I consider their comprehensive programs to be a model of success, and I have the utmost confidence in their ability to continue serving students for another 75 years with the same excellence they have achieved.

Mr. Speaker, I know that the people of Portage have always stood behind their schools, just like the school district stands behind its students and staff. As their Representative in Congress, it is a great honor for me to rise today in recognition of their accomplishments and wish them many more years of prosperity.

HON. JO ANN EMERSON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 23, 1997

Mrs. EMERSON. Mr. Speaker, I rise today to recognize the creative and innovative work of the Wayne County Health Center, a hospital located in the 8th District of Missouri. Wayne County Health Center was recently presented with the American Star, an award given to 100 civic organizations each year by the America The Beautiful Fund of Washington, DC.

I would especially like to extend my congratulations to Mrs. Velma Osborne, who has played an instrumental role in the success of Wayne County Health Center's extraordinary citizen service.

Wayne County Health Center established a program that assists over 400 low-income families in the area grow their own fresh food. The families involved in the project are learning the importance of good nutrition, as well as how to grow their own fresh fruits and vegetables.

This program has taken a giant step in helping to fight hunger in Wayne County. It will continue to benefit the families involved as children grow up with the knowledge of good nutrition and the skills to grow their own healthy food.

The Wayne County Health Center is certainly deserving of an award as prestigious as the America The Beautiful American Star. The accomplishments of Velma Osborne and the many others who have worked for the success of this program should serve as a reminder of the spirit that founded this country and the role that each and every one of us play in keeping that spirit alive.

IN RECOGNITION OF A HIGH
ACHIEVING JOHN MARSHALL
HIGH SCHOOL AMERICAN HIS-
TORY CLASS

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 23, 1997

Mr. KUCINICH. Mr. Speaker, I rise to recognize and honor the high intellectual achievement of a John Marshall High School American history class. This class of high school juniors and seniors has demonstrated a superlative command of the facts and a critical understanding of the meaning of American history. They are first among their peers, having won that distinction when they took first place in the State of Ohio finals of the We the People competition.

The We the People competition does not involve mere rote learning and short answers, but requires detailed research and study on specific areas of the Constitution and Bill of Rights. Students testify before a panel of judges, most of whom are judges and lawyers, as if they were testifying at a congressional hearing. The class is divided into six groups and each group is required to give a 4 minute prepared answer to one of three extremely complex questions. Each group must then answer extemporaneously 6 minutes of followup questions posed by the judges. Through this trying ordeal, the students must demonstrate their understanding and ability to articulate in-depth analysis of complex constitutional issues. All students must respond, not just the stars of the class.

The entire class, then, has earned a coveted honor as the State representative at the national competition. Under the tutelage of their teacher, George Klepacz, the following students are commended by Congress for their work and achievement: Brigitte Beale, Alicia Bebee, Raenala Brown, David

Bucchioni, Tyessa Howard, Kasey King, Deanna Lamb, James Lazarus, Kim Noeum, Ryann O'Bryant, Brad Schaefer, Tiwanna Scott, Matt Stevens, and Kim Chau Vo.

AUTHORIZING FUNDING FOR A
STUDY OF BREAST CANCER

HON. RODNEY P. FRELINGHUYSEN

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, April 23, 1997

Mr. FRELINGHUYSEN. Mr. Speaker, I rise today, joined by a bipartisan group of my colleagues, to introduce legislation critical to the State of New Jersey.

This bill will authorize funding for a study focusing on the link between environmental factors and genetic susceptibilities toward breast cancer. The study will be conducted by the New Jersey University of the Health Sciences in consultation with the New Jersey Department of Health and Senior Services.

Breast cancer is an epidemic in our country. It is reported that every 3 minutes, a woman is diagnosed with the disease and every 11 minutes a woman dies from it. In this year alone, more than 44,000 women will from breast cancer—these women, who are our mothers, spouses, siblings, children, or friends.

These numbers are especially alarming in the State of New Jersey, which has the second highest breast cancer mortality rate of any State in the country. The American Cancer Society estimates 6,400 new cases of breast cancer in New Jersey in 1997 and 1,800 estimated deaths.

While we have made some strides in raising awareness about the need for early detection and some strides in research, we still do not have a cure nor do we know what causes the devastating disease. That is why I am introducing this legislation, to direct more funding to study the disease and potential causes of it.

Because of its dense population, the State of New Jersey has many unique environmental concerns that may have some link to our high incidents of breast cancer. The State's University of Health Sciences is one of only seven joint centers in the United States that house a National Cancer Institute designated research center and a National Institute of Environmental Health Sciences research center. The New Jersey Department of Health and Senior Services also oversees a statewide cancer registry and is advanced in its cancer research programs.

While this potential study is critical to women and families in New Jersey, the results of the study are equally important to the 1 in 8 women that will be diagnosed nationally with breast cancer each year, to their children and families. Consequently, I urge the support of my colleagues for swift passage of this bill.
