COVERDELL A+ SAVINGS ACCOUNTS BILL—EXPLANATION OF VOTES

● Mr. ABRAHAM. Mr. President, the Senate recently voted on an important piece of legislation, the Coverdell A+ Savings Account bill. I believe it is important to clarify my position on several amendments offered to this bill.

In general, I believe the best way to ensure effective education policy is to direct as many dollars and resources as possible to the local level. By giving localities the resources and flexibility they need, I am confident that communities and parents will best direct those funds to meet the unique and diverse needs of their children. For this reason, I support the Coverdell A+ Savings Account bill. This legislation, puts resources at the most local level: with parents. Parents will now have the ability to save for and meet the educational needs of their children. Whether it means hiring a tutor for their child, buying a home computer, finding an alternative educational setting, or saving for college, parents will be in the position to take positive steps towards providing a positive educational future for their children.

For similar reasons, I supported an amendment offered by Senator GORTON to give states the option of (1) continuing to receive federal education programs under the current funding system; (2) receiving federal education programs as a block grant going directly to the state without federal regulations; or (3) receiving federal education programs in a block grant going directly to the local education agency without federal regulations. By allowing local education agencies to receive federal resources without federal red tape and bureaucracy, we will be putting more power and flexibility in the hands of the people most closely involved with educating children. As a safe-guard to ensure that an appropriate level of federal funding continues, Senator GORTON's amendment insists that if future funding dips below the current level of funding, the programs would be forced back into the current categorical funding.

I also supported an amendment offered by Senators MACK and D'AMATO which would allow states to use existing block grant funds under the Elementary and Secondary Education Act to fund teacher testing and merit pay programs in the state. I believe this amendment would allow states to develop important programs to help ensure quality teachers in the classroom and to pay those teachers accordingly.

Finally, I supported an amendment that was offered by Senator KAY BALLEW HUTCHISON which clarified the federal position on same-sex schools. This amendment would allow same-sex classrooms and schools to be eligible to receive federal funding as long as comparable education opportunities are offered for students of both sexes. I believe the federal government must allow states and communities to find creative solutions to meeting the educational needs of their children.

Again, I support the philosophy behind the Coverdell bill and the Gorton amendment which places control, resources, and decision making with parents and local communities. Unfortunately, most of the amendments offered by Democrats, while noble ideas, fund their programs by eliminating the education savings accounts and by focusing the programs and power at the federal level. While there were many interesting ideas debated, such as the amendment offered by Senator LEVIN which would increase the lifetime learning education credit for teachers or the amendment offered by Senator LANDRIEU to provide incentive grants for Blue Ribbon Schools, each proposal was paid for by defunding the A+ Savings Accounts. For that reason, I could not support these weakening amendments.

Senator GLENN offered an amendment which would eliminate the ability of parents to use their tax-free savings to pay for private school tuition or homeschooling expenses. The provision included in the A+ bill is identical to the provision supported by President

Clinton and the Democrats in the Balanced Budget Act which allows parents to save \$500 a year for college expenses. The Balanced Budget Act, which was signed into law by the President, does not differentiate between private and public colleges. It is inconsistent to subsidize a more limited number of college students and not offer the same benefit in K-12 education.

Senator MOSELY-BRAUN offered an amendment to eliminate the Coverdell A+ Savings accounts and to use the money instead to create a federal school construction program. While I recognize the need for adequate school construction, I believe the Coverdell bill more adequately addresses the needs for school construction through a provision included in the legislation offered by Senator GRAHAM. This provision fosters public private partnerships for school construction and maintains the function of school construction at the local level. The bill provides for \$3 billion in tax-exempt bond funding for school construction.

I voted against an amendment offered by Senator KENNEDY which would forgive a maximum of \$8,000 in student loans for teachers entering "high need areas or subjects" and would pay for this provision by eliminating the A+ Savings Accounts. I opposed this amendment because the Higher Education Reauthorization Act approved by the Senate Labor Committee contains similar incentives of student loan forgiveness for teachers entering inner-city or rural teaching environments.

I opposed an amendment offered by Senator BOXER which would create a new \$250 million federal after-school program. While I support after-school mentoring and tutoring programs for children, I believe these programs should be operated at the local level. In addition, the federal government already funds 4 after-school care programs and 19 existing federal programs that provide tutoring and mentoring for students on a one-on-one basis.

I am encouraged by the Senate's action on the Coverdell A+ Savings bill and the amendment offered by Senator GORTON. I look forward to additional debate on education issues and new and innovative proposals to place greater control and resources at the local level.●
