Vol. 168

WASHINGTON, TUESDAY, DECEMBER 20, 2022

No. 198—Book III

Senate

EXPLANATORY STATEMENT SUBMITTED BY MR. LEAHY, CHAIR OF THE SENATE COMMITTEE ON APPROPRIATIONS, REGARDING H.R. 2617, CONSOLIDATED APPROPRIATIONS ACT, 2023

The following is an explanation of the Consolidated Appropriations Act, 2023.

DIVISION L—TRANSPORTATION, HOUSING AND URBAN DEVELOPMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2023

CONGRESSIONAL DIRECTIVES

The joint explanatory statement accompanying this division is approved and indicates congressional intent. Unless otherwise noted, the language set forth in House Report 117-402 carries the same weight as language included in this joint explanatory statement and should be complied with unless specifically addressed to the contrary in this joint explanatory statement. While some language is repeated for emphasis, it is not intended to negate the language referred to above unless expressly provided herein. In cases where the House has directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. The Department of Transportation [DOT] and the Department of Housing and Urban Development [HUD] are directed to notify the House and Senate Committees on Appropriations seven days prior to the announcement of a new program, initiative, or authority. Any reprogramming requests must be submitted to the Committees on Appropriations no later than June 30, 2023.

For fiscal year 2023, the terms “program, project, and activity” [PPA] shall mean any item for which a dollar amount is contained in this act, House Report 117-402, or this joint explanatory statement. The table in the operating plan required by House Report 117-402 shall apply to all items for which a dollar amount is specified and to all programs for which new budget (obligational) authority is provided, as well as to discretionary grants and discretionary grant allocations.

CONGRESSIONAL BUDGET JUSTIFICATIONS

The agreement directs each agency to include within its budget justification a report on all efforts made to address the pro-

grammatic duplication identified by the annual Government Accountability Office [GAO] reports along with legal barriers preventing the agency’s ability to further reduce duplication and legislative recommendations, if applicable.

TRANSPARENCY REQUIREMENT

The agreement directs the Secretary of Transportation to follow recommendations suggested by the GAO in the GAO-19-541 report and issue a department-wide directive to promote transparency and fairness by establishing uniform procedures to be followed by the DOT in reviewing and selecting discretionary grants. The Secretary shall report to the House and Senate Committees on Appropriations within 90 days of the enactment of this act.

The agreement directs the agencies in this act to state within the text, audio, or video used for new advertising purposes, including advertising/posting on the Internet, that the advertisements are printed, published, or produced and disseminated at U.S. taxpayer expense, with exemptions for safety or conflicts with the agency’s ability to carry out their statutory authority.

The agreement directs agencies to collect data on what information Federal grant recipients currently include in the public documents announcing the grant award to determine whether recipients of funding in this act could comply with the Stevens amendment (section 505 of title V, division H of Public Law 115-141) without unreasonable burden.

AUDIT STANDARDS

For all contract actions, including awards, renewals, and amendments, Departments and agencies provided funding in this act shall require any accounting firm providing financial auditing or audit remediation services to provide a statement setting forth the details of any disciplinary proceedings occurring within 1 year of the projected performance period related to noncompliance with rules or laws applying to audit services.

DATA ACT COMPLIANCE

The agreement expects agencies to prioritize the submission of timely, accurate, quality, and complete financial and award information under existing U.S. Treasury reporting obligations in accordance with established management guidance, reporting processes, and data standards established under the requirements of the Digital Accountability and Transparency Act (Public Law 113-101).

FEDERALLY FUNDED RESEARCH

The agreement urges the Departments funded under this division to affirmatively determine and make available on a publicly accessible website a justification that Federally funded research grants or agreements promote the progress of science in the United States or will advance a national security or economic interest.

HUMAN TRAFFICKING

The agreement encourages the DOT to continue efforts to combat human trafficking through the transportation leaders against human trafficking initiative and the blue lightning initiative. The agreement encourages prioritizing grants from the Federal Transit Administration’s [FTA] 5307 program and the Federal Aviation Administration’s [FAA] airport improvement program to transit providers and airport sponsors serving areas with high rates of human trafficking. In addition, the DOT should also encourage use of best practices and recommendations from the DOT advisory committee on human trafficking.

DEPARTMENT OF TRANSPORTATION

OFFICE OF THE SECRETARY

SALARIES AND EXPENSES

The bill provides \$171,014,000 for the salaries and expenses of the Office of the Secretary [OST].

The agreement directs the Department to abide by both the will and intent of Congress in all funding and policy decisions, and to consult with the House and Senate Committees on Appropriations prior to issuing all notices of funding opportunities [NOFO].

project sponsors to use interactive and digital platforms where possible in meeting environmental review and community engagement requirements under the National Environmental Policy Act. The Secretary is directed to brief the House and Senate Committees on Appropriations within 180 days of enactment of this act on its efforts to implement the IJA and metrics needed to make the permitting process more effective, efficient, and transparent, including its efforts to reduce paperwork, improve efficiencies across modes, reduce timelines for completing environmental review, and determine whether digital platforms facilitate transparency and reduce the time needed to complete project permitting.

Consumer protections.—The agreement includes an increase of \$1,000,000 above the request for the Department's Office of Aviation Consumer Protection to increase efforts to protect aviation consumers from deceptive practices.

Office of the Under Secretary of Transportation for Policy.—The agreement supports an additional position in the Office of International Aviation for transportation economic research and sufficient resources to fill the long-term vacancies in the Policy and Aviation and International Affairs offices and in support of the regional transportation attaches. The agreement does not include additional staffing for the launch of a national equity accelerator and instead provides funding to facilitate further technical assistance efforts within the National Surface Transportation and Innovation Finance Bureau.

Position navigation and timing [PNT] technologies and global positioning system [GPS] backup.—Building on the \$15,000,000 provided in fiscal year 2022, the agreement provides another \$15,000,000 in fiscal year 2023 to enable the Secretary to support the GPS backup/complementary PNT technologies program, which will allow for the wide adoption of multiple technologies that provide the necessary GPS backup and complementary PNT as identified in 2021 in the “Complementary PNT and GPS Backup Technologies Demonstration Report” (DOT–VNTSC–20–07). The agreement expects the Department to report its findings and recommendations enabling GPS backup to the House and Senate Committees on Appropriations within 1 year of enactment of this act.

Resiliency.—The agreement directs the Department to expand its technical assistance and trainings to help state DOTs, local governments, and Tribal governments develop reliable indicators of vulnerability and actionable mitigation measures in all phases of transportation planning, asset management, project-specific planning and development, and operations toward improving resiliency and reducing lifecycle costs. The agreement also directs the Department to prioritize research and demonstrations of new and proven technologies that could make infrastructure systems more resilient and to share such technologies with other state and Federal partners as appropriate.

NATIONAL INFRASTRUCTURE INVESTMENTS (INCLUDING TRANSFER OF FUNDS)

The bill provides \$800,000,000 for local and regional project assistance grants as authorized under 49 U.S.C. 6702, to remain available until expended. Of this amount, not less than \$20,000,000 is for projects in historically disadvantaged communities or areas of persistent poverty and not less than five percent is for planning grants. Consistent with 49 U.S.C. 6702, not more than 50 percent of the funding shall be allocated to projects in rural and urbanized areas, respectively, and the Secretary may increase the Federal cost-share above 80 percent for projects in rural areas, historically disadvantaged communities, or areas of persistent poverty. The bill directs the Secretary to take such measures to ensure an equitable geographic distribution of funds, an appropriate balance in addressing the needs of rural and urban communities, including Tribal areas, and the investment in a variety of transportation modes. Further, the bill requires the Secretary to consider and award projects solely based upon the selection criteria in 49 U.S.C. 6702(d)(3) and (d)(4). The agreement reiterates to the Department and potential applicants that this competitive grant program supports a broad variety of transportation projects, including highway, bridge, or road projects; public transportation projects; passenger and freight rail projects, including high speed passenger rail; port infrastructure improvement projects; intermodal projects, including commercial, transit, and intermodal parking garages; bicycle and pedestrian projects; multimodal infrastructure projects; and infrastructure reuse projects. The agreement also reminds the Department that projects that alleviate blocked highway-rail grade crossings are eligible for funding under this heading.

Mega grants.—When awarding advance appropriations funds for the mega grants program, the agreement encourages the Secretary to consider mega grant applications that include the development of coastal and inland ports in order to facilitate an efficient supply chain.

The bill provides \$36,543,000 for planning, research, and development activities, to remain available until expended. Of this amount, \$5,436,000 is for the interagency infrastructure permitting improvement center and \$12,914,000 is for the purposes and amounts specified in the table entitled “Community Project Funding/Congressionally Directed Spending” included in this joint explanatory statement. Further, the agreement directs that the specific funding allocated in the table entitled “Community Project Funding/Congressionally Directed Spending” included in this joint explanatory statement shall not diminish or prejudice any application or geographic region to receive other discretionary grants or loans.

Autonomous vehicle research in rural communities.—The agreement directs the Department to provide another \$15,000,000 to continue this research from the unobligated balances remaining from the funds provided for the highly automated vehicle research and development program under the heading “Department of Transportation-Federal Motor Carrier Safety Administration-Motor Carrier Safety Grants” in division L of the Consolidated Appropriations Act, 2018.

Concrete research.—The agreement includes \$5,000,000 for an accredited research university of higher education, in partnership with a producer of steel in the United States, to conduct research on the properties of steel

slag materials for use in cement and concrete, furthering previous research under the Federal Highway Administration's [FHWA] highway research and development.

Non-traditional emerging technologies council [NETT].—The agreement encourages the NETT to develop and establish Department-wide processes, solutions, and best practices for identifying and managing non-traditional and emerging transportation technologies and projects, and to provide assistance to local and state governments for non-traditional emerging technologies.

The report shall include any recommendations to Congress and the DOT that would help maintain or increase commercial air service to small communities.

ADMINISTRATIVE PROVISIONS—OFFICE OF THE SECRETARY OF TRANSPORTATION

(INCLUDING RESCISSION AND TRANSFER OF FUNDS)

Section 101 prohibits funds available to the Department of Transportation from being obligated for the Office of the Secretary of Transportation to approve assessments or reimbursable agreements pertaining to funds appropriated to the operating administrations, except for activities underway on the date of enactment of this act, unless such assessments or agreements have completed the normal reprogramming process for congressional notification.

Section 102 requires the Secretary of Transportation to post on the Internet a schedule of all council on credit and finance meetings, agendas, and meeting minutes.

Section 103 allows the Department of Transportation's working capital fund to provide payments in advance to vendors for the Federal transit pass fringe benefit program, and to provide full or partial payments to, and to accept reimbursements from, Federal agencies for transit benefit distribution services.

Section 104 allows the Department of Transportation's working capital fund to use certain recoveries from the transit benefit program to improve the administration of that program.

Section 105 requires approval from the Assistant Secretary for Administration for retention or senior executive bonuses for all DOT employees.

Section 106 requires the Department of Transportation's working capital fund to transfer equipment into the working capital fund and collect replacement reserve for the

equipment equal to the useful life and estimated replacement cost of such equipment.

Section 107 requires congressional notification before the Department of Transportation provides credit assistance under the transportation infrastructure finance and innovation act [TIFIA] program.

Section 108 provides \$4,500,000 for expenses related to the building replacement of the Volpe national transportation systems center.

Section 109 extends the liquidation of valid obligations for one fiscal year for amounts made available for the national infrastructure investments program in Public Law 117-180.

Section 109A allows the Secretary to transfer funds appropriated for administrative expenses in this act and in Public Law 117-103 to the account identified in section 801 of division J of Public Law 117-58 for the national infrastructure investments.

Section 109B makes funds available to bring certain projects to completion.

FEDERAL AVIATION ADMINISTRATION

OPERATIONS

(AIRPORT AND AIRWAY TRUST FUND)

The agreement provides \$11,915,000,000 for the operations of the Federal Aviation Administration [FAA], to remain available until September 30, 2024. Of the total amount provided, \$9,993,821,000 is to be derived from the airport and airway trust fund. The act distributes funds by budget activity. The agreement does not include the realignment included in the budget request. The FAA is directed to include in its fiscal year 2023 operating plan and fiscal year 2024 budget request any carryover and how it plans to use these unobligated balances.

The agreement continues to direct the FAA to report immediately to the House and Senate Committees on Appropriations in the event resources are insufficient to operate a safe and effective air traffic control system, and appreciates the FAA's efforts to inform the committees of additional funding needs in fiscal year 2023 for controller hiring and training. The FAA has had to reduce its hiring targets for air traffic controllers [ATCs] in fiscal years 2021 and 2022 due to COVID-19, and staffing levels in certain high demand facilities remain a challenge. Funding from previous fiscal years intended for hiring new ATCs was redirected to personal safety supplies and necessary COVID-19 cleanings, in order to protect the workforce, as well as for additional costs associated with COVID-19 related leave. As a result, the agreement allows the FAA to increase the number of new air traffic controllers by up to 480 above the levels included in the 2022-2031 ATC controller workforce plan [CWP]. The FAA may use air traffic organization [ATO] contract savings and reductions in discretionary adjustments from the President's budget request that are not referenced elsewhere in this joint explanatory statement to pay for this increased controller staffing level. Funding is also included in the facilities and equipment account for increased air traffic simulator training.

As a condition of this increase, the FAA is directed to brief the House and Senate Committees on Appropriations on a quarterly basis on: (1) the status of hiring for all new controllers funded in this bill; (2) actual staffing levels, including hiring and separation levels, at all ATC facilities; and (3) flight delays at each ATC facility by category. The FAA is also working through the collaborative resource workgroup [CRWG] to improve the process for determining controller staffing targets that may be included in the annual CWP. All relevant stakeholders, as determined by the Secretary, should be a part of the overall process.

The FAA is reminded that the annual CWP serves as the basis of the House and Senate Committees on Appropriations' funding recommendations every year, should reflect the Administration's budget request, and should be submitted solely by the Administrator of the FAA. For the 2023-2032 CWP, the FAA shall provide both total and facility specific data based on the current staffing standard and may include additional data from the CRWG process for comparative purposes. The 2023-2032 CWP should also include end of fiscal year 2022 counts of certified professional controllers [CPC], CPCs in training, and developmental controllers by facility. The agreement directs the FAA to brief the House and Senate Committees on Appropriations on the methods used to determine the controller staffing targets for the 2023-2032 CWP upon its submission. The FAA is also directed to update the House and Senate Committees on Appropriations within 30 days of enactment of this act on the open recommendations from the Office of Inspector General's reports AV2019013 and AV2021035.

Advanced air mobility [AAM].—The agreement recognizes the FAA's ongoing work on AAM and encourages the FAA to provide a transparent framework and requirements to stakeholders for the safe use of AAM in the future. The agreement further recognizes that the FAA has committed to completing the proposed special Federal aviation requirement which will enable commercial operations and pilot licensing in a manner by December 31, 2024.

Air traffic control privatization.—The agreement does not support any efforts to transfer the FAA's air traffic functions to a not-for-profit, independent, private corporation.

Aircraft Certification, Safety, and Accountability Act [ACSAA].—The FAA is directed to provide all reports and briefings that are mandated by ACSAA to the House and Senate Committees on Appropriations. The agreement directs the FAA to notify the House and Senate Committees on Appropriations of any significant difference identified by the GAO report GAO-22-104480 between the U.S. and the European Union in approving new designs of commercial transport airplanes that warrant changes to the FAA's processes.

Aircraft certification.—The agreement provides not less than \$320,457,000 for aircraft certification service, and the FAA may use these funds to ensure the certification and safety of products and technologies that could reduce noise and emissions worldwide. The agreement expects the FAA to continue its efforts on training safety oversight personnel involved in the certification process through opportunities for knowledge-sharing, including demonstration projects, between the FAA and industry, and access to the FAA training for the FAA employees and other individuals performing oversight work on behalf of the agency.

Commercial space operations.—The agreement includes \$37,854,000, an increase of \$5,384,000 above the fiscal year 2022 enacted level, and includes up to 40 new positions for launch and reentry licensing activities and human spaceflight activities. The agreement directs the FAA to report within 90 days of enactment of this act to the House and Senate Committees on Appropriations on its efforts to integrate commercial space operations into the national airspace system [NAS], data on delays to commercial airline flights resulting from commercial space operations, and an evaluation of the impact of commercial space operations on the environment and communities.

Community engagement and noise.—The agreement includes the requested increase of \$1,308,000 and four new positions for community engagement to address aviation noise

issues, including funding for technical and analytical support services to help address noise issues for communities that may not have such expertise themselves. The FAA should place retiring air traffic controllers in positions that can provide the necessary technical expertise to noise impacted communities.

Contract towers.—The agreement provides not less than \$187,800,000 for the contract tower program, and directs the FAA to continue to operate all contract towers currently in the program and to expeditiously add qualified eligible airports. The agreement also directs the FAA to provide flexibility to contract towers at small-hub airports with unique terrain and winter weather challenges so that each contract tower includes a minimum of two controllers during all regularly scheduled commercial flights, where permissible under current law.

Contracting.—The agreement urges the FAA to close all open recommendations from the Office of Inspector General report ZA2020020 and directs the FAA to brief the House and Senate Committees on Appropriations on any open recommendations from the Office of the Inspector General report ZA2017098.

Cybersecurity.—The agreement includes the requested increase of \$24,926,000 and 26 new positions for cybersecurity.

FAA public hearing.—The agreement notes that the recent proposal to modify the condor 1 and condor 2 military operating areas has been withdrawn. However, the agreement remains concerned with any potential proposals to modify these military operating areas and encourages the FAA to work with its partner agencies by holding a public hearing with representatives from the relevant Federal agencies in western Maine if any such proposal is issued. Should any similar proposal be issued, the agreement directs the FAA to report to the House and Senate Committees on Appropriations prior to the issuance of a record of decision regarding any modification of the condor 1 and condor 2 military operations areas that includes a summary of any public meetings and hearings and a list of the comments, questions, and responses presented at these meetings and hearings.

Helicopter safety.—The FAA is expected to respond to and address all National Transportation Safety Board [NTSB] recommendations from the final report on the December 26, 2019 air tour helicopter crash in Kekaha, Hawaii. The FAA is also strongly urged to develop a cue-based training program for commercial air tour pilots in Hawaii that specifically addresses hazardous aspects of local weather phenomena and inflight decision-making.

The agreement also continues to provide \$5,000,000 for efforts to improve helicopter safety and directs the FAA to brief the House and Senate Committees on Appropriations within 120 days of enactment of this act on an execution strategy, including program structure, phased plan, schedule with milestones, deliverables, and barriers to completion.

Infill radar.—The agreement directs the FAA to provide a briefing the House and Senate Committees on Appropriations on efforts to certify infill radar for use in the NAS to mitigate wind farm interference on the North American aerospace defense command's radars and the FAA ATC radars as soon as possible.

Mitigating radar gaps for high-traffic airports.—The FAA shall brief the House and Senate Committees on Appropriations on the feasibility and challenges of increasing staffing and/or providing terminal radar approach control facility services at airports in the mountain west where fire management air

traffic contributes to airspace congestion and where inadequate radar coverage is limiting airport capacity for commercial, military, and fire management air traffic.

Radio altimeters and 5G.—The FAA is directed to immediately notify Congress of any anticipated disruptions to the aviation system due to further implementation of 5G and to continue its collaboration with other Federal agencies and industry stakeholders to mitigate disruptions caused by the 5G rollout in order to maintain a safe and efficient national airspace as additional telecommunications companies deploy 5G. These efforts should be achieved in a mutually beneficial and reasonable timeline that accounts for unpredictable contingencies.

The agreement directs the FAA to continue altimeter research and support voluntary forums with industry partners in order to establish new performance standards that consider the future of 5G, 6G, 7G, and beyond. The agreement directs the FAA to brief the House and Senate Committees on Appropriations on its assessment of current radio altimeter technologies, including filters and other redesigns to reduce their susceptibility to potential 5G interference, and the extent to which such technologies can accommodate all future desired uses of C-band spectrum adjacent to the radar altimeter band. The FAA's assessment should be based on feedback from airlines, airports, the telecommunications industry, and radio altimeter manufacturers on the limits of current technologies, the need for future research, the extent to which industry is already investing in such research, and any research and development activities that the FAA can conduct and/or sponsor to prepare for 6G, 7G, and beyond.

Small unmanned aircraft systems [UAS] procurement.—For any acquisition of small UAS using funds provided by the FAA, including those to Federal grant recipients, the FAA should require certification of review of the Department of Homeland Security [DHS] industry alert, and any subsequent and relevant UAS guidance, and completion of a risk assessment that considers the proposed use of the foreign-made UAS. The agreement directs the FAA to regularly brief the House and Senate Committees on Appropriations, on an as needed basis, on any security risks or challenges identified by either agency from any small UAS or UAS components.

Spaceports.—Not more than 180 days after the submission of the report to Congress required by section 580 of the FAA Authorization Act of 2018 on national spaceports policy, the FAA shall submit an assessment to the House and Senate Committees on Appropriations of the effectiveness and suitability of existing infrastructure grant programs at the DOT and other Federal agencies that could be used for spaceports in a manner consistent with the section 580 report.

Special use airspace.—The agreement directs the FAA to continue its efforts to improve airspace sharing with the Department of Defense [DOD] for special use airspace.

Strengthen aviation safety oversight.—The agreement provides the requested increase of \$11,397,000 and 110 new positions to help the FAA keep pace with a growing number of safety issues, including oversight of air carrier aircraft maintenance, general aviation repair facilities, and contract towers, as well as the growing role of the FAA's medical officers.

Technical operations.—Within the air traffic organization, the agreement includes the requested level of funding for technical operations to ensure a sufficient number of personnel with the appropriate skill mix to keep facilities and equipment in working order.

UAS beyond visual line of sight [BVLOS].—Instead of the requirement in House Report

117–402 to provide a BVLOS rulemaking plan no later than October 1, 2022, the agreement directs the FAA to engage with UAS stakeholders to inform them of its proposed UAS BVLOS rulemaking schedule, the challenges associated with this rulemaking, and any differences between the proposed rulemaking and the BVLOS aviation rulemaking committee's [ARC's] recommendations. The agreement also directs the FAA to brief the House and Senate Committees on Appropriations within 60 days of enactment of this act on: (1) its plans to align policies that do not require rulemaking, including issuance of waivers, with the proposals recommended in the BVLOS ARC report; and (2) its plans to issue guidance providing accelerated pathways to enable low-altitude operations under existing rules, such as standard scenarios or pre-defined risk assessments.

UAS test sites.—The agreement includes \$6,000,000 for providing matching funds to commercial entities that contract with an FAA-designated UAS test site.

Unfinished rulemaking.—The agreement directs the FAA to brief the House and Senate Committees on Appropriations on the unfinished rulemaking related to the safety of foreign repair stations and the rulemaking required by section 102 of the ACSAA within 30 days of enactment of this act. The rulemaking required by section 102 of the ACSAA is expected to be scalable and flexible for operations of various sizes, and expected to include specifics on how it can be implemented.

Workforce diversity.—Of the amount provided for staff offices, the agreement includes not less than \$5,000,000 for the minority serving institutions internship program, which the FAA should continue to grow and manage in a cost-effective manner.

FACILITIES AND EQUIPMENT

(AIRPORT AND AIRWAY TRUST FUND)

Terminal air traffic control facilities—replace.—The agreement directs the FAA to continue working to address aging and antiquated air traffic control facilities that it leases from airport authorities to ensure they are fully compliant with current building codes consistent with being occupied by air traffic controllers. The agreement directs the FAA to consider creative financing options and to include consideration of long-term cost recovery leases, when conditions warrant the construction of new air traffic control towers. Funding above the budget request is for the purposes and amounts specified in the table entitled “Community Project Funding/Congressionally Directed Spending” [CPFF/CDS] included in this joint explanatory statement. CPFF/CDS funding shall not diminish or prejudice the application of a specific airport or geographic region to receive other discretionary grants or multi-year letters of intent.

Standard terminal automation replacement system [STARS].—The FAA may consider including funding for STARS enhancements 2 and multi-platform ATC re-hosting solutions display platform advancements upon conducting an investment analysis to determine the most optimal solution.

The agreement includes \$10,000,000 for instrument landing systems and \$10,000,000 for precision approach path indicators. The FAA shall train existing technical staff and hire additional staff if necessary to install these critical systems. The FAA may use established contractors to augment FAA resources if necessary. The FAA should also refresh the software and technology of NavAids control and monitoring systems, which provide real time, mission critical capabilities, and enhance situational awareness, safety, and efficiency in managing air traffic.

Military operations areas.—Radar and future NextGen systems capable of controlling airspace down to 500 feet above ground level enhances aviation safety in military operations areas that overlay public use airports. The agreement recommends that the FAA utilize existing resources to promptly pro-

vide radar or NextGen capability in areas with more than 5,000 operations per year.

Air/ground communications infrastructure.—The agreement provides \$1,600,000 above the budget request for infrastructure in mountainous terrain that will enable continuous radio communication between the pilots of low-flying tour flights and ground support personnel, as well as infrastructure improvements needed to improve coverage in mountainous terrain.

Weather camera program.—The FAA is expected to expeditiously install all weather cameras previously funded for Hawaii, provide access to the real-time imagery from these weather cameras to the general public, and equip its flight service station specialists with the technical capabilities and training to provide verbal preflight and en route briefings.

Aerospace medicine safety information system [AMSIS].—The agreement does not include any funding for the AMSIS. The agreement directs the FAA to reprogram up to \$9,300,000 for distance learning for the tower training simulators from the unobligated balances previously appropriated under this heading for AMSIS.

Distance learning.—The agreement provides \$17,200,000 for distance learning, of which \$15,400,000 is for tower simulation systems, \$1,000,000 is for distance learning, and \$800,000 is for the safety and technical education platform.

In addition, the agreement directs the MARAD to continue to engage with U.S. commercial vessel operators on the every mariner builds a respectful culture [EMBARC] SASH prevention standards in order to enroll additional vessel operators in the sea year program and address impediments to participation. Further, the MARAD is directed to report to the House and Senate Committees on Appropriations quarterly in writing on the ways in which it is conducting such outreach and engagement in order to improve EMBARC program carrier enrollment. The agreement notes that the DOT established concurrent criminal jurisdiction over the USMMA campus, as required by Public Law 115-232 and Public Law 116-94, in October 2022 and therefore the agreement does not include the reporting requirement on this matter in House Report 117-402.

The agreement reiterates the importance of the USMMA conducting surveys on SASH every other year, as required by law, as these surveys and accompanying analysis are important tools in determining the effectiveness of the policies, training, and procedures the USMMA and the MARAD have put in place to address SASH. The agreement directs the USMMA to expeditiously complete the 2021-2022 academic year survey on SASH, and transmit the report to Congress.

The Department shall also conduct routine assessments of the satellite phone functionality to ensure cadets serving in sea year have the means for direct 24/7 communication with the USMMA.

USMMA facility maintenance.—The agreement notes that the USMMA and the MARAD recently executed a comprehensive facilities and systems maintenance contract for the USMMA. The agreement expects such contract to result in efficient and timely routine maintenance of the USMMA campus. Instead of the briefing required in House Report 117-402, the MARAD is directed to brief the House and Senate Committees on Appropriations on such contract and the subsequent transition to such contract within 30 days of enactment of this act. In addition, the MARAD shall maintain a written list of the status of all essential and recurring maintenance and repair needs and activities,

annual estimates of capital resources needed to replace and rehabilitate major operating systems that are not anticipated to be recapitalized under projects within the capital improvement program, the date by which such activities should be completed, and the date by which they were completed. The MARAD shall transmit such list in writing and provide a briefing to the House and Senate Committees on Appropriations each quarter.

USMMA capital improvements.—The agreement includes \$31,921,000 for the USMMA's capital improvement program [CIP], which combined with the \$51,111,573 in available unobligated prior year funding will result in a total of \$83,032,573 for CIP projects in fiscal year 2023. Of the CIP funds previously allocated to specific facilities, such terms and conditions no longer apply and any such funds are available for projects identified in the CIP. The agreement continues to direct the MARAD to expand and improve the capacity of the USMMA staff in order to facilitate the proper management and oversight of CIP projects, and directs the Department to consider using design build contracts in order to expedite the renovation of academic facilities and related pier infrastructure this fiscal year. The agreement reiterates the expectation that the MARAD complete CIP projects on an annual basis.

The agreement notes with concern the state of the USMMA's facilities and the lack of progress by the USMMA, the MARAD, and the Department on renovating or rehabilitating facilities, which has a direct impact on the quality of the education provided to students and the ability to attract new entrants to serve as future leaders in the United States Merchant Marine. The fiscal year 2019 CIP, completed on December 18, 2019, is the most recent annual report, and the agreement notes with disappointment that despite direction in Senate Report 116-109, the Consolidated Appropriations Act, 2021, and the Consolidated Appropriations Act, 2022, to provide such annual reports on the status of the CIP, an updated CIP has not been completed. The agreement acknowledges that the Department and the MARAD are in the process of finalizing the fiscal year 2022 CIP, and directs the Department to issue the overdue fiscal year 2022 CIP within 30 days of enactment of this act. A current and up-to-date CIP annual report is critical to providing safe learning and living environments for students, and for utilizing the resources provided for the USMMA CIP under this heading in this and prior fiscal years.

Further, the USMMA, the MARAD, and the Department shall continue to provide quarterly briefings to the House and Senate Committees on Appropriations on the status of all short- and long-term CIP projects and provide an annual report on all CIP projects in the same manner and context as in previous fiscal years. In addition to planning for the renovation or replacement of academic facilities, the CIP for fiscal year 2023 should identify the long-term goals and sequencing of dormitory building renovations or replacements.

Domestic fuel transportation capabilities.—The agreement reiterates the importance of the Jones Act. Several reports on the Jones Act have been conducted by the GAO, and the DOD, in consultation with DOT, recently completed an analysis on the current U.S.-flagged fuel tanker vessel capacity; therefore, the agreement does not include the review required in House Report 117-402.

Secure composite shipping containers.—The agreement directs the MARAD to collaborate with the Federal Maritime Commission, DOD, and DHS to support the transition of secure composite shipping containers into wider use to provide increased security, shipment visibility, and cargo facilitation. The

agreement directs the MARAD to use the existing America's marine highway program and the port infrastructure development program to promote and provide funding for secure composite shipping containers, if available and if eligible.

STATE MARITIME ACADEMY OPERATIONS

The bill provides \$120,700,000 for state maritime academy [SMA] operations. The bill provides the following funding levels for specific activities within this account:

Training ships	\$30,500,000
[Training vessel sharing]	[not more than \$8,000,000]
National security multi-mission vessel program	75,000,000
Student incentive program	2,400,000
Fuel assistance payments	6,800,000
Direct payments for SMAs	6,000,000

National security multi-mission vessel [NSMV].—The agreement includes resources to assist SMAs in making shore-side infrastructure improvements to support the delivery and operation of the NSMVs. Shore-side infrastructure shall only include NSMV-specific improvements required by the MARAD to safely moor the vessels and other improvements that are necessary for SMAs to receive the NSMVs. Specifically, shore-side infrastructure shall include pier construction and upgrades directly related to the mooring of the vessel, but not for general maintenance that would otherwise be necessary absent receiving an NSMV, and is inclusive of associated utility upgrades directly related to mooring and operating the vessel, including but not limited to electricity and steam. The agreement directs the MARAD to implement a Federal-state cost-share of not less than 80/20 for shore-side infrastructure improvements. In the event that there are extenuating circumstances that an SMA is unable to meet an 80/20 Federal-state cost-share requirement, the MARAD may determine whether a different Federal-state cost-share requirement is appropriate, necessary, and executable. In addition, the agreement directs the MARAD to sequence the funding distributed to SMAs for shore-side infrastructure improvements based on the vessel delivery schedule. The agreement applies the aforementioned direction on shore-side infrastructure improvements to funding provided for shore-side infrastructure improvements under this heading in fiscal year 2022. Further, the MARAD shall notify the House and Senate Committees on Appropriations prior to obligating any funds for shore-side infrastructure improvements, and such notification shall include the amount of funding provided by non-Federal sources for such infrastructure.

The agreement directs the MARAD to conduct vigorous oversight of the vessel construction manager, as well as the shipyard, to ensure the NSMVs are delivered on budget and on time. The MARAD is directed to continue to provide briefings to the House and Senate Committees on Appropriations on the status of the NSMV program on a quarterly basis, including detailed reporting on the SMAs shore-side infrastructure improvements needed to ensure successful delivery and operation of the NSMVs, and to provide immediate notification of any risks to the construction schedule or cost.

Home port designation.—The agreement notes that the MARAD has committed to continuing the longstanding practice of designating the home port of NSMVs as the location of the SMA which they serve. The agreement directs the MARAD to continue to work with the House and Senate Committees on Appropriations and the SMAs to ensure successful delivery and full implementation of the NSMVs.

ASSISTANCE TO SMALL SHIPYARDS

The bill provides \$20,000,000 for the small shipyard grant program, to remain available until expended.

SHIP DISPOSAL

(INCLUDING RESCISSION OF FUNDS)

The bill provides \$6,000,000 for the ship disposal program, to remain available until expended, and rescinds \$12,000,000 in unobligated amounts made available in prior fiscal years.

National maritime heritage grants program.—With the increasing cost of scrap steel, the MARAD is expected to ensure it is able to secure the highest price possible from vessels recycled through the ship disposal program. The funds received from these sales are deposited into the vessel operations revolving fund [VORF], and the MARAD distributes funding from the VORF according to the authorized purposes and allocations under 54 U.S.C. 308704, including to the national maritime heritage grants program. The agreement supports the use of funding from the VORF for the national maritime heritage grants program and directs the MARAD to continue to work with the National Park Service to ensure that the portion of the VORF allocated for the national maritime heritage grants program under 54 U.S.C. 308704(b)(1)(A) is distributed in a timely fashion.

MARITIME GUARANTEED LOAN (TITLE XI) PROGRAM ACCOUNT

(INCLUDING TRANSFER OF FUNDS)

The bill provides \$3,000,000 for the administrative expenses of the Title XI program and directs that these funds be transferred to the MARAD's operations and training account.

PORT INFRASTRUCTURE DEVELOPMENT PROGRAM

The bill provides \$212,203,512 for the port infrastructure development program, to remain available until expended.

Set asides and prioritization.—The agreement directs the MARAD to set aside 25 percent of the funds for small inland river and coastal ports and terminals, as required by 46 U.S.C. 54301. The agreement directs the MARAD to allow Federal cost shares above 80 percent for projects in rural areas, as permitted by 46 U.S.C. 54301.

ADMINISTRATIVE PROVISION—MARITIME ADMINISTRATION

Section 170 authorizes the MARAD to furnish utilities and services and to make necessary repairs in connection with any lease, contract, or occupancy involving government property under control of the MARAD and allows payments received to be credited to the Treasury and to remain available until expended.

PIPELINE AND HAZARDOUS MATERIALS SAFETY ADMINISTRATION

OPERATIONAL EXPENSES

The bill provides \$29,936,000 for the necessary operational expenses of the PHMSA, of which \$4,500,000 shall remain available until September 30, 2025. The agreement specifies that \$2,000,000 shall be for pipeline safety information grants to communities as authorized by 49 U.S.C. 60130 and \$2,500,000 shall be for emergency response grants as authorized by 49 U.S.C. 60125(b).

HAZARDOUS MATERIALS SAFETY

The bill provides \$70,743,000 for the PHMSA's hazardous materials safety functions, of which \$12,070,000 shall remain available until September 30, 2025. Funds made available until September 30, 2025, are for long-term research and development contracts, grants, and, in a more limited scope, contract safety programs.

The agreement specifies that \$1,000,000 shall be for community safety grants as au-

thorized by 49 U.S.C. 5107(i), up to \$2,500,000 shall be for the state hazardous materials safety inspection program, and \$1,000,000 shall be for the Assistance for Local Emergency Response Training [ALERT] grants. The agreement directs the PHMSA to prioritize ALERT grants for training in rural areas.

Staffing and outreach activities.—The agreement provides funding for a total of 213 full-time positions [FTPs] to support the Office of Hazardous Materials Safety, which includes five new FTPs to expand the hazardous materials safety assistance team, enhance the accident investigation program, and improve the safe transportation of emerging energy sources. The PHMSA may determine how to prioritize the new FTPs among these three activities.

PIPELINE SAFETY

(PIPELINE SAFETY FUND)

(OIL SPILL LIABILITY TRUST FUND)

The bill provides \$190,385,000 for the PHMSA's pipeline safety program, to remain available until September 30, 2025. Of that amount, \$29,000,000 is derived from the oil spill liability trust fund, \$153,985,000 is derived from the pipeline safety fund, \$400,000 is derived from fees collected under 49 U.S.C. 60303 and deposited in the liquefied natural gas siting account, and \$7,000,000 is derived from fees collected under 49 U.S.C. 60302 and deposited in the underground natural gas storage facility safety account.

The agreement provides the following levels for specific activities within this account:

Operations	\$85,864,000
Contract safety programs	23,963,000
Research and development	12,500,000
State pipeline safety grants	60,500,000
Underground natural gas storage facility safety grants	5,000,000
One-call state grants	1,058,000
State damage prevention grants	1,500,000

Staffing and hiring plans.—The agreement provides up to \$2,000,000 for hiring and retention incentives to recruit and retain highly qualified inspectors and engineers.

Enhanced positive response [EPR].—The agreement encourages the PHMSA to advance broader adoption of EPR.

Liquefied natural gas [LNG] COE.—The agreement notes that the PHMSA submitted the report required under section 111(c) of the Protecting Our Infrastructure of Pipelines and Enhancing Safety Act of 2020 (PIPES Act, division R of Public Law 116-260) to Congress, and provides up to \$3,400,000 for PHMSA to establish the national center of excellence for LNG safety [Center] as authorized in section 111(b) of the PIPES Act. The agreement directs that the use of such funds shall include authorized activities that would improve the safety of LNG facilities, including operations and management, and shall not take resources away from other safety critical activities within this account. Further, in establishing the Center, the PHMSA is directed to follow the requirements in section 111(e)(2), which the agreement notes aligns with "Model 3" in the report submitted to Congress. The PHMSA is also directed to ensure that resources from the existing training and qualifications center will not be relocated or duplicated at the new Center.

EMERGENCY PREPAREDNESS GRANTS

(LIMITATION ON OBLIGATIONS)

(EMERGENCY PREPAREDNESS FUND)

The bill provides an obligation limitation of \$28,318,000 for emergency preparedness grants, to remain available until September 30, 2025.

While the House and Senate Committees on Appropriations support increased funding

for emergency preparedness grants as authorized by section 26001 of the IIJA, the agreement does not include this increase because it is not supported by the level of fees permitted under 49 U.S.C. 5108(g). The agreement directs the PHMSA to work with the authorizing committees and relevant stakeholders to develop a proposal for increased fee levels that would support the authorized level of spending under section 26001 of the IIJA.

The agreement encourages the PHMSA to train public sector emergency response personnel in communities on or near rail lines, which transport a significant volume of high-risk energy commodities or toxic inhalation hazards.

OFFICE OF INSPECTOR GENERAL SALARIES AND EXPENSES

Section 185 prohibits the DOT from using funds to make a loan, loan guarantee, line of credit, letter of intent, Federally funded cooperative agreement, full funding grant agreement, or discretionary grant unless the DOT gives a 3-day advance notice to the House and Senate Committees on Appropriations. The provision requires the DOT to provide a comprehensive list of all such loans, loan guarantees, lines of credit, letters of intent, Federally funded cooperative agreements, full funding grant agreements, and discretionary grants that will be announced with a 3-day advance notice to the House and Senate Committees on Appropriations. The provision also requires concurrent notice of any "quick release" of funds from the FHWA's emergency relief program, and prohibits notifications from involving funds not available for obligation.

TITLE II

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

MANAGEMENT AND ADMINISTRATION

Energy codes.—The agreement urges the Department to work in partnership with USDA to expeditiously update the standards as required by law, which will reduce operating expenses for HUD-owned and subsidized properties.

Eviction data collection.—The agreement directs the GAO to examine the barriers that exist to collecting, digitizing, and standardizing data from the beginning to the end of the eviction process, such as pre-eviction information; the renter's race or ethnicity, age and gender, as well as the composition of the household and landlord data; and the extent to which such information could inform future funding and policy decisions. The agreement directs the GAO to brief the House and Senate Committees on Appropriations on its preliminary findings within 180 days of enactment of this act and to provide a full report upon completion.

Connections to other Federal, state, and local services.—The agreement urges HUD to use its technical assistance resources to increase the knowledge and capacity of HUD grantees to connect program participants to local opportunities and other government services, where appropriate.

Buying preference.—The agreement urges the Department to comply with the Buy America requirements of the IIJA.

Regional approaches to affordable housing.—The agreement encourages the Department to make explicit in competitions for Federal funding that regional councils, councils of government, metropolitan planning organizations, and multi-jurisdictional consortiums may apply whenever these entities are eligible applicants. Furthermore, the agreement encourages the Department to actively seek opportunities for these entities to serve as lead applicants and grantees in order to promote and expand local, state, and regional collaboration.

Encouraging more affordable housing.—The agreement encourages HUD to continue research to identify opportunities to increase efficiency in housing manufacturing. The agreement recognizes that off-site construction, including modular and panelized, can be a promising means of increasing the supply of affordable housing and encourages HUD to support consensus-based off-site construction standards.

EXECUTIVE OFFICES

The agreement includes \$18,500,000 for the salaries and expenses for executive offices, available until September 30, 2024. The agreement directs HUD to outline how budgetary resources will be allocated among the seven offices funded under this heading as part of the Department's operating plan for fiscal year 2023. The agreement directs the Department to provide updates to the House and Senate Committees on Appropriations at key milestones on its progress to collect information on the extent to which public housing agencies [PHAs] and owners have adopted emergency transfer policies since the publication of the Department's model emergency transfer plan, and the effectiveness of those emergency transfer policies in ensuring survivors have access to safe housing.

HUD staffing assessment.—The agreement amends direction in House Report 117-402 regarding a GAO evaluation of staff capacity and instead encourages HUD to continue to assess staffing and training needs in the field, regional, and headquarters offices and brief the House and Senate Committees on Appropriations on changing needs.

Expired balances report.—The agreement directs HUD to submit a report on expired balances within 90 days of the end of each fiscal year.

Office of the Chief Financial Officer [OCFO].—The agreement does not provide dedicated funding for the financial transformation initiative as the appropriation for the OCFO is sufficient for the continuation of these activities in fiscal year 2023. However, the agreement directs HUD to detail any contract expenses for the financial transformation in its operating plans and congressional justifications and expects transparent communication with the House and Senate Committees on Appropriations on this effort. The agreement does not approve the proposed reorganizations to create a Customer Experience Division within the Assistant Chief Financial Officer [ACFO] for Budget, the creation of an Office of Chief Risk Officer, or moving the Grants Management and Oversight Division from the ACFO for Systems to the ACFO for Budget.

The agreement also directs the Department to prioritize the hiring of up to nine additional positions to support the new preservation and reinvestment for community enhancement and "Yes in My Backyard" programs. The agreement approves the Department's proposed reorganizations to move the Technical Assistance Division into the Office of Policy Development and Research [PD&R], elevate the Field Operations Division under its own Deputy Assistant Secretary, and realign the offices within the Deputy Assistant Secretary for Operations. While the agreement does not approve moving the oversight of the section 4 or rural capacity building programs to the Deputy Assistant Secretary for Economic Development, or moving the formula allocation process to PD&R, it does approve the remaining organizational changes identified on page 45-12 of the fiscal year 2023 congressional budget justification.

Office of Housing.—The agreement directs the Department to provide updates to the House and Senate Committees on Appropriations within 90 days of enactment of this act on any current backlog in multifamily underwriting.

Office of Policy Development and Research.—The agreement supports the proposed realignment of the Technical Assistance Division from CPD to PD&R and approves the other alignments requested within PD&R.

WORKING CAPITAL FUND

(INCLUDING TRANSFER OF FUNDS)

For the working capital fund [WCF], the agreement permits only centralized activities and funds from this account to include Federal shared services for financial management, procurement, travel, relocation, human resources (including the treasury executive institute contract), printing, records management, space renovation, furniture, and supply services. The agreement does not expand the authority, as proposed in the budget request, to include information technology customer devices, financial management services full cost recovery, human resources platform licensing or any other activity not expressly permitted in this act. The agreement expects that, prior to exercising discretion to centrally fund an activity, the Secretary shall have established transparent and reliable unit cost accounting for the offices and agencies of the Department that use the activity, and shall have adequately trained staff within each affected office and agency on resource planning and accounting processes associated with the centralization of funds to this ac-

count. The agreement also requires HUD to include in its annual operating plan a detailed outline of its plans for transferring budgetary resources to the WCF in fiscal year 2023.

PUBLIC AND INDIAN HOUSING

TENANT-BASED RENTAL ASSISTANCE

The agreement provides a combined total of \$30,253,112,000, to be available until expended, for all tenant-based section 8 activities: \$27,599,532,000 under the tenant-based rental assistance account in this title and an additional \$2,653,580,000, designated as an emergency requirement, in division N of this act.

Including the amounts provided in division N, the agreement includes a total of \$26,402,000,000 for the renewal of tenant-based vouchers. This amount includes funding to renew veteran affairs supportive housing [VASH] vouchers funded in prior years and also includes up to \$7,500,000 for Tribal HUD-VASH renewals.

The agreement provides \$50,000,000 in new incremental vouchers to expand affordable housing opportunities to low-income people (including families and individuals experiencing homelessness and survivors of domestic violence), \$50,000,000 for new incremental HUD-VASH vouchers, \$30,000,000 for new incremental family unification vouchers, and \$337,000,000 for tenant protection vouchers [TPVs].

The agreement does not require the report on tenant organizing in House Report 117-402.

Administrative fees.—The agreement directs HUD to consult with PHAs, advocates, and researchers on ways to make the administrative fee formula more relevant to what it costs to administer a high-performing and efficient voucher program today, and report on the findings and recommendations to the House and Senate Committees on Appropriations within 180 days of enactment of this act.

HUD-VASH.—The agreement directs HUD to continue to coordinate with the Department of Veterans Affairs [VA] to establish pathways that would allow for temporary transitional case management in areas that PHAs have vouchers available and accompanied with VA case management resources but are underutilized due to a lack of referrals from the VA, to ensure no veteran goes unserved where housing and services remain available. The agreement reminds HUD of direction to consult with the VA to enable PHAs to be designated entities to screen for veteran eligibility and make referrals for HUD-VASH and directs HUD to issue guidance related to approving a PHA to be a designated service provider no later than March 31, 2023. The agreement encourages the Department to reallocate HUD-VASH voucher assistance to PHAs with an identified need and directs HUD to expeditiously provide the report directed by the fiscal years 2021 and 2022 joint explanatory statements on methods to reallocate unused HUD-VASH vouchers, which shall include a determination of the feasibility of issuing a new solicitation of participation for unallocated HUD-VASH vouchers.

Incremental vouchers.—The agreement provides \$50,000,000 for new incremental vouchers. In awarding these funds, the agreement directs HUD to support an initial term of 12 months. The agreement directs HUD to incorporate key lessons learned to date from research, as well as its execution of the emergency housing vouchers provided by the American Rescue Plan Act of 2021 (Public Law 117-2).

Special purpose vouchers.—The agreement directs the Department to work with the authorizing committees to address the underlying statutory obstacles that populations served by special purpose vouchers encounter in finding units available to lease within normal timeframes of larger voucher programs.

VAWA report.—In order to further improve upon the utilization of emergency transfers

for survivors of domestic violence, dating violence, sexual assault, or stalking, the agreement directs the GAO to identify and study PHAs with effective transfer plans and report on their process for creating and implementing their plans, weaknesses and strengths of the emergency transfer plans, and any best practices that could be adopted by other PHAs. The agreement also directs the GAO to brief the House and Senate Committees on Appropriations on the proposed scope and methodology of this report within 90 days of enactment of this act and submit the final report to the Committees upon completion.

Project-based vouchers.—The agreement directs the Department to review options for addressing challenges with operating existing and future affordable housing projects that serve special populations, including people experiencing homelessness and individuals discharged from hospitals and other facilities, due to a lack of project-based rental assistance. This review shall include, but not be limited to, the feasibility of relaxing the percentage cap on project-based vouchers, in order to continue providing affordable housing to special needs populations who would otherwise face barriers in finding suitable housing in the private rental market. The agreement also directs the Department to improve its collection of data on project-based vouchers, including their utilization, and to provide a briefing to the House and Senate Committees on Appropriations on what data gaps exist and the steps HUD is taking to remedy those gaps within 120 days of enactment of this act.

Housing choice voucher data dashboard.—To better inform the identification of housing choice voucher program challenges and where additional policy and research considerations may be beneficial, the agreement urges HUD to add PHA and special purpose voucher-level data points on voucher success rates and to identify the amount of reserves that HUD determines are in excess of prudent program management.

HOUSING CERTIFICATE FUND (INCLUDING RESCISSIONS)

The bill includes language allowing unobligated balances in the housing certificate fund to be used for the renewal of or amendments to section 8 project-based contracts and for performance-based contract administrators.

PUBLIC HOUSING FUND

The agreement provides \$8,514,000,000 for the public housing fund to remain available until September 30, 2026.

Within the total, the agreement provides \$5,109,000,000 for the public housing operating formula for 2023 payments; \$25,000,000 for need-based allocations to PHAs that experience or are at risk of financial shortfalls; \$3,200,000,000 for allocations to PHAs through the capital fund formula; \$50,000,000 for emergency capital needs, of which \$20,000,000 shall be for PHAs under receivership or under the control of a Federal monitor, and of which not less than \$10,000,000 is for safety and security measures; \$65,000,000 for competitive grants to public housing agencies to evaluate and reduce residential health hazards, including lead-based paint, carbon monoxide, mold, radon, and fire safety, of which not less than \$25,000,000 is specifically for lead hazards; \$15,000,000 for administrative and judicial receiverships; and \$50,000,000 for public housing financial and physical assessment activities.

Operating formula grants.—The funding provided for operating formula grants includes funding for resident participation activities, including tenant organizing activities, capacity building and technical assistance, and access to community services.

Quality assurance of physical inspections.—The agreement directs the Department to identify how funds provided for the Real Estate Assessment Center [REAC], including any carryover balances, will be utilized during fiscal year 2023 as part of the operating plan required by section 405 of this act. The agreement also directs HUD to brief the House and Senate Committees on Appropriations during fiscal year 2023 at key milestones in implementation and rulemaking related to the national standards for the physical inspection of real estate [NSPIRE] inspection model, and include in such briefings details on how the open GAO recommendations are being addressed and HUD's progress in addressing its inspection backlog.

Shortfall funding.—The agreement directs that the allocation of financial shortfall funds shall first be prioritized to PHAs with 249 or fewer public housing units that are determined to be experiencing shortfalls and have less than one month of reserves before allocating funds to larger PHAs.

Administrative and judicial receiverships.—The agreement directs HUD to report quarterly to the House and Senate Committees on Appropriations on the status of PHAs under receivership, including factors that informed the receivership such as physical and financial scores, deficiencies with internal controls, and other information demonstrating each PHA's inability to effectively oversee their business operations. This report shall also include an identification of funding resources and technical assistance provided to each PHA for the purpose of transitioning out of receivership and how HUD will address deficiencies in an effort to return the respective PHAs to local control.

Recycling and zero waste.—The agreement does not include funding for the recycling and zero waste pilot program included in House Report 117-402. The agreement recognizes that HUD has submitted the overdue report on HUD's evaluation of methods of supporting and expanding recycling and zero waste programs in public housing, and therefore does not include the related direction in House Report 117-402.

Emergency and safety and security grants.—Within the amounts provided for emergency capital needs, the agreement directs the Department to fund eligible safety and security projects as quickly as possible, and directs HUD to award the funds for PHAs under receivership or under the control of a Federal monitor based on need and not be subject to a cap on individual grant award amounts.

Residential health hazards.—The agreement prohibits the Department from deeming any PHA, including those that are troubled, substandard, or are under the direction of a monitor or a court-appointed receiver, to be ineligible to apply for or receive funding, provided that the PHA is in compliance with any current memorandum of agreement or recovery agreements. The agreement also prohibits HUD from deeming any PHA as ineligible to apply for or receive funding that has a violation or violations of the lead safe housing or lead disclosure rules and that present documentation establishing it is working in good faith to resolve such findings by meeting any deadlines it was required to reach under the terms of a settlement agreement, consent decree, voluntary agreement, or similar document as of the date of application. The Department is also prohibited from precluding funds from being used to carry out work to settle an outstanding violation. The agreement continues to expect the Department to work with PHAs to ensure that the initiative reflects the unique needs of the industry and strongly encourages HUD to work with PHAs, their maintenance staff, and tenants to help en-

sure potential lead-based paint risks are identified and addressed expeditiously.

The agreement directs the Office of Public and Indian Housing to continue to work with the Office of Lead Hazard Control and Healthy Homes to improve its monitoring processes and develop procedures to ensure that HUD staff take consistent and timely steps to address health hazards, as recommended by the GAO.

Public housing data dashboard.—To better inform the identification of program challenges and where additional policy and research considerations may be beneficial, the agreement urges HUD to add PHA-level data points on both program reserves and the amount of reserves that HUD determines are in excess of prudent program management.

Annual contributions contract [ACC] amendments.—The agreement directs HUD to comply with all appropriate process requirements and work and consult with PHAs in any future rulemaking process that amends the ACC.

CHOICE NEIGHBORHOODS INITIATIVE

The bill provides \$350,000,000 for the choice neighborhoods initiative, to remain available until September 30, 2027. Of this amount, not less than \$175,000,000 shall be made available to PHAs and not more than \$10,000,000 is available for planning grants. The agreement directs HUD to give recipients of prior year planning grants priority consideration for implementation grant awards.

Supplemental grants.—The agreement directs HUD to use up to \$75,000,000 of the funding provided under this heading for competitive supplemental grants to current implementation grantees in the fiscal year 2023 NOFO for implementation grants to support the construction of replacement housing units. To be eligible for such funding, qualifying applicants shall be current grantees that received implementation grants as part of the fiscal year 2017, 2018, 2019, or 2020 NOFOs; received a choice neighborhoods planning grant; and are still actively developing housing. The agreement notes that HUD has included similar competitive supplemental grants in the fiscal year 2022 NOFO for implementation grants, however, selections have not been made. Therefore, the agreement directs HUD to allow otherwise qualifying current implementation grantees that have received supplemental funding from amounts provided under this heading in fiscal year 2022 to compete for these supplemental grants, and directs HUD to require such grantees to demonstrate additional significant needs. Further, the agreement directs HUD to use its existing waiver authority regarding total development cost limitations to enable otherwise qualifying current implementation grantees to compete for these supplemental grants. The agreement prohibits HUD from including the size of the housing site or project as a rating factor for these supplemental grants in the fiscal year 2023 NOFO for implementation grants. The agreement further directs that if HUD is considering leverage as a rating factor for such supplemental grants that such consideration prioritize grantees with the lowest public housing funds to non-public housing funds leverage ratio in all proposed development phases.

Supporting residents.—The bill increases the maximum amount of implementation grant funding that may be used for supportive services activities to not more than 20 percent. In implementing this authority, the agreement directs HUD to ensure grantees utilize an appropriate mix of allowed funding mechanisms and do not solely rely upon a supportive services endowment trust.

SELF-SUFFICIENCY PROGRAMS

The bill provides \$175,000,000 for self-sufficiency programs, to remain available until

September 30, 2026. Of the total, \$125,000,000 is for the family self-sufficiency [FSS] program, \$35,000,000 is for the resident opportunity and self-sufficiency program, and \$15,000,000 is for the jobs-plus initiative.

FSS performance measurement system.—The agreement supports efforts to update FSS’s performance measurement system and notes that HUD is in the process of improving the quality of the data and analysis of FSS programs. The agreement directs HUD to brief the House and Senate Committees on Appropriations on its FSS performance measurement methodology which will be published in the Federal Register.

Family self-sufficiency program.—Before awarding funds to new grantees, HUD shall first prioritize the renewal of all existing coordinators and second consider funding additional coordinators for current grantees whose program sizes qualify for additional coordinators.

Title VI loan program	1,000,000
Indian community development block grant	75,000,000
Training and technical assistance	7,000,000

Coordinated environmental reviews for Tribal housing and related infrastructure.—The agreement expects HUD to routinely report to the House and Senate Committees on Appropriations on the Tribal housing and related infrastructure interagency task force meetings, action items, goals, and recommendations.

Technical assistance.—The agreement expects that technical assistance funds will be provided to organizations with experience in providing technical assistance that reflects the unique needs and culture of Native Americans.

INDIAN HOUSING LOAN GUARANTEE FUND
PROGRAM ACCOUNT
(INCLUDING RESCISSION)

The bill provides \$5,521,000 for the cost of guaranteed loans, to remain available until expended. The bill allows HUD to use funds in this and prior acts for the cost of guaranteed loans that are unobligated to subsidize a total loan level of not more than \$1,400,000,000, to remain available until September 30, 2024.

NATIVE HAWAIIAN HOUSING BLOCK GRANT

The bill provides \$22,300,000 for the Native Hawaiian housing block grant program, to remain available until September 30, 2027.

The agreement directs HUD to ensure that the funds provided are administered to maximize the provision of affordable housing through the construction of high density, multifamily affordable housing and rental units, as well as housing counseling services and the rehabilitation of housing on Native Hawaiian homelands that do not meet safe and sanitary housing building standards.

NATIVE HAWAIIAN HOUSING LOAN GUARANTEE
FUND PROGRAM ACCOUNT

The bill provides not more than \$28,000,000 in loan guarantee commitment authority, including the authority to guarantee refinance loans, to remain available until September 30, 2024.

COMMUNITY PLANNING AND DEVELOPMENT
HOUSING OPPORTUNITIES FOR PERSONS WITH
AIDS

The agreement provides \$499,000,000 for the housing opportunities for persons with AIDS

[HOPWA] program, to remain available until September 30, 2024, except that amounts allocated pursuant to 854(c)(5) shall remain available until September 30, 2025.

Annual reporting system.—The agreement encourages HUD to continue efforts to make it easier for grantees to report their annual HOPWA data and to increase data quality in order to alleviate burdens of stakeholders, reduce vulnerabilities of paper- or desktop-based processes and data collection, and bring HOPWA grantee reporting capabilities in line with other CPD programs.

COMMUNITY DEVELOPMENT FUND

The agreement provides \$6,397,285,641 for the community development fund, to remain available until September 30, 2026. Of the total, the agreement provides \$3,300,000,000 in community development block grant [CDBG] formula funding, \$30,000,000 for activities authorized under section 8071 of the SUPPORT for Patients and Communities Act, \$85,000,000 for grants to reduce barriers to affordable housing development, and \$2,982,285,641 for economic development initiatives.

Yes in my backyard incentive grant program.—The agreement provides \$85,000,000 for a new competitive grant program that will reward state, local, and regional jurisdictions that have made progress in improving inclusionary zoning practices, land use policies, and housing infrastructure that will ultimately increase the supply of affordable housing. Improved land use policies may include increasing density, reducing minimum lot sizes, creating transit-oriented development zones, streamlining or shortening permitting processes and timeline, expanding by-right multifamily zoned areas, allowing mixed use and multifamily development in retail, office, and light manufacturing areas, allowing accessory dwelling units on lots with single family homes, eliminating or relaxing residential property height limitations, eliminating or reducing off-street parking requirements, and donating vacant land for affordable housing development. The agreement notes with encouragement HUD’s existing research on barriers to affordable housing production and directs HUD to issue best practices for local, state, and regional agencies to improve such opportunities.

Fairness in CDBG formula.—In addition to the direction in House Report 117-402, the agreement directs HUD to submit a report to the House and Senate Committees on Appropriations within 180 days of enactment of this act on work undertaken by the Department in 2021 and 2022, and planned to be undertaken in 2023, to update the CDBG formula and reauthorize the CDBG program.

Colonias communities.—The agreement modifies the report directed in House Report 117-402 on colonias communities and instead directs the GAO to conduct a study on the economic, public health, and environmental conditions of colonias, the types of Federal assistance available to colonias, and the various definitions Federal agencies use in defining colonias. In its study, the GAO should also describe existing Federal efforts to assist colonias and Federal coordination with the states, and identify challenges and barriers that may impede Federal efforts. The agreement directs the GAO to brief the House and Senate Committees on Appropriations on its preliminary findings within 280 days of enactment of this act and to provide a full report upon completion.

Data in rural communities.—The agreement encourages HUD to extend flexibilities for the use of alternative data for rural communities with less than 1,000 residents when a CDBG applicant considers American community survey data to be unreliable.

Coordinating Federal resources.—The agreement directs HUD to address the open rec-

ommendations in report GAO-21-579 and encourages HUD to look for additional ways to collaborate with various Federal agencies to help grantees and local communities maximize and more effectively align HUD’s community development programs with other Federal economic development resources.

CDBG disaster recovery.—The agreement urges HUD to prioritize the acceleration of disaster recovery funds for eligible individuals and families, and to explore the utilization of mechanisms, like the recovery acceleration funds deployed by SBP in New Orleans, Louisiana and Enterprise Community Partners, to speed recovery through the use of private capital for upfront repair costs that are later reimbursed.

Economic development initiatives [EDIs].—The agreement directs HUD to provide funding for the projects listed in the table entitled “Community Project Funding/Congressionally Directed Spending” at the end of this joint explanatory statement in the corresponding amounts. The agreement further directs HUD to provide semi-annual briefings to the House and Senate Committees on Appropriations on the implementation of EDIs and the Department’s oversight of projects.

COMMUNITY DEVELOPMENT LOAN GUARANTEES
PROGRAM ACCOUNT

The agreement provides the authority to collect fees from borrowers adequate to result in a subsidy cost of zero and an aggregate limitation on commitments of no more than \$300,000,000 for loan guarantees under section 108.

Section 108(q).—Previously, Congress provided HUD with funding through section 108(q) to assist state and local governments with environmental remediation and economic development projects by providing competitive grant awards from the brownfields economic development initiative [BEDI] and the EDI programs, greatly enhancing the utilization of the section 108 loan program and development of larger scale projects that leveraged public and private investment. The agreement directs HUD to encourage borrowers of loans guaranteed under section 108 to undertake large scale community and economic development projects, including the redevelopment of shopping malls, and to provide a report to the House and Senate Committees on Appropriations on the extent to which the section 108 program has supported these activities. The agreement modifies House Report 117-402 and does not require quarterly reporting on progress to issue new loan guarantees.

HOME INVESTMENT PARTNERSHIPS PROGRAM

PRESERVATION AND REINVESTMENT INITIATIVE
FOR COMMUNITY ENHANCEMENT

--	--------------

Section 4 program	42,000,000
[Rural capacity building activities]	[not less than \$5,000,000]
National rural capacity building	6,000,000
Veterans housing rehabilitation and modification pilot program	1,000,000

SHOP per unit average investment cap.—The agreement notes that HUD increased the average SHOP expenditure for the combined cost of land acquisition and infrastructure improvements for the first time since 2004 in the fiscal year 2022 NOFO. The agreement directs HUD to use its existing authorities to include an average per SHOP unit cost in the fiscal year 2023 NOFO that is greater than the historical cap of \$15,000 per SHOP unit.

Following initial engagement with the GAO regarding its evaluation on cost trends in the SHOP program, as required by the Consolidated Appropriations Act, 2022, the House and Senate Committees on Appropriations are concerned with gaps in HUD's data collection from grantees, the quality and availability of data, and capacity to effectively analyze the needs relating to the average per SHOP unit cost. Therefore, instead of the study required in House Report 117-402, the agreement directs HUD to improve and increase its data collection requirements for grantees; strengthen its internal data analysis relating to cost trends, needs, changes, and impacts for the average per SHOP unit cost; and initiate a SHOP program evaluation. The agreement directs HUD to brief the House and Senate Committees on Appropriations no later than 120 days after enactment of this act on its progress on such actions to improve data collection and analysis.

Section 4 program.—The agreement directs that funds available for the section 4 program be used solely for capacity building activities.

Capacity building to address the needs of Tribal communities.—The agreement directs HUD to ensure that section 4 program grantees collectively invest not less than \$1,000,000 in targeted capacity building activities to benefit Native Hawaiian, American Indian, and Alaska Native communities and populations in areas including, but not limited to, rural areas. This minimum investment is separate from the required investment for rural capacity building activities of not less than \$5,000,000.

Rural capacity building program.—For the purposes of the national rural capacity building NOFO, the agreement directs HUD to define an eligible national organization as “a nonprofit entity, which has ongoing experience in rural housing, including experience working with rural housing organizations, local governments, and Indian Tribes, as evidenced by past and continuing work in one or more states in eight or more of HUD's Federal regions.”

Assistance for low-income and disabled veterans.—The agreement directs HUD to combine the \$1,000,000 provided in this act for the veterans housing rehabilitation and modification pilot program with available carry-over balances in the fiscal year 2023 NOFO. The agreement encourages HUD to increase awareness about this program and the funding opportunities among veterans, veterans' service organizations, and eligible entities, and to maximize the number of awards in the next NOFO.

HOMELESS ASSISTANCE GRANTS

The agreement provides \$3,633,000,000, to remain available until September 30, 2025, for homeless assistance grants. Funding is provided in the amounts shown in the following table:

Emergency solutions grants	\$290,000,000
Continuum of care [CoC] and rural housing stability assistance	3,154,000,000

[Projects to assist survivors of domestic violence, dating violence, sexual assault or stalking]	[not less than \$52,000,000]
National homeless data analysis project	7,000,000
Comprehensive approach to serving homeless youth [Youth homelessness system improvement grants]	[not less than \$25,000,000]

[Awards for states with populations less than 2,500,000]	[not less than \$30,000,000]
Total	3,633,000,000

The agreement modifies the House Report 117-402 directive under this heading to not prioritize investigations or outreach to specific homeless subpopulations.

Additional planning resources.—The agreement directs HUD to continue its practice of administratively capping planning funds for the largest continuum of care [CoCs] grantees.

Permanent supportive housing.—The agreement encourages HUD and CoCs to leverage the funds provided for the construction, acquisition, or rehabilitation for new permanent supportive housing with other funding sources, such as tax credits and project-based rental assistance, to maximize the amount of housing that can be directed to meeting the needs of homeless individuals and families.

Comprehensive interventions to prevent and end youth homelessness.—The agreement directs HUD to ensure that sufficient technical assistance resources and equal consideration for youth homelessness system improvement grants are provided to rural areas. When determining grant awards, the agreement encourages HUD to incorporate the following components as objectives for grantees: youth collaboration in project design and implementation, including establishment of local youth advisory boards; quality data collection, management, utilization, and evaluation; direct coordination and communication with service providers; cross-system partnerships including juvenile justice, child welfare, and education systems; and prevention and diversion strategies. The agreement prohibits the use of these funds for direct services or housing.

The agreement directs HUD to provide the new evaluation of the youth homelessness demonstration program [YHDP] to the House and Senate Committees on Appropriations no later than November 1, 2023.

The agreement reminds the Department and CoCs that renewal funding provided for YHDP projects may only be used for eligible youth-specific activities upon reaching renewal status. HUD is encouraged to provide public-facing information to grantees regarding the YHDP renewal process.

Clarifying eligibility and documentation requirements for homeless youth.—The agreement encourages the Department to continue to clarify program requirements regarding the waived requirement for youth ages 24 and under to provide third party documentation to receive housing and services through guidance, notice, and webcasts, as appropriate.

Tribal inclusion in YHDP.—The agreement encourages HUD to include Tribes and tribally designated housing entities as eligible recipients in the fiscal year 2023 YHDP NOFO.

Access to healthcare.—The agreement directs HUD to coordinate with the Centers for Medicare and Medicaid Services to provide additional guidance and technical assistance to HUD-funded housing and supportive service providers to increase access to Medicaid-funded services to address chronic homelessness.

Point-in-time count.—The agreement directs the Department to report to the House and Senate Committees on Appropriations within 180 days of enactment of this act about the viability of creating a digital point-in-time count data collection and analysis platform for communities to use.

Annual homeless assessment report [AHAR].—The agreement directs HUD to incorporate additional Federal data on homelessness, particularly as it relates to youth homelessness, into the AHAR and to submit the report to the House and Senate Committees on Appropriations by August 31, 2023.

HOUSING PROGRAMS

PROJECT-BASED RENTAL ASSISTANCE

The bill provides a combined total of \$14,907,000,000, to remain available until expended, for project-based rental assistance [PBRA] activities: \$13,937,580,000 under the project-based rental assistance account in this title and an additional \$969,420,000, designated as an emergency, in division N of this act. Of the total, not more than \$343,000,000 is for performance-based contract administrators [PBCAs], which in addition to unobligated balances available in the housing certificate fund will be sufficient to support PBCAs. Consistent with the budget request, the agreement does not provide funding for tenant education and outreach, as prior year funding is available to support tenant organizing activities, capacity building and technical assistance, access to community services, and civic engagement activities.

Managing troubled properties.—The agreement directs HUD to include in the report required by section 219 of this act data on PBRA properties and units that have exited the program as a result of contract abatement from poor physical conditions or for other reasons.

Mark-to-market [M2M].—The bill includes the budget request to extend the M2M program under section 579 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 to October 1, 2027. The bill also provides HUD the authority to make budget-based rent adjustments for PBRA contracts that have been renewed through the M2M program and are distressed or at risk of becoming distressed. The agreement directs HUD to use existing data sources, including PBRA/ HUD management and occupancy reviews, as well as REAC inspections, to assess the physical property and operational needs amongst post-M2M properties and other PBRA properties with health and safety deficiencies to better understand the scope of the budget-based rent adjustment needs for PBRA properties. HUD is directed to provide the results of this assessment to the House and Senate Committees on Appropriations within 180 days of enactment of this act.

Section 8 moderate rehabilitation [mod rehab] and McKinney-Vento single room occupancy [SRO] sunset.—The agreement directs HUD to continue outreach to the owners of mod rehab and SRO properties on available conversion options and gather additional data on the potential conversion costs and benefits to these owners, and such data should be included with any proposal from HUD to sunset the programs.

Performance-based contract administrators.—The bill prohibits HUD from issuing a solicitation or accepting bids on any solicitation that is substantially equivalent to the draft solicitation entitled “Housing Assistance Payments (HAP) Contract Support Services (HAPSS)” issued by HUD on July 27, 2022. The agreement notes that this is the second draft solicitation in five years on the matter of providing PBRA support services, with HUD withdrawing a similar draft solicitation in March 2018. The agreement directs HUD to

ensure that any future competition for PBCAs does not impede housing finance agencies or public housing agencies from competing on a state-basis. Should HUD determine that a subsequent draft solicitation that is not substantially equivalent to the July 27, 2022 draft solicitation is not feasible, the agreement directs HUD to include a legislative proposal as part of the fiscal year 2024 budget request. If HUD determines that a legislative proposal is necessary, HUD is directed to work with relevant stakeholders to ensure any potential legislative proposal results in effective and efficient oversight and monitoring of the PBRA program and maintains safe, stable, and affordable housing for the over 1,200,000 households living in PBRA properties across the country. In addition, the agreement urges HUD to assess the effectiveness of using resident surveys as a tool to help PBCAs conduct effective oversight.

HOUSING FOR THE ELDERLY

The agreement provides \$1,075,000,000 for the section 202 program, to remain available until September 30, 2026, of which up to \$120,000,000 shall be for service coordinators and the continuation of existing congregate service grants. Of the total, up to \$110,000,000 is for new capital advance and project rental assistance contracts, of which up to \$25,000,000 is for the expansion of intergenerational dwelling units, and \$6,000,000 is to support preservation transactions of housing for the elderly originally developed by a capital advance and assisted by a project rental assistance contract.

Service coordinators.—The agreement directs the Department to implement all recommendations from the GAO report entitled “Elderly Housing: HUD Should Do More to Oversee Efforts to Link Residents to Services” [GAO-16-758] and continue to keep the House and Senate Committees on Appropriations updated on the status of the action plan to implement these outstanding GAO recommendations.

HOUSING FOR PERSONS WITH DISABILITIES

The agreement provides \$360,000,000 for the section 811 program, to remain available until September 30, 2026. This includes up to \$148,300,000 for new project rental assistance [PRA] and capital advance awards.

Individuals with intellectual and developmental disabilities.—The agreement directs HUD to continue to prioritize projects targeting and serving individuals with intellectual and developmental disabilities who have been receiving care through family members when awarding the new PRA funds provided in this act. The agreement directs HUD to coordinate with Federal partners, including HHS, and other public, private, and non-profit stakeholders to review existing programs and regulations to identify gaps in services and existing barriers to stable housing and to provide a briefing to the House and Senate Committees on Appropriations with its findings and recommendations within 280 days of enactment of this act. The agreement further directs HUD to encourage applicants to demonstrate connections with state Medicaid or human services agencies that provide ongoing supportive services for residents with mental disabilities in its NOFO for the section 811 capital advance program.

Housing counseling agency partnerships with minority-serving institutions [MSIs].—The agreement directs that not less than \$3,000,000 of the funds provided for the housing counseling grant program are for housing counseling agencies to partner with historically black colleges and universities, Tribal colleges and universities, and other MSIs.

Outreach to diverse and historically underserved communities.—The agreement encourages HUD to expand outreach to diverse and historically underserved communities, including Asian-Pacific, Latino(s), Black, Native Alaskan, Native Hawaiian, Tribal, and rural communities. Such outreach efforts should include culturally sensitive and linguistically appropriate service delivery, materials, and educational initiatives.

PAYMENT TO MANUFACTURED HOUSING FEES TRUST FUND

The agreement provides \$14,000,000 for the manufactured housing standards programs, of which \$14,000,000 is to be derived from fees collected and deposited in the manufactured housing fees trust fund. The agreement directs that not more than \$4,500,000 shall be for the monitoring of manufacturers’ compliance with construction and safety standards by third-party inspection agencies.

Home equity conversion mortgage [HECM].—The agreement recognizes that the Federal Housing Administration [FHA] published “Mortgagee Letter 2022-15, Update HECM Program Requirements for Notice of Due and Payable Status” in August 2022 and therefore does not include the direction in House Report 117-402 on HECM.

Home equity accelerator loan [HEAL] pilot.—The agreement does not include additional credit subsidy for the proposed HEAL pilot, as requested in the budget request.

FHA financing guidelines for manufactured housing.—The agreement directs the Department to continue to review its financing guidelines for all of its manufactured housing mortgage programs to modernize policies to reflect today’s market and improve the availability of this housing financing option.

Institutional investment in single-family housing.—The agreement directs HUD to maintain its efforts to prioritize governmental entities and nonprofits in FHA note sales to counter recent trends of increasing concentration of institutional financial investment in single-family housing. The agreement encourages HUD to provide some awards to those who did not receive previous awards in

fiscal year 2021 and fiscal year 2022 and promote geographic diversity in these awards.

Office of Innovation.—The agreement does not include direction relating to the Office of Innovation included in House Report 117-402. Instead, the agreement encourages the Office of Innovation to challenge the affordable housing industry to substantially drive down the cost of affordable housing design and production, including consideration of modular housing development.

Aging-in-place.—To the extent funds are available, the agreement directs HUD to research housing technologies that enable aging-in-place strategies.

Fair market rents [FMRs].—The agreement expects the Department to continue to evaluate alternative data sources, including those used by PHAs for rent comparability studies, for use in calculating FMRs and in

appealing FMRs in order to identify data sources that are timely, reflective of the market, and cost effective. The agreement directs HUD to identify methods to decrease the cost burden of locally funded surveys on PHAs, including by clarifying when the lifecycle of an accepted private rent surveys can be up to 5 years, by identifying acceptable online data sources for use in rent comparability studies, and by clarifying the 100 recent movers sample size for surveys in rural areas. The agreement strongly encourages HUD, to the extent permissible under current regulations, to set FMRs at no lower than the previous year's level for an FMR area, unless the Department has sufficient local data to justify such a change. The agreement directs HUD to report to the House and Senate Committees on Appropriations within 90 days of the enactment of this act on strategies to improve data, to better forecast rents in communities that are habitually miscalculated, and decrease the cost of private rental surveys. Additionally, the Department shall report on the potential impact of expanding PHAs' ability to set payment standards from 110 percent of FMR to 120 percent of FMR if PHAs provide rent comparability studies that illustrate HUD-calculated FMRs are lower than actual market rates, or of increasing the FMR above the 40th percentile of gross rents.

VAWA study.—The agreement directs HUD to complete the study and report on housing and service needs of survivors of trafficking and individuals at risk for trafficking, as required by section 606 of the VAWA Reauthorization Act of 2022. The agreement further directs HUD to submit this study and report to the House and Senate Committees on Appropriations not later than September 15, 2023.

Area median incomes [AMI].—The agreement directs HUD to report to the House and Senate Committees on Appropriations within 180 days of enactment of this act on how using a national AMI for nonmetropolitan areas as a floor would impact rent calculations in and the administration of any programs using income limits to set rents.

FAIR HOUSING AND EQUAL OPPORTUNITY FAIR HOUSING ACTIVITIES

The agreement provides \$86,355,000 for fair housing activities, to remain available until September 30, 2024. This includes \$56,000,000 for the fair housing initiatives program [FHIP], \$26,000,000 for the fair housing assistance program, \$3,000,000 for the national fair housing training academy, and \$1,355,000 for translated materials. Of the funds available for FHIP, not less than \$10,400,000 is for education and outreach programs, and not less than \$3,700,000 is for fair housing organization initiatives. The directive in House Report 117-402 related to outreach to certain protected classes is modified to instead direct HUD to raise awareness of the rights and protections under the Fair Housing Act for all protected classes and report to the House and Senate Committees on Appropriations on its progress.

Appraisals.—The agreement supports HUD's efforts to reduce bias in the home appraisal system through the education and outreach initiative and the national fair housing training academy.

OFFICE OF LEAD HAZARD CONTROL AND HEALTHY HOMES LEAD HAZARD REDUCTION (INCLUDING TRANSFER OF FUNDS)

The agreement provides \$410,000,000 for lead hazard control and healthy homes programs, to remain available until September 30, 2025. Of the amount provided, not less than \$95,000,000 is available for lead-based paint hazard reduction in jurisdictions with

the highest lead-based paint abatement needs and \$85,000,000 is available for the healthy homes initiative [HHI].

Aging-in-place home modification grants.—The agreement includes \$30,000,000 within the HHI for aging-in-place home modification grants in order to enable low-income seniors (persons who are 62 years of age or older) to remain in their homes through low-cost, high-impact home modifications. The intended beneficiaries of these grants are low-income seniors living in homes that are not receiving project-based rental assistance, and HUD shall ensure the use of funds appropriated reflects that intent. In designing the NOFO for this program, HUD is directed to continue to take into account successful models of low-barrier, participant-led, holistic approaches to aging-in-place. The agreement continues to direct HUD to track the outcomes of seniors whose homes have been modified in order to better understand the effectiveness of this funding in reducing at-home falls, hospitalizations, and emergency response calls, as well as improving independence and tenure in home over time.

Radon testing and mitigation resident safety demonstration.—The agreement includes \$5,000,000 for radon testing and mitigation activities in public housing units as proposed in the fiscal year 2023 budget request. The Office of Lead Hazard Control and Healthy Homes [OLHCHH] shall coordinate with the Office of Public and Indian Housing [PIH] throughout the length of the demonstration to ensure proper engagement and communication with the impacted PHAs. The agreement directs HUD to address the open recommendations in the 2021 HUD Office of Inspector General's evaluation of HUD Program Offices' Policies and Approaches for Radon [Report Number: 2020-OE-0003]. Additionally, the agreement continues to direct HUD to complete the objectives regarding healthy homes activities in the EPA's final Federal radon action plan scorecard issued in 2016, which has been subsumed into the broader public-private national radon action plan led by the American Lung Association.

Improving the lead grant application process.—The agreement appreciates the efforts undertaken by HUD to simplify the application process and encourage applicants and grantees to develop and utilize public-private partnerships as a means to leverage capital, as well as assist with grant and project management. The agreement directs HUD to continue to improve the NOFOs to encourage more grantees to apply, especially those that may not have access to professional grant writers. Additionally, HUD shall continue to clearly state in the NOFO that an application may include non-profit co-applicants, provided that an eligible city, county/parish, other unit of local government, or eligible state or Native American Tribe are identified as the lead or co-applicant.

Weatherization assistance program.—Homes are often eligible for assistance under the Department of Energy's [DOE's] weatherization assistance program [WAP] and HUD's lead-based paint hazard control grant program. The agreement supports OLHCHH's participation in the interagency working group on healthy homes and energy. OLHCHH is encouraged to continue to leverage partnerships between DOE, WAP grantees, and sub-grantees to perform window removal and installation work in older low-income housing. HUD is directed to collect information on how many units benefit from this coordination and quantify how this coordination has reduced costs for hardware and labor. HUD is directed to provide this information to the House and Senate Committees on Appropriations no later than 180 days after the end of each grant cycle on an annual basis.

Lead hazard reduction demonstration and lead hazard control grant per-unit consultation threshold.—To ensure lead hazard remediation funds are spent appropriately, efficiently, and effectively, HUD has established a threshold of \$20,000 per unit for its grantees to consult with HUD and review proposed high-cost remediations. The agreement is supportive of HUD's work to ensure effective use of the grant funding provided and also recognizes that the current consultation threshold was set in 2014. Therefore, the agreement encourages HUD to undertake a review of the threshold and related policy guidance to grantees to determine if any updates are warranted.

INFORMATION TECHNOLOGY FUND

The agreement provides \$374,750,000 for the information technology fund, to remain available until September 30, 2025, of which up to \$23,950,000 is available for development, modernization, and enhancement [DME] projects.

Major modernization project priorities.—The agreement includes \$20,800,000 in DME funding for the following projects, which it designates as major modernization projects: FHA IT modernization, PIH IT modernization, network enterprise zero trust solution, electronic special needs assistance programs [esnaps], and financial management modernization [LOCCS]. The agreement does not fully fund the request for the network enterprise zero trust solution, but supports HUD's efforts to initiate this work and develop a comprehensive roadmap for moving toward a zero trust architecture. Not more than \$2,080,000 of this amount may be obligated until the plan required by the bill is approved. Considering the current balances and state of progress in FHA's single-family IT systems, the funds for FHA IT modernization are provided to complete the automated underwriting system. The House and Senate Committees on Appropriations expect the Department to continue to prioritize progress on FHA's single-family IT systems in fiscal year 2023, and expects HUD to provide sustained executive-level attention to advancing and completing FHA catalyst for single-family mortgages.

Non-major modernization project priorities.—The agreement includes \$3,150,000 in DME funding for the following projects, which it designates as non-major modernization projects: enterprise geographic information system [eGIS] and acquisition tool. Not more than \$315,000 of this amount may be obligated until the plan required by the bill is approved. The agreement directs the Office of Community Planning and Development to update the House and Senate Committees on Appropriations immediately if additional resources, beyond those provided in fiscal year 2022, are needed for IT modifications to adequately support economic development initiatives.

IT reporting and oversight.—The House and Senate Committees on Appropriations acknowledge the significant improvement in the level of detail provided by HUD in its congressional justifications in fiscal year 2023, and directs HUD to continue to: (1) delineate between funding for operations and maintenance and DME, including planning; (2) consistent with OMB guidance, summarize spending by major, non-major, and standard IT investments; and (3) include plain language summaries of proposed DME projects, total costs and savings potential, and target functionality and mission benefits. HUD is reminded that the act requires updated reports on a quarterly basis to the House and Senate Committees on Appropriations on all DME projects, with additional detail on major modernization projects. However, this did not occur in fiscal year

2022, and HUD was inconsistent in notifying the Committees of major scope changes and cost increases in a timely and transparent manner. The agreement directs the Department to brief the House and Senate Committees on Appropriations within 30 days of enactment of this act on its plans to improve the timeliness, format, and clarity of its reports and updates in a manner that meets the Committees' needs. The agreement also directs HUD to continue clarifying its reasoning for requests funded through the IT fund, the WCF, and individual salaries and expenses accounts.

Unplanned IT needs.—The agreement allows individual offices to transfer salaries and expenses amounts, up to \$500,000 from each office and no more than \$5,000,000 in total, to the IT fund to address unplanned costs or priority modifications of IT systems. Transferred funds must primarily benefit the office from which the funds are transferred. Any project or activity funded will not have known out-year DME costs in excess of \$500,000 and should have minimal impact on annual operations and maintenance costs. The agreement directs the Department to brief the House and Senate Committees on Appropriations within 30 days of enactment of this act to ensure a clear common understanding of the Committees' expectations and the policies HUD will put in place to avoid misuse of this authority. The agreement directs that this authority is not to be used to allocate costs across offices for departmental-wide IT needs.

OFFICE OF INSPECTOR GENERAL

The agreement provides \$146,000,000 for the salaries and expenses of the Office of Inspector General.

Audit reports.—The Office of Inspector General is expected to continue to provide copies of all audit reports to the House and Senate Committees on Appropriations immediately upon issuance and to make the Committees aware of any review that recommends significant budgetary savings.

Contracting audits of annual financial statements.—The agreement directs the Office of Inspector General to continue to rely on an independent external auditor, or auditors, to audit the financial statements of the Department, including the financial statements of FHA and Ginnie Mae.

Reorganization.—The agreement approves the organizational changes identified on page 52-7 of the fiscal year 2023 congressional budget justification.

UKRAINE

Mr. PORTMAN. Madam President, I come to the floor tonight as we are hearing media reports that President Zelenskyy of Ukraine will be coming to Washington tomorrow to address a joint session of the U.S. Congress. I hope that is an accurate report. I think it is important that he come. This would be, by the way, the first time that he has left Ukraine in 300 days—not since the start of the invasion, which is now 300 days from today.

Against all odds, Ukraine has held out against the Russian assault. Many thought that it would only be able to hold out for a week or so. Instead, it has been 300 days. They have pushed Russia back in so many places.

I am glad he is coming because I know what he will do is talk about his deep appreciation for what the American people have provided. Every time I have been with him—and I have traveled to Ukraine about 10 times since 2014—he talks about that. But, particularly, over the last few months, I have been to Ukraine twice, and he focused on the fact that they couldn't do it without us and the deep appreciation that he feels.

Second, I know he will give us a firsthand report of what is going on. Just this morning, he was in Bakhmut, which is in eastern Ukraine. This is what it looks like in Bakhmut today. So he is going from a ravaged battle zone—it looks a little bit like a World War I battle zone when you see all the damage that has been occurring in this area. He will be able to tell us specifically what is happening on the battlefield and talk about the continued Russian atrocities that are being committed in the country of Ukraine.

I am here for the 29th consecutive week on the floor of the Senate to talk about this attack on Ukraine, a brutal, illegal, and totally unprovoked war on a democratic ally of ours who just wants to live in peace with its neighbors, including Russia. In each of these previous 28 speeches, I have talked about the progress that has been made and some of the issues that the Ukrainian people still need to address, particularly with regard to more technology and more weapon systems from the West and from the United States.

Today, I thought it might be useful to step back and take a look at how we got here and how far Ukraine has come over these 300 days. Let's consider what the Ukrainian military has accomplished since that initial Russian invasion of sovereign Ukrainian territory now over 8 years ago.

This first picture shows Ukrainian soldiers taking up positions in Kramatorsk back in 2014. This was, again, right after the so-called Revolu-

tion of Dignity when Ukraine decided to turn to the West—the United States and Europe, democracy, free markets—and the Russian-backed, corrupt government was thrown out. Russia responded by attacking Ukraine, taking Crimea and parts of the Donbas.

These are the Ukrainian soldiers at that time. You can look at this very basic kit: old, rusted weapons; boots that don't look very sturdy; helmets that look like they are from the Soviet era, and they probably are; small anti-armor weapons that really did not have any ability to stop the Russian armor. They couldn't puncture the armor in these Russian tanks and other armored vehicles.

These were the soldiers who were tasked with stopping Russia's initial invasion in 2014. Again, they look more like soldiers from the 1980s. In those days, the Ukrainian military was underfunded, faced a lot of allegations of fraud, had a lot of corruption, and was shockingly small. And that was on purpose because the Russian-backed government didn't want an effective military.

In 2014, with the help of an assortment of militias, they were able to slow Russia's advance just because the Ukrainians were taking the high moral ground, but they were unable to push the Russian forces out of the country or to keep them from taking Crimea and large parts of the Donbas, which remained in Russian hands.

Let's fast-forward now to 2022, today, and see what our help has resulted in. This is a photograph of what soldiers look like on the frontlines today. This is in a trench in Bakhmut where you can see modern firearms and helmets, body armor, additional gear and equipment on their uniforms for extended operations in the field, and weapons that can actually make the difference—for instance, the American-made Javelin anti-armor missiles that were provided to them, which are so effective against the Russian tanks and other armored vehicles.

There is an additional thing you can't see in this photograph or any photograph, but it is really important, and that is training. These soldiers in 2022 are far better trained than their predecessors, and they are schooled in Western tactics. They are competent, disciplined, and able to operate independently in uncertain circumstances. This stands in sharp contrast to how Russia's military has conducted itself in this conflict: overly centralized command and control, poor discipline, and an unwillingness or inability to learn from their mistakes.

This is the modern military that has shattered the sword of Russia's war machine, and it was all made possible through the combined efforts of the United States, American taxpayers, but also our allies across the world—particularly the UK—did a lot of training. Our European allies and the EU did a lot of training, particularly the Eastern European countries in the region; also Canada.

We stepped up, and we helped to train the next generation of the Ukrainian military, and through that, we have helped professionalize, arm, and train Ukraine's military since 2014 to prepare for the exact contingency that occurred earlier this year, which is a full-scale invasion by Russia. Our efforts are paying off, as Russia's invasion has floundered and its military has been truly denigrated.

If you need more proof of how successful our aid to Ukraine has been over the years, let's look at this map. When the invasion came in February of this year, all of this area in blue was occupied by Russia. Ukraine has now taken back about 55 percent of its own territory, liberated these areas, and they continue to make progress, as you know, here in Kherson and here in the Kharkiv region and throughout eastern and southeastern and northeastern Ukraine.

Russia had thought it had an easy battle on their hands. They thought that within a matter of days or weeks, this entire map would be red, that all of Ukraine would be theirs. Instead, since February, Ukraine has liberated over 74,000 square kilometers of sovereign territory and thousands and thousands—millions, in fact—of Ukrainian citizens who have embraced these troops as liberators.

Ukraine's fighters have strong morale, but they will be the first to tell you that none of this would have been possible without help from this body, from the U.S. House, from the U.S. taxpayers, to give them the tools they needed to protect their freedom. We have sent Ukraine now billions of dollars' worth of military, economic, and humanitarian aid since that attack in February—humanitarian aid that has saved lives, economic aid that helps keep the Ukrainian Government and economy afloat, and military aid that has enabled Ukraine's brave defense of their homeland.

Javelin missile launchers helped stop the mechanized advance toward Kyiv back in February and again in March of this year. But since the summer, the most important weapon has been these high-mobility artillery rocket systems, known as HIMARS. We have provided about 20 of these units. Not a single one, by the way, has been taken out by the Russian military. It is extraordinary. They shoot and they scoot, and they are very effective. These same weapons have been provided, by the way, to the Ukrainians by Germany and by the UK. So we are not alone, nor should we be. Our allies should be there for Ukraine.

As I have said on this floor many times, these 20 launchers have been game changers in the battlefield.

By the way, I see my colleague Senator KLOBUCHAR is on the floor today. When we were in Ukraine a few months ago, we were talking to the U.S. Embassy personnel—a small, dedicated group who are there—about what was happening. They said the day before

that they had ordered food in Kyiv, and when the food arrived in bags—hamburgers, by the way—on the outside of the bag was written: Thank you for the HIMARS. Thank you for the HIMARS.

We are told that newborns in Ukraine are often taking the name “Himar” now. That is the degree to which they know and appreciate what we have provided for them to be able to save their homeland, their families, and their freedom. It is the long range and high precision of these weapons that have enabled Ukraine to be so successful, particularly going after Russian logistics—command and control, cutting off the troops as they did in Kherson, forcing the Russians to leave that city, the first major city that Russia occupied.

It is also critical that we send more air defense equipment, particularly counterdrone weapons, to Ukraine right now. We have to continue to provide Ukrainians with these air defense systems—including cost-effective electronic warfare systems—that will enable them to control the skies over the long term without exhausting their stockpiles of anti-air missiles.

We know what is happening. As Ukraine is making progress on the battlefield, Russia, out of desperation, is turning to civilian attacks. Targeted civilian attacks—that is what is happening every day, every night in Ukraine.

I was pleased to see recent reports that the administration may soon be sending Patriot air defense systems to Ukraine to defend against Russia's critical bombardment on these civilian targets, particularly on critical energy infrastructure. In my view, this is long overdue. Patriots are defensive. Of course, we should have sent those as soon as we could and trained the Ukrainians on them, and we could have avoided so much death and destruction, but it is good the administration is now considering doing it. I would hope that we will hear something positive on that soon.

Russia's Foreign Ministry predictably warned last Thursday that if the United States delivers these air defense systems to Ukraine, it would be “another provocative move by the United States.” They have said this would result in a swift response from Moscow.

Ladies and gentlemen, this is clear propaganda. Patriot missiles are defensive by their nature. They are not the same kind of missiles you would fire into another country offensively. They are smaller missiles, meant to kill missiles in the air and drones in the air and airplanes in the air.

Any reasonable person can clearly see that the provocateur here is not the United States or any other country; it is Russia, of course. Ukraine has every right to defend its citizens, and I believe America is well within its rights to help them do that.

This is more evidence that Russia's claims of American provocations are baseless. They always have been. Javelins, Stingers, HIMARS, and now Patri-

ots—and every time, they have said that this is provocative. They will continue to claim that anything we give Ukraine to disrupt this genocidal invasion is provocative. So why do we keep letting these illogical claims stifle our aid to Ukraine? Let's not let it happen here with the Patriots.

For the past 10 months, I have seen news story after news story about the United States refusing to provide this or that weapon to Ukraine for fear of provoking Russia. They have been asking for weapons since the very start that we have yet to provide: fourth-generation aircraft, F-16s that are in other countries that are willing to provide them, but they need our licenses—we need to approve it for those planes to go—main battle tanks. They want to make this a conflict where they have a chance, tank to tank, to be able to have Abrams tanks.

Long-range missiles like the ATACMS missiles that Ukraine has asked for since the beginning of this conflict would have enabled larger Ukrainian advances than the ones you see on this map. They would be doing even better.

The same fear of provoking Russia is exactly what drove the Obama administration, back in the day, to refuse to provide any lethal assistance at all to Ukraine in 2014 and 2015. That certainly did not stop the Russians from holding onto Crimea and parts of the Donbas. It just emboldened them because they knew the United States was not going to respond and, therefore, our allies, without our leadership, were not going to help.

Likewise, refusing to give Ukraine the weapons it needs now will not stop Russia's onslaught. No one can believe that. Russia will only leave Ukrainian territory if it is pushed out by force of arms. It will not suddenly decide to leave if we just give in to their unreasonable demands and agree with them that, because it is provocative, we can't provide it.

We have to continue to provide more aid to Ukraine and do it as soon as possible. We can't allow a stalemate to set in or, worse, allow Russia to regain the initiative during this critical time. Every day this war drags on, there are more impacts on our economy and on the global economy, and every day this war drags on, there are more war crimes being committed by Russia.

Throughout my several trips to the region since the invasion began 10 months ago, I have spoken with women and children who have seen death and destruction that few of us would ever imagine. Our military aid can propel the forces of Ukraine to victory, but the mental and emotional toll of this war will be felt for decades to come.

As Russian attacks on civilian infrastructure continued to knock out power around the country, last Wednesday and Thursday, 7 civilians were killed and a further 19 were wounded, according to a report from President Zelenskyy's office. Yester-

day, only 20 percent of Kyiv, this modern city in Ukraine—only 20 percent of it—had lights.

And the war crimes do not end there. In the recently liberated city of Kherson, Ukrainian officials discovered a room that Russian soldiers had used specifically for the detention and torture of children. According to the Ukrainian Parliament's Commissioner for Human Rights, “we saw the rock bottom in Kherson”. The children were given little water and almost no food. According to locals, the children were also subjected to psychological abuse. One 14-year-old boy was arrested and tortured just for taking a picture of broken Russian equipment.

Who can hear these words and truly think that the Ukrainians or the West are the true provocateurs here?

And that is just the war crimes we know about. And we know about a lot of them now. We don't know what horrors are still being conducted here behind the lines in occupied areas of Ukraine.

Unfortunately, Russia is making it abundantly clear that it will do nothing to hold its soldiers accountable for these crimes in Ukraine. A new bill making its way in the Russian legislature would effectively legalize any and all war crimes committed by Russian soldiers in Ukraine if those crimes are “aimed to protect the interests of the Russian Federation.”

As many of us have said for months, the pain and suffering inflicted on the innocent people of Ukraine is the point, and now Russian soldiers will have official legal cover to commit those atrocities.

This is a terror campaign—knocking out power and putting people in the dark, in the cold, during the Ukrainian winter. We can't allow this suffering to continue.

I will be leaving the Senate soon and ending my time in this great Chamber. This is my last speech on the Senate floor about Ukraine, but, before I go, a couple of thoughts about the future.

Ukraine can win this war. They have shown that. That ending has been clear to many of us for a long time, if we provide assistance. Compare Ukraine's military competence, bravery, discipline, and creativity on the one hand; and, on the other hand, Russia's stunning incompetence and lack of ability to control or even supply its troops.

There was a New York Times story over the weekend that you may have seen in the Sunday Times about Russia's inability to provide troops with their basic needs. Russia has fumbled every opportunity it has had in this war, from its failed attacking on Kyiv at the beginning of the invasion to its poor defenses of Kharkiv Oblast and the west bank of the Dnipro River. Even their supposed victories in the Donetsk area have come after long, grinding advances that come at the cost of thousands of casualties. At best, these are pyrrhic victories that reflect a serious inability to think or

learn creatively on the part of the Russian forces.

Ukraine, on the other hand, has had the moral high ground and the morale and the spirit in this war since the first Russian soldiers crossed the border with Belarus in the north and the lines of contact here in the east. Ukrainian soldiers have either outright defeated Russia's offensives, as they did in the north in the spring, or slowed them to a crawl, as they have done in the east. Right now, Russian forces near the city of Bakhmut are advancing no more than 100 to 200 meters a day, at a cost, we are told, of at least 50 Russian soldiers a day.

And on the attack, Ukrainians have been brave, bold, and relentless. Their liberation of the Kharkiv Oblast in September was a matter of carefully testing Russia's defenses there. Once a weakness was spotted, Ukrainian soldiers surged through the hole in the line. One week later, all of the province was liberated. It was a beautifully executed operation, which will likely be studied in military academies for a long time to come. And it was American and European and Canadian training that allowed that to happen.

In the south, near Kherson, it was a very different kind of offensive. There, Ukrainian forces—provided with these HIMARS from the United States, which we talked about earlier—gradually whittled away at Russian forces to the point where the situation became untenable. They couldn't be resupplied, and so they left, again, the one major city that they had occupied.

One of the counteroffensives in Kharkiv required quick thinking and an ability to rapidly exploit success. The other, in Kherson, required meticulous planning and patience. They were two very different operations. Yet Ukrainian soldiers pulled them both off.

That is why Ukraine can win this war. Its defenders are bold, creative, smart. They have proven it to us. Every Russian missile fired at the Ukrainian infrastructure to destroy the Ukrainian people's will is a wasted missile. Why do I say that? Because the intention is to make the Ukrainian people want to back off, to lose their resolve and this morale and the spirit I talked about it. It has just the opposite effect every time it happens, which is that it makes the Ukrainian people even more resolved and even more intent to win this war.

The Ukrainian people are unbreakable, as we have seen, and once Ukraine wins this war, I believe it will join the European Union, and eventually it will join NATO. The EU granted candidate status to Ukraine in June, which sent them down the path toward eventual membership. That was a good sign. Since then, according to the chairman of Ukraine's Parliament, Ukraine has already passed seven pieces of legislation to adopt reforms that are necessary to join the European Union. According to the Deputy

Prime Minister, Ukraine expects to become a full-fledged member of the EU within 5 years. That is the future.

Regarding NATO, by the way, I have long supported Ukraine's intention to join this alliance—the most successful military alliance, of course, in the history of the world. None of this would be happening were they in NATO already. And it is in line with NATO's longstanding open-door policy. The alliance has always welcomed the application of any and all eligible countries. And once Ukraine pushes Russia out of all of its sovereign territory, I believe it can take this step. It certainly would provide incredible military power to NATO.

Russia launched its initial invasion in 2014 and this larger one in 2022 precisely to keep Ukraine out of NATO, but all sovereign countries, including Ukraine, have the right to decide their own path, their own destiny, their own alliances, their own foreign policies. We cannot legitimize the Kremlin's ridiculous demands by giving up now. Plus, it is hard to think of a more qualified country to join NATO than Ukraine. Russia has been the greatest threat to the alliance for at least a decade. What better country to induct into NATO than one that has extensive experience defeating that threat on the battlefield?

So it is in our interests, but not just in our strategic interests, to aid Ukraine. It is also in our moral interests. If we falter in support of Ukraine, we condemn millions of innocent Ukrainians to a future of repression, a future of summary executions like we saw in Bucha and Izyum. I have been there. I have seen the damage they did. I have seen the place where they had a mass grave burying Ukrainian citizens—a future of torture chambers both for adults and children alike, a future in which the very idea of being proudly Ukrainian is outlawed and punishable by torture or death.

If we falter, we allow President Putin to continue to threaten the rest of Europe and potentially start a war with NATO that will draw in the United States. We cannot do that. This aggression must stop here.

Ukraine and its Western allies are fighting to preserve freedom in Europe and globally. How this war ends will have far-reaching consequence, both on the rest of the continent and around the world. If we can stop Russian aggression here, then we can deter other adversaries.

They are watching. China is watching. Iran is watching. They are watching and thinking about whether they should start similarly horrific wars of conquests.

We must send a message to the rest of the world that America will not back down when rogue nations threaten free countries. This has always been America's role.

Today, I was at the National Mall seeing the prayer that Franklin Roosevelt said on D-Day. This plaque has

just been placed on the National Mall based on legislation we passed here in this body. In that prayer, Franklin Roosevelt says that American troops were not going to Europe for conquest. It was not for the love of conquest. It was not for the lust of conquest. Rather, it was to combat the Germans and to stop conquests that American troops were there to liberate.

That is what we do. In this case, it is not our troops. They aren't asking for our troops, but they are asking for the tools to be able to be successful in liberating the people of Ukraine.

So I urge my colleagues to support the funding bill that was released yesterday that includes \$47 billion in assistance for Ukraine. We talked about this before, but it will also support the military, the civilians, and the government in Ukraine as that country continues to fight off the invasion.

I know these are significant investments, and we must be good stewards of taxpayer money. And I am very supportive of the accountability measures that are in that legislation that are very important—the end-use monitoring for our military equipment, the fact that an American accounting firm, Deloitte, is there to ensure that the money is properly spent, and that the World Bank gives us regular reports and audits the funding. This is significant.

Ukraine, by the way, is for this transparency, and we should be too. But as we are good stewards of American taxpayer money, let's also remember that Ukraine is fighting for all of us. Ukraine is fighting for all of us and fighting for freedom, and freedom is a worthy investment.

I yield back my time.

The PRESIDING OFFICER. The Senator from Florida.

Mr. SCOTT of Florida. Madam President, first, I want to thank my colleague from Ohio for his commitment to Ukraine, to get knowledgeable about Ukraine, what the needs are, and for continued support for lethal aid for Ukraine. And I hope this body continues to support Ukraine.

UNANIMOUS CONSENT REQUEST

Madam President, I ask unanimous consent that the Senate proceed to the immediate consideration of my bill, which is at the desk; I further ask that the bill be considered read a third time and passed and that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

The Senator from Vermont.

Mr. LEAHY. Madam President, reserving the right to object, and I will object.

I agree with the Senator from Florida that we have a responsibility to help Americans in the wake of disasters. It does not matter if you are a Republican or a Democrat or if you are from a Blue state or a Red state. I still remember the devastation in Vermont when Tropical Storm Irene hit. I remember the people who were hurt, the

property that was destroyed, and the roads, bridges, and homes that needed to be rebuilt. When we needed help, the Congress came to our aid. The Senate and the House enacted supplemental disaster assistance to help us recover and rebuild.

That is why I included \$27.1 billion in disaster assistance in the omnibus bill I filed last night. This money will go to States that have been hit hard this year by natural disasters, including Hurricane Ian. The disaster supplemental included in the omnibus is nearly identical to the bill the Senator from Florida is proposing now. The difference is that the omnibus and the disaster supplemental in it has a clear path to becoming law now. It is part of a bipartisan, bicameral bill that we will pass, this week. We do not have time to play politics. We need to enact this bill and get aid to the people in Florida and communities across the country who need it most. I urge the Senator to vote for it.

I object to the Senator's unanimous consent request.

The PRESIDING OFFICER. Objection is heard.

The PRESIDING OFFICER. The Senator from Florida.

Mr. SCOTT of Florida. Madam President, I have been in the Senate about 4 years now, and I am not sure I can recall a day before this one that so perfectly exposed Washington's total dysfunction.

Last night or I guess this morning just before 1:30 a.m., Senate leadership finally dropped the \$1.7 trillion Pelosi-Schumer spending bill—all 4,155 pages of it. In typical Washington fashion, hostages have been taken to pressure Members of this body to approve this bill without a reasonable opportunity to review, debate, or amend it.

Most important to me are the Florida families fighting hard to recover from Hurricanes Ian and Nicole who are being used as pawns in exchange for approval of the massive and reckless \$1.7 trillion Pelosi-Schumer spending bill.

Immediately after the storm passed, I made clear that I would fight for and support a stand-alone disaster aid funding package to get Floridians the assistance they needed to recover. I even wrote to Senators LEAHY and SHELBY, the Senate top appropriators, urging them to work with me on getting much needed aid to Florida families as quickly as possible in a stand-alone disaster supplemental bill. My letter to them was written on September 30, 2 days after Ian made its catastrophic landfall near Ft. Myers, FL, but the aid Floridians desperately needed was delayed and turned into a hostage taken by Senate leadership so it could be stuffed in this massive omnibus bill.

To tell folks in the Sunshine State who are still picking up the pieces left by Ian and Nicole that this aid only comes as part of the 4,000-plus page omnibus spending bill is sickening, and I am not going to stand for it.

Government has an essential role to play in our society and core responsibilities to fulfill. We all pay taxes so that government has the resources to keep its promises to us and provide core services like national defense, Social Security, and Medicare.

If this spending bill helped balance the budget and only contained the things that the Federal Government should be responsible for, I would gladly vote for it without hesitation, but that is not what we are facing here.

When I ran for the Senate in 2018, I promised Florida families to make Washington work for them. That doesn't mean zero Federal spending; it means responsible spending by a Congress that is accountable to taxpayers who fund it. That is how we governed when I was Governor of Florida, and the result was better returns for our State's families.

Because we governed responsibly, the economy grew. A growing economy meant we could cut taxes and pay off State debt while making record investments in education, environment, and public safety. Washington can work this way, too, but not while failed politicians refuse to be accountable with your money.

The truth is, at more than 4,000 pages, the Pelosi-Schumer spending bill has a lot of policies and funding priorities I actually fought for this year. It has more funding to preserve and protect Florida's Everglades, funding to support our military, and, yes, disaster aid for the families and communities devastated by Hurricanes Ian and Nicole.

I support all these things, but I will never support the other parts of the bill that continue gross, reckless spending of taxpayer dollars. These are things like \$2.3 million so the Department of Education can reach out to student loan borrowers and urge them to apply for Biden's illegal debt forgiveness program that has been blocked by the Federal courts, more than 7,500 Member projects or earmarks, funding for Biden to continue supersizing the IRS with 87,000 new agents, and continuation of policies that force every family to give the IRS visibility into their personal finances.

We just found out this terrible bill prohibits Border Patrol from using this funding to do its job and secure the border. The bill says:

None of the funds provided in subsection (1)(A) shall be used to acquire, maintain, or extend border technology and capabilities, except for technology and capabilities to improve Border Patrol processing.

So nothing to stop illegal crossings. We are just going to focus on processing people who already broke the law by illegally crossing the border. And while we are throwing a muzzle on our own Border Patrol, we are giving money to countries like Egypt to secure their borders. That makes no sense. We should do both.

Florida families deserve better than to be forced to accept these radical

policies and reckless spending in exchange for disaster relief. It is insane that I even need to come to the Senate floor to say that, but I am sick and tired of seeing dysfunction in Washington create hard times for families in the Sunshine State.

So I am here today to get things done for families in my State who are hurting and ask that the Senate take up and pass the disaster aid contained in the omnibus as a separate and stand-alone measure. This is the exact same language that was written in the omnibus bill that my Democratic colleagues seek to pass. I did not limit this just to Florida; the aid I am asking the Senate to pass benefits other States that have been impacted by disasters like tornados, flooding, and wildfires too. More aid may be needed, but getting this done is a good first step and is something that should never have been jammed into a massive end-of-year spending bill.

We can fix that error today, pass this on its own, and get relief on the way to families and communities in need.

I had hoped my colleagues would see the common sense in this simple request. Instead, Democrats have blocked this from passing tonight.

America's national debt is \$31 trillion and growing. When are we going to be so fed up that we decide this isn't sustainable—when we get to \$35, \$40 or \$45 trillion in debt?

Too many Democrats and Republicans in Washington are happy to close their eyes, plug their ears, and pass another reckless multitrillion-dollar spending bill we can't afford. I am not going to do that. I am going to fight every day for Florida families, but I won't cave to more spending and let the hard-working people of my State be treated as pawns in Washington's corrupt spending games. Doing so would be a betrayal of my promise to Floridians that I would always fight against Washington's corrupt dysfunction and wild spending.

We all get hired by voters in our States to represent them here in the Senate. How is adopting a massive, 4,000-plus page bill without reading it or debating its contents doing the job we all got elected to do?

Think about it this way: If you hired someone to negotiate a big, expensive contract for you and they told you to sign it without reading any of it, would you ever hire them again? No. No one would hire someone like that. That is exactly what is happening here.

We are asked to approve this massive bill days before a new Republican majority takes power in the House. It is nothing short of shameful abandonment and betrayal of our House colleagues and the conservative voters in Florida and across the Nation who elected them.

My colleague's decision to block disaster aid from quickly passing tonight is shameful as well. It is insane that my colleague has insisted on holding this aid hostage in a massive omnibus

instead of standing with families hurtling from Hurricanes Ian and Nicole and getting them relief today.

With inflation up nearly 14 percent since Biden took office, labor participation at historic lows, Federal debt skyrocketing, and a recession on the horizon, there has never been a more important time to stand up and demand fiscal sanity in Congress. That is why I think it makes a lot of sense that the House Republicans have made it clear that they do not support passing the Pelosi-Schumer spending bill. Passing an omnibus right now ties the hands of the new Republican House majority and extends the priorities of NANCY PELOSI and House Democrats—the leaders and party that the American people just voted out of power.

Shockingly, some in the Senate have tried to argue that we should ignore the wishes of House Republicans. They argue that expecting a new, slim House Republican to keep the government funded is just too much to ask. I think that is nonsense.

The way I see it, the decision before Senate Republicans is as simple and straightforward as it gets here in Washington: We can either stand with Republicans or once again cave to the Democrats. We can either make sure it is House Republicans—not PELOSI and her outgoing Democrat majority—who get a say in how Congress spends taxpayer dollars next year or we can hand the recently fired Speaker a massive retirement gift on her way out the door.

I will tell you this: Florida families know that the process we have up here is not working. Inflation is raging, debt is out of control, and Congress so routinely passes massive, thousand-plus page spending bills without giving anyone time to read them that even the press doesn't bother to scrutinize this broken system anymore. While this might be business as usual in Washington, hard-working Americans find it disgusting.

Congressional Republicans should be taking every opportunity to stop the reckless, Big Government policies that Joe Biden, NANCY PELOSI, and Senate Democrats have jammed down the throats of the American public over the last 2 years. I promised Florida families that I would do that, and I won't back down on my word.

I yield the floor.

The PRESIDING OFFICER. The Senator from Minnesota.

Ms. KLOBUCHAR. Madam President, I first want to thank Senator PORTMAN for his incredible work on Ukraine. He has given dozens and dozens of talks on this floor, but what is equally important is all the work he has done behind the scenes, working across the aisle, making sure the funding is there for the weapons, and meeting directly with President Zelenskyy. I just want to thank him for his incredible leadership, and we will continue his work. I have a feeling he will be calling us from Ohio or wherever he is to make

sure we are doing it right. I thank him for that.

DEMOCRACY

Madam President, we are here today to speak about democracy. Of course, that is on the line in Ukraine. President Zelenskyy reminds us about it every day when he says these simple words: "We are here." That is what he said the day of the Russian invasion. He went to the street corner and said, "We are here." That is what we are here to say today, is that there are people who are carrying the torch for democracy in our own country.

I am glad to be joined with my colleague today, Senator WHITEHOUSE, who has been such a leader when it comes to the DISCLOSE Act and that part of our democracy, as well as voting, to make sure we keep our democracy and make the case that our democracy does not work if we do not have campaign finance and things that are transparent and know where that money is coming from, because it drowns out the voices of everyday people.

Senator KING is with us today on the floor. He is a member of the Rules Committee. He introduced, with Senator DURBIN and myself, the original reform to the Electoral Count Act and has been a true leader when it comes to voting reform.

The Presiding Officer herself will be addressing this from the great State of New Hampshire, where they understand a little bit about a democracy and freedom and what that means.

Then Senator MERKLEY, the original sponsor of the For the People Act, which really set the table for the discussions we have been having on voting rights and the close vote we had when it came to finally passing the Freedom to Vote Act—that was built on the work that Senator MERKLEY and many others did on the For the People Act.

Nearly 2 years ago, a violent mob of insurrectionists stormed into this Chamber right here. We are looking at the desks they were opening up. We are looking at the presiding dais, which they invaded. They desecrated our Capitol. They interrupted the hallmark of our democracy, the peaceful transfer of power.

Just this last week, we gave the Capitol Police and the DC Metro Police—the police who protected us that day—the Congressional Medal of Honor. So many brave officers were there for us, and democracy prevailed that day.

But what we have learned is that what the insurrectionists didn't finish with bear spray and flag poles in the U.S. Capitol, others have tried to do with voter suppression laws, nonsense lawsuits, and threats of violence. They have literally attempted to shut down the rule of law, to shutter our voting laws, and they literally have mocked and made fun of political acts of violence.

Simply put, we know that Federal action was and is needed. That is why we introduced the Freedom to Vote Act

to protect every American's right to vote in the way that works best for them. Through a summer of intense negotiations, we got all 50 Democratic Senators on board. Sadly, our efforts were halted by the filibuster. But we did not give up and we have not given up on that bill, as well as the John Lewis Voting Rights Advancement Act.

Still, we are making progress in other places. A number of State voter suppression laws have been thrown out by courts, including by conservative judges. A number of State legislatures have taken action to protect the right to vote.

Finally, just this week, as part of this omnibus bill before us, we are on the verge of getting the bipartisan Electoral Count Reform Act signed into law. We thank Senator MANCHIN and Senator COLLINS for their leadership, as well as so many other Senators who were part of that effort.

I thank the members of the Rules Committee. We were able to get the bill, with some changes that Senator BLUNT and I worked on together that were supported on a bipartisan basis, through the Rules Committee on a 14-to-1 vote.

This year, it became clear that our democracy itself is on the ballot. The American people could be moved to act, and opponents of democracy, as we know, tried to put election deniers on the ballot. But whether it was Democrats, moderate Republicans, or Independents, they rallied around people who would stand up for our democracy. In many States across the country, when it came to election day, the highest vote-getters were not the most famous politicians; they were the secretaries of state who in many cases were not household names but were running against people who were election deniers. They ended up, including in my own State, having the highest vote percentages, highest vote totals of anyone in the State.

So what about the Electoral Count Act? This is an antiquated law passed in the 1800s which was never meant to be a trigger point for an insurrection.

What we have done with this bill that I believe we will pass this week, is we have made it absolutely clear that the Vice President does not have the power to reject electoral votes.

We all remember the words, the horrific words, "Hang Mike Pence," uttered just a few yards away from the Vice President in this very building.

We need to also raise the threshold for objecting to electoral votes, so that it takes more than two of the 535 elected Members to gum up the counting.

Even before the insurrection, when Senator BLUNT and I looked at the objections that were going to be made, in many cases by one, two, three Senators, we realized it would take at least 24 hours to get through them. In fact, there was nothing stopping under this antiquated law a single Senator and a single House Member from objecting to every single State, including

the States that perhaps their candidate had won, just to gum up the works. That is why we have pushed for the Electoral Count Act.

Moving forward, we must address the root causes, not only of these antiquated laws, not only of voter suppression, but also disinformation and misinformation that allows lies that undermine our elections to go viral and violent.

On January 6, we saw the cost of these lies up close. That is why we have to address the impact of disinformation online on our democracy. We can start by looking at the liability protections that we have put in place. Back when, yes, internet companies were starting in garages, back at the beginning. We have a legal provision, section 230, that protects social media companies from liability for the posting and spreading of dangerous content on their platforms.

We know people are going to post things that are hateful, that aren't true. But the question is, when companies' algorithms are designed, in fact, to make money off of repeating those lies and expanding them, and, despite some efforts to reduce them, it keeps coming and coming and coming, I don't know why we would put in liability protection for that.

If someone were to yell "fire" in a crowded theater, that person would be liable. That is not protected speech. But if the theater had in rules that protected its patrons, they wouldn't be held liable for that. But what if the theater was a multiplex and it decided that they would broadcast the words of the person yelling "fire" in all of its theaters. Would we think that was OK?

Well, that is exactly what is going on with disinformation and hate speech on the internet right now. Companies are allowed to repeat hateful disinformation, and they actually can profit from it. And that is why many of us believe it is time to look at section 230 and the immunity that this Congress has given them.

In addition, Americans should know who is behind the political ads they see online. We need to put in place the same rules for social media platforms that currently apply to political ads sold on TV, radio, and in print. That is a bill I had with Senator McCain and now with Senator GRAHAM. It is time to bring that bill up for a vote.

Even though the FEC has made some changes, they are not nearly what we need to have in place to allow Americans to have the information that they need. Finally, we have to talk about protecting people's right to vote. In the 2020 election, in the middle of a global pandemic, more than 160 million Americans voted—more than ever before—in what the then-Trump Department of Homeland Security called the most secure election in American history.

A big reason turnout was so high in 2020 was that States went out of their way to make it easier for people to vote because of the pandemic.

In the wake of that record voting, we saw a coordinated effort by State legislatures to make it harder to vote. In 2021, 18 States passed 34 restrictive voting laws, but the people of this country pushed back.

Look at what happened in Georgia. There were concerted efforts to limit voting during the runoff and make voting by mail more confusing. Still, Georgians found a way to make their voices heard. Some observers will look at the result and decide that, oh, this was a threat, it was overplayed.

But to paraphrase my friend Senator WARNOCK, this outcome does not mean that voter suppression does not exist, it simply means that the people have decided their votes will not be silenced. That is what we are dealing with right now. And we should be making an effort to make it easier for people to vote, and the best way to do that is to set some minimal Federal standard for voting.

The last thing I would like to say is to thank Senator BLUNT, who has been my cochair of the Rules Committee. He has been ranking, I have been chair; I have been chair, he has been ranking. And we have worked together, especially on the issue of protecting election workers and making sure that Federal funding was allowed to go for that purpose.

It was Senator BLUNT and I who were the last Senators here at 4 in the morning on the night of January 6 with Vice President Pence. We made that walk through the broken glass, by the spray-painted pillars, with the three pairs of pages holding the mahogany boxes with the last of the ballots up through Wyoming. We got to the House Chamber, and democracy prevailed.

And after that, Senator BLUNT and I went downstairs—the sun was coming out—and visited the Parliamentarian's office. As I look at our valiant staff, right now, sitting there, what I remember is the chaos and destruction in their own office which had been targeted by the insurrectionists.

I remember the broken picture on the floor. I remember all the papers all over the place. That is what we saw that day, and that was forever, ever marked in my memory of how close we were that this antiquated law was being used as a reason for these insurrectionists to come into our very offices.

Senator BLUNT and I walked out of the Parliamentarian's office that day, sun coming in, and I still remember, he looked at me and he said, Well, I will see you tomorrow then. We have got a lot of work to do.

I am proud of the work we have done since then. And one of the most important things we have done is to reform this law. And I want to thank my colleagues that understand that that is just the beginning and not the end.

And with that, I will turn it over to Senator WHITEHOUSE. Thank you, Senator WHITEHOUSE, for your incredible leadership on campaign finance.

The PRESIDING OFFICER. The Senator from Rhode Island.

Mr. WHITEHOUSE. Madam President, first let me thank Senator KLOBUCHAR for organizing us to come to the floor this evening and for her leadership to support our elections. And we got lucky this year. There is good news. Democracy prevailed against the Big Lie, and most of the State election deniers lost their races. So that is a good news story.

Unfortunately, we have a lot of work left to do to safeguard our democracy from the twin threats of dark money, which is a seeping poison—a toxin—in our political system, and a runaway Supreme Court that dark money built.

Dark money political spending went from under \$5 million in 2006, when Senator KLOBUCHAR and I were elected to the Senate, to a billion dollars in 2020. A billion dollars in 2020.

And outside group spending from billionaires and special interests has climbed to \$2.1 billion in the midterms, and most of that outside spending is anonymous. It is dark money.

This torrent of dark money looses a tide of secret influence—improper, ungovernable, corrupting, secret influence. And Americans despise it. They understand what is going on. More than 90 percent of Americans support ending dark money through greater transparency for political spending, because when some big special interest is spending 2 billion, you know that the American people aren't winning.

My DISCLOSE Act would have stopped it. Unfortunately, not one Republican would vote for it, so we have work to do to build public pressure to make sure that the DISCLOSE Act becomes an irresistible force.

When \$2 billion comes into one election from big special interests, you can bet on one thing, and that is that the people will not be heard.

Now, over at the Court, \$580 million, at least, has been spent to acquire a Supreme Court eager to hand major wins to big Republican donors and the party. The Campaign Legal Center has described this as perhaps the most anti-democratic court ever. And if you look at their record, you can see why they say that: all the voter suppression, all the partisan gerrymandering, and, now, in a case before them called *Moore v. Harper*, potentially taking on an extreme theory, a debunked theory, the independent State legislature theory, which would unleash chaos in American elections by letting partisan state legislatures ignore their State constitutions regarding elections.

Well, I filed an amicus brief with Representative HANK JOHNSON highlighting the individuals and funders behind amicus briefs in that case who pushed that fringe legal theory in their efforts to overturn the 2020 Presidential election, but didn't disclose that to the Court.

There was a group called the Honest Elections Project that turned up there which didn't disclose to the Court its

connections to groups that spent tens of millions of dollars to put those Justices on the Supreme Court. That is a conflict of interest. It is potentially a due process violation, and at a minimum, it ought to have been disclosed.

The Court that dark money built is increasingly a danger to democracy itself. Dark money is dangerous because it is a tale as old as time that secrecy breeds corruption. And in a great democracy like ours where the people are supposed to rule, where citizens are supposed to make the decisions, to deny the people, to deny the citizens the basic information about who is behind what organization, to hide who is behind what jersey on the playing field is a grave disservice to democracy.

Dark money influence on our politics and dark money influence at the Court have got to be put to an end.

And with that, I will yield to the distinguished Senator from Maine, Senator KING.

The PRESIDING OFFICER. The Senator from Maine.

Mr. KING. Madam President, democracy, our system, is an anomaly in world history. The norm are pharaohs, kings, dictators, emperors, Presidents for life. That is the norm. The vast sweep of human history is all about authoritarians running their society. The idea that the people can actually participate in the building and operating and electing and creating their government is an unusual one. It is an anomaly in world history. That should tell us something, because that means it is fragile, and we have seen how fragile it can be.

On January 6, our entire democracy came down to the integrity and courage of one man: Mike Pence. If Vice President Pence had succumbed to the pressure—enormous pressure that he was under to try to throw out certain electoral votes and choose and count others, we would have been in literally uncharted constitutional territory. There is no telling how that chaotic situation would have been resolved.

Our system is unusual, and it is fragile. Likewise, the secretary of state of Georgia, a Republican, a strong Republican who voted for President Trump, what if he hadn't done the right thing? What if he had responded to President Trump on that infamous phone call by saying, I will see what I can do to jiggle the numbers and find those 11,770 votes. Where would we be?

The point is we should not put ourselves in situations that depend expressly upon the luck and good fortune of having the right people in the right place at the right time. Our institutions—our institutions should be solid and viable and work regardless of who is at the levers of power.

The electoral college and the Electoral Count Act is a timebomb under the edifice of democracy. I rarely disagree with Alexander Hamilton, but if you read the 68th Federalist where he justifies the electoral college, he just gets it wrong. Actually, he doesn't so

much get it wrong, history proved him wrong because the electoral college never worked in the way he described it.

We have to realize that the Framers were a little bit suspicious of democracy. The only institution in our government in 1787 that was popularly elected was the House of Representatives. Senators were elected by State legislatures until the 20th century. Presidents were elected by the electoral college, and, of course, Supreme Court and court judges were appointed by the President and confirmed by the Senate. The only popular elections were for the House of Representatives.

Now, Hamilton's concept for the electoral college was that it would be a sort of council of elders. In fact, when you read the 68 Federalist, he doesn't even think about the electors being pledged to a particular candidate; he basically says the people of each State will elect wise people to come together to select the best qualified person for President. He used an amazing phrase in light of what happened on January 6. He said: The system we proposed is "not perfect, it is at least excellent." But then he goes on to say: "It was also particularly desirable to afford as little opportunity as possible to tumult and disorder." Well, that is the definition of what happened here on January 6, was tumult and disorder that was created by this edifice that has never worked.

I, for one, think we should abolish the electoral college. The people of the United States should elect their President, and the votes of the citizens of each State should count equally instead of getting into this game situation where you go to particular States, you ignore other States, and some States, you know where the votes are going to go. I think the people of America should choose their President. That is what we all think we are doing on election day, and yet, as we learned on January 6, we have created this structure which never worked as Hamilton and as the Framers envisioned it that has turned into a kind of Russian roulette with our democracy.

So, in the 1876 election, it almost broke down. It was so close, nobody could decide who won. They ended up with a Commission to decide the election, which turned out to be a dark chapter in American history because that Commission ended up resolving the Presidency between Hayes and Tilden on essentially a corrupt deal. The deal was, Hayes could become President if he agreed to end Reconstruction in the South. Of course, that led to 70, 80 years of Jim Crow—not a happy experience in our history.

After that experience, the Electoral Count Act was passed—well-intentioned to try to solve some of the problems that were manifested in the Hayes-Tilden election of 1876, but the problem is, it is a terribly drafted law. Scholars, politicians, lawyers all concede it was confusing, ambiguous, and,

again, led to the problems of January 6.

I should also mention that Presidents who won the popular vote almost universally in our system also won the electoral college. Recently, that hasn't been the case. Twice in this short century, we have had Presidents elected by the electoral college who lost the popular vote by millions of votes. So is that a reflection of what we all think our democracy is all about? I don't think so.

The bill that we have before us now is, I believe, one of the most important pieces of legislation in this Congress because it deals with the structure of democracy itself. All of our policy issues, whether it is the Defense Department, Ukraine, all of the policy issues—healthcare—all of those things are critically important, but the infrastructure that underlies the system is even more important. We can't do good policy if we don't have a solid underpinning of a structure of our democracy. That is why the bill that is now part of the budget bill, the omnibus bill, is so important.

The bill is bipartisan. I think that is critically important. I sat in the Rules Committee. It passed 14 to 1, supported by Leader MCCONNELL and supported by Leader SCHUMER—14 to 1. I rarely see votes like that in that committee. But because there was universal realization that we needed to do something about this, we had a hearing on it, and I remember Senator BLUNT speaking at the end of that hearing and saying: This is something we need to take care of before the end of this Congress. That was a very important announcement and has led us to this moment. We had hearings. We brought in experts from across the country—election experts, legal experts. We made changes to the bill.

The bill came to us as a result of bipartisan negotiation led by my colleague Senator COLLINS from Maine and Senator MANCHIN of West Virginia and a group of Senators who came together organically to create this bipartisan piece of legislation.

What does it do? It is really pretty straightforward. It clarifies the role of the Vice President. The role of the Vice President is what we call ministerial; that is, just simple—count the votes, pick them out—not policy. We clarify now, forever, and always that the Vice President does not have a substantive role in deciding which votes should count.

It raises the objection threshold from 1 to 20 percent. Right now, under the Electoral Count Act, one Senator and one Representative can object to the votes of any State, and then we have to go through a process in either House which can go on for a lengthy period of time. But it is only one person. What we do in this bill is, it has to be 20 percent of the House or 20 percent of the Senate. That way, you are sure that the objections have some substance, some merit, and aren't just the fantasy

of one or two people. So that is one of the pieces of this bill. It raises the objection threshold.

It ensures a single, accurate slate of electors, to be clear of what the rules are in each State.

It expedites judicial review. That is important because, right now, it is unclear how disputes are resolved. What if a Governor, for example, refuses to certify an election in their State? This law gives a path to the judiciary—expedited consideration, expedited consideration to the Supreme Court—to decide these disputes so that we don't have a lengthy period of uncertainty in how our democracy is supposed to work. It also prevents mischief like moving and canceling an election for anything but the most extreme problems.

I think this is the most important bill this Congress will consider.

There is a lot more to be done. It doesn't solve every problem involving our election, as our other speakers have noted. There is a lot to be done about the casting and counting of votes. There is a lot to be done about campaign finance. But this is an important building block that we need to attend to.

I want to end by thanking Senator MANCHIN and Senator COLLINS, who formed the group who brought the bill forward. I want to thank my colleagues AMY KLOBUCHAR and DICK DURBIN, whom I worked with early on to develop a first draft of this legislation. I want to thank Senator KLOBUCHAR and Senator BLUNT for their leadership on the Rules Committee and Senators SCHUMER and MCCONNELL for working together to form a bipartisan consensus that this is an important piece of protecting the fundamental structure of our democracy.

As I said, what we have in this country is unusual. It is an anomaly in world history. It is fragile, and we have to at all times be vigilant and diligent in protecting it and maintaining it and filling in those cracks in the Union to make it more perfect.

Ronald Reagan made a wonderful observation about the every 4 years inauguration of a President. He said it is a "commonplace occurrence" and it is a profound occurrence. It is profound because it is commonplace. The peaceful transfer of power is what distinguishes our system from almost all others in the world. We have to be sure that continues to be the North Star of our democracy.

I yield the floor.

Mr. DURBIN. Madam President, last March, the Department of Homeland Security's Office of Inspector General released a report which revealed that the Department's intelligence division had identified "specific" threats related to January 6 before the deadly assault on the U.S. Capitol. But the report said that the Trump-era DHS did not share the intelligence about those threats with other key law enforcement partners until 2 days after the

mob stormed the Capitol. By then, no one needed a warning.

In an article in the Washington Post a few days after the 2020 election, a person identified only as "an anonymous senior Republican official" shrugged off Mr. Trump's unprecedented denial of President Biden's victory. He asked: "What is the downside for humoring him for this little bit of time?"

Now, we know. And now, we also know the catastrophic harm that can occur when people ignore the growing threats to our democracy and normalize the dangerous rise in threats of political violence and actual violence in our Nation.

Two weeks ago, hundreds of officers from the Capitol Police and the Washington Metropolitan Police Department filled the Capitol Rotunda. They were here to receive the Congressional Gold Medal, the highest honor that Congress can bestow. There were also officers who weren't there, who fought the mob and died in the days and weeks after. In his remarks in the Rotunda, Leader SCHUMER praised the officers for "holding the line" and saving the Capitol. And truly, we can never thank them enough. They are the heroes of January 6.

But what about the man who summoned the mob—whipped them into a fury with his Big Lie and turned them toward the Capitol, ordering them to "fight like hell" and "take back our country"? When will our Republican colleagues accept their responsibility to "hold the line" against Trump's increasingly unhinged agitation for political violence and authoritarianism?

Donald Trump's handle on his social media website is "realDonaldTrump." Earlier this month, he showed the world again exactly who the "realDonaldTrump" is. After repeating his Big Lie about a stolen election, he demanded "the termination of all rules, regulations, and articles, even those found in the Constitution." If given the chance again, can anyone doubt that Donald Trump would undermine or even suspend our constitutional order if it meant he could entrench himself in power and avoid accountability for his actions?

Fortunately, for democracy, the truth seems to be closing in on Donald Trump. Yesterday, at their final public meeting, the members of the bipartisan House Select Committee investigating January 6 voted to refer the former President to the Justice Department on four criminal charges. The proposed charges are historic and devastating: inciting or assisting an insurrection, obstruction of an official proceeding, conspiracy to defraud the U.S. Government, and conspiracy to make a false statement.

Ultimately, it will be up to Attorney General Garland and Jack Smith, the independent special counsel he has appointed to oversee the portions of the DOJ's investigation relating to Trump himself, to decide whether to bring

such charges. As the Select Committee finishes its work, however, I want to once again thank the committee members for their meticulous work and their courageous pursuit of the truth.

The work of the House Select Committee on January 6th confirmed a key fact that the Senate Judiciary Committee learned in our own investigation: that Trump was told repeatedly—by his own Justice Department appointees—that fraud did not affect the outcome of the 2020 election. Trump knew the Big Lie was a lie, and he repeated it anyway. He knowingly, deliberately poisoned the well of American democracy to try to hold on, illegitimately, to power.

Thankfully, the recent midterm elections have shown that the American people increasingly reject the Big Lie and those who continue to peddle it. The cynics who said that democracy wasn't on the ballot last month were wrong. In key swing States, voters rejected every election denier running for statewide office that Trump backed.

And yet the threat to American democracy is not over. Here in the Senate, we have a few Republican Senators who have spoken out bravely against Trump's lawlessness and demagoguery. But we have others who refuse to say a word against him. And a significant number of the members of the new Republican majority in the House are election deniers. MAGA Republicans at the local, State, and Federal levels talk a lot about patriotism and individual liberties and freedom.

But the truth is far different. What many MAGA Republicans really want is to eliminate rights they don't agree with, including the right to marry the person you love, the right to determine whether and when to have a child and even to use contraception, and the right to retire in dignity with the Social Security and Medicare payments you have earned over a lifetime of work.

If they are serious about protecting America, Republicans need to denounce the Big Lie and defend the legitimacy of our elections—the pillar of our democracy. We need to insist that everyone who was involved in January 6 is held accountable. We need to come together to reject the tools used to weaken democracy, especially voter suppression and political gerrymandering meant to disenfranchise our fellow citizens. We also need to limit the growing cancer of dark money on politics.

And if we are serious about reducing the growing threat posed by domestic violent extremist groups and individuals fueled by White supremacy and other far right extremist ideologies, we ought to pass my bill to create offices dedicated to combatting domestic terrorism at DHS, DOJ, and the FBI. You can't give a thumb's up to the January 6 mob—and pretend to care about democracy.

One of the most searing images from January 6 was the young, Washington

Metropolitan police officer being nearly crushed in a doorway. Members of the mob ripped off his mask and tried to gouge out his eyes. He ended up hospitalized. A week later, that officer, Daniel Hodges, told a reporter: "It was absolutely my pleasure to crush a white nationalist insurrection. I'm glad I was in a position to be able to help. We'll do it as many times as it takes." He also said, "If it wasn't my job, I would have done that for free."

Defending the basic freedoms of democracy for all Americans and confronting the growing threats of political violence and domestic terrorism is our job. And it ought to be at the top of the agenda when we return to work next month.

The PRESIDING OFFICER (Mr. WHITEHOUSE). The Senator from New Hampshire.

Ms. HASSAN. Mr. President, I am grateful today to join my colleagues as we continue to sound the alarm about the ongoing serious threat to our democracy. This is a perilous time.

I want to thank Senator KLOBUCHAR for her leadership on this issue and all of the rest of my colleagues who have been so eloquent tonight and I know will be eloquent tonight, who are here today to highlight the challenges to democracy we are currently facing and the opportunities we have to protect it.

I am honored to represent New Hampshire, a State that does democracy better than anywhere else. I want to start by talking about one of my favorite New Hampshire events.

Shortly after I was first elected Governor in 2012, I attended our statewide Veterans Day ceremony at the New Hampshire Veterans Cemetery, a remarkable, serene, beautiful space in the heart of New Hampshire. I had attended that ceremony in the past, but on this particular Veterans Day, I had just days before and for the first time been elected to statewide office to lead and protect my State. My predecessor was also at the ceremony, as were current and soon-to-be Members of Congress, members of the current State legislature, and those who had just been elected.

New Hampshire had seen a pretty dramatic change at both the State and Federal level. Two Democratic Congresswomen had won election, replacing Republicans. The State house of representatives had flipped from Republican to Democratic control in pretty dramatic fashion. But despite these changes, State and Federal elected leaders, veterans and their families, and citizens from all walks of life who wanted to ensure that our veterans knew how much they, the veterans, matter were all there—there to celebrate the people, the citizen soldiers who had stepped up in every generation since our country's founding to keep us safe and preserve our democracy so that the rest of us could live in freedom.

I have always loved this confluence of election day and Veterans Day. On

an early Tuesday in November, Americans flood to the polls to cast their votes, expressing their hopes for the State and country that they envision and want to be a part of, confident that they have a voice as stakeholders in our democracy. And then just days later, they join their friends, neighbors, political allies, and opponents to honor our veterans and the principles that they sacrificed and fought for, the foundational idea that every person in our democracy matters and has the opportunity to be included in our civic life.

Just days after a pitched political battle—as my dad would have said, "a war of words"—we were together standing united to support those who serve and have served and in doing so, to support the remarkable idea that is the United States of America.

This unifying moment year after year, election cycle after election cycle, didn't happen by accident; it happened because Americans have understood since our founding that the cornerstone of our democracy starts with free, fair, and impartially administered elections.

Throughout our history, we have failed and then struggled to include and treat equally all Americans, but as we have made progress to acknowledge the full citizenship of all of our people, we have committed to expanding voting access and to protecting an impartial electoral system that ensures the full and fair counting of all votes cast.

The acceptance of the outcome of these elections so that our country can continue to function, grow, become more inclusive, and thrive has been essential, not just for the sake of stability but for the sake of a democracy in which the government is truly responsive, truly of, by, and for the people, a government so responsive that a constituent, a 9-year-old little girl named Jada, can approach her Senator to talk to her about the sadness in her family after a beloved cousin died of an opioid overdose and expect her Senator to take her seriously and work to expand access to prevention and treatment services for those with substance use disorder; a government so accessible that a constituent named Sy can approach his Senator at a business in town and thank her for passing the Burial Equity Act, which allows those who serve in the National Guard or Reserves but aren't deployed to be buried in their State's veterans cemetery.

Sy, like so many of his fellow reservists, volunteered and was ready to answer the call and to sacrifice for his country, but he was never called up to do so. Artificial bureaucratic barriers prevented his service from being recognized in the same way that other military service is, but thanks to the advocacy of Guard men and women and reservists, that has now changed. Sy's service is being recognized, and he is being included, as he should be, in the remarkable legion of citizen soldiers that has kept this country free, and he

can now be buried in a sacred place of honor.

Jada's voice counts. So does Sy's. Their experiences and their lives matter and, in a true democracy, so do their opinions and their votes.

But the question for Americans today is this: For how much longer will the voices of everyday Americans count?

As we all know, in November, in State after State, including in New Hampshire, democracy was on the ballot. There were, in fact, candidates who questioned the sacred right to free and fair elections, individuals who expressed their willingness to overturn the 2020 election and their willingness to try to reject or overturn election outcomes in the future if their preferred candidates didn't win.

I want people to think for a moment about what this means. These candidates were open in their willingness to reject the votes of their fellow citizens, leading to a system in which those in power are unaccountable and therefore unresponsive to the people they claim to represent.

In race after race, anti-democracy candidates proposed extreme, unpopular agendas, whether it was eliminating Social Security and Medicare or imposing a nationwide abortion ban—ideas that voter after voter opposes. This disconnect, of course, explains their election denial. In a functioning democracy, the few cannot impose an extreme, unpopular agenda on the many. The only way for these extremists to accomplish their goals is to reject the votes cast by the majority.

The welcome news is that, in many cases, the American people rejected some of the most vehement election deniers.

On a brisk, cold Tuesday this November, Granite Staters, like millions of Americans, once again went to their polling places to cast their votes. They did so not with the expectation that their preferred candidates would win but, rather, that their individual votes would be counted. They did so at middle schools and townhalls before work and while grabbing lunch, and they did so in New Hampshire in record numbers. Voters recognized the real threat posed by those who would undermine our democracy. They saw the need to reject those who would disenfranchise them. They used their votes and their voices to stop those who would have otherwise jeopardized our democracy.

In November, democracy prevailed, but that does not mean the work is over. We know that while many election deniers lost their races, some won, and some remain in Congress. Those who threaten the integrity of our elections will remain persistent in their efforts, and those who stand on the side of democracy must remain persistent as well.

Our Founders understood just how fragile our democracy was, and the generations of Americans who have followed have understood it as well. If we

are to live up to their example and if we are to ensure that people like my constituents Jada and Sy are included and can make a difference, Americans must continue to do all that we can to uphold our freedoms and democracy.

In Congress, this means that we must continue to fight for access to the ballot box and share a commitment in accepting the results of elections. We can do that by supporting legislation like the John R. Lewis Voting Rights Advancement Act and the Freedom to Vote Act. This week, we will take an important step forward by passing the bipartisan Electoral Count Reform Act.

Across the country, we must continue to do what the American people did this year—reject those who would end democracy as we know it. If we are truly to remain a government of, by, and for the people, we must stand up and ensure that its foundation of free and fair elections truly accessible to all eligible voters remains protected for generations to come.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. MERKLEY. Mr. President, I am delighted to be here with my colleagues tonight and with the chair of our Rules Committee, AMY KLOBUCHAR, who worked so hard and so intensely on the For the People Act and on the For the People Act 2.0, the Freedom to Vote Act, which was sought to address the foundations of democracy in our country.

I am delighted to be here with the former Governor and Senator from New Hampshire, who really understands from both the State and national perspective the importance of the rules of democracy, and my colleague from Maine, who was just speaking about the election of 1876, which had so many parallels with the election of 2020 because in that year, there were four States that submitted two different slates.

The Republican Party said: Let the Vice President decide because he is targeted in the Constitution to receive the ballots.

The Democrats said: Well, he is not given the power in the Constitution to decide which slate of ballots to accept.

That led to a standoff and a Commission that was a setup of five Senators, five House Members, and five Supreme Court Justices to try to decide which slate of ballots to accept.

As you pointed out, that election led to the Electoral Count Act for the first round. Ten years later, they rewrote it again, but it wasn't sufficient.

I just want to compliment him and the work that the entire set of Senators did to bring forward a much improved version that will be included in the omnibus bill we will be considering.

As I am here with my colleagues, pondering—pondering—the state of our democracy, the state of our Republic, I can't help but think of that story from Benjamin Franklin at the Constitutional Convention.

In seeing him walk out of Independence Hall on the last day of the Convention, a woman came up and asked Dr. Franklin: Well, Doctor, what have we got? Is it a republic or a monarchy?

Dr. Franklin replied, "A republic if you can keep it."

"A republic if you can keep it"—recognizing the challenge of sustaining this framework in which we voluntarily work together to have a system of ballot integrity, of registration integrity, of voting integrity, and, in fact, of counting the ballots with integrity.

If I go back to that battle of 1876, the deal that was struck was a dark deal. It was a deal which said, as my colleague Senator KING pointed out: Even though one candidate was one vote short of winning the electoral college, we will give those four slates to the Republican if the Republican will pull the troops out of the South and Reconstruction.

What that meant was ending civil rights for Black southerners not for one or two generations but for the better part of three-quarters of a century, three generations. It was a terrible, dark, evil deal that came out.

But, in this body, there was a Senator who said: We need to restore those rights to the South.

He waited through 1888 and on into 1890 until there was a possibility of passing a bill that would protect voting registration, voting at the ballot box, and the counting of the votes. It was called the Lodge Act. Sir Henry Cabot Lodge from the House, who later came to the Senate, supported it and sent it over here. Senator Hoar proceeded to champion it in this body, but it was a filibuster by southern Democrats who killed that bill—a filibuster later accompanied by support, actually, from northern Republicans, who wanted to get to a tariff bill, the McKinley Tariff Act. It was supported by western Republicans, who wanted to get to the silver currency bill. In other words, people from all over the country in this Chamber failed to stand up for the civil rights of every American.

It is indeed true that our institutions are far more fragile than we ever anticipated. We believe in the vision of a republic. And how does that differ from the vision of a dictator? It differs from a dictator or a King in that power flows up from the people; it doesn't flow down from the powerful. But we have seen a steady erosion of that vision here in the United States of America.

With the wealth inequality, we have come to see that there is an incredible loss of government of, by, and for the people. Let me explain. When you get that kind of power concentrated at the very top, that money becomes sets of lawyers who work 24/7, 365 for the powerful and against the people. When you get that kind of concentration, you get media campaigns spending huge sums of money to change how people think about issues—power for the powerful, not government by the people.

Then let's think about the fact that that same set of powerful are using campaign funds to get the outcomes they want and they are using dark money.

My colleague Senator WHITEHOUSE was talking about the DISCLOSE Act and how important it is that we at least have transparency. Where are these hundreds of millions of dollars from the richest Americans and most powerful corporations coming from, and what is their goal? At least we should know the who. The Supreme Court has said they cannot be stopped under kind of a corrupted vision of free speech; they can't be limited under that Supreme Court decision. But at least we can know the who and have the American people understand better who is behind the funding. That ending of dark money is so important.

Gerrymandering. It is estimated that down the hall in the House of Representatives, there is a 20- to 25-vote bias in favor of one party over the other because one party does more gerrymandering than the other. Well, neither should do that, and it is our responsibility to end that corrupt distortion of equal representation.

Then to the ballot box, there have been 34 laws passed in 19 States that are aimed at one mission, and that is to stop targeted groups of Americans from voting. And who are those targeted groups? Those targeted groups are Black Americans and Hispanic Americans; low-income, inner city Americans; Native Americans on reservations; college students—laws deliberately designed in a laser-focused manner to block certain groups of Americans from voting. That is the powerful who don't want to have the voice of the people working for the people.

We had, last January, a chance to pass a bill in this Chamber, just like they had in 1891, for the civil rights of all Americans. For us, it wasn't the Lodge Act. For us, it was the Freedom to Vote Act—the freedom to vote—that would take on gerrymandering; that would end anonymous dark money; that would proceed to ensuring that every American could get to the ballot box in a fair fashion to vote.

You know, it was in 2020 that we had one State where the wait time to vote in predominantly Black precincts was 5 to 10 times the wait time in White precincts. Don't tell me that is somehow acceptable in the United States of America, that kind of racial bias baked into our election system. It was deliberate. It was planned.

Why is it that President Trump hated vote-by-mail? Well, let me explain it to you. He hated it because it let people get to the ballot box whom he didn't want to vote. He wanted people to have to vote on election day because on election day, you can really, really play the game.

You can move the voting locations from where they were the previous election so people don't go to the right

place. In the places where you don't want people to vote, you put them where there are no parking lots so that it is hard to vote. You put out false information about when the election was, saying: So sorry you missed it. Even though it is this coming Tuesday, people will think it was the last Tuesday.

You can manipulate and obstruct targeted groups of Americans and prevent them from voting much easier on election day than you can with vote-by-mail.

My State of Oregon initiated vote-by-mail. It is the most secure system in the country—every signature compared. You would be more likely to be struck by lightning than be able to find a mistake made in which somebody voted intentionally who wasn't allowed to vote. It is incredibly secure, incredibly appropriate to counteract all of those schemes on election day designed to target Americans.

My colleagues, we have so much work to do to defend the very foundation of our democracy. It is the ballot box. It is the ballot box.

We have to take on the gerrymandering; we have to take on the dark money; and we have to defend the opportunity of every American to vote.

If you came into this room and you swore an oath to the Constitution, you have a responsibility to defend that Constitution and defend the integrity of the ballot box.

The PRESIDING OFFICER (Ms. HASSAN). The Senator from Minnesota.

Ms. KLOBUCHAR. Madam President, I want to thank the Senators who did such a tremendous job today really going through all the arguments for why our democracy is still fragile, why we must stand up for a democracy—so many good ideas.

I especially want to thank Senator WHITEHOUSE for never giving up hope when it comes to campaign finance reform.

I think of John McCain, if he were sitting in here right now—we miss him very much, a friend of both Senator WHITEHOUSE's and mine—and how he stood up for campaign finance reform because he knew it wasn't a Democratic or Republican issue; it was all of our issues.

I think of Senator MERKLEY's incredible diligence and his incredible command of the rules of the Senate and how we can make this place work better, and then Senator KING's very Maine-like independent take on all this, and then, Madam President, your incredible remarks, tying it into—I hadn't thought about that fact, that on Veterans Day, which is always after the election—and your dad's words that an election is just a war of words and it is something you go through in a democracy and it could be really tough, but it is nothing like a real war when people are putting their lives on the line. So thank you for that.

DREAM ACT

Madam President, I wanted to turn to two other issues that are still on our

plates in such a big, big way—still integral, actually, to our own democracy and what we stand for.

The first one—and I am going to be putting later into the RECORD some remarks of Senator DURBIN, who has been such a big supporter of the Electoral Count Act and the like. This is another area—another important, major, major moment for democracy that Senator DURBIN has been leading on, and that is the urgent need to ensure Dreamers can remain here.

I was proud to support and cosponsor his efforts in the past on not just the comprehensive immigration reform, which we know included protections for Dreamers that we passed and which I strongly supported out of the Judiciary Committee—when I first got to the Senate, Senator KENNEDY asked Senator WHITEHOUSE and myself to be the first new Senators involved in the immigration effort, which included protecting Dreamers that President Bush supported. Each time, sadly, we have been stymied in getting this into law. President Obama moved on his own with Executive orders to protect Dreamers, and now their status continues—continues—to be in limbo.

There is an urgent need right now to ensure Dreamers can remain here in the only country that they have ever called home.

We know them in our community as teachers and healthcare workers, builders and firefighters, reporters and entrepreneurs. Like generations of immigrants before them, they have made our country better; but for too long, their livelihoods have been subject to the whims of court decisions and partisan politics.

They are incredibly sad and frustrated that Congress has not been able to come together to make progress. Comprehensive immigration reform should include a pathway to citizenship for Dreamers, or at least right now in this Chamber, we should pass the Dream Act.

I have been working on this for years. We have, many times, come razor-thin close to getting it done. We passed a bill in the Senate, then the House doesn't act; we are close to getting a deal, even during the Trump administration, then the Trump administration gut punches us. You, Madam President, were part of that agreement that would have guaranteed a place in our country that is already in our hearts for our Dreamers.

We cannot wait another day to pass the American Dream and Promise Act and provide these Dreamers with the stability and security that they deserve. They know no other country. Many of them, for decades, have been here working.

I know that Democrats support this bill, and I know that there are a number of Republicans who do, but we are never able to overcome the opposition on the other side of the aisle that is there to bring it forward. The time is long overdue, and we must pass the Dream Act.

AFGHAN ADJUSTMENT ACT

Madam President, the second issue on my mind tonight is the work that we must do with the Afghan Adjustment Act.

This is a bill that I have been working on for the past year. I want to thank Senator COONS, and I want to thank Senator LINDSEY GRAHAM for working with me on this bill. I also want to thank our other cosponsors who include Senator BLUNT, Senator BLUMENTHAL, Senator MURKOWSKI, Senator SHAHEEN, Senator MORAN—who has joined the bill after we made some changes to strengthen the vetting process; his support is very important—Senator LEAHY, Senator WICKER has joined us on this bill now, the incoming ranking member of the Armed Services Committee. Why is that? Because this bill is so important to our military.

So many of these Afghans have worked with our military. They had the backs of our military. They were their translators. They did all kinds of very, very difficult jobs to help our military and freedom in Afghanistan. And when they came to this country, so many of them thought we would be there for them.

Right now, their situation is tenuous, at best. They are in limbo. I can't tell you how many members of our military have come up and said: I don't understand. The Chief of Mission has verified their status.

Half of the Afghans—roughly half of them—who are here right now have been vouched for by our own military.

We have put together the Afghan Adjustment Act based on instructions from the past. We saw what happened to the Vietnamese and the Hmong—I know in my own State we have the second biggest population of Hmong in the country—that they came here and our country knew that we owed them something because they had stood with us. We put them on a path that involved green cards, which is what we are doing here.

All we are trying to do here is actually more intense than what we did back then. I just ask the other Senators to look at the Hmong and Vietnamese in their own communities. They are now many generations ahead. They are police officers. They are serving in the State legislature. They are pillars of their community. And in the Afghans, we have the same possibility.

I remind my colleagues: They are already here. That is why Senator WICKER has now joined us, because there is the belief—and Senator GRAHAM. I am hoping that we will have a group come together tomorrow to talk about this.

Senator GRAHAM understands as well as from his own service, when people have your back overseas in the hardest of times, you do not abandon them when they are in a hard time. That is going to get around the world if we just let them sit in limbo. So this is truly our moment to at least start this process.

What does it mean? Well, it means, according to this bill, that we will be doing a vetting of the Afghans who, I note to my colleagues, are already here. They will submit to additional vetting, including in-person interviews. It makes the process much more orderly and much more thorough, which is why you see conservatives joining this bill.

This bill has earned the support of some of our Nation's most revered military leaders, including Admirals Mike Mullen, William McRaven, James Stavridis, and Generals Richard Myers, Joseph Dunford, Stan McChrystal. They support this bill.

The Veterans of Foreign Wars—the VFW—supports this bill. The American Legion supports this bill. Their members have been here in Members' offices asking them to support it.

I cannot tell you how important it was to Senator COONS and myself to make sure that this bill was bipartisan in nature. We worked very hard all summer to strengthen the bill, to get at the concerns of our colleagues. That is why we have such a strong group of Senators supporting the bill.

This is our moment to get this done. If we are unable to finish it at the end of the year, I consider this not an end but a beginning. We are so close to getting—as I know from my discussions with my colleagues—more and more Republicans on this bill. I think that is because they understand that if we leave these people who helped us in limbo, what will people think the next time when they ask for our help in another country, in another war, in another conflict?

I implore my colleagues to join us in this effort. I am looking forward to tomorrow when we will have a bipartisan group of Senators take the floor. But I didn't want to let another day go by without mentioning how important it is to get this done.

I yield the floor. I know we have been joined by Senator LEE.

The PRESIDING OFFICER. The Senator from Utah.

H.R. 2617

Mr. LEE. Madam President, this bill before us is an act of legislative barbarism. This is an act of extortion being leveraged on the U.S. Senate right before Christmas.

Make no mistake why this happens. This bill, in all 4,155 pages of its glory or infamy, was negotiated in secret by four or five Members of Congress, excluding all others, which means that nearly 330 million Americans were disenfranchised in the production of this legislative behemoth. They wrote it utterly in secret, with the design of creating an artificial emergency, threatening a shutdown right before Christmas.

In fact, they set up government funding to expire the day before Christmas Eve, realizing that that is when Members are at our point of vulnerability. Members of both Houses and both political parties want to get home, under-

standably, to spend the holidays with their families.

It is also the moment when they realize that our constituents are most vulnerable, most fearful of something like a government shutdown. That is when the most pressure will be brought to bear on Members of the House and Senate, Democrats and Republicans, if, Heaven forbid, there were a shutdown.

So at this time of manufactured crisis, it is said that that is the right moment to unveil this bill that they have drafted in secret.

The part that is stunning is that enough Members of the U.S. Senate—a body that prides itself on being this world's greatest deliberative body—would choose to support this bill, never having read it. That really is stunning.

As an entity that strives to be the world's greatest deliberative body, we sure don't act like it sometimes. But we should. Our rules, our traditions, our customs, and our obligation to our constituents demand nothing less.

We and those we represent deserve proper, full consideration and the chance to read, debate, and amend this legislation and not get circumvented through some backroom deal. So opposing this legislation isn't radical. Running our government this way is, and it is indefensible.

It used to be, Madam President, that amendments and debate and discussion were a common practice of the legislative process. It is what the legislative process is all about, in fact. Now, these days, we have to beg, plead, and barter, feeling lucky for any legislative scraps thrown to us underneath the table. That is not the legislative process. It is certainly not a legitimate way to keep our government funded.

There is no greater priority, nothing more impactful than voting on legislation to fund the government, especially when you lump all of the 12 categories of appropriations bills into one giant bill, an omnibus spending package, as we call it. When you have something like that, in theory, you could have a fair process surrounding that, but you would need a considerable amount of time for public notice and debate and discussion and, yes, an opportunity for amendments. A bill like this could be rendered fair if it were cured through weeks of an open amendment process, where this was subjected to discussion and review under the light of day.

Yet here we find ourselves, having received this legislative text. It is not just us who have been excluded. It is not just we who have been excluded. It is the American people, it is the media who have been excluded from this process until less than 24 hours ago. And, all of a sudden, they drop 4,155 pages of legislative text, and they expect us to be ready to go within a few hours, to vote on it—and to vote on it under particularly extortive conditions.

They tell you: OK, we have got this bill now. This bill is ready for you. It is up to you. You have earned your election certificates. You are free to vote

yes, or you are free to vote no. But, by the way, if you vote no, you will be causing a government shutdown, and we will make sure that you are blamed for a government shutdown. And, by the way, we will also threaten to take away not only your Christmas but the Christmases of millions of Americans in the process.

That is not fair. That is not free. That is not operating our government as the constitutional Republic that it was intended to be. It is not even a representative government at that point. That becomes a legislative oligarchy in which a small handful of people—we might call it the law firm of Schumer, McConnell, Pelosi, and McCarthy—puts together a bill entirely in secret and then uses extortion to extract votes out of it.

Tragically, a number of Members seemed to express gratitude for their ability to vote on the finished product: Oh, thank you to our legislative overlords. Oh, thank you. Thanks for making this possible. Thanks for making it happen.

It poses some real problems. We find ourselves in a precarious economic position as a country. We have accumulated over \$31 trillion in debt. We have seen Federal spending explode astronomically just over the last few years. Prior to the COVID-19 pandemic, we were spending no more than about \$4 trillion a year. That was still a lot of money then; it is still a lot of money now.

But if we were just spending now what we were spending then, our budget would be almost balanced. Last year we brought in over \$4 trillion in revenue, and it hasn't been more than just a few years ago that we were spending only \$4 trillion a year.

But what happened during and since the COVID-19 pandemic, commencing in 2020, changed everything. We went from spending about \$4 trillion a year to 6.5, then 6.8 trillion a year. It still hasn't gone back down completely. We are on track to spend about \$6 trillion this year.

That is one of the problems when we fund with numbers this big. The numbers million, billion, and trillion start to run together, and I have made that mistake enough times.

I want to be very clear. So you go from spending \$4 trillion a year to \$6.8 trillion a year, \$6.5 trillion a year—still spending \$6 trillion a year. We are still borrowing, even this year, about \$2 trillion. That is such a staggering sum of money. The way our system works, doing more than just printing it—you have to go through additional steps of selling U.S. Treasury bonds, but it functions in a way that makes it feel almost indistinguishable from just printing money.

It certainly has the same effect on the economy as if you were just printing money because, by definition, inflation is the condition in which you have got too many dollars chasing too few goods. When you just increase the

money supply, you make it less affordable for people to do the things that they need to do. Everything gets more expensive. This is being felt everywhere.

In Utah, the average family is having to spend an additional \$1,000 a month every single month on their basic monthly expenses, not luxury items. I am just talking about the basics: housing, food, fuel, healthcare—\$1,000 a month more. The same basket of goods and services that they were purchasing just a few years ago—in fact, just before the day Joe Biden took office—those things were \$1,000 a month cheaper than they are now.

This is the predictable, foreseeable, and, in fact, foreseen result of the government spending trillions of dollars a year more than it has. It is creating huge problems, serious problems.

Yet no one has been able to answer the question: Why are we still spending \$2 trillion a year more than we are bringing in?

Now that we are looking at the pandemic of COVID-19 as something that is behind us—it doesn't mean the virus has gone away, but we are no longer in a pandemic lockdown situation—there is no reason why we should be incurring ongoing annual deficits of that magnitude. And it is not sustainable, and this is not a victim-free event. This has victims everywhere.

Look, rich people can figure out a way to get through inflationary periods just fine. They can absorb it. It means less to them. They have got savings they can rely on, assets they can liquidate. They will be just fine. In fact, most sophisticated rich people can find a way to get richer during periods of massive inflation because of the inflation itself.

It is really sad. The rich get richer, and the poor get poorer, and it is the government's fault. And it is our fault because we spend too much money. We are the ones causing it.

Bills like this pass. Members of Congress in both Houses and both political parties go out and brag about it. They, predictably, get a lot of praise by the media. They pretty much uniformly love it when we pass big spending bills and hate it when Members vote against it because they are not drinking the Kool-Aid.

So you get short-term praise by the media when you do this. You get criticism when you vote against it. That is why most of our Members end up voting for it, because they want praise. It is understandable to want praise, but at what cost?

When the rich get richer and the poor get poorer as a result of our terrible spending decisions, especially decisions for which a lot of our Members try to escape accountability by saying: Sorry, I didn't want provisions A, B, C, D, and E; I wanted only provisions F and G, and I couldn't get those in unless I voted for the whole package—that is how we get to be \$31 trillion in debt. That is how we get this Federal Gov-

ernment that spends like a drunken sailor in a way that puts drunken sailors to shame everywhere. That is how we get there, because you roll it all into one. This is the Prego spaghetti sauce of spending legislation. You name it; it is in there. It is all in there—4,155 pages long. That is pretty long.

Now, look, when I speak on the Senate floor, I am told that I average about 120 words per minute. I have been told at times that is a little too fast, that I should speak more slowly, but it is the rate at which I tend to speak. Even at this rate, if I were to read this bill, read it out loud on the Senate floor at my usual rate of about 120 words a minute, it would take me 5 straight days. And by 5 straight days, I mean the whole 24-hour period—no bathroom breaks, no sleeping, no lunch breaks, no anything else. Reading 24 hours a day, back to back, at 120 words per minute would take me 5 straight days. That sort of puts it in perspective.

Yet we have gotten this this morning. And, literally, by lunch we were receiving pressure to schedule a final vote on it. So you leave us hanging for months. The fiscal year ended on September 30. We have been operating with a continuing resolution since September 30, and all of a sudden, we get to December 20 and we are told: Oh, you have got to do this right now; we can't operate another day on a continuing resolution—because continuing resolutions are bad now. They are so bad, in fact, you are going to have to vote for this bill or else shut down the government. We can't do this for another day.

That is weird. But it is not just weird; it is devious. It is a corrupt process, and we all know it. The more we countenance this process by supporting bills like this and pretending it is OK when we know it is not, we impoverish the American people, and we do them a grave disservice. Shame on us for doing that.

Look, whether you are a Democrat or a Republican, a liberal or a conservative, you can see that people are getting hurt. You can see that people are poorer because of the Federal Government spending money that it doesn't have.

There are a small handful of people who will get rich off this bill. Everybody else will get poorer by degrees. It is harder to tie those who have gotten poorer and the fact that they are getting poorer—it is hard to tie any one of them—to any individual bill because it happens so subtly and so gradually. That is what makes this so evil by design. But it is intentional, and it is wrong.

The bill is being advertised as a \$1.7 trillion bill, something that is going to cost a total of \$1.7 trillion. But as budget analysis from a number of entities has shown, it is more than that. The Heritage Foundation has conducted some analysis of this bill, and it

has demonstrated that this bill will actually cost taxpayers at least \$1.85 trillion in 2023, thanks to these base appropriations, along with the emergency and disaster spending and the statutory pay-go waiver built into the bill.

Now, the authors of the bill recognize that if the bill were considered according to its own merits, it could not—would not—pass. And there are a whole lot of features in this that fit that description, that couldn't pass on their own. That is why they lump them all together. It takes priorities important to this Member and to that Member, you lump them all into one bill, and then you tell Members: You are not going to be able to vote for any of these things in isolation; so you had better vote for this one or else you will get nothing, and, by the way, you will be shutting down the government at the same time.

There have been a number of people who have helped go through the analysis line by line. My staff has done an enormous amount of analysis, and we have combed through this and tried to figure out what some of the highlights and the lowlights are.

My friend Scott Parkinson identified a series of the lowlights in one Twitter thread. He identified a few that I may point out here.

In one of them, which is good news for the outgoing Speaker of the House, NANCY PELOSI, she is going to have a Federal building named after her on Seventh Street in San Francisco. It will be called the "Speaker Nancy Pelosi Federal Building." Congratulations to her. It is great. It is great. Fantastic.

The Senate Appropriations Committee chairman, my friend and colleague, the distinguished Senator from Vermont, PAT LEAHY, has some earmarks, including a measure renaming the Lake Champlain Basin Program as the Patrick Leahy Lake Champlain Basin Program. That one came at a cost. We had to stuff \$35 million each year for the next 5 years in order to get that. That is a pretty expensive name tag. I mean, gosh, you can buy the naming rights to a major sports arena for a lot less than that. He got that one in.

But I have got to be bipartisan here. I am not going to make this a strictly partisan speech. We have other things in there. Apparently, there are some buildings in the State of Alabama that have yet to be named after our colleague RICHARD SHELBY. I love RICHARD SHELBY, a great man—RICHARD SHELBY, distinguished career. I guess there are some things in Alabama that still haven't been named after him. So he has gotten the facilities that the FBI has at the Redstone Arsenal. Those facilities have been named the Richard Shelby Center for Innovation and Advanced Training. That is great. Congratulations there.

If you are a fan of Presidential museums, this bill has some provisions you might like. This bill adds \$6 million to

the Ulysses S. Grant Museum. He has a museum already. I guess that museum needs some more bling in it. I don't know whether they are going to be gilding the walls of it, but they will have \$6 million to make it really nice.

Some of this stuff is really, obviously, in the category of brazen partisanship. We have \$1.7 billion that is being spent on transportation projects, specifically designed to help fight climate change. That is a lot of money—\$1.7 billion—going to fight climate change. It is not just transportation projects of the sort that are already needed. They are transportation projects specifically designed to fight climate change.

Something tells me that wouldn't have the votes to pass the Senate, if it had to stand on its own. In fact, I am absolutely certain it wouldn't. But never mind, that is what the omnibus is for—another Christmas miracle. Throw it in there.

Some of the more egregiously woke earmarks in the bill include \$1 million going to something called Zora's House in Ohio, which is known as a coworking and community space for gender-expansive people of color; \$750,000 for the TransLatin Coalition; \$956,000 for the Equity Incubator at the Universities at Shady Grove in Maryland; \$791,000 for equitable energy resilience and electric vehicle infrastructure in Sonoma, CA.

I am not sure what "equitable energy resilience" means, but I know it is woke, and a lot of people have to be really happy with that.

And \$477,000 will be going to the Equity Institute in Rhode Island. I don't know what they do there, but it sure sounds like fun if you are into equity programs.

The Federal taxpayer, of course, will be picking up the cost of a \$2.4 million tab for the New England Aquarium Corporation in Boston. They say it is for modernization and educational programming at the aquarium. I love aquariums. It sounds like fun. I love going to aquariums. They are neat. They are great. It is not radical to suggest that the taxpayers in the city of Boston or of the Commonwealth of Massachusetts—hardly poverty-stricken areas of our country—shouldn't be funding that project that is specific to their community. No one has made the case as to why that aquarium has to be built, why this has to be a Federal taxpayer project—but no matter, another Christmas miracle. Just throw it in the omni.

It would also advance the left's attack on the traditional family by funding gender programs in Pakistan and family planning and reproductive health "in areas where population growth threatens biodiversity or endangered species." What the heck does that mean?

I think I know what that means. It is basically insisting that human beings should exist with less prevalence in some parts of the world, and we want to make sure that that doesn't happen

because they might be bad for the environment in those areas. That is what that means.

Why in Heaven's name we should be taking money from a poor farmer in Iowa or from a poor single mother of three in Orem, UT, and sending that to Pakistan to tell people they have to have fewer kids because biodiversity and climate change demand it—I am sorry, that is too far. We do some crazy stuff up here, and sometimes we have to look the other way or we try to look the other way—sort of like you do when you drive past a really awful accident—but on this one, I can't look past that one. That is crazy.

I am not sure I can find more than 20 or 30 Members of this body who would feel comfortable openly, publicly advocating for this—not when you are taking money from a poor farmer in Iowa or a poor single mom in Orem, UT, to send it for that purpose. No matter, it is another Christmas miracle put in the omnibus.

The omnibus includes a total of about 3,200 earmarks. What do I mean by earmarks? Well, earmarks are special interest giveaways. They are targeted spending Congress directs for a particular purpose. Earmarks have been severely abused. And one of the many ways in which they have been abused is through this process of lumping them all in. I have heard them referred to in the past as sweeteners. When Members don't want to vote for a particular bill, you add earmarks to it, strategically allocating them one State at a time so that you can buy off votes. I don't mean buy them off in a legally corrupt way. This is a corrupt process, but it is not corrupt in a way that is legally, judicially cognizable. This is a way in which you accumulate votes by promising sweetheart deals for which Members of Congress will receive praise. The rest of those people won't know or care about the fact that we are sending money to Pakistan to tell people they have to have fewer kids because climate change requires it. They are just glad that they got their handout, their carve-out. That is what creates the corrupt process.

People who defend earmarks are fond of saying: Well, they represent a relatively small portion of total Federal spending. And that is true. The same could be said of the engine car on a train. It is a very small percentage of the length of the train. Yes, but it is what is driving the train.

People who advocate for this bill—I have heard them make this argument many times, including today—they will likewise say: I don't know why you are worrying about this bill because, after all, this bill deals with discretionary outlays, discretionary spending and not mandatory spending, money that Congress gets to decide 1 year after the next as to where it goes; as opposed to mandatory spending, things like Social Security, which are already required to be spent under existing ongoing law.

A lot of people will say that you should vote for this bill because, yes,

we have a \$31 trillion debt, and, yes, we have an annual deficit that is still clocking in at around \$2 trillion a year. But no worry—don't worry about that because the real boogiemer is the mandatory spending because that is bigger.

Well, it is true that it is bigger, but the fact that something is smaller than something else doesn't mean that you don't have to worry about that. The fact that earmarks are a relatively small percentage of total Federal spending doesn't mean that earmarks don't have a really nasty effect in corrupting our political processes. It doesn't mean that they don't produce bad results. And the fact that discretionary spending is a smaller percentage of total Federal spending than mandatory spending doesn't mean we shouldn't worry about it. It is, after all, the part over which we have discretion. So why we wouldn't worry about it is beyond my ability to comprehend. We have, moreover, dramatically increased the amount and the percentage of mandatory spending in Federal outlays just in the last few years. It is part of what has exploded, as we went fairly quickly from \$4 trillion in total Federal outlays as of 2019 to almost \$7 trillion at the high watermark of the pandemic-era spending.

It is not an answer here to say there is more that we are spending elsewhere. We are still spending this money. This money is still under our control, and we have some responsibility to review it. And that review is rendered more or less impossible to achieve when you pass a bill this way.

This is wrong. It is a corrupt process that uses extortion and fear in order to coerce Members into voting for a bill that they know in their hearts is wrong. They know that this is fraught with all sorts of problems.

There is a part of me that has a much easier time understanding my Democratic colleagues on this one. I am a Republican. I am a conservative Republican at that. And yet I kind of have an easier time grasping and accepting Democrats' support for this. This is much more consistent with Democratic priorities. This is, after all, a Democratic template funding a lot of Democratic policies. They are being consistent with their policy. I have a harder time accepting it as a Republican, a harder time accepting that we are going to have an estimated 20 or so Republicans who are already expressing support for this bill.

Less than 18 hours after this bill first saw the light of day, they already have about 20 Republicans expressing support for it. It baffles me. It baffles me because Democrats openly embrace the idea that they are progressive, that they want more government, that they feel more comfortable with more government than Republicans do. So they are acting in a manner in conformity with their policies, platform, and their history, their traditions, their customs, their priorities—much less so

with Republicans. In fact, this is directly contrary to what Republicans campaign on.

So what will we do when we have 10 to 20 Republicans who immediately support this, a bill that is predictably going to be supported by all 50 Democrats? They are united on this, and hats off to them for keeping their caucus united on this. They are all united. Fifty Democrats are all in lockstep with this. They can't get it passed unless they get to 60, and so they need at least 10 Republicans. We supply those. There are 10 to 20 Republicans who are going to vote for this, uniting the Democrats around Democratic priorities and Democratic policies and Democratic spending levels. So yes, I have a much easier time accepting and respecting those on the Democratic side who do this. They are at least on brand. We are not, and this is one of the reasons, I think, why Republicans lose more than many of us would prefer when we dilute the brand. We dilute the message. We dilute the proclaimed policy preferences for a more responsible process by which we allocate Federal funds. Then we do this? This is tough.

Now, some of my Republican colleagues will respond to this by saying: No, no. This is a win, I promise. They will cite a few things. They will say: Well, this is a big win because, among other things, it contains cuts to IRS funding.

I am sorry, that is really hard for me to accept. Whatever cuts, whatever restraint was shown with regard to IRS funding here is absolutely dwarfed by the fact the IRS just got \$80 billion of supplemental funding in August. So forgive me, but I find that difficult—no—impossible to accept as a legitimate explanation as to why this is a win for Republicans.

To make matters worse, perhaps the most offensive part of this is the Senate Republicans voting for this bill are choosing to forfeit the power that they have, that we have—the power of the purse. It could be used, if wielded more assertively and cautiously, to end the crisis at our border. And it is a crisis.

In fact, this bill, while providing funding for government Agencies, including the Department of Homeland Security in charge of enforcing the border but utterly and defiantly, willfully refusing to do its job—this bill expressly prohibits Customs and Border Patrol funding from being used to improve border security. Let that sink in for a minute. Not only are we losing the opportunity—*forfeiting it* by passing this—to put in aggressive measures requiring border enforcement as a condition and precedent for the receipt of certain Federal funds, we are actually providing their funding and allowing language to be included in there that prohibits them from bolstering border security at a time when we are being besieged by illegal border crossings. This is lawlessness.

So, no, I really struggle with calling this a win. Republicans, especially

given the fact we just had an election and in that election, we went from having a Congress consisting of a Democratic House and a Democratic Senate—and we, of course, have a Democratic White House—now we are still going to have a Democratic Senate, but we are going to have a Republican-controlled House in just a matter of a couple of weeks.

For this reason, I came to the floor last week and twice tried to pass continuing resolutions that would keep us funded on a short-term basis into next year. Had we done that, Congress still may have chosen to enact this spending legislation, which we hadn't seen until about 19 hours ago. It still could have done that, but it wouldn't have been under the extortive threat of a shutdown at Christmastime. Tragically, the Senate declined to adopt that, declined to adopt either of those resolutions and, instead, opted for this position. Why? Because had they adopted either of those continuing resolutions, it would have become impossible to use the extortive threat of a Christmastime shutdown in order to secure votes for this.

So, of course, the proponents of this legislation didn't want that rain on their party to make it harder for them. The American people suffer as a result.

But what you have, Republicans who vote for this bill, they are going to be facilitating Democratic priorities and, by so doing, undercutting the Republican House of Representatives that is about to be sworn in. House minority leader KEVIN MCCARTHY is opposed to this. He has stated publicly and privately he thinks this is a mistake. It is a mistake for Republicans. And it is.

Since 1954, we have seen that the House of Representatives has had a shift in the party in control only five times, each during midterm elections—just five times since 1954. It doesn't happen that often. In all five of those instances since 1954 when it flipped, Congress did not enact a comprehensive omnibus spending package during the lameduck session following the election.

There are a number of reasons for this, including the fact that Members of Congress, I think in both Houses and both political parties, understand elections are supposed to have consequences. It is really inappropriate, I think, at least for Republicans—again, I suppose I have to have a form of respect for my Democratic colleagues in wanting to enact their policies. But I struggle with understanding why Republicans would want to help them in doing that, rendering the incoming Congress less capable of enacting Republican priorities, especially when you consider a couple of things:

No. 1, this spending bill, assuming it passes, which appears certain—just about certain that it will, this will keep the Federal Government funded through the balance of fiscal year 2023, up until midnight on September 30, 2023. That, by itself, is a big chunk, a

very large chunk of the entire time that the 118th Congress will even exist. It is a big piece of that. That part of it will be having a government that doesn't operate under a spending bill with a significant Republican imprint.

But it is not just that. In light of the fact that we are going to have a divided Congress—we are going to have a Democratic Senate and a Republican House, with a Democratic White House—it may be difficult, of course, to pass another omnibus or, perhaps, a series of spending bills. It could end up resulting in more continuing resolutions. Guess what continuing resolutions do? They keep spending levels where they have been. That is where we get to the point where, over time, this has spillover ramifications. The high cost of this bill will far outlast this Congress. It will far outlast the balance of fiscal year 2023. It will last for years.

The Committee for a Responsible Federal Budget recently estimated that over the next decade, this could end up increasing Federal outlays. Just this omnibus spending bill, as compared to a continuing resolution, would likely cost a total of an additional \$2 trillion over the next decade just because of the baselines being shifted. Why Republicans want to do that is beyond my ability to understand. I implore them to reconsider.

There is a good reason why outgoing Congresses in the past have not enacted omnibus spending packages post-election, during a lameduck session, when control of the House has just shifted.

Meanwhile, our border crisis continues to boil over. It is getting worse and worse and worse every day, and it is subjecting far too many people to the harms associated with human trafficking. A very large percentage—by some studies, 30 percent or so; by some studies, it is more like 65 percent—of the girls and women who come across with these drug traffickers who operate as human smugglers bringing them into the United States, making these drug cartels billions of dollars a month—somewhere between 30 percent and 65 percent of the women and girls brought through that process are raped or sexually assaulted in the process.

This has also resulted in fentanyl pouring into the United States, enough fentanyl to kill millions of Americans. We are doing nothing about that in this bill.

As I said a moment ago, what we are doing in this bill is making it more difficult to fund border enforcement. It prohibits the funds going to Customs and Border enforcement from being used for border enforcement to increase border security.

Meanwhile, as our border crisis continues to boil over and we do nothing about it and we plant the seeds for making sure that we can do nothing about it through this legislation—we do nothing about that. We do nothing about that, but we do something else

that is really, really curious. It provides Jordan, Lebanon, Egypt, Tunisia, and Oman \$410 million to secure their borders. That is great. That is just fantastic if you live in one of those countries. This bill is all about Middle Eastern and North African border security; it is not about American border security.

This bill is not America first; it is America last. What we are doing here is putting America last. What we are doing here is putting our constituents last. What we are doing here is putting a small handful of elites first. This bill is the product of Wall Street and K Street, not Main Street.

We have to get back to a process that respects the rights of individual Members. And I call on all within the sound of my voice, Democrat or Republican, House or Senate, all Members of Congress within the sound of my voice, whether you plan on voting for this bill or not: If you are thinking about voting for it, I implore you, reconsider. If not us, who? If not now, when? If we don't stop this at some point sometime, this will continue, and it will continue to weaken America.

We can stop this if—and only if—when—and only when—Members stop supporting this nonsense. I don't care where you are on the political spectrum. You know this is wrong. Let's stop it before it is too late.

Mr. KING. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Ms. BALDWIN).

The clerk will call the roll.

The senior assistant legislative clerk proceeded to call the roll.

Mr. KING. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The junior Senator from Maine is recognized.

Mr. KING. Madam President, I come to the floor tonight as a U.S. Senator from Maine. Why am I here to discuss lobsters on the floor of the U.S. Senate? Because my State is facing its most serious crisis, in my view, in my 18 years of public service on behalf of Maine.

There is a provision in the bill that we will be voting on tomorrow that is of vital, critical importance to Maine, and I believe the country.

In November, a Federal court here in Washington issued a ruling under the Endangered Species Act and the Maine Marine Mammal Protection Act that effectively shuts down the entire Maine lobster fishery in 2 years. It issues requirements that simply can't be met in that timeframe. The only choice will be to shut down the fishery.

What does that mean? What is the fishery? What is the lobster industry?

We talk about the lobster industry. The lobster industry is this guy right here—thousands of small, independent businesses. These boats are not owned by Amazon or Walmart or Whole

Foods. They are owned by individual Maine people, families, generations, in a town like this.

That is what we are talking about. We are talking about the livelihoods of thousands of Maine people that will be cut off by virtue of this decision within 2 years.

Is it a real threat? People are already cancelling orders for boats. The business of the people that make lobster traps is down 25 or 30 percent. People are starting to put their boats on the market because they see this closure coming of an industry that has been a mainstay of the Maine economy for 150 years. Well over a billion and a half dollars a year is based upon this unique, iconic product that comes from the cold waters of Maine.

Now, why am I here? Because this decision of the court that effectively closes our lobster industry down is based upon the idea of protecting the North Atlantic right whale, which needs protection. It is indeed an endangered species. The question is whether the remedy, in this case the closure of the Maine fishery, will actually help in the preservation of the right whale.

I want to start with a couple of data points. Here is the first. This is the number of right whale deaths ever attributed to Maine lobster gear: zero. The number of right whale deaths attributed to Maine lobster gear: zero.

Here is another data point. The number of right whales even being entangled in Maine lobster gear in almost the last 20 years: zero.

So the question is, Is there sufficient evidence for this draconian remedy, the shutdown of the entire industry?

The other data point is that, according to the maps of whale sightings based upon data from the Department of Commerce and NOAA, the whales are moving away from Maine. They are congregating now to the far north, in the Gulf of St. Lawrence, and also around Cape Cod, and I am going to talk about that in a minute. But the number of whales sighted and detected along the Maine coast is steadily declining.

So why are we doing this? Why did the court make this ruling? The judge felt compelled by the law because there may be a risk. There may be a risk.

Is the lobster industry—is this guy—doing anything about that speculative risk? Yes, a lot. Maine lobstermen all mark their gear. So if there is an entanglement and the rope is attached to the whale, you can tell where it came from. They mark their gear.

No. 2, they have changed all the ropes with weaker ropes. So if there is an entanglement, they will break. No. 3, they put weak links in their ropes. So if there is an entanglement, the link will break, and there won't be a problem.

By the way, if these entanglements were happening, the lobstermen would know it. Every lobstermen knows where his gear is. They would know if there is an entanglement. And I have

talked to lobstermen who have been out there for 30 years and have never seen a right whale in the Gulf of Maine. There may be a few out there, but they have never seen one. In other words, it is a very, very low risk.

And, finally, they have changed the way they fish. It used to be—and I remember this—that you would have buoys. You have all seen those picturesque—well, no, that is a mooring. That is not a lobster buoy. But you have a buoy and a rope that is down to the trap on the bottom. And so every trap had its own line and buoy. That is no longer true.

Now they have a buoy, one line, and the trap is on the bottom, which are attached. So you can pull up a number of traps with only one piece of rope.

In the last 10 years, Maine lobstermen have removed 30,000 miles of rope from the Gulf of Maine to mitigate a risk that we are not even sure is there.

Now, I have been in environmental policy all my life. I know about the precautionary principle, which means, if you are not sure, be careful. And I understand that. I understand, if you are not sure, be careful. But this is the precautionary principle run amok where there is so little evidence and the punishment is so severe.

So we are talking about an economic death sentence for an entire way of life. For the town of Stonington, for the thousands—and I mean between 5,000 and 10,000 people who work on the water and thousands more who work in processing and are involved in this industry—over \$1.5 billion a year of economic impact in the State of Maine.

But if you were in court and you said that we are going to impose an economic death sentence, well, here is the way the law looks at things like that. If it is a criminal case, to take away somebody's liberty, it is "beyond a reasonable doubt."

There is no "beyond a reasonable doubt" in this case. It is not even close to "beyond a reasonable doubt."

OK, in a civil case, you have to prove your case by a preponderance of the evidence, that it is more likely than not.

Is there a preponderance of the evidence that the Maine lobster fishery is causing or contributing significantly to the loss of right whales? No, there is no preponderance of the evidence.

How about any evidence? Zero, zero.

Now, a solution to this crisis is in the bill that we will be voting on tomorrow. It is one that the Maine delegation, myself and Senator COLLINS, Congresswoman PINGREE, and Congressman GOLDEN have been working on since this decision. And it is a compromise that has been negotiated between the various people interested in this issue and this body that leaves in place all of those protective measures that I mentioned—the weak links, the weaker ropes, the ropes out of the water, the marking of the gear. All of those stay in place.

Importantly, it provides funding for two purposes. One is the development of gear that will reduce the risk even further—lobster gear, that is. For example, there is a lot of discussion of something called ropeless fishing, which would be traps on the bottom and a buoy on the bottom that can be released by a radio signal, come to the surface, and then you can pull the traps up. So there is no rope in the water.

Now, that is a great idea. The problem is, it is not ready for prime time. It is being tried. There are experiments going on with it. There are some serious problems with it.

For example, currently, if you are a lobsterman, you go out and you see other buoys, and that tells you where other traps are, so you don't put yours down on top of theirs. In this ropeless fishing configuration, until we figure that out, we can't have multiple traps laying on top of each other and becoming entangled.

The other problem is, it is very expensive. We are talking about tens and hundreds of thousands of dollars for the guy that owns this boat. So what the bill provides is funding for research of how to develop this, whether it is ropeless fishing or some other technology that we don't know right now, to mitigate whatever risk there is even further. So that is one funding in the bill.

The other funding is for data to know where the whales are, to know because the problem is what data we have indicates there are practically none along the Maine coast. But we don't know that for sure.

But, again, what we are doing is sentencing this industry to death—economic death—without the information upon which that decision should be made.

And I am very comfortable—I am anxious to work on that data, whether we do it by satellite, by drones, by acoustics. Whatever we do, I want to know where those whales are. I don't think—based upon the data I have seen—that we are going to see that there are many in the area where the lobster fishing takes place, but I am willing to get the accurate answer to that.

So the bill does those two things: funding for research and funding for data collection.

The third thing it does is pause the economic death sentence. It pauses the ruling that says this has to be finished in 2 years because that means the lobster industry—the lobster fishing, the lobster families, the lobster towns—are finished within 2 years. We are talking about a 6-year pause as time to collect the data and develop the gear.

Now, even the advocates, the people who are angry about what we are doing and making wild charges that this is going to immediately lead to the extinction of the whales, which there is just no basis for that, even those people concede that it is going to take 6 to 10 years to develop these alternatives.

What do they expect the people of Maine to do between year 2 and year 10 when their whole livelihoods have gone away?

So what we are doing—what we compromised was a 6-year period that will give us time to develop the technology and to develop the data, and we may find that there are different solutions or that the data may show that no additional restrictions beyond what is already being done are necessary.

I have been involved as an advocate for environmental policy all my adult life. I was the first full-time lobbyist for the Maine environmental community in 1976. I helped to write the Maine billboard law, the Maine bottle bill, and subdivision laws. Interestingly, one of bills I advocated for was right turn on red. Why is that an environmental bill? Because if you are not idling at a gas station, multiply that by millions of people across the country—a big saving on fossil fuel and pollution going into the atmosphere. That was, believe it or not, an environmental issue in the 1970s.

When I was Governor of Maine, one of my proudest achievements was the fact that we put more land into conservation in Maine during my 8 years as Governor than during the entire prior 175 years in Maine combined—more land into conservation than in the prior 175 years combined. And it wasn't by accident; it was something that I felt deeply engaged in when I began as Governor.

In 1987, long before I was Governor or in politics, I was the chair of a group who brought the land for Maine's future into being, which was the—I think it was the second in the country to have a public bond issue for land conservation. This was an initiative that I took on as a private citizen. So I have been involved in these issues.

Here is one more data point. This was my rating by the League of Conservation Voters last year: 100 percent.

So if somebody says, you know, that I don't care about the environment or the whales, that isn't true. I work every day at Edmund Muskie's desk. My office found Senator Muskie's desk, and it is in my office today. They found it in a storage room somewhere here. Edmund Muskie is literally the father of the modern environmental movement. The Clean Air Act and the Clean Water Act he brought to this body.

The Clean Air Act, by the way, passed this body unanimously. Can you imagine that? We can't agree on what time it is around here unanimously.

Edmund Muskie's heritage of the invention, the creation of the environmental movement in this country is one of Maine's proudest achievements, that Ed Muskie was the guy who began that process here in this body some 50 years ago. I sit at his desk. I think about his legacy.

One of his legacies was, how do you talk about these issues? The big argument in Maine when Muskie was talking about protecting clean water and

clean air was payrolls versus pickerel. You know, do we have to choose between payroll, between jobs, and fish? Muskie's answer was no. That is a false choice. We can protect the environment, but we can also understand economic impacts and find ways to navigate whatever potential conflicts there may be. That is Muskie's legacy. We don't have to choose between lobsters and whales. We don't have to choose between the men and women of Stonington or Cutler or Corea or Georgetown or Freeport or Cape Elizabeth and whales. We just have to be sensible about approaching this in a way that will protect the whales but also protect the way of life of these wonderful people.

That is why I am here tonight. That is what we have done in this bill. It is in no way a diminution of the standards of the Endangered Species Act or the Marine Mammal Protection Act; it merely pauses that economic death sentence until we have time to know how to navigate the solution and what the real definition of the problem is. To me, that is good policy. It is what we should do here on all the complicated issues we face.

It is an unbelievable honor and humbling to represent the State of Maine in this body, and I am proud of the fact that we have been able to confront this issue in a way that will enable the lobsters and the lobster fishers and the whales to exist in an ecosystem that is protective of people as well as whales. This is the role that we have here, and I believe we have achieved it in this bill.

I can't leave without thanking my colleague Senator COLLINS, who was instrumental in working the language that we will have before us tomorrow, and my colleagues Congresswoman PINGREE and Congressman GOLDEN in the House, and all the people in these two bodies whom we have worked with to achieve this important piece of legislation.

This is the way we can make good policy—based upon data, science, facts, and common sense—and that is what we have achieved here today.

I yield the floor.

The PRESIDING OFFICER. The junior Senator from North Carolina.

UNANIMOUS CONSENT REQUEST—H.R. 2758

Mr. TILLIS. Madam President, I want to take a moment to talk about history, and then I will be making a unanimous consent request.

One hundred thirty years ago was the first time the Lumbee Tribe of North Carolina sought recognition. But you have to go back about 250 years—but that is not even enough; you have to go back to the colonial times to see a Tribe indigenous to North Carolina who has maintained a culture, maintained a language, done everything they need to do to be acknowledged as a Native American Tribe.

One hundred thirty years ago, they sought recognition, and they were turned away. Every year since then,

they have come to Congress to try to find recognition, and they have failed to do it.

Back in the 1950s, the Congress at that time—and we can talk about that, and I will talk about that in future speeches—at once recognized the Lumbee and then unrecognized the Lumbee.

The Lumbee Tribe in North Carolina is a Tribe that has a distinct culture. They have a distinct language. They are a Tribe that I have been working with for years, since the time I was speaker of the house, helping them continue to preserve a heritage that has existed since the Tribe first formed.

We have been trying to get the Lumbee recognized for several years. As a matter of fact, the bill that I am going to ask unanimous consent for was sent to the Senate on the suspension calendar with huge bipartisan support in the House. And it is not the first time that has happened; it has happened several times. But for some reason, when it comes to the Senate, it goes to die, and I don't understand that.

In fact, I am going to spend a lot more time trying to understand it. I am going to try to understand why the Chickasaw, the Choctaw, and the Cherokee, the Eastern Band in my own State, oppose it. Some of them say it is because of the integrity of the recognition process. I don't believe that, but I am going to go into that discussion with them next year with open eyes and open ears.

But I believe that there is something more sinister involved in their objection to the Lumbee being recognized, and I promise the Lumbee Tribe that every week that I am in the Senate, for as long as I am in the Senate, we are going to cast light on what are the legitimate objections to the Lumbee being recognized. It is time for them to be recognized.

Tonight, through unanimous consent, we could send a bill to the President's desk, and we would right a wrong that has existed for 130 years.

Now, I know there are objections on our side of the aisle. I also understand that this was cleared by all the Democrats—no objections. But I have six on this Senate side that I am going to have to work on, and I have to do my homework. I expect that. I am not lazy. I will do that. But I do want people to understand that this Tribe deserves respect.

This is a Tribe that is just down the road from Fort Bragg. They disproportionately serve in the Army in spite of the disrespect this Nation has directed their way. For over a century, they have served with valor, and they have served with honor. They are serving their community. They are maintaining their heritage, and I believe the time is now that they be recognized.

Now, if that doesn't happen tonight, I want the Lumbee people to know that I am going to continue to fight for

them in the same way that Senator BURR has for almost 28 years.

So I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 522, H.R. 2758. I further ask that the bill be considered read a third time and passed and that the motion to reconsider be considered made and laid upon the table.

The PRESIDING OFFICER. Is there objection?

The junior Senator from Mississippi. Mrs. HYDE-SMITH. Madam President, I object.

The PRESIDING OFFICER. Objection is heard.

Mr. TILLIS. Madam President, may I speak for a moment?

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. TILLIS. Madam President, I respect my colleague from Mississippi. We do great work together. This is an area where we have to agree to disagree.

But, again, I want the Choctaw, I want the Chickasaw, I want the Cherokee, and I want every Tribe that has objected to this, while a majority of Native American Tribes support it, to know that we are going to have a lot of quality time together over the next 2 years.

The PRESIDING OFFICER (Mr. MURPHY). The Senator from New Mexico.

MORNING BUSINESS

REMEMBERING BILLIE JEAN PAIGE

Mr. DURBIN. Mr. President, chairing the recent Supreme Court confirmation hearing for Judge Ketanji Brown Jackson was a highlight of my Senate career. I was impressed by Judge Jackson’s dignity and grace, her intellect and courage, and her dedication to the Constitution. I was also happy that

every Senator was able to invite guests to attend the hearing. It was the first time the Senate welcomed visitors since the pandemic closed the Capitol building 2 years earlier. Among my guests were two women who drove 11 hours from Chicago, with four other people in the car, just to be in the room for the historic occasion.

One of the women was in her 70s and had worked for civil rights causes for 50 years. She said that as she watched Judge Jackson make history, she thought of all the strong Black women who came before and helped make that moment possible. Leaders like Sojourner Truth, Harriet Tubman, Ida B. Wells, my old friend, the Rev. Willie Barrow, a Black woman minister from Chicago who worked alongside Dr. Martin Luther King, Jr.

Another name she could have added to that list of history-shaping women is Billie Jean Paige. Billie was a legend and an inspiration in politics in Chicago and Springfield. And my wife Loretta and I were fortunate to be able to count her as a good friend of many years. She passed away earlier this year.

Her last name was spelled P-A-I-G-E. If that sounds familiar, it could be because it is the same spelling as the legendary baseball player Satchel Paige. And that is no coincidence. Satchel Paige was the stepfather of Billie's husband of 65 years, George Paige.

Billie was a patriot and a force for progress. She came to lobbying almost by accident. As her husband George recalls it, Billie was working for State Representative Gerald Shea in his Chicago office as a 100-word-per-minute typist, back when Jerry Shea was the first Mayor Daley's go-to man in Springfield. One day, Jerry Shea needed someone to drive to Springfield and file an amendment. But the office was short-handed so he asked Billie to do it. She protested that she wasn't a lawyer. Jerry replied, "You don't have to be a lawyer to do this. You just have to be smart"—and was she ever.

Billie graduated from an all-girls Catholic high school at 15, and she graduated from Roosevelt University at 19. But her intellect alone is not what made her such a powerful advocate for her clients and the causes she cared about. Billie had a rare ability to make people feel heard, seen, and respected. She understood that the best way to make lasting progress was to allow people to speak their minds—and discover common interests. She was always concise, constructive, and respectful—even if she disagreed with you. Our democracy would be healthier today if more people believed, as Billie did, that none of us have a monopoly on political wisdom, and there can be more than one way to achieve one's goals.

Twenty years ago, Billie, my wife Loretta, Dawn Clarke Netsch, and a group of other strong, like-minded women set out to pass along their knowledge about how to make political change.

They created a project called IWIL, the Illinois Women's Institute for Leadership Training Academy. Billie was a founding member and an indispensable part of IWIL. Over the years, IWIL has trained nearly 250 women to be leaders in politics, law, government, business, and civil society.

A true trailblazer, Billie was the first Black woman lobbyist in Springfield and the first Black woman in America to head a State unemployment program. And well into her 80s, Billie was still lobbying to shape laws and make her mark on history in Springfield.

Loretta and I are grateful to have had the benefit of Billie's friendship and wisdom for so many years. We offer our sincere condolences to all those who loved and admired her—especially her husband George and their son Gary, Billie's daughter-in-law, Apryl and Jacinta, and her granddaughter Daria.

SENATE PROCUREMENT REGULATIONS

Ms. KLOBUCHAR. Mr. President, I ask unanimous consent that the following notice be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SENATE PROCUREMENT REGULATIONS

(ADOPTED BY THE COMMITTEE ON RULES AND ADMINISTRATION ON DECEMBER 19, 2022)

Pursuant to jurisdiction over the payment of money from the contingent fund of the Senate, as set forth in 2 U.S.C. §6503 and Rule XXV of the Standing Rules of the Senate, the Senate Committee on Rules and Administration hereby establishes the following Senate Procurement Regulations. These Regulations govern the procurement of personal property and non-personal services with appropriated and revolving account funds in the Senate. These Regulations replace and supersede the Senate Procurement Regulations approved by the Rules Committee on December 31, 1998, as amended on September 13, 1999.

PART 1

GENERAL PROVISIONS

1.1 Definitions

Unless a different definition is prescribed for a specific portion of these Regulations or the context clearly requires a different meaning, the following definitions apply:

"Approval authority" means a person who is authorized to approve a procurement within the limits specified in these Regulations. Approval authorities include Senators, chairs of Senate committees, and officers of the Senate.

"Acquisition" means the acquiring by contract of supplies or services by and for the use of the Senate through purchase or lease, whether the supplies or services are already in existence or must be created, developed, demonstrated, and evaluated. Acquisition begins at the point when needs are established and includes the description of requirements to satisfy needs, solicitation and selection of sources, award of contracts, contract financing, contract performance, contract administration, and those technical and management functions directly related to the process of fulfilling Senate needs by contract.

"Business day" excludes Saturdays, Sundays and Federal holidays.

"Chair" means the Chair of the Senate Committee on Rules and Administration.

"Commercial item" means an item customarily used by the general public or for nongovernmental purposes that (1) has been sold, leased, or licensed to the general public; (2) has been offered for sale, lease, or license to the general public; or (3) has evolved from a commercial item through advances in technology or performance and that is not yet available to the general public, but will be available in the commercial marketplace in time to satisfy the delivery requirements under a Senate solicitation. The term includes services associated with supporting commercial items and services of a type offered or sold competitively in substantial quantities in the commercial marketplace on the basis of established catalog or market prices for specific tasks performed under standard commercial terms and conditions.

"Contract" means a mutually binding legal relationship obligating the seller to furnish supplies or services and the buyer to pay for such supplies or services. It includes all types of commitments that obligate the Senate to an expenditure of appropriated funds and that, except as otherwise authorized, are made in writing. In addition to bilateral instruments, contracts include (but are not limited to) awards and notices of awards; orders issued under basic ordering agreements; letter contracts; orders, such as purchase orders, under which the contract becomes effective by written acceptance or performance; and bilateral contract modifications.

"Contract modification" means any written change to the terms of the contract through one of the following types of contract actions:

(a) **Bilateral.** A bilateral modification (supplemental agreement) is a contract modification that is signed by the contractor and the contracting officer. Bilateral modifications are used to:

(1) Make negotiated equitable adjustments resulting from the issuance of a change order; and

(2) Reflect other agreements of the parties modifying the terms of contracts.

(b) **Unilateral.** A unilateral modification is a contract modification that is signed only by the contracting officer. Unilateral modifications are used, for example, to:

(1) Make administrative changes;

(2) Issue change orders;

(3) Make changes authorized by clauses other than a changes clause; and

(4) Issue termination notices.

"Contracting officer" means a person delegated authority by the Senate Sergeant at Arms or the Secretary of the Senate, to enter into, administer, and/or terminate contracts and make related determinations and findings on behalf of the Senate.

"Contracting officer representative" means an individual designated and authorized in writing by the contracting officer to perform specific technical or administrative functions to assist in the technical monitoring or administration of a contract. A contracting officer representative is nominated by the approval authority and appointed by a contracting officer.

"Cost-plus-a-percentage-of-cost contract" means contracts under which a contractor receives reimbursement of its actual costs, plus payment of a percentage of those actual costs as profit.

"Day" means, unless otherwise specified, a calendar day.

"Governmentwide acquisition contract" (GWAC) means a task-order or delivery-order contract for information technology established by one agency for governmentwide use.

"Governmentwide point of entry" (GPE) means the single point where government business opportunities, including synopses of

proposed contract actions, solicitations, and associated information, can be accessed electronically by the public. The GPE is located at <https://sam.gov/>.

“GSA eBuy” is an electronic Request for Quotation system designed to allow ordering activities to post requirements, obtain quotes, and issue orders for services and products offered through the U.S. General Services Administration’s (GSA) multiple award schedule and GSA technology contracts.

“Indefinite delivery indefinite quantity contract” (IDIQ) means a type of contract that provides for an indefinite quantity of supply or services during a fixed period of time. These contracts are used when the Senate cannot determine the exact time, or the precise quantities of products or services that it will need. These contracts are awarded for a base year and option years and allow the Senate to place delivery orders or task orders against the base contract for individual requirements. An IDIQ contract may specify a minimum quantity that should not exceed an amount that the Senate is fairly certain to order; a maximum quantity under each task or delivery order and for all orders during specific periods of time (base year, option year, total contract period of performance); and ordering procedures that, in a multi-award IDIQ contract, provide an opportunity for all contract holders to respond to task order requests.

“Interested party” means an actual or prospective bidder or offeror whose direct economic interest would be affected by the award of a contract or by the failure to award a contract. After the submission of proposals, an interested party must be an actual bidder or offeror with a direct economic interest.

“Lowest price technically acceptable” means a source selection process in which award is made on the basis of the lowest evaluated price of proposals meeting or exceeding the acceptability standards for non-cost factors.

“Micro-purchase” means an acquisition the aggregate amount of which does not exceed the micro-purchase threshold which is established at \$10,000.

“Multiple year contract” means a contract having a term of more than one (1) year separated by option periods not to exceed one year each.

“Multi-year contract” means a contract for the purchase of supplies or services for more than one (1), but not more than five (5), program years. A multi-year contract may provide that performance under the contract during the second and subsequent years of the contract is contingent upon the appropriation of funds, and, if it does so provide, may provide for a cancellation payment to be made to the contractor if appropriations are not made. The key distinguishing difference between multi-year contracts and multiple year contracts is that multi-year contracts buy more than one (1) year’s requirement of a product or service without establishing and having to exercise an option for each program year after the first.

“Option” means a unilateral right in a contract by which, for a specified time, the Senate may elect to purchase additional supplies or services called for by the contract, or may elect to extend the term of the contract.

“Personal services contract” means a contract that, by its express terms or as administered, makes the contractor personnel appear to be, in effect, Senate employees.

“Procurement(s)”. See “Acquisition.”

“Procurement Procedures” mean those procedures issued by the Senate Sergeant at Arms, in consultation with the Secretary of the Senate, subject to the approval of the

Chair acting on behalf of the Rules Committee, governing the acquisition of supplies or services processed by the Senate Sergeant at Arms or the Secretary of the Senate.

“Property” means personal property, as opposed to real property.

“Ratification” means the act of approving an unauthorized commitment by an official who has the authority to do so.

“Rules Committee” means the Senate Committee on Rules and Administration.

“Services” means non-personal services; personal service contracts are prohibited unless specifically authorized by the Senate. See 2 U.S.C. 6505.

“Shall” means the imperative.

“Small purchase” means an acquisition in an aggregate amount that exceeds \$10,000, but does not exceed \$100,000.

“Simplified acquisition” is a contracting method for acquisitions in an aggregate amount that exceeds \$100,000 but does not exceed \$250,000 or, in the case of commercial items, does not exceed \$7,500,000, which reduces the amount of paperwork associated with solicitation and evaluation of offers.

(a) When soliciting proposals or quotations in a simplified acquisition procurement, the contracting office may publish a single synopsis/solicitation, and shall provide a reasonable response period that may be less than thirty (30) days.

(b) When selecting a contractor in a simplified acquisition procurement, there is no requirement for a formal evaluation plan, establishing a competitive range, or conducting discussions. The contracting officer has broad discretion to establish suitable evaluation procedures, which shall be disclosed in the combined synopsis/solicitation.

(c) The contracting officer may choose the successful offeror.

(d) Documentation may be kept to a minimum. The contracting officer shall record a determination of price reasonableness, supporting documentation such as abstracts of prices and, if other than price-related factors were considered, and a narrative statement reflecting the basis for the award decision.

“Unauthorized commitment” means an agreement that is not binding upon the Senate solely because the representative who made it lacked the authority to enter into that agreement on behalf of the Senate.

“Unauthorized contract award” means a contract award made without the approvals required by these Regulations, but that would otherwise have been proper if all necessary approvals were obtained prior to contract award.

1.2 Authority

(a) Pursuant to 2 U.S.C. 6503 and Rule XXV of the Standing Rules of the Senate, the Chair, acting on behalf of the Rules Committee, approves all vouchers that will be charged to the contingent fund of the Senate. (b) The Senate Sergeant at Arms shall be responsible for processing procurements, including procurements initiated by Senate committees of more than \$100,000, through the Senate Sergeant at Arms Acquisition Office, as set forth in these Regulations. The Secretary of the Senate shall be responsible for procurements initiated by the Secretary of the Senate, but may utilize the Sergeant at Arms Acquisitions Office to assist with processing such procurements.

1.5 Delegation of Authority

With the approval of the Chair, acting on behalf of the Rules Committee, the Secretary of the Senate and Senate Sergeant at Arms may delegate procurement authority. Such delegations shall be in writing and shall state the limits of the procurement authority to be delegated.

1.6 Required Procedures

(a) Procurements by Senate Personal Offices are exempt from these Regulations. However, for procurements exceeding \$10,000, Senate Personal Offices are encouraged to seek the assistance of the Acquisition Office of the Senate Sergeant at Arms.

(b) Procurements by Senate committees in the amount of \$100,000 or less are exempt from these Regulations. However, for procurements exceeding \$10,000, Senate committees are encouraged to seek the assistance of the Acquisition Office of the Senate Sergeant at Arms.

1.7 Waiver of These Regulations

The Chair, acting on behalf of the Rules Committee, may grant a waiver to any provision of these Regulations, as required to meet the needs of the Senate, consistent with applicable law, Standing Rules of the Senate, and Standing Orders of the Senate.

1.8 Prohibition on Splitting Procurements

Requirements shall not be split into multiple smaller procurements in order to keep the value within any approval limits or required regulation limits set forth in these Regulations. During acquisition planning, every reasonable effort shall be made to anticipate and include within a procurement all subsequent requirements for the same products or services within the same fiscal year.

1.9 Personal Services Contracts Prohibited

Contracts for personal services are not permitted under these Regulations, unless specifically authorized by the Senate, pursuant to 2 U.S.C. 6505 or other applicable law.

1.10 Ratification of Unauthorized Contract Awards

All contracts shall be entered into with appropriate authorization. An unauthorized contract award, if otherwise proper, may be ratified in writing by an approval authority with the authority to award the contract pursuant to these Regulations.

1.11 Conflict of Interest

Transactions relating to the expenditure of public funds require the highest degree of public trust. In dealing with contractors, Senate personnel are subject to the Senate Code of Official Conduct and applicable law, and should make every effort to avoid even the appearance of impropriety or of a conflict of interest. Their official conduct should be such that they would have no reluctance to make a full public disclosure of their actions.

1.12 Contracts with Business Concerns Substantially Owned or Controlled by Senate Employees

Contracts between the Senate and employees of the Senate or business concerns or organizations substantially owned or controlled by Senate employees shall be avoided. Exceptions may be made only with the approval of the Chair, acting on behalf of the Rules Committee, consistent with applicable laws and the Senate Code of Official Conduct. In addition, Senate employees shall not participate in any decision, recommendation, award, or other activity regarding a contract with a business concern or organization in which they have a financial interest and are prohibited from such activity if their financial interest represents a substantial portion of the holdings or assets of the Senate employee.

1.13 Protection of Sensitive Information

Personal, proprietary, or Senate procurement information are considered "sensitive" information and shall not be released to the public.

1.14 Firms or Individuals Ineligible for Federal Contracts

The governmentwide point of entry provides access to active exclusion records for organizations and individuals indicating if they are debarred, suspended, or otherwise ineligible for the award of contracts above the micro-purchase threshold by the Senate. Contracts above the micro-purchase threshold shall not knowingly be awarded to a firm or individual that are debarred, suspended, or otherwise ineligible for award. Inquiries may be directed to the Acquisition Office of the Senate Sergeant at Arms.

1.15 Small Businesses

Procurement of Senate requirements from small business concerns and small business development programs is encouraged but not mandated. Small business concerns may be identified through the Dynamic Small Business Search tool, available through the Small Business Administration.

1.16 Responsible Prospective Contractors

Contracts shall be awarded only to prospective contractors that have demonstrated a satisfactory record of past performance and the capacity, capability, and financial means to complete the contract.

1.17 Prohibition on Cost-Plus-a-Percentage-of-Cost Contracts

Contracts under which a contractor receives reimbursement of its actual costs, plus payment of profit as a specified percent-

age of the contractor's actual cost of accomplishing the work, are prohibited. Any fee or profit to be paid to a contractor shall be negotiated separately and not be computed as a percentage of actual cost. Contracts shall avoid computations of fees or profits that may create an incentive to increase a contractor's reimbursable costs.

PART 2 POLICIES

2.1 Competition

(a) All purchases and contracts shall be made on a competitive basis to the maximum extent practicable, consistent with the best interests of the Senate. Procurements shall be structured to provide an equitable opportunity to all prospective, qualified contractors to the maximum extent practicable.

(b) Reasonable acquisition planning and appropriate market research shall be conducted prior to efforts to compete Senate procurements.

(c) It is the policy of the Senate that specifications should be performance-based and should not include features available from only one vendor, or requirements able to be met by only one vendor, unless those features or requirements represent a mandatory requirement of the Senate.

2.2 Micro-purchases, Small Purchases, and Simplified Acquisition Procedures

(a) Micro-purchases

(1) For Senate procurements of \$10,000 or less, the purchase card should be used to the maximum extent practicable and require no more than one quote if the purchase card holder determines that the price is reasonable and that the procurement has not been split to avoid a requirement for competition.

(b) Small Purchases

(1) Senate procurements that exceed \$10,000 but do not exceed \$100,000 shall be conducted as follows:

(i) The procedures may permit awards on the basis of documented comparison of at least three competitive quotations, if available, with or without advertisement on the GPE or another authorized location for posting procurement notices.

(c) Simplified Acquisition Procedures

If a lowest price technically acceptable source selection process is

used, a request for quotation can be issued in writing to a minimum of three vendors.

(b) Negotiated Procurements

(1) In conducting negotiated procurements, the Senate Sergeant at Arms or the Secretary of the Senate, as appropriate, may issue a request for proposal that contains necessary contractual provisions and describes the Senate's requirements and the basis upon which the successful offeror will be selected, and soliciting proposals.

(2) Alternatively, the Senate Sergeant at Arms or the Secretary of the Senate, as appropriate, may publish a sources sought notice or a request for information (RFI) in order to identify firms or individuals from whom proposals may be solicited. The notice or RFI shall summarize the Senate's requirements and solicit abbreviated descriptions of contractor capabilities and experience and may include other information including sample pricing, the Senate Sergeant at Arms or Secretary of the Senate, as appropriate, deems necessary. The notice or RFI may advise that requests for proposals be issued only to those respondents determined to be the best qualified in accordance with the criteria set forth in the notice or RFI.

(3) Competitive Range and Discussions

(i) After receipt and evaluation of initial proposals from a Senate Sergeant at Arms or Secretary of the Senate, as appropriate, issued request for proposal, the Senate Sergeant at Arms or Secretary of the Senate, as appropriate, may establish a competitive range consisting of only the highest-rated proposals, and may conduct exchanges limited to those offerors whose proposals are within the competitive range.

(ii) Offerors whose proposals are not selected for the competitive range shall be given prompt notice.

(c) Requests for Quotations

(RFQ) and Invitations for Bids

(1) If the Senate Sergeant at Arms or Secretary of the Senate, as appropriate, concludes, during acquisition planning, that discussions with the offerors will not be required, the Senate Sergeant at Arms or Secretary of the Senate, as appropriate, may issue a RFQ or invitation for bids.

(d) GSA Schedules

(1) The Senate Sergeant at Arms or the Secretary of the Senate, as appropriate, may, without prior publication of a procurement notice, procure supplies and services from the GSA Schedules if the proposed contract or order will be issued to the schedule vendor representing the best value to the Senate, price and other factors considered.

(f) Unsuccessful Offerors

(1) The Senate Sergeant at Arms or the Secretary of the Senate, as appropriate, shall give unsuccessful offerors prompt notice that their quotations or proposals were not accepted, normally within five (5) business days of the contract award.

(2) If an unsuccessful offeror submits a request, and such request is received by the Senate Sergeant at Arms or the Secretary of the Senate, as appropriate, within three (3) business days of the notice required in paragraph 2.3(f)(1), the Senate Sergeant at Arms or the Secretary of the Senate, as appropriate, shall provide a brief explanation of the basis for the award decision. To the maximum extent practicable, the brief explanation should be furnished within ten (10) business days after receipt of the written request.

2.4 Records of Contract Actions

To the extent that existing documents do not reflect all actions taken, a signed and dated contemporaneous memoranda or summary statement describing such contract actions shall be prepared and retained in the contract file.

The contracting officers shall ensure that all Senate contracts include all clauses necessary to comply with applicable Federal law.

PART 3

PROTESTS

3.1 General

(a) Senate procurement actions may be protested by any interested party on the basis that the procurement action is improper or in violation of applicable federal law, Senate rule or Senate Regulation.

(b) No protest under paragraph 3.1(a) is authorized in connection with the award of a contract or the issuance of a task order, except:

(1) A protest of a contract award valued in excess of \$100,000.

(2) A protest of a task order valued in excess of \$10,000,000.

(c) Protests of procurement actions shall be addressed to the Senate Sergeant at Arms or the Secretary of the Senate, as appropriate, within the time limits prescribed in paragraph 3.2(b). The Senate Sergeant at Arms or the Secretary of the Senate, as appropriate, shall respond to all protests, and take appropriate action to remedy improprieties to include termination of an awarded contract.

(d) Reimbursement of bid and proposal costs or any fees associated with a bid protest proceeding as well as payment for any products or services not provided to the Senate are not authorized.

3.2 Protest Procedures

(a) Filing a Protest

(1) An interested party protesting a Senate procurement action as permitted by section 3.1 shall submit such protest, by email to SAAAcquisitions@saa.senate.gov. A copy of the protest shall be furnished to the Chair.

(2) Protests shall be concise and logically presented to facilitate review. Failure to substantially comply with any of the requirements of paragraph 3.2(a)(3) may be grounds for dismissal of the protest.

(3) Protests shall include the following information:

(i) Name, address, email, and fax and telephone numbers of the protester.

(ii) Senate solicitation or contract number.

(iii) Detailed statement of the legal and factual grounds for the protest, to include a description of resulting prejudice to the protester.

(iv) Copies of relevant documents.

(v) Request for a ruling by the Senate Sergeant at Arms or by the Secretary of the Senate, as appropriate.

(vi) Statement as to the form of relief requested.

(vii) All information establishing that the protester is an interested party for the purpose of filing a protest.

(viii) All information establishing the timeliness of the protest.

(b) Time for Filing

(1) Protests challenging the propriety of the solicitation must be filed before the closing date for receipt of initial proposals. In the case of a negotiated procurement, alleged improprieties that do not exist in the initial solicitation but are subsequently incorporated into the solicitation, must be protested no later than the next closing date for receipt of proposals following the incorporation.

(2) In cases other than those covered in paragraph 3.2(b)(1), protests must be filed not later than ten (10) days after the basis for protest is known or should have been known, whichever is earlier.

(3) Failure to timely file shall be grounds for dismissal of the protest.

(4) The term "filed" as used in this section means received by the Senate Sergeant at Arms or the Secretary of the Senate, by email, at the address identified in paragraph 3.2(a). Protests must be filed before 5:00 p.m. (ET), unless otherwise stated. Protests received after the time limits prescribed in this section, or by other than email to the identified email address for filing, will not be considered.

(5) If the end of a filing period measured in days does not fall on a business day, the next business day shall be the last day of the period.

(c) Response and Comment

(1) Upon receiving a protest, the Secretary of the Senate or the Senate Sergeant at Arms, as appropriate, shall determine whether the protester is an interested party.

(2) The Secretary of the Senate or the Senate Sergeant at Arms, as appropriate, shall attempt to resolve protests informally. If this effort is unsuccessful, notice of the protest shall be made to the successful offeror if award has been made or, if no award has been made, to all offerors that appear to have a substantial and reasonable prospect of receiving an award. Informal resolution shall generally conclude fifteen (15) days from the filing of the protest.

(3) Following the unsuccessful informal resolution to the protest, the Secretary of the Senate or the Senate Sergeant at Arms, as appropriate, shall provide copies of all relevant and material information submitted by a protester in support of the protest to the contractor if the award has been made, or, if no award has been made, to interested parties, who appear to have a substantial prospect of receiving an award, for comment, unless withholding of the information is required by applicable law or regulation or because the information is proprietary or solely personal in nature. The protester shall have the opportunity to redact all confidential and proprietary information. Allegedly proprietary or confidential information must be specifically identified as such wherever it appears, and the statement must specifically

address which parties should not be given access to the information, as well as the basis for restricting the access.

(4) The Secretary of the Senate or the Senate Sergeant at Arms, as appropriate, shall prepare a response to the protest as expeditiously as possible following the unsuccessful informal resolution to the protest. The response shall generally be finalized within thirty (30) days following the unsuccessful informal resolution to the protest. A copy of the response shall be furnished to the protestor and other interested parties that appear to have a substantial prospect of receiving an award, who shall be provided an equitable opportunity for comment, not more than fifteen (15) days following the issuance of the response noted in paragraph 3.2(c)(4).

(5) Comments must be filed before 5:00 p.m. (ET), unless otherwise stated. Failure of a protestor or any interested party to comply with the time limits set in accordance with this section may result in resolution of the protest without consideration of comments untimely filed.

(6) If the end of a filing period measured in days does not fall on a business day, the next business day shall be the last day of the period.

(d) Withholding of Award

(1) When a protest has been filed before award, the Secretary of the Senate or Senate Sergeant at Arms, as appropriate, should not make an award before the protest is resolved unless the Secretary of the Senate or the Senate Sergeant at Arms, as appropriate, determines that the item being procured is urgently needed or other compelling circumstances exist.

(e) Time for Decision

(1) Every effort should be made to issue a decision on a protest expeditiously after receipt of all information submitted by all interested parties. The Secretary of the Senate or the Senate Sergeant at Arms shall make their best efforts to resolve protests within one hundred (100) days after the protest is filed.

(f) Appeals

(1) Any interested party that submitted comments during consideration of the protest may appeal a decision on the protest. The appeal shall contain a detailed statement of the factual and legal grounds upon which reversal or modification is sought, specifying any errors of law, and shall be submitted to the Chair, by email to Appeals@rules.senate.gov. A copy of the appeal shall be furnished to the Senate Sergeant at Arms or the Secretary of the Senate, as appropriate, by email to SAAAcquisitions@saa.senate.gov.

(2) Appeals shall be filed no later than ten (10) business days after the basis for reconsideration is known or should have been known, whichever is earlier. The term "filed" as used in this section means received by the Rules Committee, in accordance with paragraph 3.2(f)(1). Appeals must be filed before 5:00 p.m. (EST), unless otherwise stated. Failure to comply with the time limits set in accordance with this section may result in dismissal of the appeal.

(3) The Chair, acting on behalf of the Rules Committee, is the final decision authority on protests involving a Senate procurement. At their discretion, the Chair, acting on behalf of the Rules Committee, may ask the Comptroller General for an advisory opinion.

(g) Basis for Sustaining a Protest After Award

(1) A protest will not be sustained after contract award unless it is demonstrated that the protester was prejudiced; that is, that the protester would have been awarded a contract but for an impropriety or violation of law, regulation, or Senate rule, that was identified by the protest.

(h) Remedies

(1) The Chair, acting on behalf of the Rules Committee, may, in their discretion, order any appropriate remedy in the event of a successful bid protest, including:

(i) The solicitation may be modified and procurement activity resumed.

(ii) An awarded contract may be terminated and procurement activity resumed.

(iii) An awarded contract may be terminated, and award may be made to the protestor, if appropriate.

(2) Nothing in these Regulations precludes the termination or modification of the procurement if such action is deemed to be in the Senate's best interest.

PART 4 DISPUTES

4.1 General

I. It is inevitable that, from time to time, disagreements or disputes regarding the terms or performance of a contract will arise between the Senate and its contractors. The prompt and fair resolution of these matters is in the best interests of the Senate. Informal resolution of disagreements or disputes through negotiated agreement is preferred.

4.2 Dispute Procedures

(a) All disputes shall be submitted to SAAAcquisitions@saa.senate.gov.

(b) For contracts up to \$100,000, the original approval authority shall issue a final determination on all unresolved disputes provided that the determination does not have the effect of increasing the contract cost beyond the approval authority's procurement authority plus twenty (20) percent of the original contract price. Approval authorities may recommend to the Chair approval of a contractor's claim exceeding their authority.

(c) For contracts exceeding \$100,000, the Secretary of the Senate or the Senate Sergeant at Arms, as appropriate, shall issue a final determination on all unresolved disputes provided that the determination does not have the effect of increasing the contract cost beyond the approval authorities set forth in paragraph 1.4(a)(4)(ii). The Secretary of the Senate or the Senate Sergeant at Arms may recommend to the Chair, approval of a contractor's claim that exceeds this authority.

(d) All final determinations from the Secretary of the Senate or the Senate Sergeant at Arms may be appealed to the Chair.

(e) Approval authorities shall notify the Secretary of the Senate or the Senate Sergeant at Arms, as appropriate, whenever it appears that a significant disagreement or dispute is incapable of resolution by negotiation and that it will be necessary to invoke the formal dispute procedures.

(f) All final determinations shall include the following language:

"This determination is made in accordance with the disputes clause and shall be final unless, within thirty (30) business days from the date of its receipt, a written notice of appeal is filed with the Chair of the Senate Committee on Rules and Administration and furnished to the approval authority. The notice of appeal, which must be signed by you as the contractor or by an attorney acting on your behalf, and which may be in letter form, shall indicate that an appeal is intended and shall refer to this document and identify the contract by number. The notice of appeal shall include a statement of the reasons why the determination decision is considered to be erroneous. The Chair of the Committee on Rules and Administration, acting on behalf of the Committee, may ask the Comptroller General for a recommendation on the appeal."

4.3 Time for Filing a Claim

Claims must be filed within ninety (90) days of the date the claim accrued.

4.4 Negotiated Resolutions

Approval authorities may negotiate resolutions involving contract modifications only to the extent such modifications are within their authority.

4.5 Appeal Authority

The Chair, acting on behalf of the Rules Committee, is the final authority for review of final decisions regarding contract disputes and shall be designated as such in all contracts when the determination has the effect of increasing the contract cost beyond the approval authorities set forth in paragraph 1.4(a)(4)(ii). The Chair, acting on behalf of the Rules Committee, may ask the Comptroller General for an advisory opinion.

4.6 Time for Appeals

(a) Appeals from a final determination must be filed with the Chair within thirty (30) business days of the appellant's receipt of the determination in order to be considered by the Chair. For the purposes of this section, "filed" means received by the Rules Committee. Appeals must be filed before 5:00 p.m. (ET), unless otherwise stated.

(b) If the end of a filing period measured in days does not fall on a business day, the next business day shall be the last day of the period.

(c) Failure to comply with the time limits set in accordance with this section may result in dismissal of the appeal.

TRIBUTE TO RETIRING SENATORS

Mr. CASEY. Mr. President, the end of every Congress brings with it the reality that fellow colleagues in the Senate will no longer serve with us when the new Congress convenes in January. As we rush to complete the work of this Congress and in our eagerness to return home to spend time with our families for the holidays, it is important that we pause to thank departing Members for their years of public service to their constituents and to the country. On December 15, I spoke on the floor to commend the Senate service of my fellow Pennsylvanian, Senator PAT TOOMEY.

Senator PAT LEAHY of Vermont has served nearly 48 years in the Senate, and his list of accomplishments is as long as his tenure. I first got to know Senator LEAHY when I was a new Senator and a junior member of the Committee on Agriculture, Nutrition, and Forestry, a committee that Senator LEAHY once chaired. I was able to work with him and learn from him about all issues related to the dairy farming, which is of particular importance to both Vermont and my home State of Pennsylvania. Senator LEAHY is also known, among other things, for his fierce commitment to human rights around the world, his long-time work advancing the cause of justice on the Judiciary Committee, his outstanding work on the Appropriations Committee, his fierce defense of the Senate as an institution, and, most of all, as the greatest advocate for the people of Vermont that the State has ever known. He has also found time for his personal passion of photography and to appear in five Batman movies. The Senate as an institution and I personally will miss serving with PAT. My

wife Terese and I have been blessed by our friendship with PAT and his wife Marcelle.

The end of this Congress also marks the end of Senator RICHARD BURR's time in the Senate. I have worked with Senator BURR on the Committee on Health, Education, Labor, and Pensions, on which we both sit. We have found common ground on a number of issues, most notably our shared interest in bio-defense and pandemic preparedness, upon which we have worked jointly for years. We led the effort in the Senate to pass the ABLE bill in 2014, which allows people with disabilities and their families to save for care and accommodations related to their disabilities. We also worked to advance out of committee a bipartisan pregnancy discrimination bill, which I still hope to get over the finish line this week. We have also disagreed at times, for example, when we both advocated for our respective States to receive critical title I education funding. I also served with Senator BURR on the Senate Select Committee on Intelligence where, as the senior Republican on the committee, he helped to steer the committee through the treacherous waters of the Russia report detailing Russia's efforts to interfere in the 2016 election and to aid Donald Trump's candidacy. Even when the elements of his own party pressured him to do otherwise, Senator BURR stood up for American democracy and put country before party.

Senator ROY BLUNT of Missouri is also retiring. In agreement or disagreement, Senator BLUNT has been an honest broker, one who worked to try and find common ground and who was honest when he could not. In the past year, he and I have worked successfully to sort through some challenging issues related to pregnancy discrimination and the Congressional Accountability Act. The details of the legislation here are not as pertinent here as the manner in which he engaged in the issue—respectfully, substantively, and productively. He and I have also worked together on adoption issues for many years and together lead a bill to make the Adoption Tax Credit refundable, which allows many more low-income families to benefit. He has been an excellent partner in that effort. I regret that we have not been able to enact that bill into law prior to his retirement, but I will continue to seek its passage in the coming Congress. Finally, ROY and I have worked for years to build and repair bridges in smaller, rural areas of our respective States by allocating additional funds to so-called off-system bridges.

I did not have the privilege of working with Senator RICHARD SHELBY of Alabama when he was a member of the Democratic Caucus in the 1980s, before my time in the Senate. Regardless, Senator SHELBY and I have been neighbors on the third floor of the Russell Senate Office Building, which means that we often find ourselves walking to

vote on the Senate floor at around the same time. Early in my career, I found myself delivering to Senator SHELBY's office a box of ice cream from the legendary Creamery at Penn State, the result of lost bet between Penn State and the top-ranked Alabama football team in 2010. Most recently, Senator SHELBY was critical to bringing back the ability of Senators to advocate for community projects in their home State through the appropriations process. As the senior Republican on the Appropriations Committee, Senator SHELBY has been unwavering in his belief that Senators understand the critical needs of their communities and should have the opportunity to advocate for them. Due to Senator SHELBY's efforts to bring back congressionally directed spending and my advocacy for worthy projects throughout Pennsylvania, communities large and small are addressing critical local needs, from early childhood to infrastructure to healthcare, among others.

Senator ROB PORTMAN of Ohio is also retiring from the Senate this year. Ohio shares a border with Pennsylvania, and, not surprisingly, we share many of the same concerns. For example, we both believe in the critical importance of our manufacturing base to the American economy and the need to support the workers upon whom our manufacturing might is built. We have both been critical of China and its efforts to undermine the American manufacturers and workers, especially in the case of steel production. Senator PORTMAN and I have partnered to protect some of the last American manufacturers of electrical steel from deliberate Chinese market distortion. I have also worked with Senator PORTMAN and his fellow Ohioan Senator SHERROD BROWN on several iterations of legislation called Leveling the Playing Field to help manufacturers respond to unfair market competition from China and Chinese enterprises operating under the protection of the Chinese Government. I also want to note that Senator PORTMAN and I have a shared interest in children's mental health and teamed up recently on S. 4757, the Investing in Kids' Mental Health Now Act, a bill to increase the availability of mental health resources for children.

Finally, I wish to note the departure of Senator JIM INHOFE of Oklahoma from the Senate. A member of the Senate since 1994, Senator INHOFE is known first and foremost as a champion of our military and the men and women who serve our nation. He has served on the Senate Armed Services Committee capably for decades, most recently as the senior Republican on the panel. This year, we honored Senator INHOFE by naming the annual defense authorization bill after him. I am especially grateful to Senator INHOFE and the Armed Services Committee for including the Global Food Security Act in the FY23 Defense authorization bill, which will strengthen our country's effort to promote food security around

the world and also fight extremism and political unrest around the world. This good national security bill is one of many ways in which Senator INHOFE's leadership on issues related to the continent of Africa will continue far after his retirement, as 16 of the 20 countries targeted by the Global Food Security Act's development program are in Africa. Senator INHOFE and I also share a deep concern for the brave Afghans seeking freedom from the Taliban and recently joined together to write to the Biden administration urging it to do all that it could to assist with the evacuation of the students and guardians of the Merefat School, the first co-educational school in Afghanistan and a leading beacon of efforts to promote the education and equity of girls in Afghanistan. Our efforts helped the successful evacuation of hundreds of children and their families who were at risk under the Taliban's brutal regime.

As each of these retiring members leave the Senate for the last time and go home to their families for the holidays, I want to wish them my heartfelt thanks for their years of service to the Senate and to the country.

REMEMBERING ROBERT "BOBBY" SILVERSTEIN

Mrs. MURRAY. Mr. President, I rise today to recognize and honor the life of Robert "Bobby" Silverstein, a leader in the disability rights movement, who passed away on November 17 from complications from cancer.

Bobby served in a number of roles in the U.S. House of Representatives and the U.S. Senate, including as staff director and chief counsel for the Subcommittee on Disability Policy of the Senate Committee on Labor and Human Resources, now the Committee on Health, Education, Labor, and Pensions. He drafted, negotiated, and helped pass landmark bipartisan legislation, including the Americans with Disabilities Act and critical amendments to the Rehabilitation Act, the Individuals with Disabilities Education Act, and the Developmental Disabilities Assistance and Bill of Rights Act, improving the lives of millions of people with disabilities.

Bobby was an effective leader known for building consensus and his dedication to critical analysis and the basic principle of fairness. Bobby received dozens of national awards honoring his contributions, including the Distinguished Services Award of the President of the United States in 1993. Bobby improved the lives of people with disabilities by enshrining in Federal law their fundamental rights to full participation, equal opportunity, independent living, economic self-sufficiency, education, and employment. He has immeasurably shaped the disability and civil rights movement for the better, and I join former chairs of the HELP Committee in recognizing all of his contributions.

After leaving Congress, Bobby continued to dedicate himself to disability

policy and advocacy. His work has and will continue to make life better for so many people with disabilities and families across the country. He will be remembered fondly.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. PADILLA:

S. 5309. A bill to prohibit a Federal law enforcement officer from using lethal force or less lethal force unless such force is necessary, to encourage States to adopt similar laws or policies, and for other purposes; to the Committee on the Judiciary.

Mr. PADILLA. Mr. President, I rise to introduce the PEACE Act.

This legislation recognizes the need to reform the standard for use of force with Federal officers. In order to strengthen our criminal justice system and reduce the risks posed to both law enforcement officers and the public, we must reconsider when lethal force is necessary.

This legislation would end the use of deadly force by Federal law enforcement unless there are no other reasonable alternatives.

This legislation would also condition certain DOJ funding for States on whether they enact legislation that establishes the same higher standard of conduct for local law enforcement. The current accountability structure for lethal force on the Federal level fails to accurately ensure accountability when members of the public are killed.

A lack of accountability when members of the public are killed is a breeding ground for illicit behavior. In recent years, it has been continuously shown that Black people are more likely to experience incidents involving excessive force when interacting with police.

Americans deserve better. We deserve a system that will encourage deescalation tactics and hold bad actors accountable. This is too urgent a need to go unaddressed.

Public safety is a two-way street. We trust law enforcement to maintain order. In return, we expect officers to be held to account for bad behavior. This bill is an important step to reducing unnecessary losses of life and building trust between the public and law enforcement.

I look forward to working with my colleagues to pass the PEACE Act as quickly as possible.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 875—DECLARING RACISM A PUBLIC HEALTH CRISIS

Mr. BROWN (for himself, Mr. BOOKER, Mr. PADILLA, Ms. WARREN, Ms. STABENOW, Mr. WARNOCK, Mr. MENENDEZ, Mr. CARDIN, Mr. MERKLEY, Mr. BLUMENTHAL, Mrs. FEINSTEIN, Ms. BALDWIN, Mr. CARPER, Ms. KLOBUCHAR, Mr. LEAHY, Mr. SANDERS, Ms. SMITH, Mr. VAN HOLLEN, Mr. WYDEN, Mr. MARKEY, Ms. HIRONO, Ms. DUCKWORTH, Mr. REED, and Mr. WHITEHOUSE) submitted the following resolution; which was referred to the Committee on Health, Education, Labor, and Pensions:

S. RES. 875

Whereas a public health issue is an issue—
(1) that affects many people, is a threat to the public, and is ongoing;

(2) that is unfairly distributed among different populations, disproportionately impacting health outcomes, access to health care, and life expectancy;

(3) the effects of which could be reduced by preventive measures; and

(4) for which those preventive measures are not yet in place;

Whereas public health experts agree that significant racial inequities exist in the prevalence, severity, and mortality rates of various health conditions in the United States;

Whereas examples of such inequities include—

(1) life expectancy rates for Black and Native American people in the United States being significantly lower than those of White people in the United States;

(2) Black and Native American women being 2 to 4 times more likely than White women to suffer severe maternal morbidity or die of pregnancy-related complications;

(3) Black and Native American infants being 2 to 3 times as likely to die as White infants, and the Black infant mortality rate in the United States being higher than the infant mortality rates recorded in 27 of the 36 democratic countries with market-based economies that are members of the Organization for Economic Co-operation and Development; and

(4) during the COVID-19 pandemic, Black, Hispanic/Latino, Asian American, Native Hawaiian, Pacific Islander, and Native American communities experiencing disproportionately high rates of COVID-19 infection, hospitalization, and mortality compared to the White population of the United States;

Whereas inequities in health outcomes are exacerbated for people of color who are LGBTQIA+ and have disabilities;

Whereas, historically, explanations for health inequities focused on false genetic science (for example, eugenics) and incomplete social scientific analyses that narrowly focus on individual behavior to highlight ostensible deficiencies within racial and ethnic minority groups;

Whereas modern public health discourse recognizes the broader social context in which health inequities emerge and acknowledges the impact of historical and contemporary racism on health;

Whereas, since its founding, the United States has had a longstanding history and legacy of racism, mistreatment, and discrimination that has perpetuated health inequities for members of racial and ethnic minority groups;

Whereas that history and legacy of racism, mistreatment, and discrimination includes—

(1) the immoral paradox of freedom and slavery, which is an atrocity that can be traced throughout the history of the United States, as African Americans lived under the oppressive institution of slavery from 1619 through 1865, endured the practices and laws of segregation during the Jim Crow era, and continue to face the ramifications of systemic racism through unjust and discriminatory structures and policies;

(2) the failure of the United States to carry out the responsibilities and promises made in more than 350 treaties ratified with sovereign indigenous communities, including American Indians, Alaska Natives, and Native Hawaiians, as made evident by the chronic and pervasive underfunding of the Indian Health Service and Tribal, Urban Indian, and Native Hawaiian health care, the vast health and socioeconomic inequities faced by Native American people, and the inaccessibility of many Federal public health and social programs in Native American communities;

(3) the enactment of immigration laws in the United States, such as—

(A) the Page Act of 1875, which effectively prohibited the entry of East Asian women into the United States;

(B) the Chinese Exclusion Act in 1882, which ostracized thousands of Chinese-born laborers, who were essential in the completion of the transcontinental railroad and development of the West Coast; and

(C) the Immigration Act of 1917, which barred all immigrants from the “Asiatic zone” and prevented the migration of individuals from South Asia, Southeast Asia, and East Asia, scapegoating Asians, separating families, and branding Asians as perpetual outsiders in the United States;

(4) during the Great Depression Era, the deportation by the United States of approximately 1,800,000 individuals based on their Mexican ethnic identity, when approximately 60 percent of the individuals deported to Mexico were United States citizens, and the targeting of individuals of Mexican descent for “repatriation” due to scapegoating efforts, which blamed them for “stealing” jobs from “real” Americans; and

(5) in 1967, President Lyndon B. Johnson establishing the National Advisory Commission on Civil Disorders, which concluded that White racism is responsible for the pervasive discrimination and segregation in employment, education, and housing, resulting in deepened racial division and continued exclusion of Black communities from the benefits of economic progress;

Whereas overt racism was embedded in the development of medical science and medical training during the 18th, 19th, and 20th centuries, causing disproportionate physical and psychological harm to members of racial and ethnic minority groups, including—

(1) the unethical practices and abuses experienced by Black patients and research participants, such as the Tuskegee Syphilis Study, which serve as foundations for the mistrust the Black community has for the medical system; and

(2) the egregiously unethical and cruel treatment enslaved Black women were forced to endure as subjects of insidious medical experiments to advance modern gynecology, including those perpetuated by the so-called “father of gynecology”, J. Marion Sims;

Whereas structural racism cemented historical racial and ethnic inequities in access to resources and opportunities, contributing to worse health outcomes;

Whereas examples of that structural racism include—

(1) that, before the enactment of the Medicare program, the United States health care system was highly segregated, and, as late as the mid-1960s, hospitals, clinics, and doctors’ offices throughout northern and southern States complied with Jim Crow laws and were completely segregated by race, leaving Black communities with little to no access to health care services;

(2) the landmark case *Simkins v. Moses H. Cone Memorial Hospital* (323 F.2d 959 (4th Cir. 1963)), which challenged the use of public funds by the Federal Government to expand, support, and sustain segregated hospital care, and provided justification for title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.) and the Medicare hospital certification program, establishing Medicare hospital racial integration guidelines that applied to every hospital that participated in the Federal program;

(3) Pacific Islanders from the Freely Associated States experiencing unique health inequities resulting from United States nuclear weapons tests on their home islands, while they have been categorically denied access to Medicaid and other Federal health benefits; and

(4) language minorities, including Chinese-, Korean-, Vietnamese-, Russian-, and Spanish-speaking Americans, not being assured nondiscriminatory access to federally funded services, including health services, until the signing of Executive Order 13166 (42 U.S.C. 2000d-1 note; related to improving access to services for persons with limited English proficiency) in 2000;

Whereas, although overt racism has been outlawed in the United States, subtle or implicit racism in all sectors of the medical service profession continues to cause disproportionate physical and psychological harm to members of racial and ethnic minority groups;

Whereas examples of subtle or implicit racism in the medical service profession include—

(1) the history and persistence of racist and nonscientific medical beliefs, which are associated with ongoing racial inequities in treatment and health outcomes;

(2) implicit racial and ethnic biases within the health care system, which have an explicit impact on the quality of care experienced by members of racial and ethnic minority groups, such as the undertreatment of pain in Black patients;

(3) nearly 1 in 5 Hispanic/Latino Americans avoiding medical care due to concern about being discriminated against or treated poorly;

(4) the United States health care system and other economic and social structures remaining fraught with biases based on race, ethnicity, sex (including sexual orientation and gender identity), and class that lead to health inequities;

(5) women of color, including Black, Native American, Hispanic/Latina, Asian American, Native Hawaiian, and Pacific Islander women, continuing to face attacks on their prenatal, maternal, and reproductive health and rights throughout history; and

(6) physicians routinely, through the late 1960s and early 1980s, sterilizing members of racial and ethnic minority groups, specifically African American and Latina women, performing excessive and medically unnecessary procedures without their informed consent;

Whereas structural racism perpetuates racial and ethnic inequities in the social determinants of health, which produces unintended negative health outcomes for members of racial and ethnic minority groups;

Whereas examples of that structural racism include—

(1) that there are fewer pharmacies, medical practices, and hospitals in predominantly Black and Hispanic/Latino neighborhoods, compared to White or more diverse neighborhoods;

(2) environmental hazards, such as toxic waste facilities, garbage dumps, and other sources of airborne pollutants, being disproportionately located in predominantly Black, Hispanic/Latino, Asian American, Native Hawaiian, Pacific Islander, and low-income communities, resulting in poor air quality conditions, which can increase the likelihood of chronic respiratory illness and premature death from particle pollution;

(3) that employed Black adults are 10 percent less likely to have workplace insurance than are employed White adults because of racial segregation in occupation sectors and types of organizations they work in, and that certain groups of nonelderly Asian American adults, including Native Hawaiian, Pacific Islander, Korean, Vietnamese, and Cambodian adults, also have lower levels of insurance than White adults;

(4) that several States with higher percentages of Black, Hispanic/Latino, and Native American populations have not expanded their Medicaid programs, continuing to disenfranchise minority communities from access to health care to this day;

(5) discriminatory housing practices, such as redlining, which have, for decades, systematically excluded members of racial and ethnic minority groups from housing, robbing them of capital in the form of low-cost, stable mortgages and opportunities to build wealth, and the Federal Government using

its financial power to segregate renters in newly built public housing;

(6) social inequities such as differing access to quality health care, healthy food and safe drinking water, safe neighborhoods, education, job security, and reliable transportation, which affect health risks and outcomes;

(7) that, as much as 60 percent of the health of a person in the United States can be determined by their zip code;

(8) that the COVID-19 pandemic has exacerbated economic, health, housing, and food security barriers for Black, Hispanic/Latino, and Native American households, which already suffer from disproportionately higher rates of food insecurity; and

(9) members of the Black, Native American, Alaska Native, Asian American, Native Hawaiian, Pacific Islander, and Hispanic/Latino communities being disproportionately impacted by the criminal justice and immigration enforcement systems and facing a higher risk of contracting COVID-19 within prison populations and detention centers due to the over-incarceration of members of those communities;

Whereas structural racism perpetuates ongoing knowledge gaps in data, research, and development, which produces unintended negative health outcomes for members of racial and ethnic minority groups;

Whereas examples of that structural racism include that—

(1) most participants in clinical trials are White, so there is insufficient data to develop evidence-based recommendations for people from racial and ethnic minority groups;

(2) medical research equipment and medical devices are typically developed by majority-White teams and thus can have racial blind spots unintentionally built into their design, rendering them less effective for people from racial and ethnic minority groups, such as—

(A) electroencephalogram (EEG) electrodes used in neuroimaging research do not collect reliable data when used on scalps with thick, curly hair; and

(B) pulse oximeters produce less accurate oxygen saturation readings when used on fingertips with darker skin;

(3) a lack of images depicting darker skin in medical textbooks, literature, and journals contributes to higher rates of underdiagnosis or misdiagnosis in patients with darker skin; and

(4) many health-related studies fail to include disaggregated data on, or do not disaggregate data among, Asian Americans, Native Hawaiians, and Pacific Islanders, leading to their invisibility in health data and unjust resource allocation and policies;

Whereas racism produces unjust outcomes and treatment for members of racial and ethnic minority groups, with such negative experiences serving as stressors that over time have a negative impact on physical health (leading, for example, to high blood pressure or hypertension) and mental health (leading, for example, to anxiety or depression);

Whereas there is evidence that racial and ethnic minority groups continue to face discrimination in the United States, examples of which include that—

(1) compared to White Americans, Black Americans are 5 times more likely to report experiencing discrimination when interacting with the police, Hispanic/Latino Americans and Native Americans are nearly 3 times as likely, and Asian Americans, Native Hawaiians, and Pacific Islanders are nearly twice as likely;

(2) 42 percent of United States employees have experienced or witnessed racism in the workplace;

(3) social scientists have documented racial microaggressions in contemporary United States society, including—

(A) assumptions that members of racial and ethnic minority groups are not true Americans;

(B) assumptions of lesser intelligence;

(C) statements that convey color-blindness or denial of the importance of race;

(D) assumptions of criminality or dangerousness;

(E) denial of individual racism;

(F) promotion of the myth of meritocracy;

(G) assumptions that one's cultural background and communication styles are pathological;

(H) treatment as a second-class citizen; and

(I) environmental messages of being unwelcome or devalued;

(4) Muslims, South Asians, and Sikhs were unjustly targeted for profiling, surveillance, arrest, discrimination, harassment, assault, and murder after 9/11;

(5) xenophobic rhetoric, including anti-migrant rhetoric and scapegoating people of East Asian and Southeast Asian descent for the COVID-19 pandemic, has resulted in a surge of hate incidents against Asian Americans, Native Hawaiians, and Pacific Islanders, including increased harassment, discrimination, bullying, vandalism, and assault; and

(6) more than 50 percent of Hispanic/Latino adults experience at least one form of discrimination due to their racial or ethnic heritage, such as being treated as if they were not smart, criticized for speaking Spanish, told to return to their country, called offensive names, or unfairly stopped by the police;

Whereas Black people in the United States experience overt and direct forms of violence that, when not fatal, can cause severe physical or psychological harm;

Whereas examples of such forms of violence include—

(1) Black people being confronted and threatened by armed citizens while performing everyday tasks, such as jogging in neighborhoods, driving while Black, or playing in a park;

(2) Black people being 3 times more likely to be killed by police than White people, and police violence being the sixth leading cause of death for young Black men;

(3) Black communities leading the United States in mourning the killings of Ahmaud Arbery, Breonna Taylor, George Floyd, Elijah McClain, and countless other Black Americans, and in calling for justice and long-term changes to dismantle systems of oppression;

(4) that it took the United States 66 years after the senseless and brutal murder of 14-year-old Emmett Till to make lynching a Federal crime;

(5) since 2015, mass shootings around the country, such as in Buffalo, New York, and Charleston, South Carolina, serving as reminders of the unresolved history of racism in the United States and highlighting the threats Black people must take into consideration when going about their daily lives, both when outside their communities and within those communities; and

(6) the real threat of brutality and violence adversely impacting mental health among Black communities;

Whereas Native Americans, Alaska Natives, Hispanic/Latinos, Asian Americans, Native Hawaiians, and Pacific Islanders experience racially motivated kidnapping, murders, and mass violence, such as shootings in Oak Creek, Wisconsin, El Paso, Texas, Atlanta, Georgia, and Indianapolis, Indiana, that, even when not fatal, can cause severe physical or psychological harm;

Whereas, throughout the history of the United States, members of racial and ethnic minority groups have been at the forefront

of civil rights movements for essential freedoms, human rights, and equal protection for marginalized groups and continue to fight for racial and economic justice today;

Whereas racial inequities in health continue to persist because of historical and contemporary racism;

Whereas public health experts agree that racism meets the criteria of a public health crisis, because—

(1) the condition affects many people, is seen as a threat to the public, and is continuing to increase;

(2) the condition is distributed unfairly;

(3) preventive measures could reduce the effects of the condition; and

(4) those preventive measures are not yet in place;

Whereas the Centers for Disease Control and Prevention—

(1) declared racism a serious threat to public health; and

(2) acknowledged the need for additional research and investments to address that serious threat;

Whereas a Federal public health crisis declaration defines racism as a pervasive health issue and alerts the people of the United States to the need to enact immediate and effective cross-governmental efforts to address the root causes of structural racism and the downstream impacts of that racism; and

Whereas such a declaration requires the response of governments to engage significant resources to empower the communities that are impacted; Now, therefore, be it

Resolved, That the Senate—

(1) supports the resolutions drafted, introduced, and adopted by cities and localities across the United States declaring racism a public health crisis;

(2) declares racism a public health crisis in the United States;

(3) commits to—

(A) establishing a nationwide strategy to address health disparities and inequities across all sectors in society;

(B) dismantling systemic practices and policies that perpetuate racism;

(C) advancing reforms to address years of neglectful and apathetic policies that have led to poor health outcomes for members of racial and ethnic minority groups; and

(D) promoting efforts to address the social determinants of health for all racial and ethnic minority groups in the United States, and especially for Black and Native American communities; and

(4) places a charge on the people of the United States to move forward with urgency to ensure that the United States stands firmly in honoring its moral purpose of advancing the self-evident truths that all people are created equal, that they are endowed with certain unalienable rights, and that among these are life, liberty, and the pursuit of happiness.

- (2) by inserting before subchapter II, as so redesignated, the following new subchapter:

"SUBCHAPTER I—EMERGENCY SITUATIONS

"§ 3601. Definition of emergency situation

"In this chapter, the term 'emergency situation' means a situation that—

- "(1) the President declares is an emergency; and
- "(2) the Secretary determines is an emergency for purposes of the laws administered by the Secretary.

"§ 3602. Continuation of educational assistance benefits during emergency situations

"(a) AUTHORITY.—(1) If the Secretary determines under subsection (c) that an individual is negatively affected by an emergency situation, the Secretary may provide edu-

cational assistance to that individual under the laws administered by the Secretary as if such negative effects did not occur.

"(2) The authority under this section is in addition to the other authorities of the Secretary to provide benefits in emergency situations, but in no case may the Secretary provide more than a total of four weeks of additional educational assistance by reason of any other such authority and this section.

"(b) HOUSING AND ALLOWANCES.—In providing educational assistance to an individual pursuant to subsection (a), the Secretary may—

"(1) continue to pay a monthly housing stipend under chapter 33 of this title, during a month the individual would have been enrolled in a program of education or training but for the emergency situation at the same rate such stipend would have been payable if the individual had not been negatively affected by the emergency situation, except that the total number of weeks for which stipends may continue to be so payable may not exceed four weeks; and

"(2) continue to pay payments or subsistence allowances under chapters 30, 31, 32, 33, and 35 of this title and chapter 1606 of title 10 during a month for a period of time that the individual would have been enrolled in a program of education or training but for the emergency situation, except that the total number of weeks for which payments or allowances may continue to be so payable may not exceed four weeks.

"(c) DETERMINATION OF NEGATIVE EFFECTS.—The Secretary shall determine that an individual was negatively affected by an emergency situation if—

"(1) the individual is enrolled in a covered program of education of an educational institution or enrolled in training at a training establishment and is pursuing such program or training using educational assistance under the laws administered by the Secretary;

"(2) the educational institution or training establishment certifies to the Secretary that such program or training is truncated, delayed, relocated, canceled, partially canceled, converted from being on-site to being offered by distance learning, or otherwise modified or made unavailable by reason of the emergency situation; and

"(3) the Secretary determines that the modification to such program or training specified under paragraph (2) would reduce the amount of educational assistance (including with respect to monthly housing stipends, payments, or subsistence allowances) that would be payable to the individual but for the emergency situation.

"(d) EFFECT ON ENTITLEMENT PERIOD.—If the Secretary determines that an individual who received assistance under this section did not make progress toward the completion of the program of education in which the individual is enrolled during the period for which the individual received such assistance, any assistance provided pursuant to this section shall not be counted for purposes of determining the total amount of an individual's entitlement to educational assistance, housing stipends, or payments or subsistence allowances under chapters 30, 31, 32, and 35 of this title and chapter 1606 of title 10.

"§ 3603. Continuation of educational assistance benefits for certain programs of education converted to distance learning by reason of emergency situations

"(1) was unable to complete such course or program as a result of—

"(A) the closure of the educational institution, or the full or partial cancellation of a course or program of education, by reason of an emergency situation; or

"(B) the disapproval of the course or a course that is a necessary part of that program under this chapter because the course was modified by reason of such emergency; and

"(B) continuing pursuing such course is in the best interest of the individual.

course of education at an educational institution under chapter 30, 31, 32, 33, or 35 of this title or chapter 1606 of title 10, as of the date on which the course is disapproved as described in subsection (b)(1)(B).

“(C) **WAGE SURVEYS AND DATA.**—

“(i) **AGRICULTURAL LABOR SURVEY.**—The Secretary of Labor, in carrying out the responsibilities in setting the adverse effect wage rate under subparagraph (A), shall rely on statistically valid data from the Department of Agriculture National Agricultural Statistics Service’s annual findings from the Agricultural Labor Survey (commonly referred to as the ‘Farm Labor Survey’).

“(C) **EXCEPTION FOR YEAR-ROUND JOBS.**—If the Secretary of Labor publishes an updated adverse effect wage rate or prevailing wage for a State and occupational classification concerning a petition described in subsection (i), and the updated wage is higher than the wage rate guaranteed in the work contract, the employer shall pay the updated wage not later than 14 days after publication of the updated wage in the Federal Register.

“(5) **GUARANTEE OF EMPLOYMENT.**—

“(A) **OFFER TO WORKER.**—The employer shall guarantee the worker employment for the hourly equivalent of at least 80 percent of the work days of the total period of employment, beginning with the first work day after the arrival of the worker at the place of employment and ending on the date specified in the job offer. For purposes of this subparagraph, the hourly equivalent means the number of hours in the work days as stated in the job offer and shall exclude the worker’s Sabbath and Federal holidays. In the event of such termination, the employer shall fulfill the employment guarantee in subparagraph (A) for the work days that have elapsed from the first work day after the arrival of the worker to the termination of employment. The employer shall make efforts to transfer a worker to other comparable employment acceptable to the worker. If such transfer is not affected, the employer shall provide the return transportation required in subsection (f)(2).

“(6) **WAGE STANDARDS AFTER 2034.**—

“(A) **STUDY OF ADVERSE EFFECT WAGE RATE.**—Beginning in fiscal year 2031, the Secretary of Agriculture and the Secretary of Labor shall jointly conduct a study that addresses—

“(ii) whether an adverse effect wage rate is necessary to protect the wages of United States farm workers in occupations in which H-2A workers are employed;

“(iii) whether alternative wage standards would be sufficient to prevent wages in occupations in which H-2A workers are employed from falling below the wage level that would have prevailed in the absence of H-2A employment;

“(iv) whether any changes are warranted in the current methodologies for calculating

the adverse effect wage rate and the prevailing wage rate; and

“(v) recommendations for future wage protection under this section.

Such process shall be designed to ensure that the employment of H-2A workers does not undermine the wages and working conditions of similarly employed United States workers.

“(e) **HOUSING REQUIREMENTS.**—Employers shall furnish housing in accordance with regulations established by the Secretary of Labor. Such regulations shall be consistent with the following:

“(1) **IN GENERAL.**—The employer shall be permitted at the employer’s option to provide housing meeting applicable Federal standards for temporary labor camps or to secure housing which meets the local standards for rental and/or public accommodations or other substantially similar class of habitation: Provided, That in the absence of applicable local standards, State standards for rental and/or public accommodations or other substantially similar class of habitation shall be met: Provided further, That in the absence of applicable local or State standards, Federal temporary labor camp standards shall apply.

“(2) TRAVEL FROM PLACE OF EMPLOYMENT.—For a worker who completes the period of employment specified in the job order or who is terminated without cause, the employer shall provide or pay for the worker's transportation and subsistence from the place of employment to the place from which the worker, disregarding intervening employment, came to work for the employer, or to the place of next employment, if the worker has contracted with a subsequent employer who has not agreed to provide or pay for the worker's transportation and subsistence to such subsequent employer's place of employment.

“(2) LABOR CERTIFICATION.—

“(A) REVIEW OF JOB ORDER.—

“(i) IN GENERAL.—The Secretary of Labor, in consultation with the relevant State workforce agency, shall review the job order for compliance with this section and notify the employer through the electronic platform of any deficiencies not later than 7 business days from the date the employer submits the necessary information required under paragraph (1)(A). “(E) EXPEDITED ADMINISTRATIVE APPEALS OF CERTAIN DETERMINATIONS.—The Secretary of Labor shall by regulation establish a procedure for an employer to request the expedited review of a denial of a labor certification under this section, or the revocation of such a certification. Such procedure shall require the Secretary to expeditiously, but no later than 72 hours after expedited review is requested, issue a de novo determination on a labor certification that was denied in whole or in part because of the availability of able, willing and qualified workers if the employer demonstrates, consistent with subsection (c)(3)(B), that such workers are not actually available at the time or place such labor or services are required.

“(B) RESERVE FOR DAIRY LABOR OR SERVICES.—

“(i) IN GENERAL.—Of the visa numbers made available in each half of the fiscal year pursuant to subparagraph (A), 50 percent of such visas shall be reserved for employers filing petitions seeking H-2A workers to engage in agricultural labor or services in the dairy industry.

Such proof shall consist of evidence including, but not limited to, arrival and departure records, copies of tax returns, and records of employment abroad.

“(D) ADMISSION.—In addition to the maximum continuous period of authorized stay, an H-2A worker's authorized period of admission shall include an additional period of 10 days prior to the beginning of the period of employment for the purpose of traveling to the place of employment and 45 days at the end of the period of employment for the purpose of traveling home or seeking an extension of status based on a subsequent offer of employment if the worker has not reached the maximum continuous period of authorized stay under subparagraph (A) (subject to the exceptions in subparagraph (C)).

"SEC. 274E. REQUIREMENTS FOR THE ELECTRONIC VERIFICATION OF EMPLOYMENT ELIGIBILITY.

"(a) EMPLOYMENT ELIGIBILITY VERIFICATION SYSTEM.—

"(1) IN GENERAL.—The Secretary of Homeland Security (referred to in this section as the 'Secretary') shall establish and administer an electronic verification system (referred to in this section as the 'System'), patterned on the E-Verify Program described in section 403(a) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1324a note) (as in effect on the day before the effective date described in section 303(a)(4) of the Affordable and Secure Food Act of 2022), and using the employment eligibility confirmation system established under section 404 of such Act (8 U.S.C. 1324a note) (as so in effect) as a foundation, through which the Secretary shall—

"(A) respond to legitimate inquiries made by persons or entities seeking to verify the identity and employment authorization of individuals that such persons or entities have hired, or to recruit or refer for a fee, for employment in the United States; and

"(B) maintain records of the inquiries that were made, and of verifications provided (or not provided) to such persons or entities as evidence of compliance with the requirements of this section.

"(2) INITIAL RESPONSE DEADLINE.—

"(A) IN GENERAL.—The System shall provide confirmation or a tentative nonconfirmation of an individual's identity and employment authorization as soon as practicable, but not later than 3 calendar days after the initial inquiry.

"(B) EXTENSION OF TIME PERIOD.—If a person or other entity attempts in good faith to make an inquiry through the System during a period in which the System is offline due to a technical issue, a natural disaster, or another reason, the System shall provide the confirmation or nonconfirmation required under subparagraph (A) as soon as practicable after the System becomes fully operational.

"(3) GENERAL DESIGN AND OPERATION OF SYSTEM.—The Secretary shall design and operate the System—

“(A) using responsive web design and other technology approaches to maximize its ease of use and accessibility for users on a variety of electronic devices and screen sizes, and in remote locations;

“(B) to maximize the accuracy of responses to inquiries submitted by persons or entities;

“(C) to maximize the reliability of the System and to register each instance when the System is unable to receive inquiries;

“(D) to maintain and safeguard the privacy and security of the personally identifiable information maintained by or submitted to the System, in accordance with applicable law;

“(E) to provide direct notification of an inquiry to an individual with respect to whom the inquiry is made, including the results of such inquiry, and information related to the process for challenging the results, in cases in which the individual has established a user account as described in paragraph (4)(B) or an electronic mail or messaging address for the individual is submitted by the person or entity at the time the inquiry is made; and

“(F) to maintain appropriate administrative, technical, and physical safeguards to prevent misuse of the System and unfair immigration-related employment practices.

“(4) MEASURES TO PREVENT IDENTITY THEFT AND OTHER FORMS OF FRAUD.—To prevent identity theft and other forms of fraud, the Secretary shall design and operate the System with the following attributes:

“(A) PHOTO MATCHING TOOL.—The System shall display a digital photograph of the individual, if available, that corresponds to the document presented by an individual to establish identity and employment authorization so that the person or entity that makes an inquiry can compare the photograph displayed by the System to the photograph on the document presented by the individual. The individual may not be deemed ineligible for employment solely for failure to match using the photo matching tool. The verification of an individual's employment eligibility shall be made based on the totality of the information available.

“(B) INDIVIDUAL MONITORING AND SUSPENSION OF IDENTIFYING INFORMATION.—The System shall enable individuals to establish user accounts, after authentication of an individual's identity, that would allow each individual—

“(i) to confirm the individual's own employment authorization;

“(ii) to receive electronic notification when the individual's Social Security account number or other personally identifying information has been submitted to the System;

“(iii) to monitor the use history of the individual's personally identifying information in the System, including the identities of all persons or entities that have submitted such identifying information to the System, the date of each query run, and the System response for each query run;

“(iv) to suspend or limit the use of the individual's Social Security account number or other personally identifying information for purposes of the System; and

“(v) to provide notice to the Department of Homeland Security of any suspected identity fraud or other improper use of personally identifying information.

“(C) BLOCKING MISUSED SOCIAL SECURITY ACCOUNT NUMBERS.—

“(i) IN GENERAL.—The Secretary, in consultation with the Commissioner of Social Security (referred to in this section as the ‘Commissioner’), shall issue, after publication in the Federal Register and an opportunity for public comment, a final rule establishing a process by which Social Security account numbers that have been identi-

fied to be subject to unusual multiple use in the System or that are otherwise suspected or determined to have been compromised by identity fraud or other misuse, will be blocked from use in the System unless an individual using such a number establishes, through secure and fair procedures, that the individual is the legitimate holder of such number.

“(ii) CONTINUATION OF EXISTING SELF LOCK SYSTEM.—During the period in which the Commissioner of Social Security is developing the process required under clause (i), the Commissioner shall maintain the Self Lock system that permits individuals to prevent unauthorized users from using their Social Security account numbers to confirm employment authorization through E-Verify.

“(iii) NOTICE.—If the Secretary blocks or suspends a Social Security account number pursuant to this subparagraph, the Secretary shall provide notice to the persons or entities that have made inquiries to the System using such account number that the identity and employment authorization of the individual who provided such account number must be re-verified.

“(D) ADDITIONAL IDENTITY AUTHENTICATION TOOL.—The Secretary shall develop additional security measures to adequately verify the identity of an individual whose identity may not be verified using the photo matching tool described in subparagraph (A). Such additional security measures shall be—

“(i) kept up-to-date with technological advances;

“(ii) designed to provide a high level of certainty with respect to identity authentication; and

“(iii) designed to safeguard the individual's privacy and civil liberties.
