

Wednesday of the month, at 7:00 p.m., at the St. Stanislaus Polish Home, Three Rivers.

In order to keep our treasury healthy we hold one big raffle a year during the winter. Our members are to be commended for their enthusiastic response for contributions of prizes and selling of our raffle tickets.

Past presidents: *Anna Rusek, *Mary Jajuga, *Sophie Zerdecki, *Nellie Motyka, *Anna Kulig, *Julie Midura, *Stephanie Kolbusz, Genevieve Janosz, and Edna Pytka. (* deceased)

Officers—Year 1999: Helen Grzywna, President; Debra A. Geoffron, Vice President; Betty Brozek, Treasurer; Sophie J. Valtelhas, Recording Secretary and Publicity; Phyllis Misiaszek, Financial Secretary; and Alice Pilch and Sophie Walulak, Auditors.

Helen Grzywna has been president for twenty-eight years and the club has progressed under her leadership in many projects and causes too numerous to mention.

The spirit that brought together in 1924 those fifty-nine courageous women is still carried on today. Teamwork is an important part of our organization and each member's contribution is highly valued. We are proud of our beginnings and of what we have accomplished since 1924 and as we commemorate this 75th anniversary we will continue our tradition of exemplary dedication and service to our religious, civic, political, and community establishments.

75TH ANNIVERSARY PROGRAM

Our 75th anniversary will be celebrated on Sunday, June 27, 1999, starting with a Thanksgiving Mass at 11:00 a.m. in the Saints Peter and Paul Church in Three Rivers. Our pastor, Reverend Stefan J. Niemczyk, will be celebrant, assisted by Reverend Mr. Edward Tenczar, concelebrant. Immediately after Mass, we will gather at the church's Parish Center for a 1:00 p.m. dinner catered by Tony and Penny. President Helen Grzywna will welcome everyone and then turn the program over to Toastmistress Mary E. Rusiecki, past president of the Massachusetts Federation of Polish Women's Clubs, Inc., who will have the honor of introducing the head table, officers, past presidents, and guests. The invocation will be given by Reverend Stefan J. Niemczyk. Greetings and best wishes will be given by Patricia C. Donovan, Board of Selectmen, Town of Palmer; Richard E. Neal, Second Congressional District Representative in U.S. Congress; Stephen M. Brewer, our State Senator, Worcester, Franklin, Hampden, and Hampshire District; Reed V. Hillman, Representative in General Court, First Hampden District; Pauline Dziembowski, President of the Massachusetts Federation of Polish Women's Clubs, Inc., and Christine Wurszt, Vice-president of District V, MFPWC. Principal Address will be by our member Suzanne Strempek-Shea. Author—Topic Our Counterpart 75 Years Ago. The St. Cecelia Choir under the direction of Michael Rheault, Organist and director of Music, at Saints Peter and Paul Church, will entertain us with their music. One of the songs they will sing is Polish Pride—Pope John Paul II (composed by Fred Brozek/music by Stephen Lebida). Barbara Marcinkiewicz will sing the American National Anthem and the Polish National Anthem to start our program and at the close of the program she will lead the audience in singing God Bless America and Boze Cos Polske. Reverend Mr. Edward Tenczar will give the benediction.

ALTERNATIVE MINIMUM TAX REFORM

HON. J.D. HAYWORTH

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 23, 1999

Mr. HAYWORTH. Mr. Speaker, today I am introducing legislation that will reform the alternative minimum tax (AMT) and mitigate its devastating impact on America's industries. My bill, which would help all types of businesses that are locked in the AMT, has attracted the support of firms in the mining, steel, oil and gas, paper, coal, building, and printing industries, among others.

The corporate AMT was conceived as a way of ensuring that companies with economic income also paid some income tax. Unfortunately, the AMT has a perverse effect on companies that make large capital investments in plants and equipment but suffer from low prices for their output. Frequently, these businesses make commodity products that have small profit margins and are subject to intense international competition. Start-up businesses and rapidly growing companies whose profit margins may be slim in relation to their investment are also affected by the AMT. Extractive industries are another example of those locked into the AMT. And companies in a loss position must routinely borrow money to pay their AMT, even though they have no economic income.

Once in the AMT, a corporation often has problems getting back into the "regular tax" and then using up the AMT credits accumulated during its time in the AMT. My legislation aims to end this vicious cycle by allowing companies that have AMT credits that are more than three years old to use their AMT credits to offset up to 50 percent of their tentative minimum tax. For firms that are currently of the AMT but carry AMT credit balances, the bill would increase the amount of credits they are able to use currently. Finally, for companies in an AMT loss position in the current and two prior years, the bill would permit a 10-year AMT loss carryback.

As Congress moves forward on tax relief legislation, it is imperative that we keep in mind the fiscal problems of our nation's basic industries. AMT relief is critical for long-term AMT taxpayers, and I urge my colleagues to join in this important and timely effort.

INTRODUCTION OF THE BINATIONAL GREAT LAKES-SEAWAY ENHANCEMENT ACT OF 1999

HON. JAMES L. OBERSTAR

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, June 23, 1999

Mr. OBERSTAR. Mr. Speaker, today, I am introducing legislation, the Binational Great Lakes-Seaway Enhancement Act of 1999, to improve the competitiveness of the Great Lakes-St. Lawrence Seaway system and restore its vitality.

This coming Sunday will mark the 40th anniversary of the opening of the St. Lawrence Seaway. The Great Lakes-St. Lawrence Seaway system is a vital transportation corridor for the United States. The Seaway connects the

Great Lakes with the Atlantic Ocean and makes it possible to ship manufactured products from our industrial Midwest and grains from the Upper Plains directly to overseas markets. Benefits of efficient operations of this transportation route are not limited to the Great Lakes region but extend throughout the United States. Congress recognized the broader impacts and, accordingly, designated the Great Lakes as America's fourth sea coast in 1970.

The Great Lakes region, and international markets, recognized the system's potential, as evidenced by the sharp rise in vessel and cargo traffic through the Seaway immediately after its opening in 1959. Unfortunately, that potential was never fulfilled. The upward trend in cargo traffic peaked around 1977-79. It then went into a long decline precipitated in part by a nationwide economic recession that hit the manufacturing sector particularly hard, and prolonged in part because of capacity constraints imposed by the Seaway.

Locks on the Seaway and the Great Lakes were built as long ago as 1895. New locks constructed for the Seaway between the mid- and late-1950s, as authorized by Congress in 1954, were built to the same size as those completed in 1932. Locks and connecting channels were limited to 27 feet of draft. Because vessel size had grown over time, Seaway facilities were too small on its opening day to serve the commercial fleet then in existence. Today, they are capable of accommodating no more than 30% of the world's commercial fleet. An undersized Seaway that denies large, specialized, and efficient vessels access to the system will prevent U.S. products, especially those from the Great Lakes region, from competing effectively in the global economy.

In addition to declining traffic, inadequate investment in Seaway infrastructure caused the mix of cargoes shipped through the system to be transformed from one that was diverse to one composed largely of low-value commodities. Although the trend of cargo tonnage through the system turned up once again in 1993, current cargo mix consists of essentially steel coming to the Great Lakes region from abroad, grains going overseas, and iron ore and coal moving from one port to another within the region. Since the last 1980's industrial manufacturing in the United States has recovered through investment in technology and corporate restructuring. Industrial production is flourishing once more in the Great Lakes region; Midwest economies are booming. Yet, only a small volume of high-value finished goods is shipped through the system. The Great Lakes region, therefore, is unable to fully participate in this resurgence of economic strength due to limitations in the Seaway's capacity.

For more than 2 years, I have been working closely with interested parties in the Great Lakes maritime transportation community and the infrastructure investment finance sector in the United States and Canada to develop a proposal to allow the Seaway to reach its full potential, to guarantee the future viability of the Seaway, and to continue the economic development of the Great Lakes region.

The bill I am introducing today, the Binational Great Lakes-Seaway Enhancement Act of 1999, developed in concert with the Honorable Joe Comuzzi, a dear friend of mine and a member of the Canadian Parliament whose
