Re: Enhancing Safety for Animals (ESA) Act to remove the Mexican wolf from the lists of threatened and endangered species

Dear Representative Gosar,

Thank you for meeting with and listening to the concerns of your constituents in Arizona and to the members of the New Mexico Federal Lands Council who must contend with the threats from Mexican wolves on a daily basis.

For years we have had to deal with the Mexican wolf introduction. We have voiced our concerns from habituated Mexican wolves. We have petitioned for action be taken to protect our people, pets and livestock from the wolves.

The San Francisco Soil and Water Conservation District support your bill to remove the Mexican wolf from the list of endangered species to de-link Mexican wolf recovery in the United States from recovery in Mexico.

Sincerely,

Howard Hutchinson, Chair
