BIOGRAPHY

Sheena Rodriguez is a wife and homeschooling mother who began her activism in the pro-life movement by serving five years as a volunteer counselor at a local crisis pregnancy center.

Recently, she has focused on raising awareness of the current border crisis as she views the border issues as an extension of the pro-life movement. For nearly two years, she has frequently visited the Texas Border from the Rio Grande Valley area, Laredo, and El Paso, and spent several months focusing on the Del Rio sector.

When not at the border, Sheena can be found at the Texas Capitol attempting to influence legislation to help legally and constitutionally fortify Texas. Alliance for a Safe Texas also strives to help educate everyday Texans so they can become engaged on the grassroots, state, and local levels.

This includes helping to research and educate on Constitutional action items. By doing so, Sheena and Alliance for a Safe Texas hope to combat the negative consequences of federal border policies impacting every Texan.

ALLIANCE FOR A SAFE TEXAS MISSION STATEMENT

The mission of Alliance for a Safe Texas is to inform and educate our fellow Texans about the consequences of illegal immigration and open border-type policies.

Alliance for a Safe Texas fights to combat this using a three-prong approach;

- Through legislative, city, and county efforts,
- Providing resources to border counties and law enforcement,
- Exposing the truth of the horrific realities that impact our southern border and affect every corner of our great state and nation.
