

119TH CONGRESS
1ST SESSION

H. R. 3714

To improve the management of forage fish.

IN THE HOUSE OF REPRESENTATIVES

JUNE 4, 2025

Mrs. DINGELL (for herself and Mr. MAST) introduced the following bill; which
was referred to the Committee on Natural Resources

A BILL

To improve the management of forage fish.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Forage Fish Conserva-
5 tion Act of 2025”.

6 **SEC. 2. FINDINGS.**

7 Section 2(a) of the Magnuson-Stevens Fishery Con-
8 servation and Management Act (16 U.S.C. 1801(a)) is
9 amended by adding at the end the following:

10 “(14) Forage fish are generally small to inter-
11 mediate-sized species, occurring in schools or dense
12 aggregations, and function as a main pathway for

1 energy to flow from phyto- and zooplankton to high-
2 er trophic level predators, including tuna, Alaska
3 pollock, and other wildlife, in marine ecosystems.
4 While most species function as prey of others at
5 some life stage, especially when small and young,
6 forage fish maintain this important trophic role
7 throughout their life. Further, fluctuations in their
8 populations can result in significant changes in ma-
9 rine communities and ecosystems. Therefore, par-
10 ticular attention to management of forage fish spe-
11 cies, and addressing their unique role in marine eco-
12 systems, is critical to maintaining ecosystem func-
13 tion and sustainable fisheries.”.

14 **SEC. 3. DEFINITIONS.**

15 (a) SECRETARY TO DEFINE FORAGE FISH.—Section
16 305 of the Magnuson-Stevens Fishery Conservation and

23 purposes of this Act, giving due consideration to defini-
24 tions of ‘forage fish’ included in approved fishery manage-
25 ment plans. In defining such term, the Secretary shall con-

1 sider factors including whether a species covered by such

5 “(3) occurs in schools or other dense aggrega-
 6 tions;

7 “(4) contributes significantly to the diets of
 8 other fish, marine mammals, or birds; and

9 “(5) serves as a conduit for energy transfer to
 10 species at a higher trophic level.”.

11 (b) DEFINITIONS.—Section 3 of the Magnuson-Ste-
 12 vens Fishery Conservation and Management Act (16
 13 U.S.C. 1802) is amended—

1 “(B) with respect to a species in a fishery
 2 managed pursuant to a fishery management
 3 plan or plan amendment that is approved by
 4 the Secretary, in coordination with the Coun-
 5 cils, under section 304(a), means any species
 6 identified in such plan as a forage fish.”; and

 8 designated by paragraph (3) of this section, the fol-
 9 lowing:

10 “(29) The term ‘low trophic level’ means a posi-
