

When Heidi, Amber and Sara decided to run for ASB 3 years ago, they were required to complete a rigorous process; the election, itself, is far from a popularity contest. Candidates must maintain a 3.0 grade point average, get letters of recommendation, write a statement explaining why they want to serve, and complete a personal interview. In addition, each candidate must give a speech in front of their peers before they are selected.

For most students between the ages of 10 and 13, let alone many adults, this would seem like much too much work just to plan student activities at the school. Most remarkable is that Heidi, Amber and Sara completed this process three straight years and were successful. According to Patti Stueland, the activities Director at Vista Campana Middle School, "They are my first and only officers up to this point to be a bulldog ASB Officer for all three years they have attended V.C.M.S."

In the 3 years that they served, these young ladies helped create and develop school assemblies, noon-time activities, school dances, spirit rallies, staff appreciation days, sold dance tickets, served as tour guides for school visitors, and publicized school events through the school bulletin. In addition, they have presented student body activities to the Parent, Teacher, Student Organization, at monthly staff meetings, and school board meetings. In these, and many more activities, Heidi, Amber and Sara all demonstrated tremendous leadership skills through public speaking and working with the local community. As a result of the work of these students, Vista Campana Middle School is recognized for having one of the most outstanding student activity organizations in the high desert.

Mr. Speaker, I ask that you join me and our colleagues in recognizing the remarkable commitment and tremendous contributions of these three fine young ladies. Heidi Cuyler, Amber Larrison and Sara Trudeau have made a wonderful difference in the lives of those in their school and local community and it is only fitting that the House of Representatives recognize them today.

#### IN RECOGNITION OF BILL ERWIN

### HON. KEVIN BRADY

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 27, 1999*

Mr. BRADY of Texas. Mr. Speaker, I am proud to rise in recognition of a very special person to Bryan-College Station, Texas—a unique leader, Mr. Bill Erwin.

Not only recognized as a significant contributor to the community of the Eighth District of Texas, Bill is somewhat of a celebrity in the Bryan-College Station area. In fact, he has been supporting volunteer services in the Bryan-College Station area for thirty-five years. It is for these efforts that the Governor of the State of Texas awarded Bill with the Lonestar Achievement Award for his volunteerism and community service last month. I think his own words speak volumes for the attitude that won him this recognition. Upon hearing the news, Bill said, "this will be great for the community"—and great for the community he is.

Elected as the Volunteer of the Year and the Citizen of the Year by the Bryan-College Station Chamber of Commerce, he remains dedicated to bettering the community in which he lives, thus bettering the world. His list of credentials include serving as president for a number of non-profit organizations in the area, such as the United Way, Chamber of Commerce, Better Business Bureau, the Boys' and Girls' Clubs of the Brazos Valley, the Brazos Chapter of the Texas Manufacturers Association and the St. Joseph Foundation. It was said by Christine Shakespeare of the Texas Commission on Volunteerism and Community Service that the judges said "it was so amazing that whenever he identified a need he went to work to resolve it and that he didn't

stop to wonder who was going to get credit for it" and that they were "honored to give this award to him because of the amount of work he has done."

Mr. Speaker, I commend Bill Erwin and those like him that take the time to give back to their communities more than they take for themselves. I, as well as the citizens of Bryan-College Station, applaud Bill for his tireless dedication and perseverance to serving this remarkable community. He has set an example for us all to follow.

#### INTRODUCTION OF THE DIGITAL SIGNATURE ACT OF 1999

### HON. BART GORDON

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, April 27, 1999*

Mr. GORDON. Mr. Speaker, today I am pleased to introduce the Digital Signature Act of 1999. The purpose of this legislation is to require the National Institute of Standards and Technology (NIST) to develop minimum technical standards and guidelines for Federal agencies to follow when deploying digital signature technologies. In addition, the legislation authorizes the Under Secretary of Commerce for Technology to establish a National Policy Panel for Digital Signatures to explore the factors associated with the development of a National Digital Signature Infrastructure based on uniform standards to enable the widespread utilization of digital signature systems in the private sector.

I want to make clear that this legislation is technology neutral. Rather it encourages federal agencies to use uniform criteria in deploying digital signature technology and to ensure that their system are interoperable. It also encourages agencies to use commercial-off-the-shelf software (COTS) whenever possible to meet their needs.

By now, we are all aware of how the Internet is revolutionizing telecommunications and the business world. In less than ten years, the Internet has grown from a network linking a small, self-proscribed group of scientists to a telecommunication network linking millions of people around the world. The potential uses of the Internet seem unlimited. One of the most rapidly growing areas in electronic commerce. Statistics indicate electronic commerce was an \$8 billion industry in 1998. Analysts now expect electronic commerce to explode into a \$108 billion industry by 2003.

When the Internet was first developed, virtually all users were known to each other or they were easily identifiable. However, with the rapid growth of the Internet we have lost the ability to actually "know" who we are communicating with is who they say they are. In order to exchange sensitive documents or to do business transactions with confidence it is important that an electronic authentication system is developed through which both the sender and recipient can be uniquely identified. One type of electronic authentication which is both secure and provides unique identification of the sender and recipient of messages is asymmetric cryptography, commonly referred to as a digital signature.

I am not alone in my belief that digital signatures are a key element in the continuing growth of electronic commerce. The European
