"(d) LOCAL EDUCATIONAL AGENCY DISCRETION.—Notwithstanding subsection (b)(1) of this section, a local educational agency shall have discretion to make educational decisions which are consistent with achieving the purposes of this chapter as set forth in this subsection, as follows:

Eligible school attendance area. Educationally deprived children.

"(1) A local educational agency may designate any school attendance area in which at least 25 per centum of the children are from low-income families as an eligible school attendance area.

"(2) A local educational agency may, with the approval of the State educational agency, designate as eligible (and serve) school attendance areas with substantially higher numbers or percentages of educationally deprived children before school attendance areas with higher concentrations of children from low-income families, but this provision shall not permit the provision of services to more school attendance areas than could otherwise be served. A State educational agency shall approve such a proposal only if the State educational agency finds that the proposal will not substantially impair the delivery of compensatory education services to educationally deprived children from low-income families in project areas served by the local educational agency.

"(3) Funds received under this chapter may be used for educationally deprived children who are in a school which is not located in an eligible school attendance area when the proportion of children from low-income families in average daily attendance in such school is substantially equal to the proportion of such children in an eligible school attendance area of such agency.

"(4) If an eligible school attendance area or eligible school was so designated in accordance with subsection (b)(1)(A) in either of two preceding fiscal years, it may continue to be so designated for a single additional fiscal year even though it does not qualify in accordance with subsection (b)(1)(A).

"(5) With approval of the State educational agency, eligible school attendance areas or eligible schools which have higher proportions of children from low-income families may be skipped if they are receiving, from non-Federal funds, services of the same nature and scope as would otherwise be provided under this chapter, but (A) the number of children attending private elementary and secondary schools who receive services

under this chapter shall be determined without regard to non-Federal compensatory education funds which serve eligible children in public elementary and secondary schools, and (B) children attending private elementary and secondary schools who receive assistance under this chapter shall be identified in accordance with this section and without regard to skipping public school attendance areas or schools under this paragraph.

“(6) A child who, in any previous year, was identified as being in greatest need of assistance, and who continues to be educationally deprived, but who is no longer identified as being in greatest need of assistance, may participate in a program or project assisted under this title for the current year.

“(7) Educationally deprived children who begin participation in a program or project assisted under this chapter who, in the same school year, are transferred to a school attendance area or a school not receiving funds under this chapter, may continue to participate in a program or project funded under this chapter for the remainder of such year.

“(8) The local educational agency is not required to use funds under this chapter to serve educationally deprived children in greatest need of assistance if such children are receiving, from non-Federal sources, services of the same nature and scope as would otherwise be provided under this chapter.

“(9) In the case of any school serving an attendance area that is eligible to receive services under this chapter and in which not less than 75 per centum of the children are from low-income families, funds received under this chapter may be used for a project designed to upgrade the entire educational program in that school in the same manner and only to the same extent as permitted under section 133(b) of the Elementary and Secondary Education Act of 1965 (but without regard to paragraph (4) of such section).

“(10) Public school personnel paid entirely by funds made available under this chapter may be assigned limited, rotating, supervisory duties which are assigned to similarly situated personnel who are not paid with such funds, and such duties need not be limited to classroom instruction or to the benefit of children participating in programs or projects funded under this chapter. Such duties may not exceed the same proportion of total time as is the case with similarly situated personnel at the same school site, or 10 per centum of the total time, whichever is less.”.

SEC. 4. Section 556 of the Act is further amended by adding at the end thereof the following new subsection:
