

Since 1949 our tax burden has been increasing, in particular the tax on capital. Over the last 20 years the United States has trailed our industrialized competitors in capital investment per worker, in part because other countries have more favorable tax policies towards capital.

We are getting exactly what von Mises predicted: if you don't encourage savings and capital investment then you lose your productivity and competitive position. Today, the United States is indeed trailing its international competitors in the growth of its production per worker.

Economists have estimated that neutral cost recovery will lead to the creation of 2.7 million new jobs, add an extra \$3.5 trillion to our Nation's output over the next 5 years and by doing so add nearly \$600 billion to Federal revenues. In passing neutral cost recovery we will secure an improved life for our children and grandchildren by leaving them with a greater stock of capital, more job opportunities, and a reduced Federal deficit. I urge my colleagues to lift the shackles that our tax code has placed on our economic growth and give our children and grandchildren the jobs that they deserve.
