PROCEEDINGS AND DEBATES OF THE 117<sup>th</sup> CONGRESS, FIRST SESSION

Vol. 167

WASHINGTON, WEDNESDAY, MAY 19, 2021

No. 87

## House of Representatives

The House met at 10 a.m. and was called to order by the Speaker.

### ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair wishes to remind all Members about certain standards of decorum in the Hall of the House. Members are reminded that the announced policies of January 4, 2021, as updated on May 11, remain in effect with respect to the wearing of masks.

The Chair will reiterate that Members and staff are currently required to wear masks at all times in the Hall of the House except when a Member has been recognized by the Chair or when a Member acting as Chair is speaking.

The Chair reminds Members that the House is following the guidance of the Attending Physician, who has stated that the present mask requirement and other guidelines remain unchanged in the Hall of the House until all Members and floor staff are fully vaccinated. The Chair also informs Members that the Attending Physician's guidance is consistent with the Centers for Disease Control guidelines.

Members are further reminded that under House Resolution 38 the Sergeant at Arms is authorized and directed to impose a fine against any Member acting in violation of these policies.

The Chair expects Members to conduct themselves with appropriate decorum in the House Chamber at all times. That includes proper attire, behavior that is respectful of other Members and of staff, and adherence to mask requirements and other safety protocols intended to protect all of those present in the Hall of the House. To follow these basic standards of practice is to facilitate an atmosphere of respect for each other and for this institution.

The Chair appreciates the attention of the Members to these matters.

### MORNING-HOUR DEBATE

The SPEAKER. Pursuant to the order of the House of January 4, 2021, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with time equally allocated between the parties and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes, but in no event shall debate continue beyond 11:50 a.m.

### INFLATION TAX

The SPEAKER. The Chair recognizes the gentleman from California (Mr. MCCLINTOCK) for 5 minutes.

Mr. MCCLINTOCK. Madam Speaker, when the Democrats passed Mr. Biden's \$1.9 trillion spending spree in March, a lot of people got a lot of free money, thousands of dollars in many cases. But the bill is already coming due for that free money, and as many of us warned, it turns out that free money is very expensive.

Indeed, it turns out that the very same families most harmed by the lockdowns will be the most harmed by paying the bill for the lockdown relief. It comes to about \$15,000 for an average family, and the first installment is reflected in the rising inflation sapping the purchasing power of working families.

Government cannot put a single dollar into the economy that is not first taken out of the same economy. When government spends a dollar for you, it has already decided to take a dollar from you. And it can only be taken back in three ways: from your current earnings through higher taxes, from your future earnings through borrowing, and from your savings and purchasing power through inflation. There is no other way to pay for every dollar

that government spends. Inflation is the most insidious of these taxes because it silently hollows out everything that a family labors to achieve.

Anyone who has gone near a gas station or a grocery store in the last few months can now see where their relief checks came from and how they are going to be paid back. The Democrats shut down productivity with their lockdowns, and then they flooded the economy with dollars. More dollars chasing fewer goods is the classic recipe for inflation. And this is just the first installment of the bill already coming due for the left's reckless spending.

The Consumer Price Index increased 4.2 percent in April. It was 2.6 percent in March, and it is 4.2 percent now. Core inflation is already growing faster than at any time since the end of the Carter administration.

Now, what does that mean, exactly? Well, it means that if you have managed to save \$100,000 for your retirement, the government has just taken out \$4,200 of it because your savings are now worth that much less. Your balance hasn't declined, but its purchasing power has lost \$4,200.

Check your grocery bill or your utility bill. How much more are you spending to put food on the table or heat your home? There are other bad policies at work as well—green energy, for example—but a big part of that difference is your inflation tax, paid directly from the reduced purchasing power of your money. And that is true of everything you buy.

It doesn't stop there. The Democrats are promising a massive increase in corporate taxes while assuring the gullible not to worry, that only the corporations will pay it. But corporations don't pay corporate taxes; you do. You pay them as a consumer through higher prices. You pay them as an employee through lower wages. And you pay them as an investor through lower

earnings—your 401(k), for example. There is no other way that a corporate tax can be paid. And the resulting reduction in productivity will further feed their inflation tax.

The Democrats' sick joke is this: Everything that the government has handed out to your family is already being taken back from your family through higher prices, and that pain is only beginning.

What makes the Democrats think that socialism will work any better here than every other country that has tried it? It consistently produces shortages, unemployment, inflation, poverty, and malaise wherever it is imposed. And I am afraid we will continue down this dismal path until Americans awaken to the simple economic realities that the Democratic socialists have now unleashed upon our country.

In his inaugural address, Thomas Jefferson surveyed the boundless bounties of our Nation and asked: "With all these blessings, what more is necessary to make us a happy and a prosperous people? Still one thing more, fellow citizens: a wise and frugal government, which shall restrain men from injuring one another, shall leave them otherwise free to regulate their own pursuits of industry and improvement, and shall not take from the mouth of labor the bread it has earned. This is the sum of good government."

Madam Speaker, Americans deserve a wise and frugal government. But it is not enough to deserve it. We have to demand it at the ballot box.

#### SUPPORT THE PRESIDENT'S TAX PLAN

The SPEAKER pro tempore (Mrs. DEMINGS). The Chair recognizes the gentleman from California (Mr. KHANNA) for 5 minutes.

Mr. KHANNA. Madam Speaker, I rise today to talk about President Biden's tax plan with some basic facts.

President Biden proposes no tax increases on 99 percent of Americans. This chart illustrates that, with 154 million Americans, not a single American in the 99 percent is going to pay a dime more.

In fact, they are getting a tax cut. We are giving them a tax cut with the child tax credit. We are giving them a tax cut with the earned income tax credit.

So the obfuscation on the other side to convince 99 percent of Americans that somehow their taxes are going to go up when President Biden is delivering a tax cut for them is just factually false.

What does this mean? If you work in manufacturing, if you are a nurse, if you are a teacher, if you are a doctor, if you are a lawyer, most likely, your taxes aren't going up. For the 99 percent—not just in the working class, but in the middle class, in the upper middle class—your taxes are not going up. They are going down.

In fact, the President has extended Trump's tax cut for those who are making under \$75,000.

It is important we get those facts, and I want the American people to look at this chart. If you really fall in that sliver of the top 1 percent, your taxes are going up. If you are everyone else in the 99 percent, your taxes aren't going up. They are going down, in most cases.

So, people wonder how, in a democracy, we wouldn't want this. How wouldn't we want those who are going to make the most in the tiny 1 percent, why wouldn't the 99 percent want them to pay a little bit more? It turns out that the top 1 percent—and let's just be clear, if you make over \$538,000, you are in that top 1 percent. I personally don't know a lot of doctors or lawyers or others who are making more than \$538,000 a year.

But if you are in that 1 percent, you have made \$4.8 trillion over this pandemic—\$4.8 trillion. And the over 600 billionaires, they have made \$1.6 trillion over the pandemic.

I know that because a lot of them are in my district. We have had the digitization of the economy. They are making a lot of money. Some of them are brilliant. Guess what they told me? They can afford to pay a little more.

Do you know what the market cap of companies in my district is? It is \$10 trillion in Silicon Valley. That is more than the GDP of Russia. It is more than the GDP of most countries.

I laugh when people say this tag of socialism. My district is producing the most wealth in the world. The people there who say we want to pay a little bit more aren't socialists. They are wealth generators.

But here is what they know: They fall into this 1 percent, and they are saying we have made trillions of dollars. We have made billions of dollars. We would like to pay a little bit more so everyone can have healthcare, education, and nutrition in this country, and we are fine with other people in the working and middle class getting a tax cut.

That is the President's policy. It is a policy of helping working-class Americans, middle-class Americans, upper-middle-class Americans, and asking those who have done well to do a little bit more for our country.

It is a policy against inherited wealth because we are Americans. We don't believe in feudal estates. We don't believe what the law is right now, that if you buy \$1 million of Facebook stock and that becomes \$10 million and if you want to give it to your kids, that your kids don't have to pay tax on the appreciation of \$9 million. We don't think that is right. We don't think you should be able to transfer wealth without paying any tax.

That is not the American way. That is what they used to do in old Europe's feudal estates, passing wealth generation to generation. That is the party of aristocracy, and that is what the Republicans would have you believe.

We are the party of free markets, free enterprise, and new entrepreneurs. We

are the party of economic growth for everyone. We are not the party of dynastic wealth.

If you believe that everyone should have a shot in the free market economy, that you should have economic growth for everyone and opportunity for everyone, if you are against dynastic wealth, if you believe those who have made \$4.8 trillion can pay a little bit more and you can have tax cuts for the working class and middle class, you should support President Biden's tax plan.

#### BORDER CRISIS IS GETTING WORSE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. TONY GONZALES) for 5 minutes.

Mr. TONY GONZALES of Texas. Madam Speaker, I rise today to highlight the crisis that is happening on our southern border.

My district, Texas 23, represents 820 miles of the Texas and Mexico border. That is 40 percent of our southern border.

Madam Speaker, the Biden border crisis is as bad as it has ever been, and it is only getting worse. Over 20,000 unaccompanied children have entered into our country, and that number is only rising.

These children don't have a voice. These children aren't represented. These children are nothing more than a stat on a paper, and that is wrong.

On Mother's Day weekend, of all days, these five young girls, babies, essentially, were found abandoned on a ranch in Texas.

□ 1015

Well, today, I am here to talk about their story and give them a voice.

Two of these girls, Ashley, who is 5 years old, and her sister, Valeria, who is 11 months old, are from Guatemala. Two of the other girls, Nasley, who is 7, and Cristal, who is 4, are from Honduras. They happen to be related. They are cousins.

As they have made this trek to America, they were dumped on a farm in Texas with no water and no food. The oldest of them is 7 years old. Imagine that you are 7 years old, and your responsibility is to take care of your younger sister that is 4 and take care and ensure that your cousins, who are 5 and 11 months, not only are okay, but survive the night. That is wrong on all accounts.

I want to tell a little bit more about this story. Sandra is the mother of Nasley and Cristal. Sandra has attempted to make this trek many times, and, unfortunately, she was turned around at the border several times.

So she goes off and she gives her children to smugglers. Why? Because she is desperate. The situation at our southern border is desperate, and we need to act now. We need to reform immigration, and we need to secure our southern border; not only for these young ladies here, but for all children who are

making that dangerous trek, and for all people who live along the border and see this every single day.

What is happening with these girls? They get put in HHS and then get released. Guess where they are going. They are going to Houston, Texas, to try to be reunited with a family member.

All cities of the United States are border cities. All States of the United States are border States. This crisis has continued to spiral out of control, and we, here in Congress, as well as the administration, must come together and reform immigration and secure our southern border.

#### RESPONDING TO CYBERATTACKS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Connecticut (Mr. HIMES) for 5 minutes.

Mr. HIMES. Madam Speaker, as I rise, gasoline is once again flowing through the Colonial Pipeline, and we are getting ready to undertake our routine briefs—those of us who sit on the Intelligence Committee and the Committee on Homeland Security—of this week's cyberattacks. Many of them will have come from Russia, from China, from North Korea, from Iran, or from some shadowy criminal group, which is often sheltered or at least tolerated by one of these countries. Many will have succeeded in stealing critical data or penetrating essential networks. Only a few, like the recent attacks on the Colonial Pipeline, will ever become publicly known.

There is a long list of things that we must do to stop these attacks. We should require private companies to tell the public, or at least the government, when these attacks occur. We should make sure that experts in places like the NSA and the FBI are working side-by-side with network operators to address these attacks, and we should have a clear policy on the payment of ransom to ransomware attacks.

But at the very top of the list is the need to fundamentally change the game by establishing a sure and swift deterrence.

Time and again, we do too little, too late.

Five years ago, President Obama responded to the Russian attack on our 2016 election, the very essence of our democracy, with the expulsion of 35 so-called Russian diplomats and the closing of a few secondary Russian facilities, and he told Putin to "cut it out." Putin barely felt the slap on the wrist.

We know that, because fewer than 4 years later, a Russian intelligence agency used a supply chain attack on Microsoft and SolarWinds to penetrate thousands of networks, including those of the Federal Government. In response, the United States—you guessed it—expelled some Russian diplomats.

For the bad guys, the cost of doing business is very low indeed.

It is time to strike back using our unparalleled offensive cyber capabilities

ties with the ferocity and precision and, yes, the proportionality that these and many other cyberattacks would have provoked had they been undertaken kinetically.

Let's hurl the full weight of the American legal, diplomatic, and cyber capabilities against DarkSide and the organizations or countries that assisted it. There is no reason why our immense power, if applied, can't result in jailed hackers, businesses sanctioned into bankruptcy, emptied bank accounts, and melted computers.

The same goes for Putin, who draws no formal distinction between the Kremlin and the private groups who supply it with propaganda, mercenaries, and hacking services. Putin respects only the Machiavellian language of force and retribution. For him, all else is tactical. So let's demonstrate the cyber capabilities we have spent billions of dollars developing. Let's make sure that he and the oligarchs who support him feel the fear and anxiety felt by millions of Americans contemplating crashed email systems and gasoline lines down the street.

The objection to my arguments has always been consistent: that as a highly networked nation, we are particularly vulnerable to a cyber tit-for-tat. In a cyber exchange, the Russians, the Chinese, or the Iranians might choose to attack our critical infrastructure, like, say, a gasoline pipeline. Yes, there is risk, but that risk must be weighed against the fully unacceptable status quo.

Hitting back isn't the only answer. It is part of the answer. In this new world, a credible deterrent must be combined with clearly articulated international rules, norms, and an understanding of our national doctrines: all the things that helped keep the Cold War with the Soviets from becoming hot.

Above all else, however, it is time to change the game and impose the meaningful costs that will finally deter our adversaries. Until we do, we are all just waiting for the next Colonial Pipeline attack.

#### GETTING AMERICANS BACK TO WORK

The SPEAKER pro tempore. The Chair recognizes the gentleman from Texas (Mr. NEHLS) for 5 minutes.

Mr. NEHLS. Madam Speaker, I stand here today after speaking with business owners across my district and the country. I have heard story after story of businesses struggling to get entry-level, minimum-wage workers back to work. Why is that? Because they are actually having to compete, not against COVID or lockdowns, but against the Federal Government to get employees back to work.

In my home State of Texas, you can make up to \$535 in unemployment insurance, but add in the additional \$300 per week payments that came from Federal COVID relief, and that is \$835

per week not to work. That equates to nearly \$21 an hour. That is exactly why Texas and 20 other States have opted out of Federal COVID unemployment insurance benefits. But there are still States where business owners are being forced to compete against the Federal Government for employees.

My own brother, Tyler, who owns a construction company in Wisconsin, told me business has picked up for him. What a blessing. Now, he is trying to hire additional employees to grow his business. He has just got one problem: Folks are telling him they are making more sitting at home at \$17.50 an hour. They tell him if he wants them to work, he is going to have to pay them \$25 an hour.

Situations like my brother Tyler's were hardly an unexpected consequence of paying workers more not to work. So expected, it seems as though when Democrats failed to get their minimum wage hikes through the Senate in February, they used the Federal unemployment insurance program to accomplish the same result, albeit temporarily.

While there are many who are still struggling from the effects of COVID, whether it be from health effects or the effects of lockdowns on their business, millions more are taking advantage of the unemployment insurance system and sitting at home playing Xbox instead of working and being productive members of society.

On top of a labor shortage driven by the Federal Government paying people not to work, President Biden is proposing historic levels of spending and raising taxes on our job creators. His multi-trillion-dollar proposals, like his \$2.3 trillion American Jobs Plan and \$1.8 trillion American Families Plan, will cost thousands of jobs through tax hikes amid an already struggling market.

What message does raising the corporate tax rate send to job creators when they are trying to rebuild in the aftermath of the pandemic? It sure sounds like we are telling them to take their business overseas or hire less.

To bounce back from the Biden administration's dismal job reports in April, which showed just 266,000 new jobs added, certainly underperforming the Dow Jones estimate of 1 million new jobs, we need to be stimulating economic opportunity and growth with less taxes and less regulation, which will create good-paying jobs that encourage people to get back in the workforce.

What won't fix our struggling economy is throwing money at the problem, which seems to be all the Washington swamp knows how to do. The liberal tax-and-spend model is failing our economy and failing the American people. Gas prices are up, homes are more expensive, and the per pound cost of copper is more than double what it was just 12 months ago.

We are not going to spend our way out of this mess with \$1-trillion programs that do nothing but serve liberal

special interests. We do it by letting the free market flourish through lower taxes, lower regulation, and more economic freedom.

This model worked under President Trump, who delivered record lows in unemployment for Blacks, Hispanics, Asians, and women, and it will work again, if only the Biden administration will put the American people first and not special interests.

#### ELECTION CONTEST DISMISSED

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Illinois (Ms. UNDERWOOD) for 5 minutes.

Ms. UNDERWOOD. Madam Speaker, last week, we passed a resolution dismissing the last House election contest of the 2020 cycle, in the 14th District of Illinois.

Before this resolution came to the floor, the Committee on House Administration approved it with unanimous bipartisan support.

I am incredibly honored that my community chose me to represent them in Congress again, and I look forward to a productive term.

But I am not here to take a victory lap. This is an important moment, not because of which candidate won, but because the constitutional rights of my constituents were upheld, despite my opponent's efforts to disenfranchise the very people he sought to represent.

Much like the previous President, my opponent ignored voters' voices by declaring himself the winner days before the results were in. Once the votes had been tallied, he again joined the former President in making baseless allegations of fraud and conspiracy.

After a careful consideration of the merits of his case, the committee found that my opponent's many arguments about supposed irregularities failed to add up to a credible claim to the result he wanted.

Exhibiting the utmost disrespect for his own would-be constituents, he even went so far as to attempt to invalidate thousands of ballots, under a technicality that the Illinois Supreme Court had already deemed invalid under both the State and Federal Constitutions.

Specifically, the court warned that the standard my opponent sought to apply in this case would allow corrupt officials to deliberately toss out ballots of voters whom they had reason to believe voted otherwise than they desired, which is exactly what he attempted to do.

By passing the resolution dismissing this baseless contest, the House upheld the results that were verified by seven county clerks, including four Republicans, and certified by the State of Illinois.

On behalf of my constituents whose voices were heard despite these efforts to silence them, I want to thank the many election officials and volunteers who safely and successfully administered the highest-turnout election in history, during a pandemic.

I also want to thank the House Administration Committee and its hard-working staff for faithfully carrying out the Federal Contested Elections Act by rejecting this attempt at disenfranchisement.

Unfortunately, the contest in my district was just one battle in a war that is still ongoing, a war on democracy, on voting rights, and on truth itself.

It will take more than a resolution to defeat the big lie: a seditious effort to delegitimize the 2020 election and every future election.

As the so-called debate about widespread fraud that did not occur raged on, I have been shocked and horrified by the willingness of so many people to tell dangerous, flat-out lies, people who should know better, including, terrifyingly, elected officials at every level of government.

I desperately hope for a future where the fabric of reality itself is no longer under attack, because there can be no compromise here. There is nothing to compromise on. The choice is simple: truth or lies.

In the meantime, Madam Speaker, let me tell you about the reality that others have left far behind. The reality is that the American people chose Democrats to lead the House, the Senate, and the White House. In reality, Americans voted for healthcare, for childcare, and for a safe climate and environment.

□ 1030

In reality, Americans chose historic numbers of women, people of color, and LGBTQ people to represent them in this Chamber.

There are people who refuse to face this reality, like my erstwhile opponent, the former President, and far too many others in positions of great responsibility. Their denial of the truth is incompatible with the democracy we all swore an oath to defend.

A few months ago, we endured a violent insurrection here in this building, an all-too-real manifestation of this widespread assault on reality. We survived the attack, but we are still in the midst of an insidious erosion of norms and policies that threatens our democracy, including by sowing distrust of our elections and our democratic institutions.

Madam Speaker, I urge my colleagues to join me in rejecting these attacks on our democracy by living as though the truth were true.

#### FEDERAL UNEMPLOYMENT BONUS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Wisconsin (Mr. FITZGERALD) for 5 minutes.

Mr. FITZGERALD. Madam Speaker, I rise today to talk briefly on a topic that has come up numerous times already this morning. I just attended a meeting of the Small Business Committee in which we had an extensive discussion as well.

If you remember back when the CARES package was moving through Congress, there were a number of legislators who identified that an issue was being created that didn't need to necessarily be created, and that was additional dollars being set aside for those who would find themselves unemployed.

As a former State legislator in Wisconsin, I had kind of gone through a process back in 2008 and 2009, which basically was an unemployment insurance fund—and I would underscore the idea insurance—that was in the red. It was as a result of the number of unemployment claims that were being made in my State.

There was a nonpartisan commission that had been created to kind of oversee this process, without getting too far into the details. It had worked, where there had been some give and take. Employers and those who represented employers knew that there would be X amount of dollars taken out of everyone's payroll that would supplement or pay for the premiums associated with unemployment, and the system worked. But when the uptick came as a result of the economy sputtering at the time, it went into the red.

It is just a reminder, I think, of what we find ourselves kind of in the midst of right now. As I said, some earlier speakers referenced this. We have this \$300-a-week bonus that so many people are calling it right now. And I get it; I am not trying to be too judgmental on people who actually find themselves in that position.

But what we are hearing from employers is that, as a result of the new dollars being in that unemployment system, it is doing two things. The first thing it is doing is obviously putting the regular private-sector market that employers are typically used to, and it is forcing them to kind of either increase wages to the point where it doesn't work for them. It just won't work for their small business model. They can't afford it and still be able to put out goods and services.

The other thing it does, though, is it keeps people on unemployment. So what we are experiencing in our State—and I think I am hearing that other States are experiencing the same thing, and I think we are up to 19 different States right now—Governors have made a decision to pull back on the \$300 a week. It is certainly cratering these unemployment insurance pots again. They can't keep up with it.

So I am here today to just tell the constituents of Wisconsin and, really, nationwide, as we see State by State and the economy kind of moves in one direction, that there has to be a change. It is not even a partisan issue. Something has to give here in the short term, and I would certainly hope that President Biden would take a deeper look at this. I think the House and the Senate should actually move in

a direction where there would be some type of reduction in these benefits very soon.

I am very worried about this whole idea that there are a number of individuals out there right now who, I think, find themselves in a position where, you know, they are going to wait. They are just going to wait. They are going to wait for September to come, they are going to wait for October to come before they really start to reengage.

The other thing in Wisconsin and other States that exists, when you are on unemployment insurance, you had to go out and look for a job. You know, you had to talk to employers and you had to develop your soft skills, which means, you know, making sure you are ready for work and you get to work on time. I am a little concerned that the pandemic has had a direct effect on that as well.

Madam Speaker, I just wanted to be here this morning to highlight these issues again. I would like to work with the other side of the aisle and I would like to work with the President to make sure that we can find a way of reversing what I think is a path that is really going to jeopardize our entire nationwide economy.

#### PREVENTING FUTURE PANDEMICS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Illinois (Mr. QUIGLEY) for 5 minutes.

Mr. QUIGLEY. Madam Speaker, I rise today to discuss what we must do to prevent the next pandemic and why it is not only a global health issue, but also an environmental one.

The origins of the pandemic we are battling now are clear: unsanitary, unsafe wildlife markets.

These markets, which are prevalent in some areas of Asia and Africa, but are present everywhere, including in the United States, are fed by trade in wildlife; some of it legal; some of it illegal; all of it very dangerous.

They are breeding grounds for a strain of viruses known as zoonotics, which are diseases born from the unnatural intermingling of the bodily fluids of different species in an unsafe and unsanitary market that sold wildlife, living and dead, for human consumption.

Other zoonotics include SARS, MERS, Zika, Ebola, swine flu, bird flu, HIV/AIDS, and now COVID. COVID-19 has truly opened the world's eyes to the danger of these markets and the global impact, and it should open our eyes to just how urgent the need for legislation around this is in order to prevent the loss of millions of lives.

That is why over the course of the last year I wrote the Preventing Future Pandemics Act along with my friend, Mr. FRED UPTON, and Senators CORY BOOKER and JOHN CORNYN in the Senate. We may not agree on much, but we agree on this: We have the power to prevent the next pandemic, and to do nothing would be an act of negligence.

A vital lesson that we need to learn from COVID is that we must fundamentally change the way that we interact with wildlife globally if we want to stop this from happening again. This means stopping deforestation and other habitat destruction, slowing and ending global climate change, and global shutdown of live wildlife markets.

Already we have seen how changes in temperature and weather patterns and encroaching human development have brought people and wildlife into more frequent and more intimate contact. Human consumption of wildlife is simply the most dangerous form of that contact.

To get at the root of this problem, the Preventing Future Pandemics Act would establish the official foreign policy of the U.S. to be that we would work with other countries to shut down these markets, end the trade in terrestrial wildlife for human consumption, and build international coalitions to reduce the demand for wildlife as food.

The bill would authorize funding for USAID to work on reducing demand for consumption of wildlife from wildlife markets, and support shifts to alternate sources of food and protein in communities that rely upon this consumption for food security.

Moreover, to truly lead by example, this bill would end the import and export of wildlife for human consumption in and out of the United States.

While wildlife is not a major source of protein in our country, these markets do exist here, and they still pose a danger. If we are to establish and maintain a position of international leadership on this issue, we must practice what we preach.

This bill will help us take significant steps to break down the silos between global health and conservation, because we know unequivocally that if we try to treat these as separate problems, we fail to solve either problem.

After the economic and social devastation of the past year, and the way that COVID-19 has upended all of our lives, it is my view that the Preventing Future Pandemics Act is a national security bill, a conservation bill, an animal wildlife bill, a small business bill, a travel industry bill, a manufacturing bill, a retail bill, a mental health bill, a housing bill, and a public transit bill. It is a bill to protect our lives and livelihoods from the threat of human consumption of wildlife and the associated wildlife trade.

I urge my colleagues on both sides of the aisle to rally around this in order to potentially save the world from suffering the consequences of inaction and standing by hopelessly as we watch another pandemic ravage our world.

The next pandemic can be stopped, and the Preventing Future Pandemics Act is a vital first step. Let's do it together.

#### AFGHANISTAN WITHDRAWAL

The SPEAKER pro tempore. The Chair recognizes the gentleman from Nebraska (Mr. BACON) for 5 minutes.

Mr. BACON. Madam Speaker, I agree with the comments of many of my colleagues on both sides of the aisle expressing grave concern over the President's decision to establish a date certain for the withdrawal of all U.S. military forces from Afghanistan. I believe this decision is deeply misguided, and it is damaging to the long-term national security interests of the United States and our allies.

The strawman argument of ending forever wars might be a convenient campaign slogan, but it is strategically naive and deeply offensive to those who have volunteered to fight to ensure that the very organization which attacked us on September 11, 2001, is incapable of ever doing it again.

This is their job. It is a job that I did on four deployments. It is our sworn duty. It is their sworn duty. They are proud to do it, and we honor them for it.

The truth is our force levels in Afghanistan are a fraction of what they once were, and have been steadily decreasing for years. Maintaining a small residual force is not an unaffordable or unsustainable burden. More than any other deployment in the world, the U.S. and NATO presence in Afghanistan delivers tangible strategic benefits to the U.S. at a relatively small and ever-decreasing cost, not to mention the immense humanitarian benefit to the people of Afghanistan itself, especially the women and the girls.

The recent violence committed by the armed forces in Afghanistan only proves that the Taliban, al-Qaida, and ISIS-K clearly see this announcement as a full-fledged capitulation, and it reveals their true nature as untrustworthy and savage.

A military withdrawal must always be based on conditions, not a calendar. By establishing a specific date, we are simply surrendering the hard-fought leverage we have gained over two decades, and we are inviting the Taliban to embark on a vicious reign of terror against the Afghanistan people.

Furthermore, as a military man, I am utterly dismayed that we did not take the necessary steps to secure and prepare standoff basing in the region to project power when needed to conduct counterterrorism operations and to support the Afghan National Defense and Security Forces before announcing the withdrawal.

We put the cart before the horse. We now have a moral obligation to ensure that the Afghan security forces can continue functioning with the proper military and financial support to keep the Taliban from once again plunging Afghanistan into darkness.

Finally, and most urgently, we must honor our promises and keep faith with our partners and allies. Our values must remain the foundation of our foreign policy. If our partners and allies

lose faith in our ability to back them up, we willingly cede the field to an enemy who seeks our destruction.

It is now, unfortunately, a moral imperative to find a way to expedite the safe passage of the very people who stood by us for nearly two decades. They have been loyal to our shared vision and have sacrificed so much to the pursuit of democracy. Their safety must be an absolute priority for this administration.

So far, we have not observed sufficient urgency in developing an inter-agency plan to do this and in requesting the necessary resources and authorities from Congress. If we don't do this, the Afghans who helped our military will be hunted down and murdered by the Taliban.

We must ask ourselves: Did we learn anything from our clumsy withdrawal from Iraq in 2011?

The only thing more expensive than maintaining a moderate level of stability in a country like Afghanistan is the bloodshed and cost we will bear if we are forced to return.

This is not an academic, hypothetical consideration, nor is it a partisan issue. Like many others on this side of the aisle, I repeatedly and publicly expressed my deep concerns over President Trump's impulse for a hasty withdrawal.

The Taliban is still allied with al-Qaida. If the Taliban prevails after our withdrawal, it is very likely that al-Qaida will once again have a safe haven to conduct terrorism, and this is the very reason we invaded Afghanistan in the first place.

Fortunately, pushback from Congress and the previous administration slowed the withdrawal process while retaining negotiating leverage and key counterterrorism capabilities. Unfortunately, from my vantage point, this latest decision has abandoned any semblance of strategy. It is a retreat.

This hasty withdrawal is a tragic mistake, and we are going to regret it. I urge the President to change course before it is too late.

#### HONORING MICHAEL LECIK

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Virginia (Ms. SPANBERGER) for 5 minutes.

Ms. SPANBERGER. Madam Speaker, I rise to remember the life of a courageous, kind, and selfless Virginian, Mike Lecik.

Service was an unwavering part of who Mike was. Throughout his career, Mike served as an Air Force firefighter, an assistant fire chief with the U.S. Department of Defense, and the assistant chief at the Huguenot Volunteer Fire Department in central Virginia.

As an Air Force firefighter, Mike deployed twice to the Middle East. After coming home to Powhatan County, he was proud to serve in his local volun-

teer fire department. He cared deeply for his community and his country. A few years ago, Mike was diagnosed with multiple myeloma, a blood cancer linked to the dangerous conditions of his service as an Air Force firefighter.

I first got to know Mike because the VA did not recognize this connection, and he wanted to do something about it. He wanted to learn more about how the system could be changed for the better and for the benefit of his fellow servicemen and -women.

This fight was not just about getting the support that he needed; rather, it was about the thousands of firefighters just like him who faced this challenge. Mike truly wanted every veteran firefighter to get the care they deserved.

Mike passed away earlier this year at the age of 41.

Mike was dedicated to his community, the safety of his neighbors, and, above all, his family. It was my honor to have him as a constituent.

Mike leaves behind a family and a community that deeply cared for him, and he leaves behind a cause that is worth championing.

Across the board, firefighters are more likely to be exposed to certain carcinogens. They are more likely to suffer certain diseases and illnesses because of their career. And they experience higher rates of cancer than the general U.S. population.

This connection is well-documented by scientific research, but it is yet to be recognized by the VA, the Federal agency entrusted with caring for those who have borne the battle.

Military firefighters put their lives on the line each day—not just to defend our country but also to selflessly defend their fellow servicemembers. But to this day, thousands of veteran firefighters are left uncovered by the VA for certain types of cancer treatments.

Earlier this year, I reintroduced the Michael Lecik Military Firefighters Protection Act in Mike's name to fix this longstanding issue. This bipartisan legislation would make sure diseases like Mike's are recognized as presumptive service-connected disabilities.

By recognizing the long-term effects of military firefighting and the diseases that can arise from this career over time, our bill would provide much-needed peace of mind and security to thousands of veteran firefighters and their families. It would lift an undue burden off thousands of veterans experiencing severe and often-terminal illnesses.

Right now, the VA doesn't cover significant treatment costs like those faced by Mike, as the VA, in many cases, does not recognize the direct service connection between firefighting and cancer as a presumptive service-connected disability beyond 1 year following Active Duty.

Our legislation would establish the presumption that veteran firefighters who become disabled by serious diseases, including heart disease, lung dis-

ease, and certain cancers like Mike's, within 15 years of separating from Active Duty contracted the illness due to their service in the military.

By creating this presumption, the VA would be required to provide equitable disability benefits and treatment cost coverage to veteran firefighters like Mike.

This legislation has the support of Democrats and Republicans from across the political spectrum, including many who have served our country.

Specifically, I would like to thank my Republican colleague, Congressman BACON from Nebraska, himself an Air Force veteran of nearly 30 years, for his continued partnership in leading this bill. I thank Congressman BACON for recognizing that this issue should unite us all because we all represent veterans with stories like Mike's.

Even as he was engaged in the battle of his life—for his life—Mike was eager to make progress on this issue. When I first reached out to Mike to ask whether he would like to be involved with the legislation, he never hesitated.

Mike had already been in touch with our team about some of his issues with the VA. And when asked if he wanted to take up this challenge and make a difference through the legislative process, he said: "Absolutely." He was ready to take up the mantle for his fellow vets. It was his honor.

Even as his illness progressed, he stayed apprised of new developments on this legislation, and my team was humbled to work with him. He showed incredible strength and determination that we will never forget.

The Michael Lecik Military Firefighters Protection Act is about a fundamental question: How do we show our gratitude and appreciation to those who served, to those who have put on the uniform, and to those who have worked under hazardous and dangerous conditions to keep their countrymen and fellow servicemembers safe?

The answer is found beyond platitudes. It is found beyond spoken promises. It is found in action. And it is found in delivering the benefits our veterans have earned through their sacrifice.

No veteran who puts on the uniform should repeatedly have to make the argument that their injury, their illness, is connected to their service when the evidence is so apparent—to the degree that the majority of our States have already recognized the link between these serious diseases and the occupational hazards of firefighting and have enacted presumptive disability laws.

In the case of Mike and thousands of firefighters like him, no veteran should experience a VA that refuses to help cover the costs of treating their service-connected cancer.

As I urge my colleagues to recognize the urgent need to pass the Michael Lecik Military Firefighters Protection Act, I am thinking of his wife, Tiffany, and his three daughters, Amery, Aubrey, and Addy. He loved them deeply, and I work in his honor.

## STANDING WITH ISRAEL

The SPEAKER pro tempore. The Chair recognizes the gentleman from Virginia (Mr. CLINE) for 5 minutes.

Mr. CLINE. Madam Speaker, I rise today to express my unwavering support for the United States' greatest ally in the Middle East and the region's only democracy, Israel.

When I visited the region, I saw firsthand the proximity of the danger Israelis face on a daily basis.

With the Gaza Strip controlled by the Iranian-funded terror group Hamas, rockets are always pointing at the Jewish state. It is estimated that the militant group has more than 30,000 rockets and mortars at their disposal.

For the past week, Israel and its people have been bombarded by more than 3,000 rockets launched from within Gaza. Thank goodness for the Iron Dome, which, despite being overwhelmed, saved countless lives.

While some on the other side of the aisle and in the media attempt to draw a moral parallel between Hamas and Israel, there is simply no comparison to be made.

As Prime Minister Benjamin Netanyahu said: "You cannot equate a democracy that values life with a terror organization that glorifies death."

Israel has an absolute right to defend itself, and while they make every effort to keep Palestinian civilians from harm, Hamas continues to intentionally target population centers, seeking death and destruction.

Hamas is not interested in peace. They are not interested in working toward a lasting solution. Their only objective is to eliminate the Jewish state.

Why some would choose to back Hamas despite its atrocious human rights record is beyond me. Why back a regime that stifles free speech, prosecutes and assaults the press, treats women as second-class citizens, and has laws on the books that condemn its own citizens to death simply for selling land to a Jewish person?

Madam Speaker, it is mind-boggling.

I stand with Israel, and in doing so, I stand for peace.

## CONGRATULATING GRACE CHRISTIAN GOLF TEAM

Mr. CLINE. Madam Speaker, author and avid golf fan P.G. Wodehouse once remarked: Golf "is the infallible test. The man who can go into a patch of rough alone, with the knowledge that only God is watching him, and play his ball where it lies is the man who will serve you faithfully and well."

Fittingly, I rise today to recognize Grace Christian School of Staunton, whose golf team won its first Virginia Association of Christian Athletics State championship.

The Warriors shot an 18-hole total of 355 in the championship tournament at the Club at Ironwood to overcome its closest competitor by 32 strokes.

Caleb Maas led the Warriors with an impressive 86, while Preston Fitzgerald and Maddie Helmick each shot a pair of 87s, with Isaiah Farlow carding a 95.

Maas, Fitzgerald, and Helmick were also named to the all-State team for their performances throughout the season.

Madam Speaker, I congratulate the athletes, coaches, and staff on an excellent season. I wish them all the best of luck moving forward. And keep hitting them straight.

## NEW INFRASTRUCTURE AGENDA

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Georgia (Ms. Bordeaux) for 5 minutes.

Ms. BOURDEAUX. Madam Speaker, like so many of us in this Chamber, I spend a lot of time on the road driving from event to event.

As someone who represents the metro Atlanta area, I have spent far more hours than I care to admit sitting on I-85 in bumper-to-bumper traffic. My staff have all had the experience of being on the phone with me as I pull off the road and try to find a spot with a strong signal in order to call into events because there is just no way I will make it in time with all the traffic.

Congestion is one of the issues we all hear about with frequency. It is not a Republican issue or a Democratic issue. It is a question I get frequently, regardless of whether I am at a town-hall, speaking to a Chamber of Commerce, or visiting a small business: What is being done to ease congestion?

This question is particularly important as we continue to have a national conversation on infrastructure. Having spent my career in public policy and public finance, I know how important it is that we make smart investments today to set us up for success tomorrow.

That is why recently I rolled out my infrastructure agenda. I call it FutureFit The Suburbs.

FutureFit The Suburbs is a vision to address our growing needs in the suburbs to make smart investments now to prepare for the next century, from preparing for the impact of climate change to building the transit system of tomorrow.

This agenda focuses on the needs of fast-growing suburbs, recognizing the need for transit and congestion relief in order to maintain economic viability while addressing the climate crisis, and doing all of it in a way that leverages public-private partnerships in a fiscally responsible manner.

The key is to do well by doing good. This initial launch of FutureFit The Suburbs contains four initiatives.

First, I am proud to be introducing a new piece of bipartisan legislation today, the Build Up the Suburbs Act, along with Congressman CARLOS GIMENEZ from Florida, and my Georgia colleague, Congresswoman LUCY MCBATH.

Imagine a regional bus rapid transit system that would run along our major highways and express lanes, developing an electric bus equivalent of commuter

rail to help people get from suburban hubs to major commercial hubs while skipping the traffic. The Build Up the Suburbs Act would fund exactly that.

The next time you need to go to the airport, wouldn't it be easier if you didn't have to budget in an extra hour or two just to get there?

Tomorrow, I will be introducing the National and Regional Greenways Act to provide funding for the construction and expansion of greenways across the country, corridors of land connecting disparate communities with beautiful recreational space and environmentally friendly travel routes, thereby reducing congestion and emissions.

This program would support projects like the visionary Chattahoochee River Greenway, a proposed multiuse path that would run along the Chattahoochee River in Georgia.

Beyond immediate transit priorities, FutureFit The Suburbs focuses on how we can be smart in leveraging the power of public-private partnerships to maximize available resources. For example, as more and more shopping goes online, retail malls, and the large plots of land that they sit on, are going unoccupied and unused, taking up valuable real estate. Through low-interest and guaranteed loan programs, these areas can be restored in a way that serves the community.

Finally, creating a national infrastructure bank would provide Federal seed money to leverage significant private sector investment in major infrastructure projects. Private investment is on the sidelines and looking to invest in our roads, bridges, broadband, and electric charging infrastructure.

Change is coming, whether we like it or not. We can make smart investments now that enhance our quality of life, or we can spend a lot more time, money, and effort retrofitting the same projects years down the road.

By investing now, we can help slow the effects of climate change, create jobs, and position the suburbs for success in the years to come.

## CELEBRATING JULIA TUCKER

The SPEAKER pro tempore. The Chair recognizes the gentleman from Tennessee (Mr. BURCHETT) for 5 minutes.

Mr. BURCHETT. Madam Speaker, it is a pleasure being here today. As we say in east Tennessee, you class up the joint. Thank you for allowing me to be here.

Today, I rise to celebrate the 90th birthday of one of my dearest friends, Julia Tucker, 90 years old.

Julia has served the Knoxville community in many different ways over the years. Julia was the first woman to chair the Knoxville City School Board, where she served with my daddy.

Julia is a force to be reckoned with, and she fights for things that are important to her. Julia once saved her unconscious neighbors' lives during a gas leak by dragging them out of their house.

Since Julia's son, Bill, lost his tragic battle with AIDS in 1991, Julia has dedicated her life to raising money and awareness to combat the disease and also to fight the bigotry. I still have his minibike, a "Lil" Indian, in my collection, and I treasure it very much.

Julia also honored her son by building Williamswood Castle, which is a castle modeled after a Scottish hunting lodge, in Knoxville, Tennessee, Madam Speaker. Bill was a historic preservationist way before his time. People weren't doing things like that, and Bill kind of set the mark for it. Bill was incredibly proud of his family's Scottish heritage, and this castle is a unique way for Julia to preserve her son's memory.

Julia allowed my sweet little girl, Isabelle, to have her birthday party there, and it was magical.

Julia also serves on committees and boards for local organizations. Julia adopts orphan dogs—I guess me being one of them—and fiercely loves her family and friends.

When I was mayor of Knox County, I had the privilege of publicly recognizing Julia's exemplary work in the community, and now I am pleased to stand on the House floor and wish her a happy 90th birthday.

Julia was the first person I knew who had cable TV. She introduced me to Shirley Temples and rare roast beef sandwiches when I was a little boy.

Madam Speaker, I wish Julia a happy birthday. Julia is loved by many people, and especially the Burchetts.

#### HONORING THE SERVICE OF CORPORAL ROLLEN DELANO BRADSHAW

Mr. BURCHETT. Madam Speaker, I rise today to honor Corporal Rollen Delano Bradshaw, an American hero and Korean War veteran, as Tennessee's Second Congressional District's Veteran of the Month.

Corporal Bradshaw was rejected three times from joining the military during the Korean War because of his partial blindness, but he didn't let that get in the way of his patriotism. With just a seventh-grade education and a whole lot of persistence, he memorized the eye chart and was accepted into the United States Army on his fourth attempt.

Corporal Bradshaw served in Korea for 18 months, where he worked as a postal clerk delivering mail to his fellow soldiers. While deployed, Corporal Bradshaw earned the Korean Service Medal with Bronze Star, the United Nations Service Medal, National Defense Service Medal, Meritorious Unit Commendation, and the Republic of Korea Presidential Unit Citation.

Following his service, Corporal Bradshaw spent 17 years in American Legion leadership roles, serving as commander at Post 120 for 15 years and as Tennessee's national executive committeeman for 20 years.

Corporal Bradshaw remains dedicated to his military fraternity to this day.

Every year, he coordinates Loudon County's Memorial Day and Veteran's Day ceremonies. Our country's heroes are the men and women of our Armed Forces and those that wear our country's badges, like Corporal Rollen D. Bradshaw, who served and sacrificed for our freedom.

Thank you for your service. And, brother, I am truly sorry to hear about the passing of your sweet wife.

#### HONORING THE SERVICE OF JOHN EADE

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Ohio (Ms. KAPTUR) for 5 minutes.

Ms. KAPTUR. Madam Speaker, as our Nation approaches Memorial Day 2021, I am deeply privileged to enter into the CONGRESSIONAL RECORD the true story of a great soldier and an agonizing battle during the War in Vietnam.

The story recounts the superhuman valor of a great army soldier named John Eade, heroic son of my hometown of Toledo, Ohio. John is held in the highest esteem by all who know him. He is a faithful friend and a true patriot, a superlatively strong soldier, yet a humble decorated warrior for liberty. Yes, he is a Purple Heart and more. He has been tested beyond human limits his entire life. He has triumphed against overwhelming odds, including lifelong war wounds, time and time again.

In November 1965, Sergeant John Eade, then 21, was deployed in Vietnam, a fire team leader in the 1st Calvary division and its ill-fated 2nd Platoon, Alpha Company. On November 14, 1965, Sergeant Eade and his team were sent to reinforce their sister battalion that was engaged in very heavy fighting at Landing Zone X-Ray in La Drang Valley. Two days later, believing the enemy was destroyed and the worst fighting seemingly over, the 1st and 2nd Platoons Bravo were all choppered out. But John Eade and his team left Landing Zone X-ray the morning of November 17, marching 10 kilometers to nearby Landing Zone Albany. They were the first to arrive.

They established the command post and defense perimeter, and other companies were still coming up the trail. Sergeant Eade, with Alpha's 2nd Platoon, was sent into the trees to the left while the 1st Platoon went right. That is when the two much larger North Vietnamese regiments encamped nearby attacked.

Sergeant Eade's platoon was immediately pinned down in ferocious hand-to-hand combat as the North Vietnamese swarmed down on them through the trees. Sergeant Eade reflected, "it was like a gang fight. It was small groups of us versus small groups of them. It got down to knives. It got down to choking people."

Sergeant Eade and his team, Wilbert Johnson, Barry Burnite, and Oscar Barker, Jr., tried to outflank the at-

tacking Vietnamese but were badly outnumbered. Eade recounts: "Burnite, a machine gunner, was hit in the chest by shrapnel and his gun was disabled. Johnson, his crewman, dragged Burnite 30 meters back to a position of cover in an effort to save him." Eade recounted, "It was the greatest feat of human strength I have ever witnessed. I don't know if Burnite was still alive."

Johnson and Barker holed up amongst some trees and continued to fight. Johnson was killed and Eade was shot in the gut and the right shoulder, forcing him to fire his M-16 left-handed. Under RPC fire, Eade said his legs and boots were sprayed with shrapnel that left a large piece stuck in his foot, leaving him unable to walk.

Barker tended to Eade's wounds. Everyone else was dead. Eade urged Barker to flee 50 meters beyond the woods where the command element was situated. Barker refused. Shortly thereafter, Barker was shot and Eade attended him as he slowly died. Eade later reflected: "I don't think anyone who studies war doesn't get stuck on the Battle of Thermopylae. It is that thing of standing our ground to the last man. If you had your chance to cut out or stay, you would have stayed."

Despite some misgivings, according to official records, the U.S. Command Post called in a napalm strike on Sergeant Eade's position. As a result, Sergeant Eade was set on fire and severely burned because of the air strike. He was further weakened but still alive. He managed to roll in the dirt to put out the flames.

Sergeant Eade recalled that, among his problems, the napalm proved inconsequential. In fact, he said, "the napalm served a purpose by flushing the enemy out and gave me an opportunity to reduce the Vietcong numbers."

Later in the afternoon, still conscious but bleeding, he said he was surprised by the sudden appearance of three enemy soldiers behind him. "There were three North Vietnamese looking at me, one with a pistol." Eade said he shot and killed two, but was shot in the face by the one with the pistol.

The small caliber bullet destroyed his right eye socket and shattered parts of the sinus, making it difficult to breathe. He was knocked unconscious. When he came to, the third Vietnamese was gone.

Small groups of North Vietnamese continued moving through the area until about midnight, Eade said. And he stopped using his rifle after dark so he wouldn't give away his position. He said he managed to crawl around and throw grenades at some parties he assumed were removing their dead after midnight. The enemy activity ended. He recalls it was a struggle to stay awake. He was on his third night without sleep and believed if he fell asleep, he would be found and killed.

Dawn came. He was still alive, though horribly wounded. Around 9 or 10 in the morning, Infantryman Eade

said he heard someone moving toward him. He prepared to shoot but held his fire and then saw the shape of an American helmet.

"I yelled at them, 'Give me some water.' I was really thirsty. He looked at me and said, 'You're shot in the stomach. I can't give you water.' I told him I had been drinking water all night. But the soldier said 'no.' So I asked him for some morphine. I told him I used mine up on the other wounded. It really hurts. The soldier said: 'You are shot in the head. I can't give you morphine.' So I said, 'Well, give me a cigarette.' They gave me that. And he said he never stopped smoking after that."

John Eade was awarded the Purple Heart.

Madam Speaker, I include in the RECORD the entire story of John Eade, a great American soldier.

JOHN EADE: "I AM GOING TO DIE WELL"

[From the Boston Herald, Nov. 15, 2010]

(By Jules Crittenden)

There are people who have the ability to surprise you with the evidence, against long odds, that it is possible to retain a sense of wonder, some ideals and even wistful dreams, when cynicism, demons and nightmares should have won out a long time ago.

John Eade is like that, the kind of person you're always glad to see. You know you'll walk away with a little of that energy he barely manages to conceal behind a quiet facade, still retaining in his 60s—despite severe war wounds—an infantryman's ability to walk 25 miles on short notice.

And you know Eade will always leave you with something to think about—like what he had said about the Spartans at Thermopylae, when the movie "300" came out a few years back.

It came up in one of our late-night phone conversations. Eade said he had been captivated by the story when he was in high school in Toledo, Ohio. Forty-odd years later, he was still.

"I don't think anyone who studies war doesn't get stuck on Thermopylae. It's that thing of standing your ground to the last man," Eade said. "Three days of fighting set up the Persians for their ultimate defeat. It changed history. It has taken on mythic proportions. You want to be one of the 300. If you had your chance to cut out or stay, you'd have stayed."

Eade said it almost casually, like any of us would do that. Most people can only wonder if they would. But Eade knows what he is talking about. He's an authority on the subject.

In November 1965, Sgt. John Eade, then 21, was in Vietnam, among the first American regulars there, a fire-team leader in 2nd Platoon, Alpha Company, 2nd Battalion of the historically ill-fated 7th Cavalry Regiment, 1st Cavalry Division. They had already seen some combat, and as former paratroopers turned Air Cav, were a confident, well-trained and cohesive unit.

Over Nov. 14, 15, and 16, elements of 2/7 Cav were sent in to reinforce its sister battalion, 1/7 Cav, in the heavy fight at Landing Zone X-ray in the la Orang valley, where a reconnaissance in force had encountered a large force of North Vietnamese regulars. On the 16th, with the enemy at X-ray destroyed and the worst seemingly over, 1/7 was chopped out, along with 2/7's Bravo. The rest of 2/7, with a company of 1/5 Cav, left X-ray the morning of Nov. 17, marching 10 kilometers to Landing Zone Albany. Just short of Al-

bany, the lead elements captured a couple of North Vietnamese soldiers. There was debate about whether they were deserters or an outpost.

Still mulling the implications, they moved on, the battalion CO calling his company commanders ahead for a conference. In Albany's clearing of grassland and anthills, surrounded by forest, 2/7's Alpha Company began establishing a command post and a defensive perimeter within which the helicopters could land and take them home. The battalion's Delta, Charlie and Headquarters companies were still coming up the trail behind them, with 1/5's Alpha company bringing up the rear. Eade, with Alpha's 2nd Platoon, was sent into the trees to the left, while 1st Platoon went right. That's when the two North Vietnamese regiments encamped nearby attacked, along the length of the column.

Eade discussed his experience with me five years ago for a Boston Herald article. It was the first time he had done so in a public venue. He recalled that his platoon was immediately pinned down in ferocious fighting as the North Vietnamese swarmed on them through the trees.

"For the first hour and a half, it was intense hand-to-hand," Eade said. "It was like a gang fight. It was small groups of us versus small groups of them. It got down to knives. It got down to choking people."

First and 2nd platoons were taking the brunt of the attack on the landing zone's perimeter. Delta, Charlie, HQ and 1/5 Alpha companies, strung out along the trail, were also under heavy attack, with similar scenes of desperate combat playing out as hundreds of men, American and Vietnamese, engaged among the trees. Meanwhile, the Vietnamese who had cut off the column were directly assaulting the Alpha's command post among some anthills in the middle of the clearing.

Eade said he and his fire team, Wilbert Johnson, Barry Burnite and Oscar Barker Jr., had some freedom of movement along a line of brush and tried to flank the attacking Vietnamese.

"We wanted to hunt them down and give the platoon a chance," Eade said. "We bit off more than we could chew."

Burnite, a machine gunner, was hit in the chest by shrapnel and his gun was disabled. Johnson, his crewman, dragged Burnite 30 meters back to a position of cover in an effort to save him.

"It was the greatest feat of human strength I have ever witnessed," Eade said. "I don't know if Burnite was still alive."

Eade said he, Johnson and Barker holed up among some trees and continued to fight. Johnson was killed, and Eade was shot in the gut and the right shoulder, forcing him to fire his M-16 left-handed. Under RPG and mortar fire, Eade said his legs and boots were sprayed with shrapnel that left a large piece stuck into his foot, so he couldn't walk.

By about 3 p.m., much of the fighting had subsided around the fire team's two survivors, Barker and Eade. Barker tended to Eade's wounds in the lull, stuffing one of Eade's dirty socks into his shoulder wound to stop the bleeding because they were out of bandages.

"I knew and he knew that everyone else was dead," Eade said. He said he urged Barker to try to save himself and run for the command post, which Eade estimates was located about 50 meters of open ground beyond the woods, where the command element and mortars still held a perimeter.

"He refused to go," Eade said. Shortly after that, Barker was shot, and Eade had to watch him die. It was a sucking chest wound, and it took a long time, Eade said.

After Barker died, Eade was alone.

"My whole life, I've missed the people I was with," Eade said at that point in the conversation. "I just miss them a lot."

I asked him what his thoughts and emotions were at this time, as the last surviving man in his position with every expectation that he would be killed as the Vietnamese moved through the trees finishing off the wounded. I was under the impression that Eade had played dead to survive, but he said that wasn't the case.

"Playing dead was a way to die. It made no sense to me. Our job was to hold that position and kill the enemy," Eade said. "I had this thing in my mind, part of the U.S. Army's General Orders and the soldier's code you learn in boot camp: 'I will never forget I am an American fighting man. I will never surrender of my own free will. I will continue to resist to the utmost of my ability. I will not leave my post until properly relieved.'"

Eade said he kept repeating it himself.

"I don't think it was unique to me," Eade said, citing the actions of men like Barker and Johnson. He said his seemingly hopeless position was made easier by his belief, established weeks earlier after several men in the unit were killed in other actions, that he would not leave Vietnam alive. What Eade says about that may sound familiar to other veterans of heavy combat:

"It wasn't a matter of living or dying. It was taking care of each other and doing your duty. The anticipation of a future is what you give up. The question was not, 'Am I going to die?' We all know the answer to that. The question was, 'How am I going to die? I am going to die well.'"

In the command post, Alpha Company's executive officer, Lt. Larry Gwin, reports they saw large groups of the enemy moving through 2nd Platoon's area. The command post remained under assault by waves of Vietnamese, still cut off from what was left of the rest of the battalion.

A couple of 2nd Platoon soldiers who had made it out of the woods and across the open grassland to the command post said they didn't think any Americans were alive in there. Despite some misgivings on the part of some officers, the decision was made to thwart a Vietnamese attack on the command post by calling in a napalm strike on 2nd Platoon's position.

"I think they made the right decision," Eade said. He was on the edge of the A-1 Skyraiders' napalm strike.

"It set me on fire, but I managed to roll in the dirt and put it out," Eade said, adding that among his problems, the napalm proved inconsequential. In fact, he said, the napalm served a purpose. "It flushed them out and gave me an opportunity to reduce the numbers."

Later in the afternoon, Eade said he was surprised by the sudden appearance of three enemy soldiers behind him.

"There were three North Vietnamese looking at me, one with a pistol," Eade said he shot and killed two, but was shot in the face by the one with the pistol. The small-caliber bullet destroyed his right eye socket and shattered parts of his sinuses, making it difficult to breathe. He was knocked unconscious, and when he came to, the third Vietnamese was gone.

"I was angry at myself for being shot in the head. I was angry at myself for being careless. I was really pissed off at the North Vietnamese. It was probably the most maniacal moment of my life," Eade said. He declined to elaborate.

Small groups of North Vietnamese continued moving through the area until about midnight, Eade said. He said he stopped using his rifle after dark so he wouldn't give away his position. He said he managed to crawl around and throw grenades at some

parties he assumes were removing their dead.

"There was no shortage of grenades lying around," Eade said.

After midnight, the enemy activity ended. He recalls that it was a struggle to stay awake. He was on his third night without sleep, and believed that if he fell asleep, he would be found and killed.

Dawn came. He was alive, though severely wounded. Around 9 or 10 in the morning, Eade said he heard someone moving toward him. He prepared to shoot, but held his fire. Then he saw the shape of an American helmet.

"I yelled at them, 'Give me some water!' " Eade said. "I was really thirsty. He looked at me and said, 'You're shot in the stomach. I can't give you water.' I told him I had been drinking water all night, but he said no. So I asked him for some morphine. I told him I had used mine up on the other wounded. 'It really hurts,' I said. He said, 'You're shot in the head. I can't give you morphine.' So I said, 'Well, then give me a cigarette.' They gave me that."

He said he had never smoked before, but hasn't stopped since.

Eade's experience was similar to what hundreds of men up and down the column experienced over the prior afternoon and night, though many did not survive the first few hours after the Vietnamese broke through and enveloped them shortly after 1 p.m. on the 17th.

Gwin, who remembers firing at the oncoming Vietnamese, and firing again to keep them down, has said he is haunted by the memory of the American dead that he saw strewn across the grassland and throughout the trees on the morning of the 18th. He reports that the discovery of Eade alive where 2nd Platoon had been destroyed was a tremendous morale booster for the survivors. When the battle was over, Gwin said, the battalion that had marched to LZ Albany could fit into four deuce and a half trucks. Nearly three-quarters of them had been killed or wounded in a matter of hours. But he said that despite the trauma, morale was high and remained so in following weeks as replacements rotated into nearly empty platoon tents and the battalion prepared to return to the field.

"The survivors rallied and cheered the fact that we had held the ground. We knew that we had killed a lot of them. We had given as good as we had gotten," said Gwin. "The morale was very high in a perverse sort of way, because we had survived it."

Eade objects to the notion that his platoon, while largely destroyed, was overrun. He argues that he stayed alive, kept fighting, and remained in position. His platoon held.

Gwin, noting that 2/7 Cav held its ground in one of the bloodiest days any battalion has experienced in U.S. military history, said, "John's platoon held. If they hadn't done what they did, we would have been overrun."

Eade was medevac'd, and none of his comrades saw him again for decades. Gwin said that years later after they were reunited, he and other la Orang vets tried to get a combat award for Eade. Gwin, who earned a Silver Star for his actions at LZ Albany and completed 45 combat assaults in his year in Vietnam, said he believes Eade's actions merit a Distinguished Service Cross. But because there were no living American witnesses to Eade's actions, Gwin said, the effort was unsuccessful. Eade himself has said, regarding decorations, he is satisfied with the Combat Infantryman's Badge.

Eade spent 1966, the year after the la Drang, in the U.S. Army hospital at Valley Forge. That's where the mother of his fire

team's machine gunner, Barry Burnite, came to see him.

"I don't know how she found me," Eade said. "She asked me, how did her son die? I kind of told her the truth and I kind of didn't. I cleaned it up a bit. The uncontrollable grief of that woman has stayed with me my whole life. Her pain and her grief was more than I could bear to look at. I can never think about it without wanting to cry."

Eade, though battered and disfigured, recovered and went to university in the late 1960s. He became an architect. He pursued a career through what he called "serial jobs," staying only until he became restless or angry, and moving on. He was largely solitary, and to this day closely guards his privacy. Eade became chief of inspection services for the City of Boston in the 1990s, which is where I first met him. A lightly built, soft-spoken man with an eyepatch, an unexpected character in City Hall, a little odd and engaging. Serious about his work, he had a reputation for toughness and honesty. I only learned about his history several years later, and then it was by odd coincidence, through Gwin, our mutual friend, by then the informal head of a small informal group of combat veterans, some Boston lawyers and investment bankers who form a sort of movable VFW down in the business district.

Gwin had seen Eade's name in a local newspaper article and sought him out. Eade had been out of touch with his fellow la Drang vets for nearly 40 years, having made no effort to get in touch.

"You have to understand. All my friends were dead," Eade explained.

It was one of those typical silver-bullet Eade statements. He has a gift, or maybe the curse for it. Unsentimentally, matter-of-factly plumb a terrible depth of human experience in a few words.

These days, Eade seems to have friends everywhere he goes. There is always someone who walks up, glad to see him, when we walk through the city. They say little things about him in brief asides, something he did one time or another. I don't know how many of them know that this quiet, gentle man is still a soldier, prouder of nothing more than to have been an American combat infantryman who held his ground.

#### THE KLAMATH PROJECT

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. LAMALFA) for 5 minutes.

Mr. LAMALFA. Madam Speaker, I want to speak a little while today on the issue going on with the Klamath Basin, which straddles Northern California and Southern Oregon, and the water supply that has been a long-time issue and dispute up there for many purposes, agriculture, hydroelectric power, and endangered fish species, and how these are going to be shared, adjudicated, et cetera.

Currently, the battle in the basin there is how waters can be delivered to agriculture. Last year, in 2020, the situation was very dire where, initially, 140,000 acre-feet was promised to the growers up there. And then they went ahead and started their planning process. They had their crops in the field based on that number. The Bureau of Reclamation decided they were going to pull that back and not deliver that water.

We were able to work with the Department of the Interior and restore that water so that the crops that are already in the field planted would not die, that massive investment and massive loss to the farmers and to the community would not happen.

This year, we have a similar path. In March, the Bureau estimated they would deliver 130,000 acre-feet of water, 10,000 acre-feet less than last year. This of a water right that belongs in the basin of 390,000 acre-feet when fully delivered.

And that is where we need to really discuss this today, is that we are talking about the elevation of the lake here. We have, at the full mark, 4,143.3 elevation is a maximum lake. The project goes as low as 4,136 right down here. So that represents a heck of a lot of water. The farmer's share of this, the 561 is the 390,000 I had mentioned. Currently, the lake sits at 4,140.4 feet of elevation, so that represents availability of 307,000 acre-feet of water supply.

Now, the species of fish that we are talking about here are the longnose sucker fish that is in the lake. It lives in the lower part, the brown area of the lake there. And that is where it is best-suited. It is a bottom-feeding fish.

So the problem is that the Bureau of Reclamation, taking the cue from U.S. Fish and Wildlife, has decided that the water that belongs to the farmers has been adjudicated over time. The Oregon courts have held that these water rights do belong to agriculture. This is after NEPA and the ESA went into effect in the Endangered Species Act Oregon Water Resources Department began the process of detailing and adjudicating these rights.

So in reviewing the water rights of all the users in the basin, they noted that the Bureau claimed the reserved water rights apply only to the primary purpose of that water right, which is determined by a 1978 case, U.S. vs. New Mexico.

The Ninth Circuit determined in a 1983 case, the U.S. vs. Adair, that this land's reservation was for the purpose of agriculture. So as we apply that to the Klamath Irrigation area, the KID took the Bureau of Reclamation to court over its decisions to increase downstream flows to salmon, as well as the retention of water for the sucker fish.

So they want to retain this portion here for the sucker fish even though this portion of water does not belong to the Bureau or Fish and Wildlife to use for that purpose.

This project was created over 100 years ago for agriculture, to deliver water down this A Canal through a whole entire system there. This dam was completed, the Link River Dam, in 1921, to help regulate that source.

So in the process of Klamath Irrigation District having taken them to court, the State ultimately agreed with KID that the Bureau has the right to store the water and administer the

water in Upper Lake, but the Bureau of Reclamation does not have the permit, the license, the right to use the water themselves for salmon in the river or for the sucker fish that stay in the lake.

Going further, Section 8 of the Reclamation Act clearly states that the Federal Government cannot interfere with the laws of States relating to the control or distribution of water used in irrigation.

So in 1978, *California vs. the U.S.* certified that a State can impose requirements under distribution of water through a Federal reclamation project as long as they are consistent with clear Congressional directives as Congress set this back up over 100 years ago and ongoing. The Congress has made it clear multiple times that the Klamath Project was designed and established for irrigation.

So if you want to concede just for a moment, playing along with Fish and Wildlife, that the current level at 4,140.4, and you take it down to 4,138, there is 173,000 acre-feet of water available for farmers right now that should not be taken, even if you concede the sucker fish total.

So we have got giant problems in the basin.

#### MATERNAL MORTALITY CRISIS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Illinois (Ms. KELLY) for 5 minutes.

Ms. KELLY of Illinois. Madam Speaker, we are in the midst of a shameful healthcare crisis. In 2021, there is no reason that giving birth should be more dangerous for women today than it was for their mothers.

Despite declining rates and maternal mortality around the world, in the United States, the rates have been climbing in recent years. Decades of institutional racism in our society and our healthcare system have brought us to this moment.

Data released by the CDC last month shows that the maternal mortality crisis is only worsening, and the risks are even greater for Black women and other women of color. Black women are three times more likely, and indigenous women are more than twice as likely to die from pregnancy-related causes as non-Hispanic women. Even worse, more than two-thirds of the deaths are preventable.

Additionally, the rates of pregnancy-related complications are on the rise. And for every maternal death in the United States, there are approximately 100 women who experience severe maternal morbidity, or a "near miss."

As chair of the Congressional Black Caucus Health Braintrust and co-chair of the Congressional Caucus on Black Women and Girls, I have seen so many examples of how the healthcare system fails Black women.

Maternal mortality is a complex crisis with inequities stemming from many factors, including access to care,

standardization of care, bias, and racism. Pregnancy and birth should be one of the happiest times for a family, but for Black women that is too often not the case, and we must take action now to begin saving the lives and protecting the health of Black women.

One of the most pressing issues related to the maternal mortality crisis we must address is access to high-quality, affordable healthcare. We know there are major risks associated with becoming uninsured shortly after pregnancy.

□ 1115

That is why I fought to have extended Medicare coverage included in the American Rescue Plan, so that women are able to receive postpartum care up to 1 year after birth instead of the existing 60 days of coverage.

But we need to take additional steps to incentivize every single State to permanently implement this policy. That is why, today, I am introducing the Helping Medicaid Offer Maternity Services Act, or Helping MOMS Act of 2021.

This bipartisan legislation will amend the American Rescue Plan to provide a permanent State option to extend postpartum Medicaid coverage from 60 days after delivery to a full year. The Helping MOMS Act would also authorize a 5 percent Federal medical assistance percentage rate for the first year that States adopt extended coverage.

Ensuring healthcare coverage for the entirety of the postpartum period will save lives and prevent needless complications that endanger the health of mothers and their babies. This is an important step forward, but is not the only change that is needed.

The Black maternal health crisis is a multifactorial epidemic, and solving it will require a multifaceted approach. That is why, tomorrow, I will reintroduce my Mothers and Offspring Mortality and Morbidity Awareness Act, or the MOMMA Act.

This comprehensive bill tackles a growing maternal mortality crisis and severe morbidity in five ways. The MOMMA Act will standardize maternal mortality and morbidity data collection across States and authorize a designated Federal agency to aggregate that data.

Maternal health advocates agree that standardization of data across the country is critical in fully understanding this crisis and informing future decisions about how to improve women's healthcare.

This bill will empower the CDC to provide technical guidance and publish best practices to prevent maternal mortality and morbidity. It will authorize evidence-based national obstetric emergency protocol to save mothers' lives.

The MOMMA Act will expand healthcare coverage through the full postpartum year after giving birth.

Finally, the MOMMA Act will ensure improved access to culturally com-

petent care training and workforce practices throughout the entire delivery continuum.

This aspect, in particular, is so important in addressing the harmful biases and misconceptions that are, unfortunately, pervasive through our healthcare system, but especially rampant when it comes to Black maternal health. We have already lost too many mothers to this crisis.

While many of us celebrated Mother's Day just a few weeks ago, families across the country mourned lost mothers and babies and remembered traumatic and unacceptable birth stories.

I have talked with husbands who are so frustrated with the way their wives were treated, and wonder if there is something else they could have done to protect them. I have heard the heart-breaking stories of tragedy and loss directly from these fathers. I have cried with them and shared their pain.

I introduce these bills, the Helping MOMS Act and the MOMMA Act, in honor of those mothers and families, and recommit myself to always fighting for the health and safety of women.

#### WORKING TO HELP LOUISIANA STAND BACK UP

The SPEAKER pro tempore. The Chair recognizes the gentleman from Louisiana (Mr. HIGGINS) for 5 minutes.

Mr. HIGGINS of Louisiana. Madam Speaker, it has been 9 months since Hurricanes Laura and Delta devastated southwest Louisiana.

Our region has endured natural disaster after natural disaster. This past year has been incredibly challenging: two very powerful, major hurricanes; a crippling ice storm; and this week, ongoing, a severe rainfall event that is causing homes and businesses to flood.

Many families will have to again restart the difficult process of rebuilding their lives. Our people have been resilient in the face of great adversity, a show of incredible strength.

But the need for help from the Federal Government is dire. While much work has been done, southwest Louisiana has long-term recovery needs. To date, we have worked with our Federal partners to deliver well over \$1 billion in disaster relief to Louisiana, with more on the way.

We have worked with President Trump and President Biden to secure increased Federal assistance through cost-share adjustments, now at levels of 90 and 100 percent.

These resources have supported southwest Louisiana's most immediate needs: housing and rental assistance, utility repairs, debris removal, hazard mitigation, and other disaster response costs.

Due to the COVID-19 pandemic and related bills, these Federal disaster accounts have received supplemental funding well beyond normal appropriations and are still available to the people of southwest Louisiana.

However, our region requires additional support in the form of long-term

recovery resources, primarily through community block grant funding.

Louisiana's Governor issued a formal request to the Biden administration in January of this year. My office has supported our Governor's request in every way through every channel. We worked for months to build support in Congress for long-term recovery resources, and our efforts to build that coalition has been successful.

While that support exists broadly, the Biden administration must first respond to our Governor's official request for supplemental disaster funding. President Biden must formally request specific supplemental disaster relief from Congress. Only then can our brotherhood of support take action here in the House of Representatives. That is the way it works. We have communicated these extreme needs directly to the Biden administration and House leadership.

Additionally, the State must do more to ensure private insurance companies are treating Louisiana citizens fairly. This has been a significant issue that has frustrated Louisiana citizens and hindered our recovery efforts.

I will not stop fighting for the citizens of south Louisiana, and I ask that my colleagues here in this body stand with us. I ask that our President stand with the people of Louisiana. We are one Nation. As a Republic of sovereign States, we have never failed to come to each other's rescue in the wake of natural disaster. Now is one of those moments.

This is a time when Americans must stand together as one. Every day, we are working to help Louisiana stand back up.

#### VIRGIN ISLANDS ECONOMY

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from the Virgin Islands (Ms. PLASKETT) for 5 minutes.

Ms. PLASKETT. Madam Speaker, the Virgin Islands of the United States sits at the most southern, most easterly point of the United States. Because of this geographic position and its proximity to South America and its almost sentry lighthouse position to the rest of the Caribbean, it has been fought over; exploited by many nations; owned by seven; and used as a base by pirates, privateers, rum and drug runners, and even great corporations.

Despite so much potential, the benefits of our location, climate, our deep ports—one of the deepest in the Caribbean, our fertile soil—the people of the Virgin Islands have not received equitable return on investment and have instead been the spoils of others.

Our people continue to work to create economic benefits for our homes, jobs, skills, revenue, financial independence. Our journey in oil refining is one such chapter in that search.

In the 1960s, the Virgin Islands began refining oil. Our island of St. Croix be-

came the second-largest petroleum refinery in America. In 2012, the refinery closed, exacerbating the shocks of the Great Recession, leading to unemployment rates of 18 percent. Our government made the decision to work to bring the refinery back and, after several years, the terminal and refinery reopened.

In the last few weeks, my office has been in contact with the EPA regarding air emissions incidents, odors, and emissions around the vicinity of the refinery, which threaten the health of residents and our environment.

On May 14, the EPA ordered Limetree Bay, the owners of the terminal and refinery, to pause all operations on the St. Croix refinery due to multiple improperly conducted operations that present an imminent risk to public health. Limetree Bay is in a community that is disproportionately affected by environmental burdens, and recent incidents have raised significant environmental justice concerns.

My office has continued to discuss with the EPA regarding the shutdown of the refinery, which, when fully operational, contributes tremendously to the Virgin Islands' economy. I have also been in contact with the owners of the refinery, as well as the Virgin Islands local government, and I will share with you all, with this Congress, what we can do to rectify the issue.

But part of my concern and one of the reasons I came to Congress was to create mechanisms and funding, incentives so that communities like the Virgin Islands, places long-neglected, can have the tools, funding, incentives, stable schools, healthcare, to create diverse sustainable industry.

As I have said in the past, and continue to reiterate, the current problems in my community further demonstrate the need for so many communities like it to have a diversified economy. This would provide flexibility. A diversified economy creates an economic health in a community, not tied to a single industry or market sector. It also creates and supports innovation.

Not only do companies support one another financially, but they engender an ecosystem of new ideas and product generation. I recognize that funding from the American Rescue Plan should not only be used by the Virgin Island's government to undergird our most vulnerable citizens, our children, mentally ill, our seniors; it should be used to support creation of clean resilient jobs.

I and other Democrats recognize that we must rebuild our communities and our economy better than before through the American Jobs Plan. Now is the time to think boldly with a once-in-a-century investment to create millions of good-paying jobs to ensure America can outcompete any other country in the world.

The President has promised to deliver clean drinking water, a renewed electric grid, high-speed broadband; build, preserve, retrofit more than 2

million homes and commercial buildings; modernize our Nation's schools and childcare facilities; upgrade veterans' hospitals and Federal buildings.

The President's plan includes \$20 billion for new programs that will reconnect neighborhoods like the Virgin Islands, cut off by historic investments, and ensure new projects increase opportunity, advance racial equity and environmental justice, promote affordable access, safeguard critical infrastructure and services, and defend vulnerable communities.

President Biden will call upon Congress, our body, to ensure that new jobs create clean energy, and manufacturing and infrastructure are open and accessible to women and people of color. The House is working on this. We have a historic package to build back better, creating jobs and justice.

#### MILITARY APPRECIATION MONTH

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. THOMPSON) for 5 minutes.

Mr. THOMPSON of Pennsylvania. Madam Speaker, I rise today to thank our men and women in uniform and remember those who gave their life for this country.

The month of May is recognized as Military Appreciation Month, and we have several days dedicated to honoring our servicemen and -women, as well as their families.

May 7 is Military Spouse Appreciation Day. May 8 is Victory in Europe Day, marking the end of World War II in Europe. May 15 is Armed Services Day, where we thank Active Duty members from all branches of the military.

□ 1130

But on the last day of May, we have our most solemn occasion, Memorial Day, where we mourn those whom we lost in defense of this Nation.

The tradition of Memorial Day dates back to 1864 in Boalsburg, Pennsylvania. Three ladies decorated the graves of fallen Civil War soldiers, and the custom has continued every year since then. Boalsburg still puts on a traditional Memorial Day celebration, complete with a parade, a community walk to the cemetery, speeches, military reenactments, and much more.

In the days leading up to Memorial Day, many place flags or lay wreaths at the graves of our soldiers. We gather with friends and family to attend parades and special services to remember those lost.

As we take the time to thank our Active Duty members and remember the fallen, we must also never forget the soldiers who have not returned home.

As the father of a wounded warrior, I thank God every day he returned home safely. Not every family has been as lucky, and we owe our greatest efforts to recovering the brave men and women who made the ultimate sacrifice for our country.

Currently, there are more than 80,000 American servicemembers who remain unaccounted for, from World War II, the Korean war, the Vietnam war, the Cold War, and the gulf wars. We must uphold our promise to our POW/MIA who made the ultimate sacrifice and work to return these members home to their families.

That is why today I am introducing the Prisoners of War and Missing in Action Trade Agreement Resolution. As we develop trade ties in regions where servicemembers once engaged in combat, we must make every effort to guarantee these countries are active participants in aiding in the recovery of our fallen soldiers. While several of these nations have worked to assist in the research and recovery efforts, many challenges still exist.

This resolution ensures that as we enter mutually beneficial trade agreements, our trade partners will commit to the research and recovery efforts of our Nation's missing servicemembers.

In addition, it also sends a message to the families of those who are still waiting for their loved ones to return home. The United States will uphold the eternal promise to our Armed Forces to always bring our men and women home.

Madam Speaker, I urge my colleagues to support this resolution, especially in advance of Memorial Day weekend. As Memorial Day approaches and we make plans to see family and friends and to attend services and parades, let us remember that our freedom is not free and we owe thanks to those who died in sacrifice.

May God bless them, and may God bless the United States of America.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 11 o'clock and 31 minutes a.m.), the House stood in recess.

□ 1200

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mrs. BUSTOS) at noon.

#### PRAYER

The Chaplain, the Reverend Margaret Grun Kibben, offered the following prayer:

Holy God, abide with us in our walk this day.

When the path isn't clear, grant us the gift of Your discernment.

When we stumble over our own pride, pick us up and strengthen us with humility.

Should we be caught in the web of deceit, free us by Your truth.

When temptation lures us off course, hold us accountable to the direction You intend for us.

If along the way we should be injured by another in word or deed, fill our hearts and minds with forgiveness.

When we are detoured by demands, help us to focus on to Your priorities.

If we are overcome by anger at those who journey with us, may Your kindness temper us that we may in turn be kind.

When words get lost in misunderstanding, give us the gift of gentleness that love would be found in our answers.

As we face danger, grant us courage.

In the search for answers, may we find faith.

And for Your many blessings as You guide us through this day, may we always be thankful.

In Your sovereign name we pray.

Amen.

#### THE JOURNAL

The SPEAKER pro tempore. Pursuant to section 11(a) of House Resolution 188, the Journal of the last day's proceedings is approved.

#### PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from California (Mr. VALADAO) come forward and lead the House in the Pledge of Allegiance.

Mr. VALADAO led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

#### ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

#### ALS AWARENESS MONTH

(Mr. CROW asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CROW. Madam Speaker, I rise to recognize the importance of ALS Awareness Month and continued Federal support of funding towards a cure for ALS.

ALS is a progressive nervous system disease that affects nerve cells in the brain and spinal cord, causing loss of muscle control.

This devastating disease can affect anyone, anywhere, at any age, and, still today, is always fatal.

Veterans are twice as likely to develop ALS, which is why ALS has been designated a service-connected disease.

Not only is there no cure for ALS, but there is also no effective treatment to halt or reverse the progression of the disease.

Patients typically live 2 to 5 years after diagnosis.

President Biden announced an initiative to leverage a \$50 billion investment over the course of his presidency through a new HHS program, called ARPA-Health.

This investment would bring focus, scale, and innovation to combat devastating diseases like ALS, Alzheimer's, diabetes, and cancer.

Madam Speaker, the need is urgent, and I would encourage my colleagues to join me in supporting these investments. Our response must meet the moment.

#### RECOGNIZING SERGEANT DAN McBRIDE

(Ms. HERRELL asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. HERRELL. Madam Speaker, in 1942, Dan McBride enlisted as a paratrooper in the U.S. Army. Sergeant Dan McBride is an American hero from New Mexico.

Assigned to Fox Company, 502nd Parachute Infantry Regiment, 101st Airborne, Dan's job was a new modernization in military tactics. Paratroopers jumped out of perfectly good airplanes to parachute behind enemy lines.

On June 6, 1944, Dan jumped into Normandy on D-day as part of Operation Overlord. There he earned his first Purple Heart.

On September 17, 1944, Dan jumped into Holland as part of Operation Market Garden. There he earned his second Purple Heart.

In December of 1944, Dan and the 101st Airborne made their way to Bastogne, Belgium, where they held off a desperate push by the Germans in temperatures well below zero, with no winter clothes. The Battle of the Bulge is where Dan earned his third Purple Heart.

His actions did not go overlooked. Amongst the multitude of medals he was awarded, Dan and his fellow paratroopers, Dick Kline and James Martin, were featured in the book "Three of the Last Screaming Eagles."

That book has now been made into a documentary film called "A Rendezvous with Destiny," which premieres on May 29 in Columbus, Ohio, at the National Veterans Memorial and Museum.

We owe so much to our World War II veterans, of whom we have fewer every day. I am so proud of Sergeant McBride. I can't think of a better way to honor his legacy than by immortalizing his story on film.

#### REBUILDING WITH THE AMERICAN JOBS AND FAMILIES PLAN

(Mrs. BUSTOS asked and was given permission to address the House for 1 minute.)

Mrs. BUSTOS. Mr. Speaker, I rise to recognize the transformation that the American Rescue Plan has made in all of our communities.

A week or so back, I traveled to a town called Kewanee, Illinois, to visit our Head Start classrooms there.

There was a teacher named Miss Candice, who told me that she loves her job. But she doesn't stay for the pay, she doesn't stay for the benefits, but for the families.

Miss Candice has a student in her class, and before that student, she had that student's siblings. All of the siblings in that family had passed through her classroom. She feels that she has helped this family grow up. And she has.

The American Rescue Plan isn't just about the numbers, though. It is about the 143,000 children in the district I serve who will be helped, the 27 million children nationwide. Child poverty cut in half. We are rebuilding our communities all over this great country, and we can't stop now.

We can keep rebuilding with the American Jobs and Families Act. Today and together, we can make this a once-in-a-century investment in our families, the future of our children, and our Nation.

Let's make sure teachers like Miss Candice can continue helping our families.

#### VIOLENCE IN THE MIDDLE EAST

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, I rise today with great concern over the Biden administration's foreign policy. The world has watched with growing concern as Hamas rockets have pummeled the Israeli people, forcing Israel to take retaliatory steps to protect its own citizens. This escalation occurs as the Biden administration has pivoted away from anything useful in the Middle East, neglecting Israel, which is one of our strongest allies.

Just recently, we have learned that over \$15 million in foreign aid from this year's phony Democrat coronavirus package went to the Palestinians, who take their orders from the terrorist group Hamas, which is a proxy state for Iran, who wishes the total eradication of Israel. What message does this send to our allies, sending money to both sides?

Similarly, President Biden is looking to restart the Obama-Biden Iran nuclear deal that President Trump smartly left. That naive accord had broad bipartisan opposition, including from now-Senate Majority Leader CHUCK SCHUMER, and was strongly opposed by Israel. It is astounding that President Biden would take the word of the Iranian Government, whose leaders call us their sworn enemy, and spurn our strongest ally in the region, Israel.

We have got to do better.

#### BRINGING AWARENESS TO TARDIVE DYSKINESIA

(Mr. PETERS asked and was given permission to address the House for 1 minute.)

Mr. PETERS. Mr. Speaker, I rise during Mental Health Awareness Month to bring attention to tardive dyskinesia, or TD, a persistent and potentially disabling movement disorder that can be a side effect of medications prescribed to treat mental illness.

According to a survey of people diagnosed with TD, more than half reported that the disorder seriously disrupts their sleep and their ability to work. People living with TD often face stigma, which can worsen mental health symptoms and cause withdrawal from society.

While TD affects over half a million people in the United States, it remains a relatively unknown condition, often unrecognized, and patients suffering from the illness may be misdiagnosed.

Earlier this month, Senator CHRIS MURPHY introduced S. 184, recognizing the week of May 2 to May 8 as Tardive Dyskinesia Awareness Week.

Improving awareness and understanding of TD will help reduce the stigma of mental illness and help us provide better treatment to this underserved patient population.

#### NATIONAL FOSTER CARE MONTH

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Madam Speaker, I rise today to recognize May as National Foster Care Month and to say thank you to every parent, volunteer, and mentor who work with our foster children.

I am a proud member of the Congressional Caucus on Foster Youth and had a foster brother growing up, who is still part of my family.

During this month, we renew our commitment to ensure that every child has a safe and loving family.

I know firsthand how a supportive and loving home can make all the difference in a young person's life.

There are over 460,000 children and youth in foster care. These children and youth range from infants to 18 years old, when they age out.

Foster youth who transition out of the foster care system without a permanent home are at a higher risk of unemployment, poor educational outcomes, health issues, early parenthood, long-term dependency on public assistance, increased rates of incarceration, and homelessness.

Every child deserves a safe, supportive, and permanent family. We have the responsibility to continue to create policies that will improve the outcomes of the overall well-being of foster youth and their families.

#### SUPPORT FOR LONGSHORE AND HARBOR WORKERS

(Mr. MRVAN asked and was given permission to address the House for 1 minute.)

Mr. MRVAN. Madam Speaker, I rise today to highlight legislation that I recently introduced, the Longshore and Harbor Workers COVID-19 Compensation Act.

I am extremely proud that this is my first piece of legislation and that it serves to protect the health, safety, and livelihoods of our Nation's maritime workers.

The current health pandemic has created serious challenges for these essential workers, including unpaid, mandatory quarantine requirements resulting from COVID-19 contraction or exposure.

In the First Congressional District of Indiana, the Burns Waterway Harbor generates more than \$15 billion in business revenue and supports over 80,000 workers, including union jobs with the International Longshoremen's Association.

I appreciate the support of my chairman on the House Education and Labor Committee, BOBBY SCOTT, and I look forward to working with all of my colleagues to support this invaluable workforce and to move this legislation forward as soon as possible.

#### WORSENING DROUGHT CRISIS IN CALIFORNIA

(Mr. VALADAO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. VALADAO. Madam Speaker, I rise today to call attention to the worsening drought crisis in California, which has become so devastating that farmers are abandoning their crops in the fields.

This was an asparagus field in Firebaugh, a small, rural town in my district. Recently, the farmer made the difficult decision to abandon the crop in that field to preserve water for his melon crops instead. You can clearly see the destruction this drought has wreaked on his farmland.

Promised water will now not be delivered. Farmers all over California are unable to bring their crops to harvest, crops that would have fed families across the United States.

With legislation like my bill, the RENEW WIIN Act, those farmers might have been able to save their fields rather than be forced to waste and destroy half-grown produce our Nation relies on California to grow.

If the House majority continues to refuse to take up legislation to address the drought, farmers won't have to choose between asparagus or melons, because they won't have the water to grow any food at all.

### CLOSING A LOOPHOLE THAT BLOCKS PHARMACEUTICAL COMPETITION

(Mr. VEASEY asked and was given permission to address the House for 1 minute.)

Ms. VEASEY. Madam Speaker, today, I urge my colleagues to pass the Fairness in Orphan Drug Exclusivity Act, which will close a loophole that blocks pharmaceutical competition and prevents innovative treatments for opioid abuse disorders from coming to the market.

The opioid crisis in this country, as you know, is very serious, and the COVID-19 pandemic has only exacerbated the problem. Because the pandemic and all of its underlying issues—fear of the virus, increased economic hardship, and the challenges of staying at home and maintaining a safe distance—opioid abuse disorders are skyrocketing, and the epidemic has taken a toll on communities in every corner of the country.

I am proud to co-lead this piece of legislation and that our Democratic majority pushed ahead with bringing it to the floor again for a vote amid last week's partisan attempts to hold this legislation hostage, because fighting the opioid epidemic cannot wait any longer.

In the past 20 years, we have seen a drastic increase in opioid addiction, with nearly every State in the Nation seeing a spike in overdose deaths. Passing our Fairness in Orphan Drug Exclusivity Act will help curb the senseless loss of life by expanding treatment options and driving down costs of new medicines.

### HONORING CAPTAIN MICHAEL D'ANGELO GARIGAN

(Mrs. GREENE of Georgia asked and was given permission to address the House for 1 minute.)

Mrs. GREENE of Georgia. Madam Speaker, I rise today to recognize the extraordinary life of Captain Michael D'Angelo Garigan, a dedicated law enforcement officer from my district, who passed away earlier this year.

Officer Garigan was born in Gordon County to a well-known and highly respected family. A Calhoun resident all his life, Captain Garigan invested in his community and bettered the lives of everyone around him.

Captain Garigan served the people of Gordon County for over three decades as a deputy, detective, and coordinator for the Gordon County Sheriff's Office. In fact, Captain Garigan was decorated over a dozen times for exemplary police work.

Outside the office, Captain Garigan was an active member of his community, serving his church as a deacon, broadcasting high school football games on the radio, and umpiring baseball and football games for local youth leagues.

Captain Garigan's exemplary contribution to the people of Gordon County should be honored and remembered. That is why I have introduced House Resolution 301, commending Captain Garigan for his devotion to his family, community, church, and the Nation.

My thoughts and prayers are with Captain Garigan's family and the people of Gordon County.

### LET'S GET BACK TO WORK

(Mr. TIMMONS asked and was given permission to address the House for 1 minute.)

Mr. TIMMONS. Madam Speaker, there are nearly 8 million job openings in the United States right now, yet the Federal Government is currently paying people to stay home instead of going to work.

Last year, the government took steps to protect and support the American people during a once-in-a-lifetime global pandemic. It was the right thing to do at the time. Now science tells us that we can resume life as normal.

Federal money was able to support workers during the peak of the pandemic, but now the best recovery plan is employment. The answer to our supply chain issues, rising unemployment rate, and inflation is not to continue to throw trillions of dollars at this problem. The real solution is to get people back to work.

We need to follow the lead of States, like my home State of South Carolina, and discontinue participation in the Federal unemployment programs.

Vaccines are available to anyone who chooses to get one. Let's get back to work.

### RIISING UNEMPLOYMENT

(Mr. GUEST asked and was given permission to address the House for 1 minute.)

Mr. GUEST. Madam Speaker, former President Ronald Reagan once said, "The best social program is a job."

Job creation and growing our economy are bipartisan issues that benefit all Americans.

This past year, we saw the impact that COVID had on our businesses, both large and small. But now, as we are reopening the economy, many employers are unable to find workers to keep up with the high demand for goods and services.

A major roadblock to businesses being able to hire staff comes from the Federal supplemental unemployment payments made on top of the unemployment already received by the States. These payments have caused many potential employees to continue collecting unemployment from the government rather than reentering the workforce.

Thankfully, many Republican Governors, including Mississippi's Governor Tate Reeves, have ordered the end of the Federal unemployment payments now that the economy is open.

As a Congress, we need to follow the example of Mississippi and other States and bring this program to a close, as more Americans find it possible to return to normal life.

### THE EXEMPLARY CAREER OF TOM TENBRINK

(Mr. HUIZENGA asked and was given permission to address the House for 1 minute.)

Mr. HUIZENGA. Madam Speaker, I rise today to recognize the exemplary career of Tom TenBrink and his legacy of service, dedication, and success in the Jenison community. On behalf of west Michigan, it is an honor to express my appreciation and gratitude for his many years of service to the students, staff, and families of Jenison Public Schools.

Mr. TenBrink's distinguished career with the Jenison Public Schools is coming to an end, as he is retiring after 34 successful years, 18 of which were spent as superintendent of the district.

As a faithful servant to west Michigan, Mr. TenBrink has spent his tenure establishing Jenison Public Schools as a destination district. He has fostered a family culture, prioritizing the importance of adopting attitudes of servant leadership, while also maintaining a commitment to educational excellence.

His steadfast leadership has led to the creation of the Jenison International Academy, the development of a K-12 Spanish immersion program, and the building of the Jenison Center for the Arts and a new Kids First early childhood center. Furthermore, the district has earned countless accolades under his leadership.

Tom, thank you for your leadership, dedication, and commitment not only to the students, but to the Jenison community and all of west Michigan. I hope you enjoy retirement knowing that Jenison and Georgetown Township would not be the place it is today without your leadership.

### GET AMERICA BACK ON TRACK

(Mr. MANN asked and was given permission to address the House for 1 minute.)

Mr. MANN. Madam Speaker, I rise today to urge Americans who can get back to work, get back to work.

It has been more than a year since the pandemic shut down the country. Today, nationwide coronavirus cases have dramatically decreased, and cases in Kansas alone are only 7 percent of what they were in January. We are getting back to normal. Businesses are ready to reopen and welcome back customers.

Unfortunately, President Biden's bonus, the new monthly unemployment checks being distributed on top of the checks unemployed persons already receive, is paying a premium for potential workers to remain at home rather than finding work. I have heard from

countless small business owners in the Big First who cite the Biden bonus as the reason why they cannot find workers and completely reopen.

The data doesn't lie. There are nearly 8 million open jobs in America right now, a new record. The Biden bonus, at a time when employers are searching for workers, is unwanted Federal Government interference in the marketplace.

I recently joined fellow Kansas Republicans in urging the Kansas Governor to opt out of enhanced unemployment benefits. I cosponsored the Help Wanted Act, which addresses the severe labor shortages caused by the Federal unemployment policy.

It is time to take off the masks, get our kids back to school, get our businesses open, and get people back to work so we can get America back on track.

#### LET US RESUME THE PEOPLE'S BUSINESS

(Mr. BURGESS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BURGESS. Madam Speaker, the pandemic has taken a terrible toll on the country. The pandemic has taken a terrible toll on Congress. In its current state, Congress is not working. We have restrictions on the voting process, we have widespread proxy voting and remote hearings. That has all contributed to the current state of dysfunction. But the good news is this can be fixed.

Look, the Doctors Caucus are Members of Congress with medical backgrounds, well-versed in evaluating medical risks and benefits for patients, proposed courses of action, and we have worked vigorously to educate our constituents that the coronavirus vaccines are safe and effective, yet we are not setting a good example of what happens when vaccine participation is high.

The Doctors Caucus has sent requests to the Office of the Attending Physician and the Speaker of the House appealing for updated guidelines consistent with the science and the Centers for Disease Control.

There will be a motion on the floor of this House later this afternoon, fully supported by members of the Doctors Caucus. I urge all Members to carefully consider that proposal and to vote in favor.

#### CONDEMNING THE HORRIFIC SHOOTINGS IN ATLANTA

(Ms. LETLOW asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. LETLOW. Madam Speaker, as a woman of faith, I am called to love my neighbor as myself and to bear one another's burdens. My heart is heavy with the burden, pain, and loss experi-

enced by the Asian American and Pacific Islander communities.

Unfortunately, we have seen a nationwide rise in hateful and harmful acts toward Asian Americans and Pacific Islanders. Targeted violence against anyone based on who they are cannot be tolerated. It is not who we are as a people and goes against everything we represent as a nation.

Today, I had hoped to be able to support H. Res. 275, condemning the horrific shootings of the eight Asian women in Atlanta, to honor the lives of the victims, and recognize the basic American fundamentals that reject hatred and violence.

Instead, what would have been a fitting and honorable resolution ended up being just another vehicle for delivering cheap shots against our former President.

I am disappointed that I cannot support this resolution as written.

#### GREATER HALL CHAMBER OF COMMERCE AGRIBUSINESS AWARDS

(Mr. CLYDE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CLYDE. Madam Speaker, I rise today to recognize the 2021 recipients of the Greater Hall Chamber of Commerce's annual agribusiness awards.

The Greater Hall Chamber of Commerce comes together each year to recognize and celebrate the contribution of agriculture in our everyday lives. We were blessed to be hosted by the Echols family at Jaemor Farms this year.

The Farmer of the Year award went to Mr. Scott Glover of Glo-Crest Dairy and Mountain Fresh Creamery. In fact, I recently had the privilege to tour Mr. Glover's farm, and it was indeed an impressive operation.

The Friend of Agriculture award was given to the Hall County School District's Agri-Business Center for their agriculture programs and the related education they provide to their students.

Cargill, Incorporated, was awarded the Outstanding Agribusiness award for its generous donations of nearly \$100,000 in the past number of years.

Additionally, Mr. Phil Hulsey was inducted into the Hall County Agriculture Hall of Fame for his incredible lifetime contributions as a dairyman.

Agriculture is the leading industry in Georgia, bringing in about \$73 billion annually. I thank the Greater Hall Chamber of Commerce for allowing me the opportunity to join them in honoring agricultural leaders in Hall County, Georgia.

Madam Speaker, I congratulate this year's winners on their achievements in the agriculture industry.

#### RECOGNIZING THE SERVICE OF JASON PHELPS

(Ms. TENNEY asked and was given permission to address the House for 1

minute and to revise and extend her remarks.)

Ms. TENNEY. Madam Speaker, it is my great honor to recognize my constituent services director, Jason Phelps, of New Hartford, New York, for 20 years of outstanding service to the people of upstate New York.

Jason began his service as an intern for former Congressman Sherry Boehlert in Washington, D.C., and, after a short time working for a nonprofit, became a member of Boehlert's Utica staff, where he dedicated himself to veterans' case work. Jason has worked for five different Members of Congress in the Mohawk Valley and has served countless veterans across the region.

No matter how complex the case, Jason is always ready to jump in to assist our veterans. From cutting through VA red tape, to making sure a veteran and their family receives the Purple Heart they earned through their service, Jason approaches each case with determination and compassion.

Not only is Jason an amazing veterans' advocate, he is also a role model and an inspiration to the many staff and interns he has worked with in all these offices throughout the years.

Jason, thank you for your many years of service to our brave veterans and for also being the guiding light for our staff and our community. We all look forward to working with you for many more years to come.

#### REMEMBERING ANDRE THE GIANT

(Mr. BISHOP of North Carolina asked and was given permission to address the House for 1 minute.)

Mr. BISHOP of North Carolina. Madam Speaker, last but certainly not least, today I rise to honor the life of the eighth wonder of the world on what would have been his 75th birthday: Andre Roussimoff, better known as Andre the Giant, who spent his final years in the small town of Ellerbe, right in the middle of the Ninth District of North Carolina.

Standing 7 feet 4 inches tall and weighing over 500 pounds, Andre was known for his time in the World Wide Wrestling Federation, where he was a fan favorite. During his professional career, he headlined WrestleMania and also defeated Hulk Hogan to win the WWF World Heavyweight Championship. To nonwrestling fans, he is best known for playing the role of Fezzik in the 1987 film "The Princess Bride."

Despite his great size, those who knew him found him to be gentle and kind. Andre passed away at the age of 46 in 1993, and his ashes were scattered on his beloved Ellerbe ranch.

I am proud today to pay tribute to the memory of Ellerbe's most famous resident.

#### FAIRNESS IN ORPHAN DRUG EXCLUSIVITY

Mr. PALLONE. Madam Speaker, pursuant to House Resolution 403, I call up

the bill (H.R. 1629) to amend the Federal Food, Drug, and Cosmetic Act with respect to limitations on exclusive approval or licensure of orphan drugs, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Ms. JACKSON LEE). Pursuant to House Resolution 403, the bill is considered read.

The text of the bill is as follows:

H.R. 1629

The SPEAKER pro tempore. The bill shall be debatable for 1 hour equally divided and controlled by the chair and ranking minority member of the Committee on Energy and Commerce.

The gentleman from New Jersey (Mr. PALLONE) and the gentlewoman from Washington (Mrs. RODGERS) each will control 30 minutes.

The Chair recognizes the gentleman from New Jersey.

#### GENERAL LEAVE

Mr. PALLONE. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and add extraneous material on H.R. 1629, the Fairness in Orphan Drug Exclusivity Act.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Madam Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 1629, the Fairness in Orphan Drugs Exclusivity Act, a bill that will help make some prescription drugs more affordable for the American people.

This Democratic Congress is committed to lowering the costs of prescription drugs so that families are no longer forced to choose between paying for a lifesaving drug or food and rent. This legislation today, H.R. 1629, closes the loophole that has blocked patients from accessing cheaper generic drugs.

Last Congress, this legislation passed the Energy and Commerce Committee and the House by voice vote. Last week, it garnered support from a large

majority in the House but not the two-thirds necessary to pass under suspension of the rules. And so, we are here again today to debate and pass H.R. 1629 that will help us address two national crises: first, the soaring costs of prescription drugs; and second, the ongoing opioid epidemic.

Madam Speaker, this legislation does that by closing a very narrow but real loophole in a program known as the orphan drug program. This program was created through the Orphan Drug Act, which has been successful in basically doing more research and discovery of new therapies to treat and even cure rare diseases. The law incentivizes the development of these lifesaving therapies by awarding 7 years of market exclusivity to manufacturers who receive orphan drug status.

There are two ways that manufacturers can receive these incentives. The first is when manufacturers develop drugs approved to treat diseases with patient populations of 200,000 or fewer. And the second way is if the manufacturer believes that the research and development costs are not expected to be recouped by sales of the underlying drug. This is known as the cost recovery pathway. It is rarely used, but unfortunately, it has led to manufacturers sometimes inappropriately receiving additional exclusivity and, therefore, delaying lower cost generics from coming to the market.

For example, under certain circumstances, if a manufacturer receives orphan drug status for one drug, that status and its incentives can be passed on to future drugs if those drugs treat the same condition and have the same active ingredient. The status and incentives would be available even if those future drugs do not meet the orphan drug qualifications.

What this means, Madam Speaker, is that future drugs can benefit from the 7 years of market monopoly without having to demonstrate that the drug will treat a population of 200,000 or fewer or that they may not be able to recoup the costs of producing the drug.

As a result of this loophole, some manufacturers are marketing widely used drugs to large populations while also blocking generic competition from coming to market.

Now, if I can give an egregious example of this, it comes from one of our most effective drugs to combat opioid use disorder. In 1994, an oral formulation of buprenorphine was granted orphan drug status. At the time, it was not expected that the drug would be prescribed frequently, and as a result, it was unlikely the manufacturer would recoup its development costs. More than 20 years later, however, in 2017, the same manufacturer developed a new injectable formulation of the same drug with the same active ingredient to treat the same condition. As a result, the manufacturer was able to prevent cheaper generics from coming to market.

But by 2017, the opioid epidemic worsened. Our response to the crisis

evolved, and millions were eventually prescribed buprenorphine for treatment, generating billions of dollars in sales.

We know that buprenorphine was not an orphan drug as the law envisions. Nevertheless, the new injectable drug was automatically granted orphan drug status and exclusivity based on the original oral drug's orphan drug designation. This delayed the cheaper generic treatments for opioid use disorder from coming to market, and it kept the price of the drug high and limited access for those in need of treatment.

While the FDA eventually recognized this issue with this particular drug and revoked its orphan drug designation, its exclusivity delayed generic competition that otherwise would be on the market today.

The bottom line is, Madam Speaker, we need every tool available to combat the opioid epidemic, including low-cost, affordable medication treatments, and loopholes like this have to be closed.

H.R. 1629 would stop this from happening again in the future. It requires drug manufacturers to demonstrate in their application to the FDA that each drug application considered under the Orphan Drug Act cost recovery pathway would be unable to recoup development costs at the time of approval. This would include all drugs that seek the orphan drug designation under the cost recovery pathway, including the injectable buprenorphine example I just described. The bill would also ensure that these rules apply to drugs already on the market, so no drug manufacturers can claim orphan drug status without first meeting this requirement.

Now, I want to explain, because I know this is complicated, this bill is narrowly tailored to fix a narrow but very real loophole in the law. We cannot allow these manufacturers to game the system any longer, and that is why we have to close this loophole today.

I thank Congresswoman DEAN, who is the sponsor of the bill. The merits of this bill are obvious, and I know she is going to talk about it more, but that is why it has received strong bipartisan support. I am confident that it will once again get bipartisan support today, make its way through the Senate, and the President will sign it.

I regret that we were not able to pass this legislation last week under suspension, but I believe that we will come together today to close this loophole. I thank our ranking member of the full committee, Mrs. RODGERS, for all of her help with this.

Madam Speaker, I reserve the balance of my time.

Mrs. RODGERS of Washington. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise today in support of H.R. 1629, the Fairness in Orphan Drug Exclusivity Act.

The Orphan Drug Act was enacted to incentivize the development of drugs

that treat rare diseases. Products designated as orphan drugs may be entitled to 7 years of market exclusivity, meaning a drug produced by another manufacturer that contains the same active ingredient to treat the same condition is barred from entering the market during this time.

However, we have seen in recent years that some drug manufacturers, in an effort to block competition from the market, have tried to take advantage of a loophole in existing law. H.R. 1629 will close this loophole and prevent potential abuse of this program in the future.

We must preserve incentives to innovate, especially for drugs that treat rare diseases, while preventing bad actors from attempting to exploit those incentives to benefit from a national crisis, as was done during the opioid epidemic.

This legislation strikes that careful balance. This bill garnered both Republican and Democrat support last Congress. I hope we can continue to work together to move H.R. 1629 forward in the future on a bipartisan basis.

Madam Speaker, I reserve the balance of my time.

Mr. PALLONE. Madam Speaker, I yield such time as she may consume to the gentlewoman from Pennsylvania (Ms. DEAN), the sponsor of this bill.

I commend her for all the work she has done on this bill. This has been several Congresses now, and we are hoping this will be the final one where we get this bill passed.

Ms. DEAN. Madam Speaker, I thank Ranking Member RODGERS and Chairman PALLONE for their leadership on this bill.

I, once again, rise in support of H.R. 1629, the Fairness in Orphan Drug Exclusivity Act.

This crucial legislation would close a current loophole that is used to block competition in the pharmaceutical marketplace.

The Orphan Drug Act of 1983 provided incentives for prescription drug manufacturers to develop products to treat rare diseases. This includes an exclusive 7-year marketing right for therapies that receive an orphan drug designation.

For a drug to qualify, it must either be a treatment for a disease or condition that affects fewer than 200,000 people in the United States or a drug intended for diseases that there is no reasonable expectation to recoup research and development costs.

It would require all drug manufacturers who obtain orphan drug status to prove that they have no reasonable expectation that they will recover R&D costs.

This legislation works to prevent companies from continuing to use orphan drug exclusivity status for a newly approved drug with an identical ingredient to the former version without having to prove the inability to recoup costs.

This exact circumstance, as the chairman described, happened when a

manufacturer of a buprenorphine product tweaked an older product that had received orphan drug status and subsequently was given a renewed orphan drug exclusivity.

Buprenorphine is used as a treatment for opioid use disorder to help those recovering from addiction. Unfortunately, at the time, the opioid epidemic was raging, as it is today, and was by no means a rare disease. And the drug was by no means a market loser. It was a moneymaker.

Closing this loophole would ensure that products do not receive an unfair market advantage and will get more affordable drugs to patients. It ensures consistency with the spirit and intent of the Orphan Drug Act.

Know that we want to encourage and support the development of rare disease treatments and therapeutics. It is critically important. But we cannot allow this important incentive to be co-opted to allow for unfair market competition for drugs that are not a commercial loss.

This bill was supported unanimously last Congress and has broad support among patient advocates. This bill is about ensuring market competition, reducing barriers to the development of new treatments, and, ultimately, supporting patients.

Madam Speaker, I include in the RECORD a letter from 16 patient advocacy organizations in support of this legislation.

MARCH 9, 2021.

Re H.R. 1629—The Fairness in Orphan Drug Exclusivity Act.

Hon. MADELEINE DEAN,  
Washington, DC.

Hon. MARC VEASEY,  
Washington, DC.

DEAR REPRESENTATIVES DEAN AND VEASEY:

Thank you for your leadership on the re-introduction of H.R. 1629, The Fairness in Orphan Drug Exclusivity Act. Our nation is in crisis. Each day, 130 Americans die from an opioid overdose, and according to recent provisional data from the Centers for Disease Control and Prevention, between June 2019 and May 2020, the number of people who died of an opioid overdose increased by 38.4%.

We have a responsibility to ensure that all treatment options are made available to those living with opioid use disorder (OUD). Last year, this important legislation was approved by the House of Representatives unanimously. Unfortunately, the Senate was unable to also act on the measure before the 116th Congress adjourned. The new Congress now has an opportunity to pass this legislation swiftly and improve access to life-saving medication assisted treatments and prevent more lives from being lost. We, the undersigned organizations, support H.R. 1629 and urge quick passage of this important bill that will help ensure the availability of vital treatment options for OUD that can save American lives.

The Orphan Drug Act, enacted in 1983, allows the Food and Drug Administration (FDA) to grant manufacturers Orphan Drug Designation (ODD) and Orphan Drug Exclusivity (ODE) to a product developed to treat rare diseases and conditions affecting less than 200,000 patients. In addition, a manufacturer also can qualify for ODD and ODE if more than 200,000 patients are affected, but there is "no reasonable expectation" of recovering development costs. Few know about

this option, and as a result it is exceedingly rare with only three uses to date.

In such cases, if a newly approved product has the same active ingredient as a previous product that received orphan designation and exclusivity because the FDA determined the original drug could not recoup its development costs, the newly approved product does not have to demonstrate the inability to recoup its development costs. It does not matter how much time has passed, or how much money the newly approved drug is predicted to make. This loophole creates the potential for abuses within the system, and it is not consistent with intent of the Orphan Drug Act.

Enacting H.R. 1629 will: fix this loophole in a narrow and targeted manner to prevent this abuse of the Orphan Drug Act; preserve incentives for development of products treating rare diseases and conditions; and ensure new treatment options come to market to treat OUD.

During this public health emergency, we need all the tools we can muster to fight this crisis. We should not tie one hand behind our back as the exploitation of this loophole would do.

More than 2.1 million Americans live with OUD, making this disease far from rare. This disease is a national public health emergency, and we need to close this loophole to ensure that all safe and effective treatments are available to fight this disease. Thank you again for your leadership on this issue, and we look forward to working with you to help pass H.R. 1629.

Ms. DEAN. Madam Speaker, I include in the RECORD the Statement of Administration Policy issued by the Office of Management and Budget on May 17 of this year in support of this bill.

#### STATEMENT OF ADMINISTRATION POLICY

H.R. 1629—FAIRNESS IN ORPHAN DRUG EXCLUSIVITY ACT—REP. DEAN, D-PENNSYLVANIA, AND TWO COSPONSORS

The Administration supports House passage of H.R. 1629, the Fairness in Orphan Drug Exclusivity Act. Orphan drug status is intended to encourage companies to develop promising drugs for rare diseases. Current law provides market exclusivity for drugs that treat any disease or condition which (A) affects fewer than 200,000 persons in the United States, or (B) affects more than 200,000 in the United States and for which there is no reasonable expectation that the cost of developing and making available in the United States a drug for such disease or condition will be recovered from that drug's sales in the United States. H.R. 1629 affects only drugs that qualify under the latter provision. Current law allows market exclusivity to be extended for a new version of the same drug without the drug developer having to show a lack of profitability for that new version as well. This legislation would close that loophole, requiring all drugs that obtain seven years of market exclusivity for conditions affecting 200,000 or more people to illustrate that they have no reasonable expectation of recovering R&D costs through U.S. sales.

The Administration applauds these steps to ensure Americans have access to high quality, affordable treatments.

Ms. DEAN. Madam Speaker, I thank Chairman PALLONE for his support on this bill, and I urge all members to support its passage.

Mrs. RODGERS of Washington. Madam Speaker, I yield back the balance of my time.

Mr. PALLONE. Madam Speaker, I would ask for support for this bill from both sides of the aisle. As I have mentioned in the past, it has passed the House previously.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. All time for debate has expired.

Pursuant to House Resolution 403, the previous question is ordered on the bill.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mrs. GREENE of Georgia. Madam Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3(s) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question are postponed.

All points of order against provisions in the bill are waived. The SPEAKER pro tempore. The gentleman from Massachusetts is recognized for 1 hour.

Mr. MCGOVERN. Madam Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from Oklahoma (Mr. COLE), my friend, pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

#### GENERAL LEAVE

Mr. MCGOVERN. Madam Speaker, I ask unanimous consent that all Members be given 5 legislative days to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. MCGOVERN. Madam Speaker, I yield myself such time as I may consume.

Yesterday, the Committee on Rules met and reported a rule, House Resolution 409. The rule provides for consideration of H.R. 3233 to establish a National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act, under a closed rule.

The rule provides 1 hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Homeland Security or their designees and provides one motion to recommit.

The rule also provides for consideration of H.R. 3237, the Emergency Security Supplemental to Respond to January 6 Appropriations Act, 2021, under a closed rule.

The rule provides 1 hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Oversight and Reform or their designees, and provides for one motion to recommit.

Madam Speaker, it has been 133 days since an angry mob of insurrectionists tried to stop the certification of a free and fair election in America. The question before us today is this: What are we going to do about it?

Some of my colleagues on the other side want to sweep this dark chapter under the rug. Just last week, one Republican said the events of January 6 resembled a "normal tourist visit."

Madam Speaker, I was here presiding over the House on January 6. People died that day. Police officers were beaten and bloodied. America's Capitol, the symbol of our freedom and the

citadel of our democracy, was desecrated by a mob that wanted to invalidate an election. There was nothing normal about it.

It is not normal for a mob to break into this complex to try and hang the Vice President of the United States and harm other elected officials.

It is not normal for insurrectionists to try to stop the certification of an American election, one that judge after judge after judge said was free and fair. And it is not normal for Congress to respond by doing nothing. That is why we are considering the underlying legislation contained in this rule. It will establish a bipartisan 9/11-style commission to investigate what happened, a commission led not by politicians, but by experts.

Now let me say this plainly: A vote for this commission is a vote to make sure this never happens again. And I want to recognize the incredible work of the chairman and ranking member of the Committee on Homeland Security in navigating this truly bipartisan deal. It is one that will keep the focus where it should be, solely on the events of January 6. And I look forward to the Commission's report at the end of the year. But the truth is, we cannot wait until then to fix what we already know needs fixing.

We need to upgrade the physical safety of this and other Federal buildings. We need to increase security in district offices, repay the National Guard for their service in the aftermath of the insurrection, and provide support to the overworked Capitol Police force that keep us all safe day after day.

Madam Speaker, this is how you respond responsibly to what happened 4 months ago, not with deflection or mistruths, but by taking action to protect not only this complex and those who work, serve, and visit here, but to also protect our very democracy, and making sure we never become a country that lets any angry mob decide who the next President will be.

Madam Speaker, only the voters can do that. We need to put the facts on RECORD here, to tell the truth and not spread lies. And the truth is that some on the other side are afraid to do anything around here because they are afraid, afraid of the truth, afraid because their leadership doesn't want to offend the ex-President and his big lie. That is all I could think of when I read the minority leader's deeply troubling statement opposing the January 6 commission.

Now, even though it is bipartisan, even though his own ranking member negotiated the deal, even though we gave him virtually everything he asked for during the negotiations, a Republican aide said it best when they were quoted in the press yesterday saying this: "I think Kevin was hoping that the Democrats would never agree to our requests; That way the commission would be partisan and we can all vote 'no' and say it is a sham operation, because he knows Trump is going to

lose his mind." Lose his mind over a bipartisan commission.

Madam Speaker, this moment is a choice, a choice between the truth or siding with the originator of the big lie. To my friends on the other side, I am asking you to lead with the courage of your convictions. Vote your conscience. Support this bipartisan commission, not just because it is the right thing to do, but support it out of respect, out of respect for your colleagues, for your staff and the support staff here, for the Capitol Police, but, most importantly, respect for this institution.

Now, I have cast some tough votes in my career, but casting a vote to establish a bipartisan commission to establish an insurrection is not one of them. I appeal to my colleagues to do the right thing, to lead with courage, and support this legislation.

Madam Speaker, I reserve the balance of my time.

Mr. COLE. Madam Speaker, I thank my good friend, the distinguished gentleman from Massachusetts, Chairman MCGOVERN, for yielding me the customary 30 minutes, and I yield myself such time as I may consume.

Madam Speaker, today's rule covers two items. The first item I will discuss is H.R. 3237, a supplemental appropriations bill intended to provide security funding for the Capitol complex, including funding for the U.S. Capitol Police, the National Guard, and other agencies that responded to the January 6 attack on the Capitol complex, as well as to provide funds to address the coronavirus throughout a variety of agencies Congress directly controls.

Although the process leading to this bill started out with bipartisan negotiations, unfortunately, no deal was reached. Instead of negotiating with Republicans on our counterproposal, as is typical in these discussions, Democrats walked away, once again, choosing to go it alone with the bipartisan bill before us today.

Madam Speaker, it is truly disappointing that Democrats were unwilling to continue to work towards an agreement with Republicans on a matter of this magnitude, and given that the Senate is in no hurry to take up this legislation, a few additional weeks of discussion could and likely would have led to a bipartisan product instead of a product destined for the legislative graveyard.

In the wake of the January 6 attack, I would hope that the majority would join with Republicans and choose to speak with one voice. Instead, like so many items in this Congress, the majority has insisted on its way or the highway. And today, they are doing it so again with this partisan bill.

House Republicans and even some Senate Democrats have concerns with this package. The bill creates a rapid response force with the D.C. National Guard. Any rapid response force intended to provide backup for the United States Capitol Police and to

protect the Capitol complex should be under the control of, and housed within Congress.

As a number of my colleagues mentioned during the debate in the Committee on Rules yesterday, housing these capabilities within the D.C. National Guard introduces the exact same concerns my friends on the other side raised in the aftermath of January 6, that Congress would be reliant on the executive branch to deploy this rapid response force.

Madam Speaker, I have deep concerns about putting this rapid response force under the control of any other entity, whether that is the government or the District of Columbia or the executive branch. I also have grave concerns about assigning this role to the military since this is undoubtedly a law enforcement function.

Further bipartisan and bicameral negotiations would have helped us to tailor the package to allay some of the serious concerns Members have, and at the same time would direct funds to where they are needed most.

Madam Speaker, I do know that what the House passes this week will not be the final word. And I am hopeful that in the not-too-distant future, the House will take up a different version of this package, one that has been negotiated with Republicans and that can pass the Senate, and I look forward to supporting that package before the President signs it into law.

Madam Speaker, our second item for today is H.R. 3233, a bill which establishes a national commission to investigate the January 6 attack on the United States Capitol complex.

I thank Ranking Member JOHN KATKO and Chairman BENNIE THOMPSON of the Committee on Homeland Security for their hard work in putting this legislation together. They took an unworkable and hyper-partisan proposal from the Speaker and turned it into a far better bill. I commend these two gentlemen for their desire to find bipartisan agreement.

However, I continue to have concerns with the legislation, concerns that could have been addressed if several of the amendments proposed at our Committee on Rules hearing would have been made in order.

□ 1300

On an issue this serious, the full House deserves the opportunity to debate and discuss areas of disagreement to see if we can find common ground. One of these areas of continued disagreement is that of scope, which remains too narrow in the proposal.

As the culture of our national politics has coarsened over the past several years, there has been a resulting broader wave of political violence in this country. This includes events like the 2017 domestic terror attack that targeted Republican Members of Congress at a baseball practice, and which would have been catastrophically worse but for the bravery of the U.S. Capitol Police officers who were present that day.

It includes the April 2 attack that killed U.S. Capitol Police Officer Billy Evans.

It includes the wave of violence, rioting, and property destruction that swept across the country last summer.

The commission should have specific flexibility to examine these events in their appropriate context.

I am also concerned about current language in the bill related to the ongoing work of law enforcement to bring the perpetrators of January 6 to justice. There are multiple investigations already underway. Several committees in both the House and the Senate have held, and will continue to hold, hearings on the topic.

The Architect of the Capitol is reviewing security vulnerabilities in the Capitol complex. As of yesterday, more than 450 people have been arrested in connection with the events of January 6, with at least 100 more arrests to come. All of these individuals will be prosecuted to the fullest extent of the law, as well they should.

Given each of these ongoing investigations and proceedings, I fear that adding yet another investigation from this proposed commission would only muddy the waters and make achieving due process and reaching justice all that much harder.

For that reason, I supported an amendment offered in the Rules Committee that would ensure that the ongoing and critically important work of law enforcement would continue unimpeded by this commission. For reasons I do not fully understand, this amendment was blocked.

Moreover, in my personal opinion, the commission would benefit from any revelations emerging from the investigations currently underway.

In addition, I note that it was 14 months between the events of 9/11 and the creation of the 9/11 commission. During that time, many facts emerged that informed the investigation of the commission. The same could be true here. As such, it makes sense to take more time prior to commencing an undertaking like this commission.

Though I have reservations about the bill, I have no reservations at all about the job Ranking Member KATKO and Chairman THOMPSON have done. I am hopeful that this bill will be improved further as it proceeds through the legislative process.

Madam Speaker, I urge opposition to this rule, and I reserve the balance of my time.

Mr. MCGOVERN. Madam Speaker, I yield myself such time as I may consume.

I also agree with the gentleman that Chairman THOMPSON and Ranking Member KATKO deserve an enormous amount of credit. They negotiated a truly bipartisan deal.

I have taken note of the letter that Minority Leader MCCARTHY sent to Speaker PELOSI of all the things he wanted in this deal, and he got virtually every one of them, all in this bi-

partisan deal. Now, all of a sudden, it is not good enough.

All of the concerns that my good friend raised are addressed in this bill. The commission could look at anything and investigate anything related to the violence that occurred here on January 6.

I mean, what happened here, isn't that a big enough deal to merit an investigation?

I don't get it.

In the bill, by the way, is language that is quite clear about how this commission will not interfere with any other ongoing investigations. In fact, very similar to the 9/11 commission, it will be informed by other investigations and complement other investigations.

So, again, I urge my colleagues, Democrats and Republicans, to vote for this commission, out of respect for the people who work here, out of respect for this institution, out of respect for our democracy.

Madam Speaker, I yield 1 minute to the gentlewoman from the District of Columbia (Ms. NORTON).

Ms. NORTON. Madam Speaker, as the Congresswoman from the District of Columbia, where the January 6 insurrection occurred, I was one of the first Members of Congress to call for and introduce legislation to create a 9/11-style commission to investigate the attack and to ensure that it never happens again. I strongly support the commission bill.

The supplemental security appropriations bill provides \$66.7 million to eliminate the long-running deficit in the Federally-funded D.C. Emergency Planning and Security Fund. That fund pays for the unique public safety and security costs D.C. incurs as the Nation's capital, and is designed to cover the District's costs up front, so that D.C. does not have to expend local funds for Federal purposes and seek an appropriation to be reimbursed after the fact.

Over the last several years, our Republican colleagues have opposed fully funding the D.C. Fund. The January 6 insurrection shows Congress must never shortchange security in the Nation's Capitol again.

I also appreciate that the appropriations bill would mirror two of my bills.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. MCGOVERN. Madam Speaker, I yield an additional 30 seconds to the gentlewoman from the District of Columbia.

Ms. NORTON. I also appreciate that the appropriations bill would mirror two of my bills, prohibiting the use of funds in the bill to install permanent aboveground fencing at the Capitol complex, and requiring Capitol Police officers to wear body cameras.

In February, I introduced legislation to prohibit funds for permanent fencing at the Capitol complex, and in March the House passed my bill to require Federal police officers to wear body

cameras as part of the George Floyd Justice in Policing Act of 2021.

Mr. COLE. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, if we defeat the previous question, I will offer an amendment to the rule to bring up House Resolution 153, a resolution condemning the recent hate crimes committed against Asian Americans and Pacific Islanders.

Madam Speaker, I ask unanimous consent to include the text of my amendment in the RECORD, along with extraneous material, immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oklahoma?

There was no objection.

Mr. COLE. Madam Speaker, I yield 4 minutes to the gentlewoman from California (Mrs. STEEL), my good friend, the author of the resolution, to further explain the amendment.

Mrs. STEEL. Madam Speaker, I rise in opposition to the previous question.

If the previous question is defeated, Republicans will amend this rule to immediately consider House Resolution 153, the condemning recent hate crimes committed against Asian Americans and Pacific Islanders.

This bipartisan bill was the very first bill I introduced in Congress.

I am here today to condemn the recent discrimination and violence the AAPI community has experienced. I spoke on this issue yesterday, and I am proud to be standing here again today.

I was born in Korea and raised in Japan. I am living my American Dream and I am a proud American. I am honored every day to represent my community in Congress. Unfortunately, hate crime against the Asian-American community is not new. And as an American who loves this country dearly, this issue is very personal to me.

Hate crimes committed against Asian Americans and Pacific Islanders have been on the rise since the start of the COVID-19 pandemic. Between March and December of last year, nearly 3,000 firsthand accounts of Asian-American and Pacific Islander hate crimes were recorded in the United States. The reporting has now been updated by the group Stop AAPI Hate, and between March 2020 and March 2021, more than 6,000 hate crimes or hate incidents were reported. This includes physical assault, verbal assault, and online bullying of Asian Americans.

My home State of California makes up more than 40 percent of these incidents and crimes. It is heartbreaking to read the news stories of these crimes, and my heart goes out to all those who have been victims of this violence. That is why the first bill I introduced in Congress in February was H. Res. 153. It is the only bipartisan legislation in the House of its kind, and I am proud that it has been cosponsored by several of my Democratic colleagues, including Congressmembers

KATIE PORTER, LOU CORREA, ALAN LOWENTHAL, and MIKE LEVIN.

This resolution is very simple. It condemns all expressions of anti-Asian and Pacific Islander intolerance, and calls on Federal, State, and local officials to work together to investigate and improve reporting of these crimes.

Yesterday, I spoke about how I was disappointed that this truly bipartisan resolution was not a part of this fixed conversation, and was not being considered on the floor. But, today, we have another opportunity to show solidarity with our AAPI community and vote on my bipartisan resolution.

Discrimination and hate against any community are against the fundamental values of American cultural. Discrimination and hate have no place in this great country. Madam Speaker, I am proud that my resolution has support from both sides of the aisle, unlike the other bills on the floor today. I hope we can work together to put an end to this hate. I am asking my colleagues to vote “no” on the previous question so that I can bring my bipartisan bill condemning hate crimes against AAPI on the floor.

Mr. MCGOVERN. Madam Speaker, I reference the text of S. 937 and H. Res. 275, a bill and a resolution we are considering this week. S. 937 was passed yesterday, and right after this debate, we are going to adopt H. Res. 275. They are two pieces of legislation condemning hate crimes against Asian Americans in this country.

Madam Speaker, I yield 1 minute to the gentlewoman from New Jersey (Ms. SHERRILL).

Ms. SHERRILL. Madam Speaker, I rise today in strong support of H.R. 3233, which creates a bipartisan independent commission to investigate the attacks on the Capitol on January 6.

Why do we need this commission?

We need this commission because the American people must understand exactly what happened so we can all forge a more resilient democracy.

We need this commission because, on January 6, I was lying on the floor to avoid possible shooters in this very Chamber, holding a gas mask in one hand and a phone in the other as I called my husband in case I didn't make it home.

We need this commission because, despite our own experiences, despite video footage, despite testimony by police, it has been suggested that this was simply a normal tourist event. Well, we have a lot of tourism where I am from. People visit our beautiful shore and historic sights, and no tourist event I have ever seen looks like that day.

As The New York Times reported: The pure savagery of the mob was breathtaking, as cataloged by injuries inflicted. One police officer lost an eye; another, the tip of his finger. Still another was shocked so many times with a taser gun that he had a heart attack.

Madam Speaker, we need this commission.

Mr. COLE. Madam Speaker, I reserve the balance of my time.

□ 1315

Mr. MCGOVERN. Madam Speaker, I yield 1 minute to the gentleman from Arizona (Mr. GALLEGO).

Mr. GALLEGO. Madam Speaker, when I joined the Marine Corps, the most sacred part of my oath was to defend the Constitution of the United States against all enemies, foreign and domestic. I took that oath again when I was sworn into office as a Member of Congress. I never thought I would have to defend this oath against domestic enemies on the floor of Congress—but on January 6, I did.

Democracy is fragile. We have seen it across the world: When leaders cower in the face of an attack on democracy, it can be lost. Let's be clear: Democracy itself was violently attacked on January 6. If we don't stand up for it, it will happen again. If we don't tell the truth about what happened on January 6, it will happen again. If we don't have swift and harsh accountability for everyone involved in January 6, it will happen again.

If all of us don't stand up to traitors and cowards in defense of our Constitution, January 6 will happen again. That is why all of us have an obligation today to defend our democracy and support the creation of a national commission to investigate the January 6 attack, because it can never be allowed to happen again.

Mr. COLE. Madam Speaker, I continue to reserve the balance of my time.

Mr. MCGOVERN. Madam Speaker, I include in the RECORD a statement from the family of United States Capitol Officer Howie Liebengood, who died by suicide. His death was a direct result of the trauma and strain from the January 6 attack.

Madam Speaker, in the statement, the family of Officer Liebengood states: “We believe a thorough, non-partisan investigation into the root causes of and the response to the January 6 riot is essential for our Nation to move forward. Howie's death was an immediate outgrowth of those events.”

LIEBENGOD FAMILY STATEMENT ON THE JANUARY 6TH COMMISSION AND SECURITY SUPPLEMENTAL

FAMILY OF FALLEN USCP OFFICER HOWIE LIEBENGOD CALLS ON CONGRESS TO PASS BOTH PIECES OF LEGISLATION

WASHINGTON, DC—Today, the Office of Congresswoman Jennifer Wexton (D-VA) released the following statement from the family of United States Capitol Police Officer Howie Liebengood regarding the National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act and the Emergency Security Supplemental to Respond to January 6th Appropriations Act.

“We believe a thorough, non-partisan investigation into the root causes of and the response to the January 6th riot is essential for our nation to move forward. Howie's death was an immediate outgrowth of those events. Every officer who worked that day, as well as their families, should have a bet-

ter understanding of what happened. Uncovering the facts will help our nation heal and may lessen the lingering emotional bitterness that has divided our country. We implore Congress to work as one and establish the proposed Commission.

“Additionally, improved mental health for USCP officers has been one of our goals for the past four months. Through the tireless efforts of Congresswoman Wexton, we are honored a wellness program bearing Howie's name has been proposed in the security supplemental along with more resources for the program. We welcome and support the new funding and staffing initiatives that will help prevent future tragedies among the USCP.”

Howie C. Liebengood grew up and lived in Vienna, Virginia and was Congresswoman Wexton's constituent. He was raised in the Capitol Hill community, where his father, Howard S. Liebengood, served for decades as a Hill staffer and later the Senate Sergeant at Arms. Howie received a Bachelor's Degree at Purdue University, a Master's Degree at the University of Memphis, and started a career as a race car driver in the 1990s. Howie joined the Capitol Police in 2005 and served as an officer for 15 years. He was assigned to the Senate division and often worked at the Delaware entrance of the Russell Senate Office Building. Howie took his life on January 9, and his death was a direct result of the trauma and strain from the January 6th attack on the Capitol and the around-the-clock shifts in the subsequent days. He is survived by his wife, Dr. Serena McClam Liebengood, his siblings, John Liebengood and Anne Winters, and many family and friends who loved him dearly.

Following Howie's death, Dr. Liebengood and Howie's family have been advocating [[iqconnect.house.gov](https://iqconnect.house.gov)] to have Howie's death designated “in the line of duty;” to support much needed USCP reforms; and to promote positive change around mental health issues for his fellow law enforcement officers, both with the Capitol Police and with law enforcement agencies generally.

Mr. MCGOVERN. Madam Speaker, I yield 1 minute to the gentleman from Tennessee (Mr. COHEN).

Mr. COHEN. Madam Speaker, there is hardly anything this Congress can do that will be more important than having a bipartisan commission to look at the insurrection that occurred in this Capitol on January 6. There was an attempt to overturn our Constitution and to displace the electoral college and the peaceful transition of power that makes our country unique and special among the countries of the world.

This wouldn't have happened but for the President at the time telling people to come to Washington on January 6—no other date but the day of the electoral college—to fight like hell or you won't have a government anymore and telling them he would walk with them to the Capitol and told them where to go.

This cannot happen again. If we don't have this commission and reveal the truth, it will happen again. There is only one reason you wouldn't vote for this, Madam Speaker: if you can't handle the truth. Get the truth out.

Mr. COLE. Madam Speaker, I continue to reserve the balance of my time.

Mr. MCGOVERN. Madam Speaker, I include in the RECORD a May 19 letter

from the Bipartisan Policy Center in support of H.R. 3233, the National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act.

In the letter, the cochair of the 9/11 Commission, Governor Tom Kean and Representative Lee Hamilton state: "A full accounting of the events of January 6 and the identification of measures to strengthen the Congress can help our country heal."

[From BPC Action]

BPC ACTION URGES SUPPORT FOR H.R. 3233

H.R. 3233, the "National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act," is a crucial step for the country to get the truth of those shocking events and agree on how to ensure they never occur again. The Bipartisan Policy Center is encouraged that the agreement reflects the principles of 9-11 Commission chairs Gov. Tom Kean and Rep. Lee Hamilton, who stated, "A full accounting of the events of January 6th and the identification of measures to strengthen the Congress can help our country heal."

A single narrative of the facts of that day and actionable recommendations for preventing them from recurring are the predicate for ensuring our democracy is respected and protected. This bipartisan, independent commission is structured so experts will be empowered to objectively assess the evidence and chart a path forward.

In this midst of opportunity for growth and healing, it is crucial that we reflect on our history: the strength of the 9/11 commission was that it was bipartisan and unified by the imperative of national security. Twenty years later, we are reminded of the security challenges this nation faces, and we must come together in the same way we did following 9/11.

We applaud the House and Senate committees and law enforcement investigations that have laid groundwork for an independent commission to begin its work—and House and Senate leaders, especially Chairman BENNIE THOMPSON and Ranking Member JOHN KATKO, for creating a process that has a real chance for success. We urge Congress to support H.R. 3233.

[From Issue One]

JOINT STATEMENT FROM GOVERNOR TOM KEAN AND CONGRESSMAN LEE HAMILTON, CHAIRMAN AND VICE CHAIRMAN OF THE 9/11 COMMISSION

"We very strongly urge House Members to support H.R. 3233, the bipartisan National Commission to Investigate the January 6 Attack on the United States Capitol Complex. That bill would create a 9/11 style commission to investigate the January 6th assault on the U.S. Capitol. That was a dark day in American history, one of the darkest.

"As Chairman and Vice Chairman of the 9/11 Commission, unity of purpose was key to the effectiveness of the group. We put country above party, without bias, the events before, during and after the attack. We sought to understand our vulnerabilities in order to prevent future attacks or future acts of terrorism.

"Today, democracy faces a new threat. The January 6 attack on the U.S. Capitol was one of the darkest days in the history of our country. Americans deserve an objective and an accurate account of what happened. As we did in the wake of September 11, it's time to set aside partisan politics and come together as Americans in common pursuit of truth and justice."

Mr. MCGOVERN. Madam Speaker, I yield 3 minutes to the gentleman from

Mississippi (Mr. THOMPSON), who is the distinguished chairman of the Committee on Homeland Security.

Mr. THOMPSON of Mississippi. Madam Speaker, I rise in support of H. Res. 409, which allows for the debate on H.R. 3233, the National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act. After months of negotiations, last week I was pleased to introduce this measure with the gentleman from New York (Mr. KATKO).

Back in 2007, I was proud to be the lead sponsor of legislation to implement the unfulfilled recommendations of the 9/11 Commission. I can say with certainty, at that time, I could never have imagined that I would be standing here today, almost 15 years later, advocating for the establishment of a 9/11-style commission to investigate a violent domestic attack on the United States Capitol.

On January 6, the world watched Americans storm the Capitol and engage in violence to try to intimidate and prevent Congress from carrying out its constitutional duty to certify a Presidential election, a solemn process central to the peaceful transfer of power in our democracy.

Like the 9/11 terrorist attacks, the events of January 6 have cast a long shadow on our country. Like the 9/11 terrorist attacks, it has raised fundamental questions about information-sharing, coordination, preparedness, and response at all levels of government.

When the defenses around the citadel of our democracy fail as profoundly as they did on January 6, then attention must be paid. At least one Capitol Police Officer died because of the cause of the violence that day. Others died too, and injuries were extensive also—not the least of which is the body blow of Americans' confidence that the reforms undertaken after 9/11 would deliver better information-sharing and coordination to keep us secure.

H.R. 3233 authorizes the establishment of a 10-member commission that mirrors the 9/11 Commission, the gold standard for bipartisan commissions. The January 6 Commission would be required to investigate and report on all the facts and causes of the attack including relevant influencing factors that may have contributed to the attack.

Given how politically charged the events of January 6 have become, we need to come together in a patriotic, bipartisan way and approve this independent body, just as we did when we approved the creation of the 9/11 Commission. The 9/11 Commission acted not out of partisanship, but out of patriotism. We need that same sense of duty today. Apathy is not a security strategy, and neither are ignorance or willful disregard.

After such a shocking attack, nothing short of a full accounting of what took place will put us on the path to improving our homeland security.

Mr. COLE. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I want to thank my good friend, the distinguished chairman of the Homeland Security Committee, for his excellent work on this bill; and I want to thank his ranking member and negotiating partner. I think they, frankly, moved us in the right direction toward agreement.

We continue to have concerns. It is a long, legislative process. Obviously, we will have to pass something through the Senate as well. So it is my hope we can build upon their work and continue to move forward.

We are not prepared at this time to provide huge support for this bill. We think it can continue to improve. But that doesn't take anything away from my appreciation and admiration for the gentleman from Mississippi for his good work. We will continue to try and work with him and others and get to a place we can all come to agree.

Madam Speaker, I reserve the balance of my time.

Mr. MCGOVERN. Madam Speaker, let's be clear that opposition to this commission is not about substance or policy; it really is about politics, plain and simple. At least, my Republican colleagues in the Senate side are willing to admit that. Senator THUNE said that there is concern among Republicans that the findings could be "weaponized politically and drug into next year."

I get that his members want to "be moving forward and not looking backward," but this was an attack on the United States Capitol, and all the people who work here. It was an attack on our democracy.

Madam Speaker, I include in the RECORD a CNN article entitled "Republicans fear January 6 probe could undercut 2022 midterm message."

[From CNN, May 19, 2021]

REPUBLICANS FEAR JANUARY 6 PROBE COULD UNDERCUT 2022 MIDTERM MESSAGE

(By Manu Raju)

Senior Republicans are making clear they have little interest in moving forward with a sweeping January 6 investigation in part because a detailed probe could become politically damaging and amount to a distraction for their party just as control of Congress is at stake in next year's midterm elections.

Publicly and privately, Republicans are making that case, with Senate GOP Whip John Thune noting that there's concern among some GOP members that the findings of the probe "could be weaponized politically and drug into next year." "I want our midterm message to be on the kinds of things that the American people are dealing with: That's jobs and wages and the economy and national security, safe streets and strong borders—not relitigating the 2020 elections," Thune told CNN. "A lot of our members, and I think this is true of a lot of House Republicans, want to be moving forward and not looking backward. Anything that gets us rehashing the 2020 elections I think is a day lost on being able to draw a contrast between us the Democrats' very radical left-wing agenda."

Thune's comments came moments after Senate GOP Leader Mitch McConnell announced his opposition on the floor, contending it would duplicate ongoing probes

and contending the deal—which was reached between a House Republican and House Democrat—is designed to find a conclusion that would be in “Democrats’ hands.” The commission would be structured so 10 members—chosen equally between the leaders from both political parties—could report by year’s end on what happened on January 6, as well as the “influencing factors” behind it.

It’s clear that such an investigation would also look at then-President Donald Trump’s role in promoting the January 6 “Stop the Steal” rally, his lies that the election was stolen and his efforts to subvert the will of voters. Moreover, it could put an uncomfortable focus on some conservative GOP senators and House members who sought to overturn the election results in Congress, while keeping the issue front-and-center as the investigation plays out over the next year.

And there are ample questions about whether House GOP Leader Kevin McCarthy would be forced to testify to explain what Trump was saying on January 6 given the two spoke during a heated phone call that day.

“It would be a distraction,” one senior GOP source told CNN, arguing any investigation should also look at left-wing extremism as well.

Similar concerns were voiced through the Senate Republican Conference on Wednesday, coming hours after a group of members huddled privately with McCarthy earlier in the morning.

Sen. John Cornyn, a Texas Republican and member of leadership, said that in addition to his concern about a commission’s work overlapping with criminal probes, he accused House Speaker Nancy Pelosi of pushing the investigation to help Democrats’ chances at keeping control of Congress.

“Well, part of the concern is that’s the plan,” Cornyn said. “That’s Pelosi’s plan.” If the probe dragged out until the next year, he added: “That would be the Democrats’ dream. . . . I generally don’t try to help Democrats.”

While the bill is expected to pass the House on Wednesday, it’s an open question whether it will pass the Senate, where 60 votes would be needed to break a GOP filibuster.

Thune, the chief GOP vote counter, said they haven’t taken the caucus’ temperature yet on the plan.

“I would say that there’s a skepticism about what’s happening in the House right now and whether or not what comes out is a proposal that will be fair.”

Sen. Gary Peters, who chairs the Democratic Senatorial Campaign Committee, said there’s a reason why Republicans are battling the commission.

“They’re afraid of the truth because it puts them on the wrong side of what is right,” Peters, a Michigan Democrat, said Wednesday.

Asked if he is concerned the probe could last into the midterm season when the GOP wants to focus on jobs, Republican Sen. Thom Tillis of North Carolina said: “There’s a lot of stuff we need to focus on.”

“Why shift our attention away from that, when we already have an infrastructure in place to address a lot of the things that the commission seems to be stood up to address,” Tillis asked. “Seems redundant.”

Mr. MCGOVERN. Madam Speaker, I yield 1 minute to the gentleman from New Jersey (Mr. PASCRELL).

Mr. PASCRELL. Madam Speaker, I rise today in support of truth and justice. The chairman and the ranking member are two honorable men. We all can see this, Madam Speaker, and I am happy about that.

That attack was born of lies. This year marks the 20th anniversary of the worst external terrorist attack in our modern history. The gravest attack ever on American democracy came 133 days ago. That attack was born of lies. It was born about the voting, about elections, and about our democracy. These lies divided our country. They spread across our land like a plague.

On December 11, I warned on this floor of elected officials across this Nation amplifying big lies. On January 6, the world saw the result. Like the 9/11 Commission it is modeled after, this commission must hold allegiance only to the truth. A full investigation of this attack must reflect on how the spark of insurrection was ignited and who fanned the flames. It is our sacred duty, Madam Speaker.

Mr. COLE. Madam Speaker, I reserve the balance of my time.

Mr. MCGOVERN. Madam Speaker, I yield 1 minute to the gentleman from New York (Mr. ESPAILLAT).

Mr. ESPAILLAT. Madam Speaker, I rise in support of the rule and the underlying bills. January 6 was an unprecedented event that exposed the real threat to the beating heart of our democracy: our Capitol and all of us who work in it.

Shortly after the insurrection, I expressed the need to form a 9/11-style commission, not only to get to the bottom of this and who was responsible for it, but also to ensure that it never happens again. This is exactly what these bills do, Madam Speaker.

The security of our Capitol and our democracy is not a partisan issue. However, the other side of the aisle has attempted to turn this into a sideshow, Madam Speaker, into a circus. I submit to you that the attempted murder of our Vice President, the attempted murder of our Speaker, and the attempted murder of any one of us is not a sideshow, it is not a circus, it is a real threat to everyone across this great land.

Taken together, these two critical bills will help us finally recover from the January 6 insurrection. We must ensure that these sacred Halls will never again be overrun by racist thugs against our democracy.

Mr. COLE. Madam Speaker, I reserve the balance of my time.

Mr. MCGOVERN. Madam Speaker, I yield 1 minute to the gentleman from Rhode Island (Mr. CICILLINE).

Mr. CICILLINE. Madam Speaker, I rise in support of the rule and the establishment of a national commission to study the events of January 6, 2021. The January 6 insurrection was a violent and bloody attack on our democracy. Domestic terrorists stormed this building. They did so in order to stop the peaceful transition of power and to keep Donald Trump in office, even after he lost the 2020 election fair and square.

We have never seen this type of attack before in this country. I pray we never will again. That is why we need

to establish a national commission to understand how this happened, to gather all the facts surrounding these events, and, most importantly, to ensure it never happens again.

I want to thank Chairman THOMPSON and Ranking Member KATKO for working across the aisle to establish this bipartisan commission. The people who took part in this insurrection caused great damage to this building, dozens of people were injured, and five people lost their lives. But despite the horror of that day, our democracy endured.

This commission will allow us to understand how this happened and how we prevent it and gather all the facts. The search for truth matters. Protecting our democracy matters. This should be a bipartisan vote to strongly support the work of this commission.

Mr. COLE. Madam Speaker, I continue to reserve the balance of my time.

Mr. MCGOVERN. Madam Speaker, I am having trouble trying to figure out exactly what the problem that some of my Republican colleagues may have with this bill. Maybe, based on the lack of speakers, they are having trouble figuring it out too.

Madam Speaker, I yield 2½ minutes to the gentlewoman from Pennsylvania (Ms. SCANLON), who is a distinguished member of the Rules Committee.

Ms. SCANLON. Madam Speaker, I rise in strong support of the rule and underlying bills before us today.

It has been over 4 months since the attack on the Capitol, an attack which disrupted a joint session of Congress and threatened one of the most essential pillars of our American Government: the peaceful and democratic transfer of power. That lawless assault threatened not just the foundations of our government, but also the lives of those who served their fellow citizens here. That assault shattered the illusion of security and sanctity of this building, the United States Capitol.

We remain eternally grateful for the bravery and patriotism of the members of the U.S. Capitol and D.C. Metropolitan Police who heroically defended this building, its occupants, and our democracy.

But it is long past time to launch an independent, bipartisan examination of what occurred on January 6, why it occurred, and how to prevent it from ever happening again. We need a commission with the power and authority to collect evidence and make recommendations across multiple agencies, committees, and branches of government impacted by the attack.

Almost as soon as the tear gas and broken glass had been cleared in the wee hours of January 7, we began hearing calls for unity. But what has remained illusive is a shared set of facts behind which the Nation can unify and forge a path to healing and accountability for the events of January 6. That path starts with these bills.

We cannot repair the damage to our government and the rule of law so long

as we have national leaders or those who seek to be propagating lies about why our government was attacked and the gravity of the events of January 6. Those falsehoods are incredibly dangerous, and so long as they remain unchallenged by a bipartisan, independent commission, we are never going to get past the dark part of our history.

In addition to creating this bipartisan commission, we also need to pass the emergency supplemental appropriations bill to fund the many additional expenses which were created by the Capitol attack, including overtime, staffing, training for law enforcement, reimbursing the National Guard, and so much more.

I strongly urge my colleagues to vote for this rule.

□ 1330

Mr. COLE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. McGOVERN. Mr. Speaker, I yield 1 minute to the gentlewoman from Texas (Ms. JACKSON LEE).

Ms. JACKSON LEE. Mr. Speaker, I thank the gentleman very much for yielding.

I was here on 9/11, and I could see the billowing smoke as we ran for our lives as the planes were hitting the Pentagon and the aftermath.

I was here on January 6 when screaming voices came and glass began to break, as the video has shown us, the video of the beatings. My tribute to all the officers—we have heard the story of Officer Fanone.

All we want is truth, and all we want is for the big lie to be undone.

It is important to support H.R. 3233, the National Commission to Investigate the January 6 Attack on the United States Capitol Complex, and the underlying emergency supplemental that General Honore and his committee so aptly did.

I thank Chairman THOMPSON and Ranking Member KATKO for their hard work. Be reminded of the fact that it was the former President still lingering, lashing around instead of allowing the transfer of peaceful government to go. He is now pushing big lies.

I wanted the Vice President to live. I wanted the Speaker to live. I wanted Members to live. I wanted Black officers not to be under the threat of racist overtones. So this commission will listen to it all.

I ask my colleagues to get rid of the big lie, stand by the Constitution, the flag, and justice and equality for all. Pass H.R. 3233, the National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act.

Mr. Speaker, as Chair of the Judiciary Subcommittee on Crime, Homeland Security, and Terrorism, and a senior member of the Homeland Security, and Budget Committees, I rise in strong support of the rule governing debate of H.R. 3237, the Emergency Security Supplemental to Respond to January 6th Appropriations Act of 2021, and H.R. 3233, the National

Commission to Investigate the January 6 Attack on the United States Capitol Complex.

H.R. 3237 provides \$1.9 billion in funding to respond to the insurrection at the U.S. Capitol on January 6, 2021, when thousands of domestic terrorists inspired by the 45th President stormed the U.S. Capitol in a violent, crazed, and desperate effort to disrupt the Joint Meeting of Congress prescribed by the Constitution to tally the votes of presidential electors and announce the results to the nation and the world.

H.R. 3233, the National Commission to Investigate the January 6 Attack on the Capitol Complex Act, which establishes a national commission charged with investigating and reporting upon the facts and causes of the January 6, 2021 attack on the U.S. Capitol as well as the influencing factors that may have provoked the attack on our democracy.

Specifically, the January 6 Commission's mandate includes:

1. examining and evaluating evidence developed by relevant Federal, State, and local governments, in a manner that is respectful of ongoing investigations, regarding the facts and circumstances of the attack;

2. building upon other investigations regarding the attack and targeted violence and domestic terrorism related to such attack; and

3. reporting to the President and Congress regarding its findings, conclusions, and recommendations for corrective measures taken to prevent future acts of targeted violence and domestic terrorism and improves the security posture of the United States Capitol Complex in a manner that preserves the accessibility of the Capitol Complex for all Americans, and strengthen the security and resilience of nation and American democratic institutions against domestic terrorism.

Like September 11, 2001, we cannot and must not ever forget the existential threat faced by our democracy on January 6, 2021, when thousands of domestic terrorists inspired by the 45th President stormed the U.S. Capitol in a violent, crazed, and desperate effort to disrupt the Joint Meeting of Congress prescribed by the Constitution to tally the votes of presidential electors and announce the results to the nation and the world.

Mr. Speaker, the morning of September 11, 2001 is, and will always be, a day like no other.

It is a day all living Americans will remember because not since Pearl Harbor had there been such a dastardly and deadly attack on American soil.

On that day, we were united in our shock and anger and sadness and in our resolve to defend our country and protect the freedoms that has made America the greatest country in the history of the world.

I experienced the same gamut of emotions on January 6: grief, hope, resolve, and fierce commitment to protect our country.

Mr. Speaker, the assault on the U.S. Capitol by domestic terrorists and insurrectionists rightly takes its place as one of the darkest moments in our nation's history since the Civil War.

Mr. Speaker, the January 6 insurrection caused tragic loss of life and injuries, while leaving behind widespread physical damage to the Capitol Complex and emotional trauma to Members, Congressional employees, and the Capitol Police.

It bears repeating often that the Congress and the nation owe undying gratitude to the

men and women who answered the call of constitutional duty and heroically won the day on that bloody and deadly afternoon.

That is why I introduced H. Res. 169, a resolution commending the officers of the United States Capitol Police Department, the Metropolitan Police Department of Washington, DC, and other law enforcement personnel for their selfless and heroic service in defense of American democracy in responding to the assault on the United States Capitol by domestic terrorists on January 6, 2021.

H. Res. 169 notes that the January 6, 2021 siege of the Capitol assault resulted in one of the worst days of injuries for law enforcement in the United States since the September 11, 2001, terrorist attacks but that the officers of the United States Capitol Police Department, the Metropolitan Police Department of Washington, DC, and other uniformed law enforcement officers stood their ground in defense of American democracy while being attacked metal pipes, discharged chemical irritants, and other weapons.

The resolution conveys the thanks and appreciation of a grateful nation to them for their selfless and heroic service, encourages all educational and media institutions throughout the United States to teach and celebrate the story of their heroism and patriotism; and calls upon all Americans to read, celebrate, and revere the Constitution of the United States, fidelity to which is the surest best means of forming a more perfect union, establishing justice, ensuring domestic tranquility, providing for the common defense, promoting the general welfare, and securing the blessing of liberty to them and their posterity.

Mr. Speaker, the domestic terrorists and seditionists who attacked the Capitol Building on January 6, 2021 were not, as some of their ardent defenders and apologists across the aisle have stated falsely, on a "normal tour visit"; nor was their effort to lay siege to the Capitol and disrupt the processes of government an act of persons who love their country.

And it is absurd to suggest that it was a celebration of the United States and what it stands for when the leading edge of terrorists desecrated the Capitol by offensively parading the treasonous Confederate flag through the building and when, because of their insurrection, several members of law enforcement made the supreme sacrifice and scores more were seriously injured.

Mr. Speaker, I would like to take a few moments to explain why the intended purpose of the January 6 insurrection—to disrupt the Joint Meeting of Congress to tally the votes of presidential electors and announce the results to the nation and the world—was the greatest threat to the American Experiment since the Civil War when the proslavery forces would rather make war than let the nation survive and the pro-freedom forces would accept war rather than let the nation perish.

The Framers understood and declared to the world that democratic governors derived their powers from the knowing and voluntary consent of the governed as expressed in free, fair, and unfettered elections unmarred by the influence or sabotage of any foreign country or entity not a member of the political community.

The most important feature of a democracy is that it is the voters who alone can confer the legitimate consent and authorization necessary to govern upon the governors who are then duty-bound to represent the voters' interests, and only their interests.

Mr. Speaker, the fundamental democratic compact between the governed and the governors is that the latter's authority and continuance in office comes exclusively from the governed and allegiance is owed exclusively to the governed.

This agreement can only be reached through free and fair elections, a breach of which threatens the vitality and viability of the social contract upon which democratic self-rule of, by, and for the people depends.

Mr. Speaker, President Lincoln called the United States the "last best hope of man on earth" and stated at Gettysburg the importance of finishing the work we are in to ensure that "government of the people, for the people, by the people does not perish from the earth."

By our actions in voting to establish and empower a National Commission to Investigate the January 6 Attack on the Capitol Complex, we are taking an indispensable step in ensuring the preservation of our democracy, which has been the envy of the world for more than 240 years.

Mr. Speaker, I urge all Members to join me in voting for the rule and the underlying legislation, H.R. 3237, the Emergency Security Supplemental to Respond to January 6th Appropriations Act of 2021, and H.R. 3233, the National Commission to Investigate the January 6 Attack on the United States Capitol Complex.

Mr. COLE. Mr. Speaker, I continue to reserve the balance of my time.

Mr. MCGOVERN. Mr. Speaker, may I inquire how much time is remaining for us on both sides.

THE SPEAKER pro tempore (Mr. CICILLINE). The gentleman from Massachusetts has 6½ minutes remaining. The gentleman from Oklahoma has 17½ minutes remaining.

Mr. MCGOVERN. Mr. Speaker, I encourage all Members here today to read today's Washington Post editorial questioning Leader MCCARTHY's political courage in opposing this bill and calling for him to testify under oath about his eyewitness experience of the violence and former President Trump's apparent indifference to it.

The editorial also criticizes his false equivalence of Black Lives Matter protests to the Capitol invasion and his minimization of the insurrection's significance, which only encourages the lies on which it is based.

I include that article in the RECORD.

[From the Washington Post, May 18, 2021]

OPINION: KEVIN MCCARTHY PLUMBS NEW DEPTHS OF POLITICAL COWARDICE

(Opinion by the Editorial Board)

Democratic and Republican negotiators agreed last week to create a high-level, expert commission with subpoena power to conduct an examination of the Jan. 6 Capitol invasion, one of the lowest moments in U.S. history. But House Minority Leader Kevin McCarthy (R-Calif.) on Tuesday threw his negotiators under the bus, condemning the compromise and vowing to oppose the bill creating the commission when it comes to a House vote Wednesday.

Many Republicans do not want an impartial panel to remind the public of their party's role in the event. A fair inquiry would examine how GOP lawmakers fed the election lies that inspired the mob, and how they

built Jan. 6, which should have featured a pro forma counting of electoral votes, into a showdown over the 2020 presidential election. Republican lawmakers who signed a spurious lawsuit seeking to overturn the results bear some guilt; those who went on to object to the counting of electoral votes from several swing states bear even more.

An honest proceeding would also require Mr. McCarthy to testify under oath about his eyewitness experience of the violence—and to then-President Donald Trump's apparent indifference. Mr. McCarthy has resisted offering the public a frank accounting of his interactions with Mr. Trump, including on a phone call during which Mr. McCarthy reportedly begged Mr. Trump to stop the mob. Mr. McCarthy has concluded that whatever political benefits he receives from embracing Mr. Trump are worth the price of his integrity.

If there are to be hearings, Mr. McCarthy argued, they should examine not only the Capitol invasion but other politically motivated violence, such as the riots surrounding the Black Lives Matter protests last summer. The point is to draw a false equivalence between a historically unique attack on the nation's seat of government, in which Mr. Trump and other Republicans are directly implicated, and crimes that left-leaning activists committed—crimes that did not occur in the halls of Congress, that did not aim to interrupt the peaceful transition of power, that did not reflect a plot to overturn a presidential election.

Mr. McCarthy knows Democrats will never endorse a panel designed to mislead the nation about Jan. 6, so his proposal for a broader mandate is a ruse: He simply does not want any investigation at all. House Democrats should nevertheless advance the compromise plan on Wednesday. Then the public will see whether there are 10 Senate Republicans willing to approve the deal. Senate Minority Leader Mitch McConnell (R-Ky.) on Tuesday did not rule out supporting it, raising minor concerns about its structure that should be negotiable. But if Senate Republicans capitulate to the calculations driving Mr. McCarthy, House and Senate committees should use their subpoena power to conduct their own investigations, even if that means Democrats lead the inquiries without Republican cooperation.

Mr. MCGOVERN. Madam Speaker, I yield 3 minutes to the gentleman from Maryland (Mr. RASKIN), a distinguished member of the Rules Committee.

Mr. RASKIN. Madam Speaker, the January 6 insurrection against our Congress, our Constitution, and our election was one of the worst political crimes in American history.

It interrupted the peaceful transfer of power. It injured, wounded, hospitalized more than 140 law enforcement officials who were punched, kicked, maced, spat upon, and speared by Confederate battle flags, Donald Trump flags, American flags. They had eyes gouged. One lost several fingers.

They turned the Capitol of the United States and this Chamber into a crime scene.

The independent January 6 commission legislation brought forth by Chairman THOMPSON, a Democrat, and Congressman KATKO, a Republican, is bipartisan in composition: five Republicans and five Democrats, equal subpoena power. It is nonpartisan in design and in function.

Its whole purpose is to determine the events and the causes of those events

on January 6 so we can prepare effectively to stop it from ever happening again to the people of America.

The key precedent was the 9/11 Commission, which was critical for mobilizing public attention to the dangers of al-Qaida and other foreign terror networks and helping us to rectify inadequacies in our security infrastructure and to prepare to defend our democracy.

Today, the number one security threat facing the American people is domestic violent extremism, and we saw what domestic violent extremism can do when it broke into our House on January 6.

According to the Secretary of Homeland Security, Alejandro Mayorkas: "Domestic violent extremism poses the most lethal and persistent terrorism-related threat to our country today."

Abraham Lincoln made a beautiful speech that I recommend to all of my colleagues before they vote on this legislation today, the Lyceum Address, where he said all the armies of Europe, all the armies of Africa and Asia, could never conquer American democracy. But if there is a mortal threat to us, it will come from within, from dissension within, and threats to the constitutional order from within.

We must pay attention to what happened on January 6, and we must honor those brave men and women who fought for hours against medieval-style waves of violence raining down upon them on that day. And we must do honor to future generations of Americans to find out exactly what happened and why, and how to stop it in the future.

Let's pass this legislation today.

Mr. COLE. Madam Speaker, I yield myself the balance of my time.

Madam Speaker, I oppose the rule. The majority is proposing two significant pieces of legislation today. Unfortunately, concerns remain with both of them.

H.R. 3237, the supplemental appropriations package intended to provide funds for the security of the Capitol complex is, unfortunately and unnecessarily, a partisan bill.

It was the subject of bipartisan negotiations, and there is no reason we could not have gotten to a bipartisan result had the majority wanted to do so. Instead, we are left with a partisan package that does not meet the needs of the institution and, frankly, has no chance of becoming law in its current form.

I would urge my friends particularly to look at the section relating to the rapid response force. That is something where I think, honestly, with a little bit more reflection, we could find some common ground.

I think it is a mistake to put a force like that under the control of either the District of Columbia or the executive branch. I think we need direct control of that ourselves. I know some of my colleagues on the other side feel strongly that way, too. It simply

makes sense that if we are having a crisis here, we ought to make the decision if we need an extra force.

I think if we keep working at it, we are going to find some common ground there, and I hope that we do.

H.R. 3233 establishes a commission to investigate the January 6 attack on the Capitol complex. Here, too, I want to acknowledge that real progress was made in the course of negotiations, and I want to commend particularly Chairman THOMPSON and Ranking Member KATKO for having brought us closer to agreement.

However, on our side, many of us continue to have reservations about this bill and the parameters of the commission itself. After all, the events of January 6 did not occur in a vacuum. If we truly hope to find answers for the American people, then we must take into account everything, all the other political violence that has taken place in recent years.

I would just ask my friends to go back—and I know they have—and look at the 9/11 Commission, which did exactly that. It didn't just look at 9/11. It looked at the attack on the USS *Cole*. It went back to the attack on the African Embassies that we experienced.

There is room here, I think, for context and additional discussion. We also have concerns structurally with some of the staffing provisions and other items that I have mentioned that we hopefully would look at. We would like to continue to work on that.

I think we could have made good progress had any of the amendments that were offered in the Rules Committee been made in order. My friends chose not to do that. That is their privilege to do so, but I think it probably obstructed what could have been a larger bipartisan vote for this particular piece of legislation.

But, again, we will see going forward. What we do here isn't the final arbiter. This is one stage in the process. The United States Senate is the next stop. Hopefully, there will be some changes made there. Then, it will have to come back here. We should look at both of these matters as stops in a journey, or parts of a journey, not as the final decision on any of them.

Madam Speaker, I urge my colleagues to vote "no" on the previous question and "no" on the rule, and I yield back the balance of my time.

Mr. MCGOVERN. Madam Speaker, I yield myself the balance of my time.

Madam Speaker, I am deeply disappointed that any of my Republican colleagues would oppose the creation of this commission. There is a lot of talk all the time about the need for bipartisanship, and that is what we have here. This is true bipartisanship.

The distinguished minority leader sent a letter to Speaker PELOSI asking for an equal 5:5 ratio in appointments by Democrats and Republicans on this commission. He got it.

He asked for coequal subpoena power. He got it.

He asked for no inclusion of findings or other predetermined conclusions which ultimately should be rendered by the commission itself. He got it.

Now, maybe the gentleman didn't think he would, but Chairman THOMPSON and Ranking Member KATKO, who was appointed by the minority leader to negotiate on behalf of the Republicans, came to a deal, a genuinely bipartisan deal to look into the horrific acts of what happened in this Chamber on January 6.

I was here that day. They were not ordinary tourists who came in here. My colleagues on the Republican side who are here today, there are pictures of them helping to barricade the doors. They know exactly what happened on January 6.

Those people who attacked the Capitol were not here to make a political point. They were here to desecrate this building and hurt people.

We, as Members of Congress, signed up for this job. But I want Members to vote for this commission, not because of us, but because of the people who work here, our staff, the support staff, the Capitol Police, the people who work in our cafeterias, the people who maintain this building. They were traumatized by what happened here.

Our response to all of this is: Well, let's move on. Let's not do this, in spite of a truly bipartisan negotiation and a bipartisan commission.

This is so disappointing. I mean, don't talk to us about bipartisanship, and then when you get it, you turn your back on it.

Madam Speaker, I am sick and tired of those who want to hover around mistruths and lies and spread conspiracy theories. What happened 133 days ago can never be normalized. We all have to speak the truth, and we must act to prevent it from ever happening again. That starts with not only passing this rule but passing this bipartisan bill to establish a bipartisan commission to produce a report for the American people so that we know clearly and credibly as to what happened and that we can take additional actions to make sure it never happens again.

As I said in my opening, vote for this out of respect for this institution, out of respect for our democracy, out of respect for the truth, out of respect for the people who work for you, who come here every day and work for you. We owe it to them and to this country to move forward.

The material previously referred to by Mr. COLE is as follows:

#### AMENDMENT TO HOUSE RESOLUTION 409

At the end of the resolution, add the following:

## GENERAL LEAVE

Mr. THOMPSON of Mississippi. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on this measure.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Mississippi?

There was no objection.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 3233, the National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act.

On January 6, the world watched Americans storm the Capitol and engage in violence to try and intimidate and prevent Congress from carrying out its constitutional duty to certify a Presidential election, a solemn process central to the peaceful transfer of power in our democracy.

Many of us sitting here today were rushed out of this very Chamber by Capitol Police to safety as violent attackers roamed the halls, hunting for our colleagues and the Vice President.

I was in the gallery that day watching the debate when this temple of our democracy was desecrated and debased.

At least one Capitol Police officer died because of the violence that day. Others died, too.

And there were extensive injuries associated with the attacks, not the least of which was the body blow to Americans' confidence that the reforms undertaken after the 9/11 terrorist attacks would make us more secure.

Like the 9/11 attacks, the events of January 6 have cast a long shadow on our country. And like the 9/11 attacks, the January 6 attack raises fundamental questions about information sharing, coordination, preparedness, and response at all levels of government.

We need a bipartisan commission made up of experts to come together to give us an unvarnished view of what happened that day, examine why our systems failed, and develop bipartisan recommendations for reform to address any identified gaps.

I am proud to be here with my partner on the Homeland Security Committee, the gentleman from New York, JOHN KATKO, to debate a bill that establishes a 10-member commission that mirrors the 9/11 Commission, the gold standard for bipartisan commissions.

The January 6 commission would be required to investigate and report on the facts and causes of the attack, including relevant contributing factors.

A commission of this nature, in some form, has been talked about by Members of Congress, national security experts, and others for some time now. Over the past 4 months, discussion drafts have been circulated, pros and cons have been weighed, and obstacles have been overcome to get us to this day.

Given how politically charged the events of January 6 have become, we need to come together in a patriotic, bipartisan way and approve this independent body just as we created the 9/11 Commission.

The 9/11 Commission acted, not out of partisanship, but out of patriotism. We need that same sense of duty today.

Mr. Speaker, I reserve the balance of my time.

Mr. KATKO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this year, we will observe the 20th anniversary of the terrorist attacks on September 11, 2001. It will serve as a somber reminder of the fragility of our security, the bravery of our law enforcement and first responders, and the resilience of our democracy.

After the attacks on 9/11, Congress recognized the importance of establishing a bipartisan commission to investigate these brazen acts of terrorism. This body recognized the need to find the truth and help all of us understand how these heinous acts that not only forever changed our country, but also the entire world, could have been carried out.

The highly respected 9/11 Commission identified numerous challenges that needed to be addressed, which ultimately led to many concrete recommendations that were later enacted into law. These critical reforms vastly improved our information sharing, intelligence collection, vetting capabilities, and broader homeland security enterprise.

The security breach that took place at the U.S. Capitol on January 6 was completely unacceptable. It was a major breakdown in information sharing and preparedness, much like the shortfalls that existed prior to 9/11. It was not only an attack on this institution but an attack on our law enforcement brethren who defend us every day.

Unfortunately, we know that the Capitol, Federal buildings, and even Members of Congress remain a target for extremists of all ideologies, as we all saw most recently during the April 2 vehicle attack that took the life of Capitol Police Officer William "Billy" Evans.

The bill before us today, H.R. 3233, would create an independent, bipartisan commission to investigate the relevant facts and circumstances relating to the January 6 attack on the Capitol, as well as targeted violence and domestic terrorism relevant to that attack.

It also charges the commission with providing and finding recommendations to, among other things, prevent, prepare for, and respond to similar attacks; improve the security posture of the Capitol complex; and ensure the security of Members of Congress and congressional staff.

Modeled after the 9/11 Commission, this bill creates a 10-member panel with five commissioners appointed by each party and equal subpoena authority.

While the expedited December 2021 deadline would only give the commission about 6 months to do its job, there is good reason for that: The American people and the Capitol Police deserve answers and action as soon as possible to ensure that nothing like this ever happens again.

We must find answers to the many questions surrounding that day. What information was known leading up to January 6? Why was that information not shared with the proper entities? Why were Capitol Police officers left so unprepared? Who failed to provide them with support? Why did it take so long for reinforcements to come to their aid? How can we improve the decisionmaking and bureaucracy that is clearly hampering the Capitol Police and the security of the Capitol complex? How can we ensure that the Capitol, Members of Congress, and our staffs are secure from attacks? And how do we ensure that this is a safer place for the members of the Capitol Police force who risk their lives every day to protect us?

These are only a few of the many questions that need to be answered. The American people and the Capitol Police deserve those answers.

As I have called for since the days just after the attack, an independent, 9/11-style review is critical for removing the politics around January 6 and focusing solely on the facts and circumstances of the security breach at the Capitol, as well as other instances of violence relevant to such a review.

Make no mistake about it, Mr. THOMPSON and I know this is about facts. It is not partisan politics. We would have never gotten to this point if it was about partisan politics.

Thanks to the strong partnership with Mr. THOMPSON, the Homeland Security Committee remains a bipartisan committee focused on securing the Nation while leaving partisanship at the door, which is exactly what the American people expect of us.

Chairman THOMPSON and I were able to work together to block out all the political noise surrounding the January 6 attack and turn the Speaker's partisan proposal into a reasonable, nonpartisan bill.

Now, H.R. 3233 is nearly identical to the original commission bill, H.R. 275, that I, along with 30 other Republican cosponsors, introduced on January 13, 6 days after the attack.

I sincerely appreciate Chairman THOMPSON's robust collaboration and strong commitment, as well as his friendship, by working together on this effort. The American people expect Congress to put partisanship aside for the sake of our homeland security.

I fully recognize that in a diverse body like this, Members come down on different sides of different issues. I welcome that. We all should. That is America; because, after all, none of this is personal. It is about our mutual desire to keep America safe and secure. To my friends on both sides of the aisle, I welcome honest, vigorous, and civil debate.

At the end of the day, I strongly believe this is fair and necessary legislation. I encourage all Members, Republicans and Democrats alike, to put down their swords just for once and support this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, let me just say to the ranking member, this won't be the last time that we put together legislation for the good of this country, I assure you of that.

Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. TORRES), the vice chair of the Homeland Security Committee.

□ 1615

Mr. TORRES of New York. Mr. Speaker, when I was sworn in the week of January 6, I never imagined living through an insurrection against the U.S. Capitol during the electoral college vote count.

On January 6, I felt the same sense of shock and trauma that I had felt on 9/11. Like most of America, I took for granted that the peaceful transfer of power is so natural as to transcend even the most turbulent period of partisan politics.

I was wrong. We were all wrong. Democracy is too fragile to be taken for granted. It demands from all of us a vigilant defense.

As Members of the United States Congress, we took an oath to defend and uphold the Constitution of the United States. The insurrection against the U.S. Capitol was a literal and metaphorical assault on the very Constitution we have been charged with defending.

The January 6 Commission is, therefore, not a choice, but an obligation. We have a duty to investigate what happened and why it happened and who is responsible.

As a Congress, if we are not able or willing to ascertain the full truth surrounding an invasion of our very home,

of our Nation's Capitol, then why are we here? The 11th-hour attempt to sabotage a bipartisan, bicameral position is not a difference of opinion, nor is it politics as usual. It is an abdication of the oath that we took to uphold the Constitution.

The United States of America is not a cult of personality, it is a Nation of laws. And our loyalty should not be to one political figure or one political party. Our highest loyalty should be to our country and the Constitution that governs it.

We must never forget that the truth trumps politics. And if the truth is what we seek, then we have nothing to fear from bringing the clarity that only truth can bring to the chaos and confusion of January 6.

Mr. KATKO. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan (Mr. MEIJER).

Mr. MEIJER. Mr. Speaker, I rise today to express my strongest support for H.R. 3233, a bill to establish a bipartisan commission to investigate the disgraceful January 6 attack on this institution.

Let us be clear, the imperative to have a public, objective, fact-based investigation of the Capitol attack is not a partisan issue and it should never be treated as such. A violent mob breached this building to disrupt the lawful Presidential transition and threaten the lives of Vice President PENCE and Members of Congress. That this mob attacked the Capitol with the encouragement of prominent elected officials is a chilling reminder of President Reagan's warning that "freedom is never more than one generation away from extinction."

Unfortunately, many who rightly criticized and condemned the attack that day have walked back their words or softened their speech. But even more troubling, there has been an active effort to whitewash and rewrite the shameful events of that day to avoid accountability and turn away from difficult truths.

If we avoid confronting what happened here just a few short months ago, we can be sure that intimidation, coercion, and violence will become a defining feature of our politics.

On the evening of January 6, as I was walking back to the Capitol after it was cleared of rioters, I received a text from a constituent who asserted that those who stormed the Capitol today were the true American heroes, that the election was a fraud, and that I must know that that was true. He then warned: "You can bet that there will be more blood on Congress' hands if you let that stand."

I refuse to accept that possibility, this abrogation of our sacred obligation to the Republic. There is no replacement for an independent, bipartisan commission with a mandate to produce a definitive report to the public to clear away myths and fictions and get right on the facts.

This is not picking at a scab. In order to scab over, a cut has to first heal.

Rather than start to mend, the wound from January 6 was hastily bandaged and continues to fester. Only by airing it out and addressing what occurred can we hope to move past and heal. I applaud my friend, Congressman JOHN KATKO, for his good-faith, bipartisan leadership to put this commission in place.

Mr. Speaker, I supported this effort in January, I support it today, and I urge my colleagues to do so as well.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey (Mr. GOTTHEIMER).

Mr. GOTTHEIMER. Mr. Speaker, I rise today, as a member of the Committee on Homeland Security, in strong support of H.R. 3233, Chairman THOMPSON and Ranking Member KATKO's bill to form a bipartisan, independent commission to investigate the January 6 domestic terrorism attack on the United States Capitol.

On January 6, the world witnessed an attempted insurrection against our government to overturn the will of the American people. I know that because I was right here in this House Chamber that day as doors were barricaded and Members and staff were forced to evacuate. The mob that stormed our Capitol, resulting in the death of a Capitol police officer, tore down the American flag and desecrated the seat of our democracy. These lawless thugs, led by members of extremist groups like the Oath Keepers, and Proud Boys, and Stop the Steal, attempted an insurrection. In the end, they failed. We gathered back together here, uncowed, and the electoral college was certified.

Mr. Speaker, but true healing cannot come without a serious investigation and real accountability. I am very proud that last night, the bipartisan Problem Solvers Caucus, 29 Democrats and 29 Republicans, came together to endorse this legislation, putting aside politics to get to the bottom of what happened that day.

This bipartisan commission, modeled on the 9/11 Commission, will undertake an investigation into the facts and what caused the attack.

Mr. Speaker, this legislation will help us deter further would-be extremists, and provide the law enforcement homeland security community with the tools needed to protect the Capitol and our country from future attacks.

I thank Chairman THOMPSON and Ranking Member KATKO for their extraordinary leadership and months of hard work together on the bill, the way governing should occur.

Mr. Speaker, I urge all my colleagues on both sides of the aisle to join in support of securing and protecting the very foundation of our democracy.

Mr. KATKO. Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentleman from New York (Mr. JEFFRIES), chair of the Democratic Caucus.

Mr. JEFFRIES. Mr. Speaker, I thank the distinguished chair for his tremendous leadership.

Mr. Speaker, the January 6 bipartisan commission will explore what happened on that fateful day, why it happened, and how do we prevent another violent insurrection and attack on the Capitol from ever happening again.

In the aftermath of the attack on Pearl Harbor, America had a bipartisan commission. In the aftermath of the September 11 attack, America had a bipartisan commission. In the aftermath of the attack on this Capitol on January 6, America should have a bipartisan commission.

The violent insurrection was an attack on the Congress, the Constitution, and the Capitol. Lives were lost. More than 140 officers were seriously injured. A violent mob stormed this building to assassinate the Speaker, hang Mike Pence, and hunt down Members of Congress. They urinated, defecated, and desecrated the citadel of our democracy.

It was a violent attack designed to bring about one objective; halt Congress from undertaking our constitutional responsibilities. And yet, a few of my colleagues seem to want to convince America that it was all puppies and rainbows. We will not be hoodwinked. We will not be bamboozled. We will not be led astray.

The January 6 bipartisan commission will find the truth, the whole truth, and nothing but the truth. And that is the American way.

Mr. KATKO. Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentleman from Rhode Island (Mr. LANGEVIN), the former Secretary of State from Rhode Island, who is now a member of the Committee on Homeland Security.

Mr. LANGEVIN. Mr. Speaker, I rise in strong support of H.R. 3233. On September 11, 2001, I was a freshman in Congress. We suffered attacks that day because of a failure of imagination. Since then, I have dedicated myself to getting ahead of the curve, to seeing over the horizon, to preventing another such devastating surprise. Yet, on January 6, I, along with so many others, was caught by surprise.

In the past 5 months, I have reflected. What signs did we miss? Were we unprepared for a tide of American rioters? Why were some citizens actually taking the big lie about the election seriously enough to actually commit violence?

The January 6 commission will answer these and many other difficult questions and deliver a complete record for posterity of what could possibly have happened to bring about such a betrayal of our democracy.

We will not defeat darkness with darkness. We need light. We will not defeat lies with lies. We need truth. This commission will bring forth the truth and it is only the truth that can truly heal the rift that is tearing our country apart.

Mr. Speaker, I thank Chairman THOMPSON and Ranking Member KATKO for their leadership.

Mr. KATKO. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan (Mr. UPTON).

Mr. UPTON. Mr. Speaker, January 6 is going to haunt this institution for a long, long time. No, it was not the joyous day on Capitol Hill with our constituents celebrating the start of a new Congress and a new administration. COVID came first, then this.

So nearly 5 months later, we still don't have the answers to the basic questions: Who knew what? When? What did they do about it?

Mr. Speaker, I thank my colleagues, KATKO and THOMPSON, for the really good job on working together to establish a bipartisan commission seeking to find the answers to the questions that are still out there.

Hundreds of people were arrested. People died. Millions of dollars of damage to this building, feces spread on the walls, and, yes, the very core of democracy, this institution, was threatened.

I wasn't in the Chamber that day when the breach was attempted, but I heard the shouts, saw the flash bangs, smelled the gas on that sorry day. And if it had not been for the brave Capitol and Metropolitan policemen and women that day, who knows how many of our heads would have been swinging on those gallows that were constructed on the east front of the Capitol.

I talked to the exhausted SWAT team members, the police, and watched some of the body cams. I talked to some of our still-shaken colleagues who endured that day.

Mr. Speaker, we need the answers, not political rhetoric. That is what this bipartisan commission can provide for all of us, for our country. Let the truth shine in.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentleman from California, (Mr. CORREA).

Mr. CORREA. Mr. Speaker, I thank Chairman THOMPSON and Ranking Member KATKO for this legislation.

Mr. Speaker, this bill is simply about the truth. It is about the truth behind the assault on our Capitol on January 6. Enough with lies. Enough with conspiracy theories. The January 6 commission will have the power, power to find the truth. It will have subpoena power to compel people to testify, to testify under oath under penalty of perjury.

An attack on our Capitol, an attack on our democracy, an attack on the election of our President—these cannot be tolerated, and they cannot happen again.

What happened? What happened January 6? This bill is about sunshine, this bill is about transparency. That is why I ask for every Member on this floor, I ask you to vote "aye" on this most important measure.

Mr. KATKO. Mr. Speaker, I just want to note for the RECORD that the subpoena to which my colleague from

California mentioned can only be issued if there is a consensus by both sides of the aisle on the commission. It is not something that one side can do unilaterally. And that is one of the key provisions of this, because it depoliticizes the process and it is a consensus-driven process.

Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentleman from Texas (Mr. GREEN), a member of the Committee on Homeland Security.

Mr. GREEN of Texas. Mr. Speaker, and still I rise, and I rise today understanding that William Cullen Bryant was right: "Truth, crushed to earth, shall rise again." Whether you believe that it was just a group of tourists walking through the Capitol or not, you should want this commission.

□ 1630

If you believe that it was an insurrection, you should want this commission. You should want this commission because you cannot bury the truth in an earthly grave of lies and not realize the words of William Cullen Bryant, "Truth, crushed to earth, shall rise again."

Mr. Speaker, I want to thank Chairman THOMPSON and the ranking member for standing together to make this moment possible. Bipartisanship is achieved when you have good decent people who can stand together for the good of all.

God bless you, dear brothers.

Mr. KATKO. Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentleman from Texas (Ms. JACKSON LEE).

Ms. JACKSON LEE. Mr. Speaker, I thank the chairman and I thank the ranking member for showing, no matter how much confusion and upside down interpretation that leadership may give in changing their mind, truth will prevail.

Let us show what America is today. Let us show what unity is today. Let me take a few moments to explain why the intended purpose of the January 6 insurrection to disrupt the joint meeting of Congress to tally the votes of Presidential electors and announce the results to the Nation and the world was the greatest threat to the American Experiment since the Civil War, when the pro-slavery forces would rather make war than let the Nation survive, and pro-freedom forces would accept war rather than let the Nation perish.

Mr. Speaker, I was here on 9/11, and I understand what we did not get accomplished, yet when we became part of the Homeland Security Committee, we moved the 9/11 Commission that still stands as the standard-bearer for finding out what happened.

All the American people want, and those officers who were beat and beat and beat, is to find out the truth. This commission will help us find out the

truth. It will answer the cry of those law enforcement officers who were called racial names. We will be able to explain why someone was trying to kill the Vice President, kill the Speaker, and kill Members of Congress.

This is a truth time. Can we stand for truth?

And might I add, I want to thank all of those officers who put their line in front for us. Let us get them the truth so the Nation will know the truth and so we can stand on the truth and be free.

Mr. Speaker, as Chair of the Judiciary Subcommittee on Crime, Homeland Security, and Terrorism, and a senior member of the Homeland Security, and Budget Committees, I rise in strong support of H.R. 3233, the National Commission to Investigate the January 6 Attack on the Capitol Complex Act, which establishes a national commission charged with investigating and reporting upon the facts and causes of the January 6, 2021, attack on the U.S. Capitol as well as the influencing factors that may have provoked the attack on our democracy.

Specifically, the January 6 Commission's mandate includes:

1. examining and evaluating evidence developed by relevant Federal, State, and local governments, in a manner that is respectful of ongoing investigations, regarding the facts and circumstances of the attack;

2. building upon other investigations regarding the attack and targeted violence and domestic terrorism related to such attack; and

3. reporting to the President and Congress regarding its findings, conclusions, and recommendations for corrective measures taken to prevent future acts of targeted violence and domestic terrorism and improves the security posture of the United States Capitol Complex in a manner that preserves the accessibility of the Capitol Complex for all Americans, and strengthen the security and resilience of nation and American democratic institutions against domestic terrorism.

Like the 9/11 Commission, the measure establishes a 10-person bipartisan commission with five commissioners, including the Chair, appointed by the Speaker of the House and the Majority Leader of the Senate and five commissioners, including the Vice Chair, appointed by the Minority Leaders of the House and Senate.

Like the 9/11 Commission, the January 6 Commission will be granted authority to issue subpoenas to secure information to carry out its investigation but only upon agreement between the Chair and the Vice Chair or a vote by a majority of Commission members.

January 6 Commissioners must have significant expertise in the areas of law enforcement, civil rights, civil liberties, privacy, intelligence, and cybersecurity. Current government officers or employees are prohibited from appointment.

The January 6 Commission will be required to issue a final report with findings regarding the facts and causes of the attack, along with recommendations to prevent future attacks on our democratic institutions, by December 31, 2021.

Like September 11, 2001, we cannot and must not ever forget the existential threat faced by our democracy on January 6, 2021, when thousands of domestic terrorists inspired

by the 45th President stormed the U.S. Capitol in a violent, crazed, and desperate effort to disrupt the Joint Meeting of Congress prescribed by the Constitution to tally the votes of presidential electors and announce the results to the nation and the world.

Mr. Speaker, the morning of September 11, 2001, is, and will always be, a day like no other.

It is a day all living Americans will remember because not since Pearl Harbor had there been such a dastardly and deadly attack on American soil.

My heart still grieves for those who perished on flights United Airlines 93, American Airlines 77, American Airlines 11, and United Airlines 175.

When the sun rose on the morning of September 11, none of us knew that it would end in an inferno in the magnificent World Trade Center Towers in New York City and the Pentagon and in the grassy fields of Shanksville, Pennsylvania.

Mr. Speaker, as hard as it is to believe, out of a tragedy so overwhelming and horrific, something good and great emerged in the aftermath of September 11.

On that day there were no Republicans or Democrats; there were no Northerners or Southerners or West or East Coasters.

We were not Red State or Blue State; we were all simply Americans.

On that day, we were united in our shock and anger and sadness and in our resolve to defend our country and protect the freedoms that has made America the greatest country in the history of the world.

I experienced the same gamut of emotions on January 6: grief, hope, resolve, and fierce commitment to protect our country.

Mr. Speaker, the assault on the U.S. Capitol by domestic terrorists and insurrectionists rightly takes its place as one of the darkest moments in our nation's history since the Civil War.

Mr. Speaker, the January 6 insurrection caused tragic loss of life and many injuries, while leaving behind widespread physical damage to the Capitol Complex and emotional trauma for Members, Congressional employees, and the Capitol Police.

It bears repeating often that the Congress and the nation owe undying gratitude to the men and women who answered the call of constitutional duty and heroically won the day on that bloody and deadly afternoon.

That is why I introduced H. Res. 169, a resolution commending the officers of the United States Capitol Police Department, the Metropolitan Police Department of Washington, DC, and other law enforcement personnel for their selfless and heroic service in defense of American democracy in responding to the assault on the United States Capitol by domestic terrorists on January 6, 2021.

H. Res. 169 notes that the January 6, 2021, siege of the Capitol assault resulted in one of the worst days of injuries for law enforcement in the United States since the September 11, 2001, terrorist attacks but that the officers of the United States Capitol Police Department, the Metropolitan Police Department of Washington, DC, and other uniformed law enforcement officers stood their ground in defense of American democracy while being attacked metal pipes, discharged chemical irritants, and other weapons.

The resolution conveys the thanks and appreciation of a grateful nation to them for their

selfless and heroic service, encourages all educational and media institutions throughout the United States to teach and celebrate the story of their heroism and patriotism; and calls upon all Americans to read, celebrate, and revere the Constitution of the United States, fidelity to which is the surest best means of forming a more perfect union, establishing justice, ensuring domestic tranquility, providing for the common defense, promoting the general welfare, and securing the blessing of liberty to them and their posterity.

Mr. Speaker, the domestic terrorists and seditionists who attacked the Capitol Building on January 6, 2021, were not, as some of their ardent defenders and apologists across the aisle have stated falsely, on a "normal tour visit"; nor was their effort to lay siege to the Capitol and disrupt the processes of government an act of persons who love their country.

And it is absurd to suggest that it was a celebration of the United States and what it stands for when the leading edge of terrorists desecrated the Capitol by offensively parading the treasonous Confederate flag through the building and when, because of their insurrection, several members of law enforcement made the supreme sacrifice and scores more were seriously injured.

Mr. Speaker, I would like to take a few moments to explain why the intended purpose of the January 6 insurrection—to disrupt the Joint Meeting of Congress to tally the votes of presidential electors and announce the results to the nation and the world—was the greatest threat to the American Experiment since the Civil War when the proslavery forces would rather make war than let the nation survive and the pro-freedom forces would accept war rather than let the nation perish.

Mr. Speaker, the Framers had first-hand experience with the types of abuses and usurpations committed by political leaders who ruled them but were not accountable to them and detailed many of those wrongs in the Declaration of Independence.

The Framers understood and declared to the world that democratic governors derived their powers from the knowing and voluntary consent of the governed as expressed in free, fair, and unfettered elections unmarred by the influence or sabotage of any foreign country or entity not a member of the political community.

The Framers understood that if elections are influenced by foreign actors or authoritarian forces within, then voters are reduced from the great role of citizens to mere subjects, and government for and by the people is a sham.

The most important feature of a democracy is that it is the voters who alone can confer the legitimate consent and authorization necessary to govern upon the governors who are then duty-bound to represent the voters' interests, and only their interests.

Mr. Speaker, the fundamental democratic compact between the governed and the governors is that the latter's authority and continuance in office comes exclusively from the governed and allegiance is owed exclusively to the governed.

This agreement can only be reached through free and fair elections, a breach of which threatens the vitality and viability of the social contract upon which democratic self-rule of, by, and for the people depends.

Mr. Speaker, President Lincoln called the United States the "last best hope of man on earth" and stated at Gettysburg the impor-

tance of finishing the work we are in to ensure that "government of the people, for the people, by the people does not perish from the earth."

By our actions in voting to establish and empower a National Commission to Investigate the January 6 Attack on the Capitol Complex, we are taking an indispensable step in ensuring the preservation of our democracy, which has been the envy of the world for than 240 years.

I urge all Members to join me in voting for H.R. 3233, the National Commission to Investigate the January 6 Attack on the Capitol Complex Act.

Mr. KATKO. Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentlewoman from New York (Ms. CLARKE).

Ms. CLARKE of New York. Mr. Speaker, I rise today on behalf of the American people, our Republic, my colleagues, congressional staff, Capitol Police officers, and the late Officer Brian Sicknick, in support of H.R. 3233, the National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act.

Let me be very clear: What took place on January 6 in the United States Capitol Building was an act of domestic terrorism. To witness this hallowed place, the seat of our democracy, being breached and invaded by a mob of incensed blood-thirsty individuals, sycophants, all as we barricaded ourselves in our offices and on this floor, fearing for our lives, was devastating beyond belief. It was an attack on our democracy. Full stop.

This commission is necessary to ensure all parties involved are brought to justice and the American people are made aware of the facts and causes that led to this heinous act of domestic terrorism.

Mr. KATKO. Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, how much time do we have remaining?

The SPEAKER pro tempore. The gentleman from Mississippi has 16 minutes remaining. The gentleman from New York has 20 minutes remaining.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentleman from California (Mr. SWALWELL).

Mr. SWALWELL. Mr. Speaker, today, our country has a choice: Our Constitution or chaos?

Our democracy was attacked on January 6. We survived this once, but we will not survive another attack. This commission ensures that we are better prepared if one is to come to this House again.

We don't just owe this to our democracy, we owe it to the men and women in uniform, who fought in hand-to-hand combat for hours to protect our lives. These are the cops that we see every day. These are the cops who take care of us. Three of them lost their life. One of them lost a number of fingers, and one of them had his eye gouged out. Don't walk away from these cops.

We can't agree on much as a country anymore. We choose the news that agrees with us. But this commission cannot be spun. The testimony is the testimony. It is unimpeachable. It is going to be factual. And we owe those facts, the ground truth, not only to our democracy, but to the police officers who so bravely served us that day.

Mr. KATKO. Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentlewoman from New York (Miss RICE).

Miss RICE of New York. Mr. Speaker, I rise today in support of H.R. 3233, the National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act.

This cannot be said enough. January 6 was an act of domestic terrorism. An armed mob of insurrectionists stormed the Capitol intending to murder the Speaker, the Vice President, and Members of Congress.

We cannot let our friends on the other side of the aisle whitewash the events of that day. We cannot let them gaslight the American people by calling January 6 an ordinary tourist visit.

The 9/11-style commission we are proposing in this bill will issue a full report on the facts and provide recommendations to prevent future attacks.

Mr. Speaker, I truly appreciate Chairman THOMPSON and Ranking Member KATKO for negotiating this bill in good faith.

I thank my friend, Ranking Member KATKO, for actually recognizing the events of January 6 and working to find a bipartisan path forward, despite the opposition in his own party. That is a true act of courage and being a true American.

Mr. KATKO. Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentlewoman from Florida (Mrs. DEMINGS).

Mrs. DEMINGS. Mr. Speaker, the insurrectionists attacked this very building we are standing in right now. The violent mob attacked, bear-sprayed, and beat down the police officers who protect us every day. 140 officers were injured, and we need to care about that. Some have died, and they deserved better.

Mr. Speaker, accountability and truth are the foundation upon which all of our rights and freedoms exist. We need answers, and this commission will give them to us. We need accountability, and this commission will pave the way for full accountability. We need an independent commission, and a vote against it is a vote for a cover-up. Choose ye this day whom you will serve. Our democracy or the big lie?

History will remember us.

Mr. Speaker, I urge my colleagues to support this legislation.

Mr. KATKO. Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentle-

woman from California (Ms. BARRAGÁN).

Ms. BARRAGÁN. Mr. Speaker, I rise today in support of the National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act.

So many questions have surfaced since the attempted insurrection from January 6, but one question encompasses everything: What happened?

A truth-telling commission will set the record straight about the January 6 uprising, its causes, and potential remedial measures. This is about a fact-finding and truth-telling mission. It was the very absence of these two things that helped bring the insurrection on January 6.

We can't move on until we look back and make sure we know what happened, why, and make sure it never happens again.

On behalf of fallen Capitol Police Officer Sicknick, the men and women of the U.S. Capitol Police, the congressional and Capitol Hill staff that keep our offices running, and the American people, we must uncover the truth.

Mr. KATKO. Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentlewoman from Virginia (Mrs. LURIA).

Mrs. LURIA. Mr. Speaker, like all of us, I watched with horror as our Capitol was overrun on January 6 by those seeking to overturn a free and fair election.

As a 20-year Navy veteran, I swore an oath multiple times throughout my career to support and defend our Constitution against all enemies, foreign and domestic. As Members of Congress, we swear the same oath, and we swear this oath, not as a member of a political party, but as Americans. There is no carve-out for political expediency.

I implore every Member of this body to uphold their oath and vote in support of this bipartisan commission. The American people deserve to understand exactly what happened that day in January.

Mr. Speaker, I urge my colleagues not to turn this into a partisan litmus test, not to pit Republican against Democrat, and not to perpetuate the big lie. Finding the truth should not be controversial or a question of partisan-ship.

This is about our shared future, the future of this Congress, and the future of democracy. We must do this together, and I urge an "aye" vote.

Mr. KATKO. Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I include in the RECORD a listing of national security, military, and elected officials, former Members of Congress, U.S. Attorneys, diplomats, all who have specific expertise in this matter before the body today.

LETTER FROM FORMER SENIOR NATIONAL SECURITY, MILITARY, AND ELECTED OFFICIALS CALLING ON CONGRESS TO CREATE A BIPARTISAN 1/6 COMMISSION

DEAR MEMBERS OF CONGRESS: We are former senior national security, military,

and elected officials who have represented or served Democrats, Republicans, or administrations of both parties. We write to encourage this Congress to establish an independent and bipartisan national commission to investigate the January 6th assault of the U.S. Capitol Complex and its direct causes, and to make recommendations to prevent future assaults and strengthen the resilience of our democratic institutions.

We also write to you with great urgency in light of what we collectively see as an exigent and growing threat. The events of January 6th exposed severe vulnerabilities in the nation's preparedness for preventing and responding to domestic terrorist attacks. The immediate security failings that permitted a lethal breach of the Capitol Complex by armed extremists raise serious questions and demand immediate solutions.

But January 6th was also the result of complex national security threats. These include coordinated disinformation campaigns, nontransparent financing of extremist networks, potential foreign influences, and white supremacist violent extremism, which the Department of Homeland Security identified in an October 2020 report as among "the most persistent and lethal threat[s] in the Homeland." As FBI Director Christopher Wray testified to you recently, "January 6th was not an isolated event. The problem of domestic terrorism has been metastasizing across the country for a long time now and it's not going away anytime soon." Understanding how these forces culminated in an attack on the infrastructure of our democracy is critical to preventing future attacks.

In the wake of September 11th, the administration and Congress jointly acknowledged that the attack's causes were complex and that an independent and well-equipped national commission was an essential tool to aid the federal government. Congressional inquiries, law enforcement activities, and a national commission not only worked in parallel, but critically complemented each other's necessary work. An independent commission should not supplant the ongoing work by the legislative and executive branches, but it can uniquely support them by providing comprehensive and expert recommendations for Congress to act upon.

Commissions—properly empowered, resourced, and led—can establish a full picture of events and an analysis of their causes, from which nonpartisan recommendations can authoritatively flow. With dedicated time, resources, and expert staffing, they can also exclusively focus on the matter at hand over an appropriate time horizon. Given the gravity of January 6th as a national security matter—the violent disruption to the transition of power and the continuing threat of future attacks—a national commission examining the lead up to the January 6th assault, and the attendant security lapses, is not only appropriate, but a critical component of the national response.

A failure to deploy the full suite of tools available to fully understand January 6th and address its causes will leave the Capitol, and the nation, vulnerable to future attacks. In bipartisan fashion, we have successfully marshaled these tools before, and we implore you to do so once again.

Sincerely,

(Note: All titles are former positions or military ranks held prior to retirement.)

Mr. THOMPSON of Mississippi. Mr. Speaker, I include in the RECORD a joint statement from Governor Tom Kean and former Congressman Lee Hamilton in support of this commission.

[From Issue One]

JOINT STATEMENT FROM GOVERNOR TOM KEAN AND CONGRESSMAN LEE HAMILTON, CHAIRMAN AND VICE CHAIRMAN OF THE 9/11 COMMISSION

“We very strongly urge House Members to support H.R. 3233, the bipartisan National Commission to Investigate the January 6 Attack on the United States Capitol Complex. That bill would create a 9/11 style commission to investigate the January 6th assault on the U.S. Capitol. That was a dark day in American history, one of the darkest.

“As Chairman and Vice Chairman of the 9/11 Commission, unity of purpose was key to the effectiveness of the group. We put country above party, without bias, the events before, during and after the attack. We sought to understand our vulnerabilities in order to prevent future attacks or future acts of terrorism.

Today, democracy faces a new threat. The January 6 attack on the U.S. Capitol was one of the darkest days in the history of our country. Americans deserve an objective and an accurate account of what happened. As we did in the wake of September 11, it's time to set aside partisan politics and come together as Americans in common pursuit of truth and justice.”

Mr. THOMPSON of Mississippi. Mr. Speaker, I include in the RECORD a letter from Protect Democracy, Ian Bassin, Executive Director.

PROTECT DEMOCRACY,  
Washington, DC, May 19, 2021.

PROTECT DEMOCRACY URGES REPRESENTATIVES TO SUPPORT H.R. 3233, THE NATIONAL COMMISSION TO INVESTIGATE THE JANUARY 6 ATTACK ON THE UNITED STATES CAPITOL COMPLEX ACT

DEAR REPRESENTATIVE: On January 6th the very foundations of our democracy—and our Congress and Capitol that lie at its heart—came under attack. More than 130 days later, Members of Congress, their staff, and their constituents are still struggling to come together to understand what happened and how to prevent it from ever happening again.

We strongly urge you to vote in favor of H.R. 3233, the National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act, which would establish an independent national commission to comprehensively investigate the January 6th attack on the U.S. Capitol Complex.

This bipartisan bill is a measured and thoughtful response to the attack. It will bring together a bipartisan group of experts to examine the facts and circumstances surrounding the January 6th attack. The Commission is structured to ensure it is a bipartisan endeavor: all reports must be agreed to by a majority of Commission members and the Commission may only issue subpoenas upon an agreement between the Chair and the Vice Chair or a vote by a majority of Commission members.

The Commission will build on the work that has begun in various congressional committees to gather information and hold hearings on the attack. It will not interfere with those ongoing efforts nor will it delay immediate security fixes to the Capitol Complex.

By creating this Commission, Congress can assure the American people, and all who work in the Capitol Complex, that these events and the circumstances leading up to them are thoroughly investigated outside of the pressured and partisan environment of Congress itself.

We are grateful to Chairman Bennie Thompson and Ranking Member John Katko for their leadership in advancing this critical legislation, and we urge continued bipartisan support for the bill. Today marks an important milestone toward seeking a shared understanding, protecting our cherished freedoms, and restoring faith in government.

Sincerely,

IAN BASSIN,  
Executive Director, Protect Democracy.

Mr. THOMPSON of Mississippi. Mr. Speaker, we have had a number of my colleagues come before us encouraging this body to support this commission and this legislation. They have spoken valiantly in support of it. They have put their hearts and souls into making sure that it is correct and proper.

I am happy, again, to share with my colleague from New York. I appreciate working with him, and I appreciate the ability to work out our differences. I think it should be part of the role model for future legislation in this body.

Mr. Speaker, I yield 1 minute to the gentlewoman from California (Ms. PELOSI), the Speaker of the United States House of Representatives.

□ 1645

Ms. PELOSI. Mr. Speaker, I thank the gentleman for yielding. I also thank him for his great leadership working with Ranking Member KATKO on bringing this bipartisan legislation

to the floor for a bipartisan commission.

Let's talk about where we are. Here we are in the Capitol of the United States. The dome of the U.S. Capitol has always been a beacon of democracy and hope to America and to the world. Under this dome, our Nation has abolished slavery; secured equal protections for all; ended a civil war; enfranchised women; established Medicare and Medicaid, voting rights and civil rights; and met the needs of the American people.

Under this dome, schoolchildren learn about their country's history and what we are doing to advance their future. They come here and see us honor those who have contributed to the success of our country: Washington, Lincoln, Jefferson, et cetera. But they know that our Founders, those patriots, wanted us to be working for a better future as we honor our history.

Under this dome, when children learn about our country's history, they also learn about what we are doing for their futures. Legislators pass laws. The press engages with our democracy, reporting on it. Staff and workers enable all of this to happen.

This dome is a symbol of the determination of America. But this was not always so. Let us recall that the dome of the Capitol was built during the Civil War as our country was riven by brutal conflict. At the time, many said the iron and steel used for construction were needed for the war effort. They urged the President not to continue the work on the dome. President Lincoln said no. He knew that our country needed a symbol of strength and unity, a reminder of the shared ideals and common purpose that built our Nation.

It was a beacon of hope to guide us through times of darkness, and he knew that the work must continue as a sign of our strength and the unity of our country.

Mr. Speaker, on January 6, and in the days, weeks, and months after, the Capitol dome was, once again, such a beacon.

Would we prevail?

January 6 was the day called for in the Constitution to validate the Presidential election. It was not just another day in the life of Congress. That day, one of the darkest days in our history, our temple of democracy was under assault by insurrectionists.

The gleeful desecration of our Capitol resulted in multiple deaths and physical harm to over 140 members of law enforcement and terror and trauma among staff, workers, and even Members.

The insurrection was called for to impede our constitutional mandate, but the Congress returned to the Capitol that night to accomplish our purpose. We agreed in a bipartisan way that day that we would return to the Capitol, and that sent an important signal to the world.

The insurrection called for people to impede our constitutional mandate,

but we returned to the Capitol. Thanks to the courage of the Capitol Police, Members, and support workers, we showed the country and, indeed, the world that we would not be diverted from our duty and that we would respect our responsibility to the Constitution of the United States.

We take that oath to protect and defend the Constitution. Again, in a bipartisan way, we agreed to come back to the Capitol.

Today, over 4 months later, many questions regarding the circumstances of this assault on our democracy and response to it remain. It is imperative that we seek the truth of what happened on January 6.

To do that, Congress must, in a spirit, I believe, of bipartisanship and patriotism, establish an independent and bipartisan 9/11-type commission. Today, thanks to the leadership of Chairman BENNIE THOMPSON and Ranking Member JOHN KATKO, legislation to create such a commission is on the House floor.

It is important to note, Mr. Speaker, that this is happening 4½ months after the January 6 insurrection. Mr. Speaker, my colleagues know, but many were not here at the time, legislation establishing the 9/11 Commission, 9/11/2001, was not signed into law until the end of November 2002, over 14 months after the attacks.

So, people have been saying: How come we don't have a commission?

It takes time to build bipartisanship and come to agreement. Let us hope that the leadership that Mr. THOMPSON and Mr. KATKO have demonstrated will be leadership that we will follow and that we will continue in the most bipartisan way in order to seek the truth.

Today, 4 months later, many questions regarding the circumstances still exist. This commission is designed to be impartial and experienced. The legislation requires that the commissioners be "prominent United States citizens with national recognition and significant depth of experience."

It also indicates that they should not be Members of Congress or elected in another capacity. Commissioners will be appointed from the highest echelons of government service; law enforcement; civil rights, civil liberties, and privacy; Armed Forces; intelligence; counterterrorism; cybersecurity; technology; and law.

The commission will be, again, bipartisan and bicameral, with commissioners appointed by the majority and minority leadership in the House and Senate. It will be actionable and effective, culminating in a final report on the facts and causes of January 6, along with recommendations to prevent further attacks on our democratic institutions.

I heard earlier Chairman THOMPSON acknowledge the support and endorsement of the previous chairs of the 9/11 Commission, Governor Kean and Chairman Lee Hamilton from Congress, the

co-chairs of the 9/11 Commission. They had written to us earlier about the need for such a bipartisan commission, but they also wanted not only to find out the truth so this doesn't happen again, but also to reinforce our commitment to democracy and take us on a path that is better and more unifying.

That is a responsibility we have, and that is a hope that I have emerging from this debate and this vote today, that we will be able to have a strong bipartisan vote that takes us down a path more unifying for our country. We have this opportunity.

Mr. Speaker, the press says to me: Why don't you just go do your own task force and your own select committee to investigate this? You have the votes, you have subpoena power, and you have this or that.

I said: I don't want to do that. We want this to be as it is shaped, bipartisan with shared responsibility and shared staff in a way that the public will have respect for the outcome.

To that end, 140 national security leaders have called for such a commission. This is what they have said: "The events of January 6 exposed severe vulnerabilities in the Nation's preparedness for preventing and responding to domestic terrorist attacks. The immediate security failings that permitted a lethal breach of the Capitol complex by armed extremists raise serious questions and demand immediate solutions. . . . A failure to deploy the full suite of tools available to fully understand January 6 and address its causes will leave the Capitol, and the Nation, vulnerable to future attacks."

This list is nonpartisan, 140 Democrats and Republicans. I don't even know what party some of them are.

I include their statement in the RECORD, Mr. Speaker.

LETTER FROM FORMER SENIOR NATIONAL SECURITY, MILITARY, AND ELECTED OFFICIALS CALLING ON CONGRESS TO CREATE A BIPARTISAN 1/6 COMMISSION

DEAR MEMBERS OF CONGRESS: We are former senior national security, military, and elected officials who have represented or served Democrats, Republicans, or administrations of both parties. We write to encourage this Congress to establish an independent and bipartisan national commission to investigate the January 6th assault on the U.S. Capitol Complex and its direct causes, and to make recommendations to prevent future assaults and strengthen the resilience of our democratic institutions.

We also write to you with great urgency in light of what we collectively see as an exigent and growing threat. The events of January 6th exposed severe vulnerabilities in the nation's preparedness for preventing and responding to domestic terrorist attacks. The immediate security failings that permitted a lethal breach of the Capitol Complex by armed extremists raise serious questions and demand immediate solutions.

But January 6th was also the result of complex national security threats. These include coordinated disinformation campaigns, nontransparent financing of extremist networks, potential foreign influences, and white supremacist violent extremism, which the Department of Homeland Security iden-

tified in an October 2020 report as among "the most persistent and lethal threat[s] in the Homeland." As FBI Director Christopher Wray testified to you recently, "January 6th was not an isolated event. The problem of domestic terrorism has been metastasizing across the country for a long time now and it's not going away anytime soon." Understanding how these forces culminated in an attack on the infrastructure of our democracy is critical to preventing future attacks.

In the wake of September 11th, the administration and Congress jointly acknowledged that the attack's causes were complex and that an independent and well-equipped national commission was an essential tool to aid the federal government. Congressional inquiries, law enforcement activities, and a national commission not only worked in parallel, but critically complemented each other's necessary work. An independent commission should not supplant the ongoing work by the legislative and executive branches, but it can uniquely support them by providing comprehensive and expert recommendations for Congress to act upon.

Commissions—properly empowered, resourced, and led—can establish a full picture of events and an analysis of their causes, from which nonpartisan recommendations can authoritatively flow. With dedicated time, resources, and expert staffing, they can also exclusively focus on the matter at hand over an appropriate time horizon. Given the gravity of January 6th as a national security matter—the violent disruption to the transition of power and the continuing threat of future attacks—a national commission examining the lead up to the January 6th assault, and the attendant security lapses, is not only appropriate, but a critical component of the national response.

A failure to deploy the full suite of tools available to fully understand January 6th and address its causes will leave the Capitol, and the nation, vulnerable to future attacks. In bipartisan fashion, we have successfully marshaled these tools before, and we implore you to do so once again.

Sincerely,

(Note: All titles are former positions or military ranks held prior to retirement.)

Ms. PELOSI. After the bipartisan agreement on this commission was reached, the respected bipartisan chairs of the 9/11 Commission, Thomas Kean and Lee Hamilton, endorsed it, as was mentioned by the chairman and as I referenced earlier.

I want to repeat it because I think it bears repetition:

We very strongly urge House Members to support H.R. 3233, the bipartisan National Commission to Investigate the January 6 Attack on the United States Capitol Complex bill that would create a 9/11-style commission to investigate the January 6 assault on the U.S. Capitol. That was a dark day in American history, one of the darkest.

As chairman and vice chairman of the 9/11 Commission, unity of purpose was key to the effectiveness of the group. We put country above party, without bias, the events before, during, and after the attack. We sought to understand our vulnerabilities in order to prevent future acts of terrorism.

The chair and vice chair went on to say:

Today, democracy faces a new threat. The January 6 attack on the U.S. Capitol was one of the darkest days in the history of our country. Americans deserve an objective and accurate account of what happened.

Mr. Hamilton and Governor Kean said:

As we did in the wake of 9/11, it is time to set aside partisan politics and come together as Americans in common pursuit of truth and justice.

As I said earlier, Mr. Speaker, the Capitol of the United States has always been a glorious beacon of democracy for the American people and for the world.

This legislation is about something larger even than the commission, vital as the commission is. This legislation is about our democracy, about ensuring that the Capitol dome remains a symbol of freedom and about preserving America's role as an emblem of resilience, determination, and hope to the world.

Indeed, creating this commission sends a resounding message to terrorists both at home and abroad: The commitment of the United States Congress to the Constitution and to the American people is unshakeable.

In establishing the truth of January 6, this commission will protect our temple of democracy and our democracy itself. It will ensure that such an attack shall never happen again.

Can we just not wait, Mr. Speaker, for a time very soon when children come here to learn, where the press can cover in a more open way, and where the American people can come into the people's House?

That is what this Chamber has been called, the people's House. They come

to witness the debate that affects their lives. And whatever our disagreement about policy, they are assured that we are unified in our commitment in honoring our Constitution and respecting the institution in which we serve.

Mr. Speaker, I urge a strong bipartisan vote for H.R. 3233 to establish the national commission to investigate the January 6 attack on the United States Capitol complex. I do so with the greatest appreciation and respect to Chairman BENNIE THOMPSON and to Ranking Member KATKO, and I hope, again, that the spirit of bipartisanship that they engendered in bringing this legislation to the floor will only grow as we go forward with the commission and with its recommendations.

Mr. KATKO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to thank the Speaker for her comments.

I want to reiterate for everyone to understand: The way that Mr. THOMPSON and I crafted this bill, we crafted it in such a manner to make sure it would be depoliticized entirely. There is an equal number of members on both sides appointed by both sides. They have equal subpoena power. They can't subpoena one person without the other person on the other side of the aisle agreeing. They have to hire staff together, all those things.

I want to make sure people understand that we did this for a reason because that is exactly what made the 9/11 Commission successful and made it effective.

As someone who was in Federal law enforcement for 20 years before I took this job, I can tell you, Mr. Speaker, that our country is infinitely safer because of what the 9/11 Commission did. We are much stronger against terrorism, and we share information in much better ways than we ever did—for example, the Joint Terrorism Task Forces, which are all over this country.

I ask my colleagues to consider the fact that this commission is built to work. It will be depoliticized, and it will get the results we need because the Capitol itself and the Capitol Police officers will be better off for it.

Mr. Speaker, I yield 2 minutes to the gentlewoman from Georgia (Mrs. GREENE).

Mrs. GREENE of Georgia. Mr. Speaker, I rise in opposition to this bill and to the January 6 commission. I do so as a Member of Congress because I believe this institution's duty is to serve the people of this country and not itself.

In this past year, we have witnessed violent riots in American cities all over this country. We have witnessed tremendous damage. Minneapolis city officials estimate 700 buildings were damaged, burned, or destroyed, including 360 local businesses. There has not been a commission launched to study the reasons why that happened.

There has not been an investigation to stop the BLM and antifa riots that have hurt innocent people and attacked government buildings and Fed-

eral courthouses, taken over police precincts, created autonomous zones in the city of Portland, and done so much damage to people all over the country.

Studies show 570 protests in 220 different U.S. locations turned violent over the summer. The \$1 billion-plus riot damage is estimated to be the most expensive in insurance history. It resulted in up to \$2 billion of damages in 20 cities across the U.S., mostly concentrated in L.A., Detroit, Miami, D.C., and New York.

As a person who was a victim of the January 6 Capitol attack, I can tell you that I am against the violence that happened that day, but I do not believe a January 6 commission will achieve any resolution because we have already had our Department of Justice arrest 445 people, with 100 more to be arrested soon.

There are also reports of people being held for 23 hours in solitary confinement. That should not be happening. These people haven't even had a court date yet.

What is going to happen with the January 6 commission is the media is going to use this to smear Trump supporters and President Trump for the next few years and cover up the real damage that is happening to the people of this country, which is tearing down our economy, ripping our borders wide open, and hurting this country.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentleman from Maryland (Mr. HOYER), the majority leader of the Democratic Party.

Mr. HOYER. Mr. Speaker, I thank the chairman for yielding, and I thank the chairman for his work.

I have been here a long time. This is my 40th year in the Congress of the United States. I came at the same time Ronald Reagan was elected President of the United States. It was clearly a time of difference in the House and in the country between Republicans and Democrats, but it was also a time when, frankly, the JOHN KATKOS of the Congress were in the majority in the Republican Party. And by that I mean, Mr. Speaker, people who wanted to work together to get results that, while not perfect for either side, were good for the country.

So while I thank Mr. THOMPSON for the hard work he has done, I thank Mr. KATKO as well for doing what Americans expect us to do, to come together, looking at a challenge to our country and to our people, coming to a decision to resolve those challenges and those problems.

That is what Mr. THOMPSON and Mr. KATKO have done. Indeed, I think this is, in some ways, the best of days and, in some ways, the worst of days because we have seen today two Republican leaders turn what ought to be a nonpolitical issue, an issue with reference to a unique event, not just a demonstration that has occurred.

I grew up in the 1960s. Whether it was civil rights or Vietnam, there were a lot of demonstrations. But the Capitol of the United States was not attacked. It was not invaded. It was not breached.

The work of the Congress of the United States was not stopped because people were trying to get through the door, with some Members trying to stop them who then said: These are just tourists.

It is sad because what the minority leader in the Senate and the minority leader in the House said is exactly what Mr. KATKO pointed out. They wanted a commission that was even, as the 9/11 Commission was even, so that both sides would have an equal voice.

What was the resolution that Mr. THOMPSON and Mr. KATKO attained? Equal division, equal voice. Not only equal voice in terms of numbers but, for instance, one of the things that was controversial was about subpoenas. Mr. THOMPSON and Mr. KATKO arrived at a resolution that said both sides have to agree, or alternatively, the committee can agree. In light of the fact that the committee is evenly divided, it would obviously have to be a bipartisan request for subpoenas.

Now, what we didn't agree on was the distraction and the dissembling. Let's look at this corner; don't look here. Let's look at this corner; don't look here. Let's look at that corner; don't look there. Don't look at just the invasion, the insurrection that occurred on January 6; look at everything else because maybe we can confuse the issue enough that we will lose sight of the insurrection on January 6. We ought not to do that.

I have been here a long time, but I also know the history of the House, and I do not know of any other instance that is analogous to January 6, not one.

In 1812, of course, there was a similar invasion, but it was from a foreign enemy. It was not the enemy within. I said that on the floor that morning as we finished the business of the House, notwithstanding the insurrection.

Mr. Speaker, it is vital that Congress establish a bipartisan, independent commission to investigate January 6, not some other date. That does not absolve any wrongdoing anywhere at any time. But it says that this unique insurrection is a danger to our democracy, not to Republicans or Democrats, to our democracy, to our Congress, to the people's House and the United States Senate, which was occupied. At least this House was not occupied.

But Members were terrified, work was stopped, and democracy, for a short period of time, was overtaken by armed, violent insurrectionists.

Certainly, each one of us ought to be very concerned about getting to the bottom of why that happened. How did it happen? How can we stop it from happening again? What are the resources that we need, and, yes, who was responsible? Some, perhaps, are going

to vote against this because that is what they fear.

The 9/11 Commission, as Mr. KATKO pointed out, made America safer. It made this institution safer. It made our law enforcement more acutely aware of the failures that led to 9/11. I hope this commission does the same. I have talked to numerous Republicans who tell me they think it was right that we focused on January 6. Don't be distracted. Don't cover up or make it more lacking in clarity by trying to deal with every problem that we may have. Focus on January 6.

Together, Mr. KATKO and Mr. THOMPSON negotiated a bipartisan agreement to move forward with such a commission based on input from Democrats and Republicans. There are going to be a significant number of Republicans who vote for this bill.

Unfortunately, the truth has been a victim over the last couple of weeks. It was okay for LIZ CHENEY to tell the truth once, but when the former President of the United States kept telling a lie, and she said that is a lie each time that he said it, well, that was not appropriate, so she was removed. But the truth was removed with her. See no evil, hear no evil.

The commission, as a result of Ranking Member KATKO's participation in these discussions, will be equally composed, as I said. It will have subpoena power that will be shared by both sides. I was pleased that we reached a bipartisan agreement and sad for this institution, for this country, for the American people who must think: Well, can't you agree on anything?

The minority leader got what he asked for, yet he won't take yes for an answer. Trump does not want this commission. That can be my only explanation.

Throughout my career, both in the State Senate for 12 years, as president of the Senate, and here in this body for 40, I think I am known on the other side of the aisle as somebody you can work with. I hope that is the case because I think that is the way Americans want us to work.

President Trump opposes this commission. I am not sure why. It is deeply disappointing that there is a division among Republicans about whether to support the ranking member who worked hard to get to this place and got what the minority leader asked for, except for the distraction, except for the dissembling. He didn't get that. But he got everything else.

Mr. Speaker, I hope my Republican colleagues will think not about their politics, not about the former President, not about themselves. I hope they will think of the country, of this Congress, of this House. As they do so, I hope they say to themselves: We will vote for this legislation.

What if George Bush had said we shouldn't have a 9/11 Commission, perhaps out of fear that somehow the administration would have been perceived as being responsible for 9/11?

They weren't. Wouldn't all of us have said: What are you talking about that we are not going to have a commission to see how we can protect the Capitol and why this Capitol was stopped from doing the work of our democracy?

This legislation is going to pass. It is going to pass on a bipartisan basis, and I want to thank Mr. KATKO for having the courage and the integrity to stand up, fighting for what the minority leader asked for.

I say to Mr. THOMPSON that that is the funny thing about this. I hope Senators will think long and hard about rejecting this bipartisan compromise to move forward, to protect our democracy, and to lift it up as the beacon that it has been and needs to be not only for our own citizens but for all the world.

How sad that day was as the world watched, as TVs showed them America's citadel of democracy and of freedom invaded by its own citizens.

Vote "yes." It is the right thing to do.

Mr. KATKO. Mr. Speaker, I yield 2 minutes to the gentleman from North Carolina (Mr. BISHOP).

Mr. BISHOP of North Carolina. Mr. Speaker, I had not intended to speak, but the careful mask of bipartisanship seems to have faltered here at the last, with the majority leader's attacks on the minority leader, who has not spoken, and the minority leader in the Senate for comments he has made in public but not in debate.

So what was an image of bipartisan cooperation has now become one more partisan attack. It caused me to believe that it was important to stand up and say this: How can you have a bipartisan commission with an all-Democrat staff? How do you do that?

And why is it that there is no willingness to look into all of the riots and the arson and the violence and the burning? If we are concerned about the danger that police officers were in on January 6—and certainly they were—then why don't we have that concern for the dangers, the violence, the injuries, the deaths that have been faced by police officers across this country?

Why is one form of political violence equivalent to 9/11 when a blind eye has been turned by this Congress, or at least by the majority in this Congress, to that same phenomenon across this country for a year? Where is the inquiry into that?

When the images are raised, the lurid images of insurrection—let me just say this. If it was an insurrection, it was the worst example of an insurrection in the history of mankind. It was a riot, it was a mob, it was significant, and it was troublesome.

But this is not bipartisanship, and I fear that the gentleman from New York may find that he has been played.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am not going to argue with the previous speaker. I just say: Read the bill. And if you read the bill, you will understand it is a bipartisan bill.

It is not a partisan bill; it is absolutely bipartisan. The staff will be picked just like the staff was picked for the 9/11 Commission. It is just like the earlier bill the ranking member talked about, the Rodney Davis bill.

We looked, Mr. Speaker, at this issue because the world saw what happened on January 6, and it is clear that we put together a bipartisan bill for the good of the country. It is in that spirit that we are here today.

Mr. Speaker, how much time is remaining?

The SPEAKER pro tempore. The gentleman from Mississippi has 6 minutes remaining. The gentleman from New York has 15 minutes remaining.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 2 minutes to the gentlewoman from New York (Mrs. CAROLYN B. MALONEY), the chair of the Committee on Oversight and Reform.

Mrs. CAROLYN B. MALONEY of New York. Mr. Speaker, I thank the chairman and ranking member for their extraordinary leadership, for doing the right thing, and for working to make this country safer and stronger.

Like my friend on the other side of aisle from North Carolina, I didn't intend to speak either.

As a New Yorker, I was closely involved in supporting the work of the 9/11 Commission. It, too, like January 6, was one of the darkest days in the history of our country, and we needed answers on how such a horrible thing could happen. Almost 3,000 people were murdered just because they went to work that day. Many things needed to be answered.

This body came together. We were united; we were determined; we passed the Commission. We had two outstanding leaders, Governor Kean and Lee Hamilton. They did everything together. They issued a report that sold more copies than Harry Potter. I nominated it for a National Book Award. It laid out what happened so clearly from their joint investigations. More importantly, it told us what to do about it. They had a series of recommendations to make this country safer.

This body worked together and enacted most of them, and it did make this country safer. In fact, I get periodic reports from the law enforcement in my city on attempts to hurt us and how the reforms and the programs we put in place are helping us, making us stronger and protecting us better.

We need this January 6 commission, for the sake of America. Let's stop fighting long enough to work together to help our country understand what happened.

Why did it take 4 hours for the National Guard to respond? In New York, they would have been there in 10 minutes. Why didn't they respond to all of the news reports about what was hap-

pening? We need answers. Let's come together and work together and get them.

A January 6 commission, I urge for the sake of the country, everyone should vote for it.

Mr. KATKO. Mr. Speaker, I yield 1 minute to the gentleman from Texas (Mr. GOHMERT).

Mr. GOHMERT. Mr. Speaker, look, things have changed a lot since the 9/11 Commission. Back then, we did not have a problem on either side of the aisle condemning anti-Semitic remarks. Now one side has a problem doing that.

Back then, we had never, in the history of Congress, had one party commit what arguably is felony, up to 20 years in prison, by preventing an ongoing session of Congress, the exact charge, 18 USC 1512, that is being alleged against people that came in. As a judge, I would have no problem sentencing anybody that broke into the Capitol, anybody that committed a crime here.

But let's be real. The partisanship has been dramatic. That is why it is different now than the 9/11 Commission. Let's get back to being bipartisan and not use every tool as a partisan stick to beat Republicans with.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 1 minute to the gentlewoman from the Virgin Islands (Ms. PLASKETT).

Ms. PLASKETT. Mr. Speaker, I rise in strong support of this bill, the National Commission to Investigate the January 6 Attack on the U.S. Capitol.

I want to thank Chairman THOMPSON and Ranking Member KATKO for bringing this bill to the floor.

On January 6, we witnessed one of the darkest moments in our Nation's history when a violent mob attacked the U.S. Capitol. These individuals desecrated the Halls of Congress, attacked law enforcement, and attempted to stop the democratic process. The clearest way for us to uphold our oath to defend the Constitution and protect this institution, our democracy, from those who directly attempted to thwart its operations, is through an independent, evenly-divided, bipartisan commission. We need to understand not just what were the breakdowns in security and the failures of our intelligence, but why. What are those issues which caused fellow Americans to believe they needed to overthrow their government?

Those who believe the former President had no culpability should not be afraid of a commission that derives its power from both sides equally.

I ask all of my colleagues to join me in supporting this bill.

Mr. KATKO. Mr. Speaker, I yield 1 minute to the gentleman from Texas (Mr. ROY).

Mr. ROY. Mr. Speaker, I thank the gentleman from New York for his work on this effort. I appreciate my colleagues on the other side of the aisle and the intent of what we are trying to accomplish.

Obviously, we are all very concerned and should be concerned about what occurred on January 6, all of us who were here in the Chamber, all of us who saw what unfolded.

My concern, and the reason that I am opposing this legislation, is that I believe we have got a significant amount of power with our existing structures in place, the Committee on Oversight and Reform, the Committee on the Judiciary, and otherwise. While the investigation is going on at the Department of Justice, we ought to be looking at that and using those powers to do what we can to seek the truth wherever it may lead.

I have questions right now for the Department of Justice. We have got 450 Americans who have been arrested. I don't know for how long, I don't know how many of them are in jail, or for what period of time. We are trying to look into that. I have sent letters to the Department of Justice to get those answers.

I wish the gentlewoman who spoke, the chair of the Committee on Oversight and Reform, would afford us the ability to call people forward from the Department of Justice. Let's inquire as to what is going on. Let's inquire about the investigations. Let's inquire about the facts that have been found. Let's use the powers that we have and the powers of this body and the committees we have to seek the information and the truth, wherever it may lead.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 30 seconds to the gentlewoman from Illinois (Ms. SCHAKOWSKY).

Ms. SCHAKOWSKY. Mr. Speaker, I want to thank Chairman THOMPSON for his leadership.

While the events of January 6 were devastating and will stain our country's history forever, I have no doubt that democracy will prevail.

This Nation has fought back against hatred, authoritarianism, and fascism since the very founding.

Yes, I stand proudly today to ask for a January 6 commission so that we can develop a full public record that will let us know how we can avoid this in the future.

We should all vote "yes."

Mr. KATKO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I just want to take a few moments to address some of the arguments that have been made here today, and some of the arguments that have been made in opposition to this bill.

One of them is talking about the scope of the commission being too narrow. I want to note that the commission is granted sufficient scope and flexibility to investigate targeted violence and domestic terrorism relevant to the January 6 attack. It will be up to the commission to decide how far they want to go with that perimeter.

Do I feel that the attack on the Capitol on April 2 that killed a Capitol Police Officer is relevant? I do. I hope the commission does, too.

Do I feel that the June 17 attack on Republican Members of Congress is relevant to the January 6 attack? I do. I hope the commission does. They have the flexibility to do so, if they want.

If there are other issues outside of this scope, we can look into them. We can have separate legislation. I encourage my colleagues, who are concerned about that, to do that.

Another charge I heard was that the commission could be controlled by partisan staff hired unilaterally by the commission chair. That is simply not true.

Here is what the bill does. It requires consultation between the chair, appointed by the Democrats, and the vice chair, appointed by the Republicans, for any hiring of staff. Further, it requires that it be in accordance with the rules agreed upon by the commission. The commission creates the rules as a team. They then hire as a team.

Lastly, there has been some concerns or arguments made about the criminal investigations. Make no mistake about it. This commission has nothing to do with the criminal investigations. This commission, by law, cannot interfere with criminal investigations. Criminal investigations alone won't get us what we need, like the 9/11 Commission concluded. It won't get us the recommendations, the insight, the expertise from the people on the commission who can come in, look at the Capitol security matrix, and say this is what needs fixing. A prosecutor can't tell you that. The commission can. That is what we want to do.

Second, the bill specifically requires the commission to respect ongoing investigations and build upon the investigations, learn from them, and avoid unnecessary duplication.

This language, in that respect, goes further than the 9/11 Commission in H.R. 275 in granting deference to other ongoing investigations.

So I just want to make sure people are clear about that going forward.

Mr. Speaker, I reserve the balance of my time.

□ 1730

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 30 seconds to the gentleman from Ohio (Mr. RYAN).

Mr. RYAN. Mr. Speaker, I want to thank the gentleman from New York and the other Republicans who are supporting this for their bipartisanship.

To the other 90 percent of our friends on the other side of the aisle, holy cow. Incoherence. No idea what you are talking about.

Benghazi, you guys chased the former Secretary of State all over the country, spent millions of dollars. We have people scaling the Capitol, hitting the Capitol Police with lead pipes across the head, and we can't get bipartisanship.

What else has to happen in this country?

This is a slap in the face to every rank-and-file cop in the United States.

If we are going to take on China, if we are going to rebuild the country, if we are going to reverse climate change, we need two political parties in this country that are both living in reality, and you ain't one of them.

The SPEAKER pro tempore. Members are reminded to direct their remarks to the Chair.

Mr. KATKO. Mr. Speaker, I ask that we all take a deep breath right now. Everybody breathe for a minute and everybody stop the theatrics, and everybody stop the arguments that are not relevant to this issue.

This is a very solemn moment. We are here to talk about something that is very important to the entire of our Government and the entire of our country. I ask that we think about the officers and their families and conduct ourselves accordingly.

Mr. Speaker, I reserve the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield 30 seconds to the gentleman from New Jersey (Mrs. WATSON COLEMAN).

Mrs. WATSON COLEMAN. Mr. Speaker, I just want to say that January 6 was a frightening experience. It was an assault upon the fundamentals of this Government. It was an assault upon the place I thought I was going to be the safest I could possibly be, and we politicize this.

This is an opportunity to bring this bipartisan commission into existence so that we can get out of the politics of it and look at the facts that happened, the evidence that happened, and the recommendations that will ensue from that effort.

I wholeheartedly support this effort. I am grateful for the bipartisanship of it, and I pray that all of our colleagues will support this.

Mr. KATKO. Mr. Speaker, may I inquire as to how much time remains?

The SPEAKER pro tempore. The gentleman from New York has 9½ minutes remaining. The gentleman from Mississippi has 1½ minutes remaining.

Mr. KATKO. Mr. Speaker, I am prepared to close and I yield myself the balance of my time.

Mr. Speaker, this legislation is not about partisan politics. It is about finding the truth and addressing the vulnerabilities of our security apparatus so that we can emerge stronger and better prepared.

The January 6 attack was a completely preventable failure of intelligence, information sharing, decision-making, and preparedness. The Capitol Police and D.C. police suffered greatly and continue to suffer as a result.

The institutions of our democracy are and will continue to be a target for extremists set on using violence to further their ideology. We, in Congress, owe it to this Nation, to our constituents, and to the dedicated men and women who risk their lives every single day to protect those institutions—and I honor them—to see that we learn from those attacks, that we get an-

swers to the hard questions, and that we do not repeat the mistakes of the past.

Capitol Police Officers Brian Sicknick and Howard Liebengood, as well as D.C. Police Officer Jeffrey Smith, all lost their lives in the wake of the January 6 attack. Over 140 more law enforcement officers—140—were injured as a result of that attack.

Less than 4 months later, on April 2, Capitol Police Officer William “Billy” Evans was killed and another officer was injured when yet another extremist attacked the Capitol.

And, of course, we can't forget the 2017 terrorist attack against Republican Members of Congress during practice for the Congressional Baseball Game. Were it not for the officers involved, there would be scores of dead Congressmen. That is the plain truth. I acknowledge the heroic efforts of David Bailey and Crystal Griner.

We owe it to all of these officers and their families to ensure that nothing like this ever happens again. This legislation is modeled directly on the legislation that created the 9/11 Commission. I sincerely believe that this commission, with strong support from this body, will embark on an objective, non-partisan search for answers and solutions, just as the 9/11 Commission did.

Again, I want to thank my friend, Chairman THOMPSON, for his partnership.

I urge everyone in the body, on both sides—not just my side and not just the other side, all of us—to set aside politics just this once—just this once. I beg Members to pass this bill.

I was a prosecutor for 20 years prior to coming here to Congress, and many times we would meet at 4:30 in the morning or 5:00 in the morning, and they would get ready to go out and do the raids and arrest very, very dangerous people. I was always the last person to see them before they went out to get these awful, dangerous people off the street: drug dealers, murderers, violent people. They did their job every day, and I was sending them into harm's way. It always made my heart sink.

Imagine being a family member of these officers who do this. So let's take a deep breath and think about what is really important here. These people, every single day, are willing to lay down their lives for us.

They deserve better, and we are going to deliver this. We are going to deliver it on behalf of Capitol Police Officer Brian Sicknick. We are going to deliver it on behalf of Capitol Police Officer Howard Liebengood. We are going to deliver it on behalf of Capitol Police Officer William “Billy” Evans. We are going to deliver it on behalf of D.C. Police Officer Jeffrey Smith. We are going to deliver it on behalf of D.C. Police Officer Michael Fanone and so many others who struggle with the events of that day. We do so on behalf of the people who risked their lives for us and continue to, like Capitol Police

Officer David Bailey and Capitol Police Officer Crystal Griner.

I want these officers and their families to know that we are doing it not for us and not for politics. We are doing it for them. We are doing it for them.

Mr. Speaker, I urge my colleagues to support this legislation, and I yield back the balance of my time.

Mr. THOMPSON of Mississippi. Mr. Speaker, I yield myself the balance of my time.

At the outset, let me salute Mr. KATKO for his agreeing to work in a bipartisan manner so that we can get this bill to the floor and adopted today.

Mr. Speaker, we are here today at a unique moment in American history. Trust in our government's ability to share information and coordinate at all levels to keep our democracy secure was severely shaken by the January 6 attack.

We need a bipartisan commission with experts who put country ahead of party to come together, just as the commission did, to lay out the facts and proposed solutions to make us more secure.

When the chairman of the 9/11 Commission issued their final report, they concluded a message to the public. It asked that each of us remember how we felt on that day of the attack. It asked that we recall the grief and sorrow.

This moment is no less historic, no less important, no less momentous, and it requires the same common action, both as Congress and as a country.

I, too, salute the brave men and women of the Capitol Police who put their lives on the line on January 6 protecting this citadel of democracy, and it is in their spirit that I ask that you vote in support of this legislation.

Mr. Speaker, I yield back the balance of my time.

Mr. SMITH of New Jersey. Mr. Speaker, the chairman and ranking member of the House Homeland Security Committee have negotiated in good faith over several weeks a bipartisan bill—H.R. 3233—to establish a ten-member national commission to investigate the January 6th attack on the Capitol.

I'm voting yes.

If enacted into law both the Republican and Democrat leaders would each select five commissioners who would be tasked with investigating the "facts and causes" of the attack.

The Commission may issue subpoenas, but subpoenas may only be issued by agreement between the Chair and Vice Chairperson of the Commission—one Democrat and one Republican—or by the vote of a majority of the members of the Commission.

Any interim report, or the final report—which must be submitted to the President and Congress no later than December 31, 2021—must be agreed to by a majority of Commission members.

According to the text of H.R. 3233, the final report should include "findings, conclusions, and recommendations, which may include changes in law, policy, procedures, rules, or regulations, to improve the detection, prevention, preparedness for, and response to targeted violence and domestic terrorism and im-

prove the security posture of the United States Capitol Complex and ensure the security of Members of Congress and staff."

The attack on January 6 resulted in a tragic loss of life and physical injury. 140 Capitol and D.C. police officers were injured on January 6th, including 15 who were hospitalized. Three police officers later died—including a brave Capitol police officer from New Jersey, Brian Sicknick, who died of a stroke on January 7th and two other officers died by suicide. Four rioters died—one was shot by police.

It is my hope that the Commission will establish the truth and provide a way forward to ensure that such an attack never happens again.

Ms. SLOTKIN. Mr. Speaker, I rise today to express my strong support for H.R. 3233, which would create an independent, bipartisan "National Commission to Investigate the January 6 Attack on the United States Capitol Complex."

The attack on the Capitol was one of the darkest days in our Nation's history—an assault on the foundation of our democratic system, and an attempt to stop Congress's work through violence. I am proud that we didn't let the attempt succeed: thanks to the heroism and incredible sacrifices of the U.S. Capitol Police that day to defend the heart of our democracy, both houses of Congress returned to the Capitol and worked through the night to certify and uphold the will of the American people.

Now, it is our duty to ensure that such an attack on our democracy is never able to happen again. That work begins with ensuring that we have an honest, independent investigation of what happened that day and how it was possible—a task perfectly suited for the commission the House has voted to create today, with bipartisan support. This bill creates a 1/6 Commission that follows the model set by the 9/11 Commission, whose landmark investigation wasn't just for Washington insiders or policy wonks, but the American people.

The 9/11 Commission's final report was written in easily accessible prose, and published as a bestselling paperback which was available in bookstores and newsstands across the country. It helped ordinary Americans understand how such an appalling attack had been possible, who needed to be held accountable, and what we as a nation had to do to ensure it would never happen again.

And two decades later, its impact hasn't faded: even today, a whole generation of Americans who were just children on 9/11, or were even born after the attacks, have looked to the Commission's work to help them make sense of that dark chapter in our history.

The Commission also delivered a vital wake-up call to our national security establishment. As one of the first dozen staff members at the Office of the Director of National Intelligence, which grew out of the 9/11 Commission's recommendations, I saw firsthand how the Commission's independent investigation pushed our government to meet the serious challenges we faced. I keep my original, dog-eared copy of the 9/11 Commission report in my congressional office as a constant reminder, because it drove systemic change where systemic failures had occurred.

The 1/6 Commission that the House has approved today is built on the same principles that enabled the success of the 9/11 Commission: It has a bipartisan structure—five Repub-

licans, five Democrats—and bipartisan support in Congress.

It will operate by consensus and will have the subpoena power, budget and staff needed to conduct a proper investigation.

And it has a mandate to look at the full scope of facts and causes that led to or influenced this specific, unprecedented attack on our democracy. As those of us from Michigan are well aware, this attack didn't happen in isolation. It was the result of months, if not years, of escalating rhetoric and activity—which is why it's vital that this commission has a strong, focused mandate.

But even beyond its structure, what characterized the 9/11 Commission's work was a commitment among its members to work together in good faith, to uncover the truth behind what led to the attack on our Nation, no matter how disturbing or painful.

As Governor Tom Kean and Congressman Lee Hamilton, the bipartisan leaders of the 9/11 Commission, said in a statement today, it was their commitment to "put country over party, without bias" that led to the "unity of purpose [that] was key to [its] effectiveness."

The Commission's findings and work were seen as objective and legitimate because of that combination of structure and patriotic, good faith commitment—the model only works if we have both.

That's why it's so important that this is, from its very design, a bipartisan initiative. To that end, I want to take a moment to thank Chairman THOMPSON and Ranking Member KATKO for their leadership and their commitment to finding this consensus.

As a member of the Committee on Homeland Security, and as Chair of the Subcommittee on Intelligence and Counterterrorism, I have been honored to work alongside them both over the past few years. Their collaboration sets an example that we would all do well to follow.

We cannot allow this vital inquiry to turn into a political football—it's simply too important to our country. That's why I opposed an early proposal for this bill that skewed the number of commissioners towards Democratic appointees.

I'm committed to ensuring that this commission has the credibility it needs to take on this investigation, and I am pleased that the bill we passed today gives it the structural integrity it needs. That's why I urge my Republican colleagues in the Senate to take the time, and do what I did last week: actually sit down and read this bill.

Print out a copy of it, as well as a copy of the bill from 2002 which created the 9/11 Commission. Put them side-by-side, take out a pen and mark up the similarities.

You'll see that in so many cases, this bill uses the exact same language on scope, participation and authorities as the 9/11 Commission authorization, which was approved by a Republican-led House, and signed into law by a Republican president.

Because, let's be clear: if you oppose this bill and the commission it creates, you would have opposed the 9/11 Commission twenty years ago. The American people deserve the truth, and we owe it to them as their elected representatives to ensure they hear it in its entirety from an independent and objective body they can trust. And if you oppose this bipartisan legislation, you are choosing political expediency over ensuring that our citizens hear the truth they deserve.

The 9/11 attacks took place during my first week of graduate school, and I joined the CIA because I wanted to help make sure nothing like it ever happened again—a motivation that was informed by a clear understanding of what had happened and of our own failures, made possible by the 9/11 Commission.

Today, I will cast my vote in support of taking the next step that will help us understand this attack on our Nation—no matter how disturbing or painful that truth may be.

Its work will be vital to meeting the new security challenges we face, and to beginning to heal the divisions across our country. I urge my colleagues in the Senate to join the House in passing this bill and starting an honest conversation with the American people.

Ms. JOHNSON of Texas. Mr. Speaker, today I rise in support of H.R. 3233, the National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act.

Just four months ago, the nation stood still as the Capitol of the United States—the very beacon of our democracy—was attacked by a violent and armed mob of insurrectionists. Seeking to interrupt, even prevent, the proceedings to certify the result of the 2020 General Election, these insurrectionists descended upon our capital city inspired by the rhetoric of former President Donald Trump and leaders in the Republican party. What then transpired on January 6 will be recorded as one of the darkest days in the history of our nation and of democracies everywhere.

The halls of the Capitol remain littered with remnants of the attack. Shattered glass panes, broken furniture, and missing statues now define the building—none of which compare to the trauma and fear still lingering in the minds of Members, aides, press, and support staff alike. Three officers of the U.S. Capitol Police Force lost their lives, and hundreds more were injured during the hours-long siege.

That is why the establishment of this bipartisan commission is necessary, Mr. Speaker. Composed of both Republicans and Democrats, it would explore the events that led to the attack, the security failures at the Capitol complex, and the corrective measures necessary to prevent it from ever happening again. Members of the commission would be experts in the fields of law, security, and intelligence. They would be thorough in their investigation, wide in their scope, and united in their mission to uncover the truth.

Those who oppose the commission as part of an effort to write off what happened, or to simply “move on,” clearly don’t understand what is at stake. The same hatred that drove the insurrectionists that day is still alive and well—even present here in this body. If we fail to address, review, and reflect on what happened on January 6th, I fear that this hatred will go unpunished, and therefore remain prevalent in our society and in the Congress.

Mr. Speaker, I urge the swift passage of the legislation and hope for its immediate consideration in the Senate.

Ms. BONAMICI. Mr. Speaker, I rise in support of H.R. 3233, the National Commission to Investigate the January 6 Attack on the United States Capitol Complex Act.

On January 6, 2021, our democratic republic came under direct attack in an attempt to block the certification of Joseph R. Biden as the duly elected President of the United States of America. Donald Trump and others sought

to subvert the will of voters when they incited violent rioters to invade the U.S. Capitol with the hope of overturning a legitimate election. Criminals and domestic terrorists, many espousing racist and hateful ideologies, desecrated the sacred center of the people’s government. This was terrifying and infuriating for those whose lives were in danger and for the millions of Americans who watched in horror. I am grateful for the actions of the U.S. Capitol Police and DC Metropolitan Police officers who put their lives on the line to protect this institution and the people who work here. I also mourn for the lives that were lost.

Many questions remain about the actions of those involved and the security response that day, as well as in the days prior to and following the violent attack on the Capitol. The country deserves answers. This independent, bipartisan commission will investigate and report the facts surrounding the events of January 6. It will provide a full and fair accounting of the mistakes made and lessons learned. And, importantly, the commission will recommend steps that Congress and the federal government can take to prevent future violence and strengthen our democratic institutions.

Our Nation is resilient, and the Constitution will endure because of the commitment of those who have sworn to support and defend it. In keeping with my oath, I look forward to acting on the findings of the National Commission so the country emerges stronger from this dark chapter of its history.

The SPEAKER pro tempore. All time for debate has expired.

Pursuant to House Resolution 409, the previous question is ordered on the bill.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

The SPEAKER pro tempore. The question is on the passage of the bill.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. KATKO. Mr. Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3(s) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question are postponed.

#### RAISING A QUESTION OF THE PRIVILEGES OF THE HOUSE

Mr. MCCARTHY. Mr. Speaker, I rise to raise a question of the privileges of the House and send to the desk a resolution (H. Res. 414) directing the Attending Physician to take timely action to provide updated mask wearing guidance applicable to the Hall of the House of Representatives and committee meeting spaces for Members and staff who are vaccinated against Covid-19, consistent with the public guidance released by the Centers for Disease Control and Prevention on May 13, 2021.

The SPEAKER pro tempore. The Clerk will report the resolution.

The Clerk read as follows:

H. RES. 414

Whereas the Centers for Disease Control and Prevention issued a guidance on May 13, 2021 stating that Americans who are fully vaccinated against Covid-19 no longer need to wear masks indoors or outdoors in almost all scenarios;

Whereas the three widely available vaccines against Covid-19 are highly effective;

Whereas Dr. Anthony Fauci stated on May 16 that, “It is very unlikely that a vaccinated person, even if there’s a breakthrough infection, would transmit it to someone else.”;

Whereas those who are fully vaccinated are shown not to carry the viral load necessary to spread the virus, and therefore do not pose a significant risk;

Whereas those who have not yet received the vaccine pose no real threat to those who have been vaccinated;

Whereas there may be Members of the House of Representatives whose personal physician, for various reasons, may recommend that they do not receive the vaccine;

Whereas those who want to continue wearing a mask or taking other forms of precaution may do so;

Whereas Members of the House of Representatives have a responsibility to send a message to the American people that we can trust the safety and efficacy of the available Covid-19 vaccines;

Whereas the continued House mask mandate sends the erroneous message that the efficacy of the vaccines cannot be trusted;

Whereas the continued House mask mandate is not based on the best available science, is contrary to the latest CDC guidance, and is not in line with the protocols in place in the United States Senate and at the White House; and

Whereas the continued House mask mandate hinders the ability of the House to properly and effectively conduct the people’s business: Now, therefore, be it

*Resolved*, That the Attending Physician, in consultation with the Director for the Centers for Disease Control and Prevention, should take timely action to provide updated mask wearing guidance applicable to the Hall of the House of Representatives and committee meeting spaces for Members and staff who are vaccinated against Covid-19, consistent with the public guidance released by the CDC on May 13, 2021.

The SPEAKER pro tempore. The resolution qualifies.

MOTION TO TABLE

Mr. HOYER. Mr. Speaker, I have a motion at the desk.

The SPEAKER pro tempore. The Clerk will report the motion.

The Clerk read as follows:

Mr. Hoyer moves to lay the resolution on the table.

The SPEAKER pro tempore. The question is on the motion to table.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. MCCARTHY. Mr. Speaker, on that I demand the yeas and nays.

(Mr. JOHNSON of Louisiana asked and was given permission to address the House for 1 minute.)

Mr. JOHNSON of Louisiana. Mr. Speaker, on this somber occasion, we rise to honor the late Buddy Roemer.

He was born in Shreveport, Louisiana, in 1943. He was a Harvard-educated reformer with big ideas.

He represented Louisiana's Fourth Congressional District here in the House from 1981 to 1988. He served as the 52nd Governor of Louisiana, and he was a former candidate for President of the United States.

He passed away at the age of 77 on May 17, 2021.

Please join us in a moment of silence in honor of his public service and his important contributions to Louisiana and our Nation.

## RESOLUTION CALLING FOR A THIRD RECONSTRUCTION

(Ms. LEE of California asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. LEE of California. Mr. Speaker, I rise to address the injustice of poverty and low wealth.

Let me just say, this pandemic has exposed the toll of longstanding, interlocking inequities stemming from structural racism, poverty, economic inequality, ecological devastation, and many more systemic barriers keeping people living on the edge.

Our country now stands at a tipping point. Mr. Speaker, 140 million people are poor or one healthcare crisis, job loss, or emergency away from economic desperation. We must prioritize their needs and give them the opportunity to live in dignity and with hope.

We can realize the third reconstruction to fully address poverty and low wages from the bottom up, from housing to healthcare, water, education, and more. We need a third reconstruction to revive our moral and political commitments to democracy and the founding principles of this country.

That is why Congresswoman PRAMILA JAYAPAL and I have worked with great

leaders, such as Bishop William Barber and Dr. Liz Theoharis, co-chairs of the Poor People's Campaign, A National Call for a Moral Revival.

Mr. Speaker, I urge my colleagues to cosponsor our resolution, and I want to thank the millions of people whose voices we have heard.

## HONORING THE LIFE OF DR. DON HARP

(Mr. CARTER of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARTER of Georgia. Mr. Speaker, I rise today with a heavy heart to remember and honor Dr. Don Harp, who passed away on April 20 at the age of 82.

Dr. Harp was born in Inman, Georgia, where he had a humble upbringing as a farmer. He went on to become a baseball star and student leader at Young Harris College and Huntington College. He was also dedicated in his pursuit of ministry, going on to earn a doctorate from the McCormick Theological Seminary in Chicago.

Dr. Harp's accolades are impressive, but his greatest legacy was his gift of connecting with people. He could always find good in any situation and gave unselfishly to his alma mater and friends.

As a husband, father, and grandfather, many say that his greatest love was his family, and those who knew him best know his greatest love was also the Lord.

Mr. Speaker, I had the honor and privilege of serving with Dr. Harp on the Young Harris College board of trustees. Don Harp loved Young Harris College, and Young Harris College loved Don Harp.

My thoughts and prayers are with his family, friends, and all who knew him during this most difficult time.

## FULLY ADDRESSING POVERTY AND LOW WAGES

(Ms. JAYAPAL asked and was given permission to address the House for 1 minute.)

Ms. JAYAPAL. Mr. Speaker, Mahatma Gandhi, a great leader on non-violence, said poverty is the worst form of violence.

Let me be clear: We allow poverty when we take no action to eradicate it. 145 million Americans today live in poverty in the wealthiest country in the world.

We allow poverty to continue when we approve bloated military spending, when structural racism is everywhere, when 55 of the largest corporations did not even pay \$1 in taxes last year, when 32 million people do not even get paid \$15 an hour, and 87 million Americans remain uninsured or underinsured.

Poor people in this country are suffering, without the food they need to eat, without the wages they deserve,

without the dignity they have a right to.

We, in Congress, have the power to end poverty. We must act immediately with resolve, moral clarity, and with complete attention to the lives of poor people who demand to be seen and respected with our actions.

That is why I am so proud to co-introduce with Representative BARBARA LEE this bold and necessary resolution that commits Congress to eradicating poverty from the bottom up.

Mr. Speaker, today, we say to poor people everywhere, we see you, and we will eradicate poverty in our country with you.

#### REMEMBERING CHARLES ELSON "BUDDY" ROEMER, III

(Mr. HIGGINS of Louisiana asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HIGGINS of Louisiana. Mr. Speaker, I rise in memory of Charles Elson "Buddy" Roemer, III, who was born October 4, 1943, and died on May 17 of this year, a couple of days ago, went home to his reward.

Buddy was a very nice guy, and he had a saying: "I love Louisiana, but I hate Louisiana politics." Many of us can understand that remark.

He was an American patriot, an investor, and a banker. He served in this body, the House of Representatives, from 1981-1988. He was the 52nd Governor of Louisiana, 1988-1992. He will be missed, remembered, loved, and respected.

#### RENEWING AMERICA'S FAILING WATER SYSTEMS

(Mr. TONKO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TONKO. Mr. Speaker, we must act swiftly and with boldness to renew America's failing water systems.

We know the heartache of failing water systems all too well: lead, PFAS, disruptive water main breaks, and unaffordable bills.

Yesterday, I introduced bold national drinking water legislation, written with my friend, the chair of the Committee on Energy and Commerce, FRANK PALLONE, to restore America's most critical infrastructure, and one of our most basic responsibilities of government, our drinking water systems.

The AQUA Act delivers on President Joe Biden's promise to remove every lead service line in the country, including removing lead from the drinking water systems of some 400,000 schools and childcare centers.

Our bill invests heavily in the Drinking Water State Revolving Fund, to put resources in the hands of folks on the ground who know what their communities need.

It delivers a financial lifeline to local water systems in return for a multi-

year commitment that they will not shut off anyone's water because of financial hardship during this devastating and prolonged pandemic.

Let's rise to meet the moment. Let's do our jobs. Let's build back the right way so every American can use and trust the water coming out of our taps.

#### URGING PRESIDENT BIDEN TO NOMINATE AN AMBASSADOR AT LARGE FOR THE OFFICE OF INTERNATIONAL RELIGIOUS FREEDOM

(Mr. HILL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HILL. Mr. Speaker, I rise today to bring attention to the rising rate of religious persecution around the world, where billions are persecuted for practicing their chosen faith.

One of the tools we have to combat global religious injustice is the Office of International Religious Freedom at the State Department. However, this office remains without leadership. Thus far, President Biden has neglected to appoint an ambassador-at-large for International Religious Freedom.

That is why I led a bipartisan and bicameral letter to President Biden to take action and appoint an ambassador-at-large for International Religious Freedom.

Religious freedom is one of the most basic human rights, Mr. Speaker, yet religious persecution continues around the world in countries like Iran, Russia, and China.

President Biden must act now and nominate this ambassador and give the U.S. Government a leading voice to combat this persecution and ensure a future where all mankind can freely practice their religion of choice without fear.

#### STANDING IN SOLIDARITY WITH ASIAN AMERICAN AND PACIFIC ISLANDERS

(Ms. LEGER FERNANDEZ asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. LEGER FERNANDEZ. Mr. Speaker, I rise today in solidarity with my Asian American and Pacific Islander brothers and sisters.

Asian Americans continue to experience violence, harassment, and discrimination. Across our country, our AAPI communities live in fear of being targets of deadly violence and racist slurs, simply because of who they are.

As we work to invest and rebuild our communities, we must make one thing clear: Hate and racism have no home here, not in our policies, and not in our hearts.

Yesterday, we passed the COVID-19 Hate Crimes Act to send to the President's desk. Today, we passed a resolution condemning the horrific shooting in Atlanta.

We are making progress, but we must never lose sight of the work that lies ahead to combat the hatred and violence against the AAPI community and root out racism against our brothers and sisters.

#### SMALL BUSINESS IS THE MAIN DRIVER OF NEW JOBS

(Mr. FORTENBERRY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FORTENBERRY. Mr. Speaker, a while back, I visited a small business called Craft Axe Throwing and Beer. What an interesting combination of activities, I thought. I had driven by it a number of times, but I stopped in one day. Seeing this team make a living, enjoying themselves, I thought to myself, that is what it is all about.

Mr. Speaker, the main driver of new jobs in America is small business. The good news is that unemployment has been on a steady downward trend. But now, the hard news: the April jobs report. It was bad. At the same time, small business owners report that they can't fill the job openings that they have. Why? Earlier necessary government assistance during the pandemic is now interfering with the successful transition back to meaningful work.

A little good news: Wages are going up. Let's let America run.

#### ENCOURAGING APPLICATIONS FOR UNITED STATES SERVICE ACADEMIES

(Ms. SCANLON asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SCANLON. Mr. Speaker, I rise today to encourage young people in my district to learn more about the opportunities offered by our U.S. service academies.

One of the greatest honors of being a Member of Congress is having the ability to nominate outstanding students for appointment to West Point, the Naval Academy, the Air Force Academy, and the Merchant Marine Academy.

As high school students contemplate what they will do after graduation, I encourage them to consider the benefits of attending one of our service academies, including the unique opportunities for leadership and entry to a range of careers, at no cost to the student or their family.

The process is competitive, so it is never too early to get started.

I encourage any students in Pennsylvania's Fifth Congressional District who might be interested in attending a service academy to attend our next virtual information session hosted by my office on May 27 at 7 p.m. They may sign up at [scanlon.house.gov](https://scanlon.house.gov).

I look forward to nominating another amazing group of young leaders to the service academies this fall.

ISRAEL HAS THE RIGHT TO  
DEFEND ITSELF

(Ms. HERRERA BEUTLER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. HERRERA BEUTLER. Mr. Speaker, for 10 days, moms, dads, and grandparents have been lying awake at night, waiting for the inevitable warning call of sirens to pick up their children and run to the nearest bomb shelter.

No one should live with this type of fear. No one should live with the fear that missiles could rain down and destroy their homes and lives at any moment. Yet, this is the reality that many Israeli families are living right now.

For 10 days, Israel has been defending itself from attacks launched by Iranian-backed terrorists. Let's be clear: Israel has the right to defend herself and its homeland from terrorist attacks.

Israel is one of the United States' greatest allies in the Middle East, and we cannot waver in our support of Israel during this challenging time.

Today, I am standing with the people of Israel, and I urge my colleagues to do the same.

My hope is that peace and calm can quickly be restored in the region. Until that happens, we must continue standing in solidarity with the Nation of Israel and its people.

ONGOING TERRORIST ATTACKS  
AGAINST THE STATE OF ISRAEL

(Mr. JACKSON asked and was given permission to address the House for 1 minute.)

Mr. JACKSON. Mr. Speaker, I rise today to express support for one of our most loyal allies, Israel.

Unlike many of my colleagues across the aisle, I will not waver in my support for democracy, and I will not turn a blind eye to the ongoing terrorist attacks against the State of Israel.

The simple fact is, Israel uses weapons to protect its citizens from terrorism, and Hamas uses its weapons with the goal of murdering civilians and annihilating the State of Israel as a whole.

There is no moral equivalence between the two, and any attempt to make Israel out as the aggressor is not rooted in fact. Israel has the right to defend itself as a sovereign country.

In 2014, Congress unanimously passed a Democrat-led resolution condemning Hamas attacks on Israel after they had launched approximately 300 rockets.

This time, Hamas has launched over 4,000 rockets into Israel in just 10 days, yet, it is not clear to me that Democrats in this House would support a similar resolution today.

That is a sad and problematic shift.

Congress must continue its support for U.S. aid to Israel, and Congress must confront terrorists and their backers, like Iran.

CRISIS AT THE SOUTHERN  
BORDER

(Mr. CAWTHORN asked and was given permission to address the House for 1 minute.)

Mr. CAWTHORN. Mr. Speaker, according to recent data from my district, the number one concern of my constituents is the Biden border crisis. Let me repeat that: The number one concern of my constituents in North Carolina is the crisis at our southern border, over 1,600-miles away.

It is beyond clear that the response by the Biden administration has not simply been weak; it has also been counterproductive. Americans nationwide are sensing what the international community has known for the past 6 months: Our leaders are not strong, our border is open, and America is ripe for the taking.

Fifteen hundred illegal immigrants cross into our country daily without ever being tracked, according to border data. Two Yemeni men on a terror watchlist were just apprehended at the border, and this administration has turned a blind eye to one of our biggest national security crises in recent history.

Mr. Speaker, I am disappointed, because it seems that the political maneuvering of one select class has co-opted the good of the people. What can we, as individual Americans, do in the face of such abject disregard for our well-being? We can speak out.

## PROMISING ECONOMIC RECOVERY

(Mrs. BICE of Oklahoma asked and was given permission to address the House for 1 minute.)

Mrs. BICE of Oklahoma. Mr. Speaker, I rise today to highlight Oklahoma's efforts to bolster its economy and get its citizens back to work.

There is no doubt the pandemic caused not only illness, but major interruption in our daily lives. Millions became jobless through no fault of their own and had to rely on additional Federal unemployment assistance to survive.

But today the situation has changed, Mr. Speaker. We have a rebounding economy and over 158 million Americans have received at least one vaccine dose. With more than 8 million job openings nationwide, the time has come to encourage Americans to get back to work.

The continued expansion of Federal assistance is hampering this promising economic recovery across the country and in my home State of Oklahoma.

Mr. Speaker, I am proud to say Oklahoma is leading the country's economic recovery by providing \$1,200 signing bonuses beginning in June, for individuals who go back to work and stay employed for six continuous weeks. There are over 68,000 job postings in Oklahoma currently, with 7,500 in Oklahoma City alone. These are good-paying jobs across a variety of industries, including the energy and manufacturing sectors. Hundreds of employers are offering competitive wages and generous benefits.

## ANTI-SEMITISM ON THE RISE

(Mr. GOHMERT asked and was given permission to address the House for 1 minute.)

Mr. GOHMERT. Mr. Speaker, this is a very sad time in America. As was discussed earlier today in debate, we used to have bipartisan agreements on things. One of those was when anti-Semitism was raising its ugly head. One party here on the floor still speaks up against, will vote against anti-Semitic statements and call them out for what they are, and another will not.

I heard my friend across the aisle, BRAD SHERMAN, just appropriately decrying the violence, these anti-Jewish folks in California, this incident. Well, that surely could be something we could once again, come back together in a bipartisan way and condemn the 40 percent rise in violence against Semitic people. It is time to come together on that. It will show the world.

## STAND UP AGAINST HATE

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON LEE. Mr. Speaker, in this short period of time, I offer several

ATTACK ON JEWISH PEOPLE IN  
LOS ANGELES

(Mr. SHERMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SHERMAN. Mr. Speaker, over the last 5 years, we have seen a 40 percent increase in anti-Semitic hate crimes. Most are lone wolf property crimes, late at night.

But last night in Los Angeles, we saw something new: organized violence. A small caravan of SUVs, waving Palestinian flags, drove to a significantly Jewish neighborhood. Dozens of men, wearing all black, with faces covered, disembarked at a restaurant, chanting "death to the Jews." They demanded that diners either answer the question: "Are you Jewish?" And if they answered "yes" or they objected to the question, they were beaten, some sent to the hospital.

Nearby, an Orthodox Jew, dressed distinctively, was chased down by a caravan waving Palestinian flags. He ran for his life, and thank God, he found safety.

The Los Angeles Police Department will investigate these hate crimes. I also ask that those who criticize the Israeli Government to avoid rhetoric which will infuse these anti-Semites with the view that they are somehow part of the American mainstream.

thoughts. First of all, we are stronger as a country when we stand up against hate at all times.

Today, in the Judiciary Committee, we saw the results of hate now 100 years in the making, and that is the Tulsa race riots. The Tulsa race riots showed that attackers looted and intentionally burned an estimated 1,256 homes in Greenwood, America's Black Wall Street, along with nearly all of the district's churches, schools, and businesses.

The testimony of yesteryear saw hundreds of men march through the main business section of White town with their hats off and their hands up. The brutality was unmentionable. Men, women, and children, driven like cattle, huddled like horses, treated like beasts.

Today, we heard from Viola Fletcher, 107 years old; Hughes van Ellis, 100 years old; and Lessie Benningfield Randle, 106 years old. We ask for justice for them.

In addition, I want to take note that this is Asian American and Pacific Islander Heritage Month, and to be able to say that we stand against the horrific shootings in Atlanta, Georgia, on March 16, 2021. We have to stand against hate. I am glad that we passed the bipartisan commission on January 6 to show that America is unified.

Finally, some good news to my constituents: We will be launching the child tax credit effort. We want you to get that child tax credit.

### THREE MAJOR CRISES

The SPEAKER pro tempore. Under the Speaker's announced policy of January 4, 2021, the gentleman from Louisiana (Mr. JOHNSON) is recognized for 60 minutes as the designee of the minority leader.

#### GENERAL LEAVE

Mr. JOHNSON of Louisiana. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and to include extraneous material on the subject of my Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

Mr. JOHNSON of Louisiana. Mr. Speaker, during my time tonight, my colleagues and I will address three major crises happening here at home, happening close to home at our southern border; and happening to our closest ally in the Middle East, and that is Israel.

Each of these issues that my colleagues will discuss tonight can and should be addressed in a bipartisan way. We should all want Americans to get back to work. We should all want to end the humanitarian crisis at our border, and we should all want to support one of our closest allies from terrorism.

It is time for President Biden and our Democrat colleagues to work with Re-

publicans to solve these problems for the American people and for our allies.

Mr. Speaker, I yield to the gentleman from Tennessee's Sixth District (Mr. ROSE).

Mr. ROSE. Mr. Speaker, I rise today to express my steadfast support for the nation of Israel, our closest and greatest ally in the Middle East.

Hamas, a designated terrorist organization, has been targeting civilians by firing thousands of rockets on Israeli cities. These attacks are both tragic and unacceptable, and Israel undeniably has the right to continue to defend itself.

As Hamas continues these attacks, the United States must show its unwavering support for Israel, condemn this aggression by Hamas, and sanction those who fund terrorism, such as Iran. That is why I am a cosponsor of the Palestinian International Terrorism Support Prevention Act introduced by Representative BRIAN MAST. America does not tolerate those who fund terrorists, and this legislation would put in place sanctions on governments and individuals that do.

The nation of Israel is the only democracy in the Middle East, and the relationship we share is indispensable. With the world watching, we must send a clear message to Hamas, Islamic jihadists, and those that fund them that the United States stands with Israel.

I unequivocally support our friend, Israel, and recognize its right to self-defense in the face of these horrific assaults by Hamas. I pray for peace in Jerusalem and for the safety of all Israelis.

Mr. JOHNSON of Louisiana. Mr. Speaker, I thank the gentleman for those remarks on Israel. We do stand strong with them.

Mr. Speaker, I yield next to the gentleman from Arkansas' Second District (Mr. HILL).

Mr. HILL. Mr. Speaker, I commend my friend from Louisiana for bringing our Members to the floor tonight to talk about something that is so essential to American life, our careers, our work, our independence, our ability to pursue happiness.

This pandemic has thrown many off track for that, and it is House Republicans that want to make sure we pursue policies that get people back to work, back to opportunity, back to independence.

Our small businesses in my home State of Arkansas and local economies across our country are recovering from the devastation of the pandemic. They now face a threat that has resulted from President Biden and House Democrats' inflated and fiscally irresponsible approach to unemployment benefits.

The Wall Street Journal reports there are over 8 million job openings, Mr. Speaker, in the United States right now. That is almost more jobs open than every person currently out of work.

Instead of encouraging these positions to be filled, my friends on the other side of the aisle have disincentivized going back to work and have made these benefits so appealing that it has disrupted labor markets across the country, particularly in Arkansas, particularly lower-income labor markets.

Medical workers, small businesses, and restaurants all tell me that this is creating problems for them. It has hurt States so much that a handful of individual States are now rejecting participating in Federal unemployment benefits.

This is not the direction we need to go, and it does not take an economist to understand this is not a permanent solution. We cannot keep tying policies back to a once-in-a-century pandemic that will systematically change our country forever.

The solution is simple, and it is what House Republicans are advocating and have been advocating for months. We need policies that encourage Americans to get back to work, not policies that encourage reliance on the Federal Government.

Mr. JOHNSON of Louisiana. Mr. Speaker, I yield next to the gentleman from Illinois' 15th District (Mrs. MILLER).

Mrs. MILLER of Illinois. Mr. Speaker, I thank Congressman JOHNSON for hosting this Special Order on so many important issues that our country is facing.

I stand for peace, and a lasting one. Side by side, the American and Israeli people have stood for freedom and democracy in the face of authoritarian aggression. Side by side, the American and Israeli people have stood for justice with restraint in the face of reckless violence. Side by side, the American and Israeli people have stood for peace through self-defense in the face of terrorism.

President Trump was working with various Islamic nation-states in the Middle East to adopt the Abraham Accords in order to foster better diplomatic relations with the nation of Israel. Unfortunately, Joe Biden has brought this peace process to a screeching halt.

We know Hamas is a terrorist organization, and they are funded by Iran. The Biden administration continues to negotiate with Iran to get them back in the Iran deal. Iran is a funder of terrorists, and the Iran deal would make it easier for them to commit and fund terror. Iran has provided money to Hamas and other Palestinian terrorist organizations. These groups' intention is to destroy Israel and the Jewish state.

The ongoing rocket attacks against Israeli civilians show why America must act immediately to support Israel, condemn Hamas, and sanction those who fund terrorism.

My family and I will continue to pray for the peace and safety and for the people of Israel as they combat terrorism.

Mr. JOHNSON of Louisiana. Mr. Speaker, we are admonished even by Scripture to pray for the peace of Israel, and we will.

Mr. Speaker, I yield to the gentleman from Minnesota's Seventh District (Mrs. FISCHBACH).

Mrs. FISCHBACH. Mr. Speaker, I thank my colleague from Louisiana for organizing the Special Order this evening.

Mr. Speaker, I rise tonight in solidarity with the State of Israel. As the only democracy in the Middle East, Israel is among our greatest allies and friends.

Since the beginning, Israel has had two goals: to live as a Jewish state and to do so in peace.

This was true at its founding, and it remains true today.

But just as it has been throughout history, Israel again finds itself under attack, this time by Hamas terrorists, who, with the help of Iran, are bent on destroying the only Jewish state in the world.

Does Israel not have a right to defend itself?

Make no mistake, Hamas is not interested in peace. They want to destroy Israel and its people, and are willing to use women, children, and journalists as human shields to do so.

Some, including Members of this body, have taken to propaganda to paint Israel as the aggressor, but that is nothing more than cheap gaslighting. Israel is not now, nor have they ever been, an aggressor state. Its only actions have been in its own defense.

There is simply no moral equivalence between a nation defending itself and those who would use terrorism to annihilate the Jewish people. In fact, defeating this terrorism is a prerequisite for peace.

Mr. Speaker, these ongoing attacks are exactly why the United States must stand with our Israeli allies, condemn Hamas terrorists, and sanction those who provide them support. I call on all Members of this distinguished body to continue our long history of support for our Israeli allies.

Mr. JOHNSON of Louisiana. Mr. Speaker, I yield to the gentleman from Texas (Mr. NEHLS), a former sheriff.

Mr. NEHLS. Mr. Speaker, it is time to get Americans back to work. The vaccine is available for all. Cases are down across the country. Businesses have openings they need to fill.

Using COVID as an excuse to stay home and collect unemployment insurance is not healthy for our economy or workers. We should be encouraging folks to take control of their lives and get back to work, but the multitrillion-dollar proposals out of the Biden administration and the continued COVID Federal unemployment insurance payments of \$300 per week are encouraging folks to stay home.

We just saw the Democrats and the Biden administration deliver 266,000 new jobs in the month of May, when

the Dow Jones predicted 1 million jobs would be added.

□ 1930

Why this incredible underachievement? Because the policies of the Democrats and the Biden administration are failing our economy, failing our business owners, and failing the American people.

Gas prices are skyrocketing across the country. The per-pound cost of copper is more than double what it was just 12 months ago. And the price of homes is rising. The annual inflation rate is triple what it was in 2020 and the highest it has been in over a decade.

These are the consequences of spending trillions of dollars on COVID relief and continuing to pay people not to work. The swamp continues to waste taxpayer dollars on failed policies they say we can fix by continuing to spend trillions more. When is enough enough? When are we going to let the free market flourish?

That is the path back to our historic economy pre-COVID. The sooner we decide to get back to lower taxes, less regulation, and more economic freedom, the quicker we can get the American people back to work and the economy back to health.

Mr. JOHNSON of Louisiana. Mr. Speaker, I yield to the gentleman from Florida's 26th District (Mr. GIMENEZ).

Mr. GIMENEZ. Mr. Speaker, one thing has been made absolutely clear in last's month abysmal jobs report: More government spending, bigger mandates and regulations, incentivizing people to stay on unemployment, and punishing States that encourage small mom and pops to reopen is not the way to Build Back Better. It is time for us to pursue policies that put Americans back to work.

All the so-called experts and economic forecasters wanted to believe so hard that the massive \$1.9 trillion spending package that the Speaker and President Biden rammed through Congress was going to be the answer. But the truth always prevails. That is why, for the first time in Congress, Democrats actually joined Republicans on a major piece of legislation in voting against that sham of a bill. But it passed anyway.

When Republicans stood up on this floor to explain line item by line item what was wrong with that bill and why this was the wrong approach, we got attacked by our colleagues on the other side of the aisle for everything imaginable. But once again, we were proven right. The Speaker and President Biden were proven wrong.

Now, they are wanting to do this all over again with infrastructure. The current infrastructure proposal being put forward not only adds trillions of dollars in spending on top of the \$1.9 trillion Congress has already approved to be spent in the previous spending spree, but now the solution is paying for it by raising taxes. Once again, the

American people are being lied to about who is actually going to be affected by those tax hikes.

The spinmasters are trying to paint a picture that equates the big evil word "corporation" as big-box players and tech behemoths such as Amazon, Netflix, and Facebook. But here is the truth, the term "corporation" is really only a tax designation for a business entity. Corporations include your local mom-and-pop restaurant. It includes the local corner street pharmacy. It includes the farms that supply the local farmers markets. It is the local fishermen, the family-run dance studio, the store that sells football uniforms to the local high school team, the music instructor helping prepare kids for the next concert, and the guy who scraped together his earnings and started a plumbing business.

While the progressive left wants to take swipes at major billionaire companies through extreme taxation, they are bringing all of us along with them. We are all going to be paying more.

At a time when our economy has continued to rebound from the COVID-19 pandemic, we should be encouraging small businesses to reopen, rehire workers, and spur our local economies, not punishing them with more taxes and more regulations.

America's small businesses and our middle-class workers deserve much better than this. I know we can and will do better if my colleagues across the aisle choose to work with us in earnest. Let's stop this political grandstanding for the majority and get to work.

Republicans are waiting, and we are willing.

Mr. JOHNSON of Louisiana. Mr. Speaker, there are three major crises we are talking about again tonight: the economic crisis here at home, the crisis happening close to home at our southern border, and what is happening to our closest ally in the Middle East, Israel.

I yield to the gentleman from Pennsylvania's 12th District (Mr. KELLER).

Mr. KELLER. Mr. Speaker, I thank the gentleman from Louisiana for yielding.

The current economic crisis facing our Nation is troubling but not surprising. Skyrocketing inflation, rising gas prices, and growing unemployment are the results of a White House that fundamentally believes more government is the solution.

To be clear, President Biden's massive tax-and-spend policies constitute a losing formula, which will drag our Nation deeper into debt and government dependency. The April jobs report is a testament to this.

A record 8 million jobs are available. However, only 266,000 were filled last month because Biden is promoting government control rather than the sustainable income of a job.

Job creators across Pennsylvania, in the hospitality, energy, manufacturing, agriculture, and many other industries, say the same thing: They are struggling to find workers.

Biden's policies are detrimental to our economic recovery and are the last thing America needs. Even more frustrating, the solution to get us back on track has been present all along: reopen the economy, stop piling debt on our children, and get Americans back to work.

It is time that President Biden recognizes that Big Government is the problem, and only the ingenuity and resilience of the American people will lead us to prosperity.

Now more than ever, our government needs to get out of the way and allow Americans to reclaim control of their lives and their government.

Mr. JOHNSON of Louisiana. Mr. Speaker, I yield to the gentleman from Georgia's 12th District (Mr. ALLEN).

Mr. ALLEN. Mr. Speaker, I thank Mr. JOHNSON for yielding and for holding this Special Order this evening.

Thanks to the success of Operation Warp Speed, we have been able to get millions of Americans vaccinated.

Georgia has led the Nation in COVID-19 economic recovery, and I am proud to say that Georgia's economy has reached pre-pandemic levels.

Now that the CDC has rolled back mask recommendations, we are finally seeing a light at the end of the tunnel.

But there is a lot of work to be done to get this great American economy, the greatest economy in the world, growing again. Unfortunately, the Biden administration is asleep at the wheel when it comes to what needs to be done to spur economic growth.

As of March, U.S. job-makers reported 8.1 million available jobs, a record high. But I am hearing from small businesses that they can't get their employees to go back to work. That is because President Biden and congressional Democrats are paying people more money to stay home than to go to work.

I am grateful that, starting next month, our Governor, Governor Kemp, is ending the extra \$300 in Federal weekly jobless payments. It is time for all States to opt out of this Federal job supplement and quit wasting taxpayers' money.

Let's get Americans back to work and focus on rebuilding our economy.

Mr. JOHNSON of Louisiana. Mr. Speaker, I yield to the gentleman from Michigan (Mr. BERGMAN), who knows quite a bit about handling a crisis. He is the highest-ranking military officer ever elected to the United States Congress and also my friend.

Mr. BERGMAN. Mr. Speaker, the gentleman is not only my friend and colleague but also not well enough acknowledged as the largely singular author of the Commitment to Civility by the bipartisan freshman classes in 2017. That document, unfortunately, is too well hidden. I thank you again for all the work you did because you laid it out, and it is more applicable today than it was back 4½ years ago.

Mr. Speaker, I rise today to voice my support for getting America back to

work. That support, if I spoke as loud as the support that I gave, you would probably have to tone down the microphone system.

As we look toward the future and to getting our economy back on track, I am increasingly concerned with the Federal Government's indiscriminate, uncalculated interference.

In April, we saw the unemployment rate increase to 6.1 percent at a time when you have more "help wanted" signs out than you can imagine. Frankly, as I drive across my district in the beautiful part of northern Michigan where summer has just now thought about arriving, and I see all those "help wanted" signs hanging in the windows of countless small businesses. That number, unfortunately, comes as no surprise, given the current administration's policies.

We in Congress should be thoroughly angered that with so many businesses looking for help, we instead advance policies that encourage people to stay unemployed.

The expanded unemployment benefits served a positive and caring purpose when businesses were being forced to close in response to the pandemic a year ago. However, as more Americans get vaccinated, and we return to a more normal life, the need is not the same as it was in March 2020.

Instead, the extra \$300 a week President Biden and the Democrats gave in their latest relief bill to those who stay unemployed does little but distort the job market, disrupt our supply chains, and encourage many to simply stay home instead of finding a job.

Meanwhile, the backbone of our economy, small businesses across the country, are struggling to find enough workers, despite offering competitive wages, benefits, and, in many cases, hiring bonuses.

To start addressing this problem, States like Michigan should immediately end their participation in the enhanced supplemental unemployment program.

The only way for us as a country to fully recover from this pandemic is by having the Federal Government stop sabotaging our economy and instead encourage Americans to get back to work.

The dignity of work, of a job well done, cannot be underestimated when it comes to bolstering our citizens with a sense of faith in the future and faith in our country.

Mr. JOHNSON of Louisiana. Mr. Speaker, I yield to the gentleman from Tennessee's Eighth District (Mr. KUSTOFF).

Mr. KUSTOFF. Mr. Speaker, I thank the gentleman for yielding, and I would like to recognize my friend and colleague from Louisiana (Mr. JOHNSON), a great leader. I thank him for organizing this evening.

Mr. Speaker, I want to address two different fronts of President Biden's policies, both of which are failing the American people.

The April jobs report showed that the economy added less than 270,000 new jobs. That is disappointing, and it was an underperformance from the 1 million jobs that economists expected.

It really should be no surprise to anyone because the enhanced unemployment benefits that were approved by Congress, against all of our objections, under President Biden's initiative have truly disincentivized people from going back to work.

Then, on the second front, we have seen over the past week or so Hamas continue to launch thousands of rockets at Israel, aiming to kill as many innocent lives as possible.

Let me be clear: I strongly condemn these attacks. Everybody on this side of the aisle strongly condemns those attacks. We fully support Israel's unequivocal right to defend herself and her citizens.

Yet, President Biden has taken a weak approach, demonstrating to terrorist organizations that his administration won't stand up for one of our greatest nations, greatest friends, and greatest allies, and that is Israel.

America's support of our strongest ally in the Middle East, it should never be quiet. That sends a terrible message to the rest of the world.

Ultimately, we need a government that is more efficient, more effective, and accountable.

We need to get people back to work. We must reopen our economy, lower taxes, and get our children back in school.

Lastly, we have to show the rest of the world that our support for Israel will never waver, that we stand strong in defending the Jewish state together as one.

You know, Prime Minister Benjamin Netanyahu once said, and I will paraphrase: If Arabs put down their weapons today, there would be no more violence. If the Jews put down their weapons today, there would be no Israel. I think that pretty much sums it up.

Mr. JOHNSON of Louisiana. Mr. Speaker, that does sum it up. It is a very real crisis we face.

Mr. Speaker, I yield to the gentleman from Texas' First District (Mr. GOHMERT).

□ 1945

Mr. GOHMERT. Mr. Speaker, here is an article by Tristan Justice: "April job numbers are so bad, CNBC thought it was a typo."

Another article: "New stimulus package: Unemployment benefits, \$300 per week extended till September."

"America's Vanishing Workforce," article by Megan Cassella and Rebecca Rainey.

And this one, The Hill: "It is time for States to take the lead in getting Americans back to work," by Anthony Hughes.

Why is that? It is because we have an administration that is doing everything it can in conjunction with the Democrats in Congress to keep people from going back to work.

Now, when I was between my sophomore and junior year at Texas A&M, I was accepted on an exchange program for the summer to the Soviet Union. And at one point, being out at a collective farm many miles outside of Kiev, I couldn't tell what was cultivated and what wasn't. It looked brown. It didn't look good. But all the farmers in the middle of the morning—10, 10:30—they are sitting out under a tree in the shade, and they are visiting.

And I tried to have a smile and use my best Russian. And I asked, "When do you work out in the field?" Because I had stood there for a while. And they all laughed, and I thought maybe I didn't say it right in Russian.

And finally one of them said, "I make the same number of rubles if I am out there in the sun as I do in the shade, so I stay in the shade."

I got a message from one of my friends, a lady, that says her yard guy says he can't get people to come back to work. He has got 125 yards. And her hairdresser's kids, they are not working, all because of this big bonus if you don't work. It is time to get people back to work, having them earn their money. America will be better for it.

Mr. JOHNSON of Louisiana. Mr. Speaker, I thank the gentleman from Texas.

Mr. Speaker, I yield to the gentlewoman from New York (Ms. STEFANIK), our newly elected conference chairwoman.

Ms. STEFANIK. Mr. Speaker, Americans across this country are facing crisis after crisis.

Just think, just over a year ago, in early 2020, our economy was booming, our standing in the world was strong, we had just rebuilt our Nation's military, and our communities and families were thriving.

Here we are, a little over one year later, in just over 100 days, President Biden and Speaker PELOSI have dismantled that foundation, and the American people are paying the price.

Americans are suffering under four crises from the far-left radical socialist policies of President Biden and Speaker PELOSI.

First, American families are facing an economic crisis, fueled by trillions of dollars in uncontrolled spending, rampant inflation, and unemployment benefits that incentivize workers to stay home while businesses are desperate to hire employees.

We just experienced one of the worst jobs reports in over 20 years, with unemployment rising, cost of living increasing every single day, and small businesses unable to hire. This impacts every hardworking American family, and it is a crisis with no end in sight, except the trillions and trillions of dollars in new taxes proposed by President Biden and Speaker PELOSI.

Second, American families are facing an energy crisis. This is the first time my generation is experiencing widespread gas lines and stations with no gas. If we do find gas, Americans are

paying more at the pump than they have in 7 years. This is unacceptable, and it is unaffordable for every American family.

Third, President Biden and Speaker PELOSI have single-handedly created a historic border crisis leading to rampant human trafficking, an influx of criminals and dangerous drugs, like fentanyl, rushing across the border.

And make no mistake, this does not just affect our border States along the southern border, every State in this country is a border State and every city is a border city experiencing the consequences of this border crisis.

Fourth, the world is watching in horror as we are facing a national security crisis in the Middle East and a resurgent Russia and China. Israel is under attack by Iranian-backed terrorists, and our radical socialist Democrat colleagues across the aisle cannot decide whose side they are on.

Let me be clear, my colleagues, the Republicans, we stand with Israel. More importantly, the American people stand with Israel. And these four crises are impacting every American family across this Nation. In my district, in New York's 21st District, small businesses have more "Help Wanted" signs than they have workers. Restaurants, like Ted's Fish Fry in Upstate New York, have been forced to close one day a week, just as we are heading into summer, because they are unable to hire workers.

Families are bearing the brunt of the abrupt tax hikes caused by skyrocketing gas prices. Border patrol agents that should be securing our northern border have been sent to the southern border, leaving hundreds of miles of border in my district exposed to drug traffickers and criminals.

And people are struggling to grasp the unthinkable. How is the Biden administration negotiating with Iran, the world's largest state sponsor of terror, who has targeted our friends, neighbors, and the soldiers of the 10th Mountain Division in my home district.

Republicans and the American people are united in rallying against the destructive, radical far-left policies of Biden and Pelosi, causing crisis after crisis in our country every day.

We will continue to stand strongly with American workers, American families, small businesses, as well as our allies around the world. And we will fight back against these policies that have led to the devastation and destruction across this country.

Mr. JOHNSON of Louisiana. Mr. Speaker, I thank our conference chair from the great State of New York, and we will go across the country to the other coast to the State of California, the 25th District represented by Mr. GARCÍA.

Mr. Speaker, I yield to the gentleman from California (Mr. GARCÍA).

Mr. GARCÍA of California. Mr. Speaker, I rise today in direct support of our most critical ally, Israel.

Rarely in history has the strategic alliance between two nations been

more meaningful and necessary to the pursuit of worldwide stability than the modern partnership between the United States and Israel.

I believe the recipe for a lasting relationship between our two nations and achieving stability in the region in pursuit of peace, is comprised of the following key tenets.

Number one, maximum foreign military funds from the U.S. to Israel with a focus on providing Israel a qualitative military edge.

Number two, an undivided Jerusalem as the capital of Israel.

Number three, the Golan Heights must remain under the control of Israel.

Number four, the worldwide elimination of boycott divestment and sanctions against Israel and Jewish communities here in the U.S. Such practices are blatantly anti-Semitic.

Number five, prosecution of and defense against mutual threats to Israel in the United States. Any threats to Israel should be treated as a threat to the United States.

Number six, we cannot allow a nuclear-capable Iran, and we should not reenter the JCPOA nuclear deal.

Mr. Speaker, I have seen war firsthand. War is an ugly thing, but failing to unequivocally support an ally as critical as Israel in pursuit of worldwide stability is the ugliest of things, especially at a time like this when stability worldwide is eroding in front of us.

Mr. Speaker, I urge Congress and this administration to fully support Israel.

Mr. JOHNSON of Louisiana. Mr. Speaker, I thank my friend from California, and I move to the great State of Texas next, the 36th District.

Mr. Speaker, I yield to the gentleman from Texas (Mr. BABIN).

Mr. BABIN. Mr. Speaker, I thank my good friend from Louisiana (Mr. JOHNSON).

Mr. Speaker, I come to the floor today with one clear message for the American people: Bad policies have bad consequences.

Not that many weeks ago, we had a thriving and stable economy. We were energy-independent. We were a sovereign Nation with a secure border. Now, roughly 100 days into Joe Biden's presidency, we are living in what feels like the twilight zone with gas shortages, 2008 levels of inflation, rampant and out-of-control spending, high unemployment rates, destruction in the Middle East, political correctness and wokeness, winning the war on common sense, and worst of all, a massive border crisis.

These things didn't just happen, folks. They are the direct result of the left's conscious policy decisions—or rather delusions. Is this the America they really wanted?

Unfortunately, the mainstream media wants to distract you from the colossal failures of America's weakest President and his administration. In fact, the liberal media dedicated approximately zero minutes of airtime to

the April illegal border crossing numbers, which were the worst in our Nation's history.

But I am here to tell you the truth. Biden's foolhardy policies have created a disaster on America's southern border. He has failed us. He has failed you and your family. And most importantly, he has failed to maintain the sovereignty of our beloved Nation.

We cannot begin to comprehend the lasting impact that Biden's border crisis will have on the sanctity and security of this Nation. And as I wade through the anarchic waters of living in Joe Biden and the Democrat's America, I am reminded of the words of Alexander the Great, when he said, "I am not afraid of an army of lions led by a sheep; I am afraid of an army of sheep led by a lion."

My friends, leadership is everything. And sadly, right now, our country is in desperate need of a real leader.

Mr. JOHNSON of Louisiana. Mr. Speaker, I thank my friend for that great reminder.

Mr. Speaker, I yield to the gentleman from Georgia (Mr. HICE), my friend from Georgia's 8th District.

Mr. HICE of Georgia. Mr. Speaker, I thank my friend for yielding his time.

Mr. Speaker, we are all seeing gas prices soar—35 percent since January, since this administration took office. Whereas, what this administration inherited, under President Trump, was low and affordable energy costs and our Nation had actually achieved energy independence. There was record low unemployment numbers across all demographics. And prior to COVID, the average hourly wage earnings rose at the fastest rate in decades.

So what has changed? Well, what has changed is a reversal of those policies that work. Unfortunately, President Biden has proved that he is far more concerned with appeasing the fringe left-wing environmental extremists in his party than he is in helping the average American by lowering energy costs and creating good-paying jobs.

So with prices continuing to soar and massive labor shortages, it only makes sense that we should be doing the right kinds of things to get people back to work. And make no mistake, Biden's reckless energy policies have consequences.

I know I hear all the time from veterans in my district who literally are having to make the choice between driving 45-plus miles to a veteran's clinic or trying to have enough money to survive.

However, on day one, President Biden celebrated the canceling of the Keystone Pipeline and eliminated tens of thousands of jobs and millions of dollars for our economy. And yet, yesterday, the Biden administration gave the green light to finishing Russia's pipeline going down to Germany.

This is the height of hypocrisy. Are you kidding me? That we are not going to allow our own country to have a pipeline, but we are going to approve it

for Russia? That pipeline with Russia is literally going to give billions of revenue to the Putin regime, and the completion thereof is going to cause our allies in Europe to have to rely more heavily on Russian oil. We are the ones who ought to be selling American oil to Europe, not enabling their reliance upon the Kremlin.

Under President Trump, we had a policy where America was first. It appears under this current administration that America is last. And I will just repeat this: This is what we have:

Under President Biden, sanctions against Russia are canceled and they build a pipeline. Under President Biden, he cripples our own economy by canceling Keystone.

It is time for us to get back to work.

Mr. JOHNSON of Louisiana. Mr. Speaker, may I inquire how much time I have remaining?

The SPEAKER pro tempore. The gentleman has 20½ minutes remaining.

□ 2000

Mr. JOHNSON of Louisiana. Mr. Speaker, I yield to the gentleman from Pennsylvania (Mr. THOMPSON).

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I thank the gentleman from Louisiana for his leadership tonight and for hosting this Special Order.

Mr. Speaker, I rise today because it is time to get Americans back to work. At the beginning of the pandemic, industries of all types were desperately trying to keep their doors open and thousands of Americans lost their jobs. Since then, Congress has passed measures aimed to aid individuals and businesses, including five bipartisan relief bills, which I supported.

Today, we are starting to return to normal. Businesses across the country are opening their doors to pre-COVID operation levels. However, these industries are facing a new challenge: Getting qualified employees to return to work.

This is abundantly apparent in my district. The number one need of businesses, both manufacturing and service industries, is qualified and trained workers.

This past April, Clarion County held their annual career fair. Employers from numerous sectors gathered and hoped to find employees of all skill levels, great paying, family sustaining jobs available. Sadly, the career fair lacked individuals ready to rejoin the workforce.

Stories like this are, unfortunately, not unique. Right now, there are more job openings in the United States than any point in our Nation's history.

Mr. Speaker, as we continue to return to normal and more restrictions are lifted, we must continue to follow the science and encourage Americans to reenter the workforce. It is time to fully reopen America for business and put Americans back to work.

Mr. JOHNSON of Louisiana. Mr. Speaker, I yield to the gentleman from Tennessee (Mr. BURCHETT).

Mr. BURCHETT. Mr. Speaker, Joe Biden says America is on the move again. But to me, folks, it looks like Americans are still at home. There are a record 8 million job openings in America right now. Eight million, folks. That is the population of the great State of Tennessee, where I come from.

We are hurting small business recovery and the economic growth. We have got to get our country back to work, Mr. Speaker. Joe Biden and the Democrat policies are not helping our recovery. The \$15 minimum wage makes it harder on the very small businesses. The McDonald's restaurants in the district that I represent are now starting folks off at \$15 an hour, and some are offering health benefits as well.

Bonus unemployment benefits that we are paying Americans to stay at home is just not working. The job-killing regulations that are directed at industries, like our energy sector, as well. The Green New Deal and more of this push to the left is only hurting us further.

Worst of all, we are pushing tax increases during an economic recovery. This is totally backwards, Mr. Speaker, and this is keeping Americans dependent on Big Government, which I am not so certain is not the ultimate goal.

Instead, we need to be encouraging the private sector to invest in recovery areas. My Opportunity Extension Act does just that, giving investors more time to use the highly successful Opportunity Zones program.

Opportunity Zones are in areas that are hit hardest by COVID economic fallout. These Opportunity Zones represent areas such as our rural areas and our inner cities, areas which I am proud to represent.

Our Opportunity Zones were responsible for \$52 billion—\$52 billion, Mr. Speaker—in new investment, and a half a million new jobs in our underserved areas before COVID hit.

This bill renews investment in these communities. It spurs economic growth. It attracts business. It is creating good-paying jobs, a much better alternative than the Federal Government handouts being pushed by many of my colleagues across the aisle.

Mr. Speaker, I would be happy to discuss my bill further with anyone who is interested.

I thank the vice chairman for yielding to me. I appreciate you for organizing this event, brother.

Mr. JOHNSON of Louisiana. Mr. Speaker, I thank my friend for his important comments.

Mr. Speaker, I yield to the gentleman from North Carolina (Mr. BISHOP).

Mr. BISHOP of North Carolina. Mr. Speaker, just like that, America faces four simultaneous crises: loss of control of the border, energy supply disruption, a sudden spurt of stagflation, and a key ally under assault.

Why is all this happening at once on the eve of the 4-month anniversary of Inauguration Day?

Because a weak President signals a weak America. The President sets the tone, and, today, it is very different than the previous 4 years.

On the world's stage, our adversaries are newly emboldened, and our allies more vulnerable. After several years of creative Trump peace deals, Israel is already under attack.

Is that a coincidence?

No. Hamas and other terrorists knew that with Trump there would be consequences. They know with Biden there will be none.

At our southern border, we have plateaued at a 20-year high for illegal border crossings. It is not slowing down. The word is out: You can cross without consequences. In fact, Biden and his allies think progress is expanding the throughput.

Persons are also now experiencing gas shortages, last seen with Jimmy Carter. Even before, the price at the pump sky-rocketed.

Why?

Because this President doesn't value or fight for American energy independence, like the last one. Instead, he cancels our pipelines and green-lights Russia's. Now families have new worries about their fuel budgets, while being lectured to by this legislation on leftist green energy fiascos.

Perhaps, most pressing of all, our economy is not recovering as it should, while all the warning signs of inflation grow stronger. Practically every day I hear the same thing from North Carolina small businesses, that they cannot find workers. And after that last pathetic jobs report, it is clear that this isn't isolated to any home State.

Biden isn't fighting for jobs. He is paying more to not have one.

What we are seeing across the board is trickle-down weakness, and the adverse effects are clear. For the first time in 4 years, America has a President who backs down without a fight, and it is costing us. Biden is nowhere to be found on the issues that matter. In his absence, Republicans will keep fighting for the American people.

Mr. JOHNSON of Louisiana. Mr. Speaker, we will keep fighting, indeed. I thank the gentleman for his comments.

Mr. Speaker, I yield to the gentleman from Louisiana (Mr. HIGGINS).

Mr. HIGGINS of Louisiana. Mr. Speaker, Americans are bewildered about what is happening in our Nation today. Americans who actually work have deep concerns about the future of our country. It is incredible to observe, from my perspective as a humble constitutional servant within this august body, exactly what is going on with my colleagues across the aisle and our newly inaugurated executive branch.

We have moved from policies out of our executive that put America first to policies out of the President's administration to put America last. We are facing \$31 trillion in debt.

Let me help my American brothers and sisters who work very hard to earn

their living and have portions of their income seized and sent to Washington, D.C., let me help them get their head wrapped around \$31 trillion in debt.

If this body, which is responsible constitutionally for all Federal spending, were to run a \$1 billion surplus in a fiscal year—meaning we spent \$1 billion less in Federal expenditures than we took in Federal revenue, \$1 billion—it would require 31,000 years of a \$1 billion surplus to address a \$31 trillion debt. A trillion is a thousand billion, and a billion is a thousand million.

It is insane what is being presented as fiscal responsibility out of the Biden administration's White House in their budget request.

President Biden shut down the Keystone pipeline, killed thousands of American jobs overnight with the stroke of his pen on his first day in office, and now has approved support for a Russian pipeline under the guise of ecological concern, which is why he shut down Keystone, which is done incredibly clean in America.

The oil and gas industry, the energy industry in America is the cleanest in the world. We are going to shut down an American pipeline and approve and authorize a Russian pipeline. It is absurd the direction we are going in.

Our border crisis. My sources, which are accurate, we have added at least 700,000 to 800,000 illegal crossings this year. Our vice president, allegedly, has been put in charge of handling the border. She can't find her way to south Texas. We should send a map to the White House.

Israel. Could you imagine what our response should be as a nation if we received 6,000 to 8,000 rockets fired at our citizens?

We should be standing unwavering beside our ally, Israel. A nation that stands against Israel stands against itself.

Mr. Speaker, I thank the Speaker for allowing me to address the House, and I thank my colleague for holding this important Special Order this evening.

Mr. JOHNSON of Louisiana. Mr. Speaker, I yield to the gentleman from Texas (Mr. CLOUD).

Mr. CLOUD. Mr. Speaker, today, our prayers are with our faithful friend and ally, Israel. The country is under attack by Hamas, a terrorist organization that will stop at nothing to kill and destroy.

The world is watching and hoping that Iran-backed Hamas and the Palestinian Liberation Organization will cease their destructive and reckless attacks on Israel.

Recently, pre-COVID, I had an opportunity to visit Israel. I spoke with one mom who talked about the horrific decision they are faced with at times. When the alarm goes off, when the missiles are coming in Israel, they know they have about 13 seconds to make it to a shelter, and they are faced with the decision of: Which child on the playground do you take with you?

This has got to stop. Israel's actions are a clear example of a nation com-

mitted to duty and responsibility of protecting their citizens. We know that Israel will continue to need our support, even after this attack subsides.

While other nations fueled by anti-Semitism act to boycott, divest, and sanction Israel, the U.S. hopes for prosperity and flourishing for the Israeli people. As such, we support continued economic cooperation and bold security assistance that benefits Israelis and Americans alike.

We applaud and stand by the accomplishments of the Trump administration to improve peace in the Middle East. We recognize Jerusalem as the true capital of Israel. We affirm Israel's sovereignty over the Golan Heights. We celebrate the historic Abraham Accords, reestablishing diplomatic ties between Israel and their regional neighbors.

We oppose efforts within the U.N. to undermine Israel on the global stage. We also oppose Iran's nuclear ambitions and call for the United States to withdraw from the Iran deal.

While the Washington left remains weak on Israel, the American people stand strongly in support of the Israeli people. It is time for Democrats to reject the extreme left, anti-American, anti-Israel, pro-Marxist agenda. They need to work with Republicans to pass a bill to provide security aid to the Israeli Government.

□ 2015

Mr. JOHNSON of Louisiana. Mr. Speaker, I yield to the gentleman from the Second District of Alabama (Mr. MOORE).

Mr. MOORE of Alabama. Mr. Speaker, I thank Representative JOHNSON for yielding.

Mr. Speaker, in the last few days, Hamas and Palestinian Islamic jihad have fired 4,000 rockets targeting millions of Israeli civilians across the country. Thanks to Israel's Iron Dome, many of these rockets have been intercepted, saving thousands of lives. The Iron Dome is a byproduct of bipartisan support from Congress that provides critical missile defense and cooperation.

Tragically, not all of these rockets have been intercepted, resulting in senseless deaths of many innocent civilians, women and children among them.

These terrorist attacks against our strongest ally must stop, and Palestinian leaders have a responsibility to do all they can to stop it.

I commend my colleagues and our government leaders from both sides of the aisle who have condemned this violence, telling the world and our mutual enemies that America stands strong with Israel.

To those who blame Israel and accuse them of terrorism, I will say what I have always told my children: Don't be the first ones who start a fight, but you must be willing to finish it.

Israel has a right to defend their citizens and their nation's sovereignty.

The Lord told Abraham: I will make of thee a great nation, and I will bless them that bless thee, and I will curse them that curse thee; and in thee shall all families of the Earth be blessed.

I am proud to stand firm with Israel. Pray for the peace of Jerusalem; may they be secure who love you.

Psalms 122.6.

Mr. JOHNSON of Louisiana. Amen to that. I appreciate my friend and those great comments.

Mr. Speaker, I yield next to the gentleman from the Sixth District of the great State of Wisconsin (Mr. GROTHMAN) with more thoughts about Israel.

Mr. GROTHMAN. Mr. Speaker, a tragedy is going on in Israel. Over 4,000 rockets have been shot from Gaza and a handful from Lebanon. Twelve Israelis and about 200 Gazans have died. This is entirely unprovoked on Israel's part. It may have something to do with a future election on the West Bank. Iran is showing support for Hamas and is giving them financial aid, so they are partly responsible.

Gaza, of course, could be a liveable, modern country. It used to be a vacation destination. And prior to 2005, when Israel turned it over, there were greenhouses for an agriculture sector. It is their own fault by collectively electing a government which not only declares a unilateral war, but chooses residential and commercial facilities as military locations, guaranteeing deaths of civilians, including children.

Israel is a strong country, and, of course, they will not be defeated militarily. There is a danger, however. As explained by James Burnham in his book, "Suicide of the West"—now over 50 years old—a decadent West may blame themselves for the corruption and lack of caring for human life in Gaza.

Some Members of this body are already doing this.

The United States and Israel must not shirk from our responsibilities as moral leaders of the world. We support Israel in defending themselves from the attacks of the morally bankrupt government in Gaza. We encourage them to continue this fight for as long as necessary to make sure their citizens are not at risk in the future.

Mr. JOHNSON of Louisiana. Mr. Speaker, I yield to the gentleman from the Ninth District of the great State of Pennsylvania (Mr. MEUSER).

Mr. MEUSER. Mr. Speaker, I thank my good friend, the gentleman from Louisiana, our Republican vice chair, for yielding.

Mr. Speaker, since the onset of the pandemic, our small businesses have been faced with immeasurable challenges. Though our recovery from the pandemic is underway, businesses now face an unnecessary worker shortage due in part to enhanced unemployment compensation payments that disincentivize work.

Each week, I speak with small business owners from across my district

who tell me they have open jobs, but can't fill them and compete with enhanced unemployment. One of the largest employers in my district, East Penn Manufacturing, is hosting weekly job fairs to fill hundreds of good-paying manufacturing jobs they have available and are going unfilled.

Enhanced unemployment compensation was never intended, Mr. Speaker, to be permanent, but it is now disrupting the labor market on the onset of what can be a strong recovery. As more Americans continue to get vaccinated and our COVID cases continue to decline, it is time for us to stop this disincentivizing work.

Unemployment assistance programs should be revised to target those unable to work, such as parents with children at home due to school closures or those not physically able. Those who can work and choose not to should not be able to receive generous unemployment compensation at a rate often more than \$20 per hour.

The U.S. Department of Labor reports 8.1 million jobs were open in March, and there are plentiful well-paying jobs in every industry offering incentives for new hires across Pennsylvania. Despite this, Pennsylvania's unemployment rate is even higher than the national average.

That is why last week I sent a letter to the Governor of Pennsylvania urging him to better target supplemental unemployment compensation to those who truly need it and reinstate work search requirements that were waived last year. Despite an abundant job market, our economy added only 266,000 jobs last week.

Mr. Speaker, as I close, businesses are creating new jobs every day. We owe it to them to at least create job seekers.

Mr. JOHNSON of Louisiana. Mr. Speaker, I thank all my colleagues for participating tonight. I realize we are out of time.

Mr. Speaker, I yield back the balance of my time.

#### UNFUNDED LIABILITIES

The SPEAKER pro tempore. Under the Speaker's announced policy of January 4, 2021, the Chair recognizes the gentleman from Arizona (Mr. SCHWEIKERT) for 30 minutes.

Mr. SCHWEIKERT. Mr. Speaker, before I start my presentation—and I am going to focus sort of on some of the economics, the debt and economic growth, particularly in some of the proposals that are hitting the House right now—I wanted to touch on something.

We just heard a number of folks get up and talk about their love and caring for Israel, the Middle East, and the concerns of the conflict. I want to do something that is a little bit different. I have intense concern that our relationship with a fair and functioning republic in the Middle East never become a partisan issue.

Maybe this will make sense. I have been here for a few years, and there has always been the ability for those on the left and the right to stand up and say: Look, we have a country that works. No country is perfect, but it works, and it respects human rights, and it is a functioning republic and a democracy in the Middle East.

I was really sort of heartbroken last week. Just before I did one of these presentations, there was a presentation by not many Members, but some who said some pretty awful things. So I hope as we all want the country of Israel to prosper and do well—we want everyone in the region to prosper and do well—but we have to accept there are other bad actors particularly financing things coming through Iran to some very bad actors to do horrible, horrible things in the region.

I wish we could sort of step back a few months and think of the joy that many of us felt with the Abraham Accords that good things were happening. The caring for Israel needs to be bipartisan, and my fear is we are seeing that start to slip where some on the hard left are moving away from supporting a fellow republic.

This is not a good thing for all of us, and we need to sort of rethink that discussion, stand up for our friends, and tell our enemies that they can have a home in our hearts if they stop the bad acts. And maybe the Middle East, one day, really does have a future, as we saw with the vision that came from the Abraham Accords.

Mr. Speaker, I get frustrated when I watch the floor. We all sit in committee, and so often what comes through these microphones are sort of trite talking points.

So let's go back to the big picture: What are we doing to actually deal with it?

I have a new chart. I am trying to find over and over and over how do we actually all come together and understand the reality?

This is our future. This is my 5-year-old daughter's future. It is \$101 trillion in debt adjusted in today's dollars. So this isn't 30 years of inflation. This is today's dollars. This is our future in 30 years.

Many of us want to get behind the microphone and say: This is Democrat; this is Republican.

It is demographics. We are getting older as a society. We are getting older as a people. And the reality of it is 67 percent of our 30-year debt is the unfunded portion of Medicare.

Remember, Mr. Speaker, when you pay your FICA tax, you are paying the part A, the hospital portion. The part B and D, someone, a retiree contributes a little tiny sliver to. The rest comes out of the general fund. When you actually take a look at our population, Mr. Speaker, the cost of healthcare, those things, then you start to realize it is the core driver of our debt.

The blue here is the unfunded liability with Social Security. So if you believe Americans have the right to these

earned benefits—these are earned benefits—then why is it so hard to have an honest conversation about the unfunded liability?

Because, Mr. Speaker, you will get behind these microphones and the handful around here who would tell the truth about the math, then this becomes an attack television commercial because you told the truth. I am passionate that during my time here I am going to make these programs survive and prosper, but you first have to understand the scale of the problem.

Mr. Speaker, do you see the little green wedge over here?

At the end of 30 years, the \$101 trillion of debt in today's dollars, only \$3 trillion of it is the rest to government. So when you get a politician who will say: Oh, it is the military; it is waste and fraud; it is foreign aid, then they are lying to you or they don't own a calculator.

Once again, we have got to have this honest conversation: The unfunded liabilities in Medicare and Social Security drive U.S. sovereign debt.

So why talk about this today?

We have lots and lots and lots and lots of spending that has come up this year. I want to walk through what that does. I haven't even been able to do the math on the charts if we continue just what we have done this year, just in the few months what that actually means to the future.

You would think we would be having this discussion: Hey, the economy is getting better. Our society is opening up. Let's get Americans to work, and let's get prosperity going. Because if we don't have actually amazing and robust economic growth, then dealing with that \$101 trillion of unfunded liability becomes almost mathematically impossible.

So just to try to put some things in context, we held a hearing today in the Ways and Means Committee on infrastructure. Now, most of the discussion ended up becoming about infrastructure financing. But I decided it was good to actually come up here and show what is actually roads and bridges.

So, Mr. Speaker, do you see the orange right there?

Mr. Speaker, \$115 billion out of the—what is it—\$2-something trillion is actually just roads and bridges. Much of the rest of the spending, if you want to be brutal about it, is other things that come shockingly close to paybacks for constituencies that help finance the left. But a lot of them are things that ultimately don't belong in the infrastructure: medical expansion and long-term care. It is something that is real we need to deal with.

Does long-term care belong in an infrastructure bill?

Republicans and Democrats can nail this. We can get this here.

I will also give you another thing, Mr. Speaker. Many of us believe infrastructure is actually much more than our traditional idea of roads and bridges.

If you start to think it through, how much of it is technology?

If I came to you tomorrow, Mr. Speaker, and said: What is the street down in your neighborhood going to look like a decade from now?

Fifteen years from now?

I am desperately hoping my 5-year-old never drives. I want her in an autonomous vehicle.

If we actually have this technology coming, then what does traffic look like?

What does a smart city look like?

I have done presentations here on the floor before of what does the future of infrastructure look like in a world of interconnectivity, where cars can be traveling at pretty impressive speeds talking to each other, your carrying capacity on the existing roads today change.

How much discussion have we had that the future of infrastructure has a huge technology base to it?

The information coming to your vehicle tells you when there is a fire truck, when school is out, when there is a water main break to keep moving and flowing traffic.

That is when my intense frustration is—much of the debate we have today is: Let's pay back our political constituencies. Let's put this much into roads and bridges. And, oh, let's completely be funding the infrastructure of past decades instead of being visionary about what the future looks like.

□ 2030

I will give you a simple example of that just as a thought experiment. I have a fixation on the future of healthcare as a type of interconnectivity. Telemedicine becomes sort of a telehealth using sensors and those things—cars talking to each other, transportation, products, drones. Okay, you need broadband.

Broadband in the future for areas like my State of Arizona that don't have it isn't running a copper line or a fiber-optic line out to the middle of nowhere. It is a satellite. This last weekend, I think we launched another 54, or whatever it is, low-Earth orbit satellites.

But we have \$100 billion of spending for moving broadband particularly out to rural America. Rural America, if we would understand technology of today instead of sounding like we are a decade behind, we have for my Tribal communities in the middle of nowhere broadband. We just now need to get our laws, our financing, our subsidies to this part of this century. That is part of the thought experiment.

This is one I want to try to have a real, brutally honest conversation about because the President has gotten up multiple times and said his infrastructure package is paid for. Well, it is not. When you spend some time on it, the new taxes, a substantial number of them are fake. They are just fluff because when you look at the \$265 trillion in spending that is the baseline in the

bill, as best we can score it, \$1.95 trillion is the revenue. It is not real. A big portion of it comes from, hey, we are going to get the entire world to do a corporate minimum tax inversion so the companies leaving the United States because we raised corporate taxes won't happen.

For the Biden tax plan, for NANCY PELOSI's, for the Democrats' tax plan to actually work, there are components in here. You need the rest of the world to adopt a minimum tax so we don't go back to pre-2016 when companies were abandoning the United States and taking much of that tax revenue with them.

Another thing, there is a substantial area there where we believe there are billions and billions—maybe a couple of hundred billion—and we are going to collect more taxes. We are going to get those tax cheats. Okay, let's say that is even real. How many years would it take to hire, train, and be able to collect? Some of the estimates you are talking about will take several years before that even becomes effective.

There are a number of things like that on the revenue side that are fanciful. Also, no one has started to score the raise of corporate taxes that are in the Democrats' tax portion of the infrastructure plan. We did a presentation last week that showed about a million people will lose their jobs in the first 24 months. There will be a million less jobs because of the corporate tax, and that is just the corporate tax. That is not talking about the change of basis, the capital gains, the tax on the wealthy, all of those other things.

We were trying to make an argument: If the hunger is for revenues for some of these, stop subsidizing the really, really ultrarich. When they buy their multimillion-dollar house on a beachfront, should we subsidize flood insurance? If someone is really wealthy, should you subsidize their electric vehicle, their solar panels, their power wall?

It turns out, we were coming up with close to \$1.4 trillion in the 10-year window that looks to be subsidies for the very well-off. If you do the ultra-well-off, it cuts that number down, but it is still a stunning amount of money.

So, there is a path where you could cut spending instead of doing things that would distort economic growth because, as many of you know who may have watched some of these presentations, I have an absolute fixation on the working poor. The miracle we had in this country in 2018 and 2019, where we were starting to crush the separation of income and equality, it was working. We came up with something that I believe Democrats supported, but they just didn't support how we got there.

We made working men and women's labor valuable. We made what talents they brought to the marketplace valuable. We tried to once again say: If you care and love the working poor, and

you want them to become much less poor, you can't devalue their labor. But that is what we are doing right now.

The number one thing you can do to do economic violence to the working poor is open up your borders. What happens when you import substantial numbers of people with similar skill sets? We have great data on this. You functionally have subjected that working-poor population in your country to a decade of misery where their wages don't flatline. They actually go down.

The other thing you do is inflation. Inflation concentrates punishment on elderly who have saved and the working poor because now the ability to buy that house, now the ability to buy an asset becomes so much more difficult to get to.

I am not sure the left has processed what is going on at this moment and how much economic violence is actually being done by the economic decisions that have happened the last few months here. So, let's take a quick look here.

Do you remember a couple of years ago, you know, way, way back, maybe like 2019? We would engage in debates here on how we are spending too much money on the military, too much for this, and 4.7 percent of GDP that year was going to be in borrowing. People were really upset on the left, and many of us were upset with too much spending on the right.

This year, we are over 20½ percent. If you want to understand inflation, if you want to understand what is happening to asset prices, if you are wanting to understand why that first-time homebuyer can't buy the home, why that working-poor family can't seem to dig themselves out, this is the beginning of what we are doing.

We are pumping so much spending, and the Federal Reserve is having to finance it, to create functionally fake money, because here is what we are doing. We sell bonds. Right now, the Federal Reserve is buying our bonds like crazy—in many ways, just creating cash out of thin air. There is this old saying: What is inflation? Inflation is too many dollars chasing too few goods.

Instead of financing production and productivity in our society like the tax reform did in 2017, where we saw incredible wage growth with no inflation, what we did now is we helicopter-dropped money. Now, we have lots of cash in our society, which has all been borrowed, chasing not enough production because we didn't incentivize production. We incentivized buying things. Great politics until you start to blow up people's lives with the cost of their goods.

How dangerous is inflation? You hear a number of our friends from the Federal Reserve—I talked to one a couple of nights ago, one of the region presidents. She said: DAVID, it is transitory. How many of you have watched a lot of the leading economists, even the leading economists on the left side, in the

last 3 or 4 days? They are now sounding the alarm. This inflation rate is not what they call transitory. It is not just a blip for 90 days, and then it is going away.

There are geeky things. I am the senior Republican on the House side for the Joint Economic Committee, and there are things we will look at, being able to buy a futures contract on a steel that you are doing a multiyear project on, things like that. You almost can't buy those right now.

There are so many industries that say their inflation curve is already out beyond this year and into 2022. This is really dangerous, where we are at.

Think of this. Last month, if you had annualized, we were at 4.2. But the important thing is, look at the explosion. Functionally, as soon as the administration started rolling out this functionally deficit financing, even though the President says, hey, I am paying for it—but you just saw, on giving credit for everything, there is still another \$600 billion of borrowing in just the infrastructure proposal, not all the others.

This is a problem. There is a canary in a mine. Some folks should be really starting to make a point on this.

Mr. Speaker, how many minutes do I have remaining?

The SPEAKER pro tempore. The gentleman from Arizona has 10½ minutes remaining.

Mr. SCHWEIKERT. Okay, I will talk faster.

I know this is a little bit geeky, but this is important. Open borders, inflation, these are components that just crush the very people who we were having so much success with for a couple of years.

We all talk a great game about caring about working men and women, but we are engaged in economic malfeasance right now. I understand it is complicated, but the numbers don't lie.

When you start looking at these charts right now, when you start seeing just parts of the PPI hitting a 12 percent annualized in the commodity goods last month, we really, really, need to start taking this seriously.

Do you continue to float more debt to chase more helicopter money to go out and buy more constituents? You are going to see sort of a false economy for some of the calculations this year, where you may see a number that says: Hey, income inequality also shrunk this year because we gave out so much cash, but we also created economic violence because we created detachment from work.

Remember, losing a year of work, losing a year of skills, losing a year of progress in your career path even for the working poor has a multiplier effect that if you look over the lifetime career, it is pretty devastating.

You saw the decisions that were made to keep schools closed and the amount of economic violence to working women in our Nation. In 2019, there

were more females in the labor market than men. Today, that just isn't true.

The last one I will give, for those folks who fixate on monetary policies, you are in an unusual moment. Remember, there is a difference between fiscal policy and monetary policy. Monetary is Federal Reserve: Hey, we are going to shrink the money supply. We are going to increase the money supply. We are going to do this to protect the purchasing value of the dollar for overseas, for in the country. We are going to use interest rates. We are going to use bank reserves. We are going to use those things as tools.

The fiscal side is: We spend money. We borrow money.

What happens when we are borrowing, because we are spending so much, we are borrowing so much that we distort what they call monetary supply. All of a sudden, the Federal Reserve is having to step in and finance our chaos. It turns out Congress, because of its spending now, is distorting monetary supply.

What this chart shows is—just take a look—this was the Federal Reserve balance sheet. Just before COVID, it was shrinking. The economy was doing so stunningly well. We had economic growth. The working poor were getting dramatically less poor. We had almost no inflation. Productivity was beginning to spike in the economy.

Remember, how do you pay people more money? You pay them more because of inflation and productivity. Well, when you pay someone more for inflation, they don't get anything. When you pay them for productivity because there are new plants and equipment and these types of economic investments, that is the golden child. That is where you are paying people more because we have invested in them and in plants and equipment.

That is also what is so devastating about the left's tax plan right now. When you raise capital gains the way they are talking about doing without incentivizing investments in productivity and investments in people through those organizations, they are going to be paid less money.

When you raise corporate taxes, there will be less money for those things that make jobs more productive, and we have already seen the numbers. We are going to unemploy a million people if the current corporate tax model comes in.

We are now spending so much money that we are just distorting the monetary supply for us in the world because the Federal Reserve needs to keep buying our bonds. They try to keep interest rates as level as possible for as long as possible because, God forbid, when you are floating the scale of debt we are floating today, could you imagine if the next set of refinancing, the next set of bonds, were at traditionally the interest rates we had a decade or two decades ago?

□ 2045

So I want to sort of close on this.

This over here is 2013 to 2016. This is 2016 to 2019. Most of this economic change was really 2018 and 2019.

This is mean family income. If you take a look, the blue is the poorest quartiles in our society. 2016, 2015, 2014, 2013, going back, they were getting their heads kicked in. Income inequality really was growing, but it was growing under the Obama's administration's policies.

If you take a look at what happened after tax reform, income inequality shrank. The blue here is our lowest quartiles. I hate that number, but it is economics. Working men and women, particularly the working poor, saw almost a 10 percent increase in their wages in those couple years. The wealthy only saw about 2.9 percent.

If anyone ever wants to really dive into it, the discussion between supply-side economics and Keynesian economics and the distortion that politics have turned to those things, if you actually care about where we are going—you remember the very first chart that showed \$101 trillion of debt that is coming at us. We are making our society and our country incredibly fragile to an interest rate spike, a military conflict, or another pandemic.

If we need infrastructure, let's build infrastructure. We can work out the financing mechanisms. But does long-term care really belong in the infrastructure bill? We need a revolution in what healthcare is, because you saw on the first chart, healthcare is the primary driver of U.S. sovereign debt. Once again, understand the ACA, Obamacare, the Republican alternative, Medicare for All, are not pieces of legislation that change the cost of healthcare. When you see them, the percent of GDP that goes to healthcare stays the same. They are financing bills. This is one of the thought processes here that has been so difficult to crack through our skulls. We keep having debates on this floor that are about who pays and who gets subsidized. We don't have conversations of what we can do to unleash creativity in technology, whether it be in environment, whether it be in infrastructure, whether it be in healthcare.

Until this place starts to see this in a holistic sort of continuous circle of healthcare actually has something to do with infrastructure, but the way you keep debt financing it, the debt becomes our fragility, and the debt is what is going to crush our future and do true economic violence to the working poor, and even to my 5-year-old daughter's future.

Mr. Speaker, I yield back the balance of my time.

#### HONORING NEWLYN WING

The SPEAKER pro tempore. Under the Speaker's announced policy of January 4, 2021, the Chair recognizes the gentleman from Florida (Mr. SOTO) for 30 minutes.

Mr. SOTO. Mr. Speaker, in honor of Asian American and Pacific Islander

Heritage Month, I would like to recognize Newlyn Wing.

Newlyn Wing is a current resident of Orlando, Florida, who over the last 5 years has become a passionate advocate for building leadership coalitions in the Asian-American and Orange County communities.

With a family history stemming from Michigan and Vietnamese refugees, he grew up experiencing the individualistic and collectivistic cultures of the United States and Vietnam. His upbringing created a belief within Newlyn that our collective well-beings are tied to each other's progress. He believes when our best individual efforts and perspectives are shared, we can all progress forward.

This principle led him to pursue leadership positions and projects with local and national nonprofits and associations. He holds roles as the president of the National Association of Asian American Professionals, Orlando chapter, and the chief strategy officer role with the NAAAP national. Newlyn is passionate about strategies and partnerships that give individuals a platform for building their leadership and having a true impact in their industries and communities.

In his work within the Orange County community, Newlyn has created leadership programs for high school and college students, helped lead voter education initiatives, and led efforts to increase the representation of Asian American Pacific Islanders in community leadership positions. He is grateful for the amazing leadership teams he has been a part of and for the opportunity to serve his community.

Outside of his community volunteer work, Newlyn currently serves as association manager for Junior Chamber International USA, a not-for-profit organization of young active citizens. The JCI USA mission, to provide development opportunities that empower young people to create positive change, aligns with Newlyn's passion and background.

For this and more, Mr. Newlyn Wing, we honor you.

#### HONORING ADRIAN LEE

Mr. SOTO. In honor of Asian American and Pacific Islander Heritage Month, I would like to recognize Adrian Lee.

Adrian Lee is a senior undergraduate student at the University of Central Florida, studying political science, with a track in international affairs and a minor in human communications.

During her time at UCF, Adrian was involved in Asian-interest student organizations, including the Asian Student Association, the Sparks Magazine Chapter of UCF, and the Asian Pacific American Coalition.

As president of the Asian Pacific American Coalition, Adrian worked with multiple executive student boards, administrative offices, and community partners to amplify Asian-American issues and provide networking opportunities.

She is most proud of introducing her new scholarships during UCF's celebration of Asian Pacific American Heritage Month, recognizing the creativity, leadership, and advocacy of APIDA students.

During her free time, Adrian enjoys painting and visiting local restaurants of greater Orlando.

For this and more, Adrian Lee, we honor you.

#### HONORING DR. HEFANG LIN

Mr. SOTO. In honor of Asian American Pacific Islander Heritage Month, I would like to recognize Dr. Hefang Lin.

Dr. Hefang Lin received her Ph.D. in statistics from Virginia Tech in 1999. She has published many papers in journals, such as the Journal of Statistical Computation and Simulation, the Criminal Justice Review, Corrections Today, et cetera.

She has worked as a research statistician in the Orange County Corrections Department for 14 years. Her statistical analysis and reports help decision-makers deliver better community outcomes by enhancing efficiency and productivity. As a result of her work, management has a data-based driven, decision-making process.

Prior to OCCD, she worked for a consulting company in Washington, D.C., until 2007. She worked on many projects for the Federal Government, including the U.S. Marshals, ICE, and the Administrative Office of the U.S. Courts. She is also vice chair of the research council in the American Correctional Association and the former president of the Club Orange Toastmasters.

Dr. Hefang Lin is the founder and president of the Orange County Asian Committee, with the mission of bringing the community together while promoting inclusivity and the rich heritage of Asian Americans, since 2012. In order to advocate for Asian cultures, diversity, and inclusiveness, she leads numerous events, such as cultural performances, art contests, and awards. During the pandemic, when face masks were in short supply, she organized people to donate masks to help prevent the spread of and protect against the COVID-19 healthcare crisis in Orange County and people in need.

Dr. Lin now lives with her husband in Oviedo, Florida, and has two beautiful daughters.

For this and more, Dr. Hefang Lin, we honor you.

#### HONORING ONCHANATHO AM

Mr. SOTO. In honor of Asian American and Pacific Islander Heritage Month, I would like to recognize Onchantho Am.

Onchantho Am makes no secret of her humble beginnings. She is a child of Cambodian refugees who escaped the Khmer Rouge. Due to unfortunate circumstances, she and her siblings were removed from her parents' care and placed in the foster system. One of her first recollections of the judicial system was when she advocated on behalf of her siblings to have them reunited

under one roof. Rather than being broken by such adversity, she embraced her experiences to fuel a passion for public service and child advocacy. She aged out of the foster system and went on to become the first in her family to attend college and graduate from the University of Florida. She earned her J.D. from Stetson University College of Law, where she earned the prestigious Victor O. Wehle Trial Advocacy Award and the Thomas E. Penick, Jr. Award.

Onchantho is the vice president of quality and chief legal officer of IMPOWER, Inc., where she leads the organization to new levels working diligently to improve the lives of children and families.

Outside of work, Mrs. Am is heavily involved in the legal and the Asian American Pacific Islander community. As the president of the Greater Orlando Asian American Bar Association, she put public service and community outreach to the forefront, spearheading several successful virtual programs, including the Voter Initiative, the Asian Fusion Nights, Cooking for a Cause, and Stop AAPI Hate panel. She is also an active board member of the National Association of Asian American Professionals, a member of the Orange County Asian American Committee, and the scholarship chair of the Orange County Bar Association Foundation.

But for all her accomplishments and accolades, her greatest pride and joy is to share with her husband the adventure of raising three multiracial daughters to become strong, empowered women.

For this and more, Mrs. Onchantho Am, we honor you.

HONORING SHALLY WONG

Mr. SOTO. In honor of Asian American and Pacific Islander Heritage Month, I would like to recognize Shally Wong.

Shally Wong is the special assistant of Mayor Jerry Demings of the Orange County government.

A Hong Kong immigrant, Ms. Wong has proudly served the central Florida Asian American community since 2005. Her programs include cultural outreach, unity, and inclusion for all peoples of the Asian American community and beyond. Ms. Wong invests in all of her responsibilities a vision of diversity, understanding, acceptance, and respect that nurtures present and future generations. She takes great pride in representing her culture and being a voice for those underrepresented within her community.

With an MIS bachelor's degree in business administration, Ms. Wong brings dedication, meticulousness, and selflessness to many professional and local projects from idea through completion. Examples of such projects include the Asia Trend Magazine publication; the Asia Trend, Inc., nonprofit organization; and the Dragon Parade Lunar New Year.

Ms. Wong's prior recognized positions include vice president of the Chinese American Association of Central Flor-

ida, president of CAACF, and board director of the Asian American Chamber of Commerce, for which she served as treasurer in 2007. Her various awards and merits include the AACF's Ellison S. Onizuka Humanitarian Award, the Asian American Heritage Council Community Service Award, and the Outstanding Community Service Award and recognition of County Mayor Teresa Jacobs. Ms. Wong now serves as board director of FusionFest, Inc.

For this and more, Ms. Shally Wong, we honor you.

HONORING SADIQUILLAH BABURI

Mr. SOTO. In honor of Asian American and Pacific Islander Heritage Month, I would like to recognize Sadiquillah Baburi.

Sadiquillah Baburi, born on June 10, 1977, to father Baqi Baburi and mother Sadeeqa Baburi in Kandahar, Afghanistan, is the oldest of eight siblings. The Soviet occupation of the eighties took many of his family members' lives and forced him and his family to flee their home and brought them to the United States in the year 1990.

Supporting his family financially, Sadiq worked as a dishwasher with his brother-in-law Mohamed Amin in a diner in Schenectady, New York, until they gathered enough money to build their own restaurant in Newark, New Jersey. After several years, he moved with his entire family to Florida and eventually opened his newest restaurant with his brother-in-law, Kennedy Chicken and Grill, named after the airport he and his wife first arrived in as immigrants. The restaurant employs many immigrants who came to the U.S. seeking new opportunities as he and his family did years ago.

□ 2100

At the present moment, Sadiq has four children. He and his wife have been married since 1996. Mr. Baburi contributes to many local charities through his small business work in the central Florida community.

For this and more, Mr. Sadiquillah Baburi, we honor you.

HONORING FRANCISCO RUEDA HALILI, M.D.,  
F.A.C.S.

Mr. SOTO. Mr. Speaker, in honor of Asian American and Pacific Islander Heritage Month, I would like to recognize Dr. Francisco Rueda Halili, M.D., F.A.C.S.

Dr. Francisco "Frank" Halili, M.D., is a man who appears to have more than 24 hours in a day. And for every single second of those extra hours, there is a man living life to the fullest, a man of God and country. He uses his time, talents, and treasures to help others.

A board-certified general surgeon in the central Florida area for more than 27 years, Dr. Halili's sharp mind and skillful hands have sought to provide the best care for everyone he meets. It is hard to even imagine the number of lives he has changed either directly or indirectly as a doctor.

Born in Manila, Philippines, to Filipino-U.S. immigrants who made sac-

rifices, like many other immigrants do when starting over in the U.S., he was instead raised by his grandmother in the Philippines.

A graduate of Ateneo de Manila High School, he would eventually attend Florida Southern College, majoring in biochemistry, and later attend medical school at the University of Miami School of Medicine, class of 1988.

Dr. Halili did his surgical residency at Brookdale Hospital Medical Center in Brooklyn, New York, and started his private practice in 1993 as a general surgeon in Kissimmee, Florida.

Anyone who has ever seen Dr. Halili in the operating room knows of his love for his alma mater and UM Hurricane sports. His medical students and nurses can easily spot him proudly wearing anything and everything University of Miami, orange and green, all the way down to his famous orange-colored operating room shoes. Go Canes.

Over his 27-year career, it is hard to say exactly how many hours Dr. Halili has spent in surgery, with delicate hands caring for his patients. But for every one of those hours, getting to the four hospitals no matter what time or emergency, he has somehow defied the laws of physics and created even more time in the day to be a full-time loving husband to Joanna and devoted father to Francis and Francene.

For this and more, Dr. Francisco Halili, we honor you.

Mr. Speaker, I yield back the balance of my time.

#### NEWS FROM OUR SOUTHERN BORDER

The SPEAKER pro tempore. Under the Speaker's announced policy of January 4, 2021, the Chair recognizes the gentleman from Wisconsin (Mr. GROTHMAN) for 30 minutes.

Mr. GROTHMAN. Mr. Speaker, since our last couple of floor periods, I had a chance to visit our southern border one more time, and I would like to point out what is going on there because I think it is the most important issue in America today.

So that our listeners understand, there are two classes of people who come to our border. There are people who are caught or deal with the Border Patrol—and a lot of people want to be found by the Border Patrol because they think they can come into this country through an asylum process—and there are other people who sneak across the border.

In April, our Border Patrol touched—or dealt with about 178,000 individuals. A year ago, that number was 17,000. So we have voluntarily gone up from having the Border Patrol deal with about 17,000 to 178,000.

As we deal with more people who are touched by the Border Patrol, the Border Patrol has to spend more time doing paperwork, particularly with the children.

We have another group of people coming across the border called get-

aways. Because they are get-aways, nobody knows exactly how many there are. We do have drones. We do have our new wall together with sensors. And we are guessing right now that the number of get-aways has gone from about 10,000 a month a year ago to 30,000 a month.

We feel when you combine the two totals, we are going from about 10,000 a month people coming across our border to—just guessing—70- to 80,000 people a month crossing our border.

One thing I found at the border is that it is a misnomer to say most or all of these people are necessarily coming from Mexico or Central America. The last time I was down there, we looked at the three western sectors of the Mexican border. There are nine sectors. We looked at the San Diego, El Centro, and Yuma sectors.

In the San Diego sector, the second most common nationality coming across at the time we were down there was Russian. In the other two sectors, the most common nationality for quite a while had been Brazilian.

While I was there, we watched Border Patrol process a group of about 40 people coming across. They weren't even from one country. It was a group, and some of the people were from Russia, some were from Romania, some were from Cuba.

When we looked at the facilities the Border Patrol had down there, they had names of countries in—what else to call them—pens, where they were holding people. Sometimes a lot of people were kind of squished together.

Another country that people are commonly coming from was Ecuador. I said a lot of people are coming here from Cuba. We saw a large pen for people from India, though, to be honest, nobody was in it. But in any event, people are coming here from all around the world.

We also noticed at the border that the huge slats used to build the wall, which they had to cut short on, are apparently being stolen. Somebody paid for all these things that were supposed to be used to build a wall that was 30 feet high above the ground and 8 feet below the ground.

We cut short the building of that wall right when President Biden was sworn in. We already paid for the equipment. There was a lot of equipment used to put together the wall that had been rented. Apparently that money was wasted. Right now, the slats used for the wall are apparently being stolen at night by people who are selling them on the market.

One other observation about the wall: There has been an increase of traffic coming by boat in the San Diego area. And the reason the Border Patrol thinks that is true or the reason it is true is because of the effectiveness of the wall. Because the wall is doing a good job, people are more likely to get in a boat, go 20 miles out to sea and 20 miles back to come in.

The people who are let in this country pending an asylum hearing are put

all over the country. They are frequently left with a nonprofit organization, perhaps the Catholic Social Services, and they find somewhere for them everywhere you look.

Another thing that you have to realize as things get worse with the wall is the number of drugs coming across the southern border. I had always wondered what would happen to the drug cartels as marijuana was legalized in the United States. One of the arguments for legalization of marijuana is it would weaken the drug cartels. Because they would no longer have to sneak the drugs across the border, that what would happen is that they would grow the marijuana in greenhouses here—Colorado, Washington, where have you—and the drug gangs would dry up. Not so.

I recently heard an anecdote in which a lot of marijuana was shipped across the border, and they couldn't find anybody to sell it to because the quality of marijuana grown in America is superior to the marijuana grown in Mexico. Because it is no longer that profitable to ship marijuana across the border, what happens is there has been a dramatic increase in more severe drugs: heroin; cocaine; meth; and the worst of all, fentanyl.

We recently hit a new record in which we have had 90,000 deaths in a 12-month period in the United States. In Milwaukee County, of which I represent a part, there were 540 deaths last year. Milwaukee County is not big like Cook County or some of these other counties around here. It is about a million people. 540 deaths in Milwaukee County is a huge deal. For whatever reason, I think the press has underpublicized it.

□ 2110

I think one of the reasons for the big increases is because you are seeing more and more dangerous drugs coming across the southern border.

I would like to give a tip of the cap to the dogs that the Border Patrol uses at the border. When we were down there, we saw dogs who had detected fentanyl located in a gas tank. Of course, a gas tank smells so much, you figure there is no way that a dog could detect that because the smell of the gasoline is so strong. But even there, the dogs had detected it.

The thing is, the dogs could only sniff so many cars coming across. It would be a good idea if the Border Patrol would get more dogs.

In any event, if you want to talk about an underpublicized problem: 90,000 deaths in America last year from drug overdoses. At least at the drug administration in Milwaukee County, they speculated that the drugs that killed every one of the 540 people down there, either the drugs themselves or the ingredients for the drugs came across the southern border.

Now, you might say: Can we do anything to prevent this? Can we do anything to prevent there being 17,000 up

to 178,000 contacts coming across the border? Yes.

Why did we not have a problem a little while ago, and what changed it?

First of all, President Trump had negotiated something called the migrant protection protocol in which people were held on the Mexican side of the border pending a hearing for asylum. Because of that, less people showed up in the first place. President Biden got rid of President Trump's agreement with Mexico to hold people at the southern border. First of all, more people are let in right away, and secondly, it advertises to prospective illegal immigrants around the world that now is the time to come.

Secondly, we had an asylum cooperative agreement with the Central American countries to hold people south of the Mexican border. In other words, if somebody wanted to come up from Venezuela and said, "I need protection. I need asylum," they were held in Central American countries. Obviously, if they were concerned that they were being persecuted by the government, why would you have to come to the United States? It would be perfectly fine to stay in Guatemala, stay in El Salvador, wherever. That agreement was torn apart.

Finally, we changed the way we are dealing with COVID. Given the big deal we make about COVID, it is kind of surprising the Biden administration is letting people in without being tested for COVID, but they are.

Between these three things, we have managed to go to probably about 10,000 people who we don't want coming here a month to an unknown number, but probably 70,000 to 80,000.

I am afraid what will happen is that number will continue to grow. One of the reasons it is so much greater than it was in the past is because the gangs that help people get here charge people to come here. They charge \$3,000 for a Mexican to cross the border, about \$5,000 for a Central American. I am told \$9,000 to \$10,000 for a Brazilian.

Obviously, as it is easier to come here, the drug gangs will educate people in other countries and market in other countries to see if they can get here.

Other comments that I learned at the border: We already, in this fiscal year, have 6,000 arrests. That is over twice the amount we had in the entire last fiscal year. And these are for very serious crimes.

I also want to point out that usually you frequently only know if somebody has committed a crime or if somebody is a criminal if they committed a crime in this country. You don't know if they are coming here to escape from another country. So, we are letting an increased number of a criminal class in this country.

It is estimated that 33 percent of the women who come to this country, on their way up, as they walk through Mexico, are abused. Some of these women may find they have to pay the

money they are supposed to give to the gangs by being trafficked, and that is a horrible thing. I don't know where these people are in this building who purport to be concerned about human trafficking, but one way women can pay their way, for their \$5,000 or \$8,000 or whatever, is obvious. The current system encourages that.

Another problem with it is when people cross the border, and it is a very mountainous border, whether you are in Arizona, whether you are in California, whether you are in New Mexico, you can wind up dehydrating to death. The drug gangs that show people how to get here do not take people necessarily all the way to civilization. They take them across the Mexican border, and they may say there is a town 10 miles that way or 15 miles that way. There may or may not be a town that close.

The Americans do put jugs of water out for people and hope they survive. But last year, in the Tucson sector alone, they found 100 people dehydrated to death, which is another problem that you have with this hodgepodge at the border.

Another problem that you find out is the children who come across the border, sometimes the children are people who are borrowed or rented or whatever from other people and are not related to the people who claim to be their parents or relatives in some fashion. Sometimes, we are able to identify that with DNA testing. Sometimes, we don't.

Children come up, maybe young children, even 7- or 8-year-old children, have fastened to their clothing who they are supposed to contact when they come here. The United States, under a bad court decision—in my opinion, a bad court decision—those children, rather than, say, being sent back to their parents in Honduras, may be sent to their supposed aunt or uncle in New York.

In the United States, when the children come to the border, they provide transportation to get those little kids to somewhere in the United States. The idea being that once one child comes here, eventually, the rest of the family is going to follow.

All the way across the board, we have a very dangerous situation. I implore the Biden administration to do something about this, and I implore the American public to get upset about this and demand that their Congressman does something.

I think the first thing we have to do is, of course, beg the Mexican Government to reinstate the migrant protection protocol, beg the Central American governments to reinstate the asylum cooperative agreements, and do what we can to immediately test for COVID the people coming across the border.

The next thing we have to do, Mr. President, is address the Vice President. The Vice President was appointed over 8 weeks ago now to be the czar for

the southern border. I have been at the border three times this year. You do not know what is going on at the border unless you literally sit down, talk to the Border Patrol agents, talk to law enforcement of the counties that are on the border, talk to the ranchers who have to live with people crossing their land.

Clearly, Vice President Harris is not interested in finding these things out. I have made bad hires in my life. I have assigned people to jobs that maybe they couldn't do that well. I beg President Biden, who says he is a moderate, to find somebody else to be the border czar.

The current situation in which we have the number of people let in this country rocketing up is just unacceptable. If Ms. HARRIS, or Vice President Harris, can go 8 weeks without visiting the border, it clearly shows that she is insubordinate, is not interested in doing a good job. There must be somebody else in the Biden administration who can pick up the slack and express some interest in closing our border.

I should digress and point out that this does not mean we are anti-immigration. In 2019, almost 850,000 new citizens were sworn in, in this country. There are work visas, as well. There are plenty of ways to come into this country legally, but we do not need this massive sea of people coming here illegally.

Again, I implore the American public. When we see the Border Patrol touch 178,000 people a month, that is unacceptable. When we talk about 30,000 getaways, that is not acceptable. The numbers are going to continue to spiral up as we have had public comments from both the President and Vice President that indicate they are not interested in enforcing our laws.

□ 2120

Now I would like to touch briefly on another crisis that I hope the American public expresses their concern about during our 3-week recess.

There have always been people trying to destroy America. And America is such a hope for people all around the world, both our example and the fact that we do have many immigrants coming here. There have been various ideologies which have been used to overthrow our government, or change our government so it is no longer in accordance with our Constitution.

John Adams said our Constitution is fit for a moral and religious people and not fit for anyone else.

There was a time when Marxists traditionally felt they could destabilize the American population and that way have a rebellion in the United States. Eventually, they gave up hope on traditional Marxism, or at least gave up hope for a while.

The reason they gave up hope is, quite frankly, the American middle class was so prosperous. And in America you could find just by going to work, working hard, saving some

money, you could buy a house bigger than what you would find in any other country. And as a result, the lure of Marxism, which took over in China—albeit with some mistakes made by the American Government—which took over in Russia, which took over in Cambodia, resulting in maybe over 100 million deaths of Marxists caused in other countries, not to mention the destruction of the churches, the destruction of the family. That failed.

More recently, the left-wingers in our university system has taken it upon themselves to talk about critical race theory. Now under classic Marxism, they try to take over by educating the American public that they should be bitter and angry, and they should want to revolt so that they could own the factories or own the big houses, and have a revolution that way.

The new effort is to try to create anger based on race, and they call it critical race theory. And they want to tell people that if you don't have all you have, it must be because of racism. If you don't have the nice house you want, if you don't have a big amount in your savings account, or whatever, that is the problem.

Recently, I ran into a little bit of what I will call critical race theory in one of my local high schools. In the high school, a teacher educated a class, which was devoted to racism, mentioned that in the past year, 4 percent of the kids in this high school were Black, and 20 percent of the kids who were arrested were Black. The teacher told the kids, of course, or implied to the kids that this was the result of racism.

There is a problem twice. First of all, you are educating people in the United States of America, which we have just covered, the whole rest of the world wants to get in here. You are educating kids that America is not worth preserving, America is not worth fighting for, America is a bad country.

Secondly, you educate people that if they are arrested for drugs, for fighting, what have you, or if the police interact with you, it is not a matter of you did something wrong, it is a matter of racism.

I can't think of any clearer way to make sure that people do not progress in our system than telling them that if they do something wrong, the punishment was not because they deserve the punishment, it was because of racism. But this is the mindset that is out there right now in our schools. It is the mindset that is out there in our large businesses and in our military.

I think people have to educate themselves as to what critical race theory is, because clearly, the goal of critical race theory is to make people not proud or not respect the United States and, furthermore, make people bitter and angry, and tell people rather than work hard—you work 45-50 hours a week, try to afford a house, try to have children, buy a car—it tells people if you don't have all you want, it is because of racism.

And there is no way teaching our young people that is going to lead to anything other than resentment and a great deal of unhappiness. I think it is obvious that America does not have the racist problems that other countries have. And I beg people to read about countries like India, countries like Somalia, where minor ethnic differences result in deaths, huge amounts of discrimination.

Here in the United States, in recent years, Asians, and before that, many other different so-called minority groups outdid financially—finances aren't everything—but financially exceeded the native-born.

We can see that America is not a racist country because I talked about, a second ago, people from all around the world are trying to get in here, and almost nobody ever wants to leave. So when it really comes to saying it is bad, no one wants to leave, but the whole rest of the world tries to come here, be it from Africa, be it from Latin America, be it from the Indian subcontinent, be it from Southeast Asia.

So many wonderful people come here. My district has a lot of Hmong who are tremendously successful, despite coming from a very different background, loving America, taking full advantage of the opportunities that are there.

However, if we let this pernicious ideology get in our schools and get in our businesses, it will be a success for the left-wing groups that have always wanted to destroy the special country that is America.

And I encourage parents and grandparents and employees to report or publicize when they are forced to put up with this stuff in the schools or in the businesses.

There is something for our wonderful American listeners to deal with over the next 3 weeks.

The Senate met at 10:30 a.m. and was called to order by the Honorable BEN RAY LUJÁN, a Senator from the State of New Mexico.

### PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Precious Lord, we praise You because You provide us with a lifetime of blessings. You are the foundation of all that is good in our lives, keeping us from neglecting Your plans for our future, as You prepare us to stand in Your presence without a single fault.

Lord, prosper the work of our Senators. Make their efforts as secure as the mountains. Inspire them to strive less for success and more for faithfulness. Guide them to hate evil, pride, arrogance, and corruption. Remind them that their future is in Your hands.

We pray in Your loving Name. Amen.

### RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

### JANUARY 6 COMMISSION

Mr. SCHUMER. Mr. President, so the Spanish philosopher, Jorge Santayana, is credited with the saying, "Those who cannot remember the past are condemned to repeat it."

When it comes to January 6, we would all do well to heed that advice. But right now, there is an effort on the part of the House Republican leader-

ship to make sure we forget that that fateful day ever happened.

Later today, the House will vote on establishing an independent Commission to investigate the events of January 6, a complement to the investigation in the House and Senate committees. Both sides negotiated for months. The House Republican leader made three specific requests in February. All three were granted by House Democrats. Modeled after the bipartisan 9/11 Commission, it will have equal representation from both Democrats and Republicans. Subpoenas can only be issued if Members from both sides agree.

It appeared we had reached a consensus with the support of rank-and-file Republicans and, frankly, I thought the Speaker was being very generous because subpoena power is so important when you look into something, but she did that. I salute her for it. But even when she went that far, at the eleventh hour, the House Republican leadership turned tail, threw its own negotiators under the bus, and decided to try to sabotage the Commission. Once again, they are caving to Donald Trump and proving that the Republican Party is still drunk off the Big Lie.

Just one week after House Republicans fired Congresswoman CHENEY for simply telling the truth about the election, their new leadership is trying to kill a bipartisan investigation—a very down-the-middle bipartisan investigation—of the attack on our Capitol.

At the root of both efforts is the shameful desire to protect Donald Trump and perpetuate the Big Lie, even though it undermines our democracy, because when people don't believe elections are on the level, that is the beginning of the end of a democracy.

What the Republicans are doing—the House Republicans—is beyond crazy. To be so far under the thumb of Donald J. Trump, letting the most dishonest President in American history dictate

the prerogatives of the Republican Party, will be its demise. Mark my words. Whatever that means for Democrats, it is bad for America.

We all know there needs to be a thorough and honest accounting of what took place on January 6, the greatest attempt at insurrection since the Civil War. We have to make sure such a despicable event never repeats itself. That is why we need the investigation.

Getting at the truth is more important now that some Republicans are trying to rewrite history. It is just incredible what they are doing. How dishonest can they be, in abject fear of the most dishonest President who has ever sat at the White House, Donald Trump, who will tell lies at will? He doesn't care. It is only his own ego. We know that. One Member said it was a "boldfaced lie" to call it an insurrection and likened the mob to a "normal tourist visit." Give me a break.

Several Members have spread the lie that it was actually Antifa that stormed the Capitol and so have some commentators on one of our leading news networks—shamefully, shamefully.

One Republican went so far as to say the mob, not the police, were the real victims of the violence that day. Can you imagine being in the family of one of the police officers who died or was injured? It is bad enough, but hearing that? How far will they go in obeisance to the lying President Donald Trump? How far?

These are dangerous lies rooted fundamentally in the Big Lie that has seemingly enveloped the Republican Party. Shame on them. Shame on the Republicans for choosing the Big Lie over the truth—not all Republicans, but the majority who seem to be doing it. Shame. Shame on them for defending the mob over our Capitol Police officers. And shame on the House Republican leadership for punishing Republicans who tell the truth, instead of those who poison faith in our democracy.

Here in the Senate, we will have a vote on the January 6 Commission. The only way to stop these lies is to respond with the truth, with facts, with an honest, objective investigation of what happened that day.

An independent Commission can be the antidote to the poisonous mistruths that continue to spread about January 6. That is what our Founding Fathers believed in. They believed in a fact-based nation, and they believed the facts will come out. People will have different views when they see those facts and assemble those facts, but they believe in the truth.

I can't think of a time when a political party has been so abjectly far away from the truth than the perpetuation of the Big Lie.

So again, the Senate will vote on the January 6 Commission. It ought to gain bipartisan support. There are reports—sad, unfortunate reports—that the Republican leader here in the Sen-

ate might be following his House colleagues down the rabbit hole and will oppose the Commission. I hope that isn't true.

But the American people will see for themselves whether our Republican friends stand on the side of truth or on the side of Donald Trump's Big Lie.

#### VOTING RIGHTS

Mr. President, on voting rights, the Texas State Senate recently passed a bill that repeals all requirements for carrying a handgun, including a valid license, registering fingerprints, and 4 hours of training. Texas would be the sixth State to pass a permitless carry law, with Louisiana waiting in the wings. If both Texas and Louisiana pass these laws, fully a third of Americans would live in States where it was legal to carry firearms without training or a license.

Just one week after the Texas legislature advanced that law to make it as easy as possible to carry a handgun, it advanced another law to make it harder to vote. You need stringent identification to vote and no identification to carry a handgun. What the heck is going on in Texas?

Just think about that for a moment. Across the country, Republican legislatures are removing all barriers to carry firearms, while at the same time putting up barriers around voting. The political right wants to make it easier for felons to get a gun but harder for younger, poorer, and non-White Americans to vote. It is hard to think of a more reactionary vision for our country, a more backward-looking vision, a vision that eventually will be repudiated not only in the history books but in our Nation's politics.

Sadly, as voter suppression laws sweep through Republican State houses from Florida, Montana, and everywhere in between, the political right is actually bragging about how successfully they are restricting the franchise.

Last week, a spokesperson for Heritage Action, the lobbying arm of the far-right think tank, told a group of Republican donors that Heritage Action was drafting new voter restrictions and literally handing them over to State legislatures in order to give the laws "that grassroots feel." She went on to crow about how "quickly and quietly" her organization managed to get new limits on voting passed in Iowa. She told the donors that she looked at her team of rightwing lobbyists and said: "It can't be that easy."

That is how the far right is talking about making it harder for Americans to vote. Behind closed doors, with well-heeled donors, they are laughing about how easy it is to limit American voting rights, and that is because Republican legislatures, from one end of the country to the other, are eagerly and willfully going along. It is despicable.

In this country, in a democracy, when your side loses an election, you try to win more voters over. You don't try to stop the other side from voting.

But seizing on that Big Lie that the election was stolen, Republican legisla-

tures are orchestrating the greatest contraction of voting rights since the end of reconstruction and the beginning of Jim Crow.

These laws cannot go unanswered. Senate Democrats are moving forward with legislation, S. 1, to combat this rash of voter suppression laws. It has gone through the Rules Committee, and it will receive a vote here on the Senate floor.

Our Republican colleagues need to decide if they are going to stand up for democracy or not.

#### CLEAN CARS FOR AMERICA

Mr. President, on one final matter, clean cars, yesterday, at an event in Michigan, President Biden declared that the future of the auto industry is electric. He is absolutely right.

But even though the transition to electric vehicles has already begun, it is progressing too slowly. China is outpacing the United States in the electrical vehicle market, and the only way we are going to meet our ambitious climate targets is to accelerate the transition to zero-emission vehicles.

That is why I was so glad to hear President Biden get into the specifics and talk about the many ways that government, industry, and labor can partner up to put more electric vehicles on the road and create more jobs in the process.

At the heart of that effort is legislation called Clean Cars for America. It is a proposal I drafted and introduced several years ago, and now it has become a central component to the American Jobs Plan and President Biden's Build Back Better agenda.

Through a mixture of point-of-sale incentives for consumers, charging infrastructure investments, and support for American manufacturing of electric vehicles, it would make electric vehicles affordable for all Americans and create thousands and thousands and thousands of good-paying union jobs in automaking, construction, and battery manufacturing.

We need a large-scale effort to achieve an electric vehicle future. Clean Cars for America is the way to get there.

I yield the floor.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### ISRAEL

Mr. MCCONNELL. Mr. President, 2 years ago, I spoke to a gathering of friends of Israel. At the time, I was working to advance pro-Israel legislation to combat the BDS movement.

This was a far-left effort to create worldwide anti-Israel boycotts. I was struck, at the time, by the opposition to the bill from the far left, and I said the Democrats had to stand up to the growing chorus of anti-Israel voices in their own ranks or we would all come to regret it.

Well, fast-forward to today. Our friends in Israel are now in their second week of a difficult counterterrorism campaign. They are responding to unprovoked rocket attacks raining down on their people. Predictably, the radical fringe has leapt to excuse the acts of terror and, of course, blame Israel, as usual. But, now, disproportionate pressure is not only being placed on Israel by far-left activists. Now, sitting Members of Congress are actually joining in. One Democratic House Member has lately called Israel an “apartheid state.” Another said it is guilty of “terrorist acts.”

For a long time, Republicans and Democrats have stood together in standing with Israel. I am proud of all of the work we have accomplished together, like improving Israel’s Iron Dome defenses, providing precision-guided munitions and Joint Strike Fighters, and collaborating on counter-tunneling technology to thwart terrorists. These bipartisan efforts have paid dividends for Israel and for the United States.

As recently as 2014, during the last major conflict between Israel and Hamas, most Democrats stood unhesitatingly with Republicans to unequivocally condemn Hamas and support Israel. But, now, rather than having Israel’s back, senior Democrats have actually pressured Israel to end its defensive operations. They have called for a ceasefire and urged leaders to strive for peace through a negotiated two-state solution—as if Israeli Prime Ministers from across the political spectrum haven’t made good faith efforts in the past toward peace.

Of course, in this case, Israel is not fighting the Palestinian Authority. They are not up against the Palestinian Authority. They are not at war with the Palestinian people. They are fighting Hamas. Everybody around here surely knows by now that Hamas is a terrorist group that opposes a two-state solution. They want Israel destroyed. That is who this fight is between—Israel and Hamas—not the Palestinian Authority, not the Palestinian people. It is between Israel and Hamas, Israel versus terrorists.

So let’s dispense with this “both sides” nonsense. Only one side has taken credible steps toward peace, and even when rocketed by terrorists, Israel takes extraordinary pains to avoid harming civilians. This includes giving advance warning to Palestinian civilians in the places they are about to strike. It calls them up in advance and says: Get out of there. We are about to strike.

Frankly, Israel is taking more care to protect Palestinian civilians than is

Hamas, which intentionally hides behind innocent people in violation of the laws of war and then exploits their deaths to advance the cause. Hamas doesn’t represent Palestinians any more than it represents the rest of the region’s Arabs, which is to say, not at all.

For decades, administrations mistakenly assumed the road to Middle East peace led through agreement between Israel and the Palestinians and that nothing else could be addressed until this was resolved. In reality, the previous administration facilitated the Abraham Accords—a historic step that helped Israel normalize relationships with majority-Muslim countries like the United Arab Emirates, Bahrain, and Sudan. Morocco normalized its relationship as well. This progress toward peace, based on shared geopolitical and economic interests, came in spite of intransigence from leaders in Gaza.

Now the Biden administration wants to deny this historic progress. A few days ago, the President’s spokeswoman argued incredibly that with respect to the prior administration, “We don’t think they did anything constructive”—really?—regarding “the longstanding conflict in the Middle East.” Really? The recognition between Israel and four Arab countries is not progress? Give me a break.

Now, as Israel battles terrorists, the Democratic chairman of the House Foreign Affairs Committee indicated this week that he might try to obstruct the supply of precision technologies that helps Israel avoid civilian casualties. How does that make sense? And remember that Chairman MEEKS only chairs the Foreign Affairs Committee because the far-left primaried the previous chairman—a staunch Democratic supporter of Israel—right out of his seat in Congress. You can see where the far left is trending. This effort to block arms sales is basically the same play that some Democrats ran with Saudi Arabia and the Iran-backed Houthis in Yemen. Let’s just think about that. Fortunately, the latest reports suggest the chairman may be backing down from this. I certainly hope so.

Yet the White House still can’t give a straight answer on whether and when we will help Israel replenish the Iron Dome system that protects its citizens. Leading Democrats are even talking about easing sanctions on the Iranian regime, which helps fund terrorist proxies like Hamas and keeps their rocket arsenals full. They come from Iran—and the administration still proposes to cut our own U.S. defense funding after inflation.

So, listen. Israel’s enemies are watching—make no mistake—not just Hamas but Hezbollah and Iran’s Islamic Revolutionary Guard Corps. We cannot send the signal that terrorist attacks on American allies will be met with mealy-mouthed attempts to blame both sides.

#### ABORTION

Now, Mr. President, on a completely different matter, when President Biden nominated Xavier Becerra to run the Department of Health and Human Services, it was clear what the Nation was getting—a hardened culture warrior with no health or medical expertise. Where Secretary Becerra did have experience was in trying to impose a far-left social agenda.

He fought and fought in Federal court to make religious nonprofits pay for things that violated their consciences until he finally got creamed in the Supreme Court by a ruling that was 7 to 2. Before that, he had fought and fought to force crisis pregnancy centers to advertise abortion, trying to coerce a certain kind of leftwing speech out of private groups. The Supreme Court slapped him down then as well. That was the resume Secretary Becerra brought to his current position.

Last week, in a hearing before the House Energy and Commerce Committee, the Secretary either forgot about Federal law on abortion or revealed that he just didn’t care what was on the books. When a Member of Congress used the common term “partial-birth abortion,” the Secretary coyly suggested he didn’t know what that meant. He tried to get the Congressman to use the more clinical verbiage that helps the far-left conceal this grotesque subject. Then, when pressed, Secretary Becerra claimed “there is no law that deals specifically with the term ‘partial-birth abortion.’”

Well, the Secretary may wish that were the case, but it isn’t. That is completely false.

U.S. Code, title 18, section 1531 is the Federal ban on partial-birth abortions. It uses the exact term seven times. It defines the banned practice in all of its barbaric detail. Back in 2003, I was proud to join with almost two-thirds of the Senate when we passed this mainstream law. Our Federal ban on this awful procedure remains widely popular with the American people. It is the bare, bare minimum. Yet President Biden’s HHS Secretary is either ignorant of the Federal law or wants to pretend that it actually doesn’t exist.

Remember, the far left has kept America one of just seven countries—seven—in the world that allows elective abortions on demand after 20 weeks. Countries across Europe, like France, Spain, Germany, Norway, and Denmark, all limit elective abortion to before 20 weeks. The far left wants America to be an outlier on the global fringe, and President Biden’s HHS Secretary either doesn’t know or won’t admit that the phrase “partial-birth abortion” even appears in Federal law. A misstatement like that is embarrassing enough, but the radicalism that lies behind it is even worse.

#### PROTESTS

Mr. President, on one final matter, after careful consideration, I have

made the decision to oppose the House Democrats' slanted and unbalanced proposal for another commission to study the events of January 6.

As everybody surely knows, I repeatedly made my views about the events of January 6 very clear. I spoke clearly and left no doubt about my conclusions. Federal law enforcement has made at least 445 arrests and counting relating to crimes committed that day. Hundreds of those people have been charged. Law enforcement investigations are ongoing, and Federal authorities say they expect to arrest at least 100 or so more. Bipartisan investigations are also underway and have been for months at the committee level here in the Senate.

There is, has been, and there will continue to be no shortage of robust investigations by two separate branches of the Federal Government. So it is not at all clear what new facts or additional investigation yet another Commission could actually lay on top of existing efforts by law enforcement and Congress.

The facts have come out, and they will continue to come out. What is clear is that the House Democrats have handled this proposal in partisan bad faith, going right back to the beginning, from initially offering a laughably partisan starting point to continuing to insist on various other features under the hood that are designed to centralize control over the Commission's process and its conclusions in Democratic hands.

I have been an outspoken critic about all of the episodes of political violence that our Nation has seen over the past year. I support the strong existing investigations and justice for any American—any American—who has broken the law.

The ACTING PRESIDENT pro tempore. The Republican whip.

#### AMERICAN FAMILIES PLAN

Mr. THUNE. Mr. President, a couple of weeks ago, President Biden unveiled his so-called American Families Plan, which one might summarize as free stuff—free preschool, free community college, lots of government subsidies. It sounds great, but the problem, of course, is that none of that is really free. The government may not send individuals a bill for any of those items, but that doesn't mean they don't have to be paid for by someone. So President Biden proposed a raft of tax hikes to at least partially pay for his proposals—a hike in the capital gains tax, an additional new death tax to add to the one we already have, and a hike in the top income tax rate.

Now, President Biden is selling these tax increases as tax hikes on wealthy Americans, whom Democrats view as a bottomless source of funding for new government programs, but there are two problems with that.

In the first place, there is no question that some middle-class Americans will be hit by President Biden's new death tax. While he provides an exemp-

tion for gains of \$1 million or less, the truth is that it is possible to die with an estate whose value has increased by more than \$1 million over the course of your life, while never breaking out of the middle class. We are not talking about individuals with a yearly income of \$1 million; we are talking about the lifetime gains on assets an individual has at his or her death.

Then, of course, there is a good bet that many of those individuals' heirs—the ones whose inheritance will be diminished by this tax—are thoroughly middle class. Your parents might die with an estate that has gained \$1 million-plus in value, but you yourself might be earning just \$40,000 or \$50,000 a year.

All this is especially true in the case of family farms and businesses. Farming is a cash-poor business. Farmers might have land that has appreciated over decades by substantially more than \$1 million even though the farmers themselves may at times struggle even to break even. Levying President Biden's new tax at death could permanently destroy a family farm or business.

Now, President Biden has suggested that he will carve out an exemption for family farms and businesses if the next generation commits to running them, but it remains to be seen what that exception looks like and whether it truly protects family farms. He has not pledged to carve out an exception for middle-class Americans whose inheritance will be hit by this new tax.

Then there is the fact that President Biden's new income tax hike will also hit small businesses, many of whose owners pour a substantial part of their profits back into the business instead of raking in a large salary.

But even leaving all that aside and supposing that President Biden's new taxes will be levied only on wealthy Americans, there is still a problem. Sure, if you are in the middle class, the government might not be sending you a tax bill, but that doesn't mean you won't be negatively affected by these taxes.

You see, Democrats operate under the entirely false assumption that you can tax higher earners without consequences, that you can tax investments without consequences, and that you can tax businesses without consequences. In Democrats' world, you can heavily tax something, but no one will behave any differently. No one will reduce his or her investments. No business will flee high tax rates by moving overseas. No business will pass on higher tax bills to consumers in the form of higher prices at a time when inflation is already on the rise.

But, of course, in the real world, people do respond to tax hikes. Businesses raise prices on their products, they limit wage growth to their workers, and they create fewer jobs. In fact, studies suggest that 50 to 70 percent or more of the burden of corporate tax hikes is borne by workers in the form

of lower wages and fewer job opportunities.

Corporations also move overseas. Before Republicans lowered the corporate tax rate to make American businesses more competitive in the global economy, a significant number of American companies were moving their headquarters overseas.

Small businesses hit with big tax hikes cut jobs or limit their creation of new ones. They raise prices. They decide not to expand.

Investors hit with major tax hikes decide not to invest as much. Since investment fuels jobs and innovation, both of those suffer as a result.

In every one of these cases, ordinary Americans are affected—not just the rich; not just millionaires; ordinary, middle-class Americans. After all, most Americans, if they are not self-employed or working for government, are employed by businesses. If the business they work for isn't doing well, their prospects are going to be significantly affected. If businesses hold down wages to deal with the impact of tax hikes, for example, ordinary Americans' long-term earning potential will be diminished. These effects may not sound as concrete as being handed a tax bill, but they have just as real of an impact on Americans' income and Americans' lives.

Democrats talk a lot about making the rich pay their fair share. We hear it constantly. From the way Democrats talk, you would think that rich people rarely pay any taxes. That is not even close to being the case.

The fact is that our tax system is highly—highly—progressive, the most progressive in the world, and the tax relief Republicans passed 3 years ago actually made it even more progressive.

In 2013, individuals making over \$1 million paid twice as much per dollar in taxes—I should say in 2018, individuals making over \$1 million paid twice as much per dollar in taxes as individuals making between \$75,000 and \$100,000 or more than 10 times—10 times as much per dollar as individuals making between \$20,000 and \$30,000.

It would be interesting to know what exactly Democrats consider to be a fair share. When financially successful Americans are paying half of their income in taxes, is that when it is fair? Seventy-five percent of their income? Ninety-five percent of their income? And when they are paying that much, what happens then? Well, I have already indicated what happens. Investment declines, wages stagnate, prices go up, job creation goes down, and ordinary Americans start feeling the consequences. But, unfortunately, Democrats are so used to viewing the wealthy as an inexhaustible source of money that they refuse to admit that hiking taxes on wealthier Americans will have consequences.

It even goes further than that. It is not just that Democrats view wealthier Americans as an inexhaustible source

of money; it is that Democrats are well on their way to a kind of Marxist-style class warfare that demonizes success.

Nowhere is that more evident than in the fact that Democrats are proposing a capital gains tax hike on the wealthy that will fail to maximize government revenue. That is right. Democrats could actually get more revenue to pay for their social programs if they raised the capital gains tax less. Democrats are proposing a capital gains increase so substantial that it will actually return less government revenue—thanks to the resulting decrease in investment—than a lower rate hike would return.

At the level of tax hike Democrats have proposed, the tax hike becomes less about raising government revenue and more about punishing more prosperous Americans for being successful, which is a pretty un-American way of looking at things. Democrats like to portray the wealthy as a bunch of billionaires sitting on inherited piles of money and not doing a day's work. But the truth is that a lot of prosperous people in this country are, A, not billionaires, and B, only wealthy because they worked hard, saved, and made prudent financial decisions and took advantage of the opportunities they were given.

Focusing on punishing successful Americans for being successful instead of focusing on how we can create opportunity and remove obstacles to success for everyone else is counterproductive because it has a negative effect on our economy. It fosters an atmosphere of envy instead of possibility, hostility instead of determination. Rather than focusing on how we can lift everybody up, the focus becomes on how we can drag part of society down.

Rather than counterproductively hiking taxes to punish the successful or pay for an ever-increasing array of government programs, we should be focusing on creating an economy that gives every single American the chance for success and that reduces the need for government programs by increasing economic opportunity for all Americans. Unfortunately for the American people, Democrats' tax hikes will have the opposite effect.

I yield the floor.

The ACTING PRESIDENT pro tempore. The majority whip.

JANUARY 6 COMMISSION

Mr. DURBIN. Mr. President, it has been my good fortune to serve in the U.S. Senate for several terms and in the House before. I can remember this Chamber from my first visit when I sat in that Gallery as a college student and watched the proceedings of the U.S. Senate, and I can remember so many historic days that I have been blessed to have a front-row seat to observe great memories. But in addition to those great memories, there is one sad memory—no, it was more than sadness; one memory that brings sadness and anger—and it is related to January 6 of this year.

I remember that day so well. The Vice President of the United States, Michael Pence, was presiding over the U.S. Senate. We were counting the electoral votes to determine the official outcome of the previous election. The President of the United States, Donald Trump, was holding a rally near the White House, not far from Capitol Hill. The demonstrators who came to his rally then marched on this Capitol, and what transpired after that was historic and shameful.

I remember the moment when the Vice President of the United States was spirited off that platform, yanked by his arms out that door. Clearly his security detail felt that his life was in danger, and they removed him.

I remember a member of the Capitol Police coming, standing on the podium in front of the Senate, and saying that we should remain in our seats, that this was going to be a safe place, this room, the Senate Chamber. Then they started bringing in the staff, who were gathered around the Chamber, to stand along the walls because of the safety of this circumstance. So we knew there was something happening in the Capitol.

Minutes later, just minutes later, that same Capitol policeman announced: "Evacuate this room as fast as you can. As quickly as you can, move off this scene and go to another place."

I never thought that I would see that in the U.S. Capitol Building, nor in the Chamber of the U.S. Senate, but it was a reality.

As we quickly moved out through the exits, all the Senators and staff, I remember looking out the window and seeing hundreds of people descending on the Capitol. That was the snapshot in my mind as we quickly escaped the danger in the U.S. Capitol Building.

We know at the end of the day that at least five people lost their lives. We know that 140 law enforcement were assaulted by this mob who tried to take control of the Capitol during the electoral college count. Of course, there is ample historic evidence of what happened—videotapes galore, videotapes from every angle, information gathered.

That is why I was skeptical when they suggested creating a Commission to chronicle what happened on January 6. We saw it. We lived it. America watched it, many times on live television. The videotapes have been played over and over and over again to dramatize what was happening as people were spraying so-called bear spray in the faces of law enforcement, beating them with poles, crashing through the windows of the Capitol and breaking down the doors to come inside.

We know what happened after we evacuated this Chamber. The mob took over. Oh, they had their glory as they were taking pictures of one another going through our desks here, acting like this was a holiday and that they were somehow patriots in that shameful moment.

I questioned whether we needed a Commission to establish this. It is there. But then last week, there was a vivid reminder that, despite reality and despite the evidence, there are people who want to rewrite history. Let me note one in particular.

Congressman ANDREW CLYDE, Republican of Georgia, at a House Oversight Committee hearing on the January 6 riot, said that the House floor was not breached, that supporters of former President Donald Trump who stormed the Capitol behaved "in an orderly fashion." Congressman CLYDE went on to say that if you looked at the videotapes, you could see that "there was an undisciplined mob. There were some rioters, and some who committed acts of vandalism."

Then he went on to say:

Watching the TV footage of those who entered the Capitol, and walk through Statuary Hall showed people in an orderly fashion staying between the stanchions and ropes taking videos and pictures, you know.

That is what the Congressman said. He said:

If you didn't know that TV footage was a video from January the sixth, you would actually think it was a normal tourist visit.

End of quote from Congressman CLYDE.

This is a quote from Congressman PAUL GOSAR, Republican from Arizona. The law enforcement officials in the Capitol were "harassing peaceful patriots."

So far, more than 440 people have been charged by our government with participating in this attack, 440 of Congressman CLYDE's orderly tourists. Many have ties to rightwing extremist groups, the FBI said. They recounted that five people died in the events that led up to the attack. It is outrageous.

We know President Trump and his followers have been pursuing the Big Lie when it comes to the results of the election. The President has finally embarrassed even some Republican followers with his extreme statements in that regard. But now his loyalists are turning on the facts and the videotapes and the reality of January 6.

This has to come to an end. The truth has to prevail. This Commission, which I understand Senator MCCONNELL has now said he opposes, is absolutely necessary—a bipartisan Commission to establish once and for all what did occur, as if we have to, but we do. Otherwise, Congressman CLYDE, Congressman GOSAR, and others will set out to rewrite history and blame other forces for being at work that day.

I join Senator SCHUMER in calling for the creation of this Commission and demanding a vote on the floor of the U.S. Senate for its creation so that we can establish once and for all what did occur on January 6 and must never happen again.

ENDLESS FRONTIER ACT

Mr. President, years ago, I traveled to Israel with then-minority leader Senator Harry Reid. We met with Shimon Peres, and something happened that I have never forgotten.

Senator Reid asked: "What do you see as the greatest threat in the world to the United States?" That was just a couple of years after 9/11 when that question was posed. I thought Peres might cite terrorism or loose nukes. Instead, he said without hesitation: "China. Don't you see that?"

Economically, strategically, diplomatically, China was already focused like a laser on advancing its position as the world's most powerful nation, and that was 16 years ago.

Five days ago, China launched a spacecraft safely and landed it on Mars, becoming only the second nation in history, after the United States, to land on the Red Planet.

In 1957, at the height of the Cold War, the Soviet Union became the first nation to launch an Earth-orbiting satellite into space. That launch shocked the world and caught us off guard. Our response was an unprecedented commitment to reclaim America's dominance in the world as a leader in scientific and technological discovery and innovation. The effort became known as America's Sputnik moment. Twelve years later, America put a man on the Moon.

You might say that now, instead of a Sputnik moment, America is going through a Zhurong moment. That is the name of the Chinese Mars rover, Zhurong.

Let me be clear. While China is our fastest growing competitor, the United States has lost some ground globally as many nations recognize the importance of R&D investments to their industrial innovation and competitiveness. In 1960, just 3 years after Sputnik launched, the United States accounted for approximately 69 percent of the world's R&D funding. By 2018, 58 years later, this percentage had dropped from 69 percent to 28 percent. Others were joining in the pursuit of technology and innovation at a record clip.

The question is, Can we come together, as Americans did in the last century, to make investments in science, technology, and competitiveness to guarantee that America's economy remains the world's largest and most innovative?

Some Members of Congress and the Senate—and we have heard their speeches on the floor—say: Go slow. No hurry. Well, I think they are committed to a solid second-place finish for the United States of America, and I don't want to be a part of it.

The Endless Frontier Act, which we are going to consider, gives us a reason for hope. It is broad-based. It is bipartisan. It shows leadership by Majority Leader CHUCK SCHUMER; Senator TODD YOUNG, Republican of Indiana; along with Commerce Committee Chair MARIA CANTWELL of Washington and Ranking Member ROGER WICKER of Mississippi.

Like America's response to Sputnik, the new era of scientific and technological discovery will be driven by seed money from the Federal Government,

but this effort is not limited to government spending. America is home to the world's best research colleges and universities and laboratories, like the Argonne National Lab in my State of Illinois. They are part of this effort too. We will harness the combined efforts of America's best scientific and technological minds in the public sector and the private sector.

The Endless Frontier Act and broader competitiveness package represent the largest investment in U.S. science and technology since the Apollo era. It will authorize more than \$100 billion over 5 years to support breakthrough scientific discovery and technological innovation in 10 key areas vital to building an innovation economy for the 21st century and creating good jobs in the process. These key areas include fields such as advanced energy, semiconductors, artificial intelligence, biotechnology and genomics, quantum computing, robotics, materials science, disaster prevention, and, of course, cyber security.

If you need a reminder of why it is urgent that we improve U.S. cyber security, look at how the ransomware attack last week by Russian cyber criminals on a major American oil pipeline caused long gas lines and panic buying throughout the eastern half of our country.

Investing strategically in these 10 key innovation areas will enable the United States to protect America's position as a leader in the global economy and protect our national security. It will reinvigorate and expand our industrial and manufacturing base, and it will create a stronger middle class in our country.

The Endless Frontier Act will also strengthen the security of essential supply chains and our ability to solve disruptions caused by crises. Remember those fearless doctors and nurses working in COVID-19 wards last year, when they had to dress in garbage bags because of a nationwide shortage of PPE? A nation as wealthy and powerful as ours should never be caught so dangerously unprepared. This bill will make sure that we aren't.

Here is another cautionary tale about supply-line disruption. In Belvidere, IL, which is in the northern part of our State, workers at the Stellantis plant are proud of their work assembling Jeep Cherokees.

In late March, that plant was forced to shut down because of a global shortage of microchips. The plant is scheduled to reopen as soon as the end of this month. But late last week, the company announced that the plant will be forced to shut down one of its two production lines in late July, again because of microchip shortages. As many as 1,600 employees could be laid off.

You can't build a prosperous economy and stable middle class if you can't secure your supply lines. We know that American workers can build cars and trucks for the future because they are already doing it, and they are

going to be launching it in many places around our Nation. Just this week, President Biden visited an electric vehicle assembly plant in Michigan. And they are doing it today as well in Normal, IL, where a company called Rivian—remember the name: R-I-V-I-A-N, Rivian—repurposed and expanded a former Mitsubishi assembly plant to produce the company's first assembly plant for electric cars and trucks. Is this going to work? Will it actually have a demand for electric vehicles?

Remember this one too. Amazon has already ordered 100,000 delivery vans from this plant. By the end of the year, Rivian expects to employ 2,500 people at the Normal assembly plant, 2,500 workers in good-paying, middle-class jobs in America. The Endless Frontier Act and President Biden's American Jobs Plan provides the leadership and resources to make sure that America remains the world leader in the 21st century.

On another critical issue, let me say that we need to get serious when it comes to combating intellectual property theft and counterfeiting. The previous administration's policies were haphazard. We can do better. The Endless Frontier Act will impose tough sanctions on entities that violate U.S. intellectual property and trade protections.

I am working with Senator CASSIDY, a Republican from Louisiana, and others on a bipartisan bill that provides additional safeguards to combat the sale of counterfeit goods, especially on the internet.

As I said, the Endless Frontier Act and competitiveness package will invest more than \$100 billion over 5 years to support breakthrough technologies. Now, \$100 billion is a big investment, but it is dramatically less than what China is now spending in the same areas. And it is far less when adjusted for inflation than what we spent on the race for space.

If we contributed the same share of our GDP to science and technology today as we did in the early 1960s—1 percent of our overall economy—we would have to spend \$900 billion, not \$100 billion, in this effort.

My support for the Endless Frontier Act builds on my commitment to securing steady, predictable funding increases for so many research Agencies of the Federal Government but especially for NIH. They provided the lifesaving vaccines that allow us to take off our masks and resume our lives.

Monday, I went out to NIH with several of my colleagues. Senator BLUNT led a group from the Appropriations Committee. We met with NIH Director Francis Collins, Dr. Anthony Fauci, and scientists who are working on breakthrough discoveries.

It was 6 years ago that Senator ROY BLUNT, Republican from Missouri, and I made an informal pact. We worked together to increase the NIH budget by 5 percent a year over and above inflation. With the help of Senator PATTY

MURRAY and LAMAR ALEXANDER, we increased the NIH budget more than 40 percent.

Because of those modest investments and the genius of NIH-funded researchers, we have a real chance of developing better treatments and cures for terrible diseases, including cancers, sickle cell, and Alzheimer's.

The race for the future isn't an either-or deal—either we invest in science or breakthrough technologies. We have to invest in both. I will continue to work with Senators from both parties to preserve steady, predictable funding increases for research.

No one bill will safeguard our national security or resolve all of our outstanding issues with China. We still have a lot of work to do, both in Congress and diplomatically. We still have to strengthen our immigration system so that America continues to welcome immigrants who want to put their genius to work for the good of America, as Nikola Tesla and Albert Einstein did in the last century, as did Katalin Kariko, the Hungarian-born Nobel laureate whose NIH-funded research paved the way for today's COVID vaccines.

Strengthening America's role as a global leader in science and technology is an essential piece of our effort to preserving our leadership in the world. For that reason, I support the Endless Frontier Act, and I urge my colleagues to do the same.

The ACTING PRESIDENT pro tempore. The Senator from Wyoming.

ISRAEL

Mr. BARRASSO. Mr. President, on the way over to the floor, I received a CNN news alert, and the headline is: "Biden dramatically scales up the pressure on Netanyahu."

So I come to the floor to tell you and to tell the Nation that I stand with Israel. Like millions of Americans, I have been disturbed to see the Biden administration make a false equivalence between Israel and the terrorist group Hamas. There is no equivalence here.

Hamas is a terrorist group funded by Iran. These terrorists have fired over 3,000 missiles into population centers in Israel. Israel has every right to defend itself. If Hamas stopped fighting, there would be peace. If Israel stopped fighting, there would be no peace. Hamas would continue to attack Israel.

President Biden's readout of his call this morning with Prime Minister Netanyahu stated:

The president conveyed to the prime minister that he expected a significant de-escalation today on the path to a ceasefire.

President Biden doesn't get to tell Israel what to do. We all want peace. We all want a cease-fire. A cease-fire happens when Hamas stops its terrorist campaign. Until then, Israel has every right to the proportional response it is making right now. Israel has every right to take out the terrorist leaders that are directing the attacks on its citizens.

#### ECONOMIC RECOVERY

Mr. President, I would like to move now to a separate topic, and the one for which I originally came to the floor, and I came to the floor to talk about our economy.

In April, the unemployment rate went up. Surprisingly, it went up. It was supposed to go down. It went up, and so are prices all around the country. The experts in the White House actually thought that we were going to add 1 million new workers in America last month. In reality, only about 266,000 Americans went back to work. So the so-called experts at the White House were wrong, and they were wrong by three-quarters of a million workers.

Now, 40,000 of those people who went back to work went to government jobs, which means the cost of government continues to grow. The private sector was able to only hire 220,000 people rather than 1 million. It was the most disappointing jobs report in over 20 years.

There has also been a slowdown in the middle of a recovery, which is surprising to many. You know, before Joe Biden took office, we saw a fantastic economic recovery, and it was the fastest one in American history. We were bouncing back from the coronavirus shutdown. It is a very different story now. It is no coincidence that this is a direct result of President Biden's policies.

And the policies—the Democrats all voted for this, and the Republicans all voted against it. The Democrats and President Biden, party-line vote, voted to extend a bonus payment for workers to stay home, paying people more to stay at home than they could make at work, in many cases. People aren't lazy. They are logical, and it is a perfectly logical thing to do; that they took up the President on his offer to stay home when they were paid more to stay home than they could make at work.

So, as a result, job openings right now are at an alltime high. Businesses can't find workers. Everywhere I go in Wyoming, I see "Help Wanted" signs. The president of Delta Airlines reported they canceled 100 flights last month because they couldn't find enough people to work. They had people ready to fly. They didn't have people who were ready to work.

People want to work. People want to hire others. The incentives coming from government are absolutely wrong. Joe Biden and Big Government are getting in the way of people returning to work.

There is another big problem I heard about. I heard about it this past weekend in Wyoming. The business owners I heard can't find workers because of incentives coming out of this administration—"Help Wanted" signs up—and from other people asking me: Why are prices going up? Why is inflation back?

You know, under the Obama-Biden administration, we saw the same thing.

It is called the middle-class squeeze, where prices are going up faster than wages are going up. April was the worst month for inflation since the great recession 13 years ago.

In effect, inflation means that the money in your wallet buys less. So, in a sense, you have a pay cut. Inflation is a regressive tax. It means the poorer you are, the more it hurts and the fewer things you can buy for the money you have. The big donors in the Democratic league, they are going to be just fine. They won't even notice rising prices. They don't notice when gas prices go up. The Silicon Valley hotshots and the masters of the universe in Manhattan, they are going to be just fine.

It is families—working families in Wyoming and New Mexico and across the country who are struggling to get by. They are the ones who are going to get hurt the most. Just look at the cost of a trip to the grocery store. First, you have to go to the grocery store, and to you get there, you have to drive. Well, the price of gasoline is going up. Across the Nation now, the price of a gallon of gasoline is over \$3 a gallon. A year ago, it was about \$2 a gallon.

Since Joe Biden took office, it has gone up nearly 70 cents a gallon. That hits people when they fill up because they have to drive getting back to work. In Wyoming and New Mexico, people drive long distances, and we use more gas than most. So people in our States are paying more than many other places.

And I don't think it is a coincidence that the price of gas has gone up. Joe Biden's first action in office was to draw a target on the back of American energy and pull the trigger. He shut down the Keystone XL Pipeline. He banned new oil and gas leases on Federal lands. He has restricted the production of American energy. We need energy. We need it now.

Gas prices affect the price of everything else. It costs more and more to transport things across the country, and that is why we are seeing prices go up at the grocery store. Working families are getting squeezed. And this is a direct result of the policies of the Biden administration.

One reason this is happening is because President Biden is flooding the country with so-called easy money. We are finding out it is not too easy. In the month of March, President Biden signed into law a \$2 trillion slush fund for basically liberal spending. It was described as a coronavirus relief package but, in fact, when you take a look at it, less than 9 percent of the money, a very small percentage of the money, actually went for medical care.

He crammed it through Congress—party-line vote, absolutely no Republican support—put the bill on the Nation's credit card, and the Federal Reserve started to print more money. Now, money doesn't grow on trees, doesn't come from a printer, and you

cannot print your way to prosperity. The money has to come from somewhere.

History shows that this is a strategy that eventually backfires. Nations try to print free money, and they end up poorer than ever. Get-rich schemes don't work, never have, and they aren't going to this time either. Inflation is going up every single month since the election.

Now, the White House experts tell us not to worry. These are the same experts that predicted there would be 1 million new jobs and people working last month and that the unemployment rate would drop. But much of the \$2 trillion that President Biden signed into law hasn't even gone out the door yet, and the President is asking for trillions and trillions more.

The House of Representatives, the other night, put out a proposal related to the infrastructure bill, one that I am trying to work with the administration on. They are requesting \$7.1 trillion, an astonishingly high amount of money. If the President gets his way and we keep spending like this at the request from the House, inflation is only beginning.

You don't have to take my word for it. Listen to the liberal economist Larry Summers. He was in the Clinton administration as well as the Obama administration. He was Clinton's Secretary of the Treasury and played an economic role in the Obama administration.

He warned against President Biden's spending spree. He called that \$2 trillion slush fund the least responsible spending bill he has seen in four decades—the least responsible spending bill in four decades. That is before all this additional spending may be coming.

Well, this is what he said after April's inflation numbers came out. He said:

I was . . . worried . . . about inflation . . . [yet] it's . . . moved much faster, much sooner than [even] I . . . predicted.

That is Larry Summers—Clinton administration and Obama administration—commenting on the Biden policies.

People who save money their whole lives for retirement are now watching their hard-earned savings go down with a stroke of Joe Biden's pen. Their buying ability is shrinking. People who did the right thing, who worked hard, and saved their money are now being punished by Biden policies.

Under President Biden, we are seeing more government, more taxes, more spending, and, as a result, the American people are suffering. They are seeing flat wages, higher prices, and disappointing job creation. We see gas lines. We see people hoarding gasoline. It sounds like it was in the 1970s. And President Biden should remember those times because he was still a Member of the Senate back then.

Mr. President, I ask unanimous consent to continue and finish my remarks with an additional 60 seconds.

The ACTING PRESIDENT pro tempore. Is there objection?

Without objection, it is so ordered.

Mr. BARRASSO. Thank you, Mr. President.

President Biden should remember that by 1980, the American people had had enough. We changed course. We thought it was enough of Jimmy Carter, and we elected Ronald Reagan President.

It is time to change course again. Let's create more American energy. Let's set down the taxpayer's credit card. Put it away. Cut up the credit card. Stop the reckless spending.

American families have been paying the price. The people in the middle are being squeezed. The American people expect and deserve better.

Thank you.

I yield the floor.

AMENDMENT NO. 1527

(Purpose: To improve the bill)

On page 304, line 18, strike "3" and insert "4".

Ms. CANTWELL. Mr. President, we come to the floor today after a lot of hard work by the Commerce Committee to pass out the Endless Frontier bill last week—24 to 4. I know my colleagues from the committee will be out here to speak on this important legislation, as will the majority leader, Senator SCHUMER, who authored this important legislation, and our colleague from Indiana, Senator YOUNG. We thank them for kick-starting what is a very important national discussion about how much we should be investing in research and development or what I would say is American ingenuity or, to put it a little more simply, I just say American know-how, because we are a nation of people who know how to innovate, who know how to use science to transform our economy, and we have done it over and over and over again.

I don't know. Maybe it came with, in getting in a boat and coming all the

way across the ocean, you had to be an adventurer to begin with. If you had to settle the frontier, you had to be innovative in your own right. If you had to continue to expand our country, you had to have a great ability to take risks in order to calculate and move forward.

Yet, somehow, in the United States of America, we are blessed with ingenuity in our DNA. We as a nation are a nation that has figured out that if we continue to partner together with those great, creative minds, that the investment by both the public sector and the private sector and through our universities and now our community colleges and now research centers—that we can grow our economy, compete on an international level, and protect opportunity for future Americans.

So it has been many eras of innovation. When I think about it, I think about Thomas Edison and the light bulb, I obviously think about Henry Ford and automobiles, and in my part of the world, we think about Bill Boeing and aviation. Innovation is so much part of our DNA that I don't think we sometimes absorb the littler things that we might not know about.

People probably don't know about Nathan Stone Stubblefield, a Kentucky inventor who in 1902 demonstrated the first wireless transmission of communication using magnets. I know we have a big wireless industry today, but people probably don't know that, in 1902, a Kentucky inventor basically helped to turn the page on a new generation of technology. People probably don't know that a Louisiana professor, J. Lawrence Smith, in 1850, invented the microscope. Think about how much that led to the important discussions of science and healthcare for us as a nation. People probably don't know that, in Indiana, a State police officer invented the breathalyzer test, a gentleman named Robert Borkenstein, who basically just said, "We don't know what is happening here," and he introduced and created the breathalyzer test.

That is what America is. America is the spirit of know-how and getting things done.

In fact, a report read:

Americans prioritize being a world leader in scientific achievements more than other global [communities].

That is from the Pew Research Center report by Cary Funk and several other authors last September.

The report goes on to read:

[S]even in ten Americans believe it is very important for the United States to be a leader in scientific achievements.

Clearly, what makes us different than other nations is that we are willing to put significant American tax dollars on the table to ensure that the national investment, the research in science, and the development of our ecosystem take place. That investment is matched with a good education system, capital formation, and, as I said, private sector investments in research

and development. All of that has continued to make us the world leader in science and technology innovation. It also helps us create job growth here at home.

The question before us today is, How much research and development should our government be doing given how important the practical sciences and engineering are to the next generation of Americans?

We are here to discuss this proposal by Senators SCHUMER and YOUNG, who, as I said, have been working on this concept for years because, no doubt, we have fallen off the pace—that is to say, the pace of scientific research investment at least as a percentage of the GDP.

Even though President Bush, in his second term, tried to signal the importance of this investment, he issued a report basically calling the American Competitiveness Initiative the leading world innovation agenda. That was in February of 2006.

In fact, at that time, President Bush said:

[T]he role of government is not to create wealth; the role of our government is to create an environment in which the entrepreneur can flourish, in which minds can expand, in which technologies can reach new frontiers.

George Bush had it right. He knew that this competitiveness issue was starting to challenge us from a competitive perspective, and he knew that we needed to make a bigger investment.

Unfortunately, with the two attempts that we had—the America COMPETES Act in 2007 and the America COMPETES Act in 2010—it really was a goal by us to basically double the NSF budget within a 7-year window. While we started out in the right direction, we had a huge economic downturn, and these goals were not met. If we had kept our promises to these science agencies, we would have invested \$80 billion more in innovation investments over the last 14 years than we have done today.

The challenge that we face now is that, after decades of not living up to what had been outlined for America COMPETES, we now know that it is an environment in which we are facing much more aggressive competition. We have to think about the lack of investment that we did not realize in the context of how long it takes to do technology breakthroughs.

Look at just one example, the internet as we know it today. Literally, in the 1960s, the ARPANET was first talked about. It took us to the 1990s to really, with the University of Illinois and Marc Andreessen, to affect what we would later know as hypertext links and a browser. Today, what it means to us is more than \$2 trillion annually to our economy.

When you think about the investments we are asking our colleagues to make today, we have to consider that, in fact, Federal dollars for R&D is near

its lowest point in 60 years as a percentage of the GDP. I can't say that we are going to discover the next internet, but I can say that, if we continue to underinvest in this, we will be short-changing generations of innovation.

There is no doubt that key investments in research and development in other parts of the world are certainly getting attention. Since 2000, research and development in China has grown by 1,600 percent; in Taiwan and Korea by 400 percent; while, in the United States, just by 150 percent. That is in a 20-year window of looking at this issue.

Americans believe that competition is good, and we believe that competition helps to drive innovation. So you won't find me as one on the floor who is obsessed about other nations as much as giving a perspective here about what the world market opportunity represents. If we are not making the investments here in science and technology and innovation, not only are we missing opportunities in our own country, we are missing opportunities around the globe. The rest of the Nation, in an information age, is not going to sit by idly, so we have to think about how we move ahead on critical technology that helps us in all sectors of our economy—how it helps us with supply chains and, certainly, how it helps us with national security.

What we are talking about here, with this bill proposed by our colleague Leader SCHUMER and Senator YOUNG, is more than a doubling of NSF's budget in 5 years; it is the start of trying to catch up. It is also a \$17 billion investment in energy innovation—a key sector of our economy in which we need to make continued transformation. That represents a 28-percent increase in some of the projects from the Office of Science and things like ARPA-E that could see investment.

What we are also investing in, which our colleagues were very adamant about and very convincing, is a new tech directorate—that is to say that our research is very good with basic and very good with applied but that we actually have to get better with the user implementation of our science and spur more innovation in a more rapid fashion. So we are investing, between this new tech directorate and tech hubs, nearly \$39 billion to help stimulate the faster translation of our advancements into real innovation. This is something the committee thought long and hard about, and we took testimony from experts who have worked on innovation issues for many years.

In this bill, we also increase the protection of intellectual property from our universities.

We are helping our universities do better tech transfer but also protect their intellectual property. In an information age, when so much is published online, if other nations, hungry for development, can read our research and act an effect on it because we haven't patented it, then we need to do a better job of patenting our innovations and helping our universities.

Our universities are unbelievable research institutions, and helping them spend more time on tech transfer is something that we have done in the Pacific Northwest. A new program ushered in there literally led to 20 startups from research that had been done but just hadn't been translated into new areas.

We also are trying to help get more regional diversity to our research and investment dollars. There are about 25 States in our Nation that previously qualified for a program that says they should get a share of research dollars. This legislation says all the money being spent here, 20 percent of it should go to that, what is called EPSCoR efforts, which is expanding research and development into those States.

And for the first time, we will have over at NSF an office of diversity—an office to focus on the lack of women and minorities in science and to make real progress on this issue.

People see the chart behind me, and, yes, it is no mistake, the picture we picked.

The point here is that we know from NSF's own research that we can't be passive about this. Literally, the University of Washington got an NSF grant that helped them study why we are not making more progress with women and minorities in science and innovation, and they came back with: It can't be passive. You can't just put dollars on the table for STEM. You can't just put a few programs in place. It has to be an active approach to changing many aspects to the way we educate in science.

I am very proud of the University of Washington on this point because they made changes, and now of those who are teaching in what are considered STEM sciences at the University of Washington, 70 percent of them are women or people of color. So we have changed what the face of teaching science looks like at the University of Washington, and now we have to change some of the criteria and curriculum so that we can continue to attract more people. This bill is a very good step in that direction.

So what are we trying to achieve? We are trying to achieve what NSF Director Panchanathan is saying. He is saying that we need, in this next decade and in decades to come, innovation everywhere, tied to opportunity everywhere, tied to our universities. That is what we are trying to do in advancing this legislation.

We processed over 100 amendments in committee and a broad range of input from our colleagues. We will, I am sure, here in regular order process many more, but, hopefully, these amendments and more of the substance of this underlying bill we will go into in detail. We have to remember what our goals are with this investment—to stay competitive, to create future jobs, to help our economy by unleashing innovation, to protect our national security, and do what Americans know how

to do best—that is, use that ingenuity to help create a better future.

I will see if my colleagues want to speak, but we will be coming back to expand on many other layers of this legislation. We will be back to talk about semiconductors. We will be back to talk about the new tech directorate. We will be back to talk about NASA funding. We will be back.

And that reminds me. If anybody at home is saying, “Well, you know, OK, that was interesting; I don't really know about this; what is American innovation?” just go and Google two things. You can either look at SpaceX rocket return, which they did in 2015, or Blue Origin. In both of those—the New Shepherd and the Falcon, two different approaches—there are literally engineers who said: If we are going to go to space, if we are going to go to the Moon, if we are going back to the Moon and go to Mars, we need to figure out how to have returnable rockets.

Just go Google those two clips, and you will see alive and well the spirit of American ingenuity when those engineers see that rocket returning from outer space and reland because they have pulled off an incredible achievement. You will see jubilant joy and excitement over that accomplishment.

I guarantee you, we will not see everything that this bill will unleash, but I guarantee you it will unleash things that will deliver that kind of excitement for Americans in the future, and we will have to be very thankful that this Congress set the record straight on the level of investment we need to achieve to keep us competitive.

Mr. WICKER. Mr. President, the 21st century will be shaped by the outcome of the strategic competition between the United States and China. Like our Nation's previous contest with the Soviet Union, the outcome of this great contest will help determine the world that our children and our grandchildren live in.

There are only two real possibilities: Either the United States will remain the preeminent global superpower or we will be replaced by China. This truth is recognized on both sides of the aisle in this body. The contest between our two countries will involve every aspect of national life—including military might, diplomatic skill, economic strength, and the deepest values that shape our societies.

The scope and complexity of this challenge calls for bold action, and that is what the Endless Frontier Act is about. This week the Senate has an opportunity to come together on a bipartisan basis and move forward on legislation, now known as the United States Innovation and Competition Act. This will make our Nation more economically competitive, improve protections for U.S. intellectual property and research, and keep us a step ahead of China in this area of high-stakes competition.

This bill does so by increasing research at the National Science Founda-

tion and dramatically increasing R&D at a new National Science Foundation directorate. Other Agencies in the Federal Government will also see dramatic increases in the important research that they perform.

The Endless Frontier Act, as reported by the Commerce Committee, is a major part of this comprehensive legislative effort. Other committees have also been important partners in this legislation. In particular, I congratulate Chairman MENENDEZ and Ranking Member RISCH of the Foreign Relations Committee for producing the Strategic Competition Act, which was reported out of their committee on a 21-to-1 vote.

I also commend Homeland Security and Governmental Affairs Chairman PETERS and Ranking Member PORTMAN; Banking Committee Chairman BROWN and Ranking Member TOOMEY; Health, Education, Labor, and Pensions Committee Chair MURRAY and Ranking Member BURR; and Judiciary Chair DURBIN and Ranking Member GRASSLEY for their important contributions to the substitute product.

I will focus my remarks on the Commerce Committee's contributions to the Endless Frontier Act. Last week, the Commerce Committee held a markup to consider this legislation. We considered hundreds of amendments and adopted over 100 of them into the reported bill, including over 20 bipartisan, separately introduced bills. The markup at times was challenging, but in the end the bill passed the committee on a bipartisan 24-to-4 vote.

The Endless Frontier Act will enhance U.S. science and technology leadership through key investments in R&D, regional economic development, and manufacturing.

The bill will accomplish these goals in the following ways: First, it will preserve the core basic research mission of the National Science Foundation. The NSF is the world's gold standard for funding basic research, a sector that fuels new waves of innovation across our society. Basic research answers the fundamental questions of scientific inquiry needed to develop major innovations. The internet, GPS, cell phones, and many other breakthrough technologies have their origins in National Science Foundation-funded research. The Endless Frontier Act will authorize funding increases in NSF's core science portfolio to support the most promising research proposals. That is the first thing.

Secondly, this bill will establish a new Directorate of Technology and Innovation at the NSF to drive faster innovation in key technology focus areas, such as artificial intelligence, or AI, and robotics. We included strong coordination measures to ensure that programs at the new Technology Directorate do not duplicate R&D programs of other Federal Agencies, such as the Department of Energy. These provisions are designed to ensure the wise

expenditure of taxpayer dollars by preventing bureaucratic turf wars, which can slow down innovation.

Third, this legislation will protect intellectual property and research from foreign governments—most notably, China. The Endless Frontier Act will establish a research security office at the NSF and create a clearinghouse to share information about security risks. It also puts forward policies to protect controlled information, including a plan for background checks on researchers.

In addition, it will take critical steps to guard against Chinese intellectual property theft by prohibiting NSF funds from going to researchers who are part of a Chinese talent program or an institution with formal ties to a Confucius Institute. This is a new and important step.

Fourth, this bill will reduce the geographic concentration of R&D in a handful of States and universities. Put simply, this bill will be a game changer for the R&D geographic diversity that many of us have sought for years, if not decades. America can maintain our leadership over China only with a sustained effort that is national in scope. We should tap into the wide-ranging talents, expertise, and capabilities of Americans across this land, including Nevada and Mississippi.

The Endless Frontier Act will help address these long-standing disparities by increasing funding for the Established Program to Stimulate Competitive Research, which we have all come to know as EPSCoR. Participation in EPSCoR helps institutions in many States and Territories improve their research capacities and, therefore, compete more effectively for Federal R&D funding. The legislation also invests in minority serving institutions and builds up research capacity in emerging institutions, which have traditionally received a relatively small share of Federal research dollars.

No. 5, this bill will boost regional economic development through the Regional Technology Hub Program.

No. 6, it will support manufacturing programs, in part, by quadrupling the Manufacturing Extension Partnership Program, which already exists.

No. 7, it will help America win the “New Space Race” against China by including the NASA Authorization Act, which the Senate passed unanimously last year. The NASA bill allows Congress to set priorities and guardrails for the space Agency’s exploration and research programs.

No. 8, this bill will authorize a number of telecommunication programs to improve our telecom workforce and help get all Americans connected to high-speed and reliable broadband.

This bill also includes several bills that I have championed, including the Rural STEM Education Act, the Advanced Technological Manufacturing Act, the Improving Minority Participation and Careers in Telecommunications Act, and the Telecommuni-

cations Supply Chain Diversity Promotion Act—significant legislation and a mouthful, too.

Overall, this is a strong bill, but it can be made better. As I mentioned at the Commerce Committee’s markup last week, although the bill reported out of the committee makes important changes to the underlying bill, I regret the rushed process that was followed.

The underlying bill was introduced on April 20, just under a month ago. Only yesterday, Senate Majority Leader SCHUMER laid down a 1,400-page substitute that not only includes the Endless Frontier Act, but major legislation from the Foreign Relations, Homeland Security, Banking, HELLIP, and Judiciary Committees. Now known as the U.S. Innovation and Competition Act—USICA, I suppose—this legislation will make significant changes to our innovation ecosystem and the missions of our Federal Agencies.

A bill of this magnitude would normally take a year to write and involve soliciting input from Members and stakeholders across our country to craft a consensus package. Clearly, the Senate should consider this bill with an open amendment process.

Prematurely shutting down debate on amendments without this open process would send a false signal to China and the American people that we are divided in an area where, actually, we are united and together.

And then, when all is said and done, the effort will have to be paid for and will be subject to appropriations.

I hope the majority’s determination to rush this legislation through the Senate is not designed to use a partisan reconciliation bill to appropriate funding for these important initiatives. Science has always been debated in a bipartisan way in this body. Leaving one party on the sidelines in the appropriation process, which I hope will not happen, would have a detrimental consequences for the long-term stability of this legislation.

So on the whole, I am positive and optimistic about this bill and about the process that will get us to the end of both parties’ desire.

I thank my colleague, Senator CANTWELL, for her work as chair of the Commerce Committee to get this bill on the floor today, and I look forward to working with her to improve the bill in the next step in the process—an open amendment process

#### ALASKA TOURISM RECOVERY ACT

Ms. CANTWELL. Mr. President, I ask unanimous consent that upon receipt from the House, if the text is identical to the text of S. 593 that passed the Senate, the Senate proceed to the immediate consideration of H.R. 1318, the bill be considered read a third time and passed, and that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Ms. CANTWELL. Thank you, Mr. President.

I yield the floor.

#### ENDLESS FRONTIER ACT

The PRESIDING OFFICER. The Senator from Iowa.

#### WORKER SHORTAGE

Mr. GRASSLEY. Mr. President, I want to give short remarks on three different subjects. Probably, for people wanting to speak, it will take me about 10 or 12 minutes.

Thanks to Operation Warp Speed, effective vaccines are available on demand to anyone who wants to take the shot. That means individuals and businesses are beginning to return to a degree of normalcy we have all been waiting for.

However, as I have made my annual tour through Iowa’s 99 counties, I have heard from business after business that they are desperate for workers, but job applicants are scarce. Those that do apply often don’t show up for interviews.

Nationally, the economy added over 700,000 fewer jobs than were expected last month. This is very concerning, as a vibrant labor market is vital—vital—to a strong economy.

I get that some individuals, even after being vaccinated, may be leery of returning to the market after a year of staying home to be safe, but the vaccines have been shown to virtually eliminate the chance of serious illness. Hopefully, the recent CDC guidelines that reinforce this by easing mask guidelines will reassure individuals that it is safe to return to work.

However, Iowa employers repeatedly informed me that the biggest impediment to finding workers is the over-the-top unemployment benefits extended as part of President Biden’s so-called COVID relief bill.

I had 13 county meetings throughout Iowa during our last Senate recess, and in all but one of them, this came up as a very important issue.

The simple fact is this: Under that partisan COVID package, many individuals can earn more if they don’t work than if they do work. That is wrong in principle and has proven disastrous in practice, and, as a matter of fact, in American society, a job is very essential and center to the quality of life.

As my Republican colleagues and I have warned for months, incentives matter. If you can earn more not working than working, it makes perfect sense not to work. I don’t blame workers for taking that deal. I blame government policy that puts the individual workers in this predicament.

Even prominent liberal economists have acknowledged a problem with

continuing to provide increased unemployment benefits. For instance, President Obama's former chief economic adviser, Jason Furman, admitted that if he were in a low unemployment State, he would be—these are his quotes—“thinking seriously about whether paying people more to not work than to work was a good thing to continue doing.”

This is the case in Iowa, which has an unemployment rate of 3.7 percent. That is low even in normal times, but it should be even lower as Iowa has more job openings than unemployed people.

I stand firmly behind Governor Reynolds, who recently announced Iowa would end its participation in the counterproductive enhanced benefit program, and that ending will be effective June 12.

President Biden talks about the government creating jobs by spending trillions of borrowed dollars, all while spending more borrowed money to pay people not to work. Now, that fails the commonsense test.

In Iowa, the private sector is already creating more jobs than we can fill. The economy is poised to take off if the government just gets out of the way. Politicians should live by the same principle as doctors: “First, do no harm.”

We shouldn't continue pandemic-era policies longer than they are necessary. That will only slow our economic recovery. Just as the CDC updated its guidance based upon the new reality about masks and about the vaccine, it is time for Congress to conform its policies to the conditions on the ground.

#### PIPELINE INFRASTRUCTURE

Mr. President, on another subject, yesterday I participated on a call with Canadian counterparts that serve in Canada's Parliament.

Just for a little background on these meetings, until the pandemic or until people got so busy they couldn't travel back and forth between the two countries, over a period of more than a half a century, there have been meetings of Canadian Parliamentarians and Members of the American Congress on an annual basis.

One time, the U.S. Congressmen would go to some place in Canada; the next year, the Canadian Parliamentarians would come down here.

In the recent 5 to 10 years, this has been done more like yesterday by Zoom or by a few people from Canada coming down here more often than we went up there.

But over the period of my years in the U.S. Senate, I presume I have participated in at least 15 of those meetings where we travel back and forth, and I found them very helpful in talking about problems between the two countries. The problem is, it is almost laughable that we have very many problems between Canada and the United States. So we would end up talking about two or three issues, but they were problems that had to be worked out.

So we had this meeting yesterday by Zoom, as I just said. We discussed issues of concern that impact both legislative bodies in our respective countries.

Canada and the United States share the same values and are closely tied to each other culturally and economically. Canada is our closest ally. We need to effectively work with Canada and Canadians on issues that impact both countries.

On his first day in office, President Biden made a hasty decision to shut down the construction of the Keystone XL Pipeline—a decision that cost the United States and Canada over 10,000 jobs.

This decision by President Biden sent a clear signal to other democratic countries across the globe. That message is, it doesn't matter if it will cost your State jobs and raise gas prices or irritate an ally; you would be better to listen to ideologues in your party who say something like this: Pipelines that transport oil are bad.

But while the Keystone XL Pipeline is better known, the Canadians who were meeting yesterday were worried about the current pipeline in use that goes by the name of Enbridge Line 5. The pipeline, which has been in use since 1953, delivers the bulk of Canadian crude exports to the United States and also supplies fuel to Ontario and Quebec.

In June of 2019, the State of Michigan filed a lawsuit to compel the decommissioning of the segment of Line 5 that runs under Lake Michigan. The basis of the suit is that the pipeline is a public nuisance that could become a source of pollution if it leaks. This month, the Canadian Government filed a request to stop the State of Michigan from shutting down the pipeline.

Shutting down the pipeline would have an immediate effect on crude oil supplies for refineries and, as a result, increase the price of gas for Americans. We saw it over the past 7 or 8 days, how the Colonial Pipeline's shutdown has increased the price of gas—if you could buy gas. So we ought to be thinking about these problems.

For the sake of North American energy independence and for American jobs and to mend relations with our closest allies, I am asking the Governor of Michigan to reconsider this lawsuit. For that matter, President Biden ought to step in and the entire Democratic Party ought to reconsider their stance on the use of pipelines. Take a cue from the former Governor of Michigan, now Energy Secretary Granholm, who said pipelines are “the best way to move oil.”

#### INSPECTOR GENERAL'S ACT OF 1978

Mr. President, my last comment, which will be very short, deals with the subject of the Inspector General's Act of 1978.

When we passed that act, we required a President who wants to remove an IG to provide Congress specific reasons why that IG was removed. When Con-

gress revised the IG act 30 years later, we amended that notification requirement and made it even stronger. We require Presidents to tell us their reasons and do it in no less than 30 days in advance of the removal. Neither of these provisions did anything to prevent the President from performing his constitutional responsibility to hire and fire people within the executive branch of government.

Unfortunately, Presidents from both political parties—let me emphasize “from both political parties”—seem to have a hard time following this simple notice requirement.

When President Obama fired IG Walpin of the Corporation for National and Community Service early in his term, he sent a vaguely worded letter saying only that he had “lost confidence” in Mr. Walpin. When President Trump fired IGs Linick and Atkinson last year, he sent letters to Congress saying exactly the same thing.

As I explained to both Presidents when they sent those letters, merely telling Congress that you have “lost confidence” in an IG isn't enough explanation. The loss of confidence occurs only after something happens. When announcing their decision to remove an IG from office, Presidents need to tell us what that “something” is. They need to explain why they have lost confidence. Failing to do so misses the point of the notice requirement entirely. The notice requirement isn't about a President's confidence in the IG; it is about the public's confidence in the inspector general system across the board.

IGs are put in office to serve as government watchdogs. If IGs are carrying out their duties as intended, they are likely going to make more enemies than friends. They may uncover things that make the sitting President and his political appointees very uncomfortable. So what? No President is going to like every investigation that an IG undertakes or every report that an IG prepares. But IGs should not be fired just for doing their jobs or to prevent them from releasing findings that may be embarrassing to an administration, Republican or Democratic.

Requiring the President to explain in advance why he or she is removing an IG gives Congress time to evaluate those reasons. It helps assure Congress and the public that the termination isn't based on politics but on real problems with the IG's ability to carry out their job.

Of course, there has been no shortage of bad IGs who are deserving of removal. In fact, I probably had something to do with removing five or six of them in the years I have been in the U.S. Senate. Maybe some of those who ought to be removed are still in office.

Recently, I called on the President, President Biden, to remove the Federal Housing Finance Agency IG due to an independent report by the Council of the Inspectors General on Integrity

and Efficiency that verified long-standing claims to my office that she abused her authority.

Whistleblowers originally came to my office in 2015 with concerning reports that the IG was personally and publicly demeaning her employees. She referred to them with demeaning names such as “weasel.” The IG also allowed her deputy to threaten employees who blew the whistle to my office. That was over 5 years ago, and—can you believe it?—the abuse is still happening today.

Based on my investigations and the CIGIE’s findings, I firmly believe the IG needs to go, but I don’t get to make that decision. Only the President can make that decision. He gets to decide when to exercise his constitutional authority. He has a right to do so and will ultimately be accountable to the people for a decision that he makes. All he has to do, all that is required for him to do under this law, is to give Congress proper notice. That is how things should work. That is how things were designed to work, but unfortunately, that is not what has been happening.

It is clear to me that we have to be even clearer that when we say we want reasons, we actually mean it. When making the decision to remove an IG, Presidents must send substantive, specific reasons to Congress in advance explaining the actions they are taking and why they are taking those actions.

That is why I introduced S. 587, the Securing Inspector General Independence Act. In addition to making the notice requirement even more clear, my bill would limit who can be an IG in an acting capacity and require CIGIE to provide guidance for annual whistleblower training for all IG employees.

My cosponsors and I have an interest in keeping our IG system strong and neutral, and that is what this bill does. I encourage all of my colleagues to support it and ask that the Homeland Security Committee give it full consideration.

I yield the floor.

The PRESIDING OFFICER. The Senator from Michigan.

Ms. STABENOW. Mr. President, first, before my friend from Iowa leaves the floor, and he is my friend, I didn’t come to debate the Line 5 Pipeline that goes under the Great Lakes of Michigan, but I will say that this is an aging pipeline under a precious resource called the Great Lakes, 20 percent of the world’s freshwater. The Governor is really balancing right now what are issues that relate to safety and trying to make sure that we don’t have a spill in the Great Lakes that would just devastate not only our economy and way of life but the country’s as well.

S. 1260

Mr. President, I always say that the people in Michigan can outwork, outbuild, and outimagine anybody. Whether we are building the new Ford all-electric F-150 truck that President Biden rode yesterday when he was in Michigan or whether it is armored ve-

hicles that keep members of the military safe in war zones; whether it is solar panels and wind turbines and appliances and furniture or dollies strong enough to move helicopters, Michigan’s manufacturing workers are the best in the world, period. Their hard work makes our Nation stronger.

Unfortunately, there are times when our Nation hasn’t returned the favor. Each year, Federal Agencies spend billions of dollars in taxpayer money on products from the private sector, everything from vehicles, to office furniture, to electronics.

The Buy American Act, which was signed back in 1933, says the Federal Government should give preference to high-quality products here in America. Common sense, right? American taxpayer dollars should go to American manufacturers, American businesses, and American workers. Unfortunately, loopholes and waivers and outright noncompliance by Federal Agencies mean that, too many times, American taxpayer dollars instead go to foreign companies that compete against American manufacturers and American workers.

Back in 2018, I released a report that showed that between 2008 and 2016, exceptions and waivers to the Buy American Act allowed Federal Agencies to spend about \$92 billion on foreign-made products. That is \$92 billion in missed opportunities for American businesses and American workers.

That is why Senator BRAUN and I introduced the Make It in America Act, along with Senator PETERS, Senator PORTMAN, and Senator BALDWIN. I am grateful that Chairman PETERS and Ranking Member PORTMAN got this commonsense bill into the Homeland Security and Governmental Affairs Committee as part of the bill in front of us today, the Endless Frontier Act.

I also want to thank President Biden. His administration reached out to me and asked to be briefed on the report that we had done, and initial executive orders that they put in place were very much in line with our recommendations, and I know they are very supportive of this bill.

My legislation ensures that we are holding Federal Agencies accountable when enforcing Buy American Act activities. It adds new guardrails to the waivers. Right now, we have waivers, but there has been no transparency, no accountability, and over the years, no training really for how to administer it. Sometimes it is just easier to do a waiver than it is to do an extensive search about whether there are businesses in America that could do this work or provide a product.

It also calls on products purchased by Federal Agencies to incorporate more domestic content. The supply chain is so important. So much of our job creation is in the parts that go into the product. And it helps ensure that American companies aren’t undercut by cheap foreign products.

Of course, rules don’t matter if nobody enforces them, so, again, it is im-

portant that this legislation makes the Made in America Office a permanent part of the Office of Management and Budget. It will ensure that American workers and businesses receive preference regardless of who is in the Oval Office.

It is important to emphasize that the legislation doesn’t just benefit big businesses, and this is important. It calls for Agencies to use a wonderfully successful entity called the Manufacturing Extension Partnership so that small businesses and medium-sized manufacturers have more opportunities to sell their products to the Federal Government or provide materials for federally funded infrastructure projects. And, by the way, there is oftentimes a situation where a company could retool pretty quickly to provide a product if they knew that we were interested, if we were going to purchase, and we should give them the opportunity if there is an American company that can step up and be able to create that for us.

Everyone says we need to make more things in America, and here is an opportunity to put those words into action. I urge colleagues to pass the Endless Frontier Act, to get the Make It in America Act signed into law, and use our American tax dollars to purchase great American products that support great-paying American jobs.

I yield the floor.

The PRESIDING OFFICER. The Senator from New Jersey.

CHINA

Mr. MENENDEZ. Mr. President, I like calling the Presiding Officer “Mr. President.”

Let me appreciate the Presiding Officer’s support about what I am going to speak today to address one of the most significant foreign policy challenges of our time, which is the U.S.-China relationship; a challenge that the Senate, I believe, is ready to meet with bold, bipartisan action.

Just weeks ago, the Senate Foreign Relations Committee made history when we passed the Strategic Competition Act of 2021 by an overwhelming bipartisan vote of 21 to 1. This historic, bipartisan legislation is clear-eyed about the challenges we face, and it is designed to meet this consequential moment in U.S.-China relations.

Over the past few years, China has accelerated its rise to power and sharpened its efforts to undermine the liberal international order that brought the American people and our allies so much prosperity and stability in the 20th century.

We invited China to be engaged in the international order. We invited them into the World Trade Organization. We invited them into an international forum. We opened markets with them, all with the expectation that China, by being ultimately invited into the international order, would be part of the international order.

Unfortunately, instead of playing by the rules, China, under Xi Jinping, has

sought to undermine them. Today, China is challenging the United States across every dimension of power—political, diplomatic, economic, innovation, military, even cultural—and advancing an alternative and deeply disturbing model for global governance based on old-fashioned military antagonism, predatory economic practices, and digital authoritarianism.

The breathtaking scope, scale, and urgency of these challenges demands a policy and strategy that is genuinely competitive. Because of China's actions, the national security and economic future of the United States depends on framing our relationship with China today through the lens of strategic competition.

This is not about a zero-sum relationship or resurrecting a cold war mentality. This is about recognizing that in the 21st century, our strategic competition will revolve around the geo-economics of the future and America's ability to successfully compete in new and emerging technologies and other hotly contested domains. This is about securing a regional and international order for the 21st century built on progressive values, one that encourages healthy and fair economic competition, promotes global security and stability, and strengthens human rights around the world.

So how do we achieve this vision? Ranking Member RISCH and I incorporated input from almost every member of the committee to build the Strategic Competition Act. I believe the Presiding Officer had amendments as well, which mobilizes all of our strategic, economic, and diplomatic tools to clearly confront the challenges China possesses to our national and economic security.

So I am eager to see the Strategic Competition Act move on the floor, alongside the other pieces of this package, recognizing, as I have for years, that America's ability to compete with China begins at home, replenishing the sources of our national strength. That is why the investments in the Endless Frontier Act provisions and the other domestic measures drafted by various committees are equally important.

But even if we did all of those things alone, it would not meet our challenge with China because, first and foremost, China is a foreign policy challenge. That is why the Strategic Competition Act reaffirms our alliances and partnerships. It prioritizes building functional, problem-solving regional architecture in our Indo-Pacific strategy. Every witness we had before the committee, as we prepared for this legislation, said, You have to get your Indo-Pacific strategy right in order to be able to meet the challenge of China under Xi Jinping.

It promotes U.S. leadership within international organizations. It counters malign efforts by the People's Republic of China and the Chinese Communist Party to influence those institutions, and it grounds our foreign

policy in American values by authorizing a broad range of human rights and civil society measures to address abuses in Xinjiang with ethnic Uighurs and to demonstrate our commitment to the people of Hong Kong, Tibet, and China's civil society.

It counters China's predatory economic practices by addressing their rampant intellectual property theft and unfair state subsidies. It helps other countries work together to counter China's corrupt practices. China goes throughout the world holding itself out as being generous to nations in Africa and Latin America and elsewhere, but what it ends up being is a debt trap of diplomacy where these countries become hostage to China—not only economically, but then, in a transactional basis, China says, Well, you can't recognize Taiwan anymore; or China says, You have to vote with us at the U.N. Human Rights Commission and a whole host of other international forums.

And it bolsters U.S. economic statecraft, those economics tools we can deploy to advance our foreign policy goals like investing in supply chain security, infrastructure development, digital connectivity, and cyber security.

Now, I do want to take a couple of minutes today to directly address an emerging line of criticism I have heard that this bill is somehow seeking to ignite a new cold war with China. Nothing could be further from the truth. The reality is that for more than 40 years, the United States has sought to draw China into the international community as a responsible stakeholder. But any clear and accurate assessment of China's behavior and, particularly, its behavior in recent years under the hypernationalist leadership of Xi Jinping suggests that simply continuing down that path would only result in disaster for the United States, for China, and for the entire world.

Let's just review some of China's actions. China is committing genocide in Xinjiang against the Uighur people through forced labor. China has dismissed, out of hand, the ruling of the International Tribunal for the Law of the Sea with regards to its excessive maritime claims in the South China Sea, which it is militarily building up on and trying to intercede in the rightful passage of nations in the South China Sea.

China has walked away from the commitments it made to respect intellectual property rights. China has chosen to betray its legally binding obligations and its own commitments to the people of Hong Kong, crushing "one country, two systems" and the vibrant democracy, economic activity, and autonomy of the people of Hong Kong.

China refuses to respect the religious, cultural, and linguistic autonomy of the Tibetan people and is seeking to subvert the religious succession of His Holiness, the Dalai Lama. China is using its Belt and Road Initiative to

exploit lesser developed economies to its own advantage. China threatens the efforts of the international community to deal with climate change by building more coal-fired power plants at a rate that outpaces the rest of the world.

So we must empower Americans, our partners, and our allies to protect against these egregious efforts to undermine human rights, security, and our environment. We simply cannot turn a blind eye to China's actions or wish it into becoming a better international actor.

Now, I realize that in discussing the Strategic Competition Act, I laid out a laundry list of big, structural policy issues with China that we will need to confront as a nation, but it is essential that the United States meets this moment if we hope to build a more perfect world, one that reflects our cherished commitment to free societies, free markets, freedom of expression, freedom of movement, and the dignity of all humankind. At the end of the day, that is what this Strategic Competition Act is all about.

So I look forward to a robust debate and discussion with my colleagues over the next week or two about how to restructure and rework U.S. policy towards China so that we can be, after far too long, genuinely competitive. Together, we have to ensure the United States reclaims our place as a leader of nations and a force for good in a chaotic and increasingly complex world.

MIDDLE EAST

Mr. President, now, on another note, I know we have great challenges in the world. We are having a great challenge in the Middle East. I would just simply say that I am not a fan of having resolutions brought to the floor of the Senate without the appropriate consideration of the committee of jurisdiction—in this case, the Senate Foreign Relations Committee—so that informed, deliberate debate and consensus agreements come together in the best pursuit of foreign policy.

It is easy to get caught up in the passions of the moment. It is much more difficult to think about what is the right policy and procedure and action the United States should take in any given part of the world.

So I know there is a bunch of resolutions that are being flown around—none of which have gone to the committee—some that have merit in each and every dimension but also have challenges. They fall short of what I think would need to be done, and I would urge colleagues to, particularly at this moment, have restraint, and I would urge the ability for the committee to be able to consider what is the appropriate course of action, whether it be at this time or any other time, as our Nation faces global challenges.

I yield the floor.

The PRESIDING OFFICER. The Senator from Iowa.

## ECONOMIC RECOVERY

Ms. ERNST. Mr. President, during my recent travels across Iowa on my 99-county tour, I couldn't help but notice the number of "Help Wanted" or "Now Hiring" signs on storefronts along nearly every highway and Main Street.

In an era where we seem to live through one unprecedented occurrence after another, the dire job situation has become the latest extraordinary event as millions of Americans remain unemployed, despite an abundance of jobs that need to be filled.

In fact, the number of available jobs has reached an alltime record high, 8.1 million positions that need to be filled. And 44 percent of all small business owners have openings they cannot fill, another record. What makes this all the more stunning is that the Nation's unemployment rate increased last month to 6.1 percent. There are now more than 9 million jobless Americans, and nearly a third of those have been unemployed for a year or more.

In Iowa, the number of unemployed slowly inched upwards in February and March, and we continue to have more job openings than we do job seekers. There are more than 62,000 job listings posted on the Iowa Workforce Development website, which exceeds the total number of Iowans filing for unemployment benefits.

The jobs span a variety of occupations and locations in the State, and employers are desperate to fill them. The police department of Iowa City is urgently trying to hire 10 officers and is offering a \$5,000 signing bonus to new recruits. And I should note that another factor here could be the ongoing efforts to defund the police being pushed by folks on the left.

The owner of the Blind Pig restaurant in Cedar Rapids is paying higher wages plus a \$500 sign-on bonus, but even that isn't enough to attract workers. He says in the past he would get up to 50 applicants when he placed a "Help Wanted" notice, but now he might get 2. Yep, that is it. Two, he said, if he is lucky.

So what gives? Part of the problem is that the government pays folks more to stay home than to go to work.

I have heard from restaurant owners in Bellevue who need about 36 employees between their two locations and can only find 20. They have been forced to suspend plans to expand, costing additional jobs and stifling economic development.

Similarly, the owner of a small business in Cedar Rapids that offers good-paying jobs that don't require a college degree was turned down by three separate people because they chose to stay on unemployment instead.

I have also heard from folks who run in-home care services in West Des Moines and Cedar Rapids about their difficulties hiring providers for their professional care teams. Again, this is all due, in large part, to the Federal Government's excessive unemployment perks.

This may have made some sense a year ago, when there was plenty of uncertainty. But due to the success of Operation Warp Speed, we now have vaccines; and COVID cases, hospitalizations, and deaths are trending down.

Despite thousands being out of work in Siouxland, local businesses can't find the workers they need. The store manager of Sam's Mini Mart says: "People come in here and say, why work when I don't have to, when unemployment's going to pay me?" He goes on to say: "We've even upped our wages, our starting wages, and nothing seems to work."

Paying people not to work is not helpful. It is delaying us from returning to normal, prepandemic life. For our businesses in Iowa, "normal" means operating at full capacity.

If we are going to begin erasing the damages caused by the last year of the pandemic and get our economy moving again, we cannot continue to let Democrats disincentivize work.

Thankfully, in Iowa, our great Governor, Kim Reynolds, has already taken steps to curb the excessive Federal unemployment that has kept Iowans on the sidelines and created these challenges for our employers.

Now, we need to do more nationwide. As a senior member of the Senate Committee on Small Business and Entrepreneurship, I am hoping to lead a bicameral effort to end the enhanced perks at the Federal level. The Get Americans Back to Work Act, which I helped put forward, decreases the extra Federal unemployment benefits to \$150 per week at the end of this month and then fully repeals them at the end of June.

It is time for Congress, the Biden administration, and State leaders across the country to do their jobs and help Americans get back to work.

With that, I yield the floor.

The PRESIDING OFFICER (Ms. ROSEN). The Senator from Missouri.

Mr. BLUNT. Madam President, I was watching Senator ERNST give this speech. And as to that "Help Wanted" sign, I thought I was back in Springfield, MO, my hometown, where I was this weekend. There were occasions when I was driving down a block, and I started looking to see if there was a place that didn't have a "Help Wanted" sign up. They were everywhere—"Help Wanted" signs, hiring bonuses, rates well above the minimum wage. Our minimum wage is \$10.30 in our State. There were rates well above that being advertised on the "Help Wanted" signs.

You know, we all were disappointed by the job numbers that were issued at the end of April. But, obviously, the job numbers didn't reflect the fact that there weren't jobs to be had. It was just that there weren't people taking the jobs to be had.

We need to think about everything we can to create an environment where people want to go back to work, where people are encouraged to go back to work, and where people who can't go

back to work have that basic unemployment benefit. Nobody is begrudging that, but I think it is clear that we have made some mistakes here.

Now, many of us were concerned about this when it initially came up, and we were not able to turn back the additional bonus at the time, though the predictions were just too true about what might happen.

What small businesses in Missouri are saying is pretty consistent all over the State. In St. Louis, the manager of Mary Ann's Tea Room said: "It is heartbreaking that the business is there, but I can't hire anyone." And that restaurant was forced to just close down because they didn't have enough workers.

In Kansas City, the president of the Big Biscuit restaurant said: "We've never had a hiring drought like this before." And according to him, he said, there is "no doubt we are up against unemployment that has been artificially increased and stimulus payments that give people the opportunity not to show up for work."

In Branson, just as the busy summer season is getting underway, the general manager at Mel's Hard Luck Diner says he is so short-staffed that they have to close Sunday evenings now—a time when they would normally be open, just to compensate for the fact that they don't have enough people to do the 7 evenings and 7 days of business that they were used to doing. He says he can't even get people to show up for a job interview, let alone show up to work.

Just down the street in Branson, at one of the great theme parks in America, the Silver Dollar City Theme Park, they told me a couple of weeks ago that they could hire 150 people the next day—that would still be their view, by the way—if they could find 150 people. They have 150 jobs, and they have more customers than they have people, so not everybody could get in the park that would normally be able to come to the park.

In Columbia, right in the middle of our State, the owner of Just Jeff's said: "There's not a person that I come into contact with . . . as a businessowner or manager or something like that, that isn't in a terrible pinch right now for help."

That is just a snapshot of all we are seeing. I talked to one person who runs a family hotel chain. It is a big family hotel chain based in St. Louis. He said: We have the customers now who are coming back, but we don't have the help. We could fill more rooms than we are filling if we had people who could clean the rooms and get them ready the next day.

Businesses are ready to be back and be fully open, but they don't have the workers they need.

We had an amendment in the CARES Act, one of the five bipartisan bills we passed last year, that would have prevented people from making more when they are unemployed than when they

are working. I said at the time, when I voted for that amendment, that I was concerned that these enhanced unemployment benefits would really create a time when people didn't want to go back to work, and, unfortunately, that is exactly what happened in Missouri and around the country.

It has been a tough year, we all know that, for small business owners. We stepped up and tried to think of early ways to keep people on their payrolls rather than on the unemployment rolls. By the way, even at that time, many of those businesses were saying, well, that is a great idea. We would like to keep them on our payroll, but they can make more money on the unemployment rolls. Is that fair to them, to not let them go to this unemployment that the government and its policies made so appealing?

They were trying to fight the worst public health crisis ever and trying to keep businesses afloat. Now they are trying to figure out: As we come out of the public health crisis, what do we do to keep that business going?

You know, that misguided government policy—that comment Ronald Reagan used to make—is one of the scariest things you could hear: “I am from the government, and I am here to help.” This seems to be a case where that truly has been a scary thing: The government, trying to help, trying to reach out and do what at least a majority of our colleagues thought was the right thing, has created a situation that is different than it needs to be.

Twenty-one States have now either decided to stop participating already or have announced that they are going to stop participating. Governor Parson in Missouri made that decision. As Senator ERNST mentioned, the Governor of Iowa has made and 19 other Governors have made that decision.

The average unemployment benefit in the States in America right now is \$618 a week. That is the average. That includes the \$300 that the Federal Government has put into every one of those checks that are still going out at that level. That is \$15.46 an hour. Certainly, one way to mandate a \$15 hourly pay rate is just to decide that is what you are going to make if you are unemployed. Well, it hasn't worked. It won't work. Our State of Missouri and other States are moving away from this.

In Washington, we make policies, and one of our responsibilities is to be sure that we are keeping an eye on unintended consequences. The law of unintended consequences is one of the great certainties of making law, and we need to watch out for that. We have a huge unintended consequence here. We saw what happened when now the Biden administration is trying to explain why it is not their policies that appear to be slowing the recovery down, but we all know that this is part of that problem.

We have done something to cause this problem. We need to figure out how to solve this problem. This should

not be something that States, one at a time, reject. We need to get our economy back on track as quickly as possible.

There is virtue in work, and I hope we make work more appealing again than not working.

Thank you.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. LANKFORD. Madam President, in February of this year, there was bipartisan conversation about what is the next step dealing with COVID. We knew we were coming out of it. Vaccines were going in arms. States were opening up. My State in Oklahoma was rapidly opening in February, and there was this dialogue about what would happen in the economy.

Unfortunately, in the middle of that dialogue, my Democratic colleagues determined: We were going to go this on our own.

We still stay engaged. One of the big issues, though, was unemployment. Would there be additional unemployment benefits that would be done?

Now, myself and multiple others raised the issue on both sides of the aisle: How would this be handled?

If it was a year before—literally, in March of 2020, there was an extension of unemployment because unemployment was at 15 percent at that point, and there were no jobs to be had. But in March of this year, when the agreement was finally made and a straight partisan bill was passed, we weren't at 15 percent unemployment. It was at 6 percent and driving down to the floor. Now we are below 4 percent.

The challenge that we have is, there is additional unemployment benefits that have extended all the way until September.

Now, that bill passed—a straight partisan bill—in March. By the Sunday after Palm Sunday, when I was back in my State, I was already having businessowners catching me and saying: What in the world? I can't hire now because I am competing for wages with someone in the Federal Government.

What has that meant for right now? Now and May, what does that mean for us in Oklahoma?

In Oklahoma, there are 37 percent more jobs available now than there were a year and a half ago before the pandemic began, when we were at the best economy in 50 years. Literally, there are more job openings in Oklahoma now than there have ever been in the history of our records.

Let me run that past everybody again. There are more openings in Oklahoma right now for jobs than ever in the history of our recordkeeping for our State, but we can't fill jobs because people are making so much money on unemployment and they get the first \$10,000 of that written off on their taxes. Those two pieces together incentivize people, literally, to be able to stay home.

Our State has had to take a pretty radical step, quite frankly. We have

stepped in with 20 other States and have ended the unemployment assistance, but we have had to take it the next step because we have so many job openings in our State. We are literally giving a \$1,200 bonus to anyone who will go back to work. For the first 20,000 people who will actually get off of unemployment benefits and go back to work, we are paying a \$1,200 bonus to those individuals to return to work. What in the world? Why would we have to do this as a State? Our State is taking leadership, and I am grateful to Governor Stitt and his continued leadership to be able to help navigate our economy and our families. But why would we want to have a situation where we have literally disincentivized work and encouraged people to not return to work? What Governor Stitt has set up is an encouragement to actually get back to work. That is better for families. That is better for children. That is better for our economy.

Right now in Oklahoma, if you are going to build anything—and I mean build anything—good luck finding building supplies. And it is not because we don't have lumber. It is not because we don't have bricks. It is not because we don't have windows and shingles and all those things. Good luck getting it because they can't get enough labor to actually do the manufacturing. So everyone is running behind simply because there is a shortage of labor because we are incentivizing people to stay home rather than to be able to come back.

Shots are in arms. Our rates of COVID have decreased dramatically. It is time for us to return to work. But now we are going to have a situation where we have right now—where half the country is incentivized to stay home. Now you have 21 States—slightly less than half the country—that are trying to incentivize people to get back to work.

We need, as a nation, to incentivize work and to encourage families to be able to be engaged in productive activities. It is right for families. It is right for our economy. It is certainly right for us as a nation. And I thank Governor Stitt for his leadership in this area and for what we continue to do, but we have to get back to basic policies that don't disincentivize work.

I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. PORTMAN. Madam President, let me say that I agree with my colleague from Oklahoma who just talked about the impact of the Federal supplement on unemployment that was passed here in this Chamber and signed into law by the President. It is time to end it because the situation has changed dramatically, hasn't it?

Back when the unemployment additional benefit from the Federal Government was put in place, we had people who couldn't go to work. Thanks to COVID, businesses actually were shut down, many by government edict.

There were people who lost their jobs through no fault of their own. Therefore, this Chamber stood up and said: OK, for those people, we ought to provide a Federal supplement on top of the State unemployment insurance in order to make them whole, essentially. Initially it was \$600. Now it is \$300. That is on top of the State unemployment.

Now you have an exact opposite situation. You have all these jobs that are open. I just learned that in Oklahoma, it is a record number. Guess what. It is a record number nationally as well: 8.1 million jobs are being offered right now. That is more jobs than we have ever had open in the United States of America, and it is happening right now.

At the same time, you have people on unemployment insurance who are getting the additional \$300 on top of the State benefit. In Ohio, the average is \$360 plus \$300, so 660 bucks a week. Plus, the first \$10,000 is not taxed. So if you are a truckdriver making 40,000 bucks a year, you are being taxed, but if you are on unemployment insurance, your first \$10,000 of UI is not being taxed. How is that fair?

Well, it creates an additional disincentive to go to work. I am not saying it is the only reason people aren't going back to work, but if you talk to the small business folks in your State, you will find it is one of the big reasons. I think it is the biggest one.

Another one is that people are having a tough time finding childcare. I get that. Childcare is expensive. Part of the solution to that, of course, is to get the kids back to school. Fifty-four percent of K-8 schools are back in business, but the rest aren't. Schools being closed makes it really tough for parents to go back to work because one parent has to be there to take care of the kids. That is true.

Then, finally, there is an issue of the skills gap. I get that. The jobs that are available, some of them are skilled jobs. There are 720,000 manufacturing jobs in America open right now—right now. Yet a lot of them do require a skill level that, unfortunately, our system of education and training has not prepared people for. This is why our young people need to be given more opportunities to get those industry-recognized certificates to become a welder or become a technician or become a coder in the IT world or become a truckdriver, because we need those skills badly.

But the biggest reason, again, that I am hearing all over my State of Ohio is the fact that people are saying: You know what, I am making what I can make on UI, and that is more than I can make at work. For 42 percent of Americans, on average, that is true. Forty-two percent are making more on UI. That is not even including the fact that the first \$10,000 is tax-free. In Ohio, it is more than double the minimum wage. That is what people are making.

So this is a problem right now, and we should face it. By the way, it is in the interest of everybody to resolve this issue. It is in the interest of the small businesses that can't find people. Some of these businesses are literally shutting down. Geordie's, a restaurant in Columbus, OH, is closed. They literally closed because they can't find workers. Other restaurants all over the State of Ohio are going 5 days a week instead of 6 or 7 days a week or cutting a shift because they can't find workers. So it is definitely helpful for those small businesses and for all businesses, but, second, it is great for the taxpayer to not have to pay that extra 300 bucks a week. It is billions of dollars, tens of billions of dollars, even hundreds of billions of dollars when it is all added together, compared to what it would be under current law, where the \$300 supplement goes until Labor Day—Labor Day—with 8.1 million jobs open right now.

Finally, I would argue it is particularly good for workers to get back to work, to get back to their careers, to get back to the training they need to keep up with what is going on at work.

It is not in anybody's interest to have folks not back in the workforce. We should all want people to be back at work getting the fulfillment you get from work and the dignity and self-respect that come from work, but getting a paycheck and getting healthcare insurance again and getting back into their 401(k) plans and, again, closing that resume gap so they are up to speed on the training.

I will tell you what is happening, and this is what concerns me and I think should concern every Member of this Chamber. Businesses are adjusting. Do you know what they are doing? They are not just shutting down. They are not just closing 2 days a week. They are not just cutting out a shift. Some of them are changing the way they operate in order to be more efficient. What does that mean? That means, when you can't find workers, you turn to technology, you turn to automation. And it is happening.

I know there are Members of this Chamber who think that by giving more money to people, this is a very smart thing to do and it is helping everybody. It is not helping because those jobs are not going to be there in the future.

There was a story in the Washington Post today about Huntington Bancshares. It is a bank in Columbus, OH. They are fielding literally dozens of calls from business owners who are trying to get financing to buy more equipment that will offset their loss in workers; in other words, more automation, more technology that they would not have otherwise gone to, but because they can't find any workers, they are using their money they would have paid workers to go to more technology. Those jobs are gone.

I know, again, some people, maybe on my side of the aisle, think that might

be a good thing, a more efficient economy. I want people at work. I want companies to be hiring more people.

A good friend of mine is a manufacturer. She has about 200 people. She makes a great product—windows—in Ohio, southwest Ohio, Hamilton, OH. She is looking for 60 people right now. Sixty people. She is offering a signing bonus of a thousand bucks and offering other benefits. People aren't showing up. But when the \$300 ends and when the additional \$10,000 of unemployment insurance not being taxed ends, people will go back to work.

The first State to decide “You know what, we are going to unilaterally just say we are not going to take the \$300” was the State of Montana. My colleague from Montana told me recently that he has a friend who is a hotel owner, and he was having a job fair every week trying to get people to come in to apply for jobs. He was getting about one applicant per week. The week after the Governor said no more \$600 or no more \$300 benefit on unemployment insurance in addition to the State benefit, 60 people showed up. That may be an extreme example, but I have to tell you, it is going to make a big difference.

Let's help get this economy going again. We are turning the corner on COVID. We have a situation now where we can actually get started again, get the businesses reopened.

I talked about the business owner in Columbus, OH, who was closed down. Do you know what his comment was? He said: I used the PPP program.

That is the Paycheck Protection Program, which we all passed here.

I got through COVID. We struggled, but we made it through COVID. We could make it through COVID, but now we can't make it because of our own government paying people more not to work on unemployment insurance than we can pay them to work.

He feels like his own government has turned on him.

That is not helping anybody. It is not helping the small businesses, it is certainly not helping the taxpayer, and it is not helping those individuals who are not getting back to work, back to their routines, back to the training, back to the 401(k) plan, back to their healthcare plan, and having the opportunity to achieve their American dream.

I hope that we change our minds here and don't continue this until September 6 and decide, instead, let's get people back to work.

I would also be for a \$100-a-week signing bonus if people were to go back to work. I think that would be a good use of funding. Let's, say, do that for 6 weeks and at the same time stop the \$300 Federal supplement. By doing that, those 8-million-plus jobs that are available right now would start to get filled, and we could really get our economy back on track.

I yield back my time.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. WICKER. Madam President, my friend from Ohio is correct. In many respects, it ought to feel like morning again in America. After all, COVID-19 is finally on the retreat. The vaccines have been a roaring success because of Operation Warp Speed. One hundred and twenty-four million Americans are now fully immunized, and another 30 million are halfway there. With the exception of a few holdout States, the mask mandates are gone, thank goodness. By all measures, our economy should be firing on all cylinders, but America now has a workforce problem. People are not heading back to work.

In February, the Congressional Budget Office predicted our economy would return to its prepandemic size by the middle of the year without receiving any new stimulus from Congress. Regrettably, Democrats in this Chamber brushed off that optimism from the CBO. They decided to pass more stimulus, to the tune of \$1.9 trillion.

This time, the money was excessive. It was poorly targeted and passed without bipartisan consensus. Three months later, the results are unflattering for my Democratic friends. Last month, our economy produced a paltry 266,000 jobs when experts had predicted over 1 million jobs—this at a time when our economy has a record 8 million jobs available, jobs that need to be filled.

Small businesses are desperate to hire. Restaurants, for instance, are having trouble finding people to become waiters and chefs. The National Restaurant Association reports that, in January, 8 percent of restaurant operators said finding and keeping workers was their No. 1 concern. That number doubled in February. It doubled again in March and then again in April. According to the latest survey, 57 percent of restaurant operators now say that finding and keeping employees is their biggest problem. The same problem exists across multiple sectors—hotels, construction, lawn care, welding, tech. The list goes on.

Americans would be streaming back into the workforce if not for the counterproductive policies passed by the majority. Government is now paying millions of able-bodied Americans to stay home, to stay home when they could be back on the job. Expanded unemployment benefits have become a hindrance to our recovery rather than a help, just as many of us had warned.

March 2020 was a unique moment of emergency that called for urgent financial relief for the American people. This body passed it on a sweeping bipartisan basis. But it is now May of 2021. The hour of emergency has passed. Americans need policies to help them reenter the workforce.

Fortunately, millions of Americans have Governors who are pushing back against Washington's pay-to-stay-at-home policies. Governor Tate Reeves, in my State of Mississippi, is one example. I commend Governor Reeves for opting out of the expanded Federal un-

employment funds in order to help our State embark on a full recovery. Nearly half of all Governors now share the same mind and are saying no to those unnecessary funds.

Madam President, the American people elected a 50-50 Senate and a narrowly divided House. They do not want drastic changes or dramatic growth of government. They simply want to put this pandemic behind them and get back to providing for their families.

Americans need government to get out of the way, and Republicans stand with the American people and on the side of a full recovery.

I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. BARRASSO. Madam President, first, I would like to associate myself with the fine remarks of the Senator from Mississippi, who sees every day, when he is home traveling in his State, the same things I am seeing in Wyoming—"Help Wanted" signs all around our home States, as businesses are looking for people to hire, and the government's incentives are making it that much harder to find workers.

Job openings right now are at a record high in America. There were 8 million jobs available going into April. Yet in that month, only about one-quarter of a million people actually were hired. The unemployment rate actually went up.

We lost manufacturing. We lost retail. We lost healthcare jobs last month. Construction jobs were flat. Ten million people are unemployed right now, even though there are 8 million job openings.

Every Senator I talk to says that there are "Help Wanted" signs all around their home State. Nearly every American who wants a job should be able to find one. Yet it is really not happening.

The question has been asked and answered on this floor by various Members of the Republican Party: Why can't small businesses find workers? Why are so many of these jobs unfilled? Because something like this doesn't just happen on its own. Oh, no. This happens as a direct result of the President's policies.

President Biden and Democrats are paying people to stay home. That is why so many people are staying home. They are being paid more to not work than to work. According to one analysis, nearly half of all people on unemployment benefits with the unemployment benefit bonus payment—the extra check—are making more money by staying at home than they would make if they go to work.

These people aren't lazy. Oh, no. When the President and Democrats offer people free money to stay home, it is perfectly logical—people take them up on the offer.

I believe the American people want to work. That is what I see at home in Wyoming. That is who we are. That is the fiber of the American people. We

are the hardest working people in the world. American businesses want to hire. Yet Joe Biden and Big Government are getting in the way.

President Biden has actually extended bonus payments until September. We are now in May. May, June, July, August, September—month after month, after month, after month of more of this. This is a grave danger to small businesses across America. If they can't find workers, they might have to close again. Then those job openings will no longer be there, and they will be gone forever.

President Biden appears to be, in my opinion, in denial on this. He held a press conference recently, and this is what he said: It is all "loose talk."

This is not loose talk. This is basic arithmetic. Job openings are going up; hiring is slowing down; and nearly half of workers make more money by staying at home.

"Loose talk" is when the President of the United States tells us everything is just fine when it is not. April was the most disappointing jobs report in more than 20 years—two decades. Yet President Biden says the jobs report "shows we're on the right track."

No, it doesn't. Hiring has slowed down. Some say people aren't returning to work because of coronavirus.

Madam President, let me tell you, it is very unlikely. We are vaccinating 2 million people a day. One in three Americans is now—these are adults—fully vaccinated already. We are getting the virus behind us. We have been very successful with Operation Warp Speed.

We should be filling the 8 million jobs available right now. Yet what are President Biden and the Democrats doing to fix the problem? Nothing, nothing at all. I believe they are making it worse by extending these bonus payments. It is time the President and Democrats worked for a solution.

You know, I am proud that the people of Wyoming and the Governor of Wyoming have done just that. Wyoming has taken a leadership role, along with approximately 20 other States, in ending these bonus payments. It is going to give our economy a boost. It is going to lead to more hiring.

It is time for President Biden and the Democrats to follow the successful lead of the people of Wyoming. Stop paying people a bonus to stay home. Reward the hard work that is a part of America and Americans' DNA.

I yield the floor.

The PRESIDING OFFICER. The Senator from Kansas.

Mr. MARSHALL. Madam President, earlier this month, the Department of Labor's jobs report showed an uptick of the unemployment rate to 6.1 percent and employers only adding 266,000 jobs, despite widespread projections of approximately 1 million jobs to be gained in April.

To call this a dismal jobs report would be an understatement. It was the worst jobs miss since 1998. Yet it is not

surprising considering the many conversations I have had with Kansans throughout my travels. I have heard constantly how employers are struggling to find people for open jobs, largely because folks are staying at home due to the increased unemployment dollars and the stimulus checks that Democrats continue to push.

Earlier this year, Democrats forced through legislation—without any Republican support—that provided \$300 more per week in Federal unemployment benefits. This additional benefit, when coupled with the extended unemployment benefits offered by States, already means that the average recipient is making \$15 to \$20 per hour to stay home.

Democrats have made it more profitable for many Americans to stay unemployed. That is because these policies are not intended to help our economic recovery. They are intended to reform our American system and create more dependency on the government.

This leap toward socialism comes at a time when our Nation is on its way to reaching herd immunity and businesses are emerging from government-imposed lockdowns. Now President Biden has delivered them a government-funded labor shortage.

I recently heard from a wonderful small business in my hometown of Great Bend, KS, that are short-staffed by some 70 employees—that is 70 employees they are short-staffed. They are unable to match the strong incentive to stay home provided by the Federal unemployment benefits in order to rehire their workforce. The company's mission is to provide educational and work opportunities for people with developmental disabilities, giving nearly 200 individuals in the area the independence, inclusion, and training that they need to achieve success. This labor shortage directly affects their ability to meet the needs of the people they serve.

I have heard stories from manufacturers across Kansas struggling to recall their workers, despite offering generous benefits and high-wage jobs or restaurants remaining closed because they don't have enough employees for their basic operations.

Homes aren't being built because of a lack of labor, and hotels are turning away business because they don't have employees. One company even shared a story of offering a high-skilled and high-wage position only to be turned down because the prospective employee claimed they were comfortable on unemployment, and the hours clashed with the local bowling league.

We have seen the broader supply chain begin to feel the impacts, as a lack of truckdrivers means that building materials, computer chips, and common household goods like toothpaste and toilet paper can't reach their destination, or food processing plants are short-staffed and turning out less product than usual, driving up the cost for consumers.

Coupled with the trillions of Federal dollars that have gone out the door so far, we are beginning to see inflation. In fact, the Department of Labor's recently released consumer price index for April showed the largest spike in inflation since 2008.

There are a record 8 million jobs—that is 8 million opportunities waiting to be filled across this country. In my home State of Kansas, we have 57,000 job openings, and the March labor report shows over 58,000 Kansans received unemployment insurance.

While there are certainly people who need access to increased unemployment benefits during the heart of this pandemic, unemployment insurance was never meant to be a permanent salary replacement.

Rather, the benefit is meant to provide temporary assistance while folks get back on their feet. The government should not be in the business of creating lucrative government dependency that makes it more beneficial to stay unemployed rather than return to work. That is called socialism.

Nearly half of the States have halted the additional benefits, and I have called for the Democratic Governor from my home State to do the same. Unfortunately, no State in the Union with a Democratic executive has stepped up and dropped the benefits, despite many of these States having the highest unemployment rates in the country. Instead, Democrats in Congress are moving to make the enhanced benefits permanent.

For all these reasons, last week, 15 of my colleagues joined me in introducing the Get Americans Back to Work Act, which decreases Federal unemployment benefits to \$150 per week at the end of May and then fully repeals them altogether at the end of June. Not only will this help get people back to work but the savings generated can be used to pay for roads and bridges.

Let me close by saying "work" is not a four-letter, dirty word. A job brings dignity and purpose to all who have one. Over the past year, we have made great strides to develop safe and effective vaccines. Because more Americans are getting their shots, we have seen COVID cases decline to nearly a quarter of where they were in January. Now is the time for folks to get back to work, to get our kids back in school, and get our economy back to prepandemic levels.

I yield the floor.

S. 1260

The PRESIDING OFFICER (Ms. WARREN). The Senator from Washington.

Ms. CANTWELL. Madam President, if I could just say something, for a second, while the Senator from Mississippi is here. It has been one of the great joys to collaborate with Senator WICKER on so many important policies last year, working on everything from aviation to maritime and foreign issues, and now working on this legislation and infrastructure and on many things that we want to do for the fu-

ture. I thank him for his collaborative work on this process.

No one probably relished the speed at which we moved through on this bill from our committee perspective, but, nonetheless, I think the committee actually had a lot of joy in the fact that we were at regular order and could process so many amendments and have that diverse of a conversation. The subject matter, in and of itself, is so important—it really is—to get this right.

When I think about our attempts at America COMPETES in 2007 and 2010, we were enthusiastic, but we didn't convince the rest of everybody to put the money behind it. It makes me think that I am glad we are creating more of a robust debate about why this competitive issue is so important.

AMENDMENT NOS. 1517 AND 1547

Madam President, I ask unanimous consent that the following amendments be called up and reported by number: the Tillis-Hirono amendment No. 1517 and the Scott-Johnson amendment No. 1547; further, that at 4 p.m. today the Senate vote in relation to the amendments in the order listed, with no amendments in order prior to those votes in relation to the amendments, with 60 affirmative votes required for adoption, and 2 minutes of debate, equally divided, between the two votes.

The PRESIDING OFFICER. Is there objection?

Mr. WICKER. Reserving the right to object—and I shall certainly not object—I simply want to say that this is the beginning of what I hope is an open amendment process, and I want to thank the chair of the Commerce Committee for working with us to get these first two amendment votes scheduled this afternoon. And I certainly withdraw my reservation.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The clerk will report the amendments by number.

The PRESIDING OFFICER. The Senator from Texas.

UNANIMOUS CONSENT REQUEST—S. 1012

Mr. CRUZ. Madam President, in a moment I will propound a unanimous consent request. Before I do, I want to make some brief remarks.

Right now, gas stations all over the eastern seaboard are suffering from a week-long gas shortage that has left thousands of stations completely out of gas. What we have seen is reminiscent of the 1970s, when Americans had to sit in long lines to fill their cars with gas.

Why are we experiencing this crisis? Because Russian hackers attacked the Colonial Pipeline, which had to shut down operations on May 7.

What is the reward Russia gets for attacking our infrastructure? Well, on the topic of Russia, just yesterday, President Biden doubled down on what is becoming a consistent “soft on Russia” position from the Biden administration, making the decision to disregard bipartisan legislation that passed through this body seeking to shut down the Nord Stream 2 pipeline that Putin is desperately trying to complete between Russia and Germany.

That pipeline had been shut down. We had succeeded in a bipartisan vic-

tory, stopping that pipeline, but, sadly, Putin resumed building the pipeline shortly after Joe Biden was elected. Yesterday, President Biden made the decision to refuse to enforce the bipartisan sanctions on the company building the pipeline for Putin.

If that wasn't enough, it is clear the Biden administration does know how to shut down pipelines—the Keystone Pipeline. His first day in office, Joe Biden signed an Executive order shutting down the Keystone Pipeline, destroying 11,000 jobs, including 8,000 union jobs—all destroyed by the Biden-Harris administration. For whatever reason, the Biden-Harris administration seems to have a philosophy that American pipelines and American jobs are bad, but Russian pipelines and Russian jobs are apparently good. And Russian hackers should get rewarded with Putin getting billions of dollars because Joe Biden refuses to stand up to Putin.

On the impact here at home of the Russian hacking, Colonial Pipeline transports 100 million gallons of fuel all over the east coast every day. It is responsible for transporting 45 percent of the fuel on the east coast, running from Texas to New Jersey.

The Colonial Pipeline is a critical piece of infrastructure, and when it shut down, it gravely disrupted the daily lives of millions of Americans—fuel for cars, for aviation fuel, for heating homes, all completely shut down. I am standing here today because one thing this crisis has shown us is that we need to diversify how we transport energy in this country so that if our critical infrastructure is attacked again—and we know it is going to be attacked again—that we have other reliable ways to transport energy.

One way to strengthen redundancy and to strengthen our ability to make it through another attack is to allow liquefied natural gas, or LNG, to be transported by rail.

Last year, the Pipeline and Hazardous Materials Administration finalized a rule allowing the safe transportation of LNG by rail. What this rule does is enable natural gas that is used for transportation, that is used for generating electricity, for heating homes, for manufacturing, to be transported by railroad, which helps Americans in hard-to-reach areas access the fuel that they need. It also takes pressure off of other critical infrastructure to meet our energy needs.

Yet, now that Joe Biden is President and he has empowered officials in his administration who have a repeated and demonstrated hostility to American pipelines and American jobs and American energy independence, this rule is in jeopardy. When the Secretary of Transportation was before the Senate for confirmation, I repeatedly asked the Secretary to commit to maintaining the existing rule of allowing the safe transport of LNG by rail, and, repeatedly, the Secretary refused to make that commitment. The foolishness of that position is now evident

to everyone as we have gas lines and skyrocketing gas prices on the east coast and throughout the country.

Therefore, Madam President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be discharged from further consideration of S. 1012 and that the Senate proceed to its immediate consideration. I ask unanimous consent that the bill be considered read a third time and passed and that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there an objection?

Mr. MARKEY. Reserving the right to object.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. MARKEY. Madam President, I appreciate the points that my colleague from Texas is making, but the bill he is proposing to pass by unanimous consent has not been considered by the Commerce Committee, and it would drastically and unilaterally tie the hands of the Department of Transportation from protecting communities from having massive amounts of dangerous, explosive liquefied natural gas shipped right through their towns and cities. I understand that the Republicans and natural gas companies want to railroad through the Senate a bill that would undermine the safety of the railroads in our communities, but we just can't allow this to happen.

In 2020, the Trump administration moved to allow trains of 100 or more cars to begin transporting liquefied natural gas with no additional safety regulations. It did this over the objections of the attorneys general of 15 States and the District of Columbia. Firefighters opposed it. Railroad unions that represented the railroad employees objected to it. The environmental community objected to it as did the National Transportation Safety Board.

Listen to this: A train of 110 tank cars, filled with liquefied natural gas, would have more than five times the equivalent energy of the Hiroshima atomic bomb.

We cannot put our firefighters, our railway workers, and our homes and families at risk from loose regulations on what could be catastrophically dangerous trains. Too many lives are at stake, and the Department of Transportation should have the ability to review this rule. This bill that is being propounded right now would blind our safety watchdog when we should be putting these threats under a microscope.

I object.

The PRESIDING OFFICER. Objection is heard.

The Senator from Texas.

Mr. CRUZ. Madam President, as the Senator from Massachusetts knows, there is an existing rule that went through the ordinary process in finalizing the rule—the ordinary notice and comment process—that has been pro-

mulgated by the Pipeline and Hazardous Materials Safety Administration.

The Senator from Massachusetts also knows the reality that accidents by rail are very rare. While we surely don't want to see any accidents occur or have disruptions in transporting LNG by rail, what we have seen by the cyber attack on the Colonial Pipeline is that nothing is certain. There are risks to everything, but by taking precautions and diversifying our transportation methods for fuel, we make our energy industry more resilient to attacks and accidents when they, predictably, do happen in the future.

Furthermore, LNG is already transported by vessels and tanker trucks and has been for decades. Obviously, accidents can happen at sea or with tanker trucks, but that doesn't stop us from transporting LNG in those ways. Accidents on railroads are rare, and if we can transport LNG by sea and in tanker trucks on the road, we should also be able to transport it by rail, where it is safer and more efficient and more effective.

Lastly, to cope with the shutdown, the Department of Transportation granted waivers for hours-of-service requirements to truckdrivers and Jones Act waivers for vessels to continue to transport fuel to try to alleviate the shortage. That just underscores the need for LNG by rail as well.

Unfortunately, as Americans are standing in gas lines, the answer they are being given by Washington Democrats is, the challenges you are facing don't matter to the Democrats. What we have seen from this objection is that Joe Biden and KAMALA HARRIS support higher gas prices—much higher gas prices that you will have to pay at the pumps. They understand that much higher gas prices fall disproportionately on low-income Americans and that they fall disproportionately on African Americans and Hispanics. The Biden-Harris Democrats are willing to jack up your gas prices, to make you wait in line, and to say, essentially, "tough luck." They have no answers, but they are going to block getting energy for your home, for your vehicle, for your life, for your family.

As we stand here today with a crisis at our southern border, as we stand here today with a gas crisis and gas lines, as we stand here today with an inflation crisis on the verge of erupting, and as we stand here today with war in the Middle East, sadly, we are seeing a reprise of the 1970s—the same failed policies producing the same disastrous results—except, in the rerun, Joe Biden is Jimmy Carter 2.0 and KAMALA HARRIS is Walter Mondale. The country, sadly, is paying the price for the extreme and failed policies, and we are just 4 months into it.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma.

TRIBUTE TO ROGER BEVERAGE

Mr. LANKFORD. Madam President, there is a lot going on right now. I

have already spent time on the floor today to talk about some of the economic issues—inflation, unemployment—that are happening. There are a number of jobs that are open in my State. In fact, there is a record number of job openings in my State. There is unrest in the Middle East right now, and there are all kinds of things that are happening in the world.

Yet I can't help, just for a moment, pausing to be able to reflect on a friend of mine who, in a few days, will be sitting and hanging out with his 12 grandchildren and enjoying a moment of retirement.

His name is Roger Beverage. Roger Beverage just retired as the CEO of the Oklahoma Bankers Association. He is not the big banker guy. He is the community banker guy. For 30 years, he led our State in banking and engaged in issues from the smallest of the small banks in rural Oklahoma to family-owned community banks that are scattered around our State. He worked tirelessly to help individuals get access to banking who were blocked out, and he made sure that everyone had a shot. He has been a remarkable leader, and he is just a great grandpa.

In the days ahead, I celebrate his getting time with his 12 grandchildren because he has given so much to so many others. As he spends time with his five kids—just the five kids who carry around the 12 grandchildren at this point—and as he spends time with his bride of 43 years, Paula, I want to say thank you to him.

Roger wasn't born in Oklahoma; he was born in Nebraska. If you know Nebraska and Oklahoma's long heritage of football, you will know there has been quite a rivalry for a long time. Roger graduated from college and went to law school. When he finished up law school in 1971, he enlisted in the U.S. Army right in the middle of the Vietnam era. He served 2 years in the Army, working as a lawyer. He then served 6 more years in the Reserves after that. He retired as Captain Beverage. He is also a person who has never been shy or would walk away from a challenge and is one who has constantly been focused on service.

In the middle of times that people up here in Washington, DC, wanted to equate big banks and community banks the same and to say: Let's put the pressure on the big banks but "leave the little banks alone," often the little banks got caught up in that fight, and he was one of the folks who was constantly stepping out and saying: Allow community banks to serve communities.

In rural communities, like many of mine in Oklahoma, that bank was essential to the economic development of what is happening in farming, in ranching; what is happening in every single person getting access to a car loan or a home loan or just being that friend when they need a chance to talk about financial advice.

Now, Roger is a leader, and you can imagine, with bankers, who all have

lots of opinions and lots of great leaders, he didn't agree with everybody all the time, but I would tell you something I know about Roger: He always listened. Always.

People would ask me about Roger and what I think of him, and I would say: He is a servant leader. He is a hard worker. He is a person who listens. He has strong opinions, but his strong opinions are based on his own experience in the facts of the day, but he is also a humble worker who is actually working for the best of everyone.

He will be missed in my State—21 years of serving in the State chamber and leadership in so many areas in our State—but I am grateful today and in the days ahead that he is going to finally get a chance to just be grandpa and hang out with those 12 grandchildren.

Enjoy those days, Roger. Thank you for what you have done to be able to help lead our State in this area and to be able to serve so many community bankers all across the Nation.

I yield the floor.

The PRESIDING OFFICER. The Senator from Arkansas.

#### NORD STREAM 2 PIPELINE

Mr. COTTON. Madam President, as the disasters pile up left and right from these early months of the Biden Presidency, one might be called the Tail of Three Pipelines—three separate pipelines, three separate challenges, united by one consistent theme. In each case, the foolishness and weakness of the Biden administration has led to the disaster.

First, President Biden began his administration by killing the Keystone XL Pipeline on day one. This decision was a gift to the radical environmentalist nonprofit industry in Washington, DC, and destroyed thousands of good, high-paying, blue-collar, American jobs, including many jobs in my home State of Arkansas.

Second, last week Russian-affiliated hackers attacked the Colonial Pipeline—an artery that supplies nearly half the fuel for the east coast—causing widespread gas shortages across the Southeast.

Instead of making the hackers feel the full wrath of the U.S. Government, the Biden administration called the attack a private sector concern. Colonial then paid the hackers over \$4 million in ransom, presumably with Biden administration foreknowledge and acquiescence, if not explicit support. This payment, of course, will only encourage further such attacks on American companies.

Third and finally, yesterday the Biden administration announced it will waive major, legally mandated sanctions against the Russian Nord Stream 2 Pipeline into Germany. This refusal to implement sanctions approved by Congress directly benefits by design the Russian company building Nord Stream 2 and its CEO, who—you won't believe it—is a former Communist, East German Stasi officer and longtime crony of Vladimir Putin.

President Biden's decision to cave on Nord Stream 2 is just the latest show of weakness towards Russia by this administration, which is strange, coming from a party that spent the last 4 years all chesty and boastful, pretending they were Jack Ryan in a Tom Clancy novel.

Nord Stream 2 will serve as a noose around the neck of Europe's energy supply. It will allow Russia to squeeze the sovereign nations of Eastern and Central Europe into submission.

You may think I am exaggerating, but Russia has used energy as a weapon of foreign policy many times in the past. In 2009, for instance, Russia shut off the flow of natural gas to Europe during a dispute with Ukraine, causing energy shortages in the dead of winter. Russia has reduced or shut off gas to Austria, Poland, Romania, Lithuania, and Slovakia whenever those countries have refused its demands or otherwise displeased the Kremlin.

Nord Stream 2 will deepen Europe's addiction to Russian gas and make it ever more dependent on the dealer. All of Europe could suffer, but Ukraine would be hurt the most of all. If the Nord Stream 2 pipeline comes online, Russia could bypass Ukraine entirely. This would not only cost Ukraine's economy billions of dollars in transit fees, it would also give Russia the ability to isolate and starve this proud nation. It is hard to imagine a worse time for this to happen, with Russian troops massed on the Ukrainian border, while Russia's dictator salivates over conquering or further partitioning this country.

It is no wonder that the vast majority of Europe sees the dire danger posed by this pipeline. The European Parliament voted overwhelmingly against it on three separate occasions, including just last month. The United Kingdom, France, and Eastern Europe firmly oppose its construction as well. It is only a small but influential group of German elites who support this misguided plan.

It is ironic that these men and women of power and privilege would doubtlessly claim to support the so-called liberal international order, as is the fashion in such circles, but their actions are directly empowering a dictator who poses the greatest threat to their dreams; a man who rose to power and has maintained it through extortion, murder, and brutality.

Putin's most recent political rival, Alexei Navalny, was poisoned with a nerve agent and today is rotting in a Russian penal colony. Navalny's only crime was exposing the corruption and depravity of the Russian state. Yet President Biden wants to enrich and reward this very regime.

Ultimately, the pipeline is emblematic of the Biden administration's "America last" foreign policy, but there is still time to stop it. I am urging the President to reverse course immediately. There is little room for error left at this late, perilous stage.

Nord Stream 2 is 95 percent completed. Like an outstretched arm, Russia's pipeline extends ominously within reach of Germany's shore. We have to move quickly and in concert with our allies to make sure it extends no further.

This Russian pipeline is bad for America and bad for Europe. If the President wishes to take the reins of international leadership, this is his opportunity. Kill Nord Stream 2 now, and let it rust beneath the waves of the Baltic.

I yield the floor.

#### ONLINE PRIVACY

Mrs. BLACKBURN. Madam President, one of the benefits of vaccine rates going up is that school districts will no longer have an excuse to keep kids and teachers at home for virtual learning. But if I know kids—and as a mom and a grandmom, I can assure you, I understand the kiddos—getting them back in the classroom won't get them away from the screens.

These big tech companies in China and the Silicon Valley have done their jobs well. For many American kids, devices are integrated into their everyday lives. There is no escaping that 4-inch plate of glass in their pockets. It has become a part of their culture.

Now, this addiction to tech doesn't sit well with many parents and watchdogs. We have all heard arguments that in order to break this addiction, we need to somehow change the culture and persuade young people to break their own ties with Big Tech. I have a different argument: It is Big Tech that needs to change its culture.

As we all know, many of these companies are little more than glorified ad agencies. Facebook, Twitter, Google, and TikTok have all been successful because of their advertising strategies. Their job is to get eyeballs on content and keep fingers scrolling up and down the screen. This means that with every shiny new update, their advertising algorithms have also gotten an update.

The more complex and pervasive these tracking figures become, the harder it is for users to understand what data these companies are collecting and how that data is going to be used. Not even tech-savvy adults can keep up with the legalese in those updated privacy policies.

I think if I went around this Chamber and asked "When is the last time you read the terms of service on an app update?" I am willing to bet the answer for most of us would be "Well, it was a long time ago," or it could be maybe even never.

Big tech companies have taken advantage of that, and they have created

within their sphere a culture of pushing boundaries. It is do first, apologize later, and never ever respond to questions about their policies with a straight answer.

This Congress, I reintroduced the BROWSER Act as a way of pushing that culture toward a more consumer-friendly consent model. It would require tech companies to add opt-in and opt-out features to their data collection policies and inject some transparency into the relationship between the user and the service provider. It is a great place to start and a key element of my virtual new protection agenda.

Regulation hasn't kept up with innovation—that much is clear—but neither has demand for corporate responsibility and transparency. It is time to change that, and I encourage all of my colleagues on each side of the aisle to take a look at the BROWSER Act.

But what about those kids? Tech companies are increasingly catering to young demographics, which means the kids are exposed to more of the online world every day, which, depending on what corner you find yourself in, is a productive educational experience, or it could be a life-and-death situation.

Now, the science tells us that, physically, children do not have the cognitive ability to understand the advertisements and data collection scenarios that they are being thrown into. Their brains are simply not developed enough. But the security moms out there are keeping an eye on all of this, and they will tell you they do not need an anatomy lesson to know when their child is in over their head. They see their children following trails left for them by predators, and they are bothered. They see their daughters falling apart over body image and self-esteem issues made worse by photoshopped images. They see the violence and the sexual content in music and movies that is created for adults, but children are being exposed to this.

They have a really bad feeling about the expanding role of technology in their child's life. The stats and the scandals we are seeing every day back up their concerns.

According to Common Sense Research, 98 percent of children in this country—98 percent of children in this country—under the age of 8 have access to a mobile device at home. In 2011, just over half of the children had that kind of access. This means that 98 percent of children under age 8 are subjected to unprecedented levels of surveillance, data collection, and advertising attacks, even in supposedly kid-friendly apps.

Alphabet, Google's parent company, got caught tracking children on their school-provided devices outside of school hours. Amazon got caught collecting recordings from children's Echo Dot Kids devices. Parents and regulators have raked Google, TikTok, and Facebook over the coals for pushing products to children that would increase social media addiction.

In 2020, the National Center for Missing and Exploited Children received a recordbreaking 21.7 million reports of suspected child sexual exploitation, and 21.4 million of those reports came from electronic service providers. If you are looking for the danger, there it is.

During yesterday's meeting of the Commerce Committee's Consumer Protection Subcommittee, Baroness Kidron had it right when she said that Facebook has not earned our trust, and I would encourage my colleagues working with me on this issue to apply this fact to Big Tech in general.

These companies are entangled in our daily lives and in the lives of our children, and they have no incentive to loosen their grip on our attention by making things easier to understand. Therefore, we have no incentive to assume they are acting with the interest of their customers in mind.

Remember that terms of service agreement we talked about earlier? Well, imagine standing by and asking a child to read, understand, and make an informed choice about whether to click the "accept" button. This is preposterous. We need to bring the parents back into the conversation and inject accountability and transparency into the process.

Last Congress, I introduced the SAFE DATA Act with my colleagues, Senators WICKER, THUNE, and FISHER. This bill contained a requirement that companies not transfer data collected from children between the ages of 13 and 16 without the explicit consent of their parent or guardian. This Congress, I hope my colleagues, Democratic and Republican, will be willing to work with me on similar legislation that truly targets this problem of child exploitation online.

We will never change the culture of Big Tech—the culture Big Tech has created for itself—if we don't take steps right now to de incentivize the monetization of children's attention and browsing habits. This is a bipartisan issue.

The Zuckerbergs and the Dorseys and the Pichais of the world who have come to testify before the Commerce Committee—they understand this. It wasn't a pleasant experience for them, but I do believe they have gotten the point. They need to understand that when it comes to privacy and safety mistakes, there is no safe harbor to be found here in the U.S. Senate, especially when it concerns the exploitation of our precious children.

What we have going on is going to be even more unpleasant when these security moms start upping the ante and start cutting off the flow of all that valuable underage data that is produced by their children online that is being data-mined by these big tech companies and then sold to advertisers, sold to the highest bidder. That is the breaking point we are rapidly approaching.

I yield the floor.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. Madam President, I ask unanimous consent that I be permitted to complete my remarks before the scheduled vote.

The PRESIDING OFFICER. Without objection, it is so ordered.

CICADAS

Mr. CARDIN. Madam President, I am fortunate enough to live in Baltimore, and I say that because I can commute every night to home, which is a real pleasure, to be able to be with my family in the evening. My wife Myrna and I normally take a morning walk before I start the day, and I can get the morning report from my neighbors as to what is on their minds.

So, this morning, you might be surprised to learn that the major topic of discussion was the Brood X, also known as the cicadas. These are the cicadas that appear every 17 years. Now, I must tell you, that became our subject because we were all trying to avoid stepping on them as we were walking.

Most of us would describe world events of the past calendar year as unprecedented, and this characterization is not wrong. For public health, for the economy, and for our democracy, the year 2021 has indeed brought us challenges previously unimaginable. However, 2021 also marks a predictably predictable natural phenomenon: the emergence of what is known as the 17-year cicadas. Reliably, every 17 years, these insects emerge in the Mid-Atlantic in droves. People greet their visits with equal amounts of scorn and excitement. Some of that is depending upon age.

I hope that we can use this 17-year marker to celebrate the scientific contributions of an unappreciated Marylander and reflect more broadly on the history of the relationship between humans and the natural environment in the Mid-Atlantic, especially the Chesapeake Bay.

Maryland sees the highest concentration of cicadas on the east coast. Scientists estimate that in some places, we have more than 25 or 30 cicadas per square foot or more than 1 million per acre. In addition to this astonishing quantity, male cicadas will perform a mating song that, in large groups, can reach the same decibel level as a lawnmower.

The cicadas' visits last only a matter of weeks for the purpose of mating, molting, and laying eggs that will eventually burrow into the ground and repeat the process in another 17 years.

In the words of prominent Maryland scientist Benjamin Banneker, "If their lives are short, they are merry," noting that "they still continue on singing till they die."

Benjamin Banneker's original handwritten document describing the cicadas in 1800 is at the Maryland Center for History and Culture in Baltimore. He accurately predicted the next 17-year cycles. Over the course of his life, he witnessed four 17-year cycles of cicadas. Benjamin Banneker may have

been the first scientist to observe and record the 17-year lifecycle of cicadas.

Banneker was born in 1731. His father, Robert Bannaky, was a formerly enslaved Black man. His mother Mary was a free woman of mixed racial heritage.

Banneker demonstrated a keen interest in the sciences after his maternal grandmother taught him to read and write, and he continued his education at a Quaker schoolhouse in Baltimore County. He quickly excelled in the area of mathematics and astronomy and is now considered one of the first African-American intellectuals to gain widespread fame.

He is probably best known for authorizing a series of commercially successful farmers' almanacs that predicted weather and tidal patterns for farmers and fishermen. Banneker also predicted lunar and solar eclipses, contributed to surveying the land for the U.S. Capitol in Washington, DC, and reportedly built the first domestically produced wooden clock in the country.

In addition to his contributions to science and agriculture, Banneker advocated for abolition in a series of letters he exchanged with President Thomas Jefferson.

Mainstream historical narratives have largely excluded Banneker's accomplishments as a prominent Black intellect in the early days of our Nation. As we consider the enormous interest in the arrival of cicadas, it is appropriate that we acknowledge Banneker's early leading role in predicting the 17-year cycle.

There are few historical artifacts from Banneker's home in Maryland, which burned down shortly after his death. Fortunately, we have the Benjamin Banneker Historical Park and Museum in Catonsville, MD, which Baltimore County administers. The park tells the story of his remarkable life and the impact the natural environment of the Chesapeake Bay had in sparking his intellectual curiosity.

Maryland Governor Larry Hogan issued a proclamation declaring May and June 2021 as Maryland Magicicada Months to recognize the return of the 17-year periodical cicadas and to generate public awareness about this phenomenon.

Fortunately, cicadas' buzz is worse than their bite. Cicadas do not chew, bite, or sting, so they are not a threat to humans, pets, animals, or most plants.

The unit of time marked by the arrival of the periodic cicadas in the region is a useful interval to observe how the local environment has changed over time.

Two years after the last emergence of cicadas in 2006 was the first year the University of Maryland Center for Environmental Science's report card was released. The habitat health values were generally poor overall in 2006, with a dramatic reduction in bay grasses. In 2019, the overall score for Chesapeake Bay was a C-minus. This

means the bay is in moderate health and is slightly improving over time. For its first ever score, the Chesapeake Bay scored B-minus. That means the larger watershed is in good health.

The path to success for Chesapeake Bay's restoration remains steep and is only becoming more challenging due to the harmful effects of climate change. Warmer and wetter weather conditions work against progress on removing pollutants and creating habitats conducive to population regrowth. The Chesapeake Bay Clean Water Blueprint set forth a timeline for the six watershed jurisdictions that end in 2025.

Now more than ever, we need State, local, and Federal partners working in tandem to meet these goals. The Chesapeake Bay Program will play a central role in that effort, bringing various Federal Agencies, State and local governments, and nonprofit organizations together to meet these goals.

A 17-year review of progress for the Chesapeake Bay should energize the community to work hard to meet our goals. In order to do so, we need the U.S. Environmental Protection Agency to play its role as the referee for the Chesapeake Bay Program. The success of the effort depends on the stringent enforcement of statewide pollution reduction plans by the EPA.

As we consider the next arrival of cicadas in the area in 2038, it is impossible not to look ahead to the climate goals the Biden administration has enumerated. By 2030, President Biden has pledged that the United States should have reduced economy-wide net greenhouse gas pollution by 50 to 52 percent. This goal is also referred to as the nationally determined contribution, which is formally submitted to United Nations Framework Convention on Climate Change. President Biden made this announcement during the Leaders Summit on Climate, which serves to demonstrate the return of the United States to leadership on climate issues.

The natural environment is probably one of the most obvious markers of the passage of time and provides an appropriate moment of reflection. Seasonal changes, growing trees and crops, and even the arrival of the cicadas can push us to acknowledge where we have met our objectives and where we have fallen short on our goals. In terms of our local and global environmental restoration goals, we have a lot of work to do before 2037.

#### TRIBUTE TO LOUISE FOSTER

Madam President, as we reflect on change, I would like to take this opportunity to congratulate a member of my personal staff, Louise Foster, on her matriculation at Columbia University School of International and Public Affairs this fall.

"Weezie," as everyone who knows her calls her, has spent the last 3 years providing outstanding public service in my Washington, DC, office, first as a staff assistant on the frontline of constituent service and now as a legisla-

tive aide, applying science to environmental and infrastructure policy.

While my staff and I will miss her, we wish her the very best of luck and a little cicada magic in her academic pursuits.

With that, I yield the floor.

#### AMENDMENT NO. 1517

The PRESIDING OFFICER. Under the previous order, there will now be up to 2 minutes of debate, equally divided on amendment 1517.

The Senator from Hawaii.

Ms. HIRONO. Madam President, I ask unanimous consent to speak for 2 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. HIRONO. Madam President, I would like to thank Senator TILLIS for working with me on this amendment, amendment No. 1517, to the U.S. Innovation and Competition Act, which comes from our work on the IDEA Act, a bill that passed the Judiciary Committee last month with bipartisan support.

Promoting innovation is key to ensuring the United States remains competitive in an increasingly competitive global economy. Unfortunately, the limited data that is available suggests large segments of American society are not engaging with a key component of the innovation economy, the U.S. patent system.

Women make up only 13 percent of inventors. Black and Hispanic college graduates patent at approximately half the rate of their White counterparts. Closing these patent gaps would turbocharge the U.S. economy.

One study found that including more women and Black Americans in the early stages of innovation could grow our economy by 3.3 percent. Hold that thought. Another found that eliminating the patent gap for women with science and engineering degrees alone would grow the economy by another 2.7 percent. We are talking about hundreds of billions of dollars of growth to our economy.

But if we have any hope of closing these patent gaps, we must first get a firm grasp on who is and who is not using the patent system. Unfortunately, the PTO—Patent and Trademark Office—does not collect demographic data on applicants. As a result, researchers are forced to guess an applicant's gender based on his or her name, determine an applicant's race by cross-referencing census data, or explore other options that are time-consuming, unreliable, or both.

Our amendment solves this problem. It would enable the PTO to collect demographic data from patent applicants on a volunteer basis. I want to repeat that. This is on a volunteer basis. Nobody is forcing anyone to provide this kind of information. This data could then be analyzed by the PTO and outside researchers to identify where patent gaps exist and how to address them.

Let me be clear. Simply providing researchers more data would not solve

the patent gaps facing women, racial minorities, and so many others, but it is a critical first step. We need to have data with which to make decisions.

I encourage my colleagues to support this amendment.

Thank you.

I yield the floor.

The PRESIDING OFFICER (Mr. HICKENLOOPER). The Senator from North Carolina.

Mr. TILLIS. Mr. President, there are inventors in Colorado and Hawaii and across this Nation whom we don't even know about because the fact is, we have missed the opportunity to engage more people and have more diverse inventors.

We have to look at this from several different perspectives. Let's look at it from a national security perspective.

I have chaired the Intellectual Property Subcommittee for the last two Congresses. We heard endless reports of how China is churning out patents and more and more patents, breaking records every day. This commonsense amendment does nothing more than allow people to submit information that we can use to get a better beat on communities that we need to get into to create more intellectual property, to create more patents, and to get more people engaged in the patents and intellectual property system. With this bill, I believe we will make great strides.

I hope everybody will vote for this amendment.

Thank you.

The Senator from Florida.

Mr. SCOTT of Florida. Mr. President, the COVID-19 pandemic was devastating to our Nation and Congress came together in a bipartisan fashion to provide unprecedented relief for 2020.

Unfortunately, Democrats ditched that bipartisan approach in their so-called COVID bill, the American Rescue Plan, which was full of wasteful spending which has nothing to do with the crisis. It didn't receive a single Republican vote. Only 10 percent of the funds in the American Rescue Plan are related to COVID-19 and spending for vaccines is less than 1 percent.

With our Nation nearly \$30 trillion in debt and rising inflation, this spending is irresponsible and reckless.

One of the more ridiculous examples of waste was \$350 billion included for State and local bailouts, even though our States are doing just fine. In fact, California just announced it will have a \$75 billion surplus. Reckless spending has consequences, and we need to be fiscally responsible in every use of taxpayer dollars.

This amendment would simply pay for the U.S. Innovation and Competition Act and all provisions of this bill by using unobligated, unnecessary funding for the American Rescue Plan. I ask for your support.

The PRESIDING OFFICER. The Senator from Washington.

Ms. CANTWELL. Mr. President, I enjoy working with my colleague from Florida on many issues, but on this particular issue, I disagree.

This amendment harms both my State and our Nation. It literally is saying: Take the money that went to local governments in the rescue plan and repeal it to pay for the Endless Frontier Act.

It said by the date of the enactment of this, if that money is repealed, it can go and take other money that was part of the recovery plan that isn't spent and start taking money from it.

I think this is the wrong way to do that. This would take money imme-

diately away from Tribes. It would take money away from healthcare. It would take money away from broadband and, eventually, it could take money away from things like aerospace, manufacturing, and money that is there for the people who have been impacted by the downturn who no longer have jobs and need to be retrained and skilled.

I think we should pay for the Endless Frontier Act as our appropriator colleagues will get the chance. Please don't ruin this bill by basically trying to pay for it with repealing State dollars.

UNANIMOUS CONSENT REQUEST—S. RES. 226

Mr. SCOTT of Florida. Madam President, I am proud to stand today in support of our great ally Israel. Israel is a vibrant democracy that supports capitalism, champions human rights, and holds free and open elections. Since its reestablishment in 1948, the United States has been Israel's most fervent supporter, and my home State of Florida has maintained a strong relationship with Israel throughout these years.

As Governor, I took a stand against discrimination and prohibited State agencies and local governments from contracting with companies boycotting Israel. I also signed legislation to ensure the State of Florida will not support those who participate in the BDS movement.

I traveled to Israel three times as the Governor of Florida to support our strong economic partnership and celebrate the opening of the new Embassy in Jerusalem. Israel's economic strength is key to its ability to defend itself and our common interests.

Last Congress, I was proud to cosponsor a bill recognizing Israel's sovereignty over the Golan Heights and also supported the Eastern Mediterranean Security and Energy Partnership Act to promote security and energy partnerships in the Eastern Mediterranean.

While I visited Israel numerous times, my most recent trip as Senator gave me a clear perspective on Israel's proximity to its enemies Hamas, Hezbollah, ISIS, and Iran. For decades, the people of Israel have endured unyielding attacks from terrorist groups, like Hamas, which with Iran's support and funding wish to destroy the Jewish State and its people.

Now, as thousands of rockets rain down, our resolve to stand with Israel must be stronger than ever. I want to be clear: Israel has every right to defend and protect its people from terrorist attacks and to do whatever is necessary to stop the murder of its citizens and foreign nationals residing in Israel.

No country—certainly not the United States—would allow the murder of its citizens. The terrorists blasting these rockets into Israel are the same terrorists that chant “Death to America.” They don't believe in democracy, and they want Israel wiped off the face of the Earth. As our great ally and the only shining example of democracy in the Middle East, Israel deserves our full support. Today and every day, the United States must align with those fighting for freedom and democracy, clearly denounce terrorism, and stand up against those who do not respect human rights.

The Trump administration made tremendous efforts to facilitate peace and prosperity between our great ally Israel and neighboring Arab nations, but we see the Biden administration

trying to unravel this progress and appease illegitimate Palestinian leaders, demonstrating once again the Democrats' reckless disregard for the security and prosperity of Israel.

The Palestinian leadership, which has been operating as a dictatorship for 15 years, had their last election for President in 2005. Biden has restored U.S. aid to the Palestinians, who openly support terrorism, wage war against Israel, and do not recognize its existence.

I am disgusted to see the anti-Israel agenda being pushed by the radical left. The Biden administration can't go down this path. They need to stop trying to rejoin the horrible Iran deal. Biden needs to stop his weak and misguided strategy and keep maximum pressure on the Ayatollah until Iran is no longer a threat to U.S. national security.

Israel deserves our full support; Israel deserves the right to peace and security; Israel deserves the right to protect its people from reprehensible terrorist attacks; and Israel deserves the right to take whatever means are necessary to stop the murder of its citizens and foreign nationals residing in Israel.

Because we have no greater ally in our efforts to preserve peace and secure our interests in the Middle East, I am proud to lead 29 of my colleagues today to condemn the escalating attacks by Hamas against Israel and thank them for joining me on this effort.

The resolution reaffirms the unwavering commitment of the United States to Israel and its right to take whatever means necessary to stop the murder of its citizens and foreign nationals residing in Israel. It is time for the U.S. Senate to say that enough is enough and unanimously adopt this resolution to make it clear that the United States stands with Israel. These terrorists need to know that acts of aggression toward Israel will never be tolerated.

President Biden should take immediate action to remind these terrorists and the world of the strong and unwavering support of the United States for the Israeli people, and we should stop cowering to the anti-Israel radical left.

I look forward to my colleagues joining me today to stand with Israel.

I ask unanimous consent that the Senate proceed to the consideration of S. Res. 226, submitted earlier today. I further ask that the resolution be agreed to, the preamble be agreed to, and that the motions to reconsider be considered made and laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Is there objection?

Mr. SANDERS. Reserving the right to object.

The PRESIDING OFFICER. The Senator from Vermont.

Mr. SANDERS. Madam President, reserving the right to object, and I will object to the unanimous consent request by Senator SCOTT and offer my

own resolution. Unlike Senator SCOTT's resolution, mine is short and to the point, and I think it expresses the feelings of the overwhelming majority of people in our country and, in fact, throughout the world.

This is what our resolution says:

Whereas every Palestinian life matters; and

Whereas every Israeli life matters:

Now, therefore be it resolved that the Senate urges an immediate cease-fire to prevent any further loss of life; and further escalation of conflict in Israel and the Palestinian territories, and supports diplomatic efforts to resolve the Israeli-Palestinian conflict, to uphold international law and to protect the human rights of Israelis and Palestinians.

I would like to thank my colleagues Senator WARREN, Senator VAN HOLLEN, Senator KAINE, Senator CARPER, Senator HEINRICH, Senator MURPHY, Senator MERKLEY, Senator OSSOFF, Senator LEAHY, and Senator MARKEY for cosponsoring this resolution.

I would also like to point out that those of us who are supporting an immediate cease-fire are certainly not alone. We join with nearly unanimous calls from the European Union, with United Nations Secretary General Antonio Guterres, with Pope Francis, and with many others. In other words, all over the world people are seeing the terrible tragedy that is taking place in the region, and they want an end to it as quickly as possible through a cease-fire.

Now, I happened to have read Senator SCOTT's resolution, and I was particularly struck by one sentence in it on page 2. What it says:

The Senate mourns the loss of innocent life caused by Hamas' rocket attacks.

That is on page 2. Now, I certainly agree with that, and I think every Member of Congress agrees with that. The loss of 12 innocent Israeli lives is, in fact, a tragedy.

But what about the loss of 227 Palestinian lives, including 64 children and 38 women? Does Senator SCOTT not believe that the loss of those Palestinian lives, 64 children and 38 women, among others, is not a tragedy?

I believe that we should be mourning the loss of Israeli life, but we should also be mourning the loss of Palestinian lives or perhaps some people think that Palestinian lives don't matter. I would hope not.

And let us be very clear that when we talk about the tragedy that is now taking place in Gaza, what we are talking about is not only the terrible loss of life. As I hope most people know, Gaza, before this war, was an extremely poor and desperate community, and the latest Israeli bombardment has only made a bad situation much, much worse.

Let us remember, Gaza has been under a blockade since 2007, imposed by Israel and Egypt. Most people are unable to leave. Basic necessities are extremely hard to obtain.

Gaza is the home to about 2 million inhabitants. Its population density is among the highest in the world—just a

huge amount of people squeezed into a very small area. More than half of the population of Gaza, some 56 percent, live below the poverty line. Seventy percent of the population is receiving aid, according to estimates by the United Nations. Food rations constitute most of that aid. Unemployment in Gaza is around 45 percent; 48 percent of the population is under the age of 18; and 70 percent—let me repeat—70 percent of the young people in Gaza are unemployed, with no hope for the future.

And because of this war, the bombardment from Israeli planes, the situation has gotten even worse.

Today's New York Times reports that the Israeli bombardment has—this is from the New York Times—“damaged 17 hospitals and clinics in Gaza.” Got that? Seventeen hospitals and clinics have been damaged.

The bombardment has “wrecked its only coronavirus test laboratory, sent fetid wastewater into its streets and broken water pipes serving at least 800,000 people. Sewage systems inside Gaza have been destroyed. A desalination plant that helped provide fresh water to [a quarter of a million] people in the territory is offline. Dozens of schools have been damaged or closed, forcing some 600,000 students to miss classes. Some 72,000 Gazans have been forced to flee their homes.”

That is from the New York Times this morning. Perhaps the situation has gotten even worse. I don't know. I want everybody to think for a moment what it means to be living in a very small territory, with dozens and dozens of planes attacking and bombing. What does it mean, in particular, to the children of Gaza?

Jess Ghannam, a professor of psychiatry at the University of California San Francisco who specializes in the psychological effects of armed conflict on children, told USA Today:

[What] children in Gaza are exposed to on a regular basis exceeds anything, anything that any children anywhere else in the world experience. There's basically no place to go for these children. They are unable to escape.

When you put people under this sort of continued, intense pressure, with no hope for a better future, you cannot be surprised when violence erupts. Indeed, 3 years ago, in May of 2018, I wrote a letter, with 12 of my colleagues, urging the Trump administration to do more to alleviate the ongoing humanitarian crisis in Gaza. In that letter, we cited Israeli defense officials—Israeli defense officials—who were warning that if the crisis was not addressed, it could lead to yet another eruption of violence.

Why didn't we take notice then? And when this latest war ends, will the United States once again turn away? Will we consign those children, once again, to the horrible conditions they are forced to live under today? And I would hope that my colleagues appreciate that we must not do that.

Senator SCOTT's resolution says a lot about Hamas terrorists in Gaza. And

let us be clear, Hamas is a terrorist organization. It is a corrupt organization, and it is a repressive organization. But here is the irony: It is resolutions like Senator SCOTT's that help Hamas. Hamas would be overjoyed if Senator SCOTT's resolution were to pass.

Now, why is that? Let us understand that one of Hamas's goals is to show Palestinians that they represent the real resistance to the occupation. Senator SCOTT's resolution would help them do just that. By making this all about Hamas, Hamas, Hamas, Senator SCOTT is effectively echoing Hamas's own argument that Hamas is the true face of Palestinians' struggle, and I reject that, because, my friends, day after day, year after year, decade after decade, nonviolent Palestinian activists struggle against the daily violence and harassment of occupation—violence and harassment subsidized, by the way, with billions of U.S. taxpayer dollars.

Let us be very clear. No one is arguing that Israel or any government does not have the right to self-defense and the responsibility to protect its people. We should understand that, while Hamas's firing rockets into Israeli communities is absolutely unacceptable, today's conflict did not begin with those rockets. It goes much, much deeper.

For years we have seen a deepening Israeli occupation in the West Bank and East Jerusalem and a perpetual blockade on Gaza, all of which makes life increasingly unbearable for the Palestinian people. The truth is that these policies, like this current war, will continue to strengthen—to strengthen—extremists on both sides, including Hamas. If you want to strengthen Hamas, support this war.

We, Congress, must understand that in more than a decade of his rightwing rule in Israel, Benjamin Netanyahu has cultivated an increasingly intolerant and authoritarian-type of racist nationalism. In his frantic effort to stay in power and avoid prosecution for corruption, Netanyahu has legitimized extremist forces, such as the Jewish Power party, by bringing them into the government.

Moreover, we should understand that these dangerous trends are not unique to Israel. What was going on and what is going on in Israel, in my view, is a political tragedy, but it is part of a trend that is going on around the world, including here in the United States, where we are seeing the rise of authoritarian nationalist movements.

These movements exploit ethnic and racial hatreds in order to build power for a corrupt few, rather than prosperity, justice, and peace for the many. For the last 4 years, these movements have had a friend in the Trump White House, and on January 6, those forces attacked this very Chamber.

It is no accident that the only European Union country that did not join the nearly unanimous statement yes-

terday calling for a cease-fire was Hungary. Hungary did not join the rest of the European Union, and Hungary, of course, is led by the ethno-nationalist authoritarian Viktor Orban, a strong ally of both Netanyahu and Donald Trump.

Now, some may choose to be on that side, but that is not the side I choose to be on. We must be on the side of those who want to build a society based on real security and political equality and based upon the principles of economic justice, racial justice, political justice, social justice, and environmental justice. I believe we must stand in solidarity with those Palestinians and Israelis working to build a future of equality and peaceful coexistence and not with the intolerant extremists on either side, who wish to destroy that future.

In this moment of crisis, the United States should be urging an immediate cease-fire. My colleagues, I strongly believe that the United States has a major role to play in helping the world build a more peaceful and prosperous future, one in which human rights are upheld and the life of every human being is valued.

We should be leading the world in combating the existential threat of climate change. We should be leading the world in making sure that every person on Earth, no matter what country he or she lives in, receives a vaccine to protect them from the COVID-19 virus, and, yes, we should lead the world in attempting to bring the Israeli people and the Palestinian people together.

If the United States is going to be a credible voice on human rights on the global stage, we must recognize that Palestinian rights matter. Palestinian lives matter.

Madam President, I object to the Scott resolution.

The PRESIDING OFFICER. Objection is heard.

The Senator from Florida.

Mr. SCOTT of Florida. Madam President, today is a sad day for the U.S. Senate, and one we will not forget. No one in this body supports the loss of innocent lives—no one. But let me be very clear about what we just witnessed. We just saw the Democratic Party completely abandon the sovereignty of Israel in support of a terrorist organization. The radical left is fully embracing the lie of false equivalence and refuses to plainly state: Israel has the right to defend itself, period.

The resolution I offered today simply reaffirms our support of Israel, one of our greatest allies and our most important ally in the Middle East. And it condemns the escalating terrorist attacks against Israel.

This isn't controversial. In fact, it is in line with everything America has stood for, for generations. It is actually in line with what my colleague just wrote in his op-ed for the New York Times. He said: “No one is arguing that Israel, or any government, does not

have the right to self-defense or to protect its people." So why is he objecting to this today? Does he agree with the radical left that the United States shouldn't follow through with a critical arms sale to Israel as it continues to face attacks?

It was not long ago that the Senate, including my colleague, stood with Israel on a bipartisan basis. In fact, in 2014, when Israel was again subject to a barrage of rockets targeting innocent Israelis, then-Majority Leader Reid offered a resolution supporting Israel's right to defend itself against Hamas.

The 2014 resolution even acknowledges the simple truth that "Hamas refuses to recognize Israel's right to exist." It also said: "Hamas refuses to recognize Israel's right to exist." It says: "Hamas uses rockets to indiscriminately target civilians in Israel." It says: "Hamas intentionally uses civilians as human shields." And it resolved to "condemn Hamas's terrorist actions."

The Senate, including my colleague, unanimously supported then-Majority Leader Reid's resolution supporting Israel's right to defend itself against Hamas and never said at that time that the resolution would embolden Hamas. Yet, today, something has changed for my colleague. You are seeing a growing and dangerous anti-Israel agenda permeate the Halls of Congress. Israel is a country surrounded by nations and terrorist groups that want it wiped off the face of the Earth. And as rockets rain down in Israel, my colleague refuses to stand with our ally.

I will say it again. Today is a sad day for the U.S. Senate and one we will not forget. I will never accept a weakened position on Israel—never. I will never stop fighting to support Israel and ensure the Biden administration upholds the longstanding and special partnership between the United States and Israel.

I yield the floor.

UNANIMOUS CONSENT REQUEST—S. RES. 225

Mr. SANDERS. Madam President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 225, submitted earlier today; further, that the resolution be agreed to, the preamble be agreed to, and that the motions to reconsider be considered made and laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Is there objection?

The Senator from Florida.

Mr. SCOTT of Florida. Madam President, reserving the right to object, my colleague is wrong for trying to boil this down in an attempt to distract from the reality we are seeing here today.

The radical left is fully embracing the lie of false equivalence and refuses to plainly state: Israel has the right to defend itself, period.

My colleague's resolution offers nothing supporting Israel's rightful efforts to stop this repeated cycle of vio-

lence. No one in this body welcomes the loss of innocent life—no one. But we cannot and I will not accept the left's ignorance of the evil and devastating role Iran plays in funding and supporting Hamas, the terrorist organization responsible for taking innocent lives.

My colleague's resolution offers nothing to condemn Iran, the world's largest state sponsor of terrorism. My colleague's resolution offers nothing to condemn Hamas.

Here is the difference between Israel and Hamas. Hamas uses its rockets to kill innocent Israelis. Israel uses its rockets to defend its people. It should not be difficult for the Senate to simply reaffirm our support of Israel, one of our greatest allies and our most important ally in the Middle East, and condemn the escalating terrorist attacks against Israel and its right to end the murder of its citizens.

It wasn't difficult to get that done in 2014, when my colleague and every other Member of the Senate unanimously supported then-Majority Leader Reid's resolution supporting Israel's right to defend itself against Hamas. The same resolution also said: "Hamas refuses to recognize Israel's right to exist." It says: "Hamas uses rockets to indiscriminately target civilians in Israel." And it says: "Hamas intentionally uses civilians as human shields." And it resolved to "condemn Hamas's terrorists actions."

So what does my colleague believe has changed about the facts on the ground since then? Here is what has changed. The Democrats now have a powerful and growing anti-Israel caucus in their party who defend terrorism against Israel. The Democratic Party has abandoned American values, and now they are abandoning American allies.

And, as I said earlier, we can't allow this dangerous anti-Israel agenda to permeate the Halls of Congress. We can't allow a blatant blind eye to be turned to Israel.

Israel is a country surrounded by nations and terrorist groups that want it wiped off the face of Earth. I will never accept a weakened position on Israel—never. And I am not going to stop fighting to support Israel and ensure the Biden administration upholds a longstanding and special partnership between the United States and Israel.

Therefore, I object.

The PRESIDING OFFICER. The Senator from Texas.

Mr. CORNYN. Madam President, the situation in the Middle East is a stark contrast from that of just 9 months ago.

Last summer, the United States helped broker the Abraham Accords—a historic step in the relationship between Israel and the United Arab Emirates. The UAE became the third Arab country—the first Gulf State—to recognize and normalize relations with Israel. Bahrain, Morocco, and Sudan would follow suit shortly thereafter.

These agreements mark historic progress toward peace in decades and appear to open a new era of diplomacy in the Middle East.

Today, though, the optimism we felt just a little less than a year ago has been replaced with more violence—more violence—and more destruction than we have seen in years and civilian casualties that continue to climb every day.

Hamas has fired thousands of rockets into civilian populations in Israel. If not for the Iron Dome anti-rocket defense system and the U.S. support and funding that made it possible, the death toll would be significantly higher than it is.

Just as any sovereign state under attack by terrorist forces would do, Israel has defended its citizens. Given the way Hamas uses Palestinian civilians as human shields—a war crime, by the way, for which Hamas alone is responsible—the counterstrikes have carried a human cost.

As the conflict has intensified, some of our colleagues on the other side of the aisle have called into question Israel's right to defend itself. They have acted as though there is some moral equivalency between the terrorist acts of Hamas and Israel's right to defend itself. They have called on the President to speak out against the conduct of Israel but not Hamas. It is as though they think that Israel is somehow a terrorist group, not the other way around.

As I said, Hamas has launched thousands of rockets specifically headed toward civilian targets in Israel. The moral equivalency argument between Hamas's attack and Israel's response is clearly divorced from any reality.

Let's be clear, though. This conflict is not a welcome development for anyone. The Israeli and the Palestinian people are bearing the cost of a conflict that they had no hand in creating.

It is important to remember that two things can be true. First, Israel has a right to defend itself. If Hamas or any other terrorist group or state launches an attack on Israel, its government has both the right and the responsibility to respond and protect its citizens. Secondly, the number of civilian casualties on both sides, particularly the number of children, is heartbreaking. Both of those things are true.

The violence and destruction we are seeing is devastating, made even more upsetting by the progress we appeared to have made just last year. But this is not a conflict between two governments; this is a sovereign state defending itself against a terrorist attack.

I am afraid that message has been lost on President Biden. When asked about the conflict earlier this week, White House Press Secretary Jen Psaki said the administration is using "quiet and intensive diplomacy"—"quiet and intensive diplomacy" while the rockets are raining down on civilian populations in Israel.

The only democracy in the Middle East is being attacked by a terrorist

organization, and the diplomatic strategy of the leader of the free world includes remaining quiet. I am reminded of President Obama's statement—bizarre now, in retrospect—talking about “leading from behind,” an oxymoronic doctrine which gave way to disastrous, albeit predictable, consequences in Libya. We continued to see the dire cost of poor American leadership in other foreign countries. In Yemen, in Iraq, Syria, and Ukraine, leading from behind has done nothing but harm the cause of peace.

I hope this serves as a wake-up call for President Biden of the dangers of a similar quest. “Quiet and intensive diplomacy” is not the appropriate course when one of our closest allies in the world is being attacked by an internationally recognized terrorist organization.

But we can't lose sight of the country behind the curtain, the silent financier of this conflict, which is Iran, the No. 1 state sponsor of international terrorism, because this is, in fact, a proxy war waged against the Jewish State.

Iran is a prolific state sponsor of terrorism and has felt growing pressure from the United States and its allies in recent years. The Trump administration withdrew from the Iran nuclear deal and placed sanctions on hundreds of businesses and individuals who have helped finance Iran's illicit activities. And there is no question that Iran stood to lose the most from the peace agreements brokered last year. The threat of Iran was largely responsible for these countries to come together and to lay down their arms and to work together.

The Biden administration has made clear it intends to recklessly revive the Iran deal, while loosening the sanctions that would provide the United States leverage to negotiate better terms. These important sanctions target Iran's support for terrorist groups like Hamas, as well as its ballistic missile development and human rights violations.

Removing them now, essentially unilaterally, is a grave mistake. Simply by signaling this intent, President Biden has already emboldened and encouraged Iran's malign activities through its proxies—Hamas, Hezbollah, and others.

This current loss of life and destruction demonstrate that Iran is capable of wielding deadly force, even with lean resources. Fewer sanctions, though, have meant less cash flowing to their terrorist proxies.

This week, we are reminded of the saying that has been around for years: “If Hamas laid down its weapons today, there would be no more violence. If Israel laid down its weapons, there would be no more Israel.”

America must remain steadfast in our commitment to support Israel, as well as our responsibility to counter threats posed by terrorist organizations like Hamas and malign nation state actors like Iran.

I hope for a day in the future when the Middle East can be a place of peace, stability, and democracy, but we simply will not reach that point without a strong and secure Israel.

I stand in full support of Israel and will continue to fight for a strong U.S.-Israel relationship. The United States does not bow down to terrorist organizations, and we will not allow our allies to be bullied and beaten by Hamas or any other terrorist group.

(Mr. OSSOFF assumed the Chair.)

S. 1260

Mr. President, on one final matter, we know the Endless Frontier legislation, which is on the floor today, is part of our response to the competition caused by an increasingly belligerent and aggressive China, and I am glad the Senate has taken up consideration of this legislation.

In coming days, I expect both sides to offer amendments to strengthen this legislation and to ensure that it addresses a broad range of strategic threats. As Leader MCCONNELL has said, a robust amendment process is critical to the success of this legislation.

One of the most pressing needs, though, is to bolster our domestic semiconductor manufacturing, which will be addressed and is addressed by the underlying bill. We rely on these microelectronic circuits, or semiconductors, for everything from our telephones that we have in our pockets to the cars in our driveways, to the missile defense systems that are right now knocking down Hamas rockets raining down over Israel.

Over the past couple of decades, as our need for semiconductors has increased, as we have become more technologically centric, so has our dependence on the countries that produce those semiconductors.

Here is a graphic reminder of our dependency on foreign supply chains in order to supply these critical semiconductors that are so important to our economy and to our national security. As you can see, 63 percent of the global market supply of semiconductors comes from Taiwan, 18 percent comes from South Korea, 6 percent from China, but nearly 90 percent of chips are sourced from Southeast Asia.

As we learned in the pandemic called COVID-19, vulnerable supply chains are something we need to be aware of and to fight against.

I am reminded of what President Jimmy Carter said in 1980 in the State of the Union Message when he spoke about the Persian Gulf and Soviet threats to the movement of essential energy supplies through the Strait of Hormuz. President Carter at that time articulated the Carter doctrine, as it came to be known. He said:

An attempt by any outside force to gain control of the Persian Gulf region will be regarded as an assault on the vital interests of the United States of America.

In other words, it would be an act of war because of the dramatic depend-

ence that the United States had at that time on oil flowing through the Strait of Hormuz.

But I think you could consider today that semiconductors are the new oil. Instead of the Strait of Hormuz, we are now dependent on a supply chain from parts of the world we can no longer depend upon.

Just as a blockade would have left the world with devastating consequences, a blockade of the semiconductor supply chain would have far-reaching, negative consequences to our national security and economy. In fact, we are getting a glimpse of what that might look like right now.

There is a global semiconductor shortage that is largely related to COVID-19 and has led to far-reaching consequences across virtually every industry. In Texas a couple of weeks ago, I met with executives from companies across the range of industries that have been impacted by the shortage of semiconductors, including automotive, consumer electronics, and defense.

So we need a strong response to restore domestic semiconductor manufacturing, which is why last year, Senator WARNER, the Senator from Virginia, and I introduced what we call the CHIPS for America Act. Thanks to the leadership of then-Chairman JIM INHOFE on the Senate Armed Services Committee, that became law, and it will help restore American semiconductor manufacturing by creating a Federal incentive to encourage chip manufacturing right here in the U.S.A.

But the thing we couldn't do then, even though the amendment we introduced passed 96 to 4, to authorize this Federal incentive program, the one thing that was missing was the money and the finances in order to make this happen.

My preference is always to fund things through the regular order whenever possible. We simply cannot get into the habit of cutting the Appropriations Committee out of the appropriations process. But there is clearly broad support for the CHIPS for America Act. As I said, 96 Senators voted to include it in the Defense Authorization Act.

I am committed to securing funding for the program created by the bill, and there have been many conversations about the alternatives available to us on how to do so.

Originally, we introduced a tax credit provision, but unfortunately that did not seem to gain the traction that we needed. When we tried to get the funding in December, we came up empty-handed.

But today I am glad to say there is a significant emergency appropriation included in the underlying bill. But unfortunately, politics being what it is and Washington being a political city, there are unnecessary and purely political provisions related to the payment of prevailing wages, which U.S. semiconductor manufacturing companies already pay their employees, and they

have created a problem for funding this noncontroversial measure to bring chip production back to American soil.

I have reached out to our friends across the aisle to try to work in good faith to reach a compromise that allows this funding to pass with a broad bipartisan majority. There is a clear and urgent need to bolster domestic semiconductor manufacturing and to secure one of our most, if not the most, critical supply chains.

Here is what a recent support of the National Security Commission on Artificial Intelligence said:

[The United States is almost entirely reliant on foreign sources for production of cutting-edge semiconductors critical for defense systems and industry more broadly, leaving the U.S. supply chain vulnerable to disruption by foreign government action or natural disaster.]

It is clear that other countries—notably China—are steadily investing in their own semiconductor manufacturing. Today, as I speak, China is building 17 fabs, or manufacturing facilities, in the People's Republic of China.

The United States needs to compete, and in order to do so, we need to pass this essential funding. We should not be bogged down by bipartisan or political points to be scored when, in fact, they really don't make any difference to the semiconductor industry because they already pay high wages. The only reason to do this is to try to advance the interests of organized labor and impose additional costs on the construction of these advanced fabrication facilities.

The fact is, this actually expands the role of prevailing wage requirements because this is essentially private construction, funded in part—in a modest part—by U.S. Federal tax dollars. So now is not the time to let politics get in the way of our progress. It is just simply too important to our country.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. INHOFE. Mr. President, before the Senator from Texas leaves the floor, I want to acknowledge that in Oklahoma, last Sunday, I was with a group of people, and, independent of each other, they asked the same question: Where is America, and what is happening over there right now? Our best friend and most loyal ally in that part of the world, Israel, is being hit by terrorists, and we are sitting back and not doing anything. It is just not thinkable that that could happen.

I think one of the most meaningful things that I had not heard before, stated this way, that the Senator from Texas stated was, if Hamas were to stop the attacks on Israel, Israel would do nothing, but if Israel were to stop responding, there would be no Israel left.

That is the situation we have there. It is something that is not understandable. It is something that we are going to do everything we can to reverse.

That is not why I am here on the floor, but I just wanted to mention that.

S. 1260

Mr. President, on this legislation that we are working on right now, we have an amendment. Senator SHELBY and I, jointly, have an amendment.

Now, we did this initially because I chaired the Senate Armed Services Committee and the Appropriations Committee, and it is an agreement that we had 10 years ago. We agreed on parity, that anything that we do that is going to be defense-related is going to be equaled by nondefense.

Now, that has been our pattern, Democrats and Republicans, for 10 years, but now the situation has changed, the way it is structured now in this bill, so that there is nothing in there for defense.

Here we are in the most threatened position we have ever been in with China. Yet the China bill is doing all these things with China, but it is not doing anything in terms of the military that we are suffering under right now.

We have to remember—a lot of people have forgotten this—that two administrations ago, in the Obama administration, we had a situation where, during the last 5 years—that would have been from 2010 to 2015—the President at that time, President Obama, had reduced the budget for defense by 25 percent. During the same timeframe, China had increased theirs by 83 percent.

Now, just look at that. That is what was happening. That was back in 2015, and now the situation is really getting worse because, since that time, China has increased its capabilities in hypersonics and other areas, so that they are actually ahead of us in many areas.

So what we want to do is just to be sure that, whatever product we come out with, we end up having parity between defense spending and nondefense spending. It is something we have been doing for a long period of time.

So the threat has not improved over the last 3 years but has only gotten worse. I think that any bill that really seeks to address the threat from China—the whole threat from China—must also address China's very real military and its broader military-civil fusion that is taking place right now. That is why any response can't separate out military and economic competition. It must be whole of government. And this bill is only focused on economic competition, not military.

Our amendment, SHELBY's amendment and mine, will make sure that any increase in nondefense, discretionary spending will be matched by the same level of increase to the defense spending. Now, this is not something that is just Republican. This is something that was agreed upon some 10 years ago by Democrats and Republicans. Yet that is not what we are looking at with this. So this would merely be going back and agreeing

with what we all agreed to, Democrats and Republicans.

In fact, in this document right here—we often refer to this document. This is the NDAA document that was put together, to remind my fellow Members here, this was six Democrats and six Republicans, all recognized in their skills in military planning, coming up with this document. This was 2018. Yet, today, it is just as applicable as it was back then. And that is what they talk about—what is necessary this year to spend on military to try to keep some type of a parity with China.

Now, this has to be our top priority. Our security underwrites everything else we do as a nation. That is why America is viewed as the leader of the free world. It can't be either one or the other. It has got to be both.

The Chinese are competing against us in every area, and this bill currently does nothing to bolster our national defense to confront this threat or to leverage our military and intelligence community's significant research and development expertise in this area. It doesn't establish the sort of cooperation between our defense and commercial sectors on technology and technological development that we need.

China isn't just investing in technology, manufacturing, and research; they are also investing in military. They are putting more money into modernizing their military than ever before. China is on a modernization sprint. They have been channeling money into building weapons that we don't even have yet, like hypersonics.

I was embarrassed about a year ago when China came out and in China, in their parade, they were displaying hypersonics, things we don't even have yet. That didn't used to be that way. It used to be, following the Second World War, that we always kept ahead at that time. We recognized that there was a risk there and that the risk was something we had to meet.

So they are on track to dominate in new capabilities like artificial intelligence and hypersonics and other areas. So, meanwhile, we are crawling forward because we aren't giving our military the resources they need to stay competitive with China.

We know what that looks like. It is at least 3 to 5 percent in real growth. Now, that is actually what is in this document right now. They have updated this to show that right now we should, in order to stay even with China, be upgrading somewhere between 3 and 5 percent, this year, in this budget. And we are reducing the amount. It doesn't even meet the cost of living.

So in the military advantage—that is what we use to deter China from moving from economic aggression to military aggression—we have already lost our edge in some areas. So, to maintain our military advantage, it is going to take investment, but President Biden is not willing to make the investment

we need. He is proposing to cut our defense budget, and that doesn't even keep pace with inflation.

So, meanwhile, he is proposing to increase all other spending almost 20 percent, and in this bill here it spends as much on microchips for the auto industry as it does on microelectronics for our national defense. Can you believe that?

If we don't invest in our military deterrent, it is hard to see how any of our other efforts—diplomacy, innovation, economic growth—will succeed either.

So we will continue to work in a bipartisan fashion to address these needs. I really believe that this should be the first amendment to come up. I don't know. I am not in charge of that. But it should be. It is one that should be easy to pass because it was agreed to 10 years ago—that we didn't need to be in a position where we are not keeping up with China.

So our amendment does one simple thing. It is parity. It says any change that you make in the nondefense spending you have to have in defense spending at the same time. I believe that should happen. It should take place. I am hoping that we will have an opportunity to vote on that tomorrow.

With that, I yield the floor.

The PRESIDING OFFICER (Mr. KELLY). The Senator from Washington.

#### ORDER OF BUSINESS

Ms. CANTWELL. Mr. President, I ask unanimous consent that when the Senate resumes consideration of S. 1260 tomorrow, the following amendments be called up and reported by number: Inhofe-Shelby 1523 and Johnson 1518; further, at 12 noon tomorrow, the Senate vote in relation to the Inhofe amendment and at 1:30 p.m. in relation to the Johnson amendment, with no amendments in order to these amendments prior to a vote in relation to the amendment, with 60 affirmative votes required for adoption.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Ms. CANTWELL. Mr. President, just for the notice of our colleagues, I should say we are still trying to work out other amendments, including the Coons amendment and others, so we will be working on that this evening.

#### MORNING BUSINESS

Ms. CANTWELL. Mr. President, I ask unanimous consent that the Senate be in a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### HONORING FIREMAN SECOND CLASS MARTIN DAYMOND YOUNG

Mr. PAUL. Mr. President, Navy Fireman 2nd Class Martin Daymond Young, born on May 11, 1920, was one of nine children who grew up in a busy house-

hold in the tiny Dukes community in Hancock County, KY. His family said their goodbyes when he enlisted in the Navy in the summer of 1940 and he headed to the South Pacific—to Pearl Harbor.

Sadly, Daymond Young was one of the 429 crew members who perished aboard the USS *Oklahoma* on December 7, 1941. He was 21 years old. The tragedy of his death was even more unbearable for his family because he was buried in a mass grave among scores of unidentified shipmates.

His siblings and particularly his twin sister, Daisy, did all they could to keep his memory alive for their children, who remember a photo of Daymond in his Navy uniform that was always proudly displayed in her home. All of his nieces and nephews looked up to him even though most had never met him.

Beginning in 2015, new dental, anthropologic and mitochondrial DNA analyses were employed to identify those who had fallen at Pearl Harbor, eventually certifying Daymond's remains in 2019. His family members wanted to bury him on what would have been his 100th birthday, May 11, 2020, but the coronavirus pandemic made travel and a public ceremony impossible. So, finally, on May 15, 2021, the remains of Daymond Young returned to beautiful Hancock County, KY, where he was buried alongside his ever-devoted sister Daisy. Among those welcoming him were his nephew, Layman Hawkins, of Lewisport, KY, and the many relatives and residents who knew him only by his legacy of sacrifice for his country.

The tragedy of war, the unanswered questions of forensic science, and even the restrictions of a pandemic were ultimately unable to separate the remains of this honorable sailor from his loving family and the community that refused to forget him. Likewise, we are honored to remember him, and to this returning sailor, we say, "Welcome home. Fair winds and following seas."

#### 75TH ANNIVERSARY OF CASPER COLLEGE

Mr. BARRASSO. Mr. President, I stand today to recognize the 75th anniversary of Casper College, a community, regional, and State pillar of education. Casper College is one of Wyoming's great educational institutions, with the mission of "Education for a Lifetime."

Casper College was the first community college in Wyoming. The idea for the college began following World War I. After 19 years of study and debate, a measure to establish the college was passed by the Wyoming Legislature. It was signed into law in February 1945 by then-Governor Lester C. Hunt. Casper Junior College opened in 1945 on the third floor of the Natrona County High School building. Timing was ripe for Casper College to meet the demands of the "greatest generation" of service

men and women who were eligible for the newly offered GI bill. Since that time, Casper College has continued that same spirited mission. The college is an incredible success story, growing into one of the largest and most comprehensive community colleges in the Rocky Mountain West.

In 1955, the rapidly expanding 2-year school moved to its present location on the hills below Casper Mountain. Today, the campus comprises 28 buildings on more than 200 acres. Casper College offers more than 140 academic transfer and technical and career programs. Eleven universities offer advanced degrees through university partnership programs. There are 40 University of Wyoming programs through the Casper College 2+2 Degree plan.

Casper College has received numerous awards and national recognition. In 2020, the College Consensus named Casper College one of the Fifty Best Community Colleges in the United States. The school was also named the ninth-best community college in the Nation in a recent study conducted by the personal finance outlet WalletHub. This study recognizes where students can receive the best education at the lowest price. In 2021, Great Value Colleges named Casper College as one of America's most beautiful community college campuses.

Casper College's core values are integrity, people, diversity, forward-thinking, and community. Alumni leaders include former Vice President of the United States Dick Cheney, the late country singer and rodeo cowboy Chris LeDoux, artist Chris Navarro, renowned entomologist Wayne Hunter, and Marlan Scully, American physicist best known for his work in theoretical quantum optics. The alumni list also includes former professional athletes Earle Higgins, Bob Lackey, and Flynn Robinson. With over 4,000 students each semester, Casper college will continue to produce outstanding artists, athletes, academics, and professionals.

Under the direction and guidance of President Darren Divine, staff, and faculty, Casper College continues a tradition of excellence started by the founders 75 years ago. They are educating, teaching, and training the next generation of leaders and professionals. The college board of trustees are Chair Steve Degenfelder, Vice Chair Tim Kugle, Secretary Sue Schilling, and Trustees Kathy Dolan, Liz Batton, Scott Bennion, and Susan D. Miller.

Student Senate leaders for this anniversary year are President Anastacia Slack, School of Business & Industry; Bre Long and Dylan Cornelius, School of Fine Arts & Humanities; Tierra Price and Jakob Duncan, School of Health Science; Madelyn Polys and Morgan Bundy, School of Science; Emma Mercer and Abby Hudman, School of Social & Behavioral Science; Logan MacKearney and Charissa Parker, Freshman Representatives; and members Paige Noble and Dani Warner.

Casper College is supported by the Casper College Foundation and Alumni Association. These organizations work with the community, donors, faculty, and staff to assist the college in fulfilling its mission. Together they invest in the legacy of Casper College.

In honor of the 75th anniversary, the Casper College Alumni Association named 25 former students and graduates as exemplary alumni. Congratulations to each one for their recognition at this special event.

#### ADDITIONAL STATEMENTS

##### RECOGNIZING THE FIRST ALL-FEMALE NO. 1 SINGLE IN COUNTRY MUSIC

• Mrs. BLACKBURN. Mr. President, in Music City, we have a saying: "It all begins with a song." It is our universal truth and the foundation of hundreds of iconic moments in country music. This year, we have the privilege of celebrating the breakthrough of one of Nashville's most promising young artists. Her moment appropriately began with a very special song and a very special group of songwriters.

It is my pleasure to recognize for the CONGRESSIONAL RECORD the first song in country music written, performed, and produced by an all-female team to hit the No. 1 spot on the charts.

Congratulations to songwriter and performer Tenille Arts, songwriter Allison Cruz, and songwriter and producer Alex Kline on the historic success of "Somebody Like That." On behalf of the entire Tennessee congressional delegation, I thank you for your stunning contribution to the beautifully female future of country music.●

##### TRIBUTE TO JENNIFER JAEGER

• Ms. CORTEZ MASTO. Mr. President, I rise to recognize one of my State's incredible educators, Jennifer Jaeger, who announced her retirement after almost three decades of work in the Clark County School District.

A native Nevadan, Mrs. Jaeger was born and raised in Las Vegas and began her work in education at UNLV, where she earned a bachelor's degree in secondary education and a master's degree in middle level education and educational leadership. Since obtaining her educator license, Mrs. Jaeger has worked in four different Las Vegas schools in capacities ranging from dean of students to assistant principal to, presently, principal of the Robert O. Gibson Leadership Academy.

Mrs. Jaeger has an accomplished history in serving Tier I, Title I schools and was recognized for her excellence in fostering a positive school culture and climate. During her time as principal, Robert O. Gibson Leadership

Academy received several accolades, including being named a Magnet School of Excellence for the year 2020 and one of the first Purple Star Schools of Nevada for showing "a commitment to understanding and addressing the unique needs of military-connected students."

Through her career, Mrs. Jaeger put immense focus on the well-being of her students, including through her work with low-income families to identify kids in need of new shoes. Her work has yielded annual benefits for students and families in need through the Warm the Soles program.

I ask my colleagues to join in me celebrating the amazing work of Jennifer Jaeger. Her service to Nevada schools and the community at-large has been exemplary and worthy of recognition.●

##### TRIBUTE TO JULIANA URTUBEY

• Ms. CORTEZ MASTO. Mr. President, I rise to recognize Juliana Urtubey, an outstanding Nevada educator and the 2021 National Teacher of the Year.

Each year, the Council of Chief State School Officers honors one incredible educator as the National Teacher of the Year. This honor is the most prestigious recognition for teachers in the country, and I am proud to honor Ms. Urtubey's achievement today. Juliana Urtubey is the first Latina Teacher of the Year candidate from the State of Nevada, the first Latina national finalist since 1992, and the first Nevada Teacher of the Year awardee in the history of the program. In addition, Ms. Urtubey is only the third special educator to receive this amazing honor.

Ms. Urtubey has been an educator for 11 years and teaches at Kermit R. Booker, Sr. Innovative Elementary School in Las Vegas, NV. There, she serves as a special education co-teacher for the prekindergarten through fifth grade levels and as an instructional strategist in developing supports to meet students' differing academic, social-emotional, and behavioral needs.

Ms. Urtubey is also a national board certified teacher and holds a bachelor's degree in bilingual elementary education and a master's degree in special bilingual education. Through her impressive teaching career, Juliana Urtubey has also held the role of board of directors member and teaching fellow with the National Board for Professional Teaching Standards, senior policy fellow with Nevada Teach Plus, and teacher fellow with the organization Understood.

In the classroom, Ms. Urtubey is also known as Ms. Earth for her work in unifying the community through murals and gardens in local schools. In this pursuit, Ms. Urtubey played a significant role in fundraising for garden programs at two Las Vegas schools.

I ask my colleagues to join in me celebrating this achievement. Ms. Urtubey's work in the classroom and

for our students is an example to all of us who wish to improve the lives of others and better our communities.●

#### TRIBUTE TO ROGER BEVERAGE

● Mr. INHOFE. Mr. President, it's my honor to recognize Roger Beverage, a distinguished Oklahoman and dear friend, who recently retired from his role as president and chief executive officer of the Oklahoma Bankers Association. While Roger is a native of Plattsmouth, NE, he has called Oklahoma home for decades. He began his career as a trial lawyer, where he transitioned to a leading role with the Nebraska Bankers Association and later as the director of the Nebraska Department of Banking and Finance. For the past 33 years, Roger has led the Oklahoma Bankers Association. He devoted much of his life to advocating for the banking community across Oklahoma and Washington, DC. There is no question his tireless work has left a lasting impact on our State. While it is sad to see him retire, I have great confidence that his successor and son, Adrian, will carry forward the influential legacy of his father in the years ahead.●

#### REMEMBERING VICE ADMIRAL JOHN CURRIER

● Mr. PETERS. Mr. President, I rise today to honor the memory of a devoted veteran of the U.S. Coast Guard, VADM John Currier, who passed away in March of 2020. I would like to take the time today to reflect on his service, courage, and tenacity as the hangar at the U.S. Coast Guard Air Station Traverse City is dedicated in his honor.

Born and raised in Westbrook, ME, Vice Admiral Currier began his career in service as a police officer. Further expanding his devotion to serve, Vice Admiral Currier commissioned from Officer Candidate School as a naval aviator in 1976. He was first assigned to U.S. Coast Guard Air Station Cape Cod, where a few years later, his skills and commitment to protect were tested.

On a snowy late October evening in 1980, the Coast Guard received a distress call from the TERRY T., a burning and sinking fishing vessel in 30 foot seas. Winds were gusting over 60 knots and visibility was cut to three-quarters of a mile from heavy rain, according to reports. Currier, unfaltering in his duty to be Semper Paratus, was able to maneuver his aircraft into position based only on voice commands by the hoist operator. He had rescued eight of the crew when two men were swept off the deck and were in the water. He was able to fly the aircraft into position in order to get the rescue basket beneath the drowning crew members and brought them on board.

Vice Admiral Currier was awarded the Harmon International Aviation Trophy, but his accolades and awards for rescue missions do not stop there. The Alaska Air Command SAR Pilot of

the Year Award, American Helicopter Society, Fredrick L. Feinberg Award, and the Naval Helicopter Association SAR Aircrew of the Year, all have been awarded to Vice Admiral Currier for various hazardous rescue missions throughout his career.

During his career, Vice Admiral Currier stood the watch at six Coast Guard air stations, from Alaska to Florida. He was designated as an aeronautical engineer in 1982, and after a few years in Alaska, Vice Admiral Currier was assigned to Air Station Traverse City in 1985.

Other assignments have included deputy program manager for the Coast Guard and Navy HH-60H/J joint helicopter acquisition at the Naval Air Systems Command, and chief of SAR operations and directory of auxiliary for the Ninth Coast Guard District. Vice Admiral Currier then served as commanding officer of Air Stations Detroit and then Miami, which was then the world's busiest air-sea search and rescue unit. An alumnus of the University of Southern Maine, he held a master's in business administration from Embry-Riddle University. He was a 1996 graduate of the U.S. Air Force Air War College and held a level III acquisition program manager certification.

Subsequently, he was assigned as Pacific area chief of operations, then area chief of staff, and was appointed commander of the 13th District, which covers the Pacific Northwest. He assumed the duties of the Coast Guard's chief of staff in 2009, later transitioning that position to the service's first deputy Commandant for Mission Support. Vice Admiral Currier assumed duties as the 28th Vice Commandant in May 2012, during which time he was awarded the title of Ancient Albatross of the Coast Guard, until his retirement in May of 2014.

Vice Admiral Currier was a devoted military man and was supported by an incredible spouse—his wife of 45 years, Mary Jane Currier. They were known for their hospitality and for throwing spectacular parties for fellow Coast Guard members, family, and friends. Mary Jane and John had two sons, Benjamin and Andrew. John was a devoted father who spent countless hours coaching Little League and teaching his two sons woodworking and auto mechanics. In his retirement, Vice Admiral Currier and Mary Jane enjoyed boating on Lake Michigan with their four grandchildren.

Mr. President, I ask you and my fellow colleagues to join me in celebrating the life and service of Vice Admiral John Currier. As we remember Vice Admiral Currier's life, I have no doubt his surviving wife, children, and family have found comfort in the precious moments they shared and in the love he showed them. With the U.S. Coast Guard Air Station Traverse City hangar now dedicated in his memory, I hope those who had the honor of serving beside Vice Admiral Currier remember his legacy when they enter it

and that future Coast Guardsman are inspired by his devoted and honorable career.●

#### RECOGNIZING ABRACADABRA'S

● Mr. RISCH. Mr. President, the challenges of the COVID-19 pandemic have not been easy for small business owners and their employees to overcome. Throughout the pandemic, many were forced to temporarily close their doors. Those that reopened had to innovate their business models to comply with local guidelines and public health mandates. As we turn the corner on the COVID-19 pandemic, I am proud to relaunch Support Local Gems, a statewide initiative, on May 21 to encourage Idahoans to support local small businesses in their communities. This month, as a senior member and former chairman of the Senate Committee on Small Business and Entrepreneurship, I will honor six small businesses located throughout the State of Idaho. I am pleased to honor Abracadabra's in Twin Falls as one of the Idaho Small Businesses of the Month for May 2021.

The Twin Fall's Abracadabra's is a breakfast-style bistro owned by Josh and Jonathan Swain and Nikki Bourne. The brothers have made it their mission to bring childhood magic back to breakfast food for all ages. The restaurant is renowned for engaging its customers through unique specialty dishes and an outside-the-box atmosphere. Customers rave about the creative food designs and the interactive dining experience. Its popularity has led to the restaurant winning the Magic Valley Readers' Choice Award for Best Breakfast in 2020.

Amid the pandemic, Abracadabra's was instrumental in providing essential items to the local community. Last spring, many local grocery stores experienced shortages of everyday items. The restaurant adapted its business model to provide wholesale products like bacon, eggs, flour, and sanitizing products in bulk to the community. Through the use of online ordering and curbside pickup processes, customers remained safely socially distanced while retrieving basic grocery items that they desperately needed. Thanks to their innovative thinking, the owners addressed the changing needs of their community while keeping their staff safe and employed.

Congratulations to Abracadabra's in Twin Falls on being selected as an Idaho Gem for the month of May. You serve as an example in your community and are an outstanding example of what it means to be one of Idaho's Local Gems.●

#### RECOGNIZING GREAT HARVEST

● Mr. RISCH. Mr. President, the challenges of the COVID-19 pandemic have not been easy for small business owners and their employees to overcome. Throughout the pandemic, many were forced to temporarily close their doors.

Those that reopened had to innovate their business models to comply with local guidelines and public health mandates. As we turn the corner on the COVID-19 pandemic, I am proud to relaunch Support Local Gems, a statewide initiative, on May 21 to encourage Idahoans to support local small businesses in their communities. This month, as a senior member and former chairman of the Senate Committee on Small Business and Entrepreneurship, I will honor six small businesses located throughout the State of Idaho. I am pleased to honor Great Harvest in Idaho Falls as one of the Idaho Small Businesses of the Month for May 2021.

The Great Harvest Bread Company in Idaho Falls is owned and operated by Tiffani and John Van Orman. With two locations in Eastern Idaho, the bakeries are known for their vast selection of artisan breads, sweets, and treats. They pride themselves on using the freshest ingredients and making their products completely from scratch.

Since its establishment over 20 years ago, the business has been actively involved in the Idaho Falls community, donating money and baked goods to school fundraisers, church gatherings, and local charitable causes. While the pandemic has impacted their business, it has not deterred their charitable efforts. During the March 2020 shutdown, Great Harvest kept all of their employees on the payroll and increased their production. The Van Ormans donated the extra food items to their local food pantry, YMCA, local school districts, hospitals, and emergency responders. They also placed Generosity Tables stocked with free baked goods outside of their bakeries and encouraged customers to take them to people in need. Their spirit of generosity is what defines Idaho's small businesses, and Great Harvest Bread Company has stepped up for its community during these hard times.

Congratulations to Great Harvest in Idaho Falls on being selected as an Idaho Gem for the month of May. You serve as an example in your community and are an outstanding example of what it means to be one of Idaho's Local Gems.●

#### RECOGNIZING HAPPY DAY CORPORATION

● Mr. RISCH. Mr. President, the challenges of the COVID-19 pandemic have not been easy for small business owners and their employees to overcome. Throughout the pandemic, many were forced to temporarily close their doors. Those that reopened had to innovate their business models to comply with local guidelines and public health mandates. As we turn the corner on the COVID-19 pandemic, I am proud to relaunch Support Local Gems, a statewide initiative, on May 21 to encourage Idahoans to support local small businesses in their communities. This month, as a senior member and former chairman of the Senate Committee on

Small Business and Entrepreneurship, I will honor six small businesses located throughout the State of Idaho. I am pleased to honor Happy Day Corporation in Lewiston as one of the Idaho Small Businesses of the Month for May 2021.

Happy Day is a four-generation family business founded by Bruce and Joy Finch in 1969. After opening their first franchise restaurant in the Lewiston area, the couple went into business with Bruce's father, Charles, and began to expand their venture. With 10 years of business under their belts, Bruce and Joy reorganized their budding company, officially naming it "Happy Day" to commemorate Joy's delight that their company was flourishing. Today, the business comprises 13 franchise and independent restaurants and a catering and events division. This has enabled the company to provide jobs for more than 450 employees in the Inland Northwest.

Above all else, Happy Day is known for its commitment to service. Each year, thousands of wildland firefighters battle wildfires throughout the West. In an effort to keep them fed, Happy Day provides hundreds of meals to these firefighters at their fire camps. In addition, the company has long supported veterans. Happy Day restaurants have served more than 100,000 meals to local veterans through its monthly Tuesday Vets Meal initiative where veterans can eat for free. Their enduring dedication to community service has garnered them local and national awards, including being inducted into the Idaho Hall of Fame in 2016. Happy Day's efforts to serve their community make them an exceptional example of service-oriented small business leadership.

Congratulations to Happy Day on being selected as an Idaho Gem for the month of May. You serve as an example in your community and are an outstanding example of what it means to be one of Idaho's Local Gems.●

#### RECOGNIZING MOUNTAIN MADNESS SOAP

● Mr. RISCH. Mr. President, the challenges of the COVID-19 pandemic have not been easy for small business owners and their employees to overcome. Throughout the pandemic, many were forced to temporarily close their doors. Those that reopened had to innovate their business models to comply with local guidelines and public health mandates. As we turn the corner on the COVID-19 pandemic, I am proud to relaunch Support Local Gems, a statewide initiative, on May 21 to encourage Idahoans to support local small businesses in their communities. This month, as a senior member and former chairman of the Senate Committee on Small Business and Entrepreneurship, I will honor six small businesses located throughout the State of Idaho. I am pleased to honor Mountain Madness Soap in Coeur d'Alene as one of the

Idaho Small Businesses of the Month for May 2021.

Mountain Madness Soap is a specialty handmade soap and bath products company founded by Jennifer and Andy Morsell. The business began with Jennifer's hobby of making organic soaps in her kitchen and giving them as gifts to friends and family. The enthusiastic reception she received inspired Jennifer and her husband to start their own business selling the soaps at local farmers markets and craft fairs. The pair eventually moved to Coeur d'Alene, where they opened their first shop. The business quickly found success as demand soared for their locally sourced soap and bath products. Finding themselves unable to keep pace with demand, the business expanded into a larger facility in 2016, enabling them to increase the size of their retail space and expand their production and fulfillment facilities.

To overcome the challenges and restrictions of the pandemic, Mountain Madness adapted its operations to continue serving the community safely. Jennifer and Andy kept the store open by implementing face mask requirements for employees, rigorous sanitation of facilities, and by adding curbside pickup and at-home deliveries. Jennifer and Andy made the safety of their customers and employees the top priority. They adapted quickly to new challenges and developed ways to bring their products to their customers. And through that quick and innovative response, they managed to grow their business despite the hardship. Mountain Madness continues to support its fellow Idaho small businesses by purchasing locally sourced product materials from other small businesses.

Congratulations to Mountain Madness Soap on being selected as an Idaho Gem for the month of May. You serve as an example in your community and are an outstanding example of what it means to be one of Idaho's Local Gems.●

#### RECOGNIZING THE SANDPIPER

● Mr. RISCH. Mr. President, the challenges of the COVID-19 pandemic have not been easy for small business owners and their employees to overcome. Throughout the pandemic, many were forced to temporarily close their doors. Those that reopened had to innovate their business models to comply with local guidelines and public health mandates. As we turn the corner on the COVID-19 pandemic, I am proud to relaunch Support Local Gems, a statewide initiative, on May 21 to encourage Idahoans to support local small businesses in their communities. This month, as a senior member and former chairman of the Senate Committee on Small Business and Entrepreneurship, I will honor six small businesses located throughout the State of Idaho. I am pleased to honor the Sandpiper in Pocatello as one of the Idaho Small Businesses of the Month for May 2021.

The Pocatello Sandpiper was founded by Bob Angell in 1975 and is currently owned by Rod Russell. With two locations in Eastern Idaho, the restaurant is known for its cozy atmosphere and steak and seafood offerings. It has become a staple of the local community, garnering awards for Best Restaurant, Best Steak and Seafood, Best Fine Dining, and Best Place To Take A Date awards in the Idaho State Journal's Readers' Choice Awards.

Rod and his wife, Kathleen, have served as leaders in the local community during the pandemic. The restaurant avoided layoffs, raised wages, and provided special meals to employees and their families even though they operated at a loss. In addition to the measures taken by the restaurant, upon receiving their \$1,200 stimulus check, the Russells began thinking of ways to give back to their community. As the brother of a truckdriver, Rod heard firsthand some of the challenges facing truckers amid supply chain shortages. To show thanks to an underappreciated group of essential workers, the Pocatello Sandpiper partnered with Idaho State Police and other small businesses to provide more than 600 free meals to truckdrivers in acknowledgment of their critical work. Rod's commitment to service allowed this small business to prioritize the needs of both its employees and the community.

Congratulations to the Sandpiper in Pocatello on being selected as an Idaho Gem for the month of May. You serve as an example in your community and are an outstanding example of what it means to be one of Idaho's Local Gems.●

#### RECOGNIZING TLC FOR TOTS

● Mr. RISCH. Mr. President, the challenges of the COVID-19 pandemic have not been easy for small business owners and their employees to overcome. Throughout the pandemic, many were forced to temporarily close their doors. Those that reopened had to innovate their business models to comply with local guidelines and public health mandates. As we turn the corner on the COVID-19 pandemic, I am proud to relaunch Support Local Gems, a statewide initiative, on May 21 to encourage Idahoans to support local small businesses in their communities. This month, as a senior member and former chairman of the Senate Committee on Small Business and Entrepreneurship, I will honor six small businesses located throughout the State of Idaho. I am pleased to honor TLC for Tots as one of the Idaho Small Businesses of the Month for May 2021.

TLC for Tots is a family-owned childcare and preschool learning center located in Nampa, ID. In 2006, owners Dave and Elizabeth Fetzer started the business out of their home, providing individualized attention to each of its students. The business quickly outgrew its original location, relocating in 2008

to a larger facility where it remains today. The owners credit their success to their phenomenal staff who are constantly training and reeducating themselves to provide high-quality care. Additionally, TLC for Tots facilitates early intervention programs and sponsors family events to ensure the continued growth of their students.

TLC for Tots has remained committed to combating the spread of COVID-19. At its facility, temperature checks are regularly administered, daily cleanings are conducted throughout the facility, and staff were required to wear masks throughout the day during the height of the pandemic. The business provides more than a dozen jobs to the Nampa community and has been dedicated to serving local families while adhering to COVID-19 guidelines.

Congratulations to TLC for Tots on being selected as an Idaho Gem for the month of May. You serve as an example in your community and are an outstanding example of what it means to be one of Idaho's Local Gems.●

#### RECOGNIZING FARMERS FEEDING UTAH

● Mr. ROMNEY. Mr. President, I rise to commend the outstanding charitable efforts of the Farmers Feeding Utah campaign, a project of the Miracle of Agriculture Foundation and the Utah Farm Bureau Federation. As the pandemic brought new challenges to farmers, ranchers, and families everywhere, volunteers and community leaders across the State joined together to help our neighbors in need.

Last year, disruptions to our food security and supply chains led to uncharted economic hardship for both producers and consumers. For many, this included putting food on the table. Nevertheless, Utahns were determined to chart new opportunities for creative and charitable giving.

Recognizing an alarming increased demand in food pantries statewide, the Utah Farm Bureau Federation launched a campaign to deliver food to disadvantaged Utah families. To achieve this, the Farmers Feeding Utah program collects generous donations used to purchase commodities from Utah farmers facing pandemic-related market shortages and losses. These products are distributed to food pantries with the help of numerous community-based organizations, which in turn sustains our farms and ranches.

To date, the Farmers Feeding Utah campaign has collected over 1.5 million pounds of food, worth over \$3.2 million, from donations by individuals and organizations passionate about alleviating hunger. These extraordinary acts of kindness have provided nutritional relief to more than 23,000 Utah families along the Wasatch front, northern Utah, the Navajo Nation, and across southern and rural Utah.

The success of this initiative underscores Utah's excellence in fielding solutions to complex problems, to the

benefit of individuals and families in need. The collaboration of diverse partners across the agriculture industry, health sector, and religious and academic institutions highlights our State's esteemed tradition of charity. In addition to the Utah Farm Bureau Federation, partners like Utah State University's Hunger Solutions Institute and Create Better Health programs, the Utah Department of Agriculture & Food, the Farm Bureau Financial Services, the Utah Petroleum Association, the Church of Jesus Christ of Latter-day Saints, and scores of generous Utah companies and individuals have provided invaluable support to this effort.

There is more work to be done, which is why the Farmers Feeding Utah program continues to organize food drives and deliver critical assistance in cities all over Utah. With every additional meal donated to a hungry family, our Utah family grows ever stronger. Thank you to all involved in this tremendous public-private service initiative, with special gratitude for the strong leadership of Ron "The Milkman" Gibson as Farm Bureau president. Keep up the great work.●

#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTION

By Ms. HIRONO (for herself, Ms. MURKOWSKI, Mr. SULLIVAN, Mr. BLUMENTHAL, Mr. BOOKER, Mr. BROWN, Ms. CANTWELL, Ms. CORTEZ MASTO, Ms. DUCKWORTH, Mrs. FEINSTEIN, Mrs. GILLIBRAND, Ms. ROSEN, Mr. SANDERS, Mr. SCHATZ, and Ms. WARREN):

S. 1708. A bill to exempt children of certain Filipino World War II veterans from the numerical limitations on immigrant visas, and for other purposes; to the Committee on the Judiciary.

Ms. HIRONO. Mr. President, I rise today to introduce the Filipino Veterans Family Reunification Act of 2021. This important legislation would expedite the visa process for adult children of Filipino World War II veterans, so they can reunite with their relatives in the United States. Today, fewer than 6,000 Filipino World War II veterans remain. Many of these veterans are now in their late 80s and 90s, and have been separated from their loved ones for far too long.

During World War II, more than 250,000 Filipino soldiers fought under the American flag to protect and defend the United States in the Pacific

theater. These Filipino soldiers fought shoulder to shoulder with U.S. servicemembers, and approximately 60,000 died in battle. The U.S. government promised these veterans compensation and benefits in exchange for their loyal service to our country. However, after the war, Congress passed the Rescission Act of 1946, denying Filipino veterans many of the benefits conferred to other World War II veterans.

Filipino World War II veterans were not awarded U.S. citizenship until 1990, more than 40 years after they risked their lives for our Nation. Although the Immigration Act of 1990 granted U.S. citizenship to approximately 26,000 Filipino nationals who served during World War II, the law did not confer citizenship or residency to their children. Therefore, the children of the Filipino veterans are required to apply for family-based green cards which are subject to an annual limitation as well as a country cap. Under the cap, only seven percent of recipients are permitted to come from a single country. These limitations have created a large backlog of people trying to reunite with family from the Philippines and as a result, some Filipino applicants must wait nearly two decades before their petitions can be considered.

In an attempt to partially resolve this issue, in 2016 under the Obama Administration, U.S. Citizenship and Immigration Services (USCIS) established the Filipino World War II Veterans Parole (FWVP) program to reunite veterans and their surviving spouses with their adult children and siblings. Under FWVP, USCIS can grant parole on a discretionary, case-by-case basis, to a veteran's family member so that they may come to the United States as they wait for their immigrant visa to become available. This policy recognizes the extraordinary contributions and sacrifices of Filipino veterans while also allowing these elderly veterans to be cared for by family. Despite the value of this program, the Trump Administration announced its intention to terminate FWVP and in December 2020, published final steps to end this program in the Federal Register. I joined Rep. ED CASE in sending a bicameral and bipartisan letter with colleagues to President Biden in February, urging the new administration to rescind the termination efforts and renew FWVP.

The threat to end FWVP persists to this day. The legislation that I am introducing, the Filipino Veterans Family Reunification Act of 2021, would resolve this issue permanently and fulfill our nation's promise to honor the Filipino World War II veterans' service to our country. This bill would help to reunite these families by exempting the sons and daughters of Filipino World War II veterans from immigration limitations in the Immigration and Nationality Act. This change in law would benefit only a few thousand surviving Filipino World War II veterans

who desperately want to be reunited with their children in their last years.

I call on my Senate colleagues to quickly pass this bill.

By Ms. COLLINS (for herself, Mr. WARNER, Mr. RUBIO, Mrs. SHAHEEN, Mr. CORNYN, Mr. BENNET, Mr. BLUNT, Mrs. GILLIBRAND, Mr. BURR, Mr. HEINRICH, Mr. SASSE, Mrs. FEINSTEIN, Mr. COTTON, Mr. KING, and Mr. RISCH):

S. 1714. A bill to amend the Central Intelligence Agency Act of 1949 to authorize the provision of payment to personnel of the Central Intelligence Agency who incur qualifying injuries to the brain, to authorize the provision of payment to personnel of the Department of State who incur similar injuries, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

Ms. COLLINS. Mr. President, I rise today to introduce the Helping American Victims Afflicted by Neurological Attacks Act, the HAVANA Act. Our bill would provide assistance to the employees of the intelligence community and other Federal Agencies who have suffered from traumatic brain injuries at the hands of our foreign adversaries.

I am joined today by a bipartisan group of cosponsors, including Senators WARNER and RUBIO, the chairman and vice chair of the Senate Intelligence Committee, and Senators SHAHEEN, CORNYN, BENNET, BURR, GILLIBRAND, BLUNT, HEINRICH, SASSE, FEINSTEIN, COTTON, KING, and RISCH. Most of those are members of the Intelligence Committee, and they share my deep concern and my determination to get to the bottom of what has happened to these brave men and women who have been attacked.

For many years, American personnel serving in Cuba, China, and elsewhere have experienced unexplained, serious medical harm, including, in some cases, permanent brain injuries. These conditions are believed to be connected to a mysterious direct energy weapon used by those who are our adversaries.

As we investigate the source of previous attacks and seek to prevent future ones, the bill that I am introducing today would provide additional financial assistance to Americans who were injured and who continue to experience debilitating symptoms. Too many of the victims have had to fight to get the medical care they need for their injuries. This is completely unacceptable.

Last year, the National Academies of Sciences, Engineering, and Medicine released a report on the more than 40 American diplomats at the U.S. Embassy in Havana, Cuba, and at least a dozen American diplomats at the U.S. Consulate in Guangzhou, China, who suffered symptoms "consistent with the effects of directed, pulsed radio-frequency energy." Just this month, the New York Times reported that the

number of American personnel who have fallen ill under these mystifying circumstances is much higher, possibly more than 130 cases. Now, we are even hearing reports of cases occurring within the United States.

The injuries that many of these victims have endured are significant and life-altering. These attacks have left Americans serving our country with damage that ranges in severity but can include reduced balance, eyesight, and hearing. Some have severe, permanent headaches. Others have brain injuries that have resulted in reduced cognitive function. Many of them can no longer perform their jobs and have been forced to medically retire.

To make matters worse, some of the victims did not receive the financial and medical support they should have expected from their government when they first reported their injuries. This is an outrageous failure on the part of our government to care for those who serve.

Our bill would give additional authority to the CIA Director and to the Secretary of State to provide financial support to these Americans who experience traumatic brain injuries from attacks that occur while serving our country. Due to limitations in the current law, several victims suffering from cognitive impairment are not receiving all of the medical care and other assistance they need to cope with the impacts of their injuries. The authorities provided in the HAVANA Act will help to rectify this problem.

I have spoken personally with some of the victims of these heinous attacks. This is a group who unfortunately is growing in number. To those victims, I want to pledge to them today that, along with the cosponsors of our bill, I am totally committed to making sure that our government finds out who is responsible for these devastating attacks, and I further pledge to the victims that you will receive the financial support and medical care that you deserve.

I have spoken several times to CIA Director Burns about these attacks, and I am heartened by his commitment and his attitude. He has made commitments to the Senate Intelligence Committee, as has the Director of National Intelligence, to care for these victims and to get to the bottom of these attacks.

We need a whole-of-government approach to identify the heartless adversary who is deliberately targeting American personnel.

The public servants who work in our Embassies and Consulates and in other locations overseas make many personal sacrifices to represent America's interests. They deserve our strong support when they are harmed in the line of duty, just as we care for soldiers who are injured on the battlefield.

I hope all of my colleagues will join us in supporting this vital legislation.

By Mr. PADILLA (for himself and Mrs. FEINSTEIN):

S. 1718. A bill to amend the Rosie the Riveter/World War II Home Front National Historical Park Establishment Act of 200 to provide for additional areas to be added to the park, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. PADILLA. Mr. President, I rise to introduce the “Rosie the Riveter National Historic Site Expansion Act.” The Rosie the Riveter WWII Home Front National Historical Park honors the history of Richmond, California as the home of World War II shipyards and the women and men who supported the war effort domestically.

Richmond, California was chosen as the site for this National Historical Park because it has so many surviving sites and structures from the World War II era that help tell the diverse stories of the home front. According to the National Park Service, “these stories include the mobilization of America’s industry and the changes in production techniques; the struggle for women’s and minority rights; the labor movement; the growth of pre-paid medical care; advances in early childhood education and day care; recycling and rationing; major shifts in population; and changes in arts and culture.”

This legislation would add the Nystrom Elementary School to the existing National Historical Park.

During World War II, the Nystrom Elementary school was built to teach the children of shipyard workers. The school was part of a planned development including the Maritime Child Development center, which has already been preserved as part of the park, and the Nystrom housing area, which has been scheduled for future preservation and redevelopment by the city of Richmond.

The bill would also give the National Park Service the authority to add additional sites to the park through cooperative agreements and to acquire additional sites for inclusion in the park.

Having the Nystrom Elementary school identified as a site of the park will help the National Historical Park better preserve, interpret, and share that history with visitors. To understand the social changes that occurred during World War II, it is important to have sites that represent those changes as tangible evidence.

The City of Richmond and the West Contra Costa Unified School District support adding the school to the site. I thank my colleague, Representative MARK DESAULNIER, for championing this effort in the House.

I urge my colleagues to support the passage of the “Rosie the Riveter National Historic Site Expansion Act” as quickly as possible.

Thank you, Mr. President. I yield the floor.

#### **SEC. \_\_\_\_ . POINT OF ORDER TO ENSURE UNITED STATES ADEQUATELY FUNDS NATIONAL DEFENSE.**

(a) FINDINGS.—The Senate makes the following findings:

(1) Relative to the February 2021 Congressional Budget Office spending baseline, President Joseph R. Biden has proposed more than \$6,000,000,000,000 in nondefense spending outside the annual appropriations process.

(2) President Biden's fiscal year 2022 budget request proposes to increase spending in the nondefense discretionary category by almost 20 percent while cutting the United States defense budget in real terms.

(3) This Act contains more than \$100,000,000,000 of authorizations of appropriations without a single additional dollar authorized to be appropriated for the Department of Defense.

(4) The United States Armed Forces has lost \$400,000,000,000 relative to inflation since 2011.

(5) The People's Liberation Army has experienced real budget growth for more than two decades, including 6.8 percent growth in 2021.

(6) A July 22, 2019, statement by Speaker of the House of Representatives Nancy Pelosi and Senator Chuck Schumer stated that "Democrats have always insisted on parity in increases between defense and non-defense".

(b) SENSE OF THE SENATE.—It is the sense of the Senate that Congress should adequately fund national defense with a whole-of-government investment plan for strategic competition with the People's Republic of China, including by adhering to the principle of parity between increases for defense and nondefense spending, which would result in significant real growth for the defense budget.

(c) POINT OF ORDER FOR FISCAL YEAR 2022.—It shall not be in order in the Senate to consider—

(1) a concurrent resolution on the budget, or an amendment to, conference report on, amendment between the Houses in relation to, or a motion on a concurrent resolution on the budget, that determines and declares as the appropriate level of new discretionary budget authority for major functional category 050 (National Defense) for fiscal year 2022 an amount that is less than the total amount of the appropriate level of new discretionary budget authority determined and declared for all major functional categories other than major functional category 050 for fiscal year 2022;

(2) a bill or joint resolution reported pursuant to section 310 of the Congressional Budget Act of 1974 (2 U.S.C. 641), or an amendment to, conference report on, amendment between the Houses in relation to, or motion

on such a bill or joint resolution, that appropriates amounts for 1 or more major functional categories other than major functional category 050 for fiscal year 2022 and does not appropriate amounts for major functional category 050 for fiscal year 2022 in an amount that is not less than the amount appropriated under that measure for all major functional categories other than major functional category 050 for fiscal year 2022; or

(3) a bill or joint resolution making appropriations for fiscal year 2022, or an amendment to, conference report on, amendment between the Houses in relation to, or motion on such a bill or joint resolution, that would cause the total amount of appropriations for the revised nonsecurity category for fiscal year 2022 to exceed the total amount of appropriations for the revised security category for fiscal year 2022.

(d) WAIVER AND APPEAL.—Subsection (c) may be waived or suspended in the Senate only by an affirmative vote of three-fifths of the Members, duly chosen and sworn. An affirmative vote of three-fifths of the Members of the Senate, duly chosen and sworn, shall be required to sustain an appeal of the ruling of the Chair on a point of order raised under subsection (a).

(e) DEFINITIONS.—In this section, the terms "revised nonsecurity category" and "revised security category" have the meanings given those terms in section 250(c)(4) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 900(c)(4)).

ernment of China and are now facing challenges in repaying those loans.

(4) Since it was established in 1959, the Inter-American Development Bank has completed a total of nine capital increases.

(6) The United States Congress has never authorized and appropriated a capital increase for the Inter-American Development Bank before the formal completion of the review of the capital needs of the Bank and negotiations on the capital increase.

(7) In March 2021, the Board of Governors of the Inter-American Development Bank approved a resolution authorizing the analytical work required to consider a potential capital increase.

(8) At the meeting, President Claver-Carone outlined how the Inter-American Development Bank Group in 2020 reached historic financing levels of nearly \$24,000,000,000 for governments and firms in the region in response to the COVID-19 pandemic.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the Government of China's predatory economic practices and sovereign lending practices in Latin America and the Caribbean negatively influence United States national interests in the Western Hemisphere;

**SEC. 3314. ENDING CHINA'S EXIT BAN FOR AMERICAN CITIZENS.**

(a) SHORT TITLE.—This section may be cited as the “Ending China's Exit Ban for American Citizens Act of 2021”.

(b) FINDINGS.—Congress finds the following:

(1) According to the Integrated Country Strategy for the United States Mission to China, released on August 29, 2018—

(A) “Chinese law enforcement and security services employ extra-judicial means against U.S. citizens without regard to international norms”; and

(B) exit bans “are sometimes used to prevent U.S. citizens who are not themselves suspected of a crime from leaving China as a means to pressure their relatives or associates who are wanted by Chinese law enforcement in the United States”.

(2) The Government of China has imposed exit bans on United States citizens in the context of criminal charges and private commercial disputes.

(3) Imposing exit bans on foreign nationals is authorized by Article 28 of the Exit and Entry Administration Law of the People's Republic of China, which—

(A) lists the circumstances under which “foreigners shall not be allowed to exit China”, including “other circumstances in which exit shall not be allowed in accordance with laws or administrative regulations”; and

(B) assigns responsibility for administering exit/entry matters to the Ministry of Public Security and the Ministry of Foreign Affairs, with public security organs responsible for administering “the stay and residence of foreigners.”

(4) Such exit bans against United States citizens may violate Article 35 of the Consular Convention Between the United States of America and the People's Republic of China, done at Washington September 17, 1980, which states that—

(A) if a United States national is “placed under any form of detention”, the Government of China shall notify the United States consulate within 4 days; and

(B) a United States consular officer is entitled to “be informed of the reasons for which said national has been arrested or detained in any manner.”

(5) Such exit bans may also violate Article 36 of the Vienna Convention on Consular Relations, done at Vienna April 24, 1963, and in effect in China as of August 1, 1979, which requires the Government of China to “without delay, inform the consular post of the sending State if, within its consular district, a national of that State . . . is detained in any other manner.”

(6) Many United States citizens are not aware of a ban on their exit until they attempt to leave China and once they are made aware of the ban, Chinese authorities provide very little information to the United States citizen, or to United States consular officials regarding—

(A) the nature of the ban;

(B) which Chinese government entity is responsible for the ban; and

(C) what procedures must be followed to resolve the dispute related to the ban.

(7) The apparent extra-judicial application of exit bans to United States citizens presents a serious human rights concern that violates due process rights to which United States citizens are entitled under international law.

(C) INELIGIBILITY OF CERTAIN ALIENS FOR VISAS.—If the Secretary of State determines that an official of the Government of China has been substantially involved in the formulation or execution of a policy that prohibits certain United States citizens from leaving China in an attempt to convince a relative of such citizens to submit himself or herself into the custody of the Government of China for prosecution, to compel United States citizens to participate in Chinese government investigations, or to aid the Government of China in resolving civil disputes in favor of Chinese parties—

(1) such official may not be issued a visa to enter the United States or be admitted to the United States; and

(2) any visa or other documentation to enter or to be present in the United States that was previously issued to such official shall be revoked by the Secretary of State, in accordance with section 221(i) of the Immigration and Nationality Act (8 U.S.C. 1201(i)).

(D) TERMINATION OF VISA INELIGIBILITY.—

(1) IN GENERAL.—The Secretary of State may terminate visa ineligibility under subsection (c) with respect to an individual if the Secretary of State determines that—

(A) credible information exists that the individual did not engage in the activity for which visa ineligibility was imposed;

(B) the individual has been prosecuted appropriately for the activity for which visa ineligibility was imposed;

(C) the individual has—

(i) credibly demonstrated a significant change in behavior;

(ii) been subject to an appropriate consequence for the activity for which visa ineligibility was imposed; and

(iii) credibly committed to not engage in an activity described in subsection (c) in the future; or

(D) the termination of visa ineligibility is in the national security interests of the United States.

(2) NOTIFICATION.—Not later than 15 days before the date on which visa ineligibility is terminated under paragraph (1) with respect to an individual, the Secretary of State shall submit a report to the Committee on Foreign Relations of the Senate, the Committee on the Judiciary of the Senate, the Committee on Foreign Affairs of the House of Representatives, and the Committee on the Judiciary of the House of Representatives that describes the justification for the termination.

(E) ANNUAL REPORT TO CONGRESS.—

(1) IN GENERAL.—Not later than 1 year after the date of the enactment of this Act, and annually thereafter for the following 5 years, the Secretary of State shall submit a report to the congressional committees listed in subsection (d)(2) that identifies—

(A) to the extent practicable, all of the Chinese officials who were substantially involved in the formulation or execution of a policy that prohibits certain United States citizens from leaving China in an attempt—

(i) to convince a relative of such citizens to submit himself or herself into the custody of the Government of China for prosecution;

(ii) to compel United States citizens to participate in Chinese government investigations; or

(iii) to aid the Government of China in resolving civil disputes in favor of Chinese parties;

(B) the individuals who have had visas denied or revoked pursuant to subsection (c) during the preceding year, including the dates on which such denials or revocations were imposed or terminated, as applicable;

(C) the number of United States citizens who the Government of China has prohibited from leaving China for any of the reasons described in subsection (c); and

(D) for each of the United States citizens referred to in subparagraph (C), the period during which they have been forced to remain in China.

**SEC. 503. REPORT ON UNITED STATES EFFORTS TO ENGAGE THE PEOPLE'S REPUBLIC OF CHINA ON NUCLEAR ISSUES AND BALLISTIC MISSILE ISSUES.**

(a) FINDINGS.—Congress makes the following findings:

(1) The People's Republic of China has not entered into a treaty or agreement with the United States or any other party that places binding limits on its shorter-range, intermediate-, or strategic-range ballistic missiles, verified by national technical means and by on-site inspections, as the United States and the Russian Federation have done through the Intermediate-Range Nuclear Forces (INF) Treaty, the START I and START II Treaties, and the New START Treaty, each of which took multiple years to successfully negotiate.

(2) The People's Republic of China possesses significantly fewer intercontinental ballistic missiles, submarine launched ballistic missiles, and heavy bombers than the Russian Federation or the United States, and according to the Defense Intelligence Agency, the People's Republic of China's warhead stockpile is in the “the low couple of hundreds”, a fraction of the size of the arsenals of the Russian Federation and the United States.

(3) The People's Republic of China has repeatedly declined invitations by the United States to enter into bilateral negotiations for an arms control treaty or other agreement regarding its nuclear arsenal.

(b) REPORT REQUIRED.—Not later than 180 days after the date of the enactment of this Act, the Secretary of State, in consultation

with the Secretary of Defense and the Secretary of Energy, shall submit to the appropriate congressional committees a report that sets forth a plan to engage the People's Republic of China on steps that reduce the risk of strategic miscalculation and the threat of a nuclear exchange, which may include any of the following proposals:

(2) Negotiations toward a treaty or agreement that prohibits the production of fissile material.

(3) An agreement with the People's Republic of China that allows for advance notifications of ballistic missile launches, through the Hague Code of Conduct or other data exchanges or doctrine discussions related to strategic nuclear forces.

(4) An agreement not to target or interfere in nuclear command, control, and communications (commonly referred to as "NC3") infrastructure.

(5) An agreement on transparency measures or verifiable limits, or both, on hypersonic cruise missiles and glide vehicles that are mounted on ballistic missiles.

##### **SECTION 3601. SHORT TITLE.**

This title may be cited as the “Transnational Repression Accountability and Prevention Act of 2021” or as the “TRAP Act of 2021”.

##### **SEC. 3602. FINDINGS.**

Congress makes the following findings:

(1) The International Criminal Police Organization (INTERPOL) works to prevent and fight crime through enhanced cooperation and innovation on police and security matters, including kleptocracy, counterterrorism, cybercrime, counternarcotics, and transnational organized crime.

(2) United States membership and participation in INTERPOL advances the national security and law enforcement interests of the United States related to combating

kleptocracy, terrorism, cybercrime, narcotics, and transnational organized crime.

(3) Article 2 of INTERPOL’s Constitution states that the organization aims “[to] ensure and promote the widest possible mutual assistance between all criminal police authorities . . . in the spirit of the ‘Universal Declaration of Human Rights’”.

(4) Article 3 of INTERPOL’s Constitution states that “[i]t is strictly forbidden for the Organization to undertake any intervention or activities of a political, military, religious or racial character”.

(5) These principles provide INTERPOL with a foundation based on respect for human rights and avoidance of politically motivated actions by the organization and its members.

(6) Some INTERPOL member countries have used INTERPOL’s databases and processes, including Notice and Diffusion mechanisms and the Stolen and Lost Travel Document Database, for activities of a political or other unlawful character and in violation of international human rights standards, including making requests to INTERPOL for interventions related to purported charges of ordinary law crimes that are fabricated for political or other unlawful motives.

(7) According to the Justice Manual of the United States Department of Justice, “[i]n the United States, national law prohibits the arrest of the subject of a Red Notice issued by another INTERPOL member country, based upon the notice alone” and requires the existence of a valid extradition treaty between the requesting country and the United States, a valid request for provisional arrest of the subject individual, and an arrest warrant issued by a United States District Court based on a complaint filed by the United States Attorney’s Office of the subject jurisdiction.

##### **SEC. 3603. STATEMENT OF POLICY.**

(B) Support and strengthen INTERPOL’s coordination with the Commission for Control of INTERPOL’s Files (CCF) in cases in which INTERPOL or the CCF has determined that a member country issued a Notice, Diffusion, or other INTERPOL communication against an individual in violation of articles 2 or 3 of the INTERPOL Constitution, or the RPD, to prohibit such member country from seeking the publication or issuance of any subsequent Notices, Diffusions, or other INTERPOL communication against the same individual based on the same set of claims or facts.

(C) Support candidates for positions within INTERPOL’s structures, including the Presidency, Executive Committee, General Secretariat, and CCF who have demonstrated experience relating to and respect for the rule of law.

(D) Seek to require INTERPOL in its annual report to provide a detailed account of the following information, disaggregated by member country or entity:

(i) The number of Notice requests, disaggregated by color, that it received.

(ii) The number of Notice requests, disaggregated by color, that it rejected.

(iii) The category of violation identified in each instance of a rejected Notice.

(iv) The number of Diffusions that it cancelled without reference to decisions by the CCF.

(i) The number of admissible requests for correction or deletion of data received by the CCF regarding issued Notices, Diffusions, and other INTERPOL communications.

(ii) The category of violation alleged in each such complaint.

#### SEC. 71002. SEAFOOD IMPORT MONITORING PROGRAM.

(a) FINDINGS.—Congress finds the following:

(1) It remains the policy of the United States to take action to curtail the global trade in seafood and seafood products derived from illegal, unreported, or unregulated fishing, including the links of such trade to forced labor and transnational organized illegal activity.

(2) The Federal Government and State authorities have implemented measures to prevent United States persons from engaging in illegal, unreported, or unregulated fishing, using forced labor in the production of seafood, and fraudulently concealing relevant information concerning the production of seafood, including—

(A) enhanced enforcement activities by the Coast Guard and effective enforcement by Federal and State authorities of criminal and civil penalties;

(B) actions taken by the National Marine Fisheries Service of the National Oceanic and Atmospheric Administration to enhance traceability of seafood produced in the United States, including actions taken pursuant to division B of the Consolidated Appropriations Act, 2018 (Public Law 115-141; 132 Stat. 400) and the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 et seq.); and

(C) inspections undertaken by the Food and Drug Administration and the Department of Agriculture of aquaculture facilities in the United States.

(3) Seafood that is the result of illegal, unreported, or unregulated fishing, forced labor, or human trafficking may still enter United States commerce as those conditions remain a severe problem in the global fisheries sector, as reflected in reports and studies prepared by the United States International Trade Commission (USITC), the International Labour Organization (ILO), and the Food and Agriculture Organization of the United Nations (FAO).

(4) According to a study and model by the USITC published in March 2021, nearly 11 percent of total United States seafood imports and more than 13 percent of United States imports caught at sea in 2019 were derived from illegal, unreported, or unregulated fishing.

(5) As recognized by the FAO, traceability of fish and fishery products is critical for verifying the integrity of a supply chain and ensures the quality and safety of the fishery products of the supply chain, the legality of such products, and that such products originate from fisheries that are sustainably managed.

(6) Effective implementation of the Agreement on Port State Measures to Prevent, Deter, and Eliminate Illegal, Unreported, and Unregulated Fishing set forth by the Food and Agriculture Organization of the United Nations, done at Rome, Italy November 22, 2009, and entered into force June 5, 2016, including the provisions of the agreement relating to cooperation, will be enhanced by ensuring effective traceability of seafood imported into the United States.

**SEC. 73006. SENSE OF CONGRESS ON LEADERSHIP AT WORLD TRADE ORGANIZATION.**

(a) FINDINGS.—Congress makes the following findings:

(1) The United States had led the formation, as well as reform, of rules governing the multilateral trading system since World War II.

(2) The United States is a founding member of the World Trade Organization (in this section referred to as the “WTO”) and a key architect of the organization.

(3) The United States secured important commitments in the WTO to facilitate trade in goods and services, to prevent the application of non-scientific restrictions on United States agriculture, and to protect United States intellectual property.

(4) The United States uses the rules of the WTO to benefit workers, farmers, fishers, and businesses in the United States by facilitating access to the 90 percent of the world’s consumers who live outside the borders of the United States.

(5) The fundamental purpose of the WTO is to create space for members to negotiate with each other, and the WTO reserves to those members exclusively the right to nego-

tiate and adopt rules that reduce and eliminate trade barriers and discriminatory treatment.

(6) The prompt settlement of disputes in which a member of the WTO considers that its rights are being impaired by the actions of another member is essential to the functioning of the WTO and the maintenance of a proper balance between the rights and obligations of members.

(7) The WTO’s dispute settlement function, including in particular the Appellate Body, has increasingly failed to enforce the rules of the WTO in a timely manner, and has usurped the negotiating prerogative of members by creating new obligations and rights that are inconsistent with or not included in the rules negotiated by members.

(8) The creation of those obligations and rights undermines—

(A) the WTO’s negotiating function by discouraging members from making concessions; and

(B) the WTO’s dispute settlement function by encouraging overuse of the process and undermining its legitimacy, including by preventing free market economies from responding to globally trade distortive practices by nonmarket economies.

(9) The WTO does not have sufficient rules to discipline the distortive economic policies of nonmarket economies, such as policies relating to excess capacity and forced technology transfer, the special treatment those economies afford to state-owned enterprises, and their massive and opaque industrial subsidies.

(10) There is long-standing bipartisan support in Congress to reform the WTO to address those failings.

(11) The current presidential administration, as well as prior administrations, raised concerns about the failings described in this subsection and have made reform of the WTO a top priority of United States trade policy.

(12) The United States urges WTO members to work constructively with the United States to assess the reasons why the existing WTO rules have proven inadequate in order to create an atmosphere within the WTO that is conducive to the development of new rules less subject to jurisprudential drift.

(13) The guiding principle for reform of the WTO, and the lens through which WTO members should consider specific reform proposals, is the restoration of the WTO’s capability and capacity for negotiation among members.

(14) The United States has achieved its trade policy objectives through active leadership at the WTO, and an absence of that leadership would be filled by nonmarket economies that are hostile to a host of United States interests.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) while the United States finds value and usefulness in the WTO, in order to fulfill the needs of the United States and other free and open economies in the 21st century, significant reforms are needed;

(2) the United States must therefore continue to demonstrate leadership to achieve reforms that restore the effectiveness of the WTO’s—

(A) negotiating function;

(B) dispute settlement function so that it transparently, efficiently, and fully enforces outcomes negotiated by members rather than usurping their primacy by creating new rights or obligations; and

(C) rules for special and differential treatment to ensure those rules promote advancement for truly developing countries, rather than becoming tools for globally competitive countries, like the People’s Republic of China, to engage in protectionism and market distortions;

(3) the efforts to reform the negotiating function of the WTO should revitalize the negotiating function by providing confidence to members that the WTO operates according to the rules as negotiated and adopted by members;

(4) a revitalized negotiating function must include new rules that reflect the 21st century economy, further combat anticompetitive and protectionist barriers, and ensure disputes are efficiently resolved;

(5) the United States Trade Representative should continue to lead efforts to work with WTO members to pursue reforms at the WTO that—

(A) ensure the dispute settlement mechanism faithfully applies the rules adopted by members, including by undertaking measures to ensure the WTO's Appellate Body does not create new rights and obligations;

(B) improve public confidence in dispute settlement by promoting greater transparency and efficiency in the conduct of proceedings;

(C) redress the consistent failure by certain members to satisfy their notification obligations under various WTO agreements, including through measures that strengthen accountability;

(D) ensure rules for special and differential treatment are appropriately reserved for countries whose state of development and global competitiveness actually warrants such flexibility;

(E) create new rules and structures that can serve the interests of the United States while promoting peace, prosperity, good governance, transparency, effective operation of legal regimes, the rule of law, and free enterprise; and

(F) expand upon the trilateral negotiations currently underway with Japan and the European Union; and

(6) the United States Trade Representative should explore and assess specific reform proposals, including—

(A) pursuing plurilateral agreements that further the interests of the United States while limiting the benefits accruing to countries that are not parties to those agreements;

(B) efforts to ensure that incorrect interpretations by the Appellate Body, including with respect to the Agreement on Safeguards, the Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade 1994, and the Agreement on Subsidies and Countervailing Measures, are corrected, and not to be deemed precedential;

(C) new rules and norms to address practices of nonmarket economies, such as practices relating to state-owned enterprises, which certain countries often utilize for objectives that cause severe trade distortions; and

(D) better implementation of existing rules, such as the prohibition in paragraph 4 of Article XIV of the General Agreement on Tariffs and Trade on currency manipulation, to ensure that those rules are effective to preserve the rights of free market economies.

#### **TITLE —NATIONAL FAB LAB NETWORK**

#### **SEC. 1. SHORT TITLE.**

This title may be cited as the “National Fab Lab Network Act of 2021”.

#### **SEC. 2. FINDINGS.**

Congress finds the following:

(1) Scientific discoveries and technical innovations are critical to the economic and national security of the United States.

(2) Maintaining the leadership of the United States in science, technology, engineering, and mathematics will require a diverse population with the skills, interest, and access to tools required to advance these fields.

(3) Just as earlier digital revolutions in communications and computation provided individuals with the internet and personal computers, a digital revolution in fabrication will allow anyone to make almost anything, anywhere.

(4) These creations include elements of a typical household basket of goods (furnishings, apparel, food production equipment, shelter, transportation, education and communication, recreation, and other goods and services), personal technology, means for personal expression, the production of digital fabrication machinery, community design, and manufacturing capability.

(5) The Center for Bits and Atoms of the Massachusetts Institute of Technology (CBA) has contributed significantly to the advancement of these goals through its work in creating and advancing digital fabrication facilities, or “fab labs” in the United States and abroad.

(6) Such digital fabrication facilities may include MakerSpaces, Hackerspaces, and other creative spaces that use digital fabrication as a platform for education, innovation, entrepreneurship, personal expression, public access, and social impact.

(7) Such digital fabrication facilities provide a model for a new kind of national laboratory that operates as a network, linking local facilities for advanced manufacturing, providing universal access, cultivating new literacies, and empowering communities.

(8) The nonprofit Fab Foundation was established to support the growth of the international network of digital fabrication facilities, to amplify the educational, entrepreneurial, and social impacts of digital fabrication facilities, and to support the development of regional capacity building organizations to broaden impact as well as address local, regional, and global challenges through the use of digital fabrication technologies.

(9) A coordinated array of national public-private partnerships will be the most effective way to accelerate the provision of universal access to this infrastructure for workforce development, science, technology, engineering, and mathematics education, developing inventions, creating businesses, producing personalized products, and mitigating risks.

(1) Section 8 of article I of the United States Constitution provides Congress with authority over international trade. Congress has used that authority to approve a number of trade agreements, including the WTO Agreement.

(2) Section 8 of article I of the United States Constitution provides Congress with authority to provide intellectual property protections in order to “promote the progress of science and useful arts”. People in the United States rely on those protections to support jobs and continue the highly successful leadership of the United States with respect to innovation.

(3) The United States may not withdraw or otherwise alter the rights and obligations for the United States arising from a congressionally approved trade agreement without the consent of Congress.

(4) The United States is a global leader in containing and ending the COVID-19 pandemic.

(5) Innovators in the United States successfully and rapidly brought to fruition vaccines that provide highly effective protection against COVID-19. At facilities across the United States, thousands of United States workers are working around the clock to manufacture COVID-19 vaccines, contributing to the rapid, global scale up of manufacturing that is expected to reach at least 10,000,000,000 doses by the end of 2021.

(6) The United States is a founding member of the World Trade Organization. The United States has secured and supported critical commitments in the WTO for protection of intellectual property of United States persons and globally, including under the Trade-Related Aspects of Intellectual Property Rights Agreement or the TRIPS Agreement.

(7) In implementing the Uruguay Round, Congress established under section 315 of the Uruguay Round Agreements Act (19 U.S.C. 3581) that it is the objective of the United States to “accelerate the implementation” of the TRIPS Agreement and to “seek enact-

ment and effective implementation by foreign countries of laws to protect and enforce intellectual property rights that supplement and strengthen the standards” of the TRIPS Agreement.

(8) Longstanding intellectual property protections are critical to efforts by the United States and the biopharmaceutical industry to develop and manufacture vaccines for both people in the United States and around the world.

(9) The United States is committed to providing global access to COVID-19 vaccines.

(10) In order to accelerate production and distribution of COVID-19 vaccines, biopharmaceutical manufacturers in the United States are collaborating at a scale that previously was unimaginable, including by entering into hundreds of voluntary manufacturing, production, and other partnerships around the world.

(11) Manufacturing each of the COVID-19 vaccines involves highly specialized and unique infrastructure and equipment, as well as highly trained and experienced personnel. Manufacturing and distributing safe and effective COVID-19 vaccines on a global scale is incredibly challenging. Many experts on vaccine production and distribution are warning that waiving intellectual property protections will undermine the global response to the COVID-19 pandemic and compromise vaccine safety, including by disrupting the distribution of scarce raw materials for vaccines that existing vaccine makers with proven track records for delivering high-quality, safe, and effective vaccines need to continue their own production.

(12) The United States Trade Representative announced without any consultation with Congress that the United States will support a waiver of intellectual property protections under the TRIPS Agreement for COVID-19 vaccines. That decision is not consistent with the intellectual property negotiating objectives of the United States set forth in section 315 of the Uruguay Round Agreements Act (19 U.S.C. 3581).

(13) That waiver announcement created confusion, and raised concerns that a successful effort to suspend protections will weaken already strained supply chains and foster the proliferation of ineffective and potentially dangerous vaccines.

(14) The Trade Representative has not explained how a waiver of the TRIPS Agreement will expand vaccine production and access, particularly considering that the major impediments to vaccination efforts include the following:

(A) The difficulty in meeting the technical specifications of production and appropriately ensuring that finished vaccines are high-quality, safe, and effective.

(B) The scarcity of raw materials for the vaccines.

(C) Last-mile distribution and cold-chain storage.

(D) Trade barriers to the free flow of inputs and finished products.

(15) The Government of the People's Republic of China and the Government of the Russian Federation are engaged in large scale industrial espionage and technology theft of intellectual property of United States persons. The Department of Justice has issued indictments in connection with attempts sponsored by the Government of the People's Republic of China to steal United States vaccine research with respect to COVID-19.

(16) The Government of the People's Republic of China and the Government of the Russian Federation are using their vaccines as part of diplomatic efforts that may be contrary to the national security interests of the United States. Vaccines for COVID-19 manufactured by persons in the People's Re-

public of China and the Russian Federation appear to be less efficacious than those manufactured by producers in the United States. The Academy of Military Science, the scientific arm of the military of the People's Republic of China, is sponsoring the principal effort by the People's Republic of China to develop its own mRNA vaccine.

(17) At a hearing before the Committee on Finance of the Senate on May 12, 2021, the Trade Representative would not commit either—

(A) to ensure that any waiver of the TRIPS Agreement would exclude the People's Republic of China and the Russian Federation; or

(B) to ensure that Congress has advance access to the negotiating proposals of the United States for any such waiver.

(18) The innovative biopharmaceutical companies in the United States contribute more than \$1,100,000,000,000 annually to the United States economy, and employ more than 500,000 workers making 1.4 times the average earnings in the United States, including 153,000 workers who do not have a college degree.

(19) Waiving intellectual property protections, particularly of the mRNA technology platform in which the Defense Advanced Research Project Agency invested not less than \$250,000,000, raises serious economic and national security concerns.

**SEC. 6402. SENSE OF CONGRESS.**

It is the sense of Congress that—

(1) the United States should continue to act as a global leader to help contain and end the COVID-19 pandemic at home and abroad;

(2) innovators in the United States are already heroes for their breakthrough work in developing and producing COVID-19 vaccines.

(3) it should be a priority of the global community, with the assistance of the United States, to efficiently and quickly manufacture and distribute COVID-19 vaccines around the world, and in particular to those countries that are most vulnerable;

(4) current impediments to further vaccination efforts are due to—

(A) the technically difficult manufacturing requirements for vaccines;

(B) the need to appropriately ensure that vaccines are high-quality, safe, and effective;

(C) raw material constraints; and

(D) difficulties in distribution;

(5) intellectual property protections for COVID-19 vaccines have not impeded vaccination efforts for COVID-19;

(6) intellectual property protections in fact help ensure the safe and efficient manufacturing of COVID-19 vaccines;

(7) waiving intellectual property protections could lead to the production of substandard, ineffective, and potentially unsafe COVID-19 vaccines;

(8) the Trade Representative must consult with Congress before taking a position on the current TRIPS Agreement waiver proposal before the WTO and any further proposals to waive or weaken intellectual property obligations under the TRIPS Agreement;

(9) Congress and the people of the United States are entitled to comprehensive expert analysis regarding the implications of a waiver to the TRIPS Agreement for jobs, economic growth, public health, and national security in the United States; and

(10) the United States must oppose any waiver to intellectual property obligations under the TRIPS Agreement for the response to the COVID-19 pandemic until those implications are fully analyzed.

**SEC. . PROHIBITING TSP INVESTMENT IN CHINA.**

(a) FINDINGS.—Congress finds the following:

(1) The Thrift Savings Fund invests more than \$700,000,000,000 on behalf of plan participants. As the guardian of the retirement funds of approximately 6,000,000 Federal civilian and military plan participants, it is critical that sums in the Thrift Savings Fund are not invested in securities linked to the economy of the People's Republic of China.

(2) Companies headquartered in the People's Republic of China have repeatedly committed corporate espionage, violated sanctions imposed by the United States, flouted international property laws, committed theft, and failed to comply with audit and regulatory standards designed to safeguard investors.

(3) The Thrift Savings Plan is known for its low management fees and comprehensive array of investment strategies. The provisions of this section, and the amendments made by this section, will not increase fees imposed on participants of the Thrift Savings Plan.

(4) The November 2017 selection of the MSCI ACWI Index by the Federal Retirement Thrift Investment Board, initially scheduled to be effective in 2020, would violate the terms of subsection (i) of section 8438 of title 5, United States Code, as added by subsection (b)(1) of this section.

(b) PROHIBITION ON ANY TSP FUND INVESTMENT IN ENTITIES BASED IN THE PEOPLE'S REPUBLIC OF CHINA.—

(1) IN GENERAL.—Section 8438 of title 5, United States Code, is amended by adding at the end the following:

“(i) Notwithstanding any other provision of this section, no fund established or overseen by the Board may include an investment in any security of—

“(1) an entity based in the People's Republic of China; or

“(2) any subsidiary that is owned or operated by an entity described in paragraph (1).”.

(2) DIVESTITURE OF ASSETS.—Not later than 30 days after the date of enactment of this Act, the Federal Retirement Thrift Investment Board established under section 8472(a) of title 5, United States Code, shall—

(A) review whether any sums in the Thrift Savings Fund are invested in violation of subsection (i) of section 8438 of that title, as added by paragraph (1) of this subsection;

(B) if any sums are invested in the manner described in subparagraph (A), divest those sums in a manner that is consistent with the legal and fiduciary duties provided under chapter 84 of that title, or any other applicable provision of law; and

#### **SEC. 3133. FINDINGS ON CHINESE INFORMATION WARFARE AND MALIGN INFLUENCE OPERATIONS.**

(a) FINDINGS.—Congress makes the following findings:

(1) In the report to Congress required under section 1261(b) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232), the President laid out a broad range of malign activities conducted by the Government of the People’s Republic of China and its agents and entities, including—

(A) propaganda and disinformation, in which “Beijing communicates its narrative through state-run television, print, radio, and online organizations whose presence is proliferating in the United States and around the world”;

(B) malign political influence operations, particularly “front organizations and agents which target businesses, universities, think tanks, scholars, journalists, and local state and Federal officials in the United States and around the world, attempting to influence discourse”;

(C) malign financial influence operations, characterized as the “misappropriation of technology and intellectual property, failure to appropriately disclose relationships with foreign government sponsored entities, breaches of contract and confidentiality, and manipulation of processes for fair and merit-based allocation of Federal research and development funding”.

(2) Chinese information warfare and malign influence operations are ongoing. In January 2019, then-Director of National Intelligence, Dan Coats, stated, “China will continue to use legal, political, and economic levers—such as the lure of Chinese markets—to shape the information environment. It is also capable of using cyber attacks against systems in the United States to censor or suppress viewpoints it deems politically sensitive.”.

(3) In February 2020, then-Director of the Federal Bureau of Investigation, Christopher Wray, testified to the Committee on the Judiciary of the House of Representatives that the People’s Republic of China has “very active [malign] foreign influence efforts in this country,” with the goal of “trying to shift

our policy and our public opinion to be more pro-China on a variety of issues”.

(4) The PRC’s information warfare and malign influence operations continue to adopt new tactics and evolve in sophistication. In May 2020, then-Special Envoy and Coordinator of the Global Engagement Center (GEC), Lea Gabrielle, stated that there was a convergence of Russian and Chinese narratives surrounding COVID-19 and that the GEC had “uncovered a new network of inauthentic Twitter accounts” that it assessed was “created with the intent to amplify Chinese propaganda and disinformation”. In June 2020, Google reported that Chinese hackers attempted to access email accounts of the campaign staff of a presidential candidate.

(5) Chinese information warfare and malign influence operations are a threat to the national security, democracy, and economic systems of the United States and its allies and partners. In October 2018, Vice President Michael R. Pence warned that “Beijing is employing a whole-of-government approach, using political, economic, and military tools, as well as propaganda, to advance its influence and benefit its interests in the United States.”.

(6) In February 2018, then-Director of the Federal Bureau of Investigation, Christopher Wray, testified to the Select Committee on Intelligence of the Senate that the People’s Republic of China is taking advantage of and exploiting the open research and development environments of United States institutions of higher education to utilize “professors, scientists and students” as “nontraditional collectors” of information.

(b) PRESIDENTIAL DUTIES.—The President shall—

(1) protect our democratic institutions and processes from malign influence from the People’s Republic of China and other foreign adversaries; and

(2) consistent with the policy specified in paragraph (1), direct the heads of the appropriate Federal departments and agencies to implement Acts of Congress to counter and deter PRC and other foreign information warfare and malign influence operations without delay, including—

(A) section 1043 of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Public Law 115-232), which authorizes a coordinator position within the National Security Council for countering malign foreign influence operations and campaigns;

(B) section 228 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116-92), which authorizes additional research of foreign malign influence operations on social media platforms;

(C) section 847 of such Act, which requires the Secretary of Defense to modify contracting regulations regarding vetting for foreign ownership, control and influence in order to mitigate risks from malign foreign influence;

(D) section 1239 of such Act, which requires an update of the comprehensive strategy to counter the threat of malign influence to include the People’s Republic of China;

(E) section 5323 of such Act, which authorizes the Director of National Intelligence to facilitate the establishment of Social Media Data and Threat Analysis Center to detect and study information warfare and malign influence operations across social media platforms; and

(F) section 119C of the National Security Act of 1947 (50 U.S.C. 3059), which authorizes the establishment of a Foreign Malign Influence Response Center inside the Office of the Director of National Intelligence.

**SEC. 3134. AUTHORIZATION OF APPROPRIATIONS FOR THE FULBRIGHT-HAYS PROGRAM.**

There are authorized to be appropriated, for the 5-year period beginning on October 1, 2021, \$105,500,000, to promote education, training, research, and foreign language skills through the Fulbright-Hays Program, in accordance with section 102(b) of the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2452(b)).

**SEC. 3135. SENSE OF CONGRESS CONDEMNING ANTI-ASIAN RACISM AND DISCRIMINATION.**

(a) FINDINGS.—Congress makes the following findings:

(1) Since the onset of the COVID-19 pandemic, crimes and discrimination against Asians and those of Asian descent have risen dramatically worldwide. In May 2020, United Nations Secretary-General Antonio Guterres said “the pandemic continues to unleash a tsunami of hate and xenophobia, scapegoating and scare-mongering” and urged governments to “act now to strengthen the immunity of our societies against the virus of hate”.

(2) Asian American and Pacific Island (AAPI) workers make up a large portion of the essential workers on the frontlines of the COVID-19 pandemic, making up 8.5 percent of all essential healthcare workers in the United States. AAPI workers also make up a large share—between 6 percent and 12 percent based on sector—of the biomedical field.

(3) The United States Census notes that Americans of Asian descent alone made up nearly 5.9 percent of the United States population in 2019, and that Asian Americans are the fastest-growing racial group in the United States, projected to represent 14 percent of the United States population by 2065.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the reprehensible attacks on people of Asian descent and concerning increase in anti-Asian sentiment and racism in the United States and around the world have no place in a peaceful, civilized, and tolerant world;

(2) the United States is a diverse nation with a proud tradition of immigration, and the strength and vibrancy of the United States is enhanced by the diverse ethnic backgrounds and tolerance of its citizens, including Asian Americans and Pacific Islanders;

(3) the United States Government should encourage other foreign governments to use the official and scientific names for the COVID-19 pandemic, as recommended by the World Health Organization and the Centers for Disease Control and Prevention; and

(4) the United States Government and other governments around the world must actively oppose racism and intolerance, and use all available and appropriate tools to combat the spread of anti-Asian racism and discrimination.

**SEC. 3136. SUPPORTING INDEPENDENT MEDIA AND COUNTERING DISINFORMATION.**

(a) FINDINGS.—Congress makes the following findings:

(1) The PRC is increasing its spending on public diplomacy including influence campaigns, advertising, and investments into state-sponsored media publications outside of the PRC. These include, for example, more than \$10,000,000,000 in foreign direct investment in communications infrastructure, platforms, and properties, as well as bringing journalists to the PRC for training programs.

(2) The PRC, through the Voice of China, the United Front Work Department (UFWD), and UFWD’s many affiliates and proxies, has obtained unfettered access to radio, tele-

vision, and digital dissemination platforms in numerous languages targeted at citizens in other regions where the PRC has an interest in promoting public sentiment in support of the Chinese Communist Party and expanding the reach of its misleading narratives and propaganda.

(3) Even in Western democracies, the PRC spends extensively on influence operations, such as a \$500,000,000 advertising campaign to attract cable viewers in Australia and a more than \$20,000,000 campaign to influence United States public opinion via the China Daily newspaper supplement.

(4) Radio Free Asia (referred to in this subsection as “RFA”), a private nonprofit multimedia news corporation, which broadcasts in 9 East Asian languages including Mandarin, Uyghur, Cantonese, and Tibetan, has succeeded in its mission to reach audiences in China and in the Central Asia region despite the Chinese Government’s—

(A) efforts to practice “media sovereignty,” which restricts access to the free press within China; and

(B) campaign to spread disinformation to countries abroad.

(5) In 2019, RFA’s Uyghur Service alerted the world to the human rights abuses of Uyghur and other ethnic minorities in China’s Xinjiang Uyghur Autonomous Region.

(6) Gulchehra Hoja, a Uyghur journalist for RFA, received the International Women’s Media Foundation’s Courage in Journalism Award and a 2019 Magnitsky Human Rights Award for her coverage of Xinjiang, while the Chinese Government detained and harassed Ms. Hoja’s China-based family and the families of 7 other RFA journalists in retaliation for their role in exposing abuses.

(7) In 2019 and 2020, RFA provided widely disseminated print and digital coverage of the decline in freedom in Hong Kong and the student-led protests of the extradition law.

(8) In March 2020, RFA exposed efforts by the Chinese Government to underreport the number of fatalities from the novel coronavirus outbreak in Wuhan Province, China.

(b) THE UNITED STATES AGENCY FOR GLOBAL MEDIA.—The United States Agency for Global Media (USAGM) and affiliate Federal and non-Federal entities shall undertake the following actions to support independent journalism, counter disinformation, and combat surveillance in countries where the Chinese Communist Party and other malign actors are promoting disinformation, propaganda, and manipulated media markets:

(1) Radio Free Asia (RFA) shall expand domestic coverage and digital programming for all RFA China services and other affiliate language broadcasting services.

(2) USAGM shall increase funding for RFA’s Mandarin, Tibetan, Uyghur, and Cantonese language services.

(3) Voice of America shall establish a real-time disinformation tracking tool similar to Polygraph for Russian language propaganda and misinformation.

(4) USAGM shall expand existing training and partnership programs that promote journalistic standards, investigative reporting, cybersecurity, and digital analytics to help expose and counter false CCP narratives.

(5) The Open Technology Fund shall continue and expand its work to support tools and technology to circumvent censorship and surveillance by the CCP, both inside the PRC as well as abroad where the PRC has exported censorship technology, and increase secure peer-to-peer connectivity and privacy tools.

(6) Voice of America shall continue and review opportunities to expand its mission of providing timely, accurate, and reliable news, programming, and content about the

United States, including news, culture, and values.

(7) The networks and grantees of the United States Agency for Global Media shall continue their mission of providing credible and timely news coverage inclusive of the People’s Republic of China’s activities in Xinjiang, including China’s ongoing genocide and crimes against humanity with respect to Uyghurs and other Turkic Muslims, including through strategic amplification of Radio Free Asia’s coverage, in its news programming in majority-Muslim countries.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated, for each of fiscal years 2022 through 2026 for the United States Agency for Global Media, \$100,000,000 for ongoing and new programs to support local media, build independent media, combat Chinese disinformation inside and outside of China, invest in technology to subvert censorship, and monitor and evaluate these programs, of which—

(1) not less than \$70,000,000 shall be directed to a grant to Radio Free Asia language services;

(2) not less than \$20,000,000 shall be used to serve populations in China through Mandarin, Cantonese, Uyghur, and Tibetan language services; and

(3) not less than \$5,500,000 shall be used for digital media services—

(A) to counter propaganda of non-Chinese populations in foreign countries; and

(B) to counter propaganda of Chinese populations in China through “Global Mandarin” programming.

(d) REPORTING REQUIREMENT.—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, and annually thereafter for 5 years, the Chief Executive Office of the United States Agency for Global Media, in consultation with the President of the Open Technology Fund, shall submit a report to the appropriate congressional committees that outlines—

(A) the amount of funding appropriated pursuant to subsection (c) that was provided to the Open Technology Fund for purposes of circumventing Chinese Communist Party censorship of the internet within the borders of the People’s Republic of China; and

(B) the progress that has been made in developing the technology referred to in subparagraph (A), including an assessment of whether the funding provided was sufficient to achieve meaningful penetration of People’s Republic of China’s censors; and

(C) the impact of Open Technology Fund tools on piercing Chinese Communist Party internet censorship efforts, including the metrics used to measure that impact and the trajectory of that impact over the previous 5 years.

(2) FORM OF REPORT.—The report required under paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

(e) SUPPORT FOR LOCAL MEDIA.—The Secretary of State, acting through the Assistant Secretary of State for Democracy, Human Rights, and Labor and in coordination with the Administrator of the United States Agency for International Development, shall support and train journalists on investigative techniques necessary to ensure public accountability related to the Belt and Road Initiative, the PRC’s surveillance and digital export of technology, and other influence operations abroad direct or indirectly supported by the Communist Party or the Chinese government.

(f) INTERNET FREEDOM PROGRAMS.—The Bureau of Democracy, Human Rights, and Labor shall continue to support internet freedom programs.

(f) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to the

Department of State, for each of fiscal years 2022 through 2026, \$170,000,000 for ongoing and new programs in support of press freedom, training, and protection of journalists.

**SEC. 3137. GLOBAL ENGAGEMENT CENTER.**

#### SEC. 3202. UNITED STATES COMMITMENT AND SUPPORT FOR ALLIES AND PARTNERS IN THE INDO-PACIFIC.

(a) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the United States treaty alliances in the Indo-Pacific provide a unique strategic advantage to the United States and are among the Nation's most precious assets, enabling the United States to advance its vital national interests, defend its territory, expand its economy through international trade and commerce, establish enduring cooperation among like-minded countries, prevent the domination of the Indo-Pacific and its surrounding maritime and air lanes by a hostile power or powers, and deter potential aggressors;

(2) the Governments of the United States, Japan, the Republic of Korea, Australia, the Philippines, and Thailand are critical allies in advancing a free and open order in the Indo-Pacific region and tackling challenges with unity of purpose, and have collaborated to advance specific efforts of shared interest in areas such as defense and security, economic prosperity, infrastructure connectivity, and fundamental freedoms;

(8) the United States should continue to engage on and deepen cooperation with allies and partners of the United States in the Indo-Pacific region, as laid out in the Asia Reassurance Initiative Act (Public Law 115-409), in the areas of—

(3) the United States should seek to expand avenues of cooperation with the Quad, including more regular military-to-military dialogues, joint exercises, and coordinated policies related to shared interests such as protecting cyberspace and advancing maritime security;

(4) the recent pledge from the first-ever Quad leaders meeting on March 12, 2021, to respond to the economic and health impacts of COVID-19, including expanding safe, affordable, and effective vaccine production and equitable access, and to address shared challenges, including in cyberspace, critical technologies, counterterrorism, quality infrastructure investment, and humanitarian assistance and disaster relief, as well as maritime domains, further advances the important cooperation among Quad nations that is so critical to the Indo-Pacific region;

**TITLE \_\_\_\_—REVITALIZING MULTILATERAL EXPORT CONTROL DIPLOMACY FOR CRITICAL TECHNOLOGIES ACT**

**SEC. \_\_\_\_01. SHORT TITLE.**

This title may be cited as the “Revitalizing Multilateral Export Control Diplomacy for Critical Technologies Act”.

**SEC. \_\_\_\_02. FINDINGS; SENSE OF CONGRESS.**

(a) FINDINGS.—Congress finds the following:

(1) United States arms embargoed countries are implementing malign and aggressive industrial policies using non-market means and engaging in predatory investment to gain control of critical technologies in

order to achieve market dominance and control supply chains.

(2) These countries integrate their industrial policies into initiatives that break down the barriers and distinctions between the commercial sector and the military to ensure that critical technologies support the development of their military.

(3) These countries seek to obtain critical technologies from the United States and covered United States allies and partners.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the fast-paced nature of technological innovation and the systemic diversion of technological innovation and know-how by United States arms embargoed countries for the benefit of developing and enhancing their militaries, challenges the effectiveness of existing multilateral fora established specifically to prevent such export control risks, such as the Wassenaar Arrangement; and

(2) the ability of United States arms embargoed countries to access critical technologies that affect the national security of the United States should spur the United States to work with covered United States allies and partners to develop unified export control policies to eliminate or substantially reduce the global availability of critical technologies to United States arms embargoed countries.

**SEC. \_\_\_\_03. STRATEGY TO CONTROL THE AVAILABILITY OF CRITICAL TECHNOLOGIES.**

(a) STATEMENT OF POLICY.—It is the policy of the United States to—

(B) using policy instruments, including tax, investment, licensing, lending, and trade, to provide incentives to such allies and partners; and

(C) using, if necessary, existing authorities, including trade remedies, the United States Munitions List, the Entity List, economic sanctions, and other authorities available under the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.);

(2) ensure critical technologies do not advance the economic strategies, industrial policy goals, or military capabilities of United States arms embargoed countries;

(3) carry out joint research and development projects with covered United States allies and partners, with adequate safeguards for the protection and promotion of any resulting intellectual property, to—

(A) advance a broad range of scientific and technical disciplines, including with respect to critical technologies that may be affected by the implementation of the strategy required by subsection (b); and

At the end of subtitle B of title II of division C, add the following:

**SEC. 3236. SUFFICIENT RESOURCES FOR THE UNITED STATES MILITARY.**

(a) **FINDINGS.**—Congress finds the following:

(1) The United States faces numerous national security threats from around the world, including from the People's Republic of China, the Russian Federation, the Islamic Republic of Iran, the Democratic Republic of Korea, and international terrorist and crime networks aided by United States enemies, such as the Republic of Cuba and the Bolivarian Republic of Venezuela.

(2) The United States is engaged in a new Cold War with the People's Republic of China, which is—

(A) building up its military to defeat the United States;

(B) stealing United States intellectual property and jobs;

(C) harassing neighboring Asian countries and United States allies and partners;

(D) committing genocide against the Uyghurs; and

(E) denying basic rights to the people of Hong Kong.

(3) The People's Republic of China is focused on world domination through oppression and communist rule.

(4) According to prominent research institutions, including the Center for Strategic and International Studies and the Stockholm International Peace Research Institute, the Chinese Communist Party has increased its defense spending more than 700 percent during the last decade, with an additional 6.8 percent increase anticipated in this fiscal year.

(5) Security and foreign policy experts widely acknowledge that—

(A) the People's Republic of China is not forthcoming or transparent with information related to military spending; and

(B) China's military spending may be considerably higher than its reported figures.

(6) The National Defense Strategy Commission, in its report, *Providing for the Common Defense: The Assessment and Recommendation of the States*, recommended that “Congress increase the base defense budget at an average rate of three to five percent above inflation through the Future Years Defense Program and perhaps beyond”.

(7) When considering the inflation crisis he has created, President Biden's proposed defense budget would represent a cut to spending, despite—

(A) new and mounting threats to United States national security and to our allies; and

(B) the need for sufficient military support to deter our enemies and maintain the most lethal fighting force in the world.

(8) President Biden's proposed budget request includes \$715,000,000,000 for the Department of Defense, which is well below the funding needed to keep pace with inflation, while the President's nondefense discretionary spending request is \$769,400,000,000, which represents an increase of 15.9 percent compared to the current fiscal year.

(9) In the Department of Defense's fiscal year 2021 Future Years Defense Program, the projected request for the Department of Defense in fiscal year 2022 was targeted at \$722,000,000,000, which is \$7,000,000,000 higher than President Biden's actual defense budget request for fiscal year 2022.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) President Biden's defense budget—

(A) does not provide adequate resources to deter or defeat United States enemies;

(B) does not even keep up with inflation; and

(C) does not restore our military readiness that was diminished by budget cuts and the sequester under President Barack Obama, which arbitrarily reduced defense spending across the board;

(2) the lack of sufficient funding will require the Department of Defense to choose between—

(A) providing for United States servicemembers' compensation and benefits;

(B) providing for United States forces' modernization and readiness needs; and

(C) any other priorities that the Biden Administration chooses to pursue;

(3) President Biden's decision to reduce defense spending—

(A) harms the United States's long-term strategic competition against the People's Republic of China and other adversaries; and

(B) weakens our standing on the global stage; and

(4) the Biden Administration should work with Congress to ensure that the United States military has all the necessary resources to build and sustain the overwhelming military might that the United States expects and deserves.

**SA 1633.** Ms. WARREN submitted an amendment intended to be proposed to amendment SA 1502 proposed by Mr. SCHUMER to the bill S. 1260, to establish a new Directorate for Technology and Innovation in the National Science Foundation, to establish a regional technology hub program, to require a strategy and report on economic security, science, research, innovation, manufacturing, and job creation, to establish a critical supply chain resiliency program, and for other purposes; which was ordered to lie on the table; as follows:

(C) the effect of foreign investment in technologies or other products for sequencing or storage of DNA, including genome and exome analysis, in the United States, including the effect of such investment on the capacity to sequence or store DNA in the United States.

(2) The number of reviews and investigations conducted by the Committee, in each of the 10 fiscal years preceding the year in which the study is conducted, with respect to covered transactions (as defined in section 721(a) of the Defense Production Act of 1950 (50 U.S.C. 4565(a)))—

(A) in the pharmaceutical industry of the United States; or

(B) relating to the sequencing or storage of DNA in the United States.

(3) A short description of each such review or investigation, including whether the transaction was approved or prohibited.

(2) In addition to the management of the direct expenditure of taxpayer dollars through the budgeting process, it is essential to manage the costs associated with the governmental imposition of private expenditures required to comply with Federal regulations.

(3) Toward that end, it is important that for each new regulation issued, not fewer than 2 prior regulations be identified for elimination, and that the cost of planned regulations be prudently managed and controlled through a budgeting process.

(3) OFFSET OF NEW INCREMENTAL COSTS.—

(3) LIMITATION ON ISSUANCE.—An agency may not issue a rule if the rule was not included on the most recent version or update of the published Unified Regulatory Agenda as required under Executive Order 12866, unless the issuance of the rule was approved in advance in writing by the Director.

(4) TOTAL INCREMENTAL COST.—

(A) DETERMINATION BY OMB.—During the process by which the President establishes a budget under section 1105 of title 31, United States Code, the Director shall identify to agencies a total amount of incremental costs that will be allowed for each agency in issuing new rules and repealing rules for the next fiscal year.

Ms. CANTWELL. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 25, S. Res. 97.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The senior assistant legislative clerk read as follows:

A resolution (S. Res. 97) calling on the Government of Ethiopia, the Tigray People's Liberation Front, and other belligerents to cease all hostilities, protect human rights, allow unfettered humanitarian access, and cooperate with independent investigations of credible atrocity allegations pertaining to the conflict in the Tigray Region of Ethiopia.

There being no objection, the Senate proceeded to consider the resolution, which had been reported from the Committee on Foreign Relations, with an amendment to strike all after the resolving clause and insert the part printed in italic and an amendment to the preamble to strike the preamble and insert the part printed in italic, and an amendment to the title as follows:

*Whereas the United States and the Federal Democratic Republic of Ethiopia share an important relationship and more than a century of diplomatic relations;*

*Whereas Ethiopia is the second most populous country in Africa and plays a key role in advancing security and stability across sub-Saharan Africa, including as a top contributor of uniformed personnel to United Nations peace-keeping missions;*

*Whereas tensions between Prime Minister Abiy Ahmed's Prosperity Party and the Tigray People's Liberation Front (TPLF), which was part of the ruling coalition in Ethiopia until late 2019, escalated when the TPLF held elections in the Tigray Region of Ethiopia on September 9, 2020, despite the decision by the Federal Government of Ethiopia to postpone general elections due to the COVID-19 pandemic;*

*Whereas the TPLF rejected the postponement of general elections and considered the extension of the term of the Federal Government to be*

*unconstitutional, and the Federal Government subsequently deemed the Tigray regional elections illegitimate;*

*Whereas, in the early hours of November 4, 2020, Prime Minister Abiy ordered a military offensive in response to an attack by the TPLF on the Northern Command of the Ethiopian National Defense Forces (ENDF), which evolved into an armed conflict between the ENDF and allied forces on one side and the TPLF on the other side, with thousands of deaths reported;*

*Whereas the Government of Ethiopia rejected all offers, including one extended by African Union Chairman Cyril Ramaphosa in November 2020, to mediate talks with the TPLF;*

*Whereas, on November 28, 2020, the Government of Ethiopia claimed victory in the conflict after taking Mekelle, the capital city of the Tigray Region, with Prime Minister Abiy announcing that his forces had "completed and ceased the military operations" and would shift focus to rebuilding the region and providing humanitarian assistance while Federal police attempt to apprehend leaders of the TPLF;*

*Whereas clashes have continued in the Tigray Region and Ethiopian soldiers and allied forces have pursued prominent TPLF leaders, notably killing former Minister of Foreign Affairs of Ethiopia Seyoum Mesfin as part of a "stabilizing mission . . . to bring to justice perpetrators";*

*Whereas, in 2020, prior to the outbreak of fighting in the Tigray Region, there were more than 1,800,000 people internally displaced in Ethiopia and approximately 2,000,000 people in the Tigray Region were already in need of humanitarian assistance;*

*Whereas the conflict in the Tigray Region has prompted more than 61,000 Ethiopians to seek refuge in Sudan, has displaced as many as 500,000 people internally, and has caused severe shortages of food, water, medical supplies, and other necessary goods for those who remain in the region;*

*Whereas the conflict has disrupted harvests, livelihoods, markets, and supply chains, food and medical supplies have been looted, and restrictions and bureaucratic impediments continue to constrain the humanitarian response, with nearly 4,000,000 people in the Tigray Region estimated to require urgent food assistance, including 100,000 Eritrean refugees;*

*Whereas, during the first few weeks of the conflict, there was a complete shutdown of electricity, banking, internet, and telephone services throughout the Tigray Region by the Government of Ethiopia, with government reports of TPLF forces also destroying communications infrastructure, and subsequent service restorations have been limited;*

*Whereas, in addition to the shutdown of telephone and internet services, which has severely limited the flow of information on the conflict and the humanitarian situation, journalists have been restricted from accessing much of the Tigray Region, several journalists have been arrested in connection to their coverage of the conflict, and one journalist working for the Tigray Mass Media Agency was killed;*

*Whereas, according to international human rights organizations, during the conflict in the Tigray Region, ethnic Tigrayans throughout Ethiopia have been suspended from their jobs and prevented from leaving the country, and there are reports of surveillance and mass arrests of citizens of Ethiopia based on their ethnicity;*

*Whereas, in March 2021, President Biden asked Senator Christopher Coons to serve as an emissary to convey the President's grave concerns to Prime Minister Abiy about the humanitarian crisis and human rights abuses in the Tigray Region and the risk of broader instability in the Horn of Africa;*

Whereas Ethiopia is undergoing a fragile political transition, with the postponed 2020 general elections rescheduled for June 2021, except in the Tigray Region, where elections have not yet been scheduled;

Whereas the Government of Ethiopia has restricted the right of several opposition political parties to peacefully assemble and organize, and a number of opposition leaders have been jailed since the summer of 2020, with varying degrees of due process violations and procedural delays in their trials, leading some major opposition parties to threaten to withdraw from the forthcoming general elections;

Whereas the conflict in the Tigray Region, intercommunal violence in other parts of Ethiopia, and the erosion of political and civic space calls into the question whether the general elections in June 2021 can meet the aspirations and expectations of the Ethiopian people and internationally accepted standards for free and fair elections; and

Whereas the conflict in the Tigray Region occurs within the context of complicated regional and global dynamics, including ongoing negotiations between Ethiopia, Egypt, and Sudan over the Grand Ethiopian Renaissance Dam, Ethiopia's rapprochement with Eritrea, threats posed by the violent extremist organization Al-Shabaab, a struggle for influence and power among regional and global actors, increasingly hostile border disputes between Ethiopia and Sudan, and the fragile democratic transition and peace process in Sudan: Now, therefore, be it

(C) take continued actions to ensure that a "full, independent, international investigation into all reports of human rights violations, abuses, and atrocities" committed in the course of the conflict as called for by Secretary of State Blinken on February 27, 2021, is conducted, and impose strict accountability measures on those found responsible;

(D) use all diplomatic, developmental, and legal tools to prevent further ethnic-based violence and mass atrocities, including by non-state armed groups, and promote competitive multi-party democracy in Ethiopia; and

## EXTENSIONS OF REMARKS

HONORING FIREFIGHTER ROGER MILLER

**HON. JOHN JOYCE**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Mr. JOYCE of Pennsylvania. Madam Speaker, I rise today to recognize Firefighter Roger Miller for his 40 years of service with the Meyersdale Volunteer Fire Department in Somerset County, Pennsylvania.

Firefighters' commitment and service to our community are invaluable. Volunteer firefighters often are called on to respond to emergencies of all types. From battling structure fires to conducting search and rescue operations, volunteer firefighters respond immediately whenever disaster strikes. These heroes often go above and beyond—they teach first aid, educate students about fire and other dangerous hazards, and even install car safety seats for children. Through their diverse and often-difficult work, volunteer firefighters provide lifesaving services and are a staple of our local community.

Firefighter Miller has worked throughout his career to serve the people of Somerset County. On behalf of Pennsylvania's 13th Congressional District, I thank him for his work to protect life and property in our community and wish him continued health, safety, and success.

CONDEMNING THE HORRIFIC SHOOTINGS IN ATLANTA, GEORGIA ON MARCH 16, 2021

SPEECH OF

**HON. SHEILA JACKSON LEE**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, May 18, 2021*

Ms. JACKSON LEE. Madam Speaker, as Chair of the Judiciary Subcommittee on Crime, Homeland Security, and Terrorism, and a senior member of the Homeland Security, and Budget Committees, I rise in strong support of H. Res. 275—Condemning the horrific shootings in Atlanta, Georgia, on March 16, 2021, and reaffirming the House of Representative's commitment to combating hate, bigotry, and violence against the Asian-American and Pacific Islander community.

Madam Speaker, we all awoke earlier this year to the horrific news that in suburban Atlanta, Georgia, a 21-year old angry white man murdered 8 persons at three Asian massage spas.

Among the innocent victims were 6 young Asian American women who worked in the establishments.

The suspected perpetrator of these brutal crimes has been arrested and charged with 8 counts of murder.

According to the Atlanta Police Department, the killer is reported to have told police that he

has an issue, what he considers a 'sex addiction,' and 'sees these [Asian massage spa] locations as something that allows him to go to these places' and 'it is a temptation for him that he wanted to eliminate.'

Adding insult to injury, a Georgia sheriff's captain, acting as spokesperson for law enforcement investigators, characterized the killer as "having a really bad day."

Madam Speaker, since the beginning of the COVID-19 pandemic in March 2020, there has been a significant increase in harassment and violence against the Asian American community.

Unfortunately, this is not new; there is a long history of racism against Asian Americans, especially during times of social and economic unrest.

Throughout American history Asian Americans are often blamed for the emergence of pandemics and diseases, even if the sickness originated far outside the Asian American community.

The COVID-19 pandemic is no exception, as American citizens, and residents of actual or perceived Chinese descent, have received intense and unjust scrutiny, violence, and harassment as perpetrators associate them with the cause of the pandemic and resulting social and economic turmoil.

And the racist practice of the 45th President of always referring to the coronavirus as the "China Virus," or "Kung Flu" certainly contributed to, and inflamed, an already dangerous climate for persons of Asian descent.

Asian migration to the continental United States can be traced as far back as 1800's.

Despite their long residence in the country, throughout American history Asian American communities have been stigmatized as perpetual foreigners.

These xenophobic sentiments are especially exacerbated in times of social and economic discontent, leaving Asian American communities vulnerable to white supremacist and racist violence and harassment.

Especially notable to today, historically anti-Asian racism often associates Asian communities with illness—leaving Asian Americans particularly vulnerable to medical scapegoating and violence during epidemics.

Xenophobia and racism against the Asian American community continued well into the 20th century.

Most infamously, in 1942 President Franklin Delano Roosevelt signed Executive Order 9066, which ordered the forced internment of 120,000 Japanese Americans during World War II.

While American immigration policies' still forbade the free migration of Asian immigrants into the country, thousands of Japanese-Americans had lived in the United States for decades, many of whom were second and third-generation Americans.

As the 1980 investigation and report of the Commission on Wartime Relocation and Internment of Civilians would later conclude, Japanese internment was primarily driven by racism and xenophobia rather than a legitimate security threat.

Even though nearly two-thirds of Japanese internees were American citizens, Japanese-Americans were considered as a collective to be disloyal, un-American, and a security risk.

In 1982, amid a downturn in the U.S. automobile industry that was blamed on competition from Japanese companies, Chinese American Vincent Chin was beaten to death by two white autoworkers, one allegedly saying, "it's because of you little m-f-s that we're out of work."

Chin's assailants never spent a day in jail and instead were only sentenced to probation and fined and the resulting outrage from the Asian American community served as a galvanizing force to organize for Asian American civil rights and advocacy, and it remains a central rallying cry and example of injustice for contemporary Asian American activism.

In the aftermath of the September 11th attack on the United States, South Asian, Muslim, and Middle Eastern Americans increasingly became the targets of violence and discrimination.

In the week following the terrorist attack, media outlets reported 645 bias incidents targeting people perceived to be Muslim or of Middle Eastern descent.

At the time, the Bush Administration condemned the harassment and urged respect for the Muslim and South Asian community, with President Bush himself stating that the perpetrators of these racialized attacks should be "ashamed."

Then-Federal Bureau of Investigation (FBI) Director Robert Mueller reiterated President Bush's sentiments, stating that: "vigilante attacks and threats against Arab-Americans will not be tolerated."

In the years since, the Department of Justice has investigated over 800 incidents of violence, threats, and harassment against Arab, Muslim, Sikh, and South Asian Americans, and others of perceived Middle Eastern descent.

Sparked by xenophobic rhetoric framing fault for the coronavirus around its country of origin, Asian Americans, notably those of Chinese descent or assumed Chinese descent, have suffered increased rates of violence, harassment, and intimidation over the last year.

Led by the racist rhetoric of the 45th President, targeted xenophobic and anti-Asian sentiments have exacerbated the scapegoating and targeting of the Asian American community.

Between March 16 and March 30, 2020, the worst president in history referred to COVID-19 as the "Chinese virus" more than 20 times, claiming that his phrasing was not racist at all, but rather accurate because the virus came from China.

He even had the word "Corona" crossed out of his press conference notes, replaced with "Chinese" handwritten above it, and he also called the virus "Kung Flu" at a rally in Tulsa, Oklahoma on June 20, 2020 then again at a church rally in Phoenix, Arizona on June 24, 2020.

Examples of additional violent physical assaults against the Asian American community over the last year include:

• This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

1. A sixteen-year-old boy was sent to the emergency room after being physically attacked at his high school by an assailant who claimed the boy had COVID-19 simply because he was Asian.

2. An 81-year-old woman was punched in the face and lit on fire outside her home.

3. A woman was kicked, punched, and hit with an umbrella in a subway station in New York.

4. A man and his ten-year-old son were followed to a bus station by a man who was yelling and cursing at them before eventually hitting the man over the head.

5. A 61-year-old man was slashed across the face with a boxcutter on the subway in New York City. His injuries required him to receive nearly 100 stitches.

6. A woman was doused in a caustic chemical as she took out the trash; resulting in chemical burns on her face, neck and back.

7. A 52-year-old woman was shoved to the ground and hit her head on a metal newspaper stand.

8. A 51-year-old man was beaten with his own cane at a bus stop. His injuries were so severe, he lost part of a finger.

Further, in addition to these violent incidents, data shows that general and daily harassment of Asian Americans has increased in the last year, examples of which include:

1. A couple found a note pinned to their door that read: "We're watching you f—— c—— take the chinese virus back to china. We don't want you hear [sic] infecting us with your diseases!!!!!!!!!!!!—Your friendly neighborhood."

2. A woman was cursed at while taking out her trash, a man walking by yelling "F—— Chinese" and "Yea, I'm talking to you, Chinese B——."

3. A woman was yelled at, followed, and spit on as she walked to her gym.

4. A man was yelled at while grocery shopping, the customer in front of him at the checkout line shouting at him "It's you people who brought the disease."

Finally, Madam Speaker, in my home state of Texas, about this time a year ago, a Burmese American family was shopping at a Sam's Club in Midland, Texas when a man repeatedly hit the father on the back of his head and slashed at his face.

Later, the assailant returned to continue to attack the family—stabbing their two-year-old child and slashing their six-year-old across the face.

In light of increasing attacks on Asian Americans, several members of Congress have called for a stronger hate crime tracking law to add to the existing legal framework of hate crime legislation.

Congresswoman CHU, the Chair of the Congressional Asian Pacific American Caucus, has called on this consider new hate crime tracking legislation, noting that all of us must be vocal in rejecting xenophobia and racism."

And I am pleased to be an original cosponsor of the March 25, 2020 resolution introduced by Congresswoman MENG of New York and passed by the House on September 17, 2020, condemning anti-Asian sentiment related to COVID-19 and calling on federal law enforcement officials to work with state and local officials to investigate hate crimes and incidents against the Asian American community.

In my hometown of Houston, Texas, we know all too well the fear, horror, and heart-

break inflicted on members of vulnerable and marginalized communities when they are targeted by hate crime violence.

That is why I have reintroduced H.R. 133, the David Ray Hate Crimes Prevention Act or "David's Law," to amend the federal criminal code to impose penalties for willfully causing bodily injury to any person or, through the use of fire, a firearm, or an explosive device, attempting to cause such injury, whether or not acting under color of law, because of the actual or perceived race, color, religion, national origin, gender, sexual orientation, or disability of any person, where the offense is in or affects interstate or foreign commerce.

This legislation is named in honor of David Ray Ritcheson, a constituent and high school student, who was brutally beaten and left for dead simply because his assailants hated his national origin.

Madam Speaker, hate crimes are among the worst atrocities that exist in modern day society.

A hate crime is defined as the incidence of violence motivated by the actual or perceived race, color, national origin, relation, sexual orientation, gender, and disability of the victim.

Unfortunately, hate crimes are under-reported for several reasons, including fear and intimidation.

As most of us in this Congress know all too well, hate-motivated violence disrupts the tranquility and safety of our communities, impedes the movement of members of targeted groups, and prevents members of targeted groups from purchasing goods and services, obtaining, or sustaining employment, and achieving the American Dream.

The mass shootings in Georgia are one part of a nationwide pattern of Asian women's being disproportionately targeted in hate incidents, and this Resolution proclaims loud and clear that the United States Government is committed to combatting hate, bigotry and violence against Asian Americans and Pacific Islanders.

For this reason, I urge all of my colleagues to rise with me in support of H. Res. 275—Condemning the horrific shootings in Atlanta, Georgia, on March 16, 2021, and reaffirming the House of Representative's commitment to combating hate, bigotry, and violence against the Asian-American and Pacific Islander community.

A MAN WHO ALLEGEDLY TRIED TO KILL AN ASIAN AMERICAN FAMILY BECAUSE OF THE CORONAVIRUS COULD FACE HATE CRIME CHARGES

(By Julia Reinstein)

The incident is just one in a surge of racist attacks that Asian-Americans have faced during the coronavirus pandemic.

A man who allegedly tried to kill an Asian American family of three because he believed they were spreading the coronavirus at a Sam's Club in Texas could face hate crime charges, the FBI told BuzzFeed News on Wednesday.

Jose L. Gomez, 19, stabbed the three people on March 14 at the Midland, Texas, Sam's Club before being taken down by a store employee, who saved the family's lives and was injured in the process, police told BuzzFeed News.

Gomez was then taken into custody by an off-duty Border Patrol agent. He was charged with three counts of attempted capital murder and one count of aggravated assault with a deadly weapon.

Bernie Ramirez, the Border Patrol agent, told CBS7 he initially approached Gomez and family with the intention of breaking up what he thought was a fight over scarce goods.

Ramirez said "credit is due" to Zach Owen, the store employee who stopped Gomez by putting him in a chokehold and suffered stab wounds to the hand in the process.

"He went into a knife fight bare-handed," Ramirez said. "He took control of the individual, and he disarmed him. If Zach had not been there, things could've gone really badly."

Ramirez did not immediately respond to a request for comment. The father in the family declined to comment.

Gomez allegedly stabbed the three "because he thought the family was Chinese, and infecting people with the coronavirus," the FBI stated in a document obtained by ABC News.

An FBI spokesperson told BuzzFeed News they were unable to comment on the document but confirmed that the case is being treated as a possible hate crime.

According to the FBI report, federal law enforcement officials are warning there could be a surge in hate crimes against Asian Americans.

"The FBI assesses hate crime incidents against Asian Americans likely will surge across the United States, due to the spread of coronavirus disease . . . endangering Asian American communities," the document reportedly states. "The FBI makes this assessment based on the assumption that a portion of the US public will associate COVID-19 with China and Asian American populations."

The Texas stabbing was just one of the many racist attacks Asian Americans have been facing amid the coronavirus pandemic's rise in the US.

On March 11, a woman in New York punched another woman for not wearing a face mask and "made anti-Asian statements and fled the location on foot." In February, a 16-year-old boy was sent to the hospital after being physically attacked by bullies who accused him of having the coronavirus. One couple in Minnesota got a note on their door that said "we're watching you" and "take the Chinese virus back to China."

President Donald Trump has deliberately referred to COVID-19 as the "Chinese virus" on multiple occasions, which critics have seen as a way of scapegoating China and, in turn, inciting hatred and harassment of people of Asian descent. The World Health Organization has urged people not to attach locations or ethnicity to the virus to prevent social stigma.

When questioned, Trump defended his use of the term,

"It's not racist at all, no. Not at all," Trump said. "It comes from China."

The FBI spokesperson told BuzzFeed News the agency "will use all authority granted to us by federal law to investigate and hold those who commit violent acts accountable for their actions."

"During the COVID-19 pandemic, we want to remind everyone that any violent criminal act against any person because of their race, ethnicity or national origin is a hate crime," the spokesperson said. "This includes violence toward Asian Americans or individuals from East Asian countries."

8 DEAD IN ATLANTA SPA SHOOTINGS, WITH FEARS OF ANTI-ASIAN BIAS

The man who police say went on a rampage at three spas in the Atlanta area has been charged with eight counts of murder in connection with the attacks.

Here's what we know:

1. The suspect in the spa attacks has been charged with eight counts of murder.

2. Six of the eight victims were women of Asian descent.

3. President Biden: 'I know Asian-Americans are very concerned.'

4. A survivor of the shooting spree called his wife: 'I've been shot! Please come.'

5. The suspect's parents identified him in surveillance footage during the manhunt.

6. Experts warn of a rise in hate crimes motivated by 'male supremacy.'

7. Asian-Americans were targeted in nearly 3,800 hate incidents in the past year.

The Atlanta police on Wednesday said a 21-year-old suspect was arrested and charged in the shootings that took place at three massage parlors Tuesday night:

"This was a tragic day with many victims, but thankfully the suspect was quickly apprehended." "The suspect did take responsibility for the shootings. He said that early on, once we began the interviews with him. He claims that these, and as the chief said, we know this is still early, but he does claim that it was not racially motivated. He apparently has an issue, what he considers a sex addiction, and sees these locations as something that allows him to go to these places. And it is a temptation for him that he wanted to eliminate." "So obviously, whatever the motivation was for this guy, we know that many of the victims, the majority of the victims, were Asian. We also know that this is an issue that is happening across the country. It is unacceptable. It is hateful, and it has to stop." "We put out an image of a possible suspect very early on in this incident, and we were notified by his family, who were fully cooperative, and we are greatly appreciative of their assistance in this matter."

ACWORTH, Ga.—The man who police say went on a rampage at three spas in the Atlanta area, killing eight people, was charged on Wednesday with eight counts of murder in connection with the attacks.

The brazen shootings, which took the lives of six women of Asian descent, stirred considerable outrage and fear in the Asian-American community. Investigators said they had not ruled out bias as a motivating factor even as the suspect denied such racial animus once in custody.

The gunman told the police: that he had a "sexual addiction" and had carried out the shootings at the massage parlors to eliminate his "temptation," the authorities said on Wednesday. He also said that he had frequented massage parlors in the past and launched the attacks as a form of vengeance. All but one of the victims were women, the police said.

Mayor Keisha Lance Bottoms of Atlanta said that regardless of the determination about motive, the tragedy was clear.

"Whatever the motivation was for this guy, we know that the majority of the victims were Asian," Ms. Bottoms said. "We also know that this is an issue that is happening across the country. It is unacceptable, it is hateful and it has to stop."

The authorities charged Robert Aaron Long, 21, on Wednesday with eight counts of murder and one count of aggravated assault in connection with the shootings. Four of the murder counts and the assault charge stem from the first shooting, in Cherokee County, and the other four murder counts relate to the shootings at two spas in the city of Atlanta less than an hour later, the authorities said.

Capt. Jay Baker of the Cherokee County Sheriff's Office said the gunman had told the police he was driving to Florida when he was caught after the shootings on Tuesday evening, and that he said he may have been

trying to commit similar violence at a business connected to the "porn industry" there. He was stopped after his parents alerted the police that they believed their son might be the suspect, and the police were able to track his phone.

Sheriff Frank Reynolds of Cherokee County said the gunman may have "frequented these places in the past and may have been lashing out."

The police arrested Mr. Long, who is white, about 150 miles south of Atlanta after a manhunt, the authorities said. They had earlier released a surveillance image of a suspect near a Hyundai Tucson outside one of the massage parlors. Mr. Baker said that Mr. Long, of Cherokee County, had admitted to the shootings and that he appeared to be acting alone.

Rodney Bryant, the acting chief of the Atlanta Police Department, said it was not yet clear whether the shooting spree would be classified as a hate crime.

"We are still early in this investigation, so we cannot make that determination at this moment," Chief Bryant said. "We are just not there as of yet."

(By Scott Reinhard)

Four people died in the first shooting, at Young's Asian Massage near Acworth, a northwest suburb of Atlanta, Mr. Baker said. That shooting, in which a Hispanic man was injured, was reported around 5 p.m.

At 5:47 p.m., the Atlanta police said, officers responded to a robbery at Gold Spa in the northeast part of the city, where they found the bodies of three women with gunshot wounds. While the officers were at the scene, the police said, they received a report of shots fired at the Aromatherapy Spa across the street, where they found the body of another woman.

A 911 caller who said she was hiding in the back of Gold Spa told the emergency operator that a "white guy" had a gun, according to audio recordings released by the Atlanta Police Department.

She was not sure where the gunman was, she told the operator, because she was hiding, and was unsure what he was wearing. "I don't know," she pleaded in response to questions. "Please just come."

Six of the eight people killed in the shootings at Atlanta-area spas on Tuesday were women of Asian descent, raising fears that they could have been targeted because of their race, even as the police said it was too early to know.

On Wednesday, the police named the victims of the shooting at Young's Asian Massage in Acworth, Ga., as Delaina Ashley Yaun; 33, of Acworth; Paul Andre Michels, 54, of Atlanta; Xiaojie Tan, 49, of Kennesaw; and Daoyou Feng, 44. One person, Elcias R. Hernandez-Ortiz, 30, of Acworth, was injured.

An official from the South Korean Consulate in Atlanta, citing the Foreign Ministry in Seoul, confirmed on Wednesday that four of the eight killed in the shooting spree were ethnic Koreans. But the nationalities of the four women were not immediately known, the official said.

Ms. Yaun was a customer at Young's Asian Massage and had been planning a date night with her husband, her half sister, Dana Toole, said. She was killed, and her husband survived after locking himself in a nearby room as gunshots rang out, Ms. Toole said.

"He's not OK," Ms. Toole said about her sister's husband. "He's taking it hard."

Ms. Yaun was one of four siblings who grew up in Acworth, and had worked as a server at a Waffle House restaurant. She raised a 13-year-old son as a single mother and had an 8-month-old daughter, Ms. Toole said.

"It was just all about family," Ms. Toole said. "Whatever we'd do, we'd do it to-

gether." Now the shooting has left the family in shock.

"It doesn't seem real. I expect to see her walking through the door any minute. It just hasn't quite sunk in yet," Ms. Toole said.

"My eyes hurt so bad because I've been crying so much," she said. "It's just hard right now for us to even think about moving forward, because she's not here."

Young's Asian Massage is tucked in a modest strip mall, with a beauty salon on one side and a boutique on the other. Like much of suburban Georgia, the mall is a diverse place, with panaderias and Latin businesses and American-style chain restaurants.

On Tuesday night, the blue lights of police vehicles cast an eerie glow as detectives worked inside the spa.

Rita Barron, 47, the owner of Gabby's Boutique next door, was with a group of onlookers standing near a used car lot. She said she had been with a customer when she heard noises through the wall that sounded like claps—and then women screaming.

She called 911, and soon saw victims being taken out by police officers.

Nearby, a wall of anguish went up from another cluster of people waiting for any news. Three dropped to the pavement, two of them embracing and shaking as they cried.

*Wednesday, May 19, 2021*

Ms. STEVENS. Madam Speaker, I rise today to recognize the 70th birthday of Mr. Harvey Solway of Bloomfield Hills, Michigan, who reached this milestone on March 24th.

Harvey has spent his long and loving life dedicated to his beloved family and countless friends. He has maintained a vibrant career as the successful Chief Executive Officer of Pet Supplies Plus, and now investment enterprises.

Harvey's family encouraged friends around the country to write to him and share a favorite memory, and I would like to include mine here for this record.

It is well known that the first time I met Harvey Solway was when I was in high school, and I entered his house after school with his daughter, Alison, one of my best friends, I mistakenly thought he was asking me how my day went, when in fact, he was speaking to his wife. My precocious seventeen-year-old self responded that I was exasperated to find out that a government education program for young adults had concluded its application period, and that I had missed the deadline.

While Alison regales many with this story frequently, what many do not know is that Harvey Solway was one of the first people to encourage and support my run for Congress.

Harvey has lent generous wisdom and counsel to many aspiring young professionals. He does so without seeking credit or attention, but because he likes to contribute to the better outcomes of those around him. Today, I am pleased to celebrate my friend, Harvey, on his birthday. I am glad that he got to spend this milestone day with his loving wife, Nancy, by his side. Here's to many more.

**IN SUPPORT OF H. RES. 398  
RECOGNIZING THE FORTHCOMING  
CENTENNIAL OF THE 1921 TULSA  
RACE MASSACRE**

**HON. SHEILA JACKSON LEE**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Ms. JACKSON LEE. Madam Speaker, I rise to speak in strong support of H. Res. 398, the Recognizing the Forthcoming Centennial of the 1921 Tulsa Race Massacre, recognizes one of the darkest moments in American history, the Tulsa-Greenwood Race Massacre, that occurred in the African American Greenwood community of Tulsa, Oklahoma on May 31–June 1, 1921.

Madam Speaker, earlier this year I introduced a resolution (H. Res. 215 later modified as H. Res. 398), joined by 84 cosponsors, recognizing the centennial of the 1921 Tulsa Race Massacre.

The resolution was reintroduced as H. Res. 398 to make technical corrections to allow the House of Representatives to vote on the measure.

On March 18, 2021, I am pleased to report that the H. Res. 398 passed the House as part of the House Rule for H.R. 1629, the Fairness in Orphan Drug Exclusivity Act, and H. Res. 275, the Condemning the horrific shootings in Atlanta, Georgia, on March 16, 2021.

As the great southern writer William Faulkner reminded us: "The past is never dead. It's not even past."

Madam Speaker, as I and other Members spoke in support of H. Res. 398, we recounted the hatreds, prejudices, resentments, and white supremacy that Black Americans witnessed and suffered in Greenwood a century ago are not dead; they are not even past.

A century ago, White rioters, local law enforcement, and self-appointed vigilantes claimed to be acting reasonably and in self-defense against what they feared was an upcoming Black uprising.

They resented the economic prosperity and self-sufficiency of the Greenwood community, which was known nationally as "Black Wall Street."

They viewed Black males as fearsome physical threats to their personal safety and as rivals to white women.

These baseless, irrational concerns are not a relic of the past, they are with us today and are what resulted in the deaths of George Floyd, Tamir Rice, Deonte Wright, Stephon Clark, Amidou Diallo, and hundreds of others too numerous to list.

In 1921, Tulsa, Oklahoma's Greenwood District, known as "Black Wall Street," was one of the most documented prosperous African American communities in the United States.

The Greenwood community with a population of over 100,000 Black people had stores that sold luxury items, 21 restaurants, 30 grocery stores, a hospital, a savings and loan bank, a post office, three hotels, jewelry and clothing stores, two movie theaters, a library, pool halls, a bus and cab service, a nationally recognized school system, six private airplanes, and two black newspapers.

On May 31st of that year, the 35 city blocks of Greenwood went up in flames, at least 300 Black persons were murdered and more than 800 were injured; it is estimated that not less than 9,000 were left homeless and destitute.

These rioters reenacted the brutality of the mob from a hundred years ago in the hallowed halls of the Citadel of Democracy.

It should not be overlooked that the source of their irrational anger, hatred, and violent reaction was that Black Americans voted in overwhelming numbers in the Atlanta, Philadelphia, Milwaukee, and Detroit to oust the most negative, divisive, racially hostile, and incompetent presidents history, the 45th President, who presided over the deaths of more than 500,000 Americans, disproportionately Black and Brown.

The legacy of white mob violence inflicted upon the Black community of Greenwood has scarred the descendants of the victims of this American pogrom.

Madam Speaker, the events of January 6th have given us insight into what the people of Greenwood Oklahoma faced when they were attacked by a similar murderous mob.

H. Res. 98 is a reminder to the nation of the ultimate cruelty inflicted upon a people for dare believing that the promise of America was attainable by them and their achievements would be respected and protected by law.

But it does more than that, it puts the House of Representatives on record that the United States can achieve a more perfect union:

by condemning the violence and destruction perpetrated against the African-American community of Greenwood, in Tulsa, Oklahoma, the scene of the then-largest single instance of domestic terror against American citizens;

through the rejection and active opposition to the false ideology of White supremacy and condemnation of all groups and organizations that ascribe to this false system of belief and seek to perpetuate their views through violence and unlawful conduct;

by promoting tolerance and unity and taking actions to ensure that governmental policies

and actions do not foster division, disharmony, or intolerance;

by calling upon all Americans to celebrate the ethnic, racial, and religious diversity that has made the United States the leader of the community of nations and the beacon of hope and inspiration to oppressed persons everywhere;

encouraging all persons in the United States to reflect upon the history of the United States as an imperfect but committed journey to establish a more perfect union and to cherish and exercise the rights, privileges, and responsibilities guaranteed by the Constitution; and

recognizing the commitment of Congress to acknowledge and learn from the history of racism and racial violence in the United States, including the Tulsa Race Massacre, to reverse the legacy of White supremacy and fight for racial justice.

Madam Speaker, I will now briefly recount the horrific events cited in H. Res. 398 that were experienced by the law-abiding Black community of Greenwood on those terrible days.

In 1921, White supremacy and racist violence were common throughout the United States and went largely unchecked by the justice system.

In Tulsa, Oklahoma reports of an alleged and disputed incident on the morning of May 30, 1921, between two teenagers, a Black man and a White woman, caused the White community of Tulsa, including the Tulsa Tribune, to call for a lynching amidst a climate of White racial hostility and White resentment over Black economic success.

On May 31, 1921, a mob of armed White men descended upon Tulsa's Greenwood District and launched what is now known as the "Tulsa Race Massacre."

Tulsa municipal and county authorities failed to take actions to calm or contain the violence, and civil and law enforcement officials deputized many White men who were participants in the violence as their agents, directly contributing to the violence through overt and often illegal acts.

Over a period of 24 hours, the White mob's violence led to the death of an estimated 300 Black residents, as well as over 800 reports of injuries.

The White mob looted, damaged, burned, or otherwise destroyed approximately 40 square blocks of the Greenwood district, including an estimated 1,256 homes of Black residents, as well as virtually every other structure, including churches, schools, businesses, a hospital, and a library, leaving nearly 9,000 Black residents of the Greenwood community homeless and effectively wiping out tens of millions dollars in Black prosperity and wealth.

In the wake of the Tulsa Race Massacre, the Governor of Oklahoma declared martial law, and units of the Oklahoma National Guard participated in the mass arrests of all or nearly all of Greenwood's surviving residents, removing them from Greenwood to other parts of Tulsa and unlawfully detaining them in holding centers.

Oklahoma local and state governments dismissed claims arising from it the 1921 Tulsa Race Massacre for decades, and the event was effectively erased from collective memory and history until, in 1997, the Oklahoma State Legislature finally created a commission to study the event.

On February 28, 2001, the commission issued a report that detailed, for the first time, the extent of the Massacre and decades-long efforts to suppress its recollection.

None of the law enforcement officials nor any of the hundreds of other White mob members who participated in the violence were ever prosecuted or held accountable for the hundreds of lives lost and tens of millions of dollars of Black wealth destroyed, despite the Tulsa Race Massacre Commission confirming their roles in the Massacre, nor was any compensation ever provided to the Massacre's victims or their descendants.

Government and city officials not only abdicated their responsibility to rebuild and repair the Greenwood community in the wake of the violence, but actively blocked efforts to do so, contributing to continued racial disparities in Tulsa akin to those that Black people still face today across the United States.

Madam Speaker, the pattern of violence against Black people in the United States, often at the hands of law enforcement, shows that the fight to end State-sanctioned violence against Black people continues.

As the American Historical Association stated, "What happened in Tulsa was extreme, but not unusual. It is part of our Nation's heritage. We must acknowledge that heritage, learn from it, and do whatever each of us can do to ensure that it is just that—heritage, rather than a continuing practice."

Madam Speaker, I include in the RECORD a more detailed account of the 1921 Tulsa Race Massacre that is based on the "Final Report of the Oklahoma Commission to Study The Tulsa Race Riot of 1921," issued February 28, 2001.

Madam Speaker, I also ask the House to observe a moment of silence in memory of the victims and survivors of the Tulsa Race Massacre, and their descendants to carry the terrible memories of that horrific day and still grieve over the loss of so many loved ones and of faith in the American system of justice.

MOTHER RANDLE'S WRITTEN TESTIMONY FOR THE HOUSE SUBCOMMITTEE ON THE CONSTITUTION, CIVIL RIGHTS AND CIVIL LIBERTIES, MAY 19, 2021

I am blessed and honored to be talking with you today. It means a lot to me to finally be able to look at you all in the eye and ask you to do the right thing. I have waited so long for justice.

My name is Lessie Evelyn Benningfield Randle. People call me Mother Randle. Today, I am 106-years-old. 100 years ago, in 1921, I was a 6-year-old child. I was blessed to live with my grandmother in a beautiful Black community in Tulsa Oklahoma, called Greenwood. I was lucky. I had a home. I had toys. I didn't have any fears as a young child and I felt very safe. My community was beautiful and was filled with happy and successful Black people. Then everything changed.

It was like a war. White men with guns came and destroyed my community. We couldn't understand why. What did we do to them? We didn't understand. We were just living. But they came, and they destroyed everything.

They burned houses and businesses. They just took what they wanted out of the buildings then they burned them. They murdered people. We were told they just dumped the dead bodies into the river. I remember running outside of our house. I ran past dead bodies. It wasn't a pretty sight. I still see it today in my mind—100 years later.

I was so scared—I didn't think we would make it out alive. I remember people were running everywhere. We waited for the soldiers to come, and when they finally came, they took us to the fairgrounds where we would be safe. It felt like so long before they came.

I survived the 1921 Tulsa Race Massacre. And I have survived 100 years of painful memories and losses.

By the grace of God, I am still here. I have survived. I have survived to tell this story. I believe that I am still here to share it with you. Hopefully now, you all will listen to us. While we are still here.

The white people who did this to us, were filled with so much hate. It is disgusting that they hate us for no reason except that we are Black people.

We know—most of the people who committed these acts are dead now. The three of us here today, are the only ones left—that we know of. But just because these men are probably dead, the City and County of Tulsa, the State of Oklahoma, and the Tulsa Chamber are still responsible for making it right.

The City and County caused this to happen to us—

The State allowed this happen to us—they didn't protect us.

The Chamber helped ensure that we could not rebuild after the Massacre, including holding us in internment camps.

They owe us something. They owe me something. I have lived much of my life poor. My opportunities were taken from me. And my community, North Tulsa—Black Tulsa—is still messed up today. They didn't rebuild it. Its empty. It's a ghetto. You can help us get some justice.

America is full of examples where people in positions of power, many just like you, have told us to wait. Others have told us it's too late. It seems like justice in America is always so slow or not possible for Blacks. And we are made to feel crazy just for asking for things to be made right. There are always so many excuses for why justice is so slow or never happens at all.

I am here today, at 106-years-old, looking at you all in the eye. We've waited too long, and I am tired. We are tired. I am asking you today to give us some peace. Please give me, my family, and my community some justice. Thank you.

HUGHES VAN ELLIS WRITTEN TESTIMONY FOR THE HOUSE SUBCOMMITTEE ON THE CONSTITUTION, CIVIL RIGHTS AND CIVIL LIBERTIES, MAY 19, 2021

My name is Hughes Van Ellis. I am 100 years old. And I am a survivor of the Tulsa Race Massacre. Because of the Massacre, my family was driven from our home. We were left with nothing. We were made refugees in our own country.

My childhood was hard and we didn't have much. We worried what little we had would be stolen from us. Just like it was stolen in Tulsa. You may have been taught that when something is stolen from you, you can go to the courts to be made whole. You can go to the courts to get justice. This wasn't the case for us. The courts in Oklahoma wouldn't hear us. The federal courts said we were too late.

We were made to feel that our struggles were unworthy of justice. That we were less valued than whites, that we weren't fully American. We were shown that in the United States, not all men were equal under law. We were shown that when Black voices called out for justice, no one cared.

But we still had faith things would get better. We still believed in the promise of America and in the cause of freedom.

I did my duty in World War II. I served in combat in the Far East with the 234th AAA

Gun Battalion. We were an all-black battalion. I fought for freedom abroad, even though it was ripped away from me at home, even after my home and my community were destroyed, I did it because I believed, in the end, America would get it right.

When I returned home from the war, I didn't find any of the freedom I was fighting for overseas. Unlike white servicemen, I wasn't entitled to GI Bill benefits because of the color of my skin. I came home to segregation. A separate and unequal America. But still I believed in America.

This is why we are still speaking up today, even at the age of 100. The Tulsa Race Massacre isn't a footnote in a history book for us. We live with it every day and the thought of what Greenwood was and what it could have been. We aren't just black and white pictures on a screen, we are flesh and blood. I was there when it happened, I'm still here. My sister was there when it happened, she's still here.

We're not asking for a handout. All we are asking for is for a chance to be treated like a first-class citizen who truly is a beneficiary of the promise that this is a land where there is "liberty and justice for all."

We are asking for justice for a lifetime of ongoing harm. Harm that was caused by the Massacre. You can give us the chance to be heard and give us a chance to be made whole after all these years and after all our struggle.

I still believe in America. I still believe in the ideals that I fought overseas to defend. And I believe if given the chance you will do the right thing and justice will be served. Thank you.

WRITTEN TESTIMONY OF MOTHER VIOLA FLETCHER FOR THE SUBCOMMITTEE ON THE CONSTITUTION, CIVIL RIGHTS, AND CIVIL LIBERTIES, WEDNESDAY, MAY 19, 2021

My name is Viola Fletcher, or Mother Fletcher. I am the daughter of Lucinda Ellis and John Wesley Ford of Tulsa, Oklahoma. I am the sister of Hughes Van Ellis, who is also here today. And I am a survivor of the Tulsa Race Massacre. Two weeks ago, I celebrated my 107th birthday.

Today, I am in Washington, D.C. for the first time in my life. I am here seeking justice. I am here asking my country to acknowledge what happened in Tulsa in 1921.

On May 31st 1921, I went to bed in my family's home in the Greenwood neighborhood of Tulsa. The neighborhood I feel asleep in that night was rich—not just in terms of wealth, but in culture, community, and heritage. My family had a beautiful home. We had great neighbors and I had friends to play with. I felt safe. I had everything a child could need. I had a bright future ahead of me. Greenwood could have given me the chance to truly make it in this country.

Within a few hours, all of that was gone. The night of the Massacre I was woken up by my family. My parents and five siblings were there. I was told we had to leave. And that was it.

I will never forget the violence of the white mob when we left our house. I still see Black men being shot, and Black bodies lying in the street. I still smell smoke and see fire. I still see Black businesses being burned. I still hear airplanes flying overhead. I hear the screams. I live through the Massacre every day.

Our country may forget this history. I cannot. I will not. The other survivors do not. And our descendants do not.

When my family was forced to leave Tulsa, I lost my chance at an education. I never finished school past the fourth grade. I have never made much money. My country, state, and city took a lot from me. Despite this, I spent time supporting the war effort in the

shipyards of California. But for most of my life, I was a domestic worker serving white families. I never made much money. To this day, I can barely afford my everyday needs. All the while the City of Tulsa have unjustly used the names and stories of victims like me to enrich itself and its White allies through the \$30 million raised by the Tulsa Centennial Commission while I continue to live in poverty.

I am 107 years old and have never seen justice. I pray that one day I will. I have been blessed with a long life—and have seen the best and worst of this country. I think about the horrors inflicted upon Black people in this country every day.

This Subcommittee has the power to lead us down a better path. I am asking that my country acknowledge what has happened to me. The trauma. The pain. The loss. And I ask that survivors and descendants be given a chance to seek justice. Open the courtroom doors to us.

I believe we must acknowledge America's sins. It is the least we can do.

I saw what happened here on January 6th this year. It broke my heart. It reminded me of what happened 100 years ago. And now, I hear some of you on TV saying it didn't happen, like we didn't see it with our own eyes. It happened on live TV. 100 years ago, there was no TV, but you have me here right now. You see Mother Randle. You see my brother, Hughes Van Ellis. We lived this history. We can't ignore it. It lives with us.

We lost everything that day. Our homes. Our churches. Our newspapers. Our theaters. Our lives. Greenwood represented the best of what was possible for Black people in America—and for all people. No one cared about us for almost 100 years. We, and our history, have been forgotten, washed away. This Congress must recognize us, and our history. For Black Americans. For white Americans. For all Americans. That's some justice.

Thank you.

THE TRAGEDY OF THE TULSA  
GREENWOOD MASSACRE

SPEECH OF

**HON. BONNIE WATSON COLEMAN**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Monday, May 17, 2021*

Mrs. WATSON COLEMAN. Madam Speaker, I rise today to recognize the 100th Commemoration of the Tulsa-Greenwood Race Massacre, where on May 31–June 1, 1921, a white mob of thousands of people shot and murdered Black residents of America's "Black Wall Street" in Tulsa, Oklahoma, looted their homes and businesses, and burned more than a thousand homes, churches, schools, and businesses. The horrific events of this deadly attack were the result of a series of failures of leadership that ultimately fostered race-based violence, discrimination, and oppression.

This was a failure of law enforcement to protect Tulsa's Black residents and maintain civil order. A failure of the judicial system, as many of the residents who fled the Massacre were detained in internment camps immediately following the Massacre and a grand jury placed the blame entirely on the Black community and indicted 85 people—mostly African Americans—with Massacre-related offenses. A failure of our American promises of the unalienable rights of life, liberty and the pursuit of happiness. Justice was not served. No White person was ever held individually accountable for crimes committed during the Massacre, and the vast majority of survivors and their descendants were never directly compensated for these harms.

The attack on the thriving Black community continued on throughout the years and is evident even in today's society; as the community sustained millions of dollars of property damage and many Black survivors of the Tulsa massacre and their descendants have not been able to recoup the wealth that had been stolen or destroyed during the Massacre. And still today, despite calls for justice and accountability, our government leaders continue to fail the victims of the Tulsa-Greenwood Massacre and their descendants by refusing action to right the wrongs that were perpetrated on innocent community members 100 years ago. Over the decades, local ordinances to prevent rebuilding, redlining, and so-called "urban renewal" policies have prevented Black Tulsans from rebuilding a thriving community. Expressways, funded by the federal government, literally cut through areas of Greenwood, displacing Black families and businesses.

Madam Speaker, though we are 100 years past the heinous Tulsa-Greenwood Massacre, Black Americans are unfortunately not far removed from the continued injustice of systemic racism and oppressive tactics that block upward mobility out of poverty and suppress opportunities to create and maintain generational wealth. As we take time to recall the injustice of this Massacre and continue the call for justice for the descendants, let us also reflect on the continued efforts of injustice that plague minority communities today. We need accountability, we need economic justice, and we need criminal justice reform. We cannot continue to delay justice and equality. The time for change is now.

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Mr. SMITH of Washington. Madam Speaker, I rise today to honor Doctor Stephen Plymate on being the 2020 recipient of the William S. Middleton Award for outstanding scientific contributions and achievements in the areas of biomedical and bio-behavioral research relevant to the healthcare of Veterans. This prestigious award is the highest honor given by the Department of Veteran Affairs (VA) Biomedical Laboratory Research and Development Service.

Doctor Plymate, a veteran himself, is an endocrinologist at the VA Puget Sound Health Care System and associate director of the Geriatric Research Education and Clinical Center. He is credited with scientific breakthroughs that identified the biological mechanism underlying lethal, castration-resistant prostate cancer. Prostate cancer cells can become resistant to a common form of treatment and Doctor Plymate's discovery identified why traditional therapies have failed and spurred innovation for newer, potentially more effective therapies.

Prostate cancer is the most commonly diagnosed cancer among Veterans, and over 500,000 known Veterans are currently battling this disease. Doctor Plymate's research will save the lives of countless Veterans and civilians alike. Once again, the Puget Sound VA has recruited the brightest and produced research that will revolutionize medicine.

Madam Speaker, it is my privilege to recognize Doctor Stephen Plymate's on his groundbreaking research and being the well-deserved recipient of the 2020 Middleton Award.

ANTONIO ESQUIBEL

**HON. ED PERLMUTTER**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Mr. PERLMUTTER. Madam Speaker, I rise today to recognize Antonio Esquibel, a Northglenn, Colo. City Councilmember, former Mayor, a Vietnam Veteran, and a great Coloradan.

Mr. Esquibel has been a resident and a staple in the Northglenn community for more than a decade, during which time he has dedicated much of his time and energy into serving his community and fellow neighbors. Throughout his tenure serving the City of Northglenn, Mr. Esquibel has held numerous positions in city government, including Mayor, Mayor Pro Tem, City Councilmember, Finance Committee member, and Adams County 12 School Board liaison. Mr. Esquibel was first elected to the City Council in 2015 where he served as the Ward 4 representative before being appointed to Mayor Pro Tem in 2017. He was then appointed Mayor in June of 2019 and proceeded to serve out the term before returning to his role as a Councilmember. As Councilmember

and Mayor, he has been a strong advocate and champion for education and mental health issues.

Mr. Esquibel's dedication to the Northglenn community follows a lifetime of public service in which he worked as a counselor in Adams 12 Five Star Schools and served our nation in the Army during the Vietnam War. Mr. Esquibel served in the U.S. Army from 1968 to 1974, ending his service with the rank of Sergeant. His service included time in Okinawa where he was awarded the National Defense Service Medal, the Meritorious Unit Commendation and the Good Conduct Medal (1st and 2nd Awards). His primary specialty was as a military police officer and secondary specialty was with the 11th Bravo Company as a Light Weapons Infantryman. In addition to his service to Northglenn and to our country, Mr. Esquibel is a loving husband to Dr. Deborah Esquibel Hunt and is a devoted father and grandfather.

While our state has been blessed with capable leadership throughout its history, few rise to the caliber and reputation of Mr. Esquibel. I wish Antonio Esquibel all the best in retirement and send gratitude for his service to the Northglenn community, the great State of Colorado, and the United States of America.

## HONORING SISTER PEG SPINDLER

**HON. FRANK J. MRVAN**

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Mr. MRVAN. Madam Speaker, it is with great respect and admiration that I take this time to honor Sister Peg Spindler and to wish her well upon her retirement. For her lifetime of service and her dedication to Sojourner Truth House, Sister Peg is to be highly commended. After more than twenty-four years of service, Sister Peg will be retiring on July 1, 2021, as the executive director of the women's shelter.

Sister Peg found her calling to sisterhood at a young age while growing up in Cedar Lake, Indiana. Upon graduating from Andrean High School in 1966, she became a religious sister and earned her bachelor's degree from Alvernia College in Reading, Pennsylvania. Sister Peg then embarked on her career as an educator, where she taught junior high school students in New Jersey, New York, and Pennsylvania. In 1983, after returning home, Sister Peg earned a master's degree from Villanova University and another in pastoral studies from Catholic Theological Union in Chicago, Illinois. Sister Peg later went on to teach eighth graders at Holy Trinity School in Gary, Indiana, for fifteen years.

In November 1997, Sister Peg, along with the support of the Poor Handmaids of Jesus Christ, opened the doors to Sojourner Truth House, located in Gary, Indiana. Sojourner Truth House serves homeless, underserved, and at-risk women and their children with the goal of providing them the necessary tools and resources to improve their quality of life.

After retiring, Sister Peg plans to continue advocating for the homeless in our region through the Continuum of Care Network of Northwest Indiana and is hopeful she will be able to launch the first Lake County Homeless Trust Fund. She also plans to visit Catholic parishes throughout the country to advocate on best practices to reduce carbon dioxide emissions and combat the harmful effects of climate change on those most vulnerable.

Madam Speaker, I ask that you join me in honoring Sister Peg Spindler for her outstanding service to the women and children who have passed through Sojourner Truth House and to wish her well upon her retirement. For her lifetime of leadership and tireless dedication to her community, Sister Peg is worthy of our utmost gratitude and appreciation.

## IN RECOGNITION OF THE HERITAGE BAPTIST CHURCH 40TH ANNIVERSARY

**HON. ROBERT J. WITTMAN**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Mr. WITTMAN. Madam Speaker, I rise today to recognize and congratulate Heritage Baptist Church in Woodbridge, Virginia as it celebrates its 40 years of Christian service.

In 1981 the Heritage Baptist church was founded in a modest rental facility at Potomac Highschool. While small in numbers, this did

not deter the church from making an impact on the community and spreading the word of God. To date, the Heritage Baptist Church has facilitated over 190 worldwide missions, boasts a congregation of over 500 members, and has planted 6 churches across the nation.

In the last 40 years, the congregation has continued to flourish and grow. What began as a small group in a one-room church has evolved into a 17 acres campus that has touched the lives of and inspired hundreds of individuals.

Today the Heritage Church can reach members of the community through the various programs offered, such as a K4 to a twelfth-grade Christian school, Sunday school bus outreach, the Heritage Institute of Ministry, and sermons in Spanish.

Therefore, Madam Speaker, I ask that you rise with me in support of the Heritage Baptist Church 40th anniversary. May God bless the Heritage Baptist Church and its community and may He continue to work through it to continue to spread the Word of God.

## RECOGNIZING THE RETIREMENT OF MRS. CHARLOTTE HODDER

**HON. DANNY K. DAVIS**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Mr. DANNY K. DAVIS of Illinois. Madam Speaker, I rise to recognize Mrs. Charlotte Hodder on her retirement from the Centers for Medicare & Medicaid Services, where she was hired as a nurse consultant on February 5, 1995.

Mrs. Hodder is a veteran of the United States Army, where she was a Specialist-E-4

from August 25, 1975 to January 22, 1980. Mrs. Hodder was in the Women's Army Corps, which in 1978 merged into the U.S. Army. They were the first female soldiers that had to qualify with a rifle. During basic training, she was assigned as a permanent Squad Leader. In this role, she was responsible for supervising, motivating and maintaining accountability and ensuring soldier readiness.

Mrs. Hodder was trained in several areas, including Quartermaster or Warehouse Specialist, Audio Visual Specialist and Office Management Specialist. As a Quartermaster Specialist, she was trained to track, pack, and ship items that others needed. As an Audio-Visual Specialist, she was trained to track, pack, ship, and prepare training material that military units needed to train their personnel. She also maintained the equipment needed to show the training material on. As an Office Management Specialist, she was assigned overseas for two years. During these two years, she handled the Official Government Mail and encrypted messages for her base. She wrote the Operations Manual for how to handle the classified mail, encrypted messages, and personnel management. During her time as an Office Management Specialist, she was assigned to work in the Base Commander's building for most of her tour of duty. In addition, she was assigned as the main company clerk for the Supply Company for a few weeks. This involved ensuring that the company correspondence and any personnel concerns were continually being processed. The opportunity to spend two years overseas, enhanced her ability to adapt to adverse situations, communicate with others in an effective manner, and to be continually aware of cultural differences. She received an Army Commendation Medal for her exceptional contribution to their Mission.

During her time in the Military, she was selected as Soldier of the Month in Fort Stewart, GA, and Camp Carroll, South Korea. This honor was received after stiff competition in front of Senior Military Enlisted soldiers. The competition involves presenting oneself in proper Military Uniform, answering several questions regarding the Military and current events. Her competition for Soldier of the Month at Ft. Stewart, GA consisted of Male Infantry Soldiers who had training for combat roles. The General, as the most senior management, of this base were quite impressed when she was selected.

"May the road rise to meet you, May the wind be always at your back, May the sun shine warm upon your face, The rains fall soft upon your fields and, Until we meet again, May God hold you in the palm of His hand."

#### INTRODUCTION OF THE TRANS- ATLANTIC TELECOMMUNI- CATIONS SECURITY ACT

#### HON. MARCY KAPTUR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Ms. KAPTUR. Madam Speaker, as co-chair of the Congressional Ukraine, Hungary, and Poland Caucuses, Member of the Baltic Caucus, and friend to liberty-lovers across Central and Eastern Europe, I rise to introduce the bipartisan Transatlantic Telecommunications Security Act. I am thankful to my colleague Congressman KINZINGER of Illinois for his co-leadership and partnership on this measure, as well as his commitment to liberty in Europe.

The United States and our NATO allies and partners in Central and Eastern Europe face down increased threats from global actors like a rising China and a belligerent Russia that

seek to export their malign influence and undermine democratic institutions. China seeks to compromise allied critical digital infrastructure by using state-linked companies like Huawei and ZTE to unfairly induce our allies to procure insecure telecommunications equipment and services. Given immense economic potential from rapid 5G deployment, European countries feel significant pressure to use dangerous Huawei equipment despite the political risks.

Bipartisan current and former U.S. officials and civil society members have recognized the threat of malign influence over critical telecommunications networks. 5G networks will serve as the backbone of artificial intelligence platforms with immense national security and domestic economic implications.

Given these critical national security needs, the United States must provide our allies alternatives to Chinese financing and provide increased diplomatic support to our allies to ensure secure telecommunications lines. This legislation would authorize the U.S. Development Finance Corporation to provide financing for cross-border 5G telecommunications infrastructure development to our allies. This financing is key to remove risky and threatening equipment and replace it with secure equipment. The legislation seeks to increase resilience in countries in the region whose infrastructure deficit from the Soviet-era makes them especially vulnerable to malign Chinese influence, including among nations in the Three Seas Initiative.

Additionally, this bill directs the Secretary of State and other relevant agency heads to prioritize diplomacy and project support with European allies and partners to develop 5G markets that are inclusive, transparent, economically viable, socially sustainable, and compliant with international law. Finally, this legislation ensures the United States is leading with our European allies to develop international 5G standards that favor democratic institutions, not further authoritarianism spread by China and Russia.

I am so thankful for the support of the Central and East Europe Coalition, the National Federation of Croatian Americans, as well as the embassies of Czechia, Estonia, Kosovo, Latvia, Lithuania, North Macedonia, Poland, and Slovenia.

The U.S. Congress must act to ensure the security of our NATO allies and partners. I urge my colleagues on both sides of the aisle to support this legislation and look forward to working with Rep. KINZINGER towards this bill's passage.

#### RECOGNIZING COLONEL HENRY L. "HANK" ADAMS (USA, RET.)

#### HON. TOM MCCLINTOCK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Mr. MCCLINTOCK. Madam Speaker, I rise today to recognize a gentleman who defines devotion to country. Colonel Hank Adams enlisted as an infantryman during World War II then proceeded to serve this country for 41 years as a soldier in the United States Army. His steady advancement from private to sergeant major to second lieutenant and then colonel is testament to a life's work under-

taking demanding and often dangerous assignments extremely well. Yet, immediately after his retirement from active duty, Col. Adams continued his work to make our armed forces the best they can be. For 34 years and counting, he has served as a U.S. Military Academy Liaison Officer relentlessly working to find and mentor the very best young men and women to lead our armed forces.

Col. Adams has provided critical assistance to me and the citizens of California's Fourth Congressional District. For 12 years, he has been the presiding member of my Service Academy Nomination Panel—and the only member with a Ruptured Duck on his lapel. His wise council and collegial coordination with the other former and active duty military officers on the panel has meant over 120 of the finest from this district have gone to our academies and then proceeded to protect this nation.

We must remember and honor men like Col. Adams who have made this county the freest and therefore the greatest in history. His lifetime example of putting country above self is increasingly rare. All too often, it is forgotten that the freedoms we enjoy are afforded to us by the service and heroism of men like Col. Adams. I am proud to rise today in gratitude and recognition of Col. Hank Adams' 75 years of continuous, uninterrupted service to our country.

#### TRANSPORTATION INFRASTRUC- TURE FINANCE AND INNOVATION ACT FOR AIRPORTS

#### HON. JOHN GARAMENDI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Mr. GARAMENDI. Madam Speaker, today I introduce the "Transportation Infrastructure Finance and Innovation Act for Airports," with U.S. Senator TAMMY DUCKWORTH (D-IL). I want to thank Representatives BRIAN BABIN (R-TX36), CONER LAMB (D-PA 17), JULIA BROWNLEY (D-CA26), and ADAM B. SCHIFF (D-CA28) and Senator JOHN CORNYN (R-TX) for their support as original cosponsors.

The country that invented air travel should not have to look to other countries' airports with envy. Congress must invest in modernizing our nation's airports to better meet the traveling public's needs and address public health concerns like coronavirus. Now more than ever, Americans deserve airports that are as efficient, safe, and clean as possible.

In its most recent annual report card, the American Society of Civil Engineers gave our nation's airports and related civilian aviation infrastructure a "D+" grade, requiring more than in \$237 billion in total capital improvements over the next 10 years. The "Transportation Infrastructure Finance and Innovation Act for Airports" is a good first step, unlocking approximately \$2 billion in federal financing available as of fiscal year 2020 for airport modernization projects, including climate resilience projects.

Roadway and transit projects eligible under the Transportation Infrastructure Finance and Innovation Act (TIFIA) are already subject to "Buy America" requirements. Our bicameral, bipartisan bill for this Congress incorporates the key provision from my "TIFIA for Airports

Act" (H.R. 7523) last Congress applying the very same "Buy America" requirements for FAA Airport Improvement Grants (49 USC 50101) to any airport project financed under TIFIA.

Madam Speaker, I urge all members to cosponsor the "Transportation Infrastructure Finance and Innovation Act for Airports." As a member of the House Committee on Transportation and Infrastructure, I plan to make this a major priority in my work.

#### HONORING FIREFIGHTER TERRY BAKER

#### HON. JOHN JOYCE

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Mr. JOYCE of Pennsylvania. Madam Speaker, I rise today to recognize Firefighter Terry Baker for his 35 years of service with the Meyersdale Volunteer Fire Department in Somerset County, Pennsylvania.

Firefighters' commitment and service to our community are invaluable. Volunteer firefighters often are called on to respond to emergencies of all types. From battling structure fires to conducting search and rescue operations, volunteer firefighters respond immediately whenever disaster strikes. These heroes often go above and beyond—they teach first aid, educate students about fire and other dangerous hazards, and even install car safety seats for children. Through their diverse and often-difficult work, volunteer firefighters provide lifesaving services and are a staple of our local community.

Firefighter Baker has worked throughout his career to serve the people of Somerset County. On behalf of Pennsylvania's 13th Congressional District, I thank him for his work to protect life and property in our community and wish him continued health, safety, and success.

IN SUPPORT OF S. 937 AND H. RES. 275

#### HON. ANNA G. ESHOO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Ms. ESHOO. Madam Speaker, I rise in strong support of S. 937, which brings perpetrators of recent hate crimes against the Asian American and Pacific Islander (AAPI) community to justice, and H. Res. 275, which mourns the targeting and killing of AAPI women in recent shootings in Atlanta.

American history documents many dark periods of racism against the AAPI community. In 1854, the California Supreme Court ruled that Asian people were unfit to testify against White people in court. In 1871, seventeen Chinese men and boys were publicly lynched in Los Angeles. The convictions of the perpetrators were overturned and no one was punished. Starting in 1882, the Chinese Exclusion Act prohibited immigration from China. In the 1940s, the U.S. military imprisoned tens of thousands of Japanese Americans during World War II over unfounded fears of immigrants aiding the enemy, even though no

spies were ever found. This is but a short list of horrific acts of anti-AAPI racism in our country's history.

Over the last year, there has been an exponential increase of anti-Asian rhetoric and hate crimes directed against the AAPI community. We had a president who placed blame on Asian Americans for the coronavirus, fanning the flames of intolerance and hatred. This intolerance is unAmerican and we cannot accept it.

Between March 19, 2020, and February 28, 2021, there were nearly 3,800 reported cases of anti-Asian discrimination related to COVID-19, with 68 percent of reported incidents of anti-Asian hate targeted toward Asian-American women. These include violent attacks on innocent Asian Americans, including the most vulnerable among us, like pregnant women, children, and the elderly.

We must fight this bigotry and prosecute perpetrators of hate crimes. The COVID-19 Hate Crimes Act does this by directing the DOJ to expedite review of hate crimes; strengthening hate crimes reporting by local, state, and Tribal agencies; and raising awareness about COVID-19-related hate crimes.

I'm proud to cosponsor H.R. 1843, the House companion to S. 937, and I thank Senator MAZIE HIRONO, Senator TAMMY DUCKWORTH, and Representative GRACE MENG for their important leadership in authoring this critical legislation.

One of the worst instances of anti-AAPI hate occurred on March 16, 2021, when a shooter killed eight people at three Asian-owned spas in the greater Atlanta area. Six of the victims were Asian-American women. In H. Res. 275, the House mourns the victims of this horrific shooting, and I'm a cosponsor of it.

I wish to acknowledge the names of the victims because we must never forget them: Xiaojie "Emily" Tan, Daoyou Feng, Delaina Ashley Yaun, Paul Andre Michels, Yong Ae Yue, Soon Chung "Julie" Park, Hyun Jung Grant, and Sun Cha Kim.

I thank my colleagues who led this resolution, Reps. JUDY CHU, CAROLYN BOURDEAUX, NIKEMA WILLIAMS, and LUCY MCBATH, together with Senator Rev. RAPHAEL WARNOCK, who led the Senate resolution.

I am exceedingly proud to represent a vibrant community of hundreds of thousands of Asian Americans and Pacific Islanders in California's 18th Congressional District which celebrates diversity as a strength and uses it as a source of our collective power.

Over the last several weeks, I've attended rallies throughout my District where hundreds have gathered to stand against AAPI hate and celebrate the AAPI community. I've stood arm-in-arm with my AAPI brothers and sisters, colleagues, constituents, neighbors, and friends to fight xenophobia, and I will continue doing so.

I urge my colleagues to swiftly and unanimously pass S. 937 and H. Res. 275 to speak out, stand up, and fight Asian hate in all its ugly forms.

IN RECOGNITION OF THE 100TH BIRTHDAY OF ALMYRA ROURKE

#### HON. DEBBIE DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Mrs. DINGELL. Madam Speaker, I rise today to recognize Almyra Rourke on the occasion of her 100th birthday. Her contributions to our community as a Rosie the Riveter are worthy of commendation.

Born in Shiawassee County, Michigan she studied bookkeeping at Lansing Business College. After graduation, her work brought her to Ypsilanti where the Willow Run Bomber Plant was in need of workers in the payroll department. When she went into the interview, the worker who interviewed her told her that she would be let go after the war since this was another man's job. She started work that day along with six fellow graduates, the only women in a room full of men.

What she had been told was a temporary role, became a career. After the war ended, Mrs. Rourke was transferred to Dearborn, Michigan and worked at Ford Motor Company for ten more years. At Willow Run, she worked on the balcony above the factory floor, and didn't think of herself as a Rosie the Riveter because she was not building the planes, but a friend told her: "I couldn't have built those bombers if you weren't there to make sure I got paid every Friday. You're as much a Rosie as I am!" As a Rosie, Almyra's hard work, grit, and patriotism not only sustained the American war effort, but paved a path for the next generation of working women.

After the war, she married Laurence Rourke, who served in the 3rd Armored Division and was on the beaches of Normandy on D-Day. Mrs. Rourke eventually left work to take care of her three children, Shirlee, Edward, and Laurene. She was a Troop Leader and Mr. Rourke was a Scoutmaster. They were active members of St. John the Baptist Church in Ypsilanti. After the children left for college, they kept active through square dancing clubs in Ann Arbor and by travelling the world—reaching all fifty states and even attending the sixtieth anniversary of the liberation of Belgium in 2004.

Madam Speaker, I ask my colleagues to join me today in celebrating Almyra Rourke on her 100th birthday. I join with her family and friends in extending my best and warmest wishes to her on this special day. I am proud to honor her life, her accomplishments, and her invaluable contributions to our Nation.

INTRODUCTION OF THE DISTRICT OF COLUMBIA NATIONAL GUARD FEDERAL EMPLOYEE LEAVE FAIRNESS ACT

#### HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, May 19, 2021*

Ms. NORTON. Madam Speaker, today, I introduce the District of Columbia National Guard Federal Employee Leave Fairness Act, which would correct a legislative drafting error and clarify that members of the D.C. National Guard (DCNG) who are federal civilian employees are entitled to leave without loss in

pay or time from their civilian employment when they are mobilized by the DCNG.

In 1899, Congress codified in the D.C. Code the original authority for entitlement to leave when federal civilian employees were mobilized by the DCNG. In 1968, that authority was moved into 5 U.S.C. 6323. In that same year, Congress authorized two additional leave entitlements in 5 U.S.C. 6323 as well as established an offset provision in 5 U.S.C. 5519 referencing those two additional leave entitlements. However, because the U.S. Code had not yet been updated to include the earlier DCNG authority, the Code contained a duplicate subsection, one referring to DCNG mobilizations and one to a more general leave entitlement for the National Guard and Reserves. My bill would restore Congress' original intent regarding DCNG mobilizations by correcting this legislative drafting error and clarifying that the pay and benefits of DCNG members who are federal civilian employees are not subject to the offset in 5 U.S.C. 5519.

The only change required to fix this legislative drafting error is to remove the erroneous reference to DCNG mobilizations in 5 U.S.C. 5519. This change would positively impact the hundreds of dedicated federal civilian employees who are also members of the DCNG, providing them the full pay and benefits they deserve.

I urge my colleagues to support this bill.

#### IN HONOR OF DR. TOBE JOHNSON

#### HON. SANFORD D. BISHOP, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, May 19, 2021

Mr. BISHOP of Georgia. Madam Speaker, I rise today in sadness and in joy to celebrate

the life of a good and great Morehouse Man, Dr. Tobe Johnson. Sadly, Dr. Johnson transitioned from labor to reward on Friday, May 7, 2021, at the age of 91. A homegoing service will be held on Friday, May 21, 2021, at 11 AM, on the campus of Morehouse College in Atlanta, Georgia. While his passing leaves in its wake many heavy hearts, upon prayerful reflection the pain we share must melt into joy. For, Dr. Johnson leaves a remarkable legacy of service to humanity as a scholar, teacher, husband, father, mentor, confidant, and friend of longstanding to many.

A native of Birmingham, Alabama, Dr. Tobe Johnson was born on September 16, 1929, to the late Mr. Tobe Johnson and Mrs. Evelyn Johnson. He grew up in a Black, working-class community, entered Morehouse College in Atlanta at age 16, but was forced to leave school and work at a steel plant back in Alabama. He joined the Air Force, serving in Japan, and following his discharge, returned to Morehouse College to complete his undergraduate degree—a B.A. in Political Science, in 1954. He attended Columbia University in New York, becoming the first Black person to receive a Ph.D. in Government from that institution. After receiving his Doctorate and teaching at Prairie View A&M University in Texas, he was recruited by Dr. Benjamin E. Mays to join the faculty at Morehouse College, where he served in many capacities before his retirement in 2018.

Dr. Johnson graduated from Morehouse right as the Supreme Court outlawed racial segregation in public schools. This monumental decision stimulated his interest in analyzing political structures and influencing long-term change. This was an early victory followed by others such as the Civil Rights Act of 1964 and the Voting Rights Act of 1965 and motivated Dr. Johnson to use his skills to help Black political advancement.

Dr. Johnson, as a teacher, researcher, writer, and administrator, was an icon on the Morehouse College faculty, where he was hailed as the institution's longest-serving faculty member. He taught at the school for almost 60 years, was an Avalon professor, and served as Chair of the Political Science Department. He established and conducted, at Morehouse, a rare Peace Corps volunteer training program in the South. He impacted the lives of countless Morehouse men, such as Jeh Johnson, who would become the U.S. Secretary of Homeland Security; Randall L. Woodfin, the youngest mayor ever elected in Birmingham, Alabama; and Maynard H. Jackson, Jr., Atlanta's first Black mayor.

As a Student Assistant in the Political Science Department for 2 years, I worked directly for Dr. Johnson doing research. He was precise, analytical, data-driven, and brutally frank in his approach and had the highest standards of integrity and validation for his research. He became my mentor, role model, wise counsel, and friend of longstanding. He took great pride in my elections and my service in the Georgia General Assembly for 16 years and my service in the U.S. Congress for 29 years. I am truly blessed that he helped shape my life.

During his career, he received numerous honors, awards, and special recognitions.

Sir Winston Churchill often said: "You make your living by what you get, you make your life by what you give." Dr. Johnson gave so much to so many for so long and truly made his life.

His public service, his advocacy for students, his devotion to Morehouse College, and his service to his community and his nation, reflect the legacy he leaves and the joy we must celebrate. Truly the world is a better place because Dr. Tobe Johnson passed this way.

Dr. Johnson accomplished much in his life, but none of it would have been possible without the Grace of God and the love and the support of his wife of 61 years. Goldie: his children, Cheryl and Tobe III; and a host of family and friends who will miss him dearly.

Madam Speaker, I ask my colleagues in the U.S. House of Representatives to join my wife, Vivian, and me, along with countless others throughout Georgia and the nation in saluting and honoring Dr. Tobe Johnson for his service in the education and political sectors, to his country, and to humankind; and in extending our deepest condolences to Dr. Johnson's family, friends, loved ones, and all those who mourn his loss. We pray that they will be consoled and comforted by an abiding faith and the Holy Spirit in the days, weeks, and months ahead.
