TITLE VIII—UMPQUA RIVER LAND EXCHANGE STUDY

SEC. 801. UMPQUA RIVER LAND EXCHANGE STUDY: POLICY AND DIRECTION.

(a) IN GENERAL.—The Secretaries of the Interior and Agriculture (Secretaries) are hereby authorized and directed to consult, coordinate and cooperate with the Umpqua Land Exchange Project (ULEP), affected units and agencies of State and local government, and, as appropriate, the World Forestry Center and National Fish and Wildlife Foundation, to assist ULEP's ongoing efforts in studying and analyzing land exchange opportunities in the Umpqua River basin and to provide scientific, technical, research, mapping and other assistance and information to such entities. Such consultation, coordination and cooperation shall at a minimum include, but not be limited to:

(1) working with ULEP to develop or assemble comprehensive scientific and other information (including comprehensive and integrated mapping) concerning the Umpqua River basin's resources of forest, plants, wildlife, fisheries (anadromous and other), recreational opportunities, wetlands, riparian habitat and other physical or natural resources;

(2) working with ULEP to identify general or specific areas within the basin where land exchanges could promote consolidation of timberland ownership for long-term, sustained timber production; protection and improvement of habitat for plants, fish and wildlife (including any Federally listed threatened or endangered species); protection of drinking water supplies; recovery of threatened and endangered species; protection and improvement of wetlands, riparian lands and other environmentally sensitive areas; consolidation of land ownership for improved public access and a broad array of recreational uses; and consolidation of land ownership to achieve management efficiency and reduced costs of administration; and

(3) developing a joint report for submission to the Congress which discusses land ex-

change opportunities in the basin and outlines either a specific land exchange proposal or proposals which may merit consideration by the Secretaries or the Congress, or ideas and recommendations for new authorizations, direction, or changes in existing law or policy to expedite and facilitate the consummation of beneficial land exchanges in the basin via administrative means.

(b) MATTERS FOR SPECIFIC STUDY.—In analyzing land exchange opportunities with ULEP, the Secretaries shall give priority to assisting ULEP's ongoing efforts in—

(1) studying, identifying and mapping areas where the consolidation of land ownership via land exchanges could promote the goals of long term species protection, including the goals of the Endangered Species Act of 1973 more effectively than current land ownership patterns and whether any changes in law or policy applicable to such lands after consummation of an exchange would be advisable or necessary to achieve such goals;

(2) studying, identifying and mapping areas where land exchanges might be utilized to better satisfy the goals of sustainable timber harvest, including studying whether changes in existing law or policy applicable to such lands after consummation of an exchange would be advisable or necessary to achieve such goals;

(3) identifying issues and studying options and alternatives, including possible changes in existing law or policy, to insure that combined post-exchange revenues to units of local government from state and local property, severance and other taxes or levies and shared Federal land receipts will approximate pre-exchange revenues;

(4) identifying issues and studying whether possible changes in law, special appraisal instruction, or changes in certain Federal appraisal procedures might be advisable or necessary to facilitate the appraisal of potential exchange lands which may have special characteristics or restrictions affecting land values;

(5) identifying issues and studying options and alternatives, including changes in existing laws or policy, for achieving land exchanges without reducing the net supply of timber available to small businesses;

(6) identifying, mapping, and recommending potential changes in land use plans, land classifications, or other actions which might be advisable or necessary to expedite, facilitate or consummate land exchanges in certain areas; and,

(7) analyzing potential sources for new or enhanced Federal, state or other funding to promote improved resource protection, species recovery, and management in the basin.

SEC. 802. REPORT TO CONGRESS.

(a) No later than February 1, 1998, ULEP and the Secretaries shall submit a joint report to the Committee on Resources of the United States House of Representatives and to the Committee on Energy and Natural Resources of the United States Senate concerning their studies, findings, recommendations, mapping and other activities conducted pursuant to this title.
