The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

COST ESTIMATE—S. 523

• Mr. MURKOWSKI. Mr. President, at the time the Committee on Energy and Natural Resources filed its report on S. 523, legislation to amend the Colorado River Basin Salinity Control Act, the cost estimate from the Congressional Budget Office was not available. We have since received the estimate, and, for the information of the Senate,

I ask that a copy of the cost estimate be printed in the RECORD. The estimate states that enactment would not affect direct spending or receipts and therefore pay-as-you-go procedures would not apply to the bill:

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, April 3, 1995.

Hon. FRANK H. MURKOWSKI,
Chairman, Committee on Energy and Natural Resources, U.S. Senate, Washington, DC.

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for S. 523, a bill to amend the Colorado River Basin Salinity Control Act to authorize additional measures to carry out the control of salinity upstream of Imperial Dam in a cost-effective manner.

Enactment of S. 523 would not affect direct spending or receipts. Therefore, pay-as-you-go procedures would not apply to the bill.

If you wish further details on this estimate, we will be pleased to provide them.

Sincerely,

JAMES J. BLUM
(For June E. O'Neill).

CONGRESSIONAL BUDGET OFFICE—COST ESTIMATE, APRIL 3, 1995

1. Bill number: S. 523.
2. Bill title: A bill to amend the Colorado River Basin Salinity Control Act to authorize additional measures to carry out the control of salinity upstream of Imperial Dam in a cost-effective manner.
3. Bill status: As ordered reported by the Senate Committee on Energy and Natural Resources on March 29, 1995.
4. Bill purpose: S. 523 would authorize appropriations of \$75 million for the Bureau of Reclamation to develop a new program to reduce salinity in the Colorado River basin from saline springs, leaking wells, irrigation sources, industrial sources, erosion of public and private land, or other sources. The authorized funds also could be used to cover costs associated with ongoing salinity control projects. The federal government would be reimbursed over time for 30 percent of any appropriations provided for S. 523 through the Upper Colorado River Basin Fund (UCRBF) and the Lower Colorado River Basin Development Fund (LCRBF), which collect surcharge from power users through the Western Area Power Administration.
5. Estimated cost to the Federal Government: Based on information from the Department of the Interior, CBO estimates that the \$75 million in appropriations authorized by S. 523 would be used entirely for new salinity control projects. We expect that funding for these new projects would be required beginning in fiscal year 1996, and that outlays, would reflect historical spending patterns for similar construction projects. Estimated outlays for these projects would total \$52 million over the 1996-2000 period, as shown in the following table. Because of the anticipated length of the project, additional outlays would continue beyond fiscal year 2000.

[By fiscal year, in millions of dollars]

	1996	1997	1998	1999	2000
Authorization of appropriations	6	8	10	15	15
Estimated outlays	5	8	10	14	15

The costs of this bill fall within budget function 300.

The bill's reimbursement requirements would not affect outlays over the 1996-2000 period. Fifteen percent of the reimbursable portion of the appropriation would be paid from collections to the UCRBF within 50 years after a project becomes operational,
