

I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

PROVIDING FOR CONSIDERATION OF H.R. 1273, NATIONAL SCIENCE FOUNDATION AUTHORIZATION ACT OF 1997

Mr. DIAZ-BALART. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 126 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 126

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 1(b) of rule XXIII, declare the House resolved into the Committee of the Whole House on the State of the Union for consideration of the bill (H.R. 1273) to authorize appropriations for fiscal years 1998 and 1999 for the National Science Foundation, and for other purposes. The first reading of the bill shall be dispensed with. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on Science. After general debate the bill shall be considered for amendment under the five-minute rule. It shall be in order to consider as an original bill for the purpose of amendment under the five-minute rule the amendment in the nature of a substitute recommended by the Committee on Science now printed in the bill. The committee amendment in the nature of a substitute shall be considered by title rather than by section. Each title shall be considered as read. During consideration of the bill for amendment, the Chairman of the Committee of the Whole may accord priority in recognition on the basis of whether the Member offering an amendment has caused it to be printed in the portion of the Congressional Record designated for that purpose in clause 6 of rule XXIII. Amendments so printed shall be considered as read. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the committee amendment in the nature of a substitute. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

The SPEAKER pro tempore. The gentleman from Florida [Mr. DIAZ-BALART] is recognized for 1 hour.

Mr. DIAZ-BALART. Mr. Speaker, for the purposes of debate only, I yield the customary 30 minutes to the gentleman from New York [Ms. SLAUGHTER] pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Mr. Speaker, House Resolution 126 is an open rule providing for the consideration of House Resolution 1273, the National Science Foundation Act of 1997.

The purpose of this legislation is to authorize the activities of the National Science Foundation for the fiscal years 1998 and 1999. House Resolution 126 provides for 1 hour of general debate, to be equally divided and controlled by the chairman and ranking minority member of the Committee on Science. After general debate, it shall be in order to consider as an original bill for purpose of amendment under the 5-minute rule the amendment in the nature of a substitute recommended by the Committee on Science now printed in the bill. Each title shall be considered as read.

Further, the Chair will be authorized to grant priority in recognition to Members who have pre-printed their amendments in the CONGRESSIONAL RECORD, and the rule provides for one motion to recommit with or without instructions.

As is well known, Mr. Speaker, the National Science Foundation funds research and education activities in all fields of science and engineering at colleges and universities throughout the United States, and, Mr. Speaker, similar to the previous rule, the rule that we just adopted, this rule, 126, is open, and I urge its adoption.

Mr. Speaker, I reserve the balance of my time.

Ms. SLAUGHTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I support this open rule that will allow us to consider H.R. 1273, the National Science Foundation Authorization Act. The National Science Foundation contributes to the advancement of biological sciences, geosciences, mathematical and physical sciences, as well as scientific research and educational programs. In my own district of Rochester, NY, last year the NSF awarded \$13 million in grants to support both basic and scientific research and high-tech development. Ninety-six NSF grants enabled scientists in my district to pursue critical work and optical science and engineering, advanced manufacturing technologies and virtual reality programs which can replace the real world in testing and debugging a system.

□ 1045

The NSF is the foundation for the countless scientific and technological advances that enable us to compete in the global economy.

We should pass this bill, which provides continued funding for the NSF. I urge my colleagues to support this open rule.

Mr. Speaker, I yield back the balance of my time.

Mr. DIAZ-BALART. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

PROVIDING FOR CONSIDERATION OF H.R. 1275, CIVILIAN SPACE AUTHORIZATION ACT, FISCAL YEARS 1998 AND 1999

Mr. MCINNIS. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 128 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 128

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 1(b) of rule XXIII, declare the House resolved into the Committee of the Whole House on the State of the Union for consideration of the bill (H.R. 1275) to authorize appropriations for the National Aeronautics and Space Administration for fiscal years 1998 and 1999, and for other purposes. The first reading of the bill shall be dispensed with. Points of order against consideration of the bill for failure to comply with clause 2(l)(6) of rule XI are waived. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on Science. After general debate the bill shall be considered for amendment under the five-minute rule. It shall be in order to consider as an original bill for the purpose of amendment under the five-minute rule the amendment in the nature of a substitute recommended by the Committee on Science now printed in the bill. The committee amendment in the nature of a substitute shall be considered by title rather than by section. Each title shall be considered as read. During consideration of the bill for amendment, the Chairman of the Committee of the Whole may accord priority in recognition on the basis of whether the Member offering an amendment has caused it to be printed in the portion of the Congressional Record designated for that purpose in clause 6 of rule XXIII. Amendments so printed shall be considered as read. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the committee amendment in the nature of a substitute. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

The SPEAKER pro tempore [Mr. DUNCAN]. The gentleman from Colorado [Mr. MCINNIS] is recognized for 1 hour.

Mr. MCINNIS. Mr. Speaker, for the purposes of debate only, I yield the customary 30 minutes to the gentleman from Ohio [Mr. HALL], pending which I yield myself such time as I may consume. During the consideration of this resolution, all time yielded is for the purposes of debate only.

Mr. Speaker, this is a very simple resolution. The proposed rule is an open rule providing for 1 hour of general debate equally divided and controlled by the chairman and ranking member of the Committee on Science. The resolution waives points of order against consideration of the bill for failure to comply with clause 2(L)(6) of rule XI. After general debate, the bill shall be considered for amendment under the 5-minute rule. Furthermore,

it shall be in order to consider as an original bill for the purpose of amendment under the 5-minute rule the amendment in the nature of a substitute recommended by the Committee on Science now printed in the bill.

Additionally, Mr. Speaker, House Resolution 128 provides that the committee amendment in the nature of a substitute shall be considered by title rather than by section. Moreover, the rule provides that the Chair may accord priority recognition to Members who have preprinted their amendments in the CONGRESSIONAL RECORD.

Mr. Speaker, at the conclusion of the consideration of the bill for amendment, the Committee shall rise and report the bill to the House with such amendments as may have been adopted. Finally, Mr. Speaker, the rule provides one motion to recommit with or without instructions.

Mr. Speaker, under the proposed rule, each Member has an opportunity to have their concerns addressed, debated, and ultimately voted up or down by this body. House Resolution 128 was reported out of the Committee on Rules by a voice vote.

Mr. Speaker, the underlying legislation, H.R. 1275, the Civilian Space Authorization Act for fiscal years 1998 and 1999 is a bipartisan compromise that keeps the Nation's civilian space program on course.

Mr. Speaker, I urge my colleagues to support the rule and the underlying legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. HALL of Ohio. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I want to thank my colleague, the gentleman from Colorado [Mr. MCINNIS] for yielding me this time. This is an open rule which will allow full and fair debate on H.R. 1275. This is a bill to reauthorize the National Aeronautics and Space Administration for fiscal years 1998 and 1999.

This bill is important to a lot of people, especially to my colleagues in the State of Ohio. My district is the home of the Wright Brothers and the birthplace of aviation, so Ohio is one of the top States for aerospace research through Wright-Patterson Air Force Base in Dayton and NASA Lewis Research Center in Cleveland.

The aerospace industry is estimated to employ nearly 300,000 workers in the State of Ohio and contributes nearly \$23 billion to the total economy of the State.

As my colleague from Colorado [Mr. MCINNIS] has described, this rule provides 1 hour of general debate equally divided and controlled by the chairman and ranking minority member of the Committee on Science.

Under the rule, amendments will be allowed under the 5-minute rule, the normal amending process in the House. All Members on both sides will have a chance and an opportunity to offer amendments. The rule does waive the

clause in the House rules requiring 3-day availability for committee reports. However, given the open process and bipartisan support behind this bill, the Committee on Rules did not consider this a problem. The Committee on Rules approves this open rule unambiguously by a voice vote, and I would urge adoption of the open rule and the bill.

Mr. Speaker, I yield back the balance of my time.

Mr. MCINNIS. Mr. Speaker, I yield back the balance of my time, and I move the previous question.

The previous question was ordered.

The resolution was agreed to.

A motion to reconsider was laid on the table.

PROVIDING FOR CONSIDERATION OF H.R. 1271, FAA RESEARCH, ENGINEERING, AND DEVELOPMENT AUTHORIZATION ACT OF 1997

Mr. LINDER. Madam Speaker, by the direction of the Committee on Rules, I call up House Resolution 125 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 125

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 1(b) of rule XXIII, declare the House resolved into the Committee of the Whole House on the State of the Union for consideration of the bill (H.R. 1271) to authorize the Federal Aviation Administration's research, engineering, and development programs for fiscal years 1998 through 2000, and for other purposes. The first reading of the bill shall be dispensed with. Points of order against consideration of the bill for failure to comply with section 306 of the Congressional Budget Act of 1974 are waived. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on Science. After general debate the bill shall be considered for amendment under the five-minute rule. It shall be in order to consider as an original bill for the purpose of amendment under the five-minute rule the amendment in the nature of a substitute recommended by the Committee on Science now printed in the bill. Each section of the committee amendment in the nature of a substitute shall be considered as read. Points of order against the committee amendment in the nature of a substitute for failure to comply with section 306 of the Congressional Budget Act of 1974 are waived. During consideration of the bill for amendment, the Chairman of the Committee of the Whole may accord priority in recognition on the basis of whether the Member offering an amendment has caused it to be printed in the portion of the Congressional Record designated for that purpose in clause 6 of rule XXIII. Amendments so printed shall be considered as read. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the committee amendment in the nature of a substitute. The previous question shall be considered as ordered on the bill and amendments thereto to final

passage without intervening motion except one motion to recommit with or without instructions.

The SPEAKER pro tempore (Mrs. MORELLA). The gentleman from Georgia [Mr. LINDER] is recognized for 1 hour.

Mr. LINDER. Madam Speaker, for the purposes of debate only, I yield the customary 30 minutes to the gentleman from Texas [Mr. FROST], pending which I yield myself such time as I may consume. During consideration of this resolution, all time yielded is for the purpose of debate only.

Madam Speaker, House Resolution 125 is an open rule providing for consideration of H.R. 1271, the Federal Aviation Administration Research Engineering and Development Authorization Act of 1997. This rule provides for 1 hour of general debate, divided equally between the chairman and the ranking minority of the Committee on Science. The rule also waives points of order against consideration of the bill for failure to comply with section 306 of the Congressional Budget Act of 1997.

Madam Speaker, House Resolution 125 makes in order the Committee on Science amendment in the nature of a substitute as an original bill for the purpose of amendment, with each section being considered as read. The rule waives points of order against the committee amendment in the nature of a substitute for failure to comply with section 306 of the Congressional Budget Act of 1974.

Madam Speaker, this rule continues an approach that has been used effectively in recent Congresses by according priority and recognition to Members who have preprinted their amendments in the CONGRESSIONAL RECORD. The rule does not require preprinting but simply encourages Members to take advantage of the option in order to facilitate consideration of amendments on the floor and to inform Members of the details of pending amendments.

Finally, House Resolution 125 provides for one motion to recommit, with or without instructions, as is the right of the minority Members of the House.

Madam Speaker, this is a standard open rule, and the Committee on Rules has assured all Members who wish to modify the bill through the amendment process that they have every opportunity to offer their amendments.

Briefly, this legislation authorizes the Federal Aviation Administration's research, engineering and development programs for fiscal years 1998 through 2000. The bill provides important funding to enhance computer and information systems security for air traffic management to prioritize weather research projects and reduce delays in aircraft accidents and to develop new technologies that will ensure air safety.

I want to commend the gentleman from Wisconsin [Mr. SENSENBRENNER], the chairman of the Committee on
