

where the person on the math board does not want to do 7 times 6 equal 42, because it might intimidate some people that they feel left out or behind.

The idea that the taxpayers are going to pay for a Teamsters election so the Teamsters can use their money, the leadership, to try to finance their own race against what appears to have been the majority of the Teamsters members of the United States, and we pay for Canadian ballots, and then that money goes and elects other Members of Congress who claim they want campaign finance reform.

How about those members paying for the Teamsters election who got and benefited from the money of the Teamsters' members and the taxpayers of the United States, and it flowed into their campaign. How about following the current law?

Another debate that we are currently having that I simply cannot fathom is on the Census, because it is fine to use sampling to try to set up and understand where we are headed, but it is not fine to do the actual count mandated by the Constitution by guessing. That would be like going to the Clinton administration political appointees and saying, we are going to throw one out of every five of you in jail because we know at the end of this time, and when we get through, done with everything, one out of five is going to jail. They may have the wrong person, just like in the sampling that they have had around the country, they may have the people in the wrong State. That is real sad, but at least they got the rough number calculated.

It does not pass a laugh test. National tests do not pass the laugh test. The funding of the Teamsters election, which the gentleman from Michigan has twice now had this House go on record where, against the Census sampling, it does not pass the laugh test, and, quite frankly, the President of the United States threatened to recall lawmakers to the Hill so that we would have a special session on campaign finance and the people here in the House who keep saying this, it is a joke, it is an insult to the intelligence of the American people in a book, now discounted because it did not sell that great, called "Putting People First" by Governor Bill Clinton and Senator AL GORE.

In campaign finance reform, to show you how humorous this is, it says American politics is being held hostage by big money interests. Members of Congress now collect more than \$2.5 million in campaign funds every week, like he did, while political action committees, industry lobbies, and cliques of \$100,000 donors buy access to the White House. This is what Bill Clinton ran against, and he turned it into an art form.

This simply does not pass the laugh test, and it is so frustrating to me, and I know that, and I thank the two gentlemen who are here tonight on this special order who have been leaders in

investigating this and in campaigning against this, and I enjoy working with both of you on the different committees.

I do not know if any of you have a concluding comment here, too, but I wanted to get that last comment in. No matter what area we look at right now, whether it is Census sampling, national tests, Teamsters election, campaign finance reform, it is hard for me to believe the American people are taking this seriously.

Mr. HOEKSTRA. If the gentleman would yield, I think it is pretty exciting we have made some progress on the education issue again, but it is interesting to watch the debate. In the Senate a couple of weeks ago, they passed a motion that said, they passed an amendment that said we are moving decisionmaking back.

(A) The Department of Defense, including the Defense Intelligence Agency.

(B) The Department of the Treasury, including the United States Customs Service and the Financial Crimes Enforcement Network (FinCEN).

(C) The Central Intelligence Agency.

(D) The Coast Guard.

(E) The Department of Justice, including the National Drug Intelligence Center (NDIC); the Drug Enforcement Administration, including the El Paso Intelligence Center (EPIC); and the Federal Bureau of Investigation.

(2) The purpose of the plan under paragraph (1) is to maximize the effectiveness of the centers and activities referred to in that paragraph in achieving the objectives of the national drug control strategy. In order to maximize such effectiveness, the plan shall—

(A) articulate clear and specific mission statements for each counterdrug intelligence center and activity, including the manner in which responsibility for counterdrug intelligence activities will be allocated among the counterdrug intelligence centers;

(B) specify the relationship between such centers;

(C) specify the means by which proper oversight of such centers will be assured;

(D) specify the means by which counterdrug intelligence will be forwarded effectively to all levels of officials responsible for United States counterdrug policy; and

(i) facilitates effective counterdrug activities by State and local law enforcement agencies; and

(ii) provides such State and local law enforcement agencies with the information relating to the safety of officials involved in their counterdrug activities.

(b) APPROPRIATE CONGRESSIONAL COMMITTEES DEFINED.—In this section, the term "appropriate congressional committees" means the following:

JOINT EXPLANATORY STATEMENT

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2378), making appropriations for the Treasury Department, the United States Postal Service, the Executive Office of the President, and certain Independent Agencies, for the fiscal year ending September 30, 1998, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The conference agreement on the Treasury, Postal Service, and General Government Appropriations Act, 1998, incorporates some of the language and allocations set forth in House Report 105-240 and Senate Report 105-49. The language in these reports should be complied with unless specifically addressed in the accompanying statement of managers.

Senate Amendment: The Senate deleted the entire House bill after the enacting clause and inserted the Senate bill. The conference agreement includes a revised bill.

Throughout the accompanying explanatory statement, the managers refer to the Committee and the Committees on Appropriation. Unless otherwise noted, in both instances the managers are referring to the House Subcommittee on Treasury, Postal Service, and General Government and the Senate Subcommittee on Treasury and General Government.

REPROGRAMMING AND TRANSFER OF FUNDS GUIDELINES

Due to continuing issues associated with agency requests for reprogramming and transfer of funds and use of unobligated balances, the conferees have agreed to revise re-

programming guidelines of the Committees on Appropriations. These guidelines shall be complied with by all agencies funded by the Treasury, Postal Service and General Government Appropriations Act, 1998:

1. Except under extraordinary and emergency situations, the Committees on Appropriations will not consider requests for a reprogramming or a transfer of funds, or use of unobligated balances, which are submitted after the close of the third quarter of the fiscal year, June 30;

2. Clearly stated and detailed documentation presenting justification for the reprogramming, transfer, or use of unobligated balances shall accompany each request;

3. For agencies, departments, or offices receiving appropriations in excess of \$20,000,000, a reprogramming shall be submitted if the amount to be shifted to or from any object class, budget activity, program line item, or program activity involved is in excess of \$500,000 or 10 percent, whichever is greater, of the object class, budget activity, program line item, or program activity;

4. For agencies, departments, or offices receiving appropriations less than \$20,000,000, a reprogramming shall be submitted if the amount to be shifted to or from any object class, budget activity, program line item, or program activity involved is in excess of \$50,000, or 10 percent, whichever is greater, of the object class, budget activity, program line item, or program activity;

5. For any action where the cumulative effect of below threshold reprogramming actions, or past reprogramming and/or transfer actions added to the request, would exceed the dollar threshold mentioned above, a reprogramming shall be submitted;

6. For any action which would result in a major change to the program or item which is different than that presented to and approved by either of the Committees, or the Congress, a reprogramming shall be submitted;

7. For any action where funds earmarked by either of the Committees for a specific activity are proposed to be used for a different activity, a reprogramming shall be submitted; and,

8. For any action where funds earmarked by either of the Committees for a specific activity are in excess to meet the project or activity requirement, and are proposed to be used for a different activity, a reprogramming shall be submitted.

Additionally, each request shall include a declaration that, as of the date of the request, none of the funds included in the request have been obligated, and none will be obligated, until the Committees on Appropriations have approved the request.

TITLE I—DEPARTMENT OF THE TREASURY

DEPARTMENTAL OFFICES SALARIES AND EXPENSES

The conferees agree to provide \$114,771,000, instead of \$113,410,000 as proposed by the House and \$114,794,000 as proposed by the Senate. Within this amount, \$477,000 is for Domestic Finance, \$750,000 is for International Affairs, and \$500,000 is for contract awards to the National Law Center for Inter-American Free Trade for the explicit purpose of supporting Federal government efforts to conduct legal research specific to relevant trade issues. The conferees specifically deny the \$1,000,000 request for the Commodity Market Fees Study, including the study of alternative funding sources and structures for the Commodity Futures Trading Commission.

The conferees agree to include language which sets aside \$200,000 for a comprehensive study of the effect of gambling on bankruptcies as proposed by the House.

The conferees agree to include language which sets a funding "floor" for the Office of Foreign Assets Control as proposed by the Senate, modified to set the floor at \$4,500,000.

The conferees agree to include language making technical corrections to language which appeared under this heading in the fiscal year 1997 Emergency Supplemental Appropriations Act as proposed by the Senate.

The conferees agree to include language allowing the Under Secretary for Enforcement to transfer up to \$1,600,000 of available prior year balances of the Violent Crime Reduction Trust Fund.

UNDER SECRETARY FOR ENFORCEMENT

The conferees direct the Department of the Treasury to submit, with its fiscal year 1999 budget request, detailed budget justification materials for the Office of the Under Secretary for Enforcement.

OFFICE OF PROFESSIONAL RESPONSIBILITY
SALARIES AND EXPENSES

The conferees agree to provide \$1,250,000 as proposed by the Senate instead of \$1,500,000 as proposed by the House. The conferees expect that the Department will use approximately \$350,000 in reprogramming authority, the anticipated share of the unobligated balance of funds at the end of fiscal year 1997, to augment this appropriation. The conferees include House language requiring the Under Secretary for Enforcement to undertake a comprehensive review of integrity issues and other matters related to the potential vulnerability of the U.S. Customs Service.

AUTOMATION ENHANCEMENT

The conferees agree to provide \$25,889,000, instead of \$25,989,000 as proposed by the House and \$29,389,000 as proposed by the Senate. This includes: \$8,789,000 for the Departmental Office's modernization plan; \$6,100,000 for the International Trade Data System; and \$11,000,000 for Customs' Automated Commercial Environment (ACE).

AUTOMATED COMMERCIAL ENVIRONMENT (ACE)

The conferees have followed closely Customs' efforts to meet the conditions for release of the \$3,475,000 that was fenced in fiscal year 1997 pending completion of a systems architecture plan. While the conferees agree that Customs has markedly improved its processes for making systems investments, including the definition of requirements, the plan is still under review at this time.

In addition, the conferees were dismayed with the recent decision made by Customs to continue to fund ACE projects out of the Salaries and Expenses appropriation when it became clear that the fenced funding would not become available by mid-year. Although the funding level itself was below the dollar threshold for a formal reprogramming request, the conferees believe that the re-allocation was not in accordance with Congressional intent. In the future, the conferees direct that funding for ACE be provided exclusively from resources appropriated in this account, absent prior consultation with the Committees on Appropriations.

The conferees strongly support modernization and automation of Customs business functions, and encourage the bureau to continue apace in its planning efforts; however, they remain equally convinced that automation and information technology investments must follow the prudent investment planning processes just now being implemented. The conferees agree to provide \$11,000,000 in fiscal year 1998, but only after the Commissioner submits, and the Committees on Appropriations approve, a systems architecture plan and a milestone schedule for the development and implementation of all projects included in that plan.

INTERNATIONAL TRADE DATA SYSTEM

The conferees agree to provide \$6,100,000 instead of \$5,700,000 as proposed by the House and \$5,600,000 as proposed by the Senate. The conferees direct that \$500,000 of this amount be provided to support the Global TransPark Network Customs Information Project (GTPN/CIP).

OFFICE OF INSPECTOR GENERAL

SALARIES AND EXPENSES

The conferees agree to provide \$29,719,000 as proposed by the Senate instead of \$29,927,000 as proposed by the House.

The conferees agree to include language which transfers \$26,034 to the Departmental Offices appropriation for the reimbursement of Secret Service agents who were the apparent targets of an investigation. The reimbursements are subject to Section 115 of this Act.

TREASURY BUILDING AND ANNEX REPAIR AND RESTORATION

The conferees agree to provide \$10,484,000 as proposed by the Senate instead of \$6,484,000 as proposed by the House.

TREASURY FORFEITURE FUND

The conferees are aware that the "super surplus" for the Treasury Forfeiture Fund in fiscal year 1997 will be significantly larger than in recent years and direct that the Department provide the Committees the plan for its intended use of these resources in a timely fashion. In support of using these resources to strengthen critical law enforcement capabilities, the conferees direct the Department to use \$26,179,000 as follows: \$11,100,000 to the Secret Service for its financial fraud operation (\$3,000,000), activities related to the Federal Law Enforcement Wireless Users Group (FLEWUG) (\$6,100,000), and maintenance requirements of the Rowley Training Center (\$2,000,000); \$4,000,000 to Customs to fund inspector rotation, if necessary and subject to the findings of the review to be undertaken by the Office of Professional Responsibility; \$8,979,000 to the Bureau of Alcohol, Tobacco and Firearms for its firearms trafficking initiative (\$6,000,000), increased arson inspectors (\$2,729,000), and a guide for firearms and ammunition identification (\$250,000); and \$2,100,000 for the Financial Crimes Enforcement Network for international money laundering programs (\$2,000,000), and to assist with travel and per diem costs of the National Conference of Commissioners of Uniform State Laws in connection with the drafting of a model law envisioned by section 407 of the Money Laundering Suppression Act of 1994 (\$100,000).

EXPLOSIVES INSPECTORS

The conferees are strongly supportive of ATF efforts to fully inspect explosives facilities but find the justification for enhanced annual inspections of all facilities nationwide inadequate. The conferees provide \$2,729,000 for this effort in fiscal year 1998, half of the funding requested.

VIOLENT CRIME REDUCTION PROGRAMS

The conferees agree to provide \$131,000,000, instead of \$97,000,000 proposed by the House and \$130,955,000 proposed by the Senate. This amount is to be used as follows:

Bureau of Alcohol, Tobacco and Firearms:

Subtotal, ONDCP	20,200,000
High Intensity Drug Trafficking Areas:	3,000,000

SECRET SERVICE

For the Secret Service, the conferees provide \$15,731,000 instead of \$16,837,000 as proposed by the House and \$21,178,000 as proposed by the Senate. The conferees provide \$15,664,000 for White House Security through the Secret Service's Salaries and Expenses appropriation and \$3,000,000 for Financial Institution Fraud Investigations through the Treasury Forfeiture Fund.

NATIONAL CENTER FOR MISSING AND EXPLOITED CHILDREN

CHILD EXPLOITATION UNIT

In fiscal year 1997, the Committees provided start up costs for the operation of the Exploited Child Unit at the National Center for Missing and Exploited Children as well as sufficient funds for the operation of this unit through fiscal year 1999. The Committees have had the opportunity to review the work of this Unit and are pleased with the progress being made in the integration of investigations being conducted through the National Center for Missing and Exploited Children in recovering missing children. The conferees wish to express continued support for the work of this Center as well as the cooperation being provided by the Secret Service through the use of forensic technologies. The conferees provided an additional \$571,000 for the operation of the Exploited Child Unit of the National Center for Missing and Exploited Children and encourages the Center to provide the Committees with periodic status reports of its investigative efforts.

COUNTERDRUG TECHNOLOGY TRANSFER PILOT PROGRAM

The conferees provide \$13,000,000 to the Counterdrug Technology Assessment Center (CTAC) of the Office of National Drug Control Policy (ONDCP) to establish a program for transferring technology directly to State and local law enforcement agencies. Since its inception, CTAC has worked with many law enforcement agencies and prosecutors to find technological solutions to critical law enforcement problems, and many valuable applications have been developed. The conferees direct that this new funding be used to initiate a pilot program to transfer these technologies directly to State and local law enforcement agencies who may otherwise be unable to profit from the developments due to limited budgets or a lack of technological expertise. The conferees direct CTAC to initiate this program under the direction of the Chief Scientist, ONDCP, with the advice of experts from State and local law enforcement, and in cooperation with High Intensity Drug Trafficking Area (HIDTA) programs to identify the technologies to be transferred and locations to be served. The conferees expect that priority will be given to identifying candidates for transfer in the currently designated HIDTAs, and expect that CTAC and HIDTA will also weigh the ability and willingness of potential recipients to share in the costs of new technology, either through in-kind or direct contributions. The conferees also direct the Chief Scientist to submit a report to the Committees on Appropriations evaluating the performance of the program not later than 18 months from the date of the first transfer, as well as a strategic plan for countrywide deployment of technology. Additionally, the Chief Scientist is directed to consult with the Committees on Appropriations prior to the obligation of these funds to ensure that the money appropriated is going toward providing State and local law enforcement agencies access to counterdrug technology and not unreasonable administrative or otherwise unintended purposes.

FEDERAL LAW ENFORCEMENT TRAINING CENTER

FOREIGN LAW ENFORCEMENT TRAINING

The conferees have modified the Federal Law Enforcement Training Center (FLETC) language to allow the Secretary of the Treasury to waive the reimbursement requirement for training of foreign law enforcement officials for those training activities which take place in foreign countries under the provisions of section 801 of the Antiterrorism and Effective Death Penalty Act of 1996. However, the conferees expect the Secretary to ensure that utilization of such authority will not result in a diminution of the funds and personnel available for training of domestic law enforcement personnel.

FEDERAL LAW ENFORCEMENT TRAINING CENTER ACQUISITION, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

The conferees agree to provide \$32,548,000 as proposed by the House instead of \$13,930,000 as proposed by the Senate.

FINANCIAL MANAGEMENT SERVICE

SALARIES AND EXPENSES

The conferees agree to provide \$202,490,000 as proposed by the Senate instead of \$199,675,000 as proposed by the House.

BUREAU OF ALCOHOL, TOBACCO AND FIREARMS

SALARIES AND EXPENSES

The conferees agree to provide \$478,934,000, instead of \$478,649,000 proposed by the House and \$473,490,000 proposed by the Senate. This amount includes \$4,961,000 for technology

and telecommunications; \$754,000 for laboratory and investigative supplies; \$3,615,000 for computer modernization; \$1,250,000 for the Youth Crime Gun Interdiction Initiative; and \$6,333,000 for Permanent Change of Station moves and Within-Grade-Increases.

The conference agreement does not include a provision to require the ATF to seek prior approval from the House Committee on Government Reform and Oversight and the Senate Committee on Governmental Affairs for separation incentive plans authorized by Public Law 104-208. However, the conferees would like to remind all agencies that they are required to submit to the House and Senate, prior to implementation, their strategic plans outlining the intended use of such incentive payments and a proposed organization chart for the agency once the incentive payments have been completed.

The conferees recommend that the Bureau of Alcohol, Tobacco and Firearms work with the federally licensed firearms dealers to make recommendations for the improvement of the dealers' existing security measures.

UNITED STATES CUSTOMS SERVICE

SALARIES AND EXPENSES

The conferees agree to provide \$1,522,165,000, instead of \$1,526,078,000 proposed by the House and \$1,551,028,000 as proposed by the Senate. This includes funding of \$5,000,000 for Customhouse renovation; \$1,250,000 for one-time funding of the Global Trade and Research Program at the Montana World Trade Center; and \$300,000 to staff a dedicated commuter lane in El Paso, Texas. The conference agreement provides language permitting up to \$5,000,000 to be used for special operations. The conference agreement also provides that the overtime pay cap for Customs inspectors will be raised to \$30,000.

LEASE AND PURCHASE OF CUSTOMS SERVICE

VEHICLES

The conference agreement provides authority to the U.S. Customs Service to purchase and lease vehicles for police-type use. The conferees would like to remind Customs to conduct a cost-benefit analysis of the available acquisition methods, as required by OMB Circular A-109, when they are acquiring vehicles. Based on the results of this analysis, Customs should proceed with leasing vehicles, for police-type modification, only when it is determined that this acquisition method provides the Federal government long term savings.

CUSTOMS CLEARANCE

The conferees are concerned about possible disparities in customs clearance, time in transit, duties, and processing paperwork burdens attributable to shipment of goods. In its role of facilitating the movement of merchandise, cargo, and mail, the Customs Service is directed by the conferees to examine whether disparities exist in services used by small and large businesses and individuals with regard to customs clearance, time in transit, duties, and processing paperwork burdens. The Customs Service is directed to report back to the Committees on Appropriations by February 2, 1998. Further, the conferees are aware of the examination of the General Accounting Office on this issue, and request that the Customs Service cooperate fully with this investigation.

OPA-LOCKA AIRPORT

The conferees are aware that Opa-locka Airport in Dade County, Florida now has customs service from 9 a.m. to 5 p.m. These limited hours require general aviation aircraft arriving from Latin America and the Caribbean after 5 p.m. to land at Miami International Airport (MIA). This diversion further congests MIA, which is already the nation's busiest cargo airport. Accordingly,

the conferees encourage the Customs Service to provide customs service at Opa-locka airport from 9 a.m. to 10 p.m. daily.

TEXTILES

The Customs Service shall report to the Appropriations Committee no later than March 1, 1998 on what actions it is taking to enforce prohibitions of illegal transshipments of fraudulently labeled textiles and apparels within the U.S. textile quota system. The Service will also provide the Committee with an assessment of the severity of the transshipment problem and its impact on U.S. textile and apparel manufacturers.

SOFTWOOD LUMBER AGREEMENT

One of the U.S. Customs Service's most important tasks is fully and effectively enforcing U.S. trade agreements. With this in mind, the conferees have provided an additional \$2,000,000 to the U.S. Customs Service to supply additional resources for monitoring and enforcing the United States/Canada Softwood Lumber Agreement—our largest bilateral sectoral agreement. The Lumber Agreement, established in April 1996, addresses the problem of subsidized Canadian lumber imports which have caused enormous injury to U.S. lumber producers. This additional funding will provide Customs adequate resources to reconcile U.S. import data with Canadian export data on shipments under the Agreement. The resources should ensure that Customs conducts the Northern border inspections and analyzes the trade statistics necessary to ensure full and effective enforcement of the Lumber Agreement.

In that regard, the conferees expect that the U.S. Customs Service will cease enforcement of any interpretative ruling that would have the effect of undermining enforcement of the Lumber Agreement, including any ruling that would have the effect of classifying lumber that would otherwise be classified under the heading of 4407 of the Harmonized Tariff Schedule in a different classification because it has been drilled or otherwise subject to minor processing, until Congress can address this issue.

OPERATIONS, MAINTENANCE AND PROCUREMENT, AIR AND MARINE INTERDICTION PROGRAMS

The conferees agree to provide \$92,758,000 as proposed by the Senate, instead of \$97,258,000 as proposed by the House. The conferees agree to fund Forward-Looking Infra-red systems through the Violent Crime Reduction Trust Fund.

CUSTOMS SERVICES AT SMALL AIRPORTS

The conferees agree to make permanent the provision that Customs services at small airports may be derived from fees collected.

BUREAU OF THE PUBLIC DEBT

ADMINISTERING THE PUBLIC DEBT

The conferees agree to provide \$169,426,000, the amount proposed by both the House and the Senate. The conferees agree to include language providing \$2,500 for official reception and representation expenses as proposed by the Senate.

INTERNAL REVENUE SERVICE

PROCESSING, ASSISTANCE, AND MANAGEMENT

The conferees agree to provide \$2,925,874,000, instead of \$2,915,100,000 as proposed by the House and \$2,943,174,000 as proposed by the Senate.

The \$17,300,000 reduction from the amount proposed by the Senate is from the amount requested for Earned Income Tax Credit (EITC) enforcement. The conferees have agreed to provide a total of \$138,000,000 for EITC enforcement in a separate appropriation account and therefore the \$17,300,000 is no longer required under this appropriation.

BROOKHAVEN SERVICE CENTER

The conferees are concerned that the IRS appears to be unwilling to come to a resolution on its proposed renovation plans for the IRS Center in Brookhaven, New York. Due to this recalcitrant attitude on the part of IRS, the renovation project is at least three years behind schedule.

Despite past assurances from both the IRS and the General Services Administration (GSA) that this renovation project would move forward expeditiously, this has not happened. The conferees direct the IRS to submit a report by January 15, 1998, to the Appropriations Committees that details its planned construction schedule to renovate the IRS Center in Brookhaven.

FIELD OFFICE REORGANIZATION

The Treasury, Postal Service and General Government Appropriations Act, 1997, (P.L. 104-208) included a provision (Section 105) which required the IRS to provide a report to the Committees on Appropriations on the impact of the planned field reorganization before it could implement the reorganization. The Committees found the report lacking, particularly with regard to the cost/benefit analysis of how adequate taxpayer service will be provided in the future. The conferees, therefore, direct the IRS to continue to delay its planned field reduction-in-force until it submits another report to the Committees on Appropriations, no earlier than January 30, 1998, with a detailed plan on how the IRS will ensure adequate taxpayer service in the future. In addition, based on concerns expressed by Members of Congress, the conferees direct the IRS to include in the report a detailed analysis of the impact of the field reorganization on the adequacy of taxpayer services in rural areas of the country.

PRIVACY ISSUES

The conferees have not included a provision as proposed by the House which would have prohibited the IRS from including Social Security numbers on mailing labels or other visible mailings because of the concern over the cost which the IRS would incur to implement this provision. However, the conferees remain concerned that including Social Security numbers on mailing labels or other visible mailings violates certain taxpayer privacy protections. The IRS should report to the Committees on Appropriations on how it plans to protect taxpayer privacy in its mailings.

ELECTRONIC FILING INITIATIVE

The conferees have included a provision as recommended by the House, with modifications, which establishes an Electronic Filing Initiative.

The provision directs that this initiative be established as a pilot project in fiscal year 1998. The initiative directs the IRS to pay up to \$3.00 for each return filed electronically when the Commissioner of the IRS has determined that it is in the best interest of the government to make such a payment. The conferees stress the "up to" \$3.00 sets the cap on the payment, but does not set a floor on the payment. The amount of the payment would be at the discretion of the Commissioner.

Additionally, it is not the intent of the conferees that the IRS should pay for electronically-filed tax returns which it would otherwise have received without making any payment. Therefore, the IRS shall only pay for the volume of electronically-filed tax returns that are in excess of the number which were received in 1996.

The conferees agree that only if the Commissioner determines that it is in the best interest of the government, shall any payment be made for the increased volume of electronically-filed tax returns. The con-

ferees recognize that the IRS is in the process of developing a contract with private sector companies which provide electronic filing services which may offer non-payment incentives to increase electronic filing. The inclusion of this provision should not be construed as an effort to hinder or alter the IRS effort. The conferees simply want to ensure that the IRS will carry through on its long-delayed plan to increase electronically-filed returns. The plan should include the most appropriate mix of incentives, which may or may not include monetary offers, as determined by the Commissioner.

TAX LAW ENFORCEMENT

The conferees agree to provide \$3,142,822,000, instead of \$3,108,300,000 as proposed by the House and \$3,153,722,000 as proposed by the Senate.

The \$10,900,000 reduction from the amount proposed by the Senate is from the amount requested for Earned Income Tax Credit (EITC) enforcement. The conferees have agreed to provide a total of \$138,000,000 for EITC enforcement in a separate appropriation account and therefore the \$10,900,000 is no longer required under this appropriation.

RESCISSION OF FUNDS

The conferees agree to rescind \$32,000,000 in previously appropriated funds as proposed by the Senate instead of a rescission of \$14,500,000 in previously appropriated funds as proposed by the House.

INTERNAL AUDIT REPORTS

The conferees request that the Internal Revenue Service forward to the Committees on Appropriations copies of internal audit reports.

TIP REPORTING ALTERNATIVE COMMITMENT PROGRAM

The conferees agree with the House position that the IRS should work with taxpayers to ensure compliance with the Tip Reporting Alternative Commitment Agreement (TRAC). In too many instances, restaurant owners perceive that the IRS may be overzealous in their pursuit of voluntary agreement with TRAC by intimating that the business will be audited if there is no agreement. The conferees agree that IRS should ensure compliance with tip reporting by stressing its customer service role while working with restaurant owners.

REGULATIONS REGARDING CONDUCT OF NON-PROFIT VENTURES

The report which accompanied the Treasury, Postal Service and General Government Appropriations, 1997 (P.L. 104-208), incorporated by reference language contained in the Senate's report 104-330 concerning tax-exempt organizations and the tour industry. This is a continuing issue in fiscal year 1998 because of increased growth in the number of tax exempt organizations that choose to engage in commercial activities. The ambiguities in the definition of what is and is not taxable, contribute to the ongoing controversy.

The 1997 report directed the Internal Revenue Service to review this situation and take steps, if necessary, to develop regulations clarifying the "substantially related" test as it applies to tax exempt travel and tour activities. The IRS has not yet developed regulations to clarify this issue. The conferees believe that this issue must be resolved soon and directs the IRS to work with the appropriate Congressional committees to develop the necessary regulations before April 15, 1998.

EARNED INCOME TAX CREDIT COMPLIANCE INITIATIVE

The conferees agree to provide \$138,000,000 in a new appropriation account for the Earned Income Tax Credit (EITC) compli-

ance initiative which was established by section 5702 of the Balanced Budget Act of 1997 (Public Law 105-33). This is \$30,895,000 more than the \$107,105,000 requested by the President in a September 17, 1997 budget amendment.

The conferees direct that IRS use these funds only for the EITC compliance initiative. Furthermore, the IRS should establish a method to track the expenditure of funds and measure the impact on compliance. The IRS shall submit quarterly reports to the Committees on Appropriations which identify the expenditures and the change in the rates of compliance.

INFORMATION SYSTEMS

The conferees agree to provide \$1,272,487,000, as proposed by the Senate, instead of \$1,292,500,000 as proposed by the House.

Within this amount, the conferees agree to provide funds as follows:

Operational Systems	\$936,614,000
Century Date Change	289,700,000
Quality Assurance	7,112,000
Modernization Management	8,227,000
Modernization Support	23,834,000
Retraining/Relocation of employees	7,000,000
Total	1,272,487,000

Through the re-application of 1997 and 1996 funds, an additional \$87,000,000 is made available for Century Date Change requirements as discussed below.

The conferees note that the amount provided for Operational Systems is the amount requested in the fiscal year 1998 budget request. Should the IRS require the expenditure of funds in a manner different from that listed above, a reprogramming action is required.

CENTURY DATE CHANGE REQUIREMENTS

The conferees agree to provide a total of \$376,700,000 for Century Date Change requirements. The conferees understand that, as of September 12, 1997, this is the amount requested for this program. Of this amount, \$289,700,000 is provided as an appropriation in the Information Systems account. The conferees also direct that \$77,000,000 be reprogrammed from fiscal year 1997 funds available from the Tax Systems Modernization (TSM) development and deployment program and \$10,000,000 shall be reprogrammed from the 1996 TSM program. The conferees direct the IRS to expeditiously submit the necessary reprogramming actions to the Committees on Appropriations.

To the extent that the Century Date Change requirements exceed the amount provided, the Committees on Appropriations would be willing to consider a reprogramming request which would increase the amount available for the Century Date Change program.

The Committees on Appropriations were provided with an abundance of conflicting data from the IRS concerning what constitutes projects and activities required for addressing the Year 2000 systems changes. The conferees are concerned that the Century Date Change requirements are not yet finalized and projects and activities considered as part of the program may frequently change. Additionally, the conferees are concerned that the IRS has no overall integrated plan for the assessment of the problem, applying solutions to the problem, and then adequately testing the solutions before deployment of the applications to field operations.

Therefore, the conferees direct the IRS to develop a Century Date Change strategy which adequately addresses infrastructure,

assessment (inventory/analysis), application renovation (upgrade deployment), and validation requirements. The conferees direct the IRS to provide quarterly reports tracking its progress in meeting this strategy. The report should include expenditure of funds, application of FTEs, and an estimate in percentage terms, stating how much has been accomplished and how much remains to be completed in accordance with the strategy.

Of the \$376,700,000 provided for Century Date Change, \$170,000,000 is available as follows:

Conversion & Testing	\$79,000,000
Telecommunications	23,000,000
ADP Equipment	13,000,000
Operating systems software	17,000,000
Project Office/Program Management	9,000,000
Certification	7,000,000
Contingency	42,000,000
Offset within IRS budget	-20,000,000
Total	170,000,000

The conferees direct that the IRS provide the Committees on Appropriations notification prior to the expenditure of any funds identified above as a "Contingency." The notification shall include a justification of the expenditure and a certification that the expenditure is in compliance with the IRS strategy for Century Date Change.

DATA CENTER CONSOLIDATION

The conferees agree to provide a total of \$164,700,000 for the consolidation of IRS' data centers. Of this amount, \$157,700,000 is for costs associated with the acquisition and installation of equipment and software and \$7,000,000 is for costs associated with any possible retraining or relocation of employees affected by the consolidation. To the extent that IRS does not require all of the \$7,000,000 designated for retraining and relocation of employees, it may submit a reprogramming request to add these funds to the \$157,000,000 provided for acquisition and installation of equipment and software necessary for Data Center Consolidation.

GOVERNMENT PROGRAM MANAGEMENT OFFICE (GPMO)

The conferees agree to provide \$8,227,000 for Modernization Management. The conferees direct that, within these funds, the GPMO be staffed at no more than 75 full-time equivalents. The GPMO's responsibilities are to administer and manage the modernization program. The conferees expect that, in fiscal year 1998, the modernization program will focus on completing necessary details of the modernization blueprint, not the acquisition of new systems. The GPMO should monitor this process to ensure that the development of these details reflect the requirements of the IRS.

REPORTING REQUIREMENTS

The conferees agree with the quarterly reporting requirements contained in the House report (Report 105-240). However, the conferees agree that the quarterly reports should be submitted no later than 30 days after the close of each quarter, rather than 15 days, as recommended by the House.

INFORMATION TECHNOLOGY INVESTMENTS

The conferees agree to provide \$325,000,000 as proposed by the Senate instead of \$326,000,000 as proposed by the House. The conferees further agree that the funds are provided for modernization as described in the Modernization Blueprint which was submitted to Congress on May 15, 1997.

The conferees have agreed to prohibit the obligation of funds from the Information Systems (IS) appropriation, as well as pre-

vious IS appropriations, for awarding or otherwise initiating the Prime contract through which systems related to modernization would be acquired. The conferees have also agreed to prohibit the obligation of funds from the Technology Investments account until September 1, 1998, and until certain conditions are met. The conferees remind the IRS that the obligation of these funds is prohibited until the IRS is in compliance with all the requirements of the legislation.

The General Accounting Office (GAO) has reviewed the Modernization Blueprint and has informed the Committees on Appropriations that IRS has made a good start in developing its Modernization Blueprint, but must complete and implement this Blueprint before building or acquiring new systems. The conferees agree with the GAO in this regard. The Committees on Appropriations are very pleased that IRS has made significant progress in putting together a workable modernization program. However, many details of the Blueprint need to be completed before the IRS commits to acquire new systems. Funds provided for Modernization Support should be used to continue efforts to complete the necessary details.

The conferees direct the IRS to submit a status report, no later than April 30, 1998, which addresses ongoing efforts to implement the May 15, 1997 Modernization Blueprint. The report should, at a minimum, provide (1) detailed descriptions of how the IRS has implemented the processes and procedures for investment review and systems life cycle and (2) the status of efforts on the development of business cases and requirements.

ADMINISTRATIVE PROVISIONS INTERNAL REVENUE SERVICE

Section 101-105. The conferees agree to include these provisions which were proposed by both the House and the Senate.

Section 106. The conferees agree to include a provision as proposed by the Senate which directs that funds shall be available for improved facilities and increased manpower to provide sufficient and effective 1-800 telephone assistance.

Section 107. The conferees agree to include a provision as proposed by the Senate which directs that no field reorganization shall be undertaken at Aberdeen, South Dakota, until certain conditions are met.

Section 108. The conferees agree to include a modified provision proposed by the Senate, which directs that no field reorganization of the Criminal Investigation Division will result in a reduction, as compared to the 1996 levels, of criminal investigators in Wisconsin. The provision has been modified to include the South Dakota Criminal Investigation Division.

UNITED STATES SECRET SERVICE SALARIES AND EXPENSES

The conferees agree to provide \$564,348,000 instead of \$555,736,000 as proposed by the House and \$570,809,000 as proposed by the Senate. The conferees provide \$20,936,000 for additional White House Security requirements, instead of \$4,000,000 as proposed by the House and \$6,568,000 as proposed by the Senate; this includes \$15,864,000 for White House Security previously funded through the Violent Crime Reduction Trust Fund. The conferees include \$6,100,000 for the Federal Law Enforcement Wireless Users Group in the Treasury Forfeiture Fund.

WHITE HOUSE SECURITY REQUIREMENTS

The conferees have provided a total of \$20,936,000 for various White House Security requirements in fiscal year 1998. This is \$7,864,000 below the amount requested by the Administration and reflects a reduction of \$4,001,000 associated with 277 positions that

remain unfilled and \$3,863,000 for additional technical and clerical positions within the White House. The conferees fully support all ongoing and planned White House Security enhancements and note that, since the completion of the "White House Security Review", a total of \$51,406,000 of the total anticipated requirement of approximately \$62,000,000 has been funded. The conferees are committed to fully funding the recommendations of the "White House Security Review" and anticipate that full funding will be provided in fiscal year 1999.

ACQUISITION, CONSTRUCTION, IMPROVEMENT, AND RELATED EXPENSES

The conferees agree to provide \$8,799,000 instead of \$5,775,000 as proposed by the House and \$9,176,000 as proposed by the Senate. This includes \$7,176,000 for activities related to the new Headquarters as well as \$1,623,000 for fixed site security requirements previously funded through Salaries and Expenses. The conferees provide \$2,000,000 for maintenance related activities of the Rowley Training Center through the Treasury Forfeiture Fund.

GENERAL PROVISIONS—DEPARTMENT OF THE TREASURY

Section 110-114. The conferees agree to include these provisions which were proposed by both the House and Senate with minor technical corrections.

The conferees have not included a provision related to the currency paper contract, as proposed by the House.

Section 115. The conferees agree to include a provision as proposed by both the House and Senate which authorizes the reimbursement of Secret Service personnel under certain conditions. However, the conferees agree to the total amount of \$26,034, as proposed by the House.

Section 116. The conferees agree to include a provision as proposed by both the House and Senate which prospectively adjusts the compensation of the Secretary of the Treasury, beginning with the subsequent Secretary.

Section 117. The conferees agree to include a provision as proposed by the House which limits the amount of time the Department may have to respond to requests for information. The conferees stress that the problems alleviated by this provision are problems which were experienced by the House Appropriations Committee, not the Senate Appropriations Committee.

Section 118-119. The conferees agree to include these provisions which were proposed by both the House and Senate with minor technical corrections.

Section 120. The conferees agree to include a provision, with modifications, as proposed by the House which directs the IRS to initiate an electronic filing pilot project. The provision has been modified to expand the group of participants and provide more discretion to the IRS Commissioner. This provision is addressed more fully in the IRS section of this Statement.

Section 121. The conferees agree to include a provision, with modifications, as proposed by the House which addresses compensation rates of police officers at the BEP and U.S. Mint. The modifications agreed to by the conferees clarify that setting the rates of pay shall be at the sole discretion of the Secretary of the Treasury or his designee.

Section 122. The conferees agree to include a provision, with modifications, as proposed by the House which adjusts the transfer of funds from the Treasury Forfeiture Fund to the Special Forfeiture Fund, and provides that unobligated balances of the Super Surplus may be carried forward into the next fiscal year. The modifications agreed to by the conferees provide that \$38,500,000 of the

Super Surplus would not be available for obligation until fiscal year 1999.

Section 123. The conferees agree to include a provision as proposed by the Senate which waives certain requirements of the U.S. Customs Service.

Section 124. The conferees agree to include a provision as proposed by the Senate which prohibits funds for the Inspector General of the Treasury Department to contract for advisory and assistance services.

TITLE II—POSTAL SERVICE

PAYMENT TO THE POSTAL SERVICE FUND FOR NONFUNDED LIABILITIES

The conferees provide no appropriation for Nonfunded Liabilities instead of \$34,850,000 as proposed by both the House and Senate. The Balanced Budget Act of 1997, P.L. 105-33, contains a provision repealing the authorization for payments to the Postal Service as reimbursement for costs associated with former Post Office Department employees under the Employees' Compensation Fund. As a result, no funding has been provided for Payment to the Postal Service Fund for Nonfunded Liabilities.

NON-POSTAL COMMERCIAL ACTIVITIES

The conferees have recently been made aware of concerns within the small business community relating to certain "non-postal" commercial activities. The non-postal commercial activities recently initiated by the Postal Service include the sale of T-shirts, neckties, greeting cards, stationary, and other gift items.

The conferees continue to have an interest in non-postal commercial activities and therefore direct the Postal Service to report, as part of its fiscal year 1999 budget submission, on the non-postal activities offered by the Postal Service including a description of each service, the potential benefits to postal customers, an assessment of how these non-postal services contribute to providing uniform postal services at uniform rates, an estimate of net revenue generated, and, if applicable, an assessment of the potential impact of non-postal operations on the small business community.

The conferees also note that the House Government Reform and Oversight Committee is considering postal reform legislation and among the issues which it may consider is the issue of competition by the Postal Service in these areas. The requested report should be made available to that Committee for consideration during action in this area as part of its postal reform legislation or as separate legislation.

GLOBAL PACKAGE LINK

The conferees include no provisions related to Global Package Link as proposed by the House in House Report 105-240.

TITLE III—EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

WHITE HOUSE OFFICE

WHITE HOUSE COMMUNICATIONS AGENCY

The conferees direct the White House Office to establish a system for tracking and verifying all reimbursements made to the White House Communications Agency (WHCA) and to report to the Committees on Appropriations on this system no later than November 1, 1997. In addition, the conferees direct the White House Office, as part of its annual budget submission, to provide a detailed accounting of reimbursements made to WHCA in the current fiscal year and an estimate of reimbursements for the upcoming year. This submission should include a description of the types of services reimbursed.

EXECUTIVE RESIDENCE AT THE WHITE HOUSE REIMBURSABLE EXPENSES

The conferees establish a separate account for the Reimbursable Expenses of the Executive Residence, as proposed by the House.

OFFICE OF POLICY DEVELOPMENT

SALARIES AND EXPENSES

The conferees eliminate all restrictions on the use of funds for computer modernization within the Office of Policy Development as proposed by the Senate.

OFFICE OF ADMINISTRATION

CAPITAL INVESTMENT PLAN

The conferees have recently received information from the Office of Administration (OA) regarding the Executive Office of the President's (EOP) five-year automation plan. Based on this information, and as requested by the Administration, the conferees have agreed to eliminate all restrictions on the use of funds for information technology within the Executive Office of the President. The conferees understand that the OA has established a formal Information Technology Management Team (ITMT) as of September 25, 1997. The conferees further understand that the ITMT will be responsible for assessing, approving, modifying and implementing a systems architecture plan for EOP information technology modernization. The conferees direct the OA to submit the architectural plan, as approved by the ITMT, to the Committees on Appropriations as expeditiously as possible. As part of the fiscal year 1999 budget submission, the OA should include a milestone schedule for the development and implementation of all projects included in the systems architecture plan and an estimate of the funds and projects required to support the fiscal year 1999 capital investments associated with that plan.

OFFICE OF MANAGEMENT AND BUDGET

SALARIES AND EXPENSES

The conferees agree to provide \$57,440,000 for the Office of Management and Budget (OMB) instead of \$57,240,000 as proposed by the House and the Senate.

CONGRESSIONAL REVIEW ACT

The conferees are aware of concerns that the Office of Information and Regulatory Affairs (OIRA) may not be implementing and coordinating certain provisions of the Congressional Review Act (CRA) as efficiently and effectively as possible. The conferees urge the Director of OMB to ensure the maximum coordination and implementation of the CRA through the OIRA.

AGRICULTURAL MARKETING ORDERS

As proposed by the House, the conferees have included a provision prohibiting the use of funds for reviewing agricultural marketing orders. The conferees agree that this provision shall not negate the study of the Northeast Interstate Dairy Compact as required by Section 732 of the conference report accompanying H.R. 2160. The conferees also agree that OMB shall not conduct any study or review that hinders the Department of Agriculture from implementing the consolidations and reforms of federal milk marketing orders as required by the provisions of Section 143 of the Federal Agricultural Improvement and Reform Act of 1996 (7 U.S.C., et seq.).

DEBT COLLECTION ACTIVITIES

The Debt Collection Improvement Act (DCIA) of 1996 (31 U.S.C. 3716, 31 U.S.C. 3720A, 26 U.S.C. 602, and 5 U.S.C. 5514) requires agencies to refer delinquent debt to the Department of the Treasury so that Treasury can offset delinquent debt owed the respective agency against payments made by Treasury disbursement officials. Pursuant to the

DCIA, agencies are required to transfer to Treasury for collection, debts that are insufficiently serviced and 180 days delinquent, unless prescribed actions by a particular agency have commenced.

Enactment of this legislation is intended to streamline and enhance the capabilities of the Federal government in collection of outstanding debts. The conferees are concerned that agencies have not taken the appropriate steps required by law and are failing to provide Treasury with the information within the time frame outlined in the statute.

The conferees, therefore, direct the Director of OMB to ensure that agencies are complying with the law and providing information to Treasury as required.

UNIQUE IDENTIFICATION NUMBER

The Director of the Office of Management and Budget shall prepare and submit to the Committees on Appropriations and to the Government Reform and Oversight Committee of the House and the Committee on Governmental Affairs of the Senate, by not later than March 15, 1998, a report on the costs, benefits and logistics of implementing a proposal to require that each organization that receives a grant from the Federal government should be issued a unique identification number.

OFFICE OF NATIONAL DRUG CONTROL POLICY

SALARIES AND EXPENSES

The conferees agree to provide \$35,016,000 instead of \$43,516,000 as proposed by the House and \$36,016,000 as proposed by the Senate. Of this amount, the conferees have included \$16,000,000 for the basic program of the Counterdrug Technology Assessment Center, and \$1,000,000 for policy research and evaluation.

The conference agreement separately funds \$13,000,000 for a new technology transfer program by the Counterdrug Technology Assessment Center, as well as \$1,200,000 for model state drug law conferences, through the Violent Crime Reduction Trust Fund.

FEDERAL DRUG CONTROL PROGRAMS

HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM

The conferees agree to provide \$159,007,000 instead of \$146,207,000 as proposed by the House and \$140,207,000 as proposed by the Senate. This amount would fully fund the Administration's request. The conferees provide \$10,000,000 for the creation of three new HIDTAs: \$6,000,000 for Kentucky, West Virginia, and Tennessee; \$1,000,000 for central Florida; and \$3,000,000 for Milwaukee, Wisconsin, should the Director of the ONDCP determine the location meets the designated criteria. In addition, funding is included for methamphetamine programs, including \$1,500,000 to the Rocky Mountain HIDTA and \$7,300,000 to build upon national methamphetamine reduction programs funded in fiscal year 1997 through the Special Forfeiture Fund. Finally, the conferees agree to provide an additional \$3,000,000 for the Rocky Mountain HIDTA through the Violent Crime Reduction Trust Fund. The conferees encourage the Director of the ONDCP to consider providing assistance under this program to the Suffolk County, New York, Police Department's Computer Crime Analysis Unit.

SPECIAL FORFEITURE FUND

The conferees agree to provide \$211,000,000 instead of \$205,000,000 as proposed by the House and \$145,300,000 as proposed by the Senate. This includes \$195,000,000 to support a national media campaign, \$10,000,000 to support matching grants to drug-free communities as authorized in the Drug-Free

Communities Act of 1997, and \$6,000,000 to continue the program funded in fiscal year 1997 to reduce drug use in the criminal justice system.

YOUTH MEDIA CAMPAIGN

The conference agreement includes \$195,000,000 to support a national media campaign for the first year of a possible five-year media campaign proposed by the Director of the ONDCP to target young people. No funds would be available for obligation until the ONDCP Director submits a strategy for approval that contains:

(1) guidelines to ensure and certify that funds will neither supplement nor supplant current anti-drug community based coalitions or pro bono public service time donated by national and local broadcasting networks;

(2) guidelines to ensure and certify that no funds will be used for partisan political purposes, or to fund media campaigns that feature elected officials, persons seeking elected office, cabinet-level officials, or certain other Federal officials;

(3) a detailed implementation plan for securing private sector contributions including but not limited to in-kind contributions;

(4) a detailed implementation plan of the qualifications necessary for any organization, entity, or individual to receive funding for or otherwise be provided broadcast media time; and

(5) a system to measure outcomes of success of the national media campaign.

The conference agreement requires the ONDCP Director to report to Congress quarterly on obligation of funds and on the parameters of the campaign, as well as to report to Congress within two years on the effectiveness of the campaign based upon the measurable outcomes previously provided to Congress.

The conferees direct ONDCP to assess all media vehicles available for this campaign including, but not limited to, broadcast and print media, and the Internet. Further, the conferees direct ONDCP to consult with media and drug experts, such as the Ad Council and the Partnership for a Drug-Free America, in an effort to draw from the experience and expertise of individuals and organizations that have experience in this field, including health and education professionals. The conferees are convinced that close consultation with the private sector on the development and implementation of this campaign is critical to its success.

The conferees believe this media campaign, if properly executed, has the potential to produce concrete results by the year 2001. The conferees will closely track this campaign and its contribution to achieving a drug-free America. The conferees anticipate that future funding will be based on results.

TITLE IV—INDEPENDENT AGENCIES

FEDERAL ELECTION COMMISSION

SALARIES AND EXPENSES

The conferees provide \$31,650,000 instead of \$34,550,000 as proposed by the House and \$29,000,000 as proposed by the Senate. Of this amount \$3,800,000 is fenced for internal automated data processing; this includes \$2,500,000 for ongoing computer modernization initiatives and \$1,300,000, as requested by the FEC, for computerized imaging and indexing of documents related to the 1996 election cycle. The conferees also provide \$750,000 for an independent audit of the FEC and \$300,000 for a system to disclose and maintain all FEC filings on the Internet. The conferees agree that the FEC should maintain an FTE level of no greater than 313.5 during fiscal year 1998.

PERFORMANCE AND TECHNOLOGICAL AUDIT

The conferees agree that \$750,000 of FEC's funds will be made available, by transfer, to

the General Accounting Office (GAO). GAO is directed to use these funds to enter into a contract with an independent entity for the purpose of conducting a technological and performance audit and management review of FEC operations. GAO shall develop a scope of work that addresses the management and technology concerns raised by the conferees and identified in House Report 105-240, shall perform the administrative duties necessary to award and monitor the contract, shall ensure that the selected contractor has the necessary background and technical skills to successfully conduct the study, and shall ensure that the contractor deliverables are responsive to the scope of the contract. The conferees direct GAO to consult with the Committees on Appropriations and the House Oversight Committee on the parameters of this audit and wish to make it clear that the audit outline, scope, content and resultant reports are the purview of these Committees, not of the GAO.

FEDERAL LABOR RELATIONS AUTHORITY

SALARIES AND EXPENSES

The conferees provide \$22,039,000 as proposed by the Senate instead of \$21,803,000 as proposed by the House.

GENERAL SERVICES ADMINISTRATION

FEDERAL BUILDINGS FUND

LIMITATIONS ON AVAILABILITY OF REVENUE

The conferees agree to provide \$4,835,934,000 in new obligational authority for the General Services Administration's (GSA), Federal Buildings Fund (FBF) as proposed by the House, instead of \$4,885,934,000 as proposed by the Senate.

The conferees agree with the House position on providing no additional obligational authority for chlorofluorocarbons program in 1998. This reduction is taken without prejudice. The conferees agree that this will place an additional burden on GSA's attempts to meet its requirements under the Clean Air Act. However, limited funding options did not provide sufficient latitude for the conferees to meet this requirement.

The conferees agree with the Senate position on providing separate limitations on the Rental of Space and the Building Operations programs, instead of the House position which combined these two programs into one limitation amount.

The conferees agree with the House position which set a \$680,543,000 limitation on expenditures "previously requested and approved under this heading in prior fiscal years." By accepting the House language, the conferees wish to stress that the General Services Administration, not just Congress, contributed to the creation of a shortfall in the Federal Buildings Fund by requesting the authority to use the Fund for the construction, acquisition, and repair of Federal buildings when the balances in the Fund were not sufficient to support the request.

POLICY AND OPERATIONS

The conferees agree to provide \$107,487,000 as proposed by the House instead of \$104,487,000 as proposed by the Senate.

The conferees direct that \$2,000,000 be provided in accordance with the direction included in the House report and that \$1,000,000 be used to initiate a digital medical education project.

GOVERNOR'S ISLAND

The conferees direct that, in fiscal year 1999, GSA appropriately budget for the protection and maintenance of Governor's Island, New York. This U.S. Coast Guard property is designated for disposal by GSA in the future and such funds as may be necessary should be requested so that there is no undue deterioration of the property prior to its sale.

FEDERAL OFFICE BUILDING IN COLORADO SPRINGS

The Federal building located at 1520 Wilamette Avenue in Colorado Springs, Colorado, is owned by GSA and is currently leased to the U.S. Air Force Space Command. In the event that the Space Command does not renew or extend its lease, and the facility becomes vacant and is deemed surplus, the conferees urge GSA to strongly consider the United States Olympic Committee's need for additional space and to give priority to the USOC's request to gain title or otherwise acquire this property.

SURPLUS EQUIPMENT TO SCHOOLS AND EDUCATIONAL INSTITUTIONS

The conferees urge the GSA, in line with its responsibilities for the disposal of excess and surplus Federal personal property, to promote and foster the transfer of excess and surplus computer equipment directly to schools and appropriate nonprofit, community-based educational organizations. The GSA should communicate with other Federal agencies to heighten their ongoing awareness of the existing opportunities at both the national and local levels to meet the needs of the schools for such equipment and work with agencies to ensure that the equipment is conveyed to the school or organization quickly and at the least cost to the institution. The conferees further direct GSA to work with the regional Federal executive boards providing guidance and assistance to help establish regional clearinghouses of information on the availability of excess computer surplus equipment in each region. This information should be made readily available to schools.

GENERAL PROVISIONS—GENERAL SERVICES ADMINISTRATION

H.R. 2378, as reported to the House of Representatives, included a provision identical to that included as Section 410 in the Senate version of the bill. The provision was eliminated from the House bill due to technical issues associated with the Rules of the House. The modifications agreed to by the conferees reinstate the authority of qualified nonprofit agencies for the blind and severely handicapped that are providing a commodity or service to the Federal government under a contract awarded under the Javits-Wagner O'Day Act. This authority was inadvertently deleted in the language which was adopted by the Senate. The provision included by the conferees only deletes that part of Section 201(b) known as the Cooperative Purchasing Act.
