

118TH CONGRESS  
1ST SESSION

# H. RES. 690

Supporting the designation of September 17, 2023, as “National Physician Suicide Awareness Day” to raise awareness of, and promote a national discussion about, physician suicide and to reduce the stigma of mental health issues.

---

## IN THE HOUSE OF REPRESENTATIVES

SEPTEMBER 14, 2023

Ms. STEVENS (for herself, Mr. FITZPATRICK, and Ms. WILD) submitted the following resolution; which was referred to the Committee on Energy and Commerce

---

## RESOLUTION

Supporting the designation of September 17, 2023, as “National Physician Suicide Awareness Day” to raise awareness of, and promote a national discussion about, physician suicide and to reduce the stigma of mental health issues.

Whereas physicians work under intense pressure and are exposed to trauma on the job;

Whereas risk of suicide within the medical profession is among the highest rates of any occupation;

Whereas each year in the United States roughly 300 to 400 physicians die by suicide;

Whereas the suicide rate among—

(1) male physicians is 1.41 times higher than the general male population; and

(2) female physicians is even more pronounced, being 2.27 times higher than the general female population;

Whereas difficult working conditions, burdensome administrative tasks, long hours, grief over losing patients, and watching the families of patients suffer adds a layer of extreme stress for many frontline workers;

Whereas mental health and physical health are equally important components of overall health;

Whereas there are structural barriers in place that discourage self-care and mental health help-seeking behaviors among physicians; and

Whereas a day of public awareness and education campaigns to shine a light on the tragedy of physician suicide is held on September 17 each year: Now, therefore, be it

1       *Resolved*, That the House of Representatives—

2              (1) supports the goals of National Physician  
3              Suicide Awareness Day to bring national attention  
4              to the mental health crisis affecting physicians in  
5              the United States;

6              (2) dedicates a day of reflection to honor the  
7              memory of physicians who have died by suicide;

8              (3) recognizes the need for greater research  
9              into understanding and addressing the issue of phy-  
10             sician suicide, including the barriers to treatment,

1 help-seeking behaviors to address burnout, and men-  
2 tal care options to prevent physician suicide; and  
3 (4) encourages the President to issue a procla-  
4 mation calling on the people of the United States to  
5 observe National Physician Suicide Awareness Day  
6 with appropriate awareness and educational activi-  
7 ties.
