(3) each local educational agency should give serious consideration to using a portion of the funds made available under section 101 to develop and implement a method for evaluating each individual teacher's ability to provide the appropriate instruction in the classroom; and

(4) each local educational agency is encouraged to give consideration to providing monetary rewards to teachers by developing a compensation system that supports teachers who become increasingly expert in a subject area, are proficient in meeting the needs of students and schools, and demonstrate high levels of performance measured against professional teaching standards, and that will encourage teachers to continue to learn needed skills and broaden the teachers' expertise, thereby enhancing education for all students.
