

IMF practice that has cost the U.S. \$2.7 billion to date. Although many issues involving the IMF are controversial, the IMF's full and fair payment of interest on all U.S. reserves provided is one area in which wide agreement should be possible. The current IMF practice of shortchanging the U.S. simply is not defensible.

A SPECIAL TRIBUTE TO THE OAK HARBOR HOTEL ON THE OCCASION OF ITS ONE-HUNDREDTH ANNIVERSARY CELEBRATION

HON. PAUL E. GILLMOR

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 21, 1999

Mr. GILLMOR. Mr. Speaker, it is my distinct honor and privilege to rise today to pay tribute to a special event taking place this weekend in Ohio's Fifth Congressional District. Beginning today and continuing through Sunday, October 24, 1999, the Oak Harbor Hotel will celebrate its One-Hundredth Anniversary.

In the final year of the Nineteenth Century, the Keubler Brewing Company of Sandusky decided to take an enormous step and build a hotel in Oak Harbor, Ohio. With a new railway line linking Toledo to points in the east, the hotel would be used to serve the many who came through Oak Harbor in search of a restful night's lodging. The three-story hotel, complete with its thirty-four rooms, lounges, and dining rooms, has served many travelers in the last one-hundred years. Its very presence in Oak Harbor and its grandiose appearance make it a truly remarkable building.

For the past century, the Oak Harbor Hotel has long been a centerpiece of this wonderful community. Located on the shores of Lake Erie, the Oak Harbor Hotel continues to fill its rooms to capacity with travelers throughout the year. Its history is long and its décor is breathtaking. Through all its changes—from operating the first telephone in town to housing the area Post Office—this elegant and vibrant hotel has remained strong in its service and dedicated to those who occupied its rooms.

Mr. Speaker, the Oak Harbor Hotel symbolizes all that is good in our communities—grace, elegance, and beauty. Over the last one-hundred years, the Oak Harbor Hotel has hosted many community groups, organizations, and clubs. In fact, the Rotary Club has met there nearly continuously since 1941. With its spacious and stylish dining, reception rooms, and state-of-the-art kitchen, the Oak Harbor Hotel is often the site of wedding rehearsals and receptions, banquets, and community events.

Mr. Speaker, the individuality of our culture and the warmth of our spirit are embodied in our communities and places like the Oak Harbor Hotel. I would urge my colleagues to stand and join me in paying special tribute to the Oak Harbor Hotel on its One-Hundredth Anniversary.

CONFERENCE REPORT ON H.R. 2670, DEPARTMENTS OF COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES APPROPRIATIONS ACT, 2000

SPEECH OF

HON. ROBERT A. UNDERWOOD

OF GUAM

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 20, 1999

Mr. UNDERWOOD. Mr. Speaker, I rise in opposition to the Conference Report of H.R. 2670, the Commerce, Justice, State appropriations bill for FY 2000. This legislation fails to provide for adequate funding for many issues important to the safety of our communities and our families. Programs such as the President's Community Oriented Policing initiative requires full funding to put more officers in our neighborhoods and on our streets to safeguard our children. I am also disappointed that Conference did not include legislation that would have expanded the definition of hate crimes to include acts committed against a person based on sexual orientation, gender or disability. Furthermore, I oppose this Conference Report because it also does not include any federal reimbursement to the Territory of Guam for taking on the federal responsibility to detain illegal aliens seeking asylum in the United States. In this first half of this year alone, Guam has spent more than \$8 million in behalf of the Immigration and Naturalization Service for housing illegal aliens attempting to enter the U.S. through Guam. From this month until the end of the year, an additional \$5 million will be spent.

In recent years, Guam has been subject to illegal immigration from Asian countries, particularly from the People's Republic of China, partly because of the Asian economic crisis. In just the first four months of 1999, Guam was the recipient of more than 700 Chinese illegal aliens seeking political asylum in the United States. Never before had Guam experienced such a surge of illegal immigration from Asia. This surge depleted INS financial resources on Guam and forced the Government of Guam to incur detention costs to our local correctional facility, which is already overcrowded, at a cost of nearly \$45,000 per day for more than 430 current alien detainees.

Since the start of the year, I along with Governor of Guam Carl Gutierrez, have been working with the Clinton Administration to address the surge of illegal immigration from China. With their cooperation and also with the collaboration of the U.S. Coast Guard and the Commonwealth of the Northern Mariana Islands, illegal immigration—for now—has slowed. However, there remains more than 430 alien detainees that are housed in Guam's correctional facility awaiting for the INS asylum process to run its course.

Illegal immigration into the United States is a federal responsibility. Because of Guam's proximity to Asia, it is incumbent that federal agencies assist the Government of Guam in combating this serious problem on our shores. Guam's size of only 212 square miles and a population of 150,000 does not lend itself to unexpected and significant increases in the immigrant population. Any increases translate into serious social and financial repercussions because our resources have been strained by the Asian economic crisis and we do not have

alternative resources available for non-criminal immigrants that are available on the U.S. mainland to supplement federal resources.

I believe that special budget requests from U.S. Territories in Congress are perhaps the greatest challenges territorial delegates face during our terms in office. Our needs and our states are often misunderstood because our distances from the mainland U.S. are great. Apart from federal programs that both states and territories can participate, any other requests outside of the norm can be a frustrating ordeal. We are vulnerable to federal interagency differences about how to treat the territories as well as having little leverage during the appropriations process.

I am appreciative for the collaboration and support of the President for including reimbursement for Guam as part of his Administration's priorities during the appropriations process. I remain confident that the President is committed to reimbursing Guam for shouldering the costs of the federal government's responsibility and I remain committed to working with my colleagues to ensure that Guam is reimbursed for all past, present and future costs related to the detention of illegal aliens on Guam.

CORAL REEF CONSERVATION

HON. ENI F.H. FALEOMAVAEGA

OF AMERICAN SAMOA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 21, 1999

Mr. FALEOMAVAEGA. Mr. Speaker, I rise today to introduce legislation to authorize the Secretary of Commerce, through the National Oceanic and Atmospheric Administration, to provide financial assistance for coral reef conservation projects, and for other purposes.

Coral reef ecosystems are the marine equivalent of tropical rain forests, containing some of the planet's richest biological diversity and supporting thousands of species of fish, invertebrates, algae, plankton, sea grasses and other organisms. The reef itself is composed of the massed calcareous skeletons of millions of sedentary, living animals (the corals). Coral reef communities are both exceptionally productive and diverse. Although coral reefs cover less than 1 percent of the Earth's surface, fully one-fourth of all ocean species live in or around the reefs of the world, including 65 percent of marine fish species. Southeast Asian reefs alone support an estimated 5 to 15 times the number of fish found in the North Atlantic Ocean. Reefs surrounding the Pacific island of Palau contain 9 species of sea-grass, more than 300 species of coral and 2,000 varieties of fish.

Coral reefs have great commercial, recreational, cultural and esthetic value to human communities. They supply shoreline protection, areas of natural beauty, and sources of food, pharmaceuticals, jobs and revenues through activities such as education, research, tourism and fishing. Coral reef ecosystems provide the main source of animal protein for more than 1 billion people in Asia.

Studies indicate that coral reefs in the United States and around the world are being degraded and severely threatened by human and environmental impacts. Land-based pollution, over-fishing, destructive fishing practices, vessel groundings, and climate change all affect coral reef ecosystems. Of particular concern is the effect of multiple impacts on coral
