

Dr. Aleksander Madry, MIT

Aleksander Mądry is the Cadence Design Systems Professor of Computing at MIT, and the Director of the MIT Center for Deployable Machine Learning, as well as a Co-Lead of the MIT AI Policy Forum. His research aims to understand machine learning from a robustness and deployability perspective.

Aleksander's work has been recognized with a number of awards, including a National Science Foundation CAREER Award, an Alfred P. Sloan Research Fellowship, an Association for Computing Machinery Doctoral Dissertation Award Honorable Mention, and a Presburger Award. He received his PhD from MIT in 2011. Prior to joining the MIT faculty, he spent time at Microsoft Research New England and on the faculty of the Swiss Federal Institute of Technology in Lausanne (EPFL).
