A BILL

To amend the Farm Security and Rural Investment Act of 2002 to improve the biobased markets program, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Biomanufacturing and
5 Jobs Act of 2025”.

6 **SEC. 2. FINDINGS; PURPOSES.**

7 (a) FINDINGS.—Congress finds that—

1 (1) biobased products provide additional mar-
2 kets for farm commodities, reducing the reliance of
3 the United States on petroleum and increasing the
4 use of renewable agricultural resources while driving
5 rural economic development and growth;

6 (2) United States farmers produce feedstock
7 used to produce a variety of biobased products, in-
8 cluding personal care products, industrial paints sol-
9 vents, construction materials, and apparels and tex-
10 tiles;

11 (3) the BioPreferred Program of the Depart-
12 ment of Agriculture is designed to increase the pur-
13 chase and use of biobased products through a man-
14 datory Federal purchasing initiative and a voluntary
15 labeling initiative, thereby supporting additional
16 markets for agricultural commodities and rural eco-
17 nomic development;

18 (4) according to the Department of Agriculture,
19 there are approximately 15,000 biobased products
20 participating in the BioPreferred Program, with ap-
21 proximately 2,600 biobased products authorized to
22 display the “USDA Certified Biobased Product”
23 label under the voluntary labeling initiative;

1 (5) there were 3,940,000 people employed in
2 the United States biobased products industry in
3 2021;

4 (6) the value-added contribution of the biobased
5 products industry to the economy grew even through
6 the COVID–19 pandemic, from \$470,000,000,000 in
7 2017 to \$489,000,000,000 in 2021; and

8 (7) each job in the biobased products industry
9 supports an estimated 1.4 jobs in other sectors of
10 the economy.

11 (b) PURPOSES.—The purposes of this Act are—

12 (1) to recognize the value that biobased prod-
13 ucts bring to agriculture in the United States;

14 (2) to support domestic manufacturing of
15 biobased products made from agricultural commod-
16 ities, including corn and soybeans;

17 (3) to expand the role of the Department of Ag-
18 riculture in the promotion of biobased products;

19 (4) to build on procurement programs adminis-
20 tered by the Department of Agriculture to increase
21 Federal purchasing of biobased products;

22 (5) to strengthen domestic manufacturing of
23 biobased products; and

24 (6) to make a national commitment to the rural
25 and agricultural economies of the United States.
