deployment of leak detection technology;

“(4) the deployment of metering technology;

“(5) training in asset management strategies, techniques, and technologies for appropriate staff employed by—

“(A) the eligible entity; or

“(B) the small systems for which the grant was received;

“(6) the deployment of strategies, techniques, and technologies to enhance the operational sustainability and effective use of water resources through water reuse; and to—

“(7) the development or deployment of other strategies, techniques, or technologies that the Administrator may determine to be appropriate under the program.

“(f) COST SHARING.—

“(1) IN GENERAL.—Subject to paragraph (2), the Federal share of the cost of a project carried out using a grant under the program shall be 90 percent of the total cost of the project.

“(2) WAIVER.—The Administrator may increase the Federal share under paragraph (1) to—

“(A) improve the operational sustainability of drinking water systems; and

“(B) improve the operational sustainability of drinking water systems.

“SEC. 107. MIDSIZE AND LARGE DRINKING WATER SYSTEM INFRASTRUCTURE RESILIENCE AND SUSTAINABILITY PROGRAM.

“Part E of the Safe Drinking Water Act (42 U.S.C. 300 et seq.) as amended by section 106 is amended by adding at the end the following:

“SEC. 1459F. MIDSIZE AND LARGE DRINKING WATER SYSTEM INFRASTRUCTURE RESILIENCE AND SUSTAINABILITY PROGRAM.

“(a) DEFINITIONS.—In this section:

“(1) ELIGIBLE ENTITY.—An ‘eligible entity’ means a public water system that serves a community with a population of 10,000 or more.

“(2) N ATURAL HAZARD ; RESILIENCE.—The terms ‘resilience’ and ‘natural hazard’ have the meanings given those terms in section 1433(b).

“(b) RESILIENCE AND SUSTAINABILITY PROGRAM.—The term ‘resilience and sustainability program’ means the Midsize and Large Drinking Water System Infrastructure Resilience and Sustainability Program established under subsection (b).

“(c) ESTABLISHMENT.—The Administrator shall establish and carry out a program, to be known as the ‘Midsize and Large Drinking Water System Infrastructure Resilience and Sustainability Program’, under which the Administrator, subject to the availability of appropriations for the resilience and sustainability program, shall award grants to eligible entities for the purpose of—

“(1) increasing resilience to natural hazards and extreme weather events; and

“(2) reducing cybersecurity vulnerabilities.

“(d) USE OF FUNDS.—An eligible entity may only use grant funds received under the resilience and sustainability program to assist in the planning, design, construction, implementation, operation, or maintenance of a project or program that increases resilience to natural hazards and extreme weather events, or reduces cybersecurity vulnerabilities, through—

“(1) the conservation of water or the enhancement of water-use efficiency;

“(2) the modification or relocation of existing drinking water system infrastructure that is at risk of being significantly impaired by natural hazards or extreme weather events, including risks to drinking water from flooding; or

“(3) the design or construction of new or modified desalination facilities to serve existing communities;

“(4) the enhancement of water supply through the use of water management and source water protection;

“(5) the enhancement of energy efficiency or the use and generation of renewable energy to the conveyance or treatment of drinking water;

“(6) the development and implementation of measures to—

“(A) increase the resilience of the eligible entity to natural hazards and extreme weather events; or
SEC. 108. NEEDS ASSESSMENT FOR NATIONWIDE COMMUNITY WATER ASSISTANCE.

RURAL AND URBAN LOW-INCOME COMMUNITY WATER ASSISTANCE.

(a) Definitions.—In this section:

(1) Community water system.—The term ‘‘community water system’’ has the meaning given the term in section 1401 of the Safe Drinking Water Act (42 U.S.C. 300f).

(2) Large water service provider.—The term ‘‘large water service provider’’ means a community water system, treatment works, or municipal separate storm sewer system that serves more than 10,000 people.

(3) Medium water service provider.—The term ‘‘medium water service provider’’ means a community water system, treatment works, or municipal separate storm sewer system that serves more than 1,000, but not more than 10,000 people.

(4) Small water service provider.—The term ‘‘small water service provider’’ means a community water system, treatment works, or municipal separate storm sewer system that serves fewer than 1,000 people.

(b) Eligible entities.—The term ‘‘eligible entity’’ means—

(1) a proposal of the program or project to be planned, designed, constructed, implemented, or maintained by the eligible entity;

(2) an identification of the natural hazard risks, extreme weather events, or potential cybersecurity vulnerabilities, as applicable, to be addressed by the proposed program or project;

(3) documentation prepared by a Federal, State, regional, or local government agency of the natural hazard risk, potential cybersecurity vulnerability, or risk for extreme weather events to the area where the proposed project is to be located;

(4) a description of any recent natural hazards, cybersecurity events, or extreme weather events that have affected the community water system of the eligible entity;

(5) a description of how the proposed program or project would improve the performance of the community water system of the eligible entity under the anticipated natural hazards, cybersecurity vulnerabilities, or extreme weather events; and

(6) an explanation of how the proposed program or project is to be designed, constructed, implemented, or maintained.

(c) Application.—(A) To enhance the resiliency of the community water system of the eligible entity to the anticipated natural hazards, cybersecurity vulnerabilities, or extreme weather events or

(B) to reduce cybersecurity vulnerabilities;

(d) Review.—Upon receipt of an application under paragraph (c), the Administrator shall promptly conduct a review of the application to determine if the eligible entity is eligible to receive a grant under this section.

(e) Report.—Not later than 2 years after the date of enactment of this Act, the Administrator shall submit to Congress a report that describes the implementation directly contributes to the structures of the pilot program by informing the

SEC. 109. RURAL AND LOW-INCOME WATER ASSISTANCE PILOT PROGRAM.

(a) Definitions.—In this section:

(1) Eligible entity.—The term ‘‘eligible entity’’ means—

(A) a municipality, Tribal government, or other entity that—

(i) owns or operates a community water system, treatment works, or municipal separate storm sewer system; or

(ii) as determined by the Administrator, has taken on an unsustainable level of debt to customer nonpayment for the services provided by a large water service provider, a medium water service provider, or a rural water service provider; or

(B) a State exercising primary enforcement responsibility over a rural water service provider under the Safe Drinking Water Act (42 U.S.C. 300f et seq.) or the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.), as applicable.

(2) Pilot program.—The term ‘‘pilot program’’ means the pilot program established by the Administrator under this section.

(3) Water services needs assessment.—The term ‘‘water services needs assessment’’ means the report required under section 108(b)(1).

(b) Establishment.—

(1) In general.—Not later than 2 years after the date of enactment of this Act, the Administrator shall establish a pilot program to award grants to eligible entities to develop and implement programs to assist qualifying households with need in maintaining access to drinking water and wastewater treatment.

(2) Requirement.—In establishing the pilot program, the Administrator shall ensure that the needs assessment directly contributes to the structures of the pilot program by informing the
of the Safe Drinking Water Act (42 U.S.C. 300f et seq.) or the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) or the Safe Drinking Water Act (42 U.S.C. 300f et seq.) or the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.), as applicable; 

(B) not more than 8 shall be to eligible en-
tities that own or operate a medium water 
service provider; 

(C) not more than 8 shall be to eligible en-
tities that own or operate a large water ser-
vice provider that serves not more than 
500,000 people; 

(D) not more than 8 shall be to eligible en-
tities that own or operate a community 
water system, treatment works, or munici-
pal separate storm sewer system that serv-
ices a community consistent with the afford-
ability criteria established by the applicable 
State under section 1452(d)(3) of the Safe 
Drinking Water Act (42 U.S.C. 300f–13); or 

(E) not more than 8 shall be to eligible en-
tities that own or operate a community water 
system, treatment works, or municipal sep-
arate storm sewer system that services a com-
munity consistent with the affordability criteria established by the applicable State under section 1452(d)(3) of the Safe Drinking Water Act (42 U.S.C. 300f–13); or the Federal Water Pollution Control Act (33 U.S.C. 1383(i)(2)), as applicable. 

(b) USE OF FUNDS LIMITATIONS.—A grant 
under the pilot program—

(1) shall not be used to replace funds for 
any comparable program; but 

(B) may be used to supplement or enhance 
an existing program, including a program that 
receives assistance from other Federal grants; 

(4) TERM.—The term of a grant awarded 
under the pilot program shall be subject to 
the availability of appropriations; 

(5) TYPES OF ASSISTANCE.—In establish-
ing the pilot program, the Administrator may 
include provisions for—

(A) direct financial assistance; 

(B) a lifetime rate; 

(C) bill discounting; 

(D) special hardship provisions; 

(E) a percentage-of-income payment plan; or 

(F) debt relief for the eligible entity or the 
community water system owned by the eligi-le entity or the community water system 
that is determined by the Administrator to be in the interest of public health. 

(6) REQUIREMENT.—The Administrator shall 
award not more than 40 grants under the pilot 
program, of which—

(A) not more than 8 shall be to eligible en-
tities that own, operate, or exercise primary 
responsibility over a water system, treatment 
works, or municipal separate storm sewer 
system, that serves a community (consistent with the affordability criteria established by the applicable State under section 1452(d)(3) of the Safe Drinking Water Act (42 U.S.C. 300f–13) and section 609(l)(2) of the Federal Water Pollution Control Act (33 U.S.C. 1383(i)(2)), as applicable. 

(7) CRITERIA.—In addition to any priority 
criteria established by the Administrator in 
response to the findings in the water services needs assessment, in awarding grants under the pilot program, the Administrator shall give priority consideration to eligible entities that—

(A) serve a disproportionate percentage, as 
determined by the Administrator, of qual-
yfying households with need, as identified in the water services needs assessment; 

(B) are subject to State or Federal enforce-
ment actions relating to compliance with the 
Federal Water Pollution Control Act (33 
U.S.C. 1251 et seq.) or the Safe Drinking 
Water Act (42 U.S.C. 300f et seq.); or 

(C) maintain or participate in an existing 
community water system program with objec-
tives similar to the objectives of the pilot 
program, as determined by the Adminis-
trator. 

(C) in paragraphs (3), (5), and (7), by 
striking ‘‘State or local educational agency’’ each place it appears and inserting ‘‘State, local educational agency, public water system, tribal consortium, or qualified nonprofit organization’’; and 

(D) in paragraph (4)— 

(i) by striking ‘‘States and local edu-
cational agencies’’ and inserting ‘‘States, local educational agencies, public water systems, tribal consortia, and qualified nonprofit organizations’’; and 

(ii) by inserting ‘‘or the remediation of’’ after 
‘‘testing for’’; 

(E) in paragraph (6)— 

(i) in the matter preceding subparagraph 
(A)— 

(I) by striking ‘‘State or local educational 
agency’’ and inserting ‘‘State, local edu-
cational agency, public water system, tribal 
consortium, or qualified nonprofit organ-
ization’’ after each local educational 
agency; 

(ii) in subparagraph (A)(iii)— 

(I) by inserting ‘‘or tribal’’ after ‘‘ap-
plicable State’’; and 

(ii) by striking ‘‘lead’’ and inserting 
‘‘voluntary testing or compliance moni-
toring for and remediation of lead contami-
nation’’; and 

(iii) in subparagraph (B)(i), by inserting 
‘‘applicable’’ before each local educational 
agency; 

(F) in paragraph (7), by striking ‘‘testing for’’ 
and inserting ‘‘testing or compliance moni-
toring for or remediation of’’; and 

(G) by striking paragraph (8) and inserting 
the following— 

(8) AUTHORIZATION OF APPROPRIATIONS.— 
There are authorized to be appropriated to 
carry out this subsection— 

(A) $30,000,000 for fiscal year 2022; 

(B) $35,000,000 for fiscal year 2023; 

(C) $40,000,000 for fiscal year 2024; 

(D) $45,000,000 for fiscal year 2025; and 

(E) $50,000,000 for fiscal year 2026. 

SEC. 110. LEAD CONTAMINATION IN SCHOOL 
DRINKING WATER. 
Section 1464 of the Safe Drinking Water Act (42 U.S.C. 300j–24) is amended— 

(1) in subsection (b)— 

(A) in the first sentence, by inserting ‘‘pub-
lc water systems and’’ after ‘‘to assist’’; and 

(B) in the third sentence, by inserting ‘‘public water systems, after ‘schools,’ and” 

(2) in paragraph (5)— 

(A) in the subsection heading, by inserting ‘‘AND REDUCTION’’ after ‘‘LEAD TESTING’’; 

(B) in paragraph (5)— 

(i) in subparagraph (A), by striking ‘‘the 
Administrator’’ each place it appears and 
inserting ‘‘the Administrator follows through 
the period at the end and inserting the fol-
lowing: ‘‘the Administrator shall establish 
(a voluntary school and child care program 
lead testing, compliance monitoring, and lead 
reduction grant program to make grants avail-
able to— 

(I) States to assist local educational agen-
cies, public water systems and child care programs under the 
jurisdiction of those local educational agen-
cies, and qualified nonprofit organizations in 
voluntary school and child care program 
lead testing, compliance monitoring, and lead 
reduction grant program to make grants avail-
able to— 

(i) States to assist local educational agencies, public 
water systems and child care programs under the 
jurisdiction of those local educational agen-
cies, and qualified nonprofit organizations in 
voluntary school and child care program 
lead testing, compliance monitoring, and lead 
reduction grant program to make grants avail-
able to— 

(ii) tribal consortia to assist tribal edu-
cation agencies (as defined in section 3 of the 
National Environmental Education Act (20 
U.S.C. 1243)) that serve schools and child care programs under the 
jurisdiction of those tribal education agen-
cies, and qualified nonprofit organizations in 
voluntary school and child care program 
lead testing, compliance monitoring, and lead 
reduction grant program to make grants avail-
able to— 

(II) by inserting ‘‘or the remediation of’’ after 
‘‘testing for’’; 

(I) improves water quality, water pres-
PUBLICATION.—The Administrator shall 
publish each report submitted under sub-
paragraph (A) that— 

(C) maintain or participate in an existing 
community water system program with objec-
tives similar to the objectives of the pilot 
program, as determined by the Adminis-
trator. 

(D) in paragraph (4)— 

(3) USE OF FUNDS LIMITATIONS.—A grant 
under the pilot program shall be subject to 
the affordability criteria established by the 
Administrator, a manner determined by the Administrator, the use of grant funds by the eligible entity, including— 

(i) key features of the assistance provided by the eligible entity; 

(ii) sources of funding used to supplement Federal funds; and 

(iii) eligibility criteria. 

(E) by striking paragraph (2) and inserting 
the following— 

(II) by inserting ‘‘to implement eligi-
bility projects described in subsection (b).’’ 

(F) in paragraph (7), by striking ‘‘testing for’’ 
and inserting ‘‘testing or compliance moni-
toring for or remediation of’’; and 

(G) by striking paragraph (8) and inserting 
the following— 

(8) AUTHORIZATION OF APPROPRIATIONS.— 
There are authorized to be appropriated to 
carry out this subsection— 

(A) $30,000,000 for fiscal year 2022; 

(B) $35,000,000 for fiscal year 2023; 

(C) $40,000,000 for fiscal year 2024; 

(D) $45,000,000 for fiscal year 2025; and 

(E) $50,000,000 for fiscal year 2026. 

SEC. 111. INDIAN RESERVATION DRINKING 
WATER PROGRAM. 
Section 2001 of the America’s Water Infra-
structure Act of 2018 (42 U.S.C. 300j–3c; note; 
Public Law 115–270) is amended— 

(1) in subsection (a)— 

(A) in the matter preceding paragraph 
(1), by striking ‘‘Subject to the availability of 
appropriations, the Administrator of the En-
vironmental Protection Agency’’ and insert-
ning ‘‘The Administrator of the Environ-
mental Protection Agency (referred to in this 
section as the Administrator)’’; and 

(B) by striking ‘‘to implement’’ in the mat-
ter preceding paragraph (1) and all that fol-
ows through the period at the end of para-
graph (2) and inserting ‘‘to implement eligi-
ble projects described in subsection (b).’’; 

(2) in subsection (b), by striking paragraph 
(2) and inserting the following— 

(2) that will— 

(A) improve water quality, water pres-
SURE, or water services through means such as 
connections to, expanding, repairing, re-
paring, or obtaining water from a public 
water system as defined in section 1401 of 
S27APPT1congressional Record — Senate April 27, 2021
the Safe Drinking Water Act (42 U.S.C. 300f)); or

"(B) Improve water quality or sanitation or wastewater services at a treatment works (as defined in section 212 of the Federal Water Pollution Control Act (33 U.S.C. 1292))."

(3) by redesignating subsection (d) as subsection (c); and

(4) by striking subsection (c) and inserting the following:

"(c) REQUIRED PROJECTS.—"(1) IN GENERAL.—If sufficient projects exist, of the funds made available to carry out this section, the Administrator shall use 50 percent to carry out—

"(A) 10 eligible projects described in subsection (b) that are within the Upper Missouri River Basin;

"(B) 10 eligible projects described in subsection (b) that are within the Arkansas-White-Red River Basin;

"(C) 10 eligible projects described in subsection (b) that are within the Upper Mississippi River Basin;

"(D) 10 eligible projects described in subsection (b) that are within the Columbia River Basin.

"(2) REQUIREMENT.—In selecting projects to carry out under this section, the Administrator shall give priority to projects that—

"(A) respond to emergency situations occurring due to or resulting in a lack of access to clean drinking water that threatens the health of Tribal populations;

"(B) would serve a Tribal population that would qualify as a disadvantaged community based on the affordability criteria established by the applicable State under section 1492(d)(3) of the Safe Drinking Water Act (42 U.S.C. 300o-12(d)(3)); or

"(C) would address the underlying factors contributing to—

"(i) an enforcement action commenced pursuant to the Safe Drinking Water Act (42 U.S.C. 300f et seq.) against the applicable public water system (as defined in section 1491 of title 44, United States Code) as of the date of enactment of the Drinking Water and Wastewater Infrastructure Act of 2021; or

"(ii) an enforcement action commenced pursuant to the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) against the applicable treatment works (as defined in subsection 212 of that Act (33 U.S.C. 1292)) as of the date of enactment of the Drinking Water and Wastewater Infrastructure Act of 2021.

"(3) FUNDING.—The Federal share of the cost of a project carried out under this section shall be 100 percent.

"(4) PRIORITIZATION FRAMEWORK.—The term ‘prioritization framework’ means the prioritization framework developed by the Administrator for the administrative costs of carrying out the program.

"(5) REPORT.—Not later than 2 years after the date on which the Administrator first awards a grant under the program, and annually thereafter, the Administrator shall submit to Congress a report describing—

"(A) each recipient of a grant under the program during the previous 1-year period; and

"(B) a summary of the activities carried out using grants awarded under the program.

"(6) IDENTIFICATION OF AND SUPPORT FOR PUBLIC WATER SYSTEMS.—Part E of the Safe Drinking Water Act (42 U.S.C. 300g et seq.) is amended by adding at the end the following:

"(7) ADVANCED DRINKING WATER TECHNOLOGIES.—"(a) DEFINITIONS.—In this section:

"(1) IN GENERAL.—Subject to the availability of appropriations, not later than 1 year after the date of enactment of the Drinking Water and Wastewater Infrastructure Act of 2021, the Administrator shall carry out a study that examines the state of the art, emerging and future technologies, including technology that could address cybersecurity vulnerabilities, that enhances or could enhance the treatment, monitoring, affordability, efficiency, and safety of drinking water provided by a public water system.

"(2) REPORT.—The Administrator shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Energy and Commerce of the House of Representatives a report that describes the results of the study under paragraph (1).

"(b) ADVANCED DRINKING WATER TECHNOLOGY GRANT PROGRAM.—"(1) DEFINITIONS.—In this subsection:

"(A) ELIGIBLE ENTITY.—The term ‘eligible entity’ means the owner or operator of a public water system that—

"(i) serves—

"(I) a population of not more than 100,000 people; or

"(II) a community described in section 1458A(c)(3);

"(ii) has plans to identify or has identified opportunities in the operations of the public water system to employ new, emerging, or existing technologies, including technology that could address cybersecurity vulnerabilities, as determined by the Administrator, that enhance treatment, monitoring, affordability, efficiency, or safety of the drinking water provided by the public water system, including technologies not identified in the study conducted under subsection (a)(1); and

"(iii) has expressed an interest in the opportunities in the operation of the public water system to employ new, emerging, or existing technologies, including technology that could address cybersecurity vulnerabilities, as determined by the Administrator, that enhance treatment, monitoring, affordability, efficiency, or safety of the drinking water provided by the public water system, including technologies not identified in the study conducted under subsection (a)(1).

"(B) PROGRAM.—The term ‘program’ means the competitive grant program established under paragraph (2).

"(C) UNDERSERVED COMMUNITY.—The term ‘underserved community’ means a political subdivision of a State that, as determined by the Administrator, has an inadequate system for obtaining drinking water.

"(D) ESTABLISHMENT.—The Administrator shall establish a competitive grant program under which the Administrator shall award grants to eligible entities for the purpose of identifying, deploying, or identifying and deploying technologies described in paragraph (1)(A)(ii).

"(E) REQUIREMENTS.—"(1) APPLICATIONS.—To be eligible to receive a grant under the program, an eligible entity shall submit to the Administrator an application in such manner and containing such information as the Administrator may require.

"(2) ADMINISTRATIVE COSTS.—Not more than 2 percent of the amount made available for a fiscal year under subparagraph (A) to carry out the program shall be used by the Administrator for the administrative costs of carrying out the program.

"(3) REPORT.—Not later than 2 years after the date on which the Administrator first awards a grant under the program, and annually thereafter, the Administrator shall submit to Congress a report describing—

"(A) each recipient of a grant under the program during the previous 1-year period; and

"(B) a summary of the activities carried out using grants awarded under the program.

"(4) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out the program $10,000,000 for each of fiscal years 2022 through 2026, to remain available until expended.

"(5) ADMINISTRATIVE COSTS.—Not more than 2 percent of the amount made available for a fiscal year under subparagraph (A) to carry out the program shall be used by the Administrator for the administrative costs of carrying out the program.

"(6) REPORT.—Not later than 2 years after the date on which the Administrator first awards a grant under the program, and annually thereafter, the Administrator shall submit to Congress a report describing—

"(A) each recipient of a grant under the program during the previous 1-year period; and

"(B) a summary of the activities carried out using grants awarded under the program.

"(7) IDENTIFICATION OF AND SUPPORT FOR PUBLIC WATER SYSTEMS.—Part E of the Safe Drinking Water Act (42 U.S.C. 300g et seq.) is amended by adding at the end the following:

"(8) PRIORITIZATION FRAMEWORK.—The term ‘prioritization framework’ means the prioritization framework developed by the Administrator for the administrative costs of carrying out the program.

"(9) REPORT.—Not later than 2 years after the date on which the Administrator first awards a grant under the program, and annually thereafter, the Administrator shall submit to Congress a report describing—

"(A) each recipient of a grant under the program during the previous 1-year period; and

"(B) a summary of the activities carried out using grants awarded under the program.

"(10) IDENTIFICATION OF AND SUPPORT FOR PUBLIC WATER SYSTEMS.—Part E of the Safe Drinking Water Act (42 U.S.C. 300g et seq.) is amended by adding at the end the following:

"(11) PRIORITIZATION FRAMEWORK.—The term ‘prioritization framework’ means the prioritization framework developed by the Administrator for the administrative costs of carrying out the program.

"(12) REPORT.—Not later than 2 years after the date on which the Administrator first awards a grant under the program, and annually thereafter, the Administrator shall submit to Congress a report describing—

"(A) each recipient of a grant under the program during the previous 1-year period; and

"(B) a summary of the activities carried out using grants awarded under the program.

"(13) IDENTIFICATION OF AND SUPPORT FOR PUBLIC WATER SYSTEMS.—Part E of the Safe Drinking Water Act (42 U.S.C. 300g et seq.) is amended by adding at the end the following:

"(14) PRIORITIZATION FRAMEWORK.—The term ‘prioritization framework’ means the prioritization framework developed by the Administrator for the administrative costs of carrying out the program.

"(15) REPORT.—Not later than 2 years after the date on which the Administrator first awards a grant under the program, and annually thereafter, the Administrator shall submit to Congress a report describing—

"(A) each recipient of a grant under the program during the previous 1-year period; and

"(B) a summary of the activities carried out using grants awarded under the program.

"(16) IDENTIFICATION OF AND SUPPORT FOR PUBLIC WATER SYSTEMS.—Part E of the Safe Drinking Water Act (42 U.S.C. 300g et seq.) is amended by adding at the end the following:

"(17) PRIORITIZATION FRAMEWORK.—The term ‘prioritization framework’ means the prioritization framework developed by the Administrator for the administrative costs of carrying out the program.

"(18) REPORT.—Not later than 2 years after the date on which the Administrator first awards a grant under the program, and annually thereafter, the Administrator shall submit to Congress a report describing—

"(A) each recipient of a grant under the program during the previous 1-year period; and

"(B) a summary of the activities carried out using grants awarded under the program.

"(19) IDENTIFICATION OF AND SUPPORT FOR PUBLIC WATER SYSTEMS.—Part E of the Safe Drinking Water Act (42 U.S.C. 300g et seq.) is amended by adding at the end the following:
"(i) whether cybersecurity vulnerabilities for a public water system have been identified under section 1433;

"(ii) the capacity of a public water system to remediate a cybersecurity vulnerability without additional Federal support;

"(iii) whether a public water system serves a defense installation or critical national security asset; and

"(iv) whether a public water system, if degraded or rendered inoperable due to an incident, would cause a cascading failure of other critical infrastructure.

"(2) TECHNICAL CYBERSECURITY SUPPORT PLAN.

"(A) IN GENERAL.—Not later than 280 days after the date of enactment of the Drinking Water and Wastewater Infrastructure Act of 2021, the Administrator, in coordination with the Director and using existing authorities of the Administrator and the Director for providing voluntary support to public water systems and the Prioritization Framework, shall develop a Technical Cybersecurity Support Plan for public water systems.

"(B) REQUIREMENTS.—The Support Plan—

"(i) shall establish a methodology for identifying public water systems for which cybersecurity support should be prioritized;

"(ii) shall establish timelines for making voluntary technical support for cybersecurity available to specific public water systems;

"(iii) may include public water systems identified by the Administrator, in coordination with the Director, as needing technical support for cybersecurity;

"(iv) shall include specific capabilities of the Administrator and the Director that may be utilized to provide support to public water systems under the Support Plan, including—

"(I) site vulnerability and risk assessment;

"(II) penetration tests; and

"(III) any additional support determined to be appropriate by the Administrator; and

"(v) shall only include plans for providing voluntary support to public water systems.

"(3) CONSULTATION REQUIRED.—In developing the Prioritization Framework pursuant to paragraph (1) and the Support Plan pursuant to paragraph (2), the Administrator shall consult with such Federal or non-Federal entities as determined to be appropriate by the Administrator.

"(4) REPORTS REQUIRED.—

"(A) PRIORITY FRAMEWORK.—Not later than 190 days after the date of enactment of the Drinking Water and Wastewater Infrastructure Act of 2021, the Administrator shall submit to the appropriate Congressional committees a report describing the Prioritization Framework.

"(B) TECHNICAL CYBERSECURITY SUPPORT PLAN.—Not later than 280 days after the date of enactment of the Drinking Water and Wastewater Infrastructure Act of 2021, the Administrator shall submit to the appropriate Congressional committee a report describing the Prioritization Framework.

"(C) RULES OF CONSTRUCTION.—Nothing in this section—

"(1) alters the existing authorities of the Administrator; or

"(2) impairs a public water system to accept technical support offered by the Administrator.

TITLE II—CLEAN WATER

SEC. 201. RESEARCH, INVESTIGATIONS, TRAINING, AND INFORMATION.

(a) REAUTHORIZATION.—Section 104(a) of the Federal Water Pollution Control Act (33 U.S.C. 1254(a)) is amended—

"(1) by striking "and (7)" and inserting "(7)"; and

"(2) in paragraph (7)—

"(A) by striking "2023" and inserting "2021"; and

"(B) by striking the period at the end and inserting "; and (8) not to exceed $75,000,000 for each of fiscal years 2022 through 2026; and for carrying out subsections (b), (8), and (g), of which not less than $50,000,000 each fiscal year shall be used to carry out subsection (b) below.

(b) COMMUNICATION.—Each nonprofit organization that receives funding under paragraph (8) of section 104 of the Federal Water Pollution Control Act (33 U.S.C. 1254(b)) shall, before using that funding to undertake activities to carry out that paragraph, inform the State in which the assistance is to be expended or otherwise made available.

"(c) REPORT.—Not later than 2 years after the date of enactment of this Act, the Administrator shall submit to Congress a report that describes the implementation of the grants authorized under subsections (b), (8), and (g) of section 104 of the Federal Water Pollution Control Act (33 U.S.C. 1254), which shall include a description of the grant recipients and grant amounts made available to carry out those subsections.

SEC. 202. WASTEWATER EFFICIENCY GRANT PILOT PROGRAM.

Title II of the Federal Water Pollution Control Act (35 U.S.C. 1221 et seq.) is amended by adding at the end the following:

"SEC. 222. WASTEWATER EFFICIENCY GRANT PILOT PROGRAM.

"(a) ESTABLISHMENT.—Subject to the availability of appropriations, the Administrator shall establish a wastewater efficiency grant pilot program (referred to in this section as the ‘pilot program’) to award grants to owners or operators of publicly owned treatment works to carry out projects that create or improve waste-to-energy systems.

"(b) SELECTION.—

"(1) APPLICATIONS.—To be eligible to receive a grant under the pilot program, an owner or operator of a treatment works shall submit an application to the Administrator at such time, in such manner, and containing such information as the Administrator may require.

"(2) NUMBER OF RECIPIENTS.—The Administrator shall select not more than 15 recipients of grants under the pilot program from applications submitted under paragraph (1).

"(c) USE OF FUNDS.—

"(1) IN GENERAL.—Subject to paragraph (2), a recipient of a grant under the pilot program may use grant funds for—

"(A) sludge treatment projects;

"(B) installation of anaerobic digesters;

"(C) methane capture;

"(D) methane transfer;

"(E) facility upgrades and retrofits necessary to create or improve waste-to-energy systems; and

"(F) other new and emerging, but proven, technologies that transform waste to energy.

"(2) LIMITATION.—A grant to a recipient under the pilot program shall not be more than $4,000,000.

"(d) REPORTS.—

"(1) REPORT TO THE ADMINISTRATOR.—Not later than 2 years after receiving a grant under the pilot program and each year thereafter that result in sewage being released into rivers and other waters; and"

"(2) in subsection (d)—
Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 223. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

(a) Definitions.—In this section:
(1) ELIGIBLE ENTITY.—The term ‘eligible entity’ means—
(A) a municipality; or
(B) an intermunicipal, interstate, or State agency.

(2) NATURAL HAZARD.—The term ‘natural hazard’ means a hazard caused by natural forces, including extreme weather events, sea-level rise, and extreme drought conditions.

(3) PROGRAM.—The term ‘program’ means the clean water infrastructure research and development program established under subsection (b).

(b) Establishment.—Subject to the availability of appropriations, the Administrator shall establish a clean water infrastructure research and development program under which the Administrator shall award grants for the purpose of increasing the research of publicly owned treatment works to a natural hazard or cybersecurity vulnerabilities.

(c) Use of Funds.—An eligible entity that receives a grant under the program shall use the grant funds for planning, designing, or constructing improvements that increase the resilience of publicly owned treatment works to a natural hazard or cybersecurity vulnerabilities.

(d) Authorization of Appropriations.—There is authorized to be appropriated for the fiscal years 2022 through 2026—
(1) $25,000,000 for each of fiscal years 2022 through 2025; and
(2) $25,000,000 for each of fiscal years 2026 through 2026.

SEC. 206. SMALL AND MEDIUM PUBLICLY OWNED TREATMENT WORKS CIRCUIT RIDER PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 205. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 223. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

(a) Definitions.—In this section:
(1) ELIGIBLE ENTITY.—The term ‘eligible entity’ means—
(A) a municipality; or
(B) an intermunicipal, interstate, or State agency.

(2) NATURAL HAZARD.—The term ‘natural hazard’ means a hazard caused by natural forces, including extreme weather events, sea-level rise, and extreme drought conditions.

(3) PROGRAM.—The term ‘program’ means the clean water infrastructure research and development program established under subsection (b).

(b) Establishment.—Subject to the availability of appropriations, the Administrator shall establish a clean water infrastructure research and development program under which the Administrator shall award grants for the purpose of increasing the research of publicly owned treatment works to a natural hazard or cybersecurity vulnerabilities.

(c) Use of Funds.—An eligible entity that receives a grant under the program shall use the grant funds for planning, designing, or constructing improvements that increase the resilience of publicly owned treatment works to a natural hazard or cybersecurity vulnerabilities.

(d) Authorization of Appropriations.—There is authorized to be appropriated for the fiscal years 2022 through 2026—
(1) $25,000,000 for each of fiscal years 2022 through 2025; and
(2) $25,000,000 for each of fiscal years 2026 through 2026.

SEC. 206. SMALL AND MEDIUM PUBLICLY OWNED TREATMENT WORKS CIRCUIT RIDER PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 205. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 223. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 205. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 223. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 205. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 223. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 205. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 223. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 205. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 223. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 205. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 223. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 205. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 223. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 205. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 223. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 202) is amended by adding at the end the following:

SEC. 205. CLEAN WATER INFRASTRUCTURE RESEARCH AND DEVELOPMENT PROGRAM.
amended by section 205) is amended by add-
ing at the end the following:

"SEC. 224. SMALL AND MEDIUM PUBLICLY OWNED TREATMENT WORKS CIRCUIT RIDER PROGRAM.

'(a) ESTABLISHMENT.—Subject to the availability of appropriations, not later than 180 days after the date of enactment of this section, the Administrator shall establish a circuit rider program (referred to in this section as the ‘circuit rider program’) under which the Administrator shall award grants to qualified nonprofit entities, as determined by the Administrator, to provide assistance to owners and operators of small and medium publicly owned treatment works to carry out the activities described in section 602(b)(13).

'(b) LIMITATION.—A grant provided under the circuit rider program shall be in an amount that is not more than $75,000.

'(c) PRIORITIZATION.—In selecting recipients of grants under the circuit rider program, the Administrator shall give priority to qualified nonprofit entities, as determined by the Administrator, that would serve a community that—

'(1) has a history, for not less than the 10 years preceding the grant, of unresolved wastewater issues, stormwater issues, or a combination of wastewater and stormwater issues;

'(2) is considered financially distressed;

'(3) faces the cumulative burden of stormwater and wastewater overflow issues; or

'(4) has previously failed to access Federal technical assistance due to cost-sharing requirements.

'(d) COMMUNICATION.—Each qualified nonprofit entity receiving funds under this section shall, before using that funding to undertake activities to carry out this section, consult with the State in which the assistance is to be expended or otherwise made available.

'(e) REPORT.—Not later than 2 years after the date on which the Administrator establishes the circuit rider program, and every 2 years thereafter, the Administrator shall submit to Congress a report describing—

'(1) each recipient of a grant under the circuit rider program;

'(2) a summary of the activities carried out under the circuit rider program.

'(f) AUTHORIZATION OF APPROPRIATIONS.—Notwithstanding any other provision of law, there is authorized to be appropriated to carry out this section $10,000,000 for the period of fiscal years 2022 through 2026.

'(g) LIMITATION ON USE OF FUNDS.—Of the amounts made available for grants under paragraph (1), not more than 2 percent may be used to pay the administrative costs of the Administrator.

"SEC. 225. SMALL PUBLICLY OWNED TREATMENT WORKS EFFICIENCY GRANT PROGRAM.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 205) is amended by adding at the end the following:

"SEC. 226. GRANTS FOR CONSTRUCTION AND REPLACEMENT OF INDIVIDUAL HOUSEHOLD DECENTRALIZED WASTE-WATER SYSTEMS FOR INDIVIDUALS WITH LOW OR MODERATE INCOME.

Title II of the Federal Water Pollution Control Act (33 U.S.C. 1281 et seq.) (as amended by section 205) is amended by adding at the end the following:

"(f) REPORT.—Not later than 2 years after the date of enactment of this section, the Administrator shall submit to Congress a report describing the program under this section and the results of the program under this section.

"(g) AUTHORIZATION OF APPROPRIATIONS.—

'(1) IN GENERAL.—There is authorized to be appropriated to the Administrator to carry out this section $50,000,000 for each of fiscal years 2022 through 2026.

'(2) LIMITATION ON USE OF FUNDS.—Of the amounts made available for grants under paragraph (1), not more than 2 percent may be used to pay the administrative costs of the Administrator.

"SEC. 227. CONNECTION TO PUBLICLY OWNED TREATMENT WORKS.

"(a) DEFINITIONS.—In this section:

'(1) ELIGIBLE ENTITY.—The term ‘eligible entity’ means—

'(A) an owner or operator of a publicly owned wastewater treatment works that assists or is seeking to assist low-income or moderate-income individuals with connecting the household of the individual to the publicly owned treatment works;

'(B) a nonprofit entity that assists low-income or moderate-income individuals with connecting the household of the individual to a publicly owned treatment system.

'(2) PROGRAM.—The term ‘program’ means the competitive grant program established under subsection (b).

'(3) QUALIFIED INDIVIDUAL.—The term ‘qualified individual’ has the meaning given the term ‘eligible individual’ in section 602(b)(13).

'(4) ESTABLISHMENT.—Subject to the availability of appropriations, the Administrator
shall establish a competitive grant program with the purpose of improving general welfare, under which the Administrator awards grants to eligible entities to provide funds to assist in improved and individual in covering the costs incurred by the qualified individual in connecting the household of the qualified individual to a publicly owned treatment works.

"(c) APPLICATION.—

"(1) In general.—An eligible entity seeking a grant program shall submit to the Administrator an application at such time, in such manner, and containing such information as the Administrator may by regular and reasonable means require.

"(2) Requirement.—Not later than 90 days after the date on which the Administrator receives an application from an eligible entity under paragraph (1), the Administrator shall notify the eligible entity of whether the Administrator will award a grant to the eligible entity under the program.

"(d) SELECTION CRITERIA.—In selecting recipients of grants under the program, the Administrator shall use the following criteria:

"(1) Whether the eligible entity seeking a grant provides services to, or works directly with, qualified individuals.

"(2) Whether the eligible entity seeking a grant has an existing program in the area of public service provision, as defined by the Administrator.

"(3) In paragraph (b), the Administrator may use an additional 2 percent of the funds made available for grants under paragraph (b) and inserting the following:

"(B) A DMINISTRATIVE COSTS .—Of the funds made available for grants under paragraph (b), not less than 15 percent shall be made available for grants under paragraph (b) and inserting the following:

"(ii) in paragraph (3), by striking subparagraph (A) and inserting the following:

"(A) in subparagraph (A), by inserting ""(I) may not exceed 30 percent; and ""(ii) in the matter preceding paragraph (A), by inserting ""(i) may not exceed 30 percent; and ""(III) by redesignating clause (i) as clause (ii) and inserting the following:

"(B) in subparagraph (A), by striking ""(i) and (ii) and inserting the following:

"(B) by striking paragraph (4) and inserting the following:

"(1) $2,400,000,000 for fiscal year 2022;

"(2) $2,750,000,000 for fiscal year 2023;

"(3) $3,000,000,000 for fiscal year 2024; and

"(4) $3,250,000,000 for each of fiscal years 2025 and 2026.

"(2) TECHNICAL AMENDMENT.—Section 104(w) of the Federal Water Pollution Control Act (33 U.S.C. 1383) is amended by striking ""(i) in the development of educational or training programs to increase the number of water and wastewater utility workers by ensuring that incumbent water and wastewater utility sector,"" and ""(ii) including the promotion of diversity within that recruitment, of individuals to careers in the water and wastewater utility sector;"

"(B) expanding the availability of training opportunities for—

"(i) to provide access to workforce opportunities;"

"(ii) individuals seeking to advance careers within the water and wastewater utility sector; and

"(iii) individuals seeking to advance careers within the water and wastewater utility sector; and

"(C) expanding the use and availability of activities and strategies, including the development of innovative activities and strategies, that relate to the maintenance and retention of a sustainable workforce in the water and wastewater utility sector;"

"(ii) to provide access to workforce opportunities;"

"(iii) to provide access to workforce opportunities;"

"(iii) to provide access to workforce opportunities;"

"(iv) to provide access to workforce opportunities;"

"(v) the Department of Veterans Affairs;"
The page contains text related to the establishment of a competitive grant pilot program for improving water quality and infrastructure, requirements for eligibility of entities, and the evaluation process for project carryout. The text is organized into sections discussing various aspects of water infrastructure, including data sharing, regional consortia, grant establishment, establishment of pilot programs, eligibility requirements, and data sharing protocols. The text also mentions the involvement of State, local, and other governmental entities in the establishment and implementation of these programs.

The section on data sharing and infrastructure highlights the need for coordinated efforts among stakeholders to improve water quality and infrastructure. It emphasizes the importance of leveraging existing data sharing infrastructures, evaluating, demonstrating, or installing new and emerging water technology, and ensuring that the programs meet specific requirements for eligibility.

The text also includes references to various acts and amendments, such as the Safe Drinking Water Act Amendments of 1996 and the National Water Pollution Control Act of 1972, which provide the legal framework for these initiatives.

Overall, the page outlines a comprehensive approach to improving water infrastructure and quality through collaborative and scalable pilot programs, while ensuring that these efforts are aligned with broader environmental justice goals.
(2) ELIGIBLE ENTITY.—The term ‘eligible entity’ means—

(A) a State, Tribal, or local government; or

(B) a local, regional, or other public entity that manages stormwater or wastewater resources or other related water infrastructure.

(3) ELIGIBLE INSTITUTION.—The term ‘eligible institution’ means—

(A) a nonprofit organization—

(i) that has demonstrated excellence in research and developing new and emerging stormwater control infrastructure technologies; and

(ii) with respect to a nonprofit organization, the core mission of which includes water management, as determined by the Administrator;

(b) CENTERS OF EXCELLENCE FOR STORMWATER CONTROL INFRASTRUCTURE TECHNOLOGIES.—

(I) ESTABLISHMENT OF CENTERS.—

(A) IN GENERAL.—Subject to the availability of appropriations, the Administrator shall provide grants, on a competitive basis, to eligible entities to establish and maintain not less than 3, and not more than 5, centers of excellence for new and emerging stormwater control infrastructure technologies, to be located in various regions throughout the United States.

(B) GENERAL OPERATION.—Each center shall—

(i) conduct research on new and emerging stormwater control infrastructure technologies that are relevant to the geographical region in which the center is located, including stormwater and sewer overflow reduction, other approaches to water resource enhancement, alternative funding approaches, and other environmental, economic, and social benefits, with the goal of improving the effectiveness, cost efficiency, and protection of public safety and water quality;

(ii) maintain a listing of—

(I) stormwater control infrastructure needs; and

(II) an analysis of new and emerging stormwater control infrastructure technologies that are available; and

(iii) analyze whether additional financial programs for the implementation of new and emerging, but proven, stormwater control infrastructure technologies would be useful;

(iv) provide information regarding research conducted under clause (i) to the national electronic clearinghouse center for publication on the Internet website established under paragraph (3)(A)(i) to provide to the Federal Government and State, Tribal, and local governments and the private sector information regarding new and emerging, but proven, stormwater control infrastructure technologies;

(v) provide technical assistance to State, Tribal, and local governments, and other stakeholders, in the geographical region in which the center is located; and

(vi) coordinate with the other centers to avoid duplication of efforts.

(2) APPLICATION.—To be eligible to receive a grant under this subsection, an eligible institution shall prepare and submit to the Administrator an application at such time, in such form, and containing such information as the Administrator may require, including, as applicable—

(A) a description of the stormwater control infrastructure project that incorporates new and emerging, but proven, technologies;

(B) a plan for monitoring the impacts and pollutant load reductions associated with the stormwater control infrastructure project on the water quality and quantity;

(C) an evaluation of other environmental, economic, and social benefits of the stormwater control infrastructure project; and

(D) a plan for the long-term operation and maintenance of the stormwater control infrastructure project and a tracking system, such as asset management practices.

(3) NATIONALELECTRONICCLEARINGHOUSE CENTER.—

(A) In general.—The Administrator may make implementation grants under this subsection for the following projects:

(i) Planning and designing stormwater control infrastructure projects that incorporate new and emerging, but proven, stormwater control technologies, including engineering surveys, landscape plans, maps, long-term operations and maintenance plans, and implementation plans.

(ii) Identifying and developing standards necessary to accommodate stormwater control infrastructure projects, including those projects that incorporate new and emerging, but proven, stormwater control technologies.

(iii) Identifying and developing fee structures to provide financial support for design, installation, and operations and maintenance of stormwater control infrastructure, including new and emerging, but proven, stormwater control infrastructure technologies.

(iv) Developing approaches for community-based public-private partnerships for the financing and construction of stormwater control infrastructure technologies, including feasibility studies, stakeholder outreach, and needs assessments.

(B) PLANNING AND DEVELOPMENT GRANTS.—

(I) Single grant.—The amount of a single planning and development grant provided under this subsection shall be not more than $2,000,000.

(ii) Aggregate amount.—The total amount of all planning and development grants provided under this subsection shall not exceed 80 percent of the total project cost.

(C) IMPLEMENTATION GRANTS.—

(I) Single grant.—The amount of a single implementation grant provided under this subsection shall be not more than $2,000,000.

(ii) Aggregate amount.—The total amount of all implementation grants provided under this subsection for a fiscal year shall be not more than 1/2 of the total amount made available to carry out this subsection.

(D) FEDERAL SHARE.—

(A) IN GENERAL.—Except as provided in subparagraph (C), the Federal share of a grant provided under this subsection shall exceed 80 percent of the total project cost.

(B) CREDIT FOR IMPLEMENTATION GRANTS.—

The Administrator shall credit toward the Federal share of funds for an implementation project carried out under this subsection the cost of planning, design, and construction work completed for the project using funds other than funds provided under this section.

(C) EXCEPT.—The Administrator may waive the Federal share limitation under subparagraph (A) for an eligible entity that has adequately demonstrated financial need.

(D) REPORT TO CONGRESS.—Not later than 2 years after the date on which the Administrator first awards a grant under this section, the Administrator shall submit to Congress a report that includes, with respect to the grants covered by this section—

(I) a description of all grants provided under this section;
(2) a detailed description of—
(A) the projects supported by those grants; and
(B) the outcomes of those projects;
(3) a description of the improvements in technology, environmental benefits, resources conserved, efficiencies, and other benefits of the projects funded under this section;
(4) recommendations for improvements to promote and support new and emerging, but proven, stormwater control infrastructure, including research into new and emerging technologies, for the centers, grants, and activities under this section; and
(5) a description of challenges concerning the use of new and emerging, but proven, stormwater control infrastructure.

(c) AUTHORIZATION OF APPROPRIATIONS.—
(1) There is authorized to be appropriated to carry out this section (except for subsection (b)) $10,000,000 for each of fiscal years 2022 through 2026.

(2) LIMITATION ON USE OF FUNDS.—Of the amounts made available for grants under paragraph (1), not more than 2 percent may be used to pay the administrative costs of the Administrator.

SEC. 218. WATER REUSE INTERAGENCY WORKING GROUP.

(a) In General.—Not later than 180 days after the date of enactment of this Act, the Administrator shall establish a Water Reuse Interagency Working Group (referred to in this section as the "Working Group").

(b) PURPOSE.—The purpose of the Working Group is to—
(1) obtain, develop, and coordinate actions, tools, and information to advance water reuse across the United States, including through the implementation of the February 2020 National Water Reuse Action Plan, which creates opportunities for water reuse in the mission areas of each of the Federal agencies included in the Working Group under subsection (c) (referred to in this section as the "Action Plan");

(c) CHAIRPERSON; MEMBERSHIP.—The Working Group shall—
(1) be chaired by the Administrator; and
(2) comprised of senior representatives from each Federal agency as the Administrator determines to be appropriate.

(d) DUTIES OF THE WORKING GROUP.—In carrying out this section, the Working Group shall—
(1) with respect to water reuse, leverage the expertise of industry, the research community, nongovernmental organizations, and government;

(2) to foster water reuse as an important component of integrated water resource management;

(3) conduct an assessment of new opportunities to advance water reuse and annually update the Action Plan with new actions, as necessary, to pursue those opportunities;

(4) seek to coordinate Federal programs and policies to support the adoption of water reuse;

(5) consider how each Federal agency can explore and identify opportunities to support reuse;

(6) consult, on a regular basis, with representatives of relevant industries, the research community, and nongovernmental organizations;

(e) REPORT.—Not less frequently than once every 2 years, the Administrator shall submit to the Congress a report describing the results of the study under subsection (a).

(f) SUNSET.—
(1) SEC. 609. CLEAN WATERSHEDS NEEDS SURVEY.

Title VI of the Federal Water Pollution Control Act (33 U.S.C. 1321 et seq.) is amended by striking "fiscal years 2007 through 2011" and inserting "fiscal years 2022 through 2025".

SEC. 220. CLEAN WATERSHEDS NEEDS SURVEY.

Title VI of the Federal Water Pollution Control Act (33 U.S.C. 1321 et seq.) is amended by striking "fiscal years 2007 through 2011" and inserting "fiscal years 2022 through 2025".

SEC. 222. ENHANCED AQUIFER USE AND RECHARGE.

Title I of the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) is amended by adding at the end the following:

"SEC. 124. ENHANCED AQUIFER USE AND RECHARGE.

(a) In General.—Subject to the availability of appropriations, the Administrator shall provide funding to carry out ground-water research on enhanced aquifer use and recharge in support of sole-source aquifers, of which—

(1) not less than 50 percent shall be used to provide 1 State, unit of local government, or Indian Tribe to carry out activities that would directly support that research; and

(2) the remainder shall be provided to 1 appropriate research center.

(b) COORDINATION.—As a condition of accepting funds under this section, the State, unit of local government, or Indian Tribe and the appropriate research center that receives funds under this subsection shall establish a collaborative relationship for the purpose of coordinating efforts under this section.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the Administrator to carry out this section $5,000,000 for each of fiscal years 2022 through 2026.

SEC. 223. CLEAN WATERSHEDS NEEDS SURVEY.

Title VI of the Federal Water Pollution Control Act (33 U.S.C. 1321 et seq.) is amended by striking "fiscal years 2007 through 2011" and inserting "fiscal years 2022 through 2025".

SEC. 224. ADDITIONAL APPROPRIATIONS WHERE RESEARCH FOCUSED ON WATER PROBLEMS OF DIVERSE NATURE.

Title I of the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) is amended by striking "fiscal years 2007 through 2011" and inserting "fiscal years 2022 through 2025".

SEC. 225. WATERSHEDS RESPONSE TO CONTAMINANTS.

Title VI of the Federal Water Pollution Control Act (33 U.S.C. 1321 et seq.) is amended by striking "fiscal years 2007 through 2011" and inserting "fiscal years 2022 through 2025".

SEC. 226. AUTHORIZATION OF APPROPRIATIONS.—

There is authorized to be appropriated to carry out this section $5,000,000 for each of fiscal years 2022 through 2026.
Section 1452 of the Safe Drinking Water Act (42 U.S.C. 300j–12) is amended—

(1) in subsection (a)(2)(G)—

(A) in clause (i), by striking “such underserved” and inserting “that”;

(B) by redesignating clause (iii) as clause (iv); and

(C) by inserting after clause (ii) the following:

“(III) USE OF FUNDS.—The recipient of a grant using amounts described in clause (i) may use the grant funds for projects and activities that address emerging contaminants, including—

(1) investments necessary for public water systems and users of underground sources of drinking water to comply with the requirements of this title;

(2) programs to provide household water quality testing, including testing for unregulated contaminants; and

(3) other investments and programs to address emerging contaminants.”;

(2) in subsection (t)—

(A) by striking paragraph (1) and inserting the following:

“(1) DISTRIBUTION.—

(A) IN GENERAL.—Amounts made available under this subsection shall be allotted to a State as a capitalization grant—

(i) in accordance with subparagraph (B); and

(ii) for deposit into the State loan fund of the Secretary of Agriculture; and

(B) ALLOTMENT.—The amounts described in subparagraph (A) shall be allotted to a State—

(i) for each of fiscal years 2022 and 2023, as if allotted under subsection (a)(1)(D); and

(ii) for each of fiscal years 2024 through 2030, in accordance with the regulations promulgated under subparagraph (C).

(C) RULEMAKING.—Not later than 2 years after the date of enactment of this section, the Administrator shall promulgate regulations for the distribution of amounts described in subparagraph (A) among States in a manner that accounts for the prevalence and remedial costs of addressing emerging contaminants, with a focus on perfluoroalkyl and polyfluoroalkyl substances; and

(B) by striking “this paragraph” and all that follows through the period at the end and inserting the following:

“this subsection, to remain available until expended.”;

“(A) for fiscal year 2022—

(i) $1,000,000,000; and

(ii) any additional amount as may be designated by Congress as being for an emergency requirement pursuant to section 251(b)(2)(A)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901(b)(2)(A)(i)); and

(B) for each of fiscal years 2023 through 2030, $1,000,000,000.”.

There are authorized to be appropriated to carry out this section—

(1) for fiscal year 2022—

(A) $1,000,000,000; and

(B) any additional amount as may be designated by Congress as being for an emergency requirement pursuant to section 251(b)(2)(A)(i) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901(b)(2)(A)(i)); and

(2) for each of fiscal years 2023 through 2030, $1,000,000,000.”

Mrs. SHAHEEN (for herself and Mr. TILLIS) submitted an amendment intended to be proposed by her to the bill S. 914, to amend the Safe Drinking Water Act and the Federal Water Pollution Control Act to reauthorize programs under those Acts, and for other purposes; which was ordered to lie on the table; as follows:

TITLES III—PROVIDING FINANCIAL ASSISTANCE TO STATES FOR TESTING AND TREATMENT

SEC. 301. REMEDIATION OF PERFLUOROALKYL AND POLYFLUOROALKYL SUBSTANCES AND OTHEREmerging Contaminants in Drinking Water.

Section 1452 of the Safe Drinking Water Act (42 U.S.C. 300j–12) is amended—

(1) by redesignating section 520 (33 U.S.C. 1251 note) as section 521; and

(2) by inserting after section 519 (33 U.S.C. 1377a) the following:

“SEC. 520. REMEDIATION OF CONTAMINATION OF GROUNDWATER BY PERFLUOROALKYL SUBSTANCES.

(a) DEFINITIONS.—In this section:

(1) CONTAMINATED SITE.—The term ‘contaminated site’ means a site at which groundwater has been contaminated by a covered perfluoroalkyl substance.

(2) COVERED PERFLUOROALKYL SUBSTANCE.—The term ‘covered perfluoroalkyl substance’ means—

(A) perfluorooctanoic acid (commonly referred to as ‘PFOA’) (Chemical Abstracts Service No. 335–67–1);

(B) the salts associated with the chemical described in subparagraph (A) (Chemical Abstracts Service Nos. 3625–26–1, 335–95–5, and 68141–02–6);

(C) perfluorooctane sulfonic acid or sulfonate (commonly referred to as ‘PFOS’) (Chemical Abstracts Service No. 1763–23–1); and

(D) the salts associated with the chemical described in subparagraph (C) (Chemical Abstracts Service Nos. 2795–39–3, 29457–72–5, 56773–42–3, 62441–14–8).

(3) REMEDIATION.—Subject to subsections (c) and (d), the Administrator shall provide grants to States to address contamination of groundwater by covered perfluoroalkyl substances at contaminated sites.

(b) DISTRIBUTION.—

(1) IN GENERAL.—The Administrator shall ensure that funds made available to carry out this section are distributed to each State—

(A) for each of fiscal years 2022 and 2023, in such a manner that the total grant amount received by a State under this section is equivalent to the ratio that—

(i) the amount of the capitalization grant under title VI to the State in the last fiscal year in which capitalization grants were made; bears to

(ii) the amount of capitalization grants under title VI to all States in the last fiscal year in which capitalization grants were made; and

(B) for each of fiscal years 2024 through 2030, in accordance with the regulations promulgated under paragraph (2).

(2) RULEMAKING.—Not later than 2 years after the date of enactment of this section, the Administrator shall promulgate regulations for the distribution of amounts made available to carry out this section—

(A) in accordance with subparagraph (B); and

(B) to provide the financial stability of the eligible entity receives the benefit resulting from the reduction or elimination of the fee.

(c) LEVEL OF ASSISTANCE.—The Secretary may provide assistance to an eligible entity under subsection (b) as the Secretary determines is necessary—

(1) to ensure that the eligible entity has the necessary resources to maintain public health, safety, or order;

(2) to address financial hardships of the eligible entity due to the COVID–19 public health emergency; or

(3) to promote the financial stability of the eligible entity.
SEC. 105. COMPREHENSIVE LEAD SERVICE LINE REPLACEMENT.

(a) In general.—Section 118 of the Internal Revenue Code of 1986 is amended—

(1) by redesignating subsection (d) as subsection (e), and

(2) by striking subsections (b) and (c) and inserting in lieu thereof—

"(b) CONTRIBUTIONS IN AID OF CONSTRUCTION, ETC.—For purposes of subsection (a), except as provided in subsection (c), the term 'contribution to the capital of the taxpayer' does not include any contribution in aid of construction or any other contribution as a customer or potential customer.

"(c) SPECIAL RULES FOR WATER AND SEWERAGE DISPOSAL UTILITIES.—

"(1) GENERAL RULE.—For purposes of this section, 'contribution to the capital of the taxpayer' includes any amount of money or other property received from any person (whether or not a shareholder) by a regular utility service which provides water or sewerage disposal services if—

"(A) such amount is a contribution in aid of construction,

"(B) in the case of contribution of property other than water or sewerage disposal facilities, such amount meets the requirements of the expenditure rule of paragraph (2), and

"(C) such amount (or any property acquired or constructed with such amount) is not included in the taxpayer's rate base for ratemaking purposes.

"(2) EXPENDITURE RULE.—An amount meets the requirements of this paragraph if—

"(A) an amount equal to such amount is expended for the acquisition or construction of tangible property described in section 1221(b)—

"(i) which is the property for which the contribution was authorized or is of the same type as such property, and

"(ii) which is used predominantly in the trade or business of furnishing water or sewerage disposal services.

"(B) the expenditure referred to in subparagraph (A) occurs before the end of the second taxable year after the year in which such amount was received.

"(C) accurate records are kept of the amounts contributed and expenditures made, the expenditures to which contributions are allocated, and the year in which the contributions and expenditures are received and made.

"(3) DEFINITIONS.—For purposes of this subsection—

"(A) CONTRIBUTION IN AID OF CONSTRUCTION.—The term 'contribution in aid of construction' means any contribution by regulations prescribed by the Secretary, except that such term shall not include amounts paid as service charges for starting or stopping services.

"(B) PREDOMINANTLY.—The term 'predominantly' means 80 percent or more.

"(C) REGULATED PUBLIC UTILITY.—The term 'regulated public utility' means—

"(i) a regulated public utility which provides water or sewerage disposal services if—

"(I) the expenditure referred to in subparagraph (A) of subsection (b) of section 7701(a)(33), except that such term shall not include any utility which is not required to provide water or sewerage disposal services to members of the general public in its service area.

"(II) the owner of the property contributed or constructed with such amount is regulated by the appropriate State agency.

"(ii) an eligible entity, as defined in section 197(g)(2)(C), through the expenditure rule of paragraph (2), and

"(iii) an amount (or any property acquired or constructed with such amount) is not included in the taxpayer's rate base for ratemaking purposes.

"(D) USE OF ASSISTANCE.—An eligible entity to which assistance is provided under subsection (b) may use the assistance—

"(i) for any purpose for which the eligible entity is eligible for assistance under the relevant provision of law referred to in subsection (a)(1); or

"(ii) for any direct operational expenses incurred by the eligible entity, as determined by the Secretary.

"(E) APPROPRIATION.—In any case where the Secretary is notified by the taxpayer (in such manner as the Secretary may prescribe) of—

"(1) the amount of the expenditure referred to in subparagraph (A) of subsection (b)(2), and

"(B) the taxpayer's intention not to make the expenditures referred to in such subparagraph, or

"(C) a failure to make such expenditure within the period described in subparagraph (B) of subsection (c)(2), then—

"(i) the statutory period for the assessment of any deficiency attributable to any part of such amount shall not expire before the expiration of 3 years from the date the Secretary is notified by the taxpayer (in such manner as the Secretary may prescribe) of—

"(A) the amount of the expenditure referred to in subparagraph (A) of subsection (b)(2), and

"(B) the taxpayer's intention not to make the expenditures referred to in such subparagraph, or

"(ii) whether the lead service line is publically owned or privately owned; and

"(iii) whether the lead service line is publically owned or privately owned; and

"(B) without requiring a contribution to the cost of replacement of any portion of the lead service line by any individual home owner.

"(2) PRIORITY.—In awarding grants under paragraph (1), the Administrator shall give priority to eligible entities that serve disadvantaged communities (as determined under subsection (b)(3)(A)).

"(3) NO COST-SHARE.—The Administrator shall not impose any cost-sharing requirements on an eligible entity receiving a grant under paragraph (1).

SA 1465. Mr. PADILLA submitted an amendment intended to be proposed by him to the bill S. 914, to amend the Safe Drinking Water Act and the Federal Water Pollution Control Act to reauthorize programs under those Acts, and for other purposes; which was ordered to lie on the table; as follows:

In section 309(d), strike subparagraph (B) and insert the following:

"(B) in paragraph (1), by inserting "construction" before "funds";

"(B) by striking paragraph (2); and

"(B) by striking paragraph (3) as paragraph (2);

SA 1466. Mr. KENNEDY submitted an amendment intended to be proposed to amendment SA 1460 proposed by Mr. CARPER (for himself and Mrs. CAPITO) to the bill S. 914, to amend the Safe Drinking Water Act and the Federal Water Pollution Control Act to reauthorize programs under those Acts, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. 106. DEPLETION RATES OF FRESHWATER AQUIFERS.

Not later than 18 months after the date of enactment of this Act, the Administrator shall submit to Congress a report describing the results of a study analyzing—
(1) the depletion rate of freshwater aquifers as a result of overuse of those aquifers by public water systems (as defined in section 1401 of the Safe Drinking Water Act (42 U.S.C. 300f)); and
(2) the likelihood and results of saltwater intrusion into freshwater aquifers due to the overuse described in paragraph (1).

SA 1469. Mr. KENNEDY submitted an amendment intended to be proposed to amendment SA 1460 proposed by Mr. CARPER for himself and Mrs. CAPITO to the bill S. 914, to amend the Safe Drinking Water Act and the Federal Water Pollution Control Act to reauthorize programs under those Acts, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. 1. ANNUAL STUDY ON BOIL WATER ADVISORIES.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, and annually thereafter, the Administrator shall conduct a study on the prevalence of boil water advisories issued in the United States.

(b) REPORT.—

(1) IN GENERAL.—The Administrator shall submit to Congress a report describing the results of the most recent study conducted under subsection (a) as part of the annual budget request transmitted to Congress under section 1105(a) of title 31, United States Code.

(2) REQUIREMENT.—In the annual report required under paragraph (1), the Administrator shall include a description of the reasons for which boil water advisories were issued during the year covered by the report.

SA 1470. Mr. KENNEDY submitted an amendment intended to be proposed to amendment SA 1460 proposed by Mr. CARPER for himself and Mrs. CAPITO to the bill S. 914, to amend the Safe Drinking Water Act and the Federal Water Pollution Control Act to reauthorize programs under those Acts, and for other purposes; which was ordered to lie on the table; as follows:

At the end of section 102, add the following:

(c) ALLOTMENT REQUIREMENT.—Section 1452(m) of the Safe Drinking Water Act (42 U.S.C. 300j–12(m)) is amended by adding at the end the following:

"(3) REQUIREMENT.—Notwithstanding any other provision of law, of the amounts made available under paragraph (1) for capitalization grants to State loan funds, the Administrator shall use 5 percent to make capitalization grants to States in which the majority of public water systems are at least 50 years in age for the purpose of modernizing those public water systems.".

AUTHORITY FOR COMMITTEES TO MEET

Mr. BENNET. Mr. President, I have 13 requests for committees to meet during today’s session of the Senate. They have the approval of the Majority and Minority leaders.

Pursuant to rule XXVI, paragraph 5(a), of the Standing Rules of the Senate, the following committees are authorized to meet during today’s session of the Senate:

COMMITTEE ON ARMED SERVICES

The Subcommittee on Federal Spending Oversight and Emergency Manage-
CONGRESSIONAL RECORD — SENATE  April 27, 2021

The resolution (S. Res. 180) was agreed to.

Ms. DUCKWORTH. I ask unanimous consent that the preamble be agreed to and that the motions to reconsider be considered made and laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The preamble was agreed to.

The resolution, with its preamble, is printed in today’s RECORD under “Submitted Resolutions.”

CONSIDER TEACHERS ACT OF 2021

Ms. DUCKWORTH. Madam President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be discharged from further consideration of S. 848 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. The clerk will report the bill by title.

The senior assistant legislative clerk read as follows:

A bill (S. 848) to amend the Higher Education Act of 1965 (20 U.S.C. 1070g–2) is amended—

section 420N of the Higher Education Act of 1965 (20 U.S.C. 1070g–2), during a qualifying emergency," for "as approved by the Chief Administrative Officer of the school in accordance with subsection (d)(5); and

"(II) the number of full academic years of qualifying teaching completed during the period when the TEACH Grant was in loan status; and

"(ii) treat any full academic years of teaching described in clause (i)(D) as years toward fulfillment of the service obligation (regardless of whether the TEACH Grant funds were in grant or loan status) if that time otherwise meets the requirements of subsection (d)(1); and

"(3) in subsection (d), by adding at the end the following:

"(4) QUALIFYING SCHOOLS AND HIGH-NEED FIELDS.—The Secretary shall maintain and annually update a list of qualifying schools as described in subsection (b)(1)(C), and a list of high-need fields as described in subsection (b)(1)(C) and shall make such lists publicly available on the Department’s website in a sortable and searchable format.”.

SEC. 3. SUBMISSION OF EMPLOYMENT CERTIFICATION.

Section 420N(d) of the Higher Education Act of 1965 (20 U.S.C. 1070g–2(d)), as amended by section 2, is further amended by adding at the end the following:

"(3) COMMUNICATION WITH RECIPIENTS.—The Secretary shall notify TEACH Grant recipients that the Department recommends that TEACH Grant recipients submit the employment certification described in subsection (b)(1)(B) as soon as possible after the completion of each year of service.

"(B) REQUIRED SUBMISSION.—A TEACH Grant recipient shall be required to submit to the Department employment certification within the timeframe that would allow that individual to complete their service obligation before the end of the service obligation window.

"(C) NOTIFICATION.—The Secretary shall notify TEACH Grant recipients of the required submission deadlines described in this paragraph.

"(D) ADJUSTMENT OF DEADLINE.—The Secretary shall adjust the submission deadline described in subparagraph (B) to account for a service obligation window extension if the Secretary deems it necessary.

"(E) ALTERNATIVE TO CERTIFICATION.—The Secretary shall provide an alternative to the certification of employment described in subsection (b)(1)(B) for an individual who cannot obtain such required certification of employment from the chief administrative officer of the school because the recipient can demonstrate the school is no longer in existence or the school refuses to cooperate.”.

SEC. 4. EXTENSION OF TIME TO FULLFILL SERVICE OBLIGATION DUE TO COVID-19.

(a) Section 313(a) of the CARES Act (Public Law 116-136; 20 U.S.C. 1001 note) is amended—

"(1) in the matter preceding paragraph (1), by striking ‘‘For the purpose of section 420N of the Higher Education Act of 1965 (20 U.S.C. 1070g–2), during a qualifying emergency,’’ and inserting ‘‘Notwithstanding any provision of section 10 of title IV of the Higher Education Act of 1965 (20 U.S.C. 1070g et seq.),’’;

"(2) in paragraph (1), by striking ‘‘and’’ after the semicolon; and

"(3) in paragraph (2), by striking ‘‘such section 420N,’’ and inserting ‘‘section 420N of such Act,’’ and;

"(4) at the end adding the following: 

"(II) the number of full academic years of qualifying teaching completed during the period when the TEACH Grant was in loan status; and

"(D) ADJUSTMENT OF DEADLINE.—The Secretary shall adjust the submission deadline described in subparagraph (B) to account for a service obligation window extension if the Secretary deems it necessary.

"(E) ALTERNATIVE TO CERTIFICATION.—The Secretary shall provide an alternative to the certification of employment described in subsection (b)(1)(B) for an individual who cannot obtain such required certification of employment from the chief administrative officer of the school because the recipient can demonstrate the school is no longer in existence or the school refuses to cooperate.”.

"(2) in paragraph (1), by striking ‘‘and’’ after the semicolon; and

"(3) in paragraph (2), by striking ‘‘such section 420N,’’ and inserting ‘‘section 420N of such Act,’’ and;

"(4) at the end adding the following: 

"(II) the number of full academic years of qualifying teaching completed during the period when the TEACH Grant was in loan status; and

"(ii) treat any full academic years of teaching described in clause (i)(D) as years toward fulfillment of the service obligation (regardless of whether the TEACH Grant funds were in grant or loan status) if that time otherwise meets the requirements of subsection (d)(1); and

"(3) in subsection (d), by adding at the end the following:

"(4) QUALIFYING SCHOOLS AND HIGH-NEED FIELDS.—The Secretary shall maintain and annually update a list of qualifying schools as described in subsection (b)(1)(C), and a list of high-need fields as described in subsection (b)(1)(C) and shall make such lists publicly available on the Department’s website in a sortable and searchable format.”.

SEC. 3. SUBMISSION OF EMPLOYMENT CERTIFICATION.

Section 420N(d) of the Higher Education Act of 1965 (20 U.S.C. 1070g–2(d)), as amended by section 2, is further amended by adding at the end the following:

"(3) COMMUNICATION WITH RECIPIENTS.—The Secretary shall notify TEACH Grant recipients that the Department recommends that TEACH Grant recipients submit the employment certification described in subsection (b)(1)(B) as soon as possible after the completion of each year of service.

"(B) REQUIRED SUBMISSION.—A TEACH Grant recipient shall be required to submit to the Department employment certification within the timeframe that would allow that individual to complete their service obligation before the end of the service obligation window.

"(C) NOTIFICATION.—The Secretary shall notify TEACH Grant recipients of the required submission deadlines described in this paragraph.

"(D) ADJUSTMENT OF DEADLINE.—The Secretary shall adjust the submission deadline described in subparagraph (B) to account for a service obligation window extension if the Secretary deems it necessary.

"(E) ALTERNATIVE TO CERTIFICATION.—The Secretary shall provide an alternative to the certification of employment described in subsection (b)(1)(B) for an individual who cannot obtain such required certification of employment from the chief administrative officer of the school because the recipient can demonstrate the school is no longer in existence or the school refuses to cooperate.”.

"(2) in paragraph (1), by striking ‘‘and’’ after the semicolon; and

"(3) in paragraph (2), by striking ‘‘such section 420N,’’ and inserting ‘‘section 420N of such Act,’’ and;

"(4) at the end adding the following:

"(II) the number of full academic years of qualifying teaching completed during the period when the TEACH Grant was in loan status; and

"(ii) treat any full academic years of teaching described in clause (i)(D) as years toward fulfillment of the service obligation (regardless of whether the TEACH Grant funds were in grant or loan status) if that time otherwise meets the requirements of subsection (d)(1); and

"(3) in subsection (d), by adding at the end the following:

"(4) QUALIFYING SCHOOLS AND HIGH-NEED FIELDS.—The Secretary shall maintain and annually update a list of qualifying schools as described in subsection (b)(1)(C), and a list of high-need fields as described in subsection (b)(1)(C) and shall make such lists publicly available on the Department’s website in a sortable and searchable format.”.

SEC. 3. SUBMISSION OF EMPLOYMENT CERTIFICATION.

Section 420N(d) of the Higher Education Act of 1965 (20 U.S.C. 1070g–2(d)), as amended by section 2, is further amended by adding at the end the following:

"(3) COMMUNICATION WITH RECIPIENTS.—The Secretary shall notify TEACH Grant recipients that the Department recommends that TEACH Grant recipients submit the employment certification described in subsection (b)(1)(B) as soon as possible after the completion of each year of service.

"(B) REQUIRED SUBMISSION.—A TEACH Grant recipient shall be required to submit to the Department employment certification within the timeframe that would allow that individual to complete their service obligation before the end of the service obligation window.

"(C) NOTIFICATION.—The Secretary shall notify TEACH Grant recipients of the required submission deadlines described in this paragraph.

"(D) ADJUSTMENT OF DEADLINE.—The Secretary shall adjust the submission deadline described in subparagraph (B) to account for a service obligation window extension if the Secretary deems it necessary.

"(E) ALTERNATIVE TO CERTIFICATION.—The Secretary shall provide an alternative to the certification of employment described in subsection (b)(1)(B) for an individual who cannot obtain such required certification of employment from the chief administrative officer of the school because the recipient can demonstrate the school is no longer in existence or the school refuses to cooperate.”.

"(2) in paragraph (1), by striking ‘‘and’’ after the semicolon; and

"(3) in paragraph (2), by striking ‘‘such section 420N,’’ and inserting ‘‘section 420N of such Act,’’ and;

"(4) at the end adding the following:

"(II) the number of full academic years of qualifying teaching completed during the period when the TEACH Grant was in loan status; and

"(ii) treat any full academic years of teaching described in clause (i)(D) as years toward fulfillment of the service obligation (regardless of whether the TEACH Grant funds were in grant or loan status) if that time otherwise meets the requirements of subsection (d)(1); and

"(3) in subsection (d), by adding at the end the following:

"(4) QUALIFYING SCHOOLS AND HIGH-NEED FIELDS.—The Secretary shall maintain and annually update a list of qualifying schools as described in subsection (b)(1)(C), and a list of high-need fields as described in subsection (b)(1)(C) and shall make such lists publicly available on the Department’s website in a sortable and searchable format.”.
Ms. DUCKWORTH. Madam President, if there is no further business to come before the Senate, I ask unanimous consent that I stand adjourned under the previous order.

There being no objection, the Senate, at 7:10 p.m., adjourned until Wednesday, April 28, 2021, at 10 a.m.
