(B) to upholding its obligations under the North Atlantic Treaty, including Article 5;

(4) the unprovoked and illegal invasion of Ukraine by the Russian Federation has upended security in Europe and requires the full attention of the transatlantic alliance;

(5) welcoming Finland as the 31st member of the North Atlantic Treaty Organization has made the North Atlantic Treaty Organization Alliance stronger and the remaining North Atlantic Treaty Organization member countries should swiftly ratify the accession protocols of Sweden so as to bolster the collective security of the North Atlantic Treaty Organization by increasing the security and stability of the Baltic Sea region and Northern Europe;

(6) the North Atlantic Treaty Organization member countries that have not yet met the two-percent defense spending pledge, as agreed to at the 2014 Wales Summit, should endeavor to meet the timeline as expeditiously as possible, but certainly within the five-year period beginning on the date of the enactment of this Act;

(7) the United States and North Atlantic Treaty Organization allies and partners should continue efforts to identify, synchronize, and deliver needed assistance to Ukraine as Ukraine continues the fight against the illegal and unjust war of the Russian Federation;

(8) the Strategic Concept, agreed to by all North Atlantic Treaty Organization member countries at the Madrid Summit in 2022, outlined the focus of the North Atlantic Treaty Organization for the upcoming decade, and North Atlantic Treaty Organization allies should continue to implement the strategies outlined, including by making efforts to address the challenges posed by the coercive policies of the People's Republic of China that undermine the interests, security, and shared values of the North Atlantic Treaty Organization Alliance;

(9) the United States and North Atlantic Treaty Organization allies should continue long-term efforts—

(A) to improve interoperability among the military forces of member countries of the North Atlantic Treaty Organization so as to enhance collective operations, including the divestment of Soviet-era capabilities;

(B) to enhance security sector cooperation and explore opportunities to reinforce civil sector preparedness and resilience measures that may be likely targets of malign influence campaigns;

(C) to mitigate the impact of hybrid warfare operations, particularly those in the information and cyber domains; and

(D) to expand joint research and development initiatives with a focus on emerging technologies such as quantum computing, artificial intelligence, and machine learning, including through the work of the Defence Innovation Accelerator for the North Atlantic initiative (commonly known as ''DIANA'');

(12) the United States should prioritize collaboration with North Atlantic Treaty Organization allies to secure enduring and robust critical munitions supply chains so as to increase military readiness;

(13) the United States and the North Atlantic Treaty Organization should expand cooperation efforts on cybersecurity issues to prevent adversaries and criminals from compromising critical systems and infrastructure; and

(3) DIANA will also increase opportunities for engagement on NATO's priority technology areas, including artificial intelligence, data, autonomy, quantum-enabled technologies, biotechnology, hypersonic technologies, space, novel materials and

manufacturing, and energy and propulsion; and

(4) through DIANA, NATO allies will foster innovative ecosystems and develop talent for dual use technologies to maintain NATO's strategic advantage.

SEC. 1240. SENSE OF THE SENATE REGARDING THE ARMING OF UKRAINE.

It is the sense of the Senate that Ukraine would derive military benefit from the provision of munitions such as the dual-purpose improved conventional munition (DPICM). Such weapons could be fired from systems in the existing Ukrainian inventory and would enhance Ukraine's stockpile of available munitions and would bolster Ukraine's efforts to end Russia's illegal and unjust war. The Department of Defense, in concert with the other members of the Ukraine Defense Contract Group, should continue to support Ukraine's brave fight to defeat the invasion of the Russian Federation. The Department of Defense, in close coordination with the State Department, should assess the feasibility and advisability of providing such munitions, including giving appropriate attention to humanitarian considerations, including supporting Ukraine's effort to end the widespread suffering of the Ukrainian people by bringing Russia's war of choice to an end as soon as possible on terms favorable to Ukraine, as well as the views of other members of the Ukraine Defense Contract Group.

SEC. 6082. PREVENTING CHILD SEX ABUSE.

(a) SHORT TITLE.—This section may be cited as the ''Preventing Child Sex Abuse Act of 2023''.

(b) SENSE OF CONGRESS.—The sense of Congress is the following:

(1) The safety of children should be a top priority for public officials and communities in the United States.

(2) According to the Rape, Abuse & Incest National Network, an individual in the United States is sexually assaulted every 68 seconds. And every 9 minutes, that victim is a child. Meanwhile, only 25 out of every 1,000 perpetrators will end up in prison.

(3) The effects of child sexual abuse can be long-lasting and affect the victim's mental health.

(4) Victims are more likely than non-victims to experience the following mental health challenges:

(A) Victims are about 4 times more likely to develop symptoms of drug abuse.

(B) Victims are about 4 times more likely to experience post-traumatic stress disorder as adults.

(C) Victims are about 3 times more likely to experience a major depressive episode as adults.

(5) The criminal justice system should and has acted as an important line of defense to protect children and hold perpetrators accountable.

(6) However, the horrific crimes perpetuated by Larry Nassar demonstrate firsthand the loopholes that still exist in the criminal justice system. While Larry Nassar was found guilty of several State-level offenses, he was not charged federally for his illicit sexual contact with minors, despite crossing State and international borders to commit this conduct.

(7) The Department of Justice has also identified a growing trend of Americans who use charitable or missionary work in a foreign country as a cover for sexual abuse of children.

(8) It is the intent of Congress to prohibit Americans from engaging in sexual abuse or exploitation of minors under the guise of work, including volunteer work, with an organization that affects interstate or foreign commerce, such as an international charity.

(9) Federal law does not require that an abuser's intention to engage in sexual abuse be a primary, significant, dominant, or motivating purpose of the travel.

(10) Child sexual abuse does not require physical contact between the abuser and the child. This is especially true as perpetrators turn increasingly to internet platforms, online chat rooms, and webcams to commit child sexual abuse.

(11) However, a decision of the United States Court of Appeals for the Seventh Circuit found the use of a webcam to engage in sexually provocative activity with a minor did not qualify as ''sexual activity''.

(12) Congress can address this issue by amending the definition of the term ''sexual activity'' to clarify that it does not require interpersonal, physical contact.

(13) It is the duty of Congress to provide clearer guidance to ensure that those who commit crimes against children are prosecuted to the fullest extent of the law.

(c) INTERSTATE CHILD SEXUAL ABUSE.—Section 2423 of title 18, United States Code, is amended—

(1) in subsection (b), by striking ''with a motivating purpose of engaging in any illicit sexual conduct with another person'' and inserting ''with intent to engage in any illicit sexual conduct with another person'';

(2) by redesignating subsections (d), (e), (f), and (g) as subsections (e), (f), (g), and (i), respectively;

(3) in subsection (e), as so redesignated, by striking ''with a motivating purpose of engaging in any illicit sexual conduct'' and inserting ''with intent to engage in any illicit sexual conduct''; and

(4) by inserting after subsection (g), as so redesignated, the following:

''(h) RULE OF CONSTRUCTION.—As used in this section, the term 'intent' shall be construed as any intention to engage in illicit sexual conduct at the time of the travel.''.

(d) ABUSE UNDER THE GUISE OF CHARITY.—Section 2423 of title 18, United States Code, as amended by subsection (c) of this section, is amended—

(1) by inserting after subsection (c) the following:

''(d) ILLICIT SEXUAL CONDUCT IN CONNECTION WITH CERTAIN ORGANIZATIONS.—Any citizen of the United States or alien admitted for permanent residence who—

''(1) is an officer, director, employee, or agent of an organization that affects interstate or foreign commerce;

''(2) makes use of the mails or any means or instrumentality of interstate or foreign commerce through the connection or affiliation of the person with such organization; and

''(3) commits an act in furtherance of illicit sexual conduct through the connection or affiliation of the person with such organization,

shall be fined under this title, imprisoned for not more than 30 years, or both.'';

(2) in subsection (f), as so redesignated, by striking ''or (d)'' and inserting ''(d), or (e)''; and

(3) in subsection (i), as so redesignated, by striking ''(f)(2)'' and inserting ''(g)(2)''.

(e) SEXUAL ACTIVITY WITH MINORS.—Section 2427 of title 18, United States Code, is amended by inserting ''does not require interpersonal physical contact, and'' before ''includes''.

Subtitle H—Granting Recognition to Accomplished Talented Employees for Unwavering Loyalty Act

SEC. 6091. SHORT TITLE.

This subtitle may be cited as the ''Granting Recognition to Accomplished Talented Employees for Unwavering Loyalty Act'' or ''GRATEFUL Act''.

SEC. 6092. FINDINGS; SENSE OF CONGRESS.

(a) FINDINGS.—Congress makes the following findings:

(1) In 1952, with the enactment of the Immigration and Nationality Act (8 U.S.C. 1101 et seq.), Congress established an immigrant visa program to reward foreign nationals who are United States Government employees for their service to the United States (referred to in this Act as the ''Government Employee Immigrant Visa program'').

(2) For 71 years, the Government Employee Immigrant Visa program has allowed foreign nationals with at least 15 years of exceptional service to the United States to immigrate to the United States with their families.

(3) Such foreign national employees of the United States Government are the bulwark of United States foreign policy, risking their lives year after year through civil unrest, terrorism, natural disasters, and war.

(4) The work of such foreign nationals—

(A) ensures the safety and well-being of United States citizens;

(B) provides security and logistics for visiting delegations; and

(C) supports United States Government operations abroad.

(5) Such foreign nationals include employees of the Department of State, the United States Agency for International Development, the Department of Defense, the Department of Homeland Security, the Department of Justice, the Department of Commerce, and the Department of Agriculture.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the United States should preserve the immigrant visa program for foreign nationals who are employees of the United States Government abroad or of the American Institute in Taiwan, and who have provided exceptional service over a long term to the United States, by providing a dedicated allocation of visas for such employees and their immediate family members when visas are not immediately available in the corresponding visa category.

SEC. 6093. VISA AVAILABILITY FOR GOVERNMENT EMPLOYEE IMMIGRANT VISA PROGRAM.

(a) IN GENERAL.—Beginning in fiscal year 2024, subject to subsection (b), visas shall be made available to a special immigrant described in section 101(a)(27)(D) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(27)(D)) if a visa is not immediately available for issuance to the special immigrant under section 203(b)(4) of that Act (8 U.S.C. 1153(b)(4)).

(b) NUMERICAL LIMITATIONS.—

(1) FISCAL YEAR 2024.—For fiscal year 2024, not more than 3,500 visas shall be made available under subsection (a).

(2) SUBSEQUENT FISCAL YEARS.—For fiscal year 2025 and each fiscal year thereafter, not more than 3,000 visas shall be made available under subsection (a).

(c) TEMPORARY REDUCTION IN DIVERSITY VISAS.—Section 203(d)(2) of the Nicaraguan Adjustment and Central America Relief Act (8 U.S.C. 1151 note; Public Law 105–100) is amended—

(1) by amending paragraph (2) to read as follows:

''(2) In no case shall the reduction under paragraph (1) for a fiscal year exceed the amount by which—

''(A) the sum of—

''(i) one-half of the total number of individuals described in subclauses (I), (II), (III), and (IV) of section 309(c)(5)(C)(i) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (8 U.S.C. 1101 note; Public Law 104–208) who have adjusted their status to that of aliens lawfully admitted for permanent residence under section 202 of the Nicaraguan Adjustment and Central American Relief Act (Public Law 105–100; 8 U.S.C. 1255 note) as of the end of the previous fiscal year; and

''(ii) the total number of individuals described in section 101(a)(27)(D) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(27)(D)) for whom visas shall be made available for the applicable fiscal year under section 1093(b) of the Granting Recognition to Accomplished Talented Employees for Unwavering Loyalty Act; exceeds

''(B) the total of the reductions in available visas under this subsection for all previous fiscal years.''; and

(2) by adding at the end the following:

''(3)(A) Paragraph (1) shall not apply in a fiscal year following a fiscal year for which the total number of aliens described in subparagraph (B) is zero.

''(B) For a fiscal year, the total number of aliens described in this subparagraph is the total number of individuals described in section 101(a)(27)(D) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(27)(D)) who have been issued visas during the previous fiscal year under the Granting Recognition to Accomplished Talented Employees for Unwavering Loyalty Act.

''(C) Nothing in this paragraph may be construed—

''(i) to repeal, modify, or render permanently inapplicable paragraph (1); or

''(ii) to prevent the offsetting of the number of visas described in that paragraph for the purpose of providing visa availability for aliens described in subparagraph (B).

''(4) In the event that the number of visas available for a fiscal year under section 201(e) of the Immigration and Nationality Act (8 U.S.C. 1151(e)) is reduced to a number fewer than 50,000, not fewer than 3,000 visas shall be made available for individuals described in section 1093(a) of the Granting Recognition to Accomplished Talented Employees for Unwavering Loyalty Act.''.

(d) RULE OF CONSTRUCTION.—Nothing in this section or the amendments made by this section may be construed to modify the number of visas available under section 203(b)(4) of the Immigration and Nationality Act (8 U.S.C. 1153(b)(4)) to special immigrants described in section 101(a)(27)(D) of that Act (8 U.S.C. 1101(a)(27)(D)).

(1) it is in the interest of the United States to support efforts to prevent the spread of further armed conflict in Europe by recognizing the Black Sea region as an arena of Russian aggression;

(2) littoral states of the Black Sea are critical in countering aggression by the Government of the Russian Federation and contributing to the collective security of NATO;

(6) the United States should continue to work within NATO and with NATO allies to develop a long-term strategy to enhance security, establish a permanent, sustainable presence along NATO's eastern flank, and bolster the democratic resilience of its allies and partners in the region;

(7) the United States should consider whether it should work within NATO and with NATO allies to develop a regular, rotational maritime presence in the Black Sea;

SEC. 6291. SENSE OF THE SENATE ON DIGITAL TRADE AND THE DIGITAL ECONOMY.

(a) FINDINGS.—Congress makes the following findings:

(1) Over half of the world's population, totaling more than 5,000,000,000 people, use the internet.

(2) The digital economy encompasses the economic and social activity from billions of online connections among people, businesses, devices, and data as a result of the internet, mobile technology, and the internet of things.

(3) The Bureau of Economic Analysis found that the digital economy contributed nearly 10.3 percent of United States gross domestic product and supported 8,000,000 United States jobs in 2020.

(4) The digital sector added 1,400,000 new jobs between 2019 and 2022.

(5) United States jobs supported by the digital economy have sustained annual wage growth at a rate of 5.9 percent since 2010, as compared to a 4.2 percent for all jobs.

(6) In 2021, United States exports of digital services surpassed $594,000,000,000, accounting for more than half of all United States services exports and generating a digital services trade surplus for the United States of $262,300,000,000.

(7) Digital trade bolsters the digital economy by enabling the sale of goods on the internet and the supply of online services across borders and depends on the free flow of data across borders to promote commerce, manufacturing, and innovation.

(8) Digital trade has become increasingly vital to United States workers and businesses of all sizes, including the countless small and medium-sized enterprises that use digital technology, data flows, and e-commerce to export goods and services across the world.

(9) Digital trade has advanced entrepreneurship opportunities for women, people of color, and individuals from otherwise underrepresented backgrounds and enabled the formation of innovative start-ups.

(10) International supply chains are becoming increasingly digitized and data driven and businesses in a variety of industries, such as construction, healthcare, transportation, and aerospace, invested heavily in digital supply chain technologies in 2020.

(11) United States Trade Representative Katherine Tai said, ''[T]here is no bright line separating digital trade from the digital economy—or the 'traditional' economy for that matter. Nearly every aspect of our economy has been digitized to some degree.''.

(12) Industries outside of the technology sector, such as manufacturing and agriculture, are integrating digital technology into their businesses in order to increase efficiency, improve safety, reach new customers, and remain globally competitive.

(13) The increasing reliance on digital technologies has modernized legacy processes, accelerated workflows, increased access to information and services, and strengthened security in a variety of industries, leading to better health, environmental, and safety outcomes.

(14) The COVID–19 pandemic has led to increased uptake and reliance on digital technologies, data flows, and e-commerce.

(15) Ninety percent of adults in the United States say that the internet has been essential or important for them personally during the COVID–19 pandemic.

(16) United States families, workers, and business owners have seen how vital access to the internet has been to daily life, as work, education, medicine, and communication with family and friends have shifted increasingly online.

(17) Many individuals and families, especially in rural and Tribal communities, struggle to participate in the digital economy because of a lack of access to a reliable internet connection.

(18) New developments in technology must be deployed with consideration to the unique access challenges of rural, urban underserved, and vulnerable communities.

(19) Digital trade has the power to help level the playing field and uplift those in traditionally unrepresented or underrepresented communities.

(20) Countries have negotiated international rules governing digital trade in various bilateral and plurilateral agreements, but those rules remain fragmented, and no multilateral agreement on digital trade exists within the World Trade Organization.

(21) The United States, through free trade agreements or other digital agreements, has been a leader in developing a set of rules and standards on digital governance and e-commerce that has helped allies and partners of the United States unlock the full economic and social potential of digital trade.

(22) Congress recognizes the need for agreements on digital trade, as indicated by its support for a robust digital trade chapter in the United States-Mexico-Canada Agreement.

(23) Other countries are operating under their own digital rules, some of which are contrary to democratic values shared by the United States and many allies and partners of the United States.

(24) Those countries are attempting to advance their own digital rules on a global scale.

(25) Examples of the plethora of nontariff barriers to digital trade that have emerged around the globe include—

(A) overly restrictive data localization requirements and limitations on cross border data flows that do not achieve legitimate public policy objectives;

(B) intellectual property rights infringement;

(C) policies that make market access contingent on forced technology transfers or voluntary transfers subject to coercive terms;

(D) web filtering;

(E) economic espionage;

(F) cybercrime exposure; and

(G) government-directed theft of trade secrets.

(26) Certain countries are pursuing or have implemented digital policies that unfairly discriminate against innovative United States technology companies and United States workers that create and deliver digital products and services.

(27) The Government of the People's Republic of China is currently advancing a model for digital governance and the digital economy domestically and abroad through its Digital Silk Road Initiative that permits censorship, surveillance, human and worker rights abuses, forced technology transfers, and data flow restrictions at the expense of human and worker rights, privacy, the free flow of data, and an open internet.

(28) The 2022 Country Reports on Human Rights Practices of the Department of State highlighted significant human rights issues committed by the People's Republic of China in the digital realm, including ''arbitrary interference with privacy including pervasive and intrusive technical surveillance and monitoring including the use of COVID–19 tracking apps for nonpublic-health purposes; punishment of family members for offenses allegedly committed by an individual; serious restrictions on free expression and media, including physical attacks on and criminal prosecution of journalists, lawyers, writers, bloggers, dissidents, petitioners, and others; serious restrictions on internet freedom, including site blocking''.

(29) The United States discourages digital authoritarianism, including practices that undermine human and worker rights and result in other social and economic coercion.

(30) Allies and trading partners of the United States in the Indo-Pacific region have urged the United States to deepen economic engagement in the region by negotiating rules on digital trade and technology standards.

(31) The digital economy has provided new opportunities for economic development, entrepreneurship, and growth in developing countries around the world.

(32) Negotiating strong digital trade principles and commitments with allies and partners across the globe enables the United States to unite like-minded economies around common standards and ensure that principles of democracy, rule of law, freedom of speech, human and worker rights, privacy, and a free and open internet are at the very core of digital governance.

(33) United States leadership and substantive engagement is necessary to ensure that global digital rules reflect United States values so that workers are treated fairly, small businesses can compete and win in the global economy, and consumers are guaranteed the right to privacy and security.

(34) The United States supports rules that reduce digital trade barriers, promote free expression and the free flow of information, enhance privacy protections, protect sensitive information, defend human and worker rights, prohibit forced technology transfer, and promote digitally enabled commerce.

(35) The United States supports efforts to cooperate with allies and trading partners to mitigate the risks of cyberattacks, address potentially illegal or deceptive business activities online, promote financial inclusion and digital workforce skills, and develop rules to govern the use of artificial intelligence and other emerging and future technologies.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that—

(1) the United States should negotiate strong, inclusive, forward-looking, and enforceable rules on digital trade and the digital economy with like-minded countries as part of a broader trade and economic strategy to address digital barriers and ensure that the United States values of democracy, rule of law, freedom of speech, human and worker rights, privacy, and a free and open internet are at the very core of the digital world and advanced technology;

(2) in conducting such negotiations, the United States must—

(A) pursue digital trade rules that—

(i) serve the best interests of workers, consumers, and small and medium-sized enterprises;

(ii) empower United States workers;

(iii) fuel wage growth; and

(iv) lead to materially positive economic outcomes for all people in the United States;

(B) ensure that any future agreement prevents the adoption of non-democratic, coercive, or overly restrictive policies that would be obstacles to a free and open internet and harm the ability of the e-commerce marketplace to continue to grow and thrive;

(C) coordinate sufficient trade-related assistance to ensure that developing countries can improve their capacity and benefit from increased digital trade; and

(D) consult closely with all relevant stakeholders, including workers, consumers, small and medium-sized enterprises, civil society groups, and human rights advocates; and

(3) with respect to any negotiations for an agreement facilitating digital trade, the United States Trade Representative and the heads of other relevant Federal agencies must consult closely and on a timely basis with Congress.

(6) to increase the cost of fentanyl trafficking, the United States Government should work collaboratively across agencies and should surge analytic capability to impose sanctions and other remedies with respect to transnational criminal organizations (including cartels), including foreign nationals who facilitate the trade in illicit fentanyl and its precursors from the People's Republic of China; and

SEC. 9002. FINDINGS, DECLARATIONS, AND PURPOSES.

(a) FINDINGS AND DECLARATIONS.—Congress finds and declares the following:

(1) All Federal Government records related to unidentified anomalous phenomena should be preserved and centralized for historical and Federal Government purposes.

(2) All Federal Government records concerning unidentified anomalous phenomena should carry a presumption of immediate disclosure and all records should be eventually disclosed to enable the public to become fully informed about the history of the Federal Government's knowledge and involvement surrounding unidentified anomalous phenomena.

(3) Legislation is necessary to create an enforceable, independent, and accountable process for the public disclosure of such records.

(4) Legislation is necessary because credible evidence and testimony indicates that Federal Government unidentified anomalous phenomena records exist that have not been declassified or subject to mandatory declassification review as set forth in Executive Order 13526 (50 U.S.C. 3161 note; relating to classified national security information) due in part to exemptions under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.), as well as an over-broad interpretation of ''transclassified foreign nuclear information'', which is also exempt from mandatory declassification, thereby preventing public disclosure under existing provisions of law.

(5) Legislation is necessary because section 552 of title 5, United States Code (commonly referred to as the ''Freedom of Information Act''), as implemented by the Executive branch of the Federal Government, has proven inadequate in achieving the timely public disclosure of Government unidentified anomalous phenomena records that are subject to mandatory declassification review.

(6) Legislation is necessary to restore proper oversight over unidentified anomalous phenomena records by elected officials in both the executive and legislative branches of the Federal Government that has otherwise been lacking as of the enactment of this Act.

(7) Legislation is necessary to afford complete and timely access to all knowledge gained by the Federal Government concerning unidentified anomalous phenomena in furtherance of comprehensive open scientific and technological research and development essential to avoiding or mitigating potential technological surprise in furtherance of urgent national security concerns and the public interest.

(3) The work of public safety officers puts them at risk for developing post-traumatic stress disorder and acute stress disorder.

(4) It is estimated that 30 percent of public safety officers develop behavioral health conditions at some point in their lifetimes, including depression and post-traumatic stress disorder, in comparison to 20 percent of the general population that develops such conditions.

(5) Victims of post-traumatic stress disorder and acute stress disorder are at a higher risk of dying by suicide.

(6) Firefighters have been reported to have higher suicide attempt and ideation rates than the general population.

(7) It is estimated that between 125 and 300 police officers die by suicide every year.

(8) In 2019, pursuant to section 2(b) of the Law Enforcement Mental Health and Wellness Act of 2017 (Public Law 115–113; 131 Stat. 2276), the Director of the Office of Community Oriented Policing Services of the Department of Justice developed a report (referred to in this section as the ''LEMHWA report'') that expressed that many law enforcement agencies do not have the capacity or local access to the mental health professionals necessary for treating their law enforcement officers.

(9) The LEMHWA report recommended methods for establishing remote access or regional mental health check programs at the State or Federal level.

(10) Individual police and fire departments generally do not have the resources to employ full-time mental health experts who are able to treat public safety officers with state-of-the-art techniques for the purpose of treating job-related post-traumatic stress disorder and acute stress disorder.

DIVISION _____—VIEQUES RECOVERY AND REDEVELOPMENT

SEC. _____01. SHORT TITLE.

This division may be cited as the ''Vieques Recovery and Redevelopment Act''.

SEC. _____02. FINDINGS.

The Congress finds the following:

(1) Vieques is an island municipality of Puerto Rico, measuring approximately 21 miles long by 4 miles wide, and located approximately 8 miles east of the main island of Puerto Rico.

(2) Prior to Hurricane Maria, residents of Vieques were served by an urgent medical

care facility, the Susana Centeno Family Health Center, and residents had to travel off-island to obtain medical services, including most types of emergency care because the facility did not have the basic use of x-ray machines, CT machines, EKG machines, ultrasounds, or PET scans.

(3) The predominant means of transporting passengers and goods between Vieques and the main island of Puerto Rico is by ferry boat service, and over the years, the efficiency of this service has frequently been disrupted, unreliable, and difficult for cancer patients to endure to receive treatment. Each trip to Ceiba, Puerto Rico, for the cancer patient is an additional out-of-pocket expense ranging from $120 to $200.

(4) The United States Military maintained a presence on the eastern and western portions of Vieques for close to 60 years, and used parts of the island as a training range during those years, dropping over 80 million tons of ordnance and other weaponry available to the United States military since World War II.

(5) The unintended, unknown, and unavoidable consequences of these exercises were to expose Americans living on the islands to the residue of that weaponry which includes heavy metals and many other chemicals now known to harm human health.

(6) According to Government and independent documentation, the island of Vieques has high levels of heavy metals and has been exposed to chemical weapons and toxic chemicals. Since the military activity in Vieques, island residents have suffered from the health impacts from long-term exposure to environmental contamination as a result of 62 years of military operations, and have experienced higher rates of certain diseases among residents, including cancer, cirrhosis, hypertension, diabetes, heavy metal diseases, along with many unnamed and uncategorized illnesses. These toxic residues have caused the American residents of Vieques to develop illnesses due to ongoing exposure.

(7) In 2017, Vieques was hit by Hurricane Maria, an unusually destructive storm that devastated Puerto Rico and intensified the existing humanitarian crisis on the island by destroying existing medical facilities.

(8) The medical systems in place prior to Hurricane Maria were unable to properly handle the health crisis that existed due to the toxic residue left on the island by the military's activities.

(9) After Maria, the medical facility was closed due to damage and continues to be unable to perform even the few basic services that it did provide. Vieques needs a medical facility that can treat and address the critical and urgent need to get life-saving medical services to its residents. Due to legal restrictions, the Federal Emergency Management Agency (in this division referred to as ''FEMA'') is unable to provide a hospital where its capabilities exceed the abilities of the facility that existed prior to Maria; therefore Vieques needs assistance to build a facility to manage the vast health needs of its residents.

(10) Every American has benefitted from the sacrifices of those Americans who have lived and are living on Vieques and it is our intent to acknowledge that sacrifice and to treat those Americans with the same respect and appreciation that other Americans enjoy.

(11) In 2012, the residents of Vieques were denied the ability to address their needs in Court due to sovereign immunity, Sanchez v. United States, No. 3:09–cv–01260–DRD (D.P.R.). However, the United States Court of Appeals for the First Circuit referred the issue to Congress and urged it to address the humanitarian crisis. This bill attempts to satisfy that request such that Americans living on Vieques have a remedy for the suffering they have endured.

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 19, 2023

Mr. LANGWORTHY. Mr. Speaker, I rise today to join in the celebration of Depew Founders' Day by recognizing the Depew Fire Department and the many volunteer firefighters who keep this community safe. It takes bravery, courage, and skill to run toward a fire while others are moving to safety. It is because of these brave men and women that Depew families can sleep at night assured that a strong, capable, and well-trained force is at the ready to help in their time of need.

Since 1894, the volunteer corps of the Depew Fire Department has grown to become the largest volunteer fire department in Erie County and 1 of the largest in New York State, with over 115 active members serving 5 Hose Companies and 1 Hook and Ladder Company spread across the village:

Hose Company No. 1

Aetna Hose Company

Cayuga Hose Company No. 3

Central Hose Company No. 4

West End Hose Company No. 6

Hook and Ladder Company No. 1

This is a close-knit community with deep ties to Depew, and with generations of firefighters stretching back over a century of service. I thank Chief John Gauthier, for his leadership, and to the many generations of Depew Fire Department volunteers present and represented at the 2023 Depew Founders Day Celebration. Their service and sacrifice are greatly appreciated, and I wish them all safety and success as they continue to serve this great community.

Mr. DELUZIO. Mr. Speaker, had I been present, I would have voted NAY on Roll Call No. 333, NAY on Roll Call No. 334, NAY on Roll Call No. 335, NAY on Roll Call No. 336, and NAY on Roll Call No. 337.

RECOGNIZING THE 250TH ANNIVERSARY OF HEMPFIELD TOWNSHIP

HON. GUY RESCHENTHALER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 19, 2023

Mr. RESCHENTHALER. Mr. Speaker, I rise to congratulate Hempfield Township of Westmoreland County, Pennsylvania on the 250th anniversary of its founding.

Since 1773, Hempfield Township has grown into 1 of the largest municipalities in Pennsylvania. Currently, it is home to over 40,000 people and is the largest municipality in Westmoreland County.

While Hempfield Township is an important hub for business and industry, the township never forgot its rich agricultural heritage. Hailing from southeastern Pennsylvania, its early settlers were largely of German descent and worked to refine grain. As people moved to the area, Hempfield grew and is now home to several manufacturing facilities, institutes of higher education, and recreational businesses that are important to southwestern Pennsylvania's economy. Above all, the township's people exemplify the values of good citizenship and devotion to their community.

Mr. Speaker, on behalf of the people of Pennsylvania's 14th Congressional District, I congratulate Hempfield Township on their 250th anniversary and look forward to building on this storied history over the next 250 years.

HONORING MATTHEW LIPTRAP ON WINNING THE EVELYNE VILLINES NATIONAL AWARD

HON. DOUG LAMBORN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 19, 2023

Mr. LAMBORN. Mr. Speaker, I rise today to commend an exceptional individual who exemplifies unwavering dedication to supporting our servicemen and servicewomen: Matthew Liptrap. Recently bestowed with the prestigious 2023 Evelyne Villines Award, Matthew's achievements are truly deserving of recognition.

Evelyne Villines, a champion for meaningful employment opportunities for individuals with disabilities, left an indelible mark through her influential work. From advising politicians to advocating both nationally and globally, she played a crucial role in shaping initiatives like the Americans with Disabilities Act, and her legacy lives on through this award. It honors individuals who have not only attained employment despite significant disabilities but have also excelled in management roles within AbilityOne contracts. Considering Matthew's accomplishments, I firmly believe he is a perfect recipient of this esteemed award.

Matthew's journey began with over 10 years of dedicated service in the U.S. Army as an infantryman. Unfortunately, combat injuries cut short his military career. Nevertheless, he found a new purpose at Professional Contract Services Incorporated (PCSI), an organization committed to supporting both individuals with disabilities as well as veterans. At Schriever Space Force Base, working on an AbilityOne Contract, Matthew dedicated himself to serving his brothers and sisters in arms once again. Starting as a ground's maintenance worker and general clerk, Matthew's determination, willingness to learn, and leadership qualities caught the attention of PCSI, propelling him to the role of Quality Control Manager. In this capacity, he successfully revamped the Quality and Training programs, resulting in decreased injuries, enhanced safety measures, and flawless internal audit reports. Matthew's exceptional achievements have set him apart from his peers, serving as an inspiration to both employees and colleagues.

I take great pride in acknowledging Matthew's unwavering commitment to service, both within and beyond his military career. It brings me great satisfaction to witness his national recognition from SourceAmerica for his outstanding contributions at Schriever through the AbilityOne Program. His story is a testament to the transformative power of dedication and perseverance, and I am confident that his accomplishments will continue to inspire others to follow in his footsteps. Matthew Liptrap embodies the caliber of hardworking and talented individuals that make our great nation, and my home state of Colorado, a better place.

HONORING MR. MICHAEL ROBBINS

HON. JIMMY PANETTA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 19, 2023

Mr. PANETTA. Mr. Speaker, I rise today to recognize Mr. Michael Robbins for his bravery and service as a U.S. merchant mariner during World War II. Serving from July of 1943 to May of 1946, Mr. Robbins sailed with the U.S. Merchant Marine aboard the SS *Olney*, the SS *Pendleton*, the SS *O. Henry*, and the SS *Hoke Smith*.

During World War II, nearly 250,000 civilian merchant mariners were activated to serve as part of the U.S. military and to delivered troops and supplies by ship to foreign countries engulfed in the war. They faced treacherous conditions along their routes. Between 1939 and 1945, 9,521 U.S. merchant mariners gave their lives—a higher proportion than those killed than in any military branch—in defense of our nation. President Franklin D. Roosevelt called their mission the most difficult and dangerous transportation job ever undertaken.

Hailing from Atlantic City, New Jersey, Mr. Robbins enlisted in the U.S. Merchant Marine at only 15 years old. He began his wartime efforts as an ordinary seaman, chipping away rust and old paint from the ship.

While aboard SS *O. Henry* and transporting supplies in the Mediterranean Sea, his convoy was attacked by air. Mr. Robbins, still a teenager, acted to defend his ship by delivering 20mm ammunition to the ship's crew. Mr. Robbins would go on to serve in the Atlantic, Mediterranean, and Pacific theaters.

Mr. Robbins received several decorations during his service, including 3 War Zone medals awarded to Merchant Marines for their service in the Pacific, the Atlantic, and the Mediterranean and Middle East. He also received the World War II Victory Medal for honorable service while on active duty, the Philippine Liberation Ribbon, the Combat Bar, the Honorable Service Button, a Presidential Testimonial Letter, and the Battlin' Pete Patch.

Mr. Robbins and the U.S. merchant mariners of World War II who played crucial roles in the country's war effort were awarded the Congressional Gold Medal in 2020, the highest honor Congress can bestow on civilians. It was an honor to present the medal to Mr, Robbins then, and it is an honor to recognize him here again today.

Mr. Speaker, I invite my colleagues in the U.S. House of Representatives to join me in honoring and celebrating the dedicated service of Mr. Michael Robbins for his valor and service in defending our country. May his legacy continue to inspire us for generations to come.

Martinelli, a beloved teacher, veteran, husband, father, grandfather, great-grandfather and community leader from Northeastern Pennsylvania who has left an indelible mark on our community through his profound dedication to education and service.

Armand Martinelli, a devout Roman Catholic born in Olyphant, PA, embodied the values of faith, integrity, and selflessness throughout his 92 years of life. From his humble beginnings at Lafayette School in Scranton and Mother Cabrini School to becoming a member of the first 4-year graduating class at Scranton Preparatory School, Armand's early education laid the foundation for a lifetime of intellectual pursuit and service to others.

Armand Martinelli served his country valiantly during the Korean War. His military journey took him from the 101st Airborne in Breckinridge, Kentucky, to the U.S. Counter Intelligence School at Fort Holabird in Baltimore, Maryland. He displayed unwavering commitment and courage as a special agent with the 704th CIC in Teague and the 308th CIC in Pusan, earning the respect and gratitude of his fellow soldiers.

Upon returning to civilian life, Armand embraced a diverse array of occupations before discovering his true calling as an educator. For over 5 decades, he worked as a self-employed painter, an insurance agent, and a teacher at West Scranton High School. It was within the walls of West Scranton High School that Armand would leave an enduring legacy as an influential and dedicated educator.

For 30 years, Armand taught social studies, Latin, and journalism, molding the minds of countless students who passed through his classrooms. His commitment extended beyond the subject matter; he served as an athletic director for 24 years and provided guidance to numerous clubs and organizations, including the yearbook, school newspaper, and Latin club, among others. His passion for education and genuine care for his students earned him the love and admiration of those he taught, and many kept in touch with him long after graduation.

Outside the classroom, Armand's dedication to public service was equally commendable. He actively sought to improve our community, serving as a member of the Scranton School Board where be championed education initiatives. He also played an integral role in the formation of the Scranton Federation of Teachers.

Devoted to serving his West Scranton community and proud of his Italian heritage, Armand enjoyed spending time at the Victor Alfieri Club where he was an original member of the Cetaiolos bocce team as well as attending weekly get together with friends at the Villa Maria Restaurant.

Above all else, Armand loved his family. He took great pride in his roles as a husband, father, grandfather and great-grandfather. He always looked forward to weekly Sunday dinners, where he treated his family to his homemade sauce and meatballs, which he faithfully made right up to the last 2 weeks of his life.

After retiring from his distinguished teaching career, Armand continued to serve our community, working as a Tipstaff for Judge James J. Walsh, and serving on numerous local executive boards, including the Scranton Redevelopment Authority, the Scranton Housing Authority, and the Lackawanna Drug and Alcohol Treatment Service. Armand's commitment to making a positive impact on the lives of others knew no bounds.

As we mourn the loss of a true pillar of our community, let us also celebrate the profound impact Armand Martinelli had on the lives of countless individuals. Through his selfless dedication to education, service, and family, he leaves behind a legacy that will continue to inspire future generations. May the memory of Armand M. Martinelli serve as a beacon of hope and goodness in our community, and may we be reminded of the power of a single individual to positively influence the lives of others.
