PROCEEDINGS AND DEBATES OF THE 117th CONGRESS, SECOND SESSION

Vol. 168

WASHINGTON, THURSDAY, JULY 14, 2022

No. 116

House of Representatives

The House met at 10 a.m. and was called to order by the Speaker.

PRAYER

The Chaplain, the Reverend Margaret Grun Kibben, offered the following prayer:

God, our guide, we yield our day, our plans, our wills to Your counsel. How much better is Your grace plan than anything we could create on our own? How much more valuable even than gold is Your wisdom? To have insight to Your understanding is better even than silver.

May our minds, our hearts, our ears be open to discern Your guidance today. You set before each of us trusted instruments of Your own divine counsel: staff directors and assistants, legal counselors, clerks and protocol experts, public affairs directors, all sorts of people who devote their time and talent to the success of this congressional process.

Speak clearly through them that we would hear. Stop us in our tracks if we head the wrong direction. Direct our steps that we would walk in Your will for our lives.

Remind us that our plans fail when we choose not to receive Your counsel. Give us the wisdom to heed the guidance You offer from all those whom You place in our path this day. Hear our prayers as we listen for Your voice. Amen.

THE JOURNAL

The SPEAKER. Pursuant to section 11(a) of House Resolution 188, the Journal of the last day's proceedings is approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentlewoman from Texas (Ms. GARCIA) come forward and lead the House in the Pledge of Allegiance.

Ms. GARCIA of Texas led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

COVERUP AT ROBB ELEMENTARY

(Mr. GREEN of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GREEN of Texas. Madam Speaker, and still I rise. And I rise today to call upon the Governor of the State of Texas to denounce the coverup by the pusillanimous peace officers at Robb Elementary.

If you have seen that video and it does not tug at your heart, you need help. I stand with those parents who are suffering. It is time for us to get to the bottom of what happened at that elementary school. The Governor laid the foundation at his initial press conference for the coverup that has taken place.

Governor, we are going to hold you accountable. You can't allow such things to happen without denouncing them, at minimum, and there may be more that you can do. Use all of your powers, Governor, to bring justice to the families who are suffering.

The SPEAKER pro tempore (Mr. CORREA). Members are reminded to direct their remarks to the Chair.

MESSAGE FROM THE SENATE

A message from the Senate by Ms. Byrd, one of its clerks, announced that the Senate has passed a bill of the following title in which the concurrence of the House is requested:

S. 3470. An act to provide for the implementation of certain trafficking in contracting provisions, and for other purposes.

RETURN TO AMERICAN ENERGY DOMINANCE

(Mr. JOYCE of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. JOYCE of Pennsylvania. Mr. Speaker, this week, while gas prices remain near record levels across the Commonwealth of Pennsylvania, President Biden has chosen to spend his time meeting with Saudi Arabia instead of American energy producers.

By canceling the Keystone XL pipeline, and by refusing to allow new drilling leases here in the U.S., the current administration has declared a war on American energy. Instead of using cleaner and less expensive American energy, President Biden is now turning to OPEC to drill the oil that we so desperately need.

Because of skyrocketing inflation, American families are spending an extra \$5,000 a year on everyday items. Right now, Americans are pulling up to the gas pump, and after filling their tank, they don't have money to buy their kids lunch.

To get our Nation back on track, we need to rely on American energy, not Saudi Arabia. We need to unleash American energy, and we need to return to American energy dominance.

STRIPPING AWAY WOMEN'S RIGHTS

(Ms. GARCIA of Texas asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. GARCIA of Texas. Mr. Speaker, I rise in support of women and their fundamental rights to reproductive healthcare.

While MAGA Republicans want to rip away women's rights, House Democrats remain committed to standing with women. We trust women.

For a second time, we will vote to pass the Women's Health Protection Act to make the protections of Roe v. Wade the law of the land once again. House Democrats will also pass the Ensuring Women's Right to Reproductive Freedom Act, which will prevent Republicans from suing or fining women who travel across State lines to obtain an abortion.

Trusting women to make their own personal healthcare decisions is what we believe as Democrats. Controlling women and stripping away their rights is what they are as Republicans.

Democrats won't give up the fight. We stand with women. We trust women.

WOODY'S LEGACY LIVES ON

(Mrs. MILLER of West Virginia asked and was given permission to address the House for 1 minute.)

Mrs. MILLER of West Virginia. Mr. Speaker, I rise today to honor the World War II Medal of Honor recipient, West Virginia native Woody Williams, my dear friend.

Woody was West Virginia's hero, and he was America's hero. He truly embodied what it meant to be part of the Greatest Generation.

Today, he will lie in honor in the United States Capitol. I can think of no better way to honor Woody's life and legacy, as well as the memory of all of the World War II veterans, than allowing him this privilege.

Woody will be sorely missed, but his legacy of service, dedication, and patriotism will live on in countless lives that he touched.

ERASING 50 YEARS OF PRECEDENT

(Mrs. LEE of Nevada asked and was given permission to address the House for 1 minute.)

Mrs. LEE of Nevada. Mr. Speaker, I rise today as our Nation begins to grapple with the fall of Roe v. Wade.

Twenty days ago, the Supreme Court erased 50 years of precedent, ending the freedom for women to have the right to choose.

Already, the devastating effects are becoming very clear: State legislatures are criminalizing women and healthcare providers, pregnant cancer patients who cannot get the treatment they need to survive, a 10-year-old rape victim forced to travel across State lines to access the abortion she needs.

It is horrific. But make no mistake, these stories are the result of a radical Republican agenda, and these are the stories that Republicans refuse to acknowledge. We must call them out.

This is an extremely difficult, personal decision, but I trust that women can make that choice, and I will do everything in my power to protect that right to choose.

INFLATION HITS A 40-YEAR HIGH

(Mr. WILLIAMS of Texas asked and was given permission to address the House for 1 minute.)

Mr. WILLIAMS of Texas. Mr. Speaker, just this week June's inflation numbers hit a 40-year high at 9.1 percent, and average hourly earnings hit a new low.

Instead of providing relief for American families and job creators, Democrats are working on new tax increases. Amidst a potential economic recession and rampant inflation, this tax hike will crush Main Street America, impacting 88,000 businesses just in Texas alone.

As a small business owner for over 50 years, I can tell you that Democrats' out-of-touch policies are making it harder to operate a business. Inflation is making it more expensive to purchase goods and make ends meet, and Democrats' tax hike will further cut the operating margins, making it harder to grow and compete.

While the economy is struggling, we should be cutting taxes, not raising taxes. We must put an end to the Democrats' tax-and-spend agenda and focus on building a stronger Main Street. Bottom line is, we need businesspeople in Washington.

In God we trust.

HONORING DR. MAY EDWARD CHINN

(Mr. ESPAILLAT asked and was given permission to address the House for 1 minute.)

Mr. ESPAILLAT. Mr. Speaker, today I rise in honor of the life and legacy of Harlem's very own Dr. May Edward Chinn, a pioneer Black female physician in New York City.

Dr. Chinn was the first Black woman to graduate from Bellevue Hospital's Medical College in 1926, which is now known as New York University's Grossman School of Medicine. She is also the first Black woman to complete an internship at Harlem Hospital in 1928.

Dr. Chinn dedicated her life to serving others. Through her determination and hard work, she helped advance medical treatments for cancer screening that continue to save lives today.

Like many of her predecessors, Dr. Chinn persisted and persevered. I am grateful to the Harlem Cultural Archives for its research to share this story, and I am honored to share the story of one of Harlem's gems so that her work does not go unnoticed and her legacy does not remain anonymous.

WE MUST ADDRESS IMMIGRATION REFORM

(Mr. TONY GONZALES of Texas asked and was given permission to address the House for 1 minute.)

Mr. TONY GONZALES of Texas. Mr. Speaker, in my district a couple weeks ago there were 53 migrants found cooked to death in the back of a trailer.

The Biden border crisis has continued to spiral out of control.

If this body will not take notice now, when will it ever take notice?

Out of those 53 migrants, half of them were from Mexico, half of them were from Guatemala, and a few others were from surrounding areas.

This crisis continues to spiral. It continues to get worse. It is over 100 degrees in Texas today, and no one seems to care. No one seems to notice. Regardless of their legal status, these people are oftentimes seeking economic freedom, and yet they are dying in the back of trailers because no one in this body will address immigration reform and border security.

REPRODUCTIVE HEALTH FREEDOM

(Ms. BROWN of Ohio asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BROWN of Ohio. Mr. Speaker, extremists have waged an all-out war against reproductive health freedom, and American bodies are being used as political battlegrounds to advance their radical agenda.

Since Roe v. Wade was overturned, Americans have overwhelmingly voiced their opposition, and we must not ignore them. I am determined to defend reproductive healthcare rights of millions of Americans from all racial and socioeconomic backgrounds, and I implore my colleagues to join me in the fight.

A post-Roe America sets our country's five decades of progress backward and threatens the health of marginalized communities who already face systemic barriers to accessing healthcare. Extremists have proven they will not stop until they have criminalized Americans for their right to take ownership of their reproductive health.

It is time that we make Roe the law of the land.

I urge our colleagues across the aisle to prioritize the will of the people and undo this grave injustice and protect it from being overturned in the future.

BIDEN'S MULTIEMPLOYER UNION BAILOUT

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Mr. Speaker: "We turned a promise broken into a promise kept." That is what President Biden said to union members and retirees about his bailout of union-run multiemployer pension plans.

These plans need reform. But instead of reform, we got a bailout. Is this really a promise kept?

The most recent bailout will disburse \$90 billion to multiemployer pension plans. This is a short-term fix, one that fails to address the possibility of future

insolvency and hurts taxpayers in the process.

It seems the left would rather dump taxpayer money into a broken multi-employer pension system to appease unions than do the hard work of drafting bipartisan legislation.

In fulfilling this promise to his union buddies, President Biden ignored his responsibility to safeguard American taxpayers.

Mr. Speaker, last time I checked, the President serves all Americans, not just union bosses. Perhaps his memory has failed him yet again.

WE MUST FIGHT TO RESTORE ABORTION RIGHTS

(Mr. LEVIN of Michigan asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LEVIN of Michigan. Mr. Speaker, I rise to express my pure outrage at this extremist, right-wing majority of the Supreme Court stripping one of the most important rights in this country away from people: the right to have an abortion. This decision endangers marginalized communities and strips the bodily autonomy away from millions of Americans, including my own 17-year-old daughter. We must not rest until we restore people's freedom to control their own bodies and their own decisions.

I want to emphasize that abortion is still legal in Michigan. The very day that Roe was overturned in the Dobbs decision, our biggest health system, Beaumont-Spectrum, announced that they would end abortion services, counter to current Michigan law.

I worked privately and publicly to reverse that, and, happily, they did so the same weekend.

We will fight to restore abortion rights, to maintain them in all the States where they still exist. This is a fight for all of us, and it is up to us to protect everyone's rights.

INFLATION IS A TAX ON ALL OF US

(Mr. CLINE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CLINE. Mr. Speaker, skyrocketing prices are eating away at family budgets across the country; 8.3 percent, 8.6 percent, and now 9.1 percent—those were the inflation rates for April, May, and June of this year. Year over year, energy prices are up 34 percent; gas, 48 percent; fuel oil, 106 percent; electricity, 12 percent; meat, poultry, and eggs, 14 percent.

But worse is the majority's answer: Double down on Build Back Better and a tax-and-spend agenda that raises taxes on local businesses and farmers as our country enters a recession.

While targeted stimulus during the COVID pandemic may have been appropriate, the plodding reaction of the

Federal Reserve, combined with the typical reaction of the Democratic majority to spend trillions on Green New Deal projects and blue State bailouts, have caused paychecks to shrink and a lack of faith in the economic future of Americans to rise.

Inflation is a tax on all of us. This 40-year high inflation rate is a wake-up call to return to fiscal sanity. Unfortunately, no one needs a crystal ball to see that my friends on the other side of the aisle are busy hitting the snooze button once again on addressing this inflation crisis.

HONORING CONNIE DEEKEN WILLIAMS

(Mr. CORREA asked and was given permission to address the House for 1 minute.)

Mr. CORREA. Mr. Speaker, I rise today to honor a constituent from my hometown, Anaheim, California: Connie Deeken Williams.

Last month, Mrs. Williams celebrated her 110th birthday. Happy birthday to Connie. She is now the oldest resident in Orange County on record, and she is one of only 100 Americans alive today to reach that milestone.

Mrs. Williams was born in 1912 and grew up on a farm in North Dakota with three siblings. During the 1918 pandemic, she survived the Spanish flu. After graduating from high school, she moved across the country to Los Angeles, working as a maid and bookkeeper to help her brother pay rent.

The United States has come a long way since 1912, and I have no doubt of our American ability to move forward just like Mrs. Williams has done every day of her life.

Happy birthday to Connie. Happy birthday from all of us.

THE BIDEN PRICE HIKE

(Mr. LAMALFA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFA. Mr. Speaker, this time last year, President Biden told the American people that inflation was just temporary, just transitory, not a real big deal. The truth is hitting harder than a Mayflower moving van escaping California.

Yesterday, the Consumer Price Index for June came in and the results are even worse than expected, at least by some. To real Americans, it is probably not a real surprise.

The Biden administration's economic policies have produced record inflation, a 41-year record, at 9.1 percent, and that is probably low to most Americans.

As inflation continues to skyrocket, wages have actually decreased. In fact, since President Biden took office, real wages have decreased by about 5 percent.

Across the Nation, Americans are dipping into their savings to stay on

top of their increasing grocery and gas bills.

Multiple polls show that Biden's economic crisis is the top issue for Americans, and the vast majority of Americans agree that the economy is in crisis directly due to the administration's failed policies.

In fact, I held a telephone townhall last night with 70,000 callers from around my district joining in. Ninety percent responded in the poll saying that the economy is their top concern. The Biden administration needs to get with it.

GENERAL MILLEY NEEDS TO SET THE RECORD STRAIGHT

(Mr. BANKS asked and was given permission to address the House for 1 minute.)

Mr. BANKS. Mr. Speaker, our Constitution is clear: The President is the Commander in Chief.

Sidestepping the President and violating the chain of command is a grave crime.

According to Bob Woodward's book "Peril," General Mark Milley directed senior military officials not to follow the President's orders, unless General Milley approved them first.

When I asked General Milley about "Peril" at an Armed Services hearing, he claimed he hadn't read it.

Senator CHUCK GRASSLEY and I sent a letter to General Milley asking him to verify or refute the book's claims. He hasn't responded.

I am calling on General Milley to set the record straight. General Milley is accused of secretly seizing the President's military powers. That is the most serious crime. If he is innocent, he has a duty to say so.

CONGRATULATING DARREN CAMMAUF

(Mr. SMUCKER asked and was given permission to address the House for 1 minute.)

Mr. SMUCKER. Mr. Speaker, I rise today to congratulate an exceptional student athlete from my congressional district.

Darren Cammauf, a recent graduate of Manheim Township School District, distinguished himself in track and field this past season, ultimately winning the 400-meter dash held at the Pennsylvania Track and Field Coaches Association Indoor State Championship earlier this year.

A leading member of the Blue Streak Track and Field team, Cammauf had a successful senior season as well.

He set a new school record for the best time in the 400-meter race. At the Lancaster-Lebanon League Championships, Darren won the 400- and 200-meter dashes as well as led the 1,600-meter relay team to victory. He capped his senior season off with a third-place victory in the 400-meter dash at the PIAA Class 3A competition.

Darren will be attending St. Joseph's University in Philadelphia to continue

his competition in track and field and to pursue a degree in business.

Mr. Speaker, I would also be remiss if I did not recognize Darren's two biggest cheerleaders: his mother, Erica, and his father, Nicholas, who serves as a senior constituent advocate assisting residents of Pennsylvania's 11th Congressional District.

I congratulate Darren on his success this year. We are all very proud of his accomplishments and look forward to seeing what he accomplishes next.

THE SOUTHERN BORDER CRISIS

(Mr. ROSE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROSE. Mr. Speaker, a recent report published by Republicans on the Senate Foreign Relations Committee tells us exactly how the Biden administration is fueling the southern border crisis and how that crisis is threatening our national security.

Border Patrol officials tell us two things drive immigration: economic opportunity and perception of U.S. immigration policy. By dismantling Trump administration policies, President Biden sent a message to millions of people, including transnational criminal organizations, that our borders are open.

There have been 2.6 million migrant encounters since President Biden took the oath of office. We see a new record set every month. Still, the Biden administration wants to end Title 42 and the remain in Mexico policy.

Additionally, on this President's watch, Border Patrol officials have also seized more than 1 million pounds of illegal drugs. Overdose deaths in this country are at an all-time high. The President must enforce our laws and save American lives.

HONORING POLICE CHIEF MICHAEL INSERRA

(Ms. TENNEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. TENNEY. Mr. Speaker, I rise today to honor and celebrate my good friend, former New Hartford Police Chief Michael Inserra, who retired at the end of June after an absolutely incredible career.

Michael has served our local communities in law enforcement over 40 years. Born and raised in my hometown of New Hartford, New York, Michael started out in 1982 with the Whitestown Police Department and quickly moved to the town of Kirkland Police Department. In 1988, Michael made his big move to the New Hartford Police Department to start a new career in law enforcement where he would serve for another 34 years.

Inserra was a sergeant in the department during one of the most challenging times in its history, during the

line-of-duty death of Officer Joseph Corr. Inserra played a key role in apprehending the suspects and helping the department and community navigate the horrible tragedy and aftermath.

In 2010, Inserra was named chief of the New Hartford Police Department. Shortly after taking charge, the department made immediate changes, including modernizing its IT equipment, adding computers to all of their patrol cars, testing body cameras for their officers, and joining social media, which Inserra said helped strengthen the bond with the community.

To this day, Michael Inserra gives credit to the department for their continued success, commending them for professionalism and unwavering dedication to duty.

I thank Chief Inserra for his lifetime of service and commitment to the town of New Hartford. Our communities are grateful for his many years of service as is the New Hartford Police Department, which continues to thrive from his insight.

WASHINGTON DEMOCRATS ARE FUELING THE ECONOMIC CRISIS

(Mr. SMITH of Missouri asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Missouri. Mr. Speaker, as families are forced to make tough financial decisions every day because of sky-high inflation, Washington Democrats are fueling the economic crisis by spending hundreds of billions of dollars to advance their radical agenda.

But that is just the spending they are trying to pass through Congress. President Biden is using executive actions to secretly put his radical agenda in place, footing taxpayers with a \$532 billion bill without any input of Congress.

He spent \$85 billion to continue a pandemic-era student loan payment moratorium benefiting higher-income earners. He put \$11 billion down the drain by eliminating strengthened work requirements to SNAP for able-bodied adults without dependents.

Instead of spending half a trillion dollars on things like reducing work incentives and giving handouts to the wealthy, President Biden needs to get serious about solving the significant challenges facing our Nation.

(2) support improved community health, biodiversity conservation, forest conservation and management, sustainable agriculture, and the safety of livestock, domestic animals, and wildlife in developing countries, particularly in tropical landscapes where there is an elevated risk of zoonotic disease spill over.

SEC. 5904. STATEMENT OF POLICY.

It is the policy of the United States to—

(1) support the availability of scalable and sustainable alternative sources of protein and nutrition for local communities, where appropriate, in order to minimize human reliance on the commercial trade in live wildlife for human consumption;

(2) support foreign governments to—

(A) reduce commercial trade in live wildlife for human consumption;

(B) transition from the commercial trade in live wildlife for human consumption to sustainably produced alternate protein and nutritional sources;

(C) establish and effectively manage and protect natural habitat, including protected and conserved areas and the lands of Indigenous peoples and local communities, particularly in countries with tropical forest hotspots for emerging diseases;

(4) facilitate international cooperation by working with international partners through intergovernmental, international, and nongovernmental organizations such as the United Nations to—

(A) lead a resolution at the United Nations Security Council or General Assembly and World Health Assembly outlining the danger to human and animal health from emerging zoonotic infectious diseases, with recommendations for implementing the closure of wildlife markets and prevention of the commercial trade in live wildlife for human consumption, except where the consumption of wildlife is necessary for local food security or where such actions would significantly disrupt a readily available and irreplaceable food supply;

(B) raise awareness and build stakeholder engagement networks, including civil society, the private sector, and local and regional governments on the dangerous potential of wildlife markets as a source of zoonotic diseases and reduce demand for the consumption of wildlife through evidence-based behavior change programs, while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process;

(C) encourage and support alternative forms of sustainable food production, farming, and shifts to sustainable sources of protein and nutrition instead of terrestrial wildlife, where able and appropriate, and reduce consumer demand for terrestrial and freshwater wildlife through enhanced local and national food systems, especially in areas where wildlife markets play a significant role in meeting subsistence needs while ensuring that existing wildlife habitat is not encroached upon or destroyed as part of this process; and

(a) FINDINGS.—Congress finds the following:

(1) Vladimir Vladimirovich Kara-Murza (referred to in this section as “Mr. Kara-Murza”) has tirelessly worked for decades to advance the cause of freedom, democracy, and human rights for the people of the Russian Federation.

(2) In retaliation for his advocacy, two attempts have been made on Mr. Kara-Murza’s life, as—

(A) on May 26, 2015, Mr. Kara-Murza fell ill with symptoms indicative of poisoning and was hospitalized; and

(B) on February 2, 2017, he fell ill with similar symptoms and was placed in a medically induced coma.

(3) Independent investigations conducted by Bellingcat, the Insider, and Der Spiegel found that the same unit of the Federal Security Service of the Russian Federation responsible for poisoning Mr. Kara-Murza was responsible for poisoning Russian opposition leader Alexei Navalny and activists Timur Khashev, Ruslan Magomedragimov, and Nikita Isayev.

(4) On February 24, 2022, Vladimir Putin launched another unprovoked, unjustified, and illegal invasion into Ukraine in contravention of the obligations freely undertaken by the Russian Federation to respect the territorial integrity of Ukraine under the Budapest Memorandum of 1994, the Minsk protocols of 2014 and 2015, and international law.

(5) On March 5, 2022, Vladimir Putin signed a law criminalizing the distribution of truthful statements about the invasion of Ukraine by the Russian Federation and mandating up to 15 years in prison for such offenses.

(6) Since February 24, 2022, Mr. Kara-Murza has used his voice and platform to join more than 15,000 citizens of the Russian Federation in peacefully protesting the war against Ukraine and millions more who silently oppose the war.

(7) On April 11, 2022, five police officers arrested Mr. Kara-Murza in front of his home and denied his right to an attorney, and the next day Mr. Kara-Murza was sentenced to 15 days in prison for disobeying a police order.

(8) On April 22, 2022, the Investigative Committee of the Russian Federation charged Mr. Kara-Murza with violations under the law signed on March 5, 2022, for his fact-based statements condemning the invasion of Ukraine by the Russian Federation.

(9) Mr. Kara-Murza was then placed into pretrial detention and ordered to be held until at least June 12, 2022.

(10) If convicted of those charges, Mr. Kara-Murza faces detention in a penitentiary system that human rights nongovernmental organizations have criticized for widespread torture, ill-treatment, and suspicious deaths of prisoners.

(b) SENSE OF CONGRESS.—It is the sense of Congress that Congress—

(1) condemns the unjust detention and indicting of Russian opposition leader Vladimir Vladimirovich Kara-Murza, who has courageously stood up to oppression in the Russian Federation;

(3) urges the United States Government and other allied governments to work to secure the immediate release of Vladimir Vladimirovich Kara-Murza, Alexei Navalny, and other citizens of the Russian Federation

imprisoned for opposing the regime of Vladimir Putin and the war against Ukraine; and

(6) WAR CRIME.—The term “war crime” has the meaning given the term in section 2441(c) of title 18, United States Code.

Subtitle A—Matters Relating to the Conflict in Burma**SEC. 5911. FINDINGS.**

Congress makes the following findings:

(1) Since 1988, the United States policy of principled engagement has fostered positive

democratic reforms in Burma, with elections in 2010, 2015, and 2020, helping to bring about the partial transition to civilian rule and with the latter 2 elections resulting in resounding electoral victories for the National League for Democracy.

(2) That democratic transition remained incomplete, with the military retaining significant power and independence from civilian control following the 2015 elections, including through control of 25 percent of parliamentary seats, a de facto veto over constitutional reform, authority over multiple government ministries, and the ability to operate with impunity and no civilian oversight.

(3) Despite some improvements with respect for human rights and fundamental freedoms beginning in 2010, and the establishment of a quasi-civilian government following credible elections in 2015, Burma's military leaders have, since 2016, overseen an increase in restrictions to freedom of expression (including for members of the press), freedom of peaceful assembly, freedom of association, and freedom of religion or belief.

(4) On August 25, 2017, Burmese military and security forces launched a genocidal military campaign against Rohingya, resulting in a mass exodus of some 750,000 Rohingya from Burma's Rakhine State into Bangladesh, where they remain. The military has since taken no steps to improve conditions for Rohingya still in Rakhine State, who remain at high risk of genocide and other atrocities, or to create conditions conducive to the voluntary return of Rohingya refugees and other internally displaced persons (IDPs).

(5) The Burmese military has also engaged in renewed violence with other ethnic minority groups across the country. The military has continued to commit atrocities in Chin, Kachin, Kayah, and Shan. Fighting in northern Burma has forced more than 100,000 people from their homes and into camps for internally displaced persons. The Burmese military continues to heavily proscribe humanitarian and media access to conflict-affected populations across the country.

(6) With more nearly \$470,000,000 in humanitarian assistance in response to the crisis in fiscal year 2021, the United States is the largest humanitarian donor to populations in need as a result of conflicts in Burma. In May 2021, the United States announced nearly \$155,000,000 in additional humanitarian assistance to meet the urgent needs of Rohingya refugees and host communities in Bangladesh and people affected by ongoing violence in Burma's Rakhine, Kachin, Shan, and Chin states. In September 2021, the United States provided nearly \$180,000,000 in additional critical humanitarian assistance to the people of Burma, bringing the total fiscal year 2021 to more than \$434,000,000.

(7) Both government- and military-initiated investigations into human rights abuses in Burma involving violence between ethnic minorities and Burmese security forces have failed to yield credible results or hold perpetrators accountable.

(8) In its report dated September 17, 2018, the United Nations Independent International Fact-Finding Mission on Myanmar concluded, on reasonable grounds, that the factors allowing inference of "genocidal intent" are present with respect to the attacks against Rohingya in Rakhine State, and acts by Burmese security forces against Rohingya in Rakhine State and other ethnic minorities in Kachin and Shan States amount to "crimes against humanity" and "war crimes". The Independent International Fact-Finding Mission on Myanmar established by the United Nations Human Rights Council recommended that the United Nations Security Council "should ensure ac-

countability for crimes under international law committed in Myanmar, preferably by referring the situation to the International Criminal Court or alternatively by creating an ad hoc international criminal tribunal". The Mission also recommended the imposition of targeted economic sanctions, including an arms embargo on Burma.

(9) On December 13, 2018, the United States House of Representatives passed House Resolution 1091 (115th Congress), which expressed the sense of the House that "the atrocities committed against the Rohingya by the Burmese military and security forces since August 2017 constitute crimes against humanity and genocide" and called upon the Secretary of State to review the available evidence and make a similar determination.

(10) In a subsequent report dated August 5, 2019, the United Nations Independent International Fact-Finding Mission on Myanmar found that the Burmese military's economic interests "enable its conduct" and that it benefits from and supports extractive industry businesses operating in conflict-affected areas in northern Burma, including natural resources, particularly oil and gas, minerals and gems and argued that "through controlling its own business empire, the Tatmadaw can evade the accountability and oversight that normally arise from civilian oversight of military budgets". The report called for the United Nations and individual governments to place targeted sanctions on all senior officials in the Burmese military as well as their economic interests, especially Myanma Economic Holdings Limited and Myanma Economic Corporation.

(11) Burma's November 2020 election resulted in a landslide victory for the National League of Democracy, with the National League for Democracy winning a large majority of seats in Burma's national parliament. The elections were judged to be credible, and marked an important step in the country's democratic transition.

(12) On February 1, 2021, the Burmese military conducted a coup d'état, declaring a year-long state of emergency and detaining State Counsellor Aung San Suu Kyi, President Win Myint, and dozens of other government officials and elected members of parliament, thus derailing Burma's transition to democracy and disregarding the will of the people of Burma as expressed in the November 2020 general elections, which were determined to be credible by international and national observers.

(13) Following the coup, some ousted members of parliament established the Committee Representing the Pyidaungsu Hluttaw (CRPH), which subsequently established the National Unity Consultative Council in March of 2021. The National Unity Consultative Council includes representatives from a broad spectrum of stakeholders in Burma opposed to the military and the coup: elected representatives from the CRPH, representatives from the ethnic armed organizations, members of Burma's civil disobedience movement, and other anti-coup forces.

(14) The CRPH subsequently released the Federal Democracy Charter in March 2021 and established the National Unity Government in April 2021. The National Unity Government includes representatives from ethnic minority groups, civil society organizations, women's groups, leaders of the civil disobedience movement, and others.

(15) Since the coup on February 1, 2021, the Burmese military has—

(A) used lethal force on peaceful protestors on multiple occasions, killing more than 2,000 people, including more than 142 children;

(B) detained more than 10,000 peaceful protestors, participants in the Civil Disobe-

dience Movement, labor leaders, government officials and elected members of parliament, members of the media, and others, according to the Assistance Association for Political Prisoners;

(C) issued laws and directives used to further impede fundamental freedoms, including freedom of expression (including for members of the press), freedom of peaceful assembly, and freedom of association; and

(D) imposed restrictions on the internet and telecommunications.

(16) According to the UNHCR, more than 758,000 people have been internally displaced since the coup, while an estimated 40,000 have sought refuge in neighboring countries. Nevertheless, the Burmese military continues to block humanitarian assistance to populations in need. According to the World Health Organization, the military has carried out more than 286 attacks on health care entities since the coup and killed at least 30 health workers. Dozens more have been arbitrarily detained, and hundreds have warrants out for their arrest. The military continued such attacks even as they inhibited efforts to combat a devastating third wave of COVID-19. The brutality of the Burmese military was on full display on March 27, 2021, Armed Forces Day, when, after threatening on state television to shoot protesters in the head, security forces killed more than 150 people.

(17) The coup represents a continuation of a long pattern of violent and anti-democratic behavior by the military that stretches back decades, with the military having previously taken over Burma in coups d'état in 1962 and 1988, and having ignored the results of the 1990 elections, and a long history of violently repressing protest movements, including killing and imprisoning thousands of peaceful protestors during pro-democracy demonstrations in 1988 and 2007.

(18) On February 11, 2021, President Biden issued Executive Order 14014 in response to the coup d'état, authorizing sanctions against the Burmese military, its economic interests, and other perpetrators of the coup.

(19) Since the issuance of Executive Order 14014, President Biden has taken several steps to impose costs on the Burmese military and its leadership, including by designating or otherwise imposing targeted sanctions with respect to—

(A) multiple high-ranking individuals and their family members, including the Commander-in-Chief of the Burmese military, Min Aung Hlaing, Burma's Chief of Police, Than Hlaing, and the Bureau of Special Operations commander, Lieutenant General Aung Soe, and over 35 other individuals;

(B) state-owned and military controlled companies, including Myanma Economic Holdings Public Company, Ltd., Myanmar Economic Corporation, Ltd., Myanmar Economic Holdings Ltd., Myanmar Ruby Enterprise, Myanmar Imperial Jade Co., Ltd., and Myanma Gems Enterprise; and

(C) other corporate entities, Burmese military units, and Burmese military entities, including the military regime's State Administrative Council.

(20) The United States has also implemented new restrictions on exports and reexports to Burma pursuant to Executive Order 14014; and

(21) On April 24, 2021, the Association of Southeast Asian Nations (ASEAN) agreed to a five-point consensus which called for an "immediate cessation of violence", "constructive dialogue among all parties", the appointment of an ASEAN special envoy, the provision of humanitarian assistance through ASEAN's AHA Centre, and a visit by the ASEAN special envoy to Burma. Except for the appointment of the Special Envoy in

August 2021, the other elements of the ASEAN consensus remain unimplemented due to obstruction by the Burmese military.

(22) In June 2021, the National Unity Government included ethnic minorities and women among its cabinet and released a policy paper outlining pledges to Rohingya and calling for “justice and reparations” for the community. The statement affirms the Rohingya right to citizenship in Burma, a significant break from past Burmese government policies.

(23) On March 21, 2022, Secretary of State Antony Blinken announced that the United States had concluded that “members of the Burmese military committed genocide and crimes against humanity against Rohingya”.

(C) state-owned economic enterprises if—

(20) to ensure that any sanctions imposed with respect to entities or individuals are carefully targeted to maximize impact on the military and security forces of Burma and its economic interests while minimizing impact on the people of Burma, recognizing the calls from the people of Burma for the United States to take action against the sources of income for the military and security forces of Burma.

(4) The IAEA reported it began investigating this matter pursuant to Iran's IAEA safeguards obligations in 2019.

Nor has Iran informed the Agency of the current location, or locations, of the nuclear material and/or of the equipment contaminated with nuclear material, that was moved from Turqzabad in 2018."

(7) On June 8, 2022, the IAEA Board of Governors overwhelmingly adopted a resolution calling on Iran to cooperate with the IAEA on an urgent basis to fulfil its safeguards obligations and expressing profound concern with Iran's insufficient substantive cooperation thus far, with 30 Board Members voting in favor, two voting against, and three abstaining.

(8) The IAEA Board of Governors's resolution called upon Iran to "act on an urgent basis to fulfill its legal obligations and, without delay, take up the Director General's offer of further engagement to clarify and resolve all outstanding safeguards issues."

(9) Shortly before the IAEA Board of Governors's vote adopting the resolution, Iran announced it would remove 27 IAEA cameras installed to monitor the separate issue of Iran's JCPOA commitments at certain Iranian facilities and Iran has since followed through on disconnecting these cameras.

(10) Following the vote of the IAEA Board of Governors, Iran informed the IAEA it would install additional cascades of advanced IR-6 centrifuges at its Natanz facility;

(b) SENSE OF CONGRESS.—It is the sense of Congress that it—

(1) reiterates its commitment to ensuring Iran will never acquire a nuclear weapon;

(2) supports the important work of the IAEA in safeguarding nuclear material around the globe;

(3) condemns Iran for its lack of transparency and meaningful cooperation with the IAEA on the unresolved matter of uranium particles discovered at undeclared sites in Iran and additional escalatory actions related to its nuclear program; and

The SPEAKER pro tempore. Pursuant to House Resolution 1224, the gentleman from Washington (Mr. SMITH) and the gentleman from Alabama (Mr. ROGERS) each will control 15 minutes.

The Chair recognizes the gentleman from Washington.

Mr. SMITH of Washington. Mr. Speaker, I have no speakers at this time on this amendment and I am prepared to close.

Mr. ROGERS of Alabama. Mr. Speaker, I intend to support the en bloc package even though it is not in our jurisdiction.

At this time, I yield 2 minutes to the gentleman from California (Mr. ISSA), my friend and colleague.

Mr. ISSA. Mr. Speaker, I thank the gentleman for yielding time.

Mr. Speaker, 2 minutes is not enough time to describe the fog of war. Two minutes is not enough time to describe a level of heroism that occurred more than half a century ago over the waters of North Korea.

But today, one of the amendments en bloc will, in fact, recognize for the Congressional Medal of Honor the unsung hero of that war. Royce Williams, who took on six MiGs of superior capability all by himself, and defended the entire fleet on behalf of himself, came home to his aircraft carrier with over 200 holes in his aircraft, landed it at almost twice the speed that aircraft would be able to land, and his record was impounded in secrecy and classified for decades.

Only now, after the Soviet Union fell, can we begin to understand his heroism and his success.

Today, on behalf of all the members of the San Diego delegation of both parties who support this amendment, on behalf of the more than 100 flag officers who have signed on recommending that he receive the Medal of Honor, I am proud to say that it has been ruled in order, and I thank all those involved in bringing it to the floor.

Mr. SMITH of Washington. Mr. Speaker, I reserve the balance of my time.

Mr. ROGERS of Alabama. Mr. Speaker, I intend to support this package, and I urge its adoption.

Mr. Speaker, I yield back the balance of my time.

Mr. SMITH of Washington. Mr. Speaker, I yield myself the balance of my time not to speak on the en bloc, but this is the last opportunity to speak about the bill.

We are going to have three other amendments after this en bloc, so I just want to do a quick closing and urge all Members to vote in favor of the bill.

You have seen the process play out. I think this has been an incredibly inclusive process, starting in the committee in a bipartisan way and moving to the floor, where we have had the opportunity for all Members to contribute and participate in this process.

I think we have a good product that is going to enable us to continue to exercise our oversight of the Pentagon, fulfill our duties as Members of Congress, and support the men and women of our Armed Forces in carrying out the missions that we ask them to do. I urge Members to support the bill.

Mr. Speaker, I yield 2 minutes to the gentleman from Alabama (Mr. ROGERS) for his closing remarks.

Mr. ROGERS of Alabama. Mr. Speaker, I thank the chairman for his leadership in this endeavor. This is a very important piece of legislation, a very bipartisan product, and I hope that our colleagues on both sides of the aisle will join the chairman and I in giving final passage to this important piece of legislation.

Mr. SMITH of Washington. Mr. Speaker, in closing, I urge all Members to support the defense bill. I appreciate the staff and everybody who worked on the effort. I recognize the Rules Committee staff, the Armed Services Committee staff, the floor staff, and the Parliamentarians who are the ones who have to process those 1,200 amendments, figure out how to write them out, how to make sure we are doing it right.

I don't understand fully how you are able to do that, so I very much appreciate that you do, and we get a good product at the end of it. I think we have all participated in a good process. I urge Members to support the bill.

Mr. Speaker, I yield back the balance of my time.

Mr. PALLONE. Mr. Speaker, I rise today to express my opposition to Amendment No. 554 to H.R. 7900 Offered by Mr. LANGEVIN of Rhode Island.

I think we can all agree that increasing cybersecurity coordination across different sectors is an important goal. However, I have concerns with the functions of the Interagency Council for Critical Infrastructure Cybersecurity Coordination. I am concerned that this amendment is assigning the Council tasks that it does not have the qualifications to complete.

The Council is charged with reviewing existing regulatory authorities that could be used to strengthen cybersecurity for critical infrastructure. It is also supposed to identify regulatory

gaps that could invite cybersecurity risks to critical infrastructure and develop legislative proposals to resolve such regulatory gaps.

I am worried the Council does not have the expertise to review regulations and propose legislation for our critical infrastructure. While I appreciate that the Council will include representatives from Sector Risk Management Agencies and potentially other federal departments and agencies as determined by the Secretary of National Cyber Security, I am concerned that each councilmember's expertise within a given sector or within cybersecurity generally is not adequate to perform this regulatory assessment or potential legislative proposals required by this bill.

For example, I do not agree that a councilmember whose expertise is in the financial sector should be reviewing regulations of the dams sector. Nor should the councilmember for the dams sector be proposing legislation for the health and public health sector.

While I understand that there are commonalities to cybersecurity risks posed to different sectors, the regulatory and statutory regimes—including those related to cybersecurity—must account for the unique operations of each sector, the type of actors in each sector, and technical feasibility within each sector.

Therefore, I oppose the creation of the Interagency Council for Critical Infrastructure Cybersecurity Coordination as structured by this amendment. I urge my colleagues to oppose this amendment.

Mr. SMITH of New Jersey. Mr. Speaker, the Smith-Norcross amendment to the Fiscal Year 2023 NDAA directs the Army Corps of Engineers to ensure high-quality workmanship on federal construction projects by providing each of their districts with clarifying, uniform guidance and to enforce compliance more strongly with already existing laws—especially the Davis-Bacon Act—that mandate proper worker classification and the corresponding wages.

Additionally, it requires the Corps to investigate worker classification complaints and third-party related complaints within 30 days of filings and reaffirms transparency and disclosure requirements for certified payroll reports.

For years, we have witnessed disingenuous contractors purposely hire underqualified workers for military construction projects and put them in high-skilled jobs for which they lack the needed expertise—a practice known as “worker misclassification”. These contractors dishonestly undercut their more skilled, better-value competitors, only to have those important projects mismanaged, understaffed, delayed, unfinished, and in some cases, rebid—then properly redone by high-skilled tradesmen and women who should have gotten the job in the first place.

There are two different types of misclassification: craft misclassification and independent contractor misclassification. Craft misclassification occurs when dishonest contractors misclassify high-skilled workers as general laborers or lower wage classifications in order to avoid paying the higher prevailing wage rate applicable to the high-skilled work actually performed. Independent contractor misclassification occurs when contractors misclassify employees as independent contractors to avoid paying prevailing wages thereby reducing labor costs and avoiding state and federal taxes.

These practices deny workers of their rights to critical benefits and protections, including

prevailing wages, worker's compensation, and unemployment insurance; and communities suffer because misclassification results in lower tax revenues for federal, state, and local governments.

Additionally, the end product is often compromised by shoddy workmanship which can lead to do-overs and substantial cost overruns.

Congress has passed laws to prevent such problems and punish the offenders. The Davis-Bacon Act is critical in this effort as it requires contractors working on certain federally funded construction projects to pay their workers a prevailing wage to ensure that our federal projects are completed by skilled workers who have been properly trained, classified, and paid according to their expertise and locality. The Act stands as a check and balance designed to protect employees from low-wage, low-bidding contractors who look to do the job cheaply while hurting the workers and the client, i.e. the federal taxpayer.

When it comes to domestic construction projects, the Army Corps of Engineers procures more than most divisions of the Department of Defense. As recently as 2019, the Corps obligated over \$11 billion for domestic construction contracts, according to the Government Accountability Office (GAO)—the federal government's "watchdog" agency.

Each federal agency is primarily responsible for enforcing the Davis-Bacon protections at its construction worksites. The Army Corps has a lot of construction projects and federal construction monies to properly oversee. Unfortunately, federal construction projects in my district, including Army Corps projects at Joint Base McGuire-Dix-Lakehurst—have fallen short in oversight and compliance and have run into trouble with unqualified, subpar bidders who avoid hiring needed skilled workers. We have seen cases of sophisticated work—HVAC, plumbing and sheet metal—needing to be ripped up and redone after the irresponsible bidders failed to properly do the work.

To combat this persistent problem and ensure these important laws are being enforced, in 2019, Congress passed an amendment I authored, cosponsored by Congressman Norcross, to the 2020 NDAA directing the GAO to study the contracting practices of the Corps with a focus on the monitoring and enforcement of the Davis-Bacon Act.

The GAO conducted its audit from May 2020 to March 2021 examining Corps guidance, relevant documents about the Davis-Bacon Act, Department of Labor guidance and other relevant laws and regulations. They conducted semi-structured interviews in four Army Corps district offices—Louisville, New Orleans, New York and Walla Walla—based on the district's activities and representing "various geographical areas in the U.S. and a mixture of volume and type of construction contracts (e.g. military and civil projects)". They interviewed Corps headquarters officials, DOL officials and four external groups including two labor unions and two trade associations.

The GAO said that "monitoring, including payroll reviews and on-site inspections, are key to ensuring that the Corps enforces contractor's compliance with the Davis-Bacon Act".

But the report also described implementation inconsistencies across the various districts that can easily lead to gaps in compliance with Davis-Bacon.

The GAO concluded that aspects of the reviews and on-site inspections "may not be sufficient." They found that "Corps documents lack information" and said that "In the absence of directions to consistently document on-the-ground conditions, like the number of employees on site" district officials "may not be fully using on-site inspection to ensure contractors' compliance with the [Davis-Bacon] Act."

Ultimately, the GAO recommended that the Army Corps provide clarifying information on how they conduct payroll reviews and document on-site inspections to ensure the proper monitoring of the number of workers and work performed.

More work remains to be done to implement these recommendations and crack down on this harmful practice.

Today's amendment addresses those problems and instructs the Corps' to fully comply with relevant federal laws and regulations for: building quality facilities—labs, hangars, housing, and workspaces—for our military men and women; providing an honest wage for construction workers; and providing the best investment for the taxpayer.

Mr. Speaker, working with partners such as the AFL-CIO, North America's Building Trades Unions, New Jersey trades like the IBEW and the Plumbers and Pipefitters, and my friend, Congressman NORCROSS, we can finally ensure that military construction is done with the best possible workmanship, that we make best use of the hardworking Americans' taxpayer dollars, and that the men and women who work with our military are treated fairly.

Mr. LYNCH. Mr. Speaker, I rise in support of En Bloc 5 to H.R. 7900, the National Defense Authorization Act for Fiscal Year 2023, which includes my two final amendments to this legislation. These additional provisions will strengthen how we enforce U.S. sanctions and provide the Congress with vital information about the China-Afghan economic relationship.

Amendment No. 561 establishes the Office of Foreign Assets Control (OFAC) Exchange within OFAC. This voluntary public-private partnership would advance information sharing between law enforcement agencies, national security agencies, financial institutions, and OFAC. It would facilitate sanctions administration and enforcement that target foreign countries and regimes, terrorists, international narcotics traffickers, and other threats to national security, foreign policy, or the U.S. economy. This collaboration will allow for U.S. economic and trade sanctions to be better administered and enforced, and, ultimately, make them more effective.

Amendment No. 562 would require the Secretary of the Treasury to brief the Congress on the identification and analysis of Chinese economic, commercial, and financial connections to Afghanistan which fuel both Chinese and Taliban interests, to include illicit financial networks involved in narcotics trafficking, illicit financial transactions, official corruption, natural resources exploitation, and terrorist networks. Earlier this year, China, among other nations, pledged to deepen its economic and trade ties with Afghanistan through the so-called "Tunxi Initiative." However, China has a history of seeking to increase its influence through development and economic assistance that completely ignores, or even undermines, rule of law, independent civil society, and protection of human rights. After all that the United

States has invested and sacrificed in Afghanistan, it is vital that Congress understand the extent of China's connections, and intentions, in Afghanistan so we can respond accordingly.

Once again I would like to express my sincerest thanks to Armed Services Committee Chairman ADAM SMITH, Ranking Member MIKE ROGERS, and their staffs for including my amendments in this last En Bloc. I would urge all my colleagues to vote in favor of this final En Bloc.

Mr. SABLON. Mr. Speaker, my amendment No. 606, which is included in En Bloc 5, creates a VA advisory committee for veterans living in the U.S. insular areas and in the Freely Associated States. Veterans in my district, especially, and in the other insular areas, too, face barriers to VA services no vet should be forced to endure.

My amendment creates a Department of Veterans Affairs advisory committee representing veterans living in the U.S. insular areas of the Northern Mariana Islands, Guam, American Samoa, Puerto Rico, and the U.S. Virgin Islands as well as the Freely Associated States of Palau, Marshall Islands, and the Federated States of Micronesia.

In my district, the Northern Mariana Islands, there are no VA clinics and no Vet Centers. Veterans there sometimes fly 3,700 miles to Hawai'i or over 6,000 miles to California to access VA services. Even reaching VA services in nearby Guam is a challenge.

That is why my amendment, establishing a committee to educate the Secretary of Veterans Affairs on the obstacles insular area veterans face, is so important. Each U.S. insular area and each of the three Freely Associated States would have a seat on the advisory committee. They would be able to describe the barriers their veterans face in receiving VA services.

Establishing an advisory committee will not solve every logistical problem for veterans who live in geographically remote areas of America. But, at least, those veterans on the margins will have a way to communicate directly with the Secretary of Veterans Affairs on how to improve VA programs and services in their communities.

This amendment is, with minor technical changes, the same legislation as H.R. 3730, which passed in the House last fall with strong bipartisan support. The American Legion, Veterans of Foreign Wars, Iraq and Afghanistan Veterans of America, Disabled American Veterans, and Minority Veterans of America have endorsed the legislation.

I ask my colleagues to support En Bloc 5.

The SPEAKER pro tempore. Pursuant to House Resolution Number 1224, the previous question is ordered on the amendments en bloc offered by the gentleman from Washington (Mr. SMITH).

The question is on the amendments en bloc.

The en bloc amendments were agreed to.

A motion to reconsider was laid on the table.

AMENDMENT NO. 587 OFFERED BY MS. MENG

The SPEAKER pro tempore. It is now in order to consider amendment No. 587 printed in part A of House Report 117-405.

Ms. MENG. Mr. Speaker, I have an amendment at the desk.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of title LI of division E, insert the following new section:

SEC. 51. DEPARTMENT OF VETERANS AFFAIRS AWARENESS CAMPAIGN ON FERTILITY SERVICES.

(a) **AWARENESS CAMPAIGN.**—The Secretary of Veterans Affairs shall conduct an awareness campaign regarding the types of fertility treatments, procedures, and services covered under the medical benefits package of the Department of Veterans Affairs that are available to veterans experiencing issues with fertility.

(b) **MODES OF OUTREACH.**—In carrying out subsection (a), the Secretary shall ensure that a variety of modes of outreach are incorporated into the awareness campaign under such subsection, taking into consideration the age range of the veteran population.

(c) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to the appropriate congressional committees a report that includes a summary of the actions that have been taken to implement the awareness campaign under subsection (a) and how the Secretary plans to better engage women veterans, to ensure awareness of such veterans regarding covered fertility services available.

(d) **APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.**—In this section, the term “appropriate congressional committees” means—

(1) the Committees on Armed Services of the House of Representatives and the Senate; and

(2) the Committees on Veterans’ Affairs of the House of Representatives and the Senate.

The SPEAKER pro tempore. Pursuant to House Resolution 1224, the gentlewoman from New York (Ms. MENG) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from New York.

Ms. MENG. Mr. Speaker, I yield myself such time as I may consume.

My amendment requires the VA to conduct an outreach campaign to veterans to make them aware of the full range of fertility treatments, procedures, and services covered under the VA’s medical benefits package.

I emphasize that this amendment was included in the fiscal year 2022 House-passed NDAA as part of an en bloc package and received overwhelming support from both sides of the aisle.

Our veterans, who served our country honorably, deserve every opportunity to begin the family of their dreams. A study released last year on reproductive-aged veteran women found that the rate of infertility among veterans is more than 50 percent higher than among the general female population.

For years, the VA has provided a range of fertility treatments and services to veterans. Many veterans have brought to my attention the issue that because they are unaware of the fertility services covered by the VA, they instead seek out expensive private care to help them begin a family.

This amendment is simple. We provide critical funding to the VA to offer

comprehensive medical care to our veterans. The VA should be doing outreach to all veterans to ensure that they are fully aware of the critical healthcare services covered by the VA.

Those who have served our country honorably and now struggle with infertility as a result of their service deserve assistance in trying to build a family.

Mr. Speaker, I yield back the balance of my time.

Mr. BOST. Mr. Speaker, I claim time in opposition.

The SPEAKER pro tempore. The gentleman is recognized for 5 minutes.

Mr. BOST. Mr. Speaker, this amendment would direct the VA to conduct an awareness campaign regarding types of fertility treatments, procedures, and services that are available to veterans.

While I do agree that all veterans should be made aware of the care and services covered under the earned VA medical benefits package, I must oppose this inclusion of the amendment in the NDAA.

I cannot support an outreach campaign that champions a process like in vitro fertilization, a process that creates life in a petri dish and then either destroys, discards, or forever freezes it on a shelf. This is not life-affirming. This is not right for veterans or their spouses or their children.

Being a father is one of the highlights of my life. I wish every veteran could know the joy of parenthood, and I want to help veterans struggling with infertility to connect with life-affirming resources and support.

I hope to work with my colleagues and fellow veterans to find a better way forward for veterans who are unable to conceive. Dropping an amendment into the NDAA is not the way forward, and for that reason, I am opposed to the amendment.

Mr. Speaker, I mentioned earlier in my statement, I cannot support this amendment that promotes the provision of in vitro fertilization as part of the VA medical benefits package, and I urge Members to oppose the amendment.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to House Resolution 1224, the previous question is ordered on the amendment offered by the gentlewoman from New York (Ms. MENG).

The question is on the amendment.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. BOST. Mr. Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3(s) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this question are postponed.

AMENDMENT NO. 637 OFFERED BY MR. TAKANO

The SPEAKER pro tempore. It is now in order to consider amendment No. 637

printed in part A of House Report 117-405.

Mr. TAKANO. Mr. Speaker, I have an amendment at the desk.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of title LI, insert the following:

SEC. 51. PROVISION OF HEALTH CARE BENEFITS FOR CERTAIN INDIVIDUALS WHO SERVED IN THE ARMED FORCES OF THE REPUBLIC OF KOREA.

Section 109 of title 38, United States Code, is amended by adding at the end the following new subsection:

“(d)(1) Any person described in paragraph (2) shall be entitled to hospital and domiciliary care and medical services within the United States under chapter 17 of this title to the same extent as if the service described in such paragraph had been performed in the Armed Forces of the United States.

“(2) A person described in this paragraph is a person whom the Secretary determines meets the following criteria:

“(A) The person served in Vietnam as a member of the armed forces of the Republic of Korea at any time during the period beginning on January 9, 1962, and ending on May 7, 1975, or such other period as determined appropriate by the Secretary for purposes of this subsection.

“(B) The person became a citizen of the United States on or after the date on which such service in the armed forces of the Republic of Korea ended.”

The SPEAKER pro tempore. Pursuant to House Resolution 1224, the gentleman from California (Mr. TAKANO) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from California.

Mr. TAKANO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of my amendment, which would correct a decades-long gap in VA’s Allied Beneficiary Program by extending this program to South Korean veterans now living in the United States who served alongside the United States during the Vietnam war.

For 63 years, veterans of allied forces from World Wars I and II have been able to enroll in VA healthcare. The U.K., Australia, France, New Zealand, and Canada have had reciprocal agreements with the United States, reimbursing the VA for care provided to their veterans and vice versa.

In the 1970s, Congress also made veterans of the Czech and Polish Armed Forces who have been American citizens for at least 10 years eligible for VA healthcare. However, neither the Czech Republic nor Poland have reciprocal agreements with the United States, so VA is not reimbursed for the care provided to these veterans.

Yet still today, veterans of the Republic of Korea who fought alongside us in the Vietnam war and then went on to become citizens of the United States are denied what their European counterparts already have: access to veteran-centric, high-quality care from VA.

Over 300,000 Koreans fought alongside the United States in Vietnam. Thousands went on to build lives here and

become citizens, but today only 300 of these veterans are still living.

However, despite their service as our allies in the Korean military, these Korean Americans are not recognized as U.S. veterans in theory or in title and are therefore not granted access to VA services under the law. They are also not covered by the Korean healthcare system while living here in the United States.

Once they are naturalized United States citizens, they are recognized by South Korea as foreign nationals, with no benefits available to them in the United States. This is the decades-long inequity that this amendment would seek to address. This amendment is about supporting naturalized United States citizens as much as it is about sending a clear message to our allies abroad: If you serve alongside us in times of war, we will have your back.

This is important not only to provide vital healthcare to veterans here in the United States but also to instill confidence in our country as an international partner and ally. Three hundred Korean Vietnam veterans, now Americans, are asking this country to respect their service as fully as we respect the service of our European allies.

Mr. Speaker, I urge my colleagues to support this amendment, and I reserve the balance of my time.

Mr. BOST. Mr. Speaker, I claim time in opposition.

The SPEAKER pro tempore. The gentleman is recognized for 5 minutes.

Mr. BOST. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this amendment would provide access to VA medical care and services for veterans who served in the Armed Forces of the Republic of Korea during the Vietnam conflict.

There are approximately 3,000 Korean veterans living in the U.S. as citizens and who served alongside American forces during the Vietnam conflict. This amendment would grant them eligibility to enroll in the VA healthcare system. This would create an inequity between these individuals and veterans of U.S. Armed Forces who are not currently eligible to enroll in the VA care.

It would also create a disparity with the veterans of other allies of other conflicts who later became U.S. citizens. Ultimately, the amendment unfairly singles out one group of service above others. That is why I cannot support the amendment's inclusion in the NDAA.

Mr. Speaker, I reserve the balance of my time.

Mr. TAKANO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I appreciate my friend, the ranking member of the Veterans' Affairs Committee, implying that he would be supportive of this if we included other categories and other cohorts of veterans in a similar place. I go along with that.

I would be willing to work with the ranking member to address these other

cohorts because I believe that we need to extend this particular offer to these others, but there is no reason for us not to act on this particular amendment because we have these 300 now-naturalized Korean-American citizens who served with us in the Vietnam war who have critical health needs.

Let us take care of these veterans now, but I pledge to work with the ranking member to address the other categories of naturalized American citizens who have served in a similar vein as our Czech Americans, our Polish Americans, and all of our other American allies.

Mr. Speaker, I reserve the balance of my time.

Mr. BOST. Mr. Speaker, I appreciate the chairman's willingness to work on doing that as well, but this amendment itself being included in the NDAA will not take care of those others. I would like to work with him to make sure that everybody that needs to be included is included.

Mr. Speaker, I reserve the balance of my time.

Mr. TAKANO. Mr. Speaker, again, I just urge that all Members of Congress support this amendment. The ranking member and I can work on the other classifications, other classes of veterans.

Mr. Speaker, I yield back the balance of my time.

Mr. BOST. Mr. Speaker, as I mentioned earlier in my statement, I cannot support the amendment that would provide benefits to one group of allied veterans before considering that same eligibility for all veterans. I appreciate the opportunity for the chairman to work with us to make sure that all the U.S. Armed Forces that have supported us over the years, that we can come to some sort of agreement.

Mr. Speaker, I urge Members to oppose this amendment, and I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to House Resolution 1224, the previous question is ordered on the amendment offered by the gentleman from California (Mr. TAKANO).

The question is on the amendment.

The amendment was agreed to.

A motion to reconsider was laid on the table.

AMENDMENT NO. 650 OFFERED BY MS. WILD

The SPEAKER pro tempore. It is now in order to consider amendment No. 650 printed in part A of House Report 117-405.

Ms. WILD. Mr. Speaker, I have an amendment at the desk.

The SPEAKER pro tempore. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of title LVIII, add the following:

SEC. 58. PROHIBITION ON CERTAIN ASSISTANCE TO THE PHILIPPINES.

(a) IN GENERAL.—No funds authorized to be appropriated or otherwise made available to the Department of State are authorized to be made available to provide assistance for the

Philippine National Police, including assistance in the form of equipment or training, until the Secretary of State certifies to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate that the Government of the Philippines has—

(1) investigated and successfully prosecuted members of the Philippine National Police who have violated human rights, ensured that police personnel cooperated with judicial authorities in such cases, and affirmed that such violations have ceased;

(2) established that the Philippine National Police effectively protects the rights of trade unionists, journalists, human rights defenders, critics of the government, faith and religious leaders, and other civil society activists to operate without interference;

(3) taken effective steps to guarantee a judicial system that is capable of investigating, prosecuting, and bringing to justice members of the police and military who have committed human rights abuses; and

(4) fully complied with domestic and United States audits and investigations regarding the improper use of prior security assistance.

(b) WAIVER.—The President may, on a case-by-case basis and for periods not to exceed 180 days each, waive the prohibition under subsection (a) if the President certifies to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate not later than 15 days before such waiver is to take effect that such waiver is vital to the national security interests of the United States or its partners and allies.

The SPEAKER pro tempore. Pursuant to House Resolution 1224, the gentleman from Pennsylvania (Ms. WILD) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentleman from Pennsylvania.

Ms. WILD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, at its core what this amendment says is simple: After an estimated 30,000 extrajudicial killings in the Philippines between 2016 and today, after the assassinations, arbitrary arrests, torture, and red tagging of labor organizers and opposition leaders, after former President Duterte's calls for assassinating politically engaged bishops, after the Philippines has been named year after year by the International Trade Union Confederation as one of the world's 10 most repressive countries for the labor movement and workers, the time is long overdue to begin putting some basic human rights guardrails in place in the United States-Philippines relationship.

I believe our policy should be built on a clear principle: Our constituents' tax dollars should not be used to supply weapons, training, or any other assistance to state security forces that violently target political opponents, including a United States citizen, Brandon Lee, a human rights activist, who was shot by state security forces in 2019 and remains paralyzed from the chest down today as a result of that attack. Brandon deserves to know that his government stands with him, not with his attackers.

I have made this point to the Trump administration, and I am making it to

the Biden administration. If we in the United States are going to say that we stand for human rights around the world, then we need to stand for human rights around the world, not just when it is politically convenient and not just when it is easy.

Is it too much to ask that our country put some modest conditions on arming and assisting the security forces of an authoritarian government waging war on its own people?

Is it too much to ask that our government side with workers and the labor movement here at home and around the world? With faith and religious leaders? With human rights activists and dissidents who are simply trying to build a free society?

Those who oppose this amendment will claim that providing uncritical, unconditional assistance to the Philippines, regardless of the war its government is waging against its own population, is critical for our national security objective of countering China. But the need to counter the Chinese regime's authoritarianism on the international stage is precisely why it is so important that we maintain our credibility on human rights. It is why it is so vital that we do not undermine our own case for democracy and open ourselves up to charges of hypocrisy by supporting brutal regimes out of short-term political expediency.

Let's pass this amendment and send a resounding signal to the world that we are prepared to make respect for human rights a cornerstone of U.S. foreign policy rather than an empty slogan that we yield arbitrarily.

Mr. Speaker, I reserve the balance of my time.

Mr. CHABOT. Mr. Speaker, I claim time in opposition to the amendment.

The SPEAKER pro tempore. The gentleman is recognized for 5 minutes.

Mr. CHABOT. Mr. Speaker, I would note if there has to be a Democrat in that seat, there is no Democrat I would rather see than the gentleman from New York. He is a fine gentleman who I have worked with over the years and respect greatly.

As the ranking member of the Asia and Pacific Subcommittee and a co-chair of the U.S.-Philippines Friendship Caucus, I would submit that our alliance with the Philippines is one of our most important relationships across the globe. We have partnered with them for over 70 years now, and cooperation between our two nations is just as important today as it has ever been.

In the face of territorial aggression in the South China Sea by the People's Liberation Army, which of course is the military wing of the Chinese Communist Party, the CCP, our partnership with the Philippines serves as a geostrategic counterweight to China. As Chairman Xi seeks to control international maritime trade routes, including key waterways like the Luzon Strait, the Philippines remains a critical partner in checking his nefarious ambitions.

As with all our strongest alliances, our relationship with the Philippines extends beyond military affairs, for example, to cooperation in law enforcement. Our joint efforts with the Philippines in this regard are really critical to strengthening maritime security as well as tackling the evils of human trafficking and narcotics trafficking.

Of course, we have all been appalled by former President Duterte's brutal drug war, particularly its extrajudicial killings. Such brutality was the primary reason why Congress suspended International Narcotics Control and Law Enforcement assistance to the Philippine National Police.

However, it would be self-defeating to simply cut off all cooperation with Philippine law enforcement, as this amendment seeks to do. The amendment would end maritime law enforcement activities that strengthen U.S. national security. It would block joint efforts to pursue drug traffickers and child traffickers, and it would stop human rights and rule of law assistance.

Fortunately, the June 30 inauguration of President Marcos is an opportunity to strengthen the U.S.-Philippines relationship to address not only threats to maritime security in the Indo-Pacific but also human rights and respect for rule of law.

This amendment would undermine the Biden administration and those of us in Congress who are working towards these efforts. It would curtail cooperative efforts between our security forces at a time when Chairman Xi seeks to dismantle our more than 70-year mutual security partnership with the Philippines. It doesn't make sense.

Mr. Speaker, I urge my colleagues for all the reasons that I just mentioned to oppose this amendment, and I reserve the balance of my time.

Ms. WILD. Mr. Speaker, my colleague across the aisle is arguing for the status quo. As I said before, it is critical for our own national security objectives of countering China that we maintain our credibility on human rights issues. It is absolutely vital that we do not undermine our own case for democracy.

□ 1200

If I have one message for all those who defend the status quo on this issue, all those who claim that we effectively need to choose between our security and our principles, it is this: It doesn't need to be this way. Abdicating our values makes us less secure in the long run. That is why I urge my colleagues to pass this amendment by a resounding margin and to cosponsor my bill, the Philippines Human Rights Act.

The vote on this amendment is just a first step of what must be a sustained commitment to standing with the people of the Philippines. Together, we can finally begin shaping a U.S. policy toward the Philippines that is anchored

in respect for human rights and human dignity, those of the people of the Philippines as well as those of our people and all people around the world.

Mr. Speaker, I yield back the balance of my time.

Mr. CHABOT. Mr. Speaker, I yield myself the balance of my time.

Mr. Speaker, just to conclude and actually reiterate some of my previous remarks, I have been the co-chair of the Philippines Friendship Caucus, the Republican co-chair, along with my colleague BOBBY SCOTT from Virginia, for quite a few years now. We were both appalled by President Duterte's looking the other way and actually probably being involved to some degree directly in the command of a lot of the extrajudicial killings as well as the loss of life and brutality that took place for quite a few years.

We agreed with him on the war on drugs. Drugs kill far too many Filipinos and kill far too many Americans. But we do not agree on extrajudicial measures which take human life.

However, this is an opportunity now, because that government is in the past, and we have a new government. This is a new opportunity to build up this relationship once again between these two key allies, the United States and the Philippines. It is an important relationship, particularly when one considers that our principal challenge across the globe right now is countering the nefarious actions of the CCP, the Chinese Communist Party.

So I would urge my colleagues to oppose this amendment. Although well intentioned, I think ultimately it would do more harm than good.

Mr. Speaker, I urge my colleagues to oppose it, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. CUELLAR). Pursuant to House Resolution 1224, the previous question is ordered on the amendment offered by the gentleman from Pennsylvania (Ms. WILD).

The question is on the amendment.

The amendment was agreed to.

A motion to reconsider was laid on the table.

TRIBUTE TO JAIME LIZARRAGA

Ms. PELOSI. Madam Speaker, I rise today to honor a departing member of my office, my longtime senior adviser, Jaime Lizarraga.

This is a moment of great official pride as, last week, he was unanimously confirmed by the Senate to serve as a Commissioner of the Securities and Exchange Commission.

His departure is also bittersweet for me, as he has been an invaluable member of our team for the last 15 years.

All of those who have ever had the privilege of working with Jaime know firsthand, he is the model of an outstanding, patriotic public servant in a bipartisan way.

He has dedicated his entire career to doing the people's work. He has excelled not only in my office but also on the House Financial Services Committee, where he worked with then-Chairman Barney Frank; at the Treasury Department; and as a staffer at the SEC.

Indeed, President Biden's selection of Jaime to serve on the SEC is a testament to Jaime's deep expertise, strategic mind, and strong values.

His unanimous confirmation in the Senate was a tremendous victory for working families and for the entire country.

Here in the House, his masterful leadership was instrumental in enabling and enacting some of the most consequential economic legislation in a generation. During the financial meltdown of 2008, he helped stabilize the markets with the Troubled Assets Relief Program, TARP.

In the wake of economic catastrophe, he also helped strengthen the oversight of Wall Street with the historic Dodd-Frank legislation.

As COVID ravaged the Nation, he helped negotiate multiple relief packages that saved lives and spared livelihoods.

For years, he has been a relentless champion in the Congress for restructuring Puerto Rico's debt, supporting affordable housing, reforming our immigration system, and building economic opportunity for all.

Beyond his many impressive legislative achievements, Jaime is truly the embodiment of the American Dream.

The proud son of immigrants from Mexico, he has never forgotten his parents' sacrifices to give him and his sister a brighter future. In that spirit, every day, he fights relentlessly to open doors of opportunity for every American family.

Jaime's brilliance, expertise, and personal kindness will be sorely missed in my office and in Congress. But our Nation will greatly benefit from his continued public service at the SEC as he strives to build a fairer financial future for all.

On behalf of the House, we congratulate Jaime on this remarkable achievement and wish him so much success in his new role. We send best wishes to him, his beloved wife, and his 5 dear children as they begin this exciting chapter.

Congratulations, Jaime, and thank you for your service.

AUTHORIZING THE CLERK TO MAKE CORRECTIONS IN EN-GROSSMENT OF H.R. 7900, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2023

Mr. SMITH of Washington. Madam Speaker, I ask unanimous consent that

the Clerk be authorized to make technical corrections in the engrossment of H.R. 7900, including corrections in spelling, punctuation, section and title numbering, cross-referencing, conforming amendments to the table of contents and short titles, and the insertion of appropriate headings.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Washington?

There was no objection.

ELIMINATING DISCRIMINATION AGAINST PARENTS AND GUARDIANS WITH DISABILITIES

(Mr. LANGEVIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANGEVIN. Madam Speaker, earlier this week, I led my Democratic and Republican colleagues in introducing legislation to eliminate discrimination against parents and guardians with disabilities.

Together with Representatives BASS, BACON, FITZPATRICK, and LAWRENCE, I introduced the Equality for Families with Disabilities Act, just 2 weeks before the 32nd anniversary of the Americans with Disabilities Act.

Today, there are 4.1 million parents with disabilities raising families here in the United States. Yet, parents and guardians with disabilities face excessive scrutiny and disproportionate targeting for unwarranted intervention from child welfare agencies.

The research is clear: Children raised by parents with disabilities do not exhibit stunted development or worse outcomes than their peers. In fact, the opposite is true. Children raised by parents with disabilities demonstrate greater compassion, tolerance, problem-solving skills, and other positive characteristics.

Mr. Speaker, it is time to end discrimination against parents and guardians in State child welfare proceedings once and for all.

Thirty-two years since Congress passed the Americans with Disabilities Act, I encourage all of my colleagues to support this urgent legislation.

HONORING JOANN MERRIGAN

(Mr. CARTER of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARTER of Georgia. Mr. Speaker, I rise today in recognition of a prestigious journalist and outstanding woman, Ms. JoAnn Merrigan of WSAV News in Savannah.

With over 20 years in reporting, JoAnn has made quite a name for herself in multiple States for her high-quality news coverage.

She started her career in Iowa, following around Presidential hopefuls as they began their journey through the primaries. She also followed local and State-based elections, providing

Iowans with the information they needed to make an informed vote.

After her term in Iowa came to an end, she relocated to northern California where she continued to deepen her commitment to journalism.

After surviving the Loma Prieta Earthquake, JoAnn traveled around speaking to survivors and their families to get a better understanding of this tragedy.

From there, JoAnn moved her career to Nebraska, and eventually landing in the greatest city in the world: Savannah, Georgia.

Creating quite a respected name for herself, JoAnn has earned an outstanding number of awards, including the Edward R. Murrow Award for Investigative Reporting, a Gabby Award, as well as an award from the Georgia Associated Press Broadcasters Association in 2013.

Her exceptional career in journalism has commanded the respect of many, including myself, and I am proud to honor her today on the floor.

HONORING JOHN R. HATCHER, III

(Ms. BROWNLEY asked and was given permission to address the House for 1 minute.)

Ms. BROWNLEY. Mr. Speaker, it was once said: "The greatness of a man is not in how much wealth he acquires, but in his integrity and his ability to affect those around him positively."

By this definition, John R. Hatcher, III, was a great man.

As the founding father of the Ventura County chapter of the NAACP, John was guided by his passion for social justice, and he was a champion for diversity, equality, and civil rights.

An Air Force veteran, a civil servant, an extraordinary citizen, our community is forever grateful for his immeasurable contributions.

For these reasons, I thank my colleagues for supporting the passage of H.R. 5659, which will designate the post office in Oxnard, California, as the John R. Hatcher, III, Post Office.

This bill is but a small measure of appreciation that recognizes John and his life's work, and I urge the bill's swift consideration before the Senate.

HONORING KRIS HANSEN

(Mr. ROSENDALE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROSENDALE. Mr. Speaker, I rise today to honor the life of Kris Hansen, a great Montanan and a dear friend who passed away just last week.

Kris was a mighty warrior who loved her country and embodied the highest ideals of public service in the State of Montana.

She served overseas with both the National Guard and the CIA, followed by an exceptional tenure with the Montana State legislature, alongside me in the Montana State Auditor's office,

and most recently as Lieutenant Attorney General.

She was a blessing and a light upon all the lives that she touched.

Kris was also a strong advocate for students and families. She used her gifts to fight for access to quality education for children across the State of Montana.

Her commitment to protecting and preserving our way of life will always be a defining pillar of her legacy.

I am so thankful to have worked with Kris and developed a special friendship with her.

Our thoughts and prayers are with Fred and Nancy and the Hansen family during this most difficult time.

PAYING TRIBUTE TO SERGEANT FIRST CLASS HEATH ROBINSON

(Ms. KAPTUR asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. KAPTUR. Mr. Speaker, I rise to pay tribute to Sergeant First Class Heath Robinson, a son of Ohio, who served America honorably and with distinction.

After tours of duty in Kosovo and Iraq, he returned home and was diagnosed with terminal cancer.

Sergeant First Class Robinson, like far too many others, became afflicted with the grievous wounds of war caused by exposure to toxic substances.

He and thousands more made the ultimate sacrifice. Every American owes them our unending gratitude.

But we owe them more than that. When returning from the battlefields with injuries and illnesses, America has a moral responsibility to provide every ounce of care to our servicemembers and veterans.

This week, the House takes a step forward in meeting this sacred obligation. The Sergeant First Class Heath Robinson PACT Act will ensure that those who served and are suffering receive the care they need to heal.

The debt America owes to these patriots can never be fully repaid, but we can make a down payment by delivering the care to help them overcome, the care that they have most certainly earned.

COMMEMORATING THE UPCOMING 150TH ANNIVERSARY OF ASCENSION ST. VINCENT HOSPITAL

(Mr. BUCSHON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BUCSHON. Mr. Speaker, I rise today to commemorate the upcoming 150th anniversary of Ascension St. Vincent Hospital, formerly St. Mary's Hospital, in Evansville, Indiana.

Although the name has changed, its goal of providing quality care for citizens of the tri-State area has remained constant. I practiced cardiothoracic surgery there before being elected to Congress.

Since the Daughters of Charity accepted their first patient on July 18, 1872, Ascension St. Vincent, formerly St. Mary's, Evansville has remained true to its mission.

They say: "We have a mission, a reason for being here, to keep healthcare human; human for our patients, human for our families, human for our doctors, and human for all our associates. The poor will come, and the rich will come, if they know they are going to be treated as people."

For the last 150 years, this hospital has been a leader in medical innovation and care. In fact, it was one of the first in the region with operating room lighting, something that I acutely appreciate because I am a surgeon myself. It also hosted the first accredited cancer program and the first level 3 neonatal intensive care unit in the tri-State region.

I am grateful for Ascension St. Vincent Evansville's continued commitment to caring for all Hoosiers and wish them a happy 150th anniversary.

DROP IN LEGAL IMMIGRATION

(Mr. AUCHINCLOSS asked and was given permission to address the House for 1 minute.)

Mr. AUCHINCLOSS. Mr. Speaker, I rise today to recognize an unaddressed contributor to labor shortages across our economy, a drop in legal immigration.

Researchers at the University of California at Davis found that: "By the end of 2021 there were about 2 million fewer working-age immigrants living in the United States than there would have been if the pre-2020 immigration trend had continued unchanged."

This has hit certain industries hard, including food, hospitality, construction, transportation, and healthcare, particularly nursing, at a time when our economy is overheating in its recovery from COVID-19.

A significant part of lowering cost and avoiding a recession is expanding the productive capacity of the economy. Until we address staffing shortfalls, we will continue to artificially constrain the supply side of our economy and drive up costs for everyday people. We must recognize and reverse this trend by clearing the visa backlog, documenting immigrants and Dreamers already here, and increasing caps for both immigration and refugee resettlement. It is not just a moral imperative; it is an economic one.

CORPORAL JOSEPH RODNEY CHAPMAN IS A HERO

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today to speak about an incredible American hero from the small town of Freeport, Pennsylvania.

Corporal Joseph Rodney Chapman was drafted into the U.S. Army in 1942, and he fought with the 80th Infantry Division in World War II. He fought across France, was wounded twice in the process, and earned a Bronze Star for his heroic actions to destroy a German machine gun and its crew.

In the spring of 1944, as the Allies continued to drive the enemy into retreat, Corporal Chapman found himself under enemy fire and was taken as a prisoner of war.

After returning home to Pennsylvania, he worked for the post office in Freeport for 35 years as a mail carrier and clerk. He was married to his late wife, Mary, for 69 years, and he just celebrated a very happy 100th birthday this past October.

Mr. Speaker, Corporal Chapman is the epitome of the American spirit. Therefore, I am incredibly proud to introduce legislation today that would rename the very post office Mr. Chapman worked at in his honor. He has devoted his life to his country and his community, and for that we owe him a great debt of gratitude.

ACCOUNTABILITY FOR ATTACK ON DEMOCRACY

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. JACKSON LEE. Mr. Speaker, this week, I had the privilege of taking some of our young high school students and visitors throughout the Capitol.

What a sense of pride I had in the beauty of this Capitol, the beauty of this building, but what it symbolizes is democracy.

As I walked through the Halls, I was reminded of the important hearings that are going on in the January 6th Committee. The most recent hearing made it very clear that the Oath Keepers and the Proud Boys came specifically at the calling of President Trump. The terrorism that occurred was driven by his lack of accepting the peaceful transfer of government. It was the big lie.

What we saw on that day, January 6, was domestic terrorism on steroids, destined to commit mayhem, bloodshed, and death. It was an attack on democracy, and it is being evidenced every day that the hearings proceed methodically, block by block, evidence by evidence. It is clear in the injury of law enforcement officers and loss of life that we have to say to those of this Nation: You have to take ownership of protecting the values and the sanctity of democracy.

Yes, someone must be held accountable. The President must be held accountable because what happened was not only an attack on democracy and the peaceful transfer of government, but loss of life and death, and that cannot go unanswered.

AN UNBORN CHILD IS A HUMAN LIFE

The SPEAKER pro tempore (Mr. CORREA). Under the Speaker's announced policy of January 4, 2021, the gentleman from Pennsylvania (Mr. KELLY) is recognized for 60 minutes as the designee of the minority leader.

GENERAL LEAVE

Mr. KELLY of Pennsylvania. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the topic of this Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. KELLY of Pennsylvania. Mr. Speaker, I rise today in honor of the 2,500 unborn lives we lose to abortion each day who cannot stand for themselves. That is nearly half a million little boys and little girls in the United States alone this year. These numbers don't reflect, though, and take into consideration self-administered chemical abortions.

Last month, the Supreme Court announced what the pro-life movement was waiting half a century to hear: Roe v. Wade is overturned. As a proud pro-life grandfather of 10, I enthusiastically applaud the Justices for recognizing that this terrible relic from 1973 has no place in 2022.

Roe was both a legal and moral abomination from the beginning. It mocked our Nation's Constitution and paved the way for the abortion of more than 63 million innocent babies in the years since.

The men who first decided Roe invented the right to abortion out of thin air. By adding an extra line to our Constitution, they ignored one of the first sentences of the Declaration of Independence, which holds that we are endowed by our creator with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness.

With Roe in the dustbin of history, the abortion question returns to the democratic arena where it belongs. The most contentious of issues can now be properly debated and deliberated at both the Federal and State levels, where, ideally, the most logical and persuasive arguments can triumph and translate into new law.

Let us have clear eyes to see exactly what science shows us, that fetuses in the womb are human beings who develop with each passing second. These innocent children have their own DNA and soon develop hands, feet, eyes, and lips. They can also feel pain. Just as importantly, they have the potential to grow up, flourish, and achieve amazing dreams. Let us have the compassion to give them that chance.

For those of us in elected office who sincerely believe that human life is a sacred gift from God in need of society's protection, our position is no

longer theoretical. We now have a pressing responsibility to examine how public policy can best be crafted to adequately accomplish our stated goal.

I believe we already have an answer. When an expectant mother visits a doctor for an ultrasound, the image of a beating heart is the first confirmation that a child has been conceived. When someone is involved in a severe accident, a medic will check right away to see if there is a pulse to make sure the victim is alive. In short, a heartbeat means a life.

Now, to legislate consistently with this truth, I introduced the Heartbeat Protection Act in the U.S. House of Representatives. This bill would legally prohibit future abortions from being performed if a preborn child's heartbeat can be detected, with the exception for when a mother's life is in danger. It is a science-based, humanity-respecting solution suited to the new landscape in which we find ourselves.

The post-Roe world is here. As legislators in each State determine the extent to which they wish to defend life, pro-life Members of Congress can simultaneously take action to make our beloved country a place where both children waiting to be born and their mothers are acknowledged and safeguarded.

Mr. Speaker, tonight, we have a very distinguished group of Members with us who will also speak on this subject. This doesn't have to turn into an angry debate. This doesn't have to turn into something that people get so upset with each other about that they can't even sit down and talk intelligently about what is going on.

If we cannot see the value of life every day in every single person, then what have we witnessed this year, just this summer—the horror that has taken place in our own cities, the loss of life that we have experienced, the sincere sorrow that this country feels. Yet, we have a blind eye and a deaf ear to the cries of the unborn.

Do they not deserve that same type of consideration that every human being deserves?

Mr. Speaker, I yield to the gentleman from Michigan (Mrs. McCLAIN).

Mrs. McCLAIN. Mr. Speaker, I thank the gentleman from Pennsylvania for holding this very serious and very important Special Order.

A few weeks ago, the Supreme Court delivered the greatest victory for life this country has ever seen when it rightly held that the ability to kill an unborn child is not a constitutional right and returned the authority to regulate abortion back to the people and their elected Representatives.

Sadly, we have seen some elected officials who care more about appeasing the fringes of their base than defending our institution and respecting the document that they swore to uphold and defend.

President Biden, for example, a former longtime supporter of letting

the States decide their abortion policies, he sees fit to ignore the ruling. In a feeble attempt to quiet his far-left critics, he is seeking to unilaterally expand the ability to kill an unborn child.

I am curious. Does he not know that we have rule of law in this country with a system actually built on checks and balances? The President has been in Washington since before Roe, so I think he should at least have a basic understanding of our government and the rule of law.

I would say this: Mr. President, these efforts will be in vain. You must remember the oath that you took and the document you swore to uphold. Mr. President, the Supreme Court and the Constitution are clear: You and your bureaucratic underlings at HHS do not have the authority to unilaterally make law. That is up to the people's Representatives. Please remember that.

Mr. KELLY of Pennsylvania. Mr. Speaker, I yield to the gentleman from Texas (Mr. BABIN).

Mr. BABIN. Mr. Speaker, I thank my friend from Pennsylvania (Mr. KELLY) for this Special Order.

The Supreme Court's monumental overturn of Roe v. Wade is a milestone we have been working on for nearly half a century. However, our work has only just begun.

Since the Court's ruling, pro-abortion extremists have attacked, vandalized, and even firebombed pregnancy centers and churches across this country.

Since 2016, pregnancy help centers have saved more than 800,000 lives by providing critical resources for women and their children. They should never be forced to operate under the threat of violence from anarchists who do not value life or our laws.

I have introduced H. Res. 1183, which condemns these attacks and the domestic terrorists behind them.

We must keep fighting to protect the unborn from those who wish to extinguish them at all costs.

I am a proud supporter of such an effort, the Heartbeat Protection Act, which prohibits abortions from the moment a child's heartbeat is detected. All babies deserve a chance at life, and we must defend that chance and that life.

My colleagues across the aisle have disturbingly embraced an anti-life agenda so radical that it sadistically enables the murder of millions.

This week, our colleagues across the aisle are pushing the abortion on demand until birth act, a bill that legalizes abortion on demand for any reason and at any time. They don't care that their pro-abortion agenda fails to align with the views of the majority of Americans—71 percent, to be exact—who support some limitations on abortion.

We cannot and must not remain silent while the lives of the most innocent among us are threatened to be terminated.

Mr. Speaker, I will always stand for our unborn and firmly stand against any efforts to promote abortion.

Mr. KELLY of Pennsylvania. Mr. Speaker, I yield to the gentleman from Pennsylvania (Mr. JOYCE), another member of the fantastic Pennsylvania conference group and a strong defender of life.

Mr. JOYCE of Pennsylvania. Mr. Speaker, first of all, I thank Representative MIKE KELLY for holding this Special Order.

What a pivotal summer we have seen as the United States Supreme Court, after almost five decades, has overruled the terror of Roe v. Wade.

We all know that all life is sacred. As a doctor, I swore an oath first to do no harm, and for me as a doctor, that meant refusing to ever be involved in performing abortions or any abortion procedures. Now, as a legislator, it means working each and every day to protect and stand for human life.

Even after this historic Supreme Court decision to overturn Roe v. Wade, there is still work to be done to protect human life here in the United States. Our Declaration of Independence states that life, liberty, and the pursuit of happiness are unalienable rights given to all of us by our creator, and government is created to protect these rights. Government is created to protect life, liberty, and the pursuit of happiness.

We must all, as legislators, stand for life, and we must continue to fight for the unborn.

The sanctity of human life is an inherent part of America from our founding days, and it must be protected today and into the future.

Again, I thank the gentleman from Pennsylvania, my colleague and my friend, for doing this Special Order this evening and allowing all of America to hear how we stand behind the sanctity of human life.

Mr. KELLY of Pennsylvania. Mr. Speaker, I yield to the gentleman from Louisiana (Mr. JOHNSON), a member of the Republican leadership group.

Mr. JOHNSON of Louisiana. Mr. Speaker, I thank the gentleman for his important voice and for hosting this Special Order hour.

The sanctity of human life can never be overemphasized. The gentleman has done so much work in that arena, and I appreciate him.

I am thankful to our Democratic colleagues tonight, as well, for skipping their Special Order hour so we can just go right ahead and get started in prime time. If America were experiencing record inflation, sky-high gas prices, and uninhibited illegal immigration under our watch, I would probably yield my time back, as well.

Mr. Speaker, this morning in our Judiciary Committee, the Democrat majority convened a hearing, and they titled it: "What's Next: The Threat to Individual Freedoms in a Post-Roe World." It was an appropriate title, indeed, because the radical abortion advocates are becoming completely unhinged. They are seeking to trample on

the individual freedoms of anybody who disagrees with them.

Case in point, over the weekend, the leftwing activist group ShutDownDC offered \$200 bounties for public sightings of our Supreme Court Justices.

This week, Senator ELIZABETH WARREN—talk about unhinged—said that crisis pregnancy centers all across America should be shut down.

There are 2,700 pregnancy centers all around this country in all 50 States. They are supported by over 10,000 licensed medical professionals. They are annually serving approximately 2 million women and men. I used to serve as legal counsel for many of these organizations, and I can testify to their invaluable work.

Why would anybody want to shut down pregnancy centers? They exist to provide counseling, care, aid, and comfort to struggling mothers who just want to have their babies. This is just abhorrent.

□ 1930

Speaking of abhorrent, I suggest to my Democrat friends to study up tonight—really, I mean, seriously—on the bill that we are going to be voting on here tomorrow. They call it the Women's Protection Act. It is not. We call it, more appropriately, abortion on demand until birth act.

Even though this will be the second time we voted on this bill in this Congress, I am not sure they know what is in it. I keep hearing my Democrat colleagues tell us: Oh, no, it is not about abortion on demand until birth. It absolutely is.

Surely, if they knew that this legislation did this, they wouldn't support it, right?

The American people certainly don't support it.

To our Democrat colleagues tonight, as I yield back to my friend, I would just humbly suggest—read your bill. You got a few hours. Read your legislation. Search your conscience. I hope that you will do the right thing and vote against that bill tomorrow.

Mr. Speaker, I thank Mr. KELLY again for the Special Order hour.

Mr. KELLY of Pennsylvania. Mr. Speaker, I thank Mr. JOHNSON.

Mr. Speaker, I yield to the gentleman from California (Mr. LAMALFA). I think we came into Congress in 2011 and it has been a pleasure serving with you. I appreciate your comments tonight on this very important issue.

Mr. LAMALFA. Mr. Speaker, I appreciate Mr. KELLY's leadership that he is providing for us here tonight and all through the year and all through your tenure here on this key moral issue.

I am glad also to join the rest of my pro-life colleagues here to reaffirm our dedication to protecting the innocent unborn.

Indeed, we have cause for celebration, something that has been corrected, over nearly 50 years and over 50 million lives taken, the unconstitu-

tional Roe decision has been rightfully overturned and the power put back to the States to a legislative process, not one decided by seven of nine on a Supreme Court.

Indeed, now we can have debate and people can be accountable for their votes. The public can have input on what they think about this topic. The public is much more educated at this point than they were 50 years ago and what this really means.

Every pregnancy actually results in a human life in that pregnancy. It is not something else. It is not a blob. It is not a tissue mass. It isn't going to be some other form of life or an animal—this is a human life we are talking about, and we value that and we protect that. It is constitutional to protect life in this country.

Though that decision does not outlaw abortion, it puts the responsibility and accountability back to legislatures, whether it is going to be States or here in the U.S. Capitol.

They still pushed forward anyway with a determination to go even farther than Roe v. Wade—their abortion on demand bill that they are going to take up tomorrow. It provides for discretionary abortions at any point in a pregnancy on the basis of a baby's sex, race, or possible disability.

What are we doing here?

We must stop the left's radical, extreme, immoral abortion agenda and uphold the value and dignity and potential of every person's life.

We even see now that corporations want to pay for travel for abortions for their employees. Amazing. They think this is helping women—\$4,000 is possible for your travel.

We have States that also want to be abortion tourism centers. My home State of California, shamefully, is trying to draw people in, pay for their stay, pay for their travel—even for illegal immigrants.

How immoral can you be?

Each one of these innocent souls was created by God. We see this immoral decay of our country, and it is really coming to fruition right in bright colors in front of all of us.

There is no denying that what we are talking about is a human life. As early as 5 weeks in the womb babies have a heartbeat; 10 weeks, arms, legs, fingers and toes, and they can jump and kick even inside the womb; 15 weeks, fully developed hearts, they can taste, yawn, and hiccup. Indeed, they are real.

It is not some blob. It is not something to be dismissed. What we are seeing here with the overturning of this decision, is the responsibility is back in front of the people to have this debate, and it is going to be a serious debate with all the States that are going to take this up, and here in Congress.

My hat is off to all the people that have worked so hard all these years—those pro-life folks out there—making the case, pleading, praying, and working so hard to educate about the miracle that is life.

Mr. KELLY of Pennsylvania. Mr. Speaker, I yield to the gentleman from Wisconsin (Mr. GROTHMAN), my friend and a strong defender of life.

Mr. GROTHMAN. Mr. Speaker, our country was sent on a journey a week ago to see how we would respond to the Dobbs decision. This decision challenges all Americans to decide where they will stand on the abortion issue.

It is particularly a challenge to the churches of this country who are supposed to provide moral guidance to the country as to where to stand.

These are decisions that will have to be made by the citizens, in part, when they vote. Decisions have to be made by State legislators, district attorneys as to whether they are going to uphold pro-life laws, and perhaps, most important of all, individual decisions that are going to have to be made by women or families who are in a situation in which some people are going to try to persuade them to have an abortion.

It is interesting when we talk about this to remember that in 1973, as far as I can determine, no State between California on the West Coast and New York on the East Coast had entirely open-ended pro-abortion laws. Nevertheless, at a time where we didn't really have ultrasounds, every other State ruled that something barbaric was going on.

You just heard other statistics—we know at 6 weeks a child has a heartbeat; 7 weeks, feels pain; 10 weeks, jumps if startled, and has fingers and toes; 15 weeks, sense of taste.

Obviously, anybody who says: What would God want us to do in this situation realizes a human being has been created by God, and that human being should be cherished and kept alive.

It was, again, apparently the clergy in 1973, or society as a whole, did a good job of informing people that something so horrific was happening in abortion that it should be barred and made illegal. Since that time, the clergy of this country and the churches of this country have had 49 years to weigh in with the public and guide them as to how they should think. We are soon going to find out what a good job they did or a bad job they did.

In any event, we thank the Supreme Court for reaching the right decision. Now we put the ball in the court of Americans as a whole, whether they will respond, recognizing the precious lives that we have to protect in America, or if they are going down the shoot toward more of an atheistic view of the world, similar to countries like North Korea, Red China, countries in which atheism is part of their roots.

The challenge is yours, America—the challenge to the churches.

Mr. KELLY of Pennsylvania. Mr. Speaker, I thank Mr. GROTHMAN.

Mr. Speaker, I yield to the gentleman from Arizona (Mr. BIGGS), a great consistent defender of life.

Mr. BIGGS. Mr. Speaker, I thank Mr. KELLY for holding this Special Order and I thank him for his leadership on

this incredibly important issue, particularly the heartbeat bill.

The heartbeat bill criminalizes an abortion that is performed after knowingly determining that a fetus has a detectable heartbeat.

The Democrats have the most radical position on abortion. They have zero regard for life. It is so radical that they want to shut down all crisis pregnancy centers in America. These centers help pregnant mothers in need and after the child is born.

Tomorrow, they plan to pass a piece of legislation that will strip away every protection for children in the womb, the protection for their mothers and healthcare providers.

It would allow abortion up until birth, and it could be used for sex selection. If it is signed into law, we will become the most barbarous country in the world with regard to abortion—more radical than even China, North Korea, or Vietnam, which have no limitations.

Well, what do we have now?

We have States that could regulate this now, and they do. So it is a lie to say that you don't have abortions in these States. Here is the deal. Even in France they regulate it and it is prevented after 14 weeks; Germany after 12 weeks, Greece after 12 weeks, Hungary after 12 weeks, Ireland after 12 weeks, and it goes on and on in the EU.

The United States—if this bill passes tomorrow—will be the most barbarous to unborn babies in the world. I hope and pray that doesn't happen. It must not happen in a civilized country like the United States, I pray it won't.

Mr. KELLY of Pennsylvania. Mr. Speaker, I thank Mr. BIGGS.

Mr. Speaker, I yield to the gentleman from Kansas (Mr. MANN), another great defender of pro-life and consistent member of pro-life.

Mr. MANN. Mr. Speaker, I thank the gentleman from Pennsylvania for hosting this very important Special Order hour, it is a hard-pressed thing and there is nothing more important that we can talk about right now.

I rise tonight to use my voice in defense of the voiceless, the unborn. Abortion has desensitized our Nation and I pray that the recent Supreme Court ruling wakes up our country to the horrors that we have visited upon our country's most vulnerable citizens whose lives have been snuffed out by abortion.

By 12 weeks of age, a baby has fully formed arms, hands, fingers, feet, and toes, a fully functional circulatory system and liver, and the capacity to experience pain—all at the weight of just 1 ounce and the length of 4 inches.

This is a miracle of God, and rather than stand in awe of it, some lawmakers would rather disregard it as meaningless. Abortion is not simply an elected medical procedure like getting your wisdom teeth taken out. There is another person involved—another eternal soul whom God created, loves, and sent his son, Jesus, to die for so that they might live.

The Supreme Court finally rectified their unthinkable wrong from 50 years ago, when the court legislated from the bench with *Roe v. Wade* and declared abortion a constitutional right grounded in a woman's right to privacy—a jurisprudential move that was shaky, biased, and flat wrong.

The United States is one of only eight countries in the world that permit abortion after 20 weeks of gestation, which means that 95 percent of the countries on Earth think that we are dead wrong on abortion. Now, as the Supreme Court has finally handed this decision back to the States, Americans will get to decide for themselves how abortion should be regulated.

It is easy to get caught up in the legislative language and forget that the numbers involved in the abortion issue are actual human beings. In the United States, 63.4 million people—Americans—have died from abortion over the last 50 years.

To put that number into context, that is roughly the entire population of the Midwest, which is estimated at 65 million people. Think about that.

Would our country notice if the collective populations of Kansas, Iowa, Missouri, Minnesota, North Dakota, South Dakota, Nebraska, Illinois, Indiana, Michigan, Ohio, and Wisconsin were wiped out overnight? Would they miss these people?

That is the impact that abortion has had over the past 50 years.

I believe that life begins at conception, which is why I support adoptions, foster care, and crisis pregnancy centers that work tirelessly to care for mothers and their babies.

I take this moment to thank the pro-life movement at large in American and I am standing with you and thanking God that *Roe v. Wade* has finally been overturned.

Mr. KELLY of Pennsylvania. Mr. Speaker, I yield to the gentleman from Texas (Mr. GOHMERT), somebody who has been a friend of mine since way back in 2011, and who has never stopped fighting for life since he got here.

Mr. GOHMERT. Mr. Speaker, I thank my friend for having and hosting this time.

During biblical times, we read about sacrifices of babies to Moloch and to Baal.

How could that happen? How could you allow a child—a tiny baby—to suffer like that? It goes on.

I know there is so much said, but let's simplify it. If you think that it is not a child, see a preemie. It doesn't have to be your own premature child like ours was. Let that little child grab your finger and hold on for dear life. Understand what we have heard about here—what a late-term abortion is that so many in this body embrace.

□ 1945

That little hand is attached to an arm that is attached to a body, and it is a beautiful child. The late-term abortionist, as he has explained, will

rip off—he reaches in with a clamp, clamps on to the arm, linear things, and rips off four linear things from the body and then reaches in and crushes the skull and rips the skull off of the child.

That is not progress for civilization. That is horrendous.

Let a premature child hold your finger, Mr. Speaker, and see what the monitors do—as I have—and you will never ever want to know of a child like that being broken, pulled, and torn apart. Let's progress beyond the brutality.

Mr. KELLY of Pennsylvania. Mr. Speaker, I yield to the gentleman from the great State of Georgia (Mr. CARTER), who is another great defender of life.

We have been defending life for so long with such great patience and such great prayer. It has always been done in a peaceful manner.

Mr. CARTER of Georgia. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, in the 1970s when *Roe v. Wade* was decided, ultrasound technology was in its infancy. The black and white photos that expectant parents proudly display on their refrigerators and in social media posts today weren't widely available back then. The general public could not see the life that was being created, and the medical community had no clear consensus on when life began.

I have been blessed with many beautiful grandchildren, and I remember the warmth and love I felt for them the second I saw those 15-week ultrasound photos. I am beyond grateful. In fact, it is an answer to many prayers that our Supreme Court has finally made a decision and has overturned the catastrophic decision that was *Roe v. Wade*.

What the *Dobbs v. Jackson Women's Health Organization* decision does is give the power back to the States where it belongs, allowing them to decide how they want to approach abortion law. But it doesn't stop here. We must now refocus our attention in a post-*Roe* world, to providing aid to our mothers.

Now, this is very important, Mr. Speaker. The Biden administration has recently come out targeting pharmacists such as myself, trying to force them to distribute abortion medication at the risk of civil rights violations. When I was a member of the Georgia State legislature, I sponsored legislation to allow pharmacists to act in the best interest of their patient.

President Biden is using pharmacists as political pawns for his pro-abortion agenda. That is truly despicable. This is not the kind of leadership that should be coming out of the White House.

Life is the most fundamental human right; we must continue to work to help make it the best that it can be.

Mr. KELLY of Pennsylvania. Mr. Speaker, I yield to the gentleman from the great State of Georgia (Mr. ALLEN). Again, I thank the Representative for

being with us tonight. He is a great defender of life.

Mr. ALLEN. Mr. Speaker, I thank my friend, MIKE KELLY of Pennsylvania, for yielding.

Mr. Speaker, I believe everyone has the dignity, value, and potential. There is no right more fundamental than the right to life. Our Founders engraved it in the Constitution. We are made in God's image, and we carry in our hearts that spark of creation that served as the bedrock upon which our country was founded.

Documents like the Constitution do not grant rights, they protect rights. The Dobbs v. Jackson decision will go down in history not only as the end of one era but the dawn of another more hopeful one.

The decision that the Court made was based on the 14th Amendment and the civil rights of a woman and her reproductive rights. The decision was controversial. It is not in the Constitution, and it was a terrible decision. It was decided based on the civil rights of the mother.

We know that the child has a heartbeat in 6 weeks and can feel pain at 15 weeks which was the Mississippi law that it was contested on. And we know a child born at 24 weeks will survive.

My question is: When does that child enjoy the same rights under the 14th Amendment as the mother?

Is it at conception?

Is it at 6 weeks, the heartbeat, which Georgia law is based on?

Or is it the Mississippi law or when that child is born maybe prematurely at 24 weeks?

This is God's Word. God told Jeremiah that He knew him before He webbed him in the womb.

What my colleagues are proposing tomorrow on the House floor goes far beyond Roe. This legislation, if codified into law, would require healthcare providers at the command of the mother to rip a full-term baby from the womb while the mother is in labor; if the baby likely survives, orders the child to be killed.

This is unconscionable and barbaric and must be stopped. Only eight nations, as has been said earlier, allow this barbaric practice; two of them are North Korea and China. We are not in good company here.

I cry out to my colleagues to stop this insanity. Let us all enjoy life, liberty, and the pursuit of happiness—even the defenseless unborn.

Mr. KELLY of Pennsylvania. Mr. Speaker, I thank the Representative for his remarks. Tomorrow is a big day for all of us.

Mr. Speaker, I yield to the gentleman from the great State of Mississippi (Mr. GUEST). As we all ponder tonight what tomorrow will bring, I thank Mr. GUEST for being with us and defending life in every step of the way.

Mr. GUEST. Mr. Speaker, I rise today in support of the life of the unborn and in support of pro-life legislation like the Heartbeat Protection Act,

a commonsense bill that would save an untold number of unborn children. I encourage my colleagues to look at the evidence that supports the pro-life movement.

I know that Scripture supports life. Jeremiah 1:5 tells us:

Before I formed you in the womb, I knew you. Before you were born, I set you apart.

We also know that science supports life. Science now proves that unborn children can feel pain starting at 15 weeks or earlier. With enhanced ultrasound technology we see children in the womb moving and kicking. With new technology, doctors can even detect the beating sound of a child's heart.

Our Court supports life with the recent decision by the Court to support Dobbs v. Jackson, which is a case that originated in the great State of Mississippi, my home State, we now have a legal system that has opened the door for a wave of pro-life support.

The American people also support life. Almost two out of every three Americans support restrictions on abortion. Twenty-one States have already implemented laws to protect the lives of unborn children. That will now grow even further with nine more States considering their own pro-life legislation in the coming months.

Mr. Speaker, I urge my colleagues to support Scripture, science, our legal systems, our States, the American people, and the lives of our unborn children by supporting the pro-life movement.

Mr. KELLY of Pennsylvania. Mr. Speaker, I thank the Representative for his comments.

Mr. Speaker, I yield to the gentleman from the great State of Tennessee (Mr. ROSE).

Mr. ROSE. Mr. Speaker, I thank Representative KELLY for sponsoring this Special Order tonight.

Mr. Speaker, on Friday of last week, President Biden signed an executive order undermining democratically passed State laws that limit abortions. His executive order directs the Department of Health and Human Services to protect access to life-ending abortions including the dangerous and deadly chemical abortion pill. This goes directly against the Supreme Court's recent decision that allows the people through their elected Representatives to decide on this issue for themselves at the many States.

Unfortunately, the President caved to the extremists who support abortion up until the moment of birth and is now going against his oath of office by directly undermining the law of the land. Meanwhile, pregnancy centers, which provide compassionate support to pregnant mothers, and churches are under attack by the left.

Where is the executive order protecting these organizations and institutions?

In America, the first inalienable right is the right to be born—the right to life. Countless lives have been lost

to abortion since Roe became law. Now is our time to right these wrongs and stand for life. The President has a constitutional duty to uphold the law of the land, not undermine it.

Mr. KELLY of Pennsylvania. Mr. Speaker, I appreciate Representative ROSE's being here tonight.

Mr. Speaker, I will use some of the time we have remaining. I know that we always want to debate this proposed legislation about what is good about it and what is bad about it. Oftentimes, we use languages to actually disguise what it is that we are actually talking about.

Tomorrow as we will debate and vote on the Women's Health Protection Act, abortion is the only medical procedure where two people go into the doctor's office and only one comes out alive. I know that in this people's House we have had heavy debate, and I know that both sides are divided on it and sometimes the language gets out of hand. It gets too hateful.

My colleagues on the other side have often said to me:

Look, we believe like you believe. We believe that life is sacred. We believe that every—every—child has a chance, and that unborn child is waiting to be born and waiting to experience all that life has to offer. But, you see, the Supreme Court took that option away from me. My personal preference would be life, but the Supreme Court took that option away from me.

So tomorrow, as we debate the Women's Health Protection Act and we hear a lot of discussion that goes back and forth and defending and then tearing apart and people adding to and subtracting from, we come to a lot of different things.

Mr. Speaker, I just want to share with you that last weekend while we were home, I had the opportunity to visit in Erie, Pennsylvania, in the district that I represent, I visited a women's care center. This is a center where too often they are described as people who are trying to discourage pregnant mothers from actually giving birth. They are trying to lead them into a different direction.

I just want to say this: the people who man these agencies give up a day of their life to come in and help counsel women who are going probably through some of the most difficult times of their life. Maybe it is not the right time for them to have that child. Maybe there is a financial problem, and it is just not right now.

Maybe there is something else that stands in their way, and they are saying: Well, I am so alone. I am by myself. I don't know how I would handle this.

To those ladies who go through that, I would say that there are options available to you. The adoption option is there. We have thousands upon thousands of people who would love to adopt a child and to give it a loving home and to help nurture it as it goes through its lifecycles. We also have foster care that is available.

I know that I have talked to too many women who have experienced the

anguish of going through an abortion and then later on thinking that they made the biggest mistake of their life and holding that guilt feeling in their life.

I would just like to suggest that we are a very forgiving society. We are a people who say:

Look, don't let that ruin your life. Don't let that ruin your life. There is forgiveness, there is grace, and there is mercy.

We know that. But as we stand here tonight in the people's House—in the people's House—how did we ever get to this point?

How did we ever in the United States of America decide that all life is not precious?

I mentioned earlier some of the horrific instances that have taken place just in the last few weeks, in the last few months, and in the last few years.

□ 2000

I know that, on Wednesdays, a lot of Representatives wear red, and that is to bring about the remembrance of the Boko Haram and the little girls who were kidnapped and never returned. It is always about “we need to get our girls back.”

We have such open hearts, and we have such understanding in some cases. Then in other cases, we just close our eyes. We plug our ears. We say: No, no. You don't understand. In this situation, the conception of that child was not what we were looking for. That is not what we wanted, but it happened, and now we have a problem. What are we going to do with this little girl or this little boy?

I know people look away. They look to the sky, and they look to the walls, and they look to the floor, and they say: Look, my personal preference would be—but the Supreme Court made a decision. The Supreme Court has just righted a very wrong decision.

I hope that, at some point, the greatest defender of life in the history of the world, the greatest defender of liberty and freedom in the history of the world, the United States of America, would take a look at the course and the direction it has been taking for the last 50 years.

Millions upon millions upon millions of little boys and little girls have been denied the right to life. Where in our history did we ever come up with this idea that abortion is okay?

Look, I said earlier, I understand there are times in your life—I can just tell you this: As a father of four and a grandfather of 10, between our first-born child and our second-born child, there was a pregnancy that took place. It was an ectopic pregnancy. My wife has wondered forever what that child would have been like had she gone full term.

I want to take a moment, Mr. Speaker, as we close now. In this building, in this room, in this town, tomorrow, we will have a chance to look at what it is we are doing and where we are going. I would just ask it all to be prayerful,

peaceful, and understand that this is an issue that we can no longer close our eyes to.

If it is your personal preference, if it is something that you think is right for life, then, please, walk away from any political bend that you may have and look at the policies.

We are here for the best interests of the United States and the best interests of our American citizens.

Mr. Speaker, I thank you so much for your indulgence. I yield back the balance of my time.

BEING A MORAL AND RELIGIOUS COUNTRY

The SPEAKER pro tempore. Under the Speaker's announced policy of January 4, 2021, the Chair recognizes the gentleman from Wisconsin (Mr. GROTHMAN) for 30 minutes.

Mr. GROTHMAN. Mr. Speaker, first of all, just so you all know, you don't have to worry about waiting 30 minutes. It is not going to be that long.

I would like to talk about some issues tonight that I don't feel have been adequately addressed in this forum. The press—not the people back home, but the press—keeps trying to make a big deal out of January 6.

When I go home, as I am sure for all of my colleagues who go home, 80 percent of the comments deal with inflation, insofar as other things are being dealt with. It is not January 6.

Nevertheless, there is something that bothers me. Since we are apparently going to have these hearings on January 6, everything ought to be able to come out. If I was on that committee, the first thing I would ask is for all the video from the Capitol that day to be released.

It seems to me if people genuinely want to know what is going on, that is where I would start. Therefore, on last October 5, myself, Congressman NORMAN, and Congressman GOHMERT asked for all the video from the Capitol to be released that day. It doesn't seem that much of a difficult request. There were many people still being held in jail, and the press kept trying to rile up the population and let them believe something horrible had happened.

I received inquiries from both Republican and Democrat constituents who felt it would be a good idea if we released the video of what was going on that day. It would be helpful if Congresswoman LIZ CHENEY or ADAM KINZINGER also weighed in, saying all that video should be released. But for whatever reason, it hasn't been released.

One more time, Congressmen Norman, Gohmert, and myself have had to make a request of the Justice Department to release these videos. It is getting to the point where no longer is it just an innocent inquiry because a few people asked for it. People are beginning to think that the Justice Department must be hiding something.

One more time, we make the request. The request should be made by the

Capitol press corps. There was a time when press in this country, one of their goals was to get behind the curtain in front of government and expose what was really going on, and both conservative and liberal journalists would have quickly asked for these videos. For whatever reason, they haven't asked for them.

I, again, ask the Department of Justice to release them. But above all, because I don't think the Justice Department apparently cares what Congressmen Norman, Gohmert, or Grothman say, the press in this country that seems obsessed with January 6 ought to demand that the Justice Department release these videos. After all, it has been 16 months, 17 months, after this took place. It has been 18 months after this took place. It is high time we found out what was going on there.

Every day that goes forward in which the video is not released, I think the American public, the small amount that is paying attention, is going to be more convinced that somebody is hiding something.

Now, I don't want to accuse anybody of anything. I don't want to be a conspiracy theorist, but my constituents are wondering, when I write that letter, why we are sitting on the video. If it is so important to find out what really went on that day, please, Department of Justice, release the hidden videos and, please, comatose American press corps, ask that the videos be released.

I have spoken from this microphone many times this biennium about a tilt toward the totalitarian sort of government that we see going on. And by totalitarian, I mean the worst type of totalitarian, a Marxist totalitarian government.

We see a variety of danger signs on the horizon. We began this session with people being sworn in who, in order to get elected, got help from Black Lives Matter, a group whose founders made no bones about the fact that they were Marxist and made no bones about the fact that they were against the traditional American family, what they described as the Western nuclear family.

We have then seen online media giants suppress free speech. Now, I suppose you could say they are private companies, and I suppose you could say it is their right to suppress free speech or prevent you from googling something, from getting a cross section of views that are out there.

Nevertheless, we know, as a practical matter, they have almost a monopoly in this country, and it is concerning that these companies that have, as a practical matter, monopolies have decided to suppress certain speech. They certainly have the heart of a totalitarian atheist.

The next thing we look at is a growing percentage of the gross national product no longer being spent by the people who earn the money but being spent by the government, by the politicians in Washington. That is another danger sign.

We see a President openly talking about taking away the freedom to defend yourself. He wants the only guns to be owned by government employees. He didn't want the right of defense to rest with the individual. This would be another trait of a government very different from that which our forefathers anticipated.

We saw an effort made to have our government deny visas or deny property to foreigners if they engaged in suppression of human rights. But the human rights that we know the Biden administration meant were not fear of murder or robbery or something. The human rights were aimed at the field of pro-life, so that politicians or other people abroad who fought for pro-life issues, or issues with regard to so-called gay rights, if you weren't on the right side, the Biden administration wanted to threaten foreign officials with taking away the right for a visa in this country, taking away their right to travel, as well as taking away their property in this country.

Does that sound like kind of a dangerous thing?

America had better wake up. We are going the wrong way. John Adams said our Constitution is made for a moral and religious people and is totally unfit for any other kind.

When you listen to the things that have been going on in this country, what do you think? Aren't we headed for a very different country than the moral and religious country that is required to keep our country going?

There are other things that kind of just amaze me. June is Dairy Month. Being from Wisconsin, everybody in Wisconsin knows June is Dairy Month. But for some people around Washington, they don't think primarily of Dairy Month. They call it Pride Month, and the U.S. flies the gay flag, and the Vatican, as well as many other countries around the world.

Do you think our forefathers would have anticipated, particularly given all the blessings that our country has been given, that we would decide to fly our flag with, in essence, a sexual preference flag all around the world? Again, highly questionable.

Then, we have another step in a very unusual direction for a country that was supposed to be a moral and religious country. We are sending out requests for grants from nonprofits around the world to promote humanism and atheism. Isn't that kind of unusual?

Here we are, such a blessed country. What do we do with our money? Why,

we say, does anybody around the world want to promote atheism?

As recently as the 1960s in this country, only 2 percent of the people said they did not believe in God, only 2 percent in the 1960s. Look how far down we have gone. Now, we elect a government and are asking for grants to be given to organizations to promote atheism in our name.

I mean, when you look at the State Department, I guess the two things that they will tell people abroad are, if you want to be like the United States, if you want to follow in its footsteps, follow the pride flag and follow atheism. Very, very disappointing. I think it is time that the clergy and the people of America wake up.

I know we are just supposed to talk about inflation. Of course, inflation is bad, and, of course, this bad inflation was caused by excessive government spending. That is all true. But there are other issues that are going on out there as well, and I am very afraid, given how quickly we have gone downhill the last 40 or 20 or 10 years, where we are going to wind up in another 10 or 20 or 30 years if this sort of activity continues to come from our government in Washington.

While we took our 2-week break, we hit 100 murders a year in the city of Milwaukee. If that happens in the second half of the year, we are going to wind up hitting the all-time-record number of murders in Milwaukee, a city that is directly adjacent to my district.

We have to ask ourselves, what can we do to reduce the number of murders? Part of it, I have always felt, is the decline in the traditional family. We have spoken, again, from this microphone about the degree to which our welfare programs seem conditioned upon either not working or, above all, make sure if you have children, you don't have them in wedlock because if you have a two-earner household, it is very difficult to take advantage of all these grants.

□ 2015

Mr. Speaker, this is where some of it comes from, but some of it also comes from kind of the neutering of the police corps by having irresponsible politicians calling the police, in general, racists.

When you call all the police racists, which I don't think they are, you create a chilling influence. Police, particularly in big cities with high crime rates, where it may be more important they engage the citizenry than any-

where else, the police back off. When they back off, you have something that is almost unbelievable to see: a hundred murders in the first half of the year in the city of Milwaukee.

By the way, I was born in the city of Milwaukee, and as recently as the early 1970s, Milwaukee had the lowest murder rate of the 20 biggest cities in the country.

Milwaukee was always proud of how safe it was, and now we are kind of going the opposite way quickly. At least I believe one of the reasons is certain politicians. It has become politically expedient for them to trash the police departments, to, therefore, threaten individual police with lawsuits, resulting in police not engaging the population enough and resulting in a high number of murders.

I, therefore, call upon all of our politicians to boldly speak out in favor of the police and boldly describe to the population as a whole that we do not have a racist country, which is something else that should be pointed out.

In my own district, I talk to the Hmong, who came here not even knowing the language. If you talk to the Hmong, all of their children and their grandchildren are doing fantastically well, living the American Dream.

I know an increasing number of people from India in my district, another example of a group that frequently came to America, didn't know the native language, and now they are living the American Dream.

But for some reason—I personally believe they are trying to destroy America—politicians are out there talking about what a horrible, racist country they have.

I think they do it to divide America and weaken America, but I beg them to stop doing it that way and to win elections based on issues, not on name-calling and not on teaching our young people that we have a horrible, racist country.

Mr. Speaker, I guess for the benefit of all the people listening tonight, I yield back the balance of my time.
