

RICHARD J. DEWEY

New York Independent System Operator President and CEO

Rich Dewey is President and CEO of the New York Independent System Operator. The NYISO is responsible for operating New York's high voltage transmission network, administering and monitoring the wholesale electricity markets, and planning for the state's energy future.

Rich previously served in roles as the NYISO Executive Vice President with responsibility for the NYISO Market Structures, Planning, and Information Technology organizations, as well as roles to manage the day-to-day Operations of the New York Power grid, evolve and maintain the infrastructure of the NYISO technology platforms, and manage physical and cyber security of the NYISO enterprise.

Before joining the NYISO in 2000, Mr. Dewey worked for Husky Injection Molding Systems in Pittsfield, Massachusetts and for Niagara Mohawk Power Corporation in Syracuse, New York.

He earned a Master of Science in Computer Engineering from Syracuse University, a Bachelor of Science in Electrical Engineering / Power Systems from Clarkson University in Potsdam, New York, as well as completion of the Harvard Business School General Management Program.
