MONTELLO STUDENTS SPACE  
SEED PROJECT ON SPACE SHUTTLE  
DISCOVERY

**HON. THOMAS E. PETRI**

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

*Monday, May 24, 1999*

Mr. PETRI. Mr. Speaker, this past year, students from Montello, Wisconsin worked on a project that entailed an international experiment which was included on last fall's historic Discovery space shuttle flight.

The experiment involved vials of lettuce seeds from Wisconsin and chicory seeds from Italy being subjected to micro gravity, extreme heat and cold during the NASA flight. While in space, the project was tended by astronaut John Glenn. The seeds are being studied to determine the effects of space travel. Early results indicated that the space seeds did as well as the control seeds despite not being fertilized. This unexpected finding could have far-reaching implications for the environment.

The school-wide project included students of different ages and the central theme allowed all types of classes to be involved, such as English, history, and agriculture. The seed project, "Growing Montello Transglobally" is a joint effort with students from the Il Montello region of Italy. The students communicated over the Internet using an Italian translator program.

During a visit to Montello High in January, I had the opportunity to discuss the project with the students and was impressed by their interests and abilities. I toured classes where students had participated in computer portions of the project, from sharing and tracking information with their sister school in Montello, Italy, to downloading and sending digital photo-

graphs. I was also impressed by a video documentary of the project and related activities that was made in conjunction with the Experimental Aircraft Association (EAA).

The Wisconsin students were able to go to Florida to view the Discovery launch in October. They raised their own money for the trip through a variety of fund-raisers which included selling cookies and T-shirts and hosting a spaghetti dinner.

Seventh and eighth grade students in the Montello School system are co-authoring a children's picture book. The students developed their own ideas for the characters, plot, settings, and illustrations featuring children from Montello, Italy and Montello, Wisconsin. The book will feature NASA projects as seen from the children's perspective. They will be submitting the book to a professional publisher. A literacy quilt was created to highlight the success of the NASA Project.

Catherine Ellenbecker, teacher, has been asked to have the students do a multimedia presentation on the seed project at the Naval Academy in Annapolis in September.

The time and effort the students of Montello, Wisconsin and Il Montello of Italy put into this project was phenomenal and their achievements and successes should be recognized. I believe these students deserve a full measure of praise for all they have accomplished.

A TRIBUTE TO DR. MICHAEL G.  
WEISS

**HON. JERRY LEWIS**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Monday, May 24, 1999*

Mr. LEWIS of California. Mr. Speaker, I would like to bring to your attention today the fine work and outstanding contributions of Dr. Michael G. Weiss. Congregation Emanu El of San Bernardino, CA, will honor Dr. Weiss on June 5 as this year's recipient of the Rabbi Norman F. Feldheim Award for distinguished service to the congregation and community. He will be recognized at a dinner dance which will also commemorate the 108th anniversary of the chartering of the congregation.

The Norman F. Feldheim Award was established to pay tribute to those members of Congregation Emanu El who have, in their own lives, reflected Rabbi Feldheim's qualities of love for and loyalty to the synagogue, service to the community, as well as evidencing personal traits of humility, loving kindness, care, and love. Dr. Weiss has been a particularly devoted leader of Congregation Emanu El through his 10-year service as a member of the board of directors as well as treasurer, vice president, and, from 1996-98, president of the congregation. Over the years, Dr. Weiss has been a tremendous inspiration to others through his love for Judaism and his commitment and devotion to the synagogue.

Dr. Weiss is also a widely recognized and highly respected member of the faculty of the Department of Psychology at California State University at San Bernardino. He is a psychotherapist in private practice as well as a consultant to numerous mental health facilities throughout the Inland Empire. A prolific author, Dr. Weiss has conducted research and written extensively on parenting, sexual awareness, and foster parenting.

Dr. Weiss has also given generously of his time to numerous civic and community-based organizations including Mothers Against Sexual Abuse, San Bernardino Child Advocacy Program, the Children's Network of San Bernardino County, and the Center for Counseling and Parenting. In addition, he has been particularly active as an educator before numerous civic, religious, and professional groups at the local and national level.

Mr. Speaker, I ask that you join me and our colleagues in recognizing the tremendous contributions of Dr. Michael Weiss as he is presented with the Rabbi Norman F. Feldheim Award. Dr. Weiss, along with his wife, Ellen, and children, Emily and Zachary, provide an outstanding example of faith and family. It is especially appropriate that this honor is being bestowed at a ceremony also marking the 108th anniversary of the founding of Congregation Emnuu El.
