

the U.S. Housing Act of 1996 by Representative HAYWORTH. I am an original cosponsor of this bill because I believe there is a pressing need to assess and reorganize Native American housing programs in this country. This amendment is a strong step in the right direction.

Chairman LAZIO and his staff have put forth a great deal of effort to ensure that the needs of Native Americans in my State and across the country have been given serious attention and consideration throughout the crafting of this bill.

I agree with Chairman LAZIO and the Native American Indian Housing Council that Indian housing should be divorced from public housing programs because of the unique needs of Indian country and the many economic challenges that must be overcome. The U.S. Housing Act does not address these unique needs, and I believe including the Native American Housing and Self-Determination Act as an amendment to H.R. 4206 will guarantee that quality housing for Native American communities is not neglected as Federal housing programs are revamped in Congress.

Housing is an integral and most basic component to economic development for Indian and non-Indian communities alike. I support the premise of the Native American Housing Assistance and Self-Determination Act because Congress must prioritize programs which develop infrastructure on reservations and enhance economic growth for tribal communities. Additionally, the extreme health problems that many Indian communities face can be linked directly to inadequate housing, problems that can begin to be addressed through this Indian self-determination legislation. The flexibility in funding and in the administration of housing programs that this bill promotes is the key to tribal self-sufficiency and self-determination in housing management. Ultimately, this self-determination will result in increased access to safe, affordable housing for Native American people nationwide.

The unique housing needs of Indian country warrant a continued Federal commitment to successful tribal housing programs. I look forward to working with Chairman LAZIO, my colleagues, and Indian tribes nationwide to make the Native American Housing and Self-Determination Act a reality, with the health and welfare of Indian tribes our foremost priority. I strongly urge my colleagues to vote for the Hayworth amendment on Native American Housing Assistance and Self-Determination.

THE COMPETITIVE LIVESTOCK
MARKETS ACT OF 1996

HON. EARL POMEROY

OF NORTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1996

Mr. POMEROY. Mr. Speaker, today I am introducing legislation to address the disastrous situation that livestock producers across this Nation are currently facing. At this time, livestock producers are suffering the double-whammy of the lowest prices since the Great Depression and the highest feed prices in a generation. Many producers in my State are facing no choice but to sell out this year as they face losses of several hundred dollars on every head they sell.

Ranchers from across my State have told me that concentration in the meat packing industry has limited competition in the livestock markets. The three largest meat packing firms now control over 80 percent of the cattle slaughter in this country. Independent producers have been squeezed to the point where they are at the mercy of whatever price the giant meat packing firms are willing to offer. Congress must act to restore free and open competition in our Nation's livestock markets.

The legislation I am introducing today will accomplish that goal in the following manner:

First, it directs the Secretary of Agriculture to develop rules to prohibit noncompetitive captive supply arrangements. These captive supply arrangements include formula pricing, forward contracting and packer-owned cattle feeding. The bill does not prohibit all captive supply arrangements between a producer and a packer, only those determined to be detrimental to competition in the livestock markets. This provision will force the livestock trade to occur in a free and open market.

Second, the bill requires the Secretary of Agriculture to implement mandatory reporting of the prices and terms of sale for slaughter livestock purchased by packers who have greater than a 5-percent share of the slaughter market. This information would be public knowledge and reported immediately. There would be no more secret deals between packers and large feedlots. All producers should have access to information on the terms of sale for slaughter livestock in order to take maximum advantage of free market forces.

Finally, the bill would require the reporting of export sales of meat on a weekly basis. Access to this information will help all livestock producers gain a more realistic picture of supply and demand relationships.

Mr. Speaker, we are facing a crisis of epic proportions among livestock producers in this Nation. From Texas to North Dakota independent family ranchers are facing financial ruin. We must take steps immediately to address what is wrong in this industry. With this bill, we are saying that the large meat packers can no longer control the cattle markets through secret deals and privileged information. We must restore the free markets that the United States is known for around the world. I urge my colleagues to join me in support of this legislation.

WILLIAM DAVIDSON TO RECEIVE
DOCTOR OF HUMANE LETTERS

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1996

Mr. LANTOS. Mr. Speaker, next week, Bill Davidson, a good friend and a great American, will receive an honorary Doctor of Humane Letters from the Jewish Theological Seminary of America. In recognizing Bill's many accomplishments and extraordinary commitment to improving our country, the Jewish Theological Seminary speaks for the many people in his community and around the world who have benefited from Bill's extraordinary wisdom and philanthropy.

Bill Davidson is the chairman of the board and president of Guardian Industries Corp. of Northville, MI. Under his wise direction, Guard-

ian has become a solid industrial asset to our economy, as well as a conscientious corporate citizen. Guardian has also been an ambassador of American engineering and way of doing business through its pioneering ventures overseas. These ventures have helped emerging democracies develop a more solid economic base while increasing American presence and influence abroad.

While running his hugely successful company, Bill found the time to volunteer for numerous community organizations. His generosity was recognized in 1992, when he was given the Jewish community's highest honor for outstanding volunteer service, the Fred M. Butzel Memorial Award for Distinguished Community Service. He has given generously of his time and resources to educational institutions, Detroit community organizations, and Jewish organizations nationwide.

Not one to confine himself to the roles of successful businessman and community activist, Bill is also the majority owner of the Detroit Pistons basketball club, the Palace Sports and Entertainment Arena, the Detroit Vipers hockey team and the Detroit Neon soccer team. He was inducted into the Michigan Jewish Sports Hall of Fame in 1985.

I commend the Jewish Theological Seminary for recognizing Bill Davidson with a prestigious Honoris Causa. This honorary degree is a testament to Bill's outstanding and continuing contributions to the education and enrichment of the Jewish community and our nation. I invite my colleagues to join me in expressing our gratitude and most heartfelt congratulations to Bill Davidson on this most joyous occasion.

HONORING DEAN ROGER
EICHHORN

HON. KEN BENTSEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 9, 1996

Mr. BENTSEN. Mr. Speaker, I rise to thank and honor Dr. Roger Eichhorn as he completes his 14-year tenure as dean of engineering at the University of Houston. The Cullen College of Engineering surely will miss his leadership, but his students and the engineering field will be richer as Dr. Eichhorn returns to teaching and research.

Dr. Eichhorn has a long career of service and contributions to educational, professional, civic, technical, and humanitarian endeavors. He was rightly honored as 1995 Houston Engineer of the Year.

Dr. Eichhorn traces his love of engineering to his days as a farm boy in Minnesota, when he got into trouble regularly for breaking his father's tools. He studied electrical and mechanical engineering at the University of Minnesota, where he received his doctorate while working as an instructor. He then accepted a position as assistant professor at Princeton University, where he was soon awarded the rank of associate professor with tenure. In 1967, he moved on to the University of Kentucky as professor of Mechanical Engineering, serving initially as chairman of the department and later as dean of engineering. In 1982, he came to the University of Houston as a professor of mechanical engineering and dean of the Cullen College of Engineering.
