

119TH CONGRESS  
1ST SESSION

# S. 1437

To require the Administrator of the National Aeronautics and Space Administration to establish a program to identify, evaluate, acquire, and disseminate commercial Earth remote sensing data and imagery in order to satisfy the scientific, operational, and educational requirements of the Administration, and for other purposes.

---

## IN THE SENATE OF THE UNITED STATES

APRIL 10, 2025

Mr. HICKENLOOPER (for himself and Mr. CORNYN) introduced the following bill; which was read twice and referred to the Committee on Commerce, Science, and Transportation

---

## A BILL

To require the Administrator of the National Aeronautics and Space Administration to establish a program to identify, evaluate, acquire, and disseminate commercial Earth remote sensing data and imagery in order to satisfy the scientific, operational, and educational requirements of the Administration, and for other purposes.

1       *Be it enacted by the Senate and House of Representa-*  
2       *tives of the United States of America in Congress assembled,*

1     **SECTION 1. SHORT TITLE.**

2         This Act may be cited as the “Accessing Satellite Ca-  
3     pabilities to Enable New Discoveries Act” or the “AS-  
4     CEND Act”.

5     **SEC. 2. COMMERCIAL SATELLITE DATA.**

6         (a) FINDINGS.—Congress makes the following find-  
7     ings:

8                 (1) Section 60501 of title 51, United States  
9     Code, states that the goal for the Earth Science pro-  
10    gram of the National Aeronautics and Space Admin-  
11    istration (referred to in this section as “NASA”)  
12    shall be to pursue a program of Earth observations,  
13    research, and applications activities to better under-  
14    stand the Earth, how it supports life, and how  
15    human activities affect its ability to do so in the fu-  
16    ture.

17                 (2) Section 50115 of title 51, United States  
18    Code, states that the Administrator of NASA shall,  
19    to the extent possible and while satisfying the sci-  
20    entific or educational requirements of NASA, and  
21    where appropriate, of other Federal agencies and  
22    scientific researchers, acquire, where cost effective,  
23    space-based and airborne commercial Earth remote  
24    sensing data, services, distribution, and applications  
25    from a commercial provider.

1                         (3) The Administrator of NASA established the  
2                         Commercial SmallSat Data Acquisition Pilot Pro-  
3                         gram in 2019 to identify, validate, and acquire from  
4                         commercial sources data that support the Earth  
5                         science research and application goals.

6                         (4) The Administrator of NASA has—

7                                 (A) determined that the pilot program de-  
8                         scribed in paragraph (3) has been a success, as  
9                         described in the final evaluation entitled “Com-  
10                         mercial SmallSat Data Acquisition Program  
11                         Pilot Evaluation Report” issued in 2020;

12                         (B) established a formal process for eval-  
13                         uating and onboarding new commercial vendors  
14                         in such pilot program;

15                         (C) increased the number of commercial  
16                         vendors and commercial data products available  
17                         through such pilot program; and

18                         (D) expanded procurement arrangements  
19                         with commercial vendors to broaden user access  
20                         to provide Earth remote sensing data and im-  
21                         agery to federally funded researchers.

22                         (b) COMMERCIAL SATELLITE DATA ACQUISITION  
23                         PROGRAM.—

1                   (1) IN GENERAL.—Chapter 603 of title 51,  
2                   United States Code, is amended by adding at the  
3                   end the following:

4                   **§ 60307. Commercial Satellite Data Acquisition Pro-**  
5                   **gram**

6                   “(a) IN GENERAL.—The Administrator shall estab-  
7                   lish within the Earth Science Division of the Science Mis-  
8                   sion Directorate a program to acquire and disseminate  
9                   commercial Earth observation data and imagery in order  
10                  to satisfy the scientific, operational, and educational re-  
11                  quirements of the Administration, and where appropriate,  
12                  of other Federal agencies and scientific researchers.

13                  “(b) DATA PUBLICATION AND TRANSPARENCY.—The  
14                  terms and conditions of commercial Earth remote sensing  
15                  data and imagery acquisitions under the program de-  
16                  scribed in subsection (a) shall not prevent—

17                  “(1) the publication of commercial data or im-  
18                  agery for scientific purposes; or

19                  “(2) the publication of information that is de-  
20                  rived from, incorporates, or enhances the original  
21                  commercial data or imagery of a vendor.

22                  “(c) AUTHORIZATION.—

23                  “(1) IN GENERAL.—In carrying out the pro-  
24                  gram under this section, the Administrator may—

1                 “(A) procure commercial Earth remote  
2                 sensing data and imagery from commercial ven-  
3                 dors to advance scientific research and applica-  
4                 tions for the purpose set forth in subsection (a);  
5                 and

6                 “(B) establish or modify end-use license  
7                 terms and conditions to allow for the widest  
8                 possible use of procured commercial Earth re-  
9                 mote sensing data and imagery by individuals  
10                 other than NASA-funded users, consistent with  
11                 the goals of the program.

12                 “(2) ACQUISITION FROM UNITED STATES VEN-  
13                 DORS.—The commercial Earth remote sensing data  
14                 and imagery procured under this subsection shall be  
15                 procured, to the maximum extent practicable, from  
16                 United States vendors.

17                 “(d) REPORT.—Not later than 180 days after the  
18                 date of the enactment of this section, and annually there-  
19                 after, the Administrator shall submit to the Committee on  
20                 Commerce, Science, and Transportation of the Senate and  
21                 the Committee on Science, Space, and Technology of the  
22                 House of Representatives a report that includes the fol-  
23                 lowing:

24                 “(1)(A) In the case of the initial report, a list  
25                 of all vendors that are providing commercial Earth

1       remote sensing data and imagery to NASA as of the  
2       date of the report.

3           “(B) For each subsequent report, a list of all  
4       vendors that have provided commercial Earth remote  
5       sensing data and imagery to NASA during the re-  
6       porting period.

7           “(2) A description of the end-use license terms  
8       and conditions for each such vendor.

9           “(3) A description of the manner in which each  
10      such vendor is advancing scientific research and ap-  
11      plications, including priorities recommended by the  
12      National Academies of Sciences, Engineering, and  
13      Medicine decadal surveys.

14           “(4) Information specifying whether the Admin-  
15      istrator has entered into an agreement with a com-  
16      mercial vendor or a Federal agency that permits the  
17      use of data and imagery by Federal Government em-  
18      ployees, contractors, or non-Federal users.

19           “(e) DEFINITION OF UNITED STATES VENDOR.—In  
20      this section, the term ‘United States vendor’ means a com-  
21      mercial or nonprofit entity incorporated in the United  
22      States.”.

23           (2) CLERICAL AMENDMENT.—The table of con-  
24      tents for chapter 603 of title 51, United States

1       Code, is amended by adding at the end the following  
2       new item:

“60307. Commercial Satellite Data Acquisition Program.”.
