DIVISION H—CONSTITUTIONAL CONVENTION OF THE UNITED STATES

SEC. 101. DEFINITION.

In this division:

(1) **ARCHIVIST.**—The term “Archivist” means the Archivist of the United States.

(2) **ARTICLE V CONVENTION.**—The term “Article V Convention” means a convention as described in Article V of the Constitution of the United States that is called by Congress and organized by the Archivist on the application of the legislatures of ¾ of the several States for proposing amendments that shall be valid to all intents and purposes as part of the Constitution of the United States when ratified by the legislatures of ¾ of the several States, or by conventions in ¾ thereof, as one or the other mode of ratification may be proposed by Congress.

SEC. 102. FINDINGS.

Congress finds the following:

(1) Article V of the Constitution of the United States requires that “The Congress . . . on the Application of the Legislatures of two thirds of the several States, shall call a Convention for proposing Amendments” to the Constitution of the United States.

(2) Since the first application approved by a State for an Article V Convention in 1788, 42 States in total have submitted applications.

(3) The Constitution of the United States states that an Article V Convention shall be called upon the active application of ¾ of the States. Such application occurs when a State, through its legislature, approves a petition for an Article V Convention. The threshold of applications from ¾ of the States to require an Article V Convention has been met several times, as—

(A) in 1979, there were 39 active applications;

(B) in 1983, there were 40 active applications; and

(C) not less than 34 States have filed active applications as recently as 2021.

(4) Alexander Hamilton in *The Federalist* No. 85 stated that “The Congress ‘shall call a convention’. Nothing in this particular is left to the discretion of that body”.

(5) Beginning in 1979, the Federal Government failed in its constitutional duty to count applications and organize an Article V Convention. Since that time, the debt of the United States has increased to more than \$30,000,000,000,000 from \$830,000,000,000.

(6) The unanimous opinion of the United States Supreme Court in *Chiafalo v. Washington*, 140 S. Ct. 2316, 2328 (2020) stated, “electors . . . have no ground for reversing the vote of millions of its citizens. That direction accords with the Constitution—as well as with the trust of the Nation that here, We the People rule.”.

(a) **DUTIES DESCRIBED.**—Chapter 2 of title 1, United States Code, is amended by inserting after section 106b the following:

“(b) **CERTIFICATION AND NOTIFICATION.**—

“(1) **IN GENERAL.**—Not later than 30 days after receiving an application of a State calling for an Article V Convention, the Archivist shall authenticate, count, and publish, on a publicly available website, such applications, together with any resolution of any State to rescind any such previous application submitted by that State.

“(2) **EXISTING APPLICATIONS.**—Not later than 180 days after the date of enactment of this section, the Archivist shall authenticate, count, and publish all applications of a State calling for an Article V Convention received before the date of enactment of this section.

SEC. _____ . SPECIAL MEASURES TO FIGHT MODERN THREATS.—

(a) **FINDINGS.**—Congress finds the following:

(1) The Financial Crimes Enforcement Network (in this section referred to as “FinCEN”) is the financial intelligence unit of the United States tasked with safeguarding the financial system from illicit use, combating money laundering and its related crimes, including terrorism, and promoting national security.

(2) Under law, FinCEN may require domestic financial institutions and financial agencies to take certain “special measures” against jurisdictions, institutions, classes of transactions, or types of accounts determined to be of primary money laundering concern, providing the Secretary with a range of options, such as enhanced record-keeping, that can be adapted to target specific money laundering and terrorist financing and to bring pressure on those that pose money laundering threats.

(3) This special-measures authority was granted in 2001, when most cross-border transactions occurred through correspondent or payable-through accounts held with large financial institutions that serve as intermediaries to facilitate financial transactions on behalf of other banks.

(4) Innovations in financial services have transformed and expanded methods of cross-border transactions that could not have been envisioned 20 years ago when FinCEN was given its special-measures authority.

(5) These innovations, particularly through digital assets and informal value transfer systems, while useful to legitimate consumers and law enforcement, can be tools abused by bad actors like sanctions evaders, fraudsters, money launderers, and those who commit ransomware attacks on victimized United States companies and that abuse the financial system to move and obscure the proceeds of their crimes.

(6) Ransomware attacks on United States companies requiring payments in cryptocurrencies have increased in recent years, with the Treasury estimating that ransomware payments in the United States reached \$590,000,000 in just the first half of 2021, compared to a total of \$416,000,000 in 2020.

(7) In July 2021, the White House, with support of United States allies, asserted that the People’s Republic of China was responsible for ransomware operations against private companies that included demands of millions of dollars, including the 2021 ransomware attacks that breached Microsoft email systems and affected thousands of consumers, State and local municipalities, and government contractors attributed to a cyber espionage group with links to the Ministry of State Security of the People’s Republic of China.

(8) As ransomware attacks organized by Chinese and other foreign bad actors continue to grow in size and scope, modernizing the special-measure authorities of FinCEN will empower FinCEN to adapt its existing tools, monitor and obstruct global financial threats, and meet the challenges of combating 21st century financial crime.

(b) **PROHIBITIONS OR CONDITIONS ON CERTAIN TRANSMITTALS OF FUNDS.**—Section 5318A of title 31, United States Code, is amended—

(1) in subsection (a)(2)(C), by striking “subsection (b)(5)” and inserting “paragraphs (5) and (6) of subsection (b)”;

and

(2) in subsection (b)—

(A) in paragraph (5), by striking “for or on behalf of a foreign banking institution”;

and

(B) by adding at the end the following:

“(6) **PROHIBITIONS OR CONDITIONS ON CERTAIN TRANSMITTALS OF FUNDS.**—If the Secretary finds a jurisdiction outside of the United States, 1 or more financial institutions operating outside of the United States, 1 or more types of accounts within, or involving, a jurisdiction outside of the United States, or 1 or more classes of transactions within, or involving, a jurisdiction outside of the United States to be of primary money laundering concern, the Secretary, in consultation with the Secretary of State, the Attorney General, and the Chairman of the Board of Governors of the Federal Reserve System, may prohibit, or impose conditions upon, certain transmittals of funds (as such term may be defined by the Secretary in a special measure issuance, by regulation, or as otherwise permitted by law), to or from any domestic financial institution or domestic financial agency if such transmittal of funds involves any such jurisdiction, institution, type of account, or class of transaction.”.

SEC. ____ . IMPROVING DIGITAL IDENTITY.

(a) FINDINGS.—Congress finds the following:

(1) The lack of an easy, affordable, reliable, and secure way for organizations, businesses, and government agencies to identify whether an individual is who they claim to be online creates an attack vector that is widely exploited by adversaries in cyberspace and precludes many high-value transactions from being available online.

(2) Incidents of identity theft and identity fraud continue to rise in the United States,

where more than 293,000,000 people were impacted by data breaches in 2021.

(3) Since 2017, losses resulting from identity fraud have increased by 333 percent, and, in 2020, those losses totaled \$56,000,000,000.

(4) The Director of the Treasury Department Financial Crimes Enforcement Network has stated that the abuse of personally identifiable information and other building blocks of identity is a key enabler behind much of the fraud and cybercrime affecting the United States today.

(5) The inadequacy of current digital identity solutions degrades security and privacy for all people in the United States, and next generation solutions are needed that improve security, privacy, equity, and accessibility.

(6) Government entities, as authoritative issuers of identity in the United States, are uniquely positioned to deliver critical components that address deficiencies in the digital identity infrastructure of the United States and augment private sector digital identity and authentication solutions.

(7) State governments are particularly well-suited to play a role in enhancing digital identity solutions used by both the public and private sectors, given the role of State governments as the issuers of driver's licenses and other identity documents commonly used today.

(8) The public and private sectors should collaborate to deliver solutions that promote confidence, privacy, choice, equity, accessibility, and innovation. The private sector drives much of the innovation around digital identity in the United States and has an important role to play in delivering digital identity solutions.

(9) The bipartisan Commission on Enhancing National Cybersecurity has called for the Federal Government to “create an inter-agency task force directed to find secure, user-friendly, privacy-centric ways in which agencies can serve as 1 authoritative source to validate identity attributes in the broader identity market. This action would enable Government agencies and the private sector to drive significant risk out of new account openings and other high-risk, high-value online services, and it would help all citizens more easily and securely engage in transactions online.”

(10) The National Institute of Standards and Technology has published digital identity guidelines that address technical requirements for identity proofing and the authentication of users, but those guidelines do not cover requirements for providing identity attribute validation services that could be used to support identity proofing.

(11) It should be the policy of the Federal Government to use the authorities and capabilities of the Federal Government, in coordination with State, local, Tribal, and territorial partners and private sector innovators, to enhance the security, reliability, privacy, equity, accessibility, and convenience of consent-based digital identity solutions that support and protect transactions between individuals, government entities, and businesses, and that enable people in the United States to prove who they are online.

SEC. 1550. IRAN NUCLEAR WEAPONS CAPABILITY MONITORING ACT OF 2022.

(a) **SHORT TITLE.**—This section may be cited as the “Iran Nuclear Weapons Capability Monitoring Act of 2022”.

(b) **FINDINGS.**—Congress makes the following findings:

(1) In the late 1980s, the Islamic Republic of Iran established the AMAD Project with the intent to manufacture 5 nuclear weapons and prepare an underground nuclear test site.

(2) Since at least 2002, the Islamic Republic of Iran has advanced its nuclear and ballistic missile programs, posing serious threats to the security interests of the United States, Israel, and other allies and partners.

(3) In 2002, nuclear facilities in Natanz and Arak, Iran, were revealed to the public by the National Council of Resistance of Iran.

(4) On April 11, 2006, the Islamic Republic of Iran announced that it had enriched uranium for the first time to a level close to 3.5 percent at the Natanz Pilot Fuel Enrichment Plant, Natanz, Iran.

(5) On December 23, 2006, the United Nations Security Council adopted Resolution 1737 (2006), which imposed sanctions with respect to the Islamic Republic of Iran for its failure to suspend enrichment activities.

(6) The United Nations Security Council subsequently adopted Resolutions 1747 (2007), 1803 (2008), and 1929 (2010), all of which targeted the nuclear program of and imposed additional sanctions with respect to the Islamic Republic of Iran.

(7) On February 3, 2009, the Islamic Republic of Iran announced that it had launched its first satellite, which raised concern over the applicability of the satellite to the ballistic missile program.

(8) In September 2009, the United States, the United Kingdom, and France revealed the existence of the clandestine Fordow Fuel Enrichment Plant in Iran, years after construction started on the plant.

(9) In 2010, the Islamic Republic of Iran reportedly had enriched uranium to a level of 20 percent.

(10) On March 9, 2016, the Islamic Republic of Iran launched 2 variations of the Qadr medium-range ballistic missile.

(11) On January 28, 2017, the Islamic Republic of Iran conducted a test of a medium-range ballistic missile, which traveled an estimated 600 miles and provides the Islamic Republic of Iran the capability to threaten military installations of the United States in the Middle East.

(12) In 2018, Israel seized a significant portion of the nuclear archive of the Islamic Republic of Iran, which contained tens of thousands of files and compact discs relating to past efforts at nuclear weapon design, development, and manufacturing by the Islamic Republic of Iran, including such efforts occurring after 2003.

(13) On September 27, 2018, Israel revealed the existence of a secret warehouse housing radioactive material in the Turqez Abad district in Tehran, and an inspection of the warehouse by the International Atomic Energy Agency detected radioactive particles, which the Government of the Islamic Republic of Iran failed to adequately explain.

(14) On June 19, 2020, the International Atomic Energy Agency adopted Resolution GOV/2020/34 expressing “serious concern... that Iran has not provided access to the Agency under the Additional Protocol to two locations”.

(15) On January 8, 2020, an Iranian missile struck an Iraqi military base where members of the United States Armed Forces were stationed, resulting in 11 of such members being treated for injuries.

(16) On April 17, 2021, the International Atomic Energy Agency verified that the Islamic Republic of Iran had begun to enrich uranium to 60 percent purity.

(17) On August 14, 2021, President of Iran Hassan Rouhani stated that “Iran’s Atomic Energy Organization can enrich uranium by 20 percent and 60 percent and if one day our reactors need it, it can enrich uranium to 90 percent purity”.

(18) According to the International Institute for Strategic Studies, the Islamic Republic of Iran has “between six and eight liquid-fuel ballistic missiles and up to 12 solid-fuel systems” as of 2021.

(19) On November 9, 2021, the Islamic Republic of Iran completed Zolfaghar-1400, a 3-day war game that included conventional navy, army, air force, and air defense forces testing cruise missiles, torpedoes, and suicide drones in the Strait of Hormuz, the Gulf of Oman, the Red Sea, and the Indian Ocean.

(20) On December 20, 2021, the Islamic Republic of Iran commenced a 5-day drill in which it launched a number of short- and long-range ballistic missiles that it claimed could destroy Israel, constituting an escalation in the already genocidal rhetoric of the Islamic Republic of Iran toward Israel.

(21) On January 24, 2022, Houthi rebels, backed by the Islamic Republic of Iran, fired 2 missiles at Al Dhafra Air Base in the United Arab Emirates, which hosts around 2,000 members of the Armed Forces of the United States.

(22) On January 31, 2022, surface-to-air interceptors of the United Arab Emirates shot down a Houthi missile fired at the United Arab Emirates during a visit by President of Israel Isaac Herzog, the first-ever visit of an Israeli President to the United Arab Emirates.

(23) On February 9, 2022, the Islamic Republic of Iran unveiled a new surface-to-surface missile, named “Kheibar Shekan”, which has a reported range of 900 miles (1450 kilometers) and is capable of penetrating missile shields.

(24) On March 13, 2022, the Islamic Republic of Iran launched 12 missiles into Erbil, Iraq, which struck near a consulate building of the United States.

(25) On April 17, 2022, the Islamic Republic of Iran confirmed the relocation of a production facility for advanced centrifuges from an aboveground facility at Karaj, Iran, to the fortified underground Natanz Enrichment Complex.

(26) On April 19, 2022, the Department of State released a report stating that there are “serious concerns” about “possible undeclared nuclear material and activities in Iran”.

(27) On May 30, 2022, the International Atomic Energy Agency reported that the Islamic Republic of Iran had achieved a stockpile of 43.3 kilograms, equivalent to 95.5 pounds, of 60 percent highly enriched uranium, roughly enough material for a nuclear weapon.

(28) On June 8, 2022, the Islamic Republic of Iran turned off surveillance cameras installed by the International Atomic Energy Agency to monitor uranium enrichment activities at nuclear sites in the country.

(c) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the Department of State has used evidence of the intent of the Islamic Republic of Iran to advance a nuclear program to secure the support of the international community in passing and implementing United Nations Security Council Resolutions on the Islamic Republic of Iran;

(2) intelligence agencies have compiled evidence of the intent of the Islamic Republic of Iran to advance a nuclear program, with direct evidence of an active nuclear weapons program prior to 2003;

(3) an Islamic Republic of Iran that possesses a nuclear weapons capability would be a serious threat to the national security of the United States, Israel, and other allies and partners;

(4) the Islamic Republic of Iran has been less than cooperative with international inspectors from the International Atomic Energy Agency and has obstructed their ability to inspect numerous nuclear facilities across Iran;

(5) the Islamic Republic of Iran continues to advance its nuclear weapons and missile programs, which are a threat to the national security of the United States, Israel, and other allies and partners; and

SEC. 1281. SHORT TITLE.

This subtitle may be cited as the “Cambodia Democracy and Human Rights Act of 2022”.

SEC. 1282. FINDINGS.

Congress finds the following:

(1) On October 23, 1991, Cambodia and 18 other countries signed the Comprehensive Cambodian Peace Agreement (commonly referred to as the “Paris Peace Agreements”), which committed Cambodia to a democratic system of governance protected by a constitution and free and fair elections and stated that the people of Cambodia “shall enjoy the rights and freedoms embodied in the Universal Declaration of Human Rights and other relevant international human rights instruments”.

(2) Prime Minister Hun Sen has been in power in Cambodia since 1984 and is the longest-serving leader in Southeast Asia. Despite decades of international attention and assistance to promote a pluralistic, multiparty democratic system in Cambodia, the Government of Cambodia continues to be undemocratically dominated by the ruling Cambodian People's Party.

(3) In 2015, the Cambodian People's Party-controlled National Assembly adopted the Law on Associations and Non-Governmental Organizations, which gave the Government of Cambodia sweeping powers to revoke the registration of nongovernmental organizations in the name of “national unity”, and which the government has used to restrict the legitimate work of civil society.

(4) On August 23, 2017, Cambodia's Ministry of Foreign Affairs ordered the closure of the National Democratic Institute office in Cambodia and the expulsion of its foreign staff. On September 15, 2017, Prime Minister Hun Sen called for the withdrawal of all volunteers from the United States Peace Corps, which has operated in Cambodia since 2006 with approximately 500 United States volunteers providing English language and healthcare training.

(5) The Government of Cambodia has taken several measures to restrict its media environment, especially through politicized tax investigations against independent media outlets that resulted in the closure of The Cambodia Daily and Radio Free Asia in early September 2017. Additionally, the Government of Cambodia has ordered several radio stations to stop the broadcasting of Radio Free Asia and Voice of America programming.

(6) Cambodia's small number of independent trade unions and workers have the right to strike, but many face retribution for doing so, according to Freedom House.

(7) Each of the 6 elections that have taken place in Cambodia since 1991 was conducted in circumstances that were not free and fair, and were marked, to varying degrees, by fraud, intimidation, violence, and the misuse by the Government of Cambodia of legal mechanisms to weaken opposition candidates and parties. The 2017 local elections were marked by fewer reported irregularities, however, which helped the opposition Cambodia National Rescue Party (in this section referred to as the “CNRP”). Hun Sen responded to those improvements in elections, resulting in part from international assistance and observers, by banning the CNRP, the primary opposition party, on November 16, 2017.

(8) On September 3, 2017, Kem Sokha, the President of the CNRP, was arrested on politically motivated charges, including treason and conspiring to overthrow the Government of Cambodia. While he was released on bail, he faces up to 30 years in prison.

(9) In the most recent general election in July 2018, following the dissolution of the CNRP, the Cambodian People's Party secured every parliamentary seat, an electoral victory that the White House Press Secretary stated was "neither free nor fair and failed to represent the will of the Cambodian people".

(10) The widespread crackdown by the Government of Cambodia on the political opposition and other independent voices has caused many CNRP leaders to flee abroad. On March 12, 2019, a court criminally charged and issued arrest warrants for 8 leading members of the CNRP, including former CNRP leader Sam Rainsy, who had left Cambodia ahead of the July 2018 election, as well as Mu Sochua, Ou Chanrith, Eng Chhai Eang, Men Sothavarin, Long Ry, Tob Van Chan, and Ho Vann.

(11) The Government of Cambodia has arrested many opposition party members and democracy activists who remained in Cambodia. More than 80 opposition party supporters and activists were arrested in 2019 and were released on bail with charges still pending and could face re-arrest any time.

(12) In November 2019, Sam Rainsy made a failed attempt to return to Cambodia to partake in mass pro-democracy protests. Approximately 150 CNRP activists were put on trial in 2020 and 2021 for treason for calling for his return.

(13) In March 2021, a Cambodian court convicted and sentenced Sam Rainsy in absentia to 25 years in prison and 8 other opposition figures living in exile, including Rainsy's wife Tiouleng Saumura, as well as Mu Sochua, Eng Chhay Eang, Men Sothavarin, Ou Chanrith, Ho Vann, Long Ry, and Nuth Romduol, to between 20 and 22 years.

(14) On June 14, 2022, the Government of Cambodia convicted 51 opposition politicians and activists in a mass trial, many of whom were convicted in absentia on charges of "incitement" and "conspiracy" for supporting the development of democracy in Cambodia. Sentences ranged from 5-year suspended jail terms to 8 years in prison and serve to further intimidate potential political opponents of the regime of Prime Minister Hun Sen.

(15) Prime Minister Hun Sen has used the coronavirus disease 2019 (commonly known as "COVID-19") pandemic as justification to further consolidate power and the Cambodia People's Party-controlled National Assembly passed new laws to further curtail the rights to freedom of expression, peaceful assembly, and association.

(16) According to Human Rights Watch, under the guise of the pandemic, authorities—

(A) banned protests organized by youth and environmental activists;

(B) detained and interrogated at least 30 people for Facebook posts related to the pandemic; and

(C) charged one journalist for pandemic-related reporting.

(17) According to Freedom House, Hun Sen uses the police and armed forces as instruments of repression. The military has stood firmly behind Hun Sen and his crackdown on opposition groups and Hun Sen has built a personal bodyguard unit in the armed forces that he reportedly uses to harass and abuse Cambodian People's Party opponents.

(18) In August 2020, 14 youth and environmental activists were detained by Cambodian authorities. In May 2021, 3 environmental activists were convicted on charges of "incitement to commit a felony or disturb social order", related to peaceful protests against authorities. In June 2021, a Cambodian court charged 3 environmental activists with "plotting against the government and insulting the king". The 2020 Country

Reports on Human Rights Practices of the Department of State reported "at least 40 political prisoners or detainees" in Cambodia.

(19) Beginning in December 2021, the Government of Cambodia has restricted the labor rights of workers protesting working conditions and illegal dismissals at the NagaWorld Casino, including using the COVID-19 pandemic as an excuse to limit the ability of workers to protest. In February 2022, officials of the Government of Cambodia arrested 6 workers of the casino after leaving a COVID-19 testing center, claiming that they had obstructed testing.

(20) In 2019, the Wall Street Journal reported that Cambodia had signed a deal with the Government of the People's Republic of China to allow that Government access to and use of the Ream Naval Base on the Gulf of Thailand, even though the Constitution of Cambodia prohibits the establishment of foreign military bases.

(21) In 2019, the New York Times reported that a company described by the Department of the Treasury as being a state-owned company of the People's Republic of China had secured a 99-year lease to build an airport capable of supporting military aircraft at Dara Sakor, raising concerns that Beijing intends to use this dual-use facility for its military, despite the prohibition against the establishment of foreign military bases in the Constitution of Cambodia.

(22) In section 401 of the Asia Reassurance Initiative Act of 2018 (Public Law 115-409; 132 Stat. 5407), Congress expressed serious concerns with the rule of law and civil liberties in Cambodia and made the finding that the promotion of human rights and respect for democratic values in the Indo-Pacific region is in the United States national security interest.

(23) The 2020 Country Reports on Human Rights Practices of the Department of State stated, of Cambodia, "Corruption was endemic throughout society and government. There were reports police, prosecutors, investigating judges, and presiding judges took bribes from owners of both legal and illegal businesses. Citizens frequently and publicly complained about corruption. Meager salaries contributed to 'survival corruption' among low-level public servants, while a culture of impunity enabled corruption to flourish among senior officials."

(24) Section 7043(b) of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2022 (division K of Public Law 117-103; 136 Stat. 645) restricts assistance to the Government of Cambodia until "the Secretary of State certifies and reports to the Committees on Appropriations that such Government is taking effective steps to—

"(i) strengthen regional security and stability, particularly regarding territorial disputes in the South China Sea and the enforcement of international sanctions with respect to North Korea;

"(ii) assert its sovereignty against interference by the People's Republic of China, including by verifiably maintaining the neutrality of Ream Naval Base, other military installations in Cambodia, and dual use facilities such as the Dara Sakor development project;

"(iii) cease violence, threats, and harassment against civil society and the political opposition in Cambodia, and dismiss any politically motivated criminal charges against critics of the government; and

"(iv) respect the rights, freedoms, and responsibilities enshrined in the Constitution of the Kingdom of Cambodia as enacted in 1993."

(25) Section 201(f) of the Asia Reassurance Initiative Act of 2018 (Public Law 115-409; 132

Stat. 5392) restricts assistance to Cambodia until the Government of Cambodia takes effective steps to—

(A) strengthen regional security and stability, particularly regarding territorial disputes in the South China Sea and the enforcement of international sanctions with respect to North Korea; and

(B) respect the rights and responsibilities enshrined in the Constitution of the Kingdom of Cambodia as enacted in 1993, including through the—

(i) restoration of the civil and political rights of the opposition Cambodia National Rescue Party, media, and civil society organizations;

(ii) restoration of all elected officials to their elected offices; and

(iii) release of all political prisoners, including journalists, civil society activists, and members of the opposition political party.

(26) On December 9, 2019, the Department of the Treasury imposed sanctions under the Global Magnitsky Human Rights Accountability Act (22 U.S.C. 10101 et seq.) with respect to certain corrupt Cambodian actors and their networks.

(27) In February 2019, the European Union began intense scrutiny of Cambodia's eligibility to for preferential trade access in light of the deterioration of democracy, the rule of law, and the protection of human rights in Cambodia. In February 2020, the European Union, Cambodia's largest export market, partially suspended trade preferences for Cambodia under its "Everything but Arms" trade program, in response to Cambodia's violations of civil and political rights.

(28) In 2021, the Joint Vietnamese Friendship building, a facility built by the Government of Vietnam, was relocated off the Ream Naval Base, reportedly to avert conflicts with military personnel of the People's Republic of China.

(29) In 2022, the governments of the People's Republic of China and Cambodia held a groundbreaking ceremony for a new upgrade to the Ream Naval Base, which, according to the Washington Post, would allow the People's Liberation Army to have "exclusive use of the northern portion of the base, while their presence would remain concealed".

(30) On June 8, 2022, in the groundbreaking ceremony for constructing new facilities of the Ream Naval Base, the Ambassador of the People's Republic of China to Cambodia, Wang Wentian, declared that the base would be a monument to "the ironclad friendship and cooperation between the two militaries" of the People's Republic of China and Cambodia.

SEC. 1283. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the United States is committed to promoting democracy, human rights, and the rule of law in Cambodia, as laid out in the 1991 Paris Peace Agreements;

(2) the United States Government, through diplomacy and assistance, should urge the Government of Cambodia to—

(A) release all political prisoners;

(B) drop all politically motivated charges and vacate convictions against members of the Cambodia National Rescue Party, journalists, and civil society activists; and

(C) restore full political rights to the Cambodia National Rescue Party and other political parties;

(3) the United States Government should urge the Government of Cambodia—

(A) to reverse the policies and actions that have resulted in the dismantling of democracy, the blatant disregard of fundamental human rights, and the breakdown of rule of law in Cambodia;

(B) to immediately discontinue the imprisonment and judicial harassment of journalists, political dissidents, and activists, and drop politically motivated charges;

(C) to stop arrests and intimidation of civil society members, including human rights activists, environmental defenders, and labor leaders, and promote a flourishing civil society that supports the political and economic development of Cambodia;

(D) to halt the threat of mass arrests and violence if and when Cambodia National Rescue Party members currently overseas return to Cambodia;

(E) to reinstate the political status of the Cambodia National Rescue Party and other opposition parties, restore the Cambodia National Rescue Party's elected seats in the National Assembly, and support electoral reform efforts in Cambodia with free and fair elections monitored by international observers;

(F) to ensure that media outlets are able to operate freely and without interference, including having the ability to apply for and receive licenses to operate within Cambodia;

(G) to consider how allowing the People's Liberation Army to conduct activities, gain access, or establish a presence in Cambodia would harm Cambodia's relationships with its neighbors, partners, and allies, and could violate the Constitution of Cambodia; and

(H) to cease providing support to authoritarian regimes and undermining democratic activists in the region, especially through its ties to the Burmese military that seized power in a coup d'état on February 1, 2021, and instead play a constructive role in multilateral organizations like the Association of Southeast Asian Nations to promote peace and democracy in the region;

(4) Prime Minister Hun Sen is directly responsible, and should be held accountable, for the safety, health, and welfare of exiled Cambodia National Rescue Party leaders and their supporters upon their return to Cambodia;

(5) other governments throughout the Indo-Pacific region should—

(A) urge the Government of Cambodia to allow the peaceful return of exiled Cambodia National Rescue Party leaders and their supporters;

(B) refrain from illegally restricting the rights of Cambodia National Rescue Party members to travel to and through their countries as they return; and

(C) press the Government of Cambodia not to allow the People's Liberation Army to use Cambodia's military facilities or establish a presence within Cambodia;

(6) in the absence of systemic democratic reforms on the part of the Government of Cambodia, there is need for additional measures by the United States Government, including through the enactment of legislation and executive action; and

(7) the presence of the People's Liberation Army will further enable Prime Minister Hun Sen's authoritarian crackdown, including oppression of opposition parties, independent civil society, and free media in Cambodia.

(A) the dangers posed to the national security of the United States, to the interests of allies and partners of the United States, and

to the safety and security of civilian populations by existing or new nuclear reactors or power plants located in areas that—

(i) have experienced armed conflict in the 25 years preceding the date of the enactment of this Act; or

(ii) are contested or likely to experience armed conflict during the life span of those reactors and plants; and

(B) steps the United States or allies and partners of the United States can take to mitigate the risks to the national security of the United States, to the interests of allies and partners of the United States, and to the safety and security of civilian populations posed by nuclear reactors and power plants in places that may experience armed conflict.

(2) FORM OF REPORT.—The report required by paragraph (1) shall be submitted in unclassified form but may include a classified annex.

(3) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this section, the term “appropriate committees of Congress” means—

(A) the Committee on Armed Services and the Committee on Foreign Relations of the Senate; and

(B) the Committee on Armed Services and the Committee on Foreign Affairs of the House of Representatives.

SEC. 1531. REDUCTION OF THREATS POSED BY NUCLEAR WEAPONS TO THE UNITED STATES.

(a) FINDINGS.—Congress makes the following findings:

(1) The use of nuclear weapons poses an existential threat to humanity, a fact that led President Ronald Reagan and Soviet Premier Mikhail Gorbachev to declare in a joint statement in 1987 that a “nuclear war cannot be won and must never be fought”. The leaders of the 5 nuclear weapons states (the People’s Republic of China, the French Republic, the Russian Federation, the United Kingdom of Great Britain and Northern Ireland, and the United States of America) reaffirmed that statement in January 2022.

(2) On June 12, 1982, an estimated 1,000,000 people attended the largest peace rally in

United States history, in support of a movement to freeze and reverse the nuclear arms race, a movement that helped to create the political will necessary for the negotiation of several bilateral arms control treaties between the United States and former Soviet Union, and then the Russian Federation. Those treaties contributed to strategic stability through mutual and verifiable reciprocal nuclear weapons reductions.

(3) Since the advent of nuclear weapons in 1945, millions of people around the world have stood up to demand meaningful, immediate international action to halt, reduce, and eliminate the threats posed by nuclear weapons, nuclear weapons testing, and nuclear war, to humankind and the planet.

(4) In 1970, the Treaty on the Non-Proliferation of Nuclear Weapons done at Washington, London, and Moscow July 1, 1968 (21 UST 483) (commonly referred to as the “Nuclear Non-Proliferation Treaty” or the “NPT”) entered into force, which includes a binding obligation on the 5 nuclear-weapon states (commonly referred to as the “P5”), among other things, “to pursue negotiations in good faith on effective measures relating to the cessation of the nuclear arms race . . . and to nuclear disarmament”.

(5) Bipartisan United States global leadership has curbed the growth in the number of countries possessing nuclear weapons and has slowed overall vertical proliferation among countries already possessing nuclear weapons, as is highlighted by a more than 85-percent reduction in the United States nuclear weapons stockpile from its Cold War height of 31,255 in 1967.

(6) The United States testing of nuclear weapons is no longer necessary as a result of the following major technical developments since the Senate’s consideration of the Comprehensive Nuclear-Test-Ban Treaty (commonly referred to as the “CTBT”) in 1999:

(A) The verification architecture of the Comprehensive Nuclear Test-Ban Treaty Organization (commonly referred to as the “CTBTO”)—

(i) has made significant advancements, as seen through its network of 300 International Monitoring Stations and its International Data Centre, which together provide for the near instantaneous detection of nuclear explosives tests, including all 6 such tests conducted by North Korea between 2006 and 2017; and

(ii) is operational 24 hours a day, 7 days a week.

(B) Since the United States signed the CTBT, confidence has grown in the science-based Stockpile Stewardship and Management Plan of the Department of Energy, which forms the basis of annual certifications to the President regarding the continual safety, security, and effectiveness of the United States nuclear deterrent in the absence of nuclear testing, leading former Secretary of Energy Ernest Moniz to remark in 2015 that “lab directors today now state that they certainly understand much more about how nuclear weapons work than during the period of nuclear testing”.

(7) Despite the progress made to reduce the number and role of, and risks posed by, nuclear weapons, and to halt the Cold War-era nuclear arms race, tensions between countries that possess nuclear weapons are on the rise, key nuclear risk reduction treaties are under threat, significant stockpiles of weapons-usable fissile material remain, and a qualitative global nuclear arms race is now underway with each of the countries that possess nuclear weapons spending tens of billions of dollars each year to maintain and improve their arsenals.

(8) The Russian Federation is pursuing the development of destabilizing types of nuclear weapons that are not presently covered

under any existing arms control treaty or agreement and the People's Republic of China, India, Pakistan, and North Korea have each taken concerning steps to diversify their more modest sized, but nonetheless very deadly, nuclear arsenals.

(9) Former President Donald J. Trump's 2018 Nuclear Posture Review called for the development two new nuclear weapons capabilities, which have the effect of lowering the threshold for nuclear weapons use:

(A) A low-yield warhead on a submarine-launched ballistic missile, which was deployed before the date of the enactment of this Act.

(B) A sea-launched cruise missile, still under development on the date of the enactment of this Act.

(10) On February 3, 2021, President Joseph R. Biden preserved binding and verifiable limits on the deployed and non-deployed strategic forces of the largest two nuclear weapons powers through the five-year extension of the Treaty between the United States of America and the Russian Federation on Measures for the Further Reduction and Limitation of Strategic Offensive Arms, signed April 8, 2010, and entered into force February 5, 2011 (commonly referred to as the "New START Treaty").

(11) In 2013, the report on a nuclear weapons employment strategy of the United States submitted under section 492 of title 10, United States Code, determined that it is possible to ensure the security of the United States and allies and partners of the United States and maintain a strong and credible strategic deterrent while safely pursuing up to a 1/3 reduction in deployed nuclear weapons from the level established in the New START Treaty.

(12) On January 12, 2017, then-Vice President Biden stated, "[G]iven our non-nuclear capabilities and the nature of today's threats—it's hard to envision a plausible scenario in which the first use of nuclear weapons by the United States would be necessary. Or make sense."

(13) In light of moves by the United States and other countries to increase their reliance on nuclear weapons, a global nuclear freeze would seek to halt the new nuclear arms race by seeking conclusion of a comprehensive and verifiable freeze on the testing, deployment, and production of nuclear weapons and delivery vehicles for such weapons.

(b) **STATEMENT OF POLICY.**—The following is the policy of the United States:

(1) The United States should build upon its decades long, bipartisan efforts to reduce the number and salience of nuclear weapons by leading international negotiations on specific arms-reduction measures as part of a 21st century global nuclear freeze movement.

(2) Building on the successful extension of the New START Treaty, the United States should engage with all other countries that possess nuclear weapons to seek to negotiate and conclude future multilateral arms control, disarmament, and risk reduction agreements, which should contain some or all of the following provisions:

(A) An agreement by the United States and the Russian Federation on a follow-on treaty or agreement to the New START Treaty that may lower the central limits of the Treaty and cover new kinds of strategic delivery vehicles or non-strategic nuclear weapons.

(B) An agreement on a verifiable freeze on the testing, production, and further deployment of all nuclear weapons and delivery vehicles for such weapons.

(C) An agreement that establishes a verifiable numerical ceiling on the deployed shorter-range and intermediate-range and strategic delivery systems (as defined by the INF Treaty and the New START Treaty, re-

spectively) and the nuclear warheads associated with such systems belonging to the P5, and to the extent possible, all countries that possess nuclear weapons, at August 2, 2019, levels.

(D) An agreement by each country to adopt a policy of no first use of nuclear weapons or provide transparency into its nuclear declaratory policy.

(E) An agreement on a proactive United Nations Security Council resolution that expands access by the International Atomic Energy Agency to any country found by the Board of Governors of that Agency to be non-compliant with its obligations under the NPT.

(F) An agreement to refrain from configuring nuclear forces in a "launch on warning" or "launch under warning" nuclear posture, which may prompt a nuclear armed country to launch a ballistic missile attack in response to detection by an early-warning satellite or sensor of a suspected incoming ballistic missile.

(G) An agreement not to target or interfere in the nuclear command, control, and communications (commonly referred to as "NC3") infrastructure of another country through a kinetic attack or a cyberattack.

(H) An agreement on transparency measures or verifiable limits, or both, on hypersonic cruise missiles and glide vehicles that are fired from sea-based, ground, and air platforms.

(I) An agreement to provide a baseline and continuous exchanges detailing the aggregate number of active nuclear weapons and associated systems possessed by each country.

(3) The United States should rejuvenate efforts in the United Nations Conference on Disarmament toward the negotiation of a verifiable Fissile Material Treaty or Fissile Material Cutoff Treaty, or move negotiations to another international body or fora, such as a meeting of the P5. Successful conclusion of such a treaty would verifiably prevent any country's production of highly enriched uranium and plutonium for use in nuclear weapons.

(4) The United States should convene a series of head-of-state level summits on nuclear disarmament modeled on the Nuclear Security Summits process, which saw the elimination of the equivalent of 3,000 nuclear weapons.

(5) The President should seek ratification by the Senate of the CTBT and mobilize all countries covered by Annex 2 of the CTBT to pursue similar action to hasten entry into force of the CTBT. The entry into force of the CTBT, for which ratification by the United States will provide critical momentum, will activate the CTBT's onsite inspection provision to investigate allegations that any country that is a party to the CTBT has conducted a nuclear test of any yield.

(6) The President should make the accession of North Korea to the CTBT a component of any final agreement in fulfilling the pledges the Government of North Korea made in Singapore, as North Korea is reportedly the only country to have conducted a nuclear explosive test since 1998.

(7) The United States should—

(A) refrain from developing any new designs for nuclear warheads or bombs, but especially designs that could add a level of technical uncertainty into the United States stockpile and thus renew calls to resume nuclear explosive testing in order to test that new design; and

(B) seek reciprocal commitments from other countries that possess nuclear weapons.

(c) **PROHIBITION ON USE OF FUNDS FOR NUCLEAR TEST EXPLOSIONS.**—

(1) **IN GENERAL.**—None of the funds authorized to be appropriated or otherwise made available for fiscal year 2023 or any fiscal year thereafter, or authorized to be appropriated or otherwise made available for any fiscal year before fiscal year 2023 and available for obligation as of the date of the enactment of this Act, may be obligated or expended to conduct or make preparations for any explosive nuclear weapons test that produces any yield until such time as—

(A) the President submits to Congress an addendum to the report required by section 4205 of the Atomic Energy Defense Act (50 U.S.C. 2525) that details any change to the condition of the United States nuclear weapons stockpile from the report submitted under that section in the preceding year; and

(B) there is enacted into law a joint resolution of Congress that approves the test.

(2) **RULE OF CONSTRUCTION.**—Paragraph (1) does not limit nuclear stockpile stewardship activities that are consistent with the zero-yield standard and other requirements under law.

SA 5877. Mr. MARKEY submitted an amendment intended to be proposed to amendment SA 5499 submitted by Mr. REED (for himself and Mr. INHOFE) and intended to be proposed to the bill H.R. 7900, to authorize appropriations for fiscal year 2023 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title XV, add the following:

SEC. 1531. REDUCTIONS IN SPENDING ON NUCLEAR WEAPONS; PROHIBITION ON PROCUREMENT AND DEPLOYMENT OF LOW-YIELD NUCLEAR WARHEADS.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The United States continues to maintain an excessively large and costly arsenal of nuclear delivery systems and warheads that are a holdover from the Cold War.

(2) The current nuclear arsenal of the United States includes approximately 3,800 total nuclear warheads in its military stockpile, of which approximately 1,750 are deployed with five delivery components: land-based intercontinental ballistic missiles, submarine-launched ballistic missiles, long-range strategic bomber aircraft armed with nuclear gravity bombs, long-range strategic bomber aircraft armed with nuclear-armed air-launched cruise missiles, and short-range fighter aircraft that can deliver nuclear gravity bombs. The strategic bomber fleet of the United States comprises 87 B-52 and 20 B-2 aircraft, over 60 of which contribute to the nuclear mission. The United States also maintains 400 intercontinental ballistic missiles and 14 Ohio-class submarines, up to 12 of which are deployed. Each of those submarines is armed with approximately 90 nuclear warheads.

(3) Between fiscal years 2021 and 2030, the United States will spend an estimated \$634,000,000,000 to maintain and recapitalize its nuclear force, according to a January 2019 estimate from the Congressional Budget Office, an increase of \$140,000,000,000 from the Congressional Budget Office's 2019 estimate, with 36 percent of that additional cost stemming "mainly from new plans for modernizing [the Department of Energy's] production facilities and from [the Department of Defense's] modernization programs moving more fully into production".

(4) Adjusted for inflation, the Congressional Budget Office estimates that the United States will spend \$1,700,000,000,000 through fiscal year 2046 on new nuclear weapons and modernization and infrastructure programs.

(5) Inaccurate budget forecasting is likely to continue to plague the Department of Defense and the Department of Energy, as evidenced by the fiscal year 2021 budget request of the President for the National Nuclear Security Administration "Weapon Activities" account, which far exceeded what the National Nuclear Security Administration had projected in its fiscal year 2020 request and what it had projected in previous years.

(6) The projected growth in nuclear weapons spending is coming due as the Department of Defense is seeking to replace large portions of its conventional forces to better compete with the Russian Federation and the People's Republic of China and as internal and external fiscal pressures are likely to limit the growth of, and perhaps reduce, military spending. As then-Air Force Chief of Staff General Dave Goldfein said in 2020, "I think a debate is that this will be the first time that the nation has tried to simultaneously modernize the nuclear enterprise while it's trying to modernize an aging conventional enterprise. The current budget does not allow you to do both."

(7) In 2017, the Government Accountability Office concluded that National Nuclear Security Administration's budget forecasts for out-year spending downplayed the fact that the agency lacked the resources to complete multiple, simultaneous billion dollar modernization projects and recommended that the National Nuclear Security Administration consider "deferring the start of or cancelling specific modernization programs".

(8) According to the Government Accountability Office, the National Nuclear Security Administration has still not factored affordability concerns into its planning as was recommended by the Government Accountability Office in 2017, with the warning that "it is essential for NNSA to present information to Congress and other key decision maker indicating whether the agency has prioritized certain modernization programs or considered trade-offs (such as deferring or cancelling specific modernization programs)".

(9) A December 2020 Congressional Budget Office analysis showed that the projected costs of nuclear forces over the next decade can be reduced by \$12,400,000,000 to \$13,600,000,000 by trimming back current plans, while still maintaining a triad of delivery systems. Even larger savings would accrue over the subsequent decade.

(10) The Department of Defense's June 2013 nuclear policy guidance entitled "Report on Nuclear Employment Strategy of the United States" found that force levels under the April 2010 Treaty on Measures for the Further Reduction and Limitation of Strategic Offensive Arms between the United States and the Russian Federation (commonly known as the "New START Treaty") "are more than adequate for what the United States needs to fulfill its national security objectives" and can be reduced by up to 1/3 below levels under the New START Treaty to 1,000 to 1,100 warheads.

(11) Former President Trump expanded the role of, and spending on, nuclear weapons in United States policy at the same time that he withdrew from, unsigned, or otherwise terminated a series of important arms control and nonproliferation agreements.

(b) REDUCTIONS IN NUCLEAR FORCES.—

(1) REDUCTION OF NUCLEAR-ARMED SUBMARINES.—Notwithstanding any other provision of law, none of the funds authorized to be appropriated or otherwise made available

(12) LIMITATION ON W87-1 WARHEAD PROCUREMENT AND DEPLOYMENT.—Notwithstanding any other provision of law, none of the funds authorized to be appropriated or otherwise made available for fiscal year 2023 or any fiscal year thereafter for the Department of Defense or the Department of Energy may be obligated or expended for the procurement or deployment of the W87-1 warhead for use on any missile that can feasibly employ a W87 warhead.

(13) LIMITATION ON SUSTAINMENT OF B83-1 BOMB.—Notwithstanding other provision of law, none of the funds authorized to be appropriated or otherwise made available for fiscal year 2023 or any fiscal year thereafter for the Department of Defense or the Department of Energy may be obligated or expended for the sustainment of the B83-1 bomb beyond the time at which confidence in the B61-12 stockpile is gained.

(14) PROHIBITION ON SPACE-BASED MISSILE DEFENSE.—Notwithstanding other provision of law, none of the funds authorized to be appropriated or otherwise made available for fiscal year 2023 or any fiscal year thereafter for the Department of Defense or the Department of Energy may be obligated or expended for the research, development, test, and evaluation or procurement of a space-based missile defense system.

(15) PROHIBITION ON THE W-93 WARHEAD.—Notwithstanding any other provision of law, none of the funds authorized to be appropriated or otherwise made available for fiscal year 2023 or any fiscal year thereafter for the Department of Defense or the Department of Energy may be obligated or expended for the procurement and deployment of a W-93 warhead on a submarine launched ballistic missile.

(c) REPORTS REQUIRED.—

(1) INITIAL REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense and the Secretary of Energy shall jointly submit to the appropriate committees of Congress a report outlining the plan of each Secretary to carry out subsection (b).

(2) ANNUAL REPORT.—Not later than March 1, 2023, and annually thereafter, the Secretary of Defense and the Secretary of Energy shall jointly submit to the appropriate committees of Congress a report outlining the plan of each Secretary to carry out subsection (b), including any updates to previously submitted reports.

(A) the fiscal year covered by the report; and

(B) the life cycle of such weapon or program.

(4) COST ESTIMATE REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense and the

Secretary of Energy shall jointly submit to the appropriate committees of Congress a report outlining the estimated cost savings that result from carrying out subsection (b).

(5) **REPORT ON FUNDING NATIONAL DEFENSE STRATEGY.**—Not later than 180 days after the publication of the unclassified National Defense Strategy under section 113(g) of title 10, United States Code, the Secretary of Defense shall submit to the appropriate committees of Congress a report explaining how the Secretary proposes to fund the National Defense Strategy under different levels of projected defense spending, including scenarios in which—

(A) anticipated cost savings from reform do not materialize; or

(B) defense spending decreases to the levels specified by the Budget Control Act of 2011 (Public Law 112-25; 125 Stat. 240).

(6) **MODIFICATION OF PERIOD TO BE COVERED BY ESTIMATES OF COSTS RELATING TO NUCLEAR WEAPONS.**—Section 492a of title 10, United States Code, is amended in subsections (a)(2)(F) and (b)(1)(A) by striking “10-year period” each place it appears and inserting “25-year period”.

(7) **APPROPRIATE COMMITTEES OF CONGRESS DEFINED.**—In this subsection, the term “appropriate committees of Congress” means—

(A) the Committee on Armed Services, the Committee on Foreign Relations, the Committee on Appropriations, and the Committee on Energy and Natural Resources of the Senate; and

(B) the Committee on Armed Services, the Committee on Foreign Affairs, the Committee on Appropriations, the Committee on Energy and Commerce, and the Committee on Natural Resources of the House of Representatives.

SA 5878. Mr. MARKEY submitted an amendment intended to be proposed to amendment SA 5499 submitted by Mr. REED (for himself and Mr. INHOFE) and intended to be proposed to the bill H.R. 7900, to authorize appropriations for fiscal year 2023 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title XV, add the following:

SEC. 1531. RESTRICTION ON FIRST-USE STRIKE OF NUCLEAR WEAPONS.

(a) **FINDINGS AND DECLARATION OF POLICY.**—

(1) **FINDINGS.**—Congress finds the following:

(A) The Constitution gives Congress the sole power to declare war.

(B) The framers of the Constitution understood that the monumental decision to go to war, which can result in massive death and the destruction of civilized society, must be made by the congressional representatives of the people and not by a single person.

(C) As stated by section 2(c) of the War Powers Resolution (Public Law 93-148; 50 U.S.C. 1541), “the constitutional powers of the President as Commander-in-Chief to introduce United States Armed Forces into hostilities, or into situations where imminent involvement in hostilities is clearly indicated by the circumstances, are exercised only pursuant to (1) a declaration of war, (2) specific statutory authorization, or (3) a national emergency created by attack upon the United States, its territories or possessions, or its armed forces”.

(D) Nuclear weapons are uniquely powerful weapons that have the capability to instantly kill millions of people, create long-

term health and environmental consequences throughout the world, directly undermine global peace, and put the United States at existential risk from retaliatory nuclear strikes.

(E) A first-use nuclear strike carried out by the United States would constitute a major act of war.

(F) A first-use nuclear strike conducted absent a declaration of war by Congress would violate the Constitution.

(G) The President has the sole authority to authorize the use of nuclear weapons, an order which military officers of the United States must carry out in accordance with their obligations under the Uniform Code of Military Justice.

(H) Given its exclusive power under the Constitution to declare war, Congress must provide meaningful checks and balances to the President's sole authority to authorize the use of a nuclear weapon.

(2) **DECLARATION OF POLICY.**—It is the policy of the United States that no first-use nuclear strike should be conducted absent a declaration of war by Congress.

(b) **PROHIBITION ON CONDUCT OF FIRST-USE NUCLEAR STRIKES.**—

(1) **PROHIBITION.**—No Federal funds may be obligated or expended to conduct a first-use nuclear strike unless such strike is conducted pursuant to a war declared by Congress that expressly authorizes such strike.

(2) **FIRST-USE NUCLEAR STRIKE DEFINED.**—In this subsection, the term “first-use nuclear strike” means an attack using nuclear weapons against an enemy that is conducted without the Secretary of Defense and the Chairman of the Joint Chiefs of Staff first confirming to the President that there has been a nuclear strike against the United States, its territories, or its allies (as specified in section 3(b)(2) of the Arms Export Control Act (22 U.S.C. 2753(b)(2))).

SA 5879. Mr. MARKEY submitted an amendment intended to be proposed to amendment SA 5499 submitted by Mr. REED (for himself and Mr. INHOFE) and intended to be proposed to the bill H.R. 7900, to authorize appropriations for fiscal year 2023 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the end of subtitle B of title XV, add the following:

SEC. 1531. LIMITATION ON USE OF FUNDS FOR NEW SENTINEL INTERCONTINENTAL BALLISTIC MISSILE AND W87-1 WARHEAD MODIFICATION PROGRAM.

(a) **FINDINGS.**—Congress finds the following:

(1) According to the Congressional Budget Office, the projected cost to sustain and modernize the United States nuclear arsenal, as of 2017, “is \$1.2 trillion in 2017 dollars over the 2017–2046 period: more than \$800 billion to operate and sustain (that is, incrementally upgrade) nuclear forces and about \$400 billion to modernize them”. With inflation, the cost rises to \$1,700,000,000,000 and does not include the cost of the additional nuclear capabilities proposed in the 2018 Nuclear Posture Review.

(2) Maintaining and updating the current Minuteman III intercontinental ballistic missiles is possible for multiple decades and, according to the Congressional Budget Office, through 2036, this would cost \$37,000,000,000 less in 2017 dollars than developing and deploying the Sentinel interconti-

mental ballistic missile program (previously known as the ground-based strategic deterrent program).

(3) A public opinion poll conducted from October 12 to 28, 2020, by ReThink Media and the Federation of American Scientists found that only 26 percent of registered voters in the United States preferred replacing the Minuteman III intercontinental ballistic missile with the Sentinel intercontinental ballistic missile, as compared to 60 percent of registered voters who opposed replacing the Minuteman III missile.

(b) **LIMITATION ON USE OF FUNDS.**—None of the funds authorized to be appropriated or otherwise made available for fiscal year 2023 may be obligated or expended for the Sentinel intercontinental ballistic missile program or the W87-1 warhead modification program until the later of—

(1) the date on which the Secretary of Defense submits to the appropriate congressional committees a certification that the operational life of Minuteman III intercontinental ballistic missiles cannot be safely extended through at least 2050; and

(2) the date on which the Secretary transmits to the appropriate congressional committees the report required by paragraph (3) of subsection (c), as required by paragraph (4) of that subsection.

(c) **INDEPENDENT STUDY ON EXTENSION OF MINUTEMAN III INTERCONTINENTAL BALLISTIC MISSILES.**—

(1) **INDEPENDENT STUDY.**—Not later than 30 days after the date of the enactment of this Act, the Secretary of Defense shall seek to enter into a contract with the National Academy of Sciences to conduct a study on extending the life of Minuteman III intercontinental ballistic missiles to 2050.

(2) **MATTERS INCLUDED.**—The study under paragraph (1) shall include the following:

(A) A comparison of the costs through 2050 of—

(i) extending the life of Minuteman III intercontinental ballistic missiles; and

(ii) deploying the Sentinel intercontinental ballistic missile.

(B) An analysis of opportunities to incorporate technologies into the Minuteman III intercontinental ballistic missile program as part of a service life extension program that could also be incorporated in the Sentinel intercontinental ballistic missile program, including, at a minimum, opportunities to increase the resilience against adversary missile defenses.

Subtitle G—Supporting SAUDI WMD Act

SEC. 1281. SHORT TITLE.

This subtitle may be cited as the “Stopping Activities Underpinning Development In Weapons of Mass Destruction Act” or the “SAUDI WMD Act”.

SEC. 1282. FINDINGS.

Congress makes the following findings:

(1) The People’s Republic of China (in this subtitle referred to as “China”), became a full-participant of the Nuclear Suppliers Group in 2004, committing it to apply a strong presumption of denial in exporting

nuclear-related items that a foreign country could divert to a nuclear weapons program.

(2) China also committed to the United States, in November 2000, to abide by the foundational principles of the 1987 Missile Technology Control Regime (MTCR) to not “assist, in any way, any country in the development of ballistic missiles that can be used to deliver nuclear weapons (i.e., missiles capable of delivering a payload of at least 500 kilograms to a distance of at least 300 kilometers)”.

(3) In the 1980s, China secretly sold the Kingdom of Saudi Arabia (in this subtitle referred to as “Saudi Arabia”) conventionally armed DF-3A ballistic missiles, and in 2007, reportedly sold Saudi Arabia dual-use capable DF-21 medium-range ballistic missiles of a 300 kilometer, 500 kilogram range and payload threshold which should have triggered a denial of sale under the MTCR.

(4) The 2020 Department of State Report on the Adherence to and Compliance with Arms Control, Nonproliferation, and Disarmament Agreements and Commitments found that China “continued to supply MTCR-controlled goods to missile programs of proliferation concern in 2019” and that the United States imposed sanctions on nine Chinese entities for covered missile transfers to Iran.

(5) A June 5, 2019, press report indicated that China allegedly provided assistance to Saudi Arabia in the development of a ballistic missile facility, which if confirmed, would violate the purpose of the MTCR and run contrary to the longstanding United States policy priority to prevent weapons of mass destruction proliferation in the Middle East.

(6) The Arms Export and Control Act of 1976 (Public Law 93-329) requires the President to sanction any foreign person or government who knowingly “exports, transfers, or otherwise engages in the trade of any MTCR equipment or technology” to a country that does not adhere to the MTCR.

(7) China concluded two nuclear cooperation agreements with Saudi Arabia in 2012 and 2017, respectively, which may facilitate China’s bid to build two reactors in Saudi Arabia to generate 2.9 Gigawatt-electric (GWe) of electricity.

(8) On August 4, 2020, a press report revealed the alleged existence of a previously undisclosed uranium yellowcake extraction facility in Saudi Arabia allegedly constructed with the assistance of China, which if confirmed, would indicate significant progress by Saudi Arabia in developing the early stages of the nuclear fuel cycle that precede uranium enrichment.

(9) Saudi Arabia’s outdated Small Quantities Protocol and its lack of an in force Additional Protocol to its International Atomic Energy Agency (IAEA) Comprehensive Safeguards Agreement severely curtails IAEA inspections, which has led the Agency to call upon Saudi Arabia to either rescind or update its Small Quantities Protocol.

(10) On January 19, 2021, in response to a question about Saudi Arabia’s reported ballistic missile cooperation with China, incoming Secretary of State Antony J. Blinken stated that “we want to make sure that to the best of our ability all of our partners and allies are living up to their obligations under various nonproliferation and arms control agreements and, certainly, in the case of Saudi Arabia that is something we will want to look at”.

(11) On March 15, 2018, the Crown Prince of Saudi Arabia, Mohammad bin-Salman, stated that “if Iran developed a nuclear bomb, we would follow suit as soon as possible,”

raising questions about whether a Saudi Arabian nuclear program would remain exclusively peaceful, particularly in the absence of robust international IAEA safeguards.

(12) An August 9, 2019, study by the United Nations High Commissioner for Human Rights found that the Saudi Arabia-led military coalition airstrikes in Yemen and its restrictions on the flow of humanitarian assistance to the country, both of which have disproportionately impacted civilians, may be violations of international humanitarian law.

SEC. 1283. DETERMINATION OF POSSIBLE MTCR TRANSFERS TO SAUDI ARABIA.

(a) MTCR TRANSFERS.—Not later than 30 days after the date of the enactment of this Act, the President shall submit to the appropriate committees of Congress a written determination, and any documentation to support that determination detailing—

(1) whether any foreign person knowingly exported, transferred, or engaged in trade of any item designated under Category I of the MTCR Annex item with Saudi Arabia in the previous three fiscal years; and

(2) the sanctions the President has imposed or intends to impose pursuant to section 11B(b) of the Export Administration Act of 1979 (50 U.S.C. 4612(b)) against any foreign person who knowingly engaged in the export, transfer, or trade of that item or items.

(b) WAIVER.—Notwithstanding any provision of paragraphs (3) through (7) of section 11(B)(b) of the Export Administration Act of 1979 (50 U.S.C. 4612(b)), the President may only waive the application of sanctions under such section with respect to Saudi Arabia if that country is verifiably determined to no longer possess an item designated under Category I of the MTCR Annex received in the previous three fiscal years.

(c) FORM OF REPORT.—The determination required under subsection (a) shall be unclassified with a classified annex.

SEC. 1284. PROHIBITION ON UNITED STATES ARMS SALES TO SAUDI ARABIA IF IT IMPORTS NUCLEAR TECHNOLOGY WITHOUT SAFEGUARDS.

(1) knowingly imported any item classified as “plants for the separation of isotopes of uranium” or “plants for the reprocessing of irradiated nuclear reactor fuel elements” under Part 110 of the Nuclear Regulatory Commission export licensing authority; or

(2) engaged in nuclear cooperation related to the construction of any nuclear-related fuel cycle facility or activity that has not been notified to the IAEA and would be subject to complementary access if an Additional Protocol was in force.

(b) WAIVER.—The Secretary of State may waive the prohibition under subsection (a) with respect to a foreign country if the Secretary submits to the appropriate committees of Congress a written certification that contains a determination, and any relevant documentation on which the determination is based, that Saudi Arabia—

(1) has brought into force an Additional Protocol to the IAEA Comprehensive Safeguards Agreement based on the model described in IAEA INFCIRC/540;

(2) has concluded a civilian nuclear cooperation agreement with the United States under section 123 of the Atomic Energy Act of 1954 (42 U.S.C. 2153) or another supplier that prohibits the enrichment of uranium or

separation of plutonium on its own territory; and

(3) has rescinded its Small Quantities Protocol and is not found by the IAEA Board of Governors to be in noncompliance with its Comprehensive Safeguards Agreement.

(c) RULE OF CONSTRUCTION.—Nothing in this subtitle shall be construed as superseding the obligation of the President under section 502B(a)(2) or section 620I(a) of the Foreign Assistance Act of 1961 (22 U.S.C. 2304(a)(2), 22 U.S.C. 2378–1(a)), respectively, to not furnish security assistance to Saudi Arabia or any country if it—

(1) engages in a consistent pattern of gross violations of internationally recognized human rights; or

(2) prohibits or otherwise restricts, directly or indirectly, the transport or delivery of United States humanitarian assistance.

(b) ELEMENTS.—The report required under subsection (a) shall include the following elements:

(2) A description of every foreign person that, in the previous fiscal year, engaged in the export, transfer, or trade of MTCR items to a country that is a non-MTCR adherent, and a description of the sanctions the President imposed pursuant to section 11B(b) of the Export Administration Act of 1979 (50 U.S.C. 4612(b)).

(3) A detailed strategy to prevent the proliferation of ballistic missile and sensitive nuclear technology in the Middle East and North Africa from China and other foreign countries, including the following elements:

(A) An assessment of the proliferation risks associated with concluding or renewing a civilian nuclear cooperation “123” agreement with any country in the Middle-East and North Africa and the risks of such if that same equipment and technology is sourced from a foreign state.

(B) An update on United States bilateral and multilateral diplomatic actions to commence negotiations on a Weapons of Mass Destruction Free Zone (WMDFZ) since the 2015 Nuclear Nonproliferation Treaty Review Conference.

(C) A description of United States Government efforts to achieve global adherence and compliance with the Nuclear Suppliers Group, MTCR, and the 2002 International Code of Conduct against Ballistic Missile Proliferation guidelines.

(1) In January 2020, the Drug Enforcement Agency named China as the primary source

Subtitle G—Promotion of Freedom of Information and Countering of Censorship and Surveillance in North Korea

SEC. 1281. SHORT TITLE.

This subtitle may be cited as the “Otto Warmbier Countering North Korean Censorship and Surveillance Act of 2022”.

SEC. 1282. FINDINGS; SENSE OF CONGRESS.

(a) FINDINGS.—Congress makes the following findings:

(1) The information landscape in North Korea is the most repressive in the world, consistently ranking last or near-last in the annual World Press Freedom Index.

(2) Under the brutal rule of Kim Jung Un, the country's leader since 2012, the North Korean regime has tightened controls on access to information, as well as enacted harsh punishments for consumers of outside media, including sentencing to time in a concentration camp and a maximum penalty of death.

(3) Such repressive and unjust laws surrounding information in North Korea resulted in the death of 22-year-old United States citizen and university student Otto Warmbier, who had traveled to North Korea in December 2015 as part of a guided tour.

(4) Otto Warmbier was unjustly arrested, sentenced to 15 years of hard labor, and severely mistreated at the hands of North Korean officials. While in captivity, Otto Warmbier suffered a serious medical emergency that placed him into a comatose state. Otto Warmbier was comatose upon his release in June 2017 and died 6 days later.

(5) Despite increased penalties for possession and viewership of foreign media, the people of North Korea have increased their desire for foreign media content, according to a survey of 200 defectors concluding that 90 percent had watched South Korean or other foreign media before defecting.

(6) On March 23, 2021, in an annual resolution, the United Nations General Assembly condemned “the long-standing and ongoing systematic, widespread and gross violations of human rights in the Democratic People's Republic of Korea” and expressed grave concern at, among other things, “the denial of the right to freedom of thought, conscience, and religion . . . and of the rights to freedom of opinion, expression, and association, both online and offline, which is enforced through an absolute monopoly on information and total control over organized social life, and arbitrary and unlawful state surveillance that permeates the private lives of all citizens”.

(7) In 2018, Typhoon Yutu caused extensive damage to 15 broadcast antennas used by the United States Agency for Global Media in Asia, resulting in reduced programming to North Korea. The United States Agency for Global Media has rebuilt 5 of the 15 antenna systems as of June 2021.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) in the event of a crisis situation, particularly where information pertaining to the crisis is being actively censored or a false narrative is being put forward, the United States should be able to quickly increase its broadcasting capability to deliver fact-based information to audiences, including those in North Korea; and

(2) the United States International Broadcasting Surge Capacity Fund is already authorized under section 316 of the United States International Broadcasting Act of 1994 (22 U.S.C. 6216), and expanded authority to transfer unobligated balances from expired accounts of the United States Agency for Global Media would enable the Agency to more nimbly respond to crises.

SEC. 1283. STATEMENT OF POLICY.

It is the policy of the United States—

(1) to provide the people of North Korea with access to a diverse range of fact-based information;

(2) to develop and implement novel means of communication and information sharing that increase opportunities for audiences in North Korea to safely create, access, and share digital and non-digital news without fear of repressive censorship, surveillance, or penalties under law; and

(3) to foster and innovate new technologies to counter North Korea's state-sponsored repressive surveillance and censorship by advancing internet freedom tools, technologies, and new approaches.

SEC. 1284. UNITED STATES STRATEGY TO COMBAT NORTH KOREA'S REPRESSIVE INFORMATION ENVIRONMENT.

(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the President shall develop and submit to Congress a strategy on combating North Korea's repressive information environment.

(b) ELEMENTS.—The strategy required by subsection (a) shall include the following:

(1) An assessment of the challenges to the free flow of information into North Korea created by the censorship and surveillance technology apparatus of the Government of North Korea.

(2) A detailed description of the agencies and other government entities, key officials, and security services responsible for the implementation of North Korea's repressive laws regarding foreign media consumption.

(3) A detailed description of the agencies and other government entities and key officials of foreign governments that assist, facilitate, or aid North Korea's repressive censorship and surveillance state.

(4) A review of existing public-private partnerships that provide circumvention technology and an assessment of the feasibility and utility of new tools to increase free expression, circumvent censorship, and obstruct repressive surveillance in North Korea.

(5) A description of and funding levels required for current United States Government programs and activities to provide access for the people of North Korea to a diverse range of fact-based information.

(6) An update of the plan required by section 104(a)(7)(A) of the North Korean Human Rights Act of 2004 (22 U.S.C. 7814(a)(7)(A)).

(7) A description of Department of State programs and funding levels for programs that promote internet freedom in North Korea, including monitoring and evaluation efforts.

(8) A description of grantee programs of the United States Agency for Global Media in North Korea that facilitate circumvention tools and broadcasting, including monitoring and evaluation efforts.

(9) A detailed assessment of how the United States International Broadcasting Surge Capacity Fund authorized under section 316 of the United States International Broadcasting Act of 1994 (22 U.S.C. 6216) has operated to respond to crisis situations in the past, and how authority to transfer unobligated balances from expired accounts would help the United States Agency for Global Media in crisis situations in the future.

(10) A detailed plan for how the authorization of appropriations under section 1285 will operate alongside and augment existing programming from the relevant Federal agencies and facilitate the development of new tools to assist that programming.

(c) FORM OF STRATEGY.—The strategy required by subsection (a) shall be submitted in unclassified form, but may include the matters required by paragraphs (2) and (3) of subsection (b) in a classified annex.

SEC. 1285. PROMOTING FREEDOM OF INFORMATION AND COUNTERING CENSORSHIP AND SURVEILLANCE IN NORTH KOREA.

(1) To promote the development of internet freedom tools, technologies, and new approaches, including both digital and non-digital means of information sharing related to North Korea.

(2) To explore public-private partnerships to counter North Korea's repressive censorship and surveillance state.

(3) To develop new means to protect the privacy and identity of individuals receiving media from the United States Agency for Global Media and other outside media outlets from within North Korea.

(4) To bolster existing programming from the United States Agency for Global Media by restoring the broadcasting capacity of damaged antennas caused by Typhoon Yutu in 2018.

SEC. 1282. FINDINGS.

Congress makes the following findings:

(1) The Taiwan Relations Act (Public Law 96-8; 22 U.S.C. 3301 et seq.) affirmed United States policy “to preserve and promote extensive, close, and friendly commercial, cultural, and other relations between the people of the United States and the people on Taiwan, as well as the people on the China mainland and all other peoples of the Western Pacific area”.

(2) Consistent with the Asia Reassurance Initiative Act of 2018 (Public Law 115-409), the United States has grown its strategic partnership with Taiwan’s vibrant democracy of 23,000,000 people.

(3) Despite a concerted campaign by the People’s Republic of China to isolate Taiwan from its diplomatic partners and from international organizations, including the World Health Organization, Taiwan has emerged as a global leader in the coronavirus global pandemic response, including by donating more than 2,000,000 surgical masks and other medical equipment to the United States.

(4) The creation of a United States fellowship program with Taiwan would support—

(A) a key priority of expanding people-to-people exchanges, which was outlined in President Donald J. Trump’s 2017 National Security Strategy;

(B) President Joseph R. Biden’s commitment to Taiwan, “a leading democracy and a critical economic and security partner”, as expressed in his March 2021 Interim National Security Strategic Guidance; and

(C) April 2021 guidance from the Department of State based on a review required under the Taiwan Assurance Act of 2020 (subtitle B of title III of division FF of Public Law 116-260) to “encourage U.S. government engagement with Taiwan that reflects our deepening unofficial relationship”.

Subtitle M—Climate Change Education

SEC. 23. FINDINGS.

Congress makes the following findings:

(1) The evidence for human-induced climate change is overwhelming and undeniable.

(2) Atmospheric carbon can be significantly reduced through conservation, by shifting to renewable energy sources such as solar, wind, tidal, and geothermal, and by increasing the efficiency of buildings, including domiciles, and transportation.

(3) Providing clear information about climate change, in a variety of forms, can remove the fear and the sense of helplessness, and encourage individuals and communities to take action.

(4) Implementation of measures that promote energy efficiency, conservation, and renewable energy will greatly reduce human impact on the environment.

(5) Informing people of new technologies and programs as they become available will ensure maximum understanding and maximum effect of those measures.

(6) More than 3,000,000 students graduate from high schools and colleges in the United States each year, armed with attitudes, skills, and knowledge about the climate that inform their actions.

(7) The effect on the climate, positive or negative, of each of those 3,000,000 students lasts beyond a lifetime.

(8) Those students need to be prepared to implement changes in professional and personal practices, to support and help develop new technology and policy, and to address the coming social and economic challenges and opportunities arising from a changing climate.

(9) It has been demonstrated that the people of the United States overwhelmingly support teaching students about the causes, consequences, and potential solutions to climate change in all 50 States and more than 3,000 counties across the United States.

(10) Only 30 percent of middle school and 45 percent of high school science teachers understand the extent of the scientific consensus on climate change.

SA 5953. Mr. PADILLA submitted an amendment intended to be proposed to amendment SA 5499 submitted by Mr. REED (for himself and Mr. INHOFE) and intended to be proposed to the bill H.R. 7900, to authorize appropriations for fiscal year 2023 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____ . IRAN HOSTAGES CONGRESSIONAL GOLD MEDAL.

(a) FINDINGS.—Congress finds the following:

(1) On January 20, 1981, United States diplomats, military personnel, and civilians were released after being held hostage for 444 days by militant student supporters of Iran’s Ayatollah Ruhollah Khomeini in a violation of international law. The individuals were taken from the United States Embassy in Tehran, Iran, and the ordeal came to be known as the Iran Hostage Crisis.

(2) The hostages were subjected to intense physical and psychological torture throughout their captivity, such as mock executions, beatings, solitary confinement, and inhospitable living conditions.

(3) Throughout their time held, the hostages were routinely told to denounce the United States and, when they refused, they were tortured, but remained strong in their spirit.

(4) One hostage wrote “Viva la roja, blanco, y azul”, which translates to “Long live the red, white, and blue”, on the wall of his cell as a reminder of the values he swore to protect.

(5) The hostages showed extraordinary courage by continually engaging in acts of resistance against their captors, such as by refusing to sign condemnations of the United States, in the face of gross violations of their human rights.

(6) Many of the hostages still experience trauma as a result of the events of the crisis and deserve to have their suffering recognized.

(7) While, as of the date of enactment of this Act, 35 of the hostages are living, it is important that the people of the United States reflect on the resilience and strength of the hostages, which serve as an example to current generations.

(8) The people of the United States should—

(A) acknowledge the hostages as heroes who—

(i) experienced great tribulation; and
(ii) endured, so that the people of the United States may know the blessing of living in the United States; and

(B) strive to demonstrate the values shown by the hostages.

(9) On January 22, 1981, President Jimmy Carter met with the hostages in West Germany and stated the following: “One of the acts in my life which has been the most moving and gratifying in meeting with and discussing the future and the past with the now liberated Americans who were held hostage in Iran for so long. I pointed out to them that, since their capture by the Iranian terrorists and their being held in this despicable act of savagery, that the American people’s hearts have gone out to them and the Nation has been united as perhaps never before in history and that the prayers that have gone up from the people throughout the world to God for their safety have finally been answered.”

(10) On January 28, 1981, when welcoming the hostages home, President Ronald Reagan stated the following: “You’ve come home to a people who for 444 days suffered the pain of your imprisonment, prayed for your safety, and most importantly, shared your determination that the spirit of free men and women is not a fit subject for barter. You’ve represented under great stress the highest traditions of public service. Your conduct is symbolic of the millions of professional diplomats, military personnel, and others who have rendered service to their country.”

(11) During the 444 days the brave hostages were held, the rest of the United States held its breath, waiting for news of the hostages. The United States hoped and prayed together, as one, for the hostages’ safe return.

(12) Bruce Laingen, who served as United States Ambassador to Iran from 1979 to 1980 and was the highest ranking diplomat held hostage, summed up the experience by saying the following: “Fifty-three Americans who will always have a love affair with this country and who join with you in a prayer of thanksgiving for the way in which this crisis has strengthened the spirit and resilience and strength that is the mark of a truly free society.” It is now the responsibility of the people of the United States to honor the spirit, resilience, and strength that the hostages displayed during their 444 days of imprisonment.

(13) Now, more than 4 decades later, the United States continues to honor the hostages. The recipients of the award bestowed by this section are heroes in every sense of the word. They are role models who wore their pride in the United States with esteem and have allowed for subsequent generations

to appreciate the blessing of living in the United States. Today, as we mark 40 years since their release, the people of the United States acknowledge their endurance, strength, and contributions to seeing a more peaceful world. The hostages suffered for the United States and now it is the duty of the United States to recognize them for it.

(b) DEFINITION.—In this section, the term “hostage” means a person of the United States who was taken captive on November 4, 1979, in Tehran, Iran, at the United States embassy and released on—

(1) July 11, 1980; or

(2) January 20, 1981.

(c) CONGRESSIONAL GOLD MEDAL.—

(1) AWARD AUTHORIZED.—The Speaker of the House of Representatives and the President pro tempore of the Senate shall make appropriate arrangements for the award, on behalf of Congress, of a single gold medal of appropriate design to the 53 hostages of the Iran Hostage Crisis, in recognition of their bravery and endurance throughout their captivity, which began on November 4, 1979, and lasted until January 21, 1981.

(2) DESIGN AND STRIKING.—For the purposes of the award referred to in paragraph (1), the Secretary of the Treasury (referred to in this section as the “Secretary”) shall strike a gold medal with suitable emblems, devices, and inscriptions, to be determined by the Secretary, in consultation with the Secretary of State.

(3) SMITHSONIAN INSTITUTION.—

(A) IN GENERAL.—Following the award of the gold medal under paragraph (1), the gold medal shall be given to the National Museum of American History of the Smithsonian Institution, where it shall be available for display as appropriate and made available for research.

(B) SENSE OF CONGRESS.—It is the sense of Congress that the Smithsonian Institution should make the gold medal received under subparagraph (A) available for loan, as appropriate, so that the medal may be displayed elsewhere.

(d) BRONZE DUPLICATE MEDALS.—

(1) IN GENERAL.—The Secretary may strike and sell duplicates in bronze of the gold medal struck pursuant to subsection (c), at a price sufficient to cover the cost thereof, including labor, materials, dies, use of machinery, and overhead expenses.

(2) PROCEEDS OF SALES.—The amounts received from the sale of duplicate medals under paragraph (1) shall be deposited in the United States Mint Public Enterprise Fund.

(e) AUTHORITY TO USE FUND AMOUNTS.—There is authorized to be charged against the United States Mint Public Enterprise Fund such amounts as may be necessary to pay for the costs of the medals struck under this section.

(f) STATUS OF MEDALS.—

(1) NATIONAL MEDALS.—The medals struck pursuant to this section are national medals for purposes of chapter 51 of title 31, United States Code.

(2) NUMISMATIC ITEMS.—For purposes of section 5134 of title 31, United States Code, all medals struck under this section shall be considered to be numismatic items.

(g) DETERMINATION OF BUDGETARY EFFECTS.—The budgetary effects of this section, for the purpose of complying with the Statutory Pay-As-You-Go Act of 2010, shall be determined by reference to the latest statement titled “Budgetary Effects of PAYGO Legislation” for this section, submitted for printing in the Congressional Record by the Chairman of the House Budget Committee, provided that such statement has been submitted prior to the vote on passage.

TITLE —JUDICIAL SECURITY AND PRIVACY

SEC. 01. SHORT TITLE.

This title may be cited as the “Daniel Anderl Judicial Security and Privacy Act of 2021”.

SEC. 02. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds the following:

(1) Members of the Federal judiciary perform the important function of interpreting the Constitution of the United States and administering justice in a fair and impartial manner.

(2) In recent years, partially as a result of the rise in the use of social media and online access to information, members of the Federal judiciary have been exposed to an increased number of personal threats in connection to their role. The ease of access to free or inexpensive sources of covered information has considerably lowered the effort required for malicious actors to discover where individuals live and where they spend leisure hours and to find information about their family members. Such threats have included calling a judge a traitor with references to mass shootings and serial killings, a murder attempt on a justice of the Supreme Court of the United States, calling for an “angry mob” to gather outside a home of a judge and, in reference to a judge on the court of appeals of the United States, stating how easy it would be to “get them”.

(3) Between 2015 and 2019, threats and other inappropriate communications against Federal judges and other judiciary personnel increased from 926 in 2015 to approximately 4,449 in 2019.

(4) Over the past decade, several members of the Federal judiciary have experienced acts of violence against themselves or a family member in connection to their Federal judiciary role, including the murder in 2005 of the family of Joan Lefkow, a judge for the United States District Court for the Northern District of Illinois.

(5) On Sunday July 19, 2020, an assailant went to the home of Esther Salas, a judge for the United States District Court for the District of New Jersey, impersonating a package delivery driver, opening fire upon arrival, and killing Daniel Anderl, the 20-year-old only son of Judge Salas, and seriously wounding Mark Anderl, her husband.

(6) In the aftermath of the recent tragedy that occurred to Judge Salas and in response to the continuous rise of threats against members of the Federal judiciary, there is an immediate need for enhanced security procedures and increased availability of tools to protect Federal judges and their families.

(b) PURPOSE.—The purpose of this title is to improve the safety and security of Federal judges, including senior, recalled, or retired Federal judges, and their immediate family members to ensure Federal judges are able to administer justice fairly without fear of personal reprisal from individuals affected by the decisions they make in the course of carrying out their public duties.

TITLE —VIEQUES RECOVERY AND REDEVELOPMENT

SEC. 1. SHORT TITLE.

This title may be cited as the “Vieques Recovery and Redevelopment Act”.

SEC. 2. FINDINGS.

The Congress finds the following:

(1) Vieques is an island municipality of Puerto Rico, measuring approximately 21 miles long by 4 miles wide, and located approximately 8 miles east of the main island of Puerto Rico.

(2) Prior to Hurricane Maria, residents of Vieques were served by an urgent medical care facility, the Susana Centeno Family Health Center, and residents had to travel off-island to obtain medical services, including most types of emergency care because the facility did not have the basic use of x-ray machines, CT machines, EKG machines, ultrasounds, or PET scans.

(3) The predominant means of transporting passengers and goods between Vieques and the main island of Puerto Rico is by ferry boat service, and over the years, the efficiency of this service has frequently been disrupted, unreliable, and difficult for cancer patients to endure to receive treatment. Each trip to Ceiba, Puerto Rico, for the cancer patient is an additional out-of-pocket expense ranging from \$120 to \$200.

(4) The United States Military maintained a presence on the eastern and western portions of Vieques for close to 60 years, and used parts of the island as a training range during those years, dropping over 80 million tons of ordnance and other weaponry available to the United States military since World War II.

(5) The unintended, unknown, and unavoidable consequences of these exercises were to expose Americans living on the islands to the residue of that weaponry which includes heavy metals and many other chemicals now known to harm human health.

(6) According to Government and independent documentation, the island of Vieques has high levels of heavy metals and has been exposed to chemical weapons and toxic chemicals. Since the military activity in Vieques, island residents have suffered from the health impacts from long-term exposure to environmental contamination as a result of 62 years of military operations, and have experienced higher rates of certain diseases among residents, including cancer, cirrhosis, hypertension, diabetes, heavy metal diseases, along with many unnamed and uncategorized illnesses. These toxic residues have caused the American residents of Vieques to develop illnesses due to ongoing exposure.

(7) In 2017, Vieques was hit by Hurricane Maria, an unusually destructive storm that devastated Puerto Rico and intensified the existing humanitarian crisis on the island by destroying existing medical facilities.

(8) The medical systems in place prior to Hurricane Maria were unable to properly handle the health crisis that existed due to the toxic residue left on the island by the military’s activities.

(9) After Maria, the medical facility was closed due to damage and continues to be unable to perform even the few basic services that it did provide. Vieques needs a medical facility that can treat and address the crit-

ical and urgent need to get life-saving medical services to its residents. Due to legal restrictions, the Federal Emergency Management Agency (in this title referred to as “FEMA”) is unable to provide a hospital where its capabilities exceed the abilities of the facility that existed prior to Maria; therefore Vieques needs assistance to build a facility to manage the vast health needs of its residents.

(10) Every American has benefitted from the sacrifices of those Americans who have lived and are living on Vieques and it is our intent to acknowledge that sacrifice and to treat those Americans with the same respect and appreciation that other Americans enjoy.

(11) In 2012, the residents of Vieques were denied the ability to address their needs in Court due to sovereign immunity, *Sánchez v. United States*, No. 3:09-cv-01260-DRD (D.P.R.). However, the United States Court of Appeals for the First Circuit referred the issue to Congress and urged it to address the humanitarian crisis. This bill attempts to satisfy that request such that Americans living on Vieques have a remedy for the suffering they have endured.

SEC. 3. SETTLEMENT OF CLAIMS AGAINST THE UNITED STATES FOR CERTAIN RESIDENTS OF THE ISLAND OF VIEQUES, PUERTO RICO.

(a) IN GENERAL.—An individual claimant who has resided on the island of Vieques, Puerto Rico, for not less than 5 years and files a claim for compensation under this section with the Special Master, appointed pursuant to subsection (c), shall be awarded monetary compensation as described in subsection (b) if—

(2) the claimant previously filed a lawsuit or an administrative claim, or files a claim not later than 120 days after the date of the enactment of this Act against the United States Government for personal injury, including illness or death arising from use by the United States Government of the island of Vieques for military readiness; and

(3) the claimant submits to the Special Master written medical documentation that indicates the claimant contracted a chronic, life-threatening, or physical disease or illness limited to cancer, hypertension, cirrhosis, kidney disease, diabetes, or a heavy metal poisoning during or after the United States Government used the island of Vieques, Puerto Rico, for military readiness.

(A) the amount that the individual would have been eligible to receive had the disease

been contracted before the individual filed an initial claim under subsection (a); and

(3) **DECEASED CLAIMANTS.**—In the case of an individual who dies before making a claim under this section or a claimant who dies before receiving an award under this section, any immediate heir to the individual or claimant, as determined by the laws of Puerto Rico, shall be eligible for one of the following awards:

(A) Compensation in accordance with paragraph (1), divided among any such heir.

At the end of title XII, add the following:

Subtitle G—Indo-Pacific Strategic Energy Initiative

SEC. 1281. SHORT TITLE.

This subtitle may be cited as the “Indo-Pacific Strategic Energy Initiative Act”.

SEC. 1282. FINDINGS.

Congress makes the following findings:

(1) The United States currently has an approximately 100-year supply of natural gas.

(2) Natural gas will see increasing global demand and use beyond 2050.

(3) United States natural gas production increased by 54 percent from 2005 to 2017. At the same time, total United States carbon dioxide emissions decreased by 14 percent. The natural gas share of electricity production increased from 19 percent in 2005 to 32 percent in 2017.

(4) Between 2005 and 2019, carbon dioxide emissions from the United States power sector declined by 33 percent, with fuel switching to natural gas, accounting for more than half of those reductions. During that period, the United States economy grew by 20 percent, United States energy consumption fell by 2 percent, and per capita emissions dropped to their lowest levels since 1950.

(5) Between 1990 and 2018, the natural gas and oil industry reduced methane emissions by 23.6 percent through voluntary actions, while expanding production by 70 percent.

(6) Demand in the United States and globally for clean-burning natural gas and liquefied natural gas will continue to increase over the next several decades, even as renewable energy resources increase.

(7) Demand for natural gas is rising in the Indo-Pacific region, particularly as countries look to make emissions cuts and transition from higher emissions fuel sources.

(8) The expanding number of infrastructure projects in the Indo-Pacific region, carried

out under the Belt and Road Initiative, is leading to higher emissions in the region.

(9) According to the International Energy Agency, “The number of countries and territories with [liquefied natural gas] import terminals has grown from nine in 2000 to 42 in 2020.”. Further, the International Energy Agency has found that “transition[s] in Asian gas markets [are] even more important in the wider context of global clean energy transitions, where natural gas will be required to make a more flexible contribution as the share of variable renewable energy sources grows and coal use progressively declines”.

(10) The United States saw a 66.3-percent increase in liquefied natural gas exports and an 11.2-percent increase in oil production in 2019.

(11) As a result of the natural gas revolution, the United States petroleum trade deficit in dollars fell from about \$320,000,000,000 in 2007 to about \$3,000,000,000 in 2020, as net imports declined.

(12) Australia and the United States are both important global energy exporters and thus have a shared interest in supplying the growing energy demand in the Indo-Pacific region.

(13) Japanese companies have long invested in United States liquefied natural gas projects, including the Government of Japan shifting from relying on liquefied natural gas from the Middle East to liquefied natural gas from the United States.

(14) The People’s Republic of China currently is one of the largest financiers of overseas energy and greenhouse gas intensive projects. The People’s Republic of China also uses those investments to project its influence and secure critical minerals supply chains and infrastructure.

SEC. 1283. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the United States reaffirms its commitment to quadrilateral cooperation with Japan, India, and Australia (collectively, with the United States, known as the “Quad”), and that United States should continue to pursue strengthening cooperation in the energy sector in light of the global threats and challenges facing all 4 countries;

(2) the Association of Southeast Asian Nations (commonly referred to as “ASEAN”) and its 10 members (Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, the Philippines, Singapore, Thailand, and Vietnam) have worked with the United States toward stability, prosperity, and peace in Southeast Asia, and ASEAN will continue to remain a strong, reliable, and active economic and strategic partner in the Indo-Pacific region;

(3) the United States and the Republic of Korea enjoy a comprehensive alliance partnership, founded in shared strategic interests and cemented by a commitment to democratic values, which includes recognizing the important role of energy cooperation through the United States-Republic of Korea Energy Security Dialogue; and

(4) the United States has economic, national security, and domestic interests in assisting allies and partners in Indo-Pacific countries to reduce greenhouse gas emissions and achieve energy security through diversification of their energy sources and supply routes.

SEC. 1284. STATEMENT OF POLICY.

It is the policy of the United States—

(1) to engage and lead on international emissions reductions and adaptation, including assisting allies and partners in reducing higher emissions fuel sources through exports of cleaner-burning United States-produced fuels and emission-reduction technologies;

(2) to advance United States foreign policy and development goals by assisting allies

and partners of the United States in the Indo-Pacific region to decrease their dependence on energy resources from countries that use energy dependence to coerce, intimidate, and influence other countries;

(3) to develop strategies to counter competition from the Russian Federation and the People’s Republic of China to protect the energy and national security of the United States and the energy and national security of allies and partners of the United States in the Indo-Pacific region;

(4) to support free and open trade in clean-burning energy products and promote the continued development of lower-emissions energy fuels and technologies in the Indo-Pacific region;

(5) to improve free, fair, and reciprocal energy trading relationships with allies and partners of the United States in the Indo-Pacific region;

(6) to promote the energy security of allies and partners of the United States in the Indo-Pacific region by encouraging the development of energy infrastructure and accessible, transparent, and competitive energy markets that provide diversified sources, types, and routes of energy;

(7) to encourage public and private sector investment in lower-emissions energy infrastructure projects in the Indo-Pacific region;

(8) to supply countries that rely on higher emitting fuel sources with cleaner burning and abundant alternatives; and

(9) to help facilitate the export of United States energy resources, technology, and expertise to global markets in a way that benefits the energy security of allies and partners of the United States in the Indo-Pacific region.

SEC. 1285. ENERGY INFRASTRUCTURE PROJECT SUPPORT.

Sec. 1283. Sense of Congress.

Sec. 1284. Facilitating economic and commercial ties.

Sec. 1285. Promoting inclusive economic development.

Sec. 1290. Reporting requirements.

SEC. 1282. FINDINGS.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The United States and Ecuador have a history of bilateral cooperation grounded in mutual respect, shared democratic values, and mutual security interests.

(2) On February 7, 2021, and April 11, 2021, Ecuador held democratic elections that included parties from across the political spectrum, paving the way for continued progress towards strengthening democratic institutions.

(3) The United States and Ecuador share strategic interests in strengthening Ecuador’s democratic institutions, generating inclusive economic growth, and building capacity in law enforcement, anti-corruption, and conservation efforts.

(4) The United States and Ecuador historically have enjoyed strong commercial, investment, and economic ties, yet Ecuador continues to face significant challenges to inclusive economic development, including—

(A) the heavy economic toll of the COVID-19 pandemic;

(B) vulnerabilities with respect to the growing role of the People’s Republic of China in the financing and refinancing of Ecuador’s debts, and in strategic infrastructure projects and sectors of the Ecuadorian economy; and

(C) the need to develop and strengthen open and transparent economic policies that strengthen Ecuador’s integration with global markets, inclusive economic growth, and opportunities for upward social mobility for the Ecuadorian people.

(5) Since its establishment in December 2019, the United States Development Finance Corporation has provided more than \$440,000,000 in financing to Ecuador.

(6) Ecuador’s justice system has taken important steps to fight corruption and criminality and to increase accountability. However, enduring challenges to the rule of law in Ecuador, including the activities of transnational criminal organizations, illicit mining, illegal, unreported, and unregulated (IUU) fishing, and undemocratic actors, present ongoing risks for political and social stability in Ecuador.

(7) The activities undertaken by the Government of the People’s Republic of China in Ecuador, including its development of the

ECU-911 video surveillance and facial recognition system, financing of the corruptly managed and environmentally deleterious Coca Codo Sinclair Dam, and support for illegal, unreported, and unregulated fishing practices around the Galapagos Islands, pose risks to democratic governance and biodiversity in the country.

(8) Ecuador, which is home to several of the Earth's most biodiverse ecosystems, including the Galapagos Islands, the headwaters of the Amazon river, the Condor mountain range, and the Yasuni Biosphere Reserve, has seen a reduction in its rainforests between 1990 and 2016, due in part to the incursion of criminal networks into protected areas.

(9) On March 24, 2021, the Senate unanimously approved Senate Resolution 22 (117th Congress), reaffirming the partnership between the United States and the Republic of Ecuador, and recognizing the restoration and advancement of economic relations, security, and development opportunities in both nations.

(10) On August 13, 2021, the United States and Ecuador celebrated the entry into force of the Protocol to the Trade and Investment Council Agreement between the Government of the United States of America and the Government of the Republic of Ecuador Relating to Trade Rules and Transparency, recognizing the steps Ecuador has taken to decrease unnecessary regulatory burden and create a more transparent and predictable legal framework for foreign direct investment in recent years.

SEC. 1283. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) the United States should take additional steps to strengthen its bilateral partnership with Ecuador, including by developing robust trade and investment frameworks, increasing law enforcement cooperation, renewing the activities of the United States Agency for International Development in Ecuador, and supporting Ecuador's response to and recovery from the COVID-19 pandemic, as necessary and appropriate; and

(2) strengthening the United States-Ecuador partnership presents an opportunity to advance core United States national security interests and work with other democratic partners to maintain a prosperous, politically stable, and democratic Western Hemisphere that is resilient to malign foreign influence.

(3) establishing frameworks or mechanisms to review the long term financial sustainability and security implications of foreign investments in Ecuador in strategic sectors or services;

(4) establishing competitive and transparent infrastructure project selection and

procurement processes in Ecuador that promote transparency, open competition, financial sustainability, and robust adherence to global standards and norms;

EXTENSIONS OF REMARKS

HONORING CLAUDINO “TITO”
ROSARIO FOR HISPANIC HERITAGE MONTH

HON. DARREN SOTO

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. SOTO. Madam Speaker, as a labor organizer, Claudino “Tito” Rosario has served Central Florida for the past 15 years working to organize hospitality workers with UNITE HERE Local 362.

Tito was one of the key organizers in the union’s fight to win \$15 per hour at Walt Disney World in 2018, while winning affordable healthcare for airport workers, recruiting countless workplace leaders, participating in civil disobedience, and building a stronger union that is filled with hope due to his spirit.

Tito first joined UNITE HERE when he became a custodial cast member at Walt Disney World in 1995. He worked in several resorts across their property, eventually working at Disney’s Animal Kingdom where he became a shop steward for his co-workers in 2005. He was hired to the Local 362 Union organizing team in 2007 where he organized workers at Walt Disney World, airport food service workers, airline catering workers, and casino workers across the country.

In retirement, Tito plans to spend time with his wife Lourdes of 25 years, his 11 grandchildren, and his one great-grandchild. He also plans to donate time to his church’s ministry—Iglesia Pentecostal Pozo De Jacob, Inc. Pastores Melissa Rivera y José A. Franco—serving as secretary general. Tito has touched thousands of lives in Central Florida, and I join the members of UNITE HERE Local 362 in being forever grateful for his hard work and dedication.

IN RECOGNITION OF THE 136TH ANNIVERSARY OF THE MOUNT MORIAH MISSIONARY BAPTIST CHURCH

HON. SANFORD D. BISHOP, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. BISHOP of Georgia. Madam Speaker, I rise today to recognize the Mt. Moriah Missionary Baptist Church on the anniversary of its inception after 136 blessed years of contributing to and serving the surrounding community through ministry and service. Mt. Moriah celebrated their anniversary on Sunday, September 25, 2022 at 10:00 a.m. during their Sunday service in Macon, Georgia.

The Mt. Moriah Missionary Baptist Church was founded in 1886 by Rev. Harrison Hall and Rev. Henry A. Williams. Starting as a humble wooden structure on Powell Street, the church began to expand over the years to include a Sunday School and other additions

that would become meeting spaces for community groups and clubs such as the Loyal Matrons, Richardson Literary, Cooperative Women, the Brotherhood, and a new Boy Scout Troop. After many fruitful years of ministry and expansion, the Lord provided Mt. Moriah with the means to relocate to its present-day home on Millerfield Road in 1967 where it was able to further expand and serve its members with even greater impact.

The Mt. Moriah Baptist Church has for a century played a vital role in the spiritual and overall development of several generations through its active involvement in the Boy Scouts, Cub Scouts, Brownies, and Vacation Bible Schools. The church has always prioritized educating its members, and especially its youth, in positive life skills and encourages all members to join Prayer Meetings and Bible Study. And truly, the congregation of Mt. Moriah has always demonstrated a genuine concern for uplifting the surrounding community. Mt. Moriah continued in this mission in the foundation of the Family Life Center. Built and dedicated in 1992, the Center houses a nursery, library, six classrooms, and a gymnasium to be used and enjoyed by the church’s members and ministries such as the Single’s Ministry, the Couple’s Ministry, Mission Board, YDC Ministry, Keenagers (Senior Saints), the Men of Mt. Moriah, and Women of Mt. Moriah. In 2006, the church established the Travel Ministry and took on the worthy cause of spreading its mission of evangelism and altruism abroad. Over the years the Travel Ministry would spread its ministry wide, including travel to Barbados, Jamaica, Liberia, South Carolina, Florida, and many other places with people in need.

Over the decades, none of Mt. Moriah’s accomplishments could have been possible without the hard work and dedication of the church’s many dedicated members, deacons, ministers, and, most importantly, its pastors. Each pastor has contributed to the growth and excellence of the church through various initiatives; under Reverend Lonzy Edwards, Sr.’s leadership Mt. Moriah saw the establishment of a college scholarship fund, a new radio ministry, and a property expansion. Mt. Moriah’s current lead pastor, Reverend Dr. Stanley Kimble, has not only continued to advance the church’s long-held mission of uplifting the greater community; he has also brought forth a newfound passion for youth engagement and local charities. Dr. Kimble founded the “Get Your Glory Youth Praise Dance Ministry” and the Youth Cafe on every third Sunday, as well as the Feeding of the Homeless Ministry and the Red Cross Blood Drive. It is without a doubt that these pastors’ contributions inspired so many to do what they may never have thought possible.

The story of Mt. Moriah Missionary Baptist Church, which began as a small group of people worshipping 136 years ago and has grown into an expansive and successful church, is truly an inspiring one of the dedication and perseverance of a faithful congregation who put all of their love and trust in the Lord.

Ephesians 4:4 tells us, “There is one body, and one Spirit, even as ye are called in one hope of your calling.” Mt. Moriah from its inception has served as one body and spirit in service to God and Jesus Christ.

Madam Speaker, today I ask my colleagues to join my wife, Vivian, and me, along with the more than 730,000 people of Georgia’s Second Congressional District in recognizing and honoring the Mount Moriah Missionary Baptist Church on its 136th anniversary for its congregation’s enduring commitment to each other and to our Lord and Savior Jesus Christ. May their actions continue to inspire the community in courage, in dedication, and in faith.

HONORING 82ND AIRBORNE HALL OF FAME INDUCTEE CORPORAL JOHN S. GILBERTIE FOR HIS VALOROUS SERVICE AND SACRIFICE

HON. RICHARD HUDSON

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. HUDSON. Madam Speaker, I rise today to honor Corporal John S. Gilbertie who was inducted into the 82nd Airborne Division's Hall of Fame on September 28, 2022.

The 82nd Airborne Division's Hall of Fame began in 2018 to honor the division's 101 years of legendary service and its members. It honors veteran paratroopers who are nominated for their service within the division, their commitment to the division's values, their contributions to their chosen field outside of their division, or any other valorous combat actions.

A brief look at Cpl. Gilbertie's career accomplishments only begins to adequately describe the importance of his military service. He served in the 82nd Airborne Division from October 1917 to May 1919, which included serving as an infantryman and squad leader in company E, 327th Infantry Regiment during the St. Mihiel and Meuse-Argonne campaigns of World War I. During WWI, Cpl. Gilbertie led nightly patrols for the 327th Regiment, which earned him the Distinguished Service Cross. According to his citation, he carried messages from the front lines to battalion and regimental headquarters in October 1918 near Cornay, France; "Although suffering from the effects of gas and sickness, on two occasions, he volun-

teered and led patrols in the enemy territory, obtaining and returning with information of the utmost importance and value." For his efforts, Cpl. Gilbertie was awarded the Silver Star Medal, the World War I Victory Medal with three Clasps and the Italian War Cross.

In the words of the former commander of the 82nd Airborne Division, Gen. Erik Kurilla, "the All American Hall of Fame is about preserving our legacy and paying homage to our All American Legends." Cpl. Gilbertie's selfless service could not be more deserving of such recognition. I know I speak for all in our community and Nation in thanking Cpl. John S. Gilbertie for his committed service and leadership in the 82nd Airborne Division and our nation's military more broadly.

Madam Speaker, please join me today in honoring and congratulating Corporal John Gilbertie for his induction to the 82nd Airborne Division's Hall of Fame.

HONORING THE LIFE OF NEAL J. KATZ

HON. VAN TAYLOR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. TAYLOR. Madam Speaker, today, I rise to honor and celebrate the life of Neal J. Katz.

On November 23, 1954, Neal was born to Regina and Louis Katz in New York City. In high school he would earn the name "Statz" after managing statistics for Horace Mann's Basketball Team, a lifelong skill to which he was well suited.

Following his graduation from Rensselaer Polytechnic Institute where he received a Bachelor of Science in Civil Engineering and a Master's in Business Administration, Neal and his wife, Diane, would move to Texas, eventually settling in Plano.

Mr. Katz would become an active fixture in Collin County politics where his roles included serving as an elector as part of the Texas delegation to the Electoral College, on the State Republican Executive Committee, as a delegate to the National Convention, and as an active participant in more than a dozen local organizations. Most recently, he retired as Executive Director of the Collin County Republican Party.

Service above self was an important component of Neal's life, and his passions included keeping his hometown of Plano safe. To that end, he was a graduate of the Plano Citizens Police Academy, a Field Training Officer, and a volunteer in several initiatives including Citizens Assisting Plano Police, the Plano Youth Police Academy, and Summer Safety School.

As a proud father to Janelle and Rachel, Neal proudly served as a Girl Scouts Troop Cookie Dad before being elevated to a University of North Texas sports fan and ISU theatre patron.

While we mourn Neal's loss, we remember his many contributions as a servant leader within our community. With much gratitude for his longtime grassroots efforts, I ask my colleagues in the House of Representatives to join me in celebrating the rich legacy of Neal J. Katz.

Mike sought to establish an organization focused on giving back to the community. Since the beginning, he worked to unite local companies and partnered with remarkable leaders from La Porte, Michigan City, and throughout the region to help create Unity Foundation of La Porte County. Under Mike's outstanding leadership, the foundation has been immensely successful and continues to grow and expand. Mr. Brennan's remarkable contributions to the foundation and to the community will have a positive impact for generations to come.

HONORING ELSIE M. COLÓN RIVERA FOR HISPANIC HERITAGE MONTH

HON. DARREN SOTO

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. SOTO. Madam Speaker, Elsie M. Colón Rivera is a 36-year-old Hispanic woman from Cidra, Puerto Rico, and the oldest and only sister of five children. She was born with a rare blood disease called Von Willebrand disease. Playing as a child was a challenge because she could have lots of bleeds, but it still didn't stop her from doing sports like gymnastics, cheerleading, and swimming, and reaching her goals.

From high school up until leaving Puerto Rico, Elsie volunteered at Centro de Bendición in San Juan, a social help center. There, Elsie helped people obtain their high school diplomas, and distribute meals, clothes, and personal hygiene products, among others. This volunteer experience helped her find what she loved and defined her professional career to the service of people. Also, as a veteran dependent, she participated in the work-study program at San Juan VA Medical Center. There, she worked in the administrative area of the mental health clinic. This work set her commitment to service.

She moved from Puerto Rico to Florida in 2016 with her husband in search of a better future. Elsie is an honor graduate of a master's in business administration at the Inter-American University of Puerto Rico. From 2018 to 2022, Elsie worked in the family business doing administrative work. She missed her work of service and decided to move to AGM University's Orlando Campus to work as an administrative coordinator. Elsie is highly motivated by her daughter to use a positive mind, empathy, and energy to encourage others to succeed.

HONORING 82ND AIRBORNE HALL OF FAME INDUCTEE CAPTAIN JOHN B. SAULS FOR HIS VALOROUS SERVICE AND SACRIFICE

HON. RICHARD HUDSON

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. HUDSON. Madam Speaker, I rise today to honor Captain John B. Sauls who was inducted into the 82nd Airborne Division's Hall of Fame on September 28, 2022.

The 82nd Airborne Division's Hall of Fame began in 2018 to honor the division's 101 years of legendary service and its members. It honors veteran paratroopers who are nominated for their service within the division, their commitment to the division's values, their contributions to their chosen field outside of their division, or any other valorous combat actions.

A brief look at Cpt. Sauls' career accomplishments only begins to adequately describe the importance of his military service. He commanded Company G, 401st Glider Infantry Regiment. On June 9, 1944, Sauls led an attack on German defensive positions which were denying the progress of the Allied movement west from Normandy. Without cover or

concealment, Sauls and his company charged toward the Nazis, maneuvering down the 500-meter corridor directly into machine gun fire and artillery. After moving down the causeway, Sauls realized he only had a squad-sized element with him and the rest of the company was pinned down, wounded, or killed. Sauls made it across the corridor of fire and ran past the first line of German defense, shooting Nazis with his Thompson submachine gun. For his actions, Sauls earned the Silver Star. He died in 1987 at the age of 73.

In the words of the former commander of the 82nd Airborne Division, Gen. Erik Kurilla, "the All American Hall of Fame is about preserving our legacy and paying homage to our All American Legends." Cpt. Sauls' selfless service could not be more deserving of such recognition. I know I speak for all in our community and Nation in thanking Cpt. Sauls for his committed service and leadership in the 82nd Airborne Division and our nation's military more broadly.

Madam Speaker, please join me today in honoring and congratulating Captain John Sauls for his induction to the 82nd Airborne Division's Hall of Fame.

Mr. SCOTT of Virginia. Madam Speaker, I rise on behalf of myself and Ranking Member VIRGINIA FOXX to recognize the retirement of David Lewis and honor his public service to the American people as the Assistant Director in the Office of Congressional Relations at the U.S. Government Accountability Office (GAO).

Mr. Lewis has been an invaluable asset to us, Members of the Committee, and Members across Congress. Mr. Lewis built a considerable body of work in multiple issue areas, but we are most appreciative of the work he helped shepherd for our Committee.

HONORING 82ND AIRBORNE HALL OF FAME INDUCTEE COMMAND SERGEANT MAJOR BRYANT LAMBERT FOR HIS VALOROUS SERVICE AND SACRIFICE

HON. RICHARD HUDSON

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. HUDSON. Madam Speaker, I rise today to honor Command Sergeant Major Bryant Lambert for his induction into the 82nd Airborne Division's Hall of Fame on September 28, 2022.

The 82nd Airborne Division's Hall of Fame began in 2018 to honor the division's 101 years of legendary service and its members. It honors veteran paratroopers who are nominated for their service within the division, their

commitment to the division's values, their contributions to their chosen field outside of their division, or any other valorous combat actions.

A brief look at Command Sgt. Maj. Lambert's career accomplishments only begins to adequately describe the importance of his military service. In his 26 years with the 82nd Airborne Division, he has held every rank and position in the division from rifleman to command sergeant major. He began as an infantryman in the 2nd Battalion of the 1st Brigade's 508th Infantry Regiment and later served in the division's 1st Brigade, 2-504 PIR and 3rd Brigade, 1-505 PIR before becoming the 3rd Brigade Combat Team's regimental command sergeant major. In 2010, he advanced to become the 82nd Airborne Division command sergeant major where he later served as the senior enlisted advisor for Regional Command-South and Combined Joint Task Force-82 during Operation Enduring Freedom. While in the military, Command Sgt. Maj. Lambert completed training programs at the U.S. Army Airborne School, the U.S. Army Drill Sergeant School, and the U.S. Army Sergeants Major Academy that contributed to his success and led him to serve in numerous other units at military bases across the country. He also completed many deployments, including three tours in Afghanistan, two tours in Iraq, and singular tours in Grenada, Saudi Arabia, and Haiti. He retired from the Army in 2018.

In the words of the former commander of the 82nd Airborne Division, Gen. Erik Kurilla, "the All American Hall of Fame is about preserving our legacy and paying homage to our All American Legends." Command Sgt. Maj. Lambert's selfless service could not be more deserving of such recognition. I know I speak for all in our community and Nation in thanking Command Sgt. Maj. Madam Speaker, please join me today in honoring and congratulating Command Sergeant Major Bryant Lambert for his induction to the 82nd Airborne Division's Hall of Fame.

NEW IMAGE BREWERY

HON. ED PERLMUTTER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. PERLMUTTER. Madam Speaker, I rise today to recognize New Image Brewery for receiving the Wheat Ridge Business Association's 2022 Reinvestment Award.

New Image Brewery is being recognized for their resilience in investing in our community despite opening a business at a challenging time. When New Image Brewery first came to Wheat Ridge, they were looking for a facility to produce their beers, however, due to zoning laws, they were required to open a tasting room. New Image Brewery agreed to this new vision, but as they began to open their doors, the COVID-19 pandemic hit. Now, two years after their original opening, New Image Brewery was able to finally open the doors to their tasting room and has been met with great community support. Quickly, this brewery has become a popular spot in the community, featuring a wide array of brews inside and an on-site food truck outside.

I thank New Image Brewery for their "reinvestment" in our community. We are happy to have their tasting room's doors finally open.

**RECOGNIZING PHILIP D. HAMNER
ON HIS DEPARTURE**

HON. ROSA L. DeLAURO

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Ms. DELAURO. Madam Speaker, I rise as Chair of the House Appropriations Committee to congratulate Philip D. Hamner on his 27 years of service to our Nation upon his retirement from the U.S. House of Representatives.

Mr. Hamner began his tenure with the Office of Finance of the Chief Administrative Officer (CAO) of the House as an Accounting Supervisor in 1995. Since 2011, he has been serving as CAO's Director of Accounting. With outstanding work ethic and expert knowledge of the United States Standard General Ledger (USSGL), Mr. Hamner has been at the helm of House accounting since he joined the House staff, previously serving as Systems Accountant, Deputy Director of Accounting, and Acting Director of Accounting.

Mr. Hamner's greatest contribution to this institution and its staff has been his successful leadership and immeasurable knowledge of accounting. During his tenure, he led his team in compiling the Annual House Financial Statements and annual external audits. Mr. Hamner played a significant role in the implementation of the House's financial system of record, PeopleSoft. Mr. Hamner has worked tirelessly over his distinguished career to ensure the House's financial transactions are accurately recorded and reported. These contributions have led the CAO Office of Finance team to receive 24 consecutive clean audit opinions for the U.S. House of Representatives. Speaking as an appropriator, that is a worthy distinction!

Mr. Hamner is a dedicated, dependable, tried-and-true employee to whom the House owes a tremendous amount of gratitude. I extend my congratulations to Mr. Hamner on an outstanding congressional career. His country thanks him for his hard work and dedication to this institution.

May Philip D. Hamner embrace all new opportunities that are presented to him in the future with the same passion and diligence he shared with us.

**HONORING ST. CLOUD POLICE
CHIEF BLAIR ANDERSON**

HON. TOM EMMER

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. EMMER. Madam Speaker, I rise today to honor a dedicated public servant and a good friend, St. Cloud Police Chief Blair Anderson. Blair will be retiring this November after nearly 10 years of service to the St. Cloud community. He leaves behind a legacy of distinguished service that made our community safer and will not soon be forgotten.

Before becoming Chief of Police in St. Cloud, Blair was a member of the Dakota

County Sheriff's Office, where he started his career as an intern in 1995. He rose within the ranks and left as a Commander in 2011 to serve as Chief Deputy in Carver County.

Originally from Detroit, Michigan, Blair embraced the St. Cloud community and made meaningful changes during his many years of service. One change we are particularly proud of is the St. Cloud Police Department's Community OutPost or COP House program that Chief Anderson created. The COP House serves as a place for residents of the St. Cloud community and local law enforcement to gather and participate in afterschool programs, receive health services, and build meaningful relationships with one another.

The impact the COP House has had on the St. Cloud community is incredible and one that we've been working to turn into a national model for improving community/police relations. This is just one of the many improvements Blair made during his tenure that will continue to serve the entire St. Cloud community long after his retirement.

There is a reason all marked St. Cloud Police vehicles say "To serve and protect" on them, rather than the reverse. Chief Blair Anderson has made service to the St. Cloud community the cornerstone of his department. Under his watch, we all breathed a little easier. He will be greatly missed by the St. Cloud community, but his legacy will never be forgotten.

HONORING 82ND AIRBORNE HALL OF FAME INDUCTEE CAPTAIN GERALD A. WOLFORD FOR HIS VALOROUS SERVICE AND SACRIFICE

HON. RICHARD HUDSON

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. HUDSON. Madam Speaker, I rise today to honor Captain Gerald A. Wolford who was inducted into the 82nd Airborne Division's Hall of Fame on September 28, 2022.

The 82nd Airborne Division's Hall of Fame began in 2018 to honor the division's 101 years of legendary service and its members. It honors veteran paratroopers who are nominated for their service within the division, their commitment to the division's values, their contributions to their chosen field outside of their division, or any other valorous combat actions.

A brief look at Cpt. Wolford's career accomplishments only begins to adequately describe the importance of his military service. He served in the 82nd Airborne Division from 2000 to 2006. As a staff sergeant deployed to Iraq in 2003, the gun section of Cpt. Wolford's Company D, 3rd Battalion, 325th Infantry came under fire during a river crossing in As-Samawah, Iraq. Unable to suppress with small arms, Cpt. Wolford silenced the position using a non-standard tactical vehicle and anti-tank weapon. He received the Silver Star for demonstrating outstanding valor and personal courage while serving as a Heavy Machine Gun Section Leader during a battalion river crossing in As Samawah, Iraq. As his unit approached the city, a rocket-propelled grenade struck his vehicle, wounding two paratroopers. Cpt. Wolford moved the wounded paratroopers to safety before his vehicle was

struck a second time when escorting a dismounted squad to a forward position. Cpt. Wolford continued directing section fires and engaging the enemy when a third rocket-propelled grenade detonated near his truck, and a fourth grenade passed over his head. For his actions, Cpt. Wolford was awarded the Silver Star and selected as the 2003 USO Soldier of the Year. He commissioned into the infantry branch in 2006 and finished his career as an information operations officer at the Department of the Army Headquarters in the Pentagon.

In the words of the former commander of the 82nd Airborne Division, Gen. Erik Kurilla, "the All American Hall of Fame is about preserving our legacy and paying homage to our All American Legends." Cpt. Wolford's selfless service could not be more deserving of such recognition. I know I speak for all in our community and Nation in thanking Cpt. Wolford for his committed service and leadership in the 82nd Airborne Division and our nation's military more broadly.

Madam Speaker, please join me today in honoring and congratulating Captain Gerald Wolford for his induction to the 82nd Airborne Division's Hall of Fame.

IN RECOGNITION OF DAVID LOUIE

HON. JACKIE SPEIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Ms. SPEIER. Madam Speaker, I rise to honor the legendary journalist David Louie, who has over five decades some of the biggest stories in the Bay Area and the nation. A familiar and friendly face on San Francisco's ABC7/KGO TV for 50 years, Bay Area viewers will undoubtedly miss his excellent reporting. It has been my great pleasure to run into David at countless events and to be interviewed by him dozens of times during my time in Congress and the California Legislature.

Journalism has been in David's blood since he was a child. He first appeared on camera at age five when one of his neighbors in Ohio who produced a weekly public affairs show invited him to the studio. He was also a newspaper delivery boy and wrote for his high school paper. In 1972, he became KGO's Asian American reporter.

David has a remarkable ability to quickly break down and condense any story, no mat-

ter what topic you throw at him. He has covered the emergence of Silicon Valley as a technology and innovation hub. He was part of the first local TV crew to go to China covering the normalization of US-China relations. He went to the Philippines during the People Power Revolution in 1986 that sent Ferdinand Marcos into exile. He was the first reporter to interview U.S. Secretary of Transportation Norman Mineta after 9/11. He covered the Patty Hearst kidnapping and the Loma Prieta earthquake.

Among the recognitions and awards David has received for his outstanding work are four Emmy Awards and two lifetime achievement awards from the Asian American Journalists Association (AAJA) and from the City and County of San Francisco. He was inducted into the National Academy of Television Arts and Sciences (NATAS) Gold Circle in 2019, and the Medill School of Journalism Hall of Fame in 1997. David served as the national president of AAJA, the national chairman of the NATAS, and on the board of the Radio Television Digital News Association (RTNDA). This year, he was awarded the Northwestern Alumni Medal.

David earned his bachelor's in journalism from Northwestern University, where he began in the Medill Cherubs, a summer institute for high school students interested in journalism careers.

David is also a foodie. Long before the food channels appeared on the air, David did a feature called, "Friday Feast." When he is not out in the field reporting, he is often in his kitchen experimenting with new recipes. He encourages his social media followers to send him risky recipes to try.

Madam Speaker, to say that David Louie is an institution in the Bay Area would not be an exaggeration. I ask my colleagues in the House of Representatives to join me in celebrating a man in pursuit of the truth and facts for more than half a century. He is a role model for other journalists: thorough, ethical and always curious. I wish him the best in his well-deserved retirement.

HON. RALPH NORMAN

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. NORMAN. Madam Speaker, I rise today to celebrate the life of Mr. William F. Thornton on his 80th birthday. Born on October 1, 1942 in Oakland, California to Mr. Frederick Lyle and Mrs. Evelyn Lenore Thornton, Mr. Thornton left home to live and work with his aunt and uncle at their dairy farm at the age of 13.

On November 2, 1966, Mr. Thornton enlisted in the Army at the age of 23. He served as a combat medic for 21 months in Vietnam and was later stationed in Germany, where he remained for the next 2 years.

Later, Mr. Thornton was stationed at Fort Sam Houston in San Antonio, Texas at their medical training center. He was then sent to Apalachicola, Florida to take part in weapons testing for helicopters.

In January 1967, Mr. Thornton was awarded the Silver Star, the Army's third highest award for valor. Mr. Thornton was cited for heroism

while serving as a medic. When his unit was hit by intense hostile fire and sustained several casualties, Mr. Thornton was called forward to administer first aid to two seriously wounded soldiers. He crawled forward while exposed to oppressive enemy fire and successfully administered medical treatment to his comrades.

Throughout his career, Mr. Thornton's courage saved the lives of countless soldiers and inspired his comrades.

In 1967, he was discharged and returned to live in Apalachicola, Florida where he worked as a seafood broker.

In 1988, he met his wife, Giannina Redaelli Thornton and married a year later. Together, they raised 3 children and relocated to Rock Hill, South Carolina in 2004. I congratulate Mr. William F. Thornton and his entire family on his 80th birthday celebration and I thank him for his years of dedicated service to this country and his community.

When retired from his position as command sergeant major in 2006, he continued to serve the division as the inspector general, chief of investigations prior to becoming the chief of operations for range control at the Fort Bragg Garrison in 2009. He has served as the installation range officer since 2015 where he upholds the important duty of training the division's paratroopers for any global conflicts they may be called to address.

In the words of the former commander of the 82nd Airborne Division, Gen. Erik Kurilla,

HON. FRANK J. MRVAN

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. MRVAN. Madam Speaker, as we celebrate the life of Dr. Martin Luther King Jr. and reflect on his legacy, we are reminded of the challenges that democracy poses to us, and the delicate nature of our civil liberties and human rights. Dr. King's peaceful protests for change remind us that we must continually work to secure and protect our freedom. In his courage to act, his humble yet strong leadership, and his ability to achieve, Dr. King embodied all that is good and true in the battle for justice and liberty.

The spirit of Dr. King lives on in the citizens of communities throughout our nation. It lives on in the people whose actions reflect the spirit of determination and perseverance that will help move our country into the future. HONORING NEZAHUALCOYOTL
XIUHTECUTLI FOR HISPANIC
HERITAGE MONTH

HON. DARREN SOTO

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. SOTO. Madam Speaker, Nezahualcoyotl Xiuhtecutli was born in Mexico City. He immigrated to the United States when he was 13 and lived in South Carolina during his early years in the states. He dropped out of school after two years of college to work for a living. He returned to school after four years of doing different kinds of jobs, including working as a stocker, a waiter, and working for a small bilingual newspaper in Columbia, South Carolina.

He moved to Charleston in 1997 and by working and studying at the same time, he was able to finish college in 2003. Part of that time was spent working with his parents who were then starting a small Mexican bakery in Charlotte. He decided to pursue graduate education in anthropology and moved to New Orleans to attend Tulane University in 2004. There, he earned a Ph.D. in 2022.

He then moved to Florida in 2011 and joined the staff of the Farmworker Association of Florida in 2016 as part of the research team. In that role, he has been advocating for

better working conditions for farmworkers in Central Florida and raising awareness about the short and long-term effects of heat-related illness.

I thank Margie Seyfer for her service to the great City of Wheat Ridge.

HONORING A CENTURY OF U.S.-
ISRAEL TIES

HON. JOE WILSON

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. WILSON of South Carolina. Madam Speaker, as the Ranking Member of the Foreign Affairs Middle East Subcommittee, it is a pleasure to recognize A Century of United States and Israel Ties.

One hundred years ago, Senator Henry Cabot Lodge (R-MA) and Representative Hamilton Fish (R-NY) pushed a joint resolution through Congress for the United States to officially acknowledge their support for a Jewish homeland. The House and Senate vote was unanimous, and in September 1922, President Warren G. Harding signed the Resolution.

Israel is a great friend, ally, and partner to the United States in our shared commitment to democracy, economic development, and regional security. The U.S.-Israel bond is unique, as it is the foundation of American leadership in the Middle East. In 1948, America was the first country to recognize Israel as a state and in 2018, America established an

embassy in Jerusalem. I was grateful to lead the House Delegation for the Embassy opening fulfilling the courageous promise of President Donald Trump.

A highlight of my service in Congress was when my wife Roxanne and I met with former Prime Minister Netanyahu in Jerusalem and Washington. Mr. Netanyahu significantly contributed to the strengthening of Israeli security, transitioning it into an economic force, respected internationally. I know firsthand of his extraordinary dedication to the people of Israel. The Israeli people have demonstrated resiliency, overcoming numerous challenges and enduring the threat of terrorism, while continuing to remain confident in the future of their country. They continue to lead the way in critical sectors of healthcare, information technology, and defense.

I grew up with an appreciation of the Jewish faith in Charleston, South Carolina, where at the time of the American Revolution was home of the largest Jewish population in the New World. The provincial constitution of South Carolina was the first constitution to recognize Judaism as a religion. The first Jewish elected official in America was to the South Carolina Provincial Assembly, and sadly it was home of the first Jewish American killed in the Revolution.

The people of Israel, and Prime Minister Yair Lapid, know they have a true ally in America. I continue to work toward the normalization of our Arab partners and Israel relations to achieve a more stable, peaceful, and prosperous Middle East in which all people and religions can coexist and prosper. I am grateful for the dedicated service of Ambassador to the U.S., Michael Herzog.

HONORING YESICA RAMIREZ FOR
HISPANIC HERITAGE MONTH

HON. DARREN SOTO

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. SOTO. Madam Speaker, Yesica Ramirez is the Apopka office area coordinator at the Farmworker Association of Florida. She and her family come from Michoacan, Mexico. Her first job in Apopka was as a plant nursery worker, where she worked for six years. Yesica also took several other jobs such as housekeeper and dishwasher.

During the years Yesica worked at the plant nursery, she had no clue about pesticides and wondered how she had gotten rashes on her arms and hands. She later became pregnant with her third child who was born with complications. Upon birth, the baby needed to get their skull cut to get the head molded. When community members were active, fed up, and had a hint of hope for immigration reform, Yesica joined one of FWA's marches in 2006. That was her introduction to FWA. As she became more involved with the organization, a lot of things became clearer, such as the rashes on her hands and arms, and her child's health complications. During her work at the plant nursery, Yesica made a mixture of Clorox and alcohol with no protective gear. She has been fighting for social justice as part of the FWA staff for 10 years.

Through her work with FWA, Yesica has been active in Florida's Ninth Congressional

District working on immigration and voting rights, including working with the Young American Dreamers and doing outreach in the district to make sure that farmworkers in the area know their rights and become members of the association. Recently, Yesica was part of a delegation that met with U.S. Department of Health and Human Services Assistant Secretary for Health, Admiral Rachel Levine, to voice the issues that concern and affect farmworkers in Central Florida.

Mr. PERLMUTTER. Madam Speaker, I rise today to recognize Rebekah Raudabaugh for receiving the Wheat Ridge Business Association's 2022 Council Partner Award.

The Council Partnership Award is given to a member of the community who the City Council believe exemplifies the best of Wheat Ridge. This year, the Wheat Ridge City Council chose Ms. Raudabaugh for her empathic service to our community. From the first time she met with City Council members, her commitment to bettering her community was clear and is seen through her earnest plight to earn the trust of the community.

I thank Rebekah Raudabaugh for her outstanding leadership, which helps make Wheat Ridge a wonderful place to live and work.

HONORING 82ND AIRBORNE HALL OF FAME INDUCTEE COLONEL BENJAMIN H. VANDERVOORT FOR HIS VALOROUS SERVICE AND SACRIFICE

HON. RICHARD HUDSON

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. HUDSON. Madam Speaker, I rise today to honor Colonel Benjamin H. Vandervoort for his induction into the 82nd Airborne Division's Hall of Fame on September 28, 2022.

The 82nd Airborne Division's Hall of Fame began in 2018 to honor the division's 101 years of legendary service and its members. It honors veteran paratroopers who are nominated for their service within the division, their commitment to the division's values, their contributions to their chosen field outside of their division, or any other valorous combat actions.

A brief look at Col. Vandervoort's career accomplishments only begins to adequately describe the importance of his military service. Col. Vandervoort was a member of the 505th Parachute Infantry Regiment, which was assigned to the 82nd Airborne in 1943, from 1940 to 1945 and held many important ranks over the course of World War II. Specifically, he served as the regiment's operations officer during the United States' invasion of Sicily and Salerno and as the commander of the regiment's 2nd Battalion during the invasion of Normandy in 1944 and the Battle of the Bulge later that year. In the latter, he led his battalion into the fray in the cities of Sainte-Mere-Eglise, Nijmegen, and Bastogne. Perhaps

most impressively, he also orchestrated and performed an assault on the Waal bridge in the Netherlands during this conflict. On account of his courage, bravery, and spectacular leadership in this episode, he received Oak Leaf Clusters for his Distinguished Service Cross and two Oak Leaf Clusters for his Purple Heart. Although injuries from his time in the 2nd Battalion forced him to medically retire from the Army in 1946, he continued to work to bolster our national security in his capacity as a civilian by working for the CIA and U.S. Army staff.

In the words of the former commander of the 82nd Airborne Division, Gen. Erik Kurilla, "the All American Hall of Fame is about preserving our legacy and paying homage to our All American Legends." Col. Vandervoort's selfless service could not be more deserving of such recognition. I know I speak for all in our community and Nation in thanking Col. Vandervoort for his committed service and leadership in the 82nd Airborne Division and our nation's military more broadly.

Madam Speaker, please join me today in honoring and congratulating Colonel Benjamin Vandervoort for his induction to the 82nd Airborne Division's Hall of Fame.

HONORING THE LIFE OF MR.
ANATOLY DWIGUN

HON. CHRIS JACOBS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. JACOBS of New York. Madam Speaker, I rise today to remember and honor the life of Anatoly Dwigun, who passed away on February 24, 2022, at the age of 76.

Mr. Dwigun was born in Germany on October 28, 1945. His two parents and three siblings immigrated to the United States in 1955 when he was ten years old. A true exemplar of American patriotism, Mr. Dwigun joined the U.S. Army in 1968, just shortly after earning his American citizenship. His remarkable service in Vietnam as a helicopter mechanic and door gunner led to him receiving several honors: including the Defense Service Medal, Vietnam Service Medal, Vietnam Campaign Medal, Army Commendation Medal, and the New York State Conspicuous Services Cross Award. In a demonstration of humility, Mr. Dwigun declined to accept the Purple Heart; in his own words, stating he was not "as worthy of that honor, as those who lost their lives". Following Vietnam, Mr. Dwigun proudly worked as an engineer and spent considerable time enjoying the outdoors. He was precise and caring in all his actions, best exemplified by his superb vehicle-maintenance abilities and immaculate yard work.

Mr. Dwigun's humility was constantly reflected during his marriage to his loving wife, Janice. The two shared countless happy memories not only with each other, but also their children, grandchildren, and great-grandchildren. Many of his most cherished times were during family gatherings and shared meals. To summarize, Mr. Dwigun's memory lives on through his family and his country.

Madam Speaker, please join me celebrating Mr. Dwigun's life and in honoring his life's work and all his achievements.

CLANCY'S IRISH PUB

HON. ED PERLMUTTER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. PERLMUTTER. Madam Speaker, I rise today to recognize Clancy's Irish Pub for receiving the Wheat Ridge Business Association's 2022 Cultural Commission Award.

Clancy's also opens their doors to community events like Hops with a Cop, Pints and Policy, and Ridgefest Deconstructed. Their steadfastness toward engaging the community of Wheat Ridge in Irish culture and providing a space to celebrate and learn about it is why the Cultural Commission chose Clancy's.

I thank Clancy's Irish Pub for the rich culture they bring to our community.

HONORING JOHN JACKSON
KENNEDY

HON. JUDY CHU

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Ms. CHU. Madam Speaker, I rise today to honor the life of John J. Kennedy, who passed away on July 21, 2022, at the age of 61. John was a respected leader and councilmember in the Pasadena community whose legacy will be felt indefinitely.

John J. Kennedy was born and raised in Pasadena, California to his parents Thomas and Leola Kennedy as the eighth of ten siblings. John was always a natural leader, drawn to serving and representing those around him from an early age. He was student body president at Pasadena's Blair High School and went on to serve as student senator at the University of Southern California, where he received a dual bachelor's degree in Economics and International Relations. After earning his juris doctor degree from Howard University School of Law, John became the youngest person to be elected president to the Pasadena National Association for the Advancement of Colored People (NAACP) in 1987. His decades-long work with the NAACP as both president and a member represented his powerful commitment to creating opportunities for everyone in Pasadena.

In 1987, John also founded John J. Kennedy & Associates, a management consulting

firm that assisted in public relations, dispute resolution, grant writing, program development, and more. And from 1995 to 1998, John even served as Deputy Chief of Police for the Richmond, Virginia Police Department. After returning to California, John worked for Southern California Edison from 2004 to 2011 as Director of Special Projects, and from 2011 to 2013, he was the Senior Vice President for the Los Angeles Urban League, where he helped to fundraise and connect all levels of government with important policy issues affecting the local area.

John was a well-regarded leader among his constituents, peers, and elected representatives from every level of government. Prior to his election to the city council, John worked for the City of Pasadena in several capacities, including in the Finance, City Attorney, Police, and Public Works Departments. With a clear and unyielding passion for giving back to the city that raised him, John was elected to the Pasadena City Council in 2013 to represent District 3, which he served tirelessly until his death. In his nearly three terms on the city council, John served as Vice Mayor, Chair of the Public Safety Committee, served on the Finance Committee, and was one of three city representatives to represent Pasadena on the Burbank-Glendale-Pasadena Airport Authority.

John's powerful commitment to helping those around him defined his many accomplishments as an elected official. Particularly during the COVID-19 pandemic, John stepped up to assist those who needed it most. In fact, during the peak of the pandemic John secured 60,000 face masks for the City of Pasadena, ensuring that city staff and residents would not experience any potential shortage. He also fought hard to establish local grants that were crucial in helping many small businesses keep their doors open. And John even continued his annual tradition of providing families with thousands of Thanksgiving turkeys and Christmas hams at a time of crisis and need.

Despite the immense challenges of the pandemic, John was able to spearhead the creation of the Pasadena Police Oversight Commission, one of the most important accomplishments the City of Pasadena has achieved. This was an effort John had championed for six years that started with no support. And yet despite countless objections and hurdles along the way, John persevered, advocated, built coalitions, and ultimately succeeded in gaining the votes necessary to establish the commission.

John was also a longtime advocate for increasing affordable housing throughout Pasadena. In 2020, John pushed the City of Pasadena to set an ambitious goal of building 1,000 units in 1,000 days. And because of his leadership, the city broke ground on a new housing project called Pasadena Studios, which will consist of 180 all-affordable units. Outside of affordable housing efforts, John was also an ardent supporter of several other projects to improve some of Pasadena's landmark facilities and institutions, including advocating for \$20 million for Robinson Park, fighting relentlessly for \$11 million towards the Playhouse Village Park, and supporting Measure J which transferred approximately \$8 million a year to the Pasadena Unified School District.

John always recognized that Pasadena's success was built by the hard work and sacrifice of our predecessors, many of whom

were African Americans, Chinese Americans, Mexican Americans, Japanese Americans, and countless others from different backgrounds. Because he wanted to ensure that future residents of Pasadena were aware of its history, he fought hard to establish a monument that recognized this fact. And after months of hard work, along with the support of community members and organizations, the City of Pasadena erected a monument dedicated to minority residents and their incredible contributions to this city. This monument will serve to honor not only the unquantifiable contributions of these communities but will memorialize the honorable efforts of John himself.

John's love for Pasadena and Pasadenans guided his public service as he strove every day to make it better for everyone. It is certain that he did just that. It was an honor to work with him and call him a friend. I ask my colleagues to join me in commemorating the life of this extraordinary individual.

HON. RICHARD HUDSON

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. HUDSON. Madam Speaker, I rise today to honor Lieutenant General Raymond Mason for his induction into the 82nd Airborne Division's Hall of Fame on September 28, 2022.

The 82nd Airborne Division's Hall of Fame began in 2018 to honor the division's 101 years of legendary service and its members. It honors veteran paratroopers who are nominated for their service within the division, their commitment to the division's values, their contributions to their chosen field outside of their division, or any other valorous combat actions.

A brief look at Lt. Gen. Mason's career accomplishments only begins to adequately describe the importance of his military service. Serving in the 82nd Airborne Division for 15 years from 1983 through 1998, Lt. Gen. Mason commanded both Company E, 407th Supply and Services Battalion and the 407th Support Battalion. He also held numerous positions in the division where he provided important logistical support that greatly advanced operational possibilities for combat commanders. IN RECOGNITION OF MICHAEL A. JOHNSON

HON. SANFORD D. BISHOP, JR.

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. BISHOP of Georgia. Madam Speaker, I rise today to recognize a man who has served

as a distinguished community leader from a young age and has continued to enrich future generations as a Boy Scouts of America (BSA) Scoutmaster for the past 37 years, Michael A. Johnson. Recently, Michael was awarded the Book of Golden Deeds Award by the Exchange Club of Albany in May 2022 for his exemplary record of community service and improvement, volunteering, and improving the lives of young people. His retirement as Scoutmaster for St. Teresa's Catholic Church Troop 3 will be celebrated on October 9, 2022 at three o'clock p.m. at the church's school cafeteria in Albany, Georgia.

Born into an Air Force family by the union of Michael and Marcia Johnson, Michael moved to Southwest Georgia when his father was transferred to Albany in 1971. He began his Scouting journey as a young boy in the Cub Scouts and in 1971 joined as a Boy Scout in St. Teresa's Catholic Church Troup 3 where he would earn several awards and distinctions. Additionally, Michael attended high school in Albany and went on to earn a degree in Architecture from Auburn University.

After achieving the rank of Eagle Scout in 1977, Michael continued his servant leadership within the Scouting community by serving as a Troop 3 Assistant Scoutmaster from 1985 to 1990, and then as Scoutmaster in 1990, a position he still holds today. Throughout his life in Scouting, he has been revered as a steadfast mentor and positive influence on the hundreds of young people who have passed through his troop. It was important to Michael that all Scouts had the opportunity to experience trips to BSA's National Jamborees, summer camps, and other high adventures activities, and he personally made sure that funding was never an issue for them to attend. And notably, of the 194 Eagle Scouts from Troop 3, 145 achieved the rank under Michael's leadership, affirming his record of dedication to each of these young people as they completed service projects to improve their neighborhoods and the greater community.

Michael demonstrates impeccable community leadership in so many ways. He currently serves as a Leader in Boy Scouts of America's South Georgia Council, which is comprised of 28 counties in the region. As the Vice President of Properties for the South Georgia Council, he spearheaded the efforts to restore the Council's 2 Scout camps following damage sustained by three tornadoes and a hurricane in 2017 and 2018. He also leads by example by participating in many community service projects, such as Flint River Cleanups with Keep Albany-Dougherty Beautiful; food drives to support St. Clare's Neighbors in Need; Christmas tree recycling with the YMCA and the City of Albany; parking cars for Phoebe events; and supporting the Exchange Club's car shows. But his dedication goes beyond community service and mentoring youth and young professionals; Michael's strong faith in God led him to contribute greatly to the spiritual development of countless young men and women. As Scoutmaster, he initiated a program that dedicates at least one weekly meeting each month for Scouts to work toward religious awards appropriate for their age and denominations.

It is because of Michael's commitment to his Scouts and the betterment of his community that he has been recognized with numerous awards and distinctions. As a Cub Scout, he earned the Arrow of Light rank—the only Cub

Scout award that can be worn once a Scout enters Boy Scouts. While a Boy Scout, he achieved membership in the Immokalee Lodge, Order of the Arrow, and the Ad Altare Dei religious award, as well as earning the rank of Eagle Scout. As an adult, Michael received BSA's District Award of Merit; has been awarded the St. George Religious Emblem for his service to youth; was honored by the Blue Angels as one of their Hometown Heroes; the Silver Beaver; Outstanding Eagle recognition; and most recently, the Book of Golden Deeds Award, which is the most prestigious award presented by the Albany Exchange Club.

Former Congresswoman Shirley Chisolm once said that "Service is the rent that we pay for the space that we occupy here on this earth." Michael has paid his rent many times over and continues to give back to the community that raised him. As a member of the American Cancer Society, he was a Captain on the American Cancer Relay for Life Team, a member of the Albany Clean Community Commission and American Institute of Architects. He is also a member of the Knights of Columbus Lodge Number 3607 and attends St. Teresa's Catholic Church in Albany.

Michael has served countless people and accomplished many things throughout his life, but none of these could have been possible without his faith, the love and support of his wife of 36 years, Linda, and their four children—Patrick, Ivy, Hope, and Grant. Being a family rooted in community involvement, Linda Johnson was for many years an elementary school teacher and now serves as the Assistant Principal at St. Teresa's school, while both Patrick and Grant have earned the rank of Eagle Scout, following in their father's footsteps.

Madam Speaker, I ask my colleagues to join my wife, Vivian, and me, along with the more than 730,000 people of the Second Congressional District, in extending our sincerest appreciation and best wishes to Michael A. Johnson upon the occasion of his retirement from his over three decades of service to the community through Scouting, youth mentoring, and servant leadership, all of which has improved the lives of so many.

INTRODUCTION OF THE PRO- MOTING NATIONAL SERVICE AND REDUCING YOUTH UNEMPLOY- MENT ACT

HON. ELEANOR HOLMES NORTON

OF THE DISTRICT OF COLUMBIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Ms. NORTON. Madam Speaker, I rise today to introduce the Promoting National Service and Reducing Youth Unemployment Act to address one of the greatest workforce tragedies—our unemployed young people—while filling the employment gap the public sector is facing as more workers choose the private sector. Youth unemployment is harming our young people and costing our country billions of dollars each year in lost productivity and tax revenue, among other costs. Although the total unemployment rate has reached a relative low (3.7 percent), the youth unemployment rate is nearly 7.9 percent. These young people have not had a fair chance to use the high school or college education we strongly urged them to obtain.

What is particularly disappointing, especially in today's low unemployment economy, is the high unemployment rate for young people who heeded our advice to graduate from high school and college. The unemployment rate is currently 7.9 percent for people 16 to 24 years old, which is 4.2 percentage points higher than the total unemployment rate, and hundreds of thousands of them now compete for unpaid internships wherever they can find them.

By significantly adding 500,000 new members to AmeriCorps, my bill would need no new administrative structure or bureaucracy but would allow unemployed youth to earn a stipend, obtain work experience and develop a good work history to help secure future employment. The bill would significantly expand job opportunities for young people who have done what they could to get a job, but, despite their best efforts, remain unemployed. AmeriCorps participants receive a living allowance and are also eligible for an education award equal to the value of a Pell grant, school-loan forbearance, health care benefits and childcare assistance. By expanding AmeriCorps, we would reduce the number of unemployed young people, provide them work skills and experience and help understaffed state and local governments provide services.

My bill would also establish that the minimum wage for any AmeriCorps State & National member would be 200 percent of the federal poverty line, and would not allow for a decrease in that amount, as is allowed under current law. AmeriCorps members serve their country and gain skills, but we should increase the minimum wage for everybody, including national service members.

For some time, it has been clear that policies to address the most stubborn forms of unemployment need to be targeted in order to be effective. Without significant targeting, many young people will continue to face their first years as adults without jobs and with no way to acquire necessary work experience. They deserve a better start in life as adults.

I ask my colleagues to support this urgently needed, targeted assistance for our unemployed youth.

HONORING ARMY VETERAN ALBERT EMILE VAN LUCHENE ON HIS CENTENARIAN BIRTHDAY

HON. MATTHEW M. ROSENDALE, SR.

OF MONTANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. ROSENDALE. Madam Speaker, I rise today to recognize Army veteran Albert Emile Van Luchene on his 100th birthday, and honor his service in the United States Armed Forces.

Mr. Van Luchene was born in Huntley, Montana on October 3, 1922, to farmers who immigrated from Belgium to Montana in 1911. At eighteen years old during World War II, Mr. Van Luchene enlisted in the Army and experienced combat as a Communications Sergeant during the Battle of the Bulge in the Ardennes region of Belgium from December, 1944 to January, 1945. Mr. Van Luchene's valor and heroism during this time would see him later receiving the Croix de Guerre avec Etoile de Bronze medals from the French government, the European-African-Middle Eastern Theatre Service medal, the American Cam-

paign medal, the American Service medal, the Bronze Star, the American Defense Service medal, the Good Conduct medal, and the American Combat Infantry medal from the U.S. government. Most recently he was also awarded the Quilt of Valor Award.

Today, on behalf of Montana's At-Large Congressional District, I thank Mr. Van Luchene for his service to our Nation, and I warmly wish him a happy 100th birthday.

HONORING THE BILLY DE FRANK CENTER

HON. ZOE LOFGREN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Ms. LOFGREN. Madam Speaker, I rise today to commemorate the 40th anniversary of the Billy DeFrank Center. The Center has been an incubator and catalyst for emerging groups and organizations working to meet the needs of the LGBTQ+ community.

The Billy DeFrank Center opened its doors on March 1, 1981, in a two-room storefront. They turned opposition into opportunity by using funds from a failed campaign to repeal ordinances extending housing and employment protections to the gay community to finance their Center.

The Center named itself after William Price, a popular African American drag queen, Billy DeFrank. A mural on the outside of the building honors his commitment to the community and his inclusive spirit.

The Billy DeFrank Center housed several important groups, including High Tech Gays, a major force for change in the 80's and 90's. They successfully sued the Federal Government's Defense Industrial Security Clearance Office (DISCO) for discriminatory practices in issuing High Security Clearances to the LGBTQ+ community.

Sister Spirit Bookstore, a cultural hub for queer women, moved to Billy DeFrank Center's new and larger site in 1986.

Currently, the Center collaborates with various service providers and Silicon Valley Pride to build, unify, and strengthen the LGBTQ+ community in the South Bay.

IN MEMORY OF BOBBY FLYNN

HON. ANDY BARR

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. BARR. Madam Speaker, I rise to honor the life of a great American, Mr. Robert Douglas Flynn. Known to everyone as Bobby, he passed away September 22, 2022.

Bobby Flynn was born July 25, 1927, in Lexington, Kentucky. He attended Lafayette High School where he excelled in athletics, especially track and basketball. Bobby joined the United States Army and later served in the

Merchant Marines. On August 3, 1946 he married Ella Ritchey. He attended the University of Dayton on a basketball scholarship. Bobby became the first white man to play on an all-black semi-pro baseball team, the Lexington Hustlers. He was drafted by the Brooklyn Dodgers.

Bobby and Ella had 3 children, Doug, Brad, and Melanie. Bobby owned a restaurant and then pursued a career in the insurance business, where he worked for 30 years. Bobby was elected and served in the Kentucky Senate from 1968 to 1972. He served on Lexington's city council from 1988 to 1996. His love for athletics never stopped, as he enjoyed and excelled at golf, bowling, and fishing for many years. He served as a referee for football and basketball. He was the manager of press row at Rupp Arena for many years. Bobby was also involved at Keeneland, the Lexington Legends, and KHSAA games. Due to his long-time support of Lexington sports, the annual Bluegrass Sports Award is named after him. His last years were spent at Sayre Christian Village, where he received a Lifetime Achievement Award for service to the community.

Most importantly, Bobby Flynn was a devoted man of faith and a member of Grace Baptist Church. His faith in God directed his life and he modeled his faith in the way that he lived. He was always willing to help others, even at personal sacrifice.

It is my honor to recognize the life of Mr. Bobby Flynn; an outstanding citizen, a patriot, and a man of integrity who loved and served God through his service to the community of Lexington. America is great because of people like Bobby Flynn and I am forever grateful.

RECOGNIZING MALNUTRITION AWARENESS WEEK

HON. JOHN KATKO

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. KATKO. Madam Speaker, I rise today to recognize Malnutrition Awareness Week.

According to the Department of Agriculture, 33.8 million Americans struggle with food insecurity, and in my district in Central New York, nearly one in seven children are food-insecure. We have to do more to keep food on the table for American families and address the root causes of malnutrition. That's why in Congress, I have been proud to support crucial federal nutrition programs like SNAP, which millions of Americans rely on, and have been a consistent advocate for the Meals on Wheels program.

Madam Speaker, I ask that my colleagues in the House join me in recognizing Malnutrition Awareness Week and I urge continued work on efforts to combat food insecurity in America.

HONORING 82ND AIRBORNE HALL OF FAME INDUCTEE GENERAL CURTIS 'MIKE' SCAPARROTTI FOR HIS VALOROUS SERVICE AND SACRIFICE

HON. RICHARD HUDSON

OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. HUDSON. Madam Speaker, I rise today to honor General Curtis 'Mike' Scaparrotti for his induction into the 82nd Airborne Division's Hall of Fame on September 28, 2022.

The 82nd Airborne Division's Hall of Fame began in 2018 to honor the division's 101 years of legendary service and its members. It honors veteran paratroopers who are nominated for their service within the division, their commitment to the division's values, their contributions to their chosen field outside of their division, or any other valorous combat actions.

A brief look at Gen. Scaparrotti's career accomplishments only begins to adequately describe the importance of his military service. He began his service to the 82nd Airborne Division as a platoon leader, operations officer, and company commander in the 3rd Battalion of the 325th Infantry. From 1999 to 2001, he then served as commander of the 82nd Airborne's 2nd Brigade Combat Team. Perhaps most impressively, in 2008 he advanced to become the commanding general of the 82nd Airborne Division where he directed division headquarters' deployment to Eastern Afghanistan. He served in this position until 2010 and simultaneously served as commander for the Combined Joint Task Force—82 and Regional Command East. In addition to his accomplishments with the 82nd Airborne Division, he provided dutiful leadership and service in many other units and positions. A few of such contributions include his command in Operations Iraqi Freedom and Enduring Freedom in Afghanistan. In 2019, Gen. Scaparrotti retired from the military after serving as the commander of European Command.

In the words of the former commander of the 82nd Airborne Division, Gen. Erik Kurilla, "the All American Hall of Fame is about preserving our legacy and paying homage to our All American Legends." Gen. Scaparrotti's selfless service could not be more deserving of such recognition. I know I speak for all in our community and Nation in thanking Gen. Scaparrotti for his committed service and leadership in the 82nd Airborne Division and our nation's military more broadly.

Madam Speaker, please join me today in honoring and congratulating General Mike Scaparrotti for his induction to the 82nd Airborne Division's Hall of Fame.

Wednesday, September 28, 2022

Mr. TAYLOR. Madam Speaker, I rise today to recognize Habitat for Humanity of Collin County as they celebrate 30 years of invaluable housing assistance and commitment to fostering safe and healthy communities in Texas' Third District.

RECOGNIZING SECRETARY-TREASURER MARY SHULTZ AND HER HUSBAND DAVE FOR THEIR SERVICE TO THE GARLAND-TOMPKINS AMERICAN LEGION POST 399

HON. JACK BERGMAN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. BERGMAN. Madam Speaker, it is my honor to recognize Secretary-Treasurer Mary Shultz and her husband Dave for their years of service to the Garland-Tompkins American Legion Post 399. Through their exceptional leadership, steadfast devotion, and willingness to serve, the Shultz family has become an indispensable part of Michigan's First District.

After the Legion Hall burned down in 1992, Secretary-Treasurer Shultz volunteered to help in the financing and construction of the new hall. For the next 30 years, she served dutifully as the Post's Secretary-Treasurer—paying bills, tracking membership, and providing sound advice to the Post's Commanders. Her 'boots on the ground' work ethic has driven the Post's success and inspired a higher level of achievement from its members. During the Post's dinners and community outreach events, Secretary-Treasurer Shultz has worked closely with other senior leadership to ensure that every member and guest feels welcome. In all of her efforts, she has been supported by her husband Dave, who has also played a major role in the execution of the Post's tasks and projects. Serving as a sounding board to the Post's leadership, he has always provided the right advice for the occasion. This family team's collective contributions to the Post and community cannot be overstated.

Madam Speaker, on behalf of Michigan's First Congressional District, I ask you to join me in recognizing the service of Secretary-Treasurer Mary Shultz and Dave Shultz. Their actions and work have embodied the highest

**HONORING VANESSA CASTILLO
FOR HISPANIC HERITAGE MONTH**

HON. DARREN SOTO

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. SOTO. Madam Speaker, Vanessa Castillo has been a public servant for almost 24 years. The daughter of Puerto Rican parents, she was born and raised in Chicago where she began her studies and taught minority youth.

After moving to Florida in 1998, she began working for the Orange County government where she served for nine years in four departments while obtaining her Associate of Arts degree in 2001 from Valencia College. This led to a new career path serving as a clerk for the municipalities of Haines City, Lakeland-by-the-Sea, and Winter Haven, where Vanessa serves as that city's first Hispanic city clerk. While serving the citizens of Winter Haven, she received her Bachelor of Applied Science in Supervision and Management with a concentration in public administration from Polk State College.

A committed public servant, she is honored to serve citizens with integrity, transparency, fairness, honesty, and equality. She is always eager to help them understand the inner workings of government and see it in a positive light. Her greatest motivations are her parents. Her late mother, a native of Caguas, Puerto Rico, came to the U.S. in the 1970s and was a straight-A student who dreamed of becoming an accountant. Yet, she sacrificed her higher education to put her children first. Her father, also from Caguas, came to the U.S. in 1955 to seek better opportunities. A retired electrician, he dropped out of high school to help his family and later received his GED. Through their efforts, Vanessa became a strong and successful Hispanic woman who has never forgotten her roots.

**HONORING THE FIRST UNITED
METHODIST CHURCH IN ALEXANDRIA,
LOUISIANA**

HON. JULIA LETLOW

OF LOUISIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Ms. LETLOW. Madam Speaker, today I want to honor the First United Methodist Church of Alexandria and its 175 years of service to its congregation and the community.

The First United Methodist Church of Alexandria has an incredibly rich history. In 1847, they were known as the Methodist Church Episcopal South, then recognized as the Methodist Church Episcopal South, where they incorporated the introduction of Methodism in Central Louisiana by the intrepid Methodist Circuit Riders.

Initially, the congregation would come together among various venues for services. The first church building is thought to have been on Front Street, among additional locations, until most of Alexandria was burned by

Union troops as they retreated down the Red River in 1864.

The church was rebuilt in 1907, with the new sanctuary located at 630 Jackson Street. In 1927, the construction of an education building followed. Both buildings stand proudly today, having served the Methodists of Alexandria and other congregations since 1968.

In 1968, the church relocated to its current location at 2727 Jackson Street in Alexandria's historic Garden District. The church has since been expanded and updated to better serve the Congregation and the growing needs of Alexandria and the CenLa region.

Among the church community are 69 pastors, many associate pastors, staffers, and lay leaders that have guided and supported the church as it serves the community through various organizations and initiatives such as sponsoring a Boy Scout Troop, an annual arts festival, Buddy Camp, and Fostering the Community Care Closet.

Today, I come before the House to honor the First United Methodist Church of Alexandria on its 175th anniversary and applaud the service they have shown to the people of Central Louisiana.

**HONOR FLIGHT OF SOUTHERN
OREGON**

HON. CLIFF BENTZ

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. BENTZ. Madam Speaker, I rise to recognize the Korean and Vietnam War Veterans from Oregon's Second Congressional District who are visiting their memorials on the National Mall through the efforts of Honor Flight of Oregon. When I have the opportunity to meet these heroes, I am reminded of the enduring words of Douglas MacArthur, who said, "Duty, honor, country. Those three hallowed words reverently dictate what you ought to be, what you can be, what you will be." The words he spoke then, Madam Speaker, still ring true today. Those who value liberty are indebted to these heroes, for each one of them chose to defend freedom through acts of service, incredible sacrifice, and bravery on behalf of our country. It is my privilege to include in the Record their names.

The Veterans on this Honor Flight from Oregon are as follows: John Cullett, Navy; Thomas Clarke, Marine Corps; Robert Cline, Air Force; Dominic LaRosa, Navy; Harry Nystrom, Navy; Richard Traugh, Army; Virgil Wilkes, Army; Agnes Aamot, Air Force; Edward Seto, Army; Charles Arguijo, Marine Corps; Steven Baker, Navy; John Banuat, Army; Ronald Bly, Marine Corps; Robert Danielson, Air Force; Charles Elmore, Army; Gary Goulart, Navy; Melvin Griffith, Navy; Karl Hoehne, Marine Corps; Larry Larangiera, Army; Richard Otto, Navy; Kenneth Pottmeyer, Army; James Pringle, Navy; Don Stark, Air Force; Clyde Thrift, Air Force; Terry Weakley, Army; Billy Wirsch, Navy; Warren Clark, Marine Corps; Charles Elmore, Army; Helene LaRosa, Air Force; Bryan Bailey, Navy; and Nicholas Rupe, National Guard. These heroes join over 240,000 Veterans who have been honored through the Honor Flight Network of volunteers nationwide since 2005.

Madam Speaker, Ronald Reagan affirmed that, "We owe this freedom of choice and ac-

tion to those men and women in uniform who have served this nation and its interests in time of need. In particular, we are forever indebted to those who have given their lives that we might be free." As a nation, we must never take for granted the liberties we enjoy today, recognizing that these freedoms have been hard-won by the honor, commitment, and sacrifice of our Veterans. Each Member in this chamber and citizen in these United States should be humbled by the courage of the brave Veterans who voluntarily underwent dangers and successes in order to preserve our country and way of life. Colleagues, please join me in thanking these Veterans and the volunteers of Honor Flight of Oregon for their remarkable service and devotion to our great country.

**RECOGNIZING COMMANDER DAN
DYER AND HIS FAMILY FOR
THEIR SERVICE TO THE GAR-
LAND-TOMPKINS AMERICAN LE-
GION POST 399**

HON. JACK BERGMAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, September 28, 2022

Mr. BERGMAN. Madam Speaker, it is my honor to recognize Commander Dan Dyer and his family for their years of service to the Garland-Tompkins American Legion Post 399. Through their exceptional leadership, steadfast devotion, and willingness to serve, the Dyer family has become an indispensable part of Michigan's First District.

In 1966 at the age of 18, Commander Dyer was drafted into the United States Army. A member of the 1st Infantry Division, Bravo Company, he deployed to Southeast Asia where he served with honor and courage as a radio operator and combat soldier during the Vietnam War. Upon his return to the United States 13 months later, he was stationed at Fort Bragg and served as a Drill Sergeant.

With the support of his wife Cindy and his son Jeff, Commander Dyer has dutifully served the Garland-Tompkins American Legion for more than 20 years. After joining the Post in 2001, he later became Post Vice-Commander and then Post Commander in 2012. In these roles, he worked tirelessly to accomplish the many missions and tasks of the Post. However, he did not do this alone. Both his wife Cindy and his son Jeff have played integral roles in the Post's community outreach efforts—organizing dinners and fundraisers, writing cards to sick Veterans, assisting Post members with their home maintenance needs, along with much more. This family team's collective contributions to the Post and community cannot be overstated.

Madam Speaker, on behalf of Michigan's First Congressional District, I ask you to join me in recognizing the service of Commander Dan Dyer, Cindy Dyer, and Jeff Dyer. Their actions and work have embodied the highest level of patriotism and service to the citizens of their community.
