(A) the date on which the Secretary of Defense submits the report; or

(B) the date on which the Director of Operational Test and Evaluation submits the certification required under subsection (c).

(b) **CERTIFICATION BY SECRETARY OF DEFENSE.**—(1) Upon the completion of 433 hours of flight testing of F-22 flight test vehicles, the Secretary of Defense shall submit to the congressional defense committees a certification of the completion of that amount of flight testing. A certification is not required under this paragraph if the Secretary submits a report under paragraph (2).

(2) If the Secretary determines that a number of hours of flight testing of F-22 flight test vehicles less than 433 hours provides the Defense Acquisition Board with a sufficient basis for deciding to proceed into production of Lot II F-22 aircraft, the Secretary may submit a report to the congressional defense committees upon the completion of that lesser number of hours of flight testing. A report under this paragraph shall contain the following:

(A) A certification of the number of hours of flight testing completed.

(B) The reasons for the Secretary's determination that the lesser number of hours is a sufficient basis for a decision by the board.

(C) A discussion of the extent to which the Secretary's determination is consistent with each decision made by the Defense Acquisition Board since January 1997 in the case of a major aircraft acquisition program that the amount of flight testing completed for the program was sufficient or not sufficient to justify a decision to proceed into low-rate initial production.

(D) A determination by the Secretary that it is more financially advantageous for the Department to proceed into production of Lot II F-22 aircraft than to delay production until completion of 433 hours of flight test-

ing, together with the reasons for that determination.

(c) **SUBMISSION OF REPORT.**—The Secretary of the Army shall submit the report not later than March 1, 1999.

SEC. 212. CVN-77 NUCLEAR AIRCRAFT CARRIER PROGRAM.

(a) **AMOUNT FOR NEW TECHNOLOGIES.**—Of the amounts authorized to be appropriated under section 201(2) for aircraft carrier system development, \$50,000,000 shall be available only for research, development, test, and evaluation, and for acquisition, of technologies described in subsection (b) for use in the CVN-77 nuclear aircraft carrier program.

(b) **TECHNOLOGIES.**—The technologies for which amounts are available under subsection (a) are technologies that are designed—

(1) for a transition from the CVN-77 aircraft carrier program to the CV(X) aircraft carrier program; and

SEC. 214. AIRBORNE LASER PROGRAM.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The development plan of the Department of Defense for the Airborne Laser Program does not include the basic validation of certain key technologies until 2002, which is shortly before the program is scheduled to

enter the engineering and manufacturing development phase of development.

(2) It is possible that the technical risk of the Airborne Laser Program could be substantially reduced by restructuring the program to include a technology demonstration using a low power laser device to collect optical data in an operationally representative environment.

(3) Department of Defense officials are currently planning to have expended approximately \$1,300,000,000 on the Airborne Laser Program by the end of fiscal year 2002, and a total of \$6,300,000,000 by the end of fiscal year 2008 for the development of the system and the procurement of seven airborne laser aircraft.

(4) Due to the likely vulnerability of an airborne laser system to air defense threats, the limited lethal range of the laser device, and other operational limitations of the system, the utility of the airborne laser system will be severely restricted under a wide range of operational scenarios.

(b) ASSESSMENT OF TECHNICAL AND OPERATIONAL LIMITATIONS.—The Secretary of Defense shall conduct an assessment of the technical obstacles and operational shortcomings expected for the Airborne Laser Program. In conducting the assessment, the Secretary shall—

(1) require the Panel on Reducing Risk in Ballistic Missile Defense Test Programs to evaluate the adequacy of the test program for the Airborne Laser Program; and

(2) establish an independent team of persons from outside the Department of Defense who are experts in relevant fields to review the operational limitations and issues associated with the Airborne Laser Program.

(c) REPORT ON ASSESSMENT.—Not later than March 15, 1999, the Secretary shall submit a report on the assessment to Congress. The report shall include the Secretary's findings and any recommendations that the Secretary considers appropriate.

(d) FUNDING FOR PROGRAM.—Of the amount authorized to be appropriated under section 201(3), \$195,219,000 shall be available for the Airborne Laser Program.

(e) LIMITATION.—Of the amount made available pursuant to subsection (d), not more than \$150,000,000 may be obligated until 30 days after the Secretary submits the report required under subsection (c).

(a) FINDINGS.—Congress makes the following findings:

(1) Section 152(b) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 107 Stat. 1578) prohibits the obligation of funds, after September 30, 2000, to modify or procure any Department of Defense aircraft, ship, armored vehicle, or indirect-fire weapon system that is not equipped with a Global Positioning System receiver.

(2) Section 279(b) of the National Defense Authorization Act for Fiscal Year 1996 (Public Law 104-106; 110 Stat. 243) requires the Secretary of Defense to prepare a plan for enhancing the Global Positioning System and to provide in that plan for—

(A) the development of capabilities to deny hostile military forces the ability to use the Global Positioning System without hindering the ability of United States military forces and civil users to have access to and use of the system; and

(B) the development and acquisition of receivers for the Global Positioning System and other techniques for weapons and weapon systems that provide substantially improved resistance to jamming and other forms of electronic interference or disruption.

(3) Section 2281 of title 10, United States Code, requires the Secretary of Defense—

SEC. 328. SENSE OF SENATE REGARDING OIL SPILL PREVENTION TRAINING FOR PERSONNEL ON BOARD NAVY VESSELS.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) There have been six significant oil spills in Puget Sound, Washington, in 1998, five at Puget Sound Naval Shipyard (including three from the U.S.S. Kitty Hawk, one from the U.S.S. Carl Vinson, and one from the U.S.S. Sacramento) and one at Naval Station Everett from the U.S.S. Paul F. Foster.

(2) Navy personnel on board vessels, and not shipyard employees, were primarily responsible for a majority of these oil spills at Puget Sound Naval Shipyard.

(3) Oil spills have the potential to damage the local environment, killing microscopic organisms, contributing to air pollution, harming plants and marine animals, and increasing overall pollution levels in Puget Sound.

(b) **SENSE OF SENATE.**—It is the sense of the Senate that the Secretary of the Navy should take immediate action to significantly reduce the risk of vessel oil spills, including the minimization of fuel oil transfers, the assurance of proper training and qualifications of all Naval personnel in occupations that may contribute to or minimize the risk of shipboard oil spills, and the improvement of liaison with local authorities concerning oil spill prevention and response activities.

(2) In the post-Cold War era, these institutions are in a profound transition that involves challenging opportunities.

(4) During the two years since 1996, the Department of Veterans Affairs has revitalized its structure by decentralizing authority into 22 Veterans Integrated Service Networks.

(5) In the face of increasing costs of medical care, increased demands for health care services, and increasing budgetary constraints, the Department of Defense and the

Department of Veterans Affairs have embarked on a variety of dynamic and innovative cooperative programs ranging from shared services to joint venture operations of medical facilities.

(6) In 1984, there was a combined total of 102 Department of Veterans Affairs and Department of Defense facilities with sharing agreements. By 1997, that number had grown to 420. During the six years from fiscal year 1992 through fiscal year 1997, shared services increased from slightly over 3,000 services to more than 6,000 services ranging from major medical and surgical services, laundry, blood, and laboratory services to unusual speciality care services.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(D) The obstacles or disincentives for seeking medical care from such facilities or under such programs that veterans, retirees, and dependents perceive.

(E) Any other matters that the Secretary of Defense and the Secretary of Veterans Affairs consider appropriate for the survey.

(3) The Secretary of Defense and the Secretary of Veterans Affairs shall submit a report on the results of the survey to the appropriate committees of Congress. SEC. 910. MILITARY AVIATION ACCIDENT INVESTIGATIONS.

(a) FINDINGS.—Congress makes the following findings:

(1) In February 1996, the Government Accounting Office released a report highlighting a 75 percent reduction in aviation Class A mishaps, a 70 percent reduction in aviation mishap fatalities and a 65 percent reduction in Class A mishap rates from 1975-1995 (Military Aircraft Safety—Significant Improvements since 1975).

(2) In February 1998, the Government Accounting Office completed a follow-up review of military aircraft safety, noting that the military experienced fewer serious aviation mishaps in fiscal years 1996 and 1997 than in previous fiscal years (Military Aircraft Safety: Serious Accidents Remain at Historically Low Levels).

(3) The report required by section 1046 of the National Defense Authorization Act for fiscal year 1998 (Public Law 105-85; 111 Stat. 1888) concluded, "DoD found no evidence that changing existing investigation processes to more closely resemble those of the NTSB would help DoD to find more answers more quickly, or accurately".

(4) The Department of Defense must further improve its aviation safety by fully examining all options for improving or replacing its current aviation accident investigation processes.

(5) The inter-service working group formed as a result of that report has contributed to progress in military aviation accident investigations by identifying ways to improve family assistance, as has the formal policy direction coordinated by the Office of the Secretary of Defense.

(6) Such progress includes the issuance of Air Force Instruction 90-701 entitled "Assistance to Families of Persons Involved in Air Force Aviation Mishaps", that attempts to meet the need for a more timely flow of relevant information to families, a family liaison officer, and the establishment of the Air Force Office of Family Assistance. However, formal policy directions and Air Force instructions have not adequately addressed the failure to provide primary next of kin of members of the Armed Forces involved in military aviation accidents with interim reports regarding the course of investigations into such accidents, and the Department of Defense must improve its procedures for informing the families of the persons involved in military aviation mishaps.

(7) The report referred to in paragraph (3) concluded that the Department would "bene-

fit from the disappearance of the misperception that the privileged portion of the safety investigation exists to hide unfavorable information".

(8) That report further specified that "[e]ach Military Department has procedures in place to provide redacted copies of the final [privileged] safety report to the families. However, families must formally request a copy of the final safety investigation report".

(9) Current efforts to improve family notification would be enhanced by the issuance by the Secretary of Defense of uniform regulations to improve the timeliness and reliability of information provided to the primary next of kin of persons involved in military aviation accidents during and following both the legal investigation and safety investigation phases of such investigations.

(b) EVALUATION OF DEPARTMENT OF DEFENSE AVIATION ACCIDENT INVESTIGATION PROCEDURES.—(1) The Secretary of Defense shall establish a task force to—

(A) review the procedures employed by the Department of Defense to conduct military aviation accident investigations; and

(B) identify mechanisms for improving such investigations and the military aviation accident investigation process.

(2) The Secretary shall appoint to the task force the following:

(A) An appropriate number of members of the Armed Forces, including both members of the regular components and the reserve components, who have experience relating to military aviation or investigations into military aviation accidents.

(B) An appropriate number of former members of the Armed Forces who have such experience.

(C) With the concurrence of the member concerned, a member of the National Transportation Safety Board.

(3)(A) The task force shall submit to Congress an interim report and a final report on its activities under this subsection. The interim report shall be submitted on December 1, 1998, and the final report shall be submitted on March 31, 1999.

(B) Each report under subparagraph (A) shall include the following:

(i) An assessment of the advisability of conducting all military aviation accident investigations through an entity that is independent of the military departments.

(ii) An assessment of the effectiveness of the current military aviation accident investigation process in identifying the cause of military aviation accidents and correcting problems so identified in a timely manner.

(iii) An assessment whether or not the procedures for sharing the results of military aviation accident investigations among the military departments should be improved.

(iv) An assessment of the advisability of centralized training and instruction for military aircraft investigators.

(v) An assessment of any costs or cost avoidances that would result from the elimination of any overlap in military aviation accident investigation activities conducted under the current so-called "two-track" investigation process.

(vi) Any improvements or modifications in the current military aviation accident investigation process that the task force considers appropriate to reduce the potential for aviation accidents and increase public confidence in the process.

(c) UNIFORM REGULATIONS FOR RELEASE OF INTERIM SAFETY INVESTIGATION REPORTS.—

(1)(A) Not later than May 1, 1999, the Secretary of Defense shall prescribe regulations that provide for the release to the family members of persons involved in military aviation accidents, and to members of the public, of reports referred to in paragraph (2).

(B) The regulations shall apply uniformly to each military department.

(2) A report under paragraph (1) is a report on the findings of any ongoing privileged safety investigation into an accident referred to in that paragraph. Such report shall be in a redacted form or other form appropriate to preserve witness confidentiality and to minimize the effects of the release of information in such report on national security.

(3) Reports under paragraph (1) shall be made available—

(A) in the case of family members, at least once every 30 days or upon the development of a new or significantly changed finding during the course of the investigation concerned; and

(B) in the case of members of the public, on request.

SEC. 1065. BUDGETING FOR CONTINUED PARTICIPATION OF UNITED STATES FORCES IN NATO OPERATIONS IN BOSNIA AND HERZEGOVINA.

(a) FINDINGS.—Congress makes the following findings:

(1) Funding levels in the Department of Defense budget have not been sufficient to pay for the deployment of United States ground combat forces in Bosnia and Herzegovina that began in fiscal year 1996.

(2) The Department of Defense has used funds from the operation and maintenance accounts of the Armed Forces to pay for the operations because the funding levels included in the defense budgets for fiscal years 1996 and 1997 have not been adequate to maintain operations in Bosnia and Herzegovina.

(3) Funds necessary to continue United States participation in the NATO operations in Bosnia and Herzegovina, and to replace operation and maintenance funds used for the operations, have been requested by the President as supplemental appropriations in fiscal years 1996 and 1997. The Department of Defense has also proposed to reprogram previously appropriated funds to make up the shortfall for continued United States operations in Bosnia and Herzegovina.

(4) In February 1998, the President certified to Congress that the continued presence of United States forces in Bosnia and Herzegovina after June 30, 1998, was necessary in order to meet national security interests of the United States.

(5) The discretionary spending limit established for the defense category for fiscal year 1998 in the Balanced Budget and Emergency Deficit Control Act of 1985 does not take into account the continued deployment of United States forces in Bosnia and Herzegovina after June 30, 1998. Therefore, the President requested emergency supplemental appropriations for the Bosnia and Herzegovina mission through September 30, 1998.

(6) Amounts for operations in Bosnia and Herzegovina were not included in the original budget proposed by the President for the Department of Defense for fiscal year 1999.

(7) The President requested \$1,858,600,000 in emergency appropriations in his March 4, 1998 amendment to the fiscal year 1999 budget to cover the shortfall in funding in the fiscal year 1999 for the costs of extending the mission in Bosnia.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the President should include in the budget for the Department of Defense that

the President submits to Congress under section 1105(a) of title 31, United States Code, for each fiscal year sufficient amounts to pay for any proposed continuation of the participation of United States forces in NATO operations in Bosnia and Herzegovina for that fiscal year; and

(2) amounts included in the budget for that purpose should not be transferred from amounts that would otherwise be proposed in the budget of any of the Armed Forces in accordance with the future-years defense program related to that budget, or any other agency of the Executive Branch, but, instead, should be an overall increase in the budget for the Department of Defense.

SEC. 1066. NATO PARTICIPATION IN THE PERFORMANCE OF PUBLIC SECURITY FUNCTIONS OF CIVILIAN AUTHORITIES IN BOSNIA AND HERZEGOVINA.

(a) FINDINGS.—Congress makes the following findings:

(1) The North Atlantic Treaty Organization (NATO) has approved the creation of a multi-national specialized unit of gendarmes- or para-military police composed of European security forces to help promote public security in Bosnia and Herzegovina as a part of the post-June 1998 mission for the Stabilization Force (SFOR) authorized under the United Nations Security Council Resolution 1088 (December 12, 1996).

(2) On at least four occasions, beginning in July 1997, the Stabilization Force (SFOR) has been involved, pursuant to military annex 1(A) of the Dayton Agreement, in carrying out missions for the specific purpose of detaining war criminals, and on at least one of those occasions United States forces were directly involved in carrying out the mission.

(b) SENSE OF CONGRESS.—It is the sense of Congress that United States forces should not serve as civil police in Bosnia and Herzegovina.

(c) REQUIREMENT FOR REPORT.—The President shall submit to Congress, not later than October 1, 1998, a report on the status of the NATO force of gendarmes or paramilitary police referred to in subsection (a)(1), including the mission of the force, the composition of the force, and the extent, if any, to which members of the Armed Forces of the United States are participating (or are to participate) in the force.

SEC. 1067. PILOT PROGRAM FOR REVITALIZING THE LABORATORIES AND TEST AND EVALUATION CENTERS OF THE DEPARTMENT OF DEFENSE.

(a) FINDINGS.—Congress makes the following findings:

(1) Officials of the Department of Defense are critically dependent on the science and technology laboratories and test and evaluation centers, of the department—

(A) to exploit commercial technology for unique military purposes;

(B) to develop advanced technology in precise areas;

(C) to provide the officials with objective advice and counsel on science and technology matters; and

(D) to lead the decisionmaking that identifies the most cost-effective procurements of military equipment and services.

(2) The laboratories and test and evaluation centers are facing a number of challenges that, if not overcome, could limit the productivity and self-sustainability of the laboratories and centers, including—

(A) the declining funding provided for science and technology in the technology base program of the Department of Defense;

(B) difficulties experienced in recruiting, retaining, and motivating high-quality personnel; and

(C) the complex web of policies and regulatory constraints that restrict authority of

managers to operate the laboratories and centers in a businesslike fashion.

(3) Congress has provided tools to deal with the changing nature of technological development in the defense sector by encouraging closer cooperation with industry and university research and by authorizing demonstrations of alternative personnel systems.

(4) A number of laboratories and test and evaluation centers have addressed the challenges and are employing a variety of innovative methods, such as the so-called "Federated Lab Concept" undertaken at the Army Research Laboratory, to maintain the high quality of the technical program, to provide a challenging work environment for researchers, and to meet the high cost demands of maintaining facilities that are equal or superior in quality to comparable facilities anywhere in the world.

(b) **COMMENDATION.**—Congress commends the Secretary of Defense for the progress made by the science and technology laboratories and test and evaluation centers to achieve the results described in subsection (a)(4) and encourages the Secretary to take the actions necessary to ensure continued progress for the laboratories and test and evaluation centers in developing cooperative relationships with universities and other private sector entities for the performance of research and development functions.

(c) **PILOT PROGRAM.**—(1) In conjunction with the plan for restructuring and revitalizing the science and technology laboratories and test and evaluation centers of the Department of Defense that is required by section 906 of this Act, the Secretary of Defense may carry out a pilot program to demonstrate improved cooperative relationships with universities and other private sector entities for the performance of research and development functions.

(2) Under the pilot program, the Secretary of Defense shall provide the director of one science and technology laboratory, and the director of one test and evaluation center, of each military department with authority for the following:

(A) To explore innovative methods for quickly, efficiently, and fairly entering into cooperative relationships with universities and other private sector entities with respect to the performance of research and development functions.

(B) To waive any restrictions on the demonstration and implementation of such methods that are not required by law.

(C) To develop or expand innovative methods of operation that provide more defense research for each dollar of cost, including to carry out such initiatives as focusing on the performance of core functions and adopting more business-like practices.

(3) In selecting the laboratories and centers for participation in the pilot program, the Secretary shall consider laboratories and centers where innovative management techniques have been demonstrated, particularly as documented under sections 1115 through 1119 of title 31, United States Code, relating to Government agency performance and results.

(4) The Secretary may carry out the pilot program at each selected laboratory and center for a period of three years beginning not later than March 1, 1999.

(d) **REPORTS.**—(1) Not later than March 1, 1999, the Secretary of Defense shall submit a report on the implementation of the pilot program to Congress. The report shall include the following:

(A) Each laboratory and center selected for the pilot program.

(B) To the extent possible, a description of the innovative concepts that are to be tested at each laboratory or center.

(C) The criteria to be used for measuring the success of each concept to be tested.

(2) Promptly after the expiration of the period for participation of a laboratory or center in the pilot program, the Secretary of Defense shall submit to Congress a final report on the participation of the laboratory or center in the pilot program. The report shall contain the following:

(A) A description of the concepts tested.

(B) The results of the testing.

(C) The lessons learned.

(D) Any proposal for legislation that the Secretary recommends on the basis of the experience at the laboratory or center under the pilot program.

SEC. 1068. SENSE OF CONGRESS REGARDING THE HEROISM, SACRIFICE, AND SERVICE OF FORMER SOUTH VIETNAMESE COMMANDOS IN CONNECTION WITH UNITED STATES ARMED FORCES DURING THE VIETNAM CONFLICT.

(1) South Vietnamese commandos were recruited by the United States as part of OPLAN 34A or its predecessor or OPLAN 35 from 1961 to 1970.

(2) The commandos conducted covert operations in North Vietnam during the Vietnam conflict.

(3) Many of the commandos were captured and imprisoned by North Vietnamese forces, some for as long as 20 years.

(4) The commandos served and fought proudly during the Vietnam conflict.

(5) Many of the commandos lost their lives serving in operations conducted by the United States during the Vietnam conflict.

(6) Many of the Vietnamese commandos now reside in the United States.

SEC. 1069. SENSE OF THE SENATE REGARDING DECLASSIFICATION OF CLASSIFIED INFORMATION OF THE DEPARTMENT OF DEFENSE AND THE DEPARTMENT OF ENERGY.

It is the sense of the Senate that the Secretary of Defense and the Secretary of Energy should submit to Congress a request for funds in fiscal year 2000 for activities relating to the declassification of information under the jurisdiction of such Secretaries in order to fulfill the obligations and commitments of such Secretaries under Executive Order No. 12958 and the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) and to the stakeholders.

SEC. 1070. RUSSIAN NONSTRATEGIC NUCLEAR WEAPONS.

(a) **SENSE OF THE SENATE.**—It is the sense of the Senate that—

(1) the 7,000 to 12,000 or more nonstrategic (or "tactical") nuclear weapons estimated by the United States Strategic Command to be in the Russian arsenal may present the greatest threat of sale or theft of a nuclear warhead in the world today;

(2) as the number of deployed strategic warheads in the Russian and United States arsenals declines to just a few thousand under the START accords, Russia's vast superiority in tactical nuclear warheads—many of which have yields equivalent to strategic nuclear weapons—could become strategically destabilizing;

(3) while the United States has unilaterally reduced its inventory of tactical nuclear weapons by nearly 90 percent since the end of the Cold War, Russia is behind schedule in implementing the steep tactical nuclear arms reductions pledged by former Soviet President Gorbachev in 1991 and Russian President Yeltsin in 1992, perpetuating the dangers from Russia's tactical nuclear stockpile; and

(4) the President of the United States should call on the Russian Federation to expedite reduction of its tactical nuclear arsenal in accordance with the promises made in 1991 and 1992.

(b) **REPORT.**—Not later than March 15, 1999, the Secretary of Defense shall submit to the Congress a report on Russia's nonstrategic nuclear weapons, including—

(1) estimates regarding the current numbers, types, yields, viability, and locations of such warheads;

(2) an assessment of the strategic implications of the Russian Federation's nonstrategic arsenal, including the potential use of such warheads in a strategic role or the use of their components in strategic nuclear systems;

(a) **FINDINGS.**—The Senate finds that—

(1) on May 11 and 13, 1998, the Government of India conducted a series of underground nuclear tests;

(2) on May 28 and 30, 1998, the Government of Pakistan conducted a series of underground nuclear tests;

(3) although not recognized or accepted as such by the United Nations Security Council, India and Pakistan have declared themselves nuclear weapon states;

(4) India and Pakistan have conducted extensive nuclear weapons research over several decades, resulting in the development of nuclear capabilities and the potential for the attainment of nuclear arsenals and the dangerous proliferation of nuclear weaponry;

(5) India and Pakistan have refused to enter into internationally recognized nuclear non-proliferation agreements, including the Comprehensive Test Ban Treaty, the Treaty on the Non-Proliferation of Nuclear Weapons, and full-scope safeguards agreements with the International Atomic Energy Agency;

(6) India and Pakistan, which have been at war with each other 3 times in the past 50 years, have urgent bilateral conflicts, most notably over the disputed territory of Kashmir;

(7) the testing of nuclear weapons by India and Pakistan has created grave and serious tensions on the Indian subcontinent; and

(8) the United States response to India and Pakistan's nuclear tests has included the imposition of wide-ranging sanctions as called for under the Arms Export Control Act and the Nuclear Proliferation Prevention Act of 1994.

(b) **SENSE OF SENATE.**—The Senate—

(1) strongly condemns the decisions by the governments of India and Pakistan to conduct nuclear tests in May 1998;

(2) supports the President's decision to carry out the provisions of the Nuclear Proliferation Prevention Act of 1994 with respect to India and Pakistan and invoke all sanctions in that Act;

(3) calls upon members of the international community to impose similar sanctions against India and Pakistan to those imposed by the United States;

(4) calls for the governments of India and Pakistan to commit not to conduct any additional nuclear tests;

(5) urges the governments of India and Pakistan to take immediate steps, bilaterally and under the auspices of the United Nations, to reduce tensions between them;

(8) calls upon the President to seek a diplomatic solution between the governments of India and Pakistan to promote peace and stability in South Asia and resolve the current impasse;

(9) encourages United States leadership in assisting the governments of India and Pakistan to resolve their 50-year conflict over the disputed territory in Kashmir;

(10) urges India and Pakistan to take immediate, binding, and verifiable steps to roll back their nuclear programs and come into compliance with internationally accepted norms regarding the proliferation of weapons of mass destruction; and

(11) urges the United States to reevaluate its bilateral relationship with India and Pakistan, in light of the new regional security realities in South Asia, with the goal of preventing further nuclear and ballistic missile proliferation, diffusing long-standing regional rivalries between India and Pakistan, and securing commitments from them which, if carried out, could result in a calibrated lifting of United States sanctions imposed under the Arms Export Control Act and the Nuclear Proliferation Prevention Act of 1994.

SEC. 1072. SENSE OF CONGRESS REGARDING CONTINUED PARTICIPATION OF UNITED STATES FORCES IN OPERATIONS IN BOSNIA AND HERZEGOVINA.

(a) FINDINGS.—Congress makes the following findings:

(1) The contributions of the people of the United States and other nations have, in large measure, resulted in the suspension of fighting and alleviated the suffering of the people of Bosnia and Herzegovina since December 1995.

(2) the people of the United States have expended approximately \$9,500,000,000 in tax dollars between 1992 and mid-1998 just in support of the United States military operations in Bosnia to achieve those results.

(3) Efforts to restore the economy and political structure in Bosnia and Herzegovina have achieved some success in accordance with the Dayton Agreement.

(4) In February 1998, the President certified to Congress that the continued presence of United States forces in Bosnia and Herzegovina after June 30, 1998, was necessary in order to meet national security interests of the United States.

(5) There is, however, no accurate estimate of the time needed to accomplish the civilian implementation tasks outlined in the Dayton Agreement.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) United States ground combat forces should not remain in Bosnia and Herzegovina indefinitely in view of the world-wide commitments of the Armed Forces of the United States;

(2) the President should work with NATO allies and the other nations whose military

forces are participating in the NATO-led Stabilization Force to withdraw United States ground combat forces from Bosnia and Herzegovina within a reasonable period of time, consistent with the safety of those forces and the accomplishment of the Stabilization Force's military tasks;

(3) a NATO-led force without the participation of United States ground combat forces in Bosnia and Herzegovina might be suitable for a follow-on force for Bosnia and Herzegovina if the European Security and Defense Identity is not sufficiently developed or is otherwise considered inappropriate for such a mission;

(4) the United States may decide to provide appropriate support to a Western European Union-led or NATO-led follow-on force for Bosnia and Herzegovina, including command and control, intelligence, logistics, and, if necessary, a ready reserve force in the region;

(5) the President should inform the European NATO allies of this expression of the sense of Congress and should strongly urge them to undertake preparations for establishing a Western European Union-led or a NATO-led force as a follow-on force to the NATO-led Stabilization Force if needed to maintain peace and stability in Bosnia and Herzegovina; and

(6) the President should consult closely with the congressional leadership and the congressional defense committees with respect to the progress being made toward achieving a sustainable peace in Bosnia and Herzegovina and the progress being made toward a reduction and ultimate withdrawal of United States ground combat forces from Bosnia and Herzegovina.

(c) ONE-TIME REPORTS.—The President shall submit to Congress the following reports:

(1) Not later than September 30, 1998, a report containing a discussion of the likely impact on the security situation in Bosnia and Herzegovina and on the prospects for establishing self-sustaining peace and stable local government there that would result from a phased reduction in the number of United States military personnel stationed in Bosnia and Herzegovina under the following alternatives:

(A) A phased reduction to 5,000 by February 2, 1999, to 3,500 by June 30, 1999, and to 2,500 by February 2, 2000.

(B) A phased reduction by February 2, 2000, to the number of personnel that is approximately equal to the mean average of—

(i) the number of military personnel of the United Kingdom that are stationed in Bosnia and Herzegovina on that date;

(ii) the number of military personnel of Germany that are stationed there on that date;

(iii) the number of military personnel of France that are stationed there on that date; and

(iv) the number of military personnel of Italy that are stationed there on that date.

(2) Not later than October 1, 1998, a report on the status of the NATO force of gendarmes or paramilitary police referred to in subsection (a)(1), including the mission of the force, the composition of the force, and the extent, if any, to which members of the Armed Forces of the United States are participating (or are to participate) in the force.

(d) REPORT TO ACCOMPANY EACH REQUEST FOR FUNDING.—(1) Each time that the President submits to Congress a proposal for funding continued operations of United States forces in Bosnia and Herzegovina, the President shall submit to Congress a report on the missions of United States forces there. The first report shall be submitted at the same time that the President submits the budget

for fiscal year 2000 to Congress under section 1105(a) of title 31, United States Code.

(2) Each report under paragraph (1) shall include the following:

(A) The performance objectives and schedule for the implementation of the Dayton Agreement, including—

(i) the specific objectives for the reestablishment of a self-sustaining peace and a stable local government in Bosnia and Herzegovina, taking into account (I) each of the areas of implementation required by the Dayton Agreement, as well as other areas that are not covered specifically in the Dayton Agreement but are essential for reestablishing such a peace and local government and to permitting an orderly withdrawal of the international peace implementation force from Bosnia and Herzegovina, and (II) the benchmarks reported in the latest semi-annual report submitted under section 7(b)(2) of the 1998 Supplemental Appropriations and Rescissions Act (revised as necessary to be current as of the date of the report submitted under this subsection); and

(ii) the schedule, specified by fiscal year, for achieving the objectives.

(B) The military and non-military missions that the President has directed for United States forces in Bosnia and Herzegovina in support of the objectives identified pursuant to paragraph (1), including a specific discussion of—

(i) the mission of the United States forces, if any, in connection with the pursuit and apprehension of war criminals;

(ii) the mission of the United States forces, if any, in connection with civilian police functions;

(iii) the mission of the United States forces, if any, in connection with the resettlement of refugees; and

(iv) the missions undertaken by the United States forces, if any, in support of international and local civilian authorities.

(C) An assessment of the risk for the United States forces in Bosnia and Herzegovina, including, for each mission identified pursuant to subparagraph (B), the assessment of the Chairman of the Joint Chiefs of Staff regarding the nature and level of risk of the mission for the safety and well-being of United States military personnel.

(D) An assessment of the cost to the United States, by fiscal year, of carrying out the missions identified pursuant to subparagraph (B) for the period indicated in the schedule provided pursuant to subparagraph (A).

(E) A joint assessment by the Secretary of Defense and the Secretary of State of the status of planning for—

(i) the assumption of all remaining military missions inside Bosnia and Herzegovina by European military and paramilitary forces; and

(ii) the establishment and support of forward-based United States rapid response force outside of Bosnia and Herzegovina that would be capable of deploying rapidly to defeat military threats to a European follow-on force inside Bosnia and Herzegovina, and of providing whatever logistical, intelligence, and air support is needed to ensure that a European follow-on force is fully capable of accomplishing its missions under the Dayton Agreement.

(e) DAYTON AGREEMENT DEFINED.—In this section, the term "Dayton Agreement" means the General Framework Agreement for Peace in Bosnia and Herzegovina, together with annexes relating thereto, done at Dayton, November 10 through 16, 1995.

(5) The Georgian Security and Interior Ministries presented information to the Russian Interior Ministry on November 13, 1996; January 17, 1997; March 7, 1997; March 24, 1997 and August 12, 1997, which included the exact location in Moscow of where Lieutenant General Giorgadze's family lived, the exact location where Lieutenant General Giorgadze lived outside of Moscow in a dacha of the Russian Ministry of Defense; as well as the changing official Russian government license tag numbers and description of the automobile that Lieutenant General Giorgadze uses; the people he associates with; the apartments he visits, and the places including restaurants, markets, and companies, that he frequents.

(6) On May 12, 1998, the Moscow-based Russian newspaper Zavrta carried an interview with Lieutenant General Giorgadze in which Lieutenant General Giorgadze calls for the overthrow of the Government of Georgia.

(7) Title II of the Foreign Operations Appropriations, Export Financing, and Related Programs Appropriations Act, 1998 (Public Law 105-118) prohibits assistance to any government of the new independent states of the former Soviet Union if that government directs any action in violation of the national sovereignty of any other new independent state.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that the Secretary of Defense should—

(2) request cooperation from the Minister of Defense of the Russian Federation and the Government of the Russian Federation to ensure that Russian military bases on Georgian territory are no longer used to facilitate the escape of assassins seeking to kill the freely elected President of Georgia and to otherwise respect the national sovereignty of Georgia; and

TITLE XII—JOINT WARFIGHTING EXPERIMENTATION

SEC. 1201. FINDINGS.

Congress makes the following findings:

(1) The collapse of the Soviet Union in 1991 and the unprecedented explosion of technological advances that could fundamentally redefine military threats and military capabilities in the future have generated a need to assess the defense policy, strategy, and force structure necessary to meet future defense requirements of the United States.

(2) The assessment conducted by the administration of President Bush (known as the "Base Force" assessment) and the assessment conducted by the administration of President Clinton (known as the "Bottom-Up Review") were important attempts to redefine the defense strategy of the United States and the force structure of the Armed Forces necessary to execute that strategy.

(3) Those assessments have become inadequate as a result of the pace of global geopolitical change and the speed of technological change, which have been greater than expected.

(4) The Chairman of the Joint Chiefs of Staff reacted to the changing environment by developing and publishing in May 1996 a vision statement, known as "Joint Vision 2010", to be a basis for the transformation of United States military capabilities. The vision statement embodies the improved intelligence and command and control that is available in the information age and sets forth the operational concepts of dominant maneuver, precision engagement, full-dimensional protection, and focused logistics to achieve the objective of full spectrum dominance.

(5) In 1996 Congress, concerned about the shortcomings in defense policies and programs derived from the Base-Force Review and the Bottom-Up Review, determined that there was a need for a new, comprehensive assessment of the defense strategy of the United States and the force structure of the Armed Forces necessary for meeting the threats to the United States in the 21st century.

(6) As a result of that determination, Congress passed the Military Force Structure Review Act of 1996 (subtitle B of title IX of the National Defense Authorization Act for Fiscal Year 1997), which required the Secretary of Defense to complete in 1997 a quadrennial defense review of the defense program of the United States. The review was required to include a comprehensive examination of the defense strategy, force structure, force modernization plans, infrastructure, and other elements of the defense program and policies with a view toward determining and expressing the defense strategy of the United States and establishing a revised defense program through 2005. The Act also established a National Defense Panel to assess the Quadrennial Defense Review and to conduct an independent, nonpartisan review of the strategy, force structure, and funding required to meet anticipated threats to the national security of the United States through 2010 and beyond.

(7) The Quadrennial Defense Review, completed by the Secretary of Defense in May 1997, defined the defense strategy in terms of "Shape, Respond, and Prepare Now". The Quadrennial Defense Review placed greater emphasis on the need to prepare now for an uncertain future by exploiting the revolution in technology and transforming the force toward Joint Vision 2010. It concluded that our future force will be different in character than our current force.

(8) The National Defense Panel Report, published in December 1997, concluded that "the Department of Defense should accord the highest priority to executing a transformation strategy for the United States military, starting now." The panel recommended the establishment of a Joint Forces Command with the responsibility to be the joint force integrator and provider and the responsibility for driving the process for transforming United States forces, including the conduct of joint experimentation, and to have the budget for carrying out those responsibilities.

(9) The assessments of both the Quadrennial Defense Review and the National Defense Panel provide Congress with a compelling argument that the future security environment and the military challenges to be faced by the United States in the future will be fundamentally different than the current environment and challenges. The assessments also reinforce the foundational premise of the Goldwater-Nichols Department of Defense Reorganization Act of 1986 that warfare, in all of its varieties, will be joint warfare requiring the execution of developed joint operational concepts.

(10) A process of joint experimentation is necessary for—

(A) integrating advances in technology with changes in the organizational structure of the Armed Forces and the development of joint operational concepts that will be effective against national security threats anticipated for the future; and

(B) identifying and assessing the interdependent aspects of joint warfare that are key for transforming the conduct of military operations by the United States to meet those anticipated threats successfully.

(11) It is critical for future readiness that the Armed Forces of the United States innovatively investigate and test technologies, forces, and joint operational concepts in simulations, wargames, and virtual settings, as well as in field environments under realistic conditions against the full range of future challenges. It is essential that an energetic and innovative organization be established and empowered to design and implement a process of joint experimentation to develop and validate new joint warfighting concepts, along with experimentation by the Armed Forces, that is directed at transforming the Armed Forces to meet the threats to the national security that are anticipated for the early 21st century. That process will drive changes in doctrine, organization, training and education, materiel, leadership, and personnel.

(12) The Department of Defense is committed to conducting aggressive experimentation as a key component of its transformation strategy.

(13) The competition of ideas is critical for achieving effective transformation. Experimentation by each of the Armed Forces has been, and will continue to be, a vital aspect of the pursuit of effective transformation. Joint experimentation leverages the effectiveness of each of the Armed Forces and the Defense Agencies.

SEC. 1202. SENSE OF CONGRESS.

(a) DESIGNATION OF COMMANDER TO HAVE JOINT WARFIGHTING EXPERIMENTATION MIS-

SION.—It is the sense of Congress that Congress supports the initiative of the Secretary of Defense and the Chairman of the Joint Chiefs of Staff to designate a commander of a combatant command to have the mission for joint warfighting experimentation, consistent with the understanding of Congress that the Chairman of the Joint Chiefs of Staff will assign the designated commander the tasks to develop and validate new joint warfighting concepts and capabilities, and to determine the implications, for doctrine, organization, training and education, materiel, leadership, and personnel, of the Department of Defense strategy for transforming the Armed Forces to meet the national security threats of the future.

(b) RESOURCES OF COMMANDER.—It is, further, the sense of Congress that the commander designated to have the joint warfighting experimentation mission should—

(1) have sufficient freedom of action and authority over the necessary forces to successfully establish and conduct the process of joint warfighting experimentation;

(2) be provided resources adequate for the joint warfighting experimentation process; and

(3) have authority over the use of the resources for the planning, preparation, conduct, and assessment of joint warfighting experimentation.

(c) AUTHORITY AND RESPONSIBILITIES OF COMMANDER.—It is, further, the sense of Congress that, for the conduct of joint warfighting experimentation to be effective, it is necessary that the commander designated to have the joint warfighting experimentation mission also have the authority and responsibility for the following:

(1) Developing and implementing a process of joint experimentation to formulate and validate concepts critical for joint warfighting in the future, including (in such process) analyses, simulations, wargames, information superiority and other experiments, advanced concept technology demonstrations, and joint exercises conducted in virtual and actual field environments.

(2) Planning, preparing, and conducting the program of joint warfighting experimentation.

(3) Assessing the effectiveness of organizational structures, operational concepts, and technologies employed in joint experimentation, investigating opportunities for coordinating the evolution of the organizational structure of the Armed Forces compatibly with the concurrent evolution of advanced technologies, and investigating new concepts for transforming joint warfighting capabilities to meet the operational challenges expected to be encountered by the Armed Forces in the early 21st century.

(4) Coordinating with each of the Armed Forces and the Defense Agencies regarding the development of the equipment (including surrogate or real technologies, platforms, and systems) necessary for the conduct of joint experimentation, or, if necessary, developing such equipment directly.

(5) Coordinating with each of the Armed Forces and the Defense Agencies regarding the acquisition of the materiel, supplies, services, and surrogate or real technology resources necessary for the conduct of joint experimentation, or, if necessary, acquiring such items and services directly.

(6) Developing scenarios and measures of effectiveness for joint experimentation.

(7) Conducting so-called "red team" vulnerability assessments as part of joint experimentation.

(8) Assessing the interoperability of equipment and forces.

(9) Providing the Secretary of Defense and the Chairman of the Joint Chiefs of Staff

with the commander's recommendations (developed on the basis of joint experimentation) for reducing unnecessary redundancy of equipment and forces.

(10) Providing the Secretary of Defense and the Chairman of the Joint Chiefs of Staff with the commander's recommendations (developed on the basis of joint experimentation) regarding synchronization of the fielding of advanced technologies among the Armed Forces to enable the development and execution of joint operational concepts.

(11) Submitting, reviewing, and making recommendations (in conjunction with the joint experimentation and evaluation process) to the Chairman of the Joint Chiefs of Staff on mission needs statements and operational requirements documents.

(12) Exploring new operational concepts (including those developed within the Office of the Secretary of Defense and Defense Agencies, other unified commands, the Armed Forces, and the Joint Staff), and integrating and testing in joint experimentation the systems and concepts that result from warfighting experimentation by the Armed Forces and the Defense Agencies.

(13) Developing, planning, refining, assessing, and recommending to the Secretary of Defense and the Chairman of the Joint Chiefs of Staff the most promising joint concepts and capabilities for experimentation and assessment.

(14) Assisting the Secretary of Defense and the Chairman of the Joint Chiefs of Staff to prioritize joint requirements and acquisition programs on the basis of joint warfighting experimentation.

(d) CONTINUED EXPERIMENTATION BY OTHER DEFENSE ORGANIZATIONS.—It is, further, the sense of Congress that—
