SEC. 1239. UNITED STATES EFFORTS WITH RE-SPECT TO WAR CRIMES AND OTHER ATROCITIES COMMITTED DURING RUSSIAN INVASION OF UKRAINE.

- (a) SENSE OF CONGRESS.—It is the sense of Congress that—
- (1) in its premeditated, unprovoked, unjustified, and unlawful full-scale invasion of Ukraine that commenced on February 24, 2022, the military of the Government of the Russian Federation under the direction of President Vladimir Putin has committed war crimes that include—
- (A) the deliberate targeting of civilians and injuring or killing of noncombatants;
- (B) the deliberate targeting and attacking of hospitals, schools, and other non-military buildings dedicated to religion, art, science, or charitable purposes, such as the bombing of a theater in Mariupol that served as a shelter for noncombatants and had the word "children" written clearly in the Russian language outside;

- (3) Vladimir Putin has a long record of committing acts of aggression, systematic abuses of human rights, and acts that constitute war crimes or other atrocities both at home and abroad, and the brutality and scale of these actions, including in the Russian Federation republic of Chechnya, Georgia, Syria, and Ukraine, demonstrate the extent to which his regime is willing to flout international norms and values in the pursuit of its objectives:
- (4) Vladimir Putin has previously sanctioned the use of chemical weapons at home and abroad, including in the poisonings of Russian spy turned double agent Sergei Skripal and his daughter Yulia and leading Russian opposition figure Aleksey Navalny, and aided and abetted the use of chemical weapons by President Bashar al-Assad in Syria; and
- (5) in 2014, the Government of the Russian Federation initiated its unprovoked war of aggression against Ukraine which resulted in its illegal occupation of Crimea, the unrecognized declaration of independence by the so-called "Donetsk People's Republic" and "Luhansk People's Republic" by Russiabacked proxies, and numerous human rights violations and deaths of civilians in Ukraine.
- (b) STATEMENT OF POLICY.—It is the policy of the United States—
- (1) to collect, analyze, and preserve evidence and information related to war crimes and other atrocities committed during the full-scale Russian invasion of Ukraine that began on February 24, 2022, for use in appropriate domestic, foreign, and international courts and tribunals prosecuting those responsible for such crimes;
- (2) to help deter the commission of war crimes and other atrocities in Ukraine by publicizing to the maximum possible extent, including among Russian and other foreign military commanders and troops in Ukraine, efforts to identify and prosecute those responsible for the commission of war crimes during the full-scale Russian invasion of Ukraine that began on February 24, 2022; and

- (2) Media, public diplomacy, and information operations to make Russian military commanders, troops, political leaders, and the Russian people aware of efforts to identify and prosecute those responsible for the commission of war crimes or other atrocities during the full-scale Russian invasion of Ukraine in 2022, and of the types of acts that may be prosecutable.

At the end of subtitle D of title XII, add the following:

SEC. 1254. ASYMMETRIC DEFENSE CAPABILITIES OF TAIWAN.

- (a) FINDINGS.—Congress makes the following findings:
- (1) The Department of Defense has warned that the Government of the People's Republic of China may conclude that it can successfully invade and seize control of Taiwan in the latter half of the 2020s.
- (2) In October 2021, the Minister of National Defense of Taiwan, Chiu Kuo-cheng, echoed these warnings when he stated that the People's Republic of China—
- (A) "is capable now" of invading Taiwan; and

- (B) will have "lowered the costs and losses" associated with invading Taiwan "to a minimum" after 2025.
- (3) If the People's Republic of China were to invade and seize control of Taiwan, it would deal a severe blow to United States interests by—
- (A) destroying one of the world's leading democracies;
- (B) casting doubt on the ability and resolve of the United States to uphold its security commitments;
- (C) incentivizing other countries in the Indo-Pacific region to bandwagon with the People's Republic of China: and
- (D) facilitating the formation of a regional order dominated by the People's Republic of China in which the Government of the People's Republic of China may—
- (i) regulate or otherwise limit the ability of individuals in the United States to trade in the Indo-Pacific region, which would have dire effects on the livelihoods and freedoms of such individuals; and
- (ii) use the Indo-Pacific region as a secure base from which to project military power into other regions, including the Western Hemisphere.
- (4) Taiwan's proximity to the People's Republic of China, coupled with investments by the People's Republic of China in capabilities designed to delay intervention by the United States Armed Forces in support of Taiwan, means that Taiwan may be forced to delay, degrade, and deny an invasion by the People's Republic of China with limited support from the United States Armed Forces for the initial days, weeks, or months of such an invasion.
- (5) If Taiwan is unable to delay, degrade, and deny an invasion by the People's Republic of China with limited support from the United States Armed Forces, especially in the initial period of war, then the People's Republic of China may conclude that it is, or may actually be, capable of—
- (A) invading and seizing control of Taiwan before the United States or any other partner country of Taiwan is able to respond effectively, thereby achieving a fait accompli; and
- (B) potentially rendering any attempt by the United States or any other partner country of Taiwan to reverse territorial gains by the People's Republic of China prohibitively difficult, costly, or both.
- (6) To defend itself effectively, especially in the initial period of war, it is imperative that Taiwan accelerate deployment of cost-effective and resilient asymmetric defense capabilities, including mobile coastal and air defenses, naval mines, missile boats, manportable anti-armor weapons, civil defense forces, and their enablers.
- (7) The deployment of such asymmetric defense capabilities by Taiwan would not only improve the ability of Taiwan to defend itself, but also reduce operational risk to members of the United States Armed Forces under a Taiwan contingency.
- (8) The President of Taiwan, Tsai Ing-Wen, has— $\,$
- (A) vowed to bolster the national defense of Taiwan and demonstrate Taiwan's determination to defend itself so as to ensure that Taiwan will not be forced to take the path that the People's Republic of China has laid out for Taiwan; and
- (B) advocated the deployment of asymmetric defense capabilities.
- (9) The Government of Taiwan has begun taking steps to improve Taiwan's defenses, including by increasing Taiwan's defense budget and through Taiwan's new proposed special defense budget, but far more is needed, and quickly, to ensure that Taiwan is able to maintain a sufficient self-defense capability.

- (b) SENSE OF CONGRESS.—It is the sense of Congress that—
- (1) the threat of an invasion of Taiwan by the People's Republic of China is increasing rapidly and expected to reach especially dangerous levels by the latter half of the 2020s;
- (2) the United States has a strong interest in preventing the People's Republic of China from invading and seizing control of Taiwan, especially by ensuring that Taiwan is able to maintain a sufficient self-defense capability;
- (3) the United States should establish a security assistance initiative so as to accelerate, to the greatest extent possible, Taiwan's deployment of cost-effective and resilient asymmetric defense capabilities;
- (4) the United States should provide such assistance on the condition that Taiwan—
- (A) matches investments by the United States in its asymmetric defense capabilities:
- (B) increases its defense spending to a level commensurate with the threat it faces;
- (C) prioritizes acquiring cost-effective and resilient asymmetric defense capabilities as rapidly as possible, including from foreign suppliers, if necessary; and
- (D) demonstrates progress on defense reforms required to maximize the effectiveness of its asymmetric defenses, with special regard to Taiwan's reserve forces; and
- (5) in the course of executing such a security assistance initiative, the United States should—
- (A) seek to co-produce or co-develop cost-effective and resilient asymmetric defense capabilities with suppliers in Taiwan, including by providing incentives to that effect, so long as those suppliers can produce such capabilities at a reasonable cost, in the quantities required, as rapidly, and to the same quality and technical standards as suppliers in the United States or other countries; and
- (B) encourage other countries, particularly United States allies and partners, to sell, lease, or otherwise provide appropriate asymmetric defense capabilities to Taiwan so as to facilitate Taiwan's rapid deployment of the asymmetric defense capabilities required to deter or, if necessary, defeat an invasion by the People's Republic of China.
- (c) TAIWAN SECURITY ASSISTANCE INITIATIVE.—
- (1) IN GENERAL.—The Secretary of Defense shall establish an initiative, to be known as the "Taiwan Security Assistance Initiative" (referred to in this subsection as the "Initiative"), to accelerate Taiwan's deployment of asymmetric defense capabilities required to deter or, if necessary, defeat an invasion by the People's Republic of China.
- (2) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated \$3,000,000,000 for the Department of Defense for each of fiscal years 2023 through 2027 to provide assistance to the Government of Taiwan under this subsection.
 - (3) AUTHORITY TO PROVIDE ASSISTANCE.—
- (A) IN GENERAL.—The Secretary of Defense, in coordination with the Secretary of State, shall use the funds authorized to be appropriated under subsection (b) to provide assistance to the Government of Taiwan for the purpose described in paragraph (4).
- (4) PURPOSE.—The purpose of the Initiative is to provide assistance, including equipment, training, and other support, to the Government of Taiwan so as to accelerate Taiwan's deployment of asymmetric defense capabilities required to achieve, with limited support from the United States Armed Forces for the initial days, weeks, or months after the initiation of an invasion by the People's Republic of China of Taiwan, the following objectives:
- (A) To delay, degrade, and deny attempts by People's Liberation Army forces to enter

- or transit the Taiwan Strait and adjoining seas.
- (B) To delay, degrade, and deny attempts by People's Liberation Army forces to secure a lodgment on Taiwan and expand or otherwise use that lodgment to seize control of a population center or other key territory in Taiwan.
- (C) To prevent the People's Republic of China from decapitating, seizing control of, or otherwise neutralizing or rendering ineffective the Government of Taiwan.
- (5) ASYMMETRIC DEFENSE CAPABILITIES.—In this section, the term "asymmetric defense capabilities" includes, in such quantities as the Secretary of Defense determines to be necessary to achieve the purpose specified in paragraph (4), the following:
- (A) Mobile, ground-based coastal defense cruise missiles and launchers.
- (B) Mobile, ground-based short-range and medium-range air defense systems.
- (C) Smart, self-propelled naval mines and coastal minelaying platforms.
- (D) Missile boats and fast-attack craft equipped with anti-ship and anti-landing craft missiles.
- (E) Unmanned aerial and other mobile, resilient surveillance systems to support coastal and air defense operations.
- (F) Equipment to support target location, tracking, identification, and targeting, especially at the local level, in communications degraded or denied environments.
- (G) Man-portable anti-armor weapons, mortars, and small arms for ground combat operations.
- (H) Equipment and technical assistance for the purpose of developing civil defense forces, composed of civilian volunteers and militia.
- (I) Training and equipment, including appropriate war reserves, required for Taiwan forces to independently maintain, sustain, and employ capabilities described in subparagraphs (A) through (H).
- (J) Concept development for coastal defense, air defense, decentralized command and control, civil defense, logistics, planning, and other critical military functions, with an emphasis on operations in a communications degraded or denied environment.
- (K) Any other capability the Secretary of Defense considers appropriate for the purpose described in paragraph (4).
 - (6) AVAILABILITY OF FUNDS.—
- (A) PLAN.—Not later than December 1, 2022, and annually thereafter, the Secretary of Defense, in coordination with the Secretary of State, shall submit to the appropriate committees of Congress a plan for using funds authorized to be appropriated under paragraph (2) for the purpose specified in paragraph (4).
- (B) INITIAL CERTIFICATION.—Amounts authorized to be appropriated under paragraph (2) for fiscal year 2023 may not be obligated or expended until the date on which the Secretary of Defense, in coordination with the Secretary of State, certifies that the Government of Taiwan has committed—
- (i) to spending an equivalent amount on asymmetric defense capabilities in fiscal year 2023;
- (ii) to spending not less than three percent of Taiwan's national gross domestic product on defense on an annual basis by the end of fiscal year 2027, including expenditures under the normal defense budget and any supplemental or special defense budgets of Taiwan;
- (iii) to acquiring asymmetric defense capabilities as rapidly as possible, including from suppliers in the United States or other countries, if the Secretary of Defense determines that such suppliers will be able to provide such capabilities at a reasonable cost, in sufficient quantities, of sufficient quality and

- technical standards, and more rapidly than suppliers in Taiwan; and
- (iv) to undertaking the defense reforms required to maximize the effectiveness of an asymmetric defense against an invasion by the People's Republic of China, including by improving organization, mobilization, and training of the reserve forces and other military personnel of Taiwan.
- (C) Subsequent certifications.—Amounts authorized to be appropriated under paragraph (2) for each of fiscal years 2024, 2025, 2026, and 2027 may not be obligated or expended until the date on which the Secretary of Defense, in coordination with the Secretary of State, certifies that the Government of Taiwan has committed—
- (i) to spending an equivalent amount on asymmetric defense capabilities in the applicable fiscal year and upheld its commitment to spend an equivalent amount as the United States in the preceding fiscal year on asymmetric defense capabilities to be deployed by Taiwan:
- (ii) to spending not less than three percent of Taiwan's national gross domestic product on defense on an annual basis by the end of fiscal year 2027, including expenditures under the normal defense budget and any supplemental or special defense budgets of Taiwan, and demonstrated progress toward that spending target in the preceding fiscal year;
- (iii) to acquiring asymmetric defense capabilities as rapidly as possible, including from suppliers in the United States or other countries, if the Secretary of Defense determines that such suppliers will be able to provide such capabilities at reasonable cost, in sufficient quantities, of sufficient quality and technical standards, and more rapidly than suppliers in Taiwan, and upheld its commitment to acquire asymmetric defense capabilities as rapidly as possible in the preceding fiscal year; and
- (iv) to undertaking the defense reforms required to maximize the effectiveness of an asymmetric defense against an invasion by the People's Republic of China, including by improving the organization, mobilization, and training of the reserve forces and other military personnel of Taiwan, and demonstrated progress on such reforms in the preceding fiscal year.
- (D) NOTIFICATION TO CONGRESS.—Not later than 30 days after making a certification under subparagraph (B) or (C), the Secretary of Defense shall submit to the appropriate committees of Congress a notice and explanation of such certification.
- (E) Remaining funds.—
- (i) IN GENERAL.—Subject to clause (ii), amounts appropriated for a fiscal year pursuant to the authorization of appropriations under paragraph (2) that are not obligated and expended during that fiscal year shall be added to the amount that may be used for the Initiative in the subsequent fiscal year.
- (ii) RESCISSION.—Amounts appropriated pursuant to the authorization of appropriation under paragraph (2) that remain unobligated by the end of fiscal year 2027 shall be rescinded and deposited into the general fund of the Treasury.
- (7) Defense articles and services from united states inventory and other sources.—
- (A) IN GENERAL.—In addition to assistance provided pursuant to paragraph (3), the Secretary of Defense, in coordination with the Secretary of State, may make available to the Government of Taiwan, in such quantities as the Secretary of Defense considers appropriate for the purpose described in paragraph (4), the following:
- $\,$ (i) Weapons and other defense articles from the United States inventory and other sources.

- (ii) Excess defense articles from the United States inventory.
 - (iii) Defense services.
- (B) REPLACEMENT.—Amounts for the replacement of any item provided to the Government of Taiwan under subparagraph (A)(i) may be made available from the amount authorized to be appropriated under paragraph (2).
- (8) TERMINATION OF AUTHORITY.—Assistance may not be provided under this subsection after September 30, 2027.
- (d) LIMITATION ON CONVENTIONAL ARMS SALES.—
- (1) SENSE OF CONGRESS.—It is the sense of Congress that—
- (A) historically, the Government of Taiwan has prioritized the acquisition of conventional weapons that would be of limited utility in deterring or defeating an invasion by the People's Republic of China at the expense of the timely acquisition of cost-effective and resilient asymmetric defense capabilities;
- (B) the United States Government has often shared responsibility for the misguided prioritization of defense acquisitions described in subparagraph (A) by approving sales of conventional weapons to Taiwan, despite knowledge that such sales would do little to enhance, and may even undermine, the ability of Taiwan to deter or defeat an invasion by the People's Republic of China;
- (C) the misguided prioritization of defense acquisitions described in subparagraph (A) has not only undermined the ability of Taiwan to deter or defeat an invasion by the People's Republic of China, but has also placed at greater risk of death or injury members of the United States Armed Forces who may come under attack or be asked to come to the aid of Taiwan to repel such an invasion; and
- (D) any future sales, leases, or other provision of conventional weaponry to Taiwan by the United States should be conditioned on meaningful progress by the Government of Taiwan on the acquisition of appropriate asymmetric defense capabilities.
- (2) STATEMENT OF POLICY.—For each of fiscal years 2023 through 2027, the United States Government shall not sell, lease, or otherwise provide military capabilities to Taiwan other than asymmetric defense capabilities described in paragraph (5) of subsection (c) until the earlier of—
- (A) the date on which the Secretary of Defense has submitted a notification under paragraph (6)(D) of that subsection for the fiscal year in which the Government of Taiwan has requested the sale, lease, or other provision of military capabilities other than such asymmetric defense capabilities; or
- (B) the date on which the Secretary of Defense certifies to the appropriate committees of Congress that the sale, lease, or other provision to Taiwan of military capabilities other than such asymmetric defense capabilities—

SEC. 1276. SENSE OF CONGRESS ON DIGITAL TRADE.

- (a) FINDINGS.—Congress makes the following findings:
- (1) Over half of the world's population, totaling more than 5,000,000,000 people, use the internet.
- (2) The digital economy encompasses the economic and social activity from billions of online connections among people, businesses, devices, and data as a result of the internet, mobile technology, and the internet of things.
- (3) The Bureau of Economic Analysis found that the digital economy contributed nearly 10.2 percent of United States gross domestic product and supported 7,800,000 United States jobs in 2020.
- (4) The technology-commerce ecosystem added 1,400,000 jobs between 2017 and 2021, and served as the main job-creating sector in 40 States.
- (5) United States jobs supported by the digital economy have sustained annual wage growth at a rate of 5.9 percent since 2010, as compared to a 4.2 percent for all jobs.
- (6) In 2020, United States exports of digital services surpassed \$520,000,000,000, accounting for more than half of all United States services exports and generating a digital services trade surplus for the United States of \$214,000,000,000.
- (7) Digital trade bolsters the digital economy by enabling the sale of goods on the internet and the supply of online services across borders and depends on the free flow of data across borders to promote commerce, manufacturing, and innovation.
- (8) Digital trade has become increasingly vital to United States workers and businesses of all sizes, including the countless small and medium-sized enterprises that use digital technology, data flows, and e-commerce to export goods and services across the world.
- (9) Digital trade has advanced entrepreneurship opportunities for women, people of color, and individuals from otherwise underrepresented backgrounds and enabled the formation of innovative start-ups.
- (10) International supply chains are becoming increasingly digitized and data driven and businesses in a variety of industries, such as construction, healthcare, transportation, and aerospace, invested heavily in digital supply chain technologies in 2020.
- (11) United States Trade Representative Katherine Tai said, "[T]here is no bright line separating digital trade from the digital economy—or the 'traditional' economy for that matter. Nearly every aspect of our economy has been digitized to some degree."
- (12) Industries outside of the technology sector, such as manufacturing and agriculture, are integrating digital technology into their businesses in order to increase efficiency, improve safety, reach new customers, and remain globally competitive.

- (13) The increasing reliance on digital technologies has modernized legacy processes, accelerated workflows, increased access to information and services, and strengthened security in a variety of industries, leading to better health, environmental, and safety outcomes.
- (14) The COVID-19 pandemic has led to increased uptake and reliance on digital technologies, data flows, and e-commerce.
- (15) 90 percent of adults in the United States say that the internet has been essential or important for them personally during the COVID-19 pandemic.
- (16) United States families, workers, and business owners have seen how vital access to the internet has been to daily life, as work, education, medicine, and communication with family and friends have shifted increasingly online.
- (17) Many individuals and families, especially in rural and Tribal communities, struggle to participate in the digital economy because of a lack of access to a reliable and affordable internet connection.
- (18) New developments in technology must be deployed with consideration to the unique access challenges of rural, urban underserved, and vulnerable communities.
- (19) Digital trade has the power to help level the playing field and uplift those in traditionally unrepresented or underrepresented communities.
- (20) Countries have negotiated international rules governing digital trade in various bilateral and plurilateral agreements, but those rules remain fragmented, and no multilateral agreement on digital trade exists within the World Trade Organization.
- (21) The United States, through free trade agreements or other digital agreements, has been a leader in developing a set of rules and standards on digital governance and e-commerce that has helped allies and partners of the United States unlock the full economic and social potential of digital trade.
- (22) Congress recognizes the need for agreements on digital trade, as indicated by its support for a robust digital trade chapter in the United States-Mexico-Canada Agreement.
- (23) Other countries are operating under their own digital rules, some of which are contrary to democratic values shared by the United States and many allies and partners of the United States.
- (24) Those countries are attempting to advance their own digital rules on a global scale.
- (25) Examples of the plethora of nontariff barriers to digital trade that have emerged around the globe include— $\,$
- (A) overly restrictive data localization requirements and limitations on cross border data flows that do not achieve legitimate public policy objectives;
- (B) intellectual property rights infringement:
- (C) policies that make market access contingent on forced technology transfers or voluntary transfers subject to coercive terms:
 - (D) web filtering;
- (E) economic espionage;
- (F) cybercrime exposure; and
- $\left(G\right)$ government-directed theft of trade secrets.
- (26) Certain countries are pursuing or have implemented digital policies that unfairly discriminate against innovative United States technology companies and United States workers that create and deliver digital products and services.
- (27) The Government of the People's Republic of China is currently advancing a model for digital governance and the digital economy domestically and abroad through its Digital Silk Road Initiative that permits

censorship, surveillance, human and worker rights abuses, forced technology transfers, and data flow restrictions at the expense of human and worker rights, privacy, the free flow of data, and an open internet.

- (28) The 2020 Country Reports on Human Rights Practices of the Department of State highlighted significant human rights issues committed by the People's Republic of China in the digital realm, including "arbitrary interference with privacy; pervasive and intrusive technical surveillance and monitoring; serious restrictions on free expression, the press, and the internet, including physical attacks on and criminal prosecution of journalists, lawyers, writers, bloggers, dissidents, petitioners, and others as well as their family members, and censorship and site blocking".
- (29) The United States discourages digital authoritarianism, including practices that undermine human and worker rights and result in other social and economic coercion.
- (30) Allies and trading partners of the United States in the Indo-Pacific region have urged the United States to deepen economic engagement in the region by negotiating rules on digital trade and technology standards.
- (31) The digital economy has provided new opportunities for economic development, entrepreneurship, and growth in developing countries around the world.
- (32) Negotiating strong digital trade principles and commitments with allies and partners across the globe enables the United States to unite like-minded economies around common standards and ensure that principles of democracy, rule of law, freedom of speech, human and worker rights, privacy, and a free and open internet are at the very core of digital governance.
- (33) United States leadership and substantive engagement is necessary to ensure that global digital rules reflect United States values so that workers are treated fairly, small businesses can compete and win in the global economy, and consumers are guaranteed the right to privacy and security.
- (34) The United States supports rules that reduce digital trade barriers, promote free expression and the free flow of information, enhance privacy protections, protect sensitive information, defend human and worker rights, prohibit forced technology transfer, and promote digitally enabled commerce.
- (35) The United States supports efforts to cooperate with allies and trading partners to mitigate the risks of cyberattacks, address potentially illegal or deceptive business activities online, promote financial inclusion and digital workforce skills, and develop rules to govern the use of artificial intelligence and other emerging and future technologies.
- (b) SENSE of CONGRESS.—It is the sense of Congress that— $\,$
- (1) the United States should negotiate strong, inclusive, forward-looking, and enforceable rules on digital trade and the digital economy with like-minded countries as part of a broader trade and economic strategy to address digital barriers and ensure that the United States values of democracy, rule of law, freedom of speech, human and worker rights, privacy, and a free and open internet are at the very core of the digital world and advanced technology;
- (2) in conducting such negotiations, the United States must—
 - (A) pursue digital trade rules that—
- (i) serve the best interests of workers, consumers, and small and medium-sized enterprises:
 - (ii) empower United States workers;
 - (iii) fuel wage growth; and
- (iv) lead to materially positive economic outcomes for all people in the United States;

- (B) ensure that any future agreement prevents the adoption of non-democratic, coercive, or overly restrictive policies that would be obstacles to a free and open internet and harm the ability of the e-commerce market-place to continue to grow and thrive;
- (C) coordinate sufficient trade-related assistance to ensure that developing countries can improve their capacity and benefit from increased digital trade; and
- (D) consult closely with all relevant stakeholders, including workers, consumers, small and medium-sized enterprises, civil society groups, and human rights advocates; and
- (3) with respect to any negotiations for an agreement facilitating digital trade, the United States Trade Representative and the heads of other relevant Federal agencies must—
- (A) consult closely and on a timely basis with the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives about the substance of those negotiations and the requisite legal authority to bind the United States to any such agreement;
- (B) keep both committees fully apprised of those negotiations; and
- (C) provide to those committees, including staff with appropriate security clearances, adequate access to the text of the negotiating proposal of the United States before presenting the proposal in the negotiations.

Congress makes the following findings:

(1) The Department of Defense and other agencies in the United States Government

- regularly award contracts to firms such as Deloitte, McKinsey & Company, and others who are simultaneously providing consulting services to the Government of the People's Republic of China and proxies or affiliates thereof.
- (2) The provision of such consulting services by firms like Deloitte, McKinsey & Company, and others to entities in the People's Republic of China directly supports efforts by that nation's government to generate economic and military power that it can then use to undermine the economic and national security of the American people, including through economic coercion and by threatening or using military force against us.
- (3) It is a conflict of interest for firms like Deloitte, McKinsey & Company, and others to simultaneously aid in the efforts of the Government of the People's Republic of China to undermine the economic and national security of the United States while they are simultaneously contracting with the Department of Defense and other United States Government agencies responsible for defending the United States from foreign threats, above all from China.
- (4) Firms like Deloitte, McKinsey & Company, and others should no longer be allowed to engage in such a conflict of interest and should instead be required to choose between aiding the efforts of the Government of the People's Republic of China to harm the United States or helping the United States Government to defend its citizens against such foreign coercion.

SEC. 1283. PROHIBITION ON FEDERAL CONTRACTING WITH ENTITIES THAT ARE SIMULTANEOUSLY AIDING IN THE EFFORTS OF THE PEOPLE'S REPUBLIC OF CHINA TO HARM THE UNITED STATES.

In order to end conflict of interests in Federal contracting among consulting firms that simultaneously contract with the United States Government and covered foreign entities, the Federal Acquisition Regulatory Council shall, not later than 180 days after the date of the enactment of this Act, amend the Federal Acquisition Regulation—

- (1) to require any entity that provides the services described in the North American Industry Classification System's Industry Group code 5416, prior to entering into a Federal contract, to certify that neither it nor any of its subsidiaries or affiliates hold a contract with one or more covered foreign entities; and
- (2) to prohibit Federal contracts from being awarded to an entity that provides the services described under the North American Industry Classification System's Industry Group code 5416 if the entity or any of its subsidiaries or affiliates are determined, based on the self-certification required under paragraph (1) or other information, to be a contractor of, or otherwise providing services to, a covered foreign entity.

SEC. 1284. PENALTIES FOR FALSE INFORMATION ON CONTRACTING WITH THE PEO-PLE'S REPUBLIC OF CHINA.

- (a) TERMINATION, SUSPENSION, AND DEBARMENT.—If the head of an executive agency determines that a consulting firm described in section 1283 has knowingly submitted a false certification or information on or after the date on which the Federal Acquisition Regulatory Council amends the Federal Acquisition Regulation pursuant to such section, the head of the executive agency shall terminate the contract with the consulting firm and consider suspending or debarring the firm from eligibility for future Federal contracts in accordance with subpart 9.4 of the Federal Acquisition Regulation.
- (b) FALSE CLAIMS ACT.—A consulting firm described in section 1283 that, for the purposes of the False Claims Act, intentionally

hides or misrepresents one or more contracts with covered foreign entities shall be subject to the penalties and corrective actions described in the False Claims Act, including liability for three times the amount of damages which the United States Government sustains, including funds or other resources expended on or in support of the solicitation, selection, and performance of such contracts.

SEC. 5215. POST-EMPLOYMENT RESTRICTIONS ON SENATE-CONFIRMED OFFICIALS AT THE DEPARTMENT OF STATE.

- (a) SENSE of Congress.—It is the sense of Congress that— $\,$
- (1) Congress and the executive branch have recognized the importance of preventing and mitigating the potential for conflicts of interest following government service, including with respect to senior United States officials working on behalf of foreign governments; and

TITLE LIII—EMBASSY SECURITY AND CONSTRUCTION

SEC. 5301. AMENDMENTS TO SECURE EMBASSY CONSTRUCTION AND COUNTERTER-RORISM ACT OF 1999.

- (a) SHORT TITLE.—This section may be cited as the "Secure Embassy Construction and Counterterrorism Act of 2022".
- (b) FINDINGS.—Congress makes the following findings:
- (1) The Secure Embassy Construction and Counterterrorism Act of 1999 (title VI of division A of appendix G of Public Law 106–113) was a necessary response to bombings on August 7, 1998, at the United States embassies in Nairobi, Kenya, and in Dar es Salaam, Tanzania, that were destroyed by simultaneously exploding bombs. The resulting explosions killed 220 persons and injured more than 4,000 others. Twelve Americans and 40 Kenyan and Tanzanian employees of the United States Foreign Service were killed in the attacks.
- (2) Those bombings, followed by the expeditionary diplomatic efforts in Iraq and Afghanistan, demonstrated the need to prioritize the security of United States posts and personnel abroad above other considerations.
- (3) Between 1999 and 2022, the risk calculus of the Department impacted the ability of United States diplomats around the world to advance the interests of the United States through access to local populations, leaders, and places.
- (4) America's competitors and adversaries do not have the same restrictions that United States diplomats have, especially in critically important medium-threat and high-threat posts.
- (5) The Department's 2021 Overseas Security Panel report states that—
- (A) the requirement for setback and collocation of diplomatic posts under paragraphs (2) and (3) of section 606(a) of the Secure Embassy Construction and Counterterrorism Act of 1999 (22 U.S.C. 4865(a)) has led to skyrocketing costs of new embassies and consulates; and
- (B) the locations of such posts have become less desirable, creating an extremely suboptimal nexus that further hinders United States diplomats who are willing to accept more risk in order to advance United States interests.

- (c) SENSE OF CONGRESS.—It is the sense of Congress that—
- (1) the setback and collocation requirements referred to in subsection (b)(5)(A), even with available waivers, no longer provide the security such requirements used to provide because of advancement in technologies, such as remote controlled drones, that can evade walls and other such static barriers;
- (2) the Department should focus on creating performance security standards that—
- (A) attempt to keep the setback requirements of diplomatic posts as limited as possible; and
- (B) provide diplomats access to local populations as much as possible, while still providing a necessary level of security;
- (3) collocation of diplomatic facilities is often not feasible or advisable, particularly for public diplomacy spaces whose mission is to reach and be accessible to wide sectors of the public, including in countries with repressive governments, since such spaces are required to permit the foreign public to enter and exit the space easily and openly;
- (4) the Bureau of Diplomatic Security should—
- (A) fully utilize the waiver process provided under paragraphs (2)(B) and (3)(B) of section 606(a) of the Secure Embassy Construction and Counterterrorism Act of 1999 (22 U.S.C. 4865(a)); and
- (B) appropriately exercise such waiver process as a tool to right-size the appropriate security footing at each diplomatic post rather than only approving waivers in extreme circumstances:
- (5) the return of great power competition requires—
- (A) United States diplomats to do all they can to outperform our adversaries; and
- (B) the Department to better optimize use of taxpayer funding to advance United States national interests; and
- (6) this section will better enable United States diplomats to compete in the 21st century, while saving United States taxpayers millions in reduced property and maintenance costs at embassies and consulates abroad.
- (d) DEFINITION OF UNITED STATES DIPLOMATIC FACILITY.—Section 603 of the Secure Embassy Construction and Counterterrorism Act of 1999 (title VI of division A of appendix G of Public Law 106–113) is amended to read as follows:

"SEC. 603. UNITED STATES DIPLOMATIC FACILITY DEFINED.

"In this title, the terms 'United States diplomatic facility' and 'diplomatic facility' mean any chancery, consulate, or other office that—

"(1) is considered by the Secretary of State to be diplomatic or consular premises, consistent with the Vienna Convention on Diplomatic Relations, done at Vienna April 18, 1961, and the Vienna Convention on Consular Relations, done at Vienna April 24, 1963, and was notified to the host government as such; or

"(2) is otherwise subject to a publicly available bilateral agreement with the host government (contained in the records of the United States Department of State) that recognizes the official status of the United States Government personnel present at the facility."

(e) ĞUIDANCE AND REQUIREMENTS FOR DIPLOMATIC FACILITIES.—

(1) GUIDANCE FOR CLOSURE OF PUBLIC DIPLOMACY FACILITIES.—Section 5606(a) of the Public Diplomacy Modernization Act of 2021 (Public Law 117–81; 22 U.S.C. 1475g note) is amended to read as follows:

"(a) IN GENERAL.—In order to preserve public diplomacy facilities that are accessible to the publics of foreign countries, not later than 180 days after the date of the enactment of the Secure Embassy Construction and Counterterrorism Act of 2022, the Secretary of State shall adopt guidelines to collect and utilize information from each diplomatic post at which the construction of a new embassy compound or new consulate compound could result in the closure or co-location of an American Space that is owned and operated by the United States Government, generally known as an American Center, or any other public diplomacy facility under the Secure Embassy Construction and Counterterrorism Act of 1999 (22 U.S.C. 4865 et seq.).".

- (2) SECURITY REQUIREMENTS FOR UNITED STATES DIPLOMATIC FACILITIES.—Section 606(a) of the Secure Embassy Construction and Counterterrorism Act of 1999 (22 U.S.C. 4865(a)) is amended—

 - (B) in paragraph (2)—
 - (i) in subparagraph (A)-
- (I) by inserting "in a location that has certain minimum ratings under the Security Environment Threat List as determined by the Secretary in his or her discretion" after "abroad"; and
- (II) by inserting ", personnel of the Peace Corps, and personnel of any other type or category of facility that the Secretary may identify" after "military commander"; and
 - (ii) in subparagraph (B)-
- (I) by amending clause (i) to read as follows:
- "(i) IN GENERAL.—Subject to clause (ii), the Secretary of State may waive subparagraph (A) if the Secretary, in consultation with, as appropriate, the head of each agency employing personnel that would not be located at the site, if applicable, determines that it is in the national interest of the United States after taking account of any considerations the Secretary in his or her discretion considers relevant, which may include security conditions."; and
- (II) in clause (ii), by striking "(ii) CHANCERY OR CONSULATE BUILDING.—" and all that follows through "15 days prior" and inserting the following:
- "(ii) CHANCERY OR CONSULATE BUILDING.— Prior"; and
 - (C) in paragraph (3)—
- (i) by amending subparagraph (A) to read as follows:
 - "(A) REQUIREMENT.—
- "(i) IN GENERAL.—Each newly acquired United States diplomatic facility in a location that has certain minimum ratings under the Security Environment Threat List as determined by the Secretary of State in his or her discretion shall—
- "(I) be constructed or modified to meet the measured building blast performance standard applicable to a diplomatic facility sited not less than 100 feet from the perimeter of the property on which the facility is situated; or
- "($\dot{\Pi}$) fulfill the criteria described in clause (ii).
- "(ii) ALTERNATIVE ENGINEERING EQUIVA-LENCY STANDARD REQUIREMENT.—Each facility referred to in clause (i) may, instead of meeting the requirement under such clause, fulfill such other criteria as the Secretary is authorized to employ to achieve an engineering standard of security and degree of protection that is equivalent to the numerical perimeter distance setback described in such clause seeks to achieve."; and
- (ii) in subparagraph (B)—
- (I) in clause (i)—
- (aa) by striking "security considerations permit and"; and
- (bb) by inserting "after taking account of any considerations the Secretary in his or her discretion considers relevant, which may

include security conditions" after "national interest of the United States";

- (II) in clause (ii), by striking "(ii) CHANCERY OR CONSULATE BUILDING.—" and all that follows through "15 days prior" and inserting the following:
- "(ii) CHANCERY OR CONSULATE BUILDING.—Prior"; and
- (III) in clause (iii), by striking "an annual" and inserting "a quarterly".

SEC. 5302. DIPLOMATIC SUPPORT AND SECURITY.

- (a) SHORT TITLE.—This section may be cited as the "Diplomatic Support and Security Act of 2022".
- (b) FINDINGS.—Congress makes the following findings:
- (1) A robust overseas diplomatic presence is part of an effective foreign policy, particularly in volatile environments where a flexible and timely diplomatic response can be decisive in preventing and addressing conflict.
- (2) Diplomats routinely put themselves and their families at great personal risk to serve their country overseas where they face threats related to international terrorism, violent conflict, and public health.
- (3) The Department has a remarkable record of protecting personnel while enabling an enormous amount of global diplomatic activity, often in unsecure and remote places and facing a variety of evolving risks and threats. With support from Congress, the Department of State has revised policy, improved physical security through retrofitting and replacing old facilities, deployed additional security personnel and armored vehicles, and greatly enhanced training requirements and training facilities, including the new Foreign Affairs Security Training Center in Blackstone, Virginia.
- (4) Diplomatic missions rely on robust staffing and ambitious external engagement to advance United States interests as diverse as competing with China's malign influence around the world, fighting terrorism and transnational organized crime, preventing and addressing violent conflict and humanitarian disasters, promoting United States businesses and trade, protecting the rights of marginalized groups, addressing climate change, and preventing pandemic disease.
- (5) Efforts to protect personnel overseas have often resulted in inhibiting diplomatic activity and limiting engagement between embassy personnel and local governments and populations.
- (6) Given that Congress currently provides annual appropriations in excess of \$1,900,000,000 for embassy security, construction, and maintenance, the Department should be able to ensure a robust overseas presence without inhibiting the ability of diplomats to—
- (A) meet outside United States secured facilities with foreign leaders to explain, defend, and advance United States priorities;
- (B) understand and report on foreign political, social, and economic conditions through meeting and interacting with community officials outside of United States facilities:
- (C) provide United States citizen services; and
- (D) collaborate and, at times, compete with other diplomatic missions, particularly those, such as that of the People's Republic of China, that do not have restrictions on meeting locations.
- (7) Given these stakes, Congress has a responsibility to empower, support, and hold the Department accountable for implementing an aggressive strategy to ensure a robust overseas presence that mitigates potential risks and adequately considers the myriad direct and indirect consequences of a lack of diplomatic presence.

- (c) ENCOURAGING EXPEDITIONARY DIPLOMACY.—

- (B) by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively; and
- (C) by inserting after paragraph (3) the following:

(3) The Pacific Islands region is home to the State of Hawaii, 11 United States territories, United States Naval Base Guam, and United States Andersen Air Force Base.

(4) Pacific Island countries cooperate with the United States and United States partners on maritime security and efforts to stop illegal, unreported, and destructive fishing.

(5) The Pacific Islands are rich in biodiversity and are on the frontlines of environmental challenges and climate issues.

(6) The People's Republic of China (PRC) seeks to increase its influence in the Pacific Islands region, including through infrastructure development under the PRC's One Belt, One Road Initiative and its new security agreement with the Solomon Islands.

(7) The United States Embassy in Papua New Guinea manages the diplomatic affairs of the United States to the Republic of Vanuatu, and the United States Embassy in Fiji manages the diplomatic affairs of the United States to the Republic of Kiribati and the Kingdom of Tonga.

(8) The United States requires a physical diplomatic presence in the Republic of Vanuatu, the Republic of Kiribati, and the Kingdom of Tonga, to ensure the physical and operational security of our efforts in those countries to deepen relations, protect United States national security, and pursue United States national interests.
