

people of Sanilac County within my congressional district have been blessed with such an individual, Mrs. Virginia Carter, who is retiring after 20 years as a member of the Sanilac County Mental Health Board's Recipient Rights Advisory Committee.

People who have benefited from the excellent care provided by Sanilac County Mental Health Services have most assuredly benefited from programs either pioneered by Virginia Carter—supported employment, for example—or thriving because of her devotion to maintaining these important programs.

Not only has Virginia Carter served for 20 years on the recipient rights committee, she has been elected chairperson for 18 of those years, a real testimony to the fact that she is held in high esteem by her colleagues on the committee.

Mental health care can be a particularly trying field. Most people have a more difficult time dealing with the identification and treatment of mental health problems. Signs are not as easily identified as is a cold, nor is treatment as easy as a prescription for several days. Those who deal with the needs for mental health services must be patient, understanding, and resilient. They also need to have the support of understanding people like Virginia Carter who knows the meaning of pursuing quality care.

It has been my privilege and pleasure to know many fine, dedicated people who live in Sanilac County. It is a particular pleasure to join with so many of them who will be honoring her at a special retirement event this Friday evening.

Mr. Speaker, I urge you and all of our colleagues to join me in wishing her the very best.

PERSONAL EXPLANATION

HON. STEPHEN HORN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 18, 1996

Mr. HORN. Mr. Speaker, on rollcall No. 120, I regret having been unavoidably detained in a meeting with constituents, which prevented me from voting aye in support of House Resolution 316: Deploring individuals who deny the historical reality of the Holocaust and commending the work of the U.S. Holocaust Memorial Museum.

This is particularly ironic since I have spoken out for over two decades about the foolishness and evil of those who deny the Holocaust and the murder of 6 million Jews in Nazi-controlled Europe during the Second World War.

Had I been present, I would have voted "aye."

TRIBUTE TO DR. ROBERT E. HENDERSON

HON. FLOYD SPENCE

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 18, 1996

Mr. SPENCE. Mr. Speaker, I rise today to recognize Dr. Robert E. Henderson, as he retires as President and Director, Chief Execu-

tive Officer of the South Carolina Research Authority [SCRA]. The SCRA was established in 1983 as a nonprofit scientific and engineering corporation to address national and international manufacturing issues through the development of new technologies. For the past 12½ years, Dr. Henderson has shaped the SCRA into the dynamic organization that it is today, and South Carolinians are most appreciative of the contributions that he has made to our State and to the Nation.

Under the leadership of Dr. Henderson, nearly one-half billion dollars have been invested, sold, and/or contracted through SCRA research parks and technology management programs. In addition to leading South Carolina to the cutting-edge of technology, the SCRA has become a recognized leader nationally, through SCRA projects, technology, and corporate teams representing activity in almost every State in the Union.

Dr. Henderson has always responded to the call of his country and his community. During World War II, he served as a staff sergeant in the infantry of the U.S. Army, and was awarded the Purple Heart medal. He then received the bachelor of arts degree in physics from Carlton College, as well as the masters of arts degree in physics and the doctor of philosophy degree in physics from the University of Missouri.

Dr. Henderson has distinguished himself in the fields of physics and engineering, and he has published numerous scholarly articles. He has been appointed to the Defense Science Board and the Defense Manufacturing Board, in addition to having served as president of the Indianapolis Scientific and Engineering Foundation, director of the International Solar Energy Society, and a member of the Board of Visitors of Clemson University. He recently received South Carolina's highest recognition, The Order of the Palmetto.

Dr. Henderson has made great contributions to South Carolina and to our country through an outstanding career that has been diverse and exemplary. He is wished much continued success as he moves on to face new challenges and rewards.

TALENTED HIGH SCHOOL STUDENTS REPRESENTING OREGON

HON. ELIZABETH FURSE

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 18, 1996

Ms. FURSE. Mr. Speaker, on April 27–April 29, 1996, more than 13,000 students from 50 States and the District of Columbia will be in Washington, DC, to compete in the national finals of the "We the People . . . The Citizen and the Constitution" Program. I am proud to announce that the class from Lincoln High School from Portland will represent Oregon and the First Congressional District. These young scholars have worked diligently to reach the national finals by winning local competitions in their home State.

The distinguished members of the team representing Oregon are: Students: Vasiliki Despina Ariston, Jereme Rain Axelrod, Rebekah Rose Cook, Tawan Wyndelle Davis, David Eyre Easterday, Amanda Hope Emmerson, Tiffany Ann Grosvenor, William John Hawkins IV, Soren Anders Heitmann,

Stacy Elizabeth Humes-Schulz, Martissa Tamar Isaak, Heather Brooke Johnson, Katherine Mace Kasameyer, Christopher Michael Knutson, Jeanne Marie Layman, Daniel Hart Lerner, Casey James McMahon, Lindsay Katrina Nesbit, Gerald William Palmrose, Mary Ruth Pursifull, Catherine Clare Rockwood, Daniel Boss Rubin, Elizabeth Leslie Rutzick, Mark Richard Samco, Kathryn Denelle Stevens, Simon Brendan Thomas, Miles Mark Von Bergen, Lauren Elizabeth Wiener, and Farleith Aiken Wolfe.

I would also like to recognize their teacher, Mr. Hal Hart, who deserves much of the credit for the success of the team. The district coordinator, Mr. Daniel James, and the State coordinator, Ms. Marilyn Cover, also contributed a significant amount of time and effort to help the team reach the national finals.

The "We the People . . . The Citizen and the Constitution" Program is the most extensive educational program in the country developed specifically to educate young people about the Constitution and the Bill of Rights. The 3-day national competition simulates a congressional hearing in which students' oral presentations are judged on the basis of their knowledge of constitutional principles and their ability to apply them to historical and contemporary issues.

Administered by the Center for Civic Education, the "We the People" Program, now in its ninth academic year, has reached more than 70,400 teachers, and 22,600,000 students nationwide at the upper elementary, middle and high school levels. Members of Congress and their staff enhance the program by discussing current constitutional issues with students and teachers.

The "We the People" Program provides an excellent opportunity for students to gain an informed perspective on the significance of the U.S. Constitution and its place in our history and our lives. I wish these students the best of luck in the national finals and look forward to their continued success in the years ahead.

PERSONAL EXPLANATION

HON. ROSCOE G. BARTLETT

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 18, 1996

Mr. BARTLETT of Maryland. Mr. Speaker, on rollcall No. 124, I was off the Hill well within 15 minutes return time. My pager did not respond to the 15-minute call. It did respond to the 10-minute call.

Had I been present, I would have voted "yes."

THE WATER QUALITY PUBLIC RIGHT-TO-KNOW ACT OF 1996

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, April 18, 1996

Mr. WAXMAN. Mr. Speaker, today I am introducing the Water Quality Public Right-To-Know Act of 1996. This bill will guarantee the public's right to know about the contaminants that they are exposed to in their drinking water.
