The House met at 12 noon and was called to order by the Speaker pro tempore [Mr. Pease].

DESIGNATION OF THE SPEAKER PRO TEMPORE
The SPEAKER pro tempore laid before the House the following communication from the Speaker:
WASHINGTON, DC, November 8, 1997.
I hereby designate the Honorable Edward A. Pease to act as Speaker pro tempore on this day.
Newt Gingrich,
Speaker of the House of Representatives.

PRAYER
The Chaplain, Rev. James David Ford, D.D., offered the following prayer:
From the scriptures we read what is required of us, and that is, to do what is just, to love mercy, and to live in humble fellowship with You, our God and our creator. So let us by Your grace, O God, keep this requirement at the center of our thoughts and at the heart of our prayers so that we will be the people You would have us be. We know that as we attempt to walk the road of justice while hearing the various claims for truth, we are supported by Your promises which we read in the book of Psalms: “Be of good courage and he shall strengthen your heart, all you that trust in God.” Bless us this day and every day we pray, amen.

THE JOURNAL
The SPEAKER pro tempore. The Chair has examined the Journal of the last day’s proceedings and announces to the House his approval thereof.
Pursuant to clause 1, rule I, the Journal stands approved.
Mr. Brown of Ohio. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Speaker’s approval of the Journal.
The SPEAKER pro tempore. The question is on the Chair’s approval of the Journal.
The question was taken; and the Speaker announced that the ayes appeared to have it.
Mr. Brown of Ohio. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.
The SPEAKER pro tempore. Evidently a quorum is not present.
The Sergeant at Arms will notify absent Members.

NOTICE
Under the Rules for Publication of the Congressional Record, a final issue of the Congressional Record for the first session of the 105th Congress will be published on (the 31st day after adjournment), in order to permit Members to revise and extend their remarks.
All material for insertion must be signed by the Member and delivered to the respective offices of the Official Reporters of Debates (Room HT–60 or ST–41 of the Capitol), no later than 10 days following adjournment. Office hours of the Official Reporters of Debates are 10:00 a.m. to 3:00 p.m. Monday through Friday through (the 10th day after adjournment).
The final issue will be dated (the 31st day after adjournment) and will be delivered on (the 33d day after adjournment).
None of the material printed in the final issue of the Congressional Record may contain subject matter, or relate to any event, that occurred after the adjournment date.
Members’ statements also should be submitted electronically, either on a disk to accompany the signed statement, or by e-mail to the Official Reporters of Debates (insert e-mail address for each office).
Members of Congress desiring to purchase reprints of material submitted for inclusion in the Congressional Record may do so by contacting the Congressional Printing Management Division, at the Government Printing Office, on 512–0224, between the hours of 8:00 a.m. and 4:00 p.m. daily.
By order of the Joint Committee on Printing.
JOHN WARNER, Chairman.
The vote was taken by electronic device, and there were—yeas 345, nays 56, not voting 32, as follows:

[Roll No. 66]

Mr. HILLIARD changed his vote from "yea" to "nay."  
Mr. SOUDER changed his vote from "nay" to "yea."  
So the previous roll call was ordered. The result of the vote was announced as above recorded.

**PLEDGE OF ALLEGIANCE**

The SPEAKER pro tempore [Mr. PEASE]. Will the gentleman from New York [Mr. SOLOMON] come forward and lead the House in the Pledge of Allegiance.

Mr. SOLOMON led the Pledge of Allegiance.

**MESSAGE FROM THE SENATE**

A message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate had passed bills without amendment a bill of the House of the following title:

H.R. 1747. An act to amend the John F. Kennedy Center Act to authorize the design and construction of additions to the parking garage and certain site improvements, and for other purposes.

The message also announced that the Senate had passed an amendment in which the concurrence of the House is requested, a bill of the House of the following title:

The message also announced that the Senate had passed bills and a concurrent resolution of the following titles, in which the concurrence of the House is requested:

S. 170. An act to provide for a process to authorize the use of clone pagers, and for other purposes;  
S. 1079. An act to permit the mineral leasing of Indian land located within the Fort Berthold Indian Reservation in any case in which there is consent from a majority interest in the parcel of land under consideration for lease;  
S. 1417. An act to provide for the design, construction, furnishing and equipping of a Center for Performing Arts within the complex known as the New Mexico Hispanic Cultural Center and for other purposes;  
S. 1455. An act to provide financial assistance for the relocation and expansion of the Haffenreffer Museum of Anthropology, Providence, Rhode Island;  
S. Con. Res. 48. Concurrent resolution expressing the sense of the Congress regarding proliferation of missile technology from Russia to Iran.

The message also announced that pursuant to Public Law 105-56, the Chair, on behalf of the majority leader, announces the appointment of the following individuals as members of the Panel to Review Long-Range Air Power; Samuel D. Adcock, of Virginia, and Merrill A. McPeak, of Oregon.

**ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE**

The SPEAKER pro tempore. The Chair will now recognize ten 1-minutes on each side of the House.

**ALLEGED WRONGDOINGS OF SECRETARY BABBITT**

(Mr. GIBBONS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GIBBONS. Mr. Speaker, Americans deserve the truth and they deserve an answer. Did the Secretary of the Interior Bruce Babbitt wield political power in exchange for the promise of a campaign contribution? Did the order to do so come from the White House? These are very serious questions that the American people deserve to have answered.

Well, let us ask Secretary Babbitt. First he said, "No." Then he says, "Yes, I did it, but I was only doing as I was told." Now the answer approved by the White House is, "I don't know." Well, how many scandals and how
many allegations of criminal wrongdoing will the executive branch of this Government respond to with, "I don't know?" Well, maybe this Congress should instruct the Centers for Disease Control to investigate the rampant selective loss of memory in this administration.

However, Mr. Speaker, I am here to say enough is enough. American people deserve the truth. I urge Attorney General Reno to appoint an independent counsel to investigate the alleged wrongdoings of Secretary Bruce Babbitt.

VOTE AGAINST FAST TRACK
(Mr. PALLONE asked and was given permission to address the House for 1 minute.)

Mr. PALLONE. Mr. Speaker, I urge my colleagues to vote against giving the President fast track authority in order to ensure that new trade agreements advance the interests of U.S. workers as well as the health and safety of all Americans.

My opposition to fast track is based on our experience with NAFTA, which I believe has been a dismal failure. In 3 years since NAFTA was implemented, the U.S. trade deficit with Mexico has skyrocketed, leading to the loss of hundreds of thousands of U.S. jobs. Environmental problems along the border with Mexico have gotten worse. Drug trafficking has increased. The public health in the United States has been threatened by the importation of tainted food.

The President made all kinds of promises with NAFTA a few years ago and is making more promises now. But these promises in the form of NAFTA side agreements on the environment and labor have not been kept. I urge my colleagues to vote against fast track. Do not be led astray by false promises again.

MIDDLE-CLASS TAXPAYERS NEED IRA EXPANSION
(Mr. SAXTON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SAXTON. Mr. Speaker, I have spoken on a number of previous occasions on the need to expand IRA accounts. Today I would like to cite the need for middle-class parents to save for college education as an important reason for further IRA expansion.

Earlier this year, I introduced a bill to expand IRA income caps and deductions to permit penalty-free withdrawals for a number of purposes, including college education. And I am very pleased that the tax bill we passed last summer lifted some of the income caps to benefit more middle-income families.

Although good progress has been made in the expansion of IRA eligibility for college expenses, much more is needed. The main problem is that IRA deduction ceilings remain, and have remained so for some decades, at $2,000. It is inadequate. The solution is to increase IRA deduction. My legislation would increase it $500 annually for 10 years, ending up with a $7,000 cap. Perhaps a more aggressive schedule would be acceptable and it would be possible if current budget trends do result in a budget surplus.

GLOBAL CORPORATE TRADE THREATENS NATIONAL SOVEREIGNTY
(Mr. KUCINICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KUCINICH. Mr. Speaker, Congress is being asked to give away our national sovereignty in the name of global corporate trade. Fast track legislation furthers the role of the World Trade Organization, an intertribunal of unelected, unaccountable trade experts with the authority to overrule the U.S. Congress, to overrule our national, State, and local laws. The WTO can override laws which include job creation legislation, consumer health and safety protections, and environmental protections.

The fast track vote is a vote on the preservation of our national sovereignty, our ability to determine our own destiny. Fast track is an assault on our American political traditions and foundations. It establishes the right of the citizenry to have democratically elected officials be able to make the laws here and the standards we live by.

Fast track gives the World Trade Organization the right to overrule this Congress. We begin these sessions of Congress with the Pledge of Allegiance to the flag and to the country for which it stands. And if we are to remain one Nation, under God, indivisible, we must stand for liberty and justice and we must reject fast track.

UNITED STATES IS EXPORTING JOBS
(Mr. BALLenger asked and was given permission to address the House for 1 minute.)

Mr. BALLenger. Mr. Speaker, while we are playing around with fast track, American workers are cutting our economic lunch and stealing our job growth. Let me give my colleagues a couple quotes, first from the Washington Post. "Because of a recent free-trade pact between Canada and Chile that lowered tariffs between the two countries, Caterpillar is beginning to lose sales in Chile to a small Canadian competitor."

"If Caterpillar finds that it is seriously disadvantaged in Latin America by the absence of free-trade agreements, the company would consider shifting production out of the United States and into the region, or to places such as Canada or Mexico that already have duty-free arrangements with much of Latin America."

Some other U.S. companies are investigating whether their Canadian subsidiaries and plants should now handle their business with Chile in order to profit from tariff breaks.

Ford Motor Co.'s study is beginning to examine the feasibility of shipping its popular F-series pickup trucks to Chile from Canada. More than 50 Canadian-Chilean joint ventures are already operating, and some of those are already shipping to other Latin American countries.

Mr. Speaker, as the AFL-CIO sticks its head in the sand, we are exporting jobs.

FAST TRACK SHIPS JOBS OVERSEAS
(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, I am opposed to fast track. When American workers are serving Mexican tomatoes and Canadian beef at Burger King and Bob Evans, something is very wrong. The American workers are not dumb. They are fed up, they are sick and tired of unemployment compensation, sick and tired of retraining, sick and tired of promises. They are sick and tired of politics. They are rusted, disgusted, and cannot be trusted to vote for Congressmen or Senators who continue to ship their jobs overseas.

Now, as far as I am concerned, I listened to all this "bridge to the 21st century" business. I say the bridge to the 21st century is turning into another bridge over the River Kwai. Beam me up. Bridge this, Mr. President.

SUPPORT H.R. 1129, MICROCREED FOR SELF-RELIANCE ACT
(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Mr. Speaker, I urge the House today to support H.R. 1129, the Microcredit for Self-Reliance Act which is up on suspension today. Microcredit is one of the universally recognized U.S. programs that has produced incredibly significant and positive results. This bill introduced by the gentleman from New York [Mr. Houghton] and the gentleman from Ohio [Mr. Hall] will continue the great work that has been done using this economic assistance plan.

Microcredit provides small loans to people who want to start a business but would not be able to secure normal financing. It has worked well in Africa where it has been successfully used in many countries. It is especially effective in promoting women's rights and family development. I would also like
Mr. SANGER. Mr. Speaker, in June of 1995 in a very famous handshake, the President and the Speaker of this House shook hands and committed themselves to campaign finance reform. I can speak since then on the commitment of our President to campaign finance reform. I know he would support that bill because in Arkansas he took it to the streets to get signatures on campaign finance reform for Arkansas and was successful.

What has happened since then? Nothing. We have had no bills come to the floor of this House for a vote. Here we are halfway through the session at the end of the year, we are going to adjourn probably tomorrow and what is the final score, Mr. Speaker? The final score is handshakes 1, campaign finance reform nothing. That is a poor record for this Congress. It is a poor record for the Republican leadership of this Congress. Next year we need to do better.

IRS REFORM

(Mr. TIAHRT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TIAHRT. Mr. Speaker, polls have shown that the American people no longer trust their government to do, quote-unquote, the right thing most of the time. In fact, just over the last 3 decades this country has changed so dramatically in that regard. Under President John F. Kennedy, approximately 7 out of 10 Americans trusted their government. Now only 1 out of 10 Americans do. Only 1 out of 10 Americans trust their government to any degree of satisfaction. This is deeply disturbing. I think restoring trust in government must be a top priority for this Congress.

Mr. Speaker, I believe that the corruption, the politicization and the general nature of the IRS played a major role in this change of attitude on the part of the American citizens. When a government agency has the power to bully citizens, to operate with virtually no accountability and to make a mockery of our constitutional right to due process, it is no wonder that the citizens have grown to distrust their own government. I believe that if IRS reform is not passed in this Congress, many Americans will consider the 105th Congress to be an overall failure.

FAST TRACK

(Mr. STUPAK asked and was given permission to address the House for 1 minute.)

Mr. STUPAK. Mr. Speaker, every Member of this House should oppose fast track because of labor standards, environmental standards and human rights. But there is another very valid reason, that of food safety and pesticide use in foreign countries on food coming into this country.

Since the last fast track legislation, NAFTA, it limited our right to make border inspections. So what has happened? Food imports are up, inspections are down. What will happen with this new fast track deal is more countries will be shipping their food into this country. We have not addressed the infrastructure to provide a safety net to American citizens from food coming into this country. That is why in 1997 we have had 3 major outbreaks of disease in this country from imported food.

What do they tell you when you go to foreign countries in Latin America and South America? Do not eat the food, do not drink this, do this, get a hepatitis shot. So what are we going to do? Have more food come into this country and less inspections. Over 3.3 million food products that is 9,000 trucks per day. One percent is inspected. Let us not risk our families' health. Vote no on fast track.

IRS REFORM

(Mrs. KELLY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. KELLY. Mr. Speaker, for years citizens have been complaining about the IRS. Honest citizens faced with an audit, a problem, confusing changes in the Tax Code and bewildering instructions about their taxes or have cried out for reform to their representatives in Washington, radio talk show hosts and newspapers across the country. But nothing seems to change. To add insult to injury, the IRS responds to all these complaints by defending its actions, assuring citizens everywhere that the IRS is improving, the IRS is reforming itself and honest taxpayers have nothing to fear from an audit. If this is not the perfect example of an arrogant bureaucracy that is out of touch, I would like to see a better one. Arrogant, out of touch and unaccountable, these are the hallmarks of a Government that abuses its power, a Government which makes ordinary citizens feel powerless and fearful.

Mr. Speaker, the IRS must change big time, not cosmetic changes that mean business as usual but a top-to-bottom overhaul that does not put honest taxpayers in the same boat as tax cheats. The IRS needs to give taxpayers the respect they deserve.

FAST TRACK

(Mr. STRICKLAND asked and was given permission to address the House for 1 minute.)

Mr. STRICKLAND. Mr. Speaker, the IRS must change big time, not cosmetic changes that mean business as usual but a top-to-bottom overhaul that does not put honest taxpayers in the same boat as tax cheats. The IRS needs to give taxpayers the respect they deserve.
Mr. ROYCE. Mr. Speaker, I hope the American people are watching the proceedings that are happening in this Chamber this weekend, because if they are not, they will not see that a monumental battle is being fought out between a Democratic administration in conjunction with the Republican leadership versus the working class American family. The multinational corporations, with the support of our Democratic and evil Republican leadership, are taking sides against America’s working families. How are they doing this? They are cutting deals that in my judgment are shameful. They are contributing to the cynicism that Americans feel about what happens in this Chamber.

We are supposed to come here, Mr. Speaker, as representatives of the people, to vote on the basis of principle, to follow our own conscience, and to do what we believe is best for our constituents. But this weekend multinational corporations in conjunction with a Democratic President and a Republican leadership are selling out the American people.

CAN PUBLIC OFFICIALS BEHAVE IN UNETHICAL MANNER BE TRUSTED WITH NEW LAW?

Mr. PITTS. Mr. Speaker, when was the last time you heard the argument that changing the law or passing a new law will make people who break the law honest? Well, yesterday, if you count what we hear in this Chamber. The fact is the DNC, friends of the White House, and close aides in this administration have been caught red-handed doing things that they are illegal: Taking foreign money, laundering money, laundering union money, raising money at Buddhist temples, covering for political corruption, and so on and on. All we want to do is give them a chance at a truly great education.

PRIVATE GOLF CLUBS USE TAX LOOPLHOUE TO PRACTICE DISCRIMINATION

Mr. TOWNS. Mr. Speaker, this week Congress did a great service for this Nation by passing the Internal Revenue Service reform legislation. However, in our celebration, I must inform my colleagues that there is more work to do. We must eliminate a little known tax loophole for private clubs that profit from practicing discrimination.

This chart details four private golf clubs identified by HBO’s “Real Sports” with布莱尔. They have $9 million in taxpayer funds while excluding African-Americans. Each year these 501(c)(7) clubs act as nonprofit organizations that are exempt from paying corporate taxes to the Federal Government.

MONEY BELONGS TO THOSE WHO EARN IT

Mr. ROYCE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.

Mr. ROYCE. Mr. Speaker, on Monday, the President called taxpayers selfish for wanting to keep more of what they earn. Recently the Democrat leader in the Senate, TOM DASCHLE, said that Americans were not overtaxed. The President’s deputy press secretary said that support of tax relief was based on selfishness.

Ms. DUNN. Mr. Speaker, last week, right on this House floor, I was disappointed to hear a distinguished Member of the other side of the aisle say that competition forces excellence, it forces improvement in quality, and it forces innovation. In many parts of our country it is very important to improve the public school system.

Second, we believe it is unfair to force parents who love their children to send them to a bad school simply because they cannot afford to send them someplace else.

While some continue to defend failed schools and ask for more money and more Washington Federal programs, we have a better idea. We favor giving parents more choice. Now, some parents have unlimited choices as to where they can send their children to school, but some do not. They do not do this because they are poor, they face other financial constraints, and sometimes they have no choice but to send their child to a bad school where they are not even safe.

All we want to do is give them a chance at a truly great education.

SCARING SENIORS

Ms. DUNN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.

Mr. GREEN. Mr. Speaker, there is a special place in hell for people in groups who scare seniors to raise money. Every citizen in all over the country receive dozens of letters a week, mass mailings from supposedly nonpartisan groups that confuse and frighten seniors in asking for their money to save Medicare and Social Security, letters like this one from some group called the United Senior Association.

This last week I had a senior citizen calling me after he got this letter and literally crying because he could not afford to send the money, and he wanted to make sure he could still have Medicare. After a while I think senior citizens groups and senior citizens become convinced the sky is falling from some of these groups.

I represent a blue collar district, and I know that our seniors cannot afford to send $10, $15, $20 to these groups in Washington, DC or Virginia. While many of these groups are run by partisan groups, some by Democrats, some by Republicans, Republicans are not involved. In fact, I saw a dear colleague this week from my colleague the gentleman from California [Mr. THOMAS]. He had his own problems with these mailing list groups on the subject of
Medicare private contracting. Admittedly, he and I come from different points of view, but we share the same problem from some of these groups.

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 1566 AND H.R. 600.

Mr. PETERSON of Minnesota. Mr. Speaker, I ask unanimous consent to remove my name as a cosponsor of H.R. 1566 and of H.R. 600.

The SPEAKER pro tempore (Mr. PEASE). Is there objection to the request of the gentleman from Minnesota?

There was no objection.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to the provisions of clause 5 of rule I, the Chair announces that he will postpone further proceedings today on each motion to suspend the rules on which the vote is objected to under clause 4 of rule XV.

A first group of such rollcall votes, if postponed, will be taken after debate has concluded on H.R. 2534, and a second group of such rollcall votes, if later postponed, will be taken after the debate has been concluded on those remaining motions to suspend the rules.

AGRICULTURAL RESEARCH, EXTENSION, AND EDUCATION REAUTHORIZATION ACT OF 1997

Mr. SMITH of Oregon. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2534) to reform, extend, and repeal certain agricultural research, extension, and education programs, and for other purposes, as amended.

The Clerk read as follows:

H.R. 2534

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, SECTION 1. SHORT TITLE—TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Agricultural Research, Extension, and Education Reauthorization Act of 1997".

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—COORDINATION, PLANNING, AND DEFINITIONS REGARDING AGRICULTURAL RESEARCH, EXTENSION, AND EDUCATION

Sec. 101. Priorities and management principles for federally supported and conducted agricultural research, education, and extension.

Sec. 102. Principal definitions regarding agricultural research, education, and extension.

Sec. 103. Consultation with National Agricultural Research, Extension, Education, and Economics Advisory Board.

Sec. 104. Relevance and merit of federally funded agricultural research, extension, and education.

Sec. 105. Expansion of authority to enter into cost-reimbursable agreements.

Sec. 106. Evaluation and assessment of agricultural research, extension, and education programs.

TITLE II—REFORM OF EXISTING RESEARCH, EXTENSION, AND EDUCATION AUTHORITIES

Subtitle A—Smith-Lever Act and Hatch Act of 1887

Sec. 102. Consent matching funds requirements under Hatch Act of 1887 and Smith-Lever Act.

Sec. 103. Plans of work to address critical research and extension issues and use of protocols to measure success of plans.

Sec. 111. Plans of work to address critical research and extension issues and use of protocols to measure success of plans.

Sec. 112. Matching funds requirement for research and extension activities at 1890 land-grant colleges, including Tuskegee University.

Sec. 113. International research, extension, and teaching.

Sec. 114. Task force on 10-year strategic plan for agricultural research facilities.

Subtitle C—Food, Agriculture, Conservation, and Trade Act of 1990

Sec. 121. Agricultural genome initiative.

Subtitle D—National Research Initiative

Sec. 122. Waiver of matching requirement for small and medium-sized universities.

Subtitle E—Other Existing Laws

Sec. 123. Findings, authorities, and competitive research grants under the Smith-Lever Act and Related Resources Research Act of 1978.

TITLE III—EXTENSION OR REPEAL OF RESEARCH, EXTENSION, AND EDUCATION INITIATIVES

Subtitle A—Extensions

Sec. 131. National Research Initiative under Competitive, Special, and Facilities Research Grant Act.

Sec. 133. Education grants program for Hispanic-serving institutions.

Sec. 134. General authorization for agricultural research programs.

Sec. 135. General authorization for extension education.

Sec. 136. Grants and fellowships for food and agricultural sciences education.

Sec. 137. Grants for research on the production and marketing of alcohols and industrial hydrocarbons from agricultural commodities and forest products.

Sec. 138. Policy research centers.

Sec. 139. Human nutrition intervention and health promotion research program.

Sec. 140. Pilot research program to combine medical and agricultural research.

Sec. 141. Food and nutrition education program.

Sec. 142. Animal health and disease continuous research and education.

Sec. 143. Animal health and disease national or regional research.

Sec. 144. Grant program to upgrade agricultural and food sciences facilities at 1890 land-grant colleges.

Sec. 145. National research and training centers for agricultural sciences.

Sec. 146. Supplemental and alternative crops research.

Sec. 147. Aquaculture research and extension.

Sec. 148. Rangeland research.

Sec. 149. Federal agricultural research facilities.

Sec. 150. Water quality research, education, and coordination.

Sec. 151. National genetics resources program.

Sec. 152. Agricultural telecommunications program.

Sec. 153. Assistive technology program for farmers with disabilities.

Sec. 154. National Rural Information Center and Clearinghouse.

Subtitle B—Repeals

Sec. 161. Aquaculture research facilities.

Sec. 163. Livestock product safety and inspection program.

Sec. 164. General authorization of appropriations and related provisions.

Subtitle C—Precision Agriculture

Sec. 171. Definitions.

Sec. 172. Competitive grants to promote precision agriculture.

Sec. 173. Reservation of funds for education and information dissemination projects.

Sec. 174. Precision agriculture partnerships.

Sec. 175. Miscellaneous provisions.

Sec. 176. Authorization of appropriations.

Subtitle C—Other Initiatives

Sec. 181. High-priority research and extension initiatives.

Sec. 182. Organic agriculture research and extension initiative.

Sec. 183. United States-Mexico joint agricultural research.

Sec. 184. Competitive grants for international agricultural science and education programs.

Sec. 185. Food animal residue avoidance database program.

Sec. 186. Development and commercialization of new biobased products.

Sec. 187. Thomas Jefferson Initiative for Crop Diversification.

Sec. 188. Integrated research, education, and extension competitive grants program.

TITLE IV—NEW RESEARCH, EXTENSION, AND EDUCATION INITIATIVES

Subtitle A—Partnerships for High-Value Agricultural Products Quality Research.

Sec. 192. Establishment and characteristics of partnerships.

Sec. 193. Elements of grant-making process.

Sec. 194. Authorization of appropriations and related provisions.

Subtitle B—Precision Agriculture

Sec. 201. Definitions.

Sec. 203. United States-Mexico joint agricultural research.

Sec. 204. Competitive grants for international agricultural science and education programs.

Sec. 205. Food animal residue avoidance database program.

Sec. 206. Development and commercialization of new biobased products.

Sec. 207. Thomas Jefferson Initiative for Crop Diversification.

Sec. 208. Integrated research, education, and extension competitive grants program.

TITLE V—MISCELLANEOUS PROVISIONS

Sec. 301. Role of Secretary of Agriculture regarding food and agricultural sciences research, education, and extension.

Sec. 302. Office of Pest Management Policy.

Sec. 303. Food Safety Research Information Office and national conference.
(c) MANAGEMENT PRINCIPLES.—To the maximum extent practicable, the Secretary shall establish priorities for agricultural research, education, and extension activities conducted or funded by the Department in a manner that:

(i) integrates agricultural research, education, and extension activities conducted or funded by the Secretary and others that provide related services;

(ii) establishes linkages among universities, governmental agencies, nonprofit organizations, and the private sector to ensure that research outputs are relevant and of high quality;

(iii) addresses national priorities and supports innovative approaches to agricultural education and extension that include the use of new information technologies;

(iv) encourages and supports research, education, and extension projects that focus on the needs of specific groups, such as minority and disadvantaged groups;

(v) integrates research, education, and extension activities with the activities of other Federal, State, and local agencies and organizations.

(d) IN-KIND SUPPORT.—Such section is further amended by striking paragraph (1), and inserting—

"(18) IN-KIND SUPPORT.—The term ‘in-kind support’ with regard to a requirement that the recipient of funds provided by the Secretary match all or some portion of the amount of the funds, means contributions such as office space, equipment, and staff support.

"(19) CONFORMING AMENDMENTS.—Such section is further amended by—

(1) striking “the term,” in paragraphs (1), (4), and (15), (16), and (17) and inserting “the term;”

(2) in paragraph (12), by striking “the terms” and inserting “the terms;”

(3) in paragraph (9), by striking “the term” the first place it appears and inserting “The term;”

(4) by striking the semicolon at the end of paragraphs (1), (2), and (4) through (9) and (15) and inserting a period; and

(5) in paragraph (16)(F), by striking “;” and inserting a period.

"(20) CONSIDERATION WITH NATIONAL AGRICULTURAL RESEARCH, EXTENSION, EDUCATION, AND ECONOMICS ADVISORY BOARD.—Subsection (d) of section 1408 of the National Agricultural Research, Extension, and Education Act of 1990 (7 U.S.C. 3125) is amended to read as follows:

"(B) FOOD AND AGRICULTURAL SCIENCES.—

"(1) AGRICULTURAL RESEARCH.

to be reviewed is included in the research, educational, and economics mission area of the Department, the review panel shall consider—

(A) the scientific merit and relevance of the activity or research in light of the priorities established pursuant to section 1402(b); and

(B) the national or multi-State significance of the activity or research.

"(3) COMPOSITION OF REVIEW PANEL.—A review panel shall be composed of individuals with involvement in the required research or other expertise, a majority of whom are not employees of the agency whose research is being reviewed. To the extent possible, the Secretary shall use scientists from colleges and universities to serve on the review panels.

"(4) SUBMISSION OF RESULTS.—The results of the panel reviews shall be submitted to the Advisory Board.

"(5) APPLICABILITY OF OTHER LAWS.—The Federal Advisory Committee Act (5 U.S.C. App.) and title XVIII of this Act (7 U.S.C. 2281 et seq.) shall not apply to a review panel.

"(d) MERIT REVIEW OF COLLEGE AND UNIVERSITY RESEARCH AND EXTENSION ACTIVITIES.—

"(1) LAND-GRANT INSTITUTIONS.—Effective beginning October 1, 1998, to be eligible to obtain Federal research or extension funds from the Secretary for an activity, a land-grant college or university shall—

(A) establish a process for merit review of the activity; and

(B) review the activity in accordance with the process.

"(2) 1994 INSTITUTIONS.—Effective beginning October 1, 1998, to obtain Federal research or extension funds from the Secretary for an activity, each 1994 Institution (as defined in section 353 of the Equity in Educational Land-Grant Status Act of 1994 (Public Law 103-382, 7 U.S.C. 301 note)) shall—

(A) establish a process for merit review of the activity; and

(B) review the activity in accordance with the process.

"(e) REPEAL OF PROVISIONS FOR WITHHOLDING FUNDS.—

(1) SMITH-LEVER ACT.—Section 6 of the Smith-Lever Act (7 U.S.C. 346) is repealed.

(2) HATCH ACT OF 1887.—Section 7 of the Hatch Act of 1887 (7 U.S.C. 361c) is amended by striking paragraph (3) and inserting the following:—

(3) NATIONAL AGRICULTURAL RESEARCH, EXTENSION, AND TEACHING POLICY ACT OF 1977.—The National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3221) is amended by striking paragraph (1) and inserting the following:—

(4) SEC. 202. CONSISTENT MATCHING FUNDS REQUIREMENTS UNDER HATCH ACT OF 1887 AND SMITH-LEVER ACT.—

(a) HATCH ACT OF 1887.—Subsection (d) of section 3 of the Hatch Act of 1887 (7 U.S.C. 361c) is amended to read as follows:—

"(d) MATCHING FUNDS.—

"(1) REQUIREMENT.—Except as provided in paragraph (3), no allotment shall be made to a State under subsections (b) and (c), and no payment of such allotment shall be made to a State, in excess of the amount which the State makes available out of non-Federal funds for agricultural research and for the establishment and maintenance of facilities for the performance of such research.

"(2) FAILURE TO PROVIDE MATCHING FUNDS.—If a State fails to comply with the requirement to provide matching funds for a fiscal year under paragraph (1), the Secretary of Agriculture shall withhold from payment to the State for that fiscal year an amount equal to—

(A) the amount that would be allotted and paid to the State under subsections (b) and (c) if the full amount of matching funds were provided by the State; and

(B) the amount of matching funds actually provided by the State.

"(3) REAPPORTIONMENT.—The Secretary shall reapportion amounts withheld under paragraph (2) for a fiscal year among the States satisfying the matching requirement for that fiscal year. Any reapportionment of funds under this paragraph shall be subject to the matching requirement specified in paragraph (1).

"(f) MATCHING FUNDS EXCEPTION FOR 1994 INSTITUTIONS.—There shall be no matching requirement for funds made available to 1994 Institutions pursuant to subsection (b)(3).

"(g) TECHNICAL CORRECTIONS.—

(1) RECOGNITION OF STATEHOOD OF ALASKA AND HAWAII.—Section 1 of the Hatch Act of 1887 (7 U.S.C. 361a) is amended by striking "Alaska, Hawaii,''.

(2) ROLE OF SECRETARY OF AGRICULTURE.—Section 2 of the Smith-Lever Act (7 U.S.C. 343) is amended—

(A) in subsection (b)(1), by striking "Federal Extension Service" and inserting "Secretary of Agriculture";

(B) in subsection (c)(1), by striking "Federal Extension Service" and inserting "Secretary of Agriculture";

(C) in subsection (d), by striking "Federal Extension Service" and inserting "Secretary of Agriculture"; and

(D) in subsection (g)(1), by striking "through the Federal Extension Service" and inserting "through the Secretary of Agriculture".

"(3) REFERENCES TO REGIONAL RESEARCH FUND.—The Hatch Act of 1887 is amended—

(A) in section 3(1) (7 U.S.C. 321c)—

(i) in subsection (b)(1), by striking "subsection (c)(3)" and inserting "subsection (c)(3)"; and

(ii) in subsection (e), by striking "subsection (c)(3)" and inserting "subsection (c)(3)";

(B) in section 5 (7 U.S.C. 361a), by striking paragraph (3) (7 U.S.C. 361c(a)) and inserting "Regional research fund, State agricultural experiment stations'.

"(h) SEC. 203. PLANS OF WORK TO ADDRESs CRITICAL RESEARCH ISSUES AND USE OF PROTOCOLS TO MEASURE SUCCESS OF PLANS.—

(a) SMITH-LEVER ACT.—Section 4 of the Smith-Lever Act (7 U.S.C. 344) is amended—

(1) by striking "Sec. 4." and inserting the following:—

"SEC. 4. ASCERTAINMENT OF ENTITLEMENT OF STATE TO FUNDS, TIME AND MANNER OF PAYMENT, STATE REPORTING REQUIREMENTS, AND PLANS FOR WORK.

"(a) ASCERTAINMENT OF ENTITLEMENT.—

(1) in the last sentence, by striking "such amounts" and inserting "the amount to which a State is entitled'';

(2) before the other provisions of this Act.

"(b) TIME AND MANNER OF PAYMENT; RELATED REPORTS.—The amount to which a State is entitled'';

(2) the term "reporting" in the last sentence, by striking "shall be treated as having been enacted immediately before the other provisions of this Act.

"(c) REQUIREMENTS RELATED TO PLAN OF WORK.—Each extension plan of work for a fiscal year under paragraph (1), the Secretary of Agriculture shall make available to the State for that fiscal year an amount equal to—

(A) the amount that would be allotted and paid to the State under subsections (b) and (c) if the full amount of matching funds were provided by the State; and

(B) the amount of matching funds actually provided by the State.

"(3) CRITICAL SHORT-TERM, INTERMEDIATE, AND LONG-TERM AGRICULTURAL ISSUES IN THE STATE AND THE CURRENT AND PLANNED EXTENSION PROGRAMS AND PROJECTS TARGETED TO ADDRESS SUCH ISSUES.
"The process established to consult with extension users regarding the identification of critical agricultural issues in the State and current and emerging efforts to work with these other institutions and States.

"The processes established to consult with extension users regarding the identification of critical agricultural issues in the State and current and emerging efforts to work with these other institutions and States.

"The process established to consult with extension users regarding the identification of critical agricultural issues in the State in which the eligible institution is located and the current and planned research programs and projects targeted to address such issues.

"The process established to consult with extension users regarding the identification of critical agricultural issues in the State in which the eligible institution is located and the current and planned research programs and projects targeted to address such issues.

"The process established to consult with extension users regarding the identification of critical agricultural issues in the State and other States that have unique capacity to address the identified agricultural issues in the State and current and emerging efforts (including regional research efforts) to work with these other institutions and States.

"The process established to consult with extension users regarding the identification of critical agricultural issues in the State and other States that have unique capacity to address the identified agricultural issues in the State and current and emerging efforts (including regional research efforts) to work with these other institutions and States.

"The process established to consult with extension users regarding the identification of critical agricultural issues in the State and other States that have unique capacity to address the identified agricultural issues in the State and current and emerging efforts (including regional research efforts) to work with these other institutions and States.
be carried out sequentially, and the activities to be carried out jointly.

(4) RESEARCH PROTOCOLS.—The Secretary of Agriculture shall develop protocols to be used to evaluate the success of matching funds in achieving multi-institutional, and multidisciplinary research activities and joint research and extension activities in addressing critical agricultural issues identified in the plans of work submitted under paragraph (2). The Secretary shall develop the protocols in consultation with the Advisory Board and land-grant colleges and universities.

(c) EFFECTIVE DATE.—

(1) IN GENERAL.—The amendments made by this section shall take effect on October 1, 1998.

(2) DELAYED APPLICABILITY.—With respect to a particular eligible institution (as described in sections 1444(a) and 1445(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3221(a), 3222(a))), the Secretary of Agriculture may delay the applicability of the requirements imposed by the amendments made by this section until not later than October 1, 1999, if the Secretary finds that the eligible institution will be unable to meet such requirements by October 1, 1998, despite the good faith efforts of the eligible institution.

SEC. 212. MATCHING FUNDS REQUIREMENT FOR RESEARCH AND EXTENSION ACTIVITIES AT 1890 LAND-GRA NT COLLEGES, INCLUDING TUSKEGEE UNIVERSITY.

(a) IMPOSITION OF REQUIREMENT.—Subtitle G of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 is amended by inserting after section 1448 (7 U.S.C. 3222c) the following new section:

"SEC. 1449. MATCHING FUNDS REQUIREMENT FOR RESEARCH AND EXTENSION ACTIVITIES AT ELIGIBLE INSTITUTIONS."

(1) DEFINITIONS.—In this section:

"(A) ELIGIBLE INSTITUTION.—The term 'eligible institution' means a college eligible to receive funds under the Act of August 30, 1890 (7 U.S.C. 321 et seq.), commonly known as the Smith-McMurrill Act, including Tuskegee University.

(2) FORMULA FUNDS.—The term 'formula funds' means the formula allocation funds distributed to eligible institutions under sections 1444 and 1445.

(b) DETERMINATION OF NON-FEDERAL SOURCES.—Not later than September 30, 1999, each eligible institution shall submit to the Secretary a report describing for fiscal year 1999 the sources of non-Federal funds distributed to the eligible institution and the amount of funds generally available from each such source.

(c) MATCHING FORMULA.—Notwithstanding any other provision of this subtitle, the distribution of formula funds to an eligible institution shall be subject to the following matching requirements:

"(1) In fiscal year 2000, the institution shall provide matching funds from non-Federal sources in an amount equal to not less than 30 percent of the formula funds to be distributed to the eligible institution.

"(2) In fiscal year 2001, the institution shall provide matching funds from non-Federal sources in an amount equal to not less than 45 percent of the formula funds to be distributed to the eligible institution.

"(3) In fiscal year 2002, and each fiscal year thereafter, the institution shall provide matching funds from non-Federal sources in an amount equal to not less than 50 percent of the formula funds to be distributed to the eligible institution."

(d) WAIVER AUTHORITY.—Notwithstanding subsection (f), the Secretary may waive the matching funds requirement under subsection (c)(1) for fiscal year 2000 if the Secretary determines with regard to a particular eligible institution, based on the report received under subsection (b), that the institution's efforts to satisfy the matching requirement are insufficient due to unforeseeable circumstances.

(e) USE OF FUNDS.—Under terms and conditions established by the Secretary, matching funds provided as required by subsection (c) may be used by an eligible institution for research, education, and extension activities.

(1) REDISTRIBUTION OF FUNDS.—Federal funds that are not matched by an eligible institution in accordance with subsection (c) for a fiscal year shall be redistributed by the Secretary to eligible institutions satisfying the matching funds requirement for that fiscal year. Any redistribution of funds under this subsection shall be subject to the applicable matching requirement specified in subsection (c) and shall be made in a manner consistent with sections 1444 and 1445, as determined by the Secretary."

(f) CONFORMING AMENDMENT.—Section 1445(g) of such Act (7 U.S.C. 3225g) is amended—

(1) by striking paragraph (2); and

(2) by redesignating paragraph (4) as paragraph (2).

(c) REFERENCES TO TUSKEGEE UNIVERSITY.—Such Act is further amended—

(1) in section 1404 (7 U.S.C. 3103), by striking "Tuskegee Institute" in paragraph (10) and (16)(B) and inserting "Tuskegee University";

(2) in section 1444 (7 U.S.C. 3221), by redesignating paragraph (4) as paragraph (5); and

(3) in section 1445 (7 U.S.C. 3222), by striking "Tuskegee Institute" both places it appears and inserting "Tuskegee University"; and

(d) CONFORMING AMENDMENT.—Section 1445(g) of the Act of August 30, 1890 (7 U.S.C. 3291) is amended—

(1) by striking the section heading and inserting "SEC. 1444. EXTENSION AND TEACHING AT 1890 LAND-GRA NT COLLEGES, INCLUDING TUSKEGEE UNIVERSITY."); and

(2) in subsections (a) and (b), by striking "Tuskegee Institute" both places it appears and inserting "Tuskegee University"; and

(e) USE OF MATCHING FUNDS.—Under terms and conditions established by the Secretary, matching funds provided as required by subsection (c) may be used by an eligible institution for research, education, and extension activities.

(1) REDISTRIBUTION OF FUNDS.—Federal funds that are not matched by an eligible institution in accordance with subsection (c) for a fiscal year shall be redistributed by the Secretary to eligible institutions satisfying the matching funds requirement for that fiscal year. Any redistribution of funds under this subsection shall be subject to the applicable matching requirement specified in subsection (c) and shall be made in a manner consistent with sections 1444 and 1445, as determined by the Secretary."
CONGRESSIONAL RECORD—HOUSE

(b) COMPETITIVE GRANTS.—Subsection (b) of such section is amended by striking "subsection (c)" and inserting "subsection (a)".

(c) GRANT TYPES AND PROCESS; PROHIBITION ON CONSTRUCTION.—Subsection (c) of such section is amended to read as follows:

"(c) Grant Types and Process; Prohibition on Construction.—(1) General Requirement.—If a grant under this section is to the particular benefit of a specific agricultural commodity, the Secretary shall require the recipient of the grant to purchase funds or in-kind support to match the amount of funds provided by the Secretary in the grant.

"(2) Waiver.—The Secretary may waive the matching funds requirement specified in paragraph (1) with respect to a research project if the Secretary determines that—

"(A) the results of the project, while of particular benefit to the specific agricultural commodity, are likely to be applicable to agricultural commodities generally; or

"(B) the project involves a minor commodity, domestically important research, and the grant recipient would be unable to satisfy the matching funds requirement.

"(3) Authority of Appropriations.—Subsection (g) of such section is amended by striking "fiscal years 1996 and 1997" and inserting "fiscal years 1998 through 2002".

"(4)c Subtitle D—National Research Initiative

SEC. 241. WAIVER OF MATCHING REQUIREMENT

SEC. 251. FINDINGS, AUTHORITIES, AND COM-

PETITIVE RESEARCH GRANTS

For certain small colleges and universities.

Subtitle E—Other Existing Laws

SEC. 251. FINDINGS, AUTHORITIES, AND COM-

PETITIVE RESEARCH GRANTS UNDER FOREST AND RANGELAND SUSTAINABLE RESOURCES RESEARCH ACT OF 1978.

(a) FINDINGS.—Section 2 of the Forest and Rangeland Sustainable Resources Research Act of 1978 (16 U.S.C. 1601) is amended—

"(1) by striking "the cost" and inserting "the cost of"; and

"(2) adding at the end the following new sentence: "The Secretary may waive all or a portion of the matching requirement under this subparagraph in the case of a smaller college or university.

Subsection (c)(2)(C)(iii) of section 793 of the Federal Agriculture Improvement and Reform Act of 1996 (7 U.S.C. 3204f) is amended—

"(1) by striking "and has multiple uses within a single research project or is usable in more than one research project"; and

"(2) by adding at the end the following new subsection: "For purposes of preparing the inventory for a State, the Secretary shall measure annually 20 percent of each sample plot included in the inventory program for that State. Upon completion of the inventory for a year, the Secretary shall make available to the public a list of sample plots that year from measurements of sample plots as well as any analysis made of such samples.

"(3) FIVE-YEAR REPORTS.—At intervals not greater than five full fiscal years after the date of the enactment of this subsection, the Secretary shall prepare, publish, and make available to the public a report, prepared in cooperation with State foresters, that—

"(A) contains a description of each State inventory of forests and rangelands, including all sample plot measurements conducted during the five years covered by the report;

"(B) displays and analyzes on a nationwide basis the results of the annual reports required by paragraph (2); and

"(C) contains an analysis of forest health conditions and trends over the previous two decades, with an emphasis on such conditions and trends during the period subsequent to the immediately preceding report under this paragraph.

"(4) NATIONAL STANDARDS AND DEFINITIONS.—To ensure uniform and consistent data collection for all public and private forest ownerships and each State, the Secretary shall develop, in consultation with State foresters, Federal land management agencies not under the jurisdiction of the Secretary, and publish national standards and definitions to be applied in inventories and analyzing forests and their resources under this subsection. The standards shall include a core set of variables to be measured on all sample plots under paragraph (2) and a standard set of tables to be included in the reports under paragraph (3).

"(5) PROTECTION FOR PRIVATE PROPERTY RIGHTS.—The Secretary shall obtain written and oral permission from private property owners or to collecting data from sample plots located on private property pursuant to paragraphs (2) and (3).

"(6) STRATEGIC PLAN.—Not later than 180 days after the date of the enactment of this subsection, the Secretary shall prepare and submit to Congress a strategic plan to implement and carry out this subsection, including the annual updates required by paragraph (2) and the reports required by paragraph (3), that shall describe in detail—

"(A) the financial resources required to implement and carry out this subsection, including the identification of any resources required in excess of the amounts provided for forest inventory and analysis in recent appropriations Acts;

"(B) the personnel necessary to implement and carry out this subsection, including any personnel in addition to personnel currently responsible for conducting inventing and analysis functions;

"(C) the organization and procedures necessary to implement and carry out this subsection; and

"(D) the needed financial and personnel resources for Federal land management agencies and State foresters;
**TITLE III—EXTENSION OR REPEAL OF RESEARCH, EXTENSION, AND EDUCATION INITIATIVES**

Subtitle A—Extensions

SEC. 301. NATIONAL RESEARCH INITIATIVE UNDER COMPETITIVE, SPECIAL, AND FACILITIES RESEARCH GRANT ACT

Subsection (b)(10) of the Competitive, Special, and Facilities Research Grant Act (7 U.S.C. 450l(b)(10)) is amended by striking “1997” and inserting “2002”.

SEC. 302. EQUITY IN EDUCATIONAL LAND-GRANT STATUS ACT OF 1994

Sections 533(b) and 535 of the Equity in Educational Land-Grant Status Act of 1994 (Public Law 103–382, 103 Stat. 382, and 382 note) are amended by striking “2000” each place it appears and inserting “2002”.

SEC. 303. EDUCATION GRANTS PROGRAMS FOR HISPANIC-SERVING INSTITUTIONS

Section 1454(c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3241(c)) is amended by striking “1997” and inserting “1997 and 2002”.

SEC. 304. GENERAL AUTHORIZATION FOR AGRICULTURAL RESEARCH PROGRAMS

Section 1453 of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3231) is amended in subsections (a) and (b) by striking “1997” each place it appears and inserting “2002”.

SEC. 305. GRANTS FOR RESEARCH EXTENSION AND EDUCATION

SEC. 306. GRANTS AND FELLOWSHIPS FOR FOOD AND AGRICULTURAL SCIENCES EDUCATION

Section 1475(j) of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3235(j)) is amended by striking “1997” and inserting “2002”.

SEC. 307. GRANTS FOR RESEARCH ON THE PRODUCTION AND MARKETING OF ALCOHOLIC BEVERAGES, INDUSTRIAL HYDROCARBONS FROM AGRICULTURAL COMMODITIES AND FOREST PRODUCTS

Section 1419(d) of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3154(d)) is amended by striking “1997” and inserting “2002”.

SEC. 308. POLICY RESEARCH CENTERS

Section 1419A(d) of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3174(d)) is amended by striking “fiscal years 1996 and 1997” and inserting “each of fiscal years 1996 through 2002”.

SEC. 309. HUMAN NUTRITION INTERVENTION AND HEALTH PROMOTION RESEARCH PROGRAM

SEC. 310. PILOT RESEARCH PROGRAM TO COMBINE MEDICAL AND AGRICULTURAL RESEARCH

Section 1424A(d) of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3174a(d)) is amended by striking “1997” and inserting “1997 through 2002”.

SEC. 311. FOOD AND NUTRITION EDUCATION PROGRAM

Section 1425(c)(3) of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3175(c)(3)) is amended by striking “and 1999” and inserting “through 2002”.

SEC. 312. ANIMAL HEALTH AND DISEASE CONTINUING RESEARCH

Section 1433(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3190(a)) is amended by striking “1997 and 2002”.

SEC. 313. ANIMAL HEALTH AND DISEASE NATIONAL OR REGIONAL RESEARCH CENTER

SEC. 314. RESEARCH PROGRAM TO UPGRADE AGRICULTURAL AND FOOD SCIENCES FACILITIES AT 1890 LAND-GRADE COLLEGES

Section 1447(b) of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3222(b)) is amended by striking “1997 and 1999” and inserting “through 2002”.

SEC. 315. NATIONAL RESEARCH AND TRAINING CENTENNIAL CENTERS

Section 1447(c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3222c) is amended—

(1) in subsection (a)(1), by striking “and 1997” and inserting “through 2002”; and

(2) in subsection (f), by striking “1997” and inserting “2002”.

SEC. 316. SUPPLEMENTAL AND ALTERNATIVE CROPS RESEARCH

Section 1473D(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3333(a)) is amended by striking “1997” and inserting “2002”.

SEC. 317. AQUACULTURE RESEARCH AND EXTENSION ACT

SEC. 318. RANGELAND RESEARCH

Section 1483(a) of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3336(a)) is amended by striking “1997 and 2002”.

SEC. 319. FEDERAL AGRICULTURAL RESEARCH FACILITIES

SEC. 320. WATER QUALITY RESEARCH, EDUCATION, AND COORDINATION

Section 1484(d) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5501) is amended by striking “1997” and inserting “2002”.

SEC. 321. NATIONAL GENETICS RESOURCES PROGRAM

Section 1635(b) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5844b) is amended by striking “1997” and inserting “2002”.

SEC. 322. AGRICULTURAL TELECOMMUNICATIONS PROGRAM

Section 1673(h) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5925(h)) is amended by striking “1997” and inserting “2002”.

SEC. 323. ASSISTIVE TECHNOLOGY PROGRAM FOR FARMERS WITH DISABILITIES

Section 1690 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5933) is amended—

(1) in subsection (a)(6)(B), by striking “1997” and inserting “2002”;

(2) in subsection (b)(2), by striking “1997” and inserting “2002”.

SEC. 324. NATIONAL RURAL INFORMATION CENTER CLEARINGHOUSE

Section 2381(e) of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5936a) is amended by striking “1997” and inserting “2002”.

SEC. 325. CRITICAL AGRICULTURAL MATERIALS ACT

Section 16(a) of the Critical Agricultural Materials Act (7 U.S.C. 178a(a)) is amended by striking “1997” and inserting “2002”.

Subtitle B—Repeals

SEC. 341. AQUACULTURE RESEARCH FACILITIES

Section 1476 of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S.C. 3323) is repealed.

SEC. 342. AGRICULTURAL RESEARCH PROGRAM UNDER NATIONAL AGRICULTURAL RESEARCH, EXTENSION, AND TEACHING POLICY ACT AMENDMENTS OF 1990

Subsection (b) of section 1432 of the National Agricultural Research, Extension, and Teaching Policy Act Amendments of 1990 (Public Law 97–98; 7 U.S.C. 3222 note) is repealed.

SEC. 343. LIVESTOCK PRODUCT SAFETY AND INSPECTION PROGRAM

Section 1670 of the Food, Agriculture, Conservation, and Trade Act of 1990 (7 U.S.C. 5923) is repealed.
agricultural products.

activities to enhance the quality of high-value.

gate and manage research and extension activi-
ties that is designed to increase long-
term, site specific and whole farm produc-
tion and profitability.

Agricultural inputs includes all farm manage-
ment, agronomic, and field applied agricul-
tural production inputs, such as machinery,
labor, time, fuel, irrigation water, com-
cercial nutrients, feed stuffs, veterinary drugs
and vaccines, livestock waste, crop protec-
tion chemicals, agronomic data and informa-
tion collection and management services,
seed, and other inputs used in agriculture
production.

gate research and development entities, and Fed-
eral funds for the operation of the partner-
schaft shall carry out this subtitile may be
retained by the Secretary to pay administra-
tive costs incurred by the Secretary to carry
out this subtitile.

Subtitle B—Precision Agriculture

SEC. 411. DEFINITIONS.

For purposes of this subtitile: (a) PRECISION AGRICULTURE.—The term "precision agriculture technologies and systems research approach that would in-
crease long-term, site-specific and whole farm production efficiencies, productivity, and profit-
ability while minimizing unintended impacts on wildlife and the environment by—
(a) combining agricultural sciences, agri-
cultural input and management practices,
advisory board established under section
of the National Agricultural Research,
Extension, and Teaching Policy Act of 1977 (7

(2) guaranteeing funds in excess of
the amounts required by subsection (c).

(c) MATCHING FUNDS.—An eligible partner-
ship shall contribute an amount of non-Fed-
eral funds for the operation of the partner-
ship that is at least equal to the amount of
grant funds received under this subtitile.

(d) LIMITATION ON USE OF GRANT FUNDS.—
Funds appropriated to carry out this subtitile
may be used for the planning, repair, rehabilita-
tion, acquisition, or construction of a build-
ing or facility.

SEC. 404. AUTHORIZATION OF APPROPRIATIONS
AND RELATED PROVISIONS.

(a) AUTHORIZATION OF APPROPRIATIONS.—
There are authorized to be appropriated such
funds as may be necessary to carry out this subtitile for each of the fiscal years 1998 through
2002.

(b) LIMITATION ON ADMINISTRATIVE COSTS.—
Not more than four percent of the funds ap-
propriated to carry out this subtitile may be
retained by the Secretary to carry administra-
tive costs incurred by the Secretary to carry
out this subtitile.

Subtitle B—Precision Agriculture

SEC. 411. DEFINITIONS.

For purposes of this subtitile: (a) PRECISION AGRICULTURE.—The term "precision agriculture technologies and systems research approach that would in-
crease long-term, site-specific and whole farm production efficiencies, productivity, and profit-
ability while minimizing unintended impacts on wildlife and the environment by—
(a) combining agricultural sciences, agri-
cultural input and management practices,
advisory board established under section
of the National Agricultural Research,
Extension, and Teaching Policy Act of 1977 (7

(2) guaranteeing funds in excess of
the amounts required by subsection (c).

(c) MATCHING FUNDS.—An eligible partner-
ship shall contribute an amount of non-Fed-
eral funds for the operation of the partner-
ship that is at least equal to the amount of
grant funds received under this subtitile.

(d) LIMITATION ON USE OF GRANT FUNDS.—
Funds appropriated to carry out this subtitile
may be used for the planning, repair, rehabilita-
tion, acquisition, or construction of a build-
ing or facility.

SEC. 404. AUTHORIZATION OF APPROPRIATIONS
AND RELATED PROVISIONS.

(a) AUTHORIZATION OF APPROPRIATIONS.—
There are authorized to be appropriated such
funds as may be necessary to carry out this subtitile for each of the fiscal years 1998 through
2002.

(b) LIMITATION ON ADMINISTRATIVE COSTS.—
Not more than four percent of the funds ap-
propriated to carry out this subtitile may be
retained by the Secretary to carry administra-
tive costs incurred by the Secretary to carry
out this subtitile.

Subtitle B—Precision Agriculture

SEC. 411. DEFINITIONS.

tion, acquisition, or construction of a build-

Subtitle B—Precision Agriculture

SEC. 411. DEFINITIONS.

For purposes of this subtitile: (a) PRECISION AGRICULTURE.—The term "precision agriculture technologies and systems research approach that would in-
crease long-term, site-specific and whole farm production efficiencies, productivity, and profit-
ability while minimizing unintended impacts on wildlife and the environment by—
(a) combining agricultural sciences, agri-
cultural input and management practices,
and the potential benefits of precision agriculture as it relates to increased long-term farm production efficiencies, productivity, profitability, and the maintenance of the environment. The establishment of a national program to educate agricultural producers and consumers, including family owned and operated farms.

(c) GRANT PRIORITIES.—In making grants to eligible entities under subsection (a), the Secretary, in consultation with the Advisory Board, may make competitive grants to groups that have demonstrated expertise regarding precision agriculture; nonprofit organizations with demonstrable potential benefits of precision agriculture; commodity organizations, veterinaries, other agencies of the Department of Agriculture, colleges and universities with demonstrable expertise regarding precision agriculture; and Federal agencies and other partners that include land-grant colleges and universities, land-grant colleges and universities for the establishment of appropriate multi-state and national commodity research systems research projects involving on-farm research, education, and information dissemination components in a practical and readily available manner so that the findings of the project will be made readily usable by farmers.

(3) Demonstrate the efficient use of agricultural practices that limit the environmental reduction in the use of agricultural inputs.

(4) Maximize the involvement and cooperation of precision agriculture producers, certified state cooperative extension services agents, agricultural input machinery, product and service providers, non-profit organizations, agribusiness, veterinarians, land-grant colleges and universities, and Federal agencies in precision agriculture system research projects involving on-farm research, education, and information dissemination.

(5) Maximize collaboration with multiple agencies and other partners that include the leveraging of funds and resources.

(6) THE AMOUNT OF A GRANT UNDER THIS SUBTITLE.—The amount of a grant under this section for the purpose of developing and related activities associated with the establishment of appropriate multi-state and national commodity research systems research projects involving on-farm research, education, and information dissemination components in a practical and readily available manner so that the findings of the project will be made readily usable by farmers.

(c) AVAILABILITY OF FUNDS.—Funds made available under paragraph (a) shall be available for obligation for a two-year period beginning on October 1 of the fiscal year for which the funds are made available.

Subtitle C—Other Initiatives

SEC. 421. HIGH-PRIORITY RESEARCH AND EXTENSION INITIATIVES.

Section 1672 of the Food, Agriculture, Conservation, and Related Agencies Appropriations Act of 1997 (7 U.S.C. 9525) is amended to read as follows:

"SEC. 1672. HIGH-PRIORITY RESEARCH AND EXTENSION INITIATIVES.

(A) IDENTIFYING, EVALUATING, AND DEMONSTRATING INNOVATIVE TECHNOLOGIES.—Research and extension grants may be made under this section to a consortium of land-grant colleges and universities for the purpose of identifying, evaluating, and demonstrating innovative technologies for animal waste management and odor control; and

(B) CONDUCTING INFORMATION WORKSHOPS TO DISSEMINATE THE RESULTS OF SUCH RESEARCH.—Research and extension grants may be made under this section for the purpose of disseminating the results of such research."
under this section for the purpose of improving pest management, fiber quality enhancement, economic assessment, textile production, and optimized production systems for short- and long-fiber types of cotton.

"(15) Methyl bromide research and extension.—Research and extension grants may be made under this section for the purpose of investigating the impact on aquatic food webs, especially commercially important aquatic species and their habitats, of microorganisms of the genus Pfiesteria and other microorganisms that are a threat to human or animal health.

"(17) Potato research and extension.—Research and extension grants may be made under this section for the purpose of developing and evaluating new strains of potatoes which are resistant to blight and other diseases, as well as insects. Emphasis may be placed on potato varieties that lend themselves to innovative marketing approaches.

"(18) Wood utilization research and extension.—Research and extension grants may be made under this section for the purpose of developing new uses for wood from underutilized tree species as well as investigating methods of modifying wood and wood fibers to produce better building materials.

"(19) Low-bush blueberry research and extension.—Research and extension grants may be made under this section for the purpose of evaluating methods of propagating and developing low-bush blueberry as a marketable crop.

"(20) Formosan termite eradication research and extension.—Research and extension grants may be made under this section for the purpose of—

(A) conducting research for the control, management, and possible eradication of Formosan termites in the United States, and

(B) collecting data on the effectiveness of research projects conducted under this paragraph.

"(21) Swine waste management and odor control research and extension.—Research and extension grants may be made under this section for the purpose of investigating the microbiology of swine waste and developing improved methods to effectively manage air and water quality in animal husbandry.

"(22) Wetlands utilization research and extension.—Research and extension grants may be made under this section for the purpose of developing wetlands for multiple uses to provide various economic, agricultural, and environmental benefits.

"(23) Wild pampas grass control and eradication research and extension.—Research and extension grants may be made under this section for the purpose of control, management, and eradication of wild pampas grass.

"(24) Pathogen detection and limitation research and extension.—Research and extension grants may be made under this section for the purpose of providing research, development, or education materials, information, and outreach programs regarding financial, environmental, or health risks associated with the control and eradication of a plant pathogen, herbicide, introduced species, pesticides, or other potential invaders or pests.

"(25) Financial risk management research and extension.—Research and extension grants may be made under this section for the purpose of identifying and developing strategies and investment tools to improve the financial and economic management of agricultural producers and for cooperatives and other processors and marketers of any agricultural commodity.

"(26) Okinawa tropical fish research and extension.—Research and extension grants may be made under this section for the purpose of meeting the needs of commercial and recreational producers and processors of tropical fish and aquatic plants for improvements in the areas of fish reproduction, health, nutrition, marketing and packaging, predation control, water quality control, and farming technology.

"(27) Sheep scab research and extension.—Research and extension grants may be made under this section for the purpose of investigating the genetic aspects of scab in sheep.

"(28) Animal waste management at rural/urban interfaces.—Research and extension grants may be made under this section for the purpose of identifying, evaluating, and demonstrating innovative techniques, technologies, management (including odor control) in rural areas adjacent to urban or suburban areas in connection with waste management activities undertaken in the vicinity of such areas.

"(29) Gypsy moth research and extension.—Research and extension grants may be made under this section for the purpose of developing biological control, management, and eradication methods against nonnative insects, including Lymantria dispar (commonly known as the Gypsy Moth), that contribute to significant agricultural, economic, or environmental harm.

"(30) Dairy efficiency, profitability, and competitiveness research and extension.—Research and extension grants may be made under this section for the purpose of improving the efficiency, profitability, and competitiveness of dairy production on farms that are heavily dependent on manufacturing uses of milk.

"(31) Animal feed research and extension.—Research and extension grants may be made under this section for the purpose of maximizing nutrition management for livestock, while limiting risks, such as mineral bypass, associated with livestock feeding practices.

"(32) Forestry research and extension.—Research and extension grants may be made under this section to develop and distribute new, high-quality, science-based information for the purpose of improving the long-term productivity of forest resources and contributing to forest-based economic development by addressing such issues as forest land use policies, multiple-use forest management, including wildlife habitat development, improved forest products, and timber supply, and improved development, manufacturing, and marketing of forest products.

"(33) Authorization of Appropriations.—There are authorized to be appropriated for each of the fiscal years 1998 through 2002 such sums as may be necessary to carry out the purposes of this subsection.

(34) United States-Mexico joint agricultural research and extension initiative.—Subtitle I of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 is amended by inserting after section 1457 (7 U.S.C. 2352) the following new section:

"SEC. 1458. UNITED STATES-MEXICO JOINT AGRICULTURAL RESEARCH AND EXTENSION INITIATIVE.

"(a) Research and Development Program.—The Secretary may provide for an agricultural and development program with the United States/Mexico Foundation for Science, which will focus on bionational problems facing agricultural producers and consumers in the United States and Mexico, in particular pressing problems in the areas of food safety, plant and animal pest control,
and the natural resources base on which agriculture depends.

"(b) Administration.—Grants under the research and development program shall be awarded competitively through the Foundation.

"(c) Matching Requirements.—The provision of funds to the Foundation by the United States Government shall be subject to the condition that the Government of Mexico match, on at least an equal ratio, any funds provided by the United States Government.

"(d) Non-Federal Funds.—Funds provided under this section may not be used for the planning, repair, rehabilitation, acquisition, or construction of a building or facility.

SEC. 424. COMPETITIVE GRANTS FOR INTERNATIONAL AGRICULTURAL SCIENCE AND EDUCATION PROGRAMS.

Subtitle I of the National Agricultural Research, Extension, and Teaching Policy Act of 1997 (7 U.S. C. 5902 et seq.) is amended by inserting after section 1459, as added by section 423, the following new section:

"SEC. 1459A. COMPETITIVE GRANTS FOR INTERNATIONAL AGRICULTURAL SCIENCE AND EDUCATION PROGRAMS.

"(a) Competitive Grants Authorized.—The Secretary may make competitive grants to colleges and universities in order to strengthen United States economic competitiveness and to promote international market development.

"(b) Purpose of Grants.—Grants under this section shall be directed to agricultural research, extension, and teaching activities that will—

"(1) enhance the international content of the curricula in colleges and universities so as to prepare students to acquire an understanding of the international dimensions and trade implications of their studies;

"(2) ensure that United States scientists, extension agents, and educators involved in agricultural research and development activities outside of the United States have the opportunity to convey the implications of their activities and findings to their peers and students in the United States and to the users of agricultural research, extension, and teaching activities outside of the United States;

"(3) enhance the capabilities of colleges and universities to do collaborative research with other countries, in cooperation with other colleges and universities, and with United States students studying abroad;

"(4) enhance the capabilities of colleges and universities to provide cooperative extension education activities outside of the United States to strengthen United States agricultural competitiveness;

"(5) enhance the capability of United States colleges and universities, in cooperation with other Federal agencies, to provide leadership and educational programs that will assist United States natural resources and food production, processing, and distribution businesses and industries to compete internationally, including product market identification, international policies limiting or enhancing market production, development of new or enhancement of existing markets, and production efficiencies.

"(c) Authorization of Appropriations.—There are authorized to be appropriated such sums as may be necessary to carry out this section.

SEC. 425. FOOD ANIMAL RESIDUE AVOIDANCE DATABASE PROGRAM.

(a) Continuation of Program.—The Secretary of Agriculture shall continue operation of the Food Animal Residue Avoidance Database program established under section 521(a) of the Federal Food, Drug, and Cosmetic Act (21 U.S. C. 360a(a)), and shall—

"(1) make available to the public through handbooks, telephone hotline, and the Internet;

"(2) maintain up-to-date information concerning—

(A) withdrawal times on FDA-approved food animal drugs and appropriate withdrawal periods for drugs used in food animals in the United States, as established under section 512(a) of the Federal Food, Drug, and Cosmetic Act (21 U.S. C. 360b(a));

(B) official biocides and pesticides in tissues, eggs, and milk;

(C) descriptions and sensitivities of rapid screening tests for detecting residues in tissues, eggs, and milk; and

(D) data on the distribution and fate of chemicals in food animals;

(3) publish periodically a compilation of food animal drug withdrawal times approved by the Food and Drug Administration;

"(b) Activities.—In carrying out the FARAD program, the Secretary of Agriculture shall—

"(1) provide livestock producers, extension specialists, and veterinarians with information to prevent drug, pesticide, and environmental contaminant residues in food animal products;

"(2) maintain up-to-date information concerning—

(A) withdrawal times on FDA-approved food animal drugs and appropriate withdrawal periods for drugs used in food animals in the United States, as established under section 512(a) of the Federal Food, Drug, and Cosmetic Act (21 U.S. C. 360b(a));

(B) official biocides and pesticides in tissues, eggs, and milk;

(C) descriptions and sensitivities of rapid screening tests for detecting residues in tissues, eggs, and milk; and

(D) data on the distribution and fate of chemicals in food animals;

(3) publish periodically a compilation of food animal drug withdrawal times approved by the Food and Drug Administration;

(4) make information on food animal drugs available to the public through handbooks, telephone hotline, and the Internet;

(5) furnish producer-quality-assurance programs with up-to-date data on approved drugs;

(6) maintain a comprehensive and up-to-date, residue avoidance database;

(7) provide professional advice for determining the necessary for food safety in the use of drugs in food animal products;

(8) engage in other activities designed to promote food safety;

(9) enhance the international content of the curricula in colleges and universities so as to prepare students to acquire an understanding of the international dimensions and trade implications of their studies;

(10) ensure that United States scientists, extension agents, and educators involved in agricultural research and development activities outside of the United States have the opportunity to convey the implications of their activities and findings to their peers and students in the United States and to the users of agricultural research, extension, and teaching activities outside of the United States;

(11) enhance the international content of the curricula in colleges and universities so as to prepare students to acquire an understanding of the international dimensions and trade implications of their studies;

(12) ensure that United States scientists, extension agents, and educators involved in agricultural research and development activities outside of the United States have the opportunity to convey the implications of their activities and findings to their peers and students in the United States and to the users of agricultural research, extension, and teaching activities outside of the United States;

(13) enhance the capabilities of colleges and universities to do collaborative research with other countries, in cooperation with other colleges and universities, and with United States students studying abroad;

(14) enhance the capabilities of colleges and universities to provide cooperative extension education activities outside of the United States to strengthen United States agricultural competitiveness;

(15) enhance the capability of United States colleges and universities, in cooperation with other Federal agencies, to provide leadership and educational programs that will assist United States natural resources and food production, processing, and distribution businesses and industries to compete internationally, including product market identification, international policies limiting or enhancing market production, development of new or enhancement of existing markets, and production efficiencies.

(16) Authorization of Appropriations.—There are authorized to be appropriated such sums as may be necessary to carry out this section.

SEC. 427. THOMAS JEFFERSON INITIATIVE FOR CROP DIVERSIFICATION.

(a) Initiative Required.—The Secretary of Agriculture shall provide for a research initiative (to be known as the "Thomas Jefferson Initiative for Crop Diversification") for the purpose of conducting research and development, in cooperation with other public and private entities, on the production and marketing of new and nontraditional crops to strengthen the United States agricultural production base of the United States. The initiative shall include research and education efforts regarding new and nontraditional crops designed—

"(1) to identify and overcome agronomic barriers to profitable production;

"(2) to identify and overcome other production and marketing barriers;

(3) to develop processing and utilization technologies for new and nontraditional crops;

(b) Purposes.—The initiative is established—

(1) to develop a focused program of research and development at the regional and national level to overcome barriers to development of new and nontraditional crops for farmers and related value-added enterprise development in rural communities; and

(2) to ensure a broad-based effort encompassing research, education, market development, and support of entrepreneurial activities, leading to increased agricultural diversification.

(c) Establishment of Initiative.—The Secretary shall coordinate the initiative through a nonprofit center or institute that will coordinate research and education programs in cooperation with other public and private entities. The Secretary shall administer research and education grants made under this section.

(d) Regional Emphasis.—The Secretary shall support development of multi-State regional efforts in crop diversification. Of funding made available to carry out the initiative, 50 percent shall be used for regional efforts centered at land-grant colleges and universities in order to facilitate site-specific crop development efforts.

(e) Eligible Grantees.—The Secretary may award grants under this section to colleges or universities, nonprofit organizations, public agencies.

(f) Administration of Grants and Contracts.—Grants awarded through the initiative shall be selected on a competitive basis. The recipient of a grant may use a portion of the grant funds for contractual arrangements with research institutions, such as for test processing of a new or nontraditional crop.
There are authorized to be appropriated such sums as may be necessary to carry out this section.

SEC. 428. INTEGRATED RESEARCH, EDUCATION, AND EXTENSION COMPETITIVE GRANTS PROGRAM.

(a) PURPOSE.—It is the purpose of this section to authorize the Secretary of Agriculture to establish an integrated research, education, and extension competitive grant program to provide funds for integrated, multi-functional research, education, and extension activities.

(b) COMPETITIVE GRANTS AUTHORIZED.—Subject to the appropriation of funds to carry out this section, the Secretary may award grants to colleges and universities (as defined in section 1404(4) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3004(4))) on a competitive basis for integrated research, education, and extension projects in accordance with the provisions of this section.

(c) CRITERIA FOR GRANTS.—Grants under this section shall be awarded to address priorities in United States agriculture, determined by the Secretary in consultation with the National Agricultural Research, Extension, Education, and Economics Advisory Board, which involve integrated research, education, and extension activities.

(d) MATCHING OF FUNDS.—(1) GENERAL REQUIREMENT.—If a grant under this section is to the particular benefit of a single agricultural commodity, the Secretary shall require the recipient of the grant to provide funds or in-kind support to match the amount of funds provided by the Secretary in the grant.

(2) WAIVER.—The Secretary may waive the matching funds requirement specified in paragraph (1) with respect to a grant if the Secretary determines that—

(A) the results of the project, while of particular benefit to a specific agricultural commodity, are likely to be applicable to agricultural commodities generally; or

(B) the project involves a minor commodity, deals with scientifically important research, and the grant recipient would be unable to satisfy the matching funds requirement.

(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated such sums as may be necessary for each of the fiscal years 1998 through 2002 to carry out this section.

The Equity in Educational Land-Grant Status Act of 1994 (Public Law 103-390; 7 U.S.C. 301 note) is amended by adding at the end the following new section—

"SEC. 336. RESEARCH GRANTS.

'(a) RESEARCH GRANTS AUTHORIZED.—The Secretary of Agriculture may make grants under this section on the basis of a competitive application process (and in accordance with such regulations that the Secretary may promulgate) to the 1994 Institution to assist the 1995 Institution to conduct agricultural research that addresses high priority concerns of tribal, national, or multi-state significance.

(b) REQUIREMENTS.—Grant applications submitted under this section shall certify that the research to be conducted will be performed under a cooperative agreement with at least one other land-grant college or university (exclusive of another 1994 Institution).

'(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out this section for each of the fiscal years 1998 through 2002. Amounts appropriated shall remain available until expended.''

TITLE V—MISCELLANEOUS PROVISIONS

SEC. 503. ROYALTY FREE PATENTS AND PUBLICATIONS REGARDING FOOD AND AGRICULTURAL SCIENCES RESEARCH, EDUCATION, AND EXTENSION.

The Secretary of Agriculture shall be the principal official in the executive branch responsible for coordinating all Federal research and extension activities related to food and agricultural sciences.

SEC. 502. OFFICE OF PEST MANAGEMENT POLICY.

(a) OBJECTIVE.—The establishment of an Office of Pest Management Policy pursuant to this section is intended to provide for the effective coordination of agricultural policies and activities within the Department of Agriculture related to pesticides and the development and management of tools, while taking into account the effects of regulatory actions of other government agencies.

(b) ESTABLISHMENT OF OFFICE; PRINCIPAL RESPONSIBILITIES.—The Secretary of Agriculture shall establish the Office of Pest Management Policy, which shall be responsible for—

(1) the development and coordination of Department of Agriculture policy on pest management and pesticides;

(2) the coordination of activities and services of the Department, including research, extension, and education activities, regarding the development and use of economically and environmentally sound pest management tools and practices;

(3) assisting the Department in fulfilling its responsibilities related to pest management or pesticides under the Food Quality Protection Act of 1996 (Public Law 104-170; 110 Stat. 1489), the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 136 et seq.), the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), or other law; and

(4) performing such other functions as may be required by law or prescribed by the Secretary.

(c) INTERAGENCY COORDINATION.—In support of its responsibilities under subsection (a), the Office of Pest Management Policy shall provide leadership to ensure coordination of interagency activities with the Environmental Protection Agency, the Food and Drug Administration, and other Federal and State agencies.

(d) OUTREACH.—The Office of Pest Management Policy shall consult with agricultural producers that may be affected by pest management or pesticide-related activities or actions of the Department or other agencies as necessary in carrying out the responsibilities of such Office under this section.

(e) DIRECTOR.—The Office of Pest Management Policy shall be under the direction of a Director appointed by the Secretary, who shall report directly to the Secretary or a designee of the Secretary.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out this section.

SEC. 504. NUTRIENT COMPOSITION DATA.

(a) IN GENERAL.—The Secretary of Agriculture shall update, on a periodic basis, nutrient composition data.

(b) REPORT.—Not later than 180 days after the date of the enactment of this Act, the Secretary shall submit to Congress a report that describes—

(1) the method the Secretary will use to update nutrient composition data, including the methodology that will be used and the method for generating the data; and

(2) the timing for updating the data.

SEC. 505. AVAILABILITY OF FUNDS RECEIVED OR COLLECTED ON BEHALF OF NATIONAL ARBORETUM.

Section 6(b) of the Act of March 4, 1927 (20 U.S.C. 196(b)), is amended by striking "Treasury" and inserting "Treasury. Amounts in the special fund shall be available to the Secretary of Agriculture, without further appropriation."

SEC. 506. RETENTION AND USE OF AGRICULTURAL RESEARCH SERVICE PATENT CULTURE COLLECTION FEES.

All funds collected by the Agricultural Research Service of the Department of Agriculture in connection with the acceptance of microorganisms for deposit in, or the distribution of microorganisms from, the Patent Culture Collection, or the costs of maintaining and operating the Patent Culture Collection, shall be credited to the appropriation supporting the maintenance and operation of the Patent Culture Collection. The collected funds shall be available to the Agricultural Research Service, without further appropriation or fiscal-year limitation, to carry out its responsibilities under law (including international treaty) with respect to the Patent Culture Collection.
SEC. 507. REIMBURSEMENT OF EXPENSES IN- 
CURRED UNDER SHEEP PRO- 
MOTION, RESEARCH, AND INFORMA- 

Using funds available to the Agricultural 
Marketing Service, the Service may reim- 
burse the American Sheep Industry Associa-
tion for expenses incurred by American 
Sheep Industry Association between Feb-
ruary 6, 1996, and May 17, 1996, in pre-
paration for the establishment of a sheep in-
dustry promotion, research, education, and infor-
mation order under the Sheep Promotion, Re-
search, and Information Act of 1994 (7 U.S.C. 
7101 et seq.).

SEC. 508. DESIGNATION OF KIKA DE LA GARZA 
SUBTROPICAL AGRICULTURAL RE- 
taining Center, WESLACO, TEXAS.

(a) DESIGNATION.—The Federal facilities 
located at 2413 East Highway 83, and 2301 
South International Boulevard, in Weslaco, 
Texas, and known as the Subtropical Agri-
cultural Research Center, shall be known 
and designated as the "Kika de la Garza Sub-
tropical Agricultural Research Center".

(b) REFERENCE.—By reference in a law, 
map, regulation, document, paper, or other 
record of the United States to the Federal fa-
cilities referred to in subsection (a) shall be 
deemed to be reference to the "Kika de la 
Garza Subtropical Agricultural Research Center".

SEC. 509. SENSE OF CONGRESS REGARDING AGR- 
cultural Research Service Emphasis on In Field Research Re-
garding Methyl Bromide Alternatives.

It is the sense of Congress that, of the Agri-
cultural Research Service funds made 
available for a fiscal year for research re-
garding development for agricultural use of 
alternatives to methyl bromide, the Sec-
retary of Agriculture should use a substan-
tial portion of such funds for research to be 
conducted by or for the Subtropical Agri-
cultural Research Center, and for par-
ticular pre-planting and post-harvest condi-
tions, so as to expedite the development and 
commercial use of methyl bromide alter-
natives.

SEC. 510. SENSE OF CONGRESS REGARDING IM-
portance of School-Based Agri-
cultural Education.

It is the sense of Congress that the Sec-
retary of Agriculture and the Secretary of 
education should collaborate and cooperate in 
providing curricular and technical support for 
school-based agricultural edu-
cation.

SEC. 511. SENSE OF CONGRESS REGARDING DES-
pination of Department Crisis 
Management Team.

(a) DESIGNATION.—The Federal facilities 
located at 2413 East Highway 83, and 2301 
South International Boulevard, in Weslaco, 
Texas, and known as the Subtropical Agri-
cultural Research Center, shall be known 
and designated as the "Kika de la Garza Sub-
tropical Agricultural Research Center".

(b) REFERENCE.—By reference in a law, 
map, regulation, document, paper, or other 
record of the United States to the Federal fa-
cilities referred to in subsection (a) shall be 
deemed to be reference to the "Kika de la 
Garza Subtropical Agricultural Research Center".

(c) Cooperation.—The Department of A-
griculture should collaborate and cooperate in 
providing curricular and technical support for 
school-based agricultural edu-
cation.
merit review of all USDA and U.S. research programs, provides for greater accountability in the development of Federal research priorities, and greater dependence on cost-sharing through requirements for matching funds.

Mr. Speaker, I reserve the balance of my time.

Mr. STENHOLM. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of the bill, H.R. 2534, as amended, the Agricultural Research, Extension, and Education Reauthorization Act of 1997.

I am pleased to report that this bill is the result of a bipartisan effort in the House Committee on Agriculture and incorporates suggestions from both the providers and the users of agricultural research.

The bill, as amended, will provide for the continuation of our Nation's historic commitment to agricultural research and productivity. It was through this commitment that our Nation developed an agricultural sector that is the undisputed technological leader of the world. Our commitment to agricultural research has allowed us to produce more food on less land. As a result producers have the option of devoting environmentally sensitive land to other uses.

Among the provisions of this bill, as amended, is language to do the following: Increase merit review of federally funded agricultural research and extension; improve mechanisms for feedback from users of agricultural technology; and expand open competition for grant funds. In addition, we have included in the committee report a provision that was inadvertently left out in the committee report which would rename the Weslaco Agricultural Research Station as the Kika de la Garza Subtropical Agricultural Research Center.

H.R. 2534, as amended, stretches every Federal dollar by directing many grant programs to require matching funds from non-Federal sources. Additionally, this legislation places new emphasis on genetics and biotechnology, research cooperation and the development of new crops.

As we look toward a future with greater reliance on international competition and exports, it is even more critical that we maintain our Nation's leadership in agricultural research. The modest reforms and the priorities in this legislation will help to ensure continued U.S. leadership in both agricultural research and production well into the next century.

I urge all Members to support H.R. 2534, as amended.

Mr. Speaker, I reserve the balance of my time.

Mr. SMITH of Oregon. Mr. Speaker, I yield 3 minutes to the gentleman from Texas [Mr. COMBEST], who is chairman of the Subcommittee on Forestry, Resource Conservation and Research of the Committee on Agriculture.

Mr. COMBEST. Mr. Speaker, I rise today in support of H.R. 2534, the Agricultural Research, Extension, and Education Reauthorization Act of 1997, and I, as the gentleman from Oregon [Mr. SMITH], would like to thank several of my colleagues as well, certainly beginning with the chairman of the subcommittee Mr. SMITH, the gentleman from Texas [Mr. STENCHOLM], the ranking member of the full committee, and the gentleman from California [Mr. DOOLEY], ranking member on the subcommittee, for their work and cooperation in bringing this bill to the floor.

This bill has been a bipartisan effort from the beginning to enjoy working with all parties involved.

As chairman of the subcommittee with jurisdiction over ag research programs, I held four hearings this summer to hear testimony from researchers, farmers and others who the research is intended to benefit. We attempted to craft this bill to reflect some of their recommendations. This bill also reflects many recommendations of the Department of Agriculture.

Mr. Speaker, I believe it is critical that we maintain a strong public and private research effort in order for American agriculture to continue to be profitable and competitive in the global marketplace. Despite the many accidents that Americans enjoy the most abundant and affordable supply of food and fiber of any country in the world.

More people are fed and clothed today from crops grown with increased efficiency and limited resources. Research efforts have led to a sixfold increase in agricultural productivity over the last 4 decades. Almost 50 years ago the number of people fed by 1 farmer was 15. Today 1 farmer is able to feed 96 other people. Research into farming techniques and improved seed culture research program. It ensures some modest reforms in our agri-
consumers and our economy by further understanding the intricacies and opportunities with plant genome research.

There is more that can be done, though, and I hope we will find a way that we can ensure that even greater cooperation on the allocation of our Federal dollars occurs so we can assure that our taxpayers get the greatest return from the Federal investment they are making in agriculture research.

Mr. SKEEN. Mr. Speaker, I yield 1 minute to the gentleman from New Mexico [Mr. SKEEN] the chairman of the Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies of the Committee on Appropriations.

Mr. SKEEN. Mr. Speaker, I thank the gentleman for yielding me time. I appreciate the time.

What I am rising to say is, this is a good bill coming out of the House of Representatives. I appreciate the fact that we have had a lot of cooperation and the ability to work together with the gentleman from Oregon [Mr. SMITH].

However, I do want to say that the companion bill in the Senate is a problem. It allocates $1.2 billion in entitlement spending, and we will certainly want to watch what happens. What the outcome of the conference will be is important, because I think this is a misuse of the process and it is an abuse of this particular category of bill. We will watch.

Mr. Speaker, we will take a long hard look and see what the Senate comes up with. Maybe we can twist a few ears over there.

Mr. STENHOLM. Mr. Speaker, I yield 2 minutes to the gentlewoman from North Carolina [Mrs. CLAYTON].

Mrs. CLAYTON. Mr. Speaker, I thank the gentleman for yielding me time.

I also want to compliment the bipartisan leadership that brought this bill forward, and particularly the gentleman from Oregon [Mr. SMITH], the gentleman from Texas [Mr. STENHOLM], the gentleman from Texas [Mr. COMBEST], and the gentleman from California [Mr. DOOLEY].

I also want to speak to the value of the research components, both in the research area and the extension area, and some of the expansion of education programs, not only those that are reauthored by the renewal of the new initiatives and new ways of ensuring not only that we have a new reform but that we include new research items.

Particularly I am interested in bringing to your attention the inclusion of PFISTERIA. That has indeed been a troublesome bacteria that has plagued our waterways, both our fish and human areas. I am also appreciative in the land grant colleges, that there was the opportunity for the 1890 colleges to participate.

However, I have a concern. I have the concern that there is the potential, not through the bill we have passed, indeed, I voted for that bill and will encourage people to vote for this one as well, but in the conference activity. I hope that we do not attempt to use that savings, all of that savings, not to go for food needs of hungry people, particularly those persons for food stamps who were denied food stamps through the normal process of people are suffering out there; also food stamp mothers who need those programs.

The potential of using $1.3 billion away from that, I think, is far too much. So I am urging the conferees not to allocate to support this bill, and I look forward to voting for the bill, I look forward to voting for the conference report that certainly has a better distribution of moneys coming from food stamps, savings from food stamps. It should not be dissipated out of that area; it should be included in that area.

Mr. SMITH of Oregon. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois [Mr. EWING], who is also the chairman of the Subcommittee on Risk Management and Speciality Crops of the Committee on Agriculture.

Mr. EWING. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, I rise in support of H.R. 2534, the Agricultural Research Extension and Education Reauthorization Act of 1997.

Mr. Speaker, this is the first comprehensive overhaul of agricultural research programs in 20 years. I think that is quite an achievement. The legislation is a critical step forward in meeting the increased demand for food in our world.

The bill improves the ability and capacity of participants in the U.S. food and agricultural sector to meet consumer needs for high-quality, safe, nutritious, affordable, and convenient food and other agricultural products and services.

The bill also will help American producers, the farmers of America, produce in a global market and compete. Innovative and meaningful research is vital to ensure that the United States remains at the forefront of the world's high-quality food production.

This bill creates many exciting new programs; for instance, the Food Genome Research Initiative, which is fundamental in developing new and improved uses of crops, improving their productive and marketing capacity, and generating high-quality, safe, and more affordable food products.

H.R. 2534 also establishes an Animal Waste Management Research Initiative, which will help address waste disposal issues faced by both the farm community and urban interests as well. Agricultural research continues to play a critical role in spurring our Nation's expanding economy. This legislation will help keep it that way for years to come.

Mr. Speaker, in closing, I want to thank the gentleman from Oregon [Mr. SMITH], our chairman; the ranking member, the gentleman from Texas [Mr. STENHOLM]; the gentleman from California [Mr. DOOLEY]; and, of course, the gentleman from Texas [Mr. COMBEST], for the fine work they have done on this legislation.

Mr. STENHOLM. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. FARR].

Mr. FARR of California. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, I rise in strong support of H.R. 2534, the Agricultural Research Extension and Education Reauthorization Act. I would like to thank the hard work that others have mentioned of the gentleman from Texas [Mr. COMBEST], the subcommittee chair; of the gentleman from California [Mr. DOOLEY] on our side; of the gentleman from Texas [Mr. STENHOLM]; and our chairman, the gentleman from Oregon [Mr. SMITH]. It is a great day for Williamette, Mr. Chairman.

Frankly, if you think of these people, you have got to thank their staffs, because they are the ones that have done such hard work on this important piece of legislation. It is not only important to America, but it is certainly important to California agriculture.

The farmers in my district are the most productive specialty crop growers in the world. They produce $2.5 billion worth of fresh row crops, vegetables, and horticultural crops each year. Mr. Speaker, I represent not only the salad bowl, but the flower bowl of the country. The agriculture industry is the backbone of the communities in my district, and they do this without Federal price supports.

This is a highly competitive field of agriculture. Research is one of the few ways that the Federal Government can help my farmers. I feel this legislation will help not just my farmers but all the farmers to be competitive into the next century.

I especially want to bring to your attention the language that I offered that was adopted in the markup that will greatly affect some of the farmers in my district and others in other parts of the country.

A high priority in the field of research is in the form of extension grants which will expedite the development of alternatives to methyl bromide. A fundamental change in the manner research is conducted in the Agriculture Research Service will help to avert the possible negative impacts on the American production as research will be directed to areas of greatest need as the phaseout date gets closer.

Mr. Speaker, the bill also contains an initiative for organic farming that will help this niche market to continue to grow. We have barely begun to tap the full potential of the organic farming systems. This initiative will provide greater support for the development of organic agriculture production, processing, and potential economic benefits associated with both domestic and foreign markets.
As we go to conference, I would like to echo the words stated earlier on the issue of the food stamps. We need to restore the food stamps, particularly to the children that have been affected and cut off by them. I am confident my colleagues will recognize the merit of this issue, and I look forward to their support.

Mr. STENHOLM. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. HALL].

Mr. HALL of Ohio. Mr. Speaker, I want to thank the gentleman for yielding me time, and certainly his great work in the whole agriculture field across this country; and the chairman of the committee, the gentleman from Oregon [Mr. SMITH], for his wonderful work; and the other members and staff.

I have no objection to this bill, certainly, going forward at this point, but I just want to say that I hope we are all perfectly clear that this budget-neutral bill will go to a conference with the Senate bill, H.R. 2110, that contains over $1.2 billion in new spending, offset by savings from prohibiting States from double-billing the Federal Government for food stamp administrative costs.

I do not have a problem with the offset, but it is, nevertheless, a huge amount of money coming out of the food stamp program. I understand that some of these funds may be needed for agriculture programs. However, in the final conference agreement, it is imperative that a substantial amount of savings be used to address what is perhaps the most pressing hunger problem facing the country today, and that is the need to restore food stamp benefits to the very poor refugees and legal immigrants in the community with children, especially those not receiving any SSI.

There is a strong consensus on this point among the religious community, the antihunger community, and the immigration community. So it will be difficult to support a final conference agreement that does not put a substantial amount of the Senate bill's administrative savings back into feeding hungry people, in particular vulnerable groups of legal immigrants and refugees who lost access to food stamps and now face real hardship.

I think many of my colleagues will be with me, hopefully, in sharing this view. I do know just in food in general, being a farmer from the upper home county of Dayton, OH, food is down across the country in almost every food bank and warehouse across this land. We really need to address this issue in a better way, and I hope we can do it through this bill.

Mr. SMITH of Oregon. Mr. Speaker, I yield 1 minute to the gentleman from Illinois [Mr. LAHOOD], a member of the committee.

Mr. LAHOOD. Mr. Speaker, I stand in the well today to encourage my colleagues to support H.R. 2534, the Research and Extension Reauthorization Act. The bill fulfills a commitment the Republican Congress made over 2 years ago to our Nation's farmers and ranchers. In return for a more market-oriented Federal farm policy, Congress would enact a more farmer-friendly tax policy that increase our investment in agriculture research as we head into the 21st century.

The Federal Government must continue to lead the way in market developments and in finding new ways to utilize America's grown products.

Mr. Speaker, upon passage today, we will have delivered on our promises.

I want to thank the gentleman from Texas [Mr. COMBEST], the chairman of the subcommittee, who I also see here earlier, and the gentleman from Oregon [Mr. DOOLEY], the ranking member, who I also see in the Chamber, for their leadership on this important issue, and also the gentleman from Oregon [Mr. SMITH], the chairman of the committee.

Strong agricultural research programs have enabled America's farmers and ranchers to produce the highest quality food and fiber in the world at competitive prices. H.R. 2534 updates and modernizes our research programs so that American farmers will maintain their competitive edge in an increasingly global market. From the start, I was committed to passing an agricultural research bill that does not put a substantial amount of money into the federal budget and focuses on an ever-increasing tight budget environment.

This country has for many years been referred to as the "breadbasket" to the world. We could not talk about America and her greatness without first acknowledging the role that the family farm has played, and we are the most productive country in the world. The family farm is largely responsible for these unprecedented accomplishments. We feel good about the bill before us and terrified of what may be coming out of the Senate in a conference report, and trying to figure out how best to deal with this situation and how best to begin to send a message here today that has to be dealt with and dealt with carefully.

With that in mind, I would like to respectfully inform my colleagues that I will be calling for a recorded vote on this bill in the hope that that will begin a conversation to ensure that our fears will not be founded when it comes back from the Senate.

Mr. SMITH of Oregon. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois [Mr. LAHOOD] a member of the committee.

Mr. LAHOOD asked and was given permission to revise and extend his remarks.

Mr. LAHOOD. Mr. Speaker, I stand in the well today to encourage my colleagues to support H.R. 2534, the Research and Extension Reauthorization Act. The bill fulfills a commitment the Republican Congress made over 2 years ago to our Nation's farmers and ranchers. In return for a more market-oriented Federal farm policy, Congress would enact a more farmer-friendly tax policy that increase our investment in agriculture research as we head into the 21st century.

The Federal Government must continue to lead the way in market developments and in finding new ways to utilize America's grown products.

Mr. Speaker, upon passage today, we will have delivered on our promises.

Strong agricultural research programs have enabled America's farmers and ranchers to produce the highest quality food and fiber in the world at competitive prices. H.R. 2534 updates and modernizes our research programs so that American farmers will maintain their competitive edge in an increasingly global market. From the start, I was committed to passing an agricultural research bill that does not put a substantial amount of money into the federal budget and focuses on an ever-increasing tight budget environment.

This country has for many years been referred to as the "breadbasket" to the world. We could not talk about America and her greatness without first acknowledging the role that the family farm has played, and we are the most productive country in the world. The family farm is largely responsible for these unprecedented accomplishments. We feel good about the bill before us and terrified of what may be coming out of the Senate in a conference report, and trying to figure out how best to deal with this situation and how best to begin to send a message here today that has to be dealt with and dealt with carefully.

With that in mind, I would like to respectfully inform my colleagues that I will be calling for a recorded vote on this bill in the hope that that will begin a conversation to ensure that our fears will not be founded when it comes back from the Senate.

Mr. SMITH of Oregon. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois [Mr. LAHOOD], a member of the committee.

Mr. LAHOOD asked and was given permission to revise and extend his remarks.

Mr. LAHOOD. Mr. Speaker, I stand in the well today to encourage my colleagues to support H.R. 2534, the Research and Extension Reauthorization Act. The bill fulfills a commitment the Republican Congress made over 2 years ago to our Nation's farmers and ranchers. In return for a more market-oriented Federal farm policy, Congress would enact a more farmer-friendly tax policy that increase our investment in agriculture research as we head into the 21st century.

The Federal Government must continue to lead the way in market developments and in finding new ways to utilize America's grown products.

Mr. Speaker, upon passage today, we will have delivered on our promises.
I am sure the gentleman has heard some of these; in fact, I think I heard some remarks just as I was walking in with regard to that, and I would earnestly like to ask the chairman to give full consideration to this, because if we do not, I am afraid we will lose the Governors, as I understand they have continued to find objections to this, and a large number of our welfare agencies have objections to the Senate language, it is going to cause some difficulty. I would hope that many of the Democrats to vote for the bill. I want to see this bill passed very solidly, as the gentleman knows. So I would just call that to the gentleman's attention, and if he can in any way ameliorate the impact of that Senate language, why, it would be very much appreciated by me and I am sure by many others on this side, and we will see if we cannot emerge with a bill that can be supported from which I know will be good for agriculture.

Mr. STENHOLM. Mr. Speaker, I have no additional speakers on this side, and I yield myself the remainder of the time.

The controversy that has been talked about on both sides of the aisle concerning the Senate bill will have to be resolved in conference, as all legislation is resolved in conference. Getting us to the floor today was not an easy endeavor, and the gentleman from Texas [Mr. COMBEST], the chairman of the subcommittee, and the gentleman from California [Mr. DOOLEY], the ranking member, and all members of the subcommittee should be commended on their job of resolving some very, very strong differences; and as they have stated, they were not totally satisfied with their work, as I would agree with them, but they have done the best they could. I think that there were few differences on this bill, but when there were, we resolved them so that we will have unanimous support from both Democrats and Republicans from the Committee on Agriculture, and as we should from this House of Representatives, because we were very careful to make sure that Members' concerns were answered in committee, as we have always done.

This committee, my colleagues will find, they have not found already, is very concerned about its bipartisanship, and it is very concerned about bringing regions of this great Nation together on agriculture, which we have been very successful in doing. And here again, we come before the House with a unanimous effort.

Now, the issues that have been discussed indeed are very difficult issues. Any time there is $1.25 billion at stake, Members become very anxious about where they are spending how they are spending, which priorities they may be spent. We hear all of those concerns.

I particularly want to acknowledge, as the gentleman from Oregon [Mr. SMITH] did earlier, and the gentleman from New Mexico [Mr. SKEEN], that we have had a very good working relationship on this bill between the appropriators in the House and Senate on Agriculture. That is something that we have not had as good a relationship in years past as we now have.

I will just say in concluding that this Member will do everything on our part, work with My colleagues, and I expect on appropriations and on the Committee on Agriculture, to work in the conference to see that we satisfy a majority of the House Members in resolving this issue. I would hope that all of our colleagues would join with us today in passing this legislation at this moment today so that we might get to that conference and work those out in the same spirit of cooperation that has brought us here today.

Mr. Speaker, I yield back the balance of my time.

Mr. SMITH of Oregon. Mr. Speaker, I yield myself the remainder of my time.

Mr. Speaker, make no mistake about this. This Bill has nothing to do with the program that we have heard from several Members. This bill, as we call it, is a very clean reauthorization bill of the research title, which has not been reauthorized for some many years now. The subcommittee and the full committee I think found that there were few differences on this bill, but when there were, we resolved them so that we will have unanimous support from both Republicans and Democrats from the Committee on Agriculture, and as we should from this House of Representatives, because we were very careful to make sure that Members' concerns were answered in committee, as we have always done.

This committee, my colleagues will find, they have not found already, is very concerned about its bipartisanship, and it is very concerned about bringing regions of this great Nation together on agriculture, which we have been very successful in doing. And here again, we come before the House with a unanimous effort.

Now, the issues that have been discussed indeed are very difficult issues. Any time there is $1.25 billion at stake, Members become very anxious about where they are spending how they are spending, which priorities they may be spent. We hear all of those concerns.

The conference committee will be made up of Republicans and Democrats, most of whom we see here today. So Members' concerns have been heard, and our job now is to try to sit down in this very short time with the Senate and see if there is any way that we can take care of the concerns that we have in the House and complement them with the Senate.

So I urge my colleagues to support this bill. It is an important position that we take now. There is about 28
billion dollars’ worth of research here that is authorized, reauthorized. It is essential to this Nation if we are indeed going to be competitive throughout the world.

Mr. SOUDER. Mr. Speaker, I support H.R. 2534, Research, Extension, and Education Reauthorization Act for 1997. I have had the opportunity to meet with farmers, producers, and processors from northeast Indiana, as well as Dean Vic Lechtenberg of Purdue University’s School of Agriculture. They have emphasized that the excellent research and extension education system of our land grant universities and the USDA has allowed U.S. agriculture to provide the lowest cost and highest quality food supply in the world.

As you know, agriculture is an extremely important industry, not only to my home State of Indiana, but many other parts of the country as well.

In the 1996 farm bill, we made great strides in bringing agriculture production into a new era of technological competitiveness. As American agriculture relies more on world markets, it is imperative that its technology and human resources continue to be strong.

Without superb technology and an outstanding education system, U.S. producers and processors will be unable to compete effectively with other nations where labor and other costs are less.

There is little doubt that our agricultural industry will need the necessary tools to compete in the global market with technology based research.

The passage of this legislation will provide State cooperative extension service systems and State university agricultural research programs the necessary tools to help direct this country in the future and allow it to continue to be a world leader in agriculture.

As we work toward making sure that our Nation’s books are balanced, we must not do so at the expense of a safe, dependable, and abundant food supply.

We simply must maintain agricultural research and funding at adequate levels to ensure that U.S. agriculture can remain competitive. For these reasons, I encourage my colleagues to support this very important bill.

Mr. SMITH of Oregon. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Oregon [Mr. SMITH] that the House suspend the rules and pass the bill, H.R. 2534, as amended.

The question was taken.

Mr. SERRANO. Mr. Speaker, on that demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Oregon [Mr. SMITH] and the Chair’s prior announcement, further proceedings on this motion will be postponed.

The SPEAKER pro tempore (Mr. PEASE). Is there objection to the request of the gentleman from Oregon? There was no objection.

SENSE OF HOUSE REGARDING TACTILE CURRENCY FOR BLIND AND VISUALLY IMPAIRED

Mr. BAKER. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 122) expressing the sense of the House of Representatives regarding tactile currency for the blind and visually impaired.

The Clerk read as follows:

H. Res. 122

Whereas currency is used by virtually everyone in everyday life, including blind and visually impaired persons;

Whereas the Federal reserve notes of the United States are inaccessible to individuals with visual impairments;

Whereas the Americans with Disabilities Act enhances the economic independence and equal opportunity for full participation in society by individuals with disabilities; whereas most blind and visually impaired persons are therefore required to rely upon others to determine denominations of such currency;

Whereas this constitutes a serious impediment to independence in everyday living;

Whereas bill identification will always be more fallible than purely tactile means;

Whereas tactile currency already exists in 23 countries worldwide;

Whereas the currency of the United States is presently undergoing significant changes for security purposes.

Now, therefore, be it

Resolved, That the House of Representatives—

(1) endorses the efforts recently begun by the Bureau of Engraving and Printing to upgrade the currency for security reasons; and

(2) strongly encourages the Secretary of the Treasury and the Bureau of Engraving and Printing to incorporate cost-effective, tactile features into the design changes, thereby including the blind and visually impaired community in independent currency usage.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Louisiana [Mr. BAKER] and the gentleman from New York [Mr. FLAKE] each will control 20 minutes.

The Chair recognizes the gentleman from Louisiana [Mr. BAKER].

Mr. BAKER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this legislation has a very noncontroversial purpose, which intends to update our currency to include tactile markings. This is a change which I believe will be certainly of value to all Americans.

It is important to recognize the efforts of the Secretary of the Treasury and the Bureau of Engraving and Printing in this regard of improvement. As our currency is constantly updated for security purposes, a new low-vision feature has been added in the form of a high-contrast, large numeral denoting the denomination of the bill. This change is already helping many Americans with vision difficulty.

House Resolution 122 takes these efforts one step further by initiating the incorporation of tactile marking in our currency. This relatively minor change will have significant impact not only on individuals who have vision problems, but on all Americans that are visually impaired.

Mr. Speaker, I want to express my appreciation to Chairman LEACH and subcommittee chairman, the gentleman from Delaware [Mr. CASTLE] for their support and assistance with the resolution; also, the ranking member, the gentleman from New York, Mr. LA-FELICE and Mr. FALCE for their support and courtesy in facilitating this.

I also want to express my appreciation to the American Academy of Ophthalmology and the National Federation of the Blind for their technical assistance in drafting this proposal.

I want to mention in connection with this resolution that I am particularly pleased to have worked with the Federation. They have been a leading force in our country in helping all of us acquire a more rational understanding of blindness. That has certainly been the case as we worked together on this particular matter. The Federation notes that although the visually impaired are currently able to use and handle their money, this additional step will facilitate safer and more secure transactions.

It is important, Mr. Speaker, that we examine and move forward in designing different forms of currency for use in the decades ahead. In that process, it will be important to consult with experts who have relevant knowledge, such as those in the Federation. This will ensure that the conversion of our currency occurs in a manner that is both cost-conscious and beneficial to everyone.

Mr. Speaker, I reserve the balance of my time.

Mr. FLAKE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of the resolution offered by the gentleman from Louisiana [Mr. BAKER]. To the extent that the Bureau of Engraving and Printing can accommodate the visually impaired during the future redesigns of currency, it should do so.

The availability of technology and materials exist today to do a great number of things with respect to the issue of anticontering. I would hope that the same technology may be used to make our visually impaired citizens more comfortable in their everyday business transactions.

Indeed, we have seen at newsstands and stores there have been technological advances which have allowed those who are salespersons and others to be able to function, even though they are, in many instances, visually impaired. It is only right that we give this opportunity to all of the citizens of this Nation. It is right, it is fair, it is appropriate.

I also recognize that we must not diminish the general market acceptance of our currency. Therefore, I would not...
expect radical designs under the resolution which the gentleman from Louisi-
an [Mr. BAKER] has presented. Never-
theless, I support the idea and the ef-
fort of this well-intentioned resolution.

I would hope that this body would see fit to pass it, because I think it is the
right thing to do for those of our citi-
zens who are visually impaired and can
benefit greatly by our response to their
needs today.

Mr. Speaker, I have no further re-
quests for time, and I yield back the bal-
ance of my time.

Mr. BAKER. Mr. Speaker, I yield my-
sel- such time as I may consume.

Mr. Speaker, I wish to express my ap-
preciation to the gentleman from New
York for his courtesies and support.

Mr. Speaker, I yield back the balance of
my time.

The SPEAKER pro tempore. The
question is on the motion offered by
the gentleman from Louisiana [Mr. BAKER]
that the House suspend the
rules and agree to the resolution,
House Resolution 122.

The motion to reconsider was laid on
the table.

VETERANS' CEMETERY
PROTECTION ACT OF 1997

Mr. McCOLLUM. Mr. Speaker, I move
to suspend the rules and pass the
Senate bill (S. 813) to amend chapter 91
of title 18, United States Code, to pro-
vide criminal penalties for theft and
willful vandalism at national cemeter-
ies.

The Clerk read as follows:

S. 813

Be it enacted by the Senate and House of Rep-
resentatives of the United States of America in
Congress assembled,

SECTION 1. SHORT TITLE. This Act may be cited as the "Veterans' Cemetery Protection Act of 1997".

SEC. 2. SENTENCING FOR OFFENSES AGAINST PROPERTY AT NATIONAL CEMETORIES.

(a) IN GENERAL. Pursuant to its authority under section 994 of title 28, United States Code, the United States Sentencing Commis-
sion shall review and amend the Federal sen-
tencing guidelines to provide a sentencing enhancement of not less than 2 levels for any offense against the property of a national cemetery.

(b) COMMISSION DUTIES. In carrying out subsection (a), the Sentencing Commission shall ensure that the sentences, guidelines, and policy statements for offenders con-
cicted of an offense described in that sub-
section are:

(1) appropriately severe; and

(2) reasonably consistent with other rel-
vant directives and with other Federal sen-
tencing guidelines.

(c) DEFINITION OF NATIONAL CEMETERY. In this section, the term "national cemetery" means a cemetery—

(1) in the National Cemetery System
established under section 2400 of title 38, United States Code;

(2) under the jurisdiction of the Secretary of the Army, the Secretary of the Navy, the

Secretary of the Air Force, or the Secretary of the Interior.

The SPEAKER pro tempore. Pursuant
to the rule, the gentleman from Florida [Mr. McCOLLUM] and the gen-
tleman from New York [Mr. NADLER] each have 5 minutes.

The Chair recognizes the gentleman from Florida [Mr. McCOLLUM].

Mr. McCollum. Mr. Speaker, I ask
unanimous consent that all Members may have unanimous legislative days within
which to revise and extend their re-
marks on the Senate bill under consid-
eration.

The SPEAKER pro tempore. Mr. McCollum, you have 5 minutes.

Mr. McCollum. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the four- and six-level enhancements which the House bill re-
quired.

Although I am somewhat dis-
appointed that the Senate has chosen
to lower the enhancement levels, I am
hearing that the Senate's position is
not irreconcilable. The Senate version still retains a specific direction to the
Sentencing Commission to increase
penalties for these crimes by at least
two, four, and six levels if such property was stolen or unlawfully sold.

The Senate recently passed S. 813, which is the bill before us today, its
version of the Veterans Cemetery
Protection Act, with an amendment. The
Senate version differs slightly from the
House-passed version. It directs the
Sentencing Commission to increase
penalties for these crimes by at least
two, four, and six levels if property of the national cemetery was injured or defaced, and by at least
six levels if such property was stolen or unlawfully sold.

For over a year I have worked
hard to introduce a certain piece of leg-
islation which I think overcomes all
our differences, goes beyond party af-
filiation, and shows the American peo-
lple that when all is said and done, that
this Congress is one, that it can be
united.

Today especially as we go into Veter-
ans Day weekend, and Tuesday, No-
ember 11, as Members know, is Veter-
ans Day. I cannot think of any legisla-

tion which comes at a more ap-
proprite time than that of the Veter-
ans Cemetery Protection Act, introduced
in the House by the noble gentleman
from California [Mr. CALVERT], and in
the Senate by the author of this bill on
the House side Mr. McCollum. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, when a young man or
woman enters the military, which
some do voluntarily, they do so in
order to protect our country and guard
us against the uncertainties of the
world. Sometimes they make the ultimate sacrifice. Over 1 million Ameri-
cans have died fighting this country's wars. That is why it sickens me when I
hear of ingrates and degenerates desec-
rating our national cemeteries.

In 1996, Riverside National Cemetary in California, the second largest in the Nation next to Arlington Cemetery in Virginia, fell prey to a
Mr. Speaker, enough is enough. The Veterans Cemetery Protection Act would stiffen criminal penalties for theft and malicious vandalism at cemeteries. S. 813, the companion bill to my H.R. 1532, as amended, would stiffen criminal penalties for theft and malicious vandalism at national cemeteries.

S. 813 will require the U.S. Sentencing Commission to review and amend the sentencing guidelines to enhance penalties resulting from national cemetery desecrations and theft. The bill ensures that the sentences, guidelines, and policy statements for the offenders convicted of an offense are appropriately severe and reasonably consistent with other relevant directives and with other Federal sentencing guidelines.

S. 813 seeks to protect the 114 VA national cemeteries, along with other cemeteries under the jurisdiction of the Secretary of the Army, the Secretary of the Navy, the Secretary of the Air Force, and the Secretary of Interior.

Joseph Frank, National Commander of the American Legion, stated, “Deliberate acts of vandalism against the final resting place of American fallen comrades must not be tolerated.” According to the Paralyzed Veterans of America News, “Demeaning and degrading the final resting place of veterans with the ultimate sacrifice for the Nation and their loved ones strikes at all veterans and all Americans.” This bill addresses their concerns.

The Veterans Cemetery Protection Act has received the endorsement and support of numerous veterans and military organizations. I wish to recognize and thank the men and women of the Noncommissioned Officers Association of the United States of America, the Paralyzed Veterans of America, the American Legion, the Fleet Reserve Association, the Enlisted Association of the National Guard, the Veterans of Foreign Wars, the Disabled American Veterans, the Blinded Veterans Association, AmVets, and others who have expressed their support for this legislation.

Let there be no doubt, this is the Congress’ gift to them and those who have gone before them. I wish to thank over 245 Members of this House of Representatives who have cosponsored this bill.

I would especially like to thank the gentleman from Hawaii [Mr. Abercrombie] and his staff members, Lee-Ann Adams and Vivian Wolf for their support and leadership on this issue, the gentleman from Florida [Mr. McCollum] and his staff member, Nicole Nason, for their help and guidance in making S.813 a reality; to the gentleman from Illinois [Mr. Hyde] and his staff for passing this measure out of the Committee on the Judiciary in an expeditious manner; and to the gentleman from Texas [Mr. Armey] and his floor staffer, Siobhan McGill, for their help in passing this bill; and to my own staff, especially Nelson Garcia, who led on this issue.

I would like to thank my fellow colleagues from the Inland Empire, the gentlemen from California, Mr. Brown, Mr. Lewis, and Mr. Bono, for their help in the early stages of this bill. Being so close to Veterans Day, I solemnly ask my colleagues to put all our differences aside, accept Senate bill, S. 813, and pass the Veterans Cemetery Protection Act.

Let this be a gift of Congress to our Nation’s veterans.

Mr. McCollum. Mr. Speaker, I reserve the balance of my time.

Mr. Nadler. Mr. Speaker, I ask unanimous consent to reclaim my time.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. Nadler. Mr. Speaker, I yield 5 minutes to the distinguished gentleman from Hawaii [Mr. Abercrombie].

Mr. Abercrombie. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, despite the subject matter, which I am sure the gentleman from California [Mr. Calvert] has explained very clearly, this is in fact a happy day. That is to say that with the introduction of the bill today, the Senate bill, S. 813, we will have addressed a very, very serious matter in a timely fashion, which is to say that the President will have the opportunity, hopefully, to sign this bill, perhaps as early as Veterans Day, upcoming Veterans Day.

Mr. Speaker, I rise today then to urge my colleagues to support passage of S. 813, the Veterans Cemetery Protection Act, as amended by the Senate Committee on the Judiciary. The gentleman from California [Mr. Calvert] and I first introduced this bill in the House, and I am happy that we were able to work with the Senate to bring their version to the floor today for passage.

As I indicated, it is appropriate that we are able to take up this bill as Veterans Day approaches. This bill instructs the U.S. Sentencing Commission to significantly increase criminal penalties for theft and willful vandalism at national cemeteries.

First, Mr. Speaker, I would like to take some time to thank the gentleman from California [Mr. Calvert], who gave me the opportunity to work with him on this, and I am pleased that together we have been successful in our effort to move this bill through Congress.

I might say as well, Mr. Speaker, that I have had an opportunity to work with the gentleman from California [Mr. Calvert] as the ranking member on his subcommittee and the Committee on Resources, to this, and it has been an extraordinarily enjoyable experience for me, legislatively and personally, to be associated with him.

I would also like to sincerely thank the gentleman from Arizona [Mr. Stump] and the gentleman from Illinois [Mr. Hyde] for recognizing the need for this legislation and for working with us, the gentleman from California [Mr. Calvert] and myself, and giving us their support in moving this issue forward. The gentleman from California [Mr. Calvert] has been extraordinarily patient in this endeavor, and I very much appreciate it.

I would likewise like to thank the gentleman from Florida [Mr. McCollum], who has also made a significant contribution to this bill, and I would like to extend my personal gratitude to him. I have had the opportunity to work with him in other areas as well, juvenile justice for one. And I appreciate the opportunity to extend to him my personal congratulations in helping to get this forward and extend to him my personal thanks.

On April 19, 1997, Mr. Speaker, seven Oahu cemeteries on the Island of Oahu in the State of Hawaii, including the National Cemetery of the Pacific at Punchbowl and the Hawaii Veterans Cemetery, were vandalized. Vandals used red spray paint to write racist and profane words on the markers and cemetery and chapel walls. It is obvious that nothing is, in fact, sacred to the people who committed this act. Strict penalties must be enacted to send the message that we will not allow this type of behavior to continue unchecked.

As we have heard from the gentleman from California [Mr. Calvert], this was not the only desecration of a national cemetery to occur in the country. Unfortunately, another crime is on the rise. On May 18, 1997, the New Jersey National Cemetery was also vandalized just prior to Memorial Day. These acts are an insult to the veterans who gave their lives to ensure our freedom and to their families. Further, it is an affront to all men and women who have served or are presently serving in our Nation’s Armed Forces.

I regret to say, Mr. Speaker, but it is entirely a proper thing, and I think it is just yesterday, that I arrived a little too late to know whether the gentleman from California [Mr. Calvert] entered this into the Record, but there...
was a Scripps Howard News Service story just yesterday, "Vandalism Rising At Veterans Cemeteries." Coincidental, Mr. Speaker, of course, to the passage of the bill today, but very pertinent in terms of asking the Members to support this legislation to make a technical correction. "Lawmakers hope President Clinton will sign the bill into law on Veterans Day, on Tuesday."

I want to indicate that under the sentencing guidelines which I mentioned, in case it has not been made a part of the Record, it gives guidelines to the judges, directing them to increase the penalties for convictions of theft and vandalism at the national cemeteries. The measure before us would set prison terms for up to 10 years for anyone convicted of vandalism causing more than $1,000 damage and up to 15 years for thefts at the national cemeteries.

I would like to conclude, Mr. Speaker, by indicating that today we are voting to send that message that we will not forgive any sentences made by those who made the ultimate sacrifice and that we will not tolerate further desecration of our Nation's cemeteries.

Mr. MCCOLLUM. Mr. Speaker, I yield 2 minutes to the gentleman from New York, Mr. GILMAN.

(Mr. GILMAN asked and was given permission to revise and extend his remarks.)

Mr. GILMAN. Mr. Speaker, I rise today in strong support of the Veterans Cemetery Protection Act. I commend the gentleman from California [Mr. CALVERT] and the gentleman from Hawaii [Mr. ABERCROMBIE] and the gentleman from Florida [Mr. MCCOLLUM] for bringing this measure to the floor at this time.

This bill tightens penalties for any offence against properties of national veterans' cemeteries. Current statutes do not include any sentencing guidelines for theft, vandalism, or desecration of national cemeteries, only generic provisions against damaging Federal property.

In the wake of several incidents of theft, vandalism, and desecration, as has been enumerated by our colleagues today, at national cemeteries last year in California, Hawaii, New Jersey, and other States, I think it is appropriate that we penalize those who have perpetrated these acts of crime to deter this kind of reprehensible behavior. We owe no less to those who gave so much for all of us.

Accordingly, I urge my colleagues to join in support of this worthy measure.

Mr. NADLER. Mr. Speaker, I yield back the balance of my time.

Mr. MCCOLLUM. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

AMERICAN LEGION INCORPORATION TECHNICAL CORRECTION
Mr. MCCOLLUM. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1377) to amend the act incorporating the American Legion to make a technical correction.

The Clerk read as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 5 of the Act entitled "An Act to Incorporate the American Legion", approved September 16, 1919 (41 Stat. 265; 36 U.S.C. 45) is amended by striking "December 22, 1961" and inserting "February 28, 1961".

The SPEAKER pro tempore. Mr. PEASE. Is there objection to the request of the gentleman from Florida [Mr. MCCOLLUM] and the gentleman from New York [Mr. NADLER] each will control 20 minutes.

The Chair recognizes the gentleman from Florida [Mr. MCCOLLUM].

GENERAL LEAVE
Mr. MCCOLLUM. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks on S. 1377, the Senate bill under consideration.

The SPEAKER pro tempore. Mr. PEASE is recognized.

Mr. PEASE. Is there objection to the request of the gentleman from Florida [Mr. MCCOLLUM] and the gentleman from New York [Mr. NADLER] each will control 20 minutes.

The Chair recognizes the gentleman from Florida [Mr. MCCOLLUM].

Mr. MCCOLLUM. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of S. 1377. This is a very simple bill. The purpose of the bill is to expand the American Legion membership eligibility dates for Vietnam-era veterans. It merely changes the dates within the confines of the American Legion Charter.

Under this bill, the commencement date of the Vietnam Conflict in the American Legion Charter will be defined as February 28, 1961, instead of the current date, which is December 22, 1961. February 28 is the date that United States Army advisers first accompanied South Vietnamese troops on patrols.

This modification tracks strictly the dates which the Veterans Administration uses in awarding benefits to Vietnam veterans. I wish to emphasize that the bill even changes the American Legion Charter and has no effect on any benefits paid to Vietnam veterans or any other effect. This bill will have no cost.

Mr. Speaker, I reserve the balance of my time.

Mr. Speaker, I yield myself such time as I may consume.

Mr. NADLER. Mr. Speaker, the gentleman from Florida [Mr. MCCOLLUM] has adequately explained this bill. It is a very simple bill. It does something which we certainly should do, to enable those American veterans who served in the Armed Forces after February 28, 1961, when the first American troops accompanied South Vietnamese troops on patrol, but prior to December 22, 1961, which is the current date in the current legislation in the incorporating charter of the American Legion, to enable them to join the American Legion. This does track the change Congress made for veterans' benefits. I hope that this bill is unanimously approved.

Mr. Speaker, I reserve the balance of my time.

Mr. MCCOLLUM. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. GILMAN].

(Mr. GILMAN asked and was given permission to revise and extend his remarks.)

Mr. GILMAN. Mr. Speaker, I am pleased to rise in strong support of S. 1377, the American Legion Membership Eligibility Act, which changes the date from which those persons may qualify for veterans' benefits through association with their service during the Vietnam war. At present, anyone in the service on or before December 22, 1961, qualifies. The bill modifies that date of eligibility to February 28, 1961, and in so doing, codifies the Veterans Administration practice of using the earlier dates and expands the number of veterans eligible for various benefits and for membership in the American Legion.

Accordingly, I urge my colleagues to join in supporting this legislation, which provides eligibility assistance to our veterans who served in the Vietnam war and who seek recognition by the American Legion.

I thank the gentleman from Florida [Mr. MCCOLLUM] for yielding me the time. I want to commend the gentleman for bringing this measure to the floor at this time.

Mr. HYDE. Mr. Speaker, I am also in support of S. 1377. I have introduced an identical bill, H.R. 2835, which expands the Vietnam-era eligibility dates for membership in the American Legion. It is very significant that the House is voting on this veterans bill on the eve of November 11th, Veterans Day. Hopefully this great Nation can remember its veterans throughout the year, not only in November. The American Legion, founded September 16, 1919, is a great organization and is well deserving of our full support. I urge a favorable vote on this important legislation.

Mr. NADLER. Mr. Speaker, I yield back the balance of my time.

Mr. MCCOLLUM. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Florida [Mr. MCCOLLUM] that the House suspend the rules and pass the Senate bill, S. 1377.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

DISAPPROVING CANCELLATIONS TRANSMITTED BY PRESIDENT

Mr. PACKARD. Mr. Speaker, I move to suspend the rules and pass the bill.
(H.R. 2631) disapproving the cancellations transmitted by the President on October 6, 1997, regarding Public Law 105-45.

The Clerk reads as follows:
H.R. 2631

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Congress disapproves of cancellations 97-4, 97-5, 97-6, 97-7, 97-8, 97-9, 97-10, 97-11, 97-12, 97-13, 97-14, 97-15, 97-16, 97-17, 97-18, 97-19, 97-20, 97-21, 97-22, 97-23, 97-24, 97-25, 97-26, 97-27, 97-28, 97-29, 97-30, 97-31, 97-32, 97-33, 97-34, 97-35, 97-36, 97-37, 97-38, 97-39, 97-40, and 97-41 as transmitted by the President in a special message on October 6, 1997, regarding Public Law 105-45.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from California [Mr. PACKARD] and the gentleman from North Carolina [Mr. HEFTNER] each will control 20 minutes.

The Chair recognizes the gentleman from California [Mr. PACKARD].

Mr. SPEAKER. Mr. Speaker, I ask unanimous consent that all Members may provide five legislative days in which to revise and extend their remarks and that I may include tabular and extraneous material.

Mr. PACKARD. My time.

Mr. Speaker, I rise today in strong support of the resolution of disapproval of the President’s line item veto of the fiscal year 1998 military construction appropriations bill.

I would like to thank the gentleman from New Mexico [Mr. SKEEN], the gentleman from Kentucky [Mr. WHITFIELD], and the gentleman from Kentucky [Mr. Lewis] for their leadership on this resolution. They are the ones who initiated the resolution, and without them it would not be possible for us to have this debate and action today.

Many of us have different reasons, Mr. Speaker, for supporting this resolution. First, some of us, myself included, are strong supporters of the line item veto. I continue to be even though we are asking for this disapproval resolution to be passed. This group may have the best reason of all to support this resolution of disapproval.

The President must use this new power very carefully, fairly, and responsibly. Otherwise, the line item veto becomes an abusive and dangerous power in the hands of the President.

Second, those strongly opposed to giving this power to the President in the first place and have argued that it is unconstitutional, you should vote for this resolution on principle alone. Your reasoning? The President should not have the line item veto power in the first place and therefore should not use it in this instance.

Third, some of us have had to explain to our service men and women back home why their needs have been found less important than those of others and why they will not be getting the help they need this year. If you have any military construction projects in your State, and most States do, you should vote for this resolution regardless of what category each of our Members would fall into, they should share the responsibility to ensure that the President uses his new authority fairly, carefully, and responsibly. The line-item veto authority can only be effective if it is used properly to cut wasteful and unneeded spending. This resolution is being considered in this House today because the President used his line-item veto authority in this instance carelessly and casually and then admitted that he made several mistakes.

Congressional Quarterly reported on October 31 the following: “The White House issued a veto threat, even as it acknowledged that it had used erroneous data as the basis for striking 18 of the 38 projects from the law.”

In the White House press briefing shortly after the veto, OMB Director Franklin Raines said these exact words: “I believe that the great majority, if not the overwhelming majority, of these projects can make a contribution to our national defense.”

Mr. Speaker, the fact is our committee did not pork up the appropriations bill, and because of that this administration has to work harder to defend its cancellations. My subcommittee produced a responsible and frugal bill. There is not a single project in the bill that was not completely scrubbed and carefully scrutinized by my committee, the authorizing committee, the defense committee and the Pentagon. Each and every project included was done with the full support and endorsement of the Defense Department. The facts are each of these projects meet a validated military requirement. Each of these projects is executable in this fiscal year, and this bill is within the budget agreement signed by the President.

Mr. Speaker, nobody should claim that this bill contains unnecessary spending or is laden with pork. In fact, the contrary is true. Let me remind my colleagues that the bill we produced this year was $16.01 million less than last year’s 7 percent cut. Out of an $11.2 billion budget level 2 years ago, the fiscal year 1998 appropriations bill is $2 billion less. That reduction is over 20 percent in 2 years. The fact is if every other spending bill in the Congress was cut proportionately, we would not only have a balanced budget right now but a surplus of several billion dollars.

Mr. Speaker, when the President finds wasteful and unnecessary spending, he has the authority to cancel that spending, and he should use it. But when the President uses this power to cancel spending not because it is wasteful but for political or other reasons, Congress should exercise its authority to disapprove of his actions. Today this Congress has the opportunity to correct the mistakes the President has admitted making.

Mr. Speaker, as chairman of the subcommittee that appropriates this appropriations bill, I now ask my colleagues to support this resolution of disapproval not just to provide the much needed resources for our service men and women but to ensure that the line-item veto power is used fairly, carefully, and responsibly in the future. The entire Republican and Democratic leadership team supports this resolution of disapproval. I strongly urge every Member of this body to do the same.

Mr. Speaker, let me at this time also thank some of the very key people that have been so instrumental not only in the movement of this bill but also of helping us in this resolution of disapproval. The gentleman from Colorado [Mr. Hefner], the ranking member and the former chairman of this subcommittee, we have worked very closely with him; the gentleman from Florida [Mr. Goss], the gentleman from New York [Mr. Solomon], all of them have helped me. But first and foremost is the gentleman from North Carolina [Mr. Hefner], the ranking member and the former chairman of this subcommittee. He has been absolutely remarkable in his efforts to put together a good bill and also to get bipartisan support in this resolution of disapproval. The gentleman from Texas [Mr. Ortiz], the ranking member of the authorizing committee, also was very important in helping to craft and work with us on this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. Hefner. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would just like to speak about this resolution. I am the chairman of this subcommittee for quite a few years. In many instances we would pass this bill on a voice vote. We have prided ourselves in being a very bipartisan subcommittee. I would be remiss if I did not say that I think we have the finest staff on both sides, Democrats and Republicans, the finest staff anywhere in this House. They have done a remarkable job year after year to make sure that these projects are scrubbed and that there are no lightning rods in these bills. We have made a real effort to do the best that we could for our troops, our men and women in the service, and to help our Nation’s defense by having people that would resign and keep our military strong, and to keep our families intact where they would have a decent place to live and exist.

I would say the gentleman from California [Mr. Packard] made the speech. I had a nice speech here. I would be happy to send all the Members copies. But I would say this. I have the privilege of serving on two committees, I
serve on the Subcommittee on Military Construction that I was chairman of for a lot of years. The gentleman from California [Mr. PACKARD] and I have been very good friends for many years. I would say that I do not know of a finer, more dedicated Member in this House than the gentleman from California.

I also serve on the Subcommittee on National Security. I can equally say the same thing for the gentleman from Florida [Mr. YOUNG] who has been instrumental in adding health issues into the defense budget and a remarkable person in his own right. If we had the camaraderie in all the House that we have on this Subcommittee on Military Construction, I think life would be a little more pleasant for all of us.

Mr. Speaker, this is a bill that should not have been vetoed. I did not support the line-item veto. When the line-item veto bill was up, I stood in this well and I predicted what would happen on the line-item veto. I stick by those predictions. This is just the first part of the terrible things that can happen under line-item veto. I think some of my colleagues that voted for line-item veto would have a tendency to rethink at this point in time. This is a good bill. There are no lightning rods in it, there is no Lawrence Welk, there are no bicycle paths. This is a bill that stresses the quality of life for our men and women in service and training facilities.

The argument that was made that some of these projects were not ready to go, we have prided ourselves in making sure that any project that we fund would be ready to go in that fiscal year. For that reason, I strongly support the override of this bill and compliment the gentleman from Colorado [Mr. HEFLEY], all the Members on the Democratic side, the gentleman from California [Mr. PACKARD], and all the staff for putting this bill together. I would support an unanimous vote on overriding this veto.

Let me make one other point. In talking to people, they have said, "Well, I voted for line-item veto. I feel a little bit hypocritical about voting to override one of the first line items that was passed here." When Members signed up to support line-item veto, they did not sign up to support every time that a President, be he Democrat or Republican, would veto. They signed up to give the President some discretion to scrub the bills and make sure that there was no pork and waste in them. I do not think it is a bit hypocritical for anyone that supported line-item veto to support the override of this bill.

Mr. Speaker, I urge that everybody vote with us on overriding this line-item veto.

Mr. Speaker, I reserve the balance of my time.

Mr. PACKARD. Mr. Speaker, I yield 3 minutes to the gentleman from Colorado [Mr. HEFLEY], the chairman of the authorizing subcommittee.

Mr. HEFLEY. Mr. Speaker, I thank the gentleman from California, chairman of the Appropriations Subcommittee on Military Construction, for yielding me this time.

Mr. Speaker, we are going to hear a certain number of similarities or differences between what each of us that have worked so hard on these bills have to say. I think that is because there has never probably in the history of the Congress appropriation/authorization committees that have worked closer together or have worked in a more bipartisan spirit than these committees have. I appreciate from the gentleman from California [Mr. PACKARD] and the gentleman from North Carolina [Mr. HEFNER] so much the ability for us to work together like we have. We had the same criteria. We worked hard on that criteria. We struggled to make sure that everything absolutely met that criteria. I think we were all absolutely dumbfounded when the President chose to veto these particular bills.

Let me sum it up again. All of these projects would address validated requirements of the military services. We did not invent any of these projects. We did not come up out of our head and say, "Oh, that would be nice to do." These are things we demanded that the military programs move their head for us to put in them. They are based on information provided by the military departments when the legislation was being developed. All of the projects are executable in 1998—33 of the 38 canceled projects, 85 percent of them, are actually in the President's 5-year defense program. One in four were programmed by the administration for the fiscal year 2000 military construction program. The military construction appropriations and authorization bills were both within the limits established by the budget agreement. There is no wasteful or excessive spending here.

The White House and the Department of Defense programs were not made in the exercise of the line-item veto on the military construction proposals bill. To keep faith with the men and women in uniform and to improve their working conditions, their training environments and to enhance unit readiness, I believe the House should override the President's vetoes in this case.

The Line-Item Veto Act provides a process for reconsideration. As the gentleman from North Carolina [Mr. HEFNER] said, innate in supporting the line-item veto, and I supported the line-item veto and I still support it, but innate in that process is the ability of this body to disagree with what the President vetoed by them. That is what I ask us to do today. Let us disagree with the President. The President and the White House have already admitted mistakes were made, and that mistake in the administration's 5-year plan. I had originally expected to oppose this resolution because I felt that justice might best be served by making the White House and the Congress live with the consequences of their action on the line-item veto. But I think the manner in which the White House has handled these line-item vetoes in recent weeks is an affront to responsible government and deserves the type of public repudiation that this resolution provides. It is true that Members of Congress sometimes add items to legislation that are inconsistent with the overall purposes of that legislation and items that serve purposes too narrow to warrant the use of public funds. The same I would say of a good number of the proposals contained in each of the budgets of each of the six Presidents I have served under.

The question which the line-item veto raises was whether or not wiser decisions about the use of public funds could be made if the executive were given significant additional powers with respect to Government spending. I believe the experience we have had with the Clinton White House this fall answers the question. The President's exercise of the line-item veto has been objectionable for the following reasons in my view.

- First, staff incompetence. With respect to military construction, the first appropriation bill on which the line-item veto raised was fully in line with the Department of Defense's own 5-year plan. One third of the projects vetoed failed to meet the criteria established by the White House in the first place.

- Second, executive arrogance. The criteria established by the White House displayed wanton disregard for the constitutional role of the Congress in making decisions about spending. They were not narrow-purpose items, they were of limited public use. In fact, the overwhelming majority were contained in the Department of Defense's own 5-year construction plans. The purpose of the veto, therefore, was clearly a matter of insisting on administration priorities in spending over those of the Congress. The White House may want the Government to work its way, but the Founding Fathers did not.

- Third, political dealmaking. The White House has made it very clear from the outset that its use of the line-item veto is a matter of political discretion rather than objective policy. The Defense appropriation bill which contained nearly half of all discretionary spending and, in my view, more
Mr. Speaker, I yield 2 minutes to the gentleman from New Mexico [Mr. Skeen], chairman of the Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies of the Committee on Appropriations. (Mr. Skeen asked and was given permission to revise and extend his remarks.)

Mr. Skeen. Mr. Speaker, I yield 2 minutes to the gentleman from New Mexico [Mr. Skeen], chairman of the Subcommittee on Agriculture, Rural Development, Food and Drug Administration, and Related Agencies of the Committee on Appropriations. (Mr. Skeen asked and was given permission to revise and extend his remarks.)

Mr. Speaker. Mr. Speaker, I truly appreciate the statement that the gentleman from Wisconsin just made.

Mr. Speaker. Mr. Speaker, I yield 2 minutes to the gentleman from North Carolina [Mr. Hefner], the ranking member, for their work in shepherding this legislation on the floor.

One of my colleagues from Florida [Mrs. Fowler] has titled this bill the military construction line-item integrity bill as this legislation restores integrity to the line-item veto process by ensuring the decisions are made on the basis of fact and not mistakes. The Office of Management and Budget has acknowledged that mistakes were made which led to the President's line-item vetoes, and passage of the legislation would allow those mistakes to be corrected.

This bill has broad bipartisan support, and just yesterday the National Guard Association of the United States endorsed this bill. So I ask all of my colleagues in the House of Representatives to support the legislation to ensure that our laws are based on factual information, not mistakes and erroneous information.

Mr. Hefner. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas [Mr. Stenholm]. (Mr. Stenholm asked and was given permission to revise and extend his remarks.)

Mr. Stenholm. Mr. Speaker, I rise in strong support of this motion of disapproval and commend the gentleman from California [Mr. Packard] and the gentleman from North Carolina [Mr. Hefner] and others for their work.

Mr. Speaker, I yield today to express my support for H.R. 2631, the military construction veto disapproval. I have the privilege of representing Dyess Air Force Base in Abilene, TX. One of the 38 projects stricken from the military construction projects was in my district so I have a very personal interest in this legislation, but I believe that the President made the decision to strike many of projects in the bill based on poor advice and inaccurate information.

One of the reasons the President gave for vetoing these projects was that they did not meet a so-called “quality of life” requirement. I don’t know what the President’s definition of quality of life is, but I do know this: these 38 projects, which were eliminated included facilities to provide a safe working place for the men and women we entrust with the defense of our Nation.

In the case of the squadron operations facility to be built at Dyess Air Force Base, there are currently no existing facilities to house the 13th Bomb Squadron. Without this facility, the men and women of the 13th Bomb Squadron will be denied the tools they need to do their jobs.

How does this add to their quality of life or their ability to perform their function? Quality of life involves a great deal more than housing and child care facilities and gymnasia, although those are very important. I cannot imagine how the quality of work life could be much worse than importing 500 to 1,000 men and women to do a job without any facilities in which to house that work.

The projects line-item vetoed by the President were included in the military construction bill because they are essential to the mission and were included in the 5-year plans of the military services so that the money for these projects will be spent eventually. These projects were considered by four different congressional committees with expertise in the area of national security and were reviewed by the Pentagon. The House and the Senate voted by overwhelming majorities to approve the Military Construction Appropriation Act.

Yest the President and his staff acting in haste crafted a new criteria for military construction projects—quality of life. While I do not oppose the use of quality of life as a consideration for determining the merit of a project, it should not be the only criteria, and it should be clearly defined and fairly applied. In the case of the 13th Bomb Squadron Operations Facility and many of the other projects canceled by the President, it was not. The President incorrectly substituted his judgment for that of the Congress and the Pentagon.

I urge my colleagues to support our men and women in uniform by voting to override the President’s line-item veto to restore these previously approved projects.

Mr. Hefner. Mr. Speaker, I yield 2½ minutes to the gentleman from Texas [Mr. Ortiz], who has done yeoman work on this bill and also on the authorization bill.

Mr. Ortiz. Mr. Speaker, I rise today to strongly support H.R. 2631, the Military Construction Line Item Veto Integrity Act before this House today. As my colleagues know, we have done so much work these last few months. We have had some very interesting hearings trying to address the needs that we address when we had those hearings included in the authorization bill. I think we avoided some of these items that were vetoed.

Now, the administration has admitted that they made some mistakes when they line item vetoed some of these projects. This is why today I strongly request my colleagues to vote in favor of this legislation.

As my colleagues know, during these hearings that we had in reference to the military construction appropriations bills and the authorization bill, we raised and we saw the need. I wonder if my colleagues know that some of our pilots are getting out of the military after they serve 5, 6 years, and after we pay a million dollars to train our pilots they get out, and do my colleagues know why? It is because we have housing problems that now we are beginning to address in this bill today.

They tell me, as my colleagues know, we train, and then we are deployed to the different bases. We train and then we deploy at the same time when we are fighting to keep peace in these countries where we are assigned, we have to worry about our families. Why? Because the
plumbing does not work, because the electricity does not work, and then we expect our service people to stay when they have to serve under these conditions. They get better job offers in the outside.

But let us not forget that included in this bill also, there is a pay raise for service men and women who serve, as my colleagues know, in the military.

Again, I want Members to also remember that this has to lead back on pension. We will one of these days regret because we did not do what the servicemen, people, needs were never addressed, that they are going to be getting out of the military, and this is going to cost more money.

This is why I urge my colleagues to vote to override this bill today. It is a good bill, it is good for America.

Mr. PACKARD. Mr. Speaker, I yield 1 minute to the gentleman from Kentucky [Mr. WHITFIELD].

(Mr. WHITFIELD asked and was given permission to revise and extend his remarks.)

Mr. WHITFIELD. Mr. Speaker, I wanted to take this opportunity to commend the chairman, the gentleman from California [Mr. PACKARD], the gentleman from New Mexico [Mr. SKEEN], the gentleman from North Carolina [Mr. HEFNER], and all the others who have worked on this effort.

Mr. Speaker, I simply say that I rise in strong support of this resolution to disapprove this President's line-item veto of the fiscal year 1998 military construction appropriations bill. I rise in strong support of the resolution to disapprove the President's line-item veto of the fiscal year 1998 military construction appropriations bill.

Congressman SKEEN and I introduced resolutions disapproving the line-item veto of these 38 military construction projects. One of those projects—the construction of two vehicle maintenance shops totaling $9.9 million—was to be built at Fort Campbell, KY, located in my congressional district.

But whether or not you have a project eliminated by this veto should not be your only concern.

What should concern you is the process.

Under the provisions of the Line Item Veto Act, the disapproval resolution is the only means we have to register our objection or dissatisfaction with the programs or projects targeted for elimination or the manner in which they were selected. I am very pleased that Chairman and Ranking Member HEFNER support us in this effort.

Depending on which report you read, as many as 18 projects proposed for elimination in this line-item veto proposal should never have been included on the list, including the vehicle maintenance shops at Fort Campbell. As a matter of fact, in testimony before the House National Security Committee on October 22, 1997, Maj. Gen. Clair F. Gill, Deputy Assistant Secretary of the Army for Budget, testified that the Fort Campbell project is 90 percent design complete, not zero percent as had been proposed at one time. Once the President used the design status to determine which projects should be eliminated, he acted based on erroneous information. The bottom line is a mistake was made, and the vehicle maintenance shops at Fort Campbell should not have been included in the list of vetoed projects.

I voted to give the President line-item veto authority, and I still believe it is an appropriate power to further reduce unnecessary spending.

But the decisions on which projects or programs should be eliminated should be based on the criteria defined in the line-veto message. That did not happen in this case.

Two units at Fort Campbell are scheduled to receive the new vehicle maintenance shops. The 235 soldiers assigned to those units currently work in facilities constructed over 50 years ago that were built to last for only five years. They are too small and improperly designated for efficient and safe maintenance activities. They have old and faulty electrical wiring which caused a fire in October 1991, destroying one building; they have inoperable and unserviceable vehicle exhaust systems; and they have inadequate lighting and are combustible. The current buildings contain asbestos and lead-based paint and they have no oil/water separators. Any way you look at it, the current maintenance facilities are deficient from an environmental, safety, and operational standpoint.

The soldiers who work in these buildings are responsible for repairing and maintaining 400 pieces of equipment each month. The work they perform is critical in terms of maintaining a premier fighting force like the 101st Airborne Division which is expected to fully deploy to any location throughout the world in only seven days.

Please join Congressman SKEEN and me in support of the disapproval resolution. The Senate has already voted 69 to 30 to reject this veto, and the House must take similar action. We need to protect the line-item veto process, and we need to restore funds to projects which met the President's criteria and did not belong on any veto list.

Mr. HEFNER. Mr. Speaker, I yield 2 minutes to the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. Mr. Speaker, I thank the gentleman for yielding to me and I rise to express my support for H.R. 2631, the Line Item Veto Cancellation Act.

As a long-time supporter of the line-item veto, I was particularly disappointed to see the President make a mistaken decision in canceling funding for 38 military construction projects, including 2 in my home State of Idaho. Based on faulty and outdated information provided by the Department of Defense, President Clinton eliminated needed funds for a B-1B bomber avionics facility for low-altitude navigation and an F-15C squadron building for planning and briefing combat crews at Mountain Home Air Force Base.

Both of these projects were among the Air Force's top priorities and were a part of the President's 1999 and 2000 Pentagon budgets. The 366th Composite Wing at Mountain Home Air Force Base represents one of our Nation's premier rapid-deployment forces in times of an emergency. Even Defense Secretary Cohen has reflected on the critical role of the 366th Wing in our national security structure and acknowledged that "it must maintain peak readiness to respond rapidly and effectively to diverse situations and conflicts." For service at home and in the Middle East, Central America, Europe, and Asia, the Mountain Home Air Force Base have answered the call of their country; it is only right and proper that the Commander-in-Chief recognize this important commitment.

Providing the President with line-item veto authority was an important goal of the last Congress, and I was pleased to assist in that effort. However, this power is significant and must be practiced with great care and attention. It is my hope that the President understands this and will only exercise the veto in appropriate cases.

At this time, I would like to express my appreciation to Chairman PACKARD, Representative SKEEN, Representative HEFLEY, and the
House leadership on both sides of the aisle for considering this measure today to overturn the President's vetoes. The Senate has already voted overwhelmingly to overturn the President's actions, so I hope that we can also send a strong message to the White House this afternoon by passing this measure with a veto-proof majority.

Mr. PACKARD. Mr. Speaker, I yield 1 minute to the gentlewoman from Florida [Mrs. FOWLER].

Mrs. FOWLER. Mr. Speaker, as my colleagues know, I voted for the line-item veto in 1995, and I remain a strong supporter of it when it is used properly. Unfortunately that is not the case here.

Now we have two problems. Problem one, the President vetoed worthwhile projects, not the kind of wasteful pork-barrel spending that we intended to eliminate with the line-item veto; and problem two, the administration now admits it vetoed dozens of projects by mistake. Now they say they want to work with Congress to restore the funding.

Mr. Speaker, there is only one way to correct these mistakes, and that is through this override process. When the President vetoes worthwhile projects, not the kind of wasteful, pork-barrel spending that we intended to eliminate with the line-item veto; and problem two, the administration now admits it vetoed dozens of projects by mistake. Now they say they want to work with Congress to restore the funding.

I urge my colleagues to support the resolution.

Mr. Speaker, I rise in strong support of the resolution. I voted for the line-item veto in 1995, and remain a strong supporter of it when it is used properly. Unfortunately, that is not the case here.

We have two problems. First, the day after the President used the line-item veto, his budget director said this about the vetoed projects: "The great majority, if not the overwhelming majority, of these projects can make a contribution to our national defense."

Problem 1. He vetoed worthwhile projects, not the kind of wasteful, pork-barrel spending we intended to eliminate with the line-item veto.

Problem 2. The Administration now admits it vetoed dozens of projects by mistake. They say they want to work with Congress to restore the funding.

Mr. Speaker, there is only one way to correct these mistakes and that is through this override process.

When the President vetoes worthwhile projects by mistake, we have an obligation and a responsibility to correct those mistakes.

I urge my colleagues to support the resolution.

Mr. HEFNER. Mr. Speaker, I yield 1 minute to the gentleman from Texas [Mr. REYES].

Mr. REYES. Mr. Speaker, as my colleagues know, I voted for the line-item veto in 1995, and I remain a strong supporter of it when it is used properly. Unfortunately that is not the case here.

Now we have two problems. Problem one, the President vetoed worthwhile projects, not the kind of wasteful pork-barrel spending that we intended to eliminate with the line-item veto; and problem two, the administration now admits it vetoed dozens of projects by mistake. Now they say they want to work with Congress to restore the funding.

Mr. Speaker, there is only one way to correct these mistakes, and that is through this override process. When the President vetoes worthwhile projects, not the kind of wasteful, pork-barrel spending that we intended to eliminate with the line-item veto; and problem two, the administration now admits it vetoed dozens of projects by mistake. Now they say they want to work with Congress to restore the funding.

I urge my colleagues to support the resolution.

Mr. HENRY. Mr. Speaker, I yield 1 minute to the gentleman from Colorado [Mr. SKAGGS].

Mr. SKAGGS. Mr. Speaker, as an appropriator and opponent of the Line-item Veto Act, my comments will be somewhat counterintuitive.

You bet there is a mistake that needs to be corrected here. It was our mistake in passing the Line-item Veto Act.

You bet we should be concerned for the prerogatives of the legislative branch; we gave them away.

Until we suffer the consequences of our profoundly foolish act in passing the line-item veto bill to begin with, it will be a continuing invitation for just the kind of abuse of executive power that the gentleman from Wisconsin [Mr. OBER] and others have pointed to.

We did this to ourselves. The only way we are going to come to our senses about our mistake is to have to suffer the consequences of that mistake.

We should vote no on this bill to force ourselves to live with what we did until we realize that we have it in our power to restore the constitutional rights. We gave them away. We cannot blame the President for taking advantage of that mistake.

Mr. PACKARD. Mr. Speaker, I yield 2 minutes to the gentleman from New York [Mr. SOLOMON], the chairman of the Committee on Rules.

Mr. SOLOMON. Mr. Speaker, first let me strongly commend the gentleman from California [Mr. PACKARD], the gentleman from Colorado [Mr. HEFLEY], the gentleman from Texas [Mr. ORTIZ], the gentleman from New Mexico [Mr. SKEEN], and everyone else for bringing this legislation to the floor.

Let me say, Mr. Speaker, this is both a pro-defense and a pro-line item veto vote here today. The previous speaker is a good friend, a former Marine, but he is also the most outspoken opponent of the line-item veto, and I think he protests too much.

As a chief proponent of the line-item veto in this House, I am proud to say as chairman of one of the committees charged with the oversight of the line-item veto bill, I assure Members that such an action would be fully consistent with the intent of the line-item veto.

The line-item veto was written to give any President, regardless of party, the authority to highlight, in his opinion, questionable spending. Likewise, the law protects Congress' ability to defend its spending decisions and priorities by providing for this expedited procedure we have before us today.

I am moving a bill which utilizes these procedures in a way undermining the intent nor taints our strong support of the line-item veto.

Let me just tell Members something: If this does not pass today, we lower the level of spending by almost $300 million, almost half a billion dollars. That lowers all the defense spending. We fight hard to maintain that level of spending.
I want everybody to come over here, those who supported the line-item veto, like I did, and I want you to vote to override the President. That is our prerogative as Members of this House.

Mr. HEFNER. Mr. Speaker, I yield 1 minute to the gentleman from Virginia [Mr. PICKETT].

(Mr. PICKETT asked and was given permission to revise and extend his remarks.)

Mr. PICKETT. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I rise in strong support of H.R. 2631, and I would urge everyone who supports our military to likewise support this legislation.

When this legislation originally passed, over 400 people in this body voted in favor of it, and I ask all 400 of them to vote the same way today. The reference is made that these projects are somehow wasteful and are pork-barrel kind of projects simply because they were not included in the President's budget.

Mr. Speaker, each year I visit each of the military bases in my district and talk personally with the commanding officers and ask them what their priorities are and their No. 1 priority is in fact their No. 1 priority.

In the case of my project that is in this bill, it is because it is a matter of safety, safety for our military people. This item is fully justified by all of the criteria that are established for military construction projects. It has met all these requirements, and I would say that the President made a grave mistake in striking this provision.

Mr. PACKARD. Mr. Speaker, I yield 1 minute to the gentleman from Indiana, Mr. HOSTETTLER.

(MR. HOSTETTLER asked and was given permission to revise and extend his remarks.)

Mr. HOSTETTLER. Mr. Speaker, I rise in strong support of this bill of disapproval.

In 1995, the future years Defense plan showed that a chemical and biological testing facility was planned to be built at the Crane Naval Surface Warfare Center in fiscal year 1998—which is the Navy's designated agent for servicing and upgrading the chemical and biological weapon detection equipment deployed with the fleet.

Since Crane is in the district I represent, I spoke to the Navy about this construction.

In 1996, this program slipped to fiscal year 1999.

In 1999, this program slipped to fiscal year 2000.

I found this disturbing in light of the hearings our committee was having.

For instance, on March 19, 1997, the Commander in Chief for the U.S. Central Command, General Peay, testified before the National Security Committee that, quote "the situation has worsened during the past twelve months, with Iraq, Iran and others in the Middle East aggressively . . . advancing their chemical and biological research and development plans."

The Joint Warfighting Science and Technology Plan identified the capability for standoff detection of chemical weapons as, quote "our single and most pressing need . . . critical to protecting our military personnel . . .

The Chemical and Biological Testing facility was planned, necessary, and executable.

The Congress was right to advance this project for our sailors.

The President made an error in vetoing it. We should do it right thing again.

Mr. PACKARD. Mr. Speaker, I yield 1 minute to the gentleman from South Carolina [Mr. SPENCE], the chairman of the Committee on National Security.

(Mr. SPENCE asked and was given permission to revise and extend his remarks.)

Mr. SPENCE. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I rise in strong support of H.R. 2631, which restores funding for the 38 military construction projects canceled by the President last month.

By any definition, the projects canceled by the administration are not pork and they are not wasteful. The administration recently conducted a hearing on the administration's proposed cancellations, and the record is clear.

First, each of the proposed cancellations meets a validated military requirement. Second, each of the 38 projects is executable in this fiscal year. Third, nearly all these projects, 85 percent, are in the administration's own defense program. Fourth, the $287 million associated with these projects is well within the limits established by the budget agreement.

In addition, the administration readily admits that mistakes were made in the President's extensive exercise of the line-item veto on the military construction appropriations bill.

Mr. Speaker, I yield 1 minute to the gentleman from Minnesota [Mr. MINGE].

Mr. MINGE. Mr. Speaker, I feel somewhat like the skunk at the garden party. I rise to support the line-item veto.

This body in 1996 talked long and hard about how we were going to share the sacrifice across the country to make the tough decisions to balance the budget. Indeed, there is light at the end of the tunnel now, and that is very encouraging. But the fact of the matter is, we cannot expect to reach the end of that tunnel, nor can we expect to maintain our resolve to balance the budget, unless the sacrifice is truly shared.

We have not yet developed in this House or in Congress clear rules that avoid situations where one part of the country feels that another part of the country is walking away with special projects or special opportunities. There have been attempts to do this, but, continuously, whether it be by report language or earmarks in appropriations bills or other bills, the principle is violated.

I have worked with Senator McCain and others to try to raise the standards in this respect. I know there are many others in this body that share that feeling. Otherwise, the line-item veto would not have passed by such an overwhelming majority.

Mr. Speaker, I think that it is incumbent upon us to work with the White House to try to establish clear standards for, first, the use of the line-item veto, and, second, for our appropriations process, so that in the months ahead we do not see the line-item veto being exercised.

Mr. PACKARD. Mr. Speaker, I am embarrassed almost to yield only 30 seconds to my next four speakers, the first of which is the gentleman from Florida [Mr. Goss], a member of the Committee on Rules.

(Mr. Goss asked and was given permission to revise and extend his remarks.)

Mr. Goss. Mr. Speaker, I rise in strong support of this disapproval bill.

Mr. Speaker, I want to commend the gentleman from California, Chairman PACKARD, for his very hard work, but most especially for his using the line-item process properly.

The gentleman from Colorado [Mr. SKAGGS] got up and said we are here to condone the President's mistakes. Nothing could be further from the truth. We are here to correct the President's mistake with this.

Mr. Speaker, I rise in support of the bill. As one of the House's five majority conference members who secured final passage of the line-item veto, I am pleased to see the process we devised working. When the President first made use of his new line-item veto authority, naysayers and critics rushed to judgment and declared a falling sky. Those of us who support the line-item veto have repeatedly attempted to remind our colleagues that we did not go forward blindly in approving the line-item veto—that we carefully and painstakingly considered mechanisms to ensure that Congress would remain an integral part of the process. Today's consideration of a disapproval resolution on the President's cancellations from the fiscal year 1998 military construction spending bill underscores that fact. In this specific case, as all of us now know, the President has admitted making mistakes in applying the line-item veto to the military construction appropriations bill.

The gentleman from Colorado [Mr. SKAGGS] got up and said we are here to condone the President's mistakes. Nothing could be further from the truth. We are here to correct the President's mistakes. We have not yet developed in this House or in Congress clear rules that avoid situations where one part of the country feels that another part of the country is walking away with special projects or special opportunities. There have been attempts to do this, but, continuously, whether it be by report language or earmarks in appropriations bills or other bills, the principle is violated.

I have worked with Senator McCain and others to try to raise the standards in this respect. I know there are many others in this body that share that feeling. Otherwise, the line-item veto would not have passed by such an overwhelming majority.

Mr. Speaker, I think that it is incumbent upon us to work with the White House to try to establish clear standards for, first, the use of the line-item veto, and, second, for our appropriations process, so that in the months ahead we do not see the line-item veto being exercised.
November 8, 1997

CONGRESSIONAL RECORD – HOUSE H10381

the easy target for spending cuts. National defense funding has already taken a disproportion share of major hits under this President. For more than one reason the MilCon cancellations were a mistake; here's our chance to right that wrong.

Mr. HEFNER. Mr. Speaker, I yield 30 seconds to the distinguished gentleman from Virginia [Mr. SISISKY].

[Mr. SISISKY asked and was given permission to revise and extend his remarks.]

Mr. SISISKY. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I would just say, I am a member of the Subcommittee on Mili tary Construction. I even had the chairman of the subcommittee, the gentleman from Colorado, to go down to look at this project.

Let me just quickly tell you what was vetoed: A project that costs $19.9 million in a figure for 1961; it would pay for itself, Navy figures, 2 years, 1 month. The computer printout, everything was there. It was vetoed. It should not have been vetoed. There were never questions asked by the Department of Defense. I would ask that we pass this bill.

Mr. Speaker, in responding to the President's decision to veto certain projects added to the fiscal year 1998 military construction appropriations bill—like Paul Harvey, I cannot pass up an opportunity to tell you "the rest of the story."

The waterfront improvements project at Norfolk Naval Shipyard is not a pork barrel project.

It's not part of some fly-by-night scheme to add wasteful, unnecessary spending to the benefit of only me or my district. It was done in full light of day by authorizers and appropriators, first in the House and then in conference agreement with the Senate.

This project has been in the works since 1995. It is needed to make Norfolk Naval Shipyard more effective, efficient, and competitive.

The Project replaces and refurbishes antiquated wharf and berthing areas.

It demolishes two old buildings, along with shipways 1 and 2.

This area would then be used to install modern ship support systems, electric distribution systems, transformers, communications upgrades, steam and water distribution systems, sanitary sewer facilities, compressed air distribution systems, salt water fire protection facilities, bridges, and crane rails.

In short, these are the utilities and equipment necessary to run a modern industrial facility.

And that is a quality of life issue for civilian workers. And you know what? Sailors work there too.

So much for when the White House said "the project would not improve quality of life for military service members and their families."

The White House also said that, "architectural and engineering design of this project has not started."

Again, not true. Anyone who bothered to check would have known the project had reached 35 percent design back in April of 1996.

Since there are no new buildings, the design issues are not all that complicated. In fact, the design issues focused primarily on plans for demolition and asbestos removal.

The last time I checked, that was a very serious quality of life issue for sailors and civilian employees.

But I don't think anybody from OMB ever bothered to check.

Frankly, I think OMB wanted to shoehorn all 38 projects that met the arbitrary criteria, come hell or high water, my mind's made up, don't confuse me with the facts.

I would like to know who misled the President about this, though.

Still, I have to confess, on one thing they were right: This project was not in the fiscal year 1998 budget.

It is in the Navy's 5-year plan for 2001. But if the project will be funded in a few years anyway, what's the big deal?

The big deal is money.

The longer we delay the project, the longer this part of the yard will be unable to play an effective part in the yard's ship repair mission.

The longer we delay, the longer the yard must wait to consolidate functions in the highly classified controlled industrial area.

The longer the yard maintains obsolete facilities, the greater their O&M and overhead costs.

The Navy's economic analysis shows return on investment for this project takes place in 2 years.

Let me say it again: This project pays for itself in 2 years.

Once you do this project, it saves approximately $10 million per year in the first 2 years. Once you sort through all the numbers, over the standard 25-year cycle, this project saves over $169 million. I repeat: $169 million.

My question to the White House is: Why delay it 4 years?

I have never heard of anything more penny-wise and pound-foolish.

The sooner we do it, the sooner we can put the money we save to a far better use; the sooner we can give sailors and civilian employees a safer, more productive working environment.

And the sooner we can refocus attention on the partnership that Congress and the President should have when it comes to protecting our national security.

I ask the House to override this veto.

Mr. PACKARD. Mr. Speaker, I yield 30 seconds to the gentleman from Montana [Mr. HILL].

Mr. HILL. Mr. Speaker, I think nothing is more important today than working to support the morale of our men and women in uniform. The President vetoed a renovation project at Malmstrom Air Force Base for a dining hall; Mr. Speaker, a dining hall that, without repairs, will not meet the local civilian health standards.

The President's veto said that the health and safety of these men and women does not matter. Today we can say that it does matter and that we care. And we can do that by supporting this resolution.

Mr. PACKARD. Mr. Speaker, I yield 30 seconds to the gentleman from South Dakota [Mr. THUNE].

Mr. THUNE. Mr. Speaker, I, too, support the line-item veto, but I think what is instructive about all this is, when the White House uses it inappropriately, as it has in this case by its own admission, that it is up to us to try to use it correctly to deal with the deficiencies in their process. That is what we are doing here today. It will restore an important project, one that is very valid and legitimate at Camp Rapid in South Dakota.

Mr. Speaker, I thank the gentleman for yielding me time, and I encourage my colleagues to support this resolution.

Mr. PACKARD. Mr. Speaker, I yield 30 seconds to the gentleman from Indiana [Mr. BUYER].

Mr. BUYER. Mr. Speaker, I compliment the gentleman for bringing up this bill. These are great bipartisan projects.

In particular, I want to thank the chairman. The gentleman was just down in Mayport Naval Air Station in Florida with me, and we actually went and saw one of the items that the President line item vetoed.

I wanted to share with Members, we have two Aegis cruisers down there. They had to shut them off, shut off the electronics, and they took tugboats and shoveled these multimillion-dollar ships into the mud itself.

These are the types of projects the President line item vetoed, but he said if it is for social spending in the military, that is OK.

Mr. HEFNER. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, when I was chairman of the Subcommittee on Military Construction, many years ago, before the disaster struck a couple of years ago, I visited from California to Montana and States all over this Nation. I have been into residences where these people are living on the bases, our men and women. The gentleman from California [Mr. PACKARD] and I went to Fort Bragg, NC, and saw living conditions that the people were living in there.

We have young men and women that are called upon to operate the most sophisticated weapons on the face of the Earth, and some of them are living in World War II facilities.

Now, it is not every time that you put something in military construction that relates directly to quality of life, but if you have got a training center that was vetoed in this bill that is critical to training our troops that is in dangerous condition, just the facility, then that is something that adds to retention and quality of life for our men and women in the service.

This is not the place to debate the line item veto, but I stood in the well here and predicted that this sort of thing was going to happen, and it is going to get worse. It makes no difference whether it is a Republican President or Democratic; when you start having the line item veto show up in political areas and being used as a political weapon, this is a disaster for the American people.
Mr. Speaker, I would urge every Member to send a message early on, to send a message and vote unanimously in support of this bill.

I want to congratulate and thank all the Members and the staff people. I would also urge everyone to vote in support of this bill.

Mr. PACKARD. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I, too, want to thank all of those who have participated, not only in this debate, but in helping to make it a successful bill and successful effort.

Mr. Speaker, I yield the balance of my time to the gentleman from Louisiana [Mr. LIVINGSTON], the chairman of the Committee on Appropriations, to close.

The SPEAKER pro tempore. The gentleman from Louisiana [Mr. LIVINGSTON] is recognized for 2 minutes.

(Mr. LIVINGSTON asked and was given permission to revise and extend his remarks.)

Mr. LIVINGSTON. Mr. Speaker, we gave the President the line-item veto to help him help us trim the budget and cut down the cost of Government and eliminate wasteful and unnecessary projects. That was a good idea. We did not expect that he would come back on one of the first bills in the appropriations cycle and use sloppy and inadequate staff work and cut meaningful, worthwhile projects. But that is exactly what he did.

I want to commend my friend, the gentleman from California [Mr. PACKARD], and the gentleman from North Carolina [Mr. HEFNER] for their foresight and vision in making sure that we enforce this system.

The President has a significant new power. He should use it wisely. He used it unwisely in this instance. Witness the Utah project, which was a good system to provide for the people that were training for the Olympics, or all the other projects that have been mentioned here today. These were worthwhile projects to improve the quality of life for military personnel. They should not have been struck. They should not have been used as an example by the President to flex his power, which was given to him for worthy purposes and a good cause.

It is up to us to remedy that mistake. He made the mistake. He tried to cover up on it by saying, oh, he would cure the mistake with a future budget request. That is not good enough.

The way he pays for the mistake is for us to disagree on these cancellations. We should do it today.

Mr. COLLINS. Mr. Speaker, today the house votes to sustain or override the President's line-item veto of vital projects contained in the fiscal year 1998 military construction appropriations bill. I want to share with my colleagues in the CONGRESSIONAL RECORD, an editorial appearing in one of the leading newspapers in my district, the Clayton News-Daily. I agree with Publisher Neely Young and Editor Tom Kerlin that giving the line-item veto to the President of the United States is an excellent method to control wasteful Federal spending and programs and was proper.

I supported and voted for the bill that gave this power to the President. However, Mr. Speaker, I disagree with the President's use of his line-item veto authority to eliminate projects that Congress has deemed vital to our national defense. I refer specifically to the President's decision to cut funds for a combat rescue operations facility located at Moody Air Force Base near Valdosta, GA.

The President said he vetoed funds for this facility because the personnel comprising these rescue units had not yet relocated to Moody Air Force Base. More thorough research would have shown the President these units have been in operation at Moody AFB since April of this year and are using rented trailers while awaiting construction funds. Our military personnel deserve better.

Mr. Speaker, I still support the President having line-item veto authority to eliminate wasteful and unnecessary projects that are not in the national interest. I believe permanent operations facilities for our military personnel is not a waste of Federal tax dollars, and I will vote to override the President's veto of this bill.

[From the Clayton News-Daily]

OPINION—BIPARTISAN OPPOSITION

Since the idea was first seriously broached, we have said this was the perfect tool for controlling pork barrel spending by the federal government. We still believe that it is true.

However, I voted to override Monday by President Clinton in striking out the appropriations for a combat rescue operations facility for Moody Air Force Base in south Georgia is a bad example of the new power in the hands of the Executive Branch of our federal government. In using his veto, Clinton said he did so because the money for military construction is not needed since the two units slated to use the facility have not yet been moved from Patrick Air Force Base in Florida.

That comes from the Sen. Max Cleland, who asked that the spending bill be attached to the 1998 military construction spending bill. It also was a revelation to the base commander at Moody AFB. Cleland said the two units, the 41st and 71st rescue squadrons, have been at Moody since April. Officials at the installation near Valdosta confirm that the move has been completed and the units are operating out of rented trailers.

The Pentagon announced plans in early 1996 to relocate the two rescue squadrons to Moody. The relocation has brought 680 military personnel to the base, although many of them are deployed with U.S. troops to various trouble spots like Bosnia.

“I am very disappointed by this veto,” said Cleland. “There is no rhyme or reason to it. Of all the projects that were included in the bill, this one made the most sense. It was my top priority for Georgia.”

Sen. Paul Coverdell, R-Ga., called the veto “an arbitrary, uninformed exercise of executive power” and vowed to work with other Georgia lawmakers to overturn it.

Rep. Sanford Bishop of Albany, whose district includes the base, said the facility is essential “to maintain high readiness for this important rescue unit.”

Cleland says he “supports the line-item veto as a way to help reduce the deficit,” but added “this facility is not pork. It is a critical project. If facilities to accommodate a pararescue facility are not essential, I do not know what is.”

We agree with Cleland and Coverdell on this one. We wonder if Clinton got bad information, misinterpreted the legislation, or if he just didn't do his homework.

Either way he has managed to attain bipartisan opposition over the issue—some that will afford him no mercy.

Mr. HILLEARY. Mr. Speaker, I rise today in strong support of H.R. 2631, a bill disapproving the cancellations of 38 military construction projects. I want to thank both distinguished members, Hefley and Chapp, and Mr. Packard for their hard work in producing two solid bills.

I voted for the line-item veto and have no problem seeing the President use it. However, it must be used properly and wisely. These 38 vetoed projects were not the famous $600 hammers and $1200 toilet seats the Pentagon has purchased in the past. That is what the line item was developed for.

At Arnold Engineering Development Center [AEDC] in Tullahoma, TN, a new $9.9 million air dryer facility for the propulsion wind tunnel will be eliminated by President Clinton. The wind tunnel performs advanced testing which requires dry air for simulating flight conditions. It is a critical element for ensuring accurate test results.

This cancellation will affect advanced aerospace testing for the F-22, the joint strike fighter and other state of the art flight designs. All of which require dry air for high-altitude testing. The air dryer is vital to the performance and safety for both aircraft and personnel. Any further delays in advanced wind tunnel testing for aerospace programs will certainly demand extra funds.

The existing facility was built in 1959 and does not have the capacity to provide continuous dry air flow needed to complete aerospace testing. A major failure of the current dryer would result in an estimated 26-weeks of lost test time. Furthermore, for every 20 hours of wind tunnel testing, it must shut down for 12 hours. Delaying construction will lead to additional costs of $1.2 million per year.

This project meets the President’s so called criteria, although it is a bit vague. The new air dryer at the Pentagon will affront the Information Defense budget. Architectural and engineering designs for the project were underway and construction could begin in fiscal year 1999.

The White House, the Pentagon, the Air Force, and the Office of Management Budget [OMB], have all stated on the record that crucial project data was in fact outdated and led to misinformation. The end result was that legitimate and essential military construction projects were terminated based on bad data and an inconsistent, if not, arbitrary selection process without a clear cut from the President.

AEDC relies some of the most sophisticated technologies in the world to test aerospace systems before flight. They are using antiquated 1950's technology and infrastructure to test 1990's advanced aerospace programs worth billions of dollars.

The bottom line is that this project is critical. It is critical in maintaining a portion of our military superiority. It is important, relevant and a validated military requirement for a sound infrastructure. I think that after you look at this project, you too will agree it is not what the line-item veto was designed for.

I hope my colleagues on both sides of the aisle will join me in supporting this resolution of disapproval.
Mr. COOK. Mr. Speaker, as a cosponsor of H.R. 2631, I want to thank Chairman PACKARD and Mr. SKEEN for their work in getting this measure to the floor today. Many of the projects being restored will improve the quality of life for our servicemen and women. I am particularly grateful that it will restore funding for a long term security project for the 2002 Winter Games in Salt Lake City, the Olympic Village. The $12 million in construction funds for Fort Douglas will allow the military reserves to relocate in time for the University of Utah to acquire the land and complete construction of the Olympic Village for the 2002 Winter Games. Salt Lake City may be the host city for the 2002 Winter Olympics—but these are America games. This bill is the first step toward overturning the President's veto and I hope my colleagues will join me in supporting this measure.

Mr. BONILLA. Mr. Speaker, today this Congress has a unique opportunity. A chance to right a wrong, a chance to stand up for America, a chance to show you care to the men and women of our military and the communities that support them. A few short weeks ago, President Clinton vetoed essential military construction projects without properly considering our military, without consideration of the impact of these vetoes on the lives and well being of our military, without consideration of the long term security interests of America. This has been going on for far too long and today we finally have an opportunity to say enough to this White House.

I have the honor and privilege of representing one of the most patriotic communities in America. Two of our communities, Del Rio and El Paso, are home of two of our finest military installations, Laughlin Air Force Base and Fort Bliss. I can say without exaggeration that Laughlin is the finest little base in the Air Force and Fort Bliss' vastness is an unmatched national security asset. Today, along with each and every citizen of Del Rio and El Paso, was shocked when the President chose to veto essential projects in these communities. Today's legislation provides us with an opportunity to stand up for our military, to improve our military quality of life, to show we value our military force.

I want to personally tell the people of Del Rio and El Paso that this Congress will not abandon our military. Today we will demonstrate our complete and total rejection of the President's dangerous and irresponsible cuts. Today we can stand united with the people of Del Rio and El Paso and reject the President's assault on our military and these communities. My colleagues, I urge you, join me in standing united with the good people of Del Rio and El Paso and stand back this President's attack on our military. Vote "yes" on H.R. 2631.

Mr. LEWIS of Kentucky. Mr. Speaker, I rise today to voice my opposition to the President's use of the line-item veto on the military construction appropriations bill.

Now, I support the concept of the line-item veto. It's a too President should have as long as deficit spending continues. But my support doesn't mean that I must agree with its use in every instance.

On these specific vetoes, the administration has admitted that the projects were mistaken vetoes. One such mistake was in my district. The President vetoed a qualified training range at Fort Knox. This range is an insightful, cost-effective efficient answer for arms training. It saves valuable training dollars and hours by creating one range that will meet training standards for 11 different weapons.

This project saves money, time, and reduces risk to soldiers. In fact, it fulfills Secretary West's stated goal of "pursuing innovative ideas to increase efficiency."

However, the President did not consider this goal when using his line-item veto authority. Instead, he considered factors that don't hold up under close scrutiny.

According to the President, he vetoed those projects that were not included in his original budget request, those for which design work had not been completed, and those that, in his view, would provide no substantial contribution to improving the lives of soldiers.

His first reason is far fetched because this range was included in his 5 year military construction plan. Getting beyond this fact, his original argument still doesn't stand up. Congress added many more projects than the 38 vetoed. Why didn't the President veto all of them? After all, none of them were included in his budget request.

His second reason is simply wrong. Construction is scheduled to begin next summer if the funding is approved. Furthermore, design work on this project is well underway.

Finally, to suggest this would have made no substantial contribution to the lives of soldiers is misinformed. The Army agrees that this project is needed to correct deficiencies in training standards for 11 different weapons.

The Army agrees that this project is well underway. The Secretary of Defense has admitted that projects were mistakenly vetoed. One such mistake was in my district.

There was no objection.

Without objection, the minimum number of yeas and nays necessary to determine a quorum is present.

The Sergeant at Arms will notify ab...
AGRICULTURAL RESEARCH, EXTENSION, AND EDUCATION AUTHORIZATION ACT OF 1997

The SPEAKER. The pending business is the question of suspending the rules and passing the bill, H.R. 2534, as amended.

The Clerk read the title of the bill.

The SPEAKER. The question is on the motion offered by the gentleman from Oregon (Mr. Smith) that the House suspend the rules and pass the bill, H.R. 2534, as amended, on which the yeas and nays are ordered.

A motion to reconsider was laid on the Speaker's table the Senate bill (S. 1150), to ensure that federally funded agricultural research, extension, and education address high-priority concerns with national or multistate significance, to reform, extend, and eliminate certain agricultural research programs, and for other purposes and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore (Mr. Ewing). Is there objection to the request of the gentleman from Oregon?

Mr. HOYER. Mr. Speaker, reserving the right to object, I ask the gentleman from Oregon (Mr. Smith),
this on the bill we just passed? I voted for the bill that we just passed. But there is a lot of concern, as my colleague knows. And I presume we are going to conference on this bill.

Is that correct, Mr. Chairman?

Mr. SMITH of Oregon. Mr. Speaker, I cannot hear the gentleman from Maryland [Mr. HOYER]. How did he vote?

Mr. HOYER. I voted "aye" on the bill.

Mr. SMITH of Oregon. Good.

Mr. HOYER. I know the gentleman from Oregon [Mr. SMITH] thinks that is good. The chairman or the ranking member of the Committee on Appropriations does not think it is good. The reason he does not think it is good is because we on the Committee on Appropriations are concerned that there is already a done deal and the Committee on Appropriations is going to be in a bad strait as a result.

Mr. SMITH of Oregon. Mr. Speaker, will the gentleman yield?

Mr. HOYER. I yield to the gentleman from Oregon.

Mr. SMITH of Oregon. I say to the gentleman from Maryland [Mr. HOYER] that there has been no negotiation with the Senate, the other body. There has been not one word from me or anyone in the House or on the Committee on Agriculture or by the staff. We have been awaiting the passage of a clean bill, which all should support. We have heard the questions raised from some of us as we debated the bill.

I understand the issues. Both parties will be, of course, represented in the conference. And I understand the concern of the gentleman from Maryland [Mr. HOYER].

Mr. HOYER. I thank the gentleman from Oregon [Mr. SMITH]. Under those circumstances, I will not object.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Oregon?

Mr. BECERRA. Mr. Speaker, reserving the right to object, I would like to yield to the chairman, the gentleman from Oregon [Mr. SMITH], to ask a couple of questions with regard to the conference that the committee would have on this bill.

The question I have is, if we are going to conference, my understanding is there is a large difference between the Senate version and the House version. In particular, that the Senate version extracts $1.2 billion in savings from food stamp programs through administrative accounting, and my understanding from the Senate bill is that none of that money was put back into the food programs.

On this side, some of my colleagues are concerned that none of the money, that $1.2 billion, will be used to restore food stamp programs, $27.5 billion that was cut last year.

Mr. SMITH of Oregon. Mr. Speaker, will the gentleman yield?

Mr. BECERRA. I yield to the gentleman from Oregon.

Mr. SMITH of Oregon. Mr. Speaker, the gentleman from California is correct, the House bill is an authorization of $2.8 billion to various States regarding agricultural research, which has come unanimously from the Committee on Agriculture.

Mr. SMITH of Oregon. If the gentleman will yield further, as I have not preconferenced with the Senate nor do I want to preconference with this body, the point is that I have listened, as has the ranking member on the Committee on Appropriations, to what no doubt will be on the conference committee. We understand the gentleman's concerns and we will take them to the conference.

Mr. OBEY. Mr. Speaker, will the gentleman yield?

Mr. BECERRA. Further reserving the right to object, I yield to the gentleman from Wisconsin.

Mr. OBEY. Mr. Speaker, I do not want to arbitrarily cut this off, but at the same time I do not want the House to engage in needless conversation when this proposition is going to be objected to, and I am going to object. The fact is that we have been told by a lobbyist on good authority that he has already been told what number he is going to get under the conference agreement. It seems to me that there may not have been a preconference, but it appears to me that there is a pretty good idea of what is likely to happen once that conference takes place.

I do not want this House to be in a position where Members, regardless of which side of the issue they are on, find the committee coming back in the dead of night with a done deal and having this bill pass with virtually nobody on the floor.

To try to help save Members from that, I do object.

The SPEAKER pro tempore (Mr. Ewing). Objection is heard.

AGRICULTURAL RESEARCH EXTENSION, AND EDUCATION RE-AUTHORIZATION ACT OF 1997

Mr. SMITH of Oregon asked and was given permission to address the House for 1 minute.

Mr. SMITH of Oregon. Mr. Speaker, I think the point is here, and I can speak for the gentleman from Texas, neither he nor I have discussed, or preconferenced this bill with the Senate or with any lobbyist.

The gentleman has on his shoulders now the rejection of $2.8 billion of research to agriculture throughout the
announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2264) "An Act making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 1998, and for other purposes."

READING EXCELLENCE ACT
Mr. GOODLING. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2614) to improve the reading and literacy skills of children and families by improving in-service instructional practices for teachers who teach reading, to stimulate the development of more high-quality family literacy programs, to support extended learning-time opportunities for children, to ensure that children can read well and independently not later than third grade, and for other purposes, as amended.

The Clerk read as follows:
H.R. 2614
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.
This Act may be cited as the "Reading Excellence Act".

TITLE I—READING GRANTS
SEC. 101. AMENDMENT TO ESEA FOR READING GRANTS.
The Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.) is amended by adding at the end the following:

TITLE XV—READING GRANTS
"SEC. 15101. PURPOSE.
"The purposes of this title are as follows:
"(A) To teach every child to read in their early childhood years;
"(B) as soon as they are ready to read, or
"(C) as soon as possible once they enter school, but not later than 3d grade;
"(2) To improve the reading skills of students, and the in-service instructional practices for teachers who teach reading, through the use of findings from reliable, replicable research on reading, including phonics;
"(3) To expand the number of high-quality family literacy programs;
"(4) To reduce the number of children who are inappropriately referred to special education due to reading difficulties.

SEC. 15102. DEFINITIONS.
"For purposes of this title:
"(1) ELIGIBLE PROFESSIONAL DEVELOPMENT PROVIDER.—The term "eligible professional development provider" means a provider of professional development in reading instruction to teachers that is based on reliable, replicable research on reading.
"(2) ELIGIBLE RESEARCH INSTITUTION.—The term "eligible research institution" means an institution of higher education at which reliable, replicable research on reading has been conducted.
"(3) FAMILY LITERACY SERVICES.—The term "family literacy services" means services provided to participating or reducing welfare dependency) and that integrate all of the following activities:
"(A) Interactive literacy activities between parents and their children.
"(B) Equipping parents to partner with their children in learning.
"(C) Parent literacy training, including training that contributes to economic self-sufficiency.
"(D) Appropriate instruction for children of parents receiving parent literacy services.
"(4) READING.—The term 'reading' means the process of comprehending the meaning of written text by depending on—
"(A) the ability to use phonics skills, that is, knowledge of letters and sounds, to decode printed words quickly and effortlessly, both silently and aloud;
"(B) the ability to use previously learned strategies for reading comprehension; and
"(C) the ability to think critically about the meaning, message, and aesthetic value of the text.

"(5) READING READINESS.—The term 'reading readiness' means activities that—
"(A) provide experience and opportunity for language development;
"(B) create appreciation of the written word;
"(C) develop an awareness of printed language, the alphabet, and phonemic awareness; and
"(D) develop an understanding that spoken and written language is made up of phonemes, syllables, and words.
"(6) RELIABLE, REPLICABLE RESEARCH.—The term 'reliable, replicable research' means objective, valid, scientific studies that—
"(A) include rigorously defined samples of subjects that are sufficiently large and representative to support the general conclusions drawn;
"(B) rely on measurements that meet established standards of reliability and validity;
"(C) test competing theories, where multiple theories exist;
"(D) are subjected to peer review before their results are published; and
"(E) discover effective strategies for improving reading skills.

SEC. 15103. GRANTS TO READING AND LITERACY PARTNERSHIPS.
"(a) PROGRAM AUTHORIZED.—The Secretary may make grants on a competitive basis to reading and literacy partnerships for the purpose of permitting such partnerships to make subgrants under sections 15104 and 15105.

"(b) READING AND LITERACY PARTNERSHIPS.—
"(1) COMPOSITION.
"(A) REQUIRED PARTICIPANTS.—In order to receive a grant under this section, a State shall establish a reading and literacy partnership consisting of at least the following participants:
"(i) The Governor of the State.
"(ii) The chief State school officer.
"(iii) The chairperson and the ranking member of each committee of the State legislature that is responsible for education policy.
"(iv) A representative, selected jointly by the Governor and the chief State school official, of at least 1 local educational agency that has at least 1 school that is identified for school improvement under section 1116(c) in the geographic area served by the agency.
"(v) A representative, selected jointly by the Governor and the chief State school official, of a community-based organization working with children to improve their reading skills, particularly a community-based organization using volunteers.
"(B) OPTIONAL PARTICIPANTS.—A reading and literacy partnership may include additional participants, who shall be selected jointly by the Governor and the chief State school official, which may include—

REQUEST TO SPEAK OUT OF ORDER
Ms. KAPTUR. Mr. Speaker, I ask unanimous consent to speak out of order for 1 minute.

The SPEAKER pro tempore. Objection is heard.

Mr. OBEY. Mr. Speaker, that is fine. The gentleman can live with the objection. I was trying to do him a favor. Forget it. No, I do not want to speak now. If the gentleman does not want to work it out, then I object.

REQUEST TO ADDRESS THE HOUSE
Ms. KAPTUR. Mr. Speaker, I ask unanimous consent to address the House.

The SPEAKER pro tempore. Objection is heard.

Mr. OBEY. Mr. Speaker, that is fine. The gentleman can live with the objection. I was trying to do him a favor. Forget it. No, I do not want to speak now. If the gentleman does not want to work it out, then I object.

REQUEST TO SPEAK OUT OF ORDER
Ms. KAPTUR. Mr. Speaker, I ask unanimous consent to speak out of order for 1½ minutes.

The SPEAKER pro tempore. Objection has just been heard to that request.

Ms. KAPTUR. Who objected to that? Mr. SMITH of Oregon. I did.

Ms. KAPTUR. Mr. Speaker, it is obvious to the membership that something is going on here. Something is going on here that should trouble the membership.

REQUEST TO SPEAK OUT OF ORDER
Mr. STENHOLM. Mr. Speaker, I ask unanimous consent to speak out of order for 1 minute.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

Ms. KAPTUR. I object.

The SPEAKER pro tempore. Objection is heard.

FURTHER MESSAGE FROM THE SENATE
A further message from the Senate by Mr. Lun dregan, one of its clerks, an-
“(ii) a parent of a public or private school student, or a parent who educates their child or children in their home;”

“(iii) a teacher who teaches reading; or

“(iv) a representative of a (i) institution of higher education; (ii) a local educational agency; (iii) an eligible research institution; (iv) a private nonprofit or for-profit entity providing professional development provider; (v) an organization that is involved in reading programs; or (vi) a school or a public library that offers reading or literacy programs for children or families.”

“(2) AGREEMENT.—The contractual agreement that establishes a reading and literacy partnership—

“(A) shall specify—

“(i) the nature and extent of the association among the participants referred to in paragraph (1);

“(ii) the roles and duties of each such participant; and

“(B) shall remain in effect during the entire grant period proposed in the partnership’s grant application under subsection (e).

“(3) FUNCTIONS.—Each reading and literacy partnership shall—

“(i) work to enhance the capacity of agencies in the State to disseminate reliable, replicable research on reading;

“(ii) facilitate the provision of technical assistance to subgrantees under sections 15104 and 15105;

“(iii) build on, and promote coordination among, literacy programs in the State, in order to ensure effectiveness and to avoid duplication of their efforts; and

“(D) shall ensure that each local educational agency to which the partnership makes a subgrant under section 15104 makes available, upon request and in an understandable and uniform format, to any parent of a student attending any school selected under section 15104(a)(2) in the geographic area served by the agency, information regarding the qualifications of the student’s classroom teacher to provide instruction in reading.

“(4) FISCAL AGENT.—The State educational agency shall act as the fiscal agent for the reading and literacy partnership for the purposes of receipt of funds from the Secretary, disbursement of funds to subgrantees under sections 15104 and 15105, and accounting for such funds.

“(5) EXISTING PARTNERSHIP.—If, before the date of the enactment of the Reading Excellence Act, a State established a consortium, partnership, or any other similar body, that includes the Governor and the chief State school officer and has, as a central part of its mission, the promotion of literacy for children, the early childhood years through the 3rd grade, but that does not satisfy the requirements of subsection (b)(1), the State may elect to treat that consortium, partnership, or body as the reading and literacy partnership for the State notwithstanding such subsection, and it shall be considered a partner for purposes of the other provisions of this title.

“(d) MULTI-STATE PARTNERSHIP ARRANGEMENTS.—A reading and literacy partnership that satisfies the requirements of subsection (b) may join with other such partnerships in the State and under this Act to create a multi-State arrangement that satisfies the requirements of subsection (e) and identifies which State educational agency, from among the States joining, shall act as the fiscal agent for the multi-State arrangement. For purposes of the other provisions of this title, any such multi-State arrangement shall be considered to be a reading and literacy partnership.

“(e) APPLICATIONS.—A reading and literacy partnership that desires to receive a grant under this section shall submit an application to the Secretary at such time, in such manner, and including such information as the Secretary may require. The application—

“(1) shall describe how the partnership will ensure that 95 percent of the grant funds are used to make subgrants under sections 15104 and 15105;

“(2) shall be integrated, to the maximum extent possible, with State plans and programs under this Act, the Individuals with Disabilities Education Act, and, to the extent appropriate, the Adult Education Act;

“(3) shall describe how the partnership will ensure that professional development funds available at the State and local levels are used effectively to improve instructional practices for reading and are based on reliable, replicable research on reading;

“(4) shall describe in the application furthers the purposes of this part, including the extent to which the applications, based on the priority described in section 15105(a)(1), are consistent with the Individuals with Disabilities Education Act, and, to the extent that the applications, based on the priority described in section 15105(a)(1), are consistent with the Perkins Act; and

“(C) will use supervised individuals (including tutors), who have been appropriately trained using reliable, replicable research on reading, to provide additional support, before school, during school, after school, on weekends, during non-instructional periods of the school day, or during the summer, for students in grades 1 through 3 who are experiencing difficulty reading; and

“(D) will carry out professional development programs for the classroom staff to ensure that the appropriate teaching staff on the teaching of reading based on reliable, replicable research on reading; and

“(E) will describe how the partnership—

“(1) shall ensure that a portion of the grant funds that the partnership receives in each fiscal year will be used to make subgrants under section 15105;(2) will make local educational agencies described in section 15105(a)(1) aware of the availability of such subgrants.

“(F) PEER REVIEW PANEL.—

“(i) COMPOSITION OF PEER REVIEW PANEL.—

“(A) IN GENERAL.—The National Institute for Literacy, in consultation with the National Research Council of the National Academy of Sciences, the National Institute of Child Health and Human Development, and the Secretary, shall convene a panel to evaluate applications under this section. At a minimum the panel shall include representatives of the National Institute for Literacy, the National Research Council of the National Academy of Sciences, the National Institute of Child Health and Human Development, and the Secretary.

“(B) EXPERTS.—The panel shall include experts who advise the Secretary on their training, expertise, or experience, to evaluate applications under this section, and experts who provide professional development to teachers of reading to children and adults, based on reliable, replicable research on reading.

“(C) LIMITATION.—Not more than ¼ of the panel may be composed of individuals who are employees of the Federal Government.

“(2) PAYMENT OF FEES AND EXPENSES OF CERTAIN MEMBERS.—The Secretary shall use funds reserved under section 15104(b)(2) to pay the expenses and fees of panel members who are not employees of the Federal Government.

“(3) DUTIES OF PANEL.—

“(A) MODEL APPLICATION FORMS.—The peer review panel shall develop a model application form for reading and literacy partnerships applying under this section. The model application form to the Secretary for final approval.

“(B) SELECTION OF APPLICATIONS.—

“(i) RECOMMENDATIONS OF PANEL.—

“(I) IN GENERAL.—The Secretary shall receive grant applications from reading and literacy partnerships under this section and shall provide the applications to the peer review panel for evaluation. With respect to each application, the peer review panel shall initially recommend the application for funding or for disapproval.

“(II) PRIORITY.—In recommending applications to the Secretary, the panel shall give priority to applications from States that have modified, are modifying, or provide an assurance that not later than 1 year after receiving a grant under this section the State and the local educational agency in the area of reading to reflect reliable, replicable research, except that nothing in this Act shall be construed to establish a national system of teachers to reading instruction.

“(III) RANKING OF APPLICATIONS.—With respect to each application recommended for funding, the panel shall assign the applications, relative to other recommended applications, based on the priority described in subclause (II), the extent to which the application furthers the purposes of this part, and the overall quality of the application.

“(IV) RECOMMENDATION OF AMOUNT.—With respect to each application recommended for
funding, the panel shall make a recommendation to the Secretary with respect to the amount of the grant that should be made.

(iii) SECRETARIAL SELECTION.—

(1) IN GENERAL.—Subject to clause (iii), the Secretary shall determine, based on the peer review panel’s recommendations, which applications to reading and literacy partnerships shall receive funding and the amounts of such grants. In determining grant amounts, the Secretary shall take into account the amount of funds received for all grants under this section and the types of activities proposed to be carried out by the partnership.

(2) EFFECT OF RANKING BY PANEL.—In making grants under this section, the Secretary shall select applications according to the rankings by the peer review panel, except in cases where the Secretary determines, for good cause, that a variation from that order is appropriate.

(3) MINIMUM GRANT AMOUNTS.—Each reading and literacy partnership selected to receive a grant under this section shall receive an amount for each fiscal year that is not less than $100,000.

(g) LIMITATION ON ADMINISTRATIVE EXPENSES.—A reading and literacy partnership that receives a grant under this section may use no more than 10% of the grant funds for administrative costs.

(h) REPORTING.—

(1) IN GENERAL.—A reading and literacy partnership that receives a grant under this section shall submit performance reports to the Secretary pursuant to a schedule to be determined by the Secretary, but not more frequently than annually. Such reports shall include—

(A) the results of use of the evaluation instruments referred to in subsection (e)(6);

(B) the process used to select subgrantees;

(C) a description of the subgrantees receiving funds under this title; and

(D) with respect to subgrants under section 15104, the model or models of reading instruction, based on reliable, replicable research on reading, selected by subgrantees.

(2) PROVISION TO PEER REVIEW PANEL.—The Secretary shall provide the reports submitted under paragraph (1) to the peer review panel convened under subsection (f). The peer review panel may consider in recommending applications for funding under this section.

SEC. 15104. LOCAL READING IMPROVEMENT SUBGRANTS.

(a) IN GENERAL.—

(1) SUBGRANTS.—A reading and literacy partnership that receives a grant under section 15103 shall make subgrants, on a competitive basis, to local educational agencies that have at least 1 school that is identified for school improvement under section 1116(c) in the geographic area served by the agency.

(2) ROLE OF LOCAL EDUCATIONAL AGENCIES.—A local educational agency that receives a subgrant under this section shall use the subgrant in a manner consistent with this section to advance reform of reading instruction in any school selected by the agency that—

(A) is identified for school improvement under section 1116(c); and

(B) has a contractual association with 1 or more community-based organizations that have established a record of effectiveness with respect to reading readiness, reading instruction, and reading intervention to children in kindergarten through 3d grade and early childhood literacy.

(b) GRANT PERIOD.—A subgrant under this section for the period of 3 years(6) may not be revoked or terminated on the ground that a school ceases, during the grant period, to be identified for school improvement under section 1116(c).

(c) APPLICATIONS.—A local educational agency that desires to receive a subgrant under this section shall submit an application to the partnership at such time, in such manner, and including such information as the partnership may require. The application—

(1) shall describe how the local educational agency will work with schools selected by the agency under subsection (a)(2) to select 1 or more models of reading instruction, developed using reliable research on reading, as a model for implementing and improving reading instruction by all teachers and staff in each of the schools selected by the agency under such subsection and, where appropriate, their parents;

(2) shall select 1 or more models described in paragraph (1), for the purpose described in such paragraph, and shall describe each such selected model;

(3) shall demonstrate that a person responsible for the development of each such model, or a person with experience or expertise about such model and its implementation, has agreed to work with the applicant in connection with such implementation and improvement efforts;

(4) shall describe—

(A) how the applicant will ensure that funds available under this title, and funds available for reading for grades kindergarten through grade 6 from other appropriate sources, are effectively coordinated and, where appropriate, integrated, with funds under this Act in order to improve existing activities in the areas of reading instruction, professional development, program improvement, parental involvement, technical assistance, and other activities that can help meet the purposes of this title; and

(B) the amount of funds available for reading for grades kindergarten through grade 6 from appropriate sources other than this title, including title I of this Act (except such description shall not be required to include funds made available under part B of title I of this Act unless the applicant has established a contractual association in accordance with subsection (d)(2) with an eligible entity under such part B), the Individuals with Disabilities Education Act, and any other law providing Federal financial assistance for professional development for teachers of such grades who teach reading, which will be used to help achieve the purposes of this title;

(5) shall describe the amount and nature of funds from any other public or private sources, including funds received under this Act and the Individuals with Disabilities Education Act, that will be combined with funds received under the subgrant;

(6) shall include an assurance that the applicant—

(A) will carry out family literacy programs based on the Even Start family literacy model authorized under part B of title I to enable parents to be their child’s first and most important teacher, will make payments for the receipt of technical assistance for the development of such programs;

(B) will carry out programs to assist those kindergarten students who are not ready for the transition to 1st grade, particularly students experiencing difficulty with reading skills; and

(C) will use supervised individuals (including tutors), who have been appropriately trained using reliable, replicable research on reading, to provide additional support, before and during the school day, during non-instructional periods of the school day, or during the summer, for students in grades 1 through 3 who are experiencing difficulty reading; and

(D) will carry out professional development for the classroom teacher and other staff on the teaching of reading based on reliable, replicable research on reading.

(7) shall describe how the local educational agency will work with schools selected by the agency under section 15104, the model or models of reading instruction to children who have not been determined to be a child with a disability (as defined in section 602 of the Individuals with Disabilities Education Act), pursuant to section 634(b)(5) of such Act, because of a lack of instruction in reading; and

(8) shall indicate the amount of the subgrant funds and an explanation of how the applicant will use to carry out the duties described in section 15105(b)(2).

(d) PRIORITY.—In approving applications under this section, a reading and literacy partnership shall give priority to applications submitted by applicants who demonstrate that they have established—

(1) a contractual association with 1 or more Head Start programs under the Head Start Act under which—

(A) the Head Start programs agree to select the same model or models of reading instruction, as a model for implementing and improving reading instruction in the program’s programs, as was selected by the applicant; and

(B) the applicant agrees—

(i) to share with the Head Start programs an appropriate amount of their information resources with respect to the model, such as curricula materials; and

(ii) to train personnel from the Head Start programs;

(2) a contractual association with 1 or more State- or federally-funded preschool programs, or family literacy programs, under which—

(A) the programs agree to select the same model or models of reading instruction, as a model for implementing and improving reading instruction in the program’s programs, as was selected by the applicant; and

(B) the applicant agrees to train personnel from the programs who work with children and parents in schools selected under subsection (a)(2); or

(3) a contractual association with 1 or more public libraries providing reading or literacy services to preschool children, or preschool children and their families, under which—

(A) the libraries agree to select the same model or models of reading instruction, as a model for implementing and improving reading instruction in the library’s reading or literacy programs, as was selected by the applicants; and

(B) the applicant agrees to train personnel, including volunteers, from such programs on the teaching of reading to preschool children, or preschool children and their families, in schools selected under subsection (a)(2).

(e) USE OF FUNDS.—

(1) IN GENERAL.—Subject to paragraph (2), an applicant who receives a subgrant under this section may use the subgrant funds to carry out activities that are authorized by this title and described in the subgrant application including the—

(A) Making reasonable payments for technical and other assistance to a person responsible for the development of a model of reading instruction, or a person with experience or expertise about such model and its implementation, who has agreed to work with the recipient in connection with the implementation of such model.

(B) Carrying out a contractual agreement described in subsection (d).
(C) Professional development (including training of volunteers), purchase of curricular and other supporting materials, and technical assistance.

(D) It has been determined, on a voluntary basis, training to parents of children enrolled in a school selected under subsection (a)(2) on how to help their children with school work, particularly in reading and writing skills. Such training may be provided directly by the subgrant recipient, or through a grant or contract with another person. Such training shall be consistent with reading reforms taking place in the school setting.

(E) Carrying out family literacy programs based on the Even Start family literacy model authorized under part B of title I to enable parents to be their child’s first and most important teacher, and making payments for the receipt of technical assistance for the development of such programs.

(F) Providing instruction for parents of children enrolled in a school selected under subsection (a)(2), and others who volunteer to be reading tutors for such children, in the instructional practices based on reliable, replicable research on reading used by the applicant.

(G) Programs to assist those kindergarten students enrolled in a school selected under subsection (a)(2) who are not ready for the transition to 1st grade, particularly students experiencing difficulty with reading skills.

(H) Programs to support students, enrolled in a school selected under subsection (a)(2), in grades 1 through 3, who are experiencing difficulty reading, before school, after school, on weekends, during non-instructional periods of the school day, or during the summer using supervised individuals (including tutors), who have been appropriately trained using reliable, replicable research on reading.

(I) Carrying out the duties described in section 15105(b)(2) for children enrolled in a school selected under subsection (a)(2).

(J) Providing reading assistance to children who have not been determined to be a child with a disability (as defined in section 602 of the Individuals with Disabilities Education Act), pursuant to section 614(b)(5) of such Act, because of a lack of instruction in reading.

(K) LIMITATION ON ADMINISTRATIVE EXPENSES.—A recipient of a subgrant under this section may use not more than 3 percent of the subgrant funds for administrative costs.

(L) IN GENERAL.—A local educational agency that desires to receive a subgrant under this section shall submit an application to the reading and literacy partnership (as defined in subparagraph (G)) in the geographic area served by the agency.

(2) APPLICATIONS.—A local educational agency that desires to receive a subgrant under this section shall submit an application to the reading and literacy partnership (as defined in subparagraph (G)) in the geographic area served by the agency.

(A) The promulgation of a set of objective criteria, pertaining to the ability of a tutorial assistance provider to provide tutorial assistance in reading, that will be used to determine in a uniform manner, at the beginning of each school year, the eligibility of tutorial assistance providers, subject to the succeeding subparagraphs of this paragraph, to be included on the list described in subparagraph (B) and thereby be eligible to enter into a contract pursuant to subparagraph (F).

(B) The promulgation, maintenance, and approval of a list of tutorial assistance providers eligible to enter into a contract pursuant to subparagraph (F) who—

(i) have established a record of effectiveness with respect to reading百姓 needs, reading instruction for children in kindergarten through 3rd grade, and early childhood literacy;

(ii) are located in a geographic area convenient to the school or schools attended by the children who will be receiving tutorial assistance from the providers; and

(iii) are carrying tutoring in reading to children who have difficulty reading, using instructional practices based on the principles of reliable, replicable research consistent with the instructional methods used by the school the child attends.

(C) The development of procedures (I) for the receipt of applications for tutorial assistance; (II) for determining such assistance for their children, that select a tutorial assistance provider from the list described in subparagraph (B) with whom the agency carrying out this paragraph (D), and (E) that is selected for funding. Such methodology shall include the making of a decision, consistent with local law, between the tutorial assistance provider and the local educational agency carrying out this paragraph. Such contract—

(i) shall contain specifications and timetables with respect to the performance of the tutorial assistance provider;

(ii) shall require the tutorial assistance provider to report to the parent and the local educational agency on the provider’s performance in meeting such goals and timetables; and

(iii) shall contain provisions with respect to the making of payments to the tutorial assistance provider by the local educational agency.

(D) The development of procedures under which the local educational agency carrying out this paragraph—

(i) will ensure oversight of the quality and effectiveness of services provided by each tutorial assistance provider who is identified and selected by a parent in an application submitted pursuant to subparagraph (C) that is selected for funding;

(ii) will remove from the list under subparagraph (B) ineffective and unsuccessful providers (as determined by the local educational agency based on evidence of the provider with respect to the goals and timetables contained in the contract between the agency and the provider under subparagraph (F));

(iii) will provide to each parent of a child identified under subparagraph (D) who requests such information for the purpose of selecting a tutorial assistance provider for the child, in a comprehensible format, information with respect to the quality and effectiveness of the tutorial assistance referred to in subparagraph (I); and

(iv) will ensure that each school identifying a child under subparagraph (D) who will provide upon request, to a parent of the child, information with respect to other tutorial assistance providers who are included on the list described in subparagraph (B), the
provider who is best able to meet the needs of the child.

"(c) Definition. For the purposes of this section the term "parent" or "parents" includes the legal guardian or legal guardians of the child.

SEC. 15106. PROGRAM EVALUATION.

(a) In General.—From funds reserved under section 15109(b)(1), the Secretary shall conduct a national assessment of the programs under this title. In developing the criteria for the assessment, the Secretary shall receive recommendations from the peer review panel convened under section 15103(f).

(b) Submission to Peer Review Panel.—The Secretary shall submit the findings from the assessment to the peer review panel convened under section 15103(f).

SEC. 15107. INFORMATION DISSEMINATION.

(a) In General.—From funds reserved under section 15109(b)(2), the National Institute for Literacy shall disseminate information on reliable, replicable research on reading and information on subgrant projects under section 15104 or 15105 that have proven effective. At a minimum, the institute shall disseminate such information to all recipients of educational financial assistance under titles I and VII of this Act, the Head Start Act, the Individuals with Disabilities Education Act, and the Adult Education Act.

(b) In Carrying Out This Section, the National Institute for Literacy.—(1) shall use, to the extent practicable, information networks developed and maintained by the National Center for Family Literacy, and the Readline Program;

(2) shall work in conjunction with any panel convened by the National Institute of Child Health and Human Development and the Secretary and any panel convened by the Office of Research and Improvement to assess the current status of research-based knowledge on reading development, including the effectiveness of various approaches to teaching children to read, with respect to determining the criteria by which the National Institute for Literacy judges reliable, replicable research and the design of strategies to disseminate such information;

(3) shall assist any reading and literacy partnership selected to receive a grant under section 15103, and that requests such assistance—

(A) in determining whether applications for subgrants submitted to the partnership meet the requirements for subgranting by that partnership to reliable, replicable research on reading; and

(B) in the development of subgrant application forms.

SEC. 15108. STATE EVALUATIONS.

(a) In General.—Each reading and literacy partnership that receives a grant under this title shall reserve not more than 2 percent of such grant funds for the purpose of evaluating the success of the partnership’s subgrantees in meeting the purposes of this title. At a minimum, the evaluation shall measure the extent to which students who are the intended beneficiaries of the subgrants made by the partnership have improved their reading.

(b) Contract.—A reading and literacy partnership shall carry out the evaluation under this section by entering into a contract for research on the basis under which the institution will perform the evaluation.

(c) Submission.—A reading and literacy partnership shall submit the findings from the evaluation under this section to the Secretary and the peer review panel convened under section 15103(f). The Secretary and the peer review panel shall summarize a report of the findings from the evaluations under this subsection to the appropriate committees of the Senate and the House of Representatives and the Workforce Committee of the House of Representatives.

SEC. 15109. AUTHORIZATION OF APPROPRIATIONS; RESERVATIONS; SUNSET.

(a) Authorization.—There are authorized to be appropriated to carry out this title $2,000,000 for fiscal years 1998, 1999, and 2000.

(b) Reservations.—From amount appropriated under this title the Secretary shall—

(1) reserve 1.5 percent of the amount appropriated under subsection (a) for each fiscal year to carry out section 15106(a);

(2) reserve to carry out sections 15103(b) and 15107, of which $5,075,000 shall be reserved for section 15107; and

(3) shall reserve $10,000,000 to carry out section 1202(c).

(c) Sunset.—Notwithstanding section 422(a) of the General Education Provisions Act, this title shall expire September 30, 2000, and is not subject to extension under such section.

TITLE II—AMENDMENTS TO EVEN START FAMILY LITERACY PROGRAMS

SEC. 201. REAUTHORIZATION.

Section 1202(c) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6302(c)) is amended to read as follows:

"(1) grants authorized.—From funds reserved under section 15109(b)(3), the Secretary shall award grants, on a competitive basis, to States to enable such States to plan, implement, and coordinate family literacy initiatives to coordinate and integrate existing Federal, State, and local literacy resources and programs to provide infrastructural support for the purpose of this part. Such coordination and integration shall include funds available under the Adult Education Act, Head Start, this title, part A of this title, and part A of title IV of the Social Security Act.

(2) consortia.—(A) establishment.—To receive a grant under this section, a State shall establish a consortium of State-level programs under the following laws:

(i) this title;

(ii) the Adult Education Act;

(iii) the Head Start Act; and

(iv) all other State-funded preschool programs and programs providing literacy services to children.

(B) plan.—To receive a grant under this subsection, the consortium established by a State shall create a plan to use a portion of the State’s resources, derived from the programs referred to in subparagraph (A), to strengthen and expand family literacy services in such State.

(C) coordination with title XV.—The consortium shall coordinate its activities with the activities of the reading and literacy partnership for the State established under section 15103, if the State receives a grant under such section.

(D) reading instruction.—Statewide family literacy initiatives implemented under this title shall be based on reliable, replicable research on reading (as such terms are defined in section 15102).

(E) technical assistance.—The Secretary shall provide, directly or through a grant or contract with an organization with experience in the development and operation of successful family literacy services, technical assistance to ensure local evaluations undertaken under section 15109; provide accurate information on the effectiveness of programs assisted under this part.

SEC. 202. INDICATORS OF PROGRAM QUALITY.

(a) In General.—The Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.) is amended—

(1) by redesignating paragraphs (3) and (4) as paragraphs (4) and (5), respectively; and

(2) by inserting after paragraph (5) the following:

"(3) the term ‘family literacy services’ means services provided to participants on a voluntary basis that are of sufficient intensity in terms of hours, and of sufficient duration to make sustainable changes in a family (such as eliminating or reducing welfare dependency) and that integrate all of the following activities:

(A) Interactive literacy activities between parents and their children.

(B) Participation by parents to partner with their children in learning.

(C) Parent literacy training, including training that contributes to economic self-sufficiency.

(D) Appropriate instruction for children of parents receiving parent literacy services.

SEC. 203. EVALUATION.

Section 200 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6309) is amended—

(1) in paragraph (1), by striking ‘‘and’’ at the end;

(2) in paragraph (2), by striking the period at the end and inserting ‘‘; and’’; and

(3) by adding at the end the following:

"(3) to provide States and eligible entities receiving a subgrant under this part, directly or through a grant or contract with an organization with experience in the development and operation of successful family literacy services, technical assistance to ensure local evaluations undertaken under section 15109; provide accurate information on the effectiveness of programs assisted under this part.

SEC. 210. INDICATORS OF PROGRAM QUALITY.

(a) In General.—Each State receiving funds under this part shall develop, based on the best available research and evaluation data, indicators of program quality for programs assisted under this part. Such indicators shall be designed to monitor, evaluate, and improve such programs within the State. Such indicators shall include the following:

(1) With respect to eligible participants in a program who are adults—

(A) achievement in the areas of reading, writing, English language acquisition, problem solving, and numeracy;

(B) receipt of a high school diploma or a general equivalency diploma;

(C) entry into a postsecondary school, job retraining program, or employment or career retraining program, or employment or career.

(2) With respect to eligible participants in a program who are children—

(A) improvement in ability to read on grade level or reading readiness;
Title III—Funds for Federal Work-Study Programs

Sec. 301. Use of Work-Study Funds for Tutoring and Literacy

Section 443 of the Higher Education Act of 1965 (42 U.S.C. 2753) is amended—

(1) in subsection (b)(2)—

(A) by striking “and” at the end of subparagraph (A)

(B) by redesignating subparagraph (B) as subparagraph (C), and

(C) by inserting after subparagraph (A) the following new subparagraph:

“(b) in academic year 1998 and succeeding academic years, an institution shall use at least 2 percent of the total amount of funds granted to such institution under this section for such academic year in accordance with subsection (d); and”;

(2) by striking at the end of the preceding subsection:

“(d) Tutoring and Literacy Activities.—

(1) Use of Funds.—In any academic year to which subsection (b)(1) applies, an institution shall use the amount required to be used in accordance with this subsection to compensate (including compensation for time spent in directly related training and travel) students—

(A) employed as a reading tutor for children who attend preschool through elementary school;

(B) employed in family literacy projects.

(2) PRIORITY FOR SCHOOLS.—An institution shall—

(A) give priority, in using such funds, to the employment of students in the provision of tutoring services in schools that—

(i) are serving school improvement under section 1116(c) of the Elementary and Secondary Education Act of 1965; or

(ii) are selected by a local educational agency under section 15104(a)(2) of such Act; and

(B) ensure that any student compensated with such funds who is employed in a school selected under section 15104(a)(2) of the Elementary and Secondary Education Act of 1965 is trained in the instructional practices based on reliable, replicable research on reading used by the school pursuant to such section 15104.

(3) FEDERAL SHARE.—The Federal share of the compensation of work study students compensated under this subsection may exceed 75 percent.

(4) WAIVER.—The Secretary may waive the requirements of this subsection if the Secretary determines that waiving such requirements would have a harmful effect on the students at the institution.

(5) RETENTION.—Any institution that does not use the amount required under this subsection, and that does not request and receive a waiver from the Secretary under paragraph (4), shall return to the Secretary any portion of the funds required for reallocation under paragraph (6), any balance of such amount that is not used as required under this subsection:

(6) REALLOCATION.—The Secretary shall reallocate any amounts returned pursuant to paragraph (5) among institutions that used at least 4 percent of the total amount of funds granted to such institution under this section to compensate students employed in tutoring and literacy activities in the preceding academic year. Such funds shall be reallocated among such institutions on the same basis as excess eligible amounts are allocated to institutions pursuant to section 442(c). Funds received by institutions pursuant to this paragraph shall be used in the same manner as amounts required to be used in accordance with this subsection.

Title IV—Repeals

Sec. 401. Repeal of Certain Unfunded Education Programs

(a) Adult Education Act.—The following provisions are repealed:

(2) English Literacy Grants.—Section 302 of the Adult Education Act (20 U.S.C. 1211a).

(3) Education Programs for Commercial Drivers.—Section 373 of the Adult Education Act (20 U.S.C. 1213).

(4) Adult Literacy Volunteer Training.—Section 382 of the Adult Education Act (20 U.S.C. 1213a).

(b) Carl Perkins Vocational and Applied Technology Education Act.—The following provisions are repealed:

(2) Supplementary State Grants for Facilities and Equipment and Other Program Improvement Activities.—Part F of title III of the Carl D. Perkins Vocational and Applied Technology Education Act (20 U.S.C. 2395 et seq.).

(c) Community Education Employment Centers of Vocational Education Light Workhouse Schools.—Part G of title III of the Carl D. Perkins Vocational and Applied Technology Education Act (20 U.S.C. 2396 et seq.).

(d) Demonstrating.—Part B of title IV of the Carl D. Perkins Vocational and Applied Technology Education Act (20 U.S.C. 2413 et seq.).

(e) Bilingual Programs.—Subsections (b) and (c) of section 441 of the Carl D. Perkins Vocational and Applied Technology Education Act (20 U.S.C. 2441).

(h) Elementary and Secondary Education Act of 1965.—The following provisions are repealed:

(3) Impact Aid Program.—Section 8006 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7706) is repealed.

(4) Special Programs and Projects to Improve Educational Opportunities for Indians.—Subparts 2 and 3 of title IX of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7821 et seq.).

(7) Authorization of Appropriations.—Section 1504(b)(2)(D) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7872(c)).

(g) Goals 2000: Educate America Act.—Subsections (b) and (d)(3) of section 601 of the Goals 2000: Educate America Act (20 U.S.C. 5951) are repealed.

(h) Higher Education Act of 1965.—The following provisions are repealed:

The general outline then became, one, make sure that the teachers have the help they need to effectively teach reading based on reliable, replicable research, including phonics.

Now I want to make sure that what everyone should understand, we are not dictating any one teaching reading. Anybody that does that is asking for trouble. If they are going to teach whole language and nothing else, I will guarantee my colleagues it will be a disaster. If they are going to teach look-see, which they tried in the 1960's, that is really going to be a disaster. But what we are saying is that they should use reading readiness, reading based on reliable, replicable research, including phonics.

The second idea then would be reading readiness of the child. No first grade child should fail. It is the adult that fails, not the child. No first grade child should ever be socially promoted. That is a disaster for a child. So it is the adult that failed, not the child, so we have to find a way to deal with that issue, and what we do then is say that if a child is not ready for first grade, do not push them into first grade; that the kindergarten teacher certainly knows whether they are or are not reading-ready. If they are not, then give them the kind of effort that they need to make sure that they are reading-ready in the first place.

Second, we know that the parents are the first and most important teacher, and if they are not capable, they do not have the literacy skills themselves, then we should make sure that they do.

Third, we say that reading readiness of the child beyond first grade will be dealt with mentors and with help from outside, helping the teacher, not bringing in expensive people doing their own thing, but having people from the college work program spend more of their time helping in the community rather than exporting that.

Next we say that title I schools are the most in need since we have a very little bit amount of money. Those title I schools that need the help the most would be the people who would be able to get these grants.

So we talk about reading readiness of the child, we talk about preparation of the teacher, we talk about tutorial assistance, we talk about college work-study help, and we talk about those schools most in need.

Now what I want to point out is that it is not a new program. We are trying to improve the existing literacy programs that are out there. Second, I want to again make sure my colleagues understand what we are saying is it is the budget agreement that made the decision that there would be a literacy program, and our committee is trying to make sure it is the best.

Mr. GOODLING. Mr. Speaker, I yield myself 4 minutes. (Mr. GOODLING asked and was given permission to revise and extend his remarks.)

Mr. GOODLING. Mr. Speaker, I rise in support of H.R. 2614, the Reading Excellence Act. The issue of literacy has been one of my main interests since I came to this body. Over the years I have had an opportunity to work in a bipartisan manner with many members of the committee to develop legislation directed at improving the literacy of our Nation's citizens no matter what their age. While the Even Start program, the Family Literacy Program, is high on my literacy list of achievements, I would also include guidance directed at improving the literacy of our Nation's citizens no matter what their age.

Today we have an opportunity to support a refinement and an improvement of all existing literacy programs, the Reading Excellence Act, which will help ensure that individuals of all ages have literacy skills they need to lead productive lives. Over the years what has been missing from our efforts has been a focus of preventing reading difficulties from developing in the first place. The bill addresses this problem.

As Members know, there was a budget agreement. The budget agreement said that the President will have a literacy bill. It is our responsibility then as an authorizing committee, we did not participate in the budget agreement, but it is our responsibility then to make sure that whatever that literacy bill is, it is a well thought out literacy bill and a bill that will work. And so with this in mind, I looked at the President's bill and then I decided on what areas we should really concentrate on if we are going to improve literacy in this country.
November 8, 1997

CONGRESSIONAL RECORD — HOUSE H10393

work and filled in this outline to make sure that we would have something that could be accepted by all, and I believe we have come up with that initiative.

Mr. Speaker, I reserve the balance of my time.

Mr. MARTINEZ. Mr. Speaker, I yield myself such time as I might consume.

Let me start out by saying that during the early part of this session, the President's America Reads legislation was introduced by the ranking member, the gentleman from Missouri [Mr. CLAY], myself and many other of our Congressional colleagues. That initiative focused on the use of community-based volunteer efforts that would provide additional assistance to children after school, on weekends and during the summer, with the goal of ensuring that all children can read independently by the end of the third grade. I want to commend the President for his leadership in not only putting forth this legislation, but in realizing the need to involve community-based organizations and volunteers in the goal of increased literacy for children.

Mr. Speaker, due to the budget agreement, this initiative was struck between President Clinton, Congressional leaders, Republicans and Democratic Members of the Committee on Education and the Workforce and the administration have engaged in many months of negotiations to achieve a bipartisan literacy initiative that combines the ideas of the President and our committee colleagues. In these many months we have produced what I believe is a very balanced and truly bipartisan agreement which is before us today.

Through the coupling of the President's ideas and those of the gentleman from Pennsylvania [Mr. GOODLING] and the gentleman from California [Mr. RIGGS], we have produced a bill that will positively impact the efforts of our country's educators in teaching children to read. This legislation, through both efforts to improve professional development of teachers in reading and the utilization of community-based organizations in the mobilization of volunteer tutors, will enable us to ensure that children will read independently by the end of the third grade. This is a truly a goal which all of us can support.

This bill provides the much needed assistance for teachers to receive professional development in teaching children to read more effectively, and it will ensure that professional development is based on reliable, replicable research; with other words, proven methods of reading instruction.

During our committee's hearings on childhood literacy, we heard a large amount of testimony that what the teachers who teach reading want the most, is professional development giving them effective strategies in instructing children to read. This bill will enable school districts to begin fulfilling that need.

In addition, this bill includes the priority of the President stated in his America Reads legislation to provide additional help to children learning to read through volunteer tutoring before and after school, on weekends and during the summer. Huge success stories have happened across the country in communities which are already using the America Reads volunteer structure to ensure literate children, and this bill allows these successes to continue and grow in number.

We have had a bipartisan letter from children who are struggling with one of the most basic and necessary components of our society will get the extra help outside the classroom that they so desperately need.

This legislation also includes provisions allowing for tutorial assistance grants. As Members know, this section of the bill has generated a significant amount of controversy and has been the object of numerous negotiation sessions. Mr. Chairman, over the last few weeks, including right up to the minute that this bill was presented on the floor. These negotiations have added what I believe is the key missing component of accountability, both educational and financial results. This is accomplished through the insistence that local educational agencies which provide tutorial education assistance grants must enter into contracts with tutorial assistance providers. This contract includes specific goals, outcomes and timetables for student achievement, which gives local educational agencies the tools to ensure that this program will help those children most in need. So I believe that this section of the bill is vastly improved and now a positive addition to the overall program.

I strongly believe that the legislation before us today will truly help children to read independently by the end of the third grade and grasp the essential literacy requirement for employment in our technologically advanced society. I also believe that Members of both parties should feel confident that this legislation balances the two very important needs in assuring childhood literacy, strong professional development for reading teachers and additional tutoring assistance before and after school, on weekends and during the summer.

I urge my colleagues to support this important legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. GOODLING. Mr. Speaker, I yield 4 minutes to the gentleman from California [Mr. RIGGS], the subcommittee chairman who helped put the meat on the skeleton that I provided.

Mr. RIGGS. Mr. Speaker, I thank the gentleman from Pennsylvania for yielding this time to me, and the first thing I want to do is thank my colleagues. I think this is important legislation deserving of their support. I have had several of my Republican colleagues ask me if this is legislation that I intend to support, and the answer to that is an emphatic yes. And if I can just back up for a moment and sort of walk my colleagues through the process, my colleagues will recall that the bipartisan agreement to balance the budget sets aside for a new Federal literacy initiative. I suspect that most people, obviously, in this Chamber supported that agreement, voted for it on an overwhelmingly bipartisan basis. We then set about drafting the details of that initiative fleshing it out, if my colleagues will, and had a spirited, bipartisan give and take as to the proper approach in spending that money.

The President wanted his America Reads initiative, which would have led to a tremendous expansion of AmeriCorps, the National Service Corps Corp., and on our side of the aisle we insisted that a majority of the money be used for teacher training and to provide parents and guardians of the children who are struggling, who are consistently reading below grade level and behind their peers, with tutorial assistance grants. Our legislation would invest this Federal taxpayer money in family literacy as well, trying to help illiterate parents obtain literacy skills so that they can work with their children, because after all, that parent is that child's first and best teacher.

We also put the money into college work program tutors. These are young people who are at institutions of higher learning, and in the process of obtaining a higher education, a college education, are getting assistance through the college work/study program, and we think that these young people are in an ideal position to fulfill their obligations under the college work/study program by helping young people learn to read better. So we want a lot of the college students participating in the college work/study program to serve as reading tutors and mentors to young people.

We also put a lot of the money into basic grants to States to improve teacher training, helping the, if my colleagues will, the teachers learn to teach better. We heard repeatedly during the course of our hearings both here in Washington, at the two literacy summits that I conducted in my congressional district, from veteran, experienced classroom teachers, need to improve their teaching skills. We had teachers, colleagues, tell us in the course of the hearings that they had never received the proper instruction in teaching reading, if my colleagues can imagine, and I know that speaks volumes about traditional teacher education at colleges and universities.

We would like to address that problem. Perhaps we can address it in a bigger way when we get around to the reauthorization of the Education Act. But at least here in this bill we have made a start by providing grants to States and local school districts in those school districts that have the
most glaring need. It is documented by the fact they have the most titled students, they have the most so-called school improvement sites, and it is at those schools and with those students that we want to help teachers, classroom teachers, reading specialists, obtain the training based on reliable, replicable research in order to do a better job teaching our young people.

And lastly, as I said, we also provide money for parents and legal guardians to obtain tutorial assistance for their children in those instances where a child needs more intensive, one-on-one type of reading instruction from a tutor that they are not able to obtain during the course of a school day, and we say that those grants can be used by parents and guardians to obtain tutoring services from a list of approved and recommended tutors by the local school districts.

So I think what we have crafted here is a good, balanced bill, one that fulfills what it is that we have done. The authorizing committee to come up with the details of the authorizing legislation to spend the $260 million set aside for the budget agreement.

Mr. Speaker, I rise in support of H.R. 2614, the Reading Excellence Act.

As a parent and former school board member, I have been alarmed over recent statistics on the number of children experiencing reading difficulties.

I am particularly saddened because I know that reading skills are a sign of impending academic difficulties of a much broader nature which can diminish the ability of such children to grow into productive, contributing members of society.

We know, for instance, that 50 percent of our current adult population read at the bottom two of five levels of literacy. Not surprisingly, 43 percent of those in the lowest literacy level live in poverty; 17 percent are receiving food stamps, and 70 percent are unemployed or underemployed. In addition, more than two-thirds of school dropouts, who have been arrested, have below average literacy levels. We need to act now to prevent the same type of statistics for future generations.

Over the August recess, I had the opportunai to hold two literacy summits in my congressional district. These summits were attended by individuals with a wide range of involvement in literacy activities—from those individuals working with preschool children, to teachers in elementary school, to family literacy providers, to programs working with adults.

What I found was a general agreement among summit participants that there is a need to improve the teaching of reading in our country and to provide teachers with current research on how children learn to read.

Today, millions of children are on their path toward a life of illiteracy and underachievement. This legislation provides hope for these children by giving them the opportunity to obtain the reading skills necessary to lead productive lives.

H.R. 2614 responds to the concerns raised by my constituents and other individuals who testified before our committee or who contacted us to discuss this topic. It not only focuses on providing training to teachers based on the most reliable, replicable research on reading, it calls for the dissemination of such information to all teachers in Federal programs with a strong focus on improving the reading skills of children. This will ensure these teachers, as well as those directly assisted under this act, will have the knowledge necessary to effectively teach reading to some of the Nation's most disadvantaged school children.

In addition, Mr. Speaker, this legislation will act as a companion to our recently enacted reform of the Individuals with Disabilities Education Act that children who are identified as not being disabled but still being unable to read will receive assistance to become literate.

Among these children are those who have historically been placed in special education under the Individuals with Disabilities Education Act. Prior to this year's amendments to IDEA, many children with reading problems were identified as learning disabled when their real problem was simply not being taught to read. Before this legislation, we will have to do it for those children years of misguided assistance, but it will not solve the problem that led to the special education referral in the first place, that is, not being able to read. The Reading Excellence Act will ensure that these children, and others, are provided with reading instruction necessary to become literate.

This legislation also focuses on expanding the number of family literacy programs and providing assistance to children so they can be their child's first and most important teacher. I commend the chairman for all of his work on the issue of family literacy. I believe this approach to be one of the most effective approaches to helping to break the cycle of illiteracy in many families.

Another important aspect of this legislation is a provision which will expand quality tutoring assistance for economically disadvantaged children. We have worked with our Democrat colleagues to strengthen accountability under these grants and make other clarifying changes regarding accountability. This specifically, this act would allow local educational agencies to compete for funds to provide tuition assistance grants [TAGs]. These grants would be targeted to parents with children who have significant reading difficulties and attendance, which is within an empowerment zone or enterprise community.

Using these funds, parents could choose, from among a list of qualified providers, a tutor who they feel is best suited to help their children learn to read.

To ensure that tutors are able to provide high quality services, the act requires the local education agency to compile and maintain a list of qualified tutors. To be placed on this list, tutors must have a proven track record in reading remediation for children in grades K—3 and must commit to providing instruction based upon reliable teaching methods—such as phonics-based instruction—that have produced results supported by replicable research.

Mr. Speaker, we have the opportunity to make a significant difference in the future of many children who currently are unable to read. I urge my colleagues to seize upon this opportunity and support the Reading Excellence Act.

Mr. MARTINEZ. Mr. Speaker, I yield 3 minutes to the gentleman from Indiana [Mr. ROEMER].

Mr. ROEMER. Mr. Speaker, I, first of all, salute the gentleman from Pennsylvania [Mr. GOODLING] and the gentleman from California [Mr. Riggs] for their hard work and commitment to this bipartisan bill. I also want to recognize our ranking member, the gentleman from California [Mr. Martinez], and Mr. MILLER for strongly negotiating through the process our commitment to different new provisions to strengthen, I think, an existing program. So I think both sides here have worked together to craft a very, very strong bill.

Yesterday we worked in a bipartisan way to pass new ideas with a charter school bill for public choice and public education. Today we are working in a bipartisan way to strengthen the existing literacy program.

I rise in strong support of this bill, both for policy reasons and for some very, very substantive reasons which are included in this bill. First of all, in my home state of Pennsylvania, where we are not recreating the wheel, we are not coming up with a brand new program here, we are trying to find ways to improve the existing program and work with parents and teachers and volunteers and professionals to solve one of the most vexing and heartbreaking problems in America today: illiteracy.

It hurts businesses, costing them billions of dollars when they do not get the right kinds of employees coming out of our high schools that can read. It hurts parents who cannot read appropriately to their children. It certainly hurts children's self-esteem when they fall behind.

This bill comes up with new ideas to fix an existing problem and to improve an existing program.

What are these ideas? First of all, we focus on young children, in the kindergartens and the first grade. Next year, in the Head Start Program, we hope to move it even further, closer to 2 and 3 and 4 years old and earlier in their education.

Second, we stress family literacy, encouraging the parent to work as the child's first teacher and encouraging parents to develop literacy skills.

Third, we require States to have a professional development program for teachers. Teachers have to learn new things. When the first way they are teaching the child doesn't work, they have to be able to teach in alternative ways.

Fourth, we encourage community-based programs, reading programs, and we require commitment from colleges that participate in the college work-study program to work as volunteers.

This is a comprehensive way to address literacy. We are doing it in a bipartisan way. We are fixing an old program with new ideas. I strongly encourage Members on both the Republican side and the Democratic side to vote for and pass this bipartisan program.
Mr. GOODLING. Mr. Speaker, I yield 2 minutes to the gentleman from New Jersey [Ms. ROUKEMA], a very active member of our committee in this area, a former teacher, and very helpful in putting the legislation together. (Ms. ROUKEMA asked and was given permission to revise and extend her remarks.)

Mrs. ROUKEMA. Mr. Speaker, I certainly thank the chairman for yielding me time.

Mr. Speaker, I want to congratulate the chairman and ranking member for this wonderful contribution on an issue that is so essential for all Americans. This is a bill that deserves enthusiastic support.

Mr. Speaker, I do not think there is another issue that bothers the American people as much as the question of education and how it affects their families. This represents real progress with this legislation.

Studies have shown, I might as well repeat this, it has been stated, but studies have shown that 40 percent of the Nation's fourth graders are below basic reading skills. That is something that has to be improved.

I know there are those here that want to give volunteer help through AmeriCorps. That is not the issue here today, because there is not a principal or educator in this country who would turn away volunteers. But they would also say that the most important essential need is that we train, have real reading training for teachers in the classroom. That is what this bill does. It gives them the assistance to the classroom teacher and gives them training.

Mr. Speaker, I think the bill, of course, also helps lower-income parents and gives them the opportunity to gain remedial assistance, which of course we also know is important.

I would like to say, especially to my conservative friends, fellow fiscal conservatives, I might say, because I am one of those too, I want us to know that 95 percent of the funding authorized by this legislation is driven right down into the classroom. It is not eaten up in bureaucratic overhead and administration. I think that is important for all of us to know.

Finally, I will conclude with my own commitment, as a teacher, a mother, in saying that without reading, there is no learning, and without learning, there is no education; without education, our Nation cannot compete in an increasingly competitive global economy. And that is what this bill does: gives the assistance to those in the best position to make a difference—the classroom teacher.

The legislation Mr. GOODLING and our Education Committee approved emphasizes helping teachers to teach reading. This bill is grounded in the basics, and ensures that reliable and replicable research on reading techniques, such as phonics, actually reaches the classroom.

Our bill also will give lower-income parents the opportunity to gain remedial assistance for their children from trained and approved reading tutors. To do all this, the bill creates a new system, which allows for reading and literacy partnerships—a State entity—to compete for literacy grants to use toward innovative reading programs.

Now let me close with a few words for my fellow fiscal conservatives. I want you to know that 95 percent of the funding authorized by this legislation is driven right down into the classroom. It is not eaten up in bureaucratic overhead and administration. If we would add that this legislation also repeals 67 unfunded Federal Department of Education programs.

As a member of the Education Committee since coming to Congress, I have said that we need to undertake a clear-eyed evaluation of every educational program on the books, determine what works and fully-fund them and get rid of the rest. This legislation moves us in that direction.

Mr. Speaker, as a former teacher, mother of three and grandmother of five there is no more fundamental reform we can adopt to give the next generation a successful future.

Without reading, there is no learning. Without learning, there is no education. Without education, our Nation cannot compete in an increasingly competitive global economy. We must do this for our children and our children's children. I thank the chairman and urge support for this legislation.

Mr. MARTINEZ. Mr. Speaker, I yield 3 minutes to the gentleman from Martinez, California [Mr. MILLER].

Mr. MILLER of California. Mr. Speaker, I thank the gentleman from California [Mr. MARTINEZ] for yielding to me, from Martinez, and I thank him for his work on this legislation, and I want to thank our chairman, the gentleman from Pennsylvania [Mr. GOODLING], and the gentleman from Missouri [Mr. CLAY] and the gentleman from California [Mr. RIGGS] and, again, the gentleman from California [Mr. MARTINEZ] for all of the effort to bring this legislation to the floor and to make it a bipartisan effort.

There have been very intensive negotiations around this legislation. I think those negotiations have been intense because, as the gentleman from New Jersey just said, we believe this is one of the most important subjects that we confront as members of the Committee on Education and the Workforce, and that is our ability to improve the outlook for our young school children to learn to read so that they can read to learn for the rest of their lives.

As so many have already said here today, we are not doing a very good job in that effort. I think this legislation does start to turn us in that direction. In terms of the emphasis that it places on the professional development of teachers, it is clear that we have got to have competent, capable teachers in that classroom, spending time with those children to help them learn to read.

It is clear that we have got to get the parents of these children involved in reading to their children and encouraging their children and rewarding their children, and investing in the skills that are going to help them. It is also very clear that we have got to call upon additional volunteers to come to our schools and to spend time with the children.

Mr. Speaker, I spent an awful lot of time with young adolescents in my local high schools where I teach a coupling classes for young children and young students in the continuation high school and also in a honors class at another high school. Every Monday morning, we talk about some of these issues. And I cannot tell you the sadness the young people express and how cheated they feel that they cannot read to grade level and how angry they are about social promotions and being told that they are doing fine, they are getting C's, and they will be OK, and now we are talking about social promotion and being told that they are doing fine, and they cannot read to grade level in that effort. I think this legislation could have a successful education.

Mr. Speaker, I yield 3 minutes to the gentleman from Martinez, California [Mr. MARTINEZ].

Mr. Speaker, I rise in strong support of this legislation. I had the privilege to meet with the gentleman from Pennsylvania, Chairman GOODLING, for his strong leadership in this area.

Among the many laudable sections of the budget and tax cut package this Congress approved, there was an additional $260 million to enhance literacy. Heaven knows we need it.

Recent studies have shown that 40 percent of the Nation's fourth graders possess below-basic reading skills. Now there are many societal and educational reasons for this—but time will not allow a complete discussion here.

Quite frankly, I have been a bit puzzled by the President's approach to this new literacy program. He proposed to spend the $260 million to send an algorithmically trained paid volunteers from America Reads to low-income schools to serve as reading tutors.

Mr. Speaker, there is not a principal in this country who would turn away new volunteers at his or her school.

Finally, I will conclude with my own commitment, a teacher, a mother, in saying that without reading, there is no learning, and without learning, there is no education; without education, our Nation cannot compete in an increasingly competitive global economy. And that is what this bill does: gives the assistance to those in the best position to make a difference—the classroom teacher.

Mr. Speaker, as a former teacher, mother of three and grandmother of five there is no more fundamental reform we can adopt to give the next generation a successful future.

Without reading, there is no learning. Without learning, there is no education. Without education, our Nation cannot compete in an increasingly competitive global economy. We must do this for our children and our children's children. I thank the chairman and urge support for this legislation.

Mr. MARTINEZ. Mr. Speaker, I yield 3 minutes to the gentleman from Martinez, California [Mr. MILLER].

Mr. MILLER of California. Mr. Speaker, I thank the gentleman from California [Mr. MARTINEZ] for yielding to me, from Martinez, and I thank him for his work on this legislation, and I want to thank our chairman, the gentleman from Pennsylvania [Mr. GOODLING], and the gentleman from Missouri [Mr. CLAY] and the gentleman from California [Mr. RIGGS] and, again, the gentleman from California [Mr. MARTINEZ] for all of the effort to bring this legislation to the floor and to make it a bipartisan effort.

There have been very intensive negotiations around this legislation. I think those negotiations have been intense
I would hope that the House would overwhelmingly pass this bipartisan legislation to improve America's reading education.

Mr. GOODLING. Mr. Speaker, I yield 2 minutes to the gentleman from Pennsylvania [Mr. Peterson], a valuable member of the committee.

Mr. PETERSON of Pennsylvania. Mr. Speaker, I thank the chairman and commend him and the leaders on both sides of the committee for the hard work they have done on this very important issue.

I do not think there is any issue facing America that is more important to our future than to somehow improve our educational system to where every Johnny and Susie when they leave school are good readers.

I will have to be honest, I was not excited when I saw the budget agreement that called for another new reading literacy program, but I am pleased with the work that has been done with existing programs and in streamlining this one to get the money to our schools.

But I will say this: I do not think we will solve the literacy problem in this country just with Federal initiatives. We need the commitment from our school boards and our superintendents and principals that no child will leave their school without good reading skills, and, without that commitment, no State or Federal money will solve this problem. We need that commitment at the local level.

But I come to the floor today to support the Reading Excellence Act. This act brings only successful components of education together, the school, the teacher, the parents, and, most importantly, the child.

This focuses on providing teachers and tutors with better tools. The Reading Excellence Act provides parents with the ability to better their child's opportunity to make the grade in reading. Through the tutorial assistance grants, Johnny and Susie's parents will be able to pick from a list of programs in order to find the right program for the needs of their children. I think that is one of the most important parts of this bill. When we stop and think about it, where did we learn to read? It was a combination of school and home and family members.

Another important aspect of this bill is while children are having difficulties as a result of a family environment. This act provides literacy assistance to the child's parents, allowing them to become their child's first and foremost teacher. It directs the funds to the local level, where only educational reform happens. This measure strengthens our teachers and their teaching methods.

Finally, we ensure that parents remain the key element in the education equation, providing them with literacy assistance and assisting them in the decision process for their child, ensuring that parents become the premier teachers.

With this bill we only provide tools, but we still need the commitment of the school superintendents and directors back home that no child will leave their school without good literacy skills.

Mr. MARTINEZ. Mr. Speaker, I yield 4 minutes to the gentleman from New York [Mr. Owens], a long time proponent of reading from his library background.

(Mr. OWENS asked and was given permission to revise and extend his remarks.)

Mr. OWENS. Mr. Speaker, I want to congratulate the ranking member of the Subcommittee on Early Childhood, Youth, and Families, the gentleman from California [Mr. Martinez], and the chairman of the subcommittee, the gentleman from California [Mr. Riggs], and the gentleman from Pennsylvania [Chairman Goodling], and all the others who have negotiated this piece of legislation.

There were some serious differences, and for a moment I thought maybe the children of America would be denied this small effort because of those differences, and I do not think it is good to do that and wait another year while the inaccuracy of the teaching of reading goes forward.

I was shocked to learn that most of the teachers in our schools have never been trained to teach reading. There was an article on the New York Times editorial page which said the overwhelming majority of teachers have never been taught to teach reading and there is a need to have some kind of instruction on how to do that. It will improve the job.

So the children who will benefit from this need it now. We cannot hesitate and wait. We should go on and do all we can. So this is one more small effort to improve education in America.

It is just that, a small effort. This is like trying to clear a high jump by using a teacup. This is a small program. It is $200 million. It may sound like a lot of money out there, but a nuclear submarine costs more than $2 billion.

If we are really going to deal with the problem of teaching reading, we ought to try to make an impact on the schools of education with some kind of Federal program in the future. I do not know whether it costs as much as a nuclear submarine, or not, probably not, but it would require a bigger effort than this one.

This is a good effort. It is a good pilot program, and it ought to go forward. It brings in a lot of different elements, all of which I think ought to be brought in. The Common Core dictates that you should use what you have at hand, and this is a good common sense effort.

But in order to really deal with the problem, I hope that these pilot programs and these good common sense efforts are only a prelude to this Congress going ahead in the future to deal with the overwhelming problem of inadequate and substandard education in America.

The war against substandard education cannot be fought by some rifle corps going out. That helps. This is a little operation where we are sending two platoons to deal with the problem. We need a real war on substandard education.

A real war means you deal with basic problems, like school construction. School construction is a basic problem left out there. We need $120 billion to deal with the infrastructure of schools all across America. Even if you do not get nearly that much, we ought to do better than we have done so far.

So we are going to teach reading better and make efforts to teach reading or to improve technological instruction or provide more technology in the schools, when the kids are still up against the problem where the boiler rooms are breaking down in the schools and they have to go to school and bundle up in order to stay warm, and that does not just happen in Washington D.C., there are a number of schools all across America that have problems in terms of heat.

So we should see this as a wonderful prelude, as an indication that the Congress cares. But we are just beginning to deal with the bigger problem. We are just beginning to fight the war. These are little patrols that we are sending out to reconnoiter, to scout out the problem. The problem is much bigger, and beyond this program on reading, which is about $200 million, $210 million, we need to have a comprehensive approach to education, stimulated and guided by the Congress of the United States, despite the fact that the primary responsibility for education is at the local level.

[2 minutes to the gentleman from Pennsylvania (Mr. Peterson), a valuable member of the committee for the hard work they have done on this very important issue.]

Mr. GOODLING. Mr. Speaker, I yield 2 minutes to the gentleman from Texas [Mr. Paul], another important member of our committee.

(Mr. PAUL asked and was given permission to revise and extend his remarks.)

Mr. PAUL. Mr. Speaker, I appreciate the opportunity to express my opposition to the Reading Excellence Act, which creates yet another unconstitutional, ineffective, $260 million new Federal education program.

I do not challenge the motivation of those who today bring this bill to the floor. The supporters of this bill claim that by passing the Reading Excellence Act, the Federal Government will, quote, enable every child to learn to read, end of quote.
Mr. Speaker, it is ironic that the reason we are considering this bill is because the budget agreement, which was supposed to end the era of big government, provides the opportunity for a Federal literacy program. Obviously, the budget does not end big government, but preserves and expands unconstitutional State interference in areas where the Federal Government has neither legitimacy nor competence.

Rather than returning money and authority to the States and the people, commensurate with the 10th amendment, this bill creates another complex bureaucratic process, laden with rules, regulations, and State mandates. Under this bill, States receiving a literacy grant must establish a reading and literacy curriculum. The markup of the grant program is dictated by the Federal Government. The partnership must then apply for a grant to the Secretary of Education, explaining how they would comply with all of the bill’s mandates. The grants are then approved by a Peer Review Panel, a group of experts chosen by the National Institute for Literacy and other Federal organizations. States receiving grants under this program would then have to distribute those grants to local education agencies (LEA’s) who submit a plan to their reading and literacy partners. Among the information that States would be required to submit is a description of how subgrants made by the partnership would be awarded, the description of how the partnership would evaluate subgrantees, and a description of how States would ensure that a portion of the funds will be used to provide tutorial assistance grants.

Those receiving Federal literacy funds may only use them for federally defined purposes. They lack basic decoding and literacy skills. Scarce Federal dollars should be directed to the most basic solution to the reading problem, teaching young people, and even older people for that matter, how to read. It is significant, be it the simple act of being able to read traffic signs or being able just to get around, to reading manuals, to higher education, or being able just to get around, to read a book and to escape to some fantasy as a result of that reading is one of the tremendous necessities and pleasures in the life of anybody in this world, and we want our American citizens to be able to do it.

The President, I think, was on the right track to recognize the power and importance of literacy when he announced his literacy initiative, but I think his foci was a little bit misguided in terms of having volunteers, who are certainly a very important component in ascertaining a level of reading in children, but we have to go beyond that, I believe, My office indeed has been involved as volunteers in the Everybody Wins program, where staff go to Tyler Elementary right up the street here and read with their children to whom they are assigned once a week, and makes a huge difference as far as kids are concerned.

But the problem is more fundamental than trying to get children to like reading. It rests in the fact that many children simply cannot translate the written word into the spoken word. They lack basic decoding and literacy skills. Scarce Federal dollars should be focused on the most basic solution to the literacy problem.

For a problem like this, I think teacher training is imperative. Reading teachers need to learn the best methods for teaching reading based on reliable, replicable research. By giving children the basic building blocks of literacy, learning how to sound out the written word, they will be on their way to becoming literate adults, and that is exactly what this legislation does, as has been described today.

Under this bill, States, through reading and literacy grants, will compete for Federal grants to use for innovative, in-service reading programs for classroom teachers and related reading activities based on the best research available, and I cannot think of anything which is better to do.

Instilling in our young people the ability to read is absolute. This legislation helps do that, and I am again very pleased to see almost near harmony with respect to support of this. I urge my colleagues to reject this bill, and instead support measures that will empower parents to provide effective literacy instruction for their children.
thankful for all of those who put it together and hope that we all can support it.

Mr. GOODLING. Mr. Speaker, I yield 2 minutes to the gentlewoman from Kentucky [Mrs. NORTHUP], who worked hard in the State legislature to improve education.

Mrs. NORTHUP. Mr. Speaker, I rise and am pleased to rise in support of the Reading Excellence Act. While we are all concerned about new Federal programs, the budget sets aside $260 million for a new literacy program. What we could have had is another feel-good, unproven, sounds-good program, the kind of program that has failed our children so badly.

Mr. Speaker, 44 percent of the U.S. students in elementary school do not read at a basic level. Thirty-two percent of college graduates also have failed to reach this basic level. This may be the most important bill that we pass regarding our children and their future because that is what it does, finally and most importantly, is focus on the proven ways of teaching children how to read.

We know today that the latest scientific research shows that 60 to 70 percent of students read anywhere in the third grade. We know now that science has shown us that children that do not read by the end of third grade will always have a bigger struggle in reaching that basic level. Their opportunity to be good readers is much more difficult if they do not learn to read by the end of third grade.

Reading opens doors and failure to read slams those doors shut. So what we need is to make sure that we use the kind of scientifically proven methods to teach our children, one that has not been our schools so often in the past. This phonics-based approach is what teachers will learn as a result of this funding. We will also give parents the opportunity to provide tutorial service for their children, their choice based on the most recommended types of tutoring and reading approach.

It also endorses family literacy, so we are giving our children an opportunity to go to schools that teach the right kind of reading and parents who can help those children in the same way. I support this bill.

Mr. MARTINEZ. Mr. Speaker, I yield myself the balance of my time to say that everybody has said repeatedly that reading is so important to our way of life, even to the basics for reading to fill out an application for employment, or reading instructions for toys that we put together for our children. Yet I have seen in my lifetime so many people that have even graduated from high school that have never functionally illiterate. Anything that we can do to improve the ability of children to read at an early age and to go on to higher education and better themselves by learning to read and read well is something that we have done that is worthwhile.

Mr. Speaker, I yield back the balance of my time.

CONGRESSIONAL RECORD — HOUSE

H10399

"(A) derived in the active conduct by a controlled foreign corporation of a banking, financing, or similar business, and

(ii) such income is derived from transactions with customers located within the country under the laws of which the corporation is created or organized,

(B) received from a person other than a related person (within the meaning of subparagraph (d)(3)) and derived from investments made by a qualifying insurance company of an amount of its assets equal to—

(i) in the case of property, casualty, or health insurance contracts, one-third of its earned premiums on noncancellable accident and health insurance contracts issued by a controlled foreign corporation which reasonably reflect the current mortality and morbidity risks in the foreign country in which the qualified business unit is located and created or organized,

(ii) in the case of life insurance or annuity contracts, 10 percent of the reserves described in subparagraph (B) for such contracts,

(C) received from a related person (within the meaning of subparagraph (d)(3)) and derived from investments made by a qualifying insurance company of an amount of its assets equal to—

(i) more than 70 percent of its gross income from transactions with customers which are located within the country under the laws of which the corporation is created or organized, or

(ii) in the active conduct of a banking business and is an institution licensed to do business as a bank in the United States (or is any other corporation not so licensed which is specified by the Secretary in regulations), or

(iii) in the active conduct of a securities business in the United States (or is any other corporation not so registered which is specified by the Secretary in regulations),

(D) derived in the active conduct by a controlled foreign corporation of a banking, financing, or similar business, and

(E) derived in the active conduct by a controlled foreign corporation of a banking, financing, or similar business, and

(f) income not allocable under subparagraph (A) shall be allocated ratably among any variable contract not meeting the requirements described in subparagraph (A).

(8) COORDINATION WITH OTHER PROVISIONS.—

(A) SECTION 901(k).—

(i) IN GENERAL.—The amount of qualified income allocated under section 901(k)(A) to which paragraphs (1) and (2) of section 901(k) do not apply by reason of paragraph (4) of section 901(k) shall be reduced by an amount which bears the same ratio to such qualified income as the amount of income from the active conduct of a securities business which is not part of F income solely by reason of this subsection, subsection (c)(2)(C)(ii), and subsection (e)(2)(C) bears to the total income from the active conduct of a securities business by a controlled foreign corporation which is subject to tax under subchapter L.

(ii) The determination of whether a controlled foreign corporation is a member of a group which is subject to tax under subchapter L shall be made by treating all members of such group as a single person.

(iii) ELECTION NOT TO HAVE SUBSECTION AND CERTAIN OTHER PROVISIONS APPLY.—Clause (i) shall not apply for any taxable year of a foreign corporation beginning after December 31, 1997, and before January 1, 1999, to which paragraph (1) or (2) of section 901(k) applies, but only to the extent that such corporation elects not to have this subsection and subsection (e)(2)(C) apply for any taxable year of such foreign corporation ending after December 31, 1997, and before January 1, 1999.
(b) SPECIAL RULES FOR DEALERS.—Section 954(c)(2)(C) of such Code is amended to read as follows:

"(C) EXCEPTION FOR DEALERS.—Except as provided in subsections, in the case of a regular dealer in property (within the meaning of paragraph (1)(B), forward contracts, option contracts, or similar financial instruments which are not options, and all instruments referred to as commodities), there shall not be taken into account in computing foreign personal holding company income any hedging transaction entered into in the ordinary course of such dealer's trade or business as such a dealer in property.

"(ii) if such dealer is a dealer in securities (within the meaning of section 475), any interest or dividend or equivalent amount described in subparagraph (E) or (G) of paragraph (1) from any transaction (including hedging transactions) entered into in the ordinary course of such dealer's trade or business as such a dealer in securities, but only if employees of the dealer which are located in the country under the laws of which the dealer is created or organized (or in the case of the United States, any persons which are affiliated with such dealer within the meaning of section 989(a) which both maintains its principal office and conducts substantial business activity in a country, employees of such unit which are located in such country materially participate in such transaction.

(c) EXEMPTION FROM FOREIGN BASE COMPANY INCOME TAX.—Paragraph (2) of section 954(e) of such Code (as amended by subsection (d)) is amended by adding after the period at the end of subparagraph (A) the following:

"(B) in the case of such a transaction entered into by a qualified agricultural processor, the aggregate amount shall be increased by the amount of the limitation under section 1223(13) which is allocated to such sale by the eligible farmers' cooperative.

(2) ALLOCATION.—The amount allocated under this paragraph by any cooperative with respect to such sale and with respect to each cooperative during any taxable year of such cooperative shall not exceed $75,000,000.

(3) GENERAL RULES.—All eligible farmers' cooperatives which are under common control (within the meaning of section 338(h)(10) with respect to any sale to an eligible farmers' cooperative described in subparagraph (B), the processor purchased, during at least 3 of the 5 most recent taxable years of such processor ending on or before the date of the sale, more than one-half of the agricultural or horticultural products to be refined or processed by such processor from such cooperative or farmers who are members of such cooperative.

(B) COOPERATIVES DESCRIBED.—A cooperative is described in this subparagraph with respect to any sale if, for any taxable year ending before the date of such sale—

"(i) such cooperative had gross receipts of more than $1,000,000,000, or

"(ii) such cooperative sold more than a de minimis amount of specialty produce.

(C) QUALIFIED PROCESSOR.—For purposes of subparagraph (B), the term "qualified processor" means any agricultural or horticultural processor other than wheat, feed grains, oilseeds, cotton, rice, cattle, hogs, sheep, or dairy products.

(D) QUALIFIED COOPERATIVE.—

"(i) GROSS RECEIPTS.—For purposes of subparagraph (B)(i), rules similar to the rules of paragraph (2), and subparagraphs (B) and (C) of paragraph (3), of section 48(e) shall apply.

"(ii) PREFERENCE.—Any reference in this paragraph to a cooperative or processor shall be treated as including a reference to any predecessor thereof.

"(3) COOPERATIVE MUST HOLD 100 PERCENT OF DIRECT PERCENTAGE OWNERSHIP.—"(3) A GGREGATION RULES.—All eligible farmers' cooperatives which are under common control (within the meaning of section 338(h)(10) with respect to any sale to an eligible farmers' cooperative described in subparagraph (B), the processor purchased, during at least 3 of the 5 most recent taxable years of such processor ending on or before the date of the sale, more than one-half of the agricultural or horticultural products to be refined or processed by such processor from such cooperative or farmers who are members of such cooperative.

(2) RECAPTURE OF TAX BENEFIT WHERE LOSS INCURRED.—"(1) IN GENERAL.—If there is a recapture event during any taxable year with respect to any sale to an eligible farmers' cooperative described in subparagraph (B), the processor purchased, during at least 3 of the 5 most recent taxable years of such processor ending on or before the date of the sale, more than one-half of the agricultural or horticultural products to be refined or processed by such processor from such cooperative, there shall be treated as a recapture event for purposes of this section, a recapture event shall be treated as a recapture event with respect to any sale to an eligible farmers' cooperative described in subparagraph (B), the processor purchased, during at least 3 of the 5 most recent taxable years of such processor ending on or before the date of such sale.

(2) RECLAIMING PERIOD.—The term 'recapture period' means the period which begins 3 months before the date on which the sale of qualified agricultural processor stock pursuant to section 1223(13) shall apply for purposes of this section.

(3) QUALIFIED REPLACEMENT PROPERTY.—"(1) IN GENERAL.—If there is a recapture event during any taxable year with respect to any sale to an eligible farmers' cooperative described in subparagraph (B), the term 'qualified replacement property' has the meaning given such term by section 1042(c)(4).

(2) NONRECOGNITION OF GAIN ON SALE OF STO K.—The term 'qualified replacement property' shall not include any security issued by the taxpayer or by any corporation controlled by the taxpayer, and the term 'qualified replacement property' shall not include any security issued by the taxpayer or by any corporation controlled by the taxpayer, and the term 'qualified replacement property' shall not include any security issued by the taxpayer or by any corporation controlled by the taxpayer, and the term 'qualified replacement property' shall not include any security issued by the taxpayer or by any corporation controlled by the taxpayer, and the term 'qualified replacement property' shall not include any security issued by the taxpayer or by any corporation controlled by the taxpayer.

CONGRESSIONAL RECORD — HOUSE

H10401

“(A) in the case of a recapture event described in paragraph (2)(A), the percentage equal to a fraction—
   (i) the numerator of which is the percentage decrease described in paragraph (2)(A), and
   (ii) the denominator of which is the percentage which the qualified agricultural processor, by the contract, will receive in a sale to which this section applies bears to all qualified agricultural processor stock in the processor, and

(B) in the case of a recapture event described in paragraph (2)(B), 100 percent.

In no event shall the recapture percentage for any taxable year exceed 100 percent minus the sum of the recapture percentages for all taxable years.

“(4) EXCEPTIONS TO PURCHASE REQUIREMENT.—The purchase requirement of paragraph (2)(B) shall be treated as met for any taxable year if the Secretary determines that such requirement was not met due to 1 or more of the following: flood, drought, or other weather-related conditions, environmental contamination, disease, fire, or other similar extinguishing circumstances pre-scribed by the Secretary.

“(g) COORDINATION WITH SECTION 1042.—No election be made under this section with respect to any sale if an election is made under section 1042 with respect to such sale.

“(h) REGULATIONS.—The Secretary shall prescribe such regulations as are appropriate to carry out this section, including regulations which provide for an adjustment of amounts which are part of the same transaction as 1 sale.”

(b) CONFORMING AMENDMENTS.—
(1) Paragraph (2) of section 26 of such Code is amended by striking “and” at the end of subparagraph (P), by striking the period at the end of subparagraph (Q) and inserting “, and” and, by adding at the end the following new subparagraph:

“(R) section 1042A(f) (relating to recapture of tax benefit where lack of continuity in certain agricultural processors).

(2) The table of sections for part III of subchapter O of chapter 1 of such Code is amended by inserting after the item relating to section 1042 the following new item:

“Sec. 1042A. Sales of stock to certain farmers’ cooperatives.”

c) EFFECTIVE DATE.—The amendments made by this section shall apply to sales after December 31, 1997.

SEC. 3. DISPOSAL OF PALLADIUM AND PLATINUM IN NATIONAL DEFENSE STOCKPILE.

(a) DISPOSAL REQUIRED.—(1) During fiscal year 1998, the President shall dispose of not more than 30,000 troy ounces of palladium and not more than 20,000 troy ounces of platinum contained in the National Defense Stockpile so as to result in receipts to the United States in an amount equal to $17,000,000 during fiscal year 1998.

(2) During fiscal years 1999 through 2002, the President shall dispose of not more than 60,000 troy ounces of palladium contained in the National Defense Stockpile so as to result in receipts to the United States in an amount equal to $4,000,000 during each of the fiscal years 1999 through 2002.

(b) DETERMINATION OF RECEIPTS.—Notwithstanding section 9 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98b), funds received as a result of the disposal of materials under subsection (a) shall be deposited into the general fund of the Treasury for the purpose of deficit reduction.

(c) RELATIONSHIP TO OTHER DISPOSAL AUTHORITY.—Any authority provided in subsection (a) is new disposal authority and is in addition to, and shall not affect, any other disposal authority provided by law regarding palladium or platinum contained in the National Defense Stockpile.

(d) TERMINATION OF DISPOSAL AUTHORITY.—The disposal authority provided in subsection (a) shall terminate with regard to a fiscal year specified in such subsection on the date on which the total amount of receipts to the United States during that fiscal year from the disposal of materials under such subsection equals the amount specified in such subsection for such fiscal year.

(e) DEFINITION.—The term “National Defense Stockpile” means the stockpile provided for in section 4 of the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98c).

SEC. 4. RECOVERY OF COSTS OF HEALTH CARE PLANS.

(a) AUTHORITIES.—Section 904 of the Foreign Service Act of 1980 (22 U.S.C. 4084) is amended—
   (1) in subsection (a),
   (A) by striking “and” after “employees”, and
   (B) by inserting before the period “, and (for care provided abroad) such other persons as are designated by the Secretary of State”;
   (2) in subsection (d), by inserting “, subject to subsections (g) through (i)” before “the Secretary”;
   (3) by adding at the end the following new subsections:

   (g)(1)(A) In the case of a covered beneficiary, the United States shall be subrogated to all qualified agricultural processor stock in the processor, and

   (2) With respect to health care provided under this section to a covered beneficiary, for purposes of carrying out paragraph (1)–

   (A) the reasonable charge amount (as defined in paragraph (9)(C)) shall be treated by the third-party payer as the payment basis otherwise allowable for the care under the plan;

   (B) under regulations, if the covered health benefits plan restricts or differentiates in benefit payments based on whether a provider of health care has participated in an agreement with the third-party payer, the Secretary shall be treated as having such an agreement as results in the highest level of payment for health care provided under this subsection;

   (C) no provision of the health benefit plan having the effect of excluding from coverage or limiting payment of charges for certain care or (for care provided abroad) such other persons as are designated by the Secretary of State;

   (D) if the covered health benefits plan contains a provision having the effect of excluding from coverage or limiting payment of charges to third-party payers under covered health benefits plans for payment purposes for similar health care services furnished in the Metropolitan Washington, District of Columbia, area;

   (7) The Secretary shall establish (and periodically update) a schedule of reasonable charge amounts for health care provided under this section. The amount under such schedule for health care shall be based on charges or fee schedule amounts recognized by third-party payers under covered health benefits plans for payment purposes for similar health care services furnished in the Metropolitan Washington, District of Columbia, area.

   (8) Amounts collected under this section, under subsection (h), or under any authority referred to in subsection (i), from a third-party payer or from any other party shall be deposited in the Treasury as a miscellaneous offsetting receipt.

   (9) For purposes of this section, (A) the term “covered beneficiary” means a member or employee (or family member of such a member or employee) described in subsection (a)(i) who is enrolled under a covered health benefit plan, and (B)(i) Subject to clause (ii), the term ‘covered health benefits plan’ means a health

benefits plan offered under the Federal Employees Health Benefits Program under chapter 89 of title 5, United States Code.

"(ii) Such term does not include such a health plan (such as a plan of a staff-model health maintenance organization) as the Secretary determines pursuant to regulations to be structured in a manner that the application of the subsection to individuals enrolled under the plan. To the extent practicable, the Secretary shall seek to disseminate to members of the State or any designated employees described in subsection (a) who are eligible to receive health care under section the names of plans excluded under this clause.

"(C) The term ‘reasonable charge amount’ means, with respect to health care provided under this section, the amount for such care specified in the schedule established under paragraph (6).

"(D) The term ‘third-party payer’ means an entity that offers a covered health benefits plan.

"(E) In the case of an individual who—

"(i) receives health care pursuant to this section; and

"(ii) is not a covered beneficiary (including by virtue of enrollment only in a health benefits plan excluded under subsection (g)(9)(B)(iii)); or

in a timely manner, the Secretary of State is made by subsection (a) shall apply to items expended.

"(F) The amendments made by subsection (a) shall remain available until the Secretary of State $2,000,000 to offset the commission earned abroad by companies en-

The Secretary otherwise has with respect to collection of amounts against a third-party payer under subsection (g), except that the rights under this subsection shall be exercised without regard to any rules for deductibles, coinsurance, or other cost-sharing.

"(i) Subsections (g) and (h) shall apply to reimbursement for the cost of hospitalization and related outpatient expenses paid for under subsection (d) only to the extent provided in subsection (g); and

"(ii) Subsections (e), (f), (h) which is required under the cur-

It should also be noted that in revis-

Frankly, Mr. Speaker, we believe that in the changes that were made, since H.R. 2513 actually saves money, there is no need to have a revenue or a spending offset. Suffice it to say this is not the time that we want to do that, to argue the way in which we determined budgetary matters. So what we have done is made sure that there are some spending offsets which are available.

We are indebted to the Committee on the Budget. The gentleman from Ohio [Mr. Kaschik] has graciously provided in the bill two offsets, as I understand them. One is the disposal of some palladium and platinum in the national de-

from California [Mr. THOMAS] has suggested and the Member from the Committee on the Budget has suggested do not, in fact, exist.

The bill now contains two non-controversial spending cuts to pay for the bill. I do not view the financing mechanism contained in the bill, but I do believe that the waiver of the pay-go requirement contained in the bill as reported by the Committee on Ways and Means was the better way to go. But to be on the safe side, they do have two places to pay for it here today, and on which the Member of the Committee on the Budget has said that these are good ways to have it happen.

One of these two provisions, as I said, would provide fair and, I have not used this word in a long time, but a level playing field for our companies who are doing business in foreign countries. Generally U.S. companies with active businesses overseas are allowed to defer but not compete the income from their businesses until that income comes back to the United States.

Unfortunately, U.S. financial service companies, like a large number of insurance companies headquartered in my district of Connecticut, and the many securities dealers represented from all over these States, as well as our own banking industry, have not been eligible to benefit from the general rules because they derive much of their income, as I said, from dividends, interest, and capital gains.

Even though many foreign countries exempt income earned abroad from tax altogether, and our companies are forced to compete with these companies that are not taxed, they not only are not taxed, many of these companies are subsidized. I have been interested in the whole situation of us being able to compete abroad in these financial industries of banking, insurance, securities.

Over the years I have seen things develop. We are making some progress. I remember 1 year going to talk about trade in a country, and it was a very lovely meeting, and everybody was being very polite to each other in a diplomatic manner. We were told, do not worry about it, of course we want your insurance companies to come in and compete. Of course we know you have some of the best products. Do not think about it, we want to open up our business to you.

That night I went back to the hotel where we were staying, not having enough reading material with me, there was a copy of the Constitution of that country in the hotel room, and I happened to take the time to read it. Now this was called really bored, but I did this. And in the Constitution of that country, I looked, and I could not believe my eyes, having heard this discussion during the meeting during the day. But I was not here, anybody who tries to sell insurance from another country and not from this country will be criminally prosecuted.

So we have come a long way in our financial services in competition. Of course, as now we are in the midst of fast-track debate and all the things that many of us are concerned about on both sides of the question, one thing we have to say, not only that we can be proud of our financial services, not only can we be proud of our regulation of our securities, of the fine products we sell in insurance, of our banking that is renowned around the world for its regulation, honesty, and good business practices. When we are over there competing, there is no question about the environment or there is no question about not paying properly, because you have to be well-educated to do these services in the proper fashion that we do it. Really, this is an area that we should be very proud of, that we can compete in internation- ally.

Mr. Speaker, I hope soon we can find a permanent solution to this financial services, so our companies can compete more effectively overseas. But in the meantime I say, Mr. Speaker, that this is an issue that has been before us for a number of years. It is an issue that a number of us have worked on.

Each time when we try to get a little ways, then we find something else that is in our way. I think what has happened in the presentation of this bill today, coming up in the fashion that it has, is that we have all parties having studied it, some people have sanit- ized it, then having it go to the Presi- dent and to the White House and to the administration, and once again being looked at in a very proper and wonder- ful fashion, in a bipartisan fashion, and we are here today to finally say to our financial industries, we do not want to handicap you. We do not want to have you deal abroad with one hand tied behind your back. We are proud of our finan- cial industries, and we are very de- lighted today that we have this bill on the floor before us.

Mr. Speaker, I reserve the balance of my time.

Mr. THOMAS. Mr. Speaker, it is my pleasure and privilege, actually, to yield 7 minutes to the gentleman from Missouri [Mr. Hulschop], a freshman on the Committee on Ways and Means, who has now run the virtual gamut of emotions, as he was the original author of the provision which was line-item vetoed by the President, an historical event, and once again being looked to re- member, and then worked diligently and, quite frankly, brilliantly to produce the compromise that now stands before us, moving from triumph to tragedy and soon to triumph.

Mr. HULSCHOP. Mr. Speaker, I thank the gentleman for yielding me the time. I thank him for that reminder of how it is we came to this point.

In fact, if the gentleman will indulge me as a point of personal privilege, when I was sworn in on this floor on January 7, my parents were here, of course, and proud Papa remarked to one of the newspaper people that his son was going to be in the history books someday.

And I had to call him in that first week in August and say, Dad, you were right, your prophecy has come true, I have made it in the history books. I am the first-ever victim of this line-item veto. I just thought history would taste a little sweeter than this.

We have come full circle, hopefully. I certainly support H.R. 2513, the new and improved version, that there are colleagues of mine that will be speaking to the subpart F, and in support. So what I want to do is focus primarily on the farmer cooperative provision.

I would be remiss unless I provided kudos to the gentleman from Texas [Mr. STENHOLM], who coauthored this provision with me. I am happy to have worked with the gentleman from Texas [Mr. STENHOLM] in trying to resurrect this provision. I think we have a good provision.

As the gentleman pointed out, this was part of the Taxpayer Relief Act of 1997. We made it through the House, then the Senate conference, and ultimately to the Presi- dent's desk, and when the President ac- tually vetoed this provision, he said that it was a well-intentioned provi- sion, but that it was overbroad, that it was vague, and looked forward to working with the gentleman from Texas [Mr. STENHOLM] and myself in trying to craft a measure that could pass muster. So we have been able to do that. We stayed the course, and I think again have a good bill.

Let me briefly talk about the goal of the legislation as far as it relates to the farmer co-ops. With the enactment of the farm bill in the last Congress, and as we move toward a balanced budget, toward the year 2002, Federal spending for agriculture programs will be unable to stay at the same level that they have been in decades past.

Having come from a family farm, I think now first of the Nation's farmers and our rural communities are to remain economically via- ble, if they are going to remain self-re- liant, then we in Congress have a duty to reach out to them as we can to help them remain self-sufficient.

I do not think there is any con- troversy that a company, a U.S. com- pany, is more profitable as it vertically integrates. The same is true in agri- culture. It is widely acknowledged that the most profitable sector of agri- culture is in the refining and process- ing of agriculture products.

If Members will allow me to dem- onstrate, this is a chart, a blowup that we used back in Missouri's Ninth Con- gressional District, it is applicable to all American farmers. But just a couple of quick examples.

In the State of Missouri, from 1 acre of corn you can generally count on about 135 bushels of corn from that same acre. If you take that corn to the grain elevator, the average price you will receive is about $405 from that single acre of corn.
farmers who participate and our members of cooperatives to allow them to reap the benefits of value-added agriculture.

Again, we took the President up on his offer to work with the White House. And I commend those with Treasury and the White House today, Mr. Thomas. I am going to commend the gentleman from Texas [Mr. STENHOLM] for his steadfastness in working out this provision. I think it is a good bill, and I would urge my colleagues to support H.R. 513.

I thank the gentleman from California [Mr. THOMAS] for asking me the time.

Mr. THOMAS. Mr. Speaker, I once again congratulate the gentleman from Missouri [Mr. HULSHOF].

Mrs. KENNELLY of Connecticut, Mr. Speaker, I yield such time as he may consume to the gentleman from Texas [Mr. STENHOLM]. My colleague has, of course, worked very hard with the gentleman from Missouri [Mr. HULSHOF] on this bill, and we are all pleased at the outcome.

(Mr. STENHOLM asked and was given permission to revise and extend his remarks.)

Mr. STENHOLM. Mr. Speaker, I thank my colleague from Connecticut [Mrs. KENNELLY] for yielding me the time and appreciate her efforts and the gentleman from California [Mr. THOMAS], the gentleman from Texas [Mr. ARCHER], and ranking member of the panel, the gentleman from New York [Mr. RANGEL], has worked very hard on this bill, and I think that we have brought this legislation to the point in which we have it today.

I, too, commend my colleague from Missouri [Mr. HULSHOF] for his tenacity on the Committee on Ways and Means, which had the jurisdiction over this; what started out to be noncontroversial but got to be somewhat controversial.

When President Clinton announced his decision to veto the provision providing for tax deferrals for sales of agricultural processing facilities to farmer cooperatives, I was extremely disappointed. But at the same time, I indicated a willingness to continue to work for legislation to help farmer cooperatives become vertically integrated.

I continue to believe that the original provision was effectively structured and that the veto was based on misinformation and a misunderstanding of the challenges facing farmers in the current world market. I do not believe for a moment that the original provision was a narrow tax benefit that should have been subject to the line item veto, and I believe the fact that we are here today indicates that there is now a general consensus of all that was true.

I want to make it clear that this legislation before us is not my preferred position or my preferred option. The gentleman from Missouri [Mr. HULSHOF] and I agreed, though, that this compromised language because it was the only way to enact the provision after the veto was used on the original language which was included in the Taxpayer Relief Act.

The compromise legislation which is before us does not include all the improvements I would have liked or Mr. HULSHOF would have liked and falls short of our original legislation. I am concerned that it places several restrictions on sales of agricultural processing facilities to farmer cooperatives that do not apply to transactions with corporate agribusinesses. These restrictions also continue to leave cooperatives at a competitive disadvantage against corporate agribusinesses.

As I have said, we were forced to add these restrictions to go after the administration's and others' objections to the original legislation. These reservations notwithstanding, I am very pleased that this compromise offers significant opportunities over current law for cooperatives comprised of individual family farmers to compete with corporate agriculture in the growing world.

In that regard, I believe that a good deal. The original intent of the legislation has now been restored. It is important for all of us in this body and for others to remember that even the largest cooperatives that are comprised of thousands of small and midsized farmers who have come together to farm these cooperatives. In an effort to be competitive with the phasing out of Federal farm programs, it is imperative that farmers develop new strategies for remaining financially viable.

Strengthening cooperatives grants individual farmers the opportunity to increase their income, provide better risk management, capitalize on new market opportunities, and compete more effectively in a changing global economy.

While not as thorough as our original legislation, this compromise begins the process of leveling the playing field by providing for tax treatments similar to that for other types of corporate business, employee stock ownership plans, and worker cooperatives, when it comes to the purchase of processing and refining facilities.

I am pleased that the administration has moved from the original line-item veto to a position of greater understanding for the needs of small farmers and their cooperatives. We have a victory, but this compromise does not mean that the fight is over. A number of differences remain, and work also continues to leave cooperatives at a competitive disadvantage against corporate agribusinesses.

I have appreciated the support and advice of the National Council of Farmer Cooperatives, which has endorsed this compromise as a significant improvement over current law. I want to thank the leadership of the National Council and other agricultural groups who have concluded that half a loaf offered by this bill is better than no loaf at all, I intend to vote for this bill and
Mr. ARCHER and his staff for their sustained efforts to resolve the challenges faced with this item, a vital component of this balanced budget.

Mr. WELLER. Mr. Speaker, I stand here in support of H.R. 2513. First, let me begin my remarks by commending the gentleman from Texas [Mr. ARCHER] and his staff for their tireless efforts to resolve the challenges faced with this item, a vital component of this balanced budget. I also want to commend my colleagues on both sides of the aisle that are members of this committee for their bipartisan effort to make this a success.

It is a victory for agriculture, it is a victory for the financial sector, and it is also an effort to bring about some tax reform for agriculture and for the financial services sector.

Particularly, I also want to commend my friend, the gentleman from Missouri [Mr. HULSHOF], in his freshman year, who has shown his tenacity and also his ability as a first-term legislator to be able to get his job done. I know he serves as president of the freshman class. And maybe he should be a freshman legislator for the year for what he has achieved and for what is happening today, because my colleague has done a terrific job, working in the bipartisan way, to get the job done and helping bring this legislation to the floor.

I also know the portion of legislation that he and the gentleman from Texas [Mr. STENHOLM] have worked tirelessly to move forward is important to Illinois agriculture as well as agriculture throughout the country. It is my understanding that portion of the legislation will benefit 4,000 cooperatives throughout the country, benefiting 2 million farmer owners of these 4,000 cooperatives. We know that when we add value-added to agriculture, we not only own the job on the farm but in town as well. And that is an important piece of legislation.

I would like to speak briefly to the other portion of this legislation, an issue that is important and important to the Chicago south suburbs, because it addresses the taxation of the financial services sector, insurance, securities, and banking.

If we look, as we now recognize, we are in a strong support of H.R. 2513. It is my understanding that portion of the legislation will benefit 4,000 cooperatives throughout the country, benefiting 2 million farmer owners of these 4,000 cooperatives. We know that when we add value-added to agriculture, we not only own the job on the farm but in town as well. And that is an important piece of legislation.

I would like to speak briefly to the other portion of this legislation, an issue that is important to Chicago and important to the Chicago south suburbs, because it addresses the taxation of the financial services sector, insurance, securities, and banking.

If we look, as we now recognize, we are in a bipartisan way to bring about tax fairness in a way that is important to Chicago and important to the Chicago south suburbs, because it addresses the taxation of the financial services sector, insurance, securities, and banking.

This legislation is so very, very important. And I have enjoyed working with my friend, the gentlewoman from Connecticut [Mrs. KENNELLY], who has been a real leader on this issue over the years, and I have enjoyed working with her in a bipartisan way to bring about tax fairness in a way that is important to Chicago and important to the Chicago south suburbs, because it addresses the taxation of the financial services sector, insurance, securities, and banking.

What this legislation does is, it puts financial services on parity with other sectors of our economy, puts financial services on parity when it comes to tax treatment with manufacturing, for example, and will allow us to create more jobs here at home while our financial services sector sells services overseas. That is what this is all about, creating jobs in Illinois and throughout this country as we work to give our financial services sector a better way of competing by bringing them to parity with our manufacturing sector as well.

Most importantly, though, is I want to point out that this has been a bipartisan effort. It has been an effort where Republicans and Democrats have worked together, where the administration has worked with the Congress. We have overcome all concerns, and we produced a good bill, a bipartisan bill, a bill that helps agriculture, that creates jobs in towns and rural communities, but also gives the same advantages to compete overseas that our manufacturing sector gives to our financial services sector as well. And that is what it is all about, creating jobs here at home as we sell products and services overseas.

Mr. Speaker, I thank you for the opportunity to speak to this bill. I do ask for bipartisanship for H.R. 2513.

Mr. NEAL of Massachusetts. Mr. Speaker, I rise in support of H.R. 2513. I commend Chairman ARCHER of the Committee on Ways and Means and the ranking member of the committee, Mr. RANGL, for bringing this important measure to the floor today. This bill would promote the international competitiveness of the U.S. financial services industry by changing its tax treatment to that of all other U.S. industries, and eventually to that of foreign competitors operating throughout the world.

Title I of this measure is intended to replace the provision of the Taxpayers Relief Act of 1997 vetoed by the President on August 11 that was designed to change the antideferral rules of subpart F of the Internal Code that discriminates against the U.S. financial services industry by requiring current taxation of active financing income by foreign affiliates of U.S. banks, securities firms, and insurance and finance companies. I am pleased that the Committee on Ways and Means has been able to bring some rationality to the international taxation of U.S. financial service firms. Financial service companies are real businesses that deserve a fair international tax treatment, but as much as U.S. manufacturers. This bill begins the process of treating the two equally.

This bill is just a 1-year solution, but I hope it will form the basis of a permanent resolution of these issues. In order to pass a bill in such a short time period, Treasury had to restrict some classes of income so that the bill would not be susceptible to abuse. I hope that in the year to come the Treasury will study international operations of financial services firms and review some of the provisions that were excluded from this bill.

Finally, I am concerned by the Treasury’s insistence that securities firms and banks forfeit some of their foreign tax credits in order to qualify for this new income-deferral provision. Foreign tax credits and income deferral have always coexisted because each serves a different purpose.

I believe that an effective foreign tax credit system is the U.S. industry’s defense against international double taxation. I believe that foreign income taxes incurred in the conduct of foreign business abroad are deductible in the United States. As we work towards a permanent income-deferral provision for financial services firms, I urge the Treasury to recognize the dealer exception from section 901(k) as a necessary and appropriate part of our tax system.

I urge my colleagues to support H.R. 2531. The enactment of this measure will move us toward the goal of eliminating the inequitable treatment of the financial services industry under current laws and enhance the ability of a vital sector of our economy to compete in the global marketplace.

Mr. POMEROY. Mr. Speaker, I rise today in support of H.R. 2513, which will provide farmer cooperatives with a tool to help them compete in the industrializing world of agriculture.

Cooperatives play a vital role in helping farmers market and process their crops and livestock and in securing farm supplies and other services at reasonable costs. The cooperative way of doing business in rural America simply makes sense.

North Dakota has a long history with cooperation, reaching back to the early part of this century. In the past 5 years, farmers and communities have worked together to create 20 new farmer cooperatives in North Dakota.
Last year, Congress decided to eliminate the farm program which will leave fathers without a mechanism to recoup losses when the growing season is poor. One of the self-help mechanisms available to assist farmers in maintaining and increasing their incomes in farming is through the development and success of farmer cooperatives. The success of agriculture ebbs and flows according to many circumstances outside the control of farmers. For instance, weather, disease, global market prices, and the economy all influence farmers’ decisions. However, even with these influences on agriculture, the quality of the producer’s goods increase and prices for consumers generally stay the same. Cooperatives benefit the farming community by allowing members to amass capital and maximize economic returns by enhancing the value of what farmers produce. Farmers need bargaining tools in order to regain some influence over the prices they receive. With market concentration increasing, agricultural producers are finding fewer and fewer buyers for their products. Many farmers can only sell to the largest single processing company, and are forced to accept the price the company offers them. With empowered bargaining or vertical integration, farmers would have a greater opportunity to prosper and to share in the end-use profits their goods sometimes become.

H.R. 2513 will provide for the nonrecognition of gain on the sale of stock in agricultural processors to eligible farmers’ cooperatives. This provision will have the effect of encouraging agricultural processing facilities to work cooperatively with farmer cooperatives to maximize the work and profits of producers. The price paid to farmers for farm commodities represents less than 25 percent of the cost of the final product purchased by the consumer. It is imperative for the American farmer to increase his ownership stake in processing and refining in order to survive in an increasingly competitive market. Allowing farmers to become vertically integrated in their products will enable them to better adjust to fluctuations in commodity prices.

Mr. ONE. Mr. Speaker, today, I want to express my support for H.R. 2513, legislation containing two important tax provisions, portions of which were contained in the landmark Taxpayer Relief Act of 1997. The provisions in question were line item vetoed by President Clinton on August 11, and today, we are endeavoring to pass slightly modified versions of the original proposals.

One provisions of the bill relates to the sale of stock of a corporation that owns a processing facility of any cooperative which is engaged in agricultural production or processing of products. This matter is of great concern and interest to the farm community in this country and it is hoped this version of the proposal can now be enacted.

The other item in this legislation, and the provision to which I would like to devote the bulk of my remarks, relates to foreign affiliates of U.S. financial services companies. Under the language contained in H.R. 2513, these affiliates including banks, securities firms, and insurance and finance companies would not be taxed by the United States on their active trade or business income until that income is repatriated to the U.S. parent company or shareholders. In other words, this bill would equalize the treatment of income earned by U.S.-based financial services companies operating abroad with the active income earned by most other U.S.-based companies operating in international markets. As chairman of the Ways and Means Subcommittee on Trade, even more important to me is the fact that the bill will level the playing field for the U.S. financial services industry vis a vis their foreign competitors.

As one of the Members who worked to include this provision in the Taxpayer Relief Act, I was disappointed with the President’s line item veto of it. Very much would like to see this provision to which I would like to devote the language contained in H.R. 2513, these gains. Under the provision to which I would like to devote the taxation of overseas income for U.S. businesses, would almost by necessity run afoul of the antideferral rules of subpart F of the Internal Revenue Code. In vetoing this measure, President Clinton stated that the “primary purpose of the provision was proper,” but the manner in which it was written would have left room for abuses.

Although I must support the decision of the President to veto this important provision, I am pleased he recognized that reform of the antideferral rules of subpart F represents sound and prudent tax policy. Subsequent to the veto, the President stated that the financial services firms affected by this bill would remain in and closely with the Treasury and the Committee on Ways and Means to address the concerns raised, and I applaud the cooperative effort to come up with an interim solution.

However, I must express my disappointment and concern that the bill, as the Treasury’s insistence, unjustly singles out our securities dealers. As currently drafted H.R. 2513 will force securities dealers to forfeit tax credits on foreign withholding taxes to which they are entitled under current law in order to obtain the benefits granted to other sectors of the financial services industry. These foreign tax credits are crucial to the role U.S. securities firms and banks play as global equities dealers, without which such dealers will not be able to remain competitive overseas.

When we enacted section 901(k) of the code in 1997, we did so to forestall abusive trafficking in credits for foreign withholding taxes. We excluded some securities dealers from section 901(k) because those dealers, in the legitimate, ordinary course of their businesses, would almost by necessity run afoul of the simple rules for identifying transactions with trafficking potential. At the same time, we gave the Treasury authority to deal with any abuses by dealers. I have not heard of any evidence that Treasury has in fact identified any abuses by any dealers. Therefore, I frankly must conclude that Treasury’s insistence on this trade-off in the current bill reflects an ulterior motive to overturn the dealer exception in section 901(k), although we recently approved that exception by enact this provision.

Foreign tax credits and tax deferral for certain active overseas income have coexisted and should continue to do so, because each serves a different purpose. Foreign tax credits provide essential protection against double taxation of overseas income for U.S. businesses. Deferral does not provide such protection, but rather treats active overseas income of financial services firms consistently with such income of U.S. industrial firms, and helps to level the playing field with respect to their foreign competitors. It is my firm belief that foreign tax credits and deferral are independent provisions of our international tax regime, and their co-existence is consistent with sound international tax policy.

Hence the bill before us today would be effective for only 1 year. I strongly urge the Treasury to continue to work together with the securities and banking industries to reach a fair and lasting agreement on a permanent solution that can be enacted next year.

Mr. Speaker, I urge my colleagues to vote for H.R. 2513. This legislation represents sound policy that will enhance the ability of the financial services industry to compete in the global marketplace.

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume to simply ask Members for their support on this bipartisan effort on H.R. 2513.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, the bill, H.R. 2513, as amended, was passed.

H.R. 2444 was laid on the table.

The title of the bill, H.R. 2513, was amended so as to read: “A bill to amend the Internal Revenue Code of 1986 to restore and modify the provision of the Taxpayer Relief Act of 1997 relating to the recognition of gain on the sale of stock in agricultural processors.”

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. THOMAS. Mr. Speaker, I ask unanimous consent that Members may refer to H.R. 2813 to waive time limitations that would include extraneous material on H.R. 2513.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

WAIVING TIME LIMITATION ON AWARDING MEDAL OF HONOR TO ROBERT R. INGRAM

Mrs. FOWLER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2813) to waive time limitations specified by law in order to allow the Medal of Honor to be awarded to Robert R. Ingram of Jacksonville, FL, for acts of valor while a Navy Hospital Corpsman in the Republic of Vietnam during the Vietnam conflict.

The Clerk read as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,
approximately 100 North Vietnamese regulars. In mere moments the platoon ranks were decimated. Oblivious to the slaughter and danger around him, Corpsman Ingram crawled through a hail of bullets to reach a downed Marine. The wound was critical, a bullet went through the palm of his hand. Calls for corpsmen continued across the ridge. Bleeding, Corpsman Ingram moved across the battlefield, collecting ammunition from the dead and administering aid to the wounded as he went. Receiving two wounds, one in the knee and one in his face that he immediately knew was life threatening, he looked for a way off the ridge, but again heard the call for corpsmen. Again he answered, knowing that he was facing sure death. Though severely wounded three times, he gathered magazines, resupplied and encouraged those capable of returning fire, rendered aid to those incapable of movement until he finally reached the right flank of the platoon. While addressing the wounded, a second wound to his arm, he sustained his fourth bullet wound. Even with those wounds for the next 2 to 3 hours, Corpsman Ingram still encouraged and doctor his Marines. Enduring the pain from his many wounds and disregarding his own life, Corpsman Ingram's intrepid actions saved many that day. By his indomitable fighting spirit, daring initiative and unaltering dedication to duty, Corpsman Ingram earned the Medal of Honor during Operation Indiana in March 1966. He demonstrated conspicuous gallantry and intrepidity above and beyond the call of duty.

I commend him for his enormous courage, and look forward to passage of this bill so that he can finally receive this Nation's highest award for valor, which he so richly deserves.

Mr. Speaker, I reserve the balance of my time.

Mr. MCHALE. Mr. Speaker, I yield myself such time as I may consume. I am very pleased that the House is today considering H.R. 2813. I introduce this legislation that would waive the statute of limitations to enable the Defense Department to award Mr. Robert R. Ingram of Jacksonville, FL, a Congressional Medal of Honor. I want to thank especially both the chairman and the ranking Democrat of the House Committee on National Security and the staff there who helped expedite committee consideration of this bill and the gentleman from Pennsylvania [Mr. BERRY], each will control 20 minutes. The Chair recognizes the gentlewoman from Florida [Mrs. FOWLER]...

In 2 days, we celebrate that birthday of the Marine Corps. As someone who has been proud to be a marine for 25 years, I am equally proud of the corpsmen who have served so bravely with us.

Mr. Speaker, I yield 3 minutes to the gentleman from Arkansas [Mr. BERRY], who along with the gentlewoman from Florida [Mrs. FOWLER] directly produced the opportunity that we have today.

Mr. BERRY. Mr. Speaker, I am pleased to join my colleagues, the gentlewoman from Florida and the gentleman from Pennsylvania in this effort. On March 28, 1966, Corpsman Robert R. Ingram accompanied his Marine platoon as it approached an outpost of the North Vietnamese aggressors. As they approached the tree line, suddenly and without any warning, there was an explosion of gunfire against the platoon. Approximately 100 North Vietnamese were attacking. Disregarding the danger and slaughter around him, Corpsman Ingram crawled through a hail of bullets to reach a downed marine. As he was administering aid, a bullet went through the palm of his hand. While he was treating other Marines and gathering magazines to return fire, he received three additional bullet wounds, including one penetrating his sinus cavity. His actions saved many lives that day.

In 1995, former First Lieutenant Jim Fulkerson and others who served together in the war were working to set up a reunion for the platoon. They were shocked to learn in preparing for the reunion that Corpsman Ingram had never received the Medal of Honor. His companions all understood that a recommendation had been made and assumed that it was made. The Department of Defense agrees that Corpsman Ingram's actions qualify him for the Medal of Honor that day in March 1966. Now, over 30 years later, the House of Representatives has the opportunity to see appropriate recognition is given to Corpsman Ingram's display of valor. It is because of the efforts made by his platoon members that this has gotten to this point. I am very pleased and the gentlewoman from Florida for her work on this important matter. This is a fitting thing that the Congress will do.

In 2 days, we celebrate that birthday of the Marine Corps. As someone who has been proud to be a marine for 25 years, I am equally proud of the corpsmen who have served so bravely with us.

Mr. Speaker, I yield 3 minutes to the gentleman from Arkansas [Mr. BERRY], who along with the gentlewoman from Florida [Mrs. FOWLER] directly produced the opportunity that we have today.

Mr. BERRY. Mr. Speaker, I am pleased to join my colleagues, the gentlewoman from Florida and the gentleman from Pennsylvania in this effort. On March 28, 1966, Corpsman Robert R. Ingram accompanied his Marine platoon as it approached an outpost of the North Vietnamese aggressors. As they approached the tree line, suddenly and without any warning, there was an explosion of gunfire against the platoon. Approximately 100 North Vietnamese were attacking. Disregarding the danger and slaughter around him, Corpsman Ingram crawled through a hail of bullets to reach a downed marine. As he was administering aid, a bullet went through the palm of his hand. While he was treating other Marines and gathering magazines to return fire, he received three additional bullet wounds, including one penetrating his sinus cavity. His actions saved many lives that day.

In 1995, former First Lieutenant Jim Fulkerson and others who served together in the war were working to set up a reunion for the platoon. They were shocked to learn in preparing for the reunion that Corpsman Ingram had never received the Medal of Honor. His companions all understood that a recommendation had been made and assumed that it was made. The Department of Defense agrees that Corpsman Ingram's actions qualify him for the Medal of Honor that day in March 1966. It is because of the efforts made by his platoon members that this has gotten to this point. I am very pleased and the gentlewoman from Florida for her work on this important matter. This is a fitting thing that the Congress will do.
Mr. MCHALE. Mr. Speaker, I yield 3 minutes to the gentlewoman from Florida [Ms. Brown].

Ms. BROWN of Florida. Mr. Speaker, as a member of the Committee on Veterans' Affairs and Representative of the great State of Florida, there are more than 26 million veterans today, many of whom served during times of conflict. Many veterans live in my home State of Florida. We are proud to have them there. We are proud of their service and proud of their civic action.

I also want to recognize for Veterans Day the many veterans who have contributed to our Nation's security and preserved the American way of life. Last month, the Women in Military Service Memorial was dedicated in honor of more than 1 million women who have served this great country. I urge everyone to visit this great special place when they are in Washington, D.C.

Our veterans face many challenges. I urge the President to speedily designate and the other body confirm a Secretary of Veterans Affairs. I want to say a special thank you to all veterans, and today I want to honor one in particular. As my colleague from Florida has explained, Mr. Robert Ingram performed incredible acts of courage, honor, and bravery while he was a marine stationed in Vietnam. We ask so much of our young men and women when they are placed into conflict, particularly in conflict that was so unpopular.

Corpsman Ingram gave medical attention to other soldiers, even after he himself was injured with a bullet wound in his hand. He suffered even more severe wounds to his knees and face but continued to help others as they called on him. He continued to administer medical aid to others after receiving a total of 4 bullet wounds.

The Medal of Honor is awarded for bravery and courage, acts beyond the call of duty. Robert Ingram has had an incredible fighting spirit to stay alive, to help his brothers in combat and to serve our great Nation. I am very proud today to honor a man from Jacksonville, the great State of Florida. He deserves this Medal of Honor and should not be a victim of administrative error or oversight. I urge my colleagues to support this bill and salute this great veteran.

Mr. MCHALE. Mr. Speaker, I yield myself such time as I may consume. For the past 222 years, the Navy and the Marine Corps have established a partnership forged in steel and tempered in blood. Some 30 years ago, Sullivan’s Island, South Carolina, one of the most distinguished companies in the entire U.S. Marine Corps, faced incredible odds on a battlefield in Vietnam. Doc Ingram stepped forward under fire when needed by his country. And despite 4 serious life threatening bullet wounds, he continued to care for his fellow marines, his fellow soldiers and for his country. Some 30 years later, we correct an injustice. Mr. Speaker, I hope sincerely that Doc Ingram will be watching as we speak today. I hope he knows how much he is beloved by his country.

Doc, if you are watching, happy birthday, and sempel fidelis.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. CALDERON) announced that the Sergeant at Arms had notified the presence of Members of Congress.

The question was taken.

Mr. MCHALE. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present. The SPEAKER pro tempore ruled the point of order as non-meritorious. The question was taken.
Resolved, that the contest in the 4th District of California is dismissed.

The SPEAKER pro tempore. The resolution presents a question of the privileges of the House.

MOTION TO TABLE OFFERED BY MR. SOLomon.

Mr. solomon. Mr. Speaker, I offer a motion to table.

The SPEAKER pro tempore. The resolution is on the motion to table offered by the gentleman from New York [Mr. solomon].

Mr. solomon. Mr. Speaker, I offer a motion to table.

The SPEAKER pro tempore. The motion is not a debatable motion.

Mr. HOYER. Mr. Speaker, I have a parliamentary inquiry.

Mr. solomon. Mr. Speaker, I offer a motion to table.

The SPEAKER pro tempore. The motion is not a debatable motion.

The question is on the motion to table offered by the gentleman from New York [Mr. solomon].

The motion was taken; and the ayes having voted Whetherside, and there were—ayes 215, noes 193, as above recorded.

The result of the vote was announced as above recorded.

The question is on the motion to table of the resolution.

Mr. solomon moves to lay the resolution on the table.

The SPEAKER pro tempore. The motion to table of the resolution is not a debatable motion.

Mr. WISE. Mr. Speaker, I demand a recorded vote.

The vote was taken by electronic device, and there were—ayes 215, noes 193, as above recorded.

The motion was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. solomon. Mr. Speaker, I have a parliamentary inquiry.

Mr. WISE. Mr. Speaker, I demand a recorded vote.

The vote was taken by electronic device, and there were—ayes 215, noes 193, as above recorded.

The question is on the motion to table offered by the gentleman from New York [Mr. solomon].

The motion was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

The motion to table of the resolution is not a debatable motion.

Mr. solomon. Mr. Speaker, I offer a motion to table.

The SPEAKER pro tempore. The motion to table of the resolution is not a debatable motion.

Mr. WISE. Mr. Speaker, I demand a recorded vote.

The vote was taken by electronic device, and there were—ayes 215, noes 193, as above recorded.

The question is on the motion to table offered by the gentleman from New York [Mr. solomon].

The motion was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

The motion to table of the resolution is not a debatable motion.

Mr. solomon. Mr. Speaker, I have a parliamentary inquiry.

Mr. WISE. Mr. Speaker, I demand a recorded vote.

The vote was taken by electronic device, and there were—ayes 215, noes 193, as above recorded.

The question is on the motion to table offered by the gentleman from New York [Mr. solomon].

The motion was taken; and the Speaker pro tempore announced that the ayes appeared to have it.
And for me, global leadership in the arena of international trade means that fair trade should not be subordinated to the notion of free trade. We must trade with other nations on equal footing—and not sacrifice American jobs to those earning a lower wage—particularly when that nation has not yet achieved our level of social, economic, and environmental development.

The bill that I am holding—the Reciprocal Trade Agreement Authorities Act of 1997—commonly referred to as fast track—states very clearly its objective and scope. Section 102(b)(B) of the bill states that:

The principle negotiating objectives of the United States is to ensure that foreign governments do not derogate from or waive existing domestic environmental, health, safety, or labor measures... as an encouragement to gain competitive advantage in international trade.

The key word in this section is “existing.” No country that fast track is designed to facilitate trade with, has adequate existing environmental and labor structures. Nothing in the legislation before us enables the United States to negotiate for higher standards. That is unacceptable and workers, business owners, and consumers in the United States have paid the price for this disparity in standards.

And, just as importantly, the fast-track authority that past Presidents have had—including President Bush and Reagan—allowed them to negotiate weak side agreements for labor and the environment; this measure does not even allow that.

Basically, we are throwing up our hands and saying let those with whom we trade improve on their own—and in their own time.

We are saying: Let them pay their workers a bowl of rice a day, let them not give their workers the right to organize, let their factories dump sewage into the rivers, let them pollute the air, let them ship tainted food across our borders to be consumed at dinner tables across the country, and on and on and on.

And make no mistake about it—this debate is not about labor versus business or Republican versus Democrat—this debate is about jobs. Its about the environment and environmental degradation. Its about consumer safety in areas like imported food. Its about the viability of small businesses who struggle to be competitive. And finally its about consumers who today are paying more now than ever before for imported apparel at the clothing store.

The proponents of fast track argue that the administration deserves this ability based on what they perceive as a successful NAFTA policy. They point to the creation of 311,000 new jobs.

I take exception to this figure and cite an alternative one from the Economic Policy Institute which states that 600,000 jobs have been lost during NAFTA’s first 34 months.

In northern New Jersey alone, statistics show that approximately 15,000 jobs have been lost since 1993. Many companies in my district specifically point to NAFTA as the proximate cause of their reduction in business. In fact, the small businesses who have contacted me have had to cut jobs—and have not created a single one since 1993.

Trade policy needs to be inclusive regarding these important elements, not exclusive. Labor and environmental provisions need to be in the core agreement. If we do not lead from the high ground we will relinquish all that we have accomplished in our long progress to achieving the society that we now live in.

The argument that this fast-track legislation represents forward progress rings hollow to my ears and to many of my colleagues. I urge my colleagues to vote “no” on this flawed measure.
Pursuant to Public Law 95-384, as well as a consolidated report of foreign currencies and U.S. dollars utilized for Speaker-Davis (VA), Davis (FL), Cunningham, Crane, Cox, Cook, Collins, Coburn, Collins (KS), Comstock, Connolly, Cooke, Coxe, Crane, Cranley, Crapo, Cunningham, Davis (FL), Davis (VA), and Taylor (MS), Thomas, Thornberry, Thomas, McCarthy (MO), McGovern, Mclale, McIntyre, McGovern, McKinney, McNulty, McEehan, Menendez, Miller (CA), Minge, Mink, Moakley, Molinich, Moran (VA), Nadler, Neal, Obst, Ober, Oliver, Palone, and Pappas.

NOT VOTING—30

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. SAXTON: Joint Economic Committee. Report of the Joint Economic Committee on the 1997 Economic Report of the President (Rept. 105-393). Referred to the Committee of the Whole House on the State of the Union.

Mr. LINDER: Committee on Rules. House Resolution 314. Resolution waiving a requirement of clause 4(b) of clause rule XI with respect to consideration of certain resolutions reported from the Committee on Rules, and for other purposes (Rept. 105-394). Referred to the House Calendar.

Mr. GEKAS: Committee on the Judiciary. H.R. 1544. A bill to prevent Federal agencies from pursuing policies of unjustifiable non-acquiescence in, and reliteralization of, precedents established in the Federal judicial circuit; with an amendment (Rept. 105-395). Referred to the Committee of the Whole House on the State of the Union.

Mr. GEKAS: Committee on the Judiciary. House Joint Resolution 96. Resolution granting the consent and approval of Congress for the State of Maryland, the Commonwealth of Virginia, and the District of Columbia to enter into the consent and approval of Congress for the State of Maryland, the Commonwealth of Virginia, and the District of Columbia to enter into a compact with the State of Delaware, the Commonwealth of Pennsylvania, the State of New Jersey, and the Commonwealth of New York for the Middelground Harbor of the Delaware River (Rept. 105-396). Referred to the House Calendar.

Mr. GOODLING: Committee on Education and the Workforce. H.R. 1825. A bill to ensure that workers have sufficient information about their rights regarding the payment of dues or fees to labor organizations and the uses of employee dues and fees by labor organizations; with an amendment (Rept. 105-397). Referred to the Committee of the Whole House on the State of the Union.

Mr. YOUNG of Alaska: Committee on Resources. H.R. 2259. A bill to provide for a transfer, a land interest in order to facilitate surface transportation between the cities of Cold Bay, AK, and King Cove, AK, and for other purposes (Rept. 105-398). Referred to the Committee of the Whole House on the State of the Union.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. TOWNS: H.R. 3024. A bill to update the Internal Revenue Code of 1986 to exempt from income tax the benefits received by law enforcement officers for services performed in personal injury cases (Rept. 105-399). Referred to the House Committee on Ways and Means.

By Mr. PORTER: H.R. 3025. A bill to make the Internal Revenue Code of 1986 retroactive to include the benefits received by law enforcement officers for services performed in personal injury cases (Rept. 105-400). Referred to the House Committee on Ways and Means.

By Mr. GILMAN (for himself, Mr. HORN, Ms. STABENOW, Mr. TALENT, Mr. SANDIN, Mr. LANTON, Ms. DUNN of Washington, Mrs. KELLY, Mr. GEIDENSON, Mr. WHITFIELD, Mr. FRANK of Massachusetts, Ms. RIVERS, Mr. GOODE, Mr. DICKEY, Mr. DOYLE, Mr. SKELTON, Mr. BOYD, Mr. MANTON, Mr. SCARBOROUGH, Mr. WAXMAN, Mr. STRICKLAND, Mr. HALL of Texas, Mr. FORBES, Mr. POSHARD, Mr. METCALF, Mr. ADAM SMITH of Washington, Mr. ROGAN, Ms. DANNER, Ms. SANCHEZ, Ms. FOWLER, Mr. HOLDEN, Mr. EVANS, Mrs. MCKINLEY, Ms. DEGETTE, Mr. UPTON, Mr. FILNER, Mr. ALLEN, Mr. WATTS of Oklahoma, Mr. MCINTOSH, Mr. BENSON, Mr. CUMMINGS, Mr. STOKES, Mr. SAWYER, Mr. DIAZ-BALART, Mr. COBLE, Mr. CLYBURN, Mr. MCINNIS, Mr. BLUMENAUER, Mr. STUMP, Mr. HUNTER, Mr. HOBSON, Mr. LEVIN, Mr. MCDADE, Mr. TURNER, Mr. HASTINGS of Washington, Mr. GIBBONS, Ms. FURSE, Mr. JOHNSON, Mrs. TAUSCHER, Mr. ADERHOLT, Ms. LOGREN, Mr. MILLER of Florida, Mr. LANTOS, Mr. WHITE, Mr. WICKER, Mr. LINDER, Mr. KLECKA, Mr. STEARNS, Mrs. LINDA SMITH of Washington, Mr. MCCOLLUM, Mr. BRADY, Mr. BLILEY, Mr. BASS, Mr. PAXON, Mr. SOUTER, Mr. KENNEDY of Massachusetts, Mr. CONDIT, Mr. BUNNING of Kentucky, Mr. RYUN, Mr. CRAPO, Mr. CRAMER, Mr. RUSH, Mr. NEY, Mr. DELAHUNT, Ms. ROYBAL-ALARD, Mr. CHINN, Mr. TAYLOR of North Carolina, Mr. HULSHOF, Ms. PRYCE of Ohio, Ms. JACKSON-LEE, Mr. SHIMKUS, Mr. SCOTT, Mr. YATES, Mr. PORTMAN, Mr. ENSIGN, Mr. RIGGS, Mr. BRYANT, Mr. NUSSE, Mrs. MCCARTHY of New York, Mr. TIERNEY, Mr. INGLIS of South Carolina, Mr. DAVIS of Virginia, Mr. BACIOCA of Michigan, Mr. KINGSTON, Mr. HINCHey, Mr. GODDITAT, Mr. FOSSELLA, Mr. LAHOOD, Ms. ESHOO, Mr. TIAHRT, Mr. HATSUI, Ms. SLAUGHTER, Mrs. MYRICK, Mr. LEWIS of Kentucky, Mr. MCDERMOTT, Mr. ANDREWS, Mr. RADANOVICH, Mr. SABB, Mr. COOK, Mr. PICKETT, Mr. GEKAS, and Mr. STENHOLM): H.R. 3090. A bill to impose certain sanctions on foreign persons who transfer items contributing to Iran's efforts to acquire, develop, or produce ballistic missiles; to the Committee on International Relations.

By Mr. TRAFCANT (for himself, Mr. MURTHA, Mr. MCDade, Mr. Hefner, Mr. BORSKI, and Mr. WELDON of Pennsylvania): H.R. 3091. A bill to redesignate the naval facility located in Giglio village of Lepri, Italy, and known as the Natalie F. Moglietta Support Site; to the Committee on National Security.
By Mr. BORSKI:
H.R. 2932. A bill to require the Secretary of Housing and Urban Development to carry out a demonstration program to determine the effectiveness of establishing fair market rental rates, for purposes of the tenant-based rental assistance program under section 8 of the United States Housing Act of 1937, by smaller geographic areas; to the Committee on Banking and Financial Services.

By Mr. DREIER (for himself and Mr. TRENTON):
H.R. 2933. A bill to amend the Internal Revenue Code of 1986 to reduce employer and employee Social Security taxes to the extent there is a tax exemption of the Committee on Ways and Means, and in addition to the Committee on the Budget, for a period to be subsequently determined by the Speaker, for considerations of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. HAYWORTH (for himself, Mr. REDMOND, Mr. MCINNIS, and Mr. CANON):
H.R. 2934. A bill to repeal the Bennett Freeze thus ending a gross treaty violation with the Navajo Nation to allow the Navajo Nation citizens to live in habitable dwellings and raise their living conditions, and for other purposes; to the Committee on Resources.

By Mr. ACKERMAN (for himself, Mrs. MORELLA, Mr. ANDREWS, Mr. WILSON, Mr. BLAGOJEVIC, Mr. CASTLE, Mr. DAVIS of Virginia, Mr. ENGEL, Mr. FILNER, Mr. FLAKE, Mr. KENNEDY of Rhode Island, Mr. LIPINSKI, Mr. LOWEY, Mr. MCKURT, Mr. MCGovern, Mr. MCKINNEY, Mr. MANTON, Mr. MARTINEZ, Mr. MILLER of California, Mr. OLEEN, Mrs. ROUKEMA, Mr. SCOTT, Mr. STARK, Mr. WEYLER, Ms. WOOLSEY, and Mr. YATES):
H.R. 2935. A bill to amend the Omnibus Crime Control and Safe Streets Act to ensure that States have in effect a law that requires a background check to be conducted in connection with the purchase of a handgun from a licensed firearms dealer; to the Committee on the Judiciary.

By Mr. BACHUS (for himself, Ms. DOORELL, Mr. WILSON, Mr. BLAKE, Mr. CASTLE, Mr. DAVIS of Virginia, Mr. ENGEL, Mr. FILNER, Mr. FLAKE, Mr. KENNEDY of Rhode Island, Mr. LIPINSKI, Mr. LOWEY, Mr. MCKURT, Mr. MCGovern, Mr. MCKINNEY, Mr. MANTON, Mr. MARTINEZ, Mr. MILLER of California, Mr. OLEEN, Mrs. ROUKEMA, Mr. SCOTT, Mr. STARK, Mr. WEYLER, Ms. WOOLSEY, and Mr. YATES):
H.R. 2936. A bill to prohibit the Secretary of Transportation from imposing certain requirements relating to the unloading of cargo spills in liquified compressed natural gas service; to the Committee on Transportation and Infrastructure.

By Mr. BAKER (for himself and Mr. DREIER):
H.R. 2937. A bill to provide for the recognition of digital and other forms of authentication as an alternative to existing paper-based methods, to improve efficiency and soundness of the Nation's capital markets and the payment system, and to define and harmonize laws, customs, and regulations applicable to the conduct of electronic authentication, and for other purposes; to the Committee on Commerce, and in addition to the Committee on Government Reform and Oversight, the Judiciary, Science, and Technology, and for Financial Services, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BILIRAKIS (for himself, Mr. DAVIS of Florida, Mr. YOUNG of Florida, Mr. CARTER of Georgia, Ms. THURMAN, Mr. BOYD, and Mr. MICA):
H.R. 2938. A bill to prohibit the Secretary of Health and Human Services from treating any medical aid-related funds recovered as part of State litigation from one or more tobacco companies as an overpayment under the Medicaid Program; to the Committee on Commerce.

By Mr. BRADY (for himself, Mr. KACSIK, Mr. TURNER, Mr. DELAY, Mr. SMITH of Oregon, Mr. STENholm, Mr. BOEHNER, Mr. PETERSON of Minnesota, Mr. SESSIONS, Mr. PAXON, Mr. BURTON of Indiana, Mr. RODRIGUEZ, Ms. GRANGER, Mr. CONIT, Mr. PICKERING, Mr. HILL, Mr. GOODE, Ms. DUNN of Washington, Mr. SMITH of Texas, Mr. SNOWBARGER, Mr. CANARY of Florida, Mr. SALMON, Mr. REDMOND, Mr. MCINTOSH, Mr. ROGAN, Mr. ROBERTSON of Georgia, Mr. LINGLING of South Carolina, Mr. BOB SCHaffer, Mr. PITTs, Mr. THORKENEBY, Mr. GREEN, Mr. NUSSE, Mr. DOOLITTLE, Mr. PARK of Washington, Mr. ISTOOK, Mr. HALL of Texas, Mr. MYRICK, Mr. COOK, Mr. SOUDER, Mr. COOKSEY, Mr. SAM J OHNSON, Mr. COMBEST, Mr. BONILLA, Mr. BLUMENTHAL, Mr. FRANKEN, Mr. HUTCHISON, Mr. MINGE, Mr. BARTON of Texas, Ms. CHENOWETH, Mr. PAUL, Mr. KLOUG, Mr. ENGLISH of Pennsylvania, Mr. O'HALLON, Mr. TIAHRT, Mr. LUCAS of Oklahoma, Mr. PETERSON of Pennsylvania, Mr. SANDLIN, Mr. WELDON of Florida, Mr. TAUSIN, Mr. POLCAR of Indiana, Mr. SUNUNU, Mr. PAPPAS, Mr. ROMERO-BARCELo, Mr. ROYCE, Mr. ORTIZ, Mr. MCEINTYRE, and Mr. LAMPMON):
H.R. 2939. A bill to provide for the periodic review of the efficiency and public need for Federal agencies, to establish a Commission for the purpose of reviewing the efficiency and public need of such agencies, and to provide for the abolishment of agencies for which a public need does not exist; to the Committee on Government Reform and Oversight.

By Mr. DREIER (for himself and Mrs. MYRICK):
H.R. 2940. A bill to enhance competition and consumer choice in the delivery of financial products and services; to the Committee on Banking and Financial Services, and in addition to the Committee on Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. BRADY:
H.R. 2941. A bill to permit States to condition use of Stark laws for purchase of prescription drugs for minors under certain Federal State matching programs upon parental consent, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. COBLE:
H.R. 2942. A bill to amend title II of the Social Security Act to provide that a monthly insurance benefit thereunder shall be paid for the month in which the recipient dies, subject to a reduction of 50 percent if the recipient dies during the first 15 days of such month, and for other purposes; to the Committee on Ways and Means.

By Mr. DUNCAN (for himself and Mr. HANSEN):
H.R. 2945. A bill to amend the Land and Water Conservation Fund Act to authorize a program of Conservation Endowment with certain escrowed oil and gas revenues, to the Committee on Resources.

By Mr. FORBES (for himself, Mr. LIBIONDO, Mr. ACKERMAN, Mr. TOWNS, Mr. CLAY, Mr. DELAHUNT, and Mr. LAZIO of New York):
H.R. 2946. A bill to provide veterans benefits and enhance fish and wildlife habitat of the Merchant Marine during a period of war; to the Committee on Veterans' Affairs.

By Mr. GIBBONS:
H.R. 2947. A bill to authorize Resource Corps and to assist in the permanent settlement of all litigation and other claims to the waters of the Walker River Basin, NV, and to conserve and stabilize the water quantity and quality for fish habitat and recreation in the Walker River Basin, consistent with the Walker River Decree issued by the U.S. district court for the District of Nevada; to the Committee on Resources.

By Mr. GOODLING:
H.R. 2948. A bill to amend title VII of the Civil Rights Act of 1964 to establish provisions with respect to religious accommodation in employment, and for other purposes; to the Committee on Education and the Workforce.

By Mr. HULSHOF (for himself and Ms. DANNER):
H.R. 2949. A bill to authorize the Secretary of the Army to carry out a project to protect the Missouri River and the middle Mississippi River; to the Committee on Transportation and Infrastructure, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. HUNTER:
H.R. 2950. A bill to prohibit United States assistance to the Republic of Panama if a defendant or military personnel formerly operated by the United States has been convicted by the Government of the Republic of Panama to any foreign government-owned entity, and for other purposes; to the Committee on International Relations, and in addition to the Committees on Banking and Financial Services, National Security and Intelligence (Permanent Select), for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mrs. J OHNSON of Connecticut (for herself and Mrs. THURMAN):
H.R. 2955. A bill to amend the Internal Revenue Code of 1986 to exclude from gross income certain amounts received as scholarships by an individual under the National Health Service Corps Scholarship Program; to the Committee on Ways and Means.

By Mr. KENNEDY of Massachusetts:
H.R. 2952. A bill to amend the Public Health Service Act to authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors, and for other purposes; to the Committee on Commerce.
By Mr. KENNEDY of Massachusetts (for himself, Mr. REGULA, Mr. MARTINEZ, Mrs. MORELLA, Mrs. MALONEY of New York, Mr. BARRETT of Wisconsin, Mr. FLORES, Mr. BAKER, and Mr. LIVINGSTONE): H. Res. 190. Concurrent resolution condemning all prejudice against Asian and Pacific Islander Americans in the United States, and supporting political and civic participation by these persons throughout the United States; to the Committee on the Judiciary.

By Mrs. KELLY (for herself and Ms. MILLER-MCDONALD): H. Res. 313. Resolution expressing the sense of the House of Representatives regarding Government procurement access for women-owned businesses; to the Committee on Government Reform and Oversight.

By Mr. GEPHARDT: H. Res. 313. Resolution relating to a question of the privileges of the House; considered and laid on the Table.

By Ms. SANCHEZ: H. Res. 316. Resolution recognizing and honoring former South Vietnamese commandos for their heroism, sacrifice, and service during the Vietnam conflict; to the Committee on International Relations.

By Mr. OLVER: H. Res. 2961. A bill to permit the Administrator of the Environmental Protection Agency to enter into cooperative research and development agreements for environmental protection; to the Committee on Science.

By Mr. RANGL (for himself and Mr. STARK): H. Res. 2962. A bill to amend title XVIII of the Social Security Act to provide for a wraparound payment under the Medicare Program for community health center services to account for reductions in payments attributable to individuals covered under managed care plans; to the Committee on Commerce.

By Mr. NADLER (for himself, Mr. TORRES, Mr. MARTINEZ, and Mr. SCHUMER): H. Res. 2964. A bill to provide for reviews of criminal records of applicants for participation in shared housing arrangements, and for other purposes; to the Committee on the Judiciary.

By Mr. SANDLIN: H. Res. 2965. A bill to reduce the amount of the annual contribution of the United States to the North Atlantic Treaty Organization security investment program; to the Committee on International Relations.

By Mr. SCHUMER: H. Res. 2966. A bill to amend the Internal Revenue Code of 1986 to allow a deduction for employee-owners paid in the form of contributions to employee-owned cooperatives; to the Committee on Education and the Workforce.

By Mr. SMITH of New Jersey (for himself and Mr. STEARNS): H. Res. 2968. A bill to require the Secretary of Health and Human Services to no further action on proposed regulation relating to the use of chlorofluorocarbons in metered-dose inhalers; to the Committee on Commerce.

By Mr. SOUDER (for himself and Mr. SOLOMON): H. Res. 2971. A bill to amend the Internal Revenue Code of 1986 to impose a flat tax only on business taxable income, and for other purposes; to the Committee on Ways and Means.

By Mr. SOUDER (for himself and Mr. OLIVER): H. Res. 2972. A bill to direct the Secretary of Health and Human Services to establish a continuous quality improvement program for providers that furnish services under the Medicare Program to individuals with end stage renal disease, and for other purposes; to the Committee on Commerce.

By Mr. TANNER (for himself, Mr. CUNNINGHAM, Mr. CHAMB LiSS, Mr. PETERS, Mr. GILCHRIST, Mr. McCRERY, Mr. SAXTON, Mr. CLEMENT, Mr. JOHN, Mr. CRAMER, Mr. JEFFERSON, Mr. BOUHLL, Mr. GILCHRIST, Mr. MCHUGH, Mr. COOKSEY, Mr. WATKINS, Mr. FRANK of Massachusetts, Mr. ABERCROMBIE, Mr. CASTLE, and Mrs. JOHNSON of Connecticut): H. Res. 2973. A bill to amend the act popularly known as the Federal Aid in Fish Restoration Act to provide for a biennial review of fish restoration and management projects, and for other purposes; to the Committee on Resources, and in addition to the Committee on Transportation and Infrastructure, and Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. TRAFICANT: H. Res. 2974. A bill to authorize certain military construction projects for fiscal year 1999 for the 910th Air Lift Wing at Youngtown, OH; to the Committee on National Security.

By Mr. VENTO: H. Res. 2975. A bill to establish the Federal Highway Corporation to provide mortgage credit to families, communities, and markets underserved by the conventional mortgage markets and ensure the stability of the national system for mortgage finance, and for other purposes; to the Committee on Banking and Financial Services.

By Mr. ARMY: H. Con. Res. 190. Concurrent resolution authorizing the use of the rotunda of the Capitol for the congressional Christmas celebration; to the Committee on Transportation and Infrastructure.

By Ms. ESHOO (for herself, Mrs. MIN of Hawaii, Mr. ABERCROMBIE, Mr. FALOMavaEGa, Ms. ROYBAL-ALLARD, Mr. Matsu, and Mr. UNDERWOOD): H. Con. Res. 191. Concurrent resolution condemning all prejudice against Asian and Pacific Islander Americans in the United States, and supporting political and civic participation by these persons throughout the United States; to the Committee on the Judiciary.
PRIVATE BILLS AND RESOLUTIONS

Under clause 1 of rule XXII.

Mr. ROTHMAN introduced a bill (H.R. 2976) for the relief of Alexandre Malofienko, Olga Matsko, and their son, Vladimir Malofienko; which was referred to the Committee on the Judiciary.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 68: Mr. BONIOR, Mr. COYNE, Mr. CUMMINGS, Ms. DANNER, Mr. FARR of California, Mr. FILNER, Mr. HASTINGS of Florida, Mr. MINTERY, Mr. SANDERS, Mr. TOWNS, Mr. UNDERWOOD, and Mr. VENTO.

H.R. 104: Mr. RADANOVICH.

H.R. 107: Mr. PAYNE.

H.R. 125: Mr. CUNNINGHAM, Mr. BOEHLERT, and Mrs. EMERSON.

H.R. 146: Mr. JOHNSON of Wisconsin, Mr. SANDLIN, Mr. KENNEDY of Massachusetts, and Mr. PRICE of North Carolina.

H.R. 306: Mr. HALL of Ohio and Mr. RANGEL.

H.R. 519: Mr. FARR of California.

H.R. 611: Ms. KILPATRICK.

H.R. 725: Mr. FAZIO of California.

H.R. 806: Ms. FURSE.

H.R. 902: Mr. GINGRICH, Mr. BURR of North Carolina, Mr. FRANK of New Jersey, Mr. SALMON, Mr. UPTON, and Mr. WHITFIELD.

H.R. 1023: Mr. HOUGHTON.

H.R. 1038: Mr. FRANK of Massachusetts.

H.R. 1043: Mr. SHERMAN.

H.R. 1054: Mr. MCCREERY, Mr. MCGOVERN, and Mr. NEAL of Massachusetts.

H.R. 1070: Ms. MILLER-McDONALD.

H.R. 1126: Mr. JOHNSON of Wisconsin.

H.R. 1165: Mr. JOHNSON of Wisconsin.

H.R. 1241: Mr. WATTS of Oklahoma.

H.R. 1319: Mr. SALMON.

H.R. 1322: Mr. PACKARD.

H.R. 1354: Mr. LATOURETTE.

H.R. 1362: Mr. DEUTSCH.

H.R. 1375: Ms. TOWN of Florida and Mr. DAVIS of Virginia.

H.R. 1382: Mr. FATTAH and Mr. KUCINICH.

H.R. 1452: Ms. FURSE.

H.R. 1521: Mr. RADANOVICH.

H.R. 1614: Mr. COYNE.

H.R. 1625: Mr. MCKNIS and Mr. BRYANT.

H.R. 1631: Ms. STABENOW.

H.R. 1689: Mr. SALMON and Mr. NEAL of Massachusetts.

H.R. 1891: Mrs. EMERSON, Mr. HAYWORTH, Mr. CRANE, Mr. UPTON, Mr. CAMP, and Mr. NEAL of Massachusetts.

H.R. 1995: Ms. RIVERS, Mr. KILDEE, Mr. EVANS, Ms. WATERS, Mr. DELAHUNT, Mr. HERNER, Mr. BONIOR, Mr. SERRANO, Mr. CARDIN, Mrs. MORELLA, Ms. HARMAN, Mr. LEWIS of Georgia, Mrs. KENNELLY of Connecticut, Mr. SANDERS, Mr. MURTHA, Mr. POMEROY, Mr. OWENS, Mr. ABERCRUMBIE, Ms. VELAZQUEZ, Mr. BROWN of Ohio, and Mr. MOAKLEY.

H.R. 2023: Mr. KUCINICH.

H.R. 2029: Mr. SCARBOROUGH.

H.R. 2139: Mr. STRICKLAND, Ms. WOOLSEY, and Mr. COOK.

H.R. 2183: Mr. EWING.

H.R. 2188: Mr. HANSEN, Ms. LOFGREN, Mr. PACKARD, and Mr. COOK.

H.R. 2202: Mr. JOHNSON of Wisconsin.

H.R. 2275: Mr. FROST, Mr. FILNER, Mr. MCHUGH, Mr. EVANS, Mrs. KELLY, Mrs. MINK of Hawaii, Mr. ACKERMAN, Mr. SANDLIN, Mrs. TAUSCHER, and Ms. DELAURO.

H.R. 2305: Mr. PORTMAN.

H.R. 2348: Mr. STARK, Mr. ROYCE, Mr. PACKARD, Mr. RADANOVICH, Mr. CAMPBELL, Mr. BILBRAY, Mr. HUNTER, Mr. POMBO, Mr. KIM, Mr. MCKEON, Mrs. TAUSCHER, Mr. BONO, Mr. CUNNINGHAM, Ms. SANCHEZ, Mr. HERGER, Mr. DOOLITTLE, Ms. ESHOO, Mr. THOMAS, Mr. BRECERA, Mr. CALVERT, Mr. HORM, Mr. LANTOS, Mr. ROHRABACHER, Mr. BROWN of California, and Mr. GALLEGGY.

H.R. 2349: Mr. HERGER, Mr. DOOLITTLE, Ms. ESHOO, Mr. THOMAS, Mr. BRECERA, and Mr. CALVERT.

H.R. 2356: Mr. DREIER.

H.R. 2370: Mr. BRYANT, Mr. DUNCAN, Mr. GORDON, Mr. CLEMENT, Mr. WAMP, Mr. JENKINS, and Mr. FORD.

H.R. 2390: Mr. RAHALL.

H.R. 2396: Ms. LOFGREN, Mr. LAFAULCE, Mrs. MCCARTHY of New York, Mr. MCGOVERN, Ms. CHRISTIAN-GREEN, Mr. FRANK of Massachusetts, and Mr. WEXLER.

H.R. 2456: Mr. ORTIZ.

H.R. 2483: Mr. SCHIFF, Mr. SALMON, and Mr. SUNUNU.

H.R. 2490: Mr. RADANOVICH.

H.R. 2492: Mr. KUCINICH.

H.R. 2497: Mr. RADANOVICH.

H.R. 2499: Ms. CARSON.

H.R. 2503: Mr. CONYERS.

H.R. 2515: Mr. RADANOVICH.

H.R. 2527: Mr. JOHNSON of Wisconsin.

H.R. 2579: Mr. UPTON, Mr. PAUL, Mr. CUNNINGHAM, Mr. PETERSON of Pennsylvania, Mr. SNOWBARGER, and Mr. MCGOVERN.

H.R. 2590: Mr. SANDERS.

H.R. 2593: Ms. WOOLSEY, Mr. KLECKA, Mr. HALL of Texas, Mr. HANSEN, and Mr. BILBRAY.

H.R. 2596: Mr. LAHODD, Mr. MANZULLO, Mr. PETRI, Mr. MINGE, Mr. CALVERT, and Mr. FOLEY.

H.R. 2598: Mr. SUNUNU.

H.R. 2625: Mr. HASTERT, Mr. CHAMBLISS, Mr. WAMP, and Mr. BURTON of Indiana.

DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 4 of rule XXII, sponsors were deleted from public bills and resolutions as follows:

H.R. 600: Mr. PETERSON of Minnesota.

H.R. 1366: Mr. PETERSON of Minnesota.
The Senate met at 12 noon and was called to order by the President pro tempore [Mr. THURMOND].

PRAYER

The Chaplain, Dr. Lloyd John Ogilvie, offered the following prayer:

Gracious Lord, You have created us to know, love, and serve You. Thanksgiving is the memory of our hearts. You have shown us that gratitude is the parent of all other virtues. Without gratitude, we miss the greatness You intended and often become proud and self-centered. Thanksgiving is the thermostat of our souls, opening us to the inflow of Your spirit and the realization of even greater blessings.

We want to live this day with an attitude of gratitude for all of the gifts of life: for intellect and emotion, will, strength, fortitude, and courage. We are privileged to live in this free land so richly blessed by You.

Thank You Father for the women and men of this Senate and for all who work with them to lead this Nation. May this Saturday session be productive, bring resolution to conflicts, and the completion of unfinished legislation. Through our Lord and Saviour. Amen.

RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The able acting majority leader, the distinguished Senator from Idaho, is recognized.

Mr. CRAIG. Thank you, Mr. President.

SCHEDULE

Mr. CRAIG. Mr. President, today there will be a period for the trans- action of morning business until 1 p.m. Following morning business, the Senate will consider the Labor-HHS appropriations conference report. The leader anticipates 90 minutes of debate and a rollcall vote on the adoption of the conference report. Therefore, the first vote today will occur at approximately 2:30 p.m.

Following that vote, the Senate may be asked to consider an appropriations matter to be offered by the chairman and ranking member shortly after the vote at 2:30. Therefore, additional votes can be expected during Saturday’s session of the Senate.

Since these are hopefully the last few days of the session for the 1st session of the 105th Congress, many items are in the process of being cleared for consideration by the Senate. Some of those items include the FDA reform conference report, the adoption/foster care legislation and Executive Calendar nominations. Therefore, the cooperation of all Senators would certainly be appreciated.

Mr. President, let me say briefly that the adoption/foster care legislation, I understand, is now nearly cleared. It is an effort that I, along with Senator CHAFEE and Senator ROCKEFELLER— and a good many others—Senator COATS, Senator DEWINE have worked...
on cooperatively with our staffs over the last several months. We think we have an excellent agreement that will reform the foster care system of our country, stop us from warehousing children, move them into adoption, and grant them an opportunity for a permanent and loving home. We hope that can move before we adjourn this 1st session of the 105th Congress.

Mr. President, with all of the other considerations, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. HUTCHINSON). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. THOMAS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS-CONSENT AGREEMENT—CONFERENCE REPORT ACCOMPANYING H.R. 2264

Mr. THOMAS. Mr. President, I ask unanimous consent that at 1 p.m. today, the Senate begin consideration of the conference report to accompany H.R. 2264, the Labor-HHS appropriations bill. I further ask unanimous consent that there be 90 minutes for debate, equally divided between the chairman and the ranking member. Finally, I ask unanimous consent that at the expiration or yielding back of time, the Senate proceed to vote on the adoption of the conference report, with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of morning business not to extend beyond the hour of 1 p.m., with Senators permitted to speak therein for up to 10 minutes each.

Mr. THOMAS. Mr. President, I would like to speak in morning business.

The PRESIDING OFFICER. The Senator from Wyoming is recognized.

NATIONAL PARKS

Mr. THOMAS. Mr. President, I want to take the time that we have available this morning while we are waiting for these important closing activities—I hope closing activities—to talk a little bit about an issue that I feel very strongly about and that I think many people do, and that is our national parks and our national parks plan.

I am chairman of the Subcommittee on National Parks, and we have spent almost this entire year working on a program to help strengthen the parks. Certainly, the National Park System is truly one of our treasures.

The Park System is the custodian of some of America's most important natural and cultural resources and provides, of course, a legacy for our children and our grandchildren.

The Park System today consists of about 374 units which are visited annually by millions of people. They stretch all the way from Acadia in Maine to American Samoa in the Pacific islands and provide a unique opportunity.

I, of course, am particularly selfishly interested in parks because I come from Wyoming. We have the first national park which recently celebrated its 125th anniversary—Yellowstone. We also of course have Teton Park. But the whole country has a park system that we are extremely proud of.

Unfortunately, that System is and has been under considerable stress. At the time that we have showed unusual interest in it as Americans, and have increased our visitations, the park has had increasing difficulties. We are believed to have somewhere near $8 billion in unfunded and unrealized infrastructure kinds of things. That is a great deal of money.

We also have had some stress in terms of management in many of those things. So we worked this year and intend, as a matter of fact, to have some discussions that would enable us to put all of our funding for management kinds of things.

The issues are broken down, as you might imagine, into several categories. One of them is finance. That is one of the basic kinds, of course. As I mentioned, we have an overwhelming amount of unfunded programs: $2.2 billion in road and bridge repair; $1.5 billion in buildings and maintenance; $300 million in natural resource management kinds of things. They are the kinds of things that are very difficult to manage.

So we are looking for some ways to do this a little bit differently. We are looking at a number of things. One would be to extend the temporary program for fees, where fees have been raised in a number of the parks, about 100 I think out of the 375 parks. They have been very low. And it has been $10 a car at Yellowstone for a whole car load of people for a week. I think it has now gone to $20. And, frankly, we found it is very like revenue sharing that, particularly if people believe the money they are spending going to that park will be used to make that park a better place to visit.

In addition to fees, of course, it will be our responsibility, Mr. President, as Member of Congress, to keep the appropriations growing some for that. We had an increase in appropriations this year. We need to continue to do that.

In addition to entrance fees, we are looking at ways for people to contribute individually to contribute to parks. Many want to do that.

There are park foundations in individual parks. We need to find some ways for Americans who chose to, to be able to contribute more to the maintenance of parks.

We are also looking at a way for corporate investment as well, without commercializing parks. We do not want very small and unobtrusive sign there that indicates the sponsors of that. I think that is a good idea. I think we can continue to do that.

One of the things we are looking at is a way for bonding. Interestingly enough, the larger parks, like Yosemite, like Yellowstone are basically small cities. They have to have sewers, they have to have streets, they have to have housing, the kinds of things that take long-term investment. And it is very difficult to do that a moment ago, out of annual appropriations.

So we are trying to find a way that the park could do some bonding in the private sector. I do not know whether the Government ought to be Government bonds. I do not know whether they can be tax-free bonds or taxable bonds. But in order to do that, we have a couple of problems I hope we can overcome.

One is the scoring system here in the budget of the United States. As you know, we do not have a capital budget. And so if you issue 300 million dollars' worth of bonds, that would all go into the annual budget. That is a difficult thing. We will have to try and overcome it. We hope that there are some ways to do it.

The other thing, of course, that is necessary to do bonding is to have a dependable and steady stream of revenue to pay off the bonds. We think we can do that. So those are a couple of the ways that we are seeking to do some things that would be good for parks.

In addition, many of the larger parks, as you know, the services—let me go back and say, I think most people would agree that the main purpose of a park is to maintain the resources, whether it be cultural or whether it be natural resources.

But the second and equally important part of it is to have a pleasant visit for Americans, who own those parks. To do that, by and large, we have had concessions that have been run by the private sector. I certainly support that idea. I think that is the way to do it. We have, unfortunately, kind of gotten out of sync in terms of doing that sort of contracting that is necessary.

We went through a while, a big debate a couple years ago as to whether the Government ought to own the facilities. I think we have overcome that and decided that is not what we want to do. So we need to go back to longer term contracts for some very large facilities.
November 8, 1997

CONGRESSIONAL RECORD — SENATE

S12075

I think there is about $700 million in gross revenue that comes from concessions in the whole Park System, which is a very sizable amount.

On the other hand, parks are not all big-profit operations because Glacier Park in Montana has only opened a portion of the year. And the season is rather shortened. So we have to deal with questions like: How long should the contract be for sizable investments? Should there be the right of renewal or be some sort of proprietary ownership in these facilities at the time the contract exchange comes? So we are working with those things. I am positive that we can find some solutions.

I also want you to know that one of, I think, the key issues we are talking about with concessions—I mentioned to you this is a large commercial business. It is a commercial business. We think we ought to take a look at the idea of contracting with an asset manager out of the private sector who is a professional at managing hospitality things to do this. That is not really the role of a park ranger in terms of training and background.

As you know, Mr. President, I have been working as hard as I can to see if we can’t move these commercial functions of the Government over into the private sector, at least give them an opportunity to bid on it. So that is only one of the things that we are seeking to do. I do not think that we are going to solve the financial problem out of the concessions by any means. But we ought to do two things. We ought to be able to have good facilities that are kept up; and we ought to be able to have a small stream of revenue come to the parks. We think that might be one of the possibilities for doing something with the bonding revenue.

We are looking at improved management. The Park Service, after all, is a large agency, I think, with some of the most dedicated employees of any agency in the Government. We are trying to do two things. We ought to be able to have good facilities that are kept up; and we ought to be able to have a small stream of revenue come to the parks. We think that might be one of the possibilities for doing something with the bonding revenue.

Any business of that size, any operation of that size needs a strategic plan that has some forward ideas as to how to solve problems. Frankly, that is kind of what we are trying to do there. There has not been any plans presented to the Congress. And the Congress has not taken the initiative to prepare plans to accommodate these problems that we now have, and problems of increased visitation. The highways, for example, in Yellowstone Park are way behind in preparation and care. So we need a strategic plan in the agency.

Probably at least as important then is each park, and each park manager, needs to have a strategic plan that contributes to the overall plan and one with measurable objectives and measurable goals so that you do not just have a plan that everybody thinks is important but that at the end of the year you can take a look at the plan and say you accomplished what you were going to or you did not. If you did not, there ought to be a reason why you did not. So we think we can do something.

Let me tell you that we are working very closely with the Park Service. And a new park director is now in place, Bob Stanton. His background as a career park official has been that he was the head of the parks here in this area. It was the first time, by the way, that the park director has been approved by the Senate. That was just changed so it is an appointment that has to be approved. So we are working very closely with the Interior. The Interior has talked favorably about some of the changes that need to be made.

Finally, one of the things we are doing is trying to take a look at the criteria for new parks. I think it is fair to say in terms of setting aside things that are important either historically or culturally or from a natural resource standpoint. But, unfortunately—I think unfortunately—we have continued to add more parks that do not necessarily fit that criteria. They are often recommended by Members of Congress who have an equivalent of a State or a county park in their area that they would like to have the Federal Government pay for. So they move it into the Park Service when it could just as well be a State park. And we find ourselves short of money to handle the 375 parks we have now, and continuing to increase with parks that may or may not fit the criteria.

So we are not as concerned about the criteria, I believe it exists there. But we are concerned and hopefully will change the process in which the criteria moves through the Congress so that there is an opportunity to do that. So, Mr. President, these are the things that we are doing. We have purposely worked on it all this session. We did not intend to bring a bill this session, but we do intend to have one prepared for January. I think it is one of the things that most Americans are supportive of. Not everybody is going to be supportive of every proposal we have to do it, but I think there is general support for strengthening parks. There needs to be.

Certainly we have more and more people wanting to participate in them. So you have to recognize that as caring. So we will be moving forward on that. I think it is something that Congress ought to undertake, and be very proud of.

There is great controversy over many of the environmental issues that go around. But there is not much controversy over this one. If we talk about what are the needs, are we going to try and fulfill those needs, most everybody says yes. Now, when you get to how you do it, obviously, there will be differences of view and debate. That is why we are here.

Mr. President, I am excited about this opportunity. We call our plan “Vision 2020,” so that we can take a look at parks so that our kids, 20 years from now, and others, will be able to enjoy them with the same intensity that we have been able to.

We look forward to having our proposition ready by January. I hope many of the Members of the Senate will join us in seeking to resolve this important question and problem.

Mr. President, I thank you for the time and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. WYDEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WYDEN. I ask unanimous consent that I be allowed to proceed for up to 15 minutes in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

SENATE HOLDS

Mr. WYDEN. Mr. President, I rise today to take a few minutes to discuss the effort here in the Senate to eliminate the secrecy with which the Senate so often conducts business. Through a procedure that certainly isn’t known to most Americans, it is possible for one U.S. Senator to unilaterally block this Senate from considering a piece of legislation or a nomination. This procedure known as a hold has been steadily and consistently expanded as we have seen in the last few days, a hold is an extraordinary power in the last few hours of a session in the U.S. Senate. In fact, it is fair to say in the last few hours of a session, a hold is essentially unbreakable.

Now, originally a hold was intended as a courtesy to a Senator. If the Senator couldn’t be present at a particular time—there was an illness in the family, this sort of thing—they could put a hold on a measure or nomination, and that way, as a courtesy, the Senate would make sure it was brought up shortly thereafter when that Senator could be there.

But what has happened over the years is that the hold has been abused. At one point here fairly recently there were more than 40 holds on individuals, nominees, pieces of legislation, and it was all done in secret—all of it. At a time when the American people are so skeptical of the way business is done in Washington, DC, for example, standably skeptical, the secret hold, the unilateral power of one Senator to block a bill or nomination and do it all
in secret is something that is being abused, and abused especially at the end of a session of the U.S. Senate.

Senator GRASSLEY and I, on a bipartisan basis, have tried to eliminate the secrecy that surrounds these holds. We have said we are not quarreling with the proposition of a Member of the U.S. Senate to have this extraordinary power. Members of the Senate, under all other circumstances, are accountable to the American people. But in this case they aren’t accountable because they can exercise this power in secret.

Senator GRASSLEY and I offered what we don’t think is exactly a radical idea, which is that when a Senator uses this power, it should be publicly disclosed. We said if a Senator uses this power, they should have to disclose the use of that hold in the CONGRESSIONAL RECORD within 48 hours of exercising their hold. The idea would be that the American people would know who is exercising this power. If a Member of the U.S. Senate is doing the bidding of a powerful set of interests, it would be for everybody to know what exactly was taking place.

So Senator GRASSLEY and I were able in the last weeks of the session to attach an anti-Senate-secrecy amendment so that when the use of the hold is apropos to a particular piece of legislation, the American people would know who was blocking this body from considering a bill or nomination.

Now, as I understand it, there are discussions underway, in effect behind closed doors, behind closed doors without public debate, to drop an effort to end Senate secrecy. I will tell you, that doesn’t pass the smell test. Killing a plan to end Senate secrecy behind closed doors is very unfortunate that there appears to be an effort to end the secrecy in the way business is conducted. Certainly what we have seen in the last few weeks since Senator GRASSLEY and I prevailed on our proposal in the Senate to end secrecy, is that there has been an explosive proliferation of the use of these secret holds once again. There are countless bills and nominations that certainly deserve consideration. You can argue whether they deserve majority support, but they certainly deserve open debate, and they can’t be brought to this floor because one Senator has secretly said no.

One Senator has secretly said, “No, I will not allow discussion” of that particular topic.

The irony of all of this, Mr. President, is that often even Senators don’t know when a hold has been placed in their name. I have had a number of Senators tell me since I’ve come to the Senate that they have been approached about holds. They were told they had a hold on a measure. It turned out the staff had put a hold on it without their even knowing about it. So it is one thing for an elected official, a Member of the U.S. Senate with an election certificate to exercise this extraordinary power, rather to have the American people who are not elected exercise it. It highlights, again, how much this process has been abused of late.

I thought that the minority leader, Senator DASCHLE, captured the spirit of this situation the other day in his morning briefing with the press. Amid what reads on the transcript like pretty raucous laughter, the minority leader described the variety of holds that there were on dozens of nominees at that time. In fact, he said, “If you don’t have a hold, you ought to feel lonesome.” The minority leader was pressed by reporters about who might be holding up nominations, but the minority leader said he didn’t know who was placing these holds. Some have said eventually you can find out who is exercising the hold. But I can tell my colleagues here in the U.S. Senate that even the minority leader is on record as saying he doesn’t know who is placing these secret holds.

This secrecy, in my view, Mr. President, is not in keeping with the proud tradition of the U.S. Senate, and it is not in keeping with the fundamental spirit of openness and accountability that is at the heart of our democratic process. I sought to serve in the U.S. Senate under a position to influence policy on issues that are important to Oregonians and the people of this country. I value the extraordinary opportunity that I have been given by my constituents to serve, and I don’t think they have given me on behalf of them and the American people. But it is time to say that power must be accompanied by responsibility. That responsibility is to be straight with the American people, to tell the American people that they have given me on behalf of them and the American people. But it is time to say that power must be accompanied by responsibility. That responsibility is to be straight with the American people, to tell them in the policies that they are taking. It certainly is not in line with the spirit of openness and accountability for the American people to allow one Senator in secret to unilaterally block from this Senate floor even the consideration of a bill or nomination.

I am one who simply feels that public business ought to be done in public. Some might think that is a little bit quaint at this time in American history. But I think it is time to bring some sunshine to the process for debating these issues. I am very proud and very grateful that Senator GRASSLEY has joined me in this effort. I think it is very unfortunate that there appears now to be an effort behind closed doors to kill our proposal to end Senate secrecy. That will be unfortunate if it takes place. If it takes place, I want every Member of the U.S. Senate to know that Senator Grassley and I will be back on this floor pressing the case again.

It’s not going to threaten the deliberative approach that this body rightly takes to consideration of issues, to have there accountability in the way that the Senate does business. Senator GRASSLEY and I are not saying get rid of the hold; we are not saying the hold ought to be abolished and a Senator who is exercising it should stop doing so. Rather, the minority leader said that power should be accompanied by responsibility. Rights should be accompanied by responsibility.

Now, I was very gratified when the proposal Senator GRASSLEY and I offered in the U.S. Senate was approved by this body. I have been appreciative of the fact that the Senate majority leader, TRENT LOTT, has been willing to work with me on this matter. So I am concerned that he certainly doesn’t want to see Senate secrecy and see important decisions made without accountability. And I felt that the Senate was moving in the right direction when, initially, our proposal was voted on and favorably so, by the U.S. Senate.

But I am concerned that the bill that will come before the Senate, the D.C. appropriations bill, will not contain the legislation that Senator GRASSLEY and I offered to end Senate secrecy. I am concerned that our proposal may just disappear behind closed doors, without any public debate, without any explanation at all, and that our proposal may be put aside with the very secrecy that we sought to eliminate.

So I tell my colleagues, Mr. President, that this flight is not going to end today. The D.C. appropriations bill is an important part of the Senate’s work and it needs to be completed. But this Senator wants to be clear that we will be back, and we will be back, in my view, with even more support from the American people, given the fact that, in recent weeks, there were more than 40 holds—40 holds—on nominees and individual pieces of legislation, and even the Senate minority leader can’t tell the American people who was exercising those holds.

Mr. President, it’s time for additional openness and accountability in the U.S. Senate. In my view, continuing these secret practices cheapens the currency of democracy. The Senate can maintain its proud traditions with having openness and accountability, and each Member of the U.S. Senate will still be able to fight for their constituent’s views. The work they were sent here to do.

So I am still hopeful that the D.C. appropriations bill, when it comes back, will contain the legislation that Senator GRASSLEY and I authored to end the secrecy in the way business is done in the Senate. But if it’s not, if our provision is not, I want to assure the Members of the U.S. Senate that we will be back, we will be back on a bipartisan basis. I don’t believe it’s possible for any Senator, at a town hall meeting in their home State, to justify these secret holds. I don’t think it passes the smell test. I think it’s wrong. If we don’t prevail on it today, Mr. President, we will be back.

I yield the floor.

Ms. MOSELEY-BRAUN addressed the Chair.

The PRESIDING OFFICER. The Senator from Illinois [Ms. MOSELEY-BRAUN] is recognized.

Ms. MOSELEY-BRAUN. Mr. President, I ask unanimous consent to proceed as in morning business for 10 minutes.
The PRESIDING OFFICER. Without objection, it is so ordered.

FAST-TRACK LEGISLATION

Ms. MOSELEY-BRAUN. Mr. President, today's economic reality is that trade is global. Whether we enter into new international trade agreements or not, we cannot turn back the clock on the pace of globalization of our economy.

Nor should we want to. In open and free trade lies the potential of increased trade, and with increased trade and constructive interaction among the peoples of the world, the prospect of job creation, and an improved standard of living worldwide is created.

Americans, who have enjoyed the highest standard of living in the world, need not fear our ability to compete and win in this new global economy. To the contrary, we have every interest in preparing to meet and master the challenges of this new era.

Economic growth through trade can produce better jobs, increased prosperity, and a continuation of the high standard of living and opportunity that define the American dream. In the last 4 years, exports have accounted for one out of every three jobs created in the U.S. economy. Moreover, the strength of our economy is reflected in the fact that the United States is the No. 1 exporting nation in the world.

Our European competitors, in recognition of the trends already evident in this new global economy, have formed regional trading alliances and relations to meet U.S. competition in world markets. Europe is beginning to trade as a European Community; an agreement among the Association of Southeast Asian Nations, known as ASEAN, augments Asian competition; and the United States entered into the NAFTA, in order to begin the formation of a regional trading arrangement in our hemisphere.

I believe that trade liberalization can have positive effects for our American economy. I do not believe, however, that it is advisable at this time to resort to the fast-track procedure to get there.

At the outset, I want to remind my colleagues and the public at large that what is at issue with this debate is not whether we will embrace trade liberalization, but how we will do so, and under what conditions. For constitutional, policy, and practical reasons I cannot support S. 1269, given the current lack of consensus in this Congress on trade policy objectives. I believe that this legislative proposal, as currently constituted, leaves too many questions unanswered regarding the balance that needs to be struck in the interest of American business and the American people.

Section 8 of Article 1 of the Constitution gives to Congress the commercial power: “Congress shall have the power to . . . regulate commerce with foreign nations, and among the several states . . . and to lay and collect duties, imports and excises.” The Framers of the Constitution very clearly made it our responsibility to make commercial agreements, to set tariff levels, and to pass the laws necessary to implement legislation that always are not self-executing. This power was put into the hands of the Congress, after no small amount of debate, as a check and balance on the President’s authority to make treaties and to conduct foreign policy.

The concept of checks and balances lies at the heart of our constitutional system of government. The separation of powers, and the checks and balances it provides, was, and is, a defense against the tyranny that concentration of power invites. In fact, some of the Framers of the Constitution argued that the powers vested in one branch of the Government could only be exercised by that branch. In 1789, James Madison proposed an amendment to the Constitution that was explicitly stated as much: “the legislative, executive and judiciary powers vested by the Constitution in the respective branches of the government of the United States shall be exercised according to the discretion of neither of these branches.” (The House adopted Madison’s proposed amendment, while the Senate, for reasons lost to history, rejected it.)

While it is still a matter of scholarly debate to what extent the separation of powers exists as a doctrine or as a concept within our Constitution, the fact that we are engaging in this debate at all is witness to the fact that this bill calls upon the legislature to transfer a good part of its constitutional authority, in regards to commercial treaties, to the Executive.

That is not to suggest that the fast-track authority has been a failure, or that the Executive should never be entrusted to assume such authority as the Constitution makes our responsibility. An early Secretary of the Treasury, Albert Gallatin, speaking to those instances in which “shared” authority might be appropriate, noted that, “it is evident that where the Constitution has lodged the power, there exists the right of acting, and the right of direction”. . . but he went on to address the question of timing, be appropriate between the branches of government in this regard: “the opinion of the executive, and where he has a partial power, the application of that power to a certain object will ever operate as a powerful motive upon our deliberations. I wish it to have its full weight, but I feel averse to a doctrine which would place us under the sole control of a single force impelling us in a certain direction,” which Mr. Gallatin feared was “unnecessary, and should not be allowed.

We need a trade policy framework that will represent the interests of all of the American people, and that will best advantage our business sector in its global competitive challenge. Unfortunately, despite the best efforts of our President and his first rate economic and trade team, we do not yet have such a framework.

I am particularly concerned about the issue of child labor. American businesses cannot compete fairly with nations that place labor costs to be artificially depressed by the exploitation of children. In 1994, the U.S. Department of Labor issued a startling report

November 8, 1997

CONGRESSIONAL RECORD—SENATE

S12077

Section 8 of article 1 of the Constitution gives to Congress the commercial power: “Congress shall have the power to . . . regulate commerce with foreign nations, and among the several states, to . . . regulate commerce with foreign nations, and among the several states,
entitled "By the Sweat and Toil of Children—the Use of Child Labor in U.S. Manufactured and Imported Goods." That report found that in textiles manufacturing, food processing, furniture making, and a host of other export-directed activities, children are employed in abysmal working conditions, and are paid very low wages. They have few, if any legal rights, can be fired without recourse, and are often abused. They are hired by our foreign competitors to minimize labor costs. The International Labor Organization reports that 25 million children, world wide, are so engaged.

In the Philippines, for example, the Labor Department Report stated that in the wood and rattan furniture industry, children working in factories received 15 to 25 pesos per day—approximately 61 cents to $1. About 29 percent of the children were unpaid or compensated with free food; the rest were paid on a piece rate basis. About 48 percent of the children work between 15 to 25 hours a week, while another 13 percent work more than 50 hours for less than minimum wage.

The report stated that children who work in the garment industry in Thailand, earn an average of $0.02 per hour and earned an average of $8 per month. Furthermore, they reported that in Cairo in Egypt’s small family-operated textile factories, 25 percent of the workers were under the age of 15. Seventy-three percent of the children worked in excess of 12 hours per day and earned an average of $8 per month.

These are just a few examples of countries that employ children. Clearly, it is in the interest of every modern business and every industrialized nation to develop new international standards to help end child labor. Lower wages and extremely poor working conditions can lower manufacturing costs short term, but they create long-term economic and geopolitical problems, not just for the country that exploits its children, but for the United States, as well.

When foreign industries artificially depress their labor costs by exploiting children, how can a U.S. worker compete? We must level the playing field for American workers. And more importantly, we must put our Nation on record that child labor must end. The United States must realize that an enlightened business policy to eliminate abusive child labor. Free-trade agreements should contain clear provisions against the use of abusive child labor.

Child labor should be designated an unfair trade practice, but S. 1269 does not make it so. Without such minimal ground rules with respect to child labor, our trade policy will be at cross purposes with our trade and larger foreign policy and national security objectives. We will have created a voucher system in which U.S. companies will be prohibited from exploiting children here at home, while foreign firms, and U.S. companies, which leave to take advantage of the lower labor costs on foreign soil, will be permitted to exploit children so they can gain competitive advantage over those who play by our domestic rules. Such a system does nothing to benefit American business, competitions, or the well-being of U.S. jobs, and leaves us all with the shame of complicity in child abuse.

Finally, it is important to note that the Executive has the ability and the authority to negotiate trade agreements even in the absence of the fast-track procedure. It is my understanding that some 200 trade agreements have been concluded without it. Fast-track has only been used five times since 1974, for the GATT Tokyo round in 1979, the United States-Israel Free-Trade Agreement in 1985, the United States-Canada Free-Trade Agreement in 1988, NAFTA in 1992, and the Uruguay round of the GATT in 1994.

Instead of closing off debate about the proper purposes and architecture of free trade, we ought to encourage open and full debate with the American people about it. Trade is inevitably a more and more important aspect of our economic landscape, and indeed, American business achieves the kind of market access in the world community that its capacity will allow, more and more U.S. workers will see the benefits of liberalization. Even today, those businesses which have benefited from the increased access accorded by NAFTA and GATT are enthusiastic about the prospects for real economic growth from this sector. We should be optimistic about our prospects overall, because American goods and services are seen by the rest of the world as providing the excellence they want. But we will see only fractiousness and retreat, if we fail to achieve consensus about the rules of our foray into this global economic competition.

I have a sense that trade, and its impacts, not only on our economy, but on our foreign policy as well, will come more and more to dominate the debate in our country about our future course and direction. If we are to be mindful of the ancient warning that “all wars start with trade” then we should re-double our resolve to make certain that our policy is based on consensus among our people regarding its direction, its objectives, its ground rules. We do not have such consensus yet. We should not shut off the debate which is the only way to get that consensus.

PUBLIC UTILITY HOLDING COMPANY ACT REPEAL

Mr. LOTT. Mr. President, I would like to state my strong support for S. 621, and express my disappointment that a few Senators have prevented this body from considering the bill this year. S. 621 is one of the few Senate bills that supports PUHCA repeal, and I will bring it to the floor for consideration and passage early next year.

Both Chairmen D'AMATO and MURKOWSKI, along with Senators DODD and SARBANES, deserve great credit for helping to move this legislation forward. It is unfortunate that their efforts on both sides of the aisle were unsuccessful this session. They know—as does Senator LOTT—that repealing PUHCA would remove an outdated regulatory burden that restricts the operations of a handful of electric and gas utilities.

Mr. President, PUHCA was enacted in 1935 to eliminate holding company abuses of that time, and it was quite successful. In the last six decades, however, Congress and the States have enacted a whole spectrum of securities, antitrust and utility regulatory statutes that make it impossible for those abuses to occur again. Even the Securities and Exchange Commission, the agency tasked to enforce PUHCA, has said that PUHCA is no longer needed and should be repealed.

Now, long past its usefulness, PUHCA stands in the way of competition. While some argue that PUHCA should only be repealed as a part of comprehensive restructuring legislation, I believe that incremental steps toward competition are responsible and realistic accomplishments for the 105th Congress. Repealing PUHCA should be the first incremental step.

Mr. President, crafting comprehensive restructuring legislation requires Congress to consider a whole host of difficult issues—stranded cost recovery, State versus Federal authority, renewable resources, public power subsidies, environmental impacts. The list goes on and on. There is no consensus among Senators on these issues, but there is an overwhelming amount of support for PUHCA repeal.

Instead of searching for the perfect total package, let’s focus on the incremental steps toward competition that the PUHCA crown is the biggest single Federal obstacle to the advancement of retail competition, and it should be repealed now. Several States have already adopted or are in the process of adopting retail competition plans without comprehensive utility restructuring legislation. We can’t allow the Federal Government to block progress in the States. Without PUHCA repeal, retail competition in the States simply cannot flourish.

Mr. President, now is the time for PUHCA repeal. Although the few opponents of S. 621 have prevented the Senate from considering the bill this year, I will bring it to the floor early next year. I hope that my colleagues on both sides of the aisle will join me in repealing this outdated and burdensome Federal obstacle to competition in the utility industry.

KEEP HIGH TECHNOLOGY FREE FROM WASHINGTON INTERFERENCE

Mr. ABRAHAM. Mr. President, I rise to urge my colleagues to join me in
fighting to ensure that our high technology industries, and the Internet in particular, remain as free as possible from Government regulation and taxation.

America’s high-technology, information technology, software leading the group. These high technology sectors are crucial to our economy, crucial to our workers and crucial to our way of life. It must remain as free as possible so that it may continue to grow, employing even more Americans in good jobs, generating commerce and employment throughout our Nation and constantly reviving our spirit of independence and innovation.

Mr. President, we first must keep in mind, in my view, that the hi-tech, information age industry is crucial to our economy. In 1982, the hi-tech industry was growing very quickly. A 1997 study by the Business Software Industry found that the American software industry has grown two and a half times faster than the overall economy from 1990 to 1996, and that the software industry itself employs 500,000 people.

Increased opportunity—shop, to work, to start one’s own business—has been supplemented by an overall increase in freedom thanks to the open market. For instance, the Internet and the freeing up of new opportunities, for example through telecommuting, to enrich our lives without sacrificing our careers.

All of this is possible, Mr. President, because our hi-tech, information age, growing and free hi-tech industry in America. And our hi-tech industry has succeeded because in it Americans are able to respond quickly and efficiently to technical and marketing challenges, unprecedented by any preconceptions imposed by regulation relating to its development or from inappropriate Government charges on its business.

We are a freer, more prosperous and more open country because of our free high technology industry. To the greatest extent possible, we should keep that industry free from Washington rules, regulations and taxes for the sake of our consumers, our small businesses and our workers.

Hi-tech industries are serving as engines of economic expansion, creating many spin-off jobs. Economist Larry Kudlow reports that the hardware and software industries combined account for about one third of real economic growth. Overall, electronic commerce is expected to grow to $80 billion by the year 2000. The FTC reports that, from 1985 to 1995, the worldwide number of hardware vendors increased from 120 to 350, and the number of service providers—programmers, consultants, maintenance and systems operators—increased from 1,715 to 30,000. Not only hi-tech, but suppose hi-tech has become booming business.

To judge the dynamism of this sector of our economy, and of the Internet in particular, we should consider the fact that the Internet grew from four linked sites in 1983 to become the first ubiquitous, interactive advanced communications network. 15 million households are now connected to the Internet, with 43 million expected by the year 2000.

Mr. President, we all have benefited from this tremendous growth, and we will continue to benefit from the hi-tech industry, so long as we continue to allow it to expand and innovate. Affordable world-wide communications and information transfer have changed the world for the better. Consumers now have far more choices, and benefit from greater competition among sellers. Workers have seen their opportunity for advancement expanding. Perhaps most benefited has been American small business. During a time in which it is increasingly difficult to deal with Government bureaucracy, regulations and so forth, in our hi-tech companies an individual can still work nights and weekends in his garage and end up running his own company. This sector offers minimal barriers to entry and a convenient, cost-effective distribution. That sector is, of course, that of high technology.

Encryption also has been the subject of significant debate. More and more, Mr. President, businesses are encrypting electronic mail messages sent interoffice and intraoffice. These businesses seek to protect themselves against industrial espionage or recreational hackers. In addition, on-line commercial transactions, such as wiring dollars out of country, selling products, require encryption to ensure security.

Specifically, many in the law enforcement community are concerned about the proliferation of strong encryption products, particularly should they fall into the hands of criminals. But this technology already exists, Mr. President. We will not make ourselves safer by exposing businesses to industrial espionage, sabotage and the loss of commerce. That is why I supported Senator Leahy to propose Senate legislation to allow our hi-tech industry to continue to develop and use strong encryption.

As important as restrictions on development, Mr. President, have been proposals to tax commerce on the Internet. Over the last 2 years, several States and localities have passed or interpreted laws to permit taxation of Internet sales and use.

The result, Mr. President, would be double taxation of Internet commerce and a stifling of Internet use. S. 442, reported out of the Commerce Committee, will stop this trend by imposing a 6-year moratorium on subnational taxes on communications or transactions that occur through the Internet or online service, and access or use of the Internet or online services.

This moratorium would apply to all Internet and interactive computer services, but not to property, income or business license taxes. In essence, it prohibits sales and use taxes unless the retailer has a physical presence in the taxing State. It would keep Government from piling on taxes that will strangle the infant Internet commerce industry in its cradle. It also allow the States to come up with a rational system by which to tax Internet commerce.

Another area in which governmental action has threatened our hi-tech, information age industry has been immigration. I am profoundly back efforts during the last Congress to radically reduce the numbers of immigrants coming legally into this country. I firmly believe that immigration is the American way, and because I know that legal immigration is crucial to our hi-tech industry, the Congress must take action.

For example, 40 percent of Cypress Semiconductor’s top-level management is foreign-born. Chief Financial Officer Manny Hernandez is from the Philippines, vice president of research and development Tony Alvarez is from Cuba. And this immigrant-driven company employs 1,800 people in the United States.
Immigrants give America an entrepreneurial edge. In 1995 12 percent of the "Inc." 500—a compilation of the fastest growing corporations in America—were started by immigrants. They also give us an edge in innovation. Immigrants make up nearly a third of all Ph.D.'s involved with research and development in science and engineering—the basis for innovation and economic growth.

Immigrants also fill needed roles, particularly in the engineering field. The CATO Institute reports that over 40 percent of our engineering Ph.D.'s are foreign-born, yet the unemployment rate in that field is only 1.7 percent. Clearly there is a gap in engineering in America that is being filled by immigrants.

I am pleased, then, Mr. President, that we did not close the door on immigration seeking to come to this country to make a contribution and seek a better life. We will continue to keep the door open, so that we may live up to our heritage as a nation of immigrants, and so that we may continue to prosper.

Finally, Mr. President, abusive class action lawsuits have caused significant harm to high technology companies, as they have to much of the American economy. Some suits, alleging malfeasance on the part of company directors, have been brought within hours after a drop in a company's stock price.

Not long ago, this body successfully overrode the President's veto of legislation to reform securities litigation in this country, and that is too much, particularly when the suit may be dismissed as without merit.

The bill also would create a modified system of proportionate liability, such that each defendant in a securities action would be responsible for only the share of damages that defendant caused. This should prevent companies from being joined to a lawsuit solely because of their deep pockets.

In addition, under this legislation, plaintiffs now must state facts with particularity, and state facts that give rise to a strong inference of intent on the part of the defendant. This should end the too-common practice of filing cases with a basis of few or no hard, relevant facts.

Finally, the bill contains a safe harbor provision protecting forward-looking predictive statements from liability.

Mr. President, we must go further, particularly in the area of legal reform, to protect our hi-tech industry from unwarranted interference. S. 1260, which I have cosponsored, would limit the conduct of securities class actions under State law. But even this is not enough.

Hi-tech and other companies are hit with all sorts of abusive lawsuits, not just securities litigation. That is why I am working for broader litigation reforms. I offered an amendment last Congress that would have expanded the joint and several liability provision of the product liability bill to cover all civil lawsuits. I also have introduced my own bill to protect small businesses from frivolous lawsuits. And I am working with Senator McCONNELL to provide needed reforms to our civil justice system. It is my belief that we can make substantial progress in this area in the near future.

Finally, Mr. President, I would just like to note that, while antitrust laws must apply to new industries as they have to the old, we should not allow antitrust laws to become an excuse for excessive regulation. Hi-tech is a dynamic sphere of economic activity. Over-zealous Government regulation from Washington, by whatever means, will only hurt consumers, producers and workers. I think most hi-tech CEOs would reduce the costs of defending a lawsuit in this country. That bill will provide a new industry that is being filled by immigrants.

Mr. KYL addressed the Chair.

The PRESIDING OFFICER. The Senator from Arizona [Mr. KYL], is recognized.

UNANIMOUS-CONSENT AGREEMENT

Mr. KYL, Mr. President, I realize that the debate on the Labor-HHS conference report is supposed to begin at 1 o'clock. I ask unanimous consent that Senator FAIRCLOTH and I each have 10 minutes as in morning business, subject to only Senator SPECTER changing that if he needs to during the course of our presentations. And, Mr. President, in addition, I ask that the Senator from Minnesota, Mr. GRAMS, have 5 minutes following Senator FAIRCLOTH.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

MEDICARE BENEFICIARY FREEDOM TO CONTRACT ACT

Mr. KYL. Mr. President, I wanted to give a report to my colleagues on the status of the Medicare Beneficiary Freedom To Contract Act, the so-called Medicare private contracting issue, which has been before both the Senate and House for several weeks now following the adoption of the Balanced Budget Act, which contained in it a provision which makes it much more difficult for physicians to serve patients who want to contract outside of Medicare.

Let me briefly tell you what the problem is, the legislative status, and the resolution—at least as of now—that we have been able to accomplish.

The issue is whether or not physicians can serve both Medicare patients and people under private contracts who are 65 years of age. Once a person turns 65, of course, they are eligible for Medicare and most of the care they can obtain are paid for by Medicare. But occasionally, either there is a service that is not covered by Medicare, or even sometimes services that are covered by Medicare that a patient would prefer to obtain from a physician outside of the Medicare Program.

For example, a constituent of mine had a condition that required the aid of a specialist in her small community. There were none available, except one person who was no longer taking Medicare patients. By the way, Mr. President, this is a common situation, because Medicare, especially for specialists, does not reimburse up to the level of costs that physicians don't want to dump their existing Medicare patient load and they want to continue to serve those patients they have been serving for a long time, they are not anxious to take on new Medicare patients. In this case, she went to the physician. He said he would be happy to take care of her, but he wasn't taking anymore Medicare patients. Her response was, "Well, I will just pay you directly," and I said, "I will pay you. That way Medicare will save some money, and I will get the treatment I need, and you won't have to take new Medicare patients." He found that the Federal Government would have deemed that to be a violation of law and, therefore, he would have been precluded from providing the service.

It was in response to that kind of a problem that we created a piece of legislation that would allow any Medicare beneficiary who is 65 years of age to have the right to go to the physician of their choice and to be treated outside of the Medicare Program, if that is their choice. We passed that legislation here in the Senate. It became part of the Balanced Budget Act. And, before the act was finalized, the President indicated his desire to veto that legislation if that provision were retained. As a result, some changes were made, the most important of which was the addition to the act which makes it virtually impossible for patients to actually have the benefit of that freedom of choice. The provision was that a physician providing such services had to opt out of an Medicare treatment 2 years in advance.

In other words, patients still had the right to go to a physician. But any physician that provided those services could not provide any Medicare services for 2 years in advance. That meant that it was virtually impossible then for physicians to serve these particular patients.

November 8, 1997
There being no objection, the material was ordered to be printed in the RECORD, as follows:

HEALTH CARE IS TOO IMPORTANT FOR PARTISANSHIP

To the Editor:

"Move Under Way To Try to Block Health Care Bills" (front page, Nov. 4) points out that health care reform is again being treated as a partisan issue rather than the bipartisan issue it should be. The health care system is in critical condition.

Costs are rising at twice the rate of inflation and will double in the next 10 years. The number of uninsured is predicted to be between 41 million and 44 million—is increasing by a million a year, and the quality of care continues to erode.

Competition and managed care have been promoted as solutions, yet the marketplace has done little to stem long-term cost, quality and coverage problems, which show no sign of abating.

Opponents of reform being considered in Congress contend that the proposals would increase costs even more and drive more people out of health care.

Yet without change in the way we deliver and pay for health care, costs will rise more rapidly and the number of uninsured will grow larger.

Partisan posturing only aggravates the problems for all Americans.

JOHN J. DEPARLE

President, Council on Health Care

KYL PROPOSAL ISN'T NEW

To the Editor:

"Republican Health-Care Mistakes" (editorial, Nov. 5) overlooks that the wording of the bill sponsored by Sen. Jon Kyl, which would allow Medicare patients to pay doctors more than Government-set rates, would only preserve and codify the status quo.

The Medicare law and its amendments never forbade contracting between physicians and beneficiaries outside Medicare. It was the heavy hand of the Health Care Financing Administration that articulated the draconian regulations forbidding outside contracting.

The Clinton administration, is a whopper that effectively undermines the patient's freedom of choice. The Clinton-pushed amendment to the bill provides that any physician who enters into such a private contract cannot receive any Medicare reimbursement for two years.

That is a two-tiered system—"boutique health care" for the wealthy, while Medicare would be left to tend to the poor and the sick.

There is a little problem with the all-is-well premise of those who oppose the Kyl bill. Medicare really is the only health care system that gives elderly patients greater freedom of choice. The Clinton administration and its supporters keep Medicare patients from being able to choose and service for beneficiaries, then none of them would want or need to dig any deeper into their pockets for medical care.

This issue also involves a matter of privacy—which is why the American Psychiatric Association strongly supports the Kyl bill. Medicare covers 50 percent of the cost of psychotherapy, but some patients would rather pay the full freight in order to avoid government's ability to review their claims, said the APA's Jay Butler.

"Republican Health-Care Mistakes"...

[From the San Francisco Chronicle, Nov. 6, 1997]

FREEDOM OF CHOICE ON MEDICAL CARE

The Balanced Budget Act of 1997 was supposed to give elderly patients greater freedom of choice on Medicare. But it stopped short of offering genuine choice.

Here's the situation.

Under current rules, doctors can prohibit patients who feel being treated Medicare patients more than the amounts permitted by the government, even if the patients are willing to pay the money out of their own pocket. These doctors have kept Medicare patients from being able to use their own money to see doctors—even specialists—as they choose.

This restriction is all the more onerous for patients because so many doctors have become disenchanted with Medicare, which reimburses at about 70 percent of the rate of private insurers. As a result, some senior citizens have trouble finding a doctor willing to take them.

Recognizing the problems with the restrictions, Congress recently voted to allow Medicare beneficiaries the option to privately contract with doctors for any service at any price with other care.

And that caveat, insisted upon by the Clinton administration, is a whopper that effectively undermines the patient's freedom of choice. The Clinton-pushed amendment to the bill provides that any physician who enters into such a private contract cannot receive any Medicare reimbursement for two years.

Those new rules go into effect Jan. 1.

Senator Jon Kyl, R-Ariz., has introduced legislation (S. 1194) that would get rid of the two-year restriction on doctors who enter into the private contracts. His plan to open up choices for Medicare patients has encountered intense opposition from powerful lobbying entities and other groups, notably the American Association of Retired Persons.

Defenders of the status quo argue that Medicare patients have no shortage of choices. "The idea that doctors don't take Medicare patients is fallacious," said Rep. Pete Stark, D-Hayward, a long-time advocate of universal health care.

Mr. SPECTER. Mr. President, I

Mr. KYL. With that, Mr. President, I

Mr. SPECTER addressed the Chair.

The PRESIDING OFFICER. The Sen.

Mr. SPECTER. Mr. President, I

Thank you.
on the bill and are scheduled to vote at 2:30. The way our colleagues work, people will be ready to depart for trains and planes at 2:29.

So if the clerk will report now, I know that there are other Senators who wish to speak at this time there will be time to speak during the 90-minute time. Then by unanimous consent we can go into morning business. But I request that we proceed at this time to the consideration of the conference report on Labor-HHS and Education.

DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, EDUCATION AND RELATED AGENCIES APPROPRIATIONS ACT, 1998—CONFERENCE REPORT

The PRESIDING OFFICER. Under the previous order, the clerk will report the conference report to accompany H.R. 2264.

The bill clerk read as follows:

The conference report on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2264), have agreed to recommend and do recommend the conference report to accompany H.R. 2264.

The Senate proceeded to consider the conference report.

(The conference report is printed in the House proceedings of the RECORD of November 7, 1997.)

Mr. SPECTER. Mr. President, parliamentary inquiry. I ask for confirmation from the Chair that we are now on the conference report having begun at 1:05 with the 90-minute time limit so that we will vote no later than 2:35.

The PRESIDING OFFICER. The Senator is correct.

Mr. SPECTER. I thank the Chair.

Mr. President, it is with great pleasure for me personally that I address the Senate on the conference report on the appropriations bill for the Departments of Labor, Health and Human Services, and Education.

It has been a long, tortuous road to come to this position where if the Senate acts favorably on this conference report. It may then be presented to the President with the expectation that it will be signed into law.

There are 13 appropriations bills which run the U.S. Government, and the appropriations bill on these three departments is the largest one in the Federal Government, downsizing of some $277 billion, and it is now larger even than the appropriations bill for the Department of Defense.

This bill has had a very, very difficult process in coming through conference with a tremendous number of obstacles and difficulties confronting the legislative process at every step of the way.

The process that this conference report has come to the floor with would perhaps constitute a textbook on legislative process except that it has been so extraordinary. That has been occasioned by the fact that there are so many so-called riders or legislative provisions on the appropriations bill which have enormously complicated the work of the conferees in trying to work out an enormous number of complicated problems.

The most vexing of all of the issues—and it had to do with the issue on so-called testing. There has been a generalized agreement that it would be desirable to test fourth graders on reading and eighth graders on mathematics but a great deal of disagreement that testing ought to be carried out. There has been widespread sentiment expressed that the Federal Government ought not to be intrusive in the educational process.

Then the problem arises as to just how this test would be worked out.

When the bill came to the floor of the Senate, the excellent work was done by Senator Coats of Indiana, Senator Gregg of New Hampshire, with the assistance of former Secretary of Education Bill Bennett. In the hands of the House, there was a bill which had established record in the education field, great knowledge on testing, and all being very zealous to keep out Federal intrusion but to limit any testing approach to absolute necessity and to State control, expectation of this body that when Senator Coats, Senator Gregg, and former Secretary Bennett agreed on a process, that it would satisfy even those most diligent in objecting to Federal testing. The Houseassed amendment by a vote of 97 to 13, which is a very, very strong show of support in this body.

The House of Representatives enacted a provision that there should be no funds on testing. When we came to the issue of conference a week ago Wednesday, a meeting occurred attended by the top leadership of the Republican Party of the House and the Senate, attended by the Speaker; by the House majority leader; by the No. 3 in rank in the House of Representatives, Mr. DeLay; the chairman of the House Appropriations Committee, Mr. Livingston; and the chairman of the House Appropriations Subcommittee, my counterpart, Congresswoman Joan Porter. And on the Senate side, we had our own majority leader. We had the chairman of the Appropriations Committee, and I was present.

We agreed on a number of items. One of the foremost of those items on which we agreed was the issue of testing. There was one party present who disagreed. That was the chairman of the authorizing committee in the House, my colleague from Pennsylvania, Congressman Goodling. But aside from Congressman Goodling’s dissent, there was agreement at that meeting.

A week ago Thursday the conference met and hammered out quite a number of other complicated issues and came to agreement on a conference report. That night the agreement was repudiated, and we were back to square one with respect to the testing issue, which held up this bill until further negotia-

Mr. President, at this time I ask unanimous consent that the floor privileges during the consideration of
the conference report accompanying H.R. 2264.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. President, the conference agreement accompanying the Labor, Health and Human Services, and Education bill for fiscal year 1998 that is before the Senate today totals $80.4 billion in discretionary budget authority. Mandatory spending totals $196.4 billion, a decrease of $16 billion from the fiscal year 1997 level, for a net decrease in the bill of $0.3 billion.

The conference agreement both keeps faith with the budget agreement and addresses the health and education priorities of the Senate. The protected programs in the budget deal account for nearly half of the total increases in the bill, and $3.3 billion of the increase is for education.

I want to take this opportunity to thank the distinguished Senator from Iowa, Senator HARKIN, for his hard work and support in bringing this bill through the conference and to the floor. I also want to thank Congresswoman JOHN PORTER, the distinguished chair of the House Subcommittee, Congresswoman DALEY, the ranking minority member, and Congressman Bob LIVINGTON, chair of the House full committee for dedicating their time and energy in getting this bill to this stage.

This has not been an easy process. We confronted many difficult decisions, choices, and tradeoffs. National testing was one of them, but finally through hard work, persistence, and a great deal of give and take, we were able to work out this agreement.

The programs funded within the subcommittee’s jurisdiction provide resources to improve the public health, strengthen medical research, assure a quality education for America’s children, and offer opportunities for individuals to improve job skills. I’d like to mention several important accomplishments of this bill.

MEDICAL RESEARCH

Few things are more important than a person’s health and few things are feared more than cancer, heart disease, Alzheimer’s or some other serious physical disorder. Medical research into understanding, preventing, and treating the disorders that afflict men and women in our society is the best means we have for protecting our health and fighting the disease. The conference agreement contains nearly $13.7 billion for the National Institutes of Health to support medical research that is being conducted at institutions throughout the country. This is an increase of $307 million above the fiscal year 1997 level and is consistent with the commitment I made earlier this year to increase funding for NIH by 7.1 percent and with the overwhelming endorsement of medical research by the Senate during consideration of the budget. Consideration of the budget will be critical in catalyzing scientific discoveries that will lead to new treatments and cures for a whole host of diseases.

FAMILY PLANNING

For the family planning program, the bill recommends $203.4 million to support primary health care services at more than 4,000 clinics nationwide. This amount represents an increase of $5 million more than appropriated. Over 85 percent of family planning clients are women at or below 150 percent of the poverty level and these additional funds will help to ensure that these low-income women have access to quality health services.

EDUCATION

The bill recommends $19.2 million, an increase of $5 million more than appropriated in fiscal year 1997 for the only Federal program focused directly on the issue of adolescent sexuality, pregnancy, and parenting.

This bill contains an estimated $3.380 billion for research, education, prevention, and services to confront the AIDS epidemic, including an $154 million increase for Ryan White CARE Act programs. The bill also provides $230.5 million for state AIDS drug assistance programs, an increase of $118.5 million over the President’s request and the 1997 appropriation. Finally, within this amount, and estimated $1.596 billion is provided for AIDS research supported by the National Institutes of Health. The bill provides that these funds will continue to be distributed and coordinated by the director of the NIH Office of AIDS Research [OAR].

SUBSTANCE ABUSE

Substance abuse continues to plague our society with recent statistics showing many teenagers reporting regular use of marijuana and alcohol. The conference agreement includes over $2.395 billion to support the research, prevention, and treatment programs of the Department of Health and Human Services and Education. This is an increase of $72.1 million over the 1997 appropriated levels for these programs.

JUVENILE CRIME INITIATIVES

The conference agreement includes $30 million for new programs to assist communities in preventing juvenile crime. Funds include: $12.5 million for youth offender demonstration training grants supported by the Department of Labor; $12 million for youth offender education grants supported by the Department of Education; and $6 million for at-risk youth substance abuse prevention grants supported by the Department of Health and Human Services.

HEAD START

To enable all children to develop and function at their highest potential, the agreement includes $4.355 billion for the Head Start Program, an increase of $374.4 million over last years appropriations. This increase will provide services to an additional 36,000 children bringing the total amount of kids served to 923,656 and 836,000. This brings us closer to the goal of enrolling 1 million children in Head Start by the year 2002. Within the total, $279 million is targeted for Early Head Start, which provides Head Start services to infants and toddlers ages 0 to 3. This is an increase of $70 million over 1997.

VIOLENCE AGAINST WOMEN

The bill includes $154 million to support programs to help the Violence Against Women Act. This is an increase of $31 million for programs to provide assistance to women who have been victims of abuse and to initiate and expand prevention programs, to begin to remove women who are forced to confront the horrors of abuse. Included is: $86.8 million for battered women’s shelters; $45 million for rape prevention; $15 million for runaway youth prevention; $6 million for domestic violence community demonstrations; and $1.2 million for the domestic violence hotline.

LIHEAP

The bill maintains the $1 billion appropriated in last year’s bill for the upcoming winter’s Low Income Home Energy Assistance Program [LIHEAP]. In addition, the recommendation provides an advance appropriation of $1.1 billion for the 1998–1999 LIHEAP winter program, an increase of $100 million over this year’s level. The bill also provides additional emergency appropriations of $900 million. LIHEAP is a key program for low-income families in Pennsylvania and other cold weather States in the Northeast. Funding supports grants to States to deliver critical assistance to low-income households to help meet higher energy costs.

AGING PROGRAMS

For programs serving the elderly, the bill before the Senate recommends $1.988 billion, an increase of $65.5 million over the fiscal year 1997 appropriation. Included is: $440.2 million for the Community Service Employment Program which will provide more part-time employment opportunities for the low-income elderly; $39 million more for supportive services and senior centers; $17 million more for congregate and home-delivered nutrition services; and $18.4 million more for the national senior volunteer corps. Also the bill provides a 7.2 percent increase for research into the causes and cures of diseases such as Alzheimer’s disease and other aging related disorders, funds to continue geriatric education centers, and the Medicare insurance counseling program.

SCHOOL TO WORK

The agreement includes $400 million for school to work programs within the Departments of Labor and Education. These important programs help improve the transition from school to work for those students who do not plan to attend 4-year institutions.

EDUCATION

To enhance this Nation’s investment in education, the conference agreement includes $29.374 billion in discretionary education funds, an increase of $3.25 billion over last year’s funding level. Specifically, education...
reform programs have been funded at $1.275 billion, an increase of $279 million over the previous year’s funding level, including $491 million for Goals 2000, $541 million for the technology literacy challenge fund and technology innovative challenge grants.

For in order to educate disadvantaged children, the bill recommends nearly $8 billion, $201 million more than the amount appropriated in fiscal year 1997. These funds will provide services to approximately 7 million schoolchildren. The bill also includes $124 million for the Even Start Program, an increase of $22 million over the 1997 appropriation. Even Start provides educational services to low-income children and their families.

For impact aid programs, the bill includes $808 million, an increase of $78 million over the 1997 appropriation. Included in the recommendation is: $50 million for payments for children with disabilities, an increase of $10 million over the 1997 funding level; $223.5 million for basic support payments, an increase of $8 million; and $24 million for payments for Federal property, an increase of $5.5 million.

Consistent with the budget agreement, the bill provides $354 million to assist in the education of immigrant and limited-English proficient students. This recommendation is an increase of $92.3 million over the 1997 appropriation and will provide instructional services to approximately 60,000 children. Within the funds provided, $25 million has been included for professional development to improve teacher training programs.

One of the largest increases recommended in this bill is the additional $746 million for special education programs to help local education agencies meet the requirement that all children with disabilities have access to a free, appropriate public education, and all infants with disabilities have access to early intervention services. The $4.8 billion for special education programs will serve an estimated 4.95 million children at a cost of $662 per child.

To improve post-secondary education opportunities for low-income first-generation college students, the committee recommendation provides $530 million for the TRIO program, a $30 million increase over the 1997 appropriation. These additional funds will assist in removing economic barriers to higher education for low-income youth.

In closing, Mr. President, I again want to thank Senator Harkin and his staff and the other Senators on the subcommittee for their cooperation in a very tough year.

In summary, Mr. President, this bill is one of enormous importance for America, for many reasons, and I shall detail only a few. My own personal opinion is that there is no priority higher in America today than health care and education. There are matters of tremendous concern—the crime problem, something that I spent a good part of my professional life on as a prosecuting attorney, the problem of environmental protection, the issue of economic development and our infrastructure of highways, grave difficulties of foreign policy around the world; in the Mideast, Bosnia, NATO, China, Africa and Latin America, and the fast track issue—but no issues rank higher than the health of Americans or the education of Americans.

The National Institutes of Health is the crown jewel of the Federal Government. NIH has made miraculous advances in combating Alzheimer’s disease, breast cancer, cervical cancer, prostate cancer, heart disease, mental illness, you name it, the men and women at NIH are on the firing line doing extraordinary work. We have been able to add to the NIH budget some $897 million this year, which is a 7.1 percent increase, bringing the total for the National Institutes of Health to $13.647 billion, almost $13.65 billion.

Senator HARKIN, my distinguished ranking member, and I have worked on a bipartisan basis in the subcommittee. My experience in Congress has demonstrated that the only way to get anything meaningful done in Washington is to work on a bipartisan basis. With the help of our staffs, Senator HARKIN and I on this subcommittee have consolidated or eliminated some 134 programs to save $1.5 billion, which we have allocated to the health issues and to education issues.

I had a talk with Dr. Varmus earlier this week on the occasion of the dedication of a building at NIH to our former colleague, the distinguished Senator from Oregon, Mr. Hatfield, with much laudatory work for NIH on so many matters in his capacity as chairman of the Appropriations Committee. On Tuesday I again asked Dr. Varmus, as I have asked him and others at NIH, "How much would you be able to appropriately use on medical research?" I asked him this question because, in a Federal budget of $1.7 trillion, we could assess our priorities in a way to appropriate more for the National Institutes of Health. Yes, $13.65 billion is a lot of money, but it is not a lot of money in the context of a Federal budget of $1.7 trillion. Dr. Varmus told me that they would like to grant about a third of the applications, that they now grant something in the high twenties, and in addition to that, there are other items they need in the way of equipment. I said, "You ought to make a list and tell us what it is you need." He said, "We have made a list, but we haven't told you what it is because we can't."

That is a reference to the Office of Management and Budget, which intercepts these estimates by the NIH and does not present them to Congress so the administration can maintain control over requests which are made by the various departments.

In our appropriations process next year, I intend to do my best to get that list and find out what Dr. Varmus and the National Institutes of Health would really like to have. It might be an interesting occasion for a subpoena. Our subcommittee never ever issues subpoenas, I know that takes our Committee staff by surprise to think of our doing that. But I think Congress would be prepared to make appropriate allocations for what could be effectively used by the National Institutes of Health.

Mr. President, in addition, we have some almost $30 billion for programs in the Department of Education, which is an increase of $3.3 billion above 1997.
On this subject, I compliment President Clinton for his leadership on education. His last State of the Union speech highlighted education, and there was a real advocacy and leadership by the President on education when this matter came up. From time to time we have had President in subject critical comment or two, and I think it appropriate to note his leadership and his important work in getting this increase in education.

The bill also includes $1.1 billion in advances for LIHEAP, low-income home energy assistance, largely for senior citizens. Americans who, without this assistance, may have to make a choice between heating and eating. We have $1.15 billion for the Ryan White care program on a drugs issue, $861 million for programs for senior citizens under the Older Americans Act, $826 million for community health centers, $145 million for the breast and cervical cancer screening program for the Women's Health Initiative, $8.3 billion for employment and training programs of the Department of Labor, including $871 million for summer youth job programs, $1.24 billion for the Job Corps, and $1.35 billion for dislocated worker assistance.

I must add a special note to the success by Governor Ridge of Pennsylvania and Mayor Rendell of Philadelphia, along with my distinguished colleague, Senator SANTORUM, and the Philadelphia Navy Yard for shipbuilding on a very good arrangement where we will have retraining funds.

Mr. President, there is a great deal more I could say on the subject, but I note my distinguished colleague, Senator HARKIN, has some important comments to make, so I yield to him at this time.

The PRESIDING OFFICER (Mr. HAGEL). The Senator from Iowa is recognized.

Mr. HARKIN. Mr. President, I thank the chairman and my good friend, Senator SPECTOR, for yielding this time.

I especially wish to thank Senator SPECTOR, our chairman, and his staff for the skill they have demonstrated and the cooperation which they have given us in putting this bill together and working out the many compromises that were necessary to come up with this very bipartisan conference agreement. It took a lot of staff meetings, both give and take, but the result is one that merits the support of all Senators.

This conference report, I believe, is the most important bill we will pass this year as the balanced budget agreement. It includes a number of very important advances.

First, the agreement significantly expands our Nation's commitment to quality education for our children. We have provided the largest increase for special education in our history. We have made college more affordable by increasing the maximum Pell grant to $3,000; the highest ever. We have expanded support to make sure schoolchildren have access to computers and other technology and for training teachers on how to use this technology. Computers in the classroom and the teachers do not know how to use them.

I am especially pleased that the conference committee agreed to my proposals to place greater emphasis on making sure that every American child enters school ready to learn. The agreement before us increases Head Start funding by $374 million. That is $50 million more than the President requested, and, more significantly, I believe this bill doubles the Early Head Start Program, that is, the birth-to-2-year-old program, at $279 million, so we have doubled the early intervention program for Early Head Start.

The conference agreement also provides an 11-percent increase in funding to the Individuals with Disabilities Education Act. That is an 11 percent increase for that part H. Finally, the conference report includes an additional $50 million for the child care and development block grant to increase the quality of child care for infants. We all know that these are front-end investments that will pay dividends for us in the future.

Mr. President, as most of my colleagues know, our subcommittee has worked for many years to combat fraud, waste and abuse in the Medicare Program. A recent audit by the HHS inspector general found that somewhere in the neighborhood of $23 billion was lost last year alone just to this problem of fraud, waste and abuse. I am pleased to say that the agreement before us significantly expands our efforts to combat this ongoing problem. Coupled with mandatory increases, our bill provides a full 25-percent increase in support for audits and other fraud-fighting activities, from $440 million to $550 million.

In addition, we have included bill language that provides Medicare greater resources to more aggressively target problem providers who are bilking the system. We need to do even more, including, at long last, to get to competitive bidding in Medicare just like they have gotten in the Veterans Administration. But the reforms in this will save Medicare and the taxpayers billions of dollars.

One major concern I have about this bill is our inability to adequately address our health services and training needs and simultaneously provide generous increases for health research. I am pleased that we have included nearly $1 billion additional for NIH, a total of over $13.5 billion, for medical research and training. The most health services programs received small or no funding increases. We just cannot continue to have this battle between the challenge to adequately fund biomedical research, which we have to meet, and the lack of increased funding for health services programs and training.

Now, I will not go into it at length here—I have given many speeches on this floor about this—but I feel strongly that the money we provide for biomedical research must come from outside of the discretionary pot of money we have.

Mr. President, during this session of the Congress, the Senate went on record 99 to nothing to double the funding for NIH over the next 5 years—99 to nothing. In other words, 99 Senators stood up and voted and said, yes, we should double funding for NIH in the next 5 years.

Now, if we did that within the constraints of the balanced budget agreement, with the pot of money that our committee has, at the end of this 5-year period of time there wouldn't be anything left for any other discretionary health program. In other words, the Senate has said 99 to nothing we want to double NIH funding. OK, if we do it through our Appropriations Committee, through the discretionary pot, that we have, there would be nothing left for any other health program. There would be no Centers for Disease Control, no Ryan White funding, no health training funding, nothing. That would all have to be zeroed out and we still would not have enough money to double NIH funding.

So if we are really serious, and I hope we are, about doubling NIH funding over the next 5 years, then we have to find some source of funding that is outside of the normal appropriations process.

I am also concerned that our agreement does not adequately assure that the rerun of the Teamsters election will be supervised. I think that is very important. This bill does not adequately assure that. I am hopeful that is eventually what will happen. It is a commitment that we cannot back away from. I am hopeful that we can take some steps, when the Congress comes back in January and February, to make sure that the next Teamster election is in fact supervised.

But overall, as I have said, this is a very good agreement. It is a bipartisan agreement that deserves our support.

I again compliment Senator SPECTOR and his staff and mine for a job well done. I want to specifically thank Craig Higgins, Bethou Taylor, Jim Sourwine, Dale Cabaniss, and Jack Chow of the majority staff and Martha Simon and Ellen Murray of my staff. In addition, I want to thank Bev Schroeder, Laura Hessburg, and Peter Reinecke of my personal staff for their contributions.

Mr. President, I urge all Senators give wholehearted support to this conference agreement. I yield the floor.

The PRESIDING OFFICER. Who yields time?
Mr. HARKIN. Mr. President, I know the Senator from North Carolina was wishing to speak.

Mr. FAIRCLOTH. I was hoping Senator SPECTER would yield time.

Mr. HARKIN. I will yield you time for Senator SPECTER. How much time does the Senator want?

Mr. FAIRCLOTH. About 5 minutes.

Mr. HARKIN. The Senator has 5 minutes.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. FAIRCLOTH. I thank the Senator for his work on this bill. He has eliminated funding for national testing as well as funds for Teamsters elections. He has preserved my amendment that would require the Education Secretary to certify that 90 percent of the funds from education go to students and teachers.

(The remarks of Mr. FAIRCLOTH pertaining to the introduction of S. 1458 are located in today's Record under "Statements on Introduced Bills and Joint Resolutions.")

The PRESIDING OFFICER. Who seeks recognition?

Mr. GORTON. Mr. President, will the Senator from Pennsylvania yield me 5 or 6 minutes?

Mr. SPECTER. I will be delighted to yield to my distinguished colleague, Senator GORTON.

The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. GORTON. Mr. President, I am going to vote enthusiastically for this bill, the result of countless hours of work on the part of the chairman and the ranking minority member, other members, and their staffs. It does make many, many decisions that are important for the future of our country.

I am, however, deeply disappointed that one element in the bill that passed the United States is not included in this bill, an element that was vitally important and provided a vitally necessary reform for our schools. For decades now, Washington, DC, has assumed increasing control over our local schools. Washington, DC, having told them how to do it, has taken power and authority directly to our school districts. I suspect that, had a vote been taken in the House, the result would have been almost the same.

Recently, I attended a Senate Budget Committee education task force hearing, at which Carlotta Joyner from the General Accounting Office testified that in 1997, $73 billion was distributed through literally hundreds of programs and more than 30 Federal agencies to support education in this country. For a great number of those programs, there is no record of whether they have succeeded or failed, and in some cases no way of measuring that progress or lack of progress. The Department of Education has not even accounted for half of that total dollar figure. This complex web of education programs only serves to frustrate the efforts of those who know best how to educate children in this country—parents, teachers, principals, superintendents and school board members.

Over the coming months, I know that many of my colleagues will give speeches in their home States and will almost certainly be required to cover education. I remind my colleagues that, when they speak eloquently about local control of schools, they have all had an opportunity in this body to vote for or against that proposition. The conference committee on this bill voted against it.

Finally, I want to let all of my colleagues know that the fight for restoring the traditional role that parents, teachers and principals play in education is not over. I intend to keep forcing tough votes on my colleagues. Tough votes that I believe will eventually lead to letting our school districts do what is best for our children—without being told by Washington, DC, how to do it.

The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. SPECTER. The distinguished Senator from Minnesota, Senator GRAMS, wishes some time.

Mr. President, how much time remains on this side?

The PRESIDING OFFICER. The Senator controls 21 minutes 30 seconds.

Mr. SPECTER. How much on the other side?

The PRESIDING OFFICER. They have 31 minutes.

Mr. SPECTER. I yield 5 minutes to Senator GRAMS.

Mr. GRAMS. Mr. President, I ask unanimous consent to be able to speak for the 5 minutes as in morning business?

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SPECTER. Mr. President, will that be charged to the bill?

The PRESIDING OFFICER. No, it will not.

Mr. SPECTER. In that event, would the distinguished Senator from Minnesota speak on the bill and then ask unanimous consent to include it as in morning business? The Parliamentarian would like it charged to the bill. So we will vote at 2:30.

The PRESIDING OFFICER. The Senator is correct.

Mr. SPECTER. We would not want to hold up so many airplanes, Mr. President.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. GRAMS. Mr. President, I just had a couple of statements I wanted to put into the RECORD for today, dealing with the action here on Labor, Health and Human Services, and also on another unrelated item dealing with the dairy decision in Minnesota earlier this week.

Later today, as noted, the Senate will complete action on the Labor, Health and Human Services appropriations bill which was passed by the House last night. I wanted to express my appreciation to Senator SPECTER, chairman of the Labor, HHS Appropriations Subcommittee for including a 1-year correction of Minnesota's disproportionate share allotment, otherwise known as DSH. I also want to thank the conferees for accepting this correction as well. Without this correction, Minnesota's hospitals stood to lose millions of dollars in DSH payments. Fortunately, in the form that the State filed with the Health Care Financing Administration. While that error was corrected when the State
filed an amended form with HCFA, the Balanced Budget Act did not allow HCFA to consider amended forms in determining each State’s DSH allotment. Again, I would like to express my thanks to our chairman, Mr. Specter, and my co-sponsor Senator Stevens for their assistance and guidance in finding a temporary fix to this problem.

Mr. President, the Labor, Health and Human Services appropriations bill will buy some time for Minnesota hospitals and allow Congress the opportunity to permanently correct this unfortunate error. Although Minnesota hospitals have received a 1-year reprieve, it is important that we permanently correct the DSH allotment error. It is my understanding that Minnesota was not the only State with DSH allotment concerns, and those States will also need a permanent solution.

I look forward to next year when these problems might be addressed in the form of a technical corrections measure.

U.S. DISTRICT COURT CLASS I DIFFERENTIALS RULING

Mr. Grams, Mr. President, on an unrelated matter, I also want to take a moment this afternoon to rise in support of the U.S. district court decision that prohibits the U.S. Department of Agriculture from enforcing class I differentials when it comes to dairy and the Nation’s milk marketing order system.

The ruling states that the class I price structure provided under USDA’s Federal milk marketing order is unfair and that it makes no economic sense. The 1937 dairy legislation on 1997 dairy economics is ludicrous.

The ruling states that the class I price structure provided under USDA’s Federal milk marketing order is unfair and that it makes no economic sense. The 1937 dairy legislation on 1997 dairy economics is ludicrous. The imposi-

The 1996 farm bill requires the Secretary to provide price structure and Federal milk market order reform. This process is currently moving forward, and there should be no legislative maneuvers to restore the rejected state of affairs. I will be guarding against legislative initiatives put forth by regional interests which would attempt to restore the inequities of the former system. USDA and Members of Congress must move forward and cease to be hamstrung by arcane economic models. Traditional economic models are not sufficient in constructing a dairy policy for the next century. The imposition of the 1937 dairy legislation on 1997 dairy economics is ludicrous.

Today, we have heard from our colleagues from Vermont that without the current system, the rest of the country would be at the mercy of the Midwest for a fresh supply of milk. We are not asking for a monopoly, only that the heel of Government be removed from our dairy farmer’s throats so that they be allowed to compete fairly.

There is no more regional politics in Federal dairy policy. We should not encourage inefficiency.

The United States district court has rendered its decision, and now it is in Secretary Glickman’s hands to institute long-term and significant dairy re-form which will restore equity to U.S. dairy policy.

Thank you very much, Mr. President. I yield the floor. Mr. Specter addressed the Chair.

The PRESIDING OFFICER. The Senator from Pennsylvania. Mr. Specter. Mr. President, I yield to my distinguished colleague from Iowa—how much time?

Mr. Grassley. I would like to have 4 minutes.

Mr. Specter. Four minutes speaking on the bill, and then he may want to make an as-in-morning-business request to be sure it is subtracted from the time on the bill. The Parliamentarian nods in the affirmative.

The PRESIDING OFFICER. It will be.

Mr. Grassley. I make the unanimous-consent request that the Senator from Pennsylvania enunciated.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. Grassley. I thank the Chair.

(remarks of Mr. Grassley pertaining to the introduction of S. 1459 are located in today’s RECORD under “Statements on Introduced Bills and Joint Resolutions.”)

Mr. Grassley. I yield the floor.

Mr. Durbín addressed the Chair.

Mr. Harkin. Mr. President, I yield 5 minutes to the Senator from Illinois.

The PRESIDING OFFICER. The Senator from Illinois.

DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, EDUCATION AND RELATED AGENCIES APPROPRIATIONS ACT, 1998—CONFERENCE REPORT

The Senate continued with the consideration of the conference report.

Mr. Durbín. Mr. President, I thank my friend from the State of Iowa, Senator Grassley, and also thank the Senator from Pennsylvania, Senator Specter.

This is a good bill. It is not an easy bill to write. Having been a member of the Appropriations Committee in the other body, I know some bills are tougher than others. This is the toughest.

The committee empowered with writing this legislation entertains literally hundreds of witnesses who ask for help in this bill. Some are the most touching and amazing stories, as people come before this committee with a variety of different medical problems and ask for help in funding research at the National Institutes of Health. I am really encouraged that this piece of legislation increases spending on Federal medical research projects by 7 percent. I wish it were a lot more, and I bet the Senator from Iowa and the Senator from Pennsylvania agrees. Not too many years ago, we found that the NIH was only approving a fraction of those good research projects which should have been funded. There just wasn’t enough money there.

Anyone in this body, any member of our family, anyone listening to this statement, either in the galleries or by television, understands how vulnerable we all are to medical illness. There are times in each of our lives when we pray that someone at sometime someone is investing enough money to make sure that the cures for these illnesses are found. This is the bill that invests the money.

People say, what do these people do in Washington that has any impact on my life? We invest money in the National Institutes of Health to try to find ways to cure cancer, heart disease and a variety of diseases that are not as well known. I recommend my colleagues who work hard on this committee to make it happen.

Another contentious issue in this bill is the whole issue of education testing. I don’t particularly like this bill’s provisions on education testing. I see it a lot differently. I understand at some point the debate has to end, and we have to move forward to pass the legislation.

I believe in local control of education, but I think it is naif for us to believe that we should live in a nation where 50 different States set 50 different standards for scientific educational achievement. For example, the kids graduating in Illinois may go to work in Iowa. The kids graduating in Iowa may end up going to Nebraska. The kids in Nebraska may end up going to California.

The education standards we are espousing, and the one we are trying to make certain we achieve should be nationwide goals. Understanding the achievement levels of our schools is the first step toward appreciating the good schools and improving those that aren’t as good.

The city of Chicago is going through a dramatic change in reforming its public education system. The city of Chicago voluntarily signs up for national testing to make certain that the knowledge coming out of those schools can make it wherever they happen to live. As a result of that testing, the public school system of the city of Chicago virtually closed down seven high schools within the last few months and moved those high schools that weren’t meeting the basic requirements for the kids. They demanded that the teachers in those schools basically step aside and only those who were competent were rehired. Others were told they had to go do something else with their lives. That is what testing can give you, some objective standard to make a tough decision.
The final point I will make in conclusion, I especially thank the conferees for including a provision that I added to the Senate version of the bill. Section 608 of this conference committee report includes the provision which I added and we eliminated it. The conference committee has honored that and kept it in the bill.

I say in closing that I hope as part of the tobacco settlement agreement, with the leadership of Senator HARKIN and so many others, that we cannot only do the right thing in reducing kids smoking, but come up with the revenues to put it into things that are critically important, such as medical research, so that maybe next year when this appropriations bill comes to the floor, we won’t be talking about a 7-percent increase in medical research but a dramatically larger increase paid for by the tobacco settlement agreement.

I thank the Senator from Iowa and the Senator from Pennsylvania for their fine work on this bill. I yield back the remainder of my time.

The PRESIDING OFFICER. Who seeks recognition?

Mr. SESSIONS. Mr. President, I ask unanimous consent that I be allowed to have 5 minutes off Senator SPECTER’s time.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HARKIN. How much time does Senator SPECTER have remaining?

The PRESIDING OFFICER. The Senator from Alabama.

Mr. SESSIONS. Mr. President, I ask unanimous consent that I be allowed to have 10 minutes off Senator SPECTER’s time.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Alabama.

VETERANS DAY

Mr. SESSIONS. Mr. President, I rise today to speak about our Nation’s celebration of Veterans Day next Tuesday. In doing so, I would like to take a few minutes to tell a short story; a story that I think needs retelling from time to time lest we forget some of the history that makes our heritage so special. Please forgive my use of a little artistic license for the sake of narration.

My story begins in the fall of 1947 in Birmingham, AL. Close to the drug store where this story begins is a memorial honoring the Confederate Army's 10th Alabama Regiment. The men of this incredibly fine unit made a now famous charge up the slope of Little Round Top at Gettysburg on a hot day in July 1864. Imagine, if you will, these brave souls charging, without hesitation, bravely up that wooded slope toward the Union’s 20th and Maine, a unit known to many and commanded by Col. Joshua Lawrence Chamberlain. For many dressed in blue uniforms and gray, the last steps they would ever take were made that fateful day.

This is not an unfamiliar story in war; men going away from their homes and then their lives on the line for their country; taking each breath in combat and wondering if it would be their last. Mr. Raymond Weeks, one of the heroes of this story, knew the horrors of war. He had just returned home from Pacific theater. He knew as well the trials and tribulations of fighting in a war and he knew too of wearing the title of “veteran.” His circumstance, Mr. President, was similar to that of my father, now deceased, who had likewise just returned from the Pacific, to open a general store with a gristmill in the small community of Hybart, AL.

On that fall day in 1947, Raymond had stopped at a drug store where he bumped into some of his buddies who had also returned home from overseas. Talk at the drug store turned to the upcoming celebration of Armistice Day, started nationally just nine years before in 1938. You see, Mr. President, many Americans still remember when, on November 11 of each year, America and the world celebrated the signing of the Treaty of Versailles, the treaty commemorating the armistice that ended the First World War on the 11th hour, of the 11th day, of the 11th month of the year in 1918. Thus ended “the war to end all wars.”

Yet, years later, World War II also stole the youth of many nations and many of Raymond’s and my father’s friends as well. Raymond Weeks suggested that the group should “do something” in town to honor the memory of those comrades who had fallen in battle. With that, this small group of men began planning a local celebration to honor not just the veterans of World War I and the Versailles Armistice, but of World War II, and American veterans of all wars.

On Armistice Day, 1947 the very first Veterans Day parade was held in Birmingham, AL. The parade drew such a great turnout that it became a yearly event, even though there was no official national recognition of Veterans Day at that time.

Over time Raymond Weeks formed a small committee and eventually traveled to Washington, DC, to approach then Army Chief of Staff, Gen. Dwight D. Eisenhower with their idea for a national holiday. History records that General Eisenhower expressed immediate approval and referred the idea to Congressman Edward Rees of Kansas. Subsequently, H.R. 7786 became Public Law 380, a law which changed the name of Armistice Day to Veterans Day.

Passed by Congress, the bill was signed into law, ironically, by President Eisenhower on June 1, 1954. What Raymond Weeks did was remarkable; even extraordinary. The Veterans Day Raymond Weeks helped to create does more, Mr. President, than just honor those who served in America’s Armed Forces. Veterans Day, as hosted by Bill Voight and the National Veterans Day Committee and still celebrated annually in Birmingham, AL, extends its boundaries beyond those who fought in Korea, Vietnam, Grenada, Panama, and Desert Storm; it extends its reach to those who serve today in the ships conducting NGO operations off the coast of Africa, in the tanks manning checkpoints in Bosnia, to the sandy slopes of the Sinai, and to the cold ridges of the DMZ in Korea. There should be no doubt that Veterans Day is a special day that pays annual homage to the ongoing sacrifices of our men and women in uniform.

While we were home, safe, these veterans were spread around the globe protecting our liberty and freedom and our security. To them a great debt is owed.

Veterans Day, Mr. President, acknowledges the responsibilities and the special burden’s the men and women handled as they stood on the line for their country; taking each breath in combat and wondering if they would ever take were made that fateful day.

Mr. President, we pause with a humble and grateful heart and say thank you for their sacrifices which have kept us free.

God bless the United States of America and may we be worthy of His blessing.

Thank you, Mr. President.

The PRESIDING OFFICER. Who seeks recognition?

Mr. BINGAMAN addressed the Chair.

The PRESIDING OFFICER (Mr. Sessions). The Senator from New Mexico.

DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, EDUCATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 1998—CONFERENCE REPORT

The Senate continued with the consideration of the conference report.

Mr. BINGAMAN. Mr. President, I would like to take a moment to comment on the agreement that has been entered into on conference tests. Do I need to have time yielded?

The PRESIDING OFFICER. Yes, you would.

Mr. HARKIN. Mr. President, I yield 10 minutes to the Senator from New Mexico.

The PRESIDING OFFICER. The Senator from New Mexico.
Mr. BINGAMAN. Mr. President, let me just comment on the agreement that has been reached on the issue of national testing. This is part of the conference report that we are getting ready to vote on.

After weeks of delay, and essentially a campaign of misinformation waged against voluntary national tests, we now have an agreement that will allow parents to know how their children are really doing in school. And they will be able to know that as soon as the 1999–2000 school year.

As my colleagues know, people who paid attention on this issue, I have long advocated developing voluntary national education tests. And despite the firestorm of controversy that has erupted here on Capitol Hill in the last week or two, the vast majority of Americans have always thought that this was a good idea. Why should we continue to fumble around in the dark trying to guess what is wrong with our educational system when we can simply turn on the light and see for ourselves?

For these reasons, I worked with others here in the Senate to negotiate the initial Senate compromise that we approved here by a vote of 87 to 13. I worked with my colleagues to ensure that the Labor–HHS conferences knew how important it was to have new tests that States could use if they chose to as soon as possible. Here on the floor I have done my best to describe the myths and the realities of what national testing is all about.

As a result, I am glad to report that an agreement on moving forward with developing new tests has been finalized.

In essence, this new agreement does four things.

First, it transfers control over development and administration of voluntary national tests to the National Assessment Governing Board. That was part of what we discussed and proposed here in the Senate version of the legislation. And I think that was a very good proposal. So I am very glad to see that in this final bill.

Second, it calls on the National Academy of Sciences to conduct a study about whether it is feasible to link State and commercial tests to the National Assessment of Educational Progress. That is because the current hodgepodge of State and commercial tests cannot replace a uniform national test and are almost certainly not comparable to the National Assessment of Educational Progress. Few of the current State tests require more than 10th grade learning levels. The percentage of students who score proficiently in the National Assessment of Education Progress on any given subject is usually much lower than the percentage of students who pass a State exam or a commercial exam.

A series of studies and reports over the past two decades, have shown that linking State or commercial tests is a costly and an uncertain undertaking. In the end, the National Academy of Sciences study will most likely reiterate the need for a voluntary national test.

Third, I would like to say that it is unfortunate that the opponents of voluntary national testing did not allow the agreement to include as many protections against discriminatory uses of the tests or bias or other safeguards for poor and minority students as were in the Senate version of the test proposal that we negotiated here. Coming from a State with many poor and minority students, I am committed to ensuring that any new tests are fair to all who take them.

The second benefit of this agreement is that it removes any explicit requirement for future compulsory national authorization before implementation of testing. Making sure that the tests are available to be used is one of the most important objectives here. There is no point in having shiny new tests ready to roll out, measure and re-measure students and parents who want to use those are prohibited from doing so. This agreement puts the burden of blocking any implementation of national tests on those who would oppose States and school districts and parents from using them when they want to.

In my view, these provisions are all reasonable steps to take. They allow the process to go forward. They establish a level playing field for authors and publishers and districts and schools in the future disputes about the implementation of national tests next year. And they provide reassurances against inventing a wheel that we have already invented before.

Let me make a few additional statements though about the agreement.

First, I want to clarify that, in fact, the agreement does allow the development of national testing to go forward this year. The development of fourth grade reading and eighth grade math exams based on the National Assessment of Educational Progress will go forward during the upcoming school year. Starting in the next fiscal year, this National Assessment Governing Board can begin piloting and field testing these items, which are necessary steps for implementing the tests in the spring of 2000.

Second, I would like to lower people's expectations about the proposed study for the feasibility of linking State and commercial tests to this National Assessment. That is because the current hodgepodge of State and commercial tests cannot replace a uniform national test and are almost certainly not comparable to the National Assessment of Educational Progress.

Few of the current State tests require more than 10th grade learning levels. The percentage of students who score proficiently in the National Assessment of Education Progress on any given subject is usually much lower than the percentage of students who pass a State exam or a commercial exam.

A series of studies and reports over the past two decades, have shown that linking State or commercial tests is a costly and an uncertain undertaking. In the end, the National Academy of Sciences study will most likely reiterate the need for a voluntary national test.

Third, I would like to say that it is unfortunate that the opponents of voluntary national testing did not allow the agreement to include as many protections against discriminatory uses of the tests or bias or other safeguards for poor and minority students as were in the Senate version of the test proposal that we negotiated here. Coming from a State with many poor and minority students, I am committed to ensuring that any new tests are fair to all who take them.

Overall, I would have to say that this agreement brings us closer to the day when we will have a national yardstick to measure students' academic progress and gauge how well our education system is doing, and not just the system overall, but be able to gauge how the system is doing on a State by State basis or a district by district basis.

I know that there are those who oppose this effort who still fear that voluntary national tests will undercut local control. I myself would have preferred to move faster than this bill will move. But I am glad you have a comsenspse potential of developing these measures now seems clear to all and that we can finally move forward.

Mr. KENNEDY. Mr. President, I commend Senator Senator HARKIN for giving education the high priority it deserves in the fiscal year 1998 Labor, Health and Human Services, and Education appropriations conference report, and I give it my strong support.

We all know the serious challenges we face in improving public education and increasing access to college. Enrollments in elementary and secondary schools have reached an all-time high of 52 million children this year, and will continue to rise in the years ahead. Forty percent of fourth graders score below the basic level in reading, and fewer than 30 percent score in the advanced category. Yet our modern economy and the country's future depend more and more heavily on well-trained people.

This bill increases funding for Federal education programs by $3.4 billion over last year to help provide young children with a good education and help more qualified students go to college.

The bill increases the $1.5 billion increase in Pell grants to help an additional 210,000 young people attend college, and increases the maximum Pell grant from $2,700 to $3,000.

The bill increases funding for title I by $200 million to help disadvantaged students get the extra help they need to improve their math and reading skills.

The Education Technology Literacy Challenge Fund is more than doubled, from $230 million to $455 million. The programs that serve secondary students receive $54 million, an increase of $2 million, to help teachers learn to use technology effectively and help schoolchildren prepare for the 21st century. The Schools by Choice program will receive $233 million to continue to provide educational services to remote and underserved areas.
The bill also increases Head Start funding by $375 million, including $279 million for the Early Head Start Program, to help more preschool children reach school ready to learn.

Special education receives $757 million to help more children with disabilities get a good, appropriate education.

The bill also contains a compromise on the issue of testing. Despite the efforts of many parents, schools, and communities to improve education, too many schools and communities across the country are educating in the dark. They have no way to compare the performance of their students with students in other schools in other communities in other parts of the country. We know that by every current indicator, the performance of American elementary and secondary school students falls far short of the performance of students in many other countries. We have to do better, and knowing where schools and students now stand is an essential part of helping them do better.

This bill addresses these issues by including a fair compromise on President Clinton’s proposal for voluntary national tests, one widely recognized as meeting national standards, so that parents, communities, and schools will have a better guide for improving local education. The voluntary national tests will be designed to test fourth grade reading and eighth grade math—two basic subjects at two critical times in students’ academic development.

Parents want to know how well their children are doing and how well their schools are doing, compared to other students and schools across the Nation.

Voluntary national tests are an effective way to support local school reform, and I commend the conference for their decision to move forward on these tests.

This bill takes another step forward in higher education, too, by creating the Emergency Student Loan Consolidation Act. I commend Senator JERROLD NADLER for his leadership in continuing to make paying for college easier for more students.

The Emergency Student Loan Consolidation Act reflects Congress’s concern for students who have been unable to consolidate their loans in the direct loan program due to problems with the Department’s contractor. The act responds by opening up consolidation under the bank loan program to students who have direct loans. It does so without undermining the Department of Education’s ability to pay for the administration of the loan programs.

The act contains important nondiscrimination provisions that will help prevent lenders from choosing to allow consolidation of loans only for the most profitable borrowers. We will have an opportunity to do more on nondiscrimination during the reauthorization of the Higher Education Act, but this bill is a good step toward making loans truly available to all students.

The act also makes an important adjustment in the needs analysis calculation, so that needy students will benefit more effectively from the President’s new education tax credits. Students who benefit from the HOPE tax credit and the life-long learning tax credit should not be penalized in their eligibility for future Federal financial aid. This change will help approximately 70,000 needy students, and it is an important improvement.

In addition to these advances in education, I also commend Senators SPECTER and HARKIN for including increased funding for important health, energy, and biomedical research programs.

This year’s spending bill provides more funds for the Ryan White AIDS Program and the Community and Migrant Health Program.

It provides $1.1 billion in fiscal year 1999 for LHHEAP, which will enable this program to serve thousands of additional senior citizens, the disabled, and working families by providing them with heating and cooling assistance.

And it provides an increase of $907 million over the National Institutes of Health. These investments in biomedical research hold great promise for the Nation to cure or prevent illnesses, and can also be an important factor in finding a long-term solution to the fiscal problems facing Medicare.

One of the few major problems with the conference report is that it retains the ban on using any Labor Department funds in the bill to oversee the forthcoming Teamsters election. That election is a rerun of the 1996 election conducted under government supervision as part of the important ongoing effort to free the Teamsters from domination by organized crime. The 1996 election was canceled because of fund-raising activities by both sides driving the election campaign. A Federal court has ordered a rerun of the election, and Labor Department funds should be available to supervise it.

The conference report is also disappointing in its funding of the National Labor Relations Board, which is frozen at last year’s level. This result will require the agency to lay off 50 employees, and will hamper its ability to process its pending cases. There is no justification for Congress to disrupt the Nation’s industrial relations in this way.

There are many worthwhile provisions in this bill, and I intend to support it. But I hope that in action early next year, we can reconsider these unwisely provisions and achieve a more satisfactory resolution.

**DIABETES**

Mr. DOMENICI. I would like to engage the distinguished chairman of the Appropriations Committee and his Subcommittee on Labor, Health and Human Services, and Education, Senator SPECTER, in a discussion about certain details of the fiscal year 1998 funding for the Centers for Disease Control (CDC) and Indian Health Service (IHS) regarding American Indians and diabetes.

Mr. SPECTER. I would be happy to respond to the Senator from New Mexico about the intentions of my committee with regard to funding diabetes research centers for postdiabetics through the IHS. I am also interested in his ideas about coordinating efforts between the CDC and the IHS.

Mr. DOMENICI. Earlier this year, I wrote to you about my interest in establishing a national diabetes prevention research center. It is my primary intention to see this center begin a serious and vigorous effort to control the diabetes epidemic among American Indians through greatly improved, culturally relevant diagnosis and prevention, with preliminary attention to the Navajo Tribe and the Zuni Pueblo near Gallup, New Mexico. I believe CDC is the best agency in our Government to lead this very specialized task. I also hope to find better prevention strategies that will benefit the large Hispanic population of the city of Gallup, the States of New Mexico, Arizona, Texas, and California, and minority communities nationwide. I am also hopeful that the prevention research conducted in Gallup would be a major benefit for the large population of African-Americans who have this disease.

Mr. SPECTER. I certainly agree that prevention research is a very specialized field that must prove itself to be culturally relevant and attractive, or it will be meaningless. It is also my understanding that diabetes is rampant among American Indians and getting worse. The rate is almost three times as high among Indians as it is among all Americans. The national rates of diabetes among Hispanics, Blacks, and Asians are also among the highest in the Nation, and are about double the rate among Americas as a whole.

Mr. DOMENICI. When I held a hearing about the seriousness of diabetes among Navajo and Zuni Indians, and Hispanics in the Gallup area, I was pleased to learn that there are relatively recently inexpensive devices such as the monofilament device for testing circulation in the feet—to detect diabetes at an early stage. We want to incorporate early detection into our prevention activities, so that the Indian population, and especially among the Navajo and Zuni, gets the care it needs.

Among the Navajo Indians, we are told that 40 percent of all Navajo Indians are diagnosed as diabetic, and this high rate is among known cases. The real rate is much higher, since people in the remote areas of the Navajo Nation. Some experts fear that the rate could actually be nearly twice as high,
CONGRESSIONAL RECORD — SENATE

November 8, 1997

S12091

if better outreach were performed. I view the Gallup center as the national center for finding better ways to improve outreach and diagnosis among native Americans. The earlier a person knows about the onset of diabetes, the more can be done to prevent it.

Mr. SPECTER. I concur with the Senator’s observations.

Mr. DOMENICI. I would like my colleagues to know that I met with Health and Human Services Secretary Donna Shalala about the American Indians affected by the increasing prevalence and occurrence of diabetes among American Indians. The Secretary offered her own plan to establish this diabetes prevention research center in Gallup, NM. She recommended a single $8 million per year, multiyear award for a large-scale, coordinated primary, secondary, and tertiary prevention effort among the Navajo, who have a large population with a high incidence of diabetes and risk factors for diabetes.

Her support for the Gallup research center is welcome news. In working with the CDC, we have obtained an estimate of at least $2 million for the first year startup costs for this center. The Senate committee report on this bill specifically mentions the Gallup prevention research center. Would the chairman agree that the conferees intended to target at least this amount for the first year costs of establishing to Gallup center?

Mr. SPECTER. Yes, I would agree that an increase in funding for CDC for fiscal year 1998, includes sufficient funds for this purpose, and the House has concurred with the Senate’s intention to do so. The conferees intend to increase both prevention and treatment activities among native Americans. The final bill also contains at least $2 million for CDC programs among native Americans. In addition to this general Indian funding, I believe the Senate report clarifies our intention to fund the Gallup prevention research center in the first year from fiscal year 1998 funds. This program would then continue as envisioned by Secretary Shalala on a multiyear basis.

Mr. DOMENICI. I thank the chairman for these important clarifications of congressional intent in this final Labor-HHS-Education Appropriations bill for fiscal year 1998. I would like to add one final comment about the Balanced Budget Act of 1997. In that act, signed into law, we included $30 million annually for the prevention and treatment of diabetes among American Indians for the next 5 years.

As most American Indians with serious diabetes problems live on or near the reservations, we have allocated $30 million per year for enhancing the prevention and treatment of diabetes through the Indian Health Service of the Public Health Service in the U.S. Department of Health and Human Services.

I have written to Secretary Shalala asking her support for partial funding of the Gallup center from this Balanced Budget Act allotment. While I have not received a definitive answer yet, I remain optimistic that the Secretary will see the value of directing the IHS to coordinate its prevention efforts with the CDC through the Gallup center. Does the chairman concur with this strategy?

Mr. SPECTER. I commend the Senator from New Mexico for his thoughtful and coordinated approach to the problem of diabetes for minorities, especially American Indians. I concur that CDC and IHS are an invaluable combination at the Gallup prevention research center.

Mr. DOMENICI. I thank the chairman for his thoughts on this vital coordination issue. I am convinced that the IHS could improve the effectiveness of its outreach and prevention efforts, funded under the Balanced Budget Act, by using the most current information and prevention strategies developed at the national diabetes prevention research center in Gallup, New Mexico.

Mr. SPECTER. As the Senator from New Mexico has suggested, I would hope that IHS would invite the CDC to participate in developing meaningful prevention strategies at the Gallup research center with funds from the Balanced Budget Act of 1997. I would add that the resources of the National Institutes of Health (NIH) and the National Center for Genome Research would be other valuable resources for both the CDC and the IHS to incorporate into their efforts.

I thank the Senator from New Mexico for his coordinated efforts to bring immediate assistance to American Indians, especially the Navajo and Zuni Indians in the Gallup area. I believe this diabetes prevention research effort in Gallup will benefit the Pueblo Indians, Apaches, and other Indian tribes nationwide.

I support Senator DOMENICI’s efforts to start and maintain funding for the national diabetes prevention research center in Gallup, NM, funded by both CDC and IHS resources as we have discussed.

Mr. DOMENICI. I thank the distinguished Chairman, and I look forward to working with him again next year to continue our progress in funding vital programs for controlling the epidemic of diabetes among American Indians and other minorities.

Mrs. HUTCHISON. I would like to engage the distinguished chairman of the subcommittee in a colloquy regarding the statement of the managers on fiscal year 1998 Labor Department appropriations. During the debate on S. 1061, I brought to the attention of the chairman an important project that is making a difference in the lives of poor people in two cities in my State and in many other cities across the country. The Community Employment Alliance and the Enterprise Foundation, is working with community development corporations, State and local governments and the private sector to provide a range of employment and training and job creation service to welfare recipients. I appreciated the support of the chairman in urging the Department of Labor to give full consideration for application by the Enterprise Foundation to provide funds for the Community Employment Alliance.

Mr. SPECTER. I want to thank the Senator from Texas for her efforts to gain the support of the conference committee for this project and for the work the Community Employment Alliance and the Enterprise Foundation are doing in welfare to work. I am pleased to inform the Senator that the statement of the managers accompanying the conference report includes a reference to the Community Employment Alliance and urges the Department of Labor to give careful consideration to a proposal for funding.

Mrs. MURRAY. Mr. President, I rise in support of the conference report to accompany the fiscal year 1998 Labor, HHS, and Education appropriations bills, but I am also sadly disappointed in the actions of the other body concerning my amendment to clarify the family violence option.

The conference report before us today in the result of a bipartisan effort that focused on the priorities important to American families; education, a safe work place, biomedical research and discovery, child care, Headstart, and low-income energy assistance. I was proud to work with my colleagues in producing this conference report. I want to thank Chairman SPECTER and Senator HARKIN for their willingness to work with all of us in negotiating a final bill with the other body. I also want to thank both of them for including many of my priorities in this final legislation.

I am pleased that we were able to incorporate our commitment to the Older Americans Act programs, breast and cervical cancer research, heart disease prevention, literacy, child care, Headstart, and maintain a strong Federal role in education. I know that in a balanced budget framework meeting these priorities was a difficult task and I am grateful for the leadership shown by Senators SPECTER and HARKIN.

While I worked to ensure the enactment of important increases in our investments in our future, I was disappointed that this final conference report does not include my amendment to protect victims of domestic violence and abuse from the harsh punitive requirements called for in welfare reform. Despite a 98 to 1 vote in the Senate and a 274 to 148 House vote, the conference committee from the other body, refused to help victims of family violence from continued abuse. This is a big loss that will come back and haunt us as the States begin full implementation of their welfare reform plans.

The Republicans in the other body seemed more concerned about grossly incorrect statements made by the
chairman of the House Ways and Means Committee and the chairman of the Subcommittee on Human Resources. It was interesting to see that the chairman of the Human Resources Subcommittee felt it necessary to attend the final conference meeting to ensure that there was no further effort to give States the flexibility that they need to truly help those victims of domestic violence.

In a letter to the conference, the chairman of the House Ways and Means Committee stated that the way to break the cycle of violence was to improve the self esteem of moms; this could only be accomplished through work. This statement in itself explains the difficulty I have had in getting this amendment enacted into law. There appear to be some Members of Congress who firmly believe that domestic violence is the fault of the woman.

I will ask that this letter be printed in the RECORD so that the American public can see how some Members of Congress view family violence and abuse.

While I am disappointed in the lack of consensus on my amendment, I am pleased to report that as a result of the courage shown by the Senate and the public debate conducted on my amendment, the chairman of the Human Resources Subcommittee in the other body has pledged his support for hearings on this important initiative. I am also inserting a copy of his letter into the RECORD. I intend to hold him to this commitment and am hopeful that hearings will be held early in 1998. Depending upon the status of these hearings, I intend on maintaining my strategy of offering this amendment to each and every appropriate legislative vehicle.

I will not give up until this amendment is adopted. The stakes are simply too high. The lives of too many women and children are at stake.

I ask unanimous consent that the letter to which I referred be printed in the RECORD.

There being no objection, the letters were ordered to be printed in the RECORD, as follows:

COMMITTEE ON WAYS AND MEANS,

HON. JOHN EDWARD PORTER,
Chairman, Subcommittee on Labor, Health and Human Services, and Education, Washington, D.C.

DEAR JOHN: We want to draw your attention to a provision added to the Labor, HHS, and Education Appropriations bill by Senator Bennett and several others offering a floor amendment concerning domestic violence that received nearly unanimous support. Unfortunately, this amendment does not, as claimed "clarify" a provision of last year's historic welfare reform bill but indeed would have the effect of gutting the reform.

As nearly as we can tell, every Member of Congress and virtually every American citizen abhors domestic violence. Every level of government already has strong laws, including criminal laws, designed to deal with the perpetrators of domestic violence. Moreover, in the last decade or so, the nation has made significant progress both in increasing awareness of this serious problem and inventing both civic and governmental responses to the problem.

But fighting domestic violence by adopting a national policy of exempting welfare mothers, who may have been abused, from the work requirement of welfare reform is not a wise policy. First, we cannot understand how keeping mothers dependent on welfare can help them achieve independence from their abusive partners. There may be some exceptions to the rule, but in the vast majority of cases women who can support themselves and their children have a much better chance of breaking an abusive relationship. In recent years, Congress has enacted generous non-welfare benefits including tax credits, expanded health coverage, and more day care, all of which are designed to help women with children become self-supporting. The domestic violence trap can only be broken when mothers improve their self-esteem through work. Thus, exempting these mothers from the work requirements and time limits seems to be precisely the wrong thing to do.

Second, States are required to exempt 75 percent of their caseload from the work requirement in the first year. Even when the work requirement is fully implemented in 2002, States are required to exempt half of their caseload. If in some special circumstances a mother involved in an abusive relationship would be helped by being temporarily exempted from the work requirement, States have plenty of room under existing law to provide the exemption. Similarly, the 5-year limitation on benefits is drafted so that States can exempt 10 percent of their caseload from the requirement.

Thus, under current law, States already enjoy a great deal of flexibility that can be used to address the situation of mothers. To allow States to ignore all cases in which abuse is involved is to invite them to destroy both the work requirement and the time limit. We have seen numerous claims that the original welfare reform bill intended to allow States to exempt these cases without counting them against the ceiling on work and time limit exemptions. As the authors of the original bill and the bill finally enacted by Congress and signed by the President, we want to clear up this myth. In every instance when dealing with the welfare reform law’s time limits and work requirements, current law already exempts 70 percent of the caseload from work requirements and 20 percent from the 5-year time limit. States already have the discretion to include any or all victims of domestic violence under these exemptions.

I ask unanimous consent that the letters to which I referred be printed in the RECORD.

E. CLAY SHAW, JR.,
Chairman, Committee on Ways and Means.
begin planning efforts for Nation’s celebration of the millennium which was adopted by the Senate during consideration of the Labor-HHS appropriations bill. These funds were requested by the Department of Education and were to be offset within the Department. However, it was determined that this language was deleted without prejudice during conference.

Mr. SPECTER. That is correct. However, $1 million in funding was included in the Department of Education’s programs budget to be utilized for national millennium activities.

Mr. WARNER. Then it would be correct to say that while the Warner-Kennedy language was deleted in conference, $1 million in funds will be available for activities associated with the millennium through the Department of Education’s program administration budget?

Mr. SPECTER. That is correct.

Mr. WARNER. Mr. President, I thank the Chairman for his clarification of this matter.

Mr. LAUTENBERG. Mr. President, I want to take this opportunity to highlight language in the Senate’s committee report for the fiscal year 1998 Labor-HHS bill under the National Institute of Health’s [NIH] National Institute of Allergy and Infectious Diseases [NIAID]. This language notes the significant research on emerging infectious diseases being conducted at the Public Health Research Institute [PHRI]. I would like to clarify that PHRI is a component of a scientific research and collaborative venture in New Jersey known as the International Center for Public Health, located at University Heights Science Park in Newark. Furthermore, I would like to clarify that the intent of the Senate’s report language is to encourage NIAID to give appropriate consideration to proposals received from the International Center for Public Health, one component of which is PHRI.

I would like to ask my colleagues Senators SPECTER and HARKIN if they agree with this interpretation of the intent of the Senate language? Furthermore, I would like to ask my colleagues if they agree that the International Center for Public Health’s efforts to create a world class research and treatment complex to address infectious diseases are consistent with the committee’s objectives for the Department of Health and Human Services, specifically the NIH’s NIAID?

Mr. SPECTER. I am aware of this language and agree with this interpretation. I appreciate my colleague’s leadership role in working with this important International Center, and I hope the NIH will give every appropriate consideration to the Center’s proposals.

Mr. HARKIN. I too, appreciate the leadership of my colleague from New Jersey on this issue, and concur with the Chairman that the NIH should give appropriate consideration to proposals from the International Center for Public Health.

Mr. DODD. Mr. President, I rise today to express my strong support for federal provisions of the fiscal year 1998 Labor, Health and Human Services and Education appropriation bills.

This bill is the product of a long, often difficult, process and, like many of our legislative efforts, it is in no way perfect. However, I am particularly pleased with the $3.3 billion in increased funding included in this bill.

With this legislation, students, parents and schools across the country will see broad increases in Federal spending in key areas. Funding for education technology will double. Special education funding will increase by $800 million to a historic high of nearly $5 billion. The title I program, which provides disadvantaged students with remedial tutoring in math and science, will receive $7.4 billion. This bill also provides for the continued development of optional national tests in fourth grade reading and eighth grade math. While there was a great deal of negotiation, discussion, and compromise on this last issue, I am pleased that the final legislation does not set up any roadblocks that will impede the full implementation of this important accountability initiative in schools across the country.

This bill also includes new funding for young children. Head Start funding will increase by $300 million, putting it on the path to serving 1,000,000 3- and 4-year-olds by the year 2000. The Child Care and Development Block Grant will also grow by $50 million to reach $1 billion and provide working families with additional assistance in meeting their child care needs.

On the other end of education funding, college students and their parents will receive substantial new assistance through this bill. First and most importantly, the Pell Grant program will receive an increase of $1.5 billion. These funds will increase the Pell grant maximum to $3,000—the highest level in history—and will expand the Pell grant program to assist an additional 210,000 students.

This last step is particularly crucial in my view. Earlier this year, I introduced legislation to better assist students by modifying the treatment of dependent student income to ensure that need is not penalized for working. This appropriations bill includes this initiative and consequently will reach thousands of new students who work. This appropriations bill does not fully accomplish the goals set by my legislation, but it takes the first vital steps, which we can hopefully build upon during next year’s reauthorization of the Higher Education Act.

This bill also includes legislation approved by the Senate Human Resources Committee last month to assist students in better managing their Federal student loans. This bill, the Emergency Student Loan Consolidation Act, responds to the recent shutdown of the Federal direct loan consolidation programs by providing all student borrowers with the option of consolidating their student loans into the guaranteed loan program. There had been some concern that this bill, which passed the Senate, did not have an appropriate offset; however, additional clarifying language is included today which will allow the administration to manage this offset appropriately. We also include another education provision which ensures that families who receive a HOPE Scholarship will not be penalized for this scholarship in the determination of families’ need for Federal student aid. It is very important to America’s families and college students that these two initiatives pass this year and I am pleased that their inclusion in this bill today will make that possible.

Thus far, Mr. President, I have focused on what is in this bill in terms of increased Federal funding for education. However, it is my understanding that one education provision adopted by the Senate was dropped in this final bill—the Gorton amendment. This very destructive amendment, which I have strenuously opposed since it was first introduced, would have eliminated Federal funding for school safety, character education, vocational rehabilitation services, Indian education, teacher training and education technology. The conferees recognized that this policy was not fully considered by the Senate, and I as the appropriate committees, and took us in the wrong direction on education policy.

For all that is good in this bill, it is clearly the product of considerable compromise and is not the bill I would have written. I am particularly disturbed by the inclusion of language expanding the reach of the Hyde amendment which will further limit the rights of Federal employees in this important, personal area. However, on the whole, I believe this bill for the families and children of America and will join my colleagues in supporting its passage.

Mr. President, I yield the floor and suggest the absence of a quorum.

Mr. DOMENICI. I yield myself the remainder of the time that Senator SPECTER has.

The PRESIDENT pro tempore. The PRESIDING OFFICER. The clerk will call the roll.

The PRESIDING OFFICER. The clerk proceeded to call the roll.

Mr. DOMENICI. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

Mr. DOMENICI. Parliamentary inquiry. Does Senator SPECTER have time?

The PRESIDING OFFICER. Senator SPECTER has 4 minutes remaining.

Mr. DOMENICI. What time are we going to vote under the order?

The PRESIDING OFFICER. At 2:35.

Mr. DOMENICI. I yield myself the remaining time that Senator SPECTER has.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOMENICI. Parliamentary inquiry. Does Senator SPECTER have time?
Mr. DOMENICI. I wish to applaud the subcommittee chairman, Senator SPECTER, and other members of the Appropriations subcommittee for receiving a consensus on this bill, and at the same time adhering to the important provisions of the bipartisan budget agreement.

First, let me say this bill has a very exceptional provision in it which was not part of the budget agreement but, rather, was in the Republican budget resolution, and that was to add $5 billion for special education for the next 5 years that was for educating children with disabilities. The appropriations bill includes an additional $775 million for this program, the biggest increase in the history of the program. This is the program that many States were critical of our Government for because we started it and committed a share of the payment and we never lived up to our commitment in the shared expenses of the program but insisted that our rules and regulations be followed by the States.

Now we are beginning to catch up. Senator JUDD GREGG was the leader of this from the State of New Hampshire, and certainly he will take a great deal of pride as this bill works its way to the President for signature—$5 billion over the next 5 years for educating children with disabilities.

Now, Mr. President, this bill has a lot of different provisions in it for different parts of the U.S. Government, but the education funding for the United States is almost all found in this bill. While we are not a big contributor nationally to education—that is, the National Government—there are some programs that are noteworthy that we agreed in our 22-page agreement, the historic agreement of the President and the Congress, to give high priority to, and I might say on all of these on education, with our bipartisan agreement, this committee lived up to those and funded them in every single instance, even though it meant much of their allocation of resources was being predetermined by this previous agreement.

Let me give a few examples. Regarding Head Start, the budget agreement called for an additional $2.75 billion over the next 5 years; the appropriations bill provides an additional $274 million for this program. For both these programs I have just discussed, the bill provides more funding than the President’s original 1998 budget request.

Now, looking at Pell grants, which many think are very helpful in getting our young people through college—another very important bipartisan effort—the budget agreement called for an additional $8.6 billion over the next 5 years and to raise the maximum Pell grant to students from $2,700 to $3,000. True to the other measures that I have discussed, the appropriations bill provides an additional $1.4 billion for Pell grants and increased maximum grant awards from $2,700 to $3,000.

Finally, in the area of bilingual and immigrant education, particularly difficult for our States, the budget agreement called for an additional $8.6 billion over the next 5 years, and the appropriations bill provided $92 million of that increase in this bill.

Now, I realize many constraints were on this committee, and I want to again offer my words of thanks and congratulations for their fine work and especially for their serious effort to uphold the bipartisan budget agreement. I believe we can all be proud of these particular increases which have such broad bipartisan support. From the standpoint of the Republicans who were part of the bipartisan agreement with the President, I think today on education we are seeing some very positive results from that effort.

Mr. President, I have changes to the budget resolution aggregates and Appropriations Committee allocation which are in order, and I ask unanimous consent they be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD as follows:

SUBMITTING CHANGES TO THE BUDGET RESOLUTION AGGREGATES AND APPROPRIATIONS COMMITTEE ALLOCATION

Mr. DOMENICI. Mr. President, section 314(b)(2) of the Congressional Budget Act, as amended, requires the chairman of the Senate Budget Committee to adjust the appropriate budgetary aggregates and the allocation for the Appropriations Committee to reflect additional new budget authority and outlays for continuing disability reviews subject to the limitations in section 251(b)(2)(C) of the Balanced Budget and Emergency Deficit Control Act.

I hereby submit revisions to the budget authority, outlays, and deficit aggregates for fiscal year 1998 contained in sec. 101 of House Concurrent Resolution S4 in the following amounts:

<table>
<thead>
<tr>
<th>Deficit</th>
<th>Budget Authority</th>
<th>Outlays</th>
</tr>
</thead>
<tbody>
<tr>
<td>173,462,000,000</td>
<td>1,390,913,000,000</td>
<td>1,372,462,000,000</td>
</tr>
<tr>
<td>43,000,000</td>
<td>43,000,000</td>
<td>43,000,000</td>
</tr>
<tr>
<td>173,905,000,000</td>
<td>1,390,918,000,000</td>
<td>1,372,505,000,000</td>
</tr>
</tbody>
</table>

I further announce that, if present and voting, the Senator from Missouri [Mr. ASHcroft] would vote ‘aye.’

I further announce that, if present and voting, the Senator from Minnesota [Mr. WELLMAN], is unnecessarily absent.

I further announce that, if present and voting, the Senator from Minnesota [Mr. WELLMAN], would vote ‘aye.’

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 91, Nays 4, as follows:

establish a public board. It provides new accountability on the legislative side. It provides a basis to evaluate complexity, and provide incentives to move to electronic filing.

Almost none of the things that I have mentioned, once people look at the legislation, are regarded as controversial today. In fact, when I point it out to people at home, they say, "My gosh, I am surprised they aren't already law."

We have heard and continue to hear complaints from our citizens about the way the IRS is run. It is time for us to give the Commissioner of the IRS the authority to manage the agency and do the things that the American people are asking us to do.

As long as we are in session, I hope again that Members on the other side will look at this bill. And I will say again: I hope they will resist. I understand the Speaker is going to still try, in spite of the negative publicity, to get somewhere between $30 and $80 million to have the IRS conduct a 14-question poll about how the IRS is being operated. Our restructuring commission depend, 000$2 million to have the IRS conduct a 14-question poll. That is considered a high priority.

I believe that if it was discovered that was in the bill, that or the IRS was doing this own their own, there would be 12 questions in this chamber against it—14 questions, $30 to $80 million. It is going to be mailed to every—

Mr. GLENN. Mr. President, could we have order in the Senate? Everybody is talking all over the place. I can't hear.

The PRESIDING OFFICER. Mr. KERREY. Mr. President, I ask unanimous consent that the Senate proceed immediately H.R. 2676, the IRS Restructuring Act of 1997, just received from the House 2 days ago, that the bill be read a third time and passed, and the motion to reconsider be laid on the table.

Mr. ROTH. Mr. President, I object. The PRESIDING OFFICER. Objection is heard.

Mr. FORD. Mr. President, may we have order in the Senate?

The PRESIDING OFFICER. Mr. KERREY. Mr. President, this piece of legislation passed the House 426 to 4.

Mr. FORD. Mr. President, the Senate is still not in order.

The PRESIDING OFFICER. The Senator is correct. The Senate is not in order.

Mr. KERREY. Mr. President, I thank the Chair.

This piece of legislation will do what I think everybody in the country wants us to do; that is, to change the law, and give the newly confirmed Commissioner of the IRS the authority to run the agency.

There are lots of other changes in this piece of legislation. It passed 426 to 4 in the House. It has the support of the administration.

It should be taken up as long as we are in session. It was passed, I believe, almost unanimously once Members started to look at what is in the bill.

It would enable the Commissioner to run the IRS, put together his team, to hire and fire, to provide positive incentives to reimburse employees, and...
the foreign ops and the State-Justice-Commerce bills.

It is the hope of the leadership that we could clear this bill for passage without a rollcall vote. Senator Daschle and I will be working on both sides to make sure our members understand what is happening here, what is involved, and it may take some time for us to determine that. That could be as much as an hour or so. If we could get it cleared, then that would be the way we would intend to proceed, subject to the appropriations bills. Senators will be notified when the next vote would occur, if one should be necessary on this.

Now, Senator Daschle and I were just talking. We think we should pass this by voice vote, and we will encourage Senators to allow this to happen. But if we can't get it cleared, one option we would have would be to have this vote occur, and I would need to consult with Chairman Stevens further, but one option if we can't get it cleared in a reasonable period of time, would be to perhaps have a vote on that issue tomorrow around 1:30 or so. At this point we just can't tell you with absolute certainty how we would want to proceed on that bill. Again, we will pursue the voice vote, and if we can't get that done, then we will notify you when the actual vote would occur.

Would the Senator like to respond to that? I have other issues.

Mr. DASCHLE. I concur completely with what the majority leader has just indicated. I think it is our intent to see if we might be able to proceed with an expectation that any additional rollcall votes would occur tomorrow. We can't give that assurance completely yet today. I want to work with the majority leader. If additional rollcalls are required, we will give plenty of notice to all Senators. But our hope is that we can accommodate Senators who have schedules.

Mr. LOTT. One option, if the Senator will yield back so that I can comment, Senator Stevens even suggested we might want to have another vote later on this afternoon or later on at 5, 6 or 7 o'clock. But we will try to avoid that, and when we can give you some further confirmation on when the next recorded vote will occur, we will let you know—hopefully within an hour.

Now, I might also note that I am being told that an agreement has been reached on the FDA reform conference report, that papers are being done now, and hopefully Senator Jeffords is working with all the interested parties on that. Within an hour or so, we hope we can give you those papers ready and get that done on a voice vote.

The Senator is now saying we may have to have a recorded vote. If we do, then we might have to look at doing that later on or maybe even tomorrow. So we will have to consult on that.

One other one we may try to do is adoption and foster care. We understand perhaps there has been agreement on that legislation in a bipartisan way. We are trying to clear that.

So that answers part of Senator Dorgan's inquiry. We have a couple of issues that we may have ready to go here pretty quickly. That is why we would hope to discuss with the Senator and others moving one or the other of these bills or the conference report.

Ms. MOSELEY-BRAUN. Will the majority leader yield for a question?

Mr. LOTT. Other possible items for consideration are the Eximbank conference report, and Senator Daschle and I are working on the Executive Calendar nominations.

I congratulate everybody for their cooperation on the Labor-HHS-Education appropriations bill that just passed. The conference report that we have been working on for weeks and weeks and weeks passed 91 to 4. It just shows what can happen when we finally get around to taking a stand and getting a vote.

I would be glad to yield to the Senator from Illinois.

Ms. MOSELEY-BRAUN. I thank the Senator.

With regard to the majority leader's request for rolling all the remaining appropriations bills into one vehicle, as the majority leader may be aware, I had not wanted to object, but I reserve my right to object with regard to the immigration issue pertaining to Haitians. The D.C. appropriations bill provides for special status or relief for Guatemalans, Nicaraguans, Salvadorans and Cubans and leaves out the Haitians.

Certainly, I cannot imagine that is a result we would want to see, and I urge the majority leader and other negotiators to see that that real injustice is corrected as they discuss the final package for that legislation.

Again, I, just like everyone else in this Chamber, would love to have this go out on a unanimous rollcall vote or unanimous voice vote, but at the same time the gravity of the injustice in that situation is just so profound I would have to lodge an objection if that does not get done.

Mr. LOTT. I appreciate the Senator's comments. She has been discussing it with Senators on both sides of the aisle. I just saw her talking with the chairman of the Appropriations Committee who said she is going to the address this issue in a way that she would be comfortable with, and we will continue to work with her on that.

Does the minority leader wish to say anything more?

Mr. LOTT. Mr. President, it would be my intent at this time to put in a request for morning business until the hour of 4 p.m. so that we can talk about these various issues and see where we are.

Mr. DASCHLE. Mr. President, if I could just suggest, the majority leader has noted that Senator Kerry would like to speak. If a unanimous consent request is propounded for morning business, I would like it—I do know Senator Dorgan has noted his desire to offer amendments, but if morning business were to occur, I would suggest perhaps it occur after Senator Kerry's remarks.

MORNING BUSINESS

Mr. LOTT. I believe we already had an agreement by unanimous consent we would go back to Senator Kerry, followed by Senator Roth. Others may want to comment, but I would like to ask now there be a period of morning business until the hour of 4 o'clock and Senators be limited to speak for 10 minutes each.

Mr. DORGAN. Reserving the right to object, Mr. President, let me again inquire as to when the majority leader expects we might be able to entertain some amendments that we might have finally considered. I know that I was able to offer an amendment. I also know that Senator Inhofe offered an amendment to the fast track bill. He has other amendments and I do not know. I know I have amendments and Senator Hollings and some others have amendments they want to have considered. I have not objected to moving other business that is important to the Senate. I think it is important to get this business done. I have not objected to that. But to put us into morning business is simply a suggestion that we don't want to go to regular order, and the regular order is fast track. We have amendments, one pending, others wanting to be offered.

So the majority leader, I assume, brought fast track to the floor of the Senate because he wanted us to move and proceed to consider it. When he did that, I had hoped we would be able to offer amendments. If we keep allowing the majority leader simply to put us into morning business with intervals of other business he decides he wants to pursue, we will never get to dispose of amendments on fast track. I don't think that is an appropriate way to deal with fast track.

Mr. LOTT. Mr. President, if I could respond to the Senator, I would like him to allow us to get this time now and give us an opportunity to talk with him and others. I should note that when we go back, of course, to this issue, I believe the pending amendment is the Inhofe amendment. I presume he would be other amendments in relation to that issue, maybe a second-degree amendment. I think maybe the Senator would want to talk to his leadership and give me a chance to talk to Senator Inhofe as to how we would proceed on that, and I would use this next 50 minutes to do that.

Mr. DORGAN. Well, I would say the regular order would be my amendment, and I won't object to this request, but I will at some point in the future if the Senator wants to amend this, because what this will mean is the majority leader will bring in the body of work he wants to have done here.
MR. LOTT. Is that the commission amendment?

MR. DORGAN. Yes.

MR. LOTT. I believe the Senator is right, that is the pending business, and perhaps we could do that.

MR. LOTT. Perhaps the majority leader would accept that. I don’t expect that will be very controversial. At least we could accept one amendment and then proceed to have another amendment laid down. I will not object at this moment, but I say that, if we continue to do this the next time we want to go to morning business I am suggesting there be an objection and we go to regular order and deal with the fast-track bill.

MR. LOTT. Maybe we can have morning business until we do it all in one final voice vote, everything left.

No. Mr. President, if the Senator would not object at this point, we could have the pending debate, and we will talk with the Senator during the interim.

MR. DORGAN. I will not object, and to the extent that all of the things I mentioned are involved in the voice vote the Senator will propound later, I would be happy to accommodate that.

MR. LOTT. I yield the right to object, Mr. President, what is the unanimous-consent request before the Chair?

MR. NICKLES. Mr. President, could I have order?

MR. LOTT. I don’t know if I have the floor, but I yield the floor, Mr. President.

The PRESIDING OFFICER. The order of business is that the Senator from Nebraska be recognized, followed by the Senator from Delaware. Then we move to a period of morning business until 4 o’clock.

MR. FORD. I have no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

IRS RESTRUCTURING ACT OF 1997

MR. REID. Will the Senator from Nebraska yield for a question?

MR. KERREY. Sure.

MR. REID. Will the Senator restate the unanimous-consent request he had that was objected to?

MR. KERREY. I asked the Senate to grant unanimous consent to proceed immediately to H.R. 2676, which is the IRS Restructuring Act of 1997 that was received from the House on Wednesday, that the bill be read a third time and passed and the motion to reconsider be laid on the table.

MR. REID. I ask my friend, is that the same bill that passed the House of Representatives by a vote of 424 to 4? Mr. KERREY. That is correct. Actually, I believe it is 426 to 4.

MR. REID. Yes. 426 to 4. I ask my friend from Nebraska, is that the bill that created a new citizens oversight board?

MR. KERREY. That is correct. It creates a public board that would for the first time have oversight of the IRS, have the power to develop a strategic plan, and make budget recommendations to the Secretary of the Treasury.

MR. BOXER. Mr. President, the Senate is not in order.

The PRESIDING OFFICER. The Senate will be in order.

MR. REID. I ask my friend, is this the same bill that when the IRS is proven to have done something wrong, the person who is wronged can collect attorney’s fees from the Internal Revenue Service?

MR. KERREY. That is correct. A taxpayer under this legislation, under this new law, would have the power to collect attorney’s fees and to collect up to $100,000 if the IRS was held to be negligent.

MR. REID. Is it true that this also creates a toll-free number for people to register complaints against the IRS?

MR. KERREY. That is correct. It does create a toll-free number and powerful new incentives to move to electronic filing.

MR. REID. I ask my friend, is this the same bill that creates taxpayers’ advocate office?

MR. KERREY. That is correct. A new public board, in fact, would make the hiring decision and create an independent taxpayer advocate. The current advocate, as you know, is an employee of the IRS and, as a consequence, although he has done a good job, in many ways has a conflict of interest because his performance is being judged by IRS managers.

MR. REID. I also ask my friend, is it also true in tax cases that the burden of proof shifts? As I understand—and I am asking this question of my friend from Nebraska—it is my impression now that the burden of proof to prove yourself, in effect, innocent is upon the taxpayer. Is that the way the law is now?

MR. KERREY. That is correct.

MR. REID. Would this law change that?

MR. KERREY. This law would change it when it reached the tax court. In those cases where the taxpayer reached the tax court, the presumption would not be on the taxpayers to prove that they are innocent.

MR. REID. I ask my friend also, during the time that the Finance Committee held their hearing and during the time that the commission met, is it true that there was evidence which came to the IRS did have quotas for advancing people in the IRS hierarchy? And is it true that was against the law? Is it against the law.

MR. KERREY. That is true. In fact, the 3 days of hearings that the Senate Finance Committee held under the leadership of Chairman Roth clearly exposed incidents out there in violation of the law where audits are done, where collection efforts are made based on quotas, based upon goals to try to go out and get individuals, regardless of whether or not additional tax actually was being owed. In addition, I would say to my friend from Nevada, the current law allows the IRS to keep confidential and private all audit criteria.

Citizens may be surprised to know this, but if you ask the IRS today, “What are your audit criteria? On what basis do you evaluate the taxpayers of Iowa, Nebraska, of Delaware, or Vermont or Mississippi? How do you evaluate your audits? How do you decide on what basis you are going to proceed on an audit?” the IRS will say to you, “You don’t have a right to know. We won’t disclose that information.” The only available information has been obtained through a woman at the University of Syracuse through a Freedom of Information Act request for that information. If you look at audit data she has collected, you see broad variations, broad variations from State to State. In one State there will be very high percentages of audits; in another, very low percentages of audits. It conveys to taxpayers that tax burden is appropriate. Could we avoid that for at least a significant number of these people if we passed this legislation?

MR. KERREY. The answer is absolutely yes. Indeed, I said the House passed this bill 426 to 4 on Wednesday. I came to the floor and asked unanimous consent to take it up on Thursday, did so again on Friday, and did so again on Saturday. I say to those who are wondering what is the impact of this, what is the impact of delay, the Senator is exactly right. The Senator is exactly right. The Senator is exactly right. The Senator is exactly right. There are 135,000 notices every single day. Every single day, 135,000 notices are sent to the taxpayers of the United States of America. What do those notices say? They say: You owe us more money.

Talk to somebody—I urge my colleagues, particularly on the other side of the aisle—talk to taxpayers who get one of these notices. Ask them how much power they have. Ask them how they feel when they receive one of these letters. Ask them what kind of access they have to the IRS under the current law. And they will tell you it’s a terrifying moment when you receive that letter. You either pay it or you know you are going to a court and a lot of money and an awful lot of time to dispute the dollar amount that the IRS says that you owe.

In addition, every single day, 250,000 Americans call the IRS. A quarter of them can’t even get through. And of the ones that get through, 25 percent get the wrong answer. It is one of the reasons, when we did our poll—
Mr. LEAHY. May we have order in the Senate?

The PRESIDENT. The Senate will be in order.

Mr. KERREY. Unlike this remarkable piece of legislation—do it next year or do it now, on behalf of the taxpayers—I will guarantee if the IRS was spending $100 million which could go to taxpayer service, which could go to lots of other things, to do a 14-question poll mailed out to 80 million taxpayers, made available in every single post office, mailed out to every single provider, and then back, the taxpayer does, to the General Accounting Office to be compiled—you are not going to have 250,000 phone calls every single day. You are going to have another 100,000 phone calls from taxpayers going to say, "What the heck does this mean?" They are going to call their service centers.

So, while we are all sitting here saying we want the IRS to operate better, we have under consideration a poll that is making it more difficult for the IRS to do their job because you are going to have another 100,000 phone calls or so coming into the IRS office by confused taxpayers wondering what this is for. All the things that you have no authority to do.

So, on behalf of the taxpayers who get notices and will be calling the IRS every single day between now and the next year, I hope, between now and the next days, we can pass it. We could get through this next filing season with no problems and life is going to be good for you, but just have a little glitch between now and then and you are going to find out people are going to call you up in a hurry and blame you for all the things that you have no authority to do.

So I hope my colleagues on the other side will look at this legislation. The chairman has indicated he has objections, he would like to add some additional taxes to the things he wants to add I support. I would like to get it done. He wants to hold hearings next year and do it. But these changes, for gosh sakes—if you look at the law as passed by the House, right down here at the desk, scratch your head and say, "For God’s sake, that’s common sense. We ought to already allow it.

Between the time that this piece of legislation was passed by the House—and it is right down here at desk. All we have to do is ask unanimous consent to take this up. All the Republican House members in the Senate would object to changing the law to allow the bill to be take up. There have been 270,000 citizens between the time it got to that desk and right now—270,000 citizens got notices in the mail that they owe taxes. And another half a million, called the IRS, trying to get a question answered.

Mr. REID. I ask another question to my friend. Isn’t it true that the employees of the Internal Revenue Service, these people who work very hard every day—not the bosses, but the employees of the Internal Revenue Service—favor this legislation?

Mr. KERREY. Yes. In fact, not only does the National Federation of Independent Business support this legislation, not only do most of the providers organizations that help taxpayers fill out their forms, but the head of the National Treasury Employees Union supports this legislation and has told you that he wants to get it passed in a hurry.

Former Secretary of Treasury Baker and Brady and current Secretary of Treasury Rubin support this legislation. The previous IRS Commissioner, Peggy Richardson, supports this legislation, as does previous Commissioner Fred Goldberg, who is a member of the Commission.

You are absolutely right. The employees themselves are saying give the Commissioner the authority. When Mr. Rossotti came before the Finance Committee, everybody was very impressed that the President would send up an individual who had experience in the private sector, and said, “I am going to manage this agency.”

I said to him, “You know, Mr. Rossotti, you are going to get over there and you will have a lot of responsibility but you don’t have any authority. You can’t in the senior management, you can’t provide the private-sector incentives you are describing out there. You have six legislative committees, three in the House and three in the Senate, with jurisdiction over you. You get through this next filing season with no problems and life is going to be good for you, but just have a little glitch between now and then and you are going to find out people are going to call you up in a hurry and blame you for all the things that you have no authority to do.”

So I hope my colleagues on the other side will look at this legislation. The chairman has indicated he has objections, he would like to add some additional things he wants to add I support. I would like to get it done. He wants to hold hearings next year and do it. But these changes, for gosh sakes—if you look at the law as passed by the House, right down here at the desk, scratch your head and say, “For God’s sake, that’s common sense. We ought to already allow it.

So, on behalf of the taxpayers who get notices and will be calling the IRS every single day between now and the next year, I hope, between now and the next days, we can pass it. We could conference this thing in record time.

Mr. REID. It is my understanding that everyone on this side of the aisle, all Democrats, support this legislation moving forward immediately; is that true?

Mr. KERREY. Not only is that true but my guess is, if it were to be taken up. If no objection were placed against this unanimous-consent request, my guess is on final passage you would get 100 votes.

Mr. REID. So it’s fair to say that virtually everybody in this Chamber, Democrats and Republicans, support this legislation?

Mr. KERREY. I think it is fair to say that. There are some who will say I want the board to have more authority, a few odds and ends done, but I don’t think anybody in the Chamber would object to changing the law to give the Commissioner the authority to manage this agency or do all the other things the distinguished Senator from Nevada has identified on behalf of taxpayers, like providing a public statement of the tax audits—I don’t think anybody could object to doing that. And anybody looking at it, I think, would say, “Gee, that’s not good to make things worse. That’s going to make things an awful lot better for those taxpayers getting notices and those taxpayers calling the IRS.”

Mr. REID. I finally say to my friend from Nebraska that this legislation is good legislation. I am happy to be an original cosponsor of it. It is something the American people want and this Senate should deliver it. The House has already passed this legislation. Would the Senator agree?

Mr. KERREY. I completely agree with the distinguished Senator from Nevada on that point. Again, as long as we are in session, I intend to continue to come to the floor and ask unanimous consent to take this legislation up. Not because I think it is controversial, but because I think it is not controversial. We are hammering out in back-rooms all over this Capitol all kinds of deals to try to get fast track, to try to get things that are extremely controversial. This one is not. It has extremely broad support, a large margin of victory when it passed—426 to 4 in the House. It is going to conference very easily. I have been down here three times. I will continue to come here and ask unanimous consent to proceed immediately to consideration of this legislation.

Mr. BUMPERS. Will the Senator yield for a couple of comments and then a question?

Mr. KERREY. I will be happy to.

Mr. BUMPERS. First of all, when I was Governor of my State, one of the first orders I issued was that any employee of the Arkansas Revenue Department would be summarily fired if it was found that that employee, without provocation, was rude to a taxpayer. And within 3 weeks we fired one employee, and it had an unbelievable impact on the conduct of everybody else. We had very little trouble out of the revenue department during my 4 years as Governor.

No. 2, insofar as the Speaker’s proposal to spend a minimum of $30 million doing a survey, sending out a questionnaire to the American people asking how do you feel about your taxes and how do you feel about the IRS. I can save him that $30 million. I already know the answer. Every Member of this body knows the answer to that question. People think they are overtaxed and they think the IRS is filled with a bunch of arrogant bureaucrats whose whole purpose in life is to make people miserable.

Finally, my question concerns this matter of attorney fees. Could you tell us what the criteria is in tax court? Let me walk through a case.

Let’s say the IRS sends you a notice and says we have determined in look-see, you owe us an additional $5,000, and here is why. And you write back and say I disagree. At that point, the burden is on you to prove that you don’t owe $5,000, and under this bill the burden will remain on you to prove that you don’t owe $5,000.

If the IRS feels that they have won the argument, that you in fact do owe
$5,000, and they refuse to relent, the normal method for you to challenge that is for you to pay the $5,000 and then go to tax court to recover it. Is that a fair statement?

Mr. KERREY. That is correct.

Mr. BUMPERS. My question is, if you do recover the $5,000 in tax court, are you automatically entitled to attorney’s fees under this bill?

Mr. KERREY. You would be entitled to attorney’s fees under this bill.

Mr. BUMPERS. Let me ask you this question. Let’s say we have a criminal case where the IRS charges you with tax evasion, that is, deliberately defrauding the Federal Government by evading or cheating on your income tax return. Then the U.S. attorney’s office will indict you and haul you into court for a criminal trial.

At that point the IRS, of course, does have to sustain the burden, is that not correct?

Mr. KERREY. That is correct.

Mr. BUMPERS. Now, assuming that the IRS does not get a conviction in that case, then is the taxpayer entitled to attorney fees?

Mr. KERREY. I actually do not have an answer to your question, as to whether or not that is the case.

Mr. BUMPERS. I don’t know the answer either. I think under existing law, and certainly under the Hyde amendment, you would be entitled to attorney fees if you were—I forget the exact language, something to the effect that if you have been frivolously or vexatiously charged and tried, you are entitled to attorney fees. But there is an existing statute which provides attorney fees if the court decides that this case should never have been brought, and several other criteria.

But I just wondered if this bill changed any of that regarding criminal trials.

Mr. KERREY. I don’t have an answer, specifically, to your question. I can say that one of the things that we have done with this legislation is to make the taxpayer advocate more independent. Very often that is what is missing. Let’s say that you are one of the 135,000, or you are one of the 270,000 since we have asked for this bill to be taken up, who get a notice and you disagree with that notice. There is a dispute resolution officer who works for the Treasury, and you can call up. You can say, “Look, I have a dispute here. I think it is unfair. I would like to come in and talk to you.” There is a mechanism under the Taxpayer Bill of Rights II to do that. And what we do is make that taxpayer advocate even more independent.

Very often what happens is the law requires the revenue agent to collect, even though the revenue agents say this doesn’t make any sense. There is no mechanism that enables the revenue agent to redeem. What we do is by giving that taxpayer advocate more independence and more power and more authority to overrule, I think we are going to reduce substantially the number of cases where a person looks at it and says, “My gosh, why would you spend a quarter of a million dollars to collect 100 bucks, or something like that?” These are cases that come all the time into our offices, and under the current law we are simply not able to do anything.

Mr. BUMPERS. Senator, if I could just make one last comment. This is not in defense of the IRS, just simply an observation. The truth of the matter is that we have not let the taxes they have to pay. That is a given. My salary is paid by the taxpayers, but every April 15 I get a little vexed, just like every other taxpayer does, about what I have to pay. But having said that, I think it would be remarre if we didn’t point out that we lose $100 billion a year in taxes to the Federal Treasury by people who defraud the system, the underground economy.

Consider the fact that 1997, this year, the people of this country will pay about $650 billion in personal income tax.

The corporate tax, as you know, yields much less than that. But just take the personal income tax. If we are losing $650 billion to people who absolutely refuse to live by the law—and that is who IRS ought to be after, of course—that is one of the reasons the rest of us have to pay more, because a lot of people don’t.

I just wanted to make that point and to say I think the IRS generally tries its best to collect the appropriate amount of taxes. The thing that gets all of us in more trouble than anything else is when honest, hard-working people are pilloried by a bureaucratic agent or auditor from the IRS. The agent may be right. It is usually not so much a question of whether the agent is right or not; it is their conduct that is offensive to people, and that is one of the reasons their public relations is so poor.

Mr. KERREY. I appreciate both the Senators’ questions and statements. As a former Governor, I have commented right from the beginning that he could fire anybody who was a discourteous employee.

Let me say again, for the record, we have a remarkable system of tax collection in the United States that is largely voluntary. One of the disturbing trends that has over the years. That is what has been missing over the years. By the way, I have only been here 8 years, but I have never heard a Commissioner get up during the middle of a tax debate and say, “Yes, Mr. President, that’s a great tax idea you have;” I can’t even hire my senior people. I can’t manage this agency.” The law doesn’t give him that authority. It is not a corporation, it is a creature of law, and we have written this law so as to confine and make it difficult for the Commissioner to do the job.

You would think the question the Senator from Nevada asked earlier, if he is going to have this new authority to hire and fire, certainly the employer would be against that. Absolutely not. The Treasury Employees Union supports this legislation. Why? They know the Commissioner can’t manage the agency. They know the new provisions not only to manage the agency, but to provide accountability and oversight, both with a new public board and with a restructured legislative oversight process, is necessary, is needed, in order to get shared consensus on what the strategic plan is going to be. That is the plan. The President, but the law doesn’t give me that authority. I can’t manage this agency, and says, “I just heard Senator BUMPERS on the floor say something really pretty smart, unusual. He said that when he was Governor of Arkansas, he told his revenue commissioner that anybody who is discourteous is going to be fired. I want you to do that.”

Do you know what Mr. Rossotti would say? “That is a great idea, Mr. President, but the law doesn’t give me that authority.” I can’t even hire my senior people. I can’t manage this agency.” The law doesn’t give him that authority. It is not a corporation, it is a creature of law, and we have written this law so as to confine and make it difficult for the Commissioner to do the job.

Title I of this bill deals with management and accountability. Who could possibly object to passing a piece of legislation that would give the Commissioner of the IRS the management authority to do what you just described?

If the President of the United States calls up the Tax Commissioner, who he just appointed and we just confirmed, and says, “I just heard Senator BUMPERS on the floor say something really pretty smart, unusual. He said that when he was Governor of Arkansas, he told his revenue commissioner that anybody who is discourteous is going to be fired. I want you to do that.”

Do you know what Mr. Rossotti would say? “That is a great idea, Mr. President, but the law doesn’t give me that authority.” I can’t even hire my senior people. I can’t manage this agency.” The law doesn’t give him that authority. It is not a corporation, it is a creature of law, and we have written this law so as to confine and make it difficult for the Commissioner to do the job.

You would think the question the Senator from Nevada asked earlier, if he is going to have this new authority to hire and fire, certainly the employer would be against that. Absolutely not. The Treasury Employees Union supports this legislation. Why? They know the Commissioner can’t manage the agency. They know the new provisions not only to manage the agency, but to provide accountability and oversight, both with a new public board and with a restructured legislative oversight process, is necessary, is needed, in order to get shared consensus on what the strategic plan is going to be. That is the plan. The President, but the law doesn’t give me that authority. I can’t manage this agency, and says, “I just heard Senator BUMPERS on the floor say something really pretty smart, unusual. He said that when he was Governor of Arkansas, he told his revenue commissioner that anybody who is discourteous is going to be fired. I want you to do that.”

Do you know what Mr. Rossotti would say? “That is a great idea, Mr. President, but the law doesn’t give me that authority.” I can’t even hire my senior people. I can’t manage this agency.” The law doesn’t give him that authority. It is not a corporation, it is a creature of law, and we have written this law so as to confine and make it difficult for the Commissioner to do the job.

You would think the question the Senator from Nevada asked earlier, if he is going to have this new authority to hire and fire, certainly the employer would be against that. Absolutely not. The Treasury Employees Union supports this legislation. Why? They know the Commissioner can’t manage the agency. They know the new provisions not only to manage the agency, but to provide accountability and oversight, both with a new public board and with a restructured legislative oversight process, is necessary, is needed, in order to get shared consensus on what the strategic plan is going to be. That is the plan. The President, but the law doesn’t give me that authority. I can’t manage this agency, and says, “I just heard Senator BUMPERS on the floor say something really pretty smart, unusual. He said that when he was Governor of Arkansas, he told his revenue commissioner that anybody who is discourteous is going to be fired. I want you to do that.”
Mr. LEAHY. Mr. President, I wonder if the Senator is aware that we seem to go off on things that are not very urgent, whereas we don’t take time for things that are urgent.

For example, the nomination of Bill Lann Lee. All the members of the Judiciary Committee on this side of the aisle have had an other hearing on Bill Lann Lee, because it is obvious from the debate we had on Thursday in the committee that misstatements of facts have been used, distortion of his record have been used. We find that people supposedly opposing Bill Lann Lee, in fact, support him. We find the cases in which he was involved were misconstrued.

So I just mention this, if we want to do something worthwhile, then I hope the Judiciary Committee and the chairman will stop refusing to have another hearing and will listen to all of us who have asked for another hearing out of fairness to a man who has been much maligned.

I thank the distinguished Senator from Nebraska and yield back to him to answer the question.

Mr. KERREY. What was the question again?

Mr. President, I hope that in the next day or two, while we are deliberating in this world’s greatest deliberative body, resolving all the terrible conflicts we have on a variety of things, I hope we are able to get consideration of this legislation. I believe it will pass almost unanimously, if not unanimously, in the Senate. I believe it could be conferenced very, very quickly with the House and be on to the President.

I think all of us, once it is passed and signed by the President, will feel glad that we changed the law to give the Commissioner the kind of authority that the Commissioner is going to need to manage this rather difficult and troubled agency.

I thank, again, my very patient chairman, Mr. ROTH, for this golden opportunity to respond. I appreciate, again, his leadership in conducting 3 days of public hearings, piercing the 6103 veil to be able to see inside this agency even further than what the restructuring commission did. I yield the floor.

Several Senators addressed the Chair.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. ROTH. Mr. President, this is the third day in a row that the Senator from Nebraska, Senator KERREY, has asked for a unanimous-consent agreement to pass the House IRS restructuring bill. And for the third day in a row, I have, again, objected.

Moving this bill today by unanimous consent is the politically expedient thing to do. It is the easy thing to do, and if we approve this legislation now, we could all go home and try to convince our constituents we solved all the problems of the IRS and they wouldn’t have to worry again.

But this would not be true. This bill, while it is a good start, does not address the very egregious problems that the Senate Finance Committee exposed in our September hearings. The most significant reform in this bill is the creation of an oversight board. But, Mr. President, the board does not have the power to look into collection issues where the most help is needed for the taxpayer. It falls short on many accountability issues that were raised at our hearings, basic issues such as requiring employees to sign correspondence to taxpayers. It does not alter the power agents have to abusively slap liens and levies on taxpayers. It does not ensure taxpayers their due-process rights.

Those are only a few of the missing links. The restructuring commission and the Ways and Means Committee did good work, but what they have done is only a beginning. We need to go further.

So I have said let’s pass this now and then come back and do more next year. Well, Mr. President, we know where that will lead. If we pass this reform legislation, legislation that even Senator KERREY admits has important omissions, those who are not anxious to have the IRS will right away say we have already passed reform legislation. When we attempt to strengthen it, they will say that we need no further reform or that we must give this effort a few years to see that it works. The truth is, we will basically get only one real chance to reform the IRS, and for the taxpayer, we must get it right. I yield the floor.

Ms. MOSELEY-BRAUN addressed the Chair.

Mr. KERREY. I want to respond, and then I will get out of here.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. KERREY. Mr. President, again, I want to praise the chairman of the Finance Committee for the hearings and the chance given to this. I respectfully disagree. I don’t think we will just get one bite of the apple. I believe Majority Leader LOTT and the Speaker are committed to going further. Both of them have talked especially about the need to simplify the Tax Code. I would be surprised if either one of them would object to some of the additional things that Chairman ROTH has indicated that he wants to address.

I just say very respectfully on behalf of the taxpayers who are not going to have an agency that is managed well, that is not just a public board. That little title ROTH just changes the way that oversight occurs, both on the legislative and on the executive side. There is no question that that change is important. But I believe that the most important piece of legislation is giving the Commissioner the authority under the law to manage the agency. That is the most important thing that is missing today.

Mr. President, I think it is not a small item to say that for the first time, the American people will have an agency that will be required under the law to provide them the audit standards. Why
do you audit a certain way in Nebraska, a certain way in Iowa and a certain way in all the other States?

What is the basis of the audits?

"Today, the IRS, under the law—they don't withhold it because they are being held in another audit because they just don't want to give it to us. The law says: Do not give it. The law says: Do not provide it publicly.

It is not a small item to provide to the taxpayers public information, to give us all the things we are doing on why audits are done, and what is the standard to which audits occur. It is not a small item to shift to the taxpayer additional power and give the taxpayer advocate the kind of independence that the taxpayers themselves have asked for over and over and over.

We had 12 days of public hearings. The congressionally mandated restructuring commission that Congressman PORTMAN and I chaired, during that we heard over and over and over that the No. 1 thing that the law is regarded to power, the law in regards to oversight, the law in regards to management.

The process started clear back in 1995 when we discovered that through a GAO audit that nearly $3.5 billion of the taxpayer money had been wasted on a taxpayer modernization system. Why? Because the IRS and the Congress don't have a mechanism where they can come down and tell the IRS why the law is regarded to complexity, the law in regards to power, the law in regards to oversight, the law in regards to management.

some of the expenses associated with defending the integrity of their voluntary compliance with the Tax Code.

Mr. KERREY. That is correct. They would get their attorney fees paid up, and if there was negligence, up to $100,000. And establish assistance centers, there for the first time for taxpayers who are struggling to get questions answered.

Ms. MOSELEY-BRAUN. For those taxpayers where it might be just a mistake—their Social Security number got mixed up or the name was not right, whatever—those assistance centers would then provide them with an opportunity again to have a better relationship with the service that the IRS is supposed to provide.

Mr. KERREY. That is correct. One of the things that this law does in title II is deal with a new trend that all of us understand, which is electronic commerce. We see a lot of electronic commerce developing out there in the private sector. IRS has been struggling to get electronic filing up and online.

The significance of it is that when you file electronically, the error rate is less than 1 percent. Error is real money for the IRS. One mistake on the Government side with a tax claim, and it could end up in court for years and years and years and cost the taxpayer and the Government tremendous amounts of money. So errors are real money. In the paper world, the rate of error is 25 percent.

So we provide both incentives and resources to get to a much higher number of electronic filings which I think for taxpayers who pay to run the IRS, as well as taxpayers who are sending their money, is a tremendously important change in the law.

Ms. MOSELEY-BRAUN. Is it the Senator's impression that, along with putting some real teeth into taxpayer rights, that this legislation provides—and again, we could do more in other legislation—but this legislation puts real teeth in taxpayer rights, and that it might also have a beneficial effect in terms of the culture or the climate of the IRS?

By example, we heard in the hearings that they had quotas. They were not official quotas but unofficial quotas. That this might affect the culture in the way that the IRS viewed its mission and viewed its responsibility to taxpayers as it the Senator's impression that this legislation will help move that culture in the direction of a service that is more understanding of its obligations and responsibilities to the American people?

Mr. KERREY. No question.

The PRESIDING OFFICER. The 10 minutes have expired. The Senator from Illinois had 10 minutes, and it has expired. We are in morning business.

Ms. MOSELEY-BRAUN. I did not ask for time.

The PRESIDING OFFICER. There was a request.

Ms. MOSELEY-BRAUN. For me?

The PRESIDING OFFICER. In morning business.

Ms. MOSELEY-BRAUN. No, sir. I am in the process of questioning the Senator who has—I asked the Senator to yield for questions. I asked my last question. If he would answer it, I was not speaking in the middle of the tax business under the 10-minute rule.

Mr. KERREY. The Senator is right. You are absolutely right. The culture, though, is not going to change at the IRS until the IRS Commissioner, the management authority the manager needs to be able to run the agency with performance that is based upon something other than these quotas that have been set up. Although it has been a relatively small number of instances where we identified them, it still—relatively small—it is one too many.

Ms. MOSELEY-BRAUN. Mr. President, I stand before you today in support of Senator Bob Kerrey's request to pass this legislation before Congress begins recess.

I along with all of the Senate Democrats have signed onto a letter urging Senator Lott to bring up legislation to reform the IRS this year. I support IRS reform because I believe that there should be no further delay in beginning the process of change. I am a cosponsor of S. 1096, the IRS Restructuring and Reform Act of 1997, and believe that the Senate should act on the House-passed version of S. 1096. There are 35 Members of the Senate that are co-sponsors of this bill and of those, 14 Members are on the Senate Finance Committee.

The House of Representatives has already acted on November 5, 1997, by a vote of 425 to 4 to overwhelmingly pass H.R. 2676, the legislation that would overhaul the way the IRS operates. We should too.

It has been 40 years since Congress and the President have considered significant changes to the Internal Revenue Service. With this bill, there is a historic opportunity to overhaul the IRS and transform it into an efficient, modern, and responsive agency. The IRS interacts with more citizens than any other Government agency or private sector business in America and collects 95 percent of the revenue needed to fund the Federal Government. Congress and the President owe it to the American public to seize this opportunity and pass this legislation as soon as possible.

S. 1096 was introduced in the Senate on July 31, 1997, by Senator KERREY and Senator GRASSLEY. The Senate Finance Committee has had 4 months to take up this legislation and did not.

Why? Congress created the National Commission on Restructuring the Internal Revenue Service on September 30, 1996, which studied the IRS for a year. Seventeen Commission members and professional staff appointed by the President, four appointed by the majority leader of the Senate, two appointed by the minority leader of the Senate, four members appointed by the Speaker of the House of Representatives, and two members appointed by the minority leader of the House of Representatives, examined and thoroughly developed a comprehensive report on changes needed to overhaul the IRS.

The Commission received extensive input from American taxpayers and experts on the IRS and tax system, holding 12 days of public hearings and spending hundreds of hours in private sessions with public and private sector experts and academy and citizen's groups to review the IRS operations and services. In addition to holding three field hearings in Cincinnati, Omaha, and Des Moines, the Commission met privately with over 500 individuals, including senior level and frontline IRS employees across the country.

All of the members of the Commission examined and analyzed the problems with the IRS and drafted a report upon a vision for the IRS. This report provides recommendations that will help restore the public's faith in the American Tax system.

H.R. 2676 and S. 1096 implements the recommendations of the year-long bipartisan National Commission on Restructuring the IRS. It provides better management and new protections and rights to taxpayers along with the following list of significant changes:

This legislation establishes an Internal Revenue Service Oversight Board that has 11 members including 8 people from the private sector, the Secretary, the Commissioner, and a Treasury union member.

In this bill, the IRS Commissioner will be appointed by the President with recommendations from the Board. Only the President will be able to remove the IRS Commissioner however, the Board can make a recommendation to the President for the Commissioner's removal.

This bill shifts the burden of proof from the taxpayer to the IRS.

It creates a taxpayer complaint and information audit system.

And, it brings outside expertise into the agency, so that mismanagement will end and taxpayers will not have to deal with bureaucratic redtape.

It provides significant expansion of innocent spouse relief—eliminates requirements to limit an innocent spouse's liability for a tax deficiency on their responsible spouse. Allows a court to give proportional relief to an innocent spouse based upon a spouse's limited knowledge and responsibility.

Extends the attorney client privilege to accountants.

Why the court's authority to award costs and fees. This legislation will change the date a taxpayer can begin to be compensated for administrative costs to the date they received their first letter of proposed deficiency from the IRS. This bill allows the taxpayer to receive reimbursements for the costs of defending the audit as well as the court proceedings.
No single recommendation in the bill will totally fix the IRS, but taken as a whole, this package sets the stage for an IRS that is fair, efficient, and friendly.

Despite the extraordinary agreement in the House of Representatives on H.R. 2676 and agreement from President Clinton that he would sign the bill, Senator Roth, the Chairman of the Finance Committee believes he must spend more time and build on the House bill and act on legislation next year. This is not prudent. Americans want action now. The new Commissioner of the IRS Charles Rossotti will be sworn in next week and we should start him on the right track with a new vision for the IRS. Why put off until tomorrow, what we can do today. Senator Bob Kerrey of Nebraska has requested unanimous consent that the House IRS restructuring bill, H.R. 2676, be approved by the full Senate. I agree and believe we should act now to stop the IRS abuses today.

Mr. Grassley addressed the Chair. The PRESIDING OFFICER. The Senator from Iowa.

HOLDS ON LEGISLATION

Mr. Grassley. Mr. President, I rise to express my disappointment at the fact that during conference negotiations on the District of Columbia appropriations bill, there have been efforts to drop a provision offered by Senator Wyden and myself, and which was accepted by the Senate. This provision was the antisecret holds provision which would have put an end to the practice of putting holds on legislation or nomination in secret.

My colleagues are all aware of the practice of placing holds on a variety of measures. Any Member of the Senate who objects to a measure can place a hold to prevent further action from taking place until that Senator's objections can be resolved.

I want to be clear about one thing. This provision would not have prevented Senators from placing holds. But it would have required them to be open and acknowledge when they have placed holds. Our provision would have simply required Senators to either announce on the floor or place notice in the CONGRESSIONAL RECORD within 2 working days that they have placed a hold, and by making the holds process more open. I appeal to my colleagues not to allow this provision to be killed in the secrecy that we need to eliminate.

I also want to thank my friend, Senator Wyden, for his hard work on this matter. It has been a pleasure to work with him on this matter and I look forward to our continued efforts together.

The PRESIDING OFFICER (Mr. Coats). The Senator from New Mexico.

Mr. Domenici. I don't know whether the Senate wants to extend morning business. I think we are out of morning business. I just wanted to ask a 2-minute extension of morning business.

Mr. Graham. If the Senator is going to ask unanimous consent for that extension, I ask for a further extension of 10 minutes immediately following his extension for the purpose of introducing legislation.

The PRESIDING OFFICER. Is there objection?

Mr. Dorgan. I shall not object, but might I inquire of the Presiding Officer, would the regular order be to go back to the fast track legislation?

The PRESIDING OFFICER. The Senator is correct.

Mr. Dorgan. It is my expectation when this morning business is completed that that will be the business before the Senate?

The PRESIDING OFFICER. That request would have to be made from the floor.

Mr. Dorgan. I ask unanimous consent to be recognized following the morning business.

The PRESIDING OFFICER. Is there objection?

Mr. Roth. I object for the moment. I would like to discuss the matter with the leader before we proceed.

The PRESIDING OFFICER. The objection is heard.

Mr. Dorgan. Let me withdraw my objection. I certainly don't want to be discourteous to my two colleagues. The 12 minutes they have asked for is not something I object to. I will not object to these two requests.

The PRESIDING OFFICER. The Senator from New Mexico is recognized to speak for 2 minutes in morning business.

Mr. Domenici. Mr. President, I thank the Chair.

The remarks of Mr. Domenici pertaining to the introduction of Senate Resolution 148 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions."

Mr. Roth addressed the Chair. The PRESIDING OFFICER. The Senator from New Mexico is recognized.

Mr. Roth. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. Kerrey. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

IRAQ SITUATION

Mr. Kerrey. Mr. President, I rise to discuss the situation in Iraq regarding the U.N. inspection regime and the failure of the Iraqi Government to accept American inspectors and thus delay the inspections. The Iraqi purpose is clear: to attack the unity and will of the world community, and especially the members of the Security Council, concerning sanctions to Iraq; to weaken the authority of the United Nations by dictating terms of compliance to U.N. Security Council resolutions; and most important, to conceal and retain and build up the chemical and biological weapons programs of the Iraqi military.

Once again we are in a crisis with Iraq; not of our making but of theirs. The question being debated here and in the United Nations is: What should we do?

The crisis began a week ago on October 29, 1997 when Saddam Hussein sought to evict from Iraq Americans who are assigned to international inspection teams sent by the United Nations to enforce a cease fire agreement signed by Iraq on April 6, 1991, following the January 17 to February 28 war to liberate Kuwait known as Desert

November 8, 1997
Storm. In the agreement Iraq promised to carry Kuwait for war damages, to destroy all its nuclear, biological, and chemical weapons capacity, and to allow inspectors into their country to verify compliance. On April 11, 1991, the U.N. Security Council officially declared that the war was over and that the sanctions originally imposed on August 6, 1990, had been lifted.

The Security Council created the Special Commission, also known as UNSCOM, to carry out the inspection of Iraqi installations in order to verify the destruction of nuclear, biological, and chemical weapons capacity. UNSCOM—originally expected to be in operation for several months—has been in business for 6 years. During these past 6 years the UNSCOM inspectors have met with success. They reduced the Iraqi stockpile of weapons of mass destruction more than the war itself. Iraq has considerably less capability than it had when Desert Storm ended. That is good news. The bad news is that they retain sufficient capacity to pose a real and serious threat to the people of the United States.

The nature of this residual threat can be seen in a letter sent to the United Nations on Wednesday by Richard Butler, an arms control expert who heads the UNSCOM. According to Mr. Butler the Iraqis could easily adapt laboratory or industrial equipment to resume making prohibited materials. In his words: For example, it would take only a matter of hours to adapt fermenters to produce seed stocks of biological warfare agents. Furthermore, it appears that cameras may have been intentionally tampered with, lenses covered and lighting turned off in the facilities under monitoring.

The idea of biological weapons in the hands of Iraq's Saddam Hussein should strike fear in the hearts of every American. This man is dedicated to his own people, his neighbors, and to us. He is also clever. His latest ploy has been to present a real and serious threat to the people of the United States.

In considering how to respond to Saddam's latest outrage, President Clinton and the Congress need to take two things into account: first, the balance of our decision. Mr. President, we cannot allow the situation in Iraq to continue to head in the wrong direction. Too much is at stake. American security and the security of our allies and interests hangs in the balance of our decision.

For my part I have reached the conclusion that our policy of containment has failed. We need an objective, a range goal which will ensure our security. We need a goal which will guarantee the stability we seek for the region.

As has always been the case, an outrageous act by Saddam Hussein has posed a threat to our nation and to the people of this country. Military responses are broadly discussed. Editorial pages talk of making sure our military response if a head shot at Saddam himself, as though assassination were a legal option for our forces. At some point we may turn to a military response appropriate in scope and direction to achieve immediate and longer terms goals. A measured action, complete with the certainty of further response if necessary, is called for in this situation. But I believe we need to ensure that our military actions, as well as our diplomatic and economic efforts, are part of an overall strategy toward Iraq which will attain a goal consistent with American ideals and interests.

Today, the United States and the international community are considering whether the proper response to Saddam's actions is a limited military action, or whether the time has come to continue talks aimed at a more diplomatic end to this impasse. These are tactical options which will enable the United States and the international community to continue to muddle through its current strategy of containment toward Iraq. While the containment of Saddam has brought limited success in disarming his military, this strategy has been ineffective in changing the behavior of the Iraqi Government and is in danger of becoming more ineffective with the passage of time.

Some commentators state that the cohesion of the Persian Gulf coalition has naturally grown more tenuous as other nations rediscover the promise of Iraqi petrodollars. They believe that our former coalition partners will inevitably find Iraq's oil wealth so tempting as to overlook the risks involved in the reemergence of a military power that may not be the case, if United States can formulate a strategy with clear policy objectives instead of continuing with a strategy of simply reacting to the Iraqi dictator's latest violation. We need to determine our goals, our strategy, and our tactics.

I believe our policy toward Iraq should be open and direct—The United States seeks to remove the dictatorship of Saddam Hussein in Iraq and to replace it with a democratic government. Nothing more, nothing less.

Our frustration with Saddam is understandable. Six years ago we thought we had him. He failed utterly, ruined his country and two neighboring countries and exposed the deaths of hundreds of thousands of people, and by our political lights he should be gone. But by his politics, the politics of a terror railed in this century only by Stalin's, Saddam keeps his job and we are rightfully frustrated.

While Saddam rules, Iraq poses a threat to its neighbors and, by extension, to us. He still has SCUD missiles which could carry his chemical and biological agents to Israel, to Saudi Arabia, to our other neighbors, and whose security is a vital American interest. He has ground forces which could invade Kuwait again or embroil any of his other contiguous neighbors in war. Those same forces threaten or oppress Iraq's Kurdish and Shiite minorities every day.

If Saddam retains power and escapes from sanctions, the threat he will pose in a decade will be far greater. He will have intermediate range or even long range missiles. He will have the billions of dollars in oil income to modernize his Armed Forces. He will be a major threat to his country and in fact to the entire world. We simply cannot let it happen, and I am confident we will not.

In considering how to respond to Saddam's latest outrage, President Clinton and the Congress need to take one thing into account: the incidence of the moment to determine the long-range outcome we want. Because we are the United States, and because we have already expended lives and treasure because of Iraq, I think our long-range goal should be ambitious.

I know from Iraq history that Iraq is predisposed to dictatorship. We also know the dictatorships from this unbalanced state will inevitably threaten their neighbors. So getting rid of Saddam is not good enough. We need to get rid of Iraqi dictatorship. Our long-range goal should be a democratic Iraq. Other countries may be tempted to do business deals with the Iraqi dictator...
and tactfully glance away from his abuse of his people. We Americans should settle for nothing less than democracy.

An impossible, naive dream? I think not. The Iraqi people, despite the lobotomy Saddam has tried to give them, are a well-educated, skilled people. They know the horrors of dictatorship better than anyone else on Earth. When Iraqis tell me their heartfelt commitment to a democratic future for their country, I believe them.

How do we turn this yearning for democracy into the reality of a free Iraq? Let me lay out a road map. First, we should maintain sanctions on Iraq and return to the inspection system which existed until October 29, when Saddam excluded American inspectors from the teams. If we have to use military force to get Iraqi compliance, fine. We should strive to have our coalition partners join us in this use because the power of the world community to bring an outlaw to heel is at issue here. If Iraq can thumb its nose at the Security Council today, some other rogue state will do the same tomorrow, and the system we and our allies have carefully built over 52 years will collapse. But even if some of our coalition partners don’t join us, we should act militarily if Iraq won’t back down.

Second, we must convince our core European and Asian allies that democracy, not just the compliance of a dictator, is the right long-term goal for Iraq. We must show our allies the far greater benefits and reduced risks that will accrue to them as well as to us from a democratic Iraq. We must sign up our allies for the long term.

Third, we must make the people of Iraq our allies, too. We must go beyond merely stating our support for democracy and instead put concrete encouragements on the table, solid indicators of Western commitment to Iraqi democracy. We should announce we will do the same tomorrow, and the next day, and the day after that. If the Iraqi regime takes power there and we should state clearly the loan and for- mality Saddam has tried to give them, and tactfully glance away from his abuse of his people. We Americans should settle for nothing less than democracy.

If Iraq can thumb its nose at the Security Council today, some other rogue state will do the same tomorrow, and the system we and our allies have carefully built over 52 years will collapse. But even if some of our coalition partners don’t join us, we should act militarily if Iraq won’t back down.

Second, we must convince our core European and Asian allies that democracy, not just the compliance of a dictator, is the right long-term goal for Iraq. We must show our allies the far greater benefits and reduced risks that will accrue to them as well as to us from a democratic Iraq. We must sign up our allies for the long term.

Third, we must make the people of Iraq our allies, too. We must go beyond merely stating our support for democracy and instead put concrete encouragements on the table, solid indicators of Western commitment to Iraqi democracy. We should announce we will do the same tomorrow, and the next day, and the day after that. If the Iraqi regime takes power there and we should state clearly the loan and for- mality Saddam has tried to give them, and tactfully glance away from his abuse of his people. We Americans should settle for nothing less than democracy.

An impossible, naive dream? I think not. The Iraqi people, despite the lobotomy Saddam has tried to give them, are a well-educated, skilled people. They know the horrors of dictatorship better than anyone else on Earth. When Iraqis tell me their heartfelt commitment to a democratic future for their country, I believe them.

How do we turn this yearning for democracy into the reality of a free Iraq? Let me lay out a road map. First, we should maintain sanctions on Iraq and return to the inspection system which existed until October 29, when Saddam excluded American inspectors from the teams. If we have to use military force to get Iraqi compliance, fine. We should strive to have our coalition partners join us in this use because the power of the world community to bring an outlaw to heel is at issue here. If Iraq can thumb its nose at the Security Council today, some other rogue state will do the same tomorrow, and the system we and our allies have carefully built over 52 years will collapse. But even if some of our coalition partners don’t join us, we should act militarily if Iraq won’t back down.

true that there are benefits to the free-trade agreement with Canada. I am sure that there are sectors in this country that can point to substantial success.

I would say this with some certainty. Those sectors coming into our country are essentially traded away the interests of family farmers in our part of the country. And the result has been that in the post-Canada free trade agreement an avalanche of unfairly subsidized Canadian goods have come into this country in recent years. We have recently, for example, sent here some state-controlled enterprise called the Wheat Board—which would be illegal in this country—sent here with secret prices that they failed to disclose to anyone undercutting the market for our farmers especially in the area of Durum wheat, and we can’t do anything about it.

Oh, we can shout about it, and we can complain about it. We can send people to Canada, and make some noise about it. But the fact is that it does not get solved. It could have been solved. We could have tackled an amendment on the trade negotiation instrument that we negotiated with Canada when it came to the Congress. But fast track prevented any amendments. It predicted that we were going to have this problem, and it predicted that we weren’t going to be able to do a thing about it—$220 million a year out of North Dakotans’ pockets as a result of this unfair trade every year and it is growing worse and worse.

Do we think fast track makes sense? Absolutely not. We have seen the result of bad trade agreements, and we have seen the result of trade agreements that do not give us the remedies that deal with patent unfair trade.

Aside from the issue dealing with United States-Canada, I could spend a lot of time talking about our trade problems with Japan and China. I will not do it at this point. I have done it previously on the floor.

But I want to say that the chronic, persistent trade deficits that go on year after year every year in this country are a problem. We need to address it. To the extent this continues and gets worse, clearly this trade deficit will be repaid with a lower standard of living in this country. Now, it is time for us and the Congress to address that issue.

What causes the trade deficit, and what can we do to address the trade deficit?

That is the reason I propose the establishment of a commission that would seriously and thoughtfully address this issue.

Mr. President, in the interest of time I will cut short my comments at this point. We have two on the other side of the aisle who wish to address it, following which I would like to make a couple of additional comments.

With that, Mr. President, I yield the floor.

Mr. ROTH. Mr. President, I rise in opposition to the amendment of the Senator from North Dakota, and I do so for two principal reasons. But before I discuss those reasons, I would like to point out that in my judgment the truth is that trade policy has very little to do with our trade deficit. My esteemed colleague from North Dakota. Senator Bonderer, made the point himself. Our trade deficit is a function of simple arithmetic. We consume more than we produce and save, and the difference is basically our trade deficit.

It is also true that when we are growing as rapidly as we are, and our trading partners are not, we are likely to import more and export less. Because they prefer to hold dollars as a hedge or as an investment, our trading partners are essentially financing our ability to live beyond our means.

Now, I do not mean to underestimate the need to get our economic house in order. Getting our budget deficit under control is a significant step in that direction.

What I have said does not mean that we should not do everything we can to ensure that our trade policy does not contribute to our trade deficit. We should and must insist that our trading partners open their markets to our goods. The defeat of fast track would do nothing but hinder that effort. It would offer our trading partners an excuse not to negotiate with us. It would offer them an excuse to maintain their barriers to our goods. The defeat of fast track would offer them an excuse to maintain their barriers to our goods. The defeat of fast track would do nothing but hinder that effort. It would offer our trading partners an excuse not to negotiate with us. It would offer them an excuse to maintain their barriers to our goods. The defeat of fast track would offer them an excuse to maintain their barriers to our goods. The defeat of fast track would offer them an excuse to maintain their barriers to our goods.

To me, the broader question, and, frankly, the one that is most likely to affect our economic future, is how we come to grips with the increasing globalization of the world economy. The world economy is undergoing fundamental changes that have deep importance for our economic future, and we must decide whether we embrace that challenge or try to hide from it.

While I do not disagree that it would be useful to look at the underlying causes of the trade deficit in that context, there certainly are many other issues of greater significance that have been raised in this debate alone that would deserve similar attention by the commission as that described in the Senator’s amendment.

Second, we should also understand that the amendment will require a hard look at whether we have our own economic house in order. Since the root cause of the deficit includes our domestic economic policies, we will be asking the commission to delve deeply into our fiscal and monetary policies.

What causes the trade deficit, and talk a little bit about trade deficits, about the sources of America’s trade deficit, and talk a little bit about the history of the trade deficit in our country, and I intend to do all of this while trying to deviate from my background as an old schoolteacher and be brief.

First of all, I want to talk about why I oppose this amendment. I want to talk about the two principal problems it has. I want to outline changes that could be made that would make it possible for us to support the amendment and to see us proceed on a bipartisan basis. And then, with that in mind, I want to talk about the history of the trade deficit in our country.

Thus, I want to talk about the history of the trade deficit. There are two problems with the amendment. No. 1, we are not going to adopt a proposal to create any commission that is going to be stacked on a partisan basis. There is no way we are going to adopt a commission that is going to be stacked on a bipartisan basis.

I think it would be a good idea to try to set some parameters on the kinds of...
people that should participate on this commission. If we do not want this to turn into a political commission with a bunch of political hacks on it, it would be helpful to have people who are genuine financial, economic, and international experts, and not just people who could bring with their expertise a high degree of objectivity. I think the degree to which we could set some parameters as to who would be on the commission would probably be helpful. I do not think we achieve anything by appointing a partisan commission with a bunch of political hacks on it who have an ax to grind and are simply looking for a forum to try to promote their own political interest, their special interest, or their individual agenda.

Second, I cannot see how we could adopt a commission that was given a mandate that without regard to any other policy, our goal should be simply to eliminate the trade deficit by the year 2007. I believe there are things we could do and should do that would be beneficial to the elimination of the trade deficit and would help us in maintaining our current standards, disrupt economic growth, is something I think we have to be very careful about.

So I think we could have an agreement here if we have a genuine bipartisan commission. I think we could have an agreement if we could try to focus the membership of the commission so that we are seeking advice from people who actually know something about the subject rather than a bunch of politicians who are simply going to express their special interest. And I think we need a little bit broader objective than simply to say that we should eliminate the trade deficit by the year 2007.

To listen to those who oppose fast track and who are talking about gloom and doom on the trade deficit, you would not realize that yesterday the unemployment rate was announced and it is as much as the lowest unemployment rate we have had since the early 1970s. In other words, today, with the largest trade deficit in American history, we have the lowest unemployment rate we have had in almost a quarter of a century.

Let me say a little bit about trade deficits. Trade deficits in and of themselves are not good or bad. They are simply an indication of a lot of other things that could be good or could be bad. Let me give you an example. From the moment that the first settler stepped on the North American continent at Jamestown, VA, until the end of World War II, there are very few periods, if any, when the United States of America ran a trade deficit nearly every single day—every single day. And yet we had the most sustained period of economic growth in the history of mankind.

Why were we running a trade deficit from the time the first American stepped off the boat at Jamestown until the end of World War II? We were running a huge trade deficit because with this vast continent, with its boundless natural resources, with its fertile land and limitless forests, with the fertile rivers and the oceans, with people who had more freedom than any people who had ever had in the history of mankind, people from all over the world wanted to send their money here to invest in our land. And we sent the money to build our railroads. Investors from all over the world not only sent their money but their children to come and participate in the American miracle, and so as a result, we had a trade deficit practically every single day from 1607 to roughly 1920. And to listen to our colleagues from North Dakota, with all due respect, it should have been a bleak, dark, doomed place, this America. But the plain truth was we had more growth, more opportunity, more freedom and more prosperity than any place in the history of the world, then to now.

Deficits are like debt. They can be a path to prosperity or they can be a path to disaster. And it all depends on what you use it for, why it comes about. Borrowing money can make you rich, if you invest the money and earn a rate of return bigger than what you have to pay to borrow the money. It can also make you poor if you invest the money poorly or simply go out and spend it until you have to pay the money back.

Now, let me try, as briefly as I can be brief, to explain why we have a deficit. We need to understand that the exchange rate between the dollar and other currencies is set every day on an international exchange market where there are literally hundreds of billions of dollars of transactions every single day.

Now, on this market people are buying and selling dollars, sometimes by the billions of dollars per transaction. Why do people buy dollars? People buy dollars to buy American goods. They buy dollars to invest in America or to repatriate earnings from American investment abroad. They buy dollars to hold as an international currency. In fact, the dollar has become the international currency of the world, and, remarkable as it sounds, we have printed hundreds of billions of dollars and people all over the world hold them to use them in their own economies. And we have been a huge beneficiary of that.

Now, why do Americans buy other currencies? We buy other currencies with dollars because we want to buy foreign goods, because we want to invest abroad, because we want to repatriate earnings abroad, but by and large we do not use other currencies as an international exchange, not nearly as much as the dollar is used. Now, what this means is every day on the market for international currency, the dollar is being compared to the yen, the value of the dollar relative to the pound, is set exactly at that point where the dollars that are being demanded to buy American goods and to invest in America are exactly equal to the dollars that we are supplying to try to buy that currency, to buy its goods, or to invest in that country.

If that isn't so, then the exchange rate moves. Why is that significant? It is significant because what it really means, for all practical purposes, is that anytime you have a trade deficit you have either a capital surplus and/or people overseas are, for some reason, holding our currency. This last factor is not nearly as relevant for any other country in the world, but because our economy is the strongest in the world, because our dollar is the soundest in the world, people want to hold American dollars. As long as people want to invest in America—and today we are having a huge level of investment in cars and in converting the whole world—we are going to have a trade deficit because we have a capital inflow. Those who would like to see it otherwise are trying to repeal double-entry bookkeeping, because basically what we are seeing here with the trade deficit is accounting for more than trade deficits.

We are seeing the accounting of the fact that we have high real interest rates because our Government is still a big net borrower—because we as a nation don't save very much money. We have the lowest savings rate of any industrial country in the world, largely because we have a Social Security system that is pay-as-you-go and discourages personal savings for retirement. It doesn't have a real trust fund. Social Security contributions are taxes, not savings. And, so, we have collectivized retirement and retirement medical care. So our savings for the future into taxes for consumption today. We are not building up assets to pay for our future obligations.

Now, if we want to do something about that we certainly don't want to do anything about the high equity returns. We don't want to prevent American businesses from growing and providing jobs. We certainly don't want to pass a law that says to people all over the world, 'Don't lend your capital to America to put it to work.' One of the principal reasons we have the lowest unemployment rate we have had in 24 years is that literally tens of billions of dollars of foreign capital flow into America every year. And our foreign investors are, in the process, helping to put our people to work.

But, if we really are concerned about the trade deficit, I think we ought to deal with the deficit in our budget, not just the deficit.
on-budget deficit but all the money we are borrowing for off-budget accounts. We ought to restructure Medicare and Social Security and have an investment-based system where real capital is being built up so we can have real savings to match our growing future liabilities. We can lower interest rates by encouraging people to save more. The chairman of the Finance Committee, with his Roth IRA—and, by the way, Mr. Chairman, I heard a radio commercial yesterday morning from some securities firm advertising Roth IRA’s. Those are ways that we can encourage people to save, bringing about lower interest rates, and reducing our reliance upon foreign sources of capital to America. And maybe that is something that this commission ought to look at.

What we are looking at here with this amendment, to try to sum up and be brief, is this deficit system is being symptom and not a cause. We have a big trade deficit because we have the strongest economy in the world and people want to invest here. We don’t want to do anything about that. We have a trade deficit because we have very high real interest rates, and with very high real interest rates people want to come here to get those returns on their savings. We could do something that if we encouraged people to save more, and if we did something about the underlying deficit, including the real, unfunded long-term deficits in Social Security and Medicare.

So, to the extent that this commission could look at these underlying problems, then I think we could begin to try to do something about the trade deficit. But I go back and reiterate the point that I made earlier. Trade deficits in and of themselves do not give you any kind of effective measure of the strength of the underlying economy. We had trade deficits from the colonial period to World War I, when we had a strong economy in the world. We have had trade deficits in trying to rebuild Europe and Japan, when we had very, very strong economies. We have had trade deficits and trade surpluses with countries all over the world. Some of the countries with the poorest economies have had trade surpluses. I don’t know what the trade surplus or deficit is for North Korea. It would be a perfect model for many, in the sense that they don’t import many goods but they don’t export their jobs, but the problem is they don’t have good jobs because they are poor because they don’t trade.

So, what we would like to do, to try to get on with fast track and hopefully pass this amendment, is see whether we can work out an agreement to do three things. First, have a true bipartisan commission and, if possible, in that bipartisan commission, let’s try to put real experts on the commission—not political scientists and other people who bring expertise to the problem and help us have some constructive ideas as to what to do about it.

Second, let’s look at the underlying causes of the trade deficit. Let’s look at protectionism, both here and around the world. Let’s look at our deficit in the Federal budget. Let’s look at our long-term structural deficit in our two big programs, Medicare and Social Security. Let’s see what we can do to encourage Americans to save, and in the process reduce real interest rates, reduce our reliance on foreign capital, and in the process lower the trade deficit.

So, I think there is room here for a compromise. I hope we can reach it. But in terms of the way the amendment is now drafted, we are opposed to it. But if we could reframe it, if we could make it truly bipartisan, if we could look at the bigger picture, then I think that we could have the ability to reach a compromise. I think we could adopt this—either as an amendment or as a freestanding bill, depending on what happens in the House on fast track—and in the process we could go a long way toward completing the business of the Senate.

I yield the floor.

Mr. DORGAN addressed the Chair.

The PRESIDING OFFICER (Mr. BROWNBACK). The Senator from North Dakota.

Mr. DORGAN. The Senator from Texas whetted my appetite once again on economic theory. I studied economics, taught economics in college briefly, and was most interested to hear the Senator from Texas.

Because I did teach economics very briefly, I have heard all of the stories about economists, as the Senator from Texas has, and all the definitions.

The one about, you know: An economist is one who can describe with all great details the workings of the world but can’t remember his phone number. An economist is someone who looks at something that works in practice and wonders whether it can really work in theory.

Let me, for a moment, respond to a couple of the points made by the Senator from Texas. First of all, I am happy to see if we can reach some agreement on some of these provisions. This does not propose to establish a commission with a bunch of political hacks, to use the words of the Senator from Texas. I have no interest in establishing a commission with political hacks. I am most interested in establishing a commission that might address a real problem and make recommendations about how to respond to that problem.

A couple of points first. The Senator from Texas mentioned Social Security several times. I just want to clear up a point. It really doesn’t have very much to do with this. The Senator from Texas was mentioning Social Security in the context of domestic deficits, as something that is out of control. This year, Social Security will take in near exactly what it will expend. Social Security is not running a deficit, it is running a surplus, and a very significant surplus at that. Why? Because it is one of the few sober things we have done in the last two decades. We finally required a forced pool of national savings in Social Security to meet the time when the baby boomers retire.

So, I have a couple of other points. We are told from time to time that we have a trade deficit because our dollar is too weak. We have a budget deficit, and if we get rid of the budget deficit, gee, the trade deficit will be no problem at all. The trade deficit will disappear.

The budget deficit is going down, down, down, way down, and yet the trade deficit is growing. So I ask those who tell us that the trade deficit is simply a function of the budget deficit, why does your theory now seem to be wrong? You said that if the budget deficit decreases, the trade deficit will vanish. Why, when the budget deficit not only decreases but nearly goes away, do our merchandise trade deficits reach the largest level in the history of this country? Is it perhaps that the theories are all wet?

Then some say, “Well, we know we talked about the budget deficit related to the trade deficit. If that’s not the case, then it’s the strong dollar. The strong dollar is our problem.” That is what causes this sea of red ink of merchandise trade deficits that are getting worse? It is the largest in history and setting new records every day and getting worse.

So, the dollar is strong, we have a trade deficit. When the dollar is weak, we have trade deficits. What do you say about that? Is maybe the theory is all wet there as well?

So, I have, at least in part, something no one is willing to discuss much. That is that we have a free-trade system in which our markets are wide open and we have expectations of trading partners who open their markets but they don’t open their markets. Their markets are not open to American goods. Might it be that our markets are open, but the Japanese markets are not wide open to American goods? Might that not be the case? Could that conceivably be the reason for part of this or a significant part of this trade deficit? I think it is.

The Senator also discussed what happened to the turn of the century and the prior century about trade deficits. Comparing the economic circumstances of the prior century and its trade deficits to today is like comparing a teaspoonful of water to a bathtub. These trade deficits are serious, alarming, and growing. Let me take this from theory to practice.
At least a part of this red ink is because we are seeing American jobs leave this country and move elsewhere, and those jobs then are used to produce the same products to ship back into this country, and that contributes to this trade deficit. And that is troublesome for the country, we will tell them they don't know what they are talking about, because it is conceivable these trade deficits are good for our country. Now that's what they say.

You talk about the United States now is supposed the most developed country in the world. The most developed country in the world, supposedly the world's leader, ought not to be a debtor nation and ought not to be running these large trade imbalances.

I say to the Senator from North Dakota, here is what happens. You know, people say, "Well, people are losing jobs." And they say, "Well, they're losing jobs, but other people are gaining jobs." And you say, "Right. But the consequence, we're strengthening ourselves as a nation." We are not strengthening ourselves as a nation. We are running these very large trade deficits year in and year out.

This represents a marked deterioration in the American position. We did not do this between the end of World War II and into the 1970's. It is only over the last 20 years that we started running year in and year out, these very large trade deficits.

As the Senator from North Dakota points out, the reason for them, I think, is fairly simple. Our market is open for other countries to send goods into the United States. And many of those markets are relatively closed to us. We export $12 billion a year to China, to the PRC, and take from the PRC $52 billion a year; $12 billion goes that way and $52 billion comes this way, for a net imbalance of $40 billion. And it is growing year to year to year. Every year it keeps going up.

Mr. DORGAN. Let me ask the Senator to respond to this. China, the People's Republic of China, dealing with American movies, allows 10 movies a year in China, no more, just 10. They cut it off at 10.

China does not allow nearly enough American pork. In fact, we send very little pork into China. The Chinese consume one-half of the world's pork, but we send very little pork into China. We use to be the world's largest wheat supplier to China. Now we replace the largest wheat supplier to China even as they ship increasing quantities of Chinese goods to this country.

In addition, the Chinese have ratcheted up this huge surplus with China having a deficit at very significant levels. What they need are airplanes. They only produce—as I understand it, they produce one airplane that I think holds 50 or 60 passengers. They need airplanes. In fact, they need a couple thousand airplanes that they are going to need in the years ahead.

Guess what China says? China says, "Well, what we'd like to do is we'd like..."
to consider buying your airplanes, but you must manufacture your airplanes in China." This is at a time when we are already running a huge trade deficit with China.

My feeling is: China sends its goods to that, our manmade debt, and American consumers buy them. We make something China needs. China has a responsibility to buy from us wheat, pork, and airplanes.

But that is not the way the world currently works, because this country does not have the nerve, the will, the courage to stand up to trading partners—China, Japan, Mexico, Canada, and others—and say, "Here's what's fair for the American economy. Here's what's fair for American workers." If we don't have the nerve to stand up for this country's economic interests and demand fair trade, then we are going to continue to see this sort of hemorrhaging year after year as far as the eye can see.

Mr. DORGAN. The Senator is absolutely right. The question is not whether you are going to trade; it is the terms on which you will trade. What are the rules going to be? Of course, China's trade surplus with the United States finances China's trade imbalance with the rest of the world. So, in effect, we make it possible for China to purchase from other developed countries, the European countries, for example, who are very careful to keep their trade relationship with China in much more of an even balance.

So, year after year, we run these large trade deficits, and everyone says, "Well, it doesn't matter." It does matter. It does matter. It affects the standing of the United States as a world power. You cannot long be a world power if you are the world's largest debtor country.

This chart makes a difference. The United State for decades was a creditor nation—others owed us. Now we have deteriorated to where we are now the largest debtor nation in the world to the tune of $1 trillion—a $1 trillion debtor nation.

People get up on the floor of the Senate, and they make these expansive speeches about what a great power we are, and so forth and so on, and yet our economic status continues to deteriorate year after year.

That is the issue that needs to be addressed. This is exactly what this commission would try to do. The fact of the matter is that in this trade debate there is an effort to frame it as though the people that are losing their jobs are screaming, which they well should be, but then it is argued, well, this has to happen when you have trade development and, you know, there are people who get jobs in the export industry.

The fact of the matter is, we are losing far more jobs on the import side than we are gaining on the export side. I mean, if the trade was roughly in balance, then you'd have a different set of circumstances. But we have been running, as the Senator has pointed out, these very large trade deficits, year after year after year.

That is a deterioration in the American position. I defy anyone to try to make the case that it is a good thing for the United States in present circumstances to be running these large trade deficits, that it is a good thing for the United States, supposedly the world's most highly developed economy, to go from being a creditor nation to being a debtor nation. It is obviously wrong. We need to address this issue. This commission would be one way of trying to do that. Mr. DORGAN. Mr. President, if I might reclaim my time.

The Senator from Maryland is an extraordinary effective advocate for that point of view. And it is one that I share. He, along with Senator BYRD from West Virginia, is a cosponsor of this amendment and the legislation that mirrors it that we had introduced earlier in the year.

I must leave the floor, and I don't know whether the Senator from Maryland has other thoughts to continue with, but I know that under the spirit of the unanimous-consent request, upon which we are proceeding with this amendment, Senator REED from Rhode Island would be recognized to offer an amendment.

My understanding is that he would not require that it be voted on today, but he does want to offer it and have some discussion about it.

The disposition of my amendment would be this. What I would like to do is engage the staff of the Senator from Delaware and the Senator from Texas, who spoke earlier, to see if there are ways to deal with the questions they raised about the commission.

As I understand, the Senator from Maryland has other thoughts to continue with, but I know that under the spirit of the unanimous-consent request, upon which we are proceeding with my amendment, Senator REED from Rhode Island would be recognized to offer an amendment. My understanding is that he would not require that it be voted on today, but he does want to offer it and have some discussion about it.

The disposition of my amendment would be this. What I would like to do is engage the staff of the Senator from Delaware and the Senator from Texas, who spoke earlier, to see if there are ways to deal with the questions they raised about the commission.

As I understand, the Senator from Texas indicated that he would not necessarily object to the establishment of a commission if we could reach some compromise on the conditions of such a commission or the makeup of the commission.

Would that be the understanding of the Senator from Delaware with respect to Senator REED?

Mr. ROTH addressed the Chair.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. ROTH. Mr. President, I would like to see if it is possible for us to reach agreement on your amendment. I think it is possible we can work with you. But I do think there are some significant changes that have to be made, including the makeup of the commission itself. So it would be my understanding that tonight, at the staff level, we could probably work and see if we cannot reach agreement and try to do that so we can complete it at the earliest possible time.

But my understanding is that the distinguished junior Senator from Rhode Island would seek to introduce his amendment, but it would be with the understanding that there would be no votes on that amendment tonight but merely to introduce it.
November 8, 1997

The underlying legislation circumscribes the ability of the President to deal effectively and forcefully with the issues in environmental quality within our potential trading partners. That, I think, is essential. Indeed, the experts tell us that NAFTA should be making us very persuasively that we have to deal with the environment in order to set up a reasonable, fair, balanced trading regime between one country and another. The experience of NAFTA has shown us that there are trading partners who are using the environment, environmental laws, preferential environmental treatment of their companies, to attract and to lure American businesses to their country.

For example, the Canadian Province of Alberta, which was one of the only two Canadian Provinces to sign the side agreement with respect to the environment in NAFTA, adopted legislation in May 1996, prohibiting citizens from suing environmental officials to enforce environmental laws. In effect, limiting the authority, the enforcement capability of their own environmental laws. As a result, Alberta has since been advertising its lax regulatory climate as “the Alberta advantage.” This might be an advantage for Alberta but it is definitely a detriment to the men and women of America who have to follow environmental laws which we pass in this body.

In October 1995, Mexico indicated that they would no longer require environmental impact assessment for investments in highly polluting sectors such as petrochemicals, refining, fertilizer, steel. Now, we all recognize and realize that any company in the United States that was investing or proposing to invest in one of these facilities would have to go through a very rigorous environmental impact assessment process. So when you have a multinational company making a decision whether to go and respect and follow the law of the United States or go to a country that has announced they don’t do environmental assessments, I think it is very difficult to see why some of these countries stay in the United States.

At the heart of our fast-track efforts should be a strong commitment to the environment, not just because it is the right thing to do but because it is the most consistent way that we can make our companies as competitive as we can with companies around the world.

There is another example in Mexico. After NAFTA, a series of multinational companies built a technology center in Ciudad Industrial. Now, these are state-of-the-art factories, state-of-the-art facilities, but what they are doing is taking all their waste and dumping it right into the sewers without any treatment or hardly any treatment at all, something we could not do in the United States. If we want you to make your factories do in Europe, but something that is done every day there. Again, an advantage to these companies in terms of costs they must pay for environmental quality and inducements for companies like that to leave countries like the United States and other countries that have high environmental quality standards and go overseas to these particular areas.

We have to take strong, purposeful steps to ensure that environmental quality is at the heart of our trade policy. Again, it is not just altruism or idealism. It is cold, hard, economic reality. You can’t say the lack of it—is a strong competitive inducement to move capital into these countries. The result in some cases is very frightening, not only in terms of the impact on our workers but certainly the impact on the workers who are working in these facilities.

Let me summarize the Ernst & Young report as reported in the New York Times. They painted a dismal picture of thousands of young women, mostly under age 25, laboring 10½ hours a day, 6 days a week, in excessive heat and noise and in foul air, for slightly more than $10 a week. The report found that skin or breathing problems had not been transferred to permanent chemical-free areas, and half of the workers that dealt with dangerous chemicals did not wear protective masks or gloves. We say very well, yes. I feel this is not good to the worker and as a humanitarian and as a kind, decent person that shouldn’t happen, but that is their country. That is their culture. Those are their decisions.

But it is not as simple as this. We have to take strong, purposeful steps to ensure that their waste is pretreated, and you ask those business men and business women how they are doing, and they say poorly because of international competition. Then you know that the reports like this are not merely academic journalistic humanitarian conclusions. They strike at the very heart of whether small business men and women in this country can continue to compete.

They are not asking for protective tariffs. They are not asking for us to withdraw from the world trade as some of the proponents of this legislation might suggest. But what they are saying is, give us a chance to be competitive in this new era. Let us even negotiate treaties, raise the standards, the environmental standards and the working conditions so that we can try to use our talents, our ingenuity, our skill, and our resources to be competitive.

If you don’t do that, not only are you doing a disservice to these people who are trapped in these 10-hour days, in poor health-threatening environments, you are striking at the very competitiveness, the very survivability of so many small businesses around this country, particularly in my part of the world.

Mr. SARBANES. Will the Senator yield for a question?

Mr. REED. Yes.

Mr. SARBANES. Isn’t it a fact that if you can’t bring in the environmental standards and the working conditions, you are not going to be able to compete in this new era? If you do that, what two things will happen. You will remain at a competitive disadvantage, as the Senator has noted, I think, very perceptively; or there is going to be a tremendous downward pressure to lower environmental standards because people will say, well, we are at a competitive disadvantage, we can’t have these environmental standards.
Now, we have been through the whole debate about the environmental standards, and they are clearly necessary if we are not going to befoul the very world in which we live.

This legislation doesn’t make the environmental quality a legitimate objective. The Senator made a very thoughtful speech the other evening about the difficulty with this legislation, about, as I recall, setting out what our negotiating goals ought to be. It seems to me this is a clear example of such failure, because the legislation does not permit environmental considerations to be a central negotiating goal, as I understand it; is that correct?

Mr. REED. The Senator’s understanding is correct. My reading of the legislation would allow certain discussions about environmental standards, along with other standards, if they directly affect their current environmental standards, simply says the countries cannot lower their current environmental standards in order to gain a trade advantage; is that correct?

Mr. SARBANES. If the Senator will yield further, my further understanding is that, to the extent this legislation deals with environmental standards, it simply says the countries cannot lower their current environmental standards in order to gain a trade advantage; is that correct?

Mr. REED. I think that’s right. Again, I think it’s probably not even that simple a matter of what they want to do because, essentially, as I read the restrictive language directly related to trade, it could be read to simply say that we have a product, for example, that we are sending in with a label on it, and if the objective of the label is to ensure or wants more labeling, then we can say, well, that is impermissible. But as far as whether they have pretreatment of their waste, as far as whether the respirators in their factories, as far as whether they have environmental standards—air quality and water quality—that seem to be totally off the table. But that is what impacts on the quality of the workplace. Also, it is an inducement for capital to go from our country into these countries because, essentially, they are avoiding costs.

The Senator probably was contacted, like I was, by individuals concerned about the proposed ambient air quality regulations in the United States. Some representatives of major companies have bluntly told me, “If these pass, we are going to Mexico. They don’t have these ambient air quality standards, and we will avoid millions of dollars in costs, we can move out.”

Now, that might simply be a bluffing tactic, a negotiating ploy to try to stop these regulations. But at some point, if we continue to try to have a clean and healthy and safe environment, these costs add up and companies can avoid them by going elsewhere.

Mr. SARBANES. The Senator is absolutely right. Of course, the reason we put in the environmental standards is we went through a long debate that indicated we were paying a very heavy health cost because we didn’t have clean air and clean water. So we made the effort to get clean air and clean water support.

But now if you are going to go into international trade and your competitors are free of having to meet any of those standards, then they are, as you say, at a competitive advantage in dealing with one of the things we are facing. I can’t, for the life of me, understand why it is unreasonable or impermissible to bring the environmental concerns into the middle of the trade negotiations as well.

Mr. REED. The Senator came before this exactly right, in my view. Let me add another point that I think is very important. We have talked about the inducements for capital investment because of low environmental quality around the world. We have talked about the effects on working men and women who are there in those factories in Ho Chi Minh City, Malaysia, throughout the East, and in Mexico. I suggest that this has a real impact in our own hemisphere, in countries, such as Baltimore, MD, and Providence, RI, where small business men and women are struggling to apply the environmental quality standards that we all passed and they agree with. We all see the benefits to our society and culture, but it is detrimental to their economic viability versus these countries across the sea.

There is another factor, too. Just a few weeks ago, Senator HAGEL and Senator BYRD came before this Senate with a resolution, Senate Resolution 98. It essentially said that we are not going to tolerate an environmental regime internationally that puts the burden of remediation and cleanup on the United States of America. It is an investment in our economy. We are going to demand that developing countries also stand up and share the burden of cleaning up the environment. It passed with overwhelming support.

It seems to me common sense that, of course, we are not going to prejudice ourselves in an international regime by saying we will add further burdens to us, as the developing world keeps spewing out bad air, polluting the waters, and cetera.

But in trade agreements, which are the focal point of most of our strong, bilateral and multinational relationships, we have completely ignored that point. So, on one hand, we are saying we have to get tough with these countries down there and make them start cleaning up their environment. But when it comes to the point where the rubber meets the road, where we are negotiating for changes, and we want them to change behavior, we say it is not important. We are talking out of both sides of our mouth.

Mr. SARBANES. Will the Senator further yield?

Mr. REED. Yes.

Mr. SARBANES. Actually, at the very point when we have something we can use as leverage to get the higher standard, which is access into the American market, we are refusing to do it in order to achieve greater equalization of these environmental standards. I can’t, for the life of me, understand why we are leaving the environmental matters to trade negotiations. I understand that it will not be the only thing in the trade negotiation; there will be other considerations as well. But why it should be, as it were, excluded outside of that parameter, I can’t, for the life of me, understand.

Mr. REED. I am equally amazed—if I may reclaim my time—by leaving this out. Certainly the jewelry manufacturers in Rhode Island would say, “Put it in because I want them to clean their waste like I have to.” Working men and women who have seen jobs lost because companies moved out of their communities would say, put it in. But my suspicion is that many people who are supporting this are supportive of those multinational corporations who say: Listen, we want to avoid environmental policy because we want to get our production out of the United States and get into these countries, and we don’t want them to have tough environmental standards.

Mr. SARBANES. Will the Senator yield further on that point?

Mr. REED. Yes.

Mr. SARBANES. That leads to this: Many people have said these are not really trade agreements that are being negotiated, or the impetus for them is not trade; it is investment. These are investment agreements. Among other things, a result of these agreements is extended protection for American investment in other countries; in other words, as the Senator said, for the multinationals to be able to establish their production abroad rather than in this country. Well, of course, if they are going to do that, then they don’t want the higher environmental or working-condition standards.

Mr. REED. Again, I indicate that the Senator, I think, is absolutely right. Let me give an example within the text of the agreement. Part of the negotiating objectives is to develop internationally agreed rules, including settlement procedures, which are consistent with the commercial policies of the United States. So when it comes to commercial law, dispute resolution, we want our American laws down there because they are balanced, fair, they work, are effective, and are comfortable to the investors going to these countries.

I may say, if we tried to substitute our ideas consistent with the environmental policy of the United States, we would draw the unalloyed opposition of the proponents of the fast-track procedure. In our view, I believe environmental quality is one important factor in permitting economic competition between our country and other countries. So, in effect, I think you are right. I think that the thrust of this agreement...
is that it is unbalanced. You and I—I will speak for myself—we believe that we have to have sensible rules about investment.

We have certain guarantees that our investors are protected. We have to have just and equitable rules about international trade and investment. We have to have protections for dispute settlement. We certainly don’t want to have a situation where American companies go into a foreign land, make investments, and then can’t re- patriate their profits or, in fact, go to court and solve commercial disputes. That is fine. But we have to take the next step. We also have to negotiate with those countries so that their environmental policies are not inconsistent with ours and at least move toward an international standard.

Mr. SARBANES. If the Senator will yield, I agree with the Senator completely. I think all of the items that he mentioned in terms of resolving commercial disputes, repatriation of earnings, and so forth obviously have to be part of a negotiating effort. But the environmental considerations should also be a part of the negotiating effort.

I think that is all the Senator’s amendment does. It does not look to displace those other goals or objectives. It simply seeks to add to them so that it becomes a part of the negotiating focus and so that environmental concerns will also be on the agenda instead of left off the agenda and not have any agreements. We have been through those side agreements. We know full well—we did the same thing on environment and on worker conditions—we know full well that in both instances the side agreements don’t amount to anything. Other things which are put right into the trade agreement become enforceable and have to be adhered to. If they are not adhered to, they are contrary to the trade agreement; the remedies that are provided in the trade agreements don’t go into effect. But they are not putting the environment and the working conditions on the same status, the same level.

Mr. REED. The Senator from Maryland is absolutely correct. Recognize that the major international environmental issues which we face—not alone, but collectively as a world community—are significant: global climate change, which we were talking about recently; pollution, submarine discharge, which have affected all of us around the world; reduction in ship pollution of the ocean; international ocean dumping; transboundary movement of hazardous waste materials and disposal. What happens to all of this waste in countries where it is being produced? How does it move from one country to another?

All of these are critical issues. Yet, within a context and scope of this fast-track agreement, they would have to go, as the Senator from Maryland said, to side agreements at best. Our experience has been such that these side agreements are ineffectual in most cases, if not all cases. If we put them in the center of our concerns as a negotiating objective, not only will we make progress on these issues, but we will send a strong signal to all of our potential trading partners that they have to be part of the table and not just talk turkey about the environment and about how they will improve their environmental quality. That will result not only in a cleaner environment, which is an extremely noble objective and something that has practical ramifications, but it will also help level that competitive playing field between those small businesses up in Rhode Island and Baltimore who are doing it already. All the things ask us is to ensure, as we enter the world of international trade, that we try our best to bring up the standards of their competitors because they are their competitors. If we do that, then we leave it to them, their ingenuity, and their skill to win the trade battle.

But essentially what we are doing today by taking those off the table is we are effectively dooming thousands of small businesses across this country to extinction.

Mr. SARBANES. If the Senator will yield further, I think the Senator made a very important point when he spoke about the contradiction in our approach. On the one hand, as he pointed out on the global warming issue and on the other environmental matters that he talked about, we are often engaged in negotiating with other countries to try to arrive at international environmental standards. Everyone says, ‘Well, we have to do that.’ On the other hand, when we come to trade agreements where we have an enhanced ability, since the entry into the American market is a very important objective, to solve commercial disputes, repatriate their profits or, in fact, go to court and solve commercial disputes.

Mr. SARBANES. The Senator made the point in the opening debate on this issue where the Senator spoke about, I thought in a very perceptive way, what was important. What are your goals? What are your objectives that are going to be focused upon in the trade negotiation that we have to arrive at these trade agreements if we can do so. The question then becomes, What are the goals? What are the objectives? The Senator pointed out that the goals were too narrowly focused. This is a dramatic example of that narrow focus.

Mr. REED. I thank the Senator for that kind word. We have an opportunity to provide balance in this agreement. No one is objecting to the need for better support for investment overseas. No one is objecting to the adoption of agricultural policies that are better, and, in fact, according to this legislation, mirror U.S. policy.

But what we are saying is, if you simply create an environment for investment that leads to the opportunity for poor environmental quality—and I also add the environment—in which workers are hardly paid anything for hours of work—15 cents an hour is hardly something that is going to compete with American workers and never should be something that we would see as a goal. We should raise those. But if we do not do that, you have a one-sided agreement. You have an agreement which is a green light for capital to leave the United States and, as a result, move jobs and production to those other countries. This is detrimental to our small business, particularly some of our older industries.

I don’t believe it is inevitable that our old industries, like the jewelry industry, the footwear industry, just inherently can’t compete. They can’t
compete if we allow countries of the world to pay 15 cents an hour, with no real environmental enforcement, turning the other way when there are regulatory problems, et cetera. But if we sought today to insist in our trade agreements that environmental quality is raised, that respect for workers and adequate wages are the order of the day, then I think you would be surprised at the ability of our industry to compete.

That is what I believe we are trying to do today, is set some balance in this legislation, recognize that unless we can enter into negotiations on all the critical issues that affect goods coming to the United States, we will never solve all of the issues that the Senator talked about.

Frankly, you can look at so many industries. The footwear industry is a classic example. As I mentioned in my opening remarks, growing up near Brockton, MA, that was the home of footwear for the whole world. There is nothing left there. It is not because the workers weren’t good workers. It wasn’t because the managers didn’t understand managerial techniques.

We told countries to ship into our country goods that were produced at 10 cents an hour in conditions which we would not tolerate here in the United States of America. And unless we recognize that we will never get a handle on this issue of the trade deficit, the trade balances that the Senator talked about with Senator DORGAN.

Mr. SARBANES. Will the Senator yield further?

Mr. REED. Yes.

Mr. SARBANES. Of course, the assertion used to be made, well, if we lost jobs in certain industries because our technology was always advancing, we would be out doing the more complex, complicated production techniques and therefore would gain jobs in those industries. And if you think about it, there is something to that theory.

But what has happened, in my perception, that undercuts that theory and why we are running these large trade deficits as a consequence is, first of all, as capital moves freely, capital moves into these undeveloped countries where there are no environmental standards and there are no real working conditions. So then you have people working 11, 12 hours a day for 15 cents an hour but the machines they are working on, because the capital has come in, are the same machines that people would be working on in this country.

And so the ability of capital to move that way makes it even more imperative that these environmental and working condition issues be included within the trade negotiations.

Furthermore, even if the capital does not move, as it were, voluntarily, some of those countries are demanding that it move as a condition for having any trade. China has made it very clear that companies have to bring in their top-line technology and investment so that they will then be the producers at the next economic turn.

So in order to get a contract, our people get a short-term contract, they agree as part of selling the goods that they are also going to move in the technology and an investment which then makes it possible for them to produce the goods the next economic go-round. So no longer will we not be able to sell to them, but it is my prediction they will then become our competitors down the road. So then if we are being, as it were, coerced into, in effect, providing technology, and yet we are told, well, we can’t have as part of the trade negotiation evening up the environmental and the worker landscape, economic landscape.

Mr. REED. Again, the Senator is absolutely perceptive about these particular issues. I noted before the article in today’s New York Times about Nike and Vietnam and one of the officers of Nike went to the factory that Nike was inspected was “among the most modern in the world,” in fact directly competitive, “but there are a lot of things they could get better,” according to the spokesman. But the point the Senator makes is well taken. This is not some old rattrap that was built in the 1930’s and has some ad hoc machines there. This is a modern facility. It is a modern facility, the best technology to produce footwear, but it is obvious from this report no thought or concern was cast on the workers to do the things we insist must be done in our factories.

So the Senator is absolutely right. So far as the new machines to make the product cheaper, better, faster, or higher quality, they are there, but all of the other concerns that go to the bottom line of any company, environmental quality being a major one, they can be avoided, and that is what we are facing.

I believe that unless we elevate environmental considerations to a major negotiating objective, not only will we see the further deterioration of the world’s environment, not only will we be in a situation where we go to international conferences with the rest of world asking us to do more and more and more to raise our standards, making us less competitive, we are going to see the impact in our trade balance dramatically and directly. This is not about altruism alone. This is not about ecopolitics. This is not about sensitivity to the environment alone. It is all of those things, but it is something else. It is something about having a system of trade laws which recognizes the important bottom line impact of environmental quality here and with respect to our trading partners.

I yield the floor.

Mr. WARNER addressed the Chair.

The PRESIDING OFFICER. The Senator from Virginia.

(The remarks of Mr. WARNER pertaining to the introduction of S. 1486 are located in today’s RECORD under “Statements on Introduced Bills and Joint Resolutions.”)

The PRESIDING OFFICER. The Senator from Delaware.

Mr. ROTH. Mr. President, let me start out by saying that I am a strong supporter of the environmental laws. I would not tolerate here in the United States of America. And unless we raise or lower our environmental standards.

But what has happened, in my perception, that undercuts that theory and why we are running these large trade deficits as a consequence is, first of all, as capital moves freely, capital moves into these undeveloped countries where there are no environmental standards.

Where our laws fail to meet that test, and do not otherwise benefit from an exception to a trade agreement, we are obliged to eliminate the discriminatory aspect of our law. That does not mean we have to weaken our laws. It does not mean that we have to lower our standards. It simply means that our laws have to treat imported goods and services as they do competing U.S. products, in terms of the applicable taxes, the regulatory standards, and the other conditions of sale.

Fast track was designed solely for the purpose of allowing, when needed, the conforming of our laws to our trade agreement obligations and the basic rule of non-discrimination. The purpose of fast track is not to craft legislation or regulatory standards from whole cloth, and then run them through the legislative process under the guise of a trade agreement.

I would have thought that all sides in the debate over trade and the environment could agree on that much. This bill would not allow the President to negotiate trade agreements that either raise or lower our environmental standards.

I would, of course, point out that the President does have that general authority. And of course any agreement reached by his negotiation is subject to the normal process of the Congress.

Mr. SARBANES. Will the Senator yield on that point? Is the normal process that we would be able to amend it?

Mr. ROTH. That is correct. The normal process would be that it would be subject to amendment.

Mr. SARBANES. So what we are doing here with the fast track is denying the normal process.

Mr. ROTH. Let me point out to the distinguished Senator from Maryland that since 1974 it has been the practice and policy of the Congress to give the
President authority to negotiate agreements with the assurance that whatever he negotiates, so long as it meets the goals, the objectives of the legislation, can be brought to the Congress to be acted upon without amendment. So it is a special exception that has been used in this trade negotiation.

And there is a very good reason for that. The good reason for that is, if we go way back, I think it was in 1974, it became obvious that if we were going to continue to lower barriers to open the opportunity to trade, that some device had to be made to make certain that what the President negotiated would be considered by the Congress and that there would be a vote upon it. And that is exactly what has been done, down through the years since 1974. It has been the practice to give the President authority to negotiate, setting forth the goals and objectives of those negotiations and with the assurance that he could tell the other country that an agreement would come to the Congress and be voted.

So, yes, it is an exception, a special process to meet the conditions. I would point out that it seems to me, with all the problems we have, our economy is doing extremely well today, and has been for the last 7 years. We have the lowest unemployment. Inflation is down. I think something like 30 percent of our growth is dependent upon exports. So I think it has been a worthwhile policy and one that ought to be continued.

In the past, Democratic Congresses have given it to Republican Presidents and I propose that this Republican Congress give a Democratic President the same authority.

Mr. SARBANES. If the Senator will yield just further for 1 minute, it is since 1975 that our trade balance has deteriorated in this extraordinary fashion. I understand the point. Everyone says they are doing this. The consequence of doing this is—contrary to the whole period prior to then, when we ran modest surpluses—we have now been running these very deep deficits. And the consequence of doing that is that we are now a debtor nation. I defy anyone to say that this is a welcome trend, in terms of the U.S. economic position worldwide. We have gone from being the largest creditor nation in the world to now we are the largest debtor nation, and at the end of this year we will be a debtor nation to the tune of $1 trillion.

Mr. ROTH. I would just say to my distinguished colleague, that our economy has been doing extremely well and has been for the last 7 years. So we must be doing something right. Yes, the deficit joint account has risen in amount. But at the same time, we are enjoying a growth, a prosperity without inflation, with very low unemployment. I think we are doing something right and I think it is important that the economy continues to grow and prosper. I think that means it is important that we give this President, as we have past Presidents, the necessary authority for fast track.

Let me point out once again that fast track was designed solely for the purpose of allowing us, when needed, to conform our laws to our trade agreement obligations and the basic rules of nondiscrimination.

The purpose of fast track is not to craft legislation or regulatory standards from whole cloth and then run them through the process under the guise of a trade agreement. As I said earlier, I would have thought that all sides in the debate over trade and environment could, indeed, agree on that much. This bill would not allow the President to negotiate trade agreements that either raise or lower our environmental standards. I believe that ensures that fast track will only be used for the purpose for which it was originally intended, implementing trade agreements, and not authorizing a departure from the ordinary course of Senate deliberations that is absolutely necessary to achieve that end.

Mr. President, I yield the floor.

Mr. REED addressed the Chair.

The PRESIDING OFFICER (Mr. SERRANO). The Senator from Rhode Island, Mr. REED. Mr. President, if I may briefly comment upon the amendment. First, I recognize certainly the strong commitment of the Senator from Delaware to the environmental quality in the United States. It is because of his commitment and the commitment of many of my colleagues, we have environmental laws which are significant, which provide for high quality in our country. But the problem is that our foreign competitors do not have anything close to these laws in many, many countries, particularly countries with which we are endeavoring to establish bilateral trade relationships.

I agree with the Senator that the purpose of this procedure is to conform our laws to the negotiation results that the President achieves with our trading partners. I also believe and concur with the Senator that there is no attempt to lower or diminish our environmental laws.

Simply stated, what my amendment would do is ask the President to go out and try to bring up, as best he can, foreign environmental laws to our laws. So, in effect, we would be asking him to go out and take what we have done in the United States and try to apply it to another country, not simply by dumping raw solvents into municipal wastewater systems. Not only would you have to provide pretreatment for your workers, but other entrepreneurs will have to try to do the same thing.

If we do that, I don’t think it is violative of the spirit or the letter of fast track, but it will produce a much more competitive playing field for our manufacturers versus our potential trading partners.

So I, again, urge that the Senate adopt this amendment that would move environmental quality to the center of negotiations as a principal negotiating objective, not because it is an altruistic noble goal alone, but because it impacts dramatically on the bottom line of American companies and foreign companies and, in that sense, should be part of our trading policy, should be a key goal which our President is seeking to achieve in any negotiations. I yield the floor.

Mr. ROTH addressed the Chair.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. ROTH. Mr. President, let me start out by saying that any agreement that raises environmental standards in a foreign country does not, of course, need fast-track authority because it does not need any authority. To make environmental standards subject to fast track, therefore, means that changes to United States environmental laws would be subject to an up-or-down vote in the Senate. Frankly, I am too much of a supporter of our standards to allow them to be changed in this manner.
Let me point out that, in any event, as I did make some mention, the President does have authority now to negotiate whatever he chooses in the area of environmental laws. Of course, under the Constitution, he is responsible for negotiating international agreements that might raise standards abroad or at home, or lower, such as he chooses.

But once he reaches an agreement with another country or countries, if it affects domestic law, of course, has to bring it to Congress for action. Of course, under the ordinary process, that legislation can be amended. It does seem to me that, as a general rule, whether it is environmental, health, safety or whatever, we do want to have the process be the normal process where a matter comes up in both Houses and can be amended according to the rules of each House.

I point out that if someone wants to have particular areas beyond trade, that can be done. We had, as a matter of fact, given what is, in effect, fast track to base closing, because it was decided that it was important in order to close any bases that the executive thought would close and Congress could vote it up or down but not amend. So we made another exception in that case.

It can also be pointed out that somewhat the same was done in respect to the Budget Committee. The budget has to be acted upon within a certain number of hours. There can be some amendments, but it is very limited compared with what normally is the process in the U.S. Senate. Mr. REED. Will the Senator yield?

Mr. ROTH. Yes.

Mr. REED. I understand the Senator's point—it is very well taken—about the procedures, in a sense, it might prove too much. The idea that we can outside of fast track raise or begs the question why we do certain things within fast track. Why, for example, are we saying let's make foreign laws with respect to commercial practices consistent with our laws, when, in fact, when it comes to the environment, we are saying, "Oh, no, don't include environment in this same context"?

I think perhaps the logic might be that some people either feel the environment is not important to international trade—and I think our discussions tonight should have indicated it is very important, indeed crucial—or others are simply saying we want a trade agreement, an arrangement with a foreign country which will allow us all the benefits of commercial practice in the United States, all the protection of intellectual property laws, all the protections for capital investment but none of the burdens, if you will, of high-quality environmental laws.

Again, I think, with respect, why we can't include environmental conditions as we have otherwise.

Mr. ROTH. Mr. President, the distinguished chairman of the Appropriations Committee desires to be recognized at this time.

Mr. STEVENS addressed the Chair.

The PRESIDING OFFICER. The Senator from Iowa.

Mr. STEVENS. I thank the Chair.

And I thank the distinguished Senator from Delaware.

DISTRIBUTION OF COLUMBIA APPROPRIATIONS ACT, 1998

Mr. STEVENS. Mr. President, I come to the floor to make a statement concerning the bill that has been approved by—really an amendment approved by the Appropriations Committee. This afternoon we met, and the Appropriations Committee has authorized me—and Senator BYRD—to present an amendment to the District of Columbia appropriations bill. It is before the Senate. And this amendment in the nature of a substitute.

We had hoped to be able to proceed at this time and get an agreement with regard to that. I have asked the distinguished Democratic leader to join me. And I have discussed the matter with our leader.

The difficulty is that several Members still want to read over portions of that proposed amendment before we seek to proceed on it. After discussing it with the distinguished Democratic leader, I think that is the better part of valor.

I had previously made the announcement that we would offer it tonight and hope to have debate tonight and vote tomorrow. We have a continuing resolution that expires tomorrow evening. But if the Democratic leader agrees, I think we will just hold off, and it would be the intention of the leadership to try and move to bring this matter before the Senate tomorrow, as I understand it, sometime around 1 or 1:30 tomorrow afternoon.

If that meets with the Democratic leader's approval, we will just not proceed tonight.

Mr. DASCHLE addressed the Chair.

The PRESIDING OFFICER. The distinguished Senator.

Mr. DASCHLE. Mr. President, first of all, let me commend the distinguished chairman for the work that they have put into this effort. I must say, this legislation is different than I would have thought we could have gone in the time that we have had.

These are very difficult issues, very controversial in some respects. I think the chairman and the ranking member have done a very good job. I intend to support the work product at the appointed time. But it is multihundred-paged long, and we have, I think, a need to look through it, not necessarily as much for the issue content as it is the grammatical content. And we are doing that.

I think we will be ready to have a vote on it one way or the other in early afternoon. Senator LOTT and I have consulted with the distinguished chairman. I personally would be prepared to go to a vote early afternoon. I think we can accommodate that schedule. So I think the distinguished chairman's recommendation is a good one. I hope we can work in good faith on the remaining hours tonight to be able to be ready to have that vote early tomorrow afternoon.

Mr. STEVENS. Mr. President, I thank the distinguished Democratic leader. Because of the expiration of the continuing resolution tomorrow night, and the desire of Members not to be here next week on matters that would require votes, I hope that we will be able to get to it tomorrow, and get it to the House in time for the House to consider it and dispose of it. We may face this bill coming back to us with an amendment from the House before we are through tomorrow. So it would have been my wish that we could have done it tonight, but under the circumstances we will defer until tomorrow.

I thank the Chair, and I thank the distinguished Senator.

Mr. CRAIG addressed the Chair.

The PRESIDING OFFICER. The Senator from Idaho.

MORNING BUSINESS

Mr. CRAIG. Mr. President, I ask unanimous consent that there now be a period of morning business with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

TRIBUTE TO JOHN LUNDY

Mr. LOTT. Mr. President, today is not simply he end of the 1st session of the 105th Congress. For me, this day is one that brings both new opportunities and old memories. Today marks the end of John Lundy's 7 years of service to me, first as my administrative assistant and later as my chief of staff. He has also served the great State of Mississippi.

To truly understand John and his impact on others, we must go back to his roots. John was raised on a farm in the small, rural town of Leland, MS. This upbringing taught him the meaning of community and the importance of family. John is a proud Mississippian, and still refers to the Delta as "God's Country." John graduated from Mississippi State University with a degree in agriculture—I guess he couldn't get into Ole Miss.

He then moved to Washington shortly thereafter and found a job on the staff of the Mississippi delegation in the House of Representatives. He was single, young and full of ambition. Who would have guessed that he would be returning to Mississippi 7 years later with his wife, a new baby girl and a truck full of furniture?

When I asked John to join my staff, I knew he would be a quick study. He
was. He quickly jumped into the legislative fires with both feet.

John also quickly became involved in the demands of Washington’s political world, but he never lost his Mississippi style. Or his Mississippi perspective.

Mississippians have told me for years how much they enjoy coming to Washington to see John. He makes everyone feel comfortable—no formalities, no pretenses. John can comfortably sit next to a farmer from the Delta or a banker from the coast and listen to his or her concerns. Visitors from the State are delighted to have one of their own in the Senate, knowing that the message is not going to fade away the moment they leave. Mississippians knew that John was an able steward of their concerns, that telling John was as good as telling me.

There isn’t a farmer in the State of Mississippi that doesn’t know John Lundy, either personally or by reputation. John’s knowledge of our State’s many agriculture communities is unmatched in Washington. He is respected for his understanding of the issues it brings, and for finding a fair and equitable solution for all.

Mississippi’s agriculture community was indeed fortunate to have John Lundy in Washington during the 1996 farm bill debate. I found that, although John was my staff member, other Senators adopted him as their key advisor on this bill. His tireless work on this very difficult and complex legislation brought him the respect of both the State and national agriculture community.

Most importantly, John has always put Mississippi first. No matter what the situation or how high the stakes, the needs of the State came first. We all know how easy it is to get caught up in both the glitter and the rat race of Washington, DC, but John’s focus has always been hundreds of miles south of the beltway.

Mississippians brought him problems, and he found them solutions. Many years have gone by since John joined my staff, but my admiration for him has grown with each passing day.

Now the time has come for him to return to Mississippi, to take his young family back home. This past summer, he and his beautiful wife Hayley were blessed with a baby girl, Eliza, who John says “was born to be in Mississippi.”

As the Lundy family makes their way back to Mississippi, I would like to thank them for being such an important part of my life. I cannot thank John enough for his many years of hard work and dedication. He certainly leaves big shoes to fill. His quiet humility and generous spirit will be missed by my entire staff. I will miss his guidance and friendship.

John, I wish you nothing but the best of luck in the future, May you and your family be richly blessed in the coming years.

NOMINATION OF RAYMOND C. FISHER TO BE ASSOCIATE ATTORNEY GENERAL

Mr. LEAHY. Mr. President, I remain frustrated by the Republican leadership’s unwillingness to consider and approve the President’s nomination of Ray Fisher to the third-highest ranking position at the U.S. Department of Justice. Mr. Fisher has been stalled on the Senate Calendar for a month since being reported unanimously by the Judiciary Committee on October 9.

Ray Fisher is an outstanding lawyer and public servant. His record is exemplary.

Is this another example of a secret hold? There has been no explanation of justification for this delay and lack of action.

I recall when the Senate Republican leadership delayed the vote on the nomination of Eric Holder to the Deputy Attorney General position that we were told there were Senators with problems. I also remember that when I insisted on a rollcall vote on that nomination, after it stalled on the Senate Calendar for more than 3 weeks, the problems had all been resolved and the Senate confirmed Mr. Holder unanimously. One hundred Senators voted for that nomination.

I urge the Republican leadership to allow the Senate to confirm Ray Fisher to be Associate Attorney General of the United States.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Williams, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry withdrawals and nominations, which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

ENROLLED BILLS SIGNED

At 2:15 p.m., a message from the House of Representatives, delivered by Mr. Goetz, one of its reading clerks, announced that the Speaker has signed the following bill:

S. 858. An act to authorize appropriations for fiscal year 1998 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

The enrolled bill was signed subsequently by the President pro tempore [Mr. THURMOND].

At 4:31 p.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 2534. An act to reform, extend, and repeal certain agricultural research, extension, and education programs, and for other purposes.

H.R. 2831. An act disapproving the cancellations transmitted by the President on October 6, 1997, regarding Public Law 105–45.

The message also announced that the House has passed the following bills, without amendment:

S. 813. An act to amend chapter 91 of title 18, United States Code, to provide criminal penalties for theft and willful vandalism at national cemeteries.

S. 1377. An act to amend the act incorporating the American Legion to make a technical correction.

At 4:54 p.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the Speaker has signed the following enrolled bill:

H.R. 2584. An act making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 1998, and for other purposes.

The enrolled bill was signed subsequently by the President pro tempore [Mr. THURMOND].

MEASURES REFERRED

The following bill, previously received from the House of Representatives for the concurrence of the Senate, was read the first and second times by unanimous consent and referred as indicated:

H.R. 2647. An act to ensure that commercial activities of the People’s Liberation Army of China or any Communist Chinese military company in the United States are monitored and are subject to the authorities under the International Emergency Economic Powers Act; to the Committee on Banking, Housing, and Urban Affairs.

Pursuant to the order of the Senate of September 2, 1997, the following bill was referred to the Committee on Environmenta and Public Works for a period not to exceed 20 session days:

H.R. 1658. An act to reauthorize and amend the Atlantic Striped Bass Conservation Act and related laws.

MEASURES PLACED ON THE CALENDAR

The following measure was read the first and second times by unanimous consent and placed on the calendar:

H.R. 2831. An act disapproving the cancellations transmitted by the President on October 6, 1997, regarding Public Law 105–45.

The following measure was read the second time and placed on the calendar:

S. 1414. A bill to reform and restructure the processes by which tobacco products are manufactured, marketed, and distributed, to require the use of tobacco products by minors, to redress the adverse health effects of tobacco use, and for other purposes.
ENROLLED BILL PRESENTED

The Secretary of the Senate reported that, on November 8, 1997, he had presented to the President of the United States, the following enrolled bill:

S. 858. An act to authorize appropriations for fiscal year 1998 for intelligence and intelligence activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. STEVENS, from the Committee on Appropriations:

By Mr. CAMPBELL, from the Committee on Indian Affairs, with amendments:
S. 823. A bill to provide certain benefits of the Pick-Sloan Missouri River Basin program to the Lower Brule Sioux Tribe, and for other purposes (Rept. No. 105-148).

By Mr. HUBBARD, from the Committee on Governmental Affairs, without amendment:

By Mr. MCCAIN, from the Committee on Commerce, Science, and Transportation, with amendments:

By Mr. CHAFFEE, from the Committee on Environment and Public Works, with amendments:

By Mr. ALLEN, from the Committee on the Judiciary:
S. 1460. A bill to reauthorize the Delaware, Lehigh Navigation Canal National Heritage Corridor Act, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. FEHLENBERG (for himself and Mr. COATS):
S. 1461. A bill to establish a youth mentoring program; to the Committee on the Judiciary.

By Mr. SPECTER (for himself and Mr. SANTORUM):
S. 1462. A bill to reauthorize the Delaware and Lehigh Navigation Canal National Heritage Corridor Act, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. KOHL:
S. 1463. A bill to change the date for regularly scheduled Federal elections and establish polling place hours; to the Committee on Rules and Administration.

By Mr. HATCH (for himself, Mr. BAUCUS, Mr. MACK, Mr. ABRAHAM, Mr. CONRAD, Mr. LIEBERMAN, Mr. MURkowski, Mrs. BOXER, Mr. ROCKEFELLER, Mrs. FEINSTEIN, Mrs. MURRAY, and Mr. DURBAN):
S. 1464. A bill to amend the Internal Revenue Code of 1986 to permanently extend the research credit, and for other purposes; to the Committee on Finance.

By Mr. MURPHY (for himself and Mr. TORRECELLI):
S. 1465. A bill to consolidate in a single independent agency in the executive branch the responsibilities for food safety, labeling, and inspection currently divided among several Federal agencies; to the Committee on Governmental Affairs.

By Mr. SMITH of Oregon (for himself, Mr. BINGAMAN, Mr. HUTCHINSON, and Mr. COATS):
S. 1466. A bill to amend the Public Health Service Act to permit faith-based substance abuse treatment and services to be reimbursed as Federal drug treatment assistance to select private and religiously oriented treatment, and to protect the rights of individuals from being required to receive religiously oriented treatment; to the Committee on Labor and Human Resources.

By Mr. SMITH of Oregon:
S. 1467. A bill to address the declining health of forests in the United States through a program of recovery and protection consistent with the requirements of existing public land management and environmental laws, to establish a program to inventory, monitor, and analyze public and private forests and their resources, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. BINGAMAN:
S. 1468. A bill to provide for the conveyance of one (1) acre of land from the Santa Fe National Forest to the Village of Jemez Springs, New Mexico, as the site of a fire sub-station; to the Committee on Energy and Natural Resources.

S. 1469. A bill to provide for the expansion of the historic community of El Rito, New Mexico, through the special designation of five acres of Carson National Forest adjacent to the cemetery, to the Committee on Energy and Natural Resources.

By Ms. MIKULSKIS:
S. 1470. A bill to amend the Internal Revenue Code of 1986 to clarify that certain school bus contractors and drivers are not employees; to the Committee on Finance.

By Mr. GRAHAM:
S. 1471. A bill to prohibit the Secretary of Health and Human Services from spending any medicaid-related funds recovered as part of State litigation from one or more tobacco companies as an overpayment under the medicaid program; to the Committee on Finance.

By Ms. MOSELEY-BRAUN (for herself and Mr. KENNEDY):
S. 1472. A bill to amend the Internal Revenue Code of 1986 to provide a tax credit for public elementary and secondary school construction, and for other purposes; to the Committee on Finance.

By Mr. GRAHAM (for himself and Mr. MACK):
S. 1473. A bill to encourage the development of a commercial space industry in the United States, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. D’AMATO:
S. 1474. A bill to suspend temporarily the duty on certain high tenacity single yarn of viscose rayon; to the Committee on Finance.
S. 1475. A bill to suspend temporarily the duty on certain twisted yarn of viscose rayon; to the Committee on Finance.

By Mr. D’AMATO (for himself, Ms. MOSELEY-BRAUN, and Mr. COCHRAN):
S. 1476. A bill to authorize the President to enter into a trade agreement concerning Northern Ireland and certain border counties of the Republic of Ireland, and for other purposes; to the Committee on Finance.

By Mr. D’AMATO:
S. 1477. A bill to amend the Harmonized Tariff Schedule of the United States to provide that certain goods may be reimported into the United States without additional duty; to the Committee on Finance.

S. 1478. A bill to suspend temporarily the duty on certain viscose rayon yarn; to the Committee on Finance.

By Ms. SNOWE (for herself and Mr. BINGAMAN):
S. 1480. A bill to authorize appropriations for the National Oceanic and Atmospheric Administration to conduct research, monitoring, and other activities for the eradication and control of harmful algal blooms, including blooms of
November 8, 1997

CONGRESSIONAL RECORD—SENATE

S12119

Psiaxaea piscicola and other aquatic toxins; to the Committee on Commerce, Science, and Transportation.

By Mr. BINGAMAN:
S. 1484. A bill to increase the number of qualified persons for the Library of Congress, and for other purposes; to the Committee on Rules and Administration.

By Mr. WARNER (for himself and Mr. STEVENS):
S. 1486. A bill to authorize acquisition of certain property for the Library of Congress, and for other purposes; to the Committee on Rules and Administration.

By Ms. MOSELEY-BRAUN:
S. 1487. A bill to establish a National Voluntary Mutual Reunion Registry; considered and passed.

By Mr. MUKROWSKI (for himself and Mr. WYDEN):
S. 1488. A bill to ratify an agreement between the Aleut Corporation and the United States for exchange lands received under the Alaska Native Claims Settlement Act for certain land interests in Adak Island, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. CRAIG (for himself, Mr. LEVIN, Ms. MCCAIN, and Ms. LANDRUM):
S. 1487. A bill to establish a National Voluntary Mutual Reunion Registry; considered and passed.

By Mr. MUKROWSKI (for himself and Mr. WYDEN):
S. 1489. A bill to provide the public with access to outfitted activities on Federal land, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. JEFFORDS:
S. 1490. A bill to improve the quality of child care provided through Federal facilities and programs, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. KENNEDY (for himself, Mr. LAUTENBERG, Mr. DURBIN, Mr. REED, and Mr. KERRY):
S. 1491. A bill to increase the excise tax rate on tobacco products; to the Committee on Finance.

S. 1492. A bill to amend the Public Health Act and the Federal Food, Drug and Cosmetic Act to prevent the use of tobacco products by minors, to reduce the level of tobacco addiction, to compensate Federal and State governments for a portion of the health costs of tobacco-related illnesses, to enhance the national investment in biomedical and basic scientific research, and to expand the programs to address the needs of children, and for other purposes; to the Committee on Labor and Human Resources.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. DOMENICI (for himself and Mr. BINGAMAN):
S. Res. 1489. A resolution designating 1998 as the "Onate Quartocentenario", the 400th anniversary commemoration of the first permanent Spanish settlement in New Mexico; to the Committee on Commerce, Science, and Transportation.

By Mrs. FEINSTEIN (for herself, Mr. THOMAS, Mr. KERRY, Mr. SMITH of Oregon, Mrs. MURRAY, Mr. HAGEL, Mr. GRASSLEY, Mr. JOHNSON, and Mr. ROTHSCHILD):
S. Res. 149. A resolution expressing the sense of the Senate regarding the state visit to the United States of the President of the People's Republic of China; to the Committee on Foreign Relations.

By Mr. MCCAIN:
S. Con. Res. 66. A concurrent resolution to correct the enrollment of S. 396; considered and agreed to.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. MOSELEY-BRAUN:
S. 1457. A bill to amend the Harmonized Tariff Schedule of the United States to extend to certain fine jewelry certain trade benefits under provisions of the United States; to the Committee on Finance.

HARMONIZED TARIFF SCHEDULE AMENDMENT
ACT OF 1997

Ms. MOSELEY-BRAUN. Mr. President, today I am pleased to introduce a bill to amend the Harmonized Tariff Schedule of the United States to extend certain trade benefits to fine jewelry produced in the U.S. Virgin Islands, Guam, and American Samoa. Under current law, in the Internal Revenue Code of 1986, additional U.S. Note 5 to Chapter 91 of the Harmonized Tariff Schedule provides limited duty-free treatment and duty refunds to certain articles which contain any foreign component. However, energy produced from wind is both limited and controversial. As we all know, our Nation's energy supply is both limited and controversial. However, energy produced from

---

Congress assembled. That the additional U.S. notes to chapter 71 of the Harmonized Tariff Schedule of the United States are amended by adding at the end the following new note:

"(e) Nothing provided for in this note shall result in an increase in the aggregate amount referred to in paragraph (b)(iii) of, or quantitative limitation otherwise established pursuant to the requirements of, additional U.S. note 5 to chapter 91."

As we all know, our Nation's energy supply is both limited and controversial. However, energy produced from
wind is clean, renewable and homegrown. There is nothing limited or controversial about this source of energy, the wind. Americans need only to make the necessary investments in order to capture it for power.

Our legislation extends the production tax credit and the focus on energy produced from wind through the month of June, 2004. Scientists blame excessive carbon dioxide for global warming. The chief sources of environmentally dangerous carbon dioxide are emissions from the burning of fossil fuels. Obviously, we need other safer sources. Wind energy is clean, abundant, and a U.S. resource that produces electricity with virtually no carbon dioxide emissions.

Every 10,000 megawatts of wind energy can reduce carbon dioxide emissions by 33 million metric tons. Today, our Nation produces only 1,700 megawatts of wind energy. However, the American Wind Energy Association estimates that U.S. wind capacity can reach 30,000 megawatts by the year 2010. This is enough electricity to meet the needs of 10 million homes, while reducing pollution in every State in the Nation.

Americans naturally find abundant wind in every State in the Union. Wind is a homegrown energy. No foreign powers can control our source of wind energy. No American soldiers or sailors will ever need to fight in foreign wars to protect our supply of wind energy, as they must in the case of oil. For example, consider the Persian Gulf war. No supertankers will ever crack up in the sea and pollute our beaches because of energy produced from wind.

In short, wind energy is a good investment in the present and the future. Our legislation extends the successful wind energy production tax credit. It is a very successful way of promoting this source of energy. It is a cheap investment with high returns for ourselves, our children, our grandchildren and their grandchildren. The Senate needs to again pass this important legislation to ensure the wind energy production tax credit into the next century. I encourage all of my colleagues to cosponsor.

Mr. President, I ask unanimous consent that the bill be printed in the RECORD. There being no objection, it is so ordered.

Being printed in the RECORD, as ordered, it is so ordered.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1459

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. 5-YEAR EXTENSION OF CREDIT FOR PRODUCING ELECTRICITY FROM WIND AND BIOMASS.

Paragraph (3) of section 45(c) of the Internal Revenue Code of 1986 (defining qualified facilities) is amended by striking "1999" and inserting "2004".

Mr. JEFFORDS. Madam President, I enthusiastically join my colleagues in offering legislation that would allow wind and biomass energy to continue to advance as commercially viable renewable energy sources. This legislation will allow wind and biomass energy to play a competitive role in the growing domestic energy market.

The Energy Policy Act of 1992, Congress established a mechanism to increase investments in new or emerging energy technologies. In 2 years, this credit will expire. Companies developing wind energy, who require a 2-3 year lead time for installing and building wind power are unable to take advantage of the available credit before it expired. Congress should extend the credit program to allow continued efforts to increase production of electricity from wind and biomass.

To date, significant progress has been made in the development of wind energy, and this industry is poised to further increase its production capacity. With support from Congress through research and development funding and investment tax credits wind energy has become more competitive and the technology has improved in designs and operation. Generation costs from wind have dropped from 25 cents per kilowatt hour in 1980 to a low of 7 cents per kilowatt hour. Investments in new technological improvements will further reduce the cost of this energy source and will enable the industry to play a key role in the new competitive electric utility environment.

Likewise, biomass energy technologies, which are derived from any plant material and some forms of animal waste, are continuously improving in performance and cost.

Madam President, I want to emphasize the importance of using renewable energy to meet our growing demand for energy. Renewable energy is important for several reasons: First, it does not produce harmful, life-threatening pollution; second, it is capable of providing ample energy to meet the huge amount of demand that is forecasted; third, it increases our energy and economic security; and fourth, since more than 2 billion people in the world live without electricity, it creates jobs in the United States.

I thank my colleagues for working with me to extend the credit program for producing energy from wind and biomass.

Mr. CONRAD. Mr. President, I rise today to join Senators GRASSLEY and JEFFORDS as a proud cosponsor of legislation to extend the wind energy production tax credit. I want to commend the primary sponsors of this legislation for their leadership in developing this bill. This bill we are introducing today takes an important next step in encouraging the development of this very important source of renewable energy. Wind energy offers great promise for putting America on the road to greater energy independence and economic prosperity.

I have been a long-time supporter of developing additional sources of renewable energy, particularly energy from wind and crops. In 1993, Senator GRASSLEY and I introduced S. 1180, the Wind Energy Incentives Act of 1993, to provide additional incentives for developing our wind energy resources. My home State of North Dakota has abundant wind energy resources more than any other State. I have often referred to North Dakota as the "Saudi Arabia of wind energy."

I strongly support encouraging development of additional sources of energy that we can extract from our own resources- that the United States continues to face a serious energy problem. While we do not see the long gas lines of the 1970's, today we import more than half the oil we use, up from about 30 percent in 1974. While we no longer depend on just a few sources for that oil, it remains a dangerous dependence, and makes up a significant portion of our trade deficit.

In 1992, Congress passed and the President signed the Energy Policy Act which took a number of important steps toward developing our own energy resources here at home. One provision was the production tax credit of 1.5 cents per kilowatt hour for wind energy. This credit is meant to reduce the cost of these renewable energy resources to make them competitive with conventional energy sources. It is also meant to encourage the development of these new resources to the point where economies of scale enable them to compete in the open market.

The wind production tax credit established by the 1992 Energy Policy Act is set to expire in just 2 years. However, the financing and permitting required for a typical new wind facility requires 2-3 years of lead time. Because the wind production tax credit will expire in 2 years without the extension we are introducing today, investment funds to develop new wind projects are drying up, unnecessarily halting future project planning. Additionally, the cost of wind energy has dropped significantly from its earlier days, and as the technology matures the cost will continue to drop.

I urge my colleagues to join us in taking this step toward energy independence by cosponsoring this legislation.

Mrs. FEINSTEIN. Mr. President, I rise this afternoon to cosponsor legislation introduced by my colleagues Senator GRASSLEY and Senator JEFFORDS to extend the production tax credit, a tax incentive to encourage wind-generated energy.

Today, California's Tehachapi-Mojave area is the world's largest producer of wind-generated electricity. The New York Times has described the area's 5,000 electricity producing wind turbines as a vision of the future. Wind generation energy provides a renewable, clean, environmentally sound source of energy in California. I am pleased to lend my support to the Grassley-Jeffords legislation.

The production tax credit provides a 1.5 cent tax credit for each kilowatt of...
electricity produced in the United States during the first ten years a new wind energy production facility is in service. The legislation is an inexpensive way to encourage clean, efficient and sustainable energy future for our children and grandchildren.

Under current law, the production tax credit is scheduled to expire in 1999, complicating the planning and development of new wind energy generation facilities. New wind energy facilities, like any major construction project, take several years to move from planning to operation. Without the certainty of the credit after 1999, investors will be reluctant to commit funds for the development of new wind energy facilities. Industry officials have already noticed a decline in investment, which can be attributed to the credit's uncertainty.

Wind energy is the world's fastest growing energy technology. The amount of wind-generated power has increased by 25 percent each year during the last 5 years, growth which is expected to continue through 2020. Wind-generated energy is expected to become a $400 billion industry worldwide by 2020. However, most of the growth is occurring in Europe, rather than here in the United States. No new wind power generation development has occurred in the United States since 1991.

I am pleased that California companies, including those in south and central California, are among the world's leading manufacturers and developers of wind energy facilities. If domestic firms are able to capture even one-fourth of the market, domestic firms could benefit greatly from investing in the U.S. wind energy industry. The legislation is an inexpensive way to encourage clean, efficient and sustainable energy future for our children and grandchildren.

Wind energy is expected to supply 30,000 megawatts of energy by 2020. However, most of the growth is occurring in Europe, rather than here in the United States. No new wind power generation development has occurred in the United States since 1991.

I am pleased that California companies, including those in southern and central California, are among the world's leading manufacturers and developers of wind energy facilities. New wind energy facilities, like any major construction project, take several years to move from planning to operation. Without the certainty of the credit after 1999, investors will be reluctant to commit funds for the development of new wind energy facilities. Industry officials have already noticed a decline in investment, which can be attributed to the credit’s uncertainty.

By Mr. FAIRCLOTH:
S. 1458. A bill to restrict the use of the exchange stabilization fund; to the Committee on Banking, Housing, and Urban Affairs.

The accountable for international bailouts act of 1997.

Mr. FAIRCLOTH. Mr. President, last week, the Treasury Department announced that it planned to use $3 billion from the exchange stabilization fund for Indonesia. This fund was established in the 1930’s to protect the U.S. dollar. It was designed to be the personal piggy bank of the Secretary of the Treasury to bail out other countries whenever he desires.

The legislation I am introducing would require that, when this fund is used to bail out a country, or buy or sell foreign currency, such use would require congressional approval.

Using this fund for Indonesia is the same procedure that was used to bypass the Congress for the bailout of Mexico. At the time Mr. Brady was told that the emergency bailout of Mexico was needed because they were our neighbor, friend, and that economic instability would spill thousands of immigrants into the United States.

I find no such rationale for Indonesia. In fact, what is occurring is that we are seeing a tidal wave of bailouts coming our way from Asia.

Apparently, the need for the bailouts is greater than the resources of the IMF. This is the reason the United States has had to resort to taking money from our own reserves to bail out Indonesia.

In fact, the tidal wave has already started. The Philippines in July for $1 billion. Thailand for $16 billion in September. Now comes Indonesia for $23 billion in November. The price tag keeps getting bigger and bigger, and we don’t know where it is going to stop. The Treasury Secretary tried to keep us out of the first two bailouts—but the price tag is getting too big—now direct United States dollars are being called upon for the Asian bailouts.

This week Business Week is suggesting the price tag is as high as $100 billion. Who is next? South Korea, Malaysia? Perhaps China and Japan—whose banks are holding billions in bad loans?

What is really outrageous about this situation is that these are the very same countries that we have been running massive trade deficits for years.

With Thailand we have a $4.6 billion trade deficit. Indonesia a $4 billion deficit. Philippines a $2 billion deficit. South Korea a $1 billion trade deficit—and China is not far behind either.

These are the same countries that have kept out U.S. imports with phony trade rules and insider deals. These are the same countries that have closed banking markets.

Indonesia, in particular, was so flush with cash apparently, that they could afford to funnel millions in campaign contributions to influence U.S. elections—and here we are, the United States, bailing them out. Is it any wonder that the average American worker has no faith that the Federal Government in Washington cares about him or her.

We have got people living paycheck to paycheck in this country. We don’t need to bail out foreign ministers, for- eign banks and securities firms, and rich Wall Street bankers that lent too much money to developing nations.

The average American has to tell himself life story just to get a mortgage. Meanwhile the U.S. is loaning billions to these Asian countries on the nod of some foreign finance minister.

Now the bill for the bailout is being handed to the U.S. taxpayer. I find it deplorable. The auto plant worker, the secretary, the small town banker—all are being asked to turn over their tax dollars so we can ship them to Asia.

I think President Clinton and Robert Rubin need to realize that Wall Street and Indonesia did not elect them—the people of the United States did, and that is who they own their loyalties to.

They need to remember that.

Mr. President, I can promise you that in the next session of Congress—this will not continue. I plan to subject every foreign bailout dollar to congressional approval. This legislation is the first step in that process.

By Mr. LAUTENBERG:
S. 1460. A bill for the relief of Alexandre Malofienko, Olga Malofienko, and their son Vladimir Malofienko; to the Committee on the Judiciary.

PRIVATE RELIEF LEGISLATION

Mr. LAUTENBERG. Mr. President, today I am introducing legislation to provide permanent residency in the United States for 13-year-old Vova Malofienko and his family, residents of Short Hills, N.J. An identical bill is being introduced in the House by Congressman Steve Rothman and Congressman Bob Franks. Vova Malofienko has leukemia from his having lived 30 miles from the Chernobyl nuclear reactor in Ukraine during and after the infamous disaster. His leukemia is in remission only because of the emergency medical treatment he’s received in the United States.

Were Vova forced to return to Ukraine, the United States would be placing an innocent child near front line of the death row. Vova was one of eight children of Chernobyl who came to the United States in 1990—and when the seven others later returned to Ukraine, they died one by one because of inadequate cancer treatment. Not a child survived.

On behalf of the Malofienkos, I ask my colleagues for their invaluable support for this legislation. We are a compassionate nation that should open its
heart to Vova and his family, who came in dire medical need.

Mr. President, I would like to take this opportunity to tell my colleagues a bit more about Vova and his family. Vladimir “Vova” Malofienko was born on December 25, 1984, in Chernigov, Ukraine. His mother, Olga Matsko, was born on 9/29/59 in Piratin, Ukraine, and his father, Alexander Malofienko, was born on 12/25/57 in Chernigov, Ukraine.

Vova was only 2 when the Chernobyl reactor in Chernobyl exploded in 1986 and exposed him to radiation. He was diagnosed with leukemia in June 1990 at age 6. Vova and his mother came to the United States later in 1990 on a B-1 visitor’s visa so that Vova could attend cancer treatment camp for children, sponsored by the Children of Chernobyl Relief Fund. Vova was invited to stay in the United States to receive more extensive treatment and chemotherapy. In November of 1992, Vova’s cancer went into remission. Vova’s father, Alexander Malofienko, joined the family in 1992, also on a B-1 visa.

The Malofienko family is currently in the United States with extended voluntary departure through March of 1998. Alexander Malofienko’s second application for permanent resident certification is pending before the New Jersey Department of Labor. The first application for Labor certification was denied.

Vova and his family desire to remain in the United States because of the extraordinary health concerns facing Vova. Regrettably, as I mentioned earlier, Vova is the only survivor from a group of eight children of Chernobyl who came to the United States together in 1990. The seven other children returned to Ukraine and have since died.

Now that Vova is in remission, it would indeed be tragic to return him to an environment which would once again endanger his life. The air, food, and water in Ukraine are contaminated with radiation. People residing there for several years have grown accustomed to, but which could be perilous to Vova’s weakened immune system.

Furthermore, treatment available in Ukraine is not as sophisticated and up to date as treatment available in the United States. Before Vova came to the United States, no aggressive treatment for his leukemia had been provided. Although Vova completed his chemotherapy in 1992, he continues to receive medical follow-up on a consistent basis, including physical examinations, lab work and radiological examinations to assure early detection and prompt and appropriate therapy in the unforeseen event the leukemia recurs.

According to Dr. Peri Kamalakar, Director of the Valerie Fund Children’s Center at Newark Beth Israel hospital, where Vova has received care, Vova’s cancer is considered high risk with a threat of relapse. He is also at risk to develop secondary cancers. An-
Joshua Rosenblum, a spokesman for the state Labor Department, was not aware of Vova’s plight or the father’s application. He said his office was searching for the application and had not located it by late yesterday afternoon.

Lautenberg also sent a letter to Gov. Christie Whitman appealing to her “to do everything possible to assure that the Malofienkos family does not face deportation due to administrative inertia and bureaucratic entanglements.”

A spokesman for Whitman, Gene Herman, said the Governor’s Office would investigate. He said delays in the state’s processing of the application may have been caused by cuts in federal funds.

By Mr. LAUTENBERG (for himself and Mr. COATS):

S. 1461. A bill to establish a youth mentoring program; to the Committee on the Judiciary.

THE JUMP AHEAD ACT OF 1997

Mr. LAUTENBERG. Mr. President, millions of young people cry out for help. It would be irresponsible to turn our backs and do nothing when a solution is not only at hand—but has already proved popular and effective. The problem is “at-risk” youth. The solution is mentoring.

Mr. President, let me give you some idea of the scope of the problem. Last month the census released a report that said half of America’s 16 and 17 year olds are at-risk children. Half. That’s 3.7 million children at just those very critical ages for the drop. General Reno cited the idea of the scope of the problem. Last year the census reported that violent crime among teenagers had dropped for the second straight year. Among the reasons for the drop, General Reno cited the community mentoring programs that we created with the original Juvenile Mentoring Program, or JUMP, in 1992. Since its enactment, JUMP has funded 93 separate mentoring programs in more than half the states. The competition for JUMP awards is great: Over 479 communities submitted applications for the recent round of grants. JUMP grantees use a variety of program designs. Mentors include law enforcement and fire department personnel, college students, senior citizens, Federal employees, business people, professionals, and other diverse volunteers.

The children are of all races. They come from urban, suburban, and rural communities, ranging in age from 5 to 20. In its first year, JUMP helped to keep thousands of at-risk young people in 25 States in school and off the streets through one-to-one mentoring.

Mr. President, this program has proved popular and effective and that is why today Senator COATS and I are introducing the JUMP Ahead Act of 1997. I want to thank Senator COATS for his commitment and I am pleased that he is an original cosponsor of this bill.

General Reno was not speaking idly when she touted the benefits of mentoring. A 1995 scientific study of the Big Brothers/Big Sisters Programs bears this out.

The study tracked 959 children in eight cities. Of the children studied, 40 percent came from broken homes, 27 percent had been abused, 28 percent came from homes where the spouse was abused, and 15 percent had suffered the death of a parent. This was a classic pool of at-risk children.

The results after just 1 year were startling. Compared to children who were on a waiting list to enter the program, the children in the study abused alcohol 27 percent less, were 32 percent less likely to engage in violent behavior, and missed 52 percent fewer school days.

These dramatic results were achieved at a cost of just $1,000 a match. Compare that to the $24,000 a year we’re willing to spend to put someone in jail once they’ve dropped out of school and turned to crime or drugs. You are going to hear a lot of statistics today. But too often we lose sight of the human aspect of these numbers. So let me tell you the story of one child.

Recently, I hosted a conference on mentoring in my home State of New Jersey. There I met 11-year-old Kenneth Jackson. Once Kenneth had been a troubled student who was considered likely to drop out of school. His mentor, Kenneth reads and does arithmetic at two grades above his actual sixth grade level. And the best news? Kenny Jackson reported to the Senator.

By Mr. LAUTENBERG (for himself and Mr. COATS):

THE JUMP AHEAD ACT OF 1997

Mr. LAUTENBERG. Mr. President, millions of young people cry out for help. It would be irresponsible to turn our backs and do nothing when a solution is not only at hand—but has already proved popular and effective. The solution is mentoring.

Mr. President, let me give you some idea of the scope of the problem. Last month the census released a report that said half of America’s 16 and 17 year olds are at-risk children. Half. That’s 3.7 million children at just those two ages. Other estimates run as high as 15 million for children of all ages.

Among the factors putting these children at risk are poverty and being raised in a single-parent family. Twenty-one percent of our children live in poverty—a six point increase since 1970. Twenty-eight percent live in one-parent households—a 16-percent increase since 1970. These “at-risk” children are more likely to drop out of school and be unable to find work. And that, Mr. President, is the path to drugs and crime. Mentoring is a proven way to reach out to these kids and provide them with caring role models who can help turn their lives around.

Earlier this month, Attorney General Janet Reno reported that violent crime

by teenagers had dropped for the second straight year. Among the reasons for the drop, General Reno cited the community mentoring programs that we created with the original Juvenile Mentoring Program, or JUMP, in 1992. Since its enactment, JUMP has funded 93 separate mentoring programs in more than half the states. The competition for JUMP awards is great: Over 479 communities submitted applications for the recent round of grants. JUMP grantees use a variety of program designs. Mentors include law enforcement and fire department personnel, college students, senior citizens, Federal employees, business people, professionals, and other diverse volunteers.

The children are of all races. They come from urban, suburban, and rural communities, ranging in age from 5 to 20. In its first year, JUMP helped to keep thousands of at-risk young people in 25 States in school and off the streets through one-to-one mentoring.

Mr. President, this program has proved popular and effective and that is why today Senator COATS and I are introducing the JUMP Ahead Act of 1997. I want to thank Senator COATS for his commitment and I am pleased that he is an original cosponsor of this bill.

General Reno was not speaking idly when she touted the benefits of mentoring. A 1995 scientific study of the Big Brothers/Big Sisters Programs bears this out.

The study tracked 959 children in eight cities. Of the children studied, 40 percent came from broken homes, 27 percent had been abused, 28 percent came from homes where the spouse was abused, and 15 percent had suffered the death of a parent. This was a classic pool of at-risk children.

The results after just 1 year were startling. Compared to children who were on a waiting list to enter the program, the children in the study abused alcohol 27 percent less, were 32 percent less likely to engage in violent behavior, and missed 52 percent fewer school days.

These dramatic results were achieved at a cost of just $1,000 a match. Compare that to the $24,000 a year we’re willing to spend to put someone in jail once they’ve dropped out of school and turned to crime or drugs. You are going to hear a lot of statistics today. But too often we lose sight of the human aspect of these numbers. So let me tell you the story of one child.

Recently, I hosted a conference on mentoring in my home State of New Jersey. There I met 11-year-old Kenneth Jackson. Once Kenneth had been a troubled student who was considered likely to drop out of school. His mentor, Kenneth reads and does arithmetic at two grades above his actual sixth grade level. And the best news—Kenneth told me that now he thinks school is cool and that he never thinks about dropping out. It’s hard to argue with success like that.

Sadly, Kenneth’s mentor—Dwight Giles—is no longer with us. He recently
died of a heart attack. Dwight was a good friend and I mourn his passing. And I would like to dedicate this bill to his memory.

Mr. President, we need to take this successful program to the next level. The JUMP Ahead Act reforms the basic structure of JUMP and increases funding to $50 million per year for four years and increases awards to up to $200,000.

This initiative will not only vastly increase the number of mentoring programs able to receive grants, but will also open a new category of grants to enable experienced national organizations to provide technical assistance to emerging mentoring programs nationwide. The legislation also requires the Justice Department to rigorously evaluate the programs and document what is effective, and what is not.

Finally, Mr. President, we like to talk a lot about pulling yourself up by your boot straps. But that doesn’t mean much for a child unless you also provide a solid path to walk on. I grew up poor in Paterson, NJ. But I had rich role models in my hard-working parents. Too many children today don’t have that same blessing.

Mentoring tells us at-risk kids that we as a nation care about them—that their lives are precious to us. Mentoring tells them that if they are willing to pull on those boots and try to walk away from a dead end life, they will not have to walk alone.

Mr. President, I have told you the scope of the problem. And in America, when we have a problem we don’t just wring our hands and say nothing can be done. We roll up our sleeves and get to work.

Mr. President, with this bill we will get to work for our children. I hope my colleagues will support the bill, and ask unanimous consent that a copy of the legislation be printed in the RECORD and a study by the Big Brothers/Big Sisters be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1461

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “JUMP Ahead Act of 1997”.

SEC. 2. FINDINGS.

Congress finds that—

(1) millions of young people in America live in areas in which drug use and violent and property crimes are pervasive;

(2) unfortunately, many of these same young people come from single parent homes, or from environments in which there is no responsible, caring adult supervision;

(3) all children and adolescents need caring adults in their lives, and mentoring is an effective way to fill this special need for at-risk children. The special bond of commitment and mutual respect inherent in effective mentoring can be the tie that binds a young person to a better future;

(4) through a mentoring relationship, adult volunteers and participating youth make a significant commitment of time and energy to develop relationships devoted to personal, academic, emotional, mental, social, artistic, or athletic growth;

(5) rigorous independent studies have confirmed that effective mentoring programs can and do substantially reduce the use of alcohol and drugs by young people, improve school attendance and performance, improve peer and family and peer relationships, and reduce violent behavior;

(6) since the inception of the Federal JUMP program, dozens of innovative, effective mentoring programs have received funding grants;

(7) unfortunately, despite the recent growth in public and private mentoring initiatives, it is reported that between 5,000,000 and 15,000,000 additional children in the United States could benefit from being matched with a mentor; and

(8) although great strides have been made in reaching at-risk youth since the inception of the JUMP program, millions of vulnerable American children are not being reached, and without an increased commitment to connect these young people to responsible adults role models, our country risks losing an entire generation to drugs, crime, and unproductive lives.

SEC. 3. JUVENILE MENTORING GRANTS.

(a) In general.—Section 286B of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5667e–2) is amended—

(1) by inserting “(a) IN GENERAL.—” before “The Administrator shall”;

(2) by striking paragraph (2) and inserting the following:

“(2) are intended to achieve 1 or more of the following goals:

(A) Discourage at-risk youth from—

(1) using illegal drugs and alcohol;

(2) engaging in violence;

(3) using guns and other dangerous weapons;

(4) engaging in other criminal and anti-social behavior; and

(B) becoming involved in gangs.

(B) Promote personal and social responsibility among at-risk youth;

(C) Increase at-risk youth’s participation in, and enhance the ability of those youth to benefit from, elementary and secondary education;

(D) Encourage at-risk youth participation in community service and community activities;

(E) Provide general guidance to at-risk youth; and

(3) by adding at the end the following:

“(b) AMOUNT AND DURATION.—Each grant under this part shall be awarded in an amount not to exceed a total of $200,000 over a period of not more than 3 years.

(c) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated $50,000,000 for each of fiscal years 1999, 2000, 2001, and 2002 to carry out this section.

SEC. 4. IMPLEMENTATION AND EVALUATION GRANTS.

(a) In general.—The Administrator of the Office of Juvenile Justice and Delinquency Prevention of the Department of Justice may make grants to national organizations or agencies serving youth, in order to enable those organizations or agencies—

(1) to conduct a multisite demonstration project, involving between 5 and 10 project sites, that—

(A) provides an opportunity to compare various programs to allow for the purpose of evaluating the effectiveness and efficiency of those models;

(B) allows for innovative programs designed under the oversight of a national organization or agency serving youth, which programs may include—

(i) technical assistance;

(ii) training; and

(iii) research and evaluation; and

(C) disseminates the results of such demonstration project to allow for the determination of the best practices for various mentoring programs;

(2) to develop and evaluate screening standards for mentoring programs;

(b) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated $50,000,000 for each of the fiscal years 1999, 2000, 2001, and 2002 to carry out this section.

SEC. 5. EVALUATIONS; REPORTS.

(a) EVALUATIONS.—

(1) IN GENERAL.—The Attorney General shall enter into a contract with an evaluating organization that has demonstrated experience in conducting evaluations, for the conduct of an ongoing, rigorous evaluation of the programs and activities assisted under this Act or under section 228B of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5667e–2) (as amended by this Act).

(2) CRITERIA.—The Attorney General shall establish a minimum criteria for evaluating the programs and activities assisted under this Act or under section 228B of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5667e–2) (as amended by this Act), which shall provide for a description of the implementation of the program or activity, and the effect of the program or activity on participants, schools, communities, and youth served by the program.

(b) REPORTS.—

(1) GRANT RECIPIENTS.—Each entity receiving a grant under this section 228B of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5667e–2) (as amended by this Act) shall submit to the evaluating organization entering into the contract under subsection (a)(1), an annual report regarding any program or activity assisted under this Act or under section 228B of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5667e–2) (as amended by this Act). Each report under this paragraph shall be submitted at such time, in such a manner, and shall be accompanied by such information, as the evaluating organization may reasonably require.

(2) COMPTROLLER GENERAL.—Not later than 4 years after the date of enactment of this Act, the Attorney General shall submit to Congress a report evaluating the effectiveness of grants awarded under this Act and under section 228B of the Juvenile Justice and Delinquency Prevention Act of 1974 (42 U.S.C. 5667e–2) (as amended by this Act), in—

(A) reducing juvenile delinquency and gang participation;

(B) improving the school dropout rate; and

(C) improving academic performance of juveniles.

November 8, 1997
In the past decade, mentoring programs for disadvantaged children and adolescents have received serious attention as a promising approach for improving these children’s lives, enhancing their need for positive adult contact, and providing one-on-one support and advocacy for those who need it. Mentoring is also recognized as an effective way to utilize volunteers to address the problems created by poverty (Freedman, 1992).

Through a mentoring relationship, adult volunteers and participating youth make a significant commitment of time and energy to develop relationships devoted to personal, academic, or career development and social, athletic, or artistic growth (Becker, 1994). Programs historically have been based in churches, colleges, communities, courts, or schools and have focused on careers or hobbies.

The child mentoring movement had its roots in the late 19th century with “friendly visitors” who would serve as role models for children. In 1865, Lillian Wald, founder of the Henry Street Settlement, founded a movement that used “big brothers” to reach out to children who were in need of socialization, firm guidance, and corrective adult role models. The resulting program, Big Brothers/Big Sisters (BB/BS) of America, continues today as the largest mentoring organization of its kind.

BB/BS programs across the Nation provide screening and training to volunteer mentors and carefully match the mentors with “little brothers” and “little sisters” in need of guidance. Public/Private Ventures (P/PV) performed an 18-month experimental evaluation of eight BB/BS mentoring programs that considered social activities, academic performance, attitudes and behaviors, relationships with family and friends, self-concept, and social and cultural enrichment. The study found that mentoring youth were less likely to become involved in crime or to use alcohol, resort to violence, or skip school. In addition, mentored youth were more likely to improve their grades and their relationships with family and friends.

FROM THE ADMINISTRATOR

All children need caring adults in their lives, and mentoring is one way to fill this need for young people. The special commitment fostered by the mutual respect inherent in effective mentoring can be the tie that binds a young person to a better future.

OJJDP’s Juvenile Mentoring Program (JUMP) is designed to reduce delinquency and improve school attendance for at-risk youth. Mentoring is also one component of our SafeFutures initiative, which assists communities to combat delinquency by developing a full range of coordinated services. In addition to JUMP and SafeFutures, OJJDP supports mentoring efforts in individual States through our Formula Grants Program funding.

With nearly a century of experience, Big Brothers/Big Sisters of America is probably the best known mentoring program in the United States. The extensive evaluation of this program by Public/Private Ventures (P/PV), described in this Bulletin, provides new insights that merit our attention. The P/PV evaluation and OJJDP’s 2-year experiment with JUMP have strengthened the role of mentoring as a component of youth programming that may pay handsome dividends in improved school performance and reduced antisocial behavior, including alcohol and other drug abuse.

The Juvenile Mentoring Program (JUMP) is a Federal program administered by the Office of Juvenile Justice and Delinquency Prevention (OJJDP). Mentoring is a one-on-one relationship between a pair of unrelated individuals, one adult and one juvenile, which takes place on a regular or sporadic basis over a period of time. It is almost always characterized by a “special bond of mutual commitment” and “an emotional character of respect, loyalty, and identification” (Greenfield, 1990). Although mentoring is also a popular concept for success in the corporate world, this Bulletin focuses on the mentoring of children by adults.

JUMP is designed to reduce juvenile delinquency and gang participation, improve academic performance, and reduce school dropout rates. To achieve these purposes, JUMP brings together caring, responsible adults and at-risk youth in need of positive role models.

In the 1992 Reauthorization of the Juvenile Justice and Delinquency Prevention Act of 1974, Congress added Part G—Mentoring. This was done in recognition of mentoring’s potential for meeting many critical concerns in regard to America’s children—poor school performance and delinquent activity. Senator Frank Lautenberg and Congressman William Goodling were the primary sponsors of this new provision. In Part G, Congress also recognized the importance of school collaboration in mentoring programs, so-called “umbrella” programs or as a partner with other public or private non-profit entities.

To date Congress has made $19 million available to fund JUMP: $4 million each year in fiscal years (FY’s) 1994, 1995, and 1996 and $7 million in FY 1997. OJJDP funded 41 separate mentoring programs under the JUMP umbrella with FY 1994 and 1995 funding. JUMP awards for FY 1996 and FY 1997 will be announced in spring 1997.

While adherence to the basic requirements of JUMP, the grantees are using a variety of program designs. Mentors are law enforcement and fire department personnel, college students, non-profit employees, businessmen, and other private citizens. The young people are of all races and range in age from 5 to 20. Some are incarcerated or on probation, some are in school, and some are dropouts. Some programs emphasize tutoring and academic assistance, while others stress vocational counseling and training. In its first year (July 1995 to July 1996), JUMP was involved in attempting to keep more than 2,000 at-risk young people in 25 States in school and off the streets through one-to-one mentoring.

Additional FY 1995 funding for mentoring was provided through OJJDP’s SafeFutures initiative, which operates in six sites (Bos- ton; Massachusetts; Contra Costa County, California; Fort Belknap Indian Reservation, Harlem, Montana; Imperial County, California; Seattle, Washington; and St. Louis, Missouri). OJJDP’s initiative assists these communities in developing a coordinated continuum of care to reduce youth violence and delinquency. Mentoring is a component of the overall effort dedicated to each of the SafeFutures sites.

In addition to the funding for JUMP and SafeFutures grantees, OJJDP supports mentoring efforts through the Youth Grants program to the States. In FY 1995, for example, Formula Grants funds in 28 States supported 91 programs that included mentoring as part or all of the program.

BB/BS is a federation of more than 500 agencies that serve children and adolescents. Its mission is to make a difference in the lives of young people, primarily through a professionally supported one-to-one relationship with a caring adult, and to assist them in reaching their highest potential as they grow into responsible men and women by providing committed volunteers, national leadership, and standards of excellence. The organization’s current portfolio includes increasing the number of children served; improving the effectiveness, efficiency, and impact of services to children; and achieving a greater impact in communities by enhancing the role and staff. BB/BS volunteer mentors come from all walks of life, but they share the goal of being a caring adult who can make a difference in the life of a child.

For more than 90 years, the BB/BS program has paired unrelated adult volunteers with youth from single-parent households. BB/BS does not seek to ameliorate specific problems but to provide support to all aspects of youth people’s lives. The volunteer mentor and the youth make a substantial time commitment, about 4 hours, two to four times a month, for at least 1 year.

Developmentally appropriate activities should reflect the mentor and the youth’s interests, which may include taking walks; attending a play, movie, school activity, or sporting event; playing catch; visiting the library; washing the car; grocery shopping; watching television; or just sharing thoughts and ideas about life. Such activities enhance communication skills, develop relationship skills, and support positive decision-making skills.

The BB/BS mentor relationships between mentors and youth are achieved through professional staff and national operating standards that provide a level of uniformity in recruitment, screening, matching, and supervision of volunteers and youth. BB/BS agencies provide orientation for volunteers, parents, and youth to assist the individuals in determining if involvement in the program is appropriate for them. Opportunities to participate in volunteer education and development of mentors are available to all BB/BS mentors. BB/BS maintains monthly contact with the volunteer and parent or child for the first year. In addition, in-person or telephone contact is maintained quarterly between case managers and both the volunteer and the parent, guardian, and child for the duration of the match. Although its standards are reinforced through national training, national and regional conferences, and periodic agency evaluations, BB/BS is not monolithic. Individual agencies have some degree of freedom to vary from the national guidelines, but they customize their programs to fit the circumstances in their area.

How you benefit from big brothers/big sisters relationships to similar nonprogram youth 18 months after applying

1 For ease of presentation, we will refer to the group that was immediately eligible for a mentor as ‘mentored youth’ or ‘Little Brothers and Little Sisters,’ even though this group includes some youth (22 percent) who were never matched. The wait-list group is called the ‘control’ youth.
Note.—All impacts in this table are statistically significant at least at a 90 percent level of confidence.

PUBLIC/PRIVATE VENTURES (P/PV) EVALUATION OF BIG BROTHERS/BIG SISTERS

At the same time that Congress was considering Federal support for juvenile mentoring programs, P/PV was beginning a carefully designed evaluation of BB/BS mentoring programs (Tierney and Grossman, 1995). OJJDP followed the progress of this 18-month experimental evaluation closely, believing that the results would confirm the generally accepted proposition that mentoring benefits at-risk youth and would support further national expansion of this activity.

P/PV chose eight local BB/BS agencies for the study, using two criteria: large caseload (to ensure an adequate number of youth for the research design) and geographic diversity. The sites selected were in Columbus, Ohio; Houston, Texas; Minneapolis, Minnesota; Philadelphia, Pennsylvania; Phoenix, Arizona; Rochester, New York; San Antonio, Texas; and Wichita, Kansas.

The young people in the study were between 10 and 14 years old, with about 70 percent were African American. Almost all lived with one parent (usually the mother), the rest with a guardian or relatives. Many were from low-income households, and a significant number came from households with a history of either family violence or substance abuse. For the study, youth were randomly assigned to be immediately eligible for a mentor or put on a waiting list.

The goal of the research was to determine whether a one-to-one mentoring experience made a difference in the lives of these young people. The researchers considered six broad areas that mentoring might affect: antisocial activities, academic performance, relationships with family, relationships with friends, self-concept, and social and cultural enrichment. The findings presented below were based on self-reported data obtained during baseline and following up interviews or from forms completed by agency staff.

The overall findings, summarized in the table, are positive. The most noteworthy results are these:

- Mentored youth were 46 percent less likely than controls to initiate drug use during the study period. An even more powerful effect was found for minority Little Brothers and Little Sisters, who were 70 percent less likely to initiate drug use than similar minority youth.
- Mentored youth were 27 percent less likely than controls to initiate alcohol use during the period, and minority Little Sisters were only about one-half as likely to initiate alcohol use.
- Mentored youth were almost one-third less likely to be involved in criminal activity than were controls to initiate alcohol use.
- Mentored youth skipped half as many days of school as control youth, felt more confident about doing schoolwork, skipped fewer classes, and showed modest gains in their grade point averages. These gains were strongest among Little Sisters, particularly minority Little Sisters.

The quality of their relationship with their parents was better for mentored youth than for controls at the end of the study period, particularly for African American youth, who began the study with much lower levels of trust between parent and child. This effect was strongest for White Little Brothers.

Mentored youth, especially minority Little Brothers, had improved relationships with their peers.

P/PV did not find statistically significant improvements in the number of social and cultural activities in which Little Brothers and Little Sisters participated. P/PV concluded that the research presented only preliminary evidence that mentoring programs can create and support caring relationships between adults and youth, resulting in a wide range of tangible benefits. It was the researchers’ judgment that the successes they observed are unlikely without both the relationship with the mentor and the support from the BB/BS program.

The study did not find evidence that any mentoring programming will work but that programs that facilitate the specific types of relationships that BB/BS work well. The researchers noted that following the relationships between Little Brothers and Little Sisters were their Big Brothers and Big Sisters.

They had a high level of contact, typically meeting three times per month for 4 hours per meeting. Many had additional contact by telephone.

The relationship was built using an approach that defines the mentor as a friend, not a paid professional. The mentor’s role is to support the youth in his or her various endeavors, not explicitly to change the youth’s behavior or character.

The study lists the following elements as prerequisites for an effective mentoring program:

- Thorough volunteer screening that weeds out these critical functions for BB/BS at a cost of approximately $1,000 per year per match.
- OJJDP AND THE P/PV RESULTS

The P/PV evaluation, plus its 2 years of experience with JUMP, led OJJDP to modify the project design guidelines in its 1996 JUMP solicitation to reflect the latest knowledge about what works—and does not work—in mentoring. Based on the P/PV study, OJJDP expanded the guidelines on the support and training to be provided by mentors to ensure that the program coordinator should have frequent contact with parents of guardians, volunteers, and youth and should provide assistance when requested or as problems arise. This guideline also specifies the type of training mentors should receive. From its JUMP experience, OJJDP inserted a guideline that one role of the mentor is to create a caution about time limitations that may interfere with the effectiveness of college undergraduate or graduate students as mentors, and to encourage that parents play a role in the selection of mentors, called for screening mechanisms to weed out volunteers who will not keep their commitments, and establish a minimum number of hours the time mentors should spend with youth (1 hour per week for at least 1 year).
The JUMP projects offer many success stories. For example, the project reported that 99 of the 136 young people who participated in the program showed improvement in their school attendance, 30 percent showed increases in grades, and 48 percent increased the frequency of appropriate interactions with peers. For instance, a female being raised by her father was matched with a female volunteer and, after the match, scored higher in measures of self-esteem, positive attitude toward others, and pride in appearance.

In New York City, Project Caring Connections provides 30 youth with caring relationships with adult mentors from corporations and the community. As an integral part of the Learning Program, which provides a comprehensive range of services from academic enrichment to cultural experiences to a safe environment in which young people can learn and grow, the project includes mentoring, after-school programs, and Project Caring Connections mentors work with students one-to-one or in a group to provide academic support, job shadowing (going to the mentor's workplace), and social and cultural enrichment. Through the program, at-risk students gain exposure to publishing, law, art, government, business, and also do community service. This past year, some youth were able to serve as panelists on a cable news show and discuss community events, the importance of staying in school, and the importance of staying in school.

Big Sisters of Colorado, in Denver, matched 20 youth with mostly Hispanic mentors. Program activities funded by OJJDP included a Life Choices program to develop decision-making and academic skills; recreation, sports, and challenge course activities; a pregnancy-prevention program; and mentor visits to the girls’ schools. None of these girls have become pregnant since participating in the program and have begun seeing their mentors as role models and as strong sources of support.

Big Brothers/Big Sisters of Pensacola, Florida, is a JUMP initiative in which 26 youth from single-parent families who are at risk for juvenile delinquency, teen pregnancy, truancy, and dropping out of school are being mentored by legal professionals, members of the military, corporate employees, and volunteers. The mentors encourage to stay in school and meet the goals their individualized case plans. They have helped improve academic, recreational, and cultural activities, and many have demonstrated improved social and academic skills. The program has also engaged youth leaders in the mini-academy. This innovative program provides mentoring and training by police officers and educates youth about the dangers of drugs, guns, and gangs and the relationship between police and at-risk youth.

The Cincinnati Youth Collaborative in Ohio matched 136 youth and volunteers in its first year in JUMP. Mentors include doctors, dentists, lawyers, judges, teachers, chemists, police officers, nurses, waiters, postal clerks, travel agents, and college students. Some special activities were a trip to New York City, visits to college campuses, a community bowl-a-thon, job shadowing, and participation in a school beautification project. The project reports that 99 of the 136 young people have improved academically and 102 have improved personally.

The RESCUE Youth mentoring program in Los Angeles, California, was developed and implemented by the Los Angeles County District Attorney’s Office, in conjunction with the Los Angeles County Fire Department, to rescue youth ages 12 to 14 at the earliest signs of at-risk behavior. Through this JUMP initiative, mentors worked with 180 youth on their communication and conflict resolution skills and provided training in fire prevention.

The JUMP projects offer many success stories, including the following examples. One student, who began the 1995-96 school year as a repeat first grader, ended the year with straight A’s with the help of her mentor. In another instance, a male student being raised by his father alone showed a twofold increase in his grades and in measures of self-esteem after being matched with a female mentor. For the past 30 years, society’s attention and resources were directed primarily to at-risk youth. These traditional elements will still be needed, but they should complement and support the basic developmental needs addressed by mentoring programs.

Building on the success of JUMP, the JUMP Ahead Act will create a competitive grant program which allows local, nonprofit social service and education agencies to apply cooperatively.
and directly for grants from the Department of Justice’s Office of Juvenile Justice and Delinquency Prevention. These grants are used to establish mentoring services utilizing responsible individuals as mentors.

During the last session of Congress, I introduced the Character Development Act as part of my Project for American Renewal. The Character Development Act, like the JUMP Ahead Act, stressed the importance of mentoring relationships in the process of cultural renewal.

The need for additional adult support and guidance for our Nation’s youth has never been greater than at this time. Currently 36 percent of all American children live without their fathers. It is increasingly important to support the work of organizations that are attempting to stand in the gap left by absent fathers.

Since mentoring programs work through the efforts of volunteers, only modest funds are necessary to have a far-reaching impact. I am convinced that the investment that the JUMP Ahead Act calls for over the next 5 years will produce tremendous positive results in the lives of many at-risk youth.

I encourage my colleagues to take a close look at this bill and consider supporting it. One-to-one mentoring has proven its effectiveness in positively impacting the lives of at-risk youth. I ask my colleagues to join me and Senator Lautenberg in this effort to encourage and expand opportunities for one-to-one relationships for at-risk youth. The JUMP Ahead Act of 1997 takes an important step forward in meeting the needs of so many of this country’s hurting youth.

By Mr. SPECTER (for himself and Mr. SANTORUM):

S. 1642. A bill to authorize the Delaware and Lehigh Heritage Corridor Act, and for other purposes; to the Committee on Energy and Natural Resources.

The Delaware and Lehigh National Heritage Corridor Act Amendments of 1997

Mr. SPECTER. Mr. President, I have sought recognition today to introduce legislation to reauthorize the Delaware and Lehigh Canal National Heritage Corridor Act of 1988, which established a Federal Commission to assist in planning and implementing an integrated strategy for restoring, enhancing, and protecting the cultural, historical, and natural resources in the canal region, which consists of a 150-mile long corridor stretching through five counties in eastern Pennsylvania, including Luzerne, Carbon, Lehigh, Northampton, and Monroe as a member of the Senate Appropriations Committee, I have been pleased to support annual funding for the work of the Commission, and believe reauthorization is necessary to continue preserving the heritage of the canal region and to promote economic development.

Mr. President, let me provide you and my colleagues with some background on the Delaware and Lehigh corridor. The Delaware Canal first opened for regular commercial navigation in 1834 and served as the primary means for transporting coal and other bulk goods from the anthracite region in northeastern Pennsylvania up the Delaware River to such cities as New York, New Jersey, Philadelphia, and even to industrial centers in Europe. The canal provided an early and essential link in a 4,000 mile national transportation route and helped to transform Pennsylvania from a solely agrarian State to a major industrial center of an industrialized society.

The Delaware Canal and the Lehigh Navigation Canal played a critical role in supplying our developing Nation with the coal that heated its homes and the fuel for its burgeoning factories.

In 1998, Congress wisely established the Corridor and the Delaware and Lehigh National Corridor Commission. The commission was charged with conserving, interpreting, and promoting the natural, historic, cultural, scenic, and recreational resources of the region. Nine national historic landmarks, six national historic trails, two national natural landmarks, and hundreds of sites listed on the National Register of Historic Places are located within these boundaries. In addition, the corridor includes 7 State parks, 3 State historical parks, 14 State scenic rivers, and 14 State game lands are located in the region. This is an impressive and historic area that must be preserved. Moreover, the almost 1 million visitors who explore the region each year see the numerous attractions in the area, including the Allentown Art Museum, Eckley Miners Village, Washington Crossing, and Moravian Tire Work.

Another attraction that will preserve the region’s heritage and promote economic development is a cultural center in Two Rivers Landing that will house the city of Easton’s National Canal Museum and the Crayola Factory. Two Rivers Landing opened in June 1996, marking a rebirth of Easton’s downtown. Since then more than 300,000 visitors have come. The project has been credited with attracting 82 businesses to downtown and creating nearly 100 jobs.

The Delaware and Lehigh National Heritage Corridor has established a strong record of successful partnership projects that link Federal, State and local governments with nonprofit organizations and businesses. Two Rivers Landing is just one of the many successful private/public partnerships led by the Commission. Another example is the Lehigh River Foundation, which was formed in 1991 to give private sector support the Commission’s initiatives. The foundation has raised more than $150,000 from local businesses and individuals to create an educational film, sponsor heritage events, and establish an information center in Bethlehem, the site of the only American brewery that is expected to retain all of its historic elements. The corridor is sustained by broad public involvement and nonfederal investment. There are many project supporters, such as the Delaware Canal and Historic Waterway Association, the Pennsylvania Historical and Museum Department of Natural Resources, the Pennsylvania Historical and Museum Commission, and the Pennsylvania Department of Community and Economic Development. Congress has now added major financial commitments to support new industrial museums and attractions. The statutory authority for the Delaware and Lehigh National Corridor Commission will expire in November, 1998 unless Congress acts. I believe there is ample need for reauthorization because of the unfinished work of the Commission. I would note that the Commission was authorized to receive up to $350,000 in operating funds a year, but funding for the program did not begin until 1990, and since then, it has regularly received only $329,000 a year through the annual Interior appropriations bill.

The primary reason for reauthorization is the delay in implementing a Management Action Plan for the region. The 1988 act mandated a series of states and local governments in order to complete a management action plan, which will serve as an action agenda for the first 10 years of corridor development. The management action plan did receive final approval from the Secretary of the Interior in August, 1994. Further, the findings of the management action plan envisioned a 15-year implementation period after approved by the Secretary. I am concerned that with less than one year left until the Act expires, there is insufficient time to implement the plan to help conserve the resources of this historically significant region.

The Corridor Commission has made significant progress and there is public enthusiasm and support for the projects being carried out by the Commission, particularly where they promote economic development. However, they can not do this alone. There is a real need for sufficient Federal support of operations. I would note that the Commission must, by law, raise sufficient private and other nonfederal funds so that the annual Federal grant to the Commission constitutes no more than 50 percent of its operating budget. For each government dollar raised, the Commission has been successful in leveraging $8 to $14 in matching funds. This project has clearly demonstrated that Federal investment acts as a catalyst for local and private investment. Building on the success of the Corridor Commission, my legislation will authorize an increase in the Commission’s operating budget from $350,000 to $650,000, a year, which will leverage additional private, State, and local funds. My legislation retains the 50 percent Federal subsidy, also, the legislation authorizes up to $10 million over 10 years to implement projects included in the
management action plan and approved by the Secretary of the Interior, including the restoration and preservation of the Delaware Canal, and landings developments in 8 to 10 cities. The legislation extends the Commission another 10 years by allowing the project to realize its goals while improving operating efficiency and extending participation.

The corridor’s management action plan has become an important tool for both community and economic revitalization. It is recognized as a national model for the coordination of grassroots community efforts with those of government and private industry. Last year, the 104th Congress created nine new national heritage areas based in part on the success of the Delaware and Lehigh model. Mr. President, I encourage my colleagues to support this valuable Commission and to reauthorize the 1988 act so that Americans can continue to learn about the rich history of the region and appreciate the lands, waterways, and structures within the Delaware and Lehigh Heritage Corridor. Mr. President, I ask unanimous consent that the text of the legislation and a section-by-section summary of my legislation be included in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 462

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled:

SECTION 1. SHORT TITLE. The Delaware and Lehigh Navigation Canal National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4552) is amended by adding at the end the following:

“(A) shall be the Director of the Pennsylvania Historical and Museum Commission.:”;

(3) in paragraph (8), by striking “recommendations to the Governor, of whom—” and inserting “recommendations to the Governor, of whom—”;

(A) I shall represent a city, I shall represent a city, I shall represent a city; and

(B) I shall represent each of the 5 counties of Luzerne, Carbon, Lehigh, Northampton, and Bucks in Pennsylvania;”;

and (4) in paragraph (4)—

(A) by striking “4 individuals” and inserting “9 individuals”;

(B) by striking “recommendations from the Governor, who shall have” and all that follows through “Canal region. A vacancy” and inserting “recommendations from the Governor, of whom—”;

“(A) 3 shall represent the northern region of the Corridor;

(B) 3 shall represent the middle region of the Corridor; and

(C) 3 shall represent the southern region of the Corridor.

A vacancy.”;

SEC. 2. NAME CHANGE. The Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4552) is amended by striking subsection (c) and inserting the following:

“(c) REPLACEMENT.—If the member resigns or is unable to serve due to incapacity or death, the Secretary shall appoint, not later than 60 days after receiving a nomination of the appointment from the Governor, a new member to serve for the remainder of the term.”

SEC. 3. PURPOSE. Section 3(b) of the Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4552) is amended—

(1) by inserting after “subdivisions” the following: “in enhancing economic development within the context of preservation and;” and

(2) by striking “and surrounding the Delaware and Lehigh Navigation Canal in the Commonwealth” and inserting “and surrounding the Delaware and Lehigh Navigation Canal in the Commonwealth”;

SEC. 4. CORRIDOR COMMISSION. (a) MEMBERSHIP.—Section 5(b) of the Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4552) is amended—

(1) in the matter preceding paragraph (1), by striking “appointed not later than 6 months after the date of enactment of this Act”; and

(2) by striking paragraph (2) and inserting the following:

“(2) Members. Each of whom—

“(A) shall be the Director of the Pennsylvania Department of Conservation and Natural Resources;

“(B) shall include the Director of the Pennsylvania Department of Community and Economic Development; and

“(C) 1 shall be the Chairperson of the Pennsylvania Historical and Museum Commission.;”;

(3) in paragraph (8), by striking “recommendations to the Governor, of whom—” and all that follows through “Delaware Canal region” and inserting the following: “recommendations to the Governor, of whom—”;

“A) 3 shall represent a city, I shall represent a city, I shall represent a city; and

(B) I shall represent each of the 5 counties of Luzerne, Carbon, Lehigh, Northampton, and Bucks in Pennsylvania;”;

and (4) in paragraph (4)—

(A) by striking “4 individuals” and inserting “9 individuals”;

(B) by striking “recommendations from the Governor, who shall have” and all that follows through “Canal region. A vacancy” and inserting “recommendations from the Governor, of whom—”;

“(A) 3 shall represent the northern region of the Corridor;

(B) 3 shall represent the middle region of the Corridor; and

(C) 3 shall represent the southern region of the Corridor.

A vacancy.”;

(b) TERMS.—Section 5 of the Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4552) is amended by striking subsection (c) and inserting the following:

“(c) REPLACEMENT.—If the member resigns or is unable to serve due to incapacity or death, the Secretary shall appoint, not later than 60 days after receiving a nomination of the appointment from the Governor, a new member to serve for the remainder of the term.”

SEC. 5. POWERS OF THE COMMISSION. (a) CONVEYANCE OF REAL ESTATE.—Section 7(g)(3) of the Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4552) is amended in the first sentence by inserting “or nonprofit organization” after “appropriate public agency”;

(b) COOPERATIVE AGREEMENTS.—Section 5(h) of the Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4552) is amended—

(1) in the first sentence, by inserting “nonprofit organization,” after “subdivision of the Commonwealth,”; and

(2) in the second sentence, by inserting “nonprofit organization,” after “such political subdivision.”;

(c) GRANTS AND LOANS.—Section 7 of the Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4552) is amended—

(1) by redesignating subsection (i) as subsection (j); and

(2) by inserting after subsection (h) the following:

“(i) GRANTS AND LOANS.—The Commission may administer any grant or loan from amounts—

“(1) appropriated to the Commission for the purpose of providing a grant or loan; or

“(2) donated or otherwise made available to the Commission for the purpose of providing a grant or loan.”;

SEC. 6. DUTIES OF THE COMMISSION. Section 9(b) of the Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4556) is amended in the matter preceding paragraph (1) by inserting “cultural, natural, recreational, and scenic” after “interpret the historic.”

SEC. 7. TERMINATION OF THE COMMISSION. Section 9(a) of the Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4556) is amended by striking “5 years after the date of enactment of this Act” and inserting “10 years after the date of enactment of the Delaware and Lehigh National Heritage Corridor Act Amendments of 1997.”

SEC. 8. DUTIES OF OTHER FEDERAL ENTITIES. Section 11 of the Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4557) is amended in the matter preceding paragraph (1) by striking “the flow of the Canal or the natural” and inserting “the historic, cultural, natural, recreational, or scenic.”

SEC. 9. AUTHORIZATION OF APPROPRIATIONS. (a) COMMISSION.—Section 12(a) of the Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4558) is amended by striking “$350,000” and inserting “$550,000.”

(b) MANAGEMENT ACTION PLAN.—Section 12 of the Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4558) is amended by adding at the end the following:

“(c) MANAGEMENT ACTION PLAN.—

“(1) IN GENERAL.—To implement the management action plan created by the Commission, there is authorized to be appropriated $1,000,000 for each of fiscal years 1998 through 2007.

“(2) LIMITATION ON EXPENDITURES.—Amounts made available under paragraph (1) shall not exceed 50 percent of the costs of implementing the management action plan.”.

SEC. 10. LOCAL AUTHORITY AND PRIVATE PROPERTY. The Delaware and Lehigh National Heritage Corridor Act of 1988 (Public Law 100–692; 102 Stat. 4552) is amended—

(1) by redesigning section 13 as section 14; and

(2) by inserting after section 12 the following:

“SEC. 13. LOCAL AUTHORITY AND PRIVATE PROPERTY.

“The Commission shall not interfere with—

“(1) the private property rights of any person; or

“(2) any local zoning ordinance or land use plan of the Commonwealth of Pennsylvania or any political subdivision of Pennsylvania.”;

Section 2: Name change.—The Delaware and Lehigh Navigation Canal National Heritage Corridor is changed to Delaware and Lehigh National Heritage Corridor.

Section 3: Purpose.—The purpose of the Act will include enhancing economic develop-ment within the context of preservation in the Corridor.”
Section 4: Corridor Commission.—The Act is amended to include the approved recommendations of the Management Action Plan concerning the membership of the Commission.

Section 5: Powers of the Commission.—The Act is amended to allow the Commission to convey real property to a qualifying nonprofit organization if that organization is best able to conserve the property.

Section 6: Duties of the Commission.—The Act is amended to include preservation and interpretation of historic, cultural, natural, recreational, and scenic resources, rather than only historic resources.

Section 7: Termination of the Commission.—The Commission will terminate ten years after enactment of this Act.

Section 8: Duties of other Federal Entities.—The Act is amended to require federal entities to consult with the Secretary of the Interior and the Commission regarding activities that affect the historic, cultural, recreational, and scenic resources of the Corridor, not only natural resources and flow of the canal.

Section 9: Authorization of Appropriations.—The Act is authorized to receive $650,000 a year as well as $1 million a year for ten years to implement the Management Action Plan.

Section 10: Local Authority and Private Property.—The Act is amended to state that local authority and private property rights shall not be affected by enactment of this legislation.

By Mr. KOHL.

S. 1463. A bill to change the date for regularly scheduled Federal elections and establish polling place hours; to extend Federal elections to non-Federal election days; to establish uniform nationwide voting schedules, this proposal was suggested by a vociferous advocate of weekend voting for some time, it was NBC Anchor Tom Brokaw who suggested the uniform voting schedule, and I thank him for his contribution to this proposal. I should note, while I’ve been an advocate of weekend voting for some time, it was NBC Anchor Tom Brokaw who suggested the uniform voting schedule, and I thank him for his contribution to this proposal.

Mr. President, today I am introducing the Weekend Voting Act of 1997, which would change the day for presidential elections from the first Tuesday in November to the first weekend in November.

Mr. President, I come from the business world, where you had a perfect gauge of what the public thought of you any time. If you turned a profit, you knew the public liked your product—if you didn’t, you knew you needed to make changes. If customers weren’t showing up when your store was open, you knew you had to change your store hours.

In essence, it’s time for the American democracy to change its store hours. Since the mid-19th century, election day has been on the first Tuesday of November. Ironically, this date was selected because it was convenient for voters. Tuesdays were traditionally court day, and land-owning voters were often coming to town anyway.

Just as the original selection of our national voting day was done for voter convenience, we must adapt to the changes in our society to make voting easier for the regular family. Two in every three households have both parents working. Since most polls in the U.S. are open only 12 hours, from 7 a.m. to 7 p.m., voters often have only 1 or 2 hours to vote. If they have children, and are dropping them off at day care, voters often must take time off work to vote.

We can do better by offering more flexible voting hours for all Americans, especially working families.

Under this bill, polls would be open nationwide for a uniform period of time from Saturday, 6 p.m. eastern time to Sunday, 6 p.m. eastern time. Polls in other time zones would also open and close at this time. Some Western States have complained that early return information broadcast over television networks has decreased voter turnout. By establishing uniform nationwide voting schedules, this problem would be solved. I also open and close at this time. Some Western States have complained that early return information broadcast over television networks has decreased voter turnout. By establishing uniform nationwide voting schedules, this problem would be solved.

Mr. President, of 27 democracies, 17 of them allow their citizens to vote on holidays or the weekends. And in nearly every one of these nations, voter turnout surpasses our country’s poor performance. We can do better.

Like most innovative plans, States already are experimenting with novel ways to increase voter turnout and satisfy them. Texas had an early voting plan, California has relaxed restrictions on absentee voting, and Oregon’s special election for Senator in 1996 was done entirely by mail. While results are still inconclusive, there have been increasing voter turnout, there is no doubt that voters are much more pleased with the additional convenience and ease with voting.

Under the Weekend Voting Act, States would be permitted to close the polls during the overnight hours if they determine it would be inefficient to keep them open. Because the polls are open from Saturday to Sunday, they would not interfere with religious obligations.

I know that partisans in both parties will decry this plan as detrimental to their candidates. Republican consultants will worry that union households traditionally and Democrats will have more time to go and vote. Democrat consultants will worry that the combination of church and voting on Sundays will hurt their party’s chances at the poll. I hope both are right, and that the end result is more people affiliated with both parties coming out to vote. That should be the goal of a democracy.

Mr. President, I recognize a change of this magnitude will take some time. But, how much more should voting turnout before we realize we need a change. How much lower should our citizens’ confidence plummet before we adapt and create a more ‘consumer-friendly’ polling system.

The Weekend Voting Act will not solve all of this democracy’s problems, but it is a commonsense approach for adapting this grand democratic experiment of the 18th century to the American family’s lifestyle of the 21st century.

By Mr. DURBIN (for himself and Mr. TORRICELLI):

S. 1465. A bill to consolidate in a single independent agency in the executive branch the responsibilities regarding food safety, labeling, and inspection currently divided among several Federal agencies; to the Committee on Governmental Affairs.

Mr. DURBIN. Mr. President, today I am introducing legislation that would replace the current fragmented Federal food safety system with a consolidated, coordinated, and efficient Federal food safety program. The proposed legislation would authorize $300 million annually for all Federal food safety activities—the Safe Food Act. I am pleased to be joined by Senator TORRICELLI in this important effort.

Making no mistake, our country has been blessed with the safest and most abundant food supply in the world. However, we can do better. The General Accounting Office estimates that
as many as 33 million people will suffer food poisoning this year and more than 9,000 will die. The Department of Health and Human Services predicts that foodborne illnesses and deaths are likely to increase 10 to 15 percent over the next decade. The annual cost of foodborne illnesses in this country may rise to as high as $22 billion per year.

According to a Princeton Research survey conducted last summer, 44 percent of Americans believe that the food supply in this country is less safe than it was 10 years ago, while another 30 percent feel it is only “about as safe.” The survey also found that 55 percent of Americans are “very concerned” about the safety of the food that they eat.

Currently, 12 different Federal agencies and 35 different laws govern food safety and inspection functions. Of these 12 agencies, six have major roles in carrying out food safety and quality activities. With so many bureaucrats in the food chains, mistakes can more easily occur. With overlapping jurisdictions, Federal agencies many times lack accountability on food safety-related issues. A single, independent agency would help focus our policy and improve the enforcement of food safety and inspection laws.

At a time of government downsizing and reorganization, the United States simply can’t afford to continue operating multiple systems. In order to achieve a successful, effective food safety and inspection system, a single agency with uniform standards is needed.

The Safe Food Act would empower a single, independent agency to enforce food safety regulations from farm to table. It would provide an easier framework for implementing U.S. standards in an international context. Research could be better coordinated within a single agency rather than among multiple programs. And, new technologies to improve food safety could be approved more rapidly with one food safety agency.

With incidents of food recalls and foodborne illnesses on the rise, it is important to move beyond short-term solutions to major food safety problems. A single, independent food safety and inspection agency would more easily work toward long-term solutions to the frustrating and potentially life-threatening issue of food safety.

The administration has stepped forward on the issue of food safety—from working with Congress to enact HACCP to increased funding to improve surveillance and monitoring to last week’s announcement on the “Fight Bac—Keep Food Safe From Bacteria Campaign” initiative. I commend President Clinton and Secretaries Glickman and Shalala for their commitment to improving our Nation’s food safety and inspection systems. A single, independent food safety agency is the logical next step.

Mr. President, together, we can bring the various agencies together to eliminate the overlap and confusion that have, unfortunately, at times characterized our food safety efforts. I encourage my colleagues to join me in this effort to consolidate the food safety and inspection functions of numerous agencies and offices into a single, independent food safety agency.

By Mr. HATCH (for himself, Mr. Baucus, Mr. Mack, Mr. Abraham, Mr. Conrad, Mr. Lieberman, Mr. Murkowski, Mrs. Boxer, Mr. Rockefeller, Mrs. Feinstein, Mrs. Murray, and Mr. Durbin).

S. 1464. A bill to amend the Internal Revenue Code of 1986 to permanently extend the research credit, and for other purposes; to the Committee on Finance.

The Research and Experimentation Credit Permanent Extension Act of 1997

Mr. HATCH. Mr. President, today I am proud to tell all of my colleagues Senators Baucus, Mack, Abraham, Conrad, Lieberman, Boxer, Murkowski, Rockefeller, Feinstein, Murray, and Durbin to make the tax credit for increasing research activities permanent. This legislation has been introduced in the House by Representatives Nancy Johnson and Robert Matsui.

The United States is a leader in the development of new technology. Historically, the R&E credit has played a major role in positioning this great Nation to such a significant and influential leadership position. The United States is currently ahead of the ever increasing competition in developing and marketing new products. With greater market challenges in the future, we will have to fight hard to maintain the U.S. lead in new technology and innovation. The role of the R&E tax credit will be increasingly important.

But, we must recognize that scientific breakthroughs usually do not happen overnight. Research and development is a long-term, on-going process. The development of new products and services is the result of slow and steady effort and investment. It is for this reason that start and stop nature of the R&E credit hinders American progress in research. The tax credit is authorized only for a short time—which in science is practically no time at all—and the ink of expiration before Congress acts to extend it again. Permanent extension of the R&E tax credit would provide badly needed predictability.

Our country provides very little in the way of direct funding for research. While we subsidize basic research to some extent through the National Science Foundation and other science agencies, the United States depends on the private sector to finance applied research to a very substantial degree. This policy is not working well. Our Government does not make decisions about what research to fund or make judgments about what sectors look promising. Yet, risk-taking, particularly in fields such as pharmaceuticals where the cost of developing just one new drug can reach into the hundreds of millions of dollars, is an activity that we encourage with the R&E tax credit.

Unfortunately, the R&E credit in American industry is put at a tremendous disadvantage relative to foreign competitors whose governments provide direct subsidies for research. We simply must not let American leadership in science and technology slip away.

There are enormous benefits from research. Additional investment in research yields new jobs—in some cases entire new industries—strengthens our international position, and often results in an enhanced quality of life for consumers. Simply put, the tax credit is an investment for economic growth and the creation of new jobs.

Mr. President, my home state of Utah is home to many innovative companies that invest a significant percentage of their revenue in research and development activities. Scattered across the Wasatch front is a large stretch of software and computer engineering firms. This area, along with only to California’s Silicon Valley as a thriving high technology commercial area. Utah also has approximately 700 biotechnology and biomedical firms which employ nearly 9,000 workers. These companies conceived through research and development and will continue to grow and thrive only if they can continue to afford to take risks.

In all, Mr. President, there are approximately 80,000 employees working in Utah’s 1,400 plus and growing technology based firms. Research and development is the lifeblood of these Utah firms and hundreds of thousands more throughout the Nation that are like them.

The research and experimentation tax credit has been on the books for many years, and there is no doubt that it has proved beneficial to our Nation’s technology enterprise. There is also no doubt that its benefits could be even greater if the credit were made permanent and the perennial uncertainty with respect to the availability of the credit—and thus the cost of doing research—were eliminated.

With the introduction of this bill, I am pleased to inform you that we have included one slight change in this permanent extension. As already established, companies whose efforts do not qualify them for the credit are allowed to choose the alternative increment tax rate. The bill would increase the three alternative incremental credit rates by one percentage point, thereby, providing tax credits benefits and encouraging more extensive research and development efforts.

I am aware, Mr. President, that not every company that participates in the research and development process benefits from the credit. However, I believe that Congress should never permit the credit to expire. I urge my colleagues to support this concept of a
permanent R&E credit by cosponsoring this legislation and support the type of research activities that will maintain American technological leadership into the 21st century.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD.

SEC. 1. EXTENSION OF RESEARCH CREDIT.

(a) CREDIT MADE PERMANENT.—

(1) IN GENERAL.—Section 41 of the Internal Revenue Code of 1986 (relating to credit for increasing research activities) is amended by striking subsection (h).

(b) CONFORMING AMENDMENT.—Paragraph (1) of section 45(c) of such Code is amended by striking subparagraph (D).

(c) EFFECTIVE DATE.—The amendments made by subsections (a) and (b) shall apply to amounts paid or incurred after June 30, 1998.

Mr. BAUCUS. Mr. President, it is with great pleasure that I join with my colleague from Utah, Senator HATCH, and my other colleagues to introduce this bill, which is so critical to the ability of American businesses to effectively compete in the global marketplace. Companion legislation has been introduced in the House by Representatives NANCY JOHNSON and ROBERT MAST.

Our Nation is the world’s undisputed leader in technological innovation, a position that would not be possible absent U.S. companies’ commitment to research and development. Investment in research is an investment in our Nation’s economic future, and it is appropriate that both the public and private sector share the costs involved, as we share in the benefits. The credit provided through the Tax Code for research expenses provides a modest but crucial incentive for companies to conduct their research in the United States, thus creating high-skilled, high-paying jobs for U.S. workers.

The R&E credit has played a key role in placing the United States ahead of its competition in developing and marketing new products. Every dollar that the R&E credit spends on the R&E credit is matched by another dollar of spending on research over the short run by private companies, and two dollars of spending over the long run. Our global competitors are well aware of the importance of providing incentives for research and development, and many provide more generous tax treatment for research and experimentation expenses that does the United States. As a result, while spending on non-defense R&D in the United States as a percentage of GDP has remained relatively flat since 1985, Japan’s and Germany’s has grown.

The benefits of the credit, though certainly significant, have been limited by the fact that the credit has been temporary. In addition to the numerous times that the credit has been allowed to lapse, last year, for the first time, when Congress extended the credit it left a gap of an entire year during which research credit was not available. This unprecedented lapse sent a troubling signal to the U.S. companies and universities that have come to rely on the Government’s longstanding commitment to the credit.

Much research and development takes years to mature. The more uncertain the long-term future of the credit is, the smaller its potential to stimulate increased research. If companies evaluating research projects cannot be assured that the tax advantages of the credit, they are less likely to invest on research in this country, less likely to put money into cutting-edge technology innovation that is critical to keeping us in the forefront of global competition.

Our country is locked in a fierce battle for high-paying technological jobs in the global economy. As more nations succeed in creating educationally advanced workforces and join the United States as high technology manufacturing centers, they become more attractive to companies trying to penetrate foreign markets. Multinational companies sometimes find that moving both manufacturing and basic research activities overseas is necessary if they are to remain competitive. The uncertainty of the R&E credit factors into their economic calculations, and makes keeping these jobs in the United States more difficult.

Although the R&E credit is not exclusively used by high-technology firms, they are certainly key beneficiaries of the credit. In my own State of Montana, 12 of every 1,000 private sector workers were employed by high-tech firms in 1995, the most recent year for which statistics are available. Almost 400 establishments provided high-technology services, at an average wage of $34,500 per year. These jobs paid 77 percent more than the average private sector wage in Montana of $19,500 per year. Many of these jobs would never have been created without the assistance of the R&E credit. Making the credit permanent would most certainly provide the incentive needed to create many more in the future.

I urge my colleagues to support this legislation, and I look forward to working with them and with the administration to make the research and experimentation tax credit permanent.

By Mr. ABRAHAM (for himself, Mr. HUTCHISON, and Mr. COATS):

S. 1466. A bill to amend the Public Health Service Act to permit faith-based substance abuse treatment centers to receive Federal assistance, to permit individuals receiving Federal drug treatment assistance to select private and religiously oriented treatment, and to protect the rights of individuals from being required to receive religiously oriented treatment from the Commission on Labor and Human Resources.

THE DRUG AND ALCOHOL ABUSE TREATMENT CHOICE ACT

Mr. ABRAHAM. Mr. President, I rise today to introduce the Effective Substance Abuse Treatment Act. This legislation will increase the variety and effectiveness of drug and alcohol treatment centers. It will do so by allowing faith-based organizations, consistently shown to be most effective at treating substance abuse, to accept Federal funds without sacrificing their religious character. In addition, it will allow individuals receiving drug and alcohol abuse treatment services to choose a faith-based treatment center for their care.

This legislation builds on the charitable choice provision included in last year’s welfare bill. That provision allowed faith-based charities to contract with government to supply social services without having to give up their religious character.

Mr. President, each year we face staggering statistics about the use of illegal drugs and the abuse of alcohol. The percentage of America’s ad- mitted using illicit drugs during the last month more than doubled between 1992 and 1995. This increase in drug use, especially among young people, demands that we find new ways to address the addiction that often follows. I believe we owe it to our citizens and particularly those addicted to drugs or alcohol, to make the most effective treatment available to them. That treatment is provided by faith based charities.

Mr. President, government-run drug rehabilitation programs generally have long-run success rates in the single digits. This is a tragedy for addicts, their friends and their families, all of whom are given false hope by institutions that rarely produce the results they promise. However, there are many programs that do work. For example, Burton Fulsom of Michigan’s Mackinac Center reports on the Mel Trotter Ministries in Grand Rapids. Named for its founder, a former Catholic priest, the Trotter Ministries has an astounding 70 percent long term success rate in its faith based rehabilitation program.

According to director Thomas Laymon, government programs leave addicts in a mixture of teenagers who are worse, addicts are not held accountable for addictions, and they have no incentive to change their behavior. Meanwhile, Trotter Ministries provides guidance, a supporter community and intervention into a life beyond drugs. Another successful faith based substance abuse treatment center is San Antonio’s Victory Fellowship, run by
Pastor Freddie Garcia. Victory Fellowship has saved thousands of addicts in some of the city's toughest neighborhoods. The program offers addicts a safe haven, a chance to recover, job training, and a chance to provide for themselves and their families. It has served more than 13,000 people and has a success rate of over 80 percent.

It is very simple, Mr. President, where most treatment centers fail, those that are faith based work. This being (a) a duty to make faith based treatment more available. This does not require any special program, Mr. President. Rather, we can achieve this important goal by allowing faith based programs to stand on an equal footing with other centers in applying for Federal funds to heal individuals in need without changing the nature of the care they give.

We owe it to our families and communities, torn apart by drugs and drug related violence, to fight the scourge of substance abuse. We owe it to the individuals in need to allow them to obtain the best treatment available. This legislation will achieve these goals without increasing the cost of government. I ask my colleagues for their support.

I ask unanimous consent that the entire text of the bill be entered into the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1466

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled.

SECTION 1. SHORT TITLE.

This Act may be cited as the "Drug and Alcohol Abuse Treatment Choice Act".

SEC. 2. PREVENTION AND TREATMENT OF SUBSTANCE ABUSE; SERVICES PROVIDED THROUGH RELIGIOUS ORGANIZATIONS.

Title V of the Public Health Service Act (42 U.S.C. 290aa et seq.) is amended by adding at the end the following:

"PART G—SERVICES PROVIDED THROUGH RELIGIOUS ORGANIZATIONS.

SEC. 581. APPLICABILITY TO DESIGNATED PROGRAMS.

(a) Designated Programs.—Subject to subsection (b), this part applies to each program under this Act that makes awards of Federal financial assistance to public or private entities for the purpose of carrying out activities to prevent or treat substance abuse in this program referred to as a ‘designated program’.

(b) Limitation.—This part does not apply to any program under this Act that provides services directly from the Federal Government.

(2) Designated award recipient.—The term ‘designated award recipient’ means a public or private entity that has received a designated award program (whether the award is a designated direct award or a designated subaward).

(3) Designated direct award.—The term ‘designated direct award’ means an award under a designated program that is received directly from the Federal Government.

SEC. 582. RELIGIOUS ORGANIZATIONS AS PROGRAM PARTICIPANTS.

(a) In general.—

(1) Scope of authority.—Notwithstanding any other provision of law, a religious organization—

(A) may be a designated award recipient;

(B) may make designated subawards to other public or nonprofit private entities (including other religious organizations);

(C) may provide for the provision of program services to program beneficiaries through the use of vouchered assistance; and

(D) may be a provider of services under a designated program, including a provider that accepts vouchered assistance.

(2) Definition of program participant.—For purposes of this section, the term ‘program participant’ means an individual to receive the program services and the organization has a religious character.

(b) Nondiscrimination against religious organizations.—With respect to an individual who is a program beneficiary or a prospective program beneficiary, an organization may not deny to a program participant on the basis that the participant is a religious organization, the following:

(A) the religious beliefs and practices of the religious organization;

(B) any rules of the organization regarding the use of drugs or alcohol;

(C) any rules of the organization regarding the expression of any other Federal or State law or regulation that relates to discrimination in employment on the basis of religion.

(c) Rights of program beneficiaries.—

(1) In general.—Except as provided in paragraph (2), nothing in this section shall be construed to modify or affect the provisions of any other Federal or State law or regulation that relates to discrimination in employment on the basis of religion.

(2) Exception.—A religious organization that is a program participant may require that an employee rendering program services adhere to—

(A) the religious beliefs and practices of such organization; and

(B) any rules of the organization regarding the use of drugs or alcohol.

SEC. 583. NONDISCRIMINATION AGAINST RELIGIOUS ORGANIZATIONS.

(a) In general.—

(1) Scope of authority.—Notwithstanding any other provision of law, a religious organization—

(A) may be a designated award recipient;

(B) may make designated subawards to other public or nonprofit private entities (including other religious organizations);

(C) may provide for the provision of program services to program beneficiaries through the use of vouchered assistance; and

(D) may be a provider of services under a designated program, including a provider that accepts vouchered assistance.

(2) Definition of program participant.—For purposes of this section, the term ‘program participant’ means an individual to receive the program services and the organization has a religious character.

(b) Nondiscrimination.—The purpose of this section is to allow religious organizations to provide program services to program participants on the same basis as any other nonprofit private provider without impairing the religious character of such organizations, shall not in any way diminish the freedom of religious organizations to provide program services.

(c) Nondiscrimination against religious organizations.—With respect to an individual who is a program beneficiary or a prospective program beneficiary, a program participant may not deny to a program participant on the basis that the individual is a religious organization, the following:

(1) the religious beliefs and practices of the religious organization or other symbols; and

(2) any rules of the organization regarding the use of drugs or alcohol.

SEC. 584. OBJECTIONS REGARDING RELIGIOUS ORGANIZATIONS.

(1) Objections regarding religious organizations.—With respect to an individual who is a program beneficiary or a prospective program beneficiary, a program participant may require that an employee rendering program services adhere to—

(A) the religious beliefs and practices of such organization; and

(B) any rules of the organization regarding the use of drugs or alcohol.

SEC. 585. APPROPRIATIONS.

(1) Appropriations.—Notwithstanding any other provision of law, a religious organization—

(A) may be a designated award recipient;

(B) may make designated subawards to other public or nonprofit private entities (including other religious organizations);

(C) may provide for the provision of program services to program beneficiaries through the use of vouchered assistance; and

SEC. 586. NONDISCRIMINATION AGAINST RELIGIOUS ORGANIZATIONS.

(a) In general.—

(1) Scope of authority.—Notwithstanding any other provision of law, a religious organization—

(A) may be a designated award recipient;

(B) may make designated subawards to other public or nonprofit private entities (including other religious organizations);

(C) may provide for the provision of program services to program beneficiaries through the use of vouchered assistance; and

(D) may be a provider of services under a designated program, including a provider that accepts vouchered assistance.

(2) Definition of program participant.—For purposes of this section, the term ‘program participant’ means an individual to receive the program services and the organization has a religious character.

(b) Thresholds for discrimination.—The purpose of this section is to allow religious organizations to provide program services to program participants on the same basis as any other nonprofit private provider without impairing the religious character of such organizations, shall not in any way diminish the freedom of religious organizations to provide program services.

(c) Nondiscrimination against religious organizations.—With respect to an individual who is a program beneficiary or a prospective program beneficiary, a program participant may not deny to a program participant on the basis that the individual is a religious organization, the following:

(1) the religious beliefs and practices of such organization; and

(2) any rules of the organization regarding the use of drugs or alcohol.

SEC. 587. DISCRIMINATION AGAINST RELIGIOUS ORGANIZATIONS.

(a) In general.—

(1) Scope of authority.—Notwithstanding any other provision of law, a religious organization—

(A) may be a designated award recipient;

(B) may make designated subawards to other public or nonprofit private entities (including other religious organizations);

(C) may provide for the provision of program services to program beneficiaries through the use of vouchered assistance; and

(D) may be a provider of services under a designated program, including a provider that accepts vouchered assistance.

(2) Definition of program participant.—For purposes of this section, the term ‘program participant’ means an individual to receive the program services and the organization has a religious character.

(b) Nondiscrimination.—The purpose of this section is to allow religious organizations to provide program services to program participants on the same basis as any other nonprofit private provider without impairing the religious character of such organizations, shall not in any way diminish the freedom of religious organizations to provide program services.
‘‘(B) LIMITATION.—A religious organization that is a program participant may require a program beneficiary who has elected in accordance with paragraph (1) to receive program services from such organization to—

(1) actively participate in religious practice, worship, and instruction; and

(2) follow rules of behavior devised by the organization that are religious in content or origin.

‘‘(g) FISCAL ACCOUNTABILITY.—

(1) IN GENERAL.—Except as provided in paragraph (2), any religious organization that is a program participant shall be subject to the same regulations as other recipients of Federal financial assistance in accordance with generally accepted auditing principles, for the use of the funds provided under such awards.

(2) LIMITED AUDIT.—With respect to the award involved, if a religious organization that is a program participant maintains the Federal funds in a separate account from non-Federal funds, then only the Federal funds shall be subject to audit.

(b) COMPLIANCE.—With respect to compliance with this section by an agency, a religious organization may obtain judicial review of a refusal to make a financial audit in accordance with chapter 7 of title 5, United States Code.

SEC. 583. LIMITATIONS ON USE OF FUNDS FOR CERTAIN PURPOSES.

(a) FUNDS NOT AID TO INSTITUTIONS.—Federal financial assistance provided to or on behalf of a program beneficiary who has elected in accordance with paragraph (1) to receive drug treatment services shall not be considered Federal financial assistance under a designated program provided to or on behalf of a program beneficiary who has elected in accordance with paragraph (1) to receive religious education and training of personnel as having a critical and positive role necessary to the successful operation of a drug treatment program.

(b) EXCEPTION.—Subsection (a) shall not apply to assistance provided to or on behalf of a program beneficiary who the Secretary determines that—

(i) the religious organization has a record of prior successful drug treatment for at least the preceding 3 years;

(ii) the educational qualifications have effectively barred such religious organization from becoming a program provider;

(iii) the organization has applied to the Secretary to waive the qualifications; and

(iv) the Secretary has failed to demonstrate empirically that the educational qualifications in question are necessary to the successful operation of a drug treatment program.

By Mr. SMITH of Oregon:

S. 1467. A bill to address the declining health of forests on Federal lands in the United States through a program of recovery and protection consistent with the requirements of existing public land management and environmental laws, to establish a program to inventory, monitor, and analyze public and private forests and their resources, and for other purposes; to the Committee on Energy and Natural Resources.

FOREST RECOVERY AND PROTECTION ACT OF 1997

Mr. SMITH of Oregon. Mr. President, today I am introducing the Senate companion bill to H.R. 2515, the Forest Recovery and Protection Act introduced by my good friend and colleague, Congressman Bob SMITH. My bill focuses on the western forest and Bureau of Land Management lands where there has been the most fire and disease damage.

Let me tell you what the forest lands are like in Oregon. On the eastside of my State, disease and bug infestation have ravaged forests, creating dangerous conditions for catastrophic fires. In 1996, I witnessed firsthand fires that burned down forest land and threatened many homes. This was a situation that didn’t have to happen.

And yet, the political beliefs of a few have seemed to guide forest policy back in Washington, DC—where bureaucrats with personal agendas seem to rule the roost and sound public policy fails to get heard.

Teddy Roosevelt said: ‘‘The nation behaves well if it treats the natural resources as assets which it must turn over to the next generation increased, and not impaired, in value.’’

This legislation is a thoughtful approach to forest management—it includes accountability through reports to Congress, performance standards for analysis, and calls for the elimination of bureaucratic red tape and unnecessary delay that prevents on-the-ground results.

Concerns that environmentalists have about cutting of timber are addressed by ensuring that all forest health activities are carried out in compliance with existing forest plans. The legislation also prohibits entry into wilderness areas or other areas protected by law, court order, or forest plan. And finally, the bill provides for priority treatment of areas of greatest risk of destruction or degradation by severe natural disturbance.

The bill has a local component which gives the local community and those agencies responsible for the forests at the local level with the necessary tools and incentives to address forest health problems in pro-active ways.

Furthermore, this legislation requires the Secretary of Agriculture and the Secretary of the Interior to commission a 5-year national program to restore and protect the health of forests located on Federal forest lands. The program includes the following components: Within 1 year of enactment, standards and criteria must be established for designating and assigning priority ranking to forest lands in need of recovery or protection; a requirement that the Secretary establish in the Federal Register the proposed decisions on lands to be recovered or protected.

The bill also calls for no new forest management plans, but instead enhances existing ones. The bill requires that all forest health plans be carried out in compliance with existing forest plans; sets up an independent Scientific Advisory Panel, consisting of experts in forest management, to evaluate the Advance Recovery Projects which are basically pilot projects in areas of significant recovery or protection need as identified by the Secretary of the Interior and Secretary of Agriculture.

And finally, one of the most important components of this legislation is the inclusion of local citizens and the prioritization that directs more money to the next generation increased, and not impaired, in value.’’

This legislation is a thoughtful approach to forest management—it includes accountability through reports to Congress, performance standards for analysis, and calls for the elimination of bureaucratic red tape and unnecessary delay that prevents on-the-ground results.

Concerns that environmentalists have about cutting of timber are addressed by ensuring that all forest health activities are carried out in compliance with existing forest plans. The legislation also prohibits entry into wilderness areas or other areas protected by law, court order, or forest plan. And finally, the bill provides for priority treatment of areas of greatest risk of destruction or degradation by severe natural disturbance.

The bill has a local component which gives the local community and those agencies responsible for the forests at the local level with the necessary tools and incentives to address forest health problems in pro-active ways.

Furthermore, this legislation requires the Secretary of Agriculture and the Secretary of the Interior to commission a 5-year national program to re-
Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1467
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.
(a) SHORT TITLE.—This Act may be cited as the "Forest Recovery and Protection Act of 1997".
(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:
Sec. 1. Short title; table of contents.
Sec. 2. Findings.
Sec. 3. Definitions.
Sec. 4. National Program of Forest Recovery and Protection.
Sec. 5. Scientific Advisory Panel.
Sec. 6. Advance recovery projects.
Sec. 7. Forest Recovery and Protection Fund for National Forest System lands.
Sec. 8. Expansion of purpose of Forest Ecosystems Health and Recovery Fund for BLM lands.
Sec. 9. Effect of failure to comply with time limitations.
Sec. 10. Authorization of appropriations.
Sec. 11. Audit requirements.

SEC. 2. FINDINGS.
Congress finds the following:
(1) There are serious economic, social, and environmental consequences associated with fire, insect infestation, and disease outbreaks on Federal forest lands which the cutting of trees is not primarily intended to remove.
(2) Between 35,000,000 and 40,000,000 of the 191,000,000 acres of Federal forest lands managed by the Forest Service are at an unacceptable risk of catastrophic wildfire.
(3) A comprehensive forest health requires active forest management involving a range of management activities, including thinning, salvage, prescribed fire (after appropriate thinning), insect and disease control, riparian and other habitat improvement, soil stabilization and other water quality improvement, and seedling planting and protection.
(4) Frequent forest inventory and analysis are needed to identify and reverse declining forest health in a timely and effective manner. The present average 12- to 15-year cycle of forest inventory prevents early warning of declining forest health.
(5) Restoration of forest health requires active forest management of certain Federal forest lands.
(6) A comprehensive, nationwide effort is needed to provide forest managers with the data necessary to make timely and effective management decisions responsive to changing forest health conditions.
(7) Frequent forest inventory and analysis of the status and trends in the conditions of forests and their resources are needed to identify and reverse declining forest health in a timely and effective manner. The present average 12- to 15-year cycle of forest inventory prevents early warning of declining forest health.
(8) Implementation date.—The term "implementation date" means the first day of the month beginning after the end of the calendar year in which the implementation date would occur within 6 months before August 31 of the same fiscal year in which the implementation date would occur, the Secretary concerned shall commence a national program on federal forest lands described in paragraph (1)(A), the revolving fund established under the heading "REVENGE FUND, SPECIAL ACCOUNT" in title I of the Department of Agriculture Appropriations Act, 1994 (Public Law 103-88; 107 Stat. 388; 15 U.S.C. 1735a) and (b) with respect to implementation of the national program on Federal forest lands described in paragraph (1)(B), the Forest Recovery and Protection Fund established under section 7.

SEC. 4. NATIONAL PROGRAM OF FOREST RECOVERY AND PROTECTION.
(a) NATIONAL PROGRAM REQUIRED.—Not later than the implementation date, the Secretary concerned shall commence a national program to restore and protect the health of forests located on Federal forest lands in the United States through the performance of recovery projects in designated recovery areas.
(b) STANDARDS AND CRITERIA.—
(1) INITIAL PUBLICATION.—Not later than the implementation date, the Secretary concerned shall publish in the Federal Register the standards and criteria actually established by the Scientific Advisory Panel under section 4.
(2) MODIFICATION.—The Secretary concerned may modify the standards and criteria established pursuant to paragraph (1) at any time.
(3) ANNUAL NATIONAL PROGRAM DECISION.—
(1) DECISION REQUIRED.—To carry out the national program, the Secretary concerned shall render a decision for each fiscal year during the period of the national program regarding the designation and ranking of recovery projects for inclusion in the national program.
(2) PROPOSED DECISION.—For each fiscal year during the period of the national program, the Secretary concerned shall publish in the Federal Register a proposed decision regarding the designation and ranking of recovery areas and the selection of recovery projects. The proposed decision shall be published not later than the following:
(A) In the case of the initial proposal, the implementation date.
(B) In the case of each subsequent proposal determined by the Secretary concerned after the fiscal year in which the implementation date would occur within 6 months before August 31 of the same fiscal year in which the implementation date would occur, the Secretary concerned shall commence a national program on Federal forest lands described in paragraph (1)(A), the revolving fund established under the heading "REVENGE FUND, SPECIAL ACCOUNT" in title I of the Department of Agriculture Appropriations Act, 1994 (Public Law 103-88; 107 Stat. 388; 15 U.S.C. 1735a); and (b) with respect to implementation of the national program on Federal forest lands described in paragraph (1)(B), the Forest Recovery and Protection Fund established under section 7.

SEC. 5. DEFINITIONS.
For purposes of this Act:
(1) FEDERAL FOREST LANDS.—The term "Federal forest lands" means—
(A) forestlands created from the public domain that are under the jurisdiction of the Bureau of Land Management;
(B) forestlands created from the public domain that are under the jurisdiction of the Forest Service.
(2) SECRETARY CONCERNED.—The term "Secretary concerned" means—
(A) with respect to Federal forest lands described in paragraph (1)(A), the Secretary of Agriculture or the Secretary's designee;
(B) with respect to Federal forest lands described in paragraph (1)(B), the Secretary of Agriculture or the Secretary's designee.
(3) LAND MANAGEMENT PLAN.—The term "land management plan" means—
(A) a land use plan prepared by the Bureau of Land Management pursuant to section 6 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1712), or other multiple use plan in effect, for a unit of the Federal land system described in paragraph (1)(A);
(B) a land and resource management plan (or, if no final plan is in effect, a draft land and resource management plan) prepared by the Forest Service pursuant to section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604) for Federal forest lands described in paragraph (1)(B).
(4) NATIONAL PROGRAM.—The term "national program" means the National Program of Forest Recovery and Protection required by section 4.
(5) SCIENTIFIC ADVISORY PANEL.—The term "Scientific Advisory Panel" means the advisory committee appointed under section 5.
(6) RECOVERY AREA.—The term "recovery area" means an area of Federal forest lands, designated by the Secretary concerned under section 4(c)—
(A) that has experienced disturbances from wildfires, insect infestations, wind, flood, or other causes, which have caused or contributed to significant soil erosion, degradation of air and water quality, loss of watershed values, habitat loss, and damage to other forest resources of the area; or
(B) in which the forest structure, function, composition, and other characteristics are outside the range of variability for the forest domain that are within the National Forest System.
(7) RECOVERY PROJECT.—The term "recovery project" means a project designed by the Secretary concerned to improve, preserve, or protect the soils, water quality, watershed values, habitat, and other forest resources within a designated recovery area, including stand thinning, salvage, and other harvesting activities, as well as activities in which the project is not primarily featured, such as prescribed burning (after appropriate thinning), insect and disease control, riparian and other habitat improvement, other water quality improvement, and seedling planting and protection.
lished pursuant to subsection (b), required area meets the standards and criteria, established and in effect under subsection (b)—
(1) determine the total acreage requiring treatment under the national program during the fiscal year;
(2) identify recovery areas within which recovery projects would be appropriate; and
(3) rank the recovery areas for the purpose of determining the order in which the recovery areas will receive recovery projects.

(e) REQUIREMENTS FOR RECOVERY PROJECT SELECTION.—
(1) COMPLIANCE WITH LAND MANAGEMENT PLANS.—In making the annual decision required by subsection (c), the Secretary concerned shall, in accordance with the standards and criteria established and in effect under subsection (b)—
(A) ensure that each recovery project selected is consistent with the land management plan applicable to the recovery area within which the project will occur;
(B) consider the economic benefits to be provided to local communities as a result of the forest health recovery projects, but only to the extent that such considerations are consistent with the standards and criteria for recovery areas established and in effect under subsection (b) and the priorities for ranking recovery areas under subsection (d)(3).

(2) TREATMENT ACREAGE AND COSTS.—As part of the selection of each forest project, the Secretary concerned shall determine the total acreage requiring treatment and the estimated costs for preparation and implementation of the project.

(3) TOTAL ACREAGE.—The total acreage included in recovery projects selected for a fiscal year under the national program shall not be determined by the Secretary concerned under paragraphs (2) and (3) of subsection (c).

(h) EXCEPTIONS TO AGENCY ACTION.—The Secretary concerned may not select or implement a recovery project under the authority of this Act on any forest land designated or circumvent by Congress for study for possible inclusion in such System, or any other area in which the implementation of recovery projects is prohibited by law, a court order, or the applicable land management plan.

(i) PETITION PROCESS.—
(1) PETITION FOR DESIGNATION.—Not later than May 31 of each fiscal year after the fiscal year in which the implementation date occurs, any interested person may petition the Secretary concerned to designate a specific area of the Federal forest lands of at least 1,000 acres in size as a recovery area.

(2) CONTENT.—The petition shall contain a reasonably precise description of the boundaries of the area included in the petition and the reasons why the petitioner believes the area meets the standards and criteria, established and in effect under subsection (b), required for designation as a recovery area.

(3) DETERMINATION.—If the Secretary concerned determines that an area described in a petition submitted in accordance with subsection (b) meets the standards and criteria, the Secretary concerned shall include the area in the program of such designated or proposed and final decisions issued under paragraphs (2) and (3) of subsection (c). If the Secretary concerned determines that the area does not warrant designation as a recovery area, the Secretary concerned shall provide the reasons therefore in the same Federal Register entry containing the proposed or final decision under such subsection.

(g) ANNUAL REPORT TO CONGRESS.—
(1) REPORT REQUIRED.—Not later than the implementation date, and each August 31 thereafter, the Secretary concerned shall submit to Congress a report on the proposed decision regarding the designation and ranking of recovery areas and the selection of recovery projects to be published pursuant to subsection (c)(2).

(2) REPORT CONTENTS.—Each report required by paragraph (1) shall include the following:
(A) The reasons for each proposed designation of a recovery area and each proposed selection of a recovery project.
(B) The total acreage requiring treatment nationally during the fiscal year and the acreage proposed to be treated during that fiscal year by each proposed recovery project.

(C) The estimated preparation and implementation costs of each proposed recovery project.

(d) QUALIFICATIONS.—
(1) NATURAL RESOURCE SCIENTISTS.—Scientists who are appointed as members of the Scientific Advisory Panel shall be required to have expertise in, and experience with, Federal forest lands and their familiarity with scientific issues relating to, and account their breadth of knowledge in the natural sciences as such sciences relate to Federal forest lands and their familiarity with scientific issues relating to Federal forest lands likely to be designated as recovery areas.

(2) OTHER MEMBERS.—State foresters (or individuals with similar management or supervisory experience) who are appointed as members of the Scientific Advisory Panel shall be required to have expertise in, and experience with, Federal forest lands and their familiarity with scientific issues relating to Federal forest lands likely to be designated as recovery areas.

(e) CHAIRPERSON; INITIAL MEETING.—The Scientific Advisory Panel shall conduct its initial meeting as soon as possible after the first 4 members of the Panel are appointed. At the initial meeting, the members of the Scientific Advisory Panel shall select 1 member to serve as chairperson.

(f) DUTIES IN CONNECTION WITH IMPLEMENTATION.—During the period beginning on the date of the initial meeting of the Scientific Advisory Panel and ending on the implementation date, the Scientific Advisory Panel shall be responsible for the following:
SEC. 5. SCIENTIFIC ADVISORY PANEL.
(a) ESTABLISHMENT.—There is established a panel of scientific advisers to the Secretary of Agriculture and the Secretary of the Interior to be known as the “Scientific Advisory Panel”.
(b) MEMBERSHIP.—The Scientific Advisory Panel shall consist of the following members:
(1) 2 members, consisting of 1 scientist specializing in natural resources and 1 State forester (or an individual with similar management or supervisory experience), appointed jointly by the Chairman of the Committee on Agriculture and the Chairman of the Committee on Education and Labor of the House of Representatives, in consultation with their respective ranking Minority Members.
(2) 2 members, consisting of 1 scientist specializing in natural resources and 1 State forester (or an individual with similar management or supervisory experience), appointed jointly by the Chairman of the Committee on Agriculture, Nutrition, Food and Forestry and the Chairman of the Committee on Energy and Natural Resources of the Senate, in consultation with their respective ranking Minority Members.
(3) 2 members, consisting of 1 scientist specializing in natural resources and 1 State forester (or an individual with similar management or supervisory experience), appointed by the Secretary of Agriculture.
(4) 2 members, consisting of 1 scientist specializing in natural resources and 1 State forester (or an individual with similar management or supervisory experience), appointed by the Secretary of the Interior.
(5) 1 member, consisting of a scientist specializing in natural resources, appointed by the National Academy of Sciences.
(c) APPOINTMENT.—
(1) TIME FOR APPOINTMENT.—Appointments shall be made within 60 days of the date of the enactment of this Act. Appointments shall be published in the Federal Register.
(2) TERM.—A member of the Scientific Advisory Panel shall be appointed for a term beginning on the date of the appointment and ending on the implementation date. A vacancy on the Scientific Advisory Panel will be filled within 90 days in the manner in which the original appointment was made.

(e) CHAIRPERSON; INITIAL MEETING.—The Scientific Advisory Panel shall conduct its initial meeting as soon as possible after the first 4 members of the Panel are appointed. At the initial meeting, the members of the Scientific Advisory Panel shall select 1 member to serve as chairperson.

(f) DUTIES IN CONNECTION WITH IMPLEMENTATION.—During the period beginning on the date of the initial meeting of the Scientific Advisory Panel and ending on the implementation date, the Scientific Advisory Panel shall be responsible for the following:
November 8, 1997

CONGRESSIONAL RECORD — SENATE

S12137

SEC. 6. ADVANCE RECOVERY PROJECTS.

(a) SELECTION OF ADVANCE PROJECTS.—During the 3-month period beginning on the date of enactment of this Act, the Secretary concerned shall conduct a limited number (as determined by the Secretary concerned) of advance recovery projects on Federal forest lands. Subject to the approval of the Secretary concerned, advance recovery projects shall be selected by—

(1) the Federal, State, and Tribal foresters of the Service, in consultation with State foresters of the States in which the projects will be conducted, with respect to recovery projects on Federal forest lands described in section 3(1)(B); and

(2) the State directors of the Bureau of Land Management, in consultation with State foresters of the States in which the projects will be conducted, with respect to recovery projects on Federal forest lands described in section 3(1)(A).

(b) SELECTION CRITERIA.—To be eligible for selection as an advance recovery project, a proposed project shall be required to satisfy the requirements of section 4(e) for recovery projects under sections 4 and 6, and shall be in accordance with such other requirements as may be set forth in sections 4 and 6.

(c) TIME PERIODS FOR SELECTION, IMPLEMENTATION, AND COMPLETION.—Final selection of advance recovery projects shall be completed within the 90-day period beginning on the date of enactment of this Act, and the Secretary concerned shall establish, update, and maintain a list of selected advance recovery projects in the Federal Register by the end of that period.

(d) REPORTING REQUIREMENTS.—Not later than the implementation date, and annually thereafter, the Secretary concerned shall submit to Congress a report on the implementation of advance recovery projects. The report shall consist of a description of the accomplishments of each advance recovery project and incorporate the requirements under paragraphs (2) and (3) of section 4(g).

(e) RULEMAKING.—No new rulemaking is required in order for the Secretary concerned to carry out the requirements of this section.

SEC. 7. FOREST RECOVERY AND PROTECTION FUND FOR NATIONAL FOREST SYSTEM LANDS.

(a) ESTABLISHMENT.—There is established on the books of the Treasury a revolving fund to be known as the “Forest Recovery and Protection Fund”. The Chief of the Forest Service shall be responsible for administering the Fund.

(b) DEPOSIT TO FUND.—There shall be credited to the Fund the following:

(1) Amounts authorized for and appropriated to the Fund.

(2) Unobligated amounts in the revolving fund maintained under the heading “FOREST SERVICE” of the Act of March 4, 1913 (37 Stat. 843, chapter 145; 16 U.S.C. 501) as of the date of the enactment of this Act, and all amounts that would otherwise be deposited in such fund after such date.

(3) A 1-time transfer of $50,000,000 from amounts appropriated for fire operations under the heading “WILDLAND FIRE MANAGEMENT” under the heading “BUREAU OF LAND MANAGEMENT” in title I of the Department of the Interior and Related Agencies Appropriations Act, 1998.

(4) Subject to subsection (e), revenues generated by recovery projects undertaken pursuant to sections 4 and 6.

(5) Amounts required to be deposited in the Fund under section 9.

(c) USE OF FUND.—During the time period specified in section 18(a), amounts in the Fund shall be available to the Chief of the Forest Service, without further appropriation, to carry out the national program, to plan, carry out, and administer recovery projects under sections 4 and 6, and to administer the Secretary’s advisory panel. The Fund shall be closed at the end of the fiscal year of the national program and sub- sequent full fiscal year following the implementation date.

(d) DEPOSIT IN FUND.—All sums appropriated pursuant to this section for implementation of the national program on Federal forest lands described in section 3(1)(B) shall be deposited in the Forest Recovery and Protection Fund established under section 7.

(e) TREATMENT OF REVENUES AS MONEYS RECEIVED.—Revenues generated by recovery projects undertaken pursuant to sections 4 and 6 shall be considered to be moneys received by the Secretary in accordance with the first paragraph under the heading “FOREST SERVICE,” in the Act of March 23, 1908 (35 Stat. 260, chapter 192; 16 U.S.C. 550), and section 13 of the Act of March 31, 1933 (repealed by the “Weeks Act” (36 Stat. 963, chapter 186; 16 U.S.C. 500).

(f) REPORTING REQUIREMENTS.—Not later than the project is to be conducted by an outside party) within 180 days after the date of enactment of this Act.

(g) REPORTING REQUIREMENTS.—Not later than the implementation date, and annually thereafter, the Secretary concerned shall submit to Congress a report on the implementation of advance recovery projects. The report shall consist of a description of the accomplishments of each advance recovery project and incorporate the requirements under paragraphs (2) and (3) of section 4(g).

(h) RULEMAKING.—No new rulemaking is required in order for the Secretary concerned to carry out the requirements of this section.

SEC. 8. EXPANSION OF PURPOSE OF FOREST ECOSYSTEMS HEALTH AND RECOVERY FUND FOR BLM LANDS.

The first paragraph under the heading “REVOLVING FUND, SPECIAL ACCOUNTS” under the heading “FOREST ECOSYSTEMS HEALTH AND RECOVERY” under the heading “BUREAU OF LAND MANAGEMENT” in title I of the Department of the Interior and Related Agencies Appropriations Act, 1993 (Public Law 102-381; 106 Stat. 1376; 43 U.S.C. 1738a), is amended—

“During the term of the National Program of Forest Recovery and Protection established by the Forest Recovery and Protection Act of 1993, any unobligated amounts in the Fund shall be available to carry out the national program and to plan, carry out, and administer recovery projects under sections 4 and 6 of that Act.”

SEC. 9. EFFECT OF FAILURE TO COMPLY WITH TIME LIMITATIONS.

(a) NATIONAL PROGRAM.—If the final selection of a recovery project under the national program is not made within the time period specified in section 4(c)(3), the Secretary concerned may not use amounts in the affected Fund to carry out the project and shall promptly reimburse the affected Fund for any expenditures previously made from that Fund in connection with that project.

(b) ADVANCE RECOVERY PROJECTS.—In the case of an advance recovery project under section 6, if the project is not selected, implemented, and completed within the time periods specified in subsection (c) of that section, the Secretary concerned may not use amounts in the affected Fund to carry out the project and shall promptly reimburse the affected Fund for any expenditures previously made from that Fund in connection with that project.

SEC. 10. AUTHORIZATION OF APPROPRIATIONS.

(a) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act for fiscal year 1998 and each fiscal year thereafter through the fifth full fiscal year following the implementation date.

(b) DEPOSIT INTO FUND.—All sums appropriated pursuant to this section for implementation of the national program on Federal forest lands described in section 3(1)(B) shall be deposited in the Forest Recovery and Protection Fund established under section 7.

(c) EFFECT ON EXISTING PROJECTS.—Any contract entered into before the end of the fiscal year for which funds were appropriated pursuant to subsection (a) of this section shall remain in effect until completed pursuant to the terms of the contract.

SEC. 11. AUDIT REQUIREMENTS.

(a) AUDIT.—The Comptroller General shall conduct an audit of the national program at the end of the fourth full fiscal year of the national program and subsequently conduct an audit of the Congress by June 1 of the next fiscal year.

(b) ELEMENTS.—The audit shall include an analysis of—

(1) whether the program was carried out in a manner consistent with the provisions of this Act;
beauty that is adjacent to their cemetery. This situation from the Forest Service in order to bury the remains of El Rito must now obtain special permits to use the real property for the purpose of constructing and operating a fire sub-station for Jemez Springs.

(c) Reversionary Interest.—If the Secretary determines that the real property conveyed under subsection (a) is not being used in accordance with the condition in subsection (b), all right, title, and interest in and to the property shall revert to the United States, and the United States shall have immediate right of entry thereon.

(d) Description of Property.—The exact acreage and legal description of the real property conveyed under subsection (a) shall be determined by a survey satisfactory to the Secretary. The cost of the survey shall be paid by Jemez Springs.

(e) Additional Terms and Conditions.—The Secretary may require such additional terms and conditions in connection with construction of the fire sub-station that it will be next to impossible for these communities to find land of equal value to exchange. These communities also do not have the financial resources for outright purchases of property.

I believe that the way my two bills are written can meet the concerns of the Forest Service and still resolve the underlying problems these communities are facing. I am committed to working with other Members of the delegation to move this legislation as quickly as possible.

Mr. President I ask unanimous consent that these two bills be entered into the Record.

There being no objection, the bills were ordered to be printed in the RECORD, as follows:

S. 1468

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FINDINGS.

(a) The Village of Jemez Springs, New Mexico, (Jemez Springs) is an incorporated town under the laws of the State of New Mexico, and is completely surrounded by the Jemez National Recreation Area within the Santa Fe National Forest;

(b) Jemez Springs is a small community of approximately 2,500 residents, completely surrounded by the Carson National Forest in New Mexico.

(c) The large size of the tourist crowds visiting the Village of Jemez Springs, New Mexico, is causing an undue bureaucratic requirement upon families within the El Rito community when they are suffering from grief.

(d) The State of New Mexico has appropriated funds for Jemez Springs to build a fire sub-station to handle the emergency response capabilities. Over ninety (90) percent of the ambulance, fire, and emergency rescue calls are outside of the town limits.

(e) The Secretary of Agriculture, acting through the United States Department of Agriculture Forest Service shall designate five acres of land in the Carson National Forest adjacent to the historic El Rito cemetery as special use land for use as cemetery land for members of the El Rito community to bury their deceased.

By Mr. GRAHAM:

S. 1471. A bill to prohibit the Secretary of Health and Human Services from treating any Medicaid-related claims as an overpayment under the Medicaid Program; to the Committee on Finance.

MEDICAID LEGISLATION

Mr. GRAHAM. Mr. President, I rise for the purpose of introducing legislation which has been negotiated by a recent meeting of the Social Security Act. That provision, Mr. President, is section 1903(d) which states that “the pro-rata share to
which the United States is equitably entitled” as determined by the secretary—this would be the Secretary of HHS—“of the net amount recovered during any quarter by a State or any political subdivision thereof with respect to medical assistance furnished under the State plan shall be considered an overpayment to be adjusted under this subsection.”

Under that provision, Mr. President, the Health Care Financing Administration has sent a letter to the States stating that they will now be responsible for providing to the Federal Government through an offset against their Medicaid payments to Medicaid providers under Medicaid, the health financing program for the poor, that portion of any recovery that they have made under a tobacco settlement that would be attributable to the Federal Government’s share of previous payments for those Medicaid beneficiaries who had been deemed to have suffered a disease or illness related to tobacco.

The letter states, Mr. President, that “under current law,” the law that I have just read, “tobacco settlement recoveries must be treated like any other Medicaid recoveries.

Mr. President, this is a situation where the criteria for congressional attention. In the past, that section that I read had been interpreted to apply to those cases where there had been a billing error, where some Medicaid provider and their reimbursement, the State had taken action to reduce that request for payment and had received funds from the provider that had been inappropriately paid in a previous account. This will be the first time that this section of the law is being used to really go to policy questions, and that is, what is the Federal Government’s share of these tobacco settlements which have been negotiated by the States?

I believe that the reasons that Congress should take action on this are several. First, this is a policy issue and should not be settled at a bureaucratic level. We will be sitting at the desk legislation which will state to the desk legislation which will state that the provision that I cited and other provisions analogous to it shall not apply to any amount recovered or paid to a State as part of a settlement or judgment reached in litigation initiated or pursued by a State against one or more manufacturers of tobacco products. This would clearly state that as a matter of congressional policy it was not acceptable for the tobacco industry to resolve its accounting problems that are subject to Section 1903(d) of the Social Security Act. As described in the statute, States must allocate from the amount of any Medicaid-related expenditure recovery “the pro-rata share to which the United States (Federal government) is equitably entitled.” As with any recovery related to a Medicaid expenditure, payments received should be reported on the Federal Financial Participation (FFP) Summary Sheet, Line 9E. This line is reserved for special collections. The Federal share should be calculated using the current Federal Medicaid Assistance Percentage. Please note that settlement payments represent a credit applicable to the Medicaid program whether or not the monies are received directly by the State Medicaid agency. Medicaid recoveries from tobacco litigation settlements must continue to report settlement payments as they are received.

Second, the reality is that the Federal Government has known about these suits initiated by the States since their pendency. In the case of the State of Florida, that means approximately 4 years. But the Federal Government has been passive. It did not ask or respond to requests to be listed as a co-plaintiff and therefore be accountable. It has provided none of the financing of the litigation, which in some cases has amounted to tens of millions of dollars, and yet now after a successful recovery, it wants to insert itself through this provision, that was designed to deal with reimbursements of minor amounts, to collect major amounts under these tobacco settlements.

Finally, the Federal Government is not restricted from initiating its own effort to collect what funds it thinks it is due from the tobacco settlements. If the Federal Government feels—whether it is Medicare; programs under CHAMPUS, the health care for military personnel and their dependents; the Veterans Administration; or any other program in which the Federal Government is substantially involved in the substantial portion of health care costs—if the Federal Government feels that it has a legitimate case for recovery, it ought to do the same thing that the States have done, and that is initiate direct action on their own.

I have met with representatives of the White House and will continue to meet to determine if it is felt that specific legislation might be required in order to give the Federal Government the potential to recover those funds that the national taxpayers have paid which they should not have paid because they were due to illnesses or disease occasioned by the use of tobacco. I suggest that the representatives of the White House look closely at State legislation such as that which was passed in Florida, upon which Florida’s successful settlement was predicated. Mr. President, sending to the desk legislation which will state that the provision that I cited and other provisions analogous to it shall not apply to any amount recovered or paid to a State as part of a settlement or judgment reached in litigation initiated or pursued by a State against one or more manufacturers of tobacco products. This would clearly state that as a matter of congressional policy it was not acceptable for the tobacco industry to resolve its accounting problems that are subject to Section 1903(d) of the Social Security Act. As described in the statute, States must allocate from the amount of any Medicaid-related expenditure recovery “the pro-rata share to which the United States (Federal government) is equitably entitled.” As with any recovery related to a Medicaid expenditure, payments received should be reported on the Federal Financial Participation (FFP) Summary Sheet, Line 9E. This line is reserved for special collections. The Federal share should be calculated using the current Federal Medicaid Assistance Percentage. Please note that settlement payments represent a credit applicable to the Medicaid program whether or not the monies are received directly by the State Medicaid agency. Medicaid recoveries from tobacco litigation settlements must continue to report settlement payments as they are received.

State administrative costs incurred in pursuit of Medicaid cost recoveries from tobacco firms qualify for the normal 50 percent Federal financial participation (FFP). They should be reported on the Form HCF-64, Line 14 (Other Financial Participation).

Only Medicaid-related expenditure recoveries are subject to the Federal share requirement. To the extent that non-Medicaid expenditures and/or recoveries were also included in the underlying lawsuits, HSFCA will accept a justifiable allocation reflected in the Medicaid recoveries. As long as the State provides necessary documentation to support a proposed allocation.

Under current law, tobacco settlement recoveries must be treated like any other Medicaid recoveries. We recognize that Congress will consider the treatment of tobacco settlements in the context of any comprehensive tobacco legislation next year. Given the States’ role in initiating tobacco lawsuits and in financing Medicaid programs, States will, of course, have an important voice in the development of such legislation, including the allocation of any resulting revenues. The Administration will work closely with States during this legislative process as these issues are decided.

If you would like to discuss the appropriate reporting of recoveries with HCFA, please call David McNally of my staff at (410) 786-3292 to arrange for a meeting or conversation. We look forward to providing any assistance needed in meeting a State’s Medicaid obligation.

Sincerely,

SALLY K. RICHARDSON,
Director, Center for Medicaid and State Operations.
Ms. MOSELEY-BRAUN (for herself and Mr. KENNEDY):

S. 1472. A bill to amend the Internal Revenue Code of 1986 to provide a tax credit for public elementary and secondary school construction, and for other purposes; to the Committee on Finance.

CONGRESSIONAL RECORD — SENATE
November 8, 1997

THE SCHOOL REPAIR AND CONSTRUCTION ACT OF 1997

Ms. MOSELEY-BRAUN. Mr. President, today I am pleased to introduce the School Repair and Construction Act of 1997. This bill would help States and localities repair and renovate crumbling schools by providing tax credits to developers and builders who build new schools or renovate crumbling schools at below-market rates.

Under this proposal, the Treasury would allocate pools of tax credits to States. States would allocate the credits to school districts. School districts would be able to give these tax credits to developers and builders to cover a portion of the cost of their school repair, renovation, modernization, and construction projects. By allocating tax credits in this manner, the bill would reduce the cost to school districts of school improvement projects by up to 50 percent.

The School Repair and Construction Act of 1997 creates a mechanism for paying for this proposal that is contingent upon our future economic prosperity. If actual revenue into the Federal Treasury exceeds the revenue projections, a portion of the tax credits would be distributed in a School Infrastructure Improvement Trust Fund. The money in this Trust Fund—up to $1 billion per year—would be available for disbursement to States in the form of the infrastructure grants.

Earlier this year, the Congress enacted broad tax legislation designed to generate wealth and spur economic growth and prosperity. If we are right and this promise comes true, our children ought to benefit from our prosperity. The legislation I am introducing today will guarantee that these revenues are used to rebuild and modernize our schools so they can serve all our children into the 21st century.

According to the U.S. General Accounting Office, 14 million children attend schools in such poor condition they need major renovations or should be replaced outright; 12 million children attend schools with leaky roofs; and 7 million children attend schools with life-threatening safety-code violations. These conditions exist in every type of American community. Thirty-eight percent of urban schools, 30 percent of rural schools, and 29 percent of suburban schools are falling down around our children. By 2007 the year 1994, State governments only contributed $3.5 billion to the school infrastructure crisis—barely 3 percent of the need.

This local funding model does not work for school infrastructure, just as it would not work for highways or other infrastructure. Imagine what would happen if we based our system of roads on this same funding model. Imagine if every community were responsible for the construction and maintenance of the roads within its borders. In all likelihood, there would be smooth, good roads in the wealthy towns, a patchwork of mediocre roads elsewhere, and very few roads at all in poor communities. Transportation would be hostage to the vagaries of wealth and geography. Commerce and travel would be difficult, and navigation of such a system would not serve the interests of the whole country. That hypothetical, unfortunately, precisely describes our school funding system.

The time has come for us to heed the call of superintendents, parents, teachers, architects, mayors, governors, contractors, and children from around the country and create a partnership to fix our Nation's crumbling schools.
Winston Churchill once said, “We shape our buildings; thereafter, they shape us.” No where is that more true than in schools. The poor condition of America’s schools has a direct affect on the ability of our students to learn the kinds of skills they will need to compete in the 21st century, global economy. America can’t compete if our students can’t learn, and our students can’t learn if their schools are crumbling down around them.

This School Repair and Construction Act of 1997 is a sensible way of helping States and school districts meet their school repair, renovation, modernization and construction needs. I urge all of my colleagues to join me in sponsoring this important legislation.

Mr. President, I ask unanimous consent that the text of the School Repair and Construction Act of 1997 and a summary of the legislation be printed in the RECORD.

There being no objection, the material as ordered to be printed in the RECORD, as follows:

S. 1472

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.
This Act may be cited as the “School Repair and Construction Act of 1997”.

SEC. 2. PURPOSE.
It is the purpose of this Act to help school districts to improve their crumbling and overcrowded school facilities through the use of Federal tax credits.

SEC. 3. TAX CREDIT FOR PUBLIC ELEMENTARY AND SECONDARY SCHOOL CONSTRUCTION.
(a) In General.—Subpart D of part IV of chapter 1 of the Internal Revenue Code of 1986 (relating to general business credits) is amended by adding at the end the following new section:

SEC. 45D. CREDIT FOR PUBLIC ELEMENTARY AND SECONDARY SCHOOL CONSTRUCTION.
(a) In General.—For purposes of section 38, the amount of the school construction credit determined under this section for an eligible taxpayer for any taxable year with respect to an eligible school construction project shall be an amount equal to the lesser of—

(1) the applicable percentage of the qualified school construction costs, or

(2) the excess (if any) of—

(A) the allocable school construction amount, minus

(B) any portion of such allocable amount used under this section for preceding taxable years.

(b) ELIGIBLE TAXPAYER; ELIGIBLE SCHOOL CONSTRUCTION PROJECT.—For purposes of this section—

(1) Eligible Taxpayer.—The term ‘eligible taxpayer’ means any person which—

(A) has entered into a contract with a local educational agency for the performance of construction or related activities in connection with an eligible school construction project, and

(B) has received an allocable school construction amount with respect to such contract under subsection (d).

(2) Eligible School Construction Project.—

(A) In General.—The term ‘eligible school construction project’ means any project related to a public elementary school or secondary school that is conducted for 1 or more of the following purposes:

(i) Construction of school facilities in order to ensure safety of all students, which may include—

(I) the removal of environmental hazards,

(II) improvements in air quality, plumbing, lighting, heating, ventilation, air conditioning, electrical systems, or basic school infrastructure, and

(III) building improvements that increase school safety.

(ii) Construction activities needed to meet the requirements of section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) or all of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.).

(iii) Construction activities that increase the energy efficiency of school facilities.

(iv) Construction that facilitates the use of modern educational technologies.

(iv) Construction of new school facilities that are needed to accommodate growth in school enrollments.

(2) Such other construction as the Secretary of Education determines appropriate.

(b) Special Rules.—For purposes of this paragraph—

(1) the term ‘construction’ includes reconstruction, renovation, or other substantial rehabilitation,

(2) an eligible school construction project shall not include the costs of acquiring land (or any costs related to such acquisition).

(c) Qualified School Construction Costs; Applicable Percentage.—For purposes of this section—

(1) In General.—The term ‘qualified school construction costs’ means the aggregate amount allocable to an eligible taxpayer during the taxable year under the contract described in subsection (b)(1).

(2) Applicable Percentage.—The term ‘applicable percentage’ in the case of—

(i) an eligible school construction project related to a local educational agency, the higher of—

(A) the applicable percentage of the qualified school construction cost,

or

(B) the applicable percentage of the allocable State school construction amount,

and

(ii) the amount made available for such year under the School Infrastructure Improvement Trust Fund established under section 1124.

(d) Construction for Indian Tribes and Territories.—

(A) Allocation to Indian Tribes.—The national school construction amount under paragraph (2) shall be reduced by 15 percent for each calendar year the Secretary of Interior shall allocate such amount among Indian tribes according to their respective need for assistance under this section.

(B) Allocation to Territories.—The national school construction amount under paragraph (2) shall be reduced by 5 percent for each calendar year the Secretary of Education shall allocate such amount among the territories according to their respective need for assistance under this section.

(e) Reallocations.—If the Secretary of Education determines that a State is not making satisfactory progress in carrying out its plan for the use of funds allocated to the State under this section, the Secretary may reallocate all or part of the State school construction ceiling to 1 or more other States that are making satisfactory progress.

(f) State Allocation.—

(1) In General.—A State educational agency shall allocate to local educational agencies within the State for any calendar year a portion of the State school construction ceiling for such year. Such allocations shall be consistent with the State application for the fiscal year has been submitted under subsection (f) and with any requirement of this section.

(2) State School Construction Ceiling.—

(A) In General.—The State school construction ceiling for any State for any calendar year shall be an amount equal to the State’s allocable share of the national school construction amount.

(B) State’s Allocable Share.—The State’s allocable share of the national school construction amount for a fiscal year shall be 15 percent of the same ratio of the school construction amount for the fiscal year as the amount the State received under section 1124 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6335) for the preceding fiscal year bears to the total amount received by all States under such section for such preceding fiscal year.

(3) Special Allocations for Indian Tribes and Territories.—

(A) Allocation to Indian Tribes.—The national school construction amount under paragraph (2) shall be reduced by 15 percent for each calendar year the Secretary of Education shall allocate such amount among Indian tribes according to their respective need for assistance under this section.

(B) Allocation to Territories.—The national school construction amount under paragraph (2) shall be reduced by 5 percent for each calendar year the Secretary of Education shall allocate such amount among the territories according to their respective need for assistance under this section.

(4) Reallocations.—If the Secretary of Education determines that a State is not making satisfactory progress in carrying out its plan for the use of funds allocated to the State under this section, the Secretary may reallocate all or part of the State school construction ceiling to 1 or more other States that are making satisfactory progress.

(5) Special Allocations for Indian Tribes and Territories.—

(A) Allocation to Indian Tribes.—The national school construction amount under paragraph (2) shall be reduced by 15 percent for each calendar year the Secretary of Education shall allocate such amount among Indian tribes according to their respective need for assistance under this section.

(B) Allocation to Territories.—The national school construction amount under paragraph (2) shall be reduced by 5 percent for each calendar year the Secretary of Education shall allocate such amount among the territories according to their respective need for assistance under this section.

(6) Reallocations.—If the Secretary of Education determines that a State is not making satisfactory progress in carrying out its plan for the use of funds allocated to the State under this section, the Secretary may reallocate all or part of the State school construction ceiling to 1 or more other States that are making satisfactory progress.

(7) Special Allocations for Indian Tribes and Territories.—

(A) Allocation to Indian Tribes.—The national school construction amount under paragraph (2) shall be reduced by 15 percent for each calendar year the Secretary of Education shall allocate such amount among Indian tribes according to their respective need for assistance under this section.

(B) Allocation to Territories.—The national school construction amount under paragraph (2) shall be reduced by 5 percent for each calendar year the Secretary of Education shall allocate such amount among the territories according to their respective need for assistance under this section.
"(b) an estimate of the capacity of the schools in the State to house projected student enrollments, including the projected cost of expanding school capacity to meet rising student enrollment;"

"(c) the extent to which the schools in the State have the basic infrastructure elements necessary to incorporate modern technology into their classrooms, including the projected cost of upgrading school infrastructure to enable the use of modern technology in classrooms;"

"(D) the intent to which the schools in the State offer the physical infrastructure needed to provide a high-quality education to all students; and

"(E) an identification of the State agency that will allocate credit amounts to local educational agencies within the State.

"(2) SPECIFIC ITEMS IN ALLOCATION.—The State shall include in the State's application the process by which the State will allocate the credits to local educational agencies within the State. The State shall consider in its allocation process the extent to which—"

"(A) the school district served by the local educational agency has—"

"(i) the number and percentage of the total number of children aged 5 to 17, inclusive, in the State who are counted under section 1124(c) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 8801); or

"(ii) a high percentage of the total number of low-income residents in the State;

"(B) the local educational agency lacks the fiscal capacity, including the ability to raise funds through the full use of such agency's bonding capacity and otherwise, to undertake the eligible school construction project without assistance.

"(C) the local area makes an unusually high local tax effort, or has a history of failed attempts to pass bond referenda.

"(D) it contains a significant percentage of federally owned land that is not subject to local taxation;

"(E) the threat to the condition of the physical facility poses to the safety and well-being of students;

"(F) there is a demonstrated need for the construction, reconstruction, renovation, or rehabilitation based on the condition of the facility;

"(G) the extent to which the facility is overcrowded; and

"(H) the extent to which assistance provided will be used to support eligible school construction projects that would not otherwise be undertaken."

"(3) IDENTIFICATION OF AREAS.—The State shall include in the State's application the process by which the State will identify the areas of greatest needs (whether those areas are in large urban centers, pockets of rural poverty, fast-growing suburbs, or elsewhere) and how the State intends to meet the needs of those areas.

"(4) ALLOCATIONS ON BASIS OF APPLICATION.—The Secretary of Education shall evaluate applications submitted under this subsection and shall approve any such application which meets the requirements of this section.

"(g) REQUIRED ALLOCATIONS.—Notwithstanding the provision for allocation under subsection (f), in the case of a State which contains 1 or more of the 100 school districts within the United States with the largest number of poor children (as determined by the Secretary of Education), the State shall allocate each of such districts a portion of the State school construction ceiling which bears the same ratio to such ceiling as the number, by state, of such districts bears to the preceding calendar year who are counted for purposes of section 1124(c) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 8333(c) bears to the total number of children in such State who are so counted.

"(h) DEFINITIONS.—For purposes of this section—"

"(1) ELEMENTARY SCHOOL; LOCAL EDUCATIONAL AGENCY; SECONDARY SCHOOL; STATE EDUCATIONAL AGENCY.—"Elementary school", "local educational agency", "secondary school", and "State educational agency" means the same, respectively, as such terms mean in section 1124 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 8801).

"(2) TERRITORIES.—The term 'territories' means the United States Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

"(3) STATE.—The term 'State' means each of the several States of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

"(b) INCLUSION IN GENERAL BUSINESS CREDIT.—"

"(1) IN GENERAL.—Section 38(b) of the Internal Revenue Code of 1986 is amended by striking "plus" at the end of paragraph (11), by striking the period at the end of paragraph (12) and inserting "; plus", and by adding after such paragraph the following new paragraph:

"(13) the school construction credit determined under section 45D(a)."

"(2) TRANSITION RULE.—Section 38(d) of such Code is amended by striking at the end the following new paragraph:

"(b) NO CARRYBACK OF SECTION 45D CREDIT BEFORE ENACTMENT.—No portion of the unused construction credit determined under section 45D may be carried back to a taxable year ending before the date of the enactment of section 45D."

"(c) ESTABLISHMENT OF SCHOOL INFRASTRUCTURE IMPROVEMENT TRUST FUND.—"

"(1) IN GENERAL.—Subchapter A of chapter 11 of title 26 of the Internal Revenue Code of 1986 is amended by adding at the end the following new section:

"SEC. 9512. SCHOOL INFRASTRUCTURE IMPROVEMENT TRUST FUND.

"(a) CREATION OF TRUST FUND.—There is established in the United States a trust fund to be known as the 'School Infrastructure Improvement Trust Fund', consisting of such amounts as may be credited to such fund as provided in this section.

"(b) TRANSFERS TO TRUST FUND.—"

"(1) IN GENERAL.—There are hereby appropriated to the Trust Fund for any calendar year an amount equal to the lesser of—"

"(A) the revenue surplus determined under paragraph (2) for the preceding calendar year, or

"(B) $1,000,000,000.

"(2) REVENUE SURPLUS.—The revenue surplus determined under this paragraph for any calendar year is an amount equal to the excess (if any) of—"

"(A) the Secretary's estimate of revenues received in the Treasury of the United States for the calendar year, over

"(B) the amount the Director of the Congressional Budget Office estimated would be received in the report provided to the Committees of the House and the Senate pursuant to section 125c(1) of the Congressional Budget Act of 1974.

"(c) ADMINISTRATION OF TRUST FUND.—Amounts in the Trust Fund shall be transferred to the general fund of the Treasury at such times as the Secretary determines appropriate, but in no case, the amount of Federal funds received in any prior calendar year as a result of credits allowed under section 38 which are attributable to the school construction credit determined under section 45D.''

"(2) CONFORMING AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by adding at the end the following new item:

"Sec. 9512. School Infrastructure Improvement Trust Fund.

"(d) CONFORMING AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by adding at the end the following new section:

"Sec. 45D. Credit for public elementary and secondary school construction.''

"(e) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1997.

SUMMARY: SCHOOL REPAIR AND CONSTRUCTION ACT OF 1997

A proposal to lower the cost of school repair, renovation, modernization, and construction projects by providing tax credits to developers and builders to cover a portion of the cost of buildings or repairs to school-related projects. The credits are allocated to States, who have flexibility to award the credits to their elementary and secondary school districts with the greatest needs.

AWARD OF TAX CREDITS TO STATES

A total of $1 billion worth of tax credits are allocated every year to States, using a formula based on the number of school-aged children in the State who are eligible for federal education assistance. Two percent of funds are reserved for Indian schools and territories.

ALLOCATION OF TAX CREDITS WITHIN STATES

States shall develop a system for allocating the tax credits to their school districts. States are required to take into account criteria relating to the needs of school districts and the ability of the school districts to finance the improvements without assistance, and are required to identify their highest-priority areas first and develop plans for meeting those needs.

AWARD OF TAX CREDITS TO DEVELOPERS

The developer or builder performing the school improvement project receives the tax credits upon completion of the project. The credits could then be counted against the developer's income over a period of years under the rules of general business tax credits.

The amount of the tax credit available to the developer is based on the local area's ability to pay and the needs of the project. It cannot exceed 30 percent of the total cost of construction, renovation, repair, or modernization, not including land acquisition or other associated costs.

ELIGIBLE PROJECTS

The credits can be used by States and districts to meet their highest priority projects, including school repairs or renovations of substantial size, retrofitting schools for modern technologies, and building new schools to alleviate overcrowding.

TRUST FUND

Funds for this tax credit are made available only if actual revenues into the Federal Treasury exceed CBO revenue projections. In that case, up to $1 billion of excess revenues shall be deposited annually into a School Infrastructure Improvement Trust Fund, and disbursed to States in the form of allocable tax credits.

DETAILED DESCRIPTION: SCHOOL REPAIR AND CONSTRUCTION ACT OF 1997

A proposal to lower the cost of school repair, renovation, modernization, and construction projects by providing tax credits to developers and builders to cover a portion of the cost of the projects.
the costs of school improvement projects. The credits are allocated to States, who have flexibility to award the credits to their elementary and secondary school districts with the greatest need.

AWARD OF CREDITS TO STATES
Each State educational agency (or other designated agency) shall receive a portion of a total of $1 billion/year worth of tax credits. Allocation of this share is based on the State’s prior year’s relative share of funding under title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6331 et seq.).

State Minimum—No State shall receive less under this program than its percentage allocation under section 1125(c)(3)(B) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6333(d)) for the previous fiscal year.

Reallocation—If a State fails to submit an approvable application for its credits, the Secretary of Treasury shall redistribute that State’s share to other States in the same proportions as the original allocations were made.

Indians & Outlying Territories—Of the total amount of tax credits available, one and one-half percent shall be set aside for school districts to be allocated at the discretion of the Secretary of Interior, and one-half percent shall be allocated to the outlying territories, to be allocated at the discretion of the Secretary of Education.

STATE APPLICATIONS
In order to be eligible for tax credits, the State educational agency (or other designated entity) shall submit an application containing information including:

1. an estimate of the overall condition of school infrastructure in the State, including the projected cost of upgrading schools to adequate condition;
2. an estimate of the capacity of the schools in the State to house projected enrollments, including the projected cost of expanding school capacity to meet rising enrollments;
3. the extend to which the schools in the State offer the physical infrastructure necessary to incorporate modern technology into their classrooms, including the projected cost of upgrading school infrastructure to enable the use of modern technology in classrooms;
4. the extend to which the schools in the State offer the physical infrastructure needed to provide a high-quality education to all students; and
5. an identification of the State agency that will receive the credits.

The State shall also include in its application a plan for the within-state allocation of credits, which shall be based on criteria including the following:

1. whether a district has high numbers or percentages of the total number of children aged 5 to 17, inclusive, residing in the geographic area served by an eligible local educational agency who are counted under title I of the Elementary and Secondary Education Act of 1965, or a high percentage of low-income residents;
2. whether the eligible local educational agency lacks the fiscal capacity, including the ability to raise funds through the full use of such agency’s bonding capacity and otherwise, to undertake the project without assistance;
3. whether the local area makes an unusually high local tax effort, or has a history of failed attempts to pass bond referenda;
4. whether the local area contains a significant percentage of Federally-owned land that is not subject to local taxation;
5. the condition of the physical plant poses to the safety and well-being of students;
6. the demonstrated need for the construction, reconstruction, or renovation based on the condition of the facility;
7. the extent to which the assistance will alleviate overcrowding and
8. the extent to which the assistance provided will support projects that would not otherwise have been possible to undertake, or will increase the quality of school infrastructure improvement projects.

The Secretary shall identify its areas of greatest need and develop a plan for meeting the needs of those districts and

The Secretary of Education shall evaluate State applications and approve those that will maximize school infrastructure improvements where the greatest needs and the least ability to raise revenue to meet those needs. Once a State’s application is approved, the State educational agency (or other designated agency) receives its share of the tax credits. States shall be required to reallocate the credits every five years.

ALLOCATION OF CREDITS WITHIN STATES
For a period of five years, any State containing one of the 100 school districts with the largest numbers of poor children shall make available to those districts amounts of allocable credits based on the relative shares of funding under section 1124A of the Elementary and Secondary Education Act of 1965.

Other credit shall be allocated within the State in accordance with the criteria described in the State’s application to the Secretary of Education. School districts shall apply to the designated State agency for the authority to allocate tax credits to developers working on school improvement projects within their districts.

AWARD OF CREDITS TO DEVELOPERS
School districts will be able to offer developers or builders tax credits from the State based on the cost of their proposed projects. The developer or builder performing the eligible project would receive the tax credits upon completion of the project. The credits could be counted against the developer’s income under the rules of general business tax credits.

The amount of the tax credit available to the developer would be based on the local area’s ability to pay and the total cost of the project, up to the total cost of the project, using the following formula:

A project located within a local educational agency shall receive a credit of:

1. clause (i)(I) or clause (ii)(I) of section 1125(c)(2)(A) of the Elementary and Secondary Education Act, shall be eligible for a credit of 10 percent; and
2. clause (i)(II) or clause (ii)(II) of section 1125(c)(2)(A), shall be eligible for a credit of 20 percent;
3. clause (i)(III) or clause (ii)(III) of section 1125(c)(2)(A), shall be eligible for a credit of 30 percent;
4. clause (i)(IV) or clause (ii)(IV) of section 1125(c)(2)(A), shall be eligible for a credit of 40 percent; and
5. clause (i)(V) or clause (ii)(V) of section 1125(c)(2)(A), shall be eligible for a credit of 50 percent.

The “total cost” of the project includes the cost of construction, renovation, repair, or modernization, but not land acquisition or other assistance.

ELIGIBLE PROJECTS
The tax credits shall be used by States to help support projects of substantial size and scope such as:

1. the repair or upgrade of classrooms or structures related to academic learning, including the repair of leaking roofs, crumbling walls, inadequate plumbing, poor ventilation equipment, and inadequate heating or lighting equipment;
2. an activity to increase physical safety at the educational facility involved;
3. an activity to enhance the educational facility involved to provide access for students, teachers, and other individuals with disabilities;
4. an activity to improve the energy efficiency of the educational facility involved;
5. an activity to address environmental hazards at the educational facility involved, such as poor ventilation, indoor air quality, or lighting;
6. the provision of basic infrastructure that supports educational technology, such as communications outlets, electrical systems, power outlets, or a communication classroom;
7. the construction of new schools to meet the needs imposed by enrollment growth;
8. and any other activity the Secretary determines achieves the purpose of this title; and

Mr. KENNEDY. Mr. President, I give my strong support to the bill being introduced today by Senator MOSELEY-BRAUN TO PROVIDE UP TO $1 BILLION A YEAR FOR IMPROVING AMERICA’S SCHOOL FACILITIES.

Good education begins with good places to learn. We can’t expect children to learn when school roofs are crumbling, pipes are leaking, and boilers are failing. Adequate school facilities are essential to prepare children for the 21st century. It’s preposterous to pretend that we can prepare students for the 21st century in dilapidated 19th century classrooms.

We can no longer ignore this national crisis. We need to develop effective public-private partnerships to address these needs. Senator MOSELEY-BRAUN’S bill provides that opportunity.

Schools across the country are facing enormous problems with crumbling facilities. 14 million children in one-third of the nation’s schools are now learning in substandard school buildings. Over half of all schools report at least one major building in disrepair, with cracked foundations, leaking roofs, or other major problems.

This bill can be a major start toward repairing the nation’s crumbling schools by encouraging business and government to work together. It offers tax credits to developers and builders to cover costs of school improvements. Each state will receive funds based on the number of school-age children in the state who are eligible for federal education assistance. The states will have the flexibility to award the tax credits to developers in school districts with the greatest need. The credits will
be taken against the developer's income, like other business tax credits. I urge my colleagues to support Senator Moseley-Braun's bill to help local communities rebuild America's crumbling schools. I look forward to continuing to work with her to make sure that Congress does its part to help address this national need.

By Mr. D'AMATO: Mr. President, today I introduce the Northern Ireland/Border Counties Free Trade, Development and Security Act. This legislation is a carbon copy of S. 176, legislation that I introduced in the 104th Congress. Joining me as cosponsors of this legislation are my friends and colleagues, the senior Senator from Illinois, Senator Moseley-Braun and the Senator from Mississippi, Mr. Cochran.

The Northern Ireland Free Trade, Development and Security Act reintroduced today will—by University of Ulster estimates, create 12,000 jobs within the twelve counties of Northern Ireland and the Border Counties. It will produce an additional $1.5 billion into that economy annually. The new jobs it will create will be targeted to those areas that need the most, areas where the current unemployment rate ranges between 30 percent and 50 percent. These areas have never felt the effects of real economic expansion or growth. Further, this legislation will provide those jobs and hope without any discernable impact upon our nations trade or budget deficit, as was the case with Ganza/West Bank legislation. This bill will operate in harmony with stated goals of the European Union, United Kingdom and the Irish Republic. It will additionally comport with the requirements of the World Trade Organization.

Mr. President, the paradox of Northern Ireland is that she has given so much to other cultures and lands but has been incapable of fully reaping the rewards of her own peoples skills and strengths at home. The unfortunate reality is that as in the Republic of Ireland, a large majority of the North's highly educated and skilled younger generation has been forced to emigrate due to high unemployment levels which are as high as 70 percent in some areas. These disadvantaged areas are the ones which this legislation has been specifically designed to encompass. Joint cooperation and joint economic development between the United States, Northern Ireland and the European Union will integrate the most distressed parts of Northern Ireland and the Border Counties into a dynamic economy that—while firmly rooted in the European Union—continues to expand and cement new trading relationships beneficial to trading partners. Northern Ireland's peace process must move forward and the aspirations and goodwill of the vast majority of its citizens must be accompanied by hard work and endeavor. A more prosperous economy will spread and meaningful job opportunities can only serve to bridge the social and economic disparities that exist in this region. In conclusion this opportunity cannot be overlooked, after 25 years since the outbreak of the "troubles," the people of Northern Ireland can use to build that new and brighter future. This legislation represents the Senator's down payment on that future.

Mr. President, I am unanimous consent that a public statement of support from Minister James Mcdaid, the Minister of Tourism and Trade for the Republic of Ireland, found in today's Irish News—be printed in the RECORD.

There being no objection, the matter was ordered to be printed in the RECORD, as follows:

[From the Irish News]

MINISTER GIVES BACKING TO U.S. FREE TRADE BILL FOR NORTH
(By Jim Fitzpatrick)

The Republic's tourism minister Dr. Jim McDaid has given his backing to the American free trade bill for Northern Ireland and the border counties.

The Irish News reported last month that the proposed bill, which a University of Ulster study concluded would create at least 12,000 jobs, was facing opposition from officials in London, Dublin and Brussels.

But Fianna Fail minister Dr. McDaid gave his unqualified backing to the proposal yesterday, saying that it felt special measures were necessary to redress the economic imbalance on the island.

"The bill would allow companies based in the northern twelve counties of Ireland to sell products directly into the U.S. without any tariffs. Its backers argue that it would be a massive boost for foreign investment and create thousands of jobs because it would allow companies free access to the second largest market in the world—North America and Europe. But the legislation, which is in the early stages of development in the U.S. Congress, has faced opposition from the sections of the Irish political establishment."

Dr. McDaid's predecessor, Fine Gael minister Enda Kenny who also held responsibility for trade and commerce, wrote to the Irish News recently calling on the people of the north, and called on the people of the north to work with the influential American politicians who are backing the free trade initiative.

"I encourage the people of Northern Ireland and the border counties to work with me through trade associations, councils and elected representatives to help pass this bill as well as other related measures. Together, we can help lay the groundwork for a sound economic future in Northern Ireland," he wrote.

Mr. Meehan stressed in his letter that, contrary to some of the criticisms leveled against the bill, his legislation would comply fully with European Union law.

By Mr. D'AMATO: Mr. President, I rise today to introduce legislation necessary to correct a problem faced by an important segment of the American exporting community, catalogue merchants. Catalogue merchants are multi-billion dollar businesses in New York State and across the nation. Due to an anomaly in our custom laws, some products sold by these merchants face double duties when the goods are returned to them by customers abroad. The bill I am introducing today seeks to correct this problem by making sure that duties are only assessed once—as the law intended—the first time a product comes into this country from abroad.

If I may Mr. President, let me explain the problem to first telling you how the system is supposed to work. When a catalogue merchant imports a product directly from abroad, as the
By Ms. SNOWE (for herself and Mr. BREAUX):

S. 1480. A bill to authorize appropriations for the National Oceanic and Atmospheric Administration to conduct research, monitoring, education, and management activities for the eradication and control of harmful algal blooms, including blooms of Pfiesteria piscicida and other aquatic toxins; to the Committee on Commerce, Science, and Transportation.

THE HARMFUL ALGAL BLOOM RESEARCH AND CONTROL ACT OF 1997

Ms. SNOWE, Mr. President, today I am introducing legislation designed to address a serious national problem affecting our coasts.

The recent outbreak of Pfiesteria in the Chesapeake Bay has garnered a lot of media attention, and deservedly so. But Pfiesteria is actually just one example of a larger phenomenon—Harmful algal blooms. These damaging outbreaks of often toxic algae affect every U.S. coastal State and territory. In my State of Maine, we have outbreaks of paralytic shellfish poisoning every year. In Washington in 1991, an outbreak resulted in losses of razor clams exceeding $15 million. And off Alaska, which has our Nation’s most pristine coastline, an estimated $50 million worth of shellfish remain unexploited each year due to these outbreaks.

What is frightening is that these blooms have been increasing over the last 30 years with no sign of abatement—and science cannot explain why. Nor do we have any other way of addressing the problem besides closing areas to swimming and fishing.

My bill is designed to address this problem with focused and appropriate Federal action. NOAA, the lead Federal agency on harmful algal blooms, currently has a research program to address the problem—the Ecology and Oceanography of Harmful Algal Blooms project, or ECO-HAB. It is part of NOAA’s Coastal Ocean Program, but it does not have a specific authorization. My bill would give this program a specific authorization for $10.5 million annually during fiscal years 1998, 1999, and 2000, providing it with a more certain future as the next century approaches.

The bill would also authorize the following activities for the next 3 years—$5 million per year for NOAA to upgrade its research lab capabilities to more effectively study the problem; $3 million annually for education and extension services through the Sea Grant colleges; $5.5 million annually to augment Federal and State monitoring programs to help detect harmful algal blooms early; and $8 million annually to the States through the Coastal Zone Management Act (CZMA) programs to help States control blooms in their area.

My bill represents a coordinated strategy for attacking this serious problem. I hope all of my colleagues will join me in supporting this legislation. I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed, in the RECORD, as follows:

S. 1480

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE. This Act may be cited as the “Harmful Algal Bloom Research and Control Act of 1997.”

SEC. 2. FINDINGS.

The Congress finds that—

(1) recent occurrences of the harmful microbe Pfiesteria piscicida in the coastal waters of the United States is one of the larger set of potentially harmful algal blooms that appear to be increasing in abundance and intensity in the Nation’s coastal waters;

(2) in recent years, harmful algal blooms have resulted in massive fish kills, the deaths of marine mammals, loss of shellfish, closures of access to beaches, and losses of millions of dollars in potential income.

On Georges Bank off the New England coast, harmful algal blooms cause $3 million to $5 million worth of damage every year. In Washington in 1991, an outbreak resulted in losses of razor clams exceeding $15 million. And off Alaska, which has our Nation’s most pristine coastline, an estimated $50 million worth of shellfish remain unexploited each year due to these outbreaks.

What is frightening is that these blooms have been increasing over the last 30 years with no sign of abatement—and science cannot explain why. Nor do we have any other way of addressing the problem besides closing areas to swimming and fishing.

My bill is designed to address this problem with focused and appropriate Federal action. NOAA, the lead Federal agency on harmful algal blooms, currently has a research program to address the problem—the Ecology and Oceanography of Harmful Algal Blooms project, or ECO-HAB. It is part of NOAA’s Coastal Ocean Program, but it does not have a specific authorization. My bill would give this program a specific authorization for $10.5 million annually during fiscal years 1998, 1999, and 2000, providing it with a more certain future as the next century approaches.

The bill would also authorize the following activities for the next 3 years—$5 million per year for NOAA to upgrade its research lab capabilities to more effectively study the problem; $3 million annually for education and extension services through the Sea Grant colleges; $5.5 million annually to augment Federal and State monitoring programs to help detect harmful algal blooms early; and $8 million annually to the States through the Coastal Zone Management Act (CZMA) programs to help States control blooms in their area.

The Congress finds that—

(1) recent occurrences of the harmful microbe Pfiesteria piscicida in the coastal waters of the United States is one of the larger set of potentially harmful algal blooms that appear to be increasing in abundance and intensity in the Nation’s coastal waters;

(2) in recent years, harmful algal blooms have resulted in massive fish kills, the deaths of marine mammals, loss of shellfish, closures of access to beaches, and losses of millions of dollars in potential income.

On Georges Bank off the New England coast, harmful algal blooms cause $3 million to $5 million worth of damage every year. In Washington in 1991, an outbreak resulted in losses of razor clams exceeding $15 million. And off Alaska, which has our Nation’s most pristine coastline, an estimated $50 million worth of shellfish remain unexploited each year due to these outbreaks.

What is frightening is that these blooms have been increasing over the last 30 years with no sign of abatement—and science cannot explain why. Nor do we have any other way of addressing the problem besides closing areas to swimming and fishing.

My bill is designed to address this problem with focused and appropriate Federal action. NOAA, the lead Federal agency on harmful algal blooms, currently has a research program to address the problem—the Ecology and Oceanography of Harmful Algal Blooms project, or ECO-HAB. It is part of NOAA’s Coastal Ocean Program, but it does not have a specific authorization. My bill would give this program a specific authorization for $10.5 million annually during fiscal years 1998, 1999, and 2000, providing it with a more certain future as the next century approaches.

The bill would also authorize the following activities for the next 3 years—$5 million per year for NOAA to upgrade its research lab capabilities to more effectively study the problem; $3 million annually for education and extension services through the Sea Grant colleges; $5.5 million annually to augment Federal and State monitoring programs to help detect harmful algal blooms early; and $8 million annually to the States through the Coastal Zone Management Act (CZMA) programs to help States control blooms in their area.
Mr. D EWINE. Mr. President, I rise today to introduce a bill that will help organ transplant recipients maintain access to drugs that they need to prevent their immune systems from rejecting transplanted organs. This bill is the product of many conversations I have had with folks in the organ and tissue transplant community, including many people from Ohio.

I have worked with people interested in organ and tissue donation for quite some time to increase awareness and education about transplant issues. Organs are very scarce, and we work hard to raise awareness so we can increase donation. Despite our efforts, more than 55,000 Americans are on the organ transplant waiting list—where they wait, waiting, and waiting, some of them die.

Others are lucky—they get one of the precious organs, allowing them to live a healthier, longer life. Because of the wonderful gift these lucky few have been given, it is particularly tragic that so many can’t afford the drugs—called immunosuppressive drugs—that help ensure that their immune systems won’t reject their new organs.

That is why I am introducing the “Immunosuppressive Drugs Coverage Act of 1997.” This bill makes sure that the 75,000 people that have received an organ transplant covered by Medicare always have access to immunosuppressive drugs. Medicare currently limits coverage for immunosuppressive drugs to 30 months after a transplant. In 1998, the limit will rise to 36 months under current law.

But then what? After Medicare coverage ends, the transplant recipient must find some other way to pay for these essential drugs. Many transplant recipients may not be able to get other insurance coverage or be able to afford to pay out-of-pocket for the drugs, which average around $5,000 annually and can reach $30,000. Without a way to pay for these, these patients may be forced to stop taking the immunosuppressive drugs. Others will ration use of the drugs and take them irregularly. In either case, the risk of rejection for the transplant organ is much greater.

If a transplanted organ is rejected, the recipient may die or may need intensive, life-sustaining medical care, which Medicare often does pay for. And if Medicare does not, it won’t pay for the drugs to prevent these life-threatening episodes.

For kidney recipients, who make up the vast majority of Medicare transplant recipients, immune rejection means an immediate return to renal dialysis and $30,000 a year. For some kidney patients and all other Medicare transplant recipients, rejection means a return to the transplant waiting list, and a need for expensive life-sustaining care. If they are lucky, they will get a second transplant, which costs hundreds of thousands of dollars.

My bill simply makes sure that everyone who receives an organ transplant through Medicare will have continued access to immunosuppressive drugs. This bill will help people who cannot pay for life-preserving immunosuppressive drugs and, at the same time, will help Medicare avoid the huge costs currently incurred when organs are rejected.

When working with people to write this bill, I wanted to make sure the cost was as low as possible, while still getting the job done. That is why my bill contains safeguards that say that if any patient has private insurance coverage, it is the private insurance plan—and not Medicare—that pays for the immunosuppressive drugs.

Someday, immunosuppressive drugs may not be necessary. We are beginning to see some promising research in this area. But today’s transplant recipients need help now. They need this bill.

The miracle of transplantation gives people the “Gift of Life.” It does not make sense to put this gift at risk because the recipient is unable to pay for immunosuppressive drugs. I urge every Senator to consider cosponsoring and supporting this bill.

By Mr. COATS:

S. 1482. A bill to amend section 223 of the Communications Act of 1934 to establish a prohibition on commercial distribution on the World Wide Web of material that is harmful to minors, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. COATS. Mr. President, during Senate consideration of the Telecommunications Act of 1996, I, along with Senator James Exon, introduced an amendment to the Act which came to be known as the Communications Decency Act or CDA. This amendment held forth a basic principle, that children should be shielded from obscene and indecent pornography. There was spirited debate on the amendment. However, ultimately the Senate adopted the CDA by an overwhelming margin of 84 to 16.

On the very day that the President signed the Telecommunications Act into law, the American Civil Liberties Union and the American Library Association, along with America On-Line and other representatives of the computer and Internet user community, filed a lawsuit against the CDA in District Court. In short, the case ultimately came before the Supreme Court, where it was struck down.

Mr. President, however much I disagree with the principles laid out by the Court, it is reality and as such, I have studied the opinion of the Court and come before my colleagues today to introduce legislation that reflects the parameters laid out by the Court’s opinion.

Mr. President, during Congressional consideration of the CDA, opponents of the measure took what I like to call an ostrich approach. They stuck their head in the sand and their rear end in the air.

With companies like America Online and Microsoft in the forefront, there came an indignant claim from the computer industry that there was no problem with pornography on the Internet. They claimed that there was very little pornography, and that what exists is difficult to find. However incredible, this is what they claimed.

Well, Mr. President, this ostrich appears to have extricated its head from the sand. For after the Supreme Court’s ruling, the computer industry, along with so-called civil liberties groups, gathered for a White House summit to address the issue of pornography on the net, and what could be done about it. There are now panels and working groups, media discussions and industry alternatives all designed to address this problem of the proliferation of pornography on the Internet and the threat it poses to our children.

Mr. President, let me congratulate the computer industry, and welcome them to the real world.

And what is this real world? Mr. President, I turn now to the February 10 edition of U.S. News and World Report. The cover story is entitled, “The Business of Porn.” The article outlines in rather disturbing clarity the issue of pornography in America. “Last year”
it states, "America spent more than $8 billion on hard-core videos, peep shows, live sex acts, adult cable programming, sexual devices, computer porn, and sex magazines—an amount much larger than Hollywood's domestic box office receipts—and all the revenues generated by rock and country music recordings. Americans now spend more money at strip clubs than at Broadway, off-broadway, regional, and nonprofit theaters; at the operas, the ballet, and jazz and classical music performances combined."

This is truly alarming, and reflects poorly on the moral direction of the country. And, Mr. President, as the Internet continues to grow as a medium of communication and commerce in our society, its role in expanding the commerce of pornography increases exponentially.

The Article goes on to say that: "In much the same way that hard-core films on videocassette were largely responsible for the rapid introduction of the VCR, porn on and CD-ROM and on the Internet has hastened acceptance of these new technologies. Internet adult CD-ROMS, such as Virtual Valarie and the Penthouse Photo Shoot, create interest in multimedia equipment among male computer buyers." It goes on: "Porn companies have established elaborate Web sites to lure customers . . . Playboy's web site, which offers free glimpses of its Playmates, now averages about 5 million hits a day."

The Article quotes Larry Flint, who says no-way. "And what about blocking software? Mr. President, let me begin by pointing out that many of the proponents of this solution are willing to go to. The American Library Association, a principal opponent of the CDA, lined up with plaintiffs in challenging the Constitutionality of the Act. Is it any wonder of the Library Association and their cohorts, that blocking software presented a non-governmental solution to the problem."

However, Mr. President, if one logs onto the American Library Association Web site one finds quite a surprise. Contained on the site is a resolution, adopted by the ALA Council on July 2, 1997, that resolves: "That the American Library Association affirms that the use of filtering software by libraries to block access . . . violates the Library Bill of Rights." Mr. President, I ask unanimous consent that this Resolution be inserted into the RECORD. So, here we find the true agenda of the American Library Association. They represent to the Court that everything is O.K., that all we need is blocking software. Then, they turn around and implement a policy that says no-way. And what are the implications? I quote now from a February 12, 1997 article in the Boston Herald. "John Hunt, a parent from Dorchester, said he was furious to learn his 11-year-old daughter was able to view pornography yesterday while working on a school essay at the BPL's Adams Square branch."

The Article goes on to tell the story of another parent, Susan Sullivan who said she was stunned when her 10-year-old son spent the afternoon researching a book report on the computer in the BPL's Adams Street branch, but ended up looking through explicit photographs instead.

Mr. Sullivan says: "I'm very, very upset because I have no idea what he saw on the screen. He said he was using the Internet to do a book report on Indians and he was able to access dirty pictures, pictures of naked people . . . We do have children's librarians but we do not have Internet police."

When the library spokesman was asked about parent's concerns, he dismissed them saying, "We do have children's librarians but we do not have Internet police."

The American Library Association affirms that the software does not work. It does not work, because there is no incentive for pornographers to comply.

And what about blocking software? Mr. President, let me begin by pointing out that many of the proponents of this solution are willing to go to. The American Library Association, a principal opponent of the CDA, lined up with plaintiffs in challenging the Constitutionality of the Act. Is it any wonder of the Library Association and their cohorts, that blocking software presented a non-governmental solution to the problem."

The American Library Association affirms that the software does not work. It does not work, because there is no incentive for pornographers to comply.
The bottom line is money. There are millions upon millions of dollars being made on the Internet in the pornography business. There is even more money being made marketing software to terrified parents, software that does not work.

Let's look at the situation. You have the computer industry working to defeat laws designed to prohibit distribution of pornography to children. The solution they promote is to require software, manufactured by themselves. They are making tens-of-millions of dollars off of it. However, what we find out is that the software doesn't work. And all the while, you have companies like America On-Line out there, hooking in the sand, telling parents, schools, Congress, and the American public that there isn't a problem with pornography on the Internet. And the Internet Access Providers are pulling in the big bucks, providing access to the red light district.

“The Erotic Allure of Home Schooling,” that is the name of an article, published in the September 8 edition of Fortune Magazine. Mr. President, I have been an advocate of home schooling. But, I must confess that its erotic allure has never been one of my motivations.

It begins: “Here’s one of the Web’s dirtiest words: Mars. Try searching for sites about the red planet lately, and you could land on a porn purveyor’s on-line playground. What next?” The article asks, “Smut linked to the keywords ‘home schooling’? Don’t look now—sex has happened.”

The article goes on: “Perverse as these connections seem, they’re right out of Economics 101, specifically the part about competition. Pornography sites are among the Web’s few big monopolies. There are thousands of them, from the R-rated to the boundlessly perverse. They compete furiously, and their main battlefield for market share is search engines like Yahoo, Lycos, Excite, and Infoseek. Web search engines act like a great combine that taps into such search services and use keywords like ‘sex’ and ‘XXX.’ But so many on-line sex shops now display those words that their presence won’t make a site stand out in a list resulting from a user’s query. To get noticed, pornographers increasingly try to trick search engines into giving them top billing—sometimes called ‘spoofing.’”

The article points out that: “Search engines like Infoseek can constantly develop new filters to defeat spoofing. But calls still come in from irate mothers and grade-school teachers who click on innocent-looking search results and find themselves on a page featuring ‘adult content.’” The article concludes: “The Clinton Administration is encouraging efforts based on ‘voluntary restraint.’ That’s a lot to ask in the Web’s open bazaar, where market share is the name of the game.”

I ask unanimous consent that the full text of this article be inserted in the record at the appropriate place.

Mr. President, it is not just a lot to ask. It is foolish and futile to ask. The bottom line is that, unless commercial distributors of pornography are met with the force of law, they will not act responsibly.

I am here today to introduce legislation that will provide just such force of law.

As I stated in my opening comments, the legislation I introduce today is designed to address the concerns of the Supreme Court. This legislation is specifically targeted at the commercial distribution of materials harmful to minors on the World Wide Web.

It states simply that: Whoever in interstate or foreign commerce or through the World Wide Web is engaged in the business of the commercial distribution of material that is harmful to minors shall restrict access to such material by persons under 17 years of age.

It is an affirmative defense to prosecution that the defendant restricted access to such material by requiring use of a verified credit card, debit account, adult access code, or adult identification number. The bill also calls upon the FCC to prescribe alternative procedures. The FCC is expressly restricted from regulation of the Internet, or Internet Speech.

Further, the FTC and the Justice Department are directed to post on their Web sites information as is necessary to inform the public of the meaning of the term ‘harmful to minors.’

As I know that it will be of some concern to many of my colleagues, the legislation dealing with this topic takes into account the Supreme Court’s ruling in the CDA. I would like to take some time now to examine the key precedents which the Court considered in its opinion on the CDA and how they relate to this bill.

Central to the construction of this legislation is the Ginsberg case. This Court ruling upheld the constitutionality of a statute that prohibited the selling to minors under 17 years of age material that was considered obscene as to them even if not obscene as to adults. In Ginsberg, the New York statute combined its definition of harmful to minors with the requirement that it be ‘utterly without redeeming social importance for minors.’ The Court goes on to express that the CDA omits any requirement that the material covered in the statute lack serious literary, artistic, political, or scientific value.

This concern is addressed directly in my legislation, with a specific definition of harmful to minors requiring that the material in question ‘lacks serious literary, artistic, political, or scientific value.’ Mr. President, I do not believe that it is possible to address a concern more directly to the Ginsberg case than the New York statute applied only to commercial transactions. As I have previously stated, my legislation deals only with commercial transactions.

The Court points out that in Ginsberg, the New York statute combined its definition of harmful to minors with the requirement that it be ‘utterly without redeeming social importance for minors.’ The Court goes on to express that the CDA omits any requirement that the material covered in the statute lack serious literary, artistic, political, or scientific value.

As I have previously stated, my legislation deals only with commercial transactions.

Finally, the Court states that the New York statute considered in Ginsberg defined a minor as a person under the age of 17, whereas the CDA applied to children under the age of 18.

The Court interpreted the CDA to prohibit sales to minors does not bar parents who so desire from purchasing the magazines for their children. The Court interpreted the CDA to prohibit such activity. Though I must confess to my colleagues, I find it disturbing proposition that a parent should so desire to purchase pornographic material for their children’s consumption, it seems that this is a right that this Court feels compelled to protect.

The legislation I introduce today places no restriction on a parent’s right to purchase such material, and to provide it to their children, or anyone else. In fact, it places no restriction on any potential consumer of pornography. Rather, it simply requires the commercial purveyor of pornography to cast their message in such a way as not to be readily available to children.

The Court’s second concern relating to Ginsberg is that the New York statute applied only to commercial transactions. As I have previously stated, my legislation deals only with commercial transactions.

The Court points out that in Ginsberg, the New York statute combined its definition of harmful to minors with the requirement that it be ‘utterly without redeeming social importance for minors.’ The Court goes on to express that the CDA omits any requirement that the material covered in the statute lack serious literary, artistic, political, or scientific value.

In considering the precedent established in Pacifica, and their relationship to the CDA, the Court outlined 3 concerns.

First, the Court stated that, unlike in Pacifica where the content in question was broadcast as to the time it was broadcast, the CDA made no such distinction. Further, the Court makes a rather curious distinction in stating that the regulation in question in the Pacifica case had been promulgated by an agency with “decades” of experience in regulation.

On the first point, the regulation of Internet content in the context of time is irrelevant, as a child may access or be inadvertently exposed to pornography any time he or she logs onto the Internet. That could be in the evening, when doing a research paper, or during class—working on an assignment, or at the public library. The simple fact that a child runs the risk of exposure any time presents a more substantial potential for harm than the time regulation approach approved in Pacifica, and calls for a higher level of control, not lower as the Court concluded.

On the question of regulation by an agency with decades of experience, given the rapidity with which the Internet is evolving and new and more effective means of access restriction emerge, the Commission could modify the regulation, without the creation of a regulatory regime with expansive FCC authority over the Internet and speech.

The Court goes on to point out that in Pacifica, the Commission’s declaratory order was not punitive, whereas there were penalties under the CDA. Here, it is important to distinguish the difference in scope between this legislation and the CDA.

A principal concern of the Court with the CDA, was that the CDA dealt with both commercial and non-commercial speakers. As such, the cost and burden of technology burdens necessary to restrict access that would be imposed by the CDA on non-commercial speakers, according to the opinion of the Court, would be prohibitive. The result would be, in this opinion of the Court, that speech would be chilled.

The legislation I introduce today is strictly limited to the commercial distribution of pornography on the World Wide Web. The commercial distributors of pornography on the Web already use the very mechanisms (credit cards and PIN numbers) that are required under this bill. The difference between the status quo and this bill is that pornography distributors would be required to cease to give away the freebies that any child with a mouse could gain access to.

As such, Court concerns regarding the potential chilling effect to non-commercial speech that they perceived under the CDA is moot. The scope of this legislation is directed solely to the non-commercial speaker. Secondly, this legislation imposes no new technological or economic burden on the commercial operator. It simply imposes a control on the manner of distribution that does not burden the distributors.

Mr. President, there is a long tradition of fines and penalties for violations of laws governing the commercial distribution of pornography. This legislation is simply a continuation of these principles. In fact, the very treatment provided by pornography does not provide hard-core pornography available on the Internet, would cease to give away the freebies that any child with a mouse could gain access to.

Finally, under an examination of Pacifica, the Court points out the differences between the level of First Amendment protection extended to broadcast and the Internet. Mr. President, I must say that however much I differ with the opinion of the Court on this question in general, I would simply point out that the harmful to minors standard has traditionally been used, and has been constitutionally upheld, as a standard for regulating print media. Print media is extended protection. As such, this legislation clearly accounts for the Supreme Court’s concerns in this area.

The Court also examines the precedents established under Renton. The Renton case dealt with a zoning ordinance that kept adult movie theaters out of residential neighborhoods. It did so based on the “secondary effects” of the theaters—such as crime and deteriorating property values. It was the Court’s opinion that the CDA treated the entire universe of Internet speech rather than specific areas or zones. Further, the Court seemed preoccupied that the CDA dealt with the primary, not the secondary effects of pornography.

The legislation I introduce today deals with a narrow zone of the Internet, commercial activity on the World Wide Web. Though there is tremendous speech on the Internet, there is an articulation in pornography on the Web. The cyber-geography of this bill is very limited.

Mr. President, on this question of primary and secondary effects, I must differ with the Court and would like to go into this question in detail.

The underlying principle which the Senate supported by a vote of 84 to 16 in adopting the CDA, and which is embodied in the legislation I introduce today is articulated in New York versus. Ferber: “It is evident beyond the need for elaboration that the State’s interest in ‘safeguarding the physical and psychological well-being of a minor’ is compelling.”

There is no question that exposure to pornography harms children. A child’s sexual development occurs gradually through childhood. Exposure to pornography, particularly the type of hard-core pornography available on the Internet, distorts the natural sexual development of children.

Pornography shapes children’s sexual perspective by providing them information on sexual activity. However, the type of information provided by pornography does not provide children with a normal sexual perspective. As such, Enough is Enough’s brief to Court on the CDA, pornography portrays unhealthy or antisocial kinds of sexual activity, such as sadomasochism, abuse, and humiliation of females, involvement of children, incest, group sex, voyeurism, sexual degradation, bestiality, torture, objectification, that serve to teach children the rudiments of sex without adult supervision and moral guidance.

Ann Burgess, Professor of Nursing at the University of Pennsylvania, states that children generally do not have a natural sexual capacity until between 10 and 12 years old. Pornography unnaturally accelerates that development. By short-circuiting the normal development process and supplying misinformation about their own sexuality, pornography leaves children confused, changed and damaged.

As if the psychological threat of pornography does not present a sufficient compelling interest, there is the significant physical threat. As I have stated, pornography develops in children a distorted sexual perspective. It encourages irresponsible, dehumanized sexual behavior, conduct that presents a genuine physical threat to children. In the United States, about one in four sexually active teenagers acquire a sexually transmitted disease (STD) every year, resulting in 3 million STD cases. Infectious syphilis rates have more than doubled among teenagers since the mid-1980’s. One million American teenage girls become pregnant each year. A report entitled "Exposure to Pornography, Character and Sexual
Deviance’ concluded that as more and more children become exposed not only to soft-core pornography, but also to explicit deviant sexual material, society’s youth will learn an extremely dangerous message: sex without responsibility is acceptable.

However, there is a darker and more ominous threat. For research has established a direct link between exposure and consumption of pornography and sexual assault, rape, and molesting of children. As stated in Aggressive Erotica and Violence Against Women, “Virtually all lab studies established a causal link between violent pornography and the commission of violence. This relationship is not seriously debated in the research community.”

What is more, pedophiles will often use pornographic material to desensitize children to sexual activity, effectively breaking down their resistance in order to sexually exploit them.

A study by Victor Cline found that child molesters often use pornography to seduce their prey, to lower the inhibitions against their sin, and as an instruction manual. Further, A. W. Marshall found that “87 percent of female child molesters and 77 percent of male child molesters studied admitted to regular use of hard-core pornography.”

Given these facts, Mr. President, any distinction the Court makes regarding the effects of pornography on children seems to miss the very point of the state’s primary interest. For the sanctity and security of childhood is what these efforts are all about.

As I have stated before in addressing this subject, childhood must be defended by parents and society as a safe harbor of innocence. It is a privileged time to develop values in an environment that is not hostile to them. But this foul material on the Internet invades their privacy, their innocence. It takes the worst excesses of the red-light district and places it directly into a child’s bedroom, on the computer their parents bought them to help them with their homework.

I urge Congress to support this legislation, and yield the floor.

There being no objection, the material was ordered to be printed in the Record, as follows:

(From U.S. News & World Report, Feb. 10, 1997)

THE BUSINESS OF PORNOGRAPHY

By Eric Schlosser

Most of the money being generated by pornography today are being earned by businesses not traditionally associated with the sex industry

John Stagliano is a wealthy entrepreneur, a self-made man whose rise to the top could happen only in America. Raised in a conservative, Midwestern household, Stagliano read the books of Ayn Rand and was greatly influenced by their heroes, rugged individualists willing to defy conventional opinion. He attended the University of California—Los Angeles, hoping to become a professor of economics. Instead, he studied modern dance, transformed from a minor subculture on the West Coast into one of the nation’s cultural imports. A new movie star is born.

Porn has become so commonplace in America that one can easily forget how the sex industry has transformed itself from a minor subculture into a major component of popular culture.

The Reagan-Bush war on pornography coincides with the dramatic increase in America’s consumption of sexually explicit materials. According to Adult Video News, an industry trade publication, the number of hard-core video rentals rose from 125 million in 1985 to 600 million in 1992. The total climbed to 665 million, an all-time high, in 1996. Americans spent more than $8 billion on hard-core videos, peep shows, live sex acts, adult cable programming, sexual videos, computer porn, and sex magazines, more than Hollywood’s domestic box office receipts and larger than all the revenues generated by rock and country music recordings.

Americans now spend at least $2 billion a year on hard-core films, selling them to wholesalers and retailers and directly to consumers. The studios themselves make more than $10 million, perhaps less than $5 million.

During the 1980s, the advent of adult movies on videocassette and on cable television, as well as the huge growth in telephone sex services, shifted the consumption of porn away from movie theaters into the home. As a result, most of the profits generated by porn today are being earned by businesses not traditionally associated with the sex industry—by mom and pop video stores; by long-distance carriers like AT&T; by cable companies like Time Warner and Tele-Comm; and by hotel chains like Marriott, Hyatt, and Holiday Inn that now reportedly earn millions of dollars each year supplying adult films to their guests. America’s porn has become one more of its cultural exports, dominating overseas markets.

Despite having some of the toughest restrictions on sexually explicit materials of any Western industrialized nation, the United States is now by far the world’s leading producer of porn, churning out hard-core, soft-core and the monstrous rate of about 150 new titles a week.

Parallel universe. In the San Fernando Valley of Southern California, near Universal City and the Warner Bros. back lot, an X-rated theme park devoted entirely to sex opens on November 8, 1997.

Just to the north of the park, in the San Gabriel Mountains, shelves are lined with more than $10 million, perhaps less than $5 million, of the sex industry’s cultural exports. Inside the headquarters of ESP, a United Artists of porn, a rival L.A. company sells a plastic, inflatable woman that speaks with an English accent. The factory is located in one of the San Gabriel Mountains, near the San Gabriel Mountains, with its large warehouse, dormitories, and storehouse.

Porn has become so widespread, it seems a good lawyer—"the availability of hard-
core films on home video has forced adult theaters out of business in cities nationwide. Los Angeles once had more than 30 adult theaters; today it has perhaps six. The number of porn houses has also fallen, though not so precipitously. The bookstores are supported mainly by their peep booths, which at some locations now allow a customer to watch male or female performers on a monitor simultaneously on dual TV screens, demanding a new quarter every 20 seconds.

Although the sex industry in Southern California is booming, most of the revenues generated by hard-core videos are going to mainstream video stores. The consolidation of the distribution market has reduced the number of national chains like Blockbuster, has put enormous pressure on mom and pop video stores. Faced with competition from superstores, many independent retailers have been turned to renting and selling hard-core porn as a means of attracting customers. This marketing strategy has been made possible by Blockbuster's refusal to carry X-rated material and by the higher profit margins of hard-core videos. A popular Hollywood movie on videotape, such as Pulp Fiction, may cost the retailer $60 or more per tape and rent for $3 a night. A new hard-core release, by comparison, may cost $20 per tape and rent for $4 a night. The high cost of hard-core video releases derive a third of their income from porn. According to Paul Fishbein, editor of Adult Video News, there are approximately 25,000 video stores that carry and sell hard-core films—almost 20 times the number of adult bookstores.

Economies of scale. The spread of hard-core videos into mainstream channels of distribution has fueled a tremendous rise in the production of porn. Since 1991, the number of new hard-core titles released each year has increased by 500 percent. A market once characterized by a relatively undifferentiated product has segmented into various niches, with material often aimed at narrowly defined audiences.

Hard-core videos now cater to almost every conceivable predilection—and to some that are difficult to imagine. There are gay videos and straight videos; bondage videos and spanking videos; tickling videos, interracial videos, and videos like Count Footula for people whose fetish is feet. There are "she-male" videos featuring transsexuals and "cat fighting" videos in which naked women wrestle to the ground and bare their naked men. There are hard-core videos for senior citizens, for sadomasochists, for people fond of verbal abuse. The sexual fantasies being explored are far too numerous to list. America's sex industry today offers a textbook example of how a free market can efficiently gear production to meet consumer demand.

Men are by far the largest consumers of porn. Most of the hard-core material being sold depicts sexuality from a traditional male perspective, depicting women's bodies as objects to be viewed. The market has fragmented even further, with a constant demand for new talent. There is a constant demand for new talent, and few actresses last more than a year or two. Hartley says, "They're like Hollywood actors. They come in, they get their break, and then they're gone."

Hard-core videos, however, are not sex radicals, "You'd be surprised by the amount of morality and conventionalism in the business," says Hirsch. "We're not only misogynous but misanthropic, treating men with disrespect. It is a disposable commodity, reflecting the culture's deep fear of sex. 'The people who run the porn business are not sex radicals,' he says. "They take sex and sell it as a commodity, with regret, their sex lives at home tend to be extremely conventional. 'You'd be surprised how many of the producers and manufacturers are Republicans.'"

Hirsch also sells the foreign distribution rights for $200 per title, or covering the entire cost of a production through an overseas sale. Canal Plus, one of France's biggest cable companies, broadcasts two hard-core channels, which are among Europe's most popular. Many European countries tend to have much looser standards about nudity on television and much tougher restrictions on violence. In Germany, films like Rambo and RoboCop cannot be broadcast on television or rented from video stores. In some states in the U.S.,работн и рекреационной деятельности и могут оказывать существенное влияние. Однако, несмотря на значительный рост рынка, основной доход все еще идет от производства порнофильмов, а не от распространения на видео.

Также, следует отметить, что рынок порноиндустрии обладает высокой концентрацией и сложной структурой. Многие крупные компании, такие как Vivid Video, контролируют значительную часть рынка и имеют свои каналы на кабельных сетях. Они также контролируют доступ к поисковым услугам, которые могут стать важным источником дохода для производителей порнофильмов. Помимо этого, порнофильмы часто используются как реклама для других продуктов и услуг, что позволяет увеличить доходы от продажи порнофильмов в целом.

В целом, рынок порноиндустрии является сложной и динамично развивающейся сферой, где роль законодательства, морали и коммерции постоянно меняется. Важно отметить, что развитие порноиндустрии также связано с вопросами регулирования, защиты прав потребителей и социальных стереотипов, которые могут влиять на развитие порноиндустрии в целом.
Sexually transmitted diseases are one of the industry’s occupational hazards. Performers are now required to undergo monthly HIV testing, and their test results serve as a passport-like证明 of their health. Many performers insist upon the use of condoms during especially high-risk activity; the majority of producing companies insist upon the use of condoms unless the parties involved have met with a doctor to determine that the possibility of acquiring HIV or other STDs could in a matter of days spread the virus to many other performers. Because such an epidemic has not yet struck the porn community, questions of condom use are evading the bottom line: how low can the studio go with condom use? Performance companies have met with little success. Most of the performers, according to Hartley, are “eighties kids” who want to be rich and pay fewer taxes: “Solidarity? Brotherhood? Sisterhood? Ha!” Verbal contracts are routinely made and broken, by producers and performers. Checks sometimes bounce. The business is littered with cases of uncertainty, as performers reluctant to seek legal redress in court.

The highest-paid performers, the actresses with exclusive contracts, earn between $80,000 and $100,000 a year for doing about 20 sex scenes and making a dozen or so personal appearances that might range from $1,000 to $10,000 a shot. Some of the top male performers are $1,000 a scene, and the best performers are $1,500 to $2,000. The number of actresses who are consistently display that skill; some have now appeared in more than 1,000 hard-core films. Hartley spends about half of her year on the road, dancing in strip clubs four to six nights a week. Like many porn actresses, that is how she earns the bulk of her income. The hard-core strip-club business during the 1980s coincided with the opening of large strip clubs all over the country. Hard-core video strips of sexual performances are found on their campuses and schools.

The sexual content of the call is often of secondary importance. Some calls reach a recorded message, but most are answered by “actresses”—bank tellers, accountants, secretaries, and others. Callers are promised extra money at the end of the day. The ease, anonymity, and interactive quality of phone sex explain its commercial success and its growing popularity. Last year Americans spent between $750 million and $1 billion on telephone sex.

Online sex. The nation’s obscenity laws and the Communications Decency Act are the greatest impediments to Flynt’s brave efforts to make the world a better place for women. The federal government has made it very difficult for women to communicate their sexual desires to each other. The Justice Department has refused to defend the rights of Flynt’s customers, and the Justice Department has prevented Flynt from advertising his wares to a national audience. Web Site Ratings—Shame on Most of Us

We and many others in the computer industry and press have decried the Communications Decency Act and other government attempts to regulate the content of the Web. Instead, we've all argued, the government should be careful and regulate only content. Page ratings and browsers that respond to those ratings, not legislation, are the answers we've offered.

The approach worked. Effective with the CDA still wrapped up in the courts, the general feeling seems to be that we, the good guys, won this one.

Too bad we left the field before the game was over. We who work around the Web have done little to rate our content. We stumbled upon this situation while testing the latest release of Ziff-Davis' BrowserComp browser compatibility test (available at www.zd.com). We were checking a few random sites to verify that they contained ratings. They did not.

After visiting a broader set of sites, we were shocked by how little use of ratings we found. You can see for yourself by cranking Netscape's Navigator 3.0 does not include RSACI support. (Such support is coming in a future release from Netscape, but it's bad that this leader in the Web community was not a leader in ratings support.)

If you are as outraged as we are by the lack of page ratings, do something about it. Don't just pop by Netscape's site and start checking pages. We think your idea what he saw on the screen,'' she said. "He said he was using the Internet to do a book report on Indians and he was able to access dirty pictures, pictures of naked people."

However, library spokesman Arthur Dunphy said, "We do have children's librarians but we don't have child line." The lack of controls on library computers used by city schoolchildren has police investigating and city councilors demanding action at a meeting today.

"I'm a believer in early learning, but not this kind of early learning," said City Councilor Peggy Davis-Mullen. "Sgt. Tom Plananaz of Area C-11 in Dorchester said his station has received a number of complaints from parents over the past week, prompting police to ask local library officials to keep a closer eye on what children are doing on the computers.

"As far as what these kids are actually getting into, I'm not really sure," Plananaz said. "But we'd like the libraries to be a little bit more watchful of the kids on the computers, to be a little more aware of what the kids are looking at and monitoring it, especially when the children today are so quick with computers.""
affirmation of core First Amendment principles and held that communications over the Internet deserve the highest level of Constitutional protection; and

Whereas the Court’s most fundamental holding is that communications on the Internet deserve the same level of Constitutional protection as books, magazines, newspapers, and speakers on the street corner soapbox. The Court found that the Internet “constitutes a vast platform from which to address and hear from a world-wide audience of millions of readers, researchers, and students, and that “any person with a phone line can become a town crier with a voice that resonates farther than it could from any soapbox’’; and

Whereas, For libraries, the most critical holding of the Supreme Court is that libraries that make available on the Internet content that the libraries protect that access; and

Whereas, The Court’s conclusion that “the vast democratic fora of the Internet’’ merit constitutional protection will also serve to protect libraries that provide their patrons with access to the Internet; and

Whereas, The Court recognized the importance of enabling individuals to receive speech from the entire world and to speak to the entire world. Libraries provide those opportunities to many who would not otherwise have them; and

Whereas, The Supreme Court’s decision will protect that access; and

Whereas, The use in libraries of software filters which block Constitutionally protected speech violates the Constitution and federal law and may become a town crier with a voice that resonates farther than it could from any soapbox’’.

Resolved, That the American Library Association affirms that the use of filtering software by libraries to block access to Constitutionally protected speech violates the Constitution and federal law and may become a town crier with a voice that resonates farther than it could from any soapbox’’.

Adopted by the ALA Council, July 2, 1997.

From Fortune, Sept. 8, 1997:

The Erotic Allure of Home Schooling: Web Porn Sites

(By Edward W. Desmond)

Psst. Here’s one of the Web’s dirty words: Mars. It no longer refers to the red planet lately, and you could land in a porn purveyor’s online playground. What next? Smut linked to the keywords “home schooling”? It’s already happening.

Perverse as these connections seem, they’re right out of Economics 101, specifically the part about competition. Pornography sites are among the Web’s few big moneymakers. There are thousands of them, from the R-rated to the boundlessly perverse. They compete furiously, and their main battleground for market share is search engines like Yahoo, Lycos, Excite, and Infosseek. Web surfers looking for porn typically tap into such search engines and use keywords like “sex” and “XXX.” But many online sex shops now display those words that their presence won’t make a site stand out in a list resulting from a user’s query. And now, based on fadability of fakability, pornographers increasingly try to trick search engines into giving them top billing—sometimes called “spoofing.”

For a while, spoofing seldom went beyond simple tactics such as stuffing home pages with lines like “SEXSEXSEXSEXSEXSEX.” If a search for “sex” returned only pages containing words like “sex” and “SEXSEXSEXSEXSEXSEX,” the browser would look for sites in its index of millions of pages with the most occurrences of the words. Winners come up first in the search results.

Once that trick became old hat, porn sellers got bolder. Some bought ads on the search engines—one of the more startling ads run recently by Yahoo and Excite reads: “Which site ALSO offers live sorority-slut sex shows, for FREE? Fastporn.” Others took their own names and sent unfriendly search engine staffers recently deleted porn pages from the index that were labeled with words like “Tyson, Mars, and home schooling”—apparently the sites’ sponsors hope to snag unwitting surfers.

Search-engine companies like Infosseek constantly develop new filters to defeat spoofing. But calls still come in from irate mothers and grade-school teachers who click on innocent-looking search results and find themselves on a page too toxic to mention.

Top remedy this dilemma, I am today introducing legislation that I believe will enhance all States’ ability to facilitate competition. This legislation arises from the Energy Committee’s intensive review of the electric power industry and from the Joint Tax Committee’s report that I requested.

Over the past two Congresses, the Committee has held 14 hearings and workshops on competitive change in the electric power industry, receiving testimony from more than 130 witnesses. One of the workshops specifically focused on how public power utilities will participate in the competitive marketplace. At these and in other forums, concerns have been expressed by representatives of public power utilities about the potential jeopardy to their tax-exempt bonds if they participate in State competitive programs, or if they transmit power pursuant to FERC order No. 888, or pursuant to a Federal Power Act section 211 transmission order.

The Joint Tax Committee report, titled Federal Income Tax Issues Arising in Connection with Proposal to Restructure the Electric Power Industry, concluded that current tax laws effectively preclude public power utilities from participating in State open access restructuring plans without jeopardizing the tax-exempt status of their bonds. Under the tax law, if the private use and interest restriction is violated, the utility’s bonds become retroactively taxable.

These concerns have been echoed by the FERC. For example, in FERC Order No. 888, the Commission stated that reciprocal transmission service by a municipal utility will not be required if providing such service would jeopardize the tax-exempt status of the municipal utility. A similar concern exists if FERC issues a transmission order under section 211 of the Federal Power Act.

Mr. President, if consumers and businesses are to maximize the full benefits of open competition in this industry it will be necessary for all electricity providers to interconnect their facilities into the entire electric grid. Unfortunately, this system efficiency is significantly impaired because of current tax laws that effectively preclude public power entities—entities that financed their facilities with tax-exempt bonds—from participating in State open access restructuring plans and Federal transmission programs, without jeopardizing the exempt status of their bonds.

No one wants to see bonds issued to finance public power become retroactively taxable because a municipality chooses to participate in a State open access plan. That would cause havoc in the financial markets and could undermine the financial stability of many municipalities. At the same time, public power should not obtain a competitive advantage in the open marketplace based on the Federal subsidy that flows from the ability to issue tax-exempt debt. Clearly we must provide for the transition to allow public providers to enter the private competitive marketplace without unfair economic dislocation for municipalities and consumers.

Top remedy this dilemma, I am today introducing legislation that will allow municipal utilities to participate and compete in the open marketplace without the draconian retroactive impacts currently required by the Tax Code. My bill is modeled after legislation that passed Congress last year which addressed electricity and gas generation and distribution by local furnishers.

My bill removes the current law impediments to public power’s capacity to participate in open access plans if such entities are willing to forego federal subsidized tax-exempt financing. If public power entities make this election, and choose to compete on a level playing field with other power suppliers, tax-exemption of the interest on their outstanding debt will be unaffected. They would extend an extended period during which outstanding bonds subject to the private use restrictions may be retired instead of retroactive taxation, which is the situation under existing law. The relief provided by my bill applies equally to outstanding bonds for electric generation, transmission, and distribution facilities.
Mr. President, without this legislation, public power will face an untenable choice: either stay out of the competitive marketplace or face the threat of retroactive taxability of their bonds. With this legislation, public power will be able to transition into the competitive marketplace.

Let me provide a few examples of real-world choices that public power faces today. According to the Joint Tax Committee report, the mere act of transferring public power transmission lines to a publicly- operated independent service operator (ISO) could cause the public power entity's tax-exempt bonds to be retroactively taxable. Similarly, a transfer of transmission lines to a State operated ISO could, in many instances, trigger similar retroactive loss of tax-exemption depending on the amount of value of the power that is transmitted along those lines to private users.

Moreover, participation in a state open access plan could, de facto, force public power entities to take defensive actions to maintain their competitive position which could inevitably lead to retroactive taxation of their bonds. Such actions would include offering a discount to selective customers or selling excess capacity to a brokers for resale under long-term contract at fixed rates or discounted rates.

I have also heard from the California Governor and members of the California Legislature about many of these problems and the need for legislation to address them. I stand ready to work with them and representatives from other States to solve this problem as part of the legislation I introduced today.

Mr. President, my bill allows public power to participate in the new competitive world and provides a safe harbor within which they can transition from tax-exempt financing to the level playing field of a competitive marketplace. In addition, the legislation recognizes that there are some transactions that public power entities engage in that should not jeopardize the tax-exempt status of their bonds under current law and seeks to protect those transactions by codifying the rules governing them. This list may need to be expanded and I look forward to the input of the affected utilities in this regard.

In general, the exceptions contained in this bill closely parallel the policies enunciated in the legislative history of the amendments made in the 1986 Tax Reform Act. For example, the sale of electricity by one public power entity to another public power entity for resale by the second public power entity would be exempt so long as the second public power entity is not participating in a State open access plan. In addition, a public power entity would be allowed to enter into pooling and swap arrangements. Other qualifications if the public power entity is not a net seller of output, determined on an annual basis. Finally, the bill contains a de minimis exception for sales of excess output by a facility when such sales do not exceed $1 million.

Mr. President, this legislation attempts to balance many competing interests. This will be a difficult transition and this legislation does not address all the difficult problems to be faced. This is why I emphasize today that this is a starting point for discussion over the months ahead. This will be a difficult transition and this legislation does not address all the difficult problems to be faced. This is why I emphasize today that this is a starting point for discussion over the months ahead. I look forward to receiving comments from all affected parties and will encourage Finance Committee Chairman Roth to hold hearings on this bill early next year.

I am open to making revisions to this bill. This public policy that emphasizes a level playing field and a soft transition to competition for our important public utilities. I look forward especially to working with the Chairman of the Senate Finance Committee, Senator Moynihan, in leading the way.

I ask unanimous consent that the text of this bill be printed in the RECORD, as follows:

S. 1483

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. TREATMENT OF TAX-EXEMPT BOND FINANCING BY CERTAIN ELECTRICAL OUTPUT FACILITIES.

(a) Certain transactions treated as sales to general public for purposes of private business.—The Code (as defined in section 141(b) of the Internal Revenue Code of 1986 (defining net sellers of output) (i) the sale of output by such facility to another person.

(ii) Participation by such facility in an agreement (defined in subsection (f)(2) of section 141(b) of the Internal Revenue Code of 1986 (defining nonqualified amount) is amended to read as follows:

(g) Nonqualified amount.—For purposes of this subsection—

(A) in general.—The term ‘nonqualified amount’ means, with respect to an issue, the lesser of—

(i) the proceeds of such issue which are to be used for any private business use, or

(ii) the proceeds of such issue with respect to which there are payments (or property or borrowed money) described in paragraph (2).

(B) Use pursuant to certain transactions not taken into account.—There shall not be taken into account in determining a nonqualified amount with respect to an issue the proceeds of which are to be used with respect to any output facility furnishing electric energy any of the following transactions:

(i) The sale of output by such facility to another State or local government output facility for resale by such other facility.

(ii) Participation by such facility in any payment with respect to which there are payments (or property or borrowed money) described in paragraph (2).

(iii) Participation by such facility in an output exchange agreement with other output facilities if—

(I) such facility is not a net seller of output under such agreement determined on more than an annual basis.

(iv) such agreement does not involve output-type contracts, and

(III) the purpose of the agreement is to enable the facilities to satisfy differing peak load demands or to accommodate temporary output.

(ii) ELECTION TO TERMINATE TAX-EXEMPT BOND FINANCING BY CERTAIN ELECTRICAL OUTPUT FACILITIES.—Section 141 of the Internal Revenue Code of 1986 (relating to private business activity bond; qualified bond) is amended by adding at the end the following:

'‘(c) Election to terminate Tax-Exempt Bond Financing by Certain Electrical Output Facilities.—

(i) In general.—In the case of an output facility for the furnishing of electric energy financed with bonds which cease to be tax-exempt as the result of the participation by such facility in an open access plan, such bonds shall be treated as if they were exempt bonds to the extent of the amount in paragraph (2).

(ii) Election to terminate tax-exempt bond financing by certain electrical output facilities.—

(I) In general.—In the case of an output facility for the furnishing of electric energy financed with bonds which cease to be tax-exempt as the result of the participation by such facility in an open access plan, such bonds shall cease to be tax-exempt bonds if the person engaged in such furnishing by such facility makes an election described in paragraph (2). Such election shall be irrevocable and binding on any successor in interest to such person.

(ii) Election.—An election described in paragraph (2) may be made by this section shall apply to sales of bonds issued after December 1, 1997, the later of—

(i) the date that such bonds may be redeemed, or

(ii) the date which is 10 years after the date of the enactment of this Act.

(3) Open access plan.—For purposes of this subsection, the term ‘open access plan’ means—

(A) a plan by a State to allow more than 1 electric energy provider to offer such energy in a State authorized competitive market, or

(B) a plan established or approved by an order issued by the Federal Energy Regulatory Commission which follows transmission of electric energy on behalf of another person.

(4) Related persons.—For purposes of this subsection, the term ‘related person’ includes a group of related persons (within the meaning of section 144(a)(3)) which includes such person.

(e) Effective date.—The amendments made by this section shall apply to sales of output after November 8, 1997.

By Mr. BINGAMAN:

S. 1484. A bill to increase the number of qualified teachers; to the Committee on Labor and Human Resources.

THE QUALITY TRANSMISSION EVERY CLASSROOM ACT OF 1997

Mr. BINGAMAN. Mr. President, I rise today to introduce the Quality Teacher
in Every Classroom Act, a bill to ensur- science, where we need to be at our

equality and accountability in Fed- best.

eral efforts to improve public school teaching.

Let me begin by stating that I am a strong supporter of the hard-working teachers in American classrooms, and, in fact, I have been in the classroom teaching for the past 15 years. I know first-hand how challenging the work is. Having visited schools throughout my home State of New Mexico, I know how dedicated and professional the vast major- ity of our teachers are. And any time you are having a conversation about education, that conversation always comes back to teachers.

However, it’s also pretty clear that we are not doing anyone—neither teachers nor students—a great service by putting so many under-qualified teachers in American classrooms, and providing so little support to teachers and the institutions that prepare and support them.

Too often, our teachers lack enough background in their subjects, our col- leges of education are not rigorous enough, our state licensing standards are too low, and local districts have too few high-quality candidates to choose from.

Improving teaching quality won’t solve all of our educational problems, but it is at the heart of what goes on in individual classrooms around the na- tion. And as shown on the following charts, the state and national statis- tics are alarming. None of us is doing as much as is needed to improve teach- ing quality.

As this first chart shows, most States have a long way to go in promoting teaching quality. In the 1997 Education Week national report card called “Quality Counts,” none of the States received an “A,” and most received “C’s.”

Like many other States, New Mexico received a “C-minus” for teaching quality in this report because—while the State does require national certifi- cation for all its schools of education: Only 52 percent of NM high school teachers have degrees in their subject areas; the State does not require that teachers have a degree in liberal arts (math, science, history, etc.); and fewer than three-fourths of NM teachers who participated in professional development received some form of support to do so.

As a Nation, we are unfortunately ac- tually doing worse over all as the 1990’s have progressed. The just-released 1997 Goals report showed that the percent- age of high school teachers with a de- degree in their subject area actually de- clined over all from 66 percent in 1990 to 63 percent in 1994. For New Mexico, the percentage has remained near the bottom, at 52 percent.

For New Mexico students, that means that it’s about a 50-50 chance whether their teachers have a strong background in the area they are teaching.

And the situation is particularly bleak in the key areas of math and
failing to meet those standards, and a comprehensive approach to solving central problems of American public life.

I ask unanimous consent that a copy of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1484

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION I. SHORT TITLE.

This Act may be cited as the “Quality Teacher in Every Classroom Act.”

SEC. 2. STATEMENT OF POLICY; FINDINGS.

(a) STATEMENT OF POLICY.—The Congress declares it to be the policy of the United States that each student shall have a competent and qualified teacher.

(b) FINDINGS.—Congress makes the following findings:

(1) The number of elementary and secondary school students is expected to increase each successive year between 1997 and 2006, at which time total enrollment will reach 54,600,000.

(2) As the number of students increases, the need for teachers will increase. Increases in enrollment and teacher retirements together will create demand for 2,000,000 new teachers by the year 2006.

(3) The lack of qualified teachers to meet this demand is a significant barrier to students receiving an appropriate education.

(4) The National Commission on Teaching and America’s Future has found that one-quarter of the Nation’s classroom teachers are not fully qualified to teach in their subject areas. Unless corrective action is taken at the local, State, and Federal levels, the additional demand for teachers is likely to result in a further decline in teacher quality.

(5) 1997 is the time to redouble efforts to ensure that teachers are properly prepared and qualified, and receive the ongoing support and professional development teachers need to be effective educators.

TITLE II—PARENTAL RIGHTS

SEC. 101. PARENTAL RIGHT TO KNOW.

Part E of title IV of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 1101 et seq.) is amended by adding at the end the following:

“SEC. 500A. MINIMUM TEACHER TRAINING STANDARDS.

(a) GENERAL REQUIREMENT.—Any institution of higher education that receives, directly or indirectly, any funds appropriated under this Act shall ensure that any other Federal law for the purpose of preparing or training teachers shall—

(1) meet nationally recognized professional standards for accreditation; or

(2) demonstrate to the Secretary that at least 90 percent of the graduates of such institution who enter the field of teaching taked, and passed their first attempt, the State teacher certification or licensure examination; and

(b) has pursued and achieved advanced professional education that meets the requirements of section 500A.

TITLE IV—INCENTIVES FOR INCREASING THE SUPPLY OF QUALIFIED TEACHERS

SEC. 401. LOAN FORGIVENESS.

(a) GUARANTEED LOANS.—Section 437 of the Higher Education Act of 1965 (20 U.S.C. 1076) is amended—

(1) in the section heading, by striking the period at the end of subsection (a) and inserting a comma and “LOAN FORGIVENESS FOR TEACHING.”;

(2) by amending the heading for subsection (b) to read as follows—“RELATIVE TO SCHOOL CLOSURE OR FALSE CERTIFICATION.”; and

(3) by adding at the end thereof the following new subsection:

“(e) CANCELLATION OF LOANS FOR TEACHING.—

“(1) IN GENERAL.—The Secretary shall discharge the liability of a borrower of a loan made under section 428C or 428H to the extent that a loan made under section 428C or 428H is in default under chapter 15 of title 11 of the United States Code on or after the date of enactment of the Quality Teacher in Every Classroom Act, to students who have not previously borrowed under any of such sections, by repaying the amount owed on the loan, to the extent specified in subsection (b) of this section.

“(2) Waiver.—The Secretary shall, after a loan is in default, reduce the amount owed on the loan to the amount specified in subsection (b) and discharge it.

SEC. 402. NATIONAL SERVICE LOAN FORGIVENESS.

(a) IN GENERAL.—The Secretary shall—

(1) forgive a loan made under section 428H to a borrower who—

(A) has served for not less than 1 year in the Peace Corps or a public or nonprofit private entity that is determined by the Secretary to meet the requirements of section 500A;

(B) has performed at least 90 percent of the teaching service described in paragraph (1) as a full time teacher who—

(1)(A) meet nationally recognized professional standards for accreditation; or

(2) demonstrate to the Secretary that at least 90 percent of the graduates of such institution who enter the field of teaching taked, and passed their first attempt, the State teacher certification or licensure examination; and

(b) has pursued and achieved advanced professional education that meets the requirements of section 500A.

(b) QUALIFYING SERVICE.—

(1) IN GENERAL.—A loan shall be discharged under paragraph (1) for service described in clause (i) or (ii) of subsection (a) by the borrower as a full-time teacher for 1 or more academic years in a public elementary or secondary school.

(2) Local educational agency determinations.

(3) Waiver.—The Secretary shall, after a loan is in default, reduce the amount owed on the loan to the amount specified in subsection (b) and discharge it.

(c) ACCELERATED DISCHARGE.—A loan shall be discharged under paragraph (1) at the rate provided in paragraph (3)(B) for service described in clause (i) or (ii) of subsection (a) by the borrower as a full-time teacher for 1 or more academic years if such borrower—

(1) has engaged in such service for each of the preceding academic years; and

(2) has acquired and achieved advanced teaching credentials, such as certification by
the National Board for Professional Teaching Standards, Advanced Placement Institute training, or a graduate degree in a related field.

\textbf{Percentage of Cancellation.}—

\textbf{5201.} In General.—Loans shall be discharged under paragraph (1) for service described in paragraph (2)(A) at the rate of—

\textbf{5202.} (i) 25 percent for the first complete academic year of such service, which amount shall not exceed $7,500; and

\textbf{5203.} (ii) 35 percent for the fourth complete year of such service, which amount shall not exceed $30,000.

\textbf{5204.} (B) Accelerated Discharge.—Loans shall be discharged under paragraph (1) for service described in paragraph (2)(B) at the rate of 50 percent for each complete academic year of such service, except that the total amount discharged shall not exceed $5,000 for any borrower.

\textbf{5205.} (C) Treatment of Interest.—If a portion of a loan is discharged under subparagraph (A) or (B) for any year, the entire amount of interest earned on such portion that year shall also be discharged by the Secretary.

\textbf{5206.} (D) Refunding Prohibited.—Nothing in this section shall be construed to authorize refunding of any repayment of a loan.

\textbf{5207.} Treatment of Canceled Amounts.—The amount of a loan, and interest on a loan, that is canceled under this subsection shall not be considered income for purposes of the Internal Revenue Code of 1986.

\textbf{5208.} Prevention of Double Benefits.—No borrower may, for the same volunteer service, receive a benefit under both this subsection and paragraph (2) of title I of the National and Community Service Act of 1990 (42 U.S.C. 12601 et seq.).

\textbf{5209.} Lender Reimbursement.—The Secretary shall specify in regulations the manner in which lenders shall be reimbursed for loans made under this part, or portions thereof, that are discharged under this subsection.

\textbf{5210.} List of Schools.—

\textbf{5211.} (A) Publication.—The Secretary shall publish annually a list of the schools for which the determination is made to which a portion of the loan is to be discharged, which list shall be published in the Federal Register.

\textbf{5212.} (B) Special Rule.—If the list of schools described in subparagraph (A) is not available before May 1 of any year, the Secretary may use the list for the year preceding the year for which the determination is made to make such service determination.

\textbf{5213.} Continuing Eligibility.—Any teacher who performs service in a school in which—

\textbf{5214.} (1) meets the requirements of paragraph (2)(A) or (B) for any year, the entire amount of interest earned on such portion that year shall also be discharged by the Secretary.

\textbf{5215.} (2) in a subsequent year fails to meet the requirements of such subsection, may continue to teach in such school and shall be eligible for loan cancellation pursuant to subsection (a)(1) with respect to such subsequent years.

\section{Title V—Beginning Teacher Recruitment and Support

\section{Section 501. Program Established

Title V of the Higher Education Act of 1965 (20 U.S.C. 1181 et seq.) is amended by adding at the end the following:

\textbf{5216.} \textbf{Part C—Beginning Teacher Recruitment and Support

\textbf{5217.} Definitions.

\textbf{5218.} In this part:

\textbf{5219.} (1) Participant.—The term ‘participant’ means an individual who receives assistance under this part.

\textbf{5220.} (2) Partnership.—The term ‘partnership’ means a partnership consisting of—

\textbf{5221.} (A) a local educational agency, a subunit of such agency, or a consortium of such agencies; and

\textbf{5222.} (B) one or more nonprofit organizations, including institutions of higher education—

\textbf{5223.} (i) each of which has a demonstrated record of success in teacher preparation and staff development;

\textbf{5224.} (ii) that has expertise and a demonstrated record of success, either collectively or individually, in providing resources to meet the subject matter knowledge, teaching knowledge, and teaching skills necessary for the organizations to teach effectively in each and every content area in which the organizations plan to prepare teachers to provide instruction under a grant made under this part; and

\textbf{5225.} (iii) that include at least 1 teacher preparation institution, or school or department of education within an institution of higher education that meets the requirements of section 500A (as added by section 301 of the Quality Teacher in Every Classroom Act) and is not subject to a waiver under section 500A(b).

\textbf{5226.} Eligible School.—The term ‘eligible school’ means a public elementary school or secondary school—

\textbf{5227.} (A)(i) served by a local educational agency that is eligible for assistance under title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6303(c)) exceeds 30 percent of the total enrollment of the school; or

\textbf{5228.} (B) that the State educational agency or local educational agency certifies, to the satisfaction of the Secretary, that there is a shortage of qualified teachers.

\section{b. Special Rules.

\textbf{5229.} (1) List.

\textbf{5230.} (A) Publication.—The Secretary shall publish annually a list of the schools for which the Secretary makes a determination under paragraph (2)(A)(ii).

\textbf{5231.} (B) Special Rule.—If the list of schools described in subparagraph (A) is not available before May 1 of any year, the Secretary may use the list for the year preceding the year for which the determination is made to make such service determination.

\section{c. Continuing Eligible School.

Any teacher who performs service in a school in which—
SEC. 599B. PROGRAM AUTHORIZED.

(a) Grants by the Secretary.—The Secretary shall use funds made available pursuant to this part to award grants, on a competitive annual basis, to partnerships for the purpose of recruiting, training, and supporting qualified entry-level elementary school or secondary school teachers to teach in eligible schools.

(b) Duration.—Grants shall be awarded for a period of 3 years, of which not more than 1 year may be used for planning and preparation.

SEC. 599C. USES OF FUNDS.

(a) Partnerships.—Each partnership receiving a grant under this part shall use the grant funds to—

(1) recruit and screen individuals for assistance under this part;

(2) establish and conduct intensive summer preplacement professional development seminars for participants;

(3) establish and conduct ongoing and intensive professional development and support programs for participants during the participants’ first 3 years of teaching service, that incorporate—

(A) State curriculum standards for kindergarten through grade 12;

(B) national professional standards for the teaching of specific subjects; and

(C) the use of educational technology to improve the use of computers and computer networks; and

(4) annually evaluate the performance of participants to determine whether the participants meet standards for continued participation in the activities assisted under this part.

(b) Criteria.—

(1) in general.—The partnership shall select a participant according to criteria designed to—

(A) attract highly qualified individuals to teach in urban schools; individuals with post-college employment experience who plan to enter teaching; including individuals with post-college employment experience who plan to enter teaching, including individuals appropriate to teaching in specific areas in which there is a shortage of qualified teachers; and

(B) meet the needs of eligible schools in addressing shortages of qualified teachers in specific academic subject areas.

(2) specific criteria.—Such criteria shall include standards for continued participation that has demonstrated the ability to attain the subject matter knowledge, teaching knowledge, and teaching skills necessary to teach effectively in the content area or areas in which the participant will provide instruction.

(3) special consideration.—Each partnership shall give special consideration to funding applications for assistance under this part to partnerships that include teacher preparation institutions described in section 599A(a)(2)(B)(iv). Such partnerships shall—

(A) support or have plans to support professional development schools or laboratory schools; and

(B) describe how school faculty will be involved in the planning and execution of ongoing professional development and support activities, including paired mentorships between participants and experienced classroom teachers;

(4) provide assurances that—

(A) participants are paid at rates comparable to beginning teachers in the school district where the participants are assigned to teach; and

(B) master teachers are provided with stipends for their mentoring services;

(5) describe how the partnership will monitor and report not less than annually regarding the progress of participants, including—

(A) the retention rate for participants in the teaching profession, especially in the teaching profession, especially in the curricular areas in which such individuals are preparing to teach;

(B) the academic achievement of students served by participant teachers, in comparison to those students taught by other entry-level teachers;

(6) describe direct and indirect contributions to the overall cost of the program by the State and local educational agency, and the extent to which the partnership activities will be integrated with other professional development and educational reform efforts (including federally funded efforts such as the programs under titles I and II of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq., 6611 et seq.); and

(C) contain an assurance that the chief State school officer or the officer’s designee has reviewed and approved the application.

(b) Special Rule.—The Secretary shall give special consideration to funding applications for assistance under this part to partnerships that include teacher preparation institutions described in section 599A(a)(2)(B)(iv) that—

(1) support or have plans to support professional development schools or laboratory schools; and

(2) are not subject to a waiver under section 500A(b).

(c) Development and Submission.—The members of the partnership shall jointly develop and submit the application for assistance under this part.

TITLE VI—GENERAL PROVISIONS

SEC. 601. GENERAL PROVISION REGARDING NON-RECIPIENT NON-PUBLIC SCHOOLS.

Nothing in this Act or any amendment made by this Act shall be construed to permit, allow, encourage, or authorize any Federal funds for any aspect of any private or religious school that does not receive Federal funds or does not participate in Federal programs or services under the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.).

SEC. 602. APPLICABILITY TO HOME SCHOOLS.

Nothing in this Act or any amendment made by this Act shall be construed to affect home schools.

By Mr. WARNER (for himself and Mr. STEVENS):

S. 147.—A bill to authorize acquisition of certain real property for the Library of Congress, and for other purposes; to the Committee on Rules and Administration.

REAL PROPERTY ACQUISITION AUTHORIZATION LEGISLATION

Mr. WARNER. Mr. President, in my capacity as chairman of the Rules Committee, I rise to introduce legislation that will authorize the acquisition of property for use by the Library of Congress. This legislation will allow the Library of Congress to take advantage of a unique opportunity to advance the preservation of the Library’s motion pictures, recorded sound, television, and radio collection, a unique record of American life and history in the 20th century.

The Library of Congress is clearly facing a crisis in fulfilling its statutory—and I underline, Mr. President, statutory—obligations to preserve, maintain and make available these national collections. The Library must vacate its Suitland, MD, storage location by next May 1998. Facilities in Ohio at Wright Patterson Air Force Base are beyond cost-effective repair. This has created an urgent need to find a new facility.

The former Richmond Federal Reserve facility in Culpepper, VA, is currently available for purchase on the open market and it already has many of the attributes that the Library is looking for—perhaps the most critical attribute is the construction and the like, needed to consolidate the Library’s collection in a single, efficient facility for preservation, storage and access. That facility in Culpepper, VA, is reasonably accessible from the Nation’s Capital for scholars and others to work on this material.

The staff of the Rules Committee has reviewed an extensive financial analysis the Library provided us, showing alternative arrangements and sites for creating an audiovisual and digital master conservation center. The analysis concluded that Culpepper, VA, by allowing consolidation of various storage and Library sites into a single facility, is the most cost-effective option that they have found to date. We can increase the cost-effectiveness of this proposal for the taxpayer even further by taking advantage now of a generous offer by a nationally known foundation to provide up to a $10 million donation for the purchase and initial modifications of the Culpepper property.

However, it appears the gift will only be available if Congress passes legislation as incorporated in this bill and in this session to authorize acceptance of the building by the Architect of the Capitol.

I stress, Mr. President, that this $10 million gift to the American taxpayers for preservation of this very important collection—and I participated somewhat in the discussion of this with the chairman of the board of the foundation together with the Librarian of Congress. We have reason to believe that if we do not act in this session, this gift might not be available at the time the Congress resumes its work next year. Congress clearly has responsibility to enable the Library to fulfill its statutory mandates to preserve
these collections, and these urgent storage and access needs must be ad-
dressed both from an oversight and an appropriations viewpoint. We now have
an opportunity to meet these needs in a cost-effective manner, which takes advantage of a significant private do-
nation.

In my view, moving forward with the Culpepper option at this time is in the best interests of the Library and the American taxpayers. Therefore, I hope all Members will support this legis- lation promptly, that it can be cleared on the hotline here within the next 24 hours, and that this body, the Senate, will act. I have reason to believe, hav- ing had consultations with my col- leagues in the House with comparable responsibility as the Rules Committee, that the House will quickly accept this bill.

Mr. President, I yield the floor.

By Mr. MURKOWSKI (for himself and Mr. STEVENS):
S. 1488. A bill to ratify an agreement between the Aleut Corp. and the United States of America to exchange land rights received under the Alaska Na- tive Claims Settlement Act for local land interests on Adak Island, and for other purposes; to the Committee on Energy and Natural Resources.

THE ADAK ISLAND NAVAL BASE REUSE FACILITATION ACT OF 1997

Mr. MURKOWSKI: Mr. President, I rise today to introduce legislation which will facilitate and promote the successful commercial reuse of the Naval Air Facility being closed on Adak Island, AK. This legislation will ratify an agreement between the Aleut Corp. in Alaska, the Department of the Interior, and the Department of the Navy.

While not yet complete, the Aleut Corp. has been working together with the Department of the Interior and the Department of the Navy on the agreement that would be ratified by this legis- lation. I know from my Aleutian con- stituents that a good number of issues have been resolved through extracted negotiations, but that important issues remain on the table. It is my hope that the remaining issues can be resolved through mutual agreement prior to hearings on this bill early next year. In the meantime, it is imperative that the Navy make the facilities at Adak available for interim reuse, as has been done with transfers at other closed fa-
cilities.

For many decades the Navy has been an important and steadfast constituent in Alaska's Aleutian Chain. Their presence was first established during World War II with the selection and develop- ment of the island because of its combi- nation of ability to support a major airfield and its natural and protected deep water port. The Navy's presence there contributed greatly to the de-
defense of the Pacific coast during World War II and throughout the cold war. Through the Navy's presence, Adak be-
came the largest development in the

Aléutians as well as Alaska's sixth largest community.

The facility was selected for closure during the last base closure round, and while the importance of using the is-
land for defense purposes has dimin-
ished, the island still has unique geographic advantages. Adak is a nat- ural stepping stone to Asia and is at the crossroads of air and sea trade be-

tween North America, Europe, and Asia. The Aleutians, although starkly defined to some, are the an-

central home to the shareholders of the

Alek Corp. This legislation will allow

Adak's natural constituents, the Aleut

people, to reinhabit the island and to make use of its modern developments.

These very same features that made

Adak strategically important to the Navy for defense purposes make the is-

cland strategically important for com-

mercial purposes. Adak Island is at the middle of the great expanse of the Aleutian Islands, and is among the is-

clands closest to the Aleutians, near to the great circle route shipping lanes. With the ability to use Adak commercially, the Aleut Corp. aims to make the island an important inter-

continental location with enterprise enough to provide jobs for the Aleut people. These goals are con-

sistent with the promises and the Alas-

ka Native Claims Settlement Act, the legislation that created the corpora-

tion.

The legislation supports the broader interests of the country as well. In ad-

dition to the Navy, Adak has housed the Department of the Interior's Aleu-

tians subunit of the Alaska Maritime National Wildlife Refuge. This legis-

lation promotes the Department of the Interior's interests in managing and protecting the refuge by the ex-

change of base lands for certain prop-

erty interests the Aleut Corp. holds throughout the rest of the Aleutian Is-

dlands. The Department of the De-

partment of Defense is promoting this exchange as the most effective way to meet this country's objectives of conversion of closed defense facilities into successful commercial reuse.

Many potential concurrent reuse pos-

sibilities of the Adak lands are being explored. These include but are cer-

	

tainly not limited to an air and sea transshipment, refueling and reprovi-

sions facility, a new ecotourism cruise-

ship destination, a law enforcement or Job Corps training facility or a some-

what less glamorous but nonetheless needed correctional facility. All these are possibilities available through en-

actment of this legislation.

Mr. President, it is my intention to hold a hearing on this legislation at the earliest opportunity when Congress returns next year. I suggest to all the parties to this agreement that I will be keeping a close eye on progress toward explo-

ration of this legislation and final issues. If progress is not made, or if negotiated commitments are not honored, I am prepared to modify this legislation and
direct an appropriate structure for this land exchange.

By Mr. CRAIG (for himself and Mr. WYDEN):
S. 1498. A bill to provide the public with access to outfitted activities on Federal land, and for other purposes; to the Committee on Energy and Natural Resources.

THE OUTFITTER POLICY ACT OF 1997

Mr. CRAIG: Mr. President, I am pleased to introduce today the Ouf-

This legislation puts into law many of the management practices by which Federal land management agencies have successfully managed the outfitter and guide industry on national forests, national parks and other Fed-

eral lands over many decades.

The bill recognizes that many Ameri-

cans have had a long and healthy expe-

rience of commercial outfitters and guides in order to enjoy a safe and pleasant journey through wild lands and over the rivers and lakes that are the spectacular destinations for many visitors to our Federal lands.

My bill assures the public continued opportunities for reasonable and safe access to these special areas. It assures high standards will be met for the health and welfare of visitors who choose outfitted services and quality professional services will be available for their recreational and educational experiences on federal land.

This legislation is called for because the management of outfitted and guid-
ed services by this administration has created problems that threaten to de-

stabilize some of these typically small, independent outfitter and guide busi-

nesses. In addressing these problems, this legislation seeks to bring professional practices that have historically worked well for outfitters, visitors, and other user groups, as well as for Federal land managers in the field. When the bill is enacted, it will assure that these past flimsy rules of service are continued and enhanced.

When I introduced similar legisla-

tion, S. 2194, at the conclusion of the 104th Congress, I did do so for the pur-

pose of creating discussion concerning outfitter and guide operations within the context of the broader issue of con-

cessioner reform that this Congress has been addressing for two decades.

In the year that has followed, the Senate Committee on Energy and Nat-

ural Resources has held one oversight hearing on concessions operations, but has not yet addressed the issue of con-

cessions that specifically offer out-

fitting and guiding services. S. 2194 pro-

vided an intended opportunity for dis-

cussion, however. It has allowed for the examination of the historical practices that have offered consistent, reliable outfitter services to the public. This earlier version of the bill also facil-

itated a discussion of the need for con-

structive legislation in the management of outfitted services and allowed the opportunity to exam-

ine policies that have provided high
quality recreation services, protection of natural resources, a fair return to the
government, and reasonable eco-
nomic stability that the public expects.
The legislation I am now introducing is a
result of those discussions.
I look forward to a hearing on this
legislation and to working with its en-
actment in the coming session of the 105th Congress.

By Mr. JEFFORDS.
S. 1490. A bill to improve the quality of
child care provided through Federal
facilities and programs, and for other
purposes; to the Committee on Govern-
mental Affairs.

QUALITY CHILD CARE FOR FEDERAL EMPLOYEES
ACT

Mr. JEFFORDS. Mr. President, I rise
today to introduce the Quality Child
Care for Federal Employees Act. This
bill was drafted with an eye toward
several serious incidents which oc-
curred this year in federal child
care facilities. At that time, it came to
my attention that child care centers
located in Federal facilities are not
subject to even the most minimal
health and safety standards.

As we all know, if a Federal property is ex-
empt from State and local laws, regula-
tions, and oversight. What this means for
child care centers on that property is
that State and local health and safe-
ty standards do not and cannot apply.
This was not a problem if feder-
ally owned or leased child care centers
met enforceable health and safety
standards. I think most parents who
place their children in Federal child
care would assume that this would be
the case. However, I think Federal em-
ployees will find it very surprising to
learn, as I did, that, at many centers,
no such health and safety standards
apply.

I find this very troubling, and I think
we sell our Federal employees a bill of
rights when federally-owned leased
child care cannot guarantee that their
children are in safe facilities. The Fed-
eral Government should set the exam-
nple when it comes to providing safe
child care. It should not be turn an ap-
thetic shoulder from meeting such
standards simply because State and
local regulations do not apply to them.

In 1987, Congress passed the Tribble
Amendment which permitted execu-
tive, legislative, and judicial branch
agencies to utilize a portion of feder-
ally-owned or leased space for the pro-
vision of child care services for Federal
employees. The General Services Ad-
ministration (GSA) was given the au-
thority to provide guidance, assistance,
and oversight to Federal agencies for
the development of child care centers. In
the decade since the Tribble Amend-
ment was passed, hundreds of Federal
facilities throughout the Nation have
established onsite child care centers
which are a tremendous help to our
employees.

The General Services Administration
has done an excellent job of helping
agencies develop child care centers and
have adopted strong standards for
those centers located in GSA leased or
owned space. However, there are over
100 child care centers located in Fed-
eral facilities that are not subject to the
GSA standards or any other laws, rules,
or regulations to ensure that the
facilities are developed for our chil-
dren. Most parents, placing their chil-
dren in a Federal child care center, as-
sume that some standards are in
place—assume that the centers must
minimally meet State and local child
health and safety regulations.

They assume that the centers are sub-
ject to independent oversight and mon-
toring to continually ensure the safe-
ty of the premises.

Yet, that is not the case. In a case
where a Federal employee had little
reason to suspect the sexual abuse of
her child by an employee of a child
care center located in a Federal facil-
ity, local child protective services
were not required to do so, even after
the problems were identified and inju-
ries had occurred.

As Congress and the administration
turn their spotlight on our Nation’s
child care system, we must first get
our own house in order. We must safe-
guard and protect the children receiv-
ing services in child care centers
housed in Federal facilities. Our em-
ployees should not be denied some as-
urance that the centers in which they
place their children are accountable for
meeting basic health and safety stand-
ards.

The Quality Child Care for Federal
Employees Act will require all child
care services located in Federal facili-
ties to meet, at the very least, the
same level of health and safety stand-
ards required of other child care cen-
ters in the same geographical area.

That sounds like common sense, but as
we all know too well, common sense is
not always reflected in the law. This
bill will make that clear.

Further, this legislation demands
that Federal agencies begin
working to meet these standards now.
Not next year, not in 2 years, but now.
Under this bill, after 6 months we will
look at the Federal child care centers
again, and if a center is not meeting
minimal State and local health and
safety regulations at that time, that
child care facility will be closed until
it does. I can think of no stronger in-
centive to get centers to comply.

Now, just as there have been dif-
ficulties with Federal facilities
ignoring standards simply be-
cause of a division of power be-
 tween the Federal and State govern-
m ent s, so, too, do divisions in the Fed-
ERAL Government—what we call the
separation of powers—help create
chaos in enforcement at the Federal
level. Who has oversight of the facili-
ties in the Federal Government, and
who is responsible for monitoring and
enforcement?

Mr. President, this legislation res-
spects the separation of powers within
the Federal Government, but it also
makes it very clear where the over-
sight and responsibility for meeting
health and safety standards lies. For
the most part, centers located in agen-
cies within the executive branch—with-
in, for example, the Department of Vet-
 erans’ Affairs—will retain responsi-
bility for monitoring and ensuring
compliance. For centers within the ju-
risdiction of the legislative branch, in-
cluding the Library of Congress, this
responsibility will lie with the Architec-
t of the Capitol or his designate.
In the judicial branch, monitoring and
compliance will fall under the jurisdic-
tion of the Director of the Administra-
tive Office of the U.S. Courts. The GSA
will continue to monitor centers it
owns and leases in the judicial and ex-
ecutive branches. The costs of this
monitoring are already included in this
year’s appropriations bills and will not
add to the deficit.

It should also be made clear that
State and local standards should be a
floor for basic health and safety, and
not a ceiling. The role of the Federal
Government—and, I like to think, of
the U.S. Congress in particular—is to
costantly strive to do better and to
lead by example. Federal facilities
should always try to meet the highest
possible standards. In fact, the GSA
has required national accreditation in
GSA-owned and leased facilities, and
has stated that its centers are either in
compliance or are strenuously working
to get there. This is the kind of tough
standard we should strive for in all of
our Federal child care facilities.

Federal child care does not mean some-
thing more than simply location on a
Federal facility. The Federal Govern-
ment has an obligation to provide safe
care for its employees, and it has a re-
sponsibility for making sure that those
standards are monitored and enforced.

Some Federal employees receive this
guarantee. Many do not. We can do
better.

I urge swift passage of this legisla-
tion, and thank my colleagues for their
attention to this matter.

Mr. President, I ask unanimous con-
sent that the text of my legislation ap-
pear in the RECORD.

There being no objection, the bill was
ordered to be printed in the RECORD, as
follows:

S. 1490
Be it enacted by the Senate and House of Rep-
resentatives of the United States of America in
Congress assembled,

SECTION 1. SHORT TITLE.
This Act may be cited as the “Quality
Child Care for Federal Employees Act”.

SEC. 2. DEFINITIONS.
In this Act:
(1) ACCREDITED CHILD CARE CENTER.—The term “accredited child care center” means—
(A) a center that is accredited, by a child care credentialing or accreditation entity recognized by the Administrator, to provide child care to children in the State (except children who a tribal organization elects to serve through a center described in subparagraph (B));
(B) a center, by a child care credentialing or accreditation entity recognized by a tribal organization, to provide child care for children served by the tribal organization;
(C) a center that is used as a Head Start center under the Head Start Act (42 U.S.C. 9831 et seq.) and is in compliance with any applicable State and local licensing requirements, or standards established by regulation under such Act for Head Start programs; or
(D) a military child development center (as defined in section 178k-1 of title 10, United States Code).

(2) CHILD CARE CREDENTIALING OR ACCREDITATION ENTITY.—The term “child care credentialing or accreditation entity” means a nonprofit private organization or public agency that—
(A) is recognized by a State agency or tribal organization; and
(B) accredits a center or credentials an individual to provide child care on the basis of—
(i) an accreditation or credentialing instrument based on peer-validated research;
(ii) compliance with applicable State and local licensing requirements, or standards described in section 658K(c)(2)(E)(ii) of the Child Care and Development Block Grant Act (42 U.S.C. 9866(c)(2)(E)(ii)), as appropriate, for the center or individual;
(iii) outside monitoring of the center or individual; and
(iv) criteria that provide assurances of—
(I) compliance with age-appropriate health and safety standards at the center or by the individual;
(II) use of age-appropriate developmental and educational activities, as an integral part of the child care program carried out at the center or by the individual; and
(III) use of ongoing staff development or training activities for the staff of the center or the individual, including related skill-based testing.

(3) CREDENTIALED CHILD CARE PROFESSIONAL.—The term “credentialed child care professional” means—
(A) an individual who is credentialed, by a child care credentialing or accreditation entity recognized by a State, to provide child care in that State (except children who a tribal organization elects to serve through an individual described in subparagraph (B));
(B) an individual who is credentialed, by a child care credentialing or accreditation entity recognized by a tribal organization, to provide child care for children served by the tribal organization;

(4) STATE.—The term “State” has the meaning given in the section in title 5 of the United States Code, except that the term—
(A) does not include the Department of Defense; and
(B) includes the General Services Administration, with respect to the administration of a facility described in paragraph (4)(B).

(5) EXECUTIVE FACILITY.—The term “executive facility” means—
(A) a facility that is owned or leased by an Executive agency; and
(B) includes a facility that is owned or leased by a judicial office (other than a facility that is also a facility described in paragraph (4)(B)).

(6) JUDICIAL FACILITY.—The term “judicial facility” means a facility that is owned or leased by a judicial office (other than a facility that is also a facility described in paragraph (4)(B)).

(7) JUDICIAL OFFICE.—The term “judicial office” means a judicial office (other than a facility that is also a facility described in paragraph (4)(B)).

(8) EXECUTIVE BRANCH STANDARDS AND COMPLIANCE.—
(I) STATE AND LOCAL LICENSING REQUIREMENTS.—
(A) IN GENERAL.—Any entity sponsoring a child care center in an executive facility shall—
(i) obtain the appropriate State and local licenses for the center; and
(ii) in a location where the State or local government does not license executive facilities, comply with any applicable State and local licensing and standards related to the provision of child care.

(B) COMPLIANCE.—Not later than 6 months after the date of enactment of this Act—
(i) the entity shall comply, or make substantial progress (as determined by the Administrator) toward complying, with subparagraph (A); and
(ii) any contract or licensing agreement used by an Executive agency for the operation of a center shall include a condition that the child care be provided by an entity that complies with the applicable State and local licensing and standards related to the provision of child care.

(2) HEALTH, SAFETY, AND FACILITY STANDARDS.—The Administrator shall ensure that the entity serving the child care centers, in executive facilities, and requiring child care centers, and entities sponsoring child care centers, in executive facilities to comply with the standards.

(3) ACCREDITATION STANDARDS.—In any entity sponsoring a child care center that is an Executive facility and that shall—
(A) ensure that the entity complies with the accreditation standards issued by a nationally recognized accreditation organization approved by the Administrator.

(B) COMPLIANCE.—The regulations shall require that, not later than 5 years after the date of enactment of this Act—
(i) the entity comply, or make substantial progress (as determined by the Administrator) toward complying, with the standards; and
(ii) any contract or licensing agreement used by an Executive agency for the operation of such a child care center shall include a condition that the child care be provided by an entity that complies with the standards.

(4) EVALUATION AND COMPLIANCE.—
(I) IN GENERAL.—The Administrator shall evaluate the compliance with the requirements of paragraph (1) and the regulations issued pursuant to paragraphs (2) and (3), of child care centers, and entities sponsoring child care centers, in executive facilities. The Administrator may conduct the evaluation of such a child care center or entity directly, or, through an agreement with another Federal agency or private entity, other than the Federal agency for which the child care center is providing services. If the Administrator determines to be appropriate for child care, the Administrator shall notify the Executive agency.

(II) EFFECT OF NONCOMPLIANCE.—On receipt of the notification of noncompliance issued by the Administrator, the head of the Executive agency shall—
(I) if the entity operating the child care center is the agency—
(i) within 2 business days after the date of receipt of the notification correct any deficiencies in the serving entity; and
(ii) in any case where the entity in compliance, based on an on-site evaluation of the center conducted by an independent entity with expertise in child care health and safety; and
(V) in the event that deficiencies determined by the Administrator to be life threatening or to present a risk of serious bodily harm cannot be corrected within 2 business days after the date of receipt of the notification, close the center until such deficiencies are corrected and notify the Administrator of the closure; and
(ii) if the entity operating the child care center is a contractor or licensee of the Executive agency—
(I) within 2 business days after the date of receipt of the notification, to correct any deficiencies in the serving entity; and
(II) require the contractor or licensee to develop and provide to the head of the agency, through an agreement, the plan to correct any deficiencies in the operation of the center and bring the center and entity into compliance with the
requirements not later than 4 months after the date of receipt of the notification; (III) require the contractor or licensee to provide the parents of the children receiving child care in the center with a notification detailing the deficiencies described in subclauses (I) and (II) and actions that will be taken to correct the deficiencies; (IV) require the contractor or licensee to bring the center and entity into compliance with the requirements and certify to the head of the agency that the center and entity are in compliance, based on an on-site evaluation of the center conducted by an independent entity with expertise in child care services in executive facilities, in executive centers, and in judicial facilities. If an entity is sponsoring a child care center, in executive facilities, in executive centers, and in judicial facilities, the head of the agency that the center and entity are in compliance, based on an on-site evaluation of the center conducted by an independent entity with expertise in child care services in executive facilities, in executive centers, and in judicial facilities.

(c) Coresponsibility. The Executive agency shall reimburse the Administrator for the costs of carrying out subparagraph (A) for child care centers located in an executive facility, in executive centers, and in judicial facilities. The costs of carrying out such reimbursement and cost reimbursement for child care centers, in executive facilities, in executive centers, and in judicial facilities, shall be no less stringent in content and effect than the requirements of paragraph (1) and the regulations issued by the Executive agency under paragraphs (2) and (3) of subsection (b) to the extent that the Director may determine, for good cause shown and stated together with the regulations, that a modification of such regulations would be more effective for the implementation of the requirements and standards described in paragraphs (1), (2), and (3) of subsection (b) for child care centers, and entities sponsoring child care centers, in legislative facilities, in legislative centers, and in executive facilities.

(e) Application. Notwithstanding any other provision of this section, if 8 or more child care centers are sponsored in facilities owned or leased by an Executive agency, the Director of the Office of Management and Budget may approve a modification of the regulations issued by the Executive agency under subsection (b)(4) to the extent that the Director may determine, for good cause shown and stated together with the regulations, that a modification of such regulations would be more effective for the implementation of the requirements and standards described in paragraphs (1), (2), and (3) of subsection (b) for child care centers, and entities sponsoring child care centers, in executive facilities.

(f) Technical assistance, studies, and reviews. The Administrator may provide technical assistance, and conduct and provide the results of studies and reviews, for Executive agencies, and entities sponsoring child care centers in executive facilities, on a reimbursable basis, in order to assist the entities in complying with this section. The Director of the Office of Management and Budget may approve a modification of the regulations issued by the Executive agency under subsection (b)(4) to the extent that the Director may determine, for good cause shown and stated together with the regulations, that a modification of such regulations would be more effective for the implementation of the requirements and standards described in paragraphs (1), (2), and (3) of subsection (b) for child care centers, and entities sponsoring child care centers, in executive facilities.

(g) Reimbursement. Each day, three thousand children die prematurely from tobacco-induced illnesses. Ninety percent of current adult smokers began to smoke before they reached the age of 18.

(2) Evaluation and compliance. (A) Directing the Office of the United States Courts. The Director of the Office of the United States Courts shall have the same authority and duties with respect to the evaluation of, compliance of, and cost reimbursement for such centers, in executive facilities, in executive centers, and entities sponsoring such centers, in executive facilities.

(h) Authorization of appropriations. There is authorized to be appropriated to carry out this section $900,000 for fiscal year 1998 and such sums as may be necessary for each subsequent fiscal year.

By Mr. KENNEDY (for himself, Mr. LAUTENBERG, Mr. DURBIN, Mr. REED, and Mr. KERRY): S. 1492. A bill to amend the Public Health Service Act and the Public Health, Drug and Cosmetic Act to prevent the use of tobacco products by minors, to reduce the level of tobacco addiction, to compensate Federal and State Governments for a portion of the health costs of tobacco-related illnesses, to enhance the national investment in biomedical and basic scientific research, and to expand programs to address the needs of children, and for other purposes; to the Committee on Labor and Human Resources.

I am joining Senators LAUTENBERG, DURBIN, REED, and KERRY to introduce the Healthy and Smokefree Children Act, which is a comprehensive tobacco control bill that addresses the historic opportunity in the next session to protect current and future generations from nicotine addiction and early death caused by tobacco.

We know the enormous adverse health consequences of youth smoking. Each day, three thousand children begin smoking. A thousand of them will die prematurely from tobacco-induced illnesses. Ninety percent of current adult smokers began to smoke before they reached the age of 18.

Our primary goal is to reduce youth smoking and help children. Our legislation will raise the price of cigarettes by $1.50 a pack over three years. A substantial portion of the revenues raised by the increase will go to fund major new initiatives in biomedical research, child health, and child development.

The legislation will affirm the authority of the Food and Drug Administration to regulate tobacco products. It also provides for strongly worded warning labels on packs of cigarettes, for a large-scale anti-tobacco advertising campaign, new restrictions on youth access to tobacco products, new protections against secondhand smoke, and tax increases on tobacco products.

Public health experts tell us that the most effective way to reduce youth smoking is by a significant increase in the price of cigarettes. Teenagers have less money to spend on tobacco products than adults, and those who are not yet addicted will be less likely to spend their dollars on smoking. In fact, price increases are three times more likely to deter youth from smoking than adults.

The 65 cent increase in the Attorneys General settlement is not enough to do the job. If the national goal is to dramatically reduce teenage smoking,
a price increase of at least $1.50 a pack will be needed. Even with a price increase of that magnitude, cigarettes in America will still cost less than the current price in many European countries.

It would be irresponsible to wait another decade while we test the impact of lesser measures on youth smoking. Too many children are becoming addicted to tobacco each day. The most effective way to reduce youth smoking is a substantial price increase, and we should do it now.

The $1.50 increase will enable us to provide approximately $20 billion per year to be divided equally between medical research and child development investments. Under our proposal, half of these additional funds will be used for an unprecedented expansion of biomedial research to solve the scientific mysteries of the most severe diseases and conditions. We will stand on the threshold of extraordinary medical breakthroughs against cancer, heart disease, Alzheimer’s Disease, AIDS, diabetes, mental illness, and many other conditions. The benefits of greater research will save millions of lives and improve the quality of life for countless more.

The other half of the new funds will be directed to child health and child development. The brain research conducted in recent years has demonstrated the critical importance of the first three years of life to a child’s learning potential. Additional resources will enable us to build on that foundation of knowledge, and implement it in ways that will enrich the lives of the next generation of children. By expanding Head Start to reach the large number of eligible pre-school children who are not now being served, and by improving the quality and availability of child care for working families, we can give far more children a better foundation on which to build their lives.

In addition, under our proposal, the key public health provisions in the Attorneys General agreement will be implemented, and smokers seeking to stop will be able to obtain help in overcoming their addiction. States will receive compensation from the tobacco industry for their Medicaid costs attributable to smoking, and will not have to reimburse the federal government for the federal share of the Medicaid costs recovered. These funds will be available to the states to address the unmet needs of children.

A strong FDA with broad authority to regulate tobacco is also essential. Our legislation affirms FDA’s finding that nicotine is an addictive drug and that the tars are drug delivery devices. The scope of regulation will include manufacturing, marketing, advertising, and distributing tobacco products. The FDA will be freed from the numerous procedural roadblocks which the tobacco industry has placed in its path.

This legislation will substantially reduce smoking in America, enhance medical research, and help millions of children reach their full potential. Congress has a unique opportunity. We own it to America’s children and America’s future to act now.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1492
Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.
(a) SHORT TITLE.—This Act may be cited as the “Healthy and Smoke Free Children Act.”
(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 501. Sense of the senate.

SEC. 2. FINDINGS AND PURPOSES.
(a) FINDINGS.—Congress makes the following findings:
(1) Tobacco products are the foremost preventable health problem facing America today.
(2) Tobacco induced illnesses and medical treatments of individuals suffering from tobacco induced illnesses and conditions.
(3) Nicotine that is contained in tobacco products is extremely addictive.
(4) The tobacco industry has historically targeted tobacco product marketing and promotional efforts towards minors in order to entrap them into a lifetime of smoking.
(5) Tobacco induced illnesses and medical conditions resulting from tobacco use cost the United States over $200,000,000 each year.
(6) Tobacco induced illnesses and medical conditions resulting from tobacco use cost the United States over $200,000,000 each year.
(7) Each year the Federal Government incurs costs in excess of $200,000,000,000 for the medical treatment of individuals suffering from tobacco induced illnesses and conditions.
(b) PURPOSES.—It is the purpose of this Act to:
(1) substantially reduce youth smoking;
(2) assist individuals who are currently addicted to tobacco products in overcoming that addiction;
(3) educate the public concerning the health dangers inherent in the use of tobacco products;
TITLE I—AMENDMENTS TO THE PUBLIC HEALTH SERVICE ACT RELATING TO TOBACCO

SEC. 101. PUBLIC HEALTH AND EDUCATION PRO- grams.

The Public Health Service Act (42 U.S.C. 201 et seq.) is amended by adding at the end thereof the following new title:

TITLE XXVIII—PUBLIC HEALTH AND EDUCATION PROGRAMS AND TOBACCO CONTROL

SEC. 2801. DEFINITIONS.

In this title—

(1) BRAND.—The term ‘brand’ means a variety of a tobacco product distinguished by its packaging, labeling, or appearance for sale, sold, or otherwise distributed to consumers.

(2) CIGAR.—The term ‘cigar’ means any roll of tobacco wrapped in a leaf tobacco or in any substance not containing tobacco (other than any roll of tobacco which is a cigarette or cigarillo within the meaning of paragraph (3) or (4)).

(3) CIGARETTE.—The term ‘cigarette’ means any product which contains nicotine, is intended to be burned or ignited by the user in a pipe, or otherwise intended to be smoked in a pipe.

(4) CIGARILLO.—The term ‘cigarillo’ means any roll of tobacco wrapped in a leaf tobacco or in any substance containing tobacco (other than any roll of tobacco which is a cigarette within the meaning of paragraph (3)) and as to which 1,000 units weigh more than 3 pounds.

(5) CIGARETTE TOBACCO.—The term ‘cigarette tobacco’ means any tobacco (other than any roll of tobacco which is a cigarette within the meaning of paragraph (3)) and as to which 1,000 units weigh more than 3 pounds.

(6) COMMERCE.—The term ‘commerce’ means—

(A) commerce between any State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, the Northern Mariana Islands or any territory or possession of the United States;

(B) commerce between any State and any other State, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, the Northern Mariana Islands or any territory or possession of the United States;

(C) commerce wholly within the District of Columbia, Guam, the Virgin Islands, American Samoa, the Northern Mariana Islands or any territory or possession of the United States;

(D) COMMISSIONER.—The term ‘Commissioner’ means the Commissioner of Food and Drugs.

(8) DISTRIBUTOR.—The term ‘distributor’ means any person who furnishes the distribution of tobacco products, whether domestic or imported, any point from the original place of manufacture to the person who sells or distributes the product to individuals for personal consumption. Such term shall not include common carriers.

(9) LITTLE CIGAR.—The term ‘little cigar’ means any roll of tobacco wrapped in leaf tobacco or in any substance not containing tobacco (other than any roll of tobacco which is a cigarette within the meaning of subsection (1)) and as to which 1,000 units weigh not more than 3 pounds.

(10) MANUFACTURER.—The term ‘manufacturer’ means any person, including any repacker or relabeler, who manufactures, packages, processes, or labels a finished tobacco product.

(11) NICOTINE.—The term ‘nicotine’ means the chemical substance named C H N , including any salt or compound of nicotine.

(12) PACKAGE.—The term ‘package’ means a pack, box, carton, or container of any kind in which tobacco products are offered for sale, sold, or otherwise distributed to consumers.

(13) PERSON.—The term ‘person’ means an individual, partnership, corporation, or any other business or legal entity.

(14) PIPE TOBACCO.—The term ‘pipe tobacco’ means any loose tobacco that, because of its appearance, type, packaging, or labeling, is likely to be offered to, or purchased by, consumers as a tobacco product to be smoked in a pipe.

(15) POINT OF SALE.—The term ‘point of sale’ means a place at which an individual can purchase or otherwise obtain tobacco products for personal consumption.

(16) RETAILER.—The term ‘retailer’ means any person who sells tobacco products to individuals for personal consumption, or who operates a facility where vending machines or self-service displays are permitted under this title.

(17) ROLL-YOUR OWN TOBACCO.—The term ‘roll-your-own tobacco’ has the meaning given such term by section 5702(p) of the Internal Revenue Code of 1986.

(18) SALE.—The term ‘sale’ includes the selling, providing samples of, or otherwise making tobacco products available for personal consumption in any place within the scope of this title.

(19) SECRETARY.—The term ‘Secretary’ means the Secretary of Health and Human Services.

(20) SMOKELESS TOBACCO.—The term ‘smokeless tobacco’ means any product that consists of cut, ground, powdered, or leaf tobacco or tobacco cord that is intended to be placed in the oral or nasal cavity.

(21) STATE.—The term ‘State’ includes the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, the Northern Mariana Islands, and any territory or possession of the United States.

(22) TOBACCO.—The term ‘tobacco’ means tobacco in its unmanufactured form.

(23) TOBACCO PRODUCT.—The term ‘tobacco product’ means cigarettes, cigarillos, cigarette tobacco, little cigars, pipe tobacco, and smokeless tobacco, and roll-your-own tobacco.

Subtitle A—Public Health and Education Programs

SEC. 2811. PAYMENTS TO STATES.

(a) FUNDS.—

(1) IN GENERAL.—Subject to subsection (d), there are hereby made available to carry out this section for each fiscal year an amount equal to the amount necessary to reimburse States as provided for in subsection (b).

(2) FISCAL YEAR LIMITATION.—Amounts made available for a fiscal year under paragraph (1) shall be equal to—

(A) 43 percent of the net increase in revenue received in the Treasury for such fiscal year attributable to any amendments made to chapter 52 of the Internal Revenue Code of 1986 in the fiscal year in which this title is enacted, as estimated by the Secretary; less

(B) amounts made available for such fiscal year under sections 2812 and 2814.

(b) REIMBURSEMENT.—

(1) IN GENERAL.—The Secretary shall use amounts made available under subsection (a) for each fiscal year to provide funds to each State to reimburse such State for amounts expended by the State for the treatment of individuals with tobacco-related illnesses or conditions, and to permit States to utilize the Federal share of such expended amounts to provide services for children.

(2) AMOUNT.—The amount for which a State is eligible for under paragraph (1) shall be based on the ratio of the expenditures of the State under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) for fiscal year 1996 to the expenditures of all States under title XIX for such fiscal year.

(3) ADJUSTMENT.—With respect to a fiscal year in which the amount determined under subsection (a)(i) exceeds the limitation under subsection (a)(ii), the Secretary shall make pro rata reductions in the amounts provided to States under this subsection.

(c) USE OF FUNDS.—

(1) DETERMINATION.—With respect to each fiscal year, the Secretary shall determine the proportion of the reimbursement under subsection (b) for each fiscal year that is equal to the amount that has been paid to the State as the Federal medical assistance percentage defined in section 1903(a)(1) of the Social Security Act (42 U.S.C. 1396a(b)) for expenditures by the State for the preceding fiscal year.

(2) REQUIRED USE.—With respect to the amount determined under paragraph (1) for a fiscal year, the Secretary shall not treat such amount as an overpayment under any joint Federal-State health program if the State certifies to the Secretary that such amount will be used by the State to serve the needs of children in the State under the following programs:

(A) An Even Start program under section 7111 of the Head Start Act (42 U.S.C. 9801 et seq.).

(B) The Head Start program under the Head Start Act (42 U.S.C. 6301 et seq.).

(C) A child care program under the Child Care and Development Block Grant Act of 1990 (42 U.S.C. 400 et seq.).

(D) The Individuals with Disabilities Education Act.

(G) The Maternal and Child Health Services Block Grant program under title V of the Social Security Act (42 U.S.C. 701 et seq.).

(H) The State Children’s Health Insurance Program of the State under title XXI of the Social Security Act (42 U.S.C. 1500 et seq.).

(I) The family preservation and support services program under section 430B of the Social Security Act.

(J) State initiated programs that are designed to serve the health needs of children and are approved by the Secretary.
"(3) Coordination.—A State may use not to exceed 20 percent of the amount determined under paragraph (1) for the State for a fiscal year to—

(A) improve linkages and coordination among programs serving children and families, including the provision of funds to out-of-state outreach workers into Federally funded early intervention services to support enrollment in child health initiatives referred to in paragraph (2)(H);

(B) fund local collaborative programs which shall be required to use such funds on needs assessments, planning, and investments to maximize efforts to improve child development;

(C) fund innovative demonstrations that address the outstanding needs of children and families as assessed by State and local entities.

(4) State plan.—To be eligible to receive funds under this subsection a State shall prepare and submit to the Secretary a State plan, at such time, in such manner, and containing such information as the Secretary may require, including a description of the manner in which the State will use amounts provided under this subsection. Such plan shall demonstrate, based on standards established by the Secretary, that the State will comply with paragraph (6).

(5) Application of requirements.—The requirements of the respective provisions of law described in paragraph (2) shall apply to any funds made available under this subsection as long as such provision of law to the same extent that such requirements would otherwise apply to such programs under such provisions of law.

(6) Supplement not supplant.—Amounts provided to a State under this subsection shall be supplemental and not in addition to other Federal, State and local funds provided for programs that serve the health and developmental needs of children. Amounts provided to the State under any of the provisions of this subsection are in addition to any other Federal, State, and local funds made available to the State under any other provision of law referred to in paragraph (2) and shall not be used solely as a result of the availability of funds under this section.

(7) Overpayments.—Any amount of the reimbursement of a State under paragraph (1) to which paragraph (2) applies that is not used in accordance with this subsection shall be treated as an overpayment under section 1903 of the Social Security Act (42 U.S.C. 1396l). Any such overpayment shall be reduced by an amount equal to the amount the Secretary determines, based on standards established by the Secretary, that the State will comply with paragraph (6).

SEC. 2813. BIOMEDICAL RESEARCH AND CHILD DEVELOPMENT INVESTMENTS.

(a) Funding.—There are hereby made available to carry out this section—

(i) for fiscal year 1998, $2,100,000,000;

(ii) for fiscal year 1999, $2,175,000,000, increased by an amount equal to the increase in the Consumer Price Index for the previous fiscal year for all urban consumers (all items; U.S. city average);

(iii) for fiscal year 2000, $2,200,000,000, increased by an amount equal to the increase in the Consumer Price Index for the previous fiscal year for all urban consumers (all items; U.S. city average);

(iv) for fiscal year 2001, $2,325,000,000, increased by an amount equal to the increase in the Consumer Price Index for the 2 previous fiscal years for all urban consumers (all items; U.S. city average);

(v) for fiscal year 2002 and subsequent fiscal years, amounts made available for fiscal year prior to the fiscal year involved for all urban consumers (all items; U.S. city average); and

(b) Use of funds.—Amounts made available for a fiscal year under subsection (a) shall be distributed in the following manner:

(i) Use reduction and addiction prevention programs, and child development and research activities under part 1 of subtitle C.

(ii) Food and drug administration.

(A) In general.—The amount of funds described in subparagraph (B) shall be used by the Secretary to reduce the incidence of tobacco use among curative and rehabilitative health care services.

(B) Amount.—The amount described in this subparagraph is—

(i) for fiscal year 1998, $300,000,000;

(ii) for fiscal year 1999 and each subsequent fiscal year, the amount described in clause (i), increased for such fiscal year by an amount equal to the increase in the Consumer Price Index for the period encompassing the fiscal years from 1998 to the fiscal year involved for all urban consumers (all items; U.S. city average).

(c) Tobacco victims compensation fund.—

(A) In general.—The amount of funds described in subparagraph (B) shall be used by the Secretary to make block grants to States under the National Tobacco Usage Reduction and Education Block Grant Program under section 2826.

(B) Amount.—The amount described in this subparagraph is—

(i) for fiscal year 1998, $1,144,000,000;

(ii) for fiscal year 1999, $2,151,000,000, increased for such fiscal year by an amount equal to the increase in the Consumer Price Index for the previous fiscal year for all urban consumers (all items; U.S. city average);

(iii) for fiscal year 2000, $2,400,000,000, increased for such fiscal year by an amount equal to the increase in the Consumer Price Index for fiscal years 1998 through 2000 for all urban consumers (all items; U.S. city average);

(iv) for fiscal year 2001, $2,325,000,000, increased for such fiscal year by an amount equal to the increase in the Consumer Price Index for fiscal years 1998 through 2001 for all urban consumers (all items; U.S. city average);

(v) for fiscal year 2002 and subsequent fiscal years, $1,750,000,000, increased for each such fiscal year by an amount equal to the increase in the Consumer Price Index for fiscal years 1998 through the fiscal year prior to the fiscal year involved for all urban consumers (all items; U.S. city average).

(d) Food and drug administration.—

(A) In general.—The amount of funds described in subparagraph (B) shall be used by the Secretary to assist in defraying the costs associated with the activities and functions of the Food and Drug Administration relating to tobacco.

(B) Amount.—The amount described in this subparagraph is—

(i) for fiscal year 1998, $300,000,000; and

(ii) for fiscal year 1999 and each subsequent fiscal year, the amount described in clause (i), increased for each such fiscal year by an amount equal to the increase in the Consumer Price Index for the period encompassing the fiscal years from 1998 to the fiscal year involved for all urban consumers (all items; U.S. city average).

(e) State block grants.—The amount described in subparagraph (B) shall be used by the Secretary to make block grants to States under the National Tobacco Usage Reduction and Education Block Grant Program under section 2826.
SEC. 2815. TOBACCO COMMUNITY TRANSITION ASSISTANCE.

(a) FUNDING.—There are hereby made available to carry out this section—

(A) $3,100,000,000 for each of the fiscal years 1998 and 1999; and

(B) $3,100,000,000 for fiscal 2000; and

(2) for block grants under section 411—

(A) $500,000,000 for each of the fiscal years 1998 and 1999; and

(B) $800,000,000 for each of the fiscal years 2000 through 2002; and

(C) $300,000,000 for each of the fiscal years 2003 and 2004.

SEC. 2821. NATIONAL BIOMEDICAL, BASIC AND CHILD DEVELOPMENT RESEARCH.

(a) ESTABLISHMENT.—There is established a Board to be known as the National Biomedical and Basic Scientific Research Board, referred to in this subpart as the Board.

(b) MEMBERSHIP.—

(1) COMPOSITION.—The board shall be composed of—

(A) 9 voting members to be appointed by the President from among individuals with expertise in biomedical research, basic research, research on the development and medicine; and

(B) 3 ex officio (nonvoting) members of which—

(i) 1 shall be the Secretary;

(ii) 1 shall be the Secretary of Education; and

(iii) 1 shall be the Assistant to the President for Science and Technology.

(2) TERMS.—A member of the Board under paragraph (1A) shall be appointed for a term of 6 years, except that of the members first appointed shall expire on November 8, 1997, and of the members appointed thereafter shall expire on November 8, 1998 and 1999; and

(3) VACANCIES.—

(A) VACANCY.—A vacancy on the Board shall be filled in the same manner in which the original appointment was made and shall be subject to all conditions which applied with respect to the original appointment.

(B) FILLING UNEXPEDITED TERM.—An individual appointed to fill a vacancy on the Board shall be appointed for the unexpired term of the member replaced.

(C) EXPIRATION OF TERMS.—The term of any member of the Board shall not expire before the date on which the member’s successor takes office.

(d) CHAIRPERSON.—The President shall designate a member of the Board appointed under subsection (b)(1)(A) as the Chairperson of the Board.

(e) PERSONNEL MATTERS.—

(1) COMPENSATION.—Each member of the Board who is not an officer or employee of the Federal Government shall be compensated at a rate equal to the daily equivalent of the annual rate of basic pay prescribed for level IV of the Executive Schedule under section 5312 of title 5, United States Code, for each day (including travel time) during which such member is engaged in the performance of the duties of the position of the Board. All members of the Board shall serve without compensation in addition to that received for their services as officers or employees of the United States.

(2) TRAVEL EXPENSES.—The members of the Board shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter I of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance of services for the Board.

(f) STAFF.—

(1) IN GENERAL.—The Chairperson of the Board may, without regard to the civil service, regulations and laws and rights and privileges of officers and employees of the United States, hire an executive director and such other personnel as may be necessary to enable the Board to perform its duties. The employment of an executive director shall be subject to confirmation by the Board.

(2) COMPENSATION.—The Chairperson of the Board shall fix the compensation of the executive director and other personnel without regard to the provisions of chapter 51 and subchapter III of chapter 53 of title 5, United States Code, relating to classification of positions and General Schedule pay rates, except that the rate of pay for the executive director and other personnel may not exceed the rate payable for level V of the Executive Schedule under section 5315 of such title.

(3) DELEGATION.—The Board may delegate to the National Institutes of Health, the Director of the National Institutes of Health, the Secretary of Education, the Director of the National Science Foundation, the President of the National Science Board, or the Secretary of Labor, the authority to make contracts and enter into grants and awards under this part for such fiscal year as compared to the previous fiscal year.

(g) DELEGATION.—The Board may delegate to the Secretary the Secretary of Education, the Director of the National Institutes of Health, the Secretary of Labor, the Director of the National Science Foundation, the President of the National Science Board, or the Secretary of Labor, the authority to make contracts and enter into grants and awards under this part for such fiscal year as compared to the previous fiscal year.

(h) AVAILABILITY OF FUNDS.—

(1) IN GENERAL.—No funds shall be made available under this part for such fiscal year until the Secretary certifies that the amounts appropriated for each of the entities or activities described in section 2823(a)(1)(F) for such fiscal year has increased as compared to the amounts appropriated for the previous fiscal year.

(2) APPLICATION TO CHILD DEVELOPMENT ACTIVITIES.—With respect to fiscal year 2003, no funds shall be made available under this part for such fiscal year until the Secretary certifies that the amounts appropriated for each of the entities or activities described in section 2823(a)(1)(F) for such fiscal year has increased as compared to the amounts appropriated for the previous fiscal year.

(i) SUBTITLE B—National Health Initiatives

PART 1—NATIONAL BASIC AND CHILD DEVELOPMENT RESEARCH

SEC. 2831. IN GENERAL.

(a) FUNDING.—There are hereby made available to carry out this section—

(A) $500,000,000 for each of the fiscal years 2000 through 2002; and

(B) $400,000,000 for fiscal year 2003.

(b) GRANTEES.—The grants made available under this part shall be made available to—

(1) entities conducting quality basic or biomedical research; and

(2) entities conducting quality basic or biomedical research as determined by the National Institutes of Health; including a subdivision or grantee of such Institute or grantee of such Foundation; nationally recognized research hospitals; universities with recognized programs of basic and biomedical research; research institutes with expertise in the conduct of basic or biomedical research; cancer research centers that meet the standards of section 414; and entities conducting quality basic or biomedical research as determined by the Board.

(c) GRADUATE TRAINING.—Support may be provided under section 2821(f) for graduate training, including the following:

(1) Grants for portable fellowships as defined for purposes of the National Science Foundation Act of 1950 (42 U.S.C. 1661 et seq.).

(2) Grants to support an additional year of portable fellowship training to enhance the teaching capabilities of fellows seeking careers in academic teaching settings.

(3) Programs of student loan forgiveness for students in the sciences and biomedical sciences who pursue careers as teachers of science or biomedical science or researchers in such fields in nonprofit institutions. Loans may be forgiven under this paragraph at the rate of—

(A) 15 percent per year for the first and second fiscal years after the date of enactment of this title; and

(B) 20 percent per year for the third and fourth fiscal years after the date of enactment of this title.

SEC. 2832. GRANTS FOR BIOMEDICAL AND BASIC RESEARCH.

(a) ELIGIBLE ENTITIES.—To be eligible to receive a grant or contract under section 2821(f) an entity shall be—

(1) the National Institutes of Health (including a subdivision or grantee of such Institute or grantee of such Foundation);

(2) the National Science Foundation (including a subdivision or grantee of such Foundation);

(3) nationally recognized research hospitals;

(4) universities with recognized programs of basic and biomedical research;

(5) research institutes with expertise in the conduct of basic or biomedical research;

(6) cancer research centers that meet the standards of section 414; and

(7) entities conducting quality basic or biomedical research as determined by the Board.

(b) GRADUATE TRAINING.—Support may be provided under section 2821(f) for graduate training, including the following:

(1) Grants for portable fellowships as defined for purposes of the National Science Foundation Act of 1950 (42 U.S.C. 1661 et seq.).

(2) Grants to support an additional year of portable fellowship training to enhance the teaching capabilities of fellows seeking careers in academic teaching settings.

(3) Programs of student loan forgiveness for students in the sciences and biomedical sciences who pursue careers as teachers of science or biomedical science or researchers in such fields in nonprofit institutions. Loans may be forgiven under this paragraph at the rate of—

(A) 15 percent per year for the first and second fiscal years after the date of enactment of this title; and

(B) 20 percent per year for the third and fourth fiscal years after the date of enactment of this title.

(4) Programs of postdoctoral fellowships for individuals qualifying for such fellowship under the National Science Foundation Act of National Institutes of Health.
“(5) Programs of grants to universities and other research facilities to assist in the equipping of laboratories for new researchers of exceptional promise during the first 5 years of their research careers.

“(6) Such other programs of grants and contracts as the Board determines will contribute to increasing the supply of high quality scientific and biomedical researchers.

“(c) Funding.—The Board shall use 50 percent of the amount made available for a fiscal year under section 2812 to carry out this subsection in such fiscal year.

**SEC. 2823. INVESTMENTS IN HEALTHY CHILD DEVELOPMENT AND RESEARCH—PROJECTS AND TRAINING.**

“(a) Children’s Research, Training and Demonstration Projects.—The Secretary shall establish a model for the demonstration of the effectiveness of the project in achieving its goals.

“(b) Child Development Projects.—In general.—The Secretary shall use no less than 10 percent of the funds allocated for use under this section to award grants of contracts for the conduct and support of research, training, and demonstration projects relating to child health and development.

“(2) ENTITIES ELIGIBLE FOR RESEARCH PROJECTS.—To be eligible to receive a grant or contract under paragraph (1) for the conduct or support of research an entity shall be—

“(A) the National Institutes of Health (including a subdivision or grantees of such institutes);

“(B) the National Science Foundation (including a subdivision or grantees of the foundation);

“(C) a nationally recognized research hospital;

“(D) a university with a recognized program of research or training on children’s development and health and childhood disabilities; and

“(E) a child care center conducting child development research and training;

“(F) a public or private nonprofit organization, agency, or partnership with the capacity to identify research findings on brain development in the early years of life and for the support of continual physical, intellectual, and social development of young children, including infants and toddlers, with disabilities.

“(3) TRAINING PROJECTS.—Support may be provided under subparagraphs (D), (E) and (F) of paragraph (1) for demonstration projects including programs to support undergraduate and graduate training programs to expand the early childhood development workforce by recruiting, training students for careers in early childhood development and care, which may include grants to institutions, scholarships, and programs of loan work forgiveness; and preservice and inservice training programs to enhance the quality of the existing child care workforce.

“(4) DEMONSTRATION PROJECTS.—Support may be provided under subparagraphs (D), (E) and (F) of paragraph (1) for demonstration projects including programs to support undergraduate and graduate training programs to expand the early childhood development workforce by recruiting, training students for careers in early childhood development and care, which may include grants to institutions, scholarships, and programs of loan work forgiveness; and preservice and inservice training programs to enhance the quality of the existing child care workforce.

“(b) Child Development Projects.—In general.—The Secretary shall use no less than 50 percent of the funds allocated for use under this section in such fiscal year to carry out the following activities:

**PART 2—PUBLIC HEALTH PROGRAMS**

**SEC. 2823. RESEARCH, COUNTER-ADVERTISING, AND CDC PROGRAMS.**

“(a) RESEARCH.—The Secretary shall provide for the conduct of research concerning the development of methods, drugs, and devices to discourage the use of tobacco products and to assist individuals who use such products in quitting such use.

“(b) COUNTER-ADVERTISING.—The Secretary shall provide for the conduct of programs to reduce tobacco use through media-based (such as counter-advertising campaigns) and nonmedia-based education, prevention and cessation campaigns designed to discourage the use of tobacco products by individuals and to encourage those who use such products to quit.

“(c) CENTERS FOR DISEASE CONTROL AND PREVENTION PROGRAMS.—The Secretary, acting through the Centers for Disease Control and Prevention, shall carry programs to reduce the incidence of tobacco use among current users, and for other activities designed to reduce the risk of dependence and injury from tobacco products.

“(d) FUNDING.—

“(1) RESEARCH.—The Secretary shall use amounts available under section 2812(b)(1) to carry out subsection (a).

“(2) COUNTER-ADVERTISING.—The Secretary shall use amounts available under section 2812(b)(2) to carry out subsection (b).

“(3) CDC PROGRAMS.—The Secretary shall use amounts available under section 2812(b)(3) to carry out subsection (c).

**SEC. 2826. NATIONAL TOBACCO USAGE REDUCTION AND EDUCATION BLOCK GRANT PROGRAM.**

“(a) Block Grants.—The Secretary shall award block grants to States to enable such States to carry out activities for the purpose of planning, carrying out, and evaluating tobacco use reduction and education activities described in subsection (c).

“(b) Application.—(1) IN GENERAL.—A State that desires to receive a block grant under this section shall prepare and submit to the Secretary an application, at such time, in such manner, and accompanied by such information as the Secretary may require.

“(2) CONTENTS.—An application submitted under paragraph (1) shall—

“(A) describe the activities that will be carried out using assistance under this section; and

“(B) provide such assurances as the Secretary determines to be necessary to carry out the purposes of this section.

“(c) USE OF FUNDS.—A State shall use amounts received under this section to carry out the following activities:

“(1) TOBACCO USE CESSATION.—

“(A) IN GENERAL.—Activities to assist individuals in quitting the use of cigarettes or other tobacco products.

“(B) MODEL STATE PROGRAM.—The Secretary shall establish a model smoking cessation program that may be used by States in improving their State-based smoking cessation programs. Such model program shall provide for the provision of grants and other assistance by such States to eligible entities for the purpose of enabling the establishment or administration of tobacco product use cessation programs that are approved in accordance with subparagraph (D).

“(D) APPROVAL OF CESSATION PROGRAM OR MODEL.—Using the best available scientific information, the Secretary shall promulgate regulations to provide for the approval of tobacco product use cessation programs and devices. Such regulations shall be designed to ensure that such individuals have access to a broad range of cessation options that are tailored to the needs of the individual tobacco user.
individuals who are under 18 years of age and to encourage those who use such products to quit;

"(B) to carry out informational campaigns that are designed to discourage and de-glomerize the use of tobacco products;

"(C) for tobacco use reduction in elementary and secondary schools; or

"(D) to fund tobacco control efforts that are designed to encourage community involvement in reducing tobacco product use.

"(3) EVENT TRANSITIONAL SPONSORSHIP PROGRAM.

"(A) IN GENERAL.—Activities for the transitional sponsorship of certain activities, including grants to:

"(i) pay the costs associated with the transitional sponsorship of an event or activity;

"(ii) provide for the transitional sponsorship of an individual or team;

"(III) provide for the transitional sponsorship of an individual or team;

"(IV) provide for the transitional sponsorship of an individual or team in an event or activity; and

"(V) for any other purposes determined appropriate by the State;

"(ii) the use of tobacco products on the basis of—

"(A) the de minimis level; or

"(B) the de minimis level; whichever is greater.

"(B) ELIGIBILITY.—A State program funded under this paragraph shall ensure that to be eligible for assistance under this paragraph an entity or individual shall prepare and submit to the State an application at such time, in such manner, and containing such information as the State may require, including:

"(i) a description of the event, activity, team, or entry for which the grant is to be provided;

"(ii) documentation that the event, activity, team, or entry involved was sponsored or otherwise funded by a tobacco manufacturer or distributor prior to the date of the application; and

"(iii) a certification that the applicant is unable to secure funding for the event, activity, team, or entry involved from sources other than described in clause (ii).

"(C) PERMISSIBLE SPONSORSHIP ACTIVITIES.—Events, activities, teams, or entries for which a grant may be provided under this paragraph include:

"(i) an athletic, musical, artistic, or other social or cultural event or activity that was sponsored in whole or in part by a tobacco manufacturer or distributor prior to the date of enactment of this title;

"(ii) the participation of a team that was sponsored in whole or in part by a tobacco manufacturer or distributor prior to the date of enactment of this title, in an athletic event or activity; and

"(iii) the payment of a portion or all of the entry fees, or other financial or technical support provided to, an individual or team by a tobacco manufacturer or distributor prior to the date of enactment of this title, for participation in the individual in an athletic, musical, artistic, or other social or cultural event.

"(d) ALLOCATION OF FUNDS.—A State shall ensure that amounts received under a block grant subsection (a) are used to carry out one or more of the activities described in subsection (c).

"(e) FUNDING.—The Secretary shall use amounts available under section 2812(b)(4) to carry out this section.

"Subtitle C—Reduction in Underage Tobacco Use

SEC. 2831. PURPOSE.

"It is the purpose of this subtitle to encourage the achievement of reductions in the number of underage consumers of tobacco products through the imposition of additional financial deterrents relating to tobacco products if certain underage tobacco-use reduction goals are not met.

"SEC. 2832. CHILD TOBACCO USE SURVEYS.

"(a) ANNUAL PERFORMANCE SURVEY.—Not later than 1 year after the date of enactment of this Act, the Secretary shall conduct a survey to determine the number of children who used each manufacturer’s tobacco products within the past 30 days.

"(b) EXCLUSION OF CERTAIN AGES.—The Secretary may exclude from the survey conducted under subsection (a), children under the age of 12 years (or such other lesser age as the Secretary may establish) to strengthen the validity of the survey.

"(c) BASELINE LEVEL.—The baseline level of the child tobacco product use of a manufacturer (referred to in this subtitle as the ‘baseline level’) is the number of children determined to have used the tobacco products of such manufacturer in the first annual performance survey for 1998.

"(d) ADDITIONAL MEASURES.—In order to increase the awareness of youth tobacco use and to further reduce the use of tobacco products, the Secretary may, for informational purposes only, add additional measures to the survey conducted under subsection (a), conduct periodic or occasional surveys at other times, and conduct surveys of other populations such as young adults. The results of such surveys shall be made available to manufacturers and the public to assist in efforts to reduce youth tobacco use.

"(e) DEFINITION.—As used in this subtitle, the term ‘tobacco product’ means cigarettes, chewing tobacco, smokeless tobacco products, and roll-your-own tobacco products.

"SEC. 2833. REDUCTION IN UNDERAGE TOBACCO USE.

"(a) STANDARDS FOR EXISTING MANUFACTURERS.—Each manufacturer which manufactured a tobacco product on or before the date of enactment of this title shall reduce the number of children who used its tobacco products so that the number of children determined to have used its tobacco products in each annual performance survey for which a grant may be provided under this title shall be equal to or less than the baseline level.

"(b) ELIGIBILITY.—A State program funded under this title shall ensure that the number of underage consumers of tobacco products is equal to or less than—

"(A) 40 percent of the manufacturer’s baseline level; or

"(B) the de minimis level; whichever is greater.

"(c) BASELINE LEVEL.—The baseline level shall be 0.5 percent of the total number of children determined to have used tobacco products in the first annual performance survey under subsection (b).

"SEC. 2834. NONCOMPLIANCE.

"(a) VIOLATION OF STANDARD.—If, with respect to a year, a manufacturer of a tobacco product fails to comply with the required reductions under section 2833, the manufacturer shall pay to the Secretary a noncompliance fee for each unit of tobacco products manufactured by the manufacturer which is distributed for consumption in the year following the year in which the noncompliance occurs, in the amount specified in subsection (b).

"(b) NONCOMPLIANCE FEE PER UNIT.—

"(1) IN GENERAL.—With respect to a year, a manufacturer of a tobacco product shall be required to pay a noncompliance fee for each unit of tobacco products manufactured by the manufacturer if the noncompliance factor of the manufacturer (as determined under paragraph (3)) for the year is greater than zero.

"(A) 2 cents multiplied by so much of the noncompliance factor as does not exceed 5;

"(B) 3 cents multiplied by so much of the noncompliance factor as exceeds 5 but does not exceed 10;

"(C) 4 cents multiplied by so much of the noncompliance factor as exceeds 10 but does not exceed 15;

"(D) 5 cents multiplied by so much of the noncompliance factor as exceeds 15 but does not exceed 20; and

"(E) 6 cents multiplied by so much of the noncompliance factor as exceeds 20 but does not exceed 25.

"(3) NONCOMPLIANCE FACTOR.—The noncompliance factor of a manufacturer shall be equal to—

"(A) the reduction required under section 2833(a) in the number of children who use the manufacturer’s tobacco products for the year.

"(B) such surveys shall be made available to manufacturers and the public to assist in efforts to reduce youth tobacco use.
"(c) Noncompliance Fees For Consecutive Violations.—If a manufacturer of a tobacco product fails to comply with the required reduction under section 2833(a) in 2 or more consecutive years, the noncompliance fee that is required to be paid by the manufacturer under this section for each unit of tobacco products manufactured by such manufacturer and distributed for consumer use in the year following the year in which the noncompliance occurs, shall be the amount determined under subsection (b) for the year multiplied by the number of consecutive years in which the manufacturer has failed to comply with such required reductions.

"(d) Prohibition on Single-Pack Sales in Cases of Repeated Noncompliance.—Not later than 1 year after the date of enactment of this title, the Secretary shall establish regulations to prohibit the sale of single packs of a manufacturer's tobacco products in cases of repeated noncompliance with the reductions required under section 2833(a).

"(e) Required Generic Packaging in Severe Cases of Repeated Noncompliance.—Not later than 1 year after the date of enactment of this title, the Secretary shall establish regulations to require units and packages of a manufacturer's tobacco products to have generic packaging in severe cases of repeated noncompliance with the reductions required under section 2833(a). Such regulations shall require that, if a manufacturer fails to comply with the reductions in 3 or more consecutive years, the manufacturer's tobacco products may be sold in the following year only in packages containing not less than 10 units of the product per package (200 cigarettes per package in the case of cigarettes, and a corresponding package size for other tobacco products).

"(f) Payment.—The noncompliance fee shall be paid by a manufacturer under this section within 5 business days after the date of the performance survey. The fee shall be paid only in packages containing not less than 10 units of the product per package (200 cigarettes per package in the case of cigarettes, and a corresponding package size for other tobacco products).

"(g) Use of Depository.—The Depository shall be located in the District of Columbia. In an action by a manufacturer seeking judicial review of an annual performance survey, the manufacturer may prevail—

"(1) only if the manufacturer shows that the results of the performance survey were arbitrary and capricious; and

"(2) only to the extent that the manufacturer was required to pay a lesser noncompliance fee if the results of the performance survey were not arbitrary and capricious.

"(h) Settled Individual.—Nothing in this subtitle shall be construed as prohibiting a manufacturer from paying the costs of the amount of any noncompliance fee assessed under this subtitle on tobacco products as a further economic deterrent to the use of such products.

"(i) Promotions.—No stay or other injunctive relief may be granted by the Secretary or any court that has the effect of enjoining the imposition and collection of noncompliance fees to be applied under this section.

"(j) Civil Action for Injunctive Relief.—If a manufacturer of a tobacco product fails to comply with the reductions required under section 2833(a), the Secretary may use this civil action in the term ‘child’ means, except as provided in section 2832(b), an individual who is under the age of 18.

"Subtitle D—Miscellaneous Provisions

"Section 2841. Whistleblower Protections.

"(a) Prohibition of Retaliation.—An employee of any manufacturer, distributor, or retailer of a tobacco product may not be discharged, fined, charged, or discriminated against (with respect to compensation, terms, conditions, or privileges of employment) as a reprisal for disclosing to an employer, the Department of Health and Human Services, the Department of Justice, or any State or local regulatory or enforcement authority, information relating to a substantial violation of law related to this title or a State or local law enacted to further the purposes of this title.

"(b) Enforcement.—Any employee or former employee who believes that such employee has been discharged, demoted, or otherwise discriminated against in violation of this section may bring a civil action in the appropriate United States district court before the end of the 2-year period beginning on the date of such discharge, demotion, or discrimination.

"(c) Remedies.—If the district court determines that a violation has occurred, the court may impose—

"(1) reinstatement of the employee's former position;

"(2) payment of back pay, interest, or other appropriate damages; or

"(3) take other appropriate actions to remedy any past discrimination.

"(d) Limitation.—The protections of this section shall not apply to any employee who—

"(1) deliberately causes or participates in the alleged violation of law or regulation;

"(2) knowingly or recklessly provides substantially false information to the Food and Drug Administration, the Department of Health and Human Services, the Department of Justice, or any State or local regulatory or enforcement authority.

"Section 2842. National Tobacco Document Depository.

"(a) Purpose.—It is the purpose of this section to provide for the disclosure of previously nonpublic or confidential documents by manufacturers of tobacco products, including the results of internal health research, and to provide for a procedure to settle claims of attorney-client privilege, work product, or trade secrets with respect to such documents.

"(b) Establishment.—(1) In General.—The Secretary shall provide for the establishment, either within the National Institutes of Health, the Department of Health and Human Services, the Department of Justice, or any State or local regulatory or enforcement authority, the National Tobacco Document Depository.

"(2) Use of Depository.—The Depository shall be maintained in a manner that permits the Depository to be used as a resource for litigants, public health groups, and any other individual who has an interest in the corporate records and research of the manufacturers concerning smoking and health, addiction or nicotine dependency, safer or less hazardous cigarettes, and tobacco use and marketing.

"(d) Within 90 days after the date of the establishment of the Depository, any exiting documents discussing or referring to health research, addiction or dependency, safer or less hazardous cigarettes, studies of the smoking habits of minors, and the relationship between advertising or promotion and smoking, that were prescribed as required in subsection (b) have not completed producing as required in the actions described in paragraph (1).

"(e) Within 30 days of the date of the establishment of the Depository, all documents relating to indices (as defined by the court in State of Minnesota v. Philip Morris, Inc., et al (case No. 94–4–45)), documents discussing or referring to health research, addiction or dependency, safer or less hazardous cigarettes, studies of the smoking habits of minors, and the relationship between advertising or promotion and smoking, that were prescribed as required in subsection (b) have not completed producing as required in the actions described in paragraph (1).

"(f) All existing or future documents relating to original laboratory research concerning the health or safety of tobacco products including all documents withheld from production in any actions on the grounds of attorney-client privilege, all documents determined to be outside of the scope of the privilege or dependency, safer or less hazardous cigarettes, and tobacco use and marketing.

"(g) All existing or future documents relating to original laboratory research concerning the health or safety of tobacco products including all documents withheld from production in any actions on the grounds of attorney-client privilege, all documents determined to be outside of the scope of the privilege or dependency, safer or less hazardous cigarettes, and tobacco use and marketing.
individual will challenge the claim of privilege, that the entities described in subsection (b) (based on the de novo review of such documents by such entities) claim are protected from disclosure under the attorney-client privilege;

(7) all existing or future documents relating to studies of the smoking habits of minors or documents referring to any relationship between advertising and promotion and under age smoking; and

(8) all other documents determined appropriate by regulations promulgated by the Secretary.

"(e) Dispute Resolution Panel.—

(1) Establishment.—The Judicial Conference of the United States shall establish a Tobacco Documents Dispute Resolution Panel, to be composed of 3 Federal judges to be appointed by the Conference, to resolve all disputes involving claims of attorney-client, work product, or trade secrets privilege with respect to documents required to be deposited into the Depository under subsection (d) that may be brought by Federal, State, or local governmental officials or the public or asserted in any action by a manufacturer.

(2) Basis for Determinations.—The determination established under paragraph (1) shall be based on—

(A) the American Bar Association/American Law Institute Model Rules or the principles promulgated with respect to attorney-client or work product privilege; and

(B) the Uniform Trade Secrets Act with respect to trade secrecy.

(3) Decision.—Any decision of the Panel established under paragraph (1) shall be final and binding upon all Federal and State courts.

(4) Assessing of Fees.—As part of a determination under this subsection, the Panel established under paragraph (1) shall determine whether a claimant of the privilege acted in good faith and had a factual and legal basis for asserting the claim. If the Panel determines that the claimant did not act in good faith, the Panel may assess costs against the claimant, including a reasonable attorneys’ fee, and may apply such other sanctions as the Panel determines appropriate.

(5) Accelerated Review.—The Panel established under paragraph (1) shall establish procedures for the accelerated review of challenges to a claim of privilege. Such procedures may encompasses the appointment of a single judge who may hold a single hearing and has the authority to conduct a de novo review of the documents in question.

(6) Special Masters.—The Panel established under paragraph (1) may appoint Special Masters in accordance with Rule 39 of the Federal Rules of Civil Procedure. The cost relating to any Special Master shall be assessed to the manufacturers as part of a fee process to be established under regulations promulgated by the Secretary.

(f) Other Provisions.—

(1) No Waiver of Privilege.—Compliance with this section by the entities described in subsection (b) shall not be deemed to be a waiver on behalf of such entities of any applicable privilege or protection.

(2) Avoidance of Destruction.—In establishing the Depository, procedures shall be implemented to protect against the destruction of documents.

(3) Denied Produced.—Any documents contained in the Depository shall be deemed to have been produced for purposes of any tobacco-related litigation in the United States.

(g) Documents.—For purposes of this section, documents shall include all computer printouts, paper documents that may be printed using data that is contained in computer files.

"(b) Rule of Construction.—Nothing in this section shall be construed to interfere in any way with the discovery rights of courts or parties in civil or criminal actions involving the production of any of such documents, or with the right of access to such documents under any other provision of law.

"SEC. 2843. TOBACCO OVERSIGHT AND COMPLIANCE

(a) Establishment.—

(1) IN GENERAL.—There is established an independent board to be known as the Tobacco Oversight and Compliance Board (referred to in this section as the ‘‘Board’’).

(2) Membership.—The Board shall consist of 5 members with expertise relating to tobacco, health, and public health. The members, including the chairperson, shall be appointed by the Secretary. The initial members of the Board shall be appointed by the Secretary within 30 days of the date of the enactment of this title. A member of the Board may be removed by the Secretary only for neglect of duty or malfeasance in office.

(3) Terms.—The term of office of a member of the Board shall be 6 years, except that the members first appointed shall have terms of 2, 3, 4, and 5 years, respectively, as determined by the Secretary.

(4) General Duty.—The Board shall oversee and monitor the operations of the tobacco industry to determine whether tobacco product manufacturers are in compliance with this Act.

(5) Disclosure of Tobacco Industry Documents.—

(1) Submission by Manufacturers.—Not later than 3 months after the date of enactment of this title, and otherwise as required by the Board, each tobacco manufacturer shall submit to the Board a copy of all documents in the manufacturer’s possession—

(A) relating to—

(i) any health effects, including addiction, caused by the use of tobacco products;

(ii) the manipulation or control of nicotine in tobacco products; or

(iii) the sale or marketing of tobacco products to children;

(B) produced, or ordered to be produced, by the tobacco manufacturer in the case entitled A.T. Still Foundation v. R.J. Reynolds Tobacco Co., 95 Civ. Action No. C-94-8566 (Ramsey County, Minn.) including attorney-client and other documents produced or ordered to be produced for that case; and

(C) Disclosure by the Board.—Not later than 6 months after the date of the enactment of this title, and otherwise as required by the Board, within a reasonable period of time, each member of the Board shall, subject to paragraph (3), make available to the public the documents submitted under paragraph (1).

(2) Protection of Trade Secrets.—The Board, members of the Board, and staff of the Board shall not disclose information that is entitled to protection as a trade secret unless the Board determines that disclosure of such information is necessary to protect the public health. This paragraph shall not be construed to prevent the disclosure of relevant information to other Federal agencies or to committees of the Congress.

(3) Investigation and Annual Reports.—The Board shall investigate all matters relating to the tobacco industry and public health and report annually on the results of the investigation to Congress. Each annual report to Congress shall, at a minimum, disclose—

(1) whether tobacco manufacturers are in compliance with the provisions of this Act;

(2) any efforts by tobacco manufacturers to induce, promote, or contract to sale or market tobacco products to children; and

(3) any efforts by tobacco manufacturers to mislead the public or any Federal, State, or local elected body, agency, or court about the adverse health effects or addiction caused by the use of tobacco products;

(4) any efforts by tobacco manufacturers to sell or market tobacco products to children; and

(5) any efforts by tobacco manufacturers to circumvent, repeal, modify, impede the implementation of, or prevent the adoption of any Federal, State, or local law or regulations intended to reduce the adverse health effects or addiction caused by the use of tobacco products.

(b) Authority.—The Board, any member of the Board, or staff of the Board may hold hearings, administer oaths, issue subpoenas, require the testimony or deposition of witnesses, the production of documents, and the answering of interrogatories, or, upon presentation of the proper credentials, enter and inspect facilities.

(1) Enforcement.—Notwithstanding any other provision of law, tobacco manufacturers shall provide any testimony, deposition, documents, or other information, answer any interrogatories, and allow any entry or inspection required for such action, except to the extent that a constitutional privilege protects the tobacco manufacturer from complying with such requirement.

(2) Administration.—The Board shall hire such staff, and pay and benefits as the Secretary deems necessary, except that the salary of the Chairperson shall not be less than that provided for under level III of the Executive Schedule in section 5314 of title 5, United States Code.

"SEC. 2844. PRESERVATION OF STATE AND LOCAL AUTHORITY.

"Except as otherwise provided for in this title or the Healthy and Smoke Free Children Act (or an amendment made by such Act), nothing in this title or such Act shall be construed as prohibiting a State from imposing requirements, prohibitions, penalties, or other measures to further the purposes of this title or Act that are in addition to the requirements, prohibitions, penalties, or other measures required by this title or Act. To the extent that the provisions of this title or Act are not consistent with the provisions of the Healthy and Smoke Free Children Act, such provisions of this title or Act may apply to the extent that such provisions are consistent with such Act.

"SEC. 2845. REGULATIONS.

"The Secretary may promulgate regulations to enforce the provisions of this title, or to modify, alter, or expand the requirements and protections provided for in this title if the Secretary determines that such modifications, alterations, or expansion is necessary.

TITLE II—FDA JURISDICTION OVER TOBACCO PRODUCTS

Subtitle A—Amendments to the Federal Food, Drug and Cosmetic Act

SEC. 201. REFERENCE.

Whenever in this subtitle an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision of this Act, the reference shall be considered to be made to a section or other provision of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.).

SEC. 202. STATEMENT OF GENERAL AUTHORITY.

"The Secretary of Health and Human Services, acting through the Food and Drug Administration, shall have the authority under..."
the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321 et seq.) (above and beyond the existing authority of the Secretary to regulate tobacco products as of the date of enactment, or (its) packaging and labeling, and to regulate the manufacture, labeling, sale, distribution, and advertising of tobacco products.

SEC. 203. TREATMENT OF TOBACCO PRODUCTS AND DEVICES.

(a) Definitions.—

(1) Drug.—Section 201(g)(1) (21 U.S.C. 321(g)(1)) is amended by striking ""; and (D) and inserting ""(including nicotine in tobacco products); and (D)"".

(2) Devices.—Section 201(h) (21 U.S.C. 321(h)) is amended—

(A) by striking paragraph (3), by inserting before the comma the following: ""(including tobacco products containing nicotine); and (B) by adding at the end following: ""For purposes of this Act a tobacco product shall be classified as a class II device."".

(3) Other Definitions.—Section 201 (21 U.S.C. 321) is amended by adding at the end thereof the following new paragraphs:

""(1) The term ‘tobacco product’ means cigarettes, cigars, brown tobacco, little cigar, cheroot, and smokeless tobacco, and roll-your-own tobacco.

(2) The term ‘cigarette’ means any product which contains nicotine, is intended to be smoked under ordinary conditions of use, and consists of—

(A) any roll of tobacco wrapped in paper or in any substance not containing tobacco; and

(B) any roll of tobacco wrapped in any substance containing tobacco which, because of its appearance, the type of tobacco used in the (its) packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigarette described in subparagraph (A).

(3) The term ‘cigar’ means any product that consists of loose tobacco that, because of its appearance, the type of tobacco used in the (its) packaging and labeling, is likely to be offered to, or purchased by, consumers as a cigar described in subparagraph (A).

(4) The term ‘smokeless tobacco’ means any product that consists of cut, ground, powdered, or leaf tobacco that contains nicotine and is intended to be smoked under ordinary conditions of use, of certain of the tests of the tobacco product and then readded in the substance’s original or modified form.

(b) Misbranding.—Section 502(q) (21 U.S.C. 352(q)) is amended—

(1) by striking "or (2)" and inserting "(2)"; and

(2) by inserting the following after the period:

or (3) in the case of a tobacco product, it is sold, distributed, advertised, labeled, or used in violation of this Act or regulations prescribed under this Act.

(c) Regulatory Authority.—Section 509(g)(1) (21 U.S.C. 359(g)(1)) is amended by inserting "(including any tobacco products)" after "products" in the first place such term appears.

(d) Class II Devices.—Section 513(a)(1)(B) (21 U.S.C. 360c(a)(1)(B)) is amended—

(1) by striking "A device" and inserting "(1) A device"; and

(2) by adding at the end following:

To tobacco products shall be categorized as Class II devices.

(ii) The sale of tobacco products to adults shall include provisions to reduce the overall health risks to the public, including the reduction of risk to consumers harmed by the reduction of harm which will result from those who continue to use the product, but less often and from those who stop or do not start smoking tobacco products. Such scheme shall include—

(A) shall, where necessary to provide a re-duction in the overall health risks to the public, include—

(provisions regarding the construction, components, constituents, ingredients, and properties of the tobacco product device, including the reduction or elimination of nicotine and the other components, ingredients, and constituents of the tobacco product and its components based upon the best available technology;

(II) provisions for the testing of the tobacco product device (on a sample basis or, if necessary, on an individual basis); and

(III) provisions for the measurement of the performance characteristics of the tobacco product device;

(IV) provisions requiring that the results of each or of certain of the tests of the tobacco product device required to be made under subclause (II) show that the tobacco product device is in conformity with the portion of the standard for which the test or tests were required; and

(III) shall, where appropriate, require the use and prescribe the form and content of labeling for use of the tobacco product device.

(2) The Secretary shall provide for the periodic evaluation of a performance standard established under this paragraph to determine if such standards should be changed to reflect new medical, scientific, or other technological data.

(c) In carrying out this paragraph, the Secretary shall, to the maximum extent practicable—

(i) use personnel, facilities, and other technical support available in other Federal agencies;

(ii) consult with the Scientific Advisory Committee established under section 905 and other Federal agencies, standard-setting bodies and other nationally or internationally recognized standard-setting entities; and

(iii) invite appropriate participation, through joint or other conferences, workshops, or other means, by informed persons representative of scientific, professional, industry, or consumer organizations who in the judgment of the Secretary can make a significant contribution.

(f) Restricted Devices.—Section 520(e) (21 U.S.C. 359(e)) is amended by adding at the end the following:

(3) A tobacco product is a restricted device.

(g) Regulations.—Section 701(a) (21 U.S.C. 371(a)) is amended by inserting before the period the following: "", including the authority to regulate the manufacture, sale, distribution, advertising, and marketing of tobacco products"".

SEC. 204. GENERAL HEALTH AND SAFETY REGULATIONS OF TOBACCO PRODUCTS.

The Act (21 U.S.C. 384 et seq.) is amended—

(1) by redesigning chapter IX as chapter X;

(2) by redesigning sections 901, 902, 903, 904, 905, 906, and 907 as sections 1001, 1002, 1003, 1004, and 1005, respectively; and

(3) by adding after chapter VIII the following new chapter:

""CHAPTER IX—TOBACCO PRODUCTS"

SEC. 901. DEFINITIONS.

""For purposes of this chapter and in addition to the definitions contained in section 201, the definitions under section 2801 of the Public Health Service Act shall apply.

SEC. 902. PURPOSE.

""It is the purpose of this chapter to impose a regulatory scheme applicable to the development and manufacturing of tobacco products. Such scheme shall include—

(A) the immediate and annual reporting, in accordance with section 909(a), of all ingredients contained in such products;

(B) the performance, in accordance with section 909(b), of safety assessments with respect to ingredients contained in such products; and

(C) the adoption of standards to reduce the level of certain constituents contained in such products, including nicotine."
"SEC. 903. PROMULGATION OF REGULATIONS."

"The Commissioner shall promulgate regulations governing the misbranding, adulteration, and dispensing of tobacco products that are covered by this chapter and the manner in which other products that are ingested into the body are regulated under this Act. Such regulations shall be promulgated not later than 1 year after the date of enactment of this chapter.

"SEC. 904. MINIMUM REQUIREMENTS."

"(a) MISBRANDING.—The regulations promulgated under section 903 shall at a minimum require that a tobacco product be deemed to be misbranded if the labeling of the package of such product is not in compliance with the provisions of this Act or of any other applicable provisions of this Act, or of section 910 (as applicable to the type of product involved) of the Public Health Service Act.

"(b) ADULTERATION.—The regulations promulgated under section 903 shall at a minimum require that a tobacco product be deemed to be adulterated if the Commissioner determines that any tobacco additive in such product, regardless of the amount of such tobacco additive, either by itself or in conjunction with other tobacco additive or ingredient is harmful under the intended conditions of use when used in a specified amount.

"SEC. 905. SCIENTIFIC ADVISORY COMMITTEE."

"(a) ESTABLISHMENT.—Not later than 1 year after the date of enactment of this chapter, the Secretary shall establish an advisory committee, to be known as the 'Scientific Advisory Committee', to assist the Secretary in establishing, amending, or revoking a performance standard under section 512(a)(3).

"(b) MEMBERSHIP.—The Secretary shall appoint as members of the Scientific Advisory Committee any individuals with expertise in the medical, scientific, or other technological data involving the manufacture and use of tobacco products, and of appropriately diversified professional backgrounds. The Secretary may not appoint to the Committee any individual who is in the regular full-time employ of the Federal Government. The Secretary shall designate 1 of the members of each advisory committee to serve as chairperson of the Committee.

"(b) COMPENSATION AND EXPENSES.—"

"(1) COMPENSATION.—Members of the Scientific Advisory Committee who are not officers or employees of the United States, while attending conferences or meetings of the Committee or otherwise serving at the request of the Secretary, shall be entitled to receive compensation at rates to be fixed by the Secretary, which rates may not exceed the daily equivalent of the rate of pay for level V of the Executive Schedule under section 5382 of title 5, United States Code, for each day (including traveltime) they are so engaged.

"(2) DUTIES.—While conducting the business of the Scientific Advisory Committee away from their homes or regular places of business, each member may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5 of the United States Code for persons in the Government service employed intermittently.

"(d) DUTIES.—The Scientific Advisory Committee shall—"

"(1) assist the Secretary in establishing, amending, and revoking performance standards under section 514(a)(3);

"(2) examine and determine the effects of the alteration of the nicotine yield levels in tobacco products of this chapter, and the manner in which such products are ingested into the body are regulated under this Act;

"(3) examine and determine whether there is a threshold level below which nicotine yields do not produce dependence on the tobacco product involved, and, if so, determine that level what is; and

"(4) review other safety, dependence or health consequences of tobacco products as determined appropriate by the Secretary.

"SEC. 906. REQUIREMENTS RELATING TO NICOTINE AND OTHER CONSTITUENTS."

"(a) GENERAL.—The Secretary may adopt a performance standard under section 514(a)(3) that requires the modification of a tobacco product in a manner that involves—"

"(1) the reduction or elimination of nicotine yields of the product; or

"(2) the reduction or elimination of other constituents or harmful components of the product.

"(b) TOBACCO CONSTITUENTS.—The Secretary shall promulgate regulations for the testing, reporting and disclosure of tobacco smoke constituents that the Secretary determines the public should be informed of to protect public health, including tar, nicotine, and carbon monoxide. Such regulations may require label and advertising disclosures relating to tar and nicotine.

"(c) LIMITATION ON TAR.—Not more than 3 years after the date of enactment of this chapter, the Secretary shall promulgate regulations that limit the amount of tar in a cigarette to no more than 12 milligrams. Nothing in the preceding sentence shall be construed as limiting the authority of the Secretary to promulgate regulations further limiting the amount of tar that may be contained in a cigarette.

"SEC. 907. REDUCED RISK PRODUCTS.

"(a) MISBRANDING.—Except as provided in subsection (b), the regulations promulgated in accordance with section 904(a) shall require that a tobacco product be deemed to be misbranded if the labeling of the package of the product, or the claims of the manufacturer in connection with the product, can reasonably be seen as stating or implying that the product presents a reduced health risk as compared to other similar products.

"(b) EXCEPTION.—"

"(1) IN GENERAL.—Subsection (a) shall not apply to the labeling of a tobacco product, or the claims of the manufacturer in connection with the product, if—"

"(A) the manufacturer, based on the best available scientific evidence, demonstrates to the Commissioner that the product significantly reduces the health risk of the user as compared to other similar tobacco products; and

"(B) the Commissioner approves the specific claims that will be made a part of the labeling of the product, or the specific claims of the manufacturer in connection with the product.

"(2) REDUCTION IN HARM.—The Commissioner shall promulgate regulations to permit the inclusion of scientifically-based specific health claims on the labeling of a tobacco product, or the making of such claims by the manufacturer in connection with the product, where the Commissioner determines that the inclusion or making of such claims would reduce harm to the public and otherwise promote public health.

"(c) DEVELOPMENT OF REduced RISK PRODuct TECHNOLOGY.—"

"(1) NOTIFICATION OF COMMISSIONER.—The manufacturer of a tobacco product shall provide written notice to the Commissioner upon the development or acquisition by the manufacturer of technology that would reduce the risk of such products to the health of the user.

"(2) CONFIDENTIALITY.—The Commissioner shall provide a manufacturer with appropriate confidentiality protections with respect to technology that is the subject of a notification under paragraph (1) that contains evidence that the technology involved is in the early developmental stages.

"(A) IN GENERAL.—With respect to any technology developed or acquired under paragraph (1), the manufacturer shall—"

"(i) maintain such technology as the manufacturer of its tobacco products; or

"(ii) allow the use of such technology (for a reasonable fee) by other manufacturers of tobacco products to which this chapter applies.

"(B) FEES.—The Commissioner shall promulgate regulations to provide for the payment of a commercially reasonable fee by each manufacturer that uses the technology described under subparagraph (A) to the manufacturer that submitted the notice under paragraph (1) for such technology. Such regulations shall contain procedures for the resolution of fee disputes between manufacturers under this subparagraph.

"(d) REQUIREMENT OF MARKETING.

"(1) PURPOSE.—It is the purpose of this subsection to provide for a mechanism to ensure that tobacco products that are designed to be less hazardous to the health of users are developed, tested, and made available to consumers.

"(2) DETERMINATION.—Upon a determination by the Commissioner that the manufacturer of a tobacco product that is hazardous to the health of users is technologically feasible, the Commissioner may, in accordance with this subsection, require that certain manufacturers of such products manufacture and market such less hazardous products.

"(e) MANUFACTURER.—"

"(A) REQUIREMENT.—Except as provided in subparagraph (B), the requirement under paragraph (2) shall apply to any manufacturer that provides a notification to the Commissioner under subsection (c)(1) concerning the technology that is the subject of the determination of the Commissioner.

"(B) EXCEPTION.—The requirement under subparagraph (A) shall not apply to a manufacturer if—"

"(i) the manufacturer elects not to manufacture such products and provides notice to the Commissioner of such election; and

"(ii) the manufacturer agrees to provide the technology involved, for a commercially reasonable fee, to other manufacturers of tobacco products that enter into agreements to use such technology to manufacture and market tobacco products that are less hazardous to the health of users.

"SEC. 908. GOOD MANUFACTURING PRACTICE STANDARDS."

"(a) AUTHORITY.—"

"(1) IN GENERAL.—The Secretary may, in accordance with paragraph (2), prescribe regulations requiring that the methods used in, and the facilities and controls used for, the manufacture, pre-production design validation (including a process to assess the performance of a tobacco product), packing, and storage of tobacco product conform to current good manufacturing practice, as prescribed in such regulations, to ensure that such products will be in compliance with this chapter.

"(b) REQUIREMENTS PRIOR TO REGULATIONS.—Prior to the Secretary promulgating any regulation under paragraph (1) the Secretary shall—"

"(A) consult the Scientific Advisory Committee established under section 905 an opportunity (with a reasonable time period) to submit recommendations with respect to the requirements proposed by the Committee; and

"(B) afford an opportunity for an oral hearing.
"(b) Minimum Requirements.—The regulations promulgated under subsection (a) shall at a minimum require—

"(1) the implementation of a quality control program by the manufacturer of a tobacco product;

"(2) a process for the inspection, in accordance with this Act, of tobacco product material prior to packaging of such product;

"(3) procedures for the proper handling and storage of the packaged tobacco product;

"(4) after consultation with the Administrator of the Environmental Protection Agency, the development and adherence to applicable tolerances with respect to pesticide chemical residues in or on commodities manufactured in manufacture of the finished tobacco product;

"(5) the inspection of facilities by officials of the Food and Drug Administration as otherwise provided for in this Act; and

"(6) record keeping and the reporting of certain information.

"(c) Petitions for Exemptions and Variances.—

"(1) in General.—Any person subject to any requirement prescribed by regulations under subsection (a) may petition the Secretary for an exemption or variance from such requirement. Such a petition shall be submitted to the Secretary in such form and manner as the Secretary shall prescribe and shall—

"(A) in the case of a petition for an exemption from a requirement, set forth the basis for the petitioner's determination that compliance with the requirement is not required to ensure that the device is in compliance with this chapter;

"(B) in the case of a petition for a variance from a requirement, set forth the methods proposed to be used in, and the facilities and controls proposed to be used for, the manufacture, packing, and storage of the tobacco product to be granted the variance under the petition as may be necessary to ensure that the product will comply with this chapter.

"(2) Requirements.—The Secretary, after considering a petition submitted to the Secretary under paragraph (1), may grant the petition or deny the petition, in whole or in part, if the Secretary determines that—

"(A) it is in the public interest to grant the petition;

"(B) the method proposed by the petitioner is in compliance with this chapter;

"(C) the methods proposed by the petitioner are subject to such conditions and controls as the Secretary may establish.

"(d) Agricultural Producers.—The Secretary may promulgate any rule or regulation under this chapter that has the effect of placing regulatory burdens on tobacco producers (as such term is used for purposes of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 et seq.)) and the Agricultural Act of 1949 (7 U.S.C. 1441 et seq.) in excess of the regulatory burden generally placed on other agricultural commodity producers.

"SEC. 909. Disclosure and Reporting of Non-Sugar Ingredients and Constituents.

"(a) Disclosure of All Ingredients.—

"(1) Immediate and Annual Disclosure. Not later than 30 days after the date of enactment of this chapter, and annually thereafter, each manufacturer of a tobacco product shall submit to the Secretary an ingredient list for the tobacco product that contains the information described in paragraph (2).

"(2) Requirements.—The list described in paragraph (1) with respect to each brand of tobacco product of a manufacturer, include

"(A) a list of all ingredients, constituents, substances, and compounds that are added to the tobacco (and the paper or filter of the product if applicable) in the manufacture of the tobacco product, for each brand of tobacco product manufactured by the petitioner. The list shall—

"(i) for each gram of the product, measure in milligrams of nicotine;

"(ii) with respect to cigarettes a description of—

"(I) the filter ventilation percentage (the level of air dilution in the cigarette as provided by the ventilation holes in the filter), described as a percentage;

"(III) the nicotine delivery level under average smoking conditions reported in milligrams of nicotine per cigarette;

"(IV) the pH level of the smoke of the cigarette; and

"(V) the moisture content of the tobacco;

"(B) a description of the quantity of the ingredients, constituents, substances, and compounds that are listed under subparagraph (A) with respect to each brand of tobacco product;

"(C) a description of the nicotine content of the product, measured in milligrams of nicotine;

"(D) with respect to cigarettes a description of—

"(i) the filter ventilation percentage (the level of air dilution in the cigarette as provided by the ventilation holes in the filter), described as a percentage;

"(ii) the pH level of the smoke of the cigarette;

"(iii) the nicotine delivery level under average smoking conditions reported in milligrams of nicotine per cigarette;

"(E) with respect to smokeless tobacco products a description of—

"(i) the pH level of the tobacco;

"(ii) the moisture content of the tobacco expressed as a percentage of the weight of the tobacco; and

"(iii) the nicotine content—

"(I) for each category of tobacco product, measured in milligrams of nicotine;

"(II) expressed as a percentage of the dry weight of the tobacco; and

"(III) with respect to unirradiated (free) nicotine, expressed as a percentage per gram of the product and expressed in milligrams per gram of the product; and

"(F) a description of the information determined appropriate by the Secretary.

"(b) Safety Assessments.—

"(1) Application to New Ingredients.—

"(A) In General.—Not later than 12 months after the date of enactment of this chapter, the Secretary shall promulgate regulations to prohibit the use of any ingredient, constituent, substance, or compound in the tobacco product of a manufacturer—

"(i) that was not approved for use by the Secretary;

"(ii) that the Secretary has not been approved for use by the Secretary;

"(iii) that is a new ingredient that is not otherwise required under this section; and

"(iv) that is harmful to the health of users of tobacco products.

"(B) Result in a finding that there is a reasonable certainty in the minds of competent scientists that the ingredient, constituent, substance, or compound is not harmful in the quantities used under the intended conditions of use.

"(c) Prohibition.—

"(1) Regulations.—Not later than 12 months after the date of enactment of this chapter, the Secretary may—

"(A) ban or restrict the use of any ingredient, constituent, substance, or compound that has been approved for use by the Secretary;

"(B) ban or restrict the use of any ingredient, constituent, substance, or compound that was the subject of the assessment under section 908; and

"(C) ban or restrict the use of any ingredient, constituent, substance, or compound that has been banned by the Secretary.

"(2) Review of Assessments.—

"(A) General Review.—Not later than 180 days after the receipt of a safety assessment under subsection (b), the Secretary shall review the findings contained in such assessment and approve or disapprove of the safety of the ingredient, constituent, substance, or compound that was the subject of the assessment under section 908.

"(B) Inaction by Secretary.—If the Secretary fails to act with respect to an assessment of an existing ingredient, constituent, substance, or additive during the period referred to in subparagraph (A), the manufacturer of the tobacco product involved may continue to use the ingredient, constituents, substance, or compound involved until such time as the Secretary makes a determination with respect to the assessment.

"(C) Disclaimers of Ingredients to the Public.—

"(1) Initial Disclosure.—The regulations promulgated in accordance with section 909 shall contain a notice that a tobacco product be deemed to be misbranded if the labeling of the package of such product...
does not disclose all ingredients, constituents, substances, or compounds contained in the product in accordance with regulations promulgated by the Secretary. 

"(2) PROCEDURES FOR CONFIDENTIAL INFORMATION.—The Secretary shall develop procedures to maintain the confidentiality of information that is treated as a trade secret under a determination under paragraph (2). Such procedures shall include 

"(A) a requirement that such information be maintained in a secure facility; and 

"(B) a requirement that only the Secretary, or the authorized agents of the Secretary, will have access to the information and shall be instructed to maintain the confidentiality of such information.

"(3)ה_PROCEDURES FOR CONFIDENTIAL INFORMATION.—The Secretary shall develop procedures to maintain the confidentiality of information that is treated as a trade secret under a determination under paragraph (2). Such procedures shall include 

"(A) a requirement that such information be maintained in a secure facility; and 

"(B) a requirement that only the Secretary, or the authorized agents of the Secretary, will have access to the information and shall be instructed to maintain the confidentiality of such information.

"(4) HEALTH DISCLOSURE.—Notwithstanding a determination under paragraph (2), the Secretary may require that any ingredient, constituents, substance, or compound contained in the product that is determined to be exempt from disclosure as a trade secret be disclosed if the Secretary determines that such ingredient, constituents, substance, or compound is not safe as provided for in subsection (d). 

"(5) OTHER DISCLOSURE.—Any information that the Secretary determines is not subject to disclosure under this paragraph, shall be exempt from disclosure pursuant to subsection (a) of section 552 of title 5, United States Code, by reason of subsection (b) of such section, and shall be considered confidential and shall not be disclosed, except that such information may be disclosed to other officers or employees as provided in paragraph (3)(B) or (C), or relevant in any proceeding under this Act.

"SEC. 910. TOBACCO PRODUCT WARNINGS, LABELING AND PACKAGING.

(a) CIGARETTE WARNINGS.—

(1) IN GENERAL.—

(A) PACKAGING.—It shall be unlawful for any person to manufacture, package, or import cigarettes for sale or distribution within the United States any cigarette unless the United States any cigarette unless the 

"(B) TYPE AND COLOR.—With respect to each label statement required by subparagraph (A) of paragraph (1) shall appear in capital letters and the label statement shall be printed in 17 point type with adjustments as determined appropriate by the Secretary to reflect the length of the required statement. All the letters in the label shall appear in conspicuous and legible type, in contrast by typeface, layout, or color with all other printed material on the package, and be printed in an alternating black-on-white and white-on-black format as determined appropriate by the Secretary.

(2) REQUIREMENTS FOR LABELING.—

(A) LOCATION.—Each label statement required by subparagraph (A) of paragraph (1) shall be located on the upper portion of the front panel of the cigarette package (or carton) and occupy not less than 25 percent of such front panel.

(B) TYPE AND COLOR.—With respect to each label statement required by subparagraph (A) of paragraph (1) shall appear in capital letters and the label statement shall be printed in 17 point type with adjustments as determined appropriate by the Secretary to reflect the length of the required statement. All the letters in the label shall appear in conspicuous and legible type, in contrast by typeface, layout, or color with all other printed material on the package, and be printed in an alternating black-on-white and white-on-black format as determined appropriate by the Secretary.

(C) EXCEPTION.—The provisions of sub-paragraph (A) shall not apply in the case of a flip-top cigarette carton (or sim- ilar combination) in use before June 1, 1997 where the front portion of the flip-top does not comprise at least 25 percent of the front panel. In the case of a such a package, the label statement required by subparagraph (A) of paragraph (1) shall occupy the entire front portion of the flip top.

(D) REQUIREMENTS FOR ADVERTISING.—

(A) LOCATION.—Each label statement re- quired by subparagraph (B) of paragraph (1) shall occupy not less than 25 percent of the area of the advertisement involved.

(B) TYPE AND COLOR.—

(i) TYPE.—With respect to each label statement required by subparagraph (B) of paragraph (1) shall appear in capital letters and the label statement shall be printed in the following types: 

(I) With respect to whole page advertise- ments on broadsheet newspaper—22.5 point type. 

(ii) APPLICATION OF OTHER ROTATION REQUIREMENTS.—

(1) IN GENERAL.—A manufacturer or im- porter of cigarettes may apply to the Sec- retary to have the label rotation described in clause (i) apply with respect to a brand style of cigarettes manufactured or imported by such manufacturer or importer.

(ii) more than 1⁄3 of the cigarettes manu- factured or imported by such manufacturer or importer for sale in the United States are packaged into brand styles which meet the requirements for a label rotation in accordance with this section.

(iii) PLAN.—An applicant under clause (i) shall include in its application a plan under which the label rotation described in sub- paragraph (A) of paragraph (i) will be applied by the applicant manufacturer or im- porter in accordance with the label rotation described in clause (ii).

(iv) PLAN.—An applicant under clause (i) shall include in its application a plan under which the label rotation described in sub- paragraph (A) of paragraph (i) will be applied by the applicant manufacturer or im- porter in accordance with the label rotation described in clause (ii).

(v) PLAN.—An applicant under clause (i) shall include in its application a plan under which the label rotation described in sub- paragraph (A) of paragraph (i) will be applied by the applicant manufacturer or im- porter in accordance with the label rotation described in clause (ii).

(2) NUMBER OF TIMES.—The Secretary shall approve a plan under which a number of times within the 12-month period beginning on the date of the approval by the Secretary.

(3) PLAN.—An applicant under clause (i) shall include in its application a plan under which the label rotation described in sub- paragraph (A) of paragraph (i) will be applied by the applicant manufacturer or im- porter in accordance with the label rotation described in clause (ii).

(4) PLAN.—An applicant under clause (i) shall include in its application a plan under which the label rotation described in sub- paragraph (A) of paragraph (i) will be applied by the applicant manufacturer or im- porter in accordance with the label rotation described in clause (ii).

(5) PLAN.—An applicant under clause (i) shall include in its application a plan under which the label rotation described in sub- paragraph (A) of paragraph (i) will be applied by the applicant manufacturer or im- porter in accordance with the label rotation described in clause (ii).

"VI With respect to whole page magazine advertisements—31.5 point type.

"VII With respect to 28cm x 3 column ad- vertisements—22.5 point type.

"(3) WITH Respect TO 2 COLUMN ADVERTIS- MENTS—15 point type.

The Secretary may revise the required type sizes as the Secretary determines appropriate at any time to reflect the requirements of this section.
communications subject to the jurisdiction of the Federal Communications Commission.

"(b) SMOKLESS TOBACCO PRODUCTS.—

'(1) IN GENERAL.—

'(A) LOCATIONS.—It shall be unlawful for any person to manufacture, package, or import for sale or distribution within the United States any smokeless tobacco product that is subject to this section, the label statements required under subsection (a) of this section, the requirements of the Federal Communications Commission, and the requirements of the Federal Trade Commission, for any such package or advertising material that is subject to the requirements of the Federal Communications Commission, and the requirements of the Federal Trade Commission.

'(B) TYPE AND COLOR.—With respect to each such product, the term "smokeless tobacco" shall mean—

"(1) for export from the United States; or

"(2) for delivery to a vessel or aircraft, as such, as provided by any State or political subdivision of a State

"(C) DEFINITIONS.—In this section—

"(1) PUBLIC FACILITY.—

"(A) IN GENERAL.—The term "public facility" means any building regularly entered by 10 or more individuals at least 1 day per week, including any such building owned by or leased to a Federal, State, or local government entity. Such term shall not include any public facility in the United States; or

"(B) EXCLUSIONS.—The term "public facility" does not include a public facility provided for in this chapter if the Secretary determines that such modifications, adaptations, or expansion is necessary.

TITLE III—STANDARDS TO REDUCE IN-VOLUNTARY EXPOSURE TO TOBACCO SMOKE

SEC. 301. STANDARDS TO REDUCE IN-VOLUNTARY EXPOSURE TO TOBACCO SMOKE.

The Occupational Safety and Health Act of 1970 (29 U.S.C. 651 et seq.) is amended by adding at the end the following:

"SEC. 35. STANDARDS TO REDUCE IN-VOLUNTARY EXPOSURE TO TOBACCO SMOKE.

"(a) DEFINITIONS.—In this section—

"(1) 'Public facility'—

"(A) IN GENERAL.—The term 'public facility' means any building regularly entered by 10 or more individuals at least 1 day per week, including any such building owned by or leased to a Federal, State, or local government entity. Such term shall not include any public facility

"(B) EXCLUSIONS.—The term "public facility" does not include a public facility provided for in this chapter if the Secretary determines that such modifications, adaptations, or expansion is necessary.

"SEC. 911. STATEMENT OF INTENDED USE.

"(a) DEFINITIONS.—In this section—

"(1) 'Public facility'—

"(A) IN GENERAL.—The term "public facility" means any building regularly entered by 10 or more individuals at least 1 day per week, including any such building owned by or leased to a Federal, State, or local government entity. Such term shall not include any public facility

"(B) EXCLUSIONS.—The term "public facility" does not include a public facility provided for in this chapter if the Secretary determines that such modifications, adaptations, or expansion is necessary.
(10) QUOTA LESSEE.—The term “quota lessee” means—
(A) a producer that owns a farm that produced tobacco pursuant to a lease and transfer of the farm of all or part of a tobacco farm marketing quota or farm acreage allotment established under the Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 et seq.) for any of the 1994, 1995, or 1996 crop years; or
(B) a producer that rented land from a farm operator to produce tobacco under a tobacco farm marketing quota or farm acreage allotment established under the Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 et seq.) for any of the 1994, 1995, or 1996 crop years.

(11) QUOTA TENANT.—The term “quota tenant” means a producer that—
(A) is the principal producer, as determined by the Secretary, of tobacco on a farm where tobacco is produced pursuant to a tobacco farm marketing quota or farm acreage allotment established under the Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 et seq.) for any of the 1994, 1995, or 1996 crop years; and
(B) is not a quota holder or quota lessee.

(12) SECRETARY.—In subclauses A and C, the term “Secretary” means the Secretary of Agriculture.

(13) STATE.—The term “State” means each of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and any other territory or possession of the United States.

(14) TOBACCO.—The term “tobacco” means any kind of tobacco produced and marketed in the United States.

(15) TOBACCO-GROWING STATE.—The term “tobacco-growing State” means Georgia, Kentucky, North Carolina, South Carolina, Tennessee, or Virginia.

(16) TRANSITION PAYMENT.—The term “transition payment” means a payment made to a producer under section 411, 412, or 413.

(17) UNITED STATES.—The term “United States”, when used in a geographical sense, means all of the States.

Subtitle A—Tobacco Quota Buyout Contracts and Producer Transition Payments

SEC. 411. QUOTA OWNER BUYOUT CONTRACTS.

(a) OFFER.—The Secretary shall offer to enter into a quota buyout contract with the quota owner on each farm to which a quota was assigned in 1997.

(b) TERMS.—

(1) RELINQUISHMENT OF QUOTA.—Under the terms of the contract, the owner shall agree, in exchange for a buyout payment, to permanently relinquish the quota on each eligible farm to which the quota was assigned at the time of the offer.

(2) ELIGIBILITY FOR TOBACCO PROGRAM BENEFITS.—Neither the farm, in its current or future ownership configuration, nor the contracting owner shall be eligible for any tobacco program benefits under the Agricultural Adjustment Act of 1938 (7 U.S.C. 1281 et seq.), or the Agricultural Act of 1949 (7 U.S.C. 1701 et seq.).

(c) PAYMENT CALCULATION.—The total amount of the buyout payment made to a quota owner shall be determined by multiplying—

(1) $4; by

(2) the average quantity of basic quota assigned to the farm during the period 1995 through 1997.

SEC. 412. PRODUCER TRANSITION PAYMENTS FOR QUOTA TOBACCO.

(a) OFFER.—The Secretary shall offer to producers of quota tobacco that do not own the quota, but were quota lessees or quota tenants in 1997, producer transition payments.

(b) TERMS.—Under the terms of the transition contract, the producer shall agree, in exchange for a buyout payment, to refrain from growing tobacco for which a quota program is in effect.
program is in effect.

frain from growing tobacco for which a quota

ation payment, the producer shall agree, in

erly carry out using amounts received

SEC. 413. PROVISIONS TRANSITION PAYMENTS FOR NON-QUOTA TOBACCO.

(a) OFFER.—The Secretary shall offer to

products of nonquota tobacco a producer nonquota transition payment contract.

(b) TERMS.—Under the terms of the transition

payment, the producer shall agree, in

change for a payment, to permanently re-

rain in the tobacco for which a quota

program is in effect.

(c) PAYMENT CALCULATION.—The total

amount of the transition payment made to a

producer shall be determined by multi-

plying—

(1) $4; by

(2) the average annual quantity of nonquota tobacco marketed during the pe-

SEC. 414. ELEMENTS OF CONTRACTS.

(a) COMMENCEMENT.—To the maximum ex-

tent practicable, the Secretary shall com-

mence entering into contracts under this

subtitle not later than 90 days after the date of

enactment of this Act.

(b) DEADLINE.—The Secretary may not

enter into a contract under this subtitle after the date that is 3 years after the date of

enactment of this Act.

(c) BEGINNING DATE.—A contract under this

subtitle shall take effect and become binding

beginning in the tobacco marketing year fol-

lowing the year in which the contract is en-

terred into.

(d) TIME FOR PAYMENT.—A contract pay-

ment shall be made not later than the date that is 1 year after the end of the marketing year in

which the contract becomes binding, or at

any later time selected by the quota owner or

producer.

(e) PROHIBITION OF DOUBLE PAYMENTS.—In

no case shall a contract holder receive over-

lapping payments as a quota owner and as a

producer on the same tobacco.

Subtitle B—No Net Cost Tobacco Program

SEC. 421. BUDGET DEFICIT ASSESSMENT.

Section 106(g)(1) of the Agricultural Act of 1949 (7 U.S.C. 144S(g)(1)) is amended—

(1) by striking “only for each of the 1994

through 1997” and inserting “for the

1994 and each subsequent crop”; and

(2) by striking “equal to—” and all that

follows and inserting “equal to 1 or more

amounts determined by the Secretary that

are sufficient to cover the costs of the ad-

ministration of the tobacco quota and price

support programs administered by the Sec-

retary.”.

Subtitle C—Tobacco Community

Empowerment Block Grants

SEC. 431. TOBACCO COMMUNITY EMPOWERMENT BLOCK GRANTS.

(a) AUTHORITY.—The Secretary shall make

grants to tobacco States in accordance with

this section to enable the States to—

(1) empower active tobacco producers and

tobacco product manufacturing workers by

providing economic alternatives to tobacco;

and

(2) carry out non-tobacco economic develop-

ment initiatives in tobacco communities.

(b) APPLICATION.—To be eligible to receive

payments under this section, a tobacco State

shall submit to the Secretary an applica-

tion at such time, in such manner, and

containing such information as the Sec-

retary may require, including—

(1) a description of the activities that the

State will carry out using amounts received

under the grant;

(2) a description of an appropriate State

agency to administer amounts received

under the grant; and

(3) a description of the steps to be taken to

ensure that the amounts received are dis-

tributed in accordance with subsection (e).

(c) AMOUNT OF GRANT.—

(1) IN GENERAL.—From the amounts avail-

able to carry out this section, the Secretary
shall allot to each tob-

acco State an amount that bears the same

ratio to the amounts available as the total

income of the State derived from the produc-

tion of tobacco and the manufacture of to-

bacoo products during the 1994 through 1996

marketing years (as determined under para-

graph (2)) bears to the total income of all to-

bacco States derived from the production of

tobacco and the manufacturing of tobacco

products during the 1994 through 1996 mar-

keting years.

(2) TOBACCO INCOME.—For the 1994 through

1996 marketing years, the Secretary shall de-

termine the amount of income derived from

the production of tobacco and the manufac-

ture of tobacco products in each tobacco State

and in all tobacco States.

(d) PAYMENTS.—

(1) IN GENERAL.—A tobacco State that has

an application approved by the Secretary

under subsection (b) shall be entitled to a

payment under this section in an amount

that is equal to its allotment under sub-

section (c).

(2) FORM OF PAYMENTS.—The Secretary

may make payments under this section to a

tobacco State in installments, in advance or by

way of reimbursement, with neces-

sary adjustments on account of overpay-

ments or underpayments, as the Secretary

may determine.

(3) REALLOTMENTS.—Any portion of the

allotment of a tobacco State under subsection

(c) that the Secretary determines will not be

used to carry out this section in accordance

with an approved State application required

under subsection (b), shall be reallocated by

the Secretary to other tobacco States in pro-

portion to the original allotments to the other

States.

(e) USE AND DISTRIBUTION OF FUNDS.—

(1) IN GENERAL.—Amounts received by a

tobacco State under this section shall be used to

carry out economic development activi-

ties, including—

(A) rural business enterprise activities de-

scribed in section 310B of the Consolidated
Farm and Rural De-

velopment Act (7 U.S.C.

1932);

(B) down payment loan assistance pro-

grams administered by the programs de-

scribed in section 310E of the Consolidated
Farm and Rural Development Act (7 U.S.C.

1935); and

(C) activities designed to help create pro-

ductive farm or off-farm employment in rural

areas to provide a more viable eco-

nomic base and enhance opportunities for

improved income levels, and standards, and con-

tributions by rural individuals to the eco-

nomic and social development of tobacco

communities;

(D) activities that expand existing infra-

structure, facilities, and services to cap-

italize on opportunities to diversify econo-

mies in tobacco communities and that sup-

port the development of new industries or

commercial ventures;

(E) activities by agricultural organizations

that provide assistance directly to active to-

bacco producers to assist in developing other

agricultural activities that supplement to-

bacoo-producing activities;

(F) initiatives designed to create or expand

locally-based processing and marketing operations in tobacco commu-

nities;

(G) technical assistance activities by per-

sons to support farmer-owned enterprises, or

agriculture-based rural development enter-

prises, of the type described in section 252 or

253 of the Trade Act of 1974 (19 U.S.C. 2292,

2343); and

(H) investments in community colleges

and trade schools to provide skills training

for active tobacco producers and tobacco

product manufacturing workers and ensure

that the off-farm sector remains vital and

robust.

(2) TOBACCO COUNTIES.—Assistance may be

provided by a tobacco State under this sec-

tion only to assist a county in the State that

is the beginning of the marketing year

in which the contract becomes binding, or at

least 4 percent of the amounts received

by a tobacco State under this section shall

be used to carry out technical assistance ac-

tivities described in paragraphs (1)(G) and

(b) TECHNICAL ASSISTANCE ACTIVITIES.

Not less than 4 percent of the amounts re-

ceived by a tobacco State under this section

shall be used to carry out technical assistance ac-

tivities described in paragraphs (1)(G) and

(b) TECHNICAL ASSISTANCE ACTIVITIES.

(C) TOBACCO COUNTIES.—To be eligible to

receive payments under this section, a to-

bacco State shall demonstrate to the Sec-

retary that funding was provided during the

1994 through 2001 fiscal years, for activi-

ties in each county in the State that has

been determined under paragraph (2) to have

been determined under paragraph (2) to have

an agricultural base that is composed of tob-

acco and the manufacturing of tobacco

products, in amounts that are at least equal to

the product obtained by multi-

plying—

(i) the ratio that the tobacco production

and tobacco product manufacturing income in

the county determined under paragraph

(2) bears to the total tobacco production and

tobacco product manufacturing income for

the State determined under subsection (c); by

(ii) 50 percent of the total amounts re-

ceived by the State under this section during the

1994 through 2001 fiscal years.

TITLE V—MISCELLANEOUS PROVISIONS

SEC. 501. SENSE OF THE SENATE.

It is the sense of the Senate that, in order to

provide funds to carry out this Act, Con-

gress should enact an increase in the excise
taxes on tobacco products of approximately

$1.50 per pack of cigarettes (and cor-

responding increases on taxes on other to-

bacco products) over a 3-year period, that in-

creases in such tax should be indexed to in-
flation, and that the payment of such tax

should not be considered to be an

ordinary and necessary expense in carrying

on a trade or business and should not be de-

ductible.

Mr. LAUTENBERG. Mr. President,

today I am joining Senators KENNEDY

and DURBIN in introducing the Healthy

Likewise, Senators KENNEDY and DUR-

BIN are cosponsoring legislation I in-

troduced last week, the Public Health

and Education Resource Act, S. 1343, or

PFAER. As we join forces behind com-

prehensive tobacco legislation to re-

duce smoking, especially among our

young people, and to enhance the pub-

lic health, we urge Senators of both

November 8, 1997
Mr. DURBIN. Mr. President, it's time for Congress to act. We have the legislative packages to get started. The message we are sending out today is clear: the goal of comprehensive tobacco legislation is to prevent smoking from becoming hooked on tobacco, not to get the tobacco companies off the hook.

Our legislation would raise the price of cigarettes by $1.50 per pack in order to reduce teen smoking and fund critical public health programs. It explicitly prohibits the industry from deducting the cost of increased excise taxes from its corporate tax payments. With the proceeds of the tax, states will receive back funds for public health for larger and more explicit warning health, education, and smoking cessation programs aimed at both children, teenagers, and adults. Further, our bill will fund a significant increase in medical research. To increase industry outreach to youth, we focus on the tobacco industry as the middleman in achieving public health goals. We have laid out an ambitious, but achievable, program for reducing smoking and death and illness. Congressional action on comprehensive tobacco legislation should live up to the standards we have established.

Beyond taking strong, preventive steps to reduce smoking domestically, we should also pursue legislation affecting tobacco companies' commercial activities overseas. If we don't, in the next few decades we will experience a worldwide health epidemic attributable to tobacco. Earlier this year, I introduced S. 1060, the Worldwide Tobacco Disclosure Act, to require warning labels on exported packages of cigarettes and to codify current trade policies that prevent government agencies from promoting tobacco sales overseas and from weakening public health measures undertaken by foreign governments.

I urge my colleagues on both sides of the aisle to join us on the public health side of this fight by endorsing our comprehensive tobacco legislation.

Mr. DURBIN. Mr. President, I am pleased to join Senators KENNEDY and LAUTENBERG in proposing sweeping new legislation that fills in many of the specifics relating to children and the public health that must be included in any future legislation related to the proposed tobacco settlement.

The tobacco companies have made billions of dollars addicting and exploiting our children. Now, they seek to protect themselves from existing and potential lawsuits. This legislation brings us back to the fundamental issues that must stay at the top of the public health agenda. Reducing the devastation and disease caused by tobacco should be our number one goal, not an afterthought.

This legislation is our effort to start filling in the blanks on any tobacco measure. It's time to stop speculating and start laying down markers we feel must be part of any comprehensive agreement.

Under this legislation, the tobacco tax would be raised $1.50 per pack of cigarettes. This kind of increase is a proven deterrent to underage smoking. Of the additional revenues that would be raised beyond what was proposed by the state attorneys general, one-half would be used to fund medical research into illnesses such as cancer, heart disease and diabetes. The other half would fund an expansion of the Head Start program, child care grants, and other child and family initiatives.

The legislation seeks to ensure a significant decline in underage smoking by establishing tough performance smoking reduction targets. The reduction targets—modeled on legislation I introduced earlier this year—set a goal of a 40 percent reduction in youth tobacco use in four years, 60 percent in 6 years, and 80 percent in 10 years. If the goal is not met, penalties of up to $1 a pack will be imposed on the sale of tobacco products manufactured by a company whose products are consumed by underage users, with steeper penalties for repeated failure to meet youth tobacco targets.

In addition, we are offering some new incentives for the tobacco companies to meet the targets. If a company fails to comply for three or more consecutive years, the company will be required to stop selling cigarettes in single packs—the size kids buy—and start selling them only in cartons, whose price might cause kids to reconsider their desire to buy cigarettes. If this step was not sufficient to bring a company into compliance, another year violating the performance standard would trigger a requirement that the product be sold using generic packaging without catchy logos.

As far as kids are concerned, it's time for the tobacco companies to put their profits on the line. Under our legislation, every new child who picks up a cigarette or pockets a can of spit tobacco will become an economic loss to a tobacco company. We must hold each company individually responsible for its sales to minors.

In addition to setting performance standards, the legislation provides for a national tobacco use reduction program which includes smoking cessation programs, media-based advertising about the dangers of tobacco use and aggressive public education.

The bill also compensates states for Medicaid expenditures resulting from tobacco-related illnesses; affirms the authority of the Food and Drug Administration (FDA) to regulate tobacco as a drug and delivery device; mandates stronger warning labels and ingredient disclosures; reduces exposure to secondhand smoke; prohibits tobacco companies from deducting any settlement liabilities as a business expense; and provides assistance for tobacco farmers.

I commend this legislation to my colleagues and urge them to support it.

ADDITIONAL COSPONSORS

S. 61

At the request of Mr. LOTT, the name of the Senator from Michigan [Mr.
ABRAHAM] was added as a cosponsor of S. 61, a bill to amend title 46, United States Code, to extend eligibility for veterans’ burial benefits, funeral benefits, and related benefits for veterans of certain service in the United States merchant marine during World War II.

At the request of Mr. D’AMATO, the name of the Senator from Rhode Island [Mr. CHAFEE] was added as a cosponsor of S. 318, a bill to amend the Truth in Lending Act to require automatic cancellation and notice of cancellation right with respect to private mortgage insurance which is required by a creditor as a condition for entering into a residential mortgage transaction, and for other purposes.

At the request of Mr. DURBIN, the name of the Senator from New Jersey [Mr. LAUTENBERG] was added as a cosponsor of S. 733, a bill to designate certain Federal lands in the State of Utah as wilderness, and for other purposes.

At the request of Mr. ABRAHAM, his name was added as a cosponsor of S. 788, a bill to authorize a new trade and investment policy for sub-Saharan Africa.

At the request of Mr. DODD, the name of the Senator from Louisiana [Ms. LANDRIEU] was added as a cosponsor of S. 1151, a bill to amend subpart 8 of part A of title IV of the Higher Education Act of 1965 to support the participation of low-income parents in postsecondary education through the provision of campus-based child care.

At the request of Mr. CHAFEE, the name of the Senator from South Dakota [Mr. JOHNSON] was added as a cosponsor of S. 1154, a bill to promote the adoption of children in foster care, and for other purposes.

At the request of Mr. DASCHLE, the name of the Senator from North Dakota [Mr. DORGAN] was added as a cosponsor of S. 1307, a bill to amend the Employee Retirement Income Security Act of 1974 with respect to rules governing litigation contesting termination or reduction of retiree health benefits and to extend continuation coverage to retirees and their dependents.

SENATE CONCURRENT RESOLUTION 49
At the request of Mr. ABRAHAM, his name was added as a cosponsor of Senate Concurrent Resolution 49, a concurrent resolution authorizing use of the Capitol Grounds for “America Recycles Day” national kick-off campaign.

SENATE CONCURRENT RESOLUTION 66—TO CORRECT THE ENROLLMENT OF S. 399
Mr. MCCAIN submitted the following concurrent resolution; which was considered and agreed to:

S. CON. RES. 66
Resolved by the Senate (the House of Representaties concurring), That in the enrollment of the bill (S. 399), to amend the Morris K. Udall Scholarship and Excellence in National Environmental and Native American Public Policy Act of 1992 to establish the United States Institute for Environmental Conflict Resolution to conduct environmental conflict training, and for other purposes, the Clerk of the Senate shall make the following correction in section 10 of the Morris K. Udall Scholarship and Excellence in National Environmental and Native American Public Policy Act of 1992 (as amended by section 6 of the bill): Strike subsection (c) and insert the following:

(c) Notification and Concurrence.—
(1) Notification.—An agency or instrumentality of the Federal Government shall notify the chairperson of the President's Council on Environmental Quality when using the Foundation or the Institute to provide the services described in subsection (a).
(2) Notification Description.—In a matter involving 2 or more agencies or instrumentalties of the Federal Government, notification under paragraph (1) shall include a written description of:
(A) the issues and parties involved;
(B) prior efforts, if any, undertaken by the agency to resolve or address the issue or issues;
(c) all Federal agencies or instrumentalities with a direct interest or involvement in the matter and a statement that all Federal agencies or instrumentalities agree to dispute resolution; and
(D) other relevant information.
(3) Concurrence.—(A) In general.—In a matter that involves 2 or more agencies or instrumentalities of the Federal Government (including branches or divisions of a single agency or instrumentality), the agencies or instrumentalities of the Federal Government shall obtain the concurrence of the chairperson of the President's Council on Environmental Quality before using the Foundation or Institute to provide the services described in subsection (a).
(B) Indication of Concurrence or Non-Concurrence.—The chairperson of the President's Council on Environmental Quality shall indicate concurrence or nonconcurrence under paragraph (A) not later than 20 days after receiving notice under paragraph (2).
(4) Exceptions.—(1) Legal Issues and Enforcement.—(A) In general.—A dispute or conflict involving agencies or instrumentalities of the Federal Government (including branches or divisions of a single agency or instrumentality) that concern purely legal issues or matters, interpretation or determination of law, or enforcement of law by 1 agency against another involving no issues not be submitted to the Foundation or Institute.
(B) Applicability.—Subparagraph (A) does not apply to a dispute or conflict concerning—
(i) agency implementation of a program or project;
(ii) a matter involving 2 or more agencies with parallel authority for obligation and coordination of the various government agencies; or
(iii) a nonlegal policy or decisionmaking matter that involves 2 or more agencies that are jointly operating a project.
(2) Other mandatory mechanisms or avenues.—A dispute or conflict involving agencies or instrumentalities of the Federal Government (including branches or divisions of a single agency or instrumentality) for which Congress by law has mandated another dispute resolution mechanism or avenue to address or resolve shall not be submitted to the Foundation or Institute.

SENATE RESOLUTION 148—DESIGNATING 1998 AS THE "ONATE CUARTECENTENARIO"
Mr. Domenici (for himself and Mr. Bingaman) submitted the following resolution: which was referred to the Committee on the Judiciary:

S. RES. 148
Whereas Don Juan de Oñate of Spain settled the first permanent colony of Europeans in the Southwest United States, known as San Gabriel de los Españoles, and located near modern day San Juan Pueblo and Española, New Mexico;
Whereas the first Spanish capital was established at San Juan de los Caballeros in July 1598, predating the English settlement of Jamestown in 1610 by 12 years;
Whereas Spanish exploration activity in the New World began in 1512 when Ponce de León explored the Florida peninsula, and included the explorations of Francisco Coronado throughout California to Kansas and across Arizona, New Mexico, Texas, and Oklahoma from 1540 to 1542;
Whereas the major Spanish settlement efforts were focused in the present day Florida and New Mexico, and 1998 marks the 400th anniversary of the first permanent settlement in New Mexico, referred to as the Centenecario;
Whereas Hispanic Americans are the fastest growing minority group in the United States and include descendants of the Spanish, Mexican, Cuban, Central American, and other Hispanic peoples;
Whereas the United States Census Bureau estimated in March 1997 that the Hispanic population of the United States was 22,800,000; the current estimate of the Hispanic population in the United States is 26,000,000, with projections of 30,000,000 by the year 2000, 40,000,000 by 2010, and almost 60,000,000 (or 20 percent of the total United States population) by the year 2030;
Whereas the number of Hispanic immigrants to the United States has increased from 1,500,000 in the 1960’s, to 2,400,000 in the 1970’s, to 4,500,000 in the 1980’s, and the number of Hispanic immigrants is expected to continue to rise;
Whereas two-thirds of all Hispanics in the United States today are of Mexican origin, and 70 percent of United States Hispanics live in 4 States: California, Texas, New York, and Florida;
Whereas New Mexico’s Hispanic population is the percent (or over 40 percent) of the total State population of 1,700,000) and represents the highest percentage of Hispanics in any State in the United States;
Whereas the United States has an enriched legacy of Hispanic influence in politics, government, business, and culture due to the early settlements and continuous influx of Hispanics into the United States;
Whereas the New Mexico State Government has funded a Hispanic Cultural Center in Albuquerque, New Mexico, with assistance from the Hispanic Foundation, and private contributions, to celebrate and preserve Hispanic culture including literature, performing arts, visual arts, music, culinary arts and heritage arts;
Whereas the Archbishop of Santa Fe, Michael Sheehan, is planning events throughout 1998 in New Mexico, including the opening of the "Onate Centenecario" and "El Pueblo de Conquista," a series of events to commemorate the Spanish settlement of Santo Domingo Pueblo to mark the meeting of the missionaries with the Pueblo peoples, an
Archdiocesan reconciliation service at the Santuario de Chimayo, and an Archdiocesan celebration of St. Francis of Assisi in Santa Fe.

Whereas in order to commemorate Don Juan de Oñate’s arrival, the city of Española will have a fiesta in July 1998, the city of Santa Fe is planning several special events, and the state-wide commemoration including planning a parade, a historical costume ball, and a pageant in Albuquerque; and

Whereas many other religious, educational, and social events are being planned around New Mexico to commemorate the 400th anniversary of the first permanent Spanish settlement in New Mexico; Now, therefore, be it

Resolved, That the Senate—

(1) designates the year 1998 as the “Oñate Cuartocentenario” to commemorate the 400th anniversary of the first permanent Spanish settlement in New Mexico; (2) recognizes the cultural and economic importance of the Spanish settlements throughout the Southwest Region of the United States; (3) expresses its support for the work of the Española Plaza Foundation, the Santa Fe and Albuquerque Cuartocentenario committees, the Archdiocese of Santa Fe, the New Mexico Cultural Center, the Board of Directors, the Hispanic Cultural Foundation Board of Trustees, as well as other interested groups that are preparing Oñate Cuartocentenario activities; (4) expresses its support for the events to be held in New Mexico and the Southwest in observance of the Oñate Cuartocentenario; (5) requests that the President issue a proclamation declaring 1998 as the “Oñate Cuartocentenario” to commemorate the 400th anniversary of the first permanent Spanish settlement in New Mexico; and (6) calls upon the people of the United States to support, promote, and participate in the Cuartocentenario activities being planned to commemorate the historic event of the early settling of the Southwest Region of the United States by the Spanish.

Mr. DOMENICI. Mr. President, next year, 1998, is the 400th anniversary of Don Juan de Oñate’s establishment of the first Hispanic colony in New Mexico. In July 1598, he and a few Spanish families settled near modern day San Juan Pueblo and the city of Española in northern New Mexico.

New Mexico will be the center of many exciting events throughout the year to commemorate this extremely important milestone. For hundreds of years ago Western civilization found itself ensconced in northern New Mexico, and since that time to the present it has been there and part of the culture and part of the value system in the state of New Mexico.

New Mexico will be the center of many exciting events throughout the year to commemorate this important historic milestone. New Mexicans are looking forward to fiestas, balls, parades, and other stimulating events to mark this historic occasion.

The Archbishop of Santa Fe will be opening a Jubilee year in January. Among other events, he will hold an encuento at Santo Domingo Pueblo to mark the meeting of the missionaries with the Pueblo Peoples.

The city of Española will have a fiesta in July to commemorate the actual arrival of the Spanish into the area. The Archdiocese of Santa Fe, Albuquerque, and other New Mexico towns and cities will be holding such special events as fiestas, historic reenactments, a State Fair Pageant, an historic Spanish costume ball, and parades. Seminars and lectures will abound.

State Fair pageant plans include a reenactment of De Vargas’ reentry into New Mexico, a review of the Pueblo Revolt and its ramifications, life under the American flag during the middle to late 1800’s, and a patriotic tribute to all Hispanics who have fought for the United States. This two and a half-hour spectacular will be performed twice before a large audience. It will also be televised.

This resolution also asks the President to issue a proclamation declaring 1998 is a year to commemorate the arrival of Hispanics and celebrate their growth in importance in our Nation’s culture and economy. An estimated 26 million Hispanics in the United States today make up about 11 percent of our population. In New Mexico, Hispanics make up 39 percent of the population, the largest percentage of any State.

Some projections indicate that by the year 2010, Hispanics will number about 49 million, and by the year 2050, an estimated 60 million Hispanics will be living in the United States, making up about one-fifth of the total population.

As Hispanic culture continues to grow as a major influence in the United States, the State of New Mexico could become a successful economic venture to attract tourism and to bring national and international attention to Hispanic life in the American Southwest.

The Cuartocentenario, know in English as the 400th Anniversary, is a time for America to take note of the profound influence of Hispanics in the founding of America as a New World as well as the participation of Hispanics in all walks of life. Hispanics have been noteworthy contributors and will continue to be significant contributors to our national politics, science, arts, economy, and cultural life.

Mr. President, 1998 is a major milestone for the Spanish settlement in the Southwestern United States. I urge my colleagues to join me in commemorating this anniversary by supporting this resolution and participating in Hispanic events to mark this important year.
rights policies and practices of the People's Republic of China, including the imprisonment of Wei Jingsheng, Wang Dan, and other dissidents, limitations on the free practice of religion, and violation of human rights, including in some areas, particularly in the Tibet region, the sufferings of the people of Tibet, and the repression of China's leadership to meet with the Dalai Lama.

As the United States tries to bring deep concerns about reports of exports from China of nuclear, chemical, and biological weapons, to countries who are known proliferators, such as Iran and Pakistan, the United States' policy toward China. It seems imperative that the People's Republic of China must resolve the Taiwan question by exclusively peaceful means, and that both sides resume a Cross-Straits dialogue as soon as possible.

Whereas the recently concluded U.S.-China summit is part of President Clinton's articulated strategy toward the People's Republic of China, a central goal of which is to further draw the People's Republic of China into normal diplomatic and commercial relations with the United States and toward internationally recognized standards of behavior; and

Whereas President Clinton accepted President Jiang's invitation to make a return visit to the People's Republic of China in 1998; Now, therefore, be it

Resolved, That—

(1) welcomes the agreements and understanding reached by the United States and the People's Republic of China during the state visit of President Jiang Zemin;

(2) urges the President to continue to press vigorously for further progress in China's policies and practices in the areas of human rights, nonproliferation, trade, Tibet, and Taiwan;

(3) views the expected return visit to the People's Republic of China in 1998 by President Clinton as an opportunity for the United States and the People's Republic of China to advance their relationship by enhancing cooperation in areas of accord and making genuine progress toward resolving areas of dispute.

Whereas President Clinton accepted President Jiang's invitation to make a return visit to the People's Republic of China in 1998; Now, therefore, be it

Resolved, That—

(1) welcomes the agreements and understanding reached by the United States and the People's Republic of China during the state visit of President Jiang Zemin;

(2) urges the President to continue to press vigorously for further progress in China's policies and practices in the areas of human rights, nonproliferation, trade, Tibet, and Taiwan;

(3) views the expected return visit to the People's Republic of China in 1998 by President Clinton as an opportunity for the United States and the People's Republic of China to advance their relationship by enhanced cooperation in areas of accord and making genuine progress toward resolving areas of dispute.

Mrs. FEINSTEIN. Madam President, today I am joined by a bipartisan group of my colleagues in submitting a resolution that expresses support for the agreements reached at the recent summit between President Clinton and President Jiang Zemin of the People's Republic of China.

As the resolution makes clear, the United States and China did not come to agreements on every issue that divides us during the summit. Significant, even fundamental differences remain in some areas, particularly in the area of human rights. But there is no question that the summit was a positive step forward in building a cooperative partnership between the largest developed country and the largest developing country on earth.

The summit has, of course, occasioned considerable debate on the United States' policy toward China. It seems to me that the key to a successful China policy is to be able to encourage this large nation to take its place in the world as a stable, responsible leader that can help ensure peace and stability in Asia and the world.

The question is how to do this? Our choices seem to boil down to two: Some say we must maintain China, prevent its rise, and isolate it from the world community. We should recognize it as an adversary. Others—myself and the cosponsors of this resolution included—say we should engage China, understand that our relationship is complex, develop a strategic partnership where we have interests, and through intensive communication try to achieve common ground.

Last week's summit was, in my view, the beginning of a course of ongoing top level dialogue and diplomacy.

It showed that we must deal with China on the top levels. Prior to last week, our two presidents had had little communication. There was no red telephone, no way for the leaders to speak. Our dialogue was sporadic, and took place on second and third levels.

Was the summit a success? Yes. It was definitely more that just a series of photo-ops. It accomplished progress and concrete results which bear explicit and implicit restatement.

First, the summit established the ability of two country's leaders to talk with each other. They have resolved to engage in ongoing communication, conduct regular meetings—and indeed, President Clinton will go to China next year—and the establishment of a telephone hotline.

This high-level communication is important, because Beijing does not always know what all its ministries are doing. Our intelligence can help bring it to their attention, as was the case when Chinese companies shipped ring magnets to Pakistan. U.S. intelligence also helped China shut down a number of illegal CD factories.

Second, the summit produced a very important nuclear non-proliferation agreement. China committed that it would halt all support of nuclear technology, expertise, or equipment to Iran. This is in addition to China having already signed the N.P.T., the Comprehensive Test Ban Treaty, the CWC, and its commitment to abide by the Missile Technology Control Regime and its annexes. China also agreed to participate in multi-lateral efforts to control and monitor the export of nuclear materials. In exchange, they agreed to allow the export of peaceful nuclear energy technology to China.

Third, the summit led to several extremely useful military-to-military agreements. Two sides agreed to expand military-to-military exchanges, including at the Secretary of Defense level, and to establish communications links to avoid accidental incidents at sea between the our navies.

Fourth, the joint productive agreements aimed at increasing U.S.-China cooperation on law enforcement. China agreed to the stationing of two DEA agents at the U.S. Embassy in Beijing, and we will expand our cooperation in combating organized crime, counterfeiting, alien smuggling, and money laundering.

Fifth, the two sides reached agreements aimed at improving China's energy usage and decreasing pollution. The United States and China will engage in a cooperative effort—using U.S. technology to work on China's serious urban air pollution problem, and to provide electricity to rural villages.

Sixth, in perhaps the most important contribution we can make to the cause of human rights in China, the two sides agreed on a number of measures aimed at promoting the rule of law in China. The United States and China will engage in a joint effort in developing the rule of law in China. It will involve the training of judges and lawyers, exchanges of legal experts, and assistance to China in drafting new criminal, civil, and commercial codes.

Seventh, even in the area of human rights, there were some modest gains. I emphasize "modest" because we still have fundamental differences with the Chinese on human rights. What we see is the beginning of basic legal and procedural changes, and dignity, the regard as their "internal affairs," with deep implications for China's stability and unity.

America's position was clearly put forward—by the President, by Members of Congress, and by the many demonstrations that followed President Jiang around. I believe Chinese leaders may now have an understanding of the depth of feeling about human rights issues in the United States in a way they could not have known before the visit.

Nevertheless, there was some limited progress. China agreed to receive a group of religious leaders from the U.S. to conduct fact-finding on religious freedom. China also agreed to resume a prisoner accounting project run by a businessman and human rights activist, John Kamm. In addition, China agreed to the establishment of a non-governmental organization human rights forum. Preparatory sessions will be held soon. And just prior to the summit, China signed the U.N. Covenant on Economic, Social, and Cultural Rights, which obligates parties to promote these rights in their countries.

Clearly, there were also major disappointments on human rights. There was no release of dissidents, and no comment that indicated any new thinking on Tiananmen Square. On Tibet, China clings to old and discredited arguments and has been non-comittal on all overtures for talks with the Dalai Lama, and the repression in Tibet continues.

But even with the disappointments, things are changing in China. No large country has changed as much as China has in the last 30 years since the end of cultural revolution. Today there is a freer lifestyle, an improved standard of
living, and much greater educational opportunities. There is a greater openness, and tremendous economic development. There is also a gradual lowering of tariffs and opening of borders.

Our relationship with China is not without its strains. Taiwan, for example remains the number one issue of sensitivity for China. The Chinese view it as a fundamental issue of sovereignty. I think the Administration understands this, and is firmly committed to the One China policy.

But otherwise, all issues remain negotiable and subject to the enterprise of diplomacy conducted at the highest levels. In this regard, the summit was definitely a step forward. For that reason, my colleagues and I submit this resolution to recognize the achievements of the summit, and to express our support for President Clinton’s intention to make a return visit to China next year.

AMENDMENTS SUBMITTED

THE RECIPROCAL TRADE AGREEMENT ACT OF 1997

REED AMENDMENT NO. 1613

Mr. REED proposed an amendment to the bill (S. 1269) to establish objectives for negotiating and procedures for implementing certain trade agreements; as follows:

Amend section 2(b) after section 2(b)(15) to add the following new paragraph:

(15) The principal negotiating objective of the United States regarding the environment is to promote adherence to internationally recognized environmental standards.

Amend section 10 at the end, to add the following new definition:

(7) Internationally Recognized Environmental Standards—The term ‘‘internationally recognized environmental standards’’ includes—

(A) mitigation of global climate change;
(B) reduction in the consumption and production of ozone-depleting substances;
(C) reduction in ship pollution of the oceans from such sources as oil, noxious bulk liquids, hazardous freight, sewage, and garbage;
(D) a ban on international ocean dumping of high-level radioactive waste, chemical warfare agents, and hazardous substances;
(E) government control of the transboundary movement of hazardous waste materials and their disposal for the purpose of reducing global pollution on account of such materials;
(F) preservation of endangered species;
(G) conservation of biological diversity;
(H) promotion of ocean research; and
(I) preparation of oil-spill contingency plans.

THE ADOPTION PROMOTION ACT OF 1997

CRAIG AMENDMENT NO. 1614

Mr. CRAIG proposed an amendment to the bill (H.R. 867) to promote the adoption of children in foster care; as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the ‘‘Promotion of Adoption, Safety, and Support for Abused and Neglected Children (PASS) Act’’.

(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

Sec. 1. Short title; table of contents.

TITLE I—REASONABLE EFFORTS AND SAFETY REQUIREMENTS FOR FOSTER CARE AND ADOPTION PLACEMENTS

Sec. 101. Clarification of the reasonable efforts requirement.

Sec. 102. Inclusion of合理 efforts in case plan and case review system requirements.

Sec. 103. Multidisciplinary/multagency child death review teams.

Sec. 104. States required to initiate or join proceedings to terminate parental rights for certain children in foster care.

Sec. 105. Notice of reviews and hearings; opportunity to be heard.

Sec. 106. Use of the Federal Parent Locator Service for child welfare services.

Sec. 107. Criminal records checks for prospective foster and adoptive parents and group care staff.

Sec. 108. Documentation of efforts for adoption or location of a permanent home.

TITLE II—INCENTIVES FOR PROVIDING PERMANENT FAMILIES FOR CHILDREN

Sec. 201. Adoption incentive payments.

Sec. 203. State performance in protecting children.

TITLE III—ADDITIONAL IMPROVEMENTS AND REFORMS

Sec. 301. Expansion of child welfare demonstration projects.

Sec. 302. Permanency planning hearings.

Sec. 303. Kinship care.

Sec. 304. Clarification of eligible population for independent living services.

Sec. 305. Reauthorization and expansion of family preservation and support services.

Sec. 306. Health insurance coverage for children with special needs.

Sec. 307. Continuation of eligibility for adoption assistance payments of children with special needs whose initial adoption has been disrupted.

Sec. 308. State standards to ensure quality services for children in foster care.

Sec. 309. Adoption assistance payments for a child; or with a legal guardian or custodian.

TITLE IV—MISCELLANEOUS

Sec. 401. Preservation of reasonable parenting.

Sec. 402. Reporting requirements.

Sec. 403. Sense of Congress regarding standby guardianship.

Sec. 404. National Voluntary Mutual Registry.

Sec. 405. Reduction in Medicaid matching rate for skilled professional medical personnel.

TITLE V—EFFECTIVE DATE

Sec. 501. Effective date.

TITLE I—REASONABLE EFFORTS AND SAFETY REQUIREMENTS FOR FOSTER CARE AND ADOPTION PLACEMENTS

SEC. 101. CLARIFICATION OF THE REASONABLE EFFORTS REQUIREMENTS.

(a) In General.—Section 471(a)(15) of the Social Security Act (42 U.S.C. 671(a)(15)) is amended to read as follows:

(15) provides that—

(A) in determining reasonable efforts, as described in this section, the child’s health and safety shall be the paramount concern;

(B) reasonable efforts shall be made to preserve and reunify families—

(i) prior to the placement of a child in foster care, to prevent or eliminate the need for relinquishment of the child by the parent; and

(ii) when the child can be cared for at home without endangering the child’s health or safety;

(C) reasonable efforts shall not be required on behalf of any parent—

(i) if a court of competent jurisdiction has made a determination that the parent has—

(I) committed murder (which would have been an offense under section 1119(a) of title 18, United States Code, if the offense had occurred in the special maritime or territorial jurisdiction of the United States) of another child of the parent;

(II) committed voluntary manslaughter (which would have been an offense under section 1119(a) of title 18, United States Code, if the offense had occurred in the special maritime or territorial jurisdiction of the United States) of another child of the parent;

(III) aided or abetted, attempted, conspired, or solicited to commit such murder or voluntary manslaughter;

(IV) committed a felony assault that results in serious bodily injury to the child or another child of the parent;

(II) if a court of competent jurisdiction determines that removing the child to the home of the parent would pose a serious risk to the child’s health or safety (including but not limited to cases of abandonment, torture, chronic physical abuse, sexual abuse, or a previous involuntary termination of parental rights with respect to a sibling of the child); or

(III) if the State, through legislation, has specified cases in which the State is not required to make reasonable efforts because of serious circumstances that endanger a child’s health or safety;

(D) if reasonable efforts of the type described in subparagraph (B) are not made as a result of a determination made by a court of competent jurisdiction in accordance with subparagraph (C) that—

(I) a permanency planning hearing (as described in section 475(b)(5)(C)) shall be held for the child within 30 days of such determination; and

(II) reasonable efforts shall be made to place the child in a timely manner in accordance with the permanency plan, and to complete whatever steps are necessary to finalize the permanent placement of the child; and

(E) reasonable efforts to place a child for adoption or with a legal guardian or custodian may be made concurrently with reasonably efforts of the type described in subparagraph (B);

(b) CONFORMING AMENDMENT.—Section 472(a)(1) of such Act (42 U.S.C. 672(a)(1)) is amended by inserting ‘‘for a child’’ before ‘‘have been made’’.

(c) RULE OF CONSTRUCTION.—Nothing in part E of title IV of the Social Security Act (42 U.S.C. 670 et seq.), as amended by this Act, shall be construed as prohibiting State courts from exercising their discretion to protect the health and safety of children in individual cases, when such cases do not include aggravated circumstances, as defined by State law.

SEC. 102. INCLUDING SAFETY IN CASE PLAN AND CASE REVIEW SYSTEM REQUIREMENTS.

Title IV of the Social Security Act (42 U.S.C. 601 et seq.) is amended—
SEC. 104. STATES REQUIRED TO INITIATE OR JOIN PROCEEDINGS TO TERMINATE PARENTAL RIGHTS FOR CERTAIN CHILDBIRTH.

(a) REQUIREMENT FOR PROCEEDINGS.—Section 475(5) of the Social Security Act (42 U.S.C. 675(b)) is amended—

(1) by striking “and” at the end of subpara-

graph (C);

(2) by striking the period at the end of sub-

paragraph (D) and inserting “; and”; and

(3) by adding at the end the following:

“(E) In the case of a child who has been in foster care under the responsibility of the State for 12 of the most recent 18 months, or, if a court of competent jurisdiction has determined that the child would be adopted by a state, that the child is eligible for payments under this part, shall submit to the Secretary a certification that the State has established and is main-

taining in accordance with applicable con-

fidentiality laws, a State child death review team, and if necessary in order to cover all counties in the State, child death review teams or local level, that shall review child deaths, including deaths in which—

(A) there is a record of a prior report of child abuse or neglect that is reasonable to suspect that the child was abused by, or related to, child abuse or neglect; or

(B) the child who died was a ward of the State or was otherwise known to the State or local child welfare services agency.

(2) The Federal child death review team, as established by section 471 of the Social Security Act (42 U.S.C. 671) is amended by adding at the end the following:

“(d) The Secretary shall establish a Federal child death review team that shall consist of at least the following:

(I) The Secretary shall establish a Federal child death review team that shall consist of at least the following:

(1) The Secretary shall establish a Federal child death review team that shall consist of at least the following:

(2) The Federal child death review team established under this subsection shall—

(A) review child deaths in the Federal sector, including foster care, Indian tribal organizations, the review of child deaths on Indian reservations;

(B) upon request, provide guidance and technical assistance to States and localities seeking to initiate or implement child death review teams and to prevent child fatalities; and

(C) develop recommendations on related policy issues, such as refusing care for children in foster care on the basis of race, sex, or other criteria.

(3) The Secretary shall establish a Federal child death review team that shall consist of at least the following:

(I) representatives of the following Federal agencies who have expertise in the prevention or treatment of child abuse and neglect and that, at a minimum, represent the health, education, social services, and law enforcement fields.

(II) The Federal child death review team established under this subsection shall—

(A) review child deaths in the Federal sector, including foster care, Indian tribal organizations, the review of child deaths on Indian reservations;

(B) upon request, provide guidance and technical assistance to States and localities seeking to initiate or implement child death review teams and to prevent child fatalities; and

(C) develop recommendations on related policy issues, such as refusing care for children in foster care on the basis of race, sex, or other criteria.
such parent, and any employee of a residential child-care institution before the foster parent or adoptive parent, or the residential child-care institution may be finally approved for placement of a child or half of foster care maintenance payments or adoption assistance payments are to be made under the State plan under this part, including providing that in an adoption in which a record check reveals a criminal conviction of child abuse or neglect, or of spousal abuse, a criminal conviction for crimes against children (including child pornography), or a criminal conviction for a crime involving violence, including rape, sexual or other physical assault, battery, or homicide, approved, and that shall not be granted.

(b) CONTINUING APPLICABILITY OF STATE LAWS.—The amendment made by subsection (a) shall not be construed to supercede any provision of State law that establishes, implements, or continues in effect any standard or requirement relating to criminal records checks and other background checks for prospective foster and adoptive parents, and for employees of a residential child-care institution, or any requirement that adoption or foster care licensing standards or requirement prevents the application of the requirements added by such amendment.

SEC. 108. DETERMINATION OF EFFECTIVE ADOPTION OR LOCATION OF A PERMANENT HOME.

Section 471 of the Social Security Act (42 U.S.C. 675) is amended—

(1) in paragraph (1)—

(A) in the last sentence—

(i) by striking “the case plan must also include” and inserting “the Secretary shall not construe to alter or affect any requirement of section 470 or any regulation prescribed under section 471, if the case plan contains”;

(ii) by redesignating such sentence as subparagraph (D) and indenting appropriately; and

(B) by adding at the end, the following:

“(E) In the case of a child with respect to whom the State’s plan is adoption or placement in another permanent home, documentation of the steps the agency is taking to find an adoptive family or other permanent living arrangement for the child, to place the child with an adoptive family, a fit and willing relative, a legal guardian, or in another planned permanent living arrangement, and to finalize the adoption or legal guardianship, to the extent it is necessary to finalize the adoption or legal guardianship shall include child specific recruitment efforts such as the use of State, regional, and national adoption exchanges including private exchange systems.”;

(2) in paragraph (5)(B), by inserting “including the requirement specified in paragraph (1)(E)” after “case plan”.

TITLE II—INCENTIVES FOR PROVIDING PERMANENT FAMILIES FOR CHILDREN

SEC. 201. ADOPTION INCENTIVE PAYMENTS.

(a) In General.—Part E of title IV of the Social Security Act (42 U.S.C. 670-679) is amended by inserting after section 473 the following:

“SEC. 473A. ADOPTION INCENTIVE PAYMENTS.

(a) GRANT AUTHORITY.—Subject to the availability of amounts as may be provided in advance in appropriations Acts for this purpose, the Secretary may make a grant to each State that is an incentive-eligible State for an amount equal to the adoption incentive payment payable to the State for the fiscal year under this section, which shall be payable in the immediately succeeding fiscal year.

(b) INCENTIVE-ELIGIBLE STATE.—A State is an incentive-eligible State for a fiscal year if

1. The State has a plan approved under this part for the fiscal year;

2. The number of foster child adoptions in the State during the fiscal year exceeds the base number of foster child adoptions for the State for the fiscal year;

3. The State provides health insurance coverage to any child with special needs for prospective foster and adoptive parents, in accordance with an assistance agreement between a State and an adoptive parent or parents; and

4. The fiscal year is any fiscal years 1996 through 2002.

(c) DATA REQUIREMENTS.—

1. In General.—A State is in compliance with this subsection if the State has provided to the Secretary the data described in paragraph (2) for fiscal year 1997 (or, if later, the fiscal year that precedes the fiscal year for which the State seeks a grant under this section) and for each succeeding fiscal year.

2. DETERMINATION OF NUMBERS OF ADOPTIONS.—

(1) DETERMINATIONS BASED ON APCFARS DATA.—Except as provided in subparagraph (B), the Secretary shall determine the number of foster child adoptions and of special needs adoptions in a State during each of fiscal years 1997 through 2002, for purposes of this section, on the basis of the requirement of the system established pursuant to section 479, as reported by the State in May of the fiscal year and in November of the succeeding year, approved by the Secretary by April 1 of the succeeding fiscal year.

(2) ALTERNATIVE DATA SOURCES PERMITTED FOR FISCAL YEAR 1996. For purposes of the determination described in subparagraph (A) for fiscal year 1997, the Secretary may use data from a source or sources other than an APCFARS data system that the Secretary finds to be of equivalent completeness and reliability, as reported by a State by November 30, 1996, and approved by the Secretary by March 1, 1997.

(3) NO WAIVER OF APCFARS REQUIREMENTS.—This section shall not be construed to alter or affect any requirement of section 479 or any regulation prescribed under section 471, if the case plan contains a waiver of the requirements.

(d) ADOPTION INCENTIVE PAYMENT.—

1. IN GENERAL.—Except as provided in paragraph (2), the adoption incentive payment payable to a State for a fiscal year under this subsection shall be equal to the sum of—

(A) $3,000, multiplied by the amount (if any) by which the number of special needs adoptions in the State during the fiscal year exceeds the base number of foster child adoptions for the State for the fiscal year; and

(B) $3,000, multiplied by the amount (if any) by which the number of foster child adoptions in the State during the fiscal year exceeds the base number of foster child adoptions for the State for the fiscal year; and

2. PRO RATA ADJUSTMENT IF INSUFFICIENT FUNDS AVAILABLE.—For any fiscal year, if the total amount of adoption incentive payments otherwise payable under this section for a fiscal year exceeds the amount appropriated for that fiscal year, the amount of the adoption incentive payment to each State under this section for the fiscal year shall be—

(A) the amount of the adoption incentive payment that would otherwise be payable to the State under this section for the fiscal year; multiplied by

(B) the percentage represented by the amount appropriated for that year, divided by the total amount of adoption incentive payments otherwise payable under this section for the fiscal year:

(e) 2-YEAR AVAILABILITY OF INCENTIVE PAYMENTS.—Payments to a State under this section in a fiscal year shall remain available for use by the State through the end of the following fiscal year(s) of the State under this section except to provide to children or families any service (including post-adoption services) that may be provided under part B or E. Amounts expended by a State in which the preceding sentence shall be disregarded in determining State expenditures for purposes of Federal matching payments under section 479.

(f) DEFINITIONS.—As used in this section:

(1) FOSTER CHILD ADOPTION.—The term ‘‘foster child adoption’’ means the final adoption of a child who, as a result of the placement, was in foster care under the supervision of the State.

(2) SPECIAL NEEDS ADOPTION.—The term ‘‘special needs adoption’’ means the final adoption of a child for whom an adoption assistance agreement is in effect under section 473.

(3) BASE NUMBER OF FOSTER CHILD ADOPTIONS.—The term ‘‘base number of foster child adoptions for a State’’ means, with respect to a fiscal year, the average number of foster child adoptions in the State for the 3 most recent fiscal years.

(4) BASE NUMBER OF SPECIAL NEEDS ADOPTIONS.—The term ‘‘base number of special needs adoptions for a State’’ means, with respect to a fiscal year, the average number of special needs adoptions in the State for the 3 most recent fiscal years.

(5) LIMITATIONS ON AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—For grants under this section, there is authorized to be appropriated to the Secretary $15,000,000 for each of fiscal years 1999 through 2003.

(2) AVAILABILITY.—Amounts appropriated under paragraph (1) are authorized to remain available until expended, but not after fiscal year 2003.

(T) TECHNICAL ASSISTANCE.—The Secretary shall provide, directly or by grant, contract, or interagency agreement, technical assistance upon request to assist States and local communities to reach their targets for increasing placements.

(b) DISCRETIONARY CAP ADJUSTMENT FOR ADOPTION INCENTIVE PAYMENTS.—

SEC. 201(b).—Section 251(b)(2) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901(b)(2)), as amended by section 10203(a)(4) of the Balanced Budget Act of 1997, is amended by adding at the end the following new subparagraph:

“(G) ADOPTION INCENTIVE PAYMENTS.—Whenever a bill or joint resolution making appropriations for fiscal year 1999, 2000, 2001, 2002, or 2003 is enacted that specifies an amount for adoption incentive payments for the Department of Health and Human Services—

(i) the adjustments for new budget authority shall be the amounts of new budget authority provided in that measure for adoption incentive payments, but not to exceed $15,000,000; and

(ii) the adjustment for outlays shall be the additional outlays flowing from such amount.”.

(2) DISCRETIONARY CAP ADJUSTMENT.—Section 314(b) of the Congressional Budget Act of 1974, as amended by section 10203(a)(4) of the Balanced Budget Act of 1997, is amended—

(A) by striking “or” at the end of paragraph (4); and

(B) by striking the period at the end of paragraph (5) and inserting “; or”;

(C) by adding at the end the following:

SECTION 202. ADoptions ACROSS STATE AND CONTRIbuting JURISDICTIONS.

(a) Elimination of Geographic Barriers to Interstate Adoption.—Section 471(a) of the Social Security Act (42 U.S.C. 671(a)), as amended by section 107, is amended—

(1) by striking “and” at the end of paragraph (19);

(2) by striking the period at the end of paragraph (20) and inserting “; and”;

(3) by adding at the end following: 

“(21) provides that neither the State nor any other entity in the State that receives funds from the Federal Government and is involved in adoption may—

(A) deny to any person the opportunity to become a foster or adoptive parent on the basis of the geographic residence of the person or of the child involved; or

(B) delay or deny the placement of a child for adoption on the basis of the geographic residence of an adoptive parent or of the child involved.”;

(b) Study and Consider How to Improve Procedures to Facilitate the Interstate Placement of Children.—(1) IN GENERAL.—The Secretary of Health and Human Services (in this subsection referred to as the “Secretary”) shall appoint an advisory panel that shall—

(A) study and consider how to improve procedures and policies to facilitate the timely and proper placement of children across State and county jurisdictions;

(B) examine, at a minimum, interjurisdictional adoption projects pursuant to this section which the Secretary finds are likely to promote the objectives of part B or E of title IV; such projects shall be designed to achieve 1 or more of the following:

(i) to improve the timely and proper placement of children in foster care and other out-of-home care, including kinship care, resulting from substantiated child abuse and neglect;

(ii) to increase the number of children adopted, including kinship care, resulting from substantiated child abuse and neglect;

(iii) to increase the number of children adopted, including kinship care, resulting from substantiated child abuse and neglect;

(iv) to increase the number of children adopted, including kinship care, resulting from substantiated child abuse and neglect;

(C) The median and mean length of stay in foster care, for children with parental rights terminated, and children for whom parental rights are retained are below the biologic ralminority having been adopted or placed with a guardian.

(D) The number of deaths of children in foster care and other out-of-home care, including kinship care, resulting from substantiated child abuse and neglect.

(E) The specific steps taken by the State to facilitate permanence for children.

(2) MEASURES.—In developing the outcomes and indicators described in paragraph (1), the Secretary shall develop a system (including using State census data and poverty rates) to rate the performance of each State based on the outcome measures described in paragraph (1).

(3) PREPARATION AND ISSUE.—On May 1, 1999, and annually thereafter, the Secretary shall provide, submit to Congress, and make recommendations for proposed legislation.

SECTION 203. STATE PERFORMANCE IN PROTECTING CHILDREN.

(a) Annual Report.—(1) IN GENERAL.—Part E of title IV of the Social Security Act (42 U.S.C. 670 et seq.) is amended by adding at the end the following:

“SEC. 478A. ANNUAL REPORT.

(a) Study and Consider How to Improve Procedures to Facilitate the Interstate Placement of Children.—(1) IN GENERAL.—The Secretary, in consultation with the American Public Welfare Association, the National Governors’ Association, the States, and the American Public Welfare Association, shall develop a set of outcome measures to be used in preparing the report.

(b) Outcome Measures.—The Secretary shall develop measures that can track performance over time for the following categories:

(i) concerning the recruitment of prospective adoptive families from other States and counties;

(ii) concerning the procedures to grant reciprocity to prospective adoptive family home studies from other States and counties;

(iii) arising from a review of the comity and for foster and adoptive parent issues, and with due consideration to representation of ethnic or racial minorities and diverse geographic areas, and who, at a minimum, include the following:

(A) Adoptive and foster parents.

(B) Public and private child welfare agencies that place children in and out of home care.

(C) Family court judges.

(D) Adoption attorneys.

(E) An Administrator of the Interstate Compact on the Placement of Children and an Administrator of the Interstate Compact on Adoption and Medical Assistance.

(F) A representative cross-section of individuals from other organizations and individuals with expertise or advocacy experience in adoption and foster care issues.

(2) CONTENTS OF REPORT.—The report required under paragraph (1)(C) shall include the report considered subparagrap (A) and (B) of paragraph (1) and recommendations on how to improve procedures to facilitate the interjurisdictional adoption of children, including interstate and intercountry adoptions, so that children will be assured timely and permanent placement.

(b) Congress.—The Secretary shall submit a copy of the report required under paragraph (1)(C) to the appropriate committees of Congress, and make recommendations for proposed legislation.

SEC. 204. FOSTER CARE TRANSITION REauthorization ACT OF 1999.

(a) Title IV-C—Foster Care Transitions.—(1) IN GENERAL.—Subtitle C of title IV of the Social Security Act (42 U.S.C. 670 et seq.) is amended by adding after title IV-C the following:

“IV-C. TRANSITION PROVISIONS.

A. Transition Provisions for Children Placed in Foster Care.—(1) IN GENERAL.—Every child placed for adoption or for foster care, or who has reason to believe that such placement or adoption may—

(A) Tuskegee, Alabama, to locate the highest frequency of the one who is not relative.

(B) The number of children, including those with parental rights terminated, who annually leave foster care at the age of majority without having been adopted or placed with a guardian.

(C) The median and mean length of stay of children in foster care, for children with parental rights terminated, and children for whom parental rights are retained are below the biologic ralminority having been adopted or placed with a guardian.

(D) The number of deaths of children in foster care and other out-of-home care, including kinship care, resulting from substantiated child abuse and neglect.

(F) The specific steps taken by the State to facilitate permanence for children.

(3) MEASURES.—In developing the outcomes and indicators described in paragraph (1), the Secretary shall develop a system (including using State census data and poverty rates) to rate the performance of each State based on the outcome measures described in paragraph (1).

(4) PREPARATION AND ISSUE.—On May 1, 1999, and annually thereafter, the Secretary shall provide, submit to Congress, and make recommendations for proposed legislation.

(b) Congress.—The Secretary shall submit a copy of the report required under paragraph (1)(C) to the appropriate committees of Congress, and make recommendations for proposed legislation.
under this section that has been submitted by a State in which there has been a court order determining that the State’s child welfare program has failed to comply with the provisions of section 430(a)(2) of title IV of the Constitution, the Secretary shall take into consideration the effect of approving the proposed project on the terms and conditions of any court order related to such failure to comply that is in effect in the State.

(b) RULE OF CONSTRUCTION.—Nothing in the amendments made by subsection (a) shall be construed as affecting the terms and conditions under which children enter kinship care.

(b)(2) and other information and consider—

(1) the findings of the advisory panel convened pursuant to subsection (a), which shall include parents, foster parents, child welfare providers, and academic experts.

(2) DUTIES.—The advisory panel convened pursuant to paragraph (1) shall review the report prepared pursuant to subsection (a) and, not later than July 1, 1998, submit to the Secretary comments on the report.

SEC. 304. CLARIFICATION OF ELIGIBLE POPULATION FOR INDEPENDENT LIVING SERVICES.

Section 477(a)(2)(A) of the Social Security Act (42 U.S.C. 677(a)(2)(A)) is amended by adding at the end the following:

"(B) in subsection (b)(1), by striking "and family support" and inserting "family support, family reunification, and adoption promotion and support services.";

(2) Definitions of time-limited family reunification services and adoption promotion and support services.—Section 430(a) of the Social Security Act (42 U.S.C. 629a(a)) is amended by adding at the end the following:

"(7) Time-limited family reunification services.—

(A) In general.—The term ‘time-limited family reunification services’ means the services and activities described in subparagraph (B) that are provided to a child that is removed from the child’s home and placed in a foster family home or a child care institution and to the parent or primary caregiver of such child, in order to facilitate the reunification of the child with the family and appropriately within a timely fashion, but only during the 1-year period that begins on the date that the child is removed from the child’s home.

(B) Services and activities described.—The services and activities described in this subparagraph are the following:

(i) Individual, group, and family counseling.

(ii) Inpatient, residential, or outpatient substance abuse treatment services.

(iii) Mental health services.

(iv) Assistance to address domestic violence.

(v) Services designed to provide temporary child care and therapeutic services for families, including crisis nurseries.

(vi) Transportation to or from any of the services and activities described in this subparagraph.

(B) Adoption promotion and support services.—The term ‘adoption promotion and support services’ means activities designed to encourage more adoptions out of the foster care system, when adoptions promote the best interests of children and shall include inclusions such as:

(1) Models to encourage the use of concurrent planning;

(2) The development of best practice guidelines for expediting termination of parental rights;

(3) Models to encourage the use of concurrent planning;

(4) The development of specialized units and expertise in moving children toward adoption as a part of a permanency plan;

(5) Development of risk assessment tools to facilitate early identification of the children who will be at risk of harm if returned home;

(6) Models to encourage the fast tracking of children who have not attained 1 year of age into adoptive and preadoptive placements.

(2) Development of programs that place children in preadoptive families without waiting for termination of parental rights.

H. Development of programs to recruit adoptive parents.

(1) Such other services or activities that are designed to promote and support adoption as the Secretary may approve.

(3) Additional requirements.—

(A) Purposes.—Section 430(a) of the Social Security Act (42 U.S.C. 629a(a) is amended by..."
striking “and community-based family support services” and inserting “community-based family support services, time-limited family reunification services, and adoption promotion services”.

(B) EVALUATIONS.—Subparagraphs (B) and (C) of section 435(a)(2) of the Social Security Act (42 U.S.C. 628a(2)(a)(2)) are each amended by striking “and family support,” each place it appears and inserting “family support, family reunification, and adoption promotion and support.”

(C) PROGRAM TITLE.—The heading of subpart 2 of part B of title IV of the Social Security Act (42 U.S.C. 629 et seq.) is amended to read as follows:

“Subpart 2—Promoting Adoptive, Safe, and Stable Families”.

(c) EMPIRICAL STUDIES OF FAMILY SUPPORT SERVICES.—Section 408 of the Social Security Act (42 U.S.C. 629c) is amended—

(A) by striking “and” at the end; and

(B) by redesignating paragraph (b) as paragraph (c). (d) by inserting after paragraph (b), the following: “(C) the Omnibus Budget Reconciliation Act of 1990 and 1993 includes requirements of this paragraph for purposes of section 1902(a)(10)(A)(1) of title 19, which apply to services furnished to children by the State or political subdivision thereof under that Act; as follows: (2) in paragraph (b), by striking “and” at the end; and

(2) by redesignating paragraph (2) as paragraph (3). (C) by inserting after paragraph (2), the following: “(3) in determining cost-sharing requirements, the State shall take into consideration the circumstances of the adopting parent or parents and the needs of the child being adopted.”.

SEC. 307. CONTINUATION OF ELIGIBILITY FOR ADOPTION ASSISTANCE PAYMENTS ON BEHALF OF CHILDREN WITH SPECIAL NEEDS WHOSE INITIAL ADOPTION HAS BEEN DISRUPTED. (a) CONTINUATION OF ELIGIBILITY.—Section 473(a)(2) of the Social Security Act (42 U.S.C. 679a(2)) is amended by adding at the end the following: “(A) Continuation of Eligibility.—The amendment made by subsection (a)(1)(A)(i) shall only apply to children who become available for adoption because a court has set aside the child’s previous adoption or the child’s adoptive parents have died, and who fails to meet the requirements of subparagraphs (A) and (B) but would meet such requirements if the child were treated as if the child were in the same financial and other circumstances as if the child was in the last time the child was determined eligible for adoption assistance payments and the previous adoption were treated as having never occurred, shall be treated as meeting the requirements of this paragraph for purposes of paragraph (1)(B)(ii).”. (b) APPLICABILITY.—The amendment made by subsection (a) shall only apply to children who become available for adoption because a court has set aside the child’s previous adoption, or the child’s adoptive parents have died, and who fails to meet the requirements of paragraph (1)(B)(ii) on or after October 1, 1997.

SEC. 308. STATE STANDARDS TO ENSURE QUALITY CARE FOR CHILDREN IN FOSTER CARE. Section 471(a) of the Social Security Act (42 U.S.C. 671(a)), as amended by section 306, is amended—

(1) in paragraph (22), by striking “and” at the end;

(2) in paragraph (23), by striking the period and inserting “;”;

(3) by adding at the end the following: “(24) provides that, not later than January 1, 1999, the State shall develop standards to ensure that children in foster care placements in public or private agencies are provided quality services that protect the safety and health of the children.”.

TITLE IV—MISCELLANEOUS SEC. 401. PRESERVATION OF REASONABLE PARENTING. Nothing in this Act is intended to disrupt the family unnecessarily, to intrude appropriately into family life, to prohibit the use of reasonable methods of parental discipline, or to prescribe a particular method of parenting.

SEC. 402. REPORTING REQUIREMENTS. Any information required to be reported under this Act shall be supplied to the Secretary of Health and Human Services through data meeting the requirements of the Adoption and Foster Care Analysis and Reporting System established pursuant to section 479 of the Social Security Act (42 U.S.C. 679), to the extent such data is available under that system. The Secretary shall make such modifications to regulations issued under section 479 with respect to the Adoption and Foster Care Analysis and Reporting System as may be necessary to allow States to obtain data that meets the requirements of such system in order to satisfy the reporting requirements of this Act.

SEC. 403. SENSE OF CONGRESS REGARDING PRIVACY OF INDIVIDUALS. It is the sense of Congress that the States should have in effect laws and procedures that permit any parent who is chronically ill or near death, without surrendering parental rights, to designate a standby guardian for the parent’s minor children, whose authority would take effect upon—

(1) the death of the parent;

(2) the mental incapacity of the parent; or

(3) the physical debilitation and consent of the parent.

PRIVATE RELIEF ACT

HATCH AMENDMENT NO. 1615

Mr. CRAIG (for Mr. HATCH) proposed an amendment to the bill (S. 1304) for the relief of Belinda McGregor; as follows:

SECTION 1. At page 1, line 7, delete “lawfully admitted to the United States for permanent residence” and insert in lieu thereof the following: “selected for a diversity immigrant visa for FY 1998”.

SECTION 2. At page 2, lines 4 and 5, change (a) to (c).

THE GROUP HOSPITALIZATION AND MEDICAL SERVICES FEDERAL CHARTER REPEAL ACT

THOMPSON AMENDMENT NO. 1616

Mr. CRAIG (for Mr. THOMPSON) proposed an amendment to the bill to repeal the Federal charter of Group Hospitalization and Medical Services, Inc., and for other purposes; as follows:

On page 8, line 15, strike “(2)”. THE UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT AMENDMENTS ACT OF 1997

BENNETT AMENDMENT NO. 1617

Mr. CRAIG (for Mr. BENNETT) proposed an amendment to the bill (S. 1258) to amend the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 to prohibit an alien who is not lawfully present in the United States from receiving assistance under that Act; as follows:

On page 2, line 3, strike “(a)”.

On page 3, line 4, strike “under this Act.”

On page 3, beginning on line 5, strike “on the basis of race, color, or national origin.”
AUTHORITY FOR COMMITTEE TO MEET
COMMITTEE ON ARMED SERVICES
Mr. HAGEL. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet on Saturday, November 7, 1997, at 1:30 p.m. in open session, to receive testimony on the nomination of William J. Lynn III, to be Under Secretary of Defense (Comptroller).

The PRESIDING OFFICER. Without objection, it is so ordered.

NEW LEGAL AND ACCOUNTING DIMENSIONS OF THE YEAR 2000 COMPUTER PROBLEM

Mr. MOYNIHAN. Mr. President, on Thursday, in the Wall Street Journal, two articles appeared highlighting additional facets of the year 2000 [Y2K] problem. While the computer and business problems of the year 2000 have been the major focus of news articles in the past, these reports focused on the legal and accounting fields. And today, in an editorial in the New York Post, the editors warn that “attorneys hope to make a killing off the so-called Year 2000 problem.”

In the Journal article entitled “Threat of Computer Glitch in 2000 Has Lawyers Seeing Dollar Signs,” the authors report that “corporate lawyers are urging clients to review their information systems and write warranties into their contracts.” The possibility of future litigation has caused New York law firms, such as Skadden, Arps, Slate, Meagher, Flom, to establish special groups of attorneys to ensure that all contracts contain Y2K warranties.

The other article, “CPA Group to Issue Guidelines on Costs of Year 2000 Bug,” reports that the American Institute of Certified Public Accountants will advise “auditors on how to push corporations to disclose and account for Y2K costs. Further, many companies have yet to begin the process of changing their systems to alleviate the problem, and are unaware of the enormous costs that lie ahead. This could well lead to misstatement of profits or losses of 10 percent or more. Lastly, in their no-holds-barred manner, the Post editors write: ‘this [problem] could make the litigation over breast implants and asbestos look like chump change.’”

Mr. President, we are beginning to see the ripple-like effects of this most serious issue. The overall costs have been estimated as high as a half a trillion dollars, and a delay in these efforts could lead to a global recession, in the opinion of New York Federal Reserve Bank President William J. McDonough.

Above all, from our standpoint, we have an obligation to get our own house in order. In forwarding response of the U.S. Government to this problem, a relative benchmark, as the United States is ahead of most countries, is without excuse. With just under 800 days left, we cannot have half of our agencies still considering any missteps and revision critical systems will be affected. This is but the first phase of three—renovation and testing/implementation are the other two. We need an outside body to ensure this problem is fixed. My bill, S. 22, will do just that.

I ask that the articles from the Wall Street Journal and the editorial from the New York Post be printed in the Record.

The articles follow:

[From the New York Post, Nov. 8, 1997]

**THE MILLENNIUM BUG**—AND THE LAWYERS

Plaintiff’s lawyers plan to celebrate the millennium in a big, and profitable, way—like chump-change wrangling. The attorneys hope to make a killing off the so-called Year 2000 Problem: Many computer systems, especially older mainframes, recognize only the last two digits of a year, so when the century ends and the calendar flips over to double zeros, the computers will crash or, even worse, produce crazy outputs.

This is a serious—and hugely expensive—worldwide problem, affecting almost every industry and governmental operation, from payrolls to nuclear-missile safeguards. Computer consultants estimate the worldwide cost of fixing the “millennium bug” at as much as $600 billion.

The reality of a Year 2000 crisis has been creeping up gradually on most firms in recent years. But now that it’s been widely recognized, the race is on for a solution: Massive computer failure isn’t in anyone’s interests. Inevitably, of course, some firms will fall behind the pack. Just as inevitably, the trial lawyers are latching onto these pressing issues. While computer consultants hunt through millions of lines of code looking for YR2000 liabilities, a conference in San Francisco this week devoted itself to scoping out possible litigation targets, the Wall Street Journal reports.

As protection against any 2000 problems, some federal agencies have already offered tens of billions of dollars in insurance claims. The Pentagon got a “C” and the Energy Department and Nuclear Regulatory Commission each got a “D.” Maybe they’ll do better this time.

And that’s the bad news.

The Pentagon got a “C” and the Energy Department and Nuclear Regulatory Commission each got a “D.” Maybe they’ll do better this time.

The Pentagon got a “C” and the Energy Department and Nuclear Regulatory Commission each got a “D.” Maybe they’ll do better this time.

**THE THREAT OF COMPUTER GLITCH IN 2000 HAS LAWYERS SEEING DOLLAR SIGNS**

(By Christopher Simon)

The threat that threatens to shut down commerce in the Western world with a chaotic crash in the business world has plenty of people worried. But not lawyers. They see the millennium bug as a business opportunity.

Harold Bershad, partner with the law firm of Bershad Hynes & Lerach, known for bringing class-action lawsuits, estimates that $300 billion to $600 billion will be spent worldwide reworking more than 250 billion lines of computer code. Bershad has already formed about the costs of adapting computer systems, which, he says, will be offered. Some lawyers predict year 2000 litigation will dwarf the environmental and asbestos class actions of earlier decades.

The problem, as everyone knows by now, is that computer codes programmed to read dates only as two digits will be unable to read the year 2000. Under Y2K, software and hardware are fixed soon, experts say, computers controlling everything from credit-card billing records to inventories will be erased and shut down. To fix the problem, Gartner Group, an information technology consulting concern in Stamford, Conn., estimates that $300 billion to $600 billion will be spent worldwide reworking more than 250 billion lines of computer code.

Today, wherever there’s this kind of money involved, people always start looking for people to shift the liability to,” says Stuart D. Levi, of Skadden, Arps, Slate, Meagher & Flom in New York. In the spring, the firm established its own ZKF Group (for year 2000) to help clients by writing warranties into their contracts with software vendors and giving them other advice.

The New York law firm Milberg Weiss Bershad Hynes & Lerach, known for bringing shareholder class actions, has set up an in-house committee of computer experts and lawyers to explore various legal actions if a crash occurs. Potential litigation, says partner Melynn Weiss, is corporate directors and officers. Mr. Weiss says management may be responsible for failing to discontinue the costs of keeping the software to shareholders. “Stockholders could be blinded,” he says.

Just last month, in fact, the Securities and Exchange Commission told companies and mutual funds they must keep investors informed about the costs of adapting computer systems to handle the change to the year 2000.

Some people dismiss the idea of massive litigation as wishful thinking by lawyers. “The lawyers who are gleefully rubbing their hands hoping to make millions in litigation are wrong,” says Harris N. Miller, president of the Information Technology Association of America in Alexandria, Va. Computer companies and their customers both “have a very strong incentive to solve [the problem] and will do so.”

But attorneys say raising the legal issues of a potential crash is part of the solution. Marta A. Manildi of Miller, Canfield, Paddock and Stone in Detroit and her firm has sent letters to hundreds of clients warning them about potential problems with their software, part of a campaign coordinated by the firm’s Team 2000. She says advanced
planning may allow clients to secure favorable tax treatment for any expenditures they incur in fixing the problem.

And last, if on occasion seeking damages for an alleged inability of a computer to recognize dates after the year 2000 has already been filed, Produce Palace International Inc., a grocery chain in Warren, Mich., claims in a suit filed in state court in Macomb County, Mich., that cash registers it purchased in 1995 aren’t capable of reading credit cards with expiration dates after the year 1999. The suit names TEC America Inc. of Atlanta and All American Cash Register Inc. of Inkster, Mich., as defendants.

Mark Yarsike, who owns Produce Palace, says he was dismayed to discover a problem with the cash registers, which cost about $15,000 and are capable of tracking inventory, among other things. The entire network crashes, he says, whenever a customer tries to use a credit card with an expiration date later than 1999. Yarsike is seeking $10,000 in damages.

The company’s system is flawed and has filed a cross-complaint against All American Cash Register, which installed the machines, claiming that any problems were caused by that company’s error and maintenance. A lawyer for All American Cash Register declined to comment.

Mr. Yarsike, the attorney for TEC, notes that the lawsuit has received a lot of media attention for being possible the first to make a year 2000 claim and calls the allegations about the machines’ inability to handle the year 2000 a “stunt” to generate publicity. Produce Palace’s attorney, Brian P. Parker of Bingham Farms, Mich., defends the suit. “I just wrote the complaint based on what [my client] was telling me,” he says. “A lot of lawyers are salivating over this. I’m not into that.”

[From the Wall Street Journal, Nov. 6, 1997]

CPA GROUP TO ISSUE GUIDELINES ON COSTS OF YEAR 2000 BUG

(Paraphrased)

The American Institute of Certified Public Accountants will issue guidelines today advising auditors on how to push corporations to disclose planned costs of the year-2000 problem.

Computer experts say the year-2000 software bug, by causing systemwide failures when the clock strikes midnight on New Year’s Eve, could cost billions of dollars to fix. At that time, many computers will read “00” as 1900 instead of 2000 and subsequently process data incorrectly or shut themselves down altogether.

The problem is many companies have yet to address the issue, and the accounting industry is just starting to mobilize. The new Accounting and Auditing ( disclosures kit” by the accounting industry’s largest trade group summarizes all of the year-2000 issues, revealing that companies are spending much more than expected and may be unable to finish fixing the problem before the deadline.

The guidelines state that auditors must get “reasonable assurance” from corporate-audit clients that their financial statements are free of material misstatements—invoking likely year-2000 problems and how much it will cost to fix them. “Material misstatements,” such as inflated inventories or grocery store in War- nevania State University’s Smeal College of Business. “But if they don’t detect a problem that results in losses greater than 10% then they may be held responsible.”

Last month, the Securities and Exchange Commission issued guidelines that instruct companies to “consider” disclosing their year-2000 costs to investors in their annual reports or to indicate how the year-2000 problem might hurt future profits. The Financial Accounting Standards Board passed an accounting rule, which took effect last year, that lets companies immediately write off these costs as an expense.

But so far only a few corporations, including New England Power Co. and Equitable of Iowa, have quantified their year-2000 costs and disclosed them in their quarterly reports, according to a study by the Analyst’s Accounting Observer, a stock analysts’ publication.

Auditors are afraid they could be hit with shareholder lawsuits if they don’t flag the problem for corporate clients. Such suits could add to the Big Six accounting firms’ $30 billion in legal claims stemming from allegedly flawed audits. “That’s why the profession is now publicizing what their responsibilities are, which could protect them against investor lawsuits,” Prof. Ketz says.

Alan Anderson, chairman of AICPA’s year-2000 task force, says, “Clearly, the year-2000 problem is not just an accounting issue but a business issue with global implications.”

Larry Martin, chairman of Data and E-Commerce Inc., a Bellevue, Wash., computer-consulting firm, says of the problem, “A third of the companies in this country will either fail or face significant reductions in their business operations.”

TRIBUTE TO DR. JOHN MURPHY

- Mr. MCCAIN, Mr. President, I rise today to honor Dr. John E. Murphy of Tucson, AZ for serving as the 1997-98 president of the American Society of Health-System Pharmacists [ASHP]. ASHP is the national professional association which represents pharmacists practicing in various areas of the health care system, including hospitals, health maintenance organizations, long-term care facilities, home health care, and many other vital components of our Nation’s health care system.

Dr. John Murphy resides in Tucson where he heads the department of pharmacy practice and science at the University of Arizona College of Pharmacy. He earned his B.S. and Pharm. D from the University of Florida, and later served as a member of the faculty and as director of residences at Mercer University School of Pharmacy in Georgia. He served as an ASHP member on the Legislative and Public Affairs Council. He also served on many committees of the Arizona Society of Health-System Pharmacists.

Dr. John Murphy is recognized by his colleagues as a leader in the field of pharmacy education as he prepares today’s pharmacy students for delivering effective and efficient health care in our Nation’s complex and ever changing system. Dr. Murphy will guide the Nation’s pharmacists as they develop new and innovative patient care methods.

It is my distinct honor to congratulate and honor Dr. Murphy on his well-deserved achievement as the ASHP president. Dr. Murphy has made significant contributions to the University of Arizona, and I am confident that he will prove to be a successful leader for the American Pharmacy.

1997 WORLD CITIZEN AWARD

- Mrs. MURRAY, Mr. President, I rise join the Washington World Affairs Council in congratulating Ambassador Booth Gardner on his selection as the 1997 recipient of the World Citizen Award.

The World Affairs Council is a 1,200 member nonprofit organization of business and community leaders with more than 15 years of experience bringing the world to Washington State. From the widely popular Public Programs, which includes the annual lecture series to the nationally recognized International Visitors Program, the World Affairs Council has been an instrumental force in bringing together varied and diverse cultures as well as exposing Washington State to changing political environments around the globe and the importance of international trade.

Booth Gardner was first elected to public office in 1972 where he served 3 years as a State senator followed by election as Pierce County Executive in 1980. In 1984, Booth Gardner realized his boyhood dream with his election to Washington’s governorship. A widely popular Governor, Booth was re-elected to a second term in 1988.

As Governor of the most trade dependent State in the Nation, Governor Gardner was exposed on numerous occasions to the importance of international cooperation and negotiation. Trade missions to Europe and Asia allowed Governor Gardner to boost Washington’s ties abroad creating new business, cultural, and educational opportunities.

After completing his second term, Governor Gardner was appointed by the newly elected President Clinton to become the first U.S. ambassador to the World Trade Organization. Assuming the much deserved title of Ambassador, Booth Gardner played a major role in shaping this important organization and particularly representing U.S. interests. Throughout his service to the WTO, he carefully balanced the needs of the United States with the goals of multilateral cooperation. Ambassador Gardner set the standard for U.S. participation at the WTO.

Congratulations Ambassador Booth Gardner. Your public service from Washington State to capital cities throughout the world makes all of Washington very proud.

FEDERAL STATISTICAL ACT OF 1997

- Mr. BROWNBACK, Mr. President, yesterday Mr. MOYNIHAN, Mr. THOMPSON and Mr. KERRETT joined me in introducing the Federal Statistical System
Act of 1997. This legislation will also be introduced in the House by Representatives HORN and MALONEY. This commonsense piece of legislation will improve the quality of an important function of the Federal Government while reducing the costs of the same services.

The current Federal statistical system is in disarray. There are more than 70 Federal agencies responsible for gathering and analyzing statistics. Many of these agencies expend resources attempting to gather the same information from the same sources. This duplication is unnecessarily burdensome on both taxpayers and respondents. Although a small group of people in the Office of Management and Budget (OMB) is nominally responsible for coordinating Federal efforts, no one in the Federal Government is held accountable for maintaining the quality of the Government statistics or overseeing the modernization of the statistical system.

The Federal Government spends $2.6 billion each year to finance this thickets of Federal statistical programs. Yet, in spite of the resources we dedicate to gathering and analyzing statistics, Americans have lost confidence in the quality of Government data. For example, over the past several years, a debate has raged over the accuracy of the Consumer Price Index. According to the General Accounting Office, the 1990 census was inaccurate and the 2000 census is a high-risk project that may produce unsatisfactory data again. And, according to a recent Wall Street Journal article, the Department of Treasury is unable to account for the source of billions of tax receipts this year.

Mr. President, the Federal Statistical System Act of 1997 is a necessary first step to consolidate the Federal statistical system and improve the quality of Government data. This legislation creates a Federal Commission on Policy to recommend how the Federal statistical system should be reorganized and streamlined, and to draft legislation to consolidate the three largest Federal statistical agencies—the Bureau of the Census, the Bureau of Labor Statistics, and the Bureau of Economic Analysis—into a single Federal Statistical Service.

After the Federal Statistical Service is established, the commission shall then study and develop recommendations on which other Federal statistical organizations should be consolidated, eliminated or reorganized. The commission shall also make recommendations on issues regarding privacy of information collected by the Federal government, the use of statistical data in Federal funding formulas, and standards of accuracy of Federal data.

Finally, Federal Statistical System Act of 1997 will allow the Federal Government to reduce further the cost and improve the accuracy of statistical programs while reducing the reporting burden on respondents. This will be achieved by certain agencies to share nonidentifiable statistical information, exclusively for statistical purposes. This provision will also ensure that existing avenues and limitations for public access to Government information will be maintained.

Mr. President, I cannot improve the effectiveness and reduce the cost of Government programs unless we have a firm understanding of the measures we use to implement and judge them. We cannot make an accurate assessment of our economic progress unless our relevant activity in today’s economy is measured. Finally, we cannot make informed assessments on the state of our urban or rural areas and communities unless we have accurate and meaningful economic and social indicators. I believe Federal Statistical System Act of 1997 is an important first step in addressing the need for improving the quality of Government information, and I urge my colleagues to support this measure.

**HEROES SHINE IN NORTH DAKOTA FLOOD**

- **MR. DORGAN.** Mr. President, I rise today to draw the Senate’s attention to some truly remarkable people, people whose work speaks volumes about what special people North Dakotans are.

As my colleagues in the Senate are well aware, one of the Nation’s worst weather-related disasters this year was the devastating flooding in Grand Forks, ND, and the entire Red River Valley. This historic flood captured the attention of the Nation in late spring as over 95 percent of the residents of Grand Forks and East Grand Forks were evacuated from their homes and the nation’s second largest city’s downtown district was ravaged by fire and water.

History will have a dramatic record of the loss and devastation of the flood. The hardship and heartbreak endured by so many of our friends and neighbors will forever etched in our memories.

But this year has also shown that North Dakota is a State blessed with wonderful and resilient people, and we’ve often been told that difficult times bring out the best in people, and that certainly was the case in North Dakota. So now that a few months have passed since the waters have subsided, I would like to take a moment to reflect back on some of the many heroes, people that stepped up when their community needed them, whose efforts shined in the midst of the rising waters.

In a disaster, maintaining a working communication system is critical in fighting back and preserving the safety of those in the area. Today, I would like to recognize the efforts of several US West Communications employees who worked tirelessly to maintain critical telephone service to the Grand Forks area throughout the flooding.

On April 19, 1997, before the flooding hit Grand Forks, a crew of nine central office technicians barricaded themselves in the US West building in the heart of the city to keep the area’s communication systems up and running during the disaster. Their extensive preventive work to prepare for the flooding would soon be tested as the waters rushed into town. As the entire building was surrounded by 4 feet of water, and sat just one block away from a raging fire. But these brave men and women hung in and sustained phone service, service which was essential to the rescue and recovery efforts of the Federal Emergency Management Agency, the Federal Aviation Administration, State and local emergency workers, and so many others in the flooded region.

To give you an idea of the challenges facing each of these brave heroes, they labored alone, night and day to keep the wires dry as 26 inches of water threatened basement cables. Sustained by the food, clothing, and cots delivered via boat by the National Guard, these folks stayed on in a flooded town whose entire population had been ordered to leave. Armed with only high-volume pumps, drying machines, and sandbags, these courageous people kept the communications system working.

These heroes deserve to be recognized by name for their dedicated service. The members of the initial emergency team were: Denny Braaten, Linda Potucek, Larry McNamara, Bob Schrader, Dan Kaiser, Dale Andrews, Glenda Wiess, Rick Hokenson, and Lew Ellingson.

Two days later, US West reinforcements arrived to provide additional support and hard work. I would like to recognize these workers now: Don Jordan, Ray Jacobsen, Tim Kennedy, Ray Jones, Bruce Bungesser, Gary Boser, Jim Falconer, Bion McNulty, Jack Olson, and Tim Rogers.

These people, along with the many others who volunteered and continue the rebuilding effort today, are part of the story of this year’s flood that doesn’t get told nearly enough, of people helping their neighbors in extremely hard circumstances, and of extraordinary acts of heroism performed by everyday people.

I can’t express my admiration enough.

**STRIPPED BASS CONSERVATION ACT AMENDMENTS OF 1997**

- **MR. CHAFEE.** Mr. President, I rise today in support of H.R. 1658, the Atlantic Striped Bass Conservation Act Amendments of 1997. This legislation will allow the U.S. Fish and Wildlife Service and the National Marine Fisheries Service to continue their important work with the States to ensure the continued recovery of the striped bass fishery.
The striped bass, commonly called rockfish in this area, is an anadromous fish which lives in marine waters during its adult life and migrates to a freshwater river stream to spawn. On the Atlantic coast, striped bass range from the St. Lawrence River in Canada to the St. Johns River in Florida. They are migratory, moving along the coast primarily within the three-mile zone which is subject to State fishery management. Water bodies include the coastal rivers and the nearshore ocean and are distributed along the coast from Maine through North Carolina. Because striped bass pass through the jurisdiction of several States, Federal involvement in conservation efforts are necessary.

A severe population decline, which began in the 1970’s, raised serious concerns about the sustainability of the striped bass fishery. In 1979, I offered an amendment to the Anadromous Fish Conservation Act that directed the Fish and Wildlife Service and the National Marine Fisheries Service to conduct a study of striped bass. The study found that, although habitat degradation played a role, overfishing was the primary cause of the population decline.

Under the Striped Bass Act, States are required to implement management measures that are consistent with the Commission’s plan for the conservation of striped bass. The act authorizes the Secretaries of Commerce and the Interior to impose a moratorium on striped bass fishing in any state that is not in compliance with the Commission’s management plan. The act also authorizes the Secretary of Commerce for the ongoing striped bass study that was approved by Congress in 1979 in response to the decline in the Atlantic striped bass populations. The Federal study, undertaken jointly by the U.S. Fish and Wildlife Service and the National Marine Fisheries Service, provides information on the threats to and the status of the striped bass population and scientific data necessary for sound management decisions.

The study in 1994 showed that most population indices had returned to pre-decline levels, and the Atlantic States Marine Fisheries Commission declared the species to be fully restored. It is a great testament to the Striped Bass Act and the cooperative efforts of the States and Federal Government that the fishery is continually improving.

The striped bass has proven once again that, given a chance, nature will rebound and overcome tremendous setbacks. But it is up to us to help the striped bass receive that chance. Reauthorization of the Atlantic Striped Bass Conservation Act Amendments of 1997 will ensure that the U.S. Fish and Wildlife Service and the National Marine Fisheries Commission will continue to work with the populations, and collect data that will provide the necessary information needed to make informed decisions essential to maintaining healthy populations of striped bass.

Mr. President, I strongly encourage the Senate to pass H.R. 1658 to continue one of the most significant recovery ever experienced for a coastal finfish species.

PEOPLE’S LODGE

Mr. INOUYE. Mr. President, I rise today to address a project that unfortunately was not incorporated in the list of projects to be funded by the Economic Development Administration outlined in the Senate report to accompany the Fiscal Year 1998 appropriations bill for Commerce, State, Justice and the Judiciary.

This project is the People’s Lodge—a multi-cultural center designed to serve the urban Indian and Alaska Native populations in Seattle, Washington, and all of the Indian tribes in the Pacific Northwest and Alaska. The People’s Lodge represents the next phase of development of the Daybreak Star Center and will include a permanent Hall of Ancestors exhibition, a multiple-use Potlatch House, and an exhibition gallery, the John Kauffman, Jr. Theater, a multi-cultural resource center, and the Sacred Circle of the American Indian Art.

The federal funding for this project—approximately $13 million—would be matched by funds from private sources. The private fund-raising efforts are already well-underway.

In the coming days, Senator STEVENS and Senator MURRAY and I will be pursuing this matter directly with the Secretary of the Department of Commerce.

Mr. President, it is my hope that the Economic Development Administration will agree with us as to the merits of this most worthwhile project.

SANCTIONS POLICY REFORM ACT

Mrs. FEINSTEIN. Mr. President, I was pleased to join yesterday with the distinguished Senator from Indiana, Senator LUGAR, as a cosponsor of his bill, S. 1413, the Enforcement of Trade, Security, and Human Rights Through Sanctions Reform Act.

This bill is an attempt to bring some order and discipline to the process of wanting to confront a dictator from Indiana for his leadership in this area, and I look forward to working with him to pass this bill into law.

SUPPORT THE COMPREHENSIVE TEST BAN TREATY

Mrs. MURRAY. Mr. President, I rise to join a number of my colleagues in speaking briefly about one of the most important issues that will come before the Senate next year in the second session of the 105th Congress.

In late September, President Clinton submitted the Comprehensive Test Ban Treaty to the Senate for ratification. The President’s transmission statement includes the following:

"The Conclusion of the Comprehensive Nuclear Test-Ban Treaty is a signal event in the history of arms control. The subject of the treaty is one that has been under consideration by the international community for
November 8, 1997

CONGRESSIONAL RECORD—SENATE

S12193

nearly 40 years, and the significance of the conclusion of negotiations and the signature to date of more than 150 states cannot be overestimated. The Treaty creates an absolute priority for the conduct of nuclear weapon test explosions or any other nuclear explosion anywhere. . . . The Comprehensive Nuclear Test-Ban Treaty is of singular importance to the continued efforts to stem nuclear proliferation and strengthen regional and global stability. Its conclusion marks the achievement of the highest priority item on the international arms control and nonproliferation agenda.

I commend the President for his leadership on this issue. I look forward to working closely and in a bipartisan fashion to secure prompt ratification of the Treaty. Absolutely everything I can support the passage of the Comprehensive Test Ban Treaty. I expect a spirited debate on the CTBT including vigorous opposition from some who continue to believe in nuclear expansion and experimentation.

Several Senate hearings have recently been held and I urge the body to move forward in a timely and deliberative manner early in 1998. As a member of the Appropriations Energy and Water subcommittee with funding responsibilities in federal facilities including stockpile stewardship, I look forward to actively participating in Senate consideration of the Comprehensive Test Ban Treaty.

Mr. President, at this point, I ask that "Ten Reasons for a Comprehensive Test Ban Treaty," be printed in the RECORD. This information was prepared by a nongovernmental organization in support of CTBT ratification.

The material follows:

Ten Reasons for a Comprehensive Test Ban Treaty

1. THE CTBT WOULD GUARD AGAINST THE RENEWAL OF THE NUCLEAR ARMS RACE

The Comprehensive Test Ban Treaty would limit and reduce the number of nuclear weapons in the world. Nuclear powers would be prevented from building new nuclear weapons by prohibiting "any nuclear weapon test explosions and all other nuclear explosions. The ban on nuclear detonations would severely impede the development of new, sophisticated nuclear weapons by the existing nuclear powers. While countries could build advanced, new types of nuclear weapons designs without nuclear explosive testing, they will lack the high confidence that the weapons will work as designed. Thus, the Treaty can impede a nuclear arms buildup by five declared, and three undeclared nuclear weapon states.

2. THE CTBT WOULD CURB NUCLEAR WEAPONS PROLIFERATION

Under the Comprehensive Test Ban Treaty, "threshold" states would be prevented from carrying out the types of tests required to field a modern nuclear arsenal. While a country could develop nuclear weapons for the first time and would have little incentive to detonate test explosions, the bomb design would be far from optimal in size and weight and its nuclear explosive power would remain uncertain. The CTBT would prevent the spread of nuclear weapons to additional states, where these weapons could destabilize international security.

3. THE CTBT WOULD STRENGTHEN THE NUCLEAR NON-PROLIFERATION TREATY

The conclusion of the CTBT is a key element in the global bargain that led to the signing and the extension of the Nuclear Non-Proliferation Treaty. In May 1995, non-nuclear states agreed to extend that Treaty in May 1995 with the understanding that Ar-rians and Pakistan would make further progress. The non-nuclear states like the CTBT—would be implemented. At the May 1995 NPT extension conference, all nations agreed to "The completion of the Comprehensive Nuclear Test-Ban Treaty no later than 1996." Ratifications of the CTBT would further legitimize U.S. non-proliferation efforts and lay the basis for universal enforcement of the CTBT, even against the few nations that may not sign.

4. NUCLEAR TESTING IS NOT NECESSARY TO MAINTAIN THE SAFETY AND RELIABILITY OF THE U.S. ARSENAL

The U.S. has a solid and proven warhead surveillance and maintenance program to preserve the safety and reliability of the U.S. nuclear deterrent without nuclear test explo- sions and this program is being augmented through the Science-Based Stockpile Stew- ardship Program (SBSS). Although some of the projects that are part of the SBSS program are not essential to the maintenance of the stockpile—both critics and supporters of the program—agree that the program can ensure the safety and reliability of the U.S. nuclear stockpile without resorting to nuclear testing.

All operational U.S. nuclear weapons are already more than adequately tested. The detonation of the warhead's high explosives, making even low-yield nuclear explosions, known as "hydronuclear" tests unnecessary. Systematic laboratory and computational designs of operational U.S. nuclear weapons incorporate additional modern safety features. Since instituting a new annual warhead safety and reliability certification process in 1995, U.S. nuclear weapons have been twice certified without nuclear test explosions.

5. THE CTBT IS EFFECTIVELY VERIFIABLE

The CTBT would put into place an extensive, global array of 170 seismic monitoring stations, 80 radionuclide monitoring stations, 11 hydroacoustic monitoring stations, and 60 infrasound monitoring stations to detect nuclear test explo- sions. Monitoring capabilities would be especially sensitive at and around the established nuclear test sites. With this moni- torsing system, the CTBT would have high confidence—be able to detect nuclear test explo- sions that are militarily significant. In addition, the CTBT would provide an additional deterrent against potential test ban violations by establishing on-site inspection (OSI) rights that could allow detection of the radioactive gases leaking from an underground nuclear test.

6. THE CTBT WOULD SUBSTANTIALLY ENHANCE CURRENT U.S. MONITORING CAPABILITIES

Whether or not the CTBT is ratified, U.S. intelligence agencies will be tasked with monitoring nuclear weapon programs of the nuclear powers and the efforts of non-nuclear states and groups to attain nuclear weapons. The Treaty will make that task easier by establishing a far-reaching international monitor- ing system across the globe that would augment existing national intelligence tools. Clearly, U.S. intelligence capabilities to detect clandestine nuclear weapons development programs would be far better with the CTBT.

7. THE CTBT WOULD ENHANCE THE INTERNATIONAL NORM AGAINST NUCLEAR TESTING

If the five declared nuclear weapon states ratify the Comprehensive Test Ban Treaty, it will strengthen the global norm against testing and weapons development that helps make the nuclear "have-not" nations far less inclined to develop nuclear weapons. The U.S. has not tested a nuclear weapon since 1992 when Congress passed and President Bush signed the Hatfield-Exon-Mitchell legis- lation establishing a moratorium on nuclear testing. This law, which remains in ef- fect, says that the U.S. will not conduct a nuclear test explosion unless another nation conducts a test. CTBT ratification would help bring other nations in line with U.S. policy.

8. THE CTBT IS SUPPORTED BY A LARGE MAJORITY OF THE AMERICAN PEOPLE

The Comprehensive Test Ban Treaty is supported by a large majority of the American people. U.S. public support for a nuclear weapons test ban has remained consistently high since the early days of the Cold War. More than 10 years ago, a poll conducted in September 1997 by the Mellman Group, revealed that 70 percent of Americans support United States ratification of a nuclear test ban treaty.

9. THE CTBT IS THE LONGEST-SOUGHT INITIATIVE TO HELP REDUCE NUCLEAR WEAPONS DANGERS

The Comprehensive Test Ban Treaty marks an historic achievement pursued by Presidents since Dwight D. Eisenhower. For forty years, Presidents and activists have worked for an end to nuclear testing. Previous negotiations hindered by the political dynamics of the Cold War, the Comprehensive Nuclear Test Ban Treaty is of international security.

The U.S. has a solid and proven warhead surveillance and maintenance program to preserve the safety and reliability of the U.S. nuclear deterrent without nuclear test explo- sions and this program is being augmented through the Science-Based Stockpile Stew- ardship Program (SBSS). Although some of the projects that are part of the SBSS program are not essential to the maintenance of the stockpile—both critics and supporters of the program—agree that the program can ensure the safety and reliability of the U.S. nuclear stockpile without resorting to nuclear testing.

All operational U.S. nuclear weapons are already more than adequately tested. The detonation of the warhead's high explosives, making even low-yield nuclear explosions, known as "hydronuclear" tests unnecessary. Systematic laboratory and computational designs of operational U.S. nuclear weapons incorporate additional modern safety features. Since instituting a new annual warhead safety and reliability certification process in 1995, U.S. nuclear weapons have been twice certified without nuclear test explosions.

The Comprehensive Test Ban Treaty marks an important milestone in the effort to end the nuclear arms race.

10. THE CTBT WOULD PROTECT HUMAN HEALTH AND THE ENVIRONMENT

Since 1945, six nations have conducted 2,046 nuclear test explosions—an average of one test every nine days. These tests spread dangerous levels of radioactive fallout downwind and into the global atmosphere. In 1997 Na- tional Cancer Institute Study estimates that fallout from only 90 U.S. nuclear test will likely cause 10,000—75,000 additional thyroid cancers in the U.S. Underground testing also poses environmental hazards: each blast spreads highly radioactive material under- ground, many underground nuclear explo- sions result in large quantities of vented radioactive gases; the Energy Department reports that 114 of the 723 U.S. nuclear tests since 1963 released radio- active material into the atmosphere.

INTERNAL REVENUE SERVICE IMPROVEMENT

Mr. HOLLINGS. Mr. President, I come to the Senate floor today to bring to my colleagues’ attention the games being played by the majority regarding needed reforms at the IRS.

On one hand, the people want IRS reform, and only the Senate stands in the way. The House overwhelmingly passed an IRS reform bill, 426 to 4, and the President is waiting to sign it into law. But the Senate leadership says "no way, we can’t begin fixing the IRS we have to get home for the holidays."

So the taxpayer will have to wait for needed reforms making the IRS more user friendly. This means changes aimed at helping the American taxpayer deal with the IRS will be unnecessarily de- layed and taxpayers will have little choice in the IRS. Instead of a new IRS oversight board bringing new and more taxpayer friendly services, Ameri- canis who are dutifully paying their
taxes will see the same old IRS—business as usual. Instead of permitting taxpayers to recover up to $100,000 for negligent collection actions, the taxpayers will continue to fight an uphill and seemingly impossible battle when challenging an IRS ruling.

We all were appalled by some of the IRS practices recently highlighted in Congressional hearings and we all agree there is no place in government for these abuses, yet when given the chance to remedy them, the Senate Leadership refuses to act.

As a cosponsor and supporter of the Taxpayer Bill of Rights and the Taxpayer Bill of Rights II that provided for increased taxpayer protection, I urge the Senate to take the next much needed step and pass the Internal Revenue Service Improvement Act.

In my mind it is outrageous that at the same time we have the Senate refusing to act on the IRS Improvement Act, it is attempting to spend $100 million of taxpayer’s money to conduct a poll to find if U.S. taxpayers like the IRS. I can’t imagine what new information this will provide. We all know that most Americans don’t like the IRS. We all know it is governed by self-serving and politically powerful interests. Spending $100 million to determine whether people like it seems a huge waste of money. This is nothing more than the Republican Majority using hard earned taxpayer dollars for their self-deluding, self-serving, political theatrics. Why not make taxpayers give the Majority $100 million dollars worth of stamps and copying machines to run their 1998 election campaign. Does the Leadership really need to spend an extra $100 million to find out that most Americans don’t like paying taxes.

This is the most outrageous and hypocritical use of taxpayer funds that I have seen in my forty years in politics. Yes, there have been other abuses and scams of the American tax payer, but none more blatantly political and painfully obvious.

If we want to add $100 million in federal spending why use it for partisan political purposes to prove what we all already know. Instead let us use this $100 million for real government such as constructing 1,325 additional federal prison beds or incarcerating 4,000 more federal prisoners. Or maybe we could add 725 new border patrol agents or prison guards to deal with the growing number of illegal immigrants from Mexico. We could also add 55,000 new summer jobs or train 27,600 low income adults.

I am sure most of my colleagues hear a constant cry back home for more spending to improve roads and highways, certainly South Carolina could use some better roads. As I understand, $100 million would resurface 670 miles of highway. At a time of mounting transportation needs, spending federal funds for an IRS poll seems ridiculous.

Mr. President, let me conclude by stating the obvious. Spending $100 million of taxpayer money on an IRS poll does not help a single taxpayer. In short, it is a huge waste of money. If we want to assist taxpayers, if we want real reform, we should pass the IRS Reform bill now. I urge the Majority Leader to free the IRS Reform bill, let the Senate vote and begin providing relief to the American taxpayer.

SHORT TERM EXTENSION OF ISTEA

- Mr. REID. Mr. President, I served on the Committee on Environment and Public Works during the ISTEA bill was written. I believe ISTEA has been one of the most important, innovative pieces of legislation ever to pass the United States Congress. Our stated goal was to turn over more spending power and authority to the states and localsities while maintaining a strong national transportation system.

In the last 6 years we have made great progress and, when we are finally able to pass a bill, I feel confident that ISTEA will go in the same direction.

Until we get to that point, the Congress must pass a short-term measure that ensures that the state programs remain stable while we are finishing work on the reauthorization of ISTEA.

ISTEA made the states partners with the federal government in building and maintaining a strong transportation system. Leaving them in the lurch now would be no way to treat a partner. I believe the Congress needs to pass a short-term extension to ISTEA to ensure continuity in the state programs and to live up to our obligation to the American people to provide a world-class transportation system.

I am delighted that the Senate passed this short term extension by unanimous consent last night, putting aside regional differences over formula funding. I am hopeful that the House will respond quickly and that we will be able to maintain and maintain the project that we have done the right thing for the states and the American people.

Senator BOND, the primary author of this approach, takes care of our short term needs and he deserves our praise for developing it and selling it to all of his colleagues while under tremendous pressure. State programs will continue, but we keep the pressure on ourselves to get the 6 year reauthorization done.

Several of my colleagues have came to the Floor last night to explain how the bill works and I will not repeat their efforts. However, I do want to offer high praise to Senator CHAFEE, Senator BOND, Senator BAUCUS and Senator WARNER for developing a measure that will work and has the support of the Senate.

Additionally, I would like to offer thanks to key members of their staff for their hard work and late hours, not only my staff, but throughout the year, Kathy Buffalo of Senator BAUCUS’ staff, Dan Corbett of Mr. CHAFEE’s staff, and Ann Loomis of Senator WARNER’s staff have put in tremendous hours of hard work this year developing a 6 year reauthorization of ISTEA, a bill that passed the Committee on Environment and Public Works unanimously.

Additionally, Tracy Henke of Senator BOND’s staff did not stop work in putting together the Senate’s short term extension bill and I am grateful for her efforts.

In particular I want to thank the Chairman and Ranking Member for accommodating my request to include the Federal Lands Highway Programs in the bill. For states, such as mine, that have vast holdings of public lands, the Federal Lands Highways Programs are a vital part of our transportation network.

There are three programs that make up the Federal Lands Highway Program:

- Public Lands Highway Program for roads and maintenance on federal lands. Eighty-seven percent of Nevada is federally owned;
- Indian Reservation Roads Program for roads and maintenance on Indian reservations; and
- Parkways and Park Highways Program that funds roads and maintenance within National Parks.

These programs serve as a transportation lifeline for the vast rural, federally-owned areas that blanket the Western United States. The federal government has a duty and obligation to build and maintain roads on federal lands. It would be unreasonable for the federal government to ignore the needs of citizens living in these areas.

If the goal of today’s action is to keep the state highway programs running until we complete work on the reauthorization of ISTEA, then it is critical that the Federal Lands Highway Program be included.

Nevada has become the most urbanized state in the Union; a higher percentage of our population lives in urban areas than in any other state. Coupled with the dramatic growth Nevada is experiencing, it is difficult for the rural areas to get the attention they need and deserve without these programs. They are an absolutely essential piece of Nevada’s state program.

Again, I thank my colleagues for recognizing the unique needs of Nevada and other vast public lands states and for including funding for the Federal Lands Highway Programs in this bill.

We still have a long ways to go in reaching a short-term compromise with the House, but after the Senate’s actions last night, I am confident that we will get there.

THE SURFACE TRANSPORTATION EXTENSION ACT OF 1997

- Mr. LAUTENBERG. Mr. President, I turn now on S. 1831, the Surface Transportation Extension Act of 1997, which the Senate adopted last night.

This bill allows States to obligate funds for six months, to ensure that
transportation funding continues to flow for highways, mass transit and safety programs. In addition, this bill will enable continued operation of the United States Department of Transportation.

Each state will be assured access to transportation funds equaling at least 50 percent, and not more than 75 percent of the state’s total transportation funding in FY1997. Moreover, states will have until May 1, 1998, to obligate those funds or lose the ability to obligate Federal funds after that date.

Every member should understand that this approach essentially creates another transportation funding crisis in only a few short months. This is far from a comfortable situation.

Next year, when we take up the ISTEA reauthorization bill, we will be in the middle of the FY99 budget discussions and a decision about whether to allocate new funds that may become available as a result of improved budget projections. So, the debate over ISTEA, and the reality of another funding cutoff, will likely coincide with discussions over the FY99 Budget Resolution. As the Ranking Democratic Member of the Budget Committee, I can assure you that I will be doing my best to make additional investment in our transportation infrastructure a high priority during these discussions.

Mr. President, when it became clear over one month ago that there was not enough time to fully debate a multi-year authorization bill, I started calling for the enactment of a short-term extension of ISTEA. This was the logical approach toward ensuring that States’ transportation funding would not run dry.

The States need additional funds now to meet their immediate transportation needs. ISTEA expired over a month ago, and although States have funding left over from previous years, these available funds will begin to run dry very soon for many States. Highway systems have been particularly hard hit because they have no leftover funding. Mass transit programs have no funding reserves.

A straightforward reauthorization of ISTEA for six months is, to me, the easiest and fastest way to proceed. A House bill to do just that is currently pending on the Senate calendar. By simply continuing current law, this short-term extension also bypasses the combined effects of a short-term extension of ISTEA, and the reality of another funding cutoff.

While this bill is important, I do have some concerns. Under this bill, States would have the flexibility to shift unobligated balances among programs to ensure that states can use their scarce funds where they are most needed. For instance, a State could use its left-over CMAQ or enhancement funds to pay for a highway construction project. Language is included to prevent States from abandoning the responsibility to pay back the accounts from which they transferred funds. I remain concerned that the new legislation will not be honored. States must be strictly required to pay back all of these transfers, including transfers from their CMAQ accounts, otherwise valuable programs, critical to our Nation’s health and welfare, may be depleted.

Mr. President, this bill authorizes the additional funding needed to keep crucial safety programs running, to allow States to continue their transportation projects and plans, to keep the U.S. Department of Transportation operating, and to continue the federal transit program for six months. Although this bill will most likely lead to yet another funding crisis in the near future, I want to do all I can to make sure that the Senate does not adjourn without somehow addressing the lapse in transportation funding. I prefer a short-term extension to the ever-present uncertainty and urge Senator LOTT to bring it up. However, he rejected that path. Since that option is not before the Senate, I support this proposal as an acceptable compromise to carry us over until an ISTEA reauthorization bill is passed into law.

SUPPORT U.S. ENCRYPTION EXPORTS

Mrs. MURRAY. Mr. President, I rise to discuss an issue of great importance to Washington state. I remain deeply concerned about the Administration’s lack of progress in working with interested Senators and industry to craft a workable, effective solution for modernizing the United States export controls on products with encryption capabilities. I have been involved in this debate for a long time, too long. We need to take action.

I am an original cosponsor of several encryption legislative initiatives introduced by Senator BURNS and Senator LEAHY. Both of these Senators continue to do extraordinary work on this issue and I commend them for their thoughtful leadership. The BURNS and LEAHY bills basically say that strong encryption is generally available or comparable encryption is available from foreign vendors, then our U.S. companies—the ones dominating the computer industry—should be able to sell their products as well. Previously, I also introduced similar legislation on encryption.

I simply do not understand the Administration’s continued refusal to acknowledge technological and marketplace realities when it has embraced the use of technology in so many ways. Computer users are demanding the ability to communicate securely over the Internet and to store data safely on their personal computers. We have all heard the stories about hackers monitoring our communications and even financial transactions, while at the same time gaining access to our hard drives while we are looking at a certain website. Until consumers have confidence that transactions and communications are secure, I do not believe that we will ever see the full potential of the communication technologies that are currently available and those to be developed in the future.

I was hopeful late last year that the Administration had taken a very small, positive step on encryption exports. Instead, the result was basically the status quo. Computer software publishers and hardware manufacturers are still limited to shipping the same cryptographic export-sensitive code. They agree to design key recovery systems according to a government mandated standard. Ultimately, due to economics and...
marketing issues in the computer world, most Americans are still limited to this 40-bit strength encryption as well, because our companies develop one product for worldwide distribution.

What will it take for the federal government to realize that consumers are opposed to having “Big Brother” interfere with their technology choices. We all remember the failed Administration attempts on Clipper I and Clipper II. Yet, the federal government persists in its efforts to peek into the private lives of law-abiding American citizens. The latest salvo by FBI Director Louis Freeh in demanding government mandated encryption for domestic users is the latest example of government obstruction of private decisions by American consumers and business opportunities for American innovators. If Director Freeh gets his way, the federal government will have even greater authority to peer and peek into the private lives of American citizens. “Big Brother” thwarted by law-and American consumers have a powerful champion at the Federal Bureau of Investigation.

While this war of attrition is taking place, we are losing in the trenches. Foreign vendors are happily supplying strong 128-bit encryption to our foreign purchasers. Some of these vendors have publicly thanked the U.S. government for helping them to develop thriving businesses. Importantly, current U.S. policy represents a surrender of our advantage by law-and Americans has a powerful champion at the Federal Bureau of Investigation.

Most foreigners believe the U.S. government will use this capability to spy on them; for law enforcement, political and economic information. Foreigners will simply buy elsewhere, period. It’s pretty simple to me. What foreign entities would want to surrender information about what they can easily avoid this by purchasing someone else’s product?

Again, I turn to the approach advocated by Senator Burns and Senator Leahy. S. 909 as adopted by the Senate Commerce Committee only does not go far enough. While it makes some minor modifications to export controls, it also goes in the totally wrong direction by starting down the path of domestic controls on encryption.

Washington state and American companies deserve the opportunity to compete free from government restrictions. Their role in the international marketplace should be determined by their ingenuity and creativity rather than an artificial overlay of arbitrary export controls. The time to act is now, the longer we wait, the further behind America gets on this issue.

RECOGNITION OF GIRL SCOUT GOLD AWARD RECIPIENTS

Mr. JOHNSON. Mr. President, I want to take this opportunity today to recognize Misty Hansen of Girl Scout Troop 1080. Misty is an outstanding young woman who has received the Girl Scout Gold Award from the Nyoda Girl Scout Council in Huron, South Dakota. The Girl Scout Gold Award is the highest achievement award in U.S. Girl Scouting. This award exemplifies her outstanding feats in the areas of leadership, community service, career planning and personal development.

Misty is one of just 20,000 Gold Award recipients since the creation of the program in 1980. In order to receive this award, a girl must meet all of the Gold Award requirements. She earned three interest project patches: the Career Exploration Pin, the Senior Girl Scout Leadership Award and the Senior Girl Scout Challenge. Also, she created and executed a Girl Scout Gold Award project which included researching the history of the first 30 years of the Nyoda Girl Scout Council.

Mr. President, I feel Misty deserves public recognition for her tremendous service to her community and her country. I offer my congratulations to her for her hard work and effort in reaching this milestone.

JOSEPH HENRY, THE SMITHSONIAN AND FREDERICK SEITZ

Mr. MOYNIHAN. Mr. President, Friday, the 7th of November 1997, on the occasion of the bicentennial of the birth of Joseph Henry, the Joseph Henry Medal was presented to Dr. Frederick Seitz at a dinner by the Smithsonian Council. Clearly, this was a special occasion, and it was singularly appropriate that Frederick Seitz should be the honoree. The citation of the splendid gold medal reads:

The Board of Regents gratefully presents the Joseph Henry Medal to Frederick Seitz in recognition of his manifold contributions to the Smithsonian. It is the advancement of the Smithsonian’s research and educational programs in the sciences, history, and the history of science has exemplified the ideals of James Smithson’s mandate . . . “for the increase and diffusion of knowledge.”—May 4, 1997.

Having received the medal, Dr. Seitz, with his enormous erudition and no less prodigious self-effacing manner, penned a paper of that interest. Entitled, Joseph Henry: 200th Anniversary of Birth, he wrote of the belated appearance of science as a large-scale activity in the American Republic, but also of four early pioneers: Benjamin Franklin, Benjamin Thompson, Henry A. Rowland, and Joseph Henry himself. Which of us would know that Franklin discovered the Gulf Stream? That is just one of the absorbing details of this fascinating disquisition. I ask that it be printed in the Record in honor of Frederick Seitz, Joseph Henry, and all that splendid company.

The material follows:

JOSEPH HENRY; 200TH ANNIVERSARY OF BIRTH

When I first heard the rumor that I would receive the Joseph Henry Medal on this special anniversary, I assumed it was a case of mistaken identity. Very friendly calls from Senator Moynihan, Hon. Neal and Marc Rothenberg, however, finally carried conviction by letting me experience a sense of awe in playing a role on this special anniversary since the scientific community, of which I have been part for most of my life, owes so much to Henry, as I shall presently relate.

Our country, had so many difficult practical problems to solve in its early days, that it did not take much interest in the fundamental aspects of science, in contrast to the European countries, until the end of the nineteenth century, that is, about a hundred years ago when it comes to the United States, we have had a great deal of scientific activity in the American Republic, but appearance of science as a large-scale activity as it ed to be in tune with standards of manufacture internationally as well as at home. It is true that we did have the closely linked Smithsonian Institution and National Academy of Sciences at that time. However their existence was in the last analysis tied closely to the unsolicited gift in 1832 of James Smithson, an English scientist who gave what he left to The Smithsonian Institution. His addition of the splendid gold medal reads:

The Board of Regents gratefully presents the Joseph Henry Medal to Frederick Seitz in recognition of his manifold contributions to the Smithsonian. It is the advancement of the Smithsonian’s research and educational programs in the sciences, history, and the history of science has exemplified the ideals of James Smithson’s mandate . . . “for the increase and diffusion of knowledge.”—May 4, 1997.

Even though our country did not encourage the development of the basic sciences until the century we are now leaving behind, we did manage to produce from our own soil a few world-class scientists, including four truly great physicists, not least Joseph Henry, during the previous two centuries. I would like to say a few words about each.

The first was no less a person than Benjamin Franklin, born in Boston in 1706, but more generally linked to Philadelphia, his adopted home. We all know about the experiment with lightning and the kite and his research with lightning arrestors, however, the only part of that is, as a result of extensive correspondence, that our continental weather tends to have a
strong eastward drift; he discovered what we now term the Gulf Stream which encircles the Atlantic Ocean, although he falsely ascribed it to winds and Coriolis forces, but to whom the credit belongs to the emergence of a yet undiscovered underground river.

Perhaps even more remarkably, he was apparently the first to provide a precise measurement of molecular dimensions. He noted that when a quantity of the right kind of oil is poured onto water it spreads rapidly at first, forming a thin film that is spreading and is in a state of cohesion. He concluded that the thickness of the oil film at the point of maximum spread must be linked to what we would now term the size of its molecular dimensions. He measured quantities of oil he obtained an entirely reasonable value for those dimensions.

The second great scientists, namely Benjamin Thompson, incidentally, joined with Joseph Henry in establishing the Royal Institution in 1800, which he held for many years. There among many other activities he supervised the boring of cannon in the royal arsenal. Being highly observant, he noted that when he entered the cannon that were being heated during the drilling it was essentially proportional to the length of time the drilling had taken place. He concluded that the heat content of the metal was a form of energy closely related to the energy of work. This proposal stood in sharp contradiction to the popular theory of the time to the effect that the transformation of the heat energy of the coal was a form of energy closely related to the energy of work. Thompson, incidentally, came to the conclusion that the phlogiston theory must be wrong. Thompson’s treatise pointed the way to a new theory of the coal industry.

Thompson, incidentally, joined with Joseph Banks, the President of the Royal Society in establishing the Royal Institution in London where Humphrey Davy and Michael Faraday later carried out their great researches and gave popular public lectures on science. It is easy to imagine that Joseph Smith had the Royal Institution in mind as a role model for our country when he gave the money to create the Smithsonian. I should also add that Thompson came to terms with his notion in the end of the Revolutionary War, establishing good relationships with the Massachusetts community.

Slightly out of order for the moment, the third great American scientist in my list is Henry A. Rowland, born in Honesdale, Pennsylvania in 1845. He received his higher education at the Rensselaer Polytechnic Institute in Troy, New York, and was appointed to the chair in physics at the Johns Hopkins University when it opened its doors in 1876. He carried on research in many areas of physics, but is probably best known for the development of a machine which engraved on a material such as glass so-called diffraction gratings. These were of special use in separating different wavelengths of light. He was also interested in telegraphic equipment and invented a widely used form of telegraphy.

Rowland gained early fame as a result of an experiment he carried out in Europe in the laboratory of Hermann Helmholtz in 1875, the year before he took residence in Baltimore. In the previous decade, the very brilliant Scottish physicist, James C. Maxwell, had proposed the idea concerning electromagnetic phenomena and placed it in the form of a mutually consistent set of four mathematical equations, known as Maxwell’s equations. To achieve what his intuition told him would provide appropriate symmetry and balance in the equations, he modified one of the set of four. He amounted to saying that an isolated, moving electric charge would have a magnetic field related to the charge, but that one so weak for normal velocities achievable at the time that it would be very difficult to measure.

Helmholtz, recognizing that the young AmericanRowland was one of his first experimental instrument, suggested that he attempt to measure that field, which Rowland did with ingenuity and notable success in a remarkably short time. It should be added that Rowland had to repeat the experiment twice in later decades in order to convince others who had tried to duplicate his work without success. I should add at this point that one of the most frequent discoveries is that of electromagnetic waves traveling along a wire. He decided that ordinary visible light must consist of electromagnetic waves. He then went on to look into the matter on a laboratory scale to see if he could generate much longer waves, independent of a light source. He succeeded in obtaining private funds which made it possible for the Academy to have a new home of its own on Constitution Avenue, adjacent to the National Mall, incidentally, was also New York, having been born in New York Mills near Utica in 1830.

Our debt to Joseph Henry can perhaps be summarized by saying that, in addition to establishing a high standard for scientific research through his own laboratory work, he encouraged general acceptance of those standards and took leadership in establishing National institutions which could carry them forward. In other words, he did much to establish a scientific community in the United States, which Washington had done in helping to establish the republic in which we have the good fortune to live. I can think of no higher praise.

DANIEL URBAN KILEY, 1997 NATIONAL MEDAL OF ARTS WINNER

Mr. LEAHY. Mr. President, it is with great pleasure that I pay tribute to Daniel Urban Kiley, a landscape architect from Charlotte, Vermont, who was named by President Clinton as recipient of the 1997 National Medal of Arts. Established by Congress in 1985, this award honors individuals who have made outstanding contributions to the arts in our nation.

My wife, Marcelle, and I have enjoyed the work of Daniel Urban Kiley for many years and it is a great privilege to do something in Vermont, and a friend, has received this national recognition.

I ask to have printed in the RECORD a list of Mr. Kiley’s accomplishments put together by the awards committee. The war followed.

As one of this country’s most eminent landscape designers, Daniel Kiley combines...
experience and imagination with the vision to create classic civic design where building and site come together as one. In a professional career spanning over 50 years, Kiley has worked on some of this country’s most important commissions along with many of today’s most distinguished architects and firms in 16 foreign countries. He has helped design many of the nation’s most prominent buildings, including the National Gallery of Art East Wing, National Sculpture Garden—all in Washington, D.C. More recently, he worked on the design of the Memorial to the Great Holocaust, the American Academy in Rome, and the Charlottesville Civic Center. His own experience as a student of the world has been shared with thousands of students and future leaders.

Mr. Forest does not rely on easily outdated texts to teach about the ever changing world, but instead has designed his own curriculum. As a frequent traveler, Mr. Forest brings to his classroom videos and stories from around the globe. The posters of Chairman Mao’s Cultural Revolution and the pottery shards used by his archeology students are tangible examples of how Keith Forest’s teaching brings world history to life.

Mr. Forest has taught social studies at Decatur High School in Washington State for 15 years and his reputation precedes him through the halls. Students line up to take his classes, knowing the hands-on, in-depth exposure they will receive in his class. His passion and enthusiasm for helping his students grasp socio-political concepts and foreign affairs easily transfers to his eager classroom participants.

A Fulbright Scholar, Mr. Forest has studied in Japan, Korea and China and has led numerous expeditions and exchange programs. He wrote the Washington State curriculum on the Holocaust after a trip to Israel. Additionally, he authored the Port of Seattle sponsored curriculum on international trade that is used throughout the State.

Congratulations to Keith Forest and the World Affairs Council. Your work in the classroom echoes through our State and educates us all.

FIRST ANNUAL WORLD EDUCATOR AWARD

Mrs. MURRAY. Mr. President, I rise to join the World Affairs Council in congratulating Mr. Keith Forest of Decatur High School in Federal Way, Washington, as the very first recipient of the World Educator Award. The World Affairs Council is a 1,200 member volunteer organization of business and community leaders with more than 40 years of experience. Through its many programs, including the Global Classroom, the World Affairs Council has been an instrumental force in educating the people of my State about the world around us; our varied and diverse cultures, changing political and security environments, and of course, the importance of international trade. It is appropriate and noteworthy that this highly respected organization would annually recognize a World Educator in our State.

On December 6, 1997, Mr. Keith Forest will be presented with the World Educator Award. This award recognizes an outstanding teacher of the world including global cultures, contemporary world issues and world languages.

I would like to join the World Affairs Council in acknowledging and recognizing Keith Forest for his invaluable contributions to our children’s understanding of the world. Keith Forest has been a teacher for more than 25 years. His own experience as a student of the world has been shared with thousands of students and future leaders.

ADPTION PROMOTION ACT OF 1997

Mr. CRAIG. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of calendar No. 66, H.R. 867.

The PRESIDING OFFICER. Without objection, it is so ordered.

The legislative clerk read as follows:

A bill (H.R. 867) to promote the adoption of children in our country.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 161

(Purpose: To provide a complete substitute)

Mr. CRAIG. Mr. President, I have a substitute amendment at the desk, and I ask for its consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The legislative clerk read as follows:

A bill (H.R. 867) to promote the adoption of children in our country.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 161

(Purpose: To provide a complete substitute)

Mr. CRAIG. Mr. President, I have a substitute amendment at the desk, and I ask for its consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Idaho [Mr. CRAIG] proposes an amendment.

Mr. CRAIG. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The text of the amendment is printed in today’s RECORD under “Amendments Submitted.”)

Mr. ROTH. Mr. President, today, it is my pleasure to support and urge passage of the Promotion of Adoption, Safety, and Support for Abused and Neglected Children Act or the PASS Act for short. This legislation contains the right combination of reforms to dramatically change the child welfare system for the better.

The foster care system reflects a part of modern society which prompts us to ask many questions of ourselves and each other. It is a mirror which can be troubling to look into.

Many of these cases are complex and that the length of time in foster care is not always a factor. For instance, the number of children in foster care increased from 276,000 to 491,000, an increase of nearly 80 percent. Much of this increase is due to the war in Iraq, which continues to unleash their destructive powers on communities and families. Those who believe for even a foolish moment that drug use is a victimless crime are proven wrong by these regret trends in the welfare system. One need only to look inside the hospital crib of an abandoned crack baby to understand the truth.

The Department of Health and Human Services estimates that 100,000 children currently in foster care cannot return home without jeopardizing their health, safety, and development.

There is great concern that more children are staying in foster care for longer periods of time. The very laws which are intended to protect children now fail in their practice work against their best interests.

The child welfare system itself is complex and is composed of many parts and programs. Although the Federal Government has assumed a greater share of the cost of these programs in recent years. State and local governments still provide the majority of the resources for the child welfare system in fiscal year 1997, the Federal Government contributed approximately $5 billion to the child welfare system. Of this amount, 85 percent was spent through title IV—E programs. CBO estimates that under current law, outlays for foster care and adoption assistance will increase by more than 50 percent from $8 billion in fiscal year 1997 to $12.9 billion in 2002.

Federal funds are used to subsidize about half of the children in foster care and about two-thirds of the children receiving adoption assistance payments. The Promotion of Adoption, Safety, and Support for Abused and Neglected Children Act includes much needed reforms to the child welfare system.
The PASS Act provides that in determining “reasonable efforts,” the child’s health and safety shall be the paramount concern. It clarifies circumstances, including murder, voluntary manslaughter, and felony assault under which “reasonable efforts” to reunite families are not required. It requires the States to initiate or join proceedings to terminate parental rights if a child has been in foster care for 18 months or more in the most recent 18 months. The PASS Act strengthens the “permanency plan” for children in foster care. It requires criminal background checks for prospective foster care and adoptive parents and any other adults residing in the household and employees of foster care institutions. The amendment specifies circumstances when approval shall not be granted.

The PASS Act provides adoption incentive payments to the States to increase the number of children which may total $6,000 per child. It expands the number of child welfare demonstration projects. The Act also reauthorizes and expands the Family Preservation and Support Services program and includes reforms to this program.

It renames the program to the Promoting Adoptive, Safe, and Stable Families program. Funding is increased by $50 million. The amendment adds adoption promotion and time-limited family reunification services to the program. It removes geographic barriers to adoption.

The PASS Act requires States to provide for health insurance coverage for adopted children with special needs. It continues eligibility for adoption assistance payments for children whose initial adoption has been disrupted. It provides for an annual report on the State performance in protecting children.

The PASS Act requires the Secretary of Health and Human Services to recommend to Congress a new incentive system based on State performance within 6 months. The PASS Act once again calls upon our State partners to address the problems of a system in much need of reform. This will be the first significant reform of the child welfare system since 1980.

We have enacted sweeping welfare reform and Medicaid reform legislation. We have created a new partnership with the States through the State Children’s Health Insurance Program. The PASS Act calls upon the States to channel their efforts to the child welfare system—system that was never designed and never intended to provide a permanent home for children who have been abused and neglected by their parents. Tragically, many of these children could be adopted, but are forced to wait to become a part of a new family because the current child welfare system has become tired and broken. Most vulnerable among this already fragile population are those children with special needs—children who, without help and strong governmental support, will never have the opportunity to become a part of an adoptive family.

Acknowledging our collective obligation to let no child fall through the cracks of the system, especially for those facing severe emotional, physical, and other circumstantial limitations—I am pleased to have the opportunity to lend my vote and full support to the Promotion of Adoption Safety and Support for Abused and Neglected Children (PASS) Act. Through legislation, the produce of a series of hard-fought and sometimes painful compromises, represents a positive first step in a long journey of essential work to be done on behalf of abused and neglected children.

While many of us properly acknowledge that the journey is by no means over, we would not have been able to come this far had it not been for the unflagging leadership of my good friend and colleagues Senators JON CHAFER and LARRY CRAIG. They are the reason that this unique bipartisan coalition has been able to bring this bill forward. I would also like to express my special thanks to the other hard-working members of the Senate adoption working group who have made this first step possible: Senators JEFFORDS, DEWINE, COATS, BOND, LANDRIEU, LEVIN, MOYNIHAN, KERRY, and DORGAN. Finally, I would like to acknowledge the efforts of everyone who has made it possible for this legislation to be fairly considered here today.

The PASS Act will fundamentally and positively shift the focus of the current foster care system by insisting, for the first time in Federal law, that a child’s health and safety and the opportunity to find a loving, permanent home, should be the paramount considerations when a State child welfare agency makes any decision regarding the well-being of an abused and neglected child. The primary objective of this bill is to move abused and neglected kids into adoptive or other permanent homes and to do more quickly and more safely than ever before.

While PASS appropriately preserves current Federal requirements to reunify families when that is best for the child and family, it does not require States to use “reasonable efforts” to reunify families that have been irreparably broken by abandonment, torture, physical abuse, murder, manslaughter, and sexual assault. Thanks to Chairman ROTH, the legislation includes a new fast track provision for such children in cases of severe abuse. Under the new provision, when reasonable efforts are not appropriate, a permanency planning hearing would be held within 30 days. In practice, this change could yield tremendous results. For example, in the case of an abandoned infant where reasonable efforts are waived, a permanency hearing would be scheduled within the month, and that child could be moved swiftly into a safe and permanent home. To provide balance, the legislation requires that the States use the same “reasonable efforts” to move children towards adoption or another permanent placement consistent with a well-thought out and well-monitored plan.

In addition, PASS encourages adoptions by rewarding States that increase adoptions with bonuses for foster care and special needs children who are placed in adoptive homes. Most significantly, the legislation takes the essential step of ensuring health coverage for all special needs children who are adopted. Without this essential health coverage, many families who want to adopt children with a range of physical and mental health issues would be unable to do so. I am happy to see that medical coverage, which has always been a vital cornerstone of any program that substantially helps children, is also a key component of this bipartisan package.

Ensuring safety and the well-being of neglected children is another significant component of this legislation. The PASS Act would require the States to use the same “reasonable efforts” to move children towards adoption or another permanent placement consistent with a well-thought out and well-monitored plan. PASS also cuts by one-third the time a child must wait for approval for adoption into a permanent home by requiring States to file a petition for termination of parental rights for a child who has been waiting too long in a foster care placement. At the same time that it speeds adoptions where appropriate, it also gives States the discretion to choose not to initiate legal proceedings when a child is safely placed with a relative, where necessary services have not been provided to the family, or where the State documents a compelling reason not to do so.

At the same time that this bill imposes tough but effective measures to decrease a child’s unnecessary wait in
foster care. PASS continues investments in strengthening families at the community level by reauthorizing the 1993 budget provision for family preservation and family support for 3 years, with an extra $60 million in funding. This is an innovative prevention program that the bill’s new language encourages States to ensure that adoptive families are also served by the program. As part of a balanced bipartisan package, these programs will support a range of fundamental State services to help parents, strengthen adoption, and sometimes murderous parents. States are not required to make reasonable efforts to reunite children with their abusive parents at the end of the year, averting foster care or other out-of-home placement. The relief nursery, in your bill.

Mr. WYDEN. Mr. President, the reau-thorization of the Family Preservation and Support Act is important to families who are at risk or in crisis. One notable service now specifically mentioned in the bill is the care provided by a crisis nursery. Crisis nurseries provide intensive, personalized, and long-term services to families with children in crisis nurseries work because they provide a safe, stable, and permanent home.

Mr. HELMS. Mr. President, I am gratified that Congress is today passing legislation to promote the adoption of children in foster care. This legislation is not perfect, but it does clarify that it is in the best interest of every child—regardless of his or her age, race or special need—to be raised by a family who will provide a safe, stable, and permanent home.

Congress should be unmistakably clear in expressing this judgment: Foster care children should not be returned to unfit, abusive parents; and the barriers that currently prevent the adoption of foster care children must be lifted. Believe me, Mr. President, there is no shortage of prospective parents. The National Council for Adoption estimates that 2 million couples are awaiting to adopt a child. Nonetheless, many children reach adulthood and leave the foster care system without ever becoming part of a permanent home.

Because the current Federal law requires States to make reasonable efforts to reunite children with their biological parents, children have tragically been returned to their abusive and sometimes murderous parents. Under this adoption-foster care bill, States are no longer required to make reasonable efforts to reunite children with parents who have murdered another child; committed a felony assault that results in serious bodily injury to a child; or who pose a serious risk to a child’s life.

Foster care children who can never return safely home should not be left to linger in the foster care system—which, after all, is supposed to be temporary—because they should be placed up for adoption, and the parental rights of abusive parents should be terminated so adoption can take place.

Let me be clear, parents who use reasonable discipline in rearing their children are not the parents who should have their rights terminated. This legislation includes language to ensure that reasonable discipline—such as reasonable spanking—but are growing up in foster care. The numbers speak for themselves. There are more than half a million children currently living in foster care—an alarmingly high number which illustrates how the foster care system is in disarray.

Is it not the responsibility of our civilized society to ensure the safety and well-being of these vulnerable children by promoting adoption? And shouldn’t we provide the opportunity to grow up in a safe and supportive home for a child? I believe the answer is clearly yes.

CRISIS NURSERIES

Mr. WYDEN. Mr. President, the reauthorization of the Family Preservation and Support Act is important to families who are at risk or in crisis. One notable service now specifically mentioned in the bill is the care provided by a crisis nursery. Crisis nurseries provide intensive, personalized, and long-term services to families with children in crisis.

One crisis nursery in particular, the relief nursery of Eugene, OR, is a model child abuse and prevention program. After involvement with the relief nursery, fewer than 9 percent of the 373 children served reported abuse, neglect, or domestic violence to the State child protection office. Moreover, 82 percent of children served by the relief nursery are living safely with their parents at the end of the year, averting foster care or other out-of-home placement. The relief nursery has accomplished these results through dedication to comprehensive family services as well as to programs that strengthen the parent–child relationship.

Does the Senator agree that crisis nurseries can play an important role in saving families?

Mr. ROCKEFELLER. Yes. Crisis nurseries have reduced child abuse incidents and, ultimately, reduced the necessity for foster care placements. Crisis nurseries can save a family.

Mr. WYDEN. I think the relief nursery is a needed member of the community, providing invaluable services to children who need them most. Crisis nurseries work because they provide intensive, personalized, and long-term services to families with children in crisis.
Mr. MCCAIN. Mr. President, I rise today to express my support for the establishment of a national voluntary mutual reunion registry contained in section 205 of the Promotion of Adoption, Safety, and Support for Abused and Neglected Children [PASS] Act. This act, signed into law by President Clinton, is an opportunity for Congress to assist States in providing for children has increasingly crumbling schools, or guaranteeing the Nation's children the health and safety of children in foster care and adoption system work for the children it is meant to serve. I thank my colleagues for their efforts and for their commitment to common sense, and urge the Senate to approve the PASS Act.

Mr. Wyden. Mr. President, in significant ways, the promotion of adoption, safety, and support for abused and neglected children represents an important step forward in Federal policy for child welfare. It parallels Oregon's best interest of the child bill in its recognition of the crucial importance of timely achievement of permanent family placements for children who must be temporarily placed in foster care. Furthermore, the child's health and safety are paramount concerns in considerations of reasonable efforts for family preservation. The PASS Act also broadens support for adoption assistance for families, and emphasizes the link between the child's future living arrangements, but the bill's intense interest in kinship caregivers are, what services are provided to them and many other factors that will help us develop a national policy on this growing child welfare issue.

Another critical provision in the bill deals with standby guardianship. Many relative caregivers are caring for family members devastated by HIV/AIDS. In adoption or guardianship proceedings today, dying parents are asked to give up their custodial rights over their children in order to ensure a permanent, stable placement for their child. Under this bill, any parent who is chronically ill or near death may designate a standby guardian without being forced to surrender their parental rights. PASS encourages States who have not already passed standby guardianship laws to do so. As we seek to adequately support relative care providers caring for children, we must first ask educated questions and receive thorough answers. Ultimately, the PASS Act has made a good-faith effort to recognize and study the issue of kinship care. This is a good first step for children and families.

Mr. Craig. Mr. President, I ask unanimous consent that the substitute amendment be agreed to.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 1614) was agreed to.

Mr. Craig. Mr. President, I ask unanimous consent that the bill be considered read a third time and
passed, as amended, the motion to reconsider be laid upon the table, and that any statements relating to the bill appear at the appropriate place in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 867), as amended, was read a third time and passed.

Mr. CRAIG. Mr. President, the Senate, by this action, has just passed a major reform in the foster care of this country. An issue that bipartisan Senators have gathered on over the last several months to resolve. Senator ROTH, of the Finance Committee, in the last several weeks, working with Senator ROCKEFELLER, Senator CRAFER, myself, Senator COATS, and Senator DEWINE have taken on an effort to reform foster care in this country by the proposal of this legislation that we have now gained the concurrence of the Senate on.

It is without question, in my opinion, a landmark piece of legislation because what it does, for the first time, is use foster care the way we intended it originally to be used. It ensures the safety for abused and neglected children.

I am extremely pleased that at this late hour we could finally bring about a conclusion to this effort.

NATIONAL VOLUNTARY MUTUAL REUNION REGISTRY

Mr. CRAIG. Mr. President, I now ask unanimous consent that the Senate proceed to S. 1487 introduced earlier today by myself.

The PRESIDING OFFICER. Without objection, the clerk will report the bill.

Mr. CRAIG. Mr. President, I ask unanimous consent that the Senate proceed to consider the bill.

Mr. CRAIG. Mr. President, I ask unanimous consent that the bill be advanced to third reading and passed, and the motion to reconsider be laid upon the table, all without further action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CRAIG. Mr. President, I ask unanimous consent that the Senate proceed to consider the bill.

Mr. CRAIG. Mr. President, I ask unanimous consent that the Senate proceed to consider the bill.

The bill (S. 1487) was read a third time and passed, as follows:

S. 1487

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. NATIONAL VOLUNTARY MUTUAL REUNION REGISTRY.

Part E of title IV of the Social Security Act (42 U.S.C. 670 et seq.) is amended by adding at the end the following:

"(a) Exchange of mutually requested identifying information.—The Secretary, in the discretion of the Secretary and provided that there is no net cost to the Federal Government, may use the facilities of the Department of Health and Human Services to facilitate a mutually requested exchange of identifying information that has been mutually consented to, by an adult adopted individual who is 21 years of age or older, or:

(1) any birth parent of the adult adopted individual;

(2) any adult sibling who is 21 years of age or older, or the adult adopted individual.

If such persons involved have, on their own initiative, consented by a signed notarized statement to the exchange of such identifying information:

(b) REQUIREMENTS.—The Secretary shall ensure that a National Voluntary Mutual Reunion Registry established under this section (in this section referred to as the "Registry") meets the following requirements:

(1) CENTRALIZED CAPACITY.—The Registry provides a centralized nationwide capacity for the information described in subsection (a) and utilizes appropriately designed computer and data processing methods to protect the privacy of the information contained in the Registry and intrudes on any other data system maintained by the Department of Health and Human Services.

(2) ESTABLISHMENT OF PROCEDURES.—The Registry comprises procedures established by the Secretary that provide that:

(4) only information necessary to facilitate a match shall be contained in the Registry and the Registry shall not attempt to make contact for the purpose of facilitating a reunion with any individual who is not entered into or participating in the Registry.

(8) to the maximum extent feasible, the confidentiality and privacy rights and interests of all parties participating in the Registry are protected; and

(9) information pertaining to any individual that is maintained in connection with any activity carried out under this section shall be confidential and not be disclosed for any purpose without the prior, written, informed consent of the individual with respect to whom such information applies or is maintained.

(c) Reasonable fees.—Reasonable fees, established by taking into consideration, and not to exceed, the average charge of comparable services, may be collected for services provided under this section.

(d) Penalty for violation.—

(1) fine and imprisonment.—Any individual or entity that is found to have disclosed or used confidential information in violation of the provisions of this section shall be subject to a fine of $5,000 and imprisonment for a period not to exceed 1 year.

(2) Nonapplicability of section 5321 of title 18 of United States Code. The provisions of section 5321 of title 18, United States Code, shall not apply to a violation described in paragraph (1).

(e) No Preemption.—Nothing in this section invalidates or limits any law of a State or of a political subdivision of a State concerning adoption and the confidentiality of that State's sealed adoption record policy.

Mr. LEVIN. Mr. President, once again the Senate has gone on record in support of a measure aimed at humanizing the process through which adult biological relatives separated by adoption, who are looking for each other, can make contact.

The passage of the Craig-Levin bill would not have been possible without the steadfast leadership of Senator LARRY CRAIG. His sensitivity, his commitment, his compassion and his clear understanding of this issue has been enlightening to all of the Members of this body. Let me also thank Senator MCAIN and Senator LANDRIEU for their commitment and bipartisan spirit throughout our discussions on this issue.

Mr. President, we are deeply touched by the difficulties experienced by adult adopted persons, birth parents, and separated siblings who, often for many years, have been seeking one another. Aside from the natural human desire to know one's roots and genetic heritage, there are other important reasons why many birth relatives seek to make contact with each other. Some are seeking a deeper sense of identity, some need vital information which may affect their own mental and physical health and some are facing momentous family decisions that require more knowledge about their heritage; and a substantial percentage of birth parents say they want to be available to the adult children many relinquished at birth, during a time of stress, should they also desire to make contact.

We believe that S. 1487, the National Voluntary Mutual Reunion Registry, deals with these needs and emotions in a careful and sensitive way. The legislation permits the HHS Secretary, at no net expense to the Federal Government, to facilitate the voluntary, mutually requested exchange of identifying information that has been mutually consented to in a signed notarized statement of identifying information to the birth parent that the birth parent 21 years or older or adult siblings.

This legislation does not call for the unsealing of adoption records. Currently, over half the States provide for voluntary and mutual reunion facilitation of reunions. However, these systems are restricted, by nature, to the geographic boundaries of the State. Since we are a mobile society, that limitation reduces the utility of State-based systems. Adoptions are often started in one State and completed in another. Additionally, the adoptee, birth parent or siblings may be a resident of several different States during their lifetimes.

Finally, Mr. President, this legislation does not apply to States that comply with procedures established by the Department of Health and Human Services.

I commend my colleagues in the Senate on the passage of this humane and much-needed legislation. I ask unanimous consent that the text of the bill be included in the RECORD again at this point.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

Mr. CRAIG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.
PRIVATE RELIEF ACT OF BELINDA McGRregor

Mr. CRAIG. Mr. President, I ask unanimous consent that the Senate proceed to Calendar No. 275, S. 1394.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (S. 1394) for the relief of Belinda McGregor.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on the Judiciary, with amendments, as follows:

(Shades of the parts of the bill intended to be stricken are shown in boldface brackets and the parts of the bill intended to be inserted are shown in italic.)

S. 1394

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PERMANENT RESIDENCE.

Notwithstanding any other provision of law, for purposes of the Immigration and Nationality Act (8 U.S.C. 1101 et seq.), Belinda McGregor shall be held and considered to have been selected for a diversity immigrant visa for fiscal year 1998 as of the date of the enactment of this Act upon payment of the required visa fee.

SEC. 2. REDUCTION OF NUMBER OF AVAILABLE VISAS.

Upon the granting of permanent residence to Belinda McGregor as provided in this Act, the Secretary of State shall instruct the proper officer to reduce by one number during the current fiscal year the total number of immigrant visas available to natives of the country of the alien’s birth under section 203(c) of the Immigration and Nationality Act (8 U.S.C. 1153(c)).

THE CALENDAR

Mr. CRAIG. Mr. President, I ask unanimous consent that the Senate proceed to Calendar No. 267, S. 508; No. 268, S. 857; H.R. 2731; and H.R. 2732; that the bills be considered read the third time and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bills be printed in the Record.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVATE RELIEF OF MAI HOA “JASMIN” SALEHI

The bill (S. 508) to provide for the relief of Mai Hoa “Jasmin” Salehi, was considered, ordered to be engrossed for a third reading, read the third time, and passed, as follows:

S. 508

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, Notwithstanding any other provision of law, for purposes of the Immigration and Nationality Act (8 U.S.C. 1101 et seq.), Mai Hoa “Jasmin” Salehi, shall be held and considered to have been lawfully admitted to the United States for permanent residence as of the date of the enactment of this Act upon payment of the required visa fee.

PRIVATE RELIEF OF ROY DESMOND MOser

The bill (H.R. 2732) for the relief of Roy Desmond Moser, was considered, ordered to a third reading, read the third time, and passed.

PRIVAtE RELIEF OF JOHN ANDRE CHALOT

The bill (H.R. 2732) was considered, ordered to a third reading, read the third time, and passed.

Mr. GRAHAM. Mr. President, these two bills will provide relief for two men who have fought with valor and honor for this country. H.R. 2731 and H.R. 2732 will provide justice for two Americans by correcting the date they became U.S. citizens.

One of these men, John Andre Chalot, resides in my home State of Florida. Mr. Chalot, a retired postal worker living in Bradenton, FL, was born in Le Havre, France, on December 19, 1919. He immigrated to the United States with his parents in 1921. After being graduated from high school in 1939, he sought to enlist in the U.S. Army Air Corps. Because he was considered too young to fly in the corps he moved to Canada, joined the Royal Canadian Air Force [RCAF], and received his pilot wings. He flew Spifftires with the RCAF based in England from 1940 to 1943. While still in England, Mr. Chalot transferred to the U.S. Army Corps, 358th fighter Squadron, and received his commission as second lieutenant. At the time of his commission in 1943, Mr. Chalot had completed the naturalization process to become a U.S. citizen. Unfortunately, our Government misplaced Mr. Chalot’s naturalization forms somewhere in the process.

Early in 1944, while flying a routine P-51 mission over Germany, Mr. Chalot’s plane was fired upon and hit, causing him to crash-land in Holland. With the help of the Resistance, Mr. Chalot managed to get to Paris, but in July 1944, he was betrayed by Gestapo agents and confined at Fresnes Prison. In August 1944, Germans crowded Mr. Chalot and 186 Allied airmen into boxcars and transported them to Buchenwald concentration camp. There they were confined in miserable, degrading, and inhumane conditions, forced to subsist on a starvation diet, and subjected to Nazi medical experiments. In November 1944, Mr. Chalot and most of his fellow airmen were transferred from Buchenwald to Luftstalag III, an infamous subcamp of Buchenwald, where they remained until their liberation at the end of the war.
After the war, Mr. Chalot returned to the United States, and was finally naturalized as a U.S. citizen on September 18, 1945.

On September 5, 1997, the Commission denied Mr. Chalot’s claim on the ground that he was not a U.S. citizen during his time as a Nazi prisoner of war and was, therefore, ineligible for compensation. H.R. 2731 would modify the date Mr. Chalot became a U.S. citizen and make him eligible for compensation under the Agreement Between the Federal Republic of Germany and the United States of America.

The other bill, H.R. 2732, provides relief for Mr. Roy Desmond Moser, a Massachusetts resident with an almost identical situation.

This legislation would make Mr. Chalot and Mr. Moser eligible for compensation by deeming them to be naturalized citizens as of the dates they began their military service.

Mr. President, I believe that these two bills provide relief for two courageous men who fought for our Nation during World War II. I hope my colleagues understand the personal significance of these measures for these two individuals.

ASIAN ELEPHANT CONSERVATION ACT OF 1997

Mr. CRAIG. Mr. President, I ask unanimous consent the Senate now proceed to the immediate consideration of Senate Concurrent Resolution 66, submitted earlier today by Senator McCAIN.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 66), to amend the Morris K. Udall Scholarship and Excellence in National Environmental and Native American Public Policy Act of 1992 to establish the United States Institute for Environmental Conflict Resolution to conduct environmental conflict resolution and training, and for other purposes; the Clerk of the Senate shall make the following correction in section 10 of the Morris K. Udall Scholarship and Excellence in National Environmental and Native American Public Policy Act of 1992 (as amended by section 6 of the bill): Strike subsection (c) and insert the following:

"(c) NOTIFICATION AND CONCURRENCE.—

"(1) NOTIFICATION.—An agency or instrumentality of the Federal Government shall notify the chairperson of the President's Council on Environmental Quality when using the Foundation or the Institute to provide the services described in subsection (a).

"(2) NOTIFICATION DESCRIPTIONS.—In a matter involving agencies or instrumentalties of the Federal Government, notification under paragraph (1) shall include a written description of—

"(A) the issue or issues involved;

"(B) prior efforts, if any, undertaken by the agency to resolve or address the issue or issues;

"(C) all Federal agencies or instrumentalties with a direct interest or involvement in the matter and a statement that all Federal agencies or instrumentalties agree to dispute resolution; and

"(D) other relevant information.

"(3) CONCURRENCE.—

"(A) IN GENERAL.—In a matter that involves 2 or more agencies or instrumentalties of the Federal Government (including branches or divisions of a single agency or instrumentality), the agencies or instrumentalties of the Federal Government shall obtain the concurrence of the chairperson of the President's Council on Environmental Quality before using the Foundation or Institute to provide the services described in subsection (a).

"(B) INDICATION OF CONCURRENCE OR NON-CONCURRENCE.—The chairperson of the President's Council on Environmental Quality shall indicate concurrence or nonconcurrence under subparagraph (A) not later than 20 days after receiving notice under paragraph (2).

"(4) EXCEPTIONS.—

"(1) LEGAL ISSUES AND ENFORCEMENT.—

"(A) IN GENERAL.—A dispute or conflict involving agencies or instrumentalties of the Federal Government (including branches or divisions of a single agency or instrumentality) that concern purely legal issues or matters, interpretation or determination of law, or enforcement of law by 1 agency against another agency shall not be submitted to the Foundation or Institute.

"(B) APPLICABILITY.—Subparagraph (A) does not apply to a dispute or conflict concerning—

"(i) agency implementation of a program or project;

"(ii) a matter involving 2 or more agencies with parallel authority requiring facilitation and coordination of the various government agencies; or

"(iii) a nonlegal policy or decisionmaking matter that involves 2 or more agencies that are jointly operating a project.

"(2) OTHER MANDATED MECHANISMS OR AVERAGES.—A dispute or conflict involving agencies or instrumentalties of the Federal Government (including branches or divisions of a single agency or instrumentality) for which Congress by law has mandated another dispute resolution mechanism or avenue to address or resolve shall not be submitted to the Foundation or Institute.

GROUP HOSPITALIZATION AND MEDICAL SERVICES FEDERAL CHARTER REPEAL ACT

Mr. CRAIG. I ask unanimous consent the Senate proceed to the immediate consideration of Calendar No. 261, H.R. 497.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (H.R. 497) to repeal the Federal charter of Group Hospitalization and Medical Services, Inc., and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Governmental Affairs, with an amendment to strike all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. CHARTER FOR GROUP HOSPITALIZATION AND MEDICAL SERVICES, INC.

The Act entitled "An Act providing for the incorporation of certain persons as Group Hospitalization and Medical Services, Inc.", approved August 11, 1939, is amended—

(1) by inserting after section 9 the following new section:

"SEC. 10. The corporation may have 1 class of members, consisting of at least 1 member and not more than 29 members, and up to 1 member or 3 members, each of whom is the holder of a share, or as many members as the board of directors, by action of the corporation, shall designate and appoint, and such member shall be a nonprofit corporation.''

(2) and redesignating section 10 as section 11;

(3) by adding at the end of section 11 (as so redesignated) the following: "The corporation

SEC. 2. CONSISTENT COVERAGE FOR INDIVIDUALS ENROLLED IN A HEALTH PLAN ADMINISTERED BY THE FEDERAL BANKING AGENCIES.

(a) ENROLLMENT IN CHAPTER 89 PLAN.—For purposes of chapter 89 of title 5, United States Code, any period of enrollment shall be deemed to be a period of enrollment in a health benefits plan under chapter 89 of such title, if such enrollment is—

(i) in a health benefits plan administered by the Federal Deposit Insurance Corporation before the termination of such plan on January 3, 1998; or

(ii) subject to subsection (c), in a health benefits plan (not under chapter 89 of such title) with respect to which the eligibility of any employee, annuitant, or former spouse (within the meaning of section 8905a of such title) to continued coverage under such plan on January 3, 1998, is entitled to continued coverage under a health benefits plan described in paragraph (1) or (2) of subsection (a) or (2) of subsection (b) of section 8905a of such title.

(b) ENROLLMENT; CONTINUED COVERAGE.—

(1) ENROLLMENT.—Subject to subsection (c), any individual who, on January 3, 1998, is enrolled in a health benefits plan described in paragraph (1) or (2) of subsection (a) may enroll in an equivalent benefits plan under chapter 89 of title 5, United States Code, either as an individual or for self and family, if, after taking into account the provisions of subsection (a), such individual satisfies similar requirements or provisions of the Retirement Plan for Employees of the Federal Reserve System.

(2) DETERMINATIONS.—Any determination under paragraph (1)(B) shall be made under guidelines established by the Office of Personnel Management in consultation with the Board of Governors of the Federal Reserve System.

(3) CONTINUED COVERAGE.—Subject to subsection (c), any individual who, on January 3, 1998, is entitled to continued coverage under a health benefits plan described in paragraph (1) or (2) of subsection (a) shall be deemed to be entitled to continued coverage under section 8905a of title 5, United States Code, but only for the same remaining period as would have been allowable under the health benefits plan in which such individual was enrolled on January 3, 1998, if—

(A) the individual had remained enrolled in that plan; and

(B) that plan did not terminate, or the eligibility of such individual with respect to that plan did not terminate, as described in subsection (a).

(4) COMPARABLE TREATMENT.—Subject to subsection (c), an individual described in paragraph (1) or (2) of subsection (a) as an unwed-dependent child, who does not then qualify for coverage under chapter 89 of title 5, United States Code, as a family member (within the meaning of that chapter) shall be deemed to be entitled to continued coverage under section 8905a of that title, to the same extent and in the same manner as if such individual had, on January 3, 1998, ceased to meet the requirements of being considered an unwed-dependent child of an enrollee under such chapter.

(5) EFFECTIVE DATE.—Coverage under chapter 89 of title 5, United States Code, pursuant to paragraph (1) or (2) of subsection (a) under which such an enrollee enrolled under this section shall become effective on January 4, 1998.

(c) ELIGIBILITY FOR FEHBP LIMITED TO INDIVIDUALS TO WHOM AN EMPLOYEE HEALTH BENEFITS PLAN IS UNABLE TO PROVIDE COVERAGE.—Notwithstanding paragraph (2) of section 8905a of title 5, United States Code, an individual in subsection (a) (other than an individual described in paragraph (3) who, on January 3, 1998, is covered under a health benefits plan described in paragraph (1) or (2) of subsection (a) as an unwed-dependent child) is eligible for enrollment under such section if such individual is either a State or Federal employee or a retired employee of the Board of Governors of the Federal Reserve System termi- nates on January 3, 1998.

(d) TRANSFERS TO THE EMPLOYEES HEALTH BENEFITS FUND.—The Federal Deposit Insurance Corporation and the Board of Governors of the Federal Reserve System shall transfer to the Employees Health Benefits Fund, under section 8909 of title 5, United States Code, amounts determined by the Director of the Office of Personnel Management after consultation with the Federal Deposit Insurance Corporation and the Board of Governors of the Federal Reserve System, to be necessary to reimburse the Fund for the cost of providing benefits under this section not otherwise paid for by the individuals covered by this section. The amounts so transferred shall be held in the Fund and used by the Office of Personnel Management in addition to amounts available under section 8906(g)(1) of title 5, United States Code.

(e) ADMINISTRATION AND REGULATIONS.—The Office of Personnel Management—

(1) shall administer the provisions of this section to provide for—

(A) a uniform notice and open enrollment for individuals affected by this section; and

(B) no lapse of health coverage for individuals who enroll in a health benefits plan under chapter 89 of title 5, United States Code, in accordance with this section; and

(2) may prescribe regulations to implement this section.

(f) TITLE OF CERTAIN HEALTH BENEFITS.—The term "Federal Employee Health Benefits Program" means the program of health benefits established under chapter 89 of title 5, United States Code.

(g) TRAVEL AND SUBSEQUENT ENROLLMENT.—The provisions of this section shall apply with respect to any individual whose eligibility for coverage under this section is terminated on January 3, 1998.

(h) ASCERTAINMENT.—The Director of the Office of Personnel Management and the Board of Governors of the Federal Reserve System shall determine by the Director of the Office of Personnel Management and the Board of Governors of the Federal Reserve System which the eligibility of any employee, annuitant, or former spouse (within the meaning of section 8905a of such title) to continued coverage under such plan on January 3, 1998, is entitled to continued coverage under a health benefits plan described in paragraph (1) or (2) of subsection (a) or (2) of subsection (b) of section 8905a of such title.

(i) AMENDMENT.—The amendment made by this section—

(A) is in addition to the amendments made by chapter 89 of title 5, United States Code; and

(B) is subject to the proviso of section 8909 of title 5, United States Code.

4.14.205

Mr. CRAIG. I ask unanimous consent that the Senate proceed to the immediate consideration of calendar item No. 251, Senate Concurrent Resolution 58.

The PRESIDING OFFICER. The concurrent resolution (S. Con. Res. 58) was agreed to.

The preamble was agreed to.

The concurrent resolution, with its preamble, is as follows:

S. CON. RES. 58

WHEREAS the Russian legislature approved a bill "On Freedom of Conscience and Religious Association", and Russian President Boris Yeltsin signed it into law on September 26;

WHEREAS under the new law, the Russian government exercises almost unrestricted control over the activities of both Russian and international religious groups;

WHEREAS the new law will grant privileged status to some religions while discriminating against others through restrictive reporting and registration requirements;

WHEREAS the new law jeopardizes religious rights by permitting government officials, in consultation with privileged religious groups, to deny or revoke the registration of minority religions and order their possible disbandment or prohibition, on the basis of such activities as home schooling, nonmedicinal forms of healing, and other vaguely defined offenses;

WHEREAS the law also restricts foreign missionary work in Russia;

WHEREAS under the new law, religious organizations or churches that wish to continue their activities in Russia will have to provide confirmation that they have existed at least 15 years, and only those who legally operated 50 years ago may be recognized as national "Russian" religious organizations;

WHEREAS although Article 14 of the Russian Constitution stipulates that "religious associations are separate from the state and are equal before the law", Article 19 states that "the right of citizens on grounds of religious affiliation are prohibited, and Article 28 stipulates that "each person is guaranteed freedom of conscience and freedom * * * to choose, hold, and disseminate religious and other convictions and to act in accordance with them", the new law clearly violates these provisions of the Russian Constitution;

WHEREAS the Russian religion law violates accepted international agreements on human rights and religious freedoms to foster human rights in the Russian Federation, including the Universal Declaration of Human Rights, the International Covenant on Civil and Political Rights, the Helsinki Act, and Madrid and Vienna Concluding Documents, and the European Convention on Human Rights;
A bill (H.R. 1086) to codify without substantive change laws related to transportation and to improve the United States Code.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. CRAIG. Mr. President, I ask unanimous consent that the bill be read the third time, and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill appear at this point in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 1086) was considered read the third time, and passed.

The PRESIDING OFFICER. The bill (S. 759) to provide for an annual report to Congress concerning diplomatic immunity.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill, which had been reported from the Committee on Foreign Relations, with an amendment to strike all after the enacting clause and inserting in lieu there of the following:

SEC. 1. REPORTS AND POLICY CONCERNING DIPLOMATIC IMMUNITY.

Title I, of the State Department Basic Authorities Act of 1956 to require the Secretary of State to submit an annual report to Congress concerning diplomatic immunity. (2) to provide for judicial protection in the receiving state by individuals with immunity from the criminal jurisdiction of the United States under laws extending diplomatic privileges and immunities.

Section 16 of title 18, United States Code.

Mr. CRAIG. Mr. President, I ask unanimous consent that the committee substitute be agreed to, the bill be considered read the third time, and passed, the motion to reconsider be laid upon the table, the title amendment be agreed to, and any statements relating to the bill appear at this point in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee amendment was agreed to.

The bill (S. 759) was considered read the third time.

The title was amended so as to read: A Bill to amend the State Department Basic Authorities Act of 1956 to require the Secretary of State to submit an annual report to Congress concerning diplomatic immunity.
AVIATION INSURANCE REAUTHORIZATION ACT OF 1997

Mr. CRAIG. Mr. President, I ask unanimous consent that the Senate now proceed to the consideration of Calendar Item No. 274, Senate 1193.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (S. 1193) to amend chapter 443 of title 49, United States Code, to extend the authorization of the aviation insurance program, and for other purposes.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill which had been reported from the Committee on Commerce, Science, and Transportation, with an amendment to strike all after the enacting clause and inserting in lieu thereof the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the “Aviation Insurance Reauthorization Act of 1997”.

SEC. 2. VALUATION OF AIRCRAFT.

(a) GENERAL AUTHORITY FOR INSURANCE AND REINSURANCE.—Section 44302(a)(2) of title 49, United States Code, is amended by striking “as determined by the Secretary,” and inserting “as determined by the Secretary in accordance with reasonable business practices in the commercial aviation insurance industry.”;

(b) MAXIMUM INSURED AMOUNT.—Section 44306(c) of title 49, United States Code, is amended by striking “as determined by the Secretary,” and inserting “as determined by the Secretary in accordance with reasonable business practices in the commercial aviation insurance industry.”;

SEC. 3. EFFECT OF INDEMNITY AGREEMENTS.

Section 44309(b) of title 49, United States Code, is amended by adding at the end the following: “If such an agreement is countersigned by the President or the President’s designee, the agreement shall constitute, for purposes of section 44309(b), a determination that continuation of the aircraft operations to which the agreement applies is necessary to carry out the foreign policy of the United States.”;

SEC. 4. AUTHORITY TO PAY ARBITRATION.

(a) AUTHORIZATION OF BINDING ARBITRATION.—Section 44309(b)(1) of title 49, United States Code, is amended by inserting after the second sentence the following: “Any successor may authorize the binding arbitration of claims made thereunder in such manner as may be agreed to by the Secretary and any commercial insurer that may be responsible for any part of a loss to which such policy relates.”;

(b) AUTHORITY TO PAY ARBITRATION AWARD.—Section 44309(b)(2) of such title is amended—

(1) by striking “and” at the end of subparagraph (A);

(2) by redesignating subparagraph (B) as subparagraph (C); and

(3) by inserting after subparagraph (A) the following:

“(B) pay the amount of a binding arbitration award made in accordance with paragraph (1) and”;

SEC. 5. EXTENSION OF PROGRAM.

(a) IN GENERAL.—Section 44310 of title 49, United States Code, is amended by striking “September 30, 2002” and inserting “December 31, 1998”;

(b) EFFECTIVE DATE.—The amendment made by subsection (a) takes effect on October 1, 1997.

SEC. 6. USE OF AIRCRAFT FOR DEMONSTRATION.

Section 44309(g)(1)(A) of title 49, United States Code, is amended—

(1) by striking “or” in clause (i);

(2) by redesignating clause (ii) as clause (iii); and

(3) by inserting after clause (i) the following:

“(ii) owned by the United States Government and operated by the person for purposes related to crew training, equipment development, or demonstration; or”;

Mr. CRAIG. Mr. President, I ask unanimous consent that the committee substitute be agreed to, the bill be considered and read a third time and passed, the motion to reconsider be laid upon the table, and that any statements relating to the bill appear at this point in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The committee substitute was agreed to.

The bill (S. 1193), as amended, was passed.

NATIONAL FAMILY WEEK

Mr. CRAIG. Mr. President, I now ask unanimous consent that the Senate proceed to the immediate consideration of Calendar Item No. 272, Senate Resolution 93.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A resolution (S. Res. 93) designating the week beginning November 23, 1997, and the week beginning November 22, 1998, as “National Family Week”, and for other purposes.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 93) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, read as follows:

S. RES. 93

Designating the week beginning November 23, 1997, and the week beginning on November 22, 1998, as “National Family Week”, and for other purposes,

Whereas the family is the basic strength of any free and orderly society;

Whereas it isfitting that official recognition be given to the importance of family loyalties and ties: Now, therefore, be it

Resolved, That the Senate designates the week beginning on November 23, 1997 and the week beginning on November 22, 1998, as “National Family Week”. The Senate requests the President to issue a proclamation calling upon the people of the United States to observe each week with appropriate ceremonies and activities.

UNIFORM RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION POLICIES ACT OF 1970 AMENDMENT

Mr. CRAIG. Mr. President, I now ask unanimous consent that the Senate now proceed to the consideration of S. 1258.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (S. 1258) to amend the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

AMENDMENT NO. 167
(Purpose: Technical Amendment)

Mr. CRAIG. Mr. President, Senator BENNETT has an amendment at the desk, and I ask for its consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Idaho (Mr. CRAIG), for Mr. BENNETT, proposes an amendment numbered 167.

On page 2, line 3, strike “(a)”.

On page 3, line 4, strike “under this Act.”.

On page 3, beginning on line 5, strike “on the basis of race, color, or national origin”.

Mr. BENNETT. Mr. President, I rise today to make a brief statement regarding S. 1258, a bill I introduced on October 6, 1997. This legislation will amend the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 to prohibit an alien not lawfully present in the United States from receiving assistance under that act. The Senate Committee on Environment and Public Works has reviewed this bill and approved it for Senate floor action.

My purpose in bringing this bill before the Senate is to address a loophole that was inadvertently created when immigration and welfare reform bills were recently enacted. In part, these bills were crafted to prevent illegal immigrants from entering the United States by denying Federal taxpayer paid benefits to illegal aliens. Currently, illegal aliens are still eligible to receive relocation assistance. Often, this assistance turns out to be a significant sum of money.

This legislation was originally introduced in the other body following an incident in California in which an illegal immigrant was awarded $12,000 because her legal status in this country made her ineligible to be moved into section 8 housing. In other instances, relocation assistance is being awarded to illegal aliens who then use the money to buy homes in their countries of origin.

This legislation simply closes a loophole which was overlooked in previous legislation and fully complies with the intent of Congress when it enacted immigration and welfare reform laws. I note that this legislation will not affect foreign nationals residing in the United States who were here before the immigration laws were enacted.
S12208

CONGRESSIONAL RECORD—SENATE

November 8, 1997

United States as legal residents or under the legal protection of a valid visa. In addition, the bill provides Federal agencies the ability to waive the provisions of this act in case of an exceptional and extremely unusual hardship.

I have one technical amendment to bring the bill into conformance with the legislation already passed by the other body. This amendment does not change the substance of the bill and I ask that it be considered with the bill.

I have worked closely with the Senate Committee on Environment and Public Works in bringing this bill to the floor. I appreciate their support and the help of committee staff in moving this legislation toward enactment.

Mr. CHAFEE. Mr. President, today the Senate is considering S. 1258, a bill introduced by Senator BENNETT to amend the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 to prohibit an alien who is not lawfully present in the United States from receiving assistance under that Act.

CBO estimates that implementing S. 1258 would cost the federal government less than $500,000 over the next two years, assuming the necessary appropriation of the required amounts. The bill would not affect direct spending or revenue; therefore, pay-as-you-go procedures would not apply. It would have no significant effect on state, local, or tribal governments.

S. 1258 would prevent persons who are not lawful present in the United States from receiving relocation payments or other assistance when real property they occupy is acquired by a federal agency or with federal financing. The bill would require the U.S. Department of Transportation (DOT) to promulgate regulations within one year of enactment to implement the new law, including procedures for determining whether a displaced person is lawfully present in the country and standards for determining when exceptional and extremely unusual hardship exists.

DOT also would be responsible for providing agencies with information on proper implementation of the law through training and technical assistance.

Based on information provided by DOT and other agencies, and assuming appropriation of the necessary amounts, CBO estimates that DOT and other federal agencies would spend less than $500,000 to develop the necessary regulations, guidelines, and training programs to implement the legislation.

I expect that the bill would have little or no effect on total administrative costs because so few transactions are likely to involve aliens who reside illegally in this country.

The bill would place a new requirement on state, local, and in some circumstances, tribal entities carrying out programs or projects with federal financial assistance that result in exceptional and extremely unusual hardship. It would require the U.S. Departments of Transportation and Housing and Urban Development, the Immigration and Naturalization Service, and the United States Information Agency to provide technical assistance.

The bill would provide for the regulation of federal agencies in implementing the law. The bill also would provide for the establishment of a fund to provide technical assistance.

The amendment was introduced by Senator BENNETT to amend the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.) as amended by adding at the end the following:

SEC. 104. DISPLACED PERSONS NOT ELIGIBLE FOR ASSISTANCE.

(a) IN GENERAL.—Except as provided in subsection (c), a displaced person shall not be eligible to receive relocation payments or other assistance under this Act if the displaced person is an alien not lawfully present in the United States.

(b) DETERMINATIONS OF ELIGIBILITY.—

(1) PROCLAMATION OF REGULATIONS.—Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation shall promulgate regulations to carry out subsection (a).

(c) EXCEPTIONS AND EXTREMELY UNUSUAL HARDSHIP.—If a displacing agency determines by clear and convincing evidence that a determination of the ineligibility of a displaced person under subsection (a) would result in exceptional and extremely unusual hardship to an individual, the Secretary of Transportation shall, on a case-by-case basis, determine whether the displaced person is lawfully present in the United States.

(d) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section affects the availability of an individual or permanent resident of the United States to receive relocation payments under any other federal law.

The amendment (No. 1617) was agreed to.

The bill (S. 1258), as amended, was passed, as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DISPLACED PERSONS NOT ELIGIBLE FOR ASSISTANCE.

Title I of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4601 et seq.) is amended by adding at the end the following:

SEC. 104. DISPLACED PERSONS NOT ELIGIBLE FOR ASSISTANCE.

(a) IN GENERAL.—Except as provided in subsection (c), a displaced person shall not be eligible to receive relocation payments or any other assistance under this Act if the displaced person is an alien not lawfully present in the United States.

(b) DETERMINATIONS OF ELIGIBILITY.—

(1) PROCLAMATION OF REGULATIONS.—Not later than 1 year after the date of enactment of this Act, the Secretary of Transportation shall promulgate regulations to carry out subsection (a).

(c) EXCEPTIONS AND EXTREMELY UNUSUAL HARDSHIP.—If a displacing agency determines by clear and convincing evidence that a determination of the ineligibility of a displaced person under subsection (a) would result in exceptional and extremely unusual hardship to an individual, the Secretary of Transportation shall, on a case-by-case basis, determine whether the displaced person is lawfully present in the United States.

(d) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section affects the availability of an individual or permanent resident of the United States to receive relocation payments under any other federal law.

SEC. 2. DUTIES OF LEAD AGENCY.

Section 213(a) of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (42 U.S.C. 4633(a)) is amended—

(1) by redesigning paragraphs (2), (3), and (4) as paragraphs (4), (5), and (6), respectively; and

(2) by inserting after paragraph (1) the following:

(2) provide, in consultation with the Attorney General (acting through the Commissioner of the Immigration and Naturalization Service), through training and technical assistance activities for displacing agencies, technical assistance and capacity building undertaken with the Attorney General (acting through the Commissioner) on proper implementation of section 104; and

(3) ensure that displacing agencies implement section 104 fairly and without discrimination in accordance with section 104(b)(2)(B)'.

Sincerely,

JUNE E. O’NEILL, Director.

Enclosure.
PERMISSION TO CONVEY CERTAIN LANDS

Mr. CRAIG. Mr. President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of S. 1347, and that the Senate then proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The legislative clerk read as follows:

A bill (S. 1347) to permit the City of Cleveland, Ohio, to convey certain lands that the U.S. otherwise owns to the city.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the bill?

There being no objection, the Senate proceeded to consider the bill.

Mr. CRAIG. Mr. President, I ask unanimous consent that the bill be read three times and passed, the motion to reconsider be laid upon the table, and that any statements relating thereto be placed in the RECORD at the appropriate place as if read.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 1347) was passed, as follows:

S. 1347

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DEFINITIONS.

For purposes of this section, the term “fair market value” shall have the meaning provided by that term by the Secretary of Transportation, by regulation.

SEC. 2. AUTHORITY TO GRANT WAIVERS.

(a) In General.—Notwithstanding any other provision of law and subject to section 4713 of title 49, United States Code, and section 3, the Secretary of Transportation may waive any of the terms contained in the deed of conveyance described in subsection (b).

(b) DEED OF CONVEYANCE.—The deed of conveyance described in this subsection is the deed of conveyance issued by the United States and dated January 10, 1967, for the conveyance of certain lands in the city of Cleveland, Ohio, for use by the city for airport purposes.

SEC. 3. CONDITIONS.

(a) FAIR MARKET VALUE OR EQUIVALENT BENEFIT.—As a condition to receiving a waiver under this section, the city of Cleveland, Ohio, may convey an interest in the lands described in section 2(b) only if the city receives, in exchange for the interest—

(1) an amount equal to the fair market value of the interest; or

(2) an equivalent benefit.

(b) USE OF AMOUNTS OR EQUIVALENT BENEFITS.—Any amount or equivalent benefit that is received by the city of Cleveland shall be used by the city for—

(1) the development, improvement, operation, or maintenance of a public airport; or

(2) lands (including any improvements to those lands) that produce revenues that are used for airport development purposes.

MEASURE PLACE ON THE CALENDAR—S. 1414

Mr. CRAIG. Mr. President, I ask unanimous consent that S. 1414 be read for a second time.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A bill (S. 1414) to reform and restructure the processes by which tobacco byproducts are manufactured, marketed and distributed to prevent the use of tobacco products by minors, to reduce the adverse health effects of tobacco use, and for other purposes.

Mr. CRAIG. I object to further consideration.

The PRESIDING OFFICER. The bill will be placed on the Calendar of General Orders.

EXECUTIVE SESSION

EXECUTIVE CALENDAR

Mr. CRAIG. Mr. President, I ask unanimous consent that the Senate immediately proceed to executive session to consider the following nominations which are at the desk: Joseph Brame and Sarah Fox.

I further ask unanimous consent that the Labor Committee be discharged from further consideration of Peter Hurtgen and Wilma Liebman and the Senate proceed to vote on these nominations en bloc. I further ask unanimous consent that the nominations be confirmed, the motion to reconsider be laid upon the table, any statements relating to the nominations be printed in the RECORD, and the President be immediately notified of the Senate’s action.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

NATIONAL LABOR RELATIONS BOARD

Peter J. Hurtgen, of Florida, to be a Member of the National Labor Relations Board for the term of five years expiring August 27, 2001.

Wilma B. Liebman, of the District of Columbia, to be a Member of the National Labor Relations Board for the remainder of the term expiring December 16, 1997.

Wilma R. Liebman, of the District of Columbia, to be a Member of the National Labor Relations Board for the term of five years expiring December 16, 2002.

Joseph Robert Brame, III, of Virginia, to be a Member of the National Labor Relations Board for the term of five years expiring August 27, 2000.

Sarah McCracken Fox, of New York, to be a Member of the National Labor Relations Board for the term of five years expiring December 16, 1999.

NATIONAL LABOR RELATIONS BOARD

Mr. KENNEDY. Mr. President, the long impasse over the membership of the National Labor Relations Board is finally broken. For the first time since August 1995, the Board will have a full complement of five confirmed members. As a result, the Board will have additional resources to handle the many important cases on its docket. There will be greater certainty in industrial relations, which is good for labor, good for management, and good for the country.

The nominees to be confirmed represent a balanced and fair package. The two Republican nominees, Peter Huergen of Miami and J. Robert Bram III of Charlottesville, VA, are distinguished management lawyers, with many years of experience in Federal court in the NLRB litigation, and I know they will make a significant contribution as members of that Board.

There are also two Democratic nominees, Wilma Liebman and Sarah Fox, both of Washington, DC. Ms. Liebman has served as Deputy Director of the Federal Mediation and Conciliation Service since 1994, and she has done an outstanding job. She helped to resolve dozens of disputes between labor and management, and worked effectively to administer the operations of the FMCS. Ms. Liebman also has extensive experience representing labor unions and their members. She brings a wealth of knowledge of labor-management relations to this position, and I am confident she will serve with great distinction on the Board.

I am particularly pleased that the Senate will finally confirm the nomination of Sarah Fox, who is well known to many of us in the Senate. From 1990 until January 1996, she served as counsel on the Labor Committee staff, and she did an extraordinary job on issues of vital importance to working families, especially in areas such as job safety and health, pension rights, fair wages, and reform of job training programs and the Davis-Bacon Act. She worked well with Senators on both sides of the aisle, and has been serving as a recess appointee on the Board. I have great respect for Sarah’s ability to work to public service, and I’m delighted by her confirmation.

Mr. CRAIG. Mr. President, I ask unanimous consent that the Senate consider the following nominations on the Executive Calendar. Calendar items 180, 181, 248, 252, 323, 325, 384, 455, 457, 461, 467, 468, 469 through 483 and all other military nominations reported by the Armed Services Committee today.

I further ask unanimous consent that the nominations be confirmed, the motion to reconsider be laid upon the table, any statements relating to the nominations be printed in the RECORD, the President be immediately notified of the Senate’s actions, and the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

LEGAL SERVICES CORPORATION

Ernestine P. Wallington, of Pennsylvania, to be a Member of the Board of Directors of the Legal Services Corporation for a term expiring July 13, 1999.

John T. Broderick, Jr., of New Hampshire, to be a Member of the Board of Directors of the Legal Services Corporation for a term expiring July 13, 1999.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Olivia A. Golden, of the District of Columbia, to be Assistant Secretary for Family Support, Department of Health and Human Services.

Nancy Ann Minn Deparle, of Tennessee, to be Administrator of the Health Care Financing Administration.
The following named officer for appointment in the U.S. Air Force to the grade indicated while assigned to a position of importance and responsibility under title 10, United States Code, section 601:

To be lieutenant general
Lt. Gen. Patrick K. Gamble, 0000
IN THE ARMY

The following Army National Guard of the U.S. officer for appointment in the Reserve of the Army to the grade indicated under title 10, United States Code, section 12203:

To be brigadier general
Col. Howard L. Goodwin, 0000

The following named officer for appointment in the Reserve of the Army to the grades indicated under title 10, United States Code, section 12203:

To be major general
Brig. Gen. David R. Bockel, 0000
Brig. Gen. James G. Browder, Jr., 0000
Brig. Gen. Melvin R. Johnson, 0000
Brig. Gen. J. Craig Larson, 0000
Brig. Gen. Rodney D. Ruddock, 0000

To be brigadier general
Col. Celia L. Adolph, 0000
Col. Donna F. Barbisch, 0000
Col. Emilie F. Bataille, 0000
Col. Joel G. Blanchette, 0000
Col. George F. Bowman, 0000
Col. Gary R. DiAllo, 0000
Col. Douglass O. Dollar, 0000
Col. Russell A. Eggers, 0000
Col. Sam E. Gibson, 0000
Col. Fred S. Haddad, 0000
Col. Karl A. Kennedy, 0000
Col. Dennis E. Klein, 0000
Col. Duane L. May, 0000
Col. Robert S. Silverthorn, Jr., 0000
Col. James T. Spivey, Jr., 0000
Col. William E. Wood, 0000
Col. Charles E. Wilson, 0000

The following named officer for appointment in the Reserve of the Army to the grade indicated under title 10, United States Code, section 12203:

To be general
Col. David R. Irvine, 0000

The following named officer for appointment in the U.S. Navy to the grade indicated while assigned to a position of importance and responsibility under title 10, United States Code, section 601:

To be brigadier general
Lt. Col. William J. Fallon, 0000

PROMOTION OF ADOPTION, SAFETY, AND SUPPORT FOR ABUSED AND NEGLECTED CHILDREN ACT

Mr. CRAIG. Mr. President, tomorrow it is the hope that the omnibus appropriations bill will be cleared for action by the Senate. A rollocall vote is anticipated. However, I would not expect that vote to occur prior to 1:30 p.m. because the Senate intends to complete all legislative or executive items cleared for action. Therefore, Members can anticipate rolloca1 votes throughout Sunday’s session of the Senate.

ORDER FOR ADJOURNMENT

Mr. CRAIG. If there is no further business to come before the Senate, I now ask the Senate stand adjourned under the previous order, following remarks of Senator GRASSLEY and Senator CHAFEE.

The PRESIDING OFFICER (Mr. BROWNBACK). Without objection, it is so ordered. The Senator from Rhode Island.

Mr. CRAIG. Mr. President, I would like to express my strong support for legislation we considered this evening, the Promotion of Adoption, Safety, and Support for Abused and Neglected Children, the so-called PASS Act. This bill, which I introduced along with Senators CRAIG, ROCKEFELLER, DeWINE, COATS, and EFFORDS, and others, will make some critical changes to the child welfare system, changes which will vastly improve the lives of hundreds of thousands of children currently in foster care and waiting for adoptive homes.

We have been working on this legislation for the past year, and I am very pleased we were able to work out a proposal that everyone could support. The primary goal of this so-called PASS Act is to ensure that abused and neglected children are in safe, permanent settings. About a half a million children who have been abused or neglected currently live outside their homes, either in foster care or with relatives. In Rhode Island, there are nearly 1,500 children who have been removed from their homes and are in foster care. Many of these children will be able to return to their parents, but others will not.

Under the current system, children remain in foster care an average of 3 years. Mr. President, I call to your attention that anyone who may be interested in this subject, a child in foster care on the average remains there 3 years before any decision is immediately following the prayer, the routine requests through the morning hour be granted.

The PRESIDING OFFICER. Without objection, it is so ordered.

The following officer for appointment in the United States Air Force to a grade indicated while assigned to a position of importance and responsibility under title 10, United States Code, section 601:

To be brigadier general
Lt. Gen. Patrick K. Gamble, 0000

IN THE ARMY

The following Army National Guard of the U.S. officer for appointment in the Reserve of the Army to the grade indicated under title 10, United States Code, section 12203:

To be major general
Brig. Gen. David R. Bockel, 0000
Brig. Gen. James G. Browder, Jr., 0000
Brig. Gen. Melvin R. Johnson, 0000
Brig. Gen. J. Craig Larson, 0000
Brig. Gen. Rodney D. Ruddock, 0000

To be brigadier general
Col. Celia L. Adolph, 0000
Col. Donna F. Barbisch, 0000
Col. Emilie F. Bataille, 0000
Col. Joel G. Blanchette, 0000
Col. George F. Bowman, 0000
Col. Gary R. DiAllo, 0000
Col. Douglass O. Dollar, 0000
Col. Russell A. Eggers, 0000
Col. Sam E. Gibson, 0000
Col. Fred S. Haddad, 0000
Col. Karl A. Kennedy, 0000
Col. Dennis E. Klein, 0000
Col. Duane L. May, 0000
Col. Robert S. Silverthorn, Jr., 0000
Col. James T. Spivey, Jr., 0000
Col. William E. Wood, 0000
Col. Charles E. Wilson, 0000

The following named officer for appointment in the Reserve of the Army to the grade indicated under title 10, United States Code, section 12203:

To be general
Col. David R. Irvine, 0000

IN THE NAVY

The following named officer for appointment in the U.S. Navy to the grade indicated while assigned to a position of importance and responsibility under title 10, United States Code, section 601:

To be vice admiral
Vice Adm. William J. Fallon, 0000

CENTRAL INTELLIGENCE AGENCY

Robert M. McNamara, Jr., of Maryland, to be General Counsel of the Central Intelligence Agency.

Navy nominations beginning MATTHEW B. AARON, and ending THOMAS A. ZWOLFER, with nominations were received by the Senate and appeared in the CONGRESSIONAL RECORD on October 29, 1997.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will return to legislative session.

ORDERS FOR SUNDAY, NOVEMBER 9, 1997

Mr. CRAIG. I ask unanimous consent that when the Senate completes its business today, it stand adjourned until the hour of 1 p.m. on Sunday, November 9. I further ask that on Sunday, November 9, the Senate intends to consider and complete action on the following:

The FDA reform conference report and legislation or executive items cleared for action. Therefore, Members can anticipate rollcall votes throughout Sunday’s session of the Senate.
made about that child’s future. And in some cases the wait is even longer. It is time we put a stop to this, and our bill does that.

The PASS Act directs States to shorten this time, all the while ensuring that the health and safety needs are guaranteed. Our bill removes unnecessary geographic barriers to adoption, and requires criminal record checks for all prospective foster and adoptive parents, and other adults living in the household. It allows children to be reunited with their birth families more quickly in extreme cases, such as when the parents have murdered another child, and requires States to document efforts to move children into safe adoptive homes.

The PASS Act also contains some important provisions that will go a long way toward helping to find homes for so-called special needs children. Lack of medical coverage is a huge barrier to families who want to adopt special needs children. Many of these children have significant medical needs and health problems due to years of abuse, neglect, or foster care. Parents who adopt these children are taking huge financial risks. If these children are not guaranteed health insurance, there will be great reluctance in many cases for the prospective parents to adopt these children. Our bill ensures that special needs children who are going to be adopted will have medical coverage. We also ensure that children whose adoptions are disrupted in some fashion, will continue to receive Federal subsidies when they are adopted by new parents.

Finally, our bill reauthorizes and provides a modest increase for the Family Preservation and Support Program, which is a worthwhile program that prevents children from having to be removed from their homes.

The bill’s sponsors have worked long and hard to come up with this compromise. We have talked with the House about the minor differences between our bills and it appears we will be able to quickly conference and pass this bill, hopefully before the Senate goes out this year.

In closing, let me thank and congratulate the Members of the PASS coalition who worked so tirelessly on the measure. Senators Craig, Rockefeller, DeWine, Coats, Jeffords, and others have made enormous contributions toward this initiative. This would not have happened without their dedication to the children who are trying to move from foster care into adoptive homes.

I also thank Chairman Roth of the Finance Committee for helping us to move quickly.

I yield the floor.

THE PRESIDENT PRO Temp. Mr. GRASSLEY. Mr. President, I also want to congratulate this body for the passage of the adoption bill. It is a good step forward. I hope when we work out the differences between the House and Senate, they can be worked out amicably. I hope there is not a watering down of the Senate provisions.

I would also like to have legislation passed yet this year. If it can’t be worked out this year, obviously it is going to have to be back off until next year until it can be conferenced, but I hope we can work out these differences yet this year.

A pioneer in the adoption field wrote “when a child of the streets stands before you in rags, with tear-stained face, you cannot easily forget him, and yet you are perplexed what to do. The human soul is difficult to interfere with. You hesitate how far you should go.”

Congress has been considering adoption and foster care reform this year that has caused all of us involved to ask, how far should we go?” But after extensive research into the failure of the foster care system, I ask how far can we go?

Confronting the issues for children in foster care is uncomfortable—almost painful. But the foster care system is in crisis and children are suffering. We are compelled to confront these problems.

Foster care is a complicated entitlement program. Meaningful reform can only happen when Congress recognizes the seriousness of the problem and begins taking the measured steps toward reform.

While the issues are complex, so are the solutions.

Today we are getting what we pay for, long-term foster care. Twenty-one States are under consent decrees because they failed to take proper care of their children who had been abused or neglected by their parents.

Set up to serve as a temporary, emergency situation for children, the foster care system is now a lifestyle for many kids.

The Federal Government continues to pour billions of dollars into a system that lacks genuine accountability. Instead of encouraging States to increase adoptions, the current system rewards long-term foster care arrangements.

Jennifer Toth described in her book “Orphans of the Living,” children are “consigned to the substitute child care system, a chaotic, prison-like system informed to raise children in poor parents and relatives cannot or will not care for them.”

She also wrote, “the children in substitute child care today have all suffered trauma. They are all at greater risk than the general child population. Yet they are given less care, when they need more care. Many thousands of children are lost and millions of dollars are wasted each year because no one—not the caseworker, not the foster home—takes full responsibility for them. Instead, each is passed from one caseload and placement to another, with too many kids and too little attention to go around. When these children look to adults for help, no one is there. Only when their situation becomes desperate, when they fail, are they awarded the attention they crave.”

One organization said that “foster care can mean a black hole for many of America’s neediest and most neglected children.”

“I have a poster in my office that inspires me to work for real reform. The Iowa Citizen Foster Care Review Board found that children who were adopted what they would like to tell us and this is what the children said: ‘Don’t leave us in foster care so long.’ ‘It is scary to move from home to home, find us one good family where we can feel like a real member of the family.’ ‘Check on us frequently while we’re in foster care to ask us how we’re doing and make sure we are safe.’

‘Tell us what’s going on so we don’t have to guess. Tell us how long it will be before we’re adopted and why things seem to take so long.’

Dave Thomas of Wendy’s challenged me and others to make sure kids have a happy childhood. For those who have had a happy childhood it is hard to understand why. For those who did not have a happy childhood—you know why, he said.

Children need to know that they have a permanency—what means successful, healthy reunification with their birth families or permanency in an adoptive home.

My wife, Barbara, and I, have been blessed as the parents of five children. Today, we get to watch our sons and daughters enjoy their own families and the happiness found through parenthood. These experiences have made me appreciate the importance of a family unit. A happy, permanent home life provides more than a safe haven for kids. It gives children confidence to grow into positive contributors in our society.

In the United States, at least a half million children are not living in permanent homes. While waiting for adoption or a safe return to their natural families, many kids may live out their childhoods in the foster care system. Sadly, it often turns into a lonely, even futile transition. If the “window of opportunity” is missed, a child can leave the system a legal orphan, as an adult.

These children leave foster care and end up into the welfare rolls or into prison. Only 17 percent of those who emancipate from the system become completely self-supporting. Barely half finish high school, a little less than half are gainfully employed as adults. And, almost 60 percent of the girls give birth within a few years of leaving the system.

Since 1982, about 20,000 children a year are adopted from foster care. Obvously, that leaves tens of thousands of kids like me. Reform is needed to help place more children in a safe, permanent home. Improvements should limit the time a child legally can spend in foster care;
The Pass Act will ensure health care coverage for adopted special needs children; break down geographic restrictions facing adoptive families; and, encourage creative adoptive efforts and out-of-State placements.

Thanks to Senator DEWINE’s vision and efforts we have strengthened the reasonable efforts statute. Senator DEWINE raised our awareness on this issue and has been a champion for these families for many years.

One of the problems we as legislators have experienced has been the inadequate statistics to understand the performance of the States. The data is sparse and many States can’t tell us how many children they actually have in their care or how long they have been there. The Pass Act will require States to report critical statistics. No longer will children languish without being identified, their lives will be personalized to those responsible for them. We will know who they are, where they are, and how long they have been in the system. And, the status quo will not be able to hide behind the lack of information excuse.

Currently, the Federal Government does not require that States actively seek adoptive homes for all free-to-be adopted children, who often are assigned to long-term foster care. This bill, however, will compel States to make reasonable efforts to place a child in an adoptive home. Long-term foster care should never be a solution for a child.

The Federal Government plays a significant role in child welfare, by providing States with federal funding to ensure that these children are healthy and stay together. We know that more families are willing to adopt children despite their special needs. These services are crucial for the success of these families because many of these children will have long-term service needs.

In States where postadoptive services are offered, the number of adoptive families that disrupt is significantly lower.

According to the Congressional Research Service the following Federal programs could be used to provide postadoptive services to adoptive families. Although none of these programs is exclusively intended to provide such services, they are among a number of available activities under the following: The Adoption Opportunities Program; the Family Preservation Program; Child Welfare Services; Child Abuse Prevention and Treatment Act; Community-Based Family Resource and Support; Child Care and Development Block Grant; and the Social Services Block Grant.

I was pleased with the provision in the Pass Act which emphasizes adoption promotion and support services in the Family Preservation and Support Service Act.

I ask unanimous consent to print in the RECORD an explanation of the services provided under these programs. There being no objection, the material was ordered to be printed in the RECORD, as follows:

1. The Adoption Opportunities Program authorizes appropriations for the Department of Health and Human Services to conduct a number of adoption-related activities, including provision of post-legal adoption services for families that have adopted special needs children. These services may be provided either directly or by grant or contract with States, local governments, public or private nonprofit licensed child welfare or adoption agencies, or adoptive family support groups. Services must supplement, and not supplant, activities funded through other sources with the same general purpose, including individual, group or family counseling, case management, training, assistance to adoptive parent organizations, and assistance to support groups for adoptive parents, adopted children or siblings of adoptive children.

2. Family Preservation Program. The Social Security Act authorizes entitlement grants to States, which are used for two types of services: family and community-based family support. “Family preservation” services are intended for children and families (including adoptive families) that are at risk of becoming involved with the child welfare system. It may include respite care of children to provide temporary relief for parents or other caregivers.
and services designed to improve parenting skills in such areas as child development, family budgeting, coping with stress, health and nutrition.

3. Child Welfare Services. Under part 1 of title IV–B, the Social Security Act also authorizes appropriations for grants to states for child welfare services, which are defined as public social services directed toward protection and promotion of the welfare of children. These funds are typically used to support State child protective service and child welfare systems. However, while post-adoption services are not specifically identified in the statute, they could be allowable activities at State option.

4. Child Abuse Prevention and Treatment Act. Title I of the Child Abuse Prevention and Treatment Act (CAPTA) authorizes funds for HHS to conduct a variety of discretionary activities, including grants to mutual support and self-help groups for strengthening families, respite and crisis nursery programs provided by community-based organizations, and hospital-based information and referral services for parents of children as foster children and children who have been victims of abuse or neglect.

5. Community-Based Family Resource and Support. Title II of CAPTA authorizes HHS to make grants to develop, expand and maintain community-based family resource and support programs. These programs provide various forms of support for families, including respite care for adoptive families.

6. Child Care and Development Block Grant (CCDBG). This program authorizes both mandatory and non-mandatory funding for States to help subsidize the cost of child care for low-income families, including both working families and families receiving welfare. Families in need of child care could potentially receive assistance under this program, assuming they met income and other eligibility criteria.

7. Social Services Block Grant (SSBG). Title XX of the Social Security Act authorizes entitlement grants to States that may be used for a wide variety of social services at the states’ discretion. Although services for adoptive families are not specified in the law, States could opt to use SSBG funds for this purpose.

Mr. GRASSLEY. Mr. President, let’s build upon the cornerstone of this monumental bill. Congress has a chance to continue to press on for meaningful reform. In spite of this legislation, some children will still remain hostages in an inefficient system.

Any future reforms must: First, strive to dramatically limit the time a child can legally spend in foster care. According to the available statistics, the national average length of stay in foster care—three years—three birth days, three christmases, first, second and third grade. Second, remove financial incentives to keep children in foster care; and provide incentives for success not for attempts. Currenty the system pays the same rate per child, per month, with disabilities and condition. The Federal Government is entitled to pay for performance.

Senator BROWNBACK plans to hold hearings next year as chairman of the Subcommittee on Oversight of the District. He believes deeply in improving the life and health of children, as you do, Mr. President, and have worked toward that end.

I salute the work that has been done. It is a major step forward in improving foster care and the ability to adopt children. The work of this Congress, I think, will be able to take real pride in.

CLAY COUNTY VETERANS MEMORIAL PARK DEDICATION

Mr. SESSIONS. Mr. President, I rise this evening to speak about a dedication ceremony that will take place tomorrow afternoon in the city of Lineville in Clay County, AL. Mr. President, I would like to take this opportunity to express my deep regret for not having been able to be in Lineville this afternoon with those who have gathered for the dedication of the Clay County Veterans Memorial Park. I would be remiss if I did not also take this opportunity to offer my sincerest thanks to Alabama State Senator Gerald Dial and the other members of the Veterans Memorial Board for working hard to make the Clay County Veterans Memorial Park a reality and for extending an invitation to me to participate in their dedication ceremony.

Mr. President, I make these remarks tonight for one reason. Simply, it is about honor. Certainly, not personal honor. That is one variety we are all familiar with. No, the type of honor to which I am referring is the uncommon variety. It is the variety that we bestow as a tribute on special occasions for veterans and other heroes in our society who made the supreme sacrifice. In less than 24 hours, my constituents will gather to honor all the men and women who, over the years, left their homes and loved ones, jobs, friends and neighbors all over Clay County to answer a special calling. The veterans they honor might have grown up in Delta, in Ashland, in Cragford, in Hollins, in Millerville, in Barfield, in Lineville or anywhere in between, but even though they may have been separated by the miles and the years between them, a common thread ran through each of their lives. They were all connected by their love for this land and the look forward in time with a hopeful spirit and a pledge of unwavering support to the young men and women in communities all around this great Nation that we will unconditionally support them just as we supported those veterans today.

The Clay County Veterans Memorial Park will be as much an emblem of the courage and bravery of patriots from yesteryear, as it will be a beacon of hope and source of strength for future generations. I pledge to do my part to make sure that we remain the strongest and greatest country in the world, and we defend our just national interest.

Mr. President, ours is both an important and a unique moment in history. We no longer live in the bipolar world that shaped our lives and our political consciousness over the last half century. The monolithic presence of the Soviet Union has been replaced by new threats. We live in a rapidly changing world where our ability to adapt and our commitment to remain a world leader will be tested by both the cunning and the strong. The veterans remembered today defeated Nazi Fascism, brought Soviet Communism to its knees, were victorious against tyranny, and protected democracy and...
freedom around the world. They led our country through times of conflict and war to the edge of the 21st century.

Had I been able to be with my constituents today, I would have reminded them that as our Nation moves forward we will face new national defense considerations. We must maintain a strong military, and I will give my full support to our men and women in uniform. The military must, I believe, be capable of protecting our interests and the lives of our soldiers in places like Bosnia, Afghanistan, and the Middle East, we asked to do so. We must therefore provide our service men and women with the best training, the best equipment, the best information, and the best overall opportunity for success under any circumstance, so that when they are called to perform, they will emerge victorious.

We have approached a time of major historical significance in the area of foreign policy and international cooperation. We have new and exciting opportunities to promote peace and prosperity throughout the world that many of us may never have thought possible. The winds of democracy and economic prosperity now blow in Eastern Europe precisely because of the sacrifices of those being honored today. Mr. President, patriots from Clay County, AL fought and died to make this prosperity possible. The overwhelming desire on the part of counties around the world to emulate us—to be like us—testifies to our proud past and an example of fairness that is the hallmark of our society.

We are, I truly believe, standing on the brink of a change of historic proportions. It represents a step forward for peace and cooperation that will surely carry us well into the 21st century. We must always remember those who made this possible. I am reminded of a quote by Gen. Douglas MacArthur on April 19, 1951, as he spoke before Congress. He said that, ’Old soldiers never die, they just fade away.’ Tomorrow will be a great day for Clay County. Memorial Park is for the veterans, living and dead, who fought so that freedom, our freedom, would never perish. It also represents that community’s commitment to a memory of sacrifices made, and promises kept.

Mr. President, I thank the citizens of Clay County for their individual sacrifices, and hope that they will find solace in this place that they gather to dedicate today. It is also my hope that they will find solace in the knowledge that their sacrifices are honorable too, and as lasting and worthy as the sacrifices of those who have gone on before them. I thank the Chair.

ADJOURNMENT UNTIL 1 P.M. TOMORROW
The PRESIDING OFFICER, the Senate, under the previous order, will stand adjourned until 1 p.m., Sunday, November 9, 1997.
THE FOLLOWING NAMED OFFICERS FOR APPOINTMENT IN THE RESERVE OF THE ARMY TO THE GRADES INDICATED UNDER TITLE 10, UNITED STATES CODE, SECTION 12203:

To be major general

BRIG. GEN. DAVID R. BOCKEL, 0000.
BRIG. GEN. JAMES G. BROWDER, JR., 0000.
BRIG. GEN. MELVIN R. JOHNSON, 0000.
BRIG. GEN. J. CRAIG LARSON, 0000.
BRIG. GEN. RODNEY D. RUDDOCK, 0000.

To be brigadier general

COL. CELIA L. ADOLPHI, 0000.
COL. DONNA F. BARBISH, 0000.
COL. EMILE P. BATAILLE, 0000.
COL. JOEL G. BLANCHETTE, 0000.
COL. GEORGE F. BOWMAN, 0000.
COL. GARY B. BULLO, 0000.
COL. DOUGLAS O. DOLLAR, 0000.
COL. RUSSELL A. EGGERS, 0000.
COL. SAM E. GIBSON, 0000.
COL. FRED S. HADDAD, 0000.
COL. KAROL A. KENNEDY, 0000.
COL. DENNIS E. KLEIN, 0000.
COL. DUANE L. MAY, 0000.

IN THE NAVY

COL. ROBERT S. SILVERTHORN, JR., 0000.
COL. JAMES T. SPITZER, JR., 0000.
COL. WILLIAM B. WATSON, JR., 0000.
COL. CHARLES E. WILSON, 0000.

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT IN THE RESERVE OF THE ARMY TO THE GRADE INDICATED UNDER TITLE 10, UNITED STATES CODE, SECTION 12203:

To be brigadier general

COL. DAVID R. IRVINE, 0000.

IN THE NAVY

COL. ROBERT S. SILVERTHORN, JR., 0000.

NATIONAL LABOR RELATIONS BOARD

And the Lord said, "Verily, thou art full of it! And the Lord did make the earth open up and swallow them with the moneyminded interests, and resistance to sensible labor laws did vanish forever from the face of the earth. If only if only it were that easy. If only the Good Book did tell of the victory of God's law—the oldest labor law—over the interests of wealth, then perhaps the road of labor reformers since would not have been as hard.

Instead, the Western world has been weaned on the economics of Thomas Mal- thus, that population increase will necessarily force wages to subsistence levels, and of David Ricardo that "[t]here is no way of keeping profits up but by keeping wages down." Instead, the Western world has come to take Capitalism as an article of faith, the same Capitalism that Lord John Maynard Keynes defined as "the extraordinary belief that the nastiest of men, for the nastiest of reasons, will somehow work for the benefit of us all."

Yes, it has not been easy as generation after generation battled for something more than subsistence wages to compensate workers for their labor.

It was not easy for the girls who labored at the Lowell, Massachusetts, textile mills, like Harriet Hanson Robinson and Sarah Bagley, who participated in one of America's first strikes over wage rates. In 1834, at age 10, Harriet Hanson Robinson went to work as one of "[t]roops of young girls [whom] men were employed to collect ... at so much a head, and deliver ... at the factories." Harriet wrote that "the caste of the factory girl was the lowest among the employments of women. ... In the eyes of her overseer she was but a brute, a slave, to be beaten, pinched and pushed about." The mills paid the young women $2 a week for jobs that kept them at the mills for nearly 14 hours a day. When they attempted to planed to cut their wages, the young women went on strike and marched as one to listen to incendiary speeches. But "[t]he corporation there, in one of the first governmental investigations of labor conditions. At a time when women seldom spoke in public, Sarah Bagley, a 16-year-old immigrant garment worker, who at a meeting at New York's Cooper Union in November 1909, stood and recited her hardships in the sweatshops, galvanizing the audience with her call for action. The impassioned crowd affirmed with the old Jewish oath, "If I turn traitor to the cause I now pledge, may this hand wither from the arm I now raise." A garment worker's strike banner read "We are working our lives away. We are working the sweatshop. We are working as slave labor."

It was not easy for Frances Perkins, went on to become President Franklin Roosevelt's Secretary of Labor.

"But it was not easy for Caroline Gleason, whom Oregon employers called "an outrageous socialist," just because in 1912 she began a survey for the Oregon Consumers' League of the thousands who worked in abominable conditions to earn $8.25 for a 54-hour week. But Gleason had the satisfaction of seeing her data aid passage of the country's first enforceable wage-hour law, which became the model for the Federal Fair Labor Standards Act.

It was not even easy for the Department of Justice when it tried to enforce an 8-hour day and a 6-day week for a 14-year-old boy in a cotton mill at Charlotte, North Carolina, when the 1918 Supreme Court held that such a child had a power to work and was a local matter to which the federal authority does not extend."

For more information, please visit the Congressional Record website.
while he was campaigning for reelection in 1936. A policeman threw her back into the crowd. "Get the note from the girl," Roosevelt told an aide. Her note read: "I wish you could do something for us. We have been working in a sewing factor, ... and up to a few months ago we were getting our minimum pay of $11 a week. ..."

Today the 200 of us girls have been cut down to $4 and $5 and $6 a week." When a reporter asked, the President replied, "Something has to be done about the elimination of child labor and long hours and starvation wages."

It was not easy for FDR and his Labor Secretary Frances Perkins to push the Fair Labor Standards Act through Congress in 1937 and 1938, even though all that Act did in the end was apply a 25-cent-an-hour minimum wage and 44-hour week to roughly one-fifth of the workforce.

And it was not even easy for Democrats to raise the minimum wage in the last Congress, even though it had reached its lowest value in 40 years, with the exception of one year during the Bush administration. The Republican majority sought to use the closure of a legislative amendment out of order, but Democrats and moderate Republicans stood together and prevailed.

And despite that victory, America still needs a raise.

Even now that the latest raise in the minimum wage has been fully implemented and it has reached the level where it requires just over $10,000 a year for a full-time job, its real value remains below its level from 1936 through my lifetime.

During those post-War years, the incomes of all Americans, rich and poor, grew together. In the 1980s and after, Americans have grown apart. America still needs a raise.

In the 15 years from 1980 through 1995, the minimum wage would have increased 37 percent if, during that same period, inflation increased 86 percent, company profits increased 145 percent, and CEO pay increased 499 percent. CEO pay increases to 5 times what it was before, and the Titans of industry still complained that a little more than one-third increase in the minimum wage would bankrupt the country! America still needs a raise.

Today I have told you stories of women workers, for theirs has often been a hard lot. Pully three-fifths of all minimum wage workers are women. American women still need a raise.

On July 11, Senator Ted Kennedy introduced a bill that would simply provide increases of 50 cents an hour in the minimum wage in each of the next 3 years and, increases of 30 cents an hour in each of the following 2 years. Congressmen Bonior and Gephardt introduced H.R. 2211 to do the same thing.

Under these bills, the minimum wage would still remain below its levels in the late 1960s. If this Congress could enact a 5-year budget deal to grant sweeping capital gains and estate tax breaks for the wealthiest among us for years into the future, then the least that it can do is to give those earning the minimum wage a raise for the next 5 years as well. America still needs a raise.

The successors of that imaginary Sinai desert businessman will raise all the same imaginative objections to this labor legislation, as well.

They will argue that we endanger America's competitiveness. But we shall stand with Abraham Lincoln, who said: "To secure to each laborer the whole product of his labor as nearly as possible, is a worthy object of any good government."

And when big business cries that all must be left alone in the workplace, we shall stand with section 17 of the Clayton Anti-Trust Act of 1914, which says: "The labor of a human being is not a commodity or article of commerce."

We shall stand with FDR, with Lincoln, with Clara Lemlich, and with the Clayton Anti-Trust Act.

And we shall keep faith with the prayers of those American women who fought so that all working women would receive fair compensation for the sweat of their brow. We owe them nothing less.

We owe it to Harriet Robinson and Sarah Bagley and the girls who sacrificed their youth to the Lowell Mills, to Lucy Parsons, as she rose in tears from a column cell floor to swear an oath to fight on, and to Frances Perkins's memory of her tears falling down like the girls who fell from the Tri-state Streetcar Sable and with Clara Lemlich, and pledge to carry on the fight for the cause for which she raised her arm.

And so, with God's help and our own, may the oaths and the prayers of the brave American women who fought before us find an answer in our time.

INTRODUCTION OF LEGISLATION TO PROTECT VOLUNTARY SAFETY AND HEALTH AUDITS

HON. CASS BALLENGER
OF NORTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. BALLENGER. Mr. Speaker, one of the fundamental purposes of the Occupational Safety and Health Act was to encourage "employers and employees in their efforts to reduce the number of occupational safety and health hazards at their places of employment."

In its focus on enforcement, OSHA has too often overlooked that purpose. One of the promises of OSHA reinvention, however, was that OSHA would encourage employers to voluntarily implement effective safety and health programs in their workplaces.

Contrary to that promise, OSHA has not addressed, in fact has refused to address, a significant obstacle to effective voluntary safety and health programs which it has created through its enforcement policies. OSHA has insisted on full access to voluntary self audits and assessments conducted by employers, in order to use these records during inspections conducted to (1) help OSHA identify potential violations, and (2) to establish a basis for charging that any violations found in the workplace are "willful."

In some cases, OSHA has gone so far as to subpoena these records for use in inspections and health programs, dramatically outweighing the benefits of the position in terms of access to a possible source of evidence of a violation or of an employer's willful violation.

The legislation applies to self audits and assessments that are not required by any law or regulation. Further, it applies only to inspections and enforcement proceedings under the OSHAAct. It does not address broader issues that would more logically be addressed as part of a change in the rules of evidence. I invite my colleagues to join me in passing this important legislation.

TRIBUTE TO TERRY YORK
HON. BRAD SHERMAN
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. SHERMAN. Mr. Speaker, I rise before you today to pay tribute to Terry York, who has been nominated for the prestigious Fernandez Award for outstanding volunteerism.

President Kennedy once said, "For those to whom much is given, much is required. And when a some future date the high court sits in judgment of each of us, recording whether in our brief span of service we fulfilled our responsibilities to the state, our success or failure, in whatever office we hold, will be measured by the answers to four questions: First, were we truly men of courage * * * Second, were we truly men of judgment * * * Third, were we truly men of integrity * * * Finally, were we truly men of dedication." The Fernandez Award was created to honor individuals who have exemplified leadership, voluntarism and dedication and it is recognized as the leading award for civic accomplishment in the San Fernando Valley. Each year, the Chambers of Commerce in the San Fernando Valley and other community organizations and leaders nominate candidates they feel demonstrate these characteristics. Terry York is a worthy candidate for this award.

As a young boy in southern Illinois, Terry learned the importance of a strong work ethic from his father, who worked at a local mine. Several years later, Terry decided he wanted to work in the automobile industry, but there were no jobs. He agreed to work for free as a file clerk, and as a result of his helpful nature and outstanding dedication, he was rapidly promoted at the dealership. Within 5
years he was part owner and general manager of Jacobs Chevrolet, one of the largest and best known auto dealers in the Midwest.

The lessons Terry learned growing up in Illinois have been reflected in his daily activities. Not only is Terry a hard worker, he understands the importance of community and the need for everyone to work together toward a common goal. As a result, he treats everyone he works with throughout the day with respect and compassion. Terry is regarded as an invaluable resource by his friends and coworkers who depend on him for advice and support.

For the last 21 years, Terry has been actively involved in our community, dedicating a substantial amount of his time and personal resources to civic, charitable, humanitarian, and government causes. He has been active in the City of Hope, the Boys and Girls Club of San Fernando Valley, and the American Cancer Society, as well as many other important organizations.

Terry has been honored with several distinguished awards to recognize his accomplishments, such as the Spirit of Life Award by the City of Hope and the Free Enterprise Award by the San Fernando Valley Business and Professional Association. Most recently, Terry and his wife Carole were honored by the March of Dimes with the Premiere Parent Award.

Mr. Speaker, distinguished colleagues, please join me in paying tribute to Terry York. He is a role model for the citizens of Los Angeles.

THE NATIONAL DIVIDEND PLAN—AN IDEA WHOSE TIME HAS COME

HON. PHILIP M. CRANE
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. CRANE. Mr. Speaker, this body has spent a good deal of time in recent years trying to come up with ways to balance the budget—much of it to no avail. The good news is that the Treasury Department announced that the end of the 1997 fiscal year brought the smallest budget deficit in ages—$22.6 billion. The bad news is that Washington can claim little credit for this deficit reduction. The credit should go to American taxpayers prospering in a strong and dynamic U.S. economy and pumping more revenue into the Treasury than many Washington policy wonks predicted. Nevertheless, a balanced budget is finally in sight for the first time since 1969.

Now that Washington may soon see a budget surplus, a number of bills have been introduced in Congress in an effort to contribute to the debate on how that surplus should be spent. The leading bills propose to use part of the surplus to pay down the enormous federal debt while using the rest to provide tax relief. I have cosponsored one of these bills and believe very strongly that we must protect the budget surplus from Washington’s big spenders.

It is in this context that I would encourage Members to look at a bill I introduced earlier this year, H.R. 2329, the National Dividend Act of 1997. The proposal upon which this bill has been crafted has been around for some time, and the concept has been favorably received by President Ronald Reagan, the National Commission on Economic Growth and Tax Reform—the Kemp Commission—and various congressional committees. The dividend plan has, over the years, enjoyed the support of a bipartisan and ideologically diverse group of Members. At one time, it was introduced by our former colleague Guy Vander Jagt and, most recently, our colleague BILLY TAUZIN introduced the plan. I was a cosponsor of these bills and now Mr. TAUZIN has joined me as a cosponsor of H.R. 2329.

The National Dividend Act of 1997 is the latest incarnation of a plan developed by John H. Perry, Jr., a businessman and philanthropist. Mr. Perry’s idea was to give Americans an incentive to be involved in the Federal budget process by giving voters a National Dividend once the Federal budget is in balance. Much like a profitable business shares its economic successes with its shareholders in the form of dividends, the National Dividend will share the economic prosperity of a balanced budget and fiscal restraint with those Americans who participated in the democratic process which led to the balanced budget.

To accomplish this goal, the bill first establishes a cap on Federal spending at the current level for 5 years or until a surplus is finally achieved. Based on the current budget estimates, Congress could bring about a surplus as early as next year.

Next, the bill creates a National Dividend Trust Fund by setting aside tax dollars from the general fund of the Treasury eventually equal to the revenue raised by the corporate income tax as well as selected other excise and tariff revenues. Once the fund reaches 100 percent of the specified revenue, disbursements will be given in equal amounts to all registered voters in years in which the Federal budget is in surplus. If the budget is not balanced, revenues in the fund can be used to eliminate the deficit.

The bill also not only eliminates the tax on corporate dividends, but also the National Dividend. To keep a future Congress from abusing this program, safeguards have been built into the plan. First, the corporate tax rate will be frozen at its current level. Second, a two-thirds majority vote of both Houses will be necessary to increase taxes. Short of a declared war, a future tax and spending Congress will be restrained from raising taxes simply to finance the National Dividend Trust Fund.

I commend the National Dividend Act of 1997 to the attention of my colleagues and urge them to support the bill as we work to put the Nation’s fiscal house in order.

BART BREAKS GROUND ON RAPID TRANSIT TO SAN FRANCISCO INTERNATIONAL AIRPORT

HON. TOM LANTOS
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. LANTOS. Mr. Speaker, I rise today to celebrate the groundbreaking of the San Francisco Bay Area Rapid Transit (BART) Extension to the San Francisco International Airport (SFO). The groundbreaking, which took place on Monday of this week, marked one of the most significant transportation milestones in the bay area. It was my great pleasure to join the many residents and elected officials of the peninsula and the bay area who have worked hard to bring fast, efficient mass transportation to the San Francisco Airport. It was a great pleasure to participate in the festivities marking the long-awaited beginning of construction of a world-class transportation link for the entire bay area.

Mr. Speaker, the BART Extension to the airport will connect the 95 mile, four-county BART rapid transit system to the fifth busiest airport in the United States and the seventh busiest airport in the world. The 8.7 mile extension will consist of 7.5 miles of new mainline track, much of which will be underground, and 1.2 miles of track linking the system with the San Francisco International Airport. The BART Extension will expand commuter rail service on the peninsula in and out the city through three new stations in peninsula communities—South San Francisco, San Bruno and Millbrae—and a station at the airport. The BART Extension will provide fast and easy service for travelers directly to the airport for the entire bay area, including the City of San Francisco.

Mr. Speaker, the BART Extension to the airport is the cornerstone of BART’s rail expansion program—the biggest bay area transit project since BART was built in the early 1970’s. The project is also an excellent model for Federal-State cooperation in transportation investment. Fully seventy percent of BART’s expansion program is paid for by State and local funds.

The voters of San Mateo County have indicated their overwhelming support for the BART Extension at the ballot box in a series of referenda data back to 1980’s when voters approved measures in 1985 and 1987 which allocated local funding through SamTrans to bring BART to the airport. Subsequent measures in 1992 and 1994 reaffirmed our region’s support for a BART Extension to the airport and the willingness of our residents to contribute a fair share of those costs.

Mr. Speaker, the BART Extension will provide fast and convenient access for travelers and will help alleviate traffic congestion on existing freeways. The BART Extension nears the airport and into San Francisco already exceed existing highway capacities, particularly during peak commute periods. The airport is already the single largest generator of traffic congestion-over 65 percent of air passengers and employees drive to the airport. The airport’s own expansion program is expected to increase annual air traffic by some 70 percent by the year 2006. The extension of BART to the airport will provide much-needed effective mass transit alternative for travelers throughout the bay area.

Mr. Speaker, the BART Extension to the airport will also provide an important economic catalyst for San Mateo County and the entire bay area. The extension will create or sustain 12,000 permanent jobs once the extension is in operation, 12,000 construction jobs between 30,000 and 40,000 construction jobs since BART was built in the early 1970’s. The project is also an excellent model for Federal-State cooperation in transportation investment. Fully seventy percent of BART’s expansion program is paid for by State and local funds.
to help provide relief from wasted time and energy spent tied up in traffic congestion. BART’s expected ridership on the peninsula will eventually reduce close to 100,000 cars a day on neighboring freeways. Getting people out of their cars and off of freeways will help improve air quality in our region and will conserve fuel.

We have waited a long time on the peninsula for relief from the gridlock which exists on our freeways, Mr. Speaker. I have been a strong and consistent advocate since the 1950’s for a mass transit system completely around the San Francisco Bay. I see the beginning of construction on the long-awaited extension of BART to the airport as a further important step in that direction. I look forward to the day when construction is complete and we will put this much-needed rapid transit extension to the airport into service.

**CONGRATULATING JAMIE CLEMENTS ON HIS RETIREMENT AS LEGAL COUNSEL OF SCOTT & WHITE**

**HON. CHET EDWARDS OF TEXAS IN THE HOUSE OF REPRESENTATIVES**

Friday, November 7, 1997

Mr. EDWARDS. Mr. Speaker, today I rise to congratulate Mr. Jamie Clements on his December retirement as legal counsel for Scott & White Hospital in Temple, TX. I hope Members of this body will join me today to thank Mr. Clements for his contributions to Scott & White, his community, and the country.

During his adult life, Mr. Clements dedicated himself to the legal and medical professions. He also found time to devote countless hours to local causes and charities.

Mr. Clements was born in 1930 in Crockett, TX. He attended the University of Texas at Austin where he received both a B.A. in 1953 with the first of his three terms as a Texas House Representative. His Texas House service was interrupted when he went to serve his country in the U.S. Marines Corps. From 1956–58 he was an infantry platoon leader before moving to the 3d Marine Air Wing where he was a legal officer. In 1959, he returned to the Texas House where he served his third and final term.

For the next 35 years, Jamie Clements established himself as a prominent member of the State and national bar associations and a strong leader in the field of medical law. He served as chairman for the committee on Liaison with the Medical Profession for the Texas Bar Association, is the founder and past president of the National Health Lawyers Association. Jamie Clements is a professor of medical jurisprudence at the Texas A&M University College of Medicine, a member of the Government’s Committee on Organ Transplantation and is a former president of the Board of Trustee of the Presbyterian Children’s Home and Service Agency of Texas. He capped his legal/medical career with his present position as legal counsel of Scott & White Hospital.

In addition to his contributions to the legal and medical professions, Mr. Clements was an active member of the Temple community. From 1964 through 1965 he was the president of the Temple Rotary Club. In 1969 he was the chairman of the Temple Planning Commission and from 1970 to 1974 served as mayor of Temple. He went on to serve Temple as the chairman of the Law Enforcement Advisory Board, president of the Cultural Activities Center, a member of the Board of Directors of the Temple Industrial Foundation, and the president of the Temple Leadership Council.

On a personal note, I am grateful to call Jamie Clements a close, personal friend. He is a role model for all of us: a man of integrity, decency and compassion. Let me also say that every accolade to Jamie Clements must also be considered a tribute to his wife of 35 years, Ann Trigg Clements. As a wife and a mother she has been a true partner in all of Jamie Clements’ accomplishments.

Jamie and Ann Clements have made their community and our country a better place. They have personally touched the lives of all of us who know them and thousands of others who are the beneficiaries of their selfless service.

I ask members to join me in wishing Jamie, Ann and their three children every success and happiness in the future.

**HON. DANNY K. DAVIS OF ILLINOIS IN THE HOUSE OF REPRESENTATIVES**

Friday, November 7, 1997

Mr. DAVIS of Illinois. Mr. Speaker, I rise to recognize the students at John Milton Gregory Elementary School located in the 7th Congressional district on Chicago’s Westside. Recently, we conducted a town hall meeting on education with the student body at that school. I would like to thank Dr. Hazel Steward, education officer for the Chicago Public Schools [CPS], Mr. Artie Borders, principal at Gregory and Mr. Lafayette Ford, local school council liaison for the CPS, for their assistance. The meeting will be broadcast on Cable Access TV (channel 19) on November 19, 1997 at 2 p.m., and again at 7 p.m.

The Gregory students were informed, thoughtful, and articulate. They were genuinely concerned about the differences between inner city and suburban schools. The questions were, and I quote, “Why are suburban books newer than ours?” “Why are suburban desks newer than ours?” “Why is our equipment older?”; and “Why don’t we have recess anymore?” These were big questions from young people that are intelligent enough to understand and recognize these differences. Gregory students were asking the same type of questions as Members of Congress.

In response to their questions, I had to tell the children at Gregory School that the majority in Congress was more committed to funding a $21 billion weapons program to purchase nine B-2 stealth bombers than placing these resources where they are desperately needed; in our educational system. I had to tell the children at Gregory that the U.S. Air Force does not even want or need these bombers. I had to tell the children at Gregory that the Department of Defense needs $1.7 million for repairs and upgrade, and we claim the title of being the richest country in the world. And I had to tell the children at Gregory that the majority in Congress does not see the need to heavily invest in our Nation’s future, our children. Anyone who does not understand why we should be investing in public education ought to tune in on November 19 and be enlightened.

**INTRODUCTION OF “THE OSHA COMPLIANCE ASSISTANCE ACT”**

**HON. CASS BALLenger OF NORTH CAROLINA IN THE HOUSE OF REPRESENTATIVES**

Friday, November 7, 1997

Mr. BALLenger. Mr. Speaker, today I am introducing legislation to codify the Occupational Safety and Health Administration’s [OSHA] consultation program. This is one in a series of bills which are intended to continue the process of changing OSHA.

More than 2 years ago, President Clinton, in response to our demands for changes in OSHA promised to “reinvent” OSHA. One of the principal changes in that promised invention was “to give employers a choice between partnership with OSHA or traditional enforcement.”

Unfortunately, OSHA’s principal initiative for giving employers a choice, the so-called cooperative compliance programs has evolved into a program of targeted enforcement, as even OSHA now acknowledges.

In contrast, there are programs, operated by the States, which do give employers the choice between partnership and traditional enforcement. These relatively small programs have received some Federal funding since the 1970’s. However, authorization for such consultation programs has never been made a part of the OSHAct, and, not incidentally, consultation has been one of the most underfunded and frequently ignored aspects of OSHA’s program. In some states, an employer who requests consultation assistance must wait more than 1 year, sometimes 2 years, to receive it.

The lack of funding and recognition for the consultation and education programs is in contrast to their recognized importance toward meeting the goal of safer workplaces. In fact, in 1996 the $32 million appropriated for consultation programs allowed States to conduct approximately 24,000 consultation visits while the same number of Federal enforcement inspections—24,000—cost OSHA over $120 million. My own company has participated in the North Carolina consultation program, and we have found that it truly is a way in which employers can work in partnership with OSHA and improve safety and health.

My legislation is based on the program in North Carolina, which operates with a combination of Federal and State funds. As is the case with the existing Federal funding, under the bill States would receive grants to provide both on-site consultation and other education and training activities. Employers who request an on-site consultation or audit would not be subject to fines unless they failed to correct violations. Employers who request an on-site consultation and do correct violations may be exempt from OSHA general schedule inspections for 1 year.

The legislation specifies that not less than 90 percent of OSHA’s compliance assistance funding should be used for the consultation
program. This provision is necessary because in the past 3 years OSHA has significantly increased its Federal compliance assistance budget, but without a corresponding increase in the consultation program. While I support additional funding for compliance assistance, I believe the funding should be directed to State consultation programs. The State consultation grants were created because of the concern that Federal OSHA would not effectively administer a consultation program or maintain separation from enforcement. I believe that those concerns are still very relevant.

Mr. Speaker, codification and implementation of an OSHA consultation program was one of the recommendations of the 1995 White House Conference on Small Business. The Clinton administration has also supported codification of an OSHA consultation program in the past, and I look forward to their support for this legislation, and hope that we will with bipartisan support finally establish consultation as an important function and activity in terms of the Federal Government's support for improved safety and health in the workplace.

TRIBUTE TO KENNETH C. BANKS, JR.

HON. BRAD SHERMAN
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. SHERMAN. Mr. Speaker, I rise before you today to pay tribute to Kenneth C. Banks, Jr., who has been nominated for the prestigious Fernando Award for outstanding volunteerism.

President Kennedy once said, “For of those to whom much is given, much is required. And when at some future date the high court sits in judgment of each of us, recording whether in our brief span of service we fulfilled our responsibilities to the state, our success or failure, in whatever office we hold, will be measured by the answers to four questions: First, were we truly men of courage . . . Second, were we truly men of judgment . . . Third, were we truly men of integrity . . . Finally, were we truly men of dedication.” The Fernando Award was created to honor individuals who have exemplified leadership, volunteerism, and dedication, and is recognized as the leading award for civic accomplishment in the San Fernando Valley. Each year, the Chambers of Commerce in the San Fernando Valley and other community organizations and leaders nominate candidates they feel demonstrate these characteristics. Ken Banks is a worthy candidate for this award.

Ken has taken an active role in the community, with his involvement in several different organizations and his leadership role in various projects. As a member of the Rotary Club for several years, Ken was named president in 1988. During his term, the organization was named the best club in District 5260. He heads up valuable programs within the community, including the creation and distribution of vocational scholarships, Guiding Eyes support for the Police Activity League, and other fundraising activities. Ken used his skills to raise money over $25,000 for North Hollywood area charities.

In addition, Ken helped spearhead the NoHo Arts District Concept, providing a unify-
also no surprise that the leaders of the opposition to this exhibit are from southern California—notorious for the El Monte apparel sweatshop in which some 70 Thai workers lived under slave-like conditions until the horror was discovered and the brutality was terminated. This, Mr. Speaker, was not a century ago. This was last century in my home state.

Make no mistake about it, Mr. Speaker; the garment industry’s fear is not that the American people will view the history of sweatshops in the 19th century but that they will view conditions in sweatshops operating today—in 1997.

Sweatshops are in violation of our Nation’s overtime, minimum-wage, and safety laws. Sweatshop operations are often underground and disguised, and monetary transactions in connection with these activities are usually done in cash. For these reasons, it is difficult to get a precise idea of how prevalent sweatshops really are. Some specialists have estimated that there are as many as 7,000 sweatshops across the United States.

Sweatshops are often outside the law in other ways, evading wage and hour laws, but also avoiding the payment of Federal, State, and local taxes. Violation of local building codes is common, including such serious safety problems as blocked fire exits or no fire exits at all. The operators of these sweatshops will also underreport their profits to the Internal Revenue Service. Let me make one thing clear, Mr. Speaker; immigrants are not the cause of sweatshops; they are the victims of the operations of such vicious practices.

Mr. Speaker, I ask that at this point, an excellent editorial—“Save the Sweatshops”—which appeared in the San Francisco Chronicle be placed in the RECORD.

From the San Francisco Chronicle, Sept. 23, 1997

SAVE THE SWEATSHOPS

To its lasting credit, the Smithsonian Institution is planning a hallowed exhibit on sweatshops, an historical look at rapacity and exploitation that is still in our midst. One poignant feature has raised the ire of the advocates of the depiction of the El Monte factory raided in 1995 where some 70 Thai immigrants lived in peonage while cranking out clothing. The exhibit, a part in the help of California state labor authorities, will borrow equipment seized in the raid in order to re-create the dungeon-like sewer shop. Is the factory typical of clothing factories? Obviously not. But it should provoke thought about immigrants, their hunger for work and the role of a vigilant government.

The bill, which is due to open next April, will tackle sweatshops from early last century to the present. By its very title, it deals with the history back alley of American working life. Along with El Monte, it will highlight the epochal Triangle Shirtwaist fire in Manhattan that killed 146 women trapped in the sweatshop in 1911. Such episodes aren’t pretty, but brushing them away, as industry publicists would like, would be a mistake.

These criticisms may be counting on the Smithsonian to cave in. Several years ago it wanted to mount an exhibit that showed the Japanese death toll from two American atomic bombs that ended World War II. The exhibit also had its own advocates, but it would be a mistake to compare it to the El Monte dispute.

The Smithsonian, which serves as a curator of American life, cannot survive such challenges and serve its mission well. Critics who want to sanitize controversy deny everyone a chance to discover history. Mr. Speaker, I further ask that two Letters to the Editor which appeared in the Los Angeles Times also be placed in the RECORD. The letters appeared in the newspaper after it published news stories about the controversy over the sweatshop exhibit in September of this year. The letters are from I. Michael Heyman, the Secretary of the Smithsonian Institution, and the second is from Evan Smyth of Los Angeles:

LETTER OF I. MICHAEL HEYMAN, SECRETARY, SMITHSONIAN INSTITUTION

The Smithsonian Institution is an educational institution that strives to make American history accessible, useful and meaningful to the millions who view our exhibits, read our catalogues and participate in our public programs. It occasionally presents difficult, unpleasant or controversial historical episodes, not out of any desire to embarrass, to be unpatriotic, or to cause pain, but out of a responsibility to convey a complete viewpoint. By exiling more unpleasant episodes from the historical record we permit unconscious and ambiguous, we hope to stimulate greater understanding and appreciation for the historical forces and choices that shaped America. Ultimately, the Smithsonian Institution mounts these kinds of exhibits because we have confidence in the American public’s desire for candor and appreciation for important historical stories.

The exhibition, “Between a Rock and a Hard Place: A Dialogue on American Sweatshops, 1920–Present,” scheduled to open April 15, 1998, will be a balanced presentation, both in the historical material it presents and the outside views it will include. We have sought to include the voices of participants on all sides of this issue. Our exhibition will be strong in scholarship, but equally it will be sensitive to participants’ concerns. We will continue to reach out to all interested parties, including the manufacturing, apparel and retail sectors, to ensure a fair and balanced presentation.

LETTER OF EVAN SMYTH, SMITHSONIAN INSTITUTION

The apparel industry trade groups claim that their position could not be heard in an exhibit like the one proposed for the Smithsonian. Perhaps they are right, but I would be very interested in their reaction on sweatshops in light of the following facts:

The slave conditions at El Monte are a matter of public record.

One of the largest garment manufacturers in Southern California, Guess, Inc., is currently scrambling to defend itself against charges in a class-action lawsuit that minimum-wage and overtime violations are rampant in their contractors’ sweatshops. Guess, Inc., has been removed from a Department of Labor trendsetter list because of retribution in its ‘fight’ against wage-and-hour violations. Sweatshop conditions appear to be the cornerstone of the apparel industry rather than “a few bad apples.”

LIBERTY COMMON SCHOOL

HON. BOB SCHAFER
OF COLORADO

IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. BOB SCHAFER of Colorado. Mr. Speaker, on September 2, 1997, in Fort Col- lins, CO, the Liberty Common School, opened its doors for the first time. The school’s headmaster, Dr. Kathryn A. Knox greeted 393 children and their parents in the yard of the newly renovated facility at 1725 Sharp Point Drive. For me it was greatly inspiring to be there that first day. As a member of Congress, and a parent whose children attend public school, I can tell you that it was truly exciting to observe such enthusiasm about the first day, and grand opening of a brand new public school.

Liberty Common School is a charter school. It is the latest of 23 charter schools approved in Colorado, and the first in Larimer county in northern Colorado. Colorado was the third State to enact a statute creating charter schools. The late State representative, John Irwin of Loveland, CO, first proposed the idea, but did not live to see his dream for Colorado children become a reality. Today, there are tens of thousands of Colorado schoolchildren who enjoy brighter futures because of Representative Irwin’s vision and bold leadership.

The founding of Liberty Common School was a heroic effort in and of itself. Owing its existence to the vision and leadership of Dr. Randy Everett and Ruth Ann Everett, Liberty Common School began as an idea conceived in the Everetts’ living room. There a small group of educators, community leaders, and parents convened a discussion of public education reform possibilities. The Everetts led those early discussions and formulated a bold plan which they championed through to the establishment of Liberty Common School. It is due chiefly to the Everetts’ vision and passion for equitable, high quality education in the public schools of Liberty Common School exists today. Quite clearly, their devotion to the community at large and to the concept of education excellence, has touched the lives of not only the Liberty Common students of today, but for generations to come.

Of course Randy and Ruth Ann Everett were not alone. Led by Phil Christ, chairman of Liberty Common’s first governing board of directors, and entire legion of parents and community leaders joined the Everetts in seeing the concept to fruition. With over 200 volunteers convened countless evening meetings, met with school district officers, moderated public forums, and petitioned the Colorado State Board of Education before winning approval for Liberty Common’s charter.

Mr. Speaker, on September 2, 1997, the eager children left the schoolyard, found their new classrooms, and became acquainted with their new teachers. These educators met the full fulfillment of professionals. From across America, Liberty Common drew upon the best to educate its students and enable its faculty. Because of the liberties created by Colorado’s charter legislation, Liberty Common School is able to treat its teachers like the real professionals they are. Each hired at will, each considered according to merit, the professional educators at Liberty Common began to engender their skills, their craft, and their passion for teaching, in an intellectual exchange with their new students.

Sharon Jones was the first kindergarten teacher. Other teachers include Gynis Tidwell, and Gusty Coulas in the first grade; Gretchen Jeffers, Victoria Parrish in second grade; Beth Helmers and Cherie Pederson, third grade; Jeffrey Seiner and Linda Dunn, fourth grade; Constance Behr, fifth grade and history;
Frances Polster, fifth grade science; Paul Stoda, sixth grade and math; Maxwell Fransson, sixth grade and English; Marie-Louise Borok, seventh grade and art; Kyndra Spitler, music; and Gary Schwartz, physical education. Linda Berry, Melissa Copp, Beth Olsen and Tina Shoemaker helped deliver the academic program to the children as the school’s first teachers’ assistants.

With the guidance of business manager Paris Thomas, and administrative assistant Sally Hiltonberg, Liberty Common’s teachers and staff began the process of teaching in Fort Collins way.

Mr. Speaker, there is no other program of this type in Colorado. The school has selected the Core Knowledge Foundation’s Curriculum Sequence as the framework of its curriculum. The Core Knowledge sequence is distinguished by planned progression of specific knowledge in history, geography, mathematics, science, language arts, and fine arts.

Parents actually govern the school. They drafted and proposed the charter to the Poudre School District Board of Education. Parents own the school. They elected the headmaster. They establish school policies, and they maintain parental involvement and community support in the school’s operation.

The expanded science curriculum is based on Project 2061, guidelines developed by the American Association for the Advancement of Science. This project builds on and goes beyond Core Knowledge Sequence in science. The science program is allotted more time than is usual in the local school district, and a science specialist, a science degree, has been hired to deliver the curriculum. No other local school has a definitive plan like Liberty does for using higher order thinking [HOT] skill, including the teaching of habits of mind in the various subjects. To summarize HOT: the students learn to know, understand, and use knowledge across the curriculum. In addition students develop skills of patterning, likeness/difference; modeling, reproducing; and creating, producing uniqueness across the curriculum. The result is that the students absorb the curriculum thoroughly as well as develop thinking skills to be lifelong learners. Habits of mind are more specific critical thinking skills unique to each discipline.

The school is teacher focused. The program one’s broad background knowledge, enables students to become more and more internalized, the student journeys closer to self-reliance.

Mr. Speaker, this philosophy has become more and more internalized, the student journeys closer to self-reliance.

Mr. Speaker, this philosophy has become more and more internalized, the student journeys closer to self-reliance.

Mr. Speaker, this philosophy has become more and more internalized, the student journeys closer to self-reliance.

Mr. Speaker, this philosophy has become more and more internalized, the student journeys closer to self-reliance.

Mr. Speaker, this philosophy has become more and more internalized, the student journeys closer to self-reliance.

Mr. Speaker, this philosophy has become more and more internalized, the student journeys closer to self-reliance.

Mr. Speaker, this philosophy has become more and more internalized, the student journeys closer to self-reliance.
Our goal is to provide a rich and balanced educational opportunity for all students. High standards are at the heart of our expectations, although we recognize every learner has unique abilities, interests and motivations. Parents encourage their child’s success by monitoring progress in school and at home, and participating as fully as possible in the community. Classroom community and homeroom are designed to challenge each student to make the most of his/her talents.

KNOWLEDGE

The school has selected the Core Knowledge Framework as the framework of its curriculum. The Core Knowledge Sequence is distinguished by planned progression of specific knowledge in history, geography, mathematics, science, language arts, and fine arts.

Children learn by building on what they already know. Thus, it is important for them to begin building foundations of knowledge in the early grades when they are most receptive to attaining an organized body of knowledge. Children are by instinct driven to construct a view of the world, and therefore are best taught through the content of primary literature. Particularly Liberty. This will include a great deal of nonfiction primary literature. Particularly Liberty. This will include a great deal of nonfiction primary literature.

Children learn by building on what they already know. Thus, it is important for them to begin building foundations of knowledge in the early grades when they are most receptive to attaining an organized body of knowledge. Children are by instinct driven to construct a view of the world, and therefore are best taught through the content of primary literature. Particularly Liberty. This will include a great deal of nonfiction primary literature.

Mature literacy develops as students become acquainted with the core body of knowledge and become familiar with many well-written, descriptive and meaningful works of literature. The literature suggested by the Core Knowledge Sequence, as well as other literature that will be introduced is chosen not only for its place in the core body of knowledge, its representation and variety of cultures and language, but also because it provides access to deeper meaning of universal human problems, particularly those which preoccupy children’s minds.

Liberty will acknowledge the central role of language in thought and action. Liberty students will be taught to write and speak through example and sensible practice. Grammar, logic, and real spelling learned from real literature will be part of these skills.

Liberty will teach thinking skills not as a stand-alone course, but rather as instruction integrated within the content. Students will develop higher-order thinking skills from features that make it understandable and meaningful.

Additionally, we will teach the more specific thinking skills unique to each discipline, called “Habits of Mind.” The Habits of Mind to be taught for scientific literacy are found in “Benchmarks for Scientific Literacy” published by the American Association for the Advancement of Science. The Habits of Mind for historical literacy are found in the book “Historical Literacy,” which is a report to the Framework of Historical Literacy. The Habits of Mind for math literacy are identified in “Children’s Mathematical Development.” Habits of Mind specific to literature, language, art, and music will also be taught.

The development of skills requires time, thought and active engagement of the visual and verbal imagination. We will encourage students to reproduce non-instructional television watching, which is passive and discourages creative play, with the myriad of activities which develop and enhance the development of imagination and skills. Because television viewing is diametrically opposed to reading, we may stifle cognitive development and imagination, stifle the values, distorts cause and effect, and is unable to portray thought, we discourage excess (greater than 1 hour) viewing.

The purpose of public education in a democracy is to prepare people for the demands of work, the duties of citizenship, and the obligations of each individual to make as much of herself or himself as possible. For this to be accomplished, our youth must be taught the values inherent in a democratic society, such as devotion to human dignity and freedom, equal rights for all, social and economic justice, the rule of law, civility and honesty, self-respect, and self-reliance. These values will be taught from the content of the curriculum, by example and also in how we teach.

STUDENT ACCOUNTABILITY

All students are capable of learning to accept responsibility for their own education. The Core Knowledge Sequence will acknowledge that young people are free to act and are hence moral agents and can be held accountable for their actions. Our policies, practices and support for learning, operation, making decisions and living with the consequences. Such policies, and a clear understanding of academic expectations, will help our students to choose a personal quest for intellectual and personal growth. The students’ sensing of an alignment between their personal educational goals and those of their school’s will further reinforce their desire to accept responsibility for their education. Such an approach to student accountability has been termed “agency education.”

PARENTAL INVOLVEMENT AND RESPONSIBILITY

Liberty is a School of Choice. This means that parents have the option to select Liberty’s educational program for their child. Liberty believes that its design will result in parents wanting to play a strong role in their child’s education. When parents have an opportunity to envision the kind of education they prefer, they will find the necessary energy, time, and resources to devote to their child’s education. Liberty anticipates that parents will be directly engaged in tutoring, coaching, classroom instruction, preparing resource materials, and providing other necessary and invaluable assistance.

The family naturally provides the most influential and effective context for basic life long learning and teaching.

For this reason, and at the discretion of the classroom teachers, parents may be invited to teach or assist with lesson plans or learning projects in all subjects, depending on their interests and expertise. Parents will also be encouraged to read aloud to children at school and/or in the home, coaching them in skill development, and otherwise contributing time and talents in a variety of ways.

Liberty Common School is a charter school. As such, there are many new ideas being implemented. The classroom itself is the context for several of these innovations. There is great emphasis on parent involvement in this school. There is also a need to establish a learning environment that best serves the students. At Liberty Common School we have defined the general parameters for parent volunteering in Liberty School classrooms.

The family naturally provides the most influential and effective context for basic life long learning and teaching.

For this reason, and at the discretion of the classroom teachers, parents may be invited to teach or assist with lesson plans or learning projects in all subjects, depending on their interests and expertise. Parents will also be encouraged to read aloud to children at school and/or in the home, coaching them in skill development, and otherwise contributing time and talents in a variety of ways.

Liberty Common School is a charter school. As such, there are many new ideas being implemented. The classroom itself is the context for several of these innovations. There is great emphasis on parent involvement in this school. There is also a need to establish a learning environment that best serves the students. At Liberty Common School we have defined the general parameters for parent volunteering in Liberty School classrooms.

1. Parents volunteering is an integral part of the Liberty Common School. Parents are not only welcome, but also crucial if we are to have high quality teaching of the entire curriculum in this first year. Such involvement is necessary to assist the teachers and to help shape the educational program. There is great emphasis on parent involvement in this school. There is also a need to establish a learning environment that best serves the students. At Liberty Common School we have defined the general parameters for parent volunteering in Liberty School classrooms.

2. The teacher’s “individual teaching style” sets the tone for the classroom. This will vary among every teacher of the educational program to classroom management. The teacher has primary responsibility for the classroom and student learning within the classroom.

3. Parents who wish to be volunteering in the classroom need to learn the teaching style of the teacher they wish to assist. Each teacher will be giving a brief explanation of their style at the orientation before school starts. If the teaching style conflicts with the parent’s volunteering style, the parent will have the option to either adjust their style or find a more compatible setting within the school for volunteer.

4. There will be a "Liberty Volunteer Tutoring" program where each parent who works within the classroom itself will need to attend, including curriculum development, copy machine, center, reading overview, language arts, etc. Each parent will be given an opportunity to volunteer in one specific area of the classroom, it is best for all involved that each volunteer have an overview of the whole classroom.

5. There will be a “curriculum assistant” for each teacher. This person will work directly with the teacher to prepare resource materials and to help shape the educational program to classroom management.
is just that, a sequence. Each teacher will be filling out the sequence for their grade level. The Curriculum Committee has amassed the materials necessary to succeed at this task and there is a Curriculum Resource Room where this work will be done.

9. There will be a volunteer coordinator for each classroom, this person will be responsible for organizing and delivering the volunteer needs both of the teacher/classroom and the parents.

7. A grievance or concern a parent has with a classroom or a teacher will be handled by the procedures defined in the school handbook.

8. Under no circumstance is it ever acceptable for a parent/teacher to confront a teacher on an issue in the classroom when the children are present.

Liberty will encourage every adult—parents, step-parents, grandparents, aunts and uncles—to take a special interest in the lives of Liberty’s students, to act as mentors and tutors, and to instill in every student a love of learning.

Parents will work in conjunction with the staff to ensure the most effective education possible for their children. To this end, parents will be responsible for knowing and understanding the contents of Liberty’s Charter, and will be encouraged, but not required, to participate on school committees and provide other volunteer services as they are able.

Mr. Speaker, Liberty Common School’s reliance on parental involvement is the epitome of local control. The original parents who volunteered to coordinate other classroom volunteers are Rachele Maffett, Felicia Coddington, Annie Groth, Lorena Lighthart, Karla Wild, Tina Durham, Beth Mizer, Beth Chilson, Joanne Proctor, Miliana Swahn, Melissa Massey, Susan Strong, Donna Regethoff, Judy Peterson, Kim Miller, and Mohamad Kalaaji.

Parents playing the primary role in founding the Liberty Common School, securing its charter, and planning its opening include: Greg and Jane Anderson, Diane Campbell, Steve and D’Ann Chorak, Phil and Carol Christ, Wade and Kim Darrow, Randy and Ruth Ann Everett, Tim and B.J. Gilmore, Francie and Phil Hutchinson, Peter Kast, Thomas Ledder, Larry and Mindy Moore, Marty and Cheryl Olson, Gil and Cindy Paben, Gary and Judy Peterson, Jaci Peterson, Carol Riccardi, Del and Candy Sandfort, Rolando and Kathy Santos, Maureen Schaffer, Susan Strong, Alberto Squassabia, Dan Norhues and Monica Sweere, Richard and Laura Szanto, Mike and Susan Thatcher, Becky Trentlage, Laurel and David Van Maren, and Harry and Kathy Williams.

Mr. Speaker, it is clear that Liberty Common School has worked hard to be that example for the generosity of several parents who committed significant personal finances to purchase the school facility. There are several parents who cosigned loans for the renovation of the former manufacturing facility which is now a school.

In particular Mr. David Neenan of Fort Collins has truly resulted in enhanced opportunity for all children of Fort Collins.

Additionally Peter and Penny Kast, and Randy and Ruth Ann Everett have sacrificed long hours and personal fortune to secure the location and finances that have made Liberty Common School possible.

Mr. Speaker, the enthusiasm of the Liberty Common community is positively changing the entire city. Parent involvement has established the marketplace of educational opportunity and healthy competition. One parent captured the essence of the pride and enthusiasm all parents felt when Liberty Common opened its doors and it is here that I submit her comments. Sally Hutchinson’s words were printed by the Fort Collins Coloradoan on September 17, 1997.

**NEW CHARTER SCHOOL SETS OPEN HOUSE**

We’re open! Yes, Liberty Common School opened for its very first day of school on Sept. 2. And an exciting day it was! Fort Collins’ first charter school is under way. Let me remind you that we are a public school without tuition.

I have been part of this effort for more than a year now, and will continue to see the plan through as part of the administrative staff. It has required hard work for many, many months (more are required), but seeing the vision of having a school like this come to pass is a tremendous reward. Fort Collins has finally joined the ranks of many cities in Colorado and across the country who see the value of allowing parents to choose a public school, and to participate in running the school. Not only does Liberty offer the complete Core Knowledge Curriculum for grades K–7 this year, but we have outlined a method to deliver the curriculum and use teachers that is unique.

In addition to our teachers and students a “relaxed uniform,” not only to make it easier to choose what to wear to school, but to add a sense of importance to school, improve student appearance and promote an atmosphere more conducive to learning. Our science program has been enhanced, our depth of study in history and literature is excellent, our reading instruction is phonics based and our expectations and standards are high. We have separate teachers for art, music and physical education, and are currently organizing an extracurricular band and music and physical education, and are currently organizing an extracurricular band program for fifth through seventh graders.

Our property includes a huge playground, and a separate gym and multi-purpose room. Liberty is located at 1725 Sharp Point Drive, off of East Prospect.

If this describes the type of school you’ve been looking for, please call the school at (970) 482-9800, and plan to attend our Open House from 5 to 6 p.m. and 7 to 8 p.m. today.

We have openings in several grades, and are open to all students.

We encourage those of you looking for a Core Knowledge program to get enrolled now. As we plan to continue through ninth grade, enrollment in each core of the program means you will still have four to five more years of this rich, content-based curriculum.

Call or stop by for a tour and additional information. We’re very excited about the program that’s been developed here at Liberty, and are looking for others with a spirit for excellence in education, and a desire to be part of the movement taking place throughout the nation.

Sally Hutchinson is an administrative assistant at Liberty Common School.

Mr. Speaker, there is clearly no more important topic in northern Colorado than the topic of educational excellence. In recent years, the education of our children, the stability of our republic and the strength of our Nation rely upon a well-educated electorate and productive economic participants. I commend Poudre School District, its board of education, its superintendant and staff for extending parental choice in Fort Collins to include Liberty Common Charter School.

The expanded opportunity for varied academic settings signals the district’s commitment to enhanced equity and education fairness. Moreover, the district’s commitment to true based management and its deference to parental authority has inspired more opportunity for a professional teaching environment, and effective schooling.

It is for these reasons Mr. Speaker, that I urge my colleagues to look with favor upon the charter school movement, and to consider the families served by Liberty Common School. This new institution is a suitable model for successful, innovative, competitive schools throughout the country. It is a model that ought to be duplicated. I urge my colleagues and the public at large to further explore the remarkable features of this institution and celebrate another success in America’s efforts toward excellence in public education.

**STATEMENT OF REMEMBRANCE OF CHEDDI JAGAN AND MICHAEL MANLEY**

HON. DANNY K. DAVIS
OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, November 7, 1997

Mr. DAVIS of Illinois, Mr. Speaker, I rise today to remember two men who, though not Americans, deeply impacted America and the American people: Michael Manley and Cheddi Jagan. It is appropriate to remember them on the floor of the U.S. House of Representatives today because as we engage in the global market, we need to also be engaged in the discussion of global freedom within this structure.

Just as Toussaint L’Ouverture, the Haitian patriot who led the rebellion of 1791 to liberate the slaves in Haiti and helped inspire the struggle of African-Americans for their freedom, Michael Manley and Cheddi Jagan, by their example in seeking independence and empowerment in their small nations, helped inspire and motivate the struggle for equality and empowerment in post-World War II America and throughout the world.

Michael Manley and Cheddi Jagan lived very different lives in very different countries but their struggles in life seemed to intersect just as their untimely deaths within days of each other brought them together at death. The Caribbean lost two giants in 2 days. They were both outstanding patriots and freedom fighters and their struggle echoed throughout the world. They were both practitioners of the art of mass struggle and devoted their lives to the common people. Respect and admiration for their lives and works extends far beyond the Caribbean.

Cheddi Jagan was the former President of Guyana and Michael Manley was the former Prime Minister of Jamaica. The world press, especially the Caribbean press acknowledged that the movement for self-rule, economic freedom and justice, workers rights, and human rights had suffered a great loss in these two visionaries.

Dr. Jagan, the son of indentured Indian immigrants and a U.S. trained, Howard Dental...
School and Chicago's Northwestern University, dentist, has been described by many as champion of the poor. Disgusted by conditions in then British Guiana, Jagan became involved in the labor movement and was elected to the colonial legislature in 1947.

Jagan was the author of a host of books on Caribbean history. His writings brought the Caribbean region to the attention of the world and filled in important parts of the history of the Americas. Dr. Jagan was a special kind of visionary: one who dreamed of a better day and could put it into motion.

Michael Manley was a great orator, a champion of human rights and a statesman of courage and conviction. Jamaica's most charismatic leader, he was acknowledged to be the central driving force in cementing Caribbean unity and establishing a Caribbean community.

Manley, the son of Peoples' National Party founder Norman Manley and Edna Manley, an artist and sculptor, went to war at age 19 as a member of the Royal Canadian Air Force. After the war he went to Jamaica College, became an activist in the West Indies Student Association. After graduation he became a journalist, and influenced by his experiences became involved in the trade union movement.

After his father's death he became a leader of the PNP and was elected Prime Minister 3 years later in 1972. He served as Prime Minister for 11 years and then was reelected in 1989 and served until health problems forced him to resign in 1992. It was said of Manley, "He showed us that the politics of nation, the ideologies and theories of government, are as relevant to the school girls and boys as to the guys in parliament."

As we remember these two great gentlemen whose hard work, tireless determination, tenacity, and altruistic dedication for peace, justice, human and civil rights, self rule and empowerment, education, jobs and health care we are inspired to draw great strength from the common roots we share, the common problems we face and the common belief that the will and improvement of the people is the best and, ultimately, only guarantee of democracy.

INTRODUCTION OF LEGISLATION TO CLARIFY THE OSHACT REGARDING RESPONSIBILITY ON MULTIEmployER WORKSITES

HON. CASS BALLINGER
OF NORTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. BALLINGER. Mr. Speaker, one of the characteristics of the new OSHA, according to the Clinton administration, is that it will focus not on numbers of citations, but on results. Unfortunately, OSHA's policy with regard to multiemployer worksites shows just the opposite approach.

It is clear from the Occupational Safety and Health Act that in general each employer is responsible for the working conditions and health and safety of his or her own employees. However, early administrative and court decisions recognized that under limited circumstances an employer could be cited by OSHA if the employer created the violation or was in danger as a result of the violation were employed by another employer. So, for example, an employer could be cited for storing heavy material near the edge of the top floor of a construction site which endangered employees of other employers working on the floor below.

In recent years, OSHA has stretched and stretched the limits of that legal test in order to artificially increase its numbers of citations and to achieve, through its enforcement, a policy of creating a site controlling employer responsible for all working conditions on the site. Specifically, OSHA has taken the enforcement position that a general contractor or owner should always be responsible for safety on the entire worksite. As a result, OSHA has begun to routinely cite general contractors even where the contractor's employees are not exposed to the violation and the contractor's employees did not create or have control over the violation. Instead, the basis of the general contractor's liability is simply that the general contractor or owner should have overall responsibility of the job site, regardless of what the facts and circumstances actually showed.

In that regard, OSHA has adopted a position for enforcement that follows Democratic-sponsored legislation in the 102d and 103d Congress—legislation which failed to pass. A central tenet of those bills was that either a contractor or the owner would be liable in all cases for any safety and health hazards on the worksite. Despite the defeat of that legislation, OSHA has attempted to implement the same policy through enforcement.

Ironically, OSHA's current enforcement policy on multiemployer liability is leading to less safely, not more. General contractors and owners are increasingly reluctant to include any language regarding safety and health responsibilities in contracts with subcontractors, or to take action on subcontractor safety problems that come to the attention of the general contractor or owner. This is done out of concern that any such contract language or action will be used by OSHA as the basis for claiming that the general contractor or owner has assumed responsibility for all safety and health on the worksite, and is therefore liable for all violations on the worksite, including those solely created by a subcontractor.

My legislation is intended to reestablish the earlier interpretation regarding liability of multiemployer worksites. Under the bill, an employer may only be cited for an OSHA violation if the employer's own employees are exposed to the violation, or the employer, or its employee, has created the violation or assumed responsibility for ensuring compliance by other employers on the worksite. I urge my colleagues to join me in support of this legislation.

Mr. Speaker, I rise before you today to pay tribute to Horace H. Heidt, who has been nominated for the prestigious Fernando Award for outstanding volunteerism.

President Kennedy once said, "For of those to whom much is given, much is required. And when at some future date the high court sits in judgment of each of us, recording whether in our brief span of service we fulfilled our responsibilities to the state, our success or failure, in whatever office we hold, will be measured by the answers to four questions: First, were we truly men of courage . . . Second, were we truly men of judgment . . . Third, were we truly men of integrity . . . Finally, were we truly men of dedication." The Fernando Award was created to honor individuals who have exemplified leadership, volunteerism and dedication, and is recognized as the leading award for civic accomplishment in the San Fernando Valley. Each year, the Chambers of Commerce in the San Fernando Valley and other community organizations and leaders nominate candidates they feel demonstrate these characteristics. Horace Heidt is a worthy candidate for this award.

Horace has played a leadership role in bringing the arts to the forefront of our community. For 12 years, he was the musical director for the Los Angeles Raiders, and in 1985 he played for President Ronald Reagan at the 50th American Presidential Inaugural Ball. He has negotiated on behalf of the casual music industry and the orchestra leaders of Los Angeles for the collective bargaining agreements. Horace is the honorary chairman of the Valley Cultural Center, a position he has held for the past 3 years.

Horace's commitment to community involvement is not only evident in the cultural arena, he is a leader in business as well. He is the president and board member of the San Fernando Valley Business and Professional Association. This past year, Horace was elected to the Board of Economic Alliance of the San Fernando Valley and appointed to the board of advisors for Finally Restoring Excellence in Education [F.R.E.E.].

Horace has been recognized for his invaluable contributions to our community by several organizations. In 1993, he was presented with the distinguished Freedom Award by the Los Angeles Sertoma Club, and in May 1997, Horace was honored as Citizen of the Year at the 47th Annual Community Awards of the East Valley Coordinating Council. These honors are just a few of the several distinctions Horace has received, in addition to being named as a finalist for the 39th Annual Fernando Award.

Mr. Speaker, distinguished colleagues, please join me in paying tribute to Horace Heidt. He is a role model for the citizens of Los Angeles.
Mr. MORAN. Mr. Speaker, this week Congress made an important, bipartisan statement on behalf of American taxpayers. I supported H.R. 2676 because my constituents know that the Internal Revenue Service needs restructuring and reforming. They tell me stories about assigning an employee to try for 5 hours to get an IRS agent on the telephone, and about wading through multiple notices of deficiency, none of which explain the supposed problem or include the name of an agent who could do so.

Stories such as those led me to introduce H.R. 2598, the IRS Customer Service Improvement Act, last month. All of my fellow Members of Congress who voted for H.R. 2676 earlier this week should consider signing on to my bill as well, because they have much in common.

Both bills are aimed at changing the attitude the IRS takes toward taxpayers. Taxpayers should be the customers of the IRS, not its targets. Most Americans want to follow the law and pay their taxes correctly and should not be considered de facto lawbreakers. Both bills also recognize that Government owes more than just a little respect to the people who have given it the authority to exist. Under our sprawling Tax Code, the IRS has an important role, but that is no excuse for institutional arrogance.

However, the bill we passed this week has more in common with my legislation than spirit and theme. The provision regarding equalizing the interest rates for overlapping underpayments and overpayments, for example, is similar to section 3 of the IRS Customers Service Improvement Act, which would make the interest rate equal in all cases.

The IRS Customer Service Improvement Act also would require the IRS to implement a plan to have all calls to service numbers answered by IRS employees—not machines—in a timely manner; require all IRS letters and notices to be signed by an IRS agent; require the IRS to notify you of mathematical or clerical errors if you pay within 60 days of the IRS' timely notification; establish a 1-year period of limitation for the IRS to assess additional taxes on returns legally filed by individual taxpayers in all but the highest tax bracket; and make the electronic filing of depository taxes voluntary for small businesses.

While I look forward to the next phase of debate, the possible overhaul of our complex and flawed Tax Code, these provisions will add to the drive to change the nature of the IRS while we still have it. After all, Mr. Speaker, it is called the Internal Revenue Service—and it is service that American taxpayers deserve.

Mr. BARRETT of Wisconsin. Mr. Speaker, I ask the House today to join me in paying tribute to one of Milwaukee’s most cherished citizens, Mrs. Claretta “Mother Freedom” Simpson.

Mrs. Simpson has devoted her entire life to helping others succeed. Through her actions, thousands of Milwaukee youth have gone on to realize their dreams and have, in turn, lent a helping hand to others. A circle of caring and giving has surrounded Mrs. Simpson all her life and this month her family will gather with her to celebrate her work.

Mrs. Simpson entered the world in 1901 in the small town of Smedes, MS, delivered by a midwife in her home. She experienced the hardships of life at an early age and these experiences led her to become active very early in the American Civil Rights Movement. Mrs. Simpson’s activities in the civil rights movement pre-date Rev. Dr. Martin Luther King, Jr. She started her work with Dr. T.R.M. Howard of Mount Bayou, MS, one of Dr. King’s professors. Mrs. Simpson turned the Civil Rights Movement into her life’s work, marching in cities all across America, including Birmingham, AL, Detroit, MI and Washington, DC. She marched with Dr. King and was in Washington to hear his famous “I have a dream...” speech.

Mrs. Simpson’s tireless efforts on behalf of her fellow man and woman have earned her the title of “Mother Freedom” from other civil rights activists. Her constant participation and support of the movement provided hope and inspiration to everyone around her. Her presence will forever be remembered by those who were there when the dogs came, the hoses flowed, and the lives were lost. Her bravery in the face of death is testimony to the beliefs she holds and the seriousness of her conviction. She cheated death to further the cause, and that is something we should never forget.

In 1958, Mrs. Simpson moved to Milwaukee, WI to continue her efforts in working for civil rights for African-Americans. She became an integral part of her community and worked to soften the sting of poverty on children in Milwaukee.

In 1970, she founded Career Youth Development (CYD), Inc. of Milwaukee. CYD is a non-profit, multi-service, social service agency that serves children from families who most need assistance in Milwaukee. CYD provides over 40 programs to Milwaukee’s poor families to help them through drug addiction, gang activity, parenting, academic challenges and many other challenges. She started CYD in her own home, using her own social security check to cover costs.

CYD’s slogan is “Love in Action” and it could not better summarize the philosophy of Ms. Simpson. “Love in Action” is what these families and children receive. Mrs. Simpson’s love is in action.

On November 28th of this year, Mrs. Simpson will be celebrating her 96th birthday. Family and friends will get together to celebrate a life of giving and a woman with undeniable strength and spirit. I am proud to say that I will be a part of her celebration that day and I will always appreciate the sacrifices she has made for Milwaukee and for America.”

Mr. CARSON. Mr. Speaker, on Thursday, November 7, 1997, I was pleased to be present conducting official business in my Congressional District and was unable to cast the following rollcall votes. Had I been present, I would have voted as follows and request that this explanation appear at the appropriate place in the RECORD:

“Yea” on rollcall votes 592, 595, 598, and 605: “nay” on rollcall votes 585, 586, 587, 588, 589, 590, 591, 593, 594, 596, 597, 599, 600, 601, 602, 603, and 604.

As a result of air traffic problems this morning, my return to Washington was delayed causing me to miss the first vote of the day. Had I been present, I would have voted “nay” on rollcall vote 606.

Mr. ENGLISH. Mr. Speaker, this year, one of my constituents, Peg Dumbaugh, is retiring as president of the Butler Area School District School Board. I want to take a moment to pay tribute to her fine work not only during her 4 years on the school board, but during her many years of service in the Butler Area School System. In November 1993, Peg Dumbaugh was elected to the Butler Area School Board for a 4-year term, and she was uniquely qualified to fill the position. For some years, she has been a former high school English teacher in the Butler school system, and had been the faculty adviser for the school newspaper, the Skyliner. After leaving the classroom, she has joined the Butler Area School District’s administrative team as Coordinator of School-Community Relations. During her tenure in that position, Mrs. Dumbaugh had initiated the Distinguished Graduate project, which each year recognizes an outstanding graduate of the Butler Area School District. One of the most notable of these distinguished graduates is Dr. William J. Perry, our former Secretary of Defense. Finally, upon retirement from the school system, Mrs. Dumbaugh did free-lance work in journalism for the Pittsburgh Post-Gazette, among other things covering Butler Area School District school board meetings.

With this rich background of diverse and relevant experiences, Peg Dumbaugh became one of the nine elected members of the Butler Area School Board overseeing a school system that is the 21st largest school district out of the 501 school districts in the Commonwealth of Pennsylvania. The Butler Area
This year, the Chian Federation is honoring several individuals who came to the United States through Ellis Island. From 1892 to 1954, 245,000 Greek immigrants passed through the complex of buildings on Ellis Island.

Today, many Hellenes trace their roots back to their brave parents, grandparents, and great-grandparents who came to the United States to find relief from rural poverty. These immigrants, many who were illiterate, gave the United States the future generations of college-educated, professionally successful Hellenic-Americans of today.

On November 23, 1997, the Chian Federation, under the direction of President George Amintroudis and Chairman Alex Doulos, will be honoring seven individuals who came through Ellis Island.

Those honorees include: Andreas Papadopoulos, Christos Dakides, Pantelis John Marangos, Steve P. Mekedis, Michael N. Konotos, Sophia Kalogeras and Nicholas Christopher.

Mr. Speaker, I ask that my colleagues rise today to pay tribute to Dr. Walter Mosher, who has been nominated for the prestigious Fernando Award for outstanding volunteerism. President Kennedy once said, “For of those to whom much is given, much is required.” The Fernando Award was created to honor individuals who have exemplified leadership, volunteerism and dedication and is recognized as the leading award for civic accomplishment in the San Fernando Valley. Each year, the Chambers of Commerce in the San Fernando Valley and other community organizations and leaders nominate candidates they feel demonstrate these characteristics. Dr. Mosher is a worthy candidate for this award.

Throughout his career, Walter has worked to improve the lives of individuals in our community. Understanding the importance of education, he was a student and faculty member at UCLA from 1956–1971. During his tenure as a professor, he served as a director of the urban ecology and transportation group at the Institute of Transportation and Traffic Engineering. Walter also served on the committee that established the School of Architecture and Urban Planning at UCLA.

During this time, Walter also served as a consultant to the Federal Government in its initial activities associated with setting up the National Highway Safety Bureau in the Department of Transportation. In this capacity, he worked directly with the deputy director of the National Highway Safety Bureau. Improved safety for our community has been a priority for Walter, and he has published numerous writings in the field of highway safety and traffic flow theory.

Walter’s expertise also extends to the business community. In 1956, he was a cofounder of Precision Dynamics Corp., which initially manufactured and distributed products in the health care field. He served as president of this company on a part-time basis until 1971, when he took over full time. The company has evolved over the past 40 years, and Dr. Mosher has continued to play an imperative leadership role.

In addition to all of these responsibilities, Dr. Mosher serves on several different boards in the community. He is the director of the Health Industries Manufacturing Association, director of the Valley Family Center, and is the immediate past chair of the Valley Industry Commerce Association, to name a few of his positions.

Dr. Walter Mosher has used his extensive knowledge to serve our community, and he has generously donated his time and expertise to several different organizations. Mr. Speaker, distinguished colleagues, please join me in paying tribute to Dr. Walter Mosher. He is a role model for the citizens of Los Angeles.

Mr. Speaker, I ask that my colleagues rise today to pay tribute to Dr. Walter Mosher, who has been nominated for the prestigious Fernando Award for outstanding volunteerism. RECOGNIZING ALLISON DICKSON FOR HER BATTLE AGAINST MUSCULAR DYSTROPHY

HON. CHET EDWARDS
OF TEXAS
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. EDWARDS. Mr. Speaker, today I wish to recognize a brave and bright young lady from my Texas congressional district. Allison Dickson, a Temple High senior, is at the top 3 percent of her class academically and has served as a class officer. Recently, Allison was selected as the 1997 Temple High School Football Sweetheart.

Allison has accomplished this and so much more despite the debilitating effects of muscular dystrophy. The disease has taken her mobility, but she has kept her heart and soul. I want to enter into the RECORD some special thoughts written by this exceptional young lady:

(But Allison Dickson)

He asked me a simple question. I’m sure he has no recollection of this day or of how much it meant to me. I often think back and remind myself of the five words that made me realize something very important about who I am.

Two rows over in my freshmen U.S. history class sat a boy with a quick smile and calm manner. I had only known him for a few weeks, but we often discussed sports and school like friends normally do. One day, with the innocence of a young child, he asked, “Allison, do you play soccer?” I just for a moment I didn’t know what to say. I quickly glanced down, smiled at him, and shook my head no. He had given me the greatest compliment I could ever receive. I realized he didn’t see me as a person in a wheelchair. To him, I was his friend Allison who could do anything.

I have muscular dystrophy. This disease has taken away my ability to walk but nothing more. Everyone has a weakness, but determination, hard work and a strong faith makes nothing impossible. My achievements, both academically and in leadership roles, have helped me truly believe this.

Of course, I have heard the random rude comments people say. I have felt the effects of prejudice first hand. All of this has made me a stronger and more compassionate person.

I am different from others, but different is not always bad. This boy’s trivial question helped me understand that I am not so unlike most people. He had looked past my disability and saw the real me.

Jim Valvano, a former basketball coach and sports announcer, had been diagnosed with cancer. In a speech, he told people cancer could not touch his mind, it could not touch his heart, and it could not touch his soul. He then said that those three things would carry on forever.

I look into my eyes and you will see a mind yearning for knowledge and truth. Look into my heart and you will see a burning passion for life and love for others. Look into my soul and you will see an enduring spirit that touches the lives of others and will carry on forever.

The technological breakthrough involved the ingenuity and dedication of all Collins and Aikman employees. Through trial and error testing and development, this product became a reality. Special training and education programs are the key. The innovative Collins and

TRIBUTE TO JIM LAMOTTE

HON. JERRY WELLER
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. WELLER. Mr. Speaker, I rise today to honor Mr. Jim Lamotte who is retiring from the Momence Fire Department after 39 years of service including 21 years as fire chief. The Momence Fire District is staffed by volunteers. Mr. LaMotte is the fourth chief to serve Momence since the district was formed in 1949.

During his role as fire chief, Mr. LaMotte achieved many goals. One was to relocate the department to a new facility which was done at a low cost to the taxpayers. Another of Mr. LaMotte’s priorities was to maintain and upgrade the equipment such as the breathing apparatus which was recently purchased.

Mr. LaMotte and his wife of 35 years live in Momence, IL. They have three daughters and six grandchildren with one more grandchild on the way. He is the founder and vice president of Custom Farm Seed. Mr. LaMotte is also chairman of the board for Good Shepherd Manor, chairman of the 9-1-1 emergency telephone system board, and a member of the Kankakee county board.

Mr. LaMotte is a credit to his community. I am sure his knowledge, professionalism, and skill will be missed by the Momence Fire Department. I urge this body to identify and recognize other citizens in their communities whose actions have clearly made a difference to their community’s well being and safety.

BUCHEIT INTERNATIONAL LIMITED

HON. JAMES A. TRAFICANT, JR.
OF OHIO
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. TRAFICANT. Mr. Speaker, Bucheit International Ltd., a family-owned company in my 17th Congressional District of Ohio, has experienced difficulties in its business dealings with Burgan Bank, S.A.K. of Kuwait.

Bucheit is a shareholder of the Gulf Global Petroleum Establishment, which has maintained a $3 million fixed deposit account with Burgan Bank since August 17, 1980. Over the following decade, the $3 million account was used as a guarantee on Gulf Global’s oil trade agreements.

Prior to Saddam Hussein’s invasion of Kuwait in 1990, Gulf Global continued to maintain this fixed deposit account, plus accrued interest, in order to continue its oil trading business. During the Iraqi occupation of Kuwait in 1990 and the Gulf war in 1991, Gulf Global’s account at Burgan Bank was frozen.

Following the war, Burgan Bank was taken over by the Kuwaiti Government. When Gulf Global tried to resume its operations following the war, Burgan Bank first denied that Gulf Global’s account ever existed, even though company has bank receipts to prove it. Then Burgan officials said that they had found Gulf Global’s account, but there was no money in it.

It should also be noted that all legal and statutory rights of the company have been held by Mr. Said Al Sabawi, a Canadian citizen. Mr. Sabawi can certify that the account did indeed exist in 1990 and that he has never authorized the removal of the funds from the account, as Burgan Bank must have his signature for any withdrawal from the account.

Burgan Bank’s official story is that the $3 million in deposit was withdrawn in 1980. Who’s kidding whom? If the money was withdrawn in 1980, how did Burgan guarantee, in writing, Gulf Global’s oil purchases? If the money was withdrawn in 1980, how could Burgan issue bank statements showing the $3 million in the account?

The fact is, the $3 million didn’t vanish into thin air. I guarantee it’s lining the pockets of the Kuwaiti royal family, who seized control of Burgan Bank in 1991. It’s time the United States State Department gets tough with Kuwait.

It should also be noted that all legal and statutory rights of the company have been
Aikman Pacesetters program is designed to orient new employees—from hourly wage earners to top level management—in the company. The outdoor adventure program builds teamwork, respect, and problem-solving skills. During my tour, I learned that this program broke down barriers for employees, making them feel part of a team and company right away.

A second educational effort within Collins and Aikman is its continuous, internal GED program. The company decided that instead of sending employees out to classes, it would bring the classes to the employees. Like Collins Pacesetters, this program has helped develop an empowered, creative work force. Teachers conduct classes in a room set on the factory floor. Classes are held 2 days a week in 2-hour shifts, and participants go to class on the clock during work hours.

Since the company started this program 5 years ago, 115 employees—25 percent of the Collins and Aikman hourly work force—have earned high school equivalences. They have become part of the central core of trained employees with high-technology equipment and making daily, critical decisions that companies depend upon to stay competitive.

Going back to school has been made easier for employees, and the resulting self-esteem and pride are immeasurable. Productivity and quality of work have improved yearly, and the trained work force has been instrumental in breakthrough discoveries such as the closed loop carpet recycling program.

As testament to these successes, Collins and Aikman Floorcoverings has recently been awarded the Success Track Outstanding Employee Team of the Year award. The company has also been recognized for its high-caliber employees by the Hoosier State Press Association. The Times on its award winning performance.

THE TAMPON SAFETY AND RESEARCH ACT OF 1997

HON. CAROLYN B. MALONEY
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mrs. MALONEY of New York. Mr. Speaker, I rise today to introduce an important piece of women's health legislation—The Tampon Safety and Research Act of 1997. The research called for in this bipartisan bill will finally give women the accurate information they need to make informed decisions about their health as it relates to tampon use.

Why is this issue important? Because tampons and other related products often contain additives, synthetic fibers, and dioxin. Dioxin is a known human carcinogen. My bill is specifically concerned with the possible links between long-term use of tampons and ovarian, cervical, and breast cancers, as well as other potential hazards.

A 1996 EPA study has also linked dioxin exposure with increased risks for endometriosis, an often painful menstrual-related condition that can lead to infertility. Further, the EPA has concluded that people with high exposure to dioxin may be at risk for other effects that could suppress the immune system, increase the risk of pelvic inflammatory disease, reduce fertility, and possibly interfere with normal fetal and childhood development.

The EPA conclusions regarding dioxin exposure are particularly alarming in light of a 1989 Food and Drug Administration report, which stated that “posible exposures from all other medical device sources are dwarfed by the potential tampon exposure.” Why? Because tampons are used by up to 70 percent of menstruating women in the United States, and the average woman may use as many as 11,400 tampons during her lifetime. If dioxin is present, tampon use could increase the long-term use of tampons increase that risk?

What makes these toxic residues in tampons even more disturbing is that they come in direct contact with some of the most absorbent tissue in a woman's body. According to Dr. Philip Tierno, microbiology and immunology at New York University Medical Center, almost anything placed on this tissue—including dioxin—will be absorbed into the body.

According to researchers, dioxin is stored in fatty tissue—just like that found in the vagina. And the fact is that women have more body fat than men, possibly allowing them to more efficiently store dioxins from all sources, not just tampons. Worse yet, the effects of dioxin and cumulative, and the EPA has concluded that people with high exposure to dioxins may be at risk for other effects that could suppress the immune system, increase the risk of pelvic inflammatory disease, reduce fertility, and possibly interfere with normal fetal and childhood development.

The EPA conclusions regarding dioxin exposure are particularly alarming in light of a 1989 Food and Drug Administration report, which stated that “posible exposures from all other medical device sources are dwarfed by the potential tampon exposure.” Why? If dioxin is present, tampon use could increase the long-term use of tampons increase that risk?
bleached tampons and related products? My bill seeks to address this inadequacy, and fi-
nally give women the most accurate, up-to-
date information available regarding this criti-
cal health concern.

Although the FDA currently requires tampon 
manufacturers to monitor their dioxin levels in their 
finished products, the results are not available to 
the public. When I—as a Member of Con-
gress—requested the information, the FDA 
told me it was proprietary information and 
therefore could not be released. It should be 
noted that the dioxin tests relied upon by the 
FDA and the manufacturers themselves, who do not surprisingly insist their 
products are safe. Some of my constituents 
say this is the equivalent of the fox guarding 
the hen house.

How much dioxin exposure is considered 
safe for humans? And does the fact that tam-
pons are in direct contact with absorbent tis-
 sue, and for extended periods of time, make 
whatever levels of dioxin tampons possess 
even more dangerous? Is this the equivalent 
of a ticking time bomb, capable of increasing 
women’s risks for several life-threatening or 
fertility-threatening diseases? Unfortunately 
there are no easy answers. We simply don’t 
have instructive, persuasive evidence either 
way.

Many experts believe, however, that if the 
slightest possibility exists that dioxin residues 
in tampons could harm women, the dioxin 
should simply be eliminated. I also believe we 
should err on the side of protecting women’s 
health. Tampon manufacturers are not re-
quired to disclose ingredients to consumers, 
although many have taken the positive step of 
voluntarily disclosing this information. How-
ever, women are still being forced to take 
the word of the industry-sponsored research that 
their products are completely safe.

My bill also addresses the many other po-
tentially harmful additives in tampons, includ-
ing chlorine compounds, absorbency 
enhancers, and synthetic fibers, as well as de-
odorants and fragrances. Most people are sur-
prised to learn that these additives are com-
monly found in these products.

We do not really know enough about the potential risks associated with such additives. Independent research has already shown that 
synthetic fiber additives in tampons ampli-
ty toxins, which are associated with toxic shock.

Toxic shock syndrome is a rare bacterial il-
ness that caused over 50 deaths between 
1979 and 1980, when the link between tam-
pons and toxic shock was first established. 
According to a 1994 study, of the toxic shock 
scare occurring in menstruating women, up to 
99 percent were using tampons. Obviously 
the connection between tampons and toxic shock was still unclear, and the link to tampons has become more clear.

The fact is, women do not have the informa-
tion they need to make sound decisions about 
their health. For the sake of women’s well-
being, they deserve accurate, independent infor-
mation. American women have a right to know 
about any potential hazards associated with 
tampons and other related products. It is only 
when women fully understand the con-
sequences that they can make truly informed 
decisions about their reproductive health.

I also note that my bill is not the first time 
I have introduced legislation to establish a na-
tional lighthouse museum. Currently, there is 
no single site in our country where one can go to learn the complete history of American lighthouse development, 
to learn about the different types of light-
houses, the how and why they were built, who 
operated them, and their successes and fail-
ures. A national lighthouse museum would 
provide such a learning opportunity.

Mr. Speaker, my legislation would establish 
a national lighthouse museum to develop a fundraising plan, secure a site, draft an operational proposal and establish a na-
tional lighthouse museum corporation. The 
commission would be comprised of 19 mem-
biers who represent both public and private in-
terests. The national lighthouse museum cor-
poration would be run as a tax exempt, non-
profit 501 C(3) organization.
The national lighthouse museum will hold a collection of artifacts known as the national lighthouse collection. It will also provide support to other museums that interpret the history of aids to navigation in the United States.

Although the national lighthouse museum commission would choose the site, Mr. Speaker, I would suggest that J. Michigan has more lighthouses than any other State in the Union.

TRIBUTE TO MATTIEBELLE WOODS

HON. THOMAS M. BARRETT
OF WISCONSIN
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. BARRETT of Wisconsin. Mr. Speaker, it is with great pride that I pay tribute today to Mattiebelle Woods, on the occasion of her 95th birthday. Her many years of community service and dedication to making a difference in the lives of people of Milwaukee, are truly notable and merit our appreciation and acclaim.

Mattiebelle was born in Milwaukee on Halloween Day, in 1902. And Milwaukee is where she has lived for nearly a century. Described as the community’s ageless wonder, by the Milwaukee Community Journal, Mattiebelle has seen her city through wartime, women’s suffrage, prohibition, a great depression, a midcentury industrial boom, civil rights endeavors, recession, and recovery.

Mattiebelle is fiercely devoted to bringing along generations of young women. As the founder the Wisconsin Black Teen Pageant, she has ensured that scores of young, black women will have opportunities which may never have surfaced without the pageant as a vehicle.

Today, Mattiebelle remains a director of that pageant, continues in her work as a community worker, is active in her church, chairs her area voter registration efforts, and volunteers regularly at the Clinton Rose Senior Center.

Mr. Speaker, I urge you and my colleagues in the U.S. House of Representatives to join me in a salute to Mattiebelle Woods, and to join me in sending her best wishes as she begins her 96th year. Recently, when Mattiebelle was asked by a newspaper reporter just how she continues to do all she does, Mattiebelle responded with “I’ll be OK. God is looking out for me.” Mr. Speaker, I would like Mattiebelle to know that we are looking out for her, too.

RETRIEVAL OF COL. GIULIANO M. TONEATTO

HON. ROBERT A. BORSKI
OF PENNSYLVANIA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. BORSKI. Mr. Speaker, I rise today in honor of my good friend, Giuliano Toneatto on the occasion of his retirement from the U.S. Army Reserve and to recognize his contributions to his community. Mr. Toneatto is a man of great ambition whose service to his country exemplified honor and distinction.

Upon his retirement, Giuliano was given the Legion of Merit award by the U.S. Army Reserve.

serves. His military career has consistently exceeded the high standards set by the service, and his exceptional knowledge and expertise will be sorely missed. A U.S. Military Academy graduate, he continued his career in the U.S. Army Corps of Engineers and later received two Bronze Star medals and an Army Commendation Medal for his service in the Republic of Vietnam. His commitment to military education continued when he returned to USMA to teach honors courses in civil engineering.

Giuliano Toneatto has been instrumental to the nomination process for candidates to the U.S. Military Academy from the city of Philadelphia. He is a public servant who has gone above and beyond the call of duty. For 10 years Giuliano has served on the 3d Congressional District Academy Board, which screens candidates for nominations to West Point. He has also served as a liaison officer for USMA, recruiting top-notch nominees from Philadelphia.

A role model for young men and women, he has provided a meaningful experience for many young people in Philadelphia by introducing them to and opening that wonderful door of opportunity. Giuliano’s time, talents, and energy are appreciated by the community and Nation. I would like to thank him for his efforts and commend him for his good work.

Giuliano Toneatto has provided outstanding leadership to the city of Philadelphia. I am proud of his achievements and contributions to our country. Mr. Speaker, please join me as I extend my congratulations and best wishes to a truly amazing man. May he enjoy continued success in his future endeavors.

INTRODUCTION OF LEGISLATION REQUIRING THAT OSHA PROVIDE ADEQUATE NOTICE AND INFORMATION FOR INDUSTRIES AFFECTED BY RULEMAKING

HON. CASS BALLANGER
OF NORTH CAROLINA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. BALLANGER. Mr. Speaker, one of President Clinton’s promises for reinventing OSHA in 1995 was that OSHA regulations would be made "as simple and sensible and flexible as they can be." That is a good goal. Unfortunately, the administration and OSHA have done little to implement it.

One of the ways that OSHA standards become nonsensible is when these standards are enforced and applied to industries—industries that had little notice that they were covered by the standard. As a result, the industry must often spend millions of dollars, either in trying to comply with a standard that is not feasible or necessary in their workplaces, or in legal fees, in order to get the courts to overturn OSHA’s rules.

Recently, for example, the court of appeals ruled against OSHA with regard to inclusion of the roof coatings industry under the asbestos standard. The court found that “there is no evidence in the record that asbestos fibers can ever escape from roof sealants and become airborne” (Asbestos Information Assn/ North America v. Secretary of Labor, 7/24/97). Yet, OSHA insisted on covering the industry with the standard until the court ruled otherwise.

wise. Fixing the problem caused by an overreaching OSHA cost the industry thousands of dollars in litigation fees.

Similarly, the airplane maintenance industry is now faced with coverage under OSHA’s Methylene Chloride standard, even though OSHA itself acknowledged in testimony before my subcommittee that the practice of notifying the specific industries, and analyzing the effect of the standard on them, is consistently followed in OSHA rulemakings.

Mr. Speaker, this is one of several changes which would help to fulfill the President’s promise to make OSHA’s rules “as simple and sensible and flexible as they can be.” I invite my colleagues to cosponsor and support this change.

TRIBUTE TO PHILIP “FLIP” SMITH

HON. BRAD SHERMAN
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. SHERMAN. Mr. Speaker, I rise before you today to pay tribute to Philip “Flip” Smith who has been nominated for the prestigious Fernando Award for outstanding voluntarism.

Mr. Speaker, I am proud of his achievements and contributions to our country. Mr. Speaker, please join me as I extend my congratulations and best wishes to a truly amazing man. May he enjoy continued success in his future endeavors.
November 8, 1997

CONGRESSIONAL RECORD — Extensions of Remarks

E2239

Flip’s interest and involvement in our community have led him to serve on several boards and committees, including the American Heart Association, San Fernando Valley Public Safety Advisory Commission, the State Small Business Commission, and many others. He also served as the president of the Mid-Valley Community Police Council, helping to raise over $100,000 annually to assist law enforcement in the San Fernando Valley.

Flip has worked closely with the members of our community to raise the standard of living, and he has generously donated his time and energy to several organizations. Mr. Speaker, distinguished colleagues, please join me in paying tribute to Philip Smith. He is a role model for the citizens of Los Angeles.

McLean County World War II Memorial

HON. THOMAS W. EWING
OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. EWING. Mr. Speaker, on Saturday, November 8, 1997, McLean County will hold a dedication ceremony for their new World War II memorial.

Our Nation is graced with many treasures, though none so precious as the freedom we enjoy in our prosperous country. As we approach this Veterans Day, we must thank our veterans for providing and safeguarding that freedom. Unfortunately, many have died in war protecting and defending that freedom. In cities throughout this great land, and now right here in Bloomington, there are monuments etched with names of those who made the ultimate sacrifice. Each name marks the end of the dreams of a young American whose life was cut short in the defense of freedom, each name a memorial to the courage of the soldiers, living and dead, who fought, in the most important battles ever undertaken by the U.S. Army.

My sister was an army nurse who treated the sick and wounded in field hospitals during this great battle. Joseph F. Zimmer, a member of the 87th Infantry Division, read the following essay, Reflections. I commend this essay to my colleagues’ attention.

Once again we meet to recall and honor those days, those men, those warriors who saved the day in the historic Battle of the Bulge of World War II. As WWII gets even more remote from people’s personal experiences, it, and this battle, are going to become even more attractive and memorable. In 100 years, even at the end of the 3rd millennium, people are going to flock to see the memorials that mark, for all time, those dark, dank, foggy days in Belgium and Luxembourg. The valor, bravery, courage, and heroics have been spoken of, written about, and memorialized in uncountable plaques and monuments in our country, most recently at Carlisle, and those far away villages and towns where heroes died, were captured, wounded, and medicined. (Harriet Beecher Stowe in her book, The Lost Regiment, said “Every hero becomes a bore at last.”) Nevertheless, the storytelling will ensure that our journey to this sacred place at Gettysburg, and the unknown future will keep us connected to one another, to what we experienced in the Bulge during those terrifying times, our inherited strength, and, most especially, to those who have gone before us. Life became death; the shatterer of worlds. We live without the present without being obsessed about it, or worried about the future. We constantly strive to discover the significance of our experiences and in our minds we are constantly standing on holy ground. The bitterest tears shed over a grave are for words left unsaid and deeds left undone.

What we forget is that this country had about 120 million people during those war years. Out of that number there were only about 20 million men between the ages of 17 and 36—and four out of five of them went to war, joined by over 100,000 women. Beginning in 1939 with our Armed Forces numbering about 174,000 men, ranking 17th in the world behind such nations as Bulgaria and Portugal, we turned into a global fighting force of more than 8 million strong, in which the allies could not have defeated Nazi Germany and Japan. In all of this it is worthwhile to remember some words of war. They were uttered by Joshua Chamberlain when he returned to the battle field many years after his heroics on Little Round Top. In great deeds something abides. On great fields something stays,” says the old soldier “Generations that know us not and that we know not of, heart-drawn to see where and by whom great things were suffered and done for them, shall come to this deathless field, to ponder and dream.”

This too can be said of all the battles we fought in during the Battle of the Bulge. The history of the world, like letters without poetry, flowers without fragrance, or thought without imagination, would be a dry matter indeed without its legends. And yet many of these, though scorned by proof of a hundred times, seem worth preserving for their own familiar sakes. What we did, what we experienced, represents the engrafted love of our country, our fellow citizens, and of freedom. In the suburbs of our hearts, we remember that we were part of a gathering of the noblest of men who ever lived in the tides of times. We feel that we must draw on our history to describe our history. It fits each of us to a “t”—honesty, loyalty, integrity. The spirit of man is god-like, eternal, indestructible,” said Norman Mailer in his WWII book, The Naked and the Dead. This spirit is reflected in the selfless sacrifices made by army nurses, doctors and medics, the women who waited—a mother, wife, sister, even a daughter, maybe, had their daily hell as well. Our organization, Veterans of the Battle of the Bulge, remains a vessel for each of us to pour our memories and values into, and yet we don’t have to run to catch up with our selves. Our founders, present and past presidents, our leaders, are owed a great debt of gratitude to afford us a vehicle, and these reunions, in the company of our companions, to once again gather together, to keep alive in the special vault of the national imagination, the gallantry, uncommon glory and sacrifices made during that great battle. Each of the 19,000 who died, every drop of blood shed, in service to our Nation and as well as Western civilization. They were among the 292,131 men and women who were killed in battle in WWII; another 115,000 died under...
other conditions. These are not just statistics—these are persons. Our being here is important for when we pass on. You don’t just lose the glorious culture we survived in, you lose the whole culture that we stood for and in a fight fought for. It is important to be reminded that there are such men, that there always have been and always will be. “We sometimes forget, I think,” said historian, Stephen Ambrose, “that you can manufacture weapons, and you can purchase ammunition, but you can’t buy valor and you can’t paint heroes off a assembly line.” Each of us veterans of VOB can be very proud this day and every day. We are all still heroes, and we do not take lightly being called a hero. What defines our comradeship means, but surely it means more than just that we are all haunted by ghosts; because we are not just echoes of voices that have years since ceased to speak, but the murmur of heroes, in the sense that, through them, something of the power and richness of life itself, not only touched us once long ago, but continues to touch us today as we meet. Let us be worthy of this heritage as we continue to meet from time to time in our chapter meetings, our executive national reunions to see that it is memorialized and never forgotten.

In our vantage years remember: yesterday is history; tomorrow is a mystery; today is a gift—that’s why it is called “the present.”

Finally, lend it has that when we leave this world and go to our eternal abode in heaven, then God will believe in returns to us our best self. It is not difficult to see that what we all were during WWII, and what we became mirrors our best selves. What we did and how we performed in the Battle of the Bulge surely added to our luster. Godspeed to each and everyone.

IN RECOGNITION OF THE LIFE AND ACCOMPLISHMENTS OF AIR FORCE SERGEANT WILLIAM ROY PEARSON

HON. CHARLES F. BASS
OF NEW HAMPSHIRE
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. BASS. Mr. Speaker, I rise today to pay tribute to an outstanding American, Air Force Sergeant William Roy Pearson, a member of the elite Maroon Berets of the 37th Air Rescue and Recovery Group, who died with six other servicemen when his helicopter was shot down during a rescue mission in Vietnam in 1972. Missing in action for 25 years, Sgt. Pearson was recently returned home to New Hampshire and his family to be buried in his hometown of Webster. In a time when the word hero is used to describe sports stars or movie actors, Sgt. Pearson was a hero until the end—Sgt. William Pearson stood out as a real-life hero. Like all true heroes, he rose to meet his challenges with a quiet courage. This brave young man, shot down just 12 days before his 21st birthday, earned in his short lifetime, a Silver Star, a Purple Heart and two Distinguished Flying Crosses. He and his squadron are credited with helping to rescue 116 servicemen. And he was a hero until the end—Sgt. William Pearson died trying to save the life of a downed airman.

I read the comments of another New Hampshire soldier who had trained and served with Sgt. Pearson and I want to share his thoughts with you. He said that he wasn’t surprised that his friend died while trying to save another soldier, stating: “Billy Pearson didn’t just decide that he was going to be a hero that day. It was the result of a strong family heritage and a loving home where he developed into a young man with a courage spirit.”

Mr. Speaker, I honor that selfless, courageous spirit today. I ask that you join his family, friends, fellow soldiers and all the people of the Granite State in honoring the life and heroic efforts of Sgt. William Pearson. For too long, New Hampshire has lost one of her bravest sons, and we are very grateful to have him back.

TRIBUTE TO POLICE CHIEF JOHN HOPKINS

HON. ELTON GALLEGLY
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. GALLEGLY. Mr. Speaker, I would like to pay a special tribute to retiring Police Chief John Hopkins of the Port Hueneme, CA Police Department. His dedication to his community is truly extraordinary. Chief Hopkins began his service over 30 years ago in the city of Port Hueneme as a reserve police officer. He later moved through the ranks from patrolman, eventually becoming Chief of Police in 1992.

Over the years, I have had the opportunity to work with this devoted member of our law enforcement community. During his tenure with the police department, he has been recognized for his many accomplishments and the outstanding progress he has made on the force. The diligence and commitment to Duty Chief Hopkins and his counterparts have displayed are the primary reasons Ventura County consistently ranks as one of the safest areas in the county.

Chief Hopkins will be greatly missed, but his contributions to our community will not be forgotten. I want to congratulate and wish him the very best in his retirement.

IN RECOGNITION OF THE SERVICE OF MR. GEORGE MORRIS TO OUR NATION’S VETERANS

HON. C.W. BILL YOUNG
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. YOUNG of Florida. Mr. Speaker, as Veterans’ Day draws near, I rise today to recognize an individual in my district who continues to serve his country, and his fellow veterans, more than half a century after his release as a prisoner of war.

George Morris of St. Petersburg, FL has served as a volunteer at the Bay Pines Veterans Administration Medical Center since 1981. In his 16 years of service, Mr. Morris has logged more than 16,200 hours as a volunteer. This is a remarkable feat made all the more by the fact that he began volunteering at age 75.

During his service in World War II, Mr. Morris was working in the Philippines as a mapmaker for the Government’s Coast and Geodetic Survey when he was captured by the Japanese in 1941. After being imprisoned in the Philippines, Japan, and Korea, he was released at the end of the war. Mr. Morris has not forgotten those he served with and continues their memory through his service to other veterans today.

Mr. Speaker, Veteran’s Day is a time to reflect on the many gifts we as a nation and as Americans have been given because of those men and women who have served in uniform here and throughout the world. This is a time to say thank you for those gifts. Mr. Morris paid a great price to protect our freedom while his was denied for so long as he was held as a prisoner of war 55 years ago. Today he continues to give of himself in service to others. On behalf of all my colleagues, I want to say thank you to Mr. Morris, and to all our Nation’s veterans, for your service and dedication which enable us all to enjoy all the freedoms and liberties the United States has to offer. Our Nation is the finest nation in the history of mankind because of their service—both past and present.

THE SILK ROAD STRATEGY ACT OF 1997, H.R. 2867

HON. BENJAMIN A. GILMAN
OF NEW YORK
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. GILMAN. Mr. Speaker, I am today introducing the Silk Road Strategy Act of 1997 (H.R. 2867), a measure designed to focus American diplomatic and commercial attention, as well as American foreign assistance, on the important regions of the Caucasus and Central Asia.

The name Silk Road is an ancient one, referring to the East-West trade route that for so long linked China and other countries in East Asia with Italy and other countries in West Europe. The countries of the Caucasus and Central Asian regions, through which travelers on the Silk Road passed, fell victim to conflict and repression as the Russian tsars pushed south and then were replaced by the brutal dictatorship of the Bolshevik Commissars. For over seven decades the eight countries of these two regions—Georgia, Armenia, Azerbaijan, Uzbekistan, Turkmenistan, Tajikistan, Kyrgyzstan and Kazakhstan—were sealed behind the Iron Curtain, unable to move forward toward democracy and commercial prosperity with the rest of Europe and Asia. Ironically, the resources to fuel such progress lay just under the surface, in the form of vast gas and oil reserves.

Mr. Speaker, the peoples of the Caucasus and Central Asia now face the challenge of rebuilding their links to Europe and Asia, and we in the United States have a national interest to help them overcome the obstacles that lay in the way of resurrecting the old Silk Road. Regrettably, these countries lie between Russia, Iran, Afghanistan and China. In Russia, they face a country that seems intent on forcing them to stay within its sphere of dominance. In Iran, they face a fundamental Islamic regime that seeks to use them to thwart efforts led by the United States to isolate Iran until it forgoes its support for international terrorism—and an Iran that hopes to foment fundamentalist Islam from Azerbaijan to the borders of...
China. In Afghanistan, these countries face a country in turmoil—and a violence they fear could spread northward. Finally, in China they face the world's most populous nation, controlled by a brutal Communist regime that is looking hungrily to the energy reserves and natural resources of these thinly populated countries, fueled by strategic and technological expansion in the 21st century.

What is the American interest in these two far-flung regions? First, we want to see democratic government take root in these states. Stability in these regions and in the broader Eurasian region may well depend on the successful consolidation of democratic government in these states over the next decade or two, frankly, there is a lot of work ahead of us in that regard. Second, we want to defuse the current ethnic conflicts that are destabilizing the two regions, and that are providing neighboring states, such as Iran, the leverage to gain these countries' cooperation in major commercial endeavors, such as energy export pipelines. Finally, just as it is in America's interest to help these countries open up a window to the West that might make life more bearable for their neighbors, it is in America's interest to see the energy reserves of the two regions opened up to the West. As my colleagues well know, our United States military forces face an increasingly difficult task in ensuring our continued access to the energy reserves of the Persian Gulf. We need to encourage the development of other sources of oil and gas as we enter the next century to lessen our dependence on their Persian Gulf as Iran and Iraq seek to manipulate that dependence. The reserves of the Caucasus and Central Asia do not compete with those of the Persian Gulf, but they are indeed vast, and we should look for ways to get pipelines out to the West—avoiding routes through countries, such as Russia and Iran, that may have a geopolitical interest to choke off those pipelines at some point in the future.

Mr. Speaker, I invite my colleagues to join me in sponsoring this bill, H.R. 2867, a measure that, if enacted, would target our diplomatic and foreign assistance on the following objectives:

- To carry out the purposes of subsection (a), the President is authorized to provide technical and humanitarian assistance to meet needs for food, medicine, medical supplies and equipment, and clothing.
- Activities supported by assistance under subsection (b) are limited to—
  - (i) providing for the essential needs of victims of the conflicts;
  - (ii) facilitating the return of refugees and internally displaced persons to their homes; and
  - (iii) assisting in the reconstruction of residential and economic infrastructure destroyed by war.
- Activities that may be supported by assistance under subsection (b) are limited to the activities described in subsection (c):
  - (A) to assist the countries of the South Caucasus and Central Asia to develop laws and regulations that would facilitate the ability of those countries to join the World Trade Organization;
  - (B) to provide permanent nondiscriminatory trade treatment (MFN status) to the countries of the South Caucasus and Central Asia; and
  - (C) to consider the establishment of zero-to-zero tariffs between the United States and those countries.

I urge my colleagues in the Senate and House of Representatives of the United States of America in Congress assembled, in the name of the states of the South Caucasus and Central Asia.
(d) POLICY.—It is the sense of Congress that the United States representatives at the International Bank for Reconstruction and Development, the International Monetary Fund, and the European Bank for Reconstruction and Development should encourage lending to the countries of the South Caucasus and Central Asia to assist the development of the physical infrastructure necessary for regional economic cooperation.

SEC. 499E. SECURITY ASSISTANCE.

(a) Purpose of Assistance.—The purpose of assistance under this section is to assist countries of the South Caucasus and Central Asia to secure their borders and implement effective controls necessary to prevent the trafficking of illegal narcotics and the proliferation of technology and materials related to weapons of mass destruction (as defined in section 2332a(c)(2) of title 18, United States Code), and to contain and inhibit transnational organized criminal activities.

(b) Authorization for Assistance.—To carry out the purposes of subsection (a), the President is authorized to provide the following types of assistance to the countries of the South Caucasus and Central Asia to support the activities described in subsection (c):

(1) Assistance under chapter 5 of part II of this Act (relating to international military assistance).—(A) Technical assistance for development is to provide assistance under chapter 5 of part II of this Act relating to international military assistance to countries of the South Caucasus and Central Asia to assist in developing their capabilities to maintain national border guards, coast guard, and customs controls.

(B) Assistance under chapter 10 of the Arms Export Control Act of 1976, as added by the Chemical and Biological Weapons Control and Warfare Elimination Act of 1991 (22 U.S.C. 5604a(1), 5605); or

(C) Assistance provided by the Trade and Development Agency under this chapter, to carry out the purpose of subsection (a), may not be provided to countries of the South Caucasus or Central Asia if the President determines that such assistance would contribute to proliferation of weapons of mass destruction (including nuclear, chemical, and biological weapons) or if such assistance is determined to be designed to assist the manufacture of such weapons;

(2) Assistance that may be supported by assistance under this section is to provide assistance to countries of the South Caucasus and Central Asia to provide for defense exports, to support the development of defense industries, and to create the conditions for the growth of pluralistic societies, including religious tolerance.

(b) Authorization for Assistance.—To carry out the purpose of subsection (a), the President is authorized to provide the following types of assistance to the countries of the South Caucasus and Central Asia through programs such as the Central Asian Battalion and a grant for Peace of the North Atlantic Treaty Organization.

SEC. 499D. STRENGTHENING DEMOCRACY, TOLERANCE, AND THE DEVELOPMENT OF CIVIL SOCIETY.

(a) Purpose of Assistance.—The purpose of assistance under this section is to promote institutions of democratic government and to create the conditions for the growth of pluralistic societies, including religious tolerance.

(b) Authorization for Assistance.—To carry out the purposes of subsection (a), the President is authorized to provide the following types of assistance to the countries of the South Caucasus and Central Asia:

(1) Technical assistance for democracy building.

(2) Technical assistance for the development of nongovernmental organizations.

(3) Technical assistance for the development of independent media.

(4) Technical assistance for the development of the rule of law.

(5) International exchanges and advanced professional training programs in skill areas central to the development of civil society.

(c) Activities Supported.—Activities that may be supported by assistance under subsection (b) are limited to activities that directly and specifically are designed to advance progress toward the development of democracy.
respected judges in East Tennessee. He is known not only for his knowledge of the law, but also for his common sense approach to the law.

But Judge Murphy's contributions to the people of Bradley County reach far beyond his legal career. In every aspect of his life, he dedicated himself to improving the world in which he lived.

Judge Murphy was recently honored by the Bradley County Bar Association for his many achievements and his years of service to the people of Bradley County. I am going to spend a moment to say that Judge Murphy passed away recently. Judge Murphy was an exemplary man, who made the most of his life. He will be missed by the many people who knew and loved him.

I would like to call attention to the attached editorial which was printed in the Cleveland Daily Banner Newspaper shortly before Judge Murphy's death:

MURPHY'S CONTRIBUTIONS SHOULD BE RECOGNIZED

On Tuesday Judge Earle G. Murphy will be honored by the Bradley County Bar Association for his more than 50 years of service to the community.

It is, undoubtedly, a celebration of a man who has not only devoted himself to his job, but has utilized his talents to countless community service agencies, and we, as citizens of Cleveland and Bradley County, owe him a debt of gratitude.

Murphy's life is a model of how to live the life in the Bradley County Courthouse at age 12. His father, J. Ames, served as county register of deeds, and, when he was old enough, Murphy went to work with his dad to help proofed deeds of trust and chattel mortgages each day. He attended local schools, working after class. Before long he formed relationships with attorneys in the area and a craving for the study of the law.

Lucky for us he did. His service as General Sessions, Circuit Court, and Cleveland City judge over the years has proven to be balanced and fair. Even in times when one party or another didn't agree with Murphy's rulings, you knew that the court was fair. In times when many of his decisions were made with much thought and great consideration for the law, Murphy's devotion to what is fair and legal in his courtroom is apparent above all.

In addition, Murphy has proven to be a kind friend, a sincere Christian, a loving family man, and a servant of the public. He has worked, as president of both the Cleveland Lions Club and of the Bar Association. He also gave eight years to the Cleveland Board of Education. Most anyone in town has worked, as president of both the Cleveland Library, and as chairman of the building committee, a member of the choir, a Sunday School teacher, and he's given the occasional sermon.

As scoutmaster of that church's Boy Scout troop, he knew the lives of many of the boys of Bradley County. Those boys are men today, and no doubt they still have enormous respect for their leader.

Murphy, as a judge stayed with him in his friendships. He was often a voice of mediation in times of dissension, a com-

passionate listener other times. He helped numerous young attorneys in Bradley County get their feet planted; he acted as a guide and counselor, just as the older attorneys he met in his younger days did him.

The golf course was a place of escape for Murphy. He turned his love of sports into energy, which helped found the Bradley Sports Foundation and Sports for Youth. It seems to me that in every area of his life, Murphy looked beyond himself to the greater good.

We encourage everyone to take part in the ceremony honoring the achievements of this man. He truly is the epitome of home folks achieving greatness, and as a community we should be very proud and grateful.

NEED FOR A NEW POLICY ON ENCRYPTION

IN THE HOUSE OF REPRESENTATIVES

Mr. DELAY. Mr. Speaker, I would like to call to my colleagues' attention the need for a new policy on encryption. A simple policy that lets American companies continue to buy whatever encryption they want and that lets American companies remain internationally competitive by modernizing existing export controls.

The administration has failed year after year to address this issue—stonewalling, making minor export control modifications years after they were necessary, and even preparing to take away the ability of Americans in this country to protect sensitive and confidential electronic information.

I am concerned that it we do not take rational and effective action soon, our ability to use American ingenuity to keep at the forefront of worldwide economic growth through information technology will be irreparably harmed because of our inability to protect our Nation's primary source of strength—our citizens' knowledge. They know that in this case, I believe the Security and Freedom through Encryption [SAFE] Act, H.R. 695, should be a priority for the second session of this Congress.

STRONG, SECURE PROTECTION OVER NETWORKS IS

Information has become power in the 21st century. We need to protect our information in order to protect our national and economic security. Every technological advance is encouraging individuals, companies, and governments to become more networked—whether to work with others, communicate and share documents within a company, or to access software to start to provide foreign consumers with strong, 128-bit encryption products. We can no longer rely on this advantage to ensure that foreign vendors do not use the opening of supplying encryption software to start to provide foreign consumers with other programs, such as stronger, 128-bit Internet browsers.

Thus, I believe that if a comparable product is available overseas, then we should not hamstring America's competitors by providing the same product. If a foreigner can and will purchase a 128-bit encryption product overseas, I would prefer that they bought it from an American company. I believe that this is better for our economy, and ultimately better for our national security. Otherwise, the result will be that all encryption expertise will move off-shore as well as encryption sales.

WHY IT DOES NOT WORK DOMESTIC ENCRYPTION CONTROL

After testifying at House Judiciary and House Commerce regarding export controls, Louis Freeh finally came out of the closet and
I am a strong proponent of law enforcement. But I do not believe that we should adopt a system that our best and brightest say will be nearly impossible to design, hard to keep secure and probably very costly to consumers.

To my knowledge, no one has ever built or even begun to test the reliability, security, and costs of such a system. I have seen a report by another group of extremely well-known American scientists who tell me that they have no idea of how to design and implement this proposed domestic key recovery system. They also say that such a system could create greater vulnerability for its users. Apparently encryption techniques are not foolproof, and adding sufficient complexity to permit third party access will make the encryption even less secure. It also appears to be highly dependent upon the honesty and integrity of those third parties who have access to the information. Who, ultimately, do we trust?

I understand that while advances in technology have generally provided the FBI and other law enforcement with more investigatory tools, this one advance may make it more difficult for us instead that we look at methods that will help law enforcement to combat these new hurdles, rather than choosing the more simplistic approach of building law enforcement access into every and each encryption product.

I also can only image the bureaucracy necessary to handle the magnitude of information regarding encryption keys. It would have to rival many agencies we have spent years trying to reduce in size—the Internal Revenue Service and the Department of Commerce to name just a couple.

While we are expending all of our efforts trying to lessen government intrusion in our lives, domestic encryption controls as proposed by Mr. Freeh would create probably the largest intrusion yet.

Finally, I have a basic concern about requiring American citizens to provide access to their information if they decide to encrypt it. If I write a letter in the privacy of my own home and leave it in my desk drawer, I do not have to provide a copy of my house key and desk drawer key with the local police so that they may look at it easily without my knowledge. I do not see why this should change if I write this letter on my computer and decide to encrypt it. Why should this act require me to let others have the capability of viewing it without my knowledge? I agree with the constitutional law professors who stated that this would have a "chilling effect" on American speech.

FOREIGNERS SIMPLY WILL NOT PURCHASE AND CRIMINALS WILL NOT USE AMERICAN DESIGNED MANDATORY KEY RECOVERY ENCRYPTION PRODUCTS

Ultimately, foreigners will not purchase or use American encryption products if they provide mandatory third party access to information. Neither will criminals. They know that the encryption techniques are strongly desired by American law enforcement because law enforcement can monitor or otherwise access the information. Why would they voluntarily use such a product when they can use a 128-bit product they can obtain today over the Internet from tens of countries.

The FBI alleges that all foreign governments are eager to adopt similar controls on their citizens. While this is true of France, it is not true of the European Union for example, which categorically rejected the administration’s proposal for a worldwide key recovery infrastructure required for all domestic communications.

The only impact of the FBI proposal is that it will require the law abiding American citizens to use American designed encryption programs. Foreign nations will turn to foreign sources for their nonkey recovery products, and criminals will certainly turn to the same foreign sources, Thus, the FBI proposal does not address the real problem created by encryption technology. I do not want to put in place a large, costly bureaucracy that will not permit law enforcement to get the information it believes necessary.

WHAT IS BEST FOR AMERICA

The United States should not try to control the export of something that by its very nature is uncontrollable. The United States should also not take a lead in forcing its citizens to adopt a costly technology that will insure easy monitoring and intrusion by law enforcement. Our constitutional guarantees of free speech and our rights to privacy should not be in any way lessened in order to accomplish Louis Freeh’s desire for a fourth amendment for the 21st century. We in Congress should act now to relax export rules on encryption technology and to ensure that Americans remain free to speak in whatever manner they desire, using whatever encryption they choose.

INTRODUCTION OF LEGISLATION REQUIRING PEER REVIEW IN OSHA RULEMAKING

HON. CASS BALLENCE OF NORTH CAROLINA IN THE HOUSE OF REPRESENTATIVES Friday, November 7, 1997

Mr. BALLENCE. Mr. Speaker, today I am introducing legislation to require that future occupational safety and health standards be subject to peer review as part of the rule-making process.

Part of the Clinton Administration’s promise to reinvent OSHA was the commitment to commonsense regulations. Whatever else that might mean, surely it must mean that such regulations should receive the benefit of peer review. The congressionally mandated Presidential-Congressional Commission on Risk Assessment and Risk Management said this about peer review in its recent report: “Peer review is an important and effective mechanism for evaluating the accuracy or appropriateness of technical data, observations, interpretations, and the scientific and economic aspects of regulatory decisions. Peer review should provide balanced, independent views. When used as a part of the review process, it helps prevent mistakes of fact and judgment.”

The legislation generally requires that peer review be part of OSHA’s rulemaking process. However, where the rulemaking is through negotiated rulemaking, conducted in accordance with the Negotiated Rulemaking Act which insures that affected persons are adequately represented in the negotiations, a separate peer review of the scientific and economic aspects is required.

Mr. Speaker, I look forward to working with my colleagues in adopting this important legislation.

CONGRATULATION TO STANTON J. BLUESTONE

HON. THOMAS M. BARRETT OF WISCONSIN IN THE HOUSE OF REPRESENTATIVES Friday, November 7, 1997

Mr. BARRETT. Mr. Speaker, today, I ask the House to join me in congratulating Stanton J. Bluestone the 1997 recipient of the American Jewish Committee’s Institute of Human Relations award.

Stanton started in retail at Shillito’s Department Store in Cincinnati, in 1957. His rise through the industry took Stanton and his family to New York, Illinois, Indiana, and finally Wisconsin. Today, as Chairman of the Board and CEO of Carson Pirie Scott & Co., Stanton Bluestone oversees a chain of 56 department stores from the company’s Milwaukee headquarters. Throughout his career, his creativity, his dedication, and his unique ability to bring out the best in his associates have earned Stanton the respect of his coworkers and peers.

The AJC’s Institute of Human Relations Award recognizes not only Stanton’s personal...
and professional successes, but also his many volunteer civic contributions. Stanton has demonstrated caring and stewardship in each of the communities along his journey, and his career exemplifies the ideal of commerce in the public interest. He presently serves on the board of the Milwaukee Art Museum, the Milwaukee Symphony Orchestra, the Greater Milwaukee Committee, and he serves as treasurer for the Milwaukee Jewish Federation.

I have great respect for Stanton Bluestone and his wife Judy and I can confidently say that the AJC could not have made a better selection. I am honored to join Stanton Bluestone’s many friends and admirers in offering congratulations on this important and richly deserved honor.

**HOUSE JOINT RESOLUTION 102 REAFFIRMING U.S. LINKS WITH ISRAEL ON THE 50TH ANNIVERSARY OF THE ESTABLISHMENT OF THE MODERN STATE OF ISRAEL**

**HON. TOM LANTOS**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 7, 1997

Mr. LANTOS. Mr. Speaker, on November 29, 1947, the United Nations General Assembly voted to partition the British Mandate of Palestine, and that action set in place the conditions which led to the reestablishment of the State of Israel 6 months later. On May 14, 1948 the people of Israel formally proclaimed the establishment of the modern State of Israel, and on that very same day, the United States extended diplomatic recognition to the new state.

Beginning later this month with the 50th anniversary of the United Nations General Assembly vote and continuing through the formal celebration of the 50th anniversary of the proclamation of the state next May, the people of Israel are marking a half century of the flourishing of the modern State of Israel.

Mr. Speaker, it is most appropriate that we in the Congress on behalf of the American people reaffirm the bonds of warm friendship that link us with the Jewish people and Israel. Israel is our only democratic ally in the volatile Middle East region, and the strong common links that bind us with the people of Israel reflect our shared experiences and our strong shared interests.

Today, with our distinguished colleague and the Chairman of the International Relations Committee, Congressman B ENJAMIN G ILMAN in co sponsoring this resolution, and I ask that the text of our resolution be included in the RECORD.

H. J. Res. 102

Expressing the sense of the Congress on the occasion of the 50th anniversary of the founding of the modern State of Israel and reaffirming the friendship and cooperation between the United States and Israel;

Whereas on November 29, 1947, the United Nations General Assembly voted to partition the British Mandate of Palestine, and through that vote, to create the State of Israel;

Whereas on May 14, 1948, the people of Israel proclaimed the establishment of the sovereign and independent State of Israel and the United States Government established full diplomatic relations with Israel;

Whereas the desire of the Jewish people to establish an independent modern state of Israel is the outgrowth of the existence of the historic Kingdom of Israel established three thousand years ago in the city of Jerusalem and in the land of Israel;

Whereas one century ago at the First Zionist Congress on August 29 to 31, 1897, in Basel, Switzerland, participants under the leadership of Theodore Herzl affirmed the desire to reestablish a Jewish homeland in the historic land of Israel;

Whereas the establishment of the modern State of Israel as a homeland for the Jews is affirmed by the slaughter of more than six million European Jews during the Holocaust;

Whereas since its establishment fifty years ago, the modern state of Israel has rebuilt a nation, forged a new and dynamic society, and created a unique and vital economic, political, cultural, and intellectual life despite the hindrances of terrorism, international ostracism, and economic boycotts;

Whereas the people of Israel have established a vibrant and functioning pluralistic democratic political system including freedom of speech, a free press, free and fair and open elections, the rule of law, and other democratic principles and practices;

Whereas, at great social and financial costs, Israel has absorbed hundreds of thousands of Jews from countries throughout the world, many of them refugees from Arab countries, and fully integrated them into Israel society;

Whereas for half a century the United States and Israel shared a special relationship based on mutually shared democratic values, common strategic interests, and moral bonds of friendship and mutual respect; and

Whereas the American people have shared an affinity with the people of Israel and regard Israel as a strong and trusted ally and an important strategic partner.

Now, therefore, be itResolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the United States of America:

(1) recognizes the historic significance of the fiftieth anniversary of Israel;

(2) commends the people of Israel for their remarkable achievements in building a new state and a pluralistic democratic society in the face of half a century of terrorism, hostility and beligerence by many of her neighbors;

(3) reaffirms the bonds of friendship and cooperation which have existed between the United States and Israel for the past half century and which have been significant for both countries;

(4) extends the warmest congratulations and best wishes to the State of Israel and her people for a peaceful and prosperous and successful future.

**HON. JON D. FOX**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 7, 1997

Mr. FOX. Mr. Speaker, it is an honor as a member of the International Relations Committee’s Subcommittee on Asia and the Pacific to bid farewell to a person who has worked closely with members of our Committee and the Congress as a whole. After 2 years of tireless work, she has completed her second tour in Washington and sadly will be moving to a new post. The Ambassador’s professionalism and keen understanding of our two nation’s histories, culture, and diplomatic relations allowed her to be particularly effective.

During this period, we have seen an international dialogue with an expanded and a dramatically expanded dialogue between our nations. This has taken the form of interparliamentary contacts, ministerial meetings, trade growth and a visit by the First Lady. As a result of Ambassador Cowisk’s work, I am convinced that our two democracies can work together to create an international climate based on international law and mutual respect.

**LIMITED OVERTIME EXEMPTION**

**HON. LINDSEY O. GRAHAM**

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 7, 1997

Mr. GRAHAM. Mr. Speaker, today I am introducing legislation to provide a limited over time exemption from section 7(k) of the Fair Labor Standards Act (FLSA) for public sector employees who provide emergency medical services (EMS)—the same FLSA exemption afforded to fire protection personnel. Without this change in law, there will continue to be circumstances in which EMS personnel are working the same hours of duty as either fire protection or law enforcement personnel, but must be paid overtime for any hours worked in excess of 40 hours during any workweek.

In some localities, such as Pickens County, SC, EMS functions are entirely separate from fire protection and law enforcement activities, but their job duties are identical. There should be no difference in the treatment of EMS personnel under the FLSA simply because of the manner in which emergency services are provided by local communities. Furthermore, in many jurisdictions, the majority of emergency calls are medical emergencies. The current situation is very expensive for State and local governments and intrudes on their management of fire protection and law enforcement activities.

Section 7(k) of the FLSA provides a partial exemption from overtime for those employees engaged in fire protection and law enforcement activities. Employers are allowed to establish work periods of up to 28 days, and overtime compensation is not owed until fire protection employees have worked more than 212 hours and law enforcement personnel exceed 171 hours of work. There have been
conflicting rulings by the Federal courts of appeal on the issue of whether EMS personnel are covered by section 7(k). There also have been different interpretations by the courts of the regulations on this subject. This has led to confusion and large financial liability for many States and localities is estimated to be in the millions of dollars, and the potential for future liability creates tremendous fiscal uncertainty. I urge my colleagues to support this legislation which promotes the mandates of public accountability and fiscal responsibility to which State and local governments must adhere.

SIXTH DISTRICT ESSAY CONTEST WINNERS

HON. HENRY J. HYDE
OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, November 7, 1997

Mr. HYDE. Mr. Speaker, please permit me to share with my colleagues the tremendous work of half a million young men and women who live in my District.

Each year, my office in cooperation with numerous junior and senior high schools in Northern Illinois sponsor an essay writing contest. A board, chaired by Vivian Turner, a former principal of Blackhawk Junior High School in Bensenville, IL, chooses a topic, and evaluates results of the submitted essays. Winners share more than $1,000 in scholarship funds.

This year, Marta Kuersten, a student at Algonquin Junior High School in Des Plaines, IL, placed first in the junior high division with an essay entitled What I can do for my Country, a text of which I include in the RECORD. Placing second in the junior division is Tina Rasane, a student at Mary, Seat of Wisdom School in Park Ridge, IL; and John Tadelski, a student at St. Alexander School in Villa Park, placed third.

In the Senior High School Division, Thomas W. Repetto, a student at Maine South High School in Park Ridge, IL, placed first with his essay entitled Towards the Preservation of the Government by the Citizen (Thomas W. Repetto)

"We the People . . ." The first three words of the United States Constitution affirm that the true government are the millions of people who are governed by it. In a government that is representative of the people, it is the will of the people that dictates a government's policies. As John F. Kennedy told Americans to "Ask what you can do for your country," he echoed the most necessary component of a healthy and successful government: popular participation. The participation of citizens is necessary so that a government can truly serve the needs of its constituents. In many foreign countries, those who possess our opinions and help our country is through a ballot box. While Americans still honor the franchise, they have found numerous other ways to do something for their country and respond to President Kennedy's request.

Citizens can serve in the military, and fight for one's country. Programs such as the Peace Corps and AmeriCorps allow citizens to travel to other countries and work to preserve world peace. This helps the United States by strengthening foreign relations and creating a world where our children and our children's children do not need to deal with the rigors and heartache that war can bring. Peace Corps workers face with crime, gangs, and drugs can be aided by organizations like the Guardian Angels and Community Watch programs. Battles are fought every day, and our willingness to resolve these problems is the first step in combating the crime that surrounds us. Only through the peace and order that we can find happiness in our lives and in our government.

A citizen who simply abides by the laws of his government is not a real participant in this country's ability to protect and serve the people. It is our duty as Americans to read political discussions, keep up to date on issues that affect our community, and argue with our friends on datable issues. Demonstrate a citizen's desire to improve his country by being their brother's keeper, aiding the people who make up this great nation. When one serves food at a soup kitchen, visits people home around Christmas time, holds a door for a handicapped person, or tutors disadvantaged children, he helps to promote the general welfare of the community and consequently the nation. As an individual with deeply rooted Catholic beliefs, I believe that acting as a "Good Samaritan" is the ultimate way to serve the United States.

One can join a local branch of political party, join a union, actively participate in a special interest group, or assist a political campaign. For example, a government teacher was running for trustee in his village, myself and several other students wrote a letter to the door passer by the editor of a local newspaper, a phone call to a friend who might generate interest: representatives to a community in local politics. Yet, even the smallest choices are important, like choosing to plest choices are important, like choosing to promote peace in our domestic wars and fighting the crime that surrounds us. Only through the peace and order that we can find happiness in our lives and in our government.

Mr. Speaker, the FLSA, passed in 1938, mandates a rigid interpretation of the 40-hour workweek. The law's worker classification and compensation requirements are not reflective of the contemporary workplace. Contradictory court interpretations of the FLSA have provided windfall judgements for some employees. These costly judgements against public sector employers have a direct impact on budgets supported by taxpayer dollars and also affect public safety services. The existing liability for many States and localities is estimated to be in the millions of dollars, and the potential for future liability creates tremendous fiscal uncertainty. I urge my colleagues to support this legislation which promotes the mandates of public accountability and fiscal responsibility to which State and local governments must adhere.

The Puritans who settled in the Massachusett's Bay Colony believed in the philosophy that "We are our brother's keeper." Likewise, citizens of America, a country of the people, for the people, can help their country by being their brother's keeper, aiding the people who make up this great nation. When one serves food at a soup kitchen, visits people home around Christmas time, holds a door for a handicapped person, or tutors disadvantaged children, he helps to promote the general welfare of the community and consequently the nation. As an individual with deeply rooted Catholic beliefs, I believe that acting as a "Good Samaritan" is the ultimate way to serve the United States.

One can join a local branch of political party, join a union, actively participate in a special interest group, or assist a political campaign. For example, a government teacher was running for trustee in his village, myself and several other students wrote a letter to the door passer by the editor of a local newspaper, a phone call to a friend who might generate interest: representatives to a community in local politics. Yet, even the smallest choices are important, like choosing to promote peace in our domestic wars and fighting the crime that surrounds us. Only through the peace and order that we can find happiness in our lives and in our government.

A citizen who simply abides by the laws of his government is not a real participant in this country's ability to protect and serve the people. It is our duty as Americans to read political discussions, keep up to date on issues that affect our community, and argue with our friends on datable issues. Demonstrate a citizen's desire to improve his country by being their brother's keeper, aiding the people who make up this great nation. When one serves food at a soup kitchen, visits people home around Christmas time, holds a door for a handicapped person, or tutors disadvantaged children, he helps to promote the general welfare of the community and consequently the nation. As an individual with deeply rooted Catholic beliefs, I believe that acting as a "Good Samaritan" is the ultimate way to serve the United States.

One can join a local branch of political party, join a union, actively participate in a special interest group, or assist a political campaign. It is our duty as Americans to read political discussions, keep up to date on issues that affect our community, and argue with our friends on datable issues. Demonstrate a citizen's desire to improve his country by being their brother's keeper, aiding the people who make up this great nation. When one serves food at a soup kitchen, visits people home around Christmas time, holds a door for a handicap
Inventing OSHA.

In worker safety rules without diminishing usefulness for employers.

The variance process, or operations that are different from OSHA's rules, but allows employers the flexibility to do so through means, methods, or operations that are different than those which may be mandated by OSHA.

The legislation which I am introducing will go a long way to providing employees sensible, and flexible.”

The legislation which I am introducing will go a long way to providing employees sensible, and flexible.”

For all these reasons, I have introduced the Rebuilding American Schools Act of 1997, with Representative ROB ANDREWS. This legislation will assist local school districts finance the repair, renovation, alteration, and construction of public elementary and secondary school facilities.

A General Accounting Office report last year drew alarms in Congress about the need to repair and upgrade school facilities across the country. The GAO study stated that one-third of schools nationwide, reported needing extensive repair or replacement of at least one building and 60 percent of schools, many in otherwise decent condition, reported at least one major building feature, such as plumbing, in disrepair. In addition, about half the school's reported at least one unsatisfactory environmental condition, such as lighting problems or poor ventilation.

According to the GAO, 19 percent of New Jersey schools reported one inadequate building, 53 percent reported at least one inadequate building feature, and 69 percent reported at least one unsatisfactory environmental factor. In total, 87 percent of New Jersey schools reported a need to upgrade or repair buildings to good overall condition.

Local schools rely on property taxes to support our country’s public elementary and secondary schools. But communities everywhere are finding it increasingly difficult to support their academic programs much less their school facilities with local property taxes. The Rebuilding American Schools Act of 1997 would help communities support the repair, renovation, and construction of our Nation’s public elementary and secondary school facilities. States and local governments would continue to maintain full responsibility for determining their school construction needs and administering their infrastructure programs.

This legislation authorizes $200 million in fiscal year 1999 to help States increase school construction and renovation targeting school districts that enroll the greatest numbers of living in poverty and bond guarantees in the bill will apply to a wide range of improvement projects.

It leverages additional spending on school construction and renovation. And it applies to a wide range of improvement projects, including construction of elementary and secondary facilities, renovation to ensure health and safety of students, improvements of the basic infrastructure, increases in energy efficiency, and construction that prepares facilities for installation of modern educational technology.

This bill goes a long way to providing the proper infrastructure our children need to enter the 21st century. While many of the most desperate repairs and needed improvements are being met, these funds could help our schools meet additional needs. I look forward to the day when we have the physical manifestation of this bill in better facilities for our children to learn and grow.

Honoring the Bravery and Service of the U.S. Navy Asiatic Fleet

Mr. BROWN of Ohio. Mr. Speaker, as we approach Veterans Day, I am proud to introduce legislation honoring the bravery and dedication of the sailors and marines who served with the U.S. Navy Asiatic Fleet. Formed in 1910, the Asiatic Fleet patrolled the waters of the Far East for 32 years, defending the interests of the United States and ensuring the safety of our citizens abroad during various regional conflicts and natural disasters.

Following the attack on Pearl Harbor in December 1941, the personnel of the Asiatic Fleet courageously opposed Japan's continued aggression in the South Pacific. Outnumbered and outgunned by a modern Japanese armada, the aging ships and submarines of the fleet fought valiantly, relying on wits, courage, and sheer determination.

Despite incredible valor and the help of our Australian, British, and Dutch allies, the sailors and marines of the Asiatic Fleet ultimately succumbed to the Japanese on March 1, 1942, when the flagship U.S.S. Houston was sunk near Indonesia. The total losses suffered by the fleet were staggering; 22 ships sunk, 1,826 men killed or missing in action, and 518 men captured, many of whom did not survive their internment.

Yet, the spirit displayed by those who served with the Asiatic Fleet was equally stunning. Charged with a near-impossible task from the very start, the Fleet “fought like hell,” as one survivor recently put it. That these particular veterans have received little compensation for their cunning and fortitude in the face of such overwhelming odds is one of the finer moments in defense of democracy. We can begin to rectify
HONORING A DISTINGUISHED PUBLIC SERVANT, WESTCHESTER COUNTY EXECUTIVE, ANDREW P. O’ROURKE

HON. BENJAMIN A. GILMAN OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, November 7, 1997

Mr. GILMAN. Mr. Speaker, I am proud to salute Andrew P. O’Rourke, a public servant who has distinguished himself as one of New York’s most outstanding community leaders.

With his recent decision to retire from his position as Westchester County Executive, Andy O’Rourke leaves a legacy of goodwill, responsiveness and genuine concern for the citizens of Westchester. This is highlighted by the many community groups, such as the Westchester Arts Council, that are now calling attention to the success of Andy’s 14-year administration as county executive.

The people of Westchester have been privileged to have had a stellar county leader like Andy O’Rourke. Some have begun his public career in 1965 as a representative on the Yonkers City Council, through his time as chairman of the board of county legislators, and finally his tenure as Westchester’s county executive, it is clear that Andy has maintained a sincere desire to serve the best interests of his constituents. Every resident of Westchester can take pride in knowing that such a concerned leader was looking out for them.

However, Andy is not just a public servant. He is a playwright and author, having published two novels and is recently finishing a third. Andy O’Rourke is the first African-American to be elected to the San Bernardino Community College District board, has served since 1973. During her tenure, she has served twice as clerk, vice-president, and president, and as a result of her leadership, the college district now offers a child care center, the Minority Transfer Center, and Community Forms—Vision 2001. She has greatly impacted higher education not only in her district, but also on the national level, serving on the board of the Association of Community College Trustees (ACCT). In 1991, Mrs. Carson was recognized by ACCT as the top trustee in the U.S. with the M. Dale Ensign Award.

In addition to her work in the San Bernardino Community College District, Mrs. Carson served as the director of Project Upward Bound at the University of California at Riverside from 1972 to 1976, and, since 1980, has served the United States in pursuit of its cold war aims. This legislation will also commemorate the military and civilian personnel of the Department of Defense, members of the intelligence community, members of the foreign service, and others who served the United States in pursuit of its cold war aims. This legislation will also commemorate the involvement of the United States in that conflict.

Mr. Speaker, I believe that this legislation is important, not only because it honors the people who valiantly fought the cold war, but will help future generations understand and learn about one of the most dangerous times in American history. The cold war may not have been as intense as World War II or as widely viewed as the Vietnam war, but it was just as real and just as dangerous. The United States
officially entered this conflict on March 12, 1947 and won it on December 31, 1991 at the stroke of midnight. During that time, America saw the creation of the Central Intelligence Agency (CIA), and the implementation of both the Marshall plan, and the Truman doctrine.

Mr. Speaker, the cold war was a war that the United States won. It took 50 years to win, but it showed the whole world what we have always known, that a democratic form of government will outlast a communist form of government. As we look at the world now we see that the former Eastern bloc countries are democratic and are now becoming partners with the United States in a whole host of issues. This would not have been possible without those cold war warriors tremendous efforts. This is itself is reason to erect a monument.

Mr. Speaker, it is my hope that all of my colleagues will support the passage of this legislation.

STATEMENT ON THE DEATH OF WALTER HOLDEN CAPPS

HON. BILL LUTHER
OF MINNESOTA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. LUTHER. Mr. Speaker, we all lost a friend last week with the passing of Representative Walter Capps. Walter’s untimely death, coming without warning, reminds us of the fragility of life. Even though he was only here in the House for 10 months, Walter and I spent quite a bit of time together. Our committee assignments, Science, and International Relations, were identical and we also served together on the Science Subcommittees on Basic Research, and Space and Aeronautics. Walter’s positive outlook, passion for service to this institution, having arrived here just 2 years of in Congress. I am also a new person to this world, not just because he was a friend but also because he was the kind of person we need more of in Congress. I am also a new person to this institution, having arrived here just 2 years before Walter and I knew that he was committed to doing everything he could to change the public perception and the private reality of Congress. He was a reformer in the truest sense of the word—a person dedicated to making Government work better for our employers, the people. Our hearts and prayers go out to his wife Lois, his children Lisa, Todd, and Laura, and the people he represented. We know you’ll miss him so much and we will too.

WELCOMING THE WORLD-RENOWNED ST. MICHAEL’S BOY’S CHOIR TO WASHINGTON, DC

HON. JAMES V. HANSEN
OF UTAH
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. HANSEN. Mr. Speaker, I would like to take this opportunity to announce that some very talented young individuals will visit the House of Representatives in early December to honor us with a short musical performance in the Cannon Caucus Room. The St. Michael’s Boy’s Choir, representing the St. Michael’s Boy’s Choir School from Toronto, Canada, is visiting the Washington, DC area and has agreed to perform a Christmas medley the afternoon of December 5.

Mr. Speaker, I now allow me to pass along some words of praise for this fine group of people.

Canada’s St. Michael’s Choir School has been internationally acclaimed and is considered to have one of the finest boy’s choirs in the world. The 150 boys who make up the choir represent over 40 different ethnic groups, and they come from many countries.

The choir, located in Toronto, Ontario, Canada, offers training from grade 3 through grade 13, with a student body of over 370 boys. The secondary school offers a 5-year arts and science program for the 98-percent of students who continue on to a university or college program. To qualify for admission to the choir school, students must have a good voice and a musical ear. Each boy has private piano lessons weekly and may also be invited to study pipe organ, violin, or classical guitar.

The music program for this choir school was so highly regarded that it was accorded an affiliation with the Pontifical Institute of Sacred Music in Rome, one of only six in the world. This affiliation, the only one accorded to a North American school, allows the authorization to grant degrees in sacred music.

The Boy’s Choir makes two trips a year out of Canada—one to Europe and one to the United States. Earlier this year, they were in Europe to sing at a major music festival where they were awarded first place and had the opportunity to sing before the Pope. Additionally, concert tours, recordings, radio and television appearances, and live performances have increased their visibility to the world audience. Their best known concert in Canada is the annual Christmas Concert which attracts over 8,000 people annually.

Mr. Speaker, we are indeed fortunate to have these wonderful young men here on December 5 to sing for us in the Cannon Caucus Room. Our Director, Bob Pearson, has told us that his boys are excited and honored to be coming to our Nation’s Capitol and are looking forward to their performance for the House of Representatives. I invite all my colleagues and their staffs to attend this wonderful event.

SMALL TURBINE INVESTMENT CREDIT

HON. JIM McDermott
OF WASHINGTON
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. McDERMOTT. Mr. Speaker, last month, the World Wildlife Fund commissioned a national survey regarding the attitude of Americans toward global warming. One interesting result was that voters overwhelmingly support proposals which encourage consumer access to clean energy options. In particular, 81 percent of Americans responded that tax incentives should be made available to encourage the sale of clean energy.

Since coming to Congress, I worked on several initiatives to support wind turbine investment. Today I introduced a bill which will provide a 30-percent tax credit toward the purchase of small wind turbines, 50 kw or less. Similar legislation already has been introduced by Senators CHARLES GRASSLEY and JAMES JEFFORDS. I hope a majority of my House colleagues will join me in supporting this bipartisan effort.

At a time when U.S. energy consumers are under international pressure to reduce CO2 emissions, passage of the small wind turbine investment credit will, in my view, encourage alternative energy use for small users, increase the international competitiveness of U.S. alternative technology industries, and help rural communities that lack access to utility grids.

HONORING AUGUST F. SCORNAIENCHI

HON. RONALD V. DELLLUMS
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. DELLLUMS. Mr. Speaker, I rise to honor August Scornaienchi, the Alameda County Superintendent of Schools, on the occasion of his retirement. Mr. Scornaiench has devoted over 36 years of service in public education; 24 of those in leadership positions within the Alameda County Office of Education. He is a visionary who has worked diligently at education reform before it became fashionable. Through his leadership, his passion, and his vision, his partnerships and his leadership abilities have earned him the respect of not only his colleagues, but the community as well.

Superintendent Scornaienchi has been a champion for students of minority and marginalized groups and has worked diligently to provide for their special needs. He was one of the first to develop and later expand an outstanding bilingual/multicultural education program which gained a worldwide reputation as a model program. He was instrumental in developing educational programs for homeless children, recognizing the incredible hurdles that this population faces. This program included setting up a portable unit at a shelter in Berkeley and equipping it with computers and educational materials, securing grants to pay for tutoring programs, and conducting workshops for staff to learn how to better serve homeless children. He has expanded county office educational services to neglected and delinquent youth by opening four community-based school programs and an innovative “boot camp” for at-risk students in collaboration with the probation department. He has furthered the opportunities for pregnant and parenting teens by providing alternative programs, including academic and support services which allow students to complete their high school education. In addition, he was one of the first in his position to publicly condemn homophobia in our schools and to encourage local schools to address the intolerance and the other complex issues facing this student population.

Superintendent Scornaiench clearly recognizes that there are many factors that impact upon a child’s education. Under his guidance, the county has taken a leadership role in the areas of school safety, dealing with hate-motivated behavior, Healthy Kids Resources and
Healthy Start Programs, staff development, new teacher training, business-education partnerships, effective parenting, interagency collaboration, and using technology in the classroom.

His work and commitment to the community does not end at the school door. He has chaired the Inter-agency Child and Family Policy Board, which is composed of all department heads from various agencies in Alameda County. His goal was to find ways for these various children and family county service providers to work together more efficiently and effectively by considering innovative measures such as blending funding streams and reducing red tape and redundant services. He also served as cochair of the East Bay Conversion/Base Closure Board which makes policy decisions that have far-reaching impact on schools and communities throughout the bay area.

Superintendent Scornaeci advocated and worked for the implementation of a statewide proposal to levy a surcharge on tickets for professional sporting events to help save school athletic programs. This campaign was expanded to include an assessment on performing arts tickets to support the arts program for homeless children. Recognizing the need for global interaction, he developed and administered the first county office student international exchange program with the former Soviet Union designed to promote a better understanding between our countries and establish invaluable communication links.

There is no doubt that the program participants expanded their world view and learned important life lessons.

I ask that my colleagues join me in commending the incredible dedication of this public servant. His advocacy for the welfare of children has brought together all segments of the community to address the improvement of services to all of our children. Thank you so much for your many years of service. I and the people of Alameda County are grateful to you and wish you well in this new phase of your life.

SYLURA BARRON: AN AMERICAN HERO

HON. BOB FILNER
OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. FILNER. Mr. Speaker and colleagues, I rise today to mourn the passing and celebrate your life.

Sylura Barron learned very early in life that there would be many barriers put in front of her, and she became determined to not only cross over those barriers, but to tear them down so they would not slow anyone following in her steps.

Sylura Barron always felt that room should be made in the Democratic Party and in the Nation as a whole for every segment of our society. “Leave out no one” was one of her favorite slogans. She was a determined and dedicated fighter, and she demanded that her voice be heard. Many times she led progressive movements to make the point that her political party was truly the party of the people. Sylura sometimes wondered if she was fighting this battle alone. Sylura, you can rest assured, thousands followed your lead—and you left out no one.

Mr. Speaker, I hope that my colleagues will join me in keeping Sylura’s dreams for our Nation alive. Leave out no one.

CAMPAIGN FINANCE REFORM

HON. RON KIND
OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. KIND. Mr. Speaker, today is November 7, over 4 months after the July 4th deadline that the President set for passage of campaign finance reform. I have delivered each day since that time a statement in the House of Representatives calling on the leadership to allow a vote on any one of the many campaign finance bills pending in this Congress. My pleas, and the request of many others, has gone unanswered. We are now entering into the final weekend of our legislative year. By Sunday we may be out of session, not to return until late January of next year. If we don’t act this weekend we will never change the current system.

The examples of abuse of the existing system are too numerous to mention. I have documented many of the abuses, on both sides of the aisle, in my earlier statements. The Republicans have invested an enormous amount of taxpayers’ money investigating and exposing the alleged violations of law by the White House in the last election.

Investigation is good. Those who broke the law should be brought to justice. The sad fact is, however, that many of the most well known abuses are technically legal. We must do more than investigate, we must legislate. With only a few days left, we must act now. Let’s take some time this weekend to debate, consider, and pass campaign finance reform. The people of my district will not take no for an answer.

HONORING KAREN S. DAUGHTRY

HON. EDOLPHUS TOWNS
OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. TOWNS. Mr. Speaker, I rise today to honor the work and achievements of Dr. Karen S. Daughtry. While working as the director for the past 26 years of the Alonzo A. Daughtry Memorial Day Care Center, her dedication to issues concerning women and children, locally and internationally, has proven incomparable. As a 1997 recipient of the doctor of ministry degree from New York Theological Seminary, her commitment to social change, through her faith, is unquestionable. Using a Christian perspective, she has focused on increasing knowledge and comprehensive understanding of social and political issues which impact on the health of our children, family life, and educational and personal development. Dr. Daughtry, has been able to further her goals by serving as an advisor to the House of the Lord Youth Department and Sisterhood, and as chair of the Church’s National Department of Women’s Work. Dr. Daughtry also serves on the board of directors of the Randolph Evans Memorial Scholarship Fund, an organization formed in 1979 which awards 10 scholarships of $1,500 each to Brooklyn college bound youth in the name and memory of Randolph Evans, a 16-year-old shot to death in 1976 by a police officer.

Under her leadership, Sisters Against South African Apartheid (SASAA) participated in a petition drive which delivered thousands of signatures to the United Nations on behalf of detained and tortured children of Angola and hosted Mrs. Maria Eugenia Neto, the mother of Angola, at a special service when she visited the United States. In addition, SASAA was proud to host Zenami Mandela, daughter of Nelson and Winnie Mandela, a year prior to his release from prison. The organization also participated with the Nelson Mandela Reception Committee in organizing the first visit to New York City of Nelson and Winnie Mandela, and hosted Mrs. Mandela in programs at the House of the Lord Church and the Brooklyn Academy of Music.

Probably what Dr. Karen Daughtry would consider her most important achievement, however, is the raising of her family. She has been married since 1962 to Rev. Herbert Daughtry, national presiding minister of the House of the Lord Churches. In addition, SASAA honored the work and achievements of Dr. Karen S. Daughtry for all of her important work.
TURKEY LOOKS OUTSIDE ITS BORDERS TO SOLVE ITS KURDISH QUESTION, WHEN THE PROBLEM CLEARLY RESTS WITHIN

HON. STENY H. HOYER
OF MARYLAND
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. HOYER. Mr. Speaker, over the past several years, Turkey, a NATO ally and United States friend, has made repeated incursions into Iraq. The invasions, which violate international law, are undertaken ostensibly against Kurdish guerillas waging a violent insurrection thousands of other young African-American students to follow in his footsteps. Often referred to as the “Father of Allied Health” within the Drew University of Medicine and Science, Dr. Buggs made significant accomplishments during his 85 years of life.

Dr. Buggs was a microbiologist who contributed to the advancement of humankind through his extensive scientific research. He worked on the original research to develop penicillin and laid the foundation for the work of today’s scientists and physicians who are now working to combat diseases such as streptococci. He conducted the study which opened the eyes of Congress to the need for science educational centers in historically black colleges and universities. He paved the way for the establishment of Federal funding for these educational centers and provided the foundational research and development for Drew University’s College of Allied Health.

Dr. Buggs scientific work has enriched the lives of Americans far beyond Drew University and the 37th District of California. His leadership and unwavering commitment to expanding the minds of aspiring physicians and scientists has contributed to the education of a significant number of African-American physicians in the United States. Numerous people throughout the country have become educated and are now serving their communities as health professionals because of his shining example of what it means to lead, to educate, and to truly make a difference for the generations of today and tomorrow.

As a leading role model for young African-American students to become scientists, Dr. Buggs ensured that this spirit of learning and expanding science would not end with his passing. I am honored to be able to represent a district which has benefited so immensely from this man.

CONGRESSIONAL RECORD — Extensions of Remarks

November 8, 1997

COMMEMORATING DR. CHARLES W. BUGGS
HON. JUANITA MILLENDER-MCDONALD
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Ms. MILLENDER-MCDONALD. Mr. Speaker, I rise today to commemorate a remarkable man from the 37th District of California: Dr. Charles W. Buggs. Dr. Buggs has served a leading role in the field of medicine and has inspired other young African-Americans to follow in his footsteps. Often referred to as the “Father of Allied Health” within the Drew University of Medicine and Science, Dr. Buggs made significant accomplishments during his 85 years of life.

Dr. Buggs was a microbiologist who contributed to the advancement of humankind through his extensive scientific research. He worked on the original research to develop penicillin and laid the foundation for the work of today’s scientists and physicians who are now working to combat diseases such as streptococci. He conducted the study which opened the eyes of Congress to the need for science educational centers in historically black colleges and universities. He paved the way for the establishment of Federal funding for these educational centers and provided the foundational research and development for Drew University’s College of Allied Health.

Dr. Buggs scientific work has enriched the lives of Americans far beyond Drew University and the 37th District of California. His leadership and unwavering commitment to expanding the minds of aspiring physicians and scientists has contributed to the education of a significant number of African-American physicians in the United States. Numerous people throughout the country have become educated and are now serving their communities as health professionals because of his shining example of what it means to lead, to educate, and to truly make a difference for the generations of today and tomorrow.

As a leading role model for young African-American students to become scientists, Dr. Buggs ensured that this spirit of learning and expanding science would not end with his passing. I am honored to be able to represent a district which has benefited so immensely from this man.

Mr. Speaker, Turkey along with the United States and Great Britain, had been participating in an effort to “de-nuclearize” and de-cluster bombing the PKK-ruled areas. Despite the PUK’s continued rejection of significant United States funding, in effect, our ally Turkey is attacking a party which receives funds from the United States Government. I question why our Government refuses to acknowledge this inconsistency. And even more importantly, I question our Government’s silence when a United States-supplied ally violates a United States-imposed “no-fly zone” to kill Kurdish civilians and destroy their villages in the so-called safe haven.

the next summit meeting of the Organization for Security and Co-operation in Europe. As long as Turkey continues to violate international law and its own commitments to OSCE principles, Turkey should not be considered an appropriate venue for a human rights summit. Such a privilege, Mr. Speaker, should be reserved for participating States that have demonstrated, in word and in deed, steadfast support for Helsinki principles and standards, particularly respect for basic human rights.

BEFORE TURKEY J OINS EUROPE

(By Jim Hoagland)

Friend and ally to Turkey for half a century, the United States now plays a new role: pusher. The drug of choice is unrealistic ambition, fed by Washington to Ankara to keep the Turks cooperative.

The Clinton administration has correctly identified Turkey as the new "front-line state" in global conflict. It is the major crossroads of the religious, social and nationalist frictions of new-era politics, and gateway to the oil fields of Central Asia, Iraq and the Persian Gulf. Turkey counts.

But Washington is weak at remedy as it is strong on diagnosis. In no other region of the post-Cold War world is the imbalance greater between a region's declared importance to U.S. interests and active, sustained U.S. involvement.

Instead the Clinton administration offers diplomatic opium to the Turks, suggesting that the answer to their problems is quick membership in the European Union, and then presses the Europeans to admit the Turks and overlook a few flaws here and there.

There is nothing inherently wrong with the U.S. goal of Turkish membership in the 15-member club of Europe's most affluent nations. A Turkey that fits into Europe economically and socially would be a more stable nation, as U.S. diplomats argue at international conferences and in increasingly acrimonious private exchanges with their European counterparts.

But Washington turns a blind eye to the self-destructive, additive behavior of the Turkish military, which makes EU membership in the near future a pipe dream. Worse: Washington denies its own responsibility for conditions that feed that behavior.

The European Union, which dominates the weak coalition government in Ankara, is not interested in harmonizing value added taxes, a perennial hot topic in the EU. The Turkish military spends its energies persecuting dissidents at home—a new wave of arrests of human rights activists was launched last week—and plunging deeper into a nasty civil war in neighboring northern Iraq.

For several weeks Turkish warplanes have been strafing Kurdish guerrillas in Iraq on a near-daily basis. This has moved U.S.-supplied artillery into Iraq to fire on one Kurdish faction, and is dropping napalm on Kurds from U.S.-supplied warplanes, Kurdish spokesmen say.

"Turkey's involvement in the Kurdish civil war demolishes the notion that this is a distant, small conflict with no consequence for the United States," White House spokesmen said otherwise in its misleading reports to Congress and in its anesthetizing public statements playing up the "success" of U.S. policy in the region.

The confusion of American purposes and methods is made clear by this officially acknowledged, bizarre reality: The main targets of Turkey's current attacks inside Iraq are the guerrillas of the Patriotic Union of Kurdistan, an organization that receives at least $500,000 a month in covert support from the Central Intelligence Agency.

Official American money intended to finance peacekeeping has also been flowing to the PUK's chief enemy: Massoud Barzani, who has allied himself with the Baghdad regime of Saddam Hussein.

The Turks are now weary of the vacuum that has developed in northern Iraq, a U.S. protectorate after the gulf War. They are also understandably upset about the heavy financial sacrifices the long U.S.-led economic embargo on Saddam has imposed on them. Frustrated and confused about U.S. goals, the Turks follow policies that will result in both Kurdish groups reconciling with Turkey or will resume operational control of the north.

On top of this disastrous scenario, the brutal Turkish campaign pushes further and further away the day when Ankara would be accepted by the European Union. U.S. abdication in northern Iraq and its self-imposed blindness to the regional consequences of that abdication, undermine its proposed solution for Turkey's problems.

This large, developing Muslim nation already faces an insurmountable hurdle in gaining EU membership. Germany, with 2 million Turkish residents and 500,000 Kurds on its soil, is terrified of new waves of immigration. But the Turks also know that they are being asked by the Americans to provide more financial support for Turkey so U.S. help can decline.

Washington can still salvage the damage its vacillating policy on Iraq has done, by persuading the United States to join with its European partners in pushing Turkey towards new commitments on human rights, disarmament and the economy. A two-track policy is now being introduced to all of Louisiana-Paci fic's OSB plants and will be introduced to all of Louisiana-Pacific's business units in 1998.

Mr. Speaker, I wouldlike to submit for the RECORD a portion of the U.S. Environmental Protection Agencies report regarding their inspection of Louisiana-Pacific's Loathe, CO OSB plant and once again say job well done to those at the Louisiana-Pacific Corp.

PRELIMINARY COMPLIANCE AGREEMENT AUDIT OF LOUISIANA PACIFIC CORPORATION—SEPTEMBER 16, 1997

BRIEFING WITH LPC CEO

The Audit Team met with Mr. Mark Suwyn, Chief Executive Officer (CEO), who provided a broad overview of what he has accomplished for LPC's environmental programs and culture changes instituted LPC as a result of the change in management since the Consent Decree and Agreement. The Audit Team viewed a video from series of videos that LPC has prepared for its employees. The video included an address from LPC's CEO to LPC's employees on, among other things, LPC's commitment to environmental laws and regulations. During the Audit Team's meeting with Mr. Suwyn, he also spoke of the Montrose Mill accomplishments in particular and the many changes that have been made at the mill as a result of the Consent Decree.

FACTS AND FINDING FROM INTERVIEWS

The following summarizes the questions asked and responses given by LPC personnel in reference to the Consent Decree and the Preliminary Compliance Agreement.

LPC Structure and Montrose Mill

LPC Structure and Montrose Mill is restructured in a geographical alignment and has been changed from Divisions to Regions. The Montrose Mill is no longer in the North Central Division. The North Central Division has been recently assigned to Portland Headquarters. He is currently stationed in Idaho. The Montrose Mill is part of the Northwest Region consisting of the States of Washington, Oregon, Idaho, Montana, Wyoming and Colorado. Mr. Richard Flather is the Regional Business Manager. Each LPC Region has separate positions for a Regional Business Manager, and an Environmental Manager. LPC uses two organizational structures: one for the Business side and the second for environmental compliance. LPC formed five Environmental Compliance Regions: Northwest (EPA Regions 8 and 10), North Central—East (EPA Regions 1 and 5), EPA Region 2 would be included; however, LPS's Environmental Compliance Regional chart does not list any facilities in this Region at the time of this report. Western (EPA Region 9), South West (EPA Regions 6 and 7), and South East (Regions 3 and 4).

LPC Installation of Pollution Control Equipment

The Montrose Mill installed the Wet Electrostatic Precipitators (WEPs) in 1996 at a
cost of approximately $1.5 million and it is being installed at all newer plants with some of the plants having 3 to 4 WEPS installed. The Regenerative Thermal Oxidizer (RTO) was installed at Montrose in 1996 at a cost of approximately $1.6 million. In total LPC has invested approximately $100 million in RTO’s at eighteen (18) plants and RTO’s will be installed in all older plants under construction at the cost of $3.0 to $3.5 million per setup.

NEW MANAGEMENT EMPHASIZES ENVIRONMENTAL PROGRAM

After Ms. Elizabeth T. Smith was appointed Director, Environmental Affairs in 1993, she and her immediate staff (four positions) trained the Plant Environmental Manager. This Environmental Manager was then trained the assigned mill personnel. Ms. Smith meets quarterly with the Regional Business Managers and to 30 Production Managers to ensure that the environmental programs are within compliance and meeting both the Consent Decree and the EPA Preliminary Compliance Agreement. Ms. Smith prepares a quarterly report regarding all environmental matters for the CEO and BOD. Ms. Smith in conjunction with Plant Manager and in special cases with the Vice President, Plant Environmental Managers or assigned a Plant Environmental Manager for each LPC plant. As directed in the Consent Decree, Ms. Smith states that LPC currently replaces the environmental managers with environmental professionals with three to four years of experience before appointments. There are currently eight Environmental Managers who report to Ms. Smith. They are: Northwest Region—Andy Sandberg, North Central/East Region—Sue Somers, South West and South East Regions—Barb McGiness, Western Region—Dwayne Arino.

The Audit Team reviewed the July 1997 Montrose mill monthly report submitted by the plant Environmental Manager, who has dual reporting to Ms. Smith and the Plant Manager. The reports are used as a monitoring tool and if there appears to be an environmental problem, Ms. Smith contacts the Plant Manager and/or Regional Business Manager. Ms. Smith can close a plant within a short period of time and it is a major environmental issue, a Corrective Action Plan is put into effect.

Two questions Plant Manager in plant operations, he or she has a staff that consists of an Operations Manager, Supervisor of Production, and the Plant Environmental Manager. The Plant Manager is totally responsible for environmental and production functions. The LPC Plant Manager is responsible for coordination and training of environmental and safety of plant personnel. Environmental and Safety functions are part of the LPC Plant Manager’s position description.

Ms. Lundquist, VP for Operations, issued the “Manufacturing—1997 Performance Plan” that includes a performance evaluation base of 20% for Safety and 15% for Environmental programs. The LPC Code of Conduct states “Environmental compliance is a must . . .” and the objective is to support compliance goals and meet the Corporate Policy on Protection of the Environment and included as part of performance measures. Two important goals for 1997 are the Manufacturing Mail System for tracking Environmental Compliance Issues by August 1997 and identifying best available technology for environmental compliance by December 1997.

In addition, in July 1997, LPC issued the LPC Environmental Management Charter, Standard Operating Procedures (SOP) for "Reporting Suspected Violations of Law" and Environmental Management Responsibilities matrix listing duties and responsibilities of areas concerning environmental compliance, reporting, promote compliance, audits, compliance programs, staffing, training, handbook, meeting, records, records retention, reporting, violations, violations and violations, violation, investigation, inspections, waste minimization/energy use, environmental contracts, budgeting, plant closure, sale/purchase, leases, change of ownerships/disposals/divestitures and Consent Decree for each of the corporate environments consisting of: Corporate Environmental, Business Group Environment, Regional Environment and Plant Environment.

Ms. Smith explained the (SOP) for Shut Down of Plants’ Facilities. Authority extends from the CEO, Director Environmental Affairs, Regional Environmental Managers, Plant Managers, Plant Environmental Managers or assigned a Plant Environmental Manager.

LPC has developed an Environmental Affairs Team “Center of Expertise” for management reporting and questions. In addition, LPC installed an internal “Intra-net and Environmental Internal WEB Page” for LPC employees to utilize for information.

A training course was developed regarding Polychlorinated Biphenyls (PCBs) that explains with PCBs, regulations, management responsibility, and how LPC will handle monitoring, engineering, emergencies, transportation and disposal of PCBs.

In addition, LPC developed "Doing Something About It" for an August 14, 1997 training class at New Waverly Complex. This training has been scheduled for reopening something in 1999 or after.

A training course was developed regarding PCBs' health hazards, regulations.

In 1993, she and her immediate staff (four positions) trained the assigned mill personnel. Mr. McGiness responded to the question, "Were there any environmental problems at closed plants as an example. Mr. Smith responded to the question, "Were there any environmental problems at closed plants that led to changes to SOP’s?". He stated, "Yes."

REQUIRED PUBLISHED LETTERS AND/OR MANUALS:

LPC Code of Conduct
LPC issued the Code of Conduct instituted by the new CEO in April 1996 and distributed it to all employees by mail in April 1996. LPC, in addition, printed a Spanish version of the LPC Code of Conduct. Prior to that date there was no official LPC Code of Conduct publication.

Environmental Handbook

Manager Environmental Handbook
LPC issued under CEO Harley Merlo the original "Manager Environmental Handbook" dated January 24, 1997. The revision dated May 1997 was distributed to managers in May 1997. The latest revision contains four (4) training modules as follows: Management Overview, Writing SOPs, and Air.

In addition, the handbook includes a Questionnaire to assist in the goal of identifying environmental issues that will be addressed in the future. It was observed that the Plant Managers utilize the development of Corrective Action Plans as the “Way to Go”.

The Audit Team reviewed LPC’s Audit Privileged & Confidential SOP policy written in 1993 and is still the current SOP. Ms. Smith stated that the LPC internal audit program and audit team was a major factor in her efforts to get changes made through the CEO.

The newly issued SOP for Environmental Audit Corrective Action Plans was effective April 25, 1997, and was reviewed and this SOP explained the basic processes as: Root Cause Analysis, Corrective Action, Monthly Review of Issue, and Issue Corrected. To bring the environmental issue to “Closure”, the Legal Department, the Department of Environmental Affairs and Plant Manager will agree on the status of the issue and agree on closure. Then, the Legal Department will issue a final report to Senior Management, Director of Environmental Affairs, the Product Line General Manager and the Plant Manager stating that the issue(s) has been resolved. Follow-up audits or inspections by regional or corporate environmental personnel may occur to confirm that an appropriate correction has been satisfactorily completed.

Interviews were held with Mr. Don Smith, Audit Manager, and Mr. Bill Hossman, Environmental Assessment Coordinator. Mr. Smith stated that LPC issues a standard audit program and does special audits for the legal department and gave risk assessments as an example for special audits. Environmental Assessment Coordinator stated in 1993 a new SOP for Risk Assessments and has expanded from specific risk to include financial and operations. The LPC audit team gives a two weeks notice and has an entrance and exit meeting with the plant manager. The Legal Department makes an evaluation of the audit report. LPC has up to 15 plants plus acquisitions that have been audited since 1993. They need to complete 70% of their audits with a target of finishing remaining audits by end of 1998. As a rule of thumb, each plant is audited every three years. The LPC auditor viewed closed plants as a significant risk and cite the PCB problems at closed plants as an example. Mr. Smith responded to the question, “Were there any environmental problems at plants that led to changes to SOP’s?” He stated, “Yes.”
TRIBUTE TO NOTED MASSILLON BASEBALL AND FOOTBALL COACH
HON. RALPH REGULA
OF OHIO
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. REGULA. Mr. Speaker, I would like to pay tribute to a special person, Carl Frederick (Ducky) Schroeder who died on November 1, 1997 after a brief illness. He was born on March 26, 1925 in Canal Fulton to Elizabeth nee Ruehling and Frederick Schroeder. He lived in the Massillon area most of his life. It was said that as a young boy, he spent much of his time swimming in the Ohio Canal and the Tuscarawas River, and that he used to "walk like a duck on land" hence the nickname "Ducky."

Ducky began his athletic career in Canal Fulton and Massillon where he was a standout in baseball and football. Upon graduation, Ducky played football at Kings College in Tennessee and eventually transferred to Wittenberg University where he was a stand-out pitcher for three years. He also was a football star and still holds the record for most carries in one game—44 times for 176 yards while also playing linebacker on defense. After graduation Ducky went on to obtain a Masters Degree in Physical Education from Ohio State University.

Starting in 1930 Ducky embarked on a long illustrious career of public service as a teacher and coach. For example, up until he began his career at King's College in Tennessee, he was athletic director, head football and basketball coach at the Ohio Military Institute, Newcomerstown, Logan, and Salem High School and was Athletic Director for both the Springfield YMCA and High School.

On the collegiate and military level Ducky was assistant football and basketball coach at Mount Union College and was head football and basketball coach at Wittenberg University. For the WWII war effort, Ducky trained more than 700 Air Force cadets who later went on to become pilots. However, it was his career in public service at Massillon for which he will be most remembered. In 1948, Ducky returned to Massillon High School where he taught and coached until his retirement in 1971. As head coach of the baseball team, he took the team to the state finals in 1955 and the state semiinals in 1960. During his 23 years as assistant football coach, the Tigers won 13 state championships and it was Ducky's job to supervise the winter conditioning program. He also coached several professional baseball and football players.

Ducky selflessly gave up his free time to promote sports. He was on the Big 33 Committee which led to five Ohio-Pennsylvania all star games. He was Secretary/Treasurer of the Ohio High School Football Coaches Association and was inducted into the Ohio High School Coaches Hall of Fame. Ducky was a past president of the Professional Football Hall of Fame Club in Canton. He also served as sales representative for the Rae Crowther Blocking Sled Company. In recognition for all his service to Massillon Athletics, he had one of the best high school baseball facilities dedicated to him—The Carl "Ducky" Schroeder Field.

In 1935, a group of athletes at Newcomerstown High School wrote Ducky upon his leaving that school. Their letter reads as follows: Dear Coach: On behalf of the colored boys of Newcomerstown High School, permit me to bid you a fond adieu. We regretfully say that you must leave us, because we consider you equal to or better than any coach who had been or shall be here. We admire you for showing patience whatsoever, and we hope your future career of coaching will be onward and upward. Though our conduct at times was not commendable, we feel that your instructions were for the best. Though we have nothing to offer you as a reward, we hope you will sometime think of us. The colored boys of NHS bid you farewell. Signed Matthew Scott, Killie Stens, Osie Dansby.

Ducky is survived by his wife of 63 years, Gertrude, his sister Helen Ellis, and numerous nieces and nephews, great nieces and nephews, and great great nieces and nephews. He was a longstanding member of St. John's Lutheran Church of Canal Fulton.

INTRODUCTION OF A BILL TO CREATE THE NATIONAL INSTITUTE FOR THE ENVIRONMENT
HON. JIM SAXTON
OF NEW JERSEY
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. SAXTON. Mr. Speaker, today I am introducing a bill, the "Sound Science for the Environment Act," along with Mr. ABERCROMBIE, that would create a National Institute for the Environment (NIE). The sole mission of the NIE will be to improve the scientific basis for environmental decision-making.

The United States spends more than $150 billion a year on pollution control and environmental clean up. Yet, less than 2 percent of that amount is spent on the background science to fully understand these problems before we legislate and regulate them. As we have seen on countless issues from clean air to clean water to endangered species habitat, from global warming to nonpoint source pollution, the credibility and impartiality of the science underlying our decisions is a topic of heated debate. However, very little has been done to provide unbiased science or to link it with policy-making. This legislation is an effort to put some substance behind the calls for "sound science".

Our legislation envisions the creation of the NIE within the National Science Foundation, a significant difference from similar bills I have supported in past Congresses. Operating as part of the NSF will provide the National Institute for the Environment with opportunities to function more effectively, and will accord it a position of stature within the scientific community.

Mr. Speaker, the NIE's sole purpose will be to come up with the best available science on a particular subject. That science will be used by us, the nation's lawmakers, who have been entrusted by our constituents to make the soundest environmental decisions, in their trust and their children's trust. We therefore must ensure that we do base our decisions on sound science. No politics, no interest group cogency, no cost-effective, integrated environmental science that underpins our environmental policies. The question is not whether the federal government will play a role in environmental science, but rather, the accuracy of that role. It is the need for the NIE that is at stake. Once we have the best environmental science and information at our fingertips, we can begin to make more informed environmental decisions based on the most accurate, reliable and unbiased science. The dividend returned on this investment will be long term and will establish a true legacy to future generations.

Mr. Speaker, we all share the common goal to inject credible, peer-reviewed science into environmental legislation and regulations. This legislation will serve to accomplish that goal. I have the pleasure of working with all my colleagues to join me in sponsoring this bipartisan legislation.

Please include for the RECORD this line-by-line summary of our bill, the "Sound Science for the Environment Act."

OUTLINE OF THE SOUND SCIENCE FOR THE ENVIRONMENT ACT TO ESTABLISH THE NATIONAL INSTITUTE FOR THE ENVIRONMENT

This outline describes legislation to create a National Institute for the Environment (NIE), with the mission to improve the scientific basis for environmental decision-making on environmental issues, for other purposes.

Section 1. Short title: the "Sound Science for the Environment Act."

Section 2. Findings: The Congress finds the following:

A healthy environment is essential to an enhanced quality of life, a competitive economy, & national security.

The United States lacks an effective mechanism for providing & communicating a comprehensive, objective & credible scientific understanding of environmental issues in a timely manner to policy-makers & the public.

An appropriate understanding of the diverse scientific issues that underlie the environmental problems facing the United States is essential to finding environmentally & economically sound solutions to these problems.

To be useful, this understanding requires the integration of ongoing assessments of the state of scientific knowledge with credible problem-focused research, the communication of scientific information, & the appropriate education & training of environmental scientists, engineers, & other professionals.

These scientific activities are best carried out through a neutral, institution without regulatory responsibilities, public & private organizations and individuals can establish a shared understanding of the state
of scientific knowledge on environmental issues, & support research, education, and information exchange to expand and spread the state of knowledge.

A National Institute for the Environment will allow the Nation to more effectively use science to improve environmental decision-making, thereby reducing costs and saving lives.

Section 3. Purpose: Create an institute to improve the scientific basis for decision-making on environmental issues by integrating the functions of knowledge assessment, research, information services, education & training, provide national leadership in environmental science and research, and facilitate the sharing of public and private resources to enhance understanding and communication of scientific knowledge about the environment.

Section 4. Establishment: Authorizes and directs the National Science Foundation to establish a National Institute for the Environment with a mission to improve the scientific basis for decisionmaking on environmental issues. Directs that management of the Institute be awarded competitively.

Section 5. Duties & Functions: Sets the duties of the Institute to:
1. Initiate, facilitate, & where appropriate perform assessments of the current state of knowledge of environmental issues & their implications;
2. Award competitively peer-reviewed grants & where appropriate, contracts, for extramural scientific research;
3. Establish a National Library for the Environment as a universally accessible, easy to use, electronic, state-of-the-art information system for scientists, decisionmakers, & the public;
4. Sponsor education & training of environmental professionals & improve public environmental literacy.

Section 6. Governing Board: Establishes a Governing Board composed of 18 members appointed by the President and confirmed by the Senate, which shall establish goals, priorities, & policies of the Institute, & will include approximately equal numbers of scientists & users of scientific information on the environment. Ensures diverse composition including representation of States, academic institutions, business, labor, environment, women, & minority groups. Ensures geographic diversity. Provides for 6-year terms of office in order to provide stability. Designates one member of the National Science Board to serve on the Governing Board.

Section 7. Management & Staff: Provides for a Director, Assistant Directors, & staff. Directs that the Institute be operated by a non-profit organization under contract with NSF.

Section 8. Relation with National Science Board: Directs the National Science Board to recommend names for the Governing Board and to approve selection of the Director.

Section 9. Incentives for Agencies: The Institute may acquire any unclassified data & non-proprietary knowledge possessed by Federal agencies. The Institute shall cooperate with the agencies to ensure that the information & products of the Institute are useful & accessible to the agencies.

Section 10. Interagency Advisory Committee: Directs the Committee on Environment and Natural Resources of the National Science and Technology Council or an equivalent body to serve as an interagency advisory committee to ensure that the efforts of the Institute & Federal agencies are complementary.

Section 11. Grants, contracts, & other authorities: Provides the Institute with the same authority as NSF to enter into financial arrangements, including competitively awarded grants, loans, cooperative agreements, & contracts to institutions, teams, & centers, after rigorous peer-review. States that scientists, engineers, & other researchers should be able to receive funding regardless of whether they are from government or private sector institutions. Allows the Institute to receive funds from Federal agencies, states, & private sector institutions to carry out particular projects & activities, subject to guidelines established by the Board. Directs that funds provided not be used to reduce amounts available to the Institute from appropriations.

Section 12. Authorization of appropriations. Authorizes such sums as may be necessary to NSF & be transferred to the Institute. Prohibits funds of NSF from being transferred.

Section 13. Definitions. Environmental sciences—the full range of fields of study including biological, physical, chemical, geological, & social sciences, engineering, & humanities, relevant to the understanding of environmental problems. Scientist—practitioner of science relevant to the environment. Decisionmakers—elected or appointed officials of Federal, State, tribal, & local governments & similar individuals in the private sector.

TRIBUTE TO REST HAVEN CHRISTIAN SERVICES

HON. JERRY WELLER
OF ILLINOIS
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Mr. WELLER. Mr. Speaker, I rise today to honor the hard work and dedication of Rest Haven Christian Services, a nonprofit Christian based organization which has facilities located throughout the metropolitan Chicago area. This organization provides hope and opportunity to those in need in a way unmatched by any other.

Tonight they celebrate over 37 years of care for the frail and infirm elderly, and over 80 years of serving the needs of the aged who are well. Rest Haven was formed in 1954 to serve the elderly. A sister organization, the Holland Home—originally begun in Roseland in 1914—was merged into the Rest Haven ministry in 1969.

This ministry now serves over 1,200 seniors with skilled nursing, subacute rehabilitation services, assisted living, independent living, and community based services through its Providence Home Health Care Division. These services are accomplished on its five campuses located in Downers Grove, South Holland, Palos Heights, Crete, and Homer Township.

I commend Rest Haven Christian Services for the way they impact lives and restore hope and for their commitment to making their community a core value of citizenship.

TRIBUTE TO JOSEPH WLODARZ

HON. MARCY KAPTUR
OF OHIO
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Ms. KAPTUR. Mr. Speaker, I rise today to commemorate a man in my district who embodied the spirit of America. Joseph Wlodarz died to this life on August 5, 1997 at the age of 85 years.

Joseph “Fudgie” Wlodarz came to East Toledo when he was 13 years old. An all-city football player at Toledo’s Central Catholic High School, Joe went on to play with local semi-professional teams, the Jack Frost Sugars, the Vargo Coals, and the Birmingham Ads. In addition to his passion for football, Joe also played basketball, baseball, and softball. He passed on his passion and his skill to hundreds of youngsters at Holy Rosary Church and School, where he coached children in these sports for 60 years. His son noted at his passing, “He just loved to coach kids.” Wlodarz Field at Ravine Park in East Toledo bears his name, a testament to his love of sport.

Joseph Wlodarz worked for 27 years at the former Unicat Corp. in Toledo, where he left his mark as well. While at Unicat, he organized UAW Local 48, and served many times as the union’s president. He also worked as the labor-management coordinator.

Dubbed “The Mayor of Birmingham”—(the close-knit Hungarian neighborhood of East Toledo in which he lived)—he was very interested in the neighborhood’s community and civic affairs, although he never held an elected office. He was a founder of the Birmingham Hall of Fame, helped organize the 20th Ward Democratic Club, was a member of the East Side Recreation Board, served on the city of Toledo advisory panel for parks and recreation, and labored to establish the East Toledo Family Center where he also served on the board.

Joseph “Fudgie” Wlodarz’ life is perhaps best summed up in his oldest son’s tribute to him, which is a most fitting epitaph, “He never lost the desire to make much money. He was always for his community and neighborhood, union, and helping people.”

Our heartfelt sympathy to Joe’s wife Garnet, his sons James, Jack, Joseph, Jr., and Steve, his grandchildren and great-grandchildren. We mourn your loss, but trust you will find comfort in his memory and the legacy of a life truly well spent and devoted to others.

PERSONAL EXPLANATION

HON. ILEANA ROS-LEHTINEN
OF FLORIDA
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Ms. ROS-LEHTINEN. Mr. Speaker, I regret that due to unforeseen circumstances I was unable to vote on H.R. 2570—roll call No. 598. If I had been present, I would have voted “aye.”
Mr. PALLONE. Mr. Speaker, today, on behalf of myself, and my colleagues Mr. CAMPBELL, Mr. FRANKS of New Jersey, Mr. PAYNE, other members of the New Jersey delegation, and Mr. WAXMAN, rise to offer legislation that all of us concerned about fair competition and the environment should support—the Electricity Clean Competition Act of 1997. Our legislation is offered in recognition of the fact that environmental regulation is a competitive issue that must be addressed as the Congress considers the restructuring of the electricity industry.

As many of my colleagues are aware, I have been skeptical that the Congress needs to take the lead in reducing the market competition to the electricity industry. I have been an advocate for recognizing the unique role of States in ensuring the availability of this commodity to all our citizens in a manner that reflects the need for continued reliability of service, recovery of stranded costs, and continued consumer protection for residential customers.

At the same time, I have been concerned that States might find it difficult to develop a framework that would protect other vital interests of the American public, including: preventing the exercise of market power; establishing a reciprocal regime prohibiting States from gaining competitive advantages resulting from uneven application of deregulation; and most importantly, preventing market distortion and air quality degradation due to inconsistent environmental regulation that resulted from past Federal decisions made under a different set of regulatory circumstances.

As I have listened to the testimony presented before the House Subcommittee on Energy and Power, it appears that a number of principles are emerging that can form the basis for a consensus bill. While I am still uncertain as to the exact timing of mandated universal direct access by all consumers, I believe that a date certain might well be a useful backstop to the efforts of the States and to ensure that the benefits of competition reach all our citizens within a reasonable timeframe.

However, I could not support restructuring legislation if it did not also: provide for reciprocity of access during the time preceding the implementation of universal access—ensuring that some suppliers could not retain captive load; and reduce regulatory costs and slow the rate of recovery of investments in assets that become uneconomic in the new competitive environment; establish a regime favorable to the development of environmentally friendly, and eventually, renewable technologies; and most importantly, address the need for comparable environmental standards applicable to all generating assets.

It is of this last point that our legislation is directed. I think that it is widely recognized that when the Congress adopted the Clean Air Act Amendments of 1977, many old, dirty facilities that were expected to close down were granted exemptions to the strict air pollution control requirements that we applied to new facilities. Yet, 20 years later these grandfathered facilities continue to operate and would, in the absence of our legislation, enjoy an even greater unfair competitive economic advantage over electricity generators that have installed state-of-the-art pollution control technologies or that generate electricity using cleaner fuels or renewable resources.

In order to remedy this problem, the proposed legislation establishes national emissions caps and a credit trading system for nitrogen oxides [NOx] and sulfur fine particulates. The national generation performance standard that would apply to existing facilities would be based on Federal new source performance standards, ensuring that all generation facilities would have to meet the same environmental requirements. Trading in emission credits ensures the lowest possible compliance costs.

Federal restructuring legislation represents the last, best chance to achieve the goals of the Clean Air Act and level the playing field for all competitors in the electric generation market. I hope that if Congress proceeds with consideration of restructuring proposals, my colleagues and I who support Electric Clean Competition Act of 1997 can work with the Administration to craft consensus legislation that will protect consumers, ensure a fair competitive environment and improve air quality.

I hope that if Congress proceeds with consideration of restructuring proposals, my colleagues and I who support Electric Clean Competition Act of 1997 can work with the Administration to craft consensus legislation that will protect consumers, ensure a fair competitive environment and improve air quality.
The reasons for and benefits of this legislation are pretty simple. Right now we have no clear direction from Congress regarding how 270+ million acres of rangeland and grassland in the western States are to be managed. This lack of clear direction and morass of conflicting agency regulations cries out to be resolved. There are still many rangeland and grassland management issues that deserve legislative resolution, but those addressed in this Act are a solid first step and appeal to concerns of all interested parties.

As I have said for a number of months now, I remain committed to bridging gaps between the ranching and environmental communities, as well as between Members of Congress from different parts of the country, to produce meaningful and lasting legislation that serves a handful of legitimate needs of the western family ranchers while at the same time encourages the continued health of the range.

Although this issue remains one of the more controversial public policy matters before Congress, I think the understanding that can be built together to make strides that achieve a very necessary goal. Until such time, the rural West will continue to wither with little security and flawed public policy will rule the day.

The pending relief for western ranchers, however, is not a job for one man. It requires an abundance of legal, scientific, and practical expertise to craft a piece of legislation that meets the stringent substantive and political criteria required by the U.S. House of Representatives. Fortunately, I had the benefit of such expertise, and I would like to recognize those individuals for their hard work.

Dr. Fowler is responsible for compiling extensive and fine tuning the new simplified fee for grazing permits. This fee formula for grazing permits may well undoubtedly bring greater stability to western ranchers and provide a fair return to the Federal Treasury. Without his specific analysis and explanation of the economic effect of this new fee, it would have been impossible to show its many benefits. New Mexico State University, and the nation as a whole, should be proud to have Dr. Fowler working on their behalf.

My fellow Oregonian, Dr. Obermiller has been a highly valued adviser of mine for a number of years, and I am confident that a person like him can be counted on to offer the same wisdom and counsel on other legislative endeavors throughout my congressional career, his assistance on H.R. 2493 was critical to its development. Any newly-introduced legislation in the U.S. House of Representatives must address the inconsistent standards of current law, but Congress must do so with a proper reverence to the history of such issues. When it comes to ensuring that current proposals are accurately framed in a historical context, Dr. Obermiller has few equals. Both of these gentlemen are to be commended for the excellence they have achieved in their field.

In addition, it is essential that a legal analysis of any legislative proposal be performed so that the intent of the author is attained. This analysis must be completed by an attorney who is broadly respected, imparts prudent interpretations based on actual statute and case law, and reads with a critical eye for the needs of the western rancher. Bill Myers, who I heavily rely upon to serve this function, is such a person. Bill, who has served as an Administration official, counsel in the United States Senate, and as the Executive Director of the Public Lands Council, is now in private practice in the State of Idaho. Nevertheless, he took time out of his own workload to provide his advice about the language in the bill and review criticisms that were being levied against it. Without his assistance, it would have been difficult to move forward with any degree of certainty as amendments were being offered to broaden support for the bill.

When all is said and done, and the opinions of the scientists, economists, and attorneys are stripped away, H.R. 2493 is nothing more than a law under which men must live. Therefore, without the wisdom of ranchers themselves, this bill is more than a collection of legal terms and scientific formulas. As a life-long resident of Oregon, it should be a surprise to no one that when I need opinions about rangeland policy, I consult with old friends who I trust—friends like Bob Skinner of Jordan Valley, OR. Bob is a steady and thoughtful man who has always experienced over the years and is a big reason why I value his opinion.

Finally, I would like to thank my good friend Rep. Don Young, Chairman of the House Resources Committee, for his leadership on this issue. He and his staffer, Tod Hull, provided a much-needed push for the bill when we needed it to get through his Committee and on to the floor. The momentum that the bill enjoyed as it proceeded along the legislative process is in large part due to their hard work. The extraordinary efforts of these gentlemen were extremely helpful in taking H.R. 2493 from a bill that faced little chance of passage in the U.S. House of Representatives to one that enjoyed broad, bi-partisan support. I look forward to working with all of them as we continue to address the important issue of stability for western ranchers in the next session of Congress.

[MEMORANDUM—OCTOBER 29, 1997]

Re: Status of Property Rights on Federal Lands

To: Congressman Bob Smith.

From: William G. Myers III, Esq.

I am informed that H.R. 2493, the Forage Improvement Act of 1997, as reported by the House Resources Committee, is subject to several amendments during floor consideration today. Specifically, I understand that the definition of "base property" will be changed so that it relates to private or non-federal land, water, or water rights owned or controlled by a permittee or lessee to which a federal allotment is associated. The question of whether ownership of the word "appurtenant," as contained in the bill as reported by the House Resources Committee, is of legal significance.

In essence, the question is whether it is preferable that a federal allotment is appurtenant to base property or associated with base property. Proponents of the word "appurtenant," prefer that term over "associated" on the basis that it may provide greater leverage in asserting that ranchers have a property right in their federal grazing permits.

Federal statutes and case law are consistent in their discussion of the status of grazing permits. The Taylor Grazing Act (43 U.S.C. § 315b) states that "the issuance of a permit pursuant to the provisions of this Act shall not create any right, title, interest in or to the lands." The United States v. Fuller, (493 U.S. 108 (1990)), additionally, the Federal Land Policy and Management Act (42 U.S.C. §1725(h)) states that "nothing in this Act shall be construed as modifying any law existing on the date of approval of this Act with respect to the creation of right, title, interest or estate in or to public lands or land in National Forests by issuance of grazing permits or leases.

Several recent decisions have added to the jurisprudence on this issue. The federal court in Public Lands Council, et al. v. Babbit, (92 F. Supp. 2d 1386, 1400 (2001)) provided a valuable historical review and held that a "grazing preference" represents "an adjudicated right to place livestock on public lands." The court also held that a grazing preference attached to the base property, and followed the base property if it was transferred. It is the grazing preference which permits the permittee to place livestock on the federal land in the case of Bureau of Land Management lands. As noted above, the preference attaches to the base property.

The use of the word "associated" in the definition of base property in H.R. 2493 is consistent with the notion of attachment. If there is any question, this should be clarified during debate on the House floor. I recommend that an amendment be offered to delete the word "appurtenant," and that the word "attached" be inserted in its place.

This would be consistent as well with the court's ruling in Hage v. United States (35 Fed. Cl. 147 (1996)). The court held that a "grazing permit has the traditional characteristics and language of a license, not a contract." The court went on to state that "[A] license creates a personal or revocable privilege allowing a specific party to use the land in an authorized purpose but does not vest any title or interest in such property in the licensee."

In conclusion, if Congress wishes to make a grazing permit a property right, it should do so explicitly. An attempt to establish a property right by the word of the word "appurtenant," in the definition of the base property, without more, is unlikely to overcome existing statutes and case law cited above.

TRIBUTE TO ERIE SAUNDER

HON. MARCY KAPTUR
OF OHIO
IN THE HOUSE OF REPRESENTATIVES
Friday, November 7, 1997

Ms. KAPTUR. Mr. Speaker, I take this opportunity to remark upon the passing of an extraordinary man of my district, Erie Sauder of Archbold. OH died June 29, 1997 at the age of 92 years.

Erie Sauder was a visionary, an entrepreneur, and a deeply spiritual man. A living legend in his own community of Archbold, he...
was well known among the larger community as well. In fact, even the world knew of him, through his company's products. Mr. Sauder was the founder and chairman of the board of Sauder Woodworking. The world's largest manufacturer of ready-to-assemble furniture, Sauder Woodworking employs 3,000 Archbold area residents. Along with two subsidiaries of the company and Mr. Sauder's signature piece, Sauder Farm and Craft Village, his enterprises are the lifeblood of the community. Sauder Farm and Craft Village is a living history of northwest Ohio, a recreation of a pioneer village which brings to life the day-to-day activity of its residents. The village also includes an auditorium, restaurant, and inn, and over two million people visit it each year to get a glimpse of an understanding of life in the 19th century.

A man of faith and deep moral conviction, Erie Sauder was a scholar of the Scriptures and Mennonite Church history. He was an active congregant in four churches, most recently the Pine Grove Mennonite Church. His work with the church led him to become a founding member of the Mennonite Economic Development Association. Through this organization, he made 18 trips to Paraguay, directing a development project which put to work thousands of indigent Paraguayanes. Mr. Sauder looked upon that project as his most satisfactory achievement. His spirituality and civic-mindedness is evident in the other boards on which he served: Sunshine Children's Home—for profoundly disabled children; Ohio Mission Board; Oaklawn Center; Farmers and Merchants State Bank; Goshen College and Defiance College.

A grounded man who never forgot his roots, Erie Sauder received much recognition in his later years. He was honored as Archbold's Citizen of the year in 1969 and the State of Ohio's Senior Citizen of the Year in 1986. He was inducted into the Northwest Ohio Area Office on Aging's Hall of Honor in 1986. He received the Ohio Designer Craftsmen Award in 1987 and the Governor's Award in 1992.

He has also been recognized by the Maumee Valley Girl Scout Council and the Ohio 4-H Foundation for his generous support of the organizations' programs.

A man of considerable fortune who grew up poor on a Fulton County farm, Erie Sauder's charity was legendary. In addition to his contributions to the Sauder Farm and Craft Village, his business, and many other programs, his obituary notes that his good deeds "ranged from donating an organ to his church to donating $1 million toward the construction of Archbold's new library." His community truly felt his presence and he treated everyone in it as his friend.

Erie Sauder survived his first wife, Leona, their daughter, his sister Mabel and brother Leo. He leaves to this life his wife Orlyss, his sons Delmar, Maynard, and Myrl, step-daughter Elaine, sisters Lucretia and Herma, nine grandchildren and eleven great-grandchildren. May they find comfort in his memory and in the lasting legacy he left in the form of his entrepreneurship and in living his faith.
HIGHLIGHTS

Senate agreed to Labor/HHS Appropriations Conference Report.

Senate

Chamber Action

Routine Proceedings, pages S12073-S12215

Measures Introduced: Thirty six bills and three resolutions were introduced, as follows: S. 1457-1492, S. Res. 148 and 149, and S. Con. Res. 66. Pages S12118-19

Measures Reported: Reports were made as follows:

Special Report entitled “Further Revised Allocation to Subcommittees of Budget Totals from the Concurrent Resolution for Fiscal Year 1998.” S. Rept. No. 105-145)

S. 156, to provide certain benefits of the Pick-Sloan Missouri River Basin program to the Lower Brule Sioux Tribe, with amendments. (S. Rept. No. 105-146)

S. 758, to make certain technical corrections to the Lobbying Disclosure Act of 1995. (S. Rept. No. 105-147)

H.R. 1658, to reauthorize and amend the Atlantic Striped Bass Conservation Act and related laws, with amendments. (S. Rept. No. 105-148)

H.R. 1658, to reauthorize and amend the Atlantic Striped Bass Conservation Act and related laws, with amendments. (S. Rept. No. 105-149)

Measures Passed:

Adoption Promotion Act: Senate passed H.R. 867, to promote the adoption of children in foster care, after agreeing to the following amendment proposed thereto:

Craig Amendment No. 1614, in the nature of a substitute. Pages S12198-S12202

National Voluntary Mutual Reunion: Senate passed S. 1487, to establish a National Voluntary Mutual Reunion. Pages S12198-S12201

Private Relief: Senate passed S. 508, to provide for the relief of Mai Hoa “Jasmin” Salehi. Page S12203

Private Relief: Senate passed S. 1304, for the relief of Belinda McGregor, after agreeing to committee amendments, and the following amendment proposed thereto:

Craig (for Hatch) Amendment No. 1615, to provide for a diversity immigrant visa for fiscal year 1998. Page S12203

Private Relief: Senate passed H.R. 2731, for the relief of Roy Desmond Moser, clearing the measure for the President. Page S12203

Private Relief: Senate passed H.R. 2732, for the relief of John Andre Chalot, clearing the measure for the President. Pages S12203-04

Asian Elephant Conservation: Senate passed H.R. 1787, to assist in the conservation of Asian elephants by supporting and providing financial resources for the conservation programs of nations within the range of Asian elephants and projects of persons with demonstrated expertise in the conservation of Asian elephants, clearing the measure for the President. Page S12204

Enrollment Correction: Senate agreed to S. Con. Res. 66, to correct the enrollment of S. 399. Page S12204

Federal Charter Repeal: Senate passed H.R. 497, to amend the Federal charter for Group Hospitalization and Medical Services, Inc., after agreeing to a committee amendment in the nature of a substitute, and the following amendment proposed thereto:

Craig (for Thompson) Amendment No. 1616, to make a technical correction. Pages S12204-05

Russian Religious Law: Senate agreed to S. Con. Res. 58, expressing the concern of Congress over Russia’s newly passed religion law. Pages S12205-06

Transportation Laws Codification: Senate passed H.R. 1086, to codify without substantive change
laws related to transportation and to improve the United States Code, clearing the measure for the President.

**Diplomatic Immunity Report**: Senate passed S. 759, to amend the State Department Basic Authorities Act of 1956 to require the Secretary of State to submit an annual report to Congress concerning diplomatic immunity, after agreeing to a committee amendment in the nature of a substitute.

**Aviation Insurance Program Authorization**: Senate passed S. 1193, to amend chapter 443 of title 49, United States Code, to extend the authorization of the aviation insurance program, after agreeing to a committee amendment in the nature of a substitute.

**National Family Week**: Senate agreed to S. Res. 93, designating the week beginning November 23, 1997, and the week beginning on November 22, 1998, as “National Family Week”.

**Uniform Relocation Assistance Reform**: Senate passed S. 1258, to amend the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 to prohibit an alien who is not lawfully present in the United States from receiving assistance under that Act, after agreeing to a committee amendment, and the following amendment proposed thereto:

Craig (for Bennett) Amendment No. 1617, to make a technical correction.

**Ohio Land Conveyance**: Committee on Commerce, Science, and Transportation was discharged from further consideration of S. 1347, to permit the city of Cleveland, Ohio, to convey certain lands that the United States conveyed to the city, and the bill was then passed.

**Labor/HHS Appropriations—Conference Report**: By 91 yeas to 4 nays (Vote No. 298), Senate agreed to the conference report on H.R. 2264, making appropriations for the Departments of Labor, Health and Human Services, and Education, and related agencies for the fiscal year ending September 30, 1998, clearing the measure for the President.

**Reciprocal Trade Agreement/Fast Track**: Senate resumed consideration of S. 1269, to establish objectives for negotiating and procedures for implementing certain trade agreements, taking action on amendments proposed thereto, as follows:

**Pending**:

Dorgan Amendment No. 1594, to establish an emergency commission to end the trade deficit.
F. Whitten Peters, of the District of Columbia, to be Under Secretary of the Air Force.

Peter J. Hurtgen, of Florida, to be a Member of the National Labor Relations Board for the term of five years expiring August 27, 2001.

Wilma B. Liebman, of the District of Columbia, to be a Member of the National Labor Relations Board for the remainder of the term expiring December 16, 1997.

Wilma B. Liebman, of the District of Columbia, to be a Member of the National Labor Relations Board for the term of five years expiring December 16, 2002.

Robert M. McNamara, Jr., of Maryland, to be General Counsel of the Central Intelligence Agency.

Joseph Robert Brame, III, of Virginia, to be a Member of the National Labor Relations Board for the term of five years expiring August 27, 2000.

Sarah McCracken Fox, of New York, to be a Member of the National Labor Relations Board for the term of five years expiring December 16, 1999.

7 Air Force nominations in the rank of general.

24 Army nominations in the rank of general.

1 Navy nomination in the rank of admiral.

A routine list in the Navy.

Nominations Received: Senate received the following nominations:

Cyril Kent McGuire, of New Jersey, to be Assistant Secretary for Educational Research and Improvement, Department of Education.

Joseph Robert Brame, III, of Virginia, to be a Member of the National Labor Relations Board for the term of five years expiring August 27, 2000.

Sarah McCracken Fox, of New York, to be a Member of the National Labor Relations Board for the term of five years expiring December 16, 1999.

Mozelle Willmont Thompson, of New York, to be a Federal Trade Commissioner for the term of seven years from September 26, 1996.

Orson Swindle, of Hawaii, to be a Federal Trade Commissioner for the term of seven years from September 26, 1997.

Donna Tanoue, of Hawaii, to be Chairperson of the Board of Directors of the Federal Deposit Insurance Corporation for a term of five years.

Donna Tanoue, of Hawaii, to be a Member of the Board of Directors of the Federal Deposit Insurance Corporation for the remainder of the term expiring October 3, 2000.

Ronald M. Gould, of Washington, to be United States Circuit Judge for the Ninth Circuit.

Barry G. Silverman, of Arizona, to be United States Circuit Judge for the Ninth Circuit.

Sam A. Lindsay, of Texas, to be United States District Judge for the Northern District of Texas.

Nominations Withdrawn: Senate received notification of the withdrawal of the following nominations:

Joseph Robert Brame, III, of Virginia, to be a Member of the National Labor Relations Board for the term of five years expiring December 16, 1999, which was received by the Senate on October 28, 1997.

Sara McCracken Fox, of New York, to be a Member of the National Labor Relations Board for the term of five years expiring August 27, 2000, which was received by the Senate on January 9, 1997.

Committee Meetings

(Committees not listed did not meet)

APPROPRIATIONS—DC/FOREIGN OPERATIONS/COMMERCE/JUSTICE/STATE

Committee on Appropriations: Committee met and approved a committee amendment making appropriations for the government of the District of Columbia, foreign operations, export financing, and related programs, and the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1998. (As approved by the committee, the amendment will be offered as an amendment in the nature of a substitute to H.R. 2607, District of Columbia Appropriations Act (pending on Senate Calendar).)

NOMINATIONS

Committee on Armed Services: Committee concluded hearings on the nomination of William J. Lynn, III, of the District of Columbia, to be Under Secretary of Defense (Comptroller), after the nominee testified and answered questions in his own behalf.
Also, committee ordered favorably reported 1,304 military nominations in the Navy.

House of Representatives

Chamber Action

Bills Introduced: 47 public bills, H.R. 2928-2975; 1 private bill, H.R. 2976; and 6 resolutions, H.J. Res. 103, H. Con. Res. 190-191, and H. Res. 313, 315-316, were introduced.

Reports Filed: Reports were filed as follows:

- Report of the Joint Economic Committee on the 1997 Economic Report of the President (H. Rept. 105-393);
- H. Res. 314, waiving provisions of clause 4(b) rule XI with respect to the same day consideration of certain resolutions reported by the Rules Committee (H. Rept. 105-394);
- H.R. 1544, to prevent Federal agencies from pursuing policies of unjustifiable non-acquiescence in, and re-litigation of, precedents established in the Federal judicial circuits, amended (H. Rept. 105-395);
- H.J. Res. 96, granting the consent and approval of Congress for the State of Maryland, the Commonwealth of Virginia, and the District of Columbia to amend the Washington Metropolitan Area Transit Regulation Compact (H. Rept. 105-396);
- H.R. 1625, to ensure that workers have sufficient information about their rights regarding the payment of dues or fees to labor organizations and the uses of employee dues and fees by labor organizations, amended (H. Rept. 105-397); and
- H.R. 2259, to provide for a transfer of land interests in order to facilitate surface transportation between the cities of Cold Bay, Alaska, and King Cove, Alaska (H. Rept. 105-398).

Speaker Pro Tempore: Read a letter from the Speaker wherein he designated Representative Pease to act as Speaker pro tempore for today.

Journal: The House agreed to the Speaker's approval of the Journal of Friday, November 8, by a yea and nay vote of 345 yeas to 56 nays, Roll No. 616.

Suspensions: The House agreed to suspend the rules and pass the following measures:

- Agricultural Research, Extension and Education Reauthorization Act: H.R. 2534, amended, to reform, extend, and repeal certain agricultural research extension, and education programs (passed by a yea and nay vote of 291 yeas to 125 nays, Roll No. 618);
- Tactile Currency for the Blind and Visually Impaired: H. Res. 122, expressing the sense of the House of Representatives regarding tactile currency for the blind and visually impaired.
- Veterans' Cemetery Protection Act of 1997: S. 813, to amend chapter 91 of title 18, United States Code, to provide criminal penalties for theft and willful vandalism at national cemeteries—clearing the measure for the President.
- Technical Corrections to the American Legion Act: S. 1377, to amend the Act incorporating the American Legion to make a technical correction—clearing the measure for the President.
- Disapprove Military Construction Appropriations Line Item Veto: H.R. 2631, disapproving the cancellations transmitted by the President on October 6, 1997, regarding Public Law 105-45 (passed by yea and nay vote of 352 yeas to 64 nays, Roll No. 617);
- Reading Excellence Act: H.R. 2614, amended, to improve the reading and literacy skills of children and families by improving in-service instructional practices for teachers who teach reading, to stimulate the development of more high-quality family literacy programs, to support extended learning-time opportunities for children, to ensure that children can read well and independently not later than third grade;
- Restore Two Line-Item-Vetoed Provisions of Taxpayer Relief Act: H.R. 2513, to amend the Internal Revenue Code of 1986 to restore and modify the provision of the Taxpayer Relief Act of 1997 relating to exempting active financing income from foreign personal holding company income and to provide for the nonrecognition of gain on the sale of stock in agricultural processors to certain farmers' cooperatives. Subsequently, H.R. 2444, disapproving the cancellations transmitted by the President on August 11, 1997, regarding Public Law 105-34, was laid on the table. Agreed to amend the title;
Congressional Medal of Honor to Robert R. Ingram: H.R. 2813, to waive time limitations specified by law in order to allow the Medal of Honor to be awarded to Robert R. Ingram of Jacksonville, Florida, for acts of valor while a Navy Hospital Corpsman in the Republic of Vietnam during the Vietnam conflict (passed by a yea and nay vote of 412 yeas with none voting “nay”, Roll No. 619);

Pages H10406-09

Question of Privilege of the House: The Chair ruled that H.Res. 315, relating to a question of the privileges of the House, did constitute a question of privilege of the House and was in order. Subsequently, agreed to table the resolution by a recorded vote of 215 ayes to 193 noes with 2 voting “present”, Roll No. 620.

Pages H10409-10

Motion to Adjourn: Agreed to the Armey motion to adjourn by a yea and nay vote of 233 yeas to 170 nays, Roll No. 621.

Senate Messages: Messages received from the Senate today appear on pages H10350 and H10386.

Quorum Calls—Votes: Five yea-and-nay votes and one recorded vote developed during the proceedings of the House today and appear on pages H10349-50, H10383-84, H10384, H10408-09, H10409-10, and H10410-11. There were no quorum calls.

Adjournment: Met at 12:00 noon and adjourned at 6:33 p.m.

Committee Meetings

EXPEDITED PROCEDURES

Committee on Rules: Granted, by voice vote, a rule waiving clause 4(b) of rule XI (requiring a two-thirds vote to consider a rule on the same day it is reported from the Rules Committee) against certain resolutions reported from the Rules Committee. The rule applies the waiver to a special rule reported before November 11, 1997, providing for consideration of a bill or joint resolution making general appropriations for the fiscal year ending September 30, 1998, any amendment thereto, any conference report thereon, or any amendment reported in disagreement from a conference thereon. The waiver also applies to a special rule reported before November 11, 1997 providing for consideration of a bill or joint resolution making continuing appropriations for the fiscal year ending September 30, 1998, any amendment thereto, any conference report thereon, or any amendment reported in disagreement from a conference thereon. The waiver also applies to a special rule providing for consideration of the bill (H.R. 2621) to extend trade authorities procedures with respect to reciprocal trade agreements. The rule provides that the Speaker may entertain motions to suspend the rules at any time before November 11, 1997 provided that the object of the motion is announced from the floor at least one hour before the motion is offered and that the Speaker shall consult with the Minority Leader in scheduling legislation under this authority to suspend the rules.

House

No Committee meetings are scheduled.

The public proceedings of each House of Congress, as reported by the Official Reporters thereof, are printed pursuant to directions of the Joint Committee on Printing as authorized by appropriate provisions of Title 44, United States Code, and published for each day that one or both Houses are in session, excepting very infrequent instances when two or more unusually small consecutive issues are printed at one time. Public access to the Congressional Record is available online through GPO Access, a service of the Government Printing Office, free of charge to the user. The online database is updated each day the Congressional Record is published. The database includes both text and graphics from the beginning of the 103d Congress, 2d session (January 1994) forward. It is available on the Wide Area Information Server (WAIS) through the Internet and via asynchronous dial-in. Internet users can access the database by using the World Wide Web; the Superintendent of Documents home page address is http://www.access.gpo.gov/su_docs, by using local WAIS client software or by telnet to swais.access.gpo.gov, then login as guest (no password required). Dial-in users should use communications software and modem to call (202) 512-1661; type swais, then login as guest (no password required). For general information about GPO Access, contact the GPO Access User Support Team by sending Internet e-mail to gpoaccess@gpo.gov, or a fax to (202) 512-1262, or by calling Toll Free 1-888-293-6498 or (202) 512-1530 between 7 a.m. and 5 p.m. Eastern time, Monday through Friday, except for Federal holidays. The Congressional Record paper and microfiche will be furnished by mail to subscribers, free of postage, at the following prices: paper edition, $150.00 for six months, $295.00 per year, or purchased for $2.50 per issue, payable in advance; microfiche edition, $141.00 per year, or purchased for $1.50 per issue payable in advance. The semi-monthly Congressional Record Index may be purchased for the same per issue prices. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington, D.C. 20402. Following each session of Congress, the daily Congressional Record is revised, printed, permanently bound and sold by the Superintendent of Documents in individual parts or by sets. With the exception of copyrighted articles, there are no restrictions on the republication of material from the Congressional Record.
