

RAYNARD E. WASHINGTON

CURRICULUM VITAE

PROFESSIONAL EXPERIENCE

Mecklenburg County Public Health

Charlotte, NC

Health Director

December 2021 - Present

- Manages public health and environmental health activities (pursuant to Chapter 130A-41 of the General Statutes of North Carolina) and provides vision and direction for all public health activity in Mecklenburg County.

Deputy Health Director

March 2020 – November 2021

- Serves as second in command for the Department of approximately 900 FTEs across various public health program areas.
- Provides oversight and direction to internal operations and direct supervision of Administrative Services, Compliance, Office of Innovation and Strategy, Epidemiology, and Nursing.
- Support all aspects of COVID-19 response with direct oversight of communications, epidemiology and reporting, and testing.
- Serves as technical expert regarding public health practice, epidemiology, and the control of diseases and adverse health conditions internally and representing the Department in work with external health stakeholders, local, state and federal government officials and the media.

Philadelphia Department of Public Health

Philadelphia, PA

Chief Epidemiologist/Deputy Health Commissioner March 2017 – March 2020

- Served as technical expert regarding public health practice, epidemiology, and the control of diseases and adverse health conditions internally and representing the Department in work with external health stakeholders, city and state agencies, universities, local, state and federal government officials and the media.
- Performed and supervised advanced analytical work in surveillance of the health status of Philadelphians as well as, disseminating findings to a broad audience. Developed several first-ever public health reports focused on using data to drive action and policy, including:
 - [*Health of the City*](#) – An annual report of key findings from the Community Health Assessment
 - [*Staying Healthy*](#) – A comprehensive report of access to and utilization of primary care
 - [*Brotherly Love*](#) – A special report on the health status of Black men and boys focused on factors driving low life expectancy
 - [*Close to Home*](#) – A report from a competitive grant-funded initiative to create neighborhood health rankings
- Designed and managed new surveillance systems for diseases and health conditions of public health importance. Notably launched the Philadelphia Child Development Delay Surveillance System and Philadelphia Pregnancy Risk Assessment Monitoring System (Philly PRAMS).
- Led the convening of local hospitals and health systems to produce the first-ever [*Southeastern PA Regional Community Health Needs Assessment*](#). This effort involved developing a collaborative CHNA covering 4 counties in partnership with 18 hospitals and 3 local health departments.
- Served on department's executive leadership team and leads departmental strategic initiatives including, strategic and community health improvement planning. Led the development of two new strategic plans, the 2018-2022 [*Community Health Improvement Plan*](#) and the [*Philadelphia Roadmap to Safer Communities*](#), a city-level comprehensive strategy to reduce gun violence.
- Led and provided oversight to the maintenance and renewal of public health accreditation.
- Performed other administrative duties, including budget, fiscal, and contract management for assigned programs, contract and data sharing negotiations, staff supervision, authorizing official for city IRB, chair review committee for department abstracts/papers, service on city working groups, and coordination with other city agencies and elected officials.

Council for Affordable Quality Healthcare, Inc.**Washington, DC***Director, Research & Measurement*

December 2015 – March 2017

- Responsible for directing and coordinating the CAQH data-driven research agenda consisting of both internally identified and externally-focused research projects.
- Led the annual execution, oversight and evolution of the CAQH Index and its associated products, which reports on data from over 4 billion healthcare claims-related transactions between health plans and providers with the goal of evaluating healthcare system's transition to automated business processes.
- Prepared professional documents and represents CAQH in a professional manner at conferences, Board meetings and other relevant internal/external forums.
- Developed and maintained annual budget for Explorations Division.
- Supported product or business development, communication needs or market intelligence CAQH wants to share as an industry thought leader.
- Worked in cooperation with CAQH leadership to create, align or add value to the measurement and tracking of existing CAQH initiatives.
- Directed and supervised the work of data analysts, external consultants, and interns.

Agency for Healthcare Research and Quality, U.S. Department of Health and Human Services**Rockville, MD***Health Research Scientist (GS-13)*

December 2012 – December 2015

- Developed and produced research analyses in the areas of health care markets and policy, organizational behavior, delivery of health care services, health care access and disparities, specifically among racial and ethnic minorities, in the Healthcare Cost and Utilization Project, a large family of administrative billing databases.
- Served as the primary lead for the complete portfolio of research projects (~\$1.1 million annually) within the HCUP contract, establishing priorities and managing resources.
- Directed and supervised teams of analysts to perform analyses, interpret data tabulations and graphs, identify critical factors and prepare publications.
- Led the development and conversion (to ICD 10) of ICD-CM/PCS and CPT-based software tools for use with administrative healthcare data, including comorbidity indicator software, surgical indicators, and clinical classification software. Served as agency lead on ICD-10 transition.
- Led the design of the national evaluation of TeamSteps Program.
- Led the evaluation and redesign of HCUPnet, a web-based database query system.
- Provided superior written and oral communication with internal and external stakeholders, including state partners, agency leadership, data users, and other policy makers.
- Provided technical assistance to data users and media outlets.
- Managed federal contractor tasks, budgets, and schedules; monitored contractor performance and oversaw development of user-friendly products, such as technical reports and analytical software tools.
- Served as a Federal Contracting Officers Representative for projects that utilize contractor support.

Healthy Start, Inc.**Pittsburgh, PA***Project Evaluator/Interim Program Director*

August 2009 – December 2012

- Developed, implemented and maintained all program evaluation activities for three federally funded programs providing services to families throughout Southwestern Pennsylvania.
- Prepared and presented evaluation reports and program activities regularly at local, statewide, and national meetings.
- Prepared written manuscripts of evaluations results for publication.
- Led development and grant writing activities for the organization, successfully securing over \$20 million dollars in new and continuing federal and foundation support. Provided direction and leadership to the agency grant writing team.
- Supervised program staff, including administrative, field (data collection), and program evaluation staff, as assigned.
- Provided guidelines, recommendations for and provide technical assistance to program managers in the development of protocols and procedures.

U.S. Virgin Islands Department of Health**St. Croix, USVI***Epidemiology Consultant (Remote)*

April 2010 – May 2012

- Provided support to the Office of Epidemiology and Laboratory Services in surveillance activities, including data collection, analysis, and reporting.
- Provided support to the Office of the Commissioner in completing special projects, including coordination of a

- department-wide annual activities report.
- Assisted in development of Chronic Disease Prevention Program strategic plan, federal block grant application, and annual report, including development of employee wellness program proposal for funding.
- Provided support to various departments and divisions as-needed for special projects, technical assistance and data analysis.
- Prepared the "U.S. Virgin Islands Behavioral Risk Factor Surveillance Ten Year Burden Report, 2001-2010", a review book of territory wide BRFSS data for the decade.

Centers for Disease Control & Prevention

Spokane, WA

Research Consultant (Remote)

May 2007 – May 2009

- Served as co-investigator on an assessment of environment dangers and health hazards of radon exposure in the occupational and residential setting.
- Conducted site visits to uranium mines throughout in the states of Washington, Colorado, Montana, and Idaho.
- Prepared a written manuscript of a critical review of health effects of miners' radon exposure and current occupational regulations for internal publication.
- Presented to division leadership regularly on project outcomes and progress.

EDUCATION

University of Pittsburgh

PhD in Epidemiology

Thesis: *Epidemiology of Type I Diabetes Complications in African-Americans*

University of Pittsburgh

MPH in Epidemiology

University of Pittsburgh

BS in Biological Sciences

TEACHING ACTIVITIES

Temple University

Philadelphia, PA

Adjunct Faculty

August 2019 – May 2020

- Served as faculty for the Graduate School of Public Health teaching the following courses:
 - EPBI 8012: Multivariate Biostatistics

American University

Washington, DC

Adjunct Faculty

January 2015 – February 2017

- Served as faculty for the Public Health Program teaching the following courses:
 - PUBH 110 Introduction to Public Health (1 term)
 - PUBH 120 Foundations of Epidemiology (3 terms)
 - PUBH 496 Advanced Epidemiology (1 term)

Kaplan University School of Health Sciences

Remote

Adjunct Faculty

September 2013 – June 2016

- Served as online faculty for the Masters of Public Health Program teaching the following courses:
 - HS 535 Public Health Biology (2 terms)
 - HS 310 Epidemiology and Biostatistics (5 terms)
 - HS 201 Introduction to Public Health (1 term)

University of Pittsburgh Graduate School of Public Health

Pittsburgh, PA

Teaching Assistant

September 2010 – August 2012

- Served as Lead Teaching Assistant for Principles of Epidemiology Course
- Served as Teaching Assistant for Epidemiology of Cardiovascular Disease Course
