The House met at 10 a.m. and was called to order by the Speaker.

MORNING-HOUR DEBATE

The SPEAKER. Pursuant to the order of the House of January 10, 2022, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning-hour debate.

The Chair will alternate recognition between the parties, with time equally allocated between the parties and each Member other than the majority and minority leaders and the minority whip limited to 5 minutes, but in no event shall debate continue beyond 11:50 a.m.

DEMOCRATS TRUST WOMEN

The SPEAKER. The Chair recognizes the gentlewoman from Texas (Ms. GARCIA) for 5 minutes.

Ms. GARCIA of Texas. Madam Speaker, I rise today in support of House Democrats and their efforts to protect women and their reproductive rights.

In 2020, more than 900,000 women had an abortion nationwide, exercising their fundamental human right. These are women who made one of the most intimate and personal decisions for their family and their futures.

However, with the decision to overturn Roe, the Republican-controlled Supreme Court has achieved the dark extreme goal of stripping away a woman’s right to choose. In doing so, they erased nearly five decades of progress. For the first time in America’s history, our daughters have less freedom than their mothers. This is plain and simply shameful.

To make matters worse, now MAGA Republicans are determined to take it a step further and strip women of their right to contraception. I repeat: Extreme rightwing Republicans want to strip women of their right to birth control.

House Democrats won’t stand for this. We are fighting for you. We trust you. We always have, and we always will.

Today, we will act. We will continue to fight. Tomorrow, we will pass the Right to Contraception Act to protect women’s access to birth control.

We are doing this to protect the more than 60 percent of U.S. women of reproductive age who use contraception. This bill will guarantee the right to obtain and use oral contraception, emergency contraception, and IUDs because no one—and I mean no one—should have the right to take away a woman’s right to choose their own healthcare.

While Republicans seek to control a woman’s body for their political base, Democrats remain the party that puts people over politics and protects women and their reproductive rights.

It is simple. Democrats trust women. We trust women to make their own healthcare decisions without any questions.

To everyone listening, you have my promise that I will never stop fighting for women and their reproductive rights. I trust you, and I will never stop fighting.

BIDEN’S INFLATION CATASTROPHE

The SPEAKER pro tempore (Ms. BONAMICI). The Chair recognizes the gentlewoman from North Carolina (Ms. FOXX) for 5 minutes.

Ms. FOXX. Madam Speaker, you don’t need to be an economics guru to understand: 9.1 percent. 9.1 percent. Understand: 9.1 percent.

Since the administration and the President haven’t figured this out yet, let me put this in terms that they understand: 9.1 percent.

No one is opposed to women’s health and women’s reproductive freedom.

In “The Merchant of Venice,” Shylock thought he had won a great victory when he thought he was going to get his pound of flesh. But Portia, the attorney, said to the judge: You may have your pound of flesh but not one drop of blood. I think that is a good analogy for what our colleagues are saying.

No one is opposed to women protecting their health. But those of us in the pro-life movement are concerned about whether that woman’s health decision destroys an unborn life. So, a woman’s health decisions end when the life of an unborn becomes involved.

CONGRATULATING IRENE TOVAR

The SPEAKER pro tempore. The Chair recognizes the gentleman from California (Mr. CÁRDENAS) for 5 minutes.

Mr. CÁRDENAS. Madam Speaker, I rise today to honor and congratulate a tremendous community leader, a friend of mine, and a friend of the community of Los Angeles and beyond, Irene Tovar, for being conferred an honorary doctorate from California State University at Northridge, otherwise known...
as CSUN, for her decades of public service as an advocate for education in the San Fernando Valley, throughout the State of California, and across the country.

I think of a quote from Saint Francis of Assisi: "Consider the lilies of the field, how they grow; they toil not, neither do they spin; and yet I say unto you, That even Solomon in all his glory was not arrayed like one of these.

Irene, your service is unparalleled, and this doctorate is a symbol of your sacrifice and hard work for the families of the San Fernando Valley, the great State of California, and our country. Congratulations, Irene, and I am proud to call you Dr. Irene Tovar.

HONORING THE LIFE OF RODRIGO GARCIA

Mr. CARDENAS. Madam Speaker, I rise today to honor the life of a trailblazer who made a difference across this country.

Rodrigo “Rod” Garcia, founder of the Society of Hispanic Professional Engineers, otherwise known as SHPE, was a man of deep conviction and passion. Not only did he commit to his work as an engineer, he opened a door for so many, including myself, to follow in his footsteps.

As one of the only handfull of Hispanic engineers during the 1973 tech boom, he could easily have gone on to a promising career in the sciences. But when he saw a wrong, he set out to right that wrong.

In gathering a cohort of fellow Hispanic engineers, he was determined to diversify the STEM industry across our country, and that is when SHPE was born.

While Rod Garcia was an incredible man, his legacy in SHPE is equally incredible. Now, the organization has grown into the largest Hispanic STEM association nationwide, with 13,000 members and 296 chapters across the country.

An engineer to his core, Mr. Garcia attributed the success of SHPE as such: “We were engineers. We drew up the plan. . . . To see it take off the way it has, it is really special.” And special it is.

SHPE’s impact is only growing. In the 2021-2022 academic year, SHPE awarded scholarships to over 200 students across the country, distributing over $1.3 million.

Rod has passed on, and he will be sorely missed, but his reputation and his memory will live on forever.

CONGRATULATING THE AMHERST ALL STAR DARLINGS

The SPEAKER pro tempore. The Chair recognizes the gentleman from Amherst (Mr. CLINE) for 5 minutes.

Mr. CLINE. Madam Speaker, over 6 years ago, our former colleague Carlos Curbelo and I launched the Climate Solutions Caucus to have a bipartisan effort to address climate change. We did it because where we live in south Florida, climate change is not a partisan issue.

Republican and Democratic leaders alike, Republican and Democratic business leaders and elected officials, all understand that sunny-day flooding, and sea-level rise brought by climate change are happening right now, and we need to respond to it.

So we launched action here to try to responsibly address climate change, just as so many are in South Florida and around the country. The 7 years that we have just endured are the 7 hottest years on record. In 2021, the U.S. endured over 20 weather disasters, costing a billion dollars or more. Hurricane Ian and floods, and wildfires, all of them made worst by climate change.

Last year, there were at least 688 people who died in the United States attributed to climate change: $150 billion in damage.

But where are we now? Well, our country and our world are reeling from the devastating impact of climate change. For the first time ever, temperatures in the U.K. exceeded 104 degrees; Ireland hit record highs of 104 degrees; Portugal 117. More than 1,100 people in Spain and Portugal died in this heat wave.

Wildfires are scorching Europe. More than 100 million people in the U.S. have
The future of our planet depends on us. It is time for us to act on climate change. We need the Biden administration, and we need this Congress. My colleagues, we need to be bold. It is not about comfort. It is not about staying cool. For people across the globe right now, at this moment, it is and continues to be about survival. It is time for us to act on climate change. The future of our planet depends on us.

RECOGNIZING JON DEWITTE

The SPEAKER pro tempore. The Chair recognizes the gentleman from Michigan (Mr. HUIZENGA) for 5 minutes.

Mr. HUIZENGA. Madam Speaker, I rise today to say thank you. Thank you to a chief of staff, a colleague, a confidant, and a special friend. Jon DeWitte has been my chief of staff for 11½ years. In fact, when I was elected in 2010, Jon was the first call that I made. He was my first hire, and we have been on this journey together the entire time.

Now, Jon has had a great track record here in Washington, D.C., as well. He worked for the Education and Workforce Committee. He then went on to work with former Congressman Dave Camp when I left the position of district director from my predecessor, Peter Hoekstra. Jon came and filled that role and filled that position for 8 years until I got elected, when I asked him to come back to Washington and act as my chief of staff.

Well, Jon—two redistrictings, majority, minority, government shutdown, impeachments, war, peace—we have seen just about all of it and have lived that textbook of political science. I couldn’t have done it without him, and I know he could not have done this without his family.

I want to say a special thank you, as well, to Jodi, Nathan, Katie, and Josh for the sacrifices that they made—the sacrifices that they have made—for late nights and early mornings, for travel, for all the different things that go into being an excellent chief of staff. He has been one.

Now, I know that there are great paths ahead for Jon, and great paths ahead for my district, but I do know that our friendship will not end. Team Huizenga is always Team Huizenga, and Jon is a vital part of that.

HOUSING MARKET NEEDS HELP

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from California (Mrs. Torres) for 5 minutes.

Mrs. Torres. Madam Speaker, I rise today to express concern about the building material supply change bottlenecks and elevated construction costs that continue to put a damper on the single-family housing market.

For the first time since June 2020, both single-family starts and permits fell below a 1 million annual pace. Additionally, builder confidence in the market for newly built single-family homes declined for the third straight month in July, falling 12 points to 55.

According to the National Association of Homebuilders and the Wells Fargo Housing Market Index released just this week, this marks the lowest HMI reading since May 2020 and the largest single-month drop in the history of the market index during the pandemic.

Building material prices during the pandemic have hit record highs with low stock, and prospective buyers are facing with unaffordable home prices as a result. Affordable housing is a critical need in the Inland Empire, the district that I represent, and I urge the administration to prioritize the ability and the availability and price of lumber to make more homes affordable.

DEFENDING WOMEN’S REPRODUCTIVE RIGHTS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from the Virgin Islands (Ms. Plaskett) for 5 minutes.

Ms. PLASKETT. Madam Speaker, the United States Supreme Court decision in Dobbs v. Jackson Women’s Health Organization to uphold the Mississippi Gestational Age Act is a result. Affordable housing is a critical need in the Inland Empire, the district that I represent, and I urge the administration to prioritize the ability and the availability and price of lumber to make more homes affordable.

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Pennsylvania (Ms. Wasserman-Schultz) for 5 minutes.

Ms. Wasserman-Schultz. Madam Speaker, I rise today in support of U.S. Navy Lieutenant Ridge Alkonis, a sailor currently stationed abroad in Japan. While the U.S. and Japanese naval forces have long maintained a strong bond, the relationship is deteriorating as a result of Japanese injustices against U.S. military members.

The case of U.S. Navy Lieutenant Ridge Alkonis, who is of American Samoan descent, exemplifies the disparate treatment American sailors receive in Japan.

While driving his wife and three children to get ice cream during a family outing, Lieutenant Alkonis suffered a sudden and unforeseen medical emergency which resulted in a tragic car accident causing the death of two Japanese citizens. While indeed a tragedy, this was an accident in every sense of the word.

At the scene of the accident, Lieutenant Alkonis was immediately arrested by Japanese authorities, without receiving any medical care, and imprisoned. He was systematically deprived of sleep, denied legal counsel, and pressured to sign false accusations.

The Tokyo High Court rejected the majority of evidence submitted by Lieutenant Alkonis, and last week, his appeal was dismissed.

I am deeply troubled by Japan’s mistreatment of Lieutenant Alkonis. These abuses are hurting the U.S.-Japan alliance exactly when it needs to be strengthened.

I call on President Biden and Ambassador Rahm Emanuel to bring Lieutenant Alkonis home.

IN SUPPORT OF NAVY LIEUTENANT RIDGE ALKONIS

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from American Samoa (Mrs. Radewagen) for 5 minutes.

Mrs. RADEWAGEN. Madam Speaker, I rise today in support of U.S. Navy Lieutenant Ridge Alkonis, a sailor currently stationed abroad in Japan. While the U.S. and Japanese naval forces have long maintained a strong bond, the relationship is deteriorating as a result of Japanese injustices against U.S. military members.

The case of U.S. Navy Lieutenant Ridge Alkonis, who is of American Samoan descent, exemplifies the disparate treatment American sailors receive in Japan.

While driving his wife and three children to get ice cream during a family outing, Lieutenant Alkonis suffered a sudden and unforeseen medical emergency which resulted in a tragic car accident causing the death of two Japanese citizens. While indeed a tragedy, this was an accident in every sense of the word.

At the scene of the accident, Lieutenant Alkonis was immediately arrested by Japanese authorities, without receiving any medical care, and imprisoned. He was systematically deprived of sleep, denied legal counsel, and pressured to sign false accusations.

The Tokyo High Court rejected the majority of evidence submitted by Lieutenant Alkonis, and last week, his appeal was dismissed.

I call on President Biden and Ambassador Rahm Emanuel to bring Lieutenant Alkonis home.

Elizabeth Cady Stanton, an ardent activist and leader, presented the “Declaration of Sentiments,” demanding the same rights and freedoms that the Declaration of Independence granted to men at that time. The Seneca Falls Convention in 1848 was the first platform for women to discuss their civil, social, and religious rights and challenge their inferior status. Feminist leaders and women across the country courageously voiced their collective struggles and petitioned for change.

For centuries, women have fought tenaciously for their fundamental human rights and we will not stop. On July 18, 1848, 174 years and 2 days ago, the first women’s rights convention in the United States was held in Seneca Falls, New York. The Seneca Falls Convention in 1848 was the first platform for women to discuss their civil, social, and religious rights and challenge their inferior status. Feminist leaders and women across the country courageously voiced their collective struggles and petitioned for change.

The Seneca Falls Convention was a cornerstone of the women’s suffrage movement and paved the path for women’s rights movements.
Today, women's freedoms are under attack, and the consequences will reverberate as radical Republicans continue to push their political agenda and curtail basic rights. My Democratic colleagues and I remain unwavering in our commitment to defend the legal rights of women and families to make independent decisions about their futures by safeguarding access to reproductive healthcare services.

This week, House Democrats will vote to pass H.R. 3773, the Right to Contraception Act, guaranteeing the right to obtain and use contraception as established in Griswold v. Connecticut.

The alarming, extremist act of judicial activism in Dobbs v. Jackson has created a dangerous blueprint for future attacks on our most cherished rights. As an attorney who is a strict constructionist myself, this cannot stand. In his concurring opinion overturning Roe v. Wade, Supreme Court Justice Clarence Thomas wrote that in future cases the Court should consider substantive due process precedents which legalized the right for married couples to buy and use contraception without government restrictions, same-sex marriage, and Roe itself. Calling into question the constitutional right to use contraception is dangerous for American women and families, as well as men, but also has the potential to disproportionately impact women, people of color, and historically marginalized communities who face health disparities at higher rates.

Access to contraception can affect all aspects of a woman's life, including educational attainment, employment opportunities, healthcare, and economic success. The Right to Contraception Act recognizes the social, political, and economic impacts on our country and takes steps to protect Americans' right to make their own decisions about their health and their families.

The Supreme Court's ruling in Dobbs further emphasizes the need to act now, to protect access to contraception, and women's right to make reproductive health decisions. Contraception is essential to the health and rights of individuals. Women deserve the right to make informed decisions about their health, family planning, and future. It is 2022. We should not still be fighting for rights that are essential to basic health and bodily autonomy. Pass this legislation.

NATIONAL PENNSYLVANIA DAY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Pennsylvania (Mr. THOMPSON) for 5 minutes.

Mr. THOMPSON of Pennsylvania. Madam Speaker, I rise to recognize today, July 20, as National Pennsylvania Day.

Since the inception of our Nation, Pennsylvania has played a transformative role in United States history. Pennsylvania's nickname, the Keystone State, represents the central role we played in shaping our Nation.

Pennsylvania was also the site of many important battles and military milestones, including Valley Forge in the Revolutionary War and the Battle of Gettysburg during the Civil War.

Moreover, Pennsylvania's home to a lot of firsts, including our Nation's first capital, Philadelphia; the first American flag flown by Betsy Ross; and the first commercial oil well in my district, giving birth to the modern petroleum industry.

Pennsylvania has a proud history of American craftsmanship and work ethic, from our steel mills and coal mines to our farmland and forests.

Madam Speaker, as a lifelong resident of Pennsylvania, I am encouraged each and every day by the industrious spirit of our residents as we continue to build a bright path forward for our Commonwealth and our country.

Happy Pennsylvania Day. I am proud to be from the great Keystone State.

LATE-TERM ABORTION SHOULD BE ILLegal

Mr. THOMPSON of Pennsylvania.

Madam Speaker, Democrats are advancing the Women's Health Protection Act, mand until birth act, falsely named as the Women's Health Protection Act, and the Ensuring Access to Abortion Act.

Both bills go much further than codifying Roe v. Wade and would legalize abortion for all 9 months of pregnancy across the country, while undermining the health and safety of women. In advancing this legislation that would continue the murder of innocent unborn, Speaker PELOSI has confirmed Democrats' radical agenda by saying abortion is "... core to who we are. It is about freedom." Madam Speaker, 80 percent of Americans believe that late-term abortion should be illegal.

IMPACT OF THE NATIONAL DEFENSE AUTHORIZATION ACT ON OUR MILITARY SERVICESMEMBERS

Mr. THOMPSON of Pennsylvania.

Madam Speaker, last week, in a bipartisan way, this body stood up and served those who serve in uniform, those who sacrificed for this great Nation in the United States Armed Forces.

I was proud, on Thursday, to join the majority of folks in this Chamber in passing H.R. 7900, the National Defense Authorization Act. I was proud to support this legislation, and I contributed significant legislative language, too.

The bill extends a prohibition preventing dishonorable discharge for servicemembers refusing COVID vaccines, while also extending a prohibition on COVID vaccine mandates for Department of Defense contractors.

The NDAA authorizes annual funding for the Department of Defense and defense-related programs at other Federal agencies. The NDAA authorized earned pay raises for our American troops. Included in the NDAA was my legislation from H.R. 714, the Military Housing Transparency and Accountability Act, that directs the Secretary of Defense to develop a centralized military housing feedback tool for members of the United States Armed Forces. This will allow these families to identify, rate, and compare housing options. Our military families have earned the right to safe housing conditions.

Additionally, it included provisions requiring the Department of Defense to report the dollar amount spent on foreign fuel that is used; report on the impact on low recruitment and retention, and the impact on servicemembers' mental health as a result of that; and, finally, to report the impact of inflation, which is impacting every American family today.

This report specifically is asking the question: What is the impact of inflation—which is out of control, a record high—on our military families?

ABORTION STORY

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Nevada (Mrs. LEE) for 5 minutes.

Mrs. LEE of Nevada. Madam Speaker, in the wake of the Supreme Court's destructive decision overturning Roe v. Wade, women across this country have shared their stories. From Facebook to Twitter to the halls of Congress, women have shared the details of the deeply personal and often difficult moments in which they exercised their right to choose.

Madam Speaker, I rise today to share the story of a constituent of mine named Misty.

His name was Miles. I knew something was wrong at 12 to 16 weeks. At 20 weeks, it was too late. I spent a terrible night in the ER hemorrhaging. Miles survived that incident and there was still a heartbeat. The next day was traumatic at an ultrasound. I had lost so much fluid and Miles was being smashed. They said that he wasn't getting the blood he needed to his kidneys and other places. They literally sent me home to wait for him to die. There was still a heartbeat at 20 weeks, but I was informed that Miles could not live to full term and that I would have to deliver conventionally if I wanted to keep him alive. I made it to 24 weeks and then Miles passed away at home.

The news continued to get worse, and I waited. That was the longest week of my life. I waited through fear, depression, anxiety, and immense sadness. At the end of that week, I decided, with my fetal medicine specialist, to terminate the pregnancy. It was in protest of the toughest decisions I have ever faced.

The trauma that I would have experienced by delivering a dead baby, Miles, would have been more than I could handle. Going to the doctor every other day and seeing him struggling was enough to make me realize this.

Misty closes by saying: We are not careless, immoral, or monsters.
Madam Speaker. I stand with Misty, and I stand with her right to make her decision. The trauma and pain that women like Misty face in these moments should be met with care, compassion, and the right to privacy.

But instead, my colleagues on the right have chosen rather inflict more trauma during what can be an extremely challenging moment in a woman’s life: forcing them to cross State lines to access abortion; forcing them to give birth when it threatens their health, their mental health, and their financial well-being; forcing them to defend miscarriages in front of a court of law; forcing young girls to carry a pregnancy to term that is the result of a sexual assault or rape.

We cannot become complicit in the destructiveness of these extreme policies. Behind each pro-life policy are the very real and very personal stories of women whose lives will be forever turned upside down. I thank Misty for her story, but she shouldn’t have to share it.

For 50 years, the law of the land respected individual choice and privacy. In Nevada, our law still reflects that today, but tomorrow may look different.

National Republicans stand ready to ban and restrict abortion nationwide, even in States like Nevada where the right to choose is protected by law. Just last week, on this very same House floor, they lined up in droves to talk about it.

The reality of a nationwide abortion ban is far more likely than you may think. I am not going to stand by and watch, and that is why I was so proud to vote for the Women’s Health Protection Act, and, equally, to vote in the next few days on the Right to Contraception Act.

Madam Speaker, I will continue to do everything in my power to protect your right to choose.

SOCIALIST SPENDING

The SPEAKER pro tempore. The Chair recognizes the gentleman from Tennessee (Mr. Rose) for 5 minutes.

Mr. ROSE. Madam Speaker, on many different occasions I have come to this Chamber to point out exactly how we arrived at this moment where we are experiencing record-breaking inflation. Each time, congressional Democrats’ desire to recklessly spend trillions of dollars to vote on yet another spending bill costing hundreds of billions of dollars to fund abortions.

In the face of unspeakable violence and tragedy, these men proved to be everyday heroes, sacrificing their own lives to save others.

Gun violence rips through our community, leaves trauma with families and friends of victims, the medical staff and first responders, and the entire community for a lifetime. It is a trauma and a scar too many communities in Colorado and too many communities across the country have faced.

As our country grapples with incidents of violence, chaos, and tragedy, it is the courageous acts and selfless spirit of the heroes and heroines among us that we remember.

During our darkest days, there are always everyday heroes who answer the call to save lives and help their community. They provide light and hope for the future. The same heroic acts we saw in Aurora, Colorado, 10 years ago have been reflected in other tragedies as gun violence continues in our communities, including the recent tragedies in Highland Park, Illinois; Uvalde, Texas; and Buffalo, New York.

Heroes come in many different forms. During the COVID-19 pandemic, we saw heroes in medical professionals, frontline workers and essential personnel, such as truck drivers, letter carriers, food and grocery workers, teachers, small business owners, and researchers.

That is why I am, once again, introducing a resolution, alongside my friend and colleague Congressman Jason Crow, to designate today, July 20, as National Heroes Day.

As Mr. Rogers famously said: “You will always find people who are helping.”

In the midst of our dark days, let’s focus on lifting up and recognizing the heroes and the heroes whose actions, big and small, make a difference in the lives of friends, coworkers, neighbors, and the larger community.

NATIONAL HEROES DAY

The SPEAKER pro tempore. The Chair recognizes the gentleman from Colorado (Mr. Perlmutter) for 5 minutes.

Mr. PERLMUTTER. Madam Speaker, I rise today to remember the devastating events of July 20, 2012, in Aurora, Colorado.

I represented Aurora, Colorado, on this day 10 years ago when in an Aurora theater 12 lives were taken and 70 were wounded, and an entire community was scarred and traumatized.

Today marks a very painful day for our community and my heart aches with those who lost a loved one that day and will forever carry a hole in their heart.

Yet, in this tragedy we saw incredible heroism—those who carried the wounded to safety and the first responders and medical teams whose tireless efforts saved lives.

Madam Speaker, I would like to recognize the 12 who lost their lives that night:

A.J. Boik, 18;

Jessica Ghawi, 24;

Jesse Childress, 29;

Gordon Cowden, 51, whose two teenage children were in the theater when he was killed;

Rebecca Wingo, 32; and

Alex Sullivan, who was celebrating his 27th birthday and was one week away from his first wedding anniversary.

This also includes the four men who died that night while saving others:

Jonathan Blunk, 26;

John Larimer, 27;

Matt McQuinn, 27; and

Alex Teves, 24.

In the face of unspeakable violence and tragedy, these men proved to be everyday heroes, sacrificing their own lives to save others.

God sends His best heroes into the worst of times; heroes who illumine the darkest spots of the world. On this National Heroes Day, we remember the generosity and courage these men displayed.

TELLING OUR STORY ON THE RIGHT TO CONTRACEPTION

The SPEAKER pro tempore. The Chair recognizes the gentleman from Ohio (Ms. Brown) for 5 minutes.

Ms. BROWN of Ohio. Madam Speaker, since the Supreme Court overturned Roe v. Wade last month, I have been listening to the powerful testimonies from my colleagues, family, and friends about their reproductive health journeys.

They have shared their fears and concerns for their daughters, granddaughters, and nieces now living in a post-Roe world. These are first-hand, intimate accounts detailing some of their personal and sometimes painful experiences, wanting me to know
how critical it is for Congress to make Roe the law of the land.

These moving, shared memories spoke of very private life situations, from sexual assault to personal family planning decisions. Yet, they still told me in hopes of uniting in our fight against attacks by far-right extremists, extremists who are determined to strip women of their reproductive rights and criminalize abortion care in all 50 States.

To these women, I say thank you. Thank you for your bravery, your honesty, and your courage. Your stories were not told in vain and will serve as inspiration to continue our fight to protect, defend, and restore the right to decide.

Madam Speaker, a woman’s fundamental healthcare decisions are hers alone to make and should never be mandated by politicians.

This week, I stand proudly with my fellow House Democrats to reaffirm my support, and I will vote for the Right to Contraception Act.

Reproductive healthcare should be available to everyone regardless of where they live. This week, we are another step closer to restoring critical access for all.

PRESERVING THE ALABAMA BLACK BELT

The SPEAKER pro tempore. The Chair recognizes the gentlewoman from Alabama (Ms. SEWELL) for 5 minutes.

Ms. SEWELL. Madam Speaker, I rise today to celebrate the passage of H.R. 3222, the Alabama Black Belt National Heritage Act, which passed this House by a vote of 365-57.

As a daughter of Alabama’s historic Black Belt, I am proud to be the lead sponsor of this legislation to ensure that this region’s meaningful history is preserved for generations to come. As the birthplace of the civil rights and voting rights movements, the Black Belt represents the tireless efforts of the foot soldiers to end discrimination against African Americans and the continued struggle for full racial equality in our Nation.

This new designation will not only bring about national attention to the rich history and culture of Alabama’s Black Belt, but it will also increase tourism, investment, and economic opportunity for many of the rural communities that I so proudly represent.

I thank Senator SHELBY for leading this bipartisan legislation in the Senate, and I also thank the University of West Alabama and the National Parks Conservation Association for their tireless work to promote this legislation.

Madam Speaker, I urge the Senate to pass H.R. 3222 as soon as possible.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until noon today.

Accordingly (at 10 o’clock and 48 minutes a.m.), the House stood in recess.

□ 1200

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. HIGGINS of New York) at noon.

PRAYER

The Chaplain, the Reverend Margaret Grun Kibben, offered the following prayer:

Almighty God, unto whom all hearts are open, all desires are known, and no secrets are hidden, we lay before You the concerns of our hearts for peace in this world and the desires we have that Ukraine would be liberated from the oppression they now endure.

Nothing in all of creation is concealed from Your sight. We ask, then, that You expose tyranny and reveal its true motive of power and self-promotion.

Uncover the traitors to freedom and the enemies of sovereignty and convict them of their deceit. Unmask those who scheme for their own interest at the expense of their own country and have them answer for their transgressions.

May all who fail to contribute to the common good, all those who thwart the ideals of freedom and democracy in Ukraine, be laid bare before You and may Your judgment be swift.

Call us all to account for our deeds—things done and left undone, the overt and the contrived, the noble and the malicious. And align our lives, our Nations, and our world to Your perfect will for Your creation.

In Your omnipotence be merciful to us. In Your holy name we pray. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day’s proceedings and announces to the House his approval thereof.

Pursuant to clause 1 of rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentlewoman from Michigan (Ms. TLAIB) come forward and lead the House in the Pledge of Allegiance.

Ms. TLAIB led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

IN RECOGNITION OF PHYLLIS J. EDWARDS

(Ms. TLAIB asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. TLAIB. Mr. Speaker, today, I want to celebrate the exceptional leadership and commitment to service by Phyllis J. Edwards, who I warmly refer to as Director Edwards. She has dedicated her work to protect and advocate for the underrepresented communities within Michigan’s 13th District Strong, specifically our senior citizens in Detroit.

Director Edwards was the executive director of Bridging Communities in southwest Detroit for over a decade, and prior to that, she was the social service program manager for more than 10 years within the Wayne County Department of Health and Human Services.

Her work and proactive community involvement has made an immeasurable impact on the lives of countless residents. As a longtime Detroit resident, her efforts to improve the quality of life for our seniors demonstrated her love, commitment, and compassion for community-based work.

Please join me in recognizing her many outstanding contributions to Michigan’s 13th District Strong as we wish her well on the next chapter of her life.

GOVERNMENT OVERREACH ON FARMERS

(Mr. LAMALFIA asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LAMALFIA. Mr. Speaker, with all the issues people are dealing with, the inflation, the high cost of everything, now we have the Securities and Exchange Commission’s incredulous new proposed rule requiring small, privately run family farms to produce huge volumes of climate-related information to be able to then sell their products to public companies, which is going to be nearly impossible for small farms. Inflation being driven by SEC new regs.

Farmers are facing an assault of repeated increases in regulations and rises in inputs cost. When world leaders are warning of coming food shortages, don’t make it harder for farmers to do their jobs and grow food for people to use.

Small family farms are struggling financially to keep their operations up and running. They don’t have the funds to hire a full-scale environmental compliance department to meet the SEC’s ridiculous proposed demands. Farmers are producing more food and fibers with less inputs, like water, land, and labor than ever before.
The SEC needs to think about the unintended catastrophic consequences this new rule will have on our Nation’s farmers, and in turn, on our food supply, which is already going to be short.

We need to fight together in a bipartisan effort to combat this blatant government overreach.

WOMEN’S HEALTH RIGHTS UNDER ATTACK

(Mr. HIGGINS of New York asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HIGGINS of New York. Madam Speaker, under the Affordable Care Act, contraception is covered as an essential benefit, recognizing its importance to overall healthcare. Yet, this essential health component is one of the many rights under attack by an extreme, politicized Supreme Court.

Congress must act now to protect the freedom of individuals to make their own decisions about reproductive health and family planning.

I urge my colleagues to join me in supporting the Right to Contraception Act and ensure this fundamental healthcare benefit isn’t the latest right stolen from the millions of Americans who rely on it.

END INFLATIONARY SPENDING

(Mr. ROSE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROSE. Madam Speaker, inflation is at the highest rate it has been since 1981. Meanwhile, Congressional Democrats are spending this week passing a funding bill full of liberal initiatives that will fan the flames of the already red-hot inflation Tennesseans are facing due to Democrats’ reckless spending.

When will enough be enough?

Madam Speaker, Democrats’ socialist spending spree includes an overall 14 percent increase in domestic funding, a 20 percent increase to the Environmental Protection Agency, and a 10 percent increase to the FDA, the same department that failed to quickly address the baby formula shortage when we all knew it was coming.

Borrowing more money from China, throwing it out the door and forcing our grandchildren to pay it back only creates more problems, not solve them. We need to return to our commonsense roots and end this inflationary spending now.

I urge my colleagues to join me in voting “no.”

DESSERT SAGE YOUTH WELLNESS CENTER

(Mr. RUIZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. RUIZ. Madam Speaker, I rise today to celebrate the House passage of my bill, the Desert Sage Youth Wellness Center Access Improvement Act, which is now on its way to the President’s desk.

This much-needed legislation will bring a paved access road to the Desert Sage Youth Wellness Center in Hemet.

The Desert Sage Youth Wellness Center is the only operational Indian Health Service youth treatment center in the entire State. It is the only place in California where Native youth can receive culturally relevant mental health care and substance use disorder treatment.

Yet, to get to the center, patients and staff have to traverse a dirt road that often cracks in the heat and washes out in the rain and hinders deliveries and services.

As a physician, I know how crucial culturally based care is to the health and well-being of our communities. That is why I advocated for the construction of Sage since day one, and why I secured funding for its completion in 2016, and why now, I am working to deliver safe, reliable access to this facility.

Madam Speaker, I urge President Biden to sign this into law immediately to help pave a road worthy of the dignity of the people at Desert Sage Youth Wellness Center.

WORLD TRADE CENTER HEALTH PROGRAM

(Ms. MALLIOTAKIS asked and was given permission to address the House for 1 minute.)

Ms. MALLIOTAKIS. Madam Speaker, I rise today to bring attention to the fact that the World Trade Center Health Program is facing a looming deficit of $3 billion. In a few weeks we are going to be commemorating the 21-year anniversary of 9/11, the horrific terrorist attacks, where we told firefighters, police officers, families who lost loved ones, and those who today are battling cancers and illnesses, that we would never forget, and that we would stand by them and give them what they needed on their journey in this great country.

They gave so selflessly. They put their lives on the line, and so many lost their life on that dreadful day. But to this day, we still have heroes who are battling these illnesses, and we should not be leaving this session, we should not be leaving next week without passing this incredibly important bill, H.R. 4965, the 9/11 Responder and Survivor Health Funding Correction Act.

This bill has bipartisan support. I am proud to be a prime sponsor of this bill, but we must call on the Speaker of the House to bring it to the floor before we leave next week. We owe it to those who put their life on the line for our city and our great country.

TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2023

The SPEAKER pro tempore (Ms. TLAIB). Pursuant to House Resolution 1232 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 8294).

Will the gentleman from Michigan (Mr. LEVIN) kindly take the chair?

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 8294) making appropriations for the Departments of Transportation, and Housing and Urban Development, and related agencies for the fiscal year ending September 30, 2023, and for other purposes, with Mr. LEVIN of Michigan (Acting Chair) in the chair.

The Clerk read the title of the bill.

The Acting CHAIR. The Acting CHAIR. The Acting CHAIR. The Acting CHAIR.

Amendments en bloc no. 1 offered by Ms. DELAURO of Connecticut (Ms. DELAURO) had been disposed of.

Amendments en bloc no. 7 offered by Ms. DELAURO of Connecticut

Ms. DELAURO. Madam Speaker, pursuant to House Resolution 1232, I offer amendments en bloc. The Acting CHAIR. The Acting CHAIR. The Acting CHAIR. The Acting CHAIR. The Acting CHAIR.

AMENDMENT NO. 104 OFFERED BY MR. CROW OF COLORADO

Page 497, line 4, after the dollar amount, insert “(increased by $6,700,000)”. Page 500, line 23, after the dollar amount, insert “(reduced by $6,700,000)”. AMENDMENT NO. 180 OFFERED BY MR. GOTTHEIMBER OF NEW JERSEY
Page 616, line 20, after the dollar amount, insert: “(reduced by $1,000,000) (increased by $1,000,000)”.

AMENDMENT NO. 181 OFFERED BY MR. LARSHEIN OF WASHINGTON
Page 822, line 20, after the dollar amount, insert: “(reduced by $10,000,000) (increased by $10,000,000)”.

AMENDMENT NO. 182 OFFERED BY MS. MANNING OF NORTH CAROLINA
Page 818, line 3, after the dollar amount, insert: “(increased by $1,000,000)”.

AMENDMENT NO. 184 OFFERED BY MR. SPANBERGER OF VIRGINIA
Page 818, line 3, after the dollar amount, insert: “(reduced by $3,000,000) (increased by $3,000,000)”.

AMENDMENT NO. 186 OFFERED BY MR. SCOTT OF GEORGIA
Page 818, line 3, after the dollar amount, insert: “(increased by $1,000,000) (reduced by $1,000,000)”.

AMENDMENT NO. 187 OFFERED BY MS. SHERRILL OF NEW JERSEY
Page 818, line 3, after the dollar amount, insert: “(increased by $10,000,000) (reduced by $10,000,000)”.

AMENDMENT NO. 188 OFFERED BY MS. SHERRILL OF NEW JERSEY
Page 818, line 3, after the dollar amount, insert: “(increased by $10,000,000) (reduced by $10,000,000)”.

AMENDMENT NO. 189 OFFERED BY MS. SPANBERGER OF VIRGINIA
Page 818, line 3, after the dollar amount, insert: “(increased by $3,000,000) (increased by $3,000,000)”.

AMENDMENT NO. 190 OFFERED BY MR. MOORE OF ARIZONA
Page 647, line 22, after the dollar amount, insert: “(reduced by $8,000,000) (increased by $8,000,000)”.

Page 653, line 18, after the dollar amount, insert: “(reduced by $8,000,000) (increased by $8,000,000)”.

AMENDMENT NO. 191 OFFERED BY MR. NADLER OF NEW YORK
Page 647, line 22, after the dollar amount, insert: “(reduced by $4,000,000) (increased by $4,000,000)”.

AMENDMENT NO. 192 OFFERED BY MR. VALLIAN OF ARIZONA
Page 712, line 21, after the dollar amount, insert: “(reduced by $1,000,000) (increased by $1,000,000)”.

Page 660, line 19, after the dollar amount, insert: “(reduced by $2,000,000)”.

Page 754, line 15, after the first dollar amount, insert: “(increased by $2,000,000)”.

AMENDMENT NO. 193 OFFERED BY MR. RASKIN OF MARYLAND
For example, for the Financial Services bill, the amendment will increase funding for entrepreneurial development programs by $6.7 million, increase funding for the Truman Foundation, and provide $5 million to help prevent fentanyl overdose deaths.

For Interior, the amendment will enhance activities for the preservation of historically Black colleges and universities and civil rights landmarks.

For military construction, the amendment will provide $1 million for grants to assist States and Tribal organizations in establishing veterans’ cemeteries and support increased access to medical care for veterans. These are bipartisan proposals that we can all support, and I urge my colleagues to support this amendment.

Mr. Chair, I reserve the balance of my time.

Mr. DIAZ-BALART. Mr. Chair, I yield 2 minutes to the gentlewoman from Virginia (Ms. SPADEBERGER). Ms. SPADEBERGER. Mr. Chair, I stand in support of my amendment to increase funding for suicide prevention coordinators at the VA, and I thank the chairwoman for her advocacy and good work on the larger bill.

Last Saturday, the new 988 national suicide prevention lifeline launched. Now veterans in crisis can reach the veterans crisis line by calling 988 and pressing 1.

This new number will allow more individuals to access help when they need it the most, and it will save lives.

Due to this transition, the VA anticipates an increase in call volume, as much as 2½ times higher than last year. We need to make sure that there are enough professionals in place at the VA to handle the uptick in caseloads—starting with suicide prevention coordinators.

Suicide prevention coordinators receive referrals from Veterans Crisis Line callers, and remain in contact with high-risk veterans through follow-up care and connecting them with resources within their communities.

The 988 number is an important step in providing mental health care to veterans in crisis. But it is our duty to ensure that there are suicide prevention coordinators in place to care for those who have borne the battle.

Mr. Chair, I urge my colleagues to join me in supporting the Americans who represent the very best of our country and ensuring the success of the new 988 National Suicide Prevention Lifeline for all those who may need it.

Ms. GRANGER. Mr. Chairman, I yield myself such time as I may consume.

The bipartisan en bloc amendment includes 29 proposals offered by my Democratic and Republican colleagues. This bipartisan en bloc amendment will make changes to the Financial Services bill, the Interior bill, and the Military Construction bill.
Mr. NADLER. Mr. Chair, I rise in strong support of Amendment 159, which would increase and decreases funding from the Office of the DOI Secretary by $4,000,000. The intent of Amendment 159 is to increase the funding of the DOI's 9/11 Memorial Act Grant Program for FY2022 from $108 million to $115 million.

Authorized by Congress with the passing of the bipartisan 9/11 Memorial Act in 2018 and signed into law in 2019, the program provides funding for the operation, security, and maintenance of a memorial commemorating the victims of the terrorist attacks on the World Trade Center, Pentagon, and United Flight 93 on September 11, 2001, and the victims of the attack on the World Trade Center on February 26, 1993. Awarded are selected for their extraordinary commitment to honoring the lives lost on 9/11, and those who risked their own lives to save others.

We have endeavored, as a Nation, to ensure that the 9/11 Memorials continue to stand as a place of reflection and remembrance for every American. Every generation should know the tragic events of that Tuesday morning and the heroism of those who rushed back to the burning Pentagon and onto the pile at Ground Zero to put out fires, search for survivors, clear debris, and rebuild for months and years. The funding provided by the 9/11 Memorial Act Grant Program is critical to ensuring that memorials—like the acre-wide reflecting pool in the footprints of the Twin Towers in New York and the solemn benches marking each life lost on the grounds of the Pentagon—continue to provide sacred and inspiring spots accessible to millions of visitors for decades to come.

I urge my colleagues to vote Yeas on Bipartisan En Bloc 7 and final passage of H.R. 8294.

The Acting CHAIR. The question is on the amendments en bloc offered by the gentlewoman from Connecticut (Ms. DELAURO).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Ms. GRANGER. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendments en bloc offered by the gentlewoman from Connecticut will be postponed.

AMENDMENT NO. 159 OFFERED BY MS. TLAIB

The Acting CHAIR. It is now in order to consider amendment No. 159 printed in House Report 117–420.

Ms. TLAIB. Mr. Chair, I have an amendment at the desk.

The Acting CHAIR. The Clerk will designate the amendment.

The text of the amendment is as follows:

At the end of division D (before the short title), insert the following:

SEC. 301. None of the funds made available by any title in this Act may be used to implement, administer, or enforce section 908(b) of the Trade Sanctions Reform and Export Enhancement Act of 2000 (22 U.S.C. 7297(b)).

The Acting CHAIR. Pursuant to House Resolution 1232, the gentlewoman from Michigan (Ms. TLAIB) and a Member opposed each will control 5 minutes.

The Chair recognizes the gentlewoman from Michigan.

Ms. TLAIB. Mr. Chair, I would thank Chairmen QUIEGLEY, MEKES, and McGOVERN and their staffs for working with me on this critical amendment and for their leadership throughout this process.

I also thank the incredible Congresswoman LEE for joining me here today to speak in support of this critical policy change, and, of course, Congressman CRAWFORD who submitted this bipartisan amendment to the FSOG Appropriations bill in 2017 and has been a great advocate on this issue over the years.

This is an amendment that is critical; and it builds on more than a decade of efforts by bipartisan Members of the House and Senate and the farm industry leaders across the country.

As Cubans face one of the most painful crises in three decades, forcing tens of thousands of Cubans to spend long hours in lines in hopes of finding food, our amendment would provide temporary relief to them as well as U.S. farm exporters by suspending enforcement for 1 year of the prohibition and extending credit to Cuban food buyers.

This amendment makes sense for two reasons. First, the Cuban people are contending with significant food shortages, as I mentioned. By allowing the Cuban import of U.S. food products on credit, we can help ease the suffering of everyday Cubans and build goodwill between our peoples. Simply put, it is the most humane thing we can do right now and the right thing to do.

Second, the amendment would also help American ag producers as well by removing trade barriers that put them at a competitive disadvantage with countries hundreds of miles away, like China and Vietnam.

For my home State of Michigan, and many others across the country, this amendment effectively opens up a new market of about 11 million people for our farmers and for their exports.

I know Michigan’s director of Agriculture and Rural Development, Gary McDowell, noted that our State’s farmers seek great opportunities for products such as dry beans, apples, dairy products, and poultry that are major staples of the Cuban diet.

This amendment would be good for our Cuban people, as well as good for the American farmers, and the right thing to do.

Mr. Chair, I urge my colleagues to please support this amendment, and I reserve the balance of my time.

Mr. DIAZ-BALART. Mr. Chair, I claim time in opposition.

The Acting CHAIR. The gentleman from Florida is recognized for 5 minutes.

Mr. DIAZ-BALART. Mr. Chair, let’s be clear, this is not the time to provide unilateral concessions to a designated state sponsor of terrorism. This amendment is simply a bailout for the anti-American terrorist regime of Cuba, a regime that brutally oppresses the Cuban people and continuously undermines U.S. national security interests. It aids adversaries such as Russia, the Maduro regime in Venezuela, and terrorist groups such as FARC and ELN, just to mention a couple.

Remember, the law allows for unlimited quantities of food and medicine as other basic necessities that are already allowed to be sent and to be sold to Cuba. What we must not do is leave the American taxpayers on the hook to subsidize the Cuban terrorist regime.

This is not the time to lift an enemy of the United States, which harbors fugitives from U.S. justice, which allows Russian spy ships to dock in its waters, that ruthlessly oppresses the Cuban people, imprisoning even children for just speaking out for freedom.

This amendment, by the way, would also ensure that American farmers are not paid because we all know that the Cuban regime does not pay back its debts. This would, again, put the American taxpayer on the hook to help the Cuban regime.

Let’s be clear, a vote against this amendment is a vote for freedom. A vote against this amendment is a vote for the American national security interests. A vote against this amendment is a vote for human rights and freedom for the Cuban people.

Mr. Chair, I reserve the balance of my time.

Ms. TLAIB. Mr. Chair, as I said, this amendment would help alleviate the suffering of the Cuban people. It also is very important to note that this is identical to a bipartisan Republican-led amendment submitted just a few years ago.

Mr. Chair, I yield 2 minutes to the gentlewoman from Connecticut (Ms. DELAURO), the chairwoman of the Appropriations Committee.

Ms. DELAURO. Mr. Chair, I rise in support of the amendment offered by Ms. TLAIB. Our Nation’s policy toward Cuba over the past six decades has proven to be ineffective and counterproductive. The Biden administration has started to peel back some of these restrictive policies in a manner that will both empower the Cuban people and safeguard U.S. national security interests, and this amendment would further these efforts.

This amendment would lift the longstanding restrictions on the private financing of agricultural exports to Cuba, which harm U.S. farmers and ranchers and their competitiveness. Cuba imports more than $2 billion in agricultural exports per year. Eliminating this longstanding prohibition would increase business for our Nation’s ranchers and farmers, and we would create jobs for hardworking American families.

Let me give you an example. In 2021, the U.S. rice exports from Vietnam were $12.6 million; Malaysia, $16 million; Thailand, $51 million; and Pakistan, $34 million. We are costing American taxpayers dollars by importing...
when we could be helping Alabama and Louisiana and be able to import rice from Cuba at a lot lower cost.

Mr. Chair, I support the reforms that allow for better relationships with Cuba, and I urge support for this amendment.

Ms. TLAIB. Mr. Chair, may I ask how much time I have remaining?

The Acting CHAIR. The gentlewoman has 1½ minutes remaining.

Ms. TLAIB. Mr. Chair, while I understand and shed some of the concerns, the reality is the embargoes aren't working and have failed to achieve any of its aims for over a half a century. I think my colleagues, all of us, at least agree that there is no more principled reason to engage than to ease the suffering of the Cuban people who are currently again suffering from huge amounts of food shortages.

I think it is critically important to understand there is trade happening now, but in cash. This would again allow credit to be able to do it in a way that allows farmers in not only Michigan but across the country who are asking us to help them do more and export and allow them to address some of the food shortages that help us in Michigan so much more.

Mr. Chair, for those reasons I urge my colleagues to please vote "yes" on this amendment, and I reserve the balance of my time.

Mr. DÍAZ-BALART. Mr. Chairman, I yield 2 minutes to the gentleman from Florida (Mr. GIMENEZ).

Mr. GIMENEZ. Mr. Chairman, pardon me if I get a little emotional, this is actually personal for me since I was actually born in Cuba.

Mr. Chair, I rise to oppose Congresswoman TLAIB's FSGG amendment to exempt current prohibitions against U.S. assistance to Cuba.

It is ironic that this amendment is being pushed on the week after we commemorated the bravery of the pro-free and the regime.

Whether we are talking about the Biden administration's announcement last month to allow private travel to Cuba or allow Americans to invest in so-called private companies within Cuba, the regime takes advantage of these lifelines to fuel their butchery, their massacres, their jailings, their nonstop violations of human rights.

Now, Congresswoman TLAIB wants to extend the pipeline of cash to the regime to directly fund the murdering, the raping, the jailing of the Cuban people. Quite frankly, anyone supporting this legislation really ought to be ashamed of themselves.

If you believe in freedom and democracy, in capitalism, in the power of economic and social opportunity, I urge you to vote against this shameful and pathetic amendment.

Ms. TLAIB. Mr. Chairman, I reserve the balance of my time.

Mr. DÍAZ-BALART. Mr. Chairman, I yield 2 minutes to the gentlewoman from Florida (Ms. WASSERMAN SCHULTZ).

Ms. WASSERMAN SCHULTZ. Mr. Chair, I thank the gentleman for yielding and for his leadership and compassion on this extremely important issue.

Mr. Chair, I must rise in opposition to the amendment. While I know she has the best of intentions, I want to be very practical about my opposition to this. The reality is the amendment will not alleviate the suffering of the Cuban people, quite the contrary. In fact, it may exacerbate the plight of a tyrannical regime who uses violence and repression to keep their grip on power.

On a day in which we just heard from the First Lady of Ukraine, who is obviously experiencing what the brunt of repression means from a brutal dictator, we certainly should not be cavorting with brutal dictatorship in the Western Hemisphere.

The dictatorship in Cuba controls all trade on the island, and, in turn, uses resources to oppress its own people. The current cash-advance requirement for the financing of agricultural exports to Cuba ensures that the regime in Cuba cannot benefit from loans or credit, and that its corrupt, military-run financial institutions are not intertwined with American financial institutions.

Please, anyone within the sound of my voice needs to understand that this amendment allows U.S. persons to invest in Cuban agricultural businesses, even if those businesses are involved in trafficking and confiscation, as defined in the LIBERTAD Act, which is law, even if the business is controlled by the Government of Cuba, the Cuban military, or any other entity. It is inexplicable to me how we could allow that.

It is also important to point out that unlimited quantities of food, medicine, and other basic necessities are already permitted into Cuba both for sale and through humanitarian donations. And as the Biden administration has done, the best way to lift up the Cuban people is to support their efforts for democratic reform and mount pressure for release of hundreds of arbitrarily detained political prisoners, including 20 children.

Mr. Chair, I urge my colleagues to vote against this amendment and support liberty all over the world.

Ms. TLAIB. I am prepared to close, Mr. Chair.

Mr. DÍAZ-BALART. Mr. Chair, I yield 2 minutes to the gentleman from Tennessee (Mr. GREEN).

Mr. GREEN. Mr. Chair, I rise in strong opposition to amendment No. 137.

Mr. GREEN. Mr. Chair, I rise in strong opposition to amendment No. 137.

Mr. Chair, for peacefully protesting like we are so often told to do, for standing with the20 children.

And as the Biden administration has done, the best way to lift up the Cuban people is to support their efforts for democratic reform and mount pressure for release of hundreds of arbitrarily detained political prisoners, including 20 children.

Mr. Chair, I urge my colleagues to vote against this amendment and support liberty all over the world.

Unlimited quantities of food and medicine are already permitted in Cuba. If this egregious amendment were to pass, it would allow the financing of agricultural exports to the island. The Cuban regime controls 100 percent—a single company controls all agricultural imports. It is owned by the military. It is controlled by the enforcers of the Communist regime.

Tens of thousands of Cubans tried to protest just 1 year ago, and thousands of them are in prison. They are impossibly suffering under this Communist regime.

Ms. TLAIB. Mr. Chair, this is only about food. The Members in opposition are claiming to stand with the people in Cuba, but this is our opportunity to support the Cuban people and help them right now. When we take this opportunity to vote "yes," we show that the U.S. isn't the enemy of the Cuban people during their time of need. At the same time, we are helping our local farmers right here. Vote "yes."

Ms. GRANGER. Mr. Chair, I move to strike the last word.

The Acting CHAIR. The gentlewoman from Texas is recognized for 5 minutes.

Ms. GRANGER. Mr. Chair, I yield to the gentlewoman from New York (Ms. MALLIOTAKIS).

Ms. MALLIOTAKIS. Mr. Chair, I understand the plight of the Cuban people. I would say, more than most in this Chamber simply because I still have family who resides there. It is true that these people are starving, and they are struggling, but the reality is that it is because of their own government.

Whatever you do, Mr. Chair, any business that you conduct with Cuba will go to the regime. It never gets to the actual people. We know this because that is the way they have acted in the course of history, doing business with every other country in the world and then taking it all for themselves while the people suffer.

The people who want the Fight for $15 on the other side of the aisle know that the people of Cuba make $15 per day, that they are being treated inhumanly, and that young children are put in jail.

If you want to help the Cuban people, Mr. Chair, sit down with them and ask them about their quest for freedom. Side with them when they say they want to be liberated. They want what we have in the United States.

Stop appeasing the regime; stop empowering the regime; and stand on the side of freedom.

Let's try to change this form of government for the better so those people can have true human rights and freedoms that they deserve and that they are not put in political prisons simply for peacefully protesting like we are so privileged to do here in the United States.

Ms. GRANGER. Mr. Chair, I yield to the gentleman from Tennessee (Mr. GREEN).

Mr. GREEN. Mr. Chair, I yield to the gentleman from Tennessee (Mr. GREEN).

Mr. Chair, side with them in their quest for freedom.

They are a puppet of terrorism and a close ally of Putin's Russia, the Maduro regime in Venezuela, the terrorist state of Iran, and...
terrorist groups such as FARC and ELN. They are currently participating in a military exercise in Venezuela led by the Russians.

Again, just 1 year ago, thousands of Cubans protested in the streets in every province of Cuba demanding libertad—freedom. Hundreds of them remain in prison, including children, as I said, for daring to speak freely. Yet, today, Congress is debating whether to provide financing to their captors.

A vote against this amendment is a pro-freedom, pro-America, and pro-human rights vote, and I urge my colleagues to vote “no” on this amendment.

Ms. GRANGER. Mr. Chair, I yield back the balance of my time.

Ms. LEE of California. Mr. Chair, I rise in support of this amendment to permit American farmers to help alleviate hunger in Cuba. As one of the co-chairs of the Bipartisan Cuba Working Group, I thank Congresswoman TLAIB for offering it, and I thank the Speaker and my working group co-chair, Chairman Jim McGovern, for making it in order.

After more than six decades, the U.S. embargo on Cuba has accomplished nothing except to cause suffering among the Cuban people. This policy is a complete failure. And yet it continues, a policy that divides families and hurts working people in Cuba.

This amendment would permit American farmers to help alleviate the current hunger crisis in Cuba that is made worse by COVID and our embargo. In one fell swoop, we could show that America puts humanitarian values first, and head off competition from countries like China who seek to make inroads in our hemisphere.

This amendment is good for American farmers, good for the Cuban people, and good for healing Cuban-American families divided by misguided U.S. policy. I urge my colleagues to vote yes.

The Acting CHAIR. The question is on the amendment offered by the gentlewoman from Michigan (Ms. TLAIB).

The question was taken; and the Acting Chair announced that the ayes appeared to have it.

Mr. DIAZ-BALART. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendment offered by the gentlewoman from Michigan will be postponed.

AMENDMENTS EN BLOC NO. 8 OFFERED BY MS. DELAURO OF CONNECTICUT

Ms. DELAURO. Mr. Chair, pursuant to House Resolution 1232, I offer amendments en bloc.

The Acting CHAIR. The Clerk will designate the amendments en bloc.

Amendments en bloc No. 8 consisting of amendment Nos. 183 and 184 printed in part A of House Report 117–120, offered by Ms. DELAURO of Connecticut: AMENDMENT NO. 183 OFFERED BY MR. MCGOVERN OF MASSACHUSETTS

Page 818, line 3, after the dollar amount, insert “(increased by $5,000,000)”.

Page 830, line 19, after the dollar amount, insert “(reduced by $5,000,000)”.

AMENDMENT NO. 184 OFFERED BY MR. MCGOVERN OF MASSACHUSETTS

Page 861, strike lines 17 through page 862, line 7.

The Acting CHAIR. Pursuant to House Resolution 1232, the gentleman from Connecticut (Ms. DELAURO) and the gentleman from Florida (Mr. DIAZ-BALART) each will control 10 minutes.

The Acting CHAIR recognizes the gentlewoman from Connecticut, Ms. DELAURO.

Mr. Chair, I yield to the gentleman from Massachusetts (Mr. MCGOVERN), who is the chair of the Rules Committee.

Mr. MCGOVERN. Mr. Chair, I thank Chairwoman DELAURO for yielding to me.

Mr. Chair, I rise in strong support of this bipartisan en bloc, which would eliminate funding for the VA Asset and Infrastructure Review, or AIR, Commission, and transfer the $5 million to the Healthcare for Homeless Veterans Program.

Let me be clear. The recommendations advanced so far as part of the VA’s asset and infrastructure review process will lead to the closure or downsizing of nearly one-third of this country’s VA medical facilities and community-based outpatient clinics. I believe that is an unacceptable and, frankly, rotten way to treat veterans, who have put their lives on the line for this country.

This entire process is a backdoor way to cut services for veterans, and I strongly urge my colleagues to support our veterans and vote “yes” on this amendment. What this amendment would do is support a wide range of veterans advocacy organizations from across the political spectrum.

This bipartisan amendment eliminates funding for a commission that would make it harder for veterans across America to get the care they deserve.

The decision to recommend shutting down these VA healthcare facilities was based on totally flawed and years-old information. There are huge, unacceptable, and inexcusable gaps in the data that was used to determine which facilities to shut down. The VA did not consider cases where hundreds of millions of dollars in new investments were made in facilities that were recommended for closure. It makes absolutely no sense.

Let me give you an example. One of the facilities that would be closed is the Leeds VA Medical Center in Massachusetts. The bottom of some of these problems is that Congress needs to pass this amendment.

Facilities from their support systems. So, this Appropriations Committee will have to decide whether to invest in the new facilities or the consolidation of facilities.

This process so far is a complete and total slap in the face to these veterans, and we should not spend one penny more on a commission that is going to be used to advance these awful cuts to veterans’ services.

If this moves forward, closures and consolidation of VA facilities are mandatory, but recommendations to build new facilities are subject to future appropriations and are not guaranteed. So, this Appropriations Committee will have to decide whether to invest in the new facilities or the consolidation of facilities.

What is groups like the Disabled American Veterans, Paralyzed Veterans of America, and Veterans of Foreign Wars all support shutting down this commission right now, which is what this amendment would do.

Everyone knows that this process and the commission are broken. Even VA Secretary Denonchon acknowledged it to Congress, telling the House Veterans’ Affairs Committee that the data is not up to speed in light of the pandemic. I am also grateful that the chairman of the Veterans’ Affairs Committee here in the House, Chairman TAKANO, is supporting my amendment.

I want to be clear that Secretary Denonchon has done a great job on advocating for our veterans, and he is working with my team and me to get this Appropriations Committee right.

But this process started because of a bill that Congress passed even before he became Secretary. I have spoken to him, and I know that he, too, does not want to make it harder for veterans to get care. The solution is that Congress needs to pass this amendment.

Even our nonpartisan congressional watchdog, the GAO, recently put out a report on this called “VA Health Care: Incomplete Information Hinders Usefulness of Market Assessments for VA Facility Realignment.”

The Acting CHAIR. The time of the gentleman has expired.
Ms. DeLAURO. Mr. Chair, I yield the gentleman from Massachusetts an additional 2 minutes.

Mr. MCGOVERN. Mr. Chair, I include the executive summary in the RECORD.

[From the United States Government Accountability Office, Feb. 2022]

INCOMPLETE INFORMATION HINDERS USEFULNESS OF MARKET ASSESSMENTS FOR VA FACILITY REALIGNMENT

The Department of Veterans Affairs (VA) conducted assessments of its capacity within 96 markets to deliver health care to veterans through community care. When the Department cannot provide care, it referred veterans to non-VA providers. VA leaders have made explicit commitments to modernize and realign VA facilities that are designed to modernize and realign VA health facilities so we can best meet the needs of our Nation’s veterans.

The reality is that the VA has different infrastructure needs today than it did decades ago. Not only are most VA facilities over 60 years old, but the veteran population has also shifted geographically over time.

The draft market assessments VA has developed and will continue to fine-tune are essential to ensure that VA’s facility footprint meets veterans’ needs where they are physically located today, not where most veterans were over 60 years ago. We can’t ignore these changes and also effectively meet the current needs of our veterans.

We cannot just cancel the Commission and pretend that it didn’t exist or need to be addressed. We all care about veterans and, since we do, we should be focused together on making sure they have state-of-the-art facilities that are designed to modern standards and are best-positioned to serve the Department.

The point of VA’s market assessments is to identify the current, true needs of our veterans in each market and, concurrent with those assessments, the AIR Commission will then review these recommendations, hold public hearings, and prepare and issue their own recommendations to the President.

GAO identified gaps in the data VA compiled and certified for the market assessments. These were relevant to determining both the supply of and demand for non-VA care. VA officials told GAO that they determined supply and demand based on the most recently available data at the time—December 31, 2018 to November 2020. In addition, while VA officials told GAO the end-of-assessment analyses included updated data on community care, these data did not address the gaps GAO identified. Without such information, VA lacks a full understanding of the extent to which community care is able to supplement VA facilities to meet veterans’ current and future demand.

GAO also found that VA’s approach to the market assessments did not include steps to collect the quality of VA data compiled from numerous VA data sources or other steps to understand any relevant data limitations. Instead, VA officials leading the market assessments said they relied on VA offices responsible for the databases to ensure the data quality. As a result, VA is unable to communicate to external stakeholders on the quality of VA data used in market assessments, including any limitations on the data and the resulting proposals for realignment.

Mr. MCGOVERN. Mr. Chair, moving forward with funding this fundamentally broken process would be an inexcusable disservice to our veterans and would jeopardize access to the high-quality, specialized care that they have earned.

This commission is being dismantled as we speak because the recommendations to be made to it were so catastrophically bad. Last month, Senate Veterans’ Affairs Committee Chairman Jon Tester led a bipartisan group of 12 Senators to announce that the Senate Veterans’ Affairs Committee would not even confirm any more nominees to the commission, effectively ending this process once and for all. Last week, we had an amendment to the NDAA pass to shut this down.

Why are we giving $5 million to a commission that may very well never exist and which is actively seeking to undermine care for our veterans and their families?

Mr. Chair, we all believe in upgrading and updating our VA system, but let’s use accurate information. There is no way that anybody here can tell me that the recommendations that are being put forward are based on accurate and updated information. We are talking about our veterans, who are now going through needless anxiety because of all these threats of closures.

Mr. Chair, we need to do better, and I urge my colleagues to vote “yes” on this en bloc.

Ms. GRANGER. Mr. Chair, I yield 2 minutes to the gentleman from Georgia (Mr. CARTER).

Mr. CARTER of Georgia. Mr. Chair, I thank the gentlewoman for yielding.

Mr. Chair, I rise to speak on the need to provide certainty to blueberry producers who have been affected by freezes.

We all know how difficult the job of being a farmer can be. So much of their success is completely dependent on things outside of their control. This is particularly true when it comes to foul weather and disasters. Farmers are at nature’s mercy when it comes to these events.

This past year, a number of specialty crops across the country saw significant losses caused by freezes, particularly blueberries in my home State of Georgia. The statewide freeze event this past March resulted in losses that exceed $140 million.

The last time a similar devastating freeze occurred, Congress was able to come together and provide funding for those losses.

I thank the Appropriations Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Subcommittee chair, Sanford Bishop, from Georgia, for all of his support already for this effort.

The underlying bill includes $10 million for disasters occurring in 2022 and report language expressing Congress’s concerns about the impact of extreme weather events on blueberry producers. However, that $10 million will not be enough to assist with the damages from disasters. Chairman Bishop has committed to continue working on this issue and to ensure adequate funding is available to blueberry and other producers affected by freezes in 2022.

Mr. Chair, I hope we can continue to demonstrate Congress’s commitment to not only providing relief when farmers need it but the most builds and make VA a larger issue for good so we no longer need to return to this after future freezes.

Ms. DeLAURO. Mr. Chair, I yield 5 minutes to the gentleman from Florida (Ms. Wasserman Schultz), who is the chairperson of the Military Construction, Veterans Affairs, and Related Agencies Subcommittee.

Ms. WASSERMAN SCHULTZ. Mr. Chair, I thank the gentlewoman for yielding.

With great respect for my friend from Massachusetts, I rise in strong opposition to these amendments.

I spend every day in my work as chair of the Military Construction, Veterans Affairs, and Related Agencies Subcommittee protecting and improving the lives of our Nation’s veterans. I vigorously oppose privatization, so I voted the VA MISSION Act, in which the AIR Commission appeared as part of that law, because of my concern about sending veterans who might end up remaining permanently in community care.

This en bloc contains two amendments to the MILCON-VA division that would eliminate funding for the AIR Commission at the Department of Veterans Affairs. This independent commission was established by the VA MISSION Act to develop recommendations to modernize and realign VA health facilities so we can best meet the needs of our Nation’s veterans.

The point of VA’s market assessments is to identify the current, true needs of our veterans in each market and, concurrent with those assessments, the AIR Commission will then review these recommendations, hold public hearings, and prepare and issue their own recommendations to the President.

GAO identified gaps in the data VA compiled and certified for the market assessments. These were relevant to determining both the supply of and demand for non-VA care. For example, VA lacked complete data on the extent to which its contractors maintained an adequate number of non-VA providers who could have timely access to community care. VA officials told GAO that they determined supply and demand based on the most recently available data at the time—December 31, 2018 to November 2020. In addition, while VA officials told GAO the end-of-assessment analyses included updated data on community care, these data did not address the gaps GAO identified. Without such information, VA lacks a full understanding of the extent to which community care is able to supplement VA facilities to meet veterans’ current and future demand.

GAO also found that VA’s approach to the market assessments did not include steps to collect the quality of VA data compiled from numerous VA data sources or other steps to understand any relevant data limitations. Instead, VA officials leading the market assessments said they relied on VA offices responsible for the databases to ensure the data quality. As a result, VA is unable to communicate to external stakeholders on the quality of VA data used in market assessments, including any limitations on the data and the resulting proposals for realignment.

Mr. MCGOVERN. Mr. Chair, moving forward with funding this fundamentally broken process would be an in-
The funding in this bill does not implement the recommendations. I repeat. The funding in this bill does not implement the recommendations.

We all, on both sides of the aisle, consistently talk about meeting the needs of our veterans. Making sure veterans have access to high-quality care in high-quality facilities is a priority we all share. Adjusting the landscape of our facilities to meet veterans where they live today is key to meeting the needs of our veterans.

If we want to make sure that we don’t move further toward privatized healthcare for our veterans, we need to make sure that there are VA facilities that are convenient for them, or that they are eligible by law to go into community care if there are not.

I have the utmost respect for the gentleman and my colleagues who are sponsors of this amendment, but as Chair of the Military Construction, Veterans Affairs, and Related Agencies Subcommittee, I’m responsible for the entire budget for the VA. It is our responsibility to meet the needs of veterans across the entire country.

We need to be careful about making rash decisions that have a long-term impact. Unfortunately, the amendments in this en bloc will do more harm than good. And for those reasons, I will vote “no” on this en bloc, and I urge my colleagues to do the same.

Ms. GRANGER. Mr. Chair, I reserve the balance of my time.

Ms. DeLAURO. Mr. Chair, I yield to the gentleman from Ohio (Mr. RYAN), the chairman of the Legislative Branch Subcommittee.

Mr. RYAN. Mr. Chair, I rise in support of this amendment.

I represent Ohio, and we have a number of VA clinics and facilities in rural areas across this country. One of ours is in Chillicothe, the Chillicothe VA Medical Center that this commission recommended for closure. They were saying it was not optimally located.

This is in the southern part of the State, by the Ohio River, serving all of the veterans in the southern part of Ohio. And 1,400 Ohioans are employed. The facility is over 100 years old. It serves 20,000 veterans in 17 counties.

This is insane that we think that there is a good idea; that of all the waste and abuse in the United States Government, we are going to target a rural VA facility in southern Ohio with a State that has 100 veterans.

I think this is a wise amendment. I support the McGovern amendment, and I urge my colleagues to support it as well.

Ms. GRANGER. Mr. Chair, I continue to reserve the balance of my time.

Ms. DeLAURO. Mr. Chair, I yield to the gentleman from Maine (Mr. GOLDEN).

Mr. GOLDEN. Mr. Chair, I rise in support of the amendment.

I represent the largest district east of the Mississippi. It is the second most rural district in the country, and home to more than 53,000 veterans.

The VA facilities that these veterans rely on—are these clinics in places like Houlton, Maine, Fort Kent, and Rumford—are at risk of being shut down if we don’t permanently end the Asset and Infrastructure, or AIR Commission.

Our VA hospital in Maine would be moved from Augusta. It would be downsized to an urgent care facility then moved to Portland, Maine, which is a long distance away from most of the rural communities that I represent.

Of course, Congress created this panel and tasked it with processing the recommendations given to streamline VA facilities. I think if you live in a rural State, it turns out that has largely been shorthand for closing facilities or reducing access to healthcare services.

I introduced a bipartisan bill to eliminate the AIR Commission. Just a month ago, I helped secure the language referred to earlier in the National Defense Authorization Act of that bill and, of course, I now support this amendment to defund the Commission and transfer the money to the VA’s Healthcare for Homeless Veterans Program. It is a far better use of the money.

I thank Mr. McGovern for his support of our Nation’s veterans. Ms. GRANGER, Mr. Chair, I continue to reserve the balance of my time.

Ms. DeLAURO. Mr. Chair, I yield to the gentlewoman from New Jersey (Ms. SERRILL).

Ms. SERRILL. Mr. Chair, I rise today in support of Chairman McGovern and my colleagues who are concerned about proposals to close the VA’s Healthcare for Homeless Veterans Program. It is a far better use of the money.

Like many, I recognize the original intent of the AIR Commission. The VA’s infrastructure is aging, and we need to ensure its facilities optimize care for veterans. I know that the chairman shares my determination to ensure our vets receive the best possible care.

Unfortunately, the AIR process was flawed from the beginning. In a report issued earlier this year, the GAO found that the data AIR recommendations relied on was outdated and riddled with gaps.

The moment the AIR recommendations were released, I received calls from veterans and VSOs in my district, concerned about proposals to close the CBOC in Paterson, New Jersey. Veterans in my community are already asked to travel too far and wait too long for care. Closing a central CBOC would only exacerbate this.

So while we must improve our VA facilities, the AIR’s recommendations are the wrong way to go about this. I urge my colleagues to support the amendment.

Ms. GRANGER. Mr. Chair, I yield back the balance of my time.

Ms. DeLAURO. Mr. Chair, I yield back the balance of my time.

The Acting CHAIR. The question is on the amendments en bloc offered by the gentleman from Connecticut (Ms. DeLAURO).

The question was taken, and the Acting CHAIR announced that the ayes appeared to have it.

Mr. POSEY. Mr. Chair, I demand a recorded vote.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendments en bloc offered by the gentlewoman from Connecticut will be postponed.

ANNOUNCEMENT BY THE ACTING CHAIR
The Acting CHAIR. Pursuant to clause 6 of rule XVIII, proceedings on the amendments en bloc offered by the gentleman from Connecticut (Ms. DeLAURO) on which further proceedings were postponed, in the following order:

Amendments en bloc No. 7 by Ms. DeLAURO of Connecticut.

Amendment No. 127 by Ms. TLAIR of Michigan.

Amendments en bloc No. 8 by Ms. DeLAURO of Connecticut.

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, proceedings on the amendments en bloc offered by the gentleman from Connecticut (Ms. DeLAURO) on which further proceedings were postponed and on which the ayes prevailed by voice vote.

The Clerk will redesignate the amendments en bloc.

The Clerk redesignated the amendments en bloc.

RECORDED VOTE
The Acting CHAIR. A recorded vote has been demanded. A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 355, noes 56, not voting 25, as follows: (Roll No. 379)

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, further proceedings on the amendments en bloc offered by the gentlewoman from Connecticut (Ms. DeLAURO) on which further proceedings were postponed and on which the ayes prevailed by voice vote.

The Clerk will redesignate the amendments en bloc.

The Clerk redesignated the amendments en bloc.
Messes. GOHMERT and FULCHER changed their vote from “aye” to “no.”

Mr. WEBER of Texas, Mrs. BICE of Oklahoma, Mr. McCLINTOCK, Mrs. LESKO, Messrs. KELLY of Mississippi and KUSTOFF changed their vote from “no” to “aye.”

So the en bloc amendments were agreed to.

The result of the vote was announced as above recorded.

Stated for:
Mr. CARDENAS. Mr. Chair, had I been present, I would have voted “yea” on rollcall No. 379.

Mr. LANGEVIN. Mr. Chair, had I been present, I would have voted “yea” on rollcall No. 379.

Mr. HILL. Mr. Chair, I was held up at Speaker Lobby security. Had I been present, I would have voted “yea” on rollcall No. 379.

Mr. BERGMAN. Mr. Chair, I was delayed by metal detector issues entering the floor. Had I been present, I would have voted “yea” on rollcall No. 379.

Mr. WESTERMAN. Mr. Chair, I was delayed by Speaker PELOSI’s metal detectors. Had I been present, I would have voted “yea” on rollcall No. 379.

Ms. TITUS. Mr. Chair, I was absent from the floor and missed the vote on the Bipartisan En Bloc No. 7 To H.R. 8294. Had I been present, I would have voted “yea” on rollcall No. 379, En Bloc No. 7 To H.R. 8294 on agreeing to the DeLauro amendment.

Stated against:
Mr. GAETZ. Mr. Chair, I was unable to make it to the floor in time for the first vote today for the purpose of constituent outreach. Had I been present, I would have voted “nay” on rollcall No. 379.

4 NOT VOTING—13

AMENDMENTS EN BLOC NO. 8 OFFERED BY MS. DELAURO OF CONNECTICUT

The Clerk will redesignate the amendments en bloc. The Clerk will redesignate the amendments en bloc.

RECORDED VOTE

The Acting CHAIR. A recorded vote has been demanded. The Acting CHAIR. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 238, noes 191, not voting 7, as follows:

[Roll No. 381]
The SPEAKER pro tempore. Under the rule, the previous question is ordered.

Pursuant to House Resolution 1232, the question on adoption of the further amendments will be put en gros.

The question is on adoption of the amendments.

The amendments were agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

**MOTION TO RECOMMIT**

Mr. VALEDAO. Madam Speaker, I have a motion to recommit the bill at the desk. The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Valadao of California moves to recommit the bill H.R. 8294 to the Committee on Appropriations.

The SPEAKER pro tempore. Pursuant to clause 2(b) of rule XIX, the previous question is ordered on the motion to recommit.

The question is on the motion to recommit. The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

Mr. VALEDAO. Madam Speaker, on the third time.

The question of the passage.

This is a 5-minute vote.

The yeas and nays were ordered.

Mr. VALADAO. Madam Speaker, I move to recommit the bill H.R. 8294 to the Committee on Appropriations.

The bill was ordered to be engrossed and read a third time, and was read the third time.

[Roll No. 382]
CONGRESSIONAL RECORD — HOUSE

YEAS—220

AUTHORIZING THE CLERK TO MAKE CORRECTIONS IN ENGROSSMENT OF H.R. 8294, TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2023

Mr. DELAURO. Madam Speaker, I ask unanimous consent that, in the engrossment of H.R. 8294, the Clerk be authorized to correct section numbers, punctuation, spelling, and cross-references, and to make such other technical and conforming changes as may be necessary to be effective the actions of the House.

Mr. STAUBER. Mr. Speaker, I ask unanimous consent that I may hereafter be considered as the first sponsor of H.R. 3231, a bill originally introduced by Representative Don Young of
Alaska, for the purpose of adding cosponsors and requesting reprints pursuant to clause 7 of rule XII.

The SPEAKER pro tempore (Mr. MRYAN). Is there objection to the request of the gentleman from Minnesota?

There was no objection.

INVESTING IN COMMUNITIES

(Ms. BOURDEAUX asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BOURDEAUX. Mr. Speaker, I rise in support of the minibus appropriations bill the House passed earlier today.

This legislation includes my bill to support the revitalization of vacant shopping malls like the Gwinnett Place Mall in my district. This provision would catalyze additional investment in these projects and enhance economic activity, access to housing, and mobility for local residents.

The minibus also includes six of my community project funding requests, including funding for the acquisition of African-American books and historical artifacts at the Hooper-Renwick Memorial Library, as well as projects to increase wraparound services for Latino families and youth through Ser Familia, provide transportation to low-income students through Corners Outreach, and enhance access to transit and clean drinking water for many communities in Georgia's Seventh District.

Altogether, the T-HUD bill and the minibus include important investments that will make our communities stronger.

HONORING BILL EDWARDS

(Mr. CARTER of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARTER of Georgia. Mr. Speaker, I rise today in honor of the inspiring career of Mr. Bill Edwards, who is a native resident of Savannah, Georgia.

After graduating from Groves High School, Bill went on to attend both the University of Mississippi and Armstrong Atlantic State University, completing his education with a master’s in international communications.

After serving in his high school JROTC, he furthered his interest in the Army by serving in the Army ROTC at Ole Miss and eventually joining the U.S. Army Signal Corps. He continued this career until he reached the rank of captain in a military intelligence unit in Savannah. Aside from his military career, Bill was blessed with a loving wife and seven grandchildren, whom he adores.

Once he left the service, Bill focused his energy into a successful career in radio broadcasting, eventually becoming host of what is now “AM Savannah” on News Radio. Bill’s commitment was rewarded when he was recognized by the Associated Press for sportscasting excellence and when he won the honor of Savannah’s Favorite Talk Station for 3 years in a row.

I am so grateful for Bill Edwards and his tireless commitment to improving his community. Bill is an outstanding Georgian, and I thank him for all he does for his community.

WE WON’T GO BACK

(Ms. BROWN of Ohio asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. BROWN of Ohio. Mr. Speaker, life, liberty, and the pursuit of happiness. These inalienable rights have served as a compass in guiding us as we strive to create a more perfect Union.

Yet, recently, these rights have been the target of relentless political attacks by a Supreme Court that has seemingly abandoned the promises of our Constitution and by far-right extremists with a radical agenda to dismantle decades of progress to take us back, back to a time when women were ashamed and murdered because the person they chose to love didn’t have a certain skin color or was of the same gender and back to a time when women could not access legal and safe reproductive healthcare measures.

Today, I stand in solidarity with the millions of Americans who have been angered by these disgraceful acts to say that I refuse to be taken back because we have come much too far.

FAKE HANDCUFFS WON’T SOLVE AMERICA’S PROBLEMS

(Mrs. BOEBERT asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BOEBERT. Mr. Speaker, fake handcuffs won’t close the southern border. Fake handcuffs won’t lower gas prices, curb inflation, harden the supply chain, put baby formula on our shelves, deter Russia, or fix our broken energy system. Fake handcuffs won’t fix our Constitution and by far-right extremists with a radical agenda to dismember decades of progress to take us back, back to a time when people were ashamed and murdered because the person they chose to love didn’t have certain skin color or was of the same gender and back to a time when women could not access legal and safe reproductive healthcare measures.

Today, I stand in solidarity with the millions of Americans who have been angered by these disgraceful acts to say that I refuse to be taken back because we have come much too far.

HONORING ROBERT L. BOWSER

(Mr. PAYNE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAYNE. Mr. Speaker, I rise today to honor a great mayor from my district, Robert Bowser, after his passing recently.

Mayor Bowser served as mayor of East Orange, New Jersey, from 1998 to 2014. He was the first African American to win a third and fourth term in office in the history of East Orange, and he founded the New Jersey Conference of Black Mayors and served on the board of the National Black Conference of Mayors.

But his legacy in East Orange is more than his time as mayor. He started a small engineering firm that became one of the largest minority-owned consulting firms on the East Coast. He was a board member for the local Girl Scouts organization and was active with the Lions Club and the Kiwanis Club. He even founded a local touch football league.

As we mourn his passing, we remember Mayor Bowser as a dedicated public servant, great businessman, and strong community leader.

FIND AND PROSECUTE COVID–19 ECONOMIC RELIEF FRAUD

(Mr. GOTTHEIMER asked and was given permission to address the House for 1 minute.)

Mr. GOTTHEIMER. Mr. Speaker, I thank the House Appropriations Committee for their hard work on this important piece of legislation.

I rise today in support of the passage of H.R. 8294, which contained a crucial amendment I introduced to help find and prosecute cases of fraud within COVID–19 economic relief.

My amendment provided critical investment for the Small Business Administration Office of the Inspector General to ensure that they continue to hold Economic Injury Disaster Loan and Paycheck Protection Program fraudsters accountable.

It is deeply disturbing to hear about the recent flurry of fraud convictions related to these two relief programs that provided vital resources to small businesses during the COVID–19 pandemic. These are dollars that were meant for small businesses struggling due to the pandemic, and to help their families, not to help greedy cheats looking to profit off the backs of their neighbors.

My amendment supports efforts for the SBA to identify and prosecute cases of EIDL and PPP fraud more aggressively. Applicants from businesses in my district may have been denied critical financial resources because of the actions of these crooks, and we owe it to all of our constituents to hold these bad actors accountable.

I strongly urge all my colleagues in the Senate to pass this critically important provision.
Mr. CASTEN. Mr. Speaker, the West is burning and we can’t get the water to put it out, thanks to a 1,200-year drought.

Louisiana insurance companies are failing due to rising sea levels.

Families are paying more than ever to cool their home and fill up their tank with ever more expensive fossil fuels.

And this week, we learned that a majority of the Senate thinks that is fine. They are fine with Americans paying too much for energy. They are fine with Americans keeping our economy coupled to Putin’s war machine. They are fine with stealing from consumers and stealing from our future to subsidize fossil energy producers today.

If you have a solar panel on your roof, if you have an electric vehicle in your driveway or an energy-efficient home, you are helping your planet and you are helping your wallets.

In the House, we are making that opportunity available to all Americans and, yet, the Senate has failed us. Their failure is not only a failure to do their job, it is not only a failure of leadership, the U.S. Senate is increasingly an embarrassment, and I am sick of apologizing for them.

988 CRISIS LINE

(Mr. CARTER of Louisiana asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CARTER of Louisiana. Mr. Speaker, 988. These three digits represent an important first step toward a transformed crisis care system in America.

Congress passed the legislation to formally authorize 988 as the new number for suicide and mental health crises. This 24/7 hotline and text line is available to people with mental health-related distress, including thoughts of suicide, mental health crisis, or substance use crisis.

Additionally, family and friends can use this service to support loved ones who are struggling.

By calling or texting 988, people will immediately be connected with trained crisis counselors who will do everything they can to help.

Mental health care is healthcare, and the enactment of 988 is a long overdue exam of government finally prioritizing mental health and putting crisis care in reach for more Americans. But there is much more to do.

I will continue to work in Congress and in the community to help fight the stigma and increase mental health support for all.

DONALD TRUMP LOST THE 2020 PRESIDENTIAL ELECTION

(Mr. LIEU asked and was given permission to address the House for 1 minute.)

Mr. LIEU. Mr. Speaker, Donald Trump lost the 2020 Presidential Election by over 7 million votes. Trump lost Arizona by over 10,000 votes. Trump lost Georgia by over 11,000 votes. Trump lost Wisconsin by over 20,000 votes. Trump lost Nevada by over 30,000 votes. Trump lost Pennsylvania by over 80,000 votes. Trump lost Michigan by over 150,000 votes.

SOCIAL SECURITY

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 4, 2021, the gentleman from Connecticut (Mr. LARSON) is recognized for 60 minutes as the designee of the majority leader.

Mr. LARSON of Connecticut. Mr. Speaker, I rise today to address the body to talk about Social Security.

I am pleased to be joined by so many of my colleagues from across the country who understand what Martin Luther King called the fierce urgency of now, and why the United States Congress has to act.

It has been more than 51 years since the United States Congress has enhanced the benefits of Social Security. Richard Nixon was President, and a gallon of milk cost 72 cents.

Much has changed in 51 years, and now, I am proud to announce today that the Ways and Means Committee will be marking up Social Security 2100: A Sacred Trust, next Wednesday and, in doing so, for the first time in 51 years Congress will be moving forward to enhance benefits for those who need it the most.

Why do I say that?

Everywhere in America knows that this pandemic, this global pandemic that we are in, has caused unbelievable harm across the globe and here in this country.

But who has it the worst?

Of the close to 1 million people who have perished in the United States, over 756,000 of them are over the age of 65.

And who is the group that has been hurt the most by the ensuing inflation that comes from a global pandemic and a war in Ukraine?

It is people on a fixed income. It is the more than 65 million Americans that are on Social Security. I commend President Biden for taking the leadership in this area; who campaigned across the country, assuring Americans that Social Security was a sacred trust; which, indeed, it is because it has never missed a payment.

We used to go back to 1935 and talk about the Great Depression. We only have to go back as far as 2008 and 2009 because people understand during the Great Recession, when they saw their 401(k) become a 101(k), that Social Security never missed a payment, not a pension payment, not a spousal payment, not a dependent payment, not a disability payment.

It is America’s number one insurance program. And all Americans know this, and it is easily verified, weekly or monthly, when they look at their paycheck and it says FICA, Federal Insurance Contribution.

Whose?

Their.

It is an earned benefit that they have paid into throughout their lives.

And yet, Congress has not acted in 51 years, until now. Under the leadership of President Biden, Speaker PELOSI, and Chairman RICHARD NEAL, we are moving forward with legislation that will provide much-needed relief to people struggling in this pandemic and dealing with inflation.

I am pleased that I am joined today by so many of my colleagues who have told their stories over and over again about the citizens that they are interacting with, and what an enormous burden this pandemic and inflation has caused for them, and now, finally, for Congress to act.

And how so?

Improving benefits across the board by more than 2 percent for everyone; making sure that nobody who worked all their lives and paid into a system can retire into poverty; making sure that we have a COLA that actually reflects the cost that people incur; making sure that we repeal WEP and GPO, so that teachers and firefighters—something that Mr. PASCRELL has championed his whole time here in Congress—understand that relief is on its way because Democrats care deeply about this.

We are faced, as well, with an alternative from the other side. And here is the simple difference. Republicans have proposed to end Social Security. Republicans have proposed to cut Social Security across the board by more than 21 percent in 20 different separate proposals in their Republican Study Plan. They have also called, in committee, in the eight hearings that we have had on Social Security, to still privatize Social Security.

Democrats stand, not just to protect Social Security, but to expand Social Security for those that need it the most. And those assembled here today understand how vitally important it is.

Mr. Speaker, I yield to the gentlewoman from Ohio (Ms. KAPTUR), the “deaness” of the House of Representatives, and someone who intuitively, women need this benefit the most. And in this country more than 3 million Americans receive below poverty-level checks from Social Security, and the vast majority of them are women.

Ms. KAPTUR. Mr. Speaker, I thank chairman LARSON for his tireless leadership and work to safeguard Social Security for the benefit of this generation of retirees and those that are to come.

He has worked hard for decades to try to bring this bill to the floor.

I thank Speaker PELOSI, Chairman RICHARD NEAL, and Congressman JOHN LARSON, chair of the subcommittee, for...
giving us the opportunity to bring to the American people what they want, and that is a strengthened retirement system under Social Security.

For nearly a century, America has made a sacred promise: Those who work and die throughout their lives will benefit by a retirement from the fruits of their labor. It is an earned benefit for pension. It is an insurance program that they pay into, as the gentleman has said.

It is also a survivorship benefit for workers who die who have young children. It is a disability program for those who are harmed on the job.

Social Security is an earned benefit. Yeah, it is a promise, but people earn it. It assures a safe and secure retirement for tens of millions upon millions of Americans during their golden years, to those who become disabled, and, for their family, their children, in fact, if something unfortunate happens.

But without the action of Chairman Larson, the Social Security promise is deeply at risk. Democrats want to strengthen Social Security. Republicans want to end it and cripple it.

With this legislation, soon to be moving through the House Ways and Means Committee, one of the most important bills that will ever come before this Chamber, Democrats will push for a vote on the floor as soon as possible.

I hear from thousands of northern Ohioans and people across our great State who want to see a responsible solution to protect and improve Social Security.

The wealthy must join with the vast majority of Americans in paying their fair share of social insurance at a percentage that equals what other people pay to secure Social Security.

By making that happen, the Social Security 2100 Act will increase benefits for current and new beneficiaries. It will protect retirees against inflation, which the gentleman has mentioned. It will continue to serve the disabled and the young children of workers who die at a far too young age, and it will repeal the windfall elimination provision that we have been trying to fix for how many decades? I think at least four.

The Social Security 2100 Act is one of the most important bills Congress will ever vote on. What a privilege it will be to be able to cast a “yes” vote.

America made a promise to workers and to retirees and families, and Democrats are committed to making good on that promise. This is a Democratic program, and we are going to save it as Democrats and improve it.

Thank you, Chairman Larson.

Mr. Larson of Connecticut. I thank Ms. Kaptur and greatly appreciate the gentleman from Ohio’s comments.

If you recall, Mr. Chairman, Pennsylvania (Mr. Cartwright), who also understands and has worked tirelessly as an original cosponsor of this bill to make sure that several of the benefits, more than 14 enhancements to this bill, are now going to be enjoyed by the people of Pennsylvania and all across this Nation.

Mr. Cartwright. I thank Chairman Larson for yielding me the time, and it is an honor and a privilege for me to speak out in favor of this wonderful bill, Social Security 2100.

Social Security, something that has been a crucible of government for close to a hundred years now; Social Security that has kept seniors out of poverty.

It used to be that in this country, seniors died in poverty, died of starvation. That is something that we stand in America. Don’t think it couldn’t happen again. But under the Social Security Administration, it doesn’t happen.

Seniors who work their whole lives and pay into this insurance program reap the benefit of doing so and have money coming to them. It is a lot, but it is keeping people alive and out of poverty, and out of poverty through some of the most extreme downturns in our economy.

It is something that protected seniors from starving to death during terrible moments of economic stress and distress in this country.

Social Security is something that all of us Americans ought to be proud of; that it was enacted during the Roosevelt administration; that has been protected and defended for generation after generation; and that it has succeeded in keeping Americans out of poverty in the most dire circumstances.

It is a legacy that the Democratic party are very, very proud of, and all of us band together at a moment’s notice to protect it when it is threatened by those who think ill of it.

Those instances have not been few or far between. There was the time in the early 2000s when there was this push to privatize Social Security. Instead of paying into the system and having it protected, no. The idea was just give the money to the people so they could invest it in the stock market. Let’s throw the money in the stock market.

It was amazing that that was brought up around 2004, 2005, in that timeframe. What happened in 2008? The stock market cratered. If people had put their Social Security investments into the stock market, they would have been destitute.

That is what happens when you so-called privatize Social Security. The people that want to push that are the ones that want to push the stock market up for their own particular personal gain.

But what it does at the same time is that it endangers and puts at risk the lifetime of earnings that people have put into Social Security to make their own retirements safe. We can’t do that.

What else? They came up with this wonderful bill that I mentioned. The chairman talked about the COLA, the cost-of-living adjustments, that come with Social Security.

Certainly, they haven’t been anything to brag about over the years, but as meager and as minimal as they have been, something came up about 10 years ago called change CPI.

Now, that was a $50 economist’s experiment that they wanted to do; that they would raise the cost of living for seniors. That is what they wanted—lower cost-of-living increases than what you were already getting on Social Security.

We stood foursquare, shoulder to shoulder, against that ridiculous provision, and we put an end to that kind of talk.

What else? They wanted to raise the retirement age. They always talk about that. The right-wingers want to raise the retirement age. How fair is that? Raising the retirement age for people who have been lifting and carrying and climbing and working with their hands and putting their backs into their work, a whole lifetime?

You want to make them work into the 70s? Is that what we think Social Security is for? Is that what we think it is all about? Absolutely not. Democrats have stood foursquare and shoulder to shoulder against that, raising the retirement age.

It gets better. As the chairman mentioned, there are enemies to Social Security, and you know, a lot of times they don’t say it out loud.

They would like to get rid of Social Security. They would like to privatize it. They would like to cut back on the benefits. They wring their hands about how much it costs, while all the time ignoring all of the people that it saves and keeps out of poverty and away from starvation. No, no. They ignore all of that. They would like to do away with it.

You know what? Just recently, these people came out from the shadows and identified themselves. In fact, there is a Senator by the name of Rick Scott of Florida who has said out loud that he wants Federal legislation, including Social Security and Medicare, to sunset every 5 years and have to be reauthorized by a fresh vote.

Sunset. Now, that is a euphemism for end. It is a euphemism for killing. It is a euphemism for doing away with one of the most successful programs in American legislation history. Sunset Social Security means do away with it, and that is all they are talking about.

They have the temerity now to say out loud what many of them have been thinking in private: Let’s get rid of Social Security. I say, enough. Enough of this distraction from Social Security, this wonderful program.

Let’s listen to Chairman Larson. Let’s let Social Security stronger. Let’s make it better. Let’s make it more realistic for the benefits that it pays out. Let’s raise the benefits by 2 percent. Let’s make it stronger, you know. The chairman talked about the COLA, the cost-of-living adjustments, that come with Social Security.
enormously successful insurance program for all Americans; people who retire, people who are disabled.

This is a program that we must honor and respect and raise up, and we can accomplish this through this wonderful bill authored by my friend, John Larson of Connecticut, Social Security 2100.

Mr. Larson of Connecticut. I thank the gentleman, but it actually is authored by 206 Members of the United States Congress, and I appreciate all the work that has been done.

The gentleman was correct. This is the number one antipoverty program for the elderly. It is also the number one antipoverty program for children. It is also the program that more veterans use for disability than any, even the VA. It is the most efficient and effective government program in terms of cost.

They operate in insurance language at what is called a 99 percent loss ratio which means that less than 1 percent administrative costs to distribute the greatest insurance program. The greatest antipoverty program for the elderly, for children, and for veterans is all done by Social Security. It is what we need to expand.

On the Committee on Ways and Means, Chairman Neal had a Racial Equity Committee that our colleagues all participated in, and one of the shining stars of that was none other than Stacey Plaskett from the Virgin Islands, who understands that if we want to focus on what John Lewis called the next great challenge for civil rights, it was to recognize how Social Security has treated women and specifically women of color and Black males.

I recognize Stacey Plaskett from the Virgin Islands.

Ms. Plaskett. I thank the gentleman for yielding time.

It is so good to be here with you, to have this discussion about Social Security, the importance of this safety net to so many Americans, individuals throughout this country, but especially those who need it most.

I am going to give you some numbers. We have 17,036 retirees; 1,331 children; spouses, widows, disabled workers. Those are the people in my district, in the U.S. Virgin Islands, who receive Social Security benefits—almost 20 percent of our population.

On average, these individuals receive $1,230 per month in benefits. That is enough to put food on the table, keep roofs dry, furnish medication.

Yet, I think that we have to do something about that. Even in light of these details, we all know that Social Security system today is inadequate. The American people know it, my constituents know it, and I suspect my colleagues across the aisle are very much aware of that.

But I am grateful for you, Congressmen Larson, Members of the Democratic party, and, in particular, my colleagues on the Ways and Means Committee who are exerting leadership, who are deciding to step out and do something about it.

We are not waiting around for the perfect. We are going to do some good. Benefits are insufficient. The Social Security trust fund will start running dry in 2035. That may be around the time that I need it, so we better get working on this. Waiting periods are unnecessarily long. It is long past time that we act to repair Social Security.

So many things in this House we just take for granted that we are going to work on, we are going to fix, whether it is roads, infrastructure, My gosh. Those are the things that oftentimes it is easy for all of us to get behind, but how do we not get behind our elders? How do we not get behind those disabled workers, widows?

My colleagues want to quote the Bible. If they are concerned with the widows, if they are concerned with those that are elders, they should be concerned with Social Security.

I am proud when I was approached by you, Mr. Larson, to act as a co-sponsor of this legislation, H.R. 5723, Social Security 2100, a sacred trust.

This legislation would increase benefits for all Social Security beneficiaries. It improves the cost-of-living adjustment, the COLA, to reflect inflation.

My colleagues across the aisle want to talk about inflation all the time, but when we try to give them measures to combat it, there is nothing they want to do. They vote “no” each and every time.

I can almost expect that when we get to committee, and we are going to mark this up as a means to deal with inflation for our elders, they are going to say “no” to it as well.

It enhances benefits for widows and widowers, repeals provisions that penalize public servants, and ensures that no one retires in poverty.

H.R. 5723 promotes fairness in our Social Security system. It provides a tax cut for middle-income beneficiaries by raising taxation thresholds, while also ensuring millionaires and billionaires pay their fair share by applying the Social Security payroll tax to income above $400,000.

Finally, this legislation makes practical improvements to Social Security services to reduce access barriers. It ends the 5-month waiting period to receive benefits, enhances access to legal assistance, and prevents unwarranted closures of SSA field offices.

By increasing benefits, promoting fairness, and improving access, Democratic and impeachment Social Security so it will not only help beneficiaries today, but will also help future beneficiaries by extending the trust fund’s lifespan.

This legislation may not solve every problem in our Social Security system, but it may not include provisions that every Member desires, but it will make a tangible, positive impact on the lives of nearly 70 million Americans.

I know that on the other side we hear things such as an 11-point plan to rescue America, and among other things the plan calls for Federal legislation to sunset after 5 years so Congress would need to reapprove it. We see them discussing 20 percent across-the-board cuts to Social Security. We say “no” to that. We support our elders, support the system, give a helping hand, fight inflation.

As President Franklin Roosevelt stated in 1935 when he signed the Social Security Act into law, “This law, as a representative and a cornerstone in a structure which is being built, but is by no means complete... It is, indeed, a benefit to all Americans...”

I urge the House to lay another cornerstone in this unfinished structure by passing H.R. 5723. Our moral character as a nation is determined not by how we treat corporations and billionaires and the powerful but, rather, how we treat the most vulnerable among us: Hardworking seniors who have earned a peaceful retirement; people with disabilities who need support; veterans who courageously defended their country, wives, and children who have lost a loved one.

They are not asking for a handout or a free ride. Rather, they have worked hard to support their families and their countries and have paid into the Social Security system. Now they are simply asking their government to maintain the promise of Social Security and extend a helping hand during hard times.

I thank my colleagues for the work that has been done to bring this to the floor. I also thank the yeoman's staff, who have done so much of the yeoman’s work in bringing information, making sure that we are doing the right thing with the numbers, that this is something that is sustainable and is going to support not just those people who are retired or disabled or beneficiaries, but there is a benefit to all Americans by us doing this in the long run.

Mr. Larson of Connecticut. Mr. Speaker, I thank the gentlewoman for her comments, and especially at the request of the gentlewoman, I refer her comments about this is the cornerstone, a key ground-laying cornerstone of the human infrastructure.
Mr. Speaker, may I ask how much time we have remaining?

The SPEAKER pro tempore. The gentleman has 32 minutes remaining.

Mr. LARSON of Connecticut. Mr. Speaker, I yield to the gentleman from New Jersey (Mr. Pascrell), the distinguished vice chair of the Subcommittee on Social Security, the leader in Congress on making sure that firefighters and police officers and teachers are taken care of across the board, especially as it relates to Social Security and WEP and GPO, to be followed by the gentlewoman from Florida (Ms. Lois Frankel).

Mr. PASCRELL. Mr. Speaker, I rise today on behalf of the more than 124,000 of our neighbors in the 9th Congressional District who rely on Social Security each and every month.

I rise also, Mr. Speaker, because 26 years ago, when I first ran for Congress against an incumbent, I was fighting for Social Security because it was an issue in that election of 1996, when you had choices.

Choices. Privatize, and that is the way to get to the goal line, and senior housing, senior development, one after the other. The first thing I heard when I walked in the door when I was campaigning in the first congressional campaign of my life was, “What are you going to do about Social Security?”

The number of 124,000 is growing in every State every single day. It is not getting smaller. We have more of an older community in the United States of America. I am proud to have been part of that community for a few years. We will leave it at that.

Social Security is one of our Nation’s greatest success stories, and after 86 years, Social Security still stands as a monument for decency, dignity, and hardworking Americans. We talk about them a lot. We talk about the middle class. It is a people’s program that is what we do, we talk a lot about it.

Yet throughout that storied history, Social Security has been under attack. Going back to 1995 and FDR, from day one it has been the subject of scurrilous attacks and lies. Those lies continue to this day. It has taken its toll. Social Security is no grab-bag giveaway, but benefits that you have worked all of their lives and paid into through their entire life. She worked 40 hours a week, a program and receive below-poverty-level checks from their government, to keep Social Security secure. It is hard to believe that Republicans actually want to stop the program in 5 years so they can reassess. I tell you, that is big trouble. It is big trouble if they do that for the millions and millions of Americans who depend on Social Security; 4.5 million, Mr. Larson who live in the State of Florida.

Our workers spend their lives working hard for these benefits, and so don’t they deserve when they retire to make sure that they have enough money to see that their bills are paid? That is why the Social Security 2100 Act is so important.

It is going to improve a needed bump to the cost of living. It is going to provided special benefit for low-wage earners, folks like waitresses and custodians, nurses’ aides, people who are important to our economy.

This is a big deal. It is a big deal, especially for the retirees who depend on Social Security to cover their everyday expenses. Just ask Alice from my hometown, who was a housekeeper her entire life. She worked 40 hours a week until she turned 65. She is earning $923 a month on Social Security. Her rent just increased to a whopping $855 a month. That is not sustainable. That is not right. That is not what America is about. No one who has worked hard their entire life should retire into poverty.

I am proud to join my colleagues, overwhelming support from Democrats for the Social Security 2100 Act. It has got the updates we need to keep this critical program working now and for the future.

Let me just say, the timing of this bill could not be more urgent.

Mr. Speaker, I rise today on behalf of the more than 10,000 baby boomers a day who become eligible for Social Security; 4.5 million, Mr. Larson, for her comments. Mr. Speaker, I yield to the gentlewoman from Florida for her comments.

Mr. Speaker, I yield now to the gentleman from New Jersey (Ms. Lois Frankel), a woman who understands the significance of Social Security, hailing from the State of Florida, which is probably the senior center capital of the world in terms of the population there of senior citizens.

Before yielding to the gentlewoman, I recognize the members of committees that have come out in support of this legislation, including the National Committee to Preserve Social Security and Medicare, Social Security Works, the NAACP, the National Organization of Women, the Latinos for a Secure Retirement, the National Education Association, the AFT, and more than 350 organizations have come and endorsed the work of Lois Frankel, who understands what seniors need not only in Florida but Nation-wide.

Ms. LOIS FRANKEL of Florida. Mr. Speaker, I thank my colleague, Mr. Larson, for spearheading this fight to keep Social Security secure.
I just want to say, I have been in Congress now 20 years, and I have known Mr. Larson for that long. He has been an absolute bulldog on this issue. I think he understands better than most the impact of this program, just as you do in your family and community, and many others. I see this as a real opportunity to get this on the radar screen. Now, we are going to have a markup next week on this, really proposing this at a time of great need.

The pandemic that we all have experienced over the last few years, and the global economic collapse that we saw in the last couple of years, I think pulled the veil back on a lot of problems that we have had in this country. We could go through the entire list, but I think one of them that is most significant is how many people in this country, how many seniors in this country, struggle to make ends meet, in the wealthiest country on God’s green Earth, the most significant, most dynamic economy.

We have a handful of people building their own space stations, going into space, and, God bless, that can only happen in America. But the reality is that the majority of people in this country are still struggling.

What we are talking about here is a group of people who did everything right, busted their rear ends their whole life—single moms taking care of a couple of kids, people working in factories, people waiting in, nurses, public servants, people who are out there every single day and have done everything right.

This is what the Social Security system is all about. I remember when my grandparents passed away. I remember going through their drawers at their house. You have to clean up everything and it is really a heartbreaking experience. I found this little black book that was my great-grandfather’s, Dominic Guerra. He came over from Italy with 17 bucks in his pocket. It was his little black book. I opened it up and on the left side are the names of the people who belonged to this group that was called the Valsinni Club. He came from a little village in Italy, Valsinni, in the southern part, in the Basilicata region. It was the Valsinni Club.

On the left-hand side were all the names of the Italians from Valsinni in Niles, Ohio. At the top of the book were the months of the year. So, it would say Dominic Guerra and all of these different people’s names in this book. It would say January, $1; February, $1; March, nothing; April, nothing; May, nothing; June, $1. It was the same for all the different names that were there.

It was a mutual aid book. It was insurance. It was just a group of people kind of putting their own insurance plan together because, one day, I am up and you are down, and the next day, I am down and you are up. That was before Social Security and before Medicare, people coming together, collectively, to help each other, which is a basic American value.

This system was put in place because that was probably happening all across the country with different ethnic groups. Franklin Roosevelt and others said, hey, we better do something about this and collectively come together. That is what this is about. This is an example of lifting everybody up, putting a few more bucks to those who need it.

I will tell you that the American value that undergirds this program is the same American value that has lit this country up since its inception. It is the idea and the value of freedom. Freedom has been the principle here in the United States.

We are talking about economic freedom here. We talk about it with the workforce. We talk about it with rebuilding the middle class. Why? So people can be free. Economic freedom—don’t have to work 50 or 60 hours a week. You have time for the things that are important. You have a few extra bucks to take your kids to the college football game or, if you are Cleveland Browns fans, go fishing, go hunting, or have a little boat. Economic freedom.

When we are talking about our seniors, we are talking about freedom, economic independence. You can live independent lives. Seniors don’t want to be a burden on their kids. They don’t want to be a burden on their grandkids.

What Mr. Larson and what the Social Security 2100 Act are saying is, how do we lift everybody up, put a few more bucks in people’s pockets who have done everything right, making sure people aren’t living in poverty, making sure they are independent, that they can take care of themselves? That is what this bill does. It asks people making over $400,000 a year to help make that happen.

I think this is a significant piece of legislation. I think this program is the backbone of rural America, where so many jobs have been lost. It is the backbone of these factory towns that have seen so much loss. You have issues around addiction, overdose, fentanyl. And grandparents raising grandkids, it couldn’t happen without Social Security.

The one significant provision in here is to say if a husband and wife are both working, if one earns a certain amount and one dies, they are going to get at least 75 percent of the total of both recipients. That is a significant step because we hear so often of a spouse dying and then, all of a sudden, there isn’t economic independence anymore, there isn’t freedom anymore, there isn’t the ability to take care of yourself.

I am here today to say this is a phenomenal thing. I think when most Americans—Democrat, Republican, and Independent—hear about this, there is going to be and continue to be significant support for these reforms.

I hope this bill gets marked up. I hope it comes to this floor for a vote. I hope the Senate agrees, and I hope we pass it and reform it. Then, we are going to lift up millions of people, millions of seniors, in this country. We have John Larson to thank for that.

Mr. Larson of Connecticut. Mr. Speaker, I thank the gentleman from Ohio for his remarks and he is going to go to the United States Senate because, in the United States Senate, Mr. Scott from Florida has proposed ending Social Security in 5 years. Ohio needs to make sure that it isn’t ending Social Security to the United States Senate who is not going to end Social Security in 5 years but is going to expand Social Security now, when we need it, when we are in the worst pandemic in the history of the country, when we are suffering through inflation. The time to act is now.

As Martin Luther King would say, it is the fierce urgency of now. It has been 51 years since Congress has done anything.

What we are talking about here is something that Ted Lieu of California understands and has been working tirelessly, as an original co-sponsor of this bill, to reach out not only to the citizens of California but all across this country to make sure that they are going to have the benefits that can sustain them. Our goal is to expand benefits, not cut them.

Mr. Speaker, I yield to the gentleman from California (Mr. Lieu).

Mr. Lieu. Mr. Speaker, I thank Chairman Larson for yielding.

Democrats are focused on putting people over politics by lowering costs, increasing American jobs, and having safe communities.

What are Republicans focused on? Ending Social Security. How do we know that? They put it in writing. They want to end Social Security in 5 years.

We need to not only end the Republicans’ ability to end Social Security; we need to expand Social Security. That is why I am so proud to be here to support John Larson’s Social Security 2100: A Sacred Trust.

In my district alone, there are nearly 120,000 Social Security recipients who receive an average, in total, of $209 million of monthly benefits. This is a vital, critical program, lifesaving for millions of Americans.

Why is it called a sacred trust? It is called a sacred trust because our government promised that if you contribute to Social Security, we will promise you and your family a secure retirement.

President Biden has called that a sacred trust. Chairman Larson’s sacred trust bill is how we need to make Social Security stronger and even better.

I think it is important to talk about how awesome this bill is. Let me talk to you about some of the provisions.

It has a benefit bump for current and new Social Security beneficiaries of 2 percent. In addition, it has protection against inflation, and it does that by improving the outdated COLA formula that currently is in Social Security.
The bill also improves Social Security benefits for widows and widowers. This bill repeals the windfall elimination provision. It ends the 5-month waiting period to receive disability benefits.

The bill also provides caregiver credits toward Social Security. It extends Social Security dependent benefits to children who live with grandparents or other relatives.

The bill also requires the Social Security agency to mail annual statements to all workers, and it improves access to legal representation for people seeking long-term disability benefits.

This is an awesome bill. This is exactly the kind of legislation that we need to move off the floor, and it is in stark contrast to what Republicans are doing.

Again, Republicans want to end Social Security in 5 years. How do we know that that doesn’t happen but that we expand Social Security, especially coming out of a pandemic where people are facing all of these challenges and obstacles. Folks on fixed incomes cannot often get additional income, and that is why the only way to do this is to increase Social Security. We do that by passing John Larson’s Social Security 2100: A Sacred Trust.

Mr. Larson of Connecticut, Mr. Speaker, I thank the gentleman from California for his comments.

I will point out that this is a bipartisan plan, probably more correctly called nonpartisan. Why? Because Independents, Democrats, and Republicans of all ages, of all backdrops and ethnic groups, support Social Security because it is an American-senior President Biden indicated, a sacred trust.

As Congressman Ryan pointed out, whether you are in a rural area or an urban area, whether you are on the coast or in the Great Plains of this country, you are impacted by Social Security. This is about your mother and father. It is about your brothers and sisters.

It is what I call the great mirror test. If you can look your constituents in the eye—and we have provided every Member of Congress with a card that says: How many of your constituents receive Social Security?

It is Congress’ responsibility. This is not something that can happen through executive order. This is not something that the Supreme Court is going to rule on. This is only something that Congress can do.

We are in the House that we have a great leader in Nancy Pelosi. It was Nancy Pelosi, back in 2005 that led the charge that was “Horatius at the bridge,” so to speak, to prevent the privatization of Social Security, and we were successful.

Thank God we were, for had that plan succeeded, 2008 and 2009 would have been far more disastrous. Yet, as we all know, in the midst of that recession, never missed a payment, not a spousal or a dependent payment, not a disability payment, and not a pension payment.

And now it is Nancy Pelosi as well. Along with President Biden and Democrats—and frankly, a number of Republicans—who know in their hearts and know because when they give that mirror test and go home and look at their family members, in the midst of this pandemic, in the midst of this inflation, the most successful and the most efficiently run governmental program that we have should be embraced by everyone to give the access and relief that our seniors need, that our disabled veterans need, that our children continue to need.

President Eisenhower and President Nixon, the last President under whom we expanded Social Security benefits, that was in 1971, and a gallon of milk cost 72 cents—what seniors have endured the most, like my mother, would turn to their children and say: Don’t worry about me. I don’t want to be a burden.

My mother—all mothers—were never a burden. They were an inspiration to us all, and there is no way to suggest that they live out their lives in the simple dignity of knowing they can’t retire into poverty. That is the promise of Social Security. It hasn’t kept pace. How could it if it hasn’t been expanded in 51 years.

Now its solvency is in question and this bill expands its solvency. And, most importantly, it expands the benefits that are so vitally needed—especially, as Mr. Pascrell pointed out—to teachers, firefighters, police officers, and municipal employees, who, through no fault of their own, have found themselves on the short end of Congress’ inaction. It is the fierce urgency of now.

When you go home and when you travel to a senior center, ask your constituents—and face them eyeball to eyeball—and say: How can I help you?

They will respond: By fixing Social Security. By giving us a COLA that actually reflects the costs that we incur, that don’t tax us while we still work because we have to make ends meet, to make sure that we are expanding benefits across the board for everyone—because it is everyone’s program—and make sure that the wealthy pay their fair share.

That is what President Biden has called for. That is why it is a sacred trust. That is why we are proud to put this before us and say we are here to expand Social Security, not end this. Please, I beg of my colleagues on the other side, join us in expanding benefits that you know need to be expanded on behalf of the citizens you represent.

Mr. Speaker, I yield back the balance of my time.

UNLEASH AMERICAN ENERGY INDEPENDENCE

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 4, 2021, the gentleman from Louisiana (Mr. Johnson) is recognized for 60 minutes as the designee of the minority leader.

Mr. JOHNSON of Louisiana. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days to revise and extend their remarks and include extraneous material on the subject of my Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection. Mr. Johnson of Louisiana, Mr. Speaker, the recent Supreme Court term has come to a close, and the Court’s decision has sent Washington Democrats into a tailspin.

Members of this body have called to abolish the Supreme Court—and by the way, some of those very same Members who called to expand the Supreme Court, so we are not really sure which one they are committed to.

Just yesterday, Members of this body were pretending to be handcuffed over their support for taxpayer-funded abortion demands until birth. Washington Democrats are making excuses for the outright harassment of the Supreme Court Justices, their families, their children, and even the assassination attempt on the life of Justice Kavanaugh.

Washington Democrats are silent on attacks against pro-life pregnancy care centers across this country. Some have even called for these centers to be shut down all across the Nation. It is appalling. It is unhinged. Why would anyone want to shut down pregnancy centers that are designed to help struggling mothers in their time of need? But that is where we are.

Why all the hysterics though? My constituents are really curious about this. Why are they so animated right now? Why do they want to tear this institution to the ground?

Well, here is the simple reason, because the Supreme Court has made some very thoughtful constitutionally based decisions in this term.

They correctly said, for example, that a football coach was exercising his First Amendment rights when he privately prayed on the 50-yard line.

The Supreme Court correctly said that citizens don’t have to hark the government for permission to exercise their fundamental rights to keep and bear arms.

The Supreme Court correctly said that if Congress wants to address climate change, then Congress has to legislate on that issue instead of just outsourcing that work to unelected bureaucrats.
Because the Supreme Court correctly said that elected Representatives of the people may again be allowed to place restrictions on the killing of innocent unborn children.

That is why they are motivated. That is why they are so unhinged. That is why the Supreme Court has not heard of the institution to the ground.

I guess we shouldn’t be surprised by all of this. We are, after all, only a couple of months removed from Senator SCHUMER’s infamous, dangerous, unhinged rant on the steps of the Supreme Court itself. He called out Justices Gorsuch and Kavanaugh by name, and he said, Hey, we are going to release the whirlwind on you.

Well, it happened. And it is clear what is happening here. Democrats are doing anything and everything they can to try to use these obvious and straightforward Supreme Court decisions to stoke fear and change the subject before the November election.

But I want to say today that I think that this election will be about three things. It is going to be primarily about soaring inflation, uninhibited illegal immigration, and the general staggering incompetence that we see by the Democrats in Washington.

The three I’s, I call it: Inflation. Immigration. Incompetence. I think that summarizes it very well.

There was a very interesting story on CNN this week that caught my eye. It was entitled “Vulnerable Democrats Sound the Alarm Over Inflation Crisis.” Well, welcome to the party. It is a little late for that.

I would humbly suggest that those vulnerable Democrats should have thought about that before they voted to pass $4.1 trillion—with a ‘‘T’’—in new partisan spending last year.

We warned them. This was so completely foreseeable. Government spending is what is causing the current inflation. It is so simple. And now that this bill is coming due, these vulnerable Democrats are hoping the American people would simply forget their vote. We don’t intend to let that happen, the stakes are too high, and the issues are too important.

I thank my colleagues for joining us today to discuss the harm that the Democrat agenda has caused to our country and our alternative, conservative vision for how to fix all this.

Mr. Speaker, I am grateful to yield to the gentleman from Pennsylvania (Mr. MEUSER), first among my many Democrat colleagues that will be joining me here in the hour, who knows a whole lot about the economy.

Mr. MEUSER. Mr. Speaker, I thank the gentleman from Louisiana, my very good friend, for offering this opportunity to speak on these important issues.

Mr. Speaker, 1 year ago this week, President Biden faced the American people and said that inflation was temporary. At that point, the Consumer Price Index, which measures inflation, of course, stood at 5.4 percent.

In the 365 days since, the price of nearly everything has increased, and the Consumer Price Index has skyrocketed at 9.1 percent.

Eggs are up 33 percent; milk is up 16 percent; chicken is up 18 percent; and worst of all, Americans are paying over 60 percent more for gas. And they were a year ago, costing American families, my constituents, and everyone throughout our country, nearly $6,000 extra a year. Now we have our Transportation Secretary telling us the truth that this pain—and I’m quoting—will lead to more purchases of electric cars.

So that was the plan. Thanks for being honest, Mr. Secretary.

Meanwhile, however, neither the administration nor the Secretary of Transportation has any understanding of where the energy comes from to charge all of these electric cars.

They are not exactly chess players, Mr. Speaker.

As my friend from Louisiana put it, inflation, incompetence—the third ‘‘I’’—Mr. JOHNISON of Louisiana. Immigration.

Mr. MEUSER. Immigration. And instead of taking any action to correct this problem, and the effect it is having on American families and small businesses, large businesses, you name it—dogs and cats, probably—the Biden administration has doubled down on the backwards policies and undertaken a massive blame-game campaign.

Not exactly a profile in courage taking place here, Mr. Speaker.

First, they branded the inflation brought on by their reckless spending the “Putin price hike.” Then, despite inflation beginning long before the Russian invasion of Ukraine, by the way, then the administration laid the blame for their policies at the feet of greedy corporations—yeah—and then local gas station owners.

Mr. Speaker, 60 percent of the gas stations throughout our country, and certainly in my district, are owned by small independent businesspeople. They are to blame for the gasoline prices that we are paying?

I would like to reiterate, when faced with the highest gas prices in history caused by atrocious energy policies, the President of the United States and many Democrat Members of this House point their fingers and blame small business owners.

The American people are not fooled by the Biden administration’s finger-pointing, though they are paying a steep price for it. Despite the administration’s best efforts to deceive the American people, we have learned that inflation was not temporary and has continued to skyrocket, largely because of the Biden House Democrats’ out-of-control spending.

Inverted demand curve. House Democrats have continued to push for billions more in government spending, which will increase inflation, it will not decrease it. Continued excessive spending will increase inflation. It is a mathematical and physical certainty.

We must correct course. Stop the reckless spending and unleash domestic American energy production, which will strengthen both our economy and national security. We must also stop overregulating and overtaxing small businesses, and enough with the blame games and these go woke and small businesses, and enough with the blame games and these go woke policies. They have failed the American people.

Mr. Speaker, the free nations of the world need a strong United States, both militarily and economically to lead. We face serious threats. Free nations worldwide know that the world is a far more peaceful and stable place with strong American leadership. The weakness shown both at our southern border and the Ukraine border, initially, have had devastating effects on humanity and on the stability of the United States, Europe, and the free world.

Only with a clear vision, realistic plan, and earnest execution will this be corrected.

Mr. JOHNISON of Louisiana. That is so well said, my friend. And it is so true that a strong and vibrant America is good not only for our people, in this country but for people all around the world. We maintain peace through strength, and if we don’t show that strength, then we are in real jeopardy.

Mr. Speaker, I am delighted to yield to the gentleman from Texas (Mr. BABIN), my good friend from right over the border.
My colleagues across the aisle avoid this question at all costs because the facts just don’t back up their fictitious answers. Let me tell you the truth.

You don’t need to like Donald Trump to accept the fact that our economy prospered under his leadership. You don’t need to be a Republican to accept the fact that our Nation flourished under free-market, small-government policies—policies that allowed Americans to thrive without Big Brother interference.

You don’t need to be in politics to accept the fact that our country has been in a perpetual state of crisis under President Joe Biden. Our economy is plummeting, our southern border is nonexistent, our military is shrinking, and our standing on the world stage is in rapid decline.

So, to answer the question of what we are transitioning into?

Well, under the left’s woke agenda, America will transform into a broke, borderless, weak, socialist Nation unable to compete internationally or defeat those who seek our very demise. It is a very frightening future, and one that we as the GOP cannot let come to fruition.

Mr. JOHNSON of Louisiana. Mr. Speaker, I thank my friend. It is a very stark reality that we face, but we are optimists. We know we can turn this around, and the American people are going to give us a chance this fall, aren’t they? I thank the gentleman for that good word and stark reminder.

Mr. Speaker, I yield to the gentleman from Virginia (Mr. GOOD).

Mr. GOOD of Virginia. Mr. Speaker, the Democrat majority is COVID crazy, it is January 6 forever, January 6 crazy, climate crazy, everything is racist, everything is seen through a transgender lens. Then there are their policies. Their policies that are wreaking harm on the American people, and that people don’t want.

They have done so much harm to the country in the last year and half as they have had the majority, along with the White House. It is hard to put your finger upon what is the worst thing that has happened to the country. Is it the rapidly rising violent crime?

The undermining of our police?

Putting criminals ahead of victims?

Putting criminals ahead of police?

And just now figuring out that if you cut police, you don’t support police, then, of course, you get more crime.

Is it what they are doing to our military, wokifying, wussifying our military with these radical policies. These diversity equity inclusion policies that think our military is a social experiment. Kicking out military members because they don’t get a vaccine. We got 100,000 troops that are at risk of being dismissed from the military when we have are at 40 percent of our recruiting goals.

Is it what we are doing at the border?

Gosh, we could go on and on about the border, once again.

Is that the worst crisis that the Democrats have created with their policies?

What this President had to do to keep a secure border was nothing. Continue the policies of the previous administration and we would have a secure border. Instead, we have allowed some 4 million—now averaging about 10,000 a day—illegal aliens crossing into our country. Over 3 million—acknowledged by border patrol—encountered and then released into the interior of the country, and then some 800,000 criminal getaways, the ones who, you know, don’t want to be taken into our custody, don’t want to be given free healthcare, don’t want to be given free education, to access to free social services, free transportation wherever they want to go, without a quarter to appear.

The ones who are evading capture because they are trafficking drugs, human, and child trafficking across our border. The ones with terrorist ties and criminal ties who will do irreparable harm in the days, weeks, and months ahead.

Then you have it with the energy policy, which is driving—along with the rapid spending—it is driving the inflation in this country. Energy policy. What did we need to do when this President took over a year and a half ago to remain energy independent for the first time in history?

Nothing. Continue the policies. But this President, during the campaign, promised to declare war on fossil fuels to end American energy essentially—oil and gas production in this country. That is a promise that he has kept in the way that he has willfully put regulatory burdens, restrictions on the energy industry.

Now he goes essentially with a big gas can, carrying it over to the Middle East, begging these other world producers—who don’t produce energy as cleanly as we do—to produce more energy to try to bail him out of his failed policies.

Meanwhile, what do we have?

His transportation secretary, who has no experience in transportation, by the way, says: Hey, the more pain that we can cause, the more benefit. The more pain we can cause with rising gas prices, the more benefit. Memo: Most Americans can’t afford a $70,000 electric vehicle.

Most Americans don’t have somebody driving them around in a big SUV so they can get out of the SUV right before the photo op and get on their bicycle and just bike the last block to work. Most Americans don’t have that option.

This administration, this Democrat majority is out of touch with the American people. They are hurting the country. These policies are being rejected. You are going to see in 11 days from today the representation of that—the demonstration of that on November 8.

Mr. JOHNSON of Louisiana. Mr. Speaker, wow, there are so many important facts there. I will tell you what, it is hard to count all the crises. I thank my friend, that was so well said, as usual.

Mr. Speaker, I yield to the gentleman from Tennessee (Mr. ROSE), faithful to me, faithful to this floor and faithful to you. Let me relay the facts to the American people.

Mr. ROSE. Mr. Speaker, I appreciate the time on the floor today to speak about these important matters.

Mr. Speaker, when Tennesseans go to the gas pump and grocery store, and they are constantly reminded of the fact that everything was much more affordable only 1 year ago.

Since President Biden has taken office and congressional Democrats have recklessly borrowed and spent trillions of dollars, the cost of living has skyrocketed at a rate not seen since 1981—when I was just a junior in high school.

Common sense will tell you, this massive amount of deficit spending has overheated the economy and created a labor shortage from folks staying home instead of working. Common sense will also tell you, that the only way to fix this issue is to turn the money spigots off here in Washington and stop this borrow and spend economic death spiral.

Unfortunately, common sense has again failed this Chamber as House Democrats passed earlier today a funding bill filled with partisan initiatives costing hundreds of billions of dollars. This socialist spending bill is what the House Democrats passed today increased some accounts by double and even triple-digit percentages in some cases.

It rewards the Food and Drug Administration, which failed to quickly address the baby formula shortage with a budget increase. It also increases the budget for the Department of Homeland Security, who instead of enforcing our laws and stopping illegal immigration, is encouraging it by attempting to repeal title 42. It even increases the budget to maintain and improve Federal buildings by 12 percent, even though many of these buildings have been mostly empty for the last 2 years.

There are a lot of bad policies in this bill, but one of the worst has to be the exclusion of the Hyde Amendment. The Hyde amendment is a bipartisan amendment that has existed for decades to prevent your taxpayer dollars from being used to help fund abortions. It completely undermines the right of all Americans to live their lives as they see fit. In no way, shape, or form should taxpayers be subsidizing abortions with taxpayer dollars.

Tennesseans are sick and tired of borrowing money from China and forcing their grandchildren to foot the bill. The State of Tennessee should serve as a role model for Members of Congress. We have been committed in Tennessee to enacting fiscally responsible policies up and down each level of government. We don’t even have a State income tax, or any State income tax, that is still subsidizing abortion taxpayer dollars.

Tennesseans are sick and tired of borrowing money from China and forcing their grandchildren to foot the bill. The State of Tennessee should serve as a role model for Members of Congress. We have been committed in Tennessee to enacting fiscally responsible policies up and down each level of government. We don’t even have a State income tax, or any State income tax, that is still subsidizing abortion taxpayer dollars.
I just can’t help but think how one-party rule in Washington has completely failed the American people. Democrats have controlled both Chambers of Congress and the executive branch for almost 2 years now and America is better off right now than it was two years ago. Unfortunately, this isn’t necessarily the fault of the one-party rule itself, but rather the reckless spending. As interest rates begin to rise, our $30 trillion—and rising—national debt will only continue to get more expensive as the interest on the debt grows right along with it, squeezing our funding for other vital programs. With interest rates now rising at a rapid clip, it is all just a ticking time bomb ready to go off.

Mr. Speaker, I strongly urge my colleagues on the other side of the aisle to listen to the American people and to the American workers back home and do what is right for the sake of our country and our children. Recognize the policy failures of the last 2 years and commit to getting time bomb ready to go off.

Mr. Speaker, I yield to the gentleman from Kansas (Mr. MANN).

Mr. MANN. Mr. Speaker, thank you for continuing to lead these issues that drive up the cost of everything in America.

Mr. Speaker, I yield to the gentlewoman from Louisiana for hosting this Special Order of Republican and conservative voices out there.

For an example of the risk of volatility—the wheat harvest just ended in Kansas, and the results were a fraction of the yield that farmers in the Wheat State hope for and bank on for normal seasons. The farm bill, which Congress will reauthorize in 2023, exists, in part, specifically for situations like this past wheat harvest. To provide emergency assistance to the people who feed, fuel, and clothe the world even when Mother Nature doesn’t cooperate.

The weather in Kansas can be extreme and unpredictable, which means that growing wheat in the Wheat State can be a difficult prospect at times. I had an intern in my office this summer named Parker Vulgamore who is a rising senior at Kansas State University where he serves as the student body president. He is also a member of the sixth generation of his family’s farm in Scott City, which lies in my district.

Vulgamore Family Farms is a wheat, corn, and sorghum operation, with wheat being a staple. This year, due to an exceptional drought and extreme conditions throughout the growing season, much of the wheat never grew past 3 inches tall.

You don’t have to farm to know that is not good. What is typically a highly anticipated 3- to 4-week wheat harvest only lasted a day and a half. The chance to reauthorize in 2023, exists, in part, specifically for situations like this past wheat harvest. To provide emergency assistance to the people who feed, fuel, and clothe the world even when Mother Nature doesn’t cooperate.

The farm bill programs like crop insurance come in. Crop insurance serves producers and consumers alike because it helps prevent producers from going out of business when times get tough. We are in those times right now.

Inflation is skyrocketing in America. President Biden is trying to impose his farm killer tax, and at the same time, he is also trying to impose his farm tax, and at the same time, he is also trying to impose his American agricultural producers are hurting not only from the skyrocketing input costs but also from the lowered morale that come with drought, thin margins, and a broken supply chain.

In 2023, Congress must reauthorize the farm bill with American farm families at the front of our minds because they are in crisis. I will be back on the floor soon to deliver another installment of my farm bill impact series and highlight more programs and titles within the bill that I believe Congress must understand and support to ensure that agriculture thrives in America.

The people who feed, fuel, and clothe us deserve our unwavering support. They also deserve a robust safety net in the farm bill and workable solutions to the inflation crisis before it is too late.

Mr. JOHNSON of Louisiana. Mr. Speaker, I thank my friend for standing up for those wheat farmers. I know they appreciate that representation. For all of those in the ag community, this is just a critical issue.

The gentleman is exactly right. The inflation crisis has real-world consequences, and that is just some of them.

Mr. Speaker, I am happy to go across the country to California again to hear, once more, from our dear, faithful, and hardworking constituents.

Mr. Speaker, I yield to the gentlewoman from California (Ms. LAMABLFA).

Mr. LAMABLFA. Mr. Speaker, I thank my colleague from Louisiana (Mr. JOHNSON) for continuing to lead these important initiatives and increasing Federal spending, with some accounts receiving double-digit and even triple-digit percent increases typically through regulatory agencies that are going to make our jobs harder to do.

We have issues. Mr. Speaker, this is just a small example right here of some of the prices of things that are going up. It is not because we have had hurricanes or things like that that have washed out crops. No, we have had a lot of droughts, but in my home State of California, some of that drought and some of the shortages of water, indeed, are because of government action.

For all of those in the ag community, the priorities that we see for spending include giving 20 percent more money to the EPA. I have had the EPA work in conjunction with the Army Corps of Engineers to stop people from farming fields in my district because they think it might have an effect on the mission of the Corps of Engineers. It is not because we have had something like that. These are fields that have already been farmed in the past and have been fallow for a period of time, and they want to put them back into production. Oh, no, you need a permit. They didn’t know they needed a permit, and so they get fined, big-time.

As Americans face this runaway inflation caused by out-of-control government spending and other regulatory issues that drive up the cost of everything, these are the solutions we get: even more government.

I put some reasonable amendments across recently to try and move things
in the right direction and not have these outlandish spending ideas take hold.

For example, in my home State of California, Mr. Speaker, you may have heard of our high-speed rail project that is supposed to build a link from San Francisco to Los Angeles. Well, it sounded like a neat idea on paper when it was proposed and finally voted on by the voters to put $9 billion of bond money toward that back in 2008 for a $33 billion project.

So, they voted for it. Actually, they delayed the election several times because they didn't want to vote in another bond in an atmosphere that might not have been perfect, so they chose 2008, and somehow, it passed 52 to 48 percent. At $9 billion, that was triggered by the voters saying build a high-speed rail; you can't subsidize it; it has to carry its own weight. The price soon, when we figured it out, 3 years later, tripled from $33 billion to $86.5 billion. The project was projected now to be about $105 billion.

I had a recent proposal saying: No more spending on this until we actually have a handle on a few important items. They are not even compensating the landowners whom the value of the land they are taking by eminent domain that is in the right-of-way. They have all this money, it is such a great idea, and they aren't getting around to even paying the people whose land they have taken in the way of it. What is that all about?

As well, they are not doing the environmental stuff properly to see that the path is going to be properly handled as far as what might be environmentally sensitive in that area.

Thirdly, they don't even have the whole route laid out. They don't know how they are going to get south of Bakersfield through the Grapevine, over the Grapevine, and around the Grapevine. They are going to build a $25 billion tunnel through there that might be subject to seismic? Who knows. But they are still pursuing it anyway.

It has received $3.5 billion of stimulus money from the Obama era of 2009 money—2009, we are talking. Then, they want to get another $2 billion from the so-called infrastructure bill that passed recently. That is $5.5 billion of Federal taxpayer money that all the 49 other States get to pay for. For this boondoggle that, so far, they can maybe lay their hands on $25 billion, the projection, for a project that is going to cost $105 billion. They are going to be searching for $80 billion more. They have already gotten five out of the Federal Government, pretty much. They want $80 billion more.

The whole premise of high-speed rail was that private investors couldn't wait to come in to be part of this project to help build this high-speed train from San Francisco. The investors are staying away until and unless you make guarantees that they will make money, and that is not even allowed in the original proposition that was barely passed by the voters.

There really is no end here on this. They will continue to pursue Federal money because they don't have it at the local level. We have to put a stop to that. That is why I offered an amendment.

This is at a time when people need lower priced fuels for their cars. That is all driven by policies that are happening here in Washington, D.C., pretty much. You can't blame it all on Ukraine and Putin. Yes, we import maybe 7 or 8 percent of our oil. We could have made that up quickly with known reserves of energy we have here, energy we can produce in this country. We don't need Russian oil. We don't need foreign oil. We can do it here. We should be doing it. But Biden is making us pay the price with this incredible transition thing he is talking about. It is just hurting the American people. Energy affordability, we are talking about, even the final bit where if you got it, then a truck brought it.

In the meantime, California, under a bill called ABS, is putting owner-operator trucks out of business because they don't have an employment. They don't belong to a union or what have you. In Washington, D.C., they want to emulate that bill called ABS under what is called the PRO Act and have it cost everybody in the whole country.

The ideas coming out of here are not helping the American people. It is very tone-deaf here in Washington, D.C., and in the White House of what the American people are struggling with, with inflation and more profligate spending coming out of this place.

As I mentioned, the Army Corps of Engineers has been busy as a tool of the EPA, working on something called the waters of the United States. They want to charge every drop of water that hits the ground in the country. Even if it hits your roof, Mr. Speaker, and runs down your gutter, there are some jurisdictions that want to control that. It is pretty ominous, especially when you look at my colleague before me who spoke about the wheat situation in Kansas, as well as they are having difficulty with their wheat crop down in Texas. I have wheat growers up in the northeast and down in the Klamath Basin that if they could get just enough water, they could get a wheat crop. But they are taking the water away and flushing it down the Klamath, when they take it away from Shasta Dam and run it out the ocean, that means productivity prices go up. Mr. Speaker. This all affects the economics of American families because of regulations and profligate spending here in Washington, D.C.

As we look at the world food situation, as my colleague from Kansas has talked about, we are not getting the wheat crop out of the Midwest. There is not enough to run a combine. As he mentioned, we can't even run a combine up in Klamath Basin.

If they don't get the water for the wheat, where are they going to run a combine to help us? Ukraine? They are dodging bombs right now. Russia has 27 million tons of wheat tied up that they are not letting out of the ports in Ukraine.

Where are we supposed to get the food? Hungary is cutting off their exports of wheat. India is cutting off their exports of wheat. We can't grow it in this country. Where in hell are people supposed to get food? No one is going to come to help us.

America is always the one helping everyone else. We need water for ag. We need the money they are wasting on high-speed rail. $105 billion. You could build 21 $5 billion dams for that and grow the food in California that so many people depend on.

I will have an update on that as well as to why California food is important not just in California to growers and workers there but to people in New York, people in Pennsylvania, and people all through the Midwest. What we grow is important not just for our local economy but actually to keep things on the table that people need and demand. Instead, we would be importing them or not having them at all.

It all starts here in Washington, D.C., with misplaced priorities coming out of this administration that are not helping. I have to ask often to the Biden administration and even some of my colleagues in these two Houses here: Whose side are you on?

Mr. Speaker, I thank my friend. There are so many important things he highlighted there.

Mr. Speaker, we will go from California over to the great State of Texas next.

Mr. Speaker, I yield to the gentleman from Texas (Mr. Roy). Mr. ROY, Mr. Speaker, I appreciate my friend from Louisiana for yielding to me. I appreciate his time on the floor.

I was in the House Judiciary Committee. I will be spending some time in
the 30-minute Special Order here in a second, dealing with a lot of the issues that my friend was just talking about, in particular dealing with energy. What I will be talking about is: They break it; you buy it. That is the reality of what we are dealing with. With our Democratic colleagues here in the majority and in the administration.

Energy is the perfect example of that. We are seeing that obviously in Texas, where we are sitting on a sea of oil and gas, and we could be exploring further and producing for the world and driving down CO₂. Instead, we are not because of the leftist policies of this administration. I will be beginning that in a minute.

I appreciate the gentleman and thank him for holding this Special Order hour time on the floor for our colleagues.

Mr. JOHNSON of Louisiana. Mr. Speaker, I am grateful for my friend’s voice. He was a guest on my podcast last week, and we have gotten a lot of attention on that. People are grateful for his passion on these issues. I hope my friend will keep speaking loudly here and everywhere. I am grateful he has a national platform to talk, particularly about this immigration crisis, which is a whole different subject, and he has great insight on that.

Mr. Speaker, I will wrap this up. I thank my colleagues for joining me today in this Special Order hour to discuss the harm that the Democrat agenda has caused our country and our alternatives on all these issues.

By way of recap, just quickly, I was taking notes as my colleague spoke from across the country, from Texas. Dr. BABIN reminded us that a staggering 77 percent of Americans believe our country is on the wrong track—obviously, because of all this.

Mr. LAMALFA from California just reminded us of the excesses and abuses of the Federal agencies, which are over-regulating our farmers and food producers and wasting our time and precious resources on these superfluous projects.

Mr. MEUSER of Pennsylvania reminded us that this inflation is going to cost the average hardworking American family this year an extra $6,000 in the cost of living.

Mr. ROY of Texas. Mr. Speaker, I appreciate the gentleman and thank him for holding this Special Order hour time on the floor. This is just a sampling of all the crises that have been created by the Biden administration and the Washington Democrats in charge of this institution. We cannot wait to begin to turn this around after the November election.

Mr. Speaker, I yield back the balance of my time.

**THEY BREAK IT, YOU BUY IT**

Mr. ROY. Mr. Speaker, I appreciate the time here on the floor. I appreciate, as I said a minute ago, my friend from Louisiana, Representative Babin, for his steadfast defense of the Constitution of the United States; his willingness to stand up for all the important values, from life to marriage; but importantly being a voice for this body, for the Republican Conference, and where we want to take this country; what we know the American people want us to do; and to stand athwart the absolutely absurd policies of a Democrat majority that doesn’t give a whit about the people that they are rolling over in a quest to placate their radical leftist policies, whether it is energy or open borders, and I appreciate the gentleman from Louisiana and his efforts.

I am here to talk about my Democratic colleagues and the extent to which the American people need to understand: They break it, you buy it. And that is the reality of what is happening.

My Democratic colleagues are breaking—breaking this country, breaking up your families, breaking up our secure border, breaking up our military, breaking up our court system, the rule of law, breaking up our police, our law enforcement community.

They are breaking up our economy, breaking the strength of the American dollar. They are breaking our position in the world, and they are breaking this body, the people’s House. And it is high time it stopped.

And we can only hope that in November we get a change so that we can stop it. And then my message to my Republican colleagues will be: We better stop it because what is happening in the so-called people’s House cannot be tolerated any longer.

They break it. This body, the leadership of this country, they break it. You buy it.

In reverse, I would say, America is great. Washington is broken. They are breaking it every day and, as a result, they are breaking this great country that our forefathers fought so hard to give to us and to our children and our grandchildren.

You cannot defend the policies of the Democratic majority. It is impossible to do. And in fact, if you look out to all the people of the United States of America, I would defy someone to demonstrate to me how you could do better than my Democratic colleagues are doing on a daily basis, ripping apart the Constitution, ripping apart the shredders of the floor, ripping apart the people of this country.

Dividing us. Dividing us by race, dividing us by income, dividing us by our adherence to the Constitution or devotion to the border and devotion to the rule of law.

That is what is happening on a daily basis, and it is purposeful. Let’s be perfectly clear that it is purposeful.

The reason my Democratic colleagues focus so intently on January 6 is they don’t want to divide us. The reason they want to have race-based policies throughout our government is they want to divide us.

The reason they want to make the border as supposedly about not liking Brown people is because they want to divide us. Never mind that south Texas is full of Brown people who are sick of wide-open borders empowering cartels. That is the reality of what is going on in this Chamber, not in the Senate, and at the other end of Pennsylvania Avenue.

Just focus on the border for a minute: Broken, wide open, abused by cartels, exploited by terrorists, exploited by gang members, criminals coming into our country, killing American citizens. Fentanyl pouring into our communities, 107,000 dead Americans. 850,000 known got-aways pouring in between the ports of entry because our Border Patrol is overwhelmed, with no one to support from this administration, but the purposeful attack by the Secretary of Homeland Security lying about the good men and women of Border Patrol, saying that they whipped people that they didn’t, and then hiding behind some report, while they give them administrative punishment.

That is your leadership, ladies and gentlemen. They are breaking it and you have to buy it.

They are leaving our border wide open, and American citizens are dying. Let me repeat that. They are leaving our border wide open, broken, and American people are dying, thousands upon thousands of Americans dying from fentanyl pouring into our communities, pushed by China, exploited by cartels, left to be able to come into our country because Democrats do not care about securing the border.

And more importantly, my Democratic colleagues are perfectly fine purposedly leaving our border wide open. It is purposeful. It is purposeful.

They are breaking it and you are going to have to buy it.
How about our defense?

Our Defense Department is being broken on a daily basis by my colleagues on the other side of the aisle and in the other Chamber, and particularly, this administration, shoving into the Department of Defense a radical, woke programs, policies focused on diversity, and equity, and inclusion, all of the things that they cloak with critical race theory to destroy and break apart the institution of our military.

Vaccines mandates, forcing 60,000 guardsmen to be on the chopping block to lose their entire career. It is purposeful. They are breaking it.

They are breaking it by tucking tail and running out of Afghanistan with $85 billion of equipment there and 12 or 13 dead servicemen and no accountability. No accountability for the brass at the Pentagon and no accountability for the White House for tucking tail and running.

They are breaking our Defense Department.

You talk to the servicemen who were in my office, coming in in tears because they are about to lose their entire career because they choose not to take a politicized vaccine.

Oh, by the way, by another broken governmental agency, or agencies, our whole public health system being radicalized by my colleagues on the other side of aisle to strike fear in the hearts of the American people, to watch them push aside and brush under the rug gain-of-function research and all that we see unfolding in China in the rug gain-of-function research and all that we know about the funding, American funding that was tied to that.

All that we know about the absurdity of locking down schools, shutting down our schools so our kids are stuck in masks in the corner and not able to go to school, the damage it has done to our kids, the mental health issues, destroying the education of our young, all chasing the teachers' unions.

We have seen the mandatory—or efforts at mandatory vaccines—thankfully, partially struck aside, but many still in place, breaking the back of the people's trust in their public health, breaking the back of the people's ability to serve in the military and defend this country, breaking the back of people being able to be Federal public servants working for Border Patrol or other Federal agencies.

They are breaking it. They are breaking it by tucking tail and running.

How about the 12 Democrat-run cities that have called for defunding their police and have seen skyrocketing crime enveloping the cities?

The businessowner I spoke to today in Baltimore who says he is going to have to close down for the first time because of rampaging crime in Baltimore.

Austin, Texas, which cut its police by a third and has seen homicides skyrocket from 59 to 89, has seen 911 calls unanswered, drug trafficking increasing. Taking police off the streets in Austin, Texas.

We have seen 50 of the biggest urban areas see a 5 percent decrease in their police budgets, while my colleagues on the other side of the aisle say they are doing no such thing.

But my friend, Mr. Johnson, rattled off quote after quote after quote in the House Judiciary Committee of my colleagues on the other side of the aisle calling for defunding of the police. Of course, it is an attack on our police.

They are breaking our Police Department, breaking the backs of our men and women in blue and leaving our streets exposed to lawlessness and danger, and it is purposeful.

How about energy?

Could you take a more ridiculous position than to take the strength of national security, of having abundant oil and gas, the ability to lead on nuclear, and, instead, chase unicorn energy policies of nothing but solar and wind so that on a cloudless, windless day—or cloudy, windless day, you sit back and watch your energy plummet and your grid weaken.

What kind of a country's leadership does that to its people?

I would say the kind that want to break it. I would say the kind that want to chase the fairy tales and the unicorn energy policies that this administration wants to pursue.

We could have nuclear power. It doesn't create any carbon dioxide. Does that to its people? I mean, I could say the kind that want to break it, and you are going to have to pay a lot for it, because they are spending money we don't have.

They are breaking it. They are breaking your jobs. They are breaking your income. They are breaking your ability to buy goods and services and you are, literally, going to have to buy it, and you are going to have to pay a lot for it, because they are spending money we don't have.

They are printing money, throwing it out in the economy, driving up the prices of goods, while they are, simultaneously, restricting the ability for us to develop energy, to have abundant energy that you can afford.

You like $4.50 gasoline? Well, guess what? Your Democratic leadership just defended that as being great. In a Rules Committee debate this week, when I sat in that room debating the rules, literally, the Democratic Rules Committee was talking about how great it is that the price of oil has come down.

They were talking about the price of copper going down. Well, I have spent a lot of money on copper to wire my home. It is expensive as heck. It is now locked up in cages. But do you know what the price of copper going down means? Heading into a recession. That is the reality of what we are facing. That is the truth.

Our economy is getting ripped to shreds, the price of goods and services are going up. And it is purposeful. Spending money we don't have.

How can you justify spending $2 trillion, printing that money, and dumping it out there to drive up the price of goods and services, while cutting off the production of oil and gas, not developing nuclear, increasing the price
of gasoline, increasing the price of energy in your homes? It could only be purposeful. They are breaking it. They want to break it so they can live in unicorn land.

But you are going to have to buy it, and it is going to be expensive.

How about the state of the rule of law?

How about the state of the family?

How about the state of marriage?

Just yesterday, on this floor—just yesterday, on this floor, we passed a law to take recognition by one State of another State’s marriage, but by thereby doing that, for the first time, I think this body, certainly Members on this side, supporting the redefinition of marriage, which was manufactured by the 2015 Supreme Court decision, manufactured and forced upon the States, a redefinition of marriage.

Now you see the wailing and gnashing of teeth because this court dared to say that Roe v. Wade was bad law, and that we need to go back to the States in the protection of life and the recognition that that is the appropriate law under the Constitution.

Lastly, I would point out when we are talking about breaking it, this body is the best example of my Democratic colleagues not giving a whit about you, the people, rolling over and destroying the people’s House, destroying this institution.

I have not been able to offer an amendment on the floor of this body. Can’t do it. Got to go to Rules. Beg for crumbs.

They drive through so-called suspension of the rules bills. We get them often hours before, at most, a day or two before they are on the floor being asked to be voice voted. If we don’t have a group of us on the floor monitoring those bills, they will go through without us.

They don’t care because voting doesn’t matter, as evidenced by proxy voting, forcing a new rule that says you can turn your voting card that you, the voters, gave to representatives and give that to another member of Congress, spending the constitutional order which requires presence, a quorum, physical presence, debate.

That is what the Constitution contemplates, and it is my Democratic colleagues who, for the first time in history, upended our requirement that we be present in the body of the House of Representatives to do our job. Blowing apart—blowing apart—this people’s House.

I yield, as I often do, that I am not saying that everybody on this side of the aisle has clean hands on all of these points. A lot of Republicans are taking advantage of the proxy voting that my Democratic colleagues created for the first time in history. They should not.

I will say that to every member. I don’t care if they are Freedom Caucus leadership or anybody in between. I will not back away from saying proxy voting is not only unconstitutional, it is wrong, and it is destroying this body. Forced magnetometers in this false name of security. Masks being forced upon members of Congress on the floor via the House which have now been brushed aside because I guess Anthony Fauci or somebody decreed that somehow, it is now safe to walk around without masks until they say it is not safe.

I yield to my friend from Virginia here in one second. I just want to say in conclusion to this part, and then I want to engage with my friend.

My Democratic colleagues, unfortunately with a little bit of help from a few of my Republican colleagues on occasion, are breaking this country. They are breaking this body. They are breaking our Constitution, and it is purposeful.

There are no other words to say what is happening at our border but that it is purposeful. There are no other words to say about what is happening on our streets with our law enforcement but that it is purposeful.

There is no other thing you can say about our energy policies but that it is purposeful. Why is nothing you can say about the spending and the inflation but that it is purposeful.

The attack on the institution of marriage, the breakdown of the family, the targeting and the policies against life, that it is purposeful.

The fact that we are destroying this body with proxy voting, that it is purposeful. The fact that we are destroying the Defense Department and the very core values of our men and women in the military with their woke policies, with their vax mandates, irrespective of what that does to defense, driving our recruiting down to unforeseen levels, but that it is purposeful, and it is wrong.

I yield to my friend from Virginia (Mr. Good).

Mr. GOOD of Virginia. I thank the gentleman from Texas for yielding time.

Mr. Speaker, I had a constituent say to me from Bedford County, just outside of Lynchburg where I live, nothing this President and this majority in Congress is doing makes sense unless they hate the country. Nothing they are doing makes sense unless they hate the country.

What would you do differently over the last year and a half if it was your purpose, your desire, your intention to ruin the country? Maybe you would undermine police. Maybe you would undermine police.

What are they doing? They are bragging about the pain that they are causing. The more pain the better, they are saying. That is what the President has said. Hey, we are halfway through a transition. If we could just get through to the other side, it is going to be so much better, you know. Those jobs and all this prosperity be—

I yield to my friend from Virginia (Mr. Good).

Mr. GOOD of Virginia. I thank the gentleman from Texas for yielding time.

Mr. Speaker, I had a constituent say to me from Bedford County, just outside of Lynchburg where I live, nothing this President and this majority in Congress is doing makes sense unless they hate the country. Nothing they are doing makes sense unless they hate the country.

What would you do differently over the last year and a half if it was your purpose, your desire, your intention to ruin the country? Maybe you would undermine police. Maybe you would undermine police.

What would you do differently over the last year and a half if it was your purpose, your desire, your intention to ruin the country? Maybe you would undermine police. Maybe you would reduce funding for police. Maybe you would stop arresting violent criminals. Maybe you would stop prosecuting violent crimes. Maybe you would allow violent criminals to have no cash bail. Maybe we would release violent criminals from our prisons.

You know what? All of those things are happening, and the Democrats seem surprised that crime has gone up and crime. Across Virginia, violent crime is up some 30 percent in the last year across the country.

American cities, unrecognizable. People don’t want to go there anymore. Because of these policies the American people don’t want 4 million illegal aliens coming into the interior of their country in the past year and a half.

Maybe we have a shortage of funding to take care of Americans, to do the things that we would like to do, to take care of our veterans, to take care of those most in need, to help our farmers, to help hard-working Americans, to maybe give them a little bit of their resources back, to reduce the regulations and the oppression upon them.

Maybe we don’t need to bring in 4 million illegal aliens in a year and a half, 10,000 a day now, the average is, give them free social services, free healthcare, free education, free travel, free everything, to maybe give them a little bit of their resources back, to reduce the regulations and the energy policies.

Think about where we might be if this Democrat majority had gotten their $6 trillion build back bankrupt bill through Congress. $20,000 per American citizen. They like to say sometimes, oh, some of this stuff is popular. It polls well. People want this.

$6 trillion is what they have tried to spend, and they are still trying to backdoor it in over these remaining months that they have left. People don’t want it.

How would it poll, do you think, if we said, American citizen, do you want massive inflation, 40-year record inflation, caused primarily by the massive spending, the reckless spending, the energy policies.

Think about where we might be if this Democrat majority had gotten their $6 trillion build back bankrupt bill through Congress. $20,000 per American citizen. But the fact is, the fossil fuel industry has been used to bring more prosperity to third world countries than any other development in industrial history. This assault on our freedoms, our economic freedoms, our healthcare freedoms, as you mentioned, whether it is the mask, whether it is the vaccines, our individual freedoms with the Second Amendment assault.

The majority is going to try to pass two more bills to take away and restrict Second Amendment rights. That is going to happen in this House, we are told. The continued assault on the Second Amendment right.

I have right here—I don’t do this very often, but I have some quotes from the Founders as it relates to the Second Amendment right.

As I was looking for quotes, you know, I couldn’t find anything that talks about the Second Amendment right. They could keep and bear arms so they could target practice; that people could keep and bear arms so they could hunt; that people could keep and bear arms for sporting purposes.

These quotes that I have here from the Founders explaining why they wrote into the Constitution the Second Amendment as they did was to ensure we remain free.

Freedom has a cost. Most of the world does not live free to the extent that we still live free, as you often enunciate.

Whether the majority of this Congress likes it or not, we have a Constitution. I happen to like it. I know you do as well. The framers, in their wisdom, made it possible to change the Constitution, but they made it difficult by design.

They said, hey, if you want to change the Constitution, you have got to have super majorities of both Houses. You have got to have super majorities of the State legislatures in order to bring transformational change to the country and amend the Constitution.

But if you want to undermine the Constitution, undermine our freedoms, and attack the rights guaranteed to Americans in our Constitution. Mr. ROY. I ask of the Chair how much time we have remaining.

The SPEAKER pro tempore. The gentleman has 5 minutes remaining.

Mr. ROY. I would just add to my friend from Virginia a great quote from Thomas Jefferson—because he knows I went to the University of Virginia.

The strongest reason for the people to retain the right to keep and bear arms is, as a last resort, to protect themselves against tyranny in government.

That is the purpose of the Second Amendment, and that is what we know. I would note that in this context, and I will yield another couple minutes to the gentleman if he wants it, when we are talking about the response from my colleagues on the other side of the aisle, they break our border purposefully, and then they want us to fix it with amnesty or with some policies to say that Texas has to just accept.

I hear that the mayor of New York is all aghast that people are being dropped off in New York. He said, we need Federal Government help to deal with it. I am, like, welcome to the party, pal. This is what life is like in south Texas every single day. They break it. They break the border, and then they want you, the American people, to have to carry the water.

They break the Defense Department, drive recruiting down to 40 percent, and then they put in language to draft our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters, our daughters.

They break the energy system in our country. Then they say, just go buy a Tesla. What is wrong with you?

Mr. GOOD of Virginia. 70,000 bucks. Go ahead.

Mr. ROY. What is wrong with you? Go buy a Tesla. You can plug in. You can drive through west Texas, 300 miles. Don’t worry about it. Stop off in Eden, Texas, where, no doubt, they have a charging station and spend $70,000 for that.

They break the back of the economy, drive up in inflation, and they say, suck it up, buttercup. Go buy yourself some expensive chicken and rice.

They break the back of this body, this institution, and then they ignore their colleagues when their colleagues are saying the chickens are going to come home to roost.

That is the reality of what we are dealing with: A purposeful breaking the back of this country and a tearing apart of the threads that hold us together.

I am going to just say it here on the floor. If we don’t start respecting Federalism, the ability to agree to disagree, this is doomed. It will break apart under its own weight, and it will be my colleagues on the other side of the aisle that amassed the weight that will break the bow.

That is where we are headed if we don’t start respecting the ability of individuals in this country to agree to disagree, allow Texans to be Texans, allow Californians to be Californians.

Unite under the flag of the United States, under our core principles but stop shoehorning our ability to disagree. Stop breaking this country and forcing the American people to buy it.

I yield the balance of the time to my friend Virginia (Mr. GOOD).

Mr. GOOD of Virginia. Well said by the gentleman from Texas.

Their solution, this President’s solution, this majority’s solution to the economic wreckage they have created is to spend more money.

You just ask yourself. You’re baffled. Is it malicious intent, and they recognize the harm that they are doing; and how they are causing the harm; and they are doing it by design; and they are doing it on purpose; or are they that economically illiterate, and they really are clueless and have no idea what they are doing?

Because we have record inflation, 40-year high inflation of 9 percent, which essentially means every American is working for 1 month free this year. One more out of the millions will essentially not getting paid with the loss of purchasing power they have experienced because of the inflation.

So what is their answer to that? Well, if we could just spend more money, if we could just get more of our agenda passed and spend trillions of dollars more, then that will help the problem rather than make it worse.

It is like the person who says, hey, I am trying to lose weight and then they would say, well, the solution is to eat more. That is the solution that they propose, to do more harm, and you just wonder, is it just that illiterate, that ignorant, or is it willful and devious and malicious?

Mr. ROY. I thank the gentleman from Virginia. I think our time has expired. I appreciate the speaker and the staff here tonight.

Mr. Speaker. I yield back.

The SPEAKER pro tempore. Members are reminded to address their remarks to the Chair and not to a perceived viewing audience.

SECOND AMENDMENT RIGHTS

The SPEAKER pro tempore. Under the Speaker’s announced policy of January 4, 2021, the Chair recognizes the gentleman from Virginia (Mr. GOOD) for 30 minutes.

Mr. GOOD of Virginia. Mr. Speaker, the Second Amendment in our Constitution is the amendment that guarantees or ensures all the other freedoms that we hold dear in this country.

The right to defend oneself is a God-given right, but we are unique among the nations of the world in that that right is protected for us and enshrined in our Constitution based on the wisdom of the Founders.

There is a mechanism for changing the Constitution, but it is difficult. Yet, what this body wants to do is to find ways to do what the Constitution clearly says, which is that the Congress has absolutely no constitutional authority to restrict the rights of law-abiding citizens to keep and bear arms.

I am going to read a few quotes from the Founders from about 250 years ago, and the reason why we go back to the Founders is to understand what they intended with the Constitution. We have the Federalist Papers, of course, and then other writings by the Founders.

Alexander Hamilton said: “The best we can hope for concerning the people at large is that they be properly armed. . .”

Samuel Adams said the Constitution shall “be never construed to authorize Congress to infringe . . . or to prevent
the people of the United States, who are peaceable citizens, from keeping their own arms.”

James Madison, the first Congressman from my Fifth District and our fourth President, said: “The Constitution provides the advantage of being armed, which Americans possess over the people of almost every other nation,” where “the governments are afraid to trust the people with arms.” Still true today.

Noah Webster said: “Before a standing army rule, the people must be disarmed; as they are in almost every kingdom of Europe . . . A military force, at the command of Congress, can execute no laws, but such as the people perceive to be just and constitutional; for they will possess the power . . . to resist the execution of a law which appears to them unjust and oppressive.”

Thomas Jefferson, from my home district in Virginia, from where the gentleman from Texas went to school, said: “What country can preserve its liberties, if its rulers are not warned from time to time that this people preserve the spirit of resistance? Let them take arms.”

Thomas Jefferson also said: “No free man shall ever be debarred the use of arms.”

Back to James Madison: “The right of the people to keep and bear . . . arms shall not be infringed. A well regulated militia, composed of the body of the people, trained to arms, is the best and most natural defense of a free country.”

George Mason said: “To disarm the people—that was the best and most effectual way to enslave them.”

Patrick Henry said: “Are we at last brought to such humiliating and debasing degradation, that we cannot be trusted with arms for our defense?” “If our defense be the real object of having those arms, in whose hands can they be trusted with more propriety, equal safety to us, and our own hands?”

Samuel Adams said: “The said Constitution be never construed to authorize Congress to . . . prevent the people of the United States, who are peaceable citizens, from keeping their own arms.”

Thomas Paine: “Arms discourage and keep the invader and plunderer in awe, and preserve order in the world. . . . Horrid mischief would ensue were the law-abiding deprived of the use of them.”

Patrick Henry also said: “Where and when did freedom exist, when the sword and purse were given up from the people? We are doing that right here in this body. We are taking the sword and the purse away from the people.

He said: “Unless a miracle in human affairs shall interpose, no nation ever did or ever can retain its liberty, after the loss of the sword and the purse.”

“The great object is that every man be armed.”

“Everyone who is able may have a gun.”

Final quote from Thomas Jefferson, then I will defer to the gentleman from South Carolina: “Laws that forbid the carrying of arms . . . disarm only those who are neither inclined nor determined to commit crimes. Such laws make peoplelc for the people . . . and better for the assailants: they serve rather to encourage than prevent homicides, for an unarmed man may be attacked with greater confidence than an armed one.”

Mr. Speaker, I yield to the gentleman from Texas (Mr. Roy).

Mr. ROY. Mr. Speaker, I have to head down to the House Judiciary Committee to defend the Second Amendment from the at the being levied by my Democratic colleagues as we speak. We are in there debating.

I would add just one thing to what the gentleman just eloquently put out, the understanding for the American people that when this Nation was founded, we were dealing with debate about what the structure of government should look like. Those who were suspicious of consolidating power, the anti-Federalists, were raising questions.

James Madison, a Virginian, was making points through the Federalist Papers. He said in response to some of the critiques: “All the other checks and balances will always prevent tyranny, but should tyranny ever triumph, the U.S. Constitution provides a mechanism to restore constitutional order,” he says. “Besides the advantage of being armed, which the Americans possess over the people of almost every other nation,” Madison wrote, “the existence of subordinate governments, the State government to which the people are attached,” their State and local governments, “and by which the laws that concern this Nation,” because that well-regulated militia meant a well-ordered militia, not regulated the way we talk about it, a well-ordered militia. “And it forms a barrier against the enterprises of ambition more insurmountable than any which would spoy a simple government of any form can admit of.”

The final point is, the Second Amendment does not create a right of revolution against tyranny. That inherent right is universal. The Second Amendment provides the tools and the power for the people to stand and thwart tyranny.

Mr. GOOD of Virginia. Mr. Speaker, I thank the gentleman from South Carolina.

Mr. NORMAN. Mr. Speaker, I thank Mr. Good for having this Special Order. Let me give you a live example of what happens with a well-armed militia, the purpose of the Second Amendment is for the citizens of America to bear arms.

This past Sunday, a deranged gunman opened fire in a food court of a shopping mall in Greenwood, Indiana, which is a suburb of Indianapolis. Police say this deranged gunman fired 24 rounds within 2 minutes, killing three and injuring two others.

Nearby was a young man, Elisjsha Dicken, a private citizen who took quick action to stop that gunman. Elisjsha was legally armed and carrying his own weapon under Indiana’s constitutional carry laws. Thank God for this young man.

Mentioning Mr. Dicken, Elisjsha’s response, the Greenwood chief of police said, “I will say his actions were nothing short of heroic. He engaged the gunman from quite a distance with a handgun.” The police chief went on to say Elisjsha was tactically sound as he moved in to close on the suspect, and was also monitoring for people to exit behind him. He has had no police experience, no training, no military background.”

What a true hero. Elisjsha was simply going about his business at the mall when the unthinkable happened. It is hard to imagine how we might react in that situation, but Elisjsha was equipped; he was prepared; and he had courage to confront that sick individual, who was determined to kill others.

Elisjsha would not have been able to do so if the liberals who want to take away our Second Amendment rights had their way with this so-called gun control.

To my Democratic friends who are determined to restrict our Second Amendment rights, I ask you this: How many more people might have died last Sunday in Greenwood, Indiana, if you had your way? How many more people would have been slaughtered if Elisjsha didn’t have the ability to exercise his constitutional rights? Thankfully, we will never know the answer to that question.

Americans deserve the right to protect themselves and others when their lives are in severe danger. That is why it is so critical to strongly defend our Second Amendment rights against the antigun left that is so intent to demoralize or our Second Amendment and our Constitution.

Mr. GOOD of Virginia. Mr. Speaker, I thank the gentleman from South Carolina.

Ronald Reagan, to paraphrase, said: Freedom is only one generation away from extinction, and it must be fought and preserved from one generation to the next, and no nation having lost its freedom in history has ever regained it.

You think about how, in the past year and a half, we’ve lost our most basic, most essential freedoms trampled upon by those who would also trample upon our Second Amendment rights. They have moved to restrict our own healthcare decisions about whether or not we can worship, whether or not we have to take a vaccine, whether or not we have to wear a mask, whether or not we can earn a living. They want to trample upon our rights to defend ourselves.
Mr. Speaker, I yield to the gentleman from North Carolina (Mr. CAWTHORN).

Mr. CAWTHORN. Mr. Speaker, 40 yards, 10 rounds, one man, countless lives saved. I speak today to acknowledge a new American hero.

Just 2 weeks after Indiana passed a constitutional carry provision, one man stood tall in the face of imminent death, protecting his loved ones and his community from evil. Elisajsha Dick-en’s and her hero-victims are not just to be applauded in the media. They ought to be used as a blueprint for American citizens who legally carry nationwide.

There is strong evidence that the best defense an American can possess is a sidearm and the know-how to use it. Mr. Speaker, law-abiding citizens use firearms to defend themselves against criminals as many as 2.5 million times a year, or about 6,830 times a day. This means by annual, weekend, and lets alone times more often to protect the lives of honest citizens than to take lives. Moreover, citizens shoot and kill at least twice as many criminals as police do every year, as was found by the Gonzales Report.

The analysis is clear. Law-abiding, gun-toting Americans are the best line of defense against random acts of mass violence. Make no mistake, Congress’ gun control lobby would have rather taken the hand gun from Elisa’s hand and replaced it with blood-soaked corpses of many innocents in Indiana.

Mr. Speaker, I speak for many Americans when I say we will carry; we will protect; we will neutralize threats to our safety and security. We don’t need you to defend us. Stop coming for our constitutionally protected rights. Retire to a nice seaside estate protected by armed guards and lets alone blooded, freedom-loving Americans conceal carry and, when necessary, kill those who threaten our lives. Remember, you are your own first responder.

Mr. GOOD of Virginia. Mr. Speaker, I thank the gentleman from North Carolina.

Mr. Speaker, can you confirm how much time we have remaining?

The SPEAKER pro tempore. The gentleman from Virginia has 17 minutes remaining.

Mr. GOOD of Virginia. Mr. Speaker, I yield to the gentlewoman from Georgia (Mrs. GREENE), my good friend.

Mrs. GREENE of Georgia. Mr. Speaker, I am honored to stand here with my friends—Chairman PERRY, Mr. CAWTHORN, Mr. GOOD, Mr. NORMAN—in defense of our Second Amendment rights. I say this not only as a Member of Congress, but I say this as a woman, and I say this also as an adult who knows what it is like when my school was held hostage by another student with a gun, a very upset student.

It is not the guns that are the issue. It is the severe mental illness, the breakdown in America with our morals and our values, and this severe divide among all of us as Americans.

I want to add to this, and this is a story that I haven’t even been able to share with my good colleagues here, but just this weekend, now that I am a Member of Congress, many of us get a lot of death threats, but one of my family members received a voicemail on their personal cell phone from a man saying very bad things about me, and then saying: “This is what I am going to do to her, and he cocked a gun and shot it several times.”

This is the kind of threat I get, and it came with the threat of a gun. But I tell you this as a woman and a gun owner: I need to be able to have any kind of gun that I want to own to defend myself, to defend my family, to defend our country, our freedoms, our Union that seeks to be more perfect every single day, with every single action, that the right to defend oneself, the right to bear arms, is enshrined in our Constitution, and that we as Americans when I say we will carry; we will protect ourselves; we will neutralize criminals as police do every year, as was found by the Gonzales Report.

And so, the issue here is this: It doesn’t matter how many gun control laws we put in place. It doesn’t matter how many types of guns are banned. The criminal who intends to do harm to others, those that would murder someone even if they could murder them with their bare hands, are still going to do it, and they are not going to be the ones that hand over their guns to the government. Oh, no, they are going to be keeping their guns so they can continue breaking the law.

We have guns coming across our border every single day illegally. We have terrorists who have been caught at our border, and then we have a lot of gotaways. We don’t know how many of those are terrorists and what kind of criminals, how much human trafficking, how much child trafficking is going on.

And so, it is the Second Amendment that gives us the right to hold and keep arms, and the right to bear arms, to defend our families, our businesses, and our communities.

And so, I yield to the gentleman from Pennsylvania (Mr. PERRY), the chairman of the Freedom Caucus.

Mr. PERRY. Mr. Speaker, I thank my good friend from the State of Virginia (Mr. GOOD) for helping host this Special Order and being here in my absence.

On occasion, I think that we make this partisan. Republicans are seen or characterized as unempathetic or uncaring in the face of so many tragedies. Of course, it couldn’t be further from the truth. We are empathetic. Our hearts break just like everyone else’s.

But we recognize that in this imperfect Union that seeks to be more perfect every single day, with every single action, the right to defend oneself, the right to bear arms, is enshrined in our Constitution, so that we can then defend ourselves from any assailant, from any attacker because we have the God-given rights of liberty and of life. We have that.

We seek some kind of protection for ourselves that also protects our God-given rights but doesn’t allow the criminals to prevail upon us in our homes, in our businesses, and on the streets.

Yet, right now, while Americans are suffering the worst cost of living in 40 years—I know the administration doesn’t want to talk about it. Right now, violent crime is up 30 percent, an unprecedented rate, not told to us by Scott PERRY or Bob Good or Ralph Norman, but by our FBI, an unprecedented rise in violent crime.

Right now, right down the hall, instead of dealing with the rise in crime; instead of dealing with the fact that DAs, supported by the extreme radical left, are letting criminals out on the street; not dealing with the issue that millions of people are flowing across our border, certainly laced with a certain criminal element with no regard to the American laws coming across our border; notwithstanding the fact that some of the people that lead our country at the highest levels bailed out violent criminals and paid for their bail to be on the street to then assault and assail their neighbors, that is all happening right now, right now.

Down the hall, as we speak, our colleagues on the left are trying to re-institute the assault weapon ban, the assault weapon ban that they know, since 1994, when it was instated then, did absolutely nothing to solve this problem.

Because they don’t really care about crime—they don’t care at all. We are
Mr. Speaker, I yield to the gentleman from Pennsylvania (Mr. PERRY) for the purpose of a colloquy.

Mr. PERRY. Mr. Faulkner was killed in Philadelphia by Mumia Abu-Jamal, and all they usually ask me about is: What are we going to do to get that killer out of prison.

Mr. GOOD of Virginia. I am never asked about the 100 police officers killed last year in the line of duty.

Mr. PERRY. Right.

Mr. GOOD of Virginia. I am never asked about the police officers who are shot in America’s largest cities, as you have mentioned. I am never asked by the media about that.

I am never asked about the hundreds of shootings that take place every weekend in America’s largest cities, these war zones, these crime zones that are under Democrat control.

There is always a connection here. These are cities that have been controlled by Democrats. These are Democrat policies carried to their conclusion.

What they are trying to do to the entire country, which has been in place much longer in these major cities—you mentioned Baltimore, Detroit, Chicago, St. Louis, Detroit, or New Orleans, and so forth. That is where most of the crime is in this country. That is where most of the shootings take place in this country, and they don’t care about that.

Do they want to harden our schools? Do they want to do what is necessary to keep our kids safe?

I have long been an advocate in my home State of Virginia, the community where I served as a county supervisor, in allowing armed personnel within the school system who are trained and want to carry concealed and be part of a rapid response team, teachers and staff, to be armed in the schools to keep the children and the staff safe. The Democrats opposed that.

We all know the truth. Mr. NORMAN from South Carolina mentioned this a moment ago. The best response to a bad guy with a gun is a good guy with a gun. The best response is more good people with guns, more law-abiding citizens with guns, as the Founders wrote and intended and as the Founders recognized 250 years ago when we didn’t have this violent crime in America’s largest cities.

If the Second Amendment is not safe, then no other right is safe. There is a reason why the Second Amendment comes right after that First Amendment guarantee to speech, free speech, to free assembly, to free worship, to petition and to our grievances. That is that Second Amendment right to keep us safe, to ensure we remain a free people.

If you look around the world, if you look at the nation of Ukraine, Ukraine would be a different place today if the citizens were armed and protected to be armed the way we are here in this country. Taiwan would be a much safer country today from the threat of its large enemy on its border if their citizens were armed the way our citizens are armed today.

The Founders recognized in their wisdom that not only did we possess a God-given right to defend ourselves, to keep ourselves and our families safe, but also that we would be unique among the nations of the world in enshrining that in our Constitution and protecting that right and saying that Congress has no authority to infringe on that right for law-abiding citizens.

Mr. Speaker, I yield to the gentleman from Pennsylvania (Mr. PERRY).

Mr. PERRY. Mr. Speaker, my good friend from Virginia is absolutely right. That is only why we have to do everything that is required in our States. Those are the people that they wish to disarm.

They are not in there talking about stopping criminals. They are not talking about stopping law-abiding citizens who are trying to defend themselves when somebody breaks into their home at night or their store or perhaps upon the street when they are out with their children or, heaven forbid, our citizens dare to travel to one of these cities anymore.

I represent a company in my district called Starbucks. Their CEO is closing stores all across the northwest of our country because of safety. People want to go to Starbucks. They can’t because it is not going to be there anymore, not because of sales, but because of safety. That is not a sign of a sickness—and the CEO of Starbucks, I don’t know that he thinks that the answer is an assault weapons ban. Maybe he does. But I haven’t heard of the Starbucks being held up by an assault weapon.

Every single week, every single weekend, people are killed in major cities, horrific violence, perpetrated whether it is with a knife or whether it is with a handgun. But it is the people that do it. These are inanimate objects. Good people in this country have been subjected to the people decades, even a long time ago and is now considering banning knives because knife attacks are on the increase.
Our country has a sickness, and we are sympathetic to it. But taking the tool away doesn’t address the sickness. Unfortunately, our colleagues on the other side of the aisle are so focused on the firearm that they can’t even see past the fact that they are disavowing their oath to the Constitution.

Mr. GOOD of Virginia. Mr. Speaker, I thank the gentleman from Pennsylvania for his comments.

The first 10 amendments to the Constitution were intended to protect the individual, the people, from the government. The Constitution protects the individual, the minority, from the tyranny of the majority.

There is a reason why we are not a democracy. We are a representative republic based on the rule of law, based on a Constitution that would ensure that we remain free, that would ensure that we protect the rights of the individual.

The number one job of the Federal Government, that we have gotten so far away from here in this body, is to keep us safe and secure. Part of that is to ensure that our rights are safe and secure, and that includes the right to defend ourselves.

Mr. Speaker, I yield to the gentleman from Pennsylvania (Mr. PERRY).

Mr. PERRY. Mr. Speaker, the right to defend ourselves. Mr. Good and I, our colleagues on this side of the aisle, we haven’t voted to defund the police. We support law enforcement.

Even though we support fully law enforcement, here is what we know: When someone breaks into your home and you pick up your phone, it is going to take a certain amount of time, unless law enforcement is setting out in your driveway. You are going to have to do something about it at that moment.

What our colleagues on the other side of the aisle right now are telling us is: No, you are not going to have any opportunity. You are not going to have any opportunity about anything about it.

You can use harsh language. I suppose you can throw the lamp that is on your bed stand in self-defense, but that doesn’t stop the assailant’s bullets that are coming into your home for who knows what reason.

Mr. Speaker, we deserve—because we have earned the right to defend ourselves. We live in America. We have a Constitution that we live under. It outlines our rights as ordained by the Good Lord above. We cannot have this Congress and man take them away from us.

Mr. GOOD of Virginia. Mr. Speaker, I yield back the balance of my time.

ADJOURNMENT

The SPEAKER pro tempore. Pursuant to section 1 of House Resolution 1230, the House stands adjourned until 9 a.m. tomorrow.

Thursday, at 5 o’clock and 14 minutes p.m., under its previous order, the House adjourned until tomorrow, Thursday, July 21, 2022, at 9 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XIV, executive communications were taken from the Speaker’s table and referred as follows:

EC–4775. A letter from the Under Secretary for Personnel and Readiness, Department of Defense, to the Committee on Armed Services.

EC–4776. A letter from the Under Secretary for Personnel and Readiness, Department of Defense, transmitting a letter authorizing 3 officers to wear the insignia of the grade of brigadier general, pursuant to 10 U.S.C. 777(b)(3)(B); Public Law 104-106, Sec. 503(a)(1) (as added by Public Law 108-106, Sec. 349); (122 Stat. 1456); to the Committee on Armed Services.

EC–4777. A letter from the Under Secretary for Personnel and Readiness, Department of Defense, transmitting a letter authorizing 3 officers to wear the insignia of the grade of lieutenant general, pursuant to 10 U.S.C. 777(b)(3)(B); Public Law 111-383, Sec. 505(a)(1) (as added by Public Law 110-156, Sec. 124); (114 Stat. 2400); to the Committee on Armed Services.

EC–4778. A letter from the Acting Assistant Secretary of Defense, Acquisition, and Sustainment, Department of Defense, transmitting the Department’s additional legislative proposals and section-by-section analysis; to the Committee on Armed Services.

EC–4779. A letter from the Under Secretary for Acquisition and Sustainment, Department of Defense, transmitting the Department’s proposal to reinstate the requirement for Department of Defense Depot Maintenance Workloads for Fiscal Years 2020 through 2022; to the Committee on Armed Services.

EC–4780. A letter from the Director, Consumer Financial Protection Bureau, transmitting a letter from the agency’s 2021 Fair Lending Report, pursuant to 12 U.S.C. 5495(c)(2)(D); Public Law 111-203, Sec. 1013(c)(2)(D); (124 Stat. 1970); to the Committee on Financial Services.

EC–4782. A letter from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting the Report to Congress on Direct Commercial Sales Authorized by the United States and International Organizations for Fiscal Year 2021, pursuant to 22 U.S.C. 211(a); Public Law 87-185, Sec. 633 (as amended by Public Law 114-198, Sec. 156); (114 Stat. 1456); to the Committee on Foreign Affairs.

EC–4783. A letter from the Secretary, Department of Commerce, transmitting a letter pursuant to the resolution of advice and consent to ratification of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction (Convention); to the Committee on Foreign Affairs.

EC–4784. A letter from the Secretary, Department of Commerce, transmitting a letter pursuant to the resolution of advice and consent to ratification of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction (Convention); to the Committee on Foreign Affairs.

EC–4785. A letter from the Assistant Inspector General for Audits and Evaluations, Export-Import Bank of the United States, transmitting an action on nomination and a determination of selection of an official role, pursuant to 5 U.S.C. 3349(a); Public Law 105-277, Sec. 151(b); (112 Stat. 2681-614); to the Committee on Oversight and Reform.

EC–4787. A letter from the Director, Office of Management and Budget, Executive Office of the President, transmitting the Office’s government-wide legislative proposals; to the Committee on Oversight and Reform.

EC–4788. A letter from the Inspector General, Office of the Inspector General, Railroad Retirement Board, transmitting the Board’s Fiscal Year 2023 Budget Justification, pursuant to 45 U.S.C. 231f(f); Aug. 29, 1935, ch. 812, Sec. 7(f) (as amended by Public Law 104-106, Sec. 341); (107 Stat. 333); to the Committee on Oversight and Reform.

EC–4789. A letter from the Director, Congressional, Legislative and Intergovernmental Affairs, Federal Election Commission, transmitting explanation and justification for revisions to FEC Form 1 and the instructions for FEC Form 1, pursuant to 5 U.S.C. 30111(d)(1); Public Law 92-225, Sec. 311 (as amended by Public Law 96-187, Sec. 109); (93 Stat. 1364); to the Committee on House Administration.

EC–4790. A letter from the Deputy Assistant Secretary, Senate, Office of Legislative Affairs, Department of Defense, transmitting a legislative proposal “To clarify the application of the additional fees relating to certain H-1B and L petitions, and for other purposes”; to the Committee on the Judiciary.

EC–4791. A letter from the Senior Bureau Official, Bureau of Legislative Affairs, Department of State, transmitting a report to Congress on a feasibility determination; to the Committee on the Judiciary.

EC–4792. A letter from the Assistant Secretary for Legislation, Department of Health and Human Services, transmitting the Medicare Beneficiary Ombudsman Annual Report for Calendar Years 2017-2019, pursuant to 42 U.S.C. § 1855(c)(2)(C); Public Law 106-173, Sec. 921(a); (109 Stat. 2384); jointly to the Committees on Ways and Means and Energy and Commerce.

EC–4793. A letter from the Secretary to the Board, Railroad Retirement Board, transmitting the Annual Report Required by Railroad Retirement Act of 1974 and Railroad Retirement Solvency Act of 1983, pursuant to 45 U.S.C. 231a(u)(1); Aug. 29, 1935, ch. 812, Sec. 231(a)(1) (as amended by Public Law 107-90, Sec. 108(a)); (115 Stat. 890) and 45 U.S.C. 231f-1; Public Law 98-76, Sec. 502 (as amended by Public Law 104-66, Sec. 221(a)); (108 Stat. 3233); jointly to the Committees on Ways and Means and Transportation and Infrastructure.

EC–4794. A letter from the Secretary to the Board, Railroad Retirement Board, transmitting the 2022 annual report on the financial status of the railroad unemployment insurance system, pursuant to 45 U.S.C. 369; Public Law 100-447, Sec. 7105; (102 Stat. 3772); jointly to the Committees on Ways and Means and Transportation and Infrastructure.
Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Ms. WATERS: Committee on Financial Services. H.R. 4586. A bill to amend the Securities and Exchange Act of 1934 with respect to risk-based examinations of Nationally Recognized Statistical Rating Organizations; with an amendment (Rept. 117–121). Referred to the Committee of the Whole House on the state of the Union.

Ms. WATERS: Committee on Financial Services. H.R. 6528. A bill to require owners of certain rental housing units to install temperature sensors in such units, and for other purposes; with an amendment (Rept. 117–422). Referred to the Committee of the Whole House on the state of the Union.

Ms. WATERS: Committee on Financial Services. H.R. 7196. A bill to amend the McKinney-Vento Homeless Assistance Act to expand the authorized activities under the Continuum Program to include activities that address barriers to transitioning families in rural areas to permanent housing, and for other purposes; with an amendment (Rept. 117–423). Referred to the Committee of the Whole House on the state of the Union.

Ms. WATERS: Committee on Financial Services. H.R. 7734. A bill to amend title III, United States Code, to require the timely production of reports to Congress under the Bank Secrecy Act, and for other purposes; with amendments (Rept. 117–424). Referred to the Committee of the Whole House on the state of the Union.

Ms. WATERS: Committee on Financial Services. H.R. 7961. A bill to require qualifi- cation smoke alarms in certain federally assisted housing, and for other purposes; with an amendment (Rept. 117–425). Referred to the Committee of the Whole House on the state of the Union.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. BISHOP of Georgia (for himself, Mr. FLEMMING, Mr. Kildee, and Mr. SMITH of Nebraska): H.R. 4832. A bill to authorize the National Detector Dog Training Center, and for other purposes; to the Committee on Agriculture.

By Ms. LOFGREN (for herself, Mrs. TORRES of California, Ms. MENG, Mr. CORREA, Mr. ESPAILLAT, Mr. GARCIA of California, Mr. NADLER, Ms. BARRAGAN, Ms. BASS, Mr. BLUMENAUER, Mr. BOWMAN, Mr. CARDENAS, Mr. CASTRO of Texas, Mrs. CASTRO of Florida, Mr. COOK, Ms. CLARKE of New York, Ms. ESCOBAR, Ms. GARCIA of Texas, Mr. GOMEZ, Mr. JAYAPAL, Mr. JOHNSON of Georgia, Ms. JORDAN, Mr. RAMOS, Ms. LEÉ of California, Mr. Lieu, Mr. LOWENThAL, Mrs. CAROLYN B. MALONEY of New York, Mr. McGovern, Ms. Moore of Wisconsin, Ms. MORALES, Ms. NAPOLITANO, Ms. NORTON, Ms. OASCO-CASTIzZ, Ms. OMAR, Ms. PANETTA, Ms. PINGRE, Mr. QUIGLEY, Ms. ROSS, Ms. ROYBAL-ALLARD, Mr. RUIZ, Ms. SÁNCHEZ, Ms. SCHAKOWSKY, Mr. SMITH of Washington, Mr. SOTO, Ms. TLAIB, Ms. VELASQUEZ, Mr. POOLEY, Mr. POCAN, Ms. Wilson of Florida, Mr. GRIJALVA, Ms. CASTOR of Florida, and Mr. MCDERMOTT): H.R. 4833. A bill to amend section 239 of the Immigration and Nationality Act to render available to certain long-term residents of the United States the frontier that section; to the Committee on the Judiciary.

By Mrs. LEE of Nevada (for herself, Mrs. NAPOLITANO, Mr. GRIJALVA, Mr. CHUMNEY, Mr. DURFY): H.R. 4834. A bill to amend the Infrastructure Investment and Jobs Act to modify the requirements for an eligible project under the competitive grant program for large-scale water recycling and reuse projects, to provide for an additional authorization of appropriations for that program, to repeal the termination of authority for that program, and for other purposes; to the Committee on Natural Resources.

By Ms. HUIZENGA: H.R. 4836. A bill to provide for near-term actions to preserve the Colorado River system and to amend the Infrastructure Investment and Jobs Act to modify the requirements for drought response; to the Committee on Natural Resources.

By Mr. SCALISE (for himself and Mr. CARTER of Louisiana): H.R. 4837. A bill to facilitate the transfer of revenues from oil, gas, and wind leasing on the Outer Continental Shelf, and for other purposes; to the Committee on Natural Resources, and in addition to the Committee on the Budget, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BACON: H.R. 4838. A bill to specify that a revoked a Foreign Tax Credit Organization designation requires a joint certification from the Secretary of State and Secretary of Defense, to restrict waiver authority for allowing members and conscripts of Foreign Terrorist Organizations into the United States, and for other purposes; to the Committee on the Judiciary.

By Mr. BACON: H.R. 4839. A bill to modify the requirements of congressional review and oversight of agreements with Iran; to the Committee on Foreign Affairs, and in addition to the Committee on Rules, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BLUMENAUER (for himself, Mr. DEAN, Mr. BROGAN, and Mr. CORREA): H.R. 4840. A bill to clarify that the Federal Right to Try law applies to schedule I substances; to the Committee on Energy and Commerce, and in addition to the Committee on the Judiciary, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BUCK (for himself, Mr. LAMB, Mr. NARVAEZ, Mr. NEAL, Ms. CASTOR of Florida, and Mr. LAMB): H.R. 4841. A bill to amend the Patient Protection and Affordable Care Act to ensure that taxpayer funds for health insurance coverage are available only to authorized individuals, and for other purposes; to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. CUELLAR (for himself, Ms. STEFANIK, and Mrs. STYRKL): H.R. 4842. A bill to modify and extend the Breakthrough Therapeutics Act of 2022 to require that a federal agency provide schedule flexibility and choice, and for other purposes; to the Committee on Education and Labor, and in addition to the Committee on Ways and Means, to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. FITZGERALD (for himself, Ms. SALAZAR, Mr. GARBARENO, Mrs. MCFEELY, Mr. BROWN of Maryland, Ms. BROWN of Ohio, Mr. CÁRDENAS, Mr. CASE, Mrs. CHERFILUS-MCCORMICK, Mr. CIU%IL%NE, Ms. CLARKE of New York, Mr. CONGREGATION, Mr. DAVIS of Illinois, Ms. DRAN, Mr. DEUTCH, Ms. ESBOO, Mr. ESPAILLAT, Mr. GARCIA of Illinois, Mr. GREEN of Texas, Mr. HOPPER, Mr. JACOBS of California, Mr. JOHNSON of Georgia, Mr. JONES, Mr. KHANNA, Ms. KUSTER, Mr. LARSON of Connecticut, Ms. LAWRENCE, Ms. LEE of California, Mr. LOWNThAL, Mr. LYNCH, Ms. MCCOLLUM, Ms. MENG, Mr. NADLER, Mrs. NAPOLITANO, Ms. NEWMAN, Mr. NORTON, Ms. PINGRE, Mr. RASKIN, Ms. ROYBAL-ALLARD, Mr. SÁNCHEZ, Mrs. SCHAKOWSKY, Mr. SCOTT of Georgia, Mr. SOTO, Ms. STANSBURY, Ms. STRENS, Ms. TITUS, Ms. TLAIB, Mr. TONKO, Mr. TRONE, Mr. VARGAS, Ms. VELASQUEZ-Dominguez, Ms. WATSON COLEMAN, and Mrs. VAN DUYNE): H.R. 4843. A bill to authorize the Director of the National Museum of American History to open the LGBTQI+ history and women's history exhibition, and for other purposes; to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. MURPHY of North Carolina (for himself, Ms. STEWART of California, Mr. SMITH of Nebraska, Ms. SMUCKER, Mr. LAuHD, and Mr. DUNN):
Congress has the power to enact this legislation pursuant to the following:

Section 8 of Article I of the Constitution

By Ms. STRICKLAND:
H. R. 8452
Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8

By Mrs. WAGNER:
H. R. 8453
Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8 of the Constitution of the United States

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions, as follows:

By Mr. SCOTT of Virginia:
H. R. 8448.

By Mr. MURPHY of North Carolina:
H. R. 8447.

By Mr. BUCK:
H. R. 8446.

By Ms. SCHERRR:
H. R. 8449.

By Mr. CUELLAR:
H. R. 8445.

By Mrs. GARCIA of Texas:
H. R. 8444.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8, clause 3 of the United States Constitution

By Ms. CARSON of New York:
H. R. 8445.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8, clause 18 of the Constitution

By Mr. NORCROSS:
H. R. 8448.

By Ms. SCHERRR:
H. R. 8449.

Congress has the power to enact this legislation pursuant to the following:

Article 1 of the United States Constitution

By Mr. SCOTT of Virginia:
H. R. 8450.

Congress has the power to enact this legislation pursuant to the following:

Article 1, Section 8 of the Constitution of the United States

By Mr. STEWART:
H. R. 8451.
The Senate met at 10 a.m. and was called to order by the Honorable BEN RAY LÚJÁN, a Senator from the State of New Mexico.

PRAYER
The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal Redeemer, answer us in seasons of trouble. Send us Your help from Your sacred hills. Our souls long for You, for we find strength and joy in Your presence. Lord, increase our faith, and teach us to trust You even during life’s storms.

When our Senators endure dark nights of the soul, enable them to find strength in Your presence. May they claim Your promise that You will never leave or forsake them and that nothing can separate them from Your love. Help them seek in every undertaking to know and do Your will.

We pray in Your sovereign Name. Amen.

PLEDGE OF ALLEGIANCE
The Presiding Officer led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE
The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. LEAHY).

The senior assistant legislative clerk read the following letter:

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable BEN RAY LÚJÁN, a Senator from the State of New Mexico, to perform the duties of the Chair.

PATRICK J. LEAHY, President pro tempore.

Mr. LÚJÁN thereupon assumed the Chair as Acting President pro tempore.

RESERVATION OF LEADER TIME
The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

CONCLUSION OF MORNING BUSINESS
The ACTING PRESIDENT pro tempore. Morning business is closed.

EXECUTIVE SESSION

EXECUTIVE CALENDAR
The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to executive session to resume consideration of the following nomination, which the clerk will report.

The senior assistant legislative clerk read the nomination of Gregory Brian Williams, of Delaware, to be United States District Judge for the District of Delaware.

RECOGNITION OF THE MINORITY LEADER
As the majority opinion put it, this was “hardly a novel exception” even back in 1958. And yet, for most of my career, I have had to push back against Democrats’ repeated attempts to unlearn this fundamental constitutional lesson. I have repeatedly defended Americans’ right to join together and to voice their opinions.

Prior to McCain-Feingold, almost all money in politics ran through candidates and party committees. I warned that placing unconstitutional restrictions on speech in that bill was like putting a rock on Jell-O—it wouldn’t quash political speech; it would just displace it. And the Supreme Court has consistently reaffirmed that point in case after case, upholding free speech.

Our Democratic colleagues’ obsession with regulating political speech is what created the environment they now disapprove of. It is what drove support for McCain-Feingold, and it is what spawned this perennial bill in 2010.

Democrats want to pass a law that puts discourse in the hands of the mob. But needless to say, they haven’t always been very concerned with compelling disclosure laws on the books. Existing law already requires disclosure of donations to PACs and other outside groups with the intention of influencing Federal elections. But even as our colleagues have introduced successive versions of the DISCLOSE Act, enterprising activist liberals have taken it upon themselves to name and shame conservatives by “outing” their segregationist Democrat, all the way to the Supreme Court to defend the bedrock American liberty of associational privacy—asociational privacy. Here is what Justice Harlan said for the majority back then:

Inviolability of privacy in group association may in many circumstances be indispensable to preservation of freedom of association, particularly where a group espouses dissident beliefs.

As the majority opinion put it, this was “hardly a novel exception,” even back in 1958. And yet, for most of my career, I have had to push back against Democrats’ repeated attempts to unlearn this fundamental constitutional lesson. I have repeatedly defended Americans’ right to join together and to voice their opinions.

Prior to McCain-Feingold, almost all money in politics ran through candidates and party committees. I warned that placing unconstitutional restrictions on speech in that bill was like putting a rock on Jell-O—it wouldn’t quash political speech; it would just displace it. And the Supreme Court has consistently reaffirmed that point in case after case, upholding free speech.

Our Democratic colleagues’ obsession with regulating political speech is what created the environment they now disapprove of. It is what drove support for McCain-Feingold, and it is what spawned this perennial bill in 2010.

Democrats want to pass a law that puts discourse in the hands of the mob. But needless to say, they haven’t always been very concerned with compelling disclosure laws on the books. Existing law already requires disclosure of donations to PACs and other outside groups with the intention of influencing Federal elections. But even as our colleagues have introduced successive versions of the DISCLOSE Act, enterprising activist liberals have taken it upon themselves to name and shame conservatives by “outing” their
private contributions illegally. It was practically administration policy during the Obama-Biden IRS.

And for those keeping score, Washington Democrats never seemed as eager to publicize the donor rolls of groups it viewed as happening to lend it power to share. Somehow, donor privacy for organizations pursuing liberal causes is sacrosanct, but donor privacy for groups with conservative beliefs is a threat to democracy.

Somehow, work for outside groups is practically a prerequisite for a West Wing job under a Democratic President, but association with groups Democrats don’t like is a one-way ticket to picketing and harassment. Sixty-four years ago, the Supreme Court said the link between freedom of association and the freedom of speech was “beyond debate.” But today’s Democratic Party wants to make sure the threat to associational privacy is every bit as real—as real—as it was in 1958.

The message is clear: every enviable groups like the ACLU have joined the NAACP and Senate Republicans in continuing to sound the alarm—ACLU, NAACP, and Senate Republicans aligned, sounding the alarm. They have been working together to fight state and local public disclosure laws all the way to the Supreme Court.

Last year, the Court sided with those advocates to strike down predatory disclosure practices out in California. Earlier this month, the Ninth Circuit did the same to an unconstitutionally vague disclosure law out in Montana.

Meanwhile, the Federal judiciary itself is contending with particularly outrageous threats from the radical left to the privacy and security of the judges themselves and their families.

The same liberal groups stoking mob intimidation outside the homes of Supreme Court Justices are the ones most eager to put out private citizens’ political associations just to get back at them.

The same Democrats who refused to condemn naked threats against public officials earlier this summer once again want to expand the Federal Government’s power to threaten private, American people or their Constitution can afford to make.

ENERGY AND FOREIGN POLICY

Mr. President, now on another matter, right now, Washington Democrats are frustrated by the pace of the radical transformation they envision for our country. They are having trouble getting enough Senators to agree to make the most reliable and abundant forms of American energy more expensive for working Americans.

Energy prices are rising faster than at any point since 1980. Gasoline is nearly 60 percent more expensive than it was last summer. Natural gas is up nearly 40 percent in the same timeframe.

Washington Democrats have surveyed this scene and decided it is the perfect time—perfect time—to hike taxes on American energy, reviving a failed tax from the 1980s on American oil refineries and exporters and—listen to this—increasing it by nearly 60 percent, new sky-high fees on American natural gas producers and more pain at the pump for working families. It is an insane proposition.

But they appear to be an exception. If you are not among the 75 percent of Americans who say inflation has caused you financial hardship, and you happen to have a spare $80,000 lying around, Washington Democrats want to give you a green energy tax credit if you buy an electric vehicle made with Chinese supply chains. This is what Washington Democrats are trying to do with their one-party control of government, and they are hoping President Biden will declare a national emergency to help them do it faster.

Well, unfortunately for the far left, the President is occupied with a climate conundrum of his own. On the campaign trail, Candidate Biden left no doubt of his attachment to his party’s radical climatic dogma, whole hog. This is what he said back then:

I guarantee you we are going to end fossil fuel.

“End fossil fuels.” Sure enough, his first appearance was an all-out assault on American energy, just like green activists drew it up—day 1 bans on energy exploration; canceling a safe, cultivated professional fighting forces, and built robust military-industrial bases with strong connections to our own.

NATO is at its best when allies share the burden of our collective security, when we all have skin in the game. NATO allies recognized in 2014, after prodding by American Presidents from both parties, that they needed to invest more in capabilities to keep pace with growing threats.

During the previous administration, current member states made progress toward the 2-percent pledge. Finland, for its part, already spends 2 percent of its GDP on defense, and Sweden has the same target in its sights. For years, both countries have participated actively in NATO exercises. They have cultivated professional fighting forces, invested in cutting-edge interoperable technologies, and built robust military-industrial bases with strong connections to our own.

I know from my own conversation with the leaders of Finland and Sweden that they are sober about the threats we face, committed to building their own defense capabilities, and serious about their responsibilities to contribute to our collective security. Together, they have set an example that many current treaty allies would do well to follow.
With Finland and Sweden at the table, I look forward to important deliberations about the capabilities we need as an alliance and the steps we must urgently take to defend ourselves against growing threats from Russia, China, and other adversaries.

Mr. President, I know from my visits with our Swedish and Finnish friends that they hope for rapid accession to NATO. They are ready to get to work alongside us as allies. With war raging on the European continent, I share their urgency and anxiety, and I urge the Democratic leader to call up the necessary Senate votes without further delay.

But that can't be the Senate's last word on how America and our allies face down a dangerous world. We also need to take urgent action on the National Defense Authorization Act. Russia is laying siege to a sovereign neighbor. China is flexing a rapidly modernizing military. Reckless pariah states like Iran and North Korea are doubling down on developing dangerous weapons. It is past time—past time—to take America's own defense requirements more seriously.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. SCHUMER. Mr. President, before I begin, I want to say something about the House-passed Respect for Marriage Act, which would enshrine marriage equality into Federal law, which I fully and strongly support.

This is so important. I was really impressed by how much bipartisan support it got in the House. It passed 267 to 157. Forty-seven Republicans—about a quarter, a little less than a quarter of their caucus; maybe a fifth—voted for the bill. The legislation is so important.

I spoke to Senator BALDWIN, who is one of the leaders of this legislation in the Senate, this morning, and she is talking to Republicans to see where the support is. I want to bring this bill to the Floor, and we are going to work to get the necessary Senate Republican support to ensure it would pass.

CHIPS ACT

Madam President, now on the chips bill, last night, the Senate passed a critical piece of four-way to pass major legislation to lower costs, increase manufacturing, strengthen supply chains, and preserve American competitiveness in the 21st century.

I want everyone to note the final margin of last night's vote: 64 to 34. That is a clear signal that after a lot of hard work and after a lot of compromise from both sides, the path is clear for this chips-plus bill to reach final passage. This has been bipartisan work in the Senate at its best, just as we saw previously with bills ranging from gun safety to hate crimes, to infrastructure, to VAWA and so much more.

I thank my colleagues on both sides of the aisle for voting in favor of moving forward on this critical bill.

For the information of all, today I plan to file cloture on this legislation, which after last night's vote includes incentives for domestic microchip production, including TIC; support for our wireless communication supply chain, ORAN; and the science package, which includes many of the provisions I authored in the Endless Frontier Act in partnership with Senator YOUNG 2 years ago. It has been a long struggle to get these vital pieces of legislation moving forward, and now they are.

I hope we can get this legislation approved as soon as possible because now it is clear it has enough support to pass this Chamber.

For all the many good things the bill does, the most important is that this legislation will help our country fight inflation in the long run. People are paying for what they asked for. This bill will help. America's chip shortage, exacerbated by the pandemic, has sent tremors across the entire economy and caused prices for all sorts of electronic goods to go up and up and up. Our auto industry, our steel, our cars, appliances, phones. But with this bill, we can make America a major chip producer once again, which will help ease pressures on our supply chains, strengthen our national security, and generate another wave of American economic activity for years to come.

Thanks to last night's robust vote, we will also move forward on the science provisions that many of us have worked to pass into law. We will increase funding for the National Science Foundation and invest billions to develop new tech hubs around the country in areas that haven't had the benefit of new tech employment. This will all help America lead the way in developing technologies of tomorrow. Many more dollars than ever before are going into the cutting-edge technologies—AI, advanced manufacturing, renewable energy, quantum computing, cyber security. Why? Because when we invest in the science here, we create millions of new, good-paying jobs and ensure that America will be the leader in these cutting-edge issues, which will dominate the 21st-century economy.

For the sake of lowering costs, for the sake of American jobs, and for the sake of our national security interests, let's pass this bill as soon as we can. And that is my intention.

PRESCRIPTION DRUG COSTS

Madam President, now on prescription drugs and healthcare, from one corner to the other, another issue of inflation is the high cost of drugs. At every pharmacy counter and doctor's office, grocery store, and kitchen table, the issue that remains front of mind for American families is the cost of living. While finally we are beginning to see relief as some gas prices are falling, inflation undeniably continues to cost American families not just in America but around the world.

In one crucial area of life, high costs are simply unsustainable: the cost of healthcare and prescription drugs. The number of the high costs will continue the necessity of these drugs to keep us healthy and keep us living is a pincer that pinches so many Americans in a very harmful way.

But this week, the Senate will formally present our case to the Parliamentarian on a number of long-sought reforms to our Nation's healthcare system that will lower costs for tens of millions of Americans.

Under our proposals, for the first time, we will empower Medicare to negotiate the prices of prescription drugs in Parts B and D. We will cap out-of-pocket expenses for Part D precision drugs at $2,000 a year, giving millions of Americans, many of whom have serious health problems, the need these drugs—the support they desperately need so they can afford these drugs. Two thousand a year—that is it. The days of seniors paying tens of thousands of dollars per year for a forgoing medicine altogether will soon be over. And we will prevent healthcare premiums from spiking for tens of millions of people.

In addition, there is an inflation risk. So that once the company announces the price of a new drug, they can't just double it and double it and double it year after year, even after they have recouped their investment in the bill.

Lowering costs of prescription drugs, capping out-of-pocket expenses, keeping premiums low—these are the top priorities for the American people. Ask any American on the street, and it is a near-guarantee they will agree that rising drug costs is a serious problem. So we have to address the issue head-on.

Now, of course, Democrats will keep working on other major challenges that face our Nation. Our work on climate change is not done. We are going to work with President Biden's administration to fight climate change and protect our planet for the next generation. This is an existential threat to the globe, and we are going to keep fighting.

So, in the coming weeks, our caucus is going to be exceedingly busy as we finalize a reconciliation bill that can pass with the full support of our caucus. We still have a lot of work to do. Nobody says it is going to be simple or easy, but lowering the costs of healthcare and prescription drugs will make an enormous difference in the lives of the American people. Let's get it done and give Americans a much needed and long-awaited break.

TUCKER CARLSON

Mr. President, finally, on Tucker Carlson, FOX News. Last night, FOX
News host Tucker Carlson began his prime time show with another deranged rant on the conspiracy theory known as the “great replacement.” This racist theory, which asserts that a conspiracy exists to replace White Americans with immigrants and people of color, motivated a White supremacist to gun down 10 Black Americans in a grocery store in my home State of New York, in Buffalo, just over 2 months ago.

Readers may recall what Mr. Carlson said last night, among many deranged things. These are his words:

‘Sometime around 1965, our leaders stopped standing with other free nations by joining the NATO alliance. Vladimir Putin has taken over Russia. With unprovoked aggression will not be allowed to stand. And the least we and other free nations can do is ensure they have the resources they need to carry out their fight. Russian military, which has now turned to Iran for military support.

Carlson spread “replacement theory,” one of the biggest news networks in the world to amplify conspiracy theories—a weapons generation facility and a radio frequency facility—that will be needed to ensure Ellsworth is fully able to conduct the nuclear and stealth B-21 missions.

I urge Carlson to stop spreading “replacement theory” or else risk seeing more tragedies like the one we saw in Buffalo last month.

The Senate Armed Services Committee passed this year’s bipartisan Defense Authorization Act and people-legislation authorizing funding for our military men and women and the defense of our country.

The Senate Armed Services Committee passed this year’s bipartisan 2 months bill a month ago, and we have less than 2 months of floor time left in the fiscal year.

The Senate Democrats’ focus this month has been to pass some version of their Build Back Better tax-and-spending spree in hopes, I have to assume, of eking out a few more votes in November. Apparently, the National Defense Authorization Act will just have to wait. As it does now, this year’s NDAA authorizes funding for critical military priorities. The fiscal year 2023 NDAA continues the modernization efforts begun several years ago in the wake of the 2018 National Defense Strategy Commission report, which warned that our Nation’s readiness had eroded to the point where we might struggle to win a war against a major power like Russia or China.

It authorized funding to improve quality of life for our military members and their families, which is not only something we owe these men and women who sacrifice so much for us, but is also essential for recruiting and retaining members of our all-volunteer force. It helps to reinforce our nuclear deterrent, a key priority with continued nuclear threats from traditional powers like Russia and rogue states like Iran and North Korea.

And it continues our strong support for Ukraine. It is clear that Russia dominates every front page, but for 5 months now, Ukraine has been fighting a heroic war against Russian aggression. Thanks to support from allies in Europe and from our own country, Ukraine is still holding out. In a war that many experts thought could see Kyiv fall within a matter of days, Ukraine is approaching day 150 of resisting Vladimir Putin’s Soviet-style aggression. In fact, Ukraine continues to learn from American forces and faces against the Russian military, which has now turned to Iran for military support.

Later today, Olena Zelenska, wife of Ukrainian President Zelensky, will be addressing Congress. She and her husband have been a beacon for Ukrainians during this brutal war; and President Zelensky’s iron determination, his tireless leadership, and his unflagging commitment to his people inspire all those who love freedom.

Ukraine isn’t alone, standing up for the whole free world right now, sending the message that Russia’s unprovoked aggression will not be allowed to stand. And the least we and other free nations can do is ensure they have the resources they need to carry out their fight. Russian aggression against Ukraine reminds us that nations that value freedom and security must stand together.

Finland and Sweden are looking to stand up to Russia by joining the NATO alliance. Vladimir Putin has turned the historic positions of neutrality in Finland and Sweden into robust public support to join the alliance, and both of these countries will strengthen the capabilities and geostategic position of NATO.

Yesterday, the Senate Committee on Foreign Relations reported the treaty concerning their accession to NATO, and the Senate’s consideration of the Resolution will soon complete their respective roles and approve Finland and Sweden’s membership.

One priority for me in every National Defense Authorization Act is ensuring the men and women of Ellsworth Air Force Base in South Dakota have everything they need to successfully carry out their mission. Right now, my priority is ensuring Ellsworth remains a responsive and lethal component of global strike command, with the B-1 bomber leveraging the Joint Air-to-Surface Standoff Missile and its Long Range Anti-Ship Missile derivative.

As we look to the future, I am working to ensure the base continues to receive full funding for the many equipment support facilities that will be needed for the B-21 Raider mission at Ellsworth. I worked to ensure full funding for the first of these facilities in last year’s NDAA, including a low-observable coating restoration facility, a weapons generation facility and a radio frequency facility—that will be needed to ensure Ellsworth is fully able to conduct the nuclear and stealth B-21 missions.

I have had the privilege of visiting the B-21 production site in Palmdale, CA. And while the program remains heavily classified, I can say the six planes under production are impressive. We see American forces and the future in the B-21. As we are honored that South Dakota will be the first State to host the mission.

But it is not just about the hardware and cutting-edge systems. Our greatest asset is our people, including the pilots, the maintainers, and all of the men and women who have answered the call to serve. That is why I am focused on ensuring our men and women in uniform have not just the military support they need but the support they need for their families.

Modern military families will be moving into the Ellsworth area with the arrival of the B-21 mission—perhaps as many as 250 people per year, including 100 dependents. I am committed to ensuring that the infrastructure is in place to provide ample facilities for these families.

To that end, I worked to include in this year’s NDAA an extension of an authority for the Secretary of Defense to pay military and civilian employees on active duty and in the Reserves for housing rates if an installation is experiencing a sudden increase in the number of servicemembers assigned there. This will ensure that families at Ellsworth
and elsewhere will have the resources they need to secure appropriate accommodations.

I am also working to ensure that the Douglas School District is able to integrate and support Air Force members’ children and provide sufficient classroom space. NDAA would provide $15 million in impact aid for schools experiencing force structure changes like the anticipated growth at Ellsworth with the arrival of the B-21 mission.

I am grateful to Senator Rounds for his assistance getting this through the committee’s markup and to our State’s at-large Representative, Congressman Johnson, for his work to get it included in the House-passed bill. This expanded program should be a good first step to help ensure that Douglas School District is able to expand to meet the needs of new Ellsworth families.

The House of Representatives, to its credit, voted on its version of the National Defense Authorization Act the other day. But, unfortunately, the House legislation’s total funding authorization is lower than the Senate bill’s number. That is a concern, not only because we have a lot of priorities to fund but because inflation is currently cutting into the military’s spending power.

Inflation affects American families and businesses, but it also has a serious effect on our Nation’s security. As prices rise across the economy, the military is able to do less with the dollars that it has and that can affect troop readiness and the military’s ability to keep up with needed programs and purchases, from weapons to vehicles to aircraft and ships. It is essential that the final House and Senate bill include the Senate’s top-line funding number.

In his 1973 annual message to Congress, George Washington said: “There is a rank due to the United States among the powers of the world. It is a rank which we hope will be shed across the continent from the Atlantic to the Pacific Ocean. Our lead will be the example of our virtue, and our example will be the law of our conduct.”

The National Defense Authorization Act is one of the most essential pieces of legislation we take up each year because it helps ensure that our Nation is equipped to defend itself and to deter aggression.

I hope that the Democratic leadership will consider deferring its tax-and-spending plans to take up this important national security legislation in the near future.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from New Hampshire.

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that in addition to myself, both Senators GRASSLEY and CARPER be permitted to speak for up to 10 minutes each before the scheduled vote.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

TRIBUTE TO JEAN TOAL EISEN

Mrs. SHAHEEN. Mr. President, I come to the floor today as the current chair of the Senate Appropriations Subcommittee on Commerce, Justice, Science, and Related Agencies because I want to pay tribute to the clerk who has worked with me for the last 6 years but who has been in public service here for the Federal Government for 27 years, including 26 years of service in the U.S. Senate, and that is Jean Toal Eisen, who is going to be retiring from the Federal Government.

And Jean is along with two other members of the staff of the CJS Subcommittee, Blaise Sheridan and Michael Bednarczyk, as well as three members of my staff, Ariel Marshall, Janelle DiLuccia, and Chad Kreikemeyer, my chief of staff.

We are here because we think it is important, and I especially think it is important to recognize the people who make this body run. And it is people like Jean, who have dedicated their whole careers to this institution, who allow us—to—mean that we can, on occasion, get things done that make a huge difference for the people of this country.

And I know I speak for all the members of the Appropriations Committee and its staff when I say that Jean will be sorely missed.

Just last week, as I looked at the breathtaking images captured from NASA’s James Webb telescope, I thought about Jean. It is no exaggeration to say that Jean exists, in no small part, because of her work on this subcommittee. And they serve as a fitting capstone for her distinguished career.

And, of course, then I thought about other ways that Jean’s influence will endure, ensuring millions of people will get access to broadband because of her work on the Infrastructure Investment and Jobs Act—and there were many late nights that she and other members of my staff and Senator COLLINS’ staff with the Commerce Department to try and ensure we could get those broadband sections done—and then also helping survivors of domestic violence, sexual assault, and child abuse receive access to critical services because of Jean’s successful efforts to release more resources from the Crime Victims Fund. In fact, every year that I have been chair of Commerce, Justice, and Science, her efforts have maximized funding in the Office of Violence Against Women so that each year over year we have done better.

She has also been there to ensure that the next generation of STEM innovators and fund investments in the National Science Foundation and NASA. And it is really appropriate that we are considering bipartisan chips innovation legislation on the floor this week. Jean’s last in the Senate, because she played a central role drafting and negotiating this critical legislation that will bolster American manufacturing and protect our national security interests.

And though Jean will no longer be in the Senate, her legacy will already felt everywhere, and the American people are better for it. Jean’s journey in the Senate began as a staff assistant for Senator Ernest Hollings of South Carolina, her home State Senator.

For her, she served on the staff of the Senate Committee on Commerce, Science, and Transportation as senior adviser and deputy policy director for Chairman Dan Inouye, before serving as deputy policy director at the U.S. Department of Commerce.

And since 2010, she has served on the CJS Subcommittee, and from 2014 to 2017, she was the deputy staff director of the Senate Committee on Appropriations for Chair Barbara Mikulski, who I know if she were here would also be on the floor to sing Jean’s praises.

I have had the pleasure of having Jean as my clerk since 2017, when I took over the CJS Subcommittee as Vice Chair. And I think that words can’t capture how much Jean is going to be sorely missed, but I would be doing a disservice to this body if I didn’t try to give a sense of why Jean is one of the most effective staffers on Capitol Hill.

And I think the first thing to know is that Jean always gives you the truth—whether you want to hear it or not. The second thing to know about her is that she always has a sense of humor, even when the going gets tough, and all of us who have been here through tough challenges know that maintaining a sense of humor is absolutely critical.

Her colleagues will remember her as incredibly knowledgeable, kind, and pragmatic because, at heart, Jean is a problem-solver. She understands that the U.S. Government is one of the most impressive institutions the world has ever seen, and she has dedicated her career to improving it.

Jean is also the proud mom of her daughter Pat, who is a rising soprano. And Jean is, among other things, a saxophonist in the school’s “Stampede” Athletic Pep Band.
Now that she is no longer drafting annual appropriations bills, we hope that Jean will have more quality time to spend with Pat, with her husband Pete, and with her many family members and friends and maybe even a little more time for hockey and gardening. As a former lawyer, Jean has always enjoyed supporting the Boston Bruins, so we are not sure how much time we want to give her for that.

But it gives me great joy to publicly thank Jean for her extraordinary work for this committee. Congratulations, Jean. Thank you for your decades of service to our country and your commitment to the U.S. Senate. Neither your expertise nor your good humor will soon be replaced, but your work will not be forgotten anytime soon.

I yield the floor.

Mr. HAGERTY. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CARPER. Mr. President, I ask unanimous consent that the order for the question be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

NOMINATION OF GREGORY BRIAN WILLIAMS

Mr. CARPER. Mr. President, today I have the honor to rise in support of Greg Williams to serve as a judge on the U.S. District Court for the District of Delaware, one of the busiest and, we believe, most important district courts in our Nation.

Before delving into what makes Delaware’s district court such an essential part of the American economy and what makes Greg Williams an exceptional nominee to serve, in the words of the American Bar Association, they deem him “well qualified” to be a Federal judge.

I want to share some background and the process that we use in Delaware for making recommendations to the Federal bench to the President.

A few years ago my friend—and I call him my wingman—Senator CHRIS COONS and I had the opportunity to make recommendations to the White House for two vacancies on this same court. There was, at the time, a President of a different party, and the majority was on the other side, not on this side at that time.

Our process was simple then and was straightforward and borrowed heavily from the process that I used while serving as Governor of Delaware for 8 years. Throughout those 8 years when I was privileged to serve as Governor, we relied on a judicial nominating commission and charged them with a simple task. Basically, this was it: find the most qualified individuals, regardless of political party, make recommendations for appointment to Delaware’s many important State courts, including our State supreme court and the court of chancery.

We used a similar process for Federal district court vacancies. The process served Delaware well during those 8 years, and I believe that the process Senator COONS and I have used now serves our Nation well, too, regardless of which political party controls the White House.

It has yielded yet another extraordinary nominee. That nominee is Greg Williams, a partner at Fox Rothschild. Former president of the Delaware State Bar Association and President of the Delaware Law Firms Association, Greg is the next judge on the U.S. District Court for Delaware.

But Greg is more than a lawyer, much more. He is a father, a husband, a son, and a brother. In fact, he is the youngest brother in his family of five, with four older sisters, and I know they help to keep him on the straight and narrow much like my older sister did with me.

Greg has been married to his high school sweetheart, Terina, for 27 years. Together, they have raised two children in Delaware that any one of us would be proud to call our own.

A Villanova Law School graduate, Greg has worked at one of top law firms in the Nation, Fox Rothschild, for the past 28 years.

Through hard work and commitment to excellence, in 2003, Greg became the first African-American attorney to have been hired as an associate and then hired as a partner at Fox Rothschild. Greg learned those values—hard work and commitment to excellence—in part as a member of the U.S. Army Reserves, where he served from 1986 to 1994—part of those years when I was his commander in chief as Governor of the State of Delaware.

After law school, Greg embarked on a successful legal career that has earned him the respect and admiration of Delaware’s highly regarded legal community.

Greg has particular expertise in intellectual property and business litigation, which make him particularly well-suited for the Delaware District Court.

More than his professional qualifications, though, Greg is the personification of the Golden Rule, which calls on us to treat one another the way we would like to be treated. And, as a result, he is also the personification of judicial temperament in that courtroom—and any courtroom, for that matter.

Like Senator COONS and me and many of our colleagues, Greg is a person of deep faith. He understands personally the words “Golden Rule” and what they mean. And if confirmed, I believe he will use that rule to guide him on the bench.

Let me close by saying this: We have all probably heard a saying that is oftentimes used in relationship to an undersized boxersomeone who punches above their weight.

The Delaware District Court is one of the busiest courts in our country. It handles an array of cases related to intellectual property law, patent law, bankruptcy law, and other specialized business cases that are critical to the functioning of our national economy.

Like our small State, this court punches above its weight, and our nominee Greg Williams not only has the credentials and the temperament, but the strong work ethic that are necessary for this court to continue to function as one of the most important district courts in our land.

I consider it a privilege to give him my strongest possible endorsement, and I encourage my colleagues to join Senator COONS and me today in supporting his nomination on the Senate floor.

And with that, I don’t see if— I don’t know that our colleague—here comes Senator COONS, here to speak on behalf of this nominee as well.

I will just say this: You know, we have judicial nominees come before us, not every day but often in this body. In some cases, the folks who are from the State where that nominee hails, they know them, have at least a passing knowledge of them, and have maybe met them.

We have known Greg Williams for almost a quarter of a century. He is not just one of the finest lawyers in our State; he is one of the finest human beings in our State.

It is an honor for me to join Senator COONS in suggesting his name to the President, and I am grateful the President actually submitted that name now to the U.S. Senate for our consideration.

And with that, I am going to yield the floor. I see we have Senator CASISDY here. I don’t know if he has the opportunity to—no, he is going to wait for a while.

I am going to just stop right here.

Senator COONS stopped just briefly. I think he is going to be right back on this floor, and hopefully he will be able to pick up right where I—I will do the handoff to my colleague from Delaware.

Mr. COONS. Mr. President, I ask unanimous consent for 1 minute of floor time to speak to the impending nomination.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. COONS. Mr. President, I would like to thank my colleague and senior Senator, my friend, Mr. TOM CARPER, who allows me to be his wingman here on the floor of the Senate and in our home State of Delaware.

I just wanted to speak briefly to the outstanding qualifications of the nominee that will be before us in a moment, Greg Williams of Delaware.

As a member of the Delaware Bar, as a member of the Judiciary Committee, I have joined my senior Senator, friend, and colleague in advancing this nomination, both suggesting to the White House strongly that he would be an excellent next member of the important Federal bench in Delaware and
that he would represent our Nation well and contribute to our Federal judiciary, which is globally the gold standard for its capability, its independence, and its integrity.

Greg has practiced for decades in Delaware, taking his place in our unique place in American corporate law, because of the quality and the competence of our bench, we handle an enormous number of patent cases, a significant number of corporate cases.

I don’t know if my colleague has mentioned one of the top-of-the-charts cases about to come to Delaware, but when you make a promise to purchase a company like—I don’t know, hypothetically, Twitter—and then the deal comes apart, that ends up in a Delaware Federal court or Delaware chancery court. Our Federal District Court and our Federal Bankruptcy Courts handle significant litigation.

Greg is someone who also, as a family man, as a person of faith, as an outstanding leader in our community, as the past president of the bar association, as the past chairman of the judicial nominating commission on behalf of our Governor, he has served our community.

He brings his heart, his values, his intellect, and his skill to his service each and every day, and I am honored to join my senior Senator in speaking on his behalf on the floor. And I look forward to working with my colleagues across the aisle to ensure a swift confirmation vote today.

I yield the floor. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The senior assistant executive clerk proceeded to call the roll.

Mr. GRASSLEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

PRESCRIPTION DRUG COSTS

Mr. GRASSLEY. Mr. President, I am hearing a lot of news reports, and if they are correct, it sounds like the majority party has a very partisan bill that they want to call a drug pricing bill.

And I am also told that this is moving along because it looks like the Parliamentarian is currently reviewing that proposed legislation to see if it fits into the process of reconciliation. If the majority party passes its partisan bill, it will be bad policy for patients and taxpayers, but that doesn’t mean we don’t have answers to the problems that are trying to solve.

But first of all, let me say what the Senate-proposed legislation—what we know about it—would do. It would put taxpayers at risk for more spending. It would fail to enact any bipartisan accountability of Big Pharma and powerful middlemen that we call pharmacy benefit managers or PBMs for short.

Yes, a bipartisan bill limiting pharmaceutical increases is possible. And their法案 is the bipartisan legislation that I have developed over the past few years.

In the past 12 months alone, I have passed five bipartisan drug pricing bills out of committee that will lower prices and create more competition and hold Big Pharma and PBMs accountable.

In addition, I have a comprehensive bill to lower prescription drug prices that could pass the Senate with at least 60 votes. My bill is bipartisan; it has been negotiated; and it is comprehensive.

The bill is called the Prescription Drug Pricing Reduction Act. It is also known as Grassley-Wyden, but I want to be fair to Wyden. I am not sure that he would claim that he negotiated that bill, but I still like the bipartisan part of it.

The Senate should act today on this bipartisan bill to lower drug prices because this is what Grassley-Wyden would do: It would lower costs for seniors by $72 billion. It would save the taxpayers $95 billion. Those are CBO figures.

It establishes an out-of-pocket cap, eliminates the donut hole, and it redesigns Medicare Part D, that needs some redesigning after 19 years. This legislation will hold Big Pharma and powerful PBMs accountable.

Now, too often, cheaper alternatives like generics are available, but Big Pharma and these middlemen have an incentive to push the patient into higher-cost drugs, and patients pay the cost. My bill ends that incentive and is very pro-consumer.

A third point I want to make, it ends taxpayer subsidies to Big Pharma. It does it by capping annual price increases of Medicare Part B and D drugs at inflation. In other words, drug companies can’t raise prices two or three times a year 5 to 10 percent—once a year at no more than CPI.

A Kaiser Foundation study found that half of the drugs in Medicare Part B and D increased higher than inflation over the period of time that Kaiser studied covered. Over 600 drugs during the study increased 7.5 percent or more.

Another point of the bill: It establishes accountability and transparency. There are 25 major provisions to my bill to reform how the pharmaceutical industry operates.

Accountability in my bill includes, one, ending clawbacks that drive up costs at pharmacy counters for the patient. Second, ending ‘spread pricing’ in Medicaid contracts that drive up taxpayers’ costs. Third, requires sunshine on powerful PBM financial audits so the public knows the true net cost of a drug.

Everything with PBMs is opaque. You don’t know what goes on between the manufacturer and the consumer.

And, four and lastly, requires sunshine on excessive drug price increases and sunshine on the launch price of a new high-cost drug.

Big Pharma and powerful middlemen benefit from the current system that we have today, and at the same time, patients and taxpayers suffer. My bill’s bipartisan reform will change all of that.

Finally, the bill is bipartisan. I suppose Democrats get tired of me talking about a bipartisan bill when they are in the secrecy of their rooms drawing up their own bill.

We have 11 Republicans who supported this bill in the Finance Committee markup or are cosponsors of the bill. Thirteen Democrats supported this bill in markup. It was debated and negotiated in public.

But don’t take my word for it, take it from some of my Democratic colleagues. A few months ago, the senior Senator from Delaware was pressing me to hate me for saying this, but I am going to quote him:

Big Pharma was relentless in fighting what Senator GRASSLEY is talking about and has been for 2 years.

My bill will save seniors money, save taxpayers money, hold Big Pharma and powerful middlemen accountable, and enact necessary reform and sunshine; plus, it has bipartisan support.

So we can lower drug prices without having to resort to this partisan reconciliation process. The Grassley Prescription Drug Pricing Reduction Act is a solution. It is a product of a bipartisan, transparent process. It will make clear that to the secrecy of the Democratic reconciliation process.

I yield the floor.

CLOTURE MOTION

The ACTING PRESIDENT pro tempore. Pursuant to Rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The senior assistant executive clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the nomination of Executive Calendar No. 989, Gregory Brian Williams, of Delaware, to be United States District Judge for the District of Delaware.

The ACTING PRESIDENT pro tempore. By unanimous consent, the mandatory quorum call has been waived.

That would fail to enact any bipartisan accountability of Big Pharma and powerful middlemen that we call pharmacy benefit managers or PBMs for short.
The question is, Is it the sense of the Senate that debate on the nomination of Gregory Brian Williams, of Delaware, to be United States District Judge for the District of Delaware, shall be brought to a close?

The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The senior assistant executive clerk called the roll.

Mr. DURBIN. I announce that the Senator from Vermont (Mr. LEAHY), the Senator from Maryland (Mr. CARDIN), the Senator from Massachusetts (Ms. W ARREN), and the Senator from New Hampshire (Mr. WHITEHOUSE) are necessarily absent.

Mr. THUNE. The following Senator is necessarily absent: the Senator from Louisiana (Mr. KENNEDY).

The yeas and nays resulted—yeas 52, nays 43, as follows:

[Rollcall Vote No. 262 Ex.]

YEAS—52
Baldwin Jeff Merkley
Bennet Michael Bennet
Blumenthal Richard Blumenthal
Blunt Roy Blunt
Boozman John Boozman
Booker Cory Booker
Brown Sherrod Brown
Cantwell Maria Cantwell
Capito Shelley Moore Capito
Cardin Ben Cardin
Carpenter Mike Carpenter
Casey Bob Casey
Collins Susan Collins
Coomes Randi Cooper
Cortez Masto Catherine Cortez Masto
Cramer Heidi Cramer
Duckworth Tammy Duckworth
Durbin Dick Durbin
Feinstein Dianne Feinstein

NAYS—43
Barrasso John Barasso
Blackburn Martha Blackburn
Boozman John Boozman
Braun Todd Braun
Cassidy John B. Kennedy
Cochrane James Cooper
Coons Christopher Coons
Cortez Masto Catherine Cortez Masto
Cruz John Cornyn
Cotton John Cotton
Crapo James M. Inhofe
Daines Steve Daines
Ernst Jodei Ernst
Fischer Joni Ernst
Grassley Chuck Grassley
Hagerty John Hagerty

Leahy Patrick J. Leahy

The PRESIDING OFFICER. The yeas are 52, the nays are 43.

The motion is agreed to.

The PRESIDING OFFICER. The Senator from Maryland.

Mr. CARDIN. Mr. President, I suggest the absence of the quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. WYDEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CHIPS ACT

Mr. WYDEN. Mr. President, our economy is as resilient as any in the world. At the same time, we know that it is important to always look to modernize key economic policies, particularly as it relates to fundamental questions of research and development and also production and manufacturing, in order to create high-skilled, high-wage jobs from sea to shining sea.

Now, I come from a State that is a leader in technological innovation, not just for our country but for the world. Oregonians know how important it is to invest and make sure that the United States stays at the forefront of technological breakthroughs.

The reality is, when it comes to chips, we have some important work to do, so I want to take just a few minutes to describe why it is so essential for the Congress to get this legislation done now.

First, all, our bill is going to bring down costs for consumers and businesses. Everybody knows there are chips in laptops, phones, and cars, but there are also chips in refrigerators and even vacuum cleaners, as we saw at Stark's in Southeast Portland recently.

From the time you pick your head up off your pillow until the time you go to bed at night, you are interacting with chips. That is what made it such an economic nightmare when the pandemic hit and the supply of semiconductor got cut short. Prices for a host of important goods went into the stratosphere. Some products weren't available at all. Factories in America went dark because they couldn't get component parts. Anybody who has had to buy a car in the last few years probably can tell you a horror story about the buying process.

This legislation is going to go a long way to increasing the production and manufacturing here in America. It is hugely important for all Americans every single day because, from the time you get up in the morning until the time you go to bed at night, you are using these chips. This legislation is going to create a huge, huge number of good-paying jobs. Oregonians know well that the jobs at these chipmakers can become an economic fuel for a whole region in the country. We need to guarantee that investment happens here in America instead of overseas.

Third, this legislation would help shore up our national security and our economic security. With respect to the economy, when there aren't enough chips to keep our factories running and our shelves stocked, workers and the American economy suffer. And when the vast majority of chips are produced in just a few sites overseas, there is a big risk that the United States won't be able to get its hands on the chips needed to keep the American people safe. That's a sufficient reason.

That leads to my second point. Investing in domestic chip production is going to create a huge, huge number of good-paying jobs. Oregonians know well that the jobs at these chipmakers can become an economic fuel for a whole region in the country. We need to guarantee that investment happens here in America instead of overseas.

Second, this legislation would help shore up our national security and our economic security. With respect to the economy, when there aren't enough chips to keep our factories running and our shelves stocked, workers and the American economy suffer. And when the vast majority of chips are produced in just a few sites overseas, there is a big risk that the United States won't be able to get its hands on the chips needed to keep the American people safe. That's a sufficient reason.

In the weeks and months ahead, we will keep working on these issues. Cracking down on trade cheats, fighting for investments and jobs in America. I am proud that I was able to lead the effort in the Senate Finance Committee to focus on producing and manufacturing more semiconductors in America. It is hugely important for my State, which really does research and development for the entire country. But it is important for all Americans every single day because, from the time you get up in the morning until the time you go to bed at night, you are using these chips. This is, in my view, the first step of many of these steps that we have to take to promote more innovation and the path to creating high-skill and high-wage jobs in America.

Let's take the first step with this important legislation. Pass this bill. I urge my colleagues to vote for it later when we get to the final vote. I yield the floor.

The PRESIDING OFFICER. Mr. President, I come to the floor today to talk about the economic crisis that this Nation is facing, all as a result of the actions of the Democrats and Joe Biden.

Right now, Joe Biden is on his way to Massachusetts. He is expected to announce, while he is there, even more restrictions on American energy. One New England Senator has lobbied him to go “executive Beast Mode.” The Senator might forget that we still have a Constitution. The Supreme Court ruled that the President can’t do that. The Constitution says Congress writes the laws and it is up to the President to enforce them.
I would also remind that Senator that Joe Biden just got back from a trip to the Middle East. That is where he went to beg the Saudis to produce and to sell us more oil. Joe Biden doesn’t need to fly around the world to solve the energy crisis that he created. The answer is right here in America. We have some of the largest energy reserves in the world. We have the best energy workers. We have the highest standards. Yet Joe Biden won’t let go of his stranglehold on American energy. He would rather send our money and more money to the Middle East than let us use the energy we have sitting right here in the ground in the United States.

Joe Biden has created the worst energy crisis for our country in the last 40 years—40 years. Gas prices today in my home State of Wyoming and all across the country are more than $2 per gallon higher than they were the day Joe Biden took office.

The natural gas that Joe Biden ordered to triple under Joe Biden and that means even higher prices are on the way. Natural gas powers half of the homes in America and the price of that natural gas has tripled under Joe Biden.

Laxflation—Joe Biden’s energy policies cost the average American family more than $1,000. That was last year. This year it is going to be higher than that. Higher energy costs are driving up the costs of everything—almost everything—because energy is such a vital part of our nation’s economy.

Higher energy costs have led to the worst inflation crisis in 40 years—worst inflation in 40 years. Under Joe Biden, inflation has hit record highs. In the previous administration, inflation was nearly nonexistent. But for 15 months in a row now, prices have gone up. And not just have prices gone up, they have gone up faster and faster than wages have gone up. With every passing month the working families can’t afford less than they could the month before.

This is Joe Biden’s America. This is what he brought and the Democrats who supported him in position and policy after each, one after another.

This year, the average family will pay $100 a week more just to buy the same things they bought last year. Just to stay even, it is $100 a week more. That is over $5,000 for the year. One hundred dollars a week adds up very quickly. As a result, people are spending more money because they are not making enough to keep up. They are falling behind. They are borrowing money just to get by.

The savings rate in the country has plummeted to the lowest level since the Great Recession of 2009. Credit card debts are at an all-time high because people can’t afford things and are putting things on the credit cards. Personal debt is at an all-time high. Consumer confidence, on the other hand, is at an all-time low. Thank you, Joe Biden and Democrats.

Working families are being pushed to the breaking point. That is what we have here in America today. All told, it is the summer of strain and stress and suffering for American families. It is all happening because of the dereliction of duty on the part of the United States and the Democrats in this very body. The American people just want to be able to afford enough to pay their bills. They want to be able to afford money in their wallet to fill their tank with gas and to go to the grocery store and buy a full week’s worth of groceries and have enough left over at the end of the month to pay their bills. Yet the Democratic Party and the Democrats, who are in charge of both the House and the Senate, this is becoming nearly impossible in America today.

Democrats call this the cost of the “liberal world order”—the liberal world order. Look what it is getting us. Believe it or not, that is exactly what the White House has said. That is their official policy on the cost of inflation and the cost of energy being so high: Tough; suck it up. Liberal world order means I don’t care what it costs you or what pain and suffering we put onto the families of this country.

Meanwhile, as the President is going to talk about his climate emergency in Massachusetts, baby formula is still out of stock in stores across America. For 15 months, there has been nothing but bad news coming from this administration and the Democrats for the working families in this country.

Last week, working families got a one-two punch of even more bad news. First, they found out that, once again, inflation is at another 40-year high. They also found out it is not going away any time soon. On Thursday, we found out that what is called wholesale inflation—which is the inflation that our producers are experiencing—is even worse than the inflation for consumers. These are the people who build our homes, who grow our food, keep the lights on, and carry our mail. They are the people who are on the front lines of the working Americans because, in inflation, is higher for producers today, inflation is higher for producers today, inflation for consumers tomorrow will be higher than it is today. It means there is no light at the end of the tunnel.

But that is not what Joe Biden is telling us. He has continued to say: Oh, inflation is transitory. Pay no attention to the fact you can’t pay your bills, you can’t buy enough food to feed your family, and you can’t fill your car with gasoline. Tough. Pay no attention.

He said on Thursday that the inflation numbers we are using are “out of date.” He is out of date. Joe Biden is essentially saying inflation peaked before the Fourth of July. That is what he told the American people. Well, remember the last time Joe Biden said inflation peaked? That was last year in December he said it peaked. What has happened over the last six months to this inflation? It is now July, and inflation has broken new records three more times in just the last 6 months.

Is he clueless? Does he believe what he is saying? And who is surrounding him at the White House? Joe Biden was wrong in December; he is wrong now. He has been wrong every step of the way, and yet Democrats blindly follow him right over the cliff.

First, he created the inflation crisis; then he denied it existed. Oh, then he said it was transitory. I think it was a year ago yesterday, he said it was transitory. Then at one point, the White House even said it was a good thing. It is not good for American families, not good for the men and women who go to work every day. Then Biden decided, let’s start blaming everyone but ourselves.

At every step of this crisis, Joe Biden has told the public things that were simply not true. Joe Biden keeps trying to downplay the pain and the suffering going on all across the country. And the President’s poll numbers have continued to plummet because the American people say you are focused on things that are not important to them.

In fact, 1 year ago yesterday, Joe Biden said inflation would be temporary. He was wrong. The Democrats running Washington right now are completely out of touch—I mean, completely out of touch with the American people as Members of this body. Yes, Joe, go to Boston. Declare a climate emergency to claim a crisis.

There are a lot of crises in America today; climate is not one of them. There is an inflation crisis, an energy crisis, a border crisis, a crime crisis. There is a crisis in the White House of competence and credibility. But no, Joe Biden has other things on his mind—a climate crisis. Only 1 percent of Americans list that as a key item in their lives—only 3 percent of Democrats; only 3 percent of people under the age of 30. Everybody is focused on inflation. Joe Biden is going to Boston to talk about climate.

In fact, 1 year ago yesterday, the Democratic Party, a government of the elites, by the elites, for the elites. The Democratic Party has completely forgotten about the working men and women in America. For more proof of this, the Democrats are talking about more reckless taxing, more reckless spending.

When did the inflation crisis start? Right after the Democrats passed their last spending bill in March of last year when they put $2 trillion on America’s credit card—party-line vote for massive government spending. They bailed out bankrupt blue States. The Democrats spent $2 trillion, triggered inflation, triggered a nightmare—a nightmare, I tell you—I have been rebuking the American people of $100 every single week since then.

Democrats must have enjoyed their shopping spree because they spent the second half of last year trying to pass an even bigger, more reckless spending bill. Here they are again, trying it once again. It was reckless then; it is reckless now.

And the President’s poll numbers continue to plummet because the American people say you are focused on the wrong thing, you are ignoring our needs.
You are abandoning the people. You have abandoned them, and that is why so few people think the country is heading in the right direction, and so many people are looking for a change. Democrats don’t seem to care. They know they are attacks by this administration and the Democrats in this body on American energy. That is what is causing the price of everything from gas to groceries to hit one record high after another.

The Democrats have spent us into record-high inflation. Now it seems that they want to tax us into a recession. The last thing the American people now need is more spending, more taxes, more debt. What we need is more American energy.

We are out to get out of this crisis is to stop the reckless spending and increase the supply of American energy. We don’t need to look halfway around the world for energy; we have it right here in this country. It is time for the President and Congress to act. We have to make sure that American families have access to lower prices at the pump by reducing our dependence on fossil fuels. I want to say that again. In the long run, the best way we can ensure that American families have access to lower prices at the pump is by reducing our dependence on fossil fuels. Doing so isn’t just critical for protecting Americans from high energy costs; it is necessary for addressing the existential threat of climate change.

Make no mistake, the climate crisis is here. It is here. It is in Europe. It is in Asia. It is in South America. It is in Africa. It is all over the world. We see the heat waves and wildfires across the Western United States that are bigger than my State. Currently, wildfires are burning, as I said, 89 large fires in 12 States, and it is only expected to get worse. According to the National Oceanic and Atmospheric Administration—we call them NOAA—the decades-long megadrought in the American West is not just persisting, it is intensifying and expanding east, worsening the threat of additional wildfires.

We see climate change in the form of rising sea levels that produce waves able to wipe out weddings in Hawaii just last weekend.

This event is a real-life consequence of what experts have already told us: Sea levels are rising faster than they have in more than 3,000 years and are expected to rise by an additional foot by 2050.

We know this firsthand in Delaware. Delaware is the first State. The lowest lying State in America is Delaware. Our State is sinking. The seas around us are rising.

Down in Louisiana, a big State in another part of the country, they are experiencing sea level rise as well. In the State of Louisiana, you know what, every 100 minutes—every 100 minutes—they lose a piece of land to the sea the size of a football field in Louisiana. I will say that again. Every 100 minutes in Louisiana, they lose a piece of land the size of a football field—every 100 minutes.

per household and business and didn’t take into account the property losses from the historic wildfires I have just been talking about.

We continue to see the destruction that accompanies climate change happen on a global scale as well, threatening the critical infrastructure we rely on for international trade. This week, I mentioned the record-breaking temperatures they are seeing in England and in Europe and in Germany and other places.

Most tragic of all, these climate-induced events are putting people’s lives at risk. Extreme heat is the leading cause of weather-related deaths in our country. According to NOAA, the 12 most costly extreme weather events in 2021 alone resulted in the deaths of nearly 700 people.

Addressing this crisis is the challenge of our time. It is directly tied to the prices we pay at the pump and in nearly every facet of our lives.

Instead of doubling down on policies that continue to fail American consumers and the planet, as some of our colleagues have been advocating for today, we should focus our attention on policies that work towards our transition to a clean energy future and leaves no community behind in the process. It is our ticket to a brighter future and one without record-breaking heat waves, high gas prices, and unprecedented devastation.

Let me close with apologies to Stephen Stills. Stephen Stills is a great songwriter and singer with Buffalo Springfield, an iconic group. Long ago, he wrote a song that has these words. We have heard them a million times. It starts something like this:

There is something happening here, [just] what it is ain’t exactly clear.

Those are his words, the opening line from one of the great songs of all time. Well, with apologies to Stephen Stills, something happening here, and it is exactly clear what is causing it. It is a climate crisis. We have way too much carbon in the air. We are producing more. That is the bad news.

Here is the good news: We can do something about it. We can do something about it. Part of it is—I will just close with this—30 percent of our carbon emissions in this Nation come from our cars, trucks, and vans—30 percent of all the energy we are using are automakers build cars, trucks, and vans that run not on gas and diesel but on electric. We are beginning to install literally thousands of charging stations all over the country to help provide an opportunity for people to charge their batteries and also to buy hydrogen, when we switch to hydrogen, for fuel cell vehicles. Those expansions and those investments will put literally hundreds of thousands of Americans—probahbly scale as well, that—to work across the country, in every corner of the country, to enable us to reduce carbon emissions from our mobile fleet.

Instead of just burning coal and to some extent natural gas, we have the opportunity to create clean energy from advanced nuclear. I am a Navy guy, 27 years in the Navy all in. We have been doing nuclear energy in the Navy for 50 years. Do you know how many people have died in the Navy from exposure to radioactive materials? Zero. Fifty years—perfect record.

We are now in the beginning of a new development and a new exploration in nuclear power from small modular nuclear reactors—a lot safer than the ones we have been building for years.

We are in a position now to have, literally, from Maine all the way down to Maryland, offshore wind that creates enormous amounts of carbon-free electricity that we can use to charge our cars, trucks, and vans and actually put a lot of people to work building those windmills and doing good things for our planet.

The climate crisis is here. The question is, What do we do about it? And there is an opportunity to meet it head-on. And it is not like you got to eat your broccoli. No, no, no. This is something we could actually not just do good things for our planet, help us avert greater disasters in the days going forward, we could actually create a lot of economic opportunity, a lot of good work that we can do that and we can do both. We need to do that. We need to do that.

I yield the floor to my friend from Texas, Mr. CORNYN. Mr. President, while my friend, the Senator from Delaware, is on the floor, in Texas we are known for oil and gas production, but the truth is, and what I think we really should be known for, is for an “all of the above” energy policy.

We produce more electricity from wind turbines than any other State in the country, and that is a surprise to a number of people.

But one reason for an “all of the above” energy policy is that during the current hot spell we are experiencing in Texas—I think we have had over 33 days of over 100-degree temperatures in my hometown of Austin, TX. It is hot. Some might say: Well, of course it is hot. It is July in Texas. But what has happened, we have seen this phenomenon, which is not producing nearly as much electricity because it is not blowing as hard as it might otherwise do.

So, again, I think if we can encourage an “all of the above” energy policy, then different segments of the energy picture can fill in at different times and satisfy our overall need.

I thought while my friend was speaking on that topic I would just mention that interesting that we have learned here recently in Texas.

Mr. President, last night, the Senate moved forward on the CHIPS Act. As colleagues have heard me talk about this before, this was actually filed in 2020.

Senator WARNER, the senior Senator from Virginia, a Democrat, and I, a Republican from Texas, introduced this bill back in 2020, well before the pandemic.

The main concern was that our supply of microcircuits that run everything from our cell phones to our laptops, to F-35 Joint Strike Fighters—we depended on a vulnerable supply chain from Taiwan. The United States produces zero percent of the advanced semiconductors we need here in America.

And anybody who has tried to buy a car lately or even a washing machine or a laptop of computer knows that the supply chains of semiconductors, and thus these products, are severely constrained because our economy has taken off post-COVID-19, but the supply chains can’t keep up with demand and parts of these semiconductors. So that is why this bill is so important.

Over the last several days, I have worked with colleagues on both sides of the aisle to craft a dramatically slimmed-down version of this competitiveness bill we passed here in the Senate last summer.

The final text of the bill was not released before the procedural vote last night, which was a point of frustration for a number of colleagues, and I can certainly understand. Here they are, asked to vote on a procedural vehicle to get on this bill, and they don’t know exactly what the bill is going to look like. And that was the reason some of them decided to vote no against the motion to proceed. I completely understand that.

But our colleagues will have time to review this bill in the coming days, and I hope that support for this legislation will continue to grow. After all, it is a matter of our economic and national security.

The global semiconductor shortage has claimed a lot of attention over the last couple of years because of the impact it has had on consumers, but these aren’t existential threats; these are inconvenient because of these constrained supply chains.

If, for example, there was another pandemic or a natural disaster or if, heaven forbid, the People’s Republic of China decided to forcibly unify with Taiwan, this could potentially block access to all of the advanced semiconductors that we need in America, and this would be a dramatic negative effect.

First of all, it would create almost instantaneously a recession here in America. Thousands of people would be put out of work. But what I want to focus on are the national security consequences.

When we send our troops on any mission—by air, land, sea, or cyber—we need the very best equipment and technology available. And now more than
ever, this technology cannot function without semiconductors, without these chips.

Just one example is, look at the Javelin missiles that we are sending over to Ukraine to defeat the Russian Federation invasion. Each one of these Javelin missiles that the Ukrainians are using to such good effect requires more than 200 semiconductors in just one Javelin missile, and so far we have sent 5,500 of them to Ukraine.

But it is not just these big items that need chips, it is things like the helmets that our fighter pilots use to fly and navigate; communications devices like radio sets to call in reinforcements to save American lives; smart hand-held cameras that attach to our troops' gear that see around the corners to keep them out of harm's way; and even advanced body armor uses semiconductors.

If we ever needed to deploy the full force of the U.S. military and ramp up production to replenish our supplies, we would need an astronomical number of semiconductor chips.

That is why bringing that manufacturing capacity back onshore, back home to America, is so important.

The big bipartisan priority, as I said, for the last couple of years, and this isn’t the first time that semiconductors have been regarded as a matter of national security.

Interestingly, in the 1980s, it was a big priority for President Reagan. At that time, our country was up against the Soviet Union’s expansive military forces. President Reagan knew that maintaining our edge would be a result of smarter military systems, not just bigger ones or more of them.

As two national security and foreign policy experts from the University of Texas put it, “Reagan didn’t merely outspend the Soviets, he . . . sought to out-innovate them.”

He pushed to maintain our competitive edge in chips, thereby helping us lead in the advanced weapons and airframes that they enabled.

But this isn’t just about what happens tomorrow or 6 months from now; we are talking about safeguarding the developments that will underpin our national security in 10, 20, or 30 years. That is why so many people from diverse political viewpoints support this effort.

As we all remember, the CHIPS for America Act received broad bipartisan support when we first voted on it. It was adopted as an amendment to the annual Defense authorization bill by a vote of 96 to 4. Ninety-six percent of the U.S. Senate supported the bill.

Since it became law a year and a half ago, we have heard from a range of voices and stakeholders who don’t typically align.

For example, former USTR—U.S. Trade Representative—Robert Lighthizer, who served in the Trump administration, has been a vocal advocate for chips funding.

At a Senate Finance Committee meeting 2 years ago, he said semiconductors are a key part of our economy as well as the future of American security.

Biden officials have shared this same sentiment. The Secretary of Defense and Commerce recently sent a letter to Congress urging swift passage of this chips funding, saying it is “an imperative to our national security.”

Countless organizations, experts, businesses, and industry groups have expressed the same point of view. Some of the most respected men and women in the national security world wrote a letter to Congress urging quick action on this funding. That group included a former Secretary of Defense, former CIA Director, and former Director of National Intelligence.

We have also heard from the National Governors Association and the U.S. Conference of Mayors, which represents State and local leaders across the country.

We have heard from groups that represent automakers, the defense industry, consumer electronics, and telecommunications companies as well.

Last month, a group of more than 120 tech CEOs called on Congressional leaders urging quick action on this legislation.

It is rare, especially today, to have such a broad consensus from so many different perspectives on a single issue relevant to national security, but that is how important this legislation is.

I am optimistic about where we are at the moment after 2 long years of getting here, and I am glad Speaker Pelosi has said the House will take up the Senate bill as early as next week.

The bottom line is, there is a lot at stake here, and I hope we can deliver a major win for our national security in the coming days.

I yield the floor.

The PRESIDING OFFICER. The Senator from Kansas.

ENERGY POLICY

Mr. MARSHALL. Mr. President, well, summer is in full swing, and all across the Midwest, people are preparing for lake vacations, for family barbecues, but new to this year’s agenda, they are also preparing for Biden blackouts.

The shocking new inflation numbers show Americans already paying 42 percent more for energy than this time last year. By 2030, in the United States, we won’t have coal. We will not have [any] coal plants.

We, may not have coal, but we will have blackouts.

And it was Joe Biden on the campaign trail, in his own words—I am saying all remember—who said: “Kiddo, I want you to just take a look . . . I want you to look into my eyes. I guarantee you, we are going to end fossil fuels.

And we wonder why Americans won’t invest tens of millions—hundreds of millions—on dolars—on our energy sector to drill new oil. Yet this President has declared war on American energy, and every American is paying the price at the gas pump. And yet this President wonders out loud why companies won’t invest in a future exploration when it takes 5 or 10 years for a payback on these types of investments.

He continues to create uncertainty.

It doesn’t have to be this way. Republicans have been sounding the alarm on the negative impacts of this administration’s policies since President Biden took office. Honestly, this should be surprising to no one. Yet the left seems confused, stupified, and without a plan except to turn off your air conditioner and your freezer.

Even more, they have resorted to outright lies. In fact, they repeat these lies over and over, hoping America will eventually fall for them. They repeated a lie from President Biden about a proposal—about an act—that would impact global supply? I even asked the Interior Secretary if this policy made it more difficult for oil companies to drill, and she couldn’t give me an answer. She didn’t care.

This administration doesn’t care. This administration doesn’t care about the cost of gas at the pump; that is, until they get it high enough to make driving electric cars more comparable.

And don’t even think about implying that John Kerry, Biden’s climate envoy at the moment, would cause private companies to take coal-powered plants offline and eliminate baseload without a plan going forward. After all, he said in Glasgow: “By 2030, in the United States, we won’t have coal. We will not have [any] coal plants.”

We, well, may not have coal, but we will have blackouts.

And you wonder why Americans won’t invest tens of millions—hundreds of millions—on dolars—on our energy sector to drill new oil. Yet this President has declared war on American energy, and every American is paying the price at the gas pump. And yet this President wonders out loud why companies won’t invest in a future exploration when it takes 5 or 10 years for a payback on these types of investments.

Energy Policy
Why else would he have gone overseas to Saudi Arabia to beg for more oil? Why is the White House reaching out to dictators in Venezuela or countries that sponsor terrorism like Iran instead of supporting American production in places like my home State of Kansas?

When I asked the Secretary of Energy in committee about the price of gas, she cheekily replied that she drives an electric vehicle. This is the same Secretary of Energy that laughed and said Americans are “chilly” when asked about her plan to increase oil production in America. That is how this administration responds to the pain of the American people: laughing as they ride away in their fancy electric vehicles.

All that said, I truly hope that those of us forced to experience a Biden blackout are able to get safely through it. For many, a short-term blackout might prove a mild inconvenience. But with winter weather waves coming to states across the Nation and the rest of the Midwest, it could lead to life-threatening complications. These Biden blackouts show that it is well past time to cut the climate extremism, stop the anti-American policies devastating our communities, and stop looking overseas to fix problems that we have the answers to right here in America.

The PRESIDING OFFICER. The Senator from Louisiana.

Mr. CASSIDY. Mr. President, I hear from families in Louisiana every day that they are struggling to keep up with gas prices at historic heights. It is becoming unaffordable to drive to work or drop their kids off at school. The 15-year-old pickup that they drive—not because they don’t want a new car but because they cannot afford a new car—now costs $100 a tank to fill up. And for those who say, ‘Tell them to buy an electric vehicle, that is the modern-day equivalent of Marie Antoinette saying to the peasants “Let them eat cake.”’

Families are forced to choose between buying groceries or buying gas. And the Biden administration doesn’t seem to be listening, so I am here to make their voices heard.

Let me just read from letters we received from constituents, just kind of like telling the story. Here is Lorrie from Jamesport, LA.

Dear Mr. Cassidy, Is there any relief in sight for gas prices? We had affordable gas under the Trump administration. There is no reason why we shouldn’t have these prices now if the oil and gas production in the United States was in full force. Why would we ever depend on other countries for anything when we have not been energy independent just a short time ago? Families in our country are suffering.

Next letter, Gwendolyn from Prairieville:

Dear Senator Cassidy, I do not know what it takes to get American oil and gas produced as resources. I am a divorced 60-year-old woman on a limited income. Gas has gone up, electricity has gone up, groceries have gone up, medical expenses have gone up, and insurance has gone up drastically, and my pay has not kept up at all.

Here is Donnis from Singer:

Dear Senator Cassidy, I just wanted to voice my opinion that it makes no sense that our government will not renew oil leases off the coast of Louisiana . . . There is no reason we need to be held hostage by countries who do not care about our sovereignty.

Here is Philip from DeRidder:

Please help with these high gas and food prices. I am retired and on a fixed income and these higher gas prices and food prices are starting to go beyond my means. My wife and I are both 70 years old.

Here is Gregory from New Iberia:

This is not about party affiliation. We’re coming into a bad crisis. Both parties need to come together and talk about drilling. We have all the resources we need to start drilling again, and I know you are trying. I see it on the news. Please keep trying.

Here is Laura from Vinton:

I want to express my concern for us Louisiana citizens. Gas prices are rising every day. Food prices are rising everyday also. It’s coming down to having to choose between to get gas or get groceries. Something needs to be done. U.S. citizens are suffering daily. Please help us.

Here is Daryl from Mooringsport:

As your constituent, I urge you to publicly call for and vote in favor of the immediate and permanent expansion of domestic oil and natural gas production. No more Green New Deal nonsense. Energy independence is driving higher gas and diesel prices that are causing skyrocketing gas and food prices. We can’t rely on Iran or Venezuela to save us. We need to produce our own energy here—in America—and NOW.

Lastly, Karen from Gretna asked:

Why are we importing any oil? Energy independence is of vital importance to us and our national security. Louisiana was a leader in domestic energy production. It is shocking to see how quickly our country has changed. Please continue to work on our behalf to force our government to reinstate the energy independence policies that were in effect during the Trump administration. Speak loudly for us.

Speak loudly for us.

What these letters make clear is that Americans are hurting. That is why I call for an Operation Warp Speed to lower the prices at the pump, to unleash American energy, and to regain our energy independence.

President Biden needs to stop prioritizing fake electric activists over the families sitting at the dinner table asking what they have to give up next in order to make ends meet.

President Biden, as one of my constituents says, needs to go where real people live.

With that, I yield the floor.

Mr. BLUNT. Madam President, that whole concept of going where real people live is an important one. When people are facing utility bills every month and a bigger bill every time they fill up their gas tank, it doesn’t take long for them to figure out that policy decisions somewhere have changed something—and something that really dramatically affects their quality of life. And then it didn’t take long to figure out that those policy decisions in Washington are the decisions that are made for the benefit of America.

When a blackout causes the lights to go out and your refrigerator to stop working, the impact of energy policy becomes pretty tangible and you understand pretty quickly that this is impacting you. That is a prospect that a lot of people are facing this summer. It is not theoretical, but in too many places, it is happening and happening over and over again.

In late May, the North American Electric Reliability Corporation released a report that said that nearly two-thirds of the United States could experience blackouts this summer as a result of reliability challenges of the electric grid. Now, that group is a non-profit regulatory authority that monitors the grid in the United States and Canada and some of northern Mexico. They could see this coming and Americans can now see this happening. They said that it was sobering. They said that it was an understatement. They said that it was an understatement in any other way. The understatement is, in particular—and the report said—that in the West and the Midwest, there was a heightened risk of reliability challenges and energy shortfalls.

This report on the grid cited several reasons for heightened risk people are facing. One of them is that there is simply too little electric-generating capacity in the middle of the country where I live following the closure of older baseload generators. You can’t make these decisions about energy policy without having a replacement in mind and not expect to see bad things happen to families, to individuals, to our economy. And that is what we are seeing now.

Earlier this year, the Energy Information Administration projected 85 percent of the generators closing this year would be coal-fired power plants.

So, if you close these plants and don’t have a replacement in line, look what happens. Maybe we should ask Germany what happened when they shut down one of their major energy sources without having a replacement. Before you know it, they were dependent on a source of energy and a kind of energy and a country to supply it and energy from that didn’t work out at all.

From one day, the administration has advanced policies to restrict the production of affordable and reliable American energy. We have gone from being an exporter of energy to an importer—in fact, even a pleading importer of energy—in an unbelievably short period of time.

Electric prices in that period of time have gone up nearly 20 percent. Gasoline prices have more than doubled. If you are at the gas pump and you fill up your tank, whatever you are paying, cut that in half. That is what you
would have paid under the policies just a couple of years ago. Now you are paying 107 percent more than you were paying then. The push of a rapid transition to renewable energy sources will cause prices to go up even higher. We have already paid for what happened. We should be able to figure out what happens if you do more of it without a plan.

What the administration wants to do here doesn’t have to be painful. Transitioning from fossil fuels over a period of time doesn’t have to be a painful thing. You just have to have a replacement in mind. You have to understand the economic consequences and understand, if your timeframe is right, there are no economic consequences.

Fossil fuels accounted for just over 60 percent of the electricity generated in the United States last year. Nuclear power generated nearly 20 percent of the electricity; wind, 9 percent; hydropower, 2 percent; natural gas plants, 3 percent. When you dedicate yourself to eliminating 60 percent of the electricity generated in the country, you have got to expect that bad things are going to happen, and they are.

We are seeing what happened with reliability challenges in California in its leading the way in this transition. But last summer, the State was doing everything they could, as quickly as they could, to build gas plants, natural gas plants, to supplement its power and to avoid blackouts. You went from plenty of power to new sources of energy and then, suddenly, to not enough power and then back to fossil fuels to desperately try to replace the power.

Surely, we can learn that this doesn’t have to be the way you make these realistic transitions from one way of powering things to another. Just to replace every vehicle in the country with electric models would require 25 percent more power than we purchase today. Forcing the electrification of homes and buildings will drive demand even higher and will cost more. Families will suffer.

For now, all of the above still works. For the long term, we have to find out what works for all Americans and how we may have reasonable energy policy moving forward. All of the above is serving us well. As we move from that, we need to know what we are moving to, how we are moving there, and how we can do it with the least impact on the economy, on individuals, and on families.

I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. SULLIVAN. Madam President, I want to join my colleagues here in an important discussion as it relates to American energy.

My colleague from the great State of Missouri said it all in so many different ways. Now we are playing with dictators to import more energy. That is one element of what, certainly, has been the Biden administration’s most colossal, strategic mistake of its entire first year in office. Trust me. There have been a lot of mistakes on the Biden administration’s watch. There has been nothing that has undermined American interests in terms of working families, in terms of skyrocketing inflation, in terms of national security, in terms of energy security, and—yes, I am going to talk about it—in terms of environmental policy for America and the world. Nothing has been more harmful to the interests of American working families than the reckless policies of the Biden administration’s approach to American energy.

I have talked about this issue a lot because a lot of those policies are zeroed in on my State and my constituents, but as many have already said and as Senator BLUNT has already said, it can be summed up, in my view, in kind of four key areas.

No. 1, from day one, they have come in and said: We are going to limit the production of American energy.

That is happening. It is certainly happening in Alaska. On day one, the President killed the ANWR. We got ANWR done in this Congress, but he shut that down, and they are canceling lease sales. As for the National Petroleum Reserve in Alaska, they are taking half of that off the table. Everywhere you look, they are trying to limit the production of American energy. That is a fact. It makes no sense, but it is a fact. That is No. 1.

No. 2 is the slow rolling and killing of energy infrastructure, the ability to move energy through pipelines or LNG terminals. They are stopping it, slow rolling it, or killing it. That is a fact, OK? That is what they have been doing from day one.

No. 3, they are going to the American financial community—John Kerry, Gina McCarthy, and all of these far-left, crazy, policy folks—and saying to American banks and insurance companies: Don’t invest in American energy. This is harmful to this incredibly important sector of the U.S. economy. When they are not doing that, they are appointing senior officials—just think Comptroller of the Currency, the Federal Reserve—Chairman—who are undertaking policies to choke off capital to the American energy sector. That is happening.

No. 4, when they have seen prices spike at a hard-working American families paying hundreds, if not thousands, of dollars more to get to work in their cars or trucks, the administration is going around, begging dictators for more energy production.

Now we have the highest standards with regard to the environment and American energy production in Alaska and in other places. Do you think the Saudis care about their environment? Is an order coming to Venezuela, to the bad guys; who are pleading with dictators to import more energy.

So those are the policies of the Biden administration on energy, and we all know it is not working. It is having the predictable consequence of driving up energy costs on all American families—and, of course, giving pink slips to American energy workers. I believe there are heroic workers: union workers and others—and empowering our adversaries. So that is what is happening.

Today, the President is in Boston, so I want to talk about a couple of policies from people and the communities of Boston that further show just how irrational the far-left Democratic Party is on energy.

Let me first talk about this issue, which I like to trot out a lot, on this chart. This is a factual chart of emission changes from major economies in the world from 2005 to the present. You don’t hear about this a lot, but take a look. Take a look at this chart.

What does it show?

Of all of the major economies in the world, the one economy with the biggest reduction in greenhouse gas emissions is America, the United States of America, by far. Take a look. We have reduced emissions since 2005 by almost 15 percent. EU didn’t do that. Germany didn’t do that. Japan didn’t do that. And here you go: In China, there is a new coal plant every couple of days, it seems. In India, it is the same thing.

Why am I bringing out this chart? A, people need to know that we are the leader; we are not the bad guy. I know John Kerry keeps thinking we are the bad guy; he goes around telling everybody we are. We are not. If every other country in the world had emissions profiles like we had, you would see a much, much cleaner and less emitting planet. That is a fact. So let me talk about a couple of these policies.

John Kerry, the climate envoy, has been reported as going to certain countries in Asia, saying: You know, we really don’t like hydrocarbons in America, so don’t buy any of that America LNG.

What? We are paying this guy’s salary to say that? Whose side is he on? By the way, exporting clean-burning American LNG to places like India or China or Japan is exactly what we need to do to reduce global emissions. So you have got this one guy out there—and I am not sure why he is being paid by the U.S. Government; he should be paid by the Chinese Communist Party Government. There are reports that John Kerry’s private jet—he flies all around the world on last year, emitted over 300 tons of CO2.

What? Yes. Look, he is smug, hypocritical, and his policies are hammering the middle-class—and now this. John Kerry is one of the single biggest polluters and greenhouse gas emitters in the world for an individual.

In Boston, one of the best things the President can do today is to either fire John Kerry or ask him to resign. That would be great. That would probably do a lot for climate in America.
Let me give another policy that should be raised in Massachusetts. Madam President, I ask unanimous consent that this Boston Globe editorial—a very long one—from February 12, 2018, be printed in the RECORD. It is called “Our Russian ‘pipeline,’ and its ugly toll.”

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[Editorial: Boston Globe, February 12, 2018]

**OUR RUSSIAN ‘PIPELINE,’ AND ITS UGLY TOLL.**

To build the new $27 billion gas export plant on the Arctic Ocean that now keeps the Massachusetts’ line running, Russian companies drilled 1,000-foot icebreaking tankers likely to kill seals and disrupt whale habitat as they shuttle cargoes of supercooled gas bound for Asia, Europe, and Evergreen.

On the plus side, though, they didn’t offend Pittsfield or Winthrop, Danvers or Groton, with even an inch of pipeline. This winter’s unprecedented imports of Russian liquefied natural gas have already come under fire from Greater Boston’s Ukrainian-American community, because the majority shareholder of the firm that extracted boiling crude from the US government for its links to the war in eastern Ukraine and Russia’s illegal annexation of Crimea. Last week, in response to the outcry, a group of Massachusetts lawmakers, led by Senator Ed Markey, blasted the shipments and called on the federal government to stop them.

But apart from its geopolitical impact, Massachusetts’ reliance on imported gas from one of the world’s most threatened places is also a severe indictment of the state’s inward-looking environmental and climate policies. Public officials, including Attorney General Maura Healey and leading state lawmakers and environmentalists from the very remote, but potentially cataclysmic, danger of an LNG explosion.

From a planetary perspective, it doesn’t matter where those emissions occur; whether from the plant in Yamal, or the power plant in Everett, they have the same impact. The science should make the state’s decisions straightforward.

“Natural gas has shown itself to be an important bridge to a clean energy future,” said Ernest J. Moniz, the former secretary of energy in the Obama administration. “For New England, expanding the pipeline capacity from the Marcellus shale gas production in Pennsylvania—‘makes the most sense.’”

But upstream emissions typically don’t show up on the books, and they have no control over what happens in Russia. “I think activists need to think about the global impacts of their actions and a tacit expectation that some other country will shoulder the environmental burdens of providing the fuel in question,” said Jamie Eldridge, the heads of the state Senate’s Committee on Global Warming and Climate Change, heard when they conducted a listening tour of the state—whose results they released on the same day the Russian gas was unloading in Everett—to help prepare a new energy bill.

The bill is due this Monday. It contained many fine ideas, including boosting the state’s renewable energy requirements. But it also would raise obstacles to pipelines that would lock in the state’s reliance on foreign gas, with its higher carbon footprint.

In an interview, Pacheco said “Obviously any fossil fuel investments are problematic,” no matter where they occur, but that “we have no control over what happens in Russia or anywhere else in the world.... Eldridge said that “this is a big step to preventing pipelines,” and also expressed concern about the LNG the state imports instead—“I think activists need to think about the extra large amount of this gas is coming from, and that could be something the Legislature could take a look at” in the future, he said.

There isn’t the first analysis to miss the pipeline, however, the math works out differently: Liquefied natural gas generally creates more emissions, since the process of cooling it to minus 260 degrees Fahrenheit and shipping and regasifying it requires more energy than pumping natural gas through all but the longest and leakiest pipelines. The exact difference depends on factors like how much pipelines leak, carbon impurities in the fuel, and age of the distance shipped, but generally LNG produces 5 to 10 percent more emissions over its whole life cycle from start to finish, he said.

From a planetary perspective, it doesn’t matter where those emissions occur; whether from the plant in Yamal, or the power plant in Everett, they have the same impact. The science should make the state’s decisions straightforward.

“Natural gas has shown itself to be an important bridge to a clean energy future,” said Ernest J. Moniz, the former secretary of energy in the Obama administration. “For New England, expanding the pipeline capacity from the Marcellus shale gas production in Pennsylvania—‘makes the most sense.’”

But upstream emissions typically don’t show up on the books, and they have no control over what happens in Russia. “I think activists need to think about the global impacts of their actions and a tacit expectation that some other country will shoulder the environmental burdens of providing the fuel in question,” said Jamie Eldridge, the heads of the state Senate’s Committee on Global Warming and Climate Change, heard when they conducted a listening tour of the state—whose results they released on the same day the Russian gas was unloading in Everett—to help prepare a new energy bill.

The bill is due this Monday. It contained many fine ideas, including boosting the state’s renewable energy requirements. But it also would raise obstacles to pipelines that would lock in the state’s reliance on foreign gas, with its higher carbon footprint.

In an interview, Pacheco said “Obviously any fossil fuel investments are problematic,” no matter where they occur, but that “we have no control over what happens in Russia or anywhere else in the world.... Eldridge said that “this is a big step to preventing pipelines,” and also expressed concern about the LNG the state imports instead—“I think activists need to think about the extra large amount of this gas is coming from, and that could be something the Legislature could take a look at” in the future, he said.

There isn’t the first analysis to miss the larger picture.

In 2015, the Conservation Law Foundation, a prominent environmental group in Boston, released a report dismissing the need for new pipeline capacity in New England, and called on the region to rely on a “portfolio” of measures including imported gas, to meet its winter energy needs instead.

In 2015, the Conservation Law Foundation, a prominent environmental group in Boston, released a report dismissing the need for new pipeline capacity in New England, and called on the region to rely on a “portfolio” of measures including imported gas, to meet its winter energy needs instead.

In 2015, the Conservation Law Foundation, a prominent environmental group in Boston, released a report dismissing the need for new pipeline capacity in New England, and called on the region to rely on a “portfolio” of measures including imported gas, to meet its winter energy needs instead.
After the first shipload of Russian gas arrived, David Imay, a lawyer with the group, stood by the recommendation and shrugged off the purchase of Russian gas from the Arctic and the possible damage to the climate. "I think it’s important to understand that LNG is a globally traded commodity," he said in an interview with the Globe.

The foundation, he said, hadn’t compared the overall greenhouse gas emissions from LNG to pipeline gas from the Marcellus to determine which was worse for the climate. The nor had it factored the impact on the Arctic of gas production into its policy recommendations.

But a state policy that doesn’t ask any questions about its fuel until the day the tanker floats into the Harbor abdicates the state’s responsibility to own up to all consequences of its energy use—and mitigate the ones that it can.

**WHEN AN ICEBREAKER BEARS DOWN ON A moother seal during the springtime** breeding season, the terrified animal tries to scurry away with her pup. The two may leave a trail of urine and feces on the ice, telltale signs of distress. Eventually, the animals survive the collision, the disruption may separate the mother and pup, leading to the pup’s death. Companies can minimize the cruel realities of global shipping—or conscientious governments can force them to. American law, for instance, requires ships to maintain a safe distance from seals and walruses in ice habitats. Wilson, the seal researcher, also suggested that icebreakers can change routes to avoid known seal habitats, especially during the breeding season, and carry trained observers onboard to advise vessel captains and record any adverse impact, particularly on mothers and young.

The Globe attempted to contact Sovcomflot, the Russian state-owned shipper in St.-Petersburg that handled the first leg of the first shipment from Siberia to Everett, about what policies, if any, it employs to avoid killing seals and other wildlife, and whether it would halt LNG shipments during the spring as mother seals nurse their pups in the Arctic.

As of Monday night, it had not responded to e-mails.

The policy of Massachusetts, apparently, is to hope that the Russians are on top of it—and that the world beyond the state’s border manages the impacts of fossil fuel production. The Commonwealth buys and uses, especially during the breeding season, and considers itself too pure to handle itself.

As of Monday night, the next shipment of Russian gas was anchored about 70 miles off Gloucester.

Mr. SULLIVAN. Again, these are far-left policies that are having a negative impact on actual environment and climate issues. This is the Boston Globe editorial page, and they are writing about how the Massachusetts State legislature said: We are not going to have any pipelines coming across Massachusetts to be able to take gas from Pennsylvania and let people in Boston use it. They are expressing deep concern about the Massachusetts’ reliance on imported gas. So what happens? They are importing all of their gas from Russia in the Arctic. How does that help America? You have American gas from American pipelines that is produced by Americans, with the highest environmental standards, coming across Massachusetts to Boston.

No. The Massachusetts State legislature says: We are too good for that. We are not going to build pipelines. So what do they do? They import all of their gas from Russia.

This is an editorial that says: This policy of the state’s is insane, and that is, in essence, the definition of what we are seeing by the Biden administration, by John Kerry, and by the Massachusetts State legislature—all of these woke pronouncements that actually have the impact of diminishing the environment, empowering dictators, laying off Americans, and raising the price of energy on our economy, small businesses, and working families.

So I am hopeful that today, in Boston, the President starts to get serious about American energy policy and that he starts to reverse his administration’s focus on shutting down the production of American energy, on permitting pipelines and infrastructure, and on helping to finance energy projects and production reversal he could make and announce today. That would help the American people. It would help my constituents.

Unfortunately, I think that it is unlikely to happen. The people of our great state may continue to suffer, and the environment is going to continue to suffer because of these policies on energy that undermine American interests everywhere you look.

I yield the floor.

The PRESIDING OFFICER. The Senator from Kansas.

Mr. MORAN. Madam President, thank you for the opportunity to address you and my colleagues here on the Senate floor this afternoon.

While Kansans are dealing, Americans are dealing every day with skyrocketing gas prices, record-high inflation, and supply chain shortages. President Biden traveled to Saudi Arabia to make a deal, and production has continued to grow. What he should be doing is asking Americans and giving them the opportunity to unleash the potential of our own ability to supply oil. We have seen days and we enjoyed the days in which America was generally energy independent, and it would be a wonderful day to return to.

My State of Kansas is an energy-producing State, and we could help increase supply and cut costs at the pump. President Biden chooses our foreign adversaries for assistance. Kansas ranks 11th in oil and gas production. That industry supports over 115,000 oil and gas jobs in Kansas.

Our producers and our refiners stand ready to meet the growing demand for American energy. But since the first day in office and really before assuming office, the President has sought to constrain the oil and gas sector’s access to capital. I don’t know how many times in the Banking Committee we were dealing with this issue of whether or not a regulator could regulate financial institutions, with the goal of eliminating their ability to finance oil and gas production.

In addition to trying to limit access to capital, he blocked construction of pipelines and has proposed new regulations on oil and gas producers.

My guess is that this is done for the purposes of reducing the use of fossil fuels worldwide and the environment in general. But it is so hypocritical for us, as Americans, for President Biden to be asking others who produce oil to increase their production. If it is about the environment and about climate, you wouldn’t ask anybody to increase their production. And I have no doubt that here in the United States, we do it right as far as refining oil and gas into other products in a way that is the most environmentally sound way of doing so. That is, for instance, Venezuela, Libya, where the President also asked that they increase their production for the benefit of American consumers.

The thing to do for us to increase our energy production and reduce the price at the pump—and we talk about prices at the pump so easily. The cost of oil and natural gas has a consequence on things way beyond the price at the pump. It is not just about gasoline. Natural gas, for example, is used in the production of fertilizer for our farmers who struggle today, with the cost of production being astronomically higher than it was before, but almost every product that we buy costs more expensive than it was previously has an oil and gas component to it.

The request by President Biden to reach out to our adversaries for oil on the world stage, appealing to our adversaries for increased production, not only singles out our weakness but is also unnecessary. The United States has the resources, the expertise, and the domestic demand to be an energy-independent nation, and Kansas has the opportunity to be a participant in that, with additional jobs and a better America.

We should see the impending energy crisis in Europe as a case study for why domestic energy production ought to be supported to the fullest extent in the United States. Additionally, our dependence upon energy from someplace else has huge consequences in our foreign relations, our military preparedness, and our national security.

A far more enduring solution than wandering around the world with a tin cup out—far more stable and affordable energy prices to fill our vehicles, power our homes, or to operate our farms—is for the President to support a common, all-of-the above domestic energy strategy. This includes investments in new and existing energy infrastructure like refineries; expanding oil, biofuels, and ethanol production; and new EV manufacturing—incidentally, although certainly not an incidental thing, like the $4 billion Panasonic EV manufacturing plant we announced last week
for Kansas. We ought to be interested, again, in solar and wind energy. Kansas is the third highest producer of wind energy, wind power, in the United States.

The Biden administration must—I asked the majority leader yesterday to shift course and promote an “all of the above” strategy that produces more U.S. energy from all sources. It benefits America; it benefits the world; and it especially benefits the consumers who are hurting so much at the grocery store and the gas pump and utility bills.

We need to weaken our reliance on foreign adversaries, and we need to increase the production of energy in the United States. I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

Ms. MURKOWSKI. Madam President, I ask unanimous consent that I be permitted to speak for up to 5 minutes and Senator Sullivan and I be permitted to use up to 15 minutes prior to the scheduled vote.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. MURKOWSKI. Madam President, I am happy to come to the floor today to join Senator Sullivan for the Senator from Alaska, Mr. SULLIVAN, as well as my colleague from Kansas, to talk about where we are with this administration or where, unfortunately, we aren’t when it comes to prioritizing American—

As has been noted here on the floor by my colleagues, the President has just returned from the Middle East. It wasn’t for a sightseeing trip; it was really all about oil. He was talking about oil. Above all, the President made that trip to ask the leaders of several foreign nations, members of OPEC, to increase their production levels.

OK, we get it. Gasoline prices are way too high. We know that. We have hit national records in recent weeks. They are averaging right now about $5.32 a gallon in my State. That is actually down a little bit from where we were last month, but it is up over 50 percent from where we were last year.

As has been said repeatedly, and we don’t need to say it here on the floor of the Senate, people are feeling it in their homes. They are feeling it in their pocketbooks. Families are, business owners are—and I am referring to—like Anchorage or Fairbanks, your budgets are stretched thinner and thinner.

It is increasingly difficult for small tourist operations, whether you are trying to take people out on sightseeing trips in the air or on the water. Our fishing fleets have to fill up their fishing vessels. But especially, particularly, our outlying villages—these villages that are off the road system—that already faced high prices, now the prices are astronomical.

I met with some leaders from the Northwest Arctic Borough just a few days ago, and they shared with me that in many of their communities, the communities were paying about $5.25 on average. But these were prices that were locked in from last fall when the last fuel barge came into those northern waters and was able to make its way up the river systems. Now, with the first signs of spring, literally—In 1 day going from $5.25 to over $8 a gallon. That is a lock-in price that they are going to be living with until that next barge.

Think about what that means when you are a community that is locked into these extraordinarily high prices. When that last fuel barge comes, you are going to have small villages that are going to be looking to see how much—not how much do we need to get through the winter but how much can we afford? They don’t have much of a tax base. How much can we afford?

My theory is that they are only going to be able to buy as much as they can, and it is not going to be enough to get them through the winter. So halfway through the winter, in the darkest and coldest, when everything is locked in the ice, they are going to run out of fuel. And you have to be able to keep the heat on or everything breaks. So halfway through the winter, it is gone. Think about what those costs then become. So for us in Alaska, this is not only frightening, but it has the potential to just be catastrophic as we look at no end in sight for these prices.

It is for this reason that I don’t think the President for meeting with world leaders. We expect him to do this. And I think it is a great idea to do what we can to increase supply to reduce prices. This is kind of the basics of supply and demand. I have championed this for years. Let’s increase our supply. But the question is where that energy is going to come from. Where should we focus our time? Where should we focus our efforts? I think it just has to begin at home. It has to be United States-based.

But apparently this administration has decided they are going to go elsewhere. They are going to seek oil from the Middle East. They are sendingenvoysto Venezuela. They are pushing for a weakened Iran deal, signaling that oil from the two worst regimes in the world could somehow come back online? This makes zero sense to me. It just makes no sense. Why would we do this? Why would we go abroad when we have the resources here to supply our needs?

We need to be putting a strategic plan that assures that our own energy security—is addressed and also that the American taxpayers don’t have to pay for it.

Energy security is addressed and also American taxpayers don’t have to pay for it. We need to do that. We need to do that at no end in sight for these prices.

The Biden administration must—alas, I am afraid, I am sad to say, the President must acknowledge that American—we need to refocus our energy security on American resources here at home in the United States.

We need to shift course and promote an “all of the above” strategy that produces more U.S. energy from all sources. It benefits America; it benefits the world; and it especially benefits the consumers who are hurting so much at the grocery store and the gas pump and utility bills.

Ms. MURKOWSKI. Madam President, there are a few things I would like to point out. I believe that we can do this without taking our eye off the ball of what we need to do to reduce emissions to address the challenges that face us when it comes to climate. But we have to acknowledge that the world has changed. There is still, though, no substitute or equal for American energy. So what we need is for common sense to prevail over wishful thinking. We need resource development here at home in places like Alaska and Kansas. They need to be our first and our highest priority. The longer it takes for that to happen, the greater the price that Alaskans will be paying and all Americans will be paying.

I yield the floor.

The PRESIDING OFFICER. The majority whip.

Mr. DURBIN. Madam President, I was on the floor 2 days ago when the Republican Senate leader came to the floor and said something which I still don’t quite understand, and I would like to refer to it in a statement.

CLOUTRE MOTION WITHDRAWN

Mr. DURBIN. Madam President, I ask unanimous consent to withdraw the cloture motion with respect to the Merle nomination.

The PRESIDING OFFICER. Is there objection?

Not hearing an objection, it is withdrawn.

The cloture motion, on the nomination of Natasha C. Merle, of New York, to be United States District Judge for the Eastern District of New York, was withdrawn.
Mr. DURBIN. Madam President, I ask unanimous consent that following the confirmation vote on the Williams nomination, the Senate vote on the confirmation of Executive Calendar No. 920, the nomination of Bernadette M. Meehan, of New York, to be Ambassador Extraordinary and Plenipotentiary of the United States of America to the Republic of Chile.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRESCRIPTION DRUG COSTS

Mr. DURBIN. Madam President, now, back to my statement.

I confided in a fellow and heard a speech by the Republican leader, Mr. MITCH MCCONNELL of Kentucky. Now, it wasn’t the first. I have heard many, and I listen closely so that I can divine the strategy of Senate Republicans. And for weeks we have heard discourse about the plight of American families dealing with inflation. It is a real problem. If you go to buy anything these days, you are shocked by the price, starting at the gas pump, if you have aspirations to buy a car or truck, ordinary food items—much more expensive. Most families are not seeing any increase in income so it is a real hardship for them to keep up.

We, the Senate from Kentucky has given that speech so many times, I could almost repeat it verbatim. And I don’t quarrel with his premise. Inflation is painful for working families.

But there—I mean—there—well, he went into an area which caught an exact opposite point of view. What he said was he thought, if there was an effort to control the price of prescription drugs, it was “socialist price control.” It was really asking for something for nothing, and I would support it.

And I stopped to think for a second. Wait a minute. All the polling, when you ask American families what they worry about, tells you that this is a big headliner. They talk to a doctor. Somebody is sick. The doctor prescribes a drug. They take the prescription to the drugstore. They get it filled. And then comes the moment of truth, the moment at the cash register when the family is told: Incidentally, that will cost you $100, $200, $300 over your insurance coverage.

And you know what some families say? I wish I could afford that; I can’t.

And they don’t pick up the drug or they pick it up and, instead of taking it, they kind of wait and say: I will see if I get any better by myself. They do that, they kind of wait and say: I will see if I get any better by myself. They do that, they kind of wait and say: I will see if I get any better by myself. They do that, they kind of wait and say: I will see if I get any better by myself. They do that, they kind of wait and say: I will see if I get any better by myself.

So Republicans are proposing to allow Medicare to negotiate fair prices for drugs. We have been doing that for a long time. Mr.瘋狂行伍司 disrespectful to the Veterans’ Administration. The Veterans’ Administration buys a lot of prescription drugs for our veterans—and I am glad they do—and they negotiate with these companies to get a fair price. We think Medicare ought to do the same thing. It reduces the cost of prescription drugs. It makes them more affordable for seniors.

Now, a lot of people say: Well, if you do that, then the prescription drug companies, the pharmaceutical companies, just aren’t going to be able to make it.

Well, here is the reality. Studies have found that Big Pharma could lose $1 trillion in sales over the next decade and still remain the most profitable industry in America—lose $1 trillion in sales and still be the most profitable industry. Higher profit margins in pharma than in the telecom industry, than in the defense industry, and the Republicans are saying they are afraid that they(ga) going to get hurt if consumers can buy drugs at lower prices.

But good news for those who fear that if you cut the amount of money invested in pharma, it will cut research. That is not what we have learned. We know Bayer has been around a long time. It started off as a German company. It made aspirin. Now they have made some sizable acquisitions in the business. And they make a drug called Xarelto. Now, you would have to watch that television ad 10 or 12 times to be able to spell “Xarelto,” but they are trying to convince American consumers they can’t live without it. Bayer spent $3 billion on sales and marketing last year compared to $8 billion on research for drugs.

Johnson & Johnson: $22 billion on sales and marketing. $12 billion on research. GlaxoSmithKline: $12 billion on sales and marketing, $7 billion on research.

Get the pattern? There is more money being spent on advertising than on research for new drugs. Americans can’t live without the pharma, it does to try to convince customers they can’t live without their drugs.

The claim that allowing Medicare to negotiate a reasonable price for seniors will freeze out Big Pharma’s innovation just doesn’t wash.

Senator MCCONNELL says there is no “free lunch” when it comes to prescription drug pricing. Let’s keep in mind that the 14 largest drug corporations spent more on stock buybacks—lining the pockets of their CEOs—than on research and development over the past 5 years.

So the question here is what it comes down to. Look at these, just as an illustration. I will do this quickly because Members are showing up to vote. Insulin, discovered by Canadian researchers at the beginning of the 20th century—they surrendered the patent for that drug for a dollar so that it would never be overcharged to consumers because it is a life-or-death drug for those suffering from diabetes.

‘Take a look, from the year 2004 to the year 2022, at what has happened to the drug insulin cost—in the manufacturing price by year. You can see it tracks all the companies that make insulin. It is
The question is, Will the Senate advise and consent to the Williams nomination?

Mr. DURBIN. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The senior assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from Vermont (Mr. LEAHY), the Senator from Massachusetts (Mr. MARKET), the Senator from Massachusetts (Ms. WARREN), and the Senator from Rhode Island (Mr. WHITEHOUSE) are necessarily absent.

Mr. THUNE. The following Senator is necessarily absent: the Senator from Louisiana (Mr. KENNEDY).

The PRESIDING OFFICER (Ms. BALDWIN). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 52, nays 43, as follows:

The PRESIDING OFFICER. Under the previous order, the motion to reconsider is considered made and laid upon the table, and the President will be immediately notified of the Senate’s actions.

EXECUTIVE CALENDAR

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of the following nomination, which the clerk will report.

The senior assistant legislative clerk read the nomination of Bernadette M. Meehan, of New York, to be Ambassador Extraordinary and Pleni-

topotency of the United States of America to the Republic of Chile.

VOTE ON MEEHAN NOMINATION

The PRESIDING OFFICER. The question is, Will the Senate advise and consent to the Meehan nomination?

Ms. HASSAN. Madam President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from Vermont (Mr. LEAHY), the Senator from Massachusetts (Mr. MARKET), the Senator from Massachusetts (Ms. WARREN), and the Senator from Rhode Island (Mr. WHITEHOUSE) are necessarily absent.

Mr. THUNE. The following Senator is necessarily absent: the Senator from Louisiana (Mr. KENNEDY).

The result was announced—yeas 51, nays 44, as follows:

[Rollcall Vote No. 264 Ex.]

The nomination was confirmed.

The PRESIDING OFFICER (Mr. HICKENLOOPER). Under the previous order, the motion to reconsider is considered made and laid upon the table, and the President will be immediately notified of the Senate’s actions.

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will resume legislative session.

The Senator from Florida.

UNANIMOUS CONSENT REQUESTS—S. 3086 and S. 3087

Mr. SCOTT of Florida. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be discharged from further consideration of S. 3086 and the Senate
The American people deserve transparency into Biden’s Green New Deal agenda and ought to know why these prices keep going up. That is why I introduced the GAS PRICE Act last October. Even then, far before the horrible war in Ukraine began, gas prices were surging.

My bill is pretty simple. It would require the Energy Information Administration to report to Congress on any Federal Agency policies or regulations that it determines will cause energy prices to rise. All it does is ask a Federal Agency to provide information to Congress with a statement of facts on what is causing rising energy prices. Then we can take this information, see what needs to be fixed, and help the American people.

I want to thank Senators Marshall, Lummis, Capito, Johnson, Moran, Blackburn, and Kennedy for cosponsoring this legislation. I also want to thank Senator Sullivan and Senator Lee for joining me on the floor today to talk about the energy inflation Joe Biden is imposing on Americans.

Considering that we, as Senators, are trusted by the people of our States to act in their interest, I cannot imagine why anyone would oppose this legislation. Sadly, when I came to the Senate floor last year to pass this bill, Senate Democrats opposed it.

At that time, I noted that the national average cost was $3.36 per gallon. Sounds like a bargain today. Since then, the price of gas has risen dramatically. The average has increased to $4.46. In 15 of the 17 months Joe Biden has been in office, the price of gas has risen.

When I introduced my bill in October, President Biden said he didn’t have a near-term answer for reducing gas prices. Well, clearly not—his answer was to raise prices and continue his radical Green New Deal agenda.

Senate Republicans, meanwhile, do have a plan and have offered solutions. I have introduced the FREE American Energy Act to expedite the Federal Agencies’ review process of applications for permits, waivers, licenses, or other authorizations related to energy production. But we can take a simple first step today by giving ourselves more information on rising energy prices and pass my GAS PRICE Act.

For the sake of American families, we need to figure out what the heck is going on. So while my colleagues on the other side of the aisle blocked my bill from passing last year, my hope was that, as they have watched their constituents suffer for months now under Biden’s leadership, they would have a change of heart. Sadly, that is not what happened today. It is an abysmal shame what has happened in this Chamber.

I come here with my Republican colleagues to promote and pass legislation that would improve the lives of American people and make America less dependent on foreign oil. We came here asking for answers into Biden’s Green New Deal agenda. We are here responding to the pain American families are facing at the gas pump and trying to solve problems.

Senate Democrats, meanwhile, have come here to obstruct and blame shift. They didn’t come here to solve problems. They didn’t come here with a different proposal that would alleviate gas prices and ensure long-term energy independence and sustainability. They came here to make the problem worse. They want to emulate the policies of Germany and California, where rolling blackouts and energy rations are a looming threat and where gas has spent most of this year at over $6 per gallon.

This is not the way forward. The Senate need leaders who are going to come in and put Americans first. I am grateful for colleagues like Senator Sullivan and Senator Lee, who are here to do that. But I hope the American people have been watching what has happened today and see who it is who really cares about the problems they are facing.

I yield the floor to my colleague from Utah.

Mr. Lee. Thank you to the Senator from Florida.

Mr. President, President Biden has wasted no time—no time at all—in embarking on his crusade to hamstring American energy production.

On day 1 of his Presidency, President Biden halted all new oil and gas lease sales on Federal land. Now Americans are paying the price. Across the Nation, people struggle to fill their gas tanks, as prices climb to over $5 a gallon, but there is apparently no need to worry. According to the President, Americans’ pain at the pump is merely part of an energy “transition,” as he puts it.

It is important to note here that this transition is a transition away from affordable, reliable fossil fuels.

It is not that high gas prices are a problem to be fixed but, rather, high gas prices somehow are the solution. They are what will facilitate this transition. The President is getting the results that he wants. This is a feature, the ultimate feature. It is the end goal, not a bug in his plan.

Despite this being part of the plan and, in fact, his objective, it didn’t occur to the President to realize how unpopular high gasoline prices really are. Now he is trying to take credit for even a slight reduction in gasoline prices. First, by no means is this reduction sufficient. Second, we can’t attribute that reduction to the President’s policies.

To be clear, placing a moratorium on the sale of oil and gas leases on Federal land is outside the President’s authority. If the President actually possessed that authority, he wouldn’t have attempted to portray this as a temporary pause. It is clear that this is a thinly veiled attempt to enact the most radical climate policies our country has
ever seen—policies that have never been enacted by Congress and policies that Congress would not enact.

Our suspicions were confirmed when Gina McCarthy, the President’s climate adviser, during an interview:

President Biden remains absolutely committed to not moving forward with additional drilling on public lands.

So much for a temporary moratorium.

Confused as to whether Ms. McCarthy’s statement represented the administration’s policy, I asked Interior Secretary Deb Haaland whether it was the administration’s intention to indefinitely pause the sale of all Federal oil and gas leases. She responded: “I don’t know.”

“I don’t know” is not an acceptable answer to the Utah communities who rely on those oil and gas leases. “I don’t know” is not an acceptable answer to Americans paying over $5 a gallon for gas. “I don’t know” isn’t an answer to the millions who have found every aspect of their lives rendered unaffordable by this administration’s policies, and now this only adds insult to injury.

The American people simply cannot endure President Biden’s clear-as-mud policies any longer. I have introduced legislation to reaffirm that under the Mineral Leasing Act, the President of the United States absolutely does not have the authority to hold the country’s domestic energy production hostage. Their continued efforts are coming at the expense of struggling families.

The Biden administration is fighting in court for Presidential authority to enact sweeping changes to American energy policy on a whim. While I believe the courts will arrive at the same conclusion, we can act now to ensure citizens and companies receive the certainty they deserve.

We could end this crusade today if we enacted this legislation and got to work securing American energy independence to compete in the world. It is for that reason that I was disappointed when my friend and colleague on the other side of the aisle came and objected to passing this by unanimous consent today. It does, in fact, state what the law already provides anyway. It shouldn’t hurt us to make it obvious.

Yet he objected even though this policy is harming the American people.

It is a bad idea that it had to end this way today, but this is not over. No, we will be back. We will be back as often and for as long as it takes in order to give the American people the relief that they need and that they definitely deserve.

Now I yield the time to my friend and colleague, the Senator from Alaskan.

Mr. SULLIVAN. Thank you to my friends from the great State of Utah and the great State of Florida, Senator SCOTT and Senator LEE.

Mr. President, I want to explain to any American who that it had to end this way today, but this is not over. No, we will be back. We will be back as often and for as long as it takes in order to give the American people the relief that they need and that they definitely deserve.

Now I yield the time to my friend and colleague, the Senator from Alaskan.

Senator SCOTT came down to the floor. He had a bill, S. 3086. Normally when you have a bill that is considered pretty noncontroversial, you can come down and do what is called a unanimous consent, which is you ask the Senate to pass the bill. And if anyone objects, they actually have to come down and object in the Senate Chamber.

So what does S. 3086 bill do? Here is the language: “To require the Energy Information Administration to submit to Congress and make publicly available an annual report on Federal Ageny policies and regulations and Executive orders that have increased or may increase energy prices in the United States.” That is it. That is it. That is the bill. It is one page—less than one page. It is two paragraphs.

All we were doing was asking, why are energy prices in America going through the roof, and is the Federal Government contributing to that through its actions and regulations? It is a really important question. Why is it an important question? It is an important question because when you get out of this bubble in DC and you go home—like I was just home in Alaska last weekend—energy costs and inflation are the No. 1 issue hurting American families. That is an issue. So shouldn’t we in the Senate want to know why it is happening?

Now, look, what else happened here—a little bit of inside baseball in the Senate—when a Senator comes down and objects to a bill, usually he gives a strong reason why—strong: Here is my reason why this bill is bad for the country, and I am going to object.

You may have seen my colleague object and say “I am getting the heck out of here; I am not going to explain this” because there is no reason to object to this—none. So he objected and left. He didn’t try to defend objecting to this, because every American wants to know.

It is the biggest issue back home, but here is another reason we need the bill: because this President has come up with excuse after excuse after excuse on why energy prices in America have gone through the roof. Let me give you a couple of examples.

He first said: Well, we are emerging from the pandemic, and the supply chain couldn’t keep up. All right, if that is really true, let the Energy Information Administration of the Biden administration, by the way—see if that is one of the reasons.

OK. Then he said: Well, shoot, the pandemic is kind of over so it is Putin’s invasion of Ukraine that is driving the increase in energy prices. Putin’s unprovoked, brutal war—which is unprovoked and brutal—has led to higher energy prices.

And President Biden then started to say it is Putin’s price hike. No one is buying that one either because energy prices went up before the brutal invasion of Ukraine.

And then the President started saying: Well, it is COVID and Putin. OK. Then he started blaming the oil companies. Then he started to say: Well, we have all these amazing permits that we want the oil companies drilling on, but they are not using them.

So we need Senator SCOTT’s legislation because the Biden administration, the President himself, has put out all these ideas on why Americans are getting crushed by inflation and high costs at the pump. And the one thing the President has done, has never talked about, is he hasn’t looked internally and said: Hmm, maybe it is my own administration’s policies that are driving up energy costs. Maybe. By the way, it is not maybe; it is certainly. And my colleagues have talked about this. Heck, I talked about this earlier today. I talk about it every day because it is crushing my home State and my constituents.

But what we want the Energy Information Administration to look at is possibly these reasons: Day 1, this administration came in and said: We are going to limit production of American energy.

Anyone who went to econ 101 in college knows that when you start to limit supply, prices go up. Well, that is a culprit.

No. 2, from day 1, they said: We are going to shut down, kill, and delay moving energy through infrastructure—pipelines, LNG terminals. They are talking about that all the time. So that is a policy, those are Executive orders limiting the ability to move energy. That sends up costs.

No. 3 is that they have actively gone to the American financial sector—the Biden administration—and told them not to invest in American energy, choking off capital. That increases prices.

So Senator SCOTT’s bill would simply ask the experts in the Federal Government, the Energy Information Administration, to just take a look; What is driving up the cost of American energy? What is crushing middle-class working families?

And the reason my colleague objected and then ran off the floor without saying anything is because everybody here knows what the answer is going to be: Joe Biden has done this. It is his policies that are driving up energy costs.

And here is the thing that Senator LEE touched on, and this is the thing that should scare everybody. It is likely purposeful. Pain is the point. They are all talking about this wonderful, glorious transition to the future. They talk about: Hey, if the prices go up, it will accelerate the transition to renewables. They don’t give a damn about the people who are suffering. It is all this green utopia stuff.

All we are asking for is what is driving the cost of energy? It’s just on the backs of working-class Americans? That is it. A two-paragraph bill, and my colleagues came and objected to it. And
every American should know this. They don’t want you to know what we all know, which is this: The pain at the pump is the purposeful policies of the Biden administration, and the American people are paying for it. We want the Federal Government to look into the details of this, and the Democrats were just now objecting to that transparent information request. And, in my view, it is shameful.

I yield the floor.

Mr. LANKFORD. Madam President, if this body were to look at the tests and the homework, the quizzes, and the essays of the Department of Homeland Security, they would give them a grade based on their performance for the last year and a half, what would the grade be?

DHS says they have six missions, and they detail out those missions. One of those missions reads: Secure U.S. borders and approaches. Then they give this little piece behind it to describe that.

The Department of Homeland Security secures the Nation’s air, land, and sea borders and approaches them with a grade based on their performance for the last year and a half, what would the grade be?

What grade would you give DHS? A more specific question: Mr. President, do you want to stop illegal immigration? Because I don’t think you do. And I think it is clear that the policies you put in place are directly leading to this record influx of illegal immigration from all over the world.

I wish you could even say: Well, at least we vetted them, but I know that is not true, and so do you. Not a single one of these people entering the country have their criminal background check done before they come in. We are doing a quick fingerprint analysis to see if they have committed a crime here, but we have no idea of the 150 countries-plus that they are coming from right now the goal is not to check the history; it is to get them released in the country within 8 hours. Keep it moving. Keep it moving. You don’t have to have a clog up at the border. When they cross the border, the goal is to just keep them moving into the country.

Last weekend, I spent the weekend again at our southern border. Serving on the Homeland Security Committee, I spend a lot of time back and forth across that border to be able to evaluate what is happening now because it changes from week to week. I was in the Rio Grande Valley last weekend spending time with CBP, the Border Patrol, individuals from Air and Marine Operations, from the Department of DFS in Texas, from the National Guard. All of them expressed incredible frustration.

When I got there last Thursday night late, we went on a midnight patrol with Border Patrol. Literally within minutes of being there, the first group of folks coming across the border, a group of teenagers. Minutes later, literally while that group was being processed, another group was interdicted coming across the border not far away. This time it was 6- and 7-year-old children and a couple of families. While we watched them being processed, they called us on the radio and said that about 2 miles down, they just picked up another group. This time, it was adults, including one pregnancy. It is actually not enough people. They are increasing the access points to increase the number of people rather than decrease.

The administration was proud to be able to say in May and in June that the numbers went down slightly from what they were in the previous months. The problem with that is, the previous month was a record, and so was the month before that. If you look at just the June numbers, if you slide down from May, it is still the highest June ever recorded by the administration.

We are being overwhelmed with the number of people coming in illegally across our border. The administration is currently releasing people, and their sole focus seems to be on making illegal immigration more efficient rather than more enforced.

What grade would you give DHS? A more specific question: Mr. President, do you want to stop illegal immigration? Because I don’t think you do. And I think it is clear that the policies you put in place are directly leading to this record influx of illegal immigration from all over the world.

I wish you could even say: Well, at least we vetted them, but I know that is not true, and so do you. It is actually not enough people. They are increasing the access points to increase the number of people rather than decrease.
overwhelming amount of methamphetamine that is coming into my State and the number of people who are dying in my State because much of the meth is laced with fentanyl, and it is killing people in my State.

And many in this body just ignore it. I am tired of hearing from the FBI in my State that the price of methamphetamine is going down in my State. It seems like the price of gasoline has soared, the price of food has soared, the price of housing has soared, but the price of meth is going down. Why would that be? Because the supply of meth is going up because it is coming from the cartels in Mexico, and this administration is just looking the other way.

When is this administration going to talk to the landowners in South Texas like I did and hear from them the threats that they face? They are American citizens. When does their life matter?

It is time we address this issue. It is time we actually step up and say that DHS is falling in its most basic task of securing the Nation.

One more stat: Right now, we have somewhere between 4,500 and 8,000 people a day illegally crossing the border—between 4,500 and 8,000 a day illegally crossing the border. May I remind you, President Biden, years ago, called it a humanitarian crisis when 2,000 people a day crossed the border. Now we have between 4,500 and 8,000 a day, day after day after day.

This administration is not only opening up the borders, they have also changed the enforcement priorities here in the United States. So we have round numbers—6,000 people a day illegally entering the country. The Biden administration has changed the role for ICE in deportations. We are currently allowing 6,000 people a day to cross the border, but we are only deporting 161 people a day from the country.

Six thousand a day, every day, day after day after day, illegally coming into the country; 161 people now that we are deporting a day. What would be your grade for DHS in their task of securing the country?

I know that there is. It is time this body actually does something rather than just look away.

I yield the floor.

The PRESIDING OFFICER. The Senator from Indiana.

Mr. BRAUN. Madam President, I come to the floor this evening—I have been talking about this subject for nearly the 3½ years I have been a Senator. And I will tell you why I think it is important.

But have we grown the Federal Government to a level where all the people who look to it, where they are dependent upon it, try to work with it, need to know honestly where this all ends up if we do not change the trajectory. I think the easiest way to understand how we have gotten to where we are now is to look to what we used to do in the past.

This country was never founded upon the principles that you borrow money to consume it. Any household, any local or State government knows you can’t be successful doing that.

Money should only be borrowed if you’re going to invest it or get a tangible return on it; even maybe an intangible one, when you look at investing in education or something like that.

But there has been no system that has ever worked that ends up borrowing money from the future, from its kids and grandkids, to where that is a good business plan. You get immediately derailed in the real world. Imagine in a household, if you take in money and you spend 20 percent more than whatever that is, you will go to a financial counselor. They may get you out of trouble. You keep doing it, you end up in bankruptcy court.

Businesses have the rigor of competition in addition to earning revenues, and they look to it, where they are dependent upon it, try to work with it, need to know honestly where this all ends up if we do not change the trajectory. I think the easiest way to understand how we have gotten to where we are now is to look to what we used to do in the past.

This country was never founded upon the principles that you borrow money to consume it. Any household, any local or State government knows you can’t be successful doing that.

They may get you out of trouble. You keep doing it, you end up in bankruptcy court.

Businesses have the rigor of competition in addition to earning revenues, and they look to it, where they are dependent upon it, try to work with it, need to know honestly where this all ends up if we do not change the trajectory. I think the easiest way to understand how we have gotten to where we are now is to look to what we used to do in the past.

This country was never founded upon the principles that you borrow money to consume it. Any household, any local or State government knows you can’t be successful doing that.

Money should only be borrowed if you’re going to invest it or get a tangible return on it; even maybe an intangible one, when you look at investing in education or something like that.

But there has been no system that has ever worked that ends up borrowing money from the future, from its kids and grandkids, to where that is a good business plan. You get immediately derailed in the real world. Imagine in a household, if you take in money and you spend 20 percent more than whatever that is, you will go to a financial counselor. They may get you out of trouble. You keep doing it, you end up in bankruptcy court.

Businesses have the rigor of competition in addition to earning revenues, and they look to it, where they are dependent upon it, try to work with it, need to know honestly where this all ends up if we do not change the trajectory. I think the easiest way to understand how we have gotten to where we are now is to look to what we used to do in the past.
And from that time to the present, I think we just said: We are borrowing money, and we might as well do more. And then we will start doing it for things that don’t make sense.

I got here 3½ years ago, 18 trillion in debt. We were just approaching the percentage coming out of World War II. Here. We have now passed that and doubling down and going way beyond that.

We are now, here, after the pandemic, where we spent close to $4 trillion in 2020—a lot of it out of uncertainty. We didn’t know much about it. We should have treated that with respect. We know now a lot about it, and we probably didn’t need to shut the economy down, which cost us a lot, but we are through it. We certainly shouldn’t have doubled down and spent another 3 trillion in 2021.

I am not going to go over—you hear it on the news, you see it. We have got inflation embedded in the economy currently. The last time this occurred, back in the late seventies and the early eighties, when inflation peaked around 10 or 11 percent, it took 5 years to get it back to 2 percent, where we were pre-COVID. We can expect probably something similar. We don’t know.

The big difference now between now and then is we have got a lot more debt, especially in government, so it is going to be trickier.

So how do we get out of it?

Well, unless we turn the tide, unless we start doing things differently, Medicare, which isn’t even being addressed here, has completely depleted its trust fund in about 4½ or 5 years—automatic benefit cuts when that occurs.

Social Security, which has been around since the Depression paying into it, that is depleted in about 10 years.

Those are two large trust funds that will have no balance in them, and then you would have to borrow even more money to pay the benefits.

Let’s show a comparison of where we stack up now with other major economies.

Look at that. We have known for a long time Japan, which is the third largest economy, has struggled to figure out how it is going to grow, how it is going to do for future generations, what it has done since World War II. It has taken debt to where it is a stranglehold on its economy. Its debt is 237 percent of its GDP.

Now look who is in second place, and this isn’t something you want to be in second place on—United States. Our debt currently is 107 percent of our GDP. India, Germany, China—China, our main geopolitical competitor, under half of the sovereign debt as a percentage of its GDP. That is not a good place to be. They are our geopolitical competitor, and I sense they know that you need to be savers and investors if you are going to be successful in the future, if you are going to give your people what they are going to need out of a government.

Financially, we are going to be up against them, and they, to me, look a lot like the Philippines that we’ve someday pivot to where we are caught by surprise, and then you don’t have the options. We start increasing to be more indebted than what we are, it will be even harder to compete with somebody like China.

We now have a 9.1-percent inflation rate. That is a pay cut for everyone. We now know, I think, what caused it. We need to just quit digging the hole deeper. Let’s get out of this. Let’s go back to what we know was working, at least financially, pre-COVID. We had no inflation, nominal that is built into what is considered zero inflation, wages rising in the toughest places, and a growth rate that was better than we had to 2 percent.

We need to start spending less through government, return the productive capacity back to the private sector, and then look at—one once we get the ship righted here—what we do better policymaking. I am a believer. We need to fix healthcare; it is a broken system. It drives our structural deficits more than anything. Medicare each year—like Warren Buffett says, healthcare in general is a tapeworm on the economy.

What I want to do is face reality. Regardless of the tax rate, over 50 years, we average about 17½ percent of our GDP in Federal Government revenues. If that is all regarded in contrast to what we do better policymaking—what we do better policymaking, how we go about it. If you have got high tax rates that gives you a lower economic growth or lower tax rates that maybe gives you a percent or more in economic growth, we need to acknowledge it.

My plan does two simple things: acknowledges what our revenue has been over 50 years—17½ percent of our GDP—tapers what we spend into it, takes what we have done here as a maneuver to escape budgeting and appropriating by putting on mandatory versus discretionary, which is nothing other than saying: I don’t want to budget. I don’t want to allocate resources. We are just going to do more each year.

If we keep doing it, we are not going to be able to fund the programs that we all consider important.

So it acknowledges a reasonable revenue level. It moves 375 billion that we used to call it—it is the market—when you run a business, it is a balanced budget amendment in statute when you have got a State government—there has got to be more discipline.

Let’s put that last chart up here. And I want to re-emphasize, because I got some on my side that think we are not being robust enough on defense. We just looked at that chart where it is the most robust. But I want to go back to something else. This one says it all. Look at where we have come from where the ‘greatest generation’ left us. Remember, they paid off the debt from World War II and built the Interstate Highway System—to where we are now in literally 40 years.

That is shameful.

All I am saying is, my budget makes it to where we have got 10 years. We don’t even have to cover the interest, but we need to bring it back into what is called primary balance—drives a lot of that to rein it in. But defense, the most important thing, is going to be at a level that keeps us secure.

If we don’t exercise fiscal restraint, if we don’t make the tough decisions that everybody does in running their own budgets, whether it is in a business, a local or State government or even a household, it is going to be a hard landing someday that none of us will like.

A lot of what is about running anything successfully is having a good budget. And I want to re-emphasize, because I got some on my side that think we are not being robust enough on defense. We just looked at that chart where it is the most robust. But I want to go back to something else. This one says it all. Look at where we have come from where the ‘greatest generation’ left us. Remember, they paid off the debt from World War II and built the Interstate Highway System—to where we are now in literally 40 years.

That is shameful.

All I am saying is, my budget makes it to where we have got 10 years. We don’t even have to cover the interest, but we need to bring it back into what is called primary balance—drives a lot of that to rein it in. But defense, the most important thing, is going to be at a level that keeps us secure.

If we don’t exercise fiscal restraint, if we don’t make the tough decisions that everybody does in running their own budgets, whether it is in a business, a local or State government or even a household, it is going to be a hard landing someday that none of us will like.

A lot of what is about running anything successfully is having a good budget. And I want to re-emphasize, because I got some on my side that think we are not being robust enough on defense. We just looked at that chart where it is the most robust. But I want to go back to something else. This one says it all. Look at where we have come from where the ‘greatest generation’ left us. Remember, they paid off the debt from World War II and built the Interstate Highway System—to where we are now in literally 40 years.

That is shameful.

We don’t even have to cover the interest, but we need to bring it back into what is called primary balance—drives a lot of that to rein it in. But defense, the most important thing, is going to be at a level that keeps us secure.

If we don’t exercise fiscal restraint, if we don’t make the tough decisions that everybody does in running their own budgets, whether it is in a business, a local or State government or even a household, it is going to be a hard landing someday that none of us will like.

A lot of what is about running anything successfully is having a good budget. And I want to re-emphasize, because I got some on my side that think we are not being robust enough on defense.
is, if we have to remediate this by running the system into the ditch, it will be a lot harder of a proposition to get it back to where it was when the greatest generation left us in good shape.

I yield the floor.

Mr. MURPHY. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CARPER. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SCHUMER. Mr. President, I ask unanimous consent that at a time to be determined by the majority leader following consultation with the Republican leader, the Senate proceed to the consideration of Calendar No. 369, H.R. 7776, that the Carper-Capito-Cardin-Cramer substitute No. 5140 be considered and agreed to; that there be up to 1 hour of debate, equally divided in the usual form, that upon the use or yielding back of time, if a budget point of order is made, the Senate vote on the motion to waive; and that if the point of order is waived, the bill, as amended, be considered read a third time and the Senate vote on passage of the bill with 60 affirmative votes required for passage; and the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. CARPER. Madam President, I ask unanimous consent that at a time to be determined by the majority leader following consultation with the Republican leader, the Senate proceed to the consideration of Calendar No. 399, H.R. 4346, that the Carper-Capito-Cardin-Cramer substitute No. 5140 be considered and agreed to; that there be up to 1 hour of debate, equally divided in the usual form, that upon the use or yielding back of time, if a budget point of order is made, the Senate vote on the motion to waive; and that if the point of order is waived, the bill, as amended, be considered read a third time and the Senate vote on passage of the bill with 60 affirmative votes required for passage; and the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. CARPER. Madam President, I might just add: What is all this about? It is about the Water Resources Development Act. We are trying to move it along and expedite it. I want to thank everybody. Senator CAPITO I notice is along and expedite it. I want to thank Senator YOUNG and I authored in the future of the country.

Endless Frontier Act in partnership 2

The PRESIDING OFFICER. The Senate from Vermont (Mr. LEAHY), and the Senator from Louisiana (Mr. KENNEDY).

The result was announced—yeas 34, nays 63, as follows:

[Rollcall Vote No. 265 Leg.]

YEAS—34

Barrasso
Blackburn
Brent
Boxman
Brooks
Brown
Cassidy
Coryn
Cotton
Crapo
Crus
Daines
Emmet

NAYS—63

Baldwin
Bennet
Blumenthal
Booher
Brown
Burr
Canwell
Capito
Cardin
Carper
Casey
Collins
Coons
Cortez Masto
Cramer
Duckworth
Durbin
Feinstein
Gilibrand
Graham
Hassan

NOT VOTING—3

Kennedy
Leahy
Whitehouse

The motion was rejected.

Mr. SCHUMER. Mr. President, as I announced earlier today, in a few moments, I will file cloture on a major piece of legislation that will help our country lower costs, increase American manufacturing, strengthen supply chains, and preserve American competitiveness on into the 21st century. It is a very significant piece of legislation, and it will ensure that America and the American economy remain No. 1 on into the 21st century.

Specifically, our chips-plus package will include incentives for domestic microchip projection, including ITIC; support for our wireless communication supply chain—ORAN—and billions dedicated to scientific research, which includes many of the provisions Senator YOUNG and I authored in the Endless Frontier Act in partnership 2 years ago.

By filing cloture tonight, we are keeping this bill on track for final passage very soon. There has been strong bipartisan support already behind this legislation so I hope we can come to an agreement to get it done as quickly as it can because it is so important for the future of the country.

Mr. President, what is the pending business?

The PRESIDING OFFICER. The clerk will report the pending business.

The senior assistant legislative clerk read as follows:

House message to accompany H.R. 4346, a bill making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes.

Pending:

Schumer motion to concur in the amendment of the House to the amendment of the Senate to the bill, with Schumer amendment No. 5135 (to the House amendment to the amendment of the Senate, relating to the CHIPS Act of 2022).

Schumer amendment No. 5136 (to amendment No. 5135), to add an effective date.

Schumer motion to refer the bill to the Committee on Commerce, Science, and Transportation, with instructions, Schumer amendment No. 5137, to add an effective date.

Schumer amendment No. 5138 (to the instructions) amendment No. 5137, to modify the effective date.

CLOTURE MOTION

Mr. SCHUMER. I send a cloture motion to the desk.

The PRESIDING OFFICER. Pursuant to rule XXII, the Chair lays before the Senate the pending cloture motion, which the clerk will state.

The senior assistant legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, do hereby move to bring to a close debate on the motion to concur in the House amendment to the Senate amendment to H.R. 4346, a bill making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes, with amendment No. 5133.

Charles E. Schumer, Maria Cantwell, Ben Ray Lujan, Jon Tester, Richard Blumenthal, Robert P. Casey, Jr., Tina Smith, John W. Hickenlooper, Maggie K. Hassan, Mark R. Warner, Debbie Stabenow, Jack Reed, Tammy Baldwin, Jacky Rosen, Raphael G. Warnock, Tammy Duckworth, Christopher Murphy.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nominations: Calendar No. 996, Carmen G. Cantor, of Puerto Rico, to be an Assistant Secretary of the Interior; that the Senate
vote on the nomination without intervening action or debate; that the motion to reconsider be considered made and laid upon the table; that any statements related to the nomination be printed in the RECORD; that the President be immediately notified of the Senate’s action and the Senate resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the nomination. The senior assistant legislative clerk read the nomination of Carmen G. Cantor, of Puerto Rico, to be an Assistant Secretary of the Interior.

The PRESIDING OFFICER. The question is, Will the Senate advise and consent to the Cantor nomination?

The nomination was confirmed.

LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate will now resume legislative session.

UNANIMOUS CONSENT AGREEMENT—EXECUTIVE CALENDAR

Mr. SCHUMER. Mr. President, I ask unanimous consent that at a time to be determined by the majority leader in consultation with the Republican leader of the Senate to proceed to executive session to consider the following nomination: Calendar No. 902; that there be 10 minutes of debate equally divided in the usual form; that upon the use or yielding back of time, the Senate proceed to vote without intervening action or debate on the nomination; that if confirmed, the motion to reconsider be considered made and laid upon the table with no intervening action or debate; that no further motions be in order and any related statements be printed in the RECORD; that the President be immediately notified of the Senate’s action and the Senate resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONDEMNING THE USE OF HUNGER AS A WEAPON OF WAR AND RECOGNIZING THE EFFECT OF CONFLICT ON GLOBAL FOOD SECURITY AND FAMINE

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 434, S. Res. 669.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The senior assistant legislative clerk read as follows:

A resolution (S. Res. 669) condemning the use of hunger as a weapon of war and recognizing the effect of conflict on global food security and famine.

The motion to proceed to the resolution by title, Motion to reconsider be considered made and laid upon the table with no intervening action or debate; that if confirmed, the motion to reconsider be considered made and laid upon the table with no intervening action or debate; that no further motions be in order and any related statements be printed in the RECORD; that the President be immediately notified of the Senate’s action and the Senate resume legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

S3528 CONGRESSIONAL RECORD — SENATE July 20, 2022

(1) willful interruption of market systems for populations in need, including through the prevention of travel and manipulation of currency exchange; and

(2) calls on the United States Government to—

(A) prioritize diplomatic efforts to call out and address instances where hunger and intentional deprivation of food is being utilized as a weapon of war, including through efforts to ensure that security operations minimize civilian harm and do not undermine livelihoods of civilian populations;

(B) continue efforts to address severe global food insecurity through effective humanitarian response efforts, including through the provision of United States in-kind food assistance, vouchers, and other flexible food commodities; and

(C) ensure existing interagency strategies, crisis response efforts, and ongoing programs consider, integrate, and adapt to conflict situations, including by utilizing crisis modifiers in United States Agency for International Development programming to respond to rapid shocks and stress such as the willful targeting of food systems; and

(D) ensure that the use of hunger as a weapon of war is considered within the employment of tools to hold individuals, governments, militias, or entities responsible, as the Global Magnitsky Human Rights Accountability Act (22 U.S.C. 2656), where appropriate, and taking into consideration the need for humanitarian exemptions and the protection of lifesaving assistance.

SEC. 2. RULE OF CONSTRUCTION.

Nothing in this resolution shall be construed as authorizing the use of military force or the introduction of United States forces into hostilities.

Mr. SCHUMER. I ask unanimous consent that the committee-reported substitute amendment to the resolution be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee-reported amendment in the nature of a substitute was agreed to.

Mr. SCHUMER. I know of no further debate on the resolution, as amended.

The PRESIDING OFFICER. Is there further debate?

Hearing none, the question is on agreement to the resolution as amended. The resolution (S. Res. 669), as amended, was agreed to.

Mr. SCHUMER. I ask unanimous consent that the committee-reported substitute to the preamble be agreed to, the preamble, as amended, be agreed to; and the motions to reconsider be considered made and laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee-reported amendment to the preamble in the nature of a substitute was agreed to.

The preamble, as amended, was agreed to.

NATIONAL DAY OF THE AMERICAN COWBOY

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Committee on the Judiciary be discharged further consideration, and the Senate now proceed to S. Res. 686.

The PRESIDING OFFICER. Without objection, it is so ordered.
The clerk will report the resolution by title.

The senior assistant legislative clerk reads as follows:

A resolution (S. Res. 686) designating July 23, 2022, as “National Day of the American Cowboy.”

There being no objection, the committee was discharged, and the Senate proceeded to consider the resolution.

Mr. SCHUMER. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and the motions to reconsider be considered made and laid upon the table without any intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 686) was agreed to.

The preamble was agreed to.

(The resolution, with its preamble, is printed in the RECORD of June 22, 2022, under “Submitted Resolutions.”)

EXPRESSING SUPPORT FOR THE DESIGNATION OF JULY 2022 AS NATIONAL SARCOMA AWARENESS MONTH

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be discharged from further consideration and the Senate now proceed to the consideration of S. Res. 694.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The senior assistant legislative clerk reads as follows:

A resolution (S. Res. 694) expressing support for the designation of July 2022 as “National Sarcoma Awareness Month.”

There being no objection, the committee was discharged, and the Senate proceeded to consider the resolution.

Mr. SCHUMER. I ask unanimous consent that the resolution be agreed to, the Johnson amendment to the preamble at the desk be agreed to, that the preamble as amended be agreed to, and that the motions to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 694) was agreed to.

The amendment (No. 5143) was agreed to as follows:

(Purpose: To amend the preamble.)

In paragraph (2) of the second whereas clause of the preamble, strike “7,000” and insert “7,200.”

In paragraph (3) of the second whereas clause of the preamble, strike “any 1 time” and insert “any given time.”

In the third whereas clause of the preamble, strike “20” and insert “15.”

The preamble, as amended, was agreed to.

The resolution, with its preamble, as amended, reads as follows:

S. Res. 694

Whereas sarcoma is a rare cancer of the bone, connective tissues, such as nerves, muscles, joints, fat, and blood vessels, that can arise nearly anywhere in the body;

Whereas, in the United States—
(1) about 16,000 individuals are diagnosed with sarcoma each year;
(2) approximately 7,200 individuals die from sarcoma each year; and
(3) about 50,000 individuals struggle with sarcoma at any given time;
Whereas, each year, about 1 percent of cancers diagnosed are sarcoma; and
Whereas more than 70 subtypes of sarcoma have been identified;
Whereas the potential causes of sarcoma are not well understood;
Whereas treatment for sarcoma can include surgery, radiation therapy, or chemotherapy;
Whereas sarcoma is often misdiagnosed and underreported; and
Whereas July 2022 would be an appropriate month to designate as National Sarcoma Awareness Month—
(1) to raise awareness about sarcoma; and
(2) to encourage more individuals in the United States to get properly diagnosed and treated; Now, therefore, be it
Resolved, That the Senate supports the designation of July 2022 as “National Sarcoma Awareness Month.”

REMEMBERING FORMER PRIME MINISTER OF JAPAN SHINZO ABE

Mr. SCHUMER. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be discharged from further consideration and the Senate now proceed to S. Res. 706.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution by title.

The senior assistant legislative clerk reads as follows:

A resolution (S. Res. 706) remembering former Prime Minister of Japan Shinzo Abe.

There being no objection, the committee was discharged, and the Senate proceeded to consider the resolution.

Mr. SCHUMER. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, and that the motions to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 706) was agreed to.

The preamble was agreed to.

(The resolution, with its preamble, is printed in the RECORD of July 13, 2022, under “Submitted Resolutions.”)

MEASURE READ THE FIRST TIME—H.R. 8404

Mr. SCHUMER. Mr. President, I understand that there is a bill at the desk, and I ask for its first reading.

The PRESIDING OFFICER. The clerk will read the bill by title for the first time.

The senior assistant legislative clerk reads as follows:

A bill (H.R. 8404) to repeal the Defense of Marriage Act and ensure respect for State regulation of marriage, and for other purposes.

Mr. SCHUMER. Mr. President, I now ask for a second reading, and in order to place the bill on the calendar under the provisions of rule XIV, I object to my own request.

The PRESIDING OFFICER. Objection is heard.

The bill will be read for the second time on the next legislative day.

Mr. SCHUMER. I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio.

CHIPS ACT

Mr. PORTMAN. Mr. President, I come to the Senate floor today to correct the record, restate my colleagues in the Chamber voted yesterday to begin consideration of this chips package that we have talked about a lot because they believed it included legislation called Safeguarding American Innovation Act, or SAIA, the bipartisan, Senate-passed, White-House supported, essential legislation to protect taxpayer-funded research and intellectual property from being taken, stolen, by China and other adversaries and then used against us.

It is understandable people thought that because the SAIA research security provisions were included in the broader USICA bill that passed the Senate last year. In fact, as the coauthors of USICA know, it was the reason I was one of the then-original co-sponsors of USICA and only because of that. At that time, we needed Republican cosponsors. And it is understandable because, this week, all Republican offices were emailed a list of items by the lead Republican on this bill which included chips-plus legislation, including SAIA.

So Republicans, when they voted yesterday, thought SAIA was part of it. Even today, Democrats and Republicans alike have come up to me and said they thought SAIA was in this bill.

By the way, they want it in this bill, but it is not. It was stripped out of this USICA. I filed an amendment to get it back in this package. It is so crucial to the goal of the overall effort, which is, of course, to improve our country’s competitiveness, especially with regard to China. To do that, we must not only invest in more America research and innovation, which I support, but we have to protect that taxpayer-funded research and intellectual property from being stolen by our adversaries and used against us.

Given the current realities, without such protections, I believe this chips-plus bill, with significantly increased levels of Federal funding for research, may well become a giveaway to Beijing.

China’s made no secret of its goal to supplant the United States as the global economic leader, and China has been willing to use every tool at its disposal to be able to do that. As FBI Director Christopher Wray has warned:

The greatest long-term threat to our nation’s information and intellectual property, our economic vitality, is the counterintelligence and economic espionage threat from China.
Director Wray has characterized China as the largest threat to our ideas, our innovation, and our economic security, noting that the FBI has opened 2,000 cases focused on China stealing our research, with one case being opened approximately every 12 hours.

A number of us, in a totally bipartisan process, have been working on protecting research for the past 4 years. In 2019, an investigative report of the Permanent Subcommittee on Investigations of the Committee on Homeland Security, which I chaired with Senator CARPER as the ranking member, documented, after a yearlong investigation, how China uses talent recruitment programs—like the Thousand Talents Plan—to target the science and technology sectors. Talent recruitment plans recruit high-quality overseas talent—primarily from the United States—including academics, scientists, engineers, entrepreneurs, even government officials. The plans promise monetary benefits and other incentives to lure experts into providing proprietary information or research to China. This is in violation of our laws and conflict of interest rules. China, in turn, exploits American research, intellectual property, and open collaboration—often U.S. taxpayer-funded—for its own economic and military gain at our expense.

Really, when you think about it, the rise in China’s military and economic power has been fueled by American taxpayer-funded research, where they have essentially leapfrogged us and commercialized it more quickly than us and used it against us.

In just one of many examples, recently, a researcher in Kansas hid his full-time employment with a Chinese research university to obtain Federal grant funding for six different Department of Energy and National Science Foundation contracts.

Remember, the funding in this bill primarily goes to the National Science Foundation. In fact, the Department of Health and Human Services inspector general recently released a report that found that two-thirds of the NIH grant recipients—another place a lot of research is done, NIH—failed to meet Federal requirements regarding foreign financial interests including instances of U.S.-funded researchers failing to disclose ties with the Chinese Government.

In fact, since our investigation and hearing, there have been at least 23 different researchers that have been arrested by Federal authorities for research theft. In testimony before the Permanent Subcommittee on Investigations, John Brown, then-assistant director of the FBI’s Counterintelligence Division said:

The Communist government of China has proven that it will use any means necessary to advance its geopolitical objectives at the expense of others, including the United States, and pursue its long-term goal of being the world’s superpower by 2049. . . . The Chinese government knows that economic strength and scientific innovation are the keys to global influence and military power. So Beijing aims to acquire our expertise to create our country’s competitive advantage and supplant the United States as a global superpower.

Then-commander, U.S. Cyber Command, General Keith Alexander described intellectual property theft and cyber espionage in general as “the greatest transfer of wealth in history.”

The sentiment was underscored by former national security adviser, retired LTG H.R. McMaster. When asked about China’s growing and intertwined cyber and military threat at a March 2021 Armed Services Committee hearing, Lieutenant General McMaster stressed the need for the United States to defend itself saying:

It’s gut-wrenching to see how much has been stolen right from under our noses. And much of that research [is] funded by Congress. . . . I think the financial dimension of this is something worth a great deal of scrutiny. We are, to a large measure, underwriting our own demise.

That is why Senator CARPER and I introduced the Safeguarding American Innovation Act and insisted it be included in the Homeland Security and Governmental Affairs bill—CUSICA. And, again, it was, and it passed. And it is part of the research funding—additional research funding to have these protections around it. It would be necessary even if there was not additional research funding, but now we are spending tens of billions of dollars of more taxpayer money and not providing this security.

Based on feedback from the law enforcement and research community, the legislation goes directly to the root of the problem. It makes it punishable by law to knowingly fail to disclose foreign funding on Federal grant applications.

The FBI wants that badly. It requires the executive branch to streamline and coordinate grant-making between the Federal Agencies so there is continuity, accountability, and coordination. It allows the State Department to deny visas to foreign researchers coming to the United States to exploit the openness of our research enterprise and requires research institutions and universities to do more, including telling the State Department whether a foreign researcher will have access to export-controlled technologies.

The State Department wants this badly. The career people at the State Department helped us write these provisions. They need this authority. They don’t have it now.

So a vital component of any competitiveness bill must be this commonsense, noncontroversial, extensively negotiated, bipartisan bill. It is a matter of our national security. I have described the extraordinary theft of taxpayer-paid research under current funding guidelines as unfathomable, and that we would add tens of billions of more taxpayer dollars to sensitive research, as we propose, in the CHIPS-Plus package and not protect that research from China and all other adversaries.

I strongly urge my colleagues to support this amendment to ensure that it is part again—as it has been in the past; we all voted for it—of the underlying package.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oregon.

U.S. SUPREME COURT

Mr. MERKLEY. Mr. President, on July 4, we celebrated the founding of our Nation, as we do every year. But when I woke up on this July 4, I had a strange thought, a thought I never had before, the question of, What kind of country are we celebrating?

I have always had immense pride in the founding vision of our Nation, in that vision of equality, of opportunity for all, of freedom of religion, of equal justice under the law, of equal representation, and, most importantly, of government of, by, and for the people.

Our journey as a nation over nearly 250 years has been a difficult journey of moving toward full implementation of this vision. That is an inspiring journey—a journey I have been proud to witness, a journey I have been proud to be a part of.

But just days before this year’s July 4 celebration, we saw the conclusion of the Supreme Court’s latest judicial term—a term over which the Court displayed a far different vision for America: one with devastating repercussions that will reverberate in the lives of countless Americans for decades to come.

For years now—actually, for decades, we have watched a steady, relentless effort by rightwing extremists to rig the courts so they can transform America and American society as we have known it. Their big goal is corporations over people and their second goal is to implement conservative cultural policy over individual freedom and liberty.

Now, with this Court’s recent decisions, we are left with an inescapable conclusion: The extremists have succeeded. The Court is now operating as an unelected super-legislature with a MAGA political agenda. Their decisions this term read like planks out of the Republican Party platform.

Here is what the MAGA Court’s vision is for our Nation. It is a vision that obliterates the right to privacy, giving an overbearing Federal Government the power to be in the medical exam room making contraceptive decisions for American women, when the only people who should be in the exam room, under an “of and by the people” Republic is the woman, her doctor, and whomever else she chooses to invite—her partner, her friend, or her mother.

This Court’s vision is a vision that embraces never-ending gun violence, stripping Congress and the States of...
the ability to make commonsense gun safety laws.

It is a vision of a nation where public schools can impose religion on their students. So much for freedom of religi- on and separation of church and State.

It is a vision of a nation where wrongfully incarcerated Americans don’t have the right to prove their in- nocence and can’t find justice if their Miranda Rights were violated. So much for the principle of equal justice under law. The very principle carved into stone above the doors of the Supreme Court. In fact, if you go out this door and out the front steps, you can see those words while standing here on the steps of the Senate.

This Court’s vision is of a nation where the Court strips the Federal Government of its legally enacted power to regulate fossil carbon and fossi- sil methane pollution that is destroy- ing our Nation and our planet.

It is a vision where the powerful cor- rupt the integrity of our elections with gerrymandering and dark money and measures to prevent targeted groups of Americans from voting.

This vision is a vision for a govern- ment by and for the powerful, not by and for the people.

This vision in which the Supreme Court becomes a superlegislature for a MAGA agenda infuriates me. It infuri- ates me because I believe in govern- ment by and for the people, not by and for the powerful. It infuriates me be- cause I know the pain that these deci- sions will inflict on millions of Ameri- cans—the pain of a woman forced by a State government to carry a fetus to term that was conceived through rape or incest or the pain of any woman, for that matter, who simply is unprepared to become a parent; the pain of every single person who will have to mourn the death of a loved one lost to an ever-growing epidemic of gun violence and mass shootings like we saw in Uvalde and in Highland Park and in other communities with more than one mass shooting per day; the pain of the citizens blocked from the ballot box, effectively denied their most fundamental right as Ameri- cans because of voter suppression schemes enacted in many States over this past year; the pain of students in our public schools pressured to partici- pate in religious acts in conflict with their own beliefs; the pain of rural Americans and farmers, whose farms and ranches will be lost to fire and drought because the Court says the Federal Government cannot regulate fossil carbon and fossil meth- ane causing climate chaos.

And it is used because I know more Supreme Court decisions like these are coming from the six MAGA Justices on the Court. They want to ce- ment their vision of America through superlegislative powers rather than calling the balls and strikes defending the Constitution, which is their job.

They have announced that next term they are going to hear a case on the fringe doctrine known as the inde- pendent State legislature doctrine. It has been considered an extremist idea, which says only State legislatures have the power to make decisions about Federal elections and how to appoint electors. State courts would have no power to enter those balances or decide which decisions about elections violate a State constitution or ignore the will of the voters, nor could State Governors veto such legislative deci- sions. And that is just the start.

Justices Thomas and Kavanagh said in his concurring opinion that, based on the reasoning in Dobbs, he wants the Court to consider a whole host of other rights that have been secured and protected by previous Courts, including the possi- bility of striking down the right to in- tamity and marriage for same-sex cou- ples and the right to contraception.

Make no mistake, this is not some sudden occurrence. It is exactly what the Federalist Society has been work- ing toward for decades.

Before joining the Court in 1972, Lewis Powell wrote about the need to rebuild the power of industrial elites and fight back “from the college cam- pus, the pulpits, the media, the intellec- tuals and liberal arts and sciences, and from politicians” against progressive changes in society. In out- lining a plan for rebuilding the power of Big Business, he declared that, with an activist-minded Supreme Court, the judiciary would be the most important instrument for achieving that goal.

That is exactly why, as majority leader in 2017, Senator McCONNEL stole a Supreme Court seat from one President so another President could fill it. He stole it in 2018, and he filled it in 2017 with MAGA Justice Neil Gorsuch. It is why, in 2018, Leader McCONNEEL completely ignored cred- ible accounts of sexual assault and rushed through a confirmation without giving Senate the nomi- nee’s full records and bypassing com- mittee quorum rules to fill another seat with MAGA Justice Brett Kavanaugh. And it is why, when a seat opened up in another election year, 2020, just weeks before the voters would vote, Leader McCONNEEL completely reversed his argument that he had used to justify the theft of a Supreme Court seat in 2016, and he rammed through the nomination of MAGA Justice Amy Coney Barrett.

The Republican Party has won one popular vote for President in the last 30 years but has appointed two-thirds of the sitting Justices, who now see it as their job to become a super-legisla- ture for a cultural agenda and cor- porate power.

In one of his columns, Eugene Robin- son of the Washington Post described the resulting unelected, unaccountable majority of Supreme Court Justices as a “junta”—a word used to describe au- thoritarian leaders who rule through edicts rather than through legislative determination or deliberation on con- stitutional principles. It is hard to argue with Eugene Robinson’s charac- terization.

In spite of what the vast majority of Americans want—the protection of a woman’s right to full reproductive healthcare and more gun safety, not more guns and less safety—the Court’s MAGA majority has chosen to rule by Supreme Court edict to inflict their narrow preferences for society on hundreds of millions of Americans.

And they are not just using the regu- lar process for considering cases. Over the past 5 years, we have seen a monu- mental shift in the Court’s use of emer- gency orders—the so-called shadow docket—to enact sweeping decisions on issues that people don’t get the full process we are familiar with—formal briefings, formal hear- ings, lengthy deliberations, and opin- ion writings—because it is argued that the applicant would suffer “irreparable harm” if their request were not imme- diately granted.

The shadow docket decisions, by the way, are usually unsigned and unex- plained. In the past, they have essen- tially involved deny death penalty cases— cases of literal life and death—of pret- ty much extreme importance to the ap- plicant because, if someone is executed before their case is heard, they do suf- fer “irreparable harm”—the standard.

Then, about 5 years ago, we started to see a big shift in the emergency cases being taken up and in the sub- stances of them as well.

We have seen the shadow docket used to stop the Federal Government from implementing a vaccine and testing mandate on businesses to protect pub- lic health in the middle of an unprece- dented global health crisis that has killed more than a million Americans.

We have seen it used to uphold a Texas law banning abortion after 6 weeks.

We have seen it used when a lower court blocked Alabama’s congressional map because it violated the Voting Rights Act by diluting the political power of Black voters.

The Court said: You have got to draw a new map that is fair.

The Supreme Court stepped in with their shadow docket and said: No, Ala- bama can use this faulty map that di- lutes the power of Black Americans.

And in this situation, the Court didn’t stop the infliction of harm; they in- flicted the harm on Black Americans, who want fair maps, who deserve fair maps for voting in our democracy. That gerrymandered map is now in place to disenfranchise Black voters in this November’s election because of the Supreme Court’s use of the shadow docket.

It is hard to see how any of these cases met the test for the shadow docket.

The state of abuse of the shadow docket has gotten so bad and so bla- tant that even Justice Roberts, the Chief Justice of the Court, joined a dis- agreement with the Trump ad- ministration Clean Water Act regula- tion limiting Federal protections for streams and wetlands. This dissent
stated that the majority’s decision “renders the court’s emergency dock-et,” meaning the shadow docket, “not for emergencies at all . . . . The docket becomes only another place for merits determinations—except made without full briefing.” The Supreme Court’s Chief Justice says the shadow docket is being abused, you know it is true.

This MAGA Court is so determined to impose their legislative priorities and values on our country that they have abandoned one of the core principles of American jurisprudence, going back even before there was a United States of America, and that is that the Court only rules when there is an actual dispute or controversy in question.

In their eagerness to cripple the Federal Government’s ability to fight fossil carbon pollution, the MAGA Justices weighed in on a regulation that had already been enjoined—a regulation that had been withdrawn by President Trump and a regulation which President Biden had indicated was never going to be reinstated. Even the utilities that would have been regulated didn’t even know what a “corporation” was. The Court furthered the MAGA Supreme Court super-legislature wanted to legislate—and legislate they did—violating a core principle that the Court does not address moot cases. Moot cases are cases where there is nothing still in dispute, and this certainly was the case that this case was as dead or as moot as it could be because nobody could be impacted by a rule that doesn’t exist.

Why did the Court take up this case? Well, we may not be able to specify the exact reasoning by each Justice, but the effect is clear. By taking up this case, the Court furthered the MAGA policy agenda. Their ruling in Dobbs—an argument that has been withdrawn by President Biden and a regulation which President Trump had indicated was never going to be reinstated. The Court furthered the MAGA Supreme Court super-legislature wanted to legislate—and legislate they did—violating a core principle that the Court does not address a regulation that had already been enjoined—a regulation that had been withdrawn by President Trump and a regulation which President Biden had indicated was never going to be reinstated.

For example, the Founders wrote the Second Amendment to ensure that members of well-regulated militias had access to their rifles, but the so-called originalists on the Court cast originalism aside, declaring that the Founders wrote that clause to ensure that nonmilitia members had the right to bring assault rifles—that didn’t exist in 1787—onto subways, which didn’t exist in 1787. That is bogus originalism in its purest form.

Consider the Founders, as we know them today, did not exist in 1787. Yet the so-called originalists on the Court insist that the Founders’ vision of the First Amendment, to protect freedom of speech, gives corporations speech rights even though the word “corporation” doesn’t appear in the Constitution. This MAGA majority and its desire, and operation as a super-legislature—unlected, lifetime appointments—is a dire threat to our Republic. Here in Congress, we must not only shine a light—a spotlight—on the threat; we must stop the runaway MAGA Court from corrupting the rule of law and try to restore the legitimacy of the Court as a panel defending our Constitution.

Some will say there is no way to restore the Court and that any strategy for restoring the Court will simply compound the problems we are now facing, and I agree that there is no simple way to restore the legitimacy of the Court.

Back in 2017, when then-Majority Leader MCConnell was striving to complete the theft of the Supreme Court seat taken from the administration of Barack Obama, I took to this floor for 15½ hours with one simple message: Don’t do it. Don’t do it because, if you do, you will damage the legitimacy of the Court and there will be no simple path, no easy remedy to restore the Court’s legitimacy.

But Leader MCConnell, he doused the Supreme Court with gasoline on that day, and he set it on fire. He did the damage, I stood here for 15½ hours and said don’t do it you know, we take an oath of office to a Constitution. That involves defending the Court, not delegitimizing the Court, not stealing Supreme Court
It was the first time in the history of the United States of America that this Senate failed to debate and vote on a nominee. But here we are; the damage is done. What do we do now?

When an arsonist sets fire to your house, you don’t let it burn because you are worried about water damage. You have to strive to put out that fire, regardless of how difficult the task. So I say to you today, we cannot accept the defeatist attitude that fails to confront the forces destroying our Republic.

There are two things we must do. Mission one, we have to reform the ability of this broken Senate to serve as a legislature because, if it serves effectively as a legislature, it can serve as a counterweight to decisions of a corrupted Court.

The second thing we have to do is put all options on the table and debate them for directly reforming the Court, recognizing that we are left with difficult choices on how to do that. But we have to step up. It is necessary to save our Republic.

So let’s take each of these missions in turn. The first is to restore the Senate for a legislative body to serve as a counterweight to the corruption of a MAGA-majority Court.

The three massive problems currently affecting the Senate’s ability to serve as a functioning legislative body. First, we spend virtually all of our time on nominations, so much time that it keeps us from doing much legislating, even though we have a massively complex society and a lot of possibilities for making it work better.

When George Washington was assembling his first administration, he had to appoint and the Senate had to confirm four Cabinet positions: Secretary of War, Secretary of the Treasury, Secretary of State, and Attorney General—four positions. Today, the Senate is responsible for confirming over 1,200 Presidential appointments to executive branch positions and commissions.

Now, in the past, both parties worked to exercise the Senate’s advice and consent responsibilities in a manner that minimized the amount of Senate time required. Most were done by unanimous consent late at night, when practically anyone was here. Now, most nominations are not ones to which anyone has an objection.

In the entire decade of the 1960s, there was one vote required to close debate on a nominee—one, in an entire 10 years. In last decade, that number went to 545. Now, it is like every nomination. Virtually every nomination we have to file to close debate and vote to close debate before we can vote on the nominee. And do you know what? The way it works, you can also require 30 hours and it is not after the vote to close debate succeeds.

So the rules, which were designed for exceptional situations where there is a significant objection, are now used as partisan obstruction.

Democrats are in the minority. They want to tie up the Republicans. So they have little time to legislate.

Republicans are in the minority. They want to tie up Democrats. So they have little time to legislate.

They want each other to fail, partly because they disagree and partly because they know if the other side succeeds in making something work, the voters might reward them at the ballot box.

We have to massively streamline this nomination process. We have to—100 Senators—work together, not do what is best for us when we are in the majority and oppose it when we are in the minority, or vice versa. We all have a responsibility to completely streamline that process so we can return to being a legislature.

The second big problem for the Senate is that rules provide a complicated, time-consuming process for debating and voting on whether to debate a bill. It involves a motion to proceed or requirement to close debate on the motion to proceed and whose nomination is up to 30 hours of additional debate. Whether we go to the bill or we don’t; easy solution—all on the question of whether to debate. You have 100 capable people sent here by their constituents in their various States to solve problems for America, not to spend a week debating whether to debate a single bill. That could be where we start. Think about the amendments that could make the bill better, a week spent considering individual pieces of the bills so the public knows where we stand and there is public accountability. But, instead, we have partisan paralysis. A completely dysfunctional Senate, that is what we have. We have to change the rules to stop this completely meritless waste of the time and efforts of 100 Senators.

It is an easy solution: 1 hour spent debating whether to debate a bill, and then a simple majority vote, either we go to the bill or we don’t; easy solution. One hour makes much more sense than 1 week.

The third big problem this Senate Chamber faces is a secret silent filibuster. Under the Senate rule—and by the way, the term “filibuster” is really inappropriate because this involves no speaking of any kind. Under the Senate rule, 41 Senators can, operating as a bloc, set the agenda, thus facing the Senate to debate a bill, veto the opportunity for the Senate to consider an amendment, and veto the ability, after amendments have been considered, to have a final vote on the bill. It is the triple veto: three opportunities for the minority to block the majority from being able to consider legislation to address the issues facing America. And both parties have attempted to use it when they are in the minority. We have to restore the ability to actually debate.

It is exactly what the Founders feared. When I lay out that 41 can block and veto these 3 steps of the process, it means to reverse it—that 60 out of 100, a supermajority, has to agree to go forward through each of those three steps.

The Founders warned us: Never allow the minority to make the decisions by reversing a supermajority vote to do it. That is why James Madison said that, with a supermajority, when “the general good might require new laws . . . the principle of free government would be reversed. It would no longer be the majority that would rule: the minority would be transferred to the minority.”

It is why Alexander Hamilton warned that a supermajority requirement would result in “tedious delays; continual negotiation and intrigue; contemptible compromises of the public good.”

He also warned that “the history of every political establishment in which this principle has prevailed”—the principle of supermajority—“is a history involving perplexity, impotence, and disorder.”

Now, you may wonder if the Founders had simply read about someone somewhere requiring a supermajority for legislation and said it didn’t work very well and thought, We had better do that. No, they were writing from their direct experience because, as they were drafting and debating our 1787 Constitution, they were actually in the middle of living through the impotence and incompe- tence of the Confederation Congress.

Under the Articles of Confederation, which preceded our 1787 Constitution, the Congress had to have a supermajority on every provision; meaning, the position of the minority could pre- vail over the position of the majority. The result was paralysis on the most fundamental issues they faced. They failed to raise the funds to pay the pen- sions of the veterans who spilled their blood in the Revolutionary War that created this Nation. They failed to raise the funds to put down Shays’ Rebellion.

Well, today, we have not one stage of veto, like they faced in the Confederation Congress, we have the triple veto power under the current secret, silent filibuster, and we are seeing the same impotence, the same paralysis, the same partisanship that it drives.

The triple veto power of the minority is destroying the Senate to address the issues facing America, and there are a lot of them.

We have got the climate crisis that is literally setting our country on fire. Right now, at this very moment, around 40 million Americans across the Plains and the Mississippi Valley are dealing with alerts for dangerous and intense heat, while firefighters are confronting 89 large fires across 12 States. And as of last week, four times as much acreage has burned this year as last year at this moment. And it is not just America, of course. Across the Atlantic, Europe is going through a recordbreaking heat wave, reaching temperatures some of those
places have never seen and causing wildfires to burn in France and Spain and Italy and Greece.

Congress should be immersed in considering bills to address the climate crisis that is damaging communities across the United States just through fires but through rising sea levels and rising erosion, through pine beetle infestations and mosquito infestations, through stronger hurricanes and stronger tornadoes, and, certainly, through the periods of multiyear droughts. But we are not because the triple veto of the silent, secret filibuster afflicting this body is blocking us from doing so.

We have a housing crisis. Out-of-control rents and prices make it impossible for millions of Americans to afford a decent home to rent or buy. And colleagues have one idea after another about how we should address it, but because we are paralyzed and our process is taken up, our time is taken up with nominations and debating whether to debate and we have the triple veto of the secret, silent filibuster, they can’t move forward. And we aren’t debating, discussing, and hopefully passing measures that can make a difference.

And we are outraged by the prices they pay on drugs, which are so much higher than any other developed country. Eighty percent of Americans say: Do something about it. And I think the other 20 percent don’t realize how much we are getting ripped off. And Americans know we should get the best price because we invest the most in the research and development that creates these drugs, not the worst price, and they are absolutely right. And we would have passed legislation by now to get the best prices in the developed world, but we are blocked by the triple veto of the secret, silent filibuster.

And now States are passing laws to block terrorist groups of America from voting. We can fix that by passing S. 1, the For the People Act, or its reincarnation, the Freedom to Vote Act, but we can’t because it was blocked by the triple veto of the secret, silent filibuster.

Let me be absolutely clear. The single most effective way we can counterbalance an out-of-control Court with a MAGA agenda is to have a functioning Senate. That is the most immediate remedy we need. If we don’t get rid of this thing we have in our process that prevents us from doing so.

If the Court says there is no limit to dark money from corporations and billion after the voices of ordinary Americans and campaigns, as they did in the 2010 Citizens United decision, a restored Senate could pass the DISCLOSE Act to shining light on the dark money, where it is coming from in American campaigns.

If the Court says that anyone who wants to be able to carry a concealed weapon can do it in their New York State Rifle & Pistol Association v. Bruen decision, a restored Senate could pass strong gun safety laws that most Americans support, like ending the background check loophole—when guns are bought and sold by unlicensed parties online or at gun shows—or by outlawing the kinds of large magazines that carry 30 or more bullets that are often used in mass shootings.

And when the Court went to abnormally length to decide in last month’s West Virginia v. EPA that the Agency can’t regulate fossil carbon or fossil methane emissions, a functioning Senate would be able to step up and create the programs designed to speed them up. But the triple veto of the secret, silent filibuster has blocked us from doing so.

The remedy is not to eliminate the filibuster. The remedy is to reform it. The right reform is to adopt the public, talking filibuster. The talking filibuster would reassert the fundamental principle of legislative conduct: the Senate Code, adopted by the original Senate. Under that code, the Senate listened to every Senator’s perspective, and then they voted. There is no one fili-buster or accelerate the closure of debate. And when they rewrote the rule book—and Aaron Burr was in charge of it—in 1806, they dropped the rule because they never used it, didn’t feel they ever needed it.

Well, we need to reclaim that vision, and our rules have gotten so crazy, so out of whack, that we encourage par-tisanship and paralysis rather than problem-solving. Let’s fix that;

So let’s have the talking filibuster. The talking filibuster says, Yes, you can speak on the issue. We will listen to you twice. But then you vote, and the majority wins—not a supermajority required. The minority doesn’t win over the majority. The majority wins.

That was the Senate. That was the design of our Constitution that we have the responsibility to restore because we took an oath to the Constitution. So let’s restore it. And that talking filibuster encourages bipartisan problem-solving. The minority, be it the Democratic or Republican, that wants to slow things down for leverage, they can. So they have significant leverage, but, on the other hand, they have an incentive to negotiate because they are not sure how long they can maintain that control. And that is the heart of the talking filibuster: maintaining continuous debate. If there is a break in debate, you go to the vote.

Meanwhile, the majority has an incentive to compromise because they know the minority can tie this place up on a single bill for weeks after week, and they can’t afford to have that much time taken over a single bill. So the talking filibuster restores an incentive for compromise and bipartisan problem-solving and, in the end, restores the vision that the majority makes the decision, not the minority. In the end, it gives the minority a voice. It gives the minority massive leverage, but it takes away their veto. That is the right way to legislate in a democracy.

As I noted before, fixing the Senate is probably the best immediate tool we have for repairing the damage from the Supreme Court across the grounds. But we also have to consider every possible remedy to restore the Court itself, to restore a Court that calls the balls and strikes on the Constitution, defending
its core principles, and recognizes it is not there to legislate—not to legislate on the left side, not to legislate on the right side. They are there to defend the Constitution.

Well, reforming the Court won’t be easy. Today, I am calling on President Biden to convene a Commission to explore the option, and that Commission has produced a lengthy, lengthy report. This is part of it: The Presidential Commission on the Supreme Court of the United States, December of last year.

I encourage all my colleagues to read this and consider the ideas in it. In this 300-page report, the Commission does review the history of how the Court has been in different phases, and its size has changed all the time because that is not established in the Constitution. It has been as few as 5, and it has been more than 10. There was not nine locked in like it is now.

And, certainly, one of the ideas they review is adjustment to the size of the Court. Many people have said that is something to look at to balance what has happened with the Court, with the stolen Supreme Court seat and a decision by several Justices to be a legislature rather than a court.

Well, that is one idea. Another is implementing term limits or a mandatory retirement age because, when the Constitution was first written, people weren’t living the long lives they have today, and they didn’t stay in the Court forever.

In 1787, the Founders wrote that Justices would hold their seats during good behavior. Now, I am not sure that every Justice across these grounds has been engaged in good behavior when they are choosing to legislate rather than to rule on the defense of the Constitution, but there is no easy way to remove them from the Court for misbehavior.

But one possibility is for the Court members to rotate out with term limits of some kind. That is one possibility.

In much of our history, Justices only served an average of 15 years on the Court. The average is now 26 and getting longer. And, did you know, America is the only constitutional democracy that gives lifetime presence on the Court, that doesn’t have either a term limit or a mandatory retirement age?

This report, this Commission, has other ideas in it: rotating membership on the Court with judges selected from the circuit court. You know, the original Supreme Court, they served as circuit court writers. They went out and made decisions across this country. They didn’t just sit in a room in the capital. So there is some precedent for that idea.

And others point out that there is the power to restrict the Court’s jurisdiction. There are pros and cons for these ideas, and our commitment needs to be to examine them. The American public is open to examining them.

Earlier this week, the FOX News poll reported that 66 percent of the folks in their poll support an 18-year term for Justices, and 71 percent support a mandatory retirement age. So the American people are open to trying to fix the challenge with the Court. We have other options. We don’t need to look at every option and idea very carefully to ensure that the highest Court in our land fulfills the vision for it in our Constitution. And the vision in our Constitution was not that it would be an unelected super-legislature.

Colleagues, this is a perilous moment for our Republic. It is a moment when the will of the people is being overrun by an extreme agenda of a Court legislating from the Bench, imposing their narrow and precedent-destroying will on all Americans. We have to restore the ability of this Senate to operate as a legislature that can be a counterbalance to what the Court does, and we must thoughtfully consider every proposal for reforming the Court directly.

We can and we must act before it is too late. We can’t stand by and watch the continuous disintegration of our Republic.

Our oath to the Constitution demands that we protect these institutions and repair them when they go off track. And when we do, the next July 4, we can all join together and celebrate the restoration of our paralyzed and partisan Senate into an actual legislative body. We can celebrate the restoration of Americans’ rights that are being continuously stripped away across the grounds by the Supreme Court. We can have a renewed belief and confidence in the integrity of all of our institutions and our democratic form of governance. That would be a moment justifying a massive celebration next July 4.

UNITED STATES COMMISSION ON INTERNATIONAL RELIGIOUS FREEDOM REAUTHORIZATION ACT OF 2022

Mr. MERKLEY. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 406, S. 3895.

The PRESIDING OFFICER. Mr. Merkley, your amendment is in the nature of a substitute, and I report the same out of the Senate Foreign Relations Committee and propose its adoption.

Mr. MERKLEY. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 406, S. 3895.

The PRESIDING OFFICER. The clerk will report the bill by title.

The senior assistant legislative clerk read as follows:

A bill (S. 3895) to extend and authorize annual appropriations for the United States Commission on International Religious Freedom through fiscal year 2024.

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Foreign Relations, with an amendment to strike all after the enacting clause and insert in lieu thereof the following:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,
Peace Corps’ return is a testament to the resilience and adaptability of this vitally important branch of U.S. foreign affairs, COVID’s continued presence around the world requires the Peace Corps to undertake a wide array of public safety measures to keep volunteers and host communities healthy and safe.

And so this reauthorization comes at a most critical time for the Peace Corps. This is a once-in-a-generation opportunity to enact long overdue reforms and to make sure the agency can effectively promote international peace, development, and people-to-people engagement. And it represents significant reforms and strong bipartisan congressional support for the Agency at an inflection point in its history.

This legislation will strengthen the Peace Corps, giving it the baseline budget it needs to build the program that Americans deserve. It sets a $375 per month minimum for the Peace Corps volunteers’ readjustment allowance. It suspends student loan interest during volunteer service. It extends health coverage for returned Peace Corps volunteers. And it provides greater whistleblower protections so the Peace Corps will be transparent and accountable, honoring the standards and aspirations of its original vision, as outlined in 1961.

The Peace Corps is on track to redeploy 30 countries by the end of this fiscal year. And it has set an aggressive goal of returning volunteers to almost all of the preprepandemic countries by the end of fiscal year 2023. The programs and policy reforms authorized in this legislation are crucial to ensuring the safe and successful return of volunteers to the field.

I am especially proud of the bipartisan work that has gone into this bill and appreciate the collaboration of the ranking member of Senate Foreign Relations Committee, Senator Risch, for his inclusion of important language. And I am pleased that we are joined by our colleagues, Senators CARDIN, YOUNG, SHAHEEN, PORTMAN, FEINSTEIN, and CORNYN, who should be commended for their support of the Peace Corps and to ensuring the Peace Corps can continue to support and enhance America’s leading role in the world.

I also want to salute the tremendous input from the Peace Corps community. Their commitment to improving security, conditions, and opportunities for future Peace Corps volunteers is vital to the introduction of this bill and improves our national security as well.

So I urge my colleagues to support this bill and its swift passage. Passage of this bill will help bring about a revitalized, retooled Peace Corps. Making this happen will measure the return of volunteers executing the important work of the Peace Corps, representing the United States of America overseas.

10-YEAR ANNIVERSARY OF THE AURORA, COLORADO, SHOOTING

Mr. BENNET. Mr. President, on July 20, 2012, Colorado suffered a horrific mass shooting at a movie theater in Aurora. A gunman took 12 innocent lives from us, each of them full of aspirations for a future that was tragically and senselessly cut short. They leave behind family, friends, and a community in Aurora that still carries the pain of their loss a decade later.

Colorado will never forget and forever honor the community in Aurora that was shot. Today, I ask to read their names into the CONGRESSIONAL RECORD.

Jonathan Blunk was 26 years old. He was a father of two who moved to Colorado in 2009 after three tours in the Persian Gulf and North Arabian Sea for the U.S. Navy. He was a certified firefighter and EMT. Jon lost his life protecting his friend Jansen Young from the gunman’s line of fire. Jon shielded her from gunfire by pushing her to the ground while shots were fired. He was supposed to fly that Saturday to Nevada to see his wife Chantel Blunk and their 4-year-old daughter and 2-year-old son. Instead, his wife had to put up the dress her daughter had picked out to wear to the airport. She told her disabled daughter that they would not see their dad anymore, but that he would still love them and look over them.

Alexander Jonathan Bolk was 18 years old. His friends and family called him A.J. He had just graduated from Gateway High School. He enjoyed baseball, music, and making pottery. A.J. was supposed to start art classes at the Rocky Mountain College of Art and Design that fall. He was described as “being the life of the party,” who could bring a smile to anybody’s face.” He was a young man with a warm and loving heart.

Jessica Childress was 29 years old. She was an Air Force cyber systems operator at Peterson Air Force Base. A movie fan that he took jobs at theaters just to see the movies, Alex stood 6 feet, 4 inches, and weighed about 280 pounds. He played football and wrestled before graduating high school in 2005 and later went to culinary school. Alex was known as a gentle giant and was loved by many.

Veronica Moser-Sullivan was 6 years old. Matt died while protecting his girlfriend Samantha Yowler by jumping in front of her during the shooting. Matt and Samantha moved to Colorado from Ohio last fall and worked at Target and Walmart and were planning their future life together. Matt’s bravery saved Samantha’s life.

Jessica Ghawi was 24 years old. She was an aspiring journalist, most recently interning with Mile High Sports Radio in Denver, and went by the nickname “Redfield.” She was hard-working, ambitious, and generous in spirit and kind heart. When several homes were destroyed by Colorado wildfires, Jessica collected hockey equipment to donate to the kids affected because she wanted to help. That was who she was.

John Thomas Larimer was 27 years old. He was a cryptologic technician with the Navy based also at Buckley Air Force Base, and “extremely good character and skills.”

Originally from Chicago, John was the youngest of five siblings and had just joined the service just over a year before the shooting. Like his father and grandfather, John chose to serve in the U.S. Navy. John’s superior officer called him “an outstanding shipmate, a valued member of the Navy and an extremely dedicated sailor.” Colleagues praised his calming demeanor and exceptional work ethic.

Matthew McQuinn was 27 years old. Matt died while protecting his girlfriend Samantha Yowler by jumping in front of her during the shooting. Matt and Samantha moved to Colorado from Ohio last fall and worked at Target and Walmart and were planning their future life together. Matt’s bravery saved Samantha’s life.

Micayla “Cayla” Medek was 23 years old. Cayla was a graduate of William C. Hinkley High School in Aurora and a young woman who touched everyone with whom she came in contact. She was an exceptional work ethic. Micayla “Cayla” Medek was 23 years old. Cayla was a graduate of William C. Hinkley High School in Aurora and a young woman who touched everyone with whom she came in contact. She was an exceptional work ethic.

Jessica Ghawi was 24 years old. She was an aspiring journalist, most recently interning with Mile High Sports Radio in Denver, and went by the nickname “Redfield.” She was hard-working, ambitious, and generous in spirit and kind heart. When several homes were destroyed by Colorado wildfires, Jessica collected hockey equipment to donate to the kids affected because she wanted to help. That was who she was.

AFCONIGAN

Mr. HAWLEY. Mr. President, following my submission yesterday, I ask unanimous consent to have printed in the RECORD the next part of an investigation directed by the U.S. Central Command (USCENTCOM). I am concerned with the Abbey Gate bombing in Afghanistan in August 2021.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

ACTS–SCK–DO

SUBJECT: Concerning the Abbey Gate Bombing in Afghanistan in August 2021

(a) Occupation of Abbey Gate. At approximately 0800 on 26 August, Golf Company, reinforced by Fox Company platoons, moved through the gate to the ECC (exhibits 11, 15, 18, 56, 77, 88). Any time spent emplacing obstacles was time not spent searching and the escort of evacuees. Additionally, many force protection measures that could have been implemented, such as additional T-Walls or HESCO barriers, would have immensely reduced the flow of evacuees. Clos- ing the gate was also not an option because of U.K. efforts to conclude evacuation oper- ations at the nearby Barron Hotel (exhibits 18, 54, 121, 127). Closing the gates would have isolated U.K. Forces and jeopardized the JTE force flow and timeline, potentially initiating renewed armed conflict with the Taliban (exhibits 15, 18, 23, 125).

(b) Leaders at Abbey Gate on 26 August made frequent decisions (multiple times daily) to increase the force protection posture and to screen evacuees. Electronic countermeasures were surged forward (exhibits 66, 77, 88). Any time spent emplacing obstacles was time not spent searching and the escort of evacuees. Additionally, many force protection measures that could have been implemented, such as additional T-Walls or HESCO barriers, would have immensely reduced the flow of evacuees. Clos- ing the gate was also not an option because of U.K. efforts to conclude evacuation oper- ations at the nearby Barron Hotel (exhibits 18, 54, 121, 127). Closing the gates would have isolated U.K. Forces and jeopardized the JTE force flow and timeline, potentially initiating renewed armed conflict with the Taliban (exhibits 15, 18, 23, 125).

(c) Increased Crowds and Attack.

(i) After the establishment of the Chevron and the clearing of the nearside of the canal, 2/1 established steady state operations and conducted initial screening and crowd control (exhibits 77, 83, 89). Later on 20 August, crowds in the canal breached the southern end of the fence separating the canal from the outer perimeter. The Marines on the nearside of the canal identified the need to clear the nearside of the canal and keep crowds on the opposite side (exhibits 53, 76, 83).

(ii) Stable State Operations.

(a) Most units that deployed to HKIA in support of the Afghanistan NEO, with the ex- ception of USFOR-A JTF and JTF-CR, had adequate manpower for the assigned mission. Most Marines were task-saturated due to a combination of protecting the force at the evacuation site and conducting operations in support of the AFSOC-A FWD air assets task-saturated due to the nature of the NEO. The effects were further exacerbated by the fact that many of their personnel were deployed to expend energy trying to find specific evacuees, or groups of evacuees, at the gates of HKIA, on behalf of
various U.S. government officials, senior military officers, or special interest groups.

(b) All units deployed to HKIA in support of the Afghan NEO had trained on their respective essential tasks (ETs) prior to deployment. In some cases, this included NEO-specific training, while in others it did not. Leaders at all levels stated no training had sufficiently prepared them for what they experienced at HKIA.

(2) USFOR-A FW.

(a) Training. USFOR-ARF’s FWD, led by RADM Pete Vaseley, USN, Commander, USFOR-A FWD, and Brigadier Thomas Day, United Kingdom, Deputy Commander, USFOR-A FWD, task organized and man- nered as a SOJTF in anticipation of taking over the NSOCC-A mission. In June 2021, they transitioned into Diplomatic Assurance Plan (DEAP), with a focus on the medical, flight, and security requirements of USEK (exhibit 20). In July 2021, RADM Vaseley took command from General Miller, and assumed the functions of Resolute Support Headquarters (RSHQ) and USFOR-A, albeit with a drastically reduced footprint due to a reduced boots on the ground (BG) capability of 650 being man- nered. In addition to USFOR-A FWD’s organ- ic staff, they had TACON of one company from 2nd IBCT, 16th Mountain Division, and two companies from 16th, 10th Mountain Division (exhibits 20, 21).

(b) Training. USFOR-A FWD trained to de- ploy as a SOJTF, not training for the specific role of RSHQ and USFOR-A, nor did they train to command a NEO. While deployed, USFOR-A FWD participated in the 28 June Operational Planning Team (OPT) at USEK, focused on pre-NEO planning. USFOR-A FWD then participated in the CENTCOM-led NEO tabletop exercise (TTX) on 29 June, and a National Command (NSC)-led NEO TTX on 6 August (exhibits 20, 21).

(3) 82nd Airborne Division.

(a) Manning. 82nd Airborne Division HQ, led by MG Christopher Donahoe, initially de- ployed with a small team of six staff mem- bers, and arrived at HKIA on 18 August. The remainder of the Division HQ staff arrived on 20 August, bringing the 82nd’s total man- power to 106 personnel (exhibits 125, 152). The 1st IBCT, 82nd Airborne Division (1/82 IBCT), led by (TEXT REDACTED) deployed as part of the 1st Army Corps arrive at HKIA on 15 August, and had roughly 1000 soldiers on hand by 16 August. The number of personnel TACONed to HKIA would swell to approximately 5500 throughout the NEO (exhibits 130, 152). The 1/ 82 IBCT HQ was comprised of 65 personnel, and it had TACON of elements from 1/504 PIR (515 personnel), 2/504 PIR (376 personnel), 2/501 PIR (504 personnel), 3-319 Artillery (257 personnel), 397th Brigade Support Battalion (BSSB) (56 personnel), 127th Airborne Engi- neer Battalion (24 personnel), 50th Expeditionary Signal Battalion (4 personnel), 16th Military Police Brigade (150 personnel), and 1/194 Armor Regiment (421 personnel) (exhibits 152, 155).

(b) Training. The 82nd Airborne Division HQ is trained to deploy rapidly, as part of the IRF, and did so in support of the NEO. While deployed to HKIA, the Division HQ participated in MASCAL TTxs and Re- hearsal of Concept (ROC) drills, as well as Rules of Engagement (ROE) ROC drills with subordinate and adjacent units (exhibit 125). 1/82 IBCT began its IRF preparation training in March 2021 during its Joint Readiness Training Center (JRTC) rotation. During the IRF, units rehearsed engagement, conducted mock interagency engagements, utilized role players, and trained on entry control point operations. They conducted three full divide company-level exercises (exhibits 121, 127). The 1/82 IBCT conducted Leader Professional Development sessions, where they executed tactical decision games focused on NEO (exhibits 121, 123). The bri- gade also trained to secure airfields (exhibits 121, 123, 124), 2/501 PIR executed three deploy- ments abroad, where they practiced deploying out of Joint Base Charleston, South Carolina (exhibit 123).

(1) JTF-CR.

(a) Manning. JTF-CR activated in antici- pation of the Afghan NEO, and initially had a joint manning document (JMD) with JTF-OCO (177 personnel). Upon receipt, the JTF sent three Liaison Officers (LNOs) forward to Afghanistan in May 2021 to coordinate with USFOR-A, USEK, and HKIA. Additionally, the AM was tasked, as of 15 June 2021, with the activation of three Marines to HKIA to begin prepara- tions for receiving the JTF in the event of a NEO (exhibit 15). On 19 July, JTF-CR sent an additional 28 personnel forward to HKIA to assist DoS with processing SVN applicants for travel to the U.S., and to continue prepara- tions for receiving the JTF at HKIA in the event of a NEO (exhibits 15, 18). By the third week of July, JTF-CR had 55 personnel on the ground at HKIA, and would send an additional 28 personnel forward from Bahrain (exhibit 15). By 26 August, the JTF-CR staff was back down to 59 personnel, as some staff members had redeployed. JTF- CR was forced to redeploy personnel for their versatility, so they could multi-task, and the JTF opted to place a heavy emphasis on planning ability, due to the anticipated re- quirement of multiple, competing planning missions throughout the NEO (exhibit 15).

(b) Training. JTF-CR was certified as a JTF in 2019 (exhibits 15, 18), and again in 2020 (exhibit 18). In addition to its certification via exercises and training, the JTF had activ- ited three times within the past year, to in- clude its planning response to the Beirut Port explosion in August 2020, and its deploy- ment in support of Operation OCTAVE QUARTZ off the coast of Somalia in the spring of 2021 (exhibit 18). JTF-CR participated in NEO TTxs with CENTCOM at the end of June, and the NSC on 8 August, but the NEO exercise was found to be ineffective, due to faulty planning assump- tions (exhibits 17, 18). During NEO execution at HKIA, JTF-CR conducted MASCAL re- hearsals with USFOR-A FWD, which ultimately paid dividends on 26 August (exhibits 15, 16, 18). Multiple leaders from JTF-CR stated that no training had truly prepared service members for the tasks they executed at HKIA throughout the NEO (exhibits 17, 18).

(6) SPMAGTF.

(a) Manning. The SPMAGTF deployed a ‘heavy package’ to HKIA, comprised of the GCE, comprised of 2nd Battalion, 1st Marines (21), the Logistics Combat Element (LCE), comprised of CLD-21, and Aviation Combat Element (ACE), comprised of MWSD-373. Additionally, the SPMAGTF ‘heavy package’ included an STP and two EOD teams (exhibits 65, 66). 21 deployed into 24th MEU, with the exception of one platoon from Golf Company, which provided escort security aboard SPMAGTF flight to/from HKIA, two platoons from Fox Company, which remained at the Baghdad Embassy Complex (BEC) in Iraq to provide security, and their Combat Engineer Pla- toon, which stayed at the BBC to support force protection improvements there (exhib- its 53, 54, 55, 56, 77, 78, 79, 81). As a result of the Engineer Platoon not deploying to HKIA, 21 was forced to depend on CLD-21’s engi- neering crews, whose primary role was focused on the MEU’s standard pre-deployment training program, and the BLT’s Engineer Platoon, whose focus was supporting the BLT at North and East Gates.

(b) Training. SPMAGTF

ADDITIONAL STATEMENTS

REMEMBERING RANDY ‘R.D.’ KINSEY

Mr. BOOZMAN. Mr. President, I rise today to honor the legacy of Mr. Kinsey, who passed away on July 11, 2022, at the age of 69. Mr. Kinsey was a hus- band, father, veteran, civil servant and beloved leader in the State of Arkansas with a reputation for wisdom and com- passion.

A native of South Florida, Kinsey moved to Arkansas after his service in the U.S. Air Force. After he was honor- ably discharged in 1972, he realized his passion and desire to uplift and advan- ced for his fellow veterans.

Stepping into a new platform of serv- ice with the U.S. Department of Vet- erans Affairs, Kinsey spent much of his time counseling combat veterans even
before post-traumatic stress disorder and traumatic brain injuries were formal diagnoses.

Kinsey’s friends recognized him as a man who actively worked to make positive changes for veterans throughout his career. Upon his retirement from civil service in 2000, he continued to blaze trails within the American Legion, serving in local, state, and national capacities. He was instrumental in founding American Legion Post 74 in North Little Rock, where he served as founding commander and commander for 14 years.

He made an annual trip to Washington, DC, during the American Legion’s national conventions about its legislative priorities and advocated on behalf of Arkansas veterans.

In 2018, he became the first African-American State commander of the American Legion of Arkansas. Kinsey was not focused on the tag-line and pressures that may arise from being the first minority to sit in the State commander seat because, in his words, “All our blood runs the same.” This was one of many examples of how he led his life with humility and selflessness.

During his time in the Air Force, Kinsey specialized in security, where he fought to protect his fellow airmen in combat. During his time serving veterans, he fought to strengthen the benefits they earned. Service, advocacy, and security were his life’s tenets.

At the celebration of the American Legion’s 100th anniversary, Kinsey said his time as commander was his way of giving back blessings to help others and what could be a more rewarding experience than to be able and help a veteran in need.

He served in the greatest capacity alongside his wife, Dianna and their two daughters, Meredith and Allison and their grandchildren. He was a loving father, caring coworker, servant leader, gracious husband, and friend to all. His wife, Dianna, recently said that his motto was “For God and country.” I hope we can learn from his example to remember the American blood flowing through all of us and work together to make this country better than we found it.

I join R.D Kinsey’s family, friends, and all Arkansans in mourning his passing. His fingerprint will forever mark Arkansas. From Florida, North Little Rock, Washington, and everywhere in between, his legacy will carry on with current and future generations. In his spirit we will continue to advance the benefits for and meet the needs of American veterans.

TRIBUTE TO JIM HALVORSON

• Mr. DAINES. Mr. President, today I have the distinct honor of recognizing Jim Halvorson of the Montana Board of Oil and Gas Conservation for his dedication to Montana and his 32 years of public service.

Raised near Pendroy, MT, Jim graduated from the Montana School of Mines, better known today as Montana Tech University. After years of work in both Wyoming and Colorado, Jim made his way back home to the Treasure State and went on to begin his career with the Montana Board of Oil and Gas Conservation. He started out as a petroleum geologist and was eventually appointed as Administrator. Jim’s role included administering Montana’s oil and gas conservation laws, promoting conservation, and overseeing oil and gas exploration and production in the State.

As Jim enters into retirement, he can rest assured that he has made a lasting impact on Montana’s oil and gas industry. He will now have the opportunity to enjoy the fruits of his labor as he plans to spend more time in the great outdoors, whether that be fishing or enjoying time with his wife of 40 years, Diana.

It is my honor to recognize Jim Halvorson for his dedication to the Montana Board of Oil and Gas Conservation and for his 32 years of public service to the great State of Montana. Jim, thank you for your many years of public service and your commitment to preserving our State’s oil and gas reserves. I wish you all the best in your retirement. You make Montana proud.

MESSAGE FROM THE HOUSE

At 11:28 a.m., a message from the House of Representatives, delivered by Mrs. Alli, one of its reading clerks, announced that the House has passed the following bill, without amendment: S. 144. An act to authorize the Secretary of Health and Human Services, acting through the Director of the Indian Health Service, to acquire private land to facilitate access to the Desert Sage Youth Wellness Center in Hemet, California, and for other purposes.

The message also announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 1286. An act to establish the Southern Campaign of the Revolution National Heritage Corridor, and for other purposes.

H.R. 2024. An act to establish the Southern Maryland National Heritage Area, and for other purposes.

H.R. 4404. An act to amend the Wild and Scenic Rivers Act to designate segments of the Kissimmee River in the State of Florida as a component of the Wild and Scenic River System, and for other purposes.

H.R. 7022. An act to establish the Alabama Black Belt National Heritage Area, and for other purposes.

H.R. 4084. An act to repeal the Defense of Marriage Act and ensure respect for State regulation of marriage, and for other purposes.

MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 1286. An act to establish the Southern Campaign of the Revolution National Heritage Corridor, and for other purposes; to the Committee on Energy and Natural Resources.

H.R. 2024. An act to establish the Southern Maryland National Heritage Area, and for other purposes; to the Committee on Energy and Natural Resources.

H.R. 4404. An act to amend the Wild and Scenic Rivers Act to designate segments of the Kissimmee River in the State of Florida as a component of the Wild and Scenic River System, and for other purposes; to the Committee on Energy and Natural Resources.

H.R. 637. An act to require the Secretary of the Interior and the Secretary of Agriculture to develop long-distance bike trails on Federal land, and for other purposes; to the Committee on Energy and Natural Resources.

H.R. 7002. An act to authorize the Gateway Arch in St. Louis, Missouri, to be illuminated by blue and yellow lights in support of Ukraine; to the Committee on Energy and Natural Resources.

H.R. 7025. An act to prohibit the Director of the United States Fish and Wildlife Service from funding entities that commit, fund, or support gross violations of internationally recognized human rights, and for other purposes; to the Committee on Environment and Public Works.

MEASURES READ THE FIRST TIME

The following bill was read the first time, which it requests the concurrence of the Senate:

H.R. 4084. An act to repeal the Defense of Marriage Act and ensure respect for State regulation of marriage, and for other purposes.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–4612. A communication from the Alternate Federal Register Liaison Officer, Office of the Secretary, Department of Defense, transmitting, pursuant to law, the report of the Department of Defense, transmitting, pursuant to law, the report of the United States Fish and Wildlife Service from Temporary Program Changes in Response to the COVID-19 Pandemic (RIN0720–AB81) (RIN0720–AB82) (RIN0720–AB83) received during adjournment of the Senate in the Office of the President of the Senate on June 29, 2022; to the Committee on Appropriations.

EC–4613. A communication from the Alternate Federal Register Liaison Officer, Office of the Secretary, Department of Defense, transmitting, pursuant to law, the report of a rule entitled “TRICARE Coverage and Reimbursement of Certain Services Resulting from Temporary Program Changes in Response to the COVID-19 Pandemic” (RIN0720–AB81) (RIN0720–AB82) (RIN0720–AB83) received during adjournment of the Senate in the Office of the President of the Senate on June 29, 2022; to the Committee on Appropriations.
S3540

CONGRESSIONAL RECORD — SENATE
July 20, 2022

from Temporary Program Changes in Response to the COVID-19 Pandemic; Correction’’ (RIN0729–A882) received during adjournment of the Senate in the Office of the President of the Senate on June 22, 2022; to the Committee on Armed Services.

EC–4614. A communication from the Alternate Federal Register Liaison Officer, Office of the Secretary, Department of Defense, transmitting, pursuant to law, the report of a rule entitled “Privacy Act of 1974; Implementation” (RIN0750–AK19) received during adjournment of the Senate in the Office of the President of the Senate on June 22, 2022; to the Committee on Armed Services.

EC–4615. A communication from the Alternate Federal Register Liaison Officer, Office of the Secretary, Department of Defense, transmitting, pursuant to law, the report of a rule entitled “Applicability of section 432(b)(7) following a merger involving a multiemployer defined benefit plan that would terminate and, as a result, present a threat of a material loss to Participant’s retirement account balances” (RIN0770–A122) received during adjournment of the Senate in the Office of the President of the Senate on June 22, 2022; to the Committee on Armed Services.

EC–4616. A communication from the Alternate Federal Register Liaison Officer, Office of the Secretary, Department of Defense, transmitting, pursuant to law, the report of a rule entitled “Federal Defense Acquisition Regulation Supplement: Maximizing the Use of American-Made Goods, Products, and Materials (DPRAS Case 2019–D040)” (RIN0750–AK85) received during adjournment of the Senate in the Office of the President of the Senate on June 22, 2022; to the Committee on Armed Services.

EC–4617. A communication from the Secretary of Energy, transmitting a legislative proposal that would amend the Harmonized Tariff Schedule of the United States; to the Committee on Armed Services.

EC–4618. A communication from the Under Secretary of Defense (Personnel and Readiness), transmitting, a report entitled “Explosives Safety Board Report to Congress”; to the Committee on Armed Services.

EC–4619. A communication from the Under Secretary of Defense (Acquisition and Sustainment), transmitting, pursuant to law, a report entitled “Firearm Information: Preemption of State Laws” (12 CFR Part 1022) received during adjournment of the Senate in the Office of the President of the Senate on July 7, 2022; to the Committee on Banking, Housing, and Urban Affairs.

EC–4620. A communication from the Acting Assistant Secretary of Defense (Legislative Affairs), transmitting additional legislative proposals relative to the “National Defense Authorization Act for Fiscal Year 2023”; to the Committee on Armed Services.

EC–4621. A communication from the Acting Assistant Secretary of Defense (Legislative Affairs), transmitting additional legislative proposals relative to the “National Defense Authorization Act for Fiscal Year 2023”; to the Committee on Armed Services.

EC–4622. A communication from the Acting Assistant Secretary of Defense (Legislative Affairs), transmitting additional legislative proposals relative to the “National Defense Authorization Act for Fiscal Year 2023”; to the Committee on Armed Services.

EC–4623. A communication from the Acting Assistant Secretary of Defense (Legislative Affairs), transmitting additional legislative proposals relative to the “National Defense Authorization Act for Fiscal Year 2023”; to the Committee on Armed Services.

EC–4624. A communication from the Acting Assistant Secretary of Defense (Legislative Affairs), transmitting additional legislative proposals relative to the “National Defense Authorization Act for Fiscal Year 2023”; to the Committee on Armed Services.

EC–4625. A communication from the Acting Assistant Secretary of Defense (Legislative Affairs), transmitting additional legislative proposals relative to the “National Defense Authorization Act for Fiscal Year 2023”; to the Committee on Armed Services.

EC–4626. A communication from the Acting Assistant Secretary of Defense (Legislative Affairs), transmitting additional legislative proposals relative to the “National Defense Authorization Act for Fiscal Year 2023”; to the Committee on Armed Services.

EC–4627. A communication from the Senior Congressional Liaison, Bureau of Consumer Financial Protection, transmitting, pursuant to law, the report of a rule entitled “Prohibiting Discrimination in Consumer Reporting in Cases of Human Trafficking (Regulation V)” (RIN3179–A191) received during adjournment of the Senate in the Office of the President of the Senate on June 24, 2022; to the Committee on Banking, Housing, and Urban Affairs.

EC–4628. A communication from the Senior Congressional Liaison, Bureau of Consumer Financial Protection, transmitting, pursuant to law, the report of a rule entitled “Debt Collection Practices (Regulation P); Pay-to-Pay Fees” (12 CFR Part 1060) received during adjournment of the Senate in the Office of the President of the Senate on July 7, 2022; to the Committee on Banking, Housing, and Urban Affairs.

EC–4629. A communication from the Senior Congressional Liaison, Bureau of Consumer Financial Protection, transmitting, pursuant to law, the report of a rule entitled “The Fair Credit Reporting Act’s Limited Preemption of State Laws” (12 CFR Part 1022) received during adjournment of the Senate in the Office of the President of the Senate on July 7, 2022; to the Committee on Banking, Housing, and Urban Affairs.

EC–4630. A communication from the Senior Congressional Liaison, Bureau of Consumer Financial Protection, transmitting, pursuant to law, the report of a rule entitled “The Defense Production Act Fund Annual Report For Fiscal Year 2021”; to the Committee on Banking, Housing, and Urban Affairs.

EC–4631. A communication from the Under Secretary of Defense (Acquisition and Sustainment) transmittinig, pursuant to law, a report entitled “Defense Production Act Fund Annual Report For Fiscal Year 2021”; to the Committee on Banking, Housing, and Urban Affairs.

EC–4632. A communication from the Deputy Chief, National Forest System, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled “Incorporation by Reference” (FRL No. 9525–02–R3) received during adjournment of the Senate in the Office of the President of the Senate on July 15, 2022; to the Committee on Environment and Public Works.

EC–4633. A communication from the Acting Assistant Secretary of Defense (Legislative Affairs), transmitting additional legislative proposals relative to the “National Defense Authorization Act for Fiscal Year 2023”; to the Committee on Armed Services.

EC–4634. A communication from the Director of Congressional Affairs, Nuclear Regulatory Commission, transmitting, pursuant to law, the report of a rule entitled “NUREG-2159, Rev. 1, ‘Acceptable Standard Format and Content for the Fundamental Nuclear Material Control Plan Required for the Control of Nuclear Materials of Significant Strategic Significance’” (RIN3150) received in the Office of the President of the Senate on July 11, 2022; to the Committee on Environment and Public Works.

EC–4635. A communication from the Director of Congressional Affairs, Nuclear Regulatory Commission, transmitting, pursuant to law, the report of a rule entitled “Management Directive (MD) 12.3, NRC Personnel Security Program” received in the Office of the President of the Senate on July 15, 2022; to the Committee on Environment and Public Works.

EC–4637. A communication from the Associate Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled “Implementing Statutory Addition of Certain Per- and Polyfluoroalkyl Substances (PFAS) to the Total Release Inventory Data With Reporting Years 2021 and 2022” (RIN3070–AL04) (FRL No. 9427–01–OC6PP) received during adjournment of the Senate in the Office of the President of the Senate on July 15, 2022; to the Committee on Environment and Public Works.

EC–4638. A communication from the Associate Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled “Delaware: Final Approval of State Underground Storage Tank Program Revisions, Codification, and Incorporation by Reference” (FRL No. 9581–02–R1) received during adjournment of the Senate in the Office of the President of the Senate on July 15, 2022; to the Committee on Environment and Public Works.

EC–4639. A communication from the Associate Director of the Regulatory Management Division, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled “Guidance Regarding the Changes Made by the American Rescue Plan Act to the Election of Alternative Minimum Taxing Standards for Community Newspaper Plans under Section 430(m)” (Notice 2022–31) received in the Office of the President of the Senate on July 11, 2022; to the Committee on Finance.

EC–4640. A communication from the Chief of the Publications and Regulations Branch, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled “Applicability of section 432(b)(7) following a merger involving a multiemployer defined benefit plan that would terminate and, as a result, present a threat of a material loss to Participant’s retirement account balances” (Rev. Rul. 2022–13) received in the Office of the President of the Senate on January 19, 2022; to the Committee on Finance.

EC–4641. A communication from the Secretary of Energy, transmitting a legislative proposal that would amend the Tariff Schedule of the United States; to the Committee on Finance.
EC–4643. A communication from the Assistant Secretary for Legislation, Department of Health and Human Services, transmitting, pursuant to law, a report entitled “Unified Payment for Medicare-Covered Post-Acute Care: Analysis and Development of the Prototype Unified PAC Prospective Payment System Called for in the IMPACT ACT”; to the Committee on Finance.

EC–4644. A communication from the Principal Deputy Inspector General, Department of Health and Human Services, transmitting, pursuant to law, a data snapshot entitled “Part D Plans Generally Include Drugs Commonly Used by Dual Eligibles: 2022”; to the Committee on Finance.

EC–4645. A communication from the Assistant Secretary for Legislation, Department of Health and Human Services, transmitting, pursuant to law, a report entitled “Non-Emergency Medical Transportation in Medicaid, 2018–2020”; to the Committee on Finance.

EC–4646. A communication from the Acting Commissioner, Social Security Administration, transmitting, pursuant to law, the Administration’s 2022 Annual Report of the Supplemental Security Income Program; to the Committee on Finance.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. WARNER, from the Select Committee on Intelligence:

Report to accompany S. 4563, a bill to authorize appropriations for fiscal year 2023 for intelligence and intelligence-related activities of the United States Government, the Intelligence Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes (Rept. No. 117–132).

EXECUTIVE REPORT OF COMMITTEE—TREATY

The following executive report of committee was submitted:

By Mr. MENENDEZ, from the Committee on Foreign Relations:

The advice and consent of the Senate under section 1 is subject to the following declarations:

(1) Reaffirmation That United States Membership in NATO Remains a Vital National Security Interest of the United States.—The Senate declares that—

(a) The United States and its NATO allies face continued threats to their stability and territorial integrity;

(b) an attack against Finland or Sweden, or the destabilization of either arising from external subversion, would threaten the stability of Europe and jeopardize United States national security interests;

(C) Finland and Sweden, having established democratic governments and having demonstrated a willingness to meet the requirements of membership, including those necessary to contribute to the defense of all NATO members, are in a position to further the principles of the North Atlantic Treaty and to contribute to the security of the North Atlantic area; and

(D) extending NATO membership to Finland and Sweden will strengthen NATO, enhance stability in Europe, and advance the interests of the United States and its NATO allies.

(3) Support for NATO’s Open Door Policy.—The policy of the United States is to support NATO’s Open Door Policy that allows any European country to express its desire to join NATO and demonstrate its ability to meet the obligations of NATO membership.

(4) Future Consideration of Candidates for Membership in NATO.—

(A) Senate Finding.—The Senate finds that the United States will not support the accession to the North Atlantic Treaty of, or the invitation to begin accession talks with, any European state (other than Finland and Sweden), unless—

(i) the President consults with the Senate consistent with Article II, section 2, clause 2 of the Constitution of the United States (relating to the advice and consent of the Senate to the making of treaties); and

(ii) the prospective NATO member can fulfill all of the obligations and responsibilities of membership, and the inclusion of such state in NATO would serve the overall political and strategic interests of NATO and the United States.

(B) Requirement for Consensus and Ratification.—The Senate declares that no action or agreement other than a consensus decision of NATO, approved by the national procedures of each NATO member, including, in the case of the United States, the requirements of Article II, section 2, clause 2 of the Constitution of the United States (relating to the advice and consent of the Senate to the making of treaties), will constitute a commitment to collective defense and consultations pursuant to Articles 4 and 5 of the North Atlantic Treaty.

(5) Influence of Non-NATO Members on NATO Decisions.—The Senate declares that any country that is not a member of NATO shall have no impact on decisions related to NATO enlargement.

(6) Support for 2014 Wales Summit Defense Spending Benchmark.—The Senate declares that all NATO members should continue to fulfill or move towards the guideline outlined in the 2014 Wales Summit Declaration to spend a minimum of 2 percent of their Gross Domestic Product (GDP) on defense budget increases on major equipment, including research and development, by 2024.

Sec. 3. Condition.

The advice and consent of the Senate under section 1 is subject to the following conditions:

(1) Presidential Certification.—Prior to the deposit of the instrument of ratification, the President shall certify to the Senate as follows: [TEXT]

The inclusion of Finland and Sweden in NATO will not have the effect of increasing the overall percentage share of the United States in the common budgets of NATO. The inclusion of Finland and Sweden in NATO does not detract from the ability of the United States to meet or to fund its military requirements outside the North Atlantic area.

Sec. 4. Definitions.

In this resolution:

(1) NATO Members.—The term “NATO members” means all countries that are parties to the North Atlantic Treaty.

(2) Non-NATO Members.—The term “non-NATO members” means all countries that are not parties to the North Atlantic Treaty.

(3) North Atlantic Area.—The term “North Atlantic Area” means the area covered by Article 6 of the North Atlantic Treaty, as applied by the North Atlantic Council.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. WICKER:

S. 4561. A bill to enable the people of the Commonwealth of Puerto Rico to determine the political status of the Commonwealth of Puerto Rico, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. WARNOCK (for himself, Mr. BLUMENTHAL, Ms. CORTEZ MASTO, Mr. OSSOFF, Mr. WARNER, Mr. MERKLEY, and Mr. BOOKER):

S. 4561. A bill to direct the Secretary of Defense to seek to enter into an agreement with an entity to conduct a study and produce a report on barriers to home ownership for members of the Armed Forces; to the Committee on Armed Services.

By Mr. WARNOCK (for himself, Mr. BLUMENTHAL, Mr. OSSOFF, Mr.
S. 4562. A bill to amend title 37, United States Code, to increase the basic allowance for housing for members of the uniformed services; to the Committee on Armed Services.

By Mr. WARNOCK (for himself and Mr. BOOKER):

S. 4563. A bill to direct the Secretary of Defense and Secretary of Housing and Urban Development to take certain actions regarding the housing shortage for members of the Armed Forces; to the Committee on Armed Services.

By Mr. WARNOCK (for himself, Mr. BLUMENTHAL, Ms. CORTEZ MASTO, Mrs. FERNSTEIN, Mr. OSSOFF, Mr. BENNET, Mr. Tester, Ms. KLOBUCHAR, Mr. WARNER, Mr. MERKLEY, and Mr. BOOKER):

S. 4564. A bill to direct the Secretary of Defense to report on the basic allowance for housing for members of the uniformed services; to the Committee on Armed Services.

By Mr. BOOZMAN (for himself and Mr. HINCHCLIFFE):

S. 4565. A bill to amend title 38, United States Code, to increase the basic allowance for housing for members of the uniformed services; to the Committee on Veterans' Affairs.

By Ms. CORTEZ MASTO (for herself and Mr. LUJAN):

S. 4566. A bill to amend the Energy Independence and Security Act of 2007 to establish a regional clean energy innovation program, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. CRAMER (for himself and Mr. HICKENLOOPER):

S. 4567. A bill to amend the Immigration and Nationality Act to eliminate the per-country numerical limitation for employment-based immigrants, to increase the per-country numerical limitation for family-sponsored immigrants, and for other purposes; to the Committee on the Judiciary.

By Mr. BURR (for himself and Mr. WARNER):

S. 4568. A bill to amend the Internal Revenue Code of 1986 to promote the increased use of renewable natural gas, to reduce greenhouse gas emissions and other harmful transportation-related emissions that contribute to poor air quality, and to increase job creation and economic opportunity throughout the United States; to the Committee on Finance.

By Mr. RUBIO (for himself, Mrs. BLACKBURN, and Mr. SCOTT of Florida):

S. 4569. A bill to prohibit the provision of Federal funds to certain entities subject to sanctions imposed by the United States; to the Committee on Homeland Security and Governmental Affairs.

By Ms. ERNST (for herself, Mr. TILLIS, Mr. LANKFORD, and Mr. CORNYN):

S. 4570. A bill to prohibit the intentional hindering of immigration, border, and customs controls, and for other purposes; to the Committee on the Judiciary.

By Mr. LEE (for himself and Mr. SCOTT of Florida):

S. 4571. A bill to reaffirm that the President of the United States lacks the authority to stop oil and gas leasing on Federal public land; to the Committee on Energy and Natural Resources.

By Mr. PETERS (for himself and Mr. CORNYN):

S. 4572. A bill to require U.S. Customs and Border Protection to expand the use of non-intrusive inspection systems at land ports of entry; to the Committee on Homeland Security and Governmental Affairs.

By Ms. COLLINS (for herself, Mr. MANCHIN, Mr. PORTMAN, Ms. SINEMA, Mr. ROMNEY, Mrs. SHAHEEN, Mr. MURkowski, Mr. WARNER, Mr. TILLIS, Mr. MURPHY, Mr. CARDIN, Mr. YOUNG, Mr. COONS, Mr. SAUSE, and Mr. GRAHAM):

S. 4573. A bill to amend title 3, United States Code, relating to the Independent Budget, and to amend the Presidential Transition Act of 1963 to provide clear guidelines for when and to whom resources are provided by the Administrator of General Services for use in connection with the preparations for the assumption of official duties as President or Vice President; to the Committee on Rules and Administration.

By Ms. COLLINS (for herself, Mr. MANCHIN, Mr. PORTMAN, Ms. SINEMA, Mr. ROMNEY, Mrs. SHAHEEN, Mr. MURkowski, Mr. WARNER, Mr. TILLIS, Mr. MURPHY, Mr. CARDIN, and Mr. COONS):

S. 4574. A bill to amend title 18, United States Code, to increase penalties for crimes against Federally protected activities relating to voting and the conduct of elections, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

By Mr. BOOKER (for himself and Mr. PAUL):

S. 4575. A bill to clarify that the Federal Right to Try law applies to schedule I substances for which a phase I clinical trial has been completed and to provide access for eligible patients to such substances pursuant to the Federal Right to Try law; to the Committee on the Judiciary.

By Mr. SCHATZ (for himself, Ms. CANTWELL, Mr. DURBIN, Ms. DUCKWORTH, Ms. WARNER, Mr. WYDEN, Mr. HICKENLOOPER, Mr. VAN HOLLEN, Mrs. MURRAY, and Ms. KLOBUCHAR):

S. 4576. A bill to provide competitive grants for the development of Japanese American confinement education as a means to understand the importance of democratic principles, use and abuse of power, and to raise awareness about the importance of cultural tolerance toward Japanese Americans, and for other purposes; to the Committee on Energy and Natural Resources.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. BINGGELI (for himself, Mr. CARDIN, Mr. BLUMENTHAL, Mr. WICKER, Mrs. SHAHEEN, Mr. PORTMAN, and Mr. GRAHAM):

S. Res. 73. A resolution recognizing Russian actions in Ukraine as a genocide; to the Committee on Foreign Relations.

By Mr. CASEY (for himself, Mrs. MURRAY, Mr. WARREN, Mr. KAINE, Ms. BALDWIN, Mr. MENENDEZ, Ms. STABENOW, Mr. SANDERS, Ms. PADDILLA, Mr. LEAHY, Mr. KING, Ms. SMITH, Ms. VAN HOLLEN, Mr. REED, Mr. BENNET, Ms. HASSAN, Mrs. FERNSTEIN, Mr. WYDEN, Mr. CARDIN, Mr. HICKENLOOPER, Mr. MURPHY, Ms. KLOBUCHAR, Mr. BROWN, Mr. WHITEHOUSE, Mr. BLUMENTHAL, Mr. MERKLEY, Mr. LUJAN, Ms. CANTWELL, Mrs. GILLIBRAND, Ms. DUCKWORTH, Mr. PETERS, Mr. WHITE, Mr. HIRONO, Ms. BOOKER, and Mr. DURBIN):

S. Res. 714. A resolution recognizing the importance of independent living for individuals with disabilities made possible by the Americans with Disabilities Act of 1990 and calling for further action to strengthen home and community living for individuals with disabilities; to the Committee on Health, Education, Labor, and Pensions.

ADDITIONAL COSPONSORS

At the request of Mr. SCHWARTZ, the name of the Senator from Georgia (Mr. OSSOFF) was added as a cosponsor of S. 204, a bill to establish the Office of Press Freedom, to create press freedom curriculum at the National Foreign Affairs Training Center, and for other purposes.

At the request of Mr. CASEY, the name of the Senator from California (Mr. PADILLA) was added as a cosponsor of S. 331, a bill to amend the Internal Revenue Code of 1986 to increase the age requirement with respect to eligibility for qualified ABLE programs.

At the request of Ms. COLLINS, the names of the Senator from Arizona (Ms. SINEMA) and the Senator from Arizona (Mr. KELLY) were added as cosponsors of S. 634, a bill to support and expand civic engagement and political leadership of adolescent girls around the world, and other purposes.

At the request of Mr. COLLINS, the name of the Senator from Kansas (Mr. MORAN) was added as a cosponsor of S. 1273, a bill to amend the Internal Revenue Code of 1986 to provide a credit to small employers for covering military spouses under retirement plans.

At the request of Mr. KELLY, the name of the Senator from Alaska (Ms. MURKOWSKI) was added as a cosponsor of S. 1321, a bill to modify the boundary of the Casa Grande Ruins National Monument, and for other purposes.

At the request of Mr. MANCHIN, the name of the Senator from Indiana (Mr. BRAUN) was added as a cosponsor of S. 1436, a bill to direct the Secretary of Health and Human Services to amend the mission statement of the Food and Drug Administration.

At the request of Mr. WARNER, the name of the Senator from Arizona (Mr. KELLY) was added as a cosponsor of S. 1625, a bill to authorize notaries public to perform, and to establish minimum standards for, electronic notarizations and remote notarizations that occur in or affect interstate commerce, to require any Federal court to recognize notarizations performed by a notarial officer of any State, to require any State to recognize notarizations performed by a notarial officer of any other State when the notarization was performed under or relates to a public Act, record, or judicial proceeding of the notarial officer’s State or when the notarization occurs in or affects interstate commerce, and for other purposes.

At the request of Mr. MERKLEY, the name of the Senator from Connecticut...
At the request of Mr. Murphy, the name of the Senator from Michigan (Ms. Stabenow) was added as a cosponsor of S. 2512, a bill to amend title 28, United States Code, to provide for a code of conduct for judges and justices of the courts of the United States.

At the request of Ms. Cortez Masto, the name of the Senator from Oregon (Mr. Merkley) was added as a cosponsor of S. 2674, a bill to amend the Internal Revenue Code of 1986 to exclude from gross income payments under the Indian Health Service Loan Repayment Program and certain amounts received under the Indian Health Professions Scholarships Program.

At the request of Mr. Heinrich, the name of the Senator from Nevada (Ms. Cortez Masto) was added as a cosponsor of S. 3189, a bill to amend title XX of the Social Security Act to provide a pathway to health careers through health profession opportunity grants.

At the request of Mr. Warnock, the name of the Senator from Georgia (Ms. Baldwin) was added as a cosponsor of S. 3678, a bill to authorize the National Detector Dog Training Center, and for other purposes.

At the request of Mr. Kaine, the name of the Senator from North Dakota (Mr. Hoeven) and the Senator from Alaska (Mr. Sullivan) were added as cosponsors of S. 3909, a bill to amend the Internal Revenue Code of 1986 to make employers of spouses of military personnel eligible for the work opportunity credit.

At the request of Mr. Lankford, the name of the Senator from Utah (Mr. Lee) was added as a cosponsor of S. 4069, a bill to amend the National Firearms Act to provide an exception for stabilizing braces, and for other purposes.

At the request of Mr. Brown, the names of the Senator from Texas (Mr. Cornyn) and the Senator from Minnesota (Ms. Klobuchar) were added as cosponsors of S. 4105, a bill to treat certain liquid motor vehicle inventory as qualified liquidations of LIFO inventory for purposes of the Internal Revenue Code of 1986.
States Armed Forces from hostilities in the Republic of Yemen that have not been authorized by Congress.

S. RES. 39

At the request of Mrs. Shaheen, the names of the Senator from Connecticut (Mr. Blumenthal), the Senator from Colorado (Mr. Hickenlooper), the Senator from Arizona (Mr. Kelly), the Senator from Maryland (Mr. Cardin) and the Senator from Delaware (Mr. Coons) were added as cosponsors of S. Res. 398, a resolution recognizing the need for greater access to rural and agricultural media programming.

STATMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. Collins (for herself, Mr. Manchin, Mr. Portman, Ms. Sinema, Mr. Romney, Mrs. Sasse, Mr. Murkowski, Mr. Warner, Mr. Tillis, Mr. Murphy, Mrs. Capito, Mr. Cardin, Mr. Young, Mr. Coons, Mr. Sasse, and Mr. Graham):

S. 4573. A bill to amend title 3, United States Code, to reform the Electoral Count Act, and to amend the Presidential Transition Improvement Act of 1963 to provide clear guidelines for when and to whom resources are provided by the Administrator of General Services for use in connection with the preparations for the assumption of official duties as President or Vice President; to the Committee on Rules and Administration.

S. 4574. A bill to amend title 18, United States Code, to increase penalties for crimes against Federally protected activities relating to voting and the conduct of elections, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

Mr. Manchin. Mr. President, I rise today to acknowledge the months of bipartisan hard work that have gone into two bills that we are filing today: the Electoral Count Reform and Presidential Transition Improvement Act—I repeat—the Electoral Count Reform and Presidential Transition Improvement Act—and the Enhanced Election Security and Protection Act.

I would like to commend my dear friend Senator Susan Collins for her leadership throughout this process. She has been shepherding this through and working diligently, even when only she can do, and she does it so well.

We started these discussions back in January, when partisanship around here was at a fever pitch, a toxic environment that was absolutely conducive to things that needed to be done. But for those who may not remember, we were in the middle of a heated debate over voting rights with both sides—Democrats and Republicans—equally dug in on their positions, and it was kind of hard to move people off of that.

The insurrection January 6 and the situation that has been going on since 2018 with respect to the Electoral College, we should have corrected and had not been—but no one ever felt that we would have what we had. So now, we needed to take care of it. And everyone stepped to the plate.

By January 19, my Democratic colleagues were so frustrated that they forced a vote on repealing the filibuster to allow that bill to pass with a simple majority, along party lines. It appeared to many, both inside and outside of the Senate, that the Senate was fundamentally broken. But Senator Collins and I have worked together for a long time, and we never gave up. We were not convinced it was broken, and you just have to work a little bit more, because you can fix that, too. But even more importantly, we had to protect the States’ rights.

So we were caught in between a pathway and find common ground. That is what we learned through those discussions was that there was bipartisan support for some important, commonsense reforms that would help restore Americans’ faith in our democracy and how we basically apply our democracy, how we select our representatives.

Reform the Electoral Count Act to remove the ambiguity that we saw after the last election. We were all in agreement.

Enhance the protections for local election officials who were facing unprecedented threats and intimidations. These are people who volunteer, most importantly, coming equally between Democrats and Republicans, and able to operate. They call us the most deliberative body. Well, to deliberate means to talk, to converse; and when that fails, well, basically, the deliberative body is no longer the deliberative body. And we were not going to let that happen to us.

We asked our colleagues and friends to come together to start trying to see if we could work together and find a pathway January 19, my Democrat ground. Well—guess what—they did. So I am here to thank those who sat down: Senator Portman, Rob Portman; we had Senator Murphy; we had Senator Romney, Senator Shaheen, Senator Murkowski, Senator Warner, Senator Tillis, Senator Sinema, Senator Capito, Senator Cardin, Senator Young, Senator Coons, Senator Sasse, and Senator Graham.

Now, that was truly a team effort when you think about it. And this has gone on for quite some time.

What we learned through those discussions was that there was bipartisan support for some important, commonsense reforms that would help restore Americans’ faith in our democracy and how we basically apply our democracy, how we select our representatives.

We should continue working to protect every American’s sacred right to vote. But we also have an obligation to the American people to do the most good that we can right now—right now.

The confusing and antiquated language that we have today from the 1877 Electoral Count Act is a real and present danger to our democracy. We can fix that, and that is exactly what we intend to do.

The increased threats and attacks we are seeing across the country on poll workers and election volunteers—we can fix that, too. But even more important than the policy provisions contained in these two bills is the fact that we have Democrats and Republicans standing arm-in-arm common sense election reforms that can begin to restore Americans’ faith in our democracy. That is our solemn commitment and promise.

When Benjamin Franklin was asked whether the Constitutional Convention had given us a republic or a monarchy, he famously replied “A republic, young man, if you can keep it.”

He qualified his answer because he understood a democracy is fragile and can be lost if we are not careful. And in the situation where we had this pandemic, my goodness, it was the only way that people could vote.

And we authorize the Election Assistance Commission to help States improve the administration and the security of Federal elections.

The most important thing that we can do is that when that vote is cast and that vote is counted accurately, it has to be counted and reported accurately. And that is what we have to do and make sure that is not even a shred of a thought where a person might think that count is not valid—it is not a valid count. And we have done everything we possibly can to make sure that we have cleared that up.

This is not everything that people on both sides of that wanted. Some on our side wanted more, and some didn’t want to basically interfere with the States’ rights.

So we were caught in betwixt and between. We worked back and forth on different things we could. We tried to put the quadrants on the same guidance, and we think that we came up with a piece of legislation.

And when you have every Member I just mentioned all sign on, with the diversity of these memberships—we have almost 20; 20 Senators have been involved, coming equally between Democrats and Republicans, and able to come to an agreement—this is a bill that we should put forward.

My goal is to be the original sponsor of both the Freedom to Vote Act and the John Lewis Voting Rights Advancement Act, and I still believe that we can and we must continue working to protect every American’s sacred right to vote. But we also have an obligation to the American people to do the most good that we can right now—right now.

The confusing and antiquated language that we have today from the 1877 Electoral Count Act is a real and present danger to our democracy. We can fix that, and that is exactly what we intend to do.

The increased threats and attacks we are seeing across the country on poll workers and election volunteers—we can fix that, too. But even more important than the policy provisions contained in these two bills is the fact that we have Democrats and Republicans standing arm-in-arm common sense election reforms that can begin to restore Americans’ faith in our democracy. That is our solemn commitment and promise.

When Benjamin Franklin was asked whether the Constitutional Convention had given us a republic or a monarchy, he famously replied “A republic, young man, if you can keep it.”

He qualified his answer because he understood a democracy is fragile and can be lost if we are not careful. And in the situation where we had this pandemic, my goodness, it was the only way that people could vote.

And we authorize the Election Assistance Commission to help States improve the administration and the security of Federal elections.

The most important thing that we can do is that when that vote is cast and that vote is counted accurately, it has to be counted and reported accurately. And that is what we have to do and make sure that is not even a shred of a thought where a person might think that count is not valid—it is not a valid count. And we have done everything we possibly can to make sure that we have cleared that up.

This is not everything that people on both sides of that wanted. Some on our side wanted more, and some didn’t want to basically interfere with the States’ rights.

So we were caught in betwixt and between. We worked back and forth on different things we could. We tried to put the quadrants on the same guidance, and we think that we came up with a piece of legislation.

And when you have every Member I just mentioned all sign on, with the diversity of these memberships—we have almost 20; 20 Senators have been involved, coming equally between Democrats and Republicans, and able to come to an agreement—this is a bill that we should put forward.

My goal is to be the original sponsor of both the Freedom to Vote Act and the John Lewis Voting Rights Advancement Act, and I still believe that we can and we must continue working to protect every American’s sacred right to vote. But we also have an obligation to the American people to do the most good that we can right now—right now.

The confusing and antiquated language that we have today from the 1877 Electoral Count Act is a real and present danger to our democracy. We can fix that, and that is exactly what we intend to do.

The increased threats and attacks we are seeing across the country on poll workers and election volunteers—we can fix that, too. But even more important than the policy provisions contained in these two bills is the fact that we have Democrats and Republicans standing arm-in-arm common sense election reforms that can begin to restore Americans’ faith in our democracy. That is our solemn commitment and promise.

When Benjamin Franklin was asked whether the Constitutional Convention had given us a republic or a monarchy, he famously replied “A republic, young man, if you can keep it.”

He qualified his answer because he understood a democracy is fragile and can be lost if we are not careful. And in the situation where we had this pandemic, my goodness, it was the only way that people could vote.
I look forward to continuing our bipartisan effort to get this bill to the President’s desk as quickly as possible and signed into law. And like your journey begins.

And with that, I would like to yield to my dear friend from the great State of Maine, Senator Susan Collins.

The PRESIDING OFFICER. The Senator from Maine.

Ms. Collins. Mr. President, I am pleased to join my close friend and dear colleague, Senator Manchin, in introducing bipartisan legislation to reform the archaic and ambiguous Electoral Count Act of 1887, the important law that governs how Congress tallies each State’s electoral votes for President and Vice President.

On January 6 of 2017, I was amused to learn that I had received one electoral vote for Vice President of the United States, an office for which I obviously was not a candidate. But on January 6, 2021, I realized that my unearned vote from former President Donald Trump was not funny at all. Rather, it was an indication of deep structural problems with our system of certifying and counting the electoral votes for President and Vice President. These unfortunate flaws were identified in the 1887 Electoral Count Act.

In four of the past six Presidential elections, this process has been abused, with Members of both parties raising frivolous objections to electoral votes. But it took the violent breach of the Capitol on January 6 of 2021 to really shine a spotlight on the urgent need for reform.

Over the past several months, Senator MANCHIN and I have worked with a terrific, bipartisan group of Senators who are united in our determination to prevent the flaws in this 135-year-old law from being used to undermine future Presidential elections.

I want to express my gratitude to my friend Senator Mr. CHINN and to all the members of our bipartisan group for their hard work, their constructive work, to craft this legislation. Specifically, I want to thank Senators PORTMAN, SInEMA, ROMNEY, SHAHEEN, MURKOWSKI, WARNER, TILLS, MURPHY, CAPITO, CARDIN, YOUNG, COONS, and SASSE for their work over several months. I also want to thank Senators KLOBUCHAR and BLUNT, who head the Rules Committee, for their advice and counsel throughout this process, and Senator LINDSEY GRAHAM for his insights and for joining as a cosponsor.

The legislation that we are introducing—the Electoral Count Reform and Presidential Transition Improvement Act—will help ensure that electoral votes tallied by the elected branch of the government are respected.

Our bill includes a number of important reforms, but I want to highlight just a few.

First, it reasserts that the constitutional role of the Vice President in counting electoral votes is strictly and solely ministerial. The idea that any Vice President would have the power to unilaterally accept or reject or change or halt the electoral votes is antithetical to our Constitution and basic democratic principles.

Second, our bill raises the threshold to lose the process and to object to an electoral vote to at least one-fifth of the duly chosen and sworn members of the House of Representatives and the U.S. Senate. Currently, only a single Member in both houses is required to object to an elector or a slate of electors.

Third, this legislative solution will ensure that Congress can identify a single, conclusive slate of electors by clearly identifying a single State official who is responsible for certifying a State’s electors; requiring Congress to defer to the slates of electors submitted by a State pursuant to the judgment of State or Federal courts; and providing aggrieved Presidential candidates with an expedited judicial review of Federal claims related to a State’s certificate of electoral votes. We believe that this bill does not create a new cause of action. Instead, it will ensure prompt and efficient adjudication of disputes.

To help promote the orderly transfer of power, our bill also includes clear guidelines while Presidential candidates may receive Federal resources to support their transition into office. And I want to particularly thank Senators PORTMAN, COONS, and SASSE for their hard work on those provisions.

We are also introducing a second bill—the Enhanced Election Security and Protection Act—to address other issues pertaining to the administration of elections. In the interest of time, let me just quickly note the major provisions of this bill. It would reauthorize the Election Assistance Commission and require it to conduct additional cyber security testing of voting systems, a concept put forth by Senator WARREN, that would improve the Postal Service’s handling of election mail. It would enhance current penalties for violent threats against election workers; and increase the maximum penalties for tampering with voting records, including certain electronic records, that was the work of several members, including Senators ROMNEY, SHAHEEN, and SInEMA, among others.

We have before us an historic opportunity to modernize and strengthen our system of certifying and counting the electoral votes for President and Vice President. January 6 reminded us that nothing is more essential to the survival of a democracy than the orderly transfer of power.

And there is nothing more essential to the orderly transfer of power than clear rules for effecting it. I very much hope that Congress will seize this opportunity to enact these sensible and much-needed reforms before the end of this Congress.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. MANCHIN. Mr. President, while my dear friend is here, I want to tell her, you know, 6 months ago—we have worked on this for 6 months. It started in January, and it was 14 Senators who came at that time. We just started talking, and 14 Senators—with all of your support, Mr. President, also—we had support from everybody saying to defend this country so delicately as this was, knowing that some might think we are picking on one side or the other or supporting or defending one side or the other, there was only one thing we were concerned about: How can we defend this Constitution and this wonderful Capitol that we have so this could never happen again?

January 6 is a black mark on the history of the United States of America. And if you want to erase it, you better do what we did for 6 months, bringing people together to find a pathway forward so that type of opportunity—for some looking for an opportunity—to degrade our government and our country. That type of thing, as far as I am concerned, does not only matter to us but it matters to ourselves could never, ever encourage them thinking they could do something here at this Capitol and disrupt us.

When that day happened, the thing I was most proud of, we were all down in a secured room—and Senator COLLINS remembers—and it went on; we didn’t know what the extent of this was going on. We knew one thing: They didn’t come for a friendly visit. But we were at the talking; and, all of a sudden, someone said: Well, let’s just conduct our business down here. Remember that? And to a T, everybody in that room says, No, no, no. They are not going to run us out of our body here. And we all came back here later that night and finished our business.

What we did—and Senator COLLINS has led this admirably—is make sure that we are finishing our business. We are just starting it now to protect this democracy. This form of democracy that we have as a way of form and the Republic that we are responsible for. And I am just so proud to be part of it. And she is my dear friend. We worked many, many years together, and we will continue to.

But I just want to thank the Senator for the hard work—our staffs worked together. I am very proud of all our staffs that they worked together for the betterment of our country.

So when people think that bipartisanship is not capable of happening in Washington, I want to say: Watch, we have proved them wrong. We have done so many things together, and we will continue to. Again, I say thank you to all those who participated for just hanging in there. It took us 6 months to get here, but we have just begun.

The PRESIDING OFFICER. The Senator from Maine.

Ms. Collins. Mr. President, I, too, want to salute all the members of our group who worked so hard over many months. As is always the case when you delve into a complicated issue, it turns out that there are far
more nuances and complexities than you would think when you first look at the issue. But everyone continued to work for the common good to strengthen the procedures, to update this archaic and ambiguous law that was written in the language of another era. And remarkably, we accomplished that. And I really hope our colleagues will all join together and that in the end we can have an overwhelming vote.

Finally, I, too, want to thank our staff members for their extraordinary work. They worked literally night and day to work through the many thorny issues and to help bring us together. So my thanks not only to the Members but to their staffs as well.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 73—RECOGNIZING RUSSIAN ACTIONS IN UKRAINE AS A GENOCIDE

Mr. RISCH (for himself, Mr. CARDIN, Mr. BLUMENTHAL, Mr. WICKER, Mrs. SHAHIRN, Mr. PORTMAN, and Mr. GRAHAM) submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. Res. 713

Whereas the Russian Federation’s illegal, premeditated, unprovoked, and brutal war against Ukraine includes extensive, systematic, and flagrant atrocities against the people of Ukraine;

Whereas article II of the Convention on the Prevention and Punishment of the Crime of Genocide (in this preamble referred to as the “Genocide Convention”), adopted and opened for signature in 1948 and entered into force in 1951, defines genocide as “any of the following acts committed with intent to destroy, in whole or in part, a national, ethnical, racial or religious group, as such: (a) Killing members of the group; (b) Causing serious harm or mental harm to members of the group; (c) Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part; (d) Imposing measures intended to prevent births within the group; (e) Forcibly transferring children of the group to another group’;

Whereas, on October 3, 2018, the Senate unanimously agreed to Senate Resolution 435, 115th Congress, which commemorated the 85th anniversary of the Holodomor and “recognized[d] the findings of the Commission on the Ukraine Famine as submitted to Congress on April 22, 1988, including that ‘Joseph Stalin and those around him committed a crime under international law which [the Contracting Parties] undertake to prevent and to punish’; and Whereas although additional documentation and analysis of atrocities committed by the Russian Federation in Ukraine may be needed to punish those responsible, the substantial and significant laches has already undertaken, combined with statements showing intent, compel urgent action to prevent further acts of genocide: Now, therefore, be it

Resolved, That the Senate—

(1)-condemns the Russian Federation for committing acts of genocide against the Ukrainian people;

(2) calls on the United States, in cooperation with allies in the North Atlantic Treaty Organization and the European Union, to understand the role of the Government of Ukraine to prevent further acts of Russian genocide against the Ukrainian people; and

(3) supports tribunals and international criminal investigations to hold Russian political leaders and military personnel to account for a war of aggression, war crimes, crimes against humanity, and genocide.

Mr. CARDIN. Mr. President, I rise today to draw the attention of the Senate and the American people to a dark anniversary on the near horizon. On July 24, the world will have seen 5 full months of the brutal, unjustified, and utterly senseless war Russia’s dictator Vladimir Putin has unleashed on Ukraine, a peace-loving democracy that has never threatened Russia or any of its other neighbors.

It will be 150 days of Mr. Putin and his army’s killing and raping Ukrainian women and children; destroying homes, hospitals, museums, schools, and churches; displacing almost 13 million people; and unleashing chaos and havoc on the world. The blockade of the southern ports of Ukraine has interrupted the vital supply of Ukrainian food supplies to a hungry world, wreaking pain and havoc on societies across the Middle East, Africa, and South Asia.

An existing global food security crisis has now been severely worsened by Russia’s violent assault, as the Senate Foreign Relations Committee earlier today hearing where USAID Administrator Samantha Power and our permanent representative to the United Nations, Ambassador Linda Thomas-Greenfield, testified. They spoke about the U.S. role in trying to avert the tragic global tragedy resulting from Russia’s aggression and the immensity of the task ahead.

Who could forget the horrors of Bucha and Irpin, the shell-shocked looks in the eyes of Ukrainian children who will forever carry the burdens of unimaginable trauma or the Ukrainian women who had to be carried from a maternity ward after the Russians struck their hospital with a cruise missile.

This is an everyday reality now for Ukrainians—unspeaking, cruel military assaults. Yet they demonstrate the indomitable will to fight for their land and freedom; they do not give up; they are truly an inspiration for the rest of the world.

When Mr. Putin started this attack, he assumed Russia would conquer Ukraine and seize its capital in 3 days. Yet it is now day almost 150, and Russia has suffered heavy losses and retreated from Kyiv. While several towns in the south of the country have been flattened and then occupied, in most of the country, the Russian invaders have barely advanced from their initial positions.

In the towns and cities the Russians occupy, they have met heavy resistance from Ukrainian guerrillas and regular citizens who do not want to be part of Putin’s evil empire. Despite efforts to indoctrinate Ukrainian children in occupied areas with a counterfactual narrative of the contemporary history, Russian speakers are learning Ukrainian, and what have been generally positive relations with the people of Ukraine and Russia before this invasion have now been completely destroyed.

Independent analysts have described the ongoing violence as a genocide in
Ukraine, and there is a growing body of evidence that it is, sadly, true. A May of 2022 study conducted by the New Lines Institute and the Raoul Wallenberg Centre for Human Rights concluded that “Russia bears State responsibility for breaches of Article II and Article III of the Genocide Convention.”

The report pointed to a pattern of Russian forces targeting the Ukrainian civilians, with evidence of mass executions and torture of civilians in Russian-occupied regions. The report included evidence of deliberate attacks on shelters, evacuation routes, and humanitarian corridors, as well as reports of sexual violence and forcible deportation of Ukrainians to Russia.

On July 14, the United States and 44 other nations signed an International Criminal Court declaration to investigate over 20,000 reports—20,000 reports—of war crimes committed by Russia in Ukraine since the beginning of the Russian invasion.

Make no mistake about it, Vladimir Putin has caused the suffering and pain in pursuit of his ambition to rebuild the Russian Empire. He has said it to himself on multiple occasions. He is hell-bent on the restoration of the pre-World War II world order that has brought prosperity and peace to our allies in Europe—and to Russia to this point, too.

Therefore, it is not an exaggeration to say that the Ukrainians are fighting not just for their land and freedom, which, as Americans, we should cherish and appreciate, but also for the very core of the global order that, if destroyed, will marginalize our allies and threaten the United States.

With this in mind, we must remember that supporting Ukraine is not charity. It is in our core national security interest to provide the Ukrainians with the arms, financing, and moral support they need to win the war against the Russian Empire. If Ukraine falls, it will lead to the subjugation of Ukrainian people, destruction of its culture and language, and bring a hostile and expansionist Russian Empire right to the borders of our NATO allies that we are committed to protecting with our troops and weapons.

Ukraine is the firewall that the world cannot afford to see breached.

So, yes, it is a moral imperative for us to support Ukrainians in this just war, but it is also a core national security necessity for us to do this. Ukraine is fighting this war on multiple fronts: on land and at sea and in the air. The security of the Black Sea region is a critical aspect of this war that has not received enough attention. As recent reporting suggests, the ability of the Ukrainians’ vessels to navigate the Black Sea is important for the country but also for regional stability and global food security. That is where Ukraine exports most of its agricultural products. Ukraine is a major grain exporter, and the Russians have been blocking these vessels from departing Ukrainian ports. This exposes some of the world’s most vulnerable people to food scarcity, malnutrition, and worsening poverty—and in some cases leading to unnecessary and preventable deaths. Truly, the ugliness and depravation of the Putin regime has no limit.

It is in this context the U.S. Commission on Security and Cooperation in Europe that I chair conducted a field hearing on Black Sea security in Constanta, Romania, on July 1. I want to thank my friend Senator Wicker for facilitating that hearing. The Commission brought together key decisionmakers from the Black Sea states to discuss how best to address Russia’s illegal naval blockade of Ukrainian ports.

Subsequently, Senator Wicker and I joined Senators SHAHEEN and ROMNEY in introducing the Black Sea Security Act, S. 4509. This bill would declare that it is the policy of the United States “to actively deter the threat of further Russian escalation in the Black Sea region and the Black Sea Sea area of navigation in the Black Sea to prevent the spread of further armed conflict in Europe.”

The bill further requires that the National Security Council shall deliver to the Congress a report that outlines current policy options toward Black Sea countries and the border region. The report would include a breakdown of funding to support these efforts, including military assistance; economic assistance; support for food security; countering Russia’s disinformation and propaganda; energy diversification; increasing access to global capital markets; a plan for helping U.S. allies in the region to accelerate their transitions from legacy Russian military equipment and promote NATO interoperability; and strengthening the rule of law and anticorruption efforts.

I call on my colleagues to support this important legislation.

Tragically, this war is turning into a marathon, and it is incumbent upon us not to lose our focus and determination in supporting our Ukrainian partners. I want to urge my colleagues in this Chamber and all my fellow Americans to stay the course and continue to support Ukraine for as long as it takes.

My final point today is that we should say the name of what Russia is doing, the atrocities they are committing. Russia is committing genocide in Ukraine. Russia is trying to evicte not just the people and the buildings of Ukraine; they are trying to eliminate the Ukrainian language, Ukrainian history, and Ukrainian culture. That is genocide.

That is why I am joining Senator RISCH, along with Senators GRAHAM, BLUMENTHAL, SHAHEEN, and PORTMAN in introducing a resolution that would condemn the Russian Federation for committing acts of genocide against the Ukrainian people; call on the United States, in cooperation with allies in the North Atlantic Treaty Organization and the European Union, to undertake measures to support the Government of Ukraine to prevent further acts of Russian genocide against the Ukrainian people; and support tribunals and international criminal investigations to hold Russian political leaders and military personnel accountable for war crimes, crimes against humanity, and genocide.

We must stand shoulder to shoulder with the Ukrainians to lighten their load and hasten their victory. We must be prepared for the reconstruction of Ukraine that will follow the conclusion of this war. And, yes, we must pursue accountability for those responsible for the genocide underway in Ukraine by the Russian Federation.

SENNATE RESOLUTION 714—RECOGNIZING THE IMPORTANCE OF INDEPENDENT LIVING FOR INDIVIDUALS WITH DISABILITIES AND CALLING FOR FURTHER ACTION TO STRENGTHEN HOME AND COMMUNITY LIVING FOR INDIVIDUALS WITH DISABILITIES

Mr. CASEY (for himself, Mrs. MURRAY, Mr. MARKEY, Ms. WARNEN, Mr. KAIN, Ms. BALDWIN, Mr. MENENDEZ, Ms. STABENOW, Mr. SANDERS, Mr. PADILLA, Mr. LEAHY, Mr. KING, Ms. SMITH, Mr. VAN HOLLEN, Mr. REED, Mr. BENNET, Ms. HASSAN, Mrs. PEINSTEIN, Mr. WYDEN, Mr. HICKENLOOPER, Mr. MURPHY, Ms. KLOBUCHAR, Mr. BROWN, Mr. WHITEHOUSE, Mr. BLUMENTHAL, Mr. MERKLEY, Mr. LJUJAN, Ms. CANTWELL, Mrs. GILLIBRAND, Ms. DUCKWORTH, Mr. PETERS, Mr. WARNock, Ms. HRONo, Mr. BOOKER, and Mr. DURbin) introduced the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. RES. 714

Whereas, in enacting the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.), Congress recognized that “historically, society has tended to isolate and segregate individuals with disabilities, and, despite some improvements, such forms of discrimination against individuals with disabilities continue to be a serious and pervasive social problem”;

Whereas the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) recognizes that “historically, society has tended to isolate and segregate individuals with disabilities to fully participate in their communities through independent living, equality of opportunity, and economic self-sufficiency;

Whereas 32 years after the date of the enactment of the Americans with Disabilities Act of 1990 and 23 years after the date of the decision of the Supreme Court of the United States in Olmstead v. L.C., 527 U.S. 561 (1999), many individuals with disabilities continue to live in segregated institutional settings because of a lack of support services;

Whereas the continuation of segregated institutional settings has hindered the inclusion of individuals with disabilities in community schools, homes, and workplaces, undermining the promise of the Americans with Disabilities Act of 1990;
AMENDMENTS SUBMITTED AND PROPOSED

SA 5139. Mr. PORTMAN (for himself, Mr. YOUNG, and Mr. GRASSLEY) submitted an amendment intended to be proposed by him to the bill H.R. 4346, making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes; which was ordered to lie on the table.

SA 5140. Mr. CARPER (for himself, Mr. SCOTT of Florida) submitted an amendment intended to be proposed by him to the bill H.R. 4346, making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes; which was ordered to lie on the table.

SA 5142. Mr. SCOTT of Florida submitted an amendment intended to be proposed to amendment SA 5135 proposed by Mr. SCHUMER to the bill H.R. 4346, making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes; which was ordered to lie on the table.

SA 5143. Mr. SCHUMER (for Mr. JOHNSON) proposed an amendment to the resolution S. Res. 694, expressing support for the designation of July 21 as “National Sarcoma Awareness Month”.

TEXT OF AMENDMENTS

SA 5139. Mr. PORTMAN (for himself, Mr. YOUNG, and Mr. GRASSLEY) submitted an amendment intended to be proposed by him to the bill H.R. 4346, making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes; which was ordered to lie on the table.

At the appropriate place, insert the following:

TITLE —SAFEGUARDING AMERICAN INNOVATION

SEC. 1. SHORT TITLE. This title may be cited as the "Safeguarding American Innovation Act."

SEC. 2. DEFINITIONS. In this title:

(A) FEDERAL SCIENCE AGENCY.—The term "Federal science agency" means any Federal department or agency to which more than $100,000,000 in basic and applied research and development funds were appropriated for the previous fiscal year.

(B) RESEARCH AND DEVELOPMENT.—

(I) IN GENERAL.—The term "research and development" means all research activities, both basic and applied, and all development activities.

(II) EXPERIMENTAL DEVELOPMENT.—The term “experimental development” means creative and systematic work, drawing upon knowledge gained from research and practical experience, which—

(i) is directed toward the production of new products or processes or improving existing products or processes;

(ii) includes activities involving the training of individuals in research techniques if such activities—

(I) utilize the same facilities as other research and development activities; and

(II) are not included in the instruction function.

SEC. 3. FEDERAL RESEARCH SECURITY COUNCIL.

(a) IN GENERAL.—Subtitle V of title 31, United States Code, is amended by adding at the end the following:

"CHAPTER 79—FEDERAL RESEARCH SECURITY COUNCIL

"Sec. 7901. Definitions.

"7903. Functions and Authorities.

"7904. Strategic plan.

"7905. Annual report.

"7906. Requirements for Executive agencies.

§ 7901. Definitions

"(1) APPROPRIATE CONGRESSIONAL COMMITTEES.—The term ‘appropriate congressional committees’ means—

(A) the Committee on Homeland Security and Governmental Affairs of the Senate;

(B) the Committee on Commerce, Science, and Transportation of the Senate;

(C) the Select Committee on Intelligence of the Senate;

(D) the Committee on Foreign Relations of the Senate;

(E) the Committee on Armed Services of the Senate;

(F) the Committee on Health, Education, Labor, and Pensions of the Senate;

(G) the Committee on Oversight and Reform of the House of Representatives;

(H) the Committee on Homeland Security of the House of Representatives;

(I) the Committee on Energy and Commerce of the House of Representatives;

(J) the Permanent Select Committee on Intelligence of the House of Representatives;

(K) the Committee on Foreign Affairs of the House of Representatives;

(L) the Committee on Armed Services of the House of Representatives;

(M) the Committee on Science, Space, and Technology of the House of Representatives; and

(N) the Committee on Education and Labor of the House of Representatives.

"(2) COUNCIL.—The term ‘Council’ means the Federal Research Security Council established under section 7902(a).

"(3) EXECUTIVE AGENCY.—The term ‘Executive agency’ has the meaning given that term in section 105 of title 5.

"(4) FEDERAL RESEARCH SECURITY RISK.—The term ‘Federal research security risk’ means the risk posed by malign state actors and other persons to the security and integrity of research and development conducted using Federal research and development funds awarded by Executive agencies.

"(5) INSIDER.—The term ‘insider’ means any person authorized to access any United States Government resource, including personnel, facilities, information, research, equipment, networks, or systems.

"(6) INSIDER THREAT.—The term ‘insider threat’ means the threat that an insider will use his or her authorized access (wittingly or unwittingly) to harm the national and economic security of the United States or negatively affect the integrity of Federal agency’s normal processes, including damaging the United States through espionage, sabotage, terrorism, unauthorized disclosure of information, a destructive act (which may include physical harm to another in the
workplace, or through the loss or degradation of departmental resources, capabilities, and functions.

(7) RESEARCH AND DEVELOPMENT.—

(A) Definition.—The term ‘research and development’ means all research activities, both basic and applied, and all development activities.

(B) DEVELOPMENT.—The term ‘development’ means experimental development.

(C) EXPERIMENTAL DEVELOPMENT.—The term ‘experimental development’ means creative and systematic work, drawing upon knowledge gained from research and practical experience, which—

(i) is directed toward the production of new products or processes or improving existing products or processes; and

(ii) like research, will result in gaining additional knowledge.

(D) RESEARCH.—The term ‘research’—

(i) means a systematic study directed toward fuller scientific knowledge or understanding of the subject studied; and

(ii) includes activities involving the training of individuals in research techniques if such activities—

(I) utilize the same facilities as other research and development activities; and

(II) are not included in the instruction functions of departmental resources, capabilities, and economic security interests of the United States.

(E) United States research community.—

(1) (A) The term ‘United States research community’ means—

(i) research and development centers of Executive agencies;

(ii) private research and development centers in the United States, including for profit and nonprofit research institutes;

(iii) research and development centers at institutions of higher education (as defined in section 101(a) of the Higher Education Act of 1965); and

(iv) research and development centers of States, United States territories, Indian tribes, and municipalities.

(B) government-owned, contractor-operated United States Government research and development centers; and

(F) any person conducting federally funded research or receiving Federal research grant funding.

§ 7902. Federal Research Security Council establishment and membership

(1) ESTABLISHMENT.—There is established, in the Office of Management and Budget, a Federal Research Security Council, which shall develop federally funded research and development policy, making policy and management guidance to protect the national and economic security interests of the United States.

2) MEMBERSHIP.—

(A) IN GENERAL.—The following agencies shall be represented on the Council:

(1) The Office of Management and Budget.

(2) The Office of Science and Technology Policy.

(3) The Department of Defense.

(5) The Office of the Director of National Intelligence.

(F) The Department of Justice.

(G) The Department of Energy.

(H) The Department of Commerce.

(I) The Department of Health and Human Services.

(J) The Department of State.

(K) The Department of Transportation.

(L) The National Aeronautics and Space Administration.

(M) The National Science Foundation.

(N) The Department of Education.

(0) The Office of the Inspector General.

(P) The Council of Inspectors General on Integrity and Efficiency.

(2) Other Executive agencies, as determined by the Chairperson of the Council.

(2) LEAD REPRESENTATIVES.—

(A) DESIGNATION.—Not later than 45 days after the date of the enactment of the Safeguarding American Innovation Act, the head of each agency represented on the Council shall designate a representative of that agency as the lead representative of the agency on the Council.

(B) FUNCTIONS.—The lead representative of an agency designated under subparagraph (A) shall perform the following functions, including leadership and subject matter experts of the agency, are aware of the business of the Council.

(1) CHAIRPERSON.—

(i) DESIGNATION.—Not later than 45 days after the date of the enactment of the Safeguarding American Innovation Act, the Director of the Office of Management and Budget shall designate a senior level official from the Office of Management and Budget to serve as the Chairperson of the Council.

(ii) Functions.—The Chairperson shall perform functions that include—

(A) subject to subsection (d), developing a schedule for meetings of the Council;

(B) designating agencies to be represented on the Council under subsection (b)(1)(Q); and

(C) in consultation with the lead representatives of each agency represented on the Council, developing a charter for the Council;

(iii) not later than 7 days after completion of the charter, submitting the charter to the appropriate congressional committees.

(3) LEAD SCIENCE ADVISOR.—The Director of the Office of Science and Technology Policy shall designate a senior level official to be the lead science advisor to the Council for purposes of this chapter.

(4) LEAD SECURITY ADVISOR.—The Director of the National Counterintelligence and Security Center shall designate a senior level official from the National Counterintelligence and Security Center to be the lead security advisor to the Council for purposes of this chapter.

(d) MEETINGS.—The Council shall meet not later than 90 days after the date of the enactment of the Safeguarding American Innovation Act and not less frequently than quarterly thereafter.

§ 7903. Functions and authorities

(a) DEPARTMENT RESPONSIBILITY.—In this section:

(1) IMPLEMENTING.—The term ‘implementing’ means working with the relevant Federal agencies, through existing processes and programs, to enable those agencies to put in place and enforce the measures described in this section.

(2) UNIFORM APPLICATION PROCESS.—The term ‘uniform application process’ means a process employed by Federal science agencies to maximize the collection of information regarding applicants and applications, as determined by the Council;

(3) IN GENERAL.—The Chairperson of the Council shall consider the missions and responsibilities of Council members in determining the science agencies for Council functions.

The Council shall perform the following functions:

(1) Developing and implementing, across all Executive agencies, research and development grants, awards, and contracts, a uniform application process for grants in accordance with subsection (c).

(2) Developing and implementing policies and providing guidance to prevent malice foreign interference from unduly influencing the peer review process for federally funded research and development.

(3) Identifying or developing criteria for sharing among Executive agencies and with law enforcement and other agencies, as appropriate, information regarding individuals who violate disclosure policies and other policies related to research security.

(4) Identifying an appropriate Executive agency—

(A) to accept and protect information submitted by Executive agencies and non-Federal entities based on the process established pursuant to paragraph (1); and

(B) to facilitate the sharing of information received under subparagraph (A) to support consistent with Federal law:

(i) the oversight of federally funded research and development;

(ii) criminal and civil investigations of misappropriation of Federal funds, resources, information; and

(iii) counterintelligence investigations.

(5) Identifying, as appropriate, Executive agencies to provide—

(A) shared services, such as support for conducting Federal research security risk assessments, activities to mitigate such risks, and oversight and investigations with respect to grants awarded by Executive agencies;

(B) common contract solutions to support the verification of the identities of persons participating in federally funded research and development.

(6) Identifying and issuing guidance, in coordination with the National Counterintelligence and Security Roundtable created by Public Law 116–92 (50 U.S.C. 3161 note) for expanding the scope of Executive agency insider threat programs, including the safeguarding of research and development from exploitation, compromise, or other unauthorized disclosure, taking into account risk levels and the distinct needs, missions, and systems of each such agency.

(7) Identifying and issuing guidance for developing compliance and oversight programs for Executive agencies to ensure that research and development grant recipients accurately report conflicts of interest and conflicts of commitment in accordance with subsection (c)(1). Such programs shall include an assessment of—

(A) a grantee’s support from foreign science and technology, financing, or participation in talent programs with foreign funding institutions or laboratories; and

(B) the impact of such support and affiliations on the scope of Executive agencies on United States national security and economic interests.

(8) Providing guidance to Executive agencies regarding application of consequences for violations of disclosure requirements.

(9) Developing and implementing a cross-agency policy and providing guidance related to the use of digital persistent identifiers for individual researchers supported by, or working on, any Federal research grant with the goal to enhance aggregate security, while reducing administrative burden for researchers and research institutions.

(10) Engaging with the United States research community in conjunction with the National Science and Technology Council and the National Academies Science, Technology and Security Roundtable created under section 174 of the National Defense Authorization Act for Fiscal Year 2020 (Public Law 116–92; 42 U.S.C. 6601 note) in performing the functions described in paragraphs (1), (2), and (3) with respect to issues relating to Federal research security risks.

(11) Carrying out such other functions, consistent with Federal law, as the Council determines to be necessary to reduce Federal research security risks.
Section 7901. Federal Grant Application Fraud.

(a) In General.—Chapter 47 of title 18, United States Code, is amended by adding at the end the following:

"§ 1041. Federal grant application fraud

(a) Definitions.—In this section:

(1) FEDERAL AGENCY.—The term 'Federal agency' has the meaning given the term in section 551 of title 5, United States Code.

(2) GRANT.—The term 'grant' means a grant awarded by a Federal agency.

(3) GOVERNMENT.—The term 'government' means a Federal government.

(4) DEBARMENT.—The term 'debarment' means a debarment, suspension, or other similar action.

(b) Requirements for Executive agencies

(1) In general.—The head of each Executive agency shall be responsible for—

(1) assessing Federal research security risk and developing processes for identifying, characterizing, and communicating such risks; and—

(2) avoiding or mitigating such risks, as appropriate and consistent with the standards, rules, and regulations of the President, the Office of Management and Budget, and the Office of Science and Technology Policy.

(c) Safeguarding American Innovation Act.

(1) General.—The term 'Safeguarding American Innovation Act' means the Act entitled 'Safeguarding American Innovation Act,' enacted under section 7901 of this title.

(2) Section 7901.—The term 'section 7901' means section 7901 of this title.

SEC. 7901. FEDERAL GRANT APPLICATION FRAUD.

(a) Definitions.—In this section:

(1) FEDERAL AGENCY.—The term 'Federal agency' has the meaning given the term in section 551 of title 5, United States Code.

(2) GRANT.—The term 'grant' means a grant awarded by a Federal agency.

(b) Requirements for Executive agencies

(1) In general.—The head of each Executive agency shall be responsible for—

(1) assessing Federal research security risk and developing processes for identifying, characterizing, and communicating such risks; and—

(2) avoiding or mitigating such risks, as appropriate and consistent with the standards, rules, and regulations of the President, the Office of Management and Budget, and the Office of Science and Technology Policy.

(c) Safeguarding American Innovation Act.

(1) General.—The term 'Safeguarding American Innovation Act' means the Act entitled 'Safeguarding American Innovation Act,' enacted under section 7901 of this title.

(2) Section 7901.—The term 'section 7901' means section 7901 of this title.
(4) FOREIGN COMPENSATION.—The term ‘foreign compensation’ means a title, monetary compensation, access to a laboratory or other resource, or other benefit received from—

(A) a foreign government;

(B) a foreign government institution; or

(C) a foreign public enterprise.

(5) FOREIGN GOVERNMENT.—The term ‘foreign government’ includes a person acting or purporting to act on behalf of—

(A) a faction, party, department, agency, bureau, subnational administrative entity, or military of a foreign country; or

(B) a foreign government or a person purporting to act as a foreign government, regardless of whether the United States recognizes the government.

(6) FOREIGN GOVERNMENT INSTITUTION.—The term ‘foreign government institution’ means a foreign entity owned by, subject to the control of, or subject to regulation by a foreign government.

(7) FOREIGN PUBLIC ENTERPRISE.—The term ‘foreign public enterprise’ means an enterprise over which a foreign government directly or indirectly exercises a dominant influence.

(8) LAW ENFORCEMENT AGENCY.—The term ‘law enforcement agency’—

(A) means a Federal, State, local, or Tribal law enforcement agency; and

(B) includes—

(i) the Office of Inspector General of an establishment (as defined in section 12 of the Inspector General Act of 1978 (5 U.S.C. App.)) or a designated Federal entity (as defined in section 8G(a) of the Inspector General Act of 1978 (5 U.S.C. App.)); and

(ii) the Office of Inspector General, or similar office, of a State or unit of local government.

(9) OUTSIDE COMPENSATION.—The term ‘outside compensation’ means any compensation, resource, or support (regardless of monetary value) made available to the applicant in support of, or related to, any research endeavor, including a title, research grant, cooperative agreement, contract, institutional award, access to a laboratory, or other resource, including materials, travel compensation, or work incentives.

(b) PROHIBITION.—It shall be unlawful for any individual to knowingly—

(1) prepare or submit a Federal grant application that fails to disclose the receipt of any outside compensation, including foreign compensation, by the individual, the value of which is $1,000 or more;

(2) forge, counterfeit, or otherwise falsify a document for the purpose of obtaining a Federal grant; or

(3) prepare, submit, or assist in the preparation or submission of a Federal grant application or document in connection with a Federal grant application that—

(A) contains a material false statement;

(B) contains a material misrepresentation; or

(C) fails to disclose a material fact.

(c) PENALTY.—Any individual who violates subsection (b) does not apply to an activity—

(1) carried out in connection with a lawfully authorized investigative, protective, or intelligence activity of—

(A) a law enforcement agency; or

(B) a Federal intelligence agency; or

(2) in the case of an activity described in chapter 224.

(d) PENALTY.—Any individual who violates subsection (b)—

(1) shall be fined in accordance with this title, or imprisoned for not more than 5 years, or both, in accordance with the level of severity of that individual’s violation of subsection (b); and

(2) shall be prohibited from receiving a Federal grant during the 5-year period beginning on the date on which a sentence is imposed on the individual under paragraph (1).'

(b) CLERICAL AMENDMENT.—The analysis for chapter 47 of title 18, United States Code, is amended by adding at the end the following:

"1041. Federal grant application fraud."

SEC. 3. RESTRICTING THE ACQUISITION OF EMERGING TECHNOLOGIES BY CERTAIN ENTITIES.

(a) GROUNDS OF VISA SANCTIONS.—The Secretary of State may impose the sanctions described in subsection (c) if the Secretary determines that the activity described in subsection (a) is knowingly in violation of section 8G(a) of the Inspector General Act of 1978 (5 U.S.C. App.) to knowingly acquire sensitive or emerging technologies to undermine national security interests of the United States by threatening the foreign government’s security or strategic capabilities.

(b) RELEVANT FACTORS.—To determine if an alien is inadmissible under subsection (a), the Secretary of State shall—

(1) take account of information and analyses relevant to implementing subsection (a) from the Office of the Director of National Intelligence, the Department of Health and Human Services, the Department of Defense, the Department of Homeland Security, the Department of Energy, the Department of Commerce, and other appropriate Federal agencies;

(2) take account of the continual expert assessments of evolving sensitive or emerging technologies that foreign adversaries are targeting;

(3) take account of relevant information concerning the foreign person’s employment or collaboration, to the extent known, with—

(A) foreign military and security related organizations that are adversarial to the United States;

(B) foreign institutions involved in theft of United States research;

(C) entities involved in export control violations or the theft of intellectual property; or

(D) a government that seeks to undermine the integrity and security of the United States research community; or

(E) other associations or collaborations that pose a national security threat based on intelligence assessments; and

(4) weigh the nature of risks and the factors listed in paragraphs (1) through (3).

(c) SANCTIONS DESCRIBED.—The sanctions described in this subsection are the following:

(1) INELIGIBILITY FOR VISAS AND ADMISSION TO THE UNITED STATES.—An alien described in subsection (a) may be—

(A) inadmissible to the United States;

(B) ineligible to receive a visa or other documentation to enter the United States; and

(C) otherwise unable to be admitted or paroled into the United States or to receive any other benefit under the Immigration and Nationality Act (8 U.S.C. 1101 et seq.).

(2) CURRENT VIAS REVOKED.—

(A) IN GENERAL.—An alien described in subsection (a) is subject to revocation of any visa or other entry documentation regardless of when the other entry documentation is or was issued.

(B) IMMEDIATE EFFECT.—A revocation under subparagraph (A) shall take effect immediately. The Secretary of State may cancel any other valid visa or entry documentation that is in the alien’s possession, in accordance with section 211(i) of the Immigration and Nationality Act (8 U.S.C. 1101 et seq.).

(3) EXCEPTION TO COMPLY WITH INTERNATIONAL OBLIGATIONS.—The sanctions described in this subsection shall not apply to an alien with respect to an order or policy requiring the alien into the United States is necessary to permit the United States to comply with the Agreement regarding the Headquarters of the United Nations, signed at Lake Success June 26, 1947, and entered into force November 21, 1947, between the United Nations and United States, or other applicable international obligations.

(d) REPORTING REQUIREMENT.—Not later than 120 days after the date of enactment of this Act, and semi-annually thereafter until the sunset date set forth in subsection (f), the Secretary of State, in coordination with the Director of National Intelligence, the Director of the Office of Science and Technology Policy, the Secretary of Homeland Security, the Secretary of Defense, the Secretary of Energy, the Department of Commerce, and the heads of other appropriate Federal agencies, shall submit a report to the Committee on the Judiciary of the Senate, the Committee on Foreign Relations of the Senate, the Committee on Homeland Security and Governmental Affairs of the Senate, the Committee on the Judiciary of the House of Representatives, the Committee on Foreign Affairs of the House of Representatives, and the Committee on Oversight and Reform of the House of Representatives that identifies—

(1) any criteria, if relevant, used to determine whether an alien is subject to sanctions under subsection (a); and

(2) the number of individuals determined to be subject to sanctions under subsection (a), including the nationality of each individual and the reasons for each sanctions determination; and

(3) the number of days from the date of the consular interview until a final decision is issued for each application that is considered under this section, listed by applicants’ country of citizenship and relevant consulate.

(3) CLASSIFICATION OF REPORT.—Each report required under subsection (d) shall be submitted, to the extent practicable, in a classified form, which may be accompanied by a classified annex.

(f) SUNSET.—This section shall cease to be effective on the date that is 2 years after the date of the enactment of this Act.
Permalink Select Committee on Intelligence of the House of Representatives, and the Committee on Foreign Affairs of the House of Representatives that—

(1) describes how supplementary documents provided by a visa applicant in support of a visa application are stored and shared by the Department of State with authorities.

(2) identifies the sections of a visa application that are machine-readable and the sections that are not machine-readable;

(3) specifies cost estimates, including personnel costs and a cost-benefit analysis for adopting different technologies, including optical character recognition, for—

(A) tracking every element of a visa application, and documents submitted in support of a visa application, machine-readable; and

(B) ensuring that such systems—

(i) protects personally-identifiable information; and

(ii) permits the sharing of visa information with Federal agencies in accordance with existing law; and

(4) includes an estimated timeline for completing the implementation of subsection (a).

SEC. 2. CERTIFICATIONS REGARDING ACCESS TO EXPORT CONTROLLED TECHNOLOGY IN EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS.

Section 1003(a) of the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2452(b)(5)) is amended to read as follows:

“(5) promoting and supporting medical, scientific, cultural, and educational research and development by developing exchange programs for foreign researchers and scientists, while protecting technologies regulated by export control laws important to the national security and economic interests of the United States, by requiring—

“(A) the sponsor to certify to the Department of State that the sponsor, after reviewing all regulations related to the Export Controls Act of 2018 (50 U.S.C. 4811 et seq.) and the Arms Export Control Act (22 U.S.C. 2751 et seq.), has determined that—

“(i) a license is not required from the Department of Commerce or the Department of State to release such technology or technical data to the exchange visitor; or

“(ii) (I) a license is required from the Department of Commerce or the Department of State to release such technology or technical data to the exchange visitor; and

“(II) the sponsor will prevent access to the controlled technology or technical data by the exchange visitor until the sponsor—

“(aa) has required the required license or other authorization to release it to the visitor; and

“(bb) has provided a copy of such license or authorization to the Department of State; and

“(B) if the sponsor maintains export controlled technology or technical data, the sponsor and the Department of State the sponsor’s plan to prevent unauthorized export or transfer of any controlled items, materials, information, or technology at the sponsor organization or entities associated with a sponsor’s administration of the exchange visitor program.”.

SEC. 3. PRIVACY AND CONFIDENTIALITY.

Nothing in this title may be construed as affecting the rights and requirements provided in a section 52a of title 5, United States Code (commonly known as the “Privacy Act of 1974”) or chapter 3 of title 44, United States Code (commonly known as the “Confidential Information Protection and Statistical Efficiency Act of 2018”).

SA 5140. Mr. CARPER (for himself, Mrs. CAPITO, Mr. CARDIN, and Mr. CRAMER) submitted an amendment intended to be proposed by him to the bill H.R. 7776, to provide for improvements to the rivers and harbors of the United States, to provide for the conservation and development of water and related resources, and for other purposes; which was ordered to lie on the table; as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “Water Resources Development Act of 2022.”

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

| Sec. 1. | Short title; table of contents.
| Sec. 2. | Definition of Secretary.
| TITLE I—GENERAL PROVISIONS |
| Sec. 101. | Scope of feasibility studies.
| Sec. 102. | Shoreline and riverbank protection and restoration mission.
| Sec. 103. | Inland waterway projects.
| Sec. 104. | Protection and restoration of other Federal land along rivers and waterways.
| Sec. 105. | Policy and technical standards.
| Sec. 107. | Floodplain management services.
| Sec. 108. | Credit in lieu of reimbursement.
| Sec. 110. | Coastal cost calculations.
| Sec. 111. | Advance payment in lieu of reimbursement for certain Federal costs.
| Sec. 112. | Use of emergency funds.
| Sec. 113. | Research and development.
| Sec. 114. | Tribes and Economically Disadvantaged Communities Advisory Committee.
| Sec. 115. | Non-Federal Interest Advisory Committee.
| Sec. 116. | Underserved community harbor projects.
| Sec. 117. | Corps of Engineers Western Water Cooperative Committee.
| Sec. 118. | Updates to certain water control manuals.
| Sec. 119. | Sense of Congress on operations and maintenance of recreation sites.
| Sec. 120. | Relocation assistance.
| Sec. 121. | Reprogramming limits.
| Sec. 122. | Lease duration.
| Sec. 123. | Sense of Congress relating to post-disaster repairs.
| Sec. 124. | Payment of and allowances of certain officers from appropriation for improvements.
| Sec. 125. | Reforestation.
| Sec. 126. | Use of other Federal funds.
| Sec. 127. | National low-head dam inventory.
| Sec. 128. | Transfer of excess credit.
| Sec. 129. | National levee restoration.
| Sec. 130. | Inland waterways regional dredge mitigation program.
| Sec. 131. | Funding to process permits.
| Sec. 132. | Non-Federal project implementation pilot program.
| Sec. 133. | Cost sharing for territories and Indian Tribes.
| Sec. 134. | Water supply conservation.
| Sec. 135. | Criteria for funding operation and maintenance of certain public recreation facilities and mitigation practices.
| Sec. 136. | Protection of lighthouses.
| Sec. 137. | Expediting hydropower at Corps of Engineers projects.
| Sec. 138. | Use of State plans in funding operation and maintenance of certain public recreation facilities.
| Sec. 139. | Dredged material management plans.
| Sec. 140. | Lease deviations.
| Sec. 141. | Columbia River Basin.
| Sec. 142. | Continuation of construction.
| TITLE II—STUDIES AND REPORTS |
| Sec. 191. | Authorization of feasibility studies.
| Sec. 192. | Special rules.
| Sec. 193. | Expedited completion of studies.
| Sec. 194. | Studies for periodic nourishment.
| Sec. 195. | NEPA reporting.
| Sec. 196. | GAO audit of projects over budget or behind schedule.
| Sec. 197. | GAO study on project distribution.
| Sec. 198. | GAO audit of joint costs for operations and maintenance.
| Sec. 199. | GAO review of Corps of Engineers mitigation practices.
| Sec. 201. | Sabine–Neches Waterway Navigation Improvement project, Texas.
| Sec. 203. | Central and Southern Florida.
| Sec. 204. | Investments for recreation areas.
| Sec. 205. | Western infrastructure study.
| Sec. 206. | Upper Mississippi River and Illinois Waterway System.
| Sec. 207. | West Virginia hydropower.
| Sec. 208. | Recreation and economic development at Corps facilities in Appalachia.
| Sec. 209. | Automated fee machines.
| Sec. 220. | Report on competitive supply practices.
| TITLE III—DEAUTHORIZATIONS, MODIFICATIONS, AND RELATED PROVISIONS |
| Sec. 231. | Additional assistance for critical projects.
| Sec. 232. | Southern West Virginia.
| Sec. 233. | Northern West Virginia.
| Sec. 234. | Local cooperation agreements, northern West Virginia.
| Sec. 235. | Special rule for certain beach nourishment projects.
| Sec. 236. | Coastal community flood control and other purposes.
| Sec. 237. | Modifications.
| Sec. 238. | Port Fourchon, Louisiana, dredged material disposal plan.
| Sec. 239. | Delaware shore protection and restoration in Delaware.
| Sec. 240. | Great Lakes advance measures assistance.
| Sec. 241. | Rehabilitation of existing levees.
| Sec. 242. | Pilot program for certain communities.
| Sec. 243. | Rehabilitation of Corps of Engineers constructed pump stations.
| Sec. 244. | Chesapeake Bay environmental restoration and protection program.
| Sec. 245. | Evaluation of hydrologic changes in Sours River Basin.
| Sec. 246. | Memorandum of understanding relating to Baldhill Dam, North Dakota.
| Sec. 247. | Upper Mississippi River restoration program.
| Sec. 248. | Harmful algal bloom demonstration program.
| Sec. 249. | Colleton County, South Carolina.
| Sec. 250. | Arkansas River corridor, Oklahoma.
| Sec. 251. | Anacostia River, Washington, D.C.
| Sec. 252. | Abandoned and inactive noncoal mine restoration.
| Sec. 253. | Asian carp prevention and control pilot program.
| Sec. 254. | Forms of assistance.
| Sec. 256. | Invasive species management.
| Sec. 257. | Wolf River Harbor, Tennessee.
| Sec. 258. | Missouri River mitigation, Missouri, Kansas, Iowa, and Nebraska.
| Sec. 259. | Invasive species management pilot program.
In this Act, the term “Secretary” means the Secretary of the Army.

**TITLE I—GENERAL PROVISIONS**

**SEC. 101. SCOPE OF FEASIBILITY STUDIES.**

(a) Flood and Coastal Storm Risk Management.—In carrying out a feasibility study for a project for flood or coastal storm risk management, the Secretary, at the request of the non-Federal interest for the study, shall formulate alternatives to maximize net benefits from the reduction of the comprehensive flood risk that is identified through a holistic evaluation of the isolated and compound effects of—

1. a riverine discharge of any magnitude or frequency; and
2. inundation, wave attack, and erosion coinciding with a hurricane or coastal storm; or
3. a tide of any magnitude or frequency; and
4. a rainfall event of any magnitude or frequency; and
5. seasonal variation in water levels; and
6. groundwater emergence; and
7. sea level rise; and
8. or any other driver of flood risk affecting the study area.

(b) Water Supply, Water Supply Conservation, and Drought Risk Reduction.—In carrying out a feasibility study for any purpose, the Secretary, at the request of the non-Federal interest for the study, shall formulate alternatives to maximize combined net benefits for the primary purpose of the study and for water supply, water supply conservation and drought risk reduction; or

1. to include 1 or more measures for the purpose of water supply, water supply conservation, or drought risk reduction; or
2. to restore the natural functions and values of rivers and shorelines; or
3. to reduce flood and coastal storm hazards, including shoreline erosion and riverbank and streambank failures; or
4. to restore the natural functions and values of rivers and shorelines throughout the United States; and
5. in subsection (b)—
   (I) by striking paragraph (1) and inserting the following:
   (I) AUTHORITY.
   (B) Studies.—The Secretary may carry out studies to identify appropriate measures for
   (i) the reduction of flood and coastal storm hazards, including shoreline erosion and riverbank and streambank failures; or
   (ii) the restoration of the natural functions and values of rivers and shorelines.
   (B) Projects.—Subject to subsection (f), the Secretary may design and implement projects described in subsection (a).

2. In paragraph (3), by striking “flood damages” and inserting “flood and coastal storm damages, including the use of measures described in section 118(a) of the Water Resources Development Act of 2016 (33 U.S.C. 2289(a)); and
3. in paragraph (4)—
   (I) by inserting “and coastal storm” after “flood’’;
   (II) by inserting “, shoreline,” after “riverine’’; and
   (III) by inserting “and coastal barriers” after “floodplains’’; and
4. in subsection (c)—
   (I) by striking paragraph (1) and inserting the following:
   (I) STUDIES.
   (A) In general.—Subject to subparagraph (B), the Secretary shall carry out a study under this section for any purpose, the non-Federal share of the cost of a study under this section shall be—
   (i) 75 percent; and
   (ii) 10 percent, in the case of a study benefiting an economically disadvantaged community as defined pursuant to section 160 of the Water Resources Development Act of 2020 (33 U.S.C. 2201 note; Public Law 116-260).
   (B) Federal interest determination.—The first $100,000 of the costs of a study under this section shall be at full Federal expense.

**SEC. 102. SHORELINE AND RIVERBANK PROTECTION AND RESTORATION MISSION.**

(1) to reduce flood and coastal storm hazards, including shoreline erosion and riverbank and streambank failures; or

2. to restore the natural functions and values of rivers and shorelines throughout the United States; and
3. in subsection (b)—
   (I) by striking paragraph (1) and inserting the following:
   (I) AUTHORITY.
   (A) STUDIES.—The Secretary may carry out studies to identify appropriate measures for
   (i) the reduction of flood and coastal storm hazards, including shoreline erosion and riverbank and streambank failures; or
   (ii) the restoration of the natural functions and values of rivers and shorelines.
   (B) Projects.—Subject to subsection (f), the Secretary may design and implement projects described in subsection (a).

2. In paragraph (3), by striking “flood damages” and inserting “flood and coastal storm damages, including the use of measures described in section 118(a) of the Water Resources Development Act of 2016 (33 U.S.C. 2289(a)); and
3. in paragraph (4)—
   (I) by inserting “and coastal storm” after “flood’’;
   (II) by inserting “, shoreline,” after “riverine’’; and
   (III) by inserting “and coastal barriers” after “floodplains’’; and
4. in subsection (c)—
   (I) by striking paragraph (1) and inserting the following:
   (I) STUDIES.
   (A) In general.—Subject to subparagraph (B), the Secretary shall carry out a study under this section for any purpose, the non-Federal share of the cost of a study under this section shall be—
   (i) 75 percent; and
   (ii) 10 percent, in the case of a study benefiting an economically disadvantaged community as defined pursuant to section 160 of the Water Resources Development Act of 2020 (33 U.S.C. 2201 note; Public Law 116-260).
   (B) Federal interest determination.—The first $100,000 of the costs of a study under this section shall be at full Federal expense.

**TITLE IV—WATER RESOURCES INFRASTRUCTURE**

**SEC. 401. Project authorizations.**

**SEC. 402. Storm damage prevention and reduction.**

**SEC. 403. Expedited completion of projects.**

**SEC. 404. Special rules.**

**SEC. 405. Chattahoochee River program.**

**SEC. 406. Lower Mississippi River Basin demonstration program.**

**SEC. 407. Forecast-informed reservoir operations.**

**SEC. 408. McAlpine Dam River mat sinking unit.**

**SEC. 409. Sense of Congress relating to Okatiee Lake.**
SEC. 105. POLICY AND TECHNICAL STANDARDS.

Consistent with the 5-year administrative publication life cycle of the Department of the Army’s program or project, prepare, or update, as necessary, and disseminate, or certify as current, as applicable, each publication for the civil works programs of the Corps of Engineers.

SEC. 106. PLANNING ASSISTANCE TO STATES.

(a) IN GENERAL.—Section 22 of the Water Resources Development Act of 1974 (33 U.S.C. 2254–2256) is amended—

(1) in subsection (a)—

(ii) by striking “section 236 of title 10” and inserting “section 411 of title 10”;

and

(b) by adding at the end the following:

“(4) PRIORITIZATION.—To the maximum extent practicable, the Secretary shall prioritize the provision of assistance under this subsection to address both inland and coastal life safety risks.”;

(2) by redesignating subsections (b) through (f) as paragraphs (1) through (5), respectively;

and

(3) by inserting after subsection (a) the following:

“(b) OUTREACH.—

(i) IN GENERAL.—The Secretary is authorized to carry out activities, at full Federal expense—

(A) to inform and educate States and other non-Federal interests about the missions, programs, policies, and procedures of the Corps of Engineers; and

(B) to engage with States and other non-Federal interests to identify specific opportunities to partner with the Corps of Engineers to address water resources development needs.

(ii) STAFF.—The Secretary shall designate staff in each district office of the Corps of Engineers to provide assistance under this subsection; and

(iii) in subsection (d) (as so redesignated), by adding at the end the following:

“(3) OUTREACH.—There is authorized to be appropriated $30,000,000 for each fiscal year to carry out subsection (a) for the purposes referred to in paragraph (1).”;

“(4) PRIORITIZATION.—To the maximum extent practicable, the Secretary shall prioritize the provision of assistance under this subsection to address both inland and coastal life safety risks.”;

SEC. 107. FLOODPLAIN MANAGEMENT SERVICES.

(a) SEC. 212. Shoreline and riverine protection services.

(1) IN GENERAL.—Section 1025 of the Water Resources Development Act of 1986 (33 U.S.C. 2212(a)) is amended—

(i) by redesignating subsections (A) through (C) as paragraphs (1) through (3), respectively, and indenting appropriately;

(ii) by redesignating subparagraphs (A) through (D) as paragraphs (1) through (4), respectively, and indenting appropriately;

(iii) by redesignating subparagraph (A) as paragraph (1); and

(iv) in paragraph (1) as redesignated—

(III) by striking “coastal and” and inserting “and”; and

(b) SEC. 222. Floodplain management services.

(1) IN GENERAL.—The Water Resources Reform and Development Act of 2014 (33 U.S.C. 2223a) is amended—

(i) in subsection (a)—

(A) in paragraph (3)(A), in the matter preceding subparagraph (B) by striking “Section 1025 of the Water Resources Development Act of 1986 (33 U.S.C. 2212(a)) is amended—

(ii) in subsection (b)—

(A) in paragraph (1) (as so redesignated)—

(B) by redesignating paragraphs (A) through (C) as paragraphs (1) through (3), respectively, and indenting appropriately;

(C) by redesignating subparagraphs (A) through (C) as paragraphs (1) through (3), respectively, and indenting appropriately;

(D) by redesignating subparagraphs (A) through (C) as paragraphs (1) through (3), respectively, and indenting appropriately;

(E) in subsection (d)—

(i) by redesignating paragraphs (A) through (C) as paragraphs (1) through (3), respectively, and indenting appropriately;

(ii) by adding at the end the following:

“(1) IN GENERAL.—In carrying out”;

(b) SEC. 272. Coastal and riverine management services.

(1) SEC. 212. Shoreline and riverine protection services.

(1) IN GENERAL.—Section 1025 of the Water Resources Development Act of 1986 (33 U.S.C. 2212(a)) is amended—

(i) by redesignating subsections (A) through (C) as paragraphs (1) through (3), respectively, and indenting appropriately;

(ii) in the matter preceding subparagraph (A) as redesignated—

(III) by striking “coastal and” and inserting “and”; and

SEC. 104. PROTECTION AND RESTORATION OF OTHER FEDERAL LAND ALONG RIV- ERS AND COASTS.

(a) IN GENERAL.—The Secretary is author- ized to use funds made available to the Secre- tary for water resources development pur- poses to construct, at full Federal expense, a measure benefitting Federal land under the administrative jurisdiction of another Fed- eral agency, if the measure—

(1) is included in a report of the Chief of Engineers or other decision document for a water resources development project that is specifically authorized by Congress;

(2) is incorporated in a project report (as defined in section 105(d) of the Water Re- sources Development Act of 1986 (33 U.S.C. 2215(d))); or

(3) utilizes dredged material from a water resources development project beneficially;

(b) APPLICABILITY.—This section shall apply to a measure for which construction is initiated after the date of enactment of this Act.

(c) EXCLUSION.—In this section, the term “Federal land” does not include a military installation.

(d) SAVINGS PROVISIONS.—Nothing in this section precludes—

(1) a Federal agency with administrative jurisdiction over a Federal land from contribut- ing funds for any portion of the cost of a measure described in subsection (a) that ben- efits that land; or

(2) the Secretary, at the request of the non-Federal interest for a study for a project for flood or coastal storm risk management, if using funds made available to the Secre- tary for water resources development in- vestigations to formulate measures to reduce risk to a military installation, if the non- Federal interest shares in the cost to formu- late the same extent that the non-Federal interest is required to share in the cost of the study.

(e) REPEAL.—

(1) IN GENERAL.—Section 1025 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2223a) is repealed.

SEC. 106. PLANNING ASSISTANCE TO STATES.

(1) in subsection (a)—

(i) by striking “section 236 of title 10” and inserting “section 411 of title 10”; and

(b) by adding at the end the following:

“(4) PRIORITIZATION.—To the maximum ext-
(C) by adding at the end the following:

"(3) IDENTIFICATION OF ASSISTANCE.—

“(A) IN GENERAL.—To the maximum extent practicable, in providing assistance under this subsection, the Secretary shall identify and communicate to States and non-Federal interests specific opportunities to partner with the Corps of Engineers to address flood hazards, including opportunities to:

(1) to foster, enhance, and support science, technology, engineering, and math education and awareness;

(2) to recruit individuals for careers at the Corps of Engineers.

(c) PARTNERING ENTITIES.—In carrying out assistance under this subsection, the Secretary may enter into partnerships with—

(1) public and nonprofit elementary and secondary schools;

(2) non-profit community colleges;

(3) technical schools;

(4) colleges and universities, including historically Black colleges and universities; and

(5) other institutions of learning.

(d) PRIORITIZATION.—The Secretary shall, to the maximum extent practicable, prioritize the recruitment of individuals under this subsection if students are located in economically disadvantaged communities (as defined pursuant to section 160 of the Water Resources Development Act of 2020 (33 U.S.C. 2201)) and in schools located in economically disadvantaged communities (as defined in paragraph (1)).

(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $3,000,000 for each of fiscal years 2021 through 2025.

SEC. 109. CREDIT IN LIEU OF REIMBURSEMENT.

(a) IN GENERAL.—Section 1022 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2233) is amended—

(1) in subsection (a)—

(A) by striking "or” before ‘‘an authorized”

(B) by striking “or” before ‘‘the construction of flood damage reduction”

(C) by striking ‘‘or” before ‘‘the construction of flood damage reduction”

(2) in subsection (b) and (c), by striking ‘‘flood damage reduction and coastal navigation” each place it appears and inserting ‘‘construction of flood damage reduction and coastal navigation”;

(3) by striking at the end the following:

‘‘(d) APPLICABILITY.—With respect to a project constructed under section 264 of the Water Resources Reform and Development Act of 1986 (33 U.S.C. 2232), the Secretary shall exercise the authority under this section to apply credits and reimbursements related to the project in a manner consistent with the requirements of subsection (d) of that section.’’;

‘‘(b) TREATMENT OF CREDIT BETWEEN PROVISIONS.—Section 70907(d) of the Water Resources Development Act of 2007 (121 Stat. 1277; 128 Stat. 1226) is amended by inserting ‘‘, or may be applied to reduce the amounts required to be included under the non-Federal interest under the terms of the deferred payment agreements entered into between the Secretary and the non-Federal interest for the projects authorized by section 70901(a)(1)” before the period at the end.

SEC. 110. COASTAL COST CALCULATIONS.

Section 152(a) of the Water Resources Development Act of 1988 (33 U.S.C. 2213a(a)) is amended by inserting ‘‘or coastal storm risk management’’ after ‘‘flood risk management’’.

SEC. 111. ADVANCE PAYMENT IN LIEU OF REIMBURSEMENT FOR CERTAIN FEDERAL COSTS.

The Secretary is authorized to provide in advance to the non-Federal interest the Federal share of funds required for the acquisition of land, easements, and rights-of-way and the performance of relocations for a project or separable element—

(1) authorized to be constructed at full Federal expense;

(2) described in section 103(b)(2) of the Water Resources Development Act of 1966 (33 U.S.C. 2213(b)(2)); or

(3) described in, or modified by an amendment made by section 307(a)(a) or 309(a), if at any time the cost to acquire the land, easements, and rights-of-way required for the project is projected to exceed the non-Federal share of the cost of the project.

SEC. 112. USE OF EMERGENCY FUND AMOUNTS.

Section 5(a) of the Act of August 18, 1941 (commonly known as the ‘‘Flood Control Act of 1941’’) (55 Stat. 650, chapter 377; 33 U.S.C. 701n(a)), is amended—

(1) in paragraph (1), in the first sentence, by inserting ‘‘, increase resilience, increase effectiveness in preventing damages from inundation, wave attack, or erosion,’’ after ‘‘address major deficiencies’’; and

(2) by adding at the end the following:

‘‘(6) WORK CARRIED OUT BY A NON-FEDERAL SPONSOR.—

(A) GENERAL RULE.—The Secretary may authorize a non-Federal sponsor to plan, design, or construct repair or restoration work described in paragraph (1).

(B) COMPLIANCE WITH OTHER LAWS.—The Secretary is authorized to utilize Army Corps of Engineers involved in the award or administration of contracts or other agreements required to be performed by the Federal Government under an agreement entered into between the Secretary and the non-Federal interest for the purposes of the non-Federal sponsorship, or any other agreements entered into between the Secretary and the non-Federal interest for the purposes of the non-Federal sponsorship, or any other agreements entered into between the Secretary and the non-Federal interest for the purposes of the non-Federal sponsorship, or any other agreements entered into between the Secretary and the non-Federal interest for the purposes of the non-Federal sponsorship, or any other agreements entered into between the Secretary and the non-Federal interest for the purposes of the non-Federal sponsorship, or any other agreements entered into between the Secretary and the non-Federal interest for the purposes of the non-Federal sponsorship, or any other agreements entered into between the Secretary and the non-Federal interest for the purposes of the non-Federal sponsorship, or any other agreements entered into between the Secretary and the non-Federal interest for the purposes of the non-Federal sponsorship, or any other agreements entered into between the Secretary and the non-Federal interest for the purposes of the non-Federal sponsorship, or any other agreements entered into between the Secretary and the non-Federal interest for the purposes of the non-Federal spons
(1) IN GENERAL.—For fiscal year 2025, and annually thereafter, in conjunction with the annual budget submission of the President to Congress under section 1105(a) of title 31, United States Code, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on projects carried out under subsection (a).

(2) CONTENTS.—A report under paragraph (1) shall include—

(A) a description of each ongoing and new project, including—

(i) the estimated total cost;

(ii) the amount of Federal expenditures; and

(iii) the amount of expenditures by a non-Federal entity as described in subsection (b)(1), if applicable;

(iv) the estimated timeline for completion;

(v) the requesting district of the Corps of Engineers, if applicable; and

(vi) how the project is consistent with subsection (a); and

(B) any additional information that the Secretary determines to be appropriate.

(3) COORDINATION.—The Secretary shall coordinate implementation of the program with relevant Federal, State, or local entities.

(4) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this subsection $10,000,000.

(d) CLERICAL AMENDMENT.—The table of contents at the beginning of chapter 15 of title 33, United States Code, is amended by inserting in line 4365 the words "115. Non-Federal Interest Advisory Committee" and a note as follows:

(1) IN GENERAL.—The Secretary shall establish a committee, to be known as the "Non-Federal Interest Advisory Committee," to develop and make recommendations to the Secretary and the Chief of Engineers on activities and actions that should be undertaken by the Corps of Engineers to ensure more effective delivery of water resource development projects, programs, and other assistance to economically disadvantaged communities and Indian Tribes.

(2) MEMBERSHIP.—The committee shall be composed of a minimum of 17 individuals, each representing a non-Federal government entity or a non-Federal management and conservation organization.

(3) MEETINGS.—The committee shall meet as appropriate to develop and make recommendations to the Secretary and the Chief of Engineers on activities and actions that should be undertaken by the Corps of Engineers to ensure more effective delivery of water resource development projects, programs, and other assistance to economically disadvantaged communities and Indian Tribes.

(e) INDEPENDENT JUDGMENT.—Any recommendation made by the Committee to the Secretary and the Chief of Engineers to ensure more effective delivery of water resource development projects, programs, and other assistance to economically disadvantaged communities and Indian Tribes shall reflect the independent judgment of the Committee.

(f) ADMINISTRATION.—

(1) COMPENSATION.—Except as provided in paragraph (2), the members of the Committee shall serve without compensation.

(2) TRAVEL EXPENSES.—The members of the Committee shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the Committee.

(3) TREATMENT.—The members of the Committee shall not be considered to be Federal employees, and the meetings and reports of the Committee shall be considered a major Federal action under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(g) APPLICABILITY OF FACIA.—The Federal Advisory Committee Act (5 U.S.C. App.) shall apply to the Committee.

SEC. 115. NON-FEDERAL INTEREST ADVISORY COMMITTEE.

(a) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary shall establish a committee, to be known as the "Non-Federal Interest Advisory Committee," to develop and make recommendations to the Secretary and the Chief of Engineers on activities and actions that should be undertaken by the Corps of Engineers to ensure more effective delivery of water resource development projects, programs, and other assistance to economically disadvantaged communities and Indian Tribes.

(b) MEMBERSHIP.—

(1) IN GENERAL.—The Committee shall be composed of a minimum of 17 individuals, each representing a non-Federal government entity or a non-Federal management and conservation organization.

(2) REPRESENTATIVES.—The members of the Committee shall include the following:

(A) a representative of each of the following:

(i) a non-Federal interest for a project for navigation for an inland harbor;

(ii) a non-Federal interest for a project for navigation for a harbor;

(iii) a non-Federal interest for a project for coastal storm risk management;
(v) A non-Federal interest for a project for aquatic ecosystem restoration.

(B) A representative of each of the following:

(i) A non-Federal stakeholder with respect to inland waterborne transportation.

(ii) A non-Federal stakeholder with respect to water supply.

(iii) A non-Federal stakeholder with respect to recreation.

(iv) A non-Federal stakeholder with respect to hydropower.

(v) A non-Federal stakeholder with respect to emergency preparedness, including coastal protection.

(C) A representative of each of the following:

(i) An organization with expertise in conservation.

(ii) An organization with expertise in environmental policy.

(iii) An organization with expertise in rural water resources.

(d) ADMINISTRATION.—

(1) RECOMMENDATIONS.—The Committee shall provide advice and make recommendations to the Secretary and the Chief of Engineers on the following:

(A) efficiently and effectively delivering water resources development projects;

(B) improving the capability and capacity of the Corps of Engineers to deliver projects and other assistance;

(C) improving the capacity and effectiveness of Corps of Engineers consultation and liaison with the public, including communicating water resources needs and solutions, including regionally-specific recommendations; and

(D) strengthening partnerships with non-Federal interests to advance water resources solutions.

(2) MEETINGS.—The Committee shall meet as appropriate to develop and make recommendations under paragraph (1).

(3) REPORT.—Recommendations provided under paragraph (1) shall be—

(A) included in a report submitted to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives; and

(B) made publicly available, including on a publicly available website.

(d) INDEPENDENT JUDGMENT.—Any recommendations shall be provided to the Secretary and the Chief of Engineers under subsection (c)(1) shall reflect the independent judgment of the Committee.

(d) ADMINISTRATION.—

(1) IN GENERAL.—The Committee shall be subject to the Federal Advisory Committee Act (5 U.S.C. App.).

(2) COMPENSATION.—Except as provided in paragraph (3), the members of the Committee shall serve without compensation.

(3) TRAVEL EXPENSES.—The members of the Committee shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the Committee.

(4) TREATMENT.—The members of the Committee shall not be considered to be Federal employees and the meetings and reports of the Committee shall not be considered a major Federal function under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

SEC. 116. UNDERSERVED COMMUNITY HARBOR PROJECTS.

(a) DEFINITIONS.—In this section:

(1) PROJECT.—The term ‘‘project’’ means a single cycle of dredging of an underserved community harbor, the associated placement of dredged material at a beneficial use placement site or disposal site.

(2) UNDERSERVED COMMUNITY HARBOR.—The term ‘‘underserved community harbor’’ means an emerging harbor (as defined in section 210(f) of the Water Resources Development Act of 1986 (33 U.S.C. 2238(f))) for which—

(A) no Federal funds have been obligated for maintenance dredging in the current fiscal year or in any of the 4 preceding fiscal years; and

(B) State and local investments in infrastructure have been made during the preceding 4 fiscal years.

(b) ESTABLISHMENT.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary shall establish a Western Water Coordinating Committee (referred to in this section as the ‘‘Cooperative Committee’’).

(2) PURPOSE.—The purpose of the Cooperative Committee is to ensure that Corps of Engineers flood control projects in Western States are operated in accordance with congressional directives by identifying opportunities to avoid or minimize conflicts between operation of Corps of Engineers projects and State water rights and water laws.

(3) MEMBERSHIP.—

(A) IN GENERAL.—The Cooperative Committee shall be composed of—

(i) the Assistant Secretary of the Army for Civil Works (or a designee);

(ii) the Chief of Engineers (or a designee); and

(iii) 1 representative from each of the States of Alaska, Arizona, California, Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming, who shall serve on the Western States Water Council, to be appointed by the Governor of each State;

(iv) 1 representative with legal experience from each of the States of Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming, to serve on the Cooperative Committee; and

(v) 1 member from each of the impacted regional offices of the Bureau of Indian Affairs.

(4) MEETINGS.—The Cooperative Committee shall meet not less than once each year in a State represented on the Cooperative Committee.

(5) AVAILABILITY TO PUBLIC.—Each meeting of the Cooperative Committee shall be open and accessible to the public.

(6) NOTICE.—The Cooperative Committee shall publish in the Federal Register a notice of each meeting of the Cooperative Committee.

(7) DUTIES.—The Cooperative Committee shall develop and make recommendations to avoid or minimize conflicts between the operation of Corps of Engineers projects and State water rights and water laws, which may include recommendations for legislation or the promulgation of policy or regulations.

(8) STATUS UPDATES.—On an annual basis, the Secretary shall provide to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a written report that includes—

(A) a summary of the contents of meetings of the Cooperative Committee; and

(B) a description of any recommendations made by the Cooperative Committee under paragraph (5), including actions taken by the Secretary in response to such recommendations.

(c) COMMENT.—

(1) IN GENERAL.—Not later than 45 days following the conclusion of a meeting of the Cooperative Committee, the Secretary shall provide to members of the Cooperative Committee an opportunity to comment on the
SEC. 118. UPDATES TO CERTAIN WATER CONTROL MANUALS.

On request of the Governor of State in which the Governor declared a statewide drought emergency, the Secretary is authorized to update water control manuals for waters in the State, with priority given to those waters that accommodate a water supply project.

SEC. 119. SENSE OF CONGRESS ON OPERATIONS AND MAINTENANCE OF RECREATION USES.

It is the sense of Congress that the Secretary, as part of the annual work plan, should distribute amounts provided for the operations and maintenance of recreation sites of the Corps of Engineers so that each site receives an amount that is not less than 80 percent of the recreation fees generated by such sites.

SEC. 120. RELOCATION ASSISTANCE.

In the case of a water resources development project using nonstructural measures for the elevation or modification of a dwelling that is the primary residence of an owner-occupant and that requires the owner-occupant to relocate temporarily from the dwelling during the period of construction, the Secretary may include in the value of the land, easements, and rights-of-way required for the project or measure the documented reasonable living expenses, excluding food and personal transportation, incurred by the owner-occupant during the period of relocation.

SEC. 121. REPROGRAMMING LIMITS.

(a) OPERATIONS AND MAINTENANCE.—In reprogramming funds made available to the Secretary for operations and maintenance—

(1) the Secretary may not reprogram more than 25 percent of the base amount up to a limit of—

(A) $50,000,000 for a project, study, or activity with a base level over $1,000,000; and

(B) $250,000 for any project, study, or activity with a base level of $1,000,000 or less; and

(2) $250,000 may be reprogrammed for any continuing study or activity of the Secretary that did not receive an appropriation.

(b) INVESTIGATIONS.—In reprogramming funds made available to the Secretary for investigations—

(1) the Secretary may not reprogram more than $150,000 for a project, study, or activity with a base level over $100,000; and

(2) $150,000 may be reprogrammed for any continuing study or activity of the Secretary that did not receive an appropriation for existing obligations and concomitant administrative expenses.

SEC. 122. LEASE DURATIONS.

The Secretary shall issue guidance on, in the case of a leasing decision pursuant to section 2676 of title 10, United States Code, or section 4 of the Act of December 22, 1944 (commonly known as the “Flood Control Act of 1944”) (58 Stat. 868, chapter 665; 16 U.S.C. 460d), installment duty in excess of 25 years is appropriate.

SEC. 123. SENSE OF CONGRESS RELATING TO POST-DISASTER REPAIRS.

It is the sense of Congress that in permitting and funding post-disaster repairs, the Secretary should, to the maximum extent practicable, repair assets—

(1) in project design levels; or

(2) if the original project design is outdated, to above project design levels.

SEC. 124. PAYMENT OF PAY AND ALLOWANCES OF CERTAIN OFFICERS FROM APPROPRIATION FOR IMPROVEMENTS.

Section 36 of the Act of August 10, 1956 (70A Stat. 634, chapter 1041; 33 U.S.C. 583a), is amended—

(1) by striking “Regular officers of the Corps of Engineers, and reserve officers of the Army who are assigned to the Corps of Engineers” and inserting the following:

(a) IN GENERAL.—The personnel described in subsection (a) are assigned to:

(b) at the end the following:

(2) PERSONNEL DESCRIBED.—The personnel referred to in subsection (a) are the following:

(1) Regular officers of the Corps of Engineers of the Army.

(2) The following members of the Army who are assigned to the Corps of Engineers:

(A) Reserve component officers.

(B) Warrant officers (whether regular or reserve component).

(C) Enlisted members (whether regular or reserve component).

SEC. 125. REFORESTATION.

The Secretary is encouraged to consider measuring the impact on carbon sequestration in land forests in studies for water resources development projects for ecosystem restoration and flood and coastal storm risk management.

SEC. 126. USE OF OTHER FEDERAL FUNDS.

Section 2007 of the Water Resources Development Act of 2007 (33 U.S.C. 2222) is amended—

(1) in subsection (a), by adding at the end the following:

(2) by striking “water resources study or project” and inserting “water resources development study or project, including a study or project under a continuing authority program”.

SEC. 127. NATIONAL LOW-HEAD DAM INVENTORY.

The National Dam Safety Program Act (33 U.S.C. 3301(13)) is amended—

(1) in subsection (a), by adding at the end the following:

(a) DEFINITIONS.—In this section:

(1) IN GENERAL.—The term “inventory” means the national low-head dam inventory developed under subsection (b)(1).

(2) LOW-HEAD DAM.—The term “low-head dam” means a river-wide dam that generally spans a stream channel, blocking the waterway and creating a backup of water behind the dam.

(3) SECRETARY.—The term “Secretary” means the Secretary of the Army.

(b) INVENTORY.—

(1) IN GENERAL.—Not later than 18 months after the date of enactment of this section, the Secretary, in consultation with the heads of appropriate Federal and State agencies, shall—

(A) develop an inventory of low-head dams in the United States that includes—

(i) the location, ownership, description, current use, condition, height, and length of each low-head dam;

(ii) any information on public safety conditions at each low-head dam;

(iii) public safety information on the dangers of low-head dams;

(B) directory of financial and technical assistance resources available to reduce safety hazards and fish passage barriers at low-head dams; and

(C) any other relevant information concerning low-head dams; and

(B) submit the inventory to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives.

SEC. 128. TRANSFER OF EXCESS CREDIT.

Section 1020 of the Water Resources Reform and Development Act of 2013 (33 U.S.C. 2223d) is amended—

(1) in subsection (a), by adding at the end the following:

(2) in subsection (b), by adding at the end the following:

(3) STUDIES AND PROJECTS WITH MULTIPLE NONFEDERAL INTERESTS.—A credit described in paragraph (1) for a study or project with multiple non-Federal interests may be applied to the required non-Federal cost share for any or project of any of those non-Federal interests, subject to the condition that each non-Federal interest for the study or project for which the credit described in paragraph (1) is provided concurs in writing.

SEC. 129. CONDITIONAL APPROVAL OF EXCESS CREDIT.—The Secretary may approve credit in excess of the non-Federal share for a study or project prior to the identification of the authorized study or project in advance of execution of the feasibility cost sharing agreement or project partnership agreement for that authorized study or project.

SEC. 130. NATIONAL LEVEE REESTIMATION.

(a) DEFINITION OF REHABILITATION.—Section 104(b) of the Water Resources Development Act of 2007 (33 U.S.C. 3301(13)) is amended—

(1) by inserting “, or improvement” after “removal”; and

(2) by inserting “, increase resiliency to extreme weather events,” after “flood risk.”
(b) LEVER REHABILITATION ASSISTANCE PROGRAM.—Section 9005(h) of the Water Resources Development Act of 2007 (33 U.S.C. 3303(a)(h)) is amended—

(1) deleting paragraph (7), by striking "$10,000,000" and inserting "$25,000,000"; and

(2) by adding at the end the following:

"(11) PRIORITIZATION.—To the maximum extent practicable, the Secretary shall prioritize the provision of assistance under this subsection to economically disadvantaged communities (as defined pursuant to section 1008 of the Water Resources Development Act of 2020 (33 U.S.C. 2201 note; Public Law 116–260));".

SEC. 130. INLAND WATERWAYS REGIONAL DREDGE PILOT PROGRAM.

Section 1111 of the America’s Water Infrastructure Act of 2018 (33 U.S.C. 2326; Public Law 115–270) is amended by adding at the end the following:

"(e) INLAND WATERWAYS REGIONAL DREDGE PILOT PROGRAM.—

"(1) IN GENERAL.—The Secretary is authorized to establish a pilot program (referred to in this subsection as the ‘‘pilot program’’) to conduct a multiyear dredging demonstration program to award contracts with a duration of up to 5 years for projects on inland waterways.

"(2) PURPOSES.—The purposes of the pilot program shall be—

"(A) to increase the reliability, availability, and efficiency of federally-owned and federally-operated inland waterways projects;

"(B) to decrease operational risks across the inland waterways system; and

"(C) to provide cost-savings by combining work across multiple projects across different accounts of the Corps of Engineers.

"(3) DEMONSTRATION.—

"(A) IN GENERAL.—The Secretary shall, to the maximum extent practicable, award contracts for projects on inland waterways that combine work across the Construction and Operation and Maintenance accounts of the Corps of Engineers.

"(B) PROJECTS.—In awarding contracts under paragraph (A), the Secretary shall consider projects that—

"(i) improve navigation reliability on inland waterways that are accessible year-round;

"(ii) increase freight capacity on inland waterways; and

"(iii) have the potential to enhance the availability of containerized cargo on inland waterways.

"(4) SAVINGS CLAUSE.—Nothing in this subsection affects the responsibility of the Secretary with respect to the construction and operations and maintenance of projects on the inland waterways system.

"(5) REPORT TO CONGRESS.—Not later than 1 year after the date on which the first contract is awarded pursuant to the pilot program, the Secretary shall submit to the Committee on Transportation and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that evaluates, with respect to the pilot program and any contracts awarded under the pilot program—

"(A) cost effectiveness;

"(B) increased performance;

"(C) cost savings attributable to mobilization and demobilization of dredge equipment; and

"(D) response times to address navigational impediments.

"(6) SUNSET.—The authority of the Secretary to enter into contracts pursuant to the pilot program shall expire on the date that is 10 years after the date of enactment of this Act.''

SEC. 131. FUNDING TO PROCESS PERMITS.

Section 214(a)(2) of the Water Resources Development Act of 2000 (33 U.S.C. 2322(a)(2)) is amended—

(1) by striking ‘‘The Secretary’’ and inserting the following:

"(A) IN GENERAL.—The Secretary:

"(B) MULTIUSER MITIGATION BANK INSTRUMENT PROCESSING.—

"(i) IN GENERAL.—An activity carried out by the Secretary to expedite evaluation of a permit described in subparagraph (A) may include the evaluation of an instrument for a mitigation bank if—

"(I) the non-Federal public entity, public utility company, or gas or railroad carrier applying for the permit described in that subparagraph is the sponsor of the mitigation bank;

"(II) expediting evaluation of the instrument is necessary to expedite evaluation of the permit described in that subparagraph.

"(ii) USE OF CREDITS.—The use of credits generated by the mitigation bank established using expedited processing under clause (i) shall be limited to current and future projects and activities of the entity, company, or carrier in which the entity, company, or carrier owns, controls, or has an interest.

"(2) A PPLICATION.—The Secretary shall conduct a multiyear dredging demonstration program to award contracts with a duration of up to 5 years for projects on inland waterways.

"(A) IN GENERAL.—The Secretary shall conduct a multiyear dredging demonstration program to award contracts with a duration of up to 5 years for projects on inland waterways.

"(5) REPORT TO CONGRESS.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to the Committees on Environment and Public Works and Appropriations of the Senate and the Committees on Transportation and Infrastructure of the House of Representatives a report that identifies the ranking of projects in accordance with the criteria developed under subsection (a) to increase the development of hydroelectric power at existing hydroelectric water resources development projects of the Corps of Engineers; and

"(6) FUNDING TO PROCESS PERMITS.—

"(A) IN GENERAL.—For the fiscal year 2024, and biennially thereafter, in conjunction with the annual budget submission of the President under section 1105(a) of title 31, United States Code, the Secretary shall submit to Congress a report on—

"(B) INCLUSION IN GUIDANCE.—The Secretary shall include the criteria described under subsection (a) in the annual Civil Works Direct Program Development Policy Guidance of the Secretary.

"(c) REQUIREMENT.—For fiscal year 2024, and biennially thereafter, in conjunction with the annual budget submission of the President under section 1105(a) of title 31, United States Code, the Secretary shall submit to the Committees on Environment and Public Works and Appropriations of the Senate and the Committees on Transportation and Infrastructure of the House of Representatives a report that identifies the ranking of projects in accordance with the criteria developed under subsection (a) to increase the development of hydroelectric power at existing hydroelectric water resources development projects of the Corps of Engineers; and

"(d) NON-FEDERAL PROJECT IMPLEMENTATION FACILITY PROCESSING.—

"(A) IN GENERAL.—The Secretary shall—

"(B) IMPLEMENTATION OF POLICY.—The Secretary shall—

"(i) ensure that the policy described in subsection (a) is implemented nationwide in an efficient, consistent, and coordinated manner; and

"(ii) assess opportunities—

"(E) COST SHARING FOR TERRITORIES AND INDIAN TRIBES.

Section 1156 of the Water Resources Development Act of 1986 (33 U.S.C. 2318) is amended by adding at the end the following:

"(c) APPLICATION TO STUDIES.—

"(1) INCLUSION.—For purposes of this section, the term ‘study’ includes watershed assessments.

"(2) APPLICATION.—The Secretary shall apply the waiver amount described in subsection (a) to reduce only the non-Federal share of study costs.

SEC. 134. WATER SUPPLY CONSERVATION.

Section 1333a(h) of the Water Resources Development Act of 2014 (33 U.S.C. 2323b) is amended—

(1) in subsection (b)(1), by inserting “and to meet the requirements of subsection (b)” after “projects”;

(2) by redesigning subsections (b) and (c) as subsections (c) and (d), respectively; and

(3) by inserting after subsection (a) the following:

"(b) IMPLEMENTATION OF POLICY.—The Secretary shall—

"(1) ensure that the policy described in subsection (a) is implemented nationwide in an efficient, consistent, and coordinated manner; and

"(2) assess opportunities—

"(c) R EPORT TO CONGRESS.—For fiscal year 2024, and biennially thereafter, in conjunction with the annual budget submission of the President under section 1105(a) of title 31, United States Code, the Secretary shall submit to Congress a report on—

"(1) the criteria described in subsection (a) to increase the development of hydroelectric power at existing hydroelectric water resources development projects of the Corps of Engineers; and

"(2) to develop new hydroelectric power at nonpowered water resources development projects of the Corps of Engineers.''

SEC. 135. CRITERIA FOR FUNDING OPERATION AND MAINTENANCE OF SMALL, REHABILITATION, AND SUBSISTENCE HARBORS.

(a) DEFINITION OF ELIGIBLE PUBLIC RECREATION FACILITY.—In this section, the term ‘eligible public recreation facility’ means a facility at a reservoir operated by the Corps of Engineers that—

"(1) was constructed to enable public use of and access to the reservoir; and

"(2) requires repair, restoration, or rehabilitation action.

"(b) AUTHORIZATION.—During a period of low water at an eligible public recreation facility, the Secretary is authorized—

"(1) to accept and use materials, services, and funds from a non-Federal interest to repair, restore, or rehabilitate the facility; and

"(2) to reimburse the non-Federal interest for the Federal share of the materials, services, or funds.

"(c) REQUIREMENT.—The Secretary may not reimburse a non-Federal interest for the use of materials or services accepted under this section unless the materials or services—

"(1) meet the specifications of the Secretary; and

"(2) comply with all applicable laws and regulations that would apply if the materials and services were acquired by the Secretary.

(d) AGREEMENT.—Before the acceptance of materials, services, or funds under this section, the Secretary and the non-Federal interests shall enter into an agreement that—

(1) specifies that the non-Federal interest shall hold and save the United States free from any and all damages that arise from the use of materials or services of the non-Federal interest, except for damages due to the fault or negligence of the United States or its contractors;

(2) states that the non-Federal interest shall certify that the materials or services comply with all applicable laws and regulations under subsection (c); and

(3) includes any other term or condition required by the Secretary.

SEC. 139. DREDGED MATERIAL MANAGEMENT PLANS.

(a) IN GENERAL.—The Secretary shall prioritize implementation of section 125(c) of the Water Resources Development Act of 2020 (33 U.S.C. 2326h) at federally authorized harbors in the Great Lakes region.

(b) REQUIREMENTS.—Each dredged material management plan prepared by the Secretary under section 125(c) of the Water Resources Development Act of 2020 (33 U.S.C. 2326h) for a federally authorized harbor in the State of Ohio shall—

(1) include, in the baseline conditions, a prohibition on use of funding for open-lake disposal of dredged material consistent with section 105 of the Energy and Water Development and Related Agencies Appropriations Act, 2022 (Public Law 117–196; 136 Stat. 217), and

(2) maximize beneficial use of dredged material under the base plan and under section 204(d) of the Water Resources Development Act of 1992 (33 U.S.C. 2326d(d)).

(c) SAVINGS PROVISION.—This section does not—

(1) impose a prohibition on use of funding for open-lake disposal of dredged material; or

(2) require the development or implementation of a dredged material management plan in accordance with subsection (b) if use of funding for open-lake disposal is not otherwise prohibited by law.

SEC. 140. LEASE DEVIATIONS.

The Secretary shall fully implement the requirements of section 153 of the Water Resources Development Act of 2020 (134 Stat. 2658).

SEC. 141. COLUMBIA RIVER BASIN.

(a) STUDY OF FLOOD RISK MANAGEMENT ACTIVITIES.—

(1) IN GENERAL.—Using funds made available to carry out this section, the Secretary is authorized, at Federal expense, to carry out a study to determine the feasibility of a project for flood risk management and related purposes in the Columbia River basin and to report to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate with recommendations thereon, including recommendations for a project to potentially reduce the reliance on Canada for flood risk management in the basin.

(2) COORDINATION.—The Secretary shall carry out the activities described in this subsection in coordination with other Federal and State agencies and Indian Tribes.

(b) FUNDS FOR COLUMBIA RIVER TREATY OBLIGATIONS.—

(1) IN GENERAL.—The Secretary is authorized to expend funds appropriated for the purpose of satisfying United States obligations under the Columbia River Treaty to compensate Canada for operating Canadian storage on behalf of the United States under such Treaty.

(2) NOTIFICATION.—If the U.S. entity calls upon Canada to operate Canadian reservoir storage for flood risk management on behalf of the United States, which operation may incur costs to compensate Canada under the Columbia River Treaty—

(A) the Secretary shall submit to the Committees on Transportation and Infrastructure of the House of Representatives and the Committees on Environment and Public Works and Appropriations of the Senate, by not later than 30 days after the initiation of the call, a written notice of the action and a justification, including a description of the circumstances necessitating the call; and

(B) upon a determination by the United States of the amount of compensation that shall be paid to Canada, the Secretary shall submit to the Committees on Transportation and Infrastructure and Appropriations of the House of Representatives and the Committees on Environment and Public Works and Appropriations of the Senate, by not later than 30 days after the initiation of the call, a written notice specifying such amount and an explanation of how such amount was derived, which notification shall not delay or impede the flood risk management mission of the U.S. entity; and

(c) the Secretary shall make no payment to Canada for the call under the Columbia River Treaty until such time as funds appropriated for the purpose of compensating Canada under such Treaty are available.

(d) DEFINITIONS.—In this section:

(1) COLUMBIA RIVER BASIN.—The term "Columbia River basin" means the entire United States portion of the Columbia River watershed.

(2) COLUMBIA RIVER TREATY.—The term "Columbia River Treaty" means the Treaty relating to cooperative development of the water resources of the Columbia River Basin, signed at Washington January 17, 1961, and entered into force September 16, 1964.

(3) U.S. ENTITY.—The term "U.S. entity" means the entity designated by the United States under Article XIV of the Columbia River Treaty.

SEC. 142. CONTINUATION OF CONSTRUCTION.

(a) IN GENERAL.—The Secretary shall not include the amount of Federal obligations incurred and non-Federal contributions provided for an authorized water resources development project in the period beginning on the date of enactment of this Act and ending on September 30, 2025, for purposes of determining if the project exceeds the maximum cost of the project under section 902 of the Water Resources Development Act of 1986 (33 U.S.C. 2280).

(b) CONTINUATION OF CONSTRUCTION.—

(1) IN GENERAL.—The Secretary shall not solely on the basis of section 902 of the Water Resources Development Act of 1986 (33 U.S.C. 2280)—

(A) defer the initiation or continuation of a water resources development project during the period described in subsection (a); or

(B) terminate a contract for design or construction of a water resources development project entered into during the period described in subsection (a) after expiration of that period.

(2) RESUMPTION OF CONSTRUCTION.—The Secretary may resume construction of any water resources development project for which construction was deferred on the basis of section 902 of the Water Resources Development Act of 1986 (33 U.S.C. 2280) during the period beginning on October 1, 2021, and ending on the date of enactment of this Act.

(c) STATUTORY CONSTRUCTION.—Nothing in this section waives the obligation of the Secretary to submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a post-authorization change report recommending an increase in the authorized cost of the project otherwise would exceed the maximum cost of the project under section 902 of the Water Resources Development Act of 1986 (33 U.S.C. 2280).

TITLE II—STUDIES AND REPORTS

SEC. 201. AUTHORIZATION OF FEASIBILITY STUDIES.

(a) IN GENERAL.—The Secretary is authorized to investigate the feasibility of the following projects:

(1) Project for ecosystem restoration, Mill Creek, Walls Walla River, Oregon.

(2) Project for flood risk management and ecosystem restoration, Tittabawassee River, Chippewa River, Pine River, and Tobacco River, Michigan.

(3) Project for flood risk management, Southeast Michigan.

(4) Project for flood risk management, McMillen Dam, Wisconsin.

(5) Project for flood risk management, Ellictic City and Howard County, Maryland.

(7) Project for flood risk management and water supply, Fox-Wolf Basin, Wisconsin.

(8) Project for flood risk management and ecosystem restoration, Tittabawassee River, Michigan.

(9) Project for flood and coastal storm risk management, Cape Fear River Basin, North Carolina.

(10) Project for flood risk management, Lower Clear Creek and Dickinson Bayou, Texas.

(11) Project for flood risk management and ecosystem restoration, the Resacas, Hidalgo and Cameron Counties, Texas.

(12) Project for flood risk management, including levee improvement, Papilion Creek, Nebraska.

(13) Project for flood risk management, Offutt Ditch Pump Station, Nebraska.

(15) Project for coastal storm risk management, Waikiki Beach, Hawaii.

(16) Project for ecosystem restoration and coastal storm risk management, Cumberland and Sea Islands, Georgia.

(17) Project for flood risk management, Wailupe Stream watershed, Hawaii.

(18) Project for flood and coastal storm risk management, Hawaii County, Hawaii.

(19) Project for coastal storm risk management, Maui County, Hawaii.

(20) Project for flood and coastal storm risk management, Sarpy County, Nebraska.

(21) Project for aquatic ecosystem restoration, including habitat for endangered salmon, Columbia River Basin.

(22) Project for ecosystem restoration, flood risk management, and recreation, Newport, Kentucky.

(23) Project for flood risk management, including riverbank stabilization, Columbus, Kentucky.

(24) Project for flood risk management and water supply, Jenkins, Kentucky.

(26) Project for flood risk management, coastal storm risk management, navigation, ecosystem restoration, and water supply, Biloxi, Mississippi.
(28) Project for ecosystem restoration and water supply, Great Salt Lake, Utah.

(b) PROJECT MODIFICATIONS.—The Secretary is authorized to identify the feasibility of the following modifications to the following projects:

(1) Modifications to the project for navigation, South Haven Harbor, Michigan, for turnarounds.

(2) Modifications to the project for navigation, Rollinson Channel and channel from Hatteras Inlet to Hatteras, North Carolina, authorized by section 101 of the River and Harbor Act of 1962 (76 Stat. 1174), to incorporate the ocean bar.

(3) Modifications to the project for flood control, Straight Slough, Craighead, Poinsett, and Cross Counties, Arkansas.

(4) Modifications to the project for flood risk management, Cedar River, Cedar Rapids, Iowa, authorized by section 7002(2) of the Water Resources Reform and Development Act of 2014 (128 Stat. 1366), consistent with the Channel, Iowa, Cedar River Flood Control System Master Plan.

(5) Modifications to the project for navigation, Savannah Harbor, Georgia, without evaluating the deepening.

(6) Modifications to the project for navigation, Honolulu Harbor, Hawaii, for navigation improvements and coastal storm risk management.

(7) Modifications to the project for navigation, Port of Ogdensburg, New York, including deepening.

(8) Modifications to the Huntington Local Protection Project, Huntington, West Virginia.

SEC. 292. SPECIAL RULES.

(a) The studies authorized by paragraphs (12) and (13) of section 201(a) shall be considered a continuation of the study that resulted in the Chief’s Report for the project for Papillion Creek and Tributary Lakes, Nebraska, signed January 24, 2022.

(b) The study authorized by section 201(a)(17) shall be considered a resumption of the study that resulted in the Chief’s Report for the project for Cape Buttes Dam, Arizona.

(c) In carrying out the study authorized by section 201(a)(21), the Secretary shall only formulate alternatives consistent with the authorized purposes of existing Federal projects while also maintaining the benefits of such projects.

(d) The study authorized by section 201(a)(25), the Secretary shall study the South Shore of Long Island, New York, as a whole system, including inlets that are Federal channels.

(e) The studies authorized by section 201(b) shall be considered new phase investigations afforded the same treatment as a general reevaluation.

SEC. 293. EXPEDITED COMPLETION OF STUDIES.

(a) FEASIBILITY REPORTS.—The Secretary shall expedite the completion of a feasibility study for each of the following projects, and if the Secretary determines that the project is justified in a completed report, may proceed directly to preconstruction planning, engineering, and design of the project:

(2) Project for coastal storm risk management, Charleston Peninsula, South Carolina.

(3) Project for flood and coastal storm risk management and ecosystem restoration, Boston Harbor Islands, Lynn, Revere, Saugus, Lynn, Maiden, and Everett, Massachusetts.

(4) Project for flood risk management, De Soto County, Mississippi.

(5) Project for storm risk management, Chicago shoreline, Illinois.

(6) Project for flood risk management, Cave Buttes Dam, Arizona.

(7) Project for coastal storm risk management, Chelsea, Massachusetts, authorized by a study resolution of the Committee on Public Works of the Senate dated September 12, 1969.

(8) Project for ecosystem restoration, Herringer River Estuary, Barnstable County, Massachusetts, authorized by a study resolution of the Committee on Transportation and Infrastructure of the House of Representatives dated July 23, 1997.

(9) Project for coastal storm risk management, ecosystem restoration, and navigation, Nauset Barrier Beach and inlet system, Chatham, Massachusetts, authorized by a study resolution of the Committee on Public Works of the Senate dated September 12, 1969.

(12) Project for coastal storm risk management, Sea Bright to Manasquan, New Jersey.

(13) Project for coastal storm risk management, Haritan Bay and Sandy Hook Bay, New Jersey.

(14) Project for coastal storm risk management, St. Tammany Parish, Louisiana.

(17) Project for ecosystem restoration, Lake Okeechobee, Florida.

(18) Project for ecosystem restoration, Westport Inlet, Connecticut.

(19) Modifications to the project for navigation, Hilo Harbor, Hawaii.

(20) Project for flood risk management, Kanawha River Basin, West Virginia, Virginia, North Carolina.

(21) Modifications to the project for navigation, Anake Bay, Alaska.

(b) POST-REAUTHORIZATION CHANGE REPORTS.—The Secretary shall expedite completion of a post-authorization change report for the following projects:

(2) Project for coastal storm risk management, Surf City and North Topsail Beach, North Carolina, authorized by section 7002(3) of the Water Resources Reform and Development Act of 2014 (118 Stat. 1367).

(3) Anchorage F modifications to the project for navigation, Norfolk Harbor and Channels, Virginia, authorized by section 201 of the Water Resources Development Act of 1986 (100 Stat. 4990) and modified by section 1403(a) of the Water Resources Development Act of 2018 (132 Stat. 3849).

(5) WATERSHED AND RIVER BASIN ASSESSMENTS.—The Secretary shall expedite the completion of the following assessments under section 728 of the Water Resources Development Act of 1986 (33 U.S.C. 2267a):

(2) Ouachita-Black Rivers, Arkansas and Louisiana.

(3) Project for watershed assessment, Hawaii, Arizona.

(4) DISPOSITION STUDY.—The Secretary shall expedite the completion of the disposition study for the Los Angeles County Drainage Area under section 216 of the Flood Control Act of 1970 (33 U.S.C. 548a).

(5) ADDITIONAL DIRECTION.—The post-authorization change report for the project described in subsection (b)(3) shall be completed not later than December 31, 2023.

SEC. 294. STUDIES FOR PERIODIC NOURISHMENT, ECOLOGICAL RESTORATION, AND NAVIGATION.

(a) IN GENERAL.—Section 156 of the Water Resources Development Act of 1976 (42 U.S.C. 20244–55) is amended—

(1) in subsection (b), by striking “15” and inserting “20”;

(2) by striking “10”, and inserting “12”;

(3) by striking “6 years” and inserting “12 years”.

(b) IN GENERAL.—The term “NEPA categorical exclusion” means a detailed written statement required under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

(c) IN GENERAL.—The term “environmental assessment” has the meaning given the term in section 1508.1 of title 40, Code of Federal Regulations (or a successor regulation).

(d) IN GENERAL.—The term “environmental impact statement” means a detailed written statement required under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

(e) IN GENERAL.—The term “categorical exclusion” means a detailed written statement required under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

(f) IN GENERAL.—The term “no significant impact” has the meaning given the term in section 1508.1 of title 40, Code of Federal Regulations (or a successor regulation).

SEC. 295. NEPA REPORTING.

(a) DEFINITIONS.—In this section:

(1) NEPA PROCESS.—The term “NEPA process” means the term “categorical exclusion” has the meaning given the term in section 1508.1 of title 40, Code of Federal Regulations (or a successor regulation).

(2) ENVIRONMENTAL ASSESSMENT.—The term “environmental assessment” has the meaning given in section 1508.1 of title 40, Code of Federal Regulations (or a successor regulation).

(3) ENVIRONMENTAL IMPACT STATEMENT.—The term “environmental impact statement” means a detailed written statement required under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

(4) FINDING OF NO SIGNIFICANT IMPACT.—The term “finding of no significant impact” has the meaning given the term in section 1508.1 of title 40, Code of Federal Regulations (or a successor regulation).

(5) NEPA PROCESS.—

(A) IN GENERAL.—The term “NEPA process” has the meaning given the term in section 1508.1 of title 40, Code of Federal Regulations (or a successor regulation).

(B) PERIOD.—For purposes of subparagraph (A), the NEPA process begins on the date on which the Secretary initiates a project study; and

(ii) ends on the date on which the Secretary issues, with respect to the project study:

(I) a record of decision, including, if necessary, a revised record of decision;
SEC. 207. GAO STUDY ON PROJECT DISTRIBUTION.
(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall conduct an analysis of the geographic distribution of annual and supplemental funding provided for water resources development projects carried out by the Secretary over the previous 10 fiscal years and the factors that have led to that distribution.

(b) REPORT.—The Comptroller General of the United States shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the findings of the analysis under subsection (a).

SEC. 208. GAO AUDIT OF JOINT COSTS FOR OPERATIONS AND MAINTENANCE.
(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Comptroller General of the United States shall conduct a review of the practices of the Corps of Engineers with respect to the determination of joint costs associated with operations and maintenance of reservoirs owned and operated by the Corps for which an environmental assessment is required pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(b) REPORT.—The Comptroller General of the United States shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report updating the findings of the report on the economic benefits of recreational boating in the Great Lakes basin prepared under section 455(c) of the Water Resources Development Act of 1999 (42 U.S.C. 2282d).

SEC. 211. CENTRAL AND SOUTHERN FLORIDA.
(a) EVALUATION AND REPORT.—
(1) EVALUATION.—On request and at the expense of the St. Johns River Water Management District, the Secretary shall evaluate the effects of authorizing the southernmost 3.5-mile reach of the L–73 levee, Section 2, Osceola County, Florida, on the functioning of the project for flood control and other purposes, Upper St. Johns River Basin, Central and Southern Florida, authorized by section 203 of the Flood Control Act of 1948 (62 Stat. 1176).

(2) REPORT.—In carrying out the evaluation under paragraph (1), the Secretary shall—
(A) prepare a report that includes the results of the evaluation, including—
(i) the advisability of deauthorizing the levee described in that paragraph; and
(ii) any recommendations that should be placed on a deauthorization to protect the interests of the United States and the public; and
(B) submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives the report under subparagraph (A) as part of the annual report submitted to Congress pursuant to section 7001 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2230).

(b) COMPREHENSIVE CENTRAL AND SOUTHERN FLORIDA STUDY.—
(1) IN GENERAL.—The Secretary is authorized to carry out a feasibility study for resiliency and comprehensive improvements or modifications to existing water resources development projects in central and southern Florida for the purposes of flood risk management, water supply, ecosystem restoration (including preventing saltwater intrusion), recreation, and related purposes, for the purposes described in that paragraph.

(ii) to recommend cost-effective structural and nonstructural projects for implementation that provide sympathetic approaches for the purposes described in that paragraph; and
(B) shall ensure the study and any projects recommended thereunder do not interfere with the efforts undertaken to carry out the Comprehensive Everglades Restoration Plan pursuant to section 601 of the Water Resources Development Act of 2000 (114 Stat. 2960; 121 Stat. 1268; 132 Stat. 3786).

SEC. 212. INVESTMENTS FOR RECREATION AREAS.
(a) FINDINGS.—Congress finds the following:
(1) The Corps of Engineers operates more recreation areas than any other Federal or State agency, apart from the Department of the Interior,
(2) Nationally, visitors to nearly 600 dams and lakes, managed by the Corps of Engineers, spend an estimated $12,000,000,000 per year and support 500,000 jobs.

(3) In the Appalachian region, by the Corps of Engineers are economic drivers that support rural communities.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Corps of Engineers should use all available authorities to promote and enhance development and recreational opportunities at lakes that are part of authorized flood control projects under the administrative jurisdiction of the Corps of Engineers.

(c) REPORT.—Not later than 180 days after the date of enactment of this Act, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on investments needed to support recreational activities that are part of authorized water resources development projects under the administrative jurisdiction of the Corps of Engineers.

(d) REQUIREMENTS.—The report under subsection (c) shall include—

(1) a list of deferred maintenance projects, including maintenance projects relating to recreational facilities, sites, and associated access roads;

(2) a plan to fund the projects described in paragraph (1) over the 5-year period following the date of enactment of this Act;

(3) a description of efforts made by the Corps of Engineers to coordinate investments in recreational facilities, sites, and associated access roads with—

(A) State and local governments; or

(B) private interests;

(4) an assessment of whether the modification of Federal contracting requirements could accelerate the availability of funds for the projects described in paragraph (1).

SEC. 214. WESTERN INFRASTRUCTURE STUDY.

(a) DEFINITIONS OF NATURAL FEATURE AND NATURE-BASED FEATURE.—In this section, the terms “natural feature” and “nature-based feature” have the meanings given those terms in section 118(a) of the WIIN Act (33 U.S.C. 2289a(a)).

(b) WESTERN INFRASTRUCTURE STUDY.—The Secretary shall conduct a comprehensive study (referred to in this section as the “study”) to evaluate the effectiveness of carrying out additions, modifications, and eliminations to natural features or nature-based features at or upstream of reservoirs for the purposes of—

(1) maintaining operations in response to changing hydrological and climatic conditions;

(2) mitigating the risk of drought or floods, including the loss of storage capacity due to sediment accumulation;

(3) increasing water supply; or

(4) aquatic ecosystem restoration.

(c) DESCRIPTION.—In conducting the study, the Secretary shall include all reservoirs owned and operated by the Secretary and reservoirs for which the Secretary has flood control responsibilities under section 7 of the Act of December 22, 1944 (commonly known as the “Flood Control Act of 1944”) (58 Stat. 690, chapter 665; 33 U.S.C. 709), in the South Pacific Division of the Corps of Engineers.

(d) CONSULTATION AND USE OF EXISTING DATA.—

(1) CONSULTATION.—In conducting the study, the Secretary shall consult with applicable—

(A) Federal, State, and local agencies;

(B) Indian Tribes;

(C) water users; and

(D) other stakeholders, as determined appropriate by the Secretary.

(2) USE OF EXISTING DATA AND PRIOR STUDIES.—To the maximum extent practicable and where appropriate, the Secretary may—

(A) use existing data provided to the Secretary by entities described in paragraph (1); and

(B) incorporate—

(i) relevant information from prior studies and projects carried out by the Secretary; and

(ii) the latest technical data and scientific approaches with respect to hydrological and climatic conditions.

(e) REPORT.—Not later than 3 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that describes—

(1) the results of the study; and

(2) any recommendations on site-specific areas where additional study is recommended by the Secretary.

(f) SAVINGS PROVISION.—Nothing in this section shall prevent the Secretary from carrying out any other study or research under the administrative jurisdiction of the Corps of Engineers.

SEC. 215. UPPER MISSISSIPPI RIVER AND ILLINOIS WATERWAY SYSTEM

(a) W I N D O W S T R E A M PROJECTS.—Section 8004(g) of the Water Resources Development Act of 2007 (33 U.S.C. 652 note; Public Law 110-114) is amended—

(1) by redesignating paragraph (2) as paragraph (3); and

(2) by inserting after paragraph (1) the following:

“(2) REPORT ON WATER LEVEL MANAGEMENT.—Not later than 1 year after the date of completion of the comprehensive plan for Mississippi River water level management under section 8004(g) of the Water Resources Development Act of 1974 (42 U.S.C. 1962a-16), the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives an implementation report on opportunities identified in the comprehensive plan to expand the use of water level management on the Illinois Waterway System for the purpose of ecosystem restoration.”

(b)excised

SEC. 216. WEST VIRGINIA HYDROPOWER.

(a) I N GENERAL.—For water resources development projects for non-Federal hydropower or energy storage development in accordance with section 14 of the Act of March 3, 1899 (com­monly known as the “Rivers and Harbors Act of 1899”) (30 Stat. 1152, chapter 425; 33 U.S.C. 486), the Secretary shall—

(1) to evaluate the feasibility of modifications to such projects for the purposes of adding Federal hydropower or energy storage development; and

(2) to grant approval for the use of such projects for non-Federal hydropower or energy storage development in accordance with section 14 of the Act of March 3, 1899 (commonly known as the “Rivers and Harbors Act of 1899”) (30 Stat. 1152, chapter 425; 33 U.S.C. 486).

(b) PROJECTS DESCRIBED.—The projects referred to in subsection (a) are the following:

(1) Sutton Dam, Braxton County, West Virginia, authorized by section 5 of the Act of June 22, 1936 (49 Stat. 1586, chapter 158);

(2) Hildebrand Lock and Dam, Monongahela County, West Virginia, authorized by section 5 of the Act of June 22, 1936 (49 Stat. 1586, chapter 158);

(3) Bluestone Lake, Summers County, West Virginia, authorized by section 5 of the Act of June 22, 1936 (49 Stat. 1586, chapter 158);

(4) R.D. Bailey Dam, Wyoming County, West Virginia, authorized by section 203 of the Flood Control Act of 1962 (76 Stat. 1188); and

SEC. 217. RECREATION AND ECONOMIC DEVELOPMENT AT CORPS FACILITIES IN APPALACHIA.

(a) I N GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall prepare and submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report to implement the recreational and economic development opportunities identified by the Secretary in the report prepared under section 206 of the Water Resources Development Act of 2020 (134 Stat. 2680) at Corps of Engineers facilities located within a distressed or at-risk Champlain Valley (subsection (a)(1) of that section) in Appalachia.

(b) CONSIDERATIONS.—In preparing the plan under subsection (a), the Secretary shall consider options for Federal funding, partnership, and opportunities at State, and local governments, nonprofit organizations, and commercial businesses.

SEC. 218. AUTOMATED FEE MACHINES.

For the purpose of mitigating adverse impacts to public access to outdoor recreation, to the maximum extent practicable, the Secretary shall consider alternatives to the use of automated fee machines for the collection of fees for the use of developed recreation sites and facilities in West Virginia.

SEC. 219. LAKE CHAMPLAIN CANAL, VERMONT AND NEW YORK.

Section 514 of the Water Resources Development Act of 2007 (121 Stat. 1255) is amended by adding at the end the following:

“(c) CLARIFICATIONS.—

“(1) IN GENERAL.—At the request of the non-Federal interest for the study of the Lake Champlain Canal Aquatic Invasive Species Barrier carried out under section 514 of the Water Resources Development Act of 2009 (114 Stat. 2671; 121 Stat. 1150; 134 Stat. 2680), the Secretary shall prepare a report that identifies the portion of that study that satisfy the feasibility determination under subsection (a).

“(2) DISPERAL BARRIERS.—A dispersal barrier constructed, maintained, and operated under this section may include—

“(A) physical hydrologic separation;

“(B) nonstructural measures;

“(C) deployment of technologies;

“(D) buffer zones; or

“(E) any combination of the approaches described in subparagraphs (A) through (D).”

SEC. 220. REPORT ON CONCESSIONAIRE PRACTICES.

(a) I N GENERAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on concessionaire lease practices of the Corps of Engineers.

(b) INCLUSIONS.—The report under subsection (a) shall include, at a minimum—

(1) an assessment of the reasonableness of the formula of the Corps of Engineers for calculating concessionaire rental rates, taking into account the operating margins for sales of food and fuel; and

(2) the process for assessing administrative fees to concessionaires across districts of the Corps of Engineers.
TITLE III—DEAUTHORIZATIONS, MODIFICATIONS, AND RELATED PROVISIONS

SEC. 301. ADDITIONAL ASSISTANCE FOR CRITICAL PROJECTS.

(a) ATLANTA, GEORGIA.—Section 219(e)(5) of the Water Resources Development Act of 1992 (106 Stat. 4835; 110 Stat. 3757; 113 Stat. 334) is amended by striking "$25,000,000" and inserting "$52,000,000".

(b) EASTERN SHORE AND SOUTHWEST VIRGINIA.—Section 219(f)(10A) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1255) is amended by striking "$25,000,000" and inserting "$52,000,000".

(c) LAKES MARION AND MOULTRIE, SOUTH CAROLINA.—Section 219(f)(25) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1255) is amended by striking "$10,000,000" and inserting "$15,500,000".

(d) HORKY COUNTY, SOUTH CAROLINA.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1256) is amended by adding at the end the following:

"(274) HORKY COUNTY, SOUTH CAROLINA.—$19,000,000 for environmental infrastructure, including stormwater outfalls, Horry County, South Carolina.".

(e) LANE COUNTY, OREGON.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1256) is amended by striking "$10,000,000" and inserting "$20,000,000" for environmental infrastructure, Lane County, Oregon.

(f) ALAMEDA COUNTY, CALIFORNIA.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1256) is amended by adding at the end the following:

"(287) TEMECULA CITY, CALIFORNIA.—$18,000,000 for environmental infrastructure, Temecula City, California.".

(g) YOLO COUNTY, CALIFORNIA.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1256) is amended by adding at the end the following:

"(288) CLINTON, MISSISSIPPI.—$13,600,000 for environmental infrastructure, including stormwater management, drainage systems, and water quality enhancement, Clinton, Mississippi.".

(h) OXFORD, MISSISSIPPI.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1256) is amended by adding at the end the following:

"(289) OXFORD, MISSISSIPPI.—$10,000,000 for environmental infrastructure, including stormwater management, drainage systems, and water quality enhancement, Oxford, Mississippi.".

(i) MADISON COUNTY, MISSISSIPPI.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1256) is amended by adding at the end the following:

"(290) MADISON COUNTY, MISSISSIPPI.—$10,000,000 for environmental infrastructure, including stormwater management, drainage systems, and water quality enhancement, Madison County, Mississippi.".

SEC. 302. ADDITIONAL ASSISTANCE FOR THE RIVERS AND HARBORS PROGRAM.

(1) TANK COUNTY, MISSISSIPPI.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1256) is amended by adding at the end the following:

"(283) TANK COUNTY, MISSISSIPPI.—$10,000,000 for environmental infrastructure, including stormwater management, drainage systems, and water quality enhancement, Rankin County, Mississippi.".

(2) MERIDIAN, MISSISSIPPI.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1256) is amended by adding at the end the following:

"(284) MERIDIAN, MISSISSIPPI.—$20,000,000 for wastewater infrastructure, including stormwater management, drainage systems, and water quality enhancement, Meridian, Mississippi.".

(3) DELAWARE.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1256) is amended by adding at the end the following:

"(285) DELAWARE.—$50,000,000 for sewer, stormwater system improvements, storage treatment, environmental restoration, and related water infrastructure, Delaware.".

(4) QUEENS, NEW YORK.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1256) is amended by adding at the end the following:

"(286) QUEENS, NEW YORK.—$20,000,000 for sewer, stormwater system improvements, and related water infrastructure, Queens, New York.".

(5) GEORGIA.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1256) is amended by adding at the end the following:

"(287) GEORGIA.—$75,000,000 for environmental infrastructure, Baldwin County, Barrow County, Floyd County, Haralson County, Jones County, Gilmer County, Towns County, Warren County, Lamar County, Lowndes County, Troup County, Madison County, Toombs County, Dade County, Bulloch County, Gordon County, Walker County, Dooley County, Butts County, Clarke County, Crisp County, Bibb County, Baker County, Barrow County, Oglethorpe County, Peach County, Brooks County, Carroll County, Worth County, Jenkins County, Wheeler County, Randolph County, Wilcox County, Stewart County, Telfair County, Clifton County, Hancock County, Ben Hill County, Jeff Davis County, Chattooga County, Baldwin County, Brantley County, Charlton County, Tattnall County, Emanuel County, Mitchell County, Turner County, Bacon County, Terrell County, Troup County, Ware County, Brooks County, Telfair County, Clinch County, Screven County, Habersham County, Lowndes County, Talbot County, Laurens County, Richmond County, Chattahoochee County, Dodge County, Jefferson County, Appling County, Taylor County, Wayne County, Bibb County, Montezuma County, Lanier County, Irwin County, Toombs County, Stephens County, Wilkinson County, Murray County, Wilkes County, Elbert County, McDuffie County, Heard County, Marion County, Talbot County, Columbia County, Montgomery County, Echols County, Pierce County, Richmond County, Chattahoochee County, Screven County, Habersham County, Screven County, Burke County, Jeff Davis County, Tattnall County, Tift County, Polk County, Glascock County, Grady County, Jasper County,
(y) MARYLAND.—Section 219(f) of the Water Resources Development Act of 1992 (106 Stat. 4835; 113 Stat. 334; 121 Stat. 1288) (as amended by subsection (x)) is amended by adding at the end the following:

"(2) The Folly Beach, South Carolina, coastal storm risk management project, authorized by section 203 of the Flood Control Act of 1962 (76 Stat. 1182) and modified by section 401(7) of the Water Resources Development Act of 2020 (134 Stat. 2741)."

(a) IN GENERAL.—Section 571 of the Water Resources Development Act of 1999 (113 Stat. 371; 121 Stat. 1257; 124 Stat. 2719) is amended—

(1) in the section heading, by striking "CENTRAL" and inserting "NORTHERN"; and

(2) by striking subsection (a) and inserting the following:

"(a) DEFINITION OF NORTHERN VIRGINIA.—In this section, the term 'northern Virginia' means the counties of Arlington, Fairfax, Fauquier, Fredericksburg, Loudon, Prince William, and Prince George, and any other provision of Federal law.

(b) CLERICAL AMENDMENT.—The table of contents contained in section 1(b) of the Water Resources Development Act of 1992 (106 Stat. 4799) is amended by striking the item relating to section 304 and inserting the following:

"Sec. 304. Southern Virginia."
...by striking the period at the end and inserting "; and"; and
(C) by adding at the end the following:

(2) the following modifications to studies and projects are authorized:

(1) MISSISSIPPI RIVER GULF OUTLET, LOUISIANA.—The Federal share of the cost of the project, from the non-Federal interest, shall be 90 percent.

(2) LOWER MISSISSIPPI RIVER COMPREHENSIVE MANAGEMENT STUDY.—Section 213 of the Water Resources Development Act of 2020 (134 Stat. 2742) is amended by striking "80 percent" and inserting "90 percent".

(3) SOUTHERN MISSISSIPPI RIVER INTERHARBOR PROJECT, BRANDON ROAD, WILL COUNTY, ILLINOIS.—Section 402(a)(1) of the Water Resources Development Act of 2020 (134 Stat. 2742) is amended by striking the period at the end and inserting "90 percent".

(4) PORT OF NOME, ALASKA.—

(A) IN GENERAL.—The Secretary shall carry out the project for navigation, Port of Nome, Alaska, authorized by section 401(1) of the Water Resources Development Act of 2020 (134 Stat. 2733), by sharing reduced federal and non-Federal cost share agreements with the State of Alaska.

(B) LAND, EASEMENTS, AND RIGHTS-OF-WAY.—For the project described in subparagraph (A), the Secretary shall include in the cost of the project, and credit toward the federal share of that cost, the value of land, easements, and rights-of-way provided by the non-Federal interest for the project, including the value of easements, and rights-of-way of the non-Federal project that are owned or held by the non-Federal interest or other non-Federal public body.

(C) ADDITIONAL ELIGIBILITY.—Unless otherwise determined by annual appropriation for the project, the Secretary shall be eligible for additional funding appropriated by that Act in the Construction account of the Corps of Engineers.

(1) without a new investment decision; and

(2) on the same terms as a project that is not the project described in paragraph (A).

(7) SOUTH SHORE STATEN ISLAND, NEW YORK.—(A) The Federal share of any portion of the cost of design and construct the project for coastal storm risk management, South Shore Staten Island, New York, authorized by section 401(3) of the Water Resources Development Act of 2020 (134 Stat. 2742), shall be 90 percent.

(b) AGREEMENTS.—

(1) STUDIES AND PROJECTS WITH MULTIPLE NON-FEDERAL PARTNERS.—When the Federal interest requests the applicable non-Federal interests for the project described in section 402(a) of the Water Resources Development Act of 2020 (134 Stat. 2742), the Secretary shall, in subsection (j) of section 213 of that Act (134 Stat. 2597), require those non-Federal interests to be jointly and severally liable for all non-Federal obligations in the project partnership agreement for the project or in the feasibility cost share agreements for the studies.

(2) SOUTH SAN FRANCISCO BAY SHORELINE, CALIFORNIA.—

(A) IN GENERAL.—Except for funds required for a betterment or for a locally preferred plan, the Secretary shall not approve projects for flood risk management, ecosystem restoration, and recreation, South San Francisco Bay Shoreline, California, unless the funds are provided by the State of California, unless the funds are appropriated under the heading "CONSTRUCTION" under the heading "CORPS OF ENGINEERS—CIVIL—DEPARTMENT OF THE INTERIOR—CONSTRUCTION" of division B of the Bipartisan Budget Act of 2018 (Public Law 115–122; 132 Stat. 76).
not be subject to a new investment determination. 

(ii) CYCLES.—A cycle shall be considered continuing construction.

(c) GREAT LAKES EMERGENCY SHORE RESTORATION.—

(1) IN GENERAL.—The Secretary shall—

(A) authorize coastal protection measures for a project located in the State of Delaware pursuant to section 5(a) of the Act of August 18, 1941 (commonly known as the “Flood Control Act of 1941”) (33 Stat. 650, chapter 377, 33 U.S.C. 701n(a)), if—

(A) the damage prevents the adequate functioning of the structure, project, or beach; and

(B) the damage is caused by erosion.

(2) PROGRAMS.—The Secretary shall—

(A) authorize a “Program” (as defined in paragraph (1)) for—

(A) reprogramming additional projects under this section to economically disadvantaged communities as authorized under section 133 of the Water Resources Development Act of 1996 (110 Stat. 3759; 128 U.S.C. 2201 note; Public Law 116–260) is amended by inserting at the end;'' (f) PRIORITIZATION.—To the maximum extent practicable, the Secretary shall prioritize the provision of assistance under this section to economically disadvantaged communities; and

SEC. 312. PILOT PROGRAM FOR CERTAIN COMMUNITIES.

(a) PROGRAMS ON THE FORMULATION OF CORPS OF ENGINEERS PROJECTS IN RURAL COMMUNITIES AND ECONOMICALLY DISADVANTAGED COMMUNITIES.—Section 118 of the Water Resources Development Act of 2020 (33 U.S.C. 2201 note; Public Law 116–260) is amended—

(1) in subsection (b)(2)(C), by striking “10 years” and inserting “20 years”.

(b) AUTHORIZATION.—The Secretary may—

(1) by striking “this subsection” and inserting “this section”; and

(2) by inserting “10 years” and inserting “20 years”.

SEC. 313. REHABILITATION OF EXISTING LEVIES.

Section 207 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2207 note; Public Law 113–121) is amended—

(1) by striking “this subsection” and inserting “this section”;

(2) by striking “10 years” and inserting “20 years”.

SEC. 314. PROGRAMS ON THE FORMULATION OF CORPS OF ENGINEERS PROJECTS IN RURAL COMMUNITIES

(a) PROGRAMS.—The Secretary shall—

(1) by striking “such projects” and inserting “such projects (A) in the waterways of Delaware and Maryland authorized pursuant to section 5(a) of the Act of August 18, 1941 (commonly known as the “Flood Control Act of 1941”) (33 Stat. 650, chapter 377, 33 U.S.C. 701n(a)), if—

(A) the damage prevents the adequate functioning of the structure, project, or beach; and

(B) the damage is caused by erosion.

SEC. 315. EVALUATION OF HYDROLOGIC CHANGES IN SOURIS RIVER BASIN.

The Secretary is authorized to evaluate hydrologic changes affecting the agreement entitled “Agreement Between the Government of Canada and the United States of America for Water Supply and Flood Control in the Souris River Basin,” Public Law 98–299.

SEC. 316. MEMORANDUM OF UNDERSTANDING RELATING TO BALDHILL DAM.

The Secretary may enter into a memorandum of understanding with the non-Federal interest the Red River Valley Water Supply Project to accommodate flows for downstream users through Baldhill Dam, North Dakota.

SEC. 317. UPPER MISSISSIPPI RIVER RESTORATION PROGRAM.

Section 110(e)(3) of the Water Resources Development Act of 1986 (33 U.S.C. 652(e)(3)) is amended by striking “$128,400,000, with the cost shared in accordance with section 221(a)(4)(C)(i) of the Flood Control Act of 1941 (33 U.S.C. 221(a)(4)(C)(i)) after the date of enactment of this Act for the project for coastal storm risk management at an estimated cost of $75,000,000” and inserting “$128,400,000, with the cost shared in accordance with section 221(a)(4)(C)(i) of the Flood Control Act of 1941 (33 U.S.C. 221(a)(4)(C)(i)) after the date of enactment of this Act for the project for coastal storm risk management at an estimated cost of $75,000,000”.

SEC. 318. HARMFUL ALGAL BLOOM DEMONSTRATION PROGRAM.

SEC. 319. COLLETON COUNTY, SOUTH CAROLINA.

The Secretary shall not apply constructions authorized under section 133 of the Water Resources Development Act of 2020 (33 U.S.C. 2201 note; Public Law 116–260) is amended by inserting “the Upper Mississippi River and its tributaries,” after “New York.”

SEC. 320. OUTLAW RIVER CORRIDOR, OKLAHOMA.

Section 133 of the Water Resources Development Act of 2007 (121 Stat. 1141) is amended by striking subsection (b) and inserting the following:

“(b) AUTHORIZED COST.—The Secretary is authorized to carry out construction of a project under this section at a total cost of $128,400,000, with the cost shared in accord-
SEC. 321. ABANDONED AND INACTIVE NONCOAL MINE RESTORATION.
Section 560 of the Water Resources Development Act of 1999 (33 U.S.C. 2276) is amended—
(1) in subsection (c), by inserting “or on land taken into trust by the Secretary of the Interior on behalf of, and for the benefit of, an Indian Tribe” after “land owned by the United States”; and
(2) in subsection (f), by striking “$50,000,000” and inserting “$50,000,000,000.”

SEC. 322. ASIAN CARP PREVENTION AND CONTROL PILOT PROGRAM.
Section 509(a)(2) of the Water Resources Development Act of 2000 (33 U.S.C. 610; Public Law 116-260) is amended—
(1) in subparagraph (A), by striking “or Tenne River Watershed” and inserting “Tennessee River Watershed;” and
(2) in subparagraph (C)(i), by inserting “, of which not less than 1 shall be carried out on the Tennessee–Tomibgiee River Waterway” before the period at the end.

SEC. 323. FORMS OF ASSISTANCE.
Section 929(b) of the Water Resources Development Act of 1999 (113 Stat. 379) is amended by striking “and surface water resource protection and development” and inserting “surface water resource protection and development, stormwater management, drainage, wetlands, and water quality enhancement.”

SEC. 324. DEBRIS REMOVAL, NEW YORK HARBOR, NEW YORK.
(a) In General.—Beginning on the date of enactment of this Act, the project for New York Harbor collection and removal of drift, authorized by section 91 of the Water Resources Development Act of 1974 (88 Stat. 39), and deauthorized pursuant to section 6001 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 575b) (as in effect on the day before the date of enactment of the WIIN Act (130 Stat. 1628)), is authorized to be carried out by the Secretary.
(b) Feasibility Study.—The Secretary shall carry out, and submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report on the results of, a feasibility study for the project described in subsection (a).

SEC. 325. INVASIVE SPECIES MANAGEMENT.
Section 167 of the River and Harbor Act of 1938 (33 U.S.C. 610) is amended—
(1) in subsection (b)(2)(A)(i)—
(A) by striking “$50,000,000” and inserting “$75,000,000;” and
(B) by striking “2024” and inserting “2026”;
and
(2) in subsection (g)(2)—
(A) in subparagraph (A)—
(i) by striking “water quantity or water quality” and inserting “water quantity, water quality, or ecosystems;” and
(ii) by inserting “Lake Erie Basin, the Ohio River Basin,” after “the Upper Snake River Basin;” and
(B) in subparagraph (B), by inserting “Hydrilla verticillata,” after “(Hydrilla verticillata),” after “augustalio.”

SEC. 326. WOLF RIVER HARBOR, TENNESSEE.
Beginning on the date of enactment of this Act, the project for the Wolf River Harbor, Tennessee, authorized by title II of the Act of June 16, 1933 (48 Stat. 200, chapter 90) (commonly known as the “National Industrial Recovery Act”), and modified by section 203 of the Flood Control Act of 1958 (72 Stat. 308), is modified to reduce the authorized dimensions of the project, such that the regulated headwater dimensions are 250-foot-wide, 9-foot-depth channel with a center line beginning at a point 35.139654, -90.062343 and extending approximately 8,500 feet to a point 35.168048, -90.060556.

SEC. 327. MISSOURI RIVER MITIGATION, MISSOURI, KANSAS, IOWA, AND NEBRASKA.
The matter under the heading “Missouri River Mitigation, Missouri, Kansas, Iowa, and Nebraska” in section 601(a) of the Water Resources Development Act of 1988 (100 Stat. 413; 121 Stat. 1155), as modified by section 334 of the Water Resources Development Act of 1999 (113 Stat. 306), is amended by adding at the end the following:
“Subject to the requirement that the land to meet the requirements of fish and wildlife mitigation, the Secretary may consider incidental flood risk management benefits.”

SEC. 328. INVASIVE SPECIES MANAGEMENT PILOT PROGRAM.
Section 104(f)(4) of the River and Harbor Act of 1938 (33 U.S.C. 610(f)(4)) is amended by striking “2024” and inserting “2026”.

SEC. 329. NUECES COUNTY, TEXAS, CONVEYANCES.
(a) In General.—On receipt of a written request of the Port of Corpus Christi, the Secretary shall—
(1) review the land owned and easements held by the United States for purposes of navigation in Nueces County, Texas; and
(2) convey to the Port of Corpus Christi or, in the case of an easement, release to the owner of the easement on terms and subject to such easement, without consideration, all such land and easements described in paragraph (1) that the Secretary determines are no longer required for project purposes.
(b) Conditions.—
(1) Quitclaim Deed.—Any conveyance of land under this section shall be by quitclaim deed.
(2) Terms and Conditions.—The Secretary may subject any conveyance or release of easement under this section to such terms and conditions as the Secretary determines necessary and advisable to protect the United States.
(c) Administrative Costs.—In accordance with section 2605 of title 10, United States Code, the Port of Corpus Christi shall be responsible for the costs incurred by the Secretary to convey land or release easements under this section.
(d) Waiver of Real Property Screening Requirements.—Section 2606 of title 10, United States Code, shall not apply to the conveyance of land or release of easements under this section.

SEC. 330. MISSISSIPPI DELTA HEADWATERS, MISSISSIPPI.
As part of the authority of the Secretary to carry out the project for flood damage reduction, bank stabilization, and sediment and erosion control, Yazoo Basin, Mississippi Delta Headwaters, Mississippi, authorized by the matter under the heading “Enhancement of Water Resource Benefits and for Emergency Disaster Work” in title I of Public Law 108-29 (44 U.S.C. 1981 et seq.), the Secretary may carry out emergency maintenance activities, as the Secretary determines to be necessary, for features of the project completed before the date of enactment of this Act.

SEC. 331. ECOSYSTEM RESTORATION, HUDSON-RARITAN ESTUARY, NEW YORK AND NEW JERSEY.
(a) In General.—The Secretary may carry out additional feasibility studies for ecosystem restoration, Hudson-Raritan Estuary, New York and New Jersey, authorized by section 401(5) of the Water Resources Development Act of 2020 (134 Stat. 2790).
(b) Timely Reimbursement.—(a) Definition of Covered Project.—In this section, the term “covered project” means a project for navigation authorized by section 104(1) of the WIIN Act (130 Stat. 1708).
(b) Reimbursement Required.—In the case of a covered project for which the non-Federal interest has advanced 60% of the construction of the project, the Secretary shall reimburse the non-Federal interest for aden amounts that exceed the Federal share of the cost of construction of the project as soon as practicable after the completion of each individual contract for the project.

SEC. 332. NEW SAVANNAH BLUFF LOCK AND DAM, GEORGIA AND SOUTH CAROLINA.
Section 1319(c) of the WIIN Act (130 Stat. 1704) is amended by striking paragraph (2) and inserting the following:
“(2) Cost-Sharing.—
(A) In General.—The costs of construction of a Project feature described in paragraph (1) shall be determined in accordance with section 101(a)(1)(B) of the Water Resources Development Act of 1988 (33 U.S.C. 2211(a)(1)(B))
(B) Savings Provision.—Any increase in costs for the Project due to the construction of a Project feature described in subparagraph (A) shall not be included in the total project cost for purposes of section 902 of the Water Resources Development Act of 1988 (33 U.S.C. 2209).

SEC. 333. LAKE TAHOE BASIN RESTORATION, NEVADA AND CALIFORNIA.
(a) Definition.—In this section, the term “Lake Tahoe Basin” means the entire watershed of Lake Tahoe and that portion of the Truckee River 1,000 feet downstream from the United States Bureau of Reclamation dam at Tahoe City, California.
(b) Establishment of Program.—The Secretary may establish a program for providing environmental assistance to non-Federal interests in Lake Tahoe Basin—
(1) urban stormwater conveyance, treatment, and related facilities;
(2) watershed planning, science and research;
(3) environmental restoration; and
(4) surface water resource protection and development.
(d) Public Ownership Requirement.—The Secretary may provide assistance for a project under this section only if the project is publicly owned.
(e) Local Cooperation Agreement.—(1) In General.—Before providing assistance under this section, the Secretary shall enter into a local cooperation agreement with a non-Federal interest to provide for the design and construction of the project to be carried out with the assistance.
(2) Requirements.—Each local cooperation agreement entered into under this subsection shall provide for the following: (A) Plan.—Development by the Secretary, in consultation with appropriate Federal and State and Regional officials, of appropriate legal, institutional, and organizational arrangements, including the following:
(B) Legal and Institutional Structures.—Establishment of such legal and institutional structures as are necessary to ensure the effective long-term operation of the project by the non-Federal interest.
SEC. 335. ADDITIONAL ASSISTANCE FOR EASTERN SANTA CLARA BASIN, CALIFORNIA.

Section 111 of title I of division B of the Consolidated Appropriations Act, 2001, as enacted by section 11(a)(4) of the Consolidated Appropriations Act, 2005 (118 Stat. 2942) (as in effect on the day before the date of enactment of this Act).

SEC. 336. TRIBAL PARTNERSHIP PROGRAM.

Section 203 of the Water Resources Development Act of 2000 (33 U.S.C. 2268) is amended by—

(b) in subsection (a), by striking—

(1) in paragraph (2), by striking—

(1) the City of Bartlesville, Oklahoma, shall coordinate to the maximum extent practicable with the Administrator of the Environmental Protection Agency, State and other environmental agencies, and regional coordinating bodies responsible for the remediation of toxics.

(c) PUBLIC ENTITY STATUS.—

(1) IN GENERAL.—The Secretary shall to section 160 of the Water Resources Development Act of 2020 (33 U.S.C. 2268).
SEC. 342. ROGERS COUNTY, OKLAHOMA.

(a) CONVEYANCE.—The Secretary is authorized to convey to the City of Tulsa-Rogers County Port Authority (referred to in this section as the Port Authority), for fair market value, all right, title, and interest of the United States in and to the Federal land described in subsection (b).

(b) DESCRIPTION.—

(1) IN GENERAL.—The Federal land to be conveyed under this section is the approximately 176 acres of Federal land located on the following 3 parcels in Rogers County, Oklahoma: (A) Parcel 1 includes U.S. tract 119 (par- tial), U.S. tract 123, U.S. tract 120, U.S. tract 125, and U.S. tract 126 (partial).

(B) Parcel 2 includes U.S. tract 124 (partial) and U.S. tract 128 (partial).

(C) Parcel 3 includes U.S. tract 128 (par-

tial).

(2) DETERMINATION REQUIRED.—

(A) IN GENERAL.—Subject to paragraph (1) and subparagraphs (B), (C), and (D), the Secretary shall determine the exact property de-

scription and acreage of the Federal land to be conveyed under this section.

(B) REQUIREMENT.—In making the deter-

mination required by subparagraph (A), the Sec-

retary shall reserve from conveyance such easements, rights-of-way, and other interests as the Secretary determines to be necessary and adequate to carry out the purposes of the con-

tinuation of the McClellan-Kerr Arkansas River navigation project, including New Gra-

ham Lock and Dam 18 as a part of that project, as authorized under the comprehen-

(C) OBSSTRUCTIONS TO NAVIGABLE CAPACITY.—A conveyance under this section shall not affect the jurisdiction of the Secretary under the acts of March 3, 1899 (commonly known as the ‘‘Rivers and Har-

(D) SURVEY REQUIRED.—The exact acreage and the legal description of any Federal land conveyed under this section shall be determined by a survey that is satisfactory to the Secretary.

(c) APPLICABILITY.—Section 2696 of title 10, United States Code, shall not apply to the conveyance under this section.

(d) COSTS.—The Port Authority shall be responsible for all reasonable and necessary costs, including real estate transaction and environmental determination costs, associated with the conveyance.

(e) HOLD HARMLESS.—

(1) IN GENERAL.—The Port Authority shall hold the United States harmless from any liability incurred with respect to activities carried out on or after the date of the conveyance under this section on the Federal land conveyed.

(2) LIMITATION.—The United States shall remain responsible for any liability incurred with respect to activities carried out before the date of the conveyance under this section on the Federal land conveyed.

(f) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require that the conveyance under this section be subject to such additional terms and conditions as the Sec-

retary considers necessary and appropriate to protect the interests of the United States.

SEC. 343. WATER SUPPLY STORAGE REPAIR, RE-

HABILITATION, AND REPLACEMENT COSTS.

Section 304(l) of the Water Resources Act of 1958 (33 U.S.C. 390(n)(b)) is amended, in the fourth proviso, by striking the second sen-
tence and inserting the following: ‘‘For Cor-

pus Christi Bay, Texas, the Secretary may authorize annual opera-
tion and maintenance costs for municipal and industrial water supply storage under this section shall be reimbursed from State or local interest earnings, and all repair, rehabilitation, and replacement costs shall be reimbursed from State or local in-

terests (1) without interest, during construction, (2) with interest, in lump sum on the completion of the repair, rehabilitation, or replacement, or (3) at the request of the owner or lessee of the property, over a period of not more than 25 years beginning on the date of completion of the repair, rehabilitation, or replacement, with repayment contracts providing for recalculation of the interest rate at 5-year intervals. At the request of the State or local interest, the Sec-

retary of the Army shall amend a repayment contract entered into under this section on or before the date of enactment of this section for the purpose of incorporating the terms and conditions described in paragraph (3) of the preceding sentence.’’. SEC. 344. NON-FEDERAL PAYMENT FLEXIBILITY.

Section 103(l) of the Water Resources De-

velopment Act of 1986 (33 U.S.C. 2213(l)) is amended—

(1) by striking the subsection designation and heading and all that follows through ‘‘At the request of’’ in the first sentence and in-

serting in place thereof—

‘‘(1) DELAY OF PAYMENT.—‘‘(A) IN GENERAL.—At the request of; and’’;

(2) by adding at the end the following:—

‘‘(2) INTEREST.—

(A) IN GENERAL.—At the request of any non-Federal interest, the Secretary may waive the accrual of interest on any non-

Federal cash contribution under this section or section 101 for a project for a period of not more than 1 year if the Secretary determines that—

(i) the waiver will contribute to the ability of the non-Federal interest to make fu-

ture contributions; and

(ii) the non-Federal interest is in good standing under terms and conditions set forth in paragraph (3) of the preceding sentence.’’;

(B) LIMITATIONS.—The Secretary may not grant more than 1 waiver under subparagraph (A) for the same project.’’.

SEC. 345. NORTH PADRE ISLAND, CORPUS CHRIS-

TI BAY, TEXAS.

The project for ecosystem restoration, North Padre Island, Corpus Christi Bay, Texas, constructed by the Secretary prior to the date of enactment of this Act under section 556 of the Water Resources Development Act of 1999 (113 Stat. 533), shall not be eligi-

ble for repair and restoration assistance under section 556 of the Act of August 19, 1941 (commonly known as the ‘‘Flood Control Act of 1941’’) (55 Stat. 650, chapter 377; 33 U.S.C. 801a(a)).

SEC. 346. WAIVER OF NON-FEDERAL SHARE OF DAMAGES RELATED TO CERTAIN CONTRACT CLAIMS.

In a case in which the Armed Services Board of Contract Appeals or a court of com-

petent jurisdiction rendered a decision on a date that was at least 20 years before the date of enactment of this Act awarding dam-
ages to a contractor relating to the adjudica-
tion of claims arising from the construction of general navigation features of a project authorized before August 1, 1929, and where the contract is on file in the River and Harbor Act of 1960 (33 U.S.C. 577), not-

withstanding the terms of the Project Part-

nership Agreement, the Secretary shall waive payment of the share of the non-Fed-

eral interest of such damages, including at-

torney’s fees, if the Secretary—

(1) determined that the project prior to completion of all features; and

(2) has not collected payment from the non-Federal interest before the date of en-

actment of this section.

SEC. 347. ALIGERS CANAL LEVEE, LOUISIANA.

In accordance with section 328 of the Water Resources Development Act of 1999 (113 Stat. 1129), the Secretary shall re-

sume operation, maintenance, repair, reha-

bilitation, and replacement of the Aligers Canal Levees, Louisiana, at full Federal ex-

pense.

SEC. 348. ISRAEL RIVER ICE CONTROL PROJECT, LANCASTER, NEW HAMPSHIRE.

Beginning on the date of enactment of this Act, the project for flood control, Israel River, Lancaster, New Hampshire, author-

ized by section 205 of the Flood Control Act of 1948 (33 U.S.C. 701a) is no longer author-

ized.

SEC. 349. CITY OF EL DORADO, KANSAS.

The Secretary shall amend Contract Date 06–C–0229, for the repair and restoration assistance provided under section 5(a) of the Act of August 16, 1958 (43 U.S.C. 390b(b)) is amended, in the fourth proviso, by striking the second sen-
tence and inserting the following: ‘‘(B) L IMITATIONS.—The Secretary may modify the United States in and to the property de-

scribed in subsection (k)(1).’’.

SEC. 350. UPPER MISSISSIPPI RIVER PROTEC-

TION.

Section 2010 of the Water Resources Re-

development Act of 2014 (126 Stat. 1267; 126 Stat. 3812) is amended by adding at the end the following:

‘‘(1) LIMITATION.—The Secretary shall not recommend deauthorization of the Upper St. Anthony Falls Lock and Dam unless the Sec-

retary identifies a willing and capable non-

Federal public entity to assume ownership of the lock and dam.’’;

‘‘(g) MODIFICATION.—The Secretary is au-

thorized to investigate the feasibility of modifying the Upper St. Anthony Falls Lock and Dam to add ecosystem restoration, in-

cluding the prevention and control of invasive species, as an authorized purpose.’’. SEC. 351. REGIONAL CORPS OF ENGINEERS OF-

FICE, CORPUS CHRISTI, TEXAS.

(a) IN GENERAL.—At such time as new fac-

ilities are available to the Corps of Engi-

neers, and subject to this section, the Sec-

retary shall convey to the Port of Corpus Christi Authority, by deed and without war-

ranty, all right, title, and interest of the United States in and to the property de-

scribed in subsection (b).

(b) CONSIDERATION.—Consideration for the conveyance under subsection (a) shall be de-

termined by an appraisal, satisfactory to the Secretary, of the market value of the prop-

erty conveyed.

(c) DESCRIPTION OF PROPERTY.—The prop-

erty described in subsection (b) includes the tract of land known as ‘‘Tract 100’’ and ‘‘Tract 101’’, in-

cluding improvements on that land, in Cor-

pus Christi, Texas, and described as follows:—

The following parcels or any part thereof as conveyed by the Nueces County Naviga-
tion District No. 1 of Nueces County, Texas, to the United States by instrument dated October 16, 1928, and recorded at Volume 193, pages 1 and 2, in the Deed Records of Nueces County, Texas.
(2) TRACT 18.—The 0.53 acres as conveyed by the City of Corpus Christi, Nueces County, Texas, to the United States by instrument dated September 24, 1971, and recorded at Volume 789, page 533, in the Deed Records of Nueces County, Texas.

(3) IMPROVEMENTS.—
  (A) Main Building (RPUID AO-C–3516), constructed January 9, 1974.
  (B) Garage, vehicle with 5 bays (RPUID AO-C–3528), constructed January 9, 1985.
  (D) Bulkhead, Upper (RPUID AO-C–3520), constructed January 1, 1933.
  (F) Bulkhead Fence (RPUID AO-C–3532), constructed January 9, 1985.

(4) USE OF LAND.—
  (I) IN GENERAL.—Before conveying the land described in subsection (c) to the Port of Corpus Christi Authority, the Secretary shall ensure that the conditions of buildings and facilities meet applicable requirements under Federal law, as determined by the Secretary.

(2) IMPROVEMENTS.—Improvements to conditions of buildings and facilities on the land described in subsection (c), if any, shall be incorporated into the consideration required under subsection (b).

(3) COSTS OF CONVEYANCE.—In addition to the fair market value for property rights conveyed to the Port of Corpus Christi Authority, the Federal Government shall be responsible for all reasonable and necessary costs, including real estate transaction and environmental documentation costs, associated with the conveyance under subsection (a).

SEC. 352. PILOT PROGRAM FOR GOOD NEIGHBOR AUTHORITY ON CORPS OF ENGINEERS LAND.

(a) DEFINITIONS.—In this section:
  (1) AUTHORIZED RESTORATION SERVICES.—The term ‘authorized restoration services’ means similar and complementary forest, range, soil, water, wetland, and watershed restoration services carried out—
    (A) under Federal land; and
    (B) by the Secretary or Governor pursuant to a good neighbor agreement.
  (2) FEDERAL LAND.—The term ‘Federal land’ means land within the State that is administered by the Corps of Engineers.
  (B) EXCLUSIONS.—The term ‘Federal land’ does not include—
    (i) a component of the National Wildlife Preservation System;
    (ii) Federal land on which the removal of vegetation is prohibited or restricted by an Act of Congress or a Presidential proclamation (including the applicable implementation plan); or
    (iii) a wilderness study area.
  (3) FOREST, RANGE, AND WATERSHED SERVICES.—
    (A) IN GENERAL.—The term ‘forest, range, and watershed restoration services’ means—
      (i) activities to treat insect-infected and disease-infected trees;
      (ii) activities to reduce hazardous fuels; and
      (iii) other activities to restore or improve forest, rangeland, and watershed health, including fish and wildlife habitat.
    (B) EXCLUSIONS.—The term ‘forest, range, and watershed restoration services’ does not include—
      (i) construction, reconstruction, repair, or restoration of paved or permanent roads or parking areas, other than the reconstruction, repair, or restoration of a road that is necessary to carry out authorized restoration services pursuant to a good neighbor agreement; and
      (ii) construction, alteration, repair or replacement of public buildings or public works.
  (4) GOOD NEIGHBOR AGREEMENT.—The term ‘good neighbor agreement’ means a cooperative agreement or contract (including a sole source contract) entered into between the Secretary and Governor under subsection (c) to carry out authorized restoration services under this section.
  (5) GOVERNOR.—The term ‘Governor’ means the Governor or any other appropriate administrative officer of the State.
  (6) ROAD.—The term ‘road’ has the meaning given in section 212.1 of title 36, Code of Federal Regulations (as in effect on February 7, 2014).
  (7) STATE.—The term ‘State’ means the State of Idaho.

(b) AUTHORIZED RESTORATION SERVICES UNDER THIS SECTION.—

(B) TREATMENT OF REVENUE.—Except as provided in subparagraph (A), funds received from the sale of timber by the Governor under a good neighbor agreement shall be retained and used by the Governor to carry out authorized restoration services under the good neighbor agreement.

(c) EXCESS REVENUE.—

(1) IN GENERAL.—Any funds remaining after carrying out subparagraph (B) that are in excess of the amount provided by the Governor to the Secretary under paragraph (2)(A) of subparagraph (C) shall be returned to the Secretary.

(d) APPLICABILITY OF CERTAIN PROVISIONS.—

(1) The Secretary shall carry out restoration projects under clause (i) subject to the applicable requirements of section 212.1 of title 36, Code of Federal Regulations (as in effect on February 7, 2014).

(2) The Secretary shall conduct monitoring under clause (i) of subsection (b).

(a) IN GENERAL.—Section 601(e)(5) of the Water Resources Development Act of 1986 (134 Stat. 2735), the non-Federal share of the cost of the project shall be the percentage described in section 103(a)(2) of the Water Resources Development Act of 1988 (33 U.S.C. 2212(a)(2)) (as in effect on the day before the date of enactment of the Water Resources Development Act of 1996 (110 Stat. 3158)) amended by striking subparagraph (E) and inserting the following:

(b) FEDERAL EASEMENT CONVEYANCES.—

(2) On counter-execution of the new or amended agreement provided for under paragraph (1), the Secretary is authorized to convey the following easements, acquired by the Federal Government for the Red Rock Dam Project, to the City to become part of the Flood Protection Project in accordance with subsection (a):

(3) RETENTION OF NEPA RESPONSIBILITIES.—

Any decision required to be made under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to any authorized restoration services to be provided under this section on Federal land shall not be delegated to the Governor.

SEC. 353. PILOT PROGRAM FOR GOOD NEIGHBOR AUTHORITY ON CORPS OF ENGINEERS LAND.

(a) DEFINITIONS.—In this section:
  (1) AUTHORIZED RESTORATION SERVICES.—The term ‘authorized restoration services’ means similar and complementary forest, rangeland, and watershed restoration services carried out—
    (A) under Federal land; and
    (B) by the Secretary or Governor pursuant to a good neighbor agreement.
  (2) FEDERAL LAND.—The term ‘Federal land’ means land within the State that is administered by the Corps of Engineers.
  (B) EXCLUSIONS.—The term ‘Federal land’ does not include—
    (i) a component of the National Wildlife Preservation System;
    (ii) Federal land on which the removal of vegetation is prohibited or restricted by an Act of Congress or a Presidential proclamation (including the applicable implementation plan); or
    (iii) a wilderness study area.
  (3) FOREST, RANGE, AND WATERSHED SERVICES.—
    (A) IN GENERAL.—The term ‘forest, range, and watershed restoration services’ means—
      (i) activities to treat insect-infected and disease-infected trees;
      (ii) activities to reduce hazardous fuels; and
      (iii) other activities to restore or improve forest, rangeland, and watershed health, including fish and wildlife habitat.
    (B) EXCLUSIONS.—The term ‘forest, range, and watershed restoration services’ does not include—
      (i) construction, reconstruction, repair, or restoration of paved or permanent roads or parking areas, other than the reconstruction, repair, or restoration of a road that is necessary to carry out authorized restoration services pursuant to a good neighbor agreement; and
      (ii) construction, alteration, repair or replacement of public buildings or public works.
  (4) GOOD NEIGHBOR AGREEMENT.—The term ‘good neighbor agreement’ means a cooperative agreement or contract (including a sole source contract) entered into between the Secretary and Governor under subsection (c) to carry out authorized restoration services under this section.
  (5) GOVERNOR.—The term ‘Governor’ means the Governor or any other appropriate administrative officer of the State.
  (6) ROAD.—The term ‘road’ has the meaning given in section 212.1 of title 36, Code of Federal Regulations (as in effect on February 7, 2014).
  (7) STATE.—The term ‘State’ means the State of Idaho.

(b) AUTHORIZED RESTORATION SERVICES UNDER THIS SECTION.—

(B) TREATMENT OF REVENUE.—Except as provided in subparagraph (A), funds received from the sale of timber by the Governor under a good neighbor agreement shall be retained and used by the Governor to carry out authorized restoration services under the good neighbor agreement.

(c) EXCESS REVENUE.—

(1) IN GENERAL.—Any funds remaining after carrying out subparagraph (B) that are in excess of the amount provided by the Governor to the Secretary under paragraph (2)(A) of subparagraph (C) shall be returned to the Secretary.

(d) APPLICABILITY OF CERTAIN PROVISIONS.—

(1) The Secretary shall carry out restoration projects under clause (i) subject to the applicable requirements of section 212.1 of title 36, Code of Federal Regulations (as in effect on February 7, 2014).

(2) The Secretary shall conduct monitoring under clause (i) of subsection (b).

 SEC. 354. MIDDLE RIO GRANDE FLOOD PROTEC- TION, BERNALILLO TO BLEN, NEW MEXICO.

SEC. 355. COMPREHENSIVE EVERGLADES RESTORA- TION PLAN, FLORIDA.

(a) IN GENERAL.—Section 601(e)(5) of the Water Resources Development Act of 1986 (134 Stat. 2735), the non-Federal share of the cost of the project shall be the percentage described in section 103(a)(2) of the Water Resources Development Act of 1986 (33 U.S.C. 2212(a)(2)) (as in effect on the day before the date of enactment of the Water Resources Development Act of 1996 (110 Stat. 3158)).
section and section 2(a) of the Act of August 20, 1937 (50 Stat. 731, chapter 720; 16 U.S.C. 832(a)).

(b) McNary Dam, Wash., and Oregon, as authorized by section 2 of the Act of March 2, 1945 (commonly known as the "River and Harbor Act of 1945") (59 Stat. 22, chapter 19).

(c) John Day Dam, Washington and Oregon, as authorized by section 204 of the Flood Control Act of 1950 (64 Stat. 179, chapter 188).

(d) Hidaka Dam, Washington, Oregon, and Idaho, as authorized by section 205 of the Flood Control Act of 1950 (64 Stat. 179, chapter 188).

(e) Bull Island, Oregon, as authorized by the first section of the Act of August 30, 1935 (49 Stat. 1338, chapter 831) and the first

(3) REQUIREMENTS.—The village development plan under paragraph (1) shall include, at a minimum—

(A) an evaluation of sites on both sides of the Columbia River;

(B) an assessment of suitable Federal land and land owned by the States of Washington and Oregon;

(C) an estimated cost and tentative schedule for the construction of each housing development;

(D) LOCATION OF ASSISTANCE.—The Secretary may provide housing and related assistance under this subsection at 1 or more sites in the States of Washington and Oregon.

(4) LOCATION OF ASSISTANCE.—The Secretary may provide housing and related assistance under this subsection at 1 or more sites in the States of Washington and Oregon.

(2) ADVANCE ACQUISITION.—Acquisition of land or interests in land under paragraph (1) may be carried out in advance of completion of all required documentation and clearances for the construction of or related improvements on the land or on the interests in land.

(3) DISPOSAL OF UNSUITABLE LAND.—If the Secretary determines that any land or interest in land acquired by the Secretary under this section in advance of completion of all required documentation for the construction of housing or related improvements is unsuitable for that housing or for those related improvements, the Secretary may—

(A) dispose of the land or interest in land by sale; and

(B) credit the proceeds to the appropriate fund, or account used to purchase the land or interest in land.

(4) LIMITATION.—The Secretary shall only require a cash contribution under clause (i)(I) for such housing or related structures as a result of the construction of Bonneville Dam, McNary Dam, and John Day Dam. Washington, Oregon, and Idaho, as authorized by section 205 of the Flood Control Act of 1950 (64 Stat. 179, chapter 188).

(5) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary should—

(e) Bull Island, Oregon, as authorized by the first section of the Act of August 30, 1935 (49 Stat. 1338, chapter 831) and the first

(g) Minidoka detention area, Idaho, as authorized by section 1 of the Act of November 3, 1946 (50 Stat. 1038, chapter 831).

SEC. 365. FEDERAL ASSISTANCE.

Section 1328(c) of the America’s Water Infrastructure Act of 2018 (132 Stat. 3826) is amended by striking “4 years” and inserting “8 years”.

SEC. 366. LAND TRANSFER AND TRUST LAND FOR CHOCTAW NATION OF OKLAHOMA.

(a) Transfer.—

(1) IN GENERAL.—Subject to paragraph (2) and for the consideration described in subsection (c), the Secretary shall transfer to the Secretary of the Interior the land described in subsection (b) to be held in trust for the benefit of the Choctaw Nation.

(2) CONDITIONS.—The land transferred under this subsection shall be subject to the following conditions:

(A) The transfer—

(i) shall not interfere with the operation by the Corps of Engineers of the Sardis Lake Project or any other authorized civil works project; and

(ii) shall be subject to such other terms and conditions as the Secretary determines to be necessary and appropriate to ensure the continued operation of the Sardis Lake Project or any other authorized civil works project.

(B) The Secretary shall retain the right to inundate with water the land transferred to the Choctaw Nation under this subsection as necessary to carry out an authorized purpose of the Sardis Lake Project or any other authorized civil works project.

(C) No gaming activities may be conducted on the land transferred under this subsection.

(b) LAND DESCRIPTION.—

(1) IN GENERAL.—The land to be transferred pursuant to subsection (a) is the approximately 247 acres of land located in Sections 18 and 19 of T2N R18E, and Sections 5 and 8 of T2N R19E, Pushmataha County, Oklahoma, generally depicted as “USACE” on the map entitled “Sardis Lake – Choctaw Nation Proposal” and dated February 22, 2022.

(2) SURVEY.—The exact acreage and legal descriptions of the land to be transferred under subsection (a) shall be determined by a survey satisfactory to the Secretary and the Secretary of the Interior.

(c) CONSIDERATION.—The Choctaw Nation shall pay—

(1) to the Secretary an amount that is equal to the fair market value of the land transferred under subsection (a), as determined by the Secretary, which funds may be accepted and expended by the Secretary; and

(2) all costs and administrative expenses associated with the transfer of land under subsection (a), including the costs of—

(A) the survey under subsection (b)(2);

(B) compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(C) any coordination necessary with respect to requirements related to endangered species, cultural resources, clean water, and clean air.

SEC. 367. LAKE BARKLEY, KENTUCKY, LAND CONVEYANCE.

(a) IN GENERAL.—The Secretary is authorized to convey to the Eddyville Riverport Authority (referred to in this section as the “Authority”), for fair market value, all right, title, and interest of the United States in and to approximately 2.2 acres of land adjacent to the southwestern boundary of the port facilities of the Authority at the Barkley Dam and Lake Barkley, Kentucky, project, authorized by the River and Harbor Act of 1946 (60 Stat. 636, Public Law 79–525).

(b) CONDITIONS.—

(1) QUITCLAIM DEED.—Any conveyance of land under this section shall be by quitclaim deed.

(2) RESERVATION OF RIGHTS.—The Secretary shall reserve from a conveyance of land under this section such easements, rights-of-way, or other interests as the Secretary determines to be necessary and appropriate to ensure the continued operation of the project described in subsection (a).

(3) TERMS AND CONDITIONS.—The Secretary may subject any conveyance under this section to such terms and conditions as the Secretary determines necessary and advisable to protect the United States.

(b) ADMINISTRATIVE COSTS.—The Authority shall be responsible for all reasonable and necessary costs, including real estate transaction and environmental documentation costs, associated with a conveyance under this section.

(d) WAIVER OF REAL PROPERTY SCREENING REQUIREMENTS.—Section 2606 of title 10, United States Code, shall not apply to the conveyance of land under this section.

TITLE IV—WATER RESOURCES INFRASTRUCTURE

SEC. 401. PROJECT AUTHORIZATIONS.

The following projects for water resources development and conservation and other purposes, as identified in the reports titled “Report to Congress on Future Water Resources Development” submitted to Congress pursuant to section 7001 of the Water Resources Reform and Development Act of 2014 (33 U.S.C. 2282d) or otherwise reviewed by Congress, are authorized to be carried out by the Secretary substantially in accordance with the plans, and subject to the conditions, described in the respective reports or decision documents designated in this section:

### SEC. 402. STORM DAMAGE PREVENTION AND REDUCTION, COASTAL EROSION, AND ICE AND GLACIAL DAMAGE, ALASKA.

(a) In General.—The Secretary shall establish a program to carry out structural and nonstructural projects for storm damage prevention and reduction, coastal erosion, and ice and glacial damage in the State of Alaska, including—

1. relocation of affected communities; and
2. construction of replacement facilities.

(b) Cost Share.—The non-Federal interest shall be in the cost to study, design, and construct a project carried out under this section in accordance with sections 103 and 105 of the Water Resources Development Act of 1986 (33 U.S.C. 2213, 2215), except that, in the case of a project benefitting an economically disadvantaged community (as defined pursuant to section 160 of the Water Resources Development Act of 1999 (113 Stat. 375)), the non-Federal interest shall be 10 percent.

(c) Repeal.—Section 116 of the Energy and Water Development and Related Agencies Appropriations Act, 2010 (123 Stat. 2851), is repealed.

### SEC. 403. EXPEDITED COMPLETION OF PROJECTS.

The Secretary shall expedite completion of the following projects:

Day before the date of enactment of this Act.

(13) Project for navigation, including maintenance and channel deepening, McClellan–Kerr Arkansas River Navigation System.

(14) Project for dam safety modifications, Bluestone Dam, West Virginia.
(15) Maintenance dredging and other authorized activities to address the impacts of shoaling affecting the project for navigation, Branford Harbor and Branford River, Branford, Connecticut, authorized by the first section of the Act of June 13, 1902 (32 Stat. 333, chapter 1097).

(16) Maintenance dredging and other authorized activities to address the impacts of shoaling affecting the project for navigation, Guilford Harbor and sluice Channel, Connecticut.

(17) Maintenance dredging and other authorized activities to address the impacts of shoaling affecting the project for navigation, Milford Harbor, Connecticut.

(19) Project for mitigation of shore damage from navigation works, Camp Ellis Beach, Saco, Maine, pursuant to section 111 of the River and Harbor Act of 1968 (33 U.S.C. 426i).

(21) Project for navigation, Kentucky Lock Addition, Kentucky.

(24) Maintenance dredging and other authorized activities to address the impacts of shoaling affecting the project for navigation, Branford Harbor and sluice Channel, Connecticut.

(25) Parts and repairs of the project under paragraphs (1) and (2).

(26) Maintenance dredging and other authorized activities to address the impacts of shoaling affecting the project for navigation, Portsmouth Harbor and Piscataqua River, New Hampshire, and Kittery and Elliot, Maine, authorized by section 101 of the River and Harbor Act of 1962 (76 Stat. 1175).

(27) Maintenance dredging and other authorized activities to address the impacts of shoaling affecting the project for navigation, Portsmouth Harbor and Piscataqua River, Portsmouth, New Castle, and Newcastle, New Hampshire, and Kittery and Elliot, Maine, authorized by section 101 of the River and Harbor Act of 1962 (76 Stat. 1175).

SEC. 404. SPECIAL RULES.

(a) The following conditions apply to the project described in paragraph (2):

(1) the project is authorized to be carried out under section 111 of the River and Harbor Act of 1968 (33 U.S.C. 426i); the Secretary shall determine that the navigation works to which the shore damages are attributable were constructed at full Federal expense.

(b) The following conditions apply to the project described in section 403 and (2):

(1) the project is authorized to be carried out under section 206 of the Water Resources Development Act of 1996 (33 U.S.C. 2380) at a Federal cost of $15,000,000.

(2) If the Secretary includes in the project a measure on Federal land under the jurisdiction of another Federal agency, the Secretary may enter into an agreement with the Federal agency that provides for the Secretary:

(A) to construct the measure; and

(B) to operate and maintain the measure using funds provided to the Secretary by the non-Federal interest for the project.

(3) If the Secretary includes in the project a measure for fish passage at a dam licensed for hydropower, the Secretary shall include in the project costs all costs for the measure, except that those costs that are in excess of the costs to provide fish passage at the dam if hydropower were not in place shall be a 100 percent non-Federal expense.

SEC. 405. CHATTAHOOCHEE RIVER PROGRAM.

(a) ESTABLISHMENT.—

(1) IN GENERAL.—The Secretary shall establish a program to provide environmental assistance to non-Federal interests in the Chattahoochee River Basin.

(2) FORM.—The program under paragraph (1) shall be in the form of design and construction assistance for water-related resource protection and restoration projects in the Chattahoochee River Basin, based on the comprehensive plan under subsection (b), including projects for—

(A) sediment and erosion control; (B) protection of eroding shorelines; (C) ecosystem restoration, including restoration of submersed aquatic vegetation; (D) protection of essential public works; (E) beneficial uses of dredged material; and (F) other related projects that may enhance the living resources of the Chattahoochee River Basin.

(b) COMPREHENSIVE PLAN.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, the Secretary shall develop a comprehensive plan to guide the implementation of projects under subsection (a)(2).

(2) COORDINATION.—The restoration plan described in paragraph (1) shall, to the maximum extent practicable, consider and avoid duplication of any ongoing or planned actions of other Federal, State, and local agencies and nongovernmental organizations.

(c) PRIORITIZATION.—The restoration plan described in paragraph (1) shall give priority to projects eligible under subsection (a)(2) that will also improve water quality or quantity or use natural hydrological features and systems.

(d) AGREEMENT.—

(1) IN GENERAL.—Before providing assistance under this section, the Secretary shall enter into an agreement with a non-Federal interest for the design and construction of a project carried out pursuant to the comprehensive Chattahoochee River Basin restoration plan described in subsection (b).

(2) REQUIREMENTS.—Each agreement entered into under this subsection shall provide for—

(A) the development by the Secretary, in consultation with appropriate Federal, State, and local officials, of a resource protection and restoration plan, including appropriate engineering plans and specifications and an estimate of expected resource benefits; and

(B) the establishment of such legal and institutional structures as are necessary to ensure the effective long-term operation and maintenance of the project by the non-Federal interest.

(e) COST SHARING.—

(1) FEDERAL SHARE.—Except as provided in paragraph (2)(B), the Federal share of the total project costs incurred under this section shall be 25 percent.

(2) NON-FEDERAL SHARE.—

(A) VALUATION—EASEMENTS, RIGHTS-OF-WAY, AND RELOCATIONS.—In determining the non-Federal contribution toward carrying out an agreement entered into under this section, the non-Federal interest shall give credit to the extent practicable toward a non-Federal interest for the value of land, easements, rights-of-way, and relocations provided by the non-Federal interest, except that the amount of credit provided for a project under this paragraph may not exceed 25 percent of the total project costs.

(B) DEDUCTION AND MAINTENANCE COSTS.—The non-Federal share of the costs of operation and maintenance of activities carried out under an agreement under this section shall be 100 percent.

(f) COOPERATION.—In carrying out this section, the Secretary shall cooperate with—

(A) the heads of appropriate Federal agencies, including—

(i) the Administrator of the Environmental Protection Agency; (ii) the Secretary of Commerce, acting through the Administrator of the National Oceanic and Atmospheric Administration; and (iii) the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service; and

(B) the heads of such other Federal agencies as the Secretary determines to be appropriate; and

(g) PROJECT CAP.—The total cost of a project carried out under this section may not exceed $50,000,000.

(h) SAVINGS PROVISION.—Nothing in this section—

(1) establishes any express or implied right in the United States for any purpose;

(2) affects any water right in existence on the date of enactment of this Act;

(3) establishes any express or implied right in the United States for any purpose;

(4) affects any Federal or State law in existence on the date of enactment of this Act;

(5) affects any water quality in existence on the date of enactment of this Act;

(i) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $90,000,000.

SEC. 406. LOWER MISSISSIPPI RIVER BASIN DEMONSTRATION PROGRAM.

(a) DEFINITION.—In this section, the term ‘‘Lower Mississippi River Basin’’ means the portion of the Mississippi River that begins at the confluence of the Ohio River and flows through the Gulf of Mexico, and its tributaries and distributaries.

(b) ESTABLISHMENT.—

(1) IN GENERAL.—The Secretary shall establish a program to provide environmental assistance for water-related resource protection and restoration projects in the Lower Mississippi River Basin, based on the comprehensive plan under subsection (c).

(2) ASSISTANCE.—The projects under subparagraph (A) may include measures for—

(A) sediment control; (B) protection of eroding riverbanks and streambanks and their riparian habitats; (C) channel modifications; and (D) beneficial uses of dredged material; or

(c) COMPREHENSIVE PLAN.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, the Secretary, in cooperation with State and local governmental officials and affected stakeholders, shall develop a comprehensive plan to guide the implementation of projects under subsection (b)(2)

(2) FORM.—The comprehensive plan shall—

(A) establish the boundaries of the Lower Mississippi River Basin.

(3) PRIORITIZATION.—The comprehensive plan shall prioritize projects for the Lower Mississippi River Basin.

(4) IMPLEMENTATION.—The comprehensive plan shall provide for the implementation of projects under subsection (b)(2).

(5) ACTIONS.—The Secretary shall—

(A) establish criteria for the implementation of projects under subsection (b)(2); and

(6) COOPERATION.—In carrying out the comprehensive plan, the Secretary shall—

(A) develop an implementation plan to guide the implementation of projects under subsection (b)(2).

(b) SAVINGS PROVISION.—Nothing in this section—

(1) establishes any express or implied right in the United States for any purpose;

(2) affects any water right in existence on the date of enactment of this Act;
SEC. 5141. MR. SCOTT of Florida submitted an amendment intended to be proposed to amendment SA 5135 proposed by Mr. Schumer to the bill H.R. 4346, making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes; which amendment is ordered to lie on the table; as follows:

Beginning on page 41, strike line 19 and all that follows through line 7 on page 47, and insert the following:

"(C) REQUIRED AGREEMENT.—

(i) IN GENERAL.—On or before the date on which the Secretary awards Federal financial assistance to a covered entity under this section, the Secretary shall enter into an agreement with the Secretary specifying that, beginning on the date of the award and continuing in perpetuity, the covered entity—

(I) may not engage in any transaction involving any expansion of semiconductor manufacturing capacity in the People’s Republic of China or any other foreign country of concern;

(II) may not cooperate with the government of the People’s Republic of China; and

(III) will immediately withdraw all operations in the People’s Republic of China in the event of an invasion of Taiwan by the People’s Republic of China or any other foreign country of concern.

(b) PROJECT CAP.—The total cost of a project covered under this section may not exceed $15,000,000.

(h) REPORT.—Not later than 3 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that describes the results of the program under this section, including a recommendation on whether the program should continue.

(1) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $90,000,000.

SEC. 407. FORECAST-INFORMED RESERVOIR OPERATIONS.

(a) IN GENERAL.—The Secretary shall—

(A) the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that describes the results of the program under this section, including a recommendation on whether the program should continue.

(b) PROJECT CAP.—The total cost of a project covered under this section may not exceed $15,000,000.

(h) REPORT.—Not later than 3 years after the date of enactment of this Act, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that describes the results of the program under this section, including a recommendation on whether the program should continue.

(1) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section $90,000,000.
section, a covered entity shall agree to provide records and other necessary information requested by the Secretary under clause (i).

(G) Public availability of agreements.—The Secretary shall make publicly available any agreement entered into between a covered entity and the Secretary under subparagraph (C)(i).

SA 5142. Mr. SCOTT of Florida submitted an amendment intended to be proposed to amendment SA 5135 proposed by Mr. SCHUMER to the bill H.R. 4346, making appropriations for Legislative Branch for the fiscal year ending September 30, 2022, and for other purposes; which was ordered to lie on the table; as follows:

On page 821, between lines 19 and 20, insert the following:
SEC. 10638. PROHIBITION ON PROCUREMENT OF SEMICONDUCTORS FROM CHINA

Effective on the date that is 5 years after the date of enactment of this Act, the Federal Government may not procure any semiconductor manufactured in China.

SA 5143. Mr. SCHUMER (for Mr. JOHNSON) proposed an amendment to the resolution S. Res. 694, expressing support for the designation of July 2022 as “National Sarcoma Awareness Month”;

In paragraph (2) of the second whereas clause of the preamble, strike “7,200” and insert “any given time”.

In paragraph (3) of the second whereas clause of the preamble, strike “any 1 time” and insert “any given time”.

In the third whereas clause of the preamble, strike “20” and insert “15”.

AUTHORITY FOR COMMITTEES TO MEET

Mr. DURBIN. Mr. President, I have nine requests for committees to meet during today’s session of the Senate. They have the approval of the Majority and Minority Leaders.

Pursuant to rule XXVI, paragraph 5(a), of the Standing Rules of the Senate, the following committees are authorized to meet during today’s session of the Senate, the following committees are authorized to meet during today’s session of the Senate:

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION
The Committee on Commerce, Science, and Transportation is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 10 a.m., to conduct a hearing.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS
The Committee on Environment and Public Works is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 11 a.m., to conduct a business meeting.

COMMITTEE ON FINANCE
The Committee on Finance is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 10 a.m., to conduct a hearing.

COMMITTEE ON FOREIGN RELATIONS
The Committee on Foreign Relations is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 10 a.m., to conduct a business meeting.

COMMITTEE ON INDIAN AFFAIRS
The Committee on Indian Affairs is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 2:30 p.m., to conduct a hearing.

COMMITTEE ON THE JUDICIARY
The Committee on the Judiciary is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 10 a.m., to conduct a hearing.

COMMITTEE ON VETERANS’ AFFAIRS
The Committee on Veterans’ Affairs is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 3 p.m., to conduct a hearing.

SELECT COMMITTEE ON INTELLIGENCE
The Select Committee on Intelligence is authorized to meet during the session of the Senate on Wednesday, July 20, 2022, at 2:30 p.m., to conduct a closed business meeting immediately followed by a closed briefing.

PRIVILEGES OF THE FLOOR
Mr. CASSIDY. Mr. President, I ask unanimous consent that Caroline Watson, in my office, be granted floor privileges until July 21, 2022.

The PRESIDING OFFICER. Without objection, it is so ordered.

Ms. MURKOWSKI. Mr. President, if there is no further business to come before the Senate tonight, I ask that it stand adjourned under the previous order.

There being no objection, the Senate, at 8:47 p.m., adjourned until Thursday, July 21, 2022, at 10 a.m.

CONFIRMATIONS

Executive nominations confirmed by the Senate July 20, 2022:

DEPARTMENT OF STATE
RENÄDETTE M. MEEHAN, OF NEW YORK, TO BE AMBASSADOR EXTRAORDINARY AND plenipotentiary of the United States of America to the Republic of Chile.

THE JUDICIARY
GREGORY BRIAN WILLIAMS, OF DELAWARE, TO BE UNITED STATES DISTRICT JUDGE FOR THE DISTRICT OF DELAWARE.

DEPARTMENT OF THE INTERIOR
CARMEN G. CANTOR, OF PUERTO RICO, TO BE AN ASSISTANT SECRETARY OF THE INTERIOR.
INTRODUCTION OF THE RIGHT TO
TRY CLARIFICATION ACT

HON. EARL BLUMENAUER
OF OREGON
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mr. BLUMENAUER. Madam Speaker, today I introduced the Right to Try Clarification Act. This legislation would expand access to life-changing treatments by including Schedule I substances that have completed phase 1 clinical studies in the Right to Try Act.

Oregon has a long legacy of ensuring that end-of-life patients have access to the full spectrum of treatment options to alleviate their condition and improve their quality of life. Patients and doctors deserve to discuss treatments—including psilocybin—that researchers find provide immediate and sustained relief from pain, anxiety, and depression for people battling terminal illness.

Federal restrictions have obstructed access to end-of-life care for too long, this legislation will change that and ensure that all patients have the Right to Try.

The psychedelics laws in this country are broken, including our laws governing patients’ access to new and promising end-of-life care. Forty-one state legislations have passed Right to Try laws, in addition to our federal Right to Try statute, to allow terminally ill patients access to treatments, including psilocybin, that are still in investigational stages. Both psilocybin and MDMA have demonstrated tremendous care potential in phase 1 and phase 2 clinical trials.

The Drug Enforcement Agency, however, has refused to accommodate Right to Try laws, denying terminally ill patients their freedom to elect their preferred treatments. These patients deserve to be able to discuss and pursue treatments with their doctors that researchers are finding provide immediate, substantive, and sustained relief from anxiety and depression for people battling terminal illness.

That is why the Right to Try Clarification Act is necessary to ensure patients have the Right to Try these treatment options.

I look forward to working with Senators Cory Booker and Rand Paul and my colleagues Representatives Nancy Mace, Madeleine Dean, Andy Biggs, and Luis Correa to enact this legislation and clarify and strengthen the Right to Try.

CELEBRATING YELLOWSTONE NATIONAL PARK’S 150TH ANNIVERSARY

HON. MATTHEW M. ROSENDALE, SR.
OF MONTANA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mr. ROSENDALE. Madam Speaker, I rise today to celebrate the 150th anniversary of Yellowstone National Park.

Signed into law in 1872 by President Ulysses S. Grant, Yellowstone became the first national park in the world. As the largest intact ecosystem in North America, Yellowstone is home to a few endangered animals, and over 1,700 species of trees.

Montana is the “Gateway to Yellowstone” and welcomes 72 percent of guests into the park each year.

The crown jewel of the West, Yellowstone has helped to sustain businesses in Montana for decades.

Flooding at the start of June destroyed bridges, roads, and homes around Yellowstone’s north entrance in Montana, hurting many businesses and families, but Montanans have shown their resilience and have bounced back stronger than ever before.

This anniversary is not only a celebration but also a reminder of the strength and dedication Montanans have shown during this difficult time.

On behalf of the state of Montana, I would like to thank the National Park Service for their efforts to protect the environment and communities that make up the greatest national park in the country.

RECOGNIZING ELAINE M. WALSH, PH.D

HON. CAROLYN B. MALONEY
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mrs. CAROLYN B. MALONEY of New York. Madam Speaker, I rise to pay tribute to Elaine M. Walsh, Ph.D., for her outstanding community advocacy as she departs Manhattan Community Board 8 (CB8) after a quarter century of dedicated leadership and service.

Dr. Walsh first began her long history of community engagement during her time at Fordham University’s Graduate School of Social Service, where she earned a Master of Social Work. She began her career as a social worker in New York City, becoming the director of senior citizen crime prevention for the New York City Department for the Aging and the director of elderly services at the Office of Victim Services.

Dr. Walsh has served as Director of the Public Service Scholar Program (PSSP) at Hunter College since 1986 after joining the university as an Associate Professor of Urban Affairs. The PSSP works to improve the city by preparing talented undergraduate students for careers in the public and non-profit sectors. The program also aims to increase representation of women, minority-group members and immigrants in leadership positions. Under Dr. Walsh’s supervision, over 700 of the program’s scholars have contributed more than 500,000 hours in service to communities throughout New York City.

Dr. Walsh served as a member of CB8 for 25 years and co-chaired the CB8 Zoning and Development Committee. During her tenure, Dr. Walsh was a constant advocate for her community, particularly in regard to environmental concerns and infrastructure. During her time as a member, Dr. Walsh worked to support policies and programs that increased accessibility to city services for both businesses and individuals and served as the conscience of the Board in her consistent, forceful advocacy for the needs of underprivileged New Yorkers.

Dr. Walsh serves as President of the East 86th Street Association, which she helped to establish in 2004. The Association seeks to “improve the quality of life along the East 86th Street corridor by conducting research, education, and advocacy projects” while facilitating community dialogue to encourage civic participation and foster neighborhood pride. Under the leadership of Dr. Walsh, the East 86th Street Association has worked on many projects which have greatly improved residents’ quality of life.

Dr. Walsh has previously received awards including the New York City Chapter’s “NASW Leadership Award”, the NYC Public Advocate “Advocate’s Award”, Fordham University’s “Alumni Award”, the Manhattan Borough President’s “Women’s Leadership Award”, the NYC Comptroller’s Award “Outstanding Irish Educator in Social Policy and Leadership”, the Our Town newspaper’s OTTY award for her continued leadership and advocacy in the East 86th Street Association, and was named one of the 2013 New York State Senate’s “Women of Distinction”.

Madam Speaker, I ask my colleagues to join me in recognizing the accomplishments and contributions of Dr. Elaine M. Walsh. Her dedication and leadership have helped cultivate a better, more lively community for the residents of Roosevelt Island and Manhattan’s Upper East Side. Dr. Walsh’s service and commitment to improving the lives of New Yorkers will leave a lasting impact on her community and our city.

RECOGNIZING THE RESILIENCE OF THE PEOPLE, CULTURE, LAND, AND WATER OF NEW MEXICO

HON. TERESA LÉGER FERNÁNDEZ
OF NEW MEXICO
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Ms. LÉGER FERNÁNDEZ of New Mexico. Madam Speaker, as we mark National Latino Conservation Week, I rise to celebrate the resiliency of the people of Las Vegas, Mora, and the surrounding New Mexico communities. Since April, the Forest Service-caused Hermits Peak Fire and Calf Canyon Fire has ravaged the area. I am proud to join my resilient community to celebrate our combined strength and capacity to recover during challenging times. The Hispanic heritage of this area is a strength we will rely on to heal.

Now in its fourth month, the fire has burned over 340,000 acres and become the biggest...
HONORING VITA SWARERS

HON. KEVIN BRADY
OF TEXAS

IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mr. BRADY. Madam Speaker, today I rise to honor Vita Swarers on the occasion of her birthday, July 24th. Vita serves as the Deputy Director of the Academy Admission Office at the United States Military Academy, West Point. She has dedicated the past 24 years to the Armed Forces, and her passion and commitment have allowed her to inspire and guide thousands of aspiring military leaders.

Vita began her career as a social worker in Orange County, California, where she utilized her background in psychology and social work to help students and families navigate the complexities of the military lifestyle. She seamlessly transitioned into her role at the Military Academy, where she continues to be a driving force in the development of future military leaders.

Vita is a shining example of dedication, resilience, and service. Her unwavering commitment to her students and the military community has made a profound impact on countless lives. She has inspired many to follow in her footsteps and has demonstrated the importance of commitment and service in achieving one's goals.

We wish Vita a Happy Birthday and express our gratitude for her service to our nation. May her spirit continue to inspire and guide all who seek to make a difference in the lives of others.
and leaders around the country serve as evidence that closing the STEM education gap and increasing the number of Hispanics in STEM can and will be done.

Rod will be remembered by his colleagues and thousands of current and former SHPE students and professionals for his devotion, service, perseverance and immediate contributions to expanding awareness, access, support, and development opportunities to Hispanics in STEM so that they may realize their potential and positively impact the world. His legacy of empowering the Hispanic community to achieve educational excellence, economic opportunity, and social equity will guide many members of the Society of Hispanic Professional Engineers for generations to come. I ask my colleagues to join me in commemorating the life of this extraordinary individual.

HONORING MR. WILLY ELLIOTT-MCCREA

HON. JIMMY PANETTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 20, 2022

Mr. PANETTA. Madam Speaker, I rise today to recognize the retirement of Mr. Willy Elliot-McCrea from the Second Harvest Food Bank Santa Cruz County after thirty-three years of dedicated service to communities across the central coast of California. The Second Harvest Food Bank Santa Cruz County was the first food bank in California and the second in the nation—it was founded in 1972 as an emergency food pantry to distribute U.S. Department of Agriculture surplus food as a part of the Community Action Board in the City of Santa Cruz.

Mr. Elliot-McCrea began his public service career with the Second Harvest Food Bank in 1979 as the warehouse manager and driver, later taking on the responsibility of purchasing food. In that same year, he represented Second Harvest Food Bank as one of thirteen food banks in California and the second in the nation—California Food Bank was promoted to Executive Director and later to Chief Executive Officer in 1993, the position he held until retirement. Shortly after his promotion to Executive Director, the 6.9 magnitude Loma Prieta Earthquake devastated Santa Cruz and surrounding areas in October 1989. The Food Bank became ground zero for disaster relief, with the number of people served dramatically increasing from 15,000 per month to 25,000 people per week.

Throughout his time with the Second Harvest Foodbank, Mr. Elliot-McCrea helped guide statewide policy, championing progress in food security resources. He energized the Second Harvest Board of Directors to change its mission to be more community-focused, thus pioneering a new model for food banks and inspiring emergency feeding operations nationwide. To this day, food bank distributions operate around a network of community-based food pantries in senior residential living centers, homeless service centers, schools, churches, and neighborhood resource centers.

Mr. Elliot-McCrea led Second Harvest Food Bank through major disasters, recessions, and, most recently, the coronavirus pandemic. In 2011, Second Harvest provided an average of 6.7 million pounds of fresh fruits and vegetables to the Santa Cruz community, but in the first year of the pandemic, Second Harvest’s operations grew to providing 16.5 million pounds of fresh fruit and vegetables. In addition to his role with Second Harvest, Mr. Elliot-McCrea also served as the founding president of the California Association of Food Banks (CAFB) from 1995 to 1998 and again from 2019 to 2021. The CAFB ensures its coalition of 41-member food banks have the tools and resources to focus on feeding communities across California. The Association also provides Nutrition Education Programs that work with community volunteers to provide Nutrition Support Groups and Cooking Clubs.

Madam Speaker, I ask my colleagues in the House of Representatives to join me in recognizing and thanking Willy Elliot-McCrea for his decades of service. His leadership and dedication to public service have shaped the food bank community not just in Santa Cruz County, but across the nation. I extend my personal appreciation to Mr. Willy Elliot-McCrea and his dedication to the central coast of California.

TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2023

SPEECH OF HON. DARREN SOTO

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, July 19, 2022

Mr. SOTO. Mr. Chair, I want to commend the members of the House Committee on Appropriations, specifically the members of the Subcommittee on Military Construction, Veteran Affairs, and Related Agencies Fiscal Year 2023 Appropriations bill for including robust funding for Major Projects Construction.

This funding for the construction, alteration, extension, and improvement of any facilities within the jurisdiction or use of the Department of Veteran Affairs will help all VA hospitals expand access to health care to veterans. For example, the Lake Nona VA Medical Center located in my district has grown substantially since established in 2006. The Lake Nona VA Medical Center serves more than 110,000 veterans in Central Florida and includes a 120-bed Community Living Center, two Mental Health Residential Rehabilitation Treatment Programs/Domiciliaries, located at both Lake Nona Campus and the Lake Baldwin Campus, one Health Care Center in Viera, two large multi-specialty Satellite Outpatient Clinics in Orlando and Daytona Beach, and four Community-Based Outpatient Clinics located in Clermont, Kissimmee, Orange City, and Tavares.

A facility expansion of the Lake Nona VA Medical Center would add at least additional twenty beds for inpatient mental health care and three additional floors for intensive and surgical rehabilitation. I am proud of the healthcare provided by Lake Nona VA Medical Center to veterans in the Central Florida. I believe Congress should continue to provide the resources necessary to allow for expansion and improvement of facilities under the jurisdiction of the Department of Veteran Affairs and I look forward to continuing to work with my colleagues to support this goal.

PERSONAL EXPLANATION

HON. BRIAN BABIN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 20, 2022

Mr. BABIN. Madam Speaker, I voted ‘no’ but it was not recorded (card apparently not read).

HONORING THE RETIREMENT OF SERGEANT TIM STACY

HON. DEBBIE DINGELL

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 20, 2022

Mrs. DINGELL. Madam Speaker, I rise today to recognize Sergeant Tim Stacy of the Dearborn Police Department on the occasion of his retirement. His honorable 22 years of service to our community is worthy of commendation.

A graduate of Southgate Anderson High School, Schoolcraft College, and Wayne County Community College Sergeant Stacy began his career in the Dearborn Police Department in 1994 as a reserve police officer. After obtaining his criminal justice degree in 1996, he was promoted to the role of Police Ordinance Officer in 1997. From there, he worked his way up the ranks becoming certified in traffic safety and accident investigations and was promoted to the position of Sergeant and Officer in Charge of the Police Motor Carrier and Ordinance Enforcement Units in 2015.

Known for his caring heart and willingness to help those in need, Sergeant Stacy has always looked for new ways to advance professionally and better serve his community. He has frequently attended trainings at the Federal Law Enforcement Training Center and Federal Motor Carrier Safety Administration. In addition to his duties as an officer, he served as a community liaison for the department, helping improve the lives of his neighbors each day. A dedicated officer and known for his commitment to improving his community, he was awarded the Chiefs Outstanding Service Award in 2018. He has always been there to help anyone who needed a helping hand. He continues to reside in Lincoln Park, Michigan with his wife Maya and is an outstanding father to their children Ava, Emma, and Lily.

Madam Speaker, I ask my colleagues to join me in honoring Sergeant Tim Stacy for a career of exemplary service to the Dearborn Police Department. I join with Sergeant Stacy’s family, friends, and colleagues in extending my gratitude to him for his decades of honorable service. We thank him for serving the people of the City of Dearborn for the past 22 years. We wish him the best in retirement and lots of time spent with friends and family as he fights cancer. He is a man of honor and bravery—Cancer has never had a more formidable opponent.
Domestic Crisis Services, kicking off her admiring devotion to improving the lives of others. Her legacy of service is one of unwavering dedication to support the Central Coast’s unhoused community. Following her time with the Coalition of Homeless Services Providers, Ms. Rowland joined Monterey County Department of Social Services in 2012 as a Management Analyst in the Community Action Partnership and Director’s Office. In this role, Ms. Rowland continued her career-long pattern of developing programs to support unhoused people in Monterey County. Here, she influenced programs like the Monterey County Safe Parking Program and was critical in the creation of the Salinas Housing Advancement, Resource and Education (SHARE) Center.

At the start of the COVID–19 pandemic, Ms. Rowland took the initiative to support our community’s relief efforts through the Alternate Housing Site project. She also dedicated her time and talents to the Commission on the Status of Women, the Emergency Food and Shelter Local Board, the Salinas Downtown Community Board, and the Homeless Census Point-in-Time Planning Committee.

Madam Speaker, I ask my colleagues in the House of Representatives to join me in recognizing Ms. Rowland’s decades of service to Monterey County. Her career will serve as a model for selflessness and compassion for our community. It is therefore fitting and proper that we honor her today.

PERSONAL EXPLANATION

HON. VICKY HARTZLER
OF MISSOURI
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Ms. HARTZLER. Madam Speaker, on Tuesday, July 19, 2022, I was unable to vote. Had I been present, I would have voted NO on Roll Call No. 365; NO on Roll Call No. 366; YEA on Roll Call No. 367; NO on Roll Call No. 368; NO on Roll Call No. 369; YEA on Roll Call No. 370; YEA on Roll Call No. 371; NO on Roll Call No. 372; NO on Roll Call No. 373; YEA on Roll Call No. 374; YEA on Roll Call No. 375; YEA on Roll Call No. 376; YEA on Roll Call No. 377; and YEA on Roll Call No. 378.

TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2023

SPEECH OF

HON. PATRICK T. MCHENRY
OF NORTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, July 19, 2022

Mr. MCHENRY. Mr. Chair, the report accompanying the FSGG Appropriations bill includes “an increase of $6 million above the budget request for USPS to carry out pilot programs to modernize its current postal banking services, including surcharge-free automated teller machines, wire transfers, check cashing, and bill payment.”

This “Postal Non-banking Financial Services Modernization Pilot Program” is yet another attempt by progressives in Congress to expand the U.S. Postal Service’s core mission into the financial system. This concept is ultimately harmful to American consumers because it would increase fees and potentially crowd out private sector financial services. This proposal should not be the policy of the United States Government.

Furthermore, the postal banking program would be a special case of the failure of government to regulate and operate competitively and flexibly to meet the needs of customers.

Postal banking couldn’t compete with private sector banking institutions. It did not have the ability to offer consumer banking services such as checking and savings accounts and extensions of credit to consumers and small businesses. These functions are beyond the Post Office’s core competencies, which will subject taxpayers to potential losses, will undermine the sector’s ability to justify tax-payer-subsidized banking services, and pose a threat to consumers’ privacy when it comes to financial data.

In 2018, the previous Administration created a special task force to specifically review the Post Office and identify necessary reforms. The Treasury Department was directed to release the Task Force’s recommendations, which it did in its report, “United States Postal Service: A Sustainable Path Forward.”

The Task Force’s recommendations, including requiring taxpayers to pay for services that “give the USPS’s narrow expertise and capital limitations, USPS should not pursue expanding into new sectors, such as postal banking, the USPS does not have a demonstrable competency or comparative advantage, or where balance sheet risk would be added.”

Moreover, the Post Office agreed. In response to a widely criticized and highly unusual request for USPS to carry out pilot programs to modernize its current postal banking services, the Post Office made clear that despite any recommendations to the contrary from the OIG, the Post Office’s core mission “is delivery, not banking.”

Progressives argue postal banking is needed to address the decreasing number of bank branches and the rise in the number of people without access to a checking account or short-term credit. Democrats automatically believe that means that the government should provide these banking services, including through the Post Office. What Democrats fail to acknowledge is financial institution branch closures and consolidations result from overly burdensome government regulation, which wouldn’t be reconciled using more government.

Progressives haven’t been able to change the Post Office. From 1911 to 1967, the United States had the “Postal Savings System,” run by the USPS’ predecessor. The system provided savings accounts with interest rates set by the USPS and funds deposited in national banks near depositories’ post offices. The system failed. Postal banking couldn’t compete with the private sector’s ability to regulate and operate competitively and flexibly to meet the needs of customers.

Moreover, American consumers demonstrated recently that they are not interested in banking with the USPS. Just last year, the USPS took it upon itself to create a pilot program to offer check cashing services in the form of gift cards. According to documents submitted to the Postal Regulatory Commission, these six gift card pilot program and total fee revenue was $35.70. The failure of the pilot program demonstrates the fact that it was not designed in response to customer demand and that consumers are not interested in banking with the federal government, including USPS.

Private sector financial institutions are highly regulated and operate competitively and flexibly in a market-based system. The ensures...
HONORING THE RETIREMENT OF DESTINATION ANN ARBOR PRESIDENT AND CEO MARY KERR

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 20, 2022

Ms. KERR has been instrumental in growing the budget of the organization. She also oversaw the creation of the Ann Arbor Sports Commission, a ten-year destination master plan for Washtenaw County that consists of a strategic plan to boost the local economy and other key initiatives to ensure Ann Arbor is a destination for travelers and locals alike. Outside of work, she continues to advocate for the hospitality industry through her roles on various boards in Washtenaw County.

Ms. Kerr has been recognized for her dedicated service through various awards, such as the Lifetime Achievement Award by Michigan Meetings and Events. She was also named CVB Star of the Year at the Pure Michigan Governor’s Conference on Tourism. Her stellar work as an ambassador for our community makes her beyond worthy of this recognition.

Madam Speaker, I ask my colleagues to join me in honoring Mary Kerr for her 27 years of service. As we come together to celebrate her retirement, all of us in the Washtenaw community reflect on the great work she has done that will benefit our area for years to come. I join with her family, friends, and colleagues in wishing her the very best in her retirement.

HONORING ANDREW PIERCE FOR HIS SERVICE IN THE PEACE CORPS

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 20, 2022

Ms. NORTON. Madam Speaker, I rise today to honor Andrew Pierce for his exceptional leadership and service as the Acting Chief Financial Officer, Deputy Chief Financial Officer and Director of Accounting and Financial Reporting at the Peace Corps. During his nearly 7 years at the Peace Corps, Mr. Pierce played a vital role in ensuring resources were effectively and efficiently managed, contributing important mission of the Peace Corps. He provided solutions during the beginning of the COVID–19 pandemic, when global evacuations of thousands of Peace Corps volunteers were necessary. Mr. Pierce was instrumental in ensuring that the Peace Corps received a clean audit opinion during his entire tenure. This is particularly remarkable because of the inherently transient nature of the Peace Corps workforce and the global footprint of the agency’s financial operations. He was highly respected by his colleagues for his keen intellect, professionalism; kindness, dedication to service and being a consummate team player.

President Kennedy said that by establishing the Peace Corps, “[W]e intend to make full use of the resources and talents of private institutions and groups. Universities, voluntary agencies, labor unions and industry will be asked to share in this effort—contributing diverse sources of energy and imagination—making it clear that the responsibility for peace is the responsibility of our entire society.” Mr. Pierce answered the call and did his part, enabling the Peace Corps and our nation to strengthen bonds of friendship and foster global peace.

I ask my colleagues to join me in thanking Andrew Pierce for his service and wishing him continued success in his role as the Executive Director for Budget and Analysis for Maryland.

RECOGNIZING MINNESOTA’S 2022 SOMALI-AMERICAN HERITAGE WEEK

HON. BETTY McCOLLUM

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 20, 2022

Ms. McCOLLUM. Madam Speaker, I rise today to honor Minnesota’s vibrant Somali-American community and the many cultural, economic and social contributions members make to our state, and in recognition of Somali-American Heritage Week during July 2–17 in Saint Paul and Minneapolis.

The commemoration of Somali Independence Day is marked by Somali Week celebrations in Minnesota, hosted by Rising Impact, a nonprofit dedicated to the safety and success of Somali-American youth in Minnesota. Hosted in locations throughout Saint Paul and Minneapolis, the festivities are a chance to unite and celebrate Minnesota’s diversity through a broad range of artistic, cultural and athletic events.

This year the celebrations drew together more than 45,000 participants to enjoy the food, music, dance, films, and the history of the Somali people and the Somali-Americans who call Minnesota home. Some of the most notable events from this year’s celebration include a roundtable discussion with the U.S. Ambassador to Somalia, Larry E. André and community members about ongoing humanitarian relief efforts and the United States support for democracy in Somalia, the “Xasuuso (Remember) 1960” event which tells the story of Somalia’s independence, and the Growth Conference, which is a chance for members of the African diaspora to share knowledge and resources to build up minority-owned businesses.

Led by the Somali Week Chairperson, Daud Mohamed, the organizers and volunteers for Somali Week continue to forge strong ties with various community, corporate and government partners to bring this vibrant festival to life each year.

Madam Speaker, Minnesota’s Somali community has added greatly to the fabric of our state and our Nation, and they are a prominent part of the diverse community that makes Minnesota a great place to call home. Please join me in paying tribute to the community members who come together each year to celebrate Somali Week, and who work every day to foster, educate, and promote cultural understanding and traditions among all Minnesotans.

SUPPORTING U.S. NAVY LT. RIDGE ALKONIS AND U.S./JAPAN RELATIONS

HON. AUMUA AMATA COLEMAN RADEWAGEN

OF AMERICAN SAMOA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 20, 2022

Mrs. RADEWAGEN. Madam Speaker, I rise today in support of U.S. Navy Lieutenant Ridge Alkonis, a sailor currently stationed abroad in Japan. Essential to the economic and political stability of the Pacific region around my home of American-Samoa is the U.S.–Japan alliance. As a significant part of this alliance, the U.S. Navy and Japanese Maritime Self-defense Force jointly project power and security throughout the Pacific; and, enabling this naval partnership are the 19,000 American sailors stationed there. While the U.S. and Japanese naval forces have long maintained a strong bond, the relationship is deteriorating as a result of Japanese injustices against U.S. military members. The case of U.S. Navy Lieutenant Ridge Alkonis, who is of Samoan descent, exemplifies the disparate treatment American sailors receive in Japan. While driving his wife and three children to get ice cream during a family outing one Saturday in May 2021, LT. Alkonis suffered a sudden and unforeseen medical emergency which resulted in a tragic car accident, causing the
death of two Japanese citizens. When I became aware of this tragedy last year, I immedi-
diately conveyed my condolences to Ambas-
dador Tomita and continue to pray for the fam-
ily of those who passed away. At the scene of the accident, LT. Alkonis was immediately ar-
rested by Japanese authorities without receiv-
ing any medical care and imprisoned in soli-
tary confinement for 26 days. He was system-
atically deprived of sleep, denied legal counsel
while undergoing harsh daily interrogations by
Japanese authorities, and pressured to sign false
accusations. Financial compensation plays a
large role in the Japanese judicial system, with Japanese citizens possessing
considerable leverage over foreigners in court.
LT. Alkonis was advised into signing a $1.65
million financial settlement, the largest private
financial settlement ever entered into by a
U.S. service member in Japan. Despite there
being no evidence of negligence on his part,
LT. Alkonis cooperated fully in the investiga-
tion and paid the financial settlement in full;
nevertheless, he was still sentenced to three
years in prison. And last month, the Tokyo
High Court rejected the majority of evidence
submitted by LT. Alkonis including the Japa-
nese police arrest warrant and a medical diag-
nosis by military physicians. The Court dis-
missed LT. Alkonis’s appeal last week, even
disregarding the financial settlement—an un-
precedented decision by a Japanese court.
Many familiar with these proceedings have
called this situation the most egregious case
against an American service member by Japan
in over 60 years. I’m deeply troubled by
Japan’s treatment of LT. Alkonis. A review of
the facts clearly shows that LT. Alkonis did not
fall asleep and was not negligent, that he did
in fact suffer a medical emergency. While in-
deed a tragedy, this was an accident in every
sense of the word. Additionally, there have
been numerous Status of Forces Agreement
violations and human rights abuses by Japan.
I have even heard persuasive allegations of il-
llicit domestic political interference in LT.
Alkonis’s court proceedings by the victims’
family, which is strongly connected to the
Tokyo High Court. The treatment of LT.
Alkonis has been unacceptable and is hurting
the U.S.-Japan alliance exactly when it needs
to be strengthened. America cannot allow our
brave sons and daughters to be so vulnerably
exposed while serving abroad. I call on Presi-
dent Biden, as well as our Ambassador to
Japan—Ambassador Emanuel, to bring LT.
Alkonis home and to immediately work with
our Japanese partners to ensure that the
terms of the Status of Forces Agreement are
immediately reviewed and enforced at every
level. Now more than ever, we need to ac-
knowledge and correct injustices and take the
appropriate steps to strengthen this alliance by
ensuring service members are treated fairly.

HONORING DIANE PORTER COOLEY
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Mr. PANETTA. Madam Speaker, I rise today
to recognize the vibrant life of Diane Porter
Cooley, a pillar of the Pajaro Valley and Santa
Cruz County community, who passed away on
March 10, 2022.

Born to a family that settled in Santa Cruz
County in the 1850s, and raised on Las
Lomas Ranch in Watsonville, Diane had a
deep connection to the land and people of the
central coast of California. Her father Tom
was one of the four founders of Driscoll Berries,
and Diane continued her involvement with ag-
riculture until her death. Diane and her hus-
band, Don, were active members of the com-
community, constantly engaged in the issues they
cared about.

A deeply passionate civic leader, Diane
worked tirelessly to protect and preserve the
environment. She was an advocate for the
people of the Pajaro Valley. She once said,
“care for the trees but for humans, too.
People should have the chance to thrive just
like the Sequoia should stand tall.”

She was a dynamic agent of change who
championed the creation of the Elkhorn
Slough Foundation, the Pajaro Valley Arts
Council, the Community Foundation of Santa
Cruz County, and the Land Trust of Santa
Cruz County. She was involved with the Na-
ture Conservancy, served on the Pajaro Valley
Water Management Agency board, and was a
supporter of many other causes, including
Pajaro Valley Shelter Services, Salud Para la
Gente, the University of California, Santa
Cruz, Cabrillo College, and Second Harvest
Food Bank in Watsonville. We may never
know just how many lives she touched, or how
many people received an education, braces,
medical care, a home, or love when they
needed it most thanks to her.

Madam Speaker, Diane Porter Cooley’s out-
reach and philanthropy extended far and wide
throughout our community. As Santa Cruz
County’s tireless champion, in fact suffered a
medical emergency. While in-

HONORING THE COURAGEOUS LIFE
AND SERVICE OF JOHN W. SEA-
MAN
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Wednesday, July 20, 2022

Ms. STEFANIK. Madam Speaker, I rise
today to honor John W. Seaman, for his brave
service in the New York National Guard.

John Seaman was born in 1937 in Wantagh, New York. When he was young, his
family moved to Greenfield and started a farm.
In 1959, John entered the New York Army Na-
tional Guard and was enlisted with the 247th
Medical Company. John was deployed twice
during his tenure with the National Guard.
Both of his deployments were in the Return
Forces to Germany Operations in 1990 and
1992 following the fall of the Berlin Wall. Dur-
ing these deployments, John supported active
troops with military medical support and deliv-
ery of aid.

For his brave service during the 1990 de-
ployment, John was awarded the Army Com-
memoration Medal. In 1974, John’s unit was
awarded the National Guard Superior Unit
Award for maintaining the Guard’s highest
standards. John retired from the service in
1997 at the rank of Sergeant First Class E–7
and was awarded the Army Service Ribbon
and the National Defense Service Medal for
many years of service in the National Guard.

In addition to his time in the National Guard,
John locally served his local community in
a variety of different roles. In 1961, John and his
wife moved to Corinth, New York, where he
worked as the Superintendent of Buildings,
Grounds Maintenance, Custodial Staff, and
the Bus Garage for the Corinth School District.
He worked for the school district for a total of
37 years. While working for the school, John
was actively involved in multiple local organi-
izations. He was a member of the village plan-
ning board, president of Rondac Campers As-
sociation, and commander of the Horace D.
Washburn American Legion Post 553.

Throughout his life, John showed excep-
tional dedication to serving his country and his
local community. We are proud to join
the Saratoga County Veterans Association as part
of the monthly Honor our Disabled Veterans
Ceremony to honor John. On behalf of the
21st District of New York, I would like to thank
John Seaman and his family for their service
to the country and to the Corinth community.
RECOGNIZING MAJOR GENERAL HUGH ROBERT OVERHOLT, U.S. ARMY (RETIRED)  
HON. GREGORY F. MURPHY  
OF NORTH CAROLINA  
IN THE HOUSE OF REPRESENTATIVES  
Wednesday, July 20, 2022

Mr. MURPHY of North Carolina. Madam Speaker, I rise today to honor Major General Hugh Robert Overholt of the United States Army (Retired) for his lifelong service to our country’s military, Eastern North Carolina, and our great Nation. Born in the town of Beebe, Arkansas in 1933, General Overholt attended the University of Arkansas where he earned both a bachelor’s degree and a law degree. While attending law school, he served as the Comments Editor for the University of Arkansas Law Review.

Following his graduation in 1957, General Overholt entered the Army’s Judge Advocate General’s Corps and was commissioned as a First Lieutenant in the U.S. Army. After his graduation from the Army’s Judge Advocate General’s school, General Overholt would go on to serve in various leadership roles within the United States Army including Assistant Judge Advocate General of the U.S. Army, General Staff, Judge Advocate General of the U.S. Army from 1985 to 1989. General Overholt served a remarkable ten years as a General Officer, which included eight as a Major General. General Overholt used these years to increase the professionalism and the role of the Judge Advocate General’s Corps through critical reforms and reforms.

One of the finest accomplishments in General Overholt’s career was the establishment of the Masters in Military Law (LL.M.) program at the Army’s Judge Advocate General’s Legal Center and School located at the University of Virginia. General Overholt also greatly expanded the schools’ facilities, automatized the delivery of Army legal services, and published a revolutionary code of professional responsibility for members of the Army’s Judge Advocate Corps. General Overholt’s changes modernized the Army’s legal services and exemplified his ability as an outstanding leader.

General Overholt has received numerous awards in recognition of his life of service. These include the Distinguished Service Medal (Oak Leaf Cluster), Legion of Merit, the Department of Defense Meritorious Service Medal, the Meritorious Service Medal (Oak Leaf Cluster), and the Army Commendation Medal (Two Oak Leaf Clusters). Along with attending the Army’s Judge Advocate General’s Corps Basic and Advanced Courses, General Overholt also attended Airborne School, Command and General Staff College and the National Defense University.

General Overholt has served on the North Carolina Board of Transportation (BOT) since 2009 and was instrumental in creating a new 2020 Department of Transportation (DOT) law that gave the BOT more oversight authority. This new legislation also shifted designation of board members from the Governor to the General Assembly. For the first time under this new authority, Speaker of the North Carolina House Tim Moore used one of the new special Assembly appointments for General Overholt who was first placed on the BOT by Governor Beverly Perdue and was re-appointed by Governors Pat McCrory and Roy Cooper. General Overholt is the only BOT member who has been appointed by both Republican and Democratic Governors, plus a Republican Speaker of the House.

General Overholt in action means seeing good government work. Between 2009 and 2020, General Overholt was instrumental in delivering over $800 million in new road projects to Carteret, Craven, Jones, Lenoir, and Pitt Counties. Of particular importance has been his support for military related transportation projects. One of the most vital military projects was the new Marine Air Corps Station (MCAS) Cherry Point Slucom overpass ramp. General Overholt secured over $30 million in special funding for the project as part of the North Carolina Department of Transportation’s (NCDOT) efforts to support the military and reduce traffic accidents and congestions in Havelock. He also advocated for the Highway 17 Bypass through Jones County that finally connected Camp Lejeune and MCAS Cherry Point with a four-lane highway. This was decades in the making and without General Overholt’s leadership, it would not have become a reality.

Two other major projects General Overholt helped shepherd through to construction are the Havelock Highway 70 Bypass and the James City-New Bern Highway 70 reconstruction. Today, as an at-large BOT member continues to support Craven and Carteret Counties, the State Ports, aviation, rail, and the Global TransPark as well as overall transportation-related economic development.

Prior to his appointment to the BOT, General Overholt was a Governor’s appointee to the North Carolina Military Affairs Advisory Commission. He also helped lead the State’s 2004 Base Realignment and Closure (BRAC) response team where he focused on advocating for MCAS Cherry Point. General Overholt was again successful in preventing the closure of this vital base.

General Overholt also serves as Chairman of the North Carolina’s 3rd Congressional District Service Academy Nomination Board, where he assists in nominating high school students to our esteemed service academies. He continues to be a servant to the people and the impact he has made on the citizens of this great nation is truly remarkable.

General Overholt and his wife, Ann, have two children, Scott and Carolyn, and two grandchildren, Grayson Overholt and Ashton Overholt Baker, and two great-grandchildren, Sebastian and Sawyer Baker.

Madam Speaker, please join me in honoring the service of this great patriot and all he has done and continues to do for our great state and Nation.

RECOGNIZING THE EGYPTIAN HERITAGE DAY FESTIVAL  
HON. CAROLYN B. MALONEY  
OF NEW YORK  
IN THE HOUSE OF REPRESENTATIVES  
Wednesday, July 20, 2022

Mrs. CAROLYN B. MALONEY of New York. Madam Speaker, I rise to convey my good wishes to the organizers of this year’s Egyptian Heritage Day Festival in Astoria, Queens. Thanks in part to the efforts of dedicated groups such as theirs, New York City is one of the world’s great cultural melting pots.

The Egyptian community has long been a pillar of New York City’s vibrant immigrant landscape and events like the Egyptian Heritage Day Festival highlight the essential role that Egyptians and all cultural groups play in shaping the fabric of our great city and country.

I have the privilege of representing Little Egypt in Congress, and I have seen firsthand the beauty and strength of this community. Whether it is with authentic Egyptian restaurants, small businesses or community events, Little Egypt and our city’s Egyptian community play a key role in making New York City the multicultural capital of the world.

Egyptian Americans have made significant contributions to our country in the fields of science, arts, sports or entertainment. Ahmed Zewail was the first Egyptian to be awarded a Nobel Prize in a scientific field. He studied in and taught at our nation’s finest institutions and was nominated by President Obama to serve on the President’s Council of Advisors on Science and Technology. Mohamed Atalla is often described as a pioneer of semiconductors and electronics. He was awarded the Benjamin Franklin medal in physics and was inducted into the National Inventors Hall of Fame. Rami Malek has starred in several award-winning films and in 2018 he became the first actor of Egyptian heritage to win the Academy Award for Best Actor for his role in Bohemian Rhapsody. Michael Mina, is a graduate of the Culinary Institute of America and now heads the Mina Group, a network of 40 restaurants worldwide.

As these examples illustrate, Egyptian Americans have played a crucial part in our country’s scientific, cultural, and artistic accomplishments. Their talents, hard work and dedication help make our country a global beacon of opportunity and discovery.

Madam Speaker, I ask that my colleagues join me in congratulating the organizers of this festival and celebrating the enormous contributions that Egyptian-Americans have made to our country.

RECOGNIZING MS. JANINE GUIDO AND THE SPERANZA ANIMAL RESCUE  
HON. SCOTT PERRY  
OF PENNSYLVANIA  
IN THE HOUSE OF REPRESENTATIVES  
Wednesday, July 20, 2022

Mr. PERRY. Madam Speaker, I am honored to recognize Ms. Janine Guido for her tireless, selfless, and relentless commitment to the protection and rescue of animals in and outside of our community.

Janine grew up around avid horse-riders—where her affection and love for animals and all wildlife began. When her family built their 18-acre horse farm in Mechanicsburg, Pennsylvania, the two children and their two great-grandchildren, Grayson Overholt and Ashton Overholt Baker, and two great-grandchildren, Sebastian and Sawyer Baker, and two great-grandchildren, Sebastian and Sawyer Baker.

Madam Speaker, please join me in honoring the service of this great patriot and all he has done and continues to do for our great state and Nation.

RECOGNIZING THE EGYPTIAN HERITAGE DAY FESTIVAL  
HON. CAROLYN B. MALONEY  
OF NEW YORK  
IN THE HOUSE OF REPRESENTATIVES  
Wednesday, July 20, 2022

Mrs. CAROLYN B. MALONEY of New York. Madam Speaker, I rise to convey my good wishes to the organizers of this year’s Egyptian Heritage Day Festival in Astoria, Queens. Thanks in part to the efforts of dedicated groups such as theirs, New York City is one of the world’s great cultural melting pots.

RECOGNIZING MS. JANINE GUIDO AND THE SPERANZA ANIMAL RESCUE  
HON. SCOTT PERRY  
OF PENNSYLVANIA  
IN THE HOUSE OF REPRESENTATIVES  
Wednesday, July 20, 2022

Mr. PERRY. Madam Speaker, I am honored to recognize Ms. Janine Guido for her tireless, selfless, and relentless commitment to the protection and rescue of animals in and outside of our community.

Janine grew up around avid horse-riders—where her affection and love for animals and all wildlife began. When her family built their 18-acre horse farm in Mechanicsburg, Pennsylvania, the two children and their two great-grandchildren, Grayson Overholt and Ashton Overholt Baker, and two great-grandchildren, Sebastian and Sawyer Baker, and two great-grandchildren, Sebastian and Sawyer Baker, and two great-grandchildren, Sebastian and Sawyer Baker, and two great-grandchildren, Sebastian and Sawyer Baker.
creatures—dogs, horses, goats, and cows, for starters. In the Spring of 2012, she began the process of establishing an official, non-profit Animal Rescue organization named “Speranza”—the Italian word for “hope”—which is now known around the world.

Janine is passionate about rescuing and rehabilitating animals—particularly those deemed “lost causes.” She ensures that not only do these special creatures get a second chance at life, but that they truly learn the meaning of friendship, acceptance, trust, and love. Any animal that is, has been, or will be in Janine’s care—which in some cases even means at the tragic moment of their last breaths in her arms—will know how much they’re loved, cared for, and how much their lives mattered.

Janine’s tireless support by her loving family and longtime boyfriend continue to allow her not only to realize her life’s work, but to give 100 percent of her time, heart, and soul to this critical mission. She has set the standard not only for the numerous volunteers and good Samaritans who selflessly give of their time and/or treasure to share in this calling, but for all of us to follow.

I am humbled and honored to recognize and commend Ms. Janine Guido and Speranza Animal Rescue of Mechanicsburg, Pennsylvania, on the auspicious occasion of their 10th Anniversary, and dedication to, support, and protection of our creatures great and small. I wish her Godspeed as she continues these spectacular and meaningful adventures.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate of February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place and purpose of the meetings, when scheduled and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, July 21, 2022 may be found in the Daily Digest of today’s RECORD.

MEETINGS SCHEDULED

JULY 26

9:30 a.m. Committee on Armed Services
To receive a closed briefing on Indo-Pacific policy and operations.
SVC–217

10 a.m. Committee on Foreign Relations
To hold hearings to examine diversity, equity, inclusion, and accessibility in U.S. diplomacy and development.
SD–419

Committee on Health, Education, Labor, and Pensions
To hold hearings to examine fighting fentanyl, focusing on the Federal response to a growing crisis.
SH–216

Committee on Homeland Security and Governmental Affairs
Permanent Subcommittee on Investigations
To hold hearings to examine corruption, abuse, and misconduct at U.S. Penitentiary Atlanta.
SD–342

Committee on the Judiciary
To hold hearings to examine law enforcement officer safety, focusing on protecting those who protect and serve.
SD–226

10:15 a.m. Committee on Banking, Housing, and Urban Affairs
To hold hearings to examine fairness in financial services, focusing on racism and discrimination in banking.
SD–538

2:30 p.m. Committee on the Judiciary
Subcommittee on Criminal Justice and Counterterrorism
To hold hearings to examine decriminalizing cannabis at the Federal level, focusing on necessary steps to address past harms.
SD–226

JULY 27

9:30 a.m. Committee on Foreign Relations
To hold hearings to examine United States national security and economic statecraft, focusing on ensuring U.S. global leadership for the 21st century.
SD–419

10 a.m. Committee on Commerce, Science, and Transportation

Rodriguez, Jr., of Pennsylvania, to be Ambassador to the Republic of Nicaragua, Candace A. Bond, of Missouri, to be Ambassador to the Republic of Trinidad and Tobago, and Heide B. Fulton, of West Virginia, to be Ambassador to the Oriental Republic of Uruguay, all of the Department of State.

SD–419
Chamber Action

Routine Proceedings, pages S3503–S3579

Measures Introduced: Seventeen bills and two resolutions were introduced, as follows: S. 4560–4576, and S. Res. 713–714.

Measures Reported:

Report to accompany S. 4503, to authorize appropriations for fiscal year 2023 for intelligence and intelligence-related activities of the United States Government, the Intelligence Community Management Account, and the Central Intelligence Agency Retirement and Disability System. (S. Rept. No. 117–132)

Measures Passed:

Global food security and famine: Senate agreed to S. Res. 669, condemning the use of hunger as a weapon of war and recognizing the effect of conflict on global food security and famine, after agreeing to the committee amendment in the nature of a substitute.

National Day of the American Cowboy: Committee on the Judiciary was discharged from further consideration of S. Res. 686, designating July 23, 2022, as “National Day of the American Cowboy”, and the resolution was then agreed to.

National Sarcoma Awareness Month: Committee on Health, Education, Labor, and Pensions was discharged from further consideration of S. Res. 694, expressing support for the designation of July 2022 as “National Sarcoma Awareness Month”, and the resolution was then agreed to, after agreeing to the following amendment proposed thereto:

Schumer (for Johnson) Amendment No. 5143, to amend the preamble.

Schumer Amendment No. 5136 (to Amendment No. 5135), to add an effective date.

Schumer Amendment No. 5138 (to (the instructions) Amendment No. 5137), to modify the effective date.

During consideration of this measure today, Senate also took the following action:

A motion was entered to close further debate on the Schumer motion to concur in the amendment of the House to the amendment of the Senate to the bill, with Schumer Amendment No. 5135 (to the House amendment to the Senate amendment) (listed pending: Schumer motion to concur in the amendment of the House to the amendment of the Senate to the bill, with Schumer Amendment No. 5135 (to the House amendment to the Senate amendment), relating to the CHIPS Act of 2022.

Schumer Amendment No. 5136 (to Amendment No. 5135), to add an effective date.

Schumer motion to refer the bill to the Committee on Commerce, Science, and Transportation, with instructions, Schumer Amendment No. 5137, to add an effective date.

Schumer Amendment No. 5138 (to (the instructions) Amendment No. 5137), to modify the effective date.
above), and, in accordance with the provisions of Rule XXII of the Standing Rules of the Senate, a vote on cloture will occur on Friday, July 22, 2022.

A unanimous-consent agreement was reached providing for further consideration of the House message to accompany the bill at approximately 10 a.m., on Thursday, July 21, 2022; and that at 11:30 a.m., Senate execute the previous order of Tuesday, July 19, 2022, with respect to the nomination of Reuben E. Brigety II, of Florida, to be Ambassador to the Republic of South Africa, and Senate vote on confirmation of the nomination.

Water Resources Development Act—Agreement: a unanimous-consent-time agreement was reached providing that at a time to be determined by the Majority Leader, following consultation with the Republican Leader, Senate begin consideration of H.R. 7776 , to provide for improvements to the rivers and harbors of the United States, to provide for the conservation and development of water and related resources; that the Carper/Capito/Cardin/Cramer substitute Amendment No. 5140 be considered and agreed to; that there be up to 1 hour for debate, equally divided in the usual form; that upon the use or yielding back of time, if a budget point of order is made and a motion to waive made, Senate vote on the motion to waive; and if the point of order is waived, Senate vote on passage of the bill, as amended, with 60-affirmative votes required for passage.

Executive Reports of Committees: Senate received the following executive report of a committee:

Merle Nomination—Agreement: A unanimous-consent agreement was reached providing that the motion to invoke cloture on the nomination of Natasha C. Merle, of New York, to be United States District Judge for the Eastern District of New York, be withdrawn.

Elnahal Nomination—Agreement: A unanimous-consent-time agreement was reached providing that at a time to be determined by the Majority Leader, in consultation with the Republican Leader, Senate begin consideration of the nomination of Shereef M. Elnahal, of New Jersey, to be Under Secretary for Health of the Department of Veterans Affairs; that there be 10 minutes for debate equally divided in the usual form; that upon the use or yielding back of time, Senate vote, without intervening action of debate, on confirmation of the nomination; and that no further motions be in order.

Nominations Confirmed: Senate confirmed the following nominations:

- By 52 yeas to 43 nays (Vote No. EX. 263), Gregory Brian Williams, of Delaware, to be United States District Judge for the District of Delaware.

During consideration of this nomination today, Senate also took the following action:

- By 52 yeas to 43 nays (Vote No. EX. 262), Senate agreed to the motion to close further debate on the nomination.

- By 51 yeas to 44 nays (Vote No. EX. 264), Bernadette M. Meehan, of New York, to be Ambassador to the Republic of Chile.

- Carmen G. Cantor, of Puerto Rico, to be an Assistant Secretary of the Interior.

Committee Meetings

FDA AND FOOD SAFETY

Committee on Appropriations: Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies concluded a hearing to examine food safety and the Food and Drug Administration, after receiving testimony from Robert Califf, Commissioner, Frank Yiannas, Deputy Commissioner, Food Policy and Response, Susan T. Mayne, Director, Center for Food Safety and Applied Nutrition, and Michael C. Rogers, Assistant Commissioner for Human and Animal Food Operations, Office of Regulatory Affairs, all of the Food and Drug Administration, Department of Health and...
Human Services; Brian Ronholm, Consumer Reports, Washington, D.C.; and Sarah Gallo, Consumer Brands Association, Arlington, Virginia.

**NOMINATION**

**Committee on Commerce, Science, and Transportation:** Committee concluded a hearing to examine the nomination of Arati Prabhakar, of California, to be Director of the Office of Science and Technology Policy, after the nominee, who was introduced by Senator Warren, testified and answered questions in their own behalf.

**AFFORDABLE HOUSING**

**Committee on Finance:** Committee concluded a hearing to examine the role of tax incentives in affordable housing, after receiving testimony from Andrea Bell, Oregon Housing and Community Services, Salem; Jerry Konter, National Association of Home Builders, and Benson Roberts, National Association of Affordable Housing Lenders, both of Washington, D.C.; Lee E. Ohanian, Stanford University Hoover Institution, Los Angeles, California; and Dana T. Wade, Walker and Dunlop, Bethesda, Maryland.

**GLOBAL FOOD SECURITY CRISIS**

**Committee on Foreign Relations:** Committee concluded a hearing to examine the global food security crisis and the U.S. response, after receiving testimony from Samantha Power, Administrator, United States Agency for International Development; Linda Thomas-Greenfield, United States Ambassador to the United Nations; and David Beasley, UN World Food Programme, Rome, Italy.

**LEGISLATION**

**Committee on Indian Affairs:** Committee concluded a hearing to examine S. 4104, to approve the settlement of water rights claims of the Hualapai Tribe and certain allottees in the State of Arizona, to authorize construction of a water project relating to those water rights claims, S. 4459, to take certain Federal land located in Siskiyou County, California, and Humboldt County, California, into trust for the benefit of the Karuk Tribe, and H.R. 5221, to amend the Indian Health Care Improvement Act to establish an urban Indian organization confer policy for the Department of Health and Human Services, after receiving testimony from Senators Sinema and Padilla; Jason Freihage, Deputy Assistant Secretary of the Interior for Management for Indian Affairs; P. Benjamin Smith, Deputy Director, Indian Health Service, Department of Health and Human Services; Damon Clarke, Hualapai Tribe, Peach Springs, Arizona; Russell A. Attebery, Karuk Tribe, Happy Camp, California; and Patrick Rock, Indian Health Board of Minneapolis, Minneapolis, Minnesota.

**MASS SHOOTINGS**

**Committee on the Judiciary:** Committee concluded a hearing to examine the Highland Park attack, focusing on protecting our communities from mass shootings, after receiving testimony from Senator Duckworth; Nancy R. Rotering, Mayor, Highland Park, Illinois; Kyleanne Hunter, RAND Corporation, Colorado Springs, Colorado; Joseph Blocher, Duke University School of Law, Durham, North Carolina; Philip T. Smith, National African American Gun Association, Atlanta, Georgia; and Russell Bentley, Safe Havens International, Macon, Georgia.

**ELECTRONIC HEALTH RECORD MODERNIZATION**

**Committee on Veterans’ Affairs:** Committee concluded a hearing to examine the status of VA’s electronic health record modernization program, after receiving testimony from Terry Adirim, Program Executive Director, Electronic Health Record Modernization Integration Office, Kurt DelBene, Assistant Secretary for Information and Technology and Chief Information Officer, Michael D. Parrish, Principal Executive Director for the Office of Acquisition, Logistics, and Construction, Gerard R. Cox, Assistant Under Secretary for Health for Quality and Patient Safety, Veterans Health Administration, and David Case, Deputy Inspector General, Office of Inspector General, all of the Department of Veterans Affairs; and Mike Sicilia, Oracle Corporation, Austin, Texas.

**BUSINESS MEETING**

**Select Committee on Intelligence:** Committee met in closed session to consider pending intelligence matters.

**INTELLIGENCE**

**Select Committee on Intelligence:** Committee met in closed session to receive a briefing on certain intelligence matters from officials of the intelligence community.
House of Representatives

Chamber Action

Public Bills and Resolutions Introduced: 22 public bills, H.R. 8432–8453; and 8 resolutions, H. Res. 1235–1242, were introduced. Pages H6921–22

Additional Cosponsors: Page H6923

Reports Filed: Reports were filed today as follows:

H.R. 4586, to amend the Securities Exchange Act of 1934 with respect to risk-based examinations of Nationally Recognized Statistical Rating Organizations, with an amendment (H. Rept. 117–421);
H.R. 6528, to require owners of covered federally assisted rental dwelling units to install temperature sensors in such units, and for other purposes, with an amendment (H. Rept. 117–422);
H.R. 7195, to provide for certain whistleblower incentives and protections, with amendments (H. Rept. 117–423);
H.R. 7196, to amend the McKinney-Vento Homeless Assistance Act to expand the authorized activities under the Continuum of Care program to include activities that address barriers to transitioning families in rural areas to permanent housing, and for other purposes, with an amendment (H. Rept. 117–424);
H.R. 7734, to amend title 31, United States Code, to require the timely production of reports to Congress under the Bank Secrecy Act, and for other purposes, with an amendment (H. Rept. 117–425); and
H.R. 7981, to require qualifying smoke alarms in certain federally assisted housing, and for other purposes, with an amendment (H. Rept. 117–426).

Recess: The House recessed at 10:48 a.m. and reconvened at 12 noon.

Pages H6891–H6901

Rejected the Valadao motion to recommit the bill to the Committee on Appropriations, by a yea-and-nay vote of 206 yeas to 219 nays, Roll No. 382.

Pages H6900–01

Agreed to:
DeLauro amendment en bloc No. 7 consisting of the following amendments printed in part A of H. Rept. 117–420: Crow (No. 104) that increases SBA Entrepreneurial Development Programs funding (specifically for SCORE) by $6.7 million; decreases GSA rental of space by the same amount; Deutch (No. 106) that increases funding for the Truman Foundation grants by $500,000 to maintain the successful operation of the Truman Foundation and enable this small independent Federal agency to continue encouraging exceptional young people to pursue careers in public service; reduces the Department of Treasury, Salaries and Expenses account by the same amount; Escobar (No. 107) that increases the Entrepreneurial Development Programs account by $2 million to be allocated to the Veterans Business Outreach Center program for further expansion into communities where there is not yet a center; decreases SBA Salaries and Expenses by $2 million; Gottheimer (No. 113) that increases funding by $1 million for the Small Business Administration Office of the Inspector General with the intent of holding Economic Injury Disaster Loan and Paycheck Protection Program fraudsters accountable, offset by a decrease to the Federal Buildings Fund; Gottheimer (No. 115) that increases funding by $3 million for the Treasury's Office of Terrorism and Financial Intelligence to support efforts to counter criminal and terrorist groups through the acquisition of improved blockchain analysis tools, training on cryptocurrency and cryptocurrency-related investigations, and investigative support to reduce crimes involving ransomware attacks or exploiting the use of cryptocurrency; the offset of $3 million is from the GSA Real Property Activities Federal Buildings Funds; Graves (LA) (No. 116) that increases and decreases the funds made available to ODA under this act by $1 million with the intent to urge the SBA Administrator to consider a disaster loan recipient's eligibility for duplication of benefits relief under section 312(b)(4) of the Stafford Act before pursuing enforcement actions; LaMalfa (No. 123) that increases and decreases the Small Business Administration's account by $30 million with the intent to encourage the agency to reopen and continue processing COVID EIDL applications which were still pending or being processed when the program was shut down on May 6, 2022; Manning (No. 125) that increases funding for the IRS Taxpayer Advocate Service by $1 million in support of identity theft and refund fraud casework, and reduces funding for Operations Support by the same amount; Steil (No. 136) that increases funding for the IRS Taxpayer Advocate Service by $1 million in support of identity theft and refund fraud casework, and reduces
funding for Operations Support by the same amount; Buchanan (No. 141) that transfers $1,000,000 to the US Fish and Wildlife Service state and tribal grants to support an updated manatee population survey and to support other high priority needs of the Fish and Wildlife Service and its partners to rehabilitate rescued manatees; decreases funds for Secretary of the Interior—Departmental Operations by the same amount; Buchanan (No. 142) that increases and decreases the Bureau of Ocean Energy Management by $2,000,000 to support a study about the causes, treatment and prevention recommendations related to harmful algal blooms; Hudson (No. 152) that increases and decreases USFS Capital Improvement and Maintenance funding by $5,000,000 to highlight public safety concerns of roads within the Uwharrie National Forest and the need to pave the roads; Jackson Lee (No. 153) that increases and decreases funds for the Historic Preservation Fund by $5,000,000 with the intent of enhancing activities for the preservation, restoration, and maintenance of nationally significant sites, artifacts, and structures through competitive grants at the local, state, and federal levels focusing on projects involving HBCUs, sites and stories linked to the Civil Rights movement, landmarks associated with communities that are historically underrepresented, and sites related to the histories of Indigenous peoples; Lofgren (No. 155) that increases funding for Wildland Fire Management by $1,000,000 with the intent of supporting the Joint Fire Science Program and decreases funds for the Secretary of Interior—Departmental Operations by the same amount; McCarthy (No. 156) that increases and decreases funding by $5 million in both the Operation of the National Park System account and the National Forest System account to support work to reduce the risk of catastrophic fires killing giant sequoias; Moore (UT) (No. 158) that increases and decreases funding by $8 million for the DOI Secretary’s Office and by $8 million for the National Forest System to support calling up funding for implementation of the MAPLand Act as enacted on April 29, 2022; Nadler (No. 159) that increases and decreases funding from the Office of the DOI Secretary by $4,000,000 to emphasize the importance of the 9/11 Memorial Act Grant Program; O’Halleran (No. 161) that increases and decreases the U.S. Forest Service’s Operations account by $1 million to highlight the importance of a study on the direct and indirect costs that wildfires have on federal, state, and local governmental entities, as well as agricultural producers, property owners, evacuation centers, and more; Raskin (No. 164) that increases funding for the United States Holocaust Memorial Museum by $2,000,000 and decreases the Working Capital Fund by the same amount; Arrington (No. 172) that transfers $1 million from Information Technology Systems to Grants to assist States and Tribal Organizations in establishing, expanding, or improving veterans’ cemeteries; Barr (No. 174) that transfers $5 million from the VHA’s Medical Community of Care Account to the VHA’s Medical Services account for the explicit use of equine assisted therapy within the VA’s Adaptive Sports Grant (ASG) Program; Gottheimer (No. 180) that increases funding by $1 million for the VA Transition Assistance Program to provide information, resources, and tools to service members and their families to help prepare for the move from military to civilian life; Larsen (WA) (No. 181) that increases and decreases General Administration funds by $10,000,000 with the intent of supporting the development of a new Veteran Health Administration interactive voice response telephone system that include an automatic callback feature; Manning (No. 182) that increases funding for Veterans Health Medical Services by $1,000,000 and reduces Department General Administration by the same amount; Scott (GA) (No. 186) that increases and decreases funding for the Veterans Health Administration Medical Services account by $1,000,000 to highlight the importance of providing the best possible anesthesia care for America’s Veterans; Sherrill (No. 187) that increases and decreases funding for VA Medical Services by $10 million to highlight the need to construct additional readjustment counseling centers (Vet Centers), which provide critical mental health services for veterans; Sherrill (No. 188) that increases and decreases funding for VA Medical Services by $10 million to highlight the need to increase staffing levels at readjustment counseling centers (Vet Centers), an urgent requirement for veterans’ mental health; Sherrill (No. 189) that increases and decreases funding for Veterans Health Administration Medical Services by $3 million to support increased access to medical care for Veterans in higher priority groups; and Spanberger (No. 190) that transfers $1 million to VA Medical Services from Information Technology Systems account to support VA Suicide Prevention Coordinators (by a yea-and-nay vote of 355 yeas to 56 nays, Roll No. 379); and

DeLauro amendment en bloc No. 8 consisting of the following amendments printed in part A of H. Rept. 117–420: McGovern (No. 183) that transfers $5 million in funds to the Healthcare for Homeless Veterans Program from funds for the Asset and Infrastructure Review Commission; and McGovern (No. 184) that prevents VA from transferring funds from the Medical Facilities and General Administration accounts to the Asset and Infrastructure Review
Commission (by a yea-and-nay vote of 238 yeas to 191 nays, Roll No. 381).

Rejected:

Tlaib amendment (No. 137 printed in part A of H. Rept. 117–420) that sought to prevent the funds made available by this act from being made available to implement, administer or enforce section 908(b) of the Trade Sanctions Reform and Export Enhancement Act of 2000, prohibition on financing of agricultural sales to Cuba (by a yea-and-nay vote of 163 yeas to 260 nays, Roll No. 380).

Pages H6893–95, H6898–99

Agreed by unanimous consent that the Clerk be authorized to correct section numbers, punctuation, spelling, and cross-references, and to make such other technical and conforming changes as may be necessary to reflect the actions of the House.

Page H6901

H. Res. 1232, the rule providing for consideration of the bills (H.R. 8294), (H.R. 8373), and (H.R. 8404) was agreed to yesterday, July 19th.

Adjournment: The House met at 10 a.m. and adjourned at 5:14 p.m.

Committee Meetings

Access Act”; and H.R. 6671, to amend title 38, United States Code, to ensure that a member of the Armed Services, granted a general discharge under honorable conditions on the sole basis that such member failed to obey a lawful order to receive a vaccine for COVID–19, is eligible for certain educational assistance administered by the Secretary of Veterans Affairs. H.R. 8260, H.R. 7846, H.R. 8003, H.R. 8215, H.R. 6647, H.R. 5606, and H.R. 5776 were ordered reported, without amendment. H.R. 7299, H.R. 3693, H.R. 6823, H.R. 291, H.R. 5752, H.R. 7939, H.R. 7188, H.R. 7735, H.R. 8313, H.R. 5916, and H.R. 6671 were ordered reported, as amended. The Resolution to Reauthorize the Women Veterans Task Force and Subcommittee Assignments were approved.

MODERNIZING VETERAN EDUCATION IN THE SHADOW OF COVID–19

Committee on Veterans’ Affairs: Subcommittee on Economic Opportunity; and Subcommittee on Technology Modernization held a joint hearing entitled “Modernizing Veteran Education in the Shadow of COVID–19”. Testimony was heard from Ronald S. Burke, Jr., Deputy Under Secretary, Office of Policy and Oversight, Veterans Benefits Administration, Department of Veterans Affairs; and public witnesses.

MISCELLANEOUS MEASURES

Permanent Select Committee on Intelligence: Full Committee held a markup on H.R. 8367, to authorize appropriations for fiscal year 2023 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes; and to Authorize all Members of the House of Representatives to review the Classified Annex to the Intelligence Authorization Act for Fiscal Year 2023. H.R. 8367 was ordered reported, as amended. The classified annexes and schedule of authorizations were adopted. The motion to make the classified annexes available passed. This markup was closed.

Joint Meetings

GUN VIOLENCE

Joint Economic Committee: Committee concluded a hearing to examine the economic toll of gun violence, focusing on how our nation bears the costs, after receiving testimony from Sarah Burd-Sharps, Everytown for Gun Safety Support Fund, and Chethan Sathy, Center for Gun Violence Prevention at Northwell Health, both of New York, New York; Ryan Busse, Gunfight, Kalispell, Montana; and Amy E. Swearer, The Heritage Foundation, Washington, D.C.

UKRAINE

Commission on Security and Cooperation in Europe: Commission concluded a hearing to examine life in Ukraine’s newly occupied territories, after receiving testimony from Michael Carpenter, Permanent Representative and Ambassador of the United States to the Organization for Security and Cooperation in Europe; Oleksiy Goncharenko, Member of the Verkhovna Rada of Ukraine, and Vice President of the Committee on Migration and Refugees, Parliamentary Assembly of the Council of Europe; and Olga Aivazovska, Civil Network OPORA, and International Center for Ukrainian Victory.

CONGRESSIONAL RECORD — DAILY DIGEST
July 20, 2022

The Congressional Record (USPS 087–390). The Periodicals postage is paid at Washington, D.C. The public proceedings of each House of Congress, as reported by the Official Reporters thereof, are printed pursuant to directions of the Joint Committee on Printing as authorized by appropriate provisions of Title 44, United States Code, and published for each day that one or both Houses are in session, excepting very infrequent instances when two or more unusually small consecutive issues are printed one time. ¶ Public access to the Congressional Record is available online through the U.S. Government Publishing Office, at www.govinfo.gov, free of charge to the user. The information is updated online each day the Congressional Record is published. For more information, contact the GPO Customer Contact Center, U.S. Government Publishing Office. Phone 202–512–1800, or 866–512–1800 (toll-free). E-Mail, contactcenter@gpo.gov. ¶ To place an order for any of these products, visit the U.S. Government Online Bookstore at: bookstore.gpo.gov. Mail orders to: Superintendent of Documents, P.O. Box 979050, St. Louis, MO 63197–9000, or phone orders to 866–512–1800 (toll-free), 202–512–1800 (D.C. area), or fax to 202–512–2104. Remit check or money order, made payable to the Superintendent of Documents, or use VISA, MasterCard, Discover, American Express, or GPO Deposit Account. ¶ Following each session of Congress, the daily Congressional Record is revised, printed, permanently bound and sold by the Superintendent of Documents in individual parts or by sets. ¶ With the exception of copyrighted articles, there are no restrictions on the republication of material from the Congressional Record.

POSTMASTER: Send address changes to the Superintendent of Documents, Congressional Record, U.S. Government Publishing Office, Washington, D.C. 20402, along with the entire mailing label from the last issue received.
