

118TH CONGRESS
1ST SESSION

H. R. 1462

To require enforcement against misbranded milk alternatives.

IN THE HOUSE OF REPRESENTATIVES

MARCH 8, 2023

Mr. JOYCE of Pennsylvania (for himself, Ms. KUSTER, Mr. SIMPSON, Mr. COURTNEY, Mr. VAN ORDEN, Ms. CRAIG, Mr. MEUSER, Mr. KILDEE, Mr. NEWHOUSE, Mr. CARTWRIGHT, Mr. STEIL, Ms. STEFANIK, Mr. GROTHMAN, Mr. GALLAGHER, Mr. FITZGERALD, Mr. VALADAO, Mr. THOMPSON of Pennsylvania, Mr. LANGWORTHY, Mr. RYAN, and Mrs. FISCHBACH) introduced the following bill; which was referred to the Committee on Energy and Commerce

A BILL

To require enforcement against misbranded milk alternatives.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Defending Against
5 Imitations and Replacements of Yogurt, Milk, and Cheese
6 To Promote Regular Intake of Dairy Everyday Act” or
7 the “DAIRY PRIDE Act”.

8 **SEC. 2. FINDINGS.**

9 Congress finds as follows:

1 (1) Dairy products are an important part of a
2 healthy diet for both children and adults, according
3 to the Dietary Guidelines for Americans, 2020–2025
4 (referred to in this section as the “Dietary Guide-
5 lines”) published by the Department of Agriculture
6 and the Department of Health and Human Services.
7 The Dietary Guidelines state that most Americans
8 are not meeting recommended intake for the dairy
9 food group.

10 (2) Consumption of dairy foods provides numer-
11 ous health benefits, including lowering the risk of di-
12 abetes, metabolic syndrome, cardiovascular disease,
13 and obesity.

14 (3) The Dietary Guidelines state that dairy
15 foods are sources of critical nutrients for human
16 health, including vitamin D, calcium, and potassium,
17 all of which are under consumed by people of the
18 United States. Even though average consumption
19 falls short of amounts recommended by the Food
20 Patterns of the Department of Agriculture, on aver-
21 age across the calorie levels dairy foods still con-
22 tribute about 68 percent of calcium, 76 percent of
23 vitamin D, and 31 percent of magnesium.

24 (4) Beginning at age 9 and persisting through-
25 out every subsequent life-stage, individuals in the

1 United States on average fail to meet the rec-
2 ommended amount of dairy intake for their age
3 group, according to the Dietary Guidelines. The Die-
4 tary Guidelines note the gap between recommended
5 and current intake of dairy widens throughout life
6 stages and find the age-related decreasing intake of
7 dairy for youth ages 2 through 18 to be “notable
8 and concerning”. Overall, approximately 90 percent
9 of the entire population of the United States does
10 not meet the daily dairy intake recommendation.

11 (5) The Dietary Guidelines state that the nutri-
12 ent composition of dairy foods highlights the impor-
13 tance of adequate consumption, finding this to be es-
14 pecially relevant for the intake of calcium and vita-
15 min D throughout an individual’s life. The Dietary
16 Guidelines note that calcium and vitamin D are im-
17 portant at any age, that adolescents have an in-
18 creased need for these nutrients to support accrual
19 of bone mass, and that adults should give particular
20 attention to consuming adequate amounts of foods
21 with these nutrients to promote optimal bone health
22 and prevent the onset of osteoporosis. Yet, close to
23 30 percent of men and 60 percent of women older
24 than age 19 do not consume enough calcium, and
25 more than 90 percent do not consume enough vita-

1 min D. According to the Dietary Guidelines, dietary
2 patterns that do not meet recommended consump-
3 tion amounts for food groups and subgroups which
4 include sources of calcium and vitamin D, such as
5 dairy foods, contribute to low intake of these nutri-
6 ents.

7 (6) The Dietary Guidelines state that many
8 products sold as “milks” but made from plants (e.g.,
9 almond, rice, coconut, oat, and hemp “milks”) do
10 not have an overall nutritional content similar to
11 real milk and that most have significantly less pro-
12 tein than real milk and are not always fortified with
13 calcium and vitamin D. The amount of calcium per
14 calorie is lower for most plant-based alternative milk
15 products. To obtain the amount of calcium contained
16 in one cup of nonfat fluid milk from a plant-based
17 milk alternative, the portion size and calorie intake
18 must be greater.

19 (7) Similarly, imitation dairy products, such as
20 plant-based products derived from rice, nuts, hemp,
21 coconut, algae, and other foods that imitate milk,
22 yogurt, and cheese, often do not provide the same
23 nutrition content as real cheese and yogurt derived
24 from dairy cows.

1 (8) Plant-based products labeled as milk are
2 misleading to consumers.

3 (9) The Food and Drug Administration has
4 regulations that define milk and cream as the “lac-
5 teal secretion, practically free from colostrum, ob-
6 tained by the complete milking of one or more
7 healthy cows” (section 131.110 of title 21, Code of
8 Federal Regulations). This definition further applies
9 to milk used to create other dairy products, includ-
10 ing yogurt and cheese, as specified in sections 131
11 and 133 of title 21, Code of Federal Regulations.

12 (10) Given the proliferation of plant-based
13 products in the marketplace that are mislabeled as
14 milk despite the standard of identity defined for this
15 substance, enforcement by the Food and Drug Ad-
16 ministration against these practices should be im-
17 proved to avoid misleading consumers.

18 **SEC. 3. PURPOSE.**

19 No food may be introduced or delivered for introduc-
20 tion into interstate commerce using a market name for
21 a dairy product if the food does not meet the criterion
22 set forth for dairy products under paragraph (z)(2) of sec-
23 tion 403 of the Federal Food, Drug, and Cosmetic Act
24 (21 U.S.C. 343) (as added by section 4(a)).

1 **SEC. 4. ENFORCEMENT OF DEFINITION.**

2 (a) IN GENERAL.—Section 403 of the Federal Food,
3 Drug, and Cosmetic Act (21 U.S.C. 343) is amended by
4 adding at the end the following:

5 “(z)(1) If it uses a market name for a dairy product
6 described in subparagraph (3) and the food does not meet
7 the criterion for being a dairy product, as described in
8 subparagraph (2).

9 “(2) For purposes of this paragraph, a food is a dairy
10 product only if the food is, contains as a primary ingre-
11 dient, or is derived from, the lacteal secretion, practically
12 free from colostrum, obtained by the complete milking of
13 one or more hooved mammals.

14 “(3) A market name for a dairy product described
15 in this subparagraph means the dairy product terms de-
16 scribed in parts 131 and 133 of subchapter B of chapter
17 I of title 21, Code of Federal Regulations, and sections
18 135.110, 135.115, and 135.140 of title 21, Code of Fed-
19 eral Regulations (or any successor regulations), or any
20 other term for which the Secretary has promulgated a
21 standard of identity with respect to a food that is formu-
22 lated with a dairy product (as described in subparagraph
23 (2)) as the primary ingredient.”.

24 (b) GUIDANCE.—

1 (1) NEW GUIDANCE.—The Secretary of Health
2 and Human Services, acting through the Commis-
3 sioner of Food and Drugs, shall—

4 (A) not later than 90 days after the date
5 of enactment of this Act, issue draft guidance
6 on how enforcement of the amendment made by
7 subsection (a) will be carried out; and

8 (B) not later than 180 days after the date
9 of enactment of this Act, issue final guidance
10 on such enforcement.

11 (2) EFFECT ON CERTAIN PREVIOUS GUID-
12 ANCE.—Effective on the date of enactment of this
13 Act, any guidance issued by the Secretary of Health
14 and Human Services, acting through the Commis-
15 sioner of Food and Drugs, that is not consistent
16 with paragraph (z) of section 403 of the Federal
17 Food, Drug, and Cosmetic Act (21 U.S.C. 343), as
18 added by subsection (a), shall have no force or ef-
19 fect.

20 (c) REPORT TO CONGRESS.—Not later than 2 years
21 after the date of enactment of this Act, the Secretary of
22 Health and Human Services, acting through the Commis-
23 sioner of Food and Drugs, shall report to Congress on en-
24 forcement actions taken under paragraph (z) of section
25 403 of the Federal Food, Drug, and Cosmetic Act (21

1 U.S.C. 343), as amended by this Act, including warnings
2 issued pursuant to such paragraph and penalties assessed
3 under section 303 of such Act (21 U.S.C. 333) with re-
4 spect to such paragraph. If food that is misbranded under
5 section 403(z) is offered for sale in interstate commerce
6 at the time of such report, the Commissioner of Food and
7 Drugs shall include in such report an updated plan for
8 enforcement with respect to such food.

○
