

**Biography for Marty Daniel
Founder and CEO
Daniel Defense, LLC**

Marvin C. Daniel “Marty” is the founder and CEO of Daniel Defense. Marty grew up in South Georgia and received his Bachelor’s Degree in Electrical Engineering from Georgia Southern University.

As a firearms enthusiast and lifelong shooter, the concept for Daniel Defense was created out of an inability to find firearm accessories in the commercial market. Marty began to design and manufacture those firearm accessories and rails, and soon found the demand for these types of products was much greater than he could have ever imagined. Thus, Daniel Defense was born.

Daniel Defense has been recognized by INC. 500|5000 Magazine in 2012, 2013 and 2014 as one of the fastest growing private companies in America. In 2017, Marty was voted as one of South Magazine’s greatest bosses.
