

HONORING BISHOP J. NEAUL HAYNES FOR HIS 20 YEARS OF DISTINGUISHED SERVICE

HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 17, 1997

Ms. EDDIE BERNICE JOHNSON of Texas. Mr. Speaker, I rise today to congratulate and recognize 20 years of dedicated service of a dear friend and the jurisdictional prelate of the Texas Northeast Churches of God in Christ, my friend Bishop James Neaul Haynes. His distinguished service in our religious community will be recognized on Thursday, June 26, 1997, in the sanctuary of Saintsville Sanctuary Church of God in Christ in Dallas at 2200 South Marsalis Avenue.

Bishop James Neaul Hayes was born in Denton, TX, and graduated with honors from Fred Moore High School. He received his bachelor's degree, and went on to study at the University of Denver in Colorado, then at the Dallas Theological Seminary.

He began his service in April 1949, and was licensed as a minister and ordained as elder in the Church of God in Christ in 1950. His first ministerial job was at the Church of God in Christ in Pampa, TX, in 1952. During the early years of his distinguished career he served as pastor of Saint Emanuel Church of God in Christ in Denison, TX, from 1960 to 1969. From 1969 to 1979, he relocated to Wheatley Church of God in Christ in Dallas—the city which he now calls home. He stayed in Dallas and served in many of the great churches of our city: Haynes Chapel Church of God in Christ from 1977 to 1979, and in 1979, he became pastor of the Saintsville Sanctuary Church of God in Christ where he currently serves today.

During his distinguished career, he served the Texas Northeast Jurisdiction of the Church of God in Christ, in many capacities. In 1964, he served on the Texas Jurisdiction Trustee Board, and as district superintendent of the West District of the Texas Northeast Jurisdiction in 1967. In 1969, he served as assistant State secretary of the organization. He was appointed as administrative assistant to the State Bishop in 1973 and in 1978, took the position of presiding prelate of Texas Northeast Jurisdiction. Also during this time, Bishop Haynes served The Church of God in Christ, Inc., which has a membership of 8.5 million.

In 1972, he served as a member of the trustee board of the Church of God in Christ, and assistant secretary of registration from 1972 to 1984. In 1984, he was elected to serve as member of the General Board of Bishops, Presidium, of The Church of God in Christ, Inc., and then was appointed second assistant presiding Bishop of the same organization.

His distinguished service in our community is illustrated by the amount of time he has devoted to Dallas' religious community. His leadership is exemplified by Bishop Haynes' vision and compassion which are sought and respected throughout our Nation. Because of his commitment to the service of mankind, Bishop Haynes has received a number of citations, awards, and plaques. Among these are: 1977 Minister of the Year Award, from the Interdenominational Ministerial Alliance, and the Community Appreciation Award, from the Governor of Texas in 1978.

No matter what board, organization, or committee, Bishop Haynes has served, he has always worked to help people in Dallas by making sure he spent his time helping others and giving back to his community which has given so much to him.

Mr. Speaker, I ask my colleagues assembled here today to join me in recognizing my good friend and the fine Bishop from Saintsville Sanctuary Church of God in Christ for his 20 years of dedicated service to the city of Dallas. All of Dallas and the State of Texas are extremely lucky to have such a great pastor, and I am certain his work for the next 20 years will continue to be full of meaningful accomplishments.

TRIBUTE TO MARCIA BURNAM

HON. BRAD SHERMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 17, 1997

Mr. SHERMAN. Mr. Speaker, I rise today to recognize Marcia Burnam, whose outstanding commitment to helping others is being recognized by the American Jewish Committee with its 1997 Community Service Award. I would like to add my praise for this remarkable woman.

Marcia Burnam truly embodies the spirit of service to others. A wise man once said that "The best charity is good will" and Marcia has certainly demonstrated her good will. She has spent countless hours working for various organizations, such as the Wilstein Institute of Jewish Policy Studies, the Leo Baeck Temple and has also been an active alumnus of Vas-sar College. Additionally, Marcia was chair of the Portraits of American Women and the Jewish Federation's Volunteer Bureau.

Since 1950's American Jewish Committee President Irving Engel first introduced her to the AJC, Marcia has devoted long hours to this organization in numerous capacities, including working for the Jewish Family Center, directing the committee's fight for civil rights and acting as a national vice president for the organization.

Despite these innumerable hours devoted to others, Marcia was still able to raise a family and now spends time with her four grandchildren. It is a great honor to pay tribute to Marcia Burnam for receiving this award and I would like to add my praise for her hard work and dedication to our community.

THE COMPUTER SECURITY ENHANCEMENT ACT OF 1997

HON. F. JAMES SENSENBRENNER, JR.

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Tuesday, June 17, 1997

Mr. SENSENBRENNER. Mr. Speaker, I rise today to introduce H.R. 1903, the Computer Security Enhancement Act of 1997. I would like to thank Technology Subcommittee Chairwoman CONSTANCE MORELLA, and the full committee and subcommittee ranking minority members, Congressmen GEORGE BROWN and BART GORDON, for their efforts in crafting a bipartisan bill which should help strengthen computer security throughout the Federal Government.

The lack of adequate security for Federal civilian computer systems is a significant problem. Since June 1993, the General Accounting Office [GAO] has issued over 30 reports detailing serious information security weaknesses at Federal agencies. This year, GAO highlighted computer security as a governmentwide, high-risk issue in its high risk series.

H.R. 1903 is intended to address this problem by strengthening the National Institute of Standards and Technology's [NIST] historic role in computer security. The bill updates the Computer Security Act of 1987 (P.L. 100-235) to give NIST the tools it needs to ensure that appropriate attention and effort is concentrated on securing our Federal information technology infrastructure.

The Computer Security Act gives NIST the lead responsibility for computer security for Federal civilian agencies. The act requires NIST to develop the standards and guidelines needed to ensure cost-effective security and privacy of sensitive information in Federal computer systems.

H.R. 1903 updates the act to take into account the evolution of computer networks and their use by both the Federal Government and the private sector. Further, the bill's authorizations are consistent with authorizations that have already passed the House as part of H.R. 1274, the NIST Authorization Act of 1997.

Specifically, the bill:

Reduces the cost and improves the availability of computer security technologies for Federal agencies by requiring NIST to promote the Federal use of off-the-shelf products for meeting civilian agency computer security needs.

Enhances the role of the independent Computer System Security and Privacy Advisory Board in NIST's decisionmaking process. The board, which is made up of representatives from industry, Federal agencies and other outside experts, should assist NIST in its development of standards and guidelines for Federal systems.

Requires NIST to develop standardized tests and procedures to evaluate the strength of foreign encryption products. Through such tests and procedures, NIST, with assistance from the private sector, will be able to judge the relative strength of foreign encryption, thereby defusing some of the concerns associated with the export of domestic encryption products.

Limits NIST's involvement to the development of standards and guidelines for Federal civilian systems. The bill clarifies that NIST standards and guidelines are to be used for the acquisition of security technologies for the Federal Government and are not intended as restrictions on the production or use of encryption by the private sector.

Updates the Computer Security Act to address changes in technology over the last decade. Significant changes in the manner in which information technology is used by the Federal Government has occurred since the enactment of the Computer Security Act. The bill updates the act, taking these changes into account.

Establishes a new computer science fellowship program for graduate and undergraduate students studying computer security. The bill sets aside \$250,000 a year, for each of the
