

Moscow, there has been a twelfold increase of reported cases in comparison to last year. Maternal deaths attributed to AIDS has left 8.2 million orphans across the world. 8.2 million orphans!

If people are truly interested in helping children in the developing world, they would support international voluntary family planning. Because there is no vaccine for HIV/AIDS, the only way to try to slow the spread of HIV/AIDS is through education and the distribution of contraceptives, and these services are part of family planning programs.

Providing extensive child health programs without providing reproductive health services would be like building a house without the foundation. If children in the developing world never reach the point of being able to benefit from child health programs, these programs are useless.

This amendment is basically a compromise. Send this amendment to conference. Let the conferees decide whether this amendment will lead to adoption of the conference report on this bill. I have confidence they will be where the American people are—overwhelmingly in support of family planning services for all women.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Pennsylvania (Mr. GREENWOOD).

The question was taken; and the Chairman announced that the noes appeared to have it.

Mr. GREENWOOD. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.
