7 appropriations for the Department of Health and Human
8 Services, each relevant State regulatory authority and
9 each electric or natural gas utility that sells electric energy
10 or natural gas to a consumer should ensure that—

11 (1) no electric or natural gas service to a con-
12 sumer is terminated based on inability to pay;

13 (2) reasonable efforts are made to safely recon-
14 nect electric and natural gas consumers that have
15 lost service;

16 (3) no electric or natural gas consumer is
17 charged for reconnection services;

18 (4) late fees and other penalties are waived for
19 electric and natural gas consumers; and

20 (5) there are no increases in cost-of-service to
21 electric and natural gas consumers.

22 **SEC. 3. PROCEDURES FOR TERMINATION OF ELECTRIC**
23 **SERVICE.**

5 electric consumers for whom electric service would
6 have been terminated if not for the requirements of
7 that paragraph, but a State regulatory authority,
8 after notice and an opportunity for comment, may
9 establish an alternative mechanism that permits an
10 electric utility to recover those costs if the State reg-
11 ulatory authority determines that the costs—

12 “(A) are substantial;

13 “(B) were prudently incurred; and

14 “(C) cannot reasonably be recovered
15 through—
