

foundations, and nongovernmental organizations. Furthermore, all of the federal money appropriated to the Foundation supports on-the-ground conservation—its operating funds come strictly from private donations. The Foundation does not use federal funds for lobbying; nor does it support projects that entail political advocacy or litigation.

In my home state of Maine, the Foundation has invested over \$3.4 million in federal funds in 109 projects, generating an additional \$6.9 million in matching funds from private, corporate, and other state sources. Most notably, the Foundation has funded projects in Maine to help fishermen cope with the collapse of traditional groundfish fisheries, build a program to preserve Maine's native Atlantic salmon, and protect habitat for breeding Neotropical migratory birds.

Mr. President, I strongly support this bill to reauthorize the National Fish and Wildlife Foundation. Year after year, the Foundation consistently performs valuable conservation work, not only in my state, but throughout the country. Its ability to triple the power of federal funding for conservation is unique, making it one of the most effective means we have for preserving our natural resources. I urge my colleagues to join me in supporting expeditious passage of this important measure.
