

Mrs. Frank and her family moved to Yukon, OK, in 1935 where they weathered the Great Depression and watched as many fellow Oklahomans left the state, making the journey to the picking fields of California. Mrs. Frank, her husband and four children, however, stayed on in Yukon where she resides today.

Mrs. Frank has witnessed a century of our nation's history. Classroom and library textbooks can only provide so much historical detail for present and future generations. It is the oral history—the personal stories experienced and told by those who come before us—that truly makes our nation's history come to life. I thank Mrs. Frank for continuing to share her stories with us, and I extend my sincerest birthday wishes to her today on her 100th birthday. I hope that the years to come only add to an already impressive treasure chest of experiences and stories. Happy Birthday.

AMERICAN INDIAN EDUCATION  
FOUNDATION

**HON. DALE E. KILDEE**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 14, 1999*

Mr. KILDEE. Mr. Speaker, as Co-chairman of the House Congressional Native American Caucus, it is an honor for me to introduce a bill creating an American Indian Education Foundation. I especially want to thank the original cosponsors of this bill; they include: Representatives PATRICK KENNEDY, GEORGE MILLER, TOM UDALL, J.D. HAYWORTH, EARL POMEROY and JIM KOLBE.

As a senior member of the House Education and the Workforce Committee, I have enjoyed the opportunity of developing proposals designed to support Indian education. Up for reauthorization this Congress is the Elementary and Secondary Education Assistance Act that includes a section devoted to Indian education. This act supports the educational, cultural and academic needs of American Indian, Alaska Native and Native Hawaiian children.

It is estimated that the BIA educates approximately 12 percent of the Native American K–12 population. This means that 88 percent of our American Indian and Alaska Native youth rely on supplemental educational programs like Johnson O'Malley. This program provides services to more than 200,000 Indian students. However, these programs are drastically underfunded.

A critical need for an increase in funding for school construction exists in Indian country. When I came to Congress 23 years ago, I was appointed chairman of the Indian Education Task Force. I will never forget visiting schools that were in such poor condition that the children of these schools could barely keep warm let alone have a chance at getting a decent education. I know that the judges in my hometown in Michigan shutdown prisons that were in better condition than many schools I visited.

Our Native American students deserve a decent education. It is our responsibility to ensure that our children are studying in environments conducive to learning. I support the creation of an American Indian Education Foundation because I believe Congress must find a new way to supplement current funding for BIA Indian education programs. The Foundation would encourage gifts of real and per-

sonal property and income for support of the education goals of the BIA's Office of Indian Education Programs and to further the educational opportunities of American Indian and Alaska Native students.

The governing body of the Foundation would consist of nine board of directors who are appointed by the Secretary of Interior for an initial period. The secretary of Interior and the Assistant Secretary of Interior for Indian Affairs would serve as ex officio nonvoting members.

Members of the board have to be "knowledgeable or experienced in American Indian education and . . . represent diverse points of view relating to the education of American Indians." Election, terms of office, and duties of members would be provided in the constitution and bylaws of the Foundation. Administering the funds would be the responsibility of the Foundation.

This bill would allow the Secretary of Interior to transfer certain funds to the Foundation. It is my understanding that the initial funding for the Foundation would come from existing donations or bequests made to the BIA. Funds prohibited by the terms of the donations would not be used for the Foundation.

The Foundation is not a new idea to Congress. Congress has, from time to time, created federally chartered corporations. In 1967, Congress established the National Park Foundation. The purpose of the Foundation is to raise funds for the benefit of the National Park Service. Funds received from individuals, corporations, and foundations are distributed to individual parks through competitive grants. My bill is modeled after the 1967 Act.

I believe that an American Indian Education Foundation could be just as successful as the National Park Foundation. I want to emphasize that I believe that Congress has a Federal trust responsibility to ensure that every Native American receives a decent education. This Foundation would not replace that responsibility, but would supplement it through grants designed to support educational, cultural and academic programs.

Mr. Speaker, this concludes my remarks on creating an American Indian Education Foundation.

THE AMERICAN INDIAN  
EDUCATION FOUNDATION ACT

**HON. PATRICK J. KENNEDY**

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 14, 1999*

Mr. KENNEDY of Rhode Island. Mr. Speaker, it is an honor to be able to join my friend and cofounder of the Native American Caucus, Congressman DALE KILDEE, for the introduction of this legislation.

Over the past several years it seems to me that Indian Country has continually been on the defensive. Often tribes have had to struggle to simply keep the status quo against legislative proposals that would serve to undermine Tribal sovereignty and weaken the trust relationship.

Today can be different. Today we have a chance to do something positive for Indian Country. Right now we can begin a process where the hallmarks of treaty and trust are celebrated. We can offer Indian Country a dis-

tingent opportunity to improve the quality of life for future generations of Native children.

As I am sure the committee is well aware, the state of education in Indian Country is far below that of non-Native communities.

The per pupil expenditure for public elementary and secondary schools during the 1994–95 school year was over \$7,000. The Indian Student Equalization Program funding for BIA students was about \$2,900.

Unlike public schools which have State and local resources for education programs, Indian schools in the BIA are totally reliant upon the Federal Government to meet their educational needs.

According to the 1990 Census, the American Indian poverty rate is more than twice the national average as 31 percent of American Indians live below the poverty level.

The 1994 National Assessment of Education Progress showed that over 50 percent of American Indian 4th graders scored below the basic level in reading proficiency. Another NAEP assessment showed that 55 percent of 4th grade American Indian students scored below the basic level in mathematics.

American Indian students have the highest dropout rate of any racial or ethnic group (36 percent), and the lowest high school completion and college attendance rates of any minority group. As of 1900, only 66 percent of American Natives aged 25 years or older were high school graduates, compared to 78 percent of the general population.

Approximately one-half of BIA/tribal schools (54 percent) and public schools with high Indian student enrollment (55 percent) offer college preparatory programs, compared to 76 percent of public schools with few (less than 25 percent) Indian students.

Sixty-one percent of students in public schools with Indian enrollment of 25 percent or more are eligible for free or reduced-price lunch, compared to the national average of 35 percent.

And finally, many of the 185 BIA-funded schools are in desperate need of replacement or repair.

Members of the Committee, it is clear from these statistics that there is a pressing need in elementary and secondary Indian education. My colleagues, this is a situation which must be met with fierce determination. We need to support an aggressive agenda for Indian education because the current landscape is not meeting the challenge.

Right now, the BIA and Office of Indian Education is not authorized to distribute privately donated monetary gifts or resources to supplement the missions of these agencies. Yet every year numerous inquiries from the public are made as to where they can donate funds that will be spent wisely on behalf of Indian education. Simply put, we are missing out on a unique opportunity to help funnel non-governmental resources into Indian education. Ultimately, I believe this legislation is the appropriate answer to this situation. We can give the public a high profile mechanism to reach out to Indian Nations in a way that is apolitical and noncontroversial.

Simply put, the establishment of an American Indian Education Foundation is good government. It speaks to a modern way of doing things in which successful private-public partnerships are created. It is also an efficient way to get at the heart of a very pressing problem without placing an undue additional burden on taxpayers.
